MEMORANDUM

January 26, 2010

Please be advised of an upcoming West GA Complex and Runway 10R Approach project that may impact your operation.

The following \$1.07 million dollar construction and development project is proposed:

- 1) Crack repair, slurry seal and re-paint mark a major portion of the West GA ramp
 - a. Will involve removal and reinstallation of tie-down cables
 - b. Slurry seal will require a period of time to dry (24 to 48+ hours)
- 2) Construction of new access taxiway at threshold of Runway 10R (new edge lights and directional signage) (FAA Runway Incursion Safety Initiative)
- 3) Closure of Taxiway Bravo 'dog-leg' at approach end of Runway 10R (remove edge lights) (FAA Runway Incursion Safety Initiative)
- 4) Upgrade of airfield wind cones (new energy efficient LED design)

Construction work is expected to take place mid-January through mid-May, 2010. Please see the attached map showing the work to be performed.

We will work with the contractor to minimize impact to aviation businesses, fueling operations and hangar tenants. Please help us by sharing notice of this project to all airport users.

Thank you, in advance, for your patience and understanding during this project. Please contact the Airport Manager's office with any questions, 209-577-5319.
