No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-11.B of the MEIR discloses impacts of the Urban Area General Plan on parks and open space. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

11. INCREASED DEMAND FOR PARKS AND OPEN SPACE	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with the parks and open space policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would eliminate parks or open space.	☐	☐	☐	☒
3) The proposed project would cause an increase in the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility in question would occur or be accelerated or the proposed project would include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on parks and open space policies.

(2) The project will have no effect on parks and open space.

(3) The project will have no effect on parks and recreation facilities.

12. INCREASED DEMAND FOR SCHOOLS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on school facilities expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR. By statute, the impact of new students is considered to be mitigated below a level of significance by payment of school impact fees and the exercise of any or all of the financing options set out in Government Code Section 65997.

Cumulative Impacts

Effect: Similar to direct impacts of implementation of the Urban Area General Plan, no residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. As long these policies are applied to all subsequent projects, no new mitigation is necessary. Further, payment of school impact fees and compliance with SB 50 is statutorily deemed to be full mitigation of school impacts (Government Code Section 65995).

The following schools mitigation measures on pages V-12-5 through V-12-7 of the Master EIR are pertinent to the proposed project. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures are listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-12.B of the Master EIR discloses impacts resulting from implementation of the Urban Area General Plan associated with increased demand for schools. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

12. INCREASED DEMAND FOR SCHOOLS	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with the policies relating to schools in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project does not comply with SB 50/Proposition 1A funding provisions, or succeeding measures which state that compliance results in less-than-significant impacts on schools.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on school policies.

(2) The project will have no effect on SB 50/Proposition 1A funding provisions.

13. INCREASED DEMAND FOR POLICE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on police services expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Police services mitigation measures pertinent to the proposed project are found on pages V-13-2 through V-13-5 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-13.B of the Master EIR discloses impacts on police services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

13. INCREASED DEMAND FOR POLICE SERVICES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with policies relating to police services in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect to police policies.

(2) The project will not result in the need for more police facilities.

14. INCREASED DEMAND FOR FIRE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on fire services expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Fire Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-14-4 through V-14-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-14.B of the Master EIR discloses impacts on fire services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

14. INCREASED DEMAND FOR FIRE SERVICES	**Potentially Significant Impact**	**Less Than Significant with Mitigation Incorporated**	**Less Than Significant Impact**	**No Impact**
1) The proposed project is inconsistent with the fire service policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	☐	☐	☐	☒
3) The proposed project, based upon substantial evidence, would cause the erosion or elimination of fire protection services in adjoining fire protection districts.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on fire service policies.

(2) The project will not result in the need for more fire service facilities.

(3) The project will have no effect on fire protection services in adjoining fire protection districts.

15. GENERATION OF SOLID WASTE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on solid waste expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Solid waste mitigation measures pertinent to the proposed project are found on pages V-15-4 through V-15-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.
Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-15.B of the Master EIR discloses solid waste impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

15. GENERATION OF SOLID WASTE	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The project is inconsistent with the solid waste policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The County is unable to expand its solid waste disposal capacity, as expected, causing all new development to result in cumulative impacts on the County's disposal capacity.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on solid waste policies.

(2) The project will have no effect on the County solid waste facility.

16. GENERATION OF HAZARDOUS MATERIALS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts regarding hazardous materials expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Hazardous materials mitigation measures pertinent to the proposed project are found on pages V-16-8 through V-16-13 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-16.B of the Master EIR discloses impacts on hazardous materials resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

16. GENERATION OF HAZARDOUS MATERIALS	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The project is inconsistent with the hazardous materials policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.	☐	☐	☐	☒
3) The proposed project would be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would create a significant hazard to the public or the environment.	☐	☐	☐	☒
4) The proposed project would be constructed on a contaminated site not known to the State of California as of March 2008.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on hazardous materials policies

(2) The project will not result in emitting hazardous emissions or handling hazardous materials.

(3) The project will not result in locating projects on hazardous materials sites.

(4) The project will not result in locating projects on contaminated sites.

17. GEOLOGY, SOILS, AND MINERAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts related to geology, soils, and mineral resources expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Geology, soils, and mineral resource mitigation measures pertinent to the proposed project are found on pages V-17-9 and V-17-10 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of the proposed project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-17.B of the Master EIR discloses geology, soils, and mineral resource impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

17. GEOLOGY, SOILS, AND MINERAL RESOURCES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The project is inconsistent with policies relating to geology, soils, and mineral resources contained in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would expose people or structures to potential substantial adverse effects including the risk off loss, injury, or death involving fault rupture, strong seismic activity; location on an expansive soil; result in the loss of topsoil; location on soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems in areas where sewers are not available for the disposal of wastewater; result in the loss of known mineral resources that would be of value to	☐	☐	☐	☒

17. GEOLOGY, SOILS, AND MINERAL RESOURCES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
the region and the state; or result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan.				

Discussion:

(1) The proposed project will have no effect on geology, soils, and mineral resources policies.

(2) The project will not result in exposing people or structure to seismic activities, location on expansive soils, or loss of mineral resources.

18. ENERGY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to energy expected after application of mitigations / policies:

Direct Impacts

Effect: Continued development in the Planned Urbanizing Area would have an impact on available energy supplies. Energy consumption likely would increase substantially by 2025 as a result of implementation of the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on energy consumption.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following energy mitigation measures pertinent to the proposed project are found on pages V-18-2 through V-18-8 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

18. ENERGY	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with policies relating to energy in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in energy consumption during construction, operation, maintenance, or removal that is more wasteful, inefficient, and unnecessary than assumed in the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on energy policies.

(2) The project will not result in wasteful energy consumption during future construction activities.

19. EFFECTS ON VISUAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on visual resources expected after application of mitigations / policies:

Direct Impacts

Effect: New development in the Planned Urbanizing Area will occur in areas that are in agricultural production or are otherwise lightly developed, which could lead to the introduction of light and glare in areas that have little nighttime illumination.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following visual resources mitigation measures pertinent to the proposed project are found on pages V-19-3 and V-19-4 in the Master EIR. All mitigation measures appropriate to the proposed project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

19. EFFECTS ON VISUAL RESOURCES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with policies relating to visual resources in the Urban Area General Plan.	☐	☐	☒	☐
2) The proposed project would degrade views from riverside areas and parks to a greater degree than assumed in the Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project would degrade views of riverside areas from public roadways and nearby properties to a greater degree than assumed in the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1) The proposed zoning code amendment to allow digital freeway billboards would include standards that address visual resources policies. The allowed size and height would be consistent with other existing billboards along freeways. There is a provision to remove existing nonconforming billboards in exchange for a new digital billboard in the effort to reduce sign clutter. New digital freeway billboards must be located within 660 feet of the freeway and shall not be located on any parcel with a residential zone and residential use. The sign structure and support pole must be streamlined so as not to call extra attention. The sign shall not result in substantial reduction in existing landscaping. The digital freeway billboard shall display static messages only and shall meet specified brightness levels. A conditional use permit is required for any digital freeway billboard. The proposed code amendment will not affect scenic vistas, scenic resources, or light and glare. The visual impacts will be less than significant.

(2) The project will have no effect on views from riverside areas and parks.

(3) The project will have no effect on views of riverside areas from public roadways and nearby properties.

20. LAND USE AND PLANNING

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to land use and planning expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following land use and planning mitigation measures pertinent to the proposed project are found on pages V-20-6 through V-20-17 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-20.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on land use and planning. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

20. LAND USE AND PLANNING	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with land use and planning policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project contains elements that would physically divide an established community in a way not assumed in the Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project conflicts with a land use plan, policy or regulation established for the purpose of avoiding or mitigating an environmental impact by an agency that has jurisdiction over the proposed project.	☐	☐	☐	☒
4) The proposed project conflicts with an applicable habitat conservation plan or natural community conservation plan.	☐	☐	☐	☒

Discussion:

(1) The proposed project will be consistent land use and planning policies.

(2) The project will not result in the physical division of an established community.

(3) The project will have no effect on a land use plan, policy or regulation established for the purpose of avoiding or mitigating an environmental impact.

(4) The project will have no effect on applicable habitat conservation plan or natural community conservation plan.

21. CLIMATE CHANGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to climate change expected after application of mitigations / policies:

Direct Impacts

Effect: Impacts resulting from implementation of the Urban Area General Plan are not substantial enough to result in a significant direct impact on climate change, as disclosed in the Master EIR.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on climate change.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following climate change mitigation measures pertinent to the proposed project are found on pages V-21-7 through V-21-10 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on climate change. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

21. CLIMATE CHANGE	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with policies relating to climate change in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in average automobile trip lengths or CO_2 emissions higher than those assumed in the Master EIR.	☐	☐	☐	☒
3) The proposed project would conflict with the Sustainable Communities Strategy or Alternative Planning Strategy that the Air Resources Board has agreed will achieve the goals of AB 32.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on climate change policies

(2) The project will have no effect on automobile trip lengths or CO2 emissions.

(3) The project will have no effect on the Sustainable Communities Strategy or Alternative Planning Strategy.

V. MITIGATION MEASURES APPLIED TO THE PROPOSED PROJECT

If the Initial Study results in the determination that a Finding of Conformance can be adopted for the proposed project Section A below applies. If the Initial Study results in the determination that a Finding of Conformance cannot be adopted and a Mitigated Negative Declaration/EIR must be prepared for the project then Section B, below applies.

A. Master EIR Mitigation Measures Applied to the Project

Pursuant to Public Resources Code Section 21157.1(c), in order for a Finding of Conformance to be made, all appropriate mitigation measures from the Master EIR shall be incorporated into the proposed project. Urban Area General Plan Policies/Master EIR mitigation measures shall be made part of the proposed project prior to approval by means of conditions of project approval or incorporation into the appropriate document or plan.

No mitigation measures from the Master EIR are applicable and appropriate to the proposed project for a code amendment to allow digital freeway billboards. No physical project is included in this project. When a digital billboard is proposed, the required conditional use permit application process will include consideration of applicable mitigation measures.

B. New or Additional Mitigation Measures or Alternatives Required

Where the project's effects would exceed the significance criteria for each environmental impact category, a mitigated negative declaration or Focused EIR must be prepared. Staff has reviewed the project against the significance criteria thresholds established in the Master EIR for all impact categories in this Initial Study.

No additional project-specific mitigation measures are necessary for this project. A Mitigated Negative Declaration or Focused EIR is not needed.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-144

Print

RESOLUTION FINDING THAT THE FOLLOWING SUBSEQUENT PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (STATE CLEARINGHOUSE NO. 2007072023): AMENDMENT TO SECTION 22-3-9 OF THE ZONING MAP OF THE CITY OF MODESTO TO REZONE FROM LOW DENSITY RESIDENTIAL (R-1) ZONE TO PROFESSIONAL OFFICE (P-O) ZONE, PROPERTY LOCATED AT 1237 OAKDALE ROAD, SOUTH OF EAST ORANGEBURG AVENUE

WHEREAS, on October 14, 2008, the City Council of the City of Modesto certified the Final Master Environmental Impact Report ("Master EIR") (SCH No. 2007072023) for the Modesto Urban Area General Plan, and

WHEREAS, Dr. Tong Sun has proposed a rezone of property located at 1237 Oakdale Road from Low Density Residential (R-1) Zone to Professional Office (P-O) Zone, and

WHEREAS, pursuant to Section 21157.1 of the Public Resources Code, the City of Modesto's Community & Economic Development Department prepared an Environmental Assessment Initial Study EA/C&ED 2017-05 ("Initial Study") which analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report, and

WHEREAS, in accordance with CEQA guidelines beginning on March 14, 2017, the City caused to be published a 20-day notice of the City's intent to make a finding that the subsequent project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on April 11, 2017, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed rezone, a copy of which is **attached** hereto as **Exhibit "A",** and incorporated herein by reference, and based on substantial evidence in the Initial Study makes the following findings:

1. An Initial Study was prepared by the City of Modesto that analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report.

2. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code that was not identified in the Master EIR.

3. No new or additional mitigation measures or alternatives are required.

4. The subsequent project is within the scope of the project covered by the Master EIR.

5. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

6. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of approval or determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of April, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold
NOES:	Councilmembers:	None
ABSENT:	Councilmembers:	None

Updated: September 2013

(Intentional Blank Page)

City of Modesto
Master EIR Initial Study Environmental Checklist

I. PURPOSE

CEQA allows for the limited environmental review of subsequent projects under the City's Master Environmental Impact Report ("Master EIR" or "MEIR"). This Initial Study Environmental Checklist ("Initial Study") is used in determining whether the Rezone and Development Plan Review for 1237 Oakdale Road ("Project") is "within the scope" of the project analyzed in the Modesto Urban Area General Plan Master EIR (SCH# 2007072023) (Public Resources Code section 21157.1). When the Initial Study supports this conclusion, the City will issue a finding of conformance.

A subsequent project is "within the scope" of the Master EIR when:

1. it will have no additional significant effects on the environment that were not addressed as significant effects in the Master EIR; and

2. no new or additional mitigation measures or alternatives are required.

"Additional significant effects" means a project-specific effect that was not addressed as a significant effect in the Master EIR. [Public Resources Code Section 21158(d)]

The determination must be based on substantial evidence in the record. "Substantial evidence" means facts, reasonable assumptions predicated upon facts, or expert opinion based on facts. It does not include speculation or unsubstantiated opinion. (CEQA Guidelines Section 15384)

II. PROJECT DESCRIPTION

A. Title:
RZN-16-003—Rezone of 1.20 acres from Low Density Residential (R-1) Zone to Professional Office (P-O) Zone
DPR-16-012—Remodel of and addition to a Medical Office Building on 1.20 acres

B. Address or Location: 1237 Oakdale Road, Modesto CA 95355

C. Applicant: Dr. Tong Sun; 2712 Vestrella Drive, Modesto CA 95356

D. City Contact Person: Jonnie Lan, AICP, Associate Planner

Project Manager: Jonnie Lan
Department: Community and Economic Development Department, Planning Division
Phone Number: 209-577-5267
E-mail address: jlan@modestogov.com

E. Current General Plan Designation(s): Mixed Use (MU)

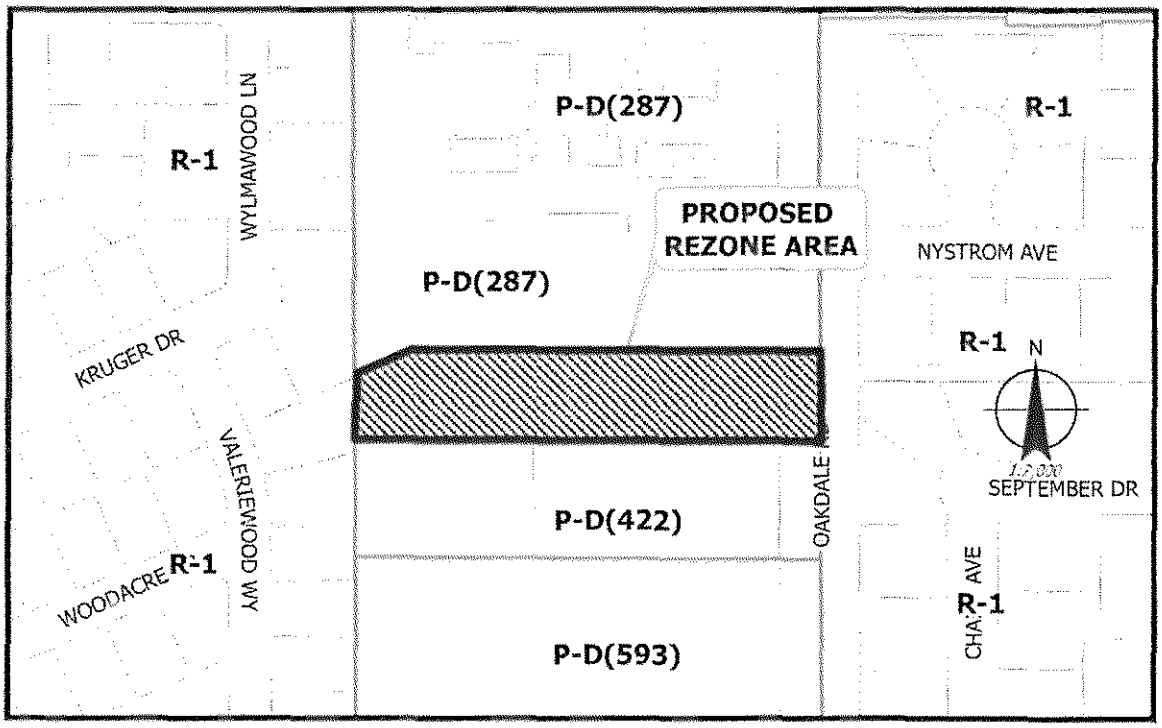
F. Current Zoning Classification(s): Low Density Residential (R-1) Zone

G. Surrounding Land Uses:

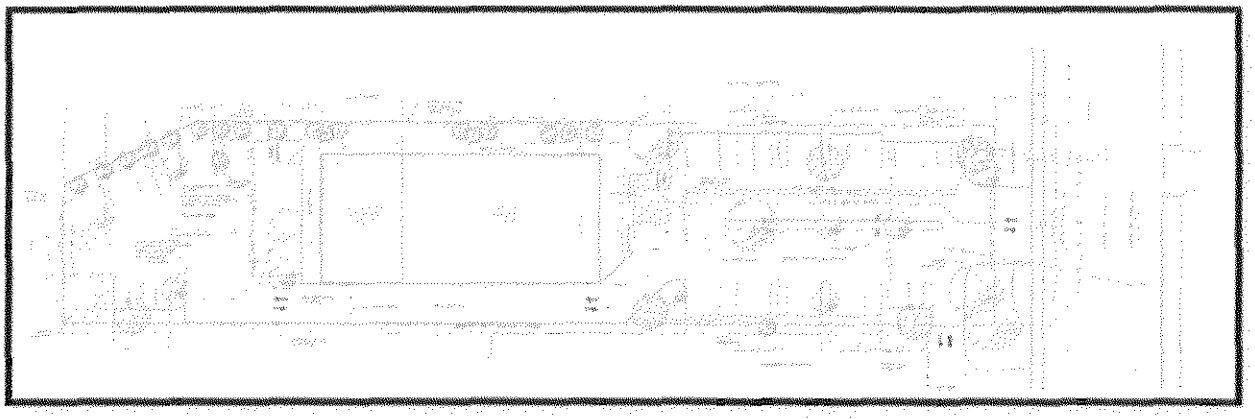
North: Planned Development Zone P-D (287), High Density Residential (R-3) Condominiums
South: Planned Development Zone P-D (422), Restaurant and Vacant Lot Approved for a Recreational Vehicle Storage Area
East: Low Density Residential (R-1) Zone, single-family residences
West: Low Density Residential (R-1) Zone, single-family residences

H. Project Description, including the project type listed in Section II.C (Anticipated Future Projects) of the Master EIR (Attach additional maps/support materials as needed for complete record):

Project proposes the rezone of 1.20 acres of vacant land from Low Density Residential (R-1) Zone to Professional Office (P-O) Zone to facilitate the development a 10,472 square foot medical office building and its supporting parking. Rezone of the site to be by City Council Ordinance. Development of the site to be by administrative Development Plan Review (DPr-16-012) to ensure compliance with applicable City Zoning Codes and Standards, with a determination by the Director of Community and Economic Development or designee, and is contingent on the proposed rezoning.



PROPOSED REZONE AND DEVELOPMENT AREA



PROPOSED DEVELOPMENT SITE PLAN

I. Other Public Agencies Whose Approval is Required: None.

III. FINDINGS/DETERMINATION (SELECT ONE ON THE BASIS OF THE ANALYSIS IN SECTION IV)

1. _X_ Within the Scope - The project is within the scope of the Master EIR and no new environmental document or Public Resources Code Section 21081 findings are required. All of the following statements are found to be true:

A. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.

B. No new or additional mitigation measures or alternatives are required.

C. The subsequent project is within the scope of the project covered by the Master EIR.

D. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

E. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

2. ___ Mitigated Negative Declaration Required - On the basis of the above determinations, the project is not within the scope of the Master EIR. A mitigated negative declaration will be prepared for the project. The following statements are all found to be true:

A. The subsequent project is within the scope of the project covered by the Master EIR.

B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

C. The project will have one or more potential new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures are being required of the project that will reduce the effects to a less-than-significant level.

D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

3.____ Focused EIR Required- On the basis of the above determinations, the project is not within the scope of the Master EIR. A Focused EIR will be prepared for the project. All of the following statements are found to be true:

A. The subsequent project is within the scope of the project covered by the Master EIR.

B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

C. The project will have one or more new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures or alternatives are required as a result.

D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

_____	_____	_____
Project Manager	Title	Date

4. Within the Scope Analysis of this Document:

The Master EIR allows projects to be found within the scope of the MEIR if certain criteria are met. If the following statements are found to be true for all 21 impact categories included in this Initial Study, then the proposed project is addressed by the MEIR analysis and is within the scope of the MEIR. Any "No" response must be discussed.

		YES	NO
(1)	The lead agency for subsequent projects shall be the City of Modesto or a responsible agency identified in the Master EIR.	☒	☐
(2)	City policies which reduce, avoid, or mitigate environmental effects will continue to be in effect and, therefore, would be applied to subsequent projects where appropriate. The policies are described in the list of policies in place and mitigation measures attached to the Initial Study template. Project impacts would be mitigated to a less-than-significant level using MEIR mitigations only.	☒	☐
(3)	Federal, State, regional, and Stanislaus County regulations do not change in a manner that is less restrictive on development than current law (i.e., would not offer the same level of protection assumed under the Master EIR).	☒	☐
(4)	No specific information concerning the known or potential presence of significant resources is identified in future reports, or through formal or informal input received from responsible or trustee agencies or other qualified sources.	☒	☐
(5)	The development will occur within the boundaries of the City's planning area as established in this Urban Area General Plan.	☒	☐
(6)	Development within the project will comply with all appropriate mitigation measures contained and enumerated in the 2008 General Plan Master EIR.	☒	☐

5. Currency of the Master EIR Document

The MEIR should be reviewed on a regular basis to determine its currency, and whether additional analysis/mitigation should be incorporated into the MEIR via a Supplemental or Subsequent EIR (CEQA Section 21157.6). Staff has reviewed Sections 1 through 21 of this document in light of the criteria listed below to determine whether the MEIR is current. The analysis contained within the Master EIR is current as long as the following circumstances have not changed. Any "no" response must be explained.

		YES	**NO**
(1)	Certification of the General Plan Master EIR occurred less than five years prior to the filing of the application for this subsequent project.	☐	☒
(2)	This project is described in the Master EIR and its approval will not affect the adequacy of the Master EIR for any subsequent project because the City can make the following findings:	☒	☐
(a)	No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified.	☒	☐
(b)	No new information, which was not known and could not have been known at the time the Master EIR was certified as complete, has become available.	☒	☐

(c)	Policies remain in effect which require site-specific mitigation, and avoidance or other mitigation of impacts as a prerequisite to future development.	☒	☐

Discussion:

(1) The General Plan Master EIR was certified on October 14, 2008, so more than five years has passed since the MEIR was certified. However, the analysis contained in the MEIR is still adequate for subsequent projects, as documented in the discussion below.

(2) The project is consistent with the analysis contained in the MEIR. This is documented in the discussion of the individual issue areas of this initial study.

(2)(a) There have been no substantive changes to the General Plan since the MEIR was certified that would create additional significant environmental effects that were not analyzed by the MEIR.

(2)(b) There has been no new information that would affect the adequacy of the analysis contained in the MEIR.

(2)(c) All policies contained in the MEIR that require site-specific mitigation or avoidance of impacts remain in effect and will be applied to the project as appropriate.

IV. ENVIRONMENTAL ANALYSIS

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, discloses whether the proposed project may cause any project-specific significant effect on the environment that was not examined in the Final Master EIR (MEIR) for the General Plan and whether new or additional mitigation measures or alternatives may be required as a result. The Initial Study thereby documents whether or not the project is "within the scope" of the Master EIR.

Pursuant to Public Resources Code Section 21157.1, no new environmental document or findings are necessary for projects that are determined to be within the scope of the MEIR. Adoption of the findings specified in Section III.1, above after completion of the Initial Study fulfills the City's obligation in that situation.

All environmental effects cited reflect 2025 conditions resulting from the Urban Area General Plan, as identified in the Master EIR.

The environmental impact analysis in the Master EIR for the Urban Area General Plan is organized in twenty-one subject areas. The following analysis is based on the impact analyses contained in Chapter V of the Master EIR. For ease of reference, the sections are numbered in the same order as the analyses in Chapter V.

1. TRAFFIC AND CIRCULATION

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable traffic and circulation impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Increased automobile traffic will result in roadway segments (see MEIR on Table 1-7, pages V-1-32 to V-1-34) operating at LOS D, Modesto's significance threshold for automobile traffic, or lower (LOS E or F).

Effect: The substantial increase in traffic relative to the existing load and capacity of the street system will cause, either individually or cumulatively, the violation of automobile service standards established by StanCOG's Congestion Management Plan for designated roads and highways.

Effect: A substantial increase in automobile vehicle miles traveled and automobile vehicle hours of travel and a decrease in average automobile vehicle speed (see MEIR Table 1-6, page V-1-31).

Cumulative Impacts

Effect: Potential for growth inducement or acceleration of development resulting from highway and local road projects.

Effect: Substantial increase in traffic in relation to the existing traffic load and capacity of the street system, including a violation, either individually or cumulatively, of an automobile LOS standard established by the Congestion Management Plan for designated roads and highways.

Effect: Increased demand for capacity-enhancing alterations to existing roads or automobile traffic reduction.

Other impact categories affected by Traffic and Circulation are addressed throughout this Initial Study (see also Section 2, Degradation of Air Quality; Section 3, Generation of Noise; Section 7 Loss of Sensitive Wildlife and Plant Habitat; Section 8, Disturbance of Archaeological/Historic Sites; Section 14 Increased Demand for Fire Services; Section 18, Energy; Section 19, Visual Resources; Section 20, Land Use and Planning, and Section 21, Climate Change).

b. Master EIR and/or New Mitigation Measures Applied to the Project

Traffic and Circulation mitigation measures pertinent to this project are found on MEIR pages V-1-9 through V-1-28. All mitigation measures appropriate to the project, including any new measures, will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The project does not require mitigation measures from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-1.B of the Master EIR provides analysis of Traffic and Circulation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: A subsequent development project will have a new significant effect on the environment if it would exceed the following criteria:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1. TRAFFIC AND CIRCULATION				
1) The proposed project exceeds traffic generation assumptions in the Master EIR for the site by 100 trips or more and City Engineering and Transportation staff has determined that the project would have additional potentially significant project-specific effects that are not avoided or reduced by the Master EIR's mitigation measures.	☐	☐	☐	☒
2) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads or highways?	☐	☐	☐	☒
3) The proposed project would cause additional roadway segments in the General Plan area to exceed LOS D and/or cause additional violations of standards in the Congestion Management Plan, and/or cause an increase in automobile vehicle miles or vehicle hours of travel or a decrease in automobile travel speed, as compared to the impacts disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project would cause emergency response times to exceed acceptable standards established by the Fire Department, as compared to impacts disclosed in the Master EIR (see Section 14, Increased Demand for Fire Services).	☐	☐	☐	☒
5) The proposed project would result in less parking than required by the Municipal Code or as determined by staff.	☐	☐	☐	☒
6) The proposed project would conflict with adopted policies, plans, or programs that support alternative transportation, including, but not limited to the Regional Transportation Plan, the Sustainable Communities Strategy, the Bicycle Action Plan, and so on.	☐	☐	☐	☒
7) The proposed project would result in an increase in automobile vehicle miles traveled on a per capita basis, in excess of that considered in the Urban Area General Plan MEIR.	☐	☐	☐	☒

Discussion:

(1) The project would rezone 1.20 acres of land developed as a preschool from Low Density Residential (R-1) Zone uses to Professional Office (P-O) Zone uses, and remodel and add building square footage to create a 10,472 square foot medical office building with its supportive parking. The site is within the Baseline Developed Area of the General Plan, and is within an area designated as Mixed Use (MU) in the General Plan. While the change in use would create more trips than residential development, the change in use will not create more trips than a preschool, the development existing at the time of the General Plan MEIR adoption. The City's Traffic Division indicated no concerns with traffic generated by the minor change in use.

(2) The project would not exceed a level of service standard established by the county congestion management agency for designated roads or highways.

(3) The project would not cause an increase in level of service for the adjacent streets or conflict with any Congestion Management Plans, or cause an increase in vehicle miles or hours traveled. The segment of Oakdale Road at the location is already at LOS D, and the City's Traffic Division indicated no concerns that the project would cause the level of service to exceed that level.

(4) The project would not cause emergency response times to exceed acceptable standards. The project was referred to the City Fire Department, who indicated no concerns.

(5) The project would provide parking as required for medical office related uses.

(6) The project would not conflict with adopted alternative transportation plans or programs.

(7) The project would not result in an increase in vehicle miles traveled in excess of what was considered by the General Plan MEIR.

2. DEGRADATION OF AIR QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable air quality impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Expected automobile traffic will result in increased operational emissions of reactive organic gases (ROG) and oxides of nitrogen (NO_X) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased emissions of particulate matter 10 microns or less (PM_{10}) and 2.5 microns or less in diameter ($PM_{2.5}$) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased carbon monoxide (CO) levels in the project area (see MEIR Table 2-7, page V-2-26, and Table 2-8, page V-2-27).

Cumulative Impacts

The Master EIR indicates the same impacts identified as direct impacts above will contribute to regional impacts on air quality for the criteria pollutants ROG, NO_x, PM_{10}, and $PM_{2.5}$.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Air quality mitigation measure(s) pertinent to the proposed project are found on pages V-2-13 through V-2-24 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes AQ-42 through AQ-50 from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-2.B of the Master EIR is the analysis of air quality impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
2. DEGRADATION OF AIR QUALITY				
1) The proposed project exceeds the project-level emissions thresholds established for CO, ROG, NO_x, PM_{10}, and $PM_{2.5}$ by the San Joaquin Valley Air Pollution Control District (SJVUAPCD) and is not consistent with the development assumptions for the project site, as established in the Urban Area General Plan and Master EIR.	☐	☐	☐	☒
2) The proposed project does not incorporate the best management practices established by the SJVAPCD for CO, ROG, NO_x, PM_{10}, and $PM_{2.5}$.	☐	☐	☐	☒
3) The proposed project does not comply with the air quality policies in the Modesto Urban Area General Plan.	☐	☐	☐	☒
4) The proposed project would expose sensitive receptors to pollutant concentrations in excess of those expected to occur as a result of implementation of the Urban Area General Plan.	☐	☐	☐	☒
5) The proposed project would create objectionable	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
odors affecting a substantial number of people.				

Discussion:

(1) The project would not exceed emissions thresholds established by the SJVUAPCD, and is consistent with the development standards for an office use as established by the General Plan.

(2) Development of the site will be required to adhere to applicable City Zoning Ordinances, Standards, and applicable best management practices during the construction process.

(3) The project would comply with the air quality policies in the Urban Area General Plan with implementation of the mitigation measures cited above.

(4) With mitigation measures cited above, the project would not expose sensitive receptors to pollutant concentrations in excess of those expected to occur as a result of implementation of the Urban Area General Plan.

(5) Construction activities could potentially generate odors with processes such as application of architectural coatings and asphalt paving materials; however, activities will be mitigated as called for by the MEIR with the mitigation measures listed above.

3. GENERATION OF NOISE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable noise impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Future automobile traffic noise levels and roadway construction and maintenance activities resulting from development of the Urban Area General Plan will exceed the City's noise thresholds at various locations, but particularly in areas adjacent to heavily traveled roadways (see MEIR Table 3-3, page V-3-10, and Figure VII-2 and Table 3-6, pages V-3-18 and V-3-19).

Effect: Expected noise from airport operations and airport construction projects may expose up to 468 dwellings and three churches to noise levels of 65 dB CNEL and up to eight dwellings to noise levels of 70 dB CNEL.

Effect: Expose noise-sensitive land uses to noise from the construction of bicycle and transit projects.

Effect: Expose noise-sensitive land uses to noise from freight and passenger rail operations.

Cumulative Impacts

Effect: Traffic from development in the City of Modesto would, when combined with traffic from new development in the County and other cities, contribute to a cumulative increase in roadside noise levels on major roads and highways throughout Stanislaus County.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Noise policies and mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-3-11 through V-3-15 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and any new measures are listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes N-1 through N-3 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-3.B of the MEIR discloses noise impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of the proposed project's effects are based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
3. GENERATION OF NOISE				
1) The proposed project will exceed the standards for noise level and hours of operation established by the Modesto noise ordinance.	☐	☐	☐	☒
2) The proposed project will not comply with the noise policies of, or otherwise be inconsistent with, the Modesto Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project will result in an increase in ambient noise levels in the project vicinity above those disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project will result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels disclosed in the Master EIR implementation of the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1-2) The project is consistent with the noise policies of the General Plan. The proposed development is not anticipated to generate noise levels that exceed the noise thresholds of the MEIR.

(3-4) The project will not result in a substantial increase in ambient noise above levels described in the MEIR. There will be temporary construction-related noise, but implementation of the mitigation measures outlined above would reduce the impacts to a less than significant amount.

4. EFFECTS ON AGRICULTURAL LANDS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on agricultural lands expected after application of mitigations/policies:

Direct Impacts

Effect: Between 1995 and 2025, development of the Urban Area General Plan may convert up to approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area to urban uses.

Effect: Approximately 1,200 acres of urban development along a 28.5-mile boundary 350 feet wide between urban and agricultural uses could be affected by continued agricultural operations, including noise, dust, and chemical overspray or drift.

Cumulative Impacts

Effect: Growth within Modesto's planning area would contribute considerably to the loss of agricultural land within Stanislaus County, accounting for the conversion of as much as approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area from 1995 to 2025.

b. Master EIR and/or New Mitigation Measures Pertinent to the Project

Agricultural land mitigation measures pertinent to the proposed project are found on pages V-4-6 to and V-4-8 of the Master EIR. All mitigation measures appropriate to the project and any new mitigation to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

Discussion:

The project does not require mitigation measures from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-4.B of the Master EIR discloses the impacts resulting from the implementation of the Urban Area General Plan on agricultural lands. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
4. EFFECTS ON AGRICULTURAL LANDS				
1) The proposed project is inconsistent with the Urban Area General Plan's policies relating to agricultural land.	☐	☐	☐	☒
2) The proposed project will either directly or indirectly result in the development of land outside the 2008 Urban Area General Plan's planning area boundary.	☐	☐	☐	☒
3) The proposed project will conflict with existing zoning for agricultural use, or there is an existing Williamson Act contract on the project site.	☐	☐	☐	☒
4) The proposed project will involve other changes in the existing environment not anticipated in the Master EIR which, due to their location or nature, could result in conversion of farmland to non-agricultural use.	☐	☐	☐	☒

Discussion:

(1) The project would be consistent with the General Plan's policies relating to agricultural land. The site is located within the Baseline Developed Area, and is designated as Mixed Use (MU) in the General Plan's Land Use Diagram.

(2) The project will not result in the development of land outside of the 2008 General Plan boundary. The site is within the Baseline Developed Area and is surrounded by urbanized area within the jurisdiction of the City.

(3) The site is not zoned for agricultural uses, is currently zoned for Low Density Residential (R-1) uses and is proposed to be rezoned to Professional Office (P-O) to allow for the development of two new office buildings. There are no Williamson Act contracts on the properties of the project site.

(4) The project will not convert existing farmland to a non-agricultural use.

5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on long-term water supplies expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts have been disclosed in the Master EIR.

Cumulative Impacts

Effect: Operational yields of the Modesto and Turlock subbasins, both of which underlie the City of Modesto, are unknown, although the City is participating in a study with the United States Geological Survey in order to quantify the operational yields of both subbasins. Groundwater withdrawals from both basins by the City, when combined with other users' withdrawals, may result in overdrafting both subbasins.

Effect: Despite available options, during drought years, significant water shortages are forecast for the San Joaquin River basin, which includes both the Modesto and Turlock subbasins, by 2020. Modesto would make a cumulatively considerable contribution to the cumulative impact on water supply under drought conditions.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Water supply mitigation measures pertinent to the proposed project are found on pages V-5-6 through V-5-12 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The project does not require mitigation measures from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-5.B of the Master EIR discloses impacts on long-term water supplies resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES				
1) The proposed project is inconsistent with water supply policies in the Urban Area General Plan.	☐	☐	☐	☒
2) Water demand for the proposed project will exceed estimates for similar projects or for development on the project site anticipated in the Urban Area General Plan or sufficient water supplies are not otherwise available to serve the project	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
from existing entitlements and resources.				
3) The proposed project would deplete groundwater supplies to a greater degree than anticipated in the Urban Area General Plan or would interfere with groundwater recharge.	☐	☐	☐	☒

Discussion:

(1) The proposed project is consistent with the water supply policies in the General Plan.

(2) The project was referred to Land Development Engineering staff who indicated no concerns with water supply or demands of the project.

(3) The proposed project is consistent with the ground water demands assumed in the General Plan. The project would not have a significant effect on ground water recharge or depletion of long-term water supplies.

6. INCREASED DEMAND FOR SANITARY SEWER SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sanitary sewer services after application of mitigations/policies:

Direct Impacts

Effect: Development resulting from implementation of the Urban Area General Plan will require substantial new sewage treatment and disposal capacity, treatment plant improvements, sewer mains and collection lines, and pump stations. The Wastewater Master Plan anticipates the need for these facilities and its EIR evaluates the impact of developing those facilities. Potential impacts include degradation of water quality through erosion and chemical releases; localized flooding; construction noise; exposure of construction workers and the public to hazardous materials; and on the habitat of the elderberry longhorn beetle, burrowing owl, and Swainson's hawk, as well as certain other regulated habitats. All of these impacts are mitigated to a less-than-significant level.

Additional impacts that are not mitigated to a less-than-significant level include loss of farmland cause by construction of the Phase IA tertiary treatment facility at the Jennings Road Secondary Treatment Facility, an increase in pollutant loads from increased wastewater flows to the San Joaquin River, and an increase in noise and criteria air pollutants due to construction activities, including traffic.

Cumulative Impacts

Effect: No additional cumulative impacts were identified in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Sewer service mitigation measures pertinent to the proposed project are found on pages V-6-3 through V-6-8 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-6.B of the Master EIR discloses impacts on the Increased Demand for Sanitary Sewer Service resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
6. INCREASED DEMAND FOR SANITARY SEWER SERVICES				
1) The proposed project is inconsistent with wastewater policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project will generate sewage flows greater than those anticipated in the Urban Area General Plan for the project site.	☐	☐	☐	☒
3) The proposed project will result in a determination by the wastewater treatment provider which serves or may serve the project that it has inadequate capacity to serve the project's projected demand in addition to the provider's existing commitments.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the wastewater policies in the General Plan.

(2-3) The project was referred to Land Development Engineering staff, who indicated no concerns with generation of sewer flows or capacity generated by the project.

7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sensitive wildlife and plant habitat expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant impacts on sensitive wildlife and plan habitat are expected to occur with the application of the policies contained in the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will contribute to the cumulative impact of habitat loss in the San Joaquin Valley. Requiring density development than has occurred in the past or that is expected in the future would minimize the City's contribution to the cumulative loss of habitat. Nonetheless, this is a significant and unavoidable impact.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Wildlife and plant habitat mitigation measures pertinent to the proposed project are found on pages V-7-17 through V-7-24 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The project does not require mitigation measures from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-7.B of the Master EIR discloses impacts on the Loss of Sensitive Wildlife and Plant Habitat resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT				
1) The project is inconsistent with the policies pertaining to the loss of sensitive wildlife and plant habitat contained in the Urban Area General Plan.	☐	☐	☐	☒
2) Consultation with the California Department of	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
Fish and Game or the U.S. Fish and Wildlife Service determines that the project would have a significant effect on a candidate, sensitive, or special status species in excess of the impact disclosed in the Master EIR.				
3) The proposed project would have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act through direct removal, filling, hydrological interruption, or other means, in excess of the impact disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project would substantially interfere with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites.	☐	☐	☐	☒
5) Conflict with local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.	☐	☐	☐	☒
6) The proposed project would conflict with provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the General Plan policies related to the loss of sensitive wildlife and plant habitat.

(2) The project site is not within a biologically sensitive area as defined by Figures V-7-1a through V 7-1e of the MEIR. The California Department of Fish and Game and the U.S. Fish and Wildlife Service were consulted in the production of the MEIR.

(3) The site does not qualify as a federally protected wetland per Section 404 of the Clean Water Act.

(4) The site is not within a biologically sensitive area as defined by Figures V-7-1a through V 7-1e of the MEIR. The movement of fish or birds or other wildlife would not be significantly affected by the project.

(5) The project would not conflict with any local policies or ordinances protecting biological resources.

(6) There is no conflict with any adopted habitat conservation plan, natural community conservation plan, or other approved local, regional or state habitat conservation plan.

8. DISTURBANCE OF ARCHAEOLOGICAL/HISTORICAL SITES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on archaeological/historical sites expected after application of mitigations/policies:

Direct Impacts

Effect: Modification resulting in a substantial adverse change in the significance of a historic resource or the demolition of a listed or eligible historic resource.

Effect: The modification or demolition of a structure more than 50 years in age may be significant.

Effect: Discovery of archaeological resources in areas outside of the riparian corridors, as a result of construction activities.

Effect: Construction in an area of high archaeological sensitivity.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Archaeological or historic mitigation measures pertinent to the project being analyzed in this Initial Study are found on page V-8-16 through V-8-20 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes the measures specified in Table V-8-1(b-f) from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-8.B of the MEIR discloses impacts on archaeological/historical resources resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
8. DISTURBANCE OF ARCHAEOLOGICAL/ HISTORICAL SITES				
1) The proposed project is inconsistent with the archaeological/historical resource policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would demolish a building eligible for listing as a historic resource or remove a landmark from the Modesto inventory.	☐	☐	☐	☒
3) The proposed project would modify or demolish a structure more than 50 years in age.	☐	☐	☐	☒
4) The project would adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources.	☐	☐	☐	☒
5) Conflict with local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.	☐	☐	☐	☒

Discussion:

(1) The project would be consistent with the archeological and historical resource policies in the General Plan.

(2-3) The project site is developed with a former preschool and its supporting parking. This building was built in the late 1980"s. The project applicant is proposing to remodel the existing building, not demolish it.

(4) The project would not affect a resource that is listed or eligible for listing in the California Register of Historic Resources.

(5) The project would not conflict with a local policy or ordinance protecting biological resources. The City of Modesto does not have a tree preservation policy or ordinance.

9. INCREASED DEMAND FOR STORM DRAINAGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on storm drainage expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: The population of Stanislaus County is projected to increase in a fashion similar to that of Modesto, resulting in additional urban development and associated increases in impervious surface area and associated increases in storm water runoff. Cumulative hydrologic impacts of storm water flows from Modesto urban areas and other areas of the County could occur due to the fixed capacity of MID and TID irrigation canals to convey drainage west to the San Joaquin River. If drainage channels in some areas prove insufficient to handle the increased drainage discharges, existing storm water runoff from urban and agricultural areas during large storm events would have to be interrupted until water levels receded to a point allowing the resumption of discharges to the channel. Ceasing discharges to drainage channels could cause inundation in and around the drainage conveyance pipeline systems, surface drainage channels, detention basins, and other urban areas. This cumulative impact is considered significant and unavoidable.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Storm Drainage mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-9-4 through V-9-9. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes: SD-7 and SD-9 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-9.B of the MEIR discloses impacts on the demand for storm drainage resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
9. INCREASED DEMAND FOR STORM DRAINAGE				
1) The proposed project is inconsistent with the storm drainage policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or offsite, as compared to impacts anticipated to result from	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
the Urban Area General Plan or create substantial unanticipated sources of polluted runoff.				
3) The proposed project does not utilize Low Impact Development strategies to reduce runoff from the site and increase infiltration, resulting in no net increase in runoff before and after development.	☐	☐	☐	☒

Discussion:

(1) The project would not be inconsistent with the storm drainage policies of the General Plan.

(2-3) The project is being proposed on an already improved parcel. Where possible, the project will be required to handle and treat storm water runoff on-site in accordance to City Standards.

10. FLOODING AND WATER QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on flooding and water quality expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Flooding and Water Quality mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-10-6 through V-10-9 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes: FWQ-12 and FWQ-13 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-10.B of the Master EIR provides analysis of Flooding and Water Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
10. FLOODING AND WATER QUALITY				
1) The proposed project is inconsistent with the flooding and water quality policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project does not comply with the regulatory requirements of the federal Clean Water Act or the State Porter-Cologne Act.	☐	☐	☐	☒
3) The proposed project would place more housing within a 100-year flood hazard zone than assumed in the Urban Area General Plan.	☐	☐	☐	☒
4) The proposed project would place structure within a 100-year flood hazard area so that they would impede or redirect floodwater or would substantially alter the existing on-site drainage pattern or a watercourse, in such a way as to cause flooding on- or offsite.	☐	☐	☐	☒
5) The proposed project does not comply with Modesto's Guidance Manual for New Development Storm Water Quality Control Measures.	☐	☐	☐	☒
6) The proposed project would violate water quality standards or waste discharge requirements.	☐	☐	☐	☒
7) The proposed project would substantially alter the existing drainage pattern of the site or area or a watercourse in a manner that would result in substantial erosion or siltation on- or offsite in excess of the assumptions of the Urban Area General Plan.	☐	☐	☐	☒
8) The proposed project would create or contribute runoff, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff, not expected as part of Urban Area General Plan implementation.	☐	☐	☐	☒

Discussion:

(1) The proposed project is consistent with the flooding and water quality policies in the Urban Area General Plan.

(2) The project would comply with the Federal Clean Water Act and the Porter Cologne Act requirements.

(3-4) The project site is not within a 100-year flood hazard zone as established by the Federal Emergency Management Agency (FEMA).

(5) The project will comply with the Guidance Manual for New Development Storm Water Quality Control Measures.

(6) The project will not violate water quality standards or waste discharge requirements.

(7) The project would not substantially alter the existing drainage pattern of the site, area or a watercourse in a manner that would result in erosion or siltation.

(8) The project will be required to treat and store on-site storm water drainage. The project was referred to Land Development Engineering who indicated no concerns with the project creating or contributing to runoff in excess of what is expected as part of the General Plan's implementation.

11. INCREASED DEMAND FOR PARKS AND OPEN SPACE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on parks and open space expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Parks and open space mitigation measures pertinent to the proposed project are found on pages V-11-3 through V-11-9 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-11.B of the MEIR discloses impacts of the Urban Area General Plan on parks and open space. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
11. INCREASED DEMAND FOR PARKS AND OPEN SPACE				
1) The proposed project is inconsistent with the parks and open space policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would eliminate parks or open space.	☐	☐	☐	☒
3) The proposed project would cause an increase in the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility in question would occur or be accelerated or the proposed project would include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the parks and open space policies in the General Plan.

(2-3) The project will not impact parks or open space, or cause an increase in the use of existing parks. The project involves rezoning property from Low Density Residential (R-1) uses to Professional Office (P-O) uses, which would not impact parks.

12. INCREASED DEMAND FOR SCHOOLS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on school facilities expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR. By statute, the impact of new students is considered to be mitigated below a level of significance by payment of school

impact fees and the exercise of any or all of the financing options set out in Government Code Section 65997.

Cumulative Impacts

Effect: Similar to direct impacts of implementation of the Urban Area General Plan, no residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. As long these policies are applied to all subsequent projects, no new mitigation is necessary. Further, payment of school impact fees and compliance with SB 50 is statutorily deemed to be full mitigation of school impacts (Government Code Section 65995).

The following schools mitigation measures on pages V-12-5 through V-12-7 of the Master EIR are pertinent to the proposed project. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures are listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-12.B of the Master EIR discloses impacts resulting from implementation of the Urban Area General Plan associated with increased demand for schools. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
12. INCREASED DEMAND FOR SCHOOLS				
1) The proposed project is inconsistent with the policies relating to schools in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project does not comply with SB 50/Proposition 1A funding provisions, or succeeding measures which state that compliance results in less-than-significant impacts on schools.	☐	☐	☐	☒

Discussion:

(1) The project involves rezoning property from Low Density Residential (R-1) uses to Professional Office (P-O) uses, which would not conflict with policies related to schools in the General Plan.

(2) The project would not conflict with SB50/Proposition 1A funding provisions, or succeeding measures.

13. INCREASED DEMAND FOR POLICE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on police services expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Police services mitigation measures pertinent to the proposed project are found on pages V-13-2 through V-13-5 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-13.B of the Master EIR discloses impacts on police services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
13. INCREASED DEMAND FOR POLICE SERVICES				
1) The proposed project is inconsistent with policies	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
relating to police services in the Urban Area General Plan.				
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the policies relating to police services in the General Plan.

(2) The project would not result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives. The project was referred to the City Police Department, who indicated no concerns.

14. INCREASED DEMAND FOR FIRE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on fire services expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Fire Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-14-4 through V-14-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-14.B of the Master EIR discloses impacts on fire services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
14. INCREASED DEMAND FOR FIRE SERVICES				
1) The proposed project is inconsistent with the fire service policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	☐	☐	☐	☒
3) The proposed project, based upon substantial evidence, would cause the erosion or elimination of fire protection services in adjoining fire protection districts.	☐	☐	☐	☒

Discussion:

(1) The proposed rezone and subsequent commercial development is consistent with the fire service policies in the General Plan.

(2) The project would not result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives.

(3) The project would not cause the erosion or elimination of fire protection services. Development of professional office buildings as a result of the rezone will meet City Standards for emergency services access.

15. GENERATION OF SOLID WASTE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on solid waste expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Solid waste mitigation measures pertinent to the proposed project are found on pages V-15-4 through V-15-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.
Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-15.B of the Master EIR discloses solid waste impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
15. GENERATION OF SOLID WASTE				
1) The project is inconsistent with the solid waste policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The County is unable to expand its solid waste disposal capacity, as expected, causing all new development to result in cumulative impacts on the County's disposal capacity.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the solid waste policies in the General Plan.

(2) The project would not cause an impact to the disposal capacity of solid waste facilities in the County.

16. GENERATION OF HAZARDOUS MATERIALS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts regarding hazardous materials expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Hazardous materials mitigation measures pertinent to the proposed project are found on pages V-16-8 through V-16-13 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-16.B of the Master EIR discloses impacts on hazardous materials resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
16. GENERATION OF HAZARDOUS MATERIALS				
1) The project is inconsistent with the hazardous materials policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
3) The proposed project would be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would create a significant hazard to the public or the environment.	☐	☐	☐	☒
4) The proposed project would be constructed on a contaminated site not known to the State of California as of March 2008.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the hazardous materials policies in the General Plan.

(2) The project will comply with all applicable federal, state, and county standards and regulations relative to the handling, storage, disposal, and transport of hazardous or toxic materials or wastes. (No hazardous materials will be involved with this project).

(3) The project is not located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would not create a significant hazard to the public or the environment.

(4) The project site is not known to contain any contaminants.

17. GEOLOGY, SOILS, AND MINERAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts related to geology, soils, and mineral resources expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Geology, soils, and mineral resource mitigation measures pertinent to the proposed project are found on pages V-17-9 and V-17-10 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of the proposed project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-17.B of the Master EIR discloses geology, soils, and mineral resource impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
17. GEOLOGY, SOILS, AND MINERAL RESOURCES				
1) The project is inconsistent with policies relating to geology, soils, and mineral resources contained in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would expose people or structures to potential substantial adverse effects including the risk of loss, injury, or death involving fault rupture, strong seismic activity; location on an expansive soil; result in the loss of topsoil; location on soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems in areas where sewers are not available for the disposal of wastewater; result in the loss of known mineral resources that would be of value to the region and the state; or result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with policies relating to geology, soils, and mineral resources in the General Plan.

(2) The project site is not located on soil that is unstable, or that would become unstable as a result of the project. There are no known mineral resources of value to the region and the state on the property.

18. ENERGY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to energy expected after application of mitigations/policies:

Direct Impacts

Effect: Continued development in the Planned Urbanizing Area would have an impact on available energy supplies. Energy consumption likely would increase substantially by 2025 as a result of implementation of the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on energy consumption.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following energy mitigation measures pertinent to the proposed project are found on pages V-18-2 through V-18-8 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
18. ENERGY				
1) The proposed project is inconsistent with policies relating to energy in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in energy consumption during construction, operation, maintenance, or removal that is more wasteful, inefficient, and unnecessary than assumed in the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the energy policies in the General Plan.

(2) The project would not result in energy consumption during construction, operation, maintenance or removal that is more wasteful, inefficient and unnecessary than assumed in the General Plan.

19. EFFECTS ON VISUAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on visual resources expected after application of mitigations/policies:

Direct Impacts

Effect: New development in the Planned Urbanizing Area will occur in areas that are in agricultural production or are otherwise lightly developed, which could lead to the introduction of light and glare in areas that have little nighttime illumination.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following visual resources mitigation measures pertinent to the proposed project are found on pages V-19-3 and V-19-4 in the Master EIR. All mitigation measures appropriate to the proposed project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
19. EFFECTS ON VISUAL RESOURCES				
1) The proposed project is inconsistent with policies relating to visual resources in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would degrade views from riverside areas and parks to a greater degree than assumed in the Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project would degrade views of riverside areas from public roadways and nearby properties to a greater degree than assumed in the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the policies relating the visual resources in the General Plan.

(2-3) The project would not impact views from riverside areas and parks, nor would degrade views of riverside areas and parks from public roadways.

20. LAND USE AND PLANNING

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to land use and planning expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following land use and planning mitigation measures pertinent to the proposed project are found on pages V-20-6 through V-20-17 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-20.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on land use and planning. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
20. LAND USE AND PLANNING				
1) The proposed project is inconsistent with land use and planning policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project contains elements that would physically divide an established community in a way not assumed in the Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project conflicts with a land use plan, policy or regulation established for the purpose of avoiding or mitigating an environmental impact by an agency that has jurisdiction over the proposed project.	☐	☐	☐	☒
4) The proposed project conflicts with an applicable habitat conservation plan or natural community conservation plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the Mixed Use Planning District (MUPD) land use designation in the General Plan.

(2) The project would not divide an established community. The proposal is to rezone one residentially zoned, but commercially developed property on an arterial street to Professional Office (P-O) uses.

(3) The project is consistent with the land use plan, policies and regulations of the City of Modesto designed to mitigate project impacts.

(4) The project does not conflict with applicable habitat conservation plans or natural community conservation plans.

21. CLIMATE CHANGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to climate change expected after application of mitigations/policies:

Direct Impacts

Effect: Impacts resulting from implementation of the Urban Area General Plan are not substantial enough to result in a significant direct impact on climate change, as disclosed in the Master EIR.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on climate change.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following climate change mitigation measures pertinent to the proposed project are found on pages V-21-7 through V-21-10 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on climate change. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
21. CLIMATE CHANGE				
1) The proposed project is inconsistent with policies relating to climate change in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in average automobile trip lengths or CO_2 emissions higher than those assumed in the Master EIR.	☐	☐	☐	☒
3) The proposed project would conflict with the	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
Sustainable Communities Strategy or Alternative Planning Strategy that the Air Resources Board has agreed will achieve the goals of AB 32.				

Discussion:

(1) The project is consistent with the policies relating to climate change in the Urban Area General Plan. The project would not have a significance effect on climate change.

(2) The project would not affect automobile trip lengths or CO_2 emissions.

(3) A Sustainable Communities Strategy has not yet been implemented by the ARB. Future development will be required to comply with the provisions of the Sustainable Communities Strategy once it is established.

V. MITIGATION MEASURES APPLIED TO THE PROPOSED PROJECT

If the Initial Study results in the determination that a Finding of Conformance can be adopted for the proposed project Section A below applies. If the Initial Study results in the determination that a Finding of Conformance cannot be adopted and a Mitigated Negative Declaration/EIR must be prepared for the project then Section B, below applies.

A. Master EIR Mitigation Measures Applied to the Project

Pursuant to Public Resources Code Section 21157.1(c), in order for a Finding of Conformance to be made, all appropriate mitigation measures from the Master EIR shall be incorporated into the proposed project. Urban Area General Plan Policies/Master EIR mitigation measures shall be made part of the proposed project prior to approval by means of conditions of project approval or incorporation into the appropriate document or plan.

All applicable and appropriate mitigation measures have been applied to the project (see mitigation measures listed below).

B. New or Additional Mitigation Measures or Alternatives Required

Where the project's effects would exceed the significance criteria for each environmental impact category, a mitigated negative declaration or Focused EIR must be prepared. Staff has reviewed the project against the significance criteria thresholds established in the Master EIR for all impact categories in this Initial Study.

A Mitigated Negative Declaration or Focused EIR shall be prepared for the project. The following additional project-specific mitigation measures listed below are necessary to reduce the identified new significant effect:

Traffic and Circulation:

N/A

Degradation of Air Quality:

AQ-42: All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover.

AQ-43: All on-site unpaved roads and off-site unpaved access roads shall be effectively stabilized of dust emissions using water or chemical stabilizer/suppressant.

AQ-44: All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.

AQ-46: When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.

AQ-47: All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. (the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)

AQ-48: Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.

AQ-49: Within urban areas, track out shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.

AQ-50: Any site with 150 or more vehicle trips per day shall prevent carryout and track out.

Generation of Noise:

N-1: The City has also established a noise ordinance to control noise within the City. The City's noise ordinance (Modesto Municipal Code Section 4-9.101) prohibits the "loud and raucous discharge into the open air of the steam of any steam equipment or exhaust from any stationary internal-combustion engine."

N-2: Additionally, the noise ordinance prohibits the loud and raucous operation or use of any of the following before 7:00 a.m. or after 9:00 p.m. daily (except Saturday and Sunday and state or federal holidays, when the prohibited time shall be before 9:00 a.m. and after 9:00 p.m.):

A hammer, or any other device or implement used to pound or strike an object.

1. An impact wrench, or other tool or equipment powered by compressed air.
2. A hand-powered saw.
3. Any tool or piece of equipment powered by an internal-combustion engine such as, but not limited to, chain saw, backpack blower, and lawn mower.
4. Any electrically powered (whether by alternating current electricity or by direct current electricity) tool or piece of equipment used for cutting, drilling, or shaping wood, plastic, metal, or other materials or objects, such as, but not limited to, a saw, drill, lathe, or router.
5. Any of the following: heavy equipment (such as but not limited to bulldozer, steam shovel, road grader, back hoe), ground drilling and boring equipment (such as but not limited to derrick or dredge), hydraulic crane and boom equipment, portable power generator or pump, pavement equipment (such as but not limited to pneumatic hammer, pavement breaker, tamper, compacting equipment), piledriving equipment, vibrating roller, sand blaster, gunite machine, trencher, concrete truck, and hot kettle pump.
6. Any construction, demolition, excavation, erection, alteration, or repair activity. In the case of urgent necessity and in the interest of public health and safety, the Chief Building Official may issue a permit for exemption from these. Such period shall not exceed three (3) working days in length while the emergency continues but may be renewed for successive periods of three (3) days or less while the emergency continues. The Chief Building Official may limit such permit as to time of use and/or permitted action, depending upon the nature of the emergency and the type of action requested.

N-3: The project shall comply with the City's noise ordinance. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and

impact tools should be equipped with shrouds or shields. Equipment that is quieter than standard equipment should be utilized. Haul routes that affect the fewest number of people should be selected.

Effects on Agricultural Lands:

N/A

Increased Demand for Long-Term Water Supplies:

N/A

Increased Demand for Sanitary Sewer Services:

N/A

Loss of Sensitive Wildlife and Plant Habitat:

N/A

Disturbance of Archaeological/Historic Sites:

Table V-8-1(b-f):

b. Prior to excavation and construction, the prime construction contractor and any subcontractors shall be cautioned on the legal and/or regulatory implications of knowingly destroying cultural resources or removing artifacts, human remains, bottles, or other cultural materials from the project area.

c. The project sponsor shall identify a qualified archeologist prior to any demolition, excavation, or construction. The City will approve the project sponsor's selection of a qualified archeologist. The archeologist would have the authority to temporarily halt excavation and construction activities in the immediate vicinity (ten-meter radius) of a find if significant or potentially significant cultural resources are exposed and/or adversely affected by construction operations.

d. Reasonable time shall be allowed for the qualified archeologist to notify the proper authorities for a more detailed inspection and examination of the exposed cultural resources. During this time, excavation and construction would not be allowed in the immediate vicinity of the find; however, those activities could continue in other areas of the project site.

e. If any find is determined to be significant by the qualified archeologist, representatives from the construction contractor and the City, the qualified archeologist, and a representative of the Native American community (if the discovery is an aboriginal burial) would meet to determine the appropriate course of action.

f. All cultural materials recovered as part of a monitoring program would be subject to scientific analysis, professional curation, and a report prepared according to current professional standards.

Increased Demand for Storm Drainage:

SD-7: New development shall comply with City requirements for conveyance, retention and detention. New development shall include onsite storage of Stormwater as necessary. Rockwells shall not be allowed for new development except at infill areas smaller than three acres where no other feasible alternative is available. (UAGP Policy V-E.3 [f])

SD-9: Construction activities shall comply with the requirements of the City's Storm Water Management Plan under its municipal NPDES Stormwater permit, and the State Water Resources Control Board's General Permit for Discharges of Storm Water Associated with Construction Activity. (UAGP Policy V.E.3 [h])

Flooding and Water Quality:

FWQ-12: New development shall comply with City requirements for conveyance, retention and detention. New development shall include onsite storage of Stormwater as necessary. Rockwells shall not be allowed for new development except at infill areas smaller than three acres where no other feasible alternative is available. (UAGP Policy V-E.3 [f])

FWQ-13: Construction activities shall comply with the requirements of the City's Storm Water Management Plan under its municipal NPDES Stormwater permit, and the State Water Resources Control Board's General Permit for Discharges of Storm Water Associated with Construction Activity. (UAGP Policy V.E.3 [h])

Increased Demand for Parks and Open Space:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-145

Print

RESOLUTION ACCEPTING BID AND APPROVING A 4-YEAR AGREEMENT WITH TWO 2-YEAR OPTION YEARS WITH NATIONAL EXPRESS TRANSIT CORPORATION COMMENCING JULY 1, 2017, AND TERMINATING JUNE 30, 2021, TO PROVIDE FIXED ROUTE SERVICES FOR THE OPERATION OF THE MODESTO AREA EXPRESS (MAX) TRANSIT SYSTEM FOR $8,192,955 IN FISCAL YEAR 2017/18 AND $74,497,350 OVER THE TERM OF THE AGREEMENT, INCLUDING THE TWO 2-YEAR OPTIONAL EXTENSIONS, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT, IN A FORM APPROVED BY THE CITY ATTORNEY

WHEREAS, the existing agreement with Transdev Services, Inc. to operate the MAX service expires June 30, 2017, and

WHEREAS, the City wishes to continue providing MAX service to the citizens and visitors of Modesto, and

WHEREAS, a Request for Proposals (RFP) was issued soliciting proposals from qualified firms for a new contract to be effective on July 1, 2017, and

WHEREAS, National Express Transit Corporation submitted a proposal that was determined to be reasonable and cost effective, and

WHEREAS, an evaluation panel reviewed and evaluated all proposals, interviewed proposers and evaluated best and final offers, and

WHEREAS, after such evaluation the panel scored National Express Transit Corporation highest utilizing the scoring criteria included in the RFP and recommend award of the contract to National Express Transit Corporation, and

WHEREAS, the RFP conformed to the formal bid procedures in Modesto Municipal Code section 8-3.203 and staff recommends awarding the contract to the lowest responsive and responsible proposal submitted by National Express Transit

Corporation, and

WHEREAS, on February 28, 2017, Council approved Resolution No. 2017-86 implementing a spending freeze in order to maintain fiscal sustainability of the City. The City Manager's Office approved an exception to this freeze for this procurement based upon the continued operation of the Modesto Area Express transit system.

NOW THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the bid of National Express Transit Corporation and approves a 4 year agreement with two-2 year option years with National Express Transit Corporation commencing July 1, 2017, and terminating June 30, 2021, to provide fixed route services for the operation of the Modesto Area Express transit system.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement in a form approved by the City Attorney, at a first year cost of $8,192,955 and $74,497,350 over the term of the agreement, including the 2 two-year optional extensions.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of April, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

RESOLUTION APPROVING THE INSTALLATION OF A PUBLIC ART PROJECT ON WELL #211; A MEMORANDUM OF UNDERSTANDING (MOU) BETWEEN THE CITY OF MODESTO AND THE LA LOMA NEIGHBORHOOD ASSOCIATION RELATING TO THE PROJECT; AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE MOU

WHEREAS, Section 4-22.04 of the Municipal Code of the City of Modesto authorizes the Culture Commission to approve or deny art project proposals, and

WHEREAS, the Culture Commission met on January 18, 2017 and approved a request by the La Loma Neighborhood Association to install a public art project on Well #211 at 904 Edgebrook Drive, subject to approval by the City to locate the project on public property and to meet the City requirements for installation.

WHEREAS, the La Loma Neighborhood Association proposes installation of a community art project to enhance the identity of the neighborhood and to engage the public, and

WHEREAS, the La Loma Neighborhood Association will create and install the piece at its own cost and expense, and

WHEREAS, The City must approve the method of installation of the art project before it is installed and the City does not anticipate any damage will be caused to Well #211 as a result of the installation.

WHEREAS, the La Loma Neighborhood Association will be responsible for all ongoing maintenance and repair of the project pursuant to the terms of the MOU, and

WHEREAS, the City will own the public art project once it becomes affixed to Well #211.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto hereby approves the installation of a public art project to Well #211.,

BE IT FURTHER RESOLVED, that the **attached** Memorandum of Understanding between the City of Modesto and the La Loma Neighborhood Association is hereby approved and the City Manager, or his designee, is authorized to execute the Memorandum of Understanding.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of April, 2017, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

MEMORANDUM OF UNDERSTANDING

THIS Memorandum of Understanding ("Memorandum of Understanding" or "agreement"), made and entered into on _____, effective as of the last signature herein, in the City of Modesto, State of California, ("Effective Date") by and between the CITY OF MODESTO, a municipal corporation of the State of California, hereinafter referred to as the "CITY," and the La Loma Neighborhood Association, a California nonprofit organization, hereinafter referred to as "ASSOCIATION". The City and Association shall be collectively referred to as the "parties."

I. Recitals

This Memorandum of Understanding is made with regard to the following Recitals:

WHEREAS, the CITY owns and maintains a parcel in the CITY and pumping station Well # 211 located at 904 Edgebrook Drive, Modesto California ("Property"); and

WHEREAS, the ASSOCIATION desires to enhance this Property with the installation of a community art project, depicted in Exhibit A attached hereto and hereinafter incorporated by reference, which shall be a 14x4 framed panel which shall be covered with porcelain tiles that each have upon them art that has been painted by local neighbors in the La Loma neighborhood ("Project") and affixed to Well #211; and

WHEREAS, the CITY has made a strategic commitment to develop and maintain a safe and inviting community in which to live, work and play. Additionally, the City has adopted a Public Art Commission and is committed to making the City a more aesthetically pleasing and enjoyable place to live that reflects the City's diverse culture, history, future, and geography; and

WHEREAS, the CITY and the ASSOCIATION wish to affirm and formalize the understanding between the parties related to the ASSOCIATION's placement of the Project on City property; and

WHEREAS, both parties understand that ASSOCIATION does not have insurance and it is not feasible for ASSOCIATION to obtain insurance coverage for this Project, the CITY agrees to take its normal liability as it relates to the use of the Property by the public. This liability shall be limited during the construction and maintenance operations of the Project as outlined herein; and

WHEREAS, the parties intend this MOU to be binding and enforceable in a court of law.

II. Terms

NOW THEREFORE, in consideration of this Memorandum of Understanding, and the mutual promises, covenants and stipulations hereinafter contained, the parties agree as follows:

A. Recitals.

The parties agree that the aforementioned recitals are true and correct and are incorporated into the terms of this Memorandum of Understanding.

B. Term of Memorandum of Understanding.

The CITY shall allow placement of the Project on the Property until such time as either party terminates this Memorandum of Understanding, the Association ceases to exist, or the Project is destroyed.

C. Use of Property.

Use of the Property shall be for display of the Project only and may be terminated at any time, for any reason, by the CITY, pursuant to section F of this Memorandum of Understanding.

D. Ownership.

CITY shall own the Project once it is affixed to Well #211.

E. Installation.

1. ASSOCIATION shall secure the Project to Well #211. The method and means of affixing the Project on the Property shall be approved by City prior to installation and City staff must be present during the time the Project is affixed to Well #211.

2. The Project shall in no way interfere with the purpose and function of Well #211 nor shall it be installed in a manner that would cause damage to the Property.

F. Maintenance.

1. ASSOCIATION shall be responsible for the maintenance of the Project. For purposes of this agreement, "maintenance" shall mean the process of maintaining or preserving the Project, which includes, but is not limited to, the removal of graffiti or repair to the Project due to vandalism, weather, deterioration, or any other cause.

2. CITY shall contact ASSOCIATION and advise them of any necessary maintenance. Any maintenance that shall be performed by the ASSOCIATION must first be approved by the CITY.

3. The ASSOCIATION agrees to conduct any maintenance of the Project at its own expense.

4. CITY will continue to provide maintenance to the Property, including maintenance to the exterior of Well #211, at its own expense, but shall not contribute to the maintenance of the Project.

G. Termination.

Should the ASSOCIATION fail to maintain the Project the CITY shall issue a "notice of non-compliance" with this Memorandum of Understanding. The ASSOCIATION will have ten (10) days from the receipt of the notice to complete the required maintenance. If the ASSOCIATION does not comply with the notice, the CITY shall have the right to immediately terminate this Memorandum of Understanding and to remove the Project. If the Project is removed, the CITY may, in its discretion, relocate, store, or destroy the Project.

The CITY or the ASSOCIATION shall be able to terminate this Memorandum of Understanding, for any reason, upon thirty (30) days' written notice to the other party.

H. Insurance.

ASSOCIATION shall ensure that any and all general contractors working on the Project performing construction or maintenance, provide at their own expense and maintain at all times the following insurance with insurance companies licensed in the State of California and shall provide evidence of such insurance to City as may be required by the City Manager of City. The policies or certificates thereof shall provide that, thirty (30) days prior to cancellation or material change in the policy, notices of same shall be given to the Risk Manager of City by registered mail, return receipt requested. for all of the following stated insurance policies.

1. General Liability insurance with a minimum limit of liability per occurrence of $1,000,000 for bodily injury and $1,000,000 for property damage or $1,000,000 combined single limit. This insurance shall indicate on the certificate of insurance the following coverages and indicate the policy aggregate limit applying to: premises and operations; broad form contractual; independent contractors and subcontractors; products and completed operations; and/or professional liability
2. Automobile Liability insurance with a minimum limit of liability per occurrence of $1,000,000 for bodily injury and $100,000 for property damage or $1,000,000 combined single limit. This insurance shall cover any automobile for bodily injury and property damage.
3. Workers Compensation in compliance with the statutes of the State of California, plus employer's liability with a minimum limit of liability of $1,000,000.
4. The CITY, its agents, officers, employees, and volunteers shall be named as an additional insured on all insurance policies required herein, except Workers' Compensation. The Workers' Compensation insurer shall agree to waive all rights of subrogation against the CITY, its agents, officers, employees, and volunteers for losses arising from work performed on the Project. The insurance policy(ies) shall include a provision that the coverage is primary as respects the CITY; shall include no special limitations to coverage provided to additional insured; and, shall be placed with insurer(s) with acceptable Best's rating of A:VII or with approval of the Risk

Manager. Certificates must be delivered evidencing existence of the insurance listed above to the CITY prior to the time the contract is signed.

5. Contractor's or Organizations shall provide CITY with separate endorsements evidencing proof of the CITY's additional insured status as to both the general liability and automobile liability insurance policies. In addition, Contractor's or Organizations shall provide CITY with a Workers Compensation subrogation waiver by way of a separate endorsement. All endorsements referenced above must include the applicable policy number.

If at any time any of said policies shall be unsatisfactory to CITY, as to form or substance or if a company issuing such policy shall be unsatisfactory to CITY. ASSOCIATION shall promptly ensure contractors and organizations obtain a new policy, submit the same to Risk Manager of CITY for approval and submit a certificate thereof as herein above provided. Upon failure of ASSOCIATION to furnish, deliver or maintain such insurance and certificates as above provided, this Memorandum of Understanding, at the election of CITY, may be forthwith declared suspended or terminated. Failure of ASSOCIATION to ensure contractors and organizations obtain and/or maintain any required insurance shall not relieve ASSOCIATION from any liability under this Memorandum of Understanding, nor shall the insurance requirements be construed to conflict with or otherwise limit the obligations of ASSOCIATION concerning indemnification. If any insurance policy maintains higher limits than the minimum shown above, the CITY requires and shall be entitled to coverage for the higher limits maintained.

I. Waivers.

The ASSOCIATION agrees to ensure that all volunteers, contractors or organizations performing construction or maintenance on the Project sign a waiver of liability, attached hereto and incorporated by reference as Exhibit A, as required by the CITY. This waiver will be provided to the CITY shortly after the execution of the waiver by all volunteers, contractors, or organizations and will limit the liability for the CITY in respect to the construction and maintenance of the Project.

J. Compliance With Laws.

The ASSOCIATION and its agents shall not do or suffer to be done on or about the Property anything that would or does violate or conflict with any applicable law, ordinance, rule or regulation which is now in force or effect or which may hereafter be enacted or adopted by federal, state, county or municipal authority.

K. Partnership Disclaimer.

It is mutually understood and agreed that nothing in this agreement is intended or shall be construed as in any way creating or establishing the relationship of co-partners between the parties hereto, or as constituting the ASSOCIATION as agents or representatives of CITY for any purpose or in any manner whatsoever.

L. Entire Agreement.

This Memorandum of Understanding contains the sole and only agreement of the parties relating to the Project described herein. Any prior agreements, promises, negotiations or representations not expressly set forth in this Memorandum of Understanding are of no force or effect.

M. Notices.

All notices pursuant to this Memorandum of Understanding shall be in writing and served on the other party (a) by personal delivery, or (b) by certified mail, return receipt requested, to the respective addresses set forth below:

CITY: Cynthia Birdsill, CEDD Director
1010 Tenth Street, Ste. 3300
Modesto, CA 95356

ASSOCIATION: La Loma Neighborhood Association
Attn. Deborah Steinberg
1112 Highland Ave
Modesto, CA. 95354

N. Amendments.

This Memorandum of Understanding, including any exhibits hereto, shall not be amended, except in writing and signed by the parties. Any amendment or addendum to this Memorandum of Understanding shall expressly refer to this agreement.

O. No Limitation on Property Rights.

Nothing contained herein shall limit or restrict the CITY'S ownership of the Property and the ASSOCIATION may continue use of the Property until such time as this Memorandum of Understanding is terminated. The parties agree that this Memorandum of Understanding does not vest any property rights with the ASSOCIATION.

P. Governing Law.

This Memorandum of Understanding shall be governed according to the laws of the State of California and venue shall be proper in Stanislaus County Superior Court.

Q. Time.

Time is of the essence in every provision of this contract.

R. Partial Invalidity.

If any provision in this Memorandum of Understanding is held by a court of competent jurisdiction to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force without being impaired or invalidated in any way.

S. Waiver.

The waiver by any party to this Memorandum of Understanding of a breach of any provision hereof shall be in writing and shall not operate or be construed as a waiver of any other or subsequent breach hereof unless specifically stated in writing.

IN WITNESS WHEREOF, the City of Modesto, a municipal corporation, has authorized the execution of this Memorandum of Understanding in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. 2017- , adopted by the Council of the City of Modesto on the _____ day of March, 2017, and La Loma Neighborhood Association has caused this agreement to be duly executed in duplicate as of the Effective Date

RESOLUTION APPROVING AN AGREEMENT WITH MODESTO JUNIOR COLLEGE (MJC) FOUNDATION AND STANISLAUS COUNTY, COMMENCING JULY 1, 2017, TO PROVIDE A MJC BUS PASS PROGRAM FOR THE MODESTO AREA EXPRESS (MAX) TRANSIT SYSTEM WITH AN ANNUAL REVENUE OF $100,000, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the City of Modesto operates the Modesto Area Express (MAX) bus system, and

WHEREAS, Stanislaus County operates the StaRT bus system, and

WHEREAS, the City wishes to promote ridership to college students on the MAX bus system, and

WHEREAS, college students are a demographic that utilize the bus due to their economic status, growing reluctance to use a personal vehicle and general focus on a sustainable environment, and

WHEREAS, the Modesto Junior College (MJC) Foundation is willing to enter into an agreement with the City and the County to start a bus pass program for all MJC students, and

WHEREAS, MJC will pay a set amount of $100,000 per year for the first two years of the agreement to the City's MAX system, and

WHEREAS, the revenues from the MJC bus program will be budgeted for the operations of MAX's fixed route system as part of the annual budget process.

NOW THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an agreement with MJC Foundation and Stanislaus County, commencing July 1, 2017 to provide a bus pass program for the MAX transit system with

an annual revenue of $100,000, and authorizing the City Manager, or his designee, to execute the agreement.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of April, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-137

RESOLUTION ACCEPTING THE FINAL REPORT AS PRESENTED FOR THE PROJECT TITLED "RETIME DOWNTOWN TRAFFIC SIGNALS – 2010 PROJECT" AS COMPLETE, AND AUTHORIZING THE CITY CLERK TO COMPLETE ALL NECESSARY STEPS TO FILE ALL DOCUMENTS WITH THE STANISLAUS COUNTY CLERK RECORDER

WHEREAS, the Retime Downtown Traffic Signals - 2010 Project has been completed by City of Modesto staff, and

WHEREAS, in 2010, the City of Modesto was awarded a grant from the Congestion Mitigation Air Quality (CMAQ) program to develop more efficient traffic signal timing plans along 18 designated corridors in the City, and

WHEREAS, staff collected traffic data which was used to retime 72 traffic signals within the downtown area of Modesto, and

WHEREAS, on May 27, 2016, timing plans were installed to minimize the impact on motorists.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Retime Downtown Traffic Signals - 2010 Project is hereby accepted as complete.

BE IT FURTHER RESOLVED, the City Clerk is authorized to complete all necessary steps to file all documents with the Stanislaus County Clerk Recorder.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of April, 2017, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zosocki, Mayor Brandvold
NOES:	Councilmembers:	None

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-138

RESOLUTION APPROVING THE AWARD OF BIDS FOR PUMP STATION REJUVENATION SERVICES TO DON PEDRO PUMP, HUGHSON, CA, AS "PRIMARY" CONTRACTOR, AND HOWK SYSTEMS, MODESTO, CA, AS 'SECONDARY" CONTRACTOR, FOR A TWO YEAR AGREEMENT WITH THREE ONE-YEAR EXTENSION OPTIONS AT THE SOLE DISCRETION OF THE CITY, FOR AN ESTIMATED ANNUAL COST OF $600,000, AND $3,000,000 OVER FIVE YEARS, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO ISSUE PURCHASE AGREEMENTS FOR AN ESTIMATED ANNUAL COST OF $600,000

WHEREAS, the City Manager authorizes the Purchasing Manager to issue formal Request for Bids (RFB) for pump station rejuvenation services, and

WHEREAS, on January 24, 2017, the Purchasing Division issued RFB No. 1617-21 Pump Station Rejuvenation Services on the City's website under the commodity codes for pumps and pump accessory maintenance and repair, seventeen companies chose to download the RFB document, and

WHEREAS, bids were formally opened in the City Clerk's Office. Two (2) companies chose to respond, both were local vendors. All companies provided responsive and responsible bids, and

WHEREAS, to ensure continued services to the City, contracts shall be awarded to more than one contractor to provide for backup should the primary contractor be unable to meet the City's needs. A secondary contractor may be awarded a specific job if the primary contractor is unable to perform the service, the primary contractor is unable to complete the specific job within the time frame required by the City, or if the primary contractor is unable to maintain acceptable quality standards required by the City, and

WHEREAS, based on the responsive and responsible bids received, City staff recommends the award of bids for pump station rejuvenation services for the Utilities

Department, Water Services Division and Wastewater Services Division, to Don Pedro Pump, Hughson, CA, as "primary" contractor, and Howk Systems, Modesto, CA, as "secondary" contractor, and

WHEREAS, on February 28, 2017, Council approved Resolution No. 2017-86 implementing a spending freeze to maintain fiscal sustainability of the City. As allowed by the resolution, the City Manager's Office approved an exception to this freeze for this procurement. Justification for this exception is based upon the need of the Utilities Department to strengthen and maintain a safe infrastructure of water supply and sewers to ensure reliable fire protection, water and storm/sewer service to City of Modesto customers.

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed $50,000 for material, equipment or contractual services to be formally bid. The award of bids for the Pump station rejuvenation services to Don Pedro Pump, Hughson, CA, as "primary" contractors and Howk Systems, Modesto, CA, as "secondary" contractor, conforms to the Modesto Municipal Code, and

WHEREAS, the cost for these services will be covered by the Water and Wastewater funds through existing budget in the following cost centers and projects:

4100-45050-53150	Repair and Maintenance Services
CIP – 100800	Well Rehabilitation
4210-44314-53100	UPP – Jennings Plant Maintenance
4210-44313-53100	UPP – Sutter Plant Maintenance
4210-44315-53100	UPP – Sewer Lift Stations
4480-44311-53100	UPP – Stormwater Lift Stations

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the award of bids for pump station rejuvenation services to Don Pedro Pump, Hughson, CA, as "primary" contractor, and Howk Systems, Modesto, CA, as "secondary" contractor.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to issue purchase agreements for an estimated annual cost of $600,000.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of April, 2017, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

RESOLUTION APPROVING AN AGREEMENT WITH DF ENGINEERING, INC., MODESTO, CA, FOR ENGINEERING DESIGN SERVICES FOR THE NINTH STREET STORM DRAIN BASIN AND PUMP STATION PROJECT, IN AN AMOUNT NOT TO EXCEED $89,750 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS $8,975 FOR ADDITIONAL SERVICES, IF NEEDED, FOR A MAXIMUM TOTAL AMOUNT OF $98,725, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the proposed storm drain basin on 9th Street was initially part of the Kansas Needham Overpass Project but was not constructed due to site issues, and

WHEREAS, this storm drain basin is necessary for additional storm water storage, and

WHEREAS, the basin will be designed to maximize the horizontal footprint and vertical depth to achieve optimal storage capacity, and

WHEREAS, a pump station will be also constructed to transfer storm water into the existing nearby MID canal Lat. No.4 once a certain water level in the basin is filled, and

WHEREAS, in addition to the storage basin, new storm drain conveyance and storage improvements will be provided to alleviate the localized flooding experienced at the nearby area of 9th Street and Tully Road, and

WHEREAS, these improvements will provide remediation measures to mitigate storm water from ponding at different locations along 9th Street and will allow the intersections to function in their normal state during storm events without storm water impeding the traffic flow, and

WHEREAS, City staff is recommending the use of a consultant to increase project delivery efficiencies, and

WHEREAS, on September 13, 2016, by Resolution 2016-356, Council approved a prequalified list of local consultants for Civil Engineering Services for Capital Improvement Program (CIP) projects, and

WHEREAS, in accordance with Administrative Directive 3.1, Selection Procedures for Professional Consultants Who Provide Architectural and Engineering Services for Capital Projects, a Request for Proposal (RFP) was sent to four (4) pre-qualified local consultants for Civil Engineering Services for Capital Improvement Program Projects, and

WHEREAS, on December 23, 2017, staff received and distributed two (2) proposals to a selection committee consisting of Utilities engineering staff, and

WHEREAS, the selection committee evaluated the proposals and determined that DF Engineering, Inc., to be the most qualified and responsive, and

WHEREAS, DF Engineering's sealed cost proposal was opened after the selection ranking had been finalized, and

WHEREAS, DF Engineering's proposal cost and scope were reviewed and determined to be reasonable to provide engineering design services, and

WHEREAS, the scope of services to be provided under the agreement includes: 1) Project Management; 2) Meetings with City Staff; 3) Topographic Survey; and 4) Hydraulic calculations, 5) Preparation of Plans and Specifications, 6) Bid Phase Support and 7) Engineering Support During Construction and

WHEREAS, on February 28, 2017, by Resolution No. 2017-86, Council approved implementing a spending freeze in order to maintain fiscal sustainability of the City, and

WHEREAS, as allowed by this resolution, the City Manager's Office approved an exception to this freeze for this procurement, and

WHEREAS, justification for this exception is based upon public safety needs, the project being budgeted in the current Fiscal Year 2016-2017 storm drain fund, and it will not require a budget transfer from reserves to provide the required services, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, this agreement is for professional services and therefore, exempt from the bid requirement, and

WHEREAS, however, staff still went through a RFP process pursuant to Administrative Directive 3.1, and

WHEREAS, staff recommends approval of the agreement with DF Engineering for engineering design services for the Ninth Street Storm Drain Basin and Pump Station Project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with DF Engineering, Inc., Modesto, CA, for design services for the Ninth Street Storm Drain Basin and Pump Station Project, in an amount not to exceed $89,750 for the identified scope of services, plus $8,975 for additional services, if needed, for a maximum total amount of $98,725.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of April, 2017, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING AN EXEMPTION TO THE HIRING FREEZE FOR ONE SENIOR SOFTWARE ANALYST AND ONE SENIOR SYSTEMS TECHNICIAN ASSIGNED TO THE INFORMATION TECHNOLOGY DEPARTMENT

WHEREAS, Council Resolution No. 2017-86, adopted February 28, 2017, imposed a citywide hiring freeze to ensure City hiring practices are consistent with long term fiscal sustainability and comply with current and future anticipated budget constraints, and

WHEREAS, staff has taken actions to implement the provision of Resolution No. 2017-86; and

WHEREAS, there are currently six vacant positions in the Information Technology Department, and

WHEREAS, certain positions are critical to the daily support of emergency service technology at the City of Modesto Police Department and Modesto Fire Department, and

WHEREAS, not filling these positions will negatively impact technology support and service delivery for a department that responds to public safety emergencies, and

WHEREAS, certain positions are critical to the management of the applications support specialists and to manage software upgrades and implementation projects, and

WHEREAS, not filling these positions may impact project timelines and may create cost overruns for projects and could create severe system outage and impact business operations.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Hiring Freeze Exceptions for one Senior Software Analysts and one Senior Systems Technician are hereby approved.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of April, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-141

RESOLUTION APPROVING AN EXEMPTION TO THE HIRING FREEZE FOR NON-BENEFITED PART TIME POSITIONS ASSIGNED TO THE PUBLIC WORKS DEPARTMENT

WHEREAS, Council Resolution No. 2017-86, adopted February 28, 2017, imposed a citywide hiring freeze to ensure City hiring practices are consistent with long term fiscal sustainability and comply with current and future anticipated budget constraints, and

WHEREAS, staff has taken actions to implement the provision of Resolution No 2017-86; and

WHEREAS, certain part-time non benefited positions are critical to the Parks Operations Division and other department programs, and

WHEREAS, without non-benefited part time staff, the City must reduce programs and service levels to a wide variety of services, and

WHEREAS, without part time positions, the City parks will not be maintained at the current levels, tagging abatement will not be completed in a timely manner and mandated fire breaks and fuel reduction will not be completed.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that exception to the hiring freeze non-benefited part time positions assigned to the Public Works Department is hereby approved.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of April, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION FINDING THAT THE FOLLOWING SUBSEQUENT PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (SCH NO. 2007072023): CODE AMENDMENT FOR DIGITAL FREEWAY BILLBOARDS

WHEREAS, on October 14, 2008, the City Council of the City of Modesto certified the Final Master Environmental Impact Report ("Master EIR") (SCH No. 2007072023) for the Modesto Urban Area General Plan, and

WHEREAS, the City of Modesto has proposed a code amendment for digital freeway billboards ("subsequent project"), and

WHEREAS, pursuant to Section 21157.1 of the Public Resources Code, the City of Modesto's Community & Economic Development Department prepared an Environmental Assessment Initial Study EA/C&ED 2016-27 ("Initial Study") which analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report, and

WHEREAS, in accordance with CEQA guidelines beginning on January 17, 2017, the City caused to be published a 20-day notice of the City's intent to make a finding that the subsequent project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on April 11th, 2017, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed

code amendment for digital freeway billboards, a copy of which is **attached** hereto as **Exhibit "A"**, and incorporated herein by reference, and based on substantial evidence in the Initial Study makes the following findings:

1. An Initial Study was prepared by the City of Modesto that analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report.

2. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.

3. No new or additional mitigation measures or alternatives are required.

4. The subsequent project is within the scope of the project covered by the Master EIR.

5. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

6. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of approval or determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of April, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

EXHIBIT A

Initial Study

EA/C&ED 2016-27

City of Modesto

Finding of Conformance to General Plan Master EIR:

Initial Study Environmental Checklist
C&ED No. EA No. 2016-27

For the proposed:

Zoning Code Amendment
CODE-16-001
Digital Freeway Billboards

Prepared by:
City of Modesto
Community & Economic Development Department
Planning Division

December 12, 2016

(Intentional Blank Page)

City of Modesto
Master EIR Initial Study Environmental Checklist

I. PURPOSE

CEQA allows for the limited environmental review of subsequent projects under the City's Master Environmental Impact Report ("Master EIR" or "MEIR"). This Initial Study Environmental Checklist ("Initial Study") is used in determining whether Zoning Code Amendment, Digital Freeway Billboards, is "within the scope" of the project analyzed in the Modesto Urban Area General Plan Master EIR (SCH# 2007072023) (Public Resources Code section 21157.1). When the Initial Study supports this conclusion, the City will issue a finding of conformance.

A subsequent project is "within the scope" of the Master EIR when:

1. it will have no additional significant effects on the environment that were not addressed as significant effects in the Master EIR; and

2. no new or additional mitigation measures or alternatives are required.

"Additional significant effects" means a project-specific effect that was not addressed as a significant effect in the Master EIR. [Public Resources Code Section 21158(d)]

The determination must be based on substantial evidence in the record. "Substantial evidence" means facts, reasonable assumptions predicated upon facts, or expert opinion based on facts. It does not include speculation or unsubstantiated opinion. (CEQA Guidelines Section 15384)

II. PROJECT DESCRIPTION

A. Title: Zoning Code Amendment, Digital Freeway Billboards

B. Address or Location: Various locations along State Highway 99

C. Applicant: City of Modesto

D. City Contact Person: Paul Liu
Project Manager: Paul Liu
Department: Community and Economic Development
Phone Number: 209-577- 5267
E-mail address: pliu@modestogov.com

E. Current General Plan Designation(s): Not applicable

F. Current Zoning Classification(s): Not applicable

G. Surrounding Land Uses: Not applicable

H. Project Description, including the project type listed in Section II.C (Anticipated Future Projects) of the Master EIR (Attach additional maps/support materials as needed for complete record): The proposed project is an amendment the Zoning Code allow digital freeway

billboards. The Zoning Code amendment include a requirement for a conditional use permit approval for new digital freeway billboards and specific development standards such as sign height, size, location, aesthetics, and illumination level. No application to construct a new digital billboard is part of this proposal.

I. Other Public Agencies Whose Approval is Required: None

III. FINDINGS/DETERMINATION (SELECT ONE ON THE BASIS OF THE ANALYSIS IN SECTION IV)

1. _X_ **Within the Scope** - The project is within the scope of the Master EIR and no new environmental document or Public Resources Code Section 21081 findings are required. All of the following statements are found to be true:

   A. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.

   B. No new or additional mitigation measures or alternatives are required.

   C. The subsequent project is within the scope of the project covered by the Master EIR.

   D. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

   E. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

2. ____ **Mitigated Negative Declaration Required** - On the basis of the above determinations, the project is not within the scope of the Master EIR. A mitigated negative declaration will be prepared for the project. The following statements are all found to be true:

   A. The subsequent project is within the scope of the project covered by the Master EIR.

   B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

   C. The project will have one or more potential new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures are being required of the project that will reduce the effects to a less-than-significant level.

   D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

3.____ **Focused EIR Required-** On the basis of the above determinations, the project is not within the scope of the Master EIR. A Focused EIR will be prepared for the project. All of the following statements are found to be true:

A. The subsequent project is within the scope of the project covered by the Master EIR.

B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

C. The project will have one or more new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures or alternatives are required as a result.

D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

Project Manager	Title	Date

4. Within the Scope Analysis of this Document:

The Master EIR allows projects to be found within the scope of the MEIR if certain criteria are met. If the following statements are found to be true for all 21 impact categories included in this Initial Study, then the proposed project is addressed by the MEIR analysis and is within the scope of the MEIR. Any "No" response must be discussed.

		YES	NO
(1)	The lead agency for subsequent projects shall be the City of Modesto or a responsible agency identified in the Master EIR.	☒	☐
(2)	City policies which reduce, avoid, or mitigate environmental effects will continue to be in effect and, therefore, would be applied to subsequent projects where appropriate. The policies are described in the list of policies in place and mitigation measures attached to the Initial Study template. Project impacts would be mitigated to a less-than-significant level using MEIR mitigations only.	☒	☐
(3)	Federal, State, regional, and Stanislaus County regulations do not change in a manner that is less restrictive on development than current law (i.e., would not offer the same level of protection assumed under the Master EIR).	☒	☐
(4)	No specific information concerning the known or potential presence of significant resources is identified in future reports, or through formal or informal input received from responsible or trustee agencies or other qualified sources.	☒	☐
(5)	The development will occur within the boundaries of the City's planning area as established in this Urban Area General Plan.	☒	☐
(6)	Development within the project will comply with all appropriate mitigation measures contained and enumerated in the 2008 General Plan Master EIR.	☒	☐

Discussion:

(1) The Zoning Code Amendment is not a development project. The City of Modesto will be the lead agency for subsequent projects for a new digital freeway billboard.

(2) No modifications to the Urban Area General Plan are proposed as part of this project. No significant impacts are expected to occur beyond those identified in the Urban Area General Plan Master EIR and all relevant mitigations/policies will be applied.

(3) The proposed project does not include changes to federal, state, regional, or county regulations.

(4) There is no new information regarding the presence of significant resources.

(5) The Zoning Code Amendment is not a development project.

(6) The Zoning Code Amendment is not a development project.

5. Currency of the Master EIR Document

The MEIR should be reviewed on a regular basis to determine its currency, and whether additional analysis/mitigation should be incorporated into the MEIR via a Supplemental or Subsequent EIR (CEQA Section 21157.6). Staff has reviewed Sections 1 through 21 of this document in light of the criteria listed below to determine whether the MEIR is current. The analysis contained within the Master EIR is current as long as the following circumstances have not changed. Any "no" response must be explained.

		YES	NO
(1)	Certification of the General Plan Master EIR occurred less than five years prior to the filing of the application for this subsequent project.	☐	☒
(2)	This project is described in the Master EIR and its approval will not affect the adequacy of the Master EIR for any subsequent project because the City can make the following findings:	☒	☐
(a)	No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified.	☒	☐
(b)	No new information, which was not known and could not have been known at the time the Master EIR was certified as complete, has become available.	☒	☐
(c)	Policies remain in effect which require site-specific mitigation, and avoidance or other mitigation of impacts as a prerequisite to future development.	☒	☐

Discussion:

(1) The General Plan Master EIR was certified on October 14, 2008, so more than five years has passed since the MEIR was certified. However, the analysis contained in the MEIR is still adequate for subsequent projects, as documented in the discussion below.

(2) The project is consistent with the analysis contained in the MEIR. This is documented in the discussion of the individual issue areas of this initial study.

(2)(a) There have been no substantive changes to the General Plan since the MEIR was certified that would create additional significant environmental effects that were not analyzed by the MEIR.

(2)(b) There has been no new information that would affect the adequacy of the analysis contained in the MEIR.

(2)(c) All policies contained in the MEIR that require site-specific mitigation or avoidance of impacts remain in effect and will be applied to the project as appropriate.

IV. ENVIRONMENTAL ANALYSIS

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, discloses whether the proposed project may cause any project-specific significant effect on the environment that was not examined in the Final Master EIR (MEIR) for the General Plan and whether new or additional mitigation measures or alternatives may be required as a result. The Initial Study thereby documents whether or not the project is "within the scope" of the Master EIR.

Pursuant to Public Resources Code Section 21157.1, no new environmental document or findings are necessary for projects that are determined to be within the scope of the MEIR. Adoption of the findings specified in Section III.1, above after completion of the Initial Study fulfills the City's obligation in that situation.

All environmental effects cited reflect 2025 conditions resulting from the Urban Area General Plan, as identified in the Master EIR.

The environmental impact analysis in the Master EIR for the Urban Area General Plan is organized in twenty-one subject areas. The following analysis is based on the impact analyses contained in Chapter V of the Master EIR. For ease of reference, the sections are numbered in the same order as the analyses in Chapter V.

1. TRAFFIC AND CIRCULATION

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable traffic and circulation impacts expected after application of mitigations / policies:

Direct Impacts

Effect: Increased automobile traffic will result in roadway segments (see MEIR on Table 1-7, pages V-1-32 to V-1-34) operating at LOS D, Modesto's significance threshold for automobile traffic, or lower (LOS E or F).

Effect: The substantial increase in traffic relative to the existing load and capacity of the street system will cause, either individually or cumulatively, the violation of automobile service standards established by StanCOG's Congestion Management Plan for designated roads and highways.

Effect: A substantial increase in automobile vehicle miles traveled and automobile vehicle hours of travel and a decrease in average automobile vehicle speed (see MEIR Table 1-6, page V-1-31).

Cumulative Impacts

Effect: Potential for growth inducement or acceleration of development resulting from highway and local road projects.

Effect: Substantial increase in traffic in relation to the existing traffic load and capacity of the street system, including a violation, either individually or cumulatively, of an automobile LOS standard established by the Congestion Management Plan for designated roads and highways.

Effect: Increased demand for capacity-enhancing alterations to existing roads or automobile traffic reduction.

Other impact categories affected by Traffic and Circulation are addressed throughout this Initial Study (see also Section 2, Degradation of Air Quality; Section 3, Generation of Noise; Section 7 Loss of Sensitive Wildlife and Plant Habitat; Section 8, Disturbance of Archaeological/Historic Sites; Section 14 Increased Demand for Fire Services; Section 18, Energy; Section 19, Visual Resources; Section 20, Land Use and Planning, and Section 21, Climate Change).

b. Master EIR and/or New Mitigation Measures Applied to the Project

Traffic and Circulation mitigation measures pertinent to this project are found on MEIR pages V-1-9 through V-1-28. All mitigation measures appropriate to the project, including any new measures, will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-1.B of the Master EIR provides analysis of Traffic and Circulation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: A subsequent development project will have a new significant effect on the environment if it would exceed the following criteria:

1. TRAFFIC AND CIRCULATION	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project exceeds traffic generation assumptions in the Master EIR for the site by 100 trips or more and City Engineering and Transportation staff has determined that the project would have additional potentially significant project-specific effects that are not avoided or reduced by the Master EIR's mitigation measures.	☐	☐	☐	☒
2) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads or highways?	☐	☐	☐	☒
3) The proposed project would cause additional roadway segments in the General Plan area to exceed LOS D and/or cause additional violations of standards in the Congestion Management Plan, and/or cause an increase in automobile vehicle miles or vehicle hours of travel or a decrease in automobile travel speed, as compared to the impacts disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project would cause emergency	☐	☐	☐	☒

1. TRAFFIC AND CIRCULATION	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
response times to exceed acceptable standards established by the Fire Department, as compared to impacts disclosed in the Master EIR (see Section 14, Increased Demand for Fire Services).				
5) The proposed project would result in less parking than required by the Municipal Code or as determined by staff.	☐	☐	☐	☒
6) The proposed project would conflict with adopted policies, plans, or programs that support alternative transportation, including, but not limited to the Regional Transportation Plan, the Sustainable Communities Strategy, the Bicycle Action Plan, etc.	☐	☐	☐	☒
7) The proposed project would result in an increase in automobile vehicle miles traveled on a per capita basis, in excess of that considered in the Urban Area General Plan MEIR.	☐	☐	☐	☒

Discussion:

(1) The proposed project is a Zoning Code amendment that will allow for digital freeway billboards and will have no effect on traffic generation assumptions.

(2) The project will have no effect on the level of service standard established by the county congestion management.

(3) The project will have no effect on traffic and circulation issues.

(4) The project will have no effect on emergency response time.

(5) The project will have no effect on meeting parking requirements.

(6) The project will have no effect on alternative transportation policies.

(7) The project will have no effect on automobile vehicle miles traveled.

2. DEGRADATION OF AIR QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable air quality impacts expected after application of mitigations / policies:

Direct Impacts

Effect: Expected automobile traffic will result in increased operational emissions of reactive organic gases (ROG) and oxides of nitrogen (NO_X) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased emissions of particulate matter 10 microns or less (PM_{10}) and 2.5 microns or less in diameter ($PM_{2.5}$) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased carbon monoxide (CO) levels in the project area (see MEIR Table 2-7, page V-2-26, and Table 2-8, page V-2-27).

Cumulative Impacts

The Master EIR indicates the same impacts identified as direct impacts above will contribute to regional impacts on air quality for the criteria pollutants ROG, NO_x, PM_{10}, and $PM_{2.5}$.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Air quality mitigation measure(s) pertinent to the proposed project are found on pages V-2-13 through V-2-24 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-2.B of the Master EIR is the analysis of air quality impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

2. DEGRADATION OF AIR QUALITY	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project exceeds the project-level emissions thresholds established for CO, ROG, NO_x, PM_{10}, and $PM_{2.5}$ by the San Joaquin Valley Air Pollution Control District (SJVUAPCD) and is not consistent with the development assumptions for the project site, as established in the Urban Area General Plan and Master EIR.	☐	☐	☐	☒
2) The proposed project does not incorporate the best management practices established by the SJVAPCD for CO, ROG, NO_x, PM_{10}, and $PM_{2.5}$.	☐	☐	☐	☒
3) The proposed project does not comply with the air quality policies in the Modesto Urban Area General Plan.	☐	☐	☐	☒
4) The proposed project would expose sensitive receptors to pollutant concentrations in excess of those expected to occur as a result of implementation of the Urban Area General Plan.	☐	☐	☐	☒
5) The proposed project would create objectionable odors affecting a substantial number of people.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on emissions thresholds.

(2) The project will have no effect on best management practices established by the SJVAPCD.

(3) The project will have no effect on air quality policies.

(4) The project will have no effect on sensitive receptors.

(5) The project will not result in the creation of objectionable odors.

3. GENERATION OF NOISE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable noise impacts expected after application of mitigations / policies:

Direct Impacts

Effect: Future automobile traffic noise levels and roadway construction and maintenance activities resulting from development of the Urban Area General Plan will exceed the City's noise thresholds at various locations, but particularly in areas adjacent to heavily traveled roadways (see MEIR Table 3-3, page V-3-10, and Figure VII-2 and Table 3-6, pages V-3-18 and V-3-19).

Effect: Expected noise from airport operations and airport construction projects may expose up to 468 dwellings and three churches to noise levels of 65 dB CNEL and up to eight dwellings to noise levels of 70 dB CNEL.

Effect: Expose noise-sensitive land uses to noise from the construction of bicycle and transit projects.

Effect: Expose noise-sensitive land uses to noise from freight and passenger rail operations.

Cumulative Impacts

Effect: Traffic from development in the City of Modesto would, when combined with traffic from new development in the County and other cities, contribute to a cumulative increase in roadside noise levels on major roads and highways throughout Stanislaus County.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Noise policies and mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-3-11 through V-3-15 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and any new measures are listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-3.B of the MEIR discloses noise impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of the proposed project's effects are based on the following thresholds. Project-specific effects will be less than significant unless:

3. GENERATION OF NOISE	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project will exceed the standards for noise level and hours of operation established by the Modesto noise ordinance.	☐	☐	☐	☒
2) The proposed project will not comply with the noise policies of, or otherwise be inconsistent with, the Modesto Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project will result in an increase in ambient noise levels in the project vicinity above those disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project will result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels disclosed in the Master EIR implementation of the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on noise level standards.

(2) The project will have no effect on noise policies.

(3) The project will not result in an increase of ambient noise levels.

(4) The project will not result in a temporary or periodic increase of ambient noise levels.

4. EFFECTS ON AGRICULTURAL LANDS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on agricultural lands expected after application of mitigations / policies:

Direct Impacts

Effect: Between 1995 and 2025, development of the Urban Area General Plan may convert up to approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area to urban uses.

Effect: Approximately 1,200 acres of urban development along a 28.5-mile boundary 350 feet wide between urban and agricultural uses could be affected by continued agricultural operations, including noise, dust, and chemical overspray or drift.

Cumulative Impacts

Effect: Growth within Modesto's planning area would contribute considerably to the loss of agricultural land within Stanislaus County, accounting for the conversion of as much as approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area from 1995 to 2025.

b. Master EIR and/or New Mitigation Measures Pertinent to the Project

Agricultural land mitigation measures pertinent to the proposed project are found on pages V-4-6 to and V-4-8 of the Master EIR. All mitigation measures appropriate to the project and any new mitigation to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-4.B of the Master EIR discloses the impacts resulting from the implementation of the Urban Area General Plan on agricultural lands. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

4. EFFECTS ON AGRICULTURAL LANDS	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with the Urban Area General Plan's policies relating to agricultural land.	☐	☐	☐	☒
2) The proposed project will either directly or indirectly result in the development of land outside the 2008 Urban Area General Plan's planning area boundary.	☐	☐	☐	☒
3) The proposed project will conflict with existing zoning for agricultural use, or there is an existing Williamson Act contract on the project site.	☐	☐	☐	☒
4) The proposed project will involve other changes in the existing environment not anticipated in the Master EIR which, due to their location or nature, could result in conversion of farmland to non-agricultural use.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on agricultural land policies.

(2) The project will have no effect on development outside the Modesto planning area.

(3) The project will have no effect on land zoned for agricultural use or with Williamson Act contract.

(4) The project will have no effect on the conversion of farmland to non-agricultural use.

5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on long-term water supplies expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts have been disclosed in the Master EIR.

Cumulative Impacts

Effect: Operational yields of the Modesto and Turlock subbasins, both of which underlie the City of Modesto, are unknown, although the City is participating in a study with the United States Geological Survey in order to quantify the operational yields of both subbasins. Groundwater withdrawals from both basins by the City, when combined with other users' withdrawals, may result in overdrafting both subbasins.

Effect: Despite available options, during drought years, significant water shortages are forecast for the San Joaquin River basin, which includes both the Modesto and Turlock subbasins, by 2020. Modesto would make a cumulatively considerable contribution to the cumulative impact on water supply under drought conditions.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Water supply mitigation measures pertinent to the proposed project are found on pages V-5-6 through V-5-12 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-5.B of the Master EIR discloses impacts on long-term water supplies resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with water supply policies in the Urban Area General Plan.	☐	☐	☐	☒
2) Water demand for the proposed project will exceed estimates for similar projects or for development on the project site anticipated in the Urban Area General Plan or sufficient water supplies are not otherwise available to serve the project from existing entitlements and resources.	☐	☐	☐	☒
3) The proposed project would deplete groundwater supplies to a greater degree than anticipated in the Urban Area General Plan or would interfere with groundwater recharge.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on the water supply.

(2) The project will have no effect on water demand.

(3) The project will have no effect on groundwater supply.

6. INCREASED DEMAND FOR SANITARY SEWER SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sanitary sewer services after application of mitigations / policies:

Direct Impacts

Effect: Development resulting from implementation of the Urban Area General Plan will require substantial new sewage treatment and disposal capacity, treatment plant improvements, sewer mains and collection lines, and pump stations. The Wastewater Master Plan anticipates the need for these facilities and its EIR evaluates the impact of developing those facilities. Potential impacts include degradation of water quality through erosion and chemical releases; localized flooding; construction noise; exposure of construction workers and the public to hazardous materials; and on the habitat of the elderberry longhorn beetle, burrowing owl, and Swainson's hawk, as well as certain other regulated habitats. All of these impacts are mitigated to a less-than-significant level.

Additional impacts that are not mitigated to a less-than-significant level include loss of farmland cause by construction of the Phase IA tertiary treatment facility at the Jennings Road Secondary Treatment Facility, an increase in pollutant loads from increased wastewater flows to the San Joaquin River, and an increase in noise and criteria air pollutants due to construction activities, including traffic.

Cumulative Impacts

Effect: No additional cumulative impacts were identified in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Sewer service mitigation measures pertinent to the proposed project are found on pages V-6-3 through V-6-8 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-6.B of the Master EIR discloses impacts on the Increased Demand for Sanitary Sewer Service resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

6. INCREASED DEMAND FOR SANITARY SEWER SERVICES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with wastewater policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project will generate sewage flows greater than those anticipated in the Urban Area General Plan for the project site.	☐	☐	☐	☒
3) The proposed project will result in a determination by the wastewater treatment provider which serves or may serve the project that it has inadequate capacity to serve the project's projected demand in addition to the provider's existing commitments.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on the wastewater policies.

(2) The project will have no effect on sewage flows.

(3) The project will have no effect on wastewater capacity.

7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sensitive wildlife and plant habitat expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant impacts on sensitive wildlife and plan habitat are expected to occur with the application of the policies contained in the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will contribute to the cumulative impact of habitat loss in the San Joaquin Valley. Requiring density development than has occurred in the past or that is expected in the future would minimize the City's contribution to the cumulative loss of habitat. Nonetheless, this is a significant and unavoidable impact.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Wildlife and plant habitat mitigation measures pertinent to the proposed project are found on pages V-7-17 through V-7-24 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-7.B of the Master EIR discloses impacts on the Loss of Sensitive Wildlife and Plant Habitat resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The project is inconsistent with the policies pertaining to the loss of sensitive wildlife and plant habitat contained in the Urban Area General Plan.	☐	☐	☐	☒
2) Consultation with the California Department of Fish and Game or the U.S. Fish and Wildlife Service determines that the project would have a significant effect on a candidate, sensitive, or special status species in excess of the impact disclosed in the Master EIR.	☐	☐	☐	☒
3) The proposed project would have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act through direct removal, filling, hydrological interruption, or other means, in excess of the impact disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project would substantially interfere with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites.	☐	☐	☐	☒
5) Conflict with local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.	☐	☐	☐	☒
6) The proposed project would conflict with provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on wildlife and plant habitat policies.

(2) The project will have no effect on a candidate, sensitive, or special status species in excess of the impact disclosed in the Master EIR.

(3) The project will have no effect on federally protected wetlands.

(4) The project will have no effect on native resident or migratory fish or wildlife species.

(5) The project will have no effect on local policies or ordinances protecting biological resources.

(6) The project will have no effect on local, regional, or state habitat conservation plan.

8. DISTURBANCE OF ARCHAEOLOGICAL/HISTORICAL SITES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on archaeological/historical sites expected after application of mitigations / policies:

Direct Impacts

Effect: Modification resulting in a substantial adverse change in the significance of a historic resource or the demolition of a listed or eligible historic resource.

Effect: The modification or demolition of a structure more than 50 years in age may be significant.

Effect: Discovery of archaeological resources, in areas outside of the riparian corridors, as a result of construction activities.

Effect: Construction in an area of high archaeological sensitivity.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Archaeological or historic mitigation measures pertinent to the project being analyzed in this Initial Study are found on page V-8-16 through V-8-20 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-8.B of the MEIR discloses impacts on archaeological/historical resources resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

8. DISTURBANCE OF ARCHAEOLOGICAL/ HISTORICAL SITES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with the archaeological / historical resource policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would demolish a building eligible for listing as a historic resource or remove a landmark from the Modesto inventory.	☐	☐	☐	☒
3) The proposed project would modify or demolish a structure more than 50 years old.	☐	☐	☐	☒
4) The project would adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources.	☐	☐	☐	☒
5) The project would adversely affect a Tribal Cultural Resource identified and/or defined by the applicable Tribe.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on archaeological/historical resource policies.

(2) The project will have no effect on historical buildings or landmarks.

(3) The project will have no effect on structures.

(4) The project will have no effect on cultural resources.

(5) The project will have no effect on tribal cultural resources.

9. INCREASED DEMAND FOR STORM DRAINAGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on storm drainage expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: The population of Stanislaus County is projected to increase in a fashion similar to that of Modesto, resulting in additional urban development and associated increases in impervious surface area and associated increases in storm water runoff. Cumulative hydrologic impacts of storm water flows from Modesto urban areas and other areas of the County could occur due to the fixed capacity of MID and TID irrigation canals to convey drainage west to the San Joaquin River. If drainage channels in some areas prove insufficient to handle the increased drainage discharges, existing storm water runoff from urban and agricultural areas during large storm events would have to be interrupted until water levels receded to a point allowing the resumption of discharges to the channel.

Ceasing discharges to drainage channels could cause inundation in and around the drainage conveyance pipeline systems, surface drainage channels, detention basins, and other urban areas. This cumulative impact is considered significant and unavoidable.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Storm Drainage mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-9-4 through V-9-9. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project:

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-9.B of the MEIR discloses impacts on the demand for storm drainage resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

9. INCREASED DEMAND FOR STORM DRAINAGE	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with the storm drainage policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or offsite, as compared to impacts anticipated to result from the Urban Area General Plan or create substantial unanticipated sources of polluted runoff.	☐	☐	☐	☒
3) The proposed project does not utilize Low Impact Development strategies to reduce runoff from the site and increase infiltration, resulting in no net increase in runoff before and after development.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on storm drainage policies.

(2) The project will have no effect on surface runoff.

(3) The project will have no effect on Low Impact Development strategies to reduce runoff.

10. FLOODING AND WATER QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on flooding and water quality expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Flooding and Water Quality mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-10-6 through V-10-9 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-10.B of the Master EIR provides analysis of Flooding and Water Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

10. FLOODING AND WATER QUALITY	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with the flooding and water quality policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project does not comply with the regulatory requirements of the federal Clean Water Act or the State Porter-Cologne Act.	☐	☐	☐	☒
3) The proposed project would place more housing within a 100-year flood hazard zone than assumed in the Urban Area General Plan.	☐	☐	☐	☒
4) The proposed project would place structure within a 100-year flood hazard area so that they would impede or redirect floodwater or would substantially alter the existing on-site drainage pattern or a	☐	☐	☐	☒

10. FLOODING AND WATER QUALITY	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
watercourse, in such a way as to cause flooding on- or off-site.				
5) The proposed project does not comply with Modesto's Guidance Manual for New Development Storm Water Quality Control Measures.	☐	☐	☐	☒
6) The proposed project would violate water quality standards or waste discharge requirements.	☐	☐	☐	☒
7) The proposed project would substantially alter the existing drainage pattern of the site or area or a watercourse in a manner that would result in substantial erosion or siltation on- or offsite in excess of the assumptions of the General Plan.	☐	☐	☐	☒
8) The proposed project would create or contribute runoff, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff, not expected as part of General Plan implementation.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on flooding and water quality policies.

(2) The project will have no effect on federal Clean Water Act or the State Porter-Cologne Act.

(3) The project will not result in more housing within a 100-year flood hazard zone.

(4) The project will have no effect on flooding.

(5) The project will have no effect on Modesto's Guidance Manual for New Development Storm Water Quality Control Measures.

(6) The project will have no effect on water quality standards or waste discharge requirements.

(7) The project will have no effect on existing drainage pattern of the site or area or a watercourse in a manner that would result in substantial erosion or siltation.

(8) The project will have no effect on runoff.

11. INCREASED DEMAND FOR PARKS AND OPEN SPACE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on parks and open space expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Parks and open space mitigation measures pertinent to the proposed project are found on pages V-11-3 through V-11-9 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-11.B of the MEIR discloses impacts of the Urban Area General Plan on parks and open space. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

11. INCREASED DEMAND FOR PARKS AND OPEN SPACE	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with the parks and open space policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would eliminate parks or open space.	☐	☐	☐	☒
3) The proposed project would cause an increase in the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility in question would occur or be accelerated or the proposed project would include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on parks and open space policies.

(2) The project will have no effect on parks and open space.

(3) The project will have no effect on parks and recreation facilities.

12. INCREASED DEMAND FOR SCHOOLS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on school facilities expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR. By statute, the impact of new students is considered to be mitigated below a level of significance by payment of school impact fees and the exercise of any or all of the financing options set out in Government Code Section 65997.

Cumulative Impacts

Effect: Similar to direct impacts of implementation of the Urban Area General Plan, no residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. As long these policies are applied to all subsequent projects, no new mitigation is necessary. Further, payment of school impact fees and compliance with SB 50 is statutorily deemed to be full mitigation of school impacts (Government Code Section 65995).

The following schools mitigation measures on pages V-12-5 through V-12-7 of the Master EIR are pertinent to the proposed project. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures are listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-12.B of the Master EIR discloses impacts resulting from implementation of the Urban Area General Plan associated with increased demand for schools. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

12. INCREASED DEMAND FOR SCHOOLS	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with the policies relating to schools in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project does not comply with SB 50/Proposition 1A funding provisions, or succeeding measures which state that compliance results in less-than-significant impacts on schools.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on school policies.

(2) The project will have no effect on SB 50/Proposition 1A funding provisions.

13. INCREASED DEMAND FOR POLICE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on police services expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Police services mitigation measures pertinent to the proposed project are found on pages V-13-2 through V-13-5 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-13.B of the Master EIR discloses impacts on police services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

13. INCREASED DEMAND FOR POLICE SERVICES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with policies relating to police services in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect to police policies.

(2) The project will not result in the need for more police facilities.

14. INCREASED DEMAND FOR FIRE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on fire services expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Fire Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-14-4 through V-14-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-14.B of the Master EIR discloses impacts on fire services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

14. INCREASED DEMAND FOR FIRE SERVICES	**Potentially Significant Impact**	**Less Than Significant with Mitigation Incorporated**	**Less Than Significant Impact**	**No Impact**
1) The proposed project is inconsistent with the fire service policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	☐	☐	☐	☒
3) The proposed project, based upon substantial evidence, would cause the erosion or elimination of fire protection services in adjoining fire protection districts.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on fire service policies.

(2) The project will not result in the need for more fire service facilities.

(3) The project will have no effect on fire protection services in adjoining fire protection districts.

15. GENERATION OF SOLID WASTE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on solid waste expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Solid waste mitigation measures pertinent to the proposed project are found on pages V-15-4 through V-15-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.
Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-15.B of the Master EIR discloses solid waste impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

15. GENERATION OF SOLID WASTE	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The project is inconsistent with the solid waste policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The County is unable to expand its solid waste disposal capacity, as expected, causing all new development to result in cumulative impacts on the County's disposal capacity.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on solid waste policies.

(2) The project will have no effect on the County solid waste facility.

16. GENERATION OF HAZARDOUS MATERIALS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts regarding hazardous materials expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Hazardous materials mitigation measures pertinent to the proposed project are found on pages V-16-8 through V-16-13 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-16.B of the Master EIR discloses impacts on hazardous materials resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

16. GENERATION OF HAZARDOUS MATERIALS	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The project is inconsistent with the hazardous materials policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.	☐	☐	☐	☒
3) The proposed project would be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would create a significant hazard to the public or the environment.	☐	☐	☐	☒
4) The proposed project would be constructed on a contaminated site not known to the State of California as of March 2008.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on hazardous materials policies

(2) The project will not result in emitting hazardous emissions or handling hazardous materials.

(3) The project will not result in locating projects on hazardous materials sites.

(4) The project will not result in locating projects on contaminated sites.

17. GEOLOGY, SOILS, AND MINERAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts related to geology, soils, and mineral resources expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Geology, soils, and mineral resource mitigation measures pertinent to the proposed project are found on pages V-17-9 and V-17-10 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of the proposed project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-17.B of the Master EIR discloses geology, soils, and mineral resource impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

17. GEOLOGY, SOILS, AND MINERAL RESOURCES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The project is inconsistent with policies relating to geology, soils, and mineral resources contained in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would expose people or structures to potential substantial adverse effects including the risk off loss, injury, or death involving fault rupture, strong seismic activity; location on an expansive soil; result in the loss of topsoil; location on soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems in areas where sewers are not available for the disposal of wastewater; result in the loss of known mineral resources that would be of value to	☐	☐	☐	☒

17. GEOLOGY, SOILS, AND MINERAL RESOURCES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
the region and the state; or result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan.				

Discussion:

(1) The proposed project will have no effect on geology, soils, and mineral resources policies.

(2) The project will not result in exposing people or structure to seismic activities, location on expansive soils, or loss of mineral resources.

18. ENERGY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to energy expected after application of mitigations / policies:

Direct Impacts

Effect: Continued development in the Planned Urbanizing Area would have an impact on available energy supplies. Energy consumption likely would increase substantially by 2025 as a result of implementation of the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on energy consumption.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following energy mitigation measures pertinent to the proposed project are found on pages V-18-2 through V-18-8 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

18. ENERGY	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with policies relating to energy in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in energy consumption during construction, operation, maintenance, or removal that is more wasteful, inefficient, and unnecessary than assumed in the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on energy policies.

(2) The project will not result in wasteful energy consumption during future construction activities.

19. EFFECTS ON VISUAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on visual resources expected after application of mitigations / policies:

Direct Impacts

Effect: New development in the Planned Urbanizing Area will occur in areas that are in agricultural production or are otherwise lightly developed, which could lead to the introduction of light and glare in areas that have little nighttime illumination.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following visual resources mitigation measures pertinent to the proposed project are found on pages V-19-3 and V-19-4 in the Master EIR. All mitigation measures appropriate to the proposed project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

19. EFFECTS ON VISUAL RESOURCES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with policies relating to visual resources in the Urban Area General Plan.	☐	☐	☒	☐
2) The proposed project would degrade views from riverside areas and parks to a greater degree than assumed in the Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project would degrade views of riverside areas from public roadways and nearby properties to a greater degree than assumed in the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1) The proposed zoning code amendment to allow digital freeway billboards would include standards that address visual resources policies. The allowed size and height would be consistent with other existing billboards along freeways. There is a provision to remove existing nonconforming billboards in exchange for a new digital billboard in the effort to reduce sign clutter. New digital freeway billboards must be located within 660 feet of the freeway and shall not be located on any parcel with a residential zone and residential use. The sign structure and support pole must be streamlined so as not to call extra attention. The sign shall not result in substantial reduction in existing landscaping. The digital freeway billboard shall display static messages only and shall meet specified brightness levels. A conditional use permit is required for any digital freeway billboard. The proposed code amendment will not affect scenic vistas, scenic resources, or light and glare. The visual impacts will be less than significant.

(2) The project will have no effect on views from riverside areas and parks.

(3) The project will have no effect on views of riverside areas from public roadways and nearby properties.

20. LAND USE AND PLANNING

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to land use and planning expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following land use and planning mitigation measures pertinent to the proposed project are found on pages V-20-6 through V-20-17 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-20.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on land use and planning. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

20. LAND USE AND PLANNING	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with land use and planning policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project contains elements that would physically divide an established community in a way not assumed in the Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project conflicts with a land use plan, policy or regulation established for the purpose of avoiding or mitigating an environmental impact by an agency that has jurisdiction over the proposed project.	☐	☐	☐	☒
4) The proposed project conflicts with an applicable habitat conservation plan or natural community conservation plan.	☐	☐	☐	☒

Discussion:

(1) The proposed project will be consistent land use and planning policies.

(2) The project will not result in the physical division of an established community.

(3) The project will have no effect on a land use plan, policy or regulation established for the purpose of avoiding or mitigating an environmental impact.

(4) The project will have no effect on applicable habitat conservation plan or natural community conservation plan.

21. CLIMATE CHANGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to climate change expected after application of mitigations / policies:

Direct Impacts

Effect: Impacts resulting from implementation of the Urban Area General Plan are not substantial enough to result in a significant direct impact on climate change, as disclosed in the Master EIR.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on climate change.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following climate change mitigation measures pertinent to the proposed project are found on pages V-21-7 through V-21-10 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on climate change. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

21. CLIMATE CHANGE	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with policies relating to climate change in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in average automobile trip lengths or CO_2 emissions higher than those assumed in the Master EIR.	☐	☐	☐	☒
3) The proposed project would conflict with the Sustainable Communities Strategy or Alternative Planning Strategy that the Air Resources Board has agreed will achieve the goals of AB 32.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on climate change policies

(2) The project will have no effect on automobile trip lengths or CO2 emissions.

(3) The project will have no effect on the Sustainable Communities Strategy or Alternative Planning Strategy.

V. MITIGATION MEASURES APPLIED TO THE PROPOSED PROJECT

If the Initial Study results in the determination that a Finding of Conformance can be adopted for the proposed project Section A below applies. If the Initial Study results in the determination that a Finding of Conformance cannot be adopted and a Mitigated Negative Declaration/EIR must be prepared for the project then Section B, below applies.

A. Master EIR Mitigation Measures Applied to the Project

Pursuant to Public Resources Code Section 21157.1(c), in order for a Finding of Conformance to be made, all appropriate mitigation measures from the Master EIR shall be incorporated into the proposed project. Urban Area General Plan Policies/Master EIR mitigation measures shall be made part of the proposed project prior to approval by means of conditions of project approval or incorporation into the appropriate document or plan.

No mitigation measures from the Master EIR are applicable and appropriate to the proposed project for a code amendment to allow digital freeway billboards. No physical project is included in this project. When a digital billboard is proposed, the required conditional use permit application process will include consideration of applicable mitigation measures.

B. New or Additional Mitigation Measures or Alternatives Required

Where the project's effects would exceed the significance criteria for each environmental impact category, a mitigated negative declaration or Focused EIR must be prepared. Staff has reviewed the project against the significance criteria thresholds established in the Master EIR for all impact categories in this Initial Study.

No additional project-specific mitigation measures are necessary for this project. A Mitigated Negative Declaration or Focused EIR is not needed.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-144

Print

RESOLUTION FINDING THAT THE FOLLOWING SUBSEQUENT PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (STATE CLEARINGHOUSE NO. 2007072023): AMENDMENT TO SECTION 22-3-9 OF THE ZONING MAP OF THE CITY OF MODESTO TO REZONE FROM LOW DENSITY RESIDENTIAL (R-1) ZONE TO PROFESSIONAL OFFICE (P-O) ZONE, PROPERTY LOCATED AT 1237 OAKDALE ROAD, SOUTH OF EAST ORANGEBURG AVENUE

WHEREAS, on October 14, 2008, the City Council of the City of Modesto certified the Final Master Environmental Impact Report ("Master EIR") (SCH No. 2007072023) for the Modesto Urban Area General Plan, and

WHEREAS, Dr. Tong Sun has proposed a rezone of property located at 1237 Oakdale Road from Low Density Residential (R-1) Zone to Professional Office (P-O) Zone, and

WHEREAS, pursuant to Section 21157.1 of the Public Resources Code, the City of Modesto's Community & Economic Development Department prepared an Environmental Assessment Initial Study EA/C&ED 2017-05 ("Initial Study") which analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report, and

WHEREAS, in accordance with CEQA guidelines beginning on March 14, 2017, the City caused to be published a 20-day notice of the City's intent to make a finding that the subsequent project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on April 11, 2017, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed rezone, a copy of which is **attached** hereto as **Exhibit "A",** and incorporated herein by reference, and based on substantial evidence in the Initial Study makes the following findings:

1. An Initial Study was prepared by the City of Modesto that analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report.

2. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code that was not identified in the Master EIR.

3. No new or additional mitigation measures or alternatives are required.

4. The subsequent project is within the scope of the project covered by the Master EIR.

5. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

6. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of approval or determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of April, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold
NOES:	Councilmembers:	None

Updated: September 2013

(Intentional Blank Page)

City of Modesto
Master EIR Initial Study Environmental Checklist

I. PURPOSE

CEQA allows for the limited environmental review of subsequent projects under the City's Master Environmental Impact Report ("Master EIR" or "MEIR"). This Initial Study Environmental Checklist ("Initial Study") is used in determining whether the Rezone and Development Plan Review for 1237 Oakdale Road ("Project") is "within the scope" of the project analyzed in the Modesto Urban Area General Plan Master EIR (SCH# 2007072023) (Public Resources Code section 21157.1). When the Initial Study supports this conclusion, the City will issue a finding of conformance.

A subsequent project is "within the scope" of the Master EIR when:

1. it will have no additional significant effects on the environment that were not addressed as significant effects in the Master EIR; and

2. no new or additional mitigation measures or alternatives are required.

"Additional significant effects" means a project-specific effect that was not addressed as a significant effect in the Master EIR. [Public Resources Code Section 21158(d)]

The determination must be based on substantial evidence in the record. "Substantial evidence" means facts, reasonable assumptions predicated upon facts, or expert opinion based on facts. It does not include speculation or unsubstantiated opinion. (CEQA Guidelines Section 15384)

II. PROJECT DESCRIPTION

A. Title:
RZN-16-003—Rezone of 1.20 acres from Low Density Residential (R-1) Zone to Professional Office (P-O) Zone
DPR-16-012—Remodel of and addition to a Medical Office Building on 1.20 acres

B. Address or Location: 1237 Oakdale Road, Modesto CA 95355

C. Applicant: Dr. Tong Sun; 2712 Vestrella Drive, Modesto CA 95356

D. City Contact Person: Jonnie Lan, AICP, Associate Planner

Project Manager: Jonnie Lan
Department: Community and Economic Development Department, Planning Division
Phone Number: 209-577-5267
E-mail address: jlan@modestogov.com

E. Current General Plan Designation(s): Mixed Use (MU)

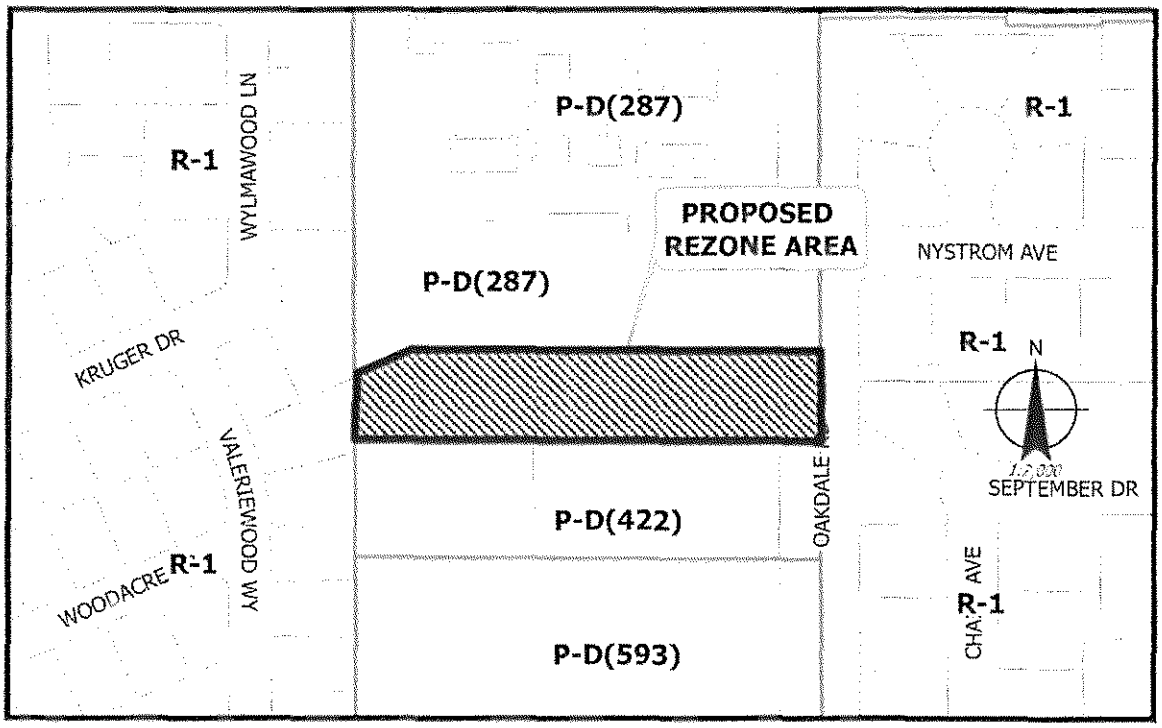
F. Current Zoning Classification(s): Low Density Residential (R-1) Zone

G. Surrounding Land Uses:

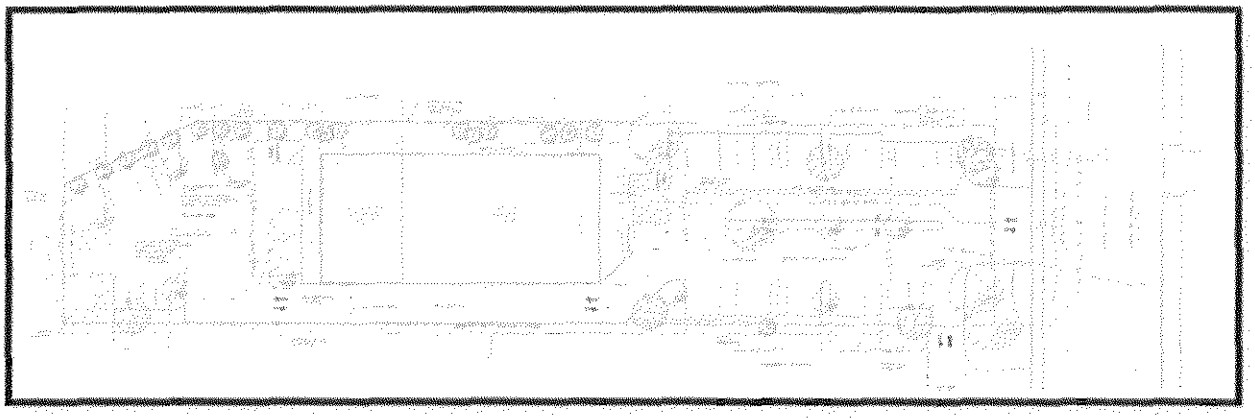
North: Planned Development Zone P-D (287), High Density Residential (R-3) Condominiums
South: Planned Development Zone P-D (422), Restaurant and Vacant Lot Approved for a Recreational Vehicle Storage Area
East: Low Density Residential (R-1) Zone, single-family residences
West: Low Density Residential (R-1) Zone, single-family residences

H. Project Description, including the project type listed in Section II.C (Anticipated Future Projects) of the Master EIR (Attach additional maps/support materials as needed for complete record):

Project proposes the rezone of 1.20 acres of vacant land from Low Density Residential (R-1) Zone to Professional Office (P-O) Zone to facilitate the development a 10,472 square foot medical office building and its supporting parking. Rezone of the site to be by City Council Ordinance. Development of the site to be by administrative Development Plan Review (DPr-16-012) to ensure compliance with applicable City Zoning Codes and Standards, with a determination by the Director of Community and Economic Development or designee, and is contingent on the proposed rezoning.



PROPOSED REZONE AND DEVELOPMENT AREA



PROPOSED DEVELOPMENT SITE PLAN

I. Other Public Agencies Whose Approval is Required: None.

III. FINDINGS/DETERMINATION (SELECT ONE ON THE BASIS OF THE ANALYSIS IN SECTION IV)

1. _X_ Within the Scope - The project is within the scope of the Master EIR and no new environmental document or Public Resources Code Section 21081 findings are required. All of the following statements are found to be true:

A. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.

B. No new or additional mitigation measures or alternatives are required.

C. The subsequent project is within the scope of the project covered by the Master EIR.

D. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

E. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

2. ___ Mitigated Negative Declaration Required - On the basis of the above determinations, the project is not within the scope of the Master EIR. A mitigated negative declaration will be prepared for the project. The following statements are all found to be true:

A. The subsequent project is within the scope of the project covered by the Master EIR.

B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

C. The project will have one or more potential new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures are being required of the project that will reduce the effects to a less-than-significant level.

D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

3.____ Focused EIR Required- On the basis of the above determinations, the project is not within the scope of the Master EIR. A Focused EIR will be prepared for the project. All of the following statements are found to be true:

A. The subsequent project is within the scope of the project covered by the Master EIR.

B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

C. The project will have one or more new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures or alternatives are required as a result.

D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

_____	_____	_____
Project Manager	Title	Date

4. Within the Scope Analysis of this Document:

The Master EIR allows projects to be found within the scope of the MEIR if certain criteria are met. If the following statements are found to be true for all 21 impact categories included in this Initial Study, then the proposed project is addressed by the MEIR analysis and is within the scope of the MEIR. Any "No" response must be discussed.

		YES	NO
(1)	The lead agency for subsequent projects shall be the City of Modesto or a responsible agency identified in the Master EIR.	☒	☐
(2)	City policies which reduce, avoid, or mitigate environmental effects will continue to be in effect and, therefore, would be applied to subsequent projects where appropriate. The policies are described in the list of policies in place and mitigation measures attached to the Initial Study template. Project impacts would be mitigated to a less-than-significant level using MEIR mitigations only.	☒	☐
(3)	Federal, State, regional, and Stanislaus County regulations do not change in a manner that is less restrictive on development than current law (i.e., would not offer the same level of protection assumed under the Master EIR).	☒	☐
(4)	No specific information concerning the known or potential presence of significant resources is identified in future reports, or through formal or informal input received from responsible or trustee agencies or other qualified sources.	☒	☐
(5)	The development will occur within the boundaries of the City's planning area as established in this Urban Area General Plan.	☒	☐
(6)	Development within the project will comply with all appropriate mitigation measures contained and enumerated in the 2008 General Plan Master EIR.	☒	☐

5. Currency of the Master EIR Document

The MEIR should be reviewed on a regular basis to determine its currency, and whether additional analysis/mitigation should be incorporated into the MEIR via a Supplemental or Subsequent EIR (CEQA Section 21157.6). Staff has reviewed Sections 1 through 21 of this document in light of the criteria listed below to determine whether the MEIR is current. The analysis contained within the Master EIR is current as long as the following circumstances have not changed. Any "no" response must be explained.

		YES	**NO**
(1)	Certification of the General Plan Master EIR occurred less than five years prior to the filing of the application for this subsequent project.	☐	☒
(2)	This project is described in the Master EIR and its approval will not affect the adequacy of the Master EIR for any subsequent project because the City can make the following findings:	☒	☐
(a)	No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified.	☒	☐
(b)	No new information, which was not known and could not have been known at the time the Master EIR was certified as complete, has become available.	☒	☐

(c)	Policies remain in effect which require site-specific mitigation, and avoidance or other mitigation of impacts as a prerequisite to future development.	☒	☐

Discussion:

(1) The General Plan Master EIR was certified on October 14, 2008, so more than five years has passed since the MEIR was certified. However, the analysis contained in the MEIR is still adequate for subsequent projects, as documented in the discussion below.

(2) The project is consistent with the analysis contained in the MEIR. This is documented in the discussion of the individual issue areas of this initial study.

(2)(a) There have been no substantive changes to the General Plan since the MEIR was certified that would create additional significant environmental effects that were not analyzed by the MEIR.

(2)(b) There has been no new information that would affect the adequacy of the analysis contained in the MEIR.

(2)(c) All policies contained in the MEIR that require site-specific mitigation or avoidance of impacts remain in effect and will be applied to the project as appropriate.

IV. ENVIRONMENTAL ANALYSIS

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, discloses whether the proposed project may cause any project-specific significant effect on the environment that was not examined in the Final Master EIR (MEIR) for the General Plan and whether new or additional mitigation measures or alternatives may be required as a result. The Initial Study thereby documents whether or not the project is "within the scope" of the Master EIR.

Pursuant to Public Resources Code Section 21157.1, no new environmental document or findings are necessary for projects that are determined to be within the scope of the MEIR. Adoption of the findings specified in Section III.1, above after completion of the Initial Study fulfills the City's obligation in that situation.

All environmental effects cited reflect 2025 conditions resulting from the Urban Area General Plan, as identified in the Master EIR.

The environmental impact analysis in the Master EIR for the Urban Area General Plan is organized in twenty-one subject areas. The following analysis is based on the impact analyses contained in Chapter V of the Master EIR. For ease of reference, the sections are numbered in the same order as the analyses in Chapter V.

1. TRAFFIC AND CIRCULATION

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable traffic and circulation impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Increased automobile traffic will result in roadway segments (see MEIR on Table 1-7, pages V-1-32 to V-1-34) operating at LOS D, Modesto's significance threshold for automobile traffic, or lower (LOS E or F).

Effect: The substantial increase in traffic relative to the existing load and capacity of the street system will cause, either individually or cumulatively, the violation of automobile service standards established by StanCOG's Congestion Management Plan for designated roads and highways.

Effect: A substantial increase in automobile vehicle miles traveled and automobile vehicle hours of travel and a decrease in average automobile vehicle speed (see MEIR Table 1-6, page V-1-31).

Cumulative Impacts

Effect: Potential for growth inducement or acceleration of development resulting from highway and local road projects.

Effect: Substantial increase in traffic in relation to the existing traffic load and capacity of the street system, including a violation, either individually or cumulatively, of an automobile LOS standard established by the Congestion Management Plan for designated roads and highways.

Effect: Increased demand for capacity-enhancing alterations to existing roads or automobile traffic reduction.

Other impact categories affected by Traffic and Circulation are addressed throughout this Initial Study (see also Section 2, Degradation of Air Quality; Section 3, Generation of Noise; Section 7 Loss of Sensitive Wildlife and Plant Habitat; Section 8, Disturbance of Archaeological/Historic Sites; Section 14 Increased Demand for Fire Services; Section 18, Energy; Section 19, Visual Resources; Section 20, Land Use and Planning, and Section 21, Climate Change).

b. Master EIR and/or New Mitigation Measures Applied to the Project

Traffic and Circulation mitigation measures pertinent to this project are found on MEIR pages V-1-9 through V-1-28. All mitigation measures appropriate to the project, including any new measures, will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The project does not require mitigation measures from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-1.B of the Master EIR provides analysis of Traffic and Circulation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: A subsequent development project will have a new significant effect on the environment if it would exceed the following criteria:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1. TRAFFIC AND CIRCULATION				
1) The proposed project exceeds traffic generation assumptions in the Master EIR for the site by 100 trips or more and City Engineering and Transportation staff has determined that the project would have additional potentially significant project-specific effects that are not avoided or reduced by the Master EIR's mitigation measures.	☐	☐	☐	☒
2) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads or highways?	☐	☐	☐	☒
3) The proposed project would cause additional roadway segments in the General Plan area to exceed LOS D and/or cause additional violations of standards in the Congestion Management Plan, and/or cause an increase in automobile vehicle miles or vehicle hours of travel or a decrease in automobile travel speed, as compared to the impacts disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project would cause emergency response times to exceed acceptable standards established by the Fire Department, as compared to impacts disclosed in the Master EIR (see Section 14, Increased Demand for Fire Services).	☐	☐	☐	☒
5) The proposed project would result in less parking than required by the Municipal Code or as determined by staff.	☐	☐	☐	☒
6) The proposed project would conflict with adopted policies, plans, or programs that support alternative transportation, including, but not limited to the Regional Transportation Plan, the Sustainable Communities Strategy, the Bicycle Action Plan, and so on.	☐	☐	☐	☒
7) The proposed project would result in an increase in automobile vehicle miles traveled on a per capita basis, in excess of that considered in the Urban Area General Plan MEIR.	☐	☐	☐	☒

Discussion:

(1) The project would rezone 1.20 acres of land developed as a preschool from Low Density Residential (R-1) Zone uses to Professional Office (P-O) Zone uses, and remodel and add building square footage to create a 10,472 square foot medical office building with its supportive parking. The site is within the Baseline Developed Area of the General Plan, and is within an area designated as Mixed Use (MU) in the General Plan. While the change in use would create more trips than residential development, the change in use will not create more trips than a preschool, the development existing at the time of the General Plan MEIR adoption. The City's Traffic Division indicated no concerns with traffic generated by the minor change in use.

(2) The project would not exceed a level of service standard established by the county congestion management agency for designated roads or highways.

(3) The project would not cause an increase in level of service for the adjacent streets or conflict with any Congestion Management Plans, or cause an increase in vehicle miles or hours traveled. The segment of Oakdale Road at the location is already at LOS D, and the City's Traffic Division indicated no concerns that the project would cause the level of service to exceed that level.

(4) The project would not cause emergency response times to exceed acceptable standards. The project was referred to the City Fire Department, who indicated no concerns.

(5) The project would provide parking as required for medical office related uses.

(6) The project would not conflict with adopted alternative transportation plans or programs.

(7) The project would not result in an increase in vehicle miles traveled in excess of what was considered by the General Plan MEIR.

2. DEGRADATION OF AIR QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable air quality impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Expected automobile traffic will result in increased operational emissions of reactive organic gases (ROG) and oxides of nitrogen (NO_X) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased emissions of particulate matter 10 microns or less (PM_{10}) and 2.5 microns or less in diameter ($PM_{2.5}$) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased carbon monoxide (CO) levels in the project area (see MEIR Table 2-7, page V-2-26, and Table 2-8, page V-2-27).

Cumulative Impacts

The Master EIR indicates the same impacts identified as direct impacts above will contribute to regional impacts on air quality for the criteria pollutants ROG, NO_x, PM_{10}, and $PM_{2.5}$.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Air quality mitigation measure(s) pertinent to the proposed project are found on pages V-2-13 through V-2-24 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes AQ-42 through AQ-50 from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-2.B of the Master EIR is the analysis of air quality impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
2. DEGRADATION OF AIR QUALITY				
1) The proposed project exceeds the project-level emissions thresholds established for CO, ROG, NO_x, PM_{10}, and $PM_{2.5}$ by the San Joaquin Valley Air Pollution Control District (SJVUAPCD) and is not consistent with the development assumptions for the project site, as established in the Urban Area General Plan and Master EIR.	☐	☐	☐	☒
2) The proposed project does not incorporate the best management practices established by the SJVAPCD for CO, ROG, NO_x, PM_{10}, and $PM_{2.5}$.	☐	☐	☐	☒
3) The proposed project does not comply with the air quality policies in the Modesto Urban Area General Plan.	☐	☐	☐	☒
4) The proposed project would expose sensitive receptors to pollutant concentrations in excess of those expected to occur as a result of implementation of the Urban Area General Plan.	☐	☐	☐	☒
5) The proposed project would create objectionable	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
odors affecting a substantial number of people.				

Discussion:

(1) The project would not exceed emissions thresholds established by the SJVUAPCD, and is consistent with the development standards for an office use as established by the General Plan.

(2) Development of the site will be required to adhere to applicable City Zoning Ordinances, Standards, and applicable best management practices during the construction process.

(3) The project would comply with the air quality policies in the Urban Area General Plan with implementation of the mitigation measures cited above.

(4) With mitigation measures cited above, the project would not expose sensitive receptors to pollutant concentrations in excess of those expected to occur as a result of implementation of the Urban Area General Plan.

(5) Construction activities could potentially generate odors with processes such as application of architectural coatings and asphalt paving materials; however, activities will be mitigated as called for by the MEIR with the mitigation measures listed above.

3. GENERATION OF NOISE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable noise impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Future automobile traffic noise levels and roadway construction and maintenance activities resulting from development of the Urban Area General Plan will exceed the City's noise thresholds at various locations, but particularly in areas adjacent to heavily traveled roadways (see MEIR Table 3-3, page V-3-10, and Figure VII-2 and Table 3-6, pages V-3-18 and V-3-19).

Effect: Expected noise from airport operations and airport construction projects may expose up to 468 dwellings and three churches to noise levels of 65 dB CNEL and up to eight dwellings to noise levels of 70 dB CNEL.

Effect: Expose noise-sensitive land uses to noise from the construction of bicycle and transit projects.

Effect: Expose noise-sensitive land uses to noise from freight and passenger rail operations.

Cumulative Impacts

Effect: Traffic from development in the City of Modesto would, when combined with traffic from new development in the County and other cities, contribute to a cumulative increase in roadside noise levels on major roads and highways throughout Stanislaus County.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Noise policies and mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-3-11 through V-3-15 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and any new measures are listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes N-1 through N-3 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-3.B of the MEIR discloses noise impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of the proposed project's effects are based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
3. GENERATION OF NOISE				
1) The proposed project will exceed the standards for noise level and hours of operation established by the Modesto noise ordinance.	☐	☐	☐	☒
2) The proposed project will not comply with the noise policies of, or otherwise be inconsistent with, the Modesto Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project will result in an increase in ambient noise levels in the project vicinity above those disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project will result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels disclosed in the Master EIR implementation of the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1-2) The project is consistent with the noise policies of the General Plan. The proposed development is not anticipated to generate noise levels that exceed the noise thresholds of the MEIR.

(3-4) The project will not result in a substantial increase in ambient noise above levels described in the MEIR. There will be temporary construction-related noise, but implementation of the mitigation measures outlined above would reduce the impacts to a less than significant amount.

4. EFFECTS ON AGRICULTURAL LANDS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on agricultural lands expected after application of mitigations/policies:

Direct Impacts

Effect: Between 1995 and 2025, development of the Urban Area General Plan may convert up to approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area to urban uses.

Effect: Approximately 1,200 acres of urban development along a 28.5-mile boundary 350 feet wide between urban and agricultural uses could be affected by continued agricultural operations, including noise, dust, and chemical overspray or drift.

Cumulative Impacts

Effect: Growth within Modesto's planning area would contribute considerably to the loss of agricultural land within Stanislaus County, accounting for the conversion of as much as approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area from 1995 to 2025.

b. Master EIR and/or New Mitigation Measures Pertinent to the Project

Agricultural land mitigation measures pertinent to the proposed project are found on pages V-4-6 to and V-4-8 of the Master EIR. All mitigation measures appropriate to the project and any new mitigation to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

Discussion:

The project does not require mitigation measures from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-4.B of the Master EIR discloses the impacts resulting from the implementation of the Urban Area General Plan on agricultural lands. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
4. EFFECTS ON AGRICULTURAL LANDS				
1) The proposed project is inconsistent with the Urban Area General Plan's policies relating to agricultural land.	☐	☐	☐	☒
2) The proposed project will either directly or indirectly result in the development of land outside the 2008 Urban Area General Plan's planning area boundary.	☐	☐	☐	☒
3) The proposed project will conflict with existing zoning for agricultural use, or there is an existing Williamson Act contract on the project site.	☐	☐	☐	☒
4) The proposed project will involve other changes in the existing environment not anticipated in the Master EIR which, due to their location or nature, could result in conversion of farmland to non-agricultural use.	☐	☐	☐	☒

Discussion:

(1) The project would be consistent with the General Plan's policies relating to agricultural land. The site is located within the Baseline Developed Area, and is designated as Mixed Use (MU) in the General Plan's Land Use Diagram.

(2) The project will not result in the development of land outside of the 2008 General Plan boundary. The site is within the Baseline Developed Area and is surrounded by urbanized area within the jurisdiction of the City.

(3) The site is not zoned for agricultural uses, is currently zoned for Low Density Residential (R-1) uses and is proposed to be rezoned to Professional Office (P-O) to allow for the development of two new office buildings. There are no Williamson Act contracts on the properties of the project site.

(4) The project will not convert existing farmland to a non-agricultural use.

5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on long-term water supplies expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts have been disclosed in the Master EIR.

Cumulative Impacts

Effect: Operational yields of the Modesto and Turlock subbasins, both of which underlie the City of Modesto, are unknown, although the City is participating in a study with the United States Geological Survey in order to quantify the operational yields of both subbasins. Groundwater withdrawals from both basins by the City, when combined with other users' withdrawals, may result in overdrafting both subbasins.

Effect: Despite available options, during drought years, significant water shortages are forecast for the San Joaquin River basin, which includes both the Modesto and Turlock subbasins, by 2020. Modesto would make a cumulatively considerable contribution to the cumulative impact on water supply under drought conditions.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Water supply mitigation measures pertinent to the proposed project are found on pages V-5-6 through V-5-12 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The project does not require mitigation measures from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-5.B of the Master EIR discloses impacts on long-term water supplies resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES				
1) The proposed project is inconsistent with water supply policies in the Urban Area General Plan.	☐	☐	☐	☒
2) Water demand for the proposed project will exceed estimates for similar projects or for development on the project site anticipated in the Urban Area General Plan or sufficient water supplies are not otherwise available to serve the project	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
from existing entitlements and resources.				
3) The proposed project would deplete groundwater supplies to a greater degree than anticipated in the Urban Area General Plan or would interfere with groundwater recharge.	☐	☐	☐	☒

Discussion:

(1) The proposed project is consistent with the water supply policies in the General Plan.

(2) The project was referred to Land Development Engineering staff who indicated no concerns with water supply or demands of the project.

(3) The proposed project is consistent with the ground water demands assumed in the General Plan. The project would not have a significant effect on ground water recharge or depletion of long-term water supplies.

6. INCREASED DEMAND FOR SANITARY SEWER SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sanitary sewer services after application of mitigations/policies:

Direct Impacts

Effect: Development resulting from implementation of the Urban Area General Plan will require substantial new sewage treatment and disposal capacity, treatment plant improvements, sewer mains and collection lines, and pump stations. The Wastewater Master Plan anticipates the need for these facilities and its EIR evaluates the impact of developing those facilities. Potential impacts include degradation of water quality through erosion and chemical releases; localized flooding; construction noise; exposure of construction workers and the public to hazardous materials; and on the habitat of the elderberry longhorn beetle, burrowing owl, and Swainson's hawk, as well as certain other regulated habitats. All of these impacts are mitigated to a less-than-significant level.

Additional impacts that are not mitigated to a less-than-significant level include loss of farmland cause by construction of the Phase IA tertiary treatment facility at the Jennings Road Secondary Treatment Facility, an increase in pollutant loads from increased wastewater flows to the San Joaquin River, and an increase in noise and criteria air pollutants due to construction activities, including traffic.

Cumulative Impacts

Effect: No additional cumulative impacts were identified in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Sewer service mitigation measures pertinent to the proposed project are found on pages V-6-3 through V-6-8 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-6.B of the Master EIR discloses impacts on the Increased Demand for Sanitary Sewer Service resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
6. INCREASED DEMAND FOR SANITARY SEWER SERVICES				
1) The proposed project is inconsistent with wastewater policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project will generate sewage flows greater than those anticipated in the Urban Area General Plan for the project site.	☐	☐	☐	☒
3) The proposed project will result in a determination by the wastewater treatment provider which serves or may serve the project that it has inadequate capacity to serve the project's projected demand in addition to the provider's existing commitments.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the wastewater policies in the General Plan.

(2-3) The project was referred to Land Development Engineering staff, who indicated no concerns with generation of sewer flows or capacity generated by the project.

7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sensitive wildlife and plant habitat expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant impacts on sensitive wildlife and plan habitat are expected to occur with the application of the policies contained in the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will contribute to the cumulative impact of habitat loss in the San Joaquin Valley. Requiring density development than has occurred in the past or that is expected in the future would minimize the City's contribution to the cumulative loss of habitat. Nonetheless, this is a significant and unavoidable impact.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Wildlife and plant habitat mitigation measures pertinent to the proposed project are found on pages V-7-17 through V-7-24 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The project does not require mitigation measures from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-7.B of the Master EIR discloses impacts on the Loss of Sensitive Wildlife and Plant Habitat resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT				
1) The project is inconsistent with the policies pertaining to the loss of sensitive wildlife and plant habitat contained in the Urban Area General Plan.	☐	☐	☐	☒
2) Consultation with the California Department of	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
Fish and Game or the U.S. Fish and Wildlife Service determines that the project would have a significant effect on a candidate, sensitive, or special status species in excess of the impact disclosed in the Master EIR.				
3) The proposed project would have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act through direct removal, filling, hydrological interruption, or other means, in excess of the impact disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project would substantially interfere with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites.	☐	☐	☐	☒
5) Conflict with local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.	☐	☐	☐	☒
6) The proposed project would conflict with provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the General Plan policies related to the loss of sensitive wildlife and plant habitat.

(2) The project site is not within a biologically sensitive area as defined by Figures V-7-1a through V 7-1e of the MEIR. The California Department of Fish and Game and the U.S. Fish and Wildlife Service were consulted in the production of the MEIR.

(3) The site does not qualify as a federally protected wetland per Section 404 of the Clean Water Act.

(4) The site is not within a biologically sensitive area as defined by Figures V-7-1a through V 7-1e of the MEIR. The movement of fish or birds or other wildlife would not be significantly affected by the project.

(5) The project would not conflict with any local policies or ordinances protecting biological resources.

(6) There is no conflict with any adopted habitat conservation plan, natural community conservation plan, or other approved local, regional or state habitat conservation plan.

8. DISTURBANCE OF ARCHAEOLOGICAL/HISTORICAL SITES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on archaeological/historical sites expected after application of mitigations/policies:

Direct Impacts

Effect: Modification resulting in a substantial adverse change in the significance of a historic resource or the demolition of a listed or eligible historic resource.

Effect: The modification or demolition of a structure more than 50 years in age may be significant.

Effect: Discovery of archaeological resources in areas outside of the riparian corridors, as a result of construction activities.

Effect: Construction in an area of high archaeological sensitivity.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Archaeological or historic mitigation measures pertinent to the project being analyzed in this Initial Study are found on page V-8-16 through V-8-20 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes the measures specified in Table V-8-1(b-f) from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-8.B of the MEIR discloses impacts on archaeological/historical resources resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
8. DISTURBANCE OF ARCHAEOLOGICAL/ HISTORICAL SITES				
1) The proposed project is inconsistent with the archaeological/historical resource policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would demolish a building eligible for listing as a historic resource or remove a landmark from the Modesto inventory.	☐	☐	☐	☒
3) The proposed project would modify or demolish a structure more than 50 years in age.	☐	☐	☐	☒
4) The project would adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources.	☐	☐	☐	☒
5) Conflict with local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.	☐	☐	☐	☒

Discussion:

(1) The project would be consistent with the archeological and historical resource policies in the General Plan.

(2-3) The project site is developed with a former preschool and its supporting parking. This building was built in the late 1980"s. The project applicant is proposing to remodel the existing building, not demolish it.

(4) The project would not affect a resource that is listed or eligible for listing in the California Register of Historic Resources.

(5) The project would not conflict with a local policy or ordinance protecting biological resources. The City of Modesto does not have a tree preservation policy or ordinance.

9. INCREASED DEMAND FOR STORM DRAINAGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on storm drainage expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: The population of Stanislaus County is projected to increase in a fashion similar to that of Modesto, resulting in additional urban development and associated increases in impervious surface area and associated increases in storm water runoff. Cumulative hydrologic impacts of storm water flows from Modesto urban areas and other areas of the County could occur due to the fixed capacity of MID and TID irrigation canals to convey drainage west to the San Joaquin River. If drainage channels in some areas prove insufficient to handle the increased drainage discharges, existing storm water runoff from urban and agricultural areas during large storm events would have to be interrupted until water levels receded to a point allowing the resumption of discharges to the channel. Ceasing discharges to drainage channels could cause inundation in and around the drainage conveyance pipeline systems, surface drainage channels, detention basins, and other urban areas. This cumulative impact is considered significant and unavoidable.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Storm Drainage mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-9-4 through V-9-9. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes: SD-7 and SD-9 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-9.B of the MEIR discloses impacts on the demand for storm drainage resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
9. INCREASED DEMAND FOR STORM DRAINAGE				
1) The proposed project is inconsistent with the storm drainage policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or offsite, as compared to impacts anticipated to result from	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
the Urban Area General Plan or create substantial unanticipated sources of polluted runoff.				
3) The proposed project does not utilize Low Impact Development strategies to reduce runoff from the site and increase infiltration, resulting in no net increase in runoff before and after development.	☐	☐	☐	☒

Discussion:

(1) The project would not be inconsistent with the storm drainage policies of the General Plan.

(2-3) The project is being proposed on an already improved parcel. Where possible, the project will be required to handle and treat storm water runoff on-site in accordance to City Standards.

10. FLOODING AND WATER QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on flooding and water quality expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Flooding and Water Quality mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-10-6 through V-10-9 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes: FWQ-12 and FWQ-13 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-10.B of the Master EIR provides analysis of Flooding and Water Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
10. FLOODING AND WATER QUALITY				
1) The proposed project is inconsistent with the flooding and water quality policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project does not comply with the regulatory requirements of the federal Clean Water Act or the State Porter-Cologne Act.	☐	☐	☐	☒
3) The proposed project would place more housing within a 100-year flood hazard zone than assumed in the Urban Area General Plan.	☐	☐	☐	☒
4) The proposed project would place structure within a 100-year flood hazard area so that they would impede or redirect floodwater or would substantially alter the existing on-site drainage pattern or a watercourse, in such a way as to cause flooding on- or offsite.	☐	☐	☐	☒
5) The proposed project does not comply with Modesto's Guidance Manual for New Development Storm Water Quality Control Measures.	☐	☐	☐	☒
6) The proposed project would violate water quality standards or waste discharge requirements.	☐	☐	☐	☒
7) The proposed project would substantially alter the existing drainage pattern of the site or area or a watercourse in a manner that would result in substantial erosion or siltation on- or offsite in excess of the assumptions of the Urban Area General Plan.	☐	☐	☐	☒
8) The proposed project would create or contribute runoff, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff, not expected as part of Urban Area General Plan implementation.	☐	☐	☐	☒

Discussion:

(1) The proposed project is consistent with the flooding and water quality policies in the Urban Area General Plan.

(2) The project would comply with the Federal Clean Water Act and the Porter Cologne Act requirements.

(3-4) The project site is not within a 100-year flood hazard zone as established by the Federal Emergency Management Agency (FEMA).

(5) The project will comply with the Guidance Manual for New Development Storm Water Quality Control Measures.

(6) The project will not violate water quality standards or waste discharge requirements.

(7) The project would not substantially alter the existing drainage pattern of the site, area or a watercourse in a manner that would result in erosion or siltation.

(8) The project will be required to treat and store on-site storm water drainage. The project was referred to Land Development Engineering who indicated no concerns with the project creating or contributing to runoff in excess of what is expected as part of the General Plan's implementation.

11. INCREASED DEMAND FOR PARKS AND OPEN SPACE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on parks and open space expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Parks and open space mitigation measures pertinent to the proposed project are found on pages V-11-3 through V-11-9 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-11.B of the MEIR discloses impacts of the Urban Area General Plan on parks and open space. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
11. INCREASED DEMAND FOR PARKS AND OPEN SPACE				
1) The proposed project is inconsistent with the parks and open space policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would eliminate parks or open space.	☐	☐	☐	☒
3) The proposed project would cause an increase in the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility in question would occur or be accelerated or the proposed project would include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the parks and open space policies in the General Plan.

(2-3) The project will not impact parks or open space, or cause an increase in the use of existing parks. The project involves rezoning property from Low Density Residential (R-1) uses to Professional Office (P-O) uses, which would not impact parks.

12. INCREASED DEMAND FOR SCHOOLS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on school facilities expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR. By statute, the impact of new students is considered to be mitigated below a level of significance by payment of school

impact fees and the exercise of any or all of the financing options set out in Government Code Section 65997.

Cumulative Impacts

Effect: Similar to direct impacts of implementation of the Urban Area General Plan, no residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. As long these policies are applied to all subsequent projects, no new mitigation is necessary. Further, payment of school impact fees and compliance with SB 50 is statutorily deemed to be full mitigation of school impacts (Government Code Section 65995).

The following schools mitigation measures on pages V-12-5 through V-12-7 of the Master EIR are pertinent to the proposed project. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures are listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-12.B of the Master EIR discloses impacts resulting from implementation of the Urban Area General Plan associated with increased demand for schools. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
12. INCREASED DEMAND FOR SCHOOLS				
1) The proposed project is inconsistent with the policies relating to schools in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project does not comply with SB 50/Proposition 1A funding provisions, or succeeding measures which state that compliance results in less-than-significant impacts on schools.	☐	☐	☐	☒

Discussion:

(1) The project involves rezoning property from Low Density Residential (R-1) uses to Professional Office (P-O) uses, which would not conflict with policies related to schools in the General Plan.

(2) The project would not conflict with SB50/Proposition 1A funding provisions, or succeeding measures.

13. INCREASED DEMAND FOR POLICE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on police services expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Police services mitigation measures pertinent to the proposed project are found on pages V-13-2 through V-13-5 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-13.B of the Master EIR discloses impacts on police services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
13. INCREASED DEMAND FOR POLICE SERVICES				
1) The proposed project is inconsistent with policies	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
relating to police services in the Urban Area General Plan.				
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the policies relating to police services in the General Plan.

(2) The project would not result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives. The project was referred to the City Police Department, who indicated no concerns.

14. INCREASED DEMAND FOR FIRE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on fire services expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Fire Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-14-4 through V-14-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-14.B of the Master EIR discloses impacts on fire services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
14. INCREASED DEMAND FOR FIRE SERVICES				
1) The proposed project is inconsistent with the fire service policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	☐	☐	☐	☒
3) The proposed project, based upon substantial evidence, would cause the erosion or elimination of fire protection services in adjoining fire protection districts.	☐	☐	☐	☒

Discussion:

(1) The proposed rezone and subsequent commercial development is consistent with the fire service policies in the General Plan.

(2) The project would not result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives.

(3) The project would not cause the erosion or elimination of fire protection services. Development of professional office buildings as a result of the rezone will meet City Standards for emergency services access.

15. GENERATION OF SOLID WASTE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on solid waste expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Solid waste mitigation measures pertinent to the proposed project are found on pages V-15-4 through V-15-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.
Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-15.B of the Master EIR discloses solid waste impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
15. GENERATION OF SOLID WASTE				
1) The project is inconsistent with the solid waste policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The County is unable to expand its solid waste disposal capacity, as expected, causing all new development to result in cumulative impacts on the County's disposal capacity.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the solid waste policies in the General Plan.

(2) The project would not cause an impact to the disposal capacity of solid waste facilities in the County.

16. GENERATION OF HAZARDOUS MATERIALS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts regarding hazardous materials expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Hazardous materials mitigation measures pertinent to the proposed project are found on pages V-16-8 through V-16-13 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-16.B of the Master EIR discloses impacts on hazardous materials resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
16. GENERATION OF HAZARDOUS MATERIALS				
1) The project is inconsistent with the hazardous materials policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
3) The proposed project would be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would create a significant hazard to the public or the environment.	☐	☐	☐	☒
4) The proposed project would be constructed on a contaminated site not known to the State of California as of March 2008.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the hazardous materials policies in the General Plan.

(2) The project will comply with all applicable federal, state, and county standards and regulations relative to the handling, storage, disposal, and transport of hazardous or toxic materials or wastes. (No hazardous materials will be involved with this project).

(3) The project is not located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would not create a significant hazard to the public or the environment.

(4) The project site is not known to contain any contaminants.

17. GEOLOGY, SOILS, AND MINERAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts related to geology, soils, and mineral resources expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Geology, soils, and mineral resource mitigation measures pertinent to the proposed project are found on pages V-17-9 and V-17-10 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of the proposed project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-17.B of the Master EIR discloses geology, soils, and mineral resource impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
17. GEOLOGY, SOILS, AND MINERAL RESOURCES				
1) The project is inconsistent with policies relating to geology, soils, and mineral resources contained in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would expose people or structures to potential substantial adverse effects including the risk of loss, injury, or death involving fault rupture, strong seismic activity; location on an expansive soil; result in the loss of topsoil; location on soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems in areas where sewers are not available for the disposal of wastewater; result in the loss of known mineral resources that would be of value to the region and the state; or result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with policies relating to geology, soils, and mineral resources in the General Plan.

(2) The project site is not located on soil that is unstable, or that would become unstable as a result of the project. There are no known mineral resources of value to the region and the state on the property.

18. ENERGY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to energy expected after application of mitigations/policies:

Direct Impacts

Effect: Continued development in the Planned Urbanizing Area would have an impact on available energy supplies. Energy consumption likely would increase substantially by 2025 as a result of implementation of the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on energy consumption.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following energy mitigation measures pertinent to the proposed project are found on pages V-18-2 through V-18-8 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
18. ENERGY				
1) The proposed project is inconsistent with policies relating to energy in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in energy consumption during construction, operation, maintenance, or removal that is more wasteful, inefficient, and unnecessary than assumed in the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the energy policies in the General Plan.

(2) The project would not result in energy consumption during construction, operation, maintenance or removal that is more wasteful, inefficient and unnecessary than assumed in the General Plan.

19. EFFECTS ON VISUAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on visual resources expected after application of mitigations/policies:

Direct Impacts

Effect: New development in the Planned Urbanizing Area will occur in areas that are in agricultural production or are otherwise lightly developed, which could lead to the introduction of light and glare in areas that have little nighttime illumination.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following visual resources mitigation measures pertinent to the proposed project are found on pages V-19-3 and V-19-4 in the Master EIR. All mitigation measures appropriate to the proposed project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
19. EFFECTS ON VISUAL RESOURCES				
1) The proposed project is inconsistent with policies relating to visual resources in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would degrade views from riverside areas and parks to a greater degree than assumed in the Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project would degrade views of riverside areas from public roadways and nearby properties to a greater degree than assumed in the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the policies relating the visual resources in the General Plan.

(2-3) The project would not impact views from riverside areas and parks, nor would degrade views of riverside areas and parks from public roadways.

20. LAND USE AND PLANNING

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to land use and planning expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following land use and planning mitigation measures pertinent to the proposed project are found on pages V-20-6 through V-20-17 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-20.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on land use and planning. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
20. LAND USE AND PLANNING				
1) The proposed project is inconsistent with land use and planning policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project contains elements that would physically divide an established community in a way not assumed in the Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project conflicts with a land use plan, policy or regulation established for the purpose of avoiding or mitigating an environmental impact by an agency that has jurisdiction over the proposed project.	☐	☐	☐	☒
4) The proposed project conflicts with an applicable habitat conservation plan or natural community conservation plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the Mixed Use Planning District (MUPD) land use designation in the General Plan.

(2) The project would not divide an established community. The proposal is to rezone one residentially zoned, but commercially developed property on an arterial street to Professional Office (P-O) uses.

(3) The project is consistent with the land use plan, policies and regulations of the City of Modesto designed to mitigate project impacts.

(4) The project does not conflict with applicable habitat conservation plans or natural community conservation plans.

21. CLIMATE CHANGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to climate change expected after application of mitigations/policies:

Direct Impacts

Effect: Impacts resulting from implementation of the Urban Area General Plan are not substantial enough to result in a significant direct impact on climate change, as disclosed in the Master EIR.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on climate change.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following climate change mitigation measures pertinent to the proposed project are found on pages V-21-7 through V-21-10 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on climate change. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
21. CLIMATE CHANGE				
1) The proposed project is inconsistent with policies relating to climate change in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in average automobile trip lengths or CO_2 emissions higher than those assumed in the Master EIR.	☐	☐	☐	☒
3) The proposed project would conflict with the	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
Sustainable Communities Strategy or Alternative Planning Strategy that the Air Resources Board has agreed will achieve the goals of AB 32.				

Discussion:

(1) The project is consistent with the policies relating to climate change in the Urban Area General Plan. The project would not have a significance effect on climate change.

(2) The project would not affect automobile trip lengths or CO_2 emissions.

(3) A Sustainable Communities Strategy has not yet been implemented by the ARB. Future development will be required to comply with the provisions of the Sustainable Communities Strategy once it is established.

V. MITIGATION MEASURES APPLIED TO THE PROPOSED PROJECT

If the Initial Study results in the determination that a Finding of Conformance can be adopted for the proposed project Section A below applies. If the Initial Study results in the determination that a Finding of Conformance cannot be adopted and a Mitigated Negative Declaration/EIR must be prepared for the project then Section B, below applies.

A. Master EIR Mitigation Measures Applied to the Project

Pursuant to Public Resources Code Section 21157.1(c), in order for a Finding of Conformance to be made, all appropriate mitigation measures from the Master EIR shall be incorporated into the proposed project. Urban Area General Plan Policies/Master EIR mitigation measures shall be made part of the proposed project prior to approval by means of conditions of project approval or incorporation into the appropriate document or plan.

All applicable and appropriate mitigation measures have been applied to the project (see mitigation measures listed below).

B. New or Additional Mitigation Measures or Alternatives Required

Where the project's effects would exceed the significance criteria for each environmental impact category, a mitigated negative declaration or Focused EIR must be prepared. Staff has reviewed the project against the significance criteria thresholds established in the Master EIR for all impact categories in this Initial Study.

A Mitigated Negative Declaration or Focused EIR shall be prepared for the project. The following additional project-specific mitigation measures listed below are necessary to reduce the identified new significant effect:

Traffic and Circulation:

N/A

Degradation of Air Quality:

AQ-42: All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover.

AQ-43: All on-site unpaved roads and off-site unpaved access roads shall be effectively stabilized of dust emissions using water or chemical stabilizer/suppressant.

AQ-44: All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.

AQ-46: When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.

AQ-47: All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. (the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)

AQ-48: Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.

AQ-49: Within urban areas, track out shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.

AQ-50: Any site with 150 or more vehicle trips per day shall prevent carryout and track out.

Generation of Noise:

N-1: The City has also established a noise ordinance to control noise within the City. The City's noise ordinance (Modesto Municipal Code Section 4-9.101) prohibits the "loud and raucous discharge into the open air of the steam of any steam equipment or exhaust from any stationary internal-combustion engine."

N-2: Additionally, the noise ordinance prohibits the loud and raucous operation or use of any of the following before 7:00 a.m. or after 9:00 p.m. daily (except Saturday and Sunday and state or federal holidays, when the prohibited time shall be before 9:00 a.m. and after 9:00 p.m.):

A hammer, or any other device or implement used to pound or strike an object.

1. An impact wrench, or other tool or equipment powered by compressed air.
2. A hand-powered saw.
3. Any tool or piece of equipment powered by an internal-combustion engine such as, but not limited to, chain saw, backpack blower, and lawn mower.
4. Any electrically powered (whether by alternating current electricity or by direct current electricity) tool or piece of equipment used for cutting, drilling, or shaping wood, plastic, metal, or other materials or objects, such as, but not limited to, a saw, drill, lathe, or router.
5. Any of the following: heavy equipment (such as but not limited to bulldozer, steam shovel, road grader, back hoe), ground drilling and boring equipment (such as but not limited to derrick or dredge), hydraulic crane and boom equipment, portable power generator or pump, pavement equipment (such as but not limited to pneumatic hammer, pavement breaker, tamper, compacting equipment), piledriving equipment, vibrating roller, sand blaster, gunite machine, trencher, concrete truck, and hot kettle pump.
6. Any construction, demolition, excavation, erection, alteration, or repair activity. In the case of urgent necessity and in the interest of public health and safety, the Chief Building Official may issue a permit for exemption from these. Such period shall not exceed three (3) working days in length while the emergency continues but may be renewed for successive periods of three (3) days or less while the emergency continues. The Chief Building Official may limit such permit as to time of use and/or permitted action, depending upon the nature of the emergency and the type of action requested.

N-3: The project shall comply with the City's noise ordinance. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and

impact tools should be equipped with shrouds or shields. Equipment that is quieter than standard equipment should be utilized. Haul routes that affect the fewest number of people should be selected.

Effects on Agricultural Lands:

N/A

Increased Demand for Long-Term Water Supplies:

N/A

Increased Demand for Sanitary Sewer Services:

N/A

Loss of Sensitive Wildlife and Plant Habitat:

N/A

Disturbance of Archaeological/Historic Sites:

Table V-8-1(b-f):

b. Prior to excavation and construction, the prime construction contractor and any subcontractors shall be cautioned on the legal and/or regulatory implications of knowingly destroying cultural resources or removing artifacts, human remains, bottles, or other cultural materials from the project area.

c. The project sponsor shall identify a qualified archeologist prior to any demolition, excavation, or construction. The City will approve the project sponsor's selection of a qualified archeologist. The archeologist would have the authority to temporarily halt excavation and construction activities in the immediate vicinity (ten-meter radius) of a find if significant or potentially significant cultural resources are exposed and/or adversely affected by construction operations.

d. Reasonable time shall be allowed for the qualified archeologist to notify the proper authorities for a more detailed inspection and examination of the exposed cultural resources. During this time, excavation and construction would not be allowed in the immediate vicinity of the find; however, those activities could continue in other areas of the project site.

e. If any find is determined to be significant by the qualified archeologist, representatives from the construction contractor and the City, the qualified archeologist, and a representative of the Native American community (if the discovery is an aboriginal burial) would meet to determine the appropriate course of action.

f. All cultural materials recovered as part of a monitoring program would be subject to scientific analysis, professional curation, and a report prepared according to current professional standards.

Increased Demand for Storm Drainage:

SD-7: New development shall comply with City requirements for conveyance, retention and detention. New development shall include onsite storage of Stormwater as necessary. Rockwells shall not be allowed for new development except at infill areas smaller than three acres where no other feasible alternative is available. (UAGP Policy V-E.3 [f])

SD-9: Construction activities shall comply with the requirements of the City's Storm Water Management Plan under its municipal NPDES Stormwater permit, and the State Water Resources Control Board's General Permit for Discharges of Storm Water Associated with Construction Activity. (UAGP Policy V.E.3 [h])

Flooding and Water Quality:

FWQ-12: New development shall comply with City requirements for conveyance, retention and detention. New development shall include onsite storage of Stormwater as necessary. Rockwells shall not be allowed for new development except at infill areas smaller than three acres where no other feasible alternative is available. (UAGP Policy V-E.3 [f])

FWQ-13: Construction activities shall comply with the requirements of the City's Storm Water Management Plan under its municipal NPDES Stormwater permit, and the State Water Resources Control Board's General Permit for Discharges of Storm Water Associated with Construction Activity. (UAGP Policy V.E.3 [h])

Increased Demand for Parks and Open Space:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-145

Print

RESOLUTION ACCEPTING BID AND APPROVING A 4-YEAR AGREEMENT WITH TWO 2-YEAR OPTION YEARS WITH NATIONAL EXPRESS TRANSIT CORPORATION COMMENCING JULY 1, 2017, AND TERMINATING JUNE 30, 2021, TO PROVIDE FIXED ROUTE SERVICES FOR THE OPERATION OF THE MODESTO AREA EXPRESS (MAX) TRANSIT SYSTEM FOR $8,192,955 IN FISCAL YEAR 2017/18 AND $74,497,350 OVER THE TERM OF THE AGREEMENT, INCLUDING THE TWO 2-YEAR OPTIONAL EXTENSIONS, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT, IN A FORM APPROVED BY THE CITY ATTORNEY

WHEREAS, the existing agreement with Transdev Services, Inc. to operate the MAX service expires June 30, 2017, and

WHEREAS, the City wishes to continue providing MAX service to the citizens and visitors of Modesto, and

WHEREAS, a Request for Proposals (RFP) was issued soliciting proposals from qualified firms for a new contract to be effective on July 1, 2017, and

WHEREAS, National Express Transit Corporation submitted a proposal that was determined to be reasonable and cost effective, and

WHEREAS, an evaluation panel reviewed and evaluated all proposals, interviewed proposers and evaluated best and final offers, and

WHEREAS, after such evaluation the panel scored National Express Transit Corporation highest utilizing the scoring criteria included in the RFP and recommend award of the contract to National Express Transit Corporation, and

WHEREAS, the RFP conformed to the formal bid procedures in Modesto Municipal Code section 8-3.203 and staff recommends awarding the contract to the lowest responsive and responsible proposal submitted by National Express Transit

Corporation, and

WHEREAS, on February 28, 2017, Council approved Resolution No. 2017-86 implementing a spending freeze in order to maintain fiscal sustainability of the City. The City Manager's Office approved an exception to this freeze for this procurement based upon the continued operation of the Modesto Area Express transit system.

NOW THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the bid of National Express Transit Corporation and approves a 4 year agreement with two-2 year option years with National Express Transit Corporation commencing July 1, 2017, and terminating June 30, 2021, to provide fixed route services for the operation of the Modesto Area Express transit system.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement in a form approved by the City Attorney, at a first year cost of $8,192,955 and $74,497,350 over the term of the agreement, including the 2 two-year optional extensions.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of April, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold
NOES:	Councilmembers:	None

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-146

RESOLUTION FINDING THAT THE "NEW TRAFFIC SIGNALS – 2015 AT MCHENRY AVENUE AND GRECIAN AVENUE" PROJECT IS WITHIN THE SCOPE OF THE PROJECTS COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (SCH#2007072023)

WHEREAS, on October, 14, 2008, the City Council, by Resolution No. 2008-582 certified the Modesto Urban Area General Plan Master Environmental Impact Report (Master EIR) (SCH No. 2007072023), and

WHEREAS, the City of Modesto has proposed the "New Traffic Signals – 2015 at McHenry Avenue and Grecian Avenue" project, which will construct a traffic signal at the intersection of McHenry Avenue and Grecian Avenue, and

WHEREAS, pursuant to Section 21157.1 of the Public Resources Code, the City of Modesto's Community & Economic Development Department has prepared an Environmental Assessment Initial Study C&ED No. 2016-16 ("Initial Study"), which analyzed whether the "New Traffic Signals-2015 at McHenry Avenue and Grecian Avenue" project, the subsequent project, may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within its scope, and

WHEREAS, in accordance with CEQA guidelines, beginning on April 14, 2017, the City caused to be published a 10-day notice of the City's intent to make a finding that the proposed project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a regular meeting on April 25, 2017, at 5:30 p.m., in the Tenth Street Place Chambers, 1010 Tenth Street, Modesto, California.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it has reviewed and considered the Initial Study prepared for the proposed Project, a copy of which is **attached** hereto as **Exhibit "A"** and incorporated herein by reference, and based on the substantial evidence included in the Initial Study makes the following findings:

1. An Initial Study was prepared by the City of Modesto that analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report.

2. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, which was not identified in the Master EIR.

3. No new or additional mitigation measures or alternatives are required.

4. The subsequent project is within the scope of the project covered by the Master EIR.

5. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

6. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Director of Community & Economic Development Department is hereby authorized and directed to file a notice of determination within five (5) business days with the Stanislaus County Clerk, pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of April, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold
NOES:	Councilmembers:	None

INITIAL STUDY
EA/C&ED No. 2016-16

City of Modesto

Finding of Conformance to General Plan Master EIR:

Initial Study Environmental Checklist C&ED No. 2016-16

For the proposed:

State Route 108 / Grecian Avenue Traffic Signal (MISC-16-007)

Prepared by:
City of Modesto
Community & Economic Development Department
Planning Division

July 7, 2016

(Intentional Blank Page)

City of Modesto
Master EIR Initial Study Environmental Checklist

I. PURPOSE

CEQA allows for the limited environmental review of subsequent projects under the City's Master Environmental Impact Report ("Master EIR" or "MEIR"). This Initial Study Environmental Checklist ("Initial Study") is used in determining whether the 2015 Housing Element is "within the scope" of the project analyzed in the Modesto Urban Area General Plan Master EIR (SCH# 2007072023) (Public Resources Code section 21157.1). When the Initial Study supports this conclusion, the City will issue a finding of conformance.

A subsequent project is "within the scope" of the Master EIR when:

1. it will have no additional significant effects on the environment that were not addressed as significant effects in the Master EIR; and

2. no new or additional mitigation measures or alternatives are required.

"Additional significant effects" means a project-specific effect that was not addressed as a significant effect in the Master EIR. [Public Resources Code Section 21158(d)]

The determination must be based on substantial evidence in the record. "Substantial evidence" means facts, reasonable assumptions predicated upon facts, or expert opinion based on facts. It does not include speculation or unsubstantiated opinion. (CEQA Guidelines Section 15384)

This finding of conformance relies on the analysis contained in the Urban Area General Plan Master EIR (SCH #200707023).

II. PROJECT DESCRIPTION

A. Title: SR108-McHenry Avenue / Grecian Avenue Traffic Signal

B. Address or Location: Intersection of State Route 108 / McHenry Avenue and Grecian Avenue, Modesto

C. Applicant: City of Modesto, Community & Economic Development Department
1010 10th Street, Modesto CA 95354

D. City Contact Person: Cindy van Empel

Project Manager: Cindy van Empel
Department: Community & Economic Development
Phone Number: (209) 577-5267
E-mail address: cvanempel@modestogov.com

E. Current General Plan Designation(s): RC, Regional Commercial

F. Current Zoning Classification(s): Northwest, unincorporated County. P-D (218)
Northeast, Modesto. SP (Specific Plan)
Southwest, unincorporated County. P-D (130)
Southeast, unincorporated County. A-2-10

G. Surrounding Land Uses:

Northwest:	Truck rental, mobile home park, land proposed for residential development (unincorporated County)
Northeast:	Future automobile dealership (city)
Southwest:	Mobilehome park (unincorporated County)
Southeast:	Mobilehome park (unincorporated County)

H. Project Description, including the project type listed in Section II.C (Anticipated Future Projects) of the Master EIR. **Exhibit 1** shows the project location.

State Route 108 / McHenry Avenue has a traffic volume of 40,500 Annual Average Daily Trips, and Grecian Avenue has 2,895. The current function of this intersection allows only right turns into and out of Grecian Avenue. There is a stop sign on Grecian Avenue at the subject intersection.

This project will install a traffic signal with vehicle detection to the intersection of SR108 / McHenry Avenue and Grecian Avenue, creating a full-access intersection. The traffic signal standards will be installed in accordance with the existing roadway geometry and 2010 Caltrans Standard Specifications. Because SR108 / McHenry Avenue is a state highway, the signal will be timed and operated in accordance with Caltrans standards and Caltrans will be responsible for coordinating this signal with others on McHenry Avenue. This project will include ADA-compliant push buttons at the intersection.

In addition to the City of Modesto's project to install a traffic signal at the intersection of McHenry Avenue and Grecian Avenue, there is a project to install all the required street improvements along McHenry Avenue between Claratina Avenue and Grecian Avenue by the development of the Infiniti car dealership at the northeast corner of SR108 / McHenry Avenue and Grecian Avenue. This development has received Caltrans approval of its improvement plans. It is anticipated that all necessary storm drain, curb, gutter, and sidewalk – Including ADA curb ramps at all corners of the intersection – will be installed in close coordination between the City of Modesto's project to install the traffic signal and the developer's project to install the street improvements. The existing pork chop island will be removed.

It is also anticipated that existing striping on SR108 / McHenry Avenue and on Grecian Avenue that conflicts with the striping needed for signalization will be removed and appropriate thermoplastic striping will be re-installed with similar coordination between the City of Modesto's and the developer's improvements. All work to be completed for the City of Modesto's project will be conducted within City of Modesto right-of-way on Grecian Avenue and within right-of-way that is currently in the process of being dedicated to Caltrans along McHenry Avenue.

I. Other Public Agencies Whose Approval is Required:
- Caltrans, District 10 (California Department of Transportation)

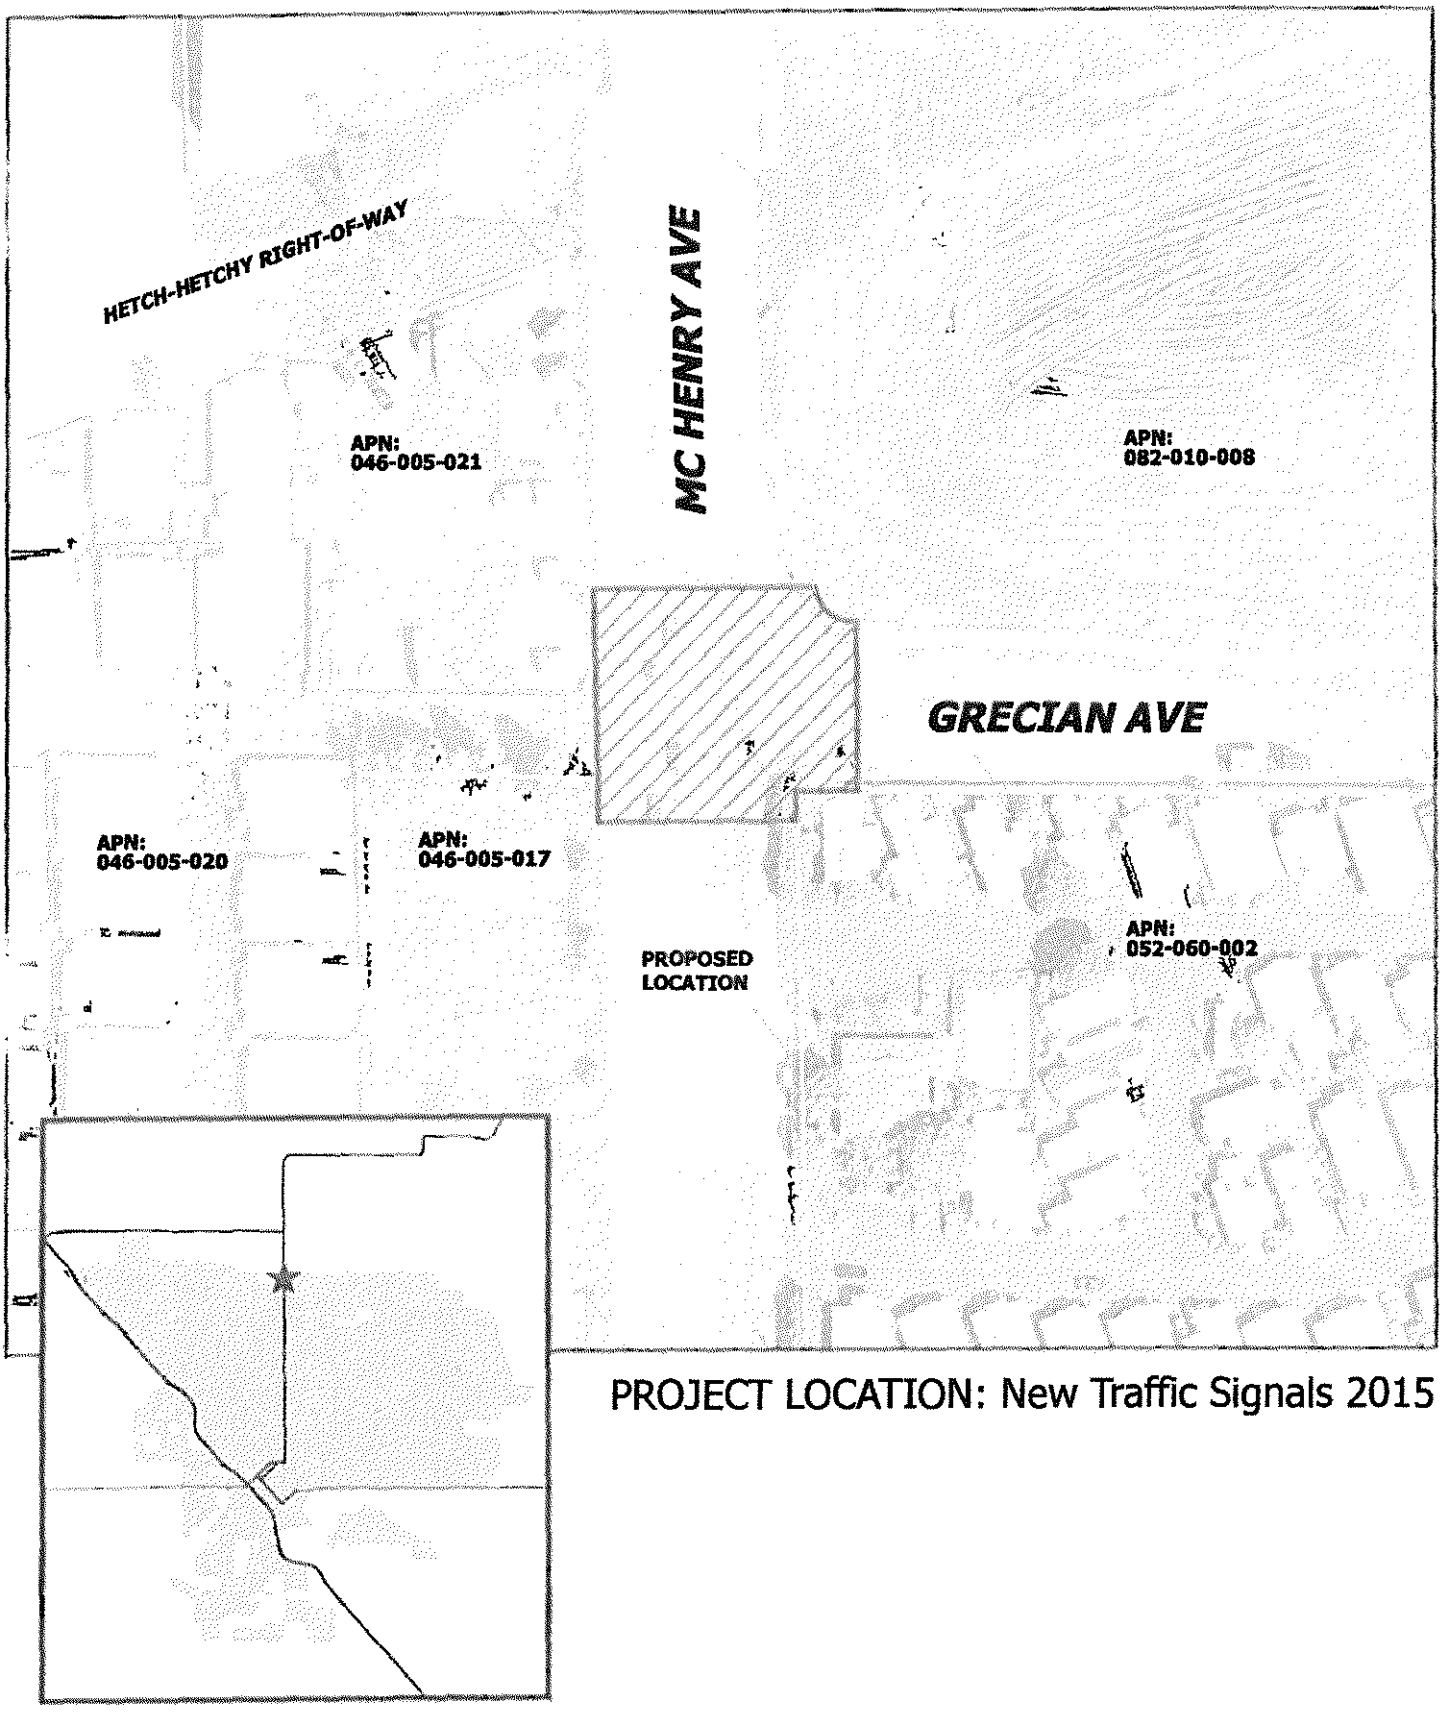

FIGURE 1
LOCATION OF PROPOSED TREAFFIC SIGNAL AT
SR-108/MCHENRY AVENUE AND GRECIAN AVENUE

MISC-16-007

III. FINDINGS/DETERMINATION (SELECT ONE ON THE BASIS OF THE ANALYSIS IN SECTION IV)

1. _X_ **Within the Scope** - The project is within the scope of the Master EIR and Specific Plan EIRs and no new environmental document or Public Resources Code Section 21081 findings are required. All of the following statements are found to be true:

   A. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.

   B. No new or additional mitigation measures or alternatives are required.

   C. The subsequent project is within the scope of the project covered by the Master EIR and Specific Plan EIRs.

   D. All applicable policies, regulations, and mitigation measures identified in the Master EIR and Specific Plan EIRs have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

   E. No substantial changes have occurred with respect to the circumstances under which the Master EIR and Specific Plan EIRs were certified, and no new information, which was not known and could not have been known at the time that the Master EIR and Specific Plan EIRs was certified as complete, has become available.

2. ___ **Mitigated Negative Declaration Required** - On the basis of the above determinations, the project is not within the scope of the Master EIR. A mitigated negative declaration will be prepared for the project. The following statements are all found to be true:

   A. The subsequent project is within the scope of the project covered by the Master EIR.

   B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

   C. The project will have one or more potential new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures are being required of the project that will reduce the effects to a less-than-significant level.

   D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

3.____ **Focused EIR Required-** On the basis of the above determinations, the project is not within the scope of the Master EIR. A Focused EIR will be prepared for the project. All of the following statements are found to be true:

A. The subsequent project is within the scope of the project covered by the Master EIR.

B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

C. The project will have one or more new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures or alternatives are required as a result.

D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

_____	_____	_____
Project Manager	Title	Date

4. Within the Scope Analysis of this Document:

The Master EIR allows projects to be found within the scope of the MEIR if certain criteria are met. If the following statements are found to be true for all 21 impact categories included in this Initial Study, then the proposed project is addressed by the MEIR analysis and is within the scope of the MEIR. Any "No" response must be discussed.

		YES	NO
(1)	The lead agency for subsequent projects shall be the City of Modesto or a responsible agency identified in the Master EIR.	☒	☐
(2)	City policies which reduce, avoid, or mitigate environmental effects will continue to be in effect and, therefore, would be applied to subsequent projects where appropriate. The policies are described in the list of policies in place and mitigation measures attached to the Initial Study template. Project impacts would be mitigated to a less-than-significant level using MEIR mitigations only.	☒	☐
(3)	Federal, State, regional, and Stanislaus County regulations do not change in a manner that is less restrictive on development than current law (i.e., would not offer the same level of protection assumed under the Master EIR).	☒	☐
(4)	No specific information concerning the known or potential presence of significant resources is identified in future reports, or through formal or informal input received from responsible or trustee agencies or other qualified sources.	☒	☐
(5)	The development will occur within the boundaries of the City's planning area as established in this Urban Area General Plan.	☒	☐
(6)	Development within the project will comply with all appropriate mitigation measures contained and enumerated in the 2008 General Plan Master EIR.	☒	☐

Discussion:

(1) The City of Modesto is the lead agency for this project. Caltrans District 10 is the responsible agency.

(2) Policies/mitigation measures that affect the addition of new traffic signals or relevant traffic control measures found in the General Plan and its Master EIR will not be applied to this project, as no significant impacts are anticipated.

(3) This project does not result in, nor does it contemplate changes in federal, state, or county regulations that might occur in the future.

(4) Neither the General Plan or its Master EIR or through other sources has the City of Modesto been made aware of significant resources that may be affected by this project.

(5) The proposed project affects areas within Modesto's city limits and its Sphere of Influence.

(6) As noted in response 2 above, all new traffic signals or relevant control measures must comply with policies/mitigations in the General Plan and Master EIR.

5. Currency of the Master EIR Document

The MEIR should be reviewed on a regular basis to determine its currency, and whether additional analysis/mitigation should be incorporated into the MEIR via a Supplemental or Subsequent EIR (CEQA Section 21157.6). Staff has reviewed Sections 1 through 21 of this document in light of the criteria listed below to determine whether the MEIR is current. The analysis contained within the Master EIR is current as long as the following circumstances have not changed. Any "no" response must be explained.

		YES	NO
(1)	Certification of the General Plan Master EIR occurred less than five years prior to the filing of the application for this subsequent project.	☐	☒
(2)	This project is described in the Master EIR and its approval will not affect the adequacy of the Master EIR for any subsequent project because the City can make the following findings:	☒	☐
(a)	No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified.	☒	☐
(b)	No new information, which was not known and could not have been known at the time the Master EIR was certified as complete, has become available.	☒	☐
(c)	Policies remain in effect which require site-specific mitigation, and avoidance or other mitigation of impacts as a prerequisite to future development.	☒	☐

Discussion:

(1) The General Plan Master EIR was certified on October 14, 2008, so more than five years have passed since the MEIR was certified. However, the analysis contained in the MEIR is still adequate for subsequent projects, as documented in the discussion below.

(2) The project is consistent with the analysis contained in the MEIR. This is documented in the discussion of the individual issue areas of this initial study.

(2)(a) There have been no substantive changes to the General Plan since the MEIR was certified that would create additional significant environmental effects that were not analyzed by the MEIR.

(2)(b) There has been no new information that would affect the adequacy of the analysis contained in the MEIR.

(2)(c) All policies contained in the MEIR that require site-specific mitigation or avoidance of impacts remain in effect and will be applied to the project as appropriate.

IV. ENVIRONMENTAL ANALYSIS

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, discloses whether the proposed project may cause any project-specific significant effect on the environment that was not examined in the Final Master EIR (MEIR) for the General Plan and whether new or additional mitigation measures or alternatives may be required as a result. The Initial Study thereby documents whether or not the project is "within the scope" of the Master EIR.

Pursuant to Public Resources Code Section 21157.1, no new environmental document or findings are necessary for projects that are determined to be within the scope of the MEIR. Adoption of the findings specified in Section III.1, above after completion of the Initial Study fulfills the City's obligation in that situation.

All environmental effects cited reflect 2025 conditions resulting from the General Plan, as identified in the Master EIR.

The environmental impact analysis in the Master EIR for the General Plan is organized in twenty-one subject areas. The following analysis is based on the impact analyses contained in Chapter V of the Master EIR. For ease of reference, the sections are numbered in the same order as the analyses in Chapter V.

1. TRAFFIC AND CIRCULATION

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable traffic and circulation impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Increased automobile traffic will result in roadway segments (see MEIR on Table 1-7, pages V-1-32 to V-1-34) operating at LOS D, Modesto's significance threshold for automobile traffic, or lower (LOS E or F).

Effect: The substantial increase in traffic relative to the existing load and capacity of the street system will cause, either individually or cumulatively, the violation of automobile service standards established by StanCOG's Congestion Management Plan for designated roads and highways.

Effect: A substantial increase in automobile vehicle miles traveled and automobile vehicle hours of travel and a decrease in average automobile vehicle speed (see MEIR Table 1-6, page V-1-31).

Cumulative Impacts

Effect: Potential for growth inducement or acceleration of development resulting from highway and local road projects.

Effect: Substantial increase in traffic in relation to the existing traffic load and capacity of the street system, including a violation, either individually or cumulatively, of an automobile LOS standard established by the Congestion Management Plan for designated roads and highways.

Effect: Increased demand for capacity-enhancing alterations to existing roads or automobile traffic reduction.

Other impact categories affected by Traffic and Circulation are addressed throughout this Initial Study (see also Section 2, Degradation of Air Quality; Section 3, Generation of Noise; Section 7 Loss of Sensitive Wildlife and Plant Habitat; Section 8, Disturbance of Archaeological/Historic Sites; Section 14 Increased Demand for Fire Services; Section 18, Energy; Section 19, Visual Resources; Section 20, Land Use and Planning, and Section 21, Climate Change).

b. Master EIR and/or New Mitigation Measures Applied to the Project

Traffic and Circulation mitigation measures pertinent to this project are found on MEIR pages V-1-9 through V-1-28. All mitigation measures appropriate to the project, including any new measures, will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No MEIR mitigation will be applied to the new traffic signal. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-1.B of the General Plan Master EIR provides analysis of Traffic and Circulation impacts. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: A subsequent development project will have a new significant effect on the environment if it would exceed the following criteria:

	Potentially Significant Impact	Less Than Significant with Mitigation	Less Than Significant Impact	No Impact
1. TRAFFIC AND CIRCULATION				
1) The proposed project exceeds traffic generation assumptions in the Master EIR for the site by 100 trips or more and City Engineering and Transportation staff has determined that the project would have additional potentially significant project-specific effects that are not avoided or reduced by the Master EIR's mitigation measures.	☐	☐	☐	☒
2) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads or highways?	☐	☐	☐	☒
3) The proposed project would cause additional roadway segments in the General Plan area to exceed LOS D and/or cause additional violations of standards in the Congestion Management Process, and/or cause an increase in automobile vehicle miles or vehicle hours of travel or a decrease in automobile travel speed, as compared to the impacts disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project would cause emergency response times to exceed acceptable standards established by the Fire Department, as compared to impacts disclosed in the Master EIR (see Section 14, Increased Demand for Fire Services).	☐	☐	☐	☒
5) The proposed project would result in less parking than required by the Municipal Code or as determined by staff.	☐	☐	☐	☒
6) The proposed project would conflict with adopted policies, plans, or programs that support alternative transportation, including, but not limited to the Regional Transportation Plan, the Sustainable Communities Strategy, the Bicycle Action Plan, etc.	☐	☐	☐	☒
7) The proposed project would result in an increase in automobile vehicle miles traveled on a per capita basis, in excess of that considered in the Urban Area General Plan MEIR.	☐	☐	☐	☒

Discussion:

(1) Traffic signals do not create trips, they are intended to manage traffic in an orderly manner. No impact is expected and no mitigation will be applied.

(2-3) The proposed new signal is being added to a roadway segment that is expected to experience LOS E/F in the peak period by 2025. That result is expected to occur with or without the proposed traffic signal, which will have a negligible effect on the functioning of the roadway segment. Furthermore, Caltrans will operate the signal in coordination with its other signals on State Route 108 / McHenry Avenue, further reducing any potential impacts. No mitigation will be applied.

(4) While a new traffic signal may result in some changes to the flow of traffic on State Route 108 / McHenry Avenue, no new traffic will be added to the roadway as a result of the signal and no impacts on emergency response times are expected to occur.

(5-7) This project will have no impact on parking and is expected to result in no changes in the number of vehicle miles traveled per capita. The addition of a traffic signal does not conflict with the Modesto General Plan, the Regional Transportation Plan, or the Congestion Management Process. No impact is expected and no mitigation measures will be applied.

2. DEGRADATION OF AIR QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable air quality impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Expected automobile traffic will result in increased operational emissions of reactive organic gases (ROG) and oxides of nitrogen (NO_X) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased emissions of particulate matter 10 microns or less (PM_{10}) and 2.5 microns or less in diameter ($PM_{2.5}$) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased carbon monoxide (CO) levels in the project area (see MEIR Table 2-7, page V-2-26, and Table 2-8, page V-2-27).

Cumulative Impacts

The Master EIR indicates the same impacts identified as direct impacts above will contribute to regional impacts on air quality for the criteria pollutants ROG, NO_x, PM_{10}, and $PM_{2.5}$.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Air quality mitigation measure(s) pertinent to the proposed project are found on pages V-2-13 through V-2-24 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No MEIR mitigation will be applied to the proposed traffic signal. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-2.B of the General Plan Master EIR provides the analysis of air quality impacts. The following is an analysis of whether the proposed project would result in a new, significant, project - specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
2. DEGRADATION OF AIR QUALITY				
1) The proposed project exceeds the project-level emissions thresholds established for CO, ROG, NO_x, PM_{10}, and $PM_{2.5}$ by the San Joaquin Valley Air Pollution Control District (SJVUAPCD) and is not consistent with the development assumptions for the project site, as established in the Urban Area General Plan and Master EIR.	☐	☐	☐	☒
2) The proposed project does not incorporate the best management practices established by the SJVAPCD for CO, ROG, NO_x, PM_{10}, and $PM_{2.5}$.	☐	☐	☐	☒
3) The proposed project does not comply with the air quality policies in the Modesto Urban Area General Plan.	☐	☐	☐	☒
4) The proposed project would expose sensitive receptors to pollutant concentrations in excess of those expected to occur as a result of implementation of the Urban Area General Plan.	☐	☐	☐	☒
5) The proposed project would create objectionable odors affecting a substantial number of people.	☐	☐	☐	☒

Discussion:

(1) The new traffic signal is likely to reduce trip lengths for some local residents, but may add a brief delay for some through traffic on McHenry Avenue. The number of motorists and the change in delay and trip length are likely to offset each other, resulting in no net impact. No mitigation will be applied to this project.

(2) The proposed traffic signal will be built and operated according to the most current best practices established by Caltrans and will be coordinated with Caltrans' other traffic signals. No significant impact is expected and no mitigation will be applied.

(3) This project is consistent with the air quality policies contained in the General Plan. The project will not impede the implementation of air quality goals. No mitigation will be applied.

(4) This project may cause a brief delay for some through traffic, but this would be similar to that occurring at similar intersections of local streets with arterials at other locations in Modesto. No significant impact occurs at those signals and none would be expected to occur at this signal. No mitigation measures would be applied.

(5) The construction and operation of this new traffic signal would not be expected to result in objectionable odors. No mitigation measures would be applied.

3. GENERATION OF NOISE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable noise impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Future automobile traffic noise levels and roadway construction and maintenance activities resulting from development of the Urban Area General Plan will exceed the City's noise thresholds at various locations, but particularly in areas adjacent to heavily traveled roadways (see MEIR Table 3-3, page V-3-10, and Figure VII-2 and Table 3-6, pages V-3-18 and V-3-19).

Effect: Expected noise from airport operations and airport construction projects may expose up to 468 dwellings and three churches to noise levels of 65 dB CNEL and up to eight dwellings to noise levels of 70 dB CNEL.

Effect: Expose noise-sensitive land uses to noise from the construction of bicycle and transit projects.

Effect: Expose noise-sensitive land uses to noise from freight and passenger rail operations.

Cumulative Impacts

Effect: Traffic from development in the City of Modesto would, when combined with traffic from new development in the County and other cities, contribute to a cumulative increase in roadside noise levels on major roads and highways throughout Stanislaus County.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Noise policies and mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-3-11 through V-3-15 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and any new measures are listed in Section V, Mitigation Applied to Project.

Discussion:

No MEIR or specific plan EIR mitigation will be applied to the proposed traffic signal. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-3.B of the General Plan MEIR discloses noise impacts resulting from development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of the proposed project's effects are based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
3. GENERATION OF NOISE				
1) The proposed project will exceed the standards for noise level and hours of operation established by the Modesto noise ordinance.	☐	☐	☐	☒
2) The proposed project will not comply with the noise policies of, or otherwise be inconsistent with, the Modesto Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project will result in an increase in ambient noise levels in the project vicinity above those disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project will result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels disclosed in the Master EIR implementation of the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1) Traffic signals do not have a noise signature independent of the traffic they control. Indirect noise impacts may occasionally occur due to excessive braking or a collision, but these noises can also be heard at intersections that are not controlled by traffic signals. No impact is expected and no mitigation will be applied.

(2-4) Construction would temporarily increase ambient noise, but not to greater levels than disclosed in the General Plan Master EIR. As noted above, operational noise impacts would be negligible.

4. EFFECTS ON AGRICULTURAL LANDS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on agricultural lands expected after application of mitigations/policies:

Direct Impacts

Effect: Between 1995 and 2025, development of the Urban Area General Plan may convert up to approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area to urban uses.

Effect: Approximately 1,200 acres of urban development along a 28.5-mile boundary 350 feet wide between urban and agricultural uses could be affected by continued agricultural operations, including noise, dust, and chemical overspray or drift.

Cumulative Impacts

Effect: Growth within Modesto's planning area would contribute considerably to the loss of agricultural land within Stanislaus County, accounting for the conversion of as much as approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area from 1995 to 2025.

b. Master EIR and/or New Mitigation Measures Pertinent to the Project

Agricultural land mitigation measures pertinent to the proposed project are found on pages V-4-6 to and V-4-8 of the Master EIR. All mitigation measures appropriate to the project and any new mitigation to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigations in the Master EIR are applicable to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-4.B of the General Plan Master EIR, Section IV.B of the Tivoli Specific Plan EIR, and Section 4.13 of the Woodglen Specific Plan EIR disclose the impacts resulting from the implementation of the General Plan and specific plans on agricultural lands. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the Master EIR or specific plan EIRs.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
4. EFFECTS ON AGRICULTURAL LANDS				
1) The proposed project is inconsistent with the Urban Area General Plan's policies relating to agricultural land.	☐	☐	☐	☒
2) The proposed project will either directly or indirectly result in the development of land outside the 2008 Urban Area General Plan's planning area boundary.	☐	☐	☐	☒
3) The proposed project will conflict with existing zoning for agricultural use, or there is an existing Williamson Act contract on the project site.	☐	☐	☐	☒
4) The proposed project will involve other changes in the existing environment not anticipated in the Master EIR which, due to their location or nature, could result in conversion of farmland to non-agricultural use.	☐	☐	☐	☒

Discussion:

(1-4) The proposed project is the addition of a traffic signal at the intersection of McHenry Avenue and Grecian Avenue, which is surrounded by developed and developing land. No impacts on agricultural land of any sort are expected to result.

5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on long-term water supplies expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts have been disclosed in the Master EIR.

Cumulative Impacts

Effect: Operational yields of the Modesto and Turlock subbasins, both of which underlie the City of Modesto, are unknown, although the City is participating in a study with the United States Geological Survey in order to quantify the operational yields of both subbasins. Groundwater withdrawals from both basins by the City, when combined with other users' withdrawals, may result in overdrafting both subbasins.

Effect: Despite available options, during drought years, significant water shortages are forecast for the San Joaquin River basin, which includes both the Modesto and Turlock subbasins, by 2020. Modesto would make a cumulatively considerable contribution to the cumulative impact on water supply under drought conditions.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Water supply mitigation measures pertinent to the proposed project are found on pages V-5-6 through V-5-12 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No MEIR mitigation will be applied to the proposed traffic signal. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-5.B of the General Plan Master EIR discloses impacts on long-term water supplies resulting from implementation of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES				
1) The proposed project is inconsistent with water supply policies in the Urban Area General Plan.	☐	☐	☐	☒
2) Water demand for the proposed project will exceed estimates for similar projects or for development on the project site anticipated in the Urban Area General Plan or sufficient water supplies are not otherwise available to serve the project from existing entitlements and resources.	☐	☐	☐	☒
3) The proposed project would deplete groundwater supplies to a greater degree than anticipated in the Urban Area General Plan or would interfere with groundwater recharge.	☐	☐	☐	☒

Discussion:

(1-3) A small amount of water may be used during construction to clean the site. Otherwise, the proposed traffic signal will not use water. No impacts will occur and no mitigation will be applied.

6. INCREASED DEMAND FOR SANITARY SEWER SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sanitary sewer services after application of mitigations/policies:

Direct Impacts

Effect: Development resulting from implementation of the General Plan will require substantial new sewage treatment and disposal capacity, treatment plant improvements, sewer mains and collection lines, and pump stations. The Wastewater Master Plan anticipates the need for these facilities and its EIR evaluates the impact of developing those facilities. Potential impacts include degradation of water quality through erosion and chemical releases; localized flooding; construction noise; exposure of construction workers and the public to hazardous materials; and on the habitat of the elderberry longhorn beetle, burrowing owl, and Swainson's hawk, as well as certain other regulated habitats. All of these impacts are mitigated to a less-than-significant level.

Additional impacts that are not mitigated to a less-than-significant level include loss of farmland caused by construction of the Phase IA tertiary treatment facility at the Jennings Road Secondary Treatment Facility, an increase in pollutant loads from increased wastewater flows to the San Joaquin River, and an increase in noise and criteria air pollutants due to construction activities, including traffic.

Cumulative Impacts

Effect: No additional cumulative impacts were identified in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Sewer service mitigation measures pertinent to the proposed project are found on pages V-6-3 through V-6-8 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No General Plan MEIR mitigations will be applied to the project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-6.B of the General Plan Master EIR discloses impacts on the Increased Demand for Sanitary Sewer Service resulting from implementation of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
6. INCREASED DEMAND FOR SANITARY SEWER SERVICES				
1) The proposed project is inconsistent with wastewater policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project will generate sewage flows greater than those anticipated in the Urban Area General Plan for the project site.	☐	☐	☐	☒
3) The proposed project will result in a determination by the wastewater treatment provider which serves or may serve the project that it has inadequate capacity to serve the project's projected demand in addition to the provider's existing commitments.	☐	☐	☐	☒

Discussion:

(1-3) The proposed traffic signal will have no impact on sewer capacity. No mitigation measures will be applied.

7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sensitive wildlife and plant habitat expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant impacts on sensitive wildlife and plan habitat are expected to occur with the application of the policies contained in the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will contribute to the cumulative impact of habitat loss in the San Joaquin Valley. Requiring density development than has occurred in the past or that is expected in the future would minimize the City's contribution to the cumulative loss of habitat. Nonetheless, this is a significant and unavoidable impact.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Wildlife and plant habitat mitigation measures pertinent to the proposed project are found on pages V-7-17 through V-7-24 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No General Plan MEIR mitigation will be applied to the proposed project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-7.B of the General Plan Master EIR discloses impacts on the Loss of Sensitive Wildlife and Plant Habitat resulting from implementation of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT				
1) The project is inconsistent with the policies pertaining to the loss of sensitive wildlife and plant habitat contained in the Urban Area General Plan.	☐	☐	☐	☒
2) Consultation with the California Department of Fish and Game or the U.S. Fish and Wildlife Service determines that the project would have a significant effect on a candidate, sensitive, or special status species in excess of the impact disclosed in the Master EIR.	☐	☐	☐	☒
3) The proposed project would have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act through direct removal, filling, hydrological interruption, or other means, in excess of the impact disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project would substantially interfere with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites.	☐	☐	☐	☒
5) Conflict with local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.	☐	☐	☐	☒
6) The proposed project would conflict with provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan.	☐	☐	☐	☒

Discussion:

(1-6) The proposed project would have no impact on wildlife. The intersection of McHenry Avenue and Grecian Avenue lies within an area of developed and developing land. There are no wetlands, riparian areas, wildlife corridors, or habitat conservation plans in the area that would be affected by the traffic signal. No impacts are expected and no mitigation measures will be applied.

8. DISTURBANCE OF ARCHAEOLOGICAL/HISTORICAL SITES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on archaeological/historical sites expected after application of mitigations/policies:

Direct Impacts

Effect: Modification resulting in a substantial adverse change in the significance of a historic resource or the demolition of a listed or eligible historic resource.

Effect: The modification or demolition of a structure more than 50 years in age may be significant.

Effect: Discovery of archaeological resources in areas outside of the riparian corridors, as a result of construction activities.

Effect: Construction in an area of high archaeological sensitivity.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Archaeological or historic mitigation measures pertinent to the project being analyzed in this Initial Study are found on page V-8-16 through V-8-20 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

No General Plan MEIR or specific plan EIR mitigation will be applied to the proposed traffic signal. Should any archaeological resources be inadvertently discovered during construction, Mitigation Measure AH-16 will be applied. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-8.B of the General Plan MEIR discloses impacts on archaeological/historical resources resulting from implementation of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
8. DISTURBANCE OF ARCHAEOLOGICAL/ HISTORICAL SITES				
1) The proposed project is inconsistent with the archaeological/historical resource policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would demolish a building eligible for listing as a historic resource or remove a landmark from the Modesto inventory.	☐	☐	☐	☒
3) The proposed project would modify or demolish a structure more than 50 years in age.	☐	☐	☐	☒
4) The project would adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources.	☐	☐	☐	☒
5) Conflict with local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.	☐	☐	☐	☒

Discussion:

(1-5) The area that will be disturbed in order to construct the new traffic signal is relatively small and the intersection of McHenry Avenue and Grecian Avenue is well outside of areas known or expected to contain archaeological resources. Furthermore, no historic buildings exist in the area affected by the traffic signal. No impacts on these resources are expected to occur and no mitigation measures will be applied. Should archaeological resources be inadvertently encountered during construction, Mitigation Measure AH-16 will be applied to reduce any impacts to a less-than–significant level.

9. INCREASED DEMAND FOR STORM DRAINAGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on storm drainage expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: The population of Stanislaus County is projected to increase in a fashion similar to that of Modesto, resulting in additional urban development and associated increases in impervious surface area and associated increases in storm water runoff. Cumulative hydrologic impacts of storm water flows from Modesto urban areas and other areas of the County could occur due to the fixed capacity of MID and TID irrigation canals to convey drainage west to the San Joaquin River. If drainage channels in some areas prove insufficient to handle the increased drainage discharges, existing storm water runoff from urban and agricultural areas during large storm events would have to be interrupted until water levels receded to a point allowing the resumption of discharges to the channel. Ceasing discharges to drainage channels could cause inundation in and around the drainage conveyance pipeline systems, surface drainage channels, detention basins, and other urban areas. This cumulative impact is considered significant and unavoidable.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Storm Drainage mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-9-4 through V-9-9. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project:

Discussion:

No General Plan MEIR mitigation will be applied to the proposed traffic signal. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-9.B of the General Plan MEIR discloses impacts on the demand for storm drainage resulting from development of the General Plan and specific plans. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
9. INCREASED DEMAND FOR STORM DRAINAGE				
1) The proposed project is inconsistent with the storm drainage policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or offsite, as compared to impacts anticipated to result from the Urban Area General Plan or create substantial unanticipated sources of polluted runoff.	☐	☐	☐	☒
3) The proposed project does not utilize Low Impact Development strategies to reduce runoff from the site and increase infiltration, resulting in no net increase in runoff before and after development.	☐	☐	☐	☒

Discussion:

(1-3) The proposed traffic signal at the intersection of McHenry Avenue and Grecian Avenue would create no new runoff or divert existing runoff. There are no general plan storm water drainage policies that apply in this situation. No impacts are expected and no mitigation measures will be applied.

10. FLOODING AND WATER QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on flooding and water quality expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Flooding and Water Quality mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-10-6 through V-10-9 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

No General Plan MEIR will be applied to the proposed traffic signal. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-10.B of the General Plan Master EIR provides an analysis of Flooding and Water Quality impacts of development of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
10. FLOODING AND WATER QUALITY				
1) The proposed project is inconsistent with the flooding and water quality policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project does not comply with the regulatory requirements of the federal Clean Water Act or the State Porter-Cologne Act.	☐	☐	☐	☒
3) The proposed project would place more housing within a 100-year flood hazard zone than assumed in the Urban Area General Plan.	☐	☐	☐	☒
4) The proposed project would place structure within a 100-year flood hazard area so that they would impede or redirect floodwater or would substantially alter the existing on-site drainage pattern or a watercourse, in such a way as to cause flooding on- or offsite.	☐	☐	☐	☒
5) The proposed project does not comply with Modesto's Guidance Manual for New Development Storm Water Quality Control Measures.	☐	☐	☐	☒
6) The proposed project would violate water quality standards or waste discharge requirements.	☐	☐	☐	☒
7) The proposed project would substantially alter the existing drainage pattern of the site or area or a watercourse in a manner that would result in substantial erosion or siltation on- or offsite in excess of the assumptions of the Urban Area General Plan.	☐	☐	☐	☒
8) The proposed project would create or contribute runoff, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff, not expected as part of Urban Area General Plan implementation.	☐	☐	☐	☒

Discussion:

(1-8) The proposed project is an update to the existing Housing Element of the General Plan. The sites inventory is similar to that provided in the prior Housing Element and demographic information has been updated to reflect the most current data from the Census and other sources. The potential development contained in the revised Housing Element is consistent with flooding and water quality policies in the General Plan and related specific plans. Any development proposals that do not comply with policies in the General Plan and specific plans are subject to further environmental review.

11. INCREASED DEMAND FOR PARKS AND OPEN SPACE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on parks and open space expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Parks and open space mitigation measures pertinent to the proposed project are found on pages V-11-3 through V-11-9 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

No MEIR mitigation will be applied to the proposed traffic signal. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-11.B of the General Plan MEIR discloses impacts of the General Plan and specific plans on parks and open space. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
11. INCREASED DEMAND FOR PARKS AND OPEN SPACE				
1) The proposed project is inconsistent with the parks and open space policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would eliminate parks or open space.	☐	☐	☐	☒
3) The proposed project would cause an increase in the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility in question would occur or be accelerated or the proposed project would include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment.	☐	☐	☐	☒

Discussion:

(1-3) Adding a traffic signal at the intersection of McHenry Avenue and Grecian Avenue will have no impact on the demand for parks or open space. No mitigation measures will be applied.

12. INCREASED DEMAND FOR SCHOOLS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on school facilities expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR. By statute, the impact of new students is considered to be mitigated below a level of significance by payment of school impact fees and the exercise of any or all of the financing options set out in Government Code Section 65997.

Cumulative Impacts

Effect: Similar to direct impacts of implementation of the Urban Area General Plan, no residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. As long these policies are applied to all subsequent projects, no new mitigation is necessary. Further, payment of school impact fees and compliance with SB 50 is statutorily deemed to be full mitigation of school impacts (Government Code Section 65995).

The following schools mitigation measures on pages V-12-5 through V-12-7 of the Master EIR are pertinent to the proposed project. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures are listed in Section V, Mitigation Applied to Project.

Discussion:

No MEIR or specific plan EIR mitigation will be applied to the proposed traffic signal. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-12.B of the General Plan Master EIR discloses impacts resulting from implementation of the Urban Area General Plan associated with increased demand for schools. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
12. INCREASED DEMAND FOR SCHOOLS				
1) The proposed project is inconsistent with the policies relating to schools in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project does not comply with SB 50/Proposition 1A funding provisions, or succeeding measures which state that compliance results in less-than-significant impacts on schools.	☐	☐	☐	☒

Discussion:

(1-2) The proposed traffic signal will have no effect on the number of children enrolled in any school. No impacts will occur and no mitigation measures will be applied.

13. INCREASED DEMAND FOR POLICE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on police services expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Police services mitigation measures pertinent to the proposed project are found on pages V-13-2 through V-13-5 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No General Plan MEIR mitigation will be applied to the proposed traffic signal. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-13.B of the General Plan Master EIR discloses impacts on police services resulting from implementation of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
13. INCREASED DEMAND FOR POLICE SERVICES				
1) The proposed project is inconsistent with policies relating to police services in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	☐	☐	☐	☒

Discussion:

(1-2) The proposed traffic signal will create no increase in demand for police services. Demand for police services is typically linked to an increase in population or development and a traffic signal does not fall into those categories. No substantial changes in traffic flows or emergency response times are expected to result from the new signal. No impacts are anticipated and no mitigation measures will be applied.

14. INCREASED DEMAND FOR FIRE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on fire services expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Fire Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-14-4 through V-14-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No General Plan MEIR mitigation will be applied to the proposed traffic signal. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-14.B of the General Plan Master EIR discloses impacts on fire services resulting from implementation of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
14. INCREASED DEMAND FOR FIRE SERVICES				
1) The proposed project is inconsistent with the fire service policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	☐	☐	☐	☒
3) The proposed project, based upon substantial evidence, would cause the erosion or elimination of fire protection services in adjoining fire protection districts.	☐	☐	☐	☒

Discussion:

(1-3) The proposed traffic signal will create no increase in demand for fire services. Demand for fire services is typically linked to an increase in population or development and a traffic signal does not fall into those categories. No substantial changes in traffic flows or emergency response times are expected to result from the new signal. No impacts are anticipated and no mitigation measures will be applied.

15. GENERATION OF SOLID WASTE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on solid waste expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Solid waste mitigation measures pertinent to the proposed project are found on pages V-15-4 through V-15-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

Discussion:

No General Plan MEIR mitigation will be applied to the proposed traffic signal. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-15.B of the General Plan Master EIR discloses solid waste impacts resulting from implementation of the General Plan and specific plans. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR and specific plan EIRs.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
15. GENERATION OF SOLID WASTE				
1) The project is inconsistent with the solid waste policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The County is unable to expand its solid waste disposal capacity, as expected, causing all new development to result in cumulative impacts on the County's disposal capacity.	☐	☐	☐	☒

Discussion:

(1-2) Construction of the proposed traffic signal at McHenry Avenue and Grecian Avenue will create a small amount of solid waste from the demolition of roadway and sidewalk surfaces in order to install loop detectors and poles. Waste will be disposed of at appropriate landfills and is expected to have no significant impact on disposal capacity. No mitigation measures will be applied.

16. GENERATION OF HAZARDOUS MATERIALS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts regarding hazardous materials expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Hazardous materials mitigation measures pertinent to the proposed project are found on pages V-16-8 through V-16-13 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No General Plan MEIR will be applied to the proposed traffic signal. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-16.B of the General Plan Master EIR discloses impacts relating to hazardous materials resulting from implementation of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
16. GENERATION OF HAZARDOUS MATERIALS				
1) The project is inconsistent with the hazardous materials policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.	☐	☐	☐	☒
3) The proposed project would be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would create a significant hazard to the public or the environment.	☐	☐	☐	☒
4) The proposed project would be constructed on a contaminated site not known to the State of California as of March 2008.	☐	☐	☐	☒

Discussion:

(1-4) Construction and operation of the proposed project traffic signal will not involve the use of hazardous materials. Furthermore, the project site has been evaluated and determined to be free of any hazardous materials. The Phase I Environmental and Site Assessment Report prepared by Ground Zero Analysis, Inc., and dated June 9, 2015, supports this conclusion. This report and its July 16, 2015, addendum is available for review at the City of Modesto Department of Public Works, 1010 10th Street, 4th Floor, Modesto. No impact is expected and no mitigation measures will be applied.

17. GEOLOGY, SOILS, AND MINERAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts related to geology, soils, and mineral resources expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Geology, soils, and mineral resource mitigation measures pertinent to the proposed project are found on pages V-17-9 and V-17-10 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of the proposed project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No MEIR mitigation measures will be applied to the proposed project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-17.B of the General Plan Master EIR discloses geology, soils, and mineral resource impacts resulting from implementation of the General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
17. GEOLOGY, SOILS, AND MINERAL RESOURCES				
1) The project is inconsistent with policies relating to geology, soils, and mineral resources contained in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would expose people or structures to potential substantial adverse effects including the risk of loss, injury, or death involving fault rupture, strong seismic activity; location on an expansive soil; result in the loss of topsoil; location on soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems in areas where sewers are not available for the disposal of wastewater; result in the loss of known mineral resources that would be of value to the region and the state; or result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan.	☐	☐	☐	☒

Discussion:

(1-2) Construction and operation of the proposed traffic signal will not affect any geological features or mineral resources. There are no known resources or geological features in the area, therefore, the proposed traffic signal will have no significant impact on any such resources or features. No mitigation measures will be applied.

18. ENERGY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to energy expected after application of mitigations/policies:

Direct Impacts

Effect: Continued development in the Planned Urbanizing Area would have an impact on available energy supplies. Energy consumption likely would increase substantially by 2025 as a result of implementation of the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on energy consumption.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following energy mitigation measures pertinent to the proposed project are found on pages V-18-2 through V-18-8 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No MEIR mitigation will be applied to the proposed traffic signal. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the General Plan Master EIR discloses impacts of implementing the General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
18. ENERGY				
1) The proposed project is inconsistent with policies relating to energy in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in energy consumption during construction, operation, maintenance, or removal that is more wasteful, inefficient, and unnecessary than assumed in the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1-2) Installation and operation of traffic signals is a routine function of cities and this signal is also considered to be routine and consistent with the general plan. Operation of the proposed traffic signal will incrementally increase the amount of electrical energy Modesto uses, but it represents a small fraction of energy used to operate traffic signals citywide. No significant increase in energy use is expected and no mitigation measures will be applied.

19. EFFECTS ON VISUAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on visual resources expected after application of mitigations/policies:

Direct Impacts

Effect: New development in the Planned Urbanizing Area will occur in areas that are in agricultural production or are otherwise lightly developed, which could lead to the introduction of light and glare in areas that have little nighttime illumination.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following visual resources mitigation measures pertinent to the proposed project are found on pages V-19-3 and V-19-4 in the Master EIR. All mitigation measures appropriate to the proposed project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No MEIR mitigation will be applied to the proposed traffic signal. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-19.B of the General Plan Master EIR discloses impacts of implementing the General Plan on visual resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
19. EFFECTS ON VISUAL RESOURCES				
1) The proposed project is inconsistent with policies relating to visual resources in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would degrade views from riverside areas and parks to a greater degree than assumed in the Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project would degrade views of riverside areas from public roadways and nearby properties to a greater degree than assumed in the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1-3) Views of and from rivers and waterways are identified in the general plan as significant visual resources. The intersection of McHenry Avenue and Grecian Avenue is not near enough to any river to be within view of it, therefore, no impacts on visual resources will occur. The project will not be an impediment to implementation of City policies on visual resources. No mitigation measures will be applied.

20. LAND USE AND PLANNING

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to land use and planning expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following land use and planning mitigation measures pertinent to the proposed project are found on pages V-20-6 through V-20-17 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No General Plan MEIR mitigation will be applied to the proposed traffic signal. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-20.B of the General Plan Master EIR disclosed impacts of implementing the General Plan on land use and planning. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
20. LAND USE AND PLANNING				
1) The proposed project is inconsistent with land use and planning policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project contains elements that would physically divide an established community in a way not assumed in the Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project conflicts with a land use plan, policy or regulation established for the purpose of avoiding or mitigating an environmental impact by an agency that has jurisdiction over the proposed project.	☐	☐	☐	☒
4) The proposed project conflicts with an applicable habitat conservation plan or natural community conservation plan.	☐	☐	☐	☒

Discussion:

(1-4) The proposed traffic signal will create no changes in land use in the area. McHenry Avenue is a wide roadway that creates an impediment to pedestrians and bicycle riders; installing a traffic signal with an ADA-compliant push button at this location will improve safety for pedestrians and bicycle riders who want to cross McHenry Avenue in this area. The traffic signal has no effect on land use policies and there is no conservation plan in the area. No impact is anticipated to occur and no mitigation measures will be applied.

21. CLIMATE CHANGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to climate change expected after application of mitigations/policies:

Direct Impacts

Effect: Impacts resulting from implementation of the Urban Area General Plan are not substantial enough to result in a significant direct impact on climate change, as disclosed in the Master EIR.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on climate change.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following climate change mitigation measures pertinent to the proposed project are found on pages V-21-7 through V-21-10 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No General Plan MEIR mitigation will be applied to the proposed traffic signal. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the General Plan Master EIR discloses impacts of implementing the General Plan on climate change. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
21. CLIMATE CHANGE				
1) The proposed project is inconsistent with policies relating to climate change in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in average automobile trip lengths or CO_2 emissions higher than those assumed in the Master EIR.	☐	☐	☐	☒
3) The proposed project would conflict with the Sustainable Communities Strategy or Alternative Planning Strategy that the Air Resources Board has agreed will achieve the goals of AB 32.	☐	☐	☐	☒

Discussion:

(1) None of the general plan's policies relating to climate change affects the proposed traffic signal, which would be considered consistent with the general plan. No impact would occur.

(2) The proposed traffic signal would have little effect, if any, on trip lengths in the neighborhoods adjoining it and no effect on the length of through trips on McHenry Avenue. Any change in trip length from the neighborhood would be expected to be a reduction, since residents wishing to travel southbound on McHenry could utilize this intersection, instead of driving a longer route to an intersection where a left turn is possible. There may be some increase in CO_2 idle emissions from through traffic on McHenry Avenue, should those vehicles be required to make an additional stop at this intersection. Traffic waiting to make a southbound left turn will also result in a small increase in CO_2 idle emissions. This impact would not be significant and would be at least partly offset by the shorter trips originating from the neighborhood.

(3) Adding a traffic signal at this location will not conflict with the Sustainable Communities Strategy adopted by the Stanislaus Council of Governments. Rather, it will make pedestrian and bicycle crossings at this location safer, by including an ADA-compliant push button. No impact is expected to occur.

V. MITIGATION MEASURES APPLIED TO THE PROPOSED PROJECT

If the Initial Study results in the determination that a Finding of Conformance can be adopted for the proposed project Section A below applies. If the Initial Study results in the determination that a Finding of Conformance cannot be adopted and a Mitigated Negative Declaration/EIR must be prepared for the project then Section B, below applies.

A. Mitigation Measures Applied to the Project

Pursuant to Public Resources Code Section 21157.1(c), in order for a Finding of Conformance to be made, all appropriate mitigation measures from the Master EIR shall be incorporated into the proposed project. General Plan Policies/Master EIR mitigation measures shall be made part of the proposed project prior to approval by means of conditions of project approval or incorporation into the appropriate document or plan.

All applicable and appropriate mitigation measures have been applied to the project (see mitigation measures listed below).

B. New or Additional Mitigation Measures or Alternatives Required

Where the project's effects would exceed the significance criteria for each environmental impact category, a mitigated negative declaration or Focused EIR must be prepared. Staff has reviewed the project against the significance criteria thresholds established in the Master EIR and specific plan EIRs for all impact categories in this Initial Study.

The following project-specific mitigation measures listed below are necessary to reduce impacts to a less-than-significant level:

Traffic and Circulation:

None.

Degradation of Air Quality:

None.

Generation of Noise:

None.

Effects on Agricultural Lands:

None.

Increased Demand for Long-Term Water Supplies:

None.

Increased Demand for Sanitary Sewer Services:

None.

Loss of Sensitive Wildlife and Plant Habitat:

None.

Disturbance of Archaeological/Historic Sites:

None. The sole exception is the application of Mitigation Measure AH-16 should any resources be inadvertently discovered during construction.

Increased Demand for Storm Drainage:

None.

Flooding and Water Quality:

None.

Increased Demand for Parks and Open Space:

None.

Increased Demand for Schools:

None.

Increased Demand for Police Services:

None.

Increased Demand for Fire Services:

None.

Generation of Solid Waste:

None.

Generation of Hazardous Materials:

None.

Geology, Soils, and Mineral Resources:

None.

Energy:

None.

Effects on Visual Resources:

None.

Land Use and Planning:

None.

Climate Change:

None.

Print

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-147

RESOLUTION APPROVING THE PLANS AND SPECIFICATIONS FOR THE PROJECT TITLED, "NEW TRAFFIC SIGNALS – 2015 AT MCHENRY AVENUE AND GRECIAN AVENUE", ACCEPTING THE BID, AND AWARDING THE CONSTRUCTION CONTRACT TO TIM PAXIN'S PACIFIC EXCAVATION, INC. OF ELK GROVE, CA IN THE AMOUNT OF $369,786; AND AUTHORIZING THE ACTING CITY MANAGER OR HIS DESIGNEE, TO EXECUTE THE CONTRACT

WHEREAS, in January, 2012, City Staff applied for Congestion Mitigation and Air Quality (CMAQ) funds to construct a new Traffic Signal at the following two intersections in the City of Modesto: (1) Blue Gum Avenue at Rosemore Avenue and (2) McHenry Avenue at Grecian Avenue, and

WHEREAS, construction of this project would install new traffic signals including LED street lighting at the intersections and meeting current Americans with Disabilities Act (ADA) standards, and

WHEREAS, on December 8, 2013 JWG McHenry, LLC received Conditions of Approval: DPR-13-011 – Claratina Avenue Auto Dealerships for the development of an Infinity Auto Dealership located at the south-east corner of McHenry Avenue and Claratina Avenue, and

WHEREAS, City staff has worked diligently in coordinating with representatives at JWG McHenry, LLC and Caltrans to ensure that a new traffic signal located at the intersection of McHenry Avenue and Grecian Avenue could meet the needs of the Claratina Auto Dealership project as well as gain Caltrans approval, and

WHEREAS, on March 24, 2015, the City Council, by Resolution No. 2015-100 accepted $85,000 in Congestion Mitigation and Air Quality (CMAQ) funds for the preliminary engineering phase of the New Traffic Signals – 2015 project, and

WHEREAS, at the September 2, 2014 Council Meeting the City Council approved the Plans and Specifications for MJC to construct a new traffic signal at the intersection of Blue Gum Avenue at Prichard Avenue at MJC's cost, and

WHEREAS, with the installation of the new traffic signal at the intersection of Blue Gum Avenue at Prichard Avenue, it was no longer desirable to construct a new traffic signal at the intersection of Blue Gum Avenue at Rosemore Avenue due to the close proximity of the intersections, and

WHEREAS, City staff worked with StanCOG staff to reduce the scope of the New Traffic Signals – 2015 project and eliminate the Blue Gum Avenue at Rosemore Avenue traffic signal, and

WHEREAS, with this scope reduction, StanCOG staff removed $20,000 from the preliminary engineering phase of this project, and

WHEREAS, on May 12, 2015, the City Council, by Resolution No. 2015-148 approved the addition of $30,000 in Regional Surface Transportation Program (RSTP) funds to the preliminary engineering phase of this project to cover the considerable staff coordination with representatives of JWG McHenry, LLC and Caltrans so that the design of the City's project would match the design of the approved project plans JWG McHenry, LLC had from Caltrans, and

WHEREAS, on September 13, 2016, the City Council by Resolution No. 2016-348 approved the addition of $523,450 in CMAQ and RSTP funds for the construction phase of the New Traffic Signals – 2015 project, and

WHEREAS, the project was advertised for bids on February 24, 2017, and

WHEREAS, bids were publicly opened on March 28, 2017 pursuant to Modesto Municipal Code Section 8-3.403 and later tabulated by the Director of Community and Economic Development for the consideration of Council, and

WHEREAS, the Director of Community and Economic Development and the Acting City Manager have recommended that the bid of $369,786 received from Tim Paxin's Pacific Excavation, Inc. be accepted as the lowest responsive and responsible bid and the contract be awarded to Tim Paxin's Pacific Excavation, Inc. of Elk Grove, CA, and

WHEREAS, on February 28, 2017, Council approved Resolution No. 2017-86 implementing a spending freeze in order to maintain fiscal sustainability of the City. The City Manager's Office approved an exception to this freeze for this procurement based upon the fact that this project is fully funded by Grant funds and no General Fund money is required to complete this project.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the plans and specifications for the project titled, "New Traffic Signals – 2015 at McHenry Avenue and Grecian Avenue," accepts the bid from Tim Paxin's Pacific Excavation Inc., of Elk Grove, CA in the amount of $369,786 and awards Tim Paxin's Pacific Excavation, Inc. of Elk Grove, CA the contract for the "New Traffic Signals – 2015 at McHenry Avenue and Grecian Avenue" project.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of April, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-148

RESOLUTION AMENDING THE FISCAL YEAR 2016-2017 ANNUAL OPERATING AND CAPITAL IMPROVEMENT BUDGET

WHEREAS, a financial analysis has been completed and it has been determined that a budget adjustment is required to the Annual and Capital Improvement Budgets of the City of Modesto for Fiscal Year 2016-17,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the Fiscal Year 2016-17 Annual Operating and Capital Improvement budgets as shown in **Exhibit "A"**, which is **attached** hereto and incorporated by reference herein.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of April, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following votes:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold
NOES:	Councilmembers:	None

EXHIBIT A

FISCAL YEAR 2016-17

COMMUNITY AND ECONOMIC DEVELOPMENT

In 2006 the City of Modesto and the Neighborhood Center at Marshal Park, staff from the City's Police, Fire and Parks, Recreation and Neighborhood Departments held discussions on cooperating on locating a 24-hour Police Precinct, a Fire Station and a Recreation Center in a City park that would serve the northeast area of the City of Modesto. Mary E. Grogan Park was the selected location.

During the adoption of the FY2007-2008 CIP a new project was established, NE Community Services Center, with a budget of $210,000 for a feasibility study. An appropriation from the Parks, Recreation and Neighborhoods CFF in the amount of $70,000 was completed while the transfers from the Police and Fire CFF budgets did not occur. A budget adjustment is necessary to transfer $70,000 from the Police Department Capital Facility Fee Fund, Fund 3440 to the Parks Capital Facility Fee Fund, Fund 3460 as indicated in the Memorandum of Understanding between the Parks, Recreation and Neighborhoods Department, the Modesto Regional Fire Authority and the Modesto Police and Fire Departments to memorialize the obligation of the Fire and MPD contributions to the design of the Northeast Community Services Center.

A budget adjustment is necessary to establish a new project and the expenditure and revenue budget for the project in the amount of $120,000 for the John Thurman Field Capital Improvements per the requirements of the current agreement in place with the Modesto Nuts which requires $120,000 annually in capital improvements at the ballpark. This budget adjustment will reduce existing budget within the Community and Economic Development Department (CED) Administration (14110) and Convention Visitors Bureau (14115) by $100,000 and $20,000, respectively, in FY 2016-17 from the Professional Services account to cover this expense. The two cost centers reside in the General Fund and this action will require a transfer from the General Fund to the fund that the project resides in for the amount of $120,000 which is the same amount of the reduction to the current budgets in CED.

FIRE DEPARTMENT

A budget adjustment is necessary in the amount of $1,000,000 to increase the expense and revenue budgets for the 2017 Emergency Flood Aid project in Fund 1341 (Grants - Operation Grants Reimbursable Fund). The City received notice about reimbursement funding at the State level related to the Emergency Flood Storms and it is estimated that the payroll and non-payroll expenses will come in around $1,000,000. This budget adjustment is required in order track expenses for the purpose of tracking against this emergency situation and will be critical in receiving appropriate reimbursement from the State.

RESOLUTION ADOPTING THE ANNUAL INVESTMENT POLICY

WHEREAS, staff has identified the need to update the City's Annual Investment Policy in order to continue to effectively invest funds in accordance with the principles of sound treasury management and applicable laws, and

WHEREAS, the City Council desires to adopt the Annual Investment Policy, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto, that it hereby adopts the Annual Investment Policy, **attached** hereto.

BE IT FURTHER RESOLVED that City staff is hereby authorized and directed to proceed with any and all actions deemed necessary or advisable, following the adopted policy guidelines pursuant to this Resolution, in connection with the future investments of funds, for future consideration by this City Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of April, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

City of Modesto Policy CITY COUNCIL POLICY MODESTO		**POLICY NO.: 1.019**	
SUBJECT: INVESTMENT POLICY		**REVISED February, 2017~~MAY, 2015~~**	

Formatted Table

Formatted: Font color: Red

PURPOSE

The purpose of this document is to identify various policies and procedures that enhance opportunities for a prudent and systematic investment policy and to organize and formalize investment-related activities.

SCOPE

The Investment Policy applies to all funds and investment activities of the City except the investment of bond proceeds, which are governed by the appropriate bond documents, and any pension or other post-employment benefit funds held in a trust.

BACKGROUND

Under Section 2-3.401 of the Municipal Code, it is the function of the Finance Department to deposit and invest funds in accordance with sound treasury management. As a charter city, Modesto operates its pooled idle cash investment under the "prudent investor" rule which states that:

> "When investing, reinvesting, purchasing, acquiring, exchanging, selling, or managing public funds, a trustee shall act with the care, skill, prudence, and diligence under the circumstances then prevailing, including, but not limited to, the general economic conditions and the anticipated needs of the agency, that a prudent person acting in a like capacity and familiarity with those matters would use in the conduct of funds of a like character and with like aims, to safeguard the principal and maintain the liquidity needs of the agency."

The City is also governed by Sections 53600 et seq. of the California Government Code. This affords the City a broad spectrum of investment opportunities, so long as the investment is deemed prudent and allowable under current legislation of the State of California and the charter of the City of Modesto.

On an annual basis, the Finance Director/Treasurer will render to the City Council the statement of investment policy. The report will be considered, with any changes, by the City Council at a public meeting.

ETHICS AND CONFLICTS OF INTEREST

Officers and employees involved in the investment process will refrain from personal business activities that could conflict with proper execution of the investment program, or which could impair their ability to make impartial decisions.

INVESTMENT REPORT

The Finance Director/Treasurer shall provide the City Council with a monthly report of investment transactions. In addition, the Finance Director/Treasurer shall render a quarterly report to the City Council, City Manager and the internal auditor within 30 days following the end of the quarter. The report shall contain the following:

1. The type of investment, issuer, purchase date, date of maturity, credit rating, overall portfolio yield based on cost, total par and dollar amount invested on all securities, investments and monies.

2. The weighted average maturity of the portfolio.

3. A description of any funds, investments or programs that are under management of contracted parties, including lending programs. Funds and investments held by contracted parties shall be reported at market value and the source of valuation shall be reported.

4. The market value as of the date of the report, and the source of the valuation.

5. A statement of compliance with the investment policy or manner in which the portfolio is not in compliance.

6. A statement denoting the City's ability to meet its expenditure requirements for the next six months or provide an explanation as to why sufficient money shall, or may, not be available.

INVESTMENT CRITERIA

Public funds are invested in the following manner in order of priority:

1. **Safety of Principal**
   The duty of the Finance Director/Treasurer is to protect, preserve and maintain cash and investments on behalf of the citizens of the community. To guard against loss of principal, only prudent and safe investments will be considered.

2. **Liquidity**
   The receipt of revenues and maturities of investments should be scheduled so that adequate cash will be available to meet disbursements. An adequate portion of the portfolio should be maintained in liquid short-term instruments which can be readily converted to cash if necessary.

3. **Return on Investment**
   The investment portfolio of the City shall be designed with the objective of attaining a market rate of return on its investments consistent with the constraints imposed by its safety objective and cash flow considerations. Return becomes a consideration only after the basic requirements of safety and liquidity have been met.

SAFEKEEPING AND CUSTODY

All security transactions entered into by the City shall be conducted on a delivery-versus payment basis. Securities will be held by third party custodian designated by the Finance Director/Treasurer and evidenced by safekeeping receipts.

The only exception to the foregoing are Local Agency Investment Pools, Certificates of Deposit, and money market funds since the purchased securities are not deliverable. In all cases, purchased securities shall be held in the City's name.

AUTHORIZED FINANCIAL DEALERS AND INSTITUTIONS

The Finance Director/Treasurer will maintain a list of financial dealers and institutions qualified and authorized to transact business with the City.

The purchase by the City of any investment other than those purchased directly from the issuer, will be purchased either from an institution licensed by the State as a broker-dealer, as defined in Section 25004 of the Corporations Code, which is a member of the Financial Industry Regulatory Authority (FINRA), or a member of a federally regulated securities exchange, a national or state chartered bank, a federal or state association (as defined by Section 5102 of the Financial Code), or a brokerage firm designated as a Primary Government Dealer by the Federal Reserve Bank.

The Finance Director/Treasurer will investigate all institutions that wish to do business with the City, to determine if they are adequately capitalized, make markets in securities appropriate for the City's needs, and agree to abide by the conditions set forth in the City's Investment Policy and any other guidelines that may be provided. This will be done annually by having the financial institutions:

1. Provide written notification that they have read, and will abide by, the City's Investment Policy.

2. Submit their most recent audited Financial Statement within 120 days of the institution's fiscal year end.

If the City has an investment advisor, the investment advisor may use its own list of authorized broker/dealers to conduct transactions on behalf of the City.

Purchase and sale of securities will be made on the basis of competitive bids and offers with a minimum of three quotes being obtained.

PERFORMANCE STANDARDS

The investment portfolio shall be designed with the objective of obtaining a rate of return throughout budgetary and economic cycles, commensurate with the investment risk constraints and the cash flow needs. The City will measure the portfolio's performance against a market benchmark that is commensurate with the City's investment risk constraints and the cash flow characteristics of the portfolio.

AUTHORIZED INVESTMENTS

Credit criteria and maximum percentages listed in this section refer to the credit of the issuing organization at the time the security is purchased. The City may from time to time be invested in a security whose rating is downgraded subsequent to the date of purchase. In the event a rating drops below the minimum allowed rating category for that given investment type, the investment advisor shall notify the Finance Director and/or Designee and recommend a plan of action. The City will limit investments in any one non-government issuer, except investment pools, to no more than 5% regardless of security type. Commencing with Section 53600 of Article 1, Chapter 4 of the Government Code of the State of California, surplus money may be invested in the following:

A. City of Modesto bonds. Bonds issued by the City.

B. U.S. Treasury securities. United States Treasury notes, bonds, bills or certificates of indebtedness or those for which the faith and credit of the United States are pledged for the principal and interest.

C. State of California securities. Registered State of California warrants, treasury notes or bonds, provided that the securities are rated in a rating category of ~~at least~~ A or its equivalent or higher by a nationally recognized statistical rating agency.

D. California municipal securities. Bonds, notes, warrants or other evidence of indebtedness of any local agency within California provided that the securities are rated in a rating category of ~~at least~~ A or its equivalent or higher by a nationally recognized statistical rating agency.

E. Other 49 State municipal securities. Registered treasury notes or bonds of any of the other 49 states in addition to California, including bonds payable solely out of the revenues from a revenue-producing property owned, controlled, or operated by a state, or by a department, board, agency, or authority of any of these states that are rated in a rating category of at least A or its equivalent or higher by a nationally recognized statistical rating agency.

Formatted: Font: Not Bold

Registered treasury notes or bonds of any of the other 49 states in addition to California, including bonds payable solely out of the revenues from a revenue-producing property owned, controlled, or operated by a state, or by a department, board, agency, or authority of any of these states.

F. Federal Agency securities. Federal agency or United States government-sponsored enterprise obligations, participations, or other instruments, including those issued by or fully guaranteed as to principal and interest by federal agencies or United States government-sponsored enterprises.

G. Bankers' Acceptances. Bankers' Acceptances issued by domestic or foreign banks, which are eligible for purchase by the Federal Reserve System, the short-term paper of which is rated in the highest category by a nationally recognized statistical rating agency.

Purchases of Bankers' Acceptances may not exceed 180 days maturity or 40 percent of the City's surplus money.

H. Commercial Paper. Commercial paper of "prime" quality of the highest ranking or of the highest letter and number rating as provided for by a nationally recognized statistical-

rating organization. The entity that, issues the commercial paper shall meet all of the following conditions in either paragraph (1) or paragraph (2):

Formatted: Indent: Left: 0", Right: 0", Space Before: 0 pt, Line spacing: Multiple 1.15 li

(1) The entity meets the following criteria: (a) is organized and operating within the United States as a general corporation. (b) Has total assets in excess of $500 million. (c) Has debt other than commercial paper, if any, that is rated in a rating category of "A" or its equivalent or higher by a nationally recognized statistical-rating organization (NRSRO).

(2) The entity meets the following criteria: (a) is organized within the United States as a special purpose corporation, trust, or limited liability company. (b) Has program wide credit enhancements including, but not limited to, over collateralization, letters of credit, or surety bond, - (c) Has commercial paper that is rated "A-1" or higher, or the equivalent, by an NRSRO.

Investments in commercial paper are limited to a maximum of 25 percent of the portfolio. Purchases shall not exceed 10 percent of the outstanding paper of the issuing corporation. The maximum investment maturity is restricted to 270 days.

I. Certificates of Deposit. FDIC insured or fully collateralized time certificates of deposit in financial institutions located in California. Eligible investments are restricted to those issuing institutions that have been in business at least five years. The maximum term for deposits shall be one year. Investments in certificates of deposit are further limited to 20 percent of surplus funds. All time deposits must be collateralized in accordance with California Government Code section 53561. The City, at its discretion, may waive the collateralization requirements for any portion of the deposit that is covered by federal insurance.

J. Negotiable Certificates of Deposit. Negotiable certificates of deposit issued by a nationally- or state-chartered bank or a state or federal savings and loan association or by a federally-licensed or state-licensed branch of a foreign bank; provided that the senior debt obligations of the issuing institution are rated in a rating category of "A" or its equivalent or better ~~better~~ by Moody's or Standard & Poor's. Investments in negotiable certificates of deposit are limited to 30 percent of the portfolio.

K. Repurchase Agreements. Repurchase Agreements used solely as short-term investments not to exceed 90 days.

The following collateral restrictions will be observed: Only U.S. Treasury securities or Federal Agency securities as described in 1 and 2 will be acceptable collateral. All securities underlying Repurchase Agreements must be delivered to the City's custodian bank versus payment or be handled under a tri-party repurchase agreement. The total of all collateral for each Repurchase Agreement must equal or exceed, on the basis of market value plus accrued interest, 102 percent of the total dollar value of the money invested by the City for the term of the investment. For any Repurchase Agreement with a term of more than one day, the value of the underlying securities must be reviewed on a regular basis.

Market value must be calculated each time there is a substitution of collateral.

The City or its trustee shall have a perfected first security interest under the Uniform Commercial Code in all securities subject to Repurchase Agreement.

The City may enter into Repurchase Agreements with (1) primary dealers in U.S. Government securities who are eligible to transact business with, and who report to, the Federal Reserve Bank of New York, and (2) California and non-California banking institutions having assets in excess of $1 billion and in the highest short-term rating category as provided by Moody's Investors Service, Inc. or Standard & Poor's Corporation.

The City will have specific written agreements with each firm with which it enters into Repurchase Agreements.

L. Reverse Repurchase Agreements. The City may invest in reverse repurchase agreements only with "primary dealers" with which the City has entered into a master repurchase agreement contract. The City may invest in reverse repurchase agreements with the following conditions: The City may only use reverse repurchase agreements to (1) cover a temporary cash shortage, or (2) augment earnings. Reverse repurchase agreements may not be used to leverage the portfolio.

In addition, if a reverse repurchase agreement is authorized, it may be utilized only if the security to be sold on reverse repurchase agreement has been owned and fully paid for by the City for a minimum of 30 days prior to the sale; the total of all reverse repurchase agreements on investments owned by the City does not exceed 20 percent of the portfolio; and the agreement does not exceed a term of 92 days, unless the agreement includes a written codicil guaranteeing a minimum earning or spread for the entire period between the sale of the security using a reverse repurchase agreement and the final maturity date of the same security. The proceeds of the reverse repurchase agreement may not be invested in securities whose maturity exceeds the term of the Reverse Repurchase Agreement.

and depository institution debt securities with a maximum remaining maturity of five years or less, issued by corporations organized and operating within the United States or by depository institutions licensed by the U.S. or any state and operating within the U.S. Medium-term notes shall be rated in a rating category "A" or its equivalent or better by a nationally recognized rating service. Purchase of medium-term corporate notes may not exceed 30 percent of the City's investment portfolio.

M. Medium-term corporate notes. Medium-term corporate notes defined as all corporate and depository institution debt securities with a maximum remaining maturity of five years or less, issued by corporations organized and operating within the United States or by depository institutions licensed by the U.S. or any state and operating within the U.S. Medium-term notes shall be rated in a rating category "A" or its equivalent or better ~~better~~ by a nationally recognized rating service. Purchase of medium-term corporate notes may not exceed 30 percent of the City's investment portfolio.

N. Money market funds. Shares of beneficial interest issued by diversified management companies that are money market funds registered with the Securities and Exchange Commission under the Investment Company Act of 1940 (money market funds).

O. State of California Local Agency Investment Fund (LAIF).

P. Mortgage and asset-backed securities. (1) Any mortgage pass-through security, collateralized mortgage obligation, mortgage-backed or other pay-through bond, equipment lease-backed certificate, consumer receivable-backed bond that has been issued by a Federal Agency and which has a maximum of five years maturity and (2) A mortgage passthrough security, collateralized mortgage obligation, mortgage-backed or other pay-through bond, equipment lease-backed certificate, consumer receivable passthrough certificate, or consumer receivable-backed bond of a maximum of five years' maturity, provided such securities are issued by an issuer rated in a rating category of "A" or its equivalent or better for the issuer's debt as provided by an NRSRO and rated in a rating category of "AAA" or its equivalent or better by an NRSRO. Purchases of mortgage and asset-backed securities should not exceed 20 percent of the City's investment portfolio.

~~Any mortgage pass-through security, collateralized mortgage obligation, mortgage-backed or other pay-through bond, equipment lease-backed certificate, consumer receivable-backed bond that has been issued by a Federal Agency and has a maximum of five years maturity. Purchases of mortgage and asset-backed securities should not exceed 20 percent of the City's investment portfolio.~~

Formatted: Font: Not Bold

Formatted: Indent: Left: 0.31", First line: 0"

Q. California Asset Management Program (CAMP).

R. Supranationals. United States dollar denominated senior unsecured unsubordinated obligations issued or unconditionally guaranteed by the International Bank for Reconstruction and Development (IBRD), International Finance Corporation (IFC), or Inter-American Development Bank (IADB), with a maximum remaining maturity of five years or less, and eligible for purchase and sale within the United States. Investments under this subdivision shall be rated in a rating category of "AA", its equivalent, or better ~~better~~ by at least one NRSRO.

MAXIMUM MATURITY

Investment maturities shall be based on a review of cash flow forecasts. Maturities will be scheduled so as to permit the City to meet all projected obligations.

Maximum maturity of an authorized investment is limited to five years.

Proceeds of sales or funds set aside for the repayment of any notes (e.g., Tax and Revenue Anticipation Notes) shall not be invested for a term that exceeds the term of the notes.

INELIGIBLE INVESTMENTS

Any security type or structure not specifically approved by this policy is hereby specifically prohibited. Security types which are thereby prohibited include, but are not limited to:

Investment in inverse floaters, range notes, or interest only strips that are derived from a pool of mortgages is prohibited.

RESTRICTIONS SET BY THE FINANCE DIRECTOR/TREASURER

A. Prior approval of the Finance Director/Treasurer is required for the following transactions, unless the City utilizes the services of an investment advisor registered with the Securities and Exchange Commission in a fiduciary relationship as outlined in this policy.

Sale of securities
Swaps and trades
Purchase of collateralized mortgage obligations (CMO)
Purchase of mortgage-backed obligations
Purchase of corporate notes
Purchase transaction in excess of $3 million

B. The following investments are not deemed appropriate for the City and will not be utilized:

Futures and options
Small Business Administration notes

AUTHORIZED INVESTMENT PERSONNEL

Pursuant to the Government Code, the City Council delegates the authority to invest or to reinvest funds, or to sell or exchange securities so purchased, to the Finance Director/Treasurer for a one-year period. The Finance Director/Treasurer is charged with the responsibility for carrying out the policies of the City Council and shall assume full responsibility for investment transactions until the delegation of authority is revoked or expires.

Idle cash management and investment transactions are the responsibility of the Finance Department, which is under the control of the Finance Director/Treasurer. The Finance Director/Treasurer may designate an individual(s) ["Designee"] to be responsible for the daily management of the City's portfolio of treasury investments. The Designee may also be directed to monitor and forecast the City's cash flows, and prepare periodic investment reports that are submitted to the City Council. The Accounting Division of the Finance Department monitors all treasury transactions and prepares accounting records of all investment transactions as to type of investment, amount, yield, and maturity. No other person has authority to make investment transactions without the written authority of the Finance Director/Treasurer. Pursuant to Government Code chapter 53600, all persons investing monies are trustees and therefore fiduciaries subject to the prudent investor standard. Financial market security transactions will be executed by delivery versus payment and the securities will be held by a third party custodian.

Subject to required procurement procedures, the City may engage the support services of outside professionals in regard to its financial program, so long as it can be demonstrated or anticipated that these services produce a net financial advantage or necessary financial protection of the City's resources.

POLICY REVIEW

The investment policy shall be adopted by resolution of the City Council on, at minimum, an annual basis. This investment policy shall be reviewed at least annually to ensure its consistency with the overall objectives of preservation of principal, liquidity and yield, and its relevance to current law and financial and economic trends. Any amendments to the policy shall be forwarded to City Council for approval.

This policy and the internal controls related to the investment of City funds will be reviewed by the City's independent external auditors as part of their annual audit of the City's financial statements.

APPENDIX A - GLOSSARY

Asset-Backed Security (ABS)
An asset-backed security (ABS) is a security whose income payments and hence value is derived from and collateralized (or "backed") by a specified pool of underlying assets which are receivables. Pooling the assets into financial instruments allows them to be sold to general investors, a process called securitization, and allows the risk of investing in the underlying assets to be diversified because each security will represent a fraction of the total value of the diverse pool of underlying assets. The pools of underlying assets can comprise common payments credit cards, auto loans, mortgage loans, and other types of assets. Interest and principal is paid to investors from borrowers who are paying down their debt.

Bankers Acceptances (BAs)
Bankers Acceptance is a time bill of exchange drawn on and accepted by a commercial bank to[1] finance the exchange of goods. When a bank "accepts" such a bill, the time draft becomes, in effect, a predated certified check payable to the bearer at some future specified date. Little risk is involved for the investor because the commercial bank assumes primary liability once the draft is accepted.

California Asset Management Program (CAMP)
CAMP is a Joint Powers Authority ("JPA") designed to assist public agencies with their investment needs through the use of the Cash Reserve Portfolio ("Pool"), which is rated "AAAm" by Standard & Poor's, its highest rating category. The Pool seeks to attain a high level of current income consistent with the preservation of principal.

Certificates of Deposit (CDS)
A certificate of deposit is issued against funds deposited in a commercial bank for a definite period of time and earning a specified rate of return. They are issued in two forms, negotiable and non-negotiable:

A negotiable certificate of deposit may be sold by one holder to another prior to maturity. This is possible because the issuing bank agrees to pay the amount of the deposit, plus earned interest, to the Bearer of the certificate at maturity.

A non-negotiable certificate of deposit is collateralized and is not a money market instrument since it cannot be traded in the secondary market. It is issued on a fixed maturity basis and often pays a higher interest rate than is permissible on other savings or time deposit accounts.

Collateralized Mortgage Obligation (CMO)
A CMO is a pool of mortgages sold as a single investment with interest paid monthly, quarterly, or semi-annually. Mortgage securities pay a higher rate than U.S. Treasury securities due to risk of prepayment and default.

Commercial Paper (CP)
This is a short-term promissory note issued by a corporation to raise working capital. The interest rates tend to be higher than other investments of similar liquidity.

Derivatives
A financial instrument with a value derived from the value of one or more underlying assets or indexes of asset values. The term "derivative products" refers to instruments or features such as collateralized mortgage obligations (CMOs), interest-only (IOs) and principal-only (POs), forwards, futures, currency and interest rate swaps, options, floaters/inverse floaters, and caps/floors/collars.

Federal Agency Securities
Certain agencies created by Congress and sponsored by the federal government issue debt that is considered to be of prime quality and have a very high standing in the bond market. The major federal agencies are described as follows:

Federal National Mortgage Association (FNMA, "Fannie Mae") provides funds to the mortgage market primarily by purchasing loans from local lenders.

Federal Home Loan Mortgage Corporation (FHLMC, "Freddie Mac") purchases conventional mortgages and sells mortgage-backed securities.

Student Loan Marketing Association (SLMA, "Sallie Mae") facilitates that flow of private capital into various federally-guaranteed student loan programs maintained through banks, S&Ls, educational institutions and other participating lenders.

Federal Farm Credit System (FFCB) sells securities to provide mortgage loans and short-term and intermediate-term credit to farmers, ranchers, and agricultural cooperatives.

Federal Home Loan Bank (FHLB) acts as a credit reserve system for the thrift industry to stabilize the flow of funds to member savings and loan and savings banks.

Futures
Exchange traded contracts specifying a future date of delivery or receipt of a specific product (physical commodity or financial instrument). Futures are used by business as a hedge against unfavorable price changes, and by speculators who hope to profit from such changes.

Local Agency Investment Fund (LAIF)
State of California LAIF is designed to provide a convenient and safe means of investing temporarily idle monies by the State Treasurer. LAJF provides high liquidity and generally pays higher yields than can be realized by individual local agencies (for similar maturities) due to economies of scale.

Medium-Term Notes
Issued by corporations (in the form of secured or unsecured debt) for the purpose of raising working capital and purchasing capital assets.

Options
A right to buy (call) or sell (put) a fixed amount of a given stock at a specified price within a limited period of time. The purchaser hopes that the stock's price will go up (if he bought a call) or down (if he bought a put) by an amount sufficient to provide a profit when he sells the option. If the price is static or moves in the opposite direction, the price paid for the option is lost entirely.

Repurchase Agreement
As authorized in Government Code Section 5360i (1), these investment vehicles are (generally short-term) agreements between the local agency and seller for the purchase of Government securities to be resold at a specific date and for a specific amount.

Reverse Repurchase Agreement
This transaction is the opposite of a repurchase agreement. The dealer buys securities with a contractual agreement to sell them back at a prearranged date. The local agency pays the dealer interest for the use of the funds. The money "borrowed" on a "reverse repo" can be reinvested in higher yielding instruments.

Supranational entities
Entities formed by two or more central governments with the purpose of promoting economic development for the member countries. Supranational institutions finance their activities by issuing debt, such as supranational bonds. Examples of supranational institutions include the European Investment Bank and the World Bank. Similarly to the government bonds, the bonds issued by these institutions are considered direct obligations of the issuing nations and have a high credit rating.

U.S. Treasury Securities
The highest quality, most liquid debt investments available in the fixed income market-place, unconditionally backed by the "full faith and credit" of the U.S. Government. Treasury bills are short-term instruments (maturity of three months to one year); Treasury notes and bonds are currently issued with maturities of two to ten years.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-150

Print

RESOLUTION ADOPTING THE REVISED DEBT MANAGEMENT POLICY

WHEREAS, pursuant to the City of Modesto Debt Management Policy, last adopted in July 2006, the City of Modesto is required to periodically review and update its Debt Management Policy to address changes to the primary objectives related to the City's debt and financing related activities, and

WHEREAS, staff has identified the need to update the City's Debt Management Policy in order to continue to maintain cost-effective access to capital markets through prudent yet flexible policies; moderate debt principal and debt service payments through effective planning and project cash management; and achieve the highest practical credit ratings, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto, that it hereby adopts the revised Debt Management Policy,

BE IT FURTHER RESOLVED that City staff is hereby authorized and directed to proceed with any and all actions deemed necessary or advisable, following the adopted policy guidelines pursuant to this Resolution, in connection with the future issuances of the City Debt, for future consideration by this City Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of April, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-151

RESOLUTION APPROVING THE DESIGNATION OF AUTHORIZED AGENTS TO FILE RELATED DOCUMENTS WITH THE CALIFORNIA GOVERNOR'S OFFICE OF EMERGENCY SERVICES TO SEEK REIMBURSEMENT FOR THE FEBRUARY 2017 FLOODING EVENTS

WHEREAS, during January and February 2017, three atmospheric river storm events swept across California, bringing high winds, substantial precipitation, and flooding that impacted Stanislaus County and the City of Modesto, and

WHEREAS, the Tuolumne and San Joaquin rivers reached the flood stage numerous areas throughout the City were affected including but not limited to; street flooding, downed trees, traffic/electrical systems, areas surrounding the Waste Water Treatment plants and City owned golf courses, and

WHEREAS, on February 21st, 2017 in response to the flooding, an Emergency Proclamation for the City of Modesto was made by the City Manager, and

WHEREAS, on April 1, 2017, President Donald J. Trump declared a major disaster making federal disaster aid available to 42 counties, including Stanislaus for the February 2017 storms known as FEMA-4308-DR-CA. This declaration makes federal funding available for reimbursement of up to 75% of eligible costs.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Designation of Authorized Agents to file related documents with the California Governor's Office of Emergency Services to seek reimbursement for the February 2017 flooding events.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Director of Finance and/or Accounting Division Manager and/or the Acting City

Manager are hereby authorized to execute for and on behalf of the City of Modesto, a public entity established under the laws of the State of California, the application and to file it with the California Governor's Office of Emergency Services for the purpose of obtaining certain federal financial assistance under Public Law 93-288 as amended by the Robert T. Stafford Disaster Relief and Emergency Assistance Act of 1988, and/or state financial assistance under the California Disaster Assistance Act, and

That the City of Modesto, a public entity established under the laws of the State of California, hereby authorizes its agent(s) to provide to the Governor's Office of Emergency Services for all matters pertaining to such state disaster assistance the assurances and agreements required, and

That this is a universal resolution and is effective for all open and future disasters up to three (3) years following the date of approval below, and

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 25th day of April, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING AN AGREEMENT BETWEEN THE CITY OF MODESTO AND OFFICER GLENN GRAVES FOR THE PURCHASE OF RETIRED CITY OF MODESTO POLICE CANINE, KAI; AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the Police Chief for the City of Modesto, from time to time, officially retires police canines from departmental service, and

WHEREAS, City of Modesto police canine handler, Officer Glenn Graves, wishes to purchase and assume possession of his assigned canine, Kai, upon the dog's official retirement, and

WHEREAS, it is necessary to adopt a resolution authorizing the purchase of a City of Modesto police canine by its assigned handler,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the agreement between the City of Modesto and Officer Glenn Graves for the purchase of retired police canine, Kai.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of April, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION AUTHORIZING THE REJECTION OF ALL BIDS RECEIVED FOR REQUEST FOR BID (RFB) NO. 1617-13 FOR THE PURCHASE OF AN ALL-IN-ONE OIL ANALYSIS INSTRUMENT AND COOLANT AND DIESEL EXHAUST FLUID ANALYZER

WHEREAS, the City Manager authorized the Purchasing Manager to issue formal Request for Bids (RFB) for an all-in-one oil analyzer and coolant and diesel analyzer through various competitive processes, and

WHEREAS, on October 31, 2016, the Purchasing Division issued RFB 1617-13 for the purchase of an all-in-one oil analyzer and coolant and diesel analyzer on the City's website under the commodity codes for automotive shop and related equipment, controlling, indicating, measuring, monitor, and recording instruments and automotive shop equipment maintenance and repair. Prospective bidders were notified online of the bid opportunity. Three companies chose to download the RFB document, and

WHEREAS, on November 22, 2016, bids were formally opened in the City Clerk's office. One company chose to respond. There were no local vendors capable of providing this type of equipment. One company provided a responsive and responsible bid, and

WHEREAS, the bid received was significantly higher than projected costs and a Return on Investment for this equipment makes it uneconomical to purchase at this time.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the rejection of all bids for the purchase of an all-in-one oil analysis instrument and coolant and diesel exhaust fluid analyzer.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of April, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION ACCEPTING THE STATE ROUTE 99/PELANDALE AVENUE INTERCHANGE RECONSTRUCTION PROJECT IMPROVEMENTS AS COMPLETE FOR THE PURPOSE OF ALLOWING CALTRANS TO BE RESPONSIBLE FOR MAINTAINING THE IMPROVEMENTS.

WHEREAS, the State Route 99 / Pelandale Avenue Interchange Reconstruction Project was a project to increase safety, relieve congestion, and enhance traffic operations within the Interchange and along the adjacent streets, and

WHEREAS, State Route 99/Pelandale Avenue Intersection Reconstruction Project funds were programmed in accordance with California Department of Transportation's (Caltrans) Project Development Procedures Manual, and

WHEREAS, an initial study with Mitigated Negative Declaration was prepared by the City's consultant and submitted to Caltrans for approval. This Document (SCH# 2009072012) was approved by Caltrans on September 28, 2009, and

WHEREAS, on July 10, 2009, by Resolution No. 2012-277, City Council approved an Agreement between the City of Modesto and Caltrans for maintenance of improvements within State Highway Right of Way on Route 99 (Pelandale Avenue), within the City of Modesto for the State Route 99 and Pelandale Avenue Interchange Reconstruction Project, and

WHEREAS, on February 25, 2014, by Resolution No. 2014-71, City Council approved the contract with Teichert/MCM, a Joint Venture, Fowler, California in an amount of $30,999,968.53, and authorized the City Manager, or his designee, to execute the contract, and

WHEREAS, on October 15, 2015, Caltrans issued a Drought Response memorandum to enforce Executive Order B-29-15 issued by Governor Brown mandating a state-wide reduction of water usage. Because of Executive Order B-29-15, landscape planting was excluded, thus eliminating the plant establishment time period, and

WHEREAS, Teichert/MCM has completed all items of work and requested "Relief of Maintenance. With the elimination of the plant establishment time period, staff has deemed project improvements complete, and

WHEREAS, in order for Caltrans to inherit the responsibility of maintaining improvements per the Agreement, City Council must first accept the improvements as complete.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the State Route 99/Pelandale Avenue Interchange Reconstruction Project improvements as complete for the purpose of allowing Caltrans to be responsible for maintaining the improvements.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of April, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING THE CITY OF MODESTO SPONSORSHIP OF THE 19TH ANNUAL 2017 NORTH MODESTO KIWANIS GRAFFITI PARADE AND CAR SHOW, INCLUDING A WAIVER OF CITY PERMIT FEES, POLICE DEPARTMENT ASSOCIATED COSTS, STREETS DIVISION ASSOCIATED COSTS, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE ANY DOCUMENTS NECESSARY RELATED TO SPONSORSHIP

WHEREAS, the 19th Annual 2017 North Modesto Kiwanis Graffiti Parade and Car Show is a Modesto tradition, and

WHEREAS, the North Modesto Kiwanis have sponsored this event for the past eighteen years, and

WHEREAS, in 2016 there were 1200 classic cars and 20,000 spectators that raised over $130,000 for support of local children charities through scholarships, grants, and multiple funding programs, and

WHEREAS, this annual event draws participants and spectators from miles around that benefit Modesto lodging, restaurants, and entertainment venues, and

WHEREAS, staff is requesting City Council approval to sponsor the 2017 North Modesto Kiwanis Graffiti Parade and Car Show, and

WHEREAS, the sponsorship will include the waiver of City permit fees, Police Department associated costs, and Street Division associated costs, and

WHEREAS, the estimated expense to the City of Modesto to sponsor the 19th Annual 2017 North Modesto Kiwanis Graffiti Parade and Car Show is approximately $46,460.

NOW THEREFORE, BE IT RESOLVED by Council of the City of Modesto that it hereby approves the City of Modesto sponsorship of the 19th Annual 2017 North

Modesto Kiwanis Graffiti Parade and Car Show including waiver of City permit fees, Police Department costs, and Streets Division costs estimated at $46,460.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the necessary documents related to the sponsorship.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of April, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING AN AGREEMENT WITH DF ENGINEERING, INC., MODESTO, CA, FOR DESIGN SERVICES FOR THE VARIOUS FLUSH LINES PROJECT, IN AN AMOUNT NOT TO EXCEED $73,600 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS $7,360 FOR ADDITIONAL SERVICES, IF NEEDED, FOR A MAXIMUM TOTAL AMOUNT OF $80,960, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the Utilities Department Water Services Division currently has several wells throughout the City that are in need of flush lines, and

WHEREAS, Water Services identified wells 16, 40, 41 & 43 that are in need of immediate attention and require a flush line to be installed, and

WHEREAS the project will install a flush line at each well site location wherein a sanitary sewer pipeline will transfer water from the well site into the City's wastewater collections system, and

WHEREAS, installations of flush lines at well sites are imperative for the overall health of the water system, and

WHEREAS, flushing wells facilitate cleaning and aid in the sampling process prior to bringing wells back online, and

WHEREAS, water is forced through pipes from the well at high velocity, removing accumulated mineral sediment until the water is within acceptable regulatory limits, and

WHEREAS, in accordance with Administrative Directive 3.1, Selection Procedures for Professional Consultants Who Provide Architectural and Engineering Services for Capital Projects, a Request for Proposal (RFP) was sent to four pre-qualified

local consultants for Civil Engineering Services for Capital Improvement Program Projects, and

WHEREAS, on February 24, 2017, staff received and distributed three proposals to a selection committee consisting of Utilities engineering and operations staff, and

WHEREAS, the selection committee evaluated the proposals and determined that DF Engineering, Inc. (DF), to be the most qualified and responsive, and

WHEREAS, DF's sealed cost proposal was opened after the selection ranking had been finalized, and

WHEREAS, DF's proposal cost and scope were reviewed and determined to be reasonable to provide design services, and

WHEREAS, the scope of services to be provided under the agreement includes: 1) Project Management; 2) Meetings with City Staff; 3) Topographic Survey; and 4) Preparation of Plans and Specifications, and

WHEREAS, the design services for the Flush Lines for Various Wells 2017 Project falls within the scope of services of DF's proposal, and

WHEREAS, on February 28, 2017, by Resolution No. 2017-86, Council approved implementing a spending freeze in order to maintain fiscal sustainability of the City, and

WHEREAS, as allowed by this resolution, the City Manager's Office approved an exception to this freeze for this procurement, and

WHEREAS, justification for this exception is based upon the project being essential for efficient operation of the water system,

WHEREAS, in addition, it is budgeted in the current Fiscal Year 2016-2017 Water Fund and it will not require a budget transfer from reserves to provide the required services, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, this agreement is for professional services and therefore, exempt from the bid requirement, and

WHEREAS, however, staff still went through a RFP process pursuant to Administrative Directive 3.1., and

WHEREAS, staff recommends approval of the agreement with DF Engineering for engineering design services for the Flush Lines for Various Wells 2017 Project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with DF Engineering, Inc., Modesto, CA, for design services for the Flush Lines for Various Wells 2017 Project, in an amount not to exceed $73,600 for the identified scope of services, plus $7,360 for additional services, if needed, for a maximum total amount of $80,960.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of April, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING AN AMENDMENT TO THE AGREEMENT WITH KLEINFELDER, INC., MODESTO, CA, FOR GEOPHYSICAL INVESTIGATION SERVICES FOR WELL 274, IN AN AMOUNT NOT TO EXCEED $12,042 FOR THE IDENTIFIED SCOPE OF SERVICES, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AMENDMENT TO AGREEMENT

WHEREAS, the Grayson water service area was acquired from the Del Este Water Company in 1995 as part of the overall acquisition of Del Este's water system, and

WHEREAS, the City now operates and maintains two wells and storage tank No. 9 in the outlying service area of Grayson, and

WHEREAS, nitrate concentrations have been an issue at Well 274, which is currently being treated at the Well 295/Tank 9 site, and

WHEREAS, a feasibility study that addressed nitrate concentrations in Well 274 was completed in January 2015, and resulted in the recommendation that the well be replaced, as it was installed in 1967, and

WHEREAS, on November 24, 2015, by Resolution No. 2015-454, Council accepted a 9,945 square foot site from Stanislaus County, which will expand the Well 274 site, allowing the City to drill a replacement well, and

WHEREAS, a test boring is needed to assess the subsurface for design of a replacement well, and

WHEREAS, a hydrogeologist will provide direction for testing and sampling, and analyze the results of a test bore hole, which must be performed by a licensed driller, and

WHEREAS, on March 22, 2016, by Resolution No. 2016-116, Council approved an agreement with Kleinfelder, Inc. in the amount of $75,000 for a geophysical investigation on the Well 274 site, and

WHEREAS, the geophysical investigation was completed successfully, but due to the uncertain nature of subsurface investigations, additional costs were incurred for drilling, zone testing and night security beyond the initial agreement scope of work, and

WHEREAS, the additional costs total $12,041.34; therefore, an amendment is required in the amount of $12,041.34 for additional work that was not included in the original agreement, and

WHEREAS, based on the successful geophysical investigation, design of a replacement well is currently in progress, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, this amendment to agreement is for professional services and, therefore, exempt from the bid requirement, and

WHEREAS, however, staff proceeded through a RFP process pursuant to Administrative Directive 3.1, and

WHEREAS, staff recommends approval of the amendment to agreement with Kleinfelder, Inc. for geophysical investigation services for Well 274, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Amendment to the Agreement with Kleinfelder, Inc., Modesto, CA, for Geophysical Investigation Services for Well 274, in an amount not to exceed $12,041.34 for the identified scope of services.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the Amendment to the Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of April, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING AN AGREEMENT WITH RMC WATER AND ENVIRONMENT, WALNUT CREEK, CA, FOR CONSULTANT SERVICES TO UPDATE THE 2017 INTEGRATED REGIONAL WATER MANAGEMENT PLAN IN AN AMOUNT NOT TO EXCEED $147,515 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS $14,752 FOR ADDITIONAL SERVICES (IF NEEDED) FOR A MAXIMUM TOTAL AMOUNT OF $162,267, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, on June 22, 2010, by Resolution No. 2010-276, Council approved a Cost Sharing Agreement between the Cities of Ceres, Hughson, Modesto, and Turlock for development of an Integrated Regional Water Management Plan (IRWM Plan), and

WHEREAS, on the same date, by Resolution No. 2010-277, Council approved an agreement with RMC Water and Environment to assist in the formation of a new IRWM Region, now known as the East Stanislaus Region, and to develop the new IRWM Plan for the Region, and

WHEREAS, on August 9, 2011, by Resolution No. 2011-359, Council approved the Memorandum of Understanding (MOU) with the Cities of Ceres, Hughson, and Turlock to develop an IRWM Plan, and

WHEREAS, on September 1, 2011, East Stanislaus Integrated Regional Water Management Region was formed when the Department of Water Resources formally accepted East Stanislaus as an Integrated Water Management Region, and

WHEREAS, on January 28, 2014, by Resolution No. 2014-37, Council adopted the 2013 East Stanislaus IRWM Plan, and

WHEREAS, the Cities of Ceres, Hughson, and Turlock also adopted the IRWM Plan, and

WHEREAS, this Plan was accepted by the Department of Water Resources in September 2014 which allowed the East Stanislaus IRWM Region to be eligible to apply for a variety of water resources implementation grants through the IRWM Grant Program, and

WHEREAS, in July 2015, the City submitted an IRWM Prop 84 implementation grant application and was awarded $5 million in January 2016 for a flood mitigation storm drainage and sewer cross-connection removal project for the Roosevelt Park neighborhood, and

WHEREAS, in 2016 the State updated the 2012 IRWM Planning Act Guidelines and required each IRWM Region to submit revised IRWM Plans, incorporating the new guidelines, to remain eligible for Prop 1 funding grants, any future grants, and for funding from the State Revolving Fund loan program, and

WHEREAS, these new IRWM Guidelines also include state legislation requirements, passed in 2012 for grant funding eligibility, and

WHEREAS, in August 2016, the City, on behalf of the East Stanislaus IRWM Partnership, submitted an IRWM Prop 1 planning grant application, and

WHEREAS, in February 2017, the City was awarded $147,625 to support the 2017 IRWM Plan Update, and

WHEREAS, the grant agreement is currently being processed by the State and will be used to reimburse the City for approximately 88% of project costs, and

WHEREAS, in accordance with Administrative Directive 3.1, Selection Procedures for Professional Consultants Who Provide Architectural and Engineering Services for Capital Projects, and in coordination with five other partnering agencies, a

combined Request for Qualifications (RFQ) and Request for Proposals (RFP) was sent to a short-list of eight consultants, and

WHEREAS, two proposals were received, and RMC Water and Environment (RMC) was selected as the most qualified firm to perform the work. RMC's proposal cost, scope, and schedule were reviewed by a multi-agency team and determined to be consistent with our grant award scope of work and project requirements, and

WHEREAS, RMC has been providing significant support to the East Stanislaus IRWM Region since its inception in 2010 to assist in forming the Region, developing the 2013 IRWM Plan, and obtaining two successful grant awards, and

WHEREAS, the 2017 IRWM Plan Update will be on a tight timeline to complete the project in early 2018 and keep the Region eligible for the 2018 IRWM Prop 1 Implementation Grant Funding cycle, future grant funding cycles, and other funding opportunities, and

WHEREAS, RMC's scope of services under this agreement includes the following: 1) Revise Governance Structure and Committee Responsibilities; 2) Update the IRWM Plan; 3) Stakeholder Committee and Community Outreach; 4) Disadvantaged Community and Native American Outreach; and 5) Update the IRWM Website and IRWM Project Database, and

WHEREAS, staff recommends approval of the agreement with RMC Water and Environment for the 2017 East Stanislaus IRWM Update project, and

WHEREAS, on February 28, 2017, by Resolution No. 2017-86, Council approved implementing a spending freeze in order to maintain fiscal sustainability of the City, and

WHEREAS, as allowed by this resolution, the City Manager's Office approved an exception to this freeze for this procurement, and

WHEREAS, justification for this exception is based on the fact that 88% of the project will be reimbursed by a State grant and more than 55% of the 12% remaining estimated cost will be reimbursed at the end of the project through a cost share agreement with five other partnering agencies, and

WHEREAS, there are sufficient funds available in Water Fund Reserves for the necessary budget amendment to front costs for this project, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, this agreement is for professional services and, therefore, exempt from the bid requirement, and

WHEREAS, However, staff proceeded through a RFP process pursuant to Administrative Directive 3.1, and

WHEREAS, staff recommends approval of the agreement with RMC Water and Environment for the 2017 East Stanislaus IRWM Update project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with RMC Water and Environment, Walnut Creek, CA, for consultant services to update the 2017 Integrated Regional Water Management Plan in an amount not to exceed $147,515 for the identified scope of services, plus $14,752 for additional services (if needed) for a maximum total amount of $162,267.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of April, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION AMENDING THE FISCAL YEAR 2016-17 CAPITAL IMPROVEMENT PROGRAM BUDGET IN THE AMOUNT OF $137,300 TO BE TRANSFERRED INTO THE PROJECT FROM WATER FUND RESERVES IN ORDER TO FULLY FUND THE CONSULTANT AGREEMENT AND STAFF TIME FOR THE EAST STANISLAUS INTEGRATED REGIONAL WATER MANAGEMENT PLAN UPDATE PROJECT

WHEREAS, certain budgetary transactions are necessary in the amount of **$137,300**, in order to fund the consultant agreement plus City staff support for the East Stanislaus Integrated Regional Water Management Plan Update Project, and

WHEREAS, the Fiscal Year 2016-2017 Capital Improvement Program Budget must be amended as shown in **Exhibit A**, which is incorporated by reference herein.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the amendment of the Fiscal Year 2016-2017 Capital Improvement Program Budget as shown in **Exhibit A, attached** hereto.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of April, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

Exhibit A

Due to consultant agreement costs plus staff time being higher than initially budgeted for the project, line item increases/decreases are necessary for CIP Account #100934 "IRWMP", and the total project costs need to be increased by $137,300. This would be done by adjusting Eng/Design/Admin by $137,300.

To fund the above account, $137,300 will be transferred from Water Fund Reserves into CIP Project 100934 for the East Stanislaus Integrated Regional Water Management Plan Update Project.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-160

RESOLUTION FINDING THAT THE FOLLOWING SUBSEQUENT PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (STATE CLEARINGHOUSE NO. 2007072023): AMENDMENT TO SECTION 21-3-9 OF THE CITY OF MODESTO ZONING MAP TO REZONE PROPERTY LOCATED AT 1105 COFFEE ROAD FROM LOW DENSITY RESIDENTIAL ZONE, R-1, TO MEDIUM DENSITY RESIDENTIAL ZONE, R-2

WHEREAS, on October 14, 2008, the City Council of the City of Modesto certified the Final Master Environmental Impact Report ("Master EIR") (SCH No. 2007072023) for the Modesto Urban Area General Plan, and

WHEREAS, Mike Sarwari has proposed the rezone of 0.46 acres located at 1105 Coffee Road from Low Density Residential (R-1) Zone to Medium Density Residential (R-2) Zone, and

WHEREAS, pursuant to Section 21157.1 of the Public Resources Code, the City of Modesto's Community & Economic Development Department prepared an Environmental Assessment Initial Study EA/C&ED 2017-06 ("Initial Study") which analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report, and

WHEREAS, in accordance with CEQA guidelines beginning on March 21, 2017, the City caused to be published a 20-day notice of the City's intent to make a finding that the subsequent project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on April 11, 2017, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed rezone, a copy of which is **attached** hereto as **Exhibit "A"**, and incorporated herein by reference, and based on substantial evidence in the Initial Study makes the following findings:

1. An Initial Study was prepared by the City of Modesto that analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report.

2. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.

3. No new or additional mitigation measures or alternatives are required.

4. The subsequent project is within the scope of the project covered by the Master EIR.

5. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

6. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of approval or determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of April, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold
NOES:	Councilmembers:	None
ABSENT:	Councilmembers:	None

Initial Study

EA/C&ED 2017-06

City of Modesto

Finding of Conformance to General Plan Master EIR:

Initial Study Environmental Checklist
C&ED No. 2017-06

For the proposed:

Rezone of 0.46 Acres from Low Density Residential (R-1) Zone to Medium Density Residential (R-2) Zone
1105 Coffee Road APN: 031-042-035
RZN-17-001

Prepared by:
City of Modesto
Community & Economic Development Department
Planning Division

Updated: September 2013

(Intentional Blank Page)

City of Modesto
Master EIR Initial Study Environmental Checklist

I. PURPOSE

CEQA allows for the limited environmental review of subsequent projects under the City's Master Environmental Impact Report ("Master EIR" or "MEIR"). This Initial Study Environmental Checklist ("Initial Study") is used in determining whether the Rezone from Low Density Residential (R-1) Zone to Medium Density Residential (R-2) Zone ("Rezone") is "within the scope" of the project analyzed in the Modesto Urban Area General Plan Master EIR (SCH# 2007072023) (Public Resources Code section 21157.1). When the Initial Study supports this conclusion, the City will issue a finding of conformance.

A subsequent project is "within the scope" of the Master EIR when:

1. it will have no additional significant effects on the environment that were not addressed as significant effects in the Master EIR; and

2. no new or additional mitigation measures or alternatives are required.

"Additional significant effects" means a project-specific effect that was not addressed as a significant effect in the Master EIR. [Public Resources Code Section 21158(d)]

The determination must be based on substantial evidence in the record. "Substantial evidence" means facts, reasonable assumptions predicated upon facts, or expert opinion based on facts. It does not include speculation or unsubstantiated opinion. (CEQA Guidelines Section 15384)

II. PROJECT DESCRIPTION

A. Title: RZN-17-001—Rezone of 0.46 Acres from Low Density Residential (R-1) Zone to Medium Density Residential (R-2) Zone

B. Address or Location: 1105 Coffee Road, Modesto CA 95355

C. Applicant: Mike Sarwari, 746 Samantha St., Mountain House CA 95391

D. City Contact Person: Katharine Martin, Associate Planner

Project Manager: Katharine Martin
Department: Community and Economic Development Department, Planning Division
Phone Number: 209-577-5465
E-mail address: kamartin@modestogov.com

E. Current General Plan Designation(s): Mixed Use (MU)

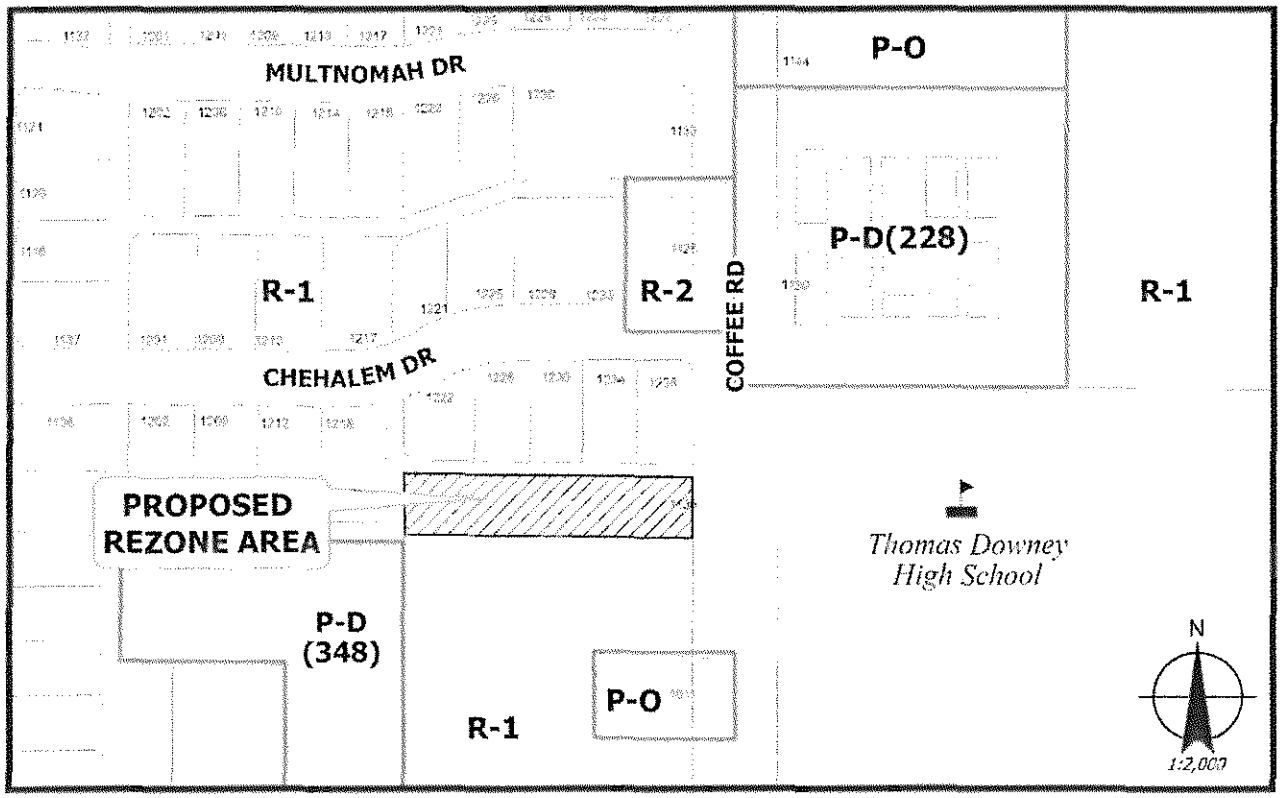
F. Current Zoning Classification(s): Low Density Residential (R-1) Zone

G. Surrounding Land Uses:
North: Low Density Residential (R-1) Zone, Single-Family Residential

South: Low Density Residential (R-1) Zone, Church
East: Low Density Residential (R-1) Zone, Thomas Downey High School
West: Low Density Residential (R-1) Zone, Single-Family Residential and Planned Development Zone P-D(348), Single-Story 15-Unit Residential Apartments

H. Project Description, including the project type listed in Section II.C (Anticipated Future Projects) of the Master EIR (Attach additional maps/support materials as needed for complete record):

Proposal to rezone 0.46 acres within the Baseline Developed Area of the City from Low Density Residential (R-1) Zone to Medium Density Residential (R-2) Zone. Rezone would allow for the continued use of a 1951-built three-unit residential building on the site and allow for the conversion of an existing 1952-built legal but non-conforming commercial building to a residential use. Site has existing curb-cuts on Coffee Road frontage leading to rear of property, and additional parking access is possible from alley at the rear. City water and sewer services are available to the site. Any future development of additional residential units on the site to adhere to relevant City Codes and Standards.



I. Other Public Agencies Whose Approval is Required: None

III. FINDINGS/DETERMINATION (SELECT ONE ON THE BASIS OF THE ANALYSIS IN SECTION IV)

1. _X_ **Within the Scope** - The project is within the scope of the Master EIR and no new environmental document or Public Resources Code Section 21081 findings are required. All of the following statements are found to be true:

   A. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.

   B. No new or additional mitigation measures or alternatives are required.

   C. The subsequent project is within the scope of the project covered by the Master EIR.

   D. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

   E. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

2. ____ **Mitigated Negative Declaration Required** - On the basis of the above determinations, the project is not within the scope of the Master EIR. A mitigated negative declaration will be prepared for the project. The following statements are all found to be true:

   A. The subsequent project is within the scope of the project covered by the Master EIR.

   B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

   C. The project will have one or more potential new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures are being required of the project that will reduce the effects to a less-than-significant level.

   D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

3. ____ **Focused EIR Required-** On the basis of the above determinations, the project is not within the scope of the Master EIR. A Focused EIR will be prepared for the project. All of the following statements are found to be true:

   A. The subsequent project is within the scope of the project covered by the Master EIR.

B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

C. The project will have one or more new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures or alternatives are required as a result.

D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

_____	Associate Planner	_____
Project Manager	Title	Date

4. Within the Scope Analysis of this Document:

The Master EIR allows projects to be found within the scope of the MEIR if certain criteria are met. If the following statements are found to be true for all 21 impact categories included in this Initial Study, then the proposed project is addressed by the MEIR analysis and is within the scope of the MEIR. Any "No" response must be discussed.

		YES	NO
(1)	The lead agency for subsequent projects shall be the City of Modesto or a responsible agency identified in the Master EIR.	☒	☐
(2)	City policies which reduce, avoid, or mitigate environmental effects will continue to be in effect and, therefore, would be applied to subsequent projects where appropriate. The policies are described in the list of policies in place and mitigation measures attached to the Initial Study template. Project impacts would be mitigated to a less-than-significant level using MEIR mitigations only.	☒	☐
(3)	Federal, State, regional, and Stanislaus County regulations do not change in a manner that is less restrictive on development than current law (i.e., would not offer the same level of protection assumed under the Master EIR).	☒	☐
(4)	No specific information concerning the known or potential presence of significant resources is identified in future reports, or through formal or informal input received from responsible or trustee agencies or other qualified sources.	☒	☐
(5)	The development will occur within the boundaries of the City's planning area as established in this Urban Area General Plan.	☒	☐
(6)	Development within the project will comply with all appropriate mitigation measures contained and enumerated in the 2008 General Plan Master EIR.	☒	☐

5. Currency of the Master EIR Document

The MEIR should be reviewed on a regular basis to determine its currency, and whether additional analysis/mitigation should be incorporated into the MEIR via a Supplemental or Subsequent EIR (CEQA Section 21157.6). Staff has reviewed Sections 1 through 21 of this document in light of the criteria listed below to determine whether the MEIR is current. The analysis contained within the Master EIR is current as long as the following circumstances have not changed. Any "no" response must be explained.

		YES	**NO**
(1)	Certification of the General Plan Master EIR occurred less than five years prior to the filing of the application for this subsequent project.	☐	☒
(2)	This project is described in the Master EIR and its approval will not affect the adequacy of the Master EIR for any subsequent project because the City can make the following findings:	☒	☐
(a)	No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified.	☒	☐
(b)	No new information, which was not known and could not have been known at the time the Master EIR was certified as complete, has become available.	☒	☐

(c)	Policies remain in effect which require site-specific mitigation, and avoidance or other mitigation of impacts as a prerequisite to future development.	☒	☐

Discussion:

(1) The General Plan Master EIR was certified on October 14, 2008, so more than five years has passed since the MEIR was certified. However, the analysis contained in the MEIR is still adequate for subsequent projects, as documented in the discussion below.

(2) The project is consistent with the analysis contained in the MEIR. This is documented in the discussion of the individual issue areas of this initial study.

(2)(a) There have been no substantive changes to the General Plan since the MEIR was certified that would create additional significant environmental effects that were not analyzed by the MEIR.

(2)(b) There has been no new information that would affect the adequacy of the analysis contained in the MEIR.

(2)(c) All policies contained in the MEIR that require site-specific mitigation or avoidance of impacts remain in effect and will be applied to the project as appropriate.

IV. ENVIRONMENTAL ANALYSIS

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, discloses whether the proposed project may cause any project-specific significant effect on the environment that was not examined in the Final Master EIR (MEIR) for the General Plan and whether new or additional mitigation measures or alternatives may be required as a result. The Initial Study thereby documents whether or not the project is "within the scope" of the Master EIR.

Pursuant to Public Resources Code Section 21157.1, no new environmental document or findings are necessary for projects that are determined to be within the scope of the MEIR. Adoption of the findings specified in Section III.1, above after completion of the Initial Study fulfills the City's obligation in that situation.

All environmental effects cited reflect 2025 conditions resulting from the Urban Area General Plan, as identified in the Master EIR.

The environmental impact analysis in the Master EIR for the Urban Area General Plan is organized in twenty-one subject areas. The following analysis is based on the impact analyses contained in Chapter V of the Master EIR. For ease of reference, the sections are numbered in the same order as the analyses in Chapter V.

1. TRAFFIC AND CIRCULATION

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable traffic and circulation impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Increased automobile traffic will result in roadway segments (see MEIR on Table 1-7, pages V-1-32 to V-1-34) operating at LOS D, Modesto's significance threshold for automobile traffic, or lower (LOS E or F).

Effect: The substantial increase in traffic relative to the existing load and capacity of the street system will cause, either individually or cumulatively, the violation of automobile service standards established by StanCOG's Congestion Management Plan for designated roads and highways.

Effect: A substantial increase in automobile vehicle miles traveled and automobile vehicle hours of travel and a decrease in average automobile vehicle speed (see MEIR Table 1-6, page V-1-31).

Cumulative Impacts

Effect: Potential for growth inducement or acceleration of development resulting from highway and local road projects.

Effect: Substantial increase in traffic in relation to the existing traffic load and capacity of the street system, including a violation, either individually or cumulatively, of an automobile LOS standard established by the Congestion Management Plan for designated roads and highways.

Effect: Increased demand for capacity-enhancing alterations to existing roads or automobile traffic reduction.

Other impact categories affected by Traffic and Circulation are addressed throughout this Initial Study (see also Section 2, Degradation of Air Quality; Section 3, Generation of Noise; Section 7 Loss of Sensitive Wildlife and Plant Habitat; Section 8, Disturbance of Archaeological/Historic Sites; Section 14 Increased Demand for Fire Services; Section 18, Energy; Section 19, Visual Resources; Section 20, Land Use and Planning, and Section 21, Climate Change).

b. Master EIR and/or New Mitigation Measures Applied to the Project

Traffic and Circulation mitigation measures pertinent to this project are found on MEIR pages V-1-9 through V-1-28. All mitigation measures appropriate to the project, including any new measures, will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-1.B of the Master EIR provides analysis of Traffic and Circulation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: A subsequent development project will have a new significant effect on the environment if it would exceed the following criteria:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1. TRAFFIC AND CIRCULATION				
1) The proposed project exceeds traffic generation assumptions in the Master EIR for the site by 100 trips or more and City Engineering and Transportation staff has determined that the project would have additional potentially significant project-specific effects that are not avoided or reduced by the Master EIR's mitigation measures.	☐	☐	☐	☒
2) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads or highways?	☐	☐	☐	☒
3) The proposed project would cause additional roadway segments in the General Plan area to exceed LOS D and/or cause additional violations of standards in the Congestion Management Plan, and/or cause an increase in automobile vehicle miles or vehicle hours of travel or a decrease in automobile travel speed, as compared to the impacts disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project would cause emergency response times to exceed acceptable standards established by the Fire Department, as compared to impacts disclosed in the Master EIR (see Section 14, Increased Demand for Fire Services).	☐	☐	☐	☒
5) The proposed project would result in less parking than required by the Municipal Code or as determined by staff.	☐	☐	☐	☒
6) The proposed project would conflict with adopted policies, plans, or programs that support alternative transportation, including, but not limited to the Regional Transportation Plan, the Sustainable Communities Strategy, the Bicycle Action Plan, and so on.	☐	☐	☐	☒
7) The proposed project would result in an increase	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
in automobile vehicle miles traveled on a per capita basis, in excess of that considered in the Urban Area General Plan MEIR.				

Discussion:

(1) The project would rezone one 0.46 acre residential property from Low Density Residential (R-1) Zone to Medium-Density Residential (R-2) Zone, to allow the continued use of the site for medium-density residential purposes and permit the conversion of an existing legal but non conforming commercial building on the site to a new residential unit. The site is within the Baseline Developed Area of the General Plan, and is within an area designated as Mixed Use (MU) in the General Plan. The project would not exceed traffic generation assumptions in the General Plan MEIR by 100 trips or more, and the City's Traffic Division indicated no concerns with traffic generated by the project.

(2) The project would not exceed a level of service standard established by the county congestion management agency for designated roads or highways.

(3) The project would not cause an increase in level of service for the adjacent streets or conflict with any Congestion Management Plans, or cause an increase in vehicle miles or hours traveled. The segment of Coffee Road at the location is currently operating at an LOS of between A and C, is projected to serve at LOS D by 2025, and the City's Traffic Division indicated no concerns that the project would cause the level of service to exceed that level.

(4) The project would not cause emergency response times to exceed acceptable standards.

(5) The project would provide parking as required for residential uses.

(6) The project would not conflict with adopted alternative transportation plans or programs.

(7) The project would not result in an increase in vehicle miles traveled in excess of what was considered by the General Plan MEIR.

2. DEGRADATION OF AIR QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable air quality impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Expected automobile traffic will result in increased operational emissions of reactive organic gases (ROG) and oxides of nitrogen (NO_X) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased emissions of particulate matter 10 microns or less (PM_{10}) and 2.5 microns or less in diameter ($PM_{2.5}$) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased carbon monoxide (CO) levels in the project area (see MEIR Table 2-7, page V-2-26, and Table 2-8, page V-2-27).

Cumulative Impacts

The Master EIR indicates the same impacts identified as direct impacts above will contribute to regional impacts on air quality for the criteria pollutants ROG, NO_x, PM_{10}, and $PM_{2.5}$.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Air quality mitigation measure(s) pertinent to the proposed project are found on pages V-2-13 through V-2-24 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes AQ-42 and AQ-44 from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-2.B of the Master EIR is the analysis of air quality impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
2. DEGRADATION OF AIR QUALITY				
1) The proposed project exceeds the project-level emissions thresholds established for CO, ROG, NO_x, PM_{10}, and $PM_{2.5}$ by the San Joaquin Valley Air Pollution Control District (SJVUAPCD) and is not consistent with the development assumptions for the project site, as established in the Urban Area General Plan and Master EIR.	☐	☐	☐	☒
2) The proposed project does not incorporate the best management practices established by the SJVAPCD for CO, ROG, NO_x, PM_{10}, and $PM_{2.5}$.	☐	☐	☐	☒
3) The proposed project does not comply with the air quality policies in the Modesto Urban Area General Plan.	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
4) The proposed project would expose sensitive receptors to pollutant concentrations in excess of those expected to occur as a result of implementation of the Urban Area General Plan.	☐	☐	☐	☒
5) The proposed project would create objectionable odors affecting a substantial number of people.	☐	☐	☐	☒

Discussion:

(1) The project involves the rehabilitation of one existing residential building and conversion of an existing commercial building to a residential unit. The project would not exceed emissions thresholds established by the SJVUAPCD, and is consistent with the development standards for a residential use as established by the General Plan.

(2) Development of the site will be required to adhere to applicable City Zoning Ordinances, Standards, and applicable best management practices during the construction process.

(3) The project would comply with the air quality policies in the Urban Area General Plan with implementation of the mitigation measures cited above.

(4) With mitigation measures cited above, the project would not expose sensitive receptors to pollutant concentrations in excess of those expected to occur as a result of implementation of the Urban Area General Plan.

(5) Construction activities could potentially generate odors with processes such as application of architectural coatings and asphalt paving materials; however, activities will be mitigated as called for by the MEIR with the mitigation measures listed above.

3. GENERATION OF NOISE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable noise impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Future automobile traffic noise levels and roadway construction and maintenance activities resulting from development of the Urban Area General Plan will exceed the City's noise thresholds at various locations, but particularly in areas adjacent to heavily traveled roadways (see MEIR Table 3-3, page V-3-10, and Figure VII-2 and Table 3-6, pages V-3-18 and V-3-19).

Effect: Expected noise from airport operations and airport construction projects may expose up to 468 dwellings and three churches to noise levels of 65 dB CNEL and up to eight dwellings to noise levels of 70 dB CNEL.

Effect: Expose noise-sensitive land uses to noise from the construction of bicycle and transit projects.

Effect: Expose noise-sensitive land uses to noise from freight and passenger rail operations.

Cumulative Impacts

Effect: Traffic from development in the City of Modesto would, when combined with traffic from new development in the County and other cities, contribute to a cumulative increase in roadside noise levels on major roads and highways throughout Stanislaus County.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Noise policies and mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-3-11 through V-3-15 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and any new measures are listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes N-3 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-3.B of the MEIR discloses noise impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of the proposed project's effects are based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
3. GENERATION OF NOISE				
1) The proposed project will exceed the standards for noise level and hours of operation established by the Modesto noise ordinance.	☐	☐	☐	☒
2) The proposed project will not comply with the noise policies of, or otherwise be inconsistent with, the Modesto Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project will result in an increase in ambient noise levels in the project vicinity above those disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project will result in a substantial temporary or periodic increase in ambient noise	☐	☐	☒	☐

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
levels in the project vicinity above levels disclosed in the Master EIR implementation of the Urban Area General Plan.				

Discussion:

(1-3) The project is consistent with the noise policies of the General Plan. The proposed rezone and subsequent building rehab and conversion are not anticipated to generate noise levels that exceed the noise thresholds of the MEIR.

(4) The project will not result in a substantial increase in ambient noise above levels described in the MEIR. There will be temporary construction-related noise, but implementation of the mitigation measures outlined above would reduce the impacts to a less than significant amount.

4. EFFECTS ON AGRICULTURAL LANDS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on agricultural lands expected after application of mitigations/policies:

Direct Impacts

Effect: Between 1995 and 2025, development of the Urban Area General Plan may convert up to approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area to urban uses.

Effect: Approximately 1,200 acres of urban development along a 28.5-mile boundary 350 feet wide between urban and agricultural uses could be affected by continued agricultural operations, including noise, dust, and chemical overspray or drift.

Cumulative Impacts

Effect: Growth within Modesto's planning area would contribute considerably to the loss of agricultural land within Stanislaus County, accounting for the conversion of as much as approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area from 1995 to 2025.

b. Master EIR and/or New Mitigation Measures Pertinent to the Project

Agricultural land mitigation measures pertinent to the proposed project are found on pages V-4-6 to and V-4-8 of the Master EIR. All mitigation measures appropriate to the project and any new mitigation to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

Discussion:

The project does not require mitigation measures from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-4.B of the Master EIR discloses the impacts resulting from the implementation of the Urban Area General Plan on agricultural lands. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
4. EFFECTS ON AGRICULTURAL LANDS				
1) The proposed project is inconsistent with the Urban Area General Plan's policies relating to agricultural land.	☐	☐	☐	☒
2) The proposed project will either directly or indirectly result in the development of land outside the 2008 Urban Area General Plan's planning area boundary.	☐	☐	☐	☒
3) The proposed project will conflict with existing zoning for agricultural use, or there is an existing Williamson Act contract on the project site.	☐	☐	☐	☒
4) The proposed project will involve other changes in the existing environment not anticipated in the Master EIR which, due to their location or nature, could result in conversion of farmland to non-agricultural use.	☐	☐	☐	☒

Discussion:

(1) The project would be consistent with the General Plan's policies relating to agricultural land. The site is located within the Baseline Developed Area, and is designated as Mixed Use (MU) in the General Plan's Land Use Diagram.

(2) The project will not result in the development of land outside of the 2008 General Plan boundary. The site is within the Baseline Developed Area and is surrounded by urbanized area within the jurisdiction of the City.

(3) The site is not zoned for agricultural uses, is currently zoned for Low Density Residential (R-1) uses and is proposed to be rezoned to Medium-Density Residential (R-2) uses. There is no Williamson Act contracts on the property.

(4) The project will not convert existing farmland to a non-agricultural use.

5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on long-term water supplies expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts have been disclosed in the Master EIR.

Cumulative Impacts

Effect: Operational yields of the Modesto and Turlock subbasins, both of which underlie the City of Modesto, are unknown, although the City is participating in a study with the United States Geological Survey in order to quantify the operational yields of both subbasins. Groundwater withdrawals from both basins by the City, when combined with other users' withdrawals, may result in overdrafting both subbasins.

Effect: Despite available options, during drought years, significant water shortages are forecast for the San Joaquin River basin, which includes both the Modesto and Turlock subbasins, by 2020. Modesto would make a cumulatively considerable contribution to the cumulative impact on water supply under drought conditions.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Water supply mitigation measures pertinent to the proposed project are found on pages V-5-6 through V-5-12 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures regarding water supply from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-5.B of the Master EIR discloses impacts on long-term water supplies resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES				
1) The proposed project is inconsistent with water supply policies in the Urban Area General Plan.	☐	☐	☐	☒
2) Water demand for the proposed project will exceed estimates for similar projects or for development on the project site anticipated in the Urban Area General Plan or sufficient water supplies are not otherwise available to serve the project from existing entitlements and resources.	☐	☐	☐	☒
3) The proposed project would deplete groundwater supplies to a greater degree than anticipated in the Urban Area General Plan or would interfere with groundwater recharge.	☐	☐	☐	☒

Discussion:

(1) The proposed project is consistent with the water supply policies in the General Plan.

(2) Water demand for the site will not exceed estimates for similar projects. Water service is available to the site.

(3) The proposed project is consistent with the ground water demands assumed in the General Plan. The site is already developed with residential uses and would convert an existing legal but non-confirming commercial building to a residential use, and therefore would not have a significant effect on ground water recharge or depletion of long-term water supplies.

6. INCREASED DEMAND FOR SANITARY SEWER SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sanitary sewer services after application of mitigations/policies:

Direct Impacts

Effect: Development resulting from implementation of the Urban Area General Plan will require substantial new sewage treatment and disposal capacity, treatment plant improvements, sewer mains and collection lines, and pump stations. The Wastewater Master Plan anticipates the need for these facilities and its EIR evaluates the impact of developing those facilities. Potential impacts include degradation of water quality through erosion and chemical releases; localized flooding; construction noise; exposure of construction workers and the public to hazardous materials; and on the habitat of the elderberry longhorn beetle, burrowing owl, and Swainson's hawk, as well as certain other regulated habitats. All of these impacts are mitigated to a less-than-significant level.

Additional impacts that are not mitigated to a less-than-significant level include loss of farmland cause by construction of the Phase IA tertiary treatment facility at the Jennings Road Secondary Treatment Facility, an increase in pollutant loads from increased wastewater flows to the San Joaquin River, and an increase in noise and criteria air pollutants due to construction activities, including traffic.

Cumulative Impacts

Effect: No additional cumulative impacts were identified in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Sewer service mitigation measures pertinent to the proposed project are found on pages V-6-3 through V-6-8 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-6.B of the Master EIR discloses impacts on the Increased Demand for Sanitary Sewer Service resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
6. INCREASED DEMAND FOR SANITARY SEWER SERVICES				
1) The proposed project is inconsistent with wastewater policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project will generate sewage flows greater than those anticipated in the Urban Area General Plan for the project site.	☐	☐	☐	☒
3) The proposed project will result in a determination by the wastewater treatment provider which serves or may serve the project that it has inadequate capacity to serve the project's projected demand in addition to the provider's existing commitments.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the wastewater policies in the General Plan.

(2-3) The rezone would not generate sewage flows greater than those anticipated in the General Plan. The rezone would allow for use of existing buildings at the site for residential uses, and would not impact capacity. Sewer service is available to the site via existing lines under Coffee Road and alleys adjacent to the property. Current connections are provided from a six-inch line adjacent to the site.

7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sensitive wildlife and plant habitat expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant impacts on sensitive wildlife and plan habitat are expected to occur with the application of the policies contained in the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will contribute to the cumulative impact of habitat loss in the San Joaquin Valley. Requiring density development than has occurred in the past or that is expected in the future would minimize the City's contribution to the cumulative loss of habitat. Nonetheless, this is a significant and unavoidable impact.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Wildlife and plant habitat mitigation measures pertinent to the proposed project are found on pages V-7-17 through V-7-24 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The project does not require mitigation measures from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-7.B of the Master EIR discloses impacts on the Loss of Sensitive Wildlife and Plant Habitat resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT				
1) The project is inconsistent with the policies pertaining to the loss of sensitive wildlife and plant habitat contained in the Urban Area General Plan.	☐	☐	☐	☒
2) Consultation with the California Department of Fish and Game or the U.S. Fish and Wildlife Service determines that the project would have a significant effect on a candidate, sensitive, or special status species in excess of the impact disclosed in the Master EIR.	☐	☐	☐	☒
3) The proposed project would have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act through direct removal, filling, hydrological interruption, or other means, in excess of the impact disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project would substantially interfere with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites.	☐	☐	☐	☒
5) Conflict with local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.	☐	☐	☐	☒
6) The proposed project would conflict with provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the General Plan policies related to the loss of sensitive wildlife and plant habitat.

(2) The project site is not within a biologically sensitive area as defined by Figures V-7-1a through V 7-1e of the MEIR. The California Department of Fish and Game and the U.S. Fish and Wildlife Service were consulted in the production of the MEIR.

(3) The site does not qualify as a federally protected wetland per Section 404 of the Clean Water Act.

(4) The site is not within a biologically sensitive area as defined by Figures V-7-1a through V 7-1e of the MEIR. The movement of fish or birds or other wildlife would not be significantly affected by the project.

(5) The project would not conflict with any local policies or ordinances protecting biological resources.

(6) There is no conflict with any adopted habitat conservation plan, natural community conservation plan, or other approved local, regional or state habitat conservation plan.

8. DISTURBANCE OF ARCHAEOLOGICAL/HISTORICAL SITES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on archaeological/historical sites expected after application of mitigations/policies:

Direct Impacts

Effect: Modification resulting in a substantial adverse change in the significance of a historic resource or the demolition of a listed or eligible historic resource.

Effect: The modification or demolition of a structure more than 50 years in age may be significant.

Effect: Discovery of archaeological resources in areas outside of the riparian corridors, as a result of construction activities.

Effect: Construction in an area of high archaeological sensitivity.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Archaeological or historic mitigation measures pertinent to the project being analyzed in this Initial Study are found on page V-8-16 through V-8-20 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-8.B of the MEIR discloses impacts on archaeological/historical resources resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
8. DISTURBANCE OF ARCHAEOLOGICAL/ HISTORICAL SITES				
1) The proposed project is inconsistent with the archaeological/historical resource policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would demolish a building eligible for listing as a historic resource or remove a landmark from the Modesto inventory.	☐	☐	☐	☒
3) The proposed project would modify or demolish a structure more than 50 years in age.	☐	☐	☒	☐
4) The project would adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources.	☐	☐	☐	☒
5) Conflict with local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.	☐	☐	☐	☒

Discussion:

(1) The project would be consistent with the archeological and historical resource policies in the General Plan.

(2-4) The project proposes the rezone of a 0.46 acre residential lot from Low Density Residential (R-1) to Medium Density Residential (R-2) Zone, to allow for the conversion of an existing commercial building into a residential unit in addition to the continued use of an existing residential building as a three-unit apartment. While the structures were built in 1951 and 1952, respectively, and therefore are older than 50-years in age, the buildings are not designated as landmarks in the City's General Plan. Additionally, they are not listed on the National Register of Historic Places, nor are listed as eligible for inclusion (as of July 2015), and are not listed on the California Register of Historical Resources.

(5) The project would not conflict with a local policy or ordinance protecting biological resources. The City of Modesto does not have a tree preservation policy or ordinance.

9. INCREASED DEMAND FOR STORM DRAINAGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on storm drainage expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: The population of Stanislaus County is projected to increase in a fashion similar to that of Modesto, resulting in additional urban development and associated increases in impervious surface area and associated increases in storm water runoff. Cumulative hydrologic impacts of storm water flows from Modesto urban areas and other areas of the County could occur due to the fixed capacity of MID and TID irrigation canals to convey drainage west to the San Joaquin River. If drainage channels in some areas prove insufficient to handle the increased drainage discharges, existing storm water runoff from urban and agricultural areas during large storm events would have to be interrupted until water levels receded to a point allowing the resumption of discharges to the channel. Ceasing discharges to drainage channels could cause inundation in and around the drainage conveyance pipeline systems, surface drainage channels, detention basins, and other urban areas. This cumulative impact is considered significant and unavoidable.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Storm Drainage mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-9-4 through V-9-9. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project:

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-9.B of the MEIR discloses impacts on the demand for storm drainage resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
9. INCREASED DEMAND FOR STORM DRAINAGE				
1) The proposed project is inconsistent with the	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
storm drainage policies in the Urban Area General Plan.				
2) The proposed project would substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or offsite, as compared to impacts anticipated to result from the Urban Area General Plan or create substantial unanticipated sources of polluted runoff.	☐	☐	☐	☒
3) The proposed project does not utilize Low Impact Development strategies to reduce runoff from the site and increase infiltration, resulting in no net increase in runoff before and after development.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the wastewater policies in the General Plan.

(2-3) The project would not substantially increase the rate or amount of runoff. The rezone site is already developed with one residential building and one commercial building, and the rezone would allow for the conversion of the commercial building to a residential use. Any additional development would adhere to City Codes and Standards with regards to storm water handling and treatment.

10. FLOODING AND WATER QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on flooding and water quality expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Flooding and Water Quality mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-10-6 through V-10-9 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-10.B of the Master EIR provides analysis of Flooding and Water Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
10. FLOODING AND WATER QUALITY				
1) The proposed project is inconsistent with the flooding and water quality policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project does not comply with the regulatory requirements of the federal Clean Water Act or the State Porter-Cologne Act.	☐	☐	☐	☒
3) The proposed project would place more housing within a 100-year flood hazard zone than assumed in the Urban Area General Plan.	☐	☐	☐	☒
4) The proposed project would place structure within a 100-year flood hazard area so that they would impede or redirect floodwater or would substantially alter the existing on-site drainage pattern or a watercourse, in such a way as to cause flooding on- or offsite.	☐	☐	☐	☒
5) The proposed project does not comply with Modesto's Guidance Manual for New Development Storm Water Quality Control Measures.	☐	☐	☐	☒
6) The proposed project would violate water quality standards or waste discharge requirements.	☐	☐	☐	☒
7) The proposed project would substantially alter the existing drainage pattern of the site or area or a watercourse in a manner that would result in substantial erosion or siltation on- or offsite in excess of the assumptions of the Urban Area General Plan.	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
8) The proposed project would create or contribute runoff, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff, not expected as part of Urban Area General Plan implementation.	☐	☐	☐	☒

Discussion:

(1) The proposed project is consistent with the flooding and water quality policies in the Urban Area General Plan.

(2) The project would comply with the Federal Clean Water Act and the Porter Cologne Act requirements.

(3-4) The project site is not within a 100-year flood hazard zone as established by the Federal Emergency Management Agency (FEMA).

(5) The project will comply with the Guidance Manual for New Development Storm Water Quality Control Measures.

(6) The project will not violate water quality standards or waste discharge requirements.

(7) The project would not substantially alter the existing drainage pattern of the site, area or a watercourse in a manner that would result in erosion or siltation.

(8) The project would not substantially increase the rate or amount of runoff. The rezone site is already developed with one residential building and one commercial building, and the rezone would allow for the conversion of the commercial building to a residential use. Any additional development would adhere to City Codes and Standards with regards to storm water handling and treatment.

11. INCREASED DEMAND FOR PARKS AND OPEN SPACE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on parks and open space expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Parks and open space mitigation measures pertinent to the proposed project are found on pages V-11-3 through V-11-9 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-11.B of the MEIR discloses impacts of the Urban Area General Plan on parks and open space. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
11. INCREASED DEMAND FOR PARKS AND OPEN SPACE				
1) The proposed project is inconsistent with the parks and open space policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would eliminate parks or open space.	☐	☐	☐	☒
3) The proposed project would cause an increase in the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility in question would occur or be accelerated or the proposed project would include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the parks and open space policies in the General Plan.

(2-3) The project will not impact parks or open space, or cause an increase in the use of existing parks. The project involves rezoning property from Low Density Residential (R-1) uses to Medium Density Residential (R-2) uses, which would not impact parks.

12. INCREASED DEMAND FOR SCHOOLS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on school facilities expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR. By statute, the impact of new students is considered to be mitigated below a level of significance by payment of school impact fees and the exercise of any or all of the financing options set out in Government Code Section 65997.

Cumulative Impacts

Effect: Similar to direct impacts of implementation of the Urban Area General Plan, no residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. As long these policies are applied to all subsequent projects, no new mitigation is necessary. Further, payment of school impact fees and compliance with SB 50 is statutorily deemed to be full mitigation of school impacts (Government Code Section 65995).

The following schools mitigation measures on pages V-12-5 through V-12-7 of the Master EIR are pertinent to the proposed project. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures are listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-12.B of the Master EIR discloses impacts resulting from implementation of the Urban Area General Plan associated with increased demand for schools. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
12. INCREASED DEMAND FOR SCHOOLS				
1) The proposed project is inconsistent with the policies relating to schools in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project does not comply with SB 50/Proposition 1A funding provisions, or succeeding measures which state that compliance results in less-than-significant impacts on schools.	☐	☐	☐	☒

Discussion:

(1) The project involves rezoning property from Low Density Residential (R-1) uses to Medium Density Residential (R-2) uses, which would not conflict with policies related to schools in the General Plan.

(2) The project would not conflict with SB50/Proposition 1A funding provisions, or succeeding measures.

13. INCREASED DEMAND FOR POLICE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on police services expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Police services mitigation measures pertinent to the proposed project are found on pages V-13-2 through V-13-5 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-13.B of the Master EIR discloses impacts on police services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
13. INCREASED DEMAND FOR POLICE SERVICES				
1) The proposed project is inconsistent with policies relating to police services in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the policies relating to police services in the General Plan.

(2) The project would not result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives.

14. INCREASED DEMAND FOR FIRE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on fire services expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Fire Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-14-4 through V-14-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-14.B of the Master EIR discloses impacts on fire services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
14. INCREASED DEMAND FOR FIRE SERVICES				
1) The proposed project is inconsistent with the fire service policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	☐	☐	☐	☒
3) The proposed project, based upon substantial evidence, would cause the erosion or elimination of fire protection services in adjoining fire protection districts.	☐	☐	☐	☒

Discussion:

(1) The proposed rezone is consistent with the fire service policies in the General Plan.

(2) The rezone would not result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives.

(3) The rezone would not cause the erosion or elimination of fire protection services. Development of professional office buildings as a result of the rezone will meet City Standards for emergency services access.

15. GENERATION OF SOLID WASTE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on solid waste expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Solid waste mitigation measures pertinent to the proposed project are found on pages V-15-4 through V-15-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-15.B of the Master EIR discloses solid waste impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
15. GENERATION OF SOLID WASTE				
1) The project is inconsistent with the solid waste policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The County is unable to expand its solid waste disposal capacity, as expected, causing all new development to result in cumulative impacts on the County's disposal capacity.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the solid waste policies in the General Plan.

(2) The project would not cause an impact to the disposal capacity of solid waste facilities in the County.

16. GENERATION OF HAZARDOUS MATERIALS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts regarding hazardous materials expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Hazardous materials mitigation measures pertinent to the proposed project are found on pages V-16-8 through V-16-13 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-16.B of the Master EIR discloses impacts on hazardous materials resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
16. GENERATION OF HAZARDOUS				

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
MATERIALS				
1) The project is inconsistent with the hazardous materials policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.	☐	☐	☐	☒
3) The proposed project would be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would create a significant hazard to the public or the environment.	☐	☐	☐	☒
4) The proposed project would be constructed on a contaminated site not known to the State of California as of March 2008.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the hazardous materials policies in the General Plan.

(2) The project will comply with all applicable federal, state, and county standards and regulations relative to the handling, storage, disposal, and transport of hazardous or toxic materials or wastes. (No hazardous materials will be involved with this project).

(3) The project is not located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would not create a significant hazard to the public or the environment.

(4) The project site is not known to contain any contaminants.

17. GEOLOGY, SOILS, AND MINERAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts related to geology, soils, and mineral resources expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Geology, soils, and mineral resource mitigation measures pertinent to the proposed project are found on pages V-17-9 and V-17-10 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of the proposed project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-17.B of the Master EIR discloses geology, soils, and mineral resource impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
17. GEOLOGY, SOILS, AND MINERAL RESOURCES				
1) The project is inconsistent with policies relating to geology, soils, and mineral resources contained in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would expose people or structures to potential substantial adverse effects including the risk off loss, injury, or death involving fault rupture, strong seismic activity; location on an expansive soil; result in the loss of topsoil; location on soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems in areas where sewers are not available for the disposal of wastewater; result in the loss of known mineral resources that would be of value to the region and the state; or result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with policies relating to geology, soils, and mineral resources in the General Plan.

(2) The project site is not be located on soil that is unstable, or that would become unstable as a result of the project. There are no known mineral resources of value to the region and the state on the property.

18. ENERGY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to energy expected after application of mitigations/policies:

Direct Impacts

Effect: Continued development in the Planned Urbanizing Area would have an impact on available energy supplies. Energy consumption likely would increase substantially by 2025 as a result of implementation of the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on energy consumption.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following energy mitigation measures pertinent to the proposed project are found on pages V-18-2 through V-18-8 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
18. ENERGY				

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with policies relating to energy in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in energy consumption during construction, operation, maintenance, or removal that is more wasteful, inefficient, and unnecessary than assumed in the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the energy policies in the General Plan.

(2) The project would not result in energy consumption during construction, operation, maintenance or removal that is more wasteful, inefficient and unnecessary than assumed in the General Plan.

19. EFFECTS ON VISUAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on visual resources expected after application of mitigations/policies:

Direct Impacts

Effect: New development in the Planned Urbanizing Area will occur in areas that are in agricultural production or are otherwise lightly developed, which could lead to the introduction of light and glare in areas that have little nighttime illumination.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following visual resources mitigation measures pertinent to the proposed project are found on pages V-19-3 and V-19-4 in the Master EIR. All mitigation measures appropriate to the proposed project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
19. EFFECTS ON VISUAL RESOURCES				
1) The proposed project is inconsistent with policies relating to visual resources in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would degrade views from riverside areas and parks to a greater degree than assumed in the Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project would degrade views of riverside areas from public roadways and nearby properties to a greater degree than assumed in the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the policies relating the visual resources in the General Plan.

(2-3) The project would not impact views from riverside areas and parks, nor would degrade views of riverside areas and parks from public roadways.

20. LAND USE AND PLANNING

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to land use and planning expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following land use and planning mitigation measures pertinent to the proposed project are found on pages V-20-6 through V-20-17 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-20.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on land use and planning. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
20. LAND USE AND PLANNING				
1) The proposed project is inconsistent with land use and planning policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project contains elements that would physically divide an established community in a way not assumed in the Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project conflicts with a land use plan, policy or regulation established for the purpose of avoiding or mitigating an environmental impact by an agency that has jurisdiction over the proposed project.	☐	☐	☐	☒
4) The proposed project conflicts with an applicable habitat conservation plan or natural community conservation plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the Redevelopment Planning District (RPD) land use designation in the General Plan.

(2) The project would not divide an established community. The proposal is to rezone two existing residential properties on an arterial street to Professional Office uses, in an area that is transitioning from residential uses to office uses.

(3) The project is consistent with the land use plan, policies and regulations of the City of Modesto designed to mitigate project impacts.

(4) The project does not conflict with applicable habitat conservation plans or natural community conservation plans.

21. CLIMATE CHANGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to climate change expected after application of mitigations/policies:

Direct Impacts

Effect: Impacts resulting from implementation of the Urban Area General Plan are not substantial enough to result in a significant direct impact on climate change, as disclosed in the Master EIR.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on climate change.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following climate change mitigation measures pertinent to the proposed project are found on pages V-21-7 through V-21-10 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on climate change. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
21. CLIMATE CHANGE				
1) The proposed project is inconsistent with policies relating to climate change in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in average automobile trip lengths or CO_2 emissions higher than those assumed in the Master EIR.	☐	☐	☐	☒
3) The proposed project would conflict with the Sustainable Communities Strategy or Alternative Planning Strategy that the Air Resources Board has agreed will achieve the goals of AB 32.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the policies relating to climate change in the Urban Area General Plan. The project would not have a significance effect on climate change.

(2) The project would not affect automobile trip lengths or CO_2 emissions.

(3) A Sustainable Communities Strategy has not yet been implemented by the ARB. Future development will be required to comply with the provisions of the Sustainable Communities Strategy once it is established.

V. MITIGATION MEASURES APPLIED TO THE PROPOSED PROJECT

If the Initial Study results in the determination that a Finding of Conformance can be adopted for the proposed project Section A below applies. If the Initial Study results in the determination that a Finding of Conformance cannot be adopted and a Mitigated Negative Declaration/EIR must be prepared for the project then Section B, below applies.

A. Master EIR Mitigation Measures Applied to the Project

Pursuant to Public Resources Code Section 21157.1(c), in order for a Finding of Conformance to be made, all appropriate mitigation measures from the Master EIR shall be incorporated into the proposed project. Urban Area General Plan Policies/Master EIR mitigation measures shall be made part of the proposed project prior to approval by means of conditions of project approval or incorporation into the appropriate document or plan.

All applicable and appropriate mitigation measures have been applied to the project (see mitigation measures listed below).

B. New or Additional Mitigation Measures or Alternatives Required

Where the project's effects would exceed the significance criteria for each environmental impact category, a mitigated negative declaration or Focused EIR must be prepared. Staff has reviewed the project against the significance criteria thresholds established in the Master EIR for all impact categories in this Initial Study.

A Mitigated Negative Declaration or Focused EIR shall be prepared for the project. The following additional project-specific mitigation measures listed below are necessary to reduce the identified new significant effect: none.

Traffic and Circulation:

N/A

Degradation of Air Quality:

AQ-42: All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover.

AQ-44: All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.

Generation of Noise:

N-3: The project shall comply with the City's noise ordinance. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields. Equipment that is quieter than standard

equipment should be utilized. Haul routes that affect the fewest number of people should be selected.

Effects on Agricultural Lands:

N/A

Increased Demand for Long-Term Water Supplies:

N/A

Increased Demand for Sanitary Sewer Services:

N/A

Loss of Sensitive Wildlife and Plant Habitat:

N/A

Disturbance of Archaeological/Historic Sites:

N/A

Increased Demand for Storm Drainage:

N/A

Flooding and Water Quality:

N/A

Increased Demand for Parks and Open Space:

N/A

Increased Demand for Schools:

N/A

Increased Demand for Police Services:

N/A

Increased Demand for Fire Services:

N/A

Generation of Solid Waste:

N/A

Generation of Hazardous Materials:

N/A

Geology, Soils, and Mineral Resources:

N/A

Energy:

N/A

Effects on Visual Resources:

N/A

Land Use and Planning:

RESOLUTION APPROVING THE ISSUANCE OF A PERMIT TO US MEDICAL TRANSPORTATION, INC. FOR NON-EMERGENCY MEDICAL TRANSPORTATION IN THE CITY OF MODESTO

WHEREAS, US Medical Transportation, Inc. has submitted an application to provide non-emergency medical transport within the City of Modesto, and

WHEREAS, US Medical Transportation, Inc. has paid the required $1,000 filing fee and has provided all necessary information as outlined in Modesto Municipal Code Section 3-9.03, and

WHEREAS, the Modesto Police Department has completed a background investigation regarding US Medical Transportation, Inc., per Modesto Municipal Code Section 3-9.03, and recommends a permit be granted, and

WHEREAS, on February 13, 2017, the Great Safe Neighborhoods Committee reviewed this item and recommended scheduling a public hearing for Council consideration.

WHEREAS, Modesto City Council approval is required for US Medical Transportation, Inc. to function as a non-emergency medical transport service within the City of Modesto, and

WHEREAS, a duly noticed public hearing was held by the City Council of the City of Modesto on April 25, 2017, at 5:30 p.m. in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, to consider authorizing the issuance of a permit to US Medical Transportation, Inc. for a non-emergency medical transport within the City of Modesto, and

WHEREAS, Modesto City Council finds that US Medical Transportation, Inc. will serve the public convenience and necessity requirements.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the issuance of a permit to US Medical Transportation, Inc. for non-emergency medical transport within the City of Modesto.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of April, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-162

RESOLUTION APPROVING THE REAPPOINTMENT OF MICAH RAPIER, CITIZEN-AT-LARGE, TO CITY OF MODESTO HOUSING REHABILITATION LOAN COMMITTEE WITH A TERM EXPIRATION DATE OF DECEMBER 31, 2020

WHEREAS, Section 1102 of the Charter of the City of Modesto authorizes the City Council to appoint members to various Boards and Commission, and

WHEREAS, on January 14, 2013, by Resolution No. 2013-39, MICAH RAPIER was appointed to the Housing Rehabilitation Loan Committee with an initial term of January 1, 2013 through January 1, 2015, and

WHEREAS, on October 25, 2016, through the adoption of the new bylaws, Resolution No. 2016-424, MICAH RAPIER's term was extended to January 1, 2017, and

WHEREAS, MICAH RAPIER has expressed interest in and is eligible to serve an additional four year term, and

WHEREAS, on April 13, 2017, the City of Modesto Appointments Committee recommended that MICAH RAPIER be reappointed to the HRLC, and

WHEREAS, MICAH RAPIER will serve in the seat designation of Citizen-At-Large for the time period January 1, 2017 to December 31, 2020.

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that MICAH RAPIER is hereby reappointed to the Housing Rehabilitation and Loan Committee and will serve in the seat designation of Citizen-At-Large for the time period January 1, 2017 through December 31, 2020.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING THE REAPPOINTMENT OF FRANK PLOOF AND RHODA YARE AND THE APPOINTMENT OF KRISTIE NELSON AND RICHARD DANIELS, CITIZENS-AT-LARGE, TO THE CITIZENS' HOUSING AND COMMUNITY DEVELOPMENT COMMITTEE WITH TERM EXPIRATION DATES OF DECEMBER 31, 2020

WHEREAS, Section 1102 of the Charter of the City of Modesto authorizes the City Council to appoint members to various Boards and Commission, and

WHEREAS, on December 4, 2012, by Resolution No. 2012-481, RHODA YARE was appointed to the Citizens' Housing and Community Development Committee (CH&CDC) with an initial term from January 1, 2013 through January 1, 2015, and

WHERAS, on January 22, 2013, by Resolution No. 2013-38, FRANK PLOOF was appointed to CH&CDC with an initial term from January 22, 2013 through January 1, 2015, and

WHERAS, on November 24, 2015, through the adoption of the new bylaws, Resolution No. 2015-456, both RHODA YARE and FRANK PLOOF's terms were extended to January 1, 2017, and

WHERAS, both RHODA YARE and FRANK PLOOF have expressed interest in and are eligible to serve additional four-year terms, and

WHEREAS, both KRISTIE NELSON and RICHARD DANIELS have expressed an interested in serving on the Citizen's Housing and Community Development Committee (CH&CDC), and

WHEREAS, on April 13, 2017, the City of Modesto Appointments Committee recommended that RHODA YARE be reappointed to the CH&CDC, and

WHERAS, RHODA YARE will serve in the seat designation of Citizen-At-Large for

the time period January 1, 2017 to December 31, 2020, and

WHEREAS, on April 13, 2017, the City of Modesto Appointments Committee recommended that FRANK PLOOF be reappointed to the CH&CDC, and

WHERAS, FRANK PLOOF will serve in the seat designation of Citizen-At-Large for the time period January 1, 2017 to December 31, 2020, and

WHEREAS, on April 13, 2017, the City of Modesto Appointments Committee reviewed applications and recommended that KRISTIE NELSON be appointed to the CH&CDC, and

WHEREAS, KRISTIE NELSON will serve in the seat designation of Citizen-at-Large for the time period May 2, 2017 to December 31, 2020, and

WHEREAS, on April 13, 2017, the City of Modesto Appointments Committee reviewed applications and recommended that RICHARD DANIELS be appointed to the CH&CDC, and

WHEREAS, RICHARD DANIELS will serve in the seat designation of Citizen-at-Large for the time period May 2, 2017 to December 31, 2020.

NOW, THEREFORE, BE ITRESOLVED, by the Council of the City of Modesto that RHODA YARE is hereby reappointed to the Citizens' Housing and Community Development Committee and will serve in the seat designation of Citizen-at-Large for the time period January 1, 2017 through December 31, 2020.

BE IT FURTHER RESOLVED, by the Council of the City of Modesto that FRANK PLOOF is hereby reappointed to the Citizens' Housing and Community Development Committee and will serve in the seat designation of Citizen-at-Large for the time period January 1, 2017 through December 31, 2020.

BE IT FURTHER RESOLVED that KRISTIE NELSON is hereby appointed to the Citizens' Housing and Community Development Committee and will serve in the seat designation of Citizen-at-Large for the time period May 2, 2017 through December 31, 2020.

BE IT FURTHER RESOLVED that RICHARD DANIELA is hereby appointed to the Citizens' Housing and Community Development Committee and will serve in the seat designation of Citizen-at-Large for the time period May 2, 2017 through December 31, 2020.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING THE SALARY AND BENEFITS FOR ACTING CITY MANAGER JOSEPH P. LOPEZ EFFECTIVE APRIL 1, 2017

WHEREAS, Joseph P. "Joe" Lopez started his employment with the City of Modesto on January 31, 2012 as Human Resources Director; and

WHEREAS, Joe Lopez has received numerous promotions and assumed additional, progressively responsible duties. He was appointed Interim Information Technology Director on January 28, 2014, Director of Administrative Services on July 1, 2014, Acting Deputy City Manager on February 24, 2015 and Deputy City Manager on February 9, 2016; and

WHEREAS, when City Manager Holgersson resigned on March 31, 2017, the City Council named Joe Lopez Acting City Manager; and

WHEREAS, the City has adopted benefits for unrepresented management executives and Charter officers; and

WHEREAS, the City Council now desires, for the period that Joe Lopez serves as Acting City Manager: (i) to approve an increase in his total salary, plus education incentive pay, of approximately 12.5% to a total of $198,000/ year, (ii) to authorize him to receive the benefits approved for Charter officers, and (iii) to allow him to resume his service as Deputy City Manager at such time as the City appoints a permanent City Manager or at the discretion of the City Council.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

1. Joe Lopez's assignment as Acting City Manager is subject to the complete discretion of the City Council, and such assignment may be terminated by the City Council at any time for any or no reason. At such time that the City Council terminates such assignment, Joe Lopez shall return to his Deputy City Manager position at the salary and benefits previously set.

2. During such time as he is serving as Acting City Manager, Joe Lopez shall receive a salary plus 1.5% education incentive pay in the total annual amount of $198,000, and the maximum benefits of a Charter officer as set forth in the **attached** "Summary of Benefits Unrepresented Management Executives and Charter Officers (Non-Sworn)".

3. Effective June 27, 2017, the above salary and incentive pay shall be increased by the same 2% cost of living increase that was approved for all non-sworn unrepresented management and confidential employees, including charter officers and executives on July 12, 2016 by City Council Resolution 2016-310, rescinded and updated by Resolutions 2016-377 and 2017-06.

4. The salary and benefits approved in this Resolution shall be effective and payable commencing April 1, 2017.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being was duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

CITY OF MODESTO
SUMMARY OF BENEFITS
UNREPRESENTED MANAGEMENT, EXECUTIVES and CHARTER OFFICERS
(Non-Sworn)

Retirement benefits are provided by contract with the Public Employees' Retirement System (CalPERS). Formula is determined by hire date and member status with CalPERS. The City does not participate in Social Security except for the required 1.45% Medicare contribution by both the City and the employee (applies to employees hired after 4-1-86).

Holidays observed are10 paid holidays per year plus 8 hours of holiday credit. Holiday credit may be accrued up to a maximum of 40 hours. Accrual in excess of 40 hours shall be cashed out on a quarterly basis.

Vacation accrual begins at a rate of two weeks per year, with incremental increases to five weeks at 21 years of service. Employees may accumulate up to two times their annual accrual.

Sick leave with pay is accumulated at 8 hours per month, 96 hours per year. Employees may accumulate up to 2,200 hours.

Health, dental and vision coverage is provided. The City's monthly contribution to health, dental and vision benefits are based on a three-tier system as follows:

- $1,214 Employee + Family (2 or more dependents)
- $ 858 Employee + 1 Dependent
- $ 621 Employee Only
- $ 450 Opt Out of Medical

The employee pays the balance. An employee who opts out of health coverage receives the opt out amount above minus dental and vision premium as an in-lieu contribution into deferred compensation account.

Life Insurance in the amount of $120,000 is provided by the City. Supplemental coverage is available at employee cost.

Long term disability insurance coverage is provided by the City at City cost. This benefit pays 66 2/3% of the first $12,000 per month in salary.

An annual physical exam is provided at City expense.

Deferred Compensation (457 Plan) is a voluntary program by the City. The City will contribute 1.5% of salary, (increasing to 2.5% following completion of 9 years of service) with a matching contribution by the employee.
For Unrepresented Management employees, the City also contributes 2% to a mandatory 401(a) Money Purchase Plan requiring a 2% employee contribution; for Executives, the City contributes 3% to a mandatory 401(a) Money Purchase Plan with a mandatory 3% employee contribution; for Charter Officers, the City contributes 5% to a mandatory 401(a) Money Purchase Plan with a mandatory 5% employee contribution.

Management Leave is provided annually for employees in exempt regular positions. The City shall advanced 80 hours of Management Leave January of each year.

Section 125 Plan providing for pre-tax deductions for employee-paid health premiums, unreimbursed medical expenses and for dependent care costs.

Employee Assistance Program is available to employees and dependents. Plan provides up to three counseling visits per incident at City expense.

Educational Incentive Pay in the amount of 1.5% of salary is available to employees with one year of service who possess a Master's Degree or Juris Doctor from an accredited institution.

City car or vehicle allowance of $400 per month is provided for Executives (up to $500 per month for Charter Officers).

Employee Benefits are subject to change and are not guaranteed. For a detailed explanation of benefits currently in effect please see Human Resources.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-165

RESOLUTION AMENDING SECTION 3 (COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAM) OF THE HOUSING AND URBAN DEVELOPMENT POLICIES & PROCEDURES MANUAL

WHEREAS, on October 25, 2016, by Resolution No. 2016-425, the City Council consolidated all Housing and Urban Development policies & procedures into one comprehensive manual entitled Housing and Urban Development Policies & Procedures Manual (HUD Policies & Procedures Manual), and

WHEREAS, an amendment to Section 3 (Community Development Block Grant Program) of the HUD Policies & Procedures Manual is proposed to reflect updated policies, and

WHEREAS, on April 13, 2017, the City of Modesto's Citizen's Housing and Community Development Committee reviewed, approved and forwarded an amended Section 3 (Community Development Block Grant Program) of the HUD Policies & Procedures Manual, to the City Council for review and approval.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto hereby amends Section 3 (Community Development Block Grant Program) of the Housing and Urban Development Policies & Procedures Manual, as set forth in **Exhibit A**, which is **attached** hereto and incorporated by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

Committee:	Citizens Housing and Community Development Committee	Approved:
City Council:	Resolution No.	Approved:

These policies supersede any previously adopted policies and are subject to review and revision by the City of Modesto's Citizens Housing and Community Development

1. Introduction

1.1. The City of Modesto has been a participating jurisdiction in the Community Development Block Grant (CDBG) Program of the U.S. Department of Housing and Urban Development (HUD) since the program was established by Congress in 1974.

1.1.1. HUD distributes federal CDBG funds to states, counties and urban cities to fulfill the goals of the program to:

1.1.1.1. Provide decent, safe, and sanitary housing

1.1.1.2. Provide a suitable living environment, and to

1.1.1.3. Expand economic opportunities principally for low and moderate-income persons.

1.2. Minimum requirements applicable to any CDBG funded activity are set forth in CDBG Program Regulations 24 CFR 570. CDBG regulations allow for local discretion as to the use and management of the CDBG program. Local community needs, resources, priorities and procedures for managing the CDBG program are approved by the City Council as part of the City's five-year Consolidated Plan (CP) process. In addition, each year the Modesto City Council reviews and considers approval of an Annual Action Plan (AAP) which includes objectives and outcomes, an evaluation of past performance, and activities to be undertaken in the next program year.

1.3. This document is intended to satisfy the requirement for a concise policy and procedures administrative manual in the administration and implementation of CDBG funded activities.

2. Background

2.1. **U.S. Department of Housing and Urban Development and Office of Community Planning and Development**

2.1.1. The mission of the U.S. Department of Housing and Urban Development (HUD) is "to create strong, sustainable, inclusive communities and quality, affordable homes for all."

2.1.2. The HUD Office of Community Planning and Development (CPD) seeks to develop viable communities by promoting integrated approaches that provide decent housing, a suitable living environment, and expanded economic opportunities for low- and moderate-income persons. These goals come out of the mission of HUD to "create strong, sustainable, inclusive communities and quality, affordable homes for all." The primary means towards this end is the development of partnerships between all levels of government and the private sector, including for-profit and non-profit organizations.

2.2. City of Modesto Entitlement Programs

2.2.1. The City of Modesto is a participating jurisdiction in three (3) Community Planning and Development (CPD) entitlement programs:

2.2.1.1. The Community Development Block Grant (CDBG) program supports public services and improvements that benefit low- and moderate-income individuals, families and neighborhoods. Federal regulations governing the CDBG program are in Title 24 of the Code of Federal Regulations Part 570 (24 CFR 570).

2.2.1.2. The Emergency Solutions Grants Program provides funding to (1) engage homeless individuals and families living on the street; (2) improve the number and quality of emergency shelters for homeless individuals and families; (3) help operate these shelters; (4) provide essential services to shelter residents, (5) rapidly re-house homeless individuals and families, and (6) prevent families/individuals from becoming homeless.

2.2.1.3. The HOME Investment Partnership (HOME) program supports affordable access to homeownership and development of affordable rental housing for low- and moderate-income families. Federal regulations governing the HOME program are in Title 24 of the Code of Federal Regulations Part 92 (24 CFR 92).

2.3. Federal Regulations (24 CRF Parte 570)

2.3.1. The City of Modesto will follow the regulations governing the CDBG program which are found in Title 24 of the Code of Federal Regulations (CFR) Part 570, Community Development Block Grants.

2.4. Subpart C – Basic Eligible Activities (24 CFR 570.201)

2.4.1. **24 CFR 570 Subpart C**

2.4.1.1. The City of Modesto may assist an activity in whole or in part with CDBG funds for activities which include, but are not limited to the following (all CDBG funded activities shall comply with 24 CFR Subpart C Eligible Activities requirements):

2.4.1.1.1. Acquisition of real property;

2.4.1.1.2. Disposition of real property acquired with CDBG funds

2.4.1.1.3. Construction of public facilities and improvements, such as water and sewer facilities, streets, neighborhood centers, and the conversion of school buildings for eligible purposes

2.4.1.1.4. Clearance and remediation of buildings and improvements;

2.4.1.1.5. Public Services within certain limits

- 2.4.1.1.5.1. Housing Services: Privately owned utilities
- 2.4.1.1.5.2. Construction of affordable housing
- 2.4.1.1.5.3. Homeownership assistance within certain limits
- 2.4.1.1.5.4. Technical Assistance
- 2.4.1.1.5.5. Rehabilitation of residential and non-residential structures
- 2.4.1.1.5.6. Special economic development activities

2.5. Ineligible Activities (24 CFR 570.207)

2.5.1. The general rule is that the City of Modesto's CDBG funds shall not be used for any activity that is not authorized under the provisions of 24 CFR Parts 570.201–570.206.

2.5.2. Generally, the following types of activities are ineligible:

- 2.5.2.1. acquisition, construction, or reconstruction of buildings for the general conduct of government
- 2.5.2.2. General government expenses
- 2.5.2.3. Political activities
- 2.5.2.4. Purchase of equipment
- 2.5.2.5. Construction equipment
- 2.5.2.6. Furnishings and personal property
- 2.5.2.7. Operating and maintenance expenses associated with public facilities
- 2.5.2.8. New housing construction
- 2.5.2.9. Subsistence payments made directly to an individual or family

2.6. Criteria for National Objectives – CDBG

2.6.1. In compliance with CDBG regulations, the City of Modesto strives to utilize the majority of funding in a manner that serves low- and moderate-income persons during each program year, but not less than fifty-one percent (51%) of CDBG funds shall be used for activities that benefit low- and moderate-income persons. When considering funding activities, the City of Modesto will ensure that each activity must meet one of the following National Objectives for the CDBG program.

- 2.6.1.1. Benefit low and moderate income individuals, families, or neighborhoods;
- 2.6.1.2. Prevention or elimination of slums or blight; or

Draft

2.6.1.3. Address community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the health or welfare of the community for which other funding is not available.

2.7. Selecting Activities that Comply

2.7.1. While there are many aspects that must be considered in selecting activities to assist under the CDBG program, there are six (6) key steps that City of Modesto Community Development Division (CDD) staff will take into consideration during the early stages of the process of determining if CDBG funds may be used to assist a proposed activity:

2.7.1.1. Determine if the activity falls within a category of explicitly authorized activities in the CDBG statute. Generally, if an activity does not fall within a category of explicitly authorized activities in the statute, the activity is considered ineligible. *HUD's Guide to National Objectives and Eligible Activities* describes all categories of basic eligibility that were authorized at the time of publication:

https://www.hudexchange.info/resource/89/community-development-block-grant-program-cdbg-guide-to-national-objectives-and-eligible-activities-for-entitlement-communities/

2.7.1.2. Determine if a proposed activity does not appear to be included in the statute's list of eligible activities, but there is precedent indicating it has been interpreted as eligible under the statute by the CDBG Eligible Activity regulations.

2.7.1.3. Most importantly, determine if the proposed activity can meet one of the national objectives of the program as outlined in 24 CFR 570.208. If an activity cannot meet one of the national objectives, the activity shall be found to be ineligible.

2.7.1.4. Ensure that carrying out the activity with CDBG funds will not result in the City violating its certification that at least 51 percent of CDBG expenditures will be for activities that are considered to benefit Low/Moderate income persons over the one, two, or three consecutive program years specified by the City of Modesto.

2.7.1.5. Review proposed costs of the activity to determine if they appear to be necessary and reasonable and will otherwise conform with the requirements of the following:

2.7.1.5.1. OMB Circulars A-87, "Cost Principles for State, Local, and Indian Tribal Governments,"

2.7.1.5.2. A-122, "Cost Principles for Non-Profit Organizations,"

2.7.1.5.3. A-21, "Cost Principles for Educational Institutions,"

2.7.1.5.4. 24 CFR Part 84, "Uniform Administrative Requirements for Grants and Agreements With Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations;" or

2.7.1.5.5. 24 CFR Part 85, "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments," as applicable.

2.7.1.6. Complete the environmental review and clearance procedures for the project of which the activity is a part as required by 24 CFR Part 58. Federal law prohibits HUD from releasing funds for a CDBG activity until certification is made with respect to environmental review completion.

Draft

3. Subpart J – Grant Administration (24 CFR Part 570.501)

3.1. 24 CFR 570 Subpart J

3.2. Responsibility for Grant Administration

3.2.1. The City of Modesto Community and Economic Development Department (CEDD) has been designated to administer the activities assisted under the CDBG program. The City of Modesto CEDD is responsible for ensuring that CDBG funds are used in accordance with all program requirements. The City of Modesto will adhere to all administrative requirements covered by Subpart J (24 CFR 570.500-570.513), which includes general responsibilities for grant administration, including uniform administrative requirements, provisions of subrecipient agreements, program income, use of real property, recordkeeping and reporting, and closeout procedures.

3.2.2. Applicability of Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards §570.502

3.2.3. The City of Modesto and its subrecipients shall follow Office of Management and Budget's (OMB) Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (also known as the Super Circular) codified at 2

CFR 200. The Super Circular guidance superseded and consolidated the requirements from OMB Circulars A-21, A-87, A-110, A-122, A-89, A-102, A-133, and A-50.

3.2.4. The City will ensure that all subrecipients (agencies and organizations that receive grant funds from the City) are in compliance with *OMB Super Circular requirements.*

3.3. Agreements with Sub-recipients § 570.503

3.3.1. Before disbursing any CDBG funds to a sub-recipient, the City of Modesto will sign a written agreement with the sub-recipient. The agreement will remain in effect during any period that the sub-recipient has control over CDBG funds, including program income.

3.3.2. At a minimum, the written agreement with the sub-recipient will include provisions concerning the following:

3.3.2.1. **Statement of Work**: The agreement will include a description of the work to be performed, a schedule for completing the work, and a budget. These items will be in sufficient detail to provide a sound basis for the City of Modesto to effectively monitor performance under the agreement.

3.3.2.2. **Records and Reports**: The City of Modesto will specify in the agreement the particular records the sub-recipient must maintain and the particular reports the sub-recipient must submit in order to assist the City of Modesto in meeting its recordkeeping and reporting requirements.

3.3.2.3. **Program Income (PI)**: The agreement will include the PI requirements set forth in §**570.504(c).** The agreement will also specify that, at the end of the calendar year, the City of Modesto may require remittance of all or part of any PI balances (including investments thereof) held by the sub-recipient (except those needed for immediate cash needs, cash balances of a revolving loan fund, cash balances from a lump sum drawdown, or cash or investments held for section 108 security needs).

3.3.2.4. **Uniform Administrative Requirements**: The agreement will require the sub-recipient to comply with applicable uniform administrative requirements, as described in §**570.502.**

3.3.2.5. **Other Program Requirements**: The agreement will require the sub-recipient to carry out each activity in compliance with all Federal laws and

regulations described in 24 CFR 570 Subpart K of the regulations, except that:

3.3.2.5.1. The sub-recipient does not assume the City of Modesto's environmental review (ER) responsibilities described at §**570.604**; and

3.3.2.5.2. The sub-recipient doesnot assume the City of Modesto's responsibility for initiating the review process under the provisions of 24 CFR part 52.

3.3.2.6. **Suspension and Termination**: The agreement will specify that, in accordance with 24 CFR 85.43, suspension or termination may occur if the sub-recipient materially fails to comply with any term of the award, and that the award may be terminated for convenience in accordance with 24 CFR 85.44.

3.3.2.7. **Reversion of Assets**: The agreement will specify that upon its expiration the sub-recipient shall transfer to the City of Modesto any CDBG funds on hand at the time of expiration and any accounts receivable attributable to the use of CDBG funds. It will also include provisions designed to ensure that any real property under the sub-recipient's control that was acquired or improved in whole or in part with CDBG funds (including CDBG funds provided to the sub-recipient in the form of a loan) in excess of $25,000 is either:

3.3.2.7.1. Used to meet one of the national objectives in §**570.208** (formerly §**570.901**) until five (5) years after expiration of the agreement, or for such longer period of time as determined to be appropriate by the City of Modesto; or

3.3.2.7.2. ot used in accordance with paragraph (b)(7)(i) of this section, in which event the subrecipient shall pay to the City of Modesto an amount equal to the current market value of the property less any portion of the value attributable to expenditures of non-CDBG funds for the acquisition of, or improvement to, the property. The payment is program income to the City of Modesto.

4. Program Income

4.1. Treatment of Program Income and Revolving Loan Funds (RLFs) Per the 24 CFR 570.500 definitions.

4.2. § 570.500 Definitions.

4.2.1. For the purposes of this subpart, the following terms shall apply:

4.2.1.1. **(a) *Program income*** means gross income received by the recipient or a subrecipient directly generated from the use of CDBG funds,

4.2.1.2. **(b) *Revolving fund*** means a separate fund (with a set of accounts that are independent of other program accounts) established for the purpose of carrying out specific activities which, in turn, generate payments to the fund for use in carrying out the same activities. Each revolving loan fund's cash balance must be held in an interest-bearing account, and any interest paid on CDBG funds held in this account shall be considered interest earned on grant advances and must be remitted to HUD for transmittal to the U.S. Treasury no less frequently than annually. [Interest paid by borrowers on eligible loans (e.g. – Homeowner Rehabilitation Loan interest portion payments made from the revolving loan fund) shall be program income and treated accordingly. Receipted as program income, not as RLF.]

4.2.2. Beginning with FY 2015 formula allocations, it has been determined that First-In-First-Out (FIFO) accounting does not comply with federal financial standards *(May 9 2014 – Memorandum – System and Regulatory Changes to Eliminate First-In-First-Out Accounting in the Integrated Disbursement and Information System (IDIS)).* Funding is now tied to a grant specific year, and the related activities described within the respective Annual Action Plan (AAP) (e.g. Year 1 – 7/1/2015 – 6/30/2016; Year 2 – 7/1/2016 – 6/30/2017; Year 3 – 7/1/2017 – 6/30/2018).

4.2.3. Under the provision of this rule the City of Modesto Community Development Division (CDD) will accumulate program income, including interest paid by borrowers on eligible loans made from the Revolving Loan Fund, repaid funds, and recaptured funds it receives during the program year, rather than expending them for the next eligible draw.

4.2.4. Moving forward, at the conclusion of each calendar year (e.g. – Program Income accumulated through 12/31/2016; will be reflected in the next Annual Action Plan (AAP)). The City of Modesto will calculate any accumulated uncommitted program income to include interest paid by borrowers on eligible loans made from the Revolving Loan Fund(s), repaid funds, and recaptured funds incorporating all into the upcoming AAP. This funding received during the previous program year(s) will be described as resources and assigned to eligible activities in the upcoming AAP (e.g. – AAP FY 2017-2018). Emergency Solutions Grants (ESG) is currently excluded from this requirement.

4.2.5. In prior years, this was not required, as the amounts in revolving loan funds (RLFs) were excluded from calculations related to the City of Modesto timeliness standards described in 24 CFR Part 570.902. On February, 22, 2017, HUD Headquarters clarified that with all formula grantees that this will no longer be allowable.

4.2.6. Program Income still needs to be remitted to the U.S. treasury, if the calculation at the end of each program year (June 30th) is in access of the guidelines as outlined in the CDBG Manual (Chapter 11: Financial Management – page 11-13).

Draft

4.2.7. The receipt and expenditure of program income as defined in §**570**.500(a) will be recorded as part of the financial transactions of the City of Modesto CDBG grant program.

4.2.8. Program income (PI) received before grant closeout may be retained by the City of Modesto. PI will be treated as additional CDBG funds subject to all applicable requirements governing the use of CDBG funds.

4.2.9. Program income retained by the City of Modesto will be disposed as follows:

4.2.10. Program income in the form of repayments to, or interest earned on, a revolving fund as defined in §570.500(b) tied to that specific grant year AAP shall be substantially disbursed from the fund before additional cash withdrawals are made from the U.S. Treasury for the same activity. (This rule does not prevent a lump sum disbursement to finance the rehabilitation of privately owned properties as provided for in §570.513.)

4.2.11. Substantially all other AAP program year program income shall be disbursed for eligible activities before additional cash withdrawals are made from the U.S. Treasury. If the calculation at the end of each program year (June 30th) is in access of the guidelines as outlined in the CDBG Manual (Chapter 11: Financial Management – page 11-13).

4.2.12. At the end of each program year, the aggregate amount of program income cash balances and any investment thereof (except those needed for immediate cash needs, cash balances of a revolving loan fund, cash balances from a lump-sum drawdown, or cash or investments held for section 108 loan guarantee security needs) that, as of the last day of the program year, exceeds one-twelfth of the most recent grant made pursuant to §570.304 shall be remitted to HUD as soon as practicable thereafter, to be placed in the City of Modesto's line of credit. This provision applies to program income cash balances and investments thereof held by the City of Modesto and its sub-recipients.

4.2.13. CDBG and HOME PI balance as of December 31 of each year will be budgeted for use in the following Fiscal Year Annual Action Plan. Program Income received after December 31, will be kept in account until the end of the following year to be budgeted for the following fiscal year; The City of Modesto may elect to use program income received after December 31 by conducting a substantial amendment to the respective year Annual Action Plan.

4.2.14. Under the provision of this rule the City of Modesto Community Development Division (CDD) will accumulate program income, including ***interest paid by borrowers on eligible loans made from the Revolving Loan Fund,*** repaid funds, and recaptured funds it receives during the program year, rather than expending them for the next eligible draw.

4.2.15. The City of Modesto will calculate any accumulated uncommitted program income to include interest paid by borrowers on eligible loans made from the Revolving Loan Fund(s), repaid funds, and recaptured funds incorporating all into the upcoming AAP. This funding received during the previous program year(s) will be described as resources and assigned to eligible activities in the upcoming AAP (e.g. – AAP FY 2017-2018). Emergency Solutions Grants (ESG) is currently excluded from this requirement.

4.2.16. In prior years, this was not required, as the amounts in revolving loan funds (RLFs) were excluded from calculations related to the City of Modesto timeliness standards described in 24 CFR Part 570.902. On February, 22, 2017, HUD Headquarters clarified that with all formula grantees that this will no longer be allowable.

5. Use of real property

5.1. Section 570.505

5.1.1. The City of Modesto will comply the standards described 24 CFR 570.505 with relation to the use of real property within the City of Modesto's control acquired or improved in whole or in part using CDBG funds in excess of $25,000.

6. Records to be maintained

6.1. Section 570.560

6.1.1. The City of Modesto will establish and maintain sufficient records to enable HUD to determine whether the City of Modesto has met the CDBG program requirements for activities administered by the City of Modesto under the CDBG program. At a minimum, the following records will be maintained:

6.1.2. Records providing a full description of each activity assisted (or being assisted) with CDBG funds, including its location (if the activity has a geographical locus), the amount of CDBG funds budgeted, obligated and expended for the activity, and the provision in subpart C under which it is eligible.

6.1.3. Records demonstrating that each activity undertaken meets one of the criteria set forth in §570.208 (Criteria for National Objectives).

6.1.4. Records that demonstrate that the City of Modesto has made the determinations required as a condition of eligibility of certain activities, as prescribed in §570.201(f)-interim assistance, 570.201(i)(2) - emergency, 570.201(p) - technical assistance, 570.201(q) - higher education institutions, 570.202(b)(3) - rehabilitation loans, 570.206(f) - Submission of applications for federal programs, 570.209 - economic development, 570.210 - prohibition employee relocation, and 570.309 - restriction on location.

6.1.5. Records which demonstrate compliance with §570.505 - regarding any change of use of real property acquired or improved with CDBG assistance.

6.1.6. Records that demonstrate compliance with the citizen participation requirements prescribed in 24 CFR part 91, subpart B, for entitlement recipients.

6.1.7. Records that demonstrate compliance with the requirements in §570.606 regarding acquisition, displacement, relocation, and replacement housing

6.1.8. Fair housing and equal opportunity records containing:

6.1.8.1. Documentation of the analysis of impediments and the actions the City of Modesto has carried out with its housing and community development and other resources to remedy or ameliorate any impediments to fair housing choice in the City of Modesto's community.

6.1.8.2. Data on the extent to which each racial and ethnic group and single headed households (by gender of household head) have applied for, participated in, or benefited from, any program or activity funded in whole or in part with CDBG funds. Such information shall be used only as a basis for further investigation as to compliance with nondiscrimination requirements. The City of Modesto is not required to attain or maintain any particular statistical measure by race, ethnicity, or gender in covered programs.

6.1.8.3. Data on employment in each of the City of Modesto's operating units funded in whole or in part with CDBG funds, with such data maintained in the categories prescribed on the Equal Employment Opportunity Commission's EEO-4 form; and documentation of any actions undertaken to assure equal employment opportunities to all persons regardless of race, color, national origin, sex or handicap in operating units funded in whole or in part under this part.

6.1.8.4. Data indicating the race and ethnicity of households (and gender of single heads of households) displaced as a result of CDBG funded activities, together with the address and census tract of the housing units to which each displaced household relocated. Such information shall be used only as a basis for further investigation as to compliance with nondiscrimination requirements. The City of Modesto is not required to attain or maintain any particular statistical measure by race, ethnicity, or gender in covered programs.

6.1.8.5. Documentation of actions undertaken to meet the requirements of §570.607(b) which implements Section 3 of the Housing Development Act

of 1968, as amended (12 U.S.C. 1701U) relative to the hiring and training of low and moderate income persons and the use of local businesses.

6.1.8.6. Data indicating the racial/ethnic character of each business entity receiving a contract or subcontract of $25,000 or more paid, or to be paid, with CDBG funds, data indicating which of those entities are women's business enterprises as defined in Executive Order 12138, the amount of the contract or subcontract, and documentation of recipient's affirmative steps to assure that minority business and women's business enterprises have an equal opportunity to obtain or compete for contracts and subcontracts as sources of supplies, equipment, construction and services. Such affirmative steps may include, but are not limited to, technical assistance open to all businesses but designed to enhance opportunities for these enterprises and special outreach efforts to inform them of contract opportunities. Such steps shall not include preferring any business in the award of any contract or subcontract solely or in part on the basis of race or gender.

6.1.8.7. Documentation of the affirmative action measures the City of Modesto has taken to overcome prior discrimination, where the courts or HUD have found that the City of Modesto has previously discriminated against persons on the ground of race, color, national origin or sex in administering a program or activity funded in whole or in part with CDBG funds.

6.1.8.8. Financial records, in accordance with the applicable requirements listed in§**570**.502 - uniform administrative requirements - including source documentation for entities not subject to parts 84 and 85 of the regulation. The City of Modesto will maintain evidence to support how the CDBG funds provided to such entities are expended. Such documentation will include, to the extent applicable, invoices, schedules containing comparisons of budgeted amounts and actual expenditures, construction progress schedules signed by appropriate parties (e.g., general contractor and/or a project architect), and/or other documentation appropriate to the nature of the activity.

6.1.9. Records required to be maintained in accordance with other applicable laws and regulations set forth in subpart K of 24 CFR Part 570.

6.1.10. Subrecipient record retention requirements will be established within subrecipient agreements.

7. Required Annual Reports

7.1. § 570.507

7.2. Preparation of Annual Action Plan

7.2.1. CDBG regulations at 24 CFR 91.15(a)(1) requires entitlement jurisdictions (City of Modesto) to submit its Consolidated Plan or Action Plan at least 45 days before the start of its program year. The City of Modesto will begin to plan for the development of the Annual Action Plan (AAP) as early as October of the year prior to the beginning of its next fiscal year – July 1. For purposes of planning the Annual Action Plan, an Annual Action Plan schedule may be developed in the month of October outlining all pertinent deadlines related to the development and adoption of the Annual Action Plan.

7.2.2. The following will be general milestone targets of the City of Modesto's Annual Action Plan tentative schedule (efforts will be made to follow the outlined schedule as close as possible, however, variables outside the City's control may contribute to changes on the actual schedule):

Draft

7.2.2.1. **Oct./Nov: Develop AAP schedule**

7.2.2.2. **December: Release CDBG/ESG Public Services Notice of Funding Availability (NOFA)**

- 7.2.2.2.1. Host Mandatory Technical Workshop and Open Public Service Application Period
- 7.2.2.2.2. Begin Draft AAP

7.2.2.3. **January: Continue Draft AAP**

- 7.2.2.3.1. CDBG/ESG Public Services Application Deadline
- 7.2.2.3.2. Application Technical Review Notifications (for ineligible applications)
- 7.2.2.3.3. Deadline for Appeals of Technical Review Determination

7.2.2.4. **February: RFP Presentations to CH&CDC and Application Evaluation**

7.2.2.5. **March/April: Finalize Draft AAP.**

7.2.2.5.1. If official entitlement amounts are not known, a Draft Annual Acton Plan using projected entitlement award amounts will be prepared.

7.2.2.5.2. Draft AAP with funding recommendations to CH&CDC

7.2.2.5.3. Draft AAP to CH&CDC; Open 30 day public comment period –

7.2.2.5.4. Conduct Citizen Participation outreach in compliance with Citizen Participation Plan

7.2.2.5.5. Update AAP with official HUD entitlement allocations for CDBG, ESG, and HOME programs.

7.2.2.5.6. Update Draft AAP during 30 day comment period as needed. Insert comments received during public comment period/citizen participation process.

7.2.2.6. Draft subrecipient agreements per activities identified in the Draft AAP. The City Attorney shall annually review the draft CDBG sub recipient and capital projects agreements to ensure compliance with federal, state and City codes and regulations, including non-discrimination clauses and City insurance requirements.

Draft

7.2.2.7. **May/June: Final AAP to City Council.**

7.2.2.7.1. Following the Citizen Participation process, the City of Modesto will submit the Annual Action Plan to the San Francisco Field Office no later than May 15 of each year (45 days prior to the start of the program year) if HUD has announced official program allocations.

7.2.2.7.2. Per HUD CPD Notice CPD-16-18, HUD has directed entitlement communities to not submit the Annual Action Plan until after the fiscal year allocations have been announced. Entitlement communities may delay submission of its action plan to HUD until 60 days after the date allocations are announced, or until August 16 of the respective fiscal year, whichever comes first. This delay will give the entitlement communities time to revise its Annual Action Plan to incorporate actual allocation amounts, and to conduct any additional citizen participation, if necessary.

7.2.2.7.3. For example, if HUD were to announce the FY allocation amounts to grantees on April 28: For grantees with July 1 and August 1 program year start dates, their normal plan

submission date would be less than 60 days after HUD's announcement of allocation amounts. These grantees would also be able to postpone submission of their consolidated plan/action plan until June 26.

7.2.2.7.4. Once HUD informs grantees of their fiscal year funding allocation amounts, the City of Modesto, prior to submission, will ensure that the fiscal year funding allocation amounts are reflected in the form SF-424, in the description of resources and objectives, and in the description of activities to be undertaken.

7.2.2.7.5. Upon City Council adoption, contracts will be prepared and executed.

7.2.2.8. **July 1** **Beginning of Program Year**

7.2.2.9. In no case may a Consolidated Plan/Action Plan be submitted to HUD later than August 16 of the respective fiscal year.

7.2.2.10. Throughout the development of the Annual Action Plan, the City of Modesto will comply with all Citizen Participation plan requirements to ensure proper public noticing, citizen participation, and public hearings are conducted. The City of Modesto's Citizen Participation Plan may be found at https://www.modestogov.com/1848/Publications-Reports.

8. Preparation of the Consolidated Annual Performance Evaluation Report (CAPER)

8.1. CDBG regulations at 24 CFR 91.520 requires entitlement jurisdictions (City of Modesto) to submit an Annual Performance Report within 90 days of the close of the entitlement jurisdiction's program year. This is in accordance with the Consolidated Plan regulations at 24 CFR Part 91.

8.2. The City of Modesto will begin to plan for the development of the Consolidated Annual Performance Evaluation Report (CAPER) in June of the year after the end of its next fiscal year – June 30. For purposes of planning the CAPER, a CAPER schedule may be developed in the month of June outlining all pertinent deadlines related to the development and adoption of the CAPER.

8.3. The following will be general milestone targets of the City of Modesto's CAPER tentative schedule (efforts will be made to follow the outlined schedule as close as possible, however, variables outside the City's control may contribute to changes on the actual schedule):

8.3.1. June - Develop AAP schedule

8.3.2. July - Compile Data for Draft CAPER

8.3.2.1. Begin Draft CAPER

8.3.3. August - Present Draft CAPER to CH&CDC

8.3.3.1.1. Open 15 day Public Comment Period

8.3.3.1.2. Conduct Citizen Participation Process

8.3.4. September Present CAPER to City Council

8.3.4.1.1. Submit CAPER to HUD

8.4. Throughout the development of the CAPER, the City of Modesto will comply with all Citizens' Participation Plan requirements to ensure proper public noticing, citizen participation, and public hearings are conducted. The City of Modesto's Citizen Participation Plan may be found at https://www.modestogov.com/1848/Publications-Reports.

9. Program and Financial Reporting

9.1. Throughout the fiscal year, the City of Modesto will comply with all reporting requirements. All attempts will be made to submit each report by the respective deadline. The following is a list of reports that the City of Modesto is required to submit as a recipient of HUD funds:

9.1.1. SF 425 – Federal Financial Report and SF 425-A – Federal Financial Report Attachment

9.1.2. HUD-92010 Equal Employment Opportunity Certification – if applicable (HUD/EEO-4)

9.1.3. HUD-60002-Section 3 Summary Report – Due with CAPER

9.1.4. HUD-2516 Contract and Subcontract Activity (MBE Report) – Due to HUD by April 30 and October 31.

9.1.5. HUD-4710 Semi-Annual Labor Standards Enforcement Report – Due to HUD by April 15 and October 15

9.1.6. All other reports/information HUD determines necessary

9.2. The City of Modesto will work with all subrecipients to ensure that they understand reporting requirements, with the understanding that the City and subrecipients share joint responsibility for carrying out permitted activities in conformance with federal requirements.

9.3. Subrecipients shall provide documentation that demonstrates the achievement of program goals and the completion of activities on quarterly basis at a minimum. All requests for reimbursement shall have adequate documentation, as determined by the City of Modesto, of how federal funds were used and that funds were used only for eligible activities. Complete records, and accurate and timely reporting, are essential to successful CDBG programs for the City and all subrecipients.

9.4. The City of Modesto Housing and Urban Development subdivision will ensure that expenditures of CDBG funds shall be drawn down using the Integrated Disbursement and Information System (IDIS) on a regular basis and not less than monthly.

10. Sub-recipient Application & Award Process

10.1. Public Services Application Release and Schedule

10.1.1. HUD allows the City of Modesto to procure, select, and fund activities in accordance with local community development goals and objectives. With respect to CDBG and ESG Public Services, the City of Modesto will annually release a Notice of Funding Availability (NOFA) to solicit public service program proposals that align with Consolidated Plan needs and objectives. The CDBG/ESG Public Services NOFA schedule will align with the development of each year's Annual Action Plan (see Section 7.2 above for information about each year's NOFA schedule).

10.1.2. With respect to Public Service funding, the City of Modesto will make available up to fifteen percent (15%) of the total CDBG allocation for the program year for Public Services.

10.1.3. For ESG award purposes, the City of Modesto will competitively award 82.5% of the ESG allocation for the program year to Homeless Service Providers and 10% to HMIS eligible activities. The remaining 7.5% of the ESG allocation will be used for ESG City of Modesto administrative purposes in accordance with ESG regulations.

10.2. Solicitation of Applications for CDBG Funds

10.2.1. In order to ensure maximum participation, the City of Modesto will issue a Notice of Funding Availability (NOFA) and distribute via email to established email groups, mail, and/or the City of Modesto's website. Whenever necessary, the City of Modesto may publish notices in the local newspaper (The Modesto Bee/Vida en el Valle) and/or issue a press release to the local media.

10.2.2. Prospective applicants shall pay close attention to the NOFA Guidelines when preparing their project proposal/application. The NOFA Guidelines will include key information including but not limited to eligible activities, eligible applicants, organizational capacity, consistency with Consolidated Plan, and Evaluation Criteria.

Further, the NOFA Guidelines will provide a calendar of events that will include the following information: Application Period, Mandatory Technical Workshop, Application Deadline, Proposal Presentations, Public Comment Period Opening, Public Comment Period Closing, and Annual Action Plan Submittal to HUD.

10.3. Application Requirements

10.3.1. Applicants must apply for funds during the open application period using a web-based application program (e.g. - ZoomGrants™) as indicated by the City of Modesto. All applicants must submit a Master application detailing the proposed program, goals, measurable objectives and agency/program finances.

10.3.2. As part of the application packet, all applicants must submit sufficient documentation within the various required exhibits to substantiate the applicant's ability to comply with the stringent CDBG requirements if an award is granted.

10.3.3. All applicants must submit all requested documents within the web-based system including but not limited to the documents listed in this section. Any application lacking the following documentation and/or the criteria described for each will be considered incomplete and may be disqualified from the application process:

10.3.3.1. **Completed Web-Based Application**: All questions must be completed in their entirety.

10.3.3.2. **Executive Summary**: Executive summary of project proposal. Must include detailed information about the project purpose, target population, service area, proposed objectives, performance indicators, proposed outcomes. The executive summary must discuss the level of involvement and agency's role within the Focus on Prevention efforts as well as the level of coordination with other service providers to reduce duplication of services.

10.3.3.3. **Board of Directors Agenda and Minutes:** Board of Directors minutes must specifically authorize applicant to submit an application to the City of Modesto and specify application type (i.e. CDBG/ESG/HOME). In compliance with internal control requirements per 24 CFR 85.20(b)(3)to(b)(6) and 84.21(a)(3), Board of Directors must not include members acting as staff or in any other capacity that may be perceived as a conflict of interest.

10.3.3.4. **Articles of Incorporation:** Articles of Incorporation Stamped by the Secretary of State of the State of California.

10.3.3.5. **Organization By-Laws:** Organization By-Laws (with Secretary's Certificate/Signature).

10.3.3.6. **California Franchise Tax Board Tax Exempt Status Letter**

10.3.3.7. **Internal Revenue Service (IRS) Federal Tax-Exempt Status Letter**

10.3.3.8. **Certified Audit and/or Financial Statement (most recent):** Must be prepared by a Certified Public Accountant/Independent Auditor.

10.3.3.9. **IRS 990:** IRS 990 Tax Return for the most recently ended fiscal year. If the 990 Tax Return has not been completed by the time of the open Application Period, applicant can submit a copy of their extension form.

10.3.3.10. **City of Modesto Business License:** Business License must be current and its use must comply with City of Modesto Municipal Code of Ordinances.

10.3.3.11. **Organization Chart:** Most recent/updated organizational chart.

10.3.3.12. **Board of Directors Roster:** Most recent/updated Board of Directors roster.

10.3.3.13. **Certifications/Fingerprinting Clearance:** All CDBG/ESG funded staff working with children must be fingerprinted. Provide copies of applicable licenses, evidence of fingerprinting clearance, if applicable, and/or certifications pertaining to the project or component that will use CDBG/ESG funds.

10.3.3.14. **NEPA Environmental Review Form:** Completed NEPA environmental review form with original signature.

10.3.3.15. **Fee Schedule (if applicable):** Charging fees is generally discouraged when program is funded by CDBG/ESG. If fees are charged, provide a copy of fee schedule. Failure to submit the fee schedule for a fee-based project will render application as disqualified.

10.3.3.16. **Site Control Documentation:** Documentation/evidence of site control (i.e. lease, MOU, or other form of legal agreement). Evidence of site control must be current and meet the current City business permitting guidelines.

10.3.3.17. **Service Area Map:** If the project provides service on an area basis, attach a map showing the area to be served that includes the eligible Census Tracts and Block Groups being served.

10.3.3.18. **Staff Resumes:** Copies of resumes for program staff who will be involved in operating/implementing the CDBG/ESG program.

10.3.3.19. **Proof of Insurance:** Copy of evidence of insurance as required by the City of Modesto. If awarded, insurance requirements must be met as outlined on the templates provided.

10.3.3.20. **Disclosure of City Relationships:** List any employees or board members of the applicant agency who are elected official, appointed members of a City of Modesto Commission/Committee, or a City employee if applicable. If not applicable, upload a note on company letterhead indicating "Not Applicable".

10.3.3.21. **Professional References:** Provide contact information of three (3) partner agencies, non-profits, service providers, or public/private agencies. Any letters of support must be dated within the last 30 days.

10.3.3.22. **Budget Detail and Support:** If needed, provide additional budget detail and supporting documentation for costs and sources of funds. This may be used to further support/explain the proposed program budget. If not applicable, upload a note on company letterhead indicating "Not Applicable".

Draft

10.4. Technical Assistance to Applicants

10.4.1. A mandatory Application Orientation/Technical Assistance workshop is held for all prospective applicants each year. The purpose of the workshop is to explain the NOFA Guidelines, any program changes, the application process, and answer any questions relating to funding requirements, criteria, and priorities.

10.4.2. Community Development Programs staff will present and answer questions on program guidelines, applicant and activity eligibility requirements, the National Objectives for the programs, local objectives and priority activities in the City's five-year Consolidated Plan, and application requirements.

10.4.3. Staff will be available for technical assistance from the beginning of the application period until 4:00 p.m. on the deadline date for submission.

10.5. Technical Review of Applications by City Staff

10.5.1. City of Modesto staff will conduct a technical review of all applications upon submission to ensure that:

10.5.1.1. Applications are complete;

10.5.1.2. Program proposal meets one of the CDBG National Objectives; and

10.5.1.3. Consistency with City of Modesto Consolidated Plan

10.5.2. The technical review will include a review of the applicant organization to ensure that the applicant is an eligible nonprofit organization. This will generally be determined by

10.5.2.1. Reviewing the documentation within the various required exhibits to substantiate the applicant's ability to comply with the stringent CDBG requirements if an award is granted.

10.5.2.2. Ensuring that the applicant is not excluded from conducting business with any federal agency by conducting a search on the federal System for Award Management website at www.sam.gov.

10.5.3. Upon technical review completion, City of Modesto staff will notify the applicant and provide an opportunity correct any errors or omissions on their application. Applicants will be given a specific timeframe to make corrections and finalize application. After the final deadline, further access to the application by the applicant will be blocked.

10.5.4. City staff will provide a technical review summary to the Application Review Committee that will reflect applicant responsiveness to application requirements.

10.6. Application Review Committee: Citizens Housing and Community Development Sub-Committee (CHCDC)

10.6.1. A subcommittee composed of five (5) members of the Citizens Housing and Community Development Committee (CHCDC) will act as the Application Review Committee. The Application Review Committee will review and score all application submissions.

10.6.2. CHCDC members may volunteer or be appointed by the Chairperson of the CHCDC to the Application Review Committee.

10.6.3. The Application Review Committee shall review applications thoroughly and shall evaluate the proposals on the basis of:

10.6.4. Past Performance, if funded in previous years. City Staff will provide past performance reports to the Application Review Committee which will include but will not be limited to:

10.6.4.1. The amount of CDBG/ESG funds received by an applicant organization from the City in the past three (3) years, if any;

Draft

10.6.4.2. The extent to which previously-funded organizations have met program objectives, satisfied contract obligations, and expended allocated funds in an efficient, appropriate and timely manner;

10.6.4.3. Information provided in the application;

10.6.4.4. Information provided in the applicant presentation/interview;

10.6.4.5. Rating Criteria;

10.6.5. Application Review Committee members judge applications solely on the merits of the application and the objective criteria. Members should not be influenced by their personal convictions or viewpoints. If a member feels that she/he cannot judge an application fairly and impartially, conflict of interest provisions as discussed in this manual shall apply.

10.7. Conflict of Interest Declarations

10.7.1. Before discussion of applicant organizations and agencies, Application Review Committee members shall declare relationships, if any, with applicant organizations or persons associated with the applicants.

10.7.2. This may include:

10.7.2.1. Serving as a Board member of or volunteer in an applicant agency or organization;

10.7.2.2. Membership or participant in activities of an applicant agency or organization;

10.7.2.3. Direct contributor to an applicant agency or program;

10.7.2.4. Beneficiary of the activities or services of an application agency or program; and

10.7.2.5. Any connection with the applicant that would constitute or that could be perceived to constitute a conflict of interest.

10.7.3. When a member has a perceived or real conflict of interest with an applicant organization, the member shall refrain from ranking the application and shall withdraw from the interview with the applicant and any discussion of the merits of the application.

10.7.4. Members shall also declare any personal interest in an organization that is in direct competition with an applicant organization that may cause them to rank the application other than strictly on the merits of the application.

10.7.5. Committee members who have been involved with the preparation of an application shall withdraw from consideration of that application.

Draft

10.8. Applicant Presentation/Interviews

10.8.1. Applicants will have the opportunity to provide a 10-minute presentation before the Application Review Committee to explain their proposed program and funding request.

10.8.2. Following the applicant presentation, there will be a five (5) minute question and answer period. While questions will be primarily driven by the Application Review Committee, City program staff may also ask clarifying questions relevant to the application proposal to further assist the Application Review Committee in the proposal evaluation.

10.8.3. Following the five (5) minute question and answer period, the Application Review Committee will have 5 minutest to score the proposal and prepare for the following presentation.

10.8.4. Time will be strictly enforced as feasibly possible to be fair to all participants and to stay on schedule.

10.9. Rating Criteria

10.9.1. Upon reviewing and conducting application presentation and interview, the Application Review Committee will use an application scoring sheet prepared by CEDD staff that include the following rating factors to objectively evaluate and score each application proposal

10.9.1.1. URGENCY/PERSISTENCE OF NEED
10.9.1.2. DESIGN
10.9.1.3. BUDGET/FINANCIAL MANAGEMENT CAPACITY
10.9.1.4. FUND DEVELOPMENT
10.9.1.5. COLLABORATION

10.9.2. Specific criteria definitions will be provided within the Notice of Funding Availability Guidelines released annually.

10.9.3. From time to time, there may be a need to incorporate additional application scoring criteria corresponding to local initiatives or special programs (i.e. bonus points for applicant willingness to carry out special program components). In every case, the NOFA Guidelines will specify if additional criteria applies and will be disclosed during the Mandatory Technical Workshop.

10.10. Application Review Committee Funding Recommendations

10.10.1. At the conclusion of Application Review Committee's rating of all applications, City staff will compile scoring results and will share scoring results with the Application Review Committee on the same day.

10.10.2. All applications with a score of 70 points or greater will be funded by multiplying the amount requested times the application score, as a percent [i.e. Amount requested = $30,000; Score = 92.2 ($30,000 x 92.2% = $27,660)]. This method will be applied beginning with the highest score down to the 70 point mark or until funds are exhausted.

10.10.3. Any remaining funds after the 70 point score threshold will be used to fund Community Based Public Service needs identified by community groups and relayed to City staff during community meetings/ Citizen Participation outreach process.

10.10.4. Draft scoring and funding results will be presented to the CHCDC at the monthly meeting following the Applicant Presentations/Interviews.

10.10.5. The CHCDC will deliberate on the Subcommittee's recommendations. Final recommendations will be approved by majority vote. City staff will present these CHCDC recommendations to Modesto City Council, which will ultimately determine funding awards.

10.10.6. In years when CDBG entitlement amount is not known, an estimated amount will be used. The amount of funds awarded may be adjusted per City Council-approved contingency plan. This plan will be utilized when the CDBG entitlement differs from the estimate. The plan ensures the City does not exceed the fifteen percent (15%) public services cap.

10.11. CDBG/ESG Public Service Award and Denial Notification and Appeal Process

10.11.1. CDBG/ESG applicants will be notified in writing of the Application Review Committee funding recommendations upon release of the Draft Annual Action Plan. The written notification will provide each applicant application rank and score information and whether or not application will be recommended for funding.

10.11.2. Appeal Process

10.11.2.1. Any applicant that maintains its proposal has been wrongly determined to be ineligible may submit a written response to the Community Development

Manager within seven (7) business days of notification. The written response must include specific details that address/cure the ineligibility determination(s) issued.

10.11.2.2. City Staff will schedule an in person meeting (Technical Assistance) with applicant representatives to discuss the factors/compliance issues that have deemed the application in the view of the Application Review Committee. City Staff will use this opportunity to provide technical assistance to be considered by the applicant in future funding cycles. After meeting with the applicant, staff will confirm the discussion in writing by sending a follow up letter outlining the Technical Assistance points of discussion.

10.11.2.3. This appeal process does not provide an opportunity to revise proposals, nor does it guarantee that determinations will be overturned.

10.12. Public Participation and City Council Action

10.12.1. Responsibility for the appropriation of all CDBG/ESG funds resides with the City Council, which considers the advisory input of the CHCDC, however HUD regulations require a certain level of public participation. Public participation will be accomplished through a series of public meetings and an opportunity for public comment on the annual Action Plan prior to the submission of the plan to HUD. The City will follow its Citizen Participation Plan to comply with HUD Citizen Participation requirements.

11. Subpart K – Other Program Requirements

11.1. Subpart K sets forth certain additional program requirements which are determined to be applicable to CDBG grants provided as a matter of administrative discretion. The Community Development Programs Staff shall incorporate the following additional program requirements as per § 570.600 through § 570.614 as applicable.

11.2. Affirmatively Furthering Fair Housing/Non-discrimination

11.2.1. § 570.601

11.2.2. The City as a recipient of CDBG funds shall ensure that subrecipients comply with Title VI of the Civil Rights Act of 1964 (prohibiting race, color, and national origin discrimination including language access for limited English proficient persons), Section 504 of the Rehabilitation Act of 1973 (prohibiting disability discrimination), Title IX of the Education Amendments of 1972 (prohibiting sex discrimination in

education and training programs), the Age Discrimination Act of 1975 (prohibiting age discrimination in the provision of services), and a variety of program-specific statutes with nondiscrimination requirements.

11.2.3. Programs may target particular groups for services without violating guidelines regarding equal access to services, so long as any member of the particular group - e.g., any senior for a senior services program, any school-age child for a neighborhood-based afterschool program - is able to participate in the program.

11.2.4. The City shall ensure that provisions of Executive Order No. 11246 of September 24, 1965, as amended, regarding Equal Employment Opportunity are carried out on all CDBG funded projects or activities, and that subrecipients agree to and abide by federal (FHEO) and state (CA DFEH) fair housing and equal opportunity requirements for non-discrimination with regard to access to services or housing provided by a subrecipient.

11.2.5. The City will further ensure that provisions of Executive Order 13166, "Improving Access to Services by Persons with Limited English Proficiency," are carried out by subrecipients to improve access to CPD programs and activities by eligible persons with limited English proficiency (LEP).

11.3. Section 109 - Prohibitions against Discrimination

11.3.1. § 570.602

11.3.2. The City and all subrecipients shall adhere to Section 109 of the Act which requires that no person in the United States shall on the grounds of race, color, national origin, religion, or sex be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance made available pursuant to the Act. Section 109 also directs that the prohibitions against discrimination on the basis of age under the Age Discrimination Act and the prohibitions against discrimination on the basis of disability under Section 504 shall apply to programs or activities receiving Federal financial assistance under Title I programs.

11.4. Labor Standards

11.4.1. § 570.603

11.4.2. Whenever CDBG funds in excess of $2,000 are allocated for construction projects (excluding homeowner occupied residential rehabilitation and first-time homebuyer activities), the City, subrecipient and any contractor(s) shall abide by requirements of Davis Bacon and Related Acts (DBRA) for prevailing wages and of Section 3 economic opportunities for low and very low-income persons. The City shall provide appropriate guidance to both subrecipient and contractor regarding DBRA

Draft

requirements, including wage determinations, and Section 3 requirements as applicable to all CDBG-funded projects.

11.4.3. Labor Standards Enforcement

11.4.3.1. The City of Modesto Community Development Division has developed Federal Labor Standards Enforcement Guidelines. These guidelines will be provided to the respective City Department, subrecipient, or contractor responsible for contract oversight. The Federal Labor Standards Enforcement Guidelines will be enforced throughout the implementation of any applicable HUD funded activities by City of Modesto Community Development Division staff.

11.5. Environmental Review

11.5.1. 24 CFR part 58 § 570.605 § 570.604

11.5.1.1. The environmental review procedures set forth at 24 CFR part 58 must be completed for each activity (or project as defined in 24 CFR part 58), as applicable. Contracts will not be executed with subrecipients and expenditures for City-managed projects will not be approved until environmental review is complete. State (CEQA) environmental regulations requirements will also be considered. Environmental review forms and documents must be signed by the appropriate staff preparing the environmental review and the Certifying Officer.

11.5.1.2. The City will ensure that all *Finding of No Significant Impact* (FONSI) and *Request for Release of Funds* (RROF) requirements are completed for capital improvement projects and housing rehabilitation projects prior to initiation of project activities.

11.6. Citizen Participation

11.6.1. Throughout the implementation of HUD grant programs, the City of Modesto will comply with all Citizen Participation plan requirements to ensure proper public noticing, citizen participation, and public hearings are conducted. The City of Modesto's Citizen Participation Plan may be found at https://www.modestogov.com/1848/Publications-Reports.

11.7. Relocation

11.7.1. §570.606

11.7.1.1. In the event of any temporary or permanent relocation of residents or businesses as a result of CDBG-funded activity, the City will follow § 570.606 - Displacement, relocation, acquisition, and replacement of

housing as applicable and/or its Relocation Plan as set forth in the Citizen Participation Plan. The Plan shall be updated as needed to adhere to HUD Handbook 1378, *Real Estate Acquisition and Relocation Policy and Guidance.*

11.8. ADA Requirements

11.8.1. The City will abide by HUD regulations in Section 504, HUD's implementation of the American with Disabilities Act, to ensure that no qualified individual with a disability should, only by reason of his or her disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving CDBG funds. The City will include monitoring for Section 504 compliance as part of the annual monitoring of HUD Entitlement funded programs/projects. Monitoring will include inspection of facilities in which CDBG-funded program are offered to ensure that the facilities are accessible to persons with disabilities.

11.9. Financial Management

11.9.1. Subrecipients will be paid on a reimbursement basis upon receipt of a Request for Funds reimbursement form with all supporting documentation.

11.9.2. Reimbursement of funds to contractors for capital projects will be paid directly to the contractor or vendor.

11.9.3. Reimbursement payments will be made only upon presentation of invoices from the contractor or vendor and approved for payment by the Community Development Program Staff responsible for Labor Standards review.

11.9.4. Final payments to subrecipients will be made only upon submission of final program reports that document the achievement of program goals and satisfactory completion of the CDBG-funded activity.

11.9.5. Each request for payment must have adequate documentation for the costs incurred such as payroll records, purchase orders, copies of canceled checks, timesheets reflecting time spent directly on CDBG activities, etc. Requests must be only for costs directly related to the approved activity and included in the approved budget attached to the contract.

11.9.6. Subrecipients may not use CDBG funds for general administrative costs or "overhead" costs, unless the subrecipient has established a cost allocation for such costs, applicable to all subrecipient activities regardless of funding source.

11.9.7. Subrecipients will be required to submit requests for reimbursement on a quarterly basis, unless otherwise approved by Community Development Division staff.

11.9.8. The City will not request CDBG funds in advance or as "float" funds from the U.S. Treasury.

11.10. HMIS Participation

11.10.1. CDBG/ESG-funded projects designed to assist persons experiencing homelessness or designed to prevent homelessness are required to participate in the Homeless Management Information System (HMIS) of the Stanislaus County Continuum of Care (CoC) and regularly attend CoC meetings and participate in CoC related matters. Furthermore, subrecipients are required to execute an HMIS Data Sharing Agreement to share HMIS Universal Data Elements to more effectively utilize and enhance HMIS data quality.

11.11. CDBG Sponsored Identification Requirement

11.11.1. Sub-recipients and subcontractors receiving CDBG funds from the City of Modesto, shall ensure that all CDBG-funded programs and activities are clearly identified to participants and the public as those of the CDBG program, and that these programs and activities do not appear to be an extension of the programs and activities of any private organization or public institution. To comply with this requirement, a notification to be worded as follows shall be clearly posted or otherwise displayed: "This project is funded in whole or in part with Community Development Block Grant (CDBG) Program funds provided by the U.S. Department of Housing and Urban Development (HUD).

11.12. Section 3 Compliance

11.12.1. The requirements for Section 3 of the Housing and Urban Development Act of 1968, as amended (Section 3) applies to capital projects and housing development projects that exceed $200,000 in HUD funding. Subcontractors receiving an excess of $100,000 from projects required to comply with Section 3 shall also be required to comply with Section 3 requirements. These requirements are listed in the CDBG Agreement.

12. Monitoring of Subrecipients

12.1. The City of Modesto (the recipient) and its subrecipients must have written policies and procedures to ensure that CDBG, HOME, and ESG funds are used in accordance with HUD requirements and sufficient records to enable HUD, and the recipient to determine whether

ESG requirements are being met. [24 CFR 576.500(a)]

12.2. As the lead agency for HUD Entitlement funds, the City of Modesto will monitor all subrecipients on a regular basis through written contacts, phone conversations, electronic information transfers, face-to-face monitoring visits (at least once annually), and project file review, pursuant to applicable regulation.

12.3. Monitoring will be conducted to ensure statutory and regulatory requirements are being met and that information submitted to City of Modesto is accurate and complete.

12.4. Monitoring will normally be conducted utilizing a three (3) tiered approach, depending upon the risk involved:

12.4.1. Limited Review

12.4.1.1. A limited review will be conducted of all subrecipients and projects on an annual basis. The timing of this monitoring will be in alignment with an organization's submittal of a Quarterly Performance Report and an Invoice for Payment for expenses incurred against their City grant over the previous 90 days.

12.4.1.2. At least one quarter review will focus on the year-end financial statement or audit, and where applicable, the Single Audit. If the Single Audit contains audit findings or contains a management letter, the subrecipient will be selected for an in depth review. The goal of a Limited Review is to provide clarification to a specific unknown submission that cannot be determined from the subrecipient reports, and to identify areas of technical assistance needed by each subrecipient.

12.4.2. On-Site Monitoring Review

12.4.2.1. An on-site monitoring review will be a site visit to a subrecipient program assisted with HUD funds and will achieve a balance between programmatic and fiscal reviews, and much documentation review can be done prior to the on-site visit. The on-site monitoring includes a tour of the program facilities as appropriate, an explanation of the services provided, discussions with program and administrative staff, and introduction to one or more actual beneficiaries, if possible. As a result of this visit, staff will determine whether an in-depth review is needed for further clarification of one or more issues identified during the on-site visit.

12.4.2.2. ***A Program review*** will focus on the specific subrecipient program activities. Program staff may be asked to define the strategic plans for the related programs and, as applicable, how those plans are used to help clients in those programs.

12.4.2.3. ***A Financial review*** will make the connections between the program budget, expenditures and actual beneficiaries assisted, including evidence of case managers time in client files, reviewing payroll documents for the period clients are reported, determining eligibility of clients based on income documentation in client files, the general relationship between the contents of client files (excluding Attorney Client or HIPAA confidential data) and benefit data reported by the subrecipient on the same clients.

12.4.2.4. ***The number of case files*** to be reviewed will reflect approximately 10% of the total clients served in the program, or more if there appear to be any systemic issues that need to be addressed.

12.4.2.5. ***Invoices*** may be randomly selected for review and traced back from City reimbursement to the original organization's advance expenditure and client assisted (if appropriate). For example, exact dollars billed for housing accessibility modifications can be traced directly to one client. Conversely, a different review model is required when dollars billed provided case management for multiple homeless individuals. It is expected that staff will review original invoices, cancelled checks, and other such documentation evidencing the expenditure, the relationship to the CDBG program objective, the appropriate proportion of CDBG expenditure in comparison to other funding, and accounting receipt of the federal grant funds.

12.4.3. <u>In-Depth Review</u>

12.4.4. An in-depth review will be a concentrated and focused review around a particular activity or program area. This will typically be a concentrated review of a known high-risk area or critical function, such as but not limited to:

12.4.4.1.1. Financial review for expenditures for ineligible activities,

12.4.4.1.2. Financial review for expenditures that cannot be traced through supporting documentation,

12.4.4.1.3. A program which requires donations as a condition of receiving service,

12.4.4.1.4. Management practices in affordable housing,

12.4.4.1.5. Section 504 and ADA compliance reviews upon receipt of a complaint from a person with disabilities,

12.4.4.1.6. A fair housing complaint from a home seeker treated differently while trying to obtain housing from the subrecipient,

12.4.4.1.7. Denial of services for no valid reason, or

12.4.4.1.8. Failure to meet prevailing wage requirements in construction activities subject to Davis Bacon, etc.

12.5. Administrative Process for Monitoring

12.5.1. Monitoring will be conducted in two phases. File review will generally confirm compliance with reporting requirements, financial submittals, and contract provisions and much of it will be completed prior to the onsite visit. On-site reviews will focus more on the beneficiary documentation and services provided, including quantitative performance outcomes to local and federal objectives, and financial processes and documentation only available at the program site.

12.5.2. Staff will use the risk analysis criteria identified in Section 12.4 to determine the type of monitoring approach for each subrecipient. Upon the arrangement of mutual date and time with the subrecipient, staff will send letters at least two (2) weeks in advance of the date the monitoring is to be held. The monitoring policies and checklist may be provided to the subrecipient and the letter may emphasize any specific areas of compliance to be reviewed and how files will be selected for review, as applicable.

12.5.3. At the conclusion of the monitoring visit, staff will send each subrecipient written documentation of the site visit, summarizing what was reviewed, and indicating any findings of regulatory non-compliance or concerns of program weaknesses. Additionally, staff will provide technical assistance to correct any deficiencies noted, and will acknowledge the performance level of the program, and whether they will either meet or fall short of contract goals.

12.6. Findings, Concerns & Noncompliance

12.6.1. Findings

12.6.1.1. Where an identified deficiency results in a finding of non-compliance with CDBG/ESG rules, the finding will be communicated to the subrecipient citing the finding/violation, regulatory or statutory requirement not met, and the corrective action with a deadline.

12.6.1.2. The monitoring letter should also provide timelines for response and corrections, as well as actions the City may take if the subrecipient fails to make corrections in a timely manner.

12.6.2. Concerns

12.6.2.1. Monitoring concerns will be brought to the subrecipient's attention. City staff will suggest or recommend actions that the subrecipient may take to address a concern, based on sound management principles or other guidelines. Corrective actions are not ***required*** for concerns; however City staff may offer specific recommendations and/or requests for improvement. Non-responsiveness to these concerns may impact current and future funding recommendations.

12.6.3. Actions for Non-Compliance

12.6.3.1. Subrecipients who are found to be in non-compliance and receive a finding as a result of their monitoring will be provided with technical assistance towards resolution, and actions taken by the City to achieve compliance may include, but not be limited to, withholding further disbursements of CDBG funds until satisfactory compliance with applicable regulations are achieved.

Draft

12.6.3.2. City staff will offer technical assistance to subrecipients when monitoring indicates less than complete compliance with CDBG regulations or contract requirements. Such assistance may include, but is not limited to, providing applicable copies of Office of Management and Budget (OMB) circulars, in particular OMB Circular No. A-122 *Cost Principles for Nonprofit Organizations.* In addition, the latest edition of *Playing by the Rules* guidance for CDBG subrecipients may be provided.

13. CDBG Timeliness

13.1. Entitlement jurisdictions that receive CDBG funds, such as the City of Modesto, are required to use CDBG funds in a timely manner. Per 24 CFR 570.902, the HUD standard requires that entitlement jurisdictions not have more than 1.5 of its annual grant in its line of credit 60 days prior to the close of the program year. That date is April 30th for the City of Modesto.

13.2. The penalty for noncompliance may include sanctions, such as the loss of future CDBG funding. As such, CDBG funds are subject to reprogramming by the City if a City Project or

sub-recipient activity is no longer feasible and/or there is lack of activity and expenses within the first six months of the date of the allocation.

14. Playing by the Rules Handbook

14.1. Sub-recipients receiving CDBG funds shall adhere to all other requirements set forth in the Playing by Rules Handbook, as provided through the City of Modesto's CDBG Program: https://www.hudexchange.info/resource/687/playing-by-the-rules-a-handbook-for-cdbg-subrecipients-on-administrative-systems/

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-166

RESOLUTION APPROVING THE RENEWAL OF THE MICROSOFT ENTERPRISE AGREEMENT (MSEA) FOR THE MICROSOFT ENTERPRISE PRODUCTS THROUGH THE COUNTY OF RIVERSIDE COOPERATIVE AGREEMENT NO. RIVCO-20800-009-12/19 WITH INSIGHT PUBLIC SECTOR FOR AN ESTIMATED COST OF $80,000 ANNUALLY OR $240,000 OVER THREE YEARS, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE TO SIGN THE AGREEMENT

WHEREAS, the City of Modesto has standardized on Microsoft products for its desktop, email, server operating systems and office applications, and

WHEREAS, the Microsoft Enterprise Agreement is a comprehensive volume licensing program that offers substantial cost savings over standard license pricing and,

WHEREAS, the Microsoft Enterprise Agreement requires renewal and,

WHEREAS, the County of Riverside has completed a recent formal Request for Quotation process for Microsoft Enterprise Agreement licensing and selected Insight Public Sector as the company with the most responsive and responsible bid and,

WHEREAS, the County of Riverside Cooperative Agreement (No. RIVCO-20800-009-12/19) is intended to be available and leveraged by government agencies throughout the State of California as a cooperative agreement and,

WHEREAS, based on the availability of the cooperative agreement , staff finds that the justification meets the City's purchase criteria as identified under the Modesto Municipal Code 8-3.202(h) and

WHEREAS, on February 28, 2017, the Council approved Resolution No. 2017-86 implementing a spending freeze in order to maintain fiscal sustainability of the City. As allowed by this resolution, the City Manager's Office approved an exception to this

freeze for this procurement. Justification for this exception is based upon the City's use of Microsoft products to conduct business. n

WHEREAS, funds are budgeted in Fiscal Year 2016-17, in Appropriation Unit: 5230-17810-53100 (Information Technology Fund).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the renewal of the Microsoft Enterprise Agreement by accessing the terms of the Riverside County cooperative agreement with Insight Public Sector, Inc. Tempe, AZ, for an estimated cost of $240,000;

BE IT FURTHER RESOLVED that the Acting City Manager or his designee is authorized to sign the agreement.

BE IT FURTHER RESOLVED that the Finance Director or her designee is authorized to issue a purchase order.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-167

RESOLUTION APPROVING THE PURCHASE OF AN UPGRADE TO THE RECORDS MANAGEMENT SYSTEM AT THE MODESTO POLICE DEPARTMENT FROM TRITECH SOFTWARE SOLUTIONS, SAN DIEGO, CA, AND AUTHORIZING THE ACTING CITY MANAGER OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT FOR A ONE-YEAR TERM, FOR A TOTAL OF $582,202

WHEREAS, the Modesto Police Department's current Records Management System, called IQ/RMS, has limited in-house functionality, has no viable in-field functionality for patrol personnel, and creates redundant steps for personnel to create and process police reports, and

WHEREAS, the current system is not Windows 10 compatible, and

WHEREAS, a multi-disciplinary team consisting of sworn and non-sworn Modesto Police Department and Information Technology staff was formed to research and provide a recommendation for a replacement RMS product, and

WHEREAS, staff researched various RMS products and vendors, and determined the viability of 3rd party solutions in relation to their price and integration complexity was not a cost effective solution for the Department, and

WHEREAS, the team found the direct replacement of the current IQ/RMS system, Inform RMS, a system upgrade to the existing product, would immediately improve operational efficiency and lend ample opportunities for further enhancements to the Departments processes and how it distributes information, and

WHEREAS, Modesto Municipal Code section 8-3.204(c) is available where the Purchasing Manager, in his/her discretion, determines that calling for bids on a competitive basis is undesirable due to pressing (exigent) circumstances or that a process

other than the usual formal bid procedure set forth in MMC Section 8-3.203 will result in procurement for the City at the lowest possible cost commensurate with desired quality, and

WHEREAS, in this case, the Purchasing Manager has approved the purchase pursuant to Modesto Municipal Code section 8-3.204(c) because Inform RMS is the direct replacement to the IQ/RMS system, and is a system upgrade to an existing product used at the Police Department, and

WHEREAS, the current vendor, TriTech Software Solutions, in an effort to retain the Modesto Police Department as a customer, offered an upgrade credit of nearly $366,000, and

WHEREAS, the Chief Information Officer was involved in the overall selection process and approved of staff's recommendation to purchase the Inform RMS product.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the purchase of an upgrade to the Records Management System at the Modesto Police Department from TriTech Software Solutions, San Diego, CA.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the one-year agreement, in a form approved by the City Attorney, in the amount of $582,202.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-168

RESOLUTION AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO AMEND THE FISCAL YEAR 2016/2017 OPERATING AND CAPITAL IMPROVEMENT BUDGETS TO APPROPRIATE EXPENDITURES OF APPROXIMATELY $582,202 FOR THE MODESTO POLICE DEPARTMENT'S PURCHASE OF AN UPGRADE TO THE RECORDS MANAGEMENT SYSTEM

WHEREAS, the Modesto Police Department's current Records Management System, called IQ/RMS, has limited in-house functionality, has no viable in-field functionality for patrol personnel, and creates redundant steps for personnel to create and process police reports, as well as not being Windows 10 compatible, and

WHEREAS, a multi-disciplinary team consisting of sworn and non-sworn Modesto Police Department and Information Technology staff was formed to research and provide a recommendation for a replacement RMS product, and

WHEREAS, the team found the direct replacement of the current IQ/RMS system, Inform RMS, a system upgrade to the existing product, would immediately improve operational efficiency and lend ample opportunities for further enhancements to the Department's processes and how it distributes information, and

WHEREAS, the current vendor, TriTech Software Solutions, in an effort to retain the Modesto Police Department as a customer, offered an upgrade credit of nearly $366,000, and

WHEREAS, the expenses for the initial purchase of the Inform RMS upgrade ($582,202) will come from 2015-16 State Law Enforcement Supplemental Funding ($210,038); MPD Asset Forfeiture Funds ($180,000); and existing appropriations in the Police Department's Operating Budget for FY2016-17 in cost center 19210 – 53505 –

Intergovernmental Services – Other ($82,763) and cost center 19320-57005 – Information Technology Equipment >$5k ($109,401) for a total of $192,164 funded from the General Fund, and

WHEREAS, included in the agreement is an annual maintenance fee for one year for costs of approximately $72,371, and each additional year will be incorporated into the Police Department's annual budget.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the Fiscal Year 2016/2017 Operating and Capital Improvement Budgets to appropriate expenditures for the first year of approximately $582,202 for the Modesto Police Department's purchase of an upgrade to the Records Management System.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to amend the Fiscal Year 2016/2017 Operating and Capital Improvement Budgets in conformance with this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-169

Print

RESOLUTION APPROVING AN AGREEMENT WITH PROVOST & PRITCHARD CONSULTING GROUP, INC., MODESTO, CA, FOR DESIGN SERVICES FOR THE STRENGTHEN AND REPLACE LA LOMA NEIGHBORHOOD – EL VISTA AVENUE TO RIVERSIDE DRIVE PHASE 1 PROJECT, IN AN AMOUNT NOT TO EXCEED $97,918 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS $9,792 FOR ADDITIONAL SERVICES (IF NEEDED), FOR A MAXIMUM TOTAL AMOUNT OF $107,710, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, this project will replace and upgrade deficient water mains, associated valves, and fire hydrants to improve system reliability, flows and pressure, and

WHEREAS, the project area is bounded by Encina Avenue on the north, Trask Lane on the east, El Vista Avenue to the west and Yosemite Boulevard to the south, and

WHEREAS, existing water mains in the project area are aged, undersized steel mains, which are prone to leaking and low pressure, and

WHEREAS, in accordance with Administrative Directive 3.1, Selection Procedures for Professional Consultants Who Provide Architectural and Engineering Services for Capital Projects, a Request for Proposal (RFP) was sent to four pre-qualified local consultants for Civil Engineering Services for Capital Improvement Program Projects, and

WHEREAS, on March 8, 2017, staff received and distributed three proposals to a selection committee consisting of Utilities engineering staff, and

WHEREAS, the selection committee evaluated the proposals and determined Provost & Pritchard Consulting Group, Inc. (P&P), to be the most qualified and responsive, and

WHEREAS, P&P's sealed cost proposal was opened after the selection ranking had been finalized, and

WHEREAS, P&P's proposal cost and scope were reviewed and determined to be reasonable to provide design services, and

WHEREAS, the scope of services to be provided under the agreement includes: 1) Project Management; 2) Meetings with City & Caltrans staff; 3) Topographic Survey; and 4) Preparation of Plans, Specifications and Preliminary Cost Estimates, and

WHEREAS, the design services for Strengthen and Replace La Loma Neighborhood – El Vista Avenue to Riverside Drive Phase 1 Project falls within the scope of services of P&P's proposal, and

WHEREAS, on February 28, 2017, by Resolution No. 2017-86, Council approved implementing a spending freeze in order to maintain fiscal sustainability of the City, and

WHEREAS, as allowed by this resolution, the City Manager's Office approved an exception to this freeze for this procurement, and

WHEREAS, justification for this exception is that the project is already approved and adopted as part of the current FY2016-17 Capital Improvement Program, and is needed to provide safe and reliable water distribution., and

WHEREAS, there are sufficient funds available in Water Fund Reserves for the necessary budget amendment, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, this agreement is for professional services and, therefore, exempt from the bid requirement, and

WHEREAS, however, staff proceeded through a RFP process pursuant to Administrative Directive 3.1, and

WHEREAS, staff recommends approval of the agreement with Provost & Pritchard Consulting Group, Inc. for design services for the Strengthen and Replace La Loma Neighborhood – El Vista Avenue to Riverside Drive Phase 1 Project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with Provost & Pritchard Consulting Group, Inc., Modesto, CA, for design services for the Strengthen and Replace La Loma Neighborhood – El Vista Avenue to Riverside Drive Phase 1 Project, in an amount not to exceed $97,918 for the identified scope of services, plus $9,792 for additional services (if needed), for a maximum total amount of $107,710.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-170

Print

RESOLUTION AMENDING THE FISCAL YEAR 2016-17 CAPITAL IMPROVEMENT PROGRAM BUDGET IN THE AMOUNT OF $115,000 TO BE TRANSFERRED INTO THE PROJECT FROM WATER FUND RESERVES IN ORDER TO FULLY FUND THE DESIGN SERVICES INCLUDING STAFF TIME FOR THE STRENGTHEN AND REPLACE LA LOMA NEIGHBORHOOD – EL VISTA AVENUE TO RIVERSIDE DRIVE PHASE 1 PROJECT

WHEREAS, certain budgetary transactions are necessary in the amount of **$115,000**, in order to fund the consultant agreement plus City staff support for the Strengthen and Replace La Loma Neighborhood – El Vista Avenue to Riverside Drive Phase 1 Project, and

WHEREAS, the Fiscal Year 2016-2017 Capital Improvement Program Budget must be amended as shown in **Exhibit A**, which is incorporated by reference herein.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the amendment of the Fiscal Year 2016-2017 Capital Improvement Program Budget as shown in **Exhibit A, attached** hereto.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

Exhibit A

Due to consultant agreement costs plus staff time being higher than initially budgeted for the project, line item increases/decreases are necessary for CIP Account #100953 "La Loma-El Vista to Riverside", and the total project costs need to be increased by $115,000. This would be done by adjusting Eng/Design/Admin by $115,000.

To fund the above account, $115,000 will be transferred from Water Fund Reserves into CIP Project 100953 for the Strengthen and Replace La Loma Neighborhood – El Vista Avenue to Riverside Drive Phase 1 Project.

RESOLUTION NO. 2017-171

Print

RESOLUTION APPROVING AMENDMENT NO. 6 TO THE KIERNAN BUSINESS PARK SPECIFIC PLAN TO FURTHER DEFINE ALLOWABLE AND CONDITIONAL USES IN THE BUSINESS PARK LAND USE DESIGNATION OF THE SPECIFIC PLAN, PARTICULARLY REGARDING ANCILLARY RETAIL USES

WHEREAS, Government Code Section 65450 et. seq. permits cities and counties to adopt specific plans for the systematic implementation of the General Plan and to provide for a greater level of detail in planning sites or areas of special interest or value, and

WHEREAS, on April 1, 1997, the City Council by Resolution No. 97-159 adopted the Kiernan Business Park Specific Plan, and

WHEREAS, Government Code Section 65453 permits the amendment of specific plans as often as deemed necessary by the legislative body, and

WHEREAS, on November 4, 1997, the City Council by Resolution No. 97-631 adopted Amendment No. 1 to the Kiernan Business Park Specific Plan to add language to allow for changes in utility service providers, and

WHEREAS, on April 7, 1998, the City Council by Resolution No. 98-170 adopted Amendment No. 2 to the Kiernan Business Park Specific Plan to add language to permit indoor theaters in the Regional Commercial Designation within a Planned Development Zone, and

WHEREAS, on August 10, 2004, the City Council by Resolution No. 2004-424 adopted Amendment No. 3 to modify the land use and circulation diagrams and development standards for the Kaiser Medical Center site, to revise the planned street

system in the future business park, and to incorporate design standards into the Specific Plan, and

WHEREAS, on September 1, 2009, the City Council by Resolution No. 2009-420 adopted Amendment No. 4 to re-designate 39 acres located on the east side of Dale Road between Kiernan Avenue and Bangs Avenue from Business Park to Mixed Use and Medium-High Density Residential, to modify the circulation plan, incorporate Mixed Use and Medium-High Density Residential design standards and guidelines, and establish facilities plans for the area bounded by Kiernan Avenue, Dale Road, Bangs Avenue, and American Avenue, and

WHEREAS, on December 15, 2015, the City Council by Resolution No. 2015-499 adopted Amendment No. 5 to amend storm drain provisions and to clarify and simplify land use and development standard regulations, and

WHEREAS, on April 3, 2017, at 6:00 p.m. the Planning Commission held a duly noticed public hearing in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered concerning the proposed specific plan amendment, and

WHEREAS, after said public hearing, the Modesto City Planning Commission by Resolution No. 2017-08, recommended to the City Council approval of the proposed Amendment No. 6 to the Kiernan Business Park Specific Plan to further define allowable and conditional uses in the Business Park land use designation of the Specific Plan, particularly regarding ancillary retail uses, and

WHEREAS, said matter was set for a public hearing of the City Council to be held on May 2. 2017, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which date and time said duly noticed public hearing was held.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that all recitals above are true and correct and incorporated as part of this Resolution.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that it hereby finds and determines as follows:

1. The proposed amendment to the Kiernan Business Park Specific Plan is consistent with the General Plan, because the project site is located within the Business Park (BP) land use designation of the City of Modesto Urban Area General Plan, with land uses as prescribed by the Kiernan Business Park Specific Plan. The Specific Plan amendment clarifies some ambiguity regarding land uses in the BP designation. The clarification will help meet the goal of high quality business and industrial center for the BP designation in conformance to the General Plan.

2. The proposed amendment is consistent with the Kiernan Business Park Specific Plan policies and standards because the clarification to the land uses will define the limits for retail and personal service uses and will preserve predominantly office and light industrial uses in the BP designation. The Specific Plan amendment also allows a gas station with convenience store as a new allowable use along Dale Road because it is an appropriate use serving the employees of the business park.

3. The proposed amendment is compatible with surrounding and existing planned uses because the proposed land use changes provide clarification of uses and not intensification of uses. The Addendum, **attached** to Resolution No. 2017- , prepared for this amendment analyzed the potential noise and traffic impacts of the amendment and concluded that there would be no additional impacts beyond those identified in the Kiernan Business Park Amendment No. 4 EIR.

4. The proposed amendment to will not have a visual impact because the design guidelines that will apply Kiernan Business Park Specific Plan are not being changed.

5. The proposed amendment will not have a significant traffic impact because gas stations with convenience stores being an allowable use will not result in increased trips that would require a traffic study, and would not change the Kiernan Business Park Amendment No. 4 EIR's

conclusions regarding the intensity and location of significant traffic impacts.

6. The proposed amendment will not impact infrastructure or financing plan because no changes are proposed affecting either plan.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Kiernan Business Park Specific Plan is hereby amended to further define allowable and conditional uses in the Business Park land use designation of the Specific Plan, particularly regarding ancillary retail uses, as shown on **Exhibit "A" attached** hereto and incorporated herein by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of May, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Kenoyer, Madrigal, Ridenour, Zoslocki

WRITTEN CHECKLIST

EA/C&ED No. 2017-08

I. Purpose

This written checklist is prepared pursuant to CEQA Guidelines Section 15164, which provides for a lead agency or responsible agency to prepare an addendum to a previously certified EIR if some changes or additions are necessary but none of the conditions described in Section 15162 calling for the preparation of a subsequent EIR have occurred.

II. EIR Information

Program Name: Kiernan Business Park Specific Plan Amendment #4

Program Boundaries: The 153-acre area is bounded on the north by Kiernan Avenue, on the west by Dale Road, on the south by Bangs Avenue, and on the east by a line extending south from American Avenue and parallel to Dale Road

Program Description: This program includes the following components, as listed on page II.2 of the EIR:

> Adoption of Kiernan Business Park Specific Plan amendments. Proposed amendments would amend the Land Use Plan Diagram to show the change in land use designation from BP to MU and MHDR; would amend the Circulation Plan Diagram to reflect changes to the planned roads and to show new roads; would amend the Bike Paths Figure to reflect changes to the planned bicycle facilities and to show new bicycle facilities; would amend the Illustrative Public Facilities Diagram to reflect changes to the planned water, storm, and sanitary sewer pipeline alignments and to show new water, storm, and sanitary sewer pipelines; would introduce a Street Cross Section Diagram for Healthcare Way, The Plaza Way, and Chopra Parkway; would amend the text of the Land Use chapter of the Specific Plan to include project-specific Development Standards and Design Guidelines; and would amend the text of the Circulation and Access and Public Facilities chapters of the Specific Plan to reflect the proposed changes.
>
> Adoption of an amendment to the Urban Area General Plan. The proposed amendment would redesignate the 39-acre area proposed to be modified in the Specific Plan of the Kiernan/Carver Comprehensive Planning District (CPD) of the General Plan from BP to MU.
>
> Approval of a Development Agreement, if applicable.
>
> Approval of a Tentative Subdivision Map and/or tentative parcel map, if applicable.
>
> Adoption of a resolution initiating annexation of a 67-acre portion of the project site.
>
> Adoption of a resolution to approve rezoning.
>
> Adoption of a Facilities Master Plan and an Infrastructure Financing Plan.
>
> Formation of a Community Facilities District.
>
> Approval by the Local Agency Formation Commission (LAFCO). LAFCO will review reorganization of the amended Kiernan Business Park Specific Plan, including the

annexation of the 67-acre portion of the 153-acre project site to the City of Modesto and the Modesto Municipal Sanitary Sewer District No. 1, and simultaneously detach this portion of the project site from the Salida Fire Protection District.

Approval by MID. MID must review the proposed storm water drainage system, which proposes discharge to MID Lateral No. 6. Upon acceptance of the proposed storm water drainage system, MID would enter into a Drainage Agreement with the City.

Program Certification Date: September 1, 2009

State Clearinghouse Number: 2007062071

III. Project Information

Project Name: Kiernan Business Park Specific Plan Amendment #6

Project Location: South of Kiernan Avenue, east of Stoddard Road, and west of American Avenue extension.

Project Description: This specific plan amendment further defines the allowable and conditional uses in the Business Park land use designation of the Specific Plan, particularly as regards to ancillary retail uses.

General Plan Designation: Business Park (BP)

Zoning: Specific Plan (SP) as part of the Kiernan Business Park Specific Plan.

Lead Agency: City of Modesto, 1010 Tenth St., Modesto, CA. 95354

Contact Person: Paul Liu, Senior Planner, 209-577-5267

Project Applicant: Jivtesh Gill, 8657 Ranch Road, Tracy, CA 95304

Other Public Agencies whose Approval is Required: None

IV. Determination:

Based on the analysis contained in this document, staff finds that pursuant to Guidelines Sections 15162 the following is true for the proposed project:

1. There are no substantial changes proposed in the project which result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and, therefore, no major revisions to the Kiernan Business Park Specific Plan Amendment #4 EIR are required.

2. No substantial changes have occurred with respect to the circumstances under which the proposed project are undertaken which will result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and, therefore, no major revisions to the Kiernan Business Park Specific Plan Amendment #4 EIR are required.

3. There is no new information of substantial importance which was not known and could not have been known with the exercise of reasonable diligence when the Kiernan Business Park Specific Plan Amendment #4 EIR was adopted which shows any of the following:

   a. one or more significant effects which is not discussed in the Kiernan Business Park Specific Plan Amendment #4 EIR, or

   b. significant effects which were previously examined will be substantially more severe than previously shown, or

   c. previously infeasible mitigation measures or alternatives are now feasible and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative, or

   d. mitigation measures or alternatives which are considerably different from those analyzed in the Kiernan Business Park Specific Plan Amendment #4 EIR would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative.

4. The Written Checklist, Environmental Assessment No. EA/C&ED No. 2017-08, provides the substantial evidence to support findings 1-3, above, and the City hereby determines that no further environmental documentation is required for the proposed project.

Paul Lan — 3-13-17

Project Manager — Date

V. Project Evaluation:

The following written Checklist serves to document the evaluation of the site and activity of the proposed project pursuant to CEQA Guidelines Section 15164 to determine whether the environmental effects of the operation were covered in the Kiernan Business Park Specific Plan Amendment #4 Program EIR.

I.	**AESTHETICS.** Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Have a substantial adverse effect on a scenic vista?				X
b.	Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings along a scenic highway?				X
c.	Substantially degrade the existing visual character or quality of the site and its surroundings?				X
d.	Create a new source of substantial light or glare that would adversely affect daytime or nighttime views in the area?				X

Aesthetic and visual impacts are analyzed on pages 21 through 25 of Appendix A, Notice of Preparation and Initial Study of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a.- b. The Kiernan Business Park Specific Plan Amendment #4 EIR found that there are no identified scenic vistas or scenic resources on or within the vicinity of the project site.

c. The Kiernan Business Park Specific Plan Amendment #4 EIR found that the development within the Specific Plan area would have a less-than-significant impact on the visual character of the area.

d. Future development within the project area would create new sources of nighttime light. The Design Guidelines of the Kiernan Business Park Specific Plan would require measures such as shielding and landscaping to reduce the impact to a less-than-significant level.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Aesthetic impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new or additional mitigation measures or alternatives are required.

II.	**AGRICULTURAL RESOURCES.** In determining whether impacts on agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Department of Conservation. Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?				X
b.	Conflict with existing zoning for agricultural use or conflict with a Williamson Act contract?				X
c.	Involve other changes in the existing environment that, due to their location or nature, could result in conversion of Farmland to non-agricultural use?				X

Impacts on agricultural resources are analyzed on pages IV.B.6 through IV.B.10 of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a. The Kiernan Business Park Specific Plan Amendment #4 EIR found that land designated as Prime Farmland would be lost as a result of development in the project area. This impact was determined to be significant and unavoidable. The City of Modesto adopted a statement of overriding consideration for this impact. A mitigation measure was provided but would not mitigate the loss of Prime Farmland to less-than-significant level. The mitigation measure states that prior to development, the City Council would consider a farmland mitigation program for the loss of prime farmland. On April 9, 2013, the City Council, adopted Resolution 2013-129, to consider preparing an agricultural policy that would not apply to land in City limits and exempted Kiernan Business Park from any agricultural mitigation requirements.

b. The project area is zoned SP as part of the Kiernan Business Park Specific Plan. No land in the project areas is zoned for agricultural use.

c. The Kiernan Business Park Specific Plan Amendment #4 EIR identified the conversion of Prime Farmland to new business park, residential, and commercial uses. The Program EIR identified the project would not hinder the continued use of the agricultural lands to the north and east of the Specific Plan area. Therefore, the project's impacts on surrounding ongoing agricultural operations would be considered less-than-significant.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Agricultural Resources impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new or additional mitigation measures or alternatives are required.

III.	**AIR QUALITY.** When available, the significance criteria established by the applicable air quality management or air pollution control district may be relied upon to make the following determinations. Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Conflict with or obstruct implementation of the applicable air quality plan?				X
b.	Violate any air quality standard or contribute substantially to an existing or projected air quality violation?				X
c.	Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is a nonattainment area for an applicable federal or state ambient air quality standard (including releasing emissions that exceed quantitative thresholds for ozone precursors)?				X
d.	Expose sensitive receptors to substantial pollutant concentrations?				X
e.	Create objectionable odors affecting a substantial number of people?				X
f.	Generate greenhouse gas emissions, either directly or indirectly, that may have a significant impact on the environment?				X
g.	Conflict with an applicable plan, policy, or regulation adopted for the purpose of reducing the emissions of greenhouse gases?				X

Impacts on air quality are analyzed on pages IV.D.26 through IV.D.43 of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a.- b. The Kiernan Business Park Specific Plan Amendment #4 EIR found that air pollution from project-related construction and during project operation would contribute to existing violations of ambient air quality standards. The impacts were determined to be significant and unavoidable. Partial mitigation for these impacts is included in the Program EIR, and the City of Modesto adopted a statement of overriding consideration for each impact.

c. The Kiernan Business Park Specific Plan Amendment #4 EIR found that the project would cause a cumulatively considerable net increase of pollutants in the San Joaquin Valley is designated as nonattainment. Project related emissions would cumulatively increase mobile source activity and associated regional emissions of ROG, NOx and PM 10. The impacts were determined to be significant and unavoidable. Partial mitigation for these emissions is included in the Program EIR, and the City of Modesto made a statement of overriding consideration for each impact.

d. The Kiernan Business Park Specific Plan Amendment #4 EIR found that the proposed land uses would not generate substantial Toxic Air Contaminants (TAC) emissions that would affect sensitive receptors. No stationary source of TACs within a one mile radius of the project center has been found to emit TACs at a level that represents an unacceptable increased health risk to the general public.

e. The Kiernan Business Park Specific Plan Amendment #4 EIR considered the BP (Business Park) designation which allows for ancillary small-scale retail uses intended to provide services to employees of the business park. Commercial uses such as gas stations and restaurants could create odors in the vicinity but would not be significant.

f. The Kiernan Business Park Specific Plan Amendment #4 EIR determined the cumulative greenhouse gas emissions may contribute to global warming. With implementation of mitigation measures, the significant impact would be reduced to a less-than-significant level.

g. The Kiernan Business Park Specific Plan Amendment #4 EIR did not identify any conflict with any plan, policy, or regulation adopted for the purpose of reducing the emission of greenhouse gases. The Kiernan Business Park Specific Plan Amendment #4 EIR discusses the federal, state, and local greenhouse gas policies in effect that apply to the proposed project. These include the Air Quality Policies of the Urban Area General Plan analyzed in the Master Environmental Impact Report (MEIR, 2008) that apply to the project. The MEIR identifies policies in effect that have been determined to reduce, avoid or mitigate air quality and climate change environmental impacts within the existing City limits and within the Planned Urbanizing Areas.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Air Quality impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new or additional mitigation measures or alternatives are required.

IV.	**BIOLOGICAL RESOURCES.** Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special-status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?				X
b.	Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?				X
c.	Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marshes, vernal pools, coastal wetlands, etc.) through direct removal, filling, hydrological interruption, or other means?				X
d.	Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?				X
e.	Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?				X
f.	Conflict with the provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan?				X

Impacts on biological resources are analyzed on pages IV.G.9 through IV.G.14 of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a. The Kiernan Business Park Specific Plan Amendment #4 EIR found that the project would result in the loss of occupied Burrowing Owl habitat. Upon development of the project site, mitigation measures are required that would reduce the impacts on this species to less-than-significant levels.

b. The Kiernan Business Park Specific Plan Amendment #4 EIR did not find that any riparian habitat or other designated sensitive natural community present in the project area, and so found that the project would have a less-than-significant impact.

c. The Kiernan Business Park Specific Plan Amendment #4 EIR did not find any protected wetlands on the project site.

d. The Kiernan Business Park Specific Plan Amendment #4 EIR identified migratory birds, including raptors, as nesting in the vicinity. Mitigation measures are provided to reduce the impact to less-than-significant.

e.-f. The Kiernan Business Park Specific Plan Amendment #4 EIR found no local biological resource protection policies, ordinances, habitat conservation plans, or natural community conservation plans that apply to the project area.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Biological Resources impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new or additional mitigation measures or alternatives are required.

V.	**CULTURAL RESOURCES.** Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Cause a substantial adverse change in the significance of a historical resource as defined in Section 15064.5?				X
b.	Cause a substantial adverse change in the significance of an archaeological resource pursuant to Section 15064.5?				X
c.	Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?				X
d.	Disturb any human remains, including those interred outside of formal cemeteries?				X

Cultural resources impacts are analyzed on pages 36 through 41 of Appendix A, Notice of Preparation and Initial Study of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a.- d. The Kiernan Business Park Specific Plan Amendment #4 EIR concluded that there are no known historic, archaeological, or paleontological resources in the areas of the proposed Project. However, the presence of these cultural resources cannot be conclusively ruled

out. Upon development, implementation of General Plan policies would ensure that potential cultural impacts would be less-than-significant.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Cultural Resources impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new mitigation measures or alternatives are required.

VI.	**GEOLOGY AND SOILS.** Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving:				
	Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42.				X
	Strong seismic groundshaking?				X
	Seismic-related ground failure, including liquefaction?				X
	Landslides?				X
b.	Result in substantial soil erosion or the loss of topsoil?				X
c.	Be located on a geologic unit or soil that is unstable or that would become unstable as a result of the project and potentially result in an onsite or offsite landslide, lateral spreading, subsidence, liquefaction, or collapse?				X
d.	Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property?				X
e.	Have soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems in areas where sewers are not available for the disposal of wastewater?				X

Impacts associated with geology and soils are analyzed on pages 41 through 44 of Appendix A, Notice of Preparation and Initial Study of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a.- b. The Kiernan Business Park Specific Plan Amendment #4 EIR found that the areas of the project site are not subject to geologic or soil-related hazards that cannot be adequately mitigated through the implementation of existing city regulations, such as the building code. No significant impacts were identified, and no mitigation measures are required.

c.- d. The Kiernan Business Park Specific Plan Amendment #4 EIR concluded that the underlying soil in the project site is not susceptible to liquefaction, landslides, or shrink/swell or expansion potential. No significant impacts were identified, and no mitigation measures are required.

e. The project site would be served by public sewers. Septic tanks or alternative wastewater disposal systems would not be introduced on the project site and existing septic tanks would have to be removed at time of development.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Geology and Soils impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new or additional mitigation measures or alternatives are required.

VII.	**HAZARDS AND HAZARDOUS MATERIALS.** Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?				X
b.	Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?				X
c.	Emit hazardous emissions or involve handling hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?				X
d.	Be located on a site that is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment?				X
e.	Be located within an airport land use plan area or, where such a plan has not been adopted, be within two miles of a public airport or public use airport, and result in a safety hazard for people residing or working in the project area?				X
f.	Be located within the vicinity of a private airstrip and result in a safety hazard for people residing or working in the project area?				X
g.	Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?				X
h.	Expose people or structures to a significant risk of loss, injury, or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands?				X

Impacts associated with hazards and hazardous materials are analyzed on pages IV.F.6 through IV.F.9 of the EIR certified on September 1, 2009

Responses to Checklist Questions

a.– c. The Kiernan Business Park Specific Plan Amendment #4 EIR identified that the project area would not involve the routine transport, use, or disposal of hazardous materials. Construction activities could result in drainage of hazardous materials. These would be mitigated to less-than-significant levels through implementation of the adopted Guidance Manual for New Development Stormwater Quality Control Measures.

d. The Kiernan Business Park Specific Plan Amendment #4 EIR concluded there is the potential of exposing construction workers to hazardous substance if contaminated soil or ground water is discovered during construction activities. In the event of future

development, mitigation measures are required that would reduce this impact to a less-than-significant level.

e. The project area is located over 7.5 miles from the nearest public airport. There would be no impact. No mitigation is required.

f. The project area is located over 5 miles from the nearest private airport. There would be no impact. No mitigation is required.

g. The Kiernan Business Park Specific Plan Amendment #4 EIR concluded that development of the project area would not interfere with an adopted emergency response plan or emergency evacuation plan. No mitigation is required.

h. The Kiernan Business Park Specific Plan Amendment #4 EIR identified that the surrounding area is largely agricultural or developed. There is no expectation that new development in the project area would expose people or structures to wildland fires. No mitigation is required.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Hazards and Hazardous Materials impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new or additional mitigation measures or alternatives are required.

VIII.	**HYDROLOGY AND WATER QUALITY.** Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Violate any water quality standards or waste discharge requirements?				X
b.	Substantially deplete groundwater supplies or interfere substantially with groundwater recharge, resulting in a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level that would not support existing land uses or planned uses for which permits have been granted)?				X
c.	Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner that would result in substantial erosion or siltation onsite or offsite?				X
d.	Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner that would result in flooding onsite or offsite?				X
e.	Create or contribute runoff water that would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff?				X
f.	Otherwise substantially degrade water quality?				X
g.	Place housing within a 100-year flood hazard area, as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?				X

h.	Place within a 100-year flood hazard area structures that would impede or redirect floodflows?				X
i.	Expose people or structures to a significant risk of loss, injury, or death involving flooding, including flooding as a result of the failure of a levee or dam?				X
j.	Contribute to inundation by seiche, tsunami, or mudflow?				X

Impacts associated with hydrology are analyzed on pages IV.H10 through IV.H.17 of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a. The Kiernan Business Park Specific Plan Amendment #4 EIR identified the potential for pollutants from construction sites or from future land uses that could be transported to surface waters and groundwater potentially reducing the water quality. Upon future development, mitigation measures are required that would reduce the impacts to a less-than-significant level.

b. The Kiernan Business Park Specific Plan Amendment #4 EIR found that the construction and operation of the required detention basin system is expected to offset the minor losses of groundwater recharge associated with the increased impervious coverage proposed by the project. Amendment #5 of the Specific Plan, adopted by the Modesto City Council on December 15, 2015 by Resolution No. 2015-499, replaced the detention basin system originally required in the Specific Plan with on-site treatment for individual properties and a combination of vegetative swales and underground storage/percolation facilities within the streets. On-site storm water treatment in accordance to the new system, which is required by the State and would increase groundwater recharge, is to be implemented at the project site.

c.– e. The Kiernan Business Park Specific Plan Amendment #4 EIR found that development could substantially alter the existing drainage pattern of the area; however, because there are mitigation measures requiring the project to incorporate an urban storm drain system, the erosion or flooding impacts will be less-than-significant.

f. The Kiernan Business Park Specific Plan Amendment #4 EIR found that existing water supply wells, if not properly managed or decommissioned, could be damaged during construction and cause water quality degradation. For any future development, a mitigation measure is required that would reduce the impact to a less-than-significant level.

g.– i. The project site is not located within any 100-year flood hazard area. The nearest river is the Stanislaus River, approximately 2 miles to the north. There would be no additional impact, and no mitigation is required.

j. The project site is located in a flat, inland area not susceptible to seiche, tsunami, or mudflow. There would be no impact. No mitigation is required.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Hydrology and Water Quality impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new or additional mitigation measures or alternatives are required.

IX.	**LAND USE AND PLANNING.** Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Physically divide an established community?				X
b.	Conflict with any applicable land use plan, policy, or regulation of an agency with jurisdiction over the project (including, but not limited to, a general plan, specific plan, local coastal program, or zoning ordinance) adopted for the purpose of avoiding or mitigating an environmental effect?				X
c.	Conflict with any applicable habitat conservation plan or natural community conservation plan?				X

Impacts associated with land use and planning are analyzed on pages IV.A.9 through IV.A.11 of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a.- b. The proposed project would not result in any physical changes to the environment beyond those identified in the Kiernan Business Park Specific Plan Amendment #4 EIR. The City has not adopted plans and policies as thresholds for significant impacts. There would be no impact and no mitigation is required. The current BP designation allows ancillary small-scale retail and service uses intended to serve the employees in the business park but lacks specifics on the amount. The proposed project quantifies ancillary retail and service uses, allows gas station with convenience store on a property located along Dale Road, and clarifies business services and wholesale and distribution uses. These changes mostly provide clarification instead of intensification of land uses in the BP designation.

c. There are no known habitat conservation plans or natural community conservation plans associated with this project. There would be no impact. No mitigation is required.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Land Use and Planning impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new mitigation measures or alternatives are required.

X.	**MINERAL RESOURCES.** Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?				X
b.	Result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan?				X

Impacts associated with mineral resources are analyzed on pages 52 through 53 of Appendix A, Notice of Preparation and Initial Study of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a.- b. No known mineral resources or important recovery sites are located in the project area.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Mineral Resources impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new or additional mitigation measures or alternatives are required.

XI.	**NOISE.** Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Expose persons to or generate noise levels in excess of standards established in a local general plan or noise ordinance or applicable standards of other agencies?				X
b.	Expose persons to or generate excessive groundborne vibration or groundborne noise levels?				X
c.	Result in a substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?				X
d.	Result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?				X
e.	Be located within an airport land use plan area, or, where such a plan has not been adopted, within two miles of a public airport or public use airport and expose people residing or working in the project area to excessive noise levels?				X
f.	Be located in the vicinity of a private airstrip and expose people residing or working in the project area to excessive noise levels?				X

Impacts associated with noise are analyzed on pages IV.E.12 through IV.E.23 of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a.- c. The Kiernan Business Park Specific Plan Amendment #4 EIR identified that project related traffic would not cause substantial noise levels for sensitive receptors in the project vicinity. However, project related traffic could cause substantial noise levels for sensitive receptors within the project area. New stationary and non-stationary sources could generate noise levels incompatible with ordinances or goals for the surroundings. Any future development would be required to implement mitigation measures that would reduce the noise impacts to a less-than-significant level.

d. The Kiernan Business Park Specific Plan Amendment #4 EIR found that construction of the project site could result in a substantial temporary increase in ambient noise levels. Mitigation measures are required for future development that would reduce the noise impacts to a less-than-significant level

e.- f. The Kiernan Business Park Specific Plan Amendment #4 EIR found that project area is not located in an airport land use plan area or within 2 miles of a public airport. The nearest private airport is about 5 miles away.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Noise impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new or additional mitigation measures or alternatives are required.

XII.	**POPULATION AND HOUSING.** Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Induce substantial population growth in an area, either directly (e.g., by proposing new homes and businesses) or indirectly (e.g., through extension of roads or other infrastructure)?				X
b.	Displace a substantial number of existing housing units, necessitating the construction of replacement housing elsewhere?				X
c.	Displace a substantial number of people, necessitating the construction of replacement housing elsewhere?				X

Impacts associated with population and housing are analyzed on pages 56 through 58 of Appendix A, Notice of Preparation and Initial Study of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a. The Kiernan Business Park Specific Plan Amendment #4 EIR concluded that the development of the project site would induce population growth but at a less-than-significant level.

b.- c. The Kiernan Business Park Specific Plan Amendment #4 EIR identified 13 home sites that would be demolished throughout the amendment area. The amount of persons displaced overall was determined to be less-than-significant by the Program EIR, and therefore no mitigation is required.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Population and Housing impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new mitigation measures or alternatives are required.

XIII.	**PUBLIC SERVICES.** Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities or a need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times, or other performance objectives for any of the following public				

services:				
1. Fire protection?				X
2. Police protection?				X
3. Schools?				X
4. Parks?				X
5. Other public facilities?				X

Impacts on public services are analyzed on pages IV.I.5 through IV.I.20 of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a-1. The nearest City of Modesto Fire Station to the project site is Station No. 11, located approximately two miles away at Carver Road and Pelandale Avenue. The Kiernan Business Park Specific Plan Amendment #4 EIR found that the existing personnel and apparatus at Station No. 11 would be adequate to meet the need of increased demand for future commercial and medium-high density residential development. Therefore, the physical impact would be at a less-than-significant level. No mitigation is required.

a-2. The Kiernan Business Park Specific Plan Amendment #4 Program EIR found that development of the area would result in an increase of MPD officer hours; however, long-range financing strategies are in place that would allow the City to allocate the necessary funds to extend those police services to the project site. Therefore, the physical impact would be at a less-than-significant level. No mitigation is required.

a-3-5. The Kiernan Business Park Specific Plan Amendment #4 EIR found that development of the project site that would include residential uses would result in increased use and demand on school and park facilities but not at a significant level. There would be no impact. No mitigation is required.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Public Services impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new or additional mitigation measures or alternatives are required.

XIV. RECREATION. Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a. Increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?				X
b. Include recreational facilities or require the construction or expansion of recreational facilities that might have an adverse physical effect on the environment?				X

Impacts associated with recreation are analyzed on pages 61 through 62 of Appendix A, Notice of Preparation and Initial Study of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a.- b. No significant impacts on recreation facilities were identified in the Program EIR.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Recreation impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new or additional mitigation measures or alternatives are required.

XV.	**TRANSPORTATION/TRAFFIC.** Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Cause an increase in traffic that is substantial in relation to the existing traffic load and capacity of the street system (i.e., result in a substantial increase in the number of vehicle trips, the volume-to-capacity ratio on roads, or congestion at intersections)?			X	
b.	Cause, either individually or cumulatively, exceedance of a level-of-service standard established by the county congestion management agency for designated roads or highways?			X	
c.	Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks?				X
d.	Substantially increase hazards because of a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?				X
e.	Result in inadequate emergency access?				X
f.	Result in inadequate parking capacity?				X
g.	Conflict with adopted policies, plans, or programs supporting alternative transportation (e.g., bus turnouts, bicycle racks)?				X

Impacts on transportation and traffic are analyzed on pages IV.C.37 through IV.C.85 of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a.- b. The Kiernan Business Park Specific Plan Amendment #4 EIR found that development of the project site would result in significant impacts at study intersections and roadway segments. There would also be significant cumulative impacts on road way segments. Mitigation measures were identified in the Program EIR to reduce some of the traffic impacts to a less-than-significant level. Other traffic impacts were determined to be significant and unavoidable because the mitigation measures were found infeasible. The City of Modesto made a statement of overriding considerations for that impact at the time it certified the EIR.

The proposed amendment would allow gas stations with convenience stores on Business Park-designated parcels fronting on Dale Road. Given the limited number of parcels affected by this amendment (six parcels, some of which have access limitations making it unlikely for a service station to locate on them), it is reasonable to assume the amendment would potentially result in no more than two service stations. If two service stations were to develop as a result of this amendment, this change would result in combined potential maximum net-increase of approximately 80 peak-hour vehicle trips as compared to other uses that could be developed on those parcels (net-increase of 40 peak hour trips per parcel). This net-increase is lower than the threshold of a project that generates 100 or more peak hour trips that may require a traffic study.

Additionally, based on a review of the analysis results presented in the Kiernan Business Park Specific Plan Amendment #4 EIR, this change in potential peak hour trips would not change the overall EIR conclusions regarding the location of significant impacts.

The current specific plan allows ancillary retail and service uses but does not provide any specifics. The proposed amendment would define ancillary retail and service uses as being a maximum of 20% or 2,000 square feet per building, whichever is less. This provides needed clarification of what ancillary use means. More retail and service uses may be permitted for properties located along Dale Road with a maximum of 50% or 5,000 square feet per building, whichever is less, but requires a conditional use permit approval. Any necessary traffic review would occur at time of project submittal.

c. Kiernan Business Park Specific Plan Amendment #4 EIR concluded there would not be any change to air traffic patterns or air traffic related safety. There would be no impact. No mitigation is required.

d. The Kiernan Business Park Specific Plan Amendment #4 EIR determined there would not be a substantial increase in hazards due to a design feature. No mitigation is required.

e. The Kiernan Business Park Specific Plan Amendment #4 EIR did not find that development of the project area would result in inadequate emergency access in the Specific Plan area. Therefore, there would be no impact on emergency service access. No mitigation is required.

f. The Kiernan Business Park Specific Plan Amendment #4 EIR did not find that development of the project area would result in inadequate parking capacity. There would be no impact. No mitigation is required.

g. The Kiernan Business Park Specific Plan Amendment #4 includes bicycle paths and lanes. The proposed retail development does not include any changes related to alternative transportation policies, and would have no impact. No mitigation is required.

The proposed project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Transportation and Traffic impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new or additional mitigation measures or alternatives are required.

	XVI. UTILITIES AND SERVICE SYSTEMS. Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Exceed wastewater treatment requirements of the applicable Regional Water Quality Control Board?				X
b.	Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?				X
c.	Require or result in the construction of new stormwater drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?				X

d.	Have sufficient water supplies available to serve the project from existing entitlements and resources, or would new or expanded entitlements be needed?				X
e.	Result in a determination by the wastewater treatment provider that serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?				X
f.	Be served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs?				X
g.	Comply with federal, state, and local statutes and regulations related to solid waste?				X

Impacts on utilities and service systems are analyzed on pages IV.H.10 through IV.H.17, pages IV.J.16 through IV.J.11, and pages IV.K.10 through IV.K.17 of the EIR certified September 1, 2009.

Responses to Checklist Questions

a., e. The Kiernan Business Park Specific Plan Amendment #4 EIR identifies that development of the project area would result in an increased demand for wastewater collection, treatment, and disposal but not at a significant level.

b. The Kiernan Business Park Specific Plan Amendment #4 EIR discusses that new project specific water facility would be needed to maintain adequate water pressure, but would not require new wastewater facilities beyond those facilities already anticipated by the Wastewater Master Plan Update. The impact to water and wastewater facilities are found to be less-than-significant.

c. The Kiernan Business Park Specific Plan Amendment #4 EIR discusses the new storm drainage facilities that will be needed in order to accommodate build out of the project area. The EIR found that, with mitigation, there would be no significant impact on storm drainage facilities.

d. The Kiernan Business Park Specific Plan Amendment #4 EIR found that, based on a Water Supply Assessment, there will be sufficient water supply to serve the project area and the impact on water demand would be less-than-significant. No mitigation is required.

f., g. The Kiernan Business Park Specific Plan Amendment #4 EIR found that the Modesto and Stanislaus County Waste-to-Energy Plant has sufficient capacity to accommodate the project's solid waste disposal needs.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Utility and Services System impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new or additional mitigation measures or alternatives are required.

XVII.	MANDATORY FINDINGS OF SIGNIFICANCE.	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory?				X
b.	Does the project have impacts that are individually limited but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.)				X
c.	Does the project have environmental effects that will cause substantial adverse effects on human beings, either directly or indirectly?				X

Responses to Checklist Questions

a. The proposed Project would not result in significant impacts on the environment over and above those associated with implementation of the Kiernan Business Park Specific Plan Amendment #4, as analyzed in the Program EIR. The proposed Project was contemplated by and is consistent with the Program EIR.

b. The proposed Project would not result in any significant impacts, either on a project or on cumulative level, over and above those associated with implementation of the Kiernan Business Park Specific Plan Amendment #4 and as analyzed in the Program EIR.

c. The proposed Project would not result in any significant impacts affecting humans over and above those associated with implementation of the Kiernan Business Park Specific Plan Amendment #4 and as analyzed in the Program EIR.

V. Mitigation Applied to Project

All development will be subject to the mitigation measures identified in the Program EIR applied where applicable as listed below. No new project-specific mitigation measures are necessary .

Aesthetics Measures: None.

Agricultural Resources Measures: None.

Air Quality Measures: Mitigation Measure D.1 (Page 4 of the Mitigation Monitoring and Reporting Program): The construction plans for each group of buildings shall

incorporate the following recommendations from the District to minimize emissions during construction phases:

1. The project developers shall review Regulation VIII of the SJVAPCD regulations and submit a compliance plan to the City of Modesto prior to commencing any phase of construction. The compliance plan must demonstrate that the current requirements of Regulation VIII will be implemented.

2. Prior to the issuance of construction contracts, the project developers shall perform a review of new technology, as it relates to heavy-duty equipment, to determine what, if any, advances in emissions reduction are available for use. (Information is available at CARB's website http://www.arb.ca.gov/msprog/aftermkt/aftermkt.htm.) Recently, CARB initiated a number of incentive programs to offer funds for retrofitting existing heavy-duty engines in public and private fleets to reduce PM and NOx emissions. CARB has evaluated and certified retrofit systems to be used in PM or NOx incentive programs. (Applicants who plan to participate in any of the CARB's retrofit programs may obtain additional information by viewing the CARB's Diesel Mobile Programs website at http://www.arb.ca.gov/diesel/mobile.htm.) The SJVAPCD should be consulted during this process.

3. Dust suppression shall be implemented on all disturbed areas, including inactive outdoor storage piles, by application of water, chemical stabilizer/suppressant, or covering with a tarp, vegetative ground cover, or other suitable cover.

4. Dust suppression shall be implemented following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles using water or chemical stabilizer/suppressant.

5. Dust suppression shall be implemented on all on-site unpaved roads, and off-site unpaved access roads used during the construction phase, using water or chemical stabilizer/suppressant.

6. All land clearing, grubbing, scraping, excavation, land leveling, grading, cut and fill, and demolition activities shall be effectively controlled of fugitive dust emissions by application of water during the activity or by presoaking.

7. When materials are transported off site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.

8. The project developers shall limit traffic speed on unpaved roads to 15 miles per hour.

9. The project developers shall install sandbags or other control measures to prevent silt runoff to public roadways from sites with a slope greater than one percent.

10. The project developers shall install wheel washers for all exiting trucks, or wash off all trucks and equipment leaving the site, to prevent track-out of soil to public roadways.

11. The project developers shall install windbreaks at windward sides of construction areas, if necessary to prevent wind-blown dust.

12. The project developers shall suspend excavation and grading activity when winds exceed 20 miles per hour.

13. The project developers shall limit the area subject to excavation, grading, and other construction activity at any one time.

14. The project developers shall ensure that the accumulation of mud or dirt (track-out) is expeditiously removed from adjacent public streets if it extends more than 50 feet from the construction site or at least once every 24 hours when construction activities are occurring (the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions).

15. The project developers shall use alternative-fuel construction equipment, where feasible.

16. The project developers shall minimize idling time (e.g., to a 10-minute maximum).

17. The project developers shall limit the hours of operation of heavy-duty equipment and/or the amount of equipment in use to the minimum practical.

18. The project developers shall replace fossil-fueled equipment with electrically driven equivalents (provided they are not run via a portable generator set), where feasible.

19. The project developers shall take steps to curtail construction activity during periods of high ambient pollutant concentrations; this may include reducing construction activity during the peak hour of vehicular traffic on adjacent roadways or ceasing construction activity during days declared as Spare the Air days by the SJVAPCD.

20. The project developers shall manage activity tasks to reduce cumulative short-term impacts.

Biological Resources Measures: Mitigation Measure G.1a (Page 21 of the Mitigation Monitoring and Reporting Program): Implementation of formal CDFG guidelines (Staff Report on Burrowing Owl Mitigation) to avoid and minimize impacts to Burrowing Owls. In conformance with federal and state regulations regarding the protection of raptors, a habitat assessment in accordance with CDFG guidelines for Burrowing Owls should be completed prior to the start of construction. Burrowing Owl habitat on the project site and within a 500-foot (150 m) buffer zone should be assessed. If the habitat assessment concludes that the site and immediate vicinity lack suitable Burrowing Owl habitat, no additional action would be warranted.

However, if suitable habitat is located on, or immediately adjacent to, the site, all Burrowing Owl habitat should be mapped at an appropriate scale, and the following mitigation measures should be implemented:

21. In conformance with federal and state regulations regarding the protection of raptors, a pre-construction survey for Burrowing Owls, in conformance with CDFG guidelines, should be completed no more than 30 days prior to the start of construction within suitable habitat. Three additional surveys should also be completed per CDFG guidelines prior to construction.
22. No Burrowing Owls will be evicted from burrows during the nesting season (February 1 through August 31). Eviction outside the nesting season may be permitted pending evaluation of eviction plans and receipt of formal written approval from the CDFG authorizing the eviction.
23. A 250-foot (76 m) buffer, within which no new activity will be permissible, will be maintained between project activities and nesting Burrowing Owls during the nesting season. This protected area will remain in effect until August 31, or at the CDFG's discretion and based upon monitoring evidence, until the young owls are foraging independently.
24. If accidental take (disturbance, injury, or death of owls) occurs, the CDFG will be notified immediately.

Cultural Resources Measures: Mitigation Measure AH-12 from the City of Modesto Urban Area General Plan MEIR should be applied to the project, as referenced by the Initial Study Environmental Checklist for the Kiernan Business Park FEIR prepared by Turnstone Consulting on June 15, 2007:

25. If archaeological resources are discovered at any time during construction, all activity shall cease, until the site is surveyed by a qualified archeologist. The survey shall include mitigation measures, which shall be implemented before construction resumes.

Geology and Soils Measures: None.

Hazard and Hazardous Materials Measures: Mitigation Measure F.2 (Page 20 of the Mitigation Monitoring and Reporting Program):

26. Conduct Phase 1 Environmental Site Assessments, conduct site investigations, and implement remediation as necessary.

Hydrology and Water Quality Measures: Mitigation Measure H.1 (Page24 of the Mitigation Monitoring and Reporting Program):

27. The project proponent shall prepare an SWPPP for each development project under the Specific Plan (or one master SWPPP for all development) designed to reduce potential impacts to surface water quality through the construction period of all of the project components (whether or not the particular portion of the project disturbs more than 1 acre).The project SWPPP shall include and adequately address all elements in the State General Construction Permit (Waste Discharge Requirements for Discharges of Stormwater Runoff

Associated with Construction Activity, State Water Resources Control Board Order Number 99-08-DWQ).

Land Use and Planning Measures: None.

Mineral Resources Measures: None.

Noise Measures: None.

Population and Housing Measures: None

Public Services Measures: None.

Recreation: None.

Transportation/Traffic Measures: None.

Utility and Service System Measures: None.

Print

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-172

RESOLUTION APPROVING AN ADDENDUM TO THE PREVIOUSLY CERTIFIED KIERNAN BUSINESS PARK SPECIFIC PLAN AMENDMENT NO. 4 PROGRAM EIR (SCH NO. 2007062071) FOR KIERNAN BUSINESS PARK SPECIFIC PLAN AMENDMENT NO. 6 TO FURTHER DEFINE ALLOWABLE AND CONDITIONAL USES IN THE BUSINESS PARK LAND USE DESIGNATION OF THE SPECIFIC PLAN, PARTICULARLY REGARDING ANCILLARY RETAIL USES

WHEREAS, on September 1, 2009, the City Council of the City of Modesto certified the Kiernan Business Park Specific Plan Amendment No. 4 Environmental Impact Report (SCH No. 2007062071) for Amendment No. 4 to the Kiernan Business Park Specific Plan, and

WHEREAS, City of Modesto has proposed Kiernan Business Park Specific Plan Amendment No. 6 to further define allowable and conditional uses in the Business Park land use designation of the Specific Plan, particularly regarding ancillary retail uses, and

WHEREAS, the City of Modesto's Community & Economic Development Department prepared the Addendum to the Kiernan Business Park Specific Plan Amendment No. 4 Program EIR based on Environmental Assessment No. EA/C&ED 2017-08, which concludes that no major revisions to the previously-certified Kiernan Business Park Specific Plan Amendment No. 4 Program EIR (SCH No. 2007062071) are needed as a result of the project, and that, pursuant to Section 15162 and 15164 of the CEQA Guidelines, no new environmental review is required, and

WHEREAS, the Addendum need not be circulated for public review pursuant to Section 15164, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on May 2, 2017, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Addendum with Initial Study prepared for the proposed Kiernan Business Park Specific Plan Amendment No. 6, a copy of which is **attached** hereto as **Exhibit "A"**, and incorporated herein by reference, and based on substantial evidence in the Initial Study makes the following findings:

1. There are no substantial changes proposed in the project which result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and, therefore, no major revisions to the Kiernan Business Park Specific Plan Amendment No. 4 EIR are required.

2. No substantial changes have occurred with respect to the circumstances under which the proposed project are undertaken which will result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and, therefore, no major revisions to the Kiernan Business Park Specific Plan Amendment No. 4 EIR are required.

3. There is no new information of substantial importance which was not known and could not have been known with the exercise of reasonable diligence when the Kiernan Business Park Specific Plan Amendment No. 4 EIR was adopted which shows any of the following:

    a. One or more significant effects which is not discussed in the Kiernan Business Park Specific Plan Amendment No. 4 EIR, or

    b. Significant effects which were previously examined will be substantially more severe than previously shown, or

    c. Previously infeasible mitigation measures or alternatives are now feasible and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative, or

    d. Mitigation measures or alternatives which are considerably different from those analyzed in the Kiernan Business Park Specific Plan Amendment No. 4 EIR would substantially reduce one or more

significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative.

4. The Written Checklist, Environmental Assessment No. EA/C&ED No. 2017-08, provides the substantial evidence to support findings 1-3, above, and the City hereby determines that no further environmental documentation is required for the proposed project.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of approval or determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of May, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Kenoyer, Madrigal, Ridenour, Zoslocki
NOES:	Councilmembers:	None
ABSENT:	Councilmembers:	Grewal, Mayor Brandvold

WRITTEN CHECKLIST

EA/C&ED No. 2017-08

I. Purpose

This written checklist is prepared pursuant to CEQA Guidelines Section 15164, which provides for a lead agency or responsible agency to prepare an addendum to a previously certified EIR if some changes or additions are necessary but none of the conditions described in Section 15162 calling for the preparation of a subsequent EIR have occurred.

II. EIR Information

Program Name: Kiernan Business Park Specific Plan Amendment #4

Program Boundaries: The 153-acre area is bounded on the north by Kiernan Avenue, on the west by Dale Road, on the south by Bangs Avenue, and on the east by a line extending south from American Avenue and parallel to Dale Road

Program Description: This program includes the following components, as listed on page II.2 of the EIR:

> Adoption of Kiernan Business Park Specific Plan amendments. Proposed amendments would amend the Land Use Plan Diagram to show the change in land use designation from BP to MU and MHDR; would amend the Circulation Plan Diagram to reflect changes to the planned roads and to show new roads; would amend the Bike Paths Figure to reflect changes to the planned bicycle facilities and to show new bicycle facilities; would amend the Illustrative Public Facilities Diagram to reflect changes to the planned water, storm, and sanitary sewer pipeline alignments and to show new water, storm, and sanitary sewer pipelines; would introduce a Street Cross Section Diagram for Healthcare Way, The Plaza Way, and Chopra Parkway; would amend the text of the Land Use chapter of the Specific Plan to include project-specific Development Standards and Design Guidelines; and would amend the text of the Circulation and Access and Public Facilities chapters of the Specific Plan to reflect the proposed changes.
>
> Adoption of an amendment to the Urban Area General Plan. The proposed amendment would redesignate the 39-acre area proposed to be modified in the Specific Plan of the Kiernan/Carver Comprehensive Planning District (CPD) of the General Plan from BP to MU.
>
> Approval of a Development Agreement, if applicable.
>
> Approval of a Tentative Subdivision Map and/or tentative parcel map, if applicable.
>
> Adoption of a resolution initiating annexation of a 67-acre portion of the project site.
>
> Adoption of a resolution to approve rezoning.
>
> Adoption of a Facilities Master Plan and an Infrastructure Financing Plan.
>
> Formation of a Community Facilities District.
>
> Approval by the Local Agency Formation Commission (LAFCO). LAFCO will review reorganization of the amended Kiernan Business Park Specific Plan, including the

annexation of the 67-acre portion of the 153-acre project site to the City of Modesto and the Modesto Municipal Sanitary Sewer District No. 1, and simultaneously detach this portion of the project site from the Salida Fire Protection District.

Approval by MID. MID must review the proposed storm water drainage system, which proposes discharge to MID Lateral No. 6. Upon acceptance of the proposed storm water drainage system, MID would enter into a Drainage Agreement with the City.

Program Certification Date: September 1, 2009

State Clearinghouse Number: 2007062071

III. Project Information

Project Name: Kiernan Business Park Specific Plan Amendment #6

Project Location: South of Kiernan Avenue, east of Stoddard Road, and west of American Avenue extension.

Project Description: This specific plan amendment further defines the allowable and conditional uses in the Business Park land use designation of the Specific Plan, particularly as regards to ancillary retail uses.

General Plan Designation: Business Park (BP)

Zoning: Specific Plan (SP) as part of the Kiernan Business Park Specific Plan.

Lead Agency: City of Modesto, 1010 Tenth St., Modesto, CA. 95354

Contact Person: Paul Liu, Senior Planner, 209-577-5267

Project Applicant: Jivtesh Gill, 8657 Ranch Road, Tracy, CA 95304

Other Public Agencies whose Approval is Required: None

IV. Determination:

Based on the analysis contained in this document, staff finds that pursuant to Guidelines Sections 15162 the following is true for the proposed project:

1. There are no substantial changes proposed in the project which result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and, therefore, no major revisions to the Kiernan Business Park Specific Plan Amendment #4 EIR are required.

2. No substantial changes have occurred with respect to the circumstances under which the proposed project are undertaken which will result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and, therefore, no major revisions to the Kiernan Business Park Specific Plan Amendment #4 EIR are required.

3. There is no new information of substantial importance which was not known and could not have been known with the exercise of reasonable diligence when the Kiernan Business Park Specific Plan Amendment #4 EIR was adopted which shows any of the following:

   a. one or more significant effects which is not discussed in the Kiernan Business Park Specific Plan Amendment #4 EIR, or

   b. significant effects which were previously examined will be substantially more severe than previously shown, or

   c. previously infeasible mitigation measures or alternatives are now feasible and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative, or

   d. mitigation measures or alternatives which are considerably different from those analyzed in the Kiernan Business Park Specific Plan Amendment #4 EIR would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative.

4. The Written Checklist, Environmental Assessment No. EA/C&ED No. 2017-08, provides the substantial evidence to support findings 1-3, above, and the City hereby determines that no further environmental documentation is required for the proposed project.

Paul Lan — Project Manager

3-13-17 — Date

V. Project Evaluation:

The following written Checklist serves to document the evaluation of the site and activity of the proposed project pursuant to CEQA Guidelines Section 15164 to determine whether the environmental effects of the operation were covered in the Kiernan Business Park Specific Plan Amendment #4 Program EIR.

I.	**AESTHETICS.** Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Have a substantial adverse effect on a scenic vista?				X
b.	Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings along a scenic highway?				X
c.	Substantially degrade the existing visual character or quality of the site and its surroundings?				X
d.	Create a new source of substantial light or glare that would adversely affect daytime or nighttime views in the area?				X

Aesthetic and visual impacts are analyzed on pages 21 through 25 of Appendix A, Notice of Preparation and Initial Study of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a.- b. The Kiernan Business Park Specific Plan Amendment #4 EIR found that there are no identified scenic vistas or scenic resources on or within the vicinity of the project site.

c. The Kiernan Business Park Specific Plan Amendment #4 EIR found that the development within the Specific Plan area would have a less-than-significant impact on the visual character of the area.

d. Future development within the project area would create new sources of nighttime light. The Design Guidelines of the Kiernan Business Park Specific Plan would require measures such as shielding and landscaping to reduce the impact to a less-than-significant level.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Aesthetic impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new or additional mitigation measures or alternatives are required.

II.	**AGRICULTURAL RESOURCES.** In determining whether impacts on agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Department of Conservation. Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?				X
b.	Conflict with existing zoning for agricultural use or conflict with a Williamson Act contract?				X
c.	Involve other changes in the existing environment that, due to their location or nature, could result in conversion of Farmland to non-agricultural use?				X

Impacts on agricultural resources are analyzed on pages IV.B.6 through IV.B.10 of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a. The Kiernan Business Park Specific Plan Amendment #4 EIR found that land designated as Prime Farmland would be lost as a result of development in the project area. This impact was determined to be significant and unavoidable. The City of Modesto adopted a statement of overriding consideration for this impact. A mitigation measure was provided but would not mitigate the loss of Prime Farmland to less-than-significant level. The mitigation measure states that prior to development, the City Council would consider a farmland mitigation program for the loss of prime farmland. On April 9, 2013, the City Council, adopted Resolution 2013-129, to consider preparing an agricultural policy that would not apply to land in City limits and exempted Kiernan Business Park from any agricultural mitigation requirements.

b. The project area is zoned SP as part of the Kiernan Business Park Specific Plan. No land in the project areas is zoned for agricultural use.

c. The Kiernan Business Park Specific Plan Amendment #4 EIR identified the conversion of Prime Farmland to new business park, residential, and commercial uses. The Program EIR identified the project would not hinder the continued use of the agricultural lands to the north and east of the Specific Plan area. Therefore, the project's impacts on surrounding ongoing agricultural operations would be considered less-than-significant.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Agricultural Resources impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new or additional mitigation measures or alternatives are required.

III.	**AIR QUALITY.** When available, the significance criteria established by the applicable air quality management or air pollution control district may be relied upon to make the following determinations. Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Conflict with or obstruct implementation of the applicable air quality plan?				X
b.	Violate any air quality standard or contribute substantially to an existing or projected air quality violation?				X
c.	Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is a nonattainment area for an applicable federal or state ambient air quality standard (including releasing emissions that exceed quantitative thresholds for ozone precursors)?				X
d.	Expose sensitive receptors to substantial pollutant concentrations?				X
e.	Create objectionable odors affecting a substantial number of people?				X
f.	Generate greenhouse gas emissions, either directly or indirectly, that may have a significant impact on the environment?				X
g.	Conflict with an applicable plan, policy, or regulation adopted for the purpose of reducing the emissions of greenhouse gases?				X

Impacts on air quality are analyzed on pages IV.D.26 through IV.D.43 of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a.- b. The Kiernan Business Park Specific Plan Amendment #4 EIR found that air pollution from project-related construction and during project operation would contribute to existing violations of ambient air quality standards. The impacts were determined to be significant and unavoidable. Partial mitigation for these impacts is included in the Program EIR, and the City of Modesto adopted a statement of overriding consideration for each impact.

c. The Kiernan Business Park Specific Plan Amendment #4 EIR found that the project would cause a cumulatively considerable net increase of pollutants in the San Joaquin Valley is designated as nonattainment. Project related emissions would cumulatively increase mobile source activity and associated regional emissions of ROG, NOx and PM 10. The impacts were determined to be significant and unavoidable. Partial mitigation for these emissions is included in the Program EIR, and the City of Modesto made a statement of overriding consideration for each impact.

d. The Kiernan Business Park Specific Plan Amendment #4 EIR found that the proposed land uses would not generate substantial Toxic Air Contaminants (TAC) emissions that would affect sensitive receptors. No stationary source of TACs within a one mile radius of the project center has been found to emit TACs at a level that represents an unacceptable increased health risk to the general public.

e. The Kiernan Business Park Specific Plan Amendment #4 EIR considered the BP (Business Park) designation which allows for ancillary small-scale retail uses intended to provide services to employees of the business park. Commercial uses such as gas stations and restaurants could create odors in the vicinity but would not be significant.

f. The Kiernan Business Park Specific Plan Amendment #4 EIR determined the cumulative greenhouse gas emissions may contribute to global warming. With implementation of mitigation measures, the significant impact would be reduced to a less-than-significant level.

g. The Kiernan Business Park Specific Plan Amendment #4 EIR did not identify any conflict with any plan, policy, or regulation adopted for the purpose of reducing the emission of greenhouse gases. The Kiernan Business Park Specific Plan Amendment #4 EIR discusses the federal, state, and local greenhouse gas policies in effect that apply to the proposed project. These include the Air Quality Policies of the Urban Area General Plan analyzed in the Master Environmental Impact Report (MEIR, 2008) that apply to the project. The MEIR identifies policies in effect that have been determined to reduce, avoid or mitigate air quality and climate change environmental impacts within the existing City limits and within the Planned Urbanizing Areas.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Air Quality impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new or additional mitigation measures or alternatives are required.

IV.	**BIOLOGICAL RESOURCES.** Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special-status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?				X
b.	Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?				X
c.	Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marshes, vernal pools, coastal wetlands, etc.) through direct removal, filling, hydrological interruption, or other means?				X
d.	Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?				X
e.	Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?				X
f.	Conflict with the provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan?				X

Impacts on biological resources are analyzed on pages IV.G.9 through IV.G.14 of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a. The Kiernan Business Park Specific Plan Amendment #4 EIR found that the project would result in the loss of occupied Burrowing Owl habitat. Upon development of the project site, mitigation measures are required that would reduce the impacts on this species to less-than-significant levels.

b. The Kiernan Business Park Specific Plan Amendment #4 EIR did not find that any riparian habitat or other designated sensitive natural community present in the project area, and so found that the project would have a less-than-significant impact.

c. The Kiernan Business Park Specific Plan Amendment #4 EIR did not find any protected wetlands on the project site.

d. The Kiernan Business Park Specific Plan Amendment #4 EIR identified migratory birds, including raptors, as nesting in the vicinity. Mitigation measures are provided to reduce the impact to less-than-significant.

e.-f. The Kiernan Business Park Specific Plan Amendment #4 EIR found no local biological resource protection policies, ordinances, habitat conservation plans, or natural community conservation plans that apply to the project area.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Biological Resources impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new or additional mitigation measures or alternatives are required.

V.	**CULTURAL RESOURCES.** Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Cause a substantial adverse change in the significance of a historical resource as defined in Section 15064.5?				X
b.	Cause a substantial adverse change in the significance of an archaeological resource pursuant to Section 15064.5?				X
c.	Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?				X
d.	Disturb any human remains, including those interred outside of formal cemeteries?				X

Cultural resources impacts are analyzed on pages 36 through 41 of Appendix A, Notice of Preparation and Initial Study of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a.- d. The Kiernan Business Park Specific Plan Amendment #4 EIR concluded that there are no known historic, archaeological, or paleontological resources in the areas of the proposed Project. However, the presence of these cultural resources cannot be conclusively ruled

out. Upon development, implementation of General Plan policies would ensure that potential cultural impacts would be less-than-significant.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Cultural Resources impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new mitigation measures or alternatives are required.

VI.	**GEOLOGY AND SOILS.** Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving:				
	Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42.				X
	Strong seismic groundshaking?				X
	Seismic-related ground failure, including liquefaction?				X
	Landslides?				X
b.	Result in substantial soil erosion or the loss of topsoil?				X
c.	Be located on a geologic unit or soil that is unstable or that would become unstable as a result of the project and potentially result in an onsite or offsite landslide, lateral spreading, subsidence, liquefaction, or collapse?				X
d.	Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property?				X
e.	Have soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems in areas where sewers are not available for the disposal of wastewater?				X

Impacts associated with geology and soils are analyzed on pages 41 through 44 of Appendix A, Notice of Preparation and Initial Study of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a.- b. The Kiernan Business Park Specific Plan Amendment #4 EIR found that the areas of the project site are not subject to geologic or soil-related hazards that cannot be adequately mitigated through the implementation of existing city regulations, such as the building code. No significant impacts were identified, and no mitigation measures are required.

c.- d. The Kiernan Business Park Specific Plan Amendment #4 EIR concluded that the underlying soil in the project site is not susceptible to liquefaction, landslides, or shrink/swell or expansion potential. No significant impacts were identified, and no mitigation measures are required.

e. The project site would be served by public sewers. Septic tanks or alternative wastewater disposal systems would not be introduced on the project site and existing septic tanks would have to be removed at time of development.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Geology and Soils impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new or additional mitigation measures or alternatives are required.

VII.	**HAZARDS AND HAZARDOUS MATERIALS.** Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?				X
b.	Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?				X
c.	Emit hazardous emissions or involve handling hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?				X
d.	Be located on a site that is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment?				X
e.	Be located within an airport land use plan area or, where such a plan has not been adopted, be within two miles of a public airport or public use airport, and result in a safety hazard for people residing or working in the project area?				X
f.	Be located within the vicinity of a private airstrip and result in a safety hazard for people residing or working in the project area?				X
g.	Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?				X
h.	Expose people or structures to a significant risk of loss, injury, or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands?				X

Impacts associated with hazards and hazardous materials are analyzed on pages IV.F.6 through IV.F.9 of the EIR certified on September 1, 2009

Responses to Checklist Questions

a.– c. The Kiernan Business Park Specific Plan Amendment #4 EIR identified that the project area would not involve the routine transport, use, or disposal of hazardous materials. Construction activities could result in drainage of hazardous materials. These would be mitigated to less-than-significant levels through implementation of the adopted Guidance Manual for New Development Stormwater Quality Control Measures.

d. The Kiernan Business Park Specific Plan Amendment #4 EIR concluded there is the potential of exposing construction workers to hazardous substance if contaminated soil or ground water is discovered during construction activities. In the event of future

development, mitigation measures are required that would reduce this impact to a less-than-significant level.

e. The project area is located over 7.5 miles from the nearest public airport. There would be no impact. No mitigation is required.

f. The project area is located over 5 miles from the nearest private airport. There would be no impact. No mitigation is required.

g. The Kiernan Business Park Specific Plan Amendment #4 EIR concluded that development of the project area would not interfere with an adopted emergency response plan or emergency evacuation plan. No mitigation is required.

h. The Kiernan Business Park Specific Plan Amendment #4 EIR identified that the surrounding area is largely agricultural or developed. There is no expectation that new development in the project area would expose people or structures to wildland fires. No mitigation is required.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Hazards and Hazardous Materials impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new or additional mitigation measures or alternatives are required.

VIII.	**HYDROLOGY AND WATER QUALITY.** Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Violate any water quality standards or waste discharge requirements?				X
b.	Substantially deplete groundwater supplies or interfere substantially with groundwater recharge, resulting in a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level that would not support existing land uses or planned uses for which permits have been granted)?				X
c.	Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner that would result in substantial erosion or siltation onsite or offsite?				X
d.	Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner that would result in flooding onsite or offsite?				X
e.	Create or contribute runoff water that would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff?				X
f.	Otherwise substantially degrade water quality?				X
g.	Place housing within a 100-year flood hazard area, as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?				X

h.	Place within a 100-year flood hazard area structures that would impede or redirect floodflows?				X
i.	Expose people or structures to a significant risk of loss, injury, or death involving flooding, including flooding as a result of the failure of a levee or dam?				X
j.	Contribute to inundation by seiche, tsunami, or mudflow?				X

Impacts associated with hydrology are analyzed on pages IV.H10 through IV.H.17 of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a. The Kiernan Business Park Specific Plan Amendment #4 EIR identified the potential for pollutants from construction sites or from future land uses that could be transported to surface waters and groundwater potentially reducing the water quality. Upon future development, mitigation measures are required that would reduce the impacts to a less-than-significant level.

b. The Kiernan Business Park Specific Plan Amendment #4 EIR found that the construction and operation of the required detention basin system is expected to offset the minor losses of groundwater recharge associated with the increased impervious coverage proposed by the project. Amendment #5 of the Specific Plan, adopted by the Modesto City Council on December 15, 2015 by Resolution No. 2015-499, replaced the detention basin system originally required in the Specific Plan with on-site treatment for individual properties and a combination of vegetative swales and underground storage/percolation facilities within the streets. On-site storm water treatment in accordance to the new system, which is required by the State and would increase groundwater recharge, is to be implemented at the project site.

c.– e. The Kiernan Business Park Specific Plan Amendment #4 EIR found that development could substantially alter the existing drainage pattern of the area; however, because there are mitigation measures requiring the project to incorporate an urban storm drain system, the erosion or flooding impacts will be less-than-significant.

f. The Kiernan Business Park Specific Plan Amendment #4 EIR found that existing water supply wells, if not properly managed or decommissioned, could be damaged during construction and cause water quality degradation. For any future development, a mitigation measure is required that would reduce the impact to a less-than-significant level.

g.– i. The project site is not located within any 100-year flood hazard area. The nearest river is the Stanislaus River, approximately 2 miles to the north. There would be no additional impact, and no mitigation is required.

j. The project site is located in a flat, inland area not susceptible to seiche, tsunami, or mudflow. There would be no impact. No mitigation is required.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Hydrology and Water Quality impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new or additional mitigation measures or alternatives are required.

IX.	**LAND USE AND PLANNING.** Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Physically divide an established community?				X
b.	Conflict with any applicable land use plan, policy, or regulation of an agency with jurisdiction over the project (including, but not limited to, a general plan, specific plan, local coastal program, or zoning ordinance) adopted for the purpose of avoiding or mitigating an environmental effect?				X
c.	Conflict with any applicable habitat conservation plan or natural community conservation plan?				X

Impacts associated with land use and planning are analyzed on pages IV.A.9 through IV.A.11 of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a.- b. The proposed project would not result in any physical changes to the environment beyond those identified in the Kiernan Business Park Specific Plan Amendment #4 EIR. The City has not adopted plans and policies as thresholds for significant impacts. There would be no impact and no mitigation is required. The current BP designation allows ancillary small-scale retail and service uses intended to serve the employees in the business park but lacks specifics on the amount. The proposed project quantifies ancillary retail and service uses, allows gas station with convenience store on a property located along Dale Road, and clarifies business services and wholesale and distribution uses. These changes mostly provide clarification instead of intensification of land uses in the BP designation.

c. There are no known habitat conservation plans or natural community conservation plans associated with this project. There would be no impact. No mitigation is required.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Land Use and Planning impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new mitigation measures or alternatives are required.

X.	**MINERAL RESOURCES.** Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?				X
b.	Result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan?				X

Impacts associated with mineral resources are analyzed on pages 52 through 53 of Appendix A, Notice of Preparation and Initial Study of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a.- b. No known mineral resources or important recovery sites are located in the project area.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Mineral Resources impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new or additional mitigation measures or alternatives are required.

XI.	**NOISE.** Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Expose persons to or generate noise levels in excess of standards established in a local general plan or noise ordinance or applicable standards of other agencies?				X
b.	Expose persons to or generate excessive groundborne vibration or groundborne noise levels?				X
c.	Result in a substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?				X
d.	Result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?				X
e.	Be located within an airport land use plan area, or, where such a plan has not been adopted, within two miles of a public airport or public use airport and expose people residing or working in the project area to excessive noise levels?				X
f.	Be located in the vicinity of a private airstrip and expose people residing or working in the project area to excessive noise levels?				X

Impacts associated with noise are analyzed on pages IV.E.12 through IV.E.23 of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a.- c. The Kiernan Business Park Specific Plan Amendment #4 EIR identified that project related traffic would not cause substantial noise levels for sensitive receptors in the project vicinity. However, project related traffic could cause substantial noise levels for sensitive receptors within the project area. New stationary and non-stationary sources could generate noise levels incompatible with ordinances or goals for the surroundings. Any future development would be required to implement mitigation measures that would reduce the noise impacts to a less-than-significant level.

d. The Kiernan Business Park Specific Plan Amendment #4 EIR found that construction of the project site could result in a substantial temporary increase in ambient noise levels. Mitigation measures are required for future development that would reduce the noise impacts to a less-than-significant level

e.- f. The Kiernan Business Park Specific Plan Amendment #4 EIR found that project area is not located in an airport land use plan area or within 2 miles of a public airport. The nearest private airport is about 5 miles away.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Noise impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new or additional mitigation measures or alternatives are required.

XII.	**POPULATION AND HOUSING.** Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Induce substantial population growth in an area, either directly (e.g., by proposing new homes and businesses) or indirectly (e.g., through extension of roads or other infrastructure)?				X
b.	Displace a substantial number of existing housing units, necessitating the construction of replacement housing elsewhere?				X
c.	Displace a substantial number of people, necessitating the construction of replacement housing elsewhere?				X

Impacts associated with population and housing are analyzed on pages 56 through 58 of Appendix A, Notice of Preparation and Initial Study of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a. The Kiernan Business Park Specific Plan Amendment #4 EIR concluded that the development of the project site would induce population growth but at a less-than-significant level.

b.- c. The Kiernan Business Park Specific Plan Amendment #4 EIR identified 13 home sites that would be demolished throughout the amendment area. The amount of persons displaced overall was determined to be less-than-significant by the Program EIR, and therefore no mitigation is required.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Population and Housing impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new mitigation measures or alternatives are required.

XIII.	**PUBLIC SERVICES.** Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities or a need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times, or other performance objectives for any of the following public				

services:				
1. Fire protection?				X
2. Police protection?				X
3. Schools?				X
4. Parks?				X
5. Other public facilities?				X

Impacts on public services are analyzed on pages IV.I.5 through IV.I.20 of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a-1. The nearest City of Modesto Fire Station to the project site is Station No. 11, located approximately two miles away at Carver Road and Pelandale Avenue. The Kiernan Business Park Specific Plan Amendment #4 EIR found that the existing personnel and apparatus at Station No. 11 would be adequate to meet the need of increased demand for future commercial and medium-high density residential development. Therefore, the physical impact would be at a less-than-significant level. No mitigation is required.

a-2. The Kiernan Business Park Specific Plan Amendment #4 Program EIR found that development of the area would result in an increase of MPD officer hours; however, long-range financing strategies are in place that would allow the City to allocate the necessary funds to extend those police services to the project site. Therefore, the physical impact would be at a less-than-significant level. No mitigation is required.

a-3-5. The Kiernan Business Park Specific Plan Amendment #4 EIR found that development of the project site that would include residential uses would result in increased use and demand on school and park facilities but not at a significant level. There would be no impact. No mitigation is required.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Public Services impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new or additional mitigation measures or alternatives are required.

XIV. RECREATION. Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a. Increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?				X
b. Include recreational facilities or require the construction or expansion of recreational facilities that might have an adverse physical effect on the environment?				X

Impacts associated with recreation are analyzed on pages 61 through 62 of Appendix A, Notice of Preparation and Initial Study of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a.- b. No significant impacts on recreation facilities were identified in the Program EIR.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Recreation impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new or additional mitigation measures or alternatives are required.

	XV. TRANSPORTATION/TRAFFIC. Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Cause an increase in traffic that is substantial in relation to the existing traffic load and capacity of the street system (i.e., result in a substantial increase in the number of vehicle trips, the volume-to-capacity ratio on roads, or congestion at intersections)?			X	
b.	Cause, either individually or cumulatively, exceedance of a level-of-service standard established by the county congestion management agency for designated roads or highways?			X	
c.	Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks?				X
d.	Substantially increase hazards because of a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?				X
e.	Result in inadequate emergency access?				X
f.	Result in inadequate parking capacity?				X
g.	Conflict with adopted policies, plans, or programs supporting alternative transportation (e.g., bus turnouts, bicycle racks)?				X

Impacts on transportation and traffic are analyzed on pages IV.C.37 through IV.C.85 of the EIR certified on September 1, 2009.

Responses to Checklist Questions

a.- b. The Kiernan Business Park Specific Plan Amendment #4 EIR found that development of the project site would result in significant impacts at study intersections and roadway segments. There would also be significant cumulative impacts on road way segments. Mitigation measures were identified in the Program EIR to reduce some of the traffic impacts to a less-than-significant level. Other traffic impacts were determined to be significant and unavoidable because the mitigation measures were found infeasible. The City of Modesto made a statement of overriding considerations for that impact at the time it certified the EIR.

The proposed amendment would allow gas stations with convenience stores on Business Park-designated parcels fronting on Dale Road. Given the limited number of parcels affected by this amendment (six parcels, some of which have access limitations making it unlikely for a service station to locate on them), it is reasonable to assume the amendment would potentially result in no more than two service stations. If two service stations were to develop as a result of this amendment, this change would result in combined potential maximum net-increase of approximately 80 peak-hour vehicle trips as compared to other uses that could be developed on those parcels (net-increase of 40 peak hour trips per parcel). This net-increase is lower than the threshold of a project that generates 100 or more peak hour trips that may require a traffic study.

Additionally, based on a review of the analysis results presented in the Kiernan Business Park Specific Plan Amendment #4 EIR, this change in potential peak hour trips would not change the overall EIR conclusions regarding the location of significant impacts.

The current specific plan allows ancillary retail and service uses but does not provide any specifics. The proposed amendment would define ancillary retail and service uses as being a maximum of 20% or 2,000 square feet per building, whichever is less. This provides needed clarification of what ancillary use means. More retail and service uses may be permitted for properties located along Dale Road with a maximum of 50% or 5,000 square feet per building, whichever is less, but requires a conditional use permit approval. Any necessary traffic review would occur at time of project submittal.

c. Kiernan Business Park Specific Plan Amendment #4 EIR concluded there would not be any change to air traffic patterns or air traffic related safety. There would be no impact. No mitigation is required.

d. The Kiernan Business Park Specific Plan Amendment #4 EIR determined there would not be a substantial increase in hazards due to a design feature. No mitigation is required.

e. The Kiernan Business Park Specific Plan Amendment #4 EIR did not find that development of the project area would result in inadequate emergency access in the Specific Plan area. Therefore, there would be no impact on emergency service access. No mitigation is required.

f. The Kiernan Business Park Specific Plan Amendment #4 EIR did not find that development of the project area would result in inadequate parking capacity. There would be no impact. No mitigation is required.

g. The Kiernan Business Park Specific Plan Amendment #4 includes bicycle paths and lanes. The proposed retail development does not include any changes related to alternative transportation policies, and would have no impact. No mitigation is required.

The proposed project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Transportation and Traffic impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new or additional mitigation measures or alternatives are required.

XVI. **UTILITIES AND SERVICE SYSTEMS.** Would the project when compared to the impacts identified in the Program EIR, create new impacts or increase the level of existing impacts that would:	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a. Exceed wastewater treatment requirements of the applicable Regional Water Quality Control Board?				X
b. Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?				X
c. Require or result in the construction of new stormwater drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?				X

d.	Have sufficient water supplies available to serve the project from existing entitlements and resources, or would new or expanded entitlements be needed?				X
e.	Result in a determination by the wastewater treatment provider that serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?				X
f.	Be served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs?				X
g.	Comply with federal, state, and local statutes and regulations related to solid waste?				X

Impacts on utilities and service systems are analyzed on pages IV.H.10 through IV.H.17, pages IV.J.16 through IV.J.11, and pages IV.K.10 through IV.K.17 of the EIR certified September 1, 2009.

Responses to Checklist Questions

a., e. The Kiernan Business Park Specific Plan Amendment #4 EIR identifies that development of the project area would result in an increased demand for wastewater collection, treatment, and disposal but not at a significant level.

b. The Kiernan Business Park Specific Plan Amendment #4 EIR discusses that new project specific water facility would be needed to maintain adequate water pressure, but would not require new wastewater facilities beyond those facilities already anticipated by the Wastewater Master Plan Update. The impact to water and wastewater facilities are found to be less-than-significant.

c. The Kiernan Business Park Specific Plan Amendment #4 EIR discusses the new storm drainage facilities that will be needed in order to accommodate build out of the project area. The EIR found that, with mitigation, there would be no significant impact on storm drainage facilities.

d. The Kiernan Business Park Specific Plan Amendment #4 EIR found that, based on a Water Supply Assessment, there will be sufficient water supply to serve the project area and the impact on water demand would be less-than-significant. No mitigation is required.

f., g. The Kiernan Business Park Specific Plan Amendment #4 EIR found that the Modesto and Stanislaus County Waste-to-Energy Plant has sufficient capacity to accommodate the project's solid waste disposal needs.

The proposed Project is contemplated by and consistent with the Program EIR. The analysis and conclusion regarding Utility and Services System impacts would remain the same as identified in the Program EIR. There are no new significant impacts or increase in severity of previously identified impacts. No new or additional mitigation measures or alternatives are required.

XVII.	MANDATORY FINDINGS OF SIGNIFICANCE.	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
a.	Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory?				X
b.	Does the project have impacts that are individually limited but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.)				X
c.	Does the project have environmental effects that will cause substantial adverse effects on human beings, either directly or indirectly?				X

Responses to Checklist Questions

a. The proposed Project would not result in significant impacts on the environment over and above those associated with implementation of the Kiernan Business Park Specific Plan Amendment #4, as analyzed in the Program EIR. The proposed Project was contemplated by and is consistent with the Program EIR.

b. The proposed Project would not result in any significant impacts, either on a project or on cumulative level, over and above those associated with implementation of the Kiernan Business Park Specific Plan Amendment #4 and as analyzed in the Program EIR.

c. The proposed Project would not result in any significant impacts affecting humans over and above those associated with implementation of the Kiernan Business Park Specific Plan Amendment #4 and as analyzed in the Program EIR.

V. Mitigation Applied to Project

All development will be subject to the mitigation measures identified in the Program EIR applied where applicable as listed below. No new project-specific mitigation measures are necessary .

Aesthetics Measures: None.

Agricultural Resources Measures: None.

Air Quality Measures: Mitigation Measure D.1 (Page 4 of the Mitigation Monitoring and Reporting Program): The construction plans for each group of buildings shall

incorporate the following recommendations from the District to minimize emissions during construction phases:

1. The project developers shall review Regulation VIII of the SJVAPCD regulations and submit a compliance plan to the City of Modesto prior to commencing any phase of construction. The compliance plan must demonstrate that the current requirements of Regulation VIII will be implemented.

2. Prior to the issuance of construction contracts, the project developers shall perform a review of new technology, as it relates to heavy-duty equipment, to determine what, if any, advances in emissions reduction are available for use. (Information is available at CARB's website http://www.arb.ca.gov/msprog/aftermkt/aftermkt.htm.) Recently, CARB initiated a number of incentive programs to offer funds for retrofitting existing heavy-duty engines in public and private fleets to reduce PM and NOx emissions. CARB has evaluated and certified retrofit systems to be used in PM or NOx incentive programs. (Applicants who plan to participate in any of the CARB's retrofit programs may obtain additional information by viewing the CARB's Diesel Mobile Programs website at http://www.arb.ca.gov/diesel/mobile.htm.) The SJVAPCD should be consulted during this process.

3. Dust suppression shall be implemented on all disturbed areas, including inactive outdoor storage piles, by application of water, chemical stabilizer/suppressant, or covering with a tarp, vegetative ground cover, or other suitable cover.

4. Dust suppression shall be implemented following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles using water or chemical stabilizer/suppressant.

5. Dust suppression shall be implemented on all on-site unpaved roads, and off-site unpaved access roads used during the construction phase, using water or chemical stabilizer/suppressant.

6. All land clearing, grubbing, scraping, excavation, land leveling, grading, cut and fill, and demolition activities shall be effectively controlled of fugitive dust emissions by application of water during the activity or by presoaking.

7. When materials are transported off site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.

8. The project developers shall limit traffic speed on unpaved roads to 15 miles per hour.

9. The project developers shall install sandbags or other control measures to prevent silt runoff to public roadways from sites with a slope greater than one percent.

10. The project developers shall install wheel washers for all exiting trucks, or wash off all trucks and equipment leaving the site, to prevent track-out of soil to public roadways.

11. The project developers shall install windbreaks at windward sides of construction areas, if necessary to prevent wind-blown dust.

12. The project developers shall suspend excavation and grading activity when winds exceed 20 miles per hour.

13. The project developers shall limit the area subject to excavation, grading, and other construction activity at any one time.

14. The project developers shall ensure that the accumulation of mud or dirt (track-out) is expeditiously removed from adjacent public streets if it extends more than 50 feet from the construction site or at least once every 24 hours when construction activities are occurring (the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions).

15. The project developers shall use alternative-fuel construction equipment, where feasible.

16. The project developers shall minimize idling time (e.g., to a 10-minute maximum).

17. The project developers shall limit the hours of operation of heavy-duty equipment and/or the amount of equipment in use to the minimum practical.

18. The project developers shall replace fossil-fueled equipment with electrically driven equivalents (provided they are not run via a portable generator set), where feasible.

19. The project developers shall take steps to curtail construction activity during periods of high ambient pollutant concentrations; this may include reducing construction activity during the peak hour of vehicular traffic on adjacent roadways or ceasing construction activity during days declared as Spare the Air days by the SJVAPCD.

20. The project developers shall manage activity tasks to reduce cumulative short-term impacts.

Biological Resources Measures: Mitigation Measure G.1a (Page 21 of the Mitigation Monitoring and Reporting Program): Implementation of formal CDFG guidelines (Staff Report on Burrowing Owl Mitigation) to avoid and minimize impacts to Burrowing Owls. In conformance with federal and state regulations regarding the protection of raptors, a habitat assessment in accordance with CDFG guidelines for Burrowing Owls should be completed prior to the start of construction. Burrowing Owl habitat on the project site and within a 500-foot (150 m) buffer zone should be assessed. If the habitat assessment concludes that the site and immediate vicinity lack suitable Burrowing Owl habitat, no additional action would be warranted.

However, if suitable habitat is located on, or immediately adjacent to, the site, all Burrowing Owl habitat should be mapped at an appropriate scale, and the following mitigation measures should be implemented:

21. In conformance with federal and state regulations regarding the protection of raptors, a pre-construction survey for Burrowing Owls, in conformance with CDFG guidelines, should be completed no more than 30 days prior to the start of construction within suitable habitat. Three additional surveys should also be completed per CDFG guidelines prior to construction.
22. No Burrowing Owls will be evicted from burrows during the nesting season (February 1 through August 31). Eviction outside the nesting season may be permitted pending evaluation of eviction plans and receipt of formal written approval from the CDFG authorizing the eviction.
23. A 250-foot (76 m) buffer, within which no new activity will be permissible, will be maintained between project activities and nesting Burrowing Owls during the nesting season. This protected area will remain in effect until August 31, or at the CDFG's discretion and based upon monitoring evidence, until the young owls are foraging independently.
24. If accidental take (disturbance, injury, or death of owls) occurs, the CDFG will be notified immediately.

Cultural Resources Measures: Mitigation Measure AH-12 from the City of Modesto Urban Area General Plan MEIR should be applied to the project, as referenced by the Initial Study Environmental Checklist for the Kiernan Business Park FEIR prepared by Turnstone Consulting on June 15, 2007:

25. If archaeological resources are discovered at any time during construction, all activity shall cease, until the site is surveyed by a qualified archeologist. The survey shall include mitigation measures, which shall be implemented before construction resumes.

Geology and Soils Measures: None.

Hazard and Hazardous Materials Measures: Mitigation Measure F.2 (Page 20 of the Mitigation Monitoring and Reporting Program):

26. Conduct Phase 1 Environmental Site Assessments, conduct site investigations, and implement remediation as necessary.

Hydrology and Water Quality Measures: Mitigation Measure H.1 (Page24 of the Mitigation Monitoring and Reporting Program):

27. The project proponent shall prepare an SWPPP for each development project under the Specific Plan (or one master SWPPP for all development) designed to reduce potential impacts to surface water quality through the construction period of all of the project components (whether or not the particular portion of the project disturbs more than 1 acre).The project SWPPP shall include and adequately address all elements in the State General Construction Permit (Waste Discharge Requirements for Discharges of Stormwater Runoff

Associated with Construction Activity, State Water Resources Control Board Order Number 99-08-DWQ).

Land Use and Planning Measures: None.

Mineral Resources Measures: None.

Noise Measures: None.

Population and Housing Measures: None

Public Services Measures: None.

Recreation: None.

Transportation/Traffic Measures: None.

Utility and Service System Measures: None.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-173

Print

RESOLUTION APPROVING THE SUBMITTAL OF A GRANT APPLICATION TO THE FEDERAL TRANSIT ADMINISTRATION (FTA) REQUESTING $1,092,489 IN FTA SECTION 5339 FUNDS AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE AND FILE THE ANNUAL CERTIFICATIONS AND ASSURANCES, AND ALL OTHER NECESSARY DOCUMENTS WITH THE FTA

WHEREAS, the Federal Transit Administration (FTA) has been delegated authority to award federal financial assistance for transportation related projects, and

WHEREAS, the City of Modesto has provided all annual certifications and assurances required by the FTA to be eligible for funding under 49 U.S.C Section 5339, and

WHEREAS, the projects for the City of Modesto shown in the **attached** Program of Projects are eligible to receive federally reimbursable expenses from Section 5339 funds, and

WHEREAS, the projects shown in the **attached** Program of Projects are included in the 2017 Federal Transportation Improvement Program (FTIP) adopted by the Stanislaus Council of Governments (StanCOG), and

WHEREAS, Modesto is eligible to use federally approved Transportation Development Funds, known as Toll Credits, in lieu of a local match, and

WHEREAS, these Section 5339 funds will be used to purchase replacement commuter buses that operate bus routes to the BART station in Pleasanton and the ACE station in Lathrop.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the submittal of an application to the FTA for $1,092,489 in Section 5339 funds.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute and file the annual certifications and assurances and other documents the FTA requires for awarding a federal assistance grant.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of May, 2017, by Councilmember Zoslocki, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold
NOES:	Councilmembers:	None

RESOLUTION APPROVING AN AGREEMENT WITH DOKKEN ENGINEERING OF FOLSOM, CA FOR CONSULTANT SERVICES FOR THE PREPARATION OF PLANS, SPECIFICATIONS AND ESTIMATES (PS&E) FOR THE SR-132 WEST FREEWAY/EXPRESSWAY – PHASE 1 PROJECT IN AN AMOUNT NOT TO EXCEED $6,400,000 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS $600,000 FOR ADDITIONAL SERVICES (IF NEEDED) FOR A TOTAL AMOUNT OF $7,000,000; AND AUTHORIZING THE ACTING CITY MANAGER OR HIS DESIGNEE, TO EXECUTE THE CONTRACT IN A FORM APPROVED BY THE CITY ATTORNEY

WHEREAS, Stanislaus Council of Governments (StanCOG), City of Modesto, Stanislaus County and the California Department of Transportation (Caltrans) are completing the formal studies for the Project Approval and Environmental Document (PA&ED) Phase for the State Route 132 West Freeway/Expressway Project (Ultimate Project), and

WHEREAS, The Ultimate Project is presently in the final stage of the environmental approval process, with approval expected in the Fall of 2017, and

WHEREAS, The SR132 West Freeway/Expressway – Phase 1 Project (Phase 1 Project) proposes to construct a two-lane highway on a new alignment in Stanislaus County and the City of Modesto from State Route 99 just south of Kansas Avenue to Dakota Avenue, and

WHEREAS, Delivery of the PA&ED phase of the Ultimate Project has been slowed due to problems with gaining environmental clearance of contaminated soils stockpiles, and Project construction must commence on or before June 30, 2019, and

WHEREAS, The combination of environmental clearance delay along with a shortened window for startup of construction has resulted in the need to accelerate the

final design (PS&E) phase of the Phase 1 Project to meet the construction startup deadline of June 2019, and

WHEREAS, This acceleration must be performed so that approximately $71.5M of programmed construction funds will not be lost, and

WHEREAS, it is anticipated that Caltrans will complete CEQA and NEPA review in late 2017 as part of the current PA&ED Phase and select a Project alternative at that time. It is anticipated that Caltrans will select one of the two build alternatives, but there is potential risk that Caltrans will select the no-build alternative, which would mean no Project would go forward, and

WHEREAS, The design phase must proceed "at risk" to progress the final design concurrently with the Final Environmental Document approval, and

WHEREAS, In accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, this agreement is for professional services and, therefore, exempt from the bid requirement, and

WHEREAS, Staff proceeded through a RFP process pursuant to Administrative Directive 3.1 and the City solicited for proposals for final design of the Phase 1 Project on November 28, 2016 in compliance with Modesto Municipal Code section 8-3.401 – 8-3.404, and

WHEREAS, Proposals were received, evaluated and ranked, and

WHEREAS, City entered into negotiations with the top ranked firm, Dokken Engineering on January 27, 2017, and

WHEREAS, Dokken has agreed to a contract for professional services in the amount of $6,500,000 to provide the final PS&E design for the Phase 1 Project, and

WHEREAS, Staff recommends approval of the agreement with Dokken Engineering for the SR132 West Freeway/Expressway-Phase 1 Project, and

WHEREAS, City of Modesto previously committed $4M from its Capital Improvement Program (CIP) for the construction phase of the Phase 1 Project, and

WHEREAS, it is proposed to re-direct these funds to support the design PS&E phase of the Phase 1 Project, and

WHEREAS, City staff has worked diligently in coordination with Stanislaus County and StanCOG to agree to a financing strategy to support the remainder of funding required to support the PS&E design phase, and

WHEREAS, City will provide $4,000,000 of CFF money and StanCOG will provide $6,000,000 of Measure L Regional Account money to support the PS&E design phase.

WHEREAS, City, County, and StanCOG agree to expend all of the available Measure L Regional Account revenues necessary to fund the design phase commencing in July 2017 through completion in June 2019, and

WHEREAS, on April 19, 2017 StanCOG Policy Board approved Resolution 16-36 designating the State Route 132 West Freeway/Expressway Project as the top regional project to receive Measure L Regional funding up to $10,000,000 to be used to support the total PS&E project cost, and

WHEREAS, the Director of Community and Economic Development and the Acting City Manager have recommended that the bid of $6,400,000 received from Dokken Engineering be accepted as fair and reasonable and the contract be awarded to Dokken Engineering of Folsom, CA, and

WHEREAS, on February 28, 2017, Council approved Resolution No. 2017-86 implementing a spending freeze in order to maintain fiscal sustainability of the City. The City Manager's Office approved an exception to this freeze for this procurement based upon the fact that this project is the number one priority project in the region and this phase of the project is fully funded by CFF and Measure L funding and if the project is delayed, $71.5 Million of programmed construction funds could be lost.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an agreement with Dokken Engineering of Folsom, CA for consultant services for the preparation of plans, specifications and estimates (PS&E) for the State Route 132 West Freeway/Expressway - Phase 1 Project in an amount not to exceed $6,400,000 for the identified scope of services, plus $600,000 for additional services (if needed) for a total amount of $7,000,000.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the contract, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of May, 2017, by Councilmember Zoslocki, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION AMENDING THE FISCAL YEAR 2016-2017 CAPITAL IMPROVEMENT PROGRAM BUDGET IN THE AMOUNT OF $10 MILLION AS SHOWN IN EXHIBIT A IN ORDER TO FULLY FUND THE AGREEMENT WITH DOKKEN ENGINEERING FOR THE PREPARATION OF PLANS, SPECIFICATIONS AND ESTIMATES AND FOR ASSOCIATED SUPPORT SERVICES FOR THE SR-132 WEST FREEWAY/EXPRESSWAY – PHASE 1 PROJECT

WHEREAS, certain budgetary transactions are necessary in the amounts shown in **Exhibit A**, in order to fund the agreement with Dokken Engineering for preparation of plans, specifications and estimates (PS&E) for the SR-132 West Freeway/Expressway – Phase 1 Project and for associated support costs, and

WHEREAS, $4,000,000 of Streets Capital Facility Fees will fund a portion of the PS&E phase of the project and the remainder will be funded with Regional Measure L funds, and

WHEREAS, the Fiscal Year 2016-2017 Capital Improvement Program Budget must be amended as shown in **Exhibit A**, **attached** hereto,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the amendment of the Fiscal Year 2016-2017 Capital Improvement Program Budget as shown in **Exhibit A** in order to transfer $4,000,000 from Capital Facility Fee Streets Fund and $6,000,000 from Regional Measure L funds to the SR132West Freeway/Expressway – Phase 1 Project, Capital Improvement Project #100614.

BE IT FURTHER RESOLVED that the Acting City Manager, or her designee, is hereby authorized to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of May, 2017, by Councilmember Zoslocki, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

100614 – CED – SR-132 Phase 1

EXPENSES	**Existing Budget**	**Increase / Decrease**	**Proposed Budget**
CA - Construction Administration	$0	0	$0
CON - Construction	$0	0	$0
CTGY - Contingency - CIP	$0	0	$0
EDA - Eng/Design/Admin	$300,000	$10,000,000	$10,300,000
ENV - Environmental	$115,000	0	$115,000
Total	**$415,000**	**$10,000,000**	**$10,415,000**

Move $4,000,000 from Streets CFF Reserves to CIP 100614.

Accept $6,000,000 in Regional Measure L funds from StanCOG.

StanCOG Policy Board Resolution 16-36 made SR-132 the number one regional project to be funded with Regional Measure L money. The sales tax measure went into effect on April 1, 2017. The City and StanCOG are drafting an MOU that will describe the details of the reimbursement. The current understanding with StanCOG is that the City will receive monthly invoices from Dokken. The City will review and pay the invoice and then send proof of payment to StanCOG for reimbursement. StanCOG will begin receiving Measure L funds in July, 2017. The City estimates that monthly bills from Dokken will not exceed $500,000. A conservative estimate for the monthly Regional Measure L revenue is $784,000.

RESOLUTION REJECTING ALL BIDS FOR TULLY ROAD & 9TH STREET PAVEMENT REHABILITATION PROJECT AND AUTHORIZING CITY STAFF TO RE-ADVERTISE THE PROJECT AT A FUTURE DATE WITH AN AMENDED SCOPE OF WORK

WHEREAS, the bids received for the Tully Road & 9th Street Pavement Rehabilitation Project were opened at 11:00 a.m. on April 4, 2017 and later tabulated, and

WHEREAS, only one company chose to submit a bid and that bid was 55% above the engineer's estimate, and

WHEREAS, City staff has determined that it would be in the best interest of the City to reject the bid and make some modifications to the scope of work and re-bid the project in early 2017 with the intention of attracting a higher number of contractors and additional bids.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby rejects all bids for the Tully Road & 9th Street Pavement Rehabilitation Project.

BE IF FURTHER RESOLVED that staff is hereby authorized to re-advertise the project at a future date with an amended scope of work.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-177

RESOLUTION APPROVING A PURCHASE AGREEMENT WITH UNION PACIFIC RAILROAD COMPANY, FOR ACQUISITION OF A 33,968 SQUARE FEET (0.78 ACRES) PORTION OF REAL PROPERTY, LOCATED BETWEEN COLLEGE AVENUE AND CAMPUS WAY (STATE BOARD OF EQUALIZATION PARCEL NO. 843-50-3D), IN THE AMOUNT OF $217,395, FOR THE MODESTO JUNIOR COLLEGE BIKE PATH PHASE II PROJECT, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT AND ALL RELATED DOCUMENTS REQUIRED TO CLOSE ESCROW

WHEREAS, the City of Modesto desires to construct the Modesto Junior College Bike Path Phase II project (Project) between the Virginia Corridor and the Modesto Junior College bike paths, and

WHEREAS, the Project will provide the needed connection between College Avenue and Campus Way, and

WHEREAS the Project requires the acquisition of 33,968 square feet of real property currently owned by Union Pacific Railroad Company, and

WHEREAS, the real property in this acquisition will provide a permanent connection for the Project, and

WHEREAS the real property in this acquisition will provide the necessary link for the future MJC Bike Path Phase III Project, and

WHEREAS, the Project will increase safety and mobility of non-motorized users, and

WHEREAS, the Project is needed due to the lack of continuous bicycle and pedestrian facility between the College campuses and the area neighborhoods, and

WHEREAS, City staff is recommending acquisition of the real property, and

WHEREAS, an agreement is needed for the acquisition of the real property and City staff recommends approving the Purchase and Sale Agreement for acquisition of the property, and

WHEREAS, the City Manager's Office has approved this purchase as an exception to the spending freeze to maintain fiscal sustainability pursuant to Resolution No. 2017-86.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Purchase Agreement with Union Pacific Railroad Company, for the acquisition of real property, consisting of 33,968 square feet (0.78 acres) located between College Avenue and Campus Way (State Board of Equalization parcel number 843-50-3D), in the amount of $217,395.20 for the Modesto Junior College Bike Phase II project.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the Agreement, and all related documents required to close escrow.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-178

RESOLUTION ACCEPTING THE QUIT CLAIM DEED FROM UNION PACIFIC RAILROAD COMPANY AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO SIGN THE CERTIFICATE OF ACCEPTANCE FOR THE QUIT CLAIM DEED FOR THE MODESTO JUNIOR COLLEGE BIKE PATH PHASE II PROJECT LOCATED BETWEEN COLLEGE AVENUE AND CAMPUS WAY (STATE BOARD OF EQUALIZATION PARCEL NUMBER 843-50-3D) TO BE CONVEYED TO THE CITY OF MODESTO FOR THE MODESTO JUNIOR COLLEGE BIKE PATH PHASE II PROJECT

WHEREAS, Section 27281 of the Government Code requires a public agency to accept real property prior to the recordation of a deed or adopt a resolution accepting real property, and

WHEREAS, the City of Modesto desires to accept real property totaling approximately 33,968 square feet (0.78 acres), located between College Avenue and Campus Way (State Board of Equalization parcel number 843-50-3D), to be conveyed to the City of Modesto, and

WHEREAS, a Caltrans NEPA Determination found that this project has no significant impacts on the environment and is categorically excluded from the requirements to prepare an environmental assessment or environmental impact statement for the Modesto Junior College Bike Path Project.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Acting City Manager, or his designee, is hereby authorized to sign the Certificate of Acceptance for the Quit Claim Deed for the acquisition of real property located between College Avenue and Campus Way, (State Board of Equalization parcel number 843-50-3D) to be conveyed to the City of Modesto for the Modesto Junior College Bike Path Phase II Project.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-179

RESOLUTION AMENDING THE FISCAL YEAR 2016-2017 CAPITAL IMPROVEMENT PROGRAM BUDGET IN THE AMOUNT AS SHOWN IN EXHIBIT A IN ORDER TO FULLY FUND LAND ACQUISITION REQUIRED FOR THE MODESTO JUNIOR COLLEGE BIKE PATH PHASE II PROJECT

WHEREAS, certain budgetary transactions are necessary in the amounts shown in **Exhibit A**, in order to fund Land Acquisition for the Modesto Junior College (MJC) Bike Path Phase II Project, and

WHEREAS, the Fiscal Year 2016-2017 Capital Improvement Program Budget must be amended as shown in **Exhibit A**, **attached** hereto.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the amendment of the Fiscal Year 2016-2017 Capital Improvement Program Budget as shown in **Exhibit A** in order to transfer $120,000 from Capital Facility Fee Air Quality Fund and $80,000 from Capital Facility Fee Streets Fund to the Capital Improvement Project #100882.

BE IT FURTHER RESOLVED that the Deputy City Manager, or his designee, is hereby authorized to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-180

Print

RESOLUTION APPROVING A LOAN OF $80,000 FROM THE CAPITAL FACILITIES FEES (CFF) STREETS FUND TO THE CAPITAL FACILITIES FEES AIR QUALITY FUND FOR THE PROJECT ENTITLED "MODESTO JUNIOR COLLEGE BIKE PATH PHASE II " AND ESTABLISHING A REPAYMENT SCHEDULE, AMORTIZED OVER FIVE YEARS, FROM FUTURE AIR QUALITY CAPITAL FACILITIES FEES

WHEREAS, the City Council approved a Purchase and Sale Agreement with Union Pacific Railroad Company, for acquisition of real property consisting of 33,968 square feet (0.78 acres) for the Modesto Junior College Bike Path Phase II Project (Project), and

WHEREAS, the City Council approved a budget adjustment for the Project to increase the amount available for land acquisition, and

WHEREAS, the City has received funds from the California Transportation Commission Active Transportation Program in the amount of $630,000, and

WHEREAS, the City is required to provide match funds, and

WHEREAS, the Capital Facilities Fees (CFF) Air Quality Fund will be the source for match funds, and

WHEREAS, a total of $200,000 will be needed to fully fund the required land acquisition, and

WHEREAS, the CFF Air Quality Fund has $120,384 available, and

WHEREAS, a loan of $80,000 from the CFF Streets Fund to the CFF Air Quality Fund is necessary to fully fund the project, and

WHEREAS, the $80,000 loan will be amortized over next five years, and

WHEREAS, the $80,000 loan will accrue interest at the City's average rate of return on its investment pool, and

WHEREAS, the amount of interest will be calculated based on the principal outstanding during the prior fiscal year, and

WHEREAS, all revenue received in the CFF Air Quality Fund will be used to reimburse the CFF Streets Fund until the loan is paid in full, and

WHEREAS, at least $16,000 of principal plus interest will be paid back each fiscal year through fiscal year 2021-2022, as outlined in **Exhibit A**,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a loan of $80,000 from the CFF Streets Fund to the CFF Air Quality Fund for the project entitled "Modesto Junior College Bike Path Phase II".

BE IT FURTHER RESOLVED that the $80,000 loan will be amortized over five years and all revenue received in the CFF Air Quality Fund will be used to reimburse the CFF Streets Fund until the loan is paid in full.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION ACCEPTING FISCAL YEAR 2017-2018 ENGINEER'S REPORT FOR LANDSCAPE MAINTENANCE ASSESSMENT DISTRICT NO. 1 FOR DRY CREEK MEADOWS SUBDIVISIONS NOS. 1 THROUGH 6; NOTICE OF INTENTION TO LEVY AND COLLECT ASSESSMENTS FOR LANDSCAPE MAINTENANCE ASSESSMENT DISTRICT NO. 1 FOR DRY CREEK MEADOWS SUBDIVISIONS NOS. 1 – 6 AND SETTING A PUBLIC HEARING ON JUNE 27, 2017 TO CONSIDER THE FISCAL YEAR 2017-18 LEVY AND COLLECTION OF ASSESSMENTS WITHIN LANDSCAPE MAINTENANCE ASSESSMENT DISTRICT NO. 1

WHEREAS, Resolution No. 88-935, adopted by the Council of the City of Modesto on December 13, 1988, initiated proceedings for the formation of Landscape Maintenance Assessment District No. 1 for the purpose of administering the maintenance of landscaping in the public right-of-way within the street medians and adjacent to the access control walls in Dry Creek Meadows Subdivisions Nos. 1-6, and

WHEREAS, said assessment district was formed in accordance with the Landscape and Lighting Act of 1972, (California Streets and Highways Code Sections 22500 through 22679), and

WHEREAS, Section 22623 of the California Streets and Highways Code requires the Community Development Manager, the person designated by this Council as Engineer of Work for Assessment District No. 1, to prepare and file an annual report, and

WHEREAS, the Engineer of Work, has prepared and filed said annual report with the City Clerk, and

WHEREAS, California Streets and Highways Code Section 22623 requires the legislative body (the City Council) to adopt a resolution of intention which shall include the following:

a. Declaration of intention of the legislative body (the City Council) to levy and collect assessments within the assessment district for the fiscal year stated in the annual report.

b. General description of the existing improvements and proposed improvements and any substantial changes proposed to be made in the existing improvements.

c. Reference to the assessment district by its distinctive designation and indication of the general location of the district.

d. Reference to said annual report, on file with the City Clerk, for a full and detailed description of the improvements, the boundaries of the assessment district and any zones therein, and the proposed assessments upon assessable lots and parcels of land within the district.

e. Notice of the time, as fixed by the California Streets and Highways Code Section 22625, and the place for hearing by the legislative body (the City Council) on the levy of the proposed assessment.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto hereby accepts the Fiscal Year 2017-2018 Engineer's Report for Landscape Maintenance Assessment District No. 1 for Dry Creek Meadows Subdivisions Nos. 1 through 6, which is **attached** hereto and hereinafter incorporated by reference.

BE IT FURTHER RESOLVED that the City Council hereby finds as follows:

1. The City Council intends to levy and collect assessments within Landscape Maintenance Assessment District No. 1 during the fiscal year 2017-18.

2. There are no proposed new improvements or any substantial changes in existing improvements in Landscape Maintenance Assessment District No. 1 and that the existing improvements to be made in said assessment district are generally described as follows:

The City shall provide maintenance, in perpetuity, of landscaping and any and all improvements required for such maintenance including, but not limited to, landscape irrigation systems in the following locations:

a. Street medians in Creekwood Drive

b. Areas adjacent to the access control walls along Creekwood Drive

c. Areas adjacent to the access control walls along Claus Road

3. Landscape Maintenance Assessment District No. 1 is located in the County of Stanislaus, within the City Limits of the City of Modesto and is more specifically located on the west side of Claus Road, between Modesto Irrigation District Lateral No. 2 and State Route 132 (Yosemite Boulevard).

4. Said annual report filed with the City Clerk and approved by the Council does provide a full and detailed description of the improvements, the boundaries of the assessment district and any zones therein, and the proposed assessments upon assessable lots and parcels of land within Landscape Maintenance Assessment District No. 1.

5. On Tuesday, the 27th day of June, 2017, at the hour of 5:30 p.m., the City Council will conduct a public hearing on the question of the levy of the proposed annual assessment. The hearing will be held at the meeting place of the City Council located in the Tenth Street Place Chambers located at 1010 10th Street, Modesto, California.

6. The City Clerk is authorized and directed to give the notice of hearing required by the Landscape and Lighting Act of 1972.

7. The levy and collection of assessments as set forth in this resolution are exempt from the procedural and substantive requirements of Proposition 218 pursuant to Article XIII, Section 5(a) of the California Constitution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

SECTION I HISTORY

On December 12, 1988, Landscape Maintenance Assessment District No. 1 ("LMAD No. 1") was formed in accordance with the Landscape and Lighting Act of 1972 (California Streets and Highway Code §22500 through §22679) ("the Act"), to administer the maintenance of landscaping in the public right-of-way within the street medians and adjacent to the access control walls in Dry Creek Meadows Subdivisions Nos. 1-6. All costs for the LMAD No. 1 are funded by the annual assessments levied on each property within the district. The Act requires several courses of action on the part of City staff and City Council prior to August 10th of each year.

The Act initially requires the City Council to order, prepare, and file an Engineer's Annual Report for the City Council. This report is prepared for the purpose of detailing the plans and specifications for the maintenance of work, the estimated costs for landscape maintenance performed by City contractors, utility service charges, City street tree pruning costs, City staff time to administer the maintenance contract, and additional work to be performed by the City Contractor at the request of the City.

LMAD No. 1 is located east of North McClure Road and southwest of MID Lateral #2 and Claus Road. It is comprised of 749 single-family residential lots and three (3) public agency owned parcels. An annual assessment of $26 per single-family residential parcel has remained the same since 1996. The total assessment to be levied for LMAD No. 1 for Fiscal Year 2017-2018 is $19,474.

Upon the City Council's approval of the Engineer's Annual Report, the City Council adopts a resolution declaring its intent to levy and collect assessments within LMAD No. 1 for the following fiscal year and schedules a public hearing. This public hearing and proposed resolution levying the proposed assessments is in accordance with the annual assessment procedures.

Finally, in compliance with the Act, the City Council conducts the public hearing and adopts certain resolutions in accordance with the California Streets and Highways Code §22625 through §22641. The City Clerk is required to give the Modesto Bee notice of the public hearing no less than ten (10) days prior to the scheduled hearing date. All interested persons are afforded the opportunity to be heard during the public hearing. Should there be any protests, whether written or oral, the City Council may choose to continue the hearing to a later date and/or may change any part of the Engineer's Annual Report to address the concerns of the property owner(s). The adopted resolution is then forwarded to the Auditor-Controller of the County of Stanislaus for placement of such charges on the upcoming year's County Tax Roll.

SECTION II ANNUAL ASSESSMENT REVIEW AND SUMMARY

A. PARCEL REVIEW

1. Single Family Residential Parcels:
   There are 749 single-family residential parcels located within LMAD No. 1.

2. Multi-Family Residential Parcels:
   There are no multi-family residential parcels located within LMAD No. 1.

3. Commercial/Industrial Parcels:
   There are no commercial or industrial parcels located within LMAD No. 1.

4. Public Agency Parcels:
   There are two (2) parcels owned by the City of Modesto (Creekwood Park and the Pedestrian Overcrossing at Claus Road) and one (1) parcel owned by the Empire School District (Bernard Hughes School). According to §22663 of the California Streets and Highways Code, public property owned by any public agency and in use in the performance of a public function shall not be subject to assessment.

B. 2017-2018 ANNUAL ASSESSMENTS

All single-family residential parcels are levied at a flat rate of $26.00 per parcel. Each parcel receives equal benefits from the District. The annual assessments levied are calculated by multiplying the total number of parcels by the flat rate.

$	26.00	Annual assessment per parcel
x	749	Single-family residential parcels
$	19,474.00	Total annual assessment

C. COMPARISON TO PREVIOUS FISCAL YEAR

The proposed Fiscal Year 2017-2018 annual assessment is the same as the annual assessment for Fiscal Year 2016-2017 of $26.00 per single-family residential parcel.

SECTION 3 FINANCIALS – ANNUAL ASSESSMENT REVENUE & EXPENSE PROJECTIONS

LMAD No. 1 Fund 5480		Estimated FY 2016-17[1]	Proposed FY 2017-18[2]

RESOLUTION ACCEPTING FISCAL YEAR 2017-2018 ENGINEER'S REPORT FOR LANDSCAPE MAINTENANCE ASSESSMENT DISTRICT NO. 2 FOR DRY CREEK MEADOWS SUBDIVISIONS NOS. 7-10, CREEKWOOD MEADOWS SUBDIVISION, AND YOSEMITE SUBDIVISION; NOTICE OF INTENTION TO LEVY AND COLLECT ASSESSMENTS FOR LANDSCAPE MAINTENANCE ASSESSMENT DISTRICT NO. 2 FOR DRY CREEK MEADOWS SUBDIVISIONS NOS. 7-10, CREEKWOOD MEADOWS SUBDIVISION, AND YOSEMITE MEADOWS SUBDIVISION AND SETTING A PUBLIC HEARING ON JUNE 27, 2017 TO CONSIDER THE FISCAL YEAR 2017-18 LEVY AND COLLECTION OF ASSESSMENTS WITHIN LANDSCAPE MAINTENANCE ASSESSMENT DISTRICT NO. 2

WHEREAS, Resolution No. 89-460, adopted by the Council of the City of Modesto on April 4, 1989, initiated proceedings for the formation of Landscape Maintenance Assessment District No. 2 for the purpose of administering the maintenance of landscaping in the public right of way within the street medians and adjacent to the access control walls in Dry Creek Meadows Subdivisions Nos. 7-10, Creekwood Meadows Subdivision and Yosemite Meadows Subdivision Units Nos. 1 and 2, and

WHEREAS, said assessment district was formed in accordance with the Landscaping and Lighting Act of 1972, (California Streets and Highways Code Sections 22500 through 22679), and

WHEREAS, Section 22623 of the California Streets and Highways Code requires the Community Development Manager, the person designated by the Council as Engineer of Work for Assessment District No. 2, to prepare and file an annual report, and

WHEREAS, the Community Development Manager, said Engineer of Work, has prepared and filed said annual report with the City Clerk, and

WHEREAS, California Streets and Highways Code Section 22623 requires the Council to adopt a resolution of intention which shall include the following:

a. Declaration of intention of the Council to levy and collect assessments within the assessment district for the fiscal year stated in said annual report.

b. General description of the existing improvements and proposed improvements and any substantial changes proposed to be made in the existing improvements.

c. Reference to the assessment district by its distinctive designation and indication of the general location of the district.

d. Reference to said annual report, on file with the City Clerk, for a full and detailed description of the improvements, the boundaries of the assessment district and any zones therein, and the proposed assessments upon assessable lots and parcels of land within the district.

e. Notice of the time, as fixed by California Streets and Highways Code Section 22625, and the place for hearing by the Council on the levy of the proposed assessment.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the Fiscal Year 2017-2018 Engineer's Report for Landscape Maintenance Assessment District No. 2 for Dry Creek Meadows subdivisions Nos. 7-10, Creekwood Meadows subdivision and Yosemite subdivision.

BE IT FURTHER RESOLVED that the Council hereby finds as follows:

1. The City Council intends to levy and collect assessments within Landscape Maintenance Assessment District No. 2 during the fiscal year 2017-2018.

2. There are no proposed new improvements or any substantial changes in the existing improvements within the existing Landscape Maintenance Assessment District No. 2, and the existing improvements to be made in said assessment district are generally described as follows:

The City shall provide maintenance, in perpetuity, of landscaping and any and all improvements required for such maintenance including, but not limited to, landscape irrigation systems in the following locations:

a. Street medians in Creekwood Drive

b. Areas adjacent to the access control walls along Creekwood Drive

c. Areas adjacent to the access control walls along Claus Road

3. Landscape Maintenance Assessment District No. 2 is located in the County of Stanislaus, within the City limits of the City of Modesto, and is more specifically located on the northeast corner of Yosemite Boulevard and North McClure Road. District 2 is bounded by Yosemite Boulevard on the south, North McClure Road on the west, Yosemite Meadows Drive on the east, and Mechalys Way on the north.

4. Said annual report filed with the City Clerk and approved by the Council does provide a full and detailed description of the improvements, the boundaries of the assessment district and any zones therein, and the proposed assessments upon assessable lots and parcels of land within Landscape Maintenance Assessment District No. 2.

5. On Tuesday, the 27th day of June, 2017, at the hour of 5:30 p.m., the City Council will conduct a public hearing on the question of the levy of the proposed annual assessment. The hearing will be held at the meeting place of the City Council located in the Tenth Street Place Chambers located at 1010 10th Street, Modesto, California.

6. The City Clerk is authorized and directed to give the notice of hearing required by the Landscaping and Lighting Act of 1972.

7. The levy and collection of assessments as set forth in this resolution shall follow the procedural and substantive requirements of Proposition 218 pursuant to Article 13D, Section 5(a) of the California Constitution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-183

RESOLUTION ACCEPTING THE FISCAL YEAR 2017-2018 ENGINEER'S REPORT FOR THE SHACKELFORD LANDSCAPE AND LIGHTING DISTRICT; NOTICE OF INTENTION TO LEVY AND COLLECT ASSESSMENTS FOR THE SHACKELFORD LANDSCAPE AND LIGHTING DISTRICT; AND SETTING A PUBLIC HEARING ON THE PROPOSED ASSESSMENTS TO BE HELD ON JUNE 27, 2017 TO CONSIDER THE 2017-18 LEVY AND COLLECTION OF ASSESSMENTS WITHIN SHACKELFORD LANDSCAPE AND LIGHTING DISTRICT

WHEREAS, on June 29, 1999, the County of Stanislaus ("County") formed the Shackelford Landscape and Lighting District ("Shackelford LLD") for the purpose of administering the maintenance of seventy-seven (77) 200-watt high-pressure sodium streetlights, and

WHEREAS, the Shackelford LLD was formed in accordance with the Landscaping and Lighting Act of 1972 (Streets and Highways Code Sections 22500 through 22679), and

WHEREAS, the Shackelford LLD is comprised of approximately 153 acres, includes 495 lots with both residential and commercial development, and is bounded by Crows Landing on the west, E. Hatch Road on the south, Union Pacific Railroad on the east, and State Route 99 on the north, and

WHEREAS, on February 22, 2012, the Stanislaus County Local Agency Formation Commission ("LAFCO") approved the annexation of the Shackelford Area to the City of Modesto ("City"), and

WHEREAS, on April 24, 2012, the City Council approved the Shackelford Landscape and Lighting District Transfer Agreement between the County and City, and

WHEREAS, the City assumed full responsibility and administration of the Shackelford LLD on July 1, 2012, and

WHEREAS, Section 22623 of the California Streets and Highways Code requires the Community Development Manager, the person designated by this Council as Engineer of Work for the Shackelford LLD, to prepare and file an annual report, and

WHEREAS, the Engineer of Work has prepared and filed said annual report with the City Clerk, and

WHEREAS, California Streets and Highways Code Section 22623 requires the legislative body (the City Council) to adopt a resolution of intention which shall include the following:

a. Declaration of intention of the legislative body (the City Council) to levy and collect assessments within the Shackelford LLD for the fiscal year stated in the annual report.

b. General description of the existing improvements and proposed improvements and any substantial changes proposed to be made in the existing improvements.

c. Reference to the assessment district by its distinctive designation and indication of the general location of the Shackelford LLD.

d. Reference to said annual report, on file with the City Clerk, for a full and detailed description of the improvements, the boundaries of the Shackelford LLD and any zones therein, and the proposed assessments upon assessable lots and parcels of land within the Shackelford LLD.

e. Notice of the time, as fixed by the California Streets and Highways Code Section 22625, and the place for hearing by the legislative body (the City Council) on the levy of the proposed assessment.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the Fiscal Year 2017-18 Engineer's Report for the Shackelford Landscape and Lighting District.

BE IT FURTHER RESOLVED that the City Council hereby finds the following:

1. The City Council intends to levy and collect assessments within the Shackelford LLD during the fiscal year 2017-18.

2. There are no proposed new improvements or any substantial changes in the existing improvements in the Shackelford LLD and the existing improvements to be made in the Shackelford LLD are generally described as follows:

The City shall provide maintenance, operation and servicing, in perpetuity, of streetlights and any and all improvements required for such maintenance including, but not limited to:

a. Payment to local utility company for monthly power costs of energizing street lights in the Shackelford LLD.

b. Payment to local utility company for maintenance of street lights in the Shackelford LLD that the utility company owns (usually those lights that are mounted on wooden poles).

c. Maintenance provided by the City of Modesto for street lights in the Shackelford LLD that are owned by the City of Modesto (usually those lights that are mounted on steel poles).

3. The Shackelford LLD is located in the County of Stanislaus, within the City Limits of the City of Modesto and is more specifically located North of Hatch Road, South of State Highway 99, and East of Crows Landing Road.

4. Said annual report filed with the City Clerk and approved by the Council by motion does provide a full and detailed description of the improvements, the boundaries of the Shackelford LLD and any zones therein, and the proposed assessments upon assessable lots and parcels of land within the Shackelford LLD.

5. On Tuesday, the 27th day of June, 2017, at the hour of 5:30 p.m., the City Council will conduct a public hearing on the questions of the levy of the proposed annual assessment. The hearing will be held at the meeting place of the City Council located in the Tenth Street Place Chambers located at 1010 10th Street, Modesto, California.

6. The City Clerk is authorized and directed to give the notice of hearing required by the Landscape and Lighting Act of 1972.

7. The levy and collection of assessments as set forth in this resolution are exempt from the procedural and substantive requirements of Proposition 218 pursuant to Article XIII, Section 5(a) of the California Constitution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING THE SUBMISSION OF A GRANT APPLICATION TO THE FM GLOBAL FIRE PREVENTION GRANT PROGRAM FOR APPROXIMATELY $3,800 FOR THE PURCHASE OF BI-LINGUAL FIRE SAFETY MATERIALS AND THE PURCHASE OF A SPARKY THE FIRE DOG MASCOT/COSTUME AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE ALL GRANT APPLICATIONS AND RELATED DOCUMENTS

WHEREAS, the grant would be for approximately $3,800 to fund the purchase of a Sparky the Fire Dog Mascot/Costume and Bi-Lingual Fire Safety Materials, and

WHEREAS, the grant would provide resources for delivering fire safety materials to underserved populations that are currently not able to be served due to language barriers, and

WHEREAS, the grant would provide the ability to participate in mascot requests throughout the year that the Fire Department is currently unable to fulfill, and

WHEREAS, the Sparky the Fire Dog mascot/costume is licensed through the National Fire Protection Association (NFPA). Robotronics in Springville, Utah holds the exclusive license to produce the mascot/costume for the NFPA. Therefore, a competitive bidding process will not be appropriate. All necessary documentation pertaining to the sole source procurement will be obtained in accordance with the City's Purchasing Policy and in accordance with Modesto Municipal Code section 8-3.204, and

WHEREAS, the bi-lingual materials are not expected to be over $1,000 and as such are not expected to require a competitive bidding process. All purchases will be made in accordance with the City's Purchasing Policy, and

WHEREAS, there is no fiscal or no known or expected out of pocket expenses. The grant will fully cover all associated costs of the items, and

WHEREAS, should the grant be awarded, staff will return to Council for approval of acceptance of the grant, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the submission of a grant application to the FM Global Fire Prevention Grant Program for approximately $3,800 for the purchase of a Sparky the Fire Dog mascot/costume and the purchase of bi-lingual fire safety materials.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is authorized to execute all necessary grant applications and grant related documents, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING THE SUBMISSION OF A FIRE PREVENTION AND SAFETY GRANT APPLICATION TO THE FEDERAL EMERGENCY MANAGEMENT AGENCY FOR APPROXIMATELY $143,000 TO ACQUIRE A COMBINATION SPRINKLER AND FIRE SAFETY HOUSE DEMONSTRATION TRAILER AND A 1-TON PICKUP WITH A REQUIRED A ONE-TIME COST SHARE OF 5%, OR AN ESTIMATED $7,150, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE ALL GRANT APPLICATIONS AND RELATED DOCUMENTS.

WHEREAS, the grant would be for approximately $143,000 to fund the purchase of a Combination Sprinkler and Fire Safety House Demonstration Trailer and a 1-Ton Pickup, and

WHEREAS, the grant would include a one-time cost sharing or matching funds allocation of five (5) percent of the award amount, which is estimated to be approximately $7,150 and could be made under its existing budget authority, and

WHEREAS, the grant would allow hands on demonstrations and practice to our citizens in the areas of fire and life safety improving the delivery of our public education and community outreach efforts, and

WHEREAS, the grant would allow for demonstrations showing the benefits of residential fire sprinklers and general fire safety, and

WHEREAS, if authorized to submit the grant application, staff will seek approval from the Acting City Manager to authorize the Purchasing Division to issue a formal Request for Bids (RFB) for the trailer and pickup truck, and

WHEREAS, should the grant be awarded to the City, return to Council for permission to accept the grant and to award the bid for the purchase of the trailer and pickup as required by MMC 8-3.203.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the submission of a Fire Prevention and Safety Grant application to the Federal Emergency Management Agency for approximately $143,000 to acquire a Combination Sprinkler and Fire Safety House Demonstration Trailer and a 1-Ton Pickup with a required a one-time cost share of 5%, or an estimated $7,150.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is authorized to execute all necessary grant applications and related documents, as approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING AN AMENDMENT TO THE CURRENTCONTRACT WITH AXON ENTERPRISES, INC., FORMERLY KNOWN AS TASER INTERNATIONAL, INC., AND REDUCING THE TOTAL CONTRACT AMOUNT TO $1,492,798, DUE TO THE CANCELATION OF AXON FLEET RELATED HARDWARE AND SOFTWARE, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE CONTRACT AMENDMENT

WHEREAS, on August 3, 2016, City Council approved a five (5) year contract with Taser International, Inc. for Axon Flex replacement body-worn cameras, Axon Fleet car-mounted camera systems, unlimited video storage and maintenance for the Modesto Police Department's Taser Axon Flex camera system, in addition to new Conducted Electrical Weapons (CEW's) in the amount of $1,798,796, and

WHEREAS, on April 5, 2017, Taser International, Inc. legally changed its corporate name to Axon Enterprise, Inc., with no change to ownership or control, with the sole purpose of the change to reflect the growing Axon network of devices, applications, and staff, and

WHEREAS, on April 11, 2017, the Modesto Police Department received an amendment to the master services and purchasing agreement to allow the City of Modesto to cancel the portion of the agreement relating to Axon Fleet hardware and software, specifically, 69 in-car, dual camera systems, 215 Axon Flex signal controllers, and the annual storage and integration maintenance for Fleet Evidence.com, and

WHEREAS, the cancellation in hardware and software as outlined in the amendment agreement reduces the first year obligation by $120,853, and each additional years' contract obligation by $46,077, for a total contract savings over five (5) years of $313,596.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an amendment to the current (5) five year contract with Axon Enterprises, Inc., formerly known as Taser International, Inc., and reducing the total contract amount to $1,492,798, due to the cancelation of Axon Fleet related hardware and software.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the Contract Amendment.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-187

RESOLUTION APPROVING AN AGREEMENT WITH WEST YOST ASSOCIATES, INC., PLEASANTON, CA, FOR DESIGN SERVICES FOR THE DEL RIO REPLACEMENT WELL 271 PROJECT, IN AN AMOUNT NOT TO EXCEED $777,900 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS $77,790 FOR ADDITIONAL NECESSARY SERVICES, FOR A MAXIMUM TOTAL AMOUNT OF $855,690, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, Well 271 was identified for replacement in the 2010 Water System Engineer's Report (2010 WSER, adopted by City Council on September 14, 2010, by Resolution No. 2010-409) to meet the needs of the existing Del Rio water system, and

WHEREAS, in accordance with Administrative Directive 3.1, Selection Procedures for Professional Consultants Who Provide Architectural and Engineering Services for Capital Projects, West Yost Associates, Inc. (West Yost) was selected in 2011 to provide hydrogeological and construction support for a test well on the proposed replacement well site, and

WHEREAS, West Yost is on the pre-qualified consultant list for water design services established by Council Resolution No. 2016-403, and

WHEREAS, with West Yost's previous selection and knowledge of the test well, staff has determined that West Yost is most qualified to provide design, bid and construction support for the Del Rio replacement well, and

WHEREAS, the scope of services to be provided under the agreement includes: 1) Design of production well, including subsurface design; 2) Hydrogeological support during drilling of production well; 3) Design of above-grade facilities; and 4) Construction support, and

WHEREAS, in consideration of the Settlement Agreement with the Del Rio Community Association, and the City's obligation to complete the recommended improvements to meet the existing Del Rio water system needs, staff recommends approving this Agreement for Professional Services prior to the completion of the California Environmental Quality Act (CEQA) process and replacement well site property purchase, and

WHEREAS, staff has negotiated with the current property owner, but is unable to lawfully move forward with a purchase agreement until conclusion of the CEQA process, and

WHEREAS, similarly, construction support was included with the scope of work to increase efficiency and speed of project completion, in consideration of the Settlement Agreement with the Del Rio Community Association, and

WHEREAS, on February 28, 2017, by Resolution No. 2017-86, Council approved implementing a spending freeze in order to maintain fiscal sustainability of the City, and

WHEREAS, as allowed by this resolution, the City Manager's Office approved an exception to this freeze for this procurement, and

WHEREAS, justification for this exception is that the project is already approved and adopted as part of the current Fiscal Year 2016-2017 Capital Improvement Program, is needed to provide safe and reliable water distribution, and it will not require a budget transfer from reserves to provide the required services, and

WHEREAS, the design and bid period services for Del Rio Replacement Well 271 fall within the scope of services of West Yost's proposal, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, this agreement is for professional services and therefore exempt from the bid requirement, and

WHEREAS, staff recommends approval of the agreement with West Yost for design, bid period, well equipping and construction support services for the Del Rio Replacement Well 271 Project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement West Yost Associates, Inc., Pleasanton, CA, for design services for the Del Rio Replacement Well 271 Project, in an amount not to exceed $777,900 for the identified scope of services, plus $77,790 for additional necessary services, for a maximum total amount of $855,690.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-188

Print

RESOLUTION APPROVING A TWO-YEAR AGREEMENT WITH THREE ONE-YEAR EXTENSION OPTIONS FOR GENERATOR PREVENTATIVE MAINTENANCE AND REPAIR SERVICES FROM CENTRAL CALIFORNIA GENERATOR, RIVERBANK, CA, FOR THE UTILITIES DEPARTMENT, WASTEWATER AND WATER DIVISIONS, FOR AN ESTIMATED ANNUAL COST OF $115,000, AND OVER FIVE YEARS OF $575,000 AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO ISSUE A PURCHASING AGREEMENT

WHEREAS, the City of Modesto, Utilities Department, Water and Wastewater Divisions utilize an outside vendor for generator repair service and preventative maintenance, and

WHEREAS, the existing agreement expired in August, 2016, and

WHEREAS, the City Manager authorized the Purchasing Manager to issue formal Request for Bid (RFB) for Generator Preventative Maintenance and Repair Service, and

WHEREAS, on December 8, 2016, the Purchasing Division issued RFB 1617-09 for Generator Repair Service and Preventative Maintenance on the City's website under commodity codes for power generator equipment, accessories, and supplies, and

WHEREAS, prospective bidders were notified online of the bid opportunity with seven companies choosing to download the RFB document, and

WHEREAS, on January 10, 2017, bids were formally opened in the City Clerk's office with three companies choosing to respond, and

WHEREAS, all companies provided responsive and responsible bids and no local vendors capable of providing this type of service chose to respond, and

WHEREAS, based on providing the overall lowest responsive and responsible bid, staff recommends the award of the bid for the purchase of Generator Preventative

Maintenance and Repair Services to Central California Generator, Riverbank, CA, for an estimated annual cost of $115,000, and over five years of $575,000, and

WHEREAS, on February 28, 2017, Council approved Resolution No. 2017-86 implementing a spending freeze in order to maintain fiscal sustainability of the City, and

WHEREAS, the City Manager's Office approved an exception to this freeze for this procurement and justification for this exception is crucial for Wastewater and Water operations as generators are used for emergency power, and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed $50,000 for material, equipment or contractual services to be formally bid and the award of bid for generator preventative maintenance and repair services conforms to Modesto Municipal Code Section 8-3.203,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the Acting City Manager, or his designee, to issue a Purchase Agreement to Central California Generator, Riverbank, CA for generator preventative maintenance and repair services for the Utilities Department, Wastewater and Water Divisions for a two (2) year agreement with three (3) one-year extension options at the sole discretion of the City for an estimated annual cost of $115,000 and over five (5) years of $575,000.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 9th day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING THE APPOINTMENT OF AMIN VOHRA AS THE 2017 PLANNING COMMISSION REPRESENTATIVE TO THE BOARD OF ZONING ADJUSTMENT WITH A TERM EXPIRATION OF DECEMBER 31, 2017

WHEREAS, Section 1102 of the Charter of the City of Modesto authorizes the City Council to appoint members to various Boards and Commissions, and

WHEREAS, the Planning Commission met on April 3, 2017, and recommended the appointment of Amin Vohra as its representative to the Board of Zoning Adjustment for 2017.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Modesto as follows:

1. Amin Vohra is hereby appointed as the 2017 Planning Commission representative to the Board of Zoning Adjustment, with a term expiration of December 31, 2017.

2. The City Clerk is hereby directed to transmit a copy of this resolution to the appointed member of the Board of Zoning Adjustment, and the Secretary thereof.

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 23rd day of May, 2017, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Madrigal , was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-191

RESOLUTION OF INTENTION TO ANNEX TERRITORY TO CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 2007-1 (NORTH BEYER PARK #2), AUTHORIZING THE LEVY OF A SPECIAL TAX WITHIN THE TERRITORY PROPOSED TO BE ANNEXED (ANNEXATION #1), AND RECINDING RESOLUTION 2016-345

WHEREAS, pursuant to Chapter 3.5 of Part 1 of Division 2 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the "Mello-Roos Community Facilities Act of 1982" (the Act), proceedings for annexation of additional territory to an existing community facilities district may be instituted by the adoption by the legislative body of a resolution of intention to annex such territory, and

WHEREAS, pursuant to the Act, this Council did, by its Resolution No. 2007-270, adopted on, May 8, 2007 (the Resolution of Formation) establish Community Facilities District No. 2007-1 (North Beyer Park #2) (the District), and

WHEREAS, on March 27, 2015, HealthSouth California Real Estate, LLC, the owners of approximately 4.94 acres located at 1303 Mable Avenue, APN 082-014-041 (Property), filed a completed application package requesting that its Property be annexed to CFD No. 2007-1, and

WHEREAS, on September 13, 2016 the Council, Resolution No. 2016-345, approved a Resolution of Intention to annex the Property to CFD No. 2007-1 and authorized the levy of a special tax on the Property, and

WHEREAS, subsequent to this approval, staff realized that the Rate and Method of Apportionment (RMA) adopted in 2007, did not accurately reflect the facilities the Property would utilize, and

WHEREAS, the public hearing originally set for October 25, 2016 was continued to November 1, 2016, and

WHEREAS, on November 1, 2016, the public hearing item was removed from the Council agenda and the annexation process was terminated, and

WHEREAS, the Property will utilize all the services authorized set forth in the Formation Hearing Report, dated May 30, 2007, except the storm drain basin, and

WHEREAS, pursuant to the Formation Hearing Report, the Maximum One-Time Facilities Special Tax and Maximum Annual Maintenance Special Tax rates will be "assigned to Parcels added to the CFD as a result of future annexations;" and

WHEREAS, the Formation Hearing Report is being amended to reflect the new maximum special tax rates associated with the Property, and

WHEREAS, because the Property is not utilizing the storm drain basin, it will not be required pay the portion of the Annual Maintenance Special Tax attributed to the storm drain basin, and

WHEREAS, City Council Resolution No. 2016-345 should be rescinded so that the annexation process for the Property can be restarted so that an Amended Rate and Method of Apportionment can be adopted to reflect a new Maximum Annual Special Tax Rate for the Property, and

WHEREAS, this Council hereby determines that the pubic convenience and necessity require the annexation, pursuant to Section 53339 of the Act, of certain territory to the District, and

WHEREAS, the territory to be annexed is within the City limits.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it finds as follows:

1. The above recitals are true and correct, and
2. The territory is proposed to be annexed to the District (the Annexed Territory) under the terms of the Act, and
3. The original boundaries of the District are shown on a map entitled "Proposed Boundaries of Community Facilities District No. 2007-1 of the City of Modesto, County of Stanislaus, State of California" on file with the County Recorder of the County of Stanislaus, at Volume 4 of Maps of Assessment and Community Facilities Districts, at Page 83, and
4. The Annexed Territory is described in **Exhibit "5"** to this Resolution, and
5. The boundaries of the Annexed Territory are also shown on the map thereof, entitled "Proposed Boundaries of Annexation No. 1 to the City of Modesto Community Facilities District No. 2007-1 (North Beyer Park #2)," on file in the office of the City Clerk, and hereby approved and adopted. Pursuant to Sections 3110.5 and 3113 of the California Streets and Highways Code, the City Clerk shall endorse her certificate on the original and one copy of the map evidencing the date and adoption of this Resolution, file the original in her office and, not later than ten (10) days after the adoption of this Resolution, file a copy of the map with the County Recorder of the County of Stanislaus. The map shall contain the legends provided in Sections 3110 and 3110.5 of the California Streets and Highways Code; including a reference to the title, book, page and

recording date of the original boundary map of the District, and

6. The type of services authorized to be provided to the District are set forth in the Formation Hearing Report, dated May 30, 2007, a copy of which is **attached** hereto as **Exhibit "2".** The Annexed Territory will utilize all of the services authorized to be provided with the exception of the storm drain basin, and
7. The Annual Maintenance Special Tax component of the special tax to be levied in the Annexed Territory are set forth in the Amended Rate and Method of Apportionment (Amended RMA) **attached** hereto as **Exhibit "4".** It is the intention of the City Council that in the event all of the subject taxes are not approved by the qualified electors of the Annexed Territory at an election to be held subsequent to the approval of this Resolution of Intention, that then, and in that sole event, the annexation of the Annexed Territory shall be a nullity, and void from the date of the public hearing on this resolution where it is approved, and
8. Pursuant to the Formation Hearing Report **attached** hereto as **Exhibit "3",** the Maximum Annual Special Maintenance Tax shall be adjusted annually, and
9. Pursuant to the Formation Hearing Report, the Maximum One-Time Facilities Special Tax and Maximum Annual Maintenance Special Tax rates will be "assigned to Parcels added to the CFD as a result of future annexations," and
10. The Formation Hearing Report will be amended to reflect the Amended

RMA for the Annexed Territory, with the following maximum tax rates for the Annexed Territory: the Maximum One-Time Facilities Special Tax for the Annexed Territory is $0.00 and the Maximum Annual Maintenance Special Tax is $4,873.79. Said rates are established in accordance with Section 53339.3 of the Act, and

11. A public hearing upon this Resolution shall be held at 5:30 p.m., or as soon thereafter as practicable, on Tuesday, July 11, 2017 in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, such time being not less than thirty (30) or more than sixty (60) days following the adoption thereof, and

12. At the hearing, any interested persons for or against the annexation of the Annexed Territory to the District, and the levy of the special tax therein, may appear and will be heard and considered. Any protest may be made orally or in writing. However, any protests pertaining to the regularity or sufficiency of the proceedings shall be in writing and clearly set forth the irregularities and defects to which the objection is made. All written protests shall be filed with the City Clerk on or before the time fixed for the public hearing. Written protests may be withdrawn in writing at any time before the conclusion of the hearing, and

13. The City Clerk is directed to publish, not later than seven days prior thereto, a notice of the hearing, in the form required by the Act, in a newspaper of general circulation published in the area of the District, being the Modesto Bee, and otherwise in accordance with Section 6061 of

the California Government Code, stating (a) the text or a summary of this Resolution, (b) the time and place of the hearing, and (c) that all interested persons for or against the proposed annexation or the levying of the special tax therein will be heard, and

14. If a majority (but at least six) of the registered voters residing within the District or a majority (but at least six) of the registered voters residing within the Annexed Territory, or the owners of one-half or more of the area of land in the District and not exempt from the special tax, or the owners of one-half or more of the Annexed Territory, file written protests against the proposed annexation of the Annexed Territory to the District, and the protests are not withdrawn so as to reduce the value of the protests to less than a majority, no further proceedings to annex the Annexed Territory, or to levy the District special tax therein, shall be taken for a period of one year from the date of the election of the Council on the issues discussed at the hearing, and

15. At the conclusion of the hearing, if the Council determines to annex the Annexed Territory, it shall then submit the levy of the District special tax to the qualified electors of the Annexed Territory in a special election. If held, the proposed voting procedure at the election is expected to be a landowner vote with each landowner of record as of the close of the Hearing having one vote for each acre of land or portions thereof owned within the Annexed Territory. Ballots for the special election may be distributed by mail or by personal service.

16. City Council Resolution No. 2016-345 is hereby rescinded.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Zoslocki, Mayor Brandvold
NOES:	Councilmembers:	None

EXHIBIT B

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT NO. 2007-1
(NORTH BEYER #2)

DESCRIPTION OF AUTHORIZED SERVICES AND FACILITIES TO BE FUNDED BY COMMUNITY FACILITIES DISTRICT NO. 2007-1

The authorized services to be funded by special tax revenues include maintenance and repair of parks, landscaped medians, storm drainage basins, and related facilities, including but not limited to, concrete curbs and walks, trees, shrubs, vines, ground cover, turf, lights and irrigation systems. The services to be provided include, but are not limited to, litter and debris removal, graffiti abatement, painting repairs to landscape structures, building maintenance and repairs, pruning, staking, fertilizing, plant replacement and restoration, fire and weed control, erosion control, mowing of lawns, trimming of vegetation, and maintenance, repair and replacement of lighting systems within the parks.

The facilities authorized to be funded by special tax revenues include installation of the landscaped medians on Oakdale and Coffee Roads, which may but will not necessarily include, concrete curbs and walks, trees, shrubs, ground cover, lights, and irrigation systems.

The District may also fund any of the following: (i) administrative fees of the City related to the District, including costs associated with preparing the annual special tax levy, or (ii) costs associated with legal services, advertising, legal notices, and mailings related to formation or administration of the District.

APPENDIX B

ANNEXATION NO. 1
CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT NO. 2007-1
(NORTH BEYER #2)

RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAXES

Special Taxes applicable to each Assessor's Parcel within Annexation No. 1 of Community Facilities District No. 2007-1 (North Beyer #2) shall be levied and collected according to the tax liability determined by the City Council of the City of Modesto, through the application of the appropriate amount or rate for Taxable Property, as described below. All of the property in Annexation No. 1, unless exempted by law or by the provisions of Section G below, shall be taxed for the purposes, to the extent, and in the manner herein provided.

A. DEFINITIONS

The terms hereinafter set forth have the following meanings:

"Act" means the Mello-Roos Community Facilities Act of 1982, as amended, being Chapter 2.5, (commencing with Section 53311), Division 2 of Title 5 of the California Government Code.

"Administrative Expenses" means any or all of the following: expenses incurred by the City in carrying out its duties with respect to Annexation No. 1, including, but not limited to, levying and collecting the Special Taxes; the fees and expenses of legal counsel; charges levied by the County Auditor's Office, Tax Collector's Office, and/or Treasurer's Office; costs related to property owner inquiries regarding the Special Taxes; and all other costs and expenses of the City in any way related to the establishment or administration of Annexation No. 1.

"Administrator" means the person or firm designated by the City to administer the Special Taxes according to this Rate and Method of Apportionment of Special Taxes.

"Annexation No. 1" means the property included within the first annexation into CFD No. 2007-1.

"Annual Maintenance Special Tax" means a special tax levied in any Fiscal Year to pay the Annual Maintenance Special Tax Requirement, as defined below.

"Annual Maintenance Special Tax Requirement" means that amount necessary in any Fiscal Year to (i) pay for Authorized Services, (ii) pay Administrative Expenses, and (iii) cure any delinquencies in the payment of Annual Maintenance Special Taxes levied in prior Fiscal Years or (based on delinquencies in the payment of Annual Maintenance Special Taxes which have already taken place) are expected to occur in the current Fiscal Year.

"Assessor's Parcel" or **"Parcel"** means a lot or parcel shown on an Assessor's Parcel Map with an assigned Assessor's Parcel number.

"Assessor's Parcel Map" means an official map of the County Assessor designating parcels by Assessor's Parcel number.

"Authorized Services" means those services that are authorized to be funded by the CFD.

"CFD" or **"CFD No. 2007-1"** means the City of Modesto Community Facilities District No. 2007-1 (North Beyer #2).

"CFD Formation" means the date on which the Resolution of Formation to form the CFD was adopted by the City Council.

"City" means the City of Modesto.

"City Council" means the City Council of the City of Modesto, acting as the legislative body of the CFD.

"County" means the County of Stanislaus.

"Developed Property" means, in any Fiscal Year, the following:

- for Single Family Detached Property, all Parcels for which a Final Map was recorded prior to June 30 of the preceding Fiscal Year but not prior to June 30, 2016,
- for Multi-Family Property, all Parcels for which a building permit for new construction of a residential structure was issued prior to June 30 of the preceding Fiscal Year but not prior to June 30, 2016, and
- for Other Property, all Parcels for which a building permit for construction of a building structure was issued prior to June 30 of the preceding Fiscal Year.

"Final Map" means a final map, or portion thereof, approved by the City pursuant to the Subdivision Map Act (California Government Code Section 66410 *et seq.*) that creates lots which do not need to be further subdivided prior to issuance of a building permit for a residential or non-residential structure. The term "Final Map" shall not include any Assessor's Parcel Map or subdivision map or portion thereof, that does not create lots that are in their final configuration, including Assessor's Parcels that are designated as remainder parcels.

"Fiscal Year" means the period starting July 1 and ending on the following June 30.

"Maximum Annual Maintenance Special Tax" means the greatest amount of Annual Maintenance Special Tax that can be levied on an Assessor's Parcel in any Fiscal Year determined in accordance with Sections C and D.

"**Maximum One-Time Facilities Special Tax**" means the greatest amount of One-Time Facilities Special Tax that can be levied on an Assessor's Parcel in any Fiscal Year determined in accordance with Sections C and D below.

"**Maximum Special Taxes**" means, collectively, the Maximum One-Time Facilities Special Tax and the Maximum Annual Maintenance Special Tax.

"**Multi-Family Property**" means all Parcels in Annexation No. 1 for which building permits have been issued for construction of a residential structure consisting of two or more residential units that share common walls, including but not limited to, townhomes, condominiums, duplexes, triplexes, fourplexes, and apartment units.

"**Net Taxable Acreage**" or "**Net Taxable Acre**" means the total acreage within a Final Map or Parcel less arterial road right-of-ways and property that is defined in the Final Map for use as a park site, school site, or City-owned or CFD-owned storm drainage basin. If a Subdivision Map is recorded which is not a Final Map for some or all Parcels created by the subdivision, the Administrator shall calculate the Net Taxable Acreage of such unsubdivided Parcels by identifying the Acreage of the Parcel and (i) adding a portion of the acreage of any non-arterial right-of-way that fronts the Parcel determined by drawing lines at right angles to the right-of-way, and (ii) subtracting a portion of the acreage of any arterial right-of-way that fronts the Parcel determined by drawing lines at right angles to the right-of-way. The Net Taxable Acreage of a Parcel or Final Map shall be determined in the sole discretion of the City.

"**One-Time Facilities Special Tax**" means a Special Tax, levied and collected in full by the City prior to a structural building permit being issued for new construction on Taxable Property.

"**Original Parcel**" means an Assessor's Parcel (or a parcel within a recorded Subdivision Map that has not yet been assigned an Assessor's Parcel number) that is in Annexation No. 1 at the time of CFD Formation or added to the CFD upon annexation. A Successor Parcel that is being further subdivided shall also be considered an Original Parcel for purposes of determining the Maximum Special Taxes pursuant to Section C below.

"**Other Property**" means, in any Fiscal Year, all Parcels of Taxable Property within the CFD for which building permits have been issued for construction of a non-residential structure.

"**Proportionately**" means, for Developed Property, that the ratio of the actual Annual Maintenance Special Tax levied in any Fiscal Year to the Maximum Annual Maintenance Special Tax authorized to be levied in that Fiscal Year is equal for all Assessor's Parcels of Developed Property, respectively. In addition, for Undeveloped Property, "Proportionately" means that the ratio of the actual Annual Maintenance Facilities Special Tax to the Maximum Annual Maintenance Special Tax is equal for all Assessor's Parcels of Undeveloped Property, respectively.

"**Public Property**" means any property within the boundaries of Annexation No. 1 that is owned by the federal government, State of California, County, City, or other public agency.

"Single Family Detached Lot" means an individual numbered lot, which is in its final configuration and for which a building permit may be issued for a single family detached unit.

"Single Family Detached Property" means, in any Fiscal Year, all Parcels of Developed Property for which a building permit was issued or will be issued for construction of a residential unit that does not share a common wall with another Unit.

"Special Taxes" means, collectively, the One-Time Facilities Special Tax and the Annual Maintenance Special Tax.

"Subdivision Map" means a Final Map, large lot subdivision map, or other map recorded with the County that results in the subdivision of an Original Parcel into two or more Successor Parcels.

"Successor Parcel" means an Assessor's Parcel of Taxable Property created by the subdivision or reconfiguration of an Original Parcel on which construction of a residential or non-residential structure is permitted.

"Taxable Property" means all of the Assessor's Parcels within the boundaries of Annexation No. 1 which are not exempt from the Special Tax pursuant to law or Section G below.

"Taxable Public Property" means, in any Fiscal Year, all Parcels of Public Property within Annexation No. 1 that, at the time of CFD Formation, were expected to be Taxable Property, and, based on this expectation, Maximum Special Taxes were assigned to the Parcels in a prior Fiscal Year.

"Undeveloped Property" means, in any Fiscal Year, all Parcels of Taxable Property within Annexation No. 1 that are not Developed Property.

B. DATA FOR ANNUAL ADMINISTRATION

On or about July 1 of each Fiscal Year, the Administrator shall identify the current Assessor's Parcel numbers for all Parcels of Taxable Property in Annexation No. 1. The Administrator shall also determine (i) whether each Assessor's Parcel of Taxable Property is Developed Property or Undeveloped Property, (ii) the Net Taxable Acreage of each Parcel, and (iii) the Annual Maintenance Special Tax Requirement.

In any Fiscal Year, if it is determined that (i) a Subdivision Map for a portion of property in Annexation No. 1 was recorded after January 1 of the prior Fiscal Year (or any other date after which the Assessor will not incorporate the newly-created Parcels into the then current tax roll), (ii) because of the date the Subdivision Map was recorded, the Assessor does not yet recognize the new Parcels created by the Subdivision Map, and (iii) one or more of the newly-created Parcels meets the definition of Developed Property, the Administrator shall calculate the Special Tax for the property affected by recordation of the Subdivision Map by determining the Special Tax that applies

separately to each newly-created Parcel, then applying the sum of the individual Special Taxes to the Original Parcel or Successor Parcel that was subdivided by recordation of the Subdivision Map.

C. MAXIMUM SPECIAL TAXES

1. Original Parcels

Table 1 below identifies the Maximum One-Time Facilities Special Tax and Maximum Annual Maintenance Special Tax assigned to each Original Parcel in the CFD at the time of CFD Formation. Separate Maximum Special Taxes shall be assigned to Parcels added to the CFD as a result of future annexations.

TABLE 1
MAXIMUM SPECIAL TAXES
FISCAL YEAR 2016-17

Fiscal Year 2016-17 Assessor's Parcel Number or Subdivision Map Parcel Number	*Fiscal Year 2016-17 Maximum One-Time Facilities Special Tax**	*Fiscal Year 2016-17 Maximum Annual Maintenance Special Tax**
082-014-041	$0	$4,873.79

** Special Taxes shown in Table 1 are subject to the annual adjustments described in Section D below.*

2. Successor Parcels

Upon recordation of a Subdivision Map that subdivides an Original Parcel, the Administrator shall apply the appropriate subsection below to determine the Maximum Special Taxes for each Successor Parcel:

a. *All Successor Parcels are Single Family Detached Lots*

If all Parcels created by a recorded Subdivision Map are Single Family Detached Lots, the Administrator shall divide the Maximum Special Taxes assigned to the Original Parcel that was subdivided by the number of Single Family Detached Lots created within the Subdivision Map to determine the Maximum Special Taxes for each Single Family Detached Lot.

b. *No Successor Parcels are Single Family Detached Lots*

If none of the Successor Parcels created by recordation of a Subdivision Map are Single Family Detached Lots, the Administrator shall apply the following steps to allocate the Maximum Special Taxes assigned to the Original Parcel to each of the Successor Parcels:

Step 1: Determine the total combined Net Taxable Acreage within all Successor Parcels created from subdivision or reconfiguration of the Original Parcel.

Step 2: Divide the Maximum One-Time Facilities Special Tax and the Maximum Annual Maintenance Special Tax assigned to the Original Parcel by the Net Taxable Acreage determined in Step 1 to determine a Maximum One-Time Facilities Special Tax and a Maximum Annual Maintenance Special Tax per Net Taxable Acre.

Step 3: Multiply the Maximum Special Taxes per Net Taxable Acre determined in Step 2 by the Net Taxable Acreage of each Successor Parcel of Taxable Property to determine the Maximum One-Time Facilities Special Tax and Maximum Annual Maintenance Special Tax for each Parcel.

If, after subdivision of an Original Parcel, a Successor Parcel is further subdivided, the Successor Parcel shall be treated as an Original Parcel for purposes of allocating Maximum Special Taxes pursuant to Section C.2a, C.2b, or C.2c, as appropriate.

c. *Some, But Not All, Successor Parcels are Single Family Detached Lots*

If a Subdivision Map divides an Original Parcel into Successor Parcels, of which some are Single Family Detached Lots and some are not, the Administrator shall apply the following steps to determine the Maximum Special Taxes for each Successor Parcel:

Step 1: Separately identify: (i) the total Net Taxable Acreage created within the Subdivision Map, and (ii) the combined Net Taxable Acreage of all Single Family Detached Lots created within the Subdivision Map.

Step 2: Divide the Maximum One-Time Facilities Special Tax assigned to the Original Parcel by the total Net Taxable Acreage created within the Subdivision Map to determine the Maximum One-Time Facilities Special Tax per Net Taxable Acre.

Step 3: Divide the Maximum Annual Maintenance Special Tax assigned to the Original Parcel by the total Net Taxable Acreage created within the Subdivision Map to determine the Maximum Annual Maintenance Special Tax per Net Taxable Acre.

Step 4: Multiply the Maximum One-Time Facilities Special Tax per Net Taxable Acre that was calculated in Step 2 by the total combined Net Taxable Acreage of all Single Family Detached Lots (as determined in Step 1), and divide the product by the number of Single Family Detached Lots created in the Subdivision Map to calculate the Maximum One-Time Facilities Special Tax for each Single Family Detached Lot.

Step 5: Multiply the Maximum Annual Maintenance Special Tax per Net Taxable Acre that was calculated in Step 3 by the total combined Net Taxable Acreage of all Single Family Detached Lots (as determined in Step 1), and divide the product by the number of Single Family Detached Lots created in the Subdivision Map to calculate the Maximum Annual Maintenance Special Tax for each Single Family Detached Lot.

Step 6: Multiply the Maximum One-Time Facilities Special Tax per Net Taxable Acre that was calculated in Step 2 by the Net Taxable Acreage of each Parcel of Taxable Property created within the Subdivision Map that is not a Single Family Detached Lot to determine the Maximum One-Time Facilities Special Tax for each Parcel.

Step 7: Multiply the Maximum Annual Maintenance Special Tax per Net Taxable Acre that was calculated in Step 3 by the Net Taxable Acreage of each Parcel of Taxable Property created within the Subdivision Map that is not a Single Family Detached Lot to determine the Maximum Annual Maintenance Special Tax for each Parcel.

If, after subdivision of an Original Parcel, a Successor Parcel is further subdivided, the Successor Parcel shall be treated as an Original Parcel for purposes of allocating Maximum Special Taxes pursuant to Section C.2a, C.2b, or C.2c, as appropriate.

After each reallocation of the Maximum Special Taxes upon subdivision or reconfiguration of Original Parcels, the sum of the Maximum Special Taxes assigned to Successor Parcels shall never be less than the Maximum Special Taxes assigned to the Original Parcels prior to such reallocation.

D. ESCALATION OF MAXIMUM SPECIAL TAXES

1. One-Time Facilities Special Tax

Beginning in January 2017 and each January thereafter, the Maximum One-Time Facilities Special Tax assigned to each Parcel shall be adjusted by the greater of (i) the percentage increase, if any, in the construction cost index for the San Francisco region for the prior twelve (12) month period as published in the Engineering News Record or other comparable source if the Engineering News Record is discontinued or otherwise not available, or (ii) four percent (4.0%). Each annual adjustment of the One-Time Facilities Special Tax shall become effective on the subsequent July 1.

2. Annual Maintenance Special Tax

Beginning in January 2017 and each January thereafter, the Maximum Annual Maintenance Special Tax assigned to each Parcel shall be adjusted by the greater of (i) the percentage increase, if any, in the construction cost index for the San Francisco region for the prior twelve (12) month period as

published in the Engineering News Record or other comparable source if the Engineering News Record is discontinued or otherwise not available, or (ii) four percent (4.0%). Each annual adjustment of the Maximum Annual Maintenance Special Tax shall become effective on the subsequent July 1.

E. METHOD OF LEVY OF THE SPECIAL TAX

1. One-Time Facilities Special Tax

The Maximum One-Time Facilities Special Tax determined pursuant to Sections C and D above shall be levied on all Taxable Property in Annexation No. 1 and shall be collected as set forth in Section F below.

2. Annual Maintenance Special Tax

Each Fiscal Year, the Administrator shall determine the Annual Maintenance Special Tax Requirement for the Fiscal Year. The Annual Maintenance Special Tax shall then be levied on all Parcels of Taxable Property as follows:

Step 1: The Annual Maintenance Special Tax shall be levied Proportionately on each Parcel of Developed Property within the CFD up to 100% of the Maximum Annual Maintenance Special Tax for each Parcel for such Fiscal Year.

Step 2: If additional revenue is needed after Step 1, the Annual Maintenance Special Tax shall be levied Proportionately on each Assessor's Parcel of Undeveloped Property within the CFD, up to 100% of the Maximum Annual Maintenance Special Tax for each Parcel of Undeveloped Property for such Fiscal Year.

Step 3: If additional revenue is needed after applying the first two steps, the Annual Maintenance Special Tax shall be levied Proportionately on each Assessor's Parcel of Taxable Public Property, up to 100% of the Maximum Annual Maintenance Special Tax assigned to each Parcel of Taxable Public Property.

F. COLLECTION OF SPECIAL TAX

The Maximum One-Time Facilities Special Tax shall be collected prior to a building permit being issued for new construction of any residential or non-residential structure on Taxable Property within Annexation No. 1, and shall be immediately delinquent if not so paid.

The Annual Maintenance Special Tax for Annexation No. 1 shall be collected in the same manner and at the same time as ordinary ad valorem property taxes, provided, however, that the City may directly bill, collect at a different time or in a different manner, and/or collect delinquent Annual

Maintenance Special Taxes through foreclosure or other available methods. The Annual Maintenance Special Tax shall be levied and collected unless and until the City determines that the Annual Maintenance Special Tax no longer needs to be levied to pay Authorized Services and all Administrative Expenses have been reimbursed.

G. EXEMPTIONS

Notwithstanding any other provision of this Rate and Method of Apportionment of Special Taxes, no Special Taxes shall be levied on Public Property except Taxable Public Property, as defined herein.

H. INTERPRETATION OF SPECIAL TAX FORMULA

The City reserves the right to make minor administrative and technical changes to this document that do not materially affect the Rate and Method of Apportionment of Special Taxes. In addition, the interpretation and application of any section of this document shall be left to the City's discretion. Interpretations may be made by the City by ordinance or resolution for purposes of clarifying any vagueness or ambiguity in this Rate and Method of Apportionment of Special Taxes.

I. ENFORCEMENT

All delinquent One-Time Facilities Special Taxes, or delinquent Annual Maintenance Special Taxes billed off the County tax roll, shall be subject to an immediate 10% penalty plus interest charges of 1.5 % as of the first day of the month after the delinquency date and on the first day of each month thereafter. Any such delinquent Special Taxes shall, at the City's discretion, be place on the next secured property tax roll. The amount placed on the roll shall include the 10% penalty and the interest charges through the following January 1. This shall not prevent the City from simultaneously pursing the delinquency by an action on a contract of guarantee against a third party who promised to pay the taxes, or from assigning such right of action to the property owner or other appropriate party.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT NO. 2007-1
(NORTH BEYER #2)

INTRODUCTION. The City Council (the "City Council") of the City of Modesto (the "City") did on May 8, 2007, pursuant to the provisions of the Mello-Roos Community Facilities Act of 1982 (the "Law"), adopt Resolution No. 2007-270, a Resolution declaring its intention to establish the City of Modesto Community Facilities District No. 2007-1 (North Beyer #2) and to authorize the levy of a special tax within the CFD. In the Resolution of Intention, the City Council expressly ordered the preparation of a written Formation Hearing Report (the "Report") for the proposed Community Facilities District (the "District"), as required by Section 53321.5 of the Law.

Section 53321.5 of the Law does direct that the Report generally contain the following:

1. A brief description of the facilities and services to be funded by the District; and

2. An estimate of the cost of providing the facilities and services.

For particulars, reference is made to the Resolution of Intention for the District, as previously approved and adopted by the City Council.

NOW, THEREFORE, the following data is submitted pursuant to the direction of the City Council:

A. DESCRIPTION OF SERVICES. A description of the services and facilities eligible to be funded by the District is provided in Exhibit "A" attached hereto and hereby made a part hereof.

B. PROPOSED BOUNDARIES OF THE COMMUNITY FACILITIES DISTRICT. The proposed boundaries of the District are those parcels on which special taxes may be levied to pay for the costs of the services and facilities. The proposed boundaries of the District are described in the map of the District recorded in Book 4 on Page 83 of Maps of Assessment and Community Facilities Districts in the office of the County Recorder for the County of Stanislaus, a copy of which map is on file with the City Clerk. Additional property is expected to be annexed into the District in future years; an amended boundary map will be recorded after each annexation.

C. COST ESTIMATE. The cost estimate for funding the authorized services and facilities is set forth in Exhibit "B" attached hereto and hereby made a part hereof.

D. DESCRIPTION OF THE RATE AND METHOD OF APPORTIONMEN OF SPECIAL TAX. A one-time facilities special tax will be levied on all parcels of taxable property at the issuance of a structural building permit. In addition, an annual maintenance special tax will be levied on all parcels of taxable property pursuant to the Rate and Method of Apportionment of Special Tax (the "RMA"). The RMA, in its entirety, is set forth in Exhibit "C" attached hereto and hereby made a part hereof.

EXHIBIT A

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT NO. 2007-1
(NORTH BEYER #2)

DESCRIPTION OF AUTHORIZED SERVICES AND FACILITIES TO BE FUNDED BY COMMUNITY FACILITIES DISTRICT NO. 2007-1

The authorized services to be funded by special tax revenues include maintenance and repair of parks, landscaped medians, storm drainage basins, and related facilities, including but not limited to, concrete curbs and walks, trees, shrubs, vines, ground cover, turf, lights and irrigation systems. The services to be provided include, but are not limited to, litter and debris removal, graffiti abatement, painting repairs to landscape structures, building maintenance and repairs, pruning, staking, fertilizing, plant replacement and restoration, fire and weed control, erosion control, mowing of lawns, trimming of vegetation, and maintenance, repair and replacement of lighting systems within the parks.

The facilities authorized to be funded by special tax revenues include installation of the landscaped medians on Oakdale and Coffee Roads, which may but will not necessarily include, concrete curbs and walks, trees, shrubs, ground cover, lights, and irrigation systems.

The District may also fund any of the following: (i) administrative fees of the City related to the District, including costs associated with preparing the annual special tax levy, or (ii) costs associated with legal services, advertising, legal notices, and mailings related to formation or administration of the District.

EXHIBIT B

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT NO. 2007-1
(NORTH BEYER #2)

SERVICES COST ESTIMATE (2007$)*	
Maintenance of Pelandale Median and Parkway, Oakdale Road Median and Parkway, and Coffee Road Median	$21,417 /Year
Maintenance of Park/Basin and Marble Road	$35,629 /Year
Annual CFD Administration Costs	$ 5,000 /Year
Total Estimated Services Costs (2007 $)	$62,046 /Year

FACILITIES COST ESTIMATE (2007$)	
Landscaped Medians on Oakdale and Coffee Roads	$564,000
Less: funding from CFD No. 1997-1	($ 40,000)
Total Costs Funded by CFD No. 2007-1	$524,000

* Represents total estimated costs for authorized services once all properties anticipated to annex into the District have been annexed. Prior to such time, actual expenditures will be limited to special tax revenues collected within the District.

RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAXES

Special Taxes applicable to each Assessor's Parcel in Community Facilities District No. 2007-1 (North Beyer #2) [herein "CFD No. 2007-1" or "the CFD"] shall be levied and collected according to the tax liability determined by the City Council of the City of Modesto, through the application of the appropriate amount or rate for Taxable Property, as described below. All of the property in CFD No. 2007-1, unless exempted by law or by the provisions of Section G below, shall be taxed for the purposes, to the extent, and in the manner herein provided, including property subsequently annexed to CFD No. 2007-1 unless a separate Rate and Method of Apportionment is adopted for the annexation area.

A. DEFINITIONS

The terms hereinafter set forth have the following meanings:

"Act" means the Mello-Roos Community Facilities Act of 1982, as amended, being Chapter 2.5, (commencing with Section 53311), Division 2 of Title 5 of the California Government Code.

"Administrative Expenses" means any or all of the following: expenses incurred by the City in carrying out its duties with respect to CFD No. 2007-1, including, but not limited to, levying and collecting the Special Taxes; the fees and expenses of legal counsel; charges levied by the County Auditor's Office, Tax Collector's Office, and/or Treasurer's Office; costs related to annexing property into the CFD; costs related to property owner inquiries regarding the Special Taxes; and all other costs and expenses of the City in any way related to the establishment or administration of the CFD.

"Administrator" means the person or firm designated by the City to administer the Special Taxes according to this Rate and Method of Apportionment of Special Taxes.

"Annual Maintenance Special Tax" means a special tax levied in any Fiscal Year to pay the Annual Maintenance Special Tax Requirement, as defined below.

"Annual Maintenance Special Tax Requirement" means that amount necessary in any Fiscal Year to (i) pay for Authorized Services, (ii) pay Administrative Expenses, and (iii) cure any delinquencies in the payment of Annual Maintenance Special Taxes levied in prior Fiscal Years or (based on

delinquencies in the payment of Annual Maintenance Special Taxes which have already taken place) are expected to occur in the current Fiscal Year.

"Assessor's Parcel" or **"Parcel"** means a lot or parcel shown on an Assessor's Parcel Map with an assigned Assessor's Parcel number.

"Assessor's Parcel Map" means an official map of the County Assessor designating parcels by Assessor's Parcel number.

"Authorized Services" means those services that are authorized to be funded by CFD No. 2007-1.

"CFD Formation" means the date on which the Resolution of Formation to form CFD No. 2007-1 was adopted by the City Council.

"City" means the City of Modesto.

"City Council" means the City Council of the City of Modesto, acting as the legislative body of CFD No. 2007-1.

"County" means the County of Stanislaus.

"Developed Property" means, in any Fiscal Year, the following:

- for Single Family Detached Property, all Parcels for which a Final Map was recorded prior to June 30 of the preceding Fiscal Year but not prior to June 30, 2007,
- for Multi-Family Property, all Parcels for which a building permit for new construction of a residential structure was issued prior to June 30 of the preceding Fiscal Year but not prior to June 30, 2007, and
- for Other Property, all Parcels for which a building permit for construction of a building structure was issued prior to June 30 of the preceding Fiscal Year.

"Final Map" means a final map, or portion thereof, approved by the City pursuant to the Subdivision Map Act (California Government Code Section 66410 *et seq.*) that creates lots which do not need to be further subdivided prior to issuance of a building permit for a residential or non-residential structure. The term "Final Map" shall not include any Assessor's Parcel Map or subdivision map or portion thereof, that does not create lots that are in their final configuration, including Assessor's Parcels that are designated as remainder parcels.

"Fiscal Year" means the period starting July 1 and ending on the following June 30.

"**Maximum Annual Maintenance Special Tax**" means the greatest amount of Annual Maintenance Special Tax that can be levied on an Assessor's Parcel in any Fiscal Year determined in accordance with Sections C and D.

"**Maximum One-Time Facilities Special Tax**" means the greatest amount of One-Time Facilities Special Tax that can be levied on an Assessor's Parcel in any Fiscal Year determined in accordance with Sections C and D below.

"**Maximum Special Taxes**" means, collectively, the Maximum One-Time Facilities Special Tax and the Maximum Annual Maintenance Special Tax.

"**Multi-Family Property**" means all Parcels in CFD No. 2007-1 for which building permits have been issued for construction of a residential structure consisting of two or more residential units that share common walls, including but not limited to, townhomes, condominiums, duplexes, triplexes, fourplexes, and apartment units.

"**Net Taxable Acreage**" or "**Net Taxable Acre**" means the total acreage within a Final Map or Parcel less arterial road right-of-ways and property that is defined in the Final Map for use as a park site, school site, or City-owned or CFD-owned storm drainage basin. If a Subdivision Map is recorded which is not a Final Map for some or all Parcels created by the subdivision, the Administrator shall calculate the Net Taxable Acreage of such unsubdivided Parcels by identifying the Acreage of the Parcel and (i) adding a portion of the acreage of any non-arterial right-of-way that fronts the Parcel determined by drawing lines at right angles to the right-of-way, and (ii) subtracting a portion of the acreage of any arterial right-of-way that fronts the Parcel determined by drawing lines at right angles to the right-of-way. The Net Taxable Acreage of a Parcel or Final Map shall be determined in the sole discretion of the City.

"**One-Time Facilities Special Tax**" means a Special Tax, levied and collected in full by the City prior to a structural building permit being issued for new construction on Taxable Property.

"**Original Parcel**" means an Assessor's Parcel (or a parcel within a recorded Subdivision Map that has not yet been assigned an Assessor's Parcel number) that is in CFD No. 2007-1 at the time of CFD Formation or added to the CFD upon annexation. A Successor Parcel that is being further subdivided shall also be considered an Original Parcel for purposes of determining the Maximum Special Taxes pursuant to Section C below.

"**Other Property**" means, in any Fiscal Year, all Parcels of Taxable Property within the CFD for which building permits have been issued for construction of a non-residential structure.

"**Proportionately**" means, for Developed Property, that the ratio of the actual Annual Maintenance Special Tax levied in any Fiscal Year to the Maximum Annual Maintenance Special Tax authorized to be levied in that Fiscal Year is equal for all Assessor's Parcels of Developed Property, respectively. In addition, for Undeveloped Property, "Proportionately" means that the ratio of the

actual Annual Maintenance Facilities Special Tax to the Maximum Annual Maintenance Special Tax is equal for all Assessor's Parcels of Undeveloped Property, respectively.

"Public Property" means any property within the boundaries of CFD No. 2007-1 that is owned by the federal government, State of California, County, City, or other public agency.

"Single Family Detached Lot" means an individual numbered lot, which is in its final configuration and for which a building permit may be issued for a single family detached unit.

"Single Family Detached Property" means, in any Fiscal Year, all Parcels of Developed Property for which a building permit was issued or will be issued for construction of a residential unit that does not share a common wall with another Unit.

"Special Taxes" means, collectively, the One-Time Facilities Special Tax and the Annual Maintenance Special Tax.

"Subdivision Map" means a Final Map, large lot subdivision map, or other map recorded with the County that results in the subdivision of an Original Parcel into two or more Successor Parcels.

"Successor Parcel" means an Assessor's Parcel of Taxable Property created by the subdivision or reconfiguration of an Original Parcel on which construction of a residential or non-residential structure is permitted.

"Taxable Property" means all of the Assessor's Parcels within the boundaries of CFD No. 2007-1 which are not exempt from the Special Tax pursuant to law or Section G below.

"Taxable Public Property" means, in any Fiscal Year, all Parcels of Public Property within CFD No. 2007-1 that, at the time of CFD Formation, were expected to be Taxable Property, and, based on this expectation, Maximum Special Taxes were assigned to the Parcels in a prior Fiscal Year.

"Undeveloped Property" means, in any Fiscal Year, all Parcels of Taxable Property within CFD No. 2007-1 that are not Developed Property.

B. DATA FOR ANNUAL ADMINISTRATION

On or about July 1 of each Fiscal Year, the Administrator shall identify the current Assessor's Parcel numbers for all Parcels of Taxable Property in CFD No. 2007-1. The Administrator shall also determine (i) whether each Assessor's Parcel of Taxable Property is Developed Property or Undeveloped Property, (ii) the Net Taxable Acreage of each Parcel, and (iii) the Annual Maintenance Special Tax Requirement.

In any Fiscal Year, if it is determined that (i) a Subdivision Map for a portion of property in CFD No. 2007-1 was recorded after January 1 of the prior Fiscal Year (or any other date after which the

Assessor will not incorporate the newly-created Parcels into the then current tax roll), (ii) because of the date the Subdivision Map was recorded, the Assessor does not yet recognize the new Parcels created by the Subdivision Map, and (iii) one or more of the newly-created Parcels meets the definition of Developed Property, the Administrator shall calculate the Special Tax for the property affected by recordation of the Subdivision Map by determining the Special Tax that applies separately to each newly-created Parcel, then applying the sum of the individual Special Taxes to the Original Parcel or Successor Parcel that was subdivided by recordation of the Subdivision Map.

C. MAXIMUM SPECIAL TAXES

1. Original Parcels

Table 1 below identifies the Maximum One-Time Facilities Special Tax and Maximum Annual Maintenance Special Tax assigned to each Original Parcel in the CFD at the time of CFD Formation. Separate Maximum Special Taxes shall be assigned to Parcels added to the CFD as a result of future annexations.

TABLE 1
MAXIMUM SPECIAL TAXES
FISCAL YEAR 2007-08

Fiscal Year 2007-08 Assessor's Parcel Number or Subdivision Map Parcel Number	*Fiscal Year 2007-08 Maximum One-Time Facilities Special Tax**	*Fiscal Year 2007-08 Maximum Annual Maintenance Special Tax**
082-005-031	$211,827	$35,070
Parcel 2 of Parcel Map 55-PM-12	$114,030	$18,879

** Special Taxes shown in Table 1 are subject to the annual adjustments described in Section D below.*

2. Successor Parcels

Upon recordation of a Subdivision Map that subdivides an Original Parcel, the Administrator shall apply the appropriate subsection below to determine the Maximum Special Taxes for each Successor Parcel:

a. *All Successor Parcels are Single Family Detached Lots*

If all Parcels created by a recorded Subdivision Map are Single Family Detached Lots, the Administrator shall divide the Maximum Special Taxes assigned to the Original Parcel that was subdivided by the number of Single Family Detached Lots created within the Subdivision Map to determine the Maximum Special Taxes for each Single Family Detached Lot.

b. ***No Successor Parcels are Single Family Detached Lots***

If none of the Successor Parcels created by recordation of a Subdivision Map are Single Family Detached Lots, the Administrator shall apply the following steps to allocate the Maximum Special Taxes assigned to the Original Parcel to each of the Successor Parcels:

Step 1: Determine the total combined Net Taxable Acreage within all Successor Parcels created from subdivision or reconfiguration of the Original Parcel.

Step 2: Divide the Maximum One-Time Facilities Special Tax and the Maximum Annual Maintenance Special Tax assigned to the Original Parcel by the Net Taxable Acreage determined in Step 1 to determine a Maximum One-Time Facilities Special Tax and a Maximum Annual Maintenance Special Tax per Net Taxable Acre.

Step 3: Multiply the Maximum Special Taxes per Net Taxable Acre determined in Step 2 by the Net Taxable Acreage of each Successor Parcel of Taxable Property to determine the Maximum One-Time Facilities Special Tax and Maximum Annual Maintenance Special Tax for each Parcel.

If, after subdivision of an Original Parcel, a Successor Parcel is further subdivided, the Successor Parcel shall be treated as an Original Parcel for purposes of allocating Maximum Special Taxes pursuant to Section C.2a, C.2b, or C.2c, as appropriate.

c. ***Some, But Not All, Successor Parcels are Single Family Detached Lots***

If a Subdivision Map divides an Original Parcel into Successor Parcels, of which some are Single Family Detached Lots and some are not, the Administrator shall apply the following steps to determine the Maximum Special Taxes for each Successor Parcel:

Step 1: Separately identify: (i) the total Net Taxable Acreage created within the Subdivision Map, and (ii) the combined Net Taxable Acreage of all Single Family Detached Lots created within the Subdivision Map.

Step 2: Divide the Maximum One-Time Facilities Special Tax assigned to the Original Parcel by the total Net Taxable Acreage created within the Subdivision Map to determine the Maximum One-Time Facilities Special Tax per Net Taxable Acre.

Step 3: Divide the Maximum Annual Maintenance Special Tax assigned to the Original Parcel by the total Net Taxable Acreage created within the Subdivision Map to determine the Maximum Annual Maintenance Special Tax per Net Taxable Acre.

Step 4: Multiply the Maximum One-Time Facilities Special Tax per Net Taxable Acre that was calculated in Step 2 by the total combined Net Taxable Acreage of all Single Family Detached Lots (as determined in Step 1), and divide the product by the number of Single Family Detached Lots created in the Subdivision Map to calculate the Maximum One-Time Facilities Special Tax for each Single Family Detached Lot.

Step 5: Multiply the Maximum Annual Maintenance Special Tax per Net Taxable Acre that was calculated in Step 3 by the total combined Net Taxable Acreage of all Single Family Detached Lots (as determined in Step 1), and divide the product by the number of Single Family Detached Lots created in the Subdivision Map to calculate the Maximum Annual Maintenance Special Tax for each Single Family Detached Lot.

Step 6: Multiply the Maximum One-Time Facilities Special Tax per Net Taxable Acre that was calculated in Step 2 by the Net Taxable Acreage of each Parcel of Taxable Property created within the Subdivision Map that is not a Single Family Detached Lot to determine the Maximum One-Time Facilities Special Tax for each Parcel.

Step 7: Multiply the Maximum Annual Maintenance Special Tax per Net Taxable Acre that was calculated in Step 3 by the Net Taxable Acreage of each Parcel of Taxable Property created within the Subdivision Map that is not a Single Family Detached Lot to determine the Maximum Annual Maintenance Special Tax for each Parcel.

If, after subdivision of an Original Parcel, a Successor Parcel is further subdivided, the Successor Parcel shall be treated as an Original Parcel for purposes of allocating Maximum Special Taxes pursuant to Section C.2a, C.2b, or C.2c, as appropriate.

Formatted: Indent: Left: 3.85 ch

After each reallocation of the Maximum Special Taxes upon subdivision or reconfiguration of Original Parcels, the sum of the Maximum Special Taxes assigned to Successor Parcels shall never be less than the Maximum Special Taxes assigned to the Original Parcels prior to such reallocation.

D. ESCALATION OF MAXIMUM SPECIAL TAXES

1. One-Time Facilities Special Tax

Beginning in January 2008 and each January thereafter, the Maximum One-Time Facilities Special Tax assigned to each Parcel shall be adjusted by the greater of (i) the percentage increase, if any, in the construction cost index for the San Francisco region for the prior twelve (12) month period as

published in the Engineering News Record or other comparable source if the Engineering News Record is discontinued or otherwise not available, or (ii) four percent (4.0%). Each annual adjustment of the One-Time Facilities Special Tax shall become effective on the subsequent July 1.

2. Annual Maintenance Special Tax

Beginning in January 2008 and each January thereafter, the Maximum Annual Maintenance Special Tax assigned to each Parcel shall be adjusted by the greater of (i) the percentage increase, if any, in the construction cost index for the San Francisco region for the prior twelve (12) month period as published in the Engineering News Record or other comparable source if the Engineering News Record is discontinued or otherwise not available, or (ii) four percent (4.0%). Each annual adjustment of the Maximum Annual Maintenance Special Tax shall become effective on the subsequent July 1.

E. METHOD OF LEVY OF THE SPECIAL TAX

1. One-Time Facilities Special Tax

The Maximum One-Time Facilities Special Tax determined pursuant to Sections C and D above shall be levied on all Taxable Property in CFD No. 2007-1 and shall be collected as set forth in Section F below.

2. Annual Maintenance Special Tax

Each Fiscal Year, the Administrator shall determine the Annual Maintenance Special Tax Requirement for the Fiscal Year. The Annual Maintenance Special Tax shall then be levied on all Parcels of Taxable Property as follows:

Step 1: The Annual Maintenance Special Tax shall be levied Proportionately on each Parcel of Developed Property within the CFD up to 100% of the Maximum Annual Maintenance Special Tax for each Parcel for such Fiscal Year.

Step 2: If additional revenue is needed after Step 1, the Annual Maintenance Special Tax shall be levied Proportionately on each Assessor's Parcel of Undeveloped Property within the CFD, up to 100% of the Maximum Annual Maintenance Special Tax for each Parcel of Undeveloped Property for such Fiscal Year.

Step 3: If additional revenue is needed after applying the first two steps, the Annual Maintenance Special Tax shall be levied Proportionately on each Assessor's Parcel of Taxable Public Property, up to 100% of the Maximum Annual Maintenance Special Tax assigned to each Parcel of Taxable Public Property.

F. COLLECTION OF SPECIAL TAX

The Maximum One-Time Facilities Special Tax shall be collected prior to a building permit being issued for new construction of any residential or non-residential structure on Taxable Property within CFD No. 2007-1, and shall be immediately delinquent if not so paid.

The Annual Maintenance Special Tax for CFD No. 2007-1 shall be collected in the same manner and at the same time as ordinary ad valorem property taxes, provided, however, that the City may directly bill, collect at a different time or in a different manner, and/or collect delinquent Annual Maintenance Special Taxes through foreclosure or other available methods. The Annual Maintenance Special Tax shall be levied and collected unless and until the City determines that the Annual Maintenance Special Tax no longer needs to be levied to pay Authorized Services and all Administrative Expenses have been reimbursed.

G. EXEMPTIONS

Notwithstanding any other provision of this Rate and Method of Apportionment of Special Taxes, no Special Taxes shall be levied on Public Property except Taxable Public Property, as defined herein.

H. INTERPRETATION OF SPECIAL TAX FORMULA

The City reserves the right to make minor administrative and technical changes to this document that do not materially affect the Rate and Method of Apportionment of Special Taxes. In addition, the interpretation and application of any section of this document shall be left to the City's discretion. Interpretations may be made by the City by ordinance or resolution for purposes of clarifying any vagueness or ambiguity in this Rate and Method of Apportionment of Special Taxes.

I. ENFORCEMENT

All delinquent One-Time Facilities Special Taxes, or delinquent Annual Maintenance Special Taxes billed off the County tax roll, shall be subject to an immediate 10% penalty plus interest charges of 1.5 % as of the first day of the month after the delinquency date and on the first day of each month thereafter. Any such delinquent Special Taxes shall, at the City's discretion, be place on the next secured property tax roll. The amount placed on the roll shall include the 10% penalty and the interest charges through the following January 1. This shall not prevent the City from simultaneously pursing the delinquency by an action on a contract of guarantee against a third party who promised to pay the taxes, or from assigning such right of action to the property owner or other appropriate party.

RESOLUTION AMENDING THE FISCAL YEAR 2016-2017 ANNUAL OPERATING AND CAPITAL IMPROVEMENT BUDGET

WHEREAS, a financial analysis has been completed and it has been determined that a budget adjustment is required to the Annual and Capital Improvement Budgets of the City of Modesto for Fiscal Year 2016-17,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the Fiscal Year 2016-17 Annual Operating and Capital Improvement budgets as shown in **Exhibit A**, which is **attached** hereto and incorporated by reference herein.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 23rd day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Zoslocki, Mayor Brandvold
NOES:	Councilmembers:	None

EXHIBIT A

FISCAL YEAR 2016-17

CITY MANAGER'S OFFICE

A budget adjustment is necessary to correct the budgeted amounts for the Budget Division's expenses and revenues. This adjustment will move the adopted budgeted amounts from the previous cost center that resided in Finance (12110) to the new cost center that resides in the City Manager's Office (02110). This action will correct the budget appropriations for the Budget Division within their new department, the City Manager's Office which began at the start of FY 2016-17. This is a technical adjustment, and no increases to the overall appropriation for the Budget Division that were adopted as part of the budget will be made.

PUBLIC WORKS

In June 2011, the City was awarded a State of Good Repair Grant (SGR) for improvements to the Bus Maintenance Facility. These improvements include installation of a shade structure, purchase of boom lift and floor machine. In September 13, 2016 Council authorized the funding of Capital Improvement Project #100964 to track all expenditures associated with the SGR grant; however, it did not identify Capital from Non-Capital expenses, and there were two Capital projects within the Bus Maintenance Facility which should be tracked separately. A budget adjustment is necessary to decrease both the revenue and expense budgets in Capital Improvement Project #100964, Bus Maintenance Facility Improvement, in the amount of $543,282, and transfer these funds to the Bus Maintenance Facility Equipment Requirements Non-Capital Project #101021 to correctly identify the grant expenditures. A second budget adjustment is necessary to decrease both the revenue and expense budgets in Capital Improvement Project #100964, Bus Maintenance Facility Improvement, in the amount of $930,000, and transfer these funds to the Bus Maintenance Facility Parts Storage Room Upgrade Capital Project #101021 to correctly identify the grant expenditures.

A budget adjustment is necessary to transfer $600,000 from Capital Improvement Project #100964, Bus Maintenance Facility Improvement, Equipment Acquisition to Construction for the construction of a shade structure over the Bus Maintenance Facility bay doors.

UTILITIES

A budget adjustment is necessary to reconcile the State Water Resources Control Board Clean Water State Revolving Fund loan and Proposition 1 and Proposition 84 grants, and to increase FY2016-17 Capital Improvement Program budget by $213,297 for expenditures Contingency-CIP and Land Acquisition in Capital Improvement Project #100521, North Valley Regional Recycled Water Program.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-193

Print

RESOLUTION APPROVING AN AGREEMENT BETWEEN THE CITY OF MODESTO AND THE STATE OF CALIFORNIA, OFFICE OF EMERGENCY SERVICES, TO HOUSE AND MAINTAIN A TYPE 2 HAZMAT EMERGENCY RESPONSE VEHICLE AND AN AGREEMENT TO REIMBURSE THE CITY FOR CERTAIN TRAINING COSTS RELATING TO THE HAZARDOUS MATERIALS BY RAIL TRAINING PROGRAM AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENTS

WHEREAS, the California Governor's Office of Emergency Services (CAL OES), Fire, Rescue, and HazMat program has developed a Regional Hazardous Materials (HazMat) program that is similar to the CAL OES Fire Engine Program that the City currently participates in, and

WHEREAS, the program is intended to provide additional response capability and fill in gaps across the state where there is limited or no response capability for Hazardous Materials by Rail, and

WHEREAS, CAL OES will be distributing twelve (12) Type 2 HazMat Emergency Response vehicles throughout the state of California and Modesto has been selected to house and staff one of these apparatus, and

WHEREAS, CAL OES will coordinate and reimburse all of the required training for personnel who are not trained to the Specialist level for a FIRESCOPE Type 2 HazMat Response, and

WHEREAS, CAL OES recognizes that there might be a need for this vehicle to respond to local non-rail HazMat spills, and

WHEREAS, assigned local agencies will be permitted to use the vehicle within their jurisdictions as long as it's not the primary response vehicle, and

WHEREAS, the Modesto Fire Department is responsible for the first $100 for all repairs and any repairs exceeding $100 are the responsibility of CAL OES, and

WHEREAS, when CAL OES makes a request for the apparatus, the Modesto Fire Department must respond to the requested location with a minimum of five (5) Hazardous Materials Specialists, and

WHEREAS, CAL OES will provide reimbursement to the City for the Fire Department's costs of backfilling positions or overtime costs to allow Fire Department staff to attend and successfully complete hazardous materials training required by Cal OES, specifically related to the Hazardous Materials by Rail Program..

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Agreement between the City of Modesto and the State of California, Office of Emergency Services, to house and maintain a Type 2 HazMat Emergency Response Vehicle is hereby approved.

BE IT FURTHER RESOLVED, that the Agreement between the City of Modesto and the State of California, Office of Emergency Services to Reimburse the City for certain training costs relating to the Hazardous Materials by Rail Training program is hereby approved.

BE IT FURTHER RESOLVED, that the Acting City Manager, or his designee, is authorized to execute the Agreements in a form approved by the City Attorney.

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 23rd day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-194

RESOLUTION APPROVING A THREE YEAR AGREEMENT WITH ACCELA, SAN RAMON, CA FOR THE CONTINUED USE OF THEIR PUBLIC STUFF PLATFORM FOR THE GOMODESTO! MOBILE APPLICATION AT A FIRST YEAR COST OF $21,930 AND A TOTAL COST OF $71,495, AND AUTHORIZING THE ACTING CITY MANAGER OR HIS DESIGNEE TO SIGN THE AGREEMENT

WHEREAS, The GoModesto! mobile application has become a central tool in connecting citizens with government, and

WHEREAS, the system has had more than, 4,048 downloads, 4,751 service requests submitted by 1,630 unique citizens, and

WHEREAS, the 4,048 citizens that downloaded the application have had more than 22,128 sessions using GoModesto!, and

WHEREAS, a new contract is needed with Accela to continue use of the Public Stuff platform, and

WHEREAS, Accela is willing to waive the standard increase for the first year of the new agreement by matching last year's cost of $21,930 in addition to reducing the annual fee increase rate from 7% to 5% for subsequent years, saving the city $3,944 over the life of the agreement.

WHEREAS, on February 28, 2017, Council approved Resolution No. 2017-86 implementing a spending freeze in order to maintain fiscal sustainability of the City, and

WHEREAS, as allowed by this resolution, the City Manager's Office approved an exception to this freeze for the procurement, and

WHEREAS, justification for this exception is based upon Accela's Mobile Application, Public Stuff, being the lead application that was identified and selected in RFP No. INF—16-05 and it is time for annual renewal, and

WHEREAS, Accela is the only vendor providing this application.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the City Council hereby approves a three year agreement with Accela, San Ramon, CA for the continued use of their Public Stuff platform for the GoModesto! Mobile Application at a first year cost of $21,930 and a total cost of $71,495.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to sign the new agreement in a form approved by the City Attorney.

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 23rd day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-195

RESOLUTION APPROVING AN AGREEMENT WITH DATA PATH, INC., MODESTO, CA, TO PROVIDE INFORMATION TECHNOLOGY SERVICES TO THE CITY FOR A ONE-YEAR TERM WITH A ONE-YEAR OPTION TO EXTEND THE AGREEMENT AT A COST OF UP TO $75,000 PER YEAR FOR A TOTAL COST NOT TO EXCEED $150,000 AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, in February 2015, the City entered into an agreement with Data Path, Inc. to provide Chief Information Officer (CIO) services to the City, and

WHEREAS, in March 2015, the City entered into an agreement with Data Path, Inc. to provide Chief Information Officer (CIO) services to the City, which was approved through Resolution 2015-81, and

WHEREAS, on November 24, 2015, the City and Data Path Inc. entered into a first amendment, which was approved by Council through Resolution 2015-442, to increase the contract amount, update the scope of services, and establish a 6 month term, and

WHEREAS, on May 24, 2016, a second n amendment to the agreement was approved through Resolution 2016-206 for Data Path Inc., to continue to provide CIO services to the City for an additional 3 year period, and

WHEREAS, the cost associated with this second amendment was $17,578 per month or approximately $210,000 per year, and

WHEREAS, the current agreement with Data Path requires Mr. Dickey to manage the day-to-day operations of the Information Technology (IT) Department, and

WHEREAS, these routine management duties consume a significant amount of time and prevent him from focusing on other high priority projects which could either

advance the City's technological presence in the City or assist the City in becoming a data-driven, performance based organization, and

WHEREAS, in order to focus Mr. Dickey's efforts on areas where the City can realize the largest return of his skill set, staff negotiated a new agreement with Data Path which would allow Mr. Dickey to provide oversight of high priority programs and projects while reducing costs under this contract and shifting management of the IT Department to other resources, and

WHEREAS, the agreement is for a one-year term with a one-year option to extend the agreement, and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed $50,000 for material, equipment or contractual services to be formally bid. However, there are exceptions to the rule set forth in the Modesto Municipal Code. In accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, this agreement is for professional services and, therefore, exempt from the formal bid requirement, and

WHEREAS, the cost of this agreement as well as any additional costs incurred for the management of the IT Department will be accounted for within the existing IT budget.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an agreement with Data Path, Inc., Modesto, CA, to provide information technology services to the City for a one-year term with a one-year option to extend the agreement at a cost of up to $75,000 per year for a total cost not to exceed $150,000.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the Agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING THE SUBMITTAL OF A GRANT APPLICATION TO THE CALIFORNIA CLIMATE INVESTMENTS URBAN GREENING PROGRAM FOR FUNDS IN THE AMOUNT OF $3,193,401 TO FUND DEVELOPMENT AND CONSTRUCTION OF VIRGINIA CORRIDOR PHASE 7 PROJECT AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, AS AGENT, TO CONDUCT ALL NEGOTIATIONS AND TO EXECUTE AND SUBMIT ALL DOCUMENTS WHICH MAY BE NECESSARY FOR THE COMPLETION OF THE PROJECT

WHEREAS, the Legislature and Governor of the State of California have provided funds for the program shown above, and

WHEREAS, the California Natural Resources Agency has been delegated the responsibility for the administration of this grant program, establishing necessary procedures, and

WHEREAS, said procedures established by the California Natural Resources Agency require a resolution certifying the approval of application by the Applicants governing board before submission of said application to the State, and

WHEREAS, the applicant, if selected, will enter into an agreement with the State of California to carry out the Project.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Modesto that it hereby:

1. Approves the filing of an application for the development of the Virginia Corridor Phase 7 Project; and
2. Certifies that this Council for the City of Modesto understands the assurances and certification in the application; and

3. Certifies that the City will have sufficient funds to operate and maintain the project consistent with the land tenure requirements; or will secure the resources to do so; and
4. Certifies that it will comply with all provisions of Section 1771.5 of the California State Labor Code; and
5. If applicable, certifies that the project will comply with any laws and regulations including, but not limited to, legal requirements for building codes, health and safety codes, disabled access laws, environmental laws and, that prior to commencement of construction, all applicable permits will have been obtained; and
6. Certifies that the City will work towards the Governor's State Planning Priorities intended to promote equity, strengthen the economy, protect the environment, and promote public health and safety as included in Government Code Section 65041.1; and
7. Appoints the Acting City Manager, or designee, as agent to conduct all negotiations, execute and submit all documents including, but not limited to applications, agreements, payment requests and so on, with approval as to form by the City Attorney, which may be necessary for the completion of the aforementioned project.

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 23rd day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING THE SUBMITTAL OF A GRANT APPLICATION TO THE CALIFORNIA CLIMATE INVESTMENTS URBAN GREENING PROGRAM FOR FUNDS IN THE AMOUNT OF $2,448,931 TO FUND DEVELOPMENT AND CONSTRUCTION OF THE J STREET GREEN STREET PROJECT AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, AS AGENT TO CONDUCT ALL NEGOTIATIONS AND TO EXECUTE AND SUBMIT ALL DOCUMENTS WHICH MAY BE NECESSARY FOR THE COMPLETION OF THE PROJECT

WHEREAS, the Legislature and Governor of the State of California have provided funds for the program shown above, and

WHEREAS, the California Natural Resources Agency has been delegated the responsibility for the administration of this grant program, establishing necessary procedures, and

WHEREAS, said procedures established by the California Natural Resources Agency require a resolution certifying the approval of application by the Applicants governing board before submission of said application to the State, and

WHEREAS, the applicant, if selected, will enter into an agreement with the State of California to carry out the Project.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Modesto that it hereby:

1. Approves the filing of an application for the development of the J Street Green Street Project; and
2. Certifies that the City Council of the City of Modesto understands the assurances and certification in the application; and

3. Certifies that the City will have sufficient funds to operate and maintain the project consistent with the land tenure requirements; or will secure the resources to do so; and
4. Certifies that it will comply with all provisions of Section 1771.5 of the California State Labor Code; and
5. If applicable, certifies that the project will comply with any laws and regulations including, but not limited to, legal requirements for building codes, health and safety codes, disabled access laws, environmental laws and, that prior to commencement of construction, all applicable permits will have been obtained; and
6. Certifies that the City will work towards the Governor's State Planning Priorities intended to promote equity, strengthen the economy, protect the environment, and promote public health and safety as included in Government Code Section 65041.1; and
7. Appoints the Acting City Manager, or designee, as agent to conduct all negotiations, execute and submit all documents including, but not limited to applications, agreements, payment requests and so on, with approval as to form by the City Attorney, which may be necessary for the completion of the aforementioned project.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING SUBMISSION OF THE CITY'S TRANSPORTATION DEVELOPMENT ACT (TDA) TRANSIT CLAIM FOR FISCAL YEAR 2017-2018 TO THE STANISLAUS COUNCIL OF GOVERNMENTS (STANCOG) IN THE AMOUNT OF $11,952,619

WHEREAS, the greatest portion of the City's funding for the Transit Service Program is made available under the Transportation Development Act (TDA), which includes Local Transportation Fund (LTF) funds and State Transit Assistance (STA) funds, and

WHEREAS, the Stanislaus Council of Governments (StanCOG) has informed the Finance Department that TDA funds have been apportioned by the State to StanCOG for allocation to public transit agencies pursuant to Article 4 of Chapter 4 of the California Public Utilities Code (PUC), and

WHEREAS, the City has prepared its TDA claim for Fiscal Year 2017-2018 pursuant to these sections of the California PUC, and

WHEREAS, the City's Transit TDA Claim for Fiscal Year 2017-2018 is $11,952,619, and

WHEREAS, the total Transit Operating Budget for Fiscal Year 2017-2018 is $19,870,562, and

WHEREAS, Council action authorizing submission of the Claim is required by StanCOG pursuant to Section 99233.11 of the California PUC before any TDA funding can be released to the City.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves submission of the TDA transit claim for Fiscal Year 2017-2018 to StanCOG in the amount of $11,952,619.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-199

RESOLUTION APPROVING THE AWARD OF BID FOR THE PURCHASE OF A 4,000 GALLON WATER TRUCK TO INTERSTATE TRUCK CENTER, STOCKTON, CA, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO ISSUE A PURCHASE ORDER FOR A TOTAL COST OF $181,507

WHEREAS, the purchase of a new 4,000 gallon water truck for the Compost Division of the Public Works Department has been approved to support the compost site permit regulations of continually having a water truck on site to maintain moisture content in the compost and for dust control, and

WHEREAS, the City Manager authorized the Purchasing Manager to issue formal Request for Bids (RFBs) for new vehicles and heavy equipment through various competitive processes, and

WHEREAS, on January 3, 2017, the Purchasing Division issued RFB 1617-20 for the purchase of a 4,000 gallon water truck on the City's website under the commodity codes for automotive vehicles, trucks over one ton, and trucks with specialized bodies. Prospective bidders were notified online of the bid opportunity. Eleven companies chose to download the RFB document, and

WHEREAS, on January 24, 2017, bids were formally opened in the City Clerk's office. Six companies chose to respond. All companies provided responsive and responsible bids. Local vendors capable of providing this type of equipment chose not to respond, and

WHEREAS, based on providing the overall lowest responsive and responsible bid, City staff recommends the award of bid for the purchase of a 4,000 gallon water truck to Interstate Truck Center, Stockton CA, for a total estimated cost of $181,507, and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed $50,000 for material, equipment or contractual services to be formally bid. The award of bid for the purchase of a 4,000 gallon water truck to Interstate Truck Center, Stockton, CA, conforms to the Modesto Municipal Code, 8-3.203, and

WHEREAS, sufficient funds for a 4,000 gallon water truck were budgeted in Fiscal Year 2016-2017 in account 5409-53246-57003.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the award of bid for the purchase of a 4,000 gallon water truck to Interstate Truck Center, Stockton, CA.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is authorized to issue a purchase order for a total cost of $181,507.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING THE AWARD OF BID FOR THE PURCHASE OF TWELVE FORD POLICE INTERCEPTOR AWD UTILITY VEHICLES TO ALBANY FORD, ALBANY, CA, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO ISSUE A PURCHASE ORDER FOR A TOTAL COST OF $391,546

WHEREAS, the replacement of eleven Police Interceptor AWD utility vehicles for the Police Department have been subjected to a thorough evaluation and all eleven vehicles have met or exceeded the replacement criteria before being placed on the replacement list, and

WHEREAS, funds for the purchase of one new Police Interceptor AWD utility vehicle for the Fire Department, Fire Investigation unit, have been budgeted in Fiscal Year 2016-2017 and will enable the Fire Department to remove from service a vehicle that is over ten years old and has accumulated 190,000 miles, and

WHEREAS, the City Manager authorized the Purchasing Manager to issue formal Request for Bids (RFB) for new vehicles and heavy equipment, through various competitive processes, and

WHEREAS, on February 9, 2017, the Purchasing Division issued RFB 1617-23 for the purchase of twelve Police Interceptor AWD utility vehicles on the City's website under the commodity codes for automotive vehicles and related transportation equipment, automobiles, and automobile and other passenger vehicles repair and maintenance. Prospective bidders were notified online of the bid opportunity. Six companies chose to download the RFB document, and

WHEREAS, on February 28, 2017, bids were formally opened in the City Clerk's office. Four companies chose to respond. There was one local vendor capable of

providing this type of equipment and they chose not to bid. All four companies provided responsive and responsible bids, and

WHEREAS, based on providing the overall lowest responsive and responsible bid, City staff recommends the award of bid for the purchase of twelve Ford Police Interceptor AWD utility vehicles to Albany Ford, Albany CA, for a total estimated cost of $391,546, and

WHEREAS, on February 28, 2017, Council approved Resolution No. 2017-86 implementing a spending freeze in order to maintain fiscal sustainability of the City. The City Manager's Office approved an exception to this freeze for this procurement based upon in-service patrol units meeting their maximum mileage threshold of 125,000 miles and an abundance of total vehicle losses due to crashes, and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases which meet or exceed $50,000 for material, equipment or contractual services to be formally bid. The award of bid for the purchase of twelve Ford Police Interceptor AWD utility vehicles to Albany Ford, Albany, CA, conforms to the Modesto Municipal Code, 8-3.203, and

WHEREAS, sufficient funds for eleven replacement Ford Police Interceptor AWD utility vehicles were budgeted in Fiscal Year 2016-2017, in account 5409-53246-57003. Ten of these vehicles will be standard black and white patrol vehicles for the Modesto Police Department at a cost of $30,467 before taxes and fees. One of these vehicles will be the same as the patrol vehicles except for the dark blue paint for the Street Gang Unit of the Modesto Police Department. This unit will cost $30,862 before taxes and fees and will replace a unit totaled in a traffic collision. The final unit is gray in

color and has more administrative features, less patrol features and lighting. This unit will be for the Modesto Fire Department at a cost of $26,965 before taxes and fees. Each vehicle will be charged a CA tire fee of $8.75 and a registration fee of $29. Total sales tax on all vehicles will be $28,547 for a total cost of $391,546. Funding for these vehicles was collected through the internal service fund (ISF) via straight-line depreciation over the life of the vehicle, and

WHEREAS, sufficient funds for one new Ford Police Interceptor AWD utility vehicle for the Fire Department have been budgeted in Fiscal Year 2016-2017, in account 0100-18610-57003.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the award of bid for the purchase of twelve Police Interceptor AWD utility vehicles to Albany Ford, Albany, CA,

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is authorized to issue a purchase order for a total cost of $391,546.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2017-201

Print

RESOLUTION AUTHORIZING PAYMENT TO STORER TRANSIT SYSTEMS (STORER) IN THE AMOUNT OF $347,284 FOR FIXED COST ADJUSTMENTS FOR THE FISCAL YEAR 2015/2016 OPERATION OF THE MODESTO AREA DIAL-A-RIDE (MADAR)

WHEREAS, the City entered into an Agreement dated May 13, 2014, with Storer Transit Systems (Storer) to operate Modesto Area Dial-A-Ride (MADAR) for the purpose of providing paratransit service to seniors and qualified disabled persons within the Modesto urban area, and

WHEREAS, Storer is paid on the basis of the number of vehicle service hours its vans operate in service ($69.98 per vehicle service hour in fiscal year 2015/2016) and the Agreement assumes a base number of vehicle service hours of 42,600 for a twelve month period, and

WHEREAS, paragraph 23(G) of the Agreement includes a provision that requires the City to compensate Storer for "significant differences between the number of vehicle service hours actually operated by (Storer) and the base number of vehicle service hours (42,600 hours)," and

WHEREAS, at the end of a twelve month period, the City must determine if there is a difference in vehicle service hours (either positive or negative) between the actual vehicle service hours billed and the base number of vehicle service hours. If the difference between the actual service hours billed and 42,600 is greater than 4,620 (10% of 42,600), then the consideration paid to Storer must be adjusted, and

WHEREAS, for the 2015/2016 fiscal year Storer operated 5,022 billable hours less than the specified 42,600 billable hours despite an actual increase in the number of rides provided by the service, and

WHEREAS, as provided for by the Agreement, the City and Storer agreed upon the amount of fixed expenses Storer incurred during the second year of the Agreement, and

WHEREAS, the difference between the fixed expenses and the amount paid to Storer by the City was $347,284 and

WHEREAS, the definition of "Vehicle Service Hour" included in the May 13, 2014 agreement is significantly different from the definition of that term in previous agreements, and

WHEREAS, the definition is the main reason for the reduction in the number of vehicle service hours billed as compared with previous agreements, despite increases in the actual number of rides provided by the service.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes payment to Storer Transit Systems in the amount of $347,284 for fixed cost adjustments for the fiscal year 2015/2016 operation of Modesto Area Dial-A-Ride.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING AMENDMENT NO. 1 TO AN AGREEMENT WITH STORER TRANSIT SYSTEMS (STORER) TO MODIFY THE DEFINITION OF "VEHICLE SERVICE HOUR" (VSH) AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE AMENDMENT NO. 1

WHEREAS, the City entered into an Agreement dated May 13, 2014, with Storer Transit Systems (Storer) to operate Modesto Area Dial-A-Ride (MADAR) for the purpose of providing paratransit service to seniors and qualified disabled persons within the Modesto urban area, and

WHEREAS, the definition of "Vehicle Service Hour" included in the May 13, 2014 agreement is significantly different from the definition of that term in previous agreements, and

WHEREAS, the new definition had an unintended restriction of billable time because the phrasing unintentionally excludes time in service in which passengers are not on board the vehicles because individuals fail to board as scheduled or cancel trips after vehicles and drivers are dispatched, and

WHEREAS, the Agreement assumes a base number of vehicle service hours of 42,600 for a twelve month period based on estimates using a prior definition, and Storer is paid on the basis of the number of vehicle service hours its vans operate in service ($69.98 per vehicle service hour in fiscal year 2015/2016), and

WHEREAS, the unintended time exclusions resulted in MADAR not meeting the minimum billable hours despite the CONTRACTOR incurring all expected expenses, and thus requires a fixed cost adjustment payment to the CONTRACTOR following each year of the Agreement, and

WHEREAS, the definition is the main reason for the reduction in the number of vehicle service hours billed as compared with previous agreements despite increases in the actual number of rides provided by the service.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves Amendment No. 1 to Modesto Area Dial-A-Ride Operations Agreement and authorizes the Acting City Manager, or his designee to execute Amendment No. 1 in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-203

Print

RESOLUTION APPROVING AN AGREEMENT WITH PROVOST & PRITCHARD CONSULTING GROUP, MODESTO, CA, FOR ON-CALL GRANT WRITING SERVICES FOR VARIOUS CITY PROJECTS FOR ONE YEAR, WITH TWO ONE-YEAR EXTENSION OPTIONS, AT THE SOLE DISCRETION OF THE CITY, IN AN AMOUNT NOT TO EXCEED $45,000 PER YEAR, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT, AND UP TO TWO ONE-YEAR EXTENSION OPTIONS

WHEREAS, the Utilities Department pursues grant funding opportunities for a variety of utility related projects and programs, primarily related to water, wastewater and storm drain collection system infrastructure, groundwater management activities, wastewater treatment plant facilities, recycled water facilities and flood management projects, and

WHEREAS, grant opportunities typically range from $100,000 in planning grants from federal resources to $1 million or more from state programs, such as the Proposition (Prop) 1 Grant Program, and

WHEREAS, recent successful grant applications include $5.1M from Prop 84 Integrated Regional Water Management (IRWM) Implementation Grant for Underground Retention/Cross Connection Removal and the North Valley Regional Recycled Water Program (2016), $147,625 from Prop 1 IRWM Planning Grant for the IRWM Update (2017), and a preliminary award of $943,985 from Prop 1 Groundwater Grant for the Destruction of Wells (2017), and

WHEREAS, successful grant applications require thorough understanding of the funding program requirements, high quality product delivery, and credibility with the granting authorities, and

WHEREAS, since funding mechanisms, grant requirements, and granting authorities may change on a project-by-project basis, Utilities Department staff does not have the expertise, nor the resources due to current workloads, to fully research each funding opportunity presented by the state or federal agencies, and

WHEREAS, the City of Modesto has an agreement with California Consulting to provide grant assistance related to other departments (Police, Parks, Recreation and Neighborhoods, Information Technology, Public Works, and the City Manager's Office), but not Utilities, and

WHEREAS, therefore, grant researching and writing services from consultants with specific experience in obtaining grants related to utilities, and who are familiar with the agencies that have the utilities-related grant programs are required, and

WHEREAS, Provost & Pritchard Consulting Group has extensive experience in developing successful grant applications, thereby securing grant funding from state and federal funding sources, and

WHEREAS, its assistance will allow the City to apply for a wide variety of grants, which will help fund the City's local and regional water resource-related projects and programs, and

WHEREAS, in accordance with Administrative Directive 3.1, Selection Procedures for Professional Consultants Who Provide Architectural & Engineering Services for Capital Projects, which is in compliance with State of California Government Code, Sections 4526-4529, staff solicited and formally advertised Requests for Qualifications (RFQs)/Requests for Proposals (RFPs) through Planet Bids for on-call

grant research and writing services for the Utilities Department, which included one qualified local consultant, and

WHEREAS, six Statements of Qualifications/Proposals were received, and

WHEREAS, after careful review of the Statement of Qualifications/Proposals by Utilities Department staff, the local firm of Provost & Pritchard Consulting Group, Modesto, CA was selected as the most qualified firm to provide on-call grant research and writing services, and

WHEREAS, when on-call grant writing services are required on an "as needed" basis, written task orders will be issued to the consultant identifying the scope, cost, and schedule to complete the specific task, and

WHEREAS, on February 28, 2017, by Resolution No. 2017-86, Council approved implementing a spending freeze in order to maintain fiscal sustainability of the City, and

WHEREAS, as allowed by this resolution, the City Manager's Office approved an exception to this freeze for this procurement, and

WHEREAS, justification for this exception is that the projects were previously approved and adopted as part of the current Fiscal Year 2016-2017 Capital Improvement Program, are needed to provide safe and reliable utilities, and a budget transfer from reserves, to provide the required services, will not be required, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, the three on-call agreements are for professional services and, therefore, exempt from the bid requirement, and

WHEREAS, however, staff proceeded through a RFP process pursuant to Administrative Directive 3.1, and

WHEREAS, staff recommends approval of the agreements for on-call grant research and writing services,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with Provost & Pritchard Consulting Group, Modesto, CA, for On-call Grant Writing Services for various City projects for one year, with two one-year extension options, at the sole discretion of the City, in an amount not to exceed $45,000 per year.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the agreement in a form approved by the City Attorney, and up to two one-year extension options.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

WHEREAS, grant opportunities typically range from $100,000 in planning grants from federal resources to $1 million or more from state programs, such as the Proposition (Prop) 1 Grant Program, and

WHEREAS, recent successful grant applications include $5.1M from Prop 84 Integrated Regional Water Management (IRWM) Implementation Grant for Underground Retention/Cross Connection Removal and the North Valley Regional Recycled Water Program (2016), $147,625 from Prop 1 IRWM Planning Grant for the IRWM Update (2017), and a preliminary award of $943,985 from Prop 1 Groundwater Grant for the Destruction of Wells (2017), and

WHEREAS, successful grant applications require thorough understanding of the funding program requirements, high quality product delivery, and credibility with the granting authorities, and

WHEREAS, since funding mechanisms, grant requirements, and granting authorities may change on a project-by-project basis, Utilities Department staff does not have the expertise, nor the resources due to current workloads, to fully research each funding opportunity presented by the state or federal agencies, and

WHEREAS, the City of Modesto has an agreement with California Consulting to provide grant assistance related to other departments (Police, Parks, Recreation and Neighborhoods, Information Technology, Public Works, and the City Manager's Office), but not Utilities, and

WHEREAS, therefore, grant researching and writing services from consultants with specific experience in obtaining grants related to utilities, and who are familiar with the agencies that have the utilities-related grant programs are required, and

WHEREAS, RMC Water and Environment has extensive experience in developing successful grant applications, thereby securing grant funding from state and federal funding sources, and

WHEREAS, its assistance will allow the City to apply for a wide variety of grants, which will help fund the City's local and regional water resource-related projects and programs, and

WHEREAS, in accordance with Administrative Directive 3.1, Selection Procedures for Professional Consultants Who Provide Architectural & Engineering Services for Capital Projects, which is in compliance with State of California Government Code, Sections 4526-4529, staff solicited and formally advertised Requests for Qualifications (RFQs)/Requests for Proposals (RFPs) through Planet Bids for on-call

grant research and writing services for the Utilities Department, which included one qualified local consultant, and

WHEREAS, six Statements of Qualifications/Proposals were received, and

WHEREAS, after careful review of the Statement of Qualifications/Proposals by Utilities Department staff, the firm of RMC Water and Environment, Sacramento, CA was selected as the most qualified firm to provide on-call grant research and writing services, and

WHEREAS, when on-call grant writing services are required on an "as needed" basis, written task orders will be issued to the consultant identifying the scope, cost, and schedule to complete the specific task, and

WHEREAS, on February 28, 2017, by Resolution No. 2017-86, Council approved implementing a spending freeze in order to maintain fiscal sustainability of the City, and

WHEREAS, as allowed by this resolution, the City Manager's Office approved an exception to this freeze for this procurement, and

WHEREAS, justification for this exception is that the projects were previously approved and adopted as part of the current Fiscal Year 2016-2017 Capital Improvement Program, are needed to provide safe and reliable utilities, and a budget transfer from reserves, to provide the required services, will not be required, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, the three on-call agreements are for professional services and, therefore, exempt from the bid requirement, and

WHEREAS, however, staff proceeded through a RFP process pursuant to Administrative Directive 3.1, and

WHEREAS, staff recommends approval of the agreements for on-call grant research and writing services,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with RMC Water and Environment, Sacramento, CA, for On-call Grant Writing Services for various City projects for one year, with two one-year extension options, at the sole discretion of the City, in an amount not to exceed $45,000 per year.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the agreement in a form approved by the City Attorney, and up to two one-year extension options.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of May, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-206

Print

RESOLUTION APPROVING OUTDOOR WATER USE REGULATIONS FOR JUNE THROUGH OCTOBER 2017 FOR WATER CUSTOMERS SERVED BY THE MODESTO SUB-BASIN GROUNDWATER SUPPLY OR SURFACE WATER

WHEREAS, on April 7, 2017, the Governor issued Executive Order (EO) B-40-17, directing the State Water Board to rescind portions of its existing emergency regulations that require a water supply stress test or mandatory conservation standard for urban water agencies, and

WHEREAS, the EO B-40-17 also directs the State Water Board to continue: development of permanent prohibitions on wasteful water use, permanent requirements for reporting water use by urban water agencies, portions of the emergency regulations that prohibit certain wasteful water practices and requiring water use reporting as a bridge until permanent requirements are in place, and

WHEREAS, on April 7, 2017, in accordance with directives in EO B-37-16, the State Water Board Department of Water Resources, Department of Food and Agriculture, California Public Utilities Commission, and the California Energy Commission, released a final report titled "*Making Water Conservation a California Way of Life*". The report describes a proposed framework for developing new water use efficiency standards, urban water use targets, and enhanced urban and agricultural water management planning requirements, and

WHEREAS, the state-mandated conservation standards, developed by the State Water Board, are no longer necessary under current conditions, as determined by the Governor in EO B-40-17, and

WHEREAS, continued prohibition of wasteful and/or unreasonable water use practices and continued availability of transparent water use data are, however, prudent to address water supply needs and the lingering impacts of prolonged drought, and to provide a bridge to permanent regulations for making water conservation a California way of life as identified in EO B-37-16 and EO B-40-17, and

WHEREAS, because of the significant cumulative reduction of water use the past two years (27%), annual water use has dropped to approximately 45,000 acre feet.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the outdoor water use regulations for June through October 2017 for water customers served by the Modesto sub-basin groundwater supply or surface water:

- Odd-numbered addresses may water Wednesdays, Fridays, Sundays
- Even-numbered addresses may water Tuesdays, Thursdays, Saturdays
- No outdoor lawn watering on Mondays

Penalties for Violations of Water Usage Restrictions will be:

- Educational pamphlet provided upon 1st violation
- $150 Administrative Fee assessed upon 2nd violation
- $250 Administrative Fee assessed upon 3rd violation
- $500 Administrative Fee assessed for each subsequent violation

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of May, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-208

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MODESTO RELATING TO WATER REFUNDING REVENUE CERTIFICATES OF PARTICIPATION, 2008 SERIES A; APPROVING THE FORMS OF AND AUTHORIZING THE EXECUTION AND DELIVERY OF A FEE LETTER WITH JPMORGAN CHASE BANK, N.A. IN CONNECTION WITH A THREE-YEAR EXTENSION OF THE IRREVOCABLE DIRECT PAY LETTER OF CREDIT AND APPROVING THE FORM OF AND AUTHORIZING THE DISTRIBUTION OF A SUPPLEMENT TO AN OFFICIAL STATEMENT IN CONNECTION THEREWITH; AND AUTHORIZING CERTAIN OTHER RELATED ACTIONS TO COMPLETE THE THREE-YEAR EXTENSION TO THE WATER BOND LETTER OF CREDIT

WHEREAS, the City of Modesto is a charter city and municipal corporation duly organized and existing under and by virtue of the Constitution and laws of the State of California (the "City");

WHEREAS, the City has caused to be executed and delivered the $47,625,000 City of Modesto Water Refunding Revenue Certificates of Participation, 2008 Series A (the "2008 Certificates");

WHEREAS, in connection with the issuance of the 2008 Certificates, Bank of America, N.A., as liquidity facility provider, the City, and the Modesto Public Financing Authority (the "Authority") previously entered into a Standby Certificate Purchase Agreement, dated as of May 1, 2008 (the "2008 Liquidity Agreement"), relating to the performance of certain duties with respect to the remarketing of the 2008 Certificates;

WHEREAS, the 2008 Liquidity Agreement was subsequently replaced with an irrevocable direct-pay letter of credit (as extended, the "Letter of Credit") issued by JPMorgan Chase Bank, N.A. ("JPMorgan") pursuant to the terms of a Reimbursement Agreement, dated as of July 1, 2011, as amended by a First Amendment to the Reimbursement Agreement, dated as of June 5, 2014, by and between the City and

JPMorgan, and a Fee Letter, dated July 14, 2011, as amended and restated as of June 5, 2014, between JPMorgan and the City; and

WHEREAS, the Stated Expiration Date of the Letter of Credit was previously extended from July 14, 2014 to July 14, 2017; and

WHEREAS, the City has determined to be in its best interest to again extend the Stated Expiration Date of the Letter of Credit; and

WHEREAS, in connection with the extension of the Letter of Credit, the City and JPMorgan will enter into a new Fee Letter (the "Fee Letter");

WHEREAS, the City proposes to execute and deliver a Supplement to the Official Statement (the "Supplement"), relating to the 2008 Certificates, and to authorize the distribution of such Supplement to prospective and actual purchasers of the 2008 Certificates; and

WHEREAS, all acts, conditions and things required by the laws of the State of California to exist, to have happened and to have been performed precedent to and in connection with the consummation of the transactions authorized hereby do exist, have happened and have been performed in regular and due time, form and manner as required by law, and the City is now duly authorized and empowered, pursuant to each and every requirement of law, to consummate such transactions for the purpose, in the manner and upon the terms herein provided.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Modesto, as follows:

Section 1. Findings. The City Council hereby specifically finds and determines that the actions authorized hereby constitute and are with respect to the public affairs of

the City and that the statements, findings and determinations of the City set forth above and in the preambles of the documents approved herein are true and correct and that the consummation of the transactions contemplated therein shall result in significant public benefits to the City.

Section 2. Approval of Fee Letter. The City Council hereby approves the three-year extension of the Letter of Credit. The Fee Letter proposed to be executed and entered into by the City, in the form presented at this meeting and on file with the City Clerk, is hereby approved, and each of the City Manager and the Finance Director, acting singly, is hereby authorized and directed, for and in the name and on behalf of the City, to execute and deliver the Fee Letter in substantially said form, with such changes therein as such officer executing the Fee Letter may require or approve, such approval to be conclusively evidenced by the execution and delivery thereof.

Section 3. Approval of Supplement to Official Statement. The Supplement, in the form presented at this meeting and on file with the City Clerk, is hereby approved. Each of the City Manager and the Finance Director, acting singly, is hereby authorized and directed, for and in the name and on behalf of the City, to execute and deliver the Supplement in substantially said form, with such changes therein as such officer executing the Supplement may require or approve, such approval to be conclusively evidenced by the execution and delivery thereof. Each of the City Manager and the Finance Director, acting singly, is hereby authorized and directed to cause the Supplement, in substantially said form, with such changes therein as such officer may require or approve, to be distributed to potential and actual purchasers of the 2008 Certificates.

Section 4. Attestations. The City Clerk is hereby authorized and directed to attest the signature of the City Manager and the Finance Director and to affix and attest the seal of the City, as may be required or appropriate in connection with the documents approved by this Resolution.

Section 5. Other Actions. The officers of the City are hereby authorized and directed, jointly and severally, to do any and all things and to execute and deliver any and all documents which they may deem necessary or desirable in order to consummate the transactions authorized hereby and to carry out, give effect to and comply with the terms and intent of this Resolution, the Fee Letter and the Supplement; and all such actions heretofore taken by such officers are hereby ratified, confirmed and approved.

Section 6. Effective Date. This Resolution shall take effect immediately upon its passage.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-209

RESOLUTION APPROVINGA RENEWAL OF AN AGREEMENT WITH AMANO MCGANN, INC., ROSEVILLE, MN, FOR THE AUTOMATED PARKING ATTENDANT SOFTWARE FOR AN ESTIMATED ANNUAL COST OF $17,556, WHICH TOTALS $52,668 FOR A THREE YEAR PERIOD, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE TO EXECUTE THE AGREEMENT AND THE RIDER TO THE AGREEMENT

WHEREAS, the Parking Services Division manages the automated parking revenue collection systems for the City's three parking garages, and

WHEREAS, on March 2, 2010, Council approved the results and recommendation of staff for the purchase of an Automated Parking System for the City Garages, and

WHEREAS, on March 6, 2012, a Service Agreement was implemented when the warranty expired for the Amano McGann parking system that was installed July 2010, and

WHEREAS, this agreement would be a renewal of the March 6, 2012 Service Agreement already in place with Amano McGann for the upgrade of software and hardware to maintain compliance with the Payment Card Industries (PCI) requirements, and

WHEREAS, the Payment Card Industry (PCI) will continue to change which will require periodic upgrades to the software and hardware for the security and safety of the user as well as the vendor, and

WHEREAS, the service agreement with Amano McGann will provide the software, hardware, and technical support to meet the PCI requirements for the next three years, and

WHEREAS, sufficient funds are budgeted annually in the following appropriation unit: 4000-53250-53300, and

WHEREAS, MMC Section 8-3.204(c) is available where the Purchasing Manager, in his/her discretion, determines that calling for bids on a competitive basis is undesirable due to pressing (exigent) circumstances or, the Purchasing Manager, in his/her discretion determines that a process other than the usual formal bid procedure set forth in MMC Section 8-3.203 will result in procurement for the City at the lowest possible cost commensurate with the desired quality.

WHEREAS, acting within her discretion, the Purchasing Manager invoked these exceptions for this service agreement. The furnishing of a service agreement to Amano McGann, Roseville, MN, will conform to MMC Section 8-3.204(c), and

WHEREAS, On February 28, 2017, Council adopted Resolution No. 2017-86. This action approved a City wide hiring and purchasing freeze and other measures to enact cost containment and curtail spending. The potential liabilities of not being PCI compliant would be leaving the City at risk of fines and penalties, fraud losses, and termination of the ability to accept payment cards, all having a negative fiscal impact on the Parking Service Fund and the City.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the renewal of an agreement with Amano McGann, Inc., Roseville, MN, for the automated parking attendant software for an estimated annual cost of $17,556, which is an annual increase of $1,596, totaling $52,668 for a three year period.

BE IT FURTHER RESOLVED, that the Acting City Manager, or his designee, is authorized to execute the Agreement and the Rider to the Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-210

Print

RESOLUTION APPROVING AN AMENDMENT TO THE SHARED ELECTRICAL MAINTENANCE AGREEMENT'S EXHIBIT A BETWEEN THE CITY OF MODESTO AND CALIFORNIA DEPARTMENT OF TRANSPORTATION (CALTRANS), DISTRICT 10, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AMENDMENT

WHEREAS, the Shared Electrical Agreement ("Agreement") between the City of Modesto (City) and the California Department of Transportation (Caltrans), District 10 needs to be updated from time to time, and

WHEREAS, the proposed new traffic signal development on McHenry Avenue at Grecian Avenue will add a signalized intersection to the amended **Exhibit A**, which is **attached** hereto and describes the obligations of the City and Caltrans for signal maintenance. The cost to the City of Modesto for 50% of the signal maintenance and electrical expense will begin at completion of the signal construction at the intersection, and

WHEREAS, 25 traffic signals on State Highways in downtown Modesto that had previously been maintained by the City of Modesto were taken back by Caltrans effective July 1, 2016. The City's share of the signal maintenance will be 50% at 20 of the intersections and 25% or less at 5 intersections, and

WHEREAS, an adjustment in **Exhibit "A"** is needed as a result of the aforementioned changes to the original Shared Electrical Agreement.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an amendment to the Shared Electrical and Maintenance

Agreement between the City of Modesto and Caltrans, District 10, in a form approved by the City Attorney.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is authorized to execute the Amendment.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-211

Print

RESOLUTION APPROVING THE PURCHASE AND INSTALLATION OF A LARGE VEHICLE DRYING SYSTEM FROM J & M PHILLIPS ELECTRICAL & PLUMBING, MODESTO, CA, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO ISSUE A PURCHASE ORDER FOR A TOTAL COST OF $79,000

WHEREAS, on June 27, 2011, the Transit Division was awarded a Federal Transit Administration (FTA) State of Good Repair Grant that provides capital assistance for maintenance, replacement, and rehabilitation projects that help transit agencies maintain assets in a state of good repair, and

WHEREAS, as part of the FTA grant funding guidelines, the City of Modesto is required to maintain buses and the Bus Maintenance Facility to exacting mechanical and cosmetic standards, and

WHEREAS, the current bus wash system has an inferior dryer, and a more efficient large vehicle auxiliary dryer is needed at the Bus Maintenance Facility, and

WHEREAS, the City Manager's Office authorized the Purchasing Manager to issue formal Request for Bids (RFBs) for new vehicles and heavy equipment through various competitive processes, and

WHEREAS, on February 22, 2017, the Purchasing Division issued RFB 1617-19-R for the purchase and installation of a large vehicle drying system on the City's website under the commodity codes for vehicle washing systems, electrical, and plumbing. Prospective bidders were notified online of the bid opportunity. Six companies chose to download the RFB document, and

WHEREAS, on March 21, 2017, bids were formally opened in the City Clerk's office. Two companies chose to respond. Both companies provided responsive and responsible bids. One local vendor was capable of providing this type of equipment, and

WHEREAS, based on providing the overall lowest responsive and responsible bid, staff recommends the award of bid for the purchase of a large vehicle auxiliary drying system to J & M Phillips Electrical & Plumbing, Modesto, CA, for a total cost of $79,000, and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed $50,000 for material, equipment or contractual services to be formally bid. The award of bid for the purchase of a large vehicle auxiliary drying system to J & M Phillips Electrical & Plumbing, Modesto, CA, conforms to the Modesto Municipal Code, 8-3.203, and

WHEREAS, on February 28, 2017, Council approved Resolution No. 2017-86, implementing a spending freeze in order to maintain the fiscal sustainability of the City. The City Manager's Office approved an exception to this freeze for this procurement due to the utilization of grant funding for the purchase and installation of this large vehicle drying system, and

WHEREAS, sufficient funds for this purchase are budgeted in the State of Good Repair Grant that was awarded to Transit, in account 4510-59999-100964.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the award of bid for the purchase of a large vehicle auxiliary drying system to J & M Phillips Electrical & Plumbing, Modesto, CA, for a total cost of $79,000.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is authorized to issue a purchase order, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-212

RESOLUTION APPROVING A TWO-YEAR AGREEMENT WITH THREE ONE-YEAR EXTENSION OPTIONS FOR THE SOLE SOURCE PROCUREMENT OF ACCU-TAB CALCIUM HYPOCHLORITE TABLETS, ACCU-TAB POWERPRO CHLORINATION SYSTEMS AND RELATED EQUIPMENT, TO AXIALL CORPORATION, PITTSBURGH, PA, AT THE SOLE DISCRETION OF THE CITY, FOR AN ANNUAL COST OF $170,000, AND $850,000 OVER FIVE YEARS, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE A PURCHASE AGREEMENT

WHEREAS, on October 23, 2012, by Council Resolution 2012-423, Council authorized the award of a sole source procurement for the purchase and delivery of Accu-Tab Calcium Hypochlorite tablets, Accu-Tab Powerpro Chlorination systems and related equipment to PPG Industries, Monroeville, PA., and

WHEREAS, PPG subsequently changed its name to Axiall Corporation, and

WHEREAS, Agreement No. 38538 with Axiall expires June 30, 2017, and

WHEREAS, chlorination tablets and system services are necessary to ensure the water quality supply for the City's service areas and to meet all compliance requirements set forth by the California State Water Resources Control Board, and

WHEREAS, the Acting City Manager authorizes the Purchasing Manager to issue formal Request for Bids (RFB) for chlorination tablets and system, and

WHEREAS, Axiall Corporation, is the sole manufacturer for both the Accu-Tab 2000 Series and PowerPro Chlorination Systems, and Accu-Tab Calcium Hypochlorite Tablets, and

WHEREAS, Axiall will also provide warranties on previously purchased and installed chlorination systems by the City of Modesto, and

WHEREAS, City staff recommends the purchase of Accu-tab calcium hypochlorite tablets and Accu-tab Chlorination Systems from Axiall Corporation, Pittsburg, PA, and

WHEREAS, on February 28, 2017, Council approved Resolution No. 2017-86 implementing a spending freeze to maintain fiscal sustainability of the City. As allowed by the resolution, the City Manager's Office approved an exception to this freeze for this procurement. Justification for this exception is based upon the need of the Utilities Department to strengthen and maintain a safe and reliable water supply to City of Modesto customers, and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed $50,000 for material, equipment or contractual services to be formally bid. However, there are exceptions to the rule set forth in the Modesto Municipal Code. One exception, MMC Section 8-3.204(d), is available where the Purchasing Manager, in his/her discretion determines that a process other than the usual formal bid procedure set forth in MMC Section 8-3.203 will result in procurement for the City at the lowest possible cost commensurate with the desired quality, and

WHEREAS, in this case, the Director of Finance, acting as Purchasing Manager, invoked that exception for this purchase due to the cost savings of staff time and the limited number of competitors, and

WHEREAS, the sole source award of an agreement to Axiall Corporation, Pittsburgh, PA, will conform to MMC Section 8-3.204(d).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a two-year agreement with three one-year extension options for the sole source procurement of Accu-Tab Calcium Hypochlorite tablets, Accu-Tab PowerPro Chlroination System and related equipment, to Axiall Corporation, Pittsburgh, PA, at the sole discretion of the City, for an annual cost of $170,000, and $850,000 over five years.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute a purchase agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-213

RESOLUTION APPROVING THE PLANS AND SPECIFICATIONS FOR THE 2015-2016 SANITARY SEWER COLLECTION SYSTEM REPLACEMENT PROJECT, ACCEPTING THE BID, AND APPROVING A CONSTRUCTION CONTRACT WITH ROLFE CONSTRUCTION, ATWATER, CA, IN THE AMOUNT OF $1,510,138 AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE CONTRACT

WHEREAS, specifications have been prepared for the 2015-2016 Sanitary Sewer Collection System Replacement Project, and City staff recommends approval by the City Council, and

WHEREAS, the bids received for the 2015-2016 Sanitary Sewer Collection System Replacement Project were opened at 11:00 a.m. on May 2nd , 2017 for the consideration of the Council pursuant to Modesto Municipal Code section 8-3.403, and

WHEREAS, the Director of Utilities has recommended that the bid of $1,510,138 received from Rolfe Construction be accepted as the lowest responsible and responsive bid and the contract be awarded to Rolfe Construction.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the specifications for 2015-2016 Sanitary Sewer Collection System Replacement Project, accepts the bid of $1,510,138 and awards Rolfe Construction of Atwater, CA, the contract for the 2015-2016 Sanitary Sewer Collection System Replacement Project.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION AUTHORIZING AN INCREASE IN THE DIRECTOR'S AUTHORITY TO ISSUE CHANGE ORDERS FOR THE 2015-2016 SANITARY SEWER COLLECTION SYSTEM REPLACEMENT PROJECT FROM 8% ($120,811) TO 12% ($181,217) OF THE CONSTRUCTION CONTRACT PRICE OF $1,510,138 WITH ROLFE CONSTRUCTION, ATWATER, CA

WHEREAS, on June 6, 2017, the City Council is concurrently awarding a $1,510,138 contract to Rolfe Construction, Atwater, CA for the construction of the 2015-2016 Sanitary Sewer Collection System Replacement Project, and

WHEREAS, the purpose of the project is to replace aging sewer systems presenting ongoing maintenance issues, and

WHEREAS, the existing sewer mains will be replaced to correct hydraulic deficiencies and will be realigned in certain sections to address access limitations, and

WHEREAS, the construction within alleys and within developed landscaped areas presents unknown challenges, and

WHEREAS, while the contingency policy is utilized for each construction contract awarded by the City, it is not written into each contract, nor is it a guaranteed amount included in the final compensation to the contractor, and

WHEREAS, the additional costs could exceed the Director's authority for the project as established by the Council's Change Order Approval Policy adopted by Resolution No. 94-443, and

WHEREAS, the Director of Utilities currently has authority to approve change orders up to a cumulative amount of $120,811,

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the Director of Utilities to issue change orders for the 2015-2016

Sanitary Sewer Collection System Replacement Project from 8 percent ($120,811) to 12 percent ($181,217) of the construction contract price of $1,510,138 with Rolfe Construction, Atwater, CA.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION AMENDING THE FISCAL YEAR 2016-17 CAPITAL IMPROVEMENT PROGRAM BUDGET IN THE AMOUNT OF $1,584,777 TO BE TRANSFERRED INTO THE PROJECT FROM WASTEWATER FUND RESERVES IN ORDER TO FULLY FUND THE CONSTRUCTION, CONTINGENCY, CONSTRUCTION ADMINISTRATION, CITY CONSTRUCTION FORCES, AND DESIGN SUPPORT DURING CONSTRUCTION FOR THE 2015-2016 SANITARY SEWER COLLECTION SYSTEM REPLACEMENT PROJECT

WHEREAS, certain budgetary transactions are necessary in the amount of **$1,584,777**, in order to fund construction, contingency, construction administration, City construction forces, design support during construction plus City staff support for the 2015-2016 Sanitary Sewer Collection System Replacement Project, and

WHEREAS, the Fiscal Year 2016-2017 Capital Improvement Program Budget must be amended as shown in **Exhibit A**, which is incorporated by reference herein.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the amendment of the Fiscal Year 2016-2017 Capital Improvement Program Budget as shown in **Exhibit A**, **attached** hereto.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

Exhibit A

Due to construction costs being higher than initially budgeted for the project, line item increases/decreases are necessary for CIP Account #100790 "2015-2016 Sewer Replacement", and the total project costs need to be increased by $1,584,777. This would be done by adjusting Construction Admin by $145,210, Construction by $1,259,629, Contingency-CIP by $122,176, and Eng/Design/Admin by $57,762.

To fund the above account, $1,584,777 will be transferred from Wastewater Fund Reserves into CIP Project 100790 for the 2015-2016 Sanitary Sewer Collection System Replacement Project.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-216

Print

RESOLUTION APPROVING A FIRST AMENDMENT TO THE AGREEMENT WITH CAROLLO ENGINEERS, INC., WALNUT CREEK, CA, FOR CONSULTANT SERVICES FOR THE 2016 WASTEWATER MANAGEMENT PLAN IN AN AMOUNT NOT TO EXCEED $30,000 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS $5,000 FOR ADDITIONAL SERVICES, IF NEEDED, FOR A MAXIMUM TOTAL AMOUNT OF $35,000, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE FIRST AMENDMENT TO THE AGREEMENT

WHEREAS, on September 2, 2014, by Resolution No. 2014-334, Council approved an Agreement with Carollo Engineers, Inc. (Carollo) for consulting services to develop the 2016 Wastewater Master Plan (WWMP) for the Wastewater Collection and Treatment Systems and an Engineer's Report, identified respectively, as Tasks 1, 2, and 3 in the original scope of work, and

WHEREAS, on October 12, 2016, by approval of the City Manager, Task 4 Additional Services were authorized to further refine secondary treatment alternatives to account for the reduction of treated wastewater for Ranch Land irrigation, due to the sale of tertiary treated wastewater, and

WHEREAS, under Task 4, Carollo is updating the treatment facilities water balance, developing a revised agricultural management plan for the Ranch, and identifying and refining treatment plant improvements, and

WHEREAS, these refinements may change capital improvement project priorities, but will not affect the current sewer rates that were adopted in April 2016, and

WHEREAS, to complete Task 4 of the WWMP, additional specialized analysis is necessary as a result of the anticipated changes to the City's land application Waste

Discharge Requirement (WDR) permit and reduced irrigation flows to the Ranch due to recycled water sales, and

WHEREAS, this additional effort will analyze current Ranch Land crops, crop patterns, soil characteristics, and irrigation practices regarding Ranch Land constituent loadings and application rates, and make recommendations regarding the long-term operation of the Ranch, and

WHEREAS, Carollo has nearly completed Task 4 and requires specialized services of a sub-consultant in crop management to make final recommendations for Ranch Land management practices with reduced irrigation alternatives, and

WHEREAS, these specialized services require analysis based on field data gathering which may introduce a need for additional data and analysis, therefore, a small amount for Additional Services are required, and

WHEREAS, staff recommends approval of the First Amendment to the Agreement with Carollo for the 2016 Wastewater Master Plan Update, and

WHEREAS, on February 28, 2017, by Resolution No. 2017-86, Council approved implementing a spending freeze in order to maintain fiscal sustainability of the City, and

WHEREAS, as allowed by Resolution No. 2017-86, the City Manager's Office approved an exception to the freeze for this procurement, and

WHEREAS, justification for this exception is that the project was previously approved and adopted as part of the current Fiscal Year 2016-2017 Capital Improvement Program, is needed to provide safe and reliable utilities, and a budget transfer from reserves, to provide the required services, will not be required, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, the first amendment to the agreement is for professional services and, therefore, exempt from the bid requirement.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the First Amendment to the Agreement with Carollo Engineers, Inc., Walnut Creek, CA, for consultant services for the 2016 Wastewater Management Plan in an amount not to exceed $30,000 for the identified scope of services, plus $5,000 for additional services, if needed, for a maximum total amount of $35,000.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the First Amendment to the Agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-217

Print

RESOLUTION APPROVING A FIRST AMENDMENT TO THE AGREEMENT WITH HORIZON WATER AND ENVIRONMENT, OAKLAND, CA, FOR CONSULTANT SERVICES FOR THE 2016 WASTEWATER MANAGEMENT PLAN ENVIRONMENTAL IMPACT REPORT IN AN AMOUNT NOT TO EXCEED $64,376 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS $27,777 FOR ADDITIONAL SERVICES, IF NEEDED, FOR A MAXIMUM TOTAL AMOUNT OF $92,153, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE FIRST AMENDMENT TO THE AGREEMENT

WHEREAS, on December 8, 2015, by Resolution No. 2015-473, Council approved an Agreement with Horizon Water and Environment (Horizon) to prepare a Program Level Environmental Impact Report (EIR) for the 2016 Wastewater Master Plan (WWMP), and

WHEREAS, this effort also included a task for some California Environmental Quality Act (CEQA) assistance to City staff on the Urban Area General Plan Update, and

WHEREAS, this General Plan Update CEQA assistance required more effort than originally anticipated, and

WHEREAS, one of the major projects in the 2016 WWMP is the River Trunk Realignment Project (River Trunk) which is currently under design, and

WHEREAS, the River Trunk includes a new trunk alignment, several new feeder mains, a new large sewer lift station and force mains, and new underground crossings of Dry Creek, and

WHEREAS, the River Trunk requires a detailed project-level CEQA analysis to identify specific environmental impacts before it can initiate construction, and

WHEREAS, eligibility for State Revolving Funds also requires the additional CEQA effort, and

WHEREAS, project level analysis was not included in the original scope of work from Horizon, and

WHEREAS, the First Amendment accounts for the additional Scope of Work not included in the Original Agreement, and

WHEREAS, for the WWMP EIR, Horizon is well qualified to conduct Project level CEQA analysis, and

WHEREAS, the additional efforts required are for consultant staff time and biological staffing resources, and

WHEREAS, including this effort within the Horizon Scope of Work is both time and cost efficient compared to contracting out separately, since Horizon is already conducting the program level EIR for the River Trunk as part of the WWMP EIR, and

WHEREAS, staff recommends approval of the First Amendment to the Agreement with Horizon for the Wastewater Master Plan EIR, and

WHEREAS, on February 28, 2017, by Resolution No. 2017-86, Council approved implementing a spending freeze in order to maintain fiscal sustainability of the City, and

WHEREAS, as allowed by this resolution, the City Manager's Office approved an exception to this freeze for this procurement, and

WHEREAS, justification for this exception is that the project was previously approved and adopted as part of the current Fiscal Year 2016-2017 Capital Improvement Program, is needed to provide safe and reliable utilities, and a budget transfer from reserves, to provide the required services, will not be required, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, the First Amendment to the agreement is for professional services and, therefore, exempt from the bid requirement.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the First Amendment to the Agreement with Horizon Water and Environment, Oakland, CA, for consultant services for the 2016 Wastewater Management Plan Environmental Impact Report in an amount not to exceed $64,376 for the identified scope of services, plus $27,777 for additional services, if needed, for a maximum total amount of $92,153.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the First Amendment to the Agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-218

Print

RESOLUTION APPROVING THE ANNUAL SEWER RATE REVIEW AND MAINTAINING THE PREVIOUSLY ADOPTED 6% SEWER RATE INCREASES TO BE EFFECTIVE SEPTEMBER 1, 2017, FOR FISCAL YEAR 2017-18

WHEREAS, the City of Modesto provides wastewater (sewer) service to over 60,000 accounts consisting of residential, multi-family, commercial, and industrial customers located within the City of Modesto as well as the City of Ceres and the Empire Sanitary District and portions of unincorporated Stanislaus County; and

WHEREAS, the City's sewer utility is a self-supporting utility enterprise funded by customer revenues; and

WHEREAS, the California Constitution (Article XIID, "Proposition 218") establishes a process that public agencies must follow when imposing new or increasing "property related fees" (Cal. Const.); and

WHEREAS, sewer service fees are property-related fees and thus subject to Proposition 218's procedural and substantive requirements; and

WHEREAS, the City engaged Bartle Wells Associates ("BWA") in 2015 to conduct a comprehensive review of the City's sewer rates and charges in accordance with Proposition 218; and

WHEREAS, BWA prepared a report dated January 2016 entitled "City of Modesto Sewer Rate and Fee Study" ("Report"), containing analyses and recommendations for adjusting the City's sewer rates and charges; and

WHEREAS, the Report concluded that the revenues generated under previous sewer rates were insufficient to meet sewer utility's revenue requirements for fiscal year

2016-17 and subsequent years, given changes and new developments in the City's sewer system, including new capital improvement projects identified in the soon to be completed Wastewater Master Plan Update; and

WHEREAS, the Report recommended increasing the City's previous sewer rates and charges, and made certain recommendations for the City's sewer services rates for the five-year period beginning fiscal year 2016-17; and

WHEREAS, the Report demonstrated that the recommended rates do not exceed the reasonable cost of providing such service or regulatory activity and, as such, the proposed rates are not levied for general revenue purposes; and

WHEREAS, the Report also demonstrated that the recommended rates result in charges to property owners or ratepayers that do not exceed the proportionate cost of providing sewer services attributable to the parcel or persons; and

WHEREAS, the City mailed a notice of the public hearing, and notice of oral and written protest procedures against the proposed rate increases to all affected property owners and ratepayers in compliance with California Constitution Article XIII D, Section 6; at least forty-five days in advance of the public hearing at which this Resolution was considered; and

WHEREAS, on April 26, 2016, the City Council duly held the public hearing , and at its conclusion the City Clerk tabulated the number of written and oral protests received, and reported that there was not a majority protest of the proposed rates by owners or authorized representatives of identified property owners or ratepayers receiving wastewater services; and

WHEREAS, the City Council subsequently approved a new sewer rate structure in accordance with Proposition 218 by Resolution No. 2016-181 and adopted a five-year schedule of new maximum sewer service rates beginning in Fiscal Year 2016-17 and increasing those rates by up to 6% annually through Fiscal Year 2020-21; and

WHEREAS, City staff has recently conducted an annual review of the sewer rates as required by Resolution 2016-181 to ensure that the approved 6% increase for Fiscal Year 2017-18 meets the enterprise's revenue needs based on anticipated expenses and the City's policies; and

WHEREAS, upon review of the FY17-18 proposed Wastewater Fund proforma, the City's Budget Division agrees that maintaining a 6% increase in annual rate would allow the fund to maintain a minimum 1.5 debt service coverage ratio required by Council policy, and strive toward obtaining a 2.0 debt coverage ratio in future years as recommended in the recent Fitch Rating review; and

WHEREAS, the Budget Division also recommends maintaining a 6% increase in sewer rates for FY17-18 based upon the anticipated revenues and proposed operating and capital expenses for the upcoming fiscal years; and

WHEREAS, the analysis shows that the projected costs and revenues are tracking reasonably close to what was projected in the 2016 Report; and

WHEREAS, pursuant to Resolution 2016-118, the approved increase in sewer rates for Fiscal Year 2017-18 will become effective 60 days after completion of the annual review, unless the City Council directs otherwise, and Staff recommends the 2017-18 rate increase become effective on September 1, 2017.

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto as follows:

1. **DEFINITIONS.** For the purposes of this Resolution the definitions set forth in Section 5-6.103 of Chapter 6 of Title 5 of the Modesto Municipal Code entitled "Definitions" shall apply, except as provided herein or as context requires a different meaning.

(A) Director: The City officers(s) or designee(s) in charge of utilities.

(B) Monthly Account Charge: A monthly fee charged to every sewer account to pay the actual fixed sewer system costs not allocable to sewer flow and strength components.

(C) Person: Any individual, partnership, corporation or other legal entity whatsoever apply for or receiving City sewer service.

(D) Cannery Segregation Line (CanSeg Line): The line used by City's cannery customers during caning season. The CanSeg Line collects and conveys the canneries' process flow directly to the Rancho for land application. The cannery process flow does not receive treatment during the cannery season.

(E) Apartment: One (1) dwelling unit located within in a building or portion thereof containing five (5) or more dwelling units; one (1) mobile home space in a mobile home park.

(F) Secondary Scalping: Secondary treatment to be provided to City's cannery customers' process water.

(G) Single Family Residential: One (1) dwelling unit or a suite of one (1) or more rooms which is occupied by or intended to be occupied by one (1) family; one (1) mobile home on any area or tract of land.

(H) Multiple Family: One (1) dwelling unit located within a building or portion thereof containing two (2) to four (4) dwelling units; one (1) additional dwelling unit or mobile home on any area or tract of land.

2. SEWER SERVICE CHARGE FOR RESIDENTIAL SEWER SERVICE. Each person receiving residential sewer service shall pay a sewer service charge to the City . Resolution 2016-181 established the maximum monthly sewer service charges for dwelling units, mobile homes, and mobile home spaces in mobile home parks, including the monthly account charge, for Fiscal Year 2016/17 through the end of Fiscal Year 2020/21, as listed in the table below. The City Council hereby accepts the annual report regarding and maintains the approved residential rates for Fiscal Year 2017-18, to be effective September 1, 2017.

Residential Sewer Rates

Category	**FY2016/ 17**	**FY2017/ 18**	**FY2018/ 19**	**FY2019/ 20**	**FY2020/ 21**
Monthly Account Charge ($/Account)	$4.40	$4.42	$4.46	$4.50	$4.54
Residential Rates ($/Dwelling Unit)					
Single Family Residential, Mobile Home on a lot	$29.36	$31.36	$33.39	$35.67	$37.91
Multiple Family (2-4 Dwelling Units), one additional Dwelling Unit or Mobile Home on a lot	$22.59	$24.03	$25.57	$27.50	$30.85
Apartments (5 or more Dwelling Units), Mobile Home Space in a Mobile Home Park	$20.33	$21.50	$22.73	$24.36	$26.45

3. SEWER SERVICE CHARGE FOR COMMERCIAL SERVICE.

Each person receiving commercial sewer service shall pay a maximum sewer service charge to the City. Resolution 2016-181 established the maximum monthly sewer service charges for commercial customers, including the monthly account charge, for Fiscal Year 2016/17 through the end of Fiscal Year 2020/21, as listed in the table below. The City Council hereby accepts the annual report regarding and maintains the approved commercial rates for Fiscal Year 2017-18.

Commercial Sewer Rates					
Category	**FY2016/ 17**	**FY2017/ 18**	**FY2018/ 19**	**FY2019/ 20**	**FY2020/ 21**
Commercial Quantity Charge ($/100 cubic feet)					
Group 1-BOD + TSS is 400 mg/l or less	$2.76	$3.01	$3.29	$3.55	$3.88
Group 2-BOD + TSS is 401 mg/l to 900 mg/l	$3.78	$4.07	$4.40	$4.70	$5.07
Group 2-BOD + TSS is 901 mg/l to 1,400 mg/l	$4.80	$5.13	$5.50	$5.85	$6.27
Group 4-BOD + TSS is 1,401 mg/l or more	$6.03	$6.40	$6.83	$7.23	$7.71

(A) Commercial users shall be grouped according to Biochemical Oxygen Demand (hereinafter referred to as BOD) and Total Suspended Solids (hereinafter referred to as TSS) strength characteristics and shall pay sewer service charges based on the quantity of water used, and the waste strength characteristics measured in milligrams per liter (hereinafter referred to as mg/l). The Director shall determine the waste strength characteristics of commercial users and assign them to one of the commercial

users groups set forth in the table above.

(B) Commercial users shall have all water used on the premises metered in order to determine the users' sewer service charges.

(1) Commercial users on a public water system other than the City's shall obtain a metered water service from the water purveyor and shall pay the sewer service charge which would be made were such water from the City's water system.

(2) Commercial users receiving any water from a private source shall allow the City to furnish, install and maintain a water meter with the user

paying for the cost of the meter and installation. The user shall pay the sewer service charge which would be made were such water from the City's water system. Authorization shall be granted to City from user to install, read and maintain said meter by user executing an agreement on a form furnished by the Director.

(C) In the case of existing meters which are under the ownership of users, the City will assume responsibility for maintenance of such meters upon:

(1) Receipt of transfer of title from the owner in a form satisfactory to the Director, and

(2) Authorization being granted to City for reading and maintaining the meter as set forth in paragraph (b) above.

(D) Churches, assembly halls and similar facilities shall be considered Group 1.

(E) Schools Districts will have their wastewater flow computed by either of the following methods at their discretion:

(1) School Districts may elect to be billed on water consumption as a Group 1 Commercial discharger.

(i) A one-time inspection by the City's Water Division staff to confirm there is no indoor water use on the outdoor use meter will be done at no charge to the District.

(ii) An annual audit and site inspection will be conducted by the City and paid for by the District.

(a) Inspection fee will be based on time and materials.

(2) School Districts that have not separated all of their outdoor water systems may elect to continue to be billed based on estimates of the average volume per pupil/staff times the average daily attendance (ADA) of pupils plus staff.

(i) School District will be required to enter into an agreement with the City consenting to be billed on an ADA basis.

(ii) The Director is authorized to enter into these agreements with the School Districts on behalf of the City.

(iii) Should the School District fail or refuse to enter into the above noted agreement, District will be billed based on water consumption until an agreement is executed.

(3) For School Districts planning to separate their outdoor water systems in the future, the City will provide the option to be billed on water consumption on an annual basis.

4. SEWER SERVICE CHARGE FOR INDUSTRIAL SERVICE. Each person receiving industrial sewer service shall pay a maximum sewer service charge to the City. Resolution 2016-181 established the maximum monthly sewer service charges for industrial customers, including the monthly account charge, for Fiscal Year 2016/17 through the end of Fiscal Year 2020/21,as listed in the table below. The City Council hereby accepts the annual report regarding and maintains the approved industrial rates for Fiscal Year 2017-18, to be effective September 1, 2017.

Industrial Charges (these three components are additive)

Category	FY2016/17	FY2017/18	FY2018/19	FY2019/20	FY2020/21
Flow Charge ($/Million gallons)	$2,604	$2,888	$3,212	$3,516	$3,901
BOD Charge ($/1,000 lbs)	$213	$226	$238	$246	$263
TSS Charge ($/1,000 lbs)	$441	$454	$471	$491	$504

(A) The charges for industrial wastewater services—flow, BOD, and TSS—are additive, such that the total monthly charge shall be based upon the amount of each component listed in the table above.

(B) The monthly sewer service charges for industrial users shall be based in part on the number of millions gallons of total flow at the rates set forth in the table above.

(1) If an industrial customer has an effluent meter for industrial flow measurement and a sanitary sewage meter, the total flow shall be the sum of the metered flows. If an industrial customer has an unmetered connection for disposal of sanitary sewage, the estimated volume may be established by the Director. The estimated volume shall be based on the number and type of plumbing fixture units contributing to the system along with any other flow information available which indicates the total volume of sanitary sewage.

(2) In the absence of an effluent meter, an influent meter shall be used, and total flow shall be based upon the influent meter reading.

(C) The BOD and TSS charges for industrial and sanitary discharges shall be based on the measured or estimated BOD and TSS for each type of flow.

5. **FLOW ESTIMATES.** The Director will estimate flow where he/she determines metered flow measurements are unreliable.

6. **SEPTAGE CHARGE FOR DUMPING SEPTIC WASTE AT THE SEWAGE TREATMENT PLANT.** The City accepts septic waste at its sewage treatment plant. Each person dumping septic waste at the sewage treatment plant shall pay a maximum sewer service charge to the City. Resolution 2016-181 established the maximum septage charge for Fiscal Year 2016/17 through the end of Fiscal Year 2020/21, as listed in the table below. The City Council hereby accepts the annual report regarding and maintains the approved septage charges for Fiscal Year 2017-18, to be effective September 1, 2017.

Septage Quantity Charge Category	FY2016/17	FY2017/18	FY2018/19	FY2019/20	FY2020/21
Flow charge per 1,000 gallons	$61	$63	$66	$69	$71

7. SEWER SERVICE CHARGE FOR CANSEG LINE SEWER SERVICE.

Each person using CanSeg Line sewer service shall pay a maximum sewer service charge to the City. Resolution 2016-181 established the maximum monthly sewer service charges for CanSeg customers, including the monthly account charge, for Fiscal Year 2016/17 through the end of Fiscal Year 2020/21, as listed in the table below. The City Council hereby accepts the annual report regarding and maintains the approved CanSeg Line rates for Fiscal Year 2017-18, to be effective September 1, 2017.

CanSeg Line Sewer Rates Category	FY2016/17	FY2017/18	FY2018/19	FY2019/20	FY2020/2
Monthly Account Charge ($/Account)	$4.40	$4.42	$4.46	$4.50	$4.54
CanSeg Line Charges (these three components are additive)					
Flow Charge ($/Million gallons)	$2,680	$2,841	$3,012	$3,191	$3,384
BOD Charge ($/1,000 lbs)	$1.39	$1.48	$1.57	$1.66	$1.76
TSS Charge ($/1,000 lbs)	$4.04	$4.29	$4.54	$4.81	$5.11

(A) The charges for CanSeg Line services—flow, BOD, and TSS—are additive, such that the total monthly charge shall be based upon the amount of each component listed in the table above.

(B) The monthly sewer service charges for CanSeg Line users shall be based in part on the number of millions gallons of total flow at the rates set forth in the table above.

(1) If a CanSeg Line user has an effluent meter for industrial flow measurement and a sanitary sewage meter, the total flow shall be the sum of the metered flows. If a CanSeg Line customer has an unmetered connection for disposal of sanitary sewage, the estimated volume may be established by the Director. The estimated volume shall be based on the number and type of plumbing fixture units contributing to the system along with any other flow information available which indicates the total volume of sanitary sewage.

(2) In the absence of an effluent meter, an influent meter shall be used, and total flow shall be based upon the influent meter reading.

(C) The BOD and TSS charges for CanSeg Line discharges shall be based on the measured or estimated BOD and TSS for each type of flow.

8. SEWER SERVICE CHARGE FOR SECONDARY SCALPING.

Secondary scalping service is anticipated to come online in Fiscal Year 2020/21. Each person receiving secondary scalping sewer service shall pay a maximum sewer service charge to the City. Resolution 2016-181 established the maximum monthly sewer service charges for secondary scalping customers, including the monthly account charges when that service becomes available, as listed in the table below. The City Council hereby accepts the annual report regarding and maintains the approved secondary scalping rates for that service when it becomes available.

Secondary Scalping Rates

Category	Rate or Charge
Secondary Scalping Rates (these components are additive)	
Flow Charge ($/Million gallons)	$891.84
BOD Charge ($/1,000 lbs)	$98.25
TSS Charge ($/1,000 lbs)	$305.65

Annual Secondary Scalping Secondary Can Seg Capacity Charge (these components are additive)	
Flow ($/Million gallons per day, maximum day capacity)	$117,837.54
BOD ($/lbs per day, maximum day capacity)	$11.43
TSS ($/lbs per, maximum day capacity)	$27.29

(A) The usage-based charges for secondary scalping sewer services—flow, BOD, and TSS—are additive, such that the total monthly charge shall be based upon the amount of each component listed in the table above. In addition, customers who opt to have their wastewater processed through the secondary scalping system will be charged an annual fee labeled a "capacity fee" in the Study, in the amounts set forth in the table above.

(B) The monthly usage-based sewer service charges for secondary scalping sewer services shall be based in part on the number of millions gallons of total flow at the rates set forth in the table above.

(1) If a secondary scalping customer has an effluent meter for industrial flow measurement and a sanitary sewage meter, the total flow shall be the sum of the metered flows. If an secondary scalping customer has an unmetered connection for disposal of sanitary sewage, the estimated volume may be established by the Director. The estimated volume shall be based on the number and type of plumbing fixture units contributing to the system along with any other flow information available which indicates the total volume of sanitary sewage.

(2) In the absence of an effluent meter, an influent meter shall be used, and total flow shall be based upon the influent meter reading.

(C) The BOD and TSS charges for secondary scalping sewer services shall be based on the measured or estimated BOD and TSS for each type of flow.

9. SEWAGE TREATMENT FOR OUTSIDE PUBLIC AGENCIES. Pursuant to agreements approved by the City Council , the City of Modesto will accept and treat sewage collected from sewer systems external to the City and the City's Sewer District No. 1. The City's charges for treatment of sewage collected from outside of the City and the City's Sewer District No. 1 are negotiated by the parties to and established in the agreements.

10. INFLATOR INDEX AND REASSESSMENT OF COST OF SERVICE. The cost of service set forth above shall be re-examined not less than every four (4) years by professionals competent in the field. Such professionals shall provide a report to the City updating both the fixed and volume based costs as appropriate and as recommended to the Council by the Director and Director of Finance. Beginning on July 1, 2017 and annually thereafter, the Director of Finance with the concurrence of the Director, shall have the authority to adjust the above rates by an amount not to exceed the not-seasonally-adjusted annual percentage increase in the April Consumer Price Index (CPI) for Urban Wage Earners and Clerical Workers for the San Francisco CMSA that is currently prepared by the Department of Finance.

11. EFFECTIVE DATE. This Resolution shall go into effect and be in full force and operation immediately. The previously approved schedule of rates for Fiscal Year 2017-18, as set forth above, shall go into effect on September 1, 2017.

12. ANNUAL REVIEW OF ADOPTED RATE INCREASES. As set forth in Resolution No. 2016-181, the City Council shall conduct an annual review of each

adopted sewer rate increase prior to its implementation for fiscal years beginning after June 30, 2017. Said review shall be completed by the City Council at least sixty (60) days in advance of the new sewer rate becoming effective. The rates shown in Resolution 2016-181 shall be implemented on the dates shown unless City Council takes action otherwise.

13. SEVERABILITY. The rates, charges, and all portions of this Resolution are severable. Should any of the rates or any portion of this Resolution be adjudged to be invalid and unenforceable by a body of competent jurisdiction, the remaining rates, charges and/or portions of the resolution shall be and continue in full force and effect, except as to those rates, charges and/or portions of this Resolution that have been adjudged invalid. This City Council declares that it would have adopted this Resolution irrespective of the invalidity of any particular portion thereof and intends that the invalid portions should be severed and the balance of this Resolution be enforced.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of June, 2017, by Councilmember Kenoyer , who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-220

RESOLUTION APPROVING A FOURTH AMENDMENT TO THE LEGAL SERVICES AGREEMENT DATED JUNE 24TH, 2014 WITH ARATA, SWINGLE, VAN EGMOND & GOODWIN IN AN AMOUNT NOT TO EXCEED $300,000 TO CONTINUE REPRESENTING THE CITY OF MODESTO IN TORT CASES

WHEREAS, the City Attorney's Office is still in need of outside counsel services; and

WHEREAS, the City Council by Resolution No. 2014-241 had previously approved an agreement with Arata, Swingle, Van Egmond & Goodwin, in the amount of $200,000 to represent the City in the following types of cases: tort, trip and fall, sidewalk, road and other similar cases; and

WHEREAS, by Resolution No. 2015-198, City approved a First Amendment, with an increased budget of $30,000 for continued representation; and

WHEREAS, by Resolution No. 2016-289, City approved a Second Amendment, with an increased budget of $210,000 for continued representation; and

WHEREAS, by Resolution No. 2016-506, City approved a Third Amendment, with an increased budget of $50,000 for continued representation

WHEREAS, the City Attorney's Office desires to extend the agreement with Arata, Swingle, Van Egmond & Goodwin; and

WHEREAS, the City Attorney's office has drafted a Fourth Amendment to the Legal Services agreement with Arata, Swingle, Van Egmond and Goodwin.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the City of Modesto to execute a Fourth Amendment to the Legal Services Agreement with Arata, Swingle, Van Egmond & Goodwin, in an amount

not to exceed $300,000 to continue representing the City of Modesto in tort matters, as provided in **Exhibit A attached** hereto and incorporated herein, and further authorizes the City Attorney to execute such agreement in a form substantially similar to **Exhibit A.**

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 13th day of June, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

FOURTH AMENDMENT TO LEGAL SERVICES AGREEMENT

This Fourth Amendment for Legal Services (this "**Fourth Amendment**"), is made and entered into on _____ day of _____ 2017 ("**Effective Date**"), by and between the **CITY OF MODESTO**, a California Municipal Corporation ("**City**"), and **ARATA, SWINGLE, VAN EGMOND AND GOODWIN**, a Professional Corporation ("**Attorney**"), located at 912 11th Street, Modesto, California 95354. City and Attorney are hereinafter collectively referred to as the "**Parties**," and singularly as "**Party**".

RECITALS

WHEREAS, City and Attorney entered into a Legal Services Agreement ("**Agreement**") to provide legal advice, representation and assistance to City in defense of tort claims, as assigned; and

WHEREAS, Attorney is specially trained, experienced and competent to perform such services; and

WHEREAS, the public interest, economy and general welfare will be served by the Agreement; and

WHEREAS, City and Attorney desire to amend the Agreement for further service by increasing the previously approved amount of fees from $490,000 to $790,000.

NOW, THEREFORE, it is hereby agreed that the Legal Services Agreement between the City of Modesto and Arata, Swingle, Van Edmond and Goodwin dated June 24th, 2014 authorized by Resolution No.2014-241, amended by Resolution No. 2015-198, 2016-289 and 2016-506 is amended as follows:

1. Section 2(a) of Paragraph 2, "Fees and Costs," Hourly Rates is amended to state as follows:

"The total of all fees paid to Attorney for the performance of all services set forth in Section 1(thereafter the "**Service**"), and for all authorized Reimbursable Expenses (as defined hereafter), shall not exceed a total sum of seven hundred and ninety thousand dollars ($790,000)."

2. **Entire Agreement**. The parties to this Fourth Amendment understand and agree that except as stated herein all terms and conditions of the original Agreement, dated June 24th, 2014, remain in full force and effect to the extent they are not in conflict with this Fourth Amendment. This document, including all exhibits, contain the entire amendment to the Agreement between the Parties and supersedes whatever oral or written understanding they may have had prior to the execution of this Fourth Amendment. No alteration to the terms of this Fourth Amendment shall be valid unless approved in writing by Attorney and by City, in accordance with applicable provision of the Modesto City Code.

3. **Authority**. The person signing this Fourth Amendment for Attorney hereby represents and warrants that he/she is fully authorized to sign this Fourth Amendment on behalf of Attorney and to bind Attorney to the performance of its obligations hereunder.

IN WITNESS WHEREOF, the Parties have executed this Fourth Amendment as of the dates stated below.

SECOND AMENDMENT TO LEGAL SERVICES AGREEMENT

This Second Amendment for Legal Services (this "**Second Amendment**"), is made and entered into on _____ day of _____ 2017 ("**Effective Date**"), by and between the **CITY OF MODESTO**, a California Municipal Corporation ("**City**"), and **THE GALLAGHER LAW GROUP, P.C.** , ("**Attorney**"), located at 1875 Century Park East, Suite 1550, Los Angeles, California 90067. City and Attorney are hereinafter collectively referred to as the "**Parties**," and singularly as "**Party**".

RECITALS

WHEREAS, City and Attorney entered into a Legal Services Agreement ("**Agreement**") for representation in the matter of *Stanislaus County v. City of Modesto, et al.* a case arising out of a contaminated landfill; and

WHEREAS, Attorney is specially trained, experienced and competent to perform such services; and

WHEREAS, the public interest, economy and general welfare will be served by the Agreement; and

WHEREAS, City and Attorney desire to amend the Agreement for further service by increasing the previously approved amount of fees from $185,000 to $335,000.

NOW, THEREFORE, it is hereby agreed that the Legal Services Agreement between the City of Modesto and The Gallagher Law Group, P.C. dated August 25th, 2016 and amended by Resolution No. 2016-509 is amended as follows:

1. Section 2(a) of Paragraph 2, "Fees and Costs," Hourly Rates is amended to state as follows:

"The total of all fees paid to Attorney for the performance of all services set forth in Section 1(thereafter the "**Service**"), and for all authorized Reimbursable Expenses (as defined hereafter), shall not exceed a total sum of three hundred and thirty five thousand dollars ($335,000)."

2. **Entire Agreement.** The parties to this Second Amendment understand and agree that except as stated herein all terms and conditions of the original Agreement, dated August 25th, 2016, remain in full force and effect to the extent they are not in conflict with this Second Amendment. This document, including all exhibits, contain the entire amendment to the Agreement between the Parties and supersedes whatever oral or written understanding they may have had prior to the execution of this Second Amendment. No alteration to the terms of this Second Amendment shall be valid unless approved in writing by Attorney and by City, in accordance with applicable provision of the Modesto City Code.

3. **Authority**. The person signing this Second Amendment for Attorney hereby represents and warrants that he/she is fully authorized to sign this Second Amendment on behalf of Attorney and to bind Attorney to the performance of its obligations hereunder.

RESOLUTION APPROVING A SECOND AMENDMENT TO THE LEGAL SERVICES AGREEMENT DATED DECEMBER 16TH, 2014 WITH GOLDFARB & LIPMAN, LLP IN AN AMOUNT NOT TO EXCEED $75,000 TO CONTINUE REPRESENTING THE CITY OF MODESTO IN PREPARATION OF HOUSING PROJECTS AND OTHER GENERAL HOUSING RELATED SERVICES

WHEREAS, the City Attorney's Office is in need of outside counsel services that specialize in housing matters; and

WHEREAS, Goldfarb is currently assisting with projects receiving Community Development Block Grant (CDBG), Neighborhood Stabilization Preservation (NSP) and HOME Investment Partnerships Program (HOME) funds. These projects include but are not limited to:

- First Amendment to NSP Loan Agreement with Habitat for Humanity Stanislaus County (River Vista Project); and
- Disposition & Development Agreement and HOME Loan Agreement with EAH, Inc. (Archway Commons – Phase 2)

WHEREAS, by Resolution No. 2016-511, City approved a First Amendment, with an increased budget of $95,000 for continued representation; and

WHEREAS, the City Attorney's Office desires to extend the agreement with Goldfarb & Lipman, LLP; and

WHEREAS, the City Attorney's office has drafted a Second Amendment to the Legal Services agreement with Goldfarb & Lipman, LLP to continue services.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the City of Modesto to execute a Second Amendment to the Legal Services Agreement with Goldfarb & Lipman, LLP in an amount not to exceed $75,000 to continue representing the City of Modesto in preparation of housing projects

and other general housing related services, as provided in **Exhibit A attached** hereto and incorporated herein, and further authorizes the City Attorney to execute such agreement in a form substantially similar to **Exhibit A.**

RESOLUTION AMENDING THE FISCAL YEAR 2016-2017 ANNUAL OPERATING AND CAPITAL IMPROVEMENT BUDGET

WHEREAS, a financial analysis has been completed and it has been determined that a budget adjustment is required to the Annual and Capital Improvement Budgets of the City of Modesto for Fiscal Year 2016-17,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the Fiscal Year 2016-17 Annual Operating and Capital Improvement budgets as shown in **Exhibit A**, which is **attached** hereto and incorporated by reference herein.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

EXHIBIT A

FISCAL YEAR 2016-17

INFORMATION TECHNOLOGY

On March 28, 2017 the Council authorized by Resolution, # 2017-102, an award of contract to Application Software Technology of Naperville for the Oracle Enterprises Resource Planning (ERP) System Upgrade, Capital Improvement Project #101025, within the Information Technology Fund, 5230. A budget adjustment is necessary to establish the expense budget totaling $577,170.

A budget adjustment is necessary in the amount of $282,755 to reallocate costs associated with a Direct Charge Agreement (DCA), #IT002-006, between the Information Technology and Utilities Departments. This adjustment will re-align the costs to the intended areas in the Water Fund, Storm Drain Fund and General Fund. The overall expense budget related to these DCAs remains the same.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-224

RESOLUTION APPROVING THE SUBMITTAL OF A GRANT APPLICATION TO THE FEDERAL TRANSIT ADMINISTRATION (FTA) REQUESTING $3.5 MILLION IN FTA SECTION 5339 FUNDS FOR ELECTRIC BUSES AND RELATED INFRASTUCTURE, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE ALL GRANT RELATED DOCUMENTS

WHEREAS, the Federal Transit Administration (FTA) has been delegated authority to award federal financial assistance for transportation related projects, and

WHEREAS, the City of Modesto has provided all annual certifications and assurances required by the FTA to be eligible for funding under 49 U.S.C. Section 5339, and

WHEREAS, the FTA has made available funding under 49 U.S.C. Section 5339 for transit agencies to purchase Low and No Emission transit buses, and

WHEREAS, these Section 5339 funds will be used to purchase electric buses to replace diesel buses that operate bus routes in and surrounding Modesto, and

WHEREAS, Modesto is eligible to use federally approved Transportation Development Funds, known as Toll Credits, in lieu of a local match.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the submittal of an application to the FTA for $3,500,000 in Section 5339 funds for electric buses and related infrastructure.

BE IT FURTHER RESOLVED, that the Acting City Manager or his designee is authorized to execute all grant related documents, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION ACCEPTING THE BID AND AWARDING A CONTRACT TO GENFARE, A DIVISION OF SPX CORPORATION, ELK GROVE VILLAGE, IL, FOR THE PURCHASE OF 31 GENFARE ODYSSEY FAREBOXES, AND FARE MEDIA FOR THE MODESTO AREA EXPRESS (MAX) BUS FLEET IN THE AMOUNT OF $474,738 AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE PURCHASE ORDER

WHEREAS, on April 4, 2017, a Request for Bids (RFB) was issued, soliciting proposals from qualified firms, and

WHEREAS, Genfare submitted a proposal that was determined to be reasonable and cost effective, and

WHEREAS, the RFB conformed to the formal bid procedures in Modesto Municipal Code section 8-3.203 and staff recommends awarding the contract to the lowest responsive and responsible proposal submitted by Genfare, and

Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed $50,000 for material, equipment or contractual services to be formally bid. The award of contract for the purchase of Transit bus fareboxes and fare media, to SPX Genfare, Elk Grove Village, IL, conforms to the Modesto Municipal Code, 8-3.203, and

WHEREAS, on February 28, 2017, Council approved Resolution No. 2017-86, implementing a spending freeze in order to maintain the fiscal sustainability of the City. The City Manager's Office approved an exception to this freeze for this procurement due to the increased functionality new fareboxes will provide for the MAX system, granting agency expectations and keeping MAX equipment in a state of good repair.

NOW THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the bid and awards the contract to Genfare, a division of SPX Corporation, Elk Grove Village, IL, for the purchase of 31 Genfare Odyssey fareboxes and fare media for the Modesto Area Express (MAX) bus fleet in the amount of $474,738.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the purchase order in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2017-226

RESOLUTION APPROVING A BUDGET ADJUSTMENT IN THE AMOUNT OF $479,450 TO FUND THE PURCHASE AND INSTALLATION OF 31 GENFARE ODYSSEY FAREBOXES FOR THE MODESTO AREA EXPRESS (MAX) BUS FLEET

WHEREAS, certain budgetary transactions are necessary in the amount of $479,450 in order to fund the purchase of 31 Genfare Odyssey Fareboxes for the Modesto Area Express (MAX) bus fleet, and

WHEREAS, the City was awarded Proposition 1B funds under the Public Transportation Modernization, Improvement and Service Enhancement Account program (PTMISEA) in the amount of $474,738 for the purchase of the fareboxes, and

WHEREAS, Local Transportation Funds (LTF) in the amount of $4,712 will be used to fund the installation of the fareboxes, and

WHEREAS, the Fiscal Year 2016-2017 operating budget must be amended as shown in **Exhibit A**, which is incorporated by reference herein.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the amendment of the Fiscal Year 2016-2017 Operating Budget as shown in **Exhibit A**.

BE IT FURTHER RESOLVED that the Acting Director of Finance, or her designee, is hereby authorized to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING A FIRST AMENDMENT TO THE EAST STANISLAUS INTEGRATED REGIONAL WATER MANAGEMENT MEMORANDUM OF UNDERSTANDING, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE FIRST AMENDMENT TO THE MEMORANDUM OF UNDERSTANDING

WHEREAS, the Integrated Regional Water Management (IRWM) Act was enacted by the California legislature in 2002 with the purpose to encourage local agencies to coordinate and collaboratively manage water resources to improve water quality, quantity and reliability, and

WHEREAS, in 2008 the IRWM Planning Act was approved which provided for the development of IRWM Plans, and

WHEREAS, these Plans, subject to periodic updates, would be required by the State for eligibility to compete for various water resources grants authorized under Proposition 84 and the current Proposition 1, and

WHEREAS, in July 2016 the Department of Water Resources (DWR) released new IRWM Plan Guidelines for which all IRWM Plans must adhere in order to be eligible for Prop 1 Implementation project grants, and

WHEREAS, in March 2017 per Section 4.17 of the MOU, the City of Waterford and Stanislaus County formally requested to join the East Stanislaus IRWM Partnership which requires that the current MOU and Cost Sharing Agreement be revised to include new Partners and update the cost share percentages, and

WHEREAS, updating the IRWM Plan will keep the region eligible for various grant opportunities under Prop 1 and any future grant allocations, and

WHEREAS, expanding the Partnership pool of participants will strengthen the region's cooperative efforts of identifying water resources issues and collaborative solutions, and

WHEREAS, staff recommends approval of the First Amendment to the MOU for the East Stanislaus IRWM,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the First Amendment to the East Stanislaus Integrated Regional Water Management Memorandum of Understanding.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute said First Amendment in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

WHEREAS, the Integrated Regional Water Management (IRWM) Act was enacted by the California legislature in 2002 with the purpose to encourage local agencies to coordinate and collaboratively manage water resources to improve water quality, quantity and reliability, and

WHEREAS, in 2008 the IRWM Planning Act was approved which provided for the development of IRWM Plans, and

WHEREAS, these Plans, subject to periodic updates, would be required by the State for eligibility to compete for various water resources grants authorized under Proposition 84 and the current Proposition 1, and

WHEREAS, in July 2016 the Department of Water Resources (DWR) released new IRWM Plan Guidelines for which all IRWM Plans must adhere in order to be eligible for Prop 1 Implementation project grants, and

WHEREAS, in June 2010 the cities of Modesto, Ceres, Hughson and Turlock entered into a cost sharing agreement for the preparation of an IRWM Plan for the Stanislaus area, and

WHEREAS, the cost share methodology is based on a weighted formula for combined water and wastewater revenues for each agency, and

WHEREAS, also in June 2010 on behalf of the participating agencies, Modesto hired RMC Water and Environment (RMC) to assist in creating an IRWM Region and to develop an IRWM Plan, and

WHEREAS, in September 2011 the DWR through a Regional Acceptance Process, approved the new East Stanislaus IRWM Region, and

WHEREAS, in 2012 the DWR adopted new IRWM Planning Guidelines to which all IRWM Plans would need to be updated, and

WHEREAS, in February 2013 the Partnership amended the Cost Sharing Agreement to account for additional funding capacity to complete the IRWM Plan and adjust cost shares for then current water and wastewater revenues, and

WHEREAS, the 2013 agreed cost share percentages are as follows: Ceres (12%), Hughson (7%), Modesto (61%) and, Turlock (20%), and

WHEREAS, in early 2014 the Partnership agencies adopted the 2013 East Stanislaus IRWM Plan, and

WHEREAS, in July 2014 DWR accepted this Plan as meeting the 2012 IRWM Plan Guidelines allowing for the Region to be eligible for water resources implementation grant funding opportunities, and

WHEREAS, in September 2016 the Partnership submitted a planning grant application to DWR to help offset the costs of updating the current IRWM Plan to meet the 2016 Guidelines, and

WHEREAS, in February 2017 on behalf of the IRWM Region, Modesto was awarded a $147,625 grant from the DWR to update the 2013 IRWM Plan, and

WHEREAS, this grant will cover approximately 88% of the expected cost for updating the Plan with the remainder of costs shared by the Partnership, and

WHEREAS, in March 2017 per Section 4.17 of the MOU, the City of Waterford and Stanislaus County formally requested to join the East Stanislaus IRWM Partnership

which requires that the current MOU and Cost Sharing Agreement be revised to include new Partners and update the cost share percentages, and

WHEREAS, because the County does not have water and wastewater revenues from which the cost share methodology is based, the agencies are recommending that the County assume a proportional cost share based on number of participating agencies; a one-sixth (1/6) share, and the municipal agencies remain on a weighted water/wastewater revenue methodology for the remaining five-sixths (5/6) of the cost, and

WHEREAS, the FY 2015/16 agencies' water and wastewater revenues are being used in the formula to establish the revised cost share percentages, and

WHEREAS, the new cost share percentages in the Agreement are as follows: Ceres (11.5%), Hughson (7.0%), Modesto (44.5%), Turlock (14.5%), Waterford (6.0%), and Stanislaus County (16.5%), and

WHEREAS, updating the IRWM Plan will keep the region eligible for various grant opportunities under Prop 1 and any future grant allocations, and

WHEREAS, expanding the Partnership pool of participants will strengthen the region's cooperative efforts of identifying water resources issues and collaborative solutions, and

WHEREAS, staff recommends approval of the Cost Sharing Agreement for the East Stanislaus IRWM,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Cost Sharing Agreement for preparation of an Integrated Regional Water Management Plan.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute said Agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-229

RESOLUTION APPOINTING COUNCILMEMBER BILL ZOSLOCKI AS PRIMARY AND MAYOR TED BRANDVOLD AS ALTERNATE TO SERVE AS CITY OF MODESTO MEMBERS ON THE EAST STANISLAUS INTEGRATED REGIONAL WATER MANAGEMENT PARTNERSHIP

WHEREAS, the Integrated Regional Water Management (IRWM) Act was enacted by the California legislature in 2002 with the purpose to encourage local agencies to coordinate and collaboratively manage water resources to improve water quality, quantity and reliability, and

WHEREAS, in 2008 the IRWM Planning Act was approved which provided for the development of IRWM Plans, and

WHEREAS, these Plans, subject to periodic updates, would be required by the State for eligibility to compete for various water resources grants authorized under Proposition 84 and the current Proposition 1, and

WHEREAS, in July 2016 the Department of Water Resources (DWR) released new IRWM Plan Guidelines for which all IRWM Plans must adhere in order to be eligible for Prop 1 Implementation project grants, and

WHEREAS, the established governance structure in the IRWM Plan is a State required Plan element, requiring that elected officials or their delegated representatives from the Partnership agencies (aka Regional Management Group) have an oversight role in the process and activities of an IRWM, and

WHEREAS, the current form of agreement is based on an MOU and, as such, the Partnership identified two representatives, a primary and an alternate, from each Partnership agency, be appointed to serve the IRWM, and

WHEREAS, this body's role is to provide direction to the Steering Committee, or working staff, on big picture water resources and legal matters, and specific efforts such as MOU's, Cost Sharing Agreements, Plan Adoption, Consultant Agreements, Grant Authorizations, and to receive updates as necessary regarding IRWM activities, and

WHEREAS, staff recommends the appointment of Councilman Bill Zoslocki as Primary and Mayor Ted Brandvold as Alternate members to serve the IRWM Partnership,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby appoints Councilmember Bill Zoslocki as Primary and Mayor Ted Brandvold as Alternate to serve as City of Modesto members on the East Stanislaus Integrated Regional Water Management Partnership.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-230

RESOLUTION APPROVING THE SOLE SOURCE PROCUREMENT FOR THE RENTAL OF THREE DV 400C PUMPS FROM RAIN FOR RENT, STOCKTON, CA, AND AUTHORIZING THE PURCHASING MANAGER, OR HIS DESIGNEE, TO ISSUE A PURCHASE ORDER FOR A TOTAL COST NOT TO EXCEED $90,000

WHEREAS, in January 2012, West Yost Associates completed a draft of the Cannery Segregation Line (CSL) and River Trunk Diversion Plan (Plan), and

WHEREAS, the Plan consisted of several elements: 1) a risk assessment which included a complete inspection of the CSL and a hydraulic analysis of CSL flows; 2) a temporary bypass pumping plan in the event of a CSL failure; and 3) preliminary design of permanent diversion structures, and

WHEREAS, through the use of Closed Circuit Television inspection and hydraulic analysis, it was determined that the risk of CSL failure is low but is a possibility, and

WHEREAS, the most likely scenario would be a washout of the bank supporting the pipeline, and

WHEREAS, in January 2015, an emergency bank repair was completed due to significant bank erosion at the Tuolumne River, and

WHEREAS, to mitigate the risk of a service disruption caused by a catastrophic failure of the CSL, the Plan included a Temporary Bypass Plan (Bypass Plan) where, in the event of a CSL failure, the Bypass Plan could quickly restore service to CSL users, and

WHEREAS, the worst-case scenario of the Bypass Plan requires three very large bypass pumps capable of performing the bypass operation that the City does not own and the availability of the pumps is based on a first-come/first-serve basis, and

WHEREAS, to guarantee the availability of the bypass pumps, the Utilities Department is requesting these pumps be placed in standby at the local Rain for Rent yard during the coming CSL season, and

WHEREAS, on February 28, 2017, Council approved Resolution No. 2017-86 implementing a spending freeze in order to maintain fiscal sustainability of the City, and

WHEREAS, as allowed by this resolution, the City Manager's Office approved an exception to this freeze for this procurement, and

WHEREAS, justification for this exception is crucial for Wastewater Division to ensure availability of pumps should there be a failure of the CSL, and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed $50,000 for material, equipment or contractual services to be formally bid. However, there are exceptions to the rule set forth in the Modesto Municipal Code. One exception, MMC8-3.204(b), states where as the purchasing agencies' requirements can be met solely by a single article or process: the sole source procurement for the sole source procurement of remote terminal units and all associated circuit boards conforms to the Modesto Municipal Code.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the sole source procurement for the rental of three DV-400c pumps from Rain for Rent, Stockton, CA.

BE IT FURTHER RESOLVED that the Purchasing Manager, or his designee, is hereby authorized to issue a purchase agreement for a total cost not to exceed $90,000 in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-231

RESOLUTION APPROVING THE PREQUALIFIED CONSULTANT LIST, CONSISTING OF JACOBSON JAMES & ASSOCIATES, ROSEVILLE, CA, KENNEDY/JENKS CONSULTANTS, RANCHO CORDOVA, CA, AND TODD GROUNDWATER, ALAMEDA, CA FOR HYDROGEOLOGICAL SERVICES FOR VARIOUS CAPITAL IMPROVEMENT PROGRAM (CIP) PROJECTS FOR A PERIOD OF ONE YEAR, WITH THE POSSIBILITY OF TWO ADDITIONAL ONE-YEAR EXTENSIONS AT THE WRITTEN APPROVAL OF THE DEPARTMENT DIRECTOR

WHEREAS, there are a number of Capital Improvement Program (CIP) projects that may require outside consultant services for efficient project delivery, and

WHEREAS, retaining a prequalified, as-needed list of consultants allows the Utilities Department to have accelerated access to specific hydrogeological services, when needed, and

WHEREAS, this will eliminate the need to send out repetitive Requests for Qualifications (RFQ) for projects of similar scope and/or type, saving staff time and project costs, and

WHEREAS, in accordance with Administrative Directive 3.1, Selection Procedures for Professional Consultants Who Provide Architectural & Engineering Services for Capital Projects, which is in compliance with State of California Government Code, Sections 4526-4529, staff solicited and formally advertised an RFQ through Planet Bids for civil design and drafting services, and

WHEREAS, staff received eleven (11) Statements of Qualifications (SOQs) for hydrogeological services, and

WHEREAS, after careful review of the SOQs by Utilities Department staff, the following three (3) firms were selected as the most qualified for the pre-qualified list for

hydrogeological services: 1) Jacobson James & Associates, Roseville, CA; 2) Kennedy/Jenks Consultants, Inc., Rancho Cordova, CA; 3) TODD Groundwater, Alameda, CA.

WHEREAS, When hydrogeological services are required for Utilities CIP projects with a total budget of $3 million or less, a Request for Proposals (RFP) with a specific scope of work may be issued to these firms and,

WHEREAS, following evaluation of proposals, interviews will be conducted to select the most qualified firm, and

WHEREAS, an agreement for hydrogeological services will then be presented to City Council for approval, and

WHEREAS, this prequalified consultant list will be active for one year from the date of Council approval, at which time the City may extend the list for two additional one-year extensions at the written approval of the Department Director, and

WHEREAS, in the event the firms listed on the pre-qualified list are deemed to lack experience or expertise for specific projects, the City retains the right to recruit consultants for individual projects and not be restricted to the approved list, and

WHEREAS, a formal process will be conducted should this situation occur,

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the prequalified local consultant list, consisting of: Jacobson James & Associates, Roseville, CA; Kennedy/Jenks Consultants, Inc., Rancho Cordova, CA; and TODD Groundwater, Alameda, CA for Hydrogeological Services for various Capital Improvement Program (CIP) projects for a period of one year, with the two

optional additional one-year extensions at the written approval of the Department Director.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-232

RESOLUTION APPROVING AN AGREEMENT WITH KLEINFELDER, INC., MODESTO, CA FOR ON-CALL HYDROGEOLOGICAL SERVICES FOR VARIOUS CITY PROJECTS FOR ONE YEAR, WITH TWO ONE-YEAR EXTENSION OPTIONS, AT THE SOLE DISCRETION OF THE CITY, IN AN AMOUNT NOT TO EXCEED $75,000 PER YEAR, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT, AND UP TO TWO ONE-YEAR EXTENSION OPTIONS

WHEREAS, there are a number of Capital Improvement Program (CIP) projects that may require outside consultant services for efficient project delivery, and

WHEREAS, retaining on-call professional services consultants allows the department to have quick access to specific hydrogeological services, when needed, and

WHEREAS, on-call professional services consultants can provide designs for small projects using experienced staff and offer a quick turnaround, which is essential to efficient implementation of the City's CIP projects, and

WHEREAS, this will eliminate the need to send out repetitive Requests for Qualifications (RFQ) for projects of similar scope and/or type, saving staff time and project costs, and

WHEREAS, in accordance with Administrative Directive 3.1, Selection Procedures for Professional Consultants Who Provide Architectural & Engineering Services for Capital Projects, which is in compliance with State of California Government Code, Sections 4526-4529, staff solicited and formally advertised an RFQ through Planet Bids for hydrogeological engineering services for on-call services, and

WHEREAS, staff received eleven (11) Statement of Qualifications (SOQs) for hydrogeological engineering services, and

WHEREAS, after careful review of the SOQs/Proposals by Utilities Department staff, the local firm of Kleinfelder, Inc. (Kleinfelder) was one of two most qualified firms to provide on-call hydrogeological services, and

WHEREAS, the local firm of Kleinfelder is deemed the most qualified to provide the requested on-call professional services and have demonstrated satisfactory services to the City on the following past projects, and

WHEREAS, when on-call hydrogeological services are required on an "as needed" basis, written task orders will be issued to the consultant identifying the scope, cost, and schedule to complete specific task, and

WHEREAS, on February 28, 2017, by Resolution No. 2017-86, Council approved implementing a spending freeze in order to maintain fiscal sustainability of the City.

WHEREAS, as allowed by this resolution, the City Manager's Office approved an exception to this freeze for this procurement, and

WHEREAS, justification for this exception is that the projects are already approved and adopted as part of the current Fiscal Year 2016-2017 Capital Improvement Program, are needed to provide safe and reliable water distribution, and it will not require a budget transfer from reserves to provide the required services.

WHEREAS, there are no fiscal impacts at this time, and

WHEREAS, to fund consultant work for project-specific task orders, funds will be budgeted and encumbered against each specific CIP project account as the project is assigned, and

WHEREAS, consultant invoices will be paid from each specific CIP project on a task order basis received and verified by Capital Improvement Services (CIS) staff, and

WHEREAS, costs for on-call Hydrogeological services will not exceed the allotted amount for one year for each agreement with two one-year extension options, at the sole discretion of the City, and

WHEREAS, when on-call professional services are required, staff will prepare task order(s), and

WHEREAS, the consultant will submit a written scope of services outlining the specific work, schedule, and cost estimate associated with each task order, and

WHEREAS, the consultant will not perform any services until staff has approved the proposed specific task order and a written Notice to Proceed is prepared and sent to the consultant, prior to commencement of services, and

WHEREAS, total cost for three years is not to exceed $225,000 for the agreement for On-Call Hydrogeological Services, and

WHEREAS, City staff recommends an On-call Hydrogeological Services Agreement with Kleinfelder Consultants, to be approved,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with Kleinfelder, Inc., Modesto, CA for On-call Hydrogeological Services for Capital Improvement Program Projects for one year, with two one-year extension options at the sole discretion of the City in an amount not to exceed $75,000 per year. Total cost for three years is not to exceed $225,000.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute said agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION REJECTING ALL BIDS FOR THE INSTALLATION OF FLUSH LINES WELL 265, AND AUTHORIZING STAFF TO RE-ADVERTISE THE PROJECT AT A FUTURE DATE WITH AN AMENDED SCOPE OF WORK

WHEREAS, the bids received for the Installation of Well Flush Lines project were opened at 11:00 a.m. on May 9, 2017, and later tabulated by the Director of Utilities for the consideration of the Council, and

WHEREAS, the one bid was 142.54% above the engineer's estimate, and

WHEREAS, the Utilities Department staff determined that it would be in the best interest of the City to reject bids and re-advertise the project reduce the total cost, and

WHEREAS, staff recommends rejecting all bids and re-advertising the project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby rejects all bids received for the Installation of Flush Lines Well 265.

BE IT FURTHER RESOLVED that staff is hereby authorized to re-advertise the project with an amended scope of work.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-235

RESOLUTION APPROVING THE AWARD OF BID FOR THE FURNISHING OF DIGESTER CLEANING SERVICES TO WASTEWATER SOLIDS, YACHATS, OR, FOR A TWO-YEAR AGREEMENT WITH THREE ONE-YEAR EXTENSION OPTIONS AT THE SOLE DISCRETION OF THE CITY, FOR AN ESTIMATED ANNUAL COST OF $36,350, AND OVER FIVE YEARS OF $181,750, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE A PURCHASING AGREEMENT

WHEREAS, the City Manager authorized the Purchasing Division to issue a Request for Bids (RFB) for Digester Cleaning Services and RFB No. 1516-28 was issued on March 7, 2016, and

WHEREAS, the bid opening was on April 5, 2016, and two companies – Amigo PAT-CA from Compton, CA, and Pipe and Plant from Berkeley, CA, provided bids, which far exceeded previous costs for these services, and

WHEREAS, on August 3, 2016, by Resolution 2016-321, Council authorized the rejection of the bids received for the Digester Cleaning Services, and

WHEREAS, the Bid Authorization was approved on April 7, 2017 and Purchasing issued RFB No. 1617-26 on April 11, 2017 and the bid opening was on May 16, 2017 with two companies responding: Pipe and Plant, Oakland, CA, and Wastewater Solids, Yachats, OR, and

WHEREAS, based on providing the overall lowest responsive and responsible bid, City staff recommends the award of the bid for Digester Cleaning Services to Wastewater Solids, Yachats, OR, for an annual cost of $36,350, and over five years of $181,750, and

WHEREAS, on February 28, 2017, Council approved Resolution No. 2017-86 implementing a spending freeze in order to maintain fiscal sustainability of the City, and

WHEREAS, the City Manager's Office approved an exception to this freeze for this procurement and justification for this exception is crucial for Wastewater plant operation, and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed $50,000 for material, equipment or contractual services, to be formally bid and the award of bid for digester cleaning services conforms to Modesto Municipal Code Section 8-3.203.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the Acting City Manager, or his designee, is hereby authorized to execute a purchase agreement to Wastewater Solids, Yachats, OR, for digester cleaning services for a two-year agreement with three one-year extension options at the sole discretion of the City at an estimated annual cost of $36,350, and over five years of $181,750.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute a purchase agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 13th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017 -236

RESOLUTION APPROVING THE FINAL PROPOSED BUDGET INCLUSIVE OF THE CITY MANAGER'S DRAFT BUDGET AND THE MAYOR'S FINAL BUDGET MODIFICATION, AND NOTICING A PUBLIC HEARING TO BE HELD ON JUNE 27, 2017 FOR THE FIRST READING AND ADOPTION OF THE FINAL PROPOSED BUDGET AND RELATED ACTIONS

WHEREAS, the Effective Government Committee heard the City Manager's Draft Budget on May 22nd and May 24th, 2017; and

WHEREAS, the Effective Government Committee approved the City Manager's Draft Budget with a 3-0 vote and approved the motion to have the Mayor make modifications to the City Manager's Draft Budget 30 days prior to adoption by the City Council; and

WHEREAS, the Mayor has presented his modifications to the City Manager's Draft Budget to City Council and has presented any changes for incorporation into the City of Modesto's Final Proposed Budget for Fiscal Year 2017-18; and

WHEREAS, the City of Modesto's Final Proposed Budget for Fiscal Year 2017-18 will be inclusive of the City Manager's Draft Budget as well as the Mayor's Final Budget Modifications and will be heard at a public hearing to be held on June 27, 2017.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the City of Modesto's Final Proposed Budget inclusive of the City Manager's Draft Budget and the Mayor's Final Budget Modifications and directing notice to be published for a public hearing to be held on June 27, 2017 for the first reading and adoption of an Ordinance for the Final Proposed Budget for Fiscal Year 2017-18, and taking related actions.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-238

Print

RESOLUTION APPROVING THE AMENDED AND RESTATED JOINT POWERS AGREEMENT AND BYLAWS OF THE STANISLAUS COUNCIL OF GOVERNMENTS

WHEREAS, the City of Modesto is a party to the Joint Powers Agreement establishing the Stanislaus Council of Governments dated April 5, 2016 (JPA);

WHEREAS, pursuant to Sections 16 and 17 of the JPA, the County of Stanislaus Auditor-Controller and Treasurer acts as the Auditor/Controller/Treasurer of the Stanislaus Council of Governments (StanCOG);

WHEREAS, in January and March 2017, StanCOG staff presented to the StanCOG Policy Board the rationale for substituting the Stanislaus County Auditor/Controller and Treasurer for the StanCOG Finance Director, or his/her designee, in those capacities;

WHEREAS, with the exception of Transportation Development Act funds, Stanislaus County is not required to be the Auditor/Controller/Treasurer for StanCOG;

WHEREAS, pursuant to the Joint Powers Authority law, set forth at Government Code §§ 6500 *et* seq. StanCOG has three options: (1) maintain the relationship with the Stanislaus County Auditor-Controller and Treasurer; (2) designate a certified public accountant to serve as Treasurer and Stanislaus County as Auditor-Controller; or (3) designate an employee or officer of StanCOG to serve as Auditor-Controller and Treasurer and hire and independent auditor to perform annual audits;

WHEREAS, with the passage of Measure L, an amendment to add a section to the JPA to create the Measure L Oversight Committee as well as a section to identify the

power of the JPA to levy and expend the tax revenues authorized by Measure L were also added; and

WHEREAS, the corresponding revisions were made to the Bylaws **attached** to the JPA as Amendment "A"; and

WHEREAS, on January 26, 2017 and March 15, 2017, the StanCOG Board unanimously approved the above described amendments to the JPA and the Bylaws, as shown in **Attachment A** to this resolution, designating the StanCOG Finance Director, or his/her designee, as the Auditor-Controller and Treasurer of StanCOG, authorizing the hire of an independent auditor to perform annual audits consistent with the Joint Powers Authority law, creation of the Measure L Oversight Committee and identifying the power of StanCOG to levy and expend the tax revenues authorized by Measure L; and corresponding revisions to the Bylaws; and

WHEREAS, Section 31 of the JPA provides that the JPA may be amended upon ratification by resolution of 75% of the member agencies representing 75% of the population of the County of Stanislaus as determined by the most recent Decennial Census.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto, as a party to the JPA, hereby approves the amendments to the JPA and the Bylaws as shown in **Attachment A.**

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

AMENDED AND RESTATED JOINT POWERS AGREEMENT ESTABLISHING THE STANISLAUS COUNCIL OF GOVERNMENTS

THIS AGREEMENT, made and entered into in the County of Stanislaus, State of California, this _____ day of _____, 201__, is between the Cities of Ceres, Hughson, Modesto, Newman, Oakdale, Patterson, Riverbank, Turlock, and Waterford, all municipal corporations, and the County of Stanislaus, a political subdivision of the State of California. The municipal corporations are sometimes referred to individually as "City" and collectively as "Cities." The County of Stanislaus is sometimes referred to as "County." The Cities and County are sometimes referred to individually as a "Party" and collectively as "Parties."

W I T N E S S E T H:

1. RECITALS.

1.1. Common Power. Chapter 5 of Division 7 of Title 1 (Sections 6500, et seq.) of the California Government Code authorizes two (2) or more public agencies, by a joint powers agreement entered into respectively by them and authorized by their legislative or governing bodies, to exercise jointly any power or powers common to the contracting parties.

1.2. Common Authority. The City of Modesto, by virtue of its charter, and the Cities of Ceres, Hughson, Newman, Oakdale, Patterson, Riverbank, Turlock, and Waterford, by virtue of California Government Code Section 65600 through 65604, inclusive, possess in common the authority:

1.2.1. To study, discuss, and develop solutions to area-wide problems of direct concern to the performance of their constitutional and statutory functions and to establish an area planning organization and expend public funds for these purposes.

1.2.2. To do all acts necessary to participate in federal programs and receive federal funds for health, education, welfare, public works, and community improvement activities, including contracting and cooperating with other agencies.

1.3. Orderly Development. The people residing within the incorporated and unincorporated areas of Stanislaus County have an interest in the orderly development of their communities.

1.4. Independent Agency. The continued growth and extensive development within the incorporated and unincorporated areas of Stanislaus County evidenced a need to create a wholly independent regional agency capable of dealing with area-wide issues and problems.

1.5. Predecessor. The foregoing need led to the creation and establishment of the Stanislaus Area Association of Governments on May 11, 1971, the subsequent approval of a Revised Joint Powers Agreement on May 28, 1974, and a subsequent approval of a Joint Powers Agreement establishing the Stanislaus Council of Governments on June 5, 2001.

1.6. Effects. The establishment of STANISLAUS COUNCIL OF GOVERNMENTS (hereinafter referred to as "StanCOG") has:

1.6.1. Provided a forum to study and develop solutions to area-wide problems of mutual concern to the various governmental entities in Stanislaus County.

1.6.2. Provided efficiency and economy in governmental operations through the cooperation of member governments and the pooling of common resources.

1.6.3. Provided for the establishment of an agency responsible for identifying, planning, and developing solutions to regional problems requiring multijurisdictional cooperation.

1.6.4. Provided for the establishment of an agency capable of developing regional plans and policies and performing area-wide duties.

1.6.5. Facilitated cooperation among and agreement between local governmental bodies for specific purposes, interrelated development actions, and for the adoption of common policies with respect to issues and problems which are common to its members.

1.7. Amendment. The Cities of Ceres, Hughson, Modesto, Newman, Oakdale, Patterson, Riverbank, Turlock, and Waterford and the County of Stanislaus, at this time, desire to amend that certain joint powers agreement of June 5, 2001, as subsequently amended on December 12, 2007, April 5, 2016 and January 26, 2017 and enter into this Amended and Restated Agreement in order to establish the duties and powers of the STANISLAUS COUNCIL OF GOVERNMENTS.

NOW, THEREFORE, IT IS MUTUALLY AGREED AS FOLLOWS:

2. STATEMENT OF PURPOSE

The member Cities and the County have joined together to establish the Stanislaus Council of Governments for the following purposes:

2.1. Area-Wide Opportunities. A number of opportunities and issues within the area are either area-wide in nature or have area-wide aspects or implications, including, but not limited to transportation, air quality, land use, economic development, job creation, and the reduction of unemployment.

2.2. Need. There is a demonstrated need for the establishment of an organization of the Cities and the County within the area to provide a forum for study and development of recommendations to area-wide problems of mutual interest and concern to the Cities and the County and to facilitate the development of policies and action recommendations for the solution of problems.

2.3. Independent Review. The Cities and the County wish to create an area-wide organization which will independently review and make comments to the member Cities and the County regarding projects which receive state or federal funding.

2.4. Elected Officials. The Cities and the County believe that an area-wide planning organization, governed solely by elected officials from the Cities and the County, with a staff independent of any City or the County, is best suited for area-wide planning and review.

2.5. Area-Wide Problems. The Cities and the County, working together through this organization, can exercise initiative, leadership, and responsibility for solving area-wide problems.

2.6. Allocation of Resources. The Cities and the County share common area-wide problems and issues, and at the same time, have different needs and priorities and are affected in different ways by these common area-wide problems and issues. The resources of StanCOG shall be allocated in a manner so that the needs of any portion of the area are not ignored, recognizing, however, that resources are limited and that not all needs can be met, nor all portions of the area assisted equally at any one time.

3. ESTABLISHMENT OF STANISLAUS COUNCIL OF GOVERNMENTS

3.1. Continued Public Entity. Upon the effective date of this Agreement, the Parties hereto hereby continue the STANISLAUS COUNCIL OF GOVERNMENTS, as a public entity separate and distinct from its member entities, as the agent to exercise the common powers provided for in this Agreement and to administer or otherwise execute this Agreement.

3.2. Continuation of Duties. StanCOG is the successor entity to the Area Association of Governments established in 1971, insofar as its predecessor entity has been designated, and insofar as legally authorized, it shall continue to function, without interruption in its duties, as:

3.2.1. The Local Transportation Authority (LTA) as designated by the Stanislaus County Board of Supervisors, pursuant to the Local Transportation Authority and Improvement Act set forth at California Public Utilities Code Sections 180,000, et seq.

3.2.2. The Area-wide Planning Organization (APO) as designated by the U.S. Department of Housing and Urban Development (HUD);

3.2.3. The Metropolitan Planning Organization (MPO) as designated by the U.S. Department of Transportation; pursuant to Title 23 of United States Code, Section 134 (23 USC 134) and Title 49 of the Unites States Code, Section 5303(b)(2).

3.2.4. The Regional Transportation Planning Agency (RTPA) as designated by the Secretary of Business and Transportation Agency of the State of California; pursuant to California Government Code Sections 65080, et seq.

3.2.5. The regional planning representative, as designated by the parties hereto, for the purpose of acting upon any appropriate proposals which may be presented to the StanCOG Policy Board of Directors for consideration, or which the StanCOG Policy Board of Directors may elect to take up, and for transmission of proposed recommendations to Federal, State, and local agencies, including, but not limited to the member entities of StanCOG.

3.2.6. The Congestion Management Agency (CMA) as designated by the Stanislaus County Board of Supervisors, pursuant to California Government Code Sections 65088, et seq.

3.2.7. The Abandoned Vehicle Authority (AVA) as designated by the Stanislaus County Board of Supervisors, pursuant to California Vehicle Code, Section 22710(a).

4. COOPERATION

The Parties to this Agreement pledge full cooperation and agree to assign representatives to serve as official members of the StanCOG Policy Board or any committee or subcommittee thereof, which members shall act for and on behalf of their Cities or the County in any and all matters which shall come before StanCOG, subject to any necessary and legal approvals of their acts by the legislative bodies of the Cities and the County.

5. MEMBER AGENCIES.

StanCOG shall be composed of the County of Stanislaus and the Cities of Ceres, Hughson, Modesto, Newman, Oakdale, Patterson, Riverbank, Turlock, and Waterford, together hereinafter referred to as the Member Agencies.

6. BOARD AND VOTING

6.1. Board. The Stanislaus Council of Governments shall be governed by a Board of Directors, herein referred to as the StanCOG Policy Board, the members of which shall be appointed by the Member Agencies as follows.

6.1.1. Five members of the Board of Supervisors of the County of Stanislaus, with each member having one vote.

6.1.2. Three members from the Modesto City Council, with each member having one vote.

6.1.3. One (1) member from each of the City Councils of Ceres, Hughson, Newman, Oakdale, Patterson, Riverbank, Turlock, and Waterford (with the Mayor an eligible member), and each member having one (1) vote.

6.1.4. A representative or his or her alternate must be present to vote.

6.2. Appointment and Term of Office. Members shall be appointed by the governing body of each Party and shall serve at the pleasure of their appointing body or until their respective successors are appointed. The term of office of each representative and alternate representative, should the alternate be an elected official, shall correspond with his or her term of office on the legislative body he or she represents. If a vacancy occurs, it shall be filled by a new appointment made by the appropriate Member Agency.

6.3. Alternate Representatives. Each Member Agency shall designate at least one alternate representative. Said alternates need not be elected officials of the member, however, the County Chief Executive Officer and the Modesto City Manager are not eligible to be designated as alternates. Members may designate more than one alternate for each representative, as deemed prudent by that member. To be eligible to cast the vote of the member, alternates must be designated, and notice of said designation given to the StanCOG Executive Director, at least twenty-four (24) hours prior to the first meeting at which that alternate is to attend on behalf of the Member Agency's designated Representative.

6.4. Quorum and Majority Requirements. The presence of at least one (1) representative, or in the absence of a representative his or her alternate, from a majority of the Member Agencies, shall constitute a quorum. A quorum shall be necessary for the purpose of conducting official business. A two-thirds majority of those present shall be required to approve all expenditures. For all other business, a majority vote of those present shall be sufficient. A roll call vote shall be conducted at the request of any representative.

6.5. Meeting Time and Place. The Stanislaus Council of Governments shall establish a time and place for regular Policy Board meetings. All meetings shall be conducted in accordance with the Ralph M. Brown Act, California Government Code, section 54950 et seq.

7. EXECUTIVE COMMITTEE

7.1. Executive Committee. The Executive Committee shall consist of five (5) members of the StanCOG Policy Board: Two of the representatives from the County Board of Supervisors, to be appointed by and serve at the pleasure of the County Board of Supervisors; One of the representatives from the City of Modesto, to be appointed by and to serve at the pleasure of the City of Modesto and; Two representatives from among the other cities, said representatives to be chosen each year by the Policy Board members representing the cities other than Modesto. The Chairperson and Vice-Chairperson of the Policy Board shall be ex officio

two of the five members of the Executive Committee, representing their respective Member Agencies, and shall serve as the Chairperson and Vice-Chairperson of the Executive Committee.

7.2. Powers of Executive Committee. The Executive Committee shall have such powers as are not inconsistent with this Agreement and as delegated to it by the StanCOG By-laws or the StanCOG Policy Board.

7.3. Alternate Representatives. Each representative of the Member Agency that sits on the Executive Committee shall designate at least one alternate representative in the manner set forth in Section 6.3, except that each alternate shall be a member of the StanCOG Policy Board.

8. MANAGEMENT AND FINANCE COMMITTEE.

8.1. Management and Finance Committee. The Management and Finance Committee shall consist of the Chief Administrative Official for the County of Stanislaus, or his or her designee; and the City Manager/Administrator for the Cities of Ceres, Hughson, Modesto, Newman, Oakdale, Patterson, Riverbank, Turlock, and Waterford.

8.2. The Management and Finance Committee shall be operated in accordance with the Bylaws of the Policy Board attached hereto as Exhibit A.

9. SOCIAL SERVICES TRANSPORTATION ADVISORY COUNCIL

9.1. Social Services Transportation Advisory Council. The Social Services Transportation Advisory Council shall consist of the following members who are residents of Stanislaus County:

1. One representative of potential transit users who is 60 years of age or older.
2. One representative of potential transit users who are handicapped.
3. Two representatives of the local social service providers for seniors, including one representative of a social service transportation provider, if one exists.
4. Two representatives of local social service providers for the handicapped, including one representative of a social service transportation provider, if one exists.
5. One representative of a local social service provider for persons of limited means.
6. Two representatives from the local consolidated transportation service agency, designated pursuant to Subdivision (a) of Section 15975 of the Government Code, if one exists, including one representative from an operator, if one exists.

7. Up to two (2) additional representatives, if desired by StanCOG and appointed by the Executive Committee.

9.2. The Social Services Transportation Advisory Council shall be operated in accordance with the Bylaws of the Social Services Transportation Advisory Council attached hereto as Appendix I.

10. CITIZENS ADVISORY COMMITTEE

10.1. Citizens Advisory Committee. The Citizens Advisory Committee shall be comprised of ten (10) residents of Stanislaus County, one (1) from each of the Member Agencies.

10.2. The Citizens Advisory Committee shall be operated in accordance with the Bylaws of the Citizens Advisory Committee attached hereto as Appendix II.

11. BICYCLE / PEDESTRIAN ADVISORY COMMITTEE

11.1. Bicycle / Pedestrian Advisory Committee. The Bicycle/Pedestrian Advisory Committee shall be comprised of ten (10) residents of Stanislaus County, one (1) from each of the Member Agencies.

11.2. The Bicycle / Pedestrian Advisory Committee shall be operated in accordance with the Bylaws of the Bicycle / Pedestrian Advisory Committee attached hereto as Appendix III.

12. VALLEY VISION STANISLAUS STEERING COMMITTEE

12.1. Valley Vision Stanislaus Steering Committee. The Valley Vision Stanislaus Steering Committee shall be comprised of twenty-one (21) residents of Stanislaus County, one (1) from each of the Member Agencies, and one representative from: Citizens Advisory Committee, Policy Board, LAFCO, Health, Agriculture, Environment/Conservation, Economic Development, Building Industry, Transit User/Provider, Education and Environmental Justice.

12.2. The Valley Vision Stanislaus Steering Committee shall be operated in accordance with the Bylaws of the Valley Vision Stanislaus Steering Committee attached hereto as Appendix IV.

13. MEASURE L OVERSIGHT COMMITTEE

13.1. Measure L Oversight Committee. The Measure L Oversight Committee shall be comprised of one representative from each of the following jurisdictions: City of Ceres, City of Hughson, City of Modesto, City of Newman, City of Oakdale, City of Patterson, City of Riverbank, City of Turlock, City of Waterford and Stanislaus County. Members of the Measure

L Oversight Committee shall not be members of any other Local Transportation Authority or StanCOG committee(s).

13.2. The Measure L Oversight Committee shall be operated in accordance with the Bylaws of the Measure L Oversight Committee attached hereto as Appendix V.

14. POWERS AND FUNCTIONS

14.1. Specific Functions. The Stanislaus Council of Governments shall have the common power of the Parties hereto to plan, establish, administer, and operate an independent area planning organization and in the exercise of that power the Stanislaus Council of Governments is authorized in its own name to:

14.1.1. Employ an Executive Director as the chief administrative officer of Stanislaus Council of Governments.

14.1.2. Employ agents and employees and contract for professional services.

14.1.3. Make and enter into contracts.

14.1.4. Acquire, hold and convey real and personal property, including the power to acquire property by eminent domain.

14.1.5. Undertake the planning, design, environmental clearance and construction of transportation and other projects.

14.1.6. Cooperate with other agencies, counties and other local public agencies and participate in joint projects as necessary.

14.1.7. Incur debts, obligations and liabilities.

14.1.8. Accept contributions, grants or loans from any public or private agency or individual, or the United States, the State of California or any department, instrumentality, or agency thereof, for the purpose of financing its activities.

14.1.9. Invest money that is not needed for immediate necessities, in the same manner and upon the same conditions as other local entities in accordance with Section 53601 of the California Government Code.

14.1.10. Have appointed members and ex-officio members of the Stanislaus Council of Governments serve without compensation from the Stanislaus Council of Governments, except that members of the StanCOG Policy Board may be reimbursed for all

reasonable expenses and costs relating to attendance at Stanislaus Council of Governments meetings or other Stanislaus Council of Governments business.

14.1.11. Sue and be sued, in its own name only, but not in the name or stead of any Member Agency.

14.1.12. Exercise any and all other powers as may be provided for in California Government Code Section 6547.

14.1.13. The Stanislaus Council of Governments is hereby designated by the parties to this Agreement as the regional review agency for the purposes of acting on any appropriate proposals which may be presented to it for consideration, and as the sole regional planning representative for transmission of proposed recommendations to the U.S. Department of Housing and Urban Development or such other agency of the Federal Government or State Government as may be designated to receive such recommendations from the Council, and as the area-wide planning organization (APO) for the County of Stanislaus as such APO is defined in pertinent State and/or Federal directives and regulations.

14.1.14. File, within 30 days of the effective date of this Agreement, a Notice of the Agreement with the office of the California Secretary of State, pursuant to California Government Code, section 6503.5

14.1.15. Do all other acts reasonable and necessary to carry out the purposes of this Agreement.

14.2. Limitation. The powers to be exercised by the Stanislaus Council of Governments are subject to such restrictions upon the manner of exercising such powers as are imposed upon the County in the exercise of similar powers.

14.3. Funds. StanCOG shall be held strictly accountable for all funds received, held and disbursed by it.

15. BYLAWS

15.1. Bylaws. The Bylaws of the Stanislaus Council of Governments shall be those attached to this Agreement marked "Exhibit A" and incorporated herein by reference. Amendments to all or a portion of the Bylaws may be made in the manner prescribed in the Bylaws.

16. EXECUTIVE DIRECTOR

16.1. Powers and Duties. The Executive Director shall be selected by, and shall serve at the pleasure of and upon the terms prescribed by the Stanislaus Council of Governments Policy Board. The powers and duties of the Executive Director are:

16.1.1. To serve as the chief administrative officer of StanCOG and to be responsible to the StanCOG Policy Board for the proper administration of all affairs.

16.1.2. To appoint, supervise, suspend, discipline or remove StanCOG employees subject to those policies and procedures, from time to time, adopted by the StanCOG Policy Board.

16.1.3. To supervise and direct the preparation of the annual budget for the StanCOG and be responsible for its administration after adoption by the StanCOG Policy Board.

16.1.4. To formulate and present to the StanCOG Policy Board plans for StanCOG activities and the means to finance them.

16.1.5. To supervise the planning and implementation of all StanCOG activities.

16.1.6. To attend all meetings of the StanCOG Policy Board and act as the secretary to the StanCOG Policy Board.

16.1.7. To prepare and submit to the StanCOG Policy Board periodic financial reports and, as soon as practicable after the end of each fiscal year, an annual report of the activities of StanCOG for the preceding year.

16.1.8. To have custody and charge of all StanCOG property other than money and securities.

16.1.9. To transmit to the Executive Director's successor all books and records of StanCOG in his or her possession.

16.1.10. To perform such other duties as the StanCOG Policy Board may require in carrying out the policies and directives of the Stanislaus Council of Governments Board.

17. TREASURER

17.1. Treasurer. The StanCOG Finance Director, or his/her designee, shall be the Treasurer of StanCOG.

17.2. Duties. The Treasurer shall:

17.2.1. Receive and receipt all money of StanCOG and place it in a designated financial institution approved by the StanCOG Policy Board to the credit of StanCOG.

17.2.2. Be responsible upon the Treasurer's official bond for the safekeeping and disbursement of all StanCOG money held by the Treasurer.

17.2.3. Pay, when due, out of money of StanCOG, all sums payable on outstanding bonds and coupons of StanCOG.

17.2.4. Pay any sums due from the StanCOG, from the StanCOG funds held by the Treasurer or any portion thereof, upon warrants of the Auditor-Controller designated herein.

17.2.5. Verify and report in writing as soon as possible after the first day of July, October, January, and April of each year to the StanCOG the amounts of monies the Treasurer holds for the StanCOG, the amount of receipts since the Treasurer's last report, and any interest accrued to those funds.

18. AUDITOR-CONTROLLER

18.1. Auditor-Controller. The StanCOG Finance Director, or his/her designee, shall be the Auditor -Controller for StanCOG.

18.2. Duties. The Auditor-Controller shall:

18.2.1. Draw warrants to pay demands against StanCOG when the demands have been approved by the StanCOG Policy Board and/or the StanCOG Executive Director. The Auditor -Controller shall be responsible on his/her official bond for the Auditor-Controller's approval of disbursements of StanCOG money.

18.2.2. Keep and maintain records and books of account on the basis of generally accepted accounting practices. The books of account shall include records of assets, liabilities, and contributions made by each Party to this Agreement.

18.2.3. Make available all the financial records of StanCOG to a certified public accountant or public accountant contracted by StanCOG to make an annual independent audit of the accounts and records of StanCOG. The minimum requirements of the audit shall be those prescribed by the State Controller for special districts under Section 26909 of the California Government Code and shall conform to generally accepted auditing standards.

18.3. Approvals. The Executive Director of the StanCOG and the Chairman of StanCOG Policy Board shall together have the power to approve to the auditor demands against StanCOG. The Vice-Chairman of StanCOG Policy Board shall be substituted in the absence or vacancy of either of the above officials.

19. FINANCING

19.1. Allocation of Financing. Each member shall contribute to the financial support of StanCOG. Each city's share of financial support shall be determined by the percentage its population has to the County as a whole. The County's share of financial support shall be determined by the percentage the population of the unincorporated areas of the County have to the County as a whole. Population is to be determined by the latest United States Decennial Census or later California State Department of Finance figures.

19.2. Annual Dues. The Policy Board may provide for annual dues to be paid by each member agency.

19.3. Fiscal Year. The fiscal year of StanCOG shall commence on July 1 of each year and shall terminate on June 30 of the following year. Each member shall deposit its share of financial support with the Treasurer of StanCOG no later than August 1 of each year.

19.4. Support from Member Agencies. A member agency in the exercise of the reasonable discretion of its governing body, may provide support for StanCOG, its staff, and its professional consultants, including providing quarters, janitorial services and maintenance, supplies, printing and duplication, postage, telephone services, transportation services, and the professional and technical assistance as may be agreed upon from time to time by StanCOG and the respective member agencies. All assistance shall be provided on an at-cost basis.

19.5. Other Support and Fees. The Stanislaus Council of Governments shall apply for available state federal, regional, and local support funds, and shall make new and additional applications from time to time as appropriate. If deemed necessary, the Stanislaus Council of Governments Board may also establish and collect filing and processing fees from non-members in connection with matters to be considered by it.

19.6. Measure L. In its role as the Stanislaus County Local Transportation Authority, StanCOG shall be empowered to levy and expend tax revenues authorized in the Stanislaus County Transportation Authority Ordinance #16-01, Measure L: Local Roads First Transportation Funding Measure, and approved as Measure L on November 8, 2016 by the voters of Stanislaus County. This empowerment shall exist so long as Ordinance #16-01, as may be amended, is in effect and shall terminate when all Ordinance #16-01 taxes have been levied and expended.

20. BOND REQUIREMENTS

20.1. Bond Requirement. The Executive Director and such other persons employed by the Stanislaus Council of Governments as may be designated by the Stanislaus Council of Governments Policy Board, shall file with the Stanislaus Council of Governments Policy Board an official fidelity bond in a penal sum determined by the Stanislaus Council of Governments Board as security for the safekeeping of the Stanislaus Council of Governments' property entrusted to the employee. However, if the Executive Director or other such persons

designated are already bonded by another agency, no additional bonding shall be required by this section. Premiums for any bonds required under this section shall be paid by the Stanislaus Council of Governments.

21. PARTIES LIABILITY

21.1. The debts, liabilities, and obligations of StanCOG shall not be debts, liabilities, or obligations of the Parties to this Agreement either singly or collectively.

22. ASSIGNABILITY

22.1. Assignability. With the approval of, and upon the terms agreed upon by, the governing body of each Party to this Agreement, all or any of the rights and property subject to this Agreement may be assigned to further the purpose of this Agreement. Provided, however, no right or property of StanCOG shall be assigned without compliance with all conditions imposed by any state or federal entity from which Stanislaus Council of Governments has received financial assistance.

23. WITHDRAWAL OF A PARTY

23.1. Notice. A Party to this Agreement may, at any time, withdraw from the Stanislaus Council of Governments, following 90 days notice to StanCOG and all other Member Agencies of StanCOG, by resolution of intent to withdraw adopted by the governing board of the withdrawing Party.

23.2. Effect of Withdrawal. Upon the effective date of such withdrawal such member shall cease to be bound by this Agreement, but shall continue to provide financial support through the approved percentage of planning funds provided to StanCOG, as Transportation Planning Agency under the provisions of Section 99233.2 of the Transportation Development Act. StanCOG assets representing any accumulated capital contribution of the withdrawing Party shall remain subject to StanCOG control, depreciation and use without compensation to the withdrawing party until termination of this Agreement and distribution of StanCOG assets.

23.3. Resumption of Membership. Any member agency which has withdrawn from StanCOG in accordance with the provisions of this Section 21 may resume its membership upon thirty (30) days' written notice to the then members, which notice may be waived by a majority vote of the StanCOG Policy Board.

24. TERMINATION AND DISSOLUTION

24.1. No Specific Term. This Agreement shall continue in force without specific term.

24.2. Termination. If, at any time, those Cities and County which are members of StanCOG contain less than 55% of the population residing within the area of Stanislaus County, based upon the latest available population estimates by the California Department of Finance, and there are less than a majority of local governments remaining as Member Agencies of StanCOG, StanCOG shall be deemed disestablished and this Agreement shall cease to be operative except for the purpose of payment of any obligations theretofore incurred.

24.3. Distribution of Assets. If this Agreement is terminated, all real and personal property owned by StanCOG shall be distributed to the Federal, State, or local funding agency or party to this Agreement that supplied the property or whose funding provided for the acquisition of the property unless other distribution is provided by law. Should the origin of any real or personal property be undeterminable, that property shall be disbursed to the Parties to this Agreement in proportion to the size of the jurisdiction as delineated in the latest California Department of Finance estimate of population.

24.4. Continues in Effect until Distribution. This Agreement shall not terminate until all property has been distributed in accordance with this provision.

25. RETURN OF SURPLUS FUNDS

25.1. Return of Surplus Funds. Upon termination of this Agreement, any surplus money on hand shall be returned, pro rata, to the Federal, State, or local agency or the party to this Agreement that provided the funds.

26. ADDITIONAL MEMBERS

26.1. Additional Members. In addition to the Cities identified in this Agreement, any city within Stanislaus County which may hereafter be incorporated and which desires to participate in the activities of StanCOG may do so by executing this Agreement without the prior approval or ratification of the named Parties to this Agreement and shall thereafter be a Party to this Agreement and be bound by all terms and conditions of this Agreement as of the date it executes this Agreement.

27. SUCCESSORS AND ASSIGNS

27.1. Successors and Assigns. This Agreement shall be binding upon and shall inure to the benefit of any successors to or assigns of the Parties.

28. SEVERABILITY

28.1. Severability. Should any part, term, portion, or provision of this Agreement be finally decided to be in conflict with any law of United States or the State of California, or otherwise be unenforceable or ineffectual, the validity of the remaining parts, terms, portions, or provisions shall be deemed severable and shall not be affected thereby, provided such remaining

portions or provisions can be construed in substance to constitute the Agreement which the Member Agencies intended to enter into in the first instance.

29. COUNTERPARTS

This Agreement may be executed in any number of counterparts, each of which when executed will be deemed to be an original and all of which, taken together, will be deemed to be one and the same instrument.

30. TITLES AND HEADING.

The Section titles and the headings of this Agreement are for convenience only and shall not be used in interpreting this Agreement.

31. EFFECTIVE DATE OF AGREEMENT

31.1. Effective Date. This Agreement shall become effective upon ratification by resolution of the Stanislaus County Board of Supervisors and each of the city councils of the Cities of Ceres, Hughson, Modesto, Newman, Oakdale, Patterson, Riverbank, Turlock, and Waterford. From and after said date the agreements made establishing the Stanislaus Area Association of Governments dated May 11, 1971 and May 20, 1974, and the Agreement Establishing the Stanislaus Council of Governments dated June 5, 2001, as amended December 12, 2007, April 5, 2016 and January 26, 2017 shall be superseded, replaced and terminated by this Agreement and shall be of no further force and effect.

32. AMENDMENTS

32.1. This Agreement may be amended upon ratification by resolution of 75% of the member agencies representing 75% of the population of the County of Stanislaus as determined by the most recent Decennial Census. For this purpose each incorporated city shall represent those people residing within its city limits and the Stanislaus County Board of Supervisors shall represent those people who reside in the unincorporated areas of the County.

IN WITNESS WHEREOF, the Parties hereto have executed this Agreement on the dates shown in the respective signature blocks.

EXHIBIT "A"

STANISLAUS COUNCIL OF GOVERNMENTS
AMENDED AND RESTATED BYLAWS

RECITALS:

WHEREAS, it is deemed prudent to amend and restate the Bylaws of The Stanislaus Council of Governments. These Amended Bylaws, dated _____, shall supersede the previous Bylaws as amended April 10, 1974; July 10, 1974; November 10, 1976; December 12, 2007; April 5, 2016; and January 26, 2017.

ARTICLE I
NAME

This joint powers agency shall be known as the STANISLAUS COUNCIL OF GOVERNMENTS ("StanCOG") and shall exercise its powers within the geographical area of the County of Stanislaus as set forth in the joint powers agreement entered into by the County and the Cities ("Party or collectively "Parties") establishing StanCOG.

ARTICLE II
MEETINGS

Section 1: Regular and Special Meetings.

A. The StanCOG Policy Board shall hold a regular meeting on the third Wednesday of each month, at 6:00 p.m., or at a time, specified by the StanCOG Policy Board. Such regular meetings shall be for considering reports of the affairs of StanCOG and for transacting such other business as may be properly brought before the meeting. Any regular meeting may be rescheduled on an individual basis as to date, time and place, by motion of the StanCOG Policy Board, in the event of a conflict with holidays, Director's schedules, or similar matters, or, in the event of a lack of a quorum, as specified below. Notice of regular meetings shall be given to each representative and alternate representative at least ten (10) days prior to each meeting.

B. Special meetings may be called in accordance with the California Ralph M. Brown Act. Special meetings may be called by the Chairperson. No business except that specified in the notice shall be discussed at a special meeting.

C. All meetings shall be conducted in accordance with the Ralph M. Brown Act.

Section 2: Closed Sessions.

A. All information presented in closed session shall be confidential. Ex-Officio non-voting members shall not be permitted to attend closed sessions.

B. Under Government Code Section 54956.96, StanCOG adopts a joint powers agency limited disclosure policy as follows:

1. All information received by the legislative body of the local agency member in a closed session related to the information presented to StanCOG in closed session shall be confidential. However, a member of the legislative body of a member local agency may disclose information obtained in a closed session that has directed financial or liability implications for that local agency to the following individuals:

a) Legal counsel of that member local agency for purposes of obtaining advise on whether the matter has direct financial or liability implications for that member local agency.

b) Other members of the legislative body of the local agency present in a closed session of that member local agency.

2. Any designated alternate member of the legislative body of the joint powers agency who is also a member of the legislative body of a local agency member and who is attending a properly noticed meeting of the joint powers agency in lieu of a local agency member's regularly appointed member to attend closed sessions of the joint powers agency.

Section 3: Cancellation of Meetings.

The StanCOG Executive Director or the Chairperson of the StanCOG Policy Board may cancel any regular or special meeting of StanCOG except upon objection by any representative.

Section 4: Notice of Meetings.

A. Notice of regular meetings shall be in accordance with the Ralph M. Brown Act. The StanCOG Executive Director or the Chairperson of the StanCOG Policy Board shall direct the publication of notices of all meetings, public hearings, etc., as required by the California Government Code. Such notices shall specify the place, the day, and the hour of the meeting and accompanying the notice shall be a copy of the agenda for that meeting.

B. In the case of special meetings, the written notice shall specify the specific nature of the business to be transacted and shall be in accordance with the Ralph M. Brown Act.

Section 5: Committee Meetings.

Except as herein or otherwise provided, the Standing Committees of StanCOG shall meet on the call of their Chairperson. Notice of committee meetings shall be in accordance with the Ralph M. Brown Act.

Section 6. Quorum.

A quorum for conducting all matters of business shall be the presence of at least one (1) representative, or the alternate, from a majority of the Member Agencies. A two-thirds majority of those present shall be required to approve all expenditures.

Section 7. Voting.

A. Voting shall only be conducted at properly noticed meetings where a quorum has been established and members are physically present, except as provided in Government Code Section 54953 for teleconferencing.

B. Voting shall be by voice, show of hands, or roll call vote. Any Director may request a roll call vote.

C. In all cases, a vote to "abstain" shall be counted as an "aye" vote unless there is a majority vote to defeat the motion and then the vote to abstain shall be counted as a "no" vote.

Section 8: Lack of a Quorum.

A. If less than a quorum of the Directors are present at any properly called regular, adjourned regular, special, or adjourned special meeting, the member(s) who are present may adjourn the meeting to a time and place specified in the order of adjournment. A copy of the order or notice of adjournment shall be conspicuously posted on or near the door of the place where the meeting was to have been held within 24 hours after adjournment.

B. If all the members are absent from any regular or adjourned regular meeting, the Executive Director may so adjourn the meeting and post the order or notice of adjournment as provided, and additionally shall cause a written notice of the adjournment to be given in the same manner as for a notice of a special meeting.

C. If the notice or order of adjournment fails to state the hour at which the adjourned meeting is to be held, it shall be held at the hour specified for the regular meeting of StanCOG.

Section 9. Agenda.

Any Director or the Executive Director may cause an item to be placed on the agenda.

Section 10. Adjournment.

Except as provided in Section 8 above, a meeting may be adjourned by the presiding officer's own action; however, any Director may object to such adjournment by the presiding officer and then a motion and action is required in order to adjourn the meeting in accordance with Robert's Rules of Order.

ARTICLE III
CONDUCT OF MEETINGS

Section 1: General Conduct.

Except as herein or otherwise provided, ROBERTS RULES OF ORDER shall govern all proceedings of StanCOG. In any event, all proceedings and conduct of the meetings shall be in full compliance with the State of California Government Code.

Section 2. Decorum

All Directors, and staff, shall conduct themselves in accordance with Robert's Rules of Order and in a civil and polite manner toward other board members, employees, and the public. Using derogatory names, interrupting the speaker having the floor, or being disorderly or disruptive, are prohibited actions. If any meeting is willfully interrupted by any individual so as to render the orderly conduct of that meeting infeasible, that individual may be removed from the meeting. If any group or groups of persons willfully interrupts a meeting so as to render the orderly conduct of that meeting infeasible, the presiding officer, or a majority of the Policy Board, may clear the meeting room in accordance with Government Code Section 54957.9.

Section 3: Voting Authorization.

All votes shall be cast by the person or persons authorized to do so by the member which they represent. Such authorization shall be made known to the Executive Director of StanCOG at least twenty-four hours prior to the meeting. No proxy, absentee, or fractional votes may be cast.

ARTICLE IV
EXECUTIVE SESSIONS

Section 1: Executive Sessions.

Executive sessions shall be held in conformance with the Government Code of the State of California.

ARTICLE V
OFFICERS

Section 1: Chair.

A. The representatives of StanCOG shall elect from among their members a Chair of the Policy Board. The Chair shall serve a one-year term of office beginning at the first regular meeting of each calendar year. The Chair may serve more than one (1) term if re-elected by the Policy Board.

B. The Chair shall preside at all meetings of the Policy Board and such other meetings approved by the Policy Board.

C. The Chair shall serve as the official spokesperson for the Policy Board.

D. The Chair shall appoint such committees and other working groups as prescribed by the Policy Board.

E. The Chair shall designate Directors or others to represent the Policy Board at various meetings, hearings, and conferences.

F. The Chair shall perform such other duties as necessary to carry out the work of the Policy Board or as prescribed by law.

Section 2: Vice-Chair.

A. The representatives of StanCOG shall elect from among their members a Vice-Chair of the Policy Board. The Vice-Chair shall serve a one-year term of office beginning at the first regular meeting in each calendar year. The Vice-Chair may serve more than one (1) term if re-elected by the Policy Board.

B. The Vice-Chair shall act in the place of and have all the powers and duties of the Chair in the absence of the Chair.

Section 3: Absences.

In the absence of both the Chair and the Vice-Chair, a majority of the Policy Board shall select a Director to serve as Chair Pro Tem.

Section 4: Secretary.

The Executive Director shall serve as the Secretary of the StanCOG Policy Board. The Secretary shall maintain a public record of the Policy Board's resolutions, transactions, findings, and determinations, and shall prepare agendas and minutes of each Regular and Special meeting of StanCOG.

Section 5: Vacancy.

Upon a vacancy occurring in the office of the Chair, the Vice-Chair shall assume the office of Chair for the balance of the unexpired term. Upon a vacancy occurring in the office of the Vice-Chair the representatives shall elect, from among their members, a Vice-Chair to serve the balance of the unexpired term.

ARTICLE VI
COMMITTEES

Section 1: Standing Committees.

The Standing Committees of StanCOG shall be:

A. Executive Committee.

The Executive Committee shall consist of five (5) members of the StanCOG Policy Board: Two of the representatives from the Stanislaus County Board of Supervisors, to be appointed by and serve at the pleasure of the Stanislaus County Board of Supervisors; One of the representatives from the City of Modesto, to be appointed by and to serve at the pleasure of the City of Modesto City Council, and; Two representatives from among the other Cities, said representatives to be chosen each year by the Policy Board members representing the cities other than Modesto, and serve at the pleasure of these other cities. The Chairperson and Vice-Chairperson of the Policy Board shall be ex officio two of the five members of the Executive Committee, representing their respective Member Agencies, and shall serve as the Chairperson and Vice-Chairperson of the Executive Committee.

The Executive Committee shall be operated in accordance with the Bylaws of the Policy Board.

B. Management and Finance Committee.

The Management and Finance Committee shall consist of the Chief Administrative Official for the County of Stanislaus, or his or her designee; and the City Manager/Administrator for the Cities of Ceres, Hughson, Modesto, Newman, Oakdale, Patterson, Riverbank, Turlock, and Waterford.

The Management and Finance committee shall be operated in accordance with the Bylaws of the Policy Board.

C. Social Services Transportation Advisory Council.

The Social Services Transportation Advisory Council shall consist of the following members who are residents of Stanislaus County:

1. One representative of potential transit users who is 60 years of age or older.

2. One representative of potential transit users who is handicapped.

3. Two representatives of the local social service providers for seniors, including one representative of a social service transportation provider, if one exists.

4. Two representatives of local social service providers for the handicapped, including one representative of a social service transportation provider, if one exists.

5. One representative of a local social service provider for persons of limited means.

6. Two representatives from the local consolidated transportation service agency, designated pursuant to Subdivision (a) of Section 15975 of the Government Code, if one exists, including one representative from an operator, if one exists.

7. Up to two (2) additional representatives, if desired by StanCOG and appointed by the Executive Committee.

The Social Services Transportation Advisory Committee shall be operated in accordance with the Bylaws of the Social Services Transportation Advisory Committee.

D. Citizens Advisory Committee.

The Citizens Advisory Committee shall be comprised of ten (10) residents of Stanislaus County, one (1) from each of the Member Agencies.

The Citizens Advisory Council shall be operated in accordance the Bylaws of the Citizens Advisory Council.

E. Bicycle / Pedestrian Advisory Committee .

The Bicycle/Pedestrian Advisory Committee shall be comprised of ten (10) residents of Stanislaus County, one (1) from each of the Member Agencies.

The Bicycle/Pedestrian Advisory Committee shall be operated in accordance with the Bylaws of the Bicycle/Pedestrian Advisory Committee.

F. Valley Vision Stanislaus Steering Committee.

The Valley Vision Stanislaus Steering Committee shall be comprised of up to twenty-one (21) members which shall consist of Tier I and Tier II members as follows:

Tier 1 Members: One representative (Planning Director or his/her designee) from each of the ten (10) Member Agencies (Cities of Ceres, Hughson, Modesto, Newman, Oakdale, Patterson, Riverbank, Turlock, Waterford, and Stanislaus County); one (1) representative (Executive Officer or his/her designee) from LAFCO; one (1) representative from the Policy Board.

Tier II Members: One representative may be appointed as needed from each of the following: Citizens Advisory Committee, Health Industry, Agriculture Industry, Environment/Conservation, Economic Development, Building Industry, Transit User/Provider, Education and Environmental Justice.

The Valley Vision Stanislaus Steering Committee shall be operated in accordance with the Bylaws of the Valley Vision Stanislaus Steering Committee.

G. Measure L Oversight Committee.

Measure L Oversight Committee. The Measure L Oversight Committee shall be comprised of one representative from each of the following jurisdictions: City of Ceres, City of Hughson, City of Modesto, City of Newman, City of Oakdale, City of Patterson, City of Riverbank, City of Turlock, City of Waterford and Stanislaus County. Members of the Measure L Oversight Committee shall not be members of any other Local Transportation Authority or StanCOG committee(s).

The Measure L Oversight Committee shall be operated in accordance with the Bylaws of the Measure L Oversight Committee attached hereto as Appendix V.

Section 2: Special Committees.

The Chair of the Policy Board or Directors may appoint additional committees as may be necessary or desirable.

ARTICLE VII
FINANCIAL DETERMINATIONS

Section 1: Withdrawal.

A member of StanCOG that withdraws from StanCOG shall not have its financial contribution refunded.

Section 2: Newly Incorporated Cities.

Any newly incorporated city which becomes a member of StanCOG after the commencement of a fiscal year shall not be required to contribute financially to StanCOG until the subsequent fiscal year, providing that the said newly incorporated city becomes a member of StanCOG within one (1) year of its incorporation date.

Section 3: Other Political Entities.

Any other political entity which becomes a member of StanCOG after the commencement of a fiscal year shall contribute to StanCOG that amount which it would have contributed had it been a member at the commencement of the fiscal year.

ARTICLE VIII
REFERRALS

StanCOG may accept by letter or resolution referrals for study and report from any duly constituted advisory or legislative body or their representatives. Reports will be made and returned to the referring body within a reasonable time.

ARTICLE IX
REPORTS

StanCOG shall render a written report on its activities at the end of each fiscal year of operation to each legislative body which is a Member Agency of StanCOG.

ARTICLE X
INITIATIVE

StanCOG may, upon its own initiative, institute action to carry out any routine or special study or project.

ARTICLE XI
COORDINATION

It is the policy of StanCOG to establish technical and advisory liaison with all other agencies and bodies seeking to improve the quality of planning, health, safety, welfare and governmental services for the Stanislaus Regional Area.

ARTICLE XII
TRANSMITTAL OF PLANNING INFORMATION

StanCOG hereby approves as a regular operating procedure the transmittal of planning information to the individual Boards of Supervisors, City Councils, County and City Planning Commissions, the California State Office of Planning, and any other duly constituted regional area, metropolitan, or other Planning Commission which may request in writing such information.

ARTICLE XIII
AMENDMENTS

Section 1: These Bylaws may be amended by a two-thirds vote of those representatives voting at a Regular Meeting of the StanCOG Policy Board.

Section 2: Amendments to these Bylaws may be proposed by any representative of StanCOG.

Section 3: In no case shall a vote on a proposed amendment be conducted unless the proposed amendment has been submitted in writing by the Secretary to the representatives and alternate representatives at least fifteen (15) days prior to the meetings.

APPENDIX I

STANISLAUS COUNCIL OF GOVERNMENTS
SOCIAL SERVICES TRANSPORTATION ADVISORY COUNCIL

BYLAWS

ARTICLE I
FUNCTION

Section 1: The Social Services Transportation Advisory Council (SSTAC) shall be a standing committee of the Stanislaus Council of Governments. The Committee shall advise the StanCOG Policy Board and have the following responsibilities:

1. Annually participate in the identification of transit needs in the jurisdiction, including unmet transit needs that may exist within the jurisdiction of the Stanislaus Council of Governments, and that may be reasonable to meet by establishing or contracting for new public transportation or specialized transportation services or by expanding existing services.

2. Annually review and recommend action by StanCOG for the area within StanCOGs jurisdiction which finds by resolution, that:

   A. there are no unmet transit needs; or

   B. there are no unmet transit needs that are reasonable to meet; or

   C. there are unmet transit needs, including needs that are reasonable to meet.

3. Advise StanCOG on any other major transit issues, including the coordination and consolidation of specialized transportation services.

ARTICLE II
MEMBERSHIP

Section 1: The Social Services Transportation Advisory Council shall consist of the following members who are residents of Stanislaus County:

1. One representative of potential transit users who is 60 years of age or older.

2. One representative of potential transit users who is handicapped.

3. Two representatives of the local social service providers for seniors, including one representative of a social service transportation provider, if one exists.

4. Two representatives of local social service providers for the handicapped, including one representative of a social service transportation provider, if one exists.

5. One representative of a local social service provider for persons of limited means.

6. Two representatives from the local consolidated transportation service agency, designated pursuant to Subdivision (a) of Section 15975 of the Government Code, if one exists, including one representative from an operator, if one exists.

7. Up to two (2) additional representatives, if desired by StanCOG and appointed by the Executive Committee.

Section 2: A quorum shall constitute one-half (1/2) plus one (1) of the current membership.

Section 3: Any qualified resident of Stanislaus County may apply for membership on the Social Services Transportation Advisory Council. The Secretary of StanCOG shall maintain a current list of all applicants. Each application for membership on the Social Services Transportation Advisory Council shall be valid for a period of two years. After this time, the applicant's name may be removed from the list of applicants.

Section 4: The Executive Committee of StanCOG shall appoint, from the list of applicants, the members of the Social Services Transportation Advisory Council.

ARTICLE III
TERM OF OFFICE

Section 1: Of the initial appointments to the Social Services Transportation Advisory Council, one-third of them shall be for a one-year term, one-third shall be for a two-year term, and one-third shall be for a three-year term.

Section 2: Subsequent to the initial appointment, the term of appointment shall be for three years, which may be renewed for additional three-year terms.

ARTICLE IV
MEETINGS

Section 1: The Policy Board shall establish a regular place and time for meetings of the Social Services Transportation Advisory Council, in consultation of the Committee members.

Section 2: The Executive Director may designate agenda items for any meetings of the Committee. The members of the Committee may also designate agenda items for consideration by the Committee.

ARTICLE V
ATTENDANCE

The members of the Social Services Transportation Advisory Council will be expected to attend the meetings of the Council on a regular basis. Any member of the Council who has three consecutive un-notified absences, four consecutive notified absences, or five absences in any one calendar year, may be dismissed from the Council.

ARTICLE VI
REMOVAL

The Executive Committee of StanCOG may, at any time, recommend the removal of any member of the Social Services Transportation Advisory Council. A majority vote of the members of the Policy Board Executive Committee shall be required to approve any removal.

ARTICLE VII
OFFICERS, RULES, AND PROCEDURES

Section 1: The Social Services Transportation Advisory Council shall elect from among its membership a Chair, and a Vice-Chair. The term of office shall be for one year.

Section 2: The Social Services Transportation Advisory Council shall adopt rules and procedures for its meetings. These rules and procedures shall be subject to approval by the StanCOG Policy Board. The Social Services Transportation Advisory Council shall conduct all proceedings in conformity with Robert's Rules of Order and the Brown Act.

Section 3: All references to "year" shall refer to the StanCOG fiscal year, July 1 through June 30.

ARTICLE VIII
STAFF

The Executive Director of StanCOG, or his or her appointee, shall serve as the Secretary of the Social Services Transportation Advisory Council and shall provide the Social Services Transportation Advisory Council with appropriate staff assistance.

ARTICLE IX
FINANCING

Section 1: Except as specifically provided by the StanCOG Policy Board, the members of the Social Services Transportation Advisory Council shall receive no compensation for their service.

Section 2: The Policy Board shall provide the Committee with the financial support StanCOG deems necessary for the successful functioning of the Social Services Transportation Advisory Council.

ARTICLE X
AMENDMENT OF BYLAWS

Changes or amendments to these Bylaws shall be approved by two-thirds (2/3) of the members of the Social Services Transportation Advisory Council present and voting at a regular meeting of the Social Services Transportation Advisory Council, and shall be subject to the majority approval of the Stanislaus Council of Governments Policy Board members present and voting at a regular meeting of the StanCOG Policy Board. In no case shall a vote on a proposed amendment be conducted unless the said proposed amendment has been submitted in writing to the members of the Social Services Transportation Advisory Council at least fifteen (15) days prior to the meeting at which a vote is to be taken.

APPENDIX II

STANISLAUS COUNCIL OF GOVERNMENTS
CITIZENS ADVISORY COMMITTEE BYLAWS

ARTICLE I
FUNCTION

Section 1: The Citizens Advisory Committee (CAC) shall be a standing committee of the Stanislaus Council of Governments. The Committee shall advise the StanCOG Policy Board on matters related to transportation from the public's perception and transportation activities affecting the general public.

ARTICLE II
MEMBERSHIP

Section 1: The Citizens Advisory Committee shall be comprised of ten (10) residents of Stanislaus County. A quorum shall constitute one-half (1/2) plus one (1) of the current membership.

Section 2: The ten members of the Committee shall consist of one representative from each of the following jurisdictions:

City of Ceres	City of Hughson
City of Modesto	City of Newman
City of Oakdale	City of Patterson
City of Riverbank	City of Turlock
City of Waterford	Stanislaus County

Section 3: Any resident of Stanislaus County may apply for membership on the Citizens Advisory Committee. The Secretary of StanCOG shall maintain a current list of all applicants. Each application for membership on the Committee shall be valid for a period of two (2) years. After this time, the applicant's name may be removed from the list of applicants.

Section 4: The Policy Board's Executive Committee shall appoint from the list of applicants the members of the Citizens Advisory Committee.

Section 5: When making Citizen's Advisory Committee appointments, the Policy Board's Executive Committee shall attempt to fill vacancies on the Committee by appointing members from an agency or jurisdiction that is not already represented on the Committee. The

Executive Committee shall also consider obtaining a balance of views and a cross-section of county interests.

ARTICLE III
TERM OF OFFICE

Section 1: Each appointment to the Committee shall be for a term of four (4) years.

Section 2: In no case shall any member of the Committee serve on the Committee longer than eight (8) consecutive years.

ARTICLE IV
MEETINGS

Section 1: The Policy Board shall establish a regular place and time for meetings of the committee, in consultation of the Committee members.

Section 2: The Executive Director may designate agenda items for any meetings of the Committee. The members of the Committee may also designate agenda items for consideration by the Committee.

ARTICLE V
ATTENDANCE

The members of the Citizens Advisory Committee will be expected to attend the meetings of the Committee on a regular basis. Any member of the Committee who has three consecutive un-notified absences, four consecutive notified absences, or five absences in any one calendar year, may be dismissed from the Committee.

ARTICLE VI
REMOVAL

The Executive Committee may, at any time, recommend the removal of any member of the Citizens Advisory Committee. A majority vote of the members of the Policy Board Executive Committee shall be required to approve any removal.

ARTICLE VII
OFFICERS, RULES, AND PROCEDURES

Section 1: The Citizens Advisory Committee shall elect from among its membership a Chair, and a Vice-Chair. The term of office shall be one year.

Section 2: The Citizens Advisory Committee shall adopt rules and procedures for its meetings. These rules and procedures shall be subject to approval by the StanCOG Policy Board.

The Committee shall conduct all proceedings in conformity with Robert's Rules of Order and the Brown Act.

Section 3: All references to "year" shall refer to the StanCOG fiscal year, July 1 through June 30.

ARTICLE VIII
STAFF

The Executive Director of StanCOG, or his or her appointee, shall serve as the Secretary of the Citizens Advisory Committee and shall provide the Committee with appropriate staff assistance.

ARTICLE IX
FINANCING

Section 1: Except as specifically provided by the Policy Board, the members of the Citizens Advisory Committee shall receive no compensation for their service.

Section 2: The Policy Board shall provide the Committee with the financial support deemed necessary for the successful functioning of the Committee.

ARTICLE X
AMENDMENT OF BYLAWS

Changes or amendments to these Bylaws shall be approved by two-thirds (2/3) of the members of the Committee present and voting at a regular meeting of the Committee, and shall be subject to the majority approval of the Stanislaus Council of Governments Policy Board members voting at a regular meeting of the StanCOG Policy Board. In no case shall a vote on a proposed amendment be conducted unless the proposed amendment has been submitted in writing to the members of the committee at least fifteen (15) days prior to the meeting at which a vote is to be taken.

APPENDIX III

STANISLAUS COUNCIL OF GOVERNMENTS
BICYCLE AND PEDESTRIAN ADVISORY COMMITTEE BYLAWS

ARTICLE I
FUNCTION

The Bicycle and Pedestrian Advisory Committee (BPAC) shall be a standing committee of the Stanislaus Council of Governments. The Committee shall advise the StanCOG Policy Board on all matters related to bicycle and pedestrian needs or concerns and advise on the development of StanCOG's Non-motorized Transportation Plan.

ARTICLE II
MEMBERSHIP

Section 1: The Bicycle and Pedestrian Advisory Committee shall be comprised of ten (10) residents of Stanislaus County. A quorum shall constitute one-half (1/2) plus one (1) of the current membership.

Section 2: The ten members of the Committee shall consist of one representative from each of the following jurisdictions:

City of Ceres	City of Hughson
City of Modesto	City of Newman
City of Oakdale	City of Patterson
City of Riverbank	City of Turlock
City of Waterford	Stanislaus County

Section 3: Any resident of Stanislaus County may apply for membership on the Bicycle and Pedestrian Advisory Committee. The Secretary of StanCOG shall maintain a current list of all applicants. Each application for membership on the Committee shall be valid for a period of two (2) years. After this time, the applicant's name may be removed from the list of applicants.

Section 4: The Policy Board's Executive Committee shall appoint from the list of applicants the members of the Bicycle and Pedestrian Advisory Committee.

Section 5: When making Bicycle and Pedestrian Advisory Committee appointments, the Policy Board's Executive Committee shall attempt to fill vacancies on the Committee by appointing members from an agency or jurisdiction that is not already represented on the Committee. The Executive Committee shall also consider obtaining a balance of views and a

cross-section of county interests.

Section 6: The following agencies are invited to have members attend meetings of the BPAC and share their expertise, as non-voting members.

- Various City agencies having an interest in non-motorized transportation
- Stanislaus County [Department of Public Works, Traffic Engineering, or related departments]
- California Department of Transportation [CalTrans]
- Stanislaus County-based bicycling or pedestrian organizations

Section 7: Any appointment term shall commence as of the date of appointment.

ARTICLE III
TERM OF OFFICE

Section 1: Each appointment to the Committee shall be for a term of four (4) years.

Section 2: In no case shall any member of the Committee serve on the Committee longer than eight (8) consecutive years.

ARTICLE IV
MEETINGS

Section 1: The Policy Board shall establish a regular place and time for meetings of the Committee, in consultation of the Committee members.

Section 2: The Executive Director may designate agenda items for any meetings of the Committee. The members of the Committee may also designate agenda items for consideration by the Committee.

ARTICLE V
ATTENDANCE

The members of the Bicycle and Pedestrian Advisory Committee are expected to attend the meetings of the Committee on a regular basis. Any member of the Committee who has three consecutive un-notified absences, four consecutive notified absences, or five absences in any one calendar year may be dismissed from the Committee.

ARTICLE VI
REMOVAL

The Policy Board Executive Committee may, at any time, recommend the removal of any member of the Bicycle and Pedestrian Advisory Committee. A majority vote of the members of the Policy Board Executive Committee shall be required to approve any removal.

ARTICLE VII
OFFICERS, RULES, AND PROCEDURES

Section 1: The BPAC shall elect from among its membership a Chair, and a Vice-Chair. The term of office for each shall be one year.

Section 2: The BPAC shall adopt rules and procedures for its meetings. These rules and procedures shall be subject to approval by the StanCOG Policy Board. The Committee shall conduct all proceedings in conformity with Robert's Rules of Order and the Brown Act.

Section 3: All references to "year" shall refer to the California fiscal year, July 1 through June 30.

ARTICLE VIII
STAFF

The Executive Director of StanCOG, or his or her appointee, shall serve as the Secretary of the Bicycle and Pedestrian Advisory Committee and shall provide the Committee with appropriate staff assistance.

ARTICLE IX
FINANCING

Section 1: Except as specifically provided by the Policy Board, the members of the Bicycle and Pedestrian Advisory Committee shall receive no compensation for their service.

Section 2: The Policy Board shall provide the BPAC with the financial support deemed necessary for the successful functioning of the Committee.

ARTICLE X
AMENDMENT OF BYLAWS

Changes or amendments to these Bylaws shall be approved by two-thirds (2/3) of the members of the BPAC voting at a regular meeting of the Committee, and shall be subject to the majority approval of the Stanislaus Council of Governments Policy Board members voting at a regular meeting of the StanCOG Policy Board. In no case shall a vote on a proposed amendment be conducted unless the proposed amendment has been submitted, in writing, to the members of the BPAC at least fifteen (15) days prior to the meeting at which a vote is to be taken.

APPENDIX IV

STANISLAUS COUNCIL OF GOVERNMENTS

VALLEY VISION STANISLAUS STEERING COMMITTEE BYLAWS

ARTICLE I
FUNCTION

The Valley Vision Stanislaus Steering Committee (VVS) shall be a standing committee of the Stanislaus Council of Governments. The Committee shall advise the StanCOG Policy Board on issues related to the development of the Sustainable Communities Strategy (SCS) as part of the Regional Transportation Plan (RTP).

ARTICLE II
MEMBERSHIP

Section 1: The Valley Vision Stanislaus Steering Committee shall be comprised of up to twenty-one (21) members. A quorum shall consist of one-half (1/2) plus one (1) of the current membership.

Section 2: The twenty-one (21) members of the Committee shall consist of Tier I and Tier II members.

Tier I Members:

One representative (Planning Director or his/her designee) from each of the 10 Member Agencies:

City of Ceres	City of Hughson
City of Modesto	City of Newman
City of Oakdale	City of Patterson
City of Riverbank	City of Turlock
City of Waterford	Stanislaus County

One representative (Executive Director or his/her designee) from LAFCO

One representative from the Policy Board

Tier II Members:

One representative may be appointed as needed from each of the following:

- Citizens Advisory Committee
- Health Industry
- Agriculture Industry
- Environment/Conservation
- Economic Development
- Building Industry
- Transit User/Provider
- Education
- Environmental Justice

ARTICLE III
TERM OF OFFICE

Section 1: Tier I appointments shall not be subject to term restrictions or limits. Each Tier II appointment to the Committee shall be for a term of four (4) years.

Section 2: In no case shall any Tier II member of the Committee serve on the Committee longer than eight (8) consecutive years.

Section 3: Any appointment term shall commence as of the date of appointment.

ARTICLE IV
MEETINGS

Section 1: The Policy Board shall establish a regular place and time for meetings of the Committee.

Section 2: The Executive Director may designate agenda items for any meetings of the Committee. The members of the Committee may also designate agenda items for consideration by the Committee.

ARTICLE V
ATTENDANCE

The members of the Valley Vision Stanislaus Steering Committee are expected to attend the meetings of the Committee on a regular basis. Any Tier II member of the Committee who has three consecutive un-notified absences, four consecutive notified absences, or five absences in any one calendar year may be dismissed from the Committee.

ARTICLE VI
REMOVAL

The Policy Board Executive Committee may, at any time, recommend the removal of any Tier II member of the Valley Vision Stanislaus Steering Committee. A majority vote of the members of the Policy Board Executive Committee shall be required to approve any removal.

ARTICLE VII
OFFICERS, RULES, AND PROCEDURES

Section 1: The VVS shall elect from among its membership a Chair, and a Vice-Chair. The term of office for each shall be one year.

Section 2: The VVS shall adopt rules and procedures for its meetings. These rules and procedures shall be subject to approval by the StanCOG Policy Board. The Committee shall conduct all proceedings in conformity with Robert's Rules of Order and the Brown Act.

Section 3: All references to "year" shall refer to the California fiscal year, July 1 through June 30.

ARTICLE VIII
STAFF

The Executive Director of StanCOG, or his or her appointee, shall serve as the Secretary of the Valley Vision Stanislaus Steering Committee and shall provide the Committee with appropriate staff assistance.

ARTICLE IX
FINANCING

Section 1: Except as specifically provided by the Policy Board, the members of the Valley Vision Stanislaus Steering Committee shall receive no compensation for their service.

Section 2: The Policy Board shall provide the VVS with the financial support deemed necessary for the successful functioning of the Committee.

ARTICLE X
AMENDMENT OF BYLAWS

Changes or amendments to these Bylaws shall be approved by two-thirds (2/3) of the members of the VVS voting at a regular meeting of the Committee, and shall be subject to the majority approval of the Stanislaus Council of Governments Policy Board members voting at a regular meeting of the StanCOG Policy Board. In no case shall a vote on a proposed amendment be conducted unless the proposed amendment has been submitted, in writing, to the members of the VVS at least fifteen (15) days prior to the meeting at which a vote is to be taken.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-239

RESOLUTION APPROVING AN AGREEMENT WITH GOODWIN CONSULTING GROUP, IN AN AMOUNT NOT TO EXCEED $58,500, FOR A COMPREHENSIVE CAPITAL FACILITIES FEE PROGRAM UPDATE, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, in 1987 the City established an impact fee program known as the Capital Facilities Fees Program (CFF Program), and

WHEREAS, the CFF Program sets forth the relationship between contemplated future developments, facilities needed to serve future development and the estimated cost of those improvements based on the current General Plan build-out, and

WHEREAS, the CFF Program has been updated periodically to reflect the changes in land values, projects and costs, and

WHEREAS, the last comprehensive update to the CFF Program occurred in 2003 and a limited review and update occurred in 2011, and

WHEREAS, the City is in the process of completing a General Plan Amendment, and

WHEREAS, the City Council has convened a multidisciplinary Comprehensive Fees Task Force to review and align all development-related fees with the goals and policies of the City's General and Strategic Plans, and

WHEREAS, the Comprehensive Fees Task Force was tasked with providing policy direction on a comprehensive update of the CFF Program, and

WHEREAS, staff requires assistance with the development of an updated CFF Program, and

WHEREAS, Goodwin Consulting Group (GCG) is a Sacramento-based firm that has prepared development impact fee nexus studies for cities, counties, special districts, and school districts throughout California and they are very familiar with the needs of the community, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, the agreement is for professional services and, therefore, exempt from the formal bidding requirements of Modesto Municipal Code 8-3.203, and

Whereas, on February 28, 2017, Council approved Resolution No. 2017-86 implementing a spending freeze in order to maintain fiscal sustainability of the City. The City Manager's Office approved an exception to this freeze for this procurement based upon the State law requirement of monitoring the fee program.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with Goodwin Consulting Group, in an amount not to exceed $58,500, for a Comprehensive Capital Facilities Fees Program Update.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-240

RESOLUTION APPROVING AN AGREEMENT WITH O'DELL ENGINEERING OF MODESTO, CA FOR PROFESSIONAL ENGINEERING DESIGN SERVICES FOR THE CLARATINA AVENUE WIDENING - MCHENRY TO COFFEE PHASE 2 PROJECT, IN AN AMOUNT NOT TO EXCEED $800,000 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS $80,000 FOR ADDITIONAL SERVICES (IF NEEDED) FOR A TOTAL AMOUNT OF $880,000 AND AUTHORIZING THE ACTING CITY MANAGER OR HIS DESIGNEE TO EXECUTE THE AGREEMENT

WHEREAS, City of Modesto, desires to widen and improve the existing Claratina Avenue from McHenry Avenue to Coffee Road, and

WHEREAS, the Claratina Avenue Widening, McHenry Avenue to Coffee Road Phase 1 project design is already underway, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, this agreement is for professional services and, therefore, exempt from the formal biding requirements, and

WHEREAS, staff proceeded through a RFP process pursuant to Administrative Directive 3.1 and the City solicited for proposals for Plans, Specifications, and Estimates for final design of the Phase 2 Project on March 24, 2017 in compliance with Modesto Municipal Code section 8-3.401 – 8-3.404, and

WHEREAS, three proposals were received, evaluated and ranked, and

WHEREAS, O'Dell Engineering demonstrated in both their proposal and interview, an in-depth understanding of the project most consistent with the City's vision, and

WHEREAS, the City entered into negotiations with the top ranked firm, O'Dell Engineering on May 18, 2017, and

WHEREAS, O'Dell Engineering has agreed to a contract for professional services in the amount of $800,000 for the identified scope of services and an additional $80,000 for additional services as needed, to provide the final PS&E design for the Phase 2 Project, and

WHEREAS, Staff recommends approval of the agreement with O'Dell Engineering for the Claratina Avenue Widening, McHenry Avenue to Coffee Road-Phase 2 Project, and

WHEREAS, the Director of Community and Economic Development and the Acting City Manager have recommended that the bid of $800,000 received from O'Dell Engineering be accepted as fair and reasonable and the contract be awarded to O'Dell Engineering of Modesto, CA, and

WHEREAS, on February 28, 2017, Council approved Resolution No. 2017-86 implementing a spending freeze in order to maintain fiscal sustainability of the City. The City Manager's Office approved an exception to this freeze for this procurement based upon the fact that this project is fully funded by CFF funding.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an agreement with O'Dell Engineering of Modesto, CA for consultant services for the preparation of plans, specifications and estimates (PS&E) for the Claratina Avenue Widening, McHenry Avenue to Coffee Road – Phase 2 Project in an amount not to exceed $800,000 for the identified scope of services, plus $80,000 for additional services (if needed) for a total amount of $880,000.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the contract, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of June, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-241

RESOLUTION APPROVING AN AMENDMENT TO THE AGREEMENT WITH PUBLIC FINANCIAL MANAGEMENT ASSET MANAGEMENT LLC (PFMAM), BALTIMORE, MD, TO REDUCE THEIR FEES FOR SERVICE BY A TOTAL OF UP TO $13,000 ANNUALLY AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AMENDED AGREEMENT

WHEREAS, Municipal Code Section 2-3.401 defines the Finance Department as being responsible for the deposit and investment of City funds in accordance with a sound treasury management, and

WHEREAS, the City Council, on December 15, 2015, by Resolution No. 2015-492, approved a five-year agreement with Public Financial Management Asset Management LLC (PFMAMA), Baltimore, MD with three (3) one-year extension options to enhance the City's investment portfolio of over $290 million in fiduciary capacity with oversight by the Director of Finance, and

WHEREAS, on July 5, 2016, City Council adopted the 100 Days Committee Recommendations and directed the City staff to prepare a plan to implement these recommendations, and

WHEREAS, the 100 Days Committee Recommended actions included direction to staff to review all existing vendor contracts and to negotiate possible fee reductions, and

WHEREAS, City staff discussed fee reduction options with PFMAM and based upon the City's long-term relationship with PFMAM, the vendor offered to reduce its fees retroactively through July 1, 2016, and

WHEREAS, the current contract has service costs of approximately $168,000 annually and the amendment to the contract provided by PFMAM will reduce the current service costs of the annual investment service fees to $155,000, which will generate a savings to the City of up to $13,000.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the amendment to an agreement with Public Financial Management Asset Management (PFMAM), Baltimore, MD,

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the amended agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-242

RESOLUTION ESTABLISHING THE CALCULATION FOR THE APPROPRIATION LIMIT FOR THE FISCAL YEAR 2017-2018 ANNUAL BUDGET

WHEREAS, Proposition IV of the California State Constitution requires the City to establish an appropriation limit calculation each fiscal year, and

WHEREAS, Article XIIIB of the California Constitution specifies that appropriations made by state and local governments may increase annually by a factor comprised of the change in population combined with either the change in California per capita personal income or the change in the local assessment roll due to local nonresidential construction, and

WHEREAS, the **attached** schedule shows the preferred price and population factors to be used and the appropriations limit with the recommended factors in calculating the limit are the price factor of "state growth in per capita income" and the population factor of "growth rate in the city limits of Modesto", and

WHEREAS, a copy of said report is on file with the City of Modesto Finance Department,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the appropriation limit calculation is hereby established as shown on **Schedule A, attached** hereto, and made a part hereof.

BE IT FURTHER RESOLVED that the Acting Director of Finance, or her designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following votes:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

SCHEDULE A

FISCAL YEAR 2017-18

PROPOSITION 4

APPROPRIATION LIMIT CALCULATION

FY 2016-2017 Appropriation Limit		$408,440,336
Adjustment Factors		
Per Capita Personal Income Change	3.69%	
Population Change (Modesto)	1.32%	
Per Capita converted to a ratio	1.0369	
Population converted to a ratio	1.0132	
Calculation of factor for FY 2017-2018	1.0506	
Adjustment		$20,667,081
FY 2017-2018 Appropriation Limit		$429,107,417

Article XIIIB places a limit on most, but not all, government revenue sources. The limit applies to appropriations from proceeds of taxes from both the general fund and special funds of government entities. Proceeds of taxes include tax revenues, interest earnings on invested tax revenues, and any revenues collected by a regulatory license fee or user charge in excess of the amount needed to cover the cost of providing the regulation, product, or service.

Appropriations from nontax revenues, including the City's enterprise funds, are not subject to the limit.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-243

RESOLUTION APPROVING AWARD OF PROPOSAL AND AGREEMENT WITH PERFECTMIND INC., BURNABY, BC FOR THE PURCHASE AND INSTALLATION OF A RECREATION COURSE REGISTRATION AND FACILITY MANAGEMENT SOFTWARE FOR THE PARKS, RECREATION, AND NEIGHBORHOODS DEPARTMENT (PRND) AND AUTHORIZING THE ACTING CITY MANAGER OR HIS DESIGNEE, TO EXECUTE A FIVE YEAR CONTRACT AT AN ESTIMATED COST OF $100,210 AND AUTHORIZING THE PRND TO PURCHASE CERTAIN HARDWARE UPGRADES AND SOFTWARE INTEGRATION COSTS IN AN AMOUNT NOT TO EXCEED $22,758

WHEREAS, the City of Modesto, Parks, Recreation and Neighborhoods Department (PRND) has a long and rich tradition of offering recreation services and facilities to the citizens of Modesto, registering thousands of participants for recreation courses, and reserving nearly 10,000 bookings in City our parks and recreation facilities each year, and

WHEREAS, these courses and facility bookings provide our citizens with quality of life enrichment, and provide a valuable impact on our neighborhoods, and

WHEREAS, in 2001, the City of Modesto upgraded an aging recreation support system with a then state-of-the-art recreation management solution called CLASS, and

WHEREAS, in 2014, CLASS was acquired by The Active Network, LTD, and

WHEREAS, in 2016, The Active Network LTD informed the City of Modesto that CLASS would be discontinued as of November 2017, and

WHEREAS, the City of Modesto needs to find a replacement system that can meet the needs of our city for the next decade or more, and

WHEREAS, in November 2016, the City Manager authorized the Purchasing division to issue a formal Request for Proposals (RFP) for the purchase of a Recreation Course Registration and Facility Management Software estimated at $100,000, and

WHEREAS, the Purchasing Division issued RFP 1617-17 on December 6, 2016, and

WHEREAS, prospective proposers were noticed online of the proposal opportunity, four companies responded, provided responsive and responsible proposals, and

WHEREAS, based on being ranked highest in total evaluation criteria the evaluation committee recommends the award of proposal for the purchase of a Recreation Course Registration and Facility Management Software to PerfectMind Inc, North Vancouver, BC for an estimated total of expense of $100,210, and

WHEREAS, the initial purchase, implementation and training for the first year is $34,000, and

WHEREAS, PerfectMind Inc's annual licensing fee, included in the contract, remains fixed for five (5) years at a rate of $13,242 per year represents approximate savings of $7,000 per year, and

WHEREAS, the software upgrade will also require additional hardware purchases and software integration not to exceed $22,758, and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed $50,000 for material, equipment or contractual services to be formally bid and the award of proposal for the purchase and installation of a PerfectMind Inc, North Vancouver, BC for an estimated total initial cost of $100,210 conforms to the Modesto Municipal Code, 8-3.203, and

WHEREAS, not moving forward with purchase of replacement software is not a fiscally responsible option, and

WHEREAS, on February 28, 2017, Council approved Resolution No. 2017-86 implementing a spending freeze in order to maintain fiscal sustainability of the City. The City Manager's Office approved an exception to this freeze for this procurement based upon the need to have recreation booking/registration software that meets the needs of the City of Modesto and failure to move forward with the purchase and implementation of a new software risks the loss of facility rental and course registration revenue.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby

approves the award of proposal to PerfectMind Inc, North Vancouver, BC for the purchase and installation of a Recreation Course Registration and Facility Management Software for the Parks, Recreation, and Neighborhoods Department.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute a five year contract, in a form approved by the City Attorney, in the amount of approximately $100,210.

BE IT FURTHER RESOLVED that the Parks, Recreation and Neighborhoods Department is authorized to purchase peripheral hardware upgrades in an amount not to exceed $22,758.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING THE INSTALLATION OF ANGLED PARKING ALONG THE WEST SIDE OF 15TH STREET BETWEEN F STREET AND G STREET IN THE CITY OF MODESTO, AND RESCINDING RESOLUTION NO. 2016-265

WHEREAS, Article 10 of Chapter 2 of Title 3 of the Modesto Municipal Code authorizes the Council, by resolution, to establish angled parking in the City of Modesto, and

WHEREAS, staff is requesting that Resolution No. 2016-265, which established the prior approved angled parking list in the City of Modesto, be rescinded, and

WHEREAS, staff received a request from business owners to install angled parking along the west side of 15th Street between F Street and G Street, to provide additional parking spaces for customers visiting their businesses and others along 15th Street, and

WHEREAS, staff evaluated the traffic volumes and the speeds for this section of roadway and concluded that angled parking can be accommodated on the west side of 15th Street between F Street and G Street without creating a hazard and without impeding traffic flow, and

WHEREAS, the Healthy Economy Committee considered the additional angled parking on 15th Street at its May 10, 2017 meeting and supported staff's recommendation.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

1. ANGLED PARKING. Angled parking in the City of Modesto is hereby approved and established at the following locations:

- 4th Street, between E Street and G Street (west side)
- 6th Street, Sierra Drive to north property line of New Bethany Missionary Baptist Church (west side)
- 8th Street, between J Street and K Street (east side)
- 8th Street, between H Street and I Street (west side)
- 8th Street, between L Street and Jefferson Street (east side)
- 10th Street, between F Street and G Street (east side)
- 10th Street, between G Street and H Street (east side)
- 10th Street, between I Street and J Street (both sides)
- 13th Street, between H Street and L Street (east side)
- 13th Street, between F Street and G Street (east side)
- 15th Street, between F Street and G Street (west side)
- 15th Street, between H Street and K Street (east side)
- 16th Street, between I Street and J Street (east side)
- 18th Street, between G Street and H Street (west side)
- F Street, between 9th Street and 10th Street (north side)
- F Street, between 10th Street and 11th Street (both sides)
- I Street, between 9th Street and 12th Street (both sides)
- J Street, between 7th Street and 8th Street (north side)
- K Street, between 415 K Street and 6th Street (north side)
- Coldwell Avenue, between Tully Road and College Avenue
- Elm Street, between Jefferson Street and Washington Street
- Jefferson Street, between Elm Street and Laurel Street

- Sierra Drive, between F Street and 4th Street (north side)
- Sierra Drive, between 5th Street and 6th Street (both sides)

2. The Public Works Director, or his designee, is hereby directed to implement the installation of angled parking along the west side of 15th Street between F Street and G Street.

3. Resolution No. 2016-265 is hereby rescinded.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING A TWO YEAR AGREEMENT WITH THREE, ONE YEAR EXTENSION OPTIONS WITH MOORE AND ASSOCIATES, VALENCIA, CA, TO PROVIDE MARKETING SERVICES FOR THE MODESTO AREA EXPRESS (MAX) TRANSIT SYSTEM, FOR A TOTAL OF $375,000 OVER THE ENTIRE TERM OF THE AGREEMENT AND EXTENSION OPTIONS, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, a Request for Proposals (RFP) was issued soliciting proposals from qualified firms on February 21, 2017, and

WHEREAS, Moore & Associates of Valencia, CA, submitted a proposal that was determined to be reasonable and cost effective, and

WHEREAS, an evaluation panel reviewed and evaluated all proposals, and evaluated best and final offers, and

WHEREAS, after such evaluation the panel scored Moore & Associates highest utilizing the scoring criteria included in the RFP and recommend award of the contract to Moore & Associates, and

WHEREAS, the RFP conformed to the formal bid procedures in Modesto Municipal Code section 8-3.203 and staff recommends awarding the contract to the lowest responsive and responsible proposal submitted by Moore & Associates, Valencia, CA, and

WHEREAS, on February 28, 2017, Council approved Resolution No. 2017-86, implementing a spending freeze in order to maintain the fiscal sustainability of the City. The City Manager's Office approved an exception to this freeze for this procurement.

NOW THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the bid of Moore & Associates, Valencia, CA, and approves a two

year agreement, with three one-year extension options, to provide transit marketing services to the City of Modesto Transit services, for a total of $375,000 over the entire term of the agreement and extension options.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-247

RESOLUTION APPROVING AN AGREEMENT WITH O'DELL ENGINEERING, INC., MODESTO, CA, FOR DESIGN SERVICES FOR THE JENNINGS PLANT ENTRANCE IMPROVEMENTS PROJECT, IN AN AMOUNT NOT TO EXCEED $154,385 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS $15,439 FOR ADDITIONAL SERVICES, IF NEEDED, FOR A MAXIMUM TOTAL AMOUNT OF $169,824, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the existing entrance to the Jennings Wastewater Treatment Plant (Jennings Plant) has limited line of sight while negotiating the bend along Jennings Road, and

WHEREAS, in addition, the Phase 2 Tertiary Treatment Project resulted in the relocation of the compost facility to an area adjacent to the existing exit road, and

WHEREAS, the new treatment facilities and relocation of the compost facility has increased the volume of plant traffic and the existing southern exit road will be converted into a two-lane entrance/exit road, and

WHEREAS, the existing entrance will be gated off and used for emergency access only, and

WHEREAS, in addition to the onsite improvements, Jennings Road will also be improved from Taylor Road to Monte Vista Avenue, and

WHEREAS, the Jennings Road corridor is quite hazardous as posted speed limits are routinely ignored and the road floods considerably during rain events, and

WHEREAS, the proposed design will evaluate different options for the entrance and exit improvements, including a traffic signal on Jennings Road as well as non-signalized turning lanes, and

WHEREAS, City staff will coordinate with the County to determine the safest and most cost effective improvements, and

WHEREAS, City staff is recommending the use of a consultant to increase project delivery efficiencies, and

WHEREAS, on September 13, 2016, by Resolution 2016-356, Council approved a prequalified list of local consultants for Civil Engineering Services for Capital Improvement Program (CIP) projects, and

WHEREAS, in accordance with City Administrative Directive 3.1, Selection Procedures for Professional Consultants Who Provide Architectural & Engineering Services for Capital Projects, Utilities staff issued a Request for Proposal (RFP) to prequalified local firms for Civil Engineering Services for the Jennings Plant Entrance Improvements Project, and

WHEREAS, one proposal was received on April 20, 2017, and was reviewed by a selection committee that consisted of the City's Wastewater/Storm Drain Engineering Division, and

WHEREAS, the selection committee determined that O'Dell Engineering, Inc. (O'Dell) was responsive and qualified to provide engineering design services for the Jennings Plant Entrance Improvements, and

WHEREAS, the scope of services to be provided under the agreement includes: 1) Project management and administration; 2) City coordination (meetings with City staff); 3) Perform field topographic survey; 4) Provide analysis of the existing storm drain system and provide hydraulic calculations; and 5) Prepare the construction documents (plans and specifications), and

WHEREAS, on February 28, 2017, by Resolution No. 2017-86, Council approved implementing a spending freeze in order to maintain fiscal sustainability of the City, and

WHEREAS, as allowed by this resolution, the City Manager's Office approved an exception to this freeze for this procurement, and

WHEREAS, justification for this exception is that the project is already approved and adopted as part of the current Fiscal Year 2016-2017 Capital Improvement Program, it is needed to provide safe and reliable utility facilities, and it will not require a budget transfer from reserves to provide the required services, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, this agreement is for professional services and, therefore, exempt from the bid requirement, and

WHEREAS, However, staff proceeded through a RFP process pursuant to Administrative Directive 3.1, and

WHEREAS, staff recommends approval of the agreement with O'Dell Engineering for Engineering Design services for the Jennings Plant Entrance Improvements Project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with O'Dell Engineering, Inc., Modesto, CA, for Design Services for the Jennings Plant Entrance Improvements Project, in an amount not to exceed $154,385 for the identified scope of services, plus $15,439 for additional services, if needed, for a maximum total amount of $169,824.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-248

RESOLUTION APPROVING THE CONTRACT DOCUMENTS FOR THE BUS MAINTENANCE FACILITY IMPROVEMENTS CANOPY STRUCTURE PROJECT, ACCEPTING THE BID, AWARDING A CONSTRUCTION CONTRACT TO DOCON, INC., OF CERES, CA IN THE AMOUNT OF $530,000, AND AUTHORIZING THE ACTING CITY MANAGER, OR DESIGNEE, TO EXECUTE THE CONTRACT

WHEREAS, Contract Documents have been prepared for the Bus Maintenance Facility Improvements Canopy Structure Project, and the Acting City Manager authorized City staff to solicit the Project for bids, and

WHEREAS, City staff solicited the Project in conformance of Section 1307 of the City's Charter, and

WHEREAS, the bids received for the Bus Maintenance Facility Improvements Canopy Structure Project were publicly opened at 11:00 a.m. on May 30, 2017, and

WHEREAS, the Acting City Manager recommends the bid of $530,000 received from Docon, Inc., of Ceres, California, be accepted as the lowest responsible bidder and responsive bid and the contract be awarded to Docon, Inc.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Contract Documents for the Bus Maintenance Facility Improvements Canopy Structure Project, accepts the bid and awards the construction contract to Docon, Inc. of Ceres, California, in the amount of $530,000.

BE IT FURTHER RESOLVED that the Acting City Manager, or designee, is hereby authorized to execute the contract in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-249

Print

RESOLUTION APPROVING THE HIRING OF CERTAIN VACANT POSITIONS ESSENTIAL TO THE OPERATIONS OF THE CITY AS CONTAINED IN ATTACHMENT A AND RESCINDING COUNCIL RESOLUTION NO. 2017-86

WHEREAS, on February 28, 2017 Council adopted Resolution No. 2017-86 instituting a Citywide hiring and promotion/advancement freeze of all city positions, excluding the hiring of the 22 police officer position previously authorized by the Council and other essential positions as approved by City Council ; and

WHEREAS, Resolution No 2017-86 also required all purchases that have been budgeted in FY 2016/17, but not yet implemented, require City Manager's Office (CMO) approval; and

WHEREAS, the City Manager has clarified that Resolution No. 2017-86 requires cost containment measures be applied to all non-essential items and staff has been directed to only purchase goods or services which are essential for the continued operation of the City, regardless of the cost of the item or if it had been previously budgeted or not; and

WHEREAS, staff has taken actions to implement the provision of this resolution; and

WHEREAS, staff estimates that the hiring freeze in FY16-17 resulted in cost savings to the City of $2,160,000, of which $572,000 was realized in the General Fund; and

WHEREAS, exceptions to the hiring freeze of certain essential positions was approved by Council by Resolution Nos. 20017-114, 115, 116, 140, 141, and 142; and

WHEREAS, the cost of filling these budgeted positions for the remainder of FY16-17 was estimated at $630,000, of which $132,000 was paid from the General Fund; and

WHEREAS, staff has provided justification for hiring certain other positions contained in **Attachment A** and seeks to fill these positions; and

WHEREAS, the positions included on **Attachment A** are considered essential to City operations; and

WHEREAS, the positions included on **Attachment A** have eligibility lists and can be filled immediately, and

WHEREAS, staff has prepared the FY17-18 Budgets and has reduced costs and eliminated non-essential items; and

WHEREAS, Departments were asked to present reductions lists to Mayor and Acting City Manager identifying impacts of decreasing costs by 5%, 10%, and 15%; and

WHEREAS, budget staff and the Acting City Manager performed a line-by-line review of department budgets and requested clarification on the necessity of various items. Non-essential costs were eliminated from the budget presented to the Effective Government Committee in May 2017; and

WHEREAS, because of the increased scrutiny during the budget process, staff believes the FY17/18 Operating and Capital Budgets only contain essential costs and positions; and

WHEREAS, because of these actions staff believes the hiring and purchasing freeze should be suspended and staff should be allowed to follow routine operating procedures related to procurement and hiring; and

WHEREAS, staff intends to provide regular report backs to Council and the Effective Government Committee throughout the year as various estimates in the 17/18 Budget become known and recommend appropriate actions to ensure the fiscal sustainability of the City into the 2018/19 fiscal year.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it finds that certain essential vacant positions justified on **Attachment A** are excluded from the hiring freeze, and

BE IT FURTHER RESOLVED that the Council rescinds Council Resolution No. 2017-86, and

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 27th day of June, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold
NOES:	Councilmembers:	None

City of Modesto
Vacant Positions

Dept.	FTE	OPN	FUND#	CC#	Vacant Position	Status/Comments	Date of Vacancy	Days Open	Justification
CED	1.00	0193	1130	14010	Sr. Community Program Development Specialist	Carol Averell resigned 06/24/16	06/24/16	359	Staff is requesting to under-filled with a Community Development Program Specialist I/II. This position is critical for federally funded (CDBG, HOME & ESG) programs and projects; monitoring of the City's sub-grantees; affordable housing projects; etc. Without adequate staffing and oversight, the City could be at risk of losing a portion of its HUD entitlement funds and/or required to use General Fund monies to reimburse HUD for ineligible programs and projects. Additionally, this position is needed to perform the functions of the Collaborative Applicant (CA) for the Stanislaus Community System of Care (CSOC). This position will be funded by the City's Community Development Block Grant entitlement funds and Continuum of Care funds. There will be no General Fund impact.
CED	1.00	0195	1130	14020	Housing Rehabilitation Specialist II	Gregory Williams retired 04/03/17	04/03/17	80	This position is a critical component needed to the high volume of requests for homeowner rehabilitation grants and loans. Provides service to qualifying households, approval of grants and loans; assists the City in meeting CDBG timeliness threshold with HUD; assists with HUD-required monitoring activities of affordable housing projects; assists with current and future HUD-funded affordable housing projects and could lead current and future HUD-funded capital projects (i.e. ADA Ramps and Curb cuts, affordable housing projects, public infrastructure improvements, Senior Center Kitchen Rehabilitation, etc.). There will be no General Fund impact.
CED	1.00	0787	4700	14940	Building Maintenance Technician	Klayton Rasmussen rls from prob 03/18/16	03/18/16	455	The BMT is critical in serving the facility maintenance needs of the MCP. The facility HVAC system, fountain, hot water heater and other critical equipment must operate efficiently in order to have successful events, which generate revenue.
CED	1.00	0676	4700	14945	Production Technician	Charles McKeever deceased 04/19/17	04/19/17	64	The production technician is 100% funded from fee revenue. The production technician is responsible for all audi visual needs of clients. This is a highly specialized skill. We are currently using outside vendors during our low booking period. When the season picks up in the fall, a full time position will be necessary to serve the needs of the clients.
CLERK	1.00	0472	5120	05030	Admin Office Assistant I	Tonya Shockley rls from prob 01/13/17	01/13/17	160	No GF impact. ISF Mail Room Allocated. Position picks up mail and delivers to: City Hall, Centre Plaza, Corp Yard, Neighborhood Center at Marshall Park, Treatment Plant, Dryden, Muni, Cop Shop, MPD, Museum, Airport, Creekside and Senior Center. Provides coverage for other position due to illness and vacation, or when off-site to drop-off/pick-up locations throughout the City, including the post office
FIN	0.00	0261	0100	12110	Financial Analyst III	UF:Calogero Maniscalco promoted 05/17/16			This position was originally underfilled during the probationary period. Now the employee performs all essential functions of the position with minimal oversight and should be compensated at this level.
FIN	1.00	0263	0100	12110	Senior Financial Analyst	Gloria Garza resigned 04/25/17	04/25/17	58	This position handles the accounting of the City's $300 million investment portfolio and oversees the long-term debt payment/accounting/ continuing disclosure requirements. It is acritical position to ensure all debt obligations are met and to handle all of the audit requirements for the CFDs. The City's fiscal audit started in early May and critical deadlines will be approaching in early August. If these deadlines are not met, it could impact issuance of the City's audit report and the GFOA Certificate in Excellence for Financial Reporting program.

City of Modesto
Vacant Positions

Dept.	FTE	OPN	FUND#	CC#	Vacant Position	Status/Comments	Date of Vacancy	Days Open	Justification
FIN	1.00	0041	0100	12510	Purchasing Manager	Mark Averell resigned 02/19/16	02/19/16	484	This position is a critical management position. Duties include overseeing all procurement activities as required by the Modesto Municipal Code (MMC) and supervising two buyer positions. The Purchasing Manager has been held vacant since February 2016 while the City conducted a reengineering study of the division to determine best practices, improve efficiencies and to eliminate unnecessary assignments. While the consultant's report is still in draft stage, it is anticipated that the study will recommend hiring a Purchasing Manager. In the interim, the Acting Finance Director and the Buyer (acting out of her classification) have executed the duties of the Purchasing Manager. In addition, temporary help was used to assist in performing duties within the division. MMC 8-3.202 outlines the duties of the Purchasing Manager. The MMC requires the City to maintain a central purchasing system in which the Purchasing Manager oversees the contracting and purchasing of supplies, equipment, materials and contractual services, except for professional services. The Purchasing Manager ensures good and acceptable purchasing practices are followed throughout the City. This positon also ensures compliance with State laws and regulations with regard to procurement. Failure to fill this position has resulted in longer timelines to perform competitive procurement processes thus complicating department operations. It has also resulted in less day-to-day oversight of processes and certain backlogs.
MFD	1.00	0095	0100	18210	Fire Battalion Chief (Unrep)	Hugo Patino Jr retired (IDR) 04/14/17	04/14/17	69	The BC position is a critical position that is currently being filled by a Captain in the Acting BC role. The City is currently paying overtime to fill the Captain's position. Filling this position is essential and highly critical to ensure compliance with the requested GF reductions/vacancy holds that have been incorprated int the FY17/18 Budget.
PR&N	1.00	0066	0100	33030	Recreation Supervisor	Ashley Weaver promoted "out" 11/01/16	11/01/16	232	This position is vital to the daily oversight and operations within the Recreation Division as it is responsible for sports and aquatic programming, facility management, contract classes, and will assume increased responsibility in the area of neighborhood engagement. It is vital to department operations to ensure that the resulting vacancy is filled expeditiously. The current inability to fill this position results in an inefficient operational struxture and makes communications difficult due to span of control of existing management structure.
MPD	1.00	0898	0100	19320	Police Community Services Officer II	Stephany Valadez resigned 04/27/17	04/27/17	56	The position is being temporarily filled by a CSO previously assigned to Patrol/Telephone Reporting Unit. Filling this vacancy will allow the temporary employee to return to essenital public service duties in the other areas of the department
MPD	1.00	0413	0100	19420	Police Clerk II	Claudia Duarte ris fr prob 11/29/16	11/29/16	204	The position perform critical records management duties. Duties are currently performed though overtime and continued reliance on temporary staff resulting in inefficiencies and making the department susceptible to risk due to turnover of temp staff.
PW	1.00	0637	4480	53150	Equipment Operator	Emmanuel Schiling transferred out 02/21/17			Position in Street Sweeping and is vital to keeping sweeping operations on schedule. This position is currently being filled by someone from Green Waste, which is burdening that program. Without this position, trying to maintain current level of service could result in overtime. Even with that overtime, this labor that is being used for sweeping operations is not enough to maintain the normal service we provide to the community. The benefit of this position will result in more curb miles being swept and more loads of waste being removed from the streets. This has a direct impact on the city by reducing plugged storm drains that lead to flooding. By not filling this position, these hours will need to be made up by others on staff and from other departments in the form of overtime and will still impact our ability to serve the citizens of Modesto.
PW	1.00	1330	4540	53472	Administrative Services Technician II	New Allocation FY 15/16	06/30/15	713	This position coordinates the technology systems for the Avail system which tracks bus activity and relays that information to the public, and the Safety Vision video surveillance system on the board the buses. The Avail system also provides critical data required for route planning and FTA reporting. This position would be intimately involved with the technology, and be the liaison between all affected groups, generating cohesion and success with the technology. If this position was not filled, there is an increased risk of technology systems failure or the providing bad information to the public. This becomes increasingly critical as the City implements real-time bus location information to the public.

City of Modesto
Vacant Positions

Dept	FTE	OPN	FUND#	CC#	Vacant Position	Status/Comments	Date of Vacancy	Days Open	Justification
PW	1.00	0384	4891	56010	Administrative Services Technician II	Annette Byrne trans out 1/12/16	01/12/16	521	This position will be tasked with assisting with the overall technical data tracking and field research for AB 341 and AB 1826, the Mandatory Commercial Recycling Ordinance and the Mandatory Organics Recycling laws. The City has been put on a State compliance order due to our inability to complete collect all of the necessary information because of the shortage in staff and the increase in workload. It is crucial that we have a technical person who can help research and do field observations to collect and analyze this data, waste auditing, contacting businesses as needed, and evaluate the information necessary for the Recycling Coordinator and the Solid Waste Enforcement Officer to bring the business into compliance.This position would also assume some grant responsibilities: Researching the new grants, doing administrative tracking for the various grant databases, and writing grant reports. Additionally, the position assists the Solid Waste Manager with the budget, Council agenda reports, garbage rate reviews, administrative backup, and tracking all solid waste legislation to brief the Solid Waste Manager. This position would be responsible for analyzing building plans, approving and tracking the building permitting approvals for the garbage enclosures, communicating with the applicants, and maintaining the Cal Green program and forms per AB 1876. 4. This position would assist solid waste code enforcement with administrative and technical responsibilities to ensure compliance with related laws, codes, ordinances and legislation.
PW	1.00	0557	4890	56030	Equipment Mechanic	Charles Ross Middleton resigned 04/14/17	04/14/17	69	Since this position has been vacated, the Corportation Yard Shop has assumed duties for extremely high maintenance equipment which impairs ability of existing staff to service repairs at the Compost Site or to maintain their aging equipment. It alsi impacts workloads of existing staff at the Corportation Yard Shop. Without this position, Dtate mandated safety BIT inspections required every 90 days on all of our medium and heavy duty fleet vehicles could suffer and place the City at risk for liability. Fleet Services typically keeps up with day to day demand with little to no overtime. By not filling this position, these hours will need to be make up by others on staff in the form of overtime. A continued vacancy in this position may result in increased down time for equipment needing service and shorter service life of the equipment that we have, requiring earlier than anticipated replacement, adversely affecting the solvency of the replacement funds. Sending vehicle repairs to outside for-profit vendors to keep up with workload is a costly alternative that would be inevitable if the positon is not filled. The City would see increased economic benefits in equipment longevity, safety and compliance as well as reduced outsourcing costs by filling this vacancy.
UTIL	1.00	0140	1300	42010	Sr. Civil Engineer	Tamorah Bryant trans out 12/13/16	12/13/16	190	Professional staff required to meet Capital Project delivery schedules for regulatory compliance, advanced level position that directs all activities within the Engineering Division's work group and is responsible to ensuring that the City's capital improvement project work plan is implemented.
UTIL	1.00	0287	1300	42020	Administrative Analyst II	Natalie Nevitt resigned 04/13/17	04/13/17	70	This vacancy is an essential position in the Construction Administration performimg construction contract-related work functions, including change order processing, labor compliance reporting, data input and monitoring, and project closeouts
UTIL	1.00	0657	4210	44312	Utilities Plant Operator II	Gary McElhaney retired 06/07/17	06/07/17	16	State Certification required per Title 23, Division 3, SWRCB and Regional Water Quality Control Boards, Chapter 26 needed to perform the regulatory duties to ensure all water quality objectives are met.
UTIL	1.00	1248	4210	44312	Utilities Plant Operator II	Ryan Williams resigned 12/03/16	12/03/16	200	State Certification required per Title 23, Division 3, SWRCB and Regional Water Quality Control Boards, Chapter 26 needed to perform the regulatory duties to ensure all water quality objectives are met.
UTIL	1.00	1249	4210	44312	Utilities Plant Operator II	New Allocation FY14/15	07/01/14	1072	State Certification required per Title 23, Division 3, SWRCB and Regional Water Quality Control Boards, Chapter 26 needed to perform the regulatory duties to ensure all water quality objectives are met.
UTIL	1.00	0757	4210	44314	Maintenance Worker II	Nathan Holt resigned 06/08/17	06/08/17	15	Approved staffing plan required per Title 23, Division 3, Chapter 26 SWRCB Office of Operator Certification Regulations

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-250

RESOLUTION DIRECTING THE CITY CLERK TO SUBMIT TO THE QUALIFIED VOTERS OF THE CITY OF MODESTO AT THE NEXT REGULAR MUNICIPAL ELECTION A CERTAIN MEASURE RELATING TO A PROPOSED ORDINANCE ALLOWING FOR THE IMPOSITION OF A CANNABIS BUSINESS TAX OF UP TO 10% ON GROSS RECEIPTS OF CANNABIS BUSINESSES WITHIN THE CITY OF MODESTO

WHEREAS, the City Council of the City of Modesto desires to place before the voters a ballot measure to enact an ordinance allowing the City Council to implement an excise tax on cannabis businesses within the City; and

WHEREAS, revenues from a cannabis business tax would go into the City's general fund and could be used for any legitimate government purpose; and

WHEREAS, the City of Modesto is committed to fiscal prudence, responsibility, and self-reliance; and

WHEREAS, pursuant to Elections Code Section 9222, the City Council may submit to the qualified voters of the City a proposition without a petition therefore, by ordinance or resolution; and

WHEREAS, the City Council desires to submit to the qualified voters of the City a measure asking whether to enact an ordinance allowing for the City Council to implement, by resolution, a cannabis business tax of up to 10% on gross receipts of all cannabis businesses within the City; and

WHEREAS, the City Council, pursuant to Resolution 2017-69, called for a general municipal election to be held on and consolidated with the November 7, 2017 general election and for the Stanislaus County Elections Department to conduct such

election on behalf of the City of Modesto and therefore the Council now desires to include this measure on the ballot at said election.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

1. Pursuant to California Elections Code section 9222 and Section 2(b) of California Constitution Article XIIIC, the City Council of the City of Modesto proposes to and does hereby, by its own motion, submit to the qualified voters of the City of Modesto, a measure to amend the Modesto Municipal Code via ordinance, as set forth in **Attachment A** to this Resolution. The ordinance shall not take effect unless approved by a simple majority of voters voting on the measure at the November 7, 2017 election. The ordinance specifies that the rate of the cannabis business tax may be up to 10%, as set by City Council resolution, of the gross receipts of any cannabis business within the City. The City of Modesto shall collect the tax from cannabis businesses and place all revenues within the General Fund.

2. In the sample ballot/voter information pamphlet for the November 7, 2017 election shall be printed the full text of the ordinance, which is **attached** as **Exhibit A**, and included herein by reference.

3. On the ballot to be used at said election, in addition to any other matter required by law to be printed thereon, shall be printed the following question:

MEASURE ___

Cannabis Business Tax Shall the City of Modesto adopt an ordinance establishing a cannabis business tax on all cannabis businesses within the City, up to 10% of gross receipts of each business, potentially generating approximately one million dollars or	Yes No	☐ ☐

more in revenues annually for general City services, including neighborhood safety, maintaining parks and recreation, and job creation, with all revenues remaining local, and which continues until repealed by the City Council or the voters?		

4. The City Council hereby orders the City Clerk to submit said measure to the voters at the General Election on November 7, 2017.

5. Pursuant to Elections Code section 12101 et seq., the City Clerk of the City of Modesto is hereby authorized to prepare all required notices related to the ballot measure and to publish such notices as required by law in *The Modesto Bee*, the official newspaper of said City and a newspaper of general circulation printed and published in said City.

6. The Stanislaus County Elections Department is hereby authorized to canvass the returns of the Regular Municipal Election.

7. The City Clerk is hereby directed to file a certified copy of this resolution with the Board of Supervisors and the Elections Department of the County of Stanislaus, and the City Clerk shall certify to the passage and adoption of this resolution and enter it into the book of original resolutions. The Board of Supervisors is hereby requested to consolidate the election on the measure with the November 7, 2017 election.

8. The approval of this Resolution is exempt from the California Environmental Quality Act (Public Resources Code §§ 21000 et seq., "CEQA," and 14 Cal. Code Reg. §§ 15000 et seq., "CEQA Guidelines"). The excise tax to be submitted to the voters is a general tax that can be used for any legitimate governmental purpose; it is not a commitment to any particular action. As such, under CEQA Guidelines section 15378(b)(4), the tax is not a project within the meaning of CEQA because it creates a

government funding mechanism that does not involve any commitment to any specific project that may result in a potentially significant physical impact on the environment. If revenue from the tax were used for a purpose that would have either such effect, the city would undertake the required CEQA review for that particular project. Therefore, under CEQA Guidelines section 15060 review under CEQA is not required.

9. This Resolution must be approved by a two-thirds (2/3) vote of all members of the City Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Mayor Brandvold
NOES:	Councilmembers:	Ridenour, Zoslocki

ATTACHMENT A

CITY OF MODESTO
CITY COUNCIL
ORDINANCE NO. XX-2017

AN ORDINANCE AMENDING THE MODESTO MUNICIPAL CODE BY ADDING ARTICLE 11, "CANNABIS BUSINESS TAX" TO CHAPTER 2, "TAXATION" OF TITLE 8, "FINANCE, REVENUE AND TAXATION"

WHEREAS, in 1996 the California voters approved Proposition 215, "The Compassionate Use Act," which provides that qualified patients may obtain and use marijuana for medical purposes with a physician's recommendation and will not be subject to certain criminal penalties under state law; and

WHEREAS, in 2003, the state Legislature enacted Senate Bill 420, the "Medical Marijuana Program Act," as a supplement to The Compassionate Use Act, which allows cities to adopt and enforce rules consistent with the Medical Marijuana Program Act; and

WHEREAS, in 2015, the state Legislature enacted the Medical Marijuana Regulation and Safety Act, which creates a regulatory, permitting, and oversight structure for the medical marijuana industry at the state level but does not impede on land use and police powers of local governments; and

WHEREAS, the City Council of the City of Modesto desires to impose a tax on all cannabis businesses that may operate within Modesto if future land use regulations allow for such businesses; and

WHEREAS, California Constitution Article XIIIC, Section 2(b), provides that no local government may impose a general tax unless and until that tax is submitted to the electorate and approved by a majority votes; and

WHEREAS, the tax imposed by this Ordinance is an excise tax on the privilege of conducting business within the City and will only become effective if approved by a majority of the City' voters at the November 7, 2017 municipal election.

NOW, THEREFORE, the City Council of the City of Modesto does ordain as follows:

SECTION 1. Voter Approval. This Ordinance shall impose a general tax, as defined by Article XIIC, Section 1(a) of the California Constitution and Government Code section 53723, on cannabis businesses, and therefore must be approved by a majority of voters voting on the tax. Approval of this Ordinance is therefore subject to and conditioned upon the approval by the voters of the imposition of the general tax imposed by this Ordinance. This Ordinance shall not take effect if a majority of the voters voting in the election on this Ordinance do not vote in favor of it.

SECTION 2. Amendment of Code. Article 11, "CANNABIS BUSINESS TAX," of Chapter 2, "Taxation" of Title 8, "Finance, Revenue and Taxation" of the Modesto Municipal Code is added to read as follows:

Article 11

CANNABIS BUSINESS TAX

Sections:

8-2.1101 Purpose of article.

8-2.1102 Tax imposed.

8-2.1103 Definitions.

8-2.1104 Other licenses, permits, taxes, fees or charges.

8-2.1105 Payment of tax does not authorize unlawful business.

8-2.1106 Registration with tax administrator.

8-2.1107 Payment – Location.

8-2.1108 Amount of business tax owed.

8-2.1109 Payment – Time limits.

8-2.1110 Payments and communications made by mail – Proof of timely submittal.

8-2.1111 Payment – When taxes deemed delinquent.

8-2.1112 Notice not required by City.

8-2.1113 Payment – Penalty for delinquency.

8-2.1114 Waiver of penalties.

8-2.1115 Refunds – Credits.

8-2.1116 Refunds and procedures.

8-2.1117 Exemptions – Application – Issuance conditions.

8-2.1118 Exemptions – General.

8-2.1119 Enforcement – Duties of tax administrator and police chief.

8-2.1120 Rules and regulations.

8-2.1121 Apportionment.

8-2.1122 Audit and examination of records and equipment.

8-2.1123 Tax deemed debt to City.

8-2.1124 Lien – Recordation.

8-2.1125 Warrant for collection of tax.

8-2.1126 Seizure and sale.

8-2.1127 Successor's and assignee's responsibility.

8-2.1128 Deficiency determinations.

8-2.1129 Tax assessment – authorized when – nonpayment – fraud.

8-2.1130 Tax assessment – notice requirements.

8-2.1131 Tax assessment – hearing – application and determination.

8-2.1132 Tax assessment – appeal.

8-2.1133 Conviction for article violation – taxes not waived.

8-2.1134 Violation deemed misdemeanor – penalty.

8-2.1135 Effect of state and federal reference/authorization.

8-2.1136 Remedies cumulative.

8-2.1137 Amendment or repeal.

8-2.1101 Purpose of article.

This article shall be known as the "cannabis business tax" and is enacted solely to raise revenue for the general governmental purposes of the City. All of the proceeds from the tax imposed by this article shall be placed in the City's general fund and used for the usual current expenses of the City. The cannabis business tax under the provisions of this article is not a sales or use tax and shall not be calculated or assessed as such. The cannabis business tax shall not be separately identified or otherwise specifically assessed or charged to any member, customer, patient, or caretaker.

8-2.1102 Tax imposed.

There is established and imposed a cannabis business tax on every such business operating in the City at the rate set forth in this article.

8-2.1103 Definitions.

The definitions set forth in this section shall govern the application and interpretation of this Article 11.

(A) "Business" shall include all activities engaged in or caused to be engaged in within the City, including any commercial or industrial enterprise, trade, profession, occupation, vocation, calling, or livelihood, whether or not carried on for gain or profit, but shall not include the services rendered by an employee to his or her employer.

(B) "Employee" means each and every person engaged in the operation or conduct of any business, whether as owner, member of the owner's family, partner, associate, agent, manager or solicitor, and each and every other person employed or working in such business for a wage, salary, or commission .

(C) "Engaged in business" means the commencing, conducting, operating, managing or carrying on of a cannabis business and the exercise of corporate or franchise powers, whether done as owner, or by means of an officer, agent, manager, employee, or otherwise, whether operating from a fixed location in the City or coming into the City from an outside location to engage in such activities. A person shall be deemed engaged in business within the City if:

(1) Such person or person's employee maintains a fixed place of business within the City for the benefit or partial benefit of such person;

(2) Such person or person's employee owns or leases real property within the City for business purposes;

(3) Such person or person's employee regularly maintains a stock of tangible personal property in the City for sale in the ordinary course of business;

(4) Such person or person's employee regularly conducts solicitation of business within the City;

(5) Such person or person's employee performs work or renders services in the City on a regular and continuous basis;

(6) Such person or person's employee utilizes the streets within the City in connection with the operation of motor vehicles for business purposes.

The foregoing specified activities shall not be a limitation on the meaning of "engaged in business."

(D) "Evidence of doing business" means whenever any person shall, by use of signs, circulars, cards or any other advertising media, including the use of internet or telephone solicitation, represent that such person is engaged in cannabis business in the City, then these facts may be used as evidence that such person is engaged in business in the City.

(E) "Fraud" means any intentional deception, misrepresentation and/or intentional non-payment of taxes to the City.

(F) "Gross receipts," except as otherwise specifically provided, means the total amount actually received or receivable from all sales from the cannabis business, including membership dues and fees; the total amount or compensation actually received or receivable for the performance of any act or service, of whatever nature it may be, for which a charge is made or credit allowed, whether or not such act or service is done as a part of or in connection with the sale of materials, goods, memberships, wares or merchandise; discounts, rents, royalties, fees, commissions, dividends, and gains realized from trading in stocks or bonds, however designated. Included in "gross receipts" shall be all receipts, cash, credits and property of any kind or nature, without any deduction therefrom on account of the cost of the property sold, the cost of materials used, labor or service costs, interest paid or payable, or losses or other expenses whatsoever, except that the following shall be excluded therefrom:

(1) Cash discounts allowed and taken on sales;

(2) Credit allowed on property accepted as part of the purchase price and which property may later be sold, at which time the sales price shall be included as gross receipts;

(3) Any tax required by law to be included in or added to the purchase price and collected from the consumer or purchaser;

(4) Such part of the sale price of any property returned by purchasers to the seller as refunded by the seller by way of cash or credit allowances or return of refundable deposits previously included in gross receipts;

(5) Receipts from investments where the holder of the investment receives only interest and/or dividends, royalties, annuities and gains from the sale or exchange of stock or securities solely for a person's own account, not derived in the ordinary course of a business;

(6) Receipts derived from the occasional sale of used, obsolete or surplus trade fixtures, machinery or other equipment used by the taxpayer in the regular course of the taxpayer's business;

(7) Cash value of sales, trades or transactions between departments or units of the same business;

(8) Transactions between a partnership and its partners;

(9) Receipts from services or sales in transactions between affiliated corporations. An affiliated corporation is a corporation:

(a) The voting and nonvoting stock of which is owned at least eighty percent by such other corporation with which such transaction is had; or

(b) Which owns at least eighty percent of the voting and nonvoting stock of such other corporation; or

(c) At least eighty percent of the voting and nonvoting stock of which is owned by a common parent corporation which also has such ownership of the corporation with which such transaction is had;

(10) Transactions between a limited liability company and its member(s), provided the limited liability company has elected to file as a Subchapter K entity under the Internal Revenue Code and that such transaction(s) shall be treated the same as between a partnership and its partner(s) as specified in subsection (E)(9);

(11) Receipts of refundable deposits, except that such deposits when forfeited and taken into income of the business, shall not be excluded when in excess of one dollar;

(12) Amounts collected for others where the business is acting as an agent or trustee and to the extent that such amounts are paid to those for whom collected. These agents or trustees must provide the finance department with the names and the addresses of the others and the amounts paid to them. This exclusion shall not apply to any fees, percentages, or other payments retained by the agent or trustees.

"Gross receipts" subject to the cannabis business tax shall be that portion of gross receipts relating to business conducted within the City.

(G) "Cannabis" means all parts of the plant Cannabis sativa L., Cannabis indica, and Cannabis ruderalis, whether growing or not; the seeds thereof; the resin extracted from any part of the plant, whether crude or purified; and every compound, manufacture, oil, salt, derivative, mixture, or preparation of the plant, its seeds or resin, including food products containing cannabis. "Cannabis" also means marijuana as defined by Section 11018 of the California Health and Safety Code and Section 19300.5 of the California Business and Professions Code.

(H) "Cannabis business" means any business activity which entails the distribution, delivery, dispensing, exchanging, bartering or sale of either medical or non-medical cannabis, including but not limited to, cultivating, planting, harvesting, transporting, manufacturing, compounding, converting, processing, preparing, labeling, storing, packaging, wholesale, testing, and/or retail sales of cannabis, products including cannabis, and any ancillary products in the City, whether or not carried on for gain or profit and specifically excludes legal personal cultivation activities allowed under State law and City ordinances.

(I) "Cannabis business tax," "business tax," or "cannabis tax" means the tax due for engaging in cannabis business in the City pursuant to this article.

(J) "Medical Cannabis" means cannabis authorized in strict compliance with Health & Safety Code Sections 11362.5, 11362.7 et seq., as such sections may be amended from time to time.

(K) "Non-medical cannabis" means cannabis authorized in strict compliance with any state law pertaining to cannabis that is not medical cannabis.

(L) "Person" means, without limitation, any natural individual, organization, firm, trust, common law trust, estate, partnership of any kind, association, syndicate, club, joint stock company, joint venture, limited liability company, corporation (including foreign, domestic, and nonprofit), cooperative, receiver, trustee, guardian, or other representative appointed by order of any court.

(M) "Operator" shall mean any person conducting, operating, or maintaining in whole or in part as principal, agent, officer, employee or independent contractor, any cannabis business or medical marijuana business as defined in this chapter, taxable under this article.

(N) "Sale" means and includes any sale, exchange, or barter.

(O) "Tax administrator" or "administrator" means the Director of Finance or such other administrator designated by the City manager to administer this article.

8-2.1104 Other licenses, permits, taxes, fees or charges.

Nothing contained in this article shall be deemed to repeal, amend, be in lieu of, replace or in any way affect any requirements for any license or permit required by, under or by virtue of any provision of any other title or chapter of this code or any other ordinance or resolution of the City or under any applicable state or federal law, nor be deemed to repeal, amend, be in lieu of, replace or in any way affect any tax, fee or other charge imposed, assessed or required by, under or by virtue of any other title or chapter of this code or any other ordinance or resolution of the City.

8-2.1105 Payment of tax does not authorize unlawful business.

(A) The payment of a business tax required by this article, and its acceptance by the City, shall not entitle any person to carry on any cannabis business unless the person has complied with all of the requirements of this code and all other applicable laws, nor to carry on any cannabis business in any building or on any premises in the event that such building or premises are situated in a zone or locality in which the conduct of such cannabis business is in violation of any law.

(B) No taxes paid under the provisions of this article shall be construed as authorizing the conduct or continuance of any illegal or unlawful business, or any business in violation of any ordinance of the City.

8-2.1106 Registration with tax administrator.

(A) Each operator of any cannabis business operating in the City shall register the business with the tax administrator and obtain from him or her a cannabis business tax license prior to the commencement of any business operations, which shall be at all times posted in a conspicuous place on the premises.

(B) The license shall, among other things, state the following:

1. The name of the business;

2. The address of the business;

3. The date upon which the license shall expire.

8-2.1107 Payment – location.

The tax imposed under this article shall be paid to the administrator in lawful money of the United States at the offices of the Director of Finance in Modesto, California. "Lawful money" shall mean any coin, currency or negotiable instrument, exchangeable for said coin or currency, which the United States Congress or State of California has declared to be a national legal tender. The City may impose a fee for processing the negotiable instrument.

8-2.1108 Amount of business tax owed.

(A) Every person engaged in cannabis business in the City shall pay, for the privilege of operating a cannabis business in the City, a business tax at a rate of up to ten percent (10%) of gross receipts. The tax under this article shall not be imposed on cannabis businesses unless and until the City Council, by resolution, takes action to set a tax rate not to exceed ten percent (10%) of gross receipts.

(B) Notwithstanding the maximum tax rate of ten percent (10%) of gross receipts established under subsection (A), the City Council may, in its discretion, at any time by resolution, implement a lower tax rate for all cannabis businesses or establish differing tax rates for different categories of cannabis businesses, as defined in such resolution, subject to the maximum rate of ten (10%) percent of gross receipts. The City Council

may, by resolution, also increase any such tax rate from time to time, not to exceed the maximum tax rate of ten percent (10%) of gross receipts established under subsection (A).

(C) In establishing different tax rates for different categories of cannabis businesses pursuant to subsection (B), the City Council may enact a rate using a basis other than gross receipts. By way of example only and without imposing any limitation on the basis of the tax rate for a category of cannabis business, the rate may be based upon the square footage of the building used by or number of employees of a cannabis business. If the City Council establishes a tax rate for a cannabis business on a basis other than gross receipts, in no event shall that tax paid by a cannabis business in that category exceed ten percent (10%) of the business's gross receipts.

8-2.1109 Payment – time limits.

The business tax imposed by this article shall be due and payable as follows:

(A) Each person owing a tax under this article shall, on or before the fifteenth (15^{th}) day of the close of the calendar month in which the tax is due, or at the close of any reporting period which may be established by the tax administrator, prepare a tax statement to the administrator of the total gross receipts and the amount of tax owed for the preceding calendar month. At the time the tax statement is filed, the full amount of the tax owed for the preceding calendar month shall be remitted to the administrator. A tax statement is due following each calendar month, even if there are no taxes due.

(B) All tax statements shall be completed on forms provided by the administrator.

(C) Tax statements and payments for all outstanding taxes owed to the City are immediately due to the administrator upon cessation of business for any reason.

(D) The administrator may establish longer reporting periods for any licensee if the administrator deems it necessary in order to insure collection of the tax and the administrator may require further information in the tax statement.

8-2.1110 Payments and communications made by mail – proof of timely submittal.

Whenever any payment, statement, report, request or other communication received by the administrator is received after the time prescribed by this chapter for the receipt thereof, but is in an envelope bearing a postmark showing that it was mailed on or prior to the date prescribed in this article for the receipt thereof, or whenever the administrator is furnished substantial proof that the payment, statement, report, request or other communication was in fact deposited in the United States mail on or prior to the date prescribed for receipt thereof, the administrator may regard such payment, statement, report, request or other communication as having been timely received. If the due date falls on Saturday, Sunday or a holiday, the due date shall be the next regular business day on which the City Hall building at 1010 10th Street, Modesto, CA 95353 is open. Any payment or correspondence sent via electronic communication will be deemed received upon receipt by the City.

8-2.1111 Payment – when taxes deemed delinquent.

Unless otherwise specifically provided under other provisions of this article, the taxes required to be paid pursuant to this article shall be deemed delinquent if not paid on or before the due date specified in Section 8-2.1109.

8-2.1112 Notice not required by City.

The administrator is not required to send a delinquency or other notice or bill to any person subject to the provisions of this article, and failure to send such notice or bill shall not affect the validity of any tax or penalty due under the provisions of this article.

8-2.1113 Payment – penalty for delinquency.

(A) Any person who fails or refuses to pay any business tax required to be paid pursuant to this article on or before the due date shall pay penalties and interest as follows:

(1) A penalty equal to twenty-five percent (25%) of the amount of the tax in addition to the amount of the tax, plus interest on the unpaid tax calculated from the due date of the tax; and

(2) An additional penalty equal to twenty-five percent (25%) of the amount of the tax if the tax remains unpaid for a period exceeding one calendar month beyond the due date, plus interest on the unpaid tax and on the unpaid penalties.

(3) In addition to the penalties imposed, any person who fails to remit any tax imposed by this article shall pay interest at the rate of one and one-half percent (1.5%) per month or fraction thereof on the amount of tax, exclusive of penalties, from the last day of the month following the monthly period for which the amount or any portion thereof should have been paid until the date of payment.

(4) Full payment of the tax owed is to be made to the City, except in cases where an alternate payment agreement is reached with the administrator.

(5) The penalties stated herein are cumulative and may be imposed singularly and/or in addition to other legal remedies for nonpayment available to the City.

(B) Whenever a check is submitted in payment of a business tax and the check is subsequently returned unpaid by the bank upon which the check is drawn, and the check is not redeemed prior to the due date, the taxpayer will be liable for the tax amount due plus the return check fee; penalties and interest as provided for in this section; and any amount allowed under state law.

(C) The cannabis business tax due shall be that amount due and payable from the first date on which the person was engaged in cannabis business in the City, together with applicable penalties and interest calculated in accordance with subsection (A).

(D) Any person whose cannabis business tax is delinquent by at least sixty calendar days may be subject to revocation of a City use permit or other City permit associated with the subject cannabis business.

8-2.1114 Waiver of penalties.

The administrator may waive the first and second penalties imposed upon any person if:

(A) The person provides evidence satisfactory to the administrator that failure to pay timely was due to circumstances beyond the control of the person and occurred,

notwithstanding the exercise of ordinary care and the absence of willful neglect, and the person paid the delinquent business tax and accrued interest owed the City prior to applying to the administrator for a waiver.

(B) The waiver provisions specified in this subsection shall not apply to interest accrued on the delinquent tax and a waiver shall be granted only once during any twenty-four-month period.

(C) A request for relief from the first and second penalties must be filed in writing within thirty days of the date the remittance was due to the City, but no later than ten (10) days of the City's notice to the operator of the delinquent remittance.

8-2.1115 Refunds – credits.

(A) No refund shall be made of any tax collected pursuant to this article, except as provided in Section 8-2.1116.

(B) No refund of any tax collected pursuant to this article shall be made because of the discontinuation, dissolution or other termination of a business.

(C) Any person entitled to a refund of taxes paid pursuant to this article may elect in writing to have such refund applied as a credit against such person's business taxes for the next calendar month.

8-2.1116 Refunds and procedures.

(A) Whenever the amount of any business tax, penalty or interest has been overpaid, paid more than once, or has been erroneously or illegally collected or received by the City under this article, it may be refunded to the claimant who paid the tax; provided, that a written claim for refund is filed with the administrator within one year of the date the tax was originally due and payable.

(B) The administrator or the administrator's authorized agent shall have the right to examine and audit all the books and business records of the claimant in order to determine the eligibility of the claimant to the claimed refund. No claim for refund shall

be allowed if the claimant refuses to allow such examination of claimant's books and business records after request by the administrator to do so.

(C) In the event that the business tax was erroneously paid and the error is attributable to the City, the entire amount of the tax erroneously paid shall be refunded to the claimant. If the error is attributable to the claimant, the City shall retain an amount from the refund reasonably calculated to cover expenses in verifying the error.

8-2.1117 Exemptions – application – issuance conditions.

Any person desiring to claim exemption from the payment of the tax set forth in this article shall make application upon forms prescribed by the administrator and shall furnish such information and make such affidavits as may be required by the administrator.

8-2.1118 Exemptions – general.

Except as may be otherwise specifically provided in this article, the terms hereof shall not be deemed or construed to apply to any person when imposition of the tax upon that person would violate the Constitution of the United States or that of the state of California or preemptive federal or state law.

8-2.1119 Enforcement – duties of tax administrator and police chief.

It shall be the duty of the administrator to enforce each and all of the provisions of this article, and the police chief shall render such assistance in the enforcement of this article as may from time to time be required by the administrator.

8-2.1120 Rules and regulations.

For purposes of apportionment as may be required by law and for purposes of administration and enforcement of this article generally, the administrator, with the concurrence of the City attorney, may from time to time promulgate administrative rules and regulations.

8-2.1121 Apportionment.

(A) None of the tax provided for by this article shall be applied so as to occasion an undue burden upon interstate commerce or be violative of the equal protection and due process clauses of the Constitutions of the United States or the state of California.

(B) If any case where a business tax is believed by a taxpayer to place an undue burden upon interstate commerce or be violative of such constitutional clauses, the taxpayer may apply to the administrator for an adjustment of the tax. It shall be the taxpayer's obligation to request in writing for an adjustment within one year after the date of payment of the tax. If the taxpayer does not request in writing within one year from the date of payment, then taxpayer shall be conclusively deemed to have waived any adjustment for that year and all prior years.

(C) The taxpayer shall, by sworn statement and supporting testimony, show the method of business and the gross volume of business and such other information as the administrator may deem necessary in order to determine the extent, if any, of such undue burden or violation. The administrator shall then conduct an investigation, and shall fix as the tax for the taxpayer an amount that is reasonable and nondiscriminatory, or if the tax has already been paid, shall order a refund of the amount over and above the tax so fixed. In fixing the tax to be charged, the administrator shall have the power to base the tax upon a percentage of gross receipts or any other measure which will assure that the tax assessed shall be uniform with that assessed on businesses of like nature, so long as the amount assessed does not exceed the tax as prescribed by this article.

(D) Should the administrator determine that the gross receipt measure of tax to be the proper basis, the administrator may require the taxpayer to submit a sworn statement of the gross receipts and pay the amount of tax as determined by the administrator.

8-2.1122 Audit and examination of records and equipment.

(A) The administrator shall have the power to audit and examine all books and records of persons engaged in cannabis business including both state and federal income tax returns, California sales tax returns, or other evidence documenting the gross receipts of persons engaged in cannabis business, and, where necessary, all equipment of any person engaged in cannabis business in the City for the purpose of ascertaining the amount of

business tax, if any, required to be paid by the provisions hereof, and for the purpose of verifying any statements or any item thereof when filed by any person pursuant to the provisions of this article. If such person, after written demand by the administrator, refuses to make available for audit, examination or verification such books, records or equipment as the administrator requests, the administrator may, after full consideration of all information within his or her knowledge concerning the cannabis business and activities of the person so refusing, make an assessment in the manner provided in Sections 8-2.1126 through 8-2.1128 of any taxes estimated to be due.

(B) It shall be the duty of every person liable for the collection and payment to the City of any tax imposed by this article to keep and preserve, for a period of at least four years, all records as may be necessary to determine the amount of such tax as he or she may have been liable for the collection of and payment to the City, which records the administrator shall have the right to inspect at all reasonable times.

(C) The City may recoup the costs, expenses, and fees associated with any audit, including, but not limited to, investigation costs, audit expenses, internal staff costs, administrative overhead, third-party contractor costs and fees, and attorneys' fees.

8-2.1123 Tax deemed debt to City.

The amount of any tax, penalties and interest imposed by the provisions of this article shall be deemed a debt to the City and any person carrying on any cannabis business without first having paid such tax shall be jointly and severally liable to the City in an action in the name of the City in any court of competent jurisdiction for the amount of the applicable tax, penalties and interest imposed on such business and for attorneys' fees in the enforcement of this article. The City may collect amounts owed through any legal means, such as special assessments, real property liens, personal property liens, attachments, charging orders, garnishments,Franchise Tax Board Intercepts, and seizures of business property.

8-2.1124 Lien – recordation.

If any amount required to be paid to the City under the ordinance codified in this article is not paid when due, the administrator, upon expiration of the second delinquency period referenced in Section 8-2.1113(A)(2), may, within four years after the amount is due, record in the office(s) of the county recorder(s) of any county in the state of California a certificate specifying the amount of tax, penalties and interest due, the name and address of the operator liable for the same and the fact that the administrator has complied with all provisions of this article in the determination of the amount required to be paid. From the time of the recording, the amount required to be paid together with penalties and interest shall constitute a lien upon any and all real property in any county owned by the operator or thereafter acquired by the operator. The lien shall have the force, effect and priority of a judgment lien and shall continue for ten (10) years from the time of filing of the certificate unless sooner released or otherwise discharged.

8-2.1125 Warrant for collection of tax.

At any time within four years after any operator is delinquent in the payment of any amount herein required to be paid off after the last recording of a certificate of lien under Section 8-2.1124, the administrator may issue a warrant for the enforcement of any liens and for the collection of any amount required to be paid to the City under this article. The warrant shall be directed to any sheriff, qualified law enforcement officer, marshal or constable and shall have the same effect as a writ of execution. The warrant shall be levied and sale made pursuant to it in the same manner and with the same effect as a levy of and a sale pursuant to a writ of execution. The administrator may pay or advance to the sheriff, law enforcement officer, marshal or constable the same fees, commissions and expenses for his or her services as are provided by law for similar services pursuant to a writ of execution.

8-2.1126 Seizure and sale.

At any time within four years after any operator is delinquent in the payment of any amount, the administrator may forthwith collect the amount in the following manner: The administrator shall seize any property, real or personal, of the operator and sell the property, or a sufficient part of it, at public auction to pay the amount due together with

any penalties and interest imposed for the delinquency and any costs incurred on account of the seizure and sale. Any seizure made to collect taxes due shall be only of property of the operator not exempt from execution under the provisions of the California Code of Civil Procedure.

8-2.1127 Successor's and assignee's responsibility.

If any operator, while liable for any amount under this article, sells, assigns or otherwise transfers the business, whether voluntarily or involuntarily, the operator's subsequent successor, assign or other transferee, or other person or entity obtaining ownership or control of the business, shall satisfy any tax liability owed to the City associated with the business. Failure to do so for the benefit of the City will result in the successor being personally liable to the City for the full amount of the tax liability, which includes interest and penalties.

The successor operator, assign, purchaser, transferee, or other person or entity seeking to obtain ownership or control of the business shall notify the administrator of the date of transfer at least thirty days prior to the transfer date; or if the agreement to sell, transfer, or otherwise dispose of the business was made less than thirty days prior to the date of transfer, notice shall be provided immediately.

The successor operator, assign, purchaser, transferee, or other person or entity who obtains ownership or control of the business shall be deemed to have complied with the requirement of this section to satisfy the unpaid tax liability if that person or entity complies with the requirements of California Revenue and Taxation Code Section 7283.5 by withholding from the purchase price an amount sufficient to cover the tax liability, or by otherwise paying the tax liability until the administrator provides a "Tax Clearance Certificate" showing that it has been paid and stating that no amount is due through the date of transfer.

The administrator, within ninety days of receiving a written request from a successor operator, assign, purchaser, transferee, or other person or entity who obtains or attempts to obtain ownership or control of the business, may issue a "Tax Clearance Certificate" stating either the amount of tax liability due and owing for the business, or stating that there is no tax liability due and owing for the business. The administrator may also

request financial records from the current or former owner or operator to conduct an audit of the tax that may be due and owing. After completing the audit within ninety days after the date that the records were made available, the administrator may issue a tax clearance certificate within thirty days of completing the audit, stating the amount of the tax liability owed, if any. If the City determines that the records provided for an audit are insufficient, the administrator may rely on the facts and information available to estimate any tax liability associated with the property. The administrator may issue a tax clearance certificate stating the amount of the tax liability, if any, based on such facts and information available. A written application for a hearing on the amount assessed on the tax clearance certificate must be made within ten (10) days after the serving or mailing of the certificate. The hearing provision of Section 8-2.1131 shall apply. If an application for a hearing is not made within the time prescribed, the tax clearance certificate shall serve as conclusive evidence of the tax liability associated with the property as of the date specified on the certificate.

8-2.1128 Deficiency determinations.

If the administrator is not satisfied that any statement filed as required under the provisions of this article is correct, or that the amount of tax is correctly computed, he or she may compute and determine the amount to be paid and make a deficiency determination upon the basis of the facts contained in the statement or upon the basis of any information in his or her possession or that may come into his or her possession within three years of the date the tax was originally due and payable. One or more deficiency determinations of the amount of tax due for a period or periods may be made. When a person discontinues engaging in a business, a deficiency determination may be made at any time within three years thereafter as to any liability arising from engaging in such business whether or not a deficiency determination is issued prior to the date the tax would otherwise be due. Whenever a deficiency determination is made, a notice shall be given to the person concerned in the same manner as notices of assessment are given under Sections 8-2.1129 through 8-2.1131.

8-2.1129 Tax assessment – authorized when – nonpayment – fraud.

(A) Under any of the following circumstances, the administrator may make and give notice of an assessment of the amount of tax owed by a person under this article at any time:

(1) If the person has not filed any statement required under the provisions of this article;

(2) If the person has not paid any tax due under the provisions of this article;

(3) If the person has not, after demand by the administrator, filed a corrected statement, or furnished to the administrator adequate substantiation of the information contained in a statement already filed, or paid any additional amount of tax due under the provisions of this article; or

(4) If the administrator determines that the nonpayment of any business tax due under this article is due to fraud, a penalty of forty percent of the amount of the tax shall be added thereto in addition to penalties and interest otherwise stated in this article.

(B) The notice of assessment shall separately set forth the amount of any tax known by the administrator to be due or estimated by the administrator, after consideration of all information within the administrator's knowledge concerning the business and activities of the person assessed, to be due under each applicable section of this article, and shall include the amount of any penalties or interest accrued on each amount to the date of the notice of assessment.

8-2.1130 Tax assessment – notice requirements.

The notice of assessment shall be served upon the person either by handing it to him or her personally, or by a deposit of the notice in the United States mail, postage prepaid thereon, addressed to the person at the address of the location of the business or to such other address as he or she shall register with the administrator for the purpose of receiving notices provided under this article; or, should the person have no address registered with the administrator for such purpose, then to such person's last known

address. For the purposes of this section, a service by mail is complete at the time of deposit in the United States mail.

8-2.1131 Tax assessment – hearing – application and determination.

Within ten (10) days after the date of service, the person may apply in writing to the administrator for a hearing on the assessment. If application for a hearing before the City is not made within the time herein prescribed, the tax assessed by the administrator shall become final and conclusive. Within thirty days of the receipt of any such application for hearing, the administrator shall cause the matter to be set for hearing before him or her not later than thirty-five days after the receipt of the application, unless a later date is agreed to by the administrator and the person requesting the hearing. Notice of such hearing shall be given by the administrator to the person requesting such hearing not later than five days prior to such hearing. At such hearing said applicant may appear and offer evidence why the assessment as made by the administrator should not be confirmed and fixed as the tax due. After such hearing the administrator shall determine and reassess the proper tax to be charged and shall give written notice to the person in the manner prescribed in Section 8-2.1130 for giving notice of assessment. The amount determined to be due shall be payable after fifteen days unless appealed.

8-2.1132 Tax assessment – appeal.

Any operator aggrieved by any decision of the tax administrator with respect to the amount of such tax, penalties, or any amount determined to be owed, may appeal the decision in accordance with the procedure established by Chapter 4 of Title 1 of this Code.

8-2.1133 Conviction for article violation – taxes not waived.

The conviction and punishment of any person for failure to pay the required tax shall not excuse or exempt such person from any civil action for the tax debt unpaid at the time of such conviction. No civil action shall prevent a criminal prosecution for any violation of the provisions of this article or of any state law requiring the payment of all taxes.

8-2.1134 Violation deemed misdemeanor – penalty.

Any person violating any of the provisions of this article, or any regulation or rule passed in accordance herewith, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be punishable by a fine of not more than five hundred dollars or by imprisonment for a period of not more than six months, or by both such fine and imprisonment.

8-2.1135 Effect of state and federal reference/authorization.

(A) Unless specifically provided otherwise, any reference to a state or federal statute in this article shall mean such statute as it may be amended from time to time; provided, that such reference to a statute herein shall not include any amendment thereto, or to any change of interpretation thereto by a state or federal agency or court of law, with the duty to interpret such law, to the extent that such amendment or change of interpretation would, under California law, require voter approval of such amendment or interpretation, or to the extent that such change would result in a tax decrease. To the extent voter approval would otherwise be required or a tax decrease would result, the prior version of the statute, or interpretation thereof, shall remain applicable; for any application or situation that would not require voter approval or result in a decrease of a tax, provisions of the amended statute, or new interpretation thereof, shall be applicable to the maximum possible extent.

(B) To the extent that the City's authorization to collect or impose any tax imposed under this article is expanded as a result of changes in state or federal law, no amendment or modification of this article shall be required to conform the tax to those changes, and the tax shall be imposed and collected to the full extent of the authorization up to the full amount of the tax imposed under this article.

8-2.1136 Remedies cumulative.

All remedies and penalties prescribed by this article or which are available under any other provision of law or equity, including but not limited to the California False Claims Act (Government Code Section 12650 et seq.) and the California Unfair Practices Act (Business and Professions Code Section 17070 et seq.), are cumulative. The use of one or

more remedies by the City shall not bar the use of any other remedy for the purpose of enforcing the provisions of this article.

8-2.1137 Amendment or repeal.

This article of the Modesto Municipal Code may be repealed or amended by the City Council without a vote of the people. However, as required by Chapter XIIIC of the California Constitution and Government Code section 53750(h), voter approval is required for any amendment provision that would increase the rate of any tax levied pursuant to this article beyond the maximum amount of ten percent (10%) of a cannabis business's gross receipts or revise the methodology by which the tax is calculated, if the revision would result in an increased tax being levied on any cannabis business. The people of the City of Modesto affirm that the following actions shall not constitute an increase of the rate of a tax:

(A) The restoration of the rate of the tax to a rate that is no higher than the maximum ten percent (10%) tax rate set by this article, if the City Council has previously acted to reduce the rate of the tax;

(B) The City Council's adoption of an resolution, as authorized by Section 8-2.1108(A), to raise the tax rate provided the tax rate is not raised to a rate higher than ten percent (10%) of a cannabis business's gross receipts;

(C) An action that interprets or clarifies the methodology of calculating the tax, or any definition applicable to the tax, so long as interpretation or clarification (even if contrary to some prior interpretation or clarification) is not inconsistent with the language of this article;

(D) The establishment of a class of persons that is exempt or excepted from the tax or the discontinuation of any such exemption or exception (other than the discontinuation of an exemption or exception specifically set forth in this article); or

(E) The collection of the tax imposed by this article, even if the City had, for some period of time, failed to collect the tax.

SECTION 3. CEQA.

The approval of this Ordinance is exempt from the California Environmental Quality Act (Public Resources Code §§ 21000 et seq., "CEQA," and 14 Cal. Code Reg. §§ 15000 et seq., "CEQA Guidelines"). The Cannabis Business Tax to be submitted to the voters is a general tax that can be used for any legitimate governmental purpose; it is not a commitment to any particular action. As such, under CEQA Guidelines section 15378(b)(4), the tax is not a project within the meaning of CEQA because it creates a government funding mechanism that does not involve any commitment to any specific project that may result in a potentially significant physical impact on the environment. If revenue from the tax were used for a purpose that would have either such effect, the City would undertake the required CEQA review for that particular project. Therefore, pursuant to CEQA Guidelines section 15060 CEQA analysis is not required.

SECTION 4. Severability.

If any section, subsection, sentence, clause or phrase of this Article is for any reason held to be invalid or unconstitutional by a decision of any court of competent jurisdiction, such decision shall not affect the validity of the remaining portions of this Article. The City Council hereby declares that it would have passed the ordinance codified in this Article, and each and every section, subsection, sentence, clause or phrase not declared invalid or unconstitutional without regard to whether any portion of this Article would be subsequently declared invalid or unconstitutional.

SECTION 5. Effective Date.

The City Clerk shall certify the adoption of this Ordinance, and the City Clerk shall cause this Ordinance or a summary thereof to be published as required by law. If this Ordinance is approved by a majority of the voters as set forth in Section 1 of this Ordinance, it shall take effect immediately upon certification of the election results by the City Council.

RESOLUTION DIRECTING THE CITY CLERK TO TRANSMIT A COPY OF THE BALLOT MEASURE ENTITLED "CANNABIS BUSINESS TAX" TO THE CITY ATTORNEY FOR THE PURPOSE OF PREPARING AN IMPARTIAL ANALYSIS OF SAID MEASURE

WHEREAS, the Modesto City Council had directed the City Clerk to submit to the voters at the next regular municipal election to be held on November 7, 2017, a ballot measure requesting the enactment of an ordinance allowing the City Council to implement a cannabis business tax of up to 10% on gross receipts of cannabis businesses entitled "Cannabis Business Tax."

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Modesto that the City Clerk of the City of Modesto is hereby directed pursuant to California Elections Code Section 9280 to transmit a copy of said measure to the City Attorney, who is hereby directed to prepare an impartial analysis of the measure showing the effect of the measure on existing law and the operation of the measure.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-252

RESOLUTION AUTHORIZING THE MAYOR, OR HIS DESIGNATED MEMBER OF THE CITY COUNCIL, TO FILE WRITTEN ARGUMENTS IN FAVOR OF OR IN OPPOSITION TO THE BALLOT MEASURE ENTITLED "CANNABIS BUSINESS TAX"

WHEREAS, the Modesto City Council had directed the City Clerk to submit to the voters at the next regular municipal election to be held on November 7, 2017, a ballot measure requesting the approval of an ordinance allowing the City to implement an excise tax of up to 10% on gross receipts of cannabis businesses within the City, which is entitled "Cannabis Business Tax."

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Modesto that the City Clerk of the City of Modesto is hereby directed pursuant to California Elections Code Section 9282 and 9827, [the Mayor or his designated City Council Member] is hereby authorized to prepare and file written arguments in favor of the proposed measure, not to exceed 300 words each, on behalf of the City Council. At the Mayor's discretion, the argument may be signed by up to five representatives of bona fide associations or individual voters who are eligible to vote. In the event that an argument is filed against the measure, [the Mayor or his designated City Council Member] is also authorized to prepare and file a rebuttal argument on behalf of the City Council, which may be signed up to five representatives of bona fide associations or individual voters who are eligible to vote.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING THE MAYOR'S FINAL BUDGET MODIFICATIONS, BUDGET PRINCIPLES, AND FINANCIAL POLICIES AS OUTLINED IN THE MAYOR'S FINAL BUDGET MODIFICATION MESSAGE FOR FISCAL YEAR 2017-2018

WHEREAS, as part of the City of Modesto's Final Proposed Budget for FY 2017-2018, the Mayor included his Final Budget Modifications and Budget Principles for the Council's consideration, and

WHEREAS, each year the City Council's Effective Government Committee makes recommendations regarding the upcoming Fiscal Year Operating Budget and Capital Improvement Program, and

WHEREAS, in the development of the FY 2017-2018 Operating Budget, the Effective Government Committee reviewed and recommended for City Council consideration the **attached** Proposed Budget, Budget Principles, and Financial Policies,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Final Proposed Budget inclusive of the Mayor's Final Budget Modifications, the Budget Principles, and Financial Policies as shown in **Attachments 5 and 6** and **Exhibit 5**, which are incorporated by reference herein.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of June, 2017, by Councilmember Ah You, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

Mayor's Final Budget Modifications

May 31, 2017

As Mayor, I have the duty to prepare and deliver to the City Council the Mayor's Final Budget Modifications for the draft budget under Modesto City Charter Section 1303.

Under our City Charter, the Mayor has specific duties related to the budget such as this message.

This year, Acting City Manager Joe Lopez and I undertook a more collaborative approach to creating the new draft budget. Like past years, City departments made their budget requests for the upcoming fiscal year. I requested that each City department present their proposed budgets along with three levels of innovative cost saving reductions. Each department was to plan for 5%, 10%, and 15% reductions. I made it clear to each City Department that the costs savings were not an effort to reduce City staffing levels, but rather an attempt to eliminate waste and increase efficiencies.

This planning for significant reductions was important due to the severe effect on the City budget we will start seeing next year with much larger contributions from the City to the State of California's pension system that our City retirees and employees are a part of.

I would like to thank the City staff for their efforts. Each department's proposal was reviewed by the Acting City Manager and me. Tough choices were made and I thank the Acting City Manager for his thoroughness in reviewing the many departmental budget proposals as well as their cost savings proposals.

The Acting City Manager and I agreed on the adjustments included in the draft budget. While there was some "one time" money included in this year's budget we were able to produce a balanced budget without reducing current staffing levels.

This year, most City Councilmembers were able to attend, and participate in, the budget hearings. Consequently, the draft budget being presented to the City Council can largely be called a collaborative effort.

Because we had an improved budget process, I feel no need to provide modifications to this year's proposed budget before it is presented to the City Council.

While our City budget process improved from last year, our budget reality is entering rough waters. This year's budget process required us to close a $17,000,000.00 deficit between expected revenues and budget requests – without seeing the full effect of the increased monies we will have to send to Sacramento to pay for pensions. Difficult budget years are on the horizon. The City will have very little discretionary money in upcoming years.

One disappointment I would like to express is the slow implementation of the recommendations made by the 100-Day Committee and embraced by the City Council. We need to speed up the assessment and implementation of these measures. Business as usual in City government is no longer enough.

As Mayor, my continuing goal is to re-prioritize our City budget in order to supplement public safety resources without tax increases. Tax increases should be a last resort.

I am always open to better ideas on how to achieve our goals and will always be happy to receive any input from you: the City Councilmembers entrusted by the citizens and taxpayers with these important decisions. Of course, I welcome additional input from City staff, members of the 100-Day Committee, and any other concerned citizen, taxpayer, or group in our community.

While it will be difficult, I remain confident that by working together, the City Council, our Acting City Manager, all City employees, the 100-Day Committee and all concerned citizens and taxpayers we can achieve long-term financial sustainability of our City for our taxpayers and for City operations.

With respect,

Ted Brandvold, Mayor
City of Modesto

Recommended Budget Principles

1. Annually Adopt a Structurally Balanced Budget
A structurally balance budget means on-going revenues and on-going expenditures are in balance with on-going revenues meeting or exceeding expenditures during the same time period. If a structural imbalance occurs, a plan must be developed and implemented to bring the budget back into balance.

2. Use of One-Time Resources
Once brought into balance, one-time revenues (excess reserves about reasonable risk calculations, revenue spikes, prior year budget savings, sale of property, etc) shall not be used for current or new on-going operating costs. Examples of appropriate uses of one-time revenues include early retirement of debt, capital expenditures without significant operating or maintenance costs, and other non-reoccurring expenditures.

3. Budget Revisions
New programs, services, or staffing requests are considered in light of the Council's priorities and shall include a spending offset at the time of the request so that the request has a net-zero impact on the budget.

4. Reserves
All City funds must maintain an adequate reserve level and/or ending fund balance as determined annually as appropriate for each fund. For the General Fund, the contingency reserve amount, which is a flat $7 million, shall be maintained. Any use of the General Fund contingency reserve will require a majority vote of the Council.

5. Debt Issuance
Long-term General Fund debt will not be incurred to support on-going operating costs (other than debt service) unless such issuance achieves net operating cost savings and such savings can be independently verified. All General Fund debt issuances shall identify a method of repayment or have a dedicated revenue source.

6. Employee Compensation
Recognizing that employees are the City's major resource, negotiations for employee compensation shall focus on the total compensation costs (e.g. increases in salary, steps, and benefit costs) while considering the City's fiscal condition, revenue growth, and changes in the cost of living.

7. Capital Improvement Projects
Capital Improvement Projects shall not proceed for projects with annual operating and maintenance costs in the General Fund without City Council certification that funding will be available in the applicable year of the cost impact. Certification shall demonstrate that the entire cost of the project, including operating and maintenance costs, will not require a decrease in the City's core services.

8. Fees and Charges
The development of fees and fee increases shall be utilized where appropriate to assure fee program costs are fully recovered by fee revenue.

9. Grants
Staff will seek out, apply for, and effectively administer grants that address the City's priorities, policy objectives, and provide an overall positive benefit to the City. Before a grant is pursued, staff shall provide a detailed fiscal analysis addressing both the immediate and long-term costs and benefits of the grant. With the exception of pilot projects, one-time grant revenues shall not be used to begin or support the costs of on-going programs.

10. General Plan
The General Plan is the primary long-term fiscal planning tool. Recommendations to create new development capacity beyond the existing General Plan shall be analyzed to ensure that capital improvements and operating/maintenance costs are within the City's financial capabilities.

11. Performance Measurement
All requests for funding shall include performance measure data so funding requests can be reviewed and approved in light of anticipated service level outcomes.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-254

Print

RESOLUTION AMENDING THE POSITION ALLOCATION FOR FISCAL YEAR 2017-18 AS ADOPTED IN THE OPERATING BUDGET.

WHEREAS, a Position Allocation for the City of Modesto was adopted by Modesto City Council on June 28, 2016, as part of the Annual Budget of the City of Modesto for Fiscal Year 2016-2017, and

WHEREAS, classification studies are conducted to ensure that a classification system is equitable and consistent within an organization and that positions are correctly classified, and

WHEREAS, per Personnel Administrative Order 2.2-87-12, a classification study may be conducted in response to a reclassification request, to develop/revise a classification specification, or to assist in a reorganization, and

WHEREAS, classification studies were conducted by Human Resources to determine appropriate classification, and

WHEREAS, position changes will be effective the first full pay period following Council adoption, (Pay Period beginning June 27, 2017), and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the Position Allocation and the Fiscal Year 2017-18 Operating Budget for various departments as follows:

1. Allocate one (1) Executive Assistant (Unrepresented) in the Auditor Division of the City Auditor Office.
2. Freeze one (1) Deputy City Manager in the Administration Division of the City Manager Office.

3. Remove the Limited Term (LT 06/30/16) designation from one (1) Events Coordinator in the Convention & Visitor's Bureau Division of the Community & Economic Development Department.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-257

RESOLUTION AMENDING THE CLASS RANGE TABLE FOR PUBLIC SAFETY NON-SWORN CLASSES

WHEREAS, the City of Modesto Class Range Table Public Safety Non-Sworn Classes Effective March 7, 2017 was adopted by Modesto City Council Resolution No. 2016-374, and

WHEREAS, the City Council desires to amend **Exhibit "C"** of Resolution No. 2016-374, which approved the Class Range Table for Public Safety Non-Sworn Classes Effective March 7, 2017, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

1. AMENDMENT TO RESOLUTION NO. 2016-374. **Exhibit "C"** entitled "City of Modesto Class Range Table Public Safety Non-Sworn Classes Effective March 7, 2017", of Resolution No. 2016-374, is hereby amended and replaced with the new **"Exhibit C" attached** hereto and made a part hereof as though set forth in full herein and summarized as follows:

   A. **Exhibit "C"** entitled "City of Modesto Class Range Table Public Safety Non-Sworn Classes Effective June 27, 2017", is amended to:

      i. Add Police Cadet II to salary range 1107

2. EFFECTIVE DATE. This resolution shall become effective on and after June 27, 2017.

BE IT FUTHER RESOLVED by the Council of the City of Modesto that the City Manager or designee is hereby authorized to execute the agreement.

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 27th day of June, 2017, by Councilmember Ah You, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-258

RESOLUTION AMENDING THE CLASSIFICATION PLAN FOR THE CITY OF MODESTO TO CREATE THE CLASSIFICATION OF ELECTRICIAN CREWLEADER AND SURVEY PARTY CHIEF; AMEND THE TITLE OF BUSINESS CENTER MANAGER TO BUSINESS MANAGER; AND TO AMEND THE TITLE OF POLICE CADET TO POLICE CADET I/II TO CREATE A "FLEX" CLASSIFICATION

WHEREAS, a Position Classification Plan for the City of Modesto was adopted by Modesto City Council Resolution No. 2008-681 pursuant to Rule 2.2 of the Personnel Rules and Regulations of the City of Modesto, and

WHEREAS, the City Manager has recommended to the Council amendments to the Position Classification Plan, and

WHEREAS, Rule 2.2 of the City of Modesto Personnel Rules provides that revisions to the Classification Plan shall be effective upon adoption of resolution of the City Council.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

1. CLASSIFICATION PLAN AMENDED. The Position Classification Plan of the City of Modesto is hereby amended to create the classifications of Electrician Crewleader to salary range 134 and Survey Party Chief to salary range 134; to amend the title of Business Center Manager to Business Manager; and to amend the title of Police Cadet to Police Cadet I/II to create a "flex" classification with Police Cadet II to salary range 1107.

2. EFFECTIVE DATE. This Resolution shall become effective immediately upon its adoption.

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 27th day of June, 2017, by Councilmember Ah You, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-259

RESOLUTION APPROVING THE CLOSURE OF THE 30 DAY PUBLIC COMMENT PERIOD AND CONDUCT A PUBLIC HEARING AND APPROVING THE CITY OF MODESTO PROGRAM YEAR 2017-2018 ANNUAL ACTION PLAN FOR USE OF COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAMS, EMERGENCY SOLUTIONS GRANT, AND HOME INVESTMENT PARTNERSHIP PROGRAM FUNDING RECEIVED FROM THE U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO NEGOTIATE AND EXECUTE ANY RELATED PROGRAM AGREEMENTS, CONTRACTS OR OTHER DOCUMENTATION REQUIRED FOR IMPLEMENTATION OF THE PROGRAM YEAR 2017-2018 ANNUAL ACTION PLAN, AUTHORIZATION TO SUBMIT APPLICABLE DOCUMENTATION AND PROVIDE TECHNICAL ALTERATIONS, AS REQUIRED BY HUD, INCORPORATE COMMENTS RECEIVED PRIOR TO THE CLOSE OF THE PUBLIC COMMENT PERIOD, AND TO MAKE THE NECESSARY STEPS TO IMPLEMENT THE PROVISION OF THIS RESOLUTION

WHEREAS, as a U.S. Department of Housing and Urban Development (HUD) entitlement community, the City of Modesto is required to develop an Annual Action Plan that describes proposed activities funded with Community Development Block Grant (CDBG), HOME Investment Partnerships (HOME), and Emergency Solutions Grant (ESG) funds, and

WHEREAS, the City may allocate up to fifteen percent (15%) of available CDBG funds to CDBG Public Services grants that are awarded to eligible organizations that serve low- and moderate-income residents, and

WHEREAS, the City awards ESG grants to eligible organizations that provide assistance to individuals and families experiencing homelessness and those at risk of experiencing homelessness, and

WHEREAS, HOME funds, in partnership with local nonprofit groups, fund a wide range of activities that build, buy, and/or rehabilitate affordable housing for rent or homeownership to low income citizens, and

WHEREAS, the populations served by these organizations further the City's priorities as described in its Fiscal Year 2015-2020 Consolidated Plan, and

WHEREAS, citizen participation is a key component of the Annual Action Plan process, and

WHEREAS, HUD regulations require the City provide ample opportunity and means for the populations served by the grants, as well as the general citizenry, to provide input on the goals and priorities and the specific type of activities to be funded in the City's Program Year 2017-2018 Annual Action Plan, and

WHEREAS, staff held eleven community meetings to assess local needs and priorities related to community services, economic development, community facilities and infrastructure, housing and fair housing, and

WHEREAS, the information obtained from the community meetings was used to prepare the Program Year 2017-2018 Annual Action Plan, and

WHEREAS, the 30-day public review period to review and comment on the draft documents opened on March 28, 2017 and will close the 30-day public comment with a public hearing at the City Council meeting on June 27, 2017, and

WHEREAS, any comments received during the public review period or during the June 27, 2017, City Council meeting will be incorporated into the final Program Year 2017-2018 Annual Action Plan that is submitted to HUD, and

WHEREAS, the estimated amount of funding anticipated for Program Year 2017-2018 is approximately $2.9 million, and

WHEREAS, there is no impact to the General Fund as these funds are received from HUD for activities specified within the Program Year 2017-2018 Annual Action Plan, and

WHEREAS, on February 23, 2017, the City's Citizens Housing and Community Development Committee recommended forwarding the Program Year 2017-2018 Annual Action Plan to the City Council for consideration and approval, and

WHEREAS, all HUD-assisted projects are required to undergo an environmental review to evaluate environmental impacts, and

WHEREAS, the analysis includes both how the project can affect the environment and how the environment can affect the project, site and end users, and

WHEREAS, an environmental review must be performed before any funds, regardless of source, are committed to a project.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the City of Modesto Program Year 2017-2018 U.S. Department of Housing and Urban Development Department (HUD) Annual Action Plan for use of the Community Development Block Grant, HOME Investment Partnerships Program, and Emergency Solutions Grant funds.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Acting City Manager, or his designee, is hereby authorized to submit applicable documentation and provide technical alterations, as required by HUD, negotiate and execute any related program agreements, contracts or other documentation required for

implementation of the Program Year 2017-2018 Annual Action Plan, as described in "Program Year 2017-2018 Annual Action Plan", **attached** hereto as **Exhibit A** and incorporated herein by reference, and to make the necessary steps to implement the provision of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of June, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

Executive Summary

AP-05 Executive Summary - 24 CFR 91.200(c), 91.220(b)

1. Introduction

The 2017-2018 Annual Action Plan is a component of the City of Modesto's 2015-2020 Consolidated Plan. The Consolidated Plan serves as the City of Modesto's strategic plan for leveraging the United States Department of Housing and Urban Development's (HUD) annual entitlement allocations of three key federal grant programs: (1) Community Development Block Grant (CDBG); (2) Emergency Solutions Grant (ESG); and (3) HOME Investment Partnerships Program (HOME). The Consolidated Plan and Annual Action Plans are multi-purpose documents which serve as: 1) planning documents, 2) an application for federal funds under HUD's formula grants programs, 3) an implementation strategy, and 4) a method to allocate funds to specific projects and activities

The City of Modesto's Program Year (PY) 2017-2018 Annual Action Plan represents the third (3rd) year plan of the City of Modesto's 2015-2020 Consolidated Plan. The PY 2017-2018 AAP identifies activities to be undertaken during the program year to address community priority needs. Further, the PY 2017-2018 AAP identifies the expected resources to be available and the activities to be funded along with related activity accomplishments.

2. Summarize the objectives and outcomes identified in the Plan

This could be a restatement of items or a table listed elsewhere in the plan or a reference to another location. It may also contain any essential items from the housing and homeless needs assessment, the housing market analysis or the strategic plan.

The City of Modesto has identified the following areas on which to focus funds:

- Affordable Housing
- Fair Housing
- Ending Chronic Homelessness
- Public Services
- Public Facilities Improvements
- Public Improvements

3. Evaluation of past performance

This is an evaluation of past performance that helped lead the grantee to choose its goals or projects.

The City of Modesto funded a number of activities in the PY 2016-2017 Annual Action Plan in an attempt to address the community needs as identified in the Consolidated Plan. Through these activities, the City of Modesto continued to take an active role in promoting and producing affordable housing, addressing the social and economic needs of low- and moderate-income individuals, and serving the special needs populations within the City of Modesto.

Program Year 2016-2017 was a year of transition for the City of Modesto, specifically within the Community Development Division. During PY 2016-2017, the HUD Division experienced changes in staffing. During the program year, the Division hired a new HUD Programs Supervisor, a Housing Finance Specialist, a Senior Community Development Program Specialist, an Environmental Review Specialist, and a Community Development Program Specialist. The Division is now positioned to support the community in its effort to focus services towards furthering efforts such as affordable housing, fair housing outreach and education, ending Chronic Homelessness, expanding public services, strategic infrastructure and eligible public facility improvements.

The PY 2016-2017 AAP identified housing programs funded through the CDBG and HOME activities to assist in stabilizing neighborhoods by supporting affordable housing rehabilitation and homebuyer assistance. With new staff on board, the division is projecting to assist 36 households during the PY 2017-2018. This will enable the City of Modesto to generate housing programs activities to assist approximately 24 households with housing rehabilitation, and a total of 18with homebuyer assistance.

Under the City of Modesto's 2016-2017 CDBG and ESG Public Service program, the City provided a total of $480,608 to 15 non-profit agencies to deliver essential public services to extremely low to moderate income families and individuals. Collectively, it is projected that these organizations will have served over 10,000 individuals in PY 2016-2017.

The City of Modesto monitors all sub-recipients on a regular basis through written contacts, phone, conversations, electronic information transfers, face-to-face monitoring visits (at least once per quarter), and project file review. Monitoring is conducted to ensure statutory and regulatory requirements are being met and that information submitted to City staff is accurate and complete.

An agreement is executed with every sub-recipient which clearly states all contractual obligations, including but not limited to, the project scope of work, performance measurement standards, reporting requirements, drawdown requirements, and applicable federal rules and regulations. This monitoring process emphasizes on-site field visits, desk audits, technical assistance, and assistance to sub-recipients to ensure a good data collection and reporting system is in place. Performance of all sub-recipient activities are tracked in various categories from appropriate use of administrative funds to verifying that outputs (numbers served) and outcomes (how those served are better off after receiving the service) are being met for all awarded public service related activities and City projects.

4. Summary of Citizen Participation Process and consultation process

Summary from citizen participation section of plan

The City of Modesto has traditionally held a minimum of two neighborhood meetings each year in low-income census tract areas to encourage participation of low- and moderate-income persons in conjunction with the development of its Annual Action Plan and, every five years, for the development of its Consolidated Plan.

For the 2017-2018 Annual Action Plan Cycle, staff revamped the City's Citizen Participation Process approach by targeting a minimum of one low income Census Tract Block Group within each City Council District and holding community meetings within the targeted Census Tract Block Group. This year, a total of 11 community meetings were held. The meetings were held at different times and locations in an effort to accommodate different households.

Spanish-speaking translators were available at all meetings. If a request for another language(s) translator is made at least five working days prior to a public meeting, a translator for the requested language(s) will be provided. All community input meetings were held at public buildings accessible to disabled individuals.

To obtain community input on the development of the 2017-2018 Action Plan, staff attended meetings with local focus groups and forums providing health services, social and fair housing services, including those focusing on services to children, elderly persons, persons with disabilities, persons with HIV/AIDS and their families, the homeless and the chronically homeless persons. Presentations to these groups outlined the eligible uses of these funds, how the funds are currently utilized, and proposed uses.

5. Summary of public comments

This could be a brief narrative summary or reference an attached document from the Citizen Participation section of the Con Plan.

See AP-12-Participation for a summary of comments received throughout the public comment period.

6. Summary of comments or views not accepted and the reasons for not accepting them

The City of Modesto accepted and considered all comments.

7. Summary

See AP-12-Participation for a summary of comments received throughout the public comment period

PR-05 Lead & Responsible Agencies – 91.200(b)

1. Agency/entity responsible for preparing/administering the Consolidated Plan

Describe the agency/entity responsible for preparing the Consolidated Plan and those responsible for administration of each grant program and funding source.

Agency Role	Name	Department/Agency
CDBG Administrator	MODESTO	Community & Economic Development Department
HOME Administrator	MODESTO	Community & Economic Development Department
ESG Administrator	MODESTO	Community & Economic Development Department

Table 1 – Responsible Agencies

Narrative

The City of Modesto is the lead agency responsible for preparation of the 2015-2020 Consolidated Plan and related Annual Action Plans and for administration of each grant program and its associated funding source(s). Primary oversight of the City of Modesto's HUD entitlement grant programs comes from the Citizens' Housing and Community Development Committee (CH&CDC). The CH&CDC is an 11-member committee appointed by the Modesto City Council and is comprised of representatives from the Modesto City Council, Planning Commission, Housing Rehabilitation Loan Committee, Human Relations Commission and several citizens-at-large. Generally, the citizens-at-large represent low-income and racial minority groups. The CH&CDC makes funding recommendations to the City of Modesto Council regarding CDBG, ESG and HOME grant programs as well as other one-time HUD-funded programs.

To avoid a perceived conflict of interest, any individual who is a member of a board of directors or is employed by an agency that applies for or receives CDBG, ESG, HOME, or other HUD funding, is ineligible to vote on funding decisions involving their respective agencies.

The CH&CDC typically meets once a month. These meetings are publicly noticed, open to the public and are typically held at Tenth Street Place, 1010 Tenth Street, Modesto, California. Public comments are both encouraged and welcomed. At least one (1) meeting is scheduled during the public comment period for the development of, or substantial amendment to, the City of Modesto's Annual Action Plan, Consolidated Plan, Annual Action Plan and Analysis of Impediments as well as the City of Modesto's Consolidated Annual Performance and Evaluation Report (CAPER).

Consolidated Plan Public Contact Information

The following are several ways in which an interested party can contact the City of Modesto staff with comments regarding the City of Modesto's PY 2017-18 Annual Action Plan:

- Telephone: (209) 577-5211
- Hearing Impaired: Dial 711, and then ask for 209-577-5211
- Email: housing@modestogov.com
- In person: City of Modesto, Community & Economic Development Department 1010 Tenth Street, 3rd Floor, Modesto, California, 95354
- Mail: City of Modesto, Community & Economic Development Department Community Development Division, P.O. Box 642, Modesto, California 95353

AP-10 Consultation – 91.100, 91.200(b), 91.215(l)

1. Introduction

Two objectives of the City of Modesto's 2015-2020 Consolidated Plan are to 1) promote citizen participation in the development of local priority needs and objectives and 2) encourage consultation with public and private agencies to identify shared needs and solutions to persistent community problems.

The City of Modesto invites the community to provide input on the ways in which grant funds received from HUD are spent. The City of Modesto Citizen's Participation Plan outlines the ways the City of Modesto communicates with residents regarding the use and expenditure of HUD funds.

The City of Modesto continues to review and improve its delivery system by streamlining internal processes, enhancing coordination among departments and fostering collaborative working relationships with its sub-recipients and Community Housing Development Organizations (CHDOs). A few examples include:

- Memorandums of Understanding (MOUs). Staff and participating departments enter into MOUs to clearly delineate program goals and reporting requirements for each of the participating departments.
- Weekly Meetings. The Housing and Urban Development Supervisor and key staff members meet weekly to discuss the status of existing and future HUD-funded projects, develop work plans and reporting requirements and plan for upcoming meetings.
- Intra/Interdepartmental Coordination. The Housing and Urban Development Supervisor works with the Planning Division to assist with the update of the City

of Modesto's Housing Element, specifically focusing on the sections dealing with multi-family housing, affordable housing and HUD-funded housing programs and their effectiveness. Also, staff and Finance Department staff meets monthly to review various financial and reporting matters related to HUD-funded programs. Additionally, staff coordinates with various departments to ensure that capital improvement projects are on schedule and that invoices are paid in a timely manner.

- Community/Stanislaus Community System of Care (StanCSOC). On a regular basis, staff collaborates with the following organizations: the StanCSOC; the Airport Neighborhood Collaborative, the West Modesto/King-Kennedy Neighborhood Collaborative; Emergency Food and Shelter Board; United Way Impact Councils on Building Strong Neighborhoods and Safety Net.
- Sub-recipient and CHDO Outreach staff is proactively contacting its sub-recipients and CHDOs to keep them apprised of upcoming training opportunities, changes in HUD requirements, etc. Staff is also looking to schedule regular meetings with its CHDOs to discuss the status of existing and future projects.

Provide a concise summary of the jurisdiction's activities to enhance coordination between public and assisted housing providers and private and governmental health, mental health and service agencies (91.215(l))

The PY 2017-2018 Annual Action Plan was prepared with oversight and direction from the CH&CDC. The City of Modesto conducted the following consultation efforts during the development of the PY 2017-2018 AAP:

- Consulted with key stakeholders, including representatives of the Housing Authority of Stanislaus County; non-profit organizations that provide housing services, facilities, and/or services to low- and moderate-income residents, the Focus on Prevention Stewardship Council, and neighborhood organizations.
- Consulted with the general public through workshops and public hearings.
- Attended and participated in monthly meetings held by the StanCSOC. Attended and participated in ongoing meetings related to the Focus on Prevention Initiative to coordinate services throughout the County.

Describe coordination with the Continuum of Care and efforts to address the needs of homeless persons (particularly chronically homeless individuals and families, families with children, veterans, and unaccompanied youth) and persons at risk of homelessness.

A stakeholders meeting was held on December 15, 2016, at a regularly scheduled StanCSOC. The meeting was held at the Sutter Health Memorial Medical Center at

McHenry Village 1700 McHenry Village, Suite 60B, Modesto, CA). The PY 2017-18 Annual Action Plan and priority needs were the meeting agenda. The StanCSOC meeting was attended by 58 people from the following agencies and organizations:

Housing Authority of the County of Stanislaus (HACS);

Haven's Women's Center;

Behavioral Health and Recovery Services (BHRS);

St. Vincent DePaul;

Stanislaus County;

Community Impact Central Valley (CICV);

West Modesto King Kennedy Neighborhood Collaborative;

Describe consultation with the Continuum(s) of Care that serves the jurisdiction's area in determining how to allocate ESG funds, develop performance standards for and evaluate outcomes of projects and activities assisted by ESG funds, and develop funding, policies and procedures for the operation and administration of HMIS

Consultation with the Stanislaus Community System of Care (StanCSOC) assists the City of Modesto in allocating and coordinating the prioritization and use of ESG funds with local needs. Through this process the City of Modesto is able to design programs and activities that are consistent with applicable federal and local standards and to distribute its funds efficiently.

The StanCSOC contributes by setting up the criteria for homeless programs outcomes during its contract period. The City of Modesto's consultations with the StanCSOC allows an open discussion on how to establish performance measures that benefit the City of Modesto. This allows the City of Modesto's CH&CDC and its City Council to be informed of the standards that ESG funds demand and best practice outcomes. These goals are then incorporated when negotiating contracts with sub-recipients. The Homeless Management Information System (HMIS) is essential and mandated by HUD for the coordination of services and the development of public policy. Analysis of information gathered through the HMIS is critical to the preparation of periodic reporting on homelessness and identifies the needs for services in the City of Modesto.

2. Describe Agencies, groups, organizations and others who participated in the process and describe the jurisdiction's consultations with housing, social service agencies and other entities

Table 1 – Agencies, groups, organizations who participated

1	**Agency/Group/Organization**	Housing Authority of the County of Stanislaus

AP-12 Participation – 91.105, 91.200(c)

1. Summary of citizen participation process/Efforts made to broaden citizen participation

Summarize citizen participation process and how it impacted goal-setting

The public comment period was held from March 28, 2017 through June 27, 2017. Prior to the public comment period, a number of meetings were also held to inform community groups of the upcoming draft Annual Action Plan (AAP) and the programs offered by the various programs covered under the AAP. Comments received at meetings held prior and during the public comment period were considered for goal setting.

The following is a list of meetings that were held prior and during the public comment period. A summary any comments received during each meeting is included.

Draft

Citizen Participation Outreach						
	Mode of Outreach	**Target of Outreach**	**Summary of response/ attendance**	**Summary of comments received**	**Summary of comments not accepted and reasons**	**URL**
1	Public Meeting	Minorities Non-English Speaking - Specify other language: Spanish Persons with disabilities Low Income Census Block Groups	Over 30 individuals in attendance.	February 17, 2017: Robertson Road Robertson Road Neighborhood Meeting - District 2: Census Tract 16.04 - Block Groups 1, 2, and 3:Over thirty parents in attendance requested public services assistance for ESL, Math, and Computer tutoring classes, so that they could assist their children with homework; and the parent could be positioned to attain a new job with sustainable income. An evening class between the hours of 5-7 p.m. utilizing a drop-in format to allow them to attend and get credit towards a class certificate, while still being able to coordinate work and childcare. Maybe have the class provided at HACS community center, so children could attend the PAL program on-site. Staff will reach out to respective service providers to discuss their willingness to apply for public service funds for this type of project.	Not Applicable. All comments were considered.	N/A

2	Public Meeting	Citizens Housing & Community Development Committee	This is a public meeting open to Modesto Citizens. No members of the public were in attendance.	February 23, 2017: Citizens Housing & Community Development Committee. Citywide: A public meeting was held to present CDBG and ESG public service grant recommendations to the Citizens Housing & Community Development Committee as well as to present Draft 2017-2018 Annual Action Plan recommendations. No public comments were received.	Not Applicable. All comments were considered.	.
3	Public Meeting	Citizens Housing & Community Development Committee	This is a public meeting open to Modesto Citizens. No members of the public were in attendance.	March 9, 2017: Citizens Housing & Community Development Committee. District 2/Census Tract 18/Block Group 2: A public meeting was held to present the Annual Action Plan Citizen Participation Calendar of Events to the Citizens Housing & Community Development Committee. No public comments were received.	Not Applicable. All comments were considered.	

4	Public Meeting	Stanislaus Continuum of Care		March 9, 2017: StanCSOC: Staff discussed the development of the FY 2017-2018 Annual Action Plan at the March 9, 2017 Stanislaus Continuum of Care meeting. Comments were received seeking clarification as to how the City addresses public input and engagement. Staff informed the audience that the City now conducts additional outreach and engagement via citywide public meetings along with community specific needs based public service opportunities which will impact the scope and type of public services the City will provide.	Not Applicable. All comments were considered.	
5	Public Meeting	Minorities Airport Neighborhood Collaborative		March 13, 2017: Airport Neighborhood Collaborative. District 4/Census Tract 21.00/Block Group 1: Staff discussed the development of the FY 2017-2018 Annual Action Plan at the March 13, 2017 Airport Neighborhood Collaborative Meeting. Staff provided information about public service opportunities for the 2017-2018 program year as well as updates related to the Airport Neighborhood Community Center Kitchen Project. Staff further informed the collaborative the City will seek comments from neighborhood residents regarding the specific public service need at the April 14, 2017 Community Chats meeting. Collaborative leaders were encouraged to hear the possibility for additional public service programs in the Airport Neighborhood.	Not applicable. All comments were considered.	

6	Public Meeting	Low Income Census Block Group		March 14, 2017: Steering Community Meeting Stratford at Beyer Park. District 5/Census Tract 4.04 Block Group 3Meeting attendees requested City staff meet with Modesto Neighborhood Inc. as they facilitate this community's group effort. Modesto Neighborhood Inc. is a 501(c)(3), and this group is interested in them applying for a public services grant(s) on their behalf for LMC, public services activities (Activity considerations - Neighborhood Watch funding, low-income youth scholarship program funding).This community group further requested infrastructure activities to include ADA curb cut and sidewalk improvements in the area bounded by Celeste Drive on the north, Oakdale Drive on the east, E. Briggsmore Ave on the south, and Rose Ave to the west.	Not applicable. All comments were considered.	
7	Public Meeting	Low Income Census Block Group		March 15, 2017: Orchard Park Neighborhood Alliance Meeting. District 6/Census Tract 14/Block Group 2: Meeting attendees requested City staff meet with Modesto Neighborhood Inc. as they group facilitate this community's group efforts. Modesto Neighborhood Inc. is a 501(c)(3), and this group is interested in them applying for a public services grant(s) on their behalf for LMC, public services activities (Activity considerations - Neighborhood Watch funding, low-income youth scholarship program funding).	Not applicable. All comments were considered.	

8	Public Meeting	Low Income Census Block Group		March 27, 2017: Delwood Neighborhood Alliance Meeting. District 3/Census Tract 14/Block Group 2: Meeting attendees shared challenges related to homelessness (such as homeless in neighboring parks). Staff informed the group of current efforts City and County-wide to address homelessness concerns. Meeting attendees shared some interest in ADA related infrastructure improvements within some areas of the neighborhood City staff is assess the location of the improvements to determine if they will be within eligible block groups. If so, they will be included as part of the upcoming ADA Ramps and Curb Cuts Projects planned for Fiscal Year 2017-2018 and/or future years.	Not applicable. All comments were considered.	
9	Public Meeting	Minorities Non-English Speaking - Specify other language: Spanish Low Income Census Block Group		April 14, 2017: Airport Neighborhood Community Chats Meeting. District 2/Census Tract 21.00; Block Group 1: City of Modesto staff attended the Airport Neighborhood Community Chats meeting on April 14, 2017 to discuss the FY 2017-2018 Annual Action Plan Process. Community residents voiced the need public service programs that provide youth the opportunity to participate in recreation/sports activities. Staff will reach out to local service providers that provide these services for possible partnership opportunities to provide residents of this community the requested services.	Not applicable. All comments were considered.	

10	Public Meeting	Minorities Non-English Speaking - Specify other language: Spanish Low Income Census Block Group		April 28, 2017: Shackelford Elementary School Meeting. District 2/Census Tract 23.01/Block Group 4: Over twenty parents in attendance requested public services assistance related to on-site childcare services while they attended ESL, Math, and Computer tutoring classes to assist their children with homework and be positioned to attain a new job with sustainable income. Expected Resources

AP-15 Expected Resources – 91.220(c) (1, 2)

Introduction

- Funds covered under the Consolidated Plan: CDBG, HOME and ESG;
- Funds provided under other HUD programs, the Department of Commerce, the Federal Emergency Management Agency, and other federal agencies;
- Funds provided under various programs of the California Department of Housing and Community Development and the California Housing Finance Agency;
- State and federal tax credits and mortgage credit certificates;
- Tax exempt bond proceeds;
- The City of Modesto's General Fund; and
- Private industry sources such as the Federal Home Loan Bank Board's Affordable Housing Program.

During Program Year 2017-2018, the City of Modesto expects to receive approximately $1,871,328 of Community Development Block Grant (CDBG) program funds, $721,358 of HOME Investment Partnerships (HOME) Program funds, and $166,397 of Emergency Solutions Grant (ESG) funds. Figures in the table below will be provided upon official HUD appropriation announcements.

Draft

Explain how federal funds will leverage those additional resources (private, state and local funds), including a description of how matching requirements will be satisfied

Leverage, in the context of the City of Modesto's three HUD programs, means bringing local, state, and federal financial resources to maximize the impact of the City's HUD funded programs. Leverage is also a way to increase project efficiencies and benefit from economies of scale that often come with combining sources of funding for similar scopes. HUD encourages the City of Modesto to demonstrate that efforts are being made to strategically leverage additional funds in order to achieve greater results. HUD funds will be considered leveraged if financial commitments toward the costs of a project from a source, other than the originating HUD source, are documented.

In Program Year 2016-2017, the City of Modesto began tracking leverage amounts from all CDBG and ESG public service sub-recipients via the ZoomGrants software reporting/invoicing system. Public Service sub-recipients are required to submit leverage amounts with supporting documentation as part of the City of Modesto's quarterly monitoring reviews. The City of Modesto uses this data for its HUD reports in IDIS.

HOME – 25% Match Requirement

The 25% HOME match requirements are met through the contributions or layers of funds that the developers provide for each HOME -assisted project. The match includes private financing, waiver or deferral of development fees approved by the Modesto City Council, Tax Credit Allocations, and any other eligible source.

ESG – 100% Match Requirement

For the ESG program, the City of Modesto requires that ESG sub-recipients provide a dollar-for-dollar match for ESG funds received. Typically, the City of Modesto is able to generate significantly more match than the amount required for ESG activities primarily through the cash and non-cash contributions provided by ESG sub-recipients as a result of the generosity of their donors, supporters, and other funders. As part of the ESG monitoring process, ESG sub-recipients submit reimbursement requests; invoices and accompanying receipts are reviewed for reimbursement eligibility. Sub-recipients are required to submit dollar-for-dollar match verification with each reimbursement request and City of Modesto reimbursement is conducted after match verification documentation is satisfied.

If appropriate, describe publically owned land or property located within the jurisdiction that may be used to address the needs identified in the plan

The City of Modesto has one (1) single family unit located in the Airport Neighborhood that was recently foreclosed and has been vandalized. The intent is to transfer the unit to a non-profit organization that could, in turn, rent this unit to a low income household or rehabilitate the unit and sell it to a low income household. Additionally, the City of Modesto, as the successor housing entity to the former Redevelopment Agency of the City of Modesto, owns a parcel that will be utilized to develop 74 affordable housing units for low and very low income households.

Discussion

No additional discussion.

Table 3 – Goals Summary

Draft

Goal Description

1	**Goal Name**	Rental Housing Construction
	Goal Description	Construction of 4 rental housing units (STANCO, CICV, GVHDC).
2	**Goal Name**	Homebuyers Assistance
	Goal Description	Provide direct financial assistance 10 to 18 households through the Homebuyer Assistance Program.
3	**Goal Name**	Housing Preservation
	Goal Description	Provide financial assistance to local affordable housing developers (STANCO, CICV, GVHDC) to preserve rental housing units via rehabilitation of such units.
4	**Goal Name**	Housing Rehabilitation Program
	Goal Description	Provide financial assistance to 24 owner occupied households for housing rehabilitation assistance for the purpose of preserving existing affordable housing.
5	**Goal Name**	Fair Housing Services and Education
	Goal Description	Contract with a fair housing service provider to provide fair housing services to City of Modesto residents. Number of Fair Housing Cases investigated: 5
6	**Goal Name**	Emergency Shelter Beds
	Goal Description	Provide ESG funds to non-profit homeless service providers: Assist 700 unduplicated individuals with emergency shelter.
7	**Goal Name**	Supportive Services - Homeless
	Goal Description	Homeless Prevention Services: Provide ESG funds to non-profit homeless service providers. Assist 10 households with homeless prevention services (CHSS/Family Promise).
8	**Goal Name**	Supportive Housing Services
	Goal Description	Rapid Rehousing Services: Provide ESG funds to non-profit service providers to provide rapid rehousing services (CHSS/Family Promise).

9	**Goal Name**	HMIS Implementation
	Goal Description	Continue enforcing HMIS program implementation by all ESG sub-recipients. 10% of subrecipient grant funds will be budgeted for HMIS data entry/implementation.
10	**Goal Name**	Services - Anti-poverty
	Goal Description	Section 3 jobs created. Minimum of 4 jobs created via CDBG/ESG public services and/or Economic Development programs (i.e. Fresno CDFI).
11	**Goal Name**	Independent Living Services
	Goal Description	Provide independent living services to people with disabilities: 10 ADA compliant ramps or lifts.
12	**Goal Name**	Public Improvements - Accessibility
	Goal Description	Conduct public improvements to enhance ADA accessibility: 5 parks with ADA accessible paths to park/playground areas.
13	**Goal Name**	Street Paving
	Goal Description	Public Facilities/Infrastructure Improvements: Conduct infrastructure improvement projects within HUD designated low income block groups.

Table 7 – Goal Descriptions

Estimate the number of extremely low-income, low-income, and moderate-income families to whom the jurisdiction will provide affordable housing as defined by HOME 91.215(b):

All assistance will be provided to households at or below 80% of the AMI.

AP-35 Projects – 91.220(d)

Introduction

The activities to be undertaken during Program Year 2017-2018 are summarized below.

#	Project Name
1	FY 2017-2018 CDBG PLANNING & ADMINISTRATION
2	FY 2017-2018 ESG PLANNING & ADMINISTRATION
3	FY 2017-208 HOME PROGRAM PLANNING & ADMINISTRATION
4	AFFORDABLE HOUSING - RENTAL HOUSING ACQUISITION/CONSTRUCTION/REHABILITATION
5	AFFORDABLE HOUSING - OWNER OCCUPIED HOUSING REHABILITATION
6	AFFORDABLE HOUSING - HOMEBUYER ASSISTANCE
7	PUBLIC FACILITIES/INFRASTRUCTURE IMPROVEMENTS
8	PS-17 COURT APPOINTED SPECIAL ADVOCATES - CASA
9	PS-17 CENTER FOR HUMAN SERVICES - PATHWAYS
10	PS-17 CHILDREN'S CRISIS CENTER - SAWYER HOUSE
11	PS-17 FAMILY PROMISE - RENTER RESTORATION & PREVENTION SVCS
12	PS-17 HAVEN WOMEN'S CENTER - DOMESTIC VIOLENCE SHELTER
13	PS-17 PARENT RESOURCE CENTER - MOMS PARENTS PLUS
14	PS-17 UNITED SAMARITANS FOUNDATION - DAILY BREAD LUNCH PROGRAM
15	PS-17 COMMUNITY BASED PUBLIC SERVICES
16	FAIR HOUSING PROGRAM - PROJECT SENTINEL
17	BOYS & GIRLS CLUB WEST MODESTO - ACQUISITION/CONSTRUCTION
18	CROWS LANDING ROAD NEIGHBORHOODS PROJECT
19	ADA RAMPS AND CURB CUTS PROJECTS
20	SECTION 108 LOAN REPAYMENT FY 2017-2018
21	ESG-17 CENTER FOR HUMAN SERVICES - HUTTON HOUSE
22	ESG-17 COMMUNITY HOUSING AND SHELTER SERVICES - HP/RR
23	ESG-17 FAMILY PROMISE - NEW BEGINNINGS, S.T.S.
24	ESG-17 SALVATION ARMY - EMERGENCY SHELTER

	Planned Activities	
3	**Project Name**	FY 2017-208 HOME PROGRAM PLANNING & ADMINISTRATION
	Target Area	
	Goals Supported	
	Needs Addressed	
	Funding	$70,370
	Description	This project will fund administrative services related to the oversight and implementation of the ESG program.
	Target Date	
	Estimate the number and type of families that will benefit from the proposed activities	N/A
	Location Description	N/A
	Planned Activities	N/A
4	**Project Name**	AFFORDABLE HOUSING - RENTAL HOUSING ACQUISITION/CONSTRUCTION/REHABILITATION
	Target Area	
	Goals Supported	Rental Housing Construction
	Needs Addressed	H-1 Increase affordable rental housing
	Funding	$758,384 (Prior Year Funds)

Draft

	Description	Address the "Affordable Housing" priority/focus area of the Con Plan by partnering with local affordable housing developers to creating affordable housing opportunities for low income households.Refer to Goal #1 and #3. Construction of 4 rental housing units (STANCO, CICV, GVHDC), Rehabilitation of 7 rental housing units.
	Target Date	
	Estimate the number and type of families that will benefit from the proposed activities	4
	Location Description	TBD
	Planned Activities	Construct 4 affordable rental housing units.
5	**Project Name**	AFFORDABLE HOUSING - OWNER OCCUPIED HOUSING REHABILITATION
	Target Area	
	Goals Supported	Housing Preservation
	Needs Addressed	H-3 Preserve Existing Affordable Housing
	Funding	$241,513 (FY 17 funds 180,000 & P.I. 61,513)
	Description	Address the "Affordable Housing" priority/focus area of the Con Plan by providing direct financial assistance eligible households through the Housing Rehabilitation Program.Refer to Goal #4
	Target Date	
	Estimate the number and type of families that will benefit from the proposed activities	24
	Location Description	TBD
	Planned Activities	Owner Occupied Housing Rehabilitation
6	**Project Name**	HOME - AFFORDABLE HOUSING - HOMEBUYER ASSISTANCE
	Target Area	

	Goals Supported	Homebuyers Assistance
	Needs Addressed	H-2 Provide Homeownership Opportunities
	Funding	$150,000
	Description	Address the "Affordable Housing" priority/focus area of the Con Plan by providing direct financial assistance eligible first time homebuyers via the City's Homebuyer Assistance Program (HAP).Refer to Goal #2
	Target Date	
	Estimate the number and type of families that will benefit from the proposed activities	18
	Location Description	TBD
	Planned Activities	First time homebuyer gap finance loans.
7	**Project Name**	PUBLIC FACILITIES/INFRASTRUCTURE IMPROVEMENTS
	Target Area	
	Goals Supported	Street Paving
	Needs Addressed	CD-5 Arrest the Physical Decline of LMA's
	Funding	:
	Description	Address the "Public Facilities Improvements" and "Public Improvements" priority/focus areas of the Con Plan by undertaking public infrastructure improvement projects within HUD designated low income block group areas to address deteriorating conditions.
	Target Date	
	Estimate the number and type of families that will benefit from the proposed activities	TBD
	Location Description	Low Income Census Block Groups within City of Modesto. Refer to AP-50 Geographic Distribution.

	Planned Activities	Infrastructure improvement projects within HUD designated low income block groups.
8	**Project Name**	PS-17 COURT APPOINTED SPECIAL ADVOCATES - CASA
	Target Area	
	Goals Supported	Services - Anti-poverty
	Needs Addressed	CD-3 Provide Public Services for Residents
	Funding	$27,300
	Description	CASA will provide coordinated case management to address the needs of dependent youth. CASA is a program that significantly meets the needs of 'at-risk' youth. CASA services directly benefit a vulnerable population (children by definition are not in control of their resources and all of the youth in foster care, regardless of age, often live in very modest to poor conditions). We also meet an urgent community development need. For our community to thrive, CASA provides proactive services for a marginalized population who cannot (yet) provide for themselves, our children. CASA is the ONLY program that provides this type of service. CASA is supported (and recruited) by the Stanislaus County Superior Court to provide advocacy services for children in dependency.
	Target Date	6/30/2018
	Estimate the number and type of families that will benefit from the proposed activities	30
	Location Description	CASA of Stanislaus County office - 801 11th Street, 3rd Floor, Modesto, CA 95354
	Planned Activities	In the short term, CASA will serve (provide direct services to a minimum of) 30 new children over the term of the grant. CASA expects to recruit and train a minimum of 15 new advocates and to provide training, direct services and support up to an additional 20 newly sworn advocates during the term of the grant. In the long term CASA expects to provide stability and extensive services that will help lead to positive and permanent outcomes for the children we serve.
9	**Project Name**	PS-17 CENTER FOR HUMAN SERVICES - PATHWAYS
	Target Area	

Draft

	Goals Supported	Emergency Shelter Beds Supportive Services - Homeless
	Needs Addressed	HM-2 Increase transitional housing
	Funding	$22,620
	Description	Pathways is a 16 bed transitional living program that addresses the need for shelter and support services for homeless youth 18 to 21 years of age. Shelter is provided up to 21 months. Using a youth development and trauma informed approach, Pathways seeks to promote the social and emotional well-being of the young people it serves. Program goals for youth served at Pathways are: obtaining employment, leaving to stable housing and having supportive relationships. Services are designed to initially meet the immediate needs of youth, including ensuring that the program environment is welcoming and safe. Youth are first acquainted with Pathways by attending an orientation so that they may learn about what the program does and doesn't offer them. This allows them to make an informed decision as to whether or not the program will meet their needs. Once a youth decides this is the path they would like to choose, they provide the required program documentation - completed assessment form, identification, etc. Staff is available to assist youth in obtaining the required documentation, if the youth desires. Once a young person enters the program, individual assessments to determine their specific needs and how to best meet them are completed. Assessments are administered by the case manager, substance use counselor and mental health counselor to determine the youth's current level of functioning. The focus is on strengths, which are celebrated and built upon. Skills that are missing or need strengthening are discussed with the young person. An Individual Service Plan for addressing short and long term goals as defined by the youth is created between the youth and the case manager. If the youth determines that skill deficits are a barrier to achieving his or her goals, plans to address those deficits are developed. Case management and counseling (mental health and substance use) meetings are available weekly to discuss steps toward reaching goals and any barriers that may have occurred.Additional support services available to youth include: basic life, interpersonal and job acquisition and maintenance skills training, assistance with obtaining medical care and advancing educational opportunities, service learning opportunities, recreation, referral and after care services.
	Target Date	

	Estimate the number and type of families that will benefit from the proposed activities	35
	Location Description	608 E. Granger Avenue, Unit 25, Modesto, CA 95350 (program office), 8 additional apartments at the same site house the youth.
	Planned Activities	Pathways three outcomes for youth are: permanent housing, employment and healthy relationships. The program is designed to help youth achieve these outcomes, including teaching them to access resources that contribute to financial stability - specifically how to obtain and retain a job but also how to access benefits for which they are eligible - CalFresh (food stamps), MediCal, etc. The indicators below will measure our success.
10	**Project Name**	PS-17 CHILDREN'S CRISIS CENTER - SAWYER HOUSE
	Target Area	
	Goals Supported	Emergency Shelter Beds Supportive Services - Homeless
	Needs Addressed	HM-5 Coordinated case management
	Funding	$20,936

	Description	The Children's Crisis Center will serve low to very low income residents of Modesto and will provide emergency child care, shelter, meals, crisis intervention and specialized prevention services to disadvantaged high-risk infants, toddlers, preschool and school-age children living in Modesto as well as crisis management services to their parents. This project will deliver essential care services to impoverished who are children growing up in Modesto families afflicted by generational abuse, domestic violence, extreme poverty, substance abuse, mental illness or homelessness. These children will be dependants of high-risk families living below 80% of the area median income while enduring social difficulties and familial traumas. They will likely have been impacted by hardships stemming from exposure to family conflict, violence and crisis. This project will operate from a converted home located within a centralized Modesto neighborhood, this home is called Sawyer House. From this location Children's Crisis Center staff specializing in child development, crisis counseling, meal service, crisis management, and human services will nurture and tend to all the physical, emotional, therapeutic, educational and nutritional needs of each child. Child beneficiaries between the ages of birth to 17 years will be welcomed to receive safety, solace and compassionate care. Children will receive food, clean clothing, emotional support, and comfort, medical exams, crisis counseling, and developmental assessments. Their stay will last a few hours or a few days based on their assessed circumstances and family needs. This project will not only shield children from situations that threaten their well-being, but will also offer troubled parents the support and tools necessary to overcome anxieties and barriers related to poverty, substance abuse, homelessness, domestic violence, unemployment and evictions. For this project, it is proposed that Sawyer House will shelter and serve 71 children from 34 families, for a total of 105 project beneficiaries.
	Target Date	
	Estimate the number and type of families that will benefit from the proposed activities	105
	Location Description	City of Modesto

	Planned Activities	Emergency child care, shelter, meals, crisis intervention and specialized prevention services to disadvantaged high-risk infants, toddlers, preschool and school-age children living in Modesto as well as crisis management services to their parents
11	**Project Name**	PS-17 FAMILY PROMISE - RENTER RESTORATION & PREVENTION SVCS
	Target Area	
	Goals Supported	Supportive Services - Homeless
	Needs Addressed	HM-4 Prevent Homelessness for those at Risk
	Funding	$23,370
	Description	As a provider of shelter and rental assistance, Family Promise frequently assists families who are homeless due to an eviction. With the current competitive rental market and increased use of property management companies, these families are finding few, if any, landlords willing to rent to them. Even with Rapid Re-Housing assistance, the difficulty finding units is resulting in longer shelter stays than in the past. In 2016 Family Promise began a program to address this challenge in an effort to reduce the length of time that families are homeless with two-fold approach. We implemented an education program to help participants become better tenants with a goal of restoration to the mainstream rental market. We also began reaching out to landlords to determine what would be required in order for them to accept previously evicted tenants and to encourage participation in Rapid Re-Housing programs. Through longer term case management, we are provided follow up to formerly homeless households as they continue to transition from public assistance to independence. We utilize a progressive case management model, providing only the resources necessary to overcome barriers but not readily available from another source.While we have made progress toward our goals, much work remains to encourage landlord participation in re-housing programs and increased rental opportunities for low income families. With our 2017/2018 application Family Promise seeks funding to provide staff to continue to build our tenant education program and increase landlord outreach and engagement activities. Family Promise will continue to provide the following services to help homeless and low income families overcome barriers to rental housing.
	Target Date	

	Estimate the number and type of families that will benefit from the proposed activities	40
	Location Description	
	Planned Activities	Services will include: • Tenant Education Workshops • Individual Rental Application/Housing Search Coaching & Assistance • Life skills Planning for Housing Maintenance & Stability • Aftercare Case Management & Support • Outreach/Engagement to Property Owners/Managers • Research/Development of Sources for Landlord Incentives Guarantees Expected Accomplishments: • Increased Landlord Engagement & Rental Opportunities for Participants • Leverage of Private Resources for Rental Support/Landlord Guarantees
12	**Project Name**	PS-17 HAVEN WOMEN'S CENTER - DOMESTIC VIOLENCE SHELTER
	Target Area	
	Goals Supported	Emergency Shelter Beds Supportive Housing Services
	Needs Addressed	HM-5 Coordinated case management
	Funding	$27,385
	Description	Haven Women's Center offers emergency shelter to individuals and families fleeing domestic violence, sexual assault, and/or human trafficking. Victims and families fleeing abuse who are currently homeless or at risk of homelessness are eligible for up to six weeks of emergency shelter in a confidential location.
	Target Date	
	Estimate the number and type of families that will benefit from the proposed activities	160

	Location Description	Safe Haven
	Planned Activities	While in the shelter program, participants receive a variety of supportive services to address their safety, connection to resources, as well as health and housing needs. Services include crisis intervention, safety planning, peer counseling, case management, legal services and support groups for both adults and children affected by trauma.
13	**Project Name**	PS-17 PARENT RESOURCE CENTER - MOMS PARENTS PLUS
	Target Area	
	Goals Supported	Services - Anti-poverty
	Needs Addressed	CD-3 Provide Public Services for Residents
	Funding	$22,627
	Description	Mom's Moments Plus is a 12-week parenting education program, through partnership with the Salvation Army, Modesto Gospel Mission, Housing Authority, and Family Promise. The program will follow the Nurturing Parenting program developed by Dr. Stephen J. Bavolek and enhanced with life skills education. This program has been used successfully by PRC for over ten years, and the life skills that supplement it have seen success with PRC's past implementation of the program. The core curriculum's goal is to stop the inter-generational cycle of child abuse and prevent recidivism in families receiving social services. The curriculum is trauma informed, evidence-based, centered on the family, and designed to build nurturing parenting skills.
	Target Date	
	Estimate the number and type of families that will benefit from the proposed activities	100
	Location Description	Parent Resource Center: 811 5th St. Modesto, CA 95350 Modesto Gospel Mission: 1400 Yosemite Blvd, Modesto, CA 95354 (part of StanCSOC effort) Salvation Army: 625 I St. Modesto, CA 95354 (part of StanCSOC effort) Housing Authority, Department of Family Self Sufficiency: Various locations based on needs of families (part of StanCSOC effort) Family Promise: Various locations based on needs of families (part of StanCSOC effort)

	Planned Activities	Case management, survey measurement, home visits, and client follow-up. Outcomes include improved family functioning and parenting skills. PRC's Mom's Moments Plus program will provide education in improving stability for the families of the City of Modesto.
14	**Project Name**	PS-17 UNITED SAMARITANS FOUNDATION - DAILY BREAD LUNCH PROGRAM
	Target Area	
	Goals Supported	Services - Anti-poverty
	Needs Addressed	CD-3 Provide Public Services for Residents
	Funding	$22,700
	Description	Daily Bread Mobile Lunch Program delivers nutritious meals directly into the neighborhoods where extremely low, very low income, low income, and homeless individuals reside. The program ensures those individuals living in these neighborhoods have access to at least one nutritious meal a day, five days a week, 52 weeks a year. During the week we provide as many extras (milk, juice, bread, eggs, yogurt, and fresh produce, etc.) as we have available to supplement their diet with higher nutrition foods. Delivering these meals and extras directly into neighborhoods provides supportive services that enable residents to remain in independent living situations. USF also now offers an outreach worker, twice a month, for those individuals wishing to access supportive services and/or employment information. In 2016, USF served a total of 106,359 meals - 8,863 meals each month (on average) - 2,061 meals each week (on average) in the City of Modesto. USF is also working with Boys and Girls Club of Modesto to serve meals 5 days a week to 60-80 children in that program.
	Target Date	
	Estimate the number and type of families that will benefit from the proposed activities	475

	Location Description	1st stop - Beardbrook Park 2nd stop - Mono Park 3rd stop - 9th and D Street - Berberian Shelter - Salvation Army 4th stop - Oregon Park 5th stop - 4th Street park 6th stop - James Marshall Park 7th stop - Robertson Road Park 8th stop - Riverdale Road (not within Modesto incorporated limits but in Modesto area) 9th stop - Boys and Girls Club @ King-Kennedy Center in Mellis Park
	Planned Activities	Delivers nutritious meals directly into the neighborhoods where extremely low, very low income, low income, and homeless individuals reside. Our program ensures those individuals living in these neighborhoods have access to at least one nutritious meal a day, five days a week, 52 weeks a year.
15	**Project Name**	PS-17 COMMUNITY IDENTIFIED PUBLIC SERVICES (CDBG)
	Target Area	
	Goals Supported	Services - Anti-poverty
	Needs Addressed	CD-3 Provide Public Services for Residents
	Funding	$80,451.35
	Description	Public Service Needs identified via Citizen Participation/public outreach process: In response to community input received during the Citizen Participation outreach process in preparation of this program year Annual Action Plan, the City of Modesto will partner with local service providers to provide much needed public services. The public service activities to be funded under this project are a result of community identified public service needs during the Citizen Participation process. The City's intent is to be responsive to the feedback and comments provided by community members. Public Service activities will include but not limited to: Community capacity building, Youth sports activities/scholarships, ESL/Math/Computer Classes, and outreach and engagement activities to homeless individuals.
	Target Date	
	Estimate the number and type of families that will benefit from the proposed activities	TBD

	Location Description	TBD
	Planned Activities	Public Service activities will include but not limited to: Community capacity building, Youth sports activities/scholarships, ESL/Math/Computer Classes, and outreach and engagement activities to homeless individuals.
16	**Project Name**	PS-17 FAIR HOUSING PROGRAM - PROJECT SENTINEL
	Target Area	
	Goals Supported	Fair Housing Services and Education
	Needs Addressed	H-4 Continue to Support Fair Housing.
	Funding	$25,000
	Description	This project will enable people to resolve housing problems. By providing fair housing services, the project will also assist the City of Modesto to affirmatively further fair housing by combating housing discrimination and promoting diverse and inclusive communities.
	Target Date	
	Estimate the number and type of families that will benefit from the proposed activities	5 Fair Housing Investigation Cases = Project Sentinel will serve a minimum of 5 fair housing related investigation cases. 350 = People benefitting from fair housing information, presentations, workshops, counseling, and information & referral services.
	Location Description	Project Sentinel's office - 1231 8th St., Ste 425, Modesto, CA 95354.

	Planned Activities	Outreach We will inform the general public of the available fair housing services through educational brochures, radio and TV PSA's, and print and social media. Education We will provide one-on-one counseling and group workshops for housing providers, consumers and social service agencies to educate them about fair housing law. We will also provide specialized workshops low income veterans, immigrants especially those with limited English proficiency, those with disabilities, and families with children. Housing providers will learn how to comply with fair housing law while conducting residential rental business. Housing consumers will learn how to recognize fair housing violations and how to secure assistance. Social service agencies will learn to recognize and effectively refer fair housing violations. Audit and Complaint Investigations Fair housing coordinators investigate complaints through testing, interviews, surveys, and document review. When there is evidence of a violation, the complainant is given a range of options: educate the person causing the violation, conciliate/mediate the complaint, refer the complainant to HUD, DFEH or to an attorney for enforcement. Project Sentinel will also conduct proactive audits, testing housing providers for compliance with fair housing law before an allegation of discrimination is made.
17	**Project Name**	BOYS & GIRLS CLUB WEST MODESTO - ACQUISITION/CONSTRUCTION
	Target Area	
	Goals Supported	Services - Anti-poverty
	Needs Addressed	
	Funding	$300,000 (Prior Year Funds)

	Description	Acquisition and installation of a 3.600 sq. ft. custom modular building to house the West Modesto Boys & Girls Club in Mellis Park, adjacent to the King-Kennedy Memorial Building, 601 Martin Luther King Drive, Modesto CA 95351. The modular building will be used to provide Boys and Girls Club services to youth 6-18 years of age and their families to address social challenges within the West Modesto low income community. The modular unit will have dedicated space for offices, storage, restrooms, game rooms, and a classroom and technology center.
	Target Date	
	Estimate the number and type of families that will benefit from the proposed activities	200
	Location Description	601 Martin Luther King Drive, Modesto CA 95351.
	Planned Activities	
18	**Project Name**	CROWS LANDING ROAD NEIGHBORHOODS PROJECT
	Target Area	LOW INCOME CENSUS TRACTS
	Goals Supported	
	Needs Addressed	
	Funding	$63,066
	Description	Community Center and/or open space/park in the Schackleford Neighborhood.
	Target Date	
	Estimate the number and type of families that will benefit from the proposed activities	
	Location Description	Shackleford Neighborhood
	Planned Activities	Community center and/or pen space/park.
19	**Project Name**	ADA RAMPS AND CURB CUTS PROJECTS

	Target Area	LOW INCOME CENSUS TRACTS
	Goals Supported	Public Improvements - Accessibility
	Needs Addressed	CD-4 Fund ADA Improvement in the City
	Funding	$74,000
	Description	Conduct ADA ramps, curb cut, and sidewalk improvement projects in eligible low/mod areas.
	Target Date	
	Estimate the number and type of families that will benefit from the proposed activities	
	Location Description	Low/Mod Areas within the City of Modesto
	Planned Activities	ADA ramps, curb cut, and sidewalk improvement projects
20	**Project Name**	SECTION 108 LOAN REPAYMENT FY 2017-2018
	Target Area	
	Goals Supported	
	Needs Addressed	
	Funding	$293,844.65
	Description	Planned repayment of Section 108 Loan Principal.
	Target Date	
	Estimate the number and type of families that will benefit from the proposed activities	
	Location Description	
	Planned Activities	
21	**Project Name**	ESG-17 CENTER FOR HUMAN SERVICES - HUTTON HOUSE
	Target Area	

	Goals Supported	Emergency Shelter Beds Supportive Services - Homeless
	Needs Addressed	HM-5 Coordinated case management
	Funding	$35,000
	Description	The overall goal of Hutton House is to meet the immediate needs of runaway and homeless youth as well as youth at risk of separation from their family. Youth ages 13 to 17 are eligible to receive residential services and all youth experiencing homelessness and runaway issues may receive day services. The maximum length of stay in the shelter is 21 days. The objectives of the program are: to alleviate problems, assist youth in crisis, reunite youth with families, strengthen family relationships and to help youth transition to safe living arrangements. Incorporating a positive youth development philosophy and approach is an essential element of the program. Hutton House's youth development philosophy is based on the premise that all youth benefit from support, guidance and positive growth opportunities during adolescence. Hutton House staff is committed to serving as positive role models for youth and to assisting families to strengthen their relationship with each other. Staff also places a high value on creating a safe, temporary shelter environment and on designing services that enhance or build social and coping skills.
	Target Date	
	Estimate the number and type of families that will benefit from the proposed activities	200
	Location Description	201 Jennie Street, Modesto, CA 95354
	Planned Activities	Provide shelter to runaway and homeless youth.
22	**Project Name**	ESG-17 COMMUNITY HOUSING AND SHELTER SERVICES - HP/RR
	Target Area	
	Goals Supported	Supportive Services - Homeless Supportive Housing Services
	Needs Addressed	HM-4 Prevent Homelessness for those at Risk HM-5 Coordinated case management
	Funding	$27,918

Draft

	Description	Community Housing and Shelter Services will operate a Homeless Prevention Rapid Re-Housing program. This program could help alleviate the stress of housing costs for a minimum of 10 families from within the City of Modesto area, and have an income at or below 30% of the median income. The Homeless Prevention funding (average of $2,808) will be utilized to provide short-term rental assistance to households who are at imminent risk of becoming homeless by preventing eviction for households who have received a 3-day notice and have written verifiable documentation of an emergency that has caused them to enter into default on their rent. The Rapid Re-Housing funding (average of $4,680) will be utilized to provide short-term rental assistance to households via first month rent and double security deposit assistance to households who are homeless and lack the resources to pay for their full move-in fees. In order for CHSS to assist each household in removing barriers to sustainable housing, all households served will receive intensive on-going Case Management Services at a minimum of once per month in-person meeting with the client, although the goal would be for additional follow-up. Each household will complete an individualized action plan to address their immediate and long-term goals to ensure permanent housing sustainability after the ESG funding ends. CHSS will offer our homeless clients supportive services such as, money management workshops, weekly up-dated housing lists, referrals to other services in the County, and case management to assist them in finding permanent, long term housing. These services will provide our Clients with the tools to remain housed and reduce any new incidences of homelessness resulting in a reduced recidivism rate. CHSS anticipates that 90% of the households served will remain in permanent stable housing. CHSS will provide up to one year of follow-up counseling assistance after being housed, to ensure that all clients have access to the tools they need to maintain their permanent housing.
	Target Date	
	Estimate the number and type of families that will benefit from the proposed activities	30
	Location Description	Community Housing and Shelter Services 708 H Street, Modesto, CA 95354
	Planned Activities	Homeless Prevention and Rapid Rehousing Activities.

23	**Project Name**	ESG-17 FAMILY PROMISE - NEW BEGINNINGS, S.T.S.
	Target Area	
	Goals Supported	Supportive Services - Homeless
	Needs Addressed	HM-5 Coordinated case management
	Funding	$45,160
	Description	Family Promise - Shelter to Solutions will provide comprehensive solutions to ending family homelessness from emergency shelter through rapid re-housing. Our emergency shelter program strengthens families by providing a safe place where homeless children and their families can stay together during crisis combined with housing stabilization case management and rental assistance. Our 2017/2018 application continues to build on this successful model with increased legal services and transportation. We will provide the following services to 65 individuals with an anticipated outcome of 80% moving forward to transitional or permanent housing.
	Target Date	
	Estimate the number and type of families that will benefit from the proposed activities	65
	Location Description	
	Planned Activities	Emergency Shelter • Lodging and meals to children and their families in local houses of worship • Day Center with shower, storage and laundry facilities • Housing Stabilization Case Management including financial literacy and credit education • Transportation services to access shelter and other resources Rapid Re-Housing • Housing Stabilization Case Management & Services • Financial Counseling & Credit Repair • Housing Search Assistance & Transportation • Mediation & Legal Services

	Target Area	

Draft

	Goals Supported	Emergency Shelter Beds Supportive Services - Homeless
	Needs Addressed	HM-1 Address Chronic Homelessness
	Funding	$47,758
	Description	The Salvation Army Modesto Citadel Corps operates the Emergency Shelter for the City of Modesto. The Emergency Shelter is a year round program, offering emergency beds for at-risk homeless individuals without dependents 18 and older who are unable to find shelter elsewhere. Located at 320 Ninth Street, the facility provides up to 111 beds per night as a refuge of warmth and safety to homeless citizens of Modesto. The emergency shelter provides a safe place for individuals to be sheltered where they can sleep, stabilize mentally and physically and then be connected to public services to assist in achieving stable housing and well-being to prevent or eliminate chronic homelessness. Access is available to electrical outlets for night time medical machines, charging of motorized chairs, etc., is also available to these clients year round. An onsite dental/optical clinic is offered to emergency shelter clients. While in our shelter, each individual receives a warm, clean bed, hot showers along with a hot nutritious meal. Access to health services is offered to each one as well. Our shelter staff is trained to help identify those who are showing stability and a desire to move from homelessness to permanent housing. Recommendations are made to the case management team, who in turn begins the process of finding direct housing for those who qualify, or placing the client into one of our transitional housing programs. This process will help address the barriers they face and help guide them toward stabilization, and permanent housing. Utilizing case management, referrals, life skills training, health services, as well as connecting them to many of our StanCSOC agencies helps the emergency guests meet their goal of permanent housing. Identification of individuals from the 750 unduplicated clients who are stabilized and motivated to move forward will achieve those goals through case management where they will be linked up with housing resources in the community. An Emergency Shelter guest may stay in the emergency shelter nightly as long as they remain homeless, on a first come, first served basis. The case management team will identify clients who show a greater self-termination and wish to transition from homelessness to permanent housing a quickly as possible. Some will qualify to find direct housing, while others may need more time to stabilize and gain income by wages or mainstream benefits. The transitional living programs are up to 6 months.
	Target Date	

	Estimate the number and type of families that will benefit from the proposed activities	750
	Location Description	320 Ninth Street, Modesto CA 95354
	Planned Activities	Year-round emergency shelter program.

AP-50 Geographic Distribution – 91.220(f)

Description of the geographic areas of the entitlement (including areas of low-income and minority concentration) where assistance will be directed

The City of Modesto will target HUD resources to low income Census Block Groups as designated by HUD (See Map #1 attached). Outlined below are the low income Block Groups within each Council District. This is an exhaustive list of all low income block groups within the City of Modesto; however resources may not be directed to all areas.

District 1 Census Tract/Block Groups: 000503/1, 000803/2, 000803/3

District 2 Census Tract/Block Groups: 001500/1, 001500/3, 001601/1, 001601/2, 001601/3, 001604/1, 001604/2, 001603/1, 001700/1, 001700/2, 002200/1, 001800/2, 002200/2, 002200/4, 002200/3, 002301/4, 002301/1, 002402/1, 002401/2, 002501/1

District 3 Census Tract/Block Groups: 001400/2, 001400/1, 001400/3, 001400/5, 001100/2, 001100/3, 001200/2, 001002/3, 001800/1

District 4: 001900/4, 002100/1, 001900/2, 002004/2, 002004/1, 002004/4

District 5: 000805/1, 000805/4, 000506/1, 000404/3, 000910/2

District 6: 000910/4, 002803/1

Geographic Distribution

Target Area	Percentage of Funds
LOW INCOME CENSUS TRACTS	100

Table 10 - Geographic Distribution

Rationale for the priorities for allocating investments geographically

The Census Tract Block Groups listed are geographic areas/neighborhoods within which 51%, or greater, of the area's population is low income. The City of Modesto has identified activities that will benefit these population groups with the end goal of providing suitable living environment and greater economic opportunities. Where possible, the City of Modesto will distribute CDBG funds throughout the low income block groups located throughout the six city council districts.

AP-60 Public Housing – 91.220(h)

Introduction

The Housing Authority of the County of Stanislaus (HACS) operates 432 public housing units within the City of Modesto. All 432 public housing units are currently occupied.

The Section 504 needs assessment of public housing units from the HACS indicates that in the City of Modesto there are 28 housing units available for the physically impaired (five one-bedroom units, 12 two-bedroom, and 11 three-bedroom units), seven units for the visually impaired (three one-bedroom, two two-bedroom, and two three-bedroom units), and seven units for the hearing impaired (4 one-bedroom, and 3 three-bedroom units). This equates to a total of 42 units for the physically, visually, and hearing impaired in the City of Modesto.

Actions planned during the next year to address the needs to public housing

The City of Modesto has a close working relationship with the Housing Authority of the County of Stanislaus (HACS) and meets on an as needed basis to discuss concerns relevant to public housing and other housing matters. The City of Modesto will continue to work with the HACS and any other housing and social service providers to foster public housing improvements and resident initiatives.

In prior years the City of Modesto has partnered with the HACS by leveraging available funds to address affordable housing needs through the development of affordable housing opportunities for low and moderate income persons and families.

When possible, the City of Modesto will continue to partner with the HACS to leverage available funds (local, state, federal) to address public housing needs within the City of Modesto.

Actions to encourage public housing residents to become more involved in management and participate in homeownership

The HACS provides homeownership resources to participants in the Housing Choice Voucher Program. The Family Self-Sufficiency (FSS) Program has established partnerships with a variety of community resources to refer participants for services including pre- and post-secondary education, health care, child care, employment development, supported employment, and small business development including micro-loans. The FSS Program also encourages families to participate in financial wellness programs including financial literacy and credit repair with an emphasis on long-term financial stability for the purposes of homeownership. Supportive services are provided

through the Community Impact Central Valley (CICV), the Stanislaus County Department of Mental Health, or Stanislaus County Integrated Services Agency. The Stanislaus Housing Authority previously implemented a services and communication "quality control" system that provides the Stanislaus Housing Authority with immediate customer feedback and identifies areas that may need improvement. The Housing Authority has also implemented a resident education program with regularly scheduled meetings and written communications on agency policy, rules, and leases.

Efforts to improve communications with residents and program participants include: on site resident training/informational meetings, regular newsletters and flyers. The Stanislaus Housing Authority has implemented a "curb-side" appearance program. The focus of the program is the exterior of buildings, parking areas, play grounds and other areas of the complexes. Rodent and insect problems are addressed when residents report a problem and/or on Annual Inspections. In an effort to better education residents concerning these problems, information is regularly provided through the Stanislaus Housing Authority newsletter. These actions have assisted the Stanislaus Housing Authority in creating an atmosphere which emphasizes customer satisfaction and communication.

AP-65 Homeless and Other Special Needs Activities – 91.220(i)

Introduction

The City of Modesto participates in the Stanislaus County Continuum of Care (CoC) to develop and implement regional goals and strategies (outlined in this section) to address and end homelessness. The goal of the Homeless Strategy is to increase housing stability and decrease incidents of homelessness in Stanislaus County by targeting funds to populations most in need, meeting both the immediate and long-term needs of the homeless, and avoiding the duplication of services by coordinating with service providers and the Stanislaus CoC.

Since 2014, the City of Modesto has collaborated with Stanislaus County in the Focus on Prevention led by Stanislaus County. The goal of the Focus on Prevention initiative is to bring all sectors of the community together to provide an opportunity for cross-sector development of community-wide prevention strategies. The effort focuses on the coordination between the following sectors in the community: Education, Neighborhoods, non-profits, media, philanthropy, business, faith-based, government, arts/entertainment/sports, and health.

Describe the jurisdictions one-year goals and actions for reducing and ending homelessness including

Reaching out to homeless persons (especially unsheltered persons) and assessing their individual needs

The City of Modesto has participated in StanCSOC's planning process to move individuals and families from homelessness to permanent housing and independent living through a network of housing linked to supportive services. The primary strategy document is the annual StanCSOC Application. Additionally, the StanCSOC is currently working with its members in the first steps toward a continuum-wide coordinated intake system.

Draft

Addressing the emergency shelter and transitional housing needs of homeless persons

As the county seat of Stanislaus County, the City of Modesto is where most all services (including shelter and transitional housing) are located in Stanislaus County. Therefore, many people experiencing homelessness who utilize available services live in Stanislaus County live in Modesto. The City of Modesto funds shelter activities to the maximum extent possible with CDBG Public Services and ESG (Hold-Harmless Need or HHN) funds. Other strategies designed to address homelessness, such as financial assistance and supportive housing, are carried out through other City of Modesto funding sources, such as using federal stimulus funds in partnership with the Housing Authority to build affordable housing designed to serve youth experiencing homelessness and other extremely low-income/homeless populations.

All ESG sub-recipients that carry out emergency shelter activities have a street outreach component to its operations. Additionally, these ESG sub-recipients also participate in the local StanCSOC's point-in-time count, which affords them an opportunity to reach out to unsheltered persons. Also, through the StanCSOC, the City of Modesto participates in the annual Street Relief event, which provides a variety of services (bike

repair, veterinary, haircut, information and referral, etc.) to scores of persons experiencing homelessness, including unsheltered persons

Helping homeless persons (especially chronically homeless individuals and families, families with children, veterans and their families, and unaccompanied youth) make the transition to permanent housing and independent living, including shortening the period of time that individuals and families experience homelessness, facilitating access for homeless individuals and families to affordable housing units, and preventing individuals and families who were recently homeless from becoming homeless again

These homeless subpopulations are a high priority for the City of Modesto, the StanCSOC, and its Ten-Year Plan. The City of Modesto is coordinating with the StanCSOC and U.S. Department of Veterans Affairs, allocated security deposit assistance to its sub-recipient, Community Housing and Shelter Services (CHSS) to provide this assistance to HUD-VASH program participants, as this particular assistance is not available through this otherwise comprehensive HUD-VA program.

Families and children experiencing homelessness is also prioritized as reflected by CDBG and ESG allocations to sub-recipients that serve these subpopulations (Center for Human Services, Children's Crisis Center, Haven Women's Center, and Family Promise).

City of Modesto, its ESG sub-recipients, and other partners are especially strategic in helping these subpopulations of persons experiencing homelessness. For example, City of Modesto's Homelessness Prevention and Rapid Re-Housing (HPRP) activities through Community Housing and Shelter Services includes the allocation of ESG funds for HUD-VASH program participants (veterans and/or their families experiencing homelessness) so that they may receive security deposit assistance, which is not available through this otherwise-comprehensive permanent supportive housing program. Another subpopulation that is targeted with ESG HPRP financial assistance is families with dependent children. In addition to helping these persons make the transition to stable housing using its ESG funds, the City of Modesto has invested millions of dollars using federal stimulus funds to develop, in partnership with its sub-recipient, the Housing Authority, a 32-unit complex designed to serve youth experiencing homelessness and former foster youth (ages 18-28) with permanent supportive housing. Center for Human Services' Pathways serves as a transitional supportive housing pathway to this 32-unit permanent supportive housing project.

Helping low-income individuals and families avoid becoming homeless, especially extremely low-income individuals and families and those who are: being discharged from publicly funded institutions and systems of care (such as health care facilities, mental health facilities, foster care and other youth facilities, and corrections programs and institutions); or, receiving assistance from public or private agencies that address housing, health, social services, employment, education, or youth needs.

While a discharge coordination plan has yet to be developed and implemented locally, the City of Modesto does help lead in the coordination of the Stanislaus CoC's services. Furthermore, homelessness prevention assistance, while scarce, is provided through an ESG sub-recipient (Community Housing and Shelter Services). Foster care youth and those exiting the foster care system will be served through the City of Modesto partnership with the Housing Authority on the above-mentioned federal stimulus funded activity.

Discussion

No additional discussion

One year goals for the number of households to be provided housing through the use of HOPWA for:
Short-term rent, mortgage, and utility assistance to prevent homelessness of the individual or family
Tenant-based rental assistance
Units provided in housing facilities (transitional or permanent) that are being developed, leased, or operated
Units provided in transitional short-term housing facilities developed, leased, or operated with HOPWA funds
Total

AP-75 Barriers to affordable housing – 91.220(j)

Introduction

The goals from the City of Modesto's 2016 Housing Element are relevant to the Consolidated Plan requirements to remove barriers to affordable housing.

The City of Modesto adopted an Analysis of Impediments to Fair Housing Choice (AI) in 2015 that outlines the public policies that could potentially limit access to affordable housing. These public policies include: development plans and policies; zoning ordinances; building, occupancy, and health and safety codes, affordable housing development, public housing authoring collaboration, and community representation and participation. An example of a policy that incentivizes the development of affordable housing is a recently updated program that provides exemptions and/or

deferrals of Capital Facilities Fees to for-profit or non-profit affordable housing developers, with special consideration given to CHDOs.

The City of Modesto in collaboration with other participating cities throughout the Northern San Joaquin Region (Smart Valley Places) has completed a Fair Housing and Equity Assessment (FHEA) informed the City of Modesto's updated AI. The City of Modesto is will also participate in any HUD sponsored trainings to implement changes as required by the new Assessment of Fair Housing (AFH) final rule.

Actions it planned to remove or ameliorate the negative effects of public policies that serve as barriers to affordable housing such as land use controls, tax policies affecting land, zoning ordinances, building codes, fees and charges, growth limitations, and policies affecting the return on residential investment

Potential constraints to housing development may vary by area, but generally include infrastructure, residential development fees, land use controls, development standards, development and building permit application processing times, and resource preservation. Barriers to housing also include personal barriers such as poor credit history, criminal background, limited knowledge about tenant rights, and the complaint process.

The City of Modesto has worked to eliminate internal barriers to the development of affordable housing through the following continuing efforts:

- Providing funding for land acquisition, secondary financing, and infrastructure costs;
- Assisting qualified households to purchase homes utilizing the Homebuyer Assistance Program:
- Exemption or deferral of Capital Facilities Fees for projects providing low-income housing;
- Using the adopted streamlining process for environmental review;
- Continuing to work with non-profit housing agencies in the provision of supportive services and programs; and
- Using streamlined application review and permit processing.

Discussion

No additional discussion.

AP-85 Other Actions – 91.220(k)

Introduction

The City of Modesto, through the Consolidated Plan, targets federal funds to residents that have traditionally not been served, or are underserved, by previous programs. Project activities funded through the Consolidated Plan are carefully designed to provide appropriate and needed services, particularly those that may not be eligible for assistance from other sources, or are geographically isolated by lack of transportation, or lack basic amenities, such as medical care in their neighborhoods.

Actions planned to address obstacles to meeting underserved needs

See response at AP-35 "Describe the reasons for allocation priorities and any obstacles to addressing underserved needs."

Actions planned to foster and maintain affordable housing

See response at AP-55 "Affordable Housing."

Actions planned to reduce lead-based paint hazards

Staff developed a Housing Rehabilitation Manual which cites the process contractors are to follow when lead-based paint is found or presumed to be present during construction. The workbook contains federal requirements for paint and rehabilitation programs the documentation that is required, and the timeframe to submit the documentation, and cost worksheets on level of rehabilitation assistance.

Staff also periodically sponsors an EPA-HUD certified class, "Lead Safety for Remodeling, Repair, & Painting." Most housing rehabilitation projects are subject to federal regulations for Lead-Based Paint and contractors must be certified in safe work practices when completing the rehabilitation work. This effort in the past has resulted in more contractors being able to bid on and participate in the projects that contain lead-based paint.

The cost for the stabilization of lead based paint can be included in the City of Modesto's housing rehabilitation loan program. The cost of the lead-based paint inspection and/or clearance is paid from entitlement funds.

The City of Modesto will continue to provide lead-based paint testing as a component of its housing repair and rehabilitation programs when required by HUD regulations. Given the age and condition of the City of Modesto's housing stock, there are a significant number of homes where lead-based paint testing is needed.

The City of Modesto's housing program guidelines include specific policies related to testing and abating. When lead-based paint is present or presumed to be present, lead-safe work practices are required. In addition, all of the City of Modesto's loan agreements for new projects prohibit the use of any lead-based paint.

Actions planned to reduce the number of poverty-level families

The City of Modesto has a multi-pronged approach to addressing poverty through an adequate, affordable, quality housing supply, improving low-income neighborhoods, strengthening families, strengthening employment skills of the community, and ensuring access to the basic needs such as food and shelter. This multi-pronged approach will strengthen the community as a whole and play a huge part in reducing the number of people living within the poverty level. The City of Modesto plans to fund specific activities that address each of these goals during the Consolidated Plan timeframe.

Since 2014, the City of Modesto has collaborated with Stanislaus County in the Focus on Prevention led by Stanislaus County. The goal of the Focus on Prevention initiative is to bring all sectors of the community together to provide an opportunity for cross-sector development of community-wide prevention strategies. The effort focuses on the coordination between the following sectors in the community: Education, Neighborhoods, non-profits, media, philanthropy, business, faith-based, government, arts/entertainment/sports, and health.

The City of Modesto's strategy for reducing poverty will be successful only to the extent that:

- Adequate state and federal funding is available for education, job training, and supportive service programs that will increase economic opportunity and self-sufficiency;
- Adequate state and federal funding is available for regional infrastructure necessary to support economic development; and
- The City of Modesto's competitiveness in relation to other regional economies attracts employers and industries that create higher paying jobs. Unfortunately, the City of Modesto has little or no direct control over these factors and can make only marginal improvement in the local rate of poverty through its use of federal and other funds.

Actions planned to develop institutional structure

Modesto will continue to work collaboratively with service and shelter providers to identify and address gaps in the institutional structure and service delivery system.

Modesto generally has a well-developed institutional structure and service delivery system.

Modesto will continue to work to increase the resources devoted to permanently affordable housing to serve as a stabilizing force preventing homelessness.

Modesto will focus increased resources on homeless prevention/crisis intervention, especially on homeless youth, aging-out foster youth, families with children, and persons being discharged from institutions.

Modesto will continue to devote resources to address the needs of the chronically homeless including comprehensive case management, supportive housing, shelters and transitional housing.

Modesto will target resources to the lowest income groups with the highest needs including the chronically homeless, homeless youth, homeless families with children, and those living in transitional shelters.

Actions planned to enhance coordination between public and private housing and social service agencies

City of Modesto relies primarily on its (A) close consultation with the StanCSOC, which is made up of representative stakeholders and (B) monthly meetings with its public and private housing development partners, which include local private CHDOs (e.g., Habitat for Humanity, Stanislaus County and Stanislaus Affordable Housing Corporation) and the Housing Authority (to enhance coordination in the areas of community housing and social services.

The City of Modesto relies on non-profit organizations and for-profit developers to build and acquire, develop, and rehabilitate affordable units. The City of Modesto will continue to work closely with these entities to ensure that each year as many new affordable units are developed or made available.

The City of Modesto also relies on the non-profit service sector to provide emergency shelter and transitional and special needs housing. The City of Modesto will continue to support eligible organizations and their activities with local, state and federal funding as it's made available and upon their governing entity's approval.

Discussion

No additional discussion.

Program Specific Requirements

AP-90 Program Specific Requirements – 91.220(l)(1,2,4)

Introduction

Please see the responses below that are specific to the CDBG, HOME and ESG programs.

Community Development Block Grant Program (CDBG)

Reference 24 CFR 91.220(l)(1)

Projects planned with all CDBG funds expected to be available during the year are identified in the Projects Table. The following identifies program income that is available for use that is included in projects to be carried out.

1. The total amount of program income that will have been received before the start of the next program year and that has not yet been reprogrammed 0

2. The amount of proceeds from section 108 loan guarantees that will be used during the year to address the priority needs and specific objectives identified in the grantee's strategic plan. 0

3. The amount of surplus funds from urban renewal settlements 0

4. The amount of any grant funds returned to the line of credit for which the planned use has not been included in a prior statement or plan0

5. The amount of income from float-funded activities 0

Total Program Income: 0

Other CDBG Requirements

1. The amount of urgent need activities 0

2. The estimated percentage of CDBG funds that will be used for activities that benefit persons of low and moderate income. Overall Benefit - A consecutive period of one, two or three years may be used to determine that a minimum overall benefit of 70% of

CDBG funds is used to benefit persons of low and moderate income. Specify the years covered that include this Annual Action Plan. 100.00%

HOME Investment Partnership Program (HOME)

Reference 24 CFR 91.220(l)(2)

1. A description of other forms of investment being used beyond those identified in Section 92.205 is as follows:

The City of Modesto does not use forms of investment within the local HOME program other than those identified in Section 92.205.

2. A description of the guidelines that will be used for resale or recapture of HOME funds when used for homebuyer activities as required in 92.254, is as follows:

Pursuant to 24 CFR 92.254(a)(5)(ii), the City requires that HOME funds be recaptured if the property does not continue to be the principal residence of the buyer for the duration of the Affordability Period secured by an Affordable Housing Covenant. If all or any portion of the property or any interest in it is sold, refinanced, conveyed or transferred, the "Equity" in the property shall be shared as follows:

Years 0-5: Buyer's Equity Share = 25%; City's Equity Share 75%

Years 6-10: Buyer's Equity Share = 50%; City's Equity Share 50%

Years 11-15: Buyer's Equity Share = 100%; City's Equity Share 25%

Thereafter: Buyer's Equity Share = 100%; City's Equity Share 0%

Equity is defined as the dollar amount that constitutes the difference between the sales price of the property and the sum of the following amounts: The principal on the promissory note and deed of trust from private financing; the principal on the promissory not and deed of trust to the City; all costs of sale including brokers' commissions, escrow fees, title costs and fees, recording fees, etc.; current year taxes including all pro-rata real estate taxes calculated to the date of sale; buyer's down payment or cash contribution; the costs of any improvements to the property;

In the event that no equity exists at the time of transfer or sale, the current balance of the debt under the Promissory Note and Deed of Trust will still be due and payable.

In the event that a negative equity exists at the item of transfer or sale, and the full amount of the current balance of the promissory note is not available to be recaptured, the amount of the HUD funds required to be repaid to the City shall be as set forth in 24 CFR 92.254(a)(ii)(A)(3).

3. A description of the guidelines for resale or recapture that ensures the affordability of units acquired with HOME funds? See 24 CFR 92.254(a)(4) are as follows:

The same methodology outlined in question 2 above will be used to ensure affordability for any units acquired with HOME funds.

4. Plans for using HOME funds to refinance existing debt secured by multifamily housing that is rehabilitated with HOME funds along with a description of the refinancing guidelines required that will be used under 24 CFR 92.206(b), are as follows:

The City does not intend to use HOME funds to refinance existing debt.

Draft

Emergency Solutions Grant (ESG)

Reference 91.220(l)(4)

1. Include written standards for providing ESG assistance (may include as attachment)

City of Modesto, in consultation with the StanCSOC stakeholders, developed policies and procedures for providing ESG assistance that incorporates the new and broadened components of ESG.

Standards for providing ESG homelessness prevention and rapid re-housing assistance include respectively targeting households with dependent children and persons experiencing homelessness connected to or eligible to receive (within 6 months) assistance from mainstream benefits and services.

These standards also include limiting assistance for a period of up to six (6) months and extending the period of assistance up to the maximum 18 months on a case-by-case basis.

HUD-VASH (U.S. Department of Housing and Urban Development-U.S. Department of Veterans Affairs Supportive Housing) program participants are also prioritized to receive security deposit assistance upon HUD-VASH intake.

Income qualification guidelines are no less restrictive than ESG guidelines (30% or below AMI for homelessness prevention assistance and not-applicable for rapid re-housing).

2. If the Continuum of Care has established centralized or coordinated assessment system that meets HUD requirements, describe that centralized or coordinated assessment system.

The StanCSOC is currently working on establishing a centralized and coordinated assessment system that meets HUD requirements.

3. Identify the process for making sub-awards and describe how the ESG allocation available to private nonprofit organizations (including community and faith-based organizations).

The City of Modesto consults with the StanCSOC Care to develop funding priorities and competitively awards ESG funding through an RFP process. This RFP process conforms to the City of Modesto's rigorous procurement process, including public noticing and utilizing its state-of-the-art online bidding system. The funding priorities as it relates to ESG are funding emergency shelter to the maximum extent possible (up to Hold Harmless Need [HHN] limit) and prioritizing rapid re-housing higher than homelessness prevention.

4. If the jurisdiction is unable to meet the homeless participation requirement in 24 CFR 576.405(a), the jurisdiction must specify its plan for reaching out to and consulting with homeless or formerly homeless individuals in considering policies and funding decisions regarding facilities and services funded under ESG.

The City of Modesto is unable to meet the homeless participation requirement in 24 CFR 576.405(a) due to the fact that its policy-making entity is made up of elected officials. The City of Modesto, however, works very closely with the StanCSOC which is made up of a representative group of diverse stakeholders, including persons experiencing homelessness and those who at one time in their lives had experienced homelessness. The City of Modesto intends to work with the StanCSOC and elected and appointed City of Modesto officials to develop a formal homeless participation plan that will engage

persons experiencing homelessness in a meaningful way that influences homelessness-related policies, including development of funding priorities and funding allocation.

5. Describe performance standards for evaluating ESG.

The City of Modesto consulted with the StanCSOC and developed the following performance standard: Elimination or mitigation of barriers to stable housing. These barriers may be financial, health-related, relational, etc. StanCSOC stakeholders determined that post-assistance follow-up evaluation is extremely difficult to achieve.

Discussion

The City of Modesto consults closely and regularly (at least twice monthly) with the StanCSOC and its HMIS, ESG/HPRP, and SHP subcommittees, which develop policies and procedures for these programs and is taking the lead in building the service infrastructure that will be necessary to sustain a centralized or coordinated assessment system. This consultation takes the form of reports and presentations that are placed on the StanCSOC monthly meeting agendas.

The operation and administration of the Homeless Information Management System (HMIS) designated by the StanCSOC is led by the Stanislaus Housing Authority. The City of Modesto may pay the costs of contributing data to the HMIS via funding to sub-grantees or to the HMIS Lead.

The City of Modesto is member of the StanCSOC/HMIS Subcommittee which meets monthly to develop policies, procedures, and best practices and offers trainings developed by the developed by the HMIS Lead.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-260

RESOLUTION AMENDING THE CITY OF MODESTO'S ANNUAL OPERATING, MULTI-YEAR AND CAPITAL IMPROVEMENT PROJECT BUDGETS TO ALIGN BUDGETS WITH THE U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT ONLINE INTEGRATED DISBURSEMENT AND INFORMATION (IDIS) SYSTEM AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE ANY RELATED DOCUMENTATION REQUIRED TO TAKE THE NECESSARY STEPS TO IMPLEMENT THE PROVISIONS OF THIS RESOLUTION

WHEREAS, each year the City of Modesto receives Community Development Block Grant (CDBG), HOME Investment Partnership Grant (HOME) and Emergency Solutions Grant (ESG) funds from the U.S. Department of Housing and Urban Development (HUD), and

WHEREAS, the CDBG and HOME grant programs also generate program income and revolving loan fund income which further fund the grant programs and are to be used under similar rules and regulations as grant funding, and

WHERAS, HUD requires these amounts to be presented to the City Council each year in an Annual Action Plan (AAP),

WHEREAS, funding availability and specific project and activity budgets consistent with the AAP are managed in HUD's online Integrated Disbursement and Information Management (IDIS) system and the City's financial system simultaneously, and

WHEREAS, the City's budget and financial system uses the same unique numbers as are used in IDIS to ensure synchronization of the City's financial system and IDIS, and

WHEREAS, synchronization of the City's financial system and IDIS necessitates multiple budget adjustments within the City's financial system, and

WHEREAS, according to HUD rules and regulations, substantial amendments to an AAP must be presented to the City Council for approval, while unsubstantial amendments, remaining consistent with the AAP, can be made in IDIS by City staff, and

WHEREAS, the actual amount of new entitlement grant monies and program income are unknown to City staff during the City's annual budget process and estimated figures are entered into the City's financial system, and

WHEREAS, funding is not always spent within a fiscal year and HUD authorizes remaining balances to be used in the following year as carryover, and

WHEREAS, actual carryover amounts are unknown to City staff during the City's annual budget process and estimated figures are entered into the City's financial system, and

WHEREAS, frequent budget adjustments are needed throughout the year to synchronize the City's financial system and IDIS, and

WHEREAS, budget amendments performed under the authority of this resolution will be presented to the Effective Government Committee and the Council as part of the existing Monthly Budget Adjustment Report process, and

WHEREAS, the authority of this resolution will not be used to satisfy any HUD rules or regulations requiring information to be presented to the City Council or the public.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes amendments to the annual operating, multi-year, and capital

improvement project budgets pertaining to the CDBG, HESG, and HOME programs that are necessary to align the budgets in the City's financial system with overall entitlement, program income, and revolving loan fund income funding availability and specific project and activity budgets as found in IDIS.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute any related documentation required to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of June, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION CONFIRMING THE FISCAL YEAR 2017-18 DIAGRAM AND ASSESSMENT, AND ORDERING THE LEVY AND COLLECTION OF CHARGES WITHIN LANDSCAPE MAINTENANCE ASSESSMENT DISTRICT NO. 1 FOR DRY CREEK MEADOWS SUBDIVISIONS NOS. 1-6

WHEREAS, on May 9, 2017, the City Council, by Resolution No. 2017-181, declared its intent to levy charges or assessments for the purpose of administering the maintenance of landscaping in the public right-of-way within the street medians and adjacent to the access control walls in Dry Creek Meadows Subdivisions Nos. 1-6 under the provisions of the California Streets and Highways Code Sections 22500 through 22679, more commonly known as the Landscape and Lighting Act of 1972, and

WHEREAS, the charges against the real property are not levied with regard to property values but rather by the allocated cost shown within the Annual Engineer's Report, and

WHEREAS, the City of Modesto has determined and certifies that the charges are either exempt from or in compliance with all the provisions of Proposition 218, which was passed by the voters in November 1996. The City of Modesto has further determined the charges are in compliance with all laws pertaining to the levy of such charges.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby orders the levy and collection of such charges within City of Modesto Landscape Maintenance Assessment District No. 1 for Dry Creek Meadows Subdivisions Nos. 1-6 for Fiscal Year 2017-18, and in each subsequent fiscal year in which the charges may validly be levied.

BE IT FURTHER RESOLVED that a certified copy of this resolution and **attached** documentation shall be delivered to the Auditor-Controller of the County of Stanislaus for placement of such charges on the 2017-18 County Tax Roll, and in each subsequent fiscal year in which the charges may validly be levied.

BE IT FURTHER RESOLVED that the diagram of said assessment district, which is **attached** hereto, and amount of levy thereon is hereby confirmed.

The foregoing resolution was introduced at a regular meeting of the City Council of the City of Modesto held on the 27th day of June, 2017 by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following votes:

SECTION I HISTORY

On December 12, 1988, Landscape Maintenance Assessment District No. 1 ("LMAD No. 1") was formed in accordance with the Landscape and Lighting Act of 1972 (California Streets and Highway Code §22500 through §22679) ("the Act"), to administer the maintenance of landscaping in the public right-of-way within the street medians and adjacent to the access control walls in Dry Creek Meadows Subdivisions Nos. 1-6. All costs for the LMAD No. 1 are funded by the annual assessments levied on each property within the district. The Act requires several courses of action on the part of City staff and City Council prior to August 10th of each year.

The Act initially requires the City Council to order, prepare, and file an Engineer's Annual Report for the City Council. This report is prepared for the purpose of detailing the plans and specifications for the maintenance of work, the estimated costs for landscape maintenance performed by City contractors, utility service charges, City street tree pruning costs, City staff time to administer the maintenance contract, and additional work to be performed by the City Contractor at the request of the City.

LMAD No. 1 is located east of North McClure Road and southwest of MID Lateral #2 and Claus Road. It is comprised of 749 single-family residential lots and three (3) public agency owned parcels. An annual assessment of $26 per single-family residential parcel has remained the same since 1996. The total assessment to be levied for LMAD No. 1 for Fiscal Year 2017-2018 is $19,474.

Upon the City Council's approval of the Engineer's Annual Report, the City Council adopts a resolution declaring its intent to levy and collect assessments within LMAD No. 1 for the following fiscal year and schedules a public hearing. This public hearing and proposed resolution levying the proposed assessments is in accordance with the annual assessment procedures.

Finally, in compliance with the Act, the City Council conducts the public hearing and adopts certain resolutions in accordance with the California Streets and Highways Code §22625 through §22641. The City Clerk is required to give the Modesto Bee notice of the public hearing no less than ten (10) days prior to the scheduled hearing date. All interested persons are afforded the opportunity to be heard during the public hearing. Should there be any protests, whether written or oral, the City Council may choose to continue the hearing to a later date and/or may change any part of the Engineer's Annual Report to address the concerns of the property owner(s). The adopted resolution is then forwarded to the Auditor-Controller of the County of Stanislaus for placement of such charges on the upcoming year's County Tax Roll.

SECTION II ANNUAL ASSESSMENT REVIEW AND SUMMARY

A. PARCEL REVIEW

1. Single Family Residential Parcels:
   There are 749 single-family residential parcels located within LMAD No. 1.

2. Multi-Family Residential Parcels:
   There are no multi-family residential parcels located within LMAD No. 1.

3. Commercial/Industrial Parcels:
   There are no commercial or industrial parcels located within LMAD No. 1.

4. Public Agency Parcels:
   There are two (2) parcels owned by the City of Modesto (Creekwood Park and the Pedestrian Overcrossing at Claus Road) and one (1) parcel owned by the Empire School District (Bernard Hughes School). According to §22663 of the California Streets and Highways Code, public property owned by any public agency and in use in the performance of a public function shall not be subject to assessment.

B. 2017-2018 ANNUAL ASSESSMENTS

All single-family residential parcels are levied at a flat rate of $26.00 per parcel. Each parcel receives equal benefits from the District. The annual assessments levied are calculated by multiplying the total number of parcels by the flat rate.

$	26.00	Annual assessment per parcel
x	749	Single-family residential parcels
$	19,474.00	Total annual assessment

C. COMPARISON TO PREVIOUS FISCAL YEAR

The proposed Fiscal Year 2017-2018 annual assessment is the same as the annual assessment for Fiscal Year 2016-2017 of $26.00 per single-family residential parcel.

SECTION 3 FINANCIALS – ANNUAL ASSESSMENT REVENUE & EXPENSE PROJECTIONS

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-262

Print

RESOLUTION CONFIRMING THE FISCAL YEAR 2017-18 DIAGRAM AND ASSESSMENT, AND ORDERING THE LEVY AND COLLECTION OF CHARGES WITHIN LANDSCAPE MAINTENANCE ASSESSMENT DISTRICT NO. 2 FOR DRY CREEK MEADOWS SUBDIVISIONS NOS. 7-10, CREEKWOOD MEADOWS SUBDIVISION AND YOSEMITE MEADOWS SUBDIVISION UNITS 1 & 2

WHEREAS, on May 9, 2017, the City Council, by Resolution No. 2017-182, declared its intent to levy charges or assessments for the purpose of administering the maintenance of landscaping in the public right-of-way within the street medians and adjacent to the access control walls in Dry Creek Meadows Subdivisions Nos. 7-10, Creekwood Meadows Subdivisions, and Yosemite Meadows Subdivision Units 1 and 2 under the provisions of California Streets and Highways Code Sections 22500 through 22679, more commonly known as the Landscape and Lighting Act of 1972, and

WHEREAS, the charges against the real property are not levied with regard to property values but rather by allocated cost reports prepared by the Engineer of Work, and

WHEREAS, the City of Modesto has determined and certifies that the charges are either exempt from or in compliance with all the provisions of Proposition 218, which was passed by the voters in November 1996, and

WHEREAS, the City of Modesto has further determined the charges are in compliance with all laws pertaining to the levy of such charges,

WHEREAS, on June 27, 2017 a public hearing was held, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby orders the levy and collection of such charges within City of Modesto

Landscape Maintenance Assessment District No. 2 for Dry Creek Meadows Subdivisions Nos. 7-10, Creekwood Meadows Subdivisions, and Yosemite Meadows Subdivision Units 1 and 2 for Fiscal Year 2017-18, and in each subsequent fiscal year in which the charges may validly be levied.

BE IT FURTHER RESOLVED that a certified copy of this resolution and **attached** documentation shall be delivered to the Auditor-Controller of the County of Stanislaus for placement of such charges on the 2017-18 County Tax Roll, and in each subsequent fiscal year in which the charges may validly be levied.

BE IT FURTHER RESOLVED that the diagram of said assessment district, which is **attached** hereto, and amount of levy thereon is hereby confirmed.

The foregoing resolution was introduced at a regular meeting of the City Council of the City of Modesto held on the 27th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following votes:

AYES:	Councilmembers:	Ah You, Kenoyer, Madrigal, Zoslocki, Mayor Brandvold

SECTION I HISTORY

On April 4, 1989, Landscape Maintenance Assessment District No. 2 ("LMAD No. 2") was formed in accordance with the Landscape and Lighting Act of 1972 (California Streets and Highway Code §22500 through §22679) ("the Act") to administer the maintenance of landscaping in the public right-of-way within the street medians and adjacent to the access control walls in Dry Creek Meadows Subdivisions Nos. 7 through 10, Creekwood Meadows Subdivision, and Yosemite Meadows Subdivision Units 1 and 2. All costs for LMAD No. 2 are funded by the annual assessments levied on each property within the district. The Act requires several courses of action on the part of City staff and City Council prior to August 10th of each year.

The Act initially requires the City Council to order, prepare, and file an Engineer's Annual Report for the City Council. This report is prepared for the purpose of detailing the plans and specifications for the maintenance of work, the estimates of costs for landscape maintenance performed by the City Contractor, utility service charges, City street tree pruning costs, City staff time to administer the maintenance contract, and additional work to be performed by the City Contractor at the request of the City.

Prompted by negative reserve balances in LMAD No. 2, staff successfully completed a Proposition 218 ballot in June 2000. This ballot added an annual cost of living increase based on the Building Cost Index ("BCI"). As a result of this ballot, the approved "inflator" adjusts each year's assessment. California Government Code §54954.6(a) and (c) requires that a notice be mailed no less than 45 days in advance of the public hearing to all property owners if costs will increase.

Upon City Council's approval of the Engineer's Annual Report, the City Council adopts a resolution declaring its intent to levy and collect assessments within LMAD No. 2 for the following fiscal year and schedules a public hearing. This public hearing and proposed resolution levying the proposed assessments is in accordance with the annual assessment procedures.

Finally, in compliance with the Act, the City Council conducts the public hearing and adopts certain resolutions in accordance with the California Streets and Highways Code §22625 through 22641. The City Clerk is required to give the Modesto Bee notice of the public hearing no less than ten (10) days prior to the scheduled hearing date. All interested persons are afforded the opportunity to be heard during the public hearing. Should there be any protests, whether written or oral, the City Council may choose to continue the hearing to a later date and/or may change any part of the Engineer's Annual Report to address the concerns of the property owner(s). The adopted resolution is then forwarded to the Auditor-Controller of the County of Stanislaus for placement of such charges on the upcoming year's County Tax Roll.

SECTION II ANNUAL ASSESSMENT REVIEW AND SUMMARY

A. PARCEL REVIEW

Total Acreage: 135.20 Acres

Total Assessed Acreage: 134.172 Acres

1. Single-Family Residential: 116.087 acres (590 Parcels)

2. Commercial: 18.085 acres (18 Parcels)

3. Publicly- Owned: 1.028 acres (2 Parcels)
   a) One (1) parcel owned by the City of Modesto (0.03 acres) which is utilized as a traffic island.
   b) One (1) parcel owned by the Empire School District (1.0 acres) which is utilized as its District Offices.

   According to the §22663 of the California Streets and Highways Code, public property owned by any public agency and in use in the performance of a public function shall not be subject to assessment.

B. ANNUAL ASSESSMENTS

Each parcel receives equal benefits from LMAD No. 2. The annual assessment levied is calculated by dividing the total cost estimate by the total number of acres.

1. The single-family residential properties are levied on a flat rate, which is calculated by dividing the total cost estimate by the number of residential acres and subsequently by the total number of residential parcels.

2. Commercial properties are levied based on actual acreage.

The annual assessment is to be adjusted annually according to the BCI for the San Francisco Bay Area (SF BCI), as reported in the Engineer News Record the first week of March. Due to the unavailability of the SF BCI for the first week of March, the second week reporting must be utilized.

The inflationary adjustment is applied when the district has minimal or negative reserves to offset the total cost estimates for the upcoming fiscal year. The increase for fiscal year 2017-2018 is 0.777208716% (The difference between the March 13, 2017 SF BCI, 6680.37, and the March 14, 2016 SF BCI, 6628.85, divided by the March 14, 2016 SF BCI, 6628.85).

The total annual assessment for LMAD No. 2 for Fiscal Year 2017-2018 is $21,205.39. (Fiscal Year 2016-2017 assessment $21,041.85 x 0.777208716%).

C. PROJECTED ANNUAL ASSESSMENT SUMMARY

1. Single-Family Residential Annual Assessment – 590 Parcels

$21,205.39	Annual Assessment for Fiscal Year 2017-2018
÷ 134.172	Total assessed acres
$ 158.05	Annual assessment per acre
$ 158.05	Annual assessment per Acre
x 116.087	Residential acres
$ 18,347.55	Total residential annual assessment
$ 18,347.55	Total residential annual assessment
÷ 590	# Parcels
$ 31.10	Total residential annual assessment/parcel

* *For levying purposes, the total annual assessment has been rounded to $31.10 per residential parcel for a total annual residential assessment of $18,347.55.*

2. Commercial Annual Assessment – 18 Parcels

APN	Acres	$/Acre	Fiscal Year 2017-2018 Annual Assessment
079-025-005	0.495	$158.05	$ 78.18
079-025-011	1.36	$158.05	$ 214.94
079-025-015	0.01	$158.05	$ 1.70
079-025-017	0.67	$158.05	$ 105.29
079-025-018	0.49	$158.05	$ 77.59
079-025-019	0.66	$158.05	$ 104.43
079-025-020	2.61	$158.05	$ 412.20
079-026-005	0.59	$158.05	$ 94.03
079-026-006	0.21	$158.05	$ 33.92
079-026-007	0.20	$158.05	$ 30.84
079-026-008	1.54	$158.05	$ 242.97
079-026-009	0.16	$158.05	$ 25.85
079-026-010	0.28	$158.05	$ 43.53
079-026-011	0.30	$158.05	$ 47.16
079-026-012	0.29	$158.05	$ 45.71
079-026-013	6.37	$158.05	$ 1,007.34
079-026-014	1.36	$158.05	$ 215.65
079-027-097	0.49	$158.05	$ 76.94

D. COMPARISON TO PREVIOUS FISCAL YEAR

The proposed 2017-2018 annual assessment for single-family residential parcels has increased from $30.85 to $31.10 per parcel. The proposed 2017-2018 annual assessment for commercial parcels has increased from $156.83 to $158.05 per acre.

SECTION 3 FINANCIALS – ANNUAL ASSESSMENT REVENUE & EXPENSE PROJECTIONS

LMAD No. 2 Fund 6490		Estimated FY 2016-17[1]	Proposed FY 2017-18[2]
Beginning Fund Balance		$ (732)	$ (4,944)
Revenue (Cost Center 80020)			
Special Assessments		$ 11,773 [3]	$ 21,205 [4]
Interest		$ (1)	
Estimated - Special Assessments		*$ 9,269* [5]	
Total Revenue		$ 21,041	$ 21,205
Expenses (Cost Center 80020)	Account		
Operating Budget			
Postage Expenses	52025	$ -	
Water Utility Expenses	53043	$ (1,155)	$ (2,000)

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-263

Print

RESOLUTION CONFIRMING THE FISCAL YEAR 2017-18 DIAGRAM AND ASSESSMENT, AND ORDERING THE LEVY AND COLLECTION OF CHARGES WITHIN THE SHACKELFORD LANDSCAPE AND LIGHTING DISTRICT

WHEREAS, the City of Modesto by Resolution No. 2017-183, adopted on May 9, 2017, declared its intent to levy charges or assessments for the purpose of administering the maintenance of seventy-seven 200-watt high pressure sodium street lights in the Shackelford Landscape and Lighting District under the provisions of California Streets and Highways Code Sections 22500 through 22679, more commonly known as the Landscape and Lighting Act of 1972, and

WHEREAS, the charges against the real property are not levied with regard to property values but rather by allocated cost reports prepared by the Engineer of Work, and

WHEREAS, a public hearing was held on June 27, 2017, and

WHEREAS, the City of Modesto has determined and certifies that the charges are either exempt from or in compliance with all the provisions of Proposition 218, which was passed by the voters in November 1996. The City of Modesto has further determined the charges are in compliance with all laws pertaining to the levy of such charges.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it orders the levy and collection of such charges within City of Modesto Shackelford Landscape and Lighting District for Fiscal Year 2017-18, and in each subsequent fiscal year in which the charges may validly be levied; that a certified copy of this resolution

and **attached** documentation shall be delivered to the Auditor-Controller of the County of Stanislaus for placement of such charges on the 2017-18 County Tax Roll, and in each subsequent fiscal year in which the charges may validly be levied.

BE IT FURTHER RESOLVED that the diagram of said assessment district, **attached** hereto, and amount of levy thereon is hereby confirmed.

The foregoing resolution was introduced at a regular meeting of the City Council of the City of Modesto held on the 27th day of June, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following votes:

AYES:	Councilmembers:	Ah You, Kenoyer, Madrigal, Zoslocki, Mayor Brandvold

SECTION I HISTORY

On June 29, 1999, the Shackelford Landscape and Lighting District ("Shackelford LLD") was formed in accordance with the Landscape and Lighting Act of 1972 (California Streets and Highway Code §22500 through §22679) ("the Act") to install and maintain streetlights to deter crime, promote traffic safety, and aid law enforcement officers. All costs for the Shackelford LLD are funded by the annual assessments levied on each property within the district. The Act requires several courses of action on the part of City staff and City Council prior to August 10th of each year.

The Act initially requires the City Council to order, prepare, and file an Engineer's Annual Report for the City Council. This report is prepared for the purpose of detailing the plans and specifications for the maintenance, operation, and servicing of the District, including, but not limited to the materials, equipment, labor, and administrative expenses. The following services maintain facilities and improvements provided by the District as a special benefit to the parcel owners within the District; the cost of the services is paid entirely by the assessments levied by the District:

- Payment to local utility company for monthly power costs of energizing street lights in the District
- Payment to local utility company for maintenance of street lights in the District that the utility company owns (usually those lights that are mounted on wooden poles)
- Maintenance provided by the City of Modesto for street lights in the District that are owned by the City of Modesto (usually those lights that are mounted on steel poles)

Upon City Council's approval of the Engineer's Annual Report, the City Council adopts a resolution declaring its intent to levy and collect assessments within the Shackelford LLD for the following fiscal year and schedules a public hearing. This public hearing and proposed resolution levying the proposed assessments is in accordance with the annual assessment procedures.

Finally, in compliance with the Act, the City Council conducts the public hearing and adopts certain resolutions in accordance with the California Streets and Highways Code §22625 through 22641. The City Clerk is required to give the Modesto Bee notice of the public hearing no less than ten (10) days prior to the scheduled hearing date. All interested persons are afforded the opportunity to be heard during the public hearing. Should there be any protests, whether written or oral, the City Council may choose to continue the hearing to a later date and/or may change any part of the Engineer's Annual Report to address the concerns of the property owner(s). The adopted resolution is then forwarded to the Auditor-Controller of the County of Stanislaus for placement of such charges on the upcoming year's County Tax Roll.

SECTION II ANNUAL ASSESSMENT REVIEW AND SUMMARY

A. PARCEL REVIEW

There are 494 residential parcels within the Shackelford LLD, unless otherwise determined.

B. ANNUAL ASSESSMENTS

Each parcel receives equal benefits from the Shackelford LLD. The annual assessment levied is calculated by dividing the total cost estimate by the total number of parcels within the Shackelford LLD.

The total annual assessment for the Shackelford LLD for Fiscal Year 2017-2018 is $19,459.70. This is based on the amount needed for Fiscal Year 2017-18 based on projected expenses and fund balance.

C. PROJECTED ANNUAL ASSESSMENT SUMMARY

Residential Annual Assessment – 494 Parcels

	$19,459.70	Annual Assessment for Fiscal Year 2017-2018
÷	494	# of Parcels
$	39.39	Annual assessment per parcel

D. COMPARISON TO PREVIOUS FISCAL YEAR

The proposed 2017-2018 annual assessment for residential parcels has increased from $36.10 to $39.39 per parcel.

SECTION 3 FINANCIALS – ANNUAL ASSESSMENT REVENUE & EXPENSE PROJECTIONS

Shackelford LLD Fund 6470		Estimated FY 2016-17[1]	Proposed FY 2017-18
Beginning Fund Balance		$ 25,040	$ 16,129
Revenues (Cost Center 80015)	Account		
Special Assessments	47051	$ 9,968 [2]	$ 19,460 [3]
Interest Revenue on Bank Account	48010	$ (1)	
Estimated - Special Assessments		*$ 7,864* [4]	
Total Revenues		$ 17,830	$ 19,460
Expenses (Cost Center 80015)	Account		
Operating Budget			
Postage Expenses	52025	$ -	$ (100)
Electricity Utility Expenses	53040	$ (14,117)	$ (23,500)
Services City Forces - Interfund	54500	$ (2,035)	$ (3,292)
Estimated - Postage Expenses	*52025*	*$ (100)*	
Estimated - Electricity Utility Expenses	*53040*	*$ (9,383.00)*	
Estimated - Services City Forces - Interfund	*54500*	*$ (1,047.00)*	
Total Expenses		$ (26,741)	$ (26,892)
Ending Fund Balance		$ 16,129	$ 8,697 [5]

[1] The estimated amount shows what has been expended as of 02-28-17. There may be more expenses posted for the fiscal year; these are shown as *Estimated*.

[2] Actual revenue received for FY 2016-17 tax levy.

[3] Proposed levy.

[4] Estimated revenues for second installment of FY 2016-17 tax levy.

[5] Reserve funding equals 32.340% of Annual Operating Cost *(50% is maximum allowable)*

SECTION IV MAINTENANCE & PLAN SPECIFICATIONS

Plans and specifications are available for review in the Public Works Department, located at 512 Jefferson Street, Modesto, CA. For more information, contact Kelly Gallagher, Parks Operations Manager at (209) 524-2330.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-264

Print

RESOLUTION FINDING THAT THE FOLLOWING SUBSEQUENT PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (SCH NO. 2007072023): AMENDMENT TO PRECISE PLAN AREA NO. 23 IN THE VILLAGE ONE SPECIFIC PLAN AREA, TO AMEND THE CONFIGURATION OF 57 SINGLE-FAMILY RESIDENTIAL LOTS WITH ALLEY ACCESS TO 59 STREET-ACCESSED SINGLE-FAMILY RESIDENTIAL LOTS, PROPERTY LOCATED WEST OF CLAUS ROAD AND NORTH OF FLOYD AVENUE

WHEREAS, on October 14, 2008, the City Council of the City of Modesto certified the Final Master Environmental Impact Report ("Master EIR") (SCH No. 2007072023) for the Modesto Urban Area General Plan, and

WHEREAS, New FH, LLC has proposed an amendment to Precise Plan No. 23 in the Village One Specific Plan area to amend the configuration of 57 single-family residential lots with alley access to 59 street-accessed single-family lots, property located west of Claus Road and North of Floyd Avenue; and

WHEREAS, pursuant to Section 21157.1 of the Public Resources Code, the City of Modesto's Community & Economic Development Department prepared an Environmental Assessment Initial Study EA/C&ED 2017-10 ("Initial Study") which analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report, and

WHEREAS, in accordance with CEQA guidelines beginning on June 6, 2017, the City caused to be published a 20-day notice of the City's intent to make a finding that the subsequent project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on June 27, 2017, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed Amendment to Precise Plan No. 23 of the Village One Specific Plan, a copy of which is **attached** hereto as **Exhibit "A"**, and incorporated herein by reference, and based on substantial evidence in the Initial Study makes the following findings:

1. An Initial Study was prepared by the City of Modesto that analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report.

2. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.

3. No new or additional mitigation measures or alternatives are required.

4. The subsequent project is within the scope of the project covered by the Master EIR.

5. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

6. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of approval or determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 27th day of June, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Zoslocki, Mayor Brandvold

City of Modesto
Master EIR Initial Study Environmental Checklist

I. PURPOSE

CEQA allows for the limited environmental review of subsequent projects under the City's Master Environmental Impact Report ("Master EIR" or "MEIR"). This Initial Study Environmental Checklist ("Initial Study") is used in determining whether the proposed Precise Plan Amendment and associated tentative map and Final Development Plan ("Project") is "within the scope" of the project analyzed in the Modesto Urban Area General Plan Master EIR (SCH# 2007072023) (Public Resources Code section 21157.1). When the Initial Study supports this conclusion, the City will issue a finding of conformance.

A subsequent project is "within the scope" of the Master EIR when:

1. it will have no additional significant effects on the environment that were not addressed as significant effects in the Master EIR; and

2. no new or additional mitigation measures or alternatives are required.

"Additional significant effects" means a project-specific effect that was not addressed as a significant effect in the Master EIR. [Public Resources Code Section 21158(d)]

The determination must be based on substantial evidence in the record. "Substantial evidence" means facts, reasonable assumptions predicated upon facts, or expert opinion based on facts. It does not include speculation or unsubstantiated opinion. (CEQA Guidelines Section 15384)

II. PROJECT DESCRIPTION

A. Title: PPA-17-001/TSM-17-003/FDP-17-001—Amendment to Precise Plan No. 23 of the Village One Specific Plan, with Vesting Tentative Subdivision Map and Final Development Plan (The Trails at Falling Leaf)

B. Address or Location: Northwest corner of Floyd Avenue and Claus Road; Modesto, CA

C. Applicant: New FH, LLC (attn.: Randy Bling), c/o Florsheim Homes
1701 W. March Lane, Suite D; Stockton, CA 95207

D. City Contact Person: Katharine Martin, Associate Planner

Project Manager: Katharine Martin
Department: Community and Economic Development, Planning Division
Phone Number: 209-577-5465
E-mail address: kamartin@modestogov.com

E. Current General Plan Designation(s): Village Residential (VR)

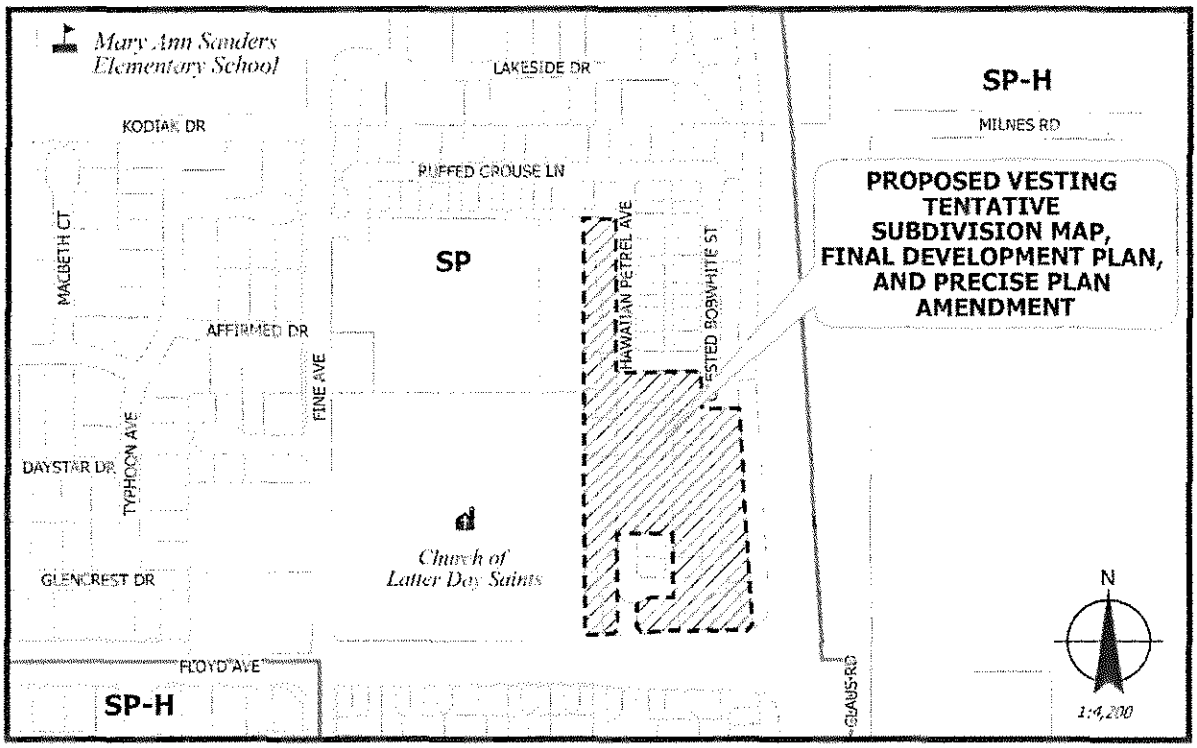
F. Current Zoning Classification(s): SP (Village One Specific Plan)

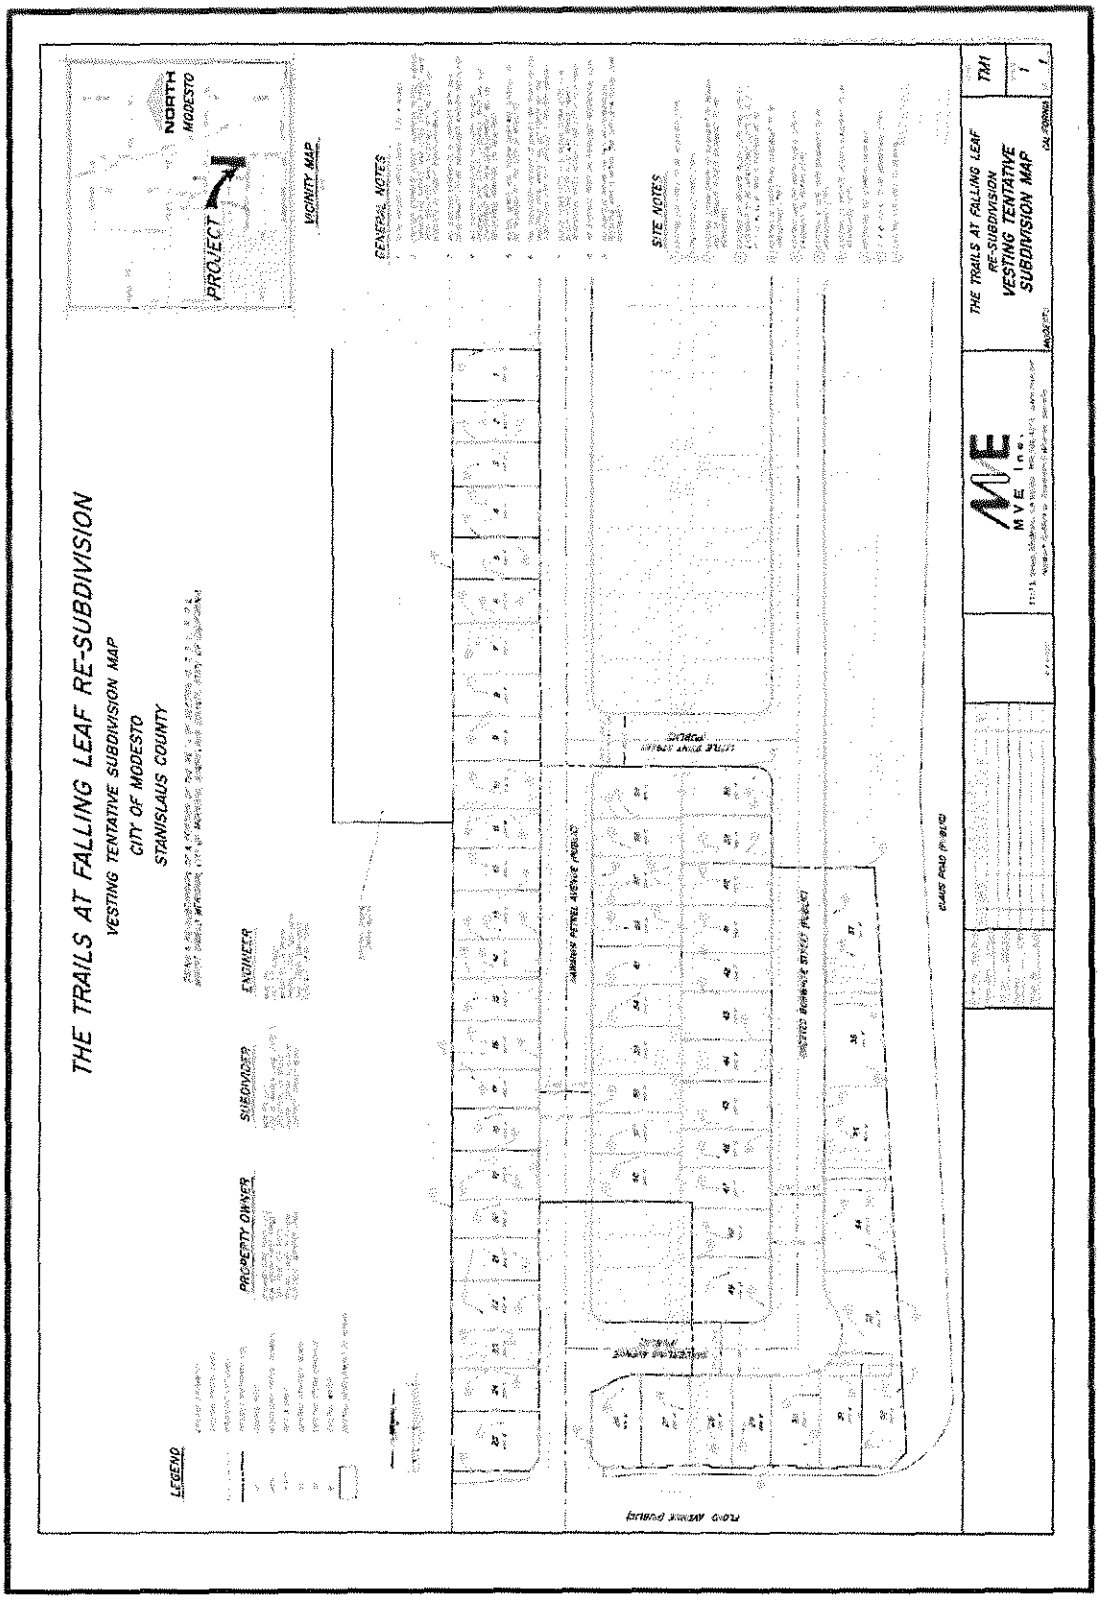
G. Surrounding Land Uses:

North: SP (Specific Plan) Zone, Single-Family Residential uses
South: SP (Specific Plan) Zone, Single-Family Residential uses
East: SP-H (Specific Plan-Holding), Vacant Land, Future Claus Expressway right-of-way
West: SP (Specific Plan) Zone, Church of Latter Day Saints; cellular tower facility, single family residence and vacant land.

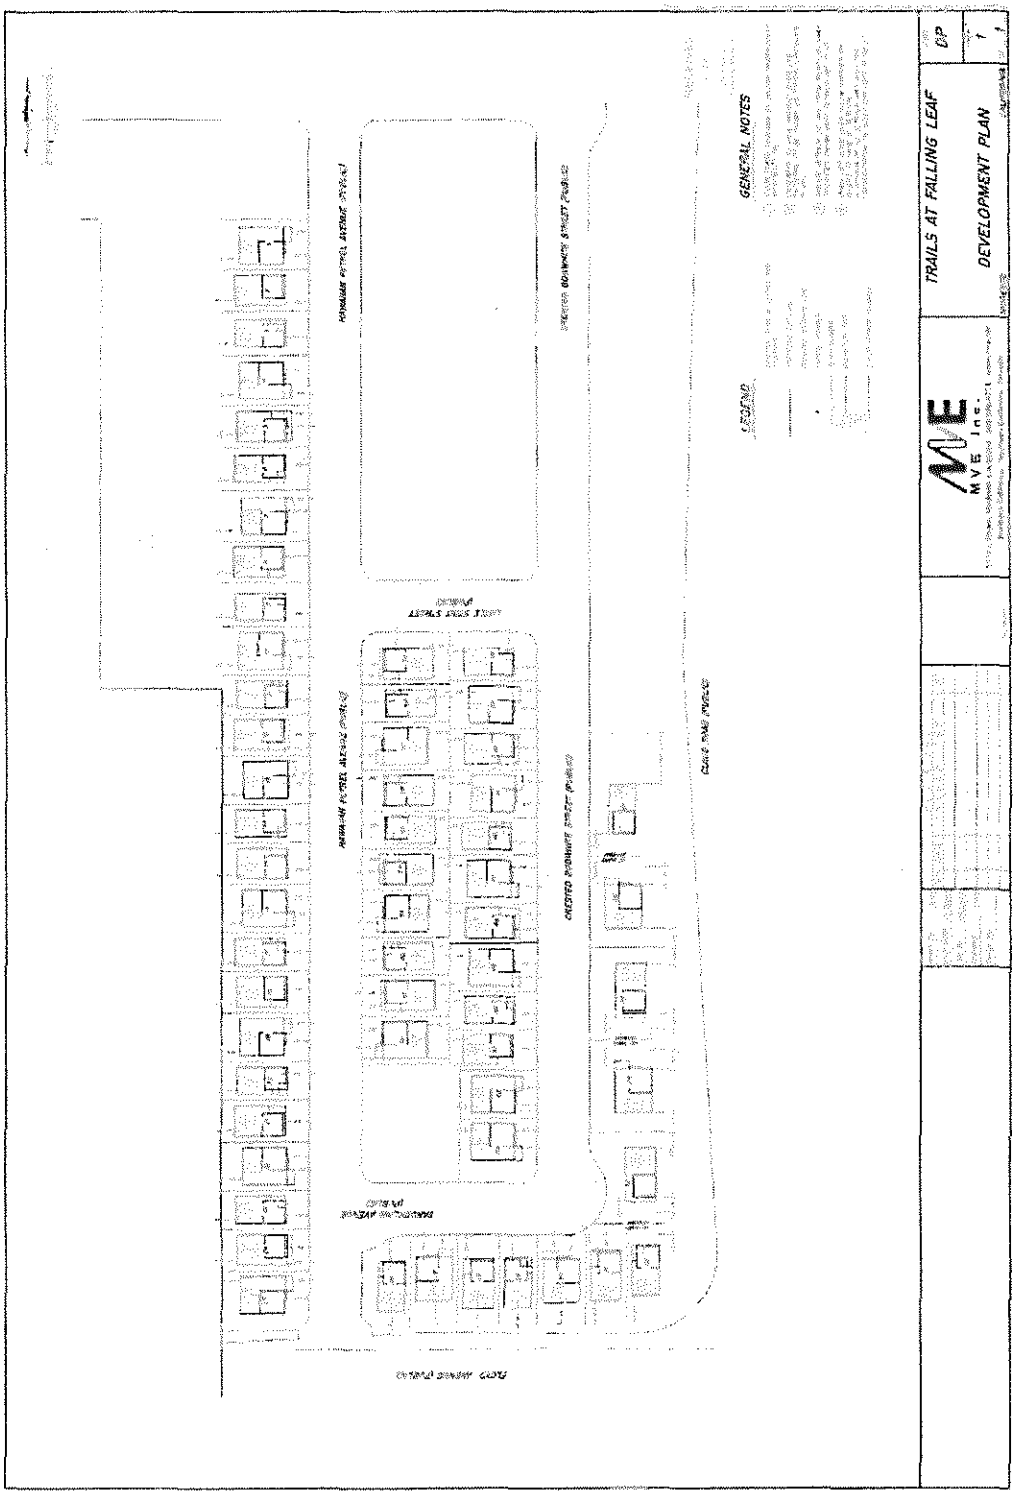
H. Project Description, including the project type listed in Section II.C (Anticipated Future Projects) of the Master EIR (Attach additional maps/support materials as needed for complete record):

Proposal to amend Precise Plan No. 23 of the Village One Specific Plan area, in order to reconfigure an unbuilt alley-loaded portion of the residential Falling Leaf Subdivision Map into a new 59-lot residential subdivision without alleys. Project involves a Final Development Plan for new single-family homes on small lots in accordance to the Village One Specific Plan, and a new vesting tentative subdivision map to re-subdivide a 57-lot portion of the recorded Final Map to create 59 lots.





VESTING TENTATIVE SUBDIVISION MAP
TSM-17-003



SITE PLAN FOR FINAL DEVELOPMENT PLAN: THE TRAILS AT FALLING LEAF
FDP-17-001

I. Other Public Agencies Whose Approval is Required: None

III. FINDINGS/DETERMINATION (SELECT ONE ON THE BASIS OF THE ANALYSIS IN SECTION IV)

1. _X_ Within the Scope - The project is within the scope of the Master EIR and no new environmental document or Public Resources Code Section 21081 findings are required. All of the following statements are found to be true:

A. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.

B. No new or additional mitigation measures or alternatives are required.

C. The subsequent project is within the scope of the project covered by the Master EIR.

D. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

E. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

2. ____ Mitigated Negative Declaration Required - On the basis of the above determinations, the project is not within the scope of the Master EIR. A mitigated negative declaration will be prepared for the project. The following statements are all found to be true:

A. The subsequent project is within the scope of the project covered by the Master EIR.

B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

C. The project will have one or more potential new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures are being required of the project that will reduce the effects to a less-than-significant level.

D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

3.____ Focused EIR Required- On the basis of the above determinations, the project is not within the scope of the Master EIR. A Focused EIR will be prepared for the project. All of the following statements are found to be true:

A. The subsequent project is within the scope of the project covered by the Master EIR.

B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

C. The project will have one or more new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures or alternatives are required as a result.

D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

_____	Associate Planner	April 6, 2017
Project Manager	Title	Date

4. Within the Scope Analysis of this Document:

The Master EIR allows projects to be found within the scope of the MEIR if certain criteria are met. If the following statements are found to be true for all 21 impact categories included in this Initial Study, then the proposed project is addressed by the MEIR analysis and is within the scope of the MEIR. Any "No" response must be discussed.

		YES	NO
(1)	The lead agency for subsequent projects shall be the City of Modesto or a responsible agency identified in the Master EIR.	☒	☐
(2)	City policies which reduce, avoid, or mitigate environmental effects will continue to be in effect and, therefore, would be applied to subsequent projects where appropriate. The policies are described in the list of policies in place and mitigation measures attached to the Initial Study template. Project impacts would be mitigated to a less-than-significant level using MEIR mitigations only.	☒	☐
(3)	Federal, State, regional, and Stanislaus County regulations do not change in a manner that is less restrictive on development than current law (i.e., would not offer the same level of protection assumed under the Master EIR).	☒	☐
(4)	No specific information concerning the known or potential presence of significant resources is identified in future reports, or through formal or informal input received from responsible or trustee agencies or other qualified sources.	☒	☐
(5)	The development will occur within the boundaries of the City's planning area as established in this Urban Area General Plan.	☒	☐
(6)	Development within the project will comply with all appropriate mitigation measures contained and enumerated in the 2008 General Plan Master EIR.	☒	☐

5. Currency of the Master EIR Document

The MEIR should be reviewed on a regular basis to determine its currency, and whether additional analysis/mitigation should be incorporated into the MEIR via a Supplemental or Subsequent EIR (CEQA Section 21157.6). Staff has reviewed Sections 1 through 21 of this document in light of the criteria listed below to determine whether the MEIR is current. The analysis contained within the Master EIR is current as long as the following circumstances have not changed. Any "no" response must be explained.

		YES	**NO**
(1)	Certification of the General Plan Master EIR occurred less than five years prior to the filing of the application for this subsequent project.	☐	☒
(2)	This project is described in the Master EIR and its approval will not affect the adequacy of the Master EIR for any subsequent project because the City can make the following findings:	☒	☐
(a)	No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified.	☒	☐
(b)	No new information, which was not known and could not have been known at the time the Master EIR was certified as complete, has become available.	☒	☐
(c)	Policies remain in effect which require site-specific mitigation, and avoidance or other	☒	☐

	mitigation of impacts as a prerequisite to future development.		

Discussion:

(1) The General Plan Master EIR was certified on October 14, 2008, so more than five years has passed since the MEIR was certified. However, the analysis contained in the MEIR is still adequate for subsequent projects, as documented in the discussion below.

(2) The project is consistent with the analysis contained in the MEIR. This is documented in the discussion of the individual issue areas of this initial study.

(2)(a) There have been no substantive changes to the General Plan since the MEIR was certified that would create additional significant environmental effects that were not analyzed by the MEIR.

(2)(b) There has been no new information that would affect the adequacy of the analysis contained in the MEIR.

(2)(c) All policies contained in the MEIR that require site-specific mitigation or avoidance of impacts remain in effect and will be applied to the project as appropriate.

IV. ENVIRONMENTAL ANALYSIS

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, discloses whether the proposed project may cause any project-specific significant effect on the environment that was not examined in the Final Master EIR (MEIR) for the General Plan and whether new or additional mitigation measures or alternatives may be required as a result. The Initial Study thereby documents whether or not the project is "within the scope" of the Master EIR.

Pursuant to Public Resources Code Section 21157.1, no new environmental document or findings are necessary for projects that are determined to be within the scope of the MEIR. Adoption of the findings specified in Section III.1, above after completion of the Initial Study fulfills the City's obligation in that situation.

All environmental effects cited reflect 2025 conditions resulting from the Urban Area General Plan, as identified in the Master EIR.

The environmental impact analysis in the Master EIR for the Urban Area General Plan is organized in twenty-one subject areas. The following analysis is based on the impact analyses contained in Chapter V of the Master EIR. For ease of reference, the sections are numbered in the same order as the analyses in Chapter V.

1. TRAFFIC AND CIRCULATION

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable traffic and circulation impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Increased automobile traffic will result in roadway segments (see MEIR on Table 1-7, pages V-1-32 to V-1-34) operating at LOS D, Modesto's significance threshold for automobile traffic, or lower (LOS E or F).

Effect: The substantial increase in traffic relative to the existing load and capacity of the street system will cause, either individually or cumulatively, the violation of automobile service standards established by StanCOG's Congestion Management Plan for designated roads and highways.

Effect: A substantial increase in automobile vehicle miles traveled and automobile vehicle hours of travel and a decrease in average automobile vehicle speed (see MEIR Table 1-6, page V-1-31).

Cumulative Impacts

Effect: Potential for growth inducement or acceleration of development resulting from highway and local road projects.

Effect: Substantial increase in traffic in relation to the existing traffic load and capacity of the street system, including a violation, either individually or cumulatively, of an automobile LOS standard established by the Congestion Management Plan for designated roads and highways.

Effect: Increased demand for capacity-enhancing alterations to existing roads or automobile traffic reduction.

Other impact categories affected by Traffic and Circulation are addressed throughout this Initial Study (see also Section 2, Degradation of Air Quality; Section 3, Generation of Noise; Section 7 Loss of Sensitive Wildlife and Plant Habitat; Section 8, Disturbance of Archaeological/Historic Sites; Section 14 Increased Demand for Fire Services; Section 18, Energy; Section 19, Visual Resources; Section 20, Land Use and Planning, and Section 21, Climate Change).

b. Master EIR and/or New Mitigation Measures Applied to the Project

Traffic and Circulation mitigation measures pertinent to this project are found on MEIR pages V-1-9 through V-1-28. All mitigation measures appropriate to the project, including any new measures, will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures regarding traffic from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-1.B of the Master EIR provides analysis of Traffic and Circulation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: A subsequent development project will have a new significant effect on the environment if it would exceed the following criteria:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1. TRAFFIC AND CIRCULATION				
1) The proposed project exceeds traffic generation assumptions in the Master EIR for the site by 100 trips or more and City Engineering and Transportation staff has determined that the project would have additional potentially significant project-specific effects that are not avoided or reduced by the Master EIR's mitigation measures.	☐	☐	☐	☒
2) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads or highways?	☐	☐	☐	☒
3) The proposed project would cause additional roadway segments in the General Plan area to exceed LOS D and/or cause additional violations of standards in the Congestion Management Plan, and/or cause an increase in automobile vehicle miles or vehicle hours of travel or a decrease in automobile travel speed, as compared to the impacts disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project would cause emergency response times to exceed acceptable standards established by the Fire Department, as compared to impacts disclosed in the Master EIR (see Section 14, Increased Demand for Fire Services).	☐	☐	☐	☒
5) The proposed project would result in less parking than required by the Municipal Code or as determined by staff.	☐	☐	☐	☒
6) The proposed project would conflict with adopted policies, plans, or programs that support alternative transportation, including, but not limited to the Regional Transportation Plan, the Sustainable Communities Strategy, the Bicycle Action Plan, and so on.	☐	☐	☐	☒
7) The proposed project would result in an increase	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
in automobile vehicle miles traveled on a per capita basis, in excess of that considered in the Urban Area General Plan MEIR.				

Discussion:

(1) The project site is an unbuilt 57-lot portion of the recorded Falling Leaf Subdivision Map. All street infrastructure is in place and the project would re-subdivide the existing lots while keeping the infrastructure in place. The proposed re-subdivision would remove alleys from the site plan, allowing for front-loaded residential lots. Two new lots would be added to the original site plan, which would not result in an increase in traffic compared to what was originally approved for the site.

(2) The proposed project would not exceed a level of service standard established by the county congestion management agency (StanCOG).

(3) There are no significant changes in the level of service as a result of the project and therefore there are no significant cumulative (long term) traffic impacts.

(4) Police and Fire Staff have reviewed this proposal and have indicated that there is no emergency access problem.

(5) The single-family units will provide parking in accordance to the residential requirements of the Municipal Code.

(6) The proposed project has been reviewed by Traffic, Planning and Transit staff, who indicated no concerns. The project would not conflict with any adopted plans for alternative transportation.

(7) The proposed project would not result in a significant increase in automobile vehicle miles traveled (per capita) in excess of what was considered in the Urban Area General Plan.

2. DEGRADATION OF AIR QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable air quality impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Expected automobile traffic will result in increased operational emissions of reactive organic gases (ROG) and oxides of nitrogen (NO_X) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased emissions of particulate matter 10 microns or less (PM_{10}) and 2.5 microns or less in diameter ($PM_{2.5}$) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased carbon monoxide (CO) levels in the project area (see MEIR Table 2-7, page V-2-26, and Table 2-8, page V-2-27).

Cumulative Impacts

The Master EIR indicates the same impacts identified as direct impacts above will contribute to regional impacts on air quality for the criteria pollutants ROG, NO_x, PM_{10}, and $PM_{2.5}$.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Air quality mitigation measure(s) pertinent to the proposed project are found on pages V-2-13 through V-2-24 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes AQ-42 through AQ-44 and AQ-46 through AQ-50 from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-2.B of the Master EIR is the analysis of air quality impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
2. DEGRADATION OF AIR QUALITY				
1) The proposed project exceeds the project-level emissions thresholds established for CO, ROG, NO_x, PM_{10}, and $PM_{2.5}$ by the San Joaquin Valley Air Pollution Control District (SJVUAPCD) and is not consistent with the development assumptions for the project site, as established in the Urban Area General Plan and Master EIR.	☐	☐	☒	☐
2) The proposed project does not incorporate the best management practices established by the SJVAPCD for CO, ROG, NO_x, PM_{10}, and $PM_{2.5}$.	☐	☐	☒	☐
3) The proposed project does not comply with the air quality policies in the Modesto Urban Area General Plan.	☐	☐	☐	☒
4) The proposed project would expose sensitive	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
receptors to pollutant concentrations in excess of those expected to occur as a result of implementation of the Urban Area General Plan.				
5) The proposed project would create objectionable odors affecting a substantial number of people.	☐	☐	☒	☐

Discussion:

(1) The project involves the removal of finished alleyways in a portion of the recorded and improved Falling Leaf Subdivision Map that had infrastructure improvements installed but no homes built. The proposal is to allow for front-loaded single-family homes rather than homes with garages accessed from the alleyways. Emissions associated with the project would result from construction activity, with residential traffic volume at an amount no higher than what was originally assumed for the site.

(2) The project was referred to the San Joaquin Valley Unified Air Pollution Control District (SJVUAPCD), who indicated no concerns.

(3) The project is consistent with the City's policies regarding air quality. Therefore, project-specific effects will be less than significant.

(4) The proposed residential subdivision is not in itself a significant contributor to air pollution levels. The primary source of air pollution associated with the project would be residential traffic related, and would not result in a significant impact. The PM10 emissions created through construction activity will be mitigated as called for by the MEIR with the measures listed above.

(5) Construction activities for the project could potentially include the application of architectural coatings and asphalt paving materials that could generate localized temporary odors. The use of diesel-powered construction equipment could also generate localized temporary odors. Construction activities will be mitigated as called for by the MEIR with the mitigation measures listed above. Further, uses permitted within the proposed residential development would not create objectionable odors that would affect a substantial number of people.

3. GENERATION OF NOISE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable noise impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Future automobile traffic noise levels and roadway construction and maintenance activities resulting from development of the Urban Area General Plan will exceed the City's noise thresholds at

various locations, but particularly in areas adjacent to heavily traveled roadways (see MEIR Table 3-3, page V-3-10, and Figure VII-2 and Table 3-6, pages V-3-18 and V-3-19).

Effect: Expected noise from airport operations and airport construction projects may expose up to 468 dwellings and three churches to noise levels of 65 dB CNEL and up to eight dwellings to noise levels of 70 dB CNEL.

Effect: Expose noise-sensitive land uses to noise from the construction of bicycle and transit projects.

Effect: Expose noise-sensitive land uses to noise from freight and passenger rail operations.

Cumulative Impacts

Effect: Traffic from development in the City of Modesto would, when combined with traffic from new development in the County and other cities, contribute to a cumulative increase in roadside noise levels on major roads and highways throughout Stanislaus County.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Noise policies and mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-3-11 through V-3-15 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and any new measures are listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes N-3 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-3.B of the MEIR discloses noise impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of the proposed project's effects are based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
3. GENERATION OF NOISE				
1) The proposed project will exceed the standards for noise level and hours of operation established by the Modesto noise ordinance.	☐	☐	☐	☒
2) The proposed project will not comply with the noise policies of, or otherwise be inconsistent with,	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
the Modesto Urban Area General Plan.				
3) The proposed project will result in an increase in ambient noise levels in the project vicinity above those disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project will result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels disclosed in the Master EIR implementation of the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1-4) The project would not generate a significant amount of noise. There will be construction-related noise associated with the project involving heavy equipment; however, mitigation measures N-1 and N-2 will be applied to the project, which would mitigate those impacts to a less than significant level.

4. EFFECTS ON AGRICULTURAL LANDS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on agricultural lands expected after application of mitigations/policies:

Direct Impacts

Effect: Between 1995 and 2025, development of the Urban Area General Plan may convert up to approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area to urban uses.

Effect: Approximately 1,200 acres of urban development along a 28.5-mile boundary 350 feet wide between urban and agricultural uses could be affected by continued agricultural operations, including noise, dust, and chemical overspray or drift.

Cumulative Impacts

Effect: Growth within Modesto's planning area would contribute considerably to the loss of agricultural land within Stanislaus County, accounting for the conversion of as much as approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area from 1995 to 2025.

b. Master EIR and/or New Mitigation Measures Pertinent to the Project

Agricultural land mitigation measures pertinent to the proposed project are found on pages V-4-6 to and V-4-8 of the Master EIR. All mitigation measures appropriate to the project and any new

mitigation to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures regarding agricultural lands from the MEIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-4.B of the Master EIR discloses the impacts resulting from the implementation of the Urban Area General Plan on agricultural lands. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
4. EFFECTS ON AGRICULTURAL LANDS				
1) The proposed project is inconsistent with the Urban Area General Plan's policies relating to agricultural land.	☐	☐	☐	☒
2) The proposed project will either directly or indirectly result in the development of land outside the 2008 Urban Area General Plan's planning area boundary.	☐	☐	☐	☒
3) The proposed project will conflict with existing zoning for agricultural use, or there is an existing Williamson Act contract on the project site.	☐	☐	☐	☒
4) The proposed project will involve other changes in the existing environment not anticipated in the Master EIR which, due to their location or nature, could result in conversion of farmland to non-agricultural use.	☐	☐	☐	☒

Discussion:

(1) The site is comprised of 57 finished but unbuilt residential lots within the Falling Leaf Subdivision proposed to be re-subdivided into 59 residential lots for the development of single-family homes. The site is not used for agricultural purposes.

(2) The site is within the Village One Specific Plan area inside the Planned Urbanized Area. The project is not located outside of the 2008 planning area boundaries.

(3) The project site is not zoned for agricultural uses nor is under a Williamson Act contract.

(4) The project will not involve changes to the existing environment that could result in the conversion of farmland to non-agricultural uses. The surrounding properties are developed with single-family residential uses, a church and right-of-way for the future Claus Road expressway.

5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on long-term water supplies expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts have been disclosed in the Master EIR.

Cumulative Impacts

Effect: Operational yields of the Modesto and Turlock subbasins, both of which underlie the City of Modesto, are unknown, although the City is participating in a study with the United States Geological Survey in order to quantify the operational yields of both subbasins. Groundwater withdrawals from both basins by the City, when combined with other users' withdrawals, may result in overdrafting both subbasins.

Effect: Despite available options, during drought years, significant water shortages are forecast for the San Joaquin River basin, which includes both the Modesto and Turlock subbasins, by 2020. Modesto would make a cumulatively considerable contribution to the cumulative impact on water supply under drought conditions.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Water supply mitigation measures pertinent to the proposed project are found on pages V-5-6 through V-5-12 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures regarding water supply from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-5.B of the Master EIR discloses impacts on long-term water supplies resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES				
1) The proposed project is inconsistent with water supply policies in the Urban Area General Plan.	☐	☐	☐	☒
2) Water demand for the proposed project will exceed estimates for similar projects or for development on the project site anticipated in the Urban Area General Plan or sufficient water supplies are not otherwise available to serve the project from existing entitlements and resources.	☐	☐	☐	☒
3) The proposed project would deplete groundwater supplies to a greater degree than anticipated in the Urban Area General Plan or would interfere with groundwater recharge.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the water supply policies in the General Plan.

(2) The project was referred to Land Development Engineering staff who indicated no concerns with water supply or demands of the project.

(3) The proposed project is consistent with the ground water demands assumed in the General Plan. The project would not have a significant effect on ground water recharge or depletion of long-term water supplies.

6. INCREASED DEMAND FOR SANITARY SEWER SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sanitary sewer services after application of mitigations/policies:

Direct Impacts

Effect: Development resulting from implementation of the Urban Area General Plan will require substantial new sewage treatment and disposal capacity, treatment plant improvements, sewer mains and collection lines, and pump stations. The Wastewater Master Plan anticipates the need for these facilities and its EIR evaluates the impact of developing those facilities. Potential impacts include degradation of water quality through erosion and chemical releases; localized flooding; construction noise; exposure of construction workers and the public to hazardous materials; and on the habitat of

the elderberry longhorn beetle, burrowing owl, and Swainson's hawk, as well as certain other regulated habitats. All of these impacts are mitigated to a less-than-significant level.

Additional impacts that are not mitigated to a less-than-significant level include loss of farmland cause by construction of the Phase IA tertiary treatment facility at the Jennings Road Secondary Treatment Facility, an increase in pollutant loads from increased wastewater flows to the San Joaquin River, and an increase in noise and criteria air pollutants due to construction activities, including traffic.

Cumulative Impacts

Effect: No additional cumulative impacts were identified in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Sewer service mitigation measures pertinent to the proposed project are found on pages V-6-3 through V-6-8 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-6.B of the Master EIR discloses impacts on the Increased Demand for Sanitary Sewer Service resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
6. INCREASED DEMAND FOR SANITARY SEWER SERVICES				
1) The proposed project is inconsistent with wastewater policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project will generate sewage flows greater than those anticipated in the Urban Area General Plan for the project site.	☐	☐	☐	☒
3) The proposed project will result in a determination by the wastewater treatment provider which serves or may serve the project that it has inadequate capacity to serve the project's projected demand in addition to the provider's	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
existing commitments.				

Discussion:

(1) The project is consistent with the wastewater policies in the General Plan.

(2-3) The project was referred to Land Development Engineering staff, who indicated no concerns with generation of sewer flows or capacity generated by the project.

7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sensitive wildlife and plant habitat expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant impacts on sensitive wildlife and plan habitat are expected to occur with the application of the policies contained in the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will contribute to the cumulative impact of habitat loss in the San Joaquin Valley. Requiring density development than has occurred in the past or that is expected in the future would minimize the City's contribution to the cumulative loss of habitat. Nonetheless, this is a significant and unavoidable impact.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Wildlife and plant habitat mitigation measures pertinent to the proposed project are found on pages V-7-17 through V-7-24 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes SWPH-13, Table V-7-1(j), Policies for Sensitive Biological Habitats, Burrowing Owls, from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-7.B of the Master EIR discloses impacts on the Loss of Sensitive Wildlife and Plant Habitat resulting from implementation of the Urban Area General Plan. The following is an analysis of

whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT				
1) The project is inconsistent with the policies pertaining to the loss of sensitive wildlife and plant habitat contained in the Urban Area General Plan.	☐	☐	☒	☐
2) Consultation with the California Department of Fish and Game or the U.S. Fish and Wildlife Service determines that the project would have a significant effect on a candidate, sensitive, or special status species in excess of the impact disclosed in the Master EIR.	☐	☐	☐	☒
3) The proposed project would have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act through direct removal, filling, hydrological interruption, or other means, in excess of the impact disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project would substantially interfere with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites.	☐	☐	☐	☒
5) Conflict with local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.	☐	☐	☐	☒
6) The proposed project would conflict with provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan.	☐	☒	☐	☒

Discussion:

(1) The project involves the re-subdivision of a 57-lot portion of the Falling Leaf Subdivision Map into 59 single-family residential lots, with the removal of finished alleyways serving the original 57-lot configuration. The lots to be re-subdivided are considered finished lots, but have not been constructed with new homes.

Burrowing owls, which are listed in the MEIR as a Special Status Wildlife Species, have been known to establish nests in burrows in the vicinity of the project site. Burrowing Owl nests were identified in a storm-drain basin located at the northeast corner of Bear Cub Lane and Kodiak Drive, approximately 1000 feet east of the project site. The owls were passively relocated in 2013 in accordance with California Department of Fish and Wildlife Guidelines in order to complete needed improvements to the basin.

If Burrowing Owls are present on the project site at the time of construction, disturbance could destroy occupied nests. Construction activities during the owls' breeding season could result in the loss of fertile eggs or nestlings, or lead to nest abandonment. The loss of occupied Burrowing Owl habitat (habitat known to have been occupied by owls during the nesting season within the past three years), or reduction in the number of owls within the County, directly or indirectly through nest abandonment or reproductive suppression, is considered to be a significant impact the California Department of Fish and Wildlife. Additionally, raptors, including owls and their nests, are protected under both federal and state laws and regulations, including the Migratory Bird Treaty Act and California Fish and Game Code Section 3503.5. Implementation of the mitigation measures SWPH-13, Table V-7-1, from the MEIR would reduce the potential impact on this species to a less-than-significant level.

(2) The California Department of Fish and Wildlife were consulted in the course of preparing the General Plan MEIR, and implementation of mitigation measures recommended by the DFW would reduce impacts to sensitive species to less than significant.

(3) The site does not qualify as a federally protected wetland per Section 404 of the Clean Water Act.

(4) The project site is not a biologically sensitive site as defined by Figures V-7-1a through V 7-1e of the MEIR.

(5) The project would not interfere with local policies or ordinances protecting biological resources.

(6) The proposed project would not conflict with any adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan.

8. DISTURBANCE OF ARCHAEOLOGICAL/HISTORICAL SITES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on archaeological/historical sites expected after application of mitigations/policies:

Direct Impacts

Effect: Modification resulting in a substantial adverse change in the significance of a historic resource or the demolition of a listed or eligible historic resource.

Effect: The modification or demolition of a structure more than 50 years in age may be significant.

Effect: Discovery of archaeological resources in areas outside of the riparian corridors, as a result of construction activities.

Effect: Construction in an area of high archaeological sensitivity.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Archaeological or historic mitigation measures pertinent to the project being analyzed in this Initial Study are found on page V-8-16 through V-8-20 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-8.B of the MEIR discloses impacts on archaeological/historical resources resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
8. DISTURBANCE OF ARCHAEOLOGICAL/ HISTORICAL SITES				
1) The proposed project is inconsistent with the archaeological/historical resource policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would demolish a building eligible for listing as a historic resource or remove a landmark from the Modesto inventory.	☐	☐	☐	☒
3) The proposed project would modify or demolish a structure more than 50 years in age.	☐	☐	☐	☒
4) The project would adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources.	☐	☐	☐	☒
5) The project would adversely affect a Tribal Cultural Resource identified and/or defined consistent with Public Resources Code section	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
5024.1(c).				

Discussion:

(1) The project is consistent with the archeological and historical resource policies in the General Plan.

(2-3) The project site is comprised of finished yet unbuilt single-family residential lots. No buildings are to be altered or demolished as a result of the project.

(4) The project would not affect a resource that is listed or eligible for listing in the California Register of Historic Resources.

(5) The project would not conflict with local policies affecting biological resources.

9. INCREASED DEMAND FOR STORM DRAINAGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on storm drainage expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: The population of Stanislaus County is projected to increase in a fashion similar to that of Modesto, resulting in additional urban development and associated increases in impervious surface area and associated increases in storm water runoff. Cumulative hydrologic impacts of storm water flows from Modesto urban areas and other areas of the County could occur due to the fixed capacity of MID and TID irrigation canals to convey drainage west to the San Joaquin River. If drainage channels in some areas prove insufficient to handle the increased drainage discharges, existing storm water runoff from urban and agricultural areas during large storm events would have to be interrupted until water levels receded to a point allowing the resumption of discharges to the channel. Ceasing discharges to drainage channels could cause inundation in and around the drainage conveyance pipeline systems, surface drainage channels, detention basins, and other urban areas. This cumulative impact is considered significant and unavoidable.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Storm Drainage mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-9-4 through V-9-9. All mitigation measures appropriate to the project to be

incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes: SD-9 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-9.B of the MEIR discloses impacts on the demand for storm drainage resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
9. INCREASED DEMAND FOR STORM DRAINAGE				
1) The proposed project is inconsistent with the storm drainage policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or offsite, as compared to impacts anticipated to result from the Urban Area General Plan or create substantial unanticipated sources of polluted runoff.	☐	☐	☐	☒
3) The proposed project does not utilize Low Impact Development strategies to reduce runoff from the site and increase infiltration, resulting in no net increase in runoff before and after development.	☐	☐	☐	☒

Discussion:

(1) The proposed project is consistent with the storm drainage policies in the Urban Area General Plan.

(2) The project was referred to the Land Development Engineering Department who indicated no concerns with storm water runoff. The project will not contribute additional water runoff that would exceed the capacity of the storm drainage system.

(3) The project will utilize low impact strategies and meet the standards contained in the "Guidance Manual for New Development-Storm Water Quality Control Measures." This requirement will be implemented as a condition of project approval.

10. FLOODING AND WATER QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on flooding and water quality expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Flooding and Water Quality mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-10-6 through V-10-9 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes: FW-13 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-10.B of the Master EIR provides analysis of Flooding and Water Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
10. FLOODING AND WATER QUALITY				
1) The proposed project is inconsistent with the flooding and water quality policies in the Urban Area General Plan.	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
2) The proposed project does not comply with the regulatory requirements of the federal Clean Water Act or the State Porter-Cologne Act.	☐	☐	☐	☒
3) The proposed project would place more housing within a 100-year flood hazard zone than assumed in the Urban Area General Plan.	☐	☐	☐	☒
4) The proposed project would place structure within a 100-year flood hazard area so that they would impede or redirect floodwater or would substantially alter the existing on-site drainage pattern or a watercourse, in such a way as to cause flooding on- or offsite.	☐	☐	☐	☒
5) The proposed project does not comply with Modesto's Guidance Manual for New Development Storm Water Quality Control Measures.	☐	☐	☐	☒
6) The proposed project would violate water quality standards or waste discharge requirements.	☐	☐	☐	☒
7) The proposed project would substantially alter the existing drainage pattern of the site or area or a watercourse in a manner that would result in substantial erosion or siltation on- or offsite in excess of the assumptions of the Urban Area General Plan.	☐	☐	☐	☒
8) The proposed project would create or contribute runoff, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff, not expected as part of Urban Area General Plan implementation.	☐	☐	☐	☒

Discussion:

(1) The proposed project is consistent with the flooding and water quality policies in the Urban Area General Plan.

(2) The project would comply with the Federal Clean Water Act and the Porter Cologne Act requirements.

(3-4) The project site is not within a 100-year flood hazard zone as established by the Federal Emergency Management Agency (FEMA) Flood Rate Insurance Map 06099C0345E dated September 26, 2008.

(5) The project will comply with the Guidance Manual for New Development Storm Water Quality Control Measures (MIER Policy SD-11). This will be implemented as a condition of project approval.

(6) The project will not violate water quality standards or waste discharge requirements.

(7) The project would not substantially alter the existing drainage pattern of the site, area or a watercourse in a manner that would result in erosion or siltation.

(8) The City's Land Development Engineering Staff have reviewed the project and indicated no concerns that the project would cause significant flooding or unanticipated sources of runoff. The project will not contribute additional water runoff that would exceed the capacity of the storm drainage system.

11. INCREASED DEMAND FOR PARKS AND OPEN SPACE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on parks and open space expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Parks and open space mitigation measures pertinent to the proposed project are found on pages V-11-3 through V-11-9 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-11.B of the MEIR discloses impacts of the Urban Area General Plan on parks and open space. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
11. INCREASED DEMAND FOR PARKS AND OPEN SPACE				
1) The proposed project is inconsistent with the parks and open space policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would eliminate parks or open space.	☐	☐	☐	☒
3) The proposed project would cause an increase in the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility in question would occur or be accelerated or the proposed project would include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the parks and open space policies in the General Plan.

(2) The project would not eliminate an existing park or designated open space.

(3) The project would result in an increase in the use of existing park facilities; however, deterioration or other physical changes to the facilities are not expected to occur as a result of the project.

12. INCREASED DEMAND FOR SCHOOLS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on school facilities expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR. By statute, the impact of new students is considered to be mitigated below a level of significance by payment of school impact fees and the exercise of any or all of the financing options set out in Government Code Section 65997.

Cumulative Impacts

Effect: Similar to direct impacts of implementation of the Urban Area General Plan, no residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. As long these policies are applied to all subsequent projects, no new mitigation is necessary. Further, payment of school impact fees and compliance with SB 50 is statutorily deemed to be full mitigation of school impacts (Government Code Section 65995).

The following schools mitigation measures on pages V-12-5 through V-12-7 of the Master EIR are pertinent to the proposed project. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures are listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-12.B of the Master EIR discloses impacts resulting from implementation of the Urban Area General Plan associated with increased demand for schools. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
12. INCREASED DEMAND FOR SCHOOLS				
1) The proposed project is inconsistent with the policies relating to schools in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project does not comply with SB 50/Proposition 1A funding provisions, or succeeding measures which state that compliance results in less-than-significant impacts on schools.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the policies relating to schools in the General Plan.

(2) The project was referred to Modesto City Schools and Sylvan Schools who indicated no opposition to the project.

13. INCREASED DEMAND FOR POLICE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on police services expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Police services mitigation measures pertinent to the proposed project are found on pages V-13-2 through V-13-5 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-13.B of the Master EIR discloses impacts on police services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
13. INCREASED DEMAND FOR POLICE SERVICES				
1) The proposed project is inconsistent with policies relating to police services in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.				

Discussion:

(1) The project is consistent with the policies relating to police services in the General Plan.

(2) The project would not result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives. The project meets City Standards for emergency services access.

14. INCREASED DEMAND FOR FIRE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on fire services expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Fire Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-14-4 through V-14-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-14.B of the Master EIR discloses impacts on fire services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
14. INCREASED DEMAND FOR FIRE SERVICES				
1) The proposed project is inconsistent with the fire service policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	☐	☐	☐	☒
3) The proposed project, based upon substantial evidence, would cause the erosion or elimination of fire protection services in adjoining fire protection districts.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the fire service policies in the General Plan.

(2) The project would not result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives.

(3) The project would not significantly impact adjacent fire districts or result in the elimination of fire protection services.

15. GENERATION OF SOLID WASTE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on solid waste expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Solid waste mitigation measures pertinent to the proposed project are found on pages V-15-4 through V-15-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-15.B of the Master EIR discloses solid waste impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
15. GENERATION OF SOLID WASTE				
1) The project is inconsistent with the solid waste policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The County is unable to expand its solid waste disposal capacity, as expected, causing all new development to result in cumulative impacts on the County's disposal capacity.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the solid waste policies in the General Plan.

(2) This project was referred to the Solid Waste Division for review, who indicated no concerns over service to the project area.

16. GENERATION OF HAZARDOUS MATERIALS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts regarding hazardous materials expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Hazardous materials mitigation measures pertinent to the proposed project are found on pages V-16-8 through V-16-13 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-16.B of the Master EIR discloses impacts on hazardous materials resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
16. GENERATION OF HAZARDOUS MATERIALS				
1) The project is inconsistent with the hazardous materials policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.	☐	☐	☐	☒
3) The proposed project would be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would create a significant hazard to the public or the environment.	☐	☐	☐	☒
4) The proposed project would be constructed on a contaminated site not known to the State of	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
California as of March 2008.				

Discussion:

(1) The project is consistent with the hazardous materials policies in the General Plan.

(2) The project does comply with all applicable federal, state, and county standards and regulations relative to the handling, storage, disposal, and transport of hazardous or toxic materials or wastes. (No hazardous materials will be involved with this project).

(3) The project would not be located on a site, which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would not create a significant hazard to the public or the environment.

(4) The project site is not known to contain any contaminants.

17. GEOLOGY, SOILS, AND MINERAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts related to geology, soils, and mineral resources expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Geology, soils, and mineral resource mitigation measures pertinent to the proposed project are found on pages V-17-9 and V-17-10 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of the proposed project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-17.B of the Master EIR discloses geology, soils, and mineral resource impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
17. GEOLOGY, SOILS, AND MINERAL RESOURCES				
1) The project is inconsistent with policies relating to geology, soils, and mineral resources contained in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would expose people or structures to potential substantial adverse effects including the risk off loss, injury, or death involving fault rupture, strong seismic activity; location on an expansive soil; result in the loss of topsoil; location on soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems in areas where sewers are not available for the disposal of wastewater; result in the loss of known mineral resources that would be of value to the region and the state; or result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with policies relating to geology, soils, and mineral resources in the General Plan.

(2) The project would not be located on soil that is unstable, or that would become unstable as a result of the project. There are no known mineral resources of value to the region and the state on the property.

18. ENERGY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to energy expected after application of mitigations/policies:

Direct Impacts

Effect: Continued development in the Planned Urbanizing Area would have an impact on available energy supplies. Energy consumption likely would increase substantially by 2025 as a result of implementation of the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on energy consumption.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following energy mitigation measures pertinent to the proposed project are found on pages V-18-2 through V-18-8 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
18. ENERGY				
1) The proposed project is inconsistent with policies relating to energy in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in energy consumption during construction, operation, maintenance, or removal that is more wasteful, inefficient, and unnecessary than assumed in the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the energy policies in the General Plan.

(2) The project would not result in energy consumption during construction, operation, maintenance or removal that is more wasteful, inefficient and unnecessary than assumed in the General Plan.

19. EFFECTS ON VISUAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on visual resources expected after application of mitigations/policies:

Direct Impacts

Effect: New development in the Planned Urbanizing Area will occur in areas that are in agricultural production or are otherwise lightly developed, which could lead to the introduction of light and glare in areas that have little nighttime illumination.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following visual resources mitigation measures pertinent to the proposed project are found on pages V-19-3 and V-19-4 in the Master EIR. All mitigation measures appropriate to the proposed project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
19. EFFECTS ON VISUAL RESOURCES				
1) The proposed project is inconsistent with policies	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
relating to visual resources in the Urban Area General Plan.				
2) The proposed project would degrade views from riverside areas and parks to a greater degree than assumed in the Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project would degrade views of riverside areas from public roadways and nearby properties to a greater degree than assumed in the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the policies relating the visual resources in the General Plan.

(2) The project would not impact views from riverside areas and parks.

(3) The project would not impact views of riverside areas from roadways or nearby properties.

20. LAND USE AND PLANNING

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to land use and planning expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following land use and planning mitigation measures pertinent to the proposed project are found on pages V-20-6 through V-20-17 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-20.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on land use and planning. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
20. LAND USE AND PLANNING				
1) The proposed project is inconsistent with land use and planning policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project contains elements that would physically divide an established community in a way not assumed in the Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project conflicts with a land use plan, policy or regulation established for the purpose of avoiding or mitigating an environmental impact by an agency that has jurisdiction over the proposed project.	☐	☐	☐	☒
4) The proposed project conflicts with an applicable habitat conservation plan or natural community conservation plan.	☐	☐	☐	☒

Discussion:

(1) The site is designated Village Residential the General Plan. The project is therefore consistent with the current General Plan Land Use designation and with land use and planning policies in the General Plan.

(2) The project would not divide an established community. The surrounding area is developed with residential uses including a church to the west. The proposed subdivision is consistent with the surround uses and would not divide existing neighborhood.

(3) The project does not conflict with the land use plan, policies and regulations of the City of Modesto designed to mitigate project impacts.

(4) The project does not conflict with applicable habitat conservation plans or natural community conservation plans.

21. CLIMATE CHANGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to climate change expected after application of mitigations/policies:

Direct Impacts

Effect: Impacts resulting from implementation of the Urban Area General Plan are not substantial enough to result in a significant direct impact on climate change, as disclosed in the Master EIR.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on climate change.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following climate change mitigation measures pertinent to the proposed project are found on pages V-21-7 through V-21-10 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on climate change. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
21. CLIMATE CHANGE				
1) The proposed project is inconsistent with policies relating to climate change in the Urban Area General Plan.	☐	☐	☒	☐
2) The proposed project would result in average automobile trip lengths or CO_2 emissions higher than those assumed in the Master EIR.	☐	☐	☒	☐
3) The proposed project would conflict with the	☐	☐	☒	☐

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
Sustainable Communities Strategy or Alternative Planning Strategy that the Air Resources Board has agreed will achieve the goals of AB 32.				

Discussion:

(1) The City of Modesto General Plan Master EIR addressed potential climate change impacts due to development and other activities associated with the Urban Area General Plan (UAGP). The Urban Area General Plan Master EIR (MEIR) determined that buildout of the UAGP would make a cumulatively considerable contribution to global climate change. The UAGP nonetheless authorizes development that will contribute to global climate change by virtue of the production of greenhouse gases. The MEIR states the projected rate of growth of vehicle miles traveled (VMT) will increase the City's contribution to global climate change as the City develops. Development under the UAGP is expected to generate approximately 1,096,226.4 metric tons per year above 2005 emissions. The City Council adopted a Statement of Overriding Considerations in 2008, finding that the benefits of the UAGP outweighed the City's increased contribution to global climate change.

The MEIR identifies policies CL-3 through CL-26 as policies in effect that have been determined to reduce, avoid or mitigate air quality environmental impacts within the existing City limits and within the Planned Urbanizing Areas as they annex and develop. These policies include but are not limited to, the use of shade trees to reduce the heat island effect, current energy efficient building standards to reduce energy consumption, and the inclusion of facilities for alternative transportation. The proposed project is required to develop in accordance with climate change policies included in the UAGP and the MIER.

(2) Climate change is an inherently cumulative impact because no single project can produce enough greenhouse gases to substantially alter the global climate. No thresholds have been set for individual or cumulative greenhouse gases. Nonetheless, the proposed project would result in greenhouse gas emissions due primarily to automobile travel and energy use for lighting, heating, cooling and other activities. The primary source of CO_2 emissions generated from the project would be related to automobile trips. As identified under the traffic and circulation discussion, traffic engineering staff has determined that the project will be in substantial conformance with the GP MEIR assumptions for traffic generation, the CO_2 emissions generated from the project would also be in substantial conformance with that which was assumed under the GP MEIR analysis.

(3) A Sustainable Communities Strategy has not yet been implemented by the Air Resources Board. Future development will be required to comply with the provisions of the Sustainable Communities Strategy once it is established.

V. MITIGATION MEASURES APPLIED TO THE PROPOSED PROJECT

If the Initial Study results in the determination that a Finding of Conformance can be adopted for the proposed project Section A below applies. If the Initial Study results in the determination that a Finding of Conformance cannot be adopted and a Mitigated Negative Declaration/EIR must be prepared for the project then Section B, below applies.

A. Master EIR Mitigation Measures Applied to the Project

Pursuant to Public Resources Code Section 21157.1(c), in order for a Finding of Conformance to be made, all appropriate mitigation measures from the Master EIR shall be incorporated into the proposed project. Urban Area General Plan Policies/Master EIR mitigation measures shall be made part of the proposed project prior to approval by means of conditions of project approval or incorporation into the appropriate document or plan.

All applicable and appropriate mitigation measures have been applied to the project (see mitigation measures listed below).

B. New or Additional Mitigation Measures or Alternatives Required

Where the project's effects would exceed the significance criteria for each environmental impact category, a mitigated negative declaration or Focused EIR must be prepared. Staff has reviewed the project against the significance criteria thresholds established in the Master EIR for all impact categories in this Initial Study.

A Mitigated Negative Declaration or Focused EIR shall be prepared for the project. The following additional project-specific mitigation measures listed below are necessary to reduce the identified new significant effect:

Traffic and Circulation:

N/A

Degradation of Air Quality:

AQ-42: All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover.

AQ-43: All on-site unpaved roads and off-site unpaved access roads shall be effectively stabilized of dust emissions using water or chemical stabilizer/suppressant.

AQ-44: All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.

AQ-46: When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.

AQ-47: All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. (the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)

AQ-48: Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.

AQ-49: Within urban areas, track out shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.

AQ-50: Any site with 150 or more vehicle trips per day shall prevent carryout and track out.

Generation of Noise:

N-3: The project shall comply with the City's noise ordinance. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields. Equipment that is quieter than standard equipment should be utilized. Haul routes that affect the fewest number of people should be selected.

Effects on Agricultural Lands:

N/A

Increased Demand for Long-Term Water Supplies:

N/A

Increased Demand for Sanitary Sewer Services:

N/A

Loss of Sensitive Wildlife and Plant Habitat:

SWPH-13, Table V-7-1(j): Implementation of formal CDFG guidelines to avoid and minimize impacts to Burrowing Owls.

In conformance with federal and state regulations regarding the protection of raptors, a habitat assessment in accordance with CDFG guidelines for Burrowing Owls shall be completed prior to the start of construction. Burrowing owl habitat on the project site and within a 500-foot (150 m) buffer zone shall be assessed. If the habitat assessment concludes that the site and immediate vicinity lack suitable Burrowing Owl habitat, no additional action would be warranted. However, if suitable habitat is located on, or immediately adjacent to, the site, all Burrowing Owl habitat shall be mapped at an appropriate scale, and the following mitigation measures should be implemented:

1. In conformance with federal and state regulations regarding the protection of raptors, a pre-construction survey for Burrowing Owls, in conformance with CDFG guidelines, shall be completed no more than 30 days prior to construction within suitable habitat.

2. No Burrowing Owls will be evicted from burrows during the nesting season (February 1 through August 31). Eviction outside the nesting season may be permitted pending evaluation of eviction plans and receipt of formal written approval from the CDFG authorizing the eviction.

3. A 250-foot (76 m) buffer, within which no new activity will be permissible, will be maintained between project activities and nesting Burrowing Owls during the nesting season. This protected area will remain in effect until August 31, or at the CDFG's discretion and based upon monitoring evidence, until the young owls are foraging independently.

4. If accidental take (disturbance, injury, or death of owls) occurs, the CDFG will be notified immediately.

If pre-construction surveys determine that Burrowing Owls occupy the site and avoiding development of occupied areas is not feasible, then habitat compensation on off-site mitigation lands should be implemented. Habitat Management (HM) lands comprising existing Burrowing Owl foraging habitat and breeding habitat should be acquired and preserved. An area of 6.5 acres 2.6 ha) (the amount of land found to be necessary to sustain a pair or individual owl) should be secured for each pair of owls, or individual in the case of an odd number of birds. As part of an agreement, the project applicant shall secure the performance of its mitigation duties by providing the CDFG with security in the form of funds that would:

1. Allow for the acquisition and/or preservation of 6.5 acres (2.6 ha) of HM lands;

2. Provide initial protection and enhancement activities on the HM lands, potentially including, but not limited to, such measures as fencing, trash clean up, artificial burrow creation, grazing or mowing, and any habitat restoration deemed necessary by CDFG;

3. Establish an endowment for the long-term management of the HM lands; and

4. Reimburse the CDFG for reasonable expenses incurred as a result of the approval and implementation of this agreement.

Disturbance of Archaeological/Historic Sites:

N/A

Increased Demand for Storm Drainage:

SD-9: Construction activities shall comply with the requirements of the City's Storm Water Management Plan under its municipal NPDES Stormwater permit, and the State Water Resources Control Board's General Permit for Discharges of Storm Water Associated with Construction Activity. (UAGP Policy V.E.3[h])

Flooding and Water Quality:

FWQ-13: Construction activities shall comply with the requirements of the City's Storm Water Management Plan under its municipal NPDES Stormwater permit, and the State Water Resources Control Board's General Permit for Discharges of Storm Water Associated with Construction Activity. (UAGP Policy V.E.3[h])

Increased Demand for Parks and Open Space:

N/A

Increased Demand for Schools:

N/A

Increased Demand for Police Services:

N/A

Increased Demand for Fire Services:

N/A

Generation of Solid Waste:

N/A

Generation of Hazardous Materials:

N/A

Geology, Soils, and Mineral Resources:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-265

RESOLUTION APPOINTING JOSEPH P. LOPEZ AS INTERIM CITY MANAGER AND AMENDING RESOLUTION 2017-164 TO REFLECT THE NEW TITLE

WHEREAS, on May 2, 2017 the City Council adopted Resolution 2017-164, setting the salary and benefits for Joe Lopez as Acting City Manager; and

WHEREAS, Joe Lopez has served as Acting City Manager since that date; and

WHEREAS, the City Council now desires to change his title to "Interim City Manager;" and

WHEREAS, this Resolution will formally appoint Joe Lopez as Interim City Manager and amend Resolution 2017-164 to simply change the title from "Acting City Manager" to "Interim City Manager;" and

WHEREAS, this Resolution will not change the salary or any benefit previously approved by the City Council for the Acting City Manager position.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

1. Joe Lopez is appointed as Interim City Manager effective immediately.

2. Joe Lopez' assignment as Interim City Manager is subject to the complete discretion of the City Council, and such assignment may be terminated by the City Council at any time for any or no reason. At such time that the City Council terminates such assignment, Joe Lopez shall return to his Deputy City Manager position at the salary and benefits previously set.

3. Resolution 2017-164, is hereby amended to change its applicability from the position of "Acting City Manager" to "Interim City Manager." The salary and

benefits will all remain the same and will now apply to Joe Lopez as Interim City Manager.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of July, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-266

RESOLUTION APPROVING THE FIRST AMENDMENT TO THE AMENDED AND RESTATED SERVICE AGREEMENT FOR THE SUPPLY AND ACCEPTANCE OF SOLID WASTE BETWEEN COVANTA STANISLAUS, INC. AND THE CONTRACTING COMMUNITIES, THE CITY OF MODESTO AND THE COUNTY OF STANISLAUS WITH AN EFFECTIVE DATE OF JULY 5, 2017, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE FIRST AMENDMENT

WHEREAS, in 1989 Covanta Stanislaus, Inc. began operating a Waste-to-Energy (WTE) Facility off of Interstate 5 in Crows Landing, California, under a Service Agreement with the County of Stanislaus and the City of Modesto ("Contracting Communities"), and

WHEREAS, a Joint Powers Authority (JPA) between the Contracting Communities was formed, with two representatives of the Stanislaus County Board of Supervisors and two members of the Modesto City Council as Committee members, and

WHEREAS, the Waste-to-Energy Facility receives 243,000 tons of the Contracting Communities' waste annually and processes it as fuel for the plan to generate up to 22.5 megawatts of electricity per year, and

WHEREAS, July 1, 2012 the Contracting Communities and Covanta negotiated the Amended and Restated Service Agreement for the Supply and Acceptance of Solid Waste and have been operating under that Service Agreement, and

WHEREAS, in the fall of 2016, Covanta requested that the Contracting Communities consider an amendment to the Service Agreement to increase the allowable tonnage of Special Waste that Covanta can procure from 12,200 tons per contract year to 30,000 tons per year, and

WHEREAS, during negotiating sessions the Contracting Communities requested

that Covanta accept an amendment that changes the liability of Unforeseen Circumstance Costs from the Contracting Communities bearing 25% and Covanta bearing 75%, to the Contracting Communities bearing 0% and Covanta bearing 100% of the Unforeseen Circumstance Costs risk, and

WHEREAS, the Contracting Communities and Covanta reached a mutual agreement to amend the terms of the Service Agreement as stated, and

WHEREAS, these amendments will have a positive fiscal impact on the Contracting Communities as they will alleviate future financial burden on the Contracting Communities for Unforeseen Circumstances Costs, and

WHEREAS, this was presented at the regularly scheduled meeting of the Stanislaus County/City of Modesto Waste-to-Energy JPA Committee on June 15, 2017, and

WHEREAS, the Stanislaus County/City of Modesto WTE JPA Committee approved the First Amendment to the Amended and Restated Service Agreement for the Supply and Acceptance of Solid Waste , and recommend forwarding it to the Modesto City Council and the Stanislaus County Board of Supervisors for consideration.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the **attached** First Amendment to the Amended and Restated Service Agreement for the Supply and Acceptance of Solid Waste between Covanta Stanislaus Inc. and the Contracting Communities, the City of Modesto and County of Stanislaus with an effective date of July 5, 2017.

BE IT FURTHER RESOLVED, that the Acting City Manager, or his designee, is hereby authorized to execute the First Amendment to the Amended and Restated Service Agreement for the Supply and Acceptance of Solid Waste, in a form approved by the City

Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of July, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

FIRST AMENDMENT TO AMENDED AND RESTATED SERVICE AGREEMENT FOR THE SUPPLY AND ACCEPTANCE OF SOLID WASTE

This First Amendment to Amended and Restated Service Agreement for the Supply and Acceptance of Solid Waste (this ***"Amendment"***) is entered into as of July ___, 2017 (the ***"Effective Date"***), by and among the County of Stanislaus, a political subdivision of the State of California, acting by and through its Board of Supervisors (the "***County***"), the City of Modesto, a municipal corporation, acting by and through its City Council (the "***City***"), and Covanta Stanislaus, Inc., a California corporation (the "***Company***"). The County and City are collectively referred to herein as the "***Contracting Communities***."

Recitals

A. The Contracting Communities and the Company are parties to that certain Amended and Restated Service Agreement for the Supply and Acceptance of Solid Waste dated as of July 1, 2012 (the ***"Service Agreement"***); capitalized terms used but not defined in this Amendment shall have the meanings given them in the Service Agreement;

B. The Contracting Communities and the Company wish to amend the Service Agreement as provided in this Amendment.

Agreement

NOW, THEREFORE, for and in consideration of the mutual covenants in this Amendment, and for other good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged by the parties, and intending to be legally bound, the Contracting Communities and the Company hereby agree as follows:

1. Special Waste. (a) Section 4.03(d)(ii) of the Service Agreement is hereby deleted in its entirety and replaced with the following:

"(ii) From July___, 2017 until the expiration or termination of this Agreement, up to 30,000 Tons per Contract Year of Special Waste arranged by the Company shall have priority over Contracting Communities Excess Waste. Contracting Communities will incur no liability if Company accepts Excess Waste from Contracting Communities that effectively limits Company's ability to reach 30,000 tons per Contract Year of Special Waste.

Special Waste deliveries to the Facility arranged by the Company shall in no event exceed the amounts set forth in Section 4.03(d)(i) and (ii) above for the periods set forth therein."

(b) Section 4.03(c) of the Service Agreement is hereby deleted in its entirety and replaced with the following:

"(c) Fees from Excess Waste and Special Waste. If the Company is procuring for the Facility from third parties Excess Waste that constitutes the first 30,000 Tons per Contract Year of Special Waste, then the Company shall retain for its own account the entire Third Party Tipping Fee for that Special Waste. For all other Excess Waste so procured (including Special Waste in excess of 30,000 Tons per Contract Year), (i) the Company shall retain for its own account the portion of the Third Party Tipping Fee for such Excess Waste up to the then applicable Excess Waste Tipping Fee, and (ii) the portion of such Third Party Tipping Fee in excess of the then applicable Excess Waste Tipping Fee shall be split 60% to the Company and 40% to Contracting Communities. The Company agrees that the Contracting Communities may dispose at the Facility, free of charge, Special Waste arising out of governmental activities occurring within Stanislaus County, such as illegal drugs confiscated by law enforcement agencies"

(c) The following sentence is hereby added to the end of Section 4.01(a) of the Service Agreement:

"From July___, 2017 until the expiration or termination of this Agreement, the Company and the Contracting Communities, by mutual written agreement, may agree to reduce the Guaranteed Tonnage on such terms and conditions as they may agree, in each party's sole individual discretion."

2. Unforeseen Circumstances. (a) Section 6.05(c)(3) of the Service Agreement is hereby deleted in its entirety and replaced with the following:

"From July ___, 2017 until the expiration or termination of this Agreement:

(i) The Company shall bear 100% of Unforeseen Circumstance Costs and the Contracting Communities shall bear 0% of Unforeseen Circumstance Costs.

(ii) If upon expiration or termination of this Agreement on or after January 2, 2016 there is any balance of Excess Electric Revenues remaining, then such balance shall be for the account of the Company."

(iii) As of the date of execution of this agreement, Unforeseen Circumstances Costs attributable to Contracting Communities are $0.00.

(b) Section 6.05(d) of the Service Agreement is hereby deleted in its entirety and replaced with the following:

*"(d) Unforeseen Circumstance Cost Limit. If the cumulative total of Unforeseen Circumstance Costs incurred from and after the Service Commencement Date by the Company exceeds $15,000,000, excluding Excess Electric Revenues applied pursuant to Section 6.05(c)(3)(ii) above (such net amount being the "**Initial UCC Termination Threshold**"), then the Company shall have the right to terminate this Agreement without payment of any termination fee (a "**UCC Termination**") by providing written notice of termination to the Contracting Communities within 90 days after having provided to the Contracting Communities written notice that such Initial UCC Termination Threshold has been reached. The Contracting Communities, acting jointly, shall have the right to avoid the UCC Termination by agreeing in writing to pay, and paying to the Company, within 30 days after receipt of the termination notice as to amounts already then incurred by the Company (and when and as incurred as to amounts incurred thereafter), the amount incurred by the Company in excess of the Initial UCC Termination Threshold (the "**Termination Avoidance Amount**"). If the Company does not exercise an applicable UCC Termination or if the Contracting Communities avoid the UCC Termination pursuant to the immediately preceding sentence, then this Agreement shall continue uninterrupted and in full force and effect, unless and until additional Unforeseen Circumstance Costs, in excess of the Initial UCC Termination Threshold, incurred by the Company exceed a cumulative total of $1,500,000 (a "**Subsequent UCC Termination Threshold**"), at which time a UCC Termination right shall arise for the Company again in accordance with the foregoing provisions of this Section 6.05(d), based on a Subsequent UCC Termination Threshold amount of $1,500,000 (rather than the Initial UCC Termination Threshold) and including the termination avoidance provisions. If the Company does not timely exercise the UCC Termination when the Subsequent UCC Termination Threshold is reached, or if the Contracting Communities avoid the UCC Termination pursuant to the immediately preceding sentence, then this same process shall apply each time a new Subsequent UCC Termination Threshold is reached during the Service Term."*

(c) Section 6.05(e) of the Service Agreement is hereby deleted in its entirety and replaced with the following:

*"(e) Constructive Total Loss. If the Second UCC Notice states that the Unforeseen Circumstance is expected to result in aggregate Capital Costs together with net increases in operation and maintenance costs of the Facility, over the remainder of the Service Term in each case ("**Restoration Costs**") in excess of $22 million (the **"Loss Termination Threshold"**), the Company shall include clear and convincing evidence of such Restoration Costs in the Second UCC Notice. The Contracting Communities will state in their response notice, to be delivered within 20 days of receipt of the Second UCC Notice, whether they agree or disagree that the Restoration Costs will exceed the Loss Termination Threshold. If the Contracting Communities do not so agree, then such disagreement will be subject to dispute resolution pursuant to Section 9.20. If the Contracting Communities state in their response notice that they agree that the Restoration Costs will be greater than the Loss Termination Threshold, or the decision delivered in the arbitration so determines, as applicable (either being a **"Restoration***

Cost Substantiation"), *then the Company shall have the right to terminate this Agreement without paying any termination fee by providing to the Contracting Communities no less than 180 days and no more than 240 days written notice of termination (a "****Termination Notice****"). Such Termination Notice shall be delivered within 30 days after Restoration Cost Substantiation. Upon the effective date of the termination, the Facility Site Lease Agreement shall terminate, Section 7.04 of the Facility Site Lease Agreement will apply and neither the Contracting Communities nor the Company shall have any further rights or obligations under this Agreement, except for any rights or obligations which expressly survive termination of this Agreement."*

3. Ratification. Except as otherwise provided in this Amendment, the Service Agreement remains in full force and effect, and the Company and the Contracting Communities hereby ratify and confirm the Service Agreement, as amended by this Amendment.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-267

RESOLUTION APPROVING THE PURCHASE OF PIPE SADDLES TO FERGUSON WATERWORKS, MODESTO, CA, AND PACE SUPPLY CORPORATION, STOCKTON, CA, FOR A TWO YEAR AGREEMENT WITH THREE ONE-YEAR EXTENSION OPTIONS AT THE SOLE DISCRETION OF THE CITY, FOR AN ESTIMATED ANNUAL COST OF $70,000, AND $350,000 OVER FIVE YEARS, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO ISSUE A PURCHASING AGREEMENT

WHEREAS, the City Manager authorizes the Purchasing Manager to issue formal Request for Bids (RFB) for purchase of pipe saddles, and

WHEREAS, on April 12, 2017, the Purchasing Division issued RFB No. 1617-27 for the purchase of Pipe Saddles on the City's website under the commodity codes for pipe, tubing and accessories, nine companies chose to download the RFB document, and

WHEREAS, bids were formally opened in the City Clerk's Office. Two companies chose to respond. All companies provided responsive and responsible bids, and one local vendor responded, and

WHEREAS, based on providing lowest responsive and responsible bids, City staff recommends the award of bids for the purchase of pipe saddles to Ferguson Waterworks, Modesto, CA, and Pace Supply Corporation, Stockton, CA, and based on the pricing submitted, the local vendor, Ferguson Waterworks, didn't qualify for local vendor preference under the Modesto Municipal Code, and

WHEREAS, on February 28, 2017, Council approved Resolution No. 2017-86 implementing a spending freeze to maintain fiscal sustainability of the City. As allowed by the resolution, the City Manager's Office approved an exception to this freeze for this procurement. Justification for this exception is based upon the need of the Utilities Department to strengthen and maintain a safe infrastructure of water supply and sewers to

ensure reliable fire protection, water and storm/sewer service to City of Modesto customers.

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed $50,000 for material, equipment or contractual services to be formally bid. The award of bids for the purchase of pipe saddles to Ferguson Waterworks, Modesto, CA, and Pace Supply Corporation, Stockton, CA, conforms to the Modesto Municipal Code, 8-3.203, and

WHEREAS, the cost for these services will be covered by the Water funds through existing budget cost centers 4100-45020, 45040 and various CIP projects.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the purchase of pipe saddles to Ferguson Waterworks, Modesto, CA, and Pace Supply Corporation, Stockton, CA, for a two year agreement with three one-year extension options at the sole discretion of the City, for an estimated annual cost of $70,000 and $350,000 over five years in a form approved by the City Attorney.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to issue and enter into a purchasing agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of July, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-268

RESOLUTION APPROVING A FIRST AMENDMENT TO THE AGREEMENT WITH CAROLLO ENGINEERS, INC., WALNUT CREEK, CA, FOR FINAL DESIGN REPORT FOR THE RIVER TRUNK REHABILITATION (GALLO) AND THE CANNERY SEGREGATION DIVERSION STRUCTURE PROJECTS IN THE AMOUNT OF $41,676, AND AUTHORIZING THE ACTING CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE FIRST AMENDMENT TO THE AGREEMENT

WHEREAS, to provide reliability to the River Trunk sewer and Cannery Segregation Trunk sewer, a diversion structure is necessary to allow the bypass of flows in the event one of these trunks experiences a failure, and

WHEREAS, the diversion structures will allow flow to be redirected to one of the trunks to maintain service while repairs can be made, and

WHEREAS, additionally, a section of the River Trunk between the Beard Brook Siphon junction structure and Santa Cruz Avenue was discovered to be severely corroded at the crown of the pipe, and

WHEREAS, the damaged section of the River Trunk consists of 2,160 feet of 45 to 48-inch unlined reinforced concrete pipe that runs through the Gallo Winery property, and

WHEREAS, immediate repairs were needed to prevent the pipe from collapsing and to restore reliability for this critical sewer trunk, and

WHEREAS, the goal of the project is to restore the structural integrity of the pipe and provide a plastic lining that will resist future corrosion, and

WHEREAS, on April 14, 2015, by Resolution No. 2015-118, Council approved an agreement with Carollo Engineers, Inc. (Carollo) to provide design, bid and

engineering during construction services for the River Trunk Rehabilitation (Gallo) and the Cannery Segregation Diversion Structure Projects, and

WHEREAS, during the bid phase of the Cannery Segregation Diversion Structure Project, City staff discovered the project would require coordination with the concurrently planned Tuolumne Regional River Park (TRRP) Phase 2 Project, and

WHEREAS, as part of the TRRP Phase 2 Project, the Parks Department was designing a bike trail project within the Cannery Segregation Diversion Structure project limits, and

WHEREAS, additional coordination efforts were required to merge final grading of both projects, and to address the soil loading issues associated with the bike trail grading on the River Trunk and Cannery Segregation Trunk, and

WHEREAS, a revised grading design was prepared along with revised bid items and construction cost estimates, and

WHEREAS, additionally, during the first bid phase of the River Trunk Rehabilitation Project within the Gallo facility, the City received a bid protest resulting in the project needing to be rebid, and

WHEREAS, the plans and specifications were revised to provide clarification, and

WHEREAS, the additional coordination and construction document revisions resulted in extended effort in the following tasks: 1) Project Management; 2) Bid Phase Services; and 3) Engineering Services During Construction, and

WHEREAS, on February 28, 2017, by Resolution No. 2017-86, Council approved implementing a spending freeze in order to maintain fiscal sustainability of the City, and

WHEREAS, as allowed by this resolution, the City Manager's Office approved an exception to the freeze for this procurement, and

WHEREAS, justification for this exception is that the projects were previously approved and adopted as part of the current Fiscal Year 2016-2017 Capital Improvement Program, are needed to provide safe and reliable utilities, and a budget transfer from reserves, to provide the required services, will not be required, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, the first amendment to the agreement is for professional services and, therefore, exempt from the bid requirement,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the First Amendment to the Agreement with Carollo Engineers, Inc., Walnut Creek, CA, for Final Design Report for the River Trunk Rehabilitation (Gallo) and the Cannery Segregation Diversion Structure Projects in the amount of $41,676.

BE IT FURTHER RESOLVED that the Acting City Manager, or his designee, is hereby authorized to execute the First Amendment to the Agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of July, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-269

RESOLUTION APPROVING A LIST OF PROJECTS TO BE FUNDED WITH MEASURE L TAX PROCEEDS IN FISCAL YEAR 2017-2018, INCLUDING CERTAIN PROJECTS IN THE FISCAL YEAR 2017-2018 CAPITAL IMPROVEMENT PROGRAM AND APPROVING THE BUDGET ADJUSTMENT FOR EACH PROJECT

WHEREAS, in November, 2016, Stanislaus County voters approved a county-wide, 25-year, half-cent sales tax increase for transportation and pavement rehabilitation projects known as Measure L, and

WHEREAS, the City of Modesto's estimated share of Measure L funds is approximately $8.9 Million, and

WHEREAS, on October 4, 2016, the City Council approved Ordinance No. 3656-C.S. adding Chapter 10 to Title 8 of the Modesto Municipal Code to establish a Citizens' Transportation Sales Tax Commission ("Commission"). The Commission will consist of eleven members appointed by the City Council, and

WHEREAS, the Commission has not yet been formed and in order to avoid delaying the design and construction of the first Measure L projects, staff is seeking City Council approval of a list of proposed projects and the necessary budget adjustments, and

WHEREAS, the local Measure L funds that the City will receive are divided into three categories, and

WHEREAS, the City anticipates receiving $6.87 Million annually for the Local Streets and Roads category which is to be used exclusively for repair and maintenance of our City streets, and

WHEREAS, the City anticipates receiving $1.37 Million annually for the Traffic Management category which is to be used to upgrade intersections, widen roads, signalize intersections, install traffic calming devices, etc., and

WHEREAS, the City anticipates receiving $687,000 annually for the Bike and Pedestrian Improvement category which is to be used for local connectivity between communities, local schools, trails and recreation facilities, and

WHEREAS, on May 24, 2016, by Resolution 2016-220 the City Council approved a list of proposed projects to be funded upon the successful passage of Measure L within the first 5 years, which is shown in **Exhibit A, attached** hereto, and

WHEREAS, staff reviewed the list and is recommending a more specific and expanded list of projects, which is shown in **Exhibit C, attached** hereto, to be funded with Measure L funds in Fiscal Year 2017-2018, and

WHEREAS, the Fiscal Year 2017-2018 Capital Improvement Program Budget must be amended as shown in **Exhibit B, attached** hereto,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the list of projects to be funded with Measure L tax proceeds in Fiscal Year 2017-2018, including the projects in the Fiscal Year 2017-2018 Capital Improvement Program shown in **Exhibit C, attached** hereto.

BE IT FURTHER RESOLVED that Council hereby approves the amendment of the Fiscal Year 2017-2018 Capital Improvement Program Budget as shown in **Exhibit B** in order to fund the various Capital Improvement Projects with Measure L proceeds.

BE IT FURTHER RESOLVED that the Director of Finance, or her designee, is hereby authorized to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of July, 2017, by Councilmember Zoslocki, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-270

RESOLUTION ACCEPTING AN UPDATE REPORT OF EMERGENCY FLOOD REPAIRS TO THE RIVER TRUNK SEWER SYTEM

WHEREAS recent emergency release of flows from the Don Pedro Reservoir in February 2017, resulted in emergency repairs, including the River Trunk, and

WHEREAS, the River Trunk conveys approximately 50% of the City's sewer flows to the Sutter Avenue Primary Treatment Plant, and

WHEREAS, the repairs resulted in substantial Utilities staff labor, equipment charges, and several emergency construction contracts to assist the City with necessary repairs, and

WHEREAS, the report documents the activities as well as serves as the background information to inform City Manager and Council of emergency repairs and contracts in accordance with Section 8-3.102(e) of the Modesto Municipal Code, and

WHEREAS, Section 8-3.102(e) of the Modesto Municipal Code allows the City Manager to approve and authorize contracts in the amount of $200,000 or less for projects that are of urgent necessity for the preservation of life, health and property, and

WHEREAS, the City Manager reported the circumstances of the emergency to City Council within ten days of the emergency, and

WHEREAS, given this was an emergency condition with critical operational impacts to the wastewater systems there was not sufficient time to follow the standard bid process to procuring construction contracts, and

WHEREAS, the two locations that sustained damage; the Calaveras Sewer Subtrunk break at Tuolumne Boulevard and the River Trunk collapse at Neece Drive,

required urgent repair in order to provide continued operational service of the River Trunk sewer system, and

WHEREAS, City staff received approval for FEMA reimbursement of the emergency response and repairs resulting from the flood events, and

WHEREAS, City staff is coordinating with FEMA representatives on the reimbursement requirements, and

WHEREAS, the emergency repairs have been completed and City staff will be recommending acceptance of the repairs at a future Council Meeting, once all work has been completed and all costs have been tabulated.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that an update report of emergency flood repairs to the River Trunk sewer system be accepted.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of July, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-271

RESOLUTION APPOINTING JOSEPH CAHILL TO THE CITY OF MODESTO LANDMARK PRESERVATION COMMISSION WITH A TERM EXPIRATION OF JANUARY 1, 2021

WHEREAS, Section 1102 of the Charter of the City of Modesto authorizes the City Council to appoint members to various Boards and Commissions, and

WHEREAS, Joseph Cahill meets the requirements of the position and is willing to serve on the Commission, and

WHEREAS, the Appointments Committee met on June 1, 2017 and recommended appointment of Joseph Cahill to the Modesto Landmark Preservation Commission.

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto as follows:

1. Joseph Cahill is hereby appointed to the Modesto Landmark Preservation Commission with a term expiration of January 1, 2021.

2. The City Clerk is hereby directed to transmit a copy of this resolution to the appointed member of the Modesto Landmark Preservation Commission, and the Secretary thereof.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of July, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-272

RESOLUTION APPROVING A FOURTH AMENDMENT TO THE LEGAL SERVICES AGREEMENT DATED JULY 3RD, 2014 WITH BORTON PETRINI, LLP IN AN AMOUNT NOT TO EXCEED $17,200 TO FINALIZE BILLING

WHEREAS, the City entered into an agreement with Borton Petrini, LLP, in the amount $40,000 to represent the City in the following types of cases: tort, trip and fall, sidewalk, road and other similar cases; and

WHEREAS, by Resolution No. 2015-199, City approved a First Amendment, with an increased budget of $30,000 for continued representation; and

WHEREAS, by Resolution No. 2016-290, City approved a Second Amendment, with an increased budget of $95,000 for continued representation; and

WHEREAS, by Resolution No. 2016-507, City approved a Third Amendment, with an increased budget of $30,000 for continued representation; and

WHEREAS, in January of this year the City terminated its relationship with Borton & Petrini, LLP; and

WHEREAS, the City Attorney's office has been negotiating outstanding invoices and asking for a percentage to be written-off; and

WHEREAS, the City Attorney's office has drafted a Fourth Amendment to the Legal Services Agreement with Borton Petrini, LLP to finalize billing.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the City of Modesto to execute a Fourth Amendment to the Legal Services Agreement with Borton Petrini, LLP, in an amount not to exceed $17,200 to finalize billing, as provided in **Exhibit A attached** hereto and incorporated herein, and

further authorizes the City Attorney to execute such agreement in a form substantially similar to **Exhibit A.**

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 11th day of July, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

FOURTH AMENDMENT TO LEGAL SERVICES AGREEMENT

This Fourth Amendment for Legal Services (this "**Fourth Amendment**"), is made and entered into on _____ day of _____ 2017 ("**Effective Date**"), by and between the **CITY OF MODESTO**, a California Municipal Corporation ("**City**"), and **BORTON PETRINI, LLP** a Professional Corporation ("**Attorney**"), located at 201 Needham Street, Modesto, California 95354. City and Attorney are hereinafter collectively referred to as the "**Parties**," and singularly as "**Party**".

RECITALS

WHEREAS, City and Attorney entered into a Legal Services Agreement ("**Agreement**") to provide legal advice, representation and assistance to City in defense of tort claims, as assigned; and

WHEREAS, Attorney is specially trained, experienced and competent to perform such services; and

WHEREAS, the public interest, economy and general welfare will be served by the Agreement; and

WHEREAS, City and Attorney desire to amend the Agreement to finalize billing by increasing the previously approved amount of fees from $195,000 to $212,200.

NOW, THEREFORE, it is hereby agreed that the Legal Services Agreement between the City of Modesto and Borton Petrini, LLP dated July 3rd, 2014, amended by Resolution No. 2015-199 , 2016-290 and 2016-507 is amended as follows:

1. Section 2(a) of Paragraph 2,"Fees and Costs," Hourly Rates is amended to state as follows:

"The total of all fees paid to Attorney for the performance of all services set forth in Section 1 (thereafter the "**Service**"), and for all authorized Reimbursable Expenses (as defined hereafter), shall not exceed a total sum of two hundred and twelve thousand and two hundred dollars ($212,200)."

2. Entire Agreement. The parties to this Fourth Amendment understand and agree that except as stated herein all terms and conditions of the original Agreement, remain in full force and effect to the extent they are not in conflict with this Fourth Amendment. This document, including all exhibits, contain the entire agreement between the Parties and supersedes whatever oral or written understanding they may have had prior to the execution of this Fourth Amendment. No alteration to the terms of this Fourth Amendment shall be valid unless approved in writing by Attorney and by City, in accordance with applicable provision of the Modesto City Code.

3. **Authority.** The person signing this Fourth Amendment for Attorney hereby represents and warrants that he/she is fully authorized to sign this Fourth Amendment on behalf of Attorney and to bind Attorney to the performance of its obligations hereunder.

IN WITNESS WHEREOF, the Parties have executed this Fourth Amendment as of the dates stated below.

RESOLUTION APPROVING A SECOND AMENDMENT TO THE LEGAL SERVICES AGREEMENT DATED AUGUST 8TH, 2016 WITH LIEBERT CASSIDY WHITMORE IN AN AMOUNT NOT TO EXCEED $47,500 TO CONTINUE REPRESENTING THE CITY OF MODESTO IN LABOR AND EMPLOYMENT MATTERS

WHEREAS, the City Attorney's Office is in need of outside counsel services that relate to labor and employment; and

WHEREAS, Liebert Cassidy Whitmore has concluded the arbitration and currently represents the City in one lawsuit; and

WHEREAS, the City Attorney's Office desires to extend the agreement with Liebert Cassidy Whitmore; and

WHEREAS, the City Attorney's office has drafted a Second Amendment to the Legal Services agreement with Liebert Cassidy Whitmore to continue services.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the City of Modesto to execute a Second Amendment to the Legal Services Agreement with Liebert Cassidy Whitmore in an amount not to exceed $47,500 to continue representing the City of Modesto in labor and employment matters, as provided in **Exhibit A attached** hereto and incorporated herein, and further authorizes the City Attorney to execute such agreement in a form substantially similar to **Exhibit A.**

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 11th day of July, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

SECOND AMENDMENT TO LEGAL SERVICES AGREEMENT

This Second Amendment for Legal Services (this "**Second Amendment**"), is made and entered into on _____ day of _____ 2017 ("**Effective Date**"), by and between the **CITY OF MODESTO**, a California Municipal Corporation ("**City**"), and **LIEBERT CASSIDY WHITMORE,** ("**Attorney**"), located at 5250 N. Palm Avenue, Suite 310, Fresno, California 93704. City and Attorney are hereinafter collectively referred to as the "**Parties**," and singularly as "**Party**".

RECITALS

WHEREAS, City and Attorney entered into a Legal Services Agreement ("**Agreement**") for services for legal advice, representation and assistance on matters involving labor and employment law; and

WHEREAS, Attorney is specially trained, experienced and competent to perform such services; and

WHEREAS, the public interest, economy and general welfare will be served by the Agreement; and

WHEREAS, City and Attorney desire to amend the Agreement for further service by increasing the previously approved amount of fees from $155,000 to $202,500.

NOW, THEREFORE, it is hereby agreed that the Legal Services Agreement between the City of Modesto and Liebert Cassidy Whitmore, dated August 8th, 2016, and amended on December 13th, 2016 by Resolution 2016-510 is amended as follows:

1. Section 2(a) of Paragraph 2, "Fees and Costs," Hourly Rates is amended to state as follows:

"The total of all fees paid to Attorney for the performance of all services set forth in Section 1(thereafter the "**Service**"), and for all authorized Reimbursable Expenses (as defined hereafter), shall not exceed a total sum of two hundred and two thousand and five hundred dollars ($202,500)."

2. **Entire Agreement**. The parties to this Second Amendment understand and agree that except as stated herein all terms and conditions of the original Agreement, dated August 8th, 2016, remain in full force and effect to the extent they are not in conflict with this Second Amendment. This document, including all exhibits, contain the entire amendment to the Agreement between the Parties and supersedes whatever oral or written understanding they may have had prior to the execution of this Second Amendment. No alteration to the terms of this Second Amendment shall be valid unless approved in writing by Attorney and by City, in accordance with applicable provision of the Modesto City Code.

3. **Authority**. The person signing this Second Amendment for Attorney hereby represents and warrants that he/she is fully authorized to sign this Second Amendment on behalf of Attorney and to bind Attorney to the performance of its obligations hereunder.

IN WITNESS WHEREOF, the Parties have executed this Second Amendment as of the dates stated below.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-274

RESOLUTION ADOPTING THE STANCOG STATE ROUTE 99 CORRIDOR ENHANCEMENT PLAN AS THE OFFICIAL LANDSCAPE AND ARCHITECTURE GUIDANCE DOCUMENT FOR FUTURE PROJECTS IMPLEMENTED ON STATE ROUTE 99

WHEREAS, the State Route 99 Corridor Enhancement Plan (Plan), **attached** hereto as **"Exhibit A,"** is the culmination of a year-long coordination effort between representatives of the cities of Ceres, Modesto, and Turlock, Stanislaus County, the California Department of Transportation (Caltrans), StanCOG, and others, and

WHEREAS, the objective of the Plan is the development of an aesthetic and practical strategy for the enhancement and beautification of the approximately 25-mile segment of the State Route 99 Corridor that traverses Stanislaus County, and

WHEREAS, the Plan provides design concepts, guidance documents, and resources for planning highway structures and landscapes, controlling soil erosion, improving water quality, and providing resources for transportation project funding, and

WHEREAS, the Plan developed multiple landscape and structural aesthetic design concepts showcasing the scenic and unique ecological characteristics found in Stanislaus County, and

WHEREAS, the Plan offers a menu of designs that includes urban, light industrial-commercial, agricultural, and riparian themes, and

WHEREAS, the StanCOG Policy Board approved the plan via Resolution 16-27 at its regularly scheduled meeting of March 15, 2017.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto adopts the State Route 99 Corridor Enhancement Plan as the official landscape and architecture guidance document for future projects.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of July, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

1. Introduction

1.1 Purpose of the Study

"Beautify State Route 99 in Stanislaus County
to Promote Economic Vitality
and Improve Overall Livability and Quality of Life in the Region."

The mission statement above, envisioned by the Stanislaus Council of Governments (StanCOG) and the Beautify 99 Campaign Steering Committee, is the source and inspiration for the development of this State Route 99 Corridor Enhancement Plan. The document provides design concepts, guidance documents and resources for planning highway structures and landscapes, controlling soil erosion, improving water quality and providing resources for transportation project funding. It is not the intension of this document to provide design documentation for specific locations within the corridor, but rather to provide a design approach for the entire corridor.

StanCOG serves the communities and governments of Stanislaus County as a Metropolitan Planning Organization and a Regional Transportation Planning Agency. It was established in 1971 by a Joint Powers Agreement to address regional issues. One such issue is the unsightly appearance of the twenty five mile segment of SR99 within Stanislaus County. The ***State Route 99 Corridor Enhancement Plan*** actively responds to this issue by providing the guidance needed to transform the corridor into a welcoming and attractive commuter and trade route to stimulate sustainable economic development, tourism and livable communities.

Also known as the ***Golden State Highway*** and the ***Main Street of the Central Valley***, the entire length of State Route 99 extends from east of Red Bluff where SR99 intersects SR39 to south of the town of Mettler where SR99 merges with I-5, a total length of 416 miles. Other corridor enhancement plans that have been prepared include the "SR 99 Corridor Enhancement Master Plan" (Dec. 2004), prepared by the California Department of Transportation for the 274 mile long segment between Kern and Sacramento counties and the "Highway 99 Beautification Masterplan" (July 2000) prepared by the Fresno Council of Governments for the 31.59 mile long segment of SR99 in Fresno County.

This publication represents the culmination of a year-long planning effort on the part of representatives of the Stanislaus Council of Governments (StanCOG), cities of Modesto, Ceres and Turlock, Beautify 99 Campaign Steering Committee, California Department of Transportation-District 10 and the design-engineering team of Haygood & Associates Landscape Architects of Albany, CA, Rajappan & Meyer Consulting Engineers, Inc. of San Jose, CA and WRECO Consulting Engineers of Walnut Creek, CA. See Section 1.4 for a complete list of the organizations and their members.

1.2 Assessment of Existing Environment

State Route 99 serves as a regional north-south highway within Stanislaus County and connector to the county's nine incorporated cities and thirty-six unincorporated communities.

Between the north and south county lines, extending from the Stanislaus River to south of Turlock, the 24.74 mile long segment of highway is located within flat terrain bordered on the east and west by the Sierra Nevada and Diablo Ranges respectively. The urban centers of the cities of Modesto, Ceres and Turlock are clustered along the highway. Beyond these nodes of urbanization, vast stretches of land are in agricultural production extending to the foothills of the adjacent mountain ranges. Orchards are next to the highway, limiting long range vistas. Cultivated fields are farther to the east and west and it is from these vantage points that long range views are afforded across open land where one can appreciate the vastness of the Central Valley and a connection with the natural environment. Rivers are important natural features in the landscape. The Stanislaus and Tuolumne rivers meander through the valley floor carrying water from Sierra Nevada Range. From a distance, the course of the rivers can be traced across the land by virtue of the tall trees and shrubs that grow long their banks. The water and vegetation provide rich environments for wildlife.

Stanislaus County lies in the fertile Central Valley of California. The warm climate, rich alluvial soils and natural water-ways attracted farmers to the region in the early 1800's. Today it is the single most productive agricultural region in the world, generating annual revenues in excess of $4.4 billion from its top ten commodities alone including almonds, milk, cattle, walnuts, chickens, silage, turkeys, fruit and nut nursery and almond pollination. As agriculture grew, so did the need for housing, services and industry. Today's population exceeds half a million inhabitants. Today that diversity is visible from State Route 99.

1.3 Design Concept for Overall Corridor

The Route 99 Corridor Enhancement Plan showcases the scenic and unique ecological characteristics found in Stanislaus County through the landscape and structural aesthetics design concepts that are presented in this document. Beauty, pride, agriculture, industry and community have long been experiences vital to Stanislaus County. State Route 99 provides the setting and opportunity to express these experiences that make the County a special place to live, to cultivate and care for the land, to be industrious and participate in maximizing the quality of life of its citizens. The designs reflect a strength of character and offer of welcome as each interchange serves as a gateway to urban, industrial/commercial, agricultural and riparian communities and environments. Each of the design themes in this document highlights unique characteristics of the land uses along the corridor and together they provide a unified and attractive corridor representative of the high quality of life within Stanislaus County.

1.4 Acknowledgements

StanCOG wishes to thank the tireless efforts of its staff, the members of the 99 Beautification Steering Committee, the Project Development Team and the Design Team without whom the State Route 99 Corridor Enhancement Plan would not have come to fruition. They are:

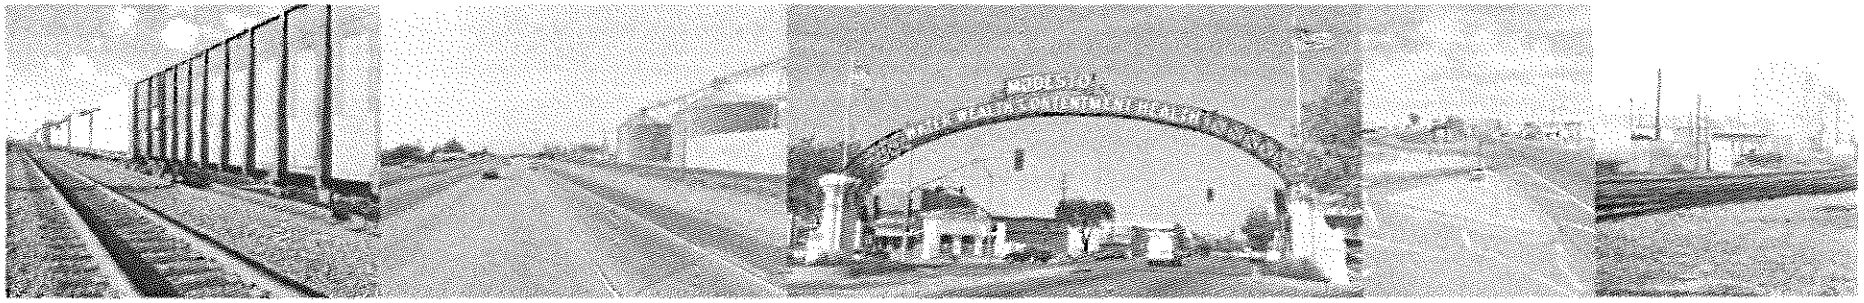
2. Identification of Corridor Themes

Land uses that we see from Route 99 are agricultural, light industrial/ commercial, riparian and urban. Identified as themes, design concepts for each land use and guidance documents are provided to serve as a basis for development of highway improvement projects on Route 99 in Stanislaus County. The unique characteristics of each land use described below are the sources of inspiration for the landscape, structures and paving concepts.

2.1 Agricultural

Agriculture connects us to a unique form of the natural environment, one that is arranged and organized by human hand and ingenuity. It is something we experience as we drive along a country road passing row upon row of trees and leafy stalks. If we are fortunate to be a passenger, we watch the angles in the spaces between rows change from one direction to another, the soundless rhythm of the cultivated land. Within this green network so firmly rooted to the earth, buds, flowers, fleshy fruits and nuts form, burst and fall in their own time. While most are gathered and taken to market, others are pecked, scooped and carried on the wing. Rows, leaves, angles and fruit are the sources of inspiration for the patterns and motif used in the aesthetic treatment of the overcrossing, walls and paving for the Agricultural Theme.

2.2 Light Industrial-Commercial



Industry and commerce are important and visible companions to agriculture in Stanislaus County. Industrial structures are practical, emerging from the necessities of function and purpose to protect, contain and transport fragile and perishable goods. Commercial architecture is an outgrowth of the marketplace where the language of form is dynamic, inviting and encouraging people to buy and sell, sit and walk, enter and leave. The Modesto arch welcomes those who arrive and reminds others of home. Storefronts support bright colors, distinctive shapes and strong messages announcing what to buy and how much it will cost. The elements of welcome, commerce, transport and purpose are the sources of inspiration for the columns, arched shapes, horizontal bands and colorful accents used in the landscape and architectural features of the Light Industrial-Commercial Theme.

2.3 Riparian

Riparian is a place where water and land meet, a co-existence of the natural environment and what is engineered by humankind. Abundant trees and grasses thrive along the banks of the Stanislaus and Tuolumne rivers that meander through the valley of Stanislaus County, providing rich habitats for wildlife and sources of recreation and respite for weary workers. Crossing the threshold from land to stream brings us closer to what is simple and peaceful in life. We see the wind blowing grasses and rippling surfaces of water, a flush of birds bursting from trees and reeds, the sky reflected in a quiet pond. Flowing water, grasses and waterfowl are the sources of inspiration for the Riparian Theme.

2.4 Urban

Urban refers to cities and cultures, places where people live and work side by side, interact and cooperate, express creatively and purposefully in densely populated areas. More than in any other land use, it is in the urban environment where individual preferences are expressed in architecture and landscapes. Personal environments are created to reflect perceptions of home and the natural world. People go to town for goods and services, gather at cafes to enjoy the company of others, attend sports and cultural events to be entertained and informed and enjoy the out-of-doors in community parks. City buildings, lighted environments, marquees and tree-shaded parks are among the features that are the sources of inspiration for the Urban Theme.

2.5 Locations of Each Theme Along Route 99 Corridor

Legend

The legend below provides the color-code for each of the four themes whose location and extent along State Route 99 in Stanislaus County is illustrated on the strip maps that follow the legend.

Visual characteristics observed that differ from local land use plans are noted on the strip maps. With each project that emerges, local planning documents will need to be reviewed and a visual inspection conducted of the project area to determine if the existing visual characteristics are still consistent with the design themes presented in this document or whether they have changed over time and are better represented by one of the other design themes provided. The photos below are representative of land use characteristics in each of the design theme areas. See the Section D of the Appendices for additional photos.

3. Landscape and Aesthetic Treatment for Structures, Pavement & Lighting

The following pages illustrate concept designs for use within each of the four themed areas: Agricultural, Industrial-Commercial, Riparian and Urban. The concepts include landscape and hardscape features within interchanges and the highway corridor. Illustrated are the arrangement and species of plants, groundcover materials, rock gabions, walls and gore paving. Photos of the materials are included. Design concepts for structural features and slope paving are provided in elevation drawings including overcrossings, abutments, slope paving, soundwalls and retaining walls. The lighting selection for each of the themed areas is provided in Section 3.6. See Section 7 for Recommendations for Implementation. The following sections describe the features in each theme.

3.1 Agricultural

The landscape design for the interchange draws upon features that we see within the agricultural areas of Stanislaus County: Rows of trees and shrubs, irrigation canals and almond orchards. Similar to a cultivated field, the landscape concept extends to the limits of the available space, from right-of-way line to edge of highway. See Section 3.9. Within this space, we see representations of field crops and orchard trees arranged row upon row. Oriented on an angle, the rows set up the familiar rhythm that we see when we travel along a country road looking across the land. Also familiar are the necessary features of agriculture such as the irrigation ditch and the access road that strike paths of least resistance through the fields. These features are represented in the landscape concept by highway ramps and a long rectangular shape representing an irrigation canal. Paved with natural cobbles and edged with a 30" wide concrete band, the canal cuts through the center of the design. Plants selected for the concept have growth patterns that are reminiscent of the agricultural environment.

The design patterns and motifs on structures such as walls, abutments, columns, railings and slope paving draw upon the theme of the linear cultivated row. The motif shown on the concrete structures is a leafy branch with clusters of mature almonds. The retaining walls have window panels with almond branches appearing in different positions in each window, simulating the experience of the motorist viewing a landscape while driving.

The railings and lights are finished in the standard Caltrans green, RAL 6005, including all fabricated and standard steel pieces, chain link fabric, light bases, poles and fixtures and all hardware and conduits that are attached, or adjacent to green-finished metal surfaces.

3.2 Light Industrial-Commercial

The wheels of industry and commerce are the inspiration for the design of the landscape and structures aesthetics of the Light Industrial-Commercial themed areas. See Section 3.10. The landscape concept includes concentric circular shapes created by plants, rock filled gabions and gravel mulch, reflective of the life, steel and grit that make industry and commerce work with determination and purpose. The natural landscape that surrounds the circles provides a soft backdrop against which the circular focal points are highlighted in the design. Together, there is a harmonious balance between the natural and constructed elements in the environment. The Italian Poplar trees in the design are tall and vertical. Chinese Pistache and Purple Leaf Plum trees are rounded and colorful.

The design elements on the structures for this themed area include linear and rounded shapes. Monumental concrete sentinels stand at the east and west entrances to the overcrossing. Mounted on top of the sentinels are silver colored perforated stainless steel domes that are illuminated from within, emitting pinpoint rays of light during the night. The metalwork is finished in black including posts, rails, hardware, lights and fixtures. The barrier has a smooth horizontal band that is finished by hand with a brick red concrete sacking. The red horizontal stripe is a theme color that is repeated throughout the entire length of Route 99 in California. Rectangular window-like panels on the soundwalls and retaining walls include views of the themes' linear and rounded shapes as if viewing them through a moving vehicle.
