

High Efficiency Toilet Rebate Program and Application

Offer available July 1, 2019 thru June 30, 2020 and subject to fund availability

City of Modesto water customers in single and multi-family homes may be eligible for a rebate when they replace their old toilet with a high efficiency toilet. The rebate amount may not exceed \$150 per City of Modesto water account. Funding is limited and applications will be accepted on a first come, first served basis. The City reserves the right to terminate this program at any time and for any reason.

Replacing a high water use toilet with a new HET of 1.28 gallon per flush (gpf) can save about 38 gallons of water each day. An HET uses 20% less water per flush than ULFT models. Efficiency measures such as replacing water guzzling toilets with the latest in low-flush toilet technology helps ensure the future water supply is adequate and helps maintain low water rates.
