# ACTIVITYMAP

The projects depicted on this map were chosen based on their valuation or notability. The projects are displayed in no particular order and are presented only to give a general idea of development activity in the City of Modesto over the past quarter.

# BUSINESSACTIVITY

The State of California designated Modesto as part of the newest Enterprise Zone (EZ). Effective November 16, 2005, the 15-year state program seeks to encourage business investment and job creation through tax incentives for new and existing businesses.

The Stanislaus Enterprise Zone, otherwise known as Zone 40, incorporates 67,000 acres from parts of Modesto, Turlock, Ceres and the County, and has over 4,200 businesses located within its boundaries. It now joins 39 other existing zones in California, and will offer the following incentives to businesses:

- Tax credits for each qualified employee hired (up to \$31,570 over 5 years);
- Sales tax credits on qualified machinery and parts purchases (First \$1 million of qualifying purchases for individuals, and the first \$20 million of purchases for corporations is eligible per year);
- Up-front expensing of certain depreciable property (depreciate up to 40% of each new asset in the first year);
- Preference points on state contracts;
- Lenders can receive net interest deductions for lending to EZ businesses;
- Up to 100% Net Operating Loss (NOL) carry-forward.

These incentives are in addition to those already offered by the City of Modesto, including:

- Local Incentive Zone: rebates the Water Main Connection Charge, and building inspection and plan checking fees based on qualifying conditions within the City.
- CFF Deferral: New industrial and commercial projects within the City limits can defer CFF fees for up to 10 years based on qualifying conditions.
