
1.6 Human Response to Changes in Noise Levels

As discussed above, doubling sound energy results in a 3 dB increase in sound level. However, given a sound level change measured with precise instrumentation, the subjective human perception of a doubling of loudness will usually be different than what is measured.

Under controlled conditions in a laboratory setting, the trained, healthy human ear is able to discern 1 dB changes in sound levels when exposed to steady, single-frequency ("pure-tone") signals in the mid-frequency range (1,000 Hz–8,000 Hz). In typical noisy environments, changes in noise of 1 to 2 dB are generally not perceptible. However, it is widely accepted that people are able to begin to detect sound level increases of 3 dB in typical noisy environments. Further, a 5 dB increase is generally perceived as a distinctly noticeable increase, and a 10 dB increase is generally perceived as a doubling of loudness. Therefore, a doubling of sound energy that would result in a 3 dB increase in sound pressure level would generally be perceived as barely detectable. Please refer to Table A.

1.7 Noise Sensitive Land Uses

Noise-sensitive land uses are generally defined as locations where people reside or where the presence of unwanted sound could adversely affect the use of the land. Noise-sensitive land uses typically include residences, hospitals, schools, transient lodging, libraries, and certain types of recreational uses. Noise-sensitive, residential receivers are found throughout the study area.

Figure A
Decibel Scale and Common Noise Sources

Table A
Approximate Relationship Between Increases in Environmental Noise Level and Human Perception

Noise Level Increase, dB	Human Perception (Typical)
up to about 3	not perceptible
about 3	barely perceptible
about 5	distinctly noticeable
about 10	twice as loud
about 20	four times as loud

1.8 Noise Descriptors

Noise in our daily environments fluctuates over time. Some fluctuations are minor, but some are substantial. Some noise levels occur in regular patterns, but others are random. Some noise levels fluctuate rapidly, but others slowly. Some noise levels vary widely, but others are relatively constant. Various noise descriptors have been developed to describe time-varying noise levels. The following are the noise descriptors most commonly used in environmental noise analysis, and may be applicable to this study:

- **Equivalent Sound Level (L_{eq}):** The L_{eq} represents an average of the sound energy occurring over a specified time period. In effect, the L_{eq} is the steady-state sound level containing the same acoustical energy as the time-varying sound that actually occurs during the same period. The 1-hour, A-weighted equivalent sound level ($L_{eq}[h]$) is the energy average of A-weighted sound levels occurring during a 1-hour period, and is the basis for noise abatement criteria (NAC) used by Caltrans and the FHWA.

- **Percentile-Exceeded Sound Level (L_n):** The L_n represents the sound level exceeded "n" percentage of a specified period (e.g., L_{10} is the sound level exceeded 10 percent of the time, and L_{90} is the sound level exceeded 90 percent of the time).

- **Maximum Sound Level (L_{max}):** The L_{max} is the highest instantaneous sound level measured during a specified period.

- **Day-Night Average Sound Level (L_{dn}):** The L_{dn} is the energy-average of A-weighted sound levels occurring over a 24-hour period, with a 10 dB penalty applied to A-weighted sound levels occurring during nighttime hours (10 p.m.-7 a.m.). The L_{dn} is often noted as the DNL.

- **Community Noise Equivalent Level (CNEL):** Similar to L_{dn}, CNEL is the energy-average of the A-weighted sound levels occurring over a 24-hour period, with a 10 dB penalty applied to A-weighted sound levels occurring during the nighttime hours (10 p.m.-7 a.m.), and a 5 dB penalty applied to the A-weighted sound levels occurring during evening hours (7 p.m.-10 p.m.). The CNEL is usually within 1 dB of the L_{dn}, and for all intents and purposes, the two are interchangeable. As it is easier to compute and of more common use, the L_{dn} is used as the long-term noise measure in this study.

1.9 Sound Propagation/Geometric Spreading

Sound from a localized source (i.e., point source) propagates uniformly outward in a spherical pattern; therefore, this type of propagation is called *spherical spreading*. The sound level attenuates (or decreases) at a rate of 6 dB for each doubling of distance from a point/stationary source as its energy is continuously spread out over a spherical surface (see Figure B).

Backhoe	76.0

Combined Predicted Noise Level (L_{eq} dBA at 50 feet)
87.2

Sources:

[1] Obtained from the FHWA Roadway Construction Noise Model, .

[2] Based on the following from the Federal Transit Noise and Vibra

$L_{eq}(equip) = E.L.+10*\log (U.F.) - 20*\log (D/50) - 10*G*\log (D/50)$

Where: E.L. = Emission Level;

U.F.= Usage Factor;

G = Constant that accounts for topography and ground effects; and

D = Distance from source to receiver.

Appendix H

Mitigation Monitoring and Reporting Program

MITIGATION MONITORING AND REPORTING PROGRAM SUMMARY TABLE

The following mitigation monitoring and reporting program (MMRP) summary table includes the mitigation measures identified in the City of Modesto's (City's) Del Rio Tank and Wells Project Draft Environmental Impact Report (DEIR) and the Final Program Environmental Impact Report (Program EIR) for the Water System Engineer's Report (City of Modesto 2010). Mitigation measures from the Program EIR are designated with "P-." For each mitigation measure, this table identifies monitoring and reporting actions that shall be carried out and the monitoring schedule. This table also includes a column where responsible parties can check off monitoring and reporting actions as they are completed.

As lead agency, the City will be responsible for ensuring that mitigation measures identified in this EIR are fully implemented. However, some mitigation measures would be implemented by the contractor(s) on behalf of the City. Contract documents for the proposed project will identify the obligations of the contractor, including relevant mitigation measures. The City will require that the contractor provide the City with documentation that it has adequately implemented its contractual obligations, including applicable mitigation measures.

Thus, in the descriptions of the mitigation measures provided in the table which follows, while the City may be the only party referenced in implementing a mitigation measure (i.e., where the measure states "the District shall"), this is intended to be inclusive of the contractor's role in implementing certain mitigation measures during construction or as part of design.

ACRONYMS AND ABBREVIATIONS USED IN APPENDIX H

ASTM	American Society for Testing Materials
CDFG	California Department of Fish and Game
CDFW	California Department of Fish and Wildlife
CEQA	California Environmental Quality Act
City	City of Modesto
CRHR	California Register of Historical Resources
dBA	A-weighted decibels
DEIR	draft environmental impact report
EIR	environmental impact report
EPA	Environmental Protection Agency
MLD	Most Likely Descendant
MMRP	mitigation monitoring and reporting program
NAHC	Native American Heritage Commission
PRC	Public Resources Code
TCR	tribal cultural resource
USFWS	U.S. Fish and Wildlife Service

Mitigation Measure		Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
Aesthetics				
AES-1	**Locate Staging Areas Away from Public Areas.** Construction staging areas for equipment, personal vehicle parking, and material storage shall be sited as far as possible from residences, major roadways, and public areas. The City contract specifications shall require that staging areas be identified in the documents prepared by construction contractors and subject to approval by the City. The City shall not approve staging areas that are not sited as described above.	▪ Confirm that construction staging area requirements are incorporated into the contract specifications ▪ Designate location of staging areas in contract specifications	▪ During preparation of contract specifications ▪ Before construction begins	
AES-2	**Screen Staging and Construction Areas.** The construction contract shall specify that staging areas be located where opportunities for screening with existing topography and vegetation will be maximized. Security fencing placed around staging and construction areas shall include slats or other screening sufficient to hide the area from the passing public. Screens used for this purpose shall be of an earth tone or other appropriate neutral color.	▪ Confirm that staging area screening requirements are incorporated into the construction specifications ▪ Confirm that screening requirements are implemented properly.	▪ Before construction begins ▪ During construction	
Air Quality				
None				
Biological Resources				
BIO-1	**Avoid and Protect Burrowing Owls at Site A.** Because some burrows that could be used by Burrowing Owls were noted during field surveys at Site A, and in conformance with federal and state regulations regarding	▪ Retain qualified biologist to conduct survey. ▪ Confirm that preconstruction survey is	▪ Before construction ▪ Before construction	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	the protection of raptors, the City shall hire a qualified biologist to conduct a preconstruction survey(s) for Burrowing Owls within a 250-foot buffer around the project site, in conformance with accordance with protocols established in the Staff Report on Burrowing Owl Mitigation (CDFG 2012 or current version), and prior to the start of construction. If no Burrowing Owls are located during these surveys, no additional action is warranted. However, if breeding or resident owls are located on or within 250 feet of Site A, the following measures shall be implemented. ▪ No Burrowing Owls will be evicted from burrows during the nesting season (February 1 through August 31). Eviction outside the nesting season may be permitted following evaluation of eviction plans and receipt of formal written approval from CDFW authorizing the eviction. ▪ A 250-foot buffer, within which no new activity is permissible, shall be maintained between project activities and nesting Burrowing Owls. This protected area will remain in effect until August 31 or, at CDFW's discretion (based upon monitoring evidence), until the young owls are foraging independently.	conducted in accordance with this mitigation measure. ▪ If Burrowing Owls are found within 250 feet of Site A, establish buffer and avoid new activity in the area.	▪ During construction as necessary	
BIO-2	**Compensate for Loss of Burrowing Owl Habitat at Site A.** If a preconstruction survey finds that Burrowing Owls occupy Site A, and avoiding construction in occupied areas is not feasible, then the City shall implement habitat compensation on off-site mitigation lands, or shall purchase mitigation bank credits from a mitigation bank approved by CDFW. If mitigation credits are not purchased, habitat management	▪ Consult with CDFW and confirm whether purchasing mitigation bank credits or off-site mitigation option shall be pursued. ▪ If mitigation bank credits are not available, establish an	▪ Before construction ▪ Before or during construction, as necessary	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	lands comprising existing Burrowing Owl foraging and breeding habitat will be acquired and preserved. An area of 6.5 acres (the amount of land found to be necessary to sustain a pair or an individual owl) will be secured for each pair of owls or for an individual, in the case of an odd number of birds. Relocation of owls shall only be implemented during the non-breeding season. As part of an agreement with CDFW, the City shall provide CDFW with security for the performance of its mitigation duties in the form of funds that will: ▪ allow for the acquisition and preservation of 6.5 acres of habitat management lands for each pair of owls or unpaired resident single owl; ▪ provide initial protection and enhancement activities on the habitat management lands, potentially including such measures as fencing, trash cleanup, artificial burrow creation, grazing or mowing, and any habitat restoration deemed necessary by CDFW; ▪ establish an endowment for the long-term management of the habitat management lands; and ▪ reimburse CDFW for reasonable expenses incurred as a result of the approval and implementation of this agreement.	agreement with CDFW regarding the appropriate amount of funds that should be set aside for the project's mitigation. ▪ Submit appropriate funds to CDFW consistent with the agreement made with CDFW	▪ Before or during construction, as necessary	
BIO-3				

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	Compensate for Loss of Swainson's Hawk Foraging Habitat. To mitigate for the loss of potential Swainson's Hawk foraging habitat, the City shall provide off-site habitat management lands, as described in the CDFW protocol for the mitigation of impacts on Swainson's hawks in the Central Valley (CDFG 1994), or by purchasing credits at a CDFW-approved Swainson's Hawk foraging habitat mitigation bank that covers the Proposed Project area, such as the Dutchman Creek Conservation Bank. The City shall determine the final acreage of off-site management lands or mitigation bank credits to be provided based on the distance between the project area and the nearest active nest site, as stated in the CDFW protocol (CDFG 1994). Mitigation credits would follow the same ratio guidelines as off-site management lands. Prior to the grading of any site with potential foraging habitat, the City shall hire a qualified biologist to conduct protocol-level surveys to determine the location of the nearest active nest. Based on these surveys, the City shall compensate for losses in compliance with the protocol for the mitigation of impacts on Swainson's hawks in the Central Valley (CDFG 1994), as follows: ▪ Projects within 1 mile of an active nest tree shall provide: – 1 acre of habitat management land for each acre of development authorized (1:1 ratio), at least 10% of which shall be met by fee title acquisition or a conservation easement allowing for the active management of the habitat, with the remaining 90% protected by a conservation easement acceptable to	▪ Consult with CDFW and confirm whether purchasing mitigation bank credits or off-site mitigation option shall be pursued. ▪ If mitigation credits are available and acceptable to CDFW, purchase the appropriate number of credits from the mitigation bank in accordance with the CDFW protocol. ▪ If off-site management lands are pursued, hire a qualified biologist to conduct protocol-level surveys for Swainson's hawk nests in the project vicinity. ▪ If off-site management lands are pursued, mitigate for those losses consistent with the ratios stated in the mitigation measure and through consultation with CDFW. Protect habitat management lands by acquiring a fee title or establishing a conservation easement.	▪ Before construction ▪ Before or during construction, as necessary ▪ Before or during construction, as necessary ▪ Before or during construction, as necessary	

Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
CDFW on agricultural lands or other suitable habitats that provide foraging habitat for Swainson's Hawk; or – 0.5 acre of habitat management land for each acre of development authorized (0.5:1 ratio), all of which shall be met by fee title acquisition or a conservation easement acceptable to CDFW that allows for the active management of the habitat for prey production on the habitat management lands. ▪ Projects within 5 miles of an active nest tree but greater than 1 mile from the nest tree shall provide 0.75 acre of habitat management land for each acre of urban development authorized (0.75:1 ratio). All habitat management lands protected under this requirement may be protected through fee title acquisition or conservation easement on agricultural lands or other suitable habitats that provide foraging habitat for Swainson's Hawks. ▪ Projects within 10 miles of an active nest tree but greater than 5 miles from an active nest tree shall provide 0.5 acre of habitat management land for each acre of urban development authorized (0.5:1 ratio). All habitat management lands protected under this requirement may be protected through fee title acquisition or conservation easement acceptable to CDFW on agricultural lands or other suitable habitats that provide foraging habitat for Swainson's Hawks.			

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	Management Authorization holders/project sponsors shall provide for the long-term management of the habitat management lands by funding a management endowment (the interest on which shall be used for managing the habitat management lands). If mitigation credits are purchased, long term management would be the responsibility of the mitigation bank.			
BIO-4	**Conduct Preconstruction Surveys for Swainson's Hawk Nests.** To ensure that nesting Swainson's Hawks will not be disturbed by construction activities, the City will hire a qualified ornithologist to conduct preconstruction surveys of the Proposed Project sites and adjacent areas within 1 mile of Sites A and B. No fewer than three surveys will be completed in at least each of the two survey periods immediately prior to project initiation, according to this schedule, based on Recommended Timing and Methodology for Swainson's Hawk Nesting Surveys in California's Central Valley (Swainson's Hawk Technical Advisory Committee 2000): ▪ Survey Period I occurs from January 1 to March 20; ▪ Period II from March 20 to April 5; ▪ Period III from April 5 to April 20; ▪ Period IV from April 21 to June 10 (surveys are not recommended during this period because identification is difficult, as the adults tend to remain within the nest for longer periods of time); and	▪ Retain a qualified ornithologist to conduct preconstruction surveys. ▪ Complete preconstruction surveys within the time period outlined in the mitigation measure. ▪ In the event that nest is found, halt construction and contact CDFW to confirm how to proceed.	▪ Before construction ▪ Before construction ▪ Before construction	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	* Period V from June 10 to July 30. If a nest site is found, no construction work shall commence until after the City engages in consultation with CDFW and CDFW-approved measures are implemented. As a performance standard, the measures implemented shall ensure that project initiation will not result in nest disturbance.			
BIO-5	**Conduct Preconstruction Surveys for Nesting Birds.** The City shall require that construction will be avoided during the nesting season (generally between February 1 and August 31), where practical. If construction activities cannot be avoided during the nesting season, a qualified biologist will conduct a preconstruction survey within 500 feet of the construction area to determine whether active nests are present on the site. The survey will be conducted no more than 30 days prior to construction. If the biologist determines that the area surveyed does not contain any active nests, then construction activities can commence without any further mitigation. If active nests are found, CDFW and USFWS will be notified and Mitigation Measure BIO-6 will be implemented.	* Retain a qualified biologist to conduct preconstruction surveys. * Complete surveys at least 30 days before construction. * If active nests are found during the surveys, contact CDFW and USFWS	* Before construction * Before construction * Before construction	
BIO-6	**Avoid and Minimize Impacts on Nesting Raptors and Other Migratory Birds.** To avoid disturbing any active migratory bird nests, the City shall require that construction activities will be conducted during the non-breeding season for these species (generally between September 1 and January 31). If active nests are present on or adjacent to either of the Proposed Project	* If active nests are found during implementation of Mitigation Measure BIO-5, limit construction activities to the general non-breeding season (September 1 to January 31).	* During construction * During construction * During construction	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	sites, CDFW and USFWS will be notified. If active migratory bird nests are present and construction cannot be avoided during the breeding season, construction will not occur within 500 feet of an active nest until the young have fledged, as determined by a qualified biologist, or until the project applicant receives written authorization from CDFW and USFWS to proceed.	* Contact CDFW and USFWS if active nests are present on or near construction work areas. * If active nests are present and cannot be avoided during the breeding season (February 1 to August 31), establish 500-foot buffer around active nest.		
BIO-7	**Protect Bat Colonies.** The following measures shall be implemented to avoid and minimize impacts on bats: * Prior to removal of structures, the City shall hire a qualified bat biologist familiar with bat biology and ecology to assess structures to be removed for potential, active bat habitat. If the biologist determines that bats are not actively occupying the structures based on professional opinion following appropriate survey protocols, then the structures may be removed. * For structures identified by the qualified biologist to be actively occupied by bats, removal of the structures shall not occur between April 15 and August 31 to avoid the bat maternity season, * Demolition of structures shall be preceded by either humane eviction, phased dismantling, and/or deterrent methods to prevent direct mortality.	* Retain a qualified bat biologist to conduct surveys prior to removal of structures at Site A. * Bat biologist shall conduct surveys of structures. * If structures are occupied, ensure that removal of structures occur between September 1 and April 14 (outside of bat maternity season). * Ensure demolition activities take place consistent with Mitigation Measure BIO-7.	* Before construction * Prior to removal of structures * During construction * During construction * During construction	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
Cultural Resources				
CR-1	**Suspend Construction Immediately if Cultural Resources Are Discovered, Evaluate All Identified Cultural Resources for CRHR Eligibility, and Implement Appropriate Mitigation Measures for Eligible Resources.** Not all cultural resources are visible on the ground surface. As a result, before initiation of ground-disturbing activities, the City or its designee shall arrange for construction crews to receive training about the kinds of archaeological materials that could be present at the Proposed Project site and the protocols to be followed should any such materials be uncovered during construction. Training shall be conducted by an archaeologist who meets the U.S. Secretary of the Interior's professional standards. Training shall be required during each phase of construction to educate new construction personnel. If any cultural resources, including structural features, unusual amounts of bone or shell, flaked or ground stone artifacts, historic-era artifacts, human remains, or architectural remains, are encountered during Proposed Project construction activities, work shall be suspended immediately at the location of the find and within a radius of at least 50 feet and the City will be contacted. All cultural resources uncovered during construction within the Proposed Project site shall be evaluated for eligibility for inclusion in CRHR. Resource evaluations shall be conducted by individuals who meet the U.S. Secretary of the Interior's professional standards in archaeology, history, or architectural history, as appropriate. If any of the resources	▪ Retain qualified archaeologist or City staff person to conduct worker training. ▪ Halt construction activities in the event any cultural resources are encountered. ▪ If cultural resources are uncovered, retain a qualified individual who meets the U.S. Secretary of the Interior's standards to conduct resource evaluations. ▪ If uncovered resources meet eligibility criteria, implement mitigation measures consistent with Guidelines Section 15126.4(b). ▪ If TCR or any other resources eligible for listing in the CRHR are encountered, implement additional measures in accordance with Mitigation Measure CR-1.	▪ Prior to construction ▪ During construction ▪ During construction ▪ During construction ▪ During construction	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	meet the eligibility criteria identified in PRC Section 5024.1 or CEQA Guidelines Section 21083.2(g), mitigation measures will be developed and implemented in accordance with CEQA Guidelines Section 15126.4(b) before construction resumes. For a TCR or any resources eligible for listing in the CRHR that would be significantly adversely affected by the Proposed Project construction, additional mitigation measures shall be implemented. Mitigation measures for archaeological resources may include (but are not limited to) avoidance; incorporation of sites within parks, greenspace, or other open space; capping the site; deeding the site into a permanent conservation easement; or data recovery excavation. Mitigation measures for archaeological resources shall be developed in consultation with responsible agencies and, as appropriate, interested parties such as Native American tribes. Native American consultation is required if an archaeological site is determined to be a TCR. Implementation of the approved mitigation is required before resuming any construction activities with the potential to affect identified eligible resources at the site.			
CR-2	**Suspend Construction Immediately if Paleontological Resources Are Discovered, Evaluate the Significance of the Resources, and Implement Appropriate Mitigation Measures as Necessary.** Paleontological resources are not necessarily visible on the ground surface. As a result, before initiation of ground-disturbing activities, construction crews shall receive training about the kinds of paleontological materials that could be present at the Proposed Project site and the protocols to be followed should such materials be uncovered during	▪ Retain a qualified paleontologist to conduct worker training. ▪ In the event a paleontological item is discovered, halt construction activities within 50 feet of discovery site and notify the City.	▪ Prior to construction ▪ During construction ▪ During construction	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	construction. Training shall be conducted by a professional paleontologist. Training shall be required during each phase of construction to educate new construction personnel. If any items of paleontological interest are discovered during construction, work shall be suspended immediately within 50 feet of the discovery site, or to the extent needed to protect the site, and the City shall be notified. Any discovery of paleontological resources during construction shall be evaluated by the qualified paleontologist. If it is determined that the Proposed Project could damage a unique paleontological resource, mitigation shall be implemented in accordance with PRC Section 21083.2 and CEQA Guidelines Section 15126.4. If avoidance is not feasible, the paleontologist shall develop a treatment plan in consultation with the City. Work shall not be resumed until authorization is received from the City and any recommendations received from the qualified paleontologist are implemented.	▪ Ensure that qualified paleontologist evaluates the discovery and, in the event the project could damage the resource, implement mitigation in accordance with Mitigation Measure CR-2 and consult with the City as necessary.		
CR-3	**Halt Construction Immediately if Human Remains Are Discovered and Implement Applicable Provisions of the California Health and Safety Code.** If human remains are discovered during construction activities, the requirements of Section 7050.5 of the California Health and Safety Code shall be followed. Potentially damaging excavation shall halt on the Proposed Project site within a minimum radius of 100 feet of the remains and the County Coroner shall be notified. The Coroner is required to examine all discoveries of human remains within 48 hours of receiving notice of a discovery on	▪ Confirm that measure is included in project plans and specifications. ▪ In the event that human remains are encountered, halt work and contact the Stanislaus County Coroner. ▪ Confirm that any discoveries of human remains are	▪ During preparation of plans and specifications ▪ During construction ▪ During construction	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	private or state lands (Health and Safety Code Section 7050.5[b]). If the Coroner determines that the remains are those of a Native American, he or she must contact the NAHC by phone within 24 hours of making that determination (Health and Safety Code Section 7050[c]). In accordance with the provisions of PRC Section 5097.98, the NAHC shall identify a Most Likely Descendent (MLD). The MLD designated by the NAHC shall have at least 48 hours to inspect the site and propose treatment and disposition of the remains and any associated grave goods. The City or its designee shall work with the MLD to ensure that the remains are removed to a protected location and treated with dignity and respect.	evaluated and addressed properly.		
CR-4	**Prepare and Implement Treatment Plans for any TCRs Identified in the Proposed Project Study Area.** If TCRs are identified in the Proposed Project study area, the City shall consult and work with tribes with a traditional and cultural affiliation to the resource to develop feasible alternatives that will avoid impacts or develop and implement treatment plans that will substantially lessen the impacts on identified TCRs, in accordance with PRC Sections 21083(b)(2) or 21084.3.	▪ Confirm that measure is included in project plans and specifications. ▪ In the event that TCRs are identified, consult with tribes with a traditional and cultural affiliation to the resource and implement treatment plans if necessary.	▪ During preparation of plans and specifications ▪ During construction	
Geology, Soils, and Seismicity				
P-GEO-1	**Conduct project-specific geotechnical investigation prior to construction.** During project design, project-specific geotechnical investigations and reports will be prepared by registered engineers to detect site conditions that could result in	▪ Retain a registered engineer to prepare a geotechnical	▪ During the initial design phase ▪ During preparation of	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	liquefaction, construction on expansive soils, or other potential hazards and to identify appropriate design requirements that would prevent damage to structures. Site-specific geological data and recommendations by a registered engineer will be incorporated into project design, thereby reducing any impacts due to liquefaction.	investigation and report for the project. ▪ Incorporate site-specific data and recommendations from the report into project design to minimize impacts related to liquefaction.	plans and specifications	
Global Climate Change				
None				
Groundwater				
None				
Hazards and Hazardous Materials				
P-HAZ-1	Prepare a risk assessment prior to construction activity. Prior to the commencement of construction activities, the City or its contractor will prepare a risk assessment and establish procedures to address the identification, excavation, handling, and disposal of hazardous materials in accordance with ASTM Standard 1527-05, "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process" and the EPA "All Appropriate Inquiries" standards and practices (40 CFR 312). An environmental database search of regulatory-listed hazardous materials sites contained in local, regional, state, and federal databases for the program site and within a 0.5-mile radius of the site will be performed by a qualified professional as part of this assessment. If contaminated soil	▪ Retain a qualified contractor to conduct a Phase I environmental site assessment. ▪ Incorporate recommendations from the Phase I report in the project plans and specifications. ▪ Ensure that the contractor implements risk assessment recommendations and ensure corrective action if necessary.	▪ Prior to construction ▪ During preparation of plans and specifications ▪ During construction ▪ During construction	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	or groundwater is encountered, the City will notify the appropriate local environmental management agencies and local fire departments. The City will ensure that any identified environmental site conditions that may represent a risk to public health and safety will be remediated in accordance with federal, state, and local environmental laws and regulations. All recommendations in the risk assessment will be implemented by the City and all its representatives, including contractors and earthwork construction workers, such that people are not exposed to adverse conditions on the program site as a result of discovering existing sources of contamination.	▪ Notify appropriate local environmental agencies fire departments in the event that contaminated soil or groundwater is encountered and remediate in accordance with federal, state and local laws and regulations.		
P-HAZ-2	**Control contamination resulting from previously unidentified hazardous waste materials.** Prior to the onset of construction, all construction workers will be trained in the identification of potentially contaminated soil and water, including the characteristics of potential contamination, such as discolored soil, oils or sheens on water, and unusual odors. In the event that hazardous materials are encountered during construction, all construction activities in the area of the discovery will stop, and the City or its contractors will conduct hazardous materials investigations to identify the nature and extent of contamination and evaluate potential impacts on program construction. If necessary, the City or its contractors will implement remediation measures consistent with all applicable local, state, and federal codes and regulations. Construction will not resume until remediation is complete. If waste disposal is necessary, the City will ensure that all hazardous materials removed during construction are	▪ Confirm that measure is included in project plans and specifications. ▪ Conduct worker training. ▪ Halt construction in the event that hazardous materials are encountered. ▪ As necessary, implement remediation measures and transport hazardous materials to an appropriately-licensed and permitted facility.	▪ During preparation of plans and specifications ▪ Prior to construction ▪ During construction ▪ During construction	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	handled and disposed of by a licensed waste-disposal contractor and are transported by a licensed hauler to an appropriately-licensed and permitted disposal or recycling facility, in accordance with local, state, and federal requirements.			
Land Use and Planning				
None				
Noise and Vibration				
NOISE-1	**Employ Noise-reducing Construction Practices.** The following measures shall be implemented by the City or its contractor to reduce adverse effects from construction noise: ▪ At least two weeks prior to the start of construction, provide written notification to the potentially affected property owners and residents within 500 feet of the project site, identifying the type, duration, and frequency of construction activities to residences directly exposed to the project noise. Notification of heavy construction activities shall include anticipated dates and hours during which construction activities are anticipated to occur. Notification materials shall also identify a mechanism for residents to register complaints with the City through contact information, including a daytime telephone number, for the project representative to be contacted in the event that construction noise levels are deemed excessive, overly intrusive or construction occurs outside the permitted hours. Recommendations to assist noise-sensitive land uses in reducing interior noise levels (e.g.,	▪ Confirm that measure is included in project plans and specifications. ▪ Notify property owners and residents within 500 feet of project site about construction activities and schedule. ▪ Designate a noise disturbance coordinator and ensure that this person's contact information is posted around the project site. ▪ Comply with noise minimization measures	▪ During preparation of plans and specifications ▪ At least 2 weeks prior to construction ▪ During construction ▪ During construction ▪ During construction	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	closing windows and doors) shall be included in the notification. ▪ Designate a disturbance coordinator and conspicuously post this person's number around the project sites, in adjacent public spaces, and in construction notifications. The disturbance coordinator shall be responsible for responding to any complaints about construction activities. The disturbance coordinator shall receive all public complaints about construction disturbances and be responsible for determining the cause of the complaint and implementation of feasible measures to be taken to alleviate the problem. ▪ Locate stationary or fixed construction equipment (e.g., compressors and generators), construction staging and stockpiling areas, and construction vehicle routes as far as feasible from noise-sensitive receptors. ▪ Prohibit the start-up of machines or equipment before 7 a.m. and after 7 p.m. Monday through Saturday and before 9 a.m. and after 5 p.m. on Sunday. ▪ Prohibit use of materials and equipment deliveries before 7 a.m. and after 7 p.m., Monday through Saturday and before 9 a.m. and after 5 p.m. on Sunday. ▪ Restrict the use of bells, whistles, alarms, and horns to safety-warning purposes. ▪ Equip all construction equipment with noise-reduction devices such as mufflers to minimize construction noise and operate all internal combustion engines with exhaust and intake silencers.	outlined in Mitigation Measure NOISE-1. ▪ Ensure corrective action as necessary.		

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	▪ Use noise-reducing enclosures around stationary noise generating equipment. ▪ To the extent feasible, the simultaneous operation of multiple construction equipment shall be limited. ▪ Install temporary barrier between noise sources and noise sensitive receptors, or the use of intervening structures (i.e.; on-site construction trailer, stockpiles).			
NOISE-2	**Employ Noise-reducing Methods during Operations at Site B.** The City shall implement noise-reducing methods so that noise from well operations at Site B, located at the corner of McHenry Avenue and Stewart Road, does not exceed County noise-level standards at adjacent residences. Measures to be implemented shall include the following: **Generator** 1. Project specifications shall include generator sound level limits of 73 dBA at 23 feet, similar to those at the City's Well 62 facility. 2. Noise control specifications for the generator set shall include a sound-attenuated enclosure for the pump and a sound wall within the facility wall. Specifications for the pump enclosure and sound wall are prescribed in item 5 below. 3. Routine testing of the generator shall be performed during daytime hours, between 10 a.m. and 5 p.m.,	▪ Incorporate noise-reducing measures into the project's generator and pump enclosure design requirements. ▪ Retain a qualified acoustical consultant to assist with preparing the project's generator and pump enclosure and sound wall specifications. ▪ Ensure that well pumps and generator are designed consistent with Mitigation Measure NOISE-2. ▪ Confirm that noise-reducing methods are included in project plans and specifications.	▪ During the initial design phase ▪ During the initial design phase. ▪ During the design phase. ▪ During preparation of plans and specifications	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	when background sound levels are highest, to minimize potential noise impacts. 4. Obtain the services of a qualified acoustical consultant to conduct project-related operational noise measurements at sensitive receptor locations adjacent to the Proposed Project site to ensure that noise-reducing measures comply with applicable codes. If noise measurements do not comply with applicable codes, additional noise reduction measures should be designed and incorporated. With these measures, no additional sound reduction would be required to reduce sound levels due to the generator set. **Pump Enclosure and Sound Wall** 5. The pump enclosure shall be designed to the following specifications to ensure operational sound levels are reduced below County standards: (a) Install a modular sound wall with an optional removable roof adjacent to the pump. The sound-absorptive modular barrier system shall be installed along the west edge of the pump base to a height of at least 10 feet above grade. The barrier system will wrap around the north and south sides of the pump to create a three-walled system with integrated sound absorption. In general, acoustical barriers perform best when close to the noise source. Acceptable products include the following or an approved equivalent: Kinetics Noiseblock Barrier			

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	Panel System, Noise Barriers LLC QuietLine Barrier Walls, Sound Fighter Systems LSE. (b) Include an insulated sheet metal shroud around the pump motor and shaft. Construct the sheet metal shroud to block the line of sight to the motor ventilation openings. Construction materials shall include exterior-grade sheet metal used for heating, ventilation, and air conditioning (HVAC) ducts and acoustical duct liner. (c) If the above measures cannot be employed for the pump, one of the following measures will be implemented to meet the County's nighttime noise threshold of 45 dBA: i. Install a submersible pump that would place the motor under water and virtually eliminate the sound source. ii. Increase the height of the equipment yard sound wall above 12 feet. Based on the noise analysis, increasing the equipment yard wall height to 13 feet would result in an additional 2 dBA of attenuation and a predicted sound level of 45 dBA. A 14-foot-tall wall could reduce sound levels by an additional 1 dBA. iii. Construct a barrier adjacent to the motor with a removable roof barrier directly over the motor. This secondary barrier directly adjacent to the pump motor on the west side would effectively			

Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
reduce sound levels below the nighttime noise threshold. The detachable roof would still provide access to the motor for servicing and removal. The barrier adjacent to the motor shall be designed to the following specifications to ensure operational sound levels would be reduced below County standards: * The barrier shall be constructed around the equipment within the wall surrounding the facility. * The barrier shall weigh a minimum of 4 pounds per square foot. Painted and sealed concrete block easily meets this weight requirement. * The barrier shall be continuous along its length and width with no gaps in the construction, including at the ground. The equipment yard pad shall be sloped such that weeping holes are only needed on the north and east sides of the facility. iv. Construct an insulated sheet metal shroud around the motor and shaft. This metal shroud would accommodate air circulation requirements for the motor, but would divert sound energy away from the motor openings and base near the shaft. Sound energy would			

Mitigation Measure		Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	be attenuated by sound-absorbing material within the metal shroud.

Chapter 1
INTRODUCTION

The City of Modesto (City) as the lead agency has prepared this Final Environmental Impact Report (FEIR) to provide other responsible agencies and the public with information about the potential environmental effects of the proposed Del Rio Tank and Wells Project (Proposed Project). This FEIR was prepared in compliance with the California Environmental Quality Act (CEQA) of 1970 (as amended) and the CEQA Guidelines (Title 14 California Code of Regulations [CCR] Section 15000 *et seq.*).

1.1 FEIR Context

The City of Modesto provides water service to the community of Del Rio. The Del Rio water system currently requires a new storage tank (and associated pump station), well, replacement well, backup generators, and pipelines to correct existing supply deficiencies. The Proposed Project was evaluated in a draft environmental impact report (DEIR) in accordance with CEQA and the CEQA Guidelines, and was circulated for a 45-day public review period.

CEQA requires the lead agency to prepare an FEIR, addressing all substantive comments received on the DEIR, before approving a project. The FEIR must include a list of all individuals, organizations, and agencies that provided comments on the DEIR, and must contain copies of all comments received during the public review period along with the lead agency's responses.

The FEIR will be distributed to public agencies that provided comments 10 days prior to certifying the FEIR. At the close of the 10-day public agency review period, City staff will recommend to the Modesto City Council whether or not to certify the FEIR. This governing body then will review the FEIR, consider City staff recommendations and public testimony, and decide whether to certify the FEIR.

For significant impacts identified in the EIR that cannot be mitigated, a statement of overriding considerations must be included in the record of the Proposed Project and mentioned in the Notice of Determination, to be filed with the Governor's Office of Planning and Research (OPR) and at the office of the County Clerk (14 CCR Section 15093[c]).

1.2 Comments on the DEIR

The DEIR for the Proposed Project was submitted to OPR's State Clearinghouse for distribution to state agencies and was available to agencies and the public for review and comment for 45 days from November 7, 2016, to December 22, 2016. Comment letters were received from federal, state, and local agencies; organizations and businesses; and individuals. Chapters 2 and 3 of this FEIR provide detailed summaries of the public participation process and comments received.

1.3 Organization and Contents of the FEIR

The FEIR contains the following components, in addition to the DEIR and its appendices:

Chapter 1, *Introduction,* presents the FEIR context, summarizes the public review period for the DEIR, and describes the organization and contents of the FEIR.

Chapter 2, *Summary of Public Participation,* summarizes the environmental and public review process, in accordance with CEQA.

Chapter 3, *Responses to Comments,* lists and assigns identifiers to each individual or group that commented on the DEIR during the public review process. Written comments received during the public review period are reproduced and a response is provided for each comment that addresses the environmental analysis.

Chapter 4, *Revisions to the DEIR,* identifies changes to the text of the DEIR made in response to the public review and comment process.

Chapter 5, *Report Preparation,* lists the individuals responsible for preparing the FEIR.

Chapter 6, *References,* provides information about all printed or electronic references and persons consulted during the preparation of this FEIR.

Chapter 2
SUMMARY OF PUBLIC PARTICIPATION

Public disclosure and informed decision making are priorities under CEQA. CEQA mandates two periods during the EIR process when citizen and public agency comments on the impacts of a proposed program are solicited: (1) during the scoping comment period, and (2) for a DEIR, during the public review period. This chapter summarizes the City's efforts to comply with CEQA mandates for public disclosure.

2.1 Notice of Preparation and Public Scoping

Scoping refers to the public outreach process used under CEQA to determine the coverage and content of an EIR. The scoping comment period offers an important early opportunity for public review and comment on the focus of the CEQA analysis. The scoping process for an EIR is initiated by publication of the Notice of Preparation (NOP), as required by CEQA, which provides formal notice to the public and to interested agencies and organizations that a DEIR is in preparation. Additionally, the NOP informs responsible agencies and the public whether the Proposed Project could have significant effects on the environment and to solicit their comments so that any concerns raised could be considered during the preparation of the DEIR. During the scoping period, agencies and the public are invited to comment on the project, the approach to environmental analysis, and any issues of concern to be discussed in the DEIR. Scoping also can assist the lead agency with identification of project alternatives and mitigation measures. CEQA does not require public meetings during the scoping phase.

In accordance with CEQA Guidelines Sections 15082(a), 15103, and 15375, the City circulated an NOP for the Proposed Project on July 28, 2016. The NOP was circulated to the public; local, state, and federal agencies; and other interested parties. A copy of the NOP was included in Appendix A, *Scoping Summary,* of the DEIR. Comment letters received in response to the NOP were also compiled in the scoping summary and were considered during preparation of the DEIR.

2.2 Notice of Availability of the DEIR and Public Review

Upon completion of the DEIR, the City issued a Notice of Availability (NOA), providing agencies and the public with formal notification that the document was available for review. The notice was sent to OPR's State Clearinghouse, all responsible and trustee agencies, persons and organizations that requested a copy, and the Stanislaus County Clerk's office for posting. Notices were also published in local newspapers.

These actions triggered a 45-day public review period, which began on November 7, 2016, and concluded on December 22, 2016.

During the review period for the DEIR, all documents related to the Proposed Project were available for review on City business days, between the hours of 8 a.m. and 5 p.m., at the following location:

City of Modesto Utilities Department
1010 Tenth Street, Suite 4600
Modesto, CA 95353

In addition, an electronic copy of the DEIR was available for review and download from the City's website (www.modestogov.com), and CD copies of the DEIR were also available by contacting Tamorah Bryant, Senior Civil Engineer.

2.3 Comments on the DEIR

Written comments or questions concerning the DEIR were accepted during the public review period at the name and address listed below. Submittal of written comments via email was encouraged; however, many commenters elected to mail comments to the address below.

Tamorah Bryant, Senior Civil Engineer
City of Modesto Utilities Department
P.O. Box 642
Modesto, CA 95353
Email: tbryant@modestogov.com

A total of 10 comment submittals (letters and emails) were received during the public review period. Chapter 3 provides additional information about comments received on the DEIR.

2.4 Certification of the FEIR and Public Hearing

CEQA requires the lead agency to prepare a FEIR, addressing all substantive comments received on the DEIR. The FEIR must include a list of all individuals, organizations, and agencies that provided comments on the DEIR, and must contain copies of all comments received during the public review period, along with the lead agency's responses. Accordingly, Chapter 3 of this FEIR includes a list of commenters, copies of all comments received, and responses to those comments. Together with the DEIR, this FEIR constitutes the entire EIR for the purposes of compliance with CEQA. (See generally 14 CCR Section 15132.)

The FEIR will be distributed to public agencies that provided comments, 10 days prior to a public hearing hosted by the City as lead agency. At the public hearing, the City will review the EIR, consider staff recommendations, accept public testimony, and decide whether to certify the EIR.

The EIR certification hearing will be held at 5:30 p.m. on August 2, 2017, at the Modesto City Council Chambers, 1010 Tenth Street, Lower Level, Modesto, CA 95353.

Chapter 3
COMMENTS ON THE DEIR AND RESPONSES

3.1 Introduction

CEQA requires the lead agency to prepare a FEIR, addressing all substantive comments received on the DEIR. The FEIR must include a list of all individuals, organizations, and agencies that provided comments on the DEIR, and must contain copies of all comments received during the public review period, along with the lead agency's responses.

This chapter provides a list of comments received, copies of the comments, and responses to those comments that address environmental issues.

Individual comments within each submittal are marked and numbered in the margin of the comment letter. The marked individual comments correspond to the responses to those comments. For example, Comment A-3 from Letter A corresponds to the response to Comment A-3.

3.2 List of Comments Received

The City received 10 comment submittals, including letters and emails, during the public review period. **Table 3-1** lists the identifier for each submittal; the name and affiliation of the individual who submitted each comment; and the date the comment was received.

Table 3-1. List of DEIR Comment Submittals Received During the Public Review Period

Comment Letter	Commenter Name and Affiliation	Date Received
State and Local Agencies		
A	Stephanie Tadlock, Central Valley Regional Water Quality Control Board	December 19, 2016
B	Patrick Cavanah, Stanislaus County Environmental Review Committee	December 22, 2017

COMMENTS TO REQUEST FOR REVIEW FOR THE DRAFT ENVIRONMENTAL IMPACT REPORT, DEL RIO TANK AND WELLS PROJECT, SCH# 2016072055, STANISLAUS COUNTY

Pursuant to the State Clearinghouse's 7 November 2016 request, the Central Valley Regional Water Quality Control Board (Central Valley Water Board) has reviewed the *Request for Review for the Draft Environment Impact Report* for the Del Rio Tank and Wells Project, located in Stanislaus County

A-1

Our agency is delegated with the responsibility of protecting the quality of surface and groundwaters of the state; therefore our comments will address concerns surrounding those issues.

A-2

I. Regulatory Setting

Basin Plan
The Central Valley Water Board is required to formulate and adopt Basin Plans for all areas within the Central Valley region under Section 13240 of the Porter-Cologne Water Quality Control Act. Each Basin Plan must contain water quality objectives to ensure the reasonable protection of beneficial uses, as well as a program of implementation for achieving water quality objectives with the Basin Plans. Federal regulations require each state to adopt water quality standards to protect the public health or welfare, enhance the quality of water and serve the purposes of the Clean Water Act. In California, the beneficial uses, water quality objectives, and the Antidegradation Policy are the State's water quality standards. Water quality standards are also contained in the National Toxics Rule, 40 CFR Section 131.36 and the California Toxics Rule, 40 CFR Section 131.38.

A-3

The Basin Plan is subject to modification as necessary, considering applicable laws, policies, technologies, water quality conditions and priorities. The original Basin Plans were adopted in 1975, and have been updated and revised periodically as required, using Basin Plan amendments. Once the Central Valley Water Board has adopted a Basin Plan amendment in noticed public hearings, it must be approved by the State Water Resources Control Board (State Water Board), Office of Administrative Law (OAL) and in some cases,

A-4

the United States Environmental Protection Agency (USEPA). Basin Plan amendments only become effective after they have been approved by the OAL and in some cases, the USEPA. Every three (3) years, a review of the Basin Plan is completed that assesses the appropriateness of existing standards and evaluates and prioritizes Basin Planning issues. A-4 cont.

For more information on the *Water Quality Control Plan for the Sacramento and San Joaquin River Basins*, please visit our website: http://www.waterboards.ca.gov/centralvalley/water_issues/basin_plans/. A-5

Antidegradation Considerations

All wastewater discharges must comply with the Antidegradation Policy (State Water Board Resolution 68-16) and the Antidegradation Implementation Policy contained in the Basin Plan. The Antidegradation Policy is available on page IV-15.01 at http://www.waterboards.ca.gov/centralvalley/water_issues/basin_plans/sacsjr.pdf A-6

In part it states:

Any discharge of waste to high quality waters must apply best practicable treatment or control not only to prevent a condition of pollution or nuisance from occurring, but also to maintain the highest water quality possible consistent with the maximum benefit to the people of the State.

This information must be presented as an analysis of the impacts and potential impacts of the discharge on water quality, as measured by background concentrations and applicable water quality objectives. A-7

The antidegradation analysis is a mandatory element in the National Pollutant Discharge Elimination System and land discharge Waste Discharge Requirements (WDRs) permitting processes. The environmental review document should evaluate potential impacts to both surface and groundwater quality. A-8

II. Permitting Requirements

Construction Storm Water General Permit

Dischargers whose project disturb one or more acres of soil or where projects disturb less than one acre but are part of a larger common plan of development that in total disturbs one or more acres, are required to obtain coverage under the General Permit for Storm Water Discharges Associated with Construction Activities (Construction General Permit), Construction General Permit Order No. 2009-009-DWQ. Construction activity subject to this permit includes clearing, grading, grubbing, disturbances to the ground, such as stockpiling, or excavation, but does not include regular maintenance activities performed to restore the original line, grade, or capacity of the facility. The Construction General Permit requires the development and implementation of a Storm Water Pollution Prevention Plan A-9

(SWPPP).

A-9 cont.

For more information on the Construction General Permit, visit the State Water Resources Control Board website at:
http://www.waterboards.ca.gov/water_issues/programs/stormwater/constpermits.shtml.

A-10

Phase I and II Municipal Separate Storm Sewer System (MS4) Permits[1]
The Phase I and II MS4 permits require the Permittees reduce pollutants and runoff flows from new development and redevelopment using Best Management Practices (BMPs) to the maximum extent practicable (MEP). MS4 Permittees have their own development standards, also known as Low Impact Development (LID)/post-construction standards that include a hydromodification component. The MS4 permits also require specific design concepts for LID/post-construction BMPs in the early stages of a project during the entitlement and CEQA process and the development plan review process.

A-11

For more information on which Phase I MS4 Permit this project applies to, visit the Central Valley Water Board website at:
http://www.waterboards.ca.gov/centralvalley/water_issues/storm_water/municipal_permits/

A-12

For more information on the Phase II MS4 permit and who it applies to, visit the State Water Resources Control Board at:
http://www.waterboards.ca.gov/water_issues/programs/stormwater/phase_ii_municipal.shtml

A-13

Industrial Storm Water General Permit
Storm water discharges associated with industrial sites must comply with the regulations contained in the Industrial Storm Water General Permit Order No. 2014-0057-DWQ.

A-14

For more information on the Industrial Storm Water General Permit, visit the Central Valley Water Board website at:
http://www.waterboards.ca.gov/centralvalley/water_issues/storm_water/industrial_general_permits/index.shtml

A-15

Clean Water Act Section 404 Permit
If the project will involve the discharge of dredged or fill material in navigable waters or wetlands, a permit pursuant to Section 404 of the Clean Water Act may be needed from the United States Army Corps of Engineers (USACOE). If a Section 404 permit is required by the USACOE, the Central Valley Water Board will review the permit application to ensure that discharge will not violate water quality standards. If the project requires surface water

A-16

[1] Municipal Permits = The Phase I Municipal Separate Storm Water System (MS4) Permit covers medium sized Municipalities (serving between 100,000 and 250,000 people) and large sized municipalities (serving over 250,000 people). The Phase II MS4 provides coverage for small municipalities, including non-traditional Small MS4s, which include military bases, public campuses, prisons and hospitals.

drainage realignment, the applicant is advised to contact the Department of Fish and Game for information on Streambed Alteration Permit requirements. A-16 cont.

If you have any questions regarding the Clean Water Act Section 404 permits, please contact the Regulatory Division of the Sacramento District of USACOE at (916) 557-5250. A-17

Clean Water Act Section 401 Permit – Water Quality Certification
If an USACOE permit (e.g., Non-Reporting Nationwide Permit, Nationwide Permit, Letter of Permission, Individual Permit, Regional General Permit, Programmatic General Permit), or any other federal permit (e.g., Section 10 of the Rivers and Harbors Act or Section 9 from the United States Coast Guard), is required for this project due to the disturbance of waters of the United States (such as streams and wetlands), then a Water Quality Certification must be obtained from the Central Valley Water Board prior to initiation of project activities. There are no waivers for 401 Water Quality Certifications. A-18

Waste Discharge Requirements – Discharges to Waters of the State
If USACOE determines that only non-jurisdictional waters of the State (i.e., "non-federal" waters of the State) are present in the proposed project area, the proposed project may require a Waste Discharge Requirement (WDR) permit to be issued by Central Valley Water Board. Under the California Porter-Cologne Water Quality Control Act, discharges to all waters of the State, including all wetlands and other waters of the State including, but not limited to, isolated wetlands, are subject to State regulation. A-19

For more information on the Water Quality Certification and WDR processes, visit the Central Valley Water Board website at:
http://www.waterboards.ca.gov/centralvalley/help/business_help/permit2.shtml A-20

Dewatering Permit
If the proposed project includes construction or groundwater dewatering to be discharged to land, the proponent may apply for coverage under State Water Board General Water Quality Order (Low Risk General Order) 2003-0003 or the Central Valley Water Board's Waiver of Report of Waste Discharge and Waste Discharge Requirements (Low Risk Waiver) R5-2013-0145. Small temporary construction dewatering projects are projects that discharge groundwater to land from excavation activities or dewatering of underground utility vaults. Dischargers seeking coverage under the General Order or Waiver must file a Notice of Intent with the Central Valley Water Board prior to beginning discharge. A-21

For more information regarding the Low Risk General Order and the application process, visit the Central Valley Water Board website at:

http://www.waterboards.ca.gov/board_decisions/adopted_orders/water_quality/2003/wqo/wqo2003-0003.pdf A-22

For more information regarding the Low Risk Waiver and the application process, visit the Central Valley Water Board website at: A-23

http://www.waterboards.ca.gov/centralvalley/board_decisions/adopted_orders/waivers/r5-2013-0149_res.pdf

A-23 cont.

Regulatory Compliance for Commercially Irrigated Agriculture

If the property will be used for commercial irrigated agricultural, the discharger will be required to obtain regulatory coverage under the Irrigated Lands Regulatory Program. There are two options to comply:

A-24

1. **Obtain Coverage Under a Coalition Group.** Join the local Coalition Group that supports land owners with the implementation of the Irrigated Lands Regulatory Program. The Coalition Group conducts water quality monitoring and reporting to the Central Valley Water Board on behalf of its growers. The Coalition Groups charge an annual membership fee, which varies by Coalition Group. To find the Coalition Group in your area, visit the Central Valley Water Board's website at: http://www.waterboards.ca.gov/centralvalley/water_issues/irrigated_lands/app_approval/index.shtml or contact water board staff at (916) 464-4611 or via email at irrlands@waterboards.ca.gov.

A-25

2. **Obtain Coverage Under the General Waste Discharge Requirements for Individual Growers, General Order R5-2013-0100.** Dischargers not participating in a third-party group (Coalition) are regulated individually. Depending on the specific site conditions, growers may be required to monitor runoff from their property, install monitoring wells, and submit a notice of intent, farm plan, and other action plans regarding their actions to comply with their General Order. Yearly costs would include State administrative fees (for example, annual fees for farm sizes from 10-100 acres are currently $1,084 + $6.70/Acre); the cost to prepare annual monitoring reports; and water quality monitoring costs. To enroll as an individual Discharger under the Irrigated Lands Regulatory Program, call the Central Valley Water Board phone line at (916) 464-4611 or e-mail board staff at irrlands@waterboards.ca.gov.

A-26

Low or Limited Threat General NPDES Permit

If the proposed project includes construction dewatering and it is necessary to discharge the groundwater to waters of the United States, the proposed project will require coverage under a National Pollutant Discharge Elimination System (NPDES) permit. Dewatering discharges are typically considered a low or limited threat to water quality and may be covered under the General Order for *Dewatering and Other Low Threat Discharges to Surface Waters* (Low Threat General Order) or the General Order for *Limited Threat Discharges of Treated/Untreated Groundwater from Cleanup Sites, Wastewater from Superchlorination Projects, and Other Limited Threat Wastewaters to Surface Water* (Limited Threat General Order). A complete application must be submitted to the Central Valley Water Board to obtain coverage under these General NPDES permits.

A-27

For more information regarding the Low Threat General Order and the application process, visit the Central Valley Water Board website at:
http://www.waterboards.ca.gov/centralvalley/board_decisions/adopted_orders/general_orders/r5-2013-0074.pdf

A-28

For more information regarding the Limited Threat General Order and the application process, visit the Central Valley Water Board website at:
http://www.waterboards.ca.gov/centralvalley/board_decisions/adopted_orders/general_orders/r5-2013-0073.pdf

A-29

NPDES Permit

If the proposed project discharges waste that could affect the quality of the waters of the State, other than into a community sewer system, the proposed project will require coverage under a National Pollutant Discharge Elimination System (NPDES) permit. A complete Report of Waste Discharge must be submitted with the Central Valley Water Board to obtain a NPDES Permit.

A-30

For more information regarding the NPDES Permit and the application process, visit the Central Valley Water Board website at:
http://www.waterboards.ca.gov/centralvalley/help/business_help/permit3.shtml

A-31

If you have questions regarding these comments, please contact me at (916) 464-4644 or Stephanie.Tadlock@waterboards.ca.gov

A-32

Stephanie Tadlock
Environmental Scientist

cc: State Clearinghouse unit, Governor's Office of Planning and Research, Sacramento

Response to Comment A-1

The City acknowledges and appreciates the Central Valley Regional Water Quality Control's (RWQCB's) review and comments on the DEIR, and its input regarding the various regulatory permitting requirements that may apply to the Proposed Project. The permitting requirements stated in the Central Valley RWQCB's letter are described in Chapter 9, *Groundwater*, of the DEIR and in Section IX, Hydrology, of Appendix B, *Environmental Checklist*. The Proposed Project would comply with the regulatory requirements described in the letter as applicable.

Response to Comment A-2

The comment does not state a specific concern or question regarding the environmental impact analysis in the DEIR. The comment generally describes regulatory requirements. The Proposed Project will comply with all applicable regulatory requirements. Therefore, no further response to this comment is provided.

Response to Comment A-3 – A-32

See the response to Comment A-2.

Modesto, CA 95353

SUBJECT: ENVIRONMENTAL REFERRAL – CITY OF MODESTO – UTILITIES DEPARTMENT – NOTICE OF AVAILABILITY OF THE DRAFT ENVIRONMENTAL IMPACT REPORT FOR THE DEL RIO TANK AND WELLS PROJECT (SCH #2015072055)

Ms. Bryant,

Thank you for the opportunity to review the Draft Environmental Impact Report for the above-referenced project. B-1

The Stanislaus County Environmental Review Committee (ERC) has reviewed the subject project and has identified areas that need to be clarified or expanded upon as part of the final environmental impact report. First, the environmental assessment should identify projected water volumes from the proposed wells and whether this water supply will be available to serve both Area I and Area II of the Del Rio Community Plan in terms of water supply, quality, and pressure. Additionally, please confirm whether the anticipated growth includes Area II of the Del Rio Community Plan, and if the wells are sized to serve Area II, the cumulative effects of growth need to be analyzed. B-2

The identified alternative to connect to the existing City water system, approximately two miles south on McHenry Avenue of the project site should be better studied. The analysis for this alternative should include a cost-benefit analysis, schedule of delivery, reliability analysis and a comparison on environmental impacts. In addition, the report should consider and evaluate the potential of incorporating a private or public well site at the Del Rio Lago development located in Area I along the eastside of Carver Road. B-3

The ERC appreciates the opportunity to comment on this project. B-4

Sincerely,

Patrick Cavanah
Management Consultant
Environmental Review Committee

Response to Comment B-1

The comment does not state a specific concern or question regarding the environmental impact analysis in the DEIR. Therefore, no further response to this comment is provided.

Response to Comment B-2

Several commenters raised questions about the water volumes and improvements of the Del Rio Tank and Wells Project (Proposed Project) and its relationship to Area I and Area II of the *Del Rio Community Plan* (Stanislaus County 1992). This response addresses that issue. In addition, this response addresses related issues raised in other comment letters, including the objectives of the Proposed Project, the water yield of the Proposed Project, the areas served by the Proposed Project, and the water system improvements anticipated for future Del Rio buildout that are not included as part of the Proposed Project.

The Proposed Project is based on the findings of the City of Modesto's 2010 Water System Engineer's Report, specifically Appendix H, *City of Modesto's 2010 Water System Engineer's Report Evaluation of the Existing Buildout Water System for the Del Rio Outlying Service Area* (2010 WSER). The 2010 WSER evaluates and identifies improvements needed for (1) the existing Del Rio water system to address existing deficiencies and (2) future buildout of the Del Rio water system needed to address future development within the Del Rio Community Plan area. The Proposed Project analyzed in the DEIR only includes the system improvements needed to address existing deficiencies. It does not include the improvements necessary to meet future buildout needs. Section 8.1, Existing System Recommendations, of the 2010 WSER lists recommended improvements for the existing water system, the boundaries of which are shown in Figure 1 of the 2010 WSER. Recommended improvements include replacement of Well 271, new delivery pipeline, a new production well, and a new storage tank. These components are included in the Proposed Project. The recommended improvements necessary for the buildout system, identified in Section 8.2 of the 2010 WSER, are not included in the Proposed Project.

As discussed in the 2010 WSER and the DEIR, the existing three wells are not sufficient to meet existing peak-hour and maximum-day demands plus fire flow conditions. The replacement of Well 271 and a new well are required to meet existing system demands. As discussed in Chapter 2, *Project Description,* of the DEIR, the wells for the Proposed Project are sized to meet the high-demand conditions. They are expected to operate during off-peak demand periods to fill the proposed adjacent storage tank, which stores water to meet peak-hour and fire flow demands. It is reasonable to assume that the anticipated yield for both the replacement well and the new proposed well would be substantially lower than the maximum theoretical yield because, as explained in Chapter 2 and Chapter 9, *Groundwater,* of the DEIR, the theoretical maximum annual yield is more than double the annual average yield over the past 5 years for the entire Del Rio service area. The Proposed Project does not address future growth in the Del Rio Community Plan area and would not double the water capacity for the Del Rio area at this time, or in the near future, as alleged by some commenters. The Proposed Project would correct existing deficiencies in the Del Rio water system, ensure sufficient pressure to provide firefighting flow capacity, and improve operational flexibility and reliability.

The 2010 WSER includes recommended improvements required to meet future buildout needs. The water system buildout area is shown in Figure 7 and is consistent with Area 1 as

shown in the Del Rio Community Plan. Buildout system recommendations are identified in Section 8.2 of the 2010 WSER and are not included in the Proposed Project. The Proposed Project improvements are not sufficient to meet buildout system requirements. The Proposed Project includes booster pumps capable of providing 1.0 million gallons per day (mgd) of pumping capacity. To meet buildout needs, the pump station would need to be expanded to provide an additional 1.0 mgd (total of 2.0 mgd) of pumping capacity. The new well and backup generator are needed to meet existing system requirements. To meet buildout system requirements, further improvements to these systems are needed.

In summary, the Proposed Project includes recommended improvements for the existing water system identified in the 2010 WSER. It does not include the recommended improvements necessary for the buildout water system identified in the 2010 WSER. Improvements for the buildout water system are not included in the Proposed Project and would be subject to separate environmental review under CEQA.

Response to Comment B-3

This comment and several other commenters raised questions over the adequacy of the alternatives analysis for the Proposed Project. This response addresses various comments relating to alternatives. The following discussion addresses the potential project sites that have been previously explored and the reasonable range of alternatives analyzed for the Proposed Project.

The City has been pursuing a solution to the water issues in the Del Rio community since 2005. As explained in Section 2.4.1 on page 2-9 of the DEIR, the 2010 WSER Program EIR included evaluation of a proposed tank and pump station on a large parcel of land north of McHenry Avenue and Stewart Road. As the project developed, no land was available for sale in that area. The City then considered alternative locations but was unable to complete the purchase of land in those alternative locations. In general, the City does not evaluate sites that would require eminent domain proceedings and, as such, has limited its consideration to willing sellers. The Site A Well Only Alternative was initially considered, as described in Chapter 12 of the DEIR, but was dismissed from consideration in the EIR because the City determined that, with only one well, it would be unable to accommodate system pressure demands and supply reliability needs for firefighting and operational reliability (page 12-10). Existing Well 271 is located on a parcel that is not large enough to install a replacement well. The Del Rio water system has limited water supply, so Well 271 needs to remain operational until its replacement is constructed and permitted. The City has considered relocating the well to a nearby parcel, but no land was available for sale in that area. Well 289 is on a small, irregularly shaped parcel, which would limit the diameter of the proposed tank. Alternative 1 would also expose more residential sensitive receptors to noise-related impacts than the Proposed Project.

The DEIR also evaluated the impacts of Alternative 2, "Connect to the City's Supply System," and determined that it would not reduce water supply impacts on the City's system, but rather would displace them elsewhere within the service area. The DEIR also explained that Alternative 2 would be substantially more expensive than the Proposed Project (page 12-11). The DEIR further explained that Alternative 2 would have greater environmental impacts on biological, cultural, and hydrologic resources and expose more residential sensitive receptors near the pipeline alignment to construction-related noise impacts than the Proposed Project.

The types of analysis requested by some commenters—such as cost-benefit analysis, schedule of delivery, and reliability analysis—are not required for analysis of alternatives under CEQA. The environmental impacts of Alternatives 1 and 2 are compared to those of the Proposed Project in Table 12-1 of the DEIR in full compliance with CEQA.

Several alternative locations, including one at the Del Rio Golf Course and Country Club (see page 12-10) near the Del Rio Lago development, were also considered and dismissed from further evaluation because they were infeasible or failed to meet some or all of the project objectives:

- The City initially considered sites north of McHenry Avenue and Steward Road. As the project developed, no land was available for sale in that area. The City then considered several alternative locations, including a site at 6520 Carver Road, but was unable to complete the purchase of land at any of those locations.
- No land was available for sale in the Del Rio Lago development. Further, the well site associated with the development (lot "D" created by Subdivision Map 43M85 and as shown on the Stanislaus County Assessor's Parcel Map) is large enough for a well site but is not large enough for a well, tank, and pump station.
- Relying on only the well at Site A was infeasible because, with only one well, the City could not accommodate system pressure demands and supply reliability needs for firefighting and operational reliability.
- A water exchange between the City and the Del Rio Golf and Country Club would involve using the country club's groundwater wells to supply Del Rio with water in exchange for recycled water from the City's wastewater treatment plant. This alternative was found to be infeasible because of cost and because the quantity of groundwater replaced would not be sufficient to achieve the Proposed Project's reliability objective and goals.
- The 2010 Program EIR included evaluation of a proposed tank and pump station on a large parcel of land north of McHenry Avenue and Stewart Road. As the project developed, no land was available for sale in that area. The City then considered alternative locations, including River Nine Drive and 6520 Carver Road, but was unable to find willing sellers or complete the purchase of land in those alternative locations. On March 13, 2012, by Resolution 2012-101, the City Council approved the purchase of two parcels at 718 Ladd Road.

CEQA does not require the adoption of the environmentally superior alternative. Modesto's City Council is the ultimate decision maker as to what project or alternative to approve. The City Council will make the decision and required findings on adoption of a project and rejection of any alternatives.

Response to Comment B-4

The comment does not state a specific concern or question regarding the environmental impact analysis in the DEIR. Therefore, no further response to this comment is provided.

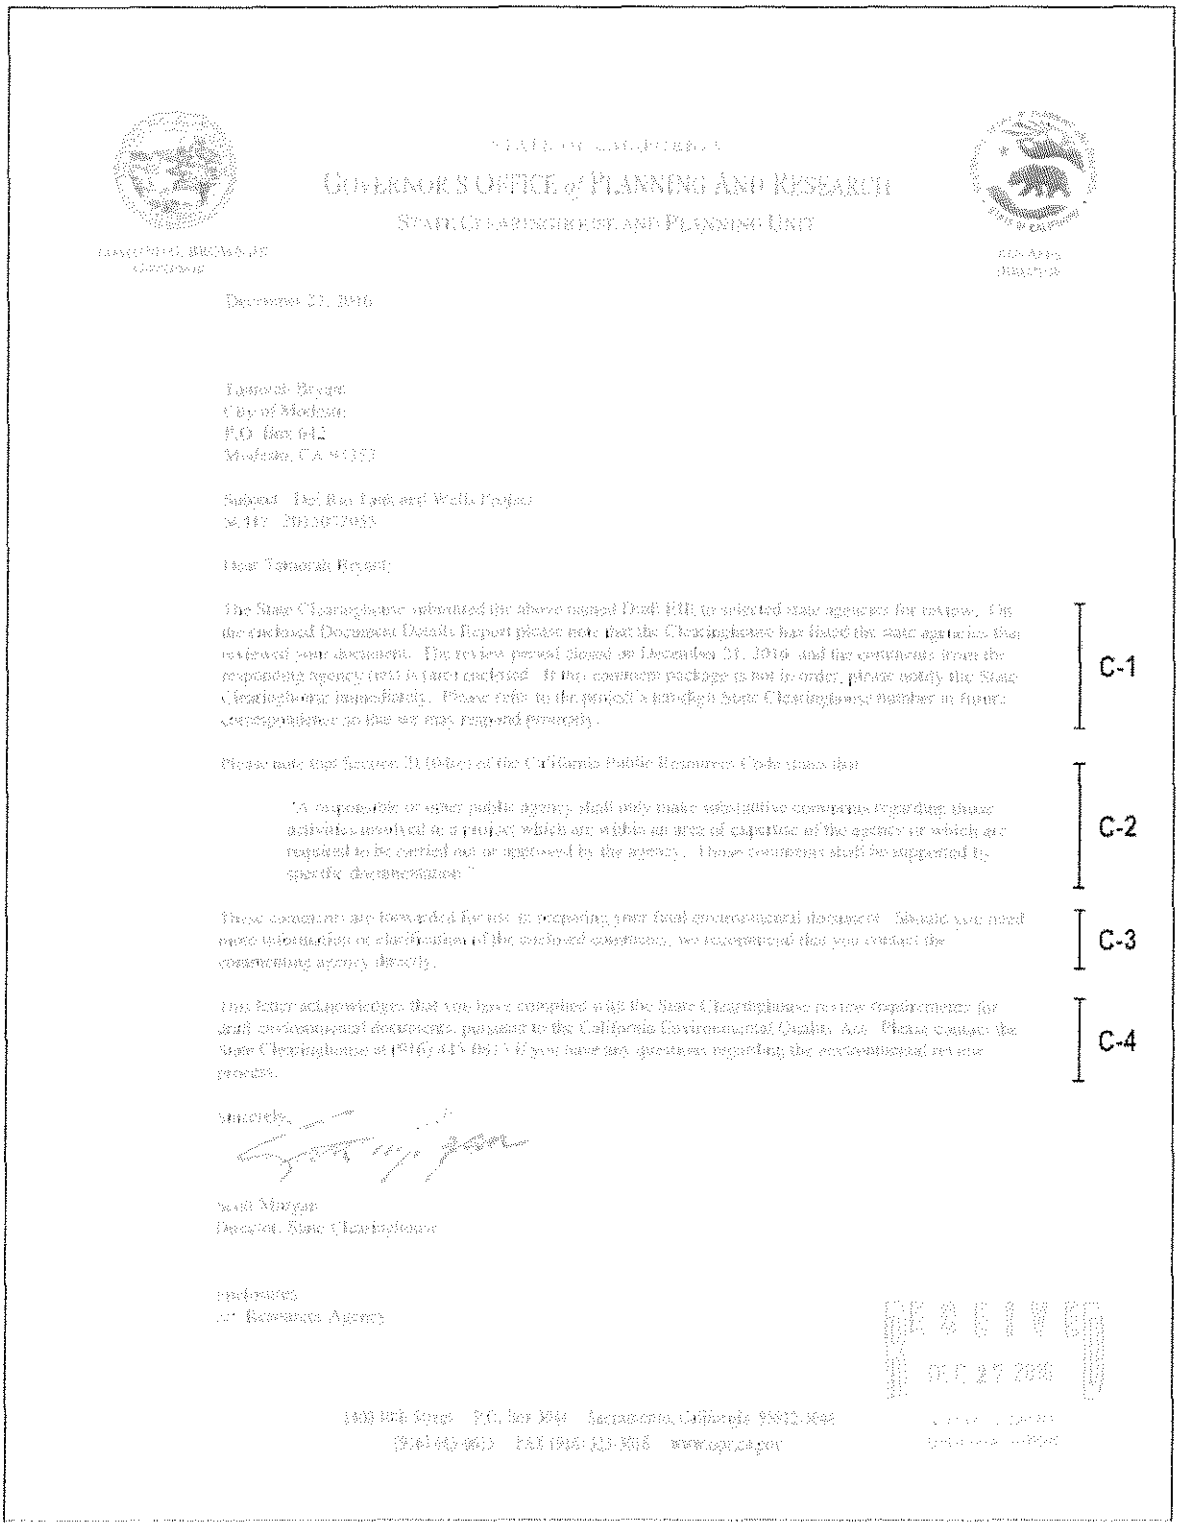
Comment Letter C – Scott Morgan, Governor's Office of Planning and Research, State Clearinghouse



STATE OF CALIFORNIA
GOVERNOR'S OFFICE of PLANNING AND RESEARCH
STATE CLEARINGHOUSE AND PLANNING UNIT

December 27, 2016

Tamerak Bryant
City of Modesto
P.O. Box 642
Modesto, CA 95353

Subject: Del Rio Tank and Wells Project
SCH#: 2016122053

Dear Tamerak Bryant:

The State Clearinghouse submitted the above named Draft EIR to selected state agencies for review. On the enclosed Document Details Report please note that the Clearinghouse has listed the state agencies that reviewed your document. The review period closed on December 23, 2016, and the comments from the responding agency (ies) is (are) enclosed. If this comment package is not in order, please notify the State Clearinghouse immediately. Please refer to the project's ten-digit State Clearinghouse number in future correspondence so that we may respond promptly.

C-1

Please note that Section 21104(c) of the California Public Resources Code states that:

> "A responsible or other public agency shall only make substantive comments regarding those activities involved in a project which are within an area of expertise of the agency or which are required to be carried out or approved by the agency. Those comments shall be supported by specific documentation."

C-2

These comments are forwarded for use in preparing your final environmental document. Should you need more information or clarification of the enclosed comments, we recommend that you contact the commenting agency directly.

C-3

This letter acknowledges that you have complied with the State Clearinghouse review requirements for draft environmental documents, pursuant to the California Environmental Quality Act. Please contact the State Clearinghouse at (916) 445-0613 if you have any questions regarding the environmental review process.

C-4

Sincerely,

Scott Morgan
Director, State Clearinghouse

Project Title Del Rio Tank and Wells Project
Lead Agency Modesto, City of

Type EIR Draft EIR
Description The City of Modesto is the lead agency for preparation and review of an environmental impact report for the Del Rio Tank and Wells project (Proposed Project). The Proposed Project involves construction of a water storage tank, booster pump station, and two domestic water wells, which will provide additional storage volume, water supply and pressure for the existing water system serving the Del Rio area. The City's 2015 Water System Engineer's Report Program Environmental Impact Report (Water System PEIR) evaluated the Proposed Project at a program level of detail.

COMMENTS TO REQUEST FOR REVIEW FOR THE DRAFT ENVIRONMENTAL IMPACT REPORT, DEL RIO TANK AND WELLS PROJECT, SCH# 2015072056, STANISLAUS COUNTY

Pursuant to the State Clearinghouse's 7 November 2016 request, the Central Valley Regional Water Quality Control Board (Central Valley Water Board) has reviewed the *Request for Review for the Draft Environment Impact Report* for the Del Rio Tank and Wells Project, located in Stanislaus County. C-6

Our agency is delegated with the responsibility of protecting the quality of surface and groundwaters of the state; therefore our comments will address concerns surrounding those issues. C-7

I. Regulatory Setting

Basin Plan
The Central Valley Water Board is required to formulate and adopt Basin Plans for all areas within the Central Valley region under Section 13240 of the Porter-Cologne Water Quality Control Act. Each Basin Plan must contain water quality objectives to ensure the reasonable protection of beneficial uses, as well as a program of implementation for achieving water quality objectives with the Basin Plans. Federal regulations require each state to adopt water quality standards to protect the public health or welfare, enhance the quality of water and serve the purposes of the Clean Water Act. In California, the beneficial uses, water quality objectives, and the Antidegradation Policy are the State's water quality standards. Water quality standards are also contained in the National Toxics Rule, 40 CFR Section 131.36, and the California Toxics Rule, 40 CFR Section 131.38. C-8

The Basin Plan is subject to modification as necessary, considering applicable laws, policies, technologies, water quality conditions and priorities. The original Basin Plans were adopted in 1975, and have been updated and revised periodically as required, using Basin Plan amendments. Once the Central Valley Water Board has adopted a Basin Plan amendment in noticed public hearings, it must be approved by the State Water Resources Control Board (State Water Board), Office of Administrative Law (OAL) and in some cases, C-9

the United States Environmental Protection Agency (USEPA). Basin Plan amendments only become effective after they have been approved by the OAL and in some cases, the USEPA. Every three (3) years, a review of the Basin Plan is completed that assesses the appropriateness of existing standards and evaluates and prioritizes Basin Planning issues.

C-9 cont.

For more information on the *Water Quality Control Plan for the Sacramento and San Joaquin River Basins*, please visit our website:
http://www.waterboards.ca.gov/centralvalley/water_issues/basin_plans/.

C-10

Antidegradation Considerations

All wastewater discharges must comply with the Antidegradation Policy (State Water Board Resolution 68-16) and the Antidegradation Implementation Policy contained in the Basin Plan. The Antidegradation Policy is available on page IV-15.01 at:
http://www.waterboards.ca.gov/centralvalley/water_issues/basin_plans/sacsjr.pdf

C-11

In part it states:

> *Any discharge of waste to high quality waters must apply best practicable treatment or control not only to prevent a condition of pollution or nuisance from occurring, but also to maintain the highest water quality possible consistent with the maximum benefit to the people of the State.*
>
> *This information must be presented as an analysis of the impacts and potential impacts of the discharge on water quality, as measured by background concentrations and applicable water quality objectives.*

C-12

The antidegradation analysis is a mandatory element in the National Pollutant Discharge Elimination System and land discharge Waste Discharge Requirements (WDRs) permitting processes. The environmental review document should evaluate potential impacts to both surface and groundwater quality.

C-13

II. Permitting Requirements

Construction Storm Water General Permit

Dischargers whose project disturb one or more acres of soil or where projects disturb less than one acre but are part of a larger common plan of development that in total disturbs one or more acres, are required to obtain coverage under the General Permit for Storm Water Discharges Associated with Construction Activities (Construction General Permit), Construction General Permit Order No. 2009-0009-DWQ. Construction activity subject to this permit includes clearing, grading, grubbing, disturbances to the ground, such as stockpiling, or excavation, but does not include regular maintenance activities performed to restore the original line, grade, or capacity of the facility. The Construction General Permit requires the development and implementation of a Storm Water Pollution Prevention Plan

C-14

(SWPPP)

C-14 cont.

For more information on the Construction General Permit, visit the State Water Resources Control Board website at:
http://www.waterboards.ca.gov/water_issues/programs/stormwater/constpermits.shtml

C-15

Phase I and II Municipal Separate Storm Sewer System (MS4) Permits[1]
The Phase I and II MS4 permits require the Permittees reduce pollutants and runoff flows from new development and redevelopment using Best Management Practices (BMPs) to the maximum extent practicable (MEP). MS4 Permittees have their own development standards, also known as Low Impact Development (LID)/post-construction standards that include a hydromodification component. The MS4 permits also require specific design concepts for LID/post-construction BMPs in the early stages of a project during the entitlement and CEQA process and the development plan review process.

C-16

For more information on which Phase I MS4 Permit this project applies to, visit the Central Valley Water Board website at:
http://www.waterboards.ca.gov/centralvalley/water_issues/storm_water/municipal_permits/

C-17

For more information on the Phase II MS4 permit and who it applies to, visit the State Water Resources Control Board at:
http://www.waterboards.ca.gov/water_issues/programs/stormwater/phase_ii_municipal.shtml

C-18

Industrial Storm Water General Permit
Storm water discharges associated with industrial sites must comply with the regulations contained in the Industrial Storm Water General Permit Order No. 2014-0057-DWQ.

C-19

For more information on the Industrial Storm Water General Permit, visit the Central Valley Water Board website at:
http://www.waterboards.ca.gov/centralvalley/water_issues/storm_water/industrial_general_permits/index.shtml

C-20

Clean Water Act Section 404 Permit
If the project will involve the discharge of dredged or fill material in navigable waters or wetlands, a permit pursuant to Section 404 of the Clean Water Act may be needed from the United States Army Corps of Engineers (USACOE). If a Section 404 permit is required by the USACOE, the Central Valley Water Board will review the permit application to ensure that discharge will not violate water quality standards. If the project requires surface water

C-21

[1] Municipal Permits – The Phase I Municipal Separate Storm Water System (MS4) Permit covers medium sized Municipalities (serving between 100,000 and 250,000 people) and large sized municipalities (serving over 250,000 people). The Phase II MS4 provides coverage for small municipalities, including non-traditional Small MS4s, which include military bases, public campuses, prisons and hospitals.

drainage realignment, the applicant is advised to contact the Department of Fish and Game for information on Streambed Alteration Permit requirements

C-21 cont.

If you have any questions regarding the Clean Water Act Section 404 permits, please contact the Regulatory Division of the Sacramento District of USACOE at (916) 557-5250

C-22

Clean Water Act Section 401 Permit – Water Quality Certification

If an USACOE permit (e.g., Non-Reporting Nationwide Permit, Nationwide Permit, Letter of Permission, Individual Permit, Regional General Permit, Programmatic General Permit) or any other federal permit (e.g., Section 10 of the Rivers and Harbors Act or Section 9 from the United States Coast Guard), is required for this project due to the disturbance of waters of the United States (such as streams and wetlands), then a Water Quality Certification must be obtained from the Central Valley Water Board prior to initiation of project activities. There are no waivers for 401 Water Quality Certifications.

C-23

Waste Discharge Requirements – Discharges to Waters of the State

If USACOE determines that only non-jurisdictional waters of the State (i.e., "non-federal" waters of the State) are present in the proposed project area, the proposed project may require a Waste Discharge Requirement (WDR) permit to be issued by Central Valley Water Board. Under the California Porter-Cologne Water Quality Control Act, discharges to all waters of the State, including all wetlands and other waters of the State including, but not limited to, isolated wetlands, are subject to State regulation.

C-24

For more information on the Water Quality Certification and WDR processes, visit the Central Valley Water Board website at:
http://www.waterboards.ca.gov/centralvalley/help/business_help/permit2.shtml.

C-25

Dewatering Permit

If the proposed project includes construction or groundwater dewatering to be discharged to land, the proponent may apply for coverage under State Water Board General Water Quality Order (Low Risk General Order) 2003-0003 or the Central Valley Water Board's Waiver of Report of Waste Discharge and Waste Discharge Requirements (Low Risk Waiver) R5-2013-0145. Small temporary construction dewatering projects are projects that discharge groundwater to land from excavation activities or dewatering of underground utility vaults. Dischargers seeking coverage under the General Order or Waiver must file a Notice of Intent with the Central Valley Water Board prior to beginning discharge.

C-26

For more information regarding the Low Risk General Order and the application process, visit the Central Valley Water Board website at:

http://www.waterboards.ca.gov/board_decisions/adopted_orders/water_quality/2003/wqo/wqo2003-0003.pdf

C-27

For more information regarding the Low Risk Waiver and the application process, visit the Central Valley Water Board website at:

C-28

http://www.waterboards.ca.gov/centralvalley/board_decisions/adopted_orders/waivers/r5-2013-0145_res.pdf C-28 cont.

Regulatory Compliance for Commercially Irrigated Agriculture C-29

If the property will be used for commercial irrigated agricultural, the discharger will be required to obtain regulatory coverage under the Irrigated Lands Regulatory Program. There are two options to comply:

1. **Obtain Coverage Under a Coalition Group.** Join the local Coalition Group that supports land owners with the implementation of the Irrigated Lands Regulatory Program. The Coalition Group conducts water quality monitoring and reporting to the Central Valley Water Board on behalf of its growers. The Coalition Groups charge an annual membership fee, which varies by Coalition Group. To find the Coalition Group in your area, visit the Central Valley Water Board's website at: http://www.waterboards.ca.gov/centralvalley/water_issues/irrigated_lands/app_approval/index.shtml or contact water board staff at (916) 464-4611 or via email at irrlands@waterboards.ca.gov C-30

2. **Obtain Coverage Under the General Waste Discharge Requirements for Individual Growers, General Order R5-2013-0100.** Dischargers not participating in a third-party group (Coalition) are regulated individually. Depending on the specific site conditions, growers may be required to monitor runoff from their property, install monitoring wells, and submit a notice of intent, farm plan, and other action plans regarding their actions to comply with their General Order. Yearly costs would include State administrative fees (for example, annual fees for farm sizes from 10-100 acres are currently $1,084 + $6.70/Acre), the cost to prepare annual monitoring reports, and water quality monitoring costs. To enroll as an Individual Discharger under the Irrigated Lands Regulatory Program, call the Central Valley Water Board phone line at (916) 464-4611 or e-mail board staff at irrlands@waterboards.ca.gov C-31

Low or Limited Threat General NPDES Permit

If the proposed project includes construction dewatering and it is necessary to discharge the groundwater to waters of the United States, the proposed project will require coverage under a National Pollutant Discharge Elimination System (NPDES) permit. Dewatering discharges are typically considered a low or limited threat to water quality and may be covered under the General Order for *Dewatering and Other Low Threat Discharges to Surface Waters* (Low Threat General Order) or the General Order for *Limited Threat Discharges of Treated/Untreated Groundwater from* Cleanup Sites, *Wastewater from Superchlorination Projects, and Other Limited Threat Wastewaters to Surface Water* (Limited Threat General Order). A complete application must be submitted to the Central Valley Water Board to obtain coverage under these General NPDES permits. C-32

For more information regarding the Low Threat General Order and the application process visit the Central Valley Water Board website at:
http://www.waterboards.ca.gov/centralvalley/board_decisions/adopted_orders/general_orders/r5-2013-0074.pdf

C-33

For more information regarding the Limited Threat General Order and the application process visit the Central Valley Water Board website at:
http://www.waterboards.ca.gov/centralvalley/board_decisions/adopted_orders/general_orders/r5-2013-0073.pdf

C-34

NPDES Permit

If the proposed project discharges waste that could affect the quality of the waters of the State, other than into a community sewer system, the proposed project will require coverage under a National Pollutant Discharge Elimination System (NPDES) permit. A complete Report of Waste Discharge must be submitted with the Central Valley Water Board to obtain a NPDES Permit.

C-35

For more information regarding the NPDES Permit and the application process, visit the Central Valley Water Board website at:
http://www.waterboards.ca.gov/centralvalley/help/business_help/permit3.shtml

C-36

Response to Comment C-1

The comment does not state a specific concern or question regarding the environmental impact analysis in the DEIR. Therefore, no further response to this comment is provided.

Response to Comment C-2

The comment does not state a specific concern or question regarding the environmental impact analysis in the DEIR. Therefore, no further response to this comment is provided.

Response to Comment C-3

The comment does not state a specific concern or question regarding the environmental impact analysis in the DEIR. Therefore, no further response to this comment is provided.

Response to Comment C-4

The City appreciates the State Clearinghouse acknowledgement of completion of the public review period for the DEIR.

Response to Comment C-5

The comment does not state a specific concern or question regarding the environmental impact analysis in the DEIR. Therefore, no further response to this comment is provided.

Response to Comment C-6 – C-37

[Note that the Central Valley RWQCB letter transmitted by the State Clearinghouse was also received separately and is also addressed above as Comment Letter A of this FEIR.]

The City acknowledges and appreciates the Central Valley RWQCB's review and comments on the DEIR, and its input regarding the various regulatory permitting requirements that may apply to the Proposed Project. The permitting requirements stated in the Central Valley RWQCB's letter are described in Chapter 9, *Groundwater*, of the DEIR and in Section IX, Hydrology, of Appendix B, *Environmental Checklist*. The Proposed Project would comply with the regulatory requirements described in the letter as applicable.

Comment Letter D – Joyce Parker, Del Rio Property Owners Association

Del Rio Property Owners Association
P.O. Box 116
Salida, CA 95368

December 2, 2016

Tamara Bryant
City of Modesto
1010 Tenth Street
Modesto, CA 95353

re: Draft Environmental Report Del Rio Tank and Wells Project, November 2016

Dear Ms. Bryant:

On behalf of the Del Rio Property Owners Association, we submit the following comments and concerns with the Del Rio Tank and Wells project as described in the November 2016 Draft EIR. D-1

1. The 2005 Settlement Agreement between the City of Modesto and the Del Rio Home Owners Association (also known as the Del Rio Property Owners Association) explicitly specified improvements to the water system necessary for **EXISTING** Del Rio residents would be constructed within 8 years, with no increase in rates. D-2
Since 2005, the specified system improvements have been ignored and delayed, resulting in complications due to the California drought, widely regarded to have begun in 2011-12. D-3

In 2005, there were approximately 424 Del Rio water customers (my estimation). Since 2005, an additional 34 homes have been built. There are currently another 18 homes approved for construction. All 476 homes will receive water from the 3 existing Del Rio system wells, which have a total capacity of 2,000 gallons per minute (per 2005 West Yost Technical Memorandum). This capacity is not adequate for the existing water customers. Residents frequently complain of a lack of water pressure for common activities such as showering or lawn watering. Sufficient water pressure for fire safety is an important concern as well. D-4

The City's proposed addition of new 2 wells, each with a 1,000 gallon per minute capacity, is considerably more than is reasonable for the existing Del Rio community. This additional capacity only makes sense when considering development of the 590 acres of "prime" farmland surrounding the existing Del Rio community. (Attachments 1 & 2: 2013-04-15 City General Plan Amendment Workshop, page 29, shows Ag land at Sayglass/McHenry/River (205 acres) and Ladd-St Johns/Country Club (366 acres) as "prime farmland") The current Del Rio community covers approximately 330 acres. D-5

Since the Del Rio community has only increased about 10% since 2005, it seems unrealistic to assume a growth of almost 100% in the next decades, especially in light of California housing policies discouraging sprawl and encouraging higher density housing situated close to schools, shopping, medical facilities, transportation hubs and employment opportunities. D-6

Even should there be pressure for the Del Rio community to grow significantly, environmental factors of any proposed growth would need to be taken into consideration and CEQA studies done. Therefore, it is our opinion that doubling the water capacity for the Del Rio area, at this time or in the near future, is both unnecessary, unrealistic and counter to California housing policies. D-6 cont.

The cumulative impact of both the new wells, and the new development they would serve, would significantly impact all facets of life for the Del Rio and surrounding community. D-7

2. In the Draft EIR the City has defined an alternative, "Alternative 1", that meets all of the project objectives and does not require additional transmission pipelines. Per the Draft EIR, "Under this alternative, in lieu of purchasing new property for the proposed wells and tank, the City would design the proposed new facilities to fit within their existing well properties." D-8

From the November 2016 Draft EIR, page ES-21, "Among the other alternatives considered, Alternative 1: Construct at Existing City Well Locations is considered the ***environmentally superior alternative.*** This alternative would achieve all the project objectives to a similar degree as the Proposed Project. As described above, more sensitive receptors (residents) are located near the existing City well sites; therefore, this alternative would result in increased impacts on aesthetics, operation-related noise, and air quality because of the greater number of sensitive receptors near the well sites. However, less GHG emissions and construction-related noise impacts would occur because no pipelines would be constructed under this alternative. In summary, Alternative 1 would result in the most reductions in environmental impacts among the alternatives considered." D-9

This alternative should be started immediately to relieve existing Del Rio customers water pressure problems and provide adequate fire protection. D-10

Sincerely,

Joyce Parker
Del Rio President
Del Rio Property Owners Association Board

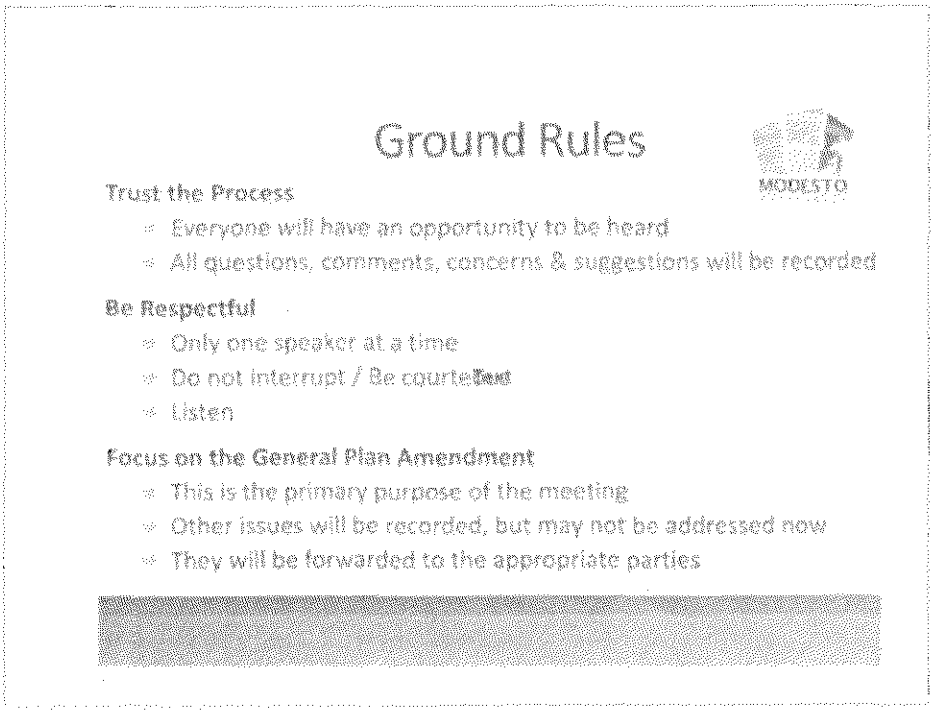
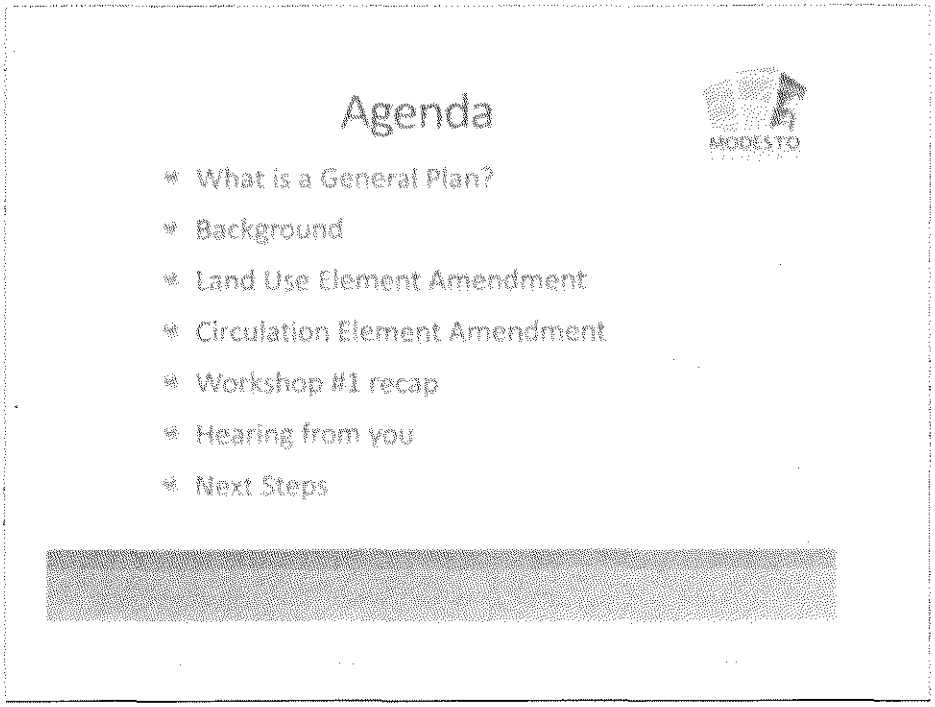
General Plan Amendment
Public Workshop
April 15, 2013



Ground Rules
MODESTO
Trust the Process
Everyone will have an opportunity to be heard
All questions, comments, concerns & suggestions will be recorded
Be Respectful
Only one speaker at a time
Do not interrupt / Be courteous
Listen
Focus on the General Plan Amendment
This is the primary purpose of the meeting
Other issues will be recorded, but may not be addressed now
They will be forwarded to the appropriate parties



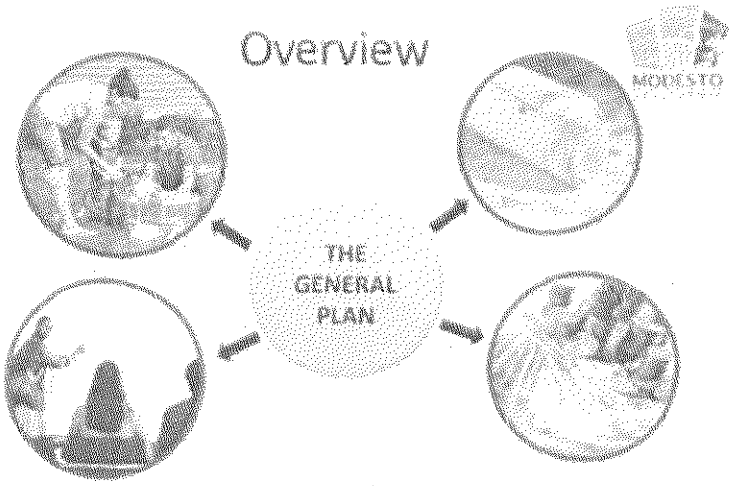
Agenda
MODESTO
What is a General Plan?
Background
Land Use Element Amendment
Circulation Element Amendment
Workshop #1 recap
Hearing from you
Next Steps

Overview

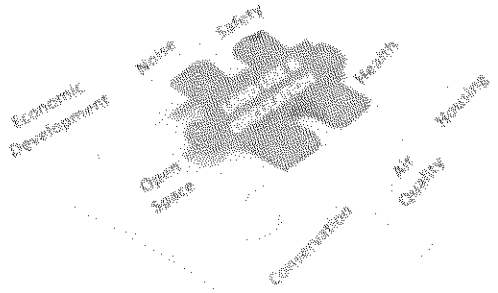
What is a General Plan?

- Guidebook for development and growth

Overview



General Plan Elements



Background

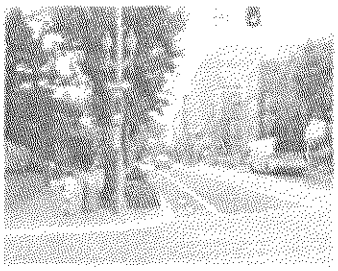
- General Plan Comprehensive Update in 1995
- Incremental amendments since 1995
- City Council/Planning Commission workshop in 2008 to kick-off; recession and cutbacks halted effort
- Attempted land use amendment after 2009 Urban Growth Review; terminated due to budget reductions

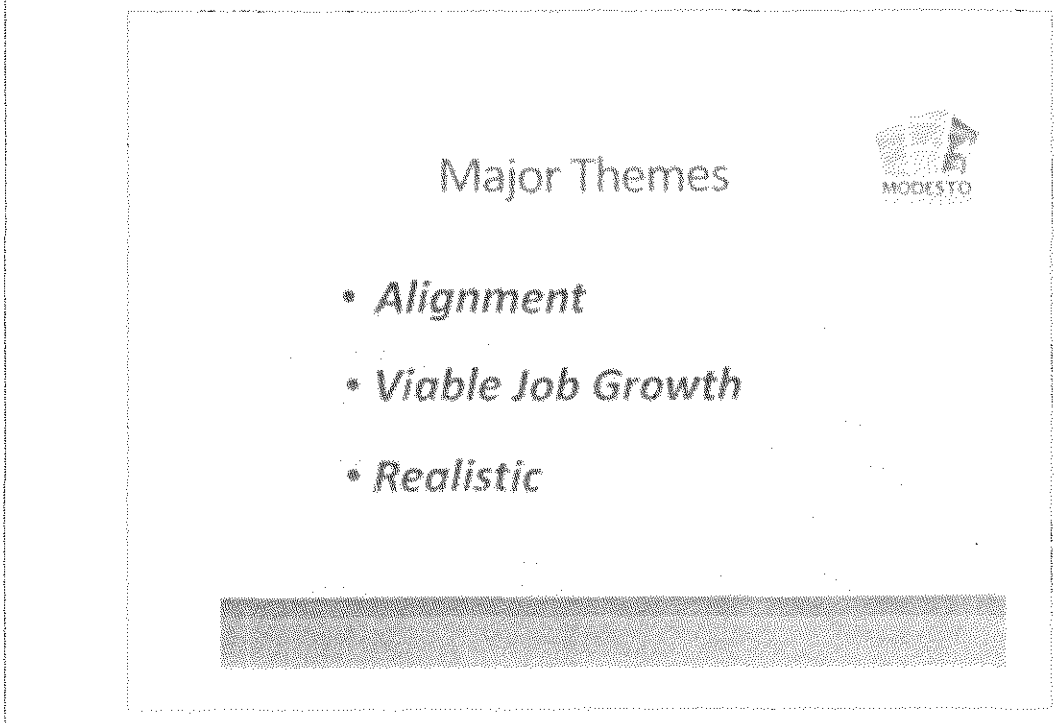
Why Update the General Plan?

- Reflect community's goals
- Adjust land uses and future growth patterns
- Establish viable business and job-generating areas
- Align General plan with infrastructure planning programs (CFF, CIP, RTP)

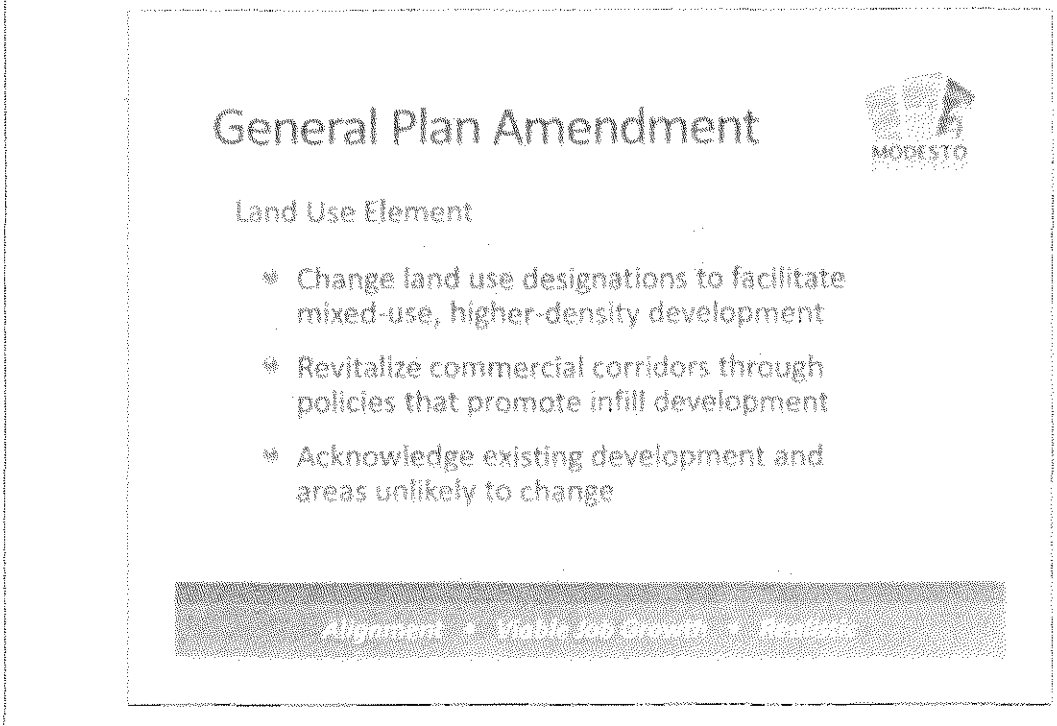
Why Update the General Plan?

- Implement State law: improve air quality (AB32); reduce VMT (SB375); complete streets (AB1358)
- Prioritize infrastructure projects
- Facilitate economic development
- A more livable community





Major Themes
MODESTO
• Alignment
• Viable Job Growth
• Realistic



General Plan Amendment
MODESTO
Land Use Element
Change land use designations to facilitate mixed-use, higher-density development
Revitalize commercial corridors through policies that promote infill development
Acknowledge existing development and areas unlikely to change
Alignment • Viable Job Growth • Realistic

General Plan Amendment

Land Use Element

- Update land use designations within the Redevelopment Planning District
- Expand business park and economic development opportunities
- Introduce new "Agriculture" designation
- Increase commercial services on east side

Alignment ▸ Viable Job Growth ▸ Livability

Alignment • Viable Job Growth • Realistic

Response to Comment D-1

The comment does not state a specific concern or question regarding the environmental impact analysis in the DEIR. Therefore, no further response to this comment is provided.

Response to Comment D-2

The DEIR for the Proposed Project has studied and is now addressing the existing deficiencies. The commenter's question about the timing of or delay in addressing these deficiencies is not a CEQA issue; therefore, no further response to this comment is provided.

Response to Comment D-3

See the response to Comment D-2.

Response to Comment D-4

See the response to Comment D-2.

Response to Comment D-5

See the response to Comment B-2 for a discussion of the areas served by the Proposed Project, the water yield of the Proposed Project, and the water system improvements anticipated for future Del Rio buildout that are not included as part of the Proposed Project.

Response to Comment D-6

See the response to Comment B-2 for a discussion of the basis of the Proposed Project, the areas served by the Proposed Project, and the exclusion of the water system improvements anticipated for future buildout from the Proposed Project. As stated in response to Comment D-2, the purpose and need for the Proposed Project is to address the existing deficiency in water capacity.

Response to Comment D-7

See the response to Comment B-2 for a discussion of the water volumes and improvements included in the Proposed Project, the water yield of the Proposed Project, the areas served by the Proposed Project, and the water system improvements anticipated for future Del Rio buildout that are not included as part of the Proposed Project.

Response to Comment D-8

See the response to Comment B-3 for a discussion of the analysis of alternatives for the Proposed Project.

Response to Comment D-9

See the response to Comment B-3 for a discussion of the analysis of alternatives for the Proposed Project.

Response to Comment D-10

See the response to Comment B-3 for a discussion of potential sites previously explored and the analysis of alternatives for the Proposed Project.

Attention: Tamorah Bryant

RE: Comments to Draft EIR for the Del Rio Tank and Wells Project

Dear Ms. Bryant:

I represent the North Modesto Groundwater Alliance ("the Alliance"). The Alliance is an unincorporated association formed in 2012. It is comprised of residents and property owners living or farming near the proposed locations of the Del Rio Tank and Wells Project ("Project"). The collective goal of all Alliance members is to ensure that the environmental effects and impacts to the North Modesto area from the Project are analyzed, reviewed, reported and mitigated in full compliance with the California Environmental Quality Act ("CEQA"). Pursuant to CEQA Guidelines Sections 15087 and 15088, I submit the following comments to the Del Rio Tank and Wells Project Draft Environmental Impact Report (hereafter referred to as "DEIR") on behalf of the Alliance. E-1

A. Project Purpose and Location.

Comment No. 1: **The project analyzed in the DEIR is an entirely different project from the project analyzed and recommended in the City's 2010 Water System Engineer's Report.** E-2

In Section 1.1.1 of the DEIR, the City states the following: E-3

> "In proposing to conduct the various activities identified in Chapter 2 of this DEIR, the City of Modesto is proposing to carry out and approve a discretionary project subject to CEQA that was previously identified in the City's WSER Program EIR (CEQA Guidelines Section 15168). Accordingly, this DEIR is tiered from the WSER Program EIR, in accordance with CEQA Guidelines Sections 15168 and 15152."

These statements are very misleading to anyone reviewing the DEIR. Both statements imply that the project analyzed in the DEIR is the same project that was analyzed in the 2010 Program EIR. E-4

when in fact the two projects are profoundly different. The project identified in the Program EIR was based upon a memo prepared by West Yost Associates and included in the 2010 WSIP *Program EIR as Appendix H* (hereafter referred to as "WYA Report"). The WYA Report recommended a new well in the northwest portion of the Del Rio service area, another well to replace Well 231 at the same location as the existing well, and a new tank and booster pump in the eastern service area. These recommendations were based upon hydraulic studies that identified the existing Del Rio system weaknesses in water delivery and firefighting system flow and pressure and the necessary improvements to overcome them. The WYA recommendations included specific, modeled locations, flows and pressures. This is the "previously identified" project identified in the City's WSIP Program EIR that the City of Modesto claims it "is proposing to carry out and approve."

E-4 cont.

The project identified in the DEIR, however, is **not** the project recommended and analyzed in the WYA Report. The project identified and discussed in the DEIR is located entirely outside of the Del Rio community service area, with wells, tank and booster pump locations that were not recommended by, or studied in, the WYA Report. The DEIR does not contain any hydraulic analysis to demonstrate that this new project design and location will resolve the current Del Rio system deficiencies. Without such a hydraulic analysis, the City is unable to demonstrate that the project it is proposing in the DEIR can fulfill the Project's primary objectives identified in the DEIR.

E-5

Furthermore, the DEIR is not "tiered from the WSIP Program EIR" as the City claims it is in Section 1.1.1. To qualify for the use of tiering, Public Resources Code Section 21094 (b) states that later projects must:

(1) Be consistent with the program, plan, policy, or ordinance for which an environmental impact report has been prepared and certified.

(2) Be consistent with applicable local land use plans and zoning of the city, county, or city and county in which the later project would be located, and

(3) Not trigger the need for a subsequent EIR or supplement to an EIR.

E-6

As discussed above, the project proposed in the DEIR is not consistent at all with the project recommended and analyzed in the WSIP Program EIR. The DEIR fails to include sufficient information for the City to conclude that the Project proposed in the DEIR will solve the hydraulic deficiencies in the current Del Rio water supply system identified in the WYA Report. Because of this failure, the Alliance believes that approval of the DEIR by the City Council as a final EIR would constitute an abuse of discretion.

E-7

Comment No. 2: **The project proposed and discussed in the DEIR is located outside of the Del Rio Community Plan Area.**

E-8

In Section 2.3 of the DEIR, the City states that "The Proposed Project is located in

E-9

the census-designated place of Del Rio in Stanislaus County." This statement is a misrepresentation and is also very misleading. The southern boundary of the Del Rio Community Plan Area is Dadd Road. Site A, the location of the majority of the proposed Project improvements (one of the two proposed wells, a pump, an above-ground storage tank, and a booster pump), is south of Dadd Road and outside the Del Rio community.

E-9 cont.

II. Groundwater Impact Analysis.

Comment No. 1: In arriving at its conclusion that the Project wells will have a "less than significant impact" on lowering the groundwater table and adversely affecting nearby wells, the City failed to state in the DEIR whether its conclusion is based upon the volume of water it will pump to serve the existing Del Rio subdivision, or whether its conclusion is based upon the volume of water it will pump to the existing subdivision and to future growth in the Del Rio area.

E-10

In Section 2.3 of the DEIR, the City states the following four objectives for the Project:

1. Correct existing deficiencies in the Del Rio water system to meet design pressure and volume storage requirements identified in the 2010 Water System Engineer's Report;

2. Ensure sufficient system pressure to provide firefighting flow capacity;

3. Improve water system operational flexibility and reliability; and

4. Allow for additional water supply and storage volume to accommodate anticipated future growth in the Del Rio area.

E-11

The City concludes in the DEIR that operation of the Project wells will have a "less than significant impact" on lowering the groundwater table and adversely affecting nearby wells. However, in Chapter 9 the City fails to reveal or even discuss whether the simulation run times and operational pumping rates for the Project wells, and therefore its conclusion about impact of such wells on surrounding wells, are based only on serving the existing Del Rio subdivision, or whether it studied the impacts on surrounding wells during simultaneous operation of the Project wells for the existing Del Rio neighborhood and the anticipated future growth of the Del Rio area.

E-12

In other words, did the City compute the volume of water that it will need to pump to simultaneously serve all four of its stated objectives for the Project and then model the pumping of that volume of water over the 3,650 days of simulation run time to determine what level of impact such pumping will have on surrounding wells? It is entirely unclear in Chapter 9 if the volume of water that the City estimates that the Project will pump is to be used solely to meet the first three objectives listed above, or whether the volume of water that will be pumped will meet the fourth objective as well.

E-13

Comment No. 2: The DEIR concludes that the cumulative impact to groundwater overdraft would be "significant and unavoidable," but it improperly attempts to avoid responsibility under CEQA for mitigation of this impact by passing it to the Groundwater Sustainability Agency. E-14

The DEIR concludes that cumulative impact to groundwater overdraft would be *"significant and unavoidable."* (DEIR, p. 9-28). The DEIR pushes the responsibility for mitigation of this impact to the future efforts of a Groundwater Sustainability Agency (GSA) formed in response to the Sustainable Groundwater Management Act (SGMA). Under SGMA, a GSA must develop a management plan – including specific actions – to essentially limit continued reductions in groundwater elevation to those reflected in 2015, or otherwise improve groundwater levels and overall groundwater sustainability. This plan – a Groundwater Sustainability Plan ("GSP") – must be prepared by 2022, with sustainability objectives achieved by 2042 (see California Code of Regulations, Title 23 – Waters, Division 2 – Department of Water Resources, Chapter 1.5 – Groundwater Management, Subchapter 2 – Groundwater Sustainability Plans and Alternatives). The DEIR should not allow mitigation actions for the overdraft impact of future demands from the *Del Rio Community Plan* to be deferred to a to-be-defined entity that will develop an unknown set of actions that are not required to fully address overdraft until 2042. E-15

C. Alternatives to the Project

Comment No. 1: Of the alternatives to the Project that were considered, the City concluded that Alternative 1 is the environmentally superior alternative. The customers that will be served by the Project – the members of the Del Rio Property Owner's Association – agree that Alternative 1 is environmentally and economically superior to the Project proposed in the DEIR and should be constructed. E-16

In the Superior Court's judgment in *North Modesto Groundwater Alliance v. City of Modesto, et al.*, the Court ordered the City and City Council "to comply with CEQA Guidelines before reapproving the Project." E-17

CEQA Guidelines Section 15021 establishes a duty for the City to minimize environmental damage and balance competing public objectives when considering the approval of a project subject to CEQA:

> (a) "CEQA establishes a duty for public agencies to avoid or minimize environmental damage where feasible.
>
> (b) In regulating public or private activities, agencies are required to give major consideration to preventing environmental damage.
>
> (3) A public agency should not approve a project as proposed if there are feasible alternatives or mitigation measures available that would substantially lessen any significant effects that the project would have on the environment.
>
> (c) In deciding whether changes in a project are feasible, an agency may consider specific economic, environmental, legal, social, and technological factors. E-18

(c) The duty to prevent or minimize environmental damage is implemented through the findings required by Section 15091.

(d) CEQA recognizes that in determining whether and how a project should be approved, a public agency has an obligation to balance a variety of public objectives, including economic, environmental, and social factors and in particular the goal of providing a decent home and satisfying living environment for every Californian. An agency shall prepare a statement of overriding considerations as described in Section 15093 to reflect the ultimate balancing of competing public objectives when the agency decides to approve a project that will cause one or more significant effects on the environment.

E-18 cont.

In addition to the "No Project Alternative," the City considered two other alternatives – Alternative 1 and Alternative 2 – in the DEIR. Under Alternative 1, the City recognized in the DEIR that it owns property and operates groundwater wells at three locations in the Del Rio service area. It also recognized that "under this alternative, in lieu of purchasing new property for the proposed wells and tank, the City would design the proposed new facilities to fit within their existing well properties." The City concluded that "this alternative would not require transmission pipelines, because the well sites would already be connected to the existing water distribution system. This alternative would meet all of the project objectives." (Emphasis added.)

E-19

In Chapter 12, Section 12.5, the City concluded that Alternative 1 is the environmentally superior alternative:

> "Among the other alternatives considered, Alternative 1: Construct at Existing City Well Locations is considered the environmentally superior alternative. This alternative would achieve all the project objectives to a similar degree as the Proposed Project. As described above, more sensitive receptors (residents) are located near the existing City well sites; therefore, this alternative would result in increased impacts on aesthetics, operation-related noise, and air quality because of the greater number of sensitive receptors near the well sites. However, less GHG emissions and construction-related noise impacts would occur because no pipelines would be constructed under this alternative. In summary, Alternative 1 would result in the most reductions in environmental impacts among the alternatives considered."

E-20

Constructing Alternative 1 avoids the following problems and costs associated with the Project proposed in the DEIR:

1. Alternative 1 is consistent with the recommendations in the WYA Report and the project that was hydraulically analyzed in the WSER Program EIR and should solve the existing Del Rio service deficiencies. This avoids the problems and uncertainties that are inherent in proceeding with the project proposed in the DEIR – which has not been hydraulically analyzed as noted above – and whether that project will solve such service deficiencies. It also avoids the problem of failing to comply with CEQA Guidelines.

E-21

2. Alternative 1 avoids the costs of constructing a 2,500 foot-long, 8-inch diameter transmission main from Site A to the Del Rio subdivision, and a 950 foot-long, 12-inch diameter transmission line from the Site B well to the Del Rio subdivision.

3. Alternative 1 avoids the costs of constructing a 250,000 gallon storage tank, a pump house, and booster pump on Site A.

4. Alternative 1 avoids the cost of landscaping Site A.

E-21 cont.

Constructing Alternative 1 also minimizes environmental damage and balances competing public objectives in compliance with CEQA Guidelines Section 15021. The project proposed in the DEIR, which is located outside of the Del Rio area places all of the environmental burdens of the Project on Alliance members and other residents and owners living near Sites A and B while not providing any of the benefits of the Project to such residents. These citizens will not be served by the Project at all. In contrast, the residents of the existing Del Rio subdivision would unjustly receive all of the benefits of the Project without any of the environmental burdens.

E-22

Alternative 1 balances these concerns and eliminates this inequity by placing the aesthetic and noise burdens on the persons who will be served by the Project instead of on those who will not. A portion of the considerable costs that would be saved by implementing Alternative 1 instead of the proposed Project could be allocated to provide better landscaping and noise reduction for the residents of the existing neighborhood.

E-23

As stated in CEQA Guidelines Section 15021(a)(2), "A public agency should not approve a project as proposed if there are feasible alternatives or mitigation measures available that would substantially lessen any significant effects that the project would have on the environment." The City identified a feasible alternative in Alternative 1 and concluded in the DEIR that it "would achieve all the project objectives" while simultaneously "resulting in the most reductions in environmental impacts among the alternatives considered."

E-24

In their comments regarding the DEIR submitted in a letter to the City dated December 2, 2016, the Del Rio Property Owner's Association stated that Alternative 1 "should be started immediately to relieve existing Del Rio customers water pressure problems and provide adequate fire protection." The Alliance likewise believes that if improvements to the Del Rio water supply system are needed, then Alternative 1, which is substantially the same as the improvements recommended in the WSA Report, should be installed.

E-25

Sincerely,

Daniel W. Smith

Response to Comment E-1

The comment does not state a specific concern or question regarding the environmental impact analysis in the DEIR. Therefore, no further response to this comment is provided.

Response to Comment E-2

The following discussion addresses the consistency of the Proposed Project with the 2010 WSER Program EIR (Stanislaus County 2010).

The Proposed Project includes the recommended improvements for existing system deficiencies identified by the 2010 WSER and is consistent with the project identified in the 2010 Program EIR (Stanislaus County 2010). The primary difference between the project described in the Program EIR and the Proposed Project is one of the well locations. While the 2010 WSER (2010 Program EIR, Appendix H) recommended that the new well be located in the northwest portion of the Del Rio service area, the report also states that "the locations of the proposed facilities are for planning purposes only and should be developed further in future pre-design studies" (2010 WSER: page 17).

As discussed in the response to Comment B-2, the 2010 Program EIR included evaluation of a proposed tank and pump station on a large parcel of land north of McHenry Avenue and Stewart Road. As the project developed, no land was available for sale in that area. The City then considered alternative locations, including River Nine Drive and 6520 Carver Road, but was unable to find willing sellers or complete the purchase of land in those alternative locations. On March 13, 2012, by Resolution 2012-101, the City Council approved the purchase of two parcels at 718 Ladd Road.

After considering the feasibility of suitable sites within the northwest portion of the Del Rio service area, including whether the City could reasonably acquire control of suitable sites and the economic implications of doing so, the City selected Site A for the Proposed Project, in part because it was more cost effective, given the fact that the City already owns this property and it is immediately adjacent to the community that the Proposed Project is intended to serve.

A hydraulic assessment of the Del Rio water system was conducted as part of the 2010 WSER, discussed in Appendix H of the 2010 WSER. The hydraulic assessment indicated that the existing supply wells cannot maintain the minimum system pressure needed during maximum existing demand conditions. The 2010 WSER provided recommended improvements to the existing Del Rio water system to correct these existing system deficiencies. The WSER focused on the type and size of improvements needed. The location of the improvements was identified as proposed and subject to change.

The Proposed Project would construct the same storage tank and well improvements listed in the 2010 WSER, Section 1.3 and Table 7, *Recommended CIP Program for Existing Del Rio Water System*, and in the 2010 WSER Program EIR in Table ES-4, *Proposed Outlying Service Area Capital Improvement Projects*, to correct existing deficiencies in the Del Rio water system and meet design pressure and volume storage requirements. Accordingly, the Proposed Project is consistent with the project information identified in the 2010 WSER Program EIR and appropriately tiers from the 2010 WSER Program EIR. The new proposed location for one well would meet the objectives analyzed and recommended in the 2010 WSER and

Program EIR. Furthermore, the DEIR meets CEQA's disclosure requirements by fully describing project-specific and site-specific impacts of the project. As such, no new hydraulic analysis was necessary to support the DEIR.

Response to Comment E-3

The comment does not state a specific concern or question regarding the environmental impact analysis in the DEIR. Therefore, no further response to this comment is provided.

Response to Comment E-4

See the response to Comment E-2 for discussion regarding the Proposed Project's consistency with the 2010 WSER and Program EIR. The commenter has provided no evidence to support the assertion that the prior hydraulic analysis is deficient.

Response to Comment E-5

See the response to Comment E-2 for discussion regarding the Proposed Project's consistency with the 2010 WSER and Program EIR and its hydraulic assessment.

Response to Comment E-6

The following discussion addresses comments regarding the use of the 2010 WSER Program EIR (Stanislaus County 2010) for the Proposed Project under CEQA's Program EIR and tiering provisions.

As discussed in Section 1.1.1 of the DEIR,

> "In proposing to conduct the various activities identified in Chapter 2 of this DEIR, the City of Modesto is proposing to carry out and approve a discretionary project subject to CEQA that was previously identified in the City's WSER Program EIR (CEQA Guidelines Section 15168). Accordingly, this DEIR is tiered from the WSER Program EIR, in accordance with CEQA Guidelines Sections 15168 and 15152."
>
> "This EIR was prepared to disclose further details and changes to the Proposed Project, as well as the potentially significant effects of the proposed project on the environment which were not examined in the prior Program EIR. This EIR is tiered from the WSER Program EIR and incorporates the Program EIR by reference, and all applicable mitigation measures from the Program EIR (as described in Chapter 3, *Introduction to the Environmental Analysis*) are incorporated into this EIR. The City will use the analyses presented in the Program EIR, this DEIR, public comments on the DEIR, and the whole of the administrative record, to evaluate the Proposed Project's environmental impacts and to further modify, approve, or deny approval of the Proposed Project."

Agencies are encouraged to tier the environmental analyses that they prepare for separate but related projects to eliminate repetitive discussions of the same issues and focus the later EIR on the actual issues ripe for decision at each level of environmental review (CEQA Guidelines Section 15152).

The response to Comment E-2 discusses how the proposed Del Rio Tank and Wells Project includes the recommended improvements identified by the 2010 Program EIR and Appendix H (2010 WSER), and is consistent with the project identified and analyzed in those documents.

If the Proposed Project being evaluated were identical to the project identified in the first-tier EIR, no additional review would be necessary. As indicated in the response to Comment E-2 above, the Proposed Project is indeed consistent with the project identified in the 2010 WSER Program EIR and its hydraulic assessment. The Proposed Project also is consistent with applicable local land use plans and zoning. The change in the potential location of one of the new wells as discussed in the Program EIR does not trigger the need for a subsequent EIR or supplement to an EIR pursuant to Public Resources Code (PRC) Section 21166. Thus, it is appropriate for the City to tier the analysis of the Proposed Project from the previous analysis in the 2010 WSER Program EIR, in accordance with PRC Section 21094(b) and to analyze project-specific impacts not already analyzed at the Program level.

Response to Comment E-7

See the response to Comment E-2 for discussion regarding the Proposed Project's consistency with the 2010 WSER and Program EIR. The commenter has provided no evidence to support the assertion that the prior hydraulic analysis is deficient.

Response to Comment E-8

See the response to Comment B-3 for a discussion of potential sites previously explored and the location of the project site in relation to the Del Rio Community Plan area. Note that the use of the term "census-designated place" is factually correct and is not misleading; it is a legitimate description of an area that is not officially incorporated and does not have an independent local government.

Response to Comment E-9

See the response to Comment B-2 for a discussion of the basis of the Proposed Project, the areas served by the Proposed Project, and the fact that the Proposed Project does not include water system improvements anticipated for future buildout.

Response to Comment E-10

The comment does not state a specific concern or question regarding the environmental impact analysis in the DEIR. Therefore, no further response to this comment is provided.

Response to Comment E-11

Refer to the Response to Comment B-2 for a discussion of the basis of the Proposed Project, the areas serviced by the Proposed Project and the fact that the Proposed Project does not include the water system improvements anticipated for future buildout.

Response to Comment E-12

The comment does not state a specific concern or question regarding the environmental impact analysis in the DEIR. Therefore, no further response to this comment is provided.

Response to Comment E-13

Refer to the Response to Comment B-2 for a discussion of the basis of the Proposed Project, the areas serviced by the Proposed Project and the fact that the Proposed Project does not include the water system improvements anticipated for future buildout.

Response to Comment E-14

Refer to the Response to Comment B-2 for a discussion of the basis of the Proposed Project, the areas serviced by the Proposed Project and the fact that the Proposed Project does not include the water system improvements anticipated for future buildout.

Response to Comment E-15

The following is a discussion of impacts of the Proposed Project on groundwater, including cumulative impacts.

Chapter 9 of the DEIR evaluates impacts of the Proposed Project on groundwater, including cumulative impacts. The City of Modesto, along with five other water agencies and local jurisdictions, formed the Stanislaus and Tuolumne Rivers Groundwater Basin Association (STRGBA), which developed the Integrated Regional Groundwater Management Plan for the Modesto Subbasin (IRGMP).

In 2009, the California State Legislature also enacted the California Statewide Groundwater Elevation Monitoring (CASGEM) Program; the Modesto Subbasin is classified as a high-priority basin, although it is not specifically noted as being in overdraft (see DEIR page 9-3). In 2016, the legislature also enacted a series of laws known as the Sustainable Groundwater Management Act (SGMA), to begin organizing and regulating the management of groundwater basins throughout the state.

All of these laws and regulations require coordination among the various agencies and jurisdictions that use and manage groundwater throughout California. The City, in its capacity as a water service provider and a user of groundwater, participates in these joint management efforts. Because the City is not the only decision maker involved in managing groundwater in the project area, the City cannot unilaterally resolve issues related to groundwater overdraft. For this reason, the cumulative impact (by definition, the impact of the Proposed Project in combination with other past, present, and reasonably foreseeable future projects) on groundwater overdraft cannot be mitigated by the City alone. Because the City does not control what actions would be taken to mitigate the identified significant cumulative impact, the impact would remain significant and unavoidable until such time as actions of the various responsible entities are known.

CEQA requires that an EIR evaluate the intended operations of a project, rather than speculate on an operational approach that is not currently planned. As explained in the response to Comment B-2, the City has identified the theoretical maximum annual yield of the proposed wells; however, the evaluation in the EIR is based on the anticipated maximum annual yield based on the manner in which the Proposed Project would be operated to address existing deficiencies. As explained on page 2-10 of the DEIR, the theoretical maximum yield would exceed the annual production for the entire Del Rio service area for the previous 5 years by more than double; basing the EIR analysis on this calculation would

result in a gross overstatement of the potential environmental impacts of the Proposed Project. This level of pumping would not occur under the Proposed Project.

As discussed in Chapter 9, Section 9.4.4, "Cumulative Impacts of the DEIR," the City is already implementing all available measures to ensure that its groundwater extraction does not exacerbate this situation and is an active participant in regional groundwater management with a goal of ensuring sustainable management of the subbasin. However, the EIR conservatively concludes that the Proposed Project would have a significant and unavoidable cumulative impact due to its cumulatively considerable contribution to the existing significant cumulative impact on groundwater in the region.

Response to Comment E-16

See the response to Comment B-3 for a discussion of alternatives for the Proposed Project.

Response to Comment E-17

The comment does not state a specific concern or question regarding the environmental impact analysis in the DEIR. Therefore, no further response to this comment is provided.

Response to Comment E-18

The comment does not state a specific concern or question regarding the environmental impact analysis in the DEIR. Therefore, no further response to this comment is provided.

City of Modesto
Utilities Department
1010 Tenth Street, Suite 4006
Modesto, CA 95353
Attention: Tamerah Bryan

RE: Comments to Draft EIR for the Del Rio Tank and Wells Project

Dear Ms. Bryan:

Tully & Young was retained by the North Modesto Groundwater Alliance ("Alliance") to review the November 2016 *Del Rio Tank and Wells Project Draft EIR* prepared by the City of Modesto Utilities Department (hereafter the "Project EIR"). On behalf of the Alliance, Tully & Young submits the following comments regarding the Project EIR pursuant to CEQA Guidelines Sections 15087 and 15088.

F-1

Based upon our initial review, we have concluded the following:

- Project Purpose: The proposed wells and tank described and analyzed in the Project EIR are not consistent with the recommendations of the City's 2010 Water System Engineer's Report, and therefore may not meet the City's stated objectives. The entire analysis may be inadequate, as the proposed project appears to not meet the primary project purpose.
- Groundwater Impact Analysis: The Project EIR concludes that cumulative impact to groundwater overdraft would be "*significant and unavoidable.*" The Project EIR pushes the responsibility for mitigation of this impact to the future efforts of a groundwater Sustainability Agency (GSA) formed in response to the Sustainable Groundwater Management Act (SGMA). The EIR should not allow mitigation actions for the overdraft impact of future demands from the Del Rio Community Plan to be deferred to a to-be-defined entity that will develop an unknown set of actions that are not required to fully address overdraft until 2042.

F-2

F-3

Each of these conclusions is discussed further below.

1. Project Purpose

Probably the most concerning conclusion from my review was that the project analyzed in the EIR did not match the project attributes recommended in the City's 2010 Water System Engineer's Report. In my opinion, this is a glaring mistake and would reasonably lead to a conclusion that the entire Project EIR analysis is misleading and should not be used by the City.

F-4

To understand how I have reached this conclusion, it is important to understand various statements from the Project EIR, as well as other relevant documents.

F-5

Here are critical statements in the Project EIR:

1. *"This Proposed Project was previously described in the City's Water System Improvement Program (WSIP) Program EIR (State Clearinghouse No. 2008092093) in City of Modesto 2010a."* (Project EIR, p. 1-1) The Project EIR is referencing the 2010 Program EIR discussed later. This is important as it implies to the reader that EIR analyzed the same project that was analyzed in the City's December 2009 Draft Program EIR for the 2010 Water System Engineer's Report. However, as represented with other consecutive information, the project analyzed in the Project EIR is a much different project than the project that was environmentally reviewed in 2010. F-6

2. *"In preparing to construct the various activities identified in Chapter 2 of this DEIR, the City of Modesto is proposing to carry out and approve a discretionary project subject to CEQA that was previously identified in the City's WSIP Program EIR (CEQA Guidelines Section 15168). Accordingly, this DEIR is tiered from the WSIP Program EIR in accordance with CEQA Guidelines Sections 15168 and 15152."* (Project EIR, p. 1-2) This statement appears to define the purpose of this project-specific EIR to be analyzing the "previously identified" project. However, as shown through later statements, this is not the case. Rather, a different project was assessed in the Project EIR. F-7

3. *"This EIR was prepared to disclose further details and changes to the Proposed Project as well as the potentially significant effects of the proposed project or the environmental effects not examined in the prior Program EIR."* (Project EIR, p. 1-3) Though this statement appears to open the opportunity for "changes," there is never any discussion in the Project Description or elsewhere of any proposed change from what was assessed in the 2010 programmatic EIR. Yet, the Project EIR identifies new locations for the Project wells, pumps and storage tank that are outside the Del Rio neighborhood. This is a major change, and the Project EIR failed to discuss the change and whether it will adequately meet the Project goals for the Del Rio neighborhood that were designed, analyzed and recommended for the neighborhood (as discussed later). F-8

4. *"The first stated objective of the Proposed Project is 'to correct existing deficiencies in the Del Rio water system to meet design pressure and volume storage requirements identified in the 2010 Water System Engineer's Report'."* (Project EIR, p. 3-4) As discussed below, the 2010 report being referenced defined a very distinct project that is considerably different from the project analyzed by the Project EIR. F-9

5. *"The Proposed Project would involve construction of three groundwater wells at the northeast corner of the intersection of Dodd Road and St. John Road on APNs 093-057-018 and 019-011-019, and D. Site B at the northwest corner of McHenry Avenue and Stewart Road on the southwest-most portion of APN 004-102-015. Figure 2-1 shows the locations of the proposed Project sites."* (Project EIR, p. 2-1, 2-2). Figure 2-1 is copied below directly from the Project EIR's included figures. This will later be compared to figures in the 2010 program EIR and the 2010 engineer's reports.

F-10

Figure 2-1: Project Location

6. *"Three transmission pipelines would be installed at Site A and Site B to connect the wells to the City's existing distribution system. An approximately 2,500-linear-foot, 16-inch-diameter transmission main would be constructed at Site A from the well at Dodd Road, north under St. John Road to the intersection of St. John Road and Frances Dale Drive. At Site B, a 12-inch-diameter transmission main would be constructed from the well at McHenry Road south for 195 feet under McHenry Road, then west for 760 feet along Stewart Road, terminating at the intersection of Stewart Road and Grove Point Way."* (Project EIR, p. 2-2). This representation of where the new wells intersect the existing Del Rio distribution system is important when

F-11

considering the exact location from the hydraulic analysis in the 2016 Water System Engineer's Report regarding where the well should be located to resolve pressure and flow issues in the existing and anticipated future water distribution system.

F-11 cont.

Here are critical statements from the City's May 2010 Water System Engineer's Report – Option A (hereafter the "2010 Report"):[1]

1. *"The purpose of this Engineer's Report (Report) is to develop a capital improvement program (CIP), which will describe and justify the various improvements needed to provide adequate reliable water service to existing and future customers. ...The CIP addresses system deficiencies and capacity needs based on the hydraulic analyses performed for the configuration and operating criteria, as discussed in Appendices A through E."* (2010 Report, p. 1). This clearly indicates that a very comprehensive CIP was developed detailing pipe locations, tank capacities, and other important distribution system improvements to improve system hydraulic performance.

F-12

2. *"The proposed improvements benefit existing and buildout customers by providing water service that meets regulatory performance criteria discussed in the Existing System Evaluation (SE – Appendix D), the Buildout System Evaluation (BE-Appendix E), and Outlying Service Area (OSA – Appendices F through J). These criteria include required storage volumes, reliable pumping capacities, and minimum system pressures under different demand conditions."* (2010 Report, p. 2). Appendix E details the specific Del Rio hydraulic analysis discussed in the 2010 Report, indicating existing system deficiencies and where system improvements should be located to address pressure and flow concerns. The City is indicating that these appendices meet their performance criteria for operating a municipal water delivery system.

F-13

Here are critical statements from the 2010 Report's Appendix E, a memo prepared by West Yost Associates that documents the hydraulic analysis and resulting recommendations for the Del Rio service area (hereafter the "WYA Report"):

1. *"With the addition of a new well, the existing 10-inch diameter pipeline along County Club Drive is no longer adequately sized to convey supply to the eastern side of the service area. For this reason, the proposed booster high and pump station discussed above was recommended to be located on the eastern portion of the service area, near Well 28A. ...In addition, installation of 1,400 linear feet of new pipelines is recommended to increase system circulation and redundancy, and provide sufficient flow under fire flow conditions."* (WYA Report, p. 11). Details such as these are important representations of a specific hydraulic analysis that integrates existing pipe sizes and customer demands, with the City's operating criteria and locations of water tanks and booster pumps.

F-14

2. *"The new well should be located in the western part of the future Del Rio service area. This is the preferred location because the eastern and western portions of the Del Rio service area are presently connected by only a single 10-inch diameter pipeline along County Club Drive. Therefore, each of these service areas would be and would need to be reliable individually self-sufficient in the event of a pipeline break. With the construction of this future CIP well in the western service*

F-15

[1] The 2010 Report includes both "Option A" and "Option B" reports where the difference is considered to be a regional surface water supply for the City's southeastern area. The report is one letter for the outlining area, which includes Del Rio

area sufficient supplies and pressure to meet, with reasonable reliability, the maximum day demand. Sufficient supplies and storage will also be available to the system pursuant to the water code." (WYA Report, p. 13, 14). Again, the hydraulic analysis presented in the 2010 Report results in very specific recommended pipe size and placement and location of wells, tanks and pumps. The project analyzed in the Project EIR is an entirely different project than the project recommended in the 2010 Report and analyzed in the 2010 Report EIR, with new well, pump and storage locations. Changes from the 2010 Report's recommendations of this magnitude MUST be modeled to demonstrate that they would meet the City's design criteria.

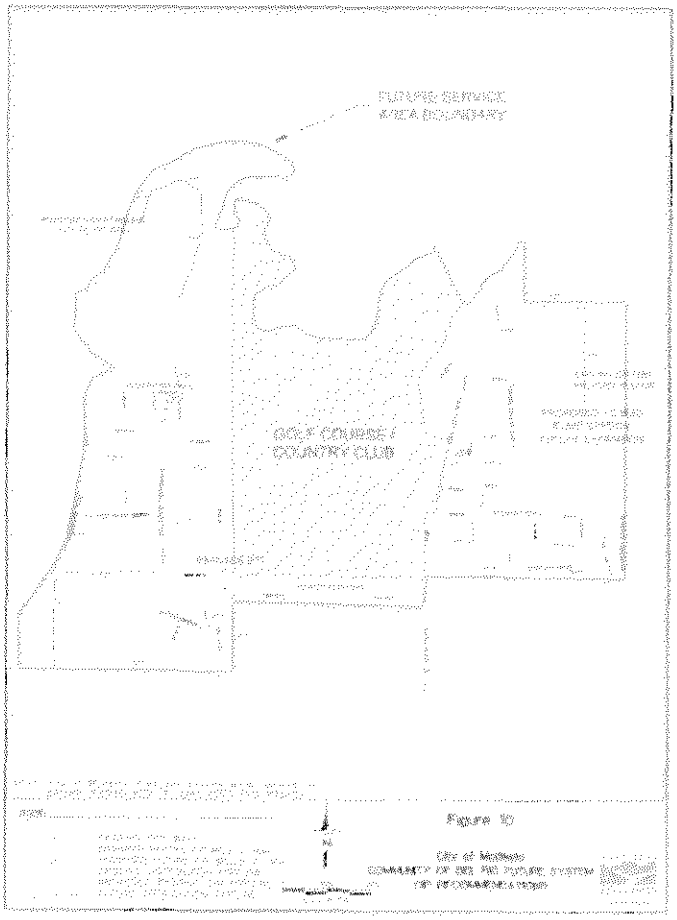
F-15 cont.

- *"Based on the analyses detailed above, WYA recommends that the City complete construction of one new well in the northwest portion of the future service area to help satisfy model and meet by both existing and future customers, and expand the booster pump station at the above ground storage tank to 12 mgd total capacity at 2.0 mgd."* (WYA Report, p. 15). This is an important conclusion regarding well location in relation to existing and anticipated demands, as well as the existing infrastructure and its ability to adequately convey necessary flow and pressure throughout the distribution system. As clearly indicated in this report, a new well is recommended in the northwest portion of the service area. Instead, the Project EIR analyzes a well located well south and east of this location, with no indication that such a location can resolve the pressure and flow problems that exist.

F-16

4. *"Locations of the recommended regional projects are shown on Figure 10 and described in Table 7. The locations of the proposed facilities are for planning purposes only and should be considered further in future project studies."* (WYA Report, p. 17). Figure 10 from the WYA Report is copied below. As clearly indicated, the recommendations to accommodate the existing and future Del Rio demands include a new well in the northwest portion, replacement of Well 27I at the same location as the existing well, and a new tank and booster pump in the eastern service area. As notable later, this figure matches the project figure from the programmatic EIR completed in 2010, from which the Project EIR tiers. Again, the Project EIR indicates its purpose is *"to carry out and approve alternatives, projects and/or mitigation that were previously identified in the City's MSEP Program EIR."* (Project EIR, p. 1-2). It is very apparent that the "previously identified" project was that represented in Figure 10 from the WYA Report.

F-17



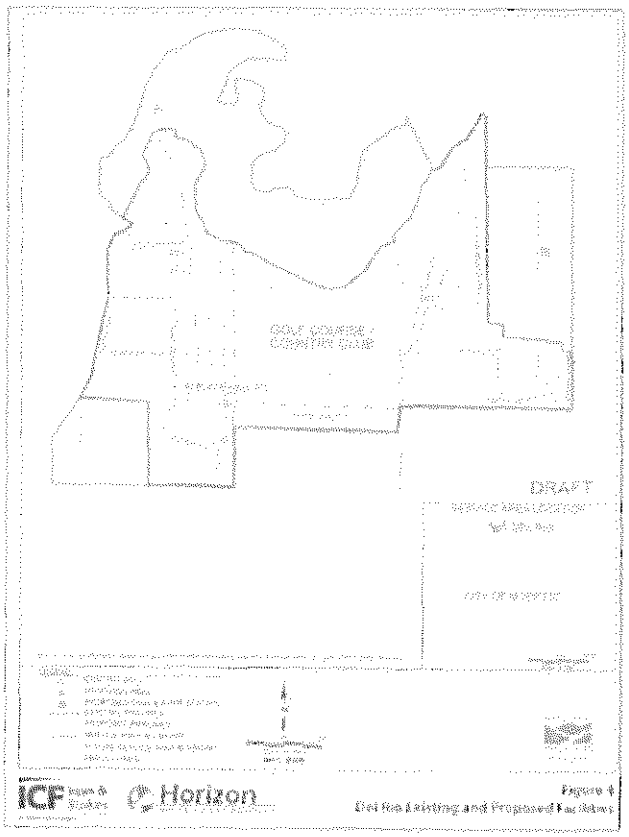
Here are critical statements from the City's December 2009 Draft Program EIR for the 2010 Report (hereafter the "2010 Report DEIR"). This is the document referred to in the Project DIR as the "City's *MMP Program EIR*" (see Project DIR, critical statement #3):

1. *"The Engineer's Report identifies a Capital Improvement Program (CIP) for system-wide improvements needed to deliver safe and reliable water, which will effectively meet water demand requirements under both existing and future developed conditions."* (2010 Report DEIR, p. 2-11).

F-18

2. *"The Del Rio water system currently requires a new storage tank and associated pump station, well replacement wells, backup generation, well pipelines to connect existing supply deficiencies. These proposed facilities are shown in Figure 4."* (2010 Report DEIR, p. 2-11). Figure 4 is copied below directly from the 2010 Report DEIR's included figures. This figure includes the nine wells, a tank and booster pump locations recommended by the WYA Report (as represented in the WYA Report's Figure 10). This does not match, and is a significant departure from, Figure 2-1 of the Project DIR.

F-19



These are critical statements from the City's October 2012 Del Rio Well, Tank and Booster Pump Station Preliminary Design Report (hereafter the "2012 Design Report"):

1. *"A Technical Memorandum, dated March 30, 2010, by West East Associates summarizes the findings of these studies and recommends construction of two new 2,000 gallon per minute (gpm) production wells, installation of a new 0.25 Million Gallon (MG) storage tank, construction of a new 2.0 Million Gallon per Day (MGD) pump station, and construction of approximately 4,700 linear feet of new pipeline to meet existing system demands."* (2012 Design Report, p. 1). The 2012 Design Report clearly recognizes the recommendations in the 2010 Report and WYA Report, and thus would be expected to recognize the associated location of wells, tanks and booster pumps. However, as indicated in the statement below, there is a new location proposed, with no basis provided.

F-20

2. *"The Del Rio Well, Tank and Booster Pump Station project will include well, water storage tank and booster pump station to service the community of Del Rio and to help meet the recommendations of the above-mentioned studies and Technical Memorandum (TM). The site is located on Todd Road, near the intersection with N. John Road approximately one half mile south of the Del Rio community and is planned to be on agricultural land."* (2012 Design Report, p. 1). Apparently, somewhere between the 2010 Report/EIR, which reflects the 2010 Report, which used the WYA Report as the basis for very detailed CIP representations, the location of wells, tanks and booster pumps changed. There is no explanation provided in the 2012 Design Report nor the Project EIR to explain the change. There also is no representative *"future pre-design studies"* (WYA Report, p. VI) as the WYA Report indicated would be necessary if locations of any recommended CIP facilities varied from the recommendations in the WYA Report. Absent hydraulic analysis or equivalent pre-design studies to show a new location solves the pressure and flow problems identified in the WYA Report, the new proposed locations should be assumed to not meet the objectives analyzed and recommended in the 2010 Report.

F-21

When reviewing the cited statements above, it is obvious that the 2010 Report/EIR analyzed the project as represented in the 2010 Report/EIR's Figure 1, which reflects the recommended CIP that was based upon hydraulic studies in the WYA Report. Those hydraulic studies identified the existing system shortcomings and the necessary improvements to overcome them – especially necessary fire flow and system pressure in certain sections of the existing Del Rio distribution system. The WYA Report's recommended facilities are necessary to resolve the current system problems, and include specific modeled locations, flows and pressures.

F-22

The location of the Project EIR's wells, tank and booster pump, which are very different from the WYA Report recommendations, raises very serious questions about the ability for the Project EIR's proposed locations to resolve any existing or future problems in the Del Rio community.

F-23

Absent any additional hydraulic analysis, I can only conclude that the Project EIR analyzes a project that very likely does not meet the objectives it intended to meet – which the Project EIR clearly states as a primary objective (Project EIR, p. 2-1).

F-24

Therefore, absent information to the contrary – which is not readily available in the Project EIR or the 2012 Design Report – I conclude that the entire Project EIR's analysis is misleading and inadequate, and should be disregarded by the City.

F-25

2. Groundwater Impact Analysis

The Project EIR concludes that overdraft impact to groundwater overdraft would be "*significant and unavoidable*." (Project EIR, p. 9-28). The Project EIR pushes the responsibility for mitigation of this impact to the future efforts of a Groundwater Sustainability Agency (GSA) formed in response to the Sustainable Groundwater Management Act (SGMA). Under SGMA, a GSA must develop a management plan – including specific actions – to essentially limit continued reductions in groundwater elevation to those reflected in 2015, or otherwise improve groundwater levels and overall groundwater sustainability. This plan – a Groundwater Sustainability Plan (GSP) – must be prepared by 2022, with sustainability objectives achieved by 2042 (per California Code of Regulations, Title 23 – Waters, Division 2 – Department of Water Resources, Chapter 1.5 – Groundwater Management, Subchapter 2 – Groundwater Sustainability Plans and Alternatives). The EIR should not allow mitigation actions for the overdraft impact of future demands from the Del Rio Community Plan to be deferred to a to-be-specified entity that will develop an unknown set of actions that are not required to fully address overdraft until 2042.

F-26

Sincerely,

Greg Young, P.E.

Response to Comment F-1

The comment does not state a specific concern or question regarding the environmental impact analysis in the DEIR. Therefore, no further response to this comment is provided.

Response to Comment F-2

Response to Comment F-7

See the response to Comment E-2 for discussion of the consistency of the Proposed Project with the 2010 WSER Program EIR (Stanislaus County 2010).

Response to Comment F-8

The commenter incorrectly states that "there is never any discussion in the Project Description or elsewhere of any proposed change from what was assessed in the 2010 programmatic EIR." Appendix B of the DEIR contains the Initial Study, which discusses the Proposed Project and analyzes whether the Proposed Project may cause any significant effect on the environment that was not examined in the 2010 WSER Program EIR, and whether new or additional mitigation measures or alternatives may be required as a result. The Initial Study thereby documents whether or not the Proposed Project is "within the scope" of the Program EIR. Topics fully evaluated in the DEIR for the Proposed Project were chosen because the Initial Study identified the potential for a significant impact beyond that identified and analyzed in the Program EIR. Applicable programmatic mitigation measures identified in the Program EIR and additional project-specific mitigation measures identified in the Proposed Project DEIR are applied to the Proposed Project as necessary to reduce impacts to a level that is less than significant. Also see the response to Comment E-2 for

discussion of the tiering of the Proposed Project from the 2010 WSER Program EIR (Stanislaus County 2010).

Comment Letter G – Richard Michelotti

Public comment on matter not on agenda: Del Rio well project

Monday, December 19, 2016

My name is Dick Michelotti. My family has lived and farmed the property at 4424 and 4434 Ladd Road since 1950. My family and I and all of our neighbors are very disappointed concerning the city's proposed well and pump site scheduled to be built on Ladd Road. The city's claim that it was unable to acquire property in the Del Rio area lacks credibility. We know that the city had a parcel in escrow on Carver Road which was not in the Del Rio area. Nearby residents threatened legal action because they did not want this project located near their homes. The city cancelled its plans and purchased the Ladd Road property without any analysis of alternative sites. The city decided to locate the well and tank project outside of the approved Del Rio Community Plan in an area which does not receive any of the benefits yet all of the burdens. The approved Del Rio Community Plan had established Ladd Road as the southern boundary. This approval of the southern boundary has been in place since the 1980's and was completely overlooked and disregarded by the city. The city uses the term "serious disadvantaged area" to justify the placement of the project which has absolutely no meaning whatsoever in the county's approval of the Del Rio Neighborhood plan. The city's expectation of local property owners to bear all of the burdens of this part of the project without any of the benefits is unconscionable and wrong. Would any of you like to be in our position? I think not. The projects original intent was to settle an agreement with the Del Rio community to create an inadequate water system for fire protection and low water pressure. This could be accomplished by adding only the Stewart Road well site. The city added the tank and second well solely for the purpose of future development in the Del Rio area.

G-1

We are entering the 6th year of a historic drought with no end in sight. There have been hundreds of wells that have failed in the county and aquifers everywhere are declining. The city is also requiring water reduction watering to one day a week to conserve water and protect the aquifer. The agricultural community has drilled hundreds, if not thousands, of wells in the county to cope with reduced surface water flows. Agricultural use is considered beneficial growing food. The city's project is not for beneficial use and more urban sprawl. Is this what is best for the north stanislaus County? Just because the city can do this does not mean that they should.

G-2

What is the path forward? To continue or expand? The Mayor and City Council need to consider what is best for the north county and not what is best for the special development interests.

G-3

The city has also failed to properly study the amount of water the project will pull from the aquifer. In our comments to the "Notice of Preparation" we expect the city to analyze the maximum pumping capacity of the project, nothing less. The drought and the now projected environmental releases the state will be making on our rivers, will greatly reduce the amount of surface water in our area. The city's plan to transfer water from the proposed Ladd Road site, a half mile north to the Del Rio system is quite telling in itself. Now that the railroad is open to selling their rail easement that runs not only north from the Ladd Road site, but south as well there is nothing preventing the city from transporting water from the project or their new tank to the south. The tank is a massive 3 million gallon structure. Although the city has said that there are no plans to transfer water, this could change if the drought continues and becomes more severe.

G-4

reduce water consumption. This is why we asked the ground water study to address the maximum pumping capacity of the entire project.

Although the City has notified some property owners most affected by this project, they are still extremely deficient in their notification. There are literally dozens of property owners within the designated area of this project who have yet to be notified. The Walnut Woods area is an example of this. If it had not been for the efforts of the North Modesto Ground Water Alliance (NMGA) and the Modesto Bee, they would have no idea of this project. This is a violation of their constitutional right of due process in that they could be severely affected by the impact of this project.

I received the City's letter, dated November 4, 2016 that the project will have the potential for significant and unavoidable over draft of the groundwater sub basin. The City continues forward with developing its plan and does not modify it to only fulfill its agreement with the Del Rio Country Club. At a public meeting over 4 years ago the city stated that they would mitigate the impacts of the project if it adversely affected our wells, and or, the quality of our well water. If the city chooses to move forward with the development plan, then existing development that has been in the area for decades should have the same rights to the water being drawn from below their properties.

The city is mining water from one area for the sole purpose of transfer out for the benefit of another area. It is not right that we should shoulder all of the impacts of this project without any chance of receiving any of the benefits. The previous mayor and city council were willing to approve this project without any regard for the people in the north county that will be most affected by this project. We are hoping that our new mayor and city council will take into consideration on what the people's needs in the northern Stanislaus county when they decide on a path going forward.

Please keep me on the notice list for the final EIR document.

Thank you for reading my comments on the draft EIR.

Response to Comment G-1

See the response to Comment B-3 for a discussion of potential sites previously explored and the analysis of alternatives for the Proposed Project. See the response to Comment B-2 for a discussion of the basis of the Proposed Project, the areas served by the Proposed Project, and the exclusion of the water system improvements anticipated for future buildout from the Proposed Project.

The purpose and objectives of the Proposed Project are identified in Chapter 2 of the DEIR. These objectives include correcting the existing deficiencies in the Del Rio water system and preventing the possibility of future deficiencies that could result with development in the Del Rio community.

Response to Comment G-2

The comment does not state a specific concern or question regarding the environmental impact analysis in the DEIR. Therefore, no further response to this comment is provided.

Response to Comment G-3

The comment does not state a specific concern or question regarding the environmental impact analysis in the DEIR. Therefore, no further response to this comment is provided.

Response to Comment G-4

The purpose and objectives of the Proposed Project are described on page 2-1 of the DEIR; any other use of the project facilities would require additional environmental review. The City cannot "transfer water" to other portions of the service area without (1) evaluating the environmental impacts of that new project and (2) preparing additional CEQA documentation, to the extent that it is necessary. The hypothetical actions described by the commenter are not included as part of this Proposed Project.

See the response to Comment B-2 for a discussion of the basis of the Proposed Project, the areas serviced by the Proposed Project, and the exclusion of the water system improvements anticipated for future buildout from the Proposed Project.

See the response to Comment E-15 for a discussion of Proposed Project impacts on groundwater, including cumulative impacts.

Response to Comment G-5

The City notice for the DEIR complied with all applicable legal requirements. For the DEIR, the City sent a Notice of Availability to all property owners within 500 feet of the Proposed Project (both Sites A and B), as well as all interested parties that requested notification. The City also posted a notice in the *Modesto Bee* newspaper on November 7, 2016, and filed a Notice of Availability with the Stanislaus County Clerk-Recorder on November 4, 2017.

Regarding the commenter's concerns about the Walnut Woods area, the City's technical analysis (as described in Chapter 9 of the DEIR and provided in Appendix H of the WSER

Program EIR) indicates that the Proposed Project would not have a substantial effect on the wells and property in this area, which is located a quarter-mile to a half-mile west of Site B.

Response to Comment G-6

Refer to the Response to Comment B-2 for a discussion of the basis of the Proposed Project, the areas served by the Proposed Project, and the exclusion of the water system improvements anticipated for future buildout from the Proposed Project.

Refer to the Response to Comment E-15 for a discussion of Proposed Project impacts on groundwater, including cumulative impacts.

Response to Comment G-7

The comment does not state a specific concern or question regarding the environmental impact analysis in the DEIR. Therefore, no further response to this comment is provided.

Response to Comment G-8

Comment Letter G is included in this FEIR, as requested by the commenter and as required by CEQA.

Comment Letter H – Gary Darpinian, K. Darpinian and Sons

Jamesah Bryant, Senior Civil Engineer
City of Modesto
Utilities Department
Post Office Box 642
Modesto, CA 95353

Dear Jamesah:

My name is Gary Darpinian. I am President of K. Darpinian and Sons, Inc., a family farming company. The purpose of this letter is to set out my company's objections to the City of Modesto's Del Rio Tank and Wells Project and to serve as our official comment in response to the Draft Environmental Impact Report now out for public review and comment. Please incorporate this letter into the final EIR document. We farm on a 100 acre parcel immediately adjacent to the proposed tank and well site on Lado Road. H-1

Our first objection is the quite obvious and indisputable fact that the City of Modesto proposes to locate the tank and one of the project's wells outside of the Del Rio Plan area as designated by the County of Stanislaus. During the 1980's the county approved the Del Rio Community Plan which established Lead Road as its southern boundary. The DEIR, in a disingenuous attempt to obfuscate this fact, utilizes the term "census designated place" when referring to the Del Rio area, even though that term has no governmental policy meaning except as a reference point for conducting the U.S. Census. The proposed tank and well site is located completely outside the Del Rio Community Plan area. It is improper that the Draft EIR quotes so heavily from that Community Plan document for justification for expanding the water resources of the Del Rio area and to accommodate future build out of the area as outlined in the planning document when, even at full build out, the Tank and Well will still be outside of the developed area. In fact the site in question lies entirely in a zoned agricultural area designated as A-2-40. The mere development of the site will be disruptive to agricultural operations in our area. This is inconsistent with Stanislaus County's explicit zoning goals and regulations. The City of Modesto is attempting to act as a super-governmental agency in order to over-ride decades of local and regional land use planning policies when perfectly reasonable alternatives exist. H-2

The DEIR document glosses over this fact by stating that attempts to acquire property inside the Community Plan area were unsuccessful. This statement lacks credibility since there are literally thousands of undeveloped acres within the Community Plan area. H-3

In fact, the City's staff was well aware years ago of the local agricultural community's objections to the proposal but chose to purchase the parcels in question anyway because they claimed the residents of Del Rio had voiced objections to locating the project inside the Plan area. That is a completely inappropriate and invalid justification for violating the intent and the spirit of the zoning ordinances of Stanislaus County. Furthermore, that decision was made without proper notification of the impacted neighbors and has resulted in a prolonged litigation which has wasted hundreds of thousands of dollars of taxpayer's money as the City has tried to defend an indefensible position. H-4

Furthermore, the DEIR does not address the only simple and obvious way to mitigate the potential harm to surrounding neighbors' wells and environment, which would be to locate the portion of the project in the area that will ultimately be served by its completion. Instead, those who will bear the burdens of this project will enjoy none of the benefit. Hopefully a new Mayor and City Council will direct City Staff to act in a manner more consistent with County policy in an area completely out of the City of Modesto's jurisdiction. The lack of consideration of this obvious alternative must be addressed in a final EIR or the document will be deficient under CEQA guidelines.

H-5

Secondly, the DEIR also ignores the potential to mitigate the project's impact on the aquifer by locating the wells closer to the Stanislaus River. The Del Rio Community Plan area is bordered on the north by the river and locating the wells in close proximity to a natural recharge source would greatly reduce the potential to adversely affect the many domestic wells already serving residents in the Del Rio area as well as the many agricultural wells already in use. This alternative must be studied before any credible final EIR can be approved.

H-6

Third, the DEIR analysis regarding overdraft potential is wholly inadequate. It fails to even mention or account for the significant amount of agricultural well pumping in the Ladd Road, McHenry Avenue and Carver Road areas. For example, the Modesto Irrigation District has a deep well just to the west and south of the proposed tank site which operates almost daily during the irrigation season (usually March through October). This well removes thousands of gallons per minute from the local aquifer at a time that would coincide with peak demand for this project. The "Well Inventory Map" does not accurately locate this well nor does it show several other large agricultural wells within the Del Rio Plan area or those in the surrounding area. Any credible analysis must factor in the impacts of these wells and the many others in the area to accurately understand the harm that will be done to domestic wells and agricultural wells in close proximity to the Project. Without an accurate record as to location and draw of these wells a valid analysis as required by CEQA will be impossible. These already existing deep wells are drawing significant volumes of water from the same strata the City is proposing to draw down with its proposed project.

H-7

The additional impacts of the proposed project are not wholly unavoidable if another site was chosen. Unfortunately, in the DEIR, alternative projects are not given credible consideration. Clearly the City of Modesto is attempting to justify a very poor choice of a land purchase for the tank and well site by producing a very slip-shod EIR. Neighboring residents should not be punished for the poor judgement of City of Modesto officials who do not have a responsibility to represent them or to protect their interests and for whom those residents can not vote. A fresh look at the project is in order.

H-8

Thank you for the opportunity to express our comments and concerns in the DEIR process. After more than two years it is about time.

H-9

Sincerely,

Gary Dameron, President
K. Dameron and Sons, Inc.

Response to Comment H-1

The comment does not state a specific concern or question regarding the environmental impact analysis in the DEIR. Therefore, no further response to this comment is provided.

Response to Comment H-2

See the response to Comment B-2 for a discussion of the basis of the Proposed Project, the areas served by the Proposed Project, and the exclusion of the water system improvements anticipated for future buildout from the Proposed Project.

See the response to Comment B-3 for a discussion of potential sites previously explored and the analysis of alternatives for the Proposed Project.

See the Response to Comment H-4 below for a discussion of County zoning rules and regulations.

Response to Comment H-3

See the response to Comment B-3 for a discussion of potential sites previously explored and the analysis of alternatives for the Proposed Project.

Response to Comment H-4

As explained in the DEIR in Impact LU-2, "Conflict with Land Use Plans, Policies, or Regulations," although the City is not subject to County zoning requirements, public facilities are a "Tier Three" use permitted in the A-2 district. The DEIR's land use analysis (Chapter 10, *Land Use and Planning*) indicates that the Proposed Project would be consistent with Stanislaus County land use plans, policies, and regulations, and makes clear that the Proposed Project is not "violating the intent and the spirit of the zoning ordinances of Stanislaus County."

Response to Comment H-5

See the response to Comment G-5 for a discussion of the City's compliance with the requirements for public notification under CEQA.

No residents, either in the Del Rio community or in nearby areas of the county, would "bear the burden of this project" and "enjoy none of the benefit." All project level environmental impacts would be reduced to a less-than-significant level, as explained in the response to Comment B-3. Moving the project facilities from one side of Ladd Road to the other would not increase or reduce any of the identified impacts of the Proposed Project.

See to the Response to Comment B-3 for a discussion of potential sites previously explored and the analysis of alternatives for the Proposed Project.

Response to Comment H-6

The hydrogeologic nature of groundwater basins is a very complex subject. Any recharge provided by the Stanislaus River benefits the entire Modesto Subbasin (essentially a large underground river), not a specific well site or piece of property. More importantly, the

groundwater basin does not begin or end at any boundary line established by a particular land use jurisdiction. As explained in Section 9.2, "Regulatory Setting," in Chapter 9 of the DEIR, groundwater in the Modesto Subbasin of the San Joaquin Valley Groundwater Basin is managed by the Stanislaus and Tuolumne Rivers Groundwater Management Agency, a group of six jurisdictions that are affected by and jointly work to manage that water source. Chapter 9 and Appendix F in the DEIR provides information about the Proposed Project's effects on other groundwater wells in the area and supports the conclusion that those effects would be less than significant.

See the response to Comment B-3 for a discussion of potential sites previously explored and the analysis of alternatives for the Proposed Project.

Response to Comment H-7

During initial development of the Proposed Project and preparation of the DEIR, the City requested that well owners provide information about pumping levels and locations of their wells. The Well Inventory Maps, provided as Figures 9-4 and 9-5 of the DEIR, were created by the City's hydrogeological consultants based on publicly available information from the California Department of Water Resources' (DWR's) well database, which provides data on locations but not historical pumping rates. As explained on page 9-21 of the DEIR, the City attempted to verify this information, but most landowners were unwilling to cooperate with the City's investigation. CEQA requires the use of the best reasonably available information, and the City made use of such information in creating its maps and analyzing the data provided by DWR.

Response to Comment H-8

See the response to Comment B-3 for a discussion of potential sites previously explored and the analysis of alternatives for the Proposed Project.

Response to Comment H-9

The comment does not state a specific concern or question regarding the environmental impact analysis in the DEIR. Therefore, no further response to this comment is provided.

Comment Letter I – Cheri Barnes

Dear Ms Bryant:

The City's proposed addition of the two wells, each with a 1,000 per minute capacity, is much more than is necessary for the existing Del Rio community. Doubling the water capacity for the Del Rio area is quite unnecessary, considering a doubling of the population growth is highly unlikely due to California housing policies discouraging sprawl. Del Rio's surrounding property is "prime farmland", which needs to be considered in regards to outgrowth. I-1

The DEIR has shown impacts on air quality, and gas emissions as well as a possibility for overdraft of the groundwater aquifer. We live on property that relies solely on ground water and the possibility of depleting the groundwater aquifer is quite serious. Vance Kennedy, a well renowned hydrologist has been studying this issues and has written many articles dealing with this issue in the central valley. Many wells have gone dry from over pumping, not considering the time it takes to replenish the groundwater aquifer. I-2

To meet Del Rio's fire pressure needs, I believe the wells should be constructed at the originally-designated locations inside the Del Rio neighborhood per the 2010 West Yost report performed by the City's consultant, which is Alternative 1. Also, the EIR states that "Among the other alternatives considered, Alternative 1, construction at Existing City Well locations is considered the environmentally superior alternative. I-3

Thank you for your consideration.

Cheri Barnes
606 Hartley Dr.
Modesto, Ca.

Tamorah Bryant
City of Modesto
1010 Tenth Street
Modesto, Ca.95353

Re: Draft EIR Del Rio Tank and Wells Project

Dear Tamorah,

Please find enclosed some concerns with the Draft EIR on the proposed Del Rio Tank and Wells Project. We are somewhat perplexed that the proposed alternative #1 of the DEIR does not appear to be under serious consideration now. If it ever was. We were told that well site #271 (Country Club-Del Rio Avenue) had been exhausted as a viable well site and would be decommissioned. While there has been a detailed review of existing ground water sources and an analysis of potential ground water impact for the proposed project, commenced and performed by the Sacramento firm URS Corp to the best of their ability; to my knowledge there was no request for analysis at any of the existing well sites and their ability to be upgraded to meet demand requirements- why? Also, specifically Well Site #271. Why would this site be abandoned without due diligence in analysis of its ability to meet demand requirements if upgraded? The DEIR clearly states that ALT #1 (upgrading existing facilities) is the environmentally superior approach. J-1

While the whole project may be side-lined by the ongoing talks between Mayor Brandvold and the DRPOA for transfer of ownership of the Del Rio Water System, some of the following concerns in the draft DEIR need to be addressed. J-2

(1)Monitoring Wells

Who would collect the data from the three nesting monitoring wells proposed at both sites A and B? Would this data be automatically relayed to a central computer? If collected on site, how often? I believe that a report on the data acquired needs to be submitted in written form to the DRPOA within a year of activation either site A or B, and thereafter on an annual basis or any time the data would show a precipitous drop in J-3

ground water levels at either site. Also the various reports submitted by URS confuse to address the "shallow ground water table" as 100' to 265' below ground level, however our existing shallow water table level as sited by URS (May 15, 2015 report page 6) of their 3 monitoring sites on Ladd Road and Stewart Road report a static water level of approximately 45' – (46.35, 45.09, 44.74). The stated boundaries of our "shallow water zone" need to reflect this and need to be stated as elevation of approximately 45' below ground level to approximately 265' below ground level. J-3 cont.

(2) Aesthetics (or lack thereof) Site B

Aesthetics should be an integral part in the planning of any project. Too often, a utilitarian mindset prevails when planning such a project as the well development. This is always a short-sighted approach which leads to substantial lack of pride in the completed project and an incremental loss of pride in the community as a whole. "While there are no particular features on the site ….visual quality of Site (B) is considered moderate." The proposed facility, i.e. "painted concrete blocks ," would surely degrade the visual quality from "moderate" to "pathetic." Aside from pathetic, it would also be an invitation for Taggers. This is not acceptable. Please see attached photographs of the City of Modesto's existing water facility on Carpenter Road taken on Dec.16, 2016 Surely, a city that can spend $78,000 plus to house a traveling troupe of bikers for one night can do better than that. I believe that the concrete blocks used to construct the wall for MID Power Facility on Graphics Ave. are still available. Definitely, there is a need for trees to be planted along the front and two sides (North and South) to make this a less attractive target for graffiti taggers. To mitigate the inevitable the City needs to incorporate natural deterrents. Though I was unable to navigate the City of Modesto's website as to graffiti abatement, the City of Santa Anna Graffiti Mitigation Guidelines (please see attached) states, "landscaping should be considered an important design element in the mitigation of graffiti and graffiti related vandalism." They also go on to say that there are any number of steps that can, and should, be taken to mitigate graffiti issues, such as design elements and architectural treatments. What the city is proposing at Site B (painted masonry blocks) would leave a stain on our neighborhood and a decrease in our home values. The long-term effect of visual quality will only be "less than significant" if steps are taken to make it "less than significant,". J-4

(3) Areas of Known Controversy and Issues to be Resolved

The first item mentioned in this category is the possibility of an adverse impact to the approximately 300 year old Heritage Oak Tree located on the corner of Stewart and J-5

(page 2 of 4)

McHenry. Nowhere though, in the DEIR is there mention of any steps or guidelines to be established assuring this Heritage Oak from damage during the construction and operation of the well facility at Site B. Though I have been personally assured that no harm would come to this magnificent tree, this needs to be addressed in the final DIR. As a side note, years ago I invited the noted arborist and author, John M. Haller, to come out and evaluate this magnificent tree. It turns out that he was not only aware of this tree, but had written an article about this tree many years prior that was published in the Modesto Bee. In his words this tree is "One of the premiere specimens of the Valley Oak." At the time he estimated its age between 250 to 275 years old. This observation came from someone who devoted his life to trees and written numerous published articles and the comprehensive book on tree care titled "Tree Care" by Andel Publishing. This Heritage Oak tree has been the subject of paintings by art students and photographers. It deserves acknowledgment and protection in the final EIR. It is interesting to note that the Stanislaus Environmental Review Committee requested that the City of Modesto address the issue of Environmental Impact. The DEIR conveniently sidesteps any environmental visual impact of the proposed development by rating the existing Site B as "moderate" and ignoring the impact of an industrial eye sore next to this beautiful tree.

J-5 cont.

(4) Noise

While we are little concerned with any temporary noises generated during the construction process at Site B, we are definitely concerned about the potential long-term noise impacts on both the enjoyment of our home and our well being. One area that is especially concerning is the whining of a 200 h.p. conventional vertical shaft pump, almost in our backyard. This issue can, and should be dealt with by the installation of a submersible unit which would "virtually eliminate the sound source" (Item 1 page 11-31 of DEIR.) Why would the city pursue an after-the -fact solution to a known problem that can be dealt with effectively beforehand? There are any number of commercial, efficient and reliable submersible pump units that are more than able to operate within the parameters specified under the DEIR; such as the Grundfos SP Series Mdl. 140S capable of 220-1400 G.P.M. and heads up to 1,200 ft. This would be a far superior approach to noise attenuation than the noise mitigation proposed. We realize that other sources of potential noise intrusion, such as the stand-by generator would be mitigated by the proposed installation of sound-absorptive materials and sound-barrier panels. While this is good, we would ask that in all areas an effort be made to attenuate the

J-6

(page 3 of 4)

noise source rather than mitigate its impact. In addition to the proposed measures for generator sound mitigation we would hope that the following, along with other measures be implemented:

- isolation mounts
- primary and secondary exhaust silencers
- placement of stand-by generator as close to the east wall as feasible
- sand damping of the masonry blocks

J-6 cont.

(5) Growth Inducing Impacts

While this has not been addressed in the DEIR, it obviously falls under the category, "If you build it they will come."

J-7

As noted, this entire project might be side-lined by ongoing talks between the DRPOA and Mayor Brandvold concerning the transfer of ownership of our water system. We hope though, that if this project should proceed, that it is done with deliberation and consideration for all parties involved.

J-8

Sincerely,

Jim and Joani Matthews

Chapter 17

Graffiti Mitigation Guidelines

17.1 INTRODUCTION

The Graffiti Mitigation Guidelines are intended to assist site designers and developers in implementing the City's goals to prevent graffiti and reduce visual blight. This Chapter provides guidance in the development and rehabilitation of all residential, commercial and industrial sites. Graffiti Mitigation Guidelines should be incorporated into the design phase of a project to ensure a quality and graffiti-free development.

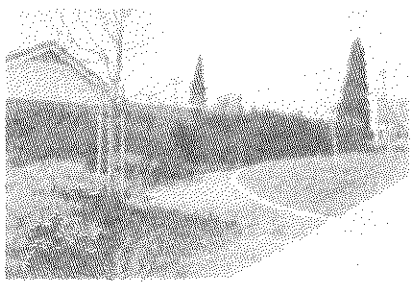

Figure 17-1: Increased landscaping provides coverage along blank walls and surfaces

17.2 GENERAL DESIGN OBJECTIVES

The objectives of these guidelines are to encourage well designed developments that:

- Utilize design features to reduce the opportunity for graffiti and associated vandalism.
- Incorporate graffiti mitigation measures in the design of new and rehabilitated development projects.
- Include graffiti mitigation measures, such as increased landscaping and lighting that complement the aesthetic character of the site.

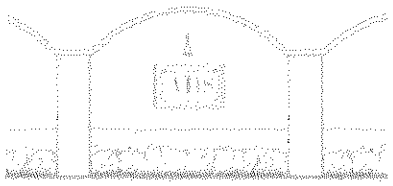

Figure 17-2: The planting of shrubs and use of architectural design discourage graffiti

17.3 GRAFFITI MITIGATION THROUGH ARCHITECTURAL DESIGN

The following building design and site improvements should be considered:

- Building facades should be articulated with architectural elements and details. Vertical and horizontal offsets should be provided to minimize large blank walls.
- Building walls should be improved with architectural treatments such as stacked stone or decorative accents to limit blank walls and open surfaces.

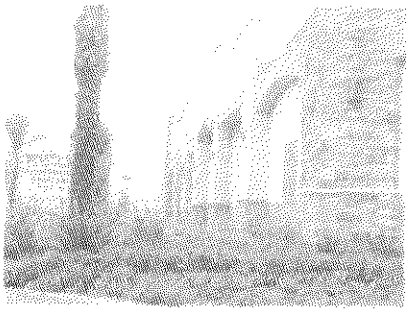

Figure 17-3: Architectural treatments such as stacked stone or natural stone are highly encouraged

- Avoid building designs that allow for easy roof access. Access to the roof should be from an interior location and method.
- All commercial or industrial store fronts should be improved with durable scratch-resistant glass or film to discourage vandalism.
- Long expanses of perimeter fencing or walls should be offset and architecturally designed to prevent monotony.
- The design of refuse, storage and equipment areas should incorporate landscaping to screen blank and open surfaces.
- Careful consideration should be placed on the location of refuse, storage and equipment enclosures in order to restrict accessibility to roof areas.

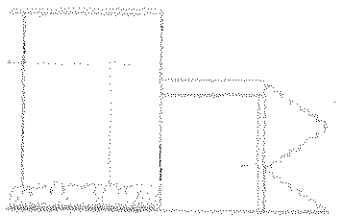

Figure 17-4: Avoid building designs that allow for easy roof access

17.4 LANDSCAPING

Landscaping should be considered an important design element in the mitigation of graffiti and graffiti related vandalism.

The following landscape design concepts should be utilized in all project design in order to minimize graffiti:

- Provide landscaping such as vines at regular intervals to screen blank building walls and perimeter fencing. The landscaping should be designated to provide substantial coverage of walls within a one-year period after installation.
- Recommended landscape vines include: Boston Ivy (Parthenocissus tricuspidata) and Fig Ivy(Ficus pumila)

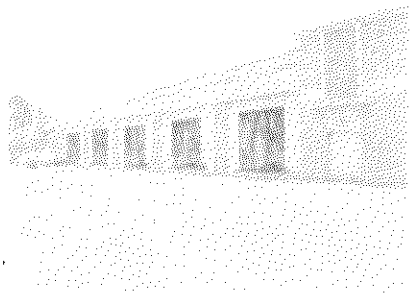

Figure 17.4: Example of landscape vines covering building wall screening.

- Shrubs which exhibit thorns may also be utilized to inhibit access to wall areas.
- The placement of planters and flower pots in building recesses and adjacent to blank walls is highly recommended.

17.5 Security Equipment

The use of security equipment as a graffiti mitigation measure is an important factor in the deterrence of graffiti.

17.5.1 Lighting

- Security lighting should be designed as a part of a comprehensive lighting plan.
- Security lighting should be provided around the perimeter of all buildings and parking areas.
- Security light fixtures and structural supports should be aesthetically compatible with the theme of the development.

Figure 17.5: Security lights should complement the architectural design of the building.

17.5.2 Motion Activated Systems

- The use of motion activated systems as a means to deter graffiti is highly recommended. Systems include water projection mechanisms that sense motion and exhibit water from dedicated sprinkler lines.

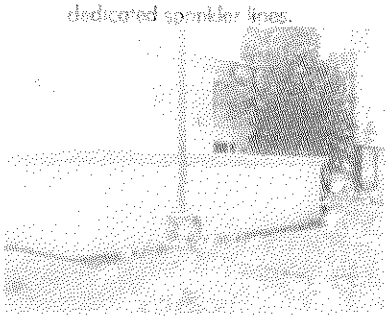

Figure 17.6: Motion activated systems are recommended in isolated areas in order to deter graffiti.

Response to Comment J-1

See the response to Comment B-3 for a discussion of potential sites previously explored and the analysis of alternatives for the Proposed Project.

Response to Comment J-2

The comment does not state a specific concern or question regarding the environmental impact analysis in the DEIR. Therefore, no further response to this comment is provided.

Response to Comment J-3

The monitoring wells installed as part of the Proposed Project would be maintained and monitored by the City or its designee. Wells would be monitored on a regular basis. After initial quarterly monitoring, the frequency would be reevaluated by the City. This information would be provided to the City Utilities Department and the Stanislaus County Department of Environmental Resources. These agencies would review the information periodically to ensure that no adverse effects of pumping were identified. Information about groundwater wells operated by the City, including groundwater monitoring wells, is publicly available on an annual basis through a report provided to the City Council by the City Utilities Department.

The boundaries of the shallow zone used in the model were determined based on the drill depths of existing wells in the area and the hydrogeological characteristics of the area. While the commenter is correct that the water table was identified at around 45 feet below ground surface during the 2015 study, the City and its hydrogeological consultant determined, based on this information, that a shallow zone from 100 feet is appropriate for representing potential impacts on existing shallow wells that may be screened in the upper geological formations.

Response to Comment J-4

The commenter expresses concern about the aesthetics of the concrete block wall proposed to screen the facilities at Site B from view. The City has met with neighbors of both sites to discuss their concerns regarding aesthetic and noise issues. Landscaping was not proposed for Site B because a substantial amount of vegetation is already present adjacent to the portion of the site visible from the adjacent residence, including an existing tree, which is discussed below.

The City also appreciates the commenter's suggestion to investigate the material used at the Modesto Irrigation District facility on Graphics Drive.

To further reduce the potential for vandalism and tagging, the City has modified the proposed project design to include the following features:

- During design of the facilities at Site B, the City would consider application of a graffiti overlay coat or other similar material to reduce the potential for vandalism of the concrete block wall.

These features have been added to the project description in the DEIR on page 2-13, "Site B – McHenry Avenue Well"; page 2-14, "Site Security"; and page 4-21, the Site B discussion of Impact AES-2, "Long-term Adverse Effects on the Visual Character or Quality of the Site and

its Surroundings during Operation." No change to this analysis or the significance of Impact AES-2 results from this addition.

Response to Comment J-5

Stanislaus County does not have a tree ordinance that would provide specific requirements about protection of Heritage trees. The City has a Street Tree Ordinance that applies only to trees along streets and in City-managed areas; this ordinance does not apply to the large live oak adjacent to Site B. Environmental impacts on plants under CEQA focus on potential damage to the survival or propagation of the plant, not on its aesthetic surroundings.

The live oak near Site B could provide bird nesting habitat, as stated in Chapter 6, *Biological Resources,* "Site B and Proposed Pipeline Alignment – Native and Ornamental Trees and Shrubs" (page 6-8) of the DEIR. As such, the tree would be included in Mitigation Measure BIO-5, "Conduct Preconstruction Surveys for Nesting Birds." With this mitigation, impacts of construction and operation of the Proposed Project on nearby plants and wildlife, including the live oak, would be less than significant.

Staging areas at or near Site B would be designated to store pipe, construction equipment, and other construction-related materials. As stated on page 2-16, staging areas would avoid areas of sensitive biological habitat. Construction staging outside of areas owned by the City would require permission of the property owner. To ensure that the live oak would not be adversely affected during project construction, the discussion of staging areas in Chapter 2, *Project Description,* has been revised to specifically exclude the area of the tree's dripline.

Response to Comment J-6

Chapter 11, *Noise and Vibration,* of the DEIR provides a thorough analysis of both short-term (construction-related) and long-term (operational) noise impacts of the Proposed Project. The commenter is "especially concerned about the whining of a 200 h.p. conventional vertical shaft pump." The City has discussed these concerns with the commenter in the past, and investigated the commenter's recommendation for the use of a submersible pump. Using a submersible pump would require the City to fully remove the pump in the event of a malfunction, leading to an extended period of nonoperation and a greater cost compared to a conventional pump, which could be inspected and repaired in place. For these reasons, the City determined that the use of a submersible pump was economically infeasible.

The City is committed to ensuring that operational noise levels near Site B are reduced to a less-than-significant level and welcomes additional input regarding methods to achieve this goal. Mitigation Measure NOISE-2 has been revised to include the City's willingness to meet with residents to discuss and investigate design solutions to reduce noise production at Site B. No change to the analysis or the significance of Impact NOISE-2 results from this addition.

Response to Comment J-7

See the response to Comment B-2 for a discussion of the basis of the Proposed Project, the areas served by the Proposed Project, and the exclusion of the water system improvements anticipated for future buildout from the Proposed Project.

Response to Comment J-8

The comment does not state a specific concern or question regarding the environmental impact analysis in the DEIR. Therefore, no further response to this comment is provided.

This page intentionally left blank

Chapter 4
REVISIONS TO THE DEIR

This chapter presents revisions to the DEIR in response to the public review and comment process. Changes made in response to comments are discussed in FEIR Chapter 3 and indicated below. Text added to the DEIR is underlined, and deleted text is shown in ~~strikeout~~. DEIR text changes are presented in the order they would appear in the DEIR, and page numbers are provided to assist in identifying the location of the revisions.

Executive Summary

Page ES-27, under Impact NOISE-3:

Impact	Level of Significance	Mitigation Measures
Noise		
Impact NOISE-3: Substantial Permanent Increase in Ambient Noise Levels	Less than Significant with Mitigation	▪ Mitigation Measure NOISE-2: Consider Design Solutions for Noise Reduction and Employ Noise-reducing Methods during Operations at Site B.

Page ES-13, in the paragraph that begins on page ES-12 under the heading "Site B – McHenry Avenue Well":

Site B – McHenry Avenue Well

Site B, located on McHenry Avenue, would encompass approximately 0.4 acre. The facilities at this site would consist of a production well and pump, standby generator, disinfection facilities, monitoring well, transmission pipelines connecting to the City's existing distribution system down McHenry Avenue, and space for a future treatment unit and treatment filters. These facilities would be fully enclosed by a 12-foot-tall concrete block wall with a 24-foot-wide vehicular access gate. During design of the facilities, the City would consider application of a graffiti overlay coat or other similar material to reduce the potential for vandalism of the concrete block wall. The site would be accessed from a new driveway off McHenry Avenue; no site access would be provided from Stewart Road. Site improvements would include a concrete pad and paved driveway, well and associated piping, controls, treatment facilities, generator, and appurtenances. Runoff from new impervious surfaces at Site B would be retained on site. Figure 2-3 provides a site plan of the Site B facilities.

Page ES-16, second paragraph, under the heading "Staging Areas":

Staging Areas: Staging areas would be needed to store pipe, construction equipment, and other construction-related materials. Staging areas would likely be established at Sites A and B or along the pipeline routes where space is available within the road right-of-way or in vacant lots. Staging areas would avoid areas of sensitive biological habitat and would specifically avoid affecting the area within the dripline of the live oak adjacent to Site B. The City would reserve the authority to approve the locations of the staging areas as part of the contracts for construction of the facilities.

Chapter 2, *Project Description*

Page 2-13, in the paragraph that begins on page 2-12 under the heading "Site B – McHenry Avenue Well":

Site B – McHenry Avenue Well

Site B, located on McHenry Avenue, would encompass approximately 0.4 acre. The facilities at this site would consist of a production well and pump, standby generator, disinfection facilities, monitoring well, transmission pipelines connecting to the City's existing distribution system down McHenry Avenue, and space for a future treatment unit and treatment filters. These facilities would be fully enclosed by a 12-foot-tall concrete block wall with a 24-foot-wide vehicular access gate. During design of the facilities, the City would consider application of a graffiti overlay coat or other similar material to reduce the potential for vandalism of the concrete block wall. The site would be accessed from a new driveway off McHenry Avenue; no site access would be provided from Stewart Road. Site improvements would include a concrete pad and paved driveway, well and associated piping, controls, treatment facilities, generator, and appurtenances. Runoff from new impervious surfaces at Site B would be retained on site. Figure 2-3 provides a site plan of the Site B facilities.

Page 2-16, last paragraph, under the heading "Staging Areas":

Staging Areas: Staging areas would be needed to store pipe, construction equipment, and other construction-related materials. Staging areas would likely be established at Sites A and B or along the pipeline routes where space is available within the road right-of-way or in vacant lots. Staging areas would avoid areas of sensitive biological habitat and would specifically avoid affecting the area within the dripline of the live oak adjacent to Site B. The City would reserve the authority to approve the locations of the staging areas as part of the contracts for construction of the facilities.

Chapter 4, *Aesthetics*

Page 4-21, second full paragraph, under the heading "Site B":

Site B

Figure 4-6 shows an existing view and a simulated view of the proposed 12-foot-tall concrete wall and 24-foot-wide gate surrounding the well and pump facilities at Site B from McHenry Avenue. The facility wall would be constructed of concrete blocks painted in an earth-tone tan color. During design of the facilities, the City would consider application of a graffiti overlay coat or other similar material to reduce the potential for vandalism of the concrete block wall. The wall would be approximately 75 feet long and 65 feet wide. LED lighting, security cameras, and alarms would be installed outside of the building. A paved driveway connecting to McHenry Avenue would also be visible from McHenry Avenue. No trees would be removed and no landscaping is proposed at the site, aside from hydroseeding or planting of the retention basin slopes.

Chapter 11, Noise and Vibration

Page 11-30, fifth paragraph and Mitigation Measure NOISE-2:

The Program EIR prescribed Mitigation Measure NOISE-3: *Employ Noise-reducing Methods during Operations* to reduce impacts to a less-than-significant level. This mitigation measure has been modified to ensure that operational impacts associated with the Proposed Project would comply with the County's Municipal Code and the City's Code of Ordinances noise standards, reducing unmitigated noise levels from 71 dBA at 23 feet to 48 dBA at 30 feet. Therefore, with implementation of **Mitigation Measure NOISE-2 (Consider Design Solutions for Noise Reduction and Employ Noise-reducing Methods during Operations at Site B),** this impact would be **less than significant.** This measure would not apply to Site A, where project impacts would be less than significant.

Mitigation Measure NOISE-2: Consider Design Solutions for Noise Reduction and Employ Noise-reducing Methods during Operations at Site B.

Before final design of the pump facility at Site B, the City shall meet with nearby residents to consider possible design solutions for noise reduction and shall consider any such options that are deemed feasible. Design solutions to be considered may include one or more of the following:

- Isolation mounts,
- Primary and secondary exhaust silencers,
- Placement of stand-by generator as close to the east wall as feasible, and
- Sand damping of masonry blocks.

The City shall implement these and/or other noise-reducing methods so that noise from well operations at Site B, located at the corner of McHenry Avenue

and Stewart Road, does not exceed County noise-level standards at adjacent residences. Measures to be implemented shall include the following: [...]

Appendix H, Mitigation Monitoring and Reporting Plan

Page H-18, Mitigation Measure NOISE-2:

Mitigation Measure NOISE-2: Consider Design Solutions for Noise Reduction and Employ Noise-reducing Methods during Operations at Site B.

Before final design of the pump facility at Site B, the City shall meet with nearby residents to consider possible design solutions for noise reduction and shall consider any such options that are deemed feasible. Design solutions to be considered may include one or more of the following:

- Isolation mounts,
- Primary and secondary exhaust silencers,
- Placement of stand-by generator as close to the east wall as feasible, and
- Sand damping of masonry blocks.

The City shall implement these and/or other noise-reducing methods so that noise from well operations at Site B, located at the corner of McHenry Avenue and Stewart Road, does not exceed County noise-level standards at adjacent residences. Measures to be implemented shall include the following: [...]

EXHIBIT "D"

MITIGATION MONITORING AND REPORTING PROGRAM

MITIGATION MONITORING AND REPORTING PROGRAM SUMMARY TABLE

The following mitigation monitoring and reporting program (MMRP) summary table includes the mitigation measures identified in the City of Modesto's (City's) Del Rio Tank and Wells Project Environmental Impact Report (EIR) and the Final Program Environmental Impact Report (Program EIR) for the Water System Engineer's Report (City of Modesto 2010). Mitigation measures from the Program EIR are designated with "P-." For each mitigation measure, this table identifies monitoring and reporting actions that shall be carried out and the monitoring schedule. This table also includes a column where responsible parties can check off monitoring and reporting actions as they are completed.

As lead agency, the City will be responsible for ensuring that mitigation measures identified in this EIR are fully implemented. However, some mitigation measures would be implemented by the contractor(s) on behalf of the City. Contract documents for the proposed project will identify the obligations of the contractor, including relevant mitigation measures. The City will require that the contractor provide the City with documentation that it has adequately implemented its contractual obligations, including applicable mitigation measures.

Thus, in the descriptions of the mitigation measures provided in the table which follows, while the City may be the only party referenced in implementing a mitigation measure (i.e., where the measure states "the District shall"), this is intended to be inclusive of the contractor's role in implementing certain mitigation measures during construction or as part of design.

ACRONYMS AND ABBREVIATIONS USED IN MMRP

ASTM	American Society for Testing Materials
CDFG	California Department of Fish and Game
CDFW	California Department of Fish and Wildlife
CEQA	California Environmental Quality Act
City	City of Modesto
CRHR	California Register of Historical Resources
dBA	A-weighted decibels
DEIR	draft environmental impact report
EIR	environmental impact report
EPA	Environmental Protection Agency
MLD	Most Likely Descendant
MMRP	mitigation monitoring and reporting program
NAHC	Native American Heritage Commission
PRC	Public Resources Code
TCR	tribal cultural resource
USFWS	U.S. Fish and Wildlife Service

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
Aesthetics				
AES-1	**Locate Staging Areas Away from Public Areas.** Construction staging areas for equipment, personal vehicle parking, and material storage shall be sited as far as possible from residences, major roadways, and public areas. The City contract specifications shall require that staging areas be identified in the documents prepared by construction contractors and subject to approval by the City. The City shall not approve staging areas that are not sited as described above.	▪ Confirm that construction staging area requirements are incorporated into the contract specifications ▪ Designate location of staging areas in contract specifications	▪ During preparation of contract specifications ▪ Before construction begins	
AES-2	**Screen Staging and Construction Areas.** The construction contract shall specify that staging areas be located where opportunities for screening with existing topography and vegetation will be maximized. Security fencing placed around staging and construction areas shall include slats or other screening sufficient to hide the area from the passing public. Screens used for this purpose shall be of an earth tone or other appropriate neutral color.	▪ Confirm that staging area screening requirements are incorporated into the construction specifications ▪ Confirm that screening requirements are implemented properly.	▪ Before construction begins ▪ During construction	
Air Quality				
SJVAPCD AIR-1	**Note: Impact AIR-1 was deemed less than significant due to required implementation of SJVAPCD Regulation VIII Control Measures for Construction Emissions of PM 10.** Implementation of SJVAPCD required dust control measures are required under Regulation VIII. Implementation of these measures, as well as the enhanced control measures, is already required under the Program EIR.	▪ Confirm that disturbed areas are stabilized ▪ Confirm all on-site unpaved roads are effectively stabilized ▪ Confirm materials transported off site are	▪ Before construction begins ▪ During construction	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
		covered or effectively wetted and at least 6-inches of freeboard space maintained ▪ Confirm all exterior surfaces of buildings being demolished are wetted during demolition ▪ Confirm trackout is prevented or removed.		
SJVAPCD AIR-2	**Note: Impact AIR-2 was deemed less than significant due to required implementation of SJVAPCD Regulations to control particulates and fugitive dust.** Construction practices should control particulates and fugitive dust to minimize exposure. In addition to the PM10 measures discussed in SJVAPCD AIR-1, implementation of best management practices should include use of late model engines, low-emission diesel products, alternative fuels, engine retrofit technology, after-treatment products, add-on devices such as particulate filters, and or other options.	▪ Confirm that BMPs are in place to control particulates and minimize exposure	▪ Before construction begins ▪ During construction	
SJVAPCD AIR-3	**Note: Impact AIR-3 was deemed less than significant due to required implementation of SJVAPCD Regulations to limit operational emissions of criteria pollutants and precursors.** Construction practices should limit activities that emit criteria pollutants, such as vehicle trips. The SJVAPCD's small project level guidance states that activities generating fewer than 1,506 trips per day are assumed to have a less than	▪ Confirm that planned activities will generate less than 1,506 trips per day	▪ During construction	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	significant impact on air quality.			
Biological Resources				
BIO-1	**Avoid and Protect Burrowing Owls at Site A.** Because some burrows that could be used by Burrowing Owls were noted during field surveys at Site A, and in conformance with federal and state regulations regarding the protection of raptors, the City shall hire a qualified biologist to conduct a preconstruction survey(s) for Burrowing Owls within a 250-foot buffer around the project site, in conformance with accordance with protocols established in the Staff Report on Burrowing Owl Mitigation (CDFG 2012 or current version), and prior to the start of construction. If no Burrowing Owls are located during these surveys, no additional action is warranted. However, if breeding or resident owls are located on or within 250 feet of Site A, the following measures shall be implemented. ▪ No Burrowing Owls will be evicted from burrows during the nesting season (February 1 through August 31). Eviction outside the nesting season may be permitted following evaluation of eviction plans and receipt of formal written approval from CDFW authorizing the eviction. ▪ A 250-foot buffer, within which no new activity is permissible, shall be maintained between project activities and nesting Burrowing Owls. This protected area will remain in effect until August 31 or, at CDFW's discretion (based upon monitoring evidence), until the young owls are foraging independently.	▪ Retain qualified biologist to conduct survey. ▪ Confirm that preconstruction survey is conducted in accordance with this mitigation measure. ▪ If Burrowing Owls are found within 250 feet of Site A, establish buffer and avoid new activity in the area.	▪ Before construction ▪ Before construction ▪ During construction as necessary	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
BIO-2	**Compensate for Loss of Burrowing Owl Habitat at Site A.** If a preconstruction survey finds that Burrowing Owls occupy Site A, and avoiding construction in occupied areas is not feasible, then the City shall implement habitat compensation on off-site mitigation lands, or shall purchase mitigation bank credits from a mitigation bank approved by CDFW. If mitigation credits are not purchased, habitat management lands comprising existing Burrowing Owl foraging and breeding habitat will be acquired and preserved. An area of 6.5 acres (the amount of land found to be necessary to sustain a pair or an individual owl) will be secured for each pair of owls or for an individual, in the case of an odd number of birds. Relocation of owls shall only be implemented during the non-breeding season. As part of an agreement with CDFW, the City shall provide CDFW with security for the performance of its mitigation duties in the form of funds that will: ▪ allow for the acquisition and preservation of 6.5 acres of habitat management lands for each pair of owls or unpaired resident single owl; ▪ provide initial protection and enhancement activities on the habitat management lands, potentially including such measures as fencing, trash cleanup, artificial burrow creation, grazing or mowing, and any habitat restoration deemed necessary by CDFW; ▪ establish an endowment for the long-term management of the habitat management lands; and ▪ reimburse CDFW for reasonable expenses incurred as a	▪ Consult with CDFW and confirm whether purchasing mitigation bank credits or off-site mitigation option shall be pursued. ▪ If mitigation bank credits are not available, establish an agreement with CDFW regarding the appropriate amount of funds that should be set aside for the project's mitigation. ▪ Submit appropriate funds to CDFW consistent with the agreement made with CDFW	▪ Before construction ▪ Before or during construction, as necessary ▪ Before or during construction, as necessary	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	result of the approval and implementation of this agreement.			
BIO-3	**Compensate for Loss of Swainson's Hawk Foraging Habitat.** To mitigate for the loss of potential Swainson's Hawk foraging habitat, the City shall provide off-site habitat management lands, as described in the CDFW protocol for the mitigation of impacts on Swainson's hawks in the Central Valley (CDFG 1994), or by purchasing credits at a CDFW-approved Swainson's Hawk foraging habitat mitigation bank that covers the Proposed Project area, such as the Dutchman Creek Conservation Bank. The City shall determine the final acreage of off-site management lands or mitigation bank credits to be provided based on the distance between the project area and the nearest active nest site, as stated in the CDFW protocol (CDFG 1994). Mitigation credits would follow the same ratio guidelines as off-site management lands. Prior to the grading of any site with potential foraging habitat, the City shall hire a qualified biologist to conduct protocol-level surveys to determine the location of the nearest active nest. Based on these surveys, the City shall compensate for losses in compliance with the protocol for the mitigation of impacts on Swainson's hawks in the Central Valley (CDFG 1994), as follows: ▪ Projects within 1 mile of an active nest tree shall provide: – 1 acre of habitat management land for each acre of development authorized (1:1 ratio), at least 10% of which shall be met by fee title acquisition or a	▪ Consult with CDFW and confirm whether purchasing mitigation bank credits or off-site mitigation option shall be pursued. ▪ If mitigation credits are available and acceptable to CDFW, purchase the appropriate number of credits from the mitigation bank in accordance with the CDFW protocol. ▪ If off-site management lands are pursued, hire a qualified biologist to conduct protocol-level surveys for Swainson's hawk nests in the project vicinity. ▪ If off-site management lands are pursued, mitigate for those losses consistent with the ratios stated in the mitigation measure and through consultation with CDFW. Protect habitat management lands by acquiring a fee title or	▪ Before construction ▪ Before or during construction, as necessary ▪ Before or during construction, as necessary ▪ Before or during construction, as necessary	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	conservation easement allowing for the active management of the habitat, with the remaining 90% protected by a conservation easement acceptable to CDFW on agricultural lands or other suitable habitats that provide foraging habitat for Swainson's Hawk; or – 0.5 acre of habitat management land for each acre of development authorized (0.5:1 ratio), all of which shall be met by fee title acquisition or a conservation easement acceptable to CDFW that allows for the active management of the habitat for prey production on the habitat management lands. * Projects within 5 miles of an active nest tree but greater than 1 mile from the nest tree shall provide 0.75 acre of habitat management land for each acre of urban development authorized (0.75:1 ratio). All habitat management lands protected under this requirement may be protected through fee title acquisition or conservation easement on agricultural lands or other suitable habitats that provide foraging habitat for Swainson's Hawks. ▪ Projects within 10 miles of an active nest tree but greater than 5 miles from an active nest tree shall provide 0.5 acre of habitat management land for each acre of urban development authorized (0.5:1 ratio). All habitat management lands protected under this requirement may be protected through fee title acquisition or conservation easement acceptable to CDFW on agricultural lands or other suitable habitats that provide	establishing a conservation easement.		

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	foraging habitat for Swainson's Hawks.			
	Management Authorization holders/project sponsors shall provide for the long-term management of the habitat management lands by funding a management endowment (the interest on which shall be used for managing the habitat management lands). If mitigation credits are purchased, long term management would be the responsibility of the mitigation bank.			
BIO-4	**Conduct Preconstruction Surveys for Swainson's Hawk Nests.** To ensure that nesting Swainson's Hawks will not be disturbed by construction activities, the City will hire a qualified ornithologist to conduct preconstruction surveys of the Proposed Project sites and adjacent areas within 1 mile of Sites A and B. No fewer than three surveys will be completed in at least each of the two survey periods immediately prior to project initiation, according to this schedule, based on Recommended Timing and Methodology for Swainson's Hawk Nesting Surveys in California's Central Valley (Swainson's Hawk Technical Advisory Committee 2000): ▪ Survey Period I occurs from January 1 to March 20; ▪ Period II from March 20 to April 5; ▪ Period III from April 5 to April 20; ▪ Period IV from April 21 to June 10 (surveys are not recommended during this period because identification	▪ Retain a qualified ornithologist to conduct preconstruction surveys. ▪ Complete preconstruction surveys within the time period outlined in the mitigation measure. ▪ In the event that nest is found, halt construction and contact CDFW to confirm how to proceed.	▪ Before construction ▪ Before construction ▪ Before construction	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	is difficult, as the adults tend to remain within the nest for longer periods of time); and ▪ Period V from June 10 to July 30. If a nest site is found, no construction work shall commence until after the City engages in consultation with CDFW and CDFW-approved measures are implemented. As a performance standard, the measures implemented shall ensure that project initiation will not result in nest disturbance.			
BIO-5	**Conduct Preconstruction Surveys for Nesting Birds.** The City shall require that construction will be avoided during the nesting season (generally between February 1 and August 31), where practical. If construction activities cannot be avoided during the nesting season, a qualified biologist will conduct a preconstruction survey within 500 feet of the construction area to determine whether active nests are present on the site. The survey will be conducted no more than 30 days prior to construction. If the biologist determines that the area surveyed does not contain any active nests, then construction activities can commence without any further mitigation. If active nests are found, CDFW and USFWS will be notified and Mitigation Measure BIO-6 will be implemented.	▪ Retain a qualified biologist to conduct preconstruction surveys. ▪ Complete surveys at least 30 days before construction. ▪ If active nests are found during the surveys, contact CDFW and USFWS	▪ Before construction ▪ Before construction ▪ Before construction	
BIO-6	**Avoid and Minimize Impacts on Nesting Raptors and Other Migratory Birds.** To avoid disturbing any active migratory bird nests, the City shall require that construction activities will be conducted during the non-breeding season for these species (generally	▪ If active nests are found during implementation of Mitigation Measure BIO-5, limit construction activities to the general non-breeding	▪ During construction ▪ During construction	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	between September 1 and January 31). If active nests are present on or adjacent to either of the Proposed Project sites, CDFW and USFWS will be notified. If active migratory bird nests are present and construction cannot be avoided during the breeding season, construction will not occur within 500 feet of an active nest until the young have fledged, as determined by a qualified biologist, or until the project applicant receives written authorization from CDFW and USFWS to proceed.	season (September 1 to January 31). ▪ Contact CDFW and USFWS if active nests are present on or near construction work areas. ▪ If active nests are present and cannot be avoided during the breeding season (February 1 to August 31), establish 500-foot buffer around active nest.	▪ During construction	
BIO-7	**Protect Bat Colonies.** The following measures shall be implemented to avoid and minimize impacts on bats: ▪ Prior to removal of structures, the City shall hire a qualified bat biologist familiar with bat biology and ecology to assess structures to be removed for potential, active bat habitat. If the biologist determines that bats are not actively occupying the structures based on professional opinion following appropriate survey protocols, then the structures may be removed. ▪ For structures identified by the qualified biologist to be actively occupied by bats, removal of the structures shall not occur between April 15 and August 31 to avoid the bat maternity season, ▪ Demolition of structures shall be preceded by either humane eviction, phased dismantling, and/or deterrent	▪ Retain a qualified bat biologist to conduct surveys prior to removal of structures at Site A. ▪ Bat biologist shall conduct surveys of structures. ▪ If structures are occupied, ensure that removal of structures occur between September 1 and April 14 (outside of bat maternity season). ▪ Ensure demolition activities take place consistent with Mitigation Measure BIO-7.	▪ Before construction ▪ Prior to removal of structures ▪ During construction ▪ During construction ▪ During construction	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	methods to prevent direct mortality.			
Cultural Resources				
CR-1	**Suspend Construction Immediately if Cultural Resources Are Discovered, Evaluate All Identified Cultural Resources for CRHR Eligibility, and Implement Appropriate Mitigation Measures for Eligible Resources.** Not all cultural resources are visible on the ground surface. As a result, before initiation of ground-disturbing activities, the City or its designee shall arrange for construction crews to receive training about the kinds of archaeological materials that could be present at the Proposed Project site and the protocols to be followed should any such materials be uncovered during construction. Training shall be conducted by an archaeologist who meets the U.S. Secretary of the Interior's professional standards. Training shall be required during each phase of construction to educate new construction personnel. If any cultural resources, including structural features, unusual amounts of bone or shell, flaked or ground stone artifacts, historic-era artifacts, human remains, or architectural remains, are encountered during Proposed Project construction activities, work shall be suspended immediately at the location of the find and within a radius of at least 50 feet and the City will be contacted. All cultural resources uncovered during construction within the Proposed Project site shall be evaluated for eligibility for inclusion in CRHR. Resource evaluations shall be conducted by individuals who meet the U.S. Secretary of the Interior's	▪ Retain qualified archaeologist or City staff person to conduct worker training. ▪ Halt construction activities in the event any cultural resources are encountered. ▪ If cultural resources are uncovered, retain a qualified individual who meets the U.S. Secretary of the Interior's standards to conduct resource evaluations. ▪ If uncovered resources meet eligibility criteria, implement mitigation measures consistent with Guidelines Section 15126.4(b). ▪ If TCR or any other resources eligible for listing in the CRHR are encountered, implement additional measures in accordance with Mitigation Measure CR-1.	▪ Prior to construction ▪ During construction ▪ During construction ▪ During construction ▪ During construction	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	professional standards in archaeology, history, or architectural history, as appropriate. If any of the resources meet the eligibility criteria identified in PRC Section 5024.1 or CEQA Guidelines Section 21083.2(g), mitigation measures will be developed and implemented in accordance with CEQA Guidelines Section 15126.4(b) before construction resumes. For a TCR or any resources eligible for listing in the CRHR that would be significantly adversely affected by the Proposed Project construction, additional mitigation measures shall be implemented. Mitigation measures for archaeological resources may include (but are not limited to) avoidance; incorporation of sites within parks, greenspace, or other open space; capping the site; deeding the site into a permanent conservation easement; or data recovery excavation. Mitigation measures for archaeological resources shall be developed in consultation with responsible agencies and, as appropriate, interested parties such as Native American tribes. Native American consultation is required if an archaeological site is determined to be a TCR. Implementation of the approved mitigation is required before resuming any construction activities with the potential to affect identified eligible resources at the site.			
CR-2	**Suspend Construction Immediately if Paleontological Resources Are Discovered, Evaluate the Significance of the Resources, and Implement Appropriate Mitigation Measures as Necessary.** Paleontological resources are not necessarily visible on the ground surface. As a result, before initiation of ground-disturbing activities, construction crews shall receive training about the kinds of paleontological materials that could be	▪ Retain a qualified paleontologist to conduct worker training. ▪ In the event a paleontological item is discovered, halt construction activities within 50 feet of discovery site and	▪ Prior to construction ▪ During construction ▪ During construction	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	present at the Proposed Project site and the protocols to be followed should such materials be uncovered during construction. Training shall be conducted by a professional paleontologist. Training shall be required during each phase of construction to educate new construction personnel. If any items of paleontological interest are discovered during construction, work shall be suspended immediately within 50 feet of the discovery site, or to the extent needed to protect the site, and the City shall be notified. Any discovery of paleontological resources during construction shall be evaluated by the qualified paleontologist. If it is determined that the Proposed Project could damage a unique paleontological resource, mitigation shall be implemented in accordance with PRC Section 21083.2 and CEQA Guidelines Section 15126.4. If avoidance is not feasible, the paleontologist shall develop a treatment plan in consultation with the City. Work shall not be resumed until authorization is received from the City and any recommendations received from the qualified paleontologist are implemented.	notify the City. ▪ Ensure that qualified paleontologist evaluates the discovery and, in the event the project could damage the resource, implement mitigation in accordance with Mitigation Measure CR-2 and consult with the City as necessary.		
CR-3	**Halt Construction Immediately if Human Remains Are Discovered and Implement Applicable Provisions of the California Health and Safety Code.** If human remains are discovered during construction activities, the requirements of Section 7050.5 of the California Health and Safety Code shall be followed. Potentially damaging excavation shall halt on the Proposed Project site within a minimum radius of 100 feet of the remains and the County Coroner shall be notified. The	▪ Confirm that measure is included in project plans and specifications. ▪ In the event that human remains are encountered, halt work and contact the Stanislaus County Coroner. ▪ Confirm that any discoveries of human remains are	▪ During preparation of plans and specifications ▪ During construction ▪ During construction	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	Coroner is required to examine all discoveries of human remains within 48 hours of receiving notice of a discovery on private or state lands (Health and Safety Code Section 7050.5[b]). If the Coroner determines that the remains are those of a Native American, he or she must contact the NAHC by phone within 24 hours of making that determination (Health and Safety Code Section 7050[c]). In accordance with the provisions of PRC Section 5097.98, the NAHC shall identify a Most Likely Descendent (MLD). The MLD designated by the NAHC shall have at least 48 hours to inspect the site and propose treatment and disposition of the remains and any associated grave goods. The City or its designee shall work with the MLD to ensure that the remains are removed to a protected location and treated with dignity and respect.	evaluated and addressed properly.		
CR-4	**Prepare and Implement Treatment Plans for any TCRs Identified in the Proposed Project Study Area.** If TCRs are identified in the Proposed Project study area, the City shall consult and work with tribes with a traditional and cultural affiliation to the resource to develop feasible alternatives that will avoid impacts or develop and implement treatment plans that will substantially lessen the impacts on identified TCRs, in accordance with PRC Sections 21083(b)(2) or 21084.3.	▪ Confirm that measure is included in project plans and specifications. ▪ In the event that TCRs are identified, consult with tribes with a traditional and cultural affiliation to the resource and implement treatment plans if necessary.	▪ During preparation of plans and specifications ▪ During construction	
Geology, Soils, and Seismicity				
P-GEO-1	**Conduct project-specific geotechnical investigation prior to construction.** During project design, project-specific geotechnical	▪ Retain a registered engineer to prepare a geotechnical investigation and report for	▪ During the initial design phase ▪ During	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	investigations and reports will be prepared by registered engineers to detect site conditions that could result in liquefaction, construction on expansive soils, or other potential hazards and to identify appropriate design requirements that would prevent damage to structures. Site-specific geological data and recommendations by a registered engineer will be incorporated into project design, thereby reducing any impacts due to liquefaction.	the project. ▪ Incorporate site-specific data and recommendations from the report into project design to minimize impacts related to liquefaction.	preparation of plans and specifications	
Global Climate Change				
None				
Groundwater				
None				
Hazards and Hazardous Materials				
P-HAZ-1	Prepare a risk assessment prior to construction activity. Prior to the commencement of construction activities, the City or its contractor will prepare a risk assessment and establish procedures to address the identification, excavation, handling, and disposal of hazardous materials in accordance with ASTM Standard 1527-05, "Standard Practice for Environmental Site Assessments: Phase I Environmental Site Assessment Process" and the EPA "All Appropriate Inquiries" standards and practices (40 CFR 312). An environmental database search of regulatory-listed hazardous materials sites contained in local, regional, state, and federal databases for the program site and within a 0.5-mile radius of the site will be performed by a qualified	▪ Retain a qualified contractor to conduct a Phase I environmental site assessment. ▪ Incorporate recommendations from the Phase I report in the project plans and specifications. ▪ Ensure that the contractor implements risk assessment recommendations and ensure corrective action if necessary.	▪ Prior to construction ▪ During preparation of plans and specifications ▪ During construction ▪ During construction	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	professional as part of this assessment. If contaminated soil or groundwater is encountered, the City will notify the appropriate local environmental management agencies and local fire departments. The City will ensure that any identified environmental site conditions that may represent a risk to public health and safety will be remediated in accordance with federal, state, and local environmental laws and regulations. All recommendations in the risk assessment will be implemented by the City and all its representatives, including contractors and earthwork construction workers, such that people are not exposed to adverse conditions on the program site as a result of discovering existing sources of contamination.	▪ Notify appropriate local environmental agencies fire departments in the event that contaminated soil or groundwater is encountered and remediate in accordance with federal, state and local laws and regulations.		
P-HAZ-2	**Control contamination resulting from previously unidentified hazardous waste materials.** Prior to the onset of construction, all construction workers will be trained in the identification of potentially contaminated soil and water, including the characteristics of potential contamination, such as discolored soil, oils or sheens on water, and unusual odors. In the event that hazardous materials are encountered during construction, all construction activities in the area of the discovery will stop, and the City or its contractors will conduct hazardous materials investigations to identify the nature and extent of contamination and evaluate potential impacts on program construction. If necessary, the City or its contractors will implement remediation measures consistent with all applicable local, state, and federal codes and regulations. Construction will not resume until remediation is complete. If waste disposal is necessary, the City will ensure that all	▪ Confirm that measure is included in project plans and specifications. ▪ Conduct worker training. ▪ Halt construction in the event that hazardous materials are encountered. ▪ As necessary, implement remediation measures and transport hazardous materials to an appropriately-licensed and permitted facility.	▪ During preparation of plans and specifications ▪ Prior to construction ▪ During construction ▪ During construction	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	hazardous materials removed during construction are handled and disposed of by a licensed waste-disposal contractor and are transported by a licensed hauler to an appropriately-licensed and permitted disposal or recycling facility, in accordance with local, state, and federal requirements.			
Land Use and Planning				
None				
Noise and Vibration				
NOISE-1	**Employ Noise-reducing Construction Practices.** The following measures shall be implemented by the City or its contractor to reduce adverse effects from construction noise: ▪ At least two weeks prior to the start of construction, provide written notification to the potentially affected property owners and residents within 500 feet of the project site, identifying the type, duration, and frequency of construction activities to residences directly exposed to the project noise. Notification of heavy construction activities shall include anticipated dates and hours during which construction activities are anticipated to occur. Notification materials shall also identify a mechanism for residents to register complaints with the City through contact information, including a daytime telephone number, for the project representative to be contacted in the event that construction noise levels are deemed excessive, overly intrusive or construction occurs outside the permitted hours. Recommendations to assist noise-	▪ Confirm that measure is included in project plans and specifications. ▪ Notify property owners and residents within 500 feet of project site about construction activities and schedule. ▪ Designate a noise disturbance coordinator and ensure that this person's contact information is posted around the project site. ▪ Comply with noise minimization measures outlined in Mitigation Measure NOISE-1.	▪ During preparation of plans and specifications ▪ At least 2 weeks prior to construction ▪ During construction ▪ During construction ▪ During construction	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	sensitive land uses in reducing interior noise levels (e.g., closing windows and doors) shall be included in the notification. ▪ Designate a disturbance coordinator and conspicuously post this person's number around the project sites, in adjacent public spaces, and in construction notifications. The disturbance coordinator shall be responsible for responding to any complaints about construction activities. The disturbance coordinator shall receive all public complaints about construction disturbances and be responsible for determining the cause of the complaint and implementation of feasible measures to be taken to alleviate the problem. ▪ Locate stationary or fixed construction equipment (e.g., compressors and generators), construction staging and stockpiling areas, and construction vehicle routes as far as feasible from noise-sensitive receptors. ▪ Prohibit the start-up of machines or equipment before 7 a.m. and after 7 p.m. Monday through Saturday and before 9 a.m. and after 5 p.m. on Sunday. ▪ Prohibit use of materials and equipment deliveries before 7 a.m. and after 7 p.m., Monday through Saturday and before 9 a.m. and after 5 p.m. on Sunday. ▪ Restrict the use of bells, whistles, alarms, and horns to safety-warning purposes. ▪ Equip all construction equipment with noise-reduction devices such as mufflers to minimize construction noise and operate all internal combustion engines with	▪ Ensure corrective action as necessary.		

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	exhaust and intake silencers. ▪ Use noise-reducing enclosures around stationary noise generating equipment. ▪ To the extent feasible, the simultaneous operation of multiple construction equipment shall be limited. ▪ Install temporary barrier between noise sources and noise sensitive receptors, or the use of intervening structures (i.e.; on-site construction trailer, stockpiles).			
NOISE-2	**Consider Design Solutions for Noise Reduction and Employ Noise-reducing Methods during Operations at Site B.** Before final design of the pump facility at Site B, the City shall meet with nearby residents to consider possible design solutions for noise reduction and shall consider any such options that are deemed feasible. Design solutions to be considered may include one or more of the following: ▪ Isolation mounts, ▪ Primary and secondary exhaust silencers, ▪ Placement of stand-by generator as close to the east wall as feasible, and ▪ Sand damping of masonry blocks. The City shall implement these and/or other noise-reducing methods so that noise from well operations at Site B, located at the corner of McHenry Avenue and Stewart Road, does not exceed County noise-level standards at adjacent residences. Measures to be implemented shall include the	▪ Meet with residents to discuss noise-reducing design solutions. ▪ Investigate suggestions to identify feasible design options. ▪ Include feasible design options in pump facility design. ▪ Incorporate noise-reducing measures into the project's generator and pump enclosure design requirements. ▪ Retain a qualified acoustical consultant to assist with preparing the project's generator and pump enclosure and sound wall	▪ Before final design of the pump facility. ▪ Before final design of the pump facility. ▪ Before final design of the pump facility. ▪ Before final design of the pump facility. ▪ During the initial design phase ▪ During the initial design phase. ▪ During the design phase.	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	following: **Generator** 1. Project specifications shall include generator sound level limits of 73 dBA at 23 feet, similar to those at the City's Well 62 facility. 2. Noise control specifications for the generator set shall include a sound-attenuated enclosure for the pump and a sound wall within the facility wall. Specifications for the pump enclosure and sound wall are prescribed in item 5 below. 3. Routine testing of the generator shall be performed during daytime hours, between 10 a.m. and 5 p.m., when background sound levels are highest, to minimize potential noise impacts. 4. Obtain the services of a qualified acoustical consultant to conduct project-related operational noise measurements at sensitive receptor locations adjacent to the Proposed Project site to ensure that noise-reducing measures comply with applicable codes. If noise measurements do not comply with applicable codes, additional noise reduction measures should be designed and incorporated. With these measures, no additional sound reduction would be required to reduce sound levels due to the generator set. **Pump Enclosure and Sound Wall**	specifications. ▪ Ensure that well pumps and generator are designed consistent with Mitigation Measure NOISE-2. ▪ Confirm that noise-reducing methods are included in project plans and specifications.	▪ During preparation of plans and specifications	

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	5. The pump enclosure shall be designed to the following specifications to ensure operational sound levels are reduced below County standards: (a) Install a modular sound wall with an optional removable roof adjacent to the pump. The sound-absorptive modular barrier system shall be installed along the west edge of the pump base to a height of at least 10 feet above grade. The barrier system will wrap around the north and south sides of the pump to create a three-walled system with integrated sound absorption. In general, acoustical barriers perform best when close to the noise source. Acceptable products include the following or an approved equivalent: Kinetics Noiseblock Barrier Panel System, Noise Barriers LLC QuietLine Barrier Walls, Sound Fighter Systems LSE. (b) Include an insulated sheet metal shroud around the pump motor and shaft. Construct the sheet metal shroud to block the line of sight to the motor ventilation openings. Construction materials shall include exterior-grade sheet metal used for heating, ventilation, and air conditioning (HVAC) ducts and acoustical duct liner. (c) If the above measures cannot be employed for the pump, one of the following measures will be implemented to meet the County's nighttime noise threshold of 45 dBA:			

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	i. Install a submersible pump that would place the motor under water and virtually eliminate the sound source. ii. Increase the height of the equipment yard sound wall above 12 feet. Based on the noise analysis, increasing the equipment yard wall height to 13 feet would result in an additional 2 dBA of attenuation and a predicted sound level of 45 dBA. A 14-foot-tall wall could reduce sound levels by an additional 1 dBA. iii. Construct a barrier adjacent to the motor with a removable roof barrier directly over the motor. This secondary barrier directly adjacent to the pump motor on the west side would effectively reduce sound levels below the nighttime noise threshold. The detachable roof would still provide access to the motor for servicing and removal. The barrier adjacent to the motor shall be designed to the following specifications to ensure operational sound levels would be reduced below County standards: ▪ The barrier shall be constructed around the equipment within the wall surrounding the facility. ▪ The barrier shall weigh a minimum of 4 pounds per square foot. Painted and sealed			

	Mitigation Measure	Monitoring and Reporting Action	Monitoring Schedule	Completion Date and Initials
	concrete block easily meets this weight requirement. ▪ The barrier shall be continuous along its length and width with no gaps in the construction, including at the ground. The equipment yard pad shall be sloped such that weeping holes are only needed on the north and east sides of the facility. iv. Construct an insulated sheet metal shroud around the motor and shaft. This metal shroud would accommodate air circulation requirements for the motor, but would divert sound energy away from the motor openings and base near the shaft. Sound energy would be attenuated by sound-absorbing material within the metal shroud.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-348

RESOLUTION APPROVING A PURCHASE AND SALE AGREEMENT WITH ESCROW INSTRUCTIONS WITH VICTOR MARTINEZ AND IRIS L. MARTINEZ, TRUSTEES OF THE 2008 MARTINEZ REVOCABLE TRUST UNDER DECLARATION OF TRUST DATED MAY 21, 2008, FOR ACQUISITION OF APPROXIMATELY 2.75 ACRES, LOCATED AT 500 9TH STREET IN MODESTO, CALIFORNIA (APN: 106-044-005), IN THE AMOUNT OF $3,100,000 AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT AND ALL RELATED DOCUMENTS REQUIRED TO CLOSE ESCROW

WHEREAS, the City of Modesto has been in search of a site to meet its future growth needs, and

WHEREAS, staff has identified an approximate 2.75 acre parcel, known as "Cook Marketplace", located at 500 9th Street, in Modesto, California (APN: 106-044-005/Block 52), and

WHEREAS, the property is owned by Victor and Iris L. Martinez, trustees ("Property Owners"), and

WHEREAS, the City considered purchasing this property in 2015 for $2.5 million dollars, but the an agreement on terms was not completed at that time, and

WHEREAS, the City began purchasing negotiations when the property became available for sale again for $3.1 million, and

WHEREAS, the property is centrally located to the Modesto Police Department, Fire Station No. 1, the Regional Transit Center, the City Hall/County Administration building, the Modesto Chamber of Commerce, the Gallo Center for the Arts, Brenden Theaters, and the Doubletree Hotel, as well as the present and future County Courthouse, and

WHEREAS, the property has the potential to play a significant role in the revitalization of the Downtown Core, and

WHEREAS, the property is income producing and can pay back money borrowed from the Fleet Operating Fund Reserves, as well as maintain the property until such time as the City is able to develop the property to meet its future growth needs, and

WHEREAS, a Purchase and Sale Agreement ("Agreement") is needed for the acquisition of the property, and

WHEREAS, the due diligence period is 120 days with the close of escrow to occur within 30 days of the end of the due diligence period, and

WHEREAS, within the first 60 days of the due diligence period, the City shall obtain a qualified appraisal report with an estimated cost of $5,500, and

WHEREAS, if the appraised value is higher than the purchase price, the price shall not change,

WHEREAS, if the appraised value is lower than the purchase price, the City and Property Owners may negotiate a new purchase price, and

WHEREAS, if the City and Property Owners are unable to agree to a revised price, the City may terminate the Agreement, and

WHEREAS, during the due diligence period, the City shall also obtain a Phase 1 Environmental Report with an estimated cost of $5,000, necessary engineering feasibility studies, and review governmental regulations and improvement obligations, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Purchase and Sale Agreement with Victor Martinez and Iris L. Martinez, Trustees of the 2008 Martinez Revocable Trust under Declaration of Trust

dated May 21, 2008, for acquisition of approximately 2.75 acres located at 500 9th Street, in Modesto, California (APN: 106-044-005/Block 52), in the amount of $3,100,000.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the Agreement, in a form approved by the City Attorney and all related documents required to close escrow, provided that the Interim City Manager and/or designee will report back to Council the results of due diligence prior to closing escrow and may receive further direction at that time.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of September, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-349

RESOLUTION AMENDING THE FISCAL YEAR 2017-2018 CAPITAL IMPROVEMENT BUDGET AND THE MULTI-YEAR OPERATING BUDGET TO APPROPRIATE A $3,000,000 INTERFUND LOAN TRANSFER FROM THE FLEET OPERATING FUND TO THE NEW COOK MARKET PROJECT AND TRANSFER $100,000 FROM THE COURTHOUSE PROJECT 100859 FOR THE REMAINING AMOUNT OF THE PURCHASE PRICE

WHEREAS, the City had originally considered the location of property at 500 9th Street (APN: 106-044-005) in 2015, and

WHEREAS, the City and the owner of the property were not able to come to an agreement at that time, and

WHEREAS, the owner's broker has approached the City to indicate that the property would again be for sale, and

WHEREAS, the owner has agreed to a 120 day escrow during which time the City can terminate for any reason, and

WHEREAS, the City will undertake due diligence, including but not limited to, building and property inspections, updated environmental and title, obtaining an appraisal, and verification of existing leases with no earnest money deposited, and

WHEREAS, the estimated cost of the appraisal is $5,500 and the cost of the Phase 1 Environmental Report is $5,000 which will be paid from existing funds within the Community and Economic Development Department professional services account 0100-14110-53300, and

WHEREAS, should the City decide to move forward with the approval of the purchase of the property once the due diligence is completed for the price of $3,100,000,

an interfund loan from the Fleet Operating Fund in the amount of $3,000,000 to the Special Fund for Capital Outlay will be made with repayments paid back from rental revenue received from current and future tenants of the property over 20 years will be established, and

WHEREAS, the remaining $100,000 of the purchase price will be paid from excess funds in the Courthouse Project 100859.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby amends the Fiscal Year 2017-2018 Capital Improvement Budget and Multi-Year Operating Budget to appropriate a $3,000,000 interfund loan transfer from the Fleet Operating Fund to the newly created Cook Market Project, as well as transfer $100,000 in additional funds from the Courthouse Project 100859 to the newly created project for the Cook Market Project.

The foregoing resolution was adopted at a regular meeting of the Council of the City of Modesto held on the 5th day of September, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-350

RESOLUTION APPROVING A LOAN OF $3,000,000 FROM THE FLEET OPERATING FUND TO THE SPECIAL FUND FOR CAPITAL OUTLAY FOR THE PROJECT TITLED "COOK MARKET PROJECT" AND ESTABLISHING A REPAYMENT SCHEDULE, AMORTIZED OVER 20 YEARS TO BE PAID BACK FROM FUTURE RENTAL INCOME RECEIVED FROM THE CURRENT AND FUTURE TENANTS OF THE PROPERTY

WHEREAS, the City had originally considered the location of property at 500 9th Street (APN: 106-044-005) in 2015, and

WHEREAS, the City and the owner of the property were not able to come to an agreement at that time, and

WHEREAS, the owner's broker has approached the City to indicate that the property would again be for sale, and

WHEREAS, the owner has agreed to a 120 day escrow during which time the City can terminate for any reason, and

WHEREAS, the City will undertake due diligence, including but not limited to, building and property inspections, updated environmental and title, obtaining an appraisal, and verification of existing leases with no earnest money deposited, and

WHEREAS, the estimated cost of the appraisal is $5,500 and the cost of the Phase 1 Environmental Report is $5,000 which will be paid from existing funds within the Community and Economic Development Department professional services account 0100-14110-53300, and

WHEREAS, should the City decide to move forward with the approval of the purchase of the property once the due diligence is completed for the price of $3,100,000, and

WHEREAS, an interfund loan from the Fleet Operating Fund in the amount of $3,000,000 to the Special Fund for Capital Outlay will be made with repayments paid back from rental revenue received from current and future tenants of the property, and

WHEREAS, the $3,000,000 loan will be amortized over the next 20 years, and

WHEREAS, the $3,000,000 loan will accrue interest at the City's average rate of return on its investment pool, and

WHEREAS, the amount of interest will be calculated based on the principal outstanding during the prior fiscal year, and,

WHEREAS, all annual rental income, less operating expenses, will be used to reimburse the Fleet Operating Fund until the loan is paid in full, and

WHEREAS, at least $150,000 of principal plus interest will be paid back each fiscal year through fiscal year 2037-2038, as outlined in **Exhibit A**, and

WHEREAS, the remaining $100,000 of the purchase price will be paid from additional funds in the Courthouse Project 100859.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the an interfund loan of $3,000,000 from the Fleet Operating Fund to the General Fund for the project titled Cook Market Project.

BE IT FURTHER RESOLVED that the $3,000,000 loan will be amortized over 20 years and rental revenue received in the "Cook Market Project" will be used to reimburse the Fleet Operating Fund until the loan is paid in full.

The foregoing resolution was adopted at a regular meeting of the Council of the City of Modesto held on the 5th day of September, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-351

RESOLUTION APPROVING THE PLANS AND SPECIFICATIONS FOR THE TULLY ROAD & 9TH STREET PAVEMENT REHABILITATION PROJECT, ACCEPTING THE BID, AND AWARDING A CONTRACT TO GEORGE REED INC., OF MODESTO, CALIFORNIA IN THE AMOUNT OF $579,526, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, plans and specifications have been prepared for the Tully Road & 9th Street Pavement Rehabilitation Project, and City staff recommends approval by the City Council, and

WHEREAS, the bids received for the Tully Road & 9th Street Pavement Rehabilitation Project were publicly opened at 11:00 a.m. on July 25, 2017 in compliance with Modesto Municipal Code

8-3.403, and

WHEREAS, the Director of Community and Economic Development has recommended that the bid of $579,525.99 received from George Reed Inc., of Modesto, California, be accepted as the lowest responsible and responsive bid and the contract be awarded to George Reed Inc.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the plans and specifications for the Tully Road & 9th Street Pavement Rehabilitation Project, accepts the bid of George Reed Inc., of Modesto, California in the amount of $579,525.99, and awards George Reed Inc., of Modesto, California the contract for the Tully Road & 9th Street Pavement Rehabilitation Project.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the contract, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of September, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-353

RESOLUTION ACCEPTING A FEDERAL AVIATION ADMINISTRATION GRANT OFFER IN AN AMOUNT NOT TO EXCEED $350,000 FOR THE AIRPORT LAYOUT PLAN UPDATE AT THE MODESTO CITY-COUNTY AIRPORT, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE ALL GRANT RELATED DOCUMENTS

WHEREAS, the Modesto City-County Airport (Airport) is part of the Federal airport system and is eligible for Federal funding, and

WHEREAS, as Airport sponsor, the City is eligible each year for entitlement and discretionary funds that provide for the Federal Aviation Administration (FAA) Airport Capital Improvement Program (ACIP), and

WHEREAS, the local 10% match required for grants will be paid from a City Local Match (Stanislaus County Aircraft Tax Fund), and

WHEREAS, the Airport will complete an Airport Layout Plan Update (ALPU) utilizing funds from the FAA Grant for Airport Improvement Project (AIP) 3-06-0153-041-2017 (AIP 41), which has been submitted.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts an FAA grant offer in an amount not to exceed $350,000 for the Airport Layout Plan Update at the Modesto City-County Airport.

BE IT FURTHER RESOLVED, that the Interim City Manager, or his designee, is authorized to execute all grant related documents.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of September, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-355

RESOLUTION APPROVING A LIST OF PROJECTS TO BE FUNDED WITH SENATE BILL (SB) 1, THE ROAD REPAIR AND ACCOUNTABILITY ACT TAX PROCEEDS IN FISCAL YEAR 2017-2018

WHEREAS, on April 28, 2017 the Governor signed Senate Bill (SB) 1, which is known as the Road Repair and Accountability Act of 2017, and

WHEREAS, the primary focus of that Bill is to address basic road maintenance, rehabilitation and critical safety needs on both the state highways and local streets and road systems, and

WHEREAS, beginning November 1, 2017, the State Controller's Office will deposit various portions of this funding into the newly created Road Maintenance and Rehabilitation Account (RMRA), and

WHEREAS, the City estimates receiving the full apportionment of RMRA funding for FY 2017-2018 in the amount of $1,197,272, and

WHEREAS, the proposed project list must be adopted by Council as part of our budget to be eligible for funding, and

WHEREAS, funding requires cities to submit an approved project list by October 16, 2017 for FY 2017-2018, and

WHEREAS, the RMRA funds do require a Maintenance of Effort (MOE) from the City based on General Fund spending for street, road, and highway purposes, but at this point Staff does not have definitive numbers and or information, and

WHEREAS, Staff is currently working with the State to clarify MOE requirements. Once the numbers have been received from the State, Staff will return to Council for clarification and approval, and

WHEREAS, on August 9, 2017, this item was approved by the Healthy Economy Committee.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a list of Slurry Seal, Crack Seal and Asphalt Repair projects to be funded with Senate Bill (SB) 1, Road Repair and Accountability Act tax proceeds in Fiscal Year 2017-2018.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is authorized to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of September, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-356

RESOLUTION APPROVING THE SOLE SOURCE PROCUREMENT OF FLOW METERS AND PARTS FROM APG-NEUROS, BLAINVILLE, QUEBEC, CA, FOR A TWO-YEAR AGREEMENT WITH THREE ONE-YEAR EXTENSION OPTIONS AT THE SOLE DISCRETION OF THE CITY, FOR AN ESTIMATED ANNUAL COST NOT TO EXCEED $150,000 AND $750,000 OVER FIVE YEARS, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE A PURCHASING AGREEMENT

WHEREAS, The City uses APG-Neuros high-speed turbo blowers in the tertiary treatment process, and

WHEREAS, the blowers supply air to both the aeration basin and membrane tanks and the aeration is computer-controlled, and

WHEREAS, most of the parts and components used in the APG-Neuros system are proprietary and are manufactured by APG-Neuros, including the variable frequency drives, , , programmable logic controller, and air flow meters operate and operates together with manufacturer designed software, and

WHEREAS, all replacement parts are only available from APG-Neuros, and

WHEREAS, the Wastewater Division maintenance staff is responsible for working on the APG-Neuros blowers and requires the parts to effectively maintain them, and

WHEREAS, staff has negotiated with APG-Neuros to hold their pricing through August 2019 and an increase of 6% for the following three years (September 2019 – August 2022), and

WHEREAS, APG-Neuros has also offered a 10% discount on any order over $15,000 for the referenced parts, and

WHEREASs, staff is currently asking for authorization for estimated costs of up to $150,000 per year, and

WHEREAS, the estimated annual costs for routine maintenance are $25,000; should a core, variable frequency drive or any other non-routine part need to be replaced, the amount of $150,000 will not be exceeded and allow for the work to be completed and avoid an interruption to the tertiary treatment process, and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed $50,000 for material, equipment or contractual services to be formally bid; however, there are exceptions to the rule set forth in the Modesto Municipal Code, and

WHEREAS, staff recommends the award of agreement to APG-Neuros should be exempt from the formal bidding process in accordance with Modesto Municipal Code 8-3.204(b) since they are the sole provider of these parts, and

WHEREAS, MMC 8-3.204(b) provides that a purchase may be exempted from the City's formal bidding requirements where the Purchasing Agency's requirements can be met solely by a single article or process, and

WHEREAS, the Purchasing Manager invoked that exception for this purchase due to the cost savings of staff time and that there are no competitors.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a sole source procurement of Flow Meters and parts from APG-Neuros, Blainville, Quebec, CA, for a two-year agreement with three one-year extension options at the sole discretion of the City, for an estimated annual cost not to exceed

$150,000 and $750,000 over five years, and authorizing the Interim City Manager, or his designee, to execute a purchasing agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of September, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017–357

RESOLUTION APPROVING AND CERTIFYING THE CITY'S SANITARY SEWER MANAGEMENT PLAN UPDATE

WHEREAS, the City sanitary sewer system is regulated by the State Water Resources Control Board (Board) Order No. 2006-003, Statewide General Waste Discharge Requirements (WDR) for Sanitary Sewer Systems, and

WHEREAS, the WDR governs the operations and maintenance of wastewater collection systems, and

WHEREAS, to facilitate proper funding and management of sanitary sewer systems, agencies are required to develop, implement, and periodically update a Sanitary Sewer Management Plan (SSMP);

WHEREAS, the SSMP must be approved by the "Enrollees" governing board at a public meeting, and

WHEREAS, the SSMP is a guiding document for the proper management, operation, and maintenance of all parts of the sanitary sewer system, and

WHEREAS, the goal of the WDR and the SSMP is to reduce and prevent Sewer System Overflows (SSO), and to mitigate the effects of any SSOs that do occur, and

WHEREAS, adherence to the SSMP helps staff achieve our goal of reducing SSOs and ensures continued compliance with all State and Federal regulations, and

WHEREAS, the development of the SSMP was approved by Council on July 24, 2007, by Resolution No. 2007-460, and the SSMP was completed, certified, and approved by the Council on April 7, 2009, by Resolution No. 2009-150, and

WHEREAS, the WDR requires staff to perform audits of the SSMP a minimum of every two years and complete updates at least every 5 years or when there are significant changes made to operations, and

WHEREAS, staff has conducted internal SSMP audits in November 2013, October 2014, and October/November 2016 with the most recent audit report and findings are included in Section 10 of the updated SSMP, and

WHEREAS, these audit findings require the SSMP be updated to incorporate these changes; previous updates to the SSMP were approved on February 7, 2012, by Resolution No. 2012-49 and on March 3, 2015, by Resolution No. 2015-72, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves and certifies City's Sanitary Sewer Management Plan update.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of September, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-358

RESOLUTION GRANTING AN EXCEPTION TO THE VILLAGE ONE SPECIFIC PLAN TO ALLOW CONSTRUCTION BY WESTURF NURSERY AT 1612 CLAUS ROAD, MODESTO, CA 95355 WITHOUT ANNEXING TO THE VILLAGE ONE #2 CFD

WHEREAS, Government Code Section 65450 et. seq. permits cities and counties to adopt specific plans for the systematic implementation of the General Plan and to provide for a greater level of detail in planning sites or areas of special interest or value, and

WHEREAS, on October 16, 1990, the Council, by Resolution No. 90-828A, adopted the Village One Specific Plan, to guide the development of 1,780 acres located in northeast Modesto, and

WHEREAS, the Village One Specific Plan states that no precise plan, final map, final development plan, building permit or other development entitlement for currently unvested property shall be consistent with this Specific Plan until and unless the affected parcel is required to form or annex to the City of Modesto Community Facilities District No. 2004-1 ("Village One #2 CFD"), and

WHEREAS, the Village One Specific Plan does allow the City to defer the requirement to form or annex to the Village One #2 CFD if the project falls into one of two exemption categories:

1) Residential properties of less than ten acres, until there is a land division, addition of any dwelling unit or change of use, or
2) The existing commercial properties in Precise Plan Area No. 2....unless there is a change of use, physical expansion of the existing buildings,

construction of new buildings, or division of property, and

WHEREAS, in September 2011, Westurf Nursery (Applicant) contacted the City to obtain approval to construct a 5,496 square foot retail nursery building expansion at 1612 Claus Road (Parcel), and

WHEREAS, the Applicant's project did not fall into either of the two exemption categories, staff believed that the project warranted an exception to the implementation policy requiring annexation to Village One #2 CFD for the following reasons:

1) The project did not trigger the need for preparation of a Precise Plan.

2) The existing business was operating on the Parcel before the Parcel was annexed into the City limits.

3) Circumstances had changed since the Village One #2 CFD was formed in 2004. Reprioritization of the projects had occurred and the infrastructure that would be available to the Parcel was intended to be part of a separate and distinct financing mechanism to be developed and implemented in the future, and

WHEREAS, on October 25, 2011, the Council adopted Resolution No. 2011-406, approving an exception to the Village One Specific Plan requiring annexation to CFD Village One #2, and

WHEREAS, in February 2012, the Applicant obtained a second building permit for construction of a 3,200 square foot shade structure on the Parcel and indicated its plans to apply for another building permit to construct an additional canopy in the coming months, and

WHEREAS, staff felt that the determination made in October 2011 also applied to the construction of additional shade structures, and

WHEREAS, on December 4, 2012, the Council adopted Resolution No. 2012-485 again approving an additional exception to the Village One Specific Plan's requirement for annexation to CFD Village One #2, and

WHEREAS, on May 2015, the Applicant obtained a third building permit for construction of a restroom and expansion of an existing breakroom on the Parcel, and

WHEREAS, on October 13, 2015 the Council adopted Resolution No. 2015-382 also approving an additional annexation exception to the Village One Specific Plan, and

WHEREAS, on June 7, 2017, the Applicant contacted the City to obtain a building permit for the construction of a new 8,000 square foot retail and maintenance building and additional parking on the Parcel, and

WHEREAS, although the Applicant does not specifically meet the Village One Specific Plan deferral criteria, the spirit and the overall intent of the deferral criteria are met by approving an exception to the Village One Specific Plan for the following reasons:

1) The project does not trigger the need for preparation of a Precise Plan.
2) The existing business was operating on the Parcel before the Parcel was annexed into the City limits.
3) Circumstances have changed since the Village One #2 CFD was formed in 2004. Reprioritization of the projects has occurred and the infrastructure needed to serve the Parcel is intended to be part of a separate and distinct financing mechanism to be developed and implemented in the future.

WHEREAS, this Parcel will not utilize any of the infrastructure funded through the existing CFD, and

WHEREAS, when the Parcel changes land uses or divides the land, it will participate in a separate and distinct financing mechanism to be developed and implemented in the future,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that is hereby grants an exception to the Village One Specific Plan to allow construction by Westurf Nursery at 1612 Claus Road, Modesto, CA 95355 without annexing to the Village One #2 CFD.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of September, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-359

RESOLUTION ACCEPTING THE STATE SYSTEMIC SAFETY ANALYSIS REPORT PROGRAM (SSARP) GRANT IN THE AMOUNT OF $225,000, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE ALL NECESSARY FUNDING AND GRANT DOCUMENTS

WHEREAS, in February, 2016 the State of California released guidelines for the Systemic Safety Analysis Report Program (SSARP), and

WHEREAS, the guidelines were developed in consultation with the California Local Highway Safety Improvement Program (HSIP) Advisory Committee, and

WHEREAS, the SSARP program represents a proactive approach focusing on evaluating roadway networks using a defined set of criteria to identify potential improvements to increase pedestrian and bicycle safety, and

WHEREAS, in March, 2016, staff submitted an application to the State of California, Department of Transportation requesting SSARP funds in the amount of $225,000 with a Local match of $25,000 for Preliminary Engineering (PE), and

WHEREAS, on May 18, 2016, the State of California notified the City of Modesto that the application submitted for the SSARP funds was selected to receive funding, and

WHEREAS, the SSARP received 79 applications of which the City's project was one of 27 applications to receive funding, and

WHEREAS, on July 5, 2017, the City Council by Resolution No. 2017-269 approved the use of $25,000 in Measure L funds to be used as match funds for the City's project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the State Systemic Safety Analysis Report Program (SSARP) grant in the amount of $225,000.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute all necessary funding and grant documents.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of September, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-361

RESOLUTION ACCEPTING THE PUBLIC IMPROVEMENTS FOR HEALTH CARE WAY AND DALE ROAD, LOCATED JUST NORTH AND EAST OF THE KAISER HOSPITAL ON DALE ROAD, AUTHORIZING THE CITY CLERK TO FILE A NOTICE OF COMPLETION WITH THE STANISLAUS COUNTY RECORDER'S OFFICE, AND TO RELEASE SECURITIES UPON EXPIRATION OF STATUTORY PERIODS

WHEREAS, A.E. (BUZ) CARRADE as Subdivider ("SUBDIVIDER") and Joann Irene Bledsoe, a married woman her sole and separate property, and Carl R. Fischer Jr. and Sandy Fisher, aka Sandra Ficher, as trustees of The Carl R. Fischer, Jr, and Sandy Fincher Revocable Trust udt (Under Declaration of Trust) dated September 25, 2000 ("OWNER") as owner of a tract of land consisting of 2.79 acres, lying in the City of Modesto, County of Stanislaus, commonly known as KIERNAN BUSINESS PARK EAST PHASE 2-HEALTHCARE WAY ("SUBDIVISION"), and

WHEREAS, a tentative map of said SUBDIVISION was approved by the City Planning Commission on September 14, 2015 per Planning Commission Resolution No. 2015-21, and

WHEREAS, the final subdivision map and subdivision agreement for said SUBDIVISION were approved by City Council on May 24, 2016 per City Council Resolution No. 2016-207, and

WHEREAS, the subdivision agreement required certain improvements be made along Dale Road and Health Care Way ("PUBLIC IMPROVEMENTS"), and

WHEREAS, said PUBLIC IMPROVEMENTS, have been completed to the satisfaction of the Utilities Department, and

WHEREAS, the Construction Administration Office of the Utilities Department has verified that all required PUBLIC IMPROVEMENTS for this project have been satisfactorily completed and all inspection fees have paid, and

WHEREAS, the Community Facilities District #2016-1, Kiernan Business Park East #2 will assume maintenance responsibilities of the storm drainage, landscaping and irrigation along Health Care Way and the east side of Dale Road, and

WHEREAS, the City of Modesto will assume maintenance responsibilities of the street and remaining utilities and infrastructure upon acceptance of the PUBLIC IMPROVEMENTS, and

WHEREAS, pursuant to the Subdivision Agreement, SUBDIVIDER has filed a Faithful Performance Letter of Credit in the amount of $2,157,313.07, a Payment Letter of Credit in the amount of $1,078,656.54 and a Warranty Bond in the amount of $215,731.31, and

WHEREAS, the Utilities Director, in a memorandum to Council, indicates that all work required by the Subdivision Agreement has been completed to the satisfaction of the Utilities Department, and

WHEREAS, the Utilities Director has indicated that it would be in order for the City Council to accept said PUBLIC IMPROVEMENTS as complete, authorize the City Clerk to file a Notice of Completion, and to release the securities upon expiration of the statutory periods.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that:

1. The said PUBLIC IMPROVEMENTS are hereby accepted, and the City Clerk is hereby authorized to file a Notice of Completion with Stanislaus County Recorder's Office.
2. The City Clerk is hereby authorized to release the Faithful Performance Letter of Credit in the amount of $2,157,313.07, upon recordation of the Notice of Completion.
3. The City Clerk is hereby authorized to release the Payment Letter of Credit in the amount of $1,078,656.54, 60 days after recordation of the Notice of Completion if no claim is made thereon.
4. The City Clerk is hereby authorized to release the Warranty Bond in the amount of $215,731.31 one year and one day after the effective date of this resolution, provided no claim is made thereon.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of September, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-362

RESOLUTION APPROVING THE PLANS AND SPECIFICATIONS FOR THE AWARD OF THE SANDERS AND FREEDOM NEIGHBORHOOD PARKS RENOVATION PROJECT, ACCEPTING THE BID, AWARDING A CONSTRUCTION CONTRACT TO DOCON, INC. OF MODESTO, CA, IN THE AMOUNT OF $397,101, AND AUTHORZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE CONTRACT

WHEREAS, plans and specifications have been prepared for the Sanders and Freedom Neighborhood Parks Renovation Project that will remove and replace the existing rubber play surfacing and selected play equipment; basketball court restriping at Sanders Park and replacement of lighted steel bollards at Freedom Park, and

WHEREAS, the one bid received for the Sanders and Freedom Neighborhood Parks Renovation Project was publicly opened at 11:00 a.m. on May 16, 2017, and later tabulated by the Parks Planning and Development Division for the consideration of the Council, and

WHEREAS, DOCON, Inc. of Modesto, California was the sole and apparent low bidder at 22.2% above the engineer's estimate, and

WHEREAS, City staff and the Interim City Manager recommend that the bid of $397,101 received from DOCON, Inc. be accepted as the lowest responsible and responsive bidder in conformance with Modesto Municipal Code section 8-3.403 and Modesto Charter Section 1307 and that the contract to be awarded will include all the bid alternate items.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Plans and Specifications for the Sanders and Freedom

Neighborhood Parks Renovation Project, accepts the bid and awards the construction contract to DOCON, Inc., of Modesto, CA, in the amount of $397,101.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the contract for the Sanders and Freedom Neighborhood Parks Renovation Project in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of September, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-363

RESOLUTION AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO AMEND THE FISCAL YEAR 2017/2018 CAPITAL IMPROVEMENT PROGRAM BUDGET IN AN AMOUNT NOT TO EXCEED $182,623 FOR PROJECT #100892 SANDERS AND FREEDOM NEIGHBORHOOD PARKS RENOVATION PROJECT TO BUDGET EXPENDITURES, AS OUTLINED IN ATTACHMENT A, TO FULLY FUND THE RENOVATION OF SANDERS AND FREEDOM NEIGHBORHOOD PARKS

WHEREAS, the renovation of Sanders and Freedom Neighborhood Parks will benefit Modesto residents and the maintenance of these two parks will add equitable longevity to the recreational opportunities in the community, and

WHEREAS, certain budgetary transactions are necessary in the amount of $182,623, in order to fully fund construction, contingency, construction administration, design support during construction and City staff support for the Sanders and Freedom Neighborhood Parks Project.

WHEREAS, the City Council shall consider amending the 2017/2018 Capital Improvement Program Budget in an amount not to exceed $182,623 as outlined in **Attachment A** , which is incorporated by reference herein and **attached** hereto.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it is hereby authorizing the Interim City Manager, or her designee, to amend the Fiscal Year 2017/2018 Capital Improvement Program Budget for Project #100892 Sanders and Freedom Neighborhood Parks Renovation Project in an amount not to exceed $182,623.

BE IT FURTHER RESOLVED that the Interim City Manager, or her designee, is hereby authorized to budget expenditures as outlined in **Attachment A** to fully fund the renovation of Sanders and Freedom Neighborhood Parks.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of September, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-364

RESOLUTION ACCEPTING THE 2018 SELECTIVE TRAFFIC ENFORCEMENT PROGRAM GRANT IN THE AMOUNT OF $430,000 FROM THE OFFICE OF TRAFFIC SAFETY TO INCREASE ENFORCEMENT FOR SPEED, DUI, AND OTHER SPECIAL TRAFFIC ENFORCEMENT OPERATIONS; AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE NECESSARY DOCUMENTS

WHEREAS, the City of Modesto Police Department desires to undertake a certain project designated as the Selective Traffic Enforcement Program (STEP) grant from the Office of Traffic Safety (OTS), and

WHEREAS, the Police Department was awarded a grant in the sum of $430,000 from OTS, and

WHEREAS, acceptance of said $430,000 grant will increase enforcement for speed, DUI, and other special traffic enforcement operations, while also reducing collisions with speed, DUI, and special operations, and

WHEREAS, OTS will pay overtime for officers, training, and equipment to assist in traffic studies and other traffic related enforcement equipment, and

WHEREAS, the term of this grant will be from October 1, 2017, through September 30, 2018,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the Selective Traffic Enforcement Program Grant in the amount of approximately $430,000 from the Office of Traffic Safety to increase enforcement for speed, DUI, and other special traffic enforcement operations.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the necessary award documents.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of September, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2017-365

RESOLUTION AMENDING THE FISCAL YEAR 2017-18 OPERATING AND MULTI-YEAR BUDGET TO APPROPRIATE REVENUE AND EXPENSES IN THE AMOUNT OF $430,000 RELATED TO THE SELECTIVE TRAFFIC ENFORCEMENT PROGRAM GRANT TO INCREASE ENFORCEMENT FOR SPEED, DUI, AND OTHER SPECIAL TRAFFIC ENFORCEMENT OPERATIONS

WHEREAS, the Police Department acquired a grant award in the amount of approximately $430,000 from the Office of Traffic Safety (OTS) to increase enforcement for speed, DUI, and other special traffic enforcement operations, and

WHEREAS, the grant will pay overtime for officers for special enforcement operations, DUI saturation patrols, and other traffic related enforcement supplies, and

WHEREAS, there is no local match required for this grant, and

WHEREAS, the term of this grant will be from October 1, 2017, through September 30, 2018,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Fiscal Year 2017/2018 Operating and Multi-Year Budget is hereby adjusted as indicated on budget adjustment **attached.**

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-366

RESOLUTION ACCEPTING THE SUPPLEMENTAL PAYMENT OF THE LOCAL TRANSPORTATION FUND (LTF) FOR FISCAL YEAR 2015/16 FROM THE STANISLAUS COUNCIL OF GOVERNMENTS (STANCOG) IN THE AMOUNT OF $697,061 TO OFFSET THE SHORTFALL IN STATE TRANSIT ASSISTANCE FUNDS (STA)

WHEREAS, the greatest portion of the City's funding for the Transit Service Program is made available under the Transportation Development Act (TDA), which includes Local Transportation Fund (LTF) funds and State Transit Assistance (STA) funds, and

WHEREAS, the City has prepared its TDA claim for Fiscal Year 2015-16 pursuant to these sections of the California Public Utilities Code (PUC), and

WHEREAS, the City did not receive the estimated STA funds in 2015-2016, and

WHEREAS, the Stanislaus Council of Governments (StanCOG) approved the payment of $697,061 in LTF to cover the difference of estimated and actual STA funds received, and

WHEREAS, Council action is required in order for the City to accept these funds.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the payment of LTF funds for Fiscal Year 2015/16 from StanCOG in the amount of $697,061.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of September, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Council members:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-367

RESOLUTION APPROVING AN AGREEMENT WITH O'DELL ENGINEERING, INC., MODESTO, CA, FOR DESIGN SERVICES FOR THE MODESTO AMTRAK NORTH PARKING LOT PROJECT, IN AN AMOUNT NOT TO EXCEED $57,600 FOR THE IDENTIFIED SCOPE OF SERVICES, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, The San Joaquin Joint Power's Association (SJJPA) contracts and provides funds for the operation and capital improvements of the San Joaquin Rail Service, which is the passenger rail service operated by Amtrak providing rail service in the San Joaquin Valley and eastern parts of the Bay Area, and

WHEREAS, The San Joaquin Rail Service includes passenger train service within the City of Modesto, through the Modesto Station and relies on land-side infrastructure within the City, including the Amtrak station building, parking and the surrounding road infrastructure to provide service, and

WHEREAS, The SJJPA has proposed to improve existing rail service by optimizing scheduling and implementing various improvements including additional parking to accommodate early morning travel from Fresno to Sacramento and Fresno to the Bay Area as part of a new service, which is anticipated to commence in Fiscal Year 2017/2018 to Sacramento and in Fiscal Year 2018/2019 to the Bay Area, and

WHEREAS, The City and the SJJPA have joined together to secure funding to expand the north portion of the Modesto Amtrak Station in hopes of increasing ridership with the new service. In addition, the City will use local funds to construct a temporary lot on the south side of the Modesto Amtrak Station, and

WHEREAS, City staff is recommending the use of a consultant to increase project delivery efficiencies, and

WHEREAS, on September 13, 2016, by Resolution 2016-356, Council approved a prequalified list of local consultants for Civil Engineering Services for Capital Improvement Program (CIP) projects, and

WHEREAS, in accordance with City Administrative Directive 3.1, Selection Procedures for Professional Consultants Who Provide Architectural & Engineering Services for Capital Projects, Utilities staff issued a Request for Proposal (RFP) to prequalified local firms for Civil Engineering Services for the Modesto Amtrak North Parking Lot Project, and

WHEREAS, on July 28, 2017, two proposals were received and reviewed by a selection committee that consisted of the City's Public Works Department and Utilities Engineering Design Division staff, and

WHEREAS, the selection committee determined that O'Dell Engineering, Inc. (O'Dell) was responsive and qualified to provide engineering design services for the Modesto North Parking Lot, and

WHEREAS, the scope of services to be provided under the agreement includes: 1) Project management and meetings; 2) City coordination; 3) Perform field topographic survey; 4) Provide analysis of the existing storm drain system and provide hydraulic calculations; and 5) Prepare the construction documents (plans and specifications), and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, this agreement is for professional services and, therefore, exempt from the bid requirement, and

WHEREAS, staff still proceeded through an RFP process pursuant to Administrative Directive 3.1, and

WHEREAS, staff recommends approval of the agreement with O'Dell Engineering for Engineering Design services for the Modesto North Parking Lot Project.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with O'Dell Engineering, Inc., Modesto, CA, for Design Services for the Modesto North Parking Lot Project, in an amount not to exceed $57,600.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of September, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-368

RESOLUTION APPROVING AN AGREEMENT WITH STANTEC CONSULTING SERVICES, INC. TO PROVIDE PLANNING SERVICES FOR THE AIRPORT LAYOUT PLAN UPDATE (ALPU) PROJECT AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT IN AN AMOUNT NOT TO EXCEED $351,314

WHEREAS, the Modesto City-County Airport (Airport) is a federally obligated facility and is required to meet Federal Aviation Administration (FAA) standards, including maintaining an updated Airport Layout Plan per FAA Regulation Part 77 - Obstructions to Airspace, and

WHEREAS, the FAA requires that the Airport comply with obstruction standards and identify property(s) that contain obstructions to airspace for potential acquisition, enabling control of obstructions to airspace, mainly trees, and

WHEREAS, other components of the Airport Layout Plan Update project (ALPU) include aviation forecasts, land use planning, new digital Geographic Information System data and an aerial survey to meet new FAA standards for an Electronic Airport Layout Plan, and

WHEREAS, the City solicited qualifications from three consultants to perform the ALPU, and

WHEREAS, all proposals were reviewed by a selection committee, and Stantec Consulting Services, Inc. (Stantec) scored the highest in being able to provide planning services for the duration of the ALPU.

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto hereby approves an Agreement with Stantec Consulting Services, Inc., to provide planning services for the ALPU Project, in an amount not to exceed $351,314.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the Agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of September, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-369

RESOLUTION AUTHORIZING THE CREATION OF AIRPORT CAPITAL IMPROVEMENT PROJECT (ACIP) #100985 FOR THE FEDERAL AVIATION ADMINISTRATION (FAA) GRANT 3-06-0153-041-2017 (AIP 41), AND AMENDING THE FISCAL YEAR 2017-2018 CAPITAL IMPROVEMENT BUDGET TO ESTABLISH A BUDGET IN AN AMOUNT NOT TO EXCEED $351,314 OF WHICH $316,183 IS GRANT FUNDED AND $35,131 IS FUNDED VIA TRANSFER FROM FUND 4330-STANISLAUS COUNTY AIRCRAFT TAX FUND TO CIP 100985

WHEREAS, the City has approved Airport Capital Improvement Plan (ACIP) projects at the Modesto City-County Airport (Airport), and

WHEREAS, the City has accepted a Federal Aviation Administration (FAA) grant offer, AIP 41, to complete ACIP projects at the Airport, and

WHEREAS, Stantec Consulting Services, Inc. (Stantec) has been selected as the consultant to complete the Airport Layout Plan Update (ALPU), and

WHEREAS, certain City administration will be entitled to reimbursement for work performed directly in connection with AIP 41.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the creation of a project and a budget adjustment for AIP 41 not to exceed $351,314 for the ALPU project.

BE IT FURTHER RESOLVED that the Acting City Finance Director, or her designee, is hereby authorized to execute the budget adjustment and create appropriate revenue and expense accounts for project AIP 41.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of September, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-370

RESOLUTION AUTHORIZING THE SUBMITTAL OF AN APPLICATION ON BEHALF OF THE STANISLAUS AND TUOLUMNE RIVERS GROUNDWATER BASIN ASSOCIATION GROUNDWATER SUSTAINABILITY AGENCY TO THE CALIFORNIA DEPARTMENT OF WATER RESOURCES, FOR THE 2017 SUSTAINABLE GROUNDWATER PLANNING GRANT PROGRAM, AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE ALL GRANT-RELATED DOCUMENTS AND ENTER INTO AGREEMENTS TO RECEIVE GRANT FUNDS, IF AWARARDED, AND AUTHRIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO BE THE SIGNATORY OF GRANT INVOICE FORMS DURING REQUESTS FOR REIMBURSEMENTS

WHEREAS, the Sustainable Groundwater Management Act (SGMA) requires that a Groundwater Sustainability Agency (GSA) be formed for all groundwater basins designated by the Department of Water Resources (DWR) as high-priority basins, such as the Modesto Subbasin (Basin No. 5-22.02); and

WHEREAS, SGMA directs the preparation of a Groundwater Sustainability Plan (GSP) for each high-priority subbasin, such as the Modesto Subbasin; and

WHEREAS, the County of Stanislaus, the Oakdale Irrigation District, the City of Oakdale, the City of Riverbank, the City of Modesto, the City of Waterford, and the Modesto Irrigation District entered into a Memorandum of Understanding (MOU) to form the Stanislaus and Tuolumne Rivers Groundwater Basin Association GSA (STRGBA GSA) as to the portion of the Modesto Subbasin that lies within the STRGBA GSA's parties' combined jurisdiction; and

WHEREAS, the County of Tuolumne (Tuolumne) has formed the Tuolumne Groundwater Sustainability Agency (Tuolumne GSA) as to the portion of the Modesto Subbasin that lies within Tuolumne's jurisdiction; and

WHEREAS, the combined boundaries of the STRGBA GSA and the Tuolumne GSA cover the entire Modesto Subbasin; and

WHEREAS, DWR is administering the 2017 Sustainable Groundwater Planning Grant Program pursuant to the Water Quality, Supply, and Infrastructure Improvement Act of 2014 (Proposition 1) under Water Code Section 79700 et seq., which provides grants for the preparation of a GSP; and

WHEREAS, the STRGBA GSA is eligible to apply for a grant under the 2017 Sustainable Groundwater Planning Grant Program and, if awarded, receive grant funding from DWR for the preparation of a GSP for the Modesto Subbasin; and

WHEREAS, the STRGBA GSA has authorized the City of Modesto to enter into contracts on the STRGBA's behalf; and

WHEREAS, adoption of this resolution does not constitute a "project" under California Environmental Quality Act Guidelines Section 15378(b)(5), including organization and administrative activities of government, because there would be no direct or indirect physical change in the environment.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the submittal of an application to the California Department of Water Resources for the 2017 Sustainable Groundwater Planning Grant Program pursuant to the Water Quality, Supply, and Infrastructure Improvement Act of 2014 (Water Code Section 79700 et seq.), to receive a grant for the Groundwater Sustainability Plan for the Modesto Subbasin.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute all grant-related documents and enter into an agreement to

receive the grant funds, if awarded; and authorizing the Interim City Manager to be the signatory of grant invoice forms during requests for reimbursements.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of September, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-371

RESOLUTION APPROVING AN AGREEMENT WITH O'DELL ENGINEERING, INC., MODESTO, CA, FOR ENGINEERING DESIGN SERVICES FOR THE SUTTER TRUNK REHABILITATION PROJECT, IN AN AMOUNT NOT TO EXCEED $392,906 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS $39,291 FOR ADDITIONAL SERVICES, IF NEEDED, FOR A MAXIMUM TOTAL AMOUNT OF $432,197, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the Sutter Trunk is approximately 13,000 feet long and conveys approximately 3 percent of the City's total average dry weather flow, and

WHEREAS, the existing capacity of the Sutter Trunk is insufficient to convey existing and build-out peak wet weather flow conditions, and

WHEREAS the section crossing under Highway 99 has experienced severe corrosion, and

WHEREAS, the proposed rehabilitation project will replace approximately 7,000 feet of the trunk line, as well as rehabilitate the existing section crossing under Highway 99, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, this agreement is for professional services and therefore, exempt from the bid requirement, and

WHEREAS, however, staff still went through a RFP process pursuant to Administrative Directive 3.1., and

WHEREAS, staff recommends approval of the agreement with O'Dell Engineering for engineering design services for the Sutter Trunk Rehabilitation Project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with O'Dell Engineering, Inc., Modesto, CA, for

design services for the Sutter Trunk Rehabilitation Project, in an amount not to exceed $392,906 for the identified scope of services, plus $39,291 for additional services, if needed, for an agreement total of $432,197.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of September, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-372

RESOLUTION APPROVING A SOLE SOURCE PURCHASE OF A MEMBRANE AND CASSETTE REPLACEMENT EQUIPMENT FOR THE PHASE 1A TERTIARY TREATMENT PLANT FROM ZENON ENVIRONMENTAL CORPORATION, PART OF GENERAL ELECTRIC WATER & PROCESS TECHNOLOGIES OF OAKVILLE, ONTARIO CANADA, AND AUTHORIZING THE PURCHASING MANAGER, OR HER DESIGNEE, TO ISSUE A PURCHASE ORDER FOR A TOTAL COST NOT TO EXCEED $1,144,814

WHEREAS, the Phase 1A Project was completed in 2010, and

WHEREAS, it provides tertiary treatment, which allows year-round discharge capacity to the river by eliminating the seasonal and dilution constraints, and

WHEREAS, an integral part of the Phase 1A process is the membrane bioreactor (MBR) filtration system that helps produce a high quality tertiary effluent (final treated wastewater product) that meets the discharge permit requirements, and

WHEREAS, operations and maintenance staff have traced recent effluent issues to the deterioration of the cartridges in the MBR tanks, and

WHEREAS, the consequence of deficient membranes is an effluent with increased solids or high turbidity, which will cause the effluent to fail the City's National Pollutant Discharge Elimination System permit requirements, and

WHEREAS, high turbidity will cause the effluent to fail the discharge permit requirements, and

WHEREAS, General Electric (GE) is the manufacturer of Zenon's MBR filtration system, and the Phase 1 tanks were designed to configure only GE's cassettes and membranes, and

WHEREAS, on February 26, 2008, by Resolution No. 2008-140, Council authorized the purchase of membrane equipment as a sole source from Zenon Environmental Corporation at a total cost of $4,532,484, and

WHEREAS, GE Water & Process Technologies is the exclusive manufacturer for Zenon membrane equipment, which are used to operate the City's tertiary treatment, and

WHEREAS, over the last few years, Zenon has upgraded the membrane system to save on energy costs, as well as for ease of installation and maintenance. **Attachment A** contains the quotation and list of equipment, and

WHEREAS, **attachment A** contains the quotation and list of equipment, the cost of the equipment and onsite technical advisory support by GE representatives, and

WHEREAS, the manufacturer is providing the city with a 10 year warranty (2 year full replacement, additional 8 years prorated).

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed $50,000 for material, equipment or contractual services to be formally bid. However, there are exceptions to the rule set forth in the Modesto Municipal Code. One exception, MMC8-3.204(b), states where as the purchasing agencies' requirements can be met solely by a single article or process: the sole source procurement for a membrane system replacement from Zenon Environmental Corporation, part of General Electric Water & Process Technologies (Zenon) of Oakville, Ontario, Canada, conforms to the Modesto Municipal Code.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the sole source procurement membrane system replacement for the Phase 1A Tertiary Treatment Plant with Zenon

BE IT FURTHER RESOLVED that the Purchasing Manager, or her designee, is hereby authorized to issue a purchase order for a total cost not to exceed $1,144,814.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of September, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

EXHIBIT A

1 Introduction

GE Water & Process Technologies is pleased to present this proposal at the request of City of Modesto, California for wastewater membrane modules to replace and upgrade the full plant at the Jennings Road (Modesto) Wastewater Treatment Plant (WWTP).

GE has provided for membrane replacement, new cassette frames and LEAPmbr aeration upgrade in this proposal.

GE is a proven leader in delivering tangible value to our clients over the life of the plant. Our measure of success is how well we deliver **solutions** that help our clients meet their critical business objectives.

Through long-acquired membrane experience, GE has clearly distinguished itself from other membrane manufacturers. A mature service culture and deep technical expertise are at the ready to serve and support Modesto through this next membrane lifecycle.

2 Scope – GE

2.1 Membrane Modules

Supply 528 x ZeeWeed 500D 370ft² wastewater membrane modules.

2.2 Cassette Frames

Supply 12 x 500D 48M Cassette Frames.

2.3 Hardware

Supply associated hardware as follows:

- ❑ 50 x spare #118 EPDM permeate spigot o-rings;
- ❑ 10 x spare ZW500D element end cap keys;
- ❑ 3 x blank module header sets;
- ❑ 5 x sets of belts and pulleys for resheaving membrane aeration blowers to achieve reduced LEAPmbr aeration flow requirements (installation by Modesto).
- ❑ Eye bolt kit for turning the cassettes upright prior to installation.

2.4 Off-site Support

Controls

Provide system controls programming adjustments as required for the new membranes including adjustment of set points for permeate and air flow.

Documentation

The base level of documentation updates will include a report containing:

EXHIBIT A

- programmer's table of code changes (change description recorded by tag with one distinct marker bit per change)
- field/hand markups of relevant electrical and P&ID drawings.

The report should be filed in the O&M Manual as interim documentation.

Due to the very high cost of comprehensive updating of plant documentation with each system upgrade, GE recommends planning a complete documentation update every 1-4 years to coincide with a selected system upgrade.

GE will be pleased to develop a Documentation Update price quotation on request which may include some or all of the following scope according to its relevance:

- O&M Manual - Provide a fully updated version of the Operation & Maintenance Manual that indicates the changes made with this membrane replacement upgrade.
- P&IDs - Update the Process (Piping) & Instrumentation Drawings and reissue electronically.
- Electrical Drawings – Update the electrical drawings and reissue electronically.
- Controls Documents – Update Control Narrative (CN), Controls Logic Sequence Chart (CLSC, also known as CSC) and the Operation Sequence Chart (OSC).

Project Management

Provide planning and off-site assistance during the membrane replacement project.

2.5 Warranty

ZeeWeed Membrane Modules are supplied with a 10-year Membrane Replacement Seller's Warranty (2 Years Full + 8 Years Prorated) against manufacturing defects. For details of the warranty coverage on the membrane modules supplied, please see Section 11.

2.6 Delivery

- ❑ **Packaging –** factory installed into the cassette frames, bagged and crated, ready for ocean shipment.
- ❑ **DDP -** Delivery will be by standard ocean/ground on the basis of DDP Jennings Road (Modesto) WWTP, 7007 Jennings Road, Modesto, CA, USA or other named place of destination; Incoterms 2010. DDP = Delivery Duty Paid. Partial shipments will be acceptable unless otherwise specified. Where delivery cannot be accepted at this destination, Modesto shall specify an alternate, equivalent destination without delay.

  Due to varying origins and availability, non-membrane items included in this proposal may be shipped separately from the membranes. Should separate shipments be required, where possible, GE will strive to provide these items on or before the delivery of the membranes.
- ❑ **Origin** - Delivery of ZeeWeed membranes originates from the GE Water & Process Technologies, ZENON Membrane Products (ZEM), Bláthy Ottó u 4, Oroszlány, 2840 Hungary facility.
- ❑ **Title & Risk** - Title and risk of loss or damage to membrane modules, cassette frames and crating shall pass to Modesto upon delivery at the named place of destination.

- **Export Documents** - All ZeeWeed membrane module shipments into the USA require clearance documentation from the EPA. GE will prepare and provide the required EPA documentation to the Carrier.
- **MPF** - Merchandise Processing Fee is a fee assessed for formal custom entries based on 0.35% of the invoice value, with a minimum of USD $25 per formal entry and a maximum of USD $485. On the basis of DDP terms, this fee will be paid by GE within the quoted price.
- **Taxes and Duty** - Any new duty imposed after the date of this proposal is the responsibility of Modesto. All applicable Local, State, or Federal taxes are the responsibility of Modesto.
- **Temperature** - UF membranes cannot be allowed to freeze or overheat and may require temperature-controlled freight and handling according to the season and the planned routing. If required, the price of temperature control will be included within the firm quote on freight by GE.
- **Unloading** - may require one of or a combination of a loading dock, extended forks and an experienced fork lift driver at delivery destination. Please consult with GE at the time of Purchase Order preparation on this.

  Shipping Crate Information (estimated)

Qty	Description	Dimensions (in.)	Weight (lb.)
12	ZW500D 48M LEAPmbr Cassette with Membranes	L=110 x W=89 x H=83	3,990

- **Availability** - Delivery of membrane modules and cassettes is typically 10 - 20 weeks after receipt of order. Definitive Membrane Module and LEAPmbr upgrade cassette refurbishment kit availability will not be confirmed until a Purchase Order is received from Modesto and acknowledgement of a Purchase Order is issued by GE.

2.7 On-Site Technical Advisory Services

The proposal includes a provision for Technical Advisory Services during installation and commissioning process to Modesto's staff by 2 GE Field Service Representatives on site for 6 working days of 8 hours per day. GE strongly recommends that Modesto consider having at least one experienced person on site during this period.

The following activities would be executed and completed jointly by GE personnel and plant staff:

- Remove existing membranes/cassettes;
- Install new membranes/cassettes;
- Upload required revisions to the PLC program with adjusted set-points;
- Perform bubble test where applicable to test membrane integrity and review Trans Membrane Pressure (TMP) on the installed membranes and compare to expected values for new membranes.

Operating Responsibility - Modesto retains control of the work site and retains final responsibility for the installation and commissioning process.

GE will perform the services specified in the scope section of this document, but GE will not operate the system. For the purposes of this agreement, the term "operate the system" shall mean to run or control the functioning of the equipment or to otherwise conduct or manage the affairs of any aspect of water or wastewater treatment or other functions at Modesto's site, and shall include functions such as providing operators or laborers to adjust or control water treatment ("WT") equipment, wastewater treatment ("WWT") equipment or sludge management facilities ("SWF"), providing program oversight or directing on-site or contract operators/laborers to adjust or control WWT or SMF, providing personnel responsible for or providing oversight of water treatment residual quality, wastewater effluent quality, sludge quality, waste characterization, or waste disposal activities, or providing personnel with continual or daily operational responsibilities with respect to water or wastewater treatment, influent or effluent compliance monitoring, process monitoring, government reporting or notification, or permit compliance.

Waiting Time - Any overtime or waiting times required due to unforeseen site events outside the control of GE will be invoiced according to the prevailing GE Service Labor Rates Sheet, available on request.

GE Duties for On Site Services

- ❑ GE will coordinate its work under this agreement in a reasonable manner with the operating staff of the facility.
- ❑ GE will maintain public liability and property damage insurance covering all operations undertaken by GE and its sub-contractors with a minimum limit of $5,000,000 inclusive for any one accident or occurrence. If for any reason additional insurance coverage (e.g. General Construction/Erection All Risk, General Liability) is required above and beyond GE's standard insurance terms for on-site commissioning supervision, Modesto must inform GE in writing 60 days prior to work commencement at site. Modesto will be billed for all additional insurance costs and processing fees.
- ❑ GE will maintain Workers Compensation and Employers' Liability coverage as per statutory requirements.

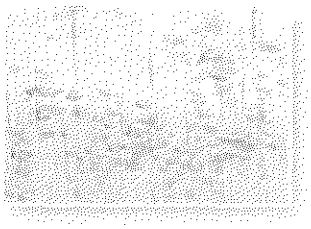
3 Introduction to LEAPmbr Aeration Upgrade

GE Water & Process Technologies is pleased to present this proposal at the request of the City of Modesto, California to upgrade the existing cassettes to LEAPmbr aeration technology at the Jennings Road (Modesto) Wastewater Treatment Plant.

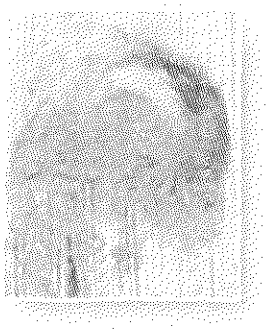
3.1 Features & Advantages

LEAPmbr aeration technology is GE's innovative technology advancement for wastewater treatment, addressing our customers' key challenges and providing the **l**ow **e**nergy and **a**dvanced **p**erformance solution demanded by the global wastewater treatment and reuse market.

The LEAPmbr aeration technology offers the following advantages:



- ❑ Larger air bubble size which increases shear along membrane surface, reducing fouling and thus lengthening cleaning intervals.
- ❑ Continuous air flow at significantly lower flow rates.
- ❑ Simplified aeration system controls, as air is delivered on a continuous basis, which eliminates the need for high frequency cycling of cyclic aeration valves.



- ❑ Energy consumption savings related to reduced membrane blower loads.
- ❑ Savings related to the elimination of maintenance costs for high-frequency cyclic aeration valves.

LEAPmbr aeration technology operates at two discrete airflows, LEAP-Lo and LEAP-Hi, based on the plant operating conditions. Under average daily flow (ADF) conditions where most plants operate the majority of the time, the membrane cassettes will operate under the LEAP-Lo airflow condition. Under flow conditions greater than ADF, where the membranes are operated at a higher flux, the airflow rate increases to the LEAP-Hi condition. The modulation between Lo and Hi airflow conditions is automatically managed by the control code through the FCV/VFD for each blower or through the number of blowers in operation.

Additional information regarding GE's LEAPmbr aeration technology can be found in Attachment A.

3.2 Operational Savings

Energy Savings

Upgrading to LEAPmbr aeration will allow the membrane system to operate with lower air flows and corresponding lower plant energy consumption than the current membrane system aeration. With its reduced blower output, LEAPmbr aeration can typically provide a 30% reduction in blower energy use under normal operation and up to a 50% reduction depending on the system configuration when all cassettes have been upgraded. GE has estimated that the power consumption savings will be ***106,000 KWH/year for the Modesto WWTP***. This is a preliminary estimation. GE will conduct a detailed analysis of the power requirements during final proposal submission, if necessary

Cyclic Valve Savings

For new plants, only one air header and one automated valve is required per train. However, to minimize changes to the Modesto plant, existing air headers in the membrane tanks and the cyclic valves will be utilized. If preferred, one of the air headers can be made available for removal and salvage with minor cassette modifications.

Following conversion, there is no further requirement for the high frequency operation of the cyclic valves. The valves will operate as actuated isolation valves and only close when the train is not in production (i.e. OFF, shutdown, cleaning steps or in standby) and the PLC program will be modified to operate the cyclic valves as normal open/closed isolation valves (i.e. - they will no longer cycle during normal operation).

In addition to the reduced valve wear and maintenance, re-purposing of the cyclic valves also eliminates the following potential problems related to cyclic valve failures:

- ❑ Train shut downs,
- ❑ Higher blower energy consumption,
- ❑ Compressor operation, energy consumption and wear and tear,
- ❑ The cost and inconvenience of repair and maintenance call-ins, and
- ❑ Adverse effects of cyclic valve failures on membranes.

3.3 Implementation

Upgrading to LEAPmbr aeration requires careful planning and implementation. To avoid technical challenges related to converting the plant one train at a time with lengthy intervening delays, GE recommends retrofitting all 4 trains in one stage. The retrofit is expected to take 6 days with 3-4 people working 8-10 hours per day. GE's price includes 2 GE FSR for supervision, replacement of cassettes and operation confirmation and assumes 1-2 staff from Modesto will be available to assist for the full duration of the retrofit. GE strongly recommends that at least one person assisting with the retrofit be proficient at working with PVC pipe, fittings and glue.

During installation, trains or portions of trains will be shut down for extended periods of time which may affect the Jennings Road (Modesto) WWTP water treatment capacity. After the Purchase Order is acknowledged, GE's Project Manager for the installation will consult with Modesto to jointly develop the installation plan and work schedule with due regard for equipment delivery to the plant and plant preparation.

3.4 Blowers

For the purposes of this proposal and based on an initial review, the range of blower turndown capacity has been assumed to be adequate for this upgrade. Further review of the blower capacities with the blower supplier will be required.

Resheaving parts have been included in the price and will be supplied by GE. GE can assist with the mechanical installation of the blower sheaves but any and all electrical adjustments required to meet new air flows will be the responsibility of Modesto or their 3rd party designate. GE will determine the modified air flow requirements for the new plant configuration with LEAPmbr aeration.

EXHIBIT A

4 ZeeWeed Configuration

Configuration Data	Existing Plant Configuration	Proposed After Replacement
Number of Trains, Plant	4	4
Number of Trains As Configured	4	4
Total Number of Cassettes Frames per Train	3	3

1	On-Site Technical Advisory Support per Section 2.7			22,245
1	CA State Sales Tax (7.625%)			81,107
	All Figures are in USD. Please make Purchase Order to ZENON Environmental Corporation.		**Total:**	**1,144,814**
Please note that values are calculated using rounded values. Minor variances may occur.				

EXHIBIT A

Invoicing Schedule	% of total Invoice
An invoice will be issued upon acceptance by GE of customer Purchase Order. Percent calculation based on full scope of the Purchase Order. Shipment of membranes is contingent on receipt of this initial milestone payment.	30%
An invoice will be issued when membrane module shipping documents are supplied to the Carrier.	60%
A final invoice will be issued upon completion of installation, or 30 days after delivery if GE is not providing Onsite Technical Installation Support.	10%
Total	100%

Pricing Notes

Pricing is conditional on the following critical operating assumptions:

- ❑ The use of Modesto's on-site crane for 100% of cassette maneuvering requirements including removal, positioning of cassettes and re-installation.
- ❑ GE will collaborate with Modesto in advance of the on-site assistance visit to determine the most suitable workspace location to perform the activity. If activity is to be conducted outdoors, Modesto will provide environmental relief and protection to the workers (i.e. shade tents).
- ❑ Proper and sufficient drainage exists in the workspace area or elsewhere to accept runoff as each cassette is hosed down prior to and/or during activity.

Each of the operating assumptions listed above are subject to careful review by Modesto to confirm their feasibility.

Contractual Basis for Membrane Replacement Price

The base price of replacement ZW-500D 340ft² membrane modules for this project is $985 US per module.

GE will guarantee this price until May 23, 2020 (conclusion of warranty replacement) subject to adjustment for inflation (PPI All Commodities, Not Seasonally Adjusted according to US Bureau of Labor Statistics) or a maximum equivalent price per gallon of treatment capacity in the event that the module area/permeability etc. changes such that the same amount of feed water can be treated with fewer modules of the next generation design.

GMRP price escalation -calculation of the PPI begins on February 26, 2008 (signed contract agreement date) and will expire on May 23, 2020.

Membrane replacement prices are quoted FOB point of delivery (shipping charges covered by seller). Membrane replacement prices are quoted without taxes.

Adjusted Membranes Replacement Price to AUG 2017	
Contractually Guaranteed Membrane Replacement Price USD$	985.00
Initial CPI Value - Feb 2008	169.60
Forecasted CPI Value - Aug 2017	188.24
CPI Factor	10.99%
Surface Area Adjustment Factor (340ft² vs. 370ft²)	8.82%
Adjusted Membrane Replacement Price for this proposal - USD$	1,189.72
This price is subject to further inflation adjustment through to the date of actual shipment of the replacement modules.	

6 Scope - Modesto

6.1 Installation Preparation

- ❑ Receive, off-load, handle and provide temperature controlled storage of the equipment and materials required for Seller to perform the duties outlined in the Seller's Scope of Supply.
- ❑ Membrane must be stored in a sheltered area, protected from freezing, direct sunlight or extreme heat, and sealed as shipped until ready for use. Storage should be in a dark, dry, level area at a temperature of 5-30°C (41-86°F). Membranes have a shelf life of 1 year before requiring re-preservation and should not be stored longer than necessary prior to installation. Modesto is responsible for risk of loss of Seller's parts while in storage at the customer's plant.
- ❑ Inspect, evaluate and make repairs as required for the membrane tanks, mounting brackets, hoses and all connections prior to GE arriving at site.
- ❑ Provide all access structures (such as scaffolding) and mechanical lifting equipment including cranes, forklifts and scissor lifts.
- ❑ Assure availability of a copy of the Operating Manual, all Process and Instrumentation Drawings, and all Electrical Drawings on site and accessible for reference.
- ❑ Maintain adequate insurance coverage for the risks of fire, theft, vandalism, floods and personal injury to authorized or unauthorized visitors.

6.2 Installation

- ❑ Provide 1 or more plant personnel to work continuously with the GE Service Representatives during installation and commissioning of the modules for the full duration of the site visit.
- ❑ Modesto will afford Seller's personnel free access and egress of the facility for all authorized work. Modesto will provide reasonable access to workshop facilities with standard workshop tools and equipment as is necessary to meet any repair and maintenance requirements of the system during installation.
- ❑ Provide adequate illumination and emergency lighting for all areas in which the Seller will be executing the scope of supply. Provide all site utilities such as raw water,

instrument quality air, potable water and power required for operation of the proposed equipment included in this scope of supply. Assure that adequate quantities of membrane cleaning and neutralizing chemicals are on hand for wash procedures including sodium hypochlorite, sodium bisulphite, citric acid and sodium hydroxide. Supply telephone/fax/modem access while Seller's staff members are on-site.

- ❑ Provide assistance to remove cassettes from the system as required.
- ❑ Provide assistance to clean (if required) each cassette as it is removed from the system.
- ❑ Provide assistance to return new cassettes to the system.
- ❑ Dispose of all retired membrane modules and cassette components.
- ❑ Dispose of shipping and packaging materials unless specifically requested not to do so by GE.
- ❑ At the end of the site visit, prior to departure of the GE Service Representative, Modesto will sign a Work Order that describes the hours on site and the Technical Advisory Services provided.

7 Solution Design Notes

7.1 Permits

Regulatory Requirements

Modesto is responsible to review and report to the permit granting agency on the impact of any of the proposed changes on the regulatory permit. GE will provide the necessary manufacturer's technical support on regulatory issues.

Utilization

GE understands that these modules are required as replacements for currently installed modules.

These modules are offered on the basis that the membrane modules will not be used to provide expanded flow beyond the current plant flow rating. GE makes no guarantees, implied or otherwise as to the performance of these modules in any other capacity than as replacement membranes.

Replacing the current ZW500D 340ft² modules with ZW500D 370ft² modules matches the current membrane surface area in each train (48,280ft² vs. 48,840ft²) and leaves additional spare space (10 membrane slots per train) for future module placement that could be used for flux remediation or for plant expansion subject to a review of the limitations of other equipment and hydraulic capacities.

7.2 Maintenance Notes for Replacement Membranes

At the time of any full plant membrane replacement, it is recommended to evaluate the appropriate timing of repairs or replacement of the following ancillary system components:

- ❑ Is it the right time to address any tank coating repairs which may be required?

- ❑ Are any of the aeration or permeate connection hoses, clamps, camlocks, camlock seals and couplings due for replacement?

Preferential Flow

Preferential flows can create a risk of over-fluxing of new modules when they are installed in the same train with older modules. The mixing of old and new modules in the same cassette also makes management of slack adjustment more difficult. GE recommends that Modesto plan membrane module replacement on a complete cassette and complete train basis wherever possible to achieve both optimal performance and best value from the new membrane modules. In this case, by replacing all membrane modules in the plant, this risk has been neutralized.

Membrane Slack

GE's membranes are supplied and shipped with an initial factory fiber slack designed to optimize membrane air scouring during operation as well as accommodate a degree of shrinkage. Membranes shrink in length early in their lifecycle when exposed to higher temperature water. The pace of shrinkage slows with age. With the installation of new membranes, the requirements for slack adjustment start a new cycle.

Due to the wide variety of operating environments in which our products can be utilized, it is difficult to generally predict the rate of shrinkage. If membranes operate in a condition of insufficient slack for an extended period of time, irreversible damage to the fiber-urethane bond may occur. Please refer below to the recommended inspection frequencies based on your plant's membrane tank operating temperature. Visual inspections should begin during the membrane installation and be repeated over time on the same cassette. Digital pictures will allow for comparative analysis of the fiber slack over time.

Maximum Operating Temperature	Recommended Slack Inspection Frequency
0-24 °C / 32-76 °F	Every 2 years
25-30 °C / 77-86 °F	Once Per Year
>30 °C / > 86 °F	Twice Per Year

Bubble Test Pressure

The bubble test pressure for the purchased membranes is 2 psi horizontally and 3 psi vertically.

7.3 Technical

Pacing, Staging

Replacing membranes and upgrading to LEAPmbr aeration requires careful planning of the stages of implementation.

Hoses & Fittings

GE has assumed for this proposal that the current aeration and permeate cassette connections for the ZW500D cassettes do not need replacing at this time. If this is not so, please advise GE and request that they be added to this proposal.

Production Interruption

During installation of the ZeeWeed cassettes, trains may be shut down for extended periods of time which will affect Modesto treatment capacity. After the Purchase Order is acknowledged, GE's Project Manager for the installation will consult with Modesto to jointly develop the

installation plan and work schedule with due regard for membrane delivery to the plant and plant preparation.

8 Health & Safety

Modesto

- ❑ Modesto will identify and inform Seller's personnel of any site specific hazards present in the work place that could impact the delivery of Seller's scope of supply and agrees to work with Seller to remove, monitor, and control the hazards to a practical level.
- ❑ Modesto will provide training to Seller's personnel on all site specific and standard company operating procedures and practices for performing work on site. Such training programs may include, but are not limited to, general Environmental Health & Safety (EHS), HAZOP, fire protection, drug testing, incident notice, site conduct, standard first aid, chemical receiving, electrical safety, etc. Modesto will provide a certificate of training for Seller's personnel. This program will be fully documented, training materials will be provided, and attendance list will be kept.
- ❑ If any type of lifting devices will be used on site, Modesto will provide proof of its maintenance, inspection and certification documentation upon request and will assist the GE Service Representative to complete a safety inspection checklist.
- ❑ Where confined space entry may be required, Modesto will provide early notice and will collaborate with GE in planning adequate staffing and in advising the local fire/rescue department as required.
- ❑ No time or cost provision has been made for preparations such as safety record clearances, drug testing, insurance confirmations or pre-job-training in excess of 1 hour. Prior to finalizing the Purchase Order and the work schedule, Modesto will advise GE of any pre-job or pre-mobilization requirements. Where these requirements exceed 1 hour, this time will be charged to Modesto at rates set out in the prevailing GE Labor Rate Sheet.
- ❑ Where certain short duration activities require two people for safety and the GE Service representative is alone at site, Modesto will cooperate as required to assure that correct safety precautions are taken.
- ❑ Modesto is responsible for the following environmental provisions:
  - Environmental use and discharge permits for all chemicals at Modesto's facility either listed in this document or proposed for use at a later date;
  - Any special permits required for Seller's or Modesto's employees to perform work related to the water treatment system at the facility;
  - All site testing, including soil, ground and surface water, air emissions, etc.;
  - Disposal of all solid and liquid waste from the Seller's System including waste materials generated during construction, start up and operation.
- ❑ Modesto is responsible for provision of health and safety facilities to Seller's Field Service Representatives to the same extent that they are provided to Modesto's own employees, including provision of:

- Eyewash and safety showers in the water treatment area;
- Chemical spill response;
- Security and fire protection systems per local codes;

GE

- ❑ All work on site will be performed in accordance with applicable law and will be performed reasonably, in a clean and safe manner. The GE Service Representative will abide by the more stringent of the applicable health, safety and environmental policies and procedures of either Modesto or GE.
- ❑ GE will provide all applicable safety training required by GE policies or by state or national health and safety regulations. The GE Service Representative will have undergone Workplace Hazardous Material Information System (WHMIS) training and will come equipped with necessary Personal Protective Equipment (PPE).
- ❑ Emergencies - In emergencies affecting the safety of persons, work or property at the site and adjacent thereto, GE will act, without previous instructions from Modesto, as the situation warrants. GE will notify Modesto immediately thereafter.

9 Quality at GE – The Vision

We are driven by a passion for delivering on every commitment. We are dedicated to providing our customers the highest quality offerings with unparalleled customer service and responsiveness. We are committed to working through any problem in an open and honest manner—always with unyielding integrity.

Quality Policy

At GE Water, we are committed to:

- ❑ Passionately driving customer satisfaction and loyalty by partnering with customers to help achieve their success.
- ❑ Delivering results with a sustained global compliance culture.
- ❑ Continually improving everything we do.
- ❑ Empowering our employees to engage and own Quality.

We will accomplish this by building on our strong foundation of Quality and raising the bar to the next level of success. By operationalizing Quality and engaging everyone on our team, we will create a culture where our customers, suppliers and employees feel the difference.

10 Terms and Conditions of Sale

A - Specific Terms and Conditions of Sale

1 Legal Entity for Contracting

ZENON Environmental Corporation is the name of the legal entity providing services and is an affiliate of GE Water & Process Technologies. Purchase Orders and Checks should be made out using the name ZENON Environmental Corporation.

Please advise us if this GE entity is not set up in your purchasing system as a vendor and you do have another GE entity set up. We are keen to make the purchase process as convenient as possible for Modesto.

Short Form: Where a short reference is required in this document, for convenience, we are called simply **GE.**

2 Payment Terms

On approved credit, payment terms are Net 30 Days from customer receipt of invoice. Please see the Invoicing Schedule in Section 5, Price.

3 Proposal Validity

Prices quoted and proposal terms are valid up to thirty (30) days after the date of issue of this proposal unless confirmed with a Purchase Order.

4 Bonds

Performance or Payment Bonds are not included in the price. These bonds can be purchased on request but will be at an additional cost.

5 Flight Booking

Prices quoted for installation which include airfare are either based on timely confirmation of a visit schedule or based on receipt of a Purchase Order in time to book any flights seven days in advance. Additional airfare charges related to late arrival of a Purchase Order will be extra and billed through to Modesto without mark-up.

6 Warranty on Programming

GE warrants that the PLC program will conform to the specifications in the relevant sections of the CLSC and OSC (revised for the project) and will be free from defects in workmanship when operated at all times in accordance with GE's written instructions. If any defects are found and reported by Modesto within a period not exceeding twelve (12) months beyond the completion of the site acceptance test, GE will make modifications to the PLC code as deemed necessary. Any changes requested by Modesto after this period will be at the customer's expense.

7 Purchase Order Guidelines

Please ensure that your Purchase Order has covered the following points. This will ensure accurate and prompt order entry, product delivery, invoicing and accounts receivables processing and will prevent administrative delays for all parties.

- **Legal Entity** - Please be sure your Purchase Order is issued in the name of the specific GE legal entity issuing this proposal cited above. We will be glad to work with your Purchasing department to set this entity up as an approved Supplier/Vendor. Please advise us if this GE entity is not set up in your purchasing system as a vendor and you do have another GE entity set up.
- **Hard Copy** - Our strong preference is to receive a hard copy of your Purchase Order rather than a PO number alone.
- **Proposal Number and Date** - Please reference the 6 digit Proposal Number and the Proposal Date which are found in the footer of each page.
- **Price** – State the total price you are accepting for this order.
- **Taxes** - Provide any required tax exemption certificates.
- **Ship-To Address** - Please clearly define the plant site address or delivery location and the Receiver's email & telephone. Please specify receiving hours and any special off-loading requirements.

- ☐ **Delivery Date** - Please include your requested delivery date or agreement start date.
- ☐ **Purchase Order** – Please send your Purchase Order to GE by email to *Service.pocentral@ge.com*

B – General Terms and Conditions of Sale

Note to Purchasing Agent: The following are GE's standard set of commercial terms & conditions, written for moderate value transactions to allow an efficient and rapid provision of services and parts. Where Master Corporate Agreement Terms or previously negotiated Terms have been agreed with GE these may be brought forward by either party and applied by mutual consent. If one or the other of these 2 Terms sets is not immediately acceptable to Modesto, please anticipate a typical 6-10 week cycle of mutual review to build agreement on changes.

1. **Exclusive Terms and Conditions.** Together with any other terms the Parties agree to in writing, these General Terms and Conditions – together with the last proposal in order of time issued by the Seller – form the exclusive terms ("Agreement") whereby Buyer agrees to purchase, and Seller agrees to sell products and equipment (jointly "Equipment") and to provide advice, instruction and other services in connection with the sale of that Equipment ("Services"). If Buyer sends to Seller other terms and conditions to which Seller may not respond, including but not limited to those contained in Buyer's purchase order, such shall not apply. This Agreement may only be revised by a change order approved in writing by both Parties. All terms not defined herein shall be defined in Seller's proposal.

2. **Equipment and Services.** The Equipment to be delivered and the Services to be provided shall be as set out in this Agreement. Unloading, handling, storage, installation, and operation of Buyer's systems or the Equipment are the responsibility of Buyer. Buyer shall not require or permit Seller's personnel to operate Buyer's systems or the Equipment at Buyer's site.

3. **Prices and Payment.** Buyer shall pay Seller for the Equipment and Services in accordance with the payment schedule (as set forth in Seller's proposal or, if applicable, in any special conditions agreed to in writing by the Parties). Unless otherwise specified in writing, payment is due net thirty (30) days from the date of Seller's invoice. Seller may require a Letter of Credit or other payment guarantee, in which case the stated amount of the guarantee will be adjusted by Buyer in the event of any currency-based adjustment to prices or payment amounts per the Payment Schedule, and Buyer shall deliver the adjusted guarantee within five (5) days of request by Seller. Buyer agrees to reimburse Seller for collection costs, including 2% (two percent) interest per month (not to exceed the maximum amount permitted by applicable law), should Buyer fail to timely pay. Buyer shall have no rights to make any deduction, retention, withholding or setoff relating to any payments due under this Agreement.

4. **Taxes and Duties.** Seller shall be responsible for all corporate taxes measured by net income due to performance of or payment for work under this Agreement ("Seller Taxes"). Buyer shall be responsible for all taxes, duties, fees, or other charges of any nature (including, but not limited to, consumption, gross receipts, import, property, sales, stamp, turnover, use, or value-added taxes, and all items of withholding, deficiency, penalty, addition to tax, interest, or assessment related thereto, imposed by any governmental authority on Buyer or Seller or its subcontractors) in relation to the Agreement or the performance of or payment for work under the Agreement other than Seller Taxes ("Buyer Taxes"). The Agreement prices do not include the amount of any Buyer Taxes. If Buyer deducts or withholds Buyer Taxes, Buyer shall pay additional amounts so that Seller receives the full Agreement price without reduction for Buyer Taxes. Buyer shall provide to Seller, within one month of payment, official receipts from the applicable governmental authority for deducted or withheld taxes. Buyer shall furnish Seller with evidence of tax exemption acceptable to taxing authorities if applicable, prior to execution of the Agreement by both Parties or issuance by the Seller of the order acceptance. Buyer's failure to provide evidence of exemption at time of order will relieve Seller of any obligation to refund taxes paid by Seller.

5. **Delivery, Title, Risk of Loss.** Unless otherwise specified in this Agreement, Seller shall deliver all Equipment to Buyer FCA (Incoterms 2010) Seller's facility. The time for delivery of the Equipment to Buyer shall be specified in this Agreement. Seller's sole liability for any delay in delivery of the Equipment shall be as expressly set out in this Agreement. The place of delivery specified herein shall be firm and fixed, provided that Buyer may notify Seller no later than forty-five (45) days prior to the scheduled shipment date of the Equipment of an alternate point of delivery, Buyer shall compensate Seller for any additional cost in implementing the change. If any part of the Equipment cannot be delivered when ready due to any cause not attributable to Seller, Buyer shall designate a climate-controlled storage location, and Seller shall ship such Equipment to storage. Title and risk of loss shall thereupon pass to Buyer, and amounts payable to Seller upon delivery or shipment shall be paid by Buyer along with

expenses incurred by Seller. Services provided herein shall be charged at the rate prevailing at the time of actual use and Buyer shall pay any increase, and Buyer shall pay directly all costs for storage and subsequent transportation. Failure by Buyer to take delivery of the Equipment shall be a material breach of this Agreement.

Title and risk of loss to the Equipment shall be transferred from Seller to Buyer at the point of delivery upon handover in accordance with this Agreement. Title and risk of loss to the Services shall pass as they are performed.

6. **Warranties and Remedies.** Seller warrants that Equipment shall be delivered free from defects in material, workmanship and title and that Services shall be performed in a competent, diligent manner in accordance with any mutually agreed specifications. Seller's warranty does not cover the results of improper handling, storage, installation, commissioning, operation or maintenance of the Equipment by Buyer or third parties, repairs or alterations made by Buyer without Seller's written consent, influent water which does not comply with agreed parameters, or fair wear and tear.

Unless otherwise expressly provided in this Agreement, the foregoing warranties are valid for:

a. chemicals and Services, for six (6) months from their date of delivery or the provision of Services;

b. consumables, including filters and membranes (other than membranes for process treatment), twelve (12) months from their date of delivery;

c. membranes for process treatment, ninety (90) days from their date of delivery;

d. Equipment other than chemicals and consumables, the earlier of, fifteen (15) months from delivery or shipment to storage, or twelve (12) months from start-up/first use;

e. software, ninety (90) days from the date of receipt;

f. Equipment not manufactured by Seller, the warranty shall be the manufacturer's transferable warranty only,

Any claim for breach of these warranties must be promptly notified in writing, and Buyer shall make the defective item available to the Seller, or the claim will be void. Seller's sole responsibility and Buyer's exclusive remedy arising out of or relating to the Equipment or Services or any breach of these warranties is limited to repair at Seller's facility or (at Seller's option) replace at Seller's facility the defective item of Equipment, and re-perform defective Services. In performance of its obligations hereunder, Seller will not control the actual operation of either Buyer's systems or the Equipment at the Buyer's site.

Warranty repair, replacement or re-performance by Seller shall not extend or renew the applicable warranty period.

The warranties and remedies are conditioned upon (a) proper unloading, handling, storage, installation, use, operation, and maintenance of the Equipment and Buyer's facility and all related system in accordance with Seller's instructions and, in the absence, generally accepted industry practice, (b) Buyer keeping accurate and complete records of operation and maintenance during the warranty period and providing Seller access to those records, and (c) modification or repair of Equipment or Services only as authorized by Seller in writing. Failure to meet any such conditions renders the warranty null and void.

The Buyer will be entitled to assign to a subsequent owner of the Equipment the warranties of the Seller under this Agreement, provided that a prior written notification is sent to the Seller and the assignment agreement contains terms and conditions which provide the Seller with the protections of the warranties and limitations on liability contained in the Agreement. Subject to Buyer's compliance with the foregoing requirement, such warranty rights are expressly assignable by the Buyer to a subsequent owner of the Equipment. Except as provided herein, Buyer is not entitled to extend or transfer this warranty to any other party. The warranties and remedies set forth in this article are in lieu of and exclude all other warranties and remedies, statutory, express or implied, including any warranty of merchantability or of fitness for a particular purpose.

Unless otherwise expressly stipulated in this Agreement, Seller gives no warranty or guarantee as to process results or performance of the Equipment, including but not limited to product quality, flow, production, capacity, membrane life, chemical consumption, regulatory compliance or energy consumption.

7. **General Indemnity.** Seller shall indemnify and hold harmless Buyer from claims for physical damage to third party property or injury to persons, including death, to the extent caused by the negligence of Seller or its officers, agents, employees, and/or assigns while engaged in activities under this Agreement. Buyer shall likewise indemnify and hold harmless Seller from claims for physical damage to third party property or injury to persons, including death, to the extent caused by the negligence of the Buyer, its officers, agents, employees, and/or assigns. In the event such

damage or injury is caused by the joint or concurrent negligence of Seller and Buyer, the loss shall be borne by each Party in proportion to its negligence. For the purposes of this article (i) "Third party" shall not include Buyer or any subsequent owner of the Equipment, their subsidiaries, parents, affiliates, agents, successors or assigns including any operation or maintenance contractor, or their insurer; and (ii) no portion of the Equipment is "third party property".

8. **Compliance with Laws and Permits.** All permits, authorizations, and licenses which are required to construct, install and/or operate Buyer's facility or equipment, to use the Equipment, or to manage and dispose of any wastes, discharges, and residues resulting from Buyer's use of the Equipment, shall be obtained and maintained by Buyer at Buyer's sole expense. Buyer is responsible for compliance with all laws and regulations applicable to the storage, use, handling, installation, maintenance, removal, registration, and labeling of all Equipment after delivery of the Equipment, as well as for the proper management and disposal of all wastes, discharges, and residues.

9. **Buyer's Site Conditions.** Buyer warrants that any data furnished to the Seller concerning conditions at Buyer's site (including but not limited to any existing Buyer facility, equipment or processes, influent water or other substances to be treated or measured with the Equipment) is accurate and complete, and the Seller reserves the right to utilize the most appropriate design compatible with generally accepted engineering practices, and to make changes in details of design, manufacture and arrangement of Equipment unless precluded by any limitations specified in this Agreement. Seller shall notify Buyer of (1) any conditions at Buyer's site which materially differ from those indicated in the data furnished by Buyer, (2) any previously unknown physical conditions at Buyer's site of an unusual nature, not revealed by previous investigations and differing from those ordinarily encountered in the type of work provided for in this Agreement, and (3) the presence of any Hazardous Materials (as defined below), the existence of a contaminated soil, unexploded ordinance, or archaeological remains. If such conditions cause an increase in Seller's cost or in the time required for the performance of Seller's obligations, Seller shall be entitled to an equitable adjustment in the Agreement price and an extension in the time for performance.

10. **Hazardous Materials and Wastes.** In the event that Seller encounters any Hazardous Materials (meaning toxic substances, hazardous substances, pollutants, contaminants, regulated wastes, or hazardous wastes as such terms may be defined or classified in any law, statute, directive, ordinance or regulations promulgated by any applicable governmental entity) at Buyer's site, other than Hazardous Materials introduced by Seller or that are otherwise the express responsibility of Seller under this Agreement, Buyer shall immediately take whatever precautions are required to legally eliminate such Hazardous Materials so that the Seller's work under this Agreement may safely proceed. At no time shall Seller be deemed to have taken title to or the responsibility for the management or disposal of any wastes, Hazardous Materials, influent water, any resultant product streams, wastewater streams, discharges, cleaning materials, or any other materials or substances processed by the Equipment or otherwise located at Buyer's site. Seller does not take responsibility for and hereby expressly disclaims responsibility for the characterization or disposal of wastes, Hazardous Materials, or for the identification, selection, or management of disposal facilities for any wastes.

11. **Excusable Delays.** Seller shall not be liable nor in breach or default of its obligations under this Agreement to the extent performance of such obligations is delayed or prevented, directly or indirectly, due to causes beyond the reasonable control of Seller, including, but not limited to: acts of God, natural disasters, unusually severe weather, fire, terrorism, war (declared or undeclared) epidemics, material shortages, insurrection, act (or omissions) of Buyer or Buyer's contractors/suppliers or agents, any act (or omission) by any governmental authority, strikes, labor disputes, transportation shortages, or vendor non-performance. The delivery or performance date shall be extended for a period equal to the time lost by reason of delay or non-performance, plus such additional time as may be necessary to overcome the effect of the delay or non-performance. If delivery or performance is delayed for a period exceeding 180 (one hundred and eighty) days, either Party may terminate this Agreement without further liability provided that Seller shall be paid an amount equal to that which would be payable to Seller under the article entitled "Termination". If Seller is delayed by any acts (or omissions) of Buyer, or by the prerequisite work of Buyer's other contractors or suppliers, Seller shall be entitled to an equitable adjustment in schedule, price and/or performance, as applicable.

12. **Emergencies.** If the safety of Seller's personnel is threatened or likely to be threatened by circumstances outside the reasonable control of Seller, including but not limited to war, armed conflict, civil unrest, riots, terrorism, kidnapping, presence of or exposure to hazardous materials, unsafe working conditions, or by the threat of such circumstances or a lack of adequate protections against such circumstances, Seller shall be entitled to take all necessary steps to ensure the security and safety of its personnel including the evacuation of personnel until such

circumstances no longer apply. Any such occurrence shall be considered an excusable delay event. Buyer shall reasonably assist in the event of any such evacuation.

13. **Confidentiality, Intellectual Property.** Both Parties agree to keep confidential the other Party's proprietary non-public information, if any, which may be acquired in connection with this Agreement. Buyer will not, without Seller's advance written consent, subject Equipment to testing, analysis, or any type of reverse engineering. Seller retains all intellectual property rights including copyright which it has in all drawings and data or other deliverables (including the Equipment) supplied or developed under this Agreement. Buyer agrees that it will not file patent applications on the Equipment or any development or enhancement of the Equipment, or of processes and methods of using the Equipment, without Seller's express prior written permission. Buyer further agrees that in any event any such patents will not be asserted against Seller or its other buyers based upon purchase and use of such Equipment. Seller grants to Buyer a non-exclusive, non-terminable, royalty free license to use the intellectual property embedded in Equipment delivered to and paid for by the Buyer, as well as any drawings, design or data delivered to and paid for by the Buyer, for the purposes of owning, financing, using, operating and maintaining the relevant Equipment at Buyer's site. Such license may only be assigned to a subsequent owner of the Equipment or to an operations and maintenance subcontractor. Such license does not extend to the re-creation of the Equipment or the manufacture of spares or consumables by Buyer or third parties.

    Any software Seller owns and provides pursuant to this Agreement shall remain Seller's property. Seller provides to Buyer a limited, non-exclusive and terminable royalty free project-specific license to such software for the use, operation or maintenance at Buyer's site of any Equipment purchased hereunder to which the software is a necessary component. Buyer agrees not to copy, sub-license, translate, transfer, reverse engineer, or decode the software.

    Seller shall indemnify and hold harmless Buyer from any rightful claim of any third party that any Equipment or Service infringe a patent in effect in the USA, or country of delivery (provided there is a corresponding patent issued by the USA), or USA copyright or copyright registered in the country of delivery. If the Buyer notifies the Seller promptly of the receipt of any such claim, does not take any position adverse to the Seller regarding such claim and gives the Seller information, assistance and exclusive authority to settle and defend the claim, the Seller shall, at its own expense and choice, either (i) settle or defend the claim and pay all damages and costs awarded in it against the Buyer, or (ii) procure for the Buyer the right to continue using the Equipment or Service, or (iii) modify or replace the Equipment or Service so that it becomes non-infringing, or (iv) remove the infringing Equipment and refund the price. The above paragraph shall not apply to any misuse of Equipment or Equipment which is manufactured to the Buyer's design, or to alleged infringement arising from the combination, operation, or use of any Equipment or Services with other equipment or services when such combination is part of any allegedly infringing subject matter. The foregoing list of sub-sections (i), (ii), (iii), and (iv) and related terms state the entire liability of the Seller for intellectual property infringement by any Equipment or Service.

14. **Limitations on Liability.** Notwithstanding anything else contained in this Agreement, to the maximum extent permitted by law, and regardless of whether a claim is based in contract (including warranty or indemnity), extra-contractual liability, tort (including negligence or strict liability), statute, equity or any other legal theory:

    a. THE TOTAL LIABILITY OF THE SELLER AND OF ITS INSURER FOR ALL CLAIMS ARISING OUT OF OR RELATING TO THE PERFORMANCE OR BREACH OF THIS AGREEMENT OR USE OF ANY EQUIPMENT OR SERVICES SHALL NOT EXCEED THE TOTAL PRICE PAID BY BUYER UNDER THIS AGREEMENT OR (IN THE CASE OF AN AGREEMENT FOR SERVICES WITH A TERM OF MORE THAN ONE YEAR) THE ANNUAL PRICE PAYABLE BY BUYER UNDER THIS AGREEMENT;

    b. IN NO EVENT SHALL SELLER BE LIABLE FOR ANY LOSS OF PROFIT OR REVENUES, LOSS OF PRODUCTION, LOSS OF USE OF EQUIPMENT OR SERVICES OR ANY ASSOCIATED EQUIPMENT, INTERRUPTION OF BUSINESS, COST OF CAPITAL, COST OF REPLACEMENT WATER OR POWER, DOWNTIME COSTS, INCREASED OPERATING COSTS, CLAIMS OF BUYER'S CUSTOMERS FOR SUCH DAMAGES, OR FOR ANY SPECIAL, CONSEQUENTIAL, INCIDENTAL, INDIRECT, PUNITIVE OR EXEMPLARY DAMAGES;

    c. SELLER'S LIABILITY SHALL END UPON EXPIRATION OF THE APPLICABLE WARRANTY PERIOD, PROVIDED THAT BUYER MAY CONTINUE TO ENFORCE A CLAIM FOR WHICH IT HAS GIVEN NOTICE PRIOR TO THAT DATE BY COMMENCING AN ACTION OR ARBITRATION, AS APPLICABLE UNDER THIS AGREEMENT, BEFORE EXPIRATION OF ANY STATUTE OF LIMITATIONS OR OTHER LEGAL TIME LIMITATION BUT IN NO EVENT – TO THE EXTENT PERMITTED BY APPLICABLE LAW – LATER THAN FIVE (5) MONTHS AFTER EXPIRATION OF SUCH WARRANTY PERIOD.

For the purposes of this article, "Seller" shall mean Seller, its affiliates, subcontractors and suppliers of any tier, and their respective agents and employees, individually or collectively. If Buyer is supplying Seller's Equipment or Services to a third party, Buyer shall require the third party to agree to be bound by this article. If Buyer does not obtain this agreement for Seller's benefit for any reason, Buyer shall indemnify and hold Seller harmless from all liability arising out of claims made by the third party in excess of the limitations and exclusion of this article.

15. **Termination.** This Agreement and any performance pursuant to it may be terminated by either Party, and the consequences of such termination shall be as set out in the next paragraph, if the other Party

a. becomes insolvent, makes an assignment for the benefit of its creditors, has a receiver or trustee appointed for the benefit of its creditors, or files for protection from creditors under any bankruptcy or insolvency laws; or

b. fails to make any payment when due or to establish any payment security required by this Agreement, or commits a material breach or defaults in its material obligations under this Agreement, and such default is not cured within thirty (30) days of written notice from the other Party.

Upon the termination of this Agreement by Buyer for cause (i) Seller shall reimburse Buyer the difference between that portion of the Agreement price allocable to the terminated scope and the actual amounts reasonably incurred by Buyer to complete that scope, and (ii) Buyer shall pay to Seller (a) the portion of the Agreement price allocable to Equipment completed, and (b) amounts for Services performed before the effective date of termination. Upon the termination of this Agreement by Seller for cause Buyer shall pay to Seller within thirty (30) days of receipt of invoice the price of all Equipment or Services delivered at the date of termination, plus an amount equal to all costs and expenses incurred in the engineering, sourcing, financing, procurement, manufacture, storage and transportation of the Equipment including materials, work in progress and any cancellation charges assessed against Seller by Seller's suppliers including reasonable overhead and profit on all such costs and expenses. Alternatively, if any schedule of termination payments has been agreed between the Parties, Buyer shall pay to Seller within thirty (30) days of receipt of invoice the amounts set out in that schedule.

Seller shall have the right to suspend performance upon written notice to Buyer in any case where Seller would have the right to terminate the Agreement under this article, without prejudice to Seller's right to terminate this Agreement for cause. Any cost incurred by Seller in accordance with any such suspension (including storage costs) shall be payable by Buyer upon submission of the Seller's invoice(s). Performance of the Seller's obligations shall be extended for a period of time reasonably necessary to overcome the effects of such suspension.

16. **Governing Law, Dispute Resolution.** This Agreement shall be governed by the substantive laws of the State of California. In the event of a dispute concerning this Agreement, the complaining Party shall notify the other Party in writing thereof. Management level representatives of both Parties shall meet at an agreed location to attempt to resolve the dispute in good faith. Should the dispute not be resolved within thirty (30) days after such notice, the complaining Party shall seek remedies exclusively through arbitration. The seat of arbitration shall be the federal district court closest to the Buyer and the rules of the arbitration will be the Commercial Arbitration Rules of the American Arbitration Association, which are incorporated by reference into this article.

Notwithstanding the foregoing, each Party shall have the right to commence an action or proceeding in a court of competent jurisdiction, subject to the terms of this Agreement, in order to seek and obtain a restraining order or injunction to enforce the confidentiality intellectual property provisions set forth in the first two paragraphs of article 13; nuclear use restrictions set forth in article 17, or to seek interim or conservatory measures not involving monetary damages.

17. **No Nuclear Use.** Equipment and Services sold by Seller are not intended for use in connection with any nuclear facility or activity, the Buyer warrants that it shall not use or permit others to use the Equipment or Services for such purposes, without the advance written consent of Seller. If, in breach of this, any such use occurs, Seller (and its parent, affiliates, suppliers and subcontractors) disclaims all liability for any nuclear or other damage, injury or contamination, and, in addition to any other rights of Seller, Buyer shall indemnify and hold Seller (and its parent, affiliates, suppliers and subcontractors) harmless against all such liability.

18. **Export Control.** Seller's obligations are conditioned upon Buyer's compliance with all USA and other applicable trade control laws and regulations. Buyer shall not trans-ship, re-export, divert or direct Equipment (including software and technical data) other than in and to the ultimate country of destination declared by Buyer and specified as the country of ultimate destination on Seller's invoice.

19. **Changes.** Each Party may at any time propose changes in the schedule or scope of Equipment or Services. All changes to the Equipment or Services shall be subject to mutual agreement via a written change order or variation, which shall only become effective once signed by both Parties. The scope, Agreement price, schedule, and other provisions will be equitably adjusted to reflect additional costs or obligations incurred by Seller resulting from a change, after Seller's proposal date, in Buyer's site-specific requirements or procedures, or in industry specifications, codes, standards, applicable laws or regulations. It shall be acceptable and not considered a change if Seller delivers Equipment (including Equipment replacement under warranty) that bears a different, superseding or new part or version number compared to the part or version number listed in the Agreement, provided that in no circumstance shall this affect any other of Seller's obligations including those set forth in article 6.

20. **Conflicts; Survival, Assignment.** If there is any conflict between this Agreement and any written proposal or quotation provided by Seller, then the terms and conditions set forth in this Agreement shall prevail. If any term or condition of this Agreement or any accompanying terms and conditions are held invalid or illegal, then such terms and conditions shall be reformed to be made legal or valid, or deleted, but the remaining terms and conditions shall remain in full force and effect, and this Agreement shall be interpreted and implemented in a manner which best fulfills Parties' intended agreement. Those provisions which by their nature remain applicable after termination shall survive the termination of this Agreement for any reason. Seller may assign or novate its rights and obligations under the Agreement, in whole or in part, to any of its affiliates or may assign any of its accounts receivable under this Agreement to any party without Buyer's consent, and the Buyer hereby agrees, by signing this Agreement, to such assignment and to execute any document that may be necessary to complete Seller's assignment or novation. This Agreement shall not otherwise be assigned by either Party without the other Party's prior written consent, and any assignment without such consent shall be void.

    Seller may (i) manufacture and source the Equipment and any part thereof globally in the country or countries of its choosing; and (ii) may subcontract portions of the Services, so long as Seller remains responsible for such.

21. **No Third Party Beneficiary.** Except as specifically set forth in the article entitled "Limitations on Liability" and "No Nuclear Use", this Agreement is not intended to, and does not, give to any person who is not a party to this Agreement any rights to enforce any provisions contained in this Agreement.

22. **Entire Agreement.** This Agreement embodies the entire agreement between Buyer and Seller and supersedes any previous documents, correspondence or agreements between them. No modification, amendment, revision, waiver, or other change shall be binding on either Party unless agreed in writing by the Party's authorized representative. Any oral or written representation, warranty, course of dealing, or trade usage not specified herein shall not be binding on either Party. Each Party agrees that it has not relied on, or been induced by, any representations of the other Party not contained in this Agreement.

Global - New York Law_2013_06

11 Seller's Warranty - ZeeWeed Membrane Module

10 Year (2+8) Prorated Replacement – Modesto

This schedule sets out the warranty with respect to ZeeWeed Membrane Modules ("Membrane Modules"). No other warranties, expressed or implied are made in connection with the sale of these products, including, without limitation, warranties as to fitness for any particular purpose or use or merchantability of these products. The warranty provided herein will be the exclusive and sole remedy of Buyer, and in no event will the Seller be liable for any special, direct, indirect or consequential damages, including, without limitation, loss of profits. This warranty is not transferable.

1 Product

This warranty applies to only the Membrane Modules supplied under the Contract of Sale. Membrane Module means the fibers and the potted plastic headers. This warranty does not cover air piping to the Membrane Module, permeate piping from the Membrane Module, piping connection fittings, connecting hardware and cassette frames with their associated components including but not limited to spacers, aerator tubes, aerator assemblies, screen, module dummies or module blanks.

Identification: Membrane Modules are shipped by the Seller with a serial number identification which confirms their place in the cohort set of Membrane Modules covered by this Membrane Module warranty.

2 Seller

ZENON Environmental Corporation is the name of the Seller and is the Seller offering this warranty. The Seller may assign this warranty to other GE affiliates.

3 Buyer

Buyer means City of Modesto, California.

4 Project

Project means the 528 membrane modules sold under this proposal number 186238-2.

5 Contract of Sale

Contract of Sale means the sales contract governing the sale of Membrane Module(s) for the Project between Buyer and the Seller or its GE affiliate.

6 Scope of Warranty

The Seller warrants that its Membrane Module(s) will be free of defects due to faulty materials or errors in manufacturing workmanship.

Regular Membrane Module inspection and normal fiber repair shall be the responsibility of Buyer.

All replacement Membrane Modules will be shipped on the basis of INCOTERMS 2010 FCA GE Manufacturing facility.

All ancillary costs including but not limited to bagging, boxing, crating, freight, freight insurance, applicable taxes, import duties, certifications, brokerage, receiving, forklift services, storage at site, re-attachment hardware, hose/clamp/camlock replacement, crane services, installation, fiber repair materials, glycerin flushing, commissioning and waste disposal are the responsibility of Buyer.

Full Replacement – Full Replacement means that in the case of a valid warranty claim for a Membrane Module failure, Buyer receives a replacement Membrane Module and does not pay for the value of use of the Membrane Module prior to failure.

Prorated Replacement – Prorated Replacement means Buyer pays for actual use of a membrane module from which Buyer has derived value over time. Prorated Replacement allows the Seller to pay reasonable compensation under warranty for any product use not enjoyed by Buyer due to premature failure.

The ratio of Full Replacement to Prorated Replacement in this Warranty is set out in Item 8 of Section 11.

7 Warranty Start Date

For the original membrane modules in a plant, this membrane warranty will start on the earlier of:

a. The date that installation of the original Membrane Module(s) has been substantially completed, or

b. Six months from the date of shipment of the original Membrane Module(s) to Buyer.

For replacement or expansion membranes, this membrane warranty will start on the earlier of:

a. The date of installation, or

b. 1 month from the date of delivery to site.

8 Warranty Duration

Total Warranty Duration: a total of **120** months composed of a Base Period and an Extended Period.

Base Period with Full Replacement: **24** months

All purchasers of ZeeWeed Membrane Modules are entitled to this Base Period of Full Replacement warranty coverage without purchasing an extended Seller's Warranty.

Extended Period with Prorated Replacement: a total of **96** months following the Base Period

Replacement Membrane Modules are covered by warranty only to the extent of the warranty of the original Membrane Module which has been replaced. At all events, this warranty shall expire and be of no force or effect **120** months following the Warranty Start Date.

9 Notification of Claim

All claims filed under this warranty shall be made in writing by Buyer within 30 days of identifying a defect.

Buyer shall provide the following information:

a. A description of the defect giving rise to the claim;

b. Photographs showing the manufacturing defect;

c. The serial number(s) of the Membrane Module(s) which is (are) the subject of the warranty claim; and

d. Operating data and repair history for the life of Membrane Modules which are the subject of a warranty claim.

10 Verification of Claim

After receipt of written notification of a defect, the Seller will promptly undertake such investigations as, in the Seller's opinion, are necessary to verify whether a defect exists. The Seller reserves the right to require additional data as necessary to validate claims. Buyer may, in the course of these investigations, be requested to return Membrane Module(s) to the Seller for examination. The Seller may also conduct reasonable tests and inspections at Buyer's plant or premises. If the results of the investigation do not validate the defect claimed, Buyer will reimburse the Seller for all reasonable expenses associated with said investigation, including expenses for all tests, inspections, and associated travel.

11 Satisfaction of Claims

The Seller will have the right to satisfy claims under this warranty in a flexible manner. Such flexibility may include the repair of existing Membrane Modules or changes in operating protocols or Membrane Module replacement or by upgrading failed Membrane Modules with newer Membrane Module(s) that may embody design and efficiency improvements. Buyer consents to the supply of replacement Membrane Modules which may be of a different design than original Membrane Modules.

12 Membrane Module Replacement Price – Prorated Replacement

The base Membrane Module Replacement Price (MMRP) used to calculate the prorated amount to be paid by the Buyer to replace defective Membrane Modules under warranty shall be **USD$ 1,200.00** + adjustment for inflation. The inflation adjustment will be calculated according to changes in the Producer Price Index, All Commodities, Not Seasonally Adjusted (Series Id: WPU00000000), as published by the US Bureau of Labor Statistics, for the period from September 6, 2017 through to the latest available PPI Index report.

For Membrane Modules supplied under valid warranty claims, the prorated share that the Buyer will pay is calculated as follows:

Prorated Share of Price	=	Number of whole months elapsed between the Membrane Module Replacement Date & the Warranty Start Date / Warranty Duration in Months	X	Membrane Module Replacement Price	x Change in PPI Index

Note - This Membrane Module Replacement Price (MMRP) is not applicable for Membrane Modules requested for purchase by Buyer for any non-warranty or other purposes, including but not limited to flux reduction, or plant hydraulic capacity increases. Modules purchased under these or other scenario's will be sold to Buyer by Seller at the list price in effect at the time of order

13 Operating Information

To maintain the Membrane Module warranty, membrane system operation records from initial start-up date until claim must be maintained by Buyer and made available to the Seller upon request. Records must be provided in sufficient detail to verify uninterrupted compliance with the Seller's Operations and Maintenance Manual prepared by the Seller and supplied to Buyer as part of the Contract. At a minimum, operation data must include information on feed water quality, temperatures, flows, trans-membrane pressures, aeration rates, permeate quality, cleaning intervals, cleaning chemical concentrations, elapsed time since start-up, relevant analytical data and reporting of any screen bypass events.

Buyer shall maintain and share access to a single reference copy in electronic form of a Membrane Module map containing the history of activity by Membrane Module. Buyer shall log its procedures performed related to a Membrane Module including relocation of Membrane Modules, repairs, replacements and any other noteworthy events.

Buyer authorizes the Seller to conduct any reasonable review of operation and maintenance records or to inspect facilities where Membrane Modules are installed, upon reasonable notice to Buyer. Such reviews and/or inspections are intended to also assist the Seller and Buyer in detection of membrane system faults and to optimize the care and operation of the Membrane Modules.

14 Limitation of Warranties

Occurrence of any of the following as reasonably determined by the Seller will void this warranty:

a. A material failure to operate the membrane system in accordance with Seller's Operations and Maintenance Manual supplied to Buyer as part of the Contract, including material failure to adhere to the Seller's specified Membrane Module cleaning procedures and the use of anything other than Seller-approved Membrane Module cleaning agents.

b. Failure to adhere to the preventive maintenance program as presented in the Seller's Operations and Maintenance Manual, in published product manuals and in specifications.

c. Failure to adhere to all transportation and module storage recommendations outlined by Seller.

d. Failure to ensure correct operation and/or functioning of the screening equipment.

e. Introduction of destructive foreign materials into the Membrane Module tanks. Destructive foreign materials may include natural or human-made materials that are introduced into the membrane system influent channel or tanks originating from construction and maintenance activities or from inadequate pretreatment or from aquatic species including clams and snails or from damage to the tank or tank coating. Buyer shall be responsible to maintain correct function of the screen mechanism, to flush accumulated grit from the tank bottom and to flush accumulated foreign materials from the membrane modules.

f. Failure to install and maintain operating data acquisition and electronic data transmission functions at the plant.

g. Physical abuse or misuse, incorrect removal or installation of Membrane Modules by non-Seller personnel including fiber damage caused by operator error in handling of Membrane Modules or cassettes.

h. Unauthorized alteration of any components or parts originally supplied by the Seller.

i. Intentional damage.

15 Return Procedure

In the event that the return of a Membrane Module is required pursuant to this warranty, Buyer will first obtain a Return Goods Authorization (RGA) number from the Seller. Membrane Module(s) shipped to the Seller for warranty examination must be shipped freight prepaid. If Buyer desires temporary replacement Membrane Module(s) to replace those alleged to be defective and returned to the Seller for warranty examination, Buyer shall be responsible for the cost associated with any such replacements until examination of the returned Membrane Modules pursuant to this warranty is complete. Any Membrane Module examined by Seller as part of a warranty claim where the Membrane Module is subsequently found to be performing as warranted or where a Membrane Module failure is not covered under the warranty will be returned to Buyer, freight collect.

12 Signed Agreement

Through the issue of this proposal, GE signals their intent to enter into an Agreement with Modesto. Modesto and GE acknowledge that they have read and understood this Agreement and agree to be bound by the terms and conditions specified in it.

Offered by Legal Entity:	ZENON Environmental Corporation, also known as GE or Seller	**Accepted by Legal Entity:**	City of Modesto, California also known as Modesto or Buyer
		Authorized Signature By:	_____

LEAPmbr Upgrade Considerations:

The LEAPmbr upgrade is available for existing ZeeWeed MBR systems.

For a successful LEAPmbr upgrade you will need to consider the following:

Separate biology & membrane tanks:

Systems with separate biology and membrane tanks are eligible for the upgrade.

Systems with combined biology and membrane tanks are only eligible if the fine bubble diffusers are not located below the membranes.

Membrane tank dimensions:

The existing membrane tanks must be at least 8' wide.

The operating depth required is a minimum of 2.37m (7.8 ft) for the shortest LEAPmbr cassette option.

Clearance height to lift cassette safely:

The LEAPmbr short cassette is 2.2m (7.2 ft) tall. Therefore the minimum clearance needs to be cassette height + hanging arm height.

The normal sized LEAPmbr cassette is 2.53m (8.3 ft) tall and will require additional clearance.

Permeate pump turn-up & pipe sizing:

The higher potential productivity with LEAPmbr can increase the flow rate capacity of your system with the same surface area per train. Pumps that can be turned up will allow you to take advantage of this increased capacity.

Piping that can accommodate the increased flow will allow you to take advantage of the higher capacity.

Type of blower being used & arrangement:

PD, Centrifugal and Turbo blowers can all be used for LEAPmbr Aeration Technology.

The blower arrangement will dictate the logistics of the LEAPmbr Aeration Technology upgrade. A dedicated blower per train will generally allow for quicker installation and minimal impact to day to day plant operations. However, a common blower system can provide simpler control to cover LEAP-HI and LEAP-LO flow operating modes.

Blower turn-down:

The turndown required by the LEAPmbr upgrade will depend on your current membrane product and the type of blower and blower arrangement you have. For example a 500C 22 module 10-10 cyclic aeration plant will see an aeration rate reduction of up to 80% moving to the 500D LEAPmbr 16 module cassette.

How can I get more information?

Get in touch with your Regional Sales or Regional Lifecycle Manager to get more information on LEAPmbr and to discuss your upgrade options.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-373

RESOLUTION APPROVING THE PLANS AND SPECIFICATIONS FOR THE – GROGAN PARK (TIVOLI) PRODUCTION WELL PROJECT, ACCEPTING THE BID, AND APPROVING A CONTRACT WITH TNT INDUSTRIAL CONTRACTORS, INC., OF SACRAMENTO, CA, IN THE AMOUNT OF $2,027,645, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE CONTRACT

WHEREAS, specifications have been prepared for the Grogan Park (Tivoli) Production Well Project, and City staff recommends approval by the City Council, and

WHEREAS, the bids received for the Grogan Park (Tivoli) Production Well Project were opened at 11:00 a.m. on July 25, 2017 for the consideration of the Council, and

WHEREAS, the Director of Utilities has recommended that the bid of $2,027,645 received from TNT Industrial Contractors, Inc., be accepted as the lowest responsible and responsive bid and the contract be awarded to TNT Industrial Contractors, Inc.,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the specifications for Grogan Park (Tivoli) Production Well Project, accepts the bid of $2,027,645 and awards TNT Industrial Contractors, Inc., of Sacramento, CA, the contract for the Grogan Park (Tivoli) Production Well Project.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the contract in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of September, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-374

RESOLUTION AMENDING THE FISCAL YEAR 2017-18 CAPITAL IMPROVEMENT PROGRAM BUDGET IN THE AMOUNT OF $2,157,255 TO BE TRANSFERRED INTO WATER FUND RESERVES FROM 100785-UPP, ENGINEERING DESIGN "TIVOLI AREA- GROGAN PARK WELL" IN ORDER TO CLOSE OUT CIP 100785

WHEREAS, certain budgetary transactions are necessary in the amount of **$2,157,255.00** to be transferred into Water Fund Reserves, in order to close out CIP 100785, and

WHEREAS, the Fiscal Year 2017-2018 Capital Improvement Program Budget must be amended as shown in **Exhibit A**, which is incorporated by reference herein.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the amendment of the Fiscal Year 2017-2018 Capital Improvement Program Budget as shown in **Exhibit A, attached** hereto.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of September, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

Net Difference to Water Fund Reserves $ 391,473.00

To account for the different phases of this well project, costs associated with the surface improvements will be tracked separately from the subsurface phase that was done under CIP 100785 – UPP.Engineering Design "Tivoli Area – Grogan Park Well". A separate CIP has been created: 101035 – UPP.Engineering Design – "Grogan Park Production Well" for these surface improvements.

Thus, a budget adjustment is necessary to amend the Fiscal Year 2017-2018 Capital Improvement Program Budget. First, upon City Council approval, $2,157,255 will be returned to Water Fund Reserves from CIP 100785. Second, $2,548,728 from Water Fund Reserves will be used to establish the budget for CIP 101035 to fund construction, contingency, construction administration, City construction forces, and design support during construction. The net effect of which to the Water Fund Reserves will be a decrease of $391,473.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-376

RESOLUTION APPROVING AN AGREEMENT WITH TANK INDUSTRY CONSULTANTS, INC., OF INDIANAPOLIS, IN, FOR INSPECTION AND EVALUATION SERVICES FOR THE STEEL WATER STORAGE TANK STRUCTURAL REPAIRS, IN AN AMOUNT NOT TO EXCEED $71,128 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS $7,113 FOR ADDITIONAL SERVICES (IF NEEDED), FOR A MAXIUM TOTAL AMOUNT OF $78,241 AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the City currently owns and operates nine water storage tanks throughout the water system of Modesto and one water storage tank in the water system of Grayson , and

WHEREAS, recent dive inspections for seven tanks have recently shown signs of rust and or coating issues that require additional inspection and evaluation, and

WHEREAS, this program will perform a thorough inspection of these seven tanks, make recommendations to repair, and/or rehabilitate the tanks to increase their lifespan and to minimize the risk of any potential failures, and

WHEREAS, in accordance with Administrative Directive 3.1, Selection Procedures for Professional Consultants Who Provide Architectural and Engineering Services for Capital Projects, the selection committee evaluated the proposals and determined that Tank Industry Consultants, Inc. to be the most qualified and responsive, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with Tank Industry Consultants, Inc., Indianapolis, IN, for inspection and evaluation services in an amount not to exceed $71,128, for the

identified scope of services, plus $7,113 for additional services, if needed, for a maximum total amount of $78,241.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of September, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-377

RESOLUTION DENYING THE APPEAL OF FELIPE AND JENNIFER CASALDUC AND AFFIRMING THE PLANNING COMMISSION DETERMINATION THAT THE 3,852 SQUARE FOOT, TWO STORY STRUCTURE BEING CONSTRUCTED AT 2260 MABLE AVENUE IS NOT A LEGALLY PERMISSIBLE ACCESSORY STRUCTURE

WHEREAS, on February 10, 2017 the Code Enforcement Division of the Community and Economic Development Department observed the construction of a two-story structure without the required building permits, inspections and approvals by the Building and Safety Division of the Community and Economic Development Department on residential property located at 2260 Mable Avenue within the Existing Very Low Density Residential (EVLDR) land use designation of the Tivoli Specific Plan, and deeming the structure unsafe and a public nuisance, a Notice and Order to stop all work and remove the structure was issued, and

WHEREAS, the property owners, Felipe and Jennifer Casalduc, applied for a building permit for the structure on March 2, 2017, stating that the structure was a 2,264 square foot two-story expansion of an existing 1,568 square foot two-story accessory storage building, comprising a total of 3,382 square feet, and

WHEREAS, Sec. 3.1.2 of the Tivoli Specific Plan states that if a use is not specified in the Specific Plan, the uses allowed in the equivalent zone in the City's Zoning Ordinance, in this case, the R-1 Zone, apply, and

WHEREAS, Section 10-2.102 of the City's Zoning Code defines Accessory Building, Structure and Use as a building, structure or use that is subordinate to, and the use of which is incidental to, that of the main building structure or use on the same lot, and

WHEREAS, the main building and use on the lot is a 3,199 square foot single-story residence, and

WHEREAS, Section 10-3.201(a) of the City's Zoning Code provides that accessory uses and buildings customarily incidental to permitted and conditional uses are permitted, and cites examples of residential accessory buildings such as storage sheds and detached carports or garages, and

WHEREAS, by letter dated April 24, 2017 to Felipe Casalduc, the Community and Economic Development Director determined that the structure is not an accessory building as allowed by Section 10-3.201(a) of the City's Zoning Code because the two-story structure was substantial in size compared to typical residential accessory buildings, and that the structure appeared from its floor plan and configuration to be intended for a non-residential use; said letter also informing Mr. Casalduc of his right to appeal the Director's decision to the Planning Commission, and

WHEREAS, on May 3, 2017, Felipe and Jennifer Casalduc submitted to the Secretary of the Planning Division an appeal of the Director's decision, which was followed by a second letter of appeal dated May 11, 2017 by David Rishwain of Rishwain & Rishwain Law on behalf of Felipe and Jennifer Casalduc, and

WHEREAS, a public hearing was held by the Planning Commission on July 3, 2017, in Chambers, 1010 Tenth Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered, and

WHEREAS, at the request of the appellant, the public hearing was continued to the July 17, 2017, Planning Commission meeting, and

WHEREAS, the continued public hearing was held by the Planning Commission on July 17, 2017, in Chambers, 1010 Tenth Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered, and

WHEREAS, at the conclusion of the public hearing on July 17, 2017, the Planning Commission by Resolution Nos. 2017-19 denied the appeal of Felipe and Jennifer Casalduc to a determination by the Community and Economic Director that a structure being constructed at 2260 Mable Avenue is not a legally permissible accessory structure, and

WHEREAS, on July 26, 2017, Felipe and Jennifer Casalduc filed an appeal with the City Clerk of the City of Modesto to the decision of the Planning Commission to deny their appeal of the director's decision, and

WHEREAS, said appeal was set for a duly noticed public hearing before the City Council to be held on September 12, 2017, in the Tenth Street Place Chambers, located at 1010 Tenth Street, Modesto, California, at which time said public hearing was held, and evidence both oral and documentary was received and considered.

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it finds and determines that the 3,832 square foot two-story structure does not meet the definition of an accessory structure, because it is not subordinate and incidental to the dwelling unit, and due to its size, configuration and floor plan, is not a residential accessory structure as allowed by Section 103.201(a) of the City of Modesto Zoning Code, and therefore must be removed.

BE IT FURTHER RESOLVED by the City Council that it finds and determines, based on substantial evidence, the reasons set forth in this Resolution, and testimony in

the administrative record, that the appeal of Felipe and Jennifer Casalduc to the decision of the Planning Commission to deny their appeal to the decision by the Director of Community and Economic Development dated April 24, 2017 is hereby denied, and the decision of the Planning Commission as set forth in its Resolution No. 2017-19 is hereby affirmed.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of September, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-378

RESOLUTION APPROVING THE CITY OF MODESTO'S CONSOLIDATED ANNUAL PERFORMANCE EVALUATION REPORT FOR PROGRAM YEAR 2016-2017 REFLECTING THE USE OF COMMUNITY DEVELOPMENT BLOCK GRANT, HOME INVESTMENT PARTNERSHIP GRANTS AND EMERGENCY SOLUTIONS GRANT FUNDS; AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO SIGN THE REQUIRED DOCUMENTS FOR SUBMITTAL TO THE U.S. DEPARTMENT OF HOUSING AND URBAN DEVELOPMENT

WHEREAS, the U.S. Department of Housing and Urban Development (HUD) requires entitlement grantees adopt a comprehensive, long-term plan for the use of its HUD funds, and

WHEREAS, the Five-Year Consolidated Plan, also referred to as the Strategic Plan, analyzes the City's housing and community development needs, with a priority focus on low- and moderate-income individuals, households, and neighborhoods, and describes long-term strategies for meeting those needs, and

WHEREAS, HUD also requires entitlement grantees to submit a Consolidated Annual Performance Evaluation Report (CAPER) to HUD, and

WHEREAS, a CAPER describes how the City used its Community Development Block Grant, HOME Investment Partnerships, and Emergency Solutions Grant funds in a particular fiscal year to address the needs and priorities established in the Consolidated Plan, and

WHEREAS, a notice informing the public of the availability of the Program Year 2016-2017 CAPER, and the start of the public comment period, was published in the Modesto Bee on September 10, 2017 and Vida Del Valle on September 13, 2017, and

WHEREAS, the minimum 15-day public review comment period will closed on September 26, 2017, and

WHEREAS, the Citizens' Housing and Community Development Committee (CH&CDC) considered the proposed CAPER at its September 14, 2017 meeting, and recommended forwarding it to the Council for approval, and

WHEREAS, a duly noticed public hearing was held by the City Council on September 26, 2017 at 5:30 p.m., in the Tenth Street Place Chambers, located at 1010 Tenth Street, and

WHEREAS, any comments received during the 15-day public review period or during the City Council meeting will be incorporated into the final CAPER.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes approval of the 2016-2017 Consolidated Annual Performance Evaluation Report for the use of Community Development Block Grant, HOME Investment Partnerships Grant, and Emergency Solutions Grant funds, and

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to sign any required certifications and documents for submittal to the U.S. Department of Housing and Urban Development

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of September, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-379

RESOLUTION APPROVING THE SUBMITTAL OF A GRANT APPLICATION TO THE FEDERAL TRANSIT ADMINISTRATION (FTA) REQUESTING $5,172,318 IN FTA SECTION 5307 FUNDS AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE AND FILE THE ANNUAL CERTIFICATIONS AND ASSURANCES, AND ALL OTHER NECESSARY DOCUMENTS WITH THE FTA

WHEREAS, the Federal Transit Administration (FTA) has been delegated authority to award federal financial assistance for transportation related projects, and

WHEREAS, the City of Modesto has provided all annual certifications and assurances required by the FTA to be eligible for funding under 49 U.S.C Section 5307, and

WHEREAS, the projects for the City of Modesto shown in the Program of Projects (POP), which is **attached** hereto, are eligible to receive federally reimbursable expenses from Section 5307 funds, and

WHEREAS, the projects shown in the **attached** POP are included in the 2017 Federal Transportation Improvement Program (FTIP) adopted by the Stanislaus Council of Governments (StanCOG), and

WHEREAS, Modesto is eligible to use federally approved Transportation Development Funds, formerly known as "State Toll Credits", in lieu of a local match, and

WHEREAS, these Section 5307 funds will be used for preventative maintenance, to fund the capital cost of contracting for Stanislaus County, and for employee education and training, bus stop shelters, and maintenance to the downtown Transit Center.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the submittal of an application to the FTA for $5,172,318 in Section 5307 funds.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute and file the annual certifications and assurances and other documents the FTA requires for awarding a federal assistance grant.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of September, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-380

RESOLUTION APPROVING IMPLEMENTATION OF MODIFICATIONS TO VARIOUS EXISTING MODESTO AREA EXPRESS (MAX) ROUTE SCHEDULES EFFECTIVE FEBRUARY 1, 2018, AND AUTHORIZING THE TRANSIT MANAGER TO IMPLEMENT THE IMPROVEMENTS

WHEREAS, to make the MAX system more efficient and productive, Transit staff recommends modifications to the schedules for various MAX routes, and

WHEREAS, on June 14, 2017 the Healthy Economy Committee reviewed these route and fare changes and recommended fowarding it to Council for approval, and

WHEREAS, Transit staff held four public meetings to discuss these route and fare changes, and made modifications to the initial plan based on input received.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves modifications to various existing route schedules effective February 1, 2018 as described in **Attachment C.**

BE IT FURTHER RESOLVED, that the Transit Manager is hereby authorized to implement the improvements.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of September, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-381

RESOLUTION ESTABLISHING PASSENGER FARES FOR ALL MODESTO AREA EXPRESS (MAX) AND MODESTO AREA DIAL-A-RIDE (DAR) SERVICES EFFECTIVE FEBRUARY 1, 2018, AND AUTHORIZING THE TRANSIT MANAGER TO IMPLEMENT THE CHANGES

WHEREAS, passenger fares for Modesto Area Express and Modesto Area Dial-A-Ride covered approximately 20% of the expenses to operate these services in Fiscal Year (FY)15/16, and

WHEREAS, passenger fares for Modesto Area Express and Modesto Area Dial-A-Ride will fall below 20% of the expenses to operate these services in FY16/17, and

WHEREAS, a fare increase is needed to meet the 20% minimum mandated by the Transportation Development Act, and

WHEREAS, the fare rates included in this resolution are projected to increase fare revenue in FY 2017/18 and cover approximately 21% of operating costs, and

WHEREAS, Modesto Area Express and Modesto Area Dial-A-Ride fares were last raised on July 6, 2014, and

WHEREAS, on June 14, 2017, the Healthy Economy Committee reviewed and approved the staff recommendation to raise fares, and

WHEREAS, the public had an opportunity to comment on the proposed fare increases at four public meetings held in Modesto.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the following fares are hereby established for passengers riding on Modesto Area Express and Modesto Area Dial-A-Ride:

MODESTO AREA EXPRESS Urban Service	
Cash Fares (one trip)	
Regular	$2.00

Student Field Trip	$0.50
31 Day Passes (unlimited trips)	
Regular Pass	$58.00
Student Pass	$48.00
Senior/Disabled Pass	$29.00
Ticket Books (50 Tickets)	
Regular	$100.00
Student	$75.00
Senior/Disabled	$50.00
BART Express Commuter Service	
Monthly	$175.00
Beginning the 8th of the month	$140.00
Beginning the 15th of the month	$90.00
Beginning the 22nd of the month	$50.00
Half-Month Pass (1st – 15th each mo.)	$90.00
One-Way	$14.00
Round-Trip	$16.00
ACE Express Commuter Service	
Single Trip (No change proposed)	$3.00
20 Ride Ticket	$42.00
MODESTO AREA DIAL-A-RIDE	
Cash	$3.00
Ticket Book (10 Tickets)	$30.00

BE IT FURTHER RESOLVED that these fares shall go into effect on and after February 1, 2018.

BE IT FURTHER RESOLVED that the Transit Manager is hereby authorized to implement the changes to passenger fares.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of September, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-382

RESOLUTION APPROVING AN AGREEMENT WITH PUBLIC FINANCIAL MANAGEMENT (PFM) FINANCIAL ADVISORS LLC, SAN FRANCISCO, CALIFORNIA, FOR 3 YEARS WITH 2 ONE-YEAR EXTENSION OPTIONS AT AN ANNUAL COST NOT TO EXCEED $75,000 AND A TOTAL COST OF $375,000 AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, Municipal Code Section 8-4.301, the City may issue bonds or refund bonds based on the financing needs for the City which will, in the long-term, benefit the City's debt financing portfolio strategy, and

WHEREAS, the City utilizes a financial advisory services company to assist in monitoring the City's debt portfolio of over $400.8 million in a fiduciary capacity with oversight by the Director of Finance, and

WHEREAS, Public Financial Management (PFM) will assist the City in identifying the best financing strategies to optimize the lowest financing cost based on the guidelines defined under the City's Debt Management Policy and State statutes, and

WHEREAS, these services include the following:

1. Services related to the Financial Planning and Policy Development upon request of the City and as directed by the City Manager or his designee
2. Assist in the annual updating of our Debt Management Policy to ensure revisions are based on new regulatory requirements
3. Review existing debt for the possibility of refunding debt to generate savings
4. Analyze financial and economic factors to determine if the issuance of bonds is appropriate

5. Review the terms, conditions and structure of any proposed debt offering undertaken by the City and provide suggestions, modifications and enhancements where appropriate and necessary to reflect the constraints or current financial policy and fiscal capability
6. Assist with credit rating presentations including review and comment on presentation strategies and content
7. Assist with the procurement of other services relating to debt issuance such as underwriting services, printing, paying agent, registrar, trustee, etc.
8. As applicable, advise the City on the condition of the bond market at the time of sale, including volume, timing considerations, competing offerings, and general economic considerations, and

WHEREAS, in April 1, 1995, the City awarded the financial advisory services contract to PFM to provide services associated with determining a method and finance structures for capital projects, review of refunding opportunities, and other projects as requested by the City, and

WHEREAS, with over 22 years of services for the City, PFM has a long-term history of our debt financing structure and continues to identify opportunities to reduce our financing costs associated with the City's debt structure without exposing the City to any unnecessary risk, and

WHEREAS, in reviewing the competitive bidding process for the City of Fortuna, their Finance Department accepted two (2) proposals for review; the selection of PFM was made based on documented experience of the PFM staff who were assigned to their

account for support for the financial advisory services and their extensive experience managing government debt financing for California cities and other public agencies, and

WHEREAS, Modesto Municipal Code authorizes entities to rely on terms that have already been competitively bid "piggybacking" in certain situations; based on the review of the bidding process for the City of Fortuna, the City will be "piggybacking" on their bid, and

WHEREAS, the Purchasing Manager has determined, pursuant to Section 8-3.204(d) of the MMC, that a process other than the formal bid procedure set forth in Section 8-3.203 will result in a procurement for the City at the lowest possible cost commensurate with the desired quality, and

WHEREAS, current estimated annual financial advisory service costs are approximately $75,000 and vary each year depending on the complexity and number of debt transactions; the City shall pay PFM the following hourly rates for services based on the debt financing needs of the organization for the various services performed during each fiscal year; the hourly rates based on the work performed by PFM shall be:

- Managing Director - $350
- Senior Managing Consultant - $275
- Senior Analyst or Analyst - $225

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes an agreement with Public Financial Management (PFM) Financial Advisor LLC, San Francisco, CA for a term of 3 years with 2 one-year extension options at an annual cost not to exceed $75,000 and a total cost of $375,000.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 3rd day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-385

RESOLUTION AMENDING THE FISCAL YEAR 2017-18 POSITION ALLOCATION FOR THE CITY MANAGER'S OFFICE

WHEREAS, a Position Allocation for the City of Modesto was adopted by Modesto City Council on June 27, 2017, as part of the Annual Budget of the City of Modesto for Fiscal Year 2017-2018, and

WHEREAS, classification studies are conducted to ensure that a classification system is equitable and consistent within an organization and that positions are correctly classified, and

WHEREAS, per Personnel Administrative Order 2.2-87-12, a classification study may be conducted in response to a reclassification request, to develop/revise a classification specification, or to assist in a reorganization, and

WHEREAS, classification studies were conducted by Human Resources to determine appropriate classification, and

WHEREAS, position changes will be effective the first full pay period following Council adoption, (Pay Period beginning October 3, 2017), and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the Fiscal Year 2017-18 Position Allocation for the City Manager's Office as follows:

1. Reallocate one (1) Public Information Coordinator to one (1) Community and Media Relations Officer in the Administration Division of the City Manager's Office.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 3rd day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-386

RESOLUTION APPROVING AN AMENDMENT TO THE MONTH-TO-MONTH LEASE AGREEMENT WITH STANISLAUS IMPLEMENT & HARDWARE COMPANY LTD, FOR THE USE OF ITS PARKING LOT FOR $1,500 PER MONTH; AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE NECESSARY DOCUMENTS; AND RESCINDING RESOLUTION NO. 2015-138

WHEREAS, the City Council previously approved Resolution No. 2015-138 authorizing the City Manager, or his designee, to execute a lease agreement to allow the Modesto Police Department (MPD) to use the parking lot owned by Stanislaus Implement & Hardware Company Ltd.; and

WHEREAS, the amendment to the lease agreement is on a month-to-month basis, and if approved by Council, will commence September 1, 2017, in the amount of $1,500; and

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Modesto that it hereby approves the amendment to the Lease Agreement with Stanislaus Implement & Hardware Company, LTD. for use of its parking lot for One Thousand Five Hundred Dollars ($1,500) a month on a month-to-month basis, and rescinds Resolution No. 2015-138.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the lease agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 3rd day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-387

RESOLUTION APPROVING THE SOLE SOURCE PROCUREMENT OF NITRATE ANALYZER EQUIPMENT AND FIELD SERVICES TO HACH COMPANY, LOVELAND, CO, FOR A THREE-YEAR AGREEMENT WITH AN ANNUAL COST OF $84,098, AND A TOTAL OF UP TO $252,294 OVER THREE YEARS, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO ISSUE A PURCHASE AGREEMENT

WHEREAS, on November 25, 2014, by Resolution No. 2014-493, Council authorized the award of a sole source procurement nitrate analyzer equipment and services with Hach Company, Loveland, CO. The current Agreement No. 70304 expires November 30, 2017, and

WHEREAS, in 2006, the installation of nitrate analyzers was mandated by the State Water Resources Control Board (SWRCB) and the operating permit requires nitrate concentrations be monitored continuously by an online nitrate analyzer at facilities with high nitrate concentration levels, and

WHEREAS, the Interim City Manager authorizes the Purchasing Manager to issue formal Request for Bids (RFB) for nitrate analyzer equipment and services, and

WHEREAS, Hach Company was chosen by staff because of its reliability, ease of use, and accuracy and is the sole manufacturer for nitrate analyzer equipment and service, and the service and maintenance must be done by a Hach certified technician or the warranty will be voided, and

WHEREAS, City staff recommends the purchase of nitrate analyzers and services from Hach Company, Loveland, CO, and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed $50,000 for material, equipment or contractual services

to be formally bid. However, there are exceptions to the rule set forth in the Modesto Municipal Code. One exception, MMC Section 8-3.204(b), is available where the Purchasing Agency's requirements can be met solely by a single article or process. The Purchasing Manager invoked that exception for this purchase due to the cost savings of staff time and that there are no competitors. In addition, service and maintenance must be done by a Hach certified technician or the warranty will be voided. The sole source award of an agreement to Hach Company, Loveland, CO, will conform to Modesto Municipal Code 8-3.204(b), and

WHEREAS, the cost for these services will be covered by the Water funds through existing budget in the following cost centers and projects:

4100-45050-53300	Professional Services	$ 113,000
4180-59999-100799	Nitrate Analyzer Installation	$ 139,294
	TOTAL	$ 252,294

WHEREAS, pricing will remain firm the first year of this agreement; however subsequent years two and three there will be a 3% increase per year for both equipment and field services and has been included in this estimate.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the sole source procurement of nitrate analyzer equipment and field services to Hach Company, Loveland, CO, for a three-year agreement with an annual cost of $84,098, and a total up to $252,294 over three years.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to issue a purchasing agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 3rd day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-388

RESOLUTION DECLARING A CITY-OWNED PROPERTY AS SURPLUS PROPERTY, LOCATED ON 1024 NEEDHAM STREET (APN 105-032-001)

WHEREAS, the City of Modesto owns real property on 1024 Needham Street (APN 105-032-001), and

WHEREAS, this property, a former City pump station, is no longer used by the City and there are no other uses for this property by the City, and

WHEREAS, this property, due to its size of less than 5,000 square feet, is exempt surplus land, and

WHEREAS, staff recommends the unused property be declared as surplus property.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the property located on 1024 Needham Street (APN 105-032-001) be declared as surplus property.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 3rd day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-389

RESOLUTION APPROVING A PURCHASE AND SALE AGREEMENT WITH MICHAEL CUNHA AND TAMMY CUNHA, FOR CITY-OWNED REAL PROPERTY LOCATED AT 1024 NEEDHAM STREET (APN 105-032-001), IN THE AMOUNT OF $92,005 AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT AND ALL NECESSARY DOCUMENTS REQUIRED TO CLOSE ESCROW

WHEREAS, the City of Modesto owns real property on 1024 Needham Street in Modesto (APN 105-032-001), and

WHEREAS, this property was purchased by the City for the construction of Pump Station No. 9 in 1930, and

WHEREAS, Pump Station No. 9 was closed in the 1990's is no longer used by the City and there are no other uses for this property by the City, and

WHEREAS, according to our standard practice, the property was appraised by an independent professional appraiser and the appraiser reported a value of $60,000, and

WHEREAS, in addition, the appraisal report identified a number of deferred maintenance items which were due to the City's lack of budget for building repairs and,

WHEREAS, when the property was listed on the multiple listing service, the broker received several calls of interest with only a few offers slightly above the asking price of $60,000, and

WHEREAS, two serious buyers quickly emerged increasing the offer price and the current tenant was the successful highest bidder offering $92,005, and

WHEREAS, the buyer is aware of the repair items and agreed to purchase the property "As Is" and,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Purchase and Sale Agreement with Michael Cunha and Tammy Cunha, for City-Owned Real Property located at 1024 Needham Street (APN 105-032-001), in the amount of $92,005.

BE IT FURTHER RESOVLED that the Interim City Manager, or his designee, is authorized to execute the Purchase and Sale Agreement, the Grant Deed, and all necessary sale documents required for the sale of the real property (APN 105-032-001) and all related documents required to close escrow.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 3rd day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-390

RESOLUTION APPROVING A FIRST AMENDMENT TO THE AGREEMENT WITH NORTH STAR ENGINEERING GROUP, INC., FOR FINAL DESIGN SERVICES FOR THE DEL RIO TANK, PUMP STATION, AND NEW WELL PROJECT IN AN AMOUNT NOT TO EXCEED $229,402 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS $35,039 FOR ADDITIONAL SERVICES (IF NEEDED), UP TO A TOTAL AMOUNT OF $264,441, FOR AN AGREEMENT AMOUNT OF $614,833 AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the City owns and operates the outlying water system in the community of Del Rio, located in Stanislaus County, and

WHEREAS, per the City of Modesto's 2010 Water System Engineer's Report a hydraulic assessment of the system was performed to evaluate the system's ability to meet the community's current and build-out demands, and

WHEREAS, this assessment identified the need to correct existing supply and pressure deficiencies, and

WHEREAS, the City was obligated to provide this improvement by January 31, 2014, in accordance with the amended terms of a Settlement Agreement between the City and the Del Rio Community Association, and

WHEREAS, project delays occurred due to litigation, while staff continued to work with the Del Rio Community Association to extend the deadline, and

WHEREAS, in consideration of the Settlement Agreement with the Del Rio Community Association, and the City's obligation to complete the recommended improvements to meet the existing Del Rio water system needs, the Utilities Department Director informed staff to move forward with final design in the summer of 2017, and

WHEREAS, the scope of work for the final design services amended agreement is comprehensive, consistent with the Final Environmental Impact Report and the negotiated amended fee is reasonable, and

WHEREAS, given the unique and specialized expertise required for design of tanks and pump stations, and consideration of the amount of work that was already completed, it was determined by staff to be in the City's best interest to proceed with allowing North Star and Carollo to continue with the final design responsibilities, and

WHEREAS, North Star and Carollo will be required to deliver a complete set of 100% biddable set of construction documents that includes improvement plans, specifications and cost estimates, and

WHEREAS, Carollo has agreed to continue to freeze its billing rates at the original 2013 rates until the project is completed; this may result in lower billing rates than the City would have paid if it terminated and reopened this contract, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, the first amendment to the agreement is for professional services and, therefore, exempt from the bid requirement,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the First Amendment to the Agreement with North Star Engineering Group, Inc., for Final Design Service for the Del Rio Tank, Pump Station and New Well project in an amount not to exceed $229,402 for the identified scope of services, plus $35,039 for additional services (if needed), up to a total amount of $264,441, for an agreement total of $614,833.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the Agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 3rd day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-391

RESOLUTION ACCEPTING THE PRELIMINARY DESIGN REPORT DATED OCTOBER 2012 FOR THE DEL RIO TANK, PUMP STATION AND NEW WELL PROJECT AS COMPLETE

WHEREAS, the City owns and operates the outlying water system in the community of Del Rio, located in Stanislaus County, and

WHEREAS, per the City of Modesto's 2010 Water System Engineer's Report a hydraulic assessment of the system was performed to evaluate the system's ability to meet the community's current and build-out demands, and

WHEREAS, this assessment identified the need to correct existing deficiencies in the system, and

WHEREAS, on June 12, 2012, by Resolution No. 2012-242, Council approved an agreement with NorthStar Engineering Group, Inc. (NorthStar), for preparation of a Preliminary Design Report (PDR) for the Del Rio Tank, Pump Station and New Well project, and

WHEREAS, the PDR was approved by Council Resolution No. 2012-496 but due to a lawsuit by the North Modesto Groundwater Alliance in 2012, Council rescinded the PDR by Resolution No. 2013-414 and,

WHEREAS, on September 5, 2017, Council certified the Final Environmental Impact Report for the Del Rio Tank and Wells Project by Resolution 2017-347 and,

WHEREAS, staff recommends acceptance of the PDR as complete as it has been determined that the PDR for the Del Rio Tank, Pump Station and New Well project meets the City's operational need and,

WHEREAS, upon acceptance of the report by City Council, NorthStar is intended to proceed with the completion of final design documents.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the PDR dated October 2012 for the Del Rio Tank, Pump Station and New Well project as complete.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 3rd day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-392

RESOLUTION APPROVING AN AGREEMENT BETWEEN THE CITY OF MODESTO AND THE FAMILY OF SERGEANT MICHAEL PERSHALL, FOR THE PURCHASE OF RETIRED CITY OF MODESTO POLICE CANINE, IKE; AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the Police Chief for the City of Modesto, from time to time, officially retires police canines from departmental service, and

WHEREAS, the Modesto Police Department wishes to retire Ike from active service as a police service dog, and

WHEREAS, it is the desire of the former handler's family to purchase the canine and assume possession of his assigned canine, Ike, upon the dog's official retirement, and

WHEREAS, it is necessary to adopt a resolution authorizing the purchase of a City of Modesto police canine by its former assigned handler,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the agreement between the City of Modesto and Sergeant Michael Pershall's family for the purchase of retired police canine, Ike.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the Agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 3rd day of October, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-393

RESOLUTION AMENDING THE PARKING FEE STRUCTURE FOR SINGLE SPACE VEHICLES TO $1.25 PER HOUR, 24 HOURS PER DAY, AND RESCINDING RESOLUTION NO. 2016-432

WHEREAS, Section 3-2.1601 of the Modesto Municipal Code provides that the City Council may from time to time establish and designate municipal off-street parking facilities in the City by resolution of the Council, and

WHEREAS, Section 3-2.1602 of the Modesto Municipal Code provides that the hours and days upon which the operation of off-street parking facilities shall be effective shall be established from time to time by resolution of the Council, and

WHEREAS, Section 3-2.1603 of the Modesto Municipal Code provides that the rates for use of off-street parking facilities shall be established from time to time by resolution of the Council, and

WHEREAS, by Resolution No. 2016-432, Council established the current parking rates, and

WHEREAS, the Healthy Economy Committee met on September 13, 2017 and discussed changing the parking fee structure in an effort to help continue the revitalization of the downtown area at the same time maintaining the City's revenue base and,

WHEREAS, the Healthy Economy Committee, as well as staff, supports the recommendation of the following parking fee structure:

1. GARAGE PARKING FACILITIES

(1) The following municipal garage parking facilities are: Eleventh Street Garage (Lot 28) west side of 11th Street between I and J Streets;

(2) Ninth Street Garage (Lot 43) west side of 9lh Street between K and L Streets;

(3) Tenth Street Garage (Lot 44) west side of 11th Street between J and K Streets

(a) Vehicular parking on said parking facilities shall be controlled and regulated as follows:

(1) A $1.25 per hour fee, 24 hours per day, 7 days per week (up to a possible daily maximum of $15). The 24-hour period maximum fee will be $15 unless validated in accordance with the provisions of Section 3.2.1604.

(2) Flat fee pre-pay entry charges will continue to be utilized for large events for safety and efficiency of ingress and egress in the parking facilities as deemed necessary by the Parking Supervisor.

(3) Replacement of a lost ticket will be the daily maximum fee of $15.

(b) The price for validation tickets to be used with the validation system on said garage parking facilities, as provided by Section 3-2.1604 of the Modesto Municipal Code, will be $132 for a packet of one hundred validations.

(c) The Parking Supervisor may designate spaces in said garage parking facilities for the free parking of bicycles. When appropriate signs are erected, bicycles may be parked in such areas without charge.

(d) Monthly parking passes may be authorized by the Parking Supervisor at said garage parking facilities when it does not encroach on the needs of commercial parking and/or other parking agreements. The monthly charge for such passes for the three parking garages (Lots 28, 43 and 44) shall be $80.

(e) From time to time, the promoters of special events have the need to use the street level floor of the Eleventh Street parking garage for their events. The charges for such "buy-out" rentals shall be $225 per 24-hour period or portion thereof. The "buy-out" for the entire Eleventh Street parking garage would be $1,665 per 24-hour period or portion thereof.

(f) In order to accommodate patrons who are unable to locate a parking space, a twenty-minute free grace period shall be allowed.

2. SURFACE PARKING LOTS

(a) For the purposes of this section, municipal off-street parking facilities shall continue to be defined as those that are equipped with automated collection devices and/or are staffed. Parking lots described in Section 3 below shall be excluded.

(b) Vehicular parking in said parking facilities shall be controlled and regulated as follows:

(1) $1.25 per hour, 24 hours per day, 7 days per week (up to a possible daily maximum of $15). The 24-hour period maximum fee will be $15 unless validated in accordance with the provisions of Section 3.2.1604.

(2) Flat fee pre-pay entry charges will continue to be utilized for large events for safety and efficiency of ingress and egress in the parking facilities as deemed necessary by the Parking Supervisor.

(c) The price for validation tickets to be used with the validation system on said garage parking facilities, as provided by Section 3-2.1604 of the Modesto Municipal Code, shall be $132 for a packet of one hundred validations.

(d) The Parking Supervisor may designate spaces in said parking facilities for the free

parking of bicycles. When appropriate signs are erected, bicycles may be parked in such areas without charge.

(e) Monthly parking passes may be authorized by the Parking Supervisor for any surface parking lot when it does not encroach on the needs of commercial parking. The monthly charges for such passes shall be $80.

(f) Recreational Vehicles (RVs) may be allowed to park on surface lots as designated by the Parking Supervisor. The charges per 24- hour period, or portion thereof, shall be $20.

(g) Buses and commercial trucks may be allowed to park on surface lots as designated by the Parking Supervisor. The charges per twenty-four hour period, or portion thereof, shall be $30.

(h) From time to time, the promoters of special events have the need to use an entire surface lot for their event. The charges for such "buy-out" rentals shall be $275 for the surface lot at 9th and I (55 spaces), $210 for the surface lot at 9th and J (42 spaces), $225 for the street level floor of the Eleventh Street garage (45 Spaces), $1665 for the entire Eleventh Street garage (333 spaces) and $750 for the Centre Plaza surface lot (150 spaces). In addition, a discount of $1 per space shall be provided at the Centre Plaza lot when the rental of the Centre Plaza lot is in conjunction with an event at the Modesto Centre Plaza. In that case, the rate will be $600, with $75 of that amount going to the Centre Plaza operating fund.

(i) Additional surface parking facilities and/or hours of operation, including weekends, may be authorized by the Parking Supervisor as appropriate to meet parking needs, comply with existing agreements, or allow for collection of fees for special events.

3. FREE PARKING LOTS

(a) The following municipal off-street parking facilities shall be free parking lots:

(1) Lot 13, north side of H Street between 15th and 16th Streets (Stanislaus County Library);

4. DISABLED PERSONS

Notwithstanding any other provision of this resolution, disabled persons, as defined in Section 22511.5 of the California Vehicle Code, displaying a distinguishing license plate or distinguishing placard issued pursuant to Section 22511.5 of the California Vehicle Code may park free in any of the municipal off-street parking facilities specified in this resolution, except in reserved parking spaces.

5. JURY PARKING

Persons ordered to appear for jury duty may park exclusively in the municipal off-street parking facility on the east side of 8th Street between K and L streets in compliance with the fees and regulations specified in this resolution.

NOW THEREFORE BE IT RESOLVED by Council of the City of Modesto that it hereby approves amending the parking fee structure for single space vehicles to $1.25 per hour, 24 hours per day.

BE IT FURTHER RESOLVED that Resolution No. 2016-432 is hereby rescinded and replaced by this new parking fee structure, as set forth herein, effective on Tuesday, November 14, 2017 at 12:00 a.m.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 3rd day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-394

RESOLUTION APPROVING SUMMARY ABATEMENT OF PROPERTY AT 624 9TH STREET (APN 106-043-010) AND AUTHORIZING INTERIM CITY MANAGER, OR HIS DESIGNEE, TO PAY NECESSARY COSTS RELATING TO SUMMARY ABATEMENT IN AN AMOUNT NOT TO EXCEED $150,000

WHEREAS, the property located at 624 9th Street (APN 106-043-010) (Property), which has a 29 unit apartment complex has been the subject of a code enforcement action since at least May 18, 2017, and

WHEREAS, on August 2, 2017, Council approved through Resolution No. 2017-307 payment of Relocation Benefits pursuant to Modesto Municipal Code 4-12.501 *et seq*. to the legal tenants of the Property, and

WHEREAS, as a result of the ongoing substandard condition of the Property, the City condemned the building and issued a 72-hour Notice to Vacate on Tuesday, August 29, 2017, and

WHEREAS, on Friday, September 1, 2017, all of the units were vacated and City staff ensured that the building was boarded and secured, and

WHEREAS, on Monday, October 2, 2017, a fire occurred at the Property which caused, among other things, the destruction of the roof structure and ceiling joist, the collapse of the roof onto the second floor of the structure, approximately one quarter of the second floor joist, subfloor and walls to collapse into the undeveloped first floor of the structure, the exterior wall covering, and the interior walls used to support the exterior unreinforced masonry brick, and

WHEREAS, the Chief Building Official for the City of Modesto has inspected the Property and has determined that the cost of rehabilitation of the Property would exceed the value of the Property by more than 75%, and

WHEREAS, the Chief Building Official recommends immediate summary abatement of the Property due to the imminent danger of further collapse of the interior and exterior walls of the structure on the Property, the openness of the Property, the susceptibility of the Property to homeless and vandals, and the potential for damage to surrounding properties, and

WHEREAS, the Modesto Board of Building Appeals authorized through Resolution No. 2017-05, among other things, the abatement of the nuisance by razing or removing the buildings, and

WHEREAS, pursuant to Modesto Municipal Code section 1-6.604, the Chief Building Official and the Director of Community and Economic Development have determined that an imminent life safety hazard exists that requires immediate elimination, and

WHEREAS, the City is authorized to seek recovery of the costs of summary abatement against the Property owners through the nuisance abatement lien procedure in Modesto Municipal Code section 1-6.702, in addition to any other method authorized by law.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the summary abatement of Property at 624 9th Street (APN 106-043-010).

BE IT FURTHER RESOLVED, that the Interim City Manager, or his designee, is authorized to pay the necessary costs relating to summary abatement, in an amount not to exceed $150,000.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 3rd day of October, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-396

RESOLUTION ACCEPTING THE PUBLIC IMPROVEMENTS FOR ROSE VILLAS ONE SUBDIVISION AND ROSE VILLAS TWO SUBDIVISION, LOCATED AT 2101 MABLE AVENUE, AUTHORIZING THE CITY CLERK TO FILE A NOTICE OF COMPLETION WITH THE STANISLAUS COUNTY RECORDER'S OFFICE, AND TO RELEASE SECURITIES UPON EXPIRATION OF STATUTORY PERIODS

WHEREAS, Modesto Mable, LLC, a California limited liability company ("SUBDIVIDER"), is the subdivider of a tract of land situated in the City of Modesto, consisting of 22.57 acres, known as the ROSE VILLAS ONE SUBDIVISION and ROSE VILLAS TWO SUBDIVISION ("SUBDIVISION"), and

WHEREAS, the Public Works Department has verified that all required PUBLIC IMPROVEMENTS for this project have been satisfactorily completed and all inspection fees have been paid, and

WHEREAS, the Public Works Department will assume maintenance responsibilities upon acceptance of the PUBLIC IMPROVEMENTS, which includes the water main, the sewer main, City street trees, sidewalk and ADA ramps along Rose Avenue, and

WHEREAS, pursuant to the Subdivision Agreement, SUBDIVIDER has filed Faithful Performance Bonds in the amount of $2,177,425 for ROSE VILLAS ONE and $740,400 for ROSE VILLAS TWO, and

WHEREAS, pursuant to the Subdivision Agreement, SUBDIVIDER has filed Payment Bonds in the amount of $1,088,712 for ROSE VILLAS ONE and $370,200 for ROSE VILLAS TWO, and

WHEREAS, pursuant to the Subdivision Agreement, SUBDIVIDER has filed a Warranty Bonds in the amount of $217,724 for ROSE VILLAS ONE and $74,040 for ROSE VILLAS TWO, and

WHEREAS, the developer has requested that the improvements be accepted and the Bonds be released, and

WHEREAS, the Public Works Director has indicated that it would be in order for the City Council to accept said PUBLIC IMPROVEMENTS as complete and has certified that the work covered has been satisfactorily completed.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

1. The said PUBLIC IMPROVEMENTS constructed by the SUBDIVIDER are hereby accepted, and the City Clerk is hereby authorized to file a Notice of Completion.
2. The City Clerk is hereby authorized to release the Subdivision Faithful Performance Bonds in the amount of $2,177,425 for ROSE VILLAS ONE and $740,400 for ROSE VILLAS TWO, upon recordation of the Notice of Completion.
3. The City Clerk is hereby authorized to release the Payment Bonds in the amount of $1,088,712 for ROSE VILLAS ONE and $370,200 for ROSE VILLAS TWO, sixty (60) days after recordation of the Notice of Completion, provided no claim is made thereon.
4. The City Clerk is hereby authorized to release the Warranty Bonds in the amount of $217,724 for ROSE VILLAS ONE and $74,040 for ROSE

VILLAS TWO one year and one day after the effective date of this resolution, provided no claim is made thereon.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2017-397

RESOLUTION ADDING SECTION 15 (RESIDENTIAL SEWER AND WATER INFRASTRUCTURE CONNECTION PROGRAM POLICIES) TO THE HOUSING AND URBAN DEVELOPMENT POLICIES & PROCEDURES MANUAL

WHEREAS, on October 25, 2016, by Resolution No. 2016-425, the City Council consolidated all Housing and Urban Development policies & procedures into one comprehensive manual entitled Housing and Urban Development Policies & Procedures Manual (HUD Policies & Procedures Manual), and

WHEREAS, on September 14, 2017, the City of Modesto's Citizen's Housing and Community Development Committee reviewed, approved and forwarded Section 15 (Residential Sewer and Water Infrastructure Connection Program Policies) to the Housing and Urban Development Policies & Procedures Manual to the HUD Policies & Procedures Manual, to the City Council for review and approval, and

WHEREAS, the Residential Sewer and Water Infrastructure Connection Program Policies are governed by a reasonableness standard that focuses on addressing urgent needs, considering extenuating conditions, and/or prohibitive financial circumstances that cause a homeowner to be unable to fund sewer and/or improvements on their own.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby adds Section 15 (Residential Sewer and Water Infrastructure Connection Program Policies) to the Housing and Urban Development Policies & Procedures Manual to the HUD Policies & Procedures Manual, as set forth in **Exhibit A**, which is **attached** hereto and incorporated by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-398

RESOLUTION ACCEPTING THE 2016-17 CITY LAW ENFORCEMENT GRANT, FROM THE STATE OF CALIFORNIA BOARD OF STATE AND COMMUNITY CORRECTIONS, FOR A JOINT AWARD WITH THE CITY OF CERES AND THE CITY OF MODESTO IN THE AMOUNT OF $272,475; AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE NECESSARY PROGRAM DOCUMENTS

WHEREAS, on April 1, 2017, the State of California Board of State and Community Corrections awarded the 2016-17 City Law Enforcement Grant, in the amount of $272,475, and

WHEREAS, the grant awards are based on a combination of factors, including the size of the departments in each county, mental health and homeless population data, and requires that a minimum of 60% of the total funding must go to agencies employing fewer than 100 officers, and

WHEREAS, the City of Ceres has been listed as the fiduciary of the grant, and is responsible for dispersing 66.88% of the grant funds throughout smaller agencies in Stanislaus County, and

WHEREAS, the City of Modesto will receive 33.12% of the grant as the largest city agency, an award of $90,254, and

WHEREAS, the City of Modesto will use their award of the grant funds to focus on helping the City's homeless population, at-risk youth, and gang and violence prevention programs.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the 2016-17 City Law Enforcement Grant, for a joint award with the City of Ceres and the City of Modesto in the amount of $272,475.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the necessary grant documents.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-399

RESOLUTION AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO AMEND THE MULTI-YEAR 2017/2018 OPERATING BUDGET TO APPROPRIATE REVENUES AND EXPENDITURES OF $90,254 FOR THE CITY OF MODESTO'S ALLOCATION FROM THE STATE OF CALIFORNIA, BOARD OF STATE AND COMMUNITY CORRECTIONS (BSCC) 2016-17 CITY LAW ENFORCEMENT GRANT AND IMPLEMENT THE PROVISIONS OF THIS RESOLUTION

WHEREAS, the California Budget Act of 2016, Chapter 23, Statutes of 2016, allocates $20 million to cities to increase positive outcomes between municipal law enforcement and high-risk populations, and

WHEREAS, the State Controller's Office has authorized the disbursement of these funds according to a schedule provided by the Department of Finance, and

WHEREAS, the Budget Act of 2016 determines awards based on a combination of factors including size of police departments in each county and mental health and homeless population data, and

WHEREAS, the Budget Act of 2016 requires that a minimum of 60% of the total funding must go to police departments employing less than 100 officers, and

WHEREAS, the City of Modesto received an allocation of $90,254 to supplement programs and services related to homeless outreach, Crisis Intervention Training, high-risk youth outreach and youth diversion programs, gang and violence prevention programs, and

WHEREAS, these funds result in increased revenue and offsetting expenses to the City for $90,254 and these funds will reside in Multi-Year Operating Account 1342-19998-42131-101027.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the Interim City Manager, or his designee, to amend the Multi-Year 2017/2018 Operating Budget to appropriate revenues and expenditures of $90,254 for the State of California, Board of State and Community Corrections (BSCC) 2016-17 City Law Enforcement Grant.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-400

RESOLUTION APPROVING ANGLED PARKING ALONG THE SOUTH SIDE OF J STREET BETWEEN 6TH STREET AND 7TH STREET, AND RESCINDING RESOLUTION NO. 2017-245

WHEREAS, Article 10 of Chapter 2 of Title 3 of the Modesto Municipal Code authorizes the City Council, by resolution, to establish angled parking in the City of Modesto, and

WHEREAS, staff is requesting that Resolution No. 2017-245, which established the prior approved angled parking list in the City of Modesto, be rescinded, and

WHEREAS, City staff received a request from St. Paul's Baptist Church to install angled parking along the south side of J Street between 6th Street and 7th Street to provide additional parking spaces along J Street, and

WHEREAS, staff evaluated the traffic volumes and the speeds for this section of roadway and concluded that angled parking can be accommodated on the south side of J Street between 6th Street and 7th Street without creating a hazard and without impeding traffic flow, and

WHEREAS, on September 13, 2017, the Healthy Economy Committee reviewed and considered the additional angled parking on J Street and supported staff's recommendation to forward to Council for approval.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

1. ANGLED PARKING. Angled parking in the City of Modesto is hereby approved and established at the following locations:

- 4th Street, between E Street and G Street (west side)

- 6th Street, Sierra Drive to north property line of New Bethany Missionary Baptist Church (west side)
- 8th Street, between J Street and K Street (east side)
- 8th Street, between H Street and I Street (west side)
- 8th Street, between L Street and Jefferson Street (east side)
- 10th Street, between F Street and G Street (east side)
- 10th Street, between G Street and H Street (east side)
- 10th Street, between I Street and J Street (both sides)
- 13th Street, between H Street and L Street (east side)
- 13th Street, between F Street and G Street (east side)
- 15th Street, between F Street and G Street (west side)
- 15th Street, between H Street and K Street (east side)
- 16th Street, between I Street and J Street (east side)
- 18th Street, between G Street and H Street (west side)
- F Street, between 9th Street and 10th Street (north side)
- F Street, between 10th Street and 11th Street (both sides)
- I Street, between 9th Street and 12th Street (both sides)
- J Street, between 6th Street and 7th Street (south side)
- J Street, between 7th Street and 8th Street (north side)
- K Street between 415 K Street and 6th Street (north side)
- Coldwell Avenue, between Tully Road and College Avenue
- Elm Street, between Jefferson Street and Washington Street
- Jefferson Street, between Elm Street and Laurel Street

- Sierra Drive, between F Street and 4th Street (north side)
- Sierra Drive, between 5th Street and 6th Street (both sides)

2. The Public Works Director, or his designee, is hereby directed to implement the installation of angled parking along the south side of J Street between 6th Street and 7th Street.

3. Resolution No. 2017-245 is hereby rescinded.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-401

RESOLUTION APPROVING A DEVELOPMENT PLAN FOR PLANNED DEVELOPMENT ZONE, P-D(603)

WHEREAS, a verified application for an amendment to Section 19-3-9 of the Zoning Map was filed by Juan Torres on May 3, 2017, to reclassify from Highway Commercial (C-3) Zone, to Planned Development Zone, P-D(603) to allow Light Industrial (M-1) Uses, for property located 1240 N. 9th Street, described as follows:

C-3 to P-D:

A portion of these certain parcels of land described in deeds to the State of California, recorded February 23, 1957, in Book 1413, Page 322, and January 16, 1957, in Book 1405, Page 263, thence in official records, of Stanislaus County, situate in Section 19, Township 3 South, Range 9 East, Mount Diablo Base and Meridian, described as follows:

Beginning at the Northwest corner of said parcel recorded February 28, 1957; thence along the north line of last said parcel, north 89° 35' east, 294.24 feet; thence from a tangent that bears south 15° 37' 55" east, along a curve to the right having a radius 1,500 feet, through an angle of 12° 56' 20", a distance of 338.74 feet; thence south 2° 41' 35" east, 38.66 feet to the southwesterly line of said parcel recorded January 16, 1957; thence along 1957, north 43° 23' west, 509.35 feet to the point of beginning.

WHEREAS, after a public hearing held on August 21, 2017, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, it was found and determined by the Planning Commission, by its Resolution No. 2017-20, that rezoning of the property as requested will not be detrimental to the public health, safety or welfare because the rezoning to Planned Development would provide for a Light Industrial development that is compatible with surrounding high density residential, commercial and industrial uses, and

WHEREAS, the requested zone change will result in an orderly planned use of land because the design features of the project and the conditions of approval will ensure that the project is compatible with the adjacent uses, and

WHEREAS, the requested zone change is in accordance with the community objectives as set forth in the Modesto Urban Area General Plan and any applicable specific plans(s) because the General Plan designates the site as Redevelopment Planning District (RPD), and

WHEREAS, the General Plan states, "Residential and employment opportunities shall be distributed throughout the Planning District, in accordance with the 'Land Use Strategies' diagram on page 35 of the 'Modesto Redevelopment Master Plan', adopted by the Redevelopment Agency in October, 2007". According to the diagram, this property is located within Area 1 "North Carpenter Road". The stated vision for Area 1 promotes the intensification of the existing auto-intensive land uses (i.e warehousing, home improvement businesses and corporation yards) and supporting them with more efficient infrastructure, and

WHEREAS, the proposed development plan would therefore conform to the General Plan because the development of a contractor office and warehouse building would align with the vision of the Redevelopment Master Plan, and

WHEREAS, said matter was set for a public hearing of the City Council to be held on October 10, 2017, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which date and time said duly noticed public hearing was held, and

WHEREAS, after said public hearing the Council found and determined that the application of Juan Torres for a Planned Development Zone will not be detrimental to the public health, safety or welfare, will result in an orderly planned use of land, and is in accordance with the community objectives as set forth in the Modesto Urban Area General Plan and any applicable specific plans(s) for the reasons set forth in Planning Commission Resolution No. 2017-20 and quoted above, and

WHEREAS, the Council has introduced Ordinance No. 3679-C.S. on the 10th day of October, reclassifying the above-described property from Highway Commercial (C-3) Zone, to Planned Development Zone, P-D(603),

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

1. DEVELOPMENT PLAN. The development plan for Planned Development Zone, P-D(603), is hereby approved subject to the following conditions:

PLANNING

1. All development shall conform to the revised development plan, building elevations, design guidelines, and sign program stamped approved by the Community and Economic Development Director or designee.

2. The landscaping provided in front of the west side of the building shall be designed to soften the building. Prior to issuance of a building permit, landscape and irrigation plans shall be reviewed by the Community and Economic Development Director or designee.

3. Prior to issuance of a building permit, trash enclosures shall be designed using building materials, colors and finishes which are consistent or compatible with those used in the major buildings of the development, as approved by the Community and Economic Development Director.

4. Prior to issuance of a building permit, the developer shall submit a lighting plan that includes the location and design of proposed lighting

fixtures for review and approval by the Community and Economic Development Director.

5. All signs shall conform to the City of Modesto Zoning Ordinance for signs located in the M-1 Zone.

6. Prior to issuance of a sign permit the developer shall submit plans for review and approval to the satisfaction of the Community and Economic Development Director or designee. The sign shall be reviewed for conformance with the City's Zoning Code.

7. Prior to issuance of building permit, the applicant shall submit a cross-section drawing, showing how all rooftop equipment is to be screened from view (including dimensions, materials, colors, etc.) to the satisfaction of the Director of Community and Economic Development or designee. Roof-mounted equipment, including but not limited to air conditioners, fans, vents, antennas, and dishes should be set back from the roof edge and placed behind a parapet wall or in an enclosure, so they are not visible to motorists or pedestrians. Screening for equipment should be integrated into the building and roof design by the use of compatible materials, colors and forms. Wood lattice and fence-like coverings are not allowed for screening.

8. Prior to Certificate of Occupancy of any structure, all ground mounted utility structures such as transformers and HVAC equipment shall be located out of view from a public street to the satisfaction of the Director of Community and Economic Development or designee. Equipment shall be placed underground or adequately screened though the use of landscaping or masonry walls.

9. Prior to issuance of building permit the developer shall submit updated building elevations to the Planning Division for review and approval to the satisfaction of the Community and Economic Development Director or designee. The plans shall be reviewed for conformance with the City's Commercial and Industrial Guidelines.

10. Exterior building elevations showing building wall materials, roof types, exterior colors and appropriate vertical dimensions shall be included in the development construction drawings.

11. Construction drawings shall demonstrate that new ladders for roof access are mounted on the inside of the building to the satisfaction of the Director of Community and Economic Development or designee.

12. Where changes in a parapet height occur, a return into the building should be provided, for a distance of at least 6 feet, so that the

thickness of the wall panel cannot be observed or readily discerned by the public.

13. Areas designated for off-street parking, loading, circulation and maneuvering shall not be used for the outdoor storage of materials or equipment.

14. The driveway aisle at the rear of the building must not be gated. It will remain open for public access to the rear parking.

15. The parallel parking spaces behind the building, at the north and east boundaries of the property, must comply with Section 10-5.105 of the Zoning Code and measure at least 8 feet wide by 22 feet long.

BUILDING SAFETY

16. Prior to occupancy, the developer shall provide permanently anchored bicycle racks within 200 feet of each visitors entrance, readily visible to passers-by, for 5 percent of visitor motorized vehicle parking capacity, with a minimum of one two-bike capacity rack to the satisfaction of the Chief Building Official.

17. Prior to occupancy, the developer shall provide designated parking for any combination of low-emitting, fuel-efficient and carpool/van pool vehicles as follows:

TOTAL NUMBER OF PARKING SPACES	NUMBER OF REQUIRED SPACES
0-9	0
10-25	1
26-50	3
51-75	6

Paint, in the paint used for stall striping, the following characters such that the lower edge of the last word aligns with the end of the stall striping and is visible beneath a parked vehicle:

CLEAN AIR VEHICLE

FIRE PREVENTION

18. Fire Hydrant spacing and distribution shall be 300' feet O.C. Onsite fire hydrant(s) will be required.

19. Installation of fire mains, valves and hydrants shall be in accordance with City of Modesto Standard Specifications.

20. Buildings shall be equipped with automatic fire sprinkler system installed in accordance with 2016 NFPA 13.

21. An automatic fire sprinkler system will be required for buildings greater than 5,000 s.f. to the satisfaction of the Fire Marshal

22. If applicable, plans for electronically controlled vehicle access gates shall be submitted to and approved by the Fire Marshal prior to installation.

23. A fire hydrant will be required within 90 feet of the Fire Department Connection (FDC) for fire sprinklers.

PARKS PLANNING

24. Applicant shall submit Landscape and Irrigation plans for review and approval by the City's Park Planning and Development Division. L&I plans shall meet current State of California water use requirements, MMC requirements and City of Modesto standards at time of submittal.

25. Applicant shall provide a minimum ten (10') foot landscaped setback from 9th Street.

26. Applicant shall provide street trees along 9th Street spaced thirty five (35') feet on center and located within seven feet (7') of the sidewalk or curb.

27. Applicant shall install parking lot shade trees per MMC requirements; one (1) shade tree for every eight (8) parking spaces for all perpendicular parking stall locations, within seven (7') feet of stalls.

28. Applicant shall install the required three (3') foot high screening for car headlights from parking stalls potentially impacting 9th Street.

29. Applicant shall install a separate landscape water meter.

30. The landscape design can include accent landscaping to be installed at the driveways and office entries for visual connectivity to employees, visitors, delivery trucks and street traffic.

31. LID control and treatment measures shall be vegetated for erosion protection and sediment entrapment to collect/treat storm water run-off before entering the storm drain system. Storm drainage basins shall be appropriately landscaped and irrigated to address the specific type of storm water control measure.

32. Climbing vines shall be included in the landscape surrounding the trash enclosures to discourage tagging.

SOLID WASTE

33. All trash enclosures must meet the City's size and design requirements.

LAND DEVELOPMENT ENGINEERING

Transportation:

34. Driveways on 9th Street shall be constructed per City Standards.

35. The southern driveway may allow for left turns entering and possibly exiting. A southbound left-turn lane and taper on 9th Street shall be designed and constructed to the proper length for the posted speed. Design and construction of the center median area to allow vehicles to make left turns out of the driveway may be allowed but will require review and approval of the City Engineer. This median opening is currently being used for u-turns and the median design may need to accommodate this movement.

36. Street improvements including, but not limited to curb, gutter, sidewalk, street lights and storm drainage shall be designed and constructed per City of Modesto Standards.

37. No parking shall be allowed on 9th Street.

Sewer:

38. There is an existing 6- inch water main in 9th street that is available for connection and with adequate capacity for the uses expected demand. Any new connection to the water main shall pay water connection fees and an Encroachment permit shall be issued by the City prior to any connection.

Water:

39. There is an existing 10 –inch water main in 9th street that is available and adequately sized. For any new water connection, water connection fees shall be paid and an encroachment permit issued by the City prior to connection.

Storm Drain:

40. There is no positive storm drainage system in the area fronting the property on 9th street. Some sort of underground storage or rock well must be designed and constructed to accommodate street runoff. The

project shall manage the on-site storm water runoff on the property per current City of Modesto standards.

Storm Water Quality:

41. Prior to the issuance of a Grading, Demolition, or Building Permit, Developer shall submit improvement plans conforming to design requirements of the most current edition of the City of Modesto Guidance Manual for Development, Stormwater Quality Control Measures and the City of Modesto Municipal Code.

42. Prior to the issuance of a Grading, Demolition, or Building Permit, Developer shall submit a plan to integrate Low Impact Development (LID) principles into the project design. The plan shall retain, treat, and infiltrate the first 0.5" of stormwater run-off on site, and incorporate pervious landscape features into the project design wherever possible.

43. Prior to the issuance of a Grading, Demolition, or Building Permit, Developer shall submit a plan to provide permanent, post-construction treatment (grass swale, bioretention, vegetative strip, or other approved proprietary device) to remove pollutants from the first 0.5" of stormwater run-off from site.

44. Prior to the issuance of a Grading, Demolition, or Building Permit, Developer shall submit a plan for trash enclosures to be sufficiently elevated to prevent stormwater run-on from parking lot and floor of enclosures shall be graded to drain into adjacent landscape areas.

45. Prior to the issuance of a Grading, Demolition, or Building Permit, Property Owner shall provide a signed and notarized Stormwater Treatment Device Access and Maintenance Agreement to Land Development Engineering, Stormwater for recording

46. Prior to the issuance of a Grading, Demolition, or Building Permit, Property Owner shall obtain coverage for project under the State Water Resources Control Board (SWRCB) General Permit for Stormwater Discharges Associated with Construction and Land Disturbance Activities Order No. 2009-0009-DWQ, National Pollutant Discharge Elimination System (NPDES) General Permit No. CAS000002, as amended by 2010-0014-DWQ and 2012-0006-DWQ.

47. The Construction General Permit requires the Property Owner to develop a Stormwater Pollution Prevention Plan (SWPPP) for the project. The SWPPP shall include a description of all erosion, sediment, and pollution control BMPs to be used at the construction or demolition site to prevent sediment and other sources of pollution from entering the City storm drain system as well as a site plan showing their placement. Prior to issuance of a Grading, Demolition, or Building Permit, provide one paper copy of SWPPP to Land Development Engineering, Stormwater.

GENERAL

48. The property owner and developer shall, at their sole expense, defend, indemnify and hold harmless the City of Modesto, its agents, officers, directors and employees, from and against all claims, actions, damages, losses, or expenses of every type and description, including but not limited to payment of attorneys' fees and costs, by reason of, or arising out of, this development approval. The obligation to defend, indemnify and hold harmless shall include but is not limited to any action to arbitrate, attack, review, set aside, void or annul this development approval on any grounds whatsoever. The City of Modesto shall promptly notify the developer of any such claim, action, or proceeding and shall cooperate fully in the defense.

49. Prior to issuance of a building permit, any variation from the approved site plan or building elevations on file with the City must be reviewed and approved by the Community and Economic Development Director.

50. All construction documentation shall be coordinated for consistency, including but not limited to, architectural, structural, mechanical, electrical, plumbing, landscape and irrigation, grading, utility and street improvement plans. All such plans shall be consistent with the approved entitlement plans on file with the Planning Department.

51. All department Conditions of Approval for the project shall be included with building plans and shall be continuously maintained on-site during project construction to the satisfaction of the Chief Building Official.

52. All landscaping, fences, and walls shall be maintained and the premises shall be kept free of weeds, trash, and other debris.

53. At the time of issuance of a building permit, the developer shall pay development impact fees at the established rate. Such fees may include but are not limited to, sewer and water connection fees, community facility fees, building permit and plan check fees.

In addition, the following Conditions of Approval are mitigation measures from the Modesto Urban Area General Plan Master Environmental Impact Report that are applicable to the project:

MEIR Table V-8-1 (b-f):

54. Prior to excavation and construction, the prime construction contractor and any subcontractors shall be cautioned on the legal and/or regulatory implications of knowingly destroying cultural resources or removing artifacts, human remains, bottles, or other cultural materials from the project area.

55. The project sponsor shall identify a qualified archeologist prior to any demolition, excavation, or construction. The City will approve the project sponsor's selection of a qualified archeologist. The archeologist would have the authority to temporarily halt excavation and construction activities in the immediate vicinity (ten-meter radius) of a find if significant or potentially significant cultural resources are exposed and/or adversely affected by construction operations.

56. Reasonable time shall be allowed for the qualified archeologist to notify the proper authorities for a more detailed inspection and examination of the exposed cultural resources. During this time, excavation and construction would not be allowed in the immediate vicinity of the find; however, those activities could continue in other areas of the project site.

57. If any find is determined to be significant by the qualified archeologist, representatives from the construction contractor and the City, the qualified archeologist, and a representative of the Native American community (if the discovery is an aboriginal burial) would meet to determine the appropriate course of action.

58. All cultural materials recovered as part of a monitoring program would be subject to scientific analysis, professional curation, and a report prepared according to current professional standards.

2. DEVELOPMENT SCHEDULE. The following development schedule is hereby approved for said Planned Development Zone, P-D(603):

The entire construction program be accomplished in one phase, construction to begin on or before October 10, 2019, and completion to be not later than October 10, 2021.

3. CHANGES IN DEVELOPMENT PLAN. Any changes in the above approved development plan shall be made in accordance with the provisions of Section 10-7.108 of the Modesto Municipal Code.

4. COMPLIANCE WITH CODE PROVISIONS, ETC. In all other respects said planned development shall be accomplished in accordance with and in strict adherence to the provisions of Article 1 of Chapter 7 of Title 10 of the Modesto Municipal Code relating to Planned Development Zones and other applicable City laws, rules, regulations and procedures.

5. EFFECTIVE DATE. This resolution shall not become effective unless and until the ordinance reclassifying the above-described property to Planned Development Zone, P-D(603), becomes effective.

BE IT FURTHER RESOLVED that the conditions of project approval set forth herein include certain fees, dedication requirements, reservations requirements, and other exactions, and that pursuant to Government Code Section 66020(d)(1), these conditions constitute written notice of a statement of the amount of such fees, and a description of the dedications, reservations, and other exactions.

BE IT FURTHER RESOLVED that the applicant is hereby further notified that the ninety (90) days approval period in which a protest of these fees, dedications, reservations, and other exactions, pursuant to Government Code Section 66020(a) can be filed, begins on January 8, 2018, and that if a protest is not filed within this ninety (90)-day period complying with all of the requirements of Section 66020, the applicant will be legally barred from later challenging such exactions.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-402

RESOLUTION FINDING THAT THE FOLLOWING SUBSEQUENT PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (SCH NO. 2007072023): AMENDMENT OF SECTION 19-3-9 OF THE CITY OF MODESTO ZONING MAP TO REZONE FROM HIGHWAY COMMERCIAL (C-3) TO PLANNED DEVELOPMENT ZONE P-D(603) TO ALLOW FOR A 17,000 SQUARE FOOT BUILDING TO HOUSE BUSINESSES ALLOWED WITHIN THE LIGHT INDUSTRIAL (M-1) ZONE

WHEREAS, on October 14, 2008, the City Council of the City of Modesto certified the Final Master Environmental Impact Report ("Master EIR") (SCH No. 2007072023) for the Modesto Urban Area General Plan, and

WHEREAS, Juan Torres has proposed the rezone of property located at 1240 N. 9th Street from Highway Commercial (C-3) Zone to Planned Development Zone P-D(603) to allow Light Industrial (M-1) uses, and

WHEREAS, pursuant to Section 21157.1 of the Public Resources Code, the City of Modesto's Community & Economic Development Department prepared an Environmental Assessment Initial Study EA/C&ED 2017-17 ("Initial Study") which analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report, and

WHEREAS, in accordance with CEQA guidelines beginning on September 20, 2017, the City caused to be published a 20-day notice of the City's intent to make a finding that the subsequent project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on October 10, 2017, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed rezone, a copy of which is **attached** hereto as **Exhibit "A"**, and incorporated herein by reference, and based on substantial evidence in the Initial Study makes the following findings:

1. An Initial Study was prepared by the City of Modesto that analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report.

2. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code that was not identified in the Master EIR.

3. No new or additional mitigation measures or alternatives are required.

4. The subsequent project is within the scope of the project covered by the Master EIR.

5. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

6. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of approval or determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold
NOES:	Councilmembers:	None

Updated: September 2013

(Intentional Blank Page)

City of Modesto
Master EIR Initial Study Environmental Checklist

I. PURPOSE

CEQA allows for the limited environmental review of subsequent projects under the City's Master Environmental Impact Report ("Master EIR" or "MEIR"). This Initial Study Environmental Checklist ("Initial Study") is used in determining whether the proposed Planned Development Zone and concurrent tentative maps to facilitate senior assisted and independent living housing ("Project") are "within the scope" of the project analyzed in the Modesto Urban Area General Plan Master EIR (SCH# 2007072023) (Public Resources Code section 21157.1). When the Initial Study supports this conclusion, the City will issue a finding of conformance.

A subsequent project is "within the scope" of the Master EIR when:

1. it will have no additional significant effects on the environment that were not addressed as significant effects in the Master EIR; and

2. no new or additional mitigation measures or alternatives are required.

"Additional significant effects" means a project-specific effect that was not addressed as a significant effect in the Master EIR. [Public Resources Code Section 21158(d)]

The determination must be based on substantial evidence in the record. "Substantial evidence" means facts, reasonable assumptions predicated upon facts, or expert opinion based on facts. It does not include speculation or unsubstantiated opinion. (CEQA Guidelines Section 15384)

II. PROJECT DESCRIPTION

A. Title: Planned Development Zone to Allow for the Construction of a 17,000 sq.ft. Warehouse and Office Building with Light Industrial (M-1) Uses.

B. Address or Location: 1240 9th Street (APN 029-005-012)

C. Applicant: Juan Torres
1006 N. Carpenter Road
Modesto, CA 95351

D. City Contact Person: Jonnie Lan, AICP, Associate Planner

Project Manager: Jonnie Lan
Department: Community and Economic Development, Planning Division
Phone Number: 209-577-5267
E-mail address: jlan@modestogov.com

E. Current General Plan Designation(s): Redevelopment Planning District (RPD)

F. Current Zoning Classification(s): Highway Commercial (C-3)

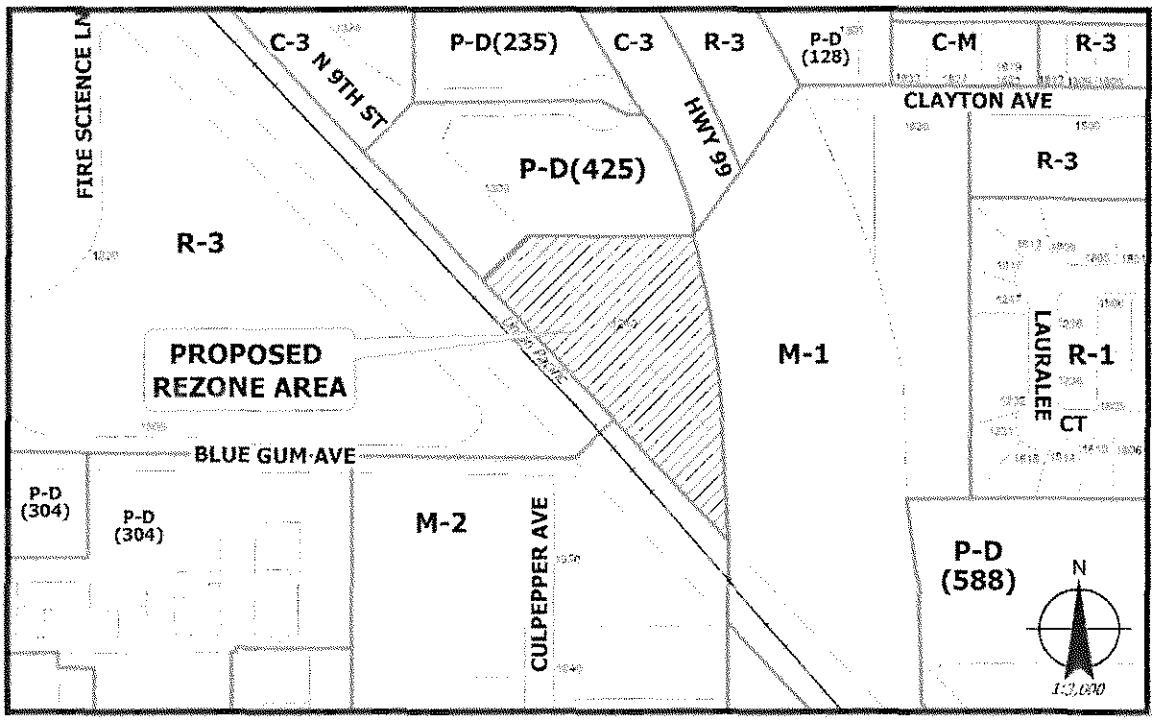
G. Surrounding Land Uses:

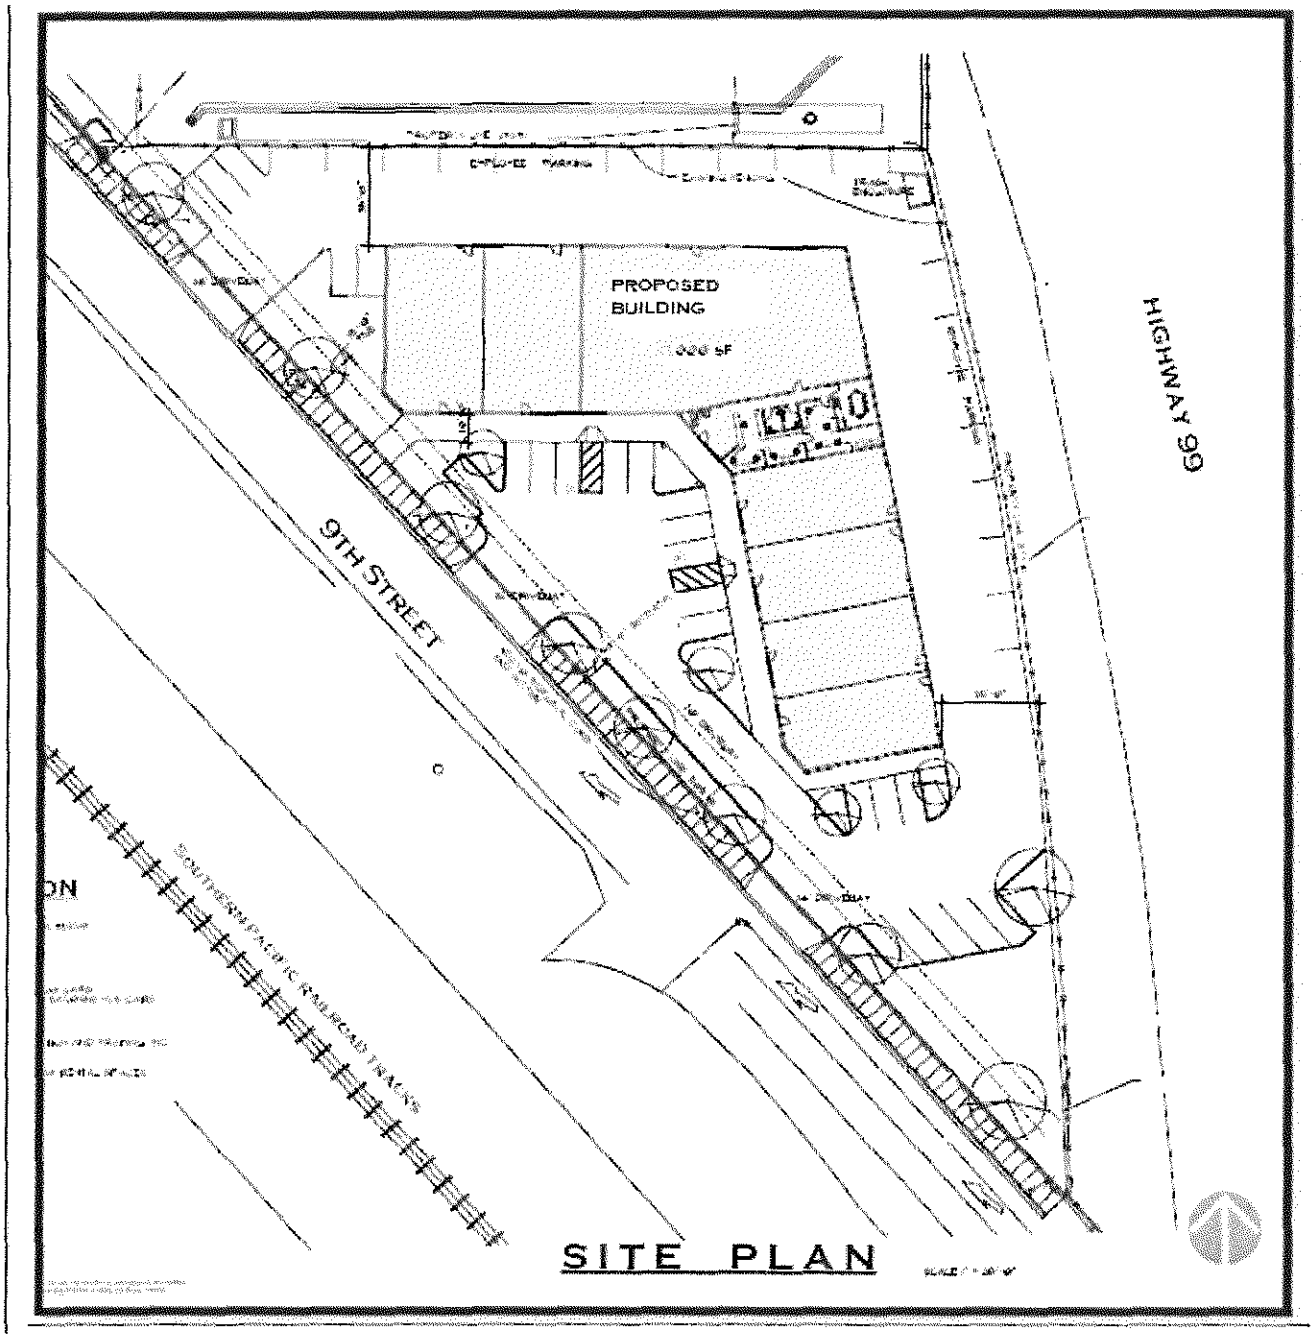
North: Planned Development Zone P-D(425) C-3 uses and Sheet Metal Shop
South: Heavy Industrial (M-2) Zone and Planned Development Zone P-D(588) 150-unit affordable Housing Development
East: Light Industrial (M-1) Zone
West: High Density Residential (R-3) Zone, City of Modesto Fire Station #4

H. Project Description, including the project type listed in Section II.C (Anticipated Future Projects) of the Master EIR (Attach additional maps/support materials as needed for complete record):

Proposal to redevelop a site upon which 16 residential units were located, until demolished by permit in 2005. The applicant proposes to construct a 17,000 square foot industrial building shell on the 2-acre parcel. The site plan provides for 41 parking spaces and landscaping.

Project involves:





SITE PLAN FOR PLANNED DEVELOPMENT
17,000 SQ. FT. INDUSTRIAL BUILDING
PDZ-17-003

I. Other Public Agencies Whose Approval is Required: None.

III. FINDINGS/DETERMINATION (SELECT ONE ON THE BASIS OF THE ANALYSIS IN SECTION IV)

1. __X__ **Within the Scope** - The project is within the scope of the Master EIR and no new environmental document or Public Resources Code Section 21081 findings are required. All of the following statements are found to be true:

   A. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.

   B. No new or additional mitigation measures or alternatives are required.

   C. The subsequent project is within the scope of the project covered by the Master EIR.

   D. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

   E. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

2. ____ **Mitigated Negative Declaration Required** - On the basis of the above determinations, the project is not within the scope of the Master EIR. A mitigated negative declaration will be prepared for the project. The following statements are all found to be true:

   A. The subsequent project is within the scope of the project covered by the Master EIR.

   B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

   C. The project will have one or more potential new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures are being required of the project that will reduce the effects to a less-than-significant level.

   D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

3. ____ **Focused EIR Required**- On the basis of the above determinations, the project is not within the scope of the Master EIR. A Focused EIR will be prepared for the project. All of the following statements are found to be true:

   A. The subsequent project is within the scope of the project covered by the Master EIR.

B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

C. The project will have one or more new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures or alternatives are required as a result.

D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

Date

4. Within the Scope Analysis of this Document:

The Master EIR allows projects to be found within the scope of the MEIR if certain criteria are met. If the following statements are found to be true for all 21 impact categories included in this Initial Study, then the proposed project is addressed by the MEIR analysis and is within the scope of the MEIR. Any "No" response must be discussed.

		YES	NO
(1)	The lead agency for subsequent projects shall be the City of Modesto or a responsible agency identified in the Master EIR.	☒	☐
(2)	City policies which reduce, avoid, or mitigate environmental effects will continue to be in effect and, therefore, would be applied to subsequent projects where appropriate. The policies are described in the list of policies in place and mitigation measures attached to the Initial Study template. Project impacts would be mitigated to a less-than-significant level using MEIR mitigations only.	☒	☐
(3)	Federal, State, regional, and Stanislaus County regulations do not change in a manner that is less restrictive on development than current law (i.e., would not offer the same level of protection assumed under the Master EIR).	☒	☐
(4)	No specific information concerning the known or potential presence of significant resources is identified in future reports, or through formal or informal input received from responsible or trustee agencies or other qualified sources.	☒	☐
(5)	The development will occur within the boundaries of the City's planning area as established in this Urban Area General Plan.	☒	☐
(6)	Development within the project will comply with all appropriate mitigation measures contained and enumerated in the 2008 General Plan Master EIR.	☒	☐

5. Currency of the Master EIR Document

The MEIR should be reviewed on a regular basis to determine its currency, and whether additional analysis/mitigation should be incorporated into the MEIR via a Supplemental or Subsequent EIR (CEQA Section 21157.6). Staff has reviewed Sections 1 through 21 of this document in light of the criteria listed below to determine whether the MEIR is current. The analysis contained within the Master EIR is current as long as the following circumstances have not changed. Any "no" response must be explained.

		YES	**NO**
(1)	Certification of the General Plan Master EIR occurred less than five years prior to the filing of the application for this subsequent project.	☐	☒
(2)	This project is described in the Master EIR and its approval will not affect the adequacy of the Master EIR for any subsequent project because the City can make the following findings:	☒	☐
(a)	No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified.	☒	☐
(b)	No new information, which was not known and could not have been known at the time the Master EIR was certified as complete, has become available.	☒	☐
(c)	Policies remain in effect which require site-specific mitigation, and avoidance or other mitigation of impacts as a prerequisite to future development.	☒	☐

Discussion:

(1) The General Plan Master EIR was certified on October 14, 2008, so more than five years has passed since the MEIR was certified. However, the analysis contained in the MEIR is still adequate for subsequent projects, as documented in the discussion below.

(2) The project is consistent with the analysis contained in the MEIR. This is documented in the discussion of the individual issue areas of this initial study.

(2)(a) There have been no substantive changes to the General Plan since the MEIR was certified that would create additional significant environmental effects that were not analyzed by the MEIR.

(2)(b) There has been no new information that would affect the adequacy of the analysis contained in the MEIR.

(2)(c) All policies contained in the MEIR that require site-specific mitigation or avoidance of impacts remain in effect and will be applied to the project as appropriate.

IV. ENVIRONMENTAL ANALYSIS

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, discloses whether the proposed project may cause any project-specific significant effect on the environment that was not examined in the Final Master EIR (MEIR) for the General Plan and whether new or additional mitigation measures or alternatives may be required as a result. The Initial Study thereby documents whether or not the project is "within the scope" of the Master EIR.

Pursuant to Public Resources Code Section 21157.1, no new environmental document or findings are necessary for projects that are determined to be within the scope of the MEIR. Adoption of the findings specified in Section III.1, above after completion of the Initial Study fulfills the City's obligation in that situation.

All environmental effects cited reflect 2025 conditions resulting from the Urban Area General Plan, as identified in the Master EIR.

The environmental impact analysis in the Master EIR for the Urban Area General Plan is organized in twenty-one subject areas. The following analysis is based on the impact analyses contained in Chapter V of the Master EIR. For ease of reference, the sections are numbered in the same order as the analyses in Chapter V.

1. TRAFFIC AND CIRCULATION

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable traffic and circulation impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Increased automobile traffic will result in roadway segments (see MEIR on Table 1-7, pages V-1-32 to V-1-34) operating at LOS A, Modesto's significance threshold for automobile traffic, or lower (LOS E or F).

Effect: The substantial increase in traffic relative to the existing load and capacity of the street system will cause, either individually or cumulatively, the violation of automobile service standards established by StanCOG's Congestion Management Plan for designated roads and highways.

Effect: A substantial increase in automobile vehicle miles traveled and automobile vehicle hours of travel and a decrease in average automobile vehicle speed (see MEIR Table 1-6, page V-1-31).

Cumulative Impacts

Effect: Potential for growth inducement or acceleration of development resulting from highway and local road projects.

Effect: Substantial increase in traffic in relation to the existing traffic load and capacity of the street system, including a violation, either individually or cumulatively, of an automobile LOS standard established by the Congestion Management Plan for designated roads and highways.

Effect: Increased demand for capacity-enhancing alterations to existing roads or automobile traffic reduction.

Other impact categories affected by Traffic and Circulation are addressed throughout this Initial Study (see also Section 2, Degradation of Air Quality; Section 3, Generation of Noise; Section 7 Loss of Sensitive Wildlife and Plant Habitat; Section 8, Disturbance of Archaeological/Historic Sites; Section 14 Increased Demand for Fire Services; Section 18, Energy; Section 19, Visual Resources; Section 20, Land Use and Planning, and Section 21, Climate Change).

b. Master EIR and/or New Mitigation Measures Applied to the Project

Traffic and Circulation mitigation measures pertinent to this project are found on MEIR pages V-1-9 through V-1-28. All mitigation measures appropriate to the project, including any new measures, will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures regarding traffic from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-1.B of the Master EIR provides analysis of Traffic and Circulation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: A subsequent development project will have a new significant effect on the environment if it would exceed the following criteria:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1. TRAFFIC AND CIRCULATION				
1) The proposed project exceeds traffic generation assumptions in the Master EIR for the site by 100 trips or more and City Engineering and Transportation staff has determined that the project would have additional potentially significant project-specific effects that are not avoided or reduced by the Master EIR's mitigation measures.	☐	☐	☐	☒
2) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads or highways?	☐	☐	☐	☒
3) The proposed project would cause additional roadway segments in the General Plan area to exceed LOS D and/or cause additional violations of standards in the Congestion Management Plan, and/or cause an increase in automobile vehicle miles or vehicle hours of travel or a decrease in automobile travel speed, as compared to the impacts disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project would cause emergency response times to exceed acceptable standards established by the Fire Department, as compared to impacts disclosed in the Master EIR (see Section 14, Increased Demand for Fire Services).	☐	☐	☐	☒
5) The proposed project would result in less parking than required by the Municipal Code or as determined by staff.	☐	☐	☐	☒
6) The proposed project would conflict with adopted policies, plans, or programs that support alternative transportation, including, but not limited to the Regional Transportation Plan, the Sustainable Communities Strategy, the Bicycle Action Plan, and so on.	☐	☐	☐	☒
7) The proposed project would result in an increase	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
in automobile vehicle miles traveled on a per capita basis, in excess of that considered in the Urban Area General Plan MEIR.				

Discussion:

(1) The project consists of the development of approximately 1.3 acres within the Baseline Urbanized Area as a 17,000 square foot L-shaped industrial building with 7 tenant spaces ranging from 1,500 square feet to 7,000 square feet. The site was formerly the location of 16 small residential units, used at one time as a motel. Those units were demolished in 2005 and the property has been vacant since then. The project was referred to Land Development Engineering, Traffic, who indicated no concerns with the traffic volumes.

(2) The project would not exceed a level of service standard established by the county congestion management agency (StanCOG).

(3) There are no significant changes in the level of service or the volume-capacity ratio as a result of the project, and therefore there are no significant cumulative (long-term) traffic impacts.

(4) Police and Fire Staff have reviewed this proposal and have not indicated that there is an emergency access problem.

(5) The proposed development will provide parking in accordance with the Municipal Code.

(6) Traffic Staff have reviewed this proposal and indicated no issues with adopted plans for alternative transportation. A bus stop is located on northbound 9th Street, just south of its intersection with Coldwell. There is a Class 1 bicycle lane across the street.

(7) The proposed project would not result in a significant increase in automobile vehicle miles traveled (per capita) in excess of what was considered in the Urban Area General Plan.

2. DEGRADATION OF AIR QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable air quality impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Expected automobile traffic will result in increased operational emissions of reactive organic gases (ROG) and oxides of nitrogen (NO_X) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased emissions of particulate matter 10 microns or less (PM_{10}) and 2.5 microns or less in diameter ($PM_{2.5}$) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased carbon monoxide (CO) levels in the project area (see MEIR Table 2-7, page V-2-26, and Table 2-8, page V-2-27).

Cumulative Impacts

The Master EIR indicates the same impacts identified as direct impacts above will contribute to regional impacts on air quality for the criteria pollutants ROG, NO_x, PM_{10}, and $PM_{2.5}$.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Air quality mitigation measure(s) pertinent to the proposed project are found on pages V-2-13 through V-2-24 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes AQ-42 through AQ-50 from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-2.B of the Master EIR is the analysis of air quality impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
2. DEGRADATION OF AIR QUALITY				
1) The proposed project exceeds the project-level emissions thresholds established for CO, ROG, NO_x, PM_{10}, and $PM_{2.5}$ by the San Joaquin Valley Air Pollution Control District (SJVUAPCD) and is not consistent with the development assumptions for the project site, as established in the Urban Area General Plan and Master EIR.	☐	☐	☐	☒
2) The proposed project does not incorporate the best management practices established by the SJVAPCD for CO, ROG, NO_x, PM_{10}, and $PM_{2.5}$.	☐	☐	☐	☒
3) The proposed project does not comply with the air quality policies in the Modesto Urban Area General Plan.	☐	☐	☐	☒
4) The proposed project would expose sensitive	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
receptors to pollutant concentrations in excess of those expected to occur as a result of implementation of the Urban Area General Plan.				
5) The proposed project would create objectionable odors affecting a substantial number of people.	☐	☐	☐	☒

Discussion:

(1) The project consists of the development of approximately 1.3 acres as a 17,000 square foot L-shaped industrial building with 7 tenant spaces ranging from 1,500 square feet to 7,000 square feet. The subsequent development would not exceed emissions thresholds established by the SJVUAPCD, and is consistent with the development standards for a residential use as established by the General Plan.

(2) Development of the site will be required to adhere to applicable City Zoning Ordinances, Standards, and applicable best management practices during the construction process.

(3-5) The project would comply with the air quality policies in the General Plan, and would not expose sensitive receptors to pollutants or odors in excess of assumptions for residential uses.

3. GENERATION OF NOISE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable noise impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Future automobile traffic noise levels and roadway construction and maintenance activities resulting from development of the Urban Area General Plan will exceed the City's noise thresholds at various locations, but particularly in areas adjacent to heavily traveled roadways (see MEIR Table 3-3, page V-3-10, and Figure VII-2 and Table 3-6, pages V-3-18 and V-3-19).

Effect: Expected noise from airport operations and airport construction projects may expose up to 468 dwellings and three churches to noise levels of 65 dB CNEL and up to eight dwellings to noise levels of 70 dB CNEL.

Effect: Expose noise-sensitive land uses to noise from the construction of bicycle and transit projects.

Effect: Expose noise-sensitive land uses to noise from freight and passenger rail operations.

Cumulative Impacts

Effect: Traffic from development in the City of Modesto would, when combined with traffic from new development in the County and other cities, contribute to a cumulative increase in roadside noise levels on major roads and highways throughout Stanislaus County.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Noise policies and mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-3-11 through V-3-15 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and any new measures are listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes N-1 through N-3 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-3.B of the MEIR discloses noise impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of the proposed project's effects are based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
3. GENERATION OF NOISE				
1) The proposed project will exceed the standards for noise level and hours of operation established by the Modesto noise ordinance.	☐	☐	☐	☒
2) The proposed project will not comply with the noise policies of, or otherwise be inconsistent with, the Modesto Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project will result in an increase in ambient noise levels in the project vicinity above those disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project will result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels disclosed in the Master EIR implementation of the Urban Area General Plan.	☐	☐	☒	☐

Discussion:

(1) The project consists of the development of approximately 1.3 acres as a 17,000 square foot L-shaped industrial building with 7 tenant spaces ranging from 1,500 square feet to 7,000 square feet. The subsequent development would be required to adhere to the City's noise ordinance.

(2-4) The development would not be inconsistent the noise policies of the General Plan, nor result in ambient noise levels above those assumed by the General Plan for a light industrial use. Any increase in ambient noise levels would be construction-related and temporary in the process of developing the industrial building.

4. EFFECTS ON AGRICULTURAL LANDS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on agricultural lands expected after application of mitigations/policies:

Direct Impacts

Effect: Between 1995 and 2025, development of the Urban Area General Plan may convert up to approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area to urban uses.

Effect: Approximately 1,200 acres of urban development along a 28.5-mile boundary 350 feet wide between urban and agricultural uses could be affected by continued agricultural operations, including noise, dust, and chemical overspray or drift.

Cumulative Impacts

Effect: Growth within Modesto's planning area would contribute considerably to the loss of agricultural land within Stanislaus County, accounting for the conversion of as much as approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area from 1995 to 2025.

b. Master EIR and/or New Mitigation Measures Pertinent to the Project

Agricultural land mitigation measures pertinent to the proposed project are found on pages V-4-6 to and V-4-8 of the Master EIR. All mitigation measures appropriate to the project and any new mitigation to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures regarding agricultural lands from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-4.B of the Master EIR discloses the impacts resulting from the implementation of the Urban Area General Plan on agricultural lands. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
4. EFFECTS ON AGRICULTURAL LANDS				
1) The proposed project is inconsistent with the Urban Area General Plan's policies relating to agricultural land.	☐	☐	☐	☒
2) The proposed project will either directly or indirectly result in the development of land outside the 2008 Urban Area General Plan's planning area boundary.	☐	☐	☐	☒
3) The proposed project will conflict with existing zoning for agricultural use, or there is an existing Williamson Act contract on the project site.	☐	☐	☐	☒
4) The proposed project will involve other changes in the existing environment not anticipated in the Master EIR which, due to their location or nature, could result in conversion of farmland to non-agricultural use.	☐	☐	☐	☒

Discussion:

(1) The project is a vacant infill area within the Baseline Developed Area not in agricultural production, and is completely surrounded by urbanized area consisting of commercial and industrial uses and the House Church of Modesto. The project would therefore not be inconsistent with the General Plan's policies related to agricultural land.

(2-4) The project site is not zoned for agricultural use, and no Williamson Act contract is in place on the property. The site is surrounded by urban area and would not cause the conversion of farmland to a non-agricultural use.

5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on long-term water supplies expected after application of mitigations/policies

Direct Impacts

Effect: No residual significant direct impacts have been disclosed in the Master EIR.

Cumulative Impacts

Effect: Operational yields of the Modesto and Turlock subbasins, both of which underlie the City of Modesto, are unknown, although the City is participating in a study with the United States Geological Survey in order to quantify the operational yields of both subbasins. Groundwater withdrawals from both basins by the City, when combined with other users' withdrawals, may result in overdrafting both subbasins.

Effect: Despite available options, during drought years, significant water shortages are forecast for the San Joaquin River basin, which includes both the Modesto and Turlock subbasins, by 2020. Modesto would make a cumulatively considerable contribution to the cumulative impact on water supply under drought conditions.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Water supply mitigation measures pertinent to the proposed project are found on pages V-5-6 through V-5-12 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures regarding water supply from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-5.B of the Master EIR discloses impacts on long-term water supplies resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES				
1) The proposed project is inconsistent with water supply policies in the Urban Area General Plan.	☐	☐	☐	☒
2) Water demand for the proposed project will exceed estimates for similar projects or for	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
development on the project site anticipated in the Urban Area General Plan or sufficient water supplies are not otherwise available to serve the project from existing entitlements and resources.				
3) The proposed project would deplete groundwater supplies to a greater degree than anticipated in the Urban Area General Plan or would interfere with groundwater recharge.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the water supply policies in the General Plan.

(2) The project was referred to Land Development Engineering Staff who indicated no concerns with water supply to the project. The proposed development will not exceed estimates or water supplies needed to serve other entitlements and resources.

(3) The proposed project is consistent with the ground water demands assumed in the General Plan. The project would not have a significant effect on ground water recharge or depletion of long-term water supplies.

6. INCREASED DEMAND FOR SANITARY SEWER SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sanitary sewer services after application of mitigations/policies:

Direct Impacts

Effect: Development resulting from implementation of the Urban Area General Plan will require substantial new sewage treatment and disposal capacity, treatment plant improvements, sewer mains and collection lines, and pump stations. The Wastewater Master Plan anticipates the need for these facilities and its EIR evaluates the impact of developing those facilities. Potential impacts include degradation of water quality through erosion and chemical releases; localized flooding; construction noise; exposure of construction workers and the public to hazardous materials; and on the habitat of the elderberry longhorn beetle, burrowing owl, and Swainson's hawk, as well as certain other regulated habitats. All of these impacts are mitigated to a less-than-significant level.

Additional impacts that are not mitigated to a less-than-significant level include loss of farmland cause by construction of the Phase IA tertiary treatment facility at the Jennings Road Secondary Treatment Facility, an increase in pollutant loads from increased wastewater flows to the San Joaquin River, and an increase in noise and criteria air pollutants due to construction activities, including traffic.

Cumulative Impacts

Effect: No additional cumulative impacts were identified in the Master EIR

b. Master EIR and/or New Mitigation Measures Applied to the Project

Sewer service mitigation measures pertinent to the proposed project are found on pages V-6-3 through V-6-8 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-6.B of the Master EIR discloses impacts on the Increased Demand for Sanitary Sewer Service resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
6. INCREASED DEMAND FOR SANITARY SEWER SERVICES				
1) The proposed project is inconsistent with wastewater policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project will generate sewage flows greater than those anticipated in the Urban Area General Plan for the project site.	☐	☐	☐	☒
3) The proposed project will result in a determination by the wastewater treatment provider which serves or may serve the project that it has inadequate capacity to serve the project's projected demand in addition to the provider's existing commitments.	☐	☐	☐	☒

Discussion:

(1) The project consists of the development of approximately 1.3 acres as a 17,000 square foot L-shaped industrial building with 7 tenant spaces ranging from 1,500 square feet to 7,000 square feet. The project would be consistent with the General Plan's policies relating to wastewater and conform to applicable City Zoning Codes and Standards.

(2-3) The project would not generate sewage flows greater than estimates for a project of similar residential uses. The project was referred to Land Development Engineering, who indicated no concerns with the project.

7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sensitive wildlife and plant habitat expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant impacts on sensitive wildlife and plan habitat are expected to occur with the application of the policies contained in the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will contribute to the cumulative impact of habitat loss in the San Joaquin Valley. Requiring density development than has occurred in the past or that is expected in the future would minimize the City's contribution to the cumulative loss of habitat. Nonetheless, this is a significant and unavoidable impact.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Wildlife and plant habitat mitigation measures pertinent to the proposed project are found on pages V-7-17 through V-7-24 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-7.B of the Master EIR discloses impacts on the Loss of Sensitive Wildlife and Plant Habitat resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT				
1) The project is inconsistent with the policies pertaining to the loss of sensitive wildlife and plant	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
habitat contained in the Urban Area General Plan.				
2) Consultation with the California Department of Fish and Game or the U.S. Fish and Wildlife Service determines that the project would have a significant effect on a candidate, sensitive, or special status species in excess of the impact disclosed in the Master EIR.	☐	☐	☐	☒
3) The proposed project would have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act through direct removal, filling, hydrological interruption, or other means, in excess of the impact disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project would substantially interfere with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites.	☐	☐	☐	☒
5) Conflict with local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.	☐	☐	☐	☒
6) The proposed project would conflict with provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan.	☐	☐	☐	☒

Discussion:

(1) The project consists of the development of approximately 1.3 acres as a 17,000 square foot L-shaped industrial building with 7 tenant spaces ranging from 1,500 square feet to 7,000 square feet. The project would not be inconsistent with General Plan policies pertaining to wildlife and plant habitat.

(2-4) The project site is located within the Baseline Developed Area of the City and is completely surrounded by developed urban area consisting of residential uses and the House Church of Modesto. It is not a biologically sensitive site as defined by Figure V-7-1 of the MEIR. The California Department of Fish and Game and the U.S. Fish and Wildlife Service were consulted in the production of the MEIR.

(5-6) The project is not in conflict with any local policies or ordinances protecting biological resources, nor is in conflict with any adopted habitat conservation plan.

8. DISTURBANCE OF ARCHAEOLOGICAL/HISTORICAL SITES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on archaeological/historical sites expected after application of mitigations/policies:

Direct Impacts

Effect: Modification resulting in a substantial adverse change in the significance of a historic resource or the demolition of a listed or eligible historic resource.

Effect: The modification or demolition of a structure more than 50 years in age may be significant.

Effect: Discovery of archaeological resources in areas outside of the riparian corridors, as a result of construction activities.

Effect: Construction in an area of high archaeological sensitivity.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Archaeological or historic mitigation measures pertinent to the project being analyzed in this Initial Study are found on page V-8-16 through V-8-20 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-8.B of the MEIR discloses impacts on archaeological/historical resources resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
8. DISTURBANCE OF ARCHAEOLOGICAL/				

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
HISTORICAL SITES				
1) The proposed project is inconsistent with the archaeological/historical resource policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would demolish a building eligible for listing as a historic resource or remove a landmark from the Modesto inventory.	☐	☐	☐	☒
3) The proposed project would modify or demolish a structure more than 50 years in age.	☐	☐	☐	☒
4) The project would adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources.	☐	☐	☐	☒
5) The project would adversely affect a Tribal Cultural Resource identified and/or defined consistent with Public Resources Code section 5024.1(c).	☐	☐	☐	☒

Discussion:

(1) The project would not be inconsistent with General Plan policies pertaining to archaeological or historic resources.

(2-4) The project site is vacant infill land surrounded by urban uses. The site is not classified as being of state or federal historic status nor is eligible for listing for such status.

(5) The project does not conflict with local policies affecting biological resources.

9. INCREASED DEMAND FOR STORM DRAINAGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on storm drainage expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: The population of Stanislaus County is projected to increase in a fashion similar to that of Modesto, resulting in additional urban development and associated increases in impervious surface area and associated increases in storm water runoff. Cumulative hydrologic impacts of storm water

flows from Modesto urban areas and other areas of the County could occur due to the fixed capacity of MID and TID irrigation canals to convey drainage west to the San Joaquin River. If drainage channels in some areas prove insufficient to handle the increased drainage discharges, existing storm water runoff from urban and agricultural areas during large storm events would have to be interrupted until water levels receded to a point allowing the resumption of discharges to the channel. Ceasing discharges to drainage channels could cause inundation in and around the drainage conveyance pipeline systems, surface drainage channels, detention basins, and other urban areas. This cumulative impact is considered significant and unavoidable.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Storm Drainage mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-9-4 through V-9-9. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes SD-9 from the MEIR. City Engineering staff has reviewed the project and required conditions of approval to implement General Plan Policies for development including compliance with the Strom Drain Management Plan and the utilization of low impact strategies and meet the standards contained in the "Guidance Manual for New Development-Storm Water Quality Control Measures." No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-9.B of the MEIR discloses impacts on the demand for storm drainage resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
9. INCREASED DEMAND FOR STORM DRAINAGE				
1) The proposed project is inconsistent with the storm drainage policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or offsite, as compared to impacts anticipated to result from the Urban Area General Plan or create substantial unanticipated sources of polluted runoff.	☐	☐	☒	☐

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
3) The proposed project does not utilize Low Impact Development strategies to reduce runoff from the site and increase infiltration, resulting in no net increase in runoff before and after development.	☐	☐	☐	☒

Discussion:

(1) Construction activities will comply with the requirements of the City's Storm Water Management Plan under its municipal NPDES stormwater permit, and the State Water Resources Control Board's General Permit for Discharges of Storm Water Associated with Construction Activity (MIER Policy SD-9). In addition, the City will ensure that new development complies with the City of Modesto's Stormwater Management Program: Guidance Manual for New Development Stormwater Quality Control Measures (MIER Policy SD-11). These policies will be implemented as conditions of project approval.

(2) The project is not located in an area that has a positive storm drainage system. The project will be required to manage storm water impacts on-site as required in accordance to current City Standards and its amendments, as a condition of approval.

(3) The project will utilize low impact strategies and meet the standards contained in the "Guidance Manual for New Development-Storm Water Quality Control Measures." This requirement will be implemented as a condition of project approval.

10. FLOODING AND WATER QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on flooding and water quality expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Flooding and Water Quality mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-10-6 through V-10-9 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes: FWQ-13 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-10.B of the Master EIR provides analysis of Flooding and Water Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
10. FLOODING AND WATER QUALITY				
1) The proposed project is inconsistent with the flooding and water quality policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project does not comply with the regulatory requirements of the federal Clean Water Act or the State Porter-Cologne Act.	☐	☐	☐	☒
3) The proposed project would place more housing within a 100-year flood hazard zone than assumed in the Urban Area General Plan.	☐	☐	☐	☒
4) The proposed project would place structure within a 100-year flood hazard area so that they would impede or redirect floodwater or would substantially alter the existing on-site drainage pattern or a watercourse, in such a way as to cause flooding on- or offsite.	☐	☐	☐	☒
5) The proposed project does not comply with Modesto's Guidance Manual for New Development Storm Water Quality Control Measures.	☐	☐	☐	☒
6) The proposed project would violate water quality standards or waste discharge requirements.	☐	☐	☐	☒
7) The proposed project would substantially alter the existing drainage pattern of the site or area or a watercourse in a manner that would result in substantial erosion or siltation on- or offsite in excess of the assumptions of the Urban Area General Plan.	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
8) The proposed project would create or contribute runoff, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff, not expected as part of Urban Area General Plan implementation.	☐	☐	☐	☒

Discussion:

(1) The proposed project is consistent with the flooding and water quality policies in the Urban Area General Plan.

(2) The project would comply with the Federal Clean Water Act and the Porter Cologne Act requirements.

(3) The project site is not within a 100-year flood hazard zone as established by the Federal Emergency Management Agency (FEMA) Flood Rate Insurance Map 06099C0340E dated September 26, 2008.

(4) The project will comply with the Guidance Manual for New Development Storm Water Quality Control Measures (MIER Policy SD-11). This will be implemented as a condition of project approval.

(5) The project will comply with the Guidance Manual for New Development Storm Water Quality Control Measures (MIER Policy SD-11). This will be implemented as a condition of project approval.

(6) The project will not violate water quality standards or waste discharge requirements.

(7) The project would not substantially alter the existing drainage pattern of the site, area or a watercourse in a manner that would result in erosion or siltation.

(8) The project is not located in an area that has a positive storm drainage system. The project will be required to manage storm water impacts on-site as required in accordance to current City Standards and its amendments, as a condition of approval.

11. INCREASED DEMAND FOR PARKS AND OPEN SPACE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on parks and open space expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Parks and open space mitigation measures pertinent to the proposed project are found on pages V-11-3 through V-11-9 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-11.B of the MEIR discloses impacts of the Urban Area General Plan on parks and open space. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
11. INCREASED DEMAND FOR PARKS AND OPEN SPACE				
1) The proposed project is inconsistent with the parks and open space policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would eliminate parks or open space.	☐	☐	☐	☒
3) The proposed project would cause an increase in the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility in question would occur or be accelerated or the proposed project would include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the parks and open space policies in the General Plan.

(2) The project would not eliminate an existing park or designated open space. The project is on a vacant site that was previously short term 16 residential units that were demolished in 2005.

(3) The project would not cause an increase in use of existing local and regional parks.

12. INCREASED DEMAND FOR SCHOOLS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on school facilities expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR. By statute, the impact of new students is considered to be mitigated below a level of significance by payment of school impact fees and the exercise of any or all of the financing options set out in Government Code Section 65997.

Cumulative Impacts

Effect: Similar to direct impacts of implementation of the Urban Area General Plan, no residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. As long these policies are applied to all subsequent projects, no new mitigation is necessary. Further, payment of school impact fees and compliance with SB 50 is statutorily deemed to be full mitigation of school impacts (Government Code Section 65995).

The following schools mitigation measures on pages V-12-5 through V-12-7 of the Master EIR are pertinent to the proposed project. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures are listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-12.B of the Master EIR discloses impacts resulting from implementation of the Urban Area General Plan associated with increased demand for schools. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
12. INCREASED DEMAND FOR SCHOOLS				
1) The proposed project is inconsistent with the policies relating to schools in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project does not comply with SB 50/Proposition 1A funding provisions, or succeeding measures which state that compliance results in less-than-significant impacts on schools.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the policies relating to schools in the General Plan.

(2) The project was referred to Modesto City Schools who indicated no concerns with the project.

13. INCREASED DEMAND FOR POLICE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on police services expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Police services mitigation measures pertinent to the proposed project are found on pages V-13-2 through V-13-5 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-13.B of the Master EIR discloses impacts on police services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
13. INCREASED DEMAND FOR POLICE SERVICES				
1) The proposed project is inconsistent with policies relating to police services in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the policies relating to police services in the General Plan.

(2) The project would not result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives. The project meets City Standards for emergency services access.

14. INCREASED DEMAND FOR FIRE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on fire services expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Fire Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-14-4 through V-14-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-14.B of the Master EIR discloses impacts on fire services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
14. INCREASED DEMAND FOR FIRE SERVICES				
1) The proposed project is inconsistent with the fire service policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	☐	☐	☐	☒
3) The proposed project, based upon substantial evidence, would cause the erosion or elimination of fire protection services in adjoining fire protection districts.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the fire service policies in the General Plan.

(2) The project would not result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives.

(3) The project would not significantly impact adjacent fire districts or result in the elimination of fire protection services.

15. GENERATION OF SOLID WASTE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on solid waste expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Solid waste mitigation measures pertinent to the proposed project are found on pages V-15-4 through V-15-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-15.B of the Master EIR discloses solid waste impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
15. GENERATION OF SOLID WASTE				
1) The project is inconsistent with the solid waste policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The County is unable to expand its solid waste disposal capacity, as expected, causing all new	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
development to result in cumulative impacts on the County's disposal capacity.				

Discussion:

(1) The project is consistent with the solid waste policies in the General Plan.

(2) This project was referred to the Solid Waste Division for review, who indicated no concerns over service to the project area.

16. GENERATION OF HAZARDOUS MATERIALS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts regarding hazardous materials expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Hazardous materials mitigation measures pertinent to the proposed project are found on pages V-16-8 through V-16-13 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-16.B of the Master EIR discloses impacts on hazardous materials resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
16. GENERATION OF HAZARDOUS MATERIALS				
1) The project is inconsistent with the hazardous materials policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.	☐	☐	☐	☒
3) The proposed project would be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would create a significant hazard to the public or the environment.	☐	☐	☐	☒
4) The proposed project would be constructed on a contaminated site not known to the State of California as of March 2008.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the hazardous materials policies in the General Plan.

(2) No hazardous materials will be involved with this project.

(3) The project would not be located on a site, which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would not create a significant hazard to the public or the environment.

(4) The project site is not known to contain any contaminants.

17. GEOLOGY, SOILS, AND MINERAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts related to geology, soils, and mineral resources expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Geology, soils, and mineral resource mitigation measures pertinent to the proposed project are found on pages V-17-9 and V-17-10 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of the proposed project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-17.B of the Master EIR discloses geology, soils, and mineral resource impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
17. GEOLOGY, SOILS, AND MINERAL RESOURCES				
1) The project is inconsistent with policies relating to geology, soils, and mineral resources contained in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would expose people or structures to potential substantial adverse effects including the risk off loss, injury, or death involving fault rupture, strong seismic activity; location on an expansive soil; result in the loss of topsoil; location on soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems in areas where sewers are not available for the disposal of wastewater; result in the loss of known mineral resources that would be of value to the region and the state; or result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with policies relating to geology, soils, and mineral resources in the General Plan.

(2) The project would not be located on soil that is unstable, or that would become unstable as a result of the project. There are no known mineral resources of value to the region and the state on the property.

18. ENERGY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to energy expected after application of mitigations/policies:

Direct Impacts

Effect: Continued development in the Planned Urbanizing Area would have an impact on available energy supplies. Energy consumption likely would increase substantially by 2025 as a result of implementation of the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on energy consumption.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following energy mitigation measures pertinent to the proposed project are found on pages V-18-2 through V-18-8 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
18. ENERGY				

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with policies relating to energy in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in energy consumption during construction, operation, maintenance, or removal that is more wasteful, inefficient, and unnecessary than assumed in the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the energy policies in the General Plan.

(2) The project would not result in energy consumption during construction, operation, maintenance or removal that is more wasteful, inefficient and unnecessary than assumed in the General Plan.

19. EFFECTS ON VISUAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on visual resources expected after application of mitigations/policies:

Direct Impacts

Effect: New development in the Planned Urbanizing Area will occur in areas that are in agricultural production or are otherwise lightly developed, which could lead to the introduction of light and glare in areas that have little nighttime illumination.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following visual resources mitigation measures pertinent to the proposed project are found on pages V-19-3 and V-19-4 in the Master EIR. All mitigation measures appropriate to the proposed project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
19. EFFECTS ON VISUAL RESOURCES				
1) The proposed project is inconsistent with policies relating to visual resources in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would degrade views from riverside areas and parks to a greater degree than assumed in the Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project would degrade views of riverside areas from public roadways and nearby properties to a greater degree than assumed in the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the policies relating the visual resources in the General Plan.

(2) The project would not impact views from riverside areas and parks.

(3) The project would not impact views of riverside areas from roadways or nearby properties.

20. LAND USE AND PLANNING

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to land use and planning expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following land use and planning mitigation measures pertinent to the proposed project are found on pages V-20-6 through V-20-17 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-20.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on land use and planning. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
20. LAND USE AND PLANNING				
1) The proposed project is inconsistent with land use and planning policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project contains elements that would physically divide an established community in a way not assumed in the Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project conflicts with a land use plan, policy or regulation established for the purpose of avoiding or mitigating an environmental impact by an agency that has jurisdiction over the proposed project.	☐	☐	☐	☒
4) The proposed project conflicts with an applicable habitat conservation plan or natural community conservation plan.	☐	☐	☐	☒

Discussion:

(1) The project is designated as Mixed Use (MU) in the General Plan, which allows for residential uses. The project is consistent with the current General Plan Land Use Designation, and therefore is consistent with land use and planning policies in the General Plan.

(2) The project would not divide an established community. The surrounding area is developed with residential uses including the House Church of Modesto to the south and east. The proposed subdivision is consistent with the surrounding uses and would not divide existing neighborhood.

(3) The project does not conflict with the land use plan, policies and regulations of the City of Modesto designed to mitigate project impacts.

(4) The project does not conflict with applicable habitat conservation plans or natural community conservation plans.

21. CLIMATE CHANGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to climate change expected after application of mitigations/policies:

Direct Impacts

Effect: Impacts resulting from implementation of the Urban Area General Plan are not substantial enough to result in a significant direct impact on climate change, as disclosed in the Master EIR.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on climate change.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following climate change mitigation measures pertinent to the proposed project are found on pages V-21-7 through V-21-10 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on climate change. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
21. CLIMATE CHANGE				
1) The proposed project is inconsistent with policies relating to climate change in the Urban Area General Plan.	☐	☐	☒	☐
2) The proposed project would result in average automobile trip lengths or CO_2 emissions higher than those assumed in the Master EIR.	☐	☐	☒	☐
3) The proposed project would conflict with the Sustainable Communities Strategy or Alternative Planning Strategy that the Air Resources Board has agreed will achieve the goals of AB 32.	☐	☐	☒	☐

Discussion:

(1) The City of Modesto General Plan Master EIR addressed potential climate change impacts due to development and other activities associated with the Urban Area General Plan (UAGP). The Urban Area General Plan Master EIR (MEIR) determined that buildout of the UAGP would make a cumulatively considerable contribution to global climate change. The UAGP nonetheless authorizes development that will contribute to global climate change by virtue of the production of greenhouse gases. The MEIR states the projected rate of growth of vehicle miles traveled (VMT) will increase the City's contribution to global climate change as the City develops. Development under the UAGP is expected to generate approximately 1,096,226.4 metric tons per year above 2005 emissions. The City Council adopted a Statement of Overriding Considerations in 2008, finding that the benefits of the UAGP outweighed the City's increased contribution to global climate change.

The MEIR identifies policies CL-3 through CL-26 as policies in effect that have been determined to reduce, avoid or mitigate air quality environmental impacts within the existing City limits and within the Planned Urbanizing Areas as they annex and develop. These policies include but are not limited to, the use of shade trees to reduce the heat island effect, current energy efficient building standards to reduce energy consumption, and the inclusion of facilities for alternative transportation. The proposed project is required to develop in accordance with climate change policies included in the UAGP and the MIER.

(2) Climate change is an inherently cumulative impact because no single project can produce enough greenhouse gases to substantially alter the global climate. No thresholds have been set for individual or cumulative greenhouse gases. Nonetheless, the proposed project would result in greenhouse gas emissions due primarily to automobile travel and energy use for lighting, heating, cooling and other activities. The primary source of CO_2 emissions generated from the project would be related to automobile trips. As identified under the traffic and circulation discussion, traffic engineering staff has determined that the project will be in substantial conformance with the GP MEIR assumptions for traffic generation, the CO_2 emissions generated from the project would also be in substantial conformance with that which was assumed under the GP MEIR analysis.

(3) A Sustainable Communities Strategy has not yet been implemented by the Air Resources Board. Future development will be required to comply with the provisions of the Sustainable Communities Strategy once it is established.

V. MITIGATION MEASURES APPLIED TO THE PROPOSED PROJECT

If the Initial Study results in the determination that a Finding of Conformance can be adopted for the proposed project Section A below applies. If the Initial Study results in the determination that a Finding of Conformance cannot be adopted and a Mitigated Negative Declaration/EIR must be prepared for the project then Section B, below applies.

A. Master EIR Mitigation Measures Applied to the Project

Pursuant to Public Resources Code Section 21157.1(c), in order for a Finding of Conformance to be made, all appropriate mitigation measures from the Master EIR shall be incorporated into the proposed project. Urban Area General Plan Policies/Master EIR mitigation measures shall be made part of the proposed project prior to approval by means of conditions of project approval or incorporation into the appropriate document or plan.

All applicable and appropriate mitigation measures have been applied to the project (see mitigation measures listed below).

B. New or Additional Mitigation Measures or Alternatives Required

Where the project's effects would exceed the significance criteria for each environmental impact category, a mitigated negative declaration or Focused EIR must be prepared. Staff has reviewed the project against the significance criteria thresholds established in the Master EIR for all impact categories in this Initial Study.

A Mitigated Negative Declaration or Focused EIR shall be prepared for the project. The following additional project-specific mitigation measures listed below are necessary to reduce the identified new significant effect: none.

Traffic and Circulation:

N/A

Degradation of Air Quality:

AQ-42: All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover.

AQ-43: All on-site unpaved roads and off-site unpaved access roads shall be effectively stabilized of dust emissions using water or chemical stabilizer/suppressant.

AQ-44: All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.

AQ-45: With the demolition of buildings up to six stories in height, all exterior surfaces of the building shall be wetted during demolition.

AQ-46: When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.

AQ-47: All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. (The use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)

AQ-48: Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.

AQ-49: Within urban areas, track out shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.

AQ-50: Any site with 150 or more vehicle trips per day shall prevent carryout and track out.

Generation of Noise:

N-1: The City has also established a noise ordinance to control noise within the City. The City's noise ordinance (Modesto Municipal Code Section 4-9.101) prohibits the "loud and raucous discharge into the open air of the steam of any steam equipment or exhaust from any stationary internal-combustion engine."

N-2: Additionally, the noise ordinance prohibits the loud and raucous operation or use of any of the following before 7:00 a.m. or after 9:00 p.m. daily (except Saturday and Sunday and state or federal holidays, when the prohibited time shall be before 9:00 a.m. and after 9:00 p.m.):

1. A hammer, or any other device or implement used to pound or strike an object.
2. An impact wrench, or other tool or equipment powered by compressed air.
3. A hand-powered saw.
4. Any tool or piece of equipment powered by an internal-combustion engine such as, but not limited to, chain saw, backpack blower, and lawn mower.
5. Any electrically powered (whether by alternating current electricity or by direct current electricity) tool or piece of equipment used for cutting, drilling, or shaping wood, plastic, metal, or other materials or objects, such as, but not limited to, a saw, drill, lathe, or router.
6. Any of the following: heavy equipment (such as but not limited to bulldozer, steam shovel, road grader, back hoe), ground drilling and boring equipment (such as but not limited to derrick or dredge), hydraulic crane and boom equipment, portable power generator or pump, pavement equipment (such as but not limited to pneumatic hammer, pavement breaker, tamper, compacting equipment), pile driving equipment, vibrating roller, sand blaster, gunite machine, trencher, concrete truck, and hot kettle pump.
7. Any construction, demolition, excavation, erection, alteration, or repair activity. In the case of urgent necessity and in the interest of public health and safety, the Chief Building Official may issue a permit for exemption from these. Such period shall not exceed three (3) working days in length while the emergency continues but may be renewed for successive periods of three (3) days or less while the emergency continues. The Chief Building Official may limit such permit as to time of use and/or permitted action, depending upon the nature of the emergency and the type of action requested.

N-3: The City of Modesto shall require construction activities to comply with the City's noise ordinance (Title 4, Chapter 9), and noise-reducing construction practices to be implemented as conditions of approval for development projects where substantial construction-related noise impacts would be likely to occur (e.g., where construction would include extended periods of pile driving, where construction would occur over an unusually long period, or where noise-sensitive uses like homes and schools would be in the immediate vicinity, etc.). The city should consider potential mitigation measures, including, but not limited to, the following: Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields. Equipment that is quieter than standard equipment should be utilized. Haul routes that affect the fewest number of people should be selected.

Effects on Agricultural Lands:

N/A

Increased Demand for Long-Term Water Supplies:

N/A

Increased Demand for Sanitary Sewer Services:

N/A

Loss of Sensitive Wildlife and Plant Habitat:

N/A

Disturbance of Archaeological/Historic Sites:

N/A

Increased Demand for Storm Drainage:

SD-9: Construction activities shall comply with the requirements of the City's Storm Water Management Plan under its municipal NPDES stormwater permit, and the State Water Resources Control Board's General Permit for Discharges of Storm Water Associated with Construction Activity.

Flooding and Water Quality:

FWQ-13: Construction activities shall comply with the requirements of the City's Storm Water Management Plan under its municipal NPDES Stormwater permit, and the State Water Resources Control Board's General Permit for Discharges of Storm Water Associated with Construction Activity.

Increased Demand for Parks and Open Space:

N/A

Increased Demand for Schools:

N/A

Increased Demand for Police Services:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-403

RESOLUTION APPROVING MEASURE L COOPERATIVE AGREEMENT BETWEEN THE CITY OF MODESTO AND STANCOG FOR THE PLANS, SPECIFICATIONS AND ESTIMATES STAGE OF PHASE 1 OF THE STATE ROUTE 132 PROJECT AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, State Route (SR) 132 is an east-west highway that extends from I-580 in the Central Valley, south of the City of Tracy, to SR 49 in the foothills of the Sierra Mountains, terminating in the town of Coulterville, and

WHEREAS, the SR 132 corridor is a vital link through the Central Valley, serving local traffic from these communities and providing for regional traffic between the Bay Area and the mountains for the movement of traffic and goods and services, and

WHEREAS, the SR 132 West Freeway/Expressway Project developed by Caltrans (Project) proposes to construct a four lane freeway/expressway on a new alignment south of Kansas Avenue from Dakota Avenue to east of SR 99 at Needham Street, and

WHEREAS, the purpose of the Project is to improve regional and interregional circulation, relieve traffic congestion along existing SR 132, and enhance safety and operations for the existing and proposed transportation network, and

WHEREAS, Phase 1 of the Project is approximately four miles in length and will allow for construction of the ultimate multi-lane freeway. Phase 1 of the Project will replace the existing 2-lane highway segment of SR-132 along Maze Boulevard from SR-99 to Dakota Avenue, and

WHEREAS, the City will be primarily responsible for the implementation of Phase 1 of the Project and Council has approved, through Resolution No. 2017-175, the

use of $4,000,000 from its Streets Capital Facilities Fees fund to support the design Plans, Specification and Estimates (PS&E) of Phase 1 of the Project, and

WHEREAS, Stanislaus Council of Governments (StanCOG) is the designated Regional Transportation Planning Agency (RTPA), the designated Metropolitan Planning Organization (MPO) and the designated Council of Governments for Stanislaus County, and

WHEREAS, in November, 2016 Stanislaus County voters approved Measure L, a 25-year, ½ cent sales tax to maintain and improve transportation systems, and

WHEREAS, StanCOG, through Resolution 16-36, designated the Ultimate Project a Measure L regional funding priority and designated up to $10,000,000 of the regional project share of Measure L funds to reimburse the City of Modesto for identified costs associated with Phase 1 of the Project, and

WHEREAS, StanCOG has agreed to provide funding for the PS&E phase of Phase 1 of the Project in accordance with the terms and conditions set forth in the Agreement between the City and StanCOG, **attached** hereto, and

WHEREAS, StanCOG's Board of Director's approved the Agreement on September 20, 2017.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Measure L Cooperative Agreement between the City of Modesto and StanCOG for the Plans, Specifications and Estimates Stage of Phase I of the State Route 132 Project.

BE IT FURTHER RESOLVED, that the Interim City Manager, or his designee, is authorized to execute the Agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of October, 2017, by Councilmember Zoslocki, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold
NOES:	Councilmembers:	None
ABSENT:	Councilmembers:	Ah You

APPROVED AS TO FORM:

By: _____
ADAM U. LINDGREN, City Attorney

MEASURE L COOPERATIVE AGREEMENT
FOR THE PLANS, SPECIFICATIONS AND ESTIMATES STAGE OF PHASE 1 OF THE STATE ROUTE 132 PROJECT

This Cooperative Agreement ("Agreement") is made and entered into this _____day of, _____ 2017 by and between the CITY OF MODESTO, a municipal corporation ("Sponsor") and the STANISLAUS COUNCIL OF GOVERNMENTS, acting as the Local Transportation Authority ("Authority").

RECITALS

WHEREAS, Authority and Sponsor desire to enter into a Cooperative Agreement for funding of plans, specifications and estimates (PS&E) and for associated support services outlined in Exhibit "A" to this Agreement for transportation improvements in Stanislaus County pursuant to the authority provided by the Measure "L" Local Roads First Transportation Funding Measure Ordinance and Expenditure Plan ("Measure L"), which was approved by the voters of Stanislaus County on November 8, 2016; and

WHEREAS, Sponsor desires to receive funding from the Authority and Authority wishes to provide funding for the PS&E phase of the transportation improvement project entitled SR132 West Freeway/Expressway – Phase 1 Project, the PS&E phase of which is referred to herein, and further defined in Exhibit "A", as the "PS&E Phase"; and

WHEREAS, the PS&E Phase is eligible as the design of Phase 1 of the State Route 132 Project of the Regional Control category of Measure L; and

WHEREAS, at the April 19, 2017 regular meeting of the Authority Board, in furtherance of its previous designation of State Route 132 West as the Authority's top regional transportation project priority, the Authority Board adopted Resolution 16-36 which designated up to $10,000,000 of the regional project share of Measure L funds to reimburse Sponsor for identified costs associated with Phase 1 of the SR 132 West project (hereinafter Resolution 16-36"); and

WHEREAS, Resolution 16-36 identified the State Route 132 West Expressway Project as a Measure L regional funding priority; and

WHEREAS, Resolution 16-36 designates up to $10,000,000 of the regional project share of Measure L funds to reimburse the City of Modesto for identified costs associated with Phase 1 of the State Route 132 West Expressway project"; and

WHEREAS, at the time the City approved the professional services agreement with Dokken Engineering, the State Route 132 West Freeway/Expressway was believed to be in the final stages of the environmental approval process, with approval expected in Fall of 2017; and

WHEREAS, State and Federal funding earmarked for the construction phase of the Project has been extended to its functional limit with a sunset date for construction initiation in Fiscal Year 2018/2019; and

WHEREAS, the combination of environmental clearance delay along with the shortened window for startup of construction has resulted in the need to accelerate the final design (PS&E) phase of Phase 1 of State Route 132 West Freeway/Expressway to meet the construction startup deadline of June 2019; to avoid the loss of approximately $28 Million of programmed construction funds; and

WHEREAS, Measure L provides that funds generated for Regional Control projects can be used for planning, project development, right-of-way, and/or construction of major corridor, capital projects; and

WHEREAS, since this Agreement covers the PS&E phase of the State Route 132 Freeway/Expressway Project, Authority has requested that the Measure L funds designated for the PS&E Phase not be utilized for right of way acquisitions; and

WHEREAS, Sponsor also designated $4,000,000 to Phase 1 of the State Route 132 Project; and

WHEREAS, to avoid jeopardizing $71.5 Million of programmed construction funds, right of way acquisitions may need to commence prior to environmental approval of the project and receipt of additional funding, Sponsor and Authority agree that funds identified in Exhibit A, including Measure L regional funds, can be utilized for said purposes at this juncture until Federal funding is obtained; and

WHEREAS, Authority shall issue reimbursement payments as provided in Section 2.1 to Sponsor pursuant to a request for reimbursement submitted by the Sponsor; and

WHEREAS, Sponsor and Authority each agree to abide by the terms and conditions of the Agreement as set forth herein for the receipt of Measure L funds; and

WHEREAS, this Cooperative Agreement covers only the PS&E Phase of the SR 132 West Freeway/Expressway project; and

WHEREAS, Authority is developing its policies and procedures and once the policies and procedures are adopted or 100% of the $10,000,000 of allocated Measure L funds have been used to reimburse Sponsor for eligible expenses, the parties will negotiate and enter into another Cooperative Agreement that will define roles and responsibilities to cover the remaining elements of Phase 1 of the SR 132 West Freeway/Expressway; and

WHEREAS, Sponsor's City Council approved this Agreement on _____; and

WHEREAS, Authority's Board of Directors approved this Agreement on September 20, 2017; and

NOW, THEREFORE, in consideration of the promises and undertakings herein made and the mutual benefits to be derived therefrom, the parties hereto represent, covenant and agree as follows:

AGREEMENT

SECTION I

1.1. Project Application. The Project description, anticipated amount and type of funds that will supplement Measure L funds, and the anticipated timing for release of Measure L funds shall be specified in the application, which is attached as Exhibit "A," and incorporated herein by this reference.

1.2. Change in Project Scope. A change to or increase in the Project scope as described in Exhibit "A" may not be implemented until it has been approved by the Authority and Sponsor in writing.

1.3. Eligible Reimbursement Costs. Eligible reimbursement costs shall be costs as specified in Exhibit "A" or as may be approved from time to time by the Authority pursuant to Section 1.2.

1.4. Right of Way Costs. All right of way support costs are included as Project costs and reimbursable under this Agreement. For this PS&E Phase, the Parties agree that the Measure L funds allocated by Authority to the PS&E Phase may be utilized for right of way acquisitions if other funding sources are not available.

1.5. Invoices and Progress Reports. Sponsor shall provide monthly invoice reimbursement requests. These documents shall include the following specified information:

1.5.a Copies of Consultant Invoices. Sponsor shall provide the Authority with one (1) copy of all invoices submitted to Sponsor by every consultant, subconsultant, contractor, or subcontractor performing work related to the Project.

1.5.b. Progress Reports. The monthly progress reports shall include a brief description of the status of the Project and the work completed to date. This summary may be included on the invoices submitted to the Authority or be attached to those invoices.

1.6. Project Delivery Team Meetings. Sponsor and Authority will convene regular meetings that will include representatives from the City of Modesto, Stanislaus County and StanCOG, and other parties deemed appropriate by Sponsor and Authority. An overall delivery schedule for the PS&E Phase and construction of Phase 1 of the SR 132 West Freeway/Expressway will be produced, updated regularly and reviewed at each meeting.

1.7. Use of Funds. Sponsor shall use Measure L funds consistent with the project scope of work described in Exhibit "A" or approved in writing by the Authority pursuant to Section 1.2. Authority agrees to assist Sponsor with identifying and securing funding sources, and to administer funding.

1.8. Submittal of Documents. Sponsor shall provide copies to the Authority of all executed contracts which relate to the Project as described in **Exhibit "A"** or approved by the Authority pursuant to Section 1.2. Sponsor shall retain records pertaining to the Project for a four (4) year period following completion of the Project.

1.9. Oversight and Completion of PS&E. Sponsor shall be responsible for the timely completion of the PS&E Phase and provide management of consultant activities, including responsibility for schedule, budget and oversight of services, consistent with the scope of work.

1.10. Letter of PS&E Completion. Sponsor shall provide a letter of PS&E completion which includes final costs of the PS&E Phase. This letter shall accompany the final invoice for payment from the Authority to Sponsor.

SECTION II

2.1. **Reimbursement Payments.** The Authority shall make reimbursement payments to Sponsor for eligible Project costs as specified in Exhibit "A" which include staff overhead. To receive monthly reimbursement payments for work completed on the Project, Sponsor shall comply with the following reimbursement procedures:

2.1.a. Deadline to Submit Reimbursement Requests. All invoices and progress reports shall be submitted to Authority on or before 5:00 p.m. on the tenth (10th) calendar day of the month in which the Sponsor requests reimbursement payments. Authority shall issue reimbursement payments to Sponsor on or before the last day of the month for all timely submittals.

2.1.b. Late Submittals. If Sponsor fails to submit documents to Authority as set forth in Section 2.1.a, above, then Authority may provide reimbursement payments for late submittals in the following calendar month.

2.1.c. Ineligible Expenditures. The Authority, in accordance with Section 2.1.e., reserves the right to adjust current or future reimbursement payments to Sponsor if an invoice includes ineligible expenditures.

2.1.d. Reimbursement Amount. The amount of Measure L reimbursement payments to Sponsor shall not exceed $10,000,000 of eligible expenditures submitted to the Authority as specified in Exhibit "A" for the PS&E Phase, unless the parties agree to otherwise in writing.

2.1.e. Suspension of Reimbursement. If the Authority determines that any costs in an invoice are not allowable, the Authority shall return the invoice to Sponsor, with an invoice dispute notice outlining the reason for the return and the proposed remedy, if one exists, which would make the invoice acceptable for payment. Sponsor may re-submit the invoice for payment after reviewing the invoice dispute notice and making any necessary corrections. Sponsor may also immediately submit a new invoice representing only the amounts which are not in dispute, while setting aside the disputed amounts for review in accordance with the provisions set forth in this Section 2.1.

2.1.f. (1) Meeting. Once a dispute has occurred, the Authority shall arrange a meeting between the Authority and the Sponsor staff to discuss and attempt to resolve the dispute. If the invoice was received on or before 5:00 p.m. on the 10th day of the month, the meeting shall be held no later than the 20th day of the same month. If the invoice was received, after this date and time, then the meeting shall be held no later than the 20th day of the following month.

2.1.g. (2) Management and Finance Committee. If an agreement cannot be reached at the meeting, then the Sponsor or the Authority shall have the option to take the dispute to the Authority's Management and Finance Committee, with the understanding that by doing so the reimbursement for the disputed cost item(s) will be delayed until a resolution of the matter is reached.

2.1.h. (3) Board Decision. If the Sponsor or the Authority disagrees with the resolution by the Management and Finance Committee then the dispute shall be submitted to the Authority's Board for resolution. If the Board determines that the disputed cost item(s) is ineligible, the Authority shall not provide reimbursement payment to the Sponsor for the disputed item(s). If the Board determines that the disputed cost item(s) is eligible, then the Authority shall provide reimbursement payment to the Sponsor for the disputed cost. The decision by the Authority Board shall be final.

2.1.i. (4) Reservation of Rights. By utilizing the above procedures, neither the Authority nor the Sponsor surrender any rights to pursue available legal remedies if either Party disagrees with the Board decision.

2.1.j. Acceptance of Work Does Not Result In Waiver. Reimbursement payments do not result in a waiver of the right of the Authority or Sponsor to require fulfillment of all terms of this Agreement.

2.2. Right to Conduct Audit. The Authority shall have the right to conduct an audit of all Sponsor's records pertaining to the Project at any time during the four (4) year period after completion of the Project.

2.3. Maximum Obligation

A. Sponsor's maximum obligation for the project shall not exceed Four Million Dollars ($4,000,000.00), unless such maximum obligation is increased by an amendment to this Agreement or by subsequent agreement. The Parties agree to use as much of the $4,000,000.00 as possible for right of way acquisitions.

B. Authority's maximum obligation for all costs under this Agreement shall not exceed Ten Million Dollars ($10,000,000.00), unless such maximum obligation is increased by an amendment to this Agreement. The parties agree that Measure L funds shall not be used for reimbursement of expenses incurred by Sponsor for the project that are not covered by this Agreement such as litigation support, construction, construction design support, and construction management, and any other phases of the SR 132 West Freeway/Expressway project not covered by this Agreement.

SECTION III

3.1. Term. This Agreement shall remain in effect until discharged or terminated as provided in Section 3.2 or Section 3.14.

3.2. Discharge. This Agreement shall be subject to discharge as follows:

3.2.a. Termination by Mutual Consent. This Agreement may be terminated at any time by mutual written consent of the parties.

3.2.b. Discharge Upon Completion of Project. Upon completion of the PS&E Phase, except as to any rights or obligations which survive discharge as specified in Section 3.13, this Agreement shall be discharged, and the parties shall have no further obligation to each other.

3.3. Indemnity. It is mutually understood and agreed, relative to the reciprocal indemnification of Authority and Sponsor:

3.3.a. Sponsor shall fully defend, indemnify and hold harmless Authority, and any officer or employee of Authority, against any damage or liability occurring by reason of anything done or omitted to be done by Sponsor under the Agreement. It is also fully understood and agreed that, pursuant to Government Code Section 895.4, Sponsor shall fully defend, indemnify and hold the Authority harmless from any liability imposed for injury as defined by Government Code Section 810.8 occurring by reason of anything done or omitted to be done by Sponsor under this Agreement or in connection with any work, authority, or jurisdiction delegated to Sponsor under this Agreement.

3.3b. Authority shall fully defend, indemnify and hold harmless Sponsor, and any officer or employee of Sponsor, against any damage or liability occurring by reason of anything done or omitted to be done by Authority under or in connection with any work, authority or jurisdiction delegated to Authority under this Agreement. It is also understood and agreed that, pursuant to Government Code Section 895.4, Authority shall fully defend, indemnify and hold the Sponsor harmless from any liability imposed for injury as defined by Government Code Section 810.8 occurring by reason of anything done or omitted to be done by Authority under this Agreement or in connection with any work, authority, or jurisdiction delegated to Authority under this Agreement.

3.4. Notices. Any notice which may be required under this Agreement shall be in writing and shall be given by personal service, or by certified or registered mail, return receipt requested, to the addresses set forth below:

TO AUTHORITY:
1111 "I" Street
Suite 308
Modesto, CA 95354
Attention: Rose De Leon Park,
Executive Director

TO SPONSOR:
Vickey Dion, City Engineer
1010 Tenth Street, Suite 3100
P.O. Box 642
Modesto, CA 94353

Either party may change its address by giving notice of such change to the other party in the manner provided in this Section 3.4. All notices and other communications shall be deemed communicated as of actual receipt of certified U.S. mail.

3.5. Additional Acts and Documents. Each party agrees to do all such things and take all such actions, and to make, execute and deliver such other documents and instruments, as shall be reasonably requested to carry out the provisions, intent and purpose of the Agreement.

3.6. Integration. This Agreement represents the entire Agreement of the parties with respect to the subject matter hereof. No representations, warranties, inducements or oral agreements have been made by any of the parties except as expressly set forth herein, or in other contemporaneous written agreements.

3.7. Amendment. This Agreement may not be changed, modified or rescinded except in writing, signed by all parties hereto, and any attempt at oral modification of this Agreement shall be void and of no effect.

3.8. Independent Agency. Sponsor and Authority renders services under this Agreement each as an independent agency under the terms of the Agreement. None of the Sponsor's agents or employees shall be agents or employees of the Authority and none of the

Authorities' agents or employees shall be agents or employees of Sponsor.

3.9. Assignment. The Agreement may not be assigned, transferred, hypothecated, or pledged by any party without the express written consent of the other party.

3.10. Binding on Successors. This Agreement shall be binding upon the successor(s), assignee(s) or transferee(s) of the Authority or as the case may be. This provision shall not be construed as an authorization to assign, transfer, hypothecate or pledge this Agreement other than as provided above.

3.11. Severability. Should any part of this Agreement be determined to be unenforceable, invalid, or beyond the authority of either party to enter into or carry out, such determination shall not affect the validity of the remainder of this Agreement which shall continue in full force and effect; provided that, the remainder of this Agreement can, absent the excised portion, be reasonably interpreted to give effect to the intentions of the parties.

3.12. Counterparts. This Agreement may be executed in one or more counterparts and shall become effective when one or more counterparts have been signed by all of the parties; each counterpart shall be deemed an original but all counterparts shall constitute a single document.

3.13. Survival. The following provisions in this Agreement shall survive discharge:

13.3.a. Sponsor. As to Sponsor, the following sections shall survive discharge: Section 1.6 (obligation to apply funds to Project), Section 1.7 (obligation to provide copies and retain records), Section 1.8 (obligation to continue to manage Project).

13.3.b. Authority. As to Authority, the following section shall survive discharge: Section 2.2 (right to conduct audit).

13.3.c. Both Parties. As to both parties, the following section shall survive discharge: Section 3.3. (mutual indemnities).

3.14. Limitation. All obligations of Authority under the terms of this Agreement are expressly contingent upon the Authority's continued authorization to collect and expend the sales tax proceeds provided by Measure L. If for any reason the Authority's right or ability to collect or expend such sales tax proceeds is terminated or suspended in whole or part so that it materially affects the Authority's ability to fund the Project, the Authority shall promptly notify Sponsor, and the parties shall consult on a course of action. If, after twenty-five (25) working days, a course of action is not agreed upon by the parties, this Agreement shall be deemed terminated by mutual or joint consent. Any future obligation to fund this Project or any other project or projects of Sponsor, not already specifically covered by separate Agreement, shall arise only upon execution of a new Agreement.

3.15. Attorneys' Fees. Should any litigation commence between the parties concerning the rights and duties of any party pursuant to, related to, or arising from, this Agreement, the prevailing party in such litigation shall be entitled, in addition to such other relief as may be granted, to a reasonable sum as and for its attorneys' fees and costs of such litigation, or in a separate action brought for that purpose.

3.16. Time. Time is and shall be of the essence of this Agreement and each and all of its provisions in which performance is a factor.

3.17. Remedies Cumulative. No remedy or election of remedies provided for in this Agreement shall be deemed exclusive, but shall be cumulative with all other remedies at law or in

equity. Each remedy shall be construed to give the fullest effect allowed by law.

3.18. Applicable Law. This Agreement shall be governed by, and construed and enforced in accordance with the laws of the State of California.

3.19. Captions. The captions in this Agreement are for convenience only and are not a part of this Agreement. The captions do not in any way limit or amplify the provisions of this Agreement and shall not affect the construction or interpretation of any of its provisions.

3.20. No Continuing Waiver. The waiver by any party of any breach of any of the provisions of this Agreement shall not constitute a continuing waiver or a waiver of any subsequent breach of the same, or of any other provision of this Agreement.

3.21. No Rights in Third Parties. Nothing in this Agreement, express or implied, is intended to confer any rights or remedies under or by reason of this Agreement on any third party, nor is anything in this Agreement intended to relieve or discharge the obligation or liability of any third party to any party to this Agreement, nor shall any provision of this Agreement give any third party any right of subrogation or action over or against any party to this Agreement.

3.22. Signator's Warranty. Each party warrants to each other that he or she is fully authorized and competent to enter into this Agreement in the capacity indicated by his or her signature and agrees to be bound by this Agreement as of the day and year first mentioned above upon the execution of this Agreement by each other party.

3.23. Audit and Inspection

Authority and Sponsor shall maintain a complete set of records in accordance with generally accepted accounting principles. Upon reasonable notice, Authority and Sponsor shall permit each Party's authorized representatives to inspect and audit all work, materials, payroll, books, accounts, and other data and records of the other Party for a period of four (4) years after final payment, or until any on-going audit is completed. For purposes of audit, the date of completion of this Agreement shall be the date of Authority's payment of Sponsor's final billing (so noted on the invoice) under this Agreement. Each Party shall have the right to reproduce any such books, records, and accounts of the other Party relative to the Project. The above provision with respect to audits shall extend to and/or be included in contracts with Sponsor's contractors.

IN WITNESS WHEREOF, the undersigned parties have executed this Agreement on the day and year first written above.

EXHIBIT "A"
APPLICATION FOR MEASURE L COOPERATIVE AGREEMENT
AND
SCOPE OF WORK

This application is a request for reimbursement of costs.

1. **Project Names, Locations:**
   - State Route 132 West Freeway/Expressway – Plans, Specifications, and Estimates for Phase 1 Project
2. **Project Sponsor:**
   - City of Modesto
3. **Contact Person:**
   - Vickey Dion, City Engineer 1010 Tenth Street, Suite 3100 P.O. Box 642, Modesto, California, 95353 (209) 571-5542
4. **Project Scope of Work:**

   PS&E for Phase 1 of the SR 132 West Expressway which proposes to construct a two-lane highway on a new alignment in Stanislaus County from the City of Modesto at State Route 99 just south of Kansas Avenue to Dakota Avenue. Phase 1 of the Project is approximately four miles in length and will allow for construction of the ultimate multi-lane freeway. Phase 1 of the Project will replace the existing 2- lane highway segment of SR-132 along Maze Boulevard from SR-99 to Dakota Avenue. Improvements include providing a portion of the ultimate freeway corridor west of SR-99; direct connection from SR-132 to Needham Avenue over SR-99 to downtown Modesto; highway grade separation structures at Emerald Avenue, Carpenter Avenue, and Rosemore Avenue; one-way direct connection of 6th Street to Needham Avenue; and direct roadway connection to 5th Street from east bound SR 132.

5. **Expected Timing for Delivery of Project Design** (indicate if task is already completed, not applicable or if part of phasing of the Project):

	Start Date	Completion Date
Preliminary Design/Engineering	Dec 1, 2009	August 2018
Environmental Document	Feb 17, 2014	Mar 9, 2018
Final Design	May 5, 2017	Jan 10, 2019
Phase 1 Project Construction	June 2019	December 2020

6. **Estimated Cost of PS&E Phase 1 Project Activities:**

PS&E Contract with Dokken Engineering	$6,400,000.00
Contingency	$600,000.00
PS&E Support	$500,000.00
Right of Way Support	$1,000,000.00
Utility Relocation	$1,750,000.00
Plan Check	$750,000.00
Early Right of Way Acquisitions	$3,000,000.00
TOTAL EXPENSES	**$14,000,000.00**

7. **Expected Timing for Reimbursement of Sponsor by Quarter:**

	FY 17/18	FY 18/19	FY 19/20
First Quarter		$	
Second Quarter			
Third Quarter		$0	
Fourth Quarter		$0	
TOTAL			

8. **Source(s) and Amount of Matching Funds:**

Source	Amount
City of Modesto Streets Capital Facilities Fees*	$4,000,000.00
Measure L Regional Project Funds	$10,000,000.00
TOTAL	**$14,000,000.00**

*City of Modesto to commit $4,000,000 of Streets Capital Facilities Fees for the SR 132 West Project, the majority of said monies will be utilized for early right-of-way acquisitions. Right-of-Way Acquisition is anticipated to commence concurrently with PS&E.

9. **Project Map** (see attached):

Project Scope and Activities:

Below are the various project activities to be supported with corresponding definitions:

PS&E- Plans Specifications and Estimates. This is the primary contract with Dokken Engineering. It includes all the work requested in the Sponsor scope of work included in the contract for services.

$600,000 Contingency- This activity and amount is reserved for unknown issues at the time of the contract initiation. In Sponsor's development of the design there are certain processes that are not completely known or understood. The contingency money allows the project design to progress unfettered to account for minor (up to 10% of original contract) incidental work. It also accounts for additional work requested by Sponsor oversight, Caltrans, and added scope that could be anything that is approved by one of the project stakeholders. Project stakeholders are Stanislaus County, StanCOG, Caltrans, and City of Modesto for this project.

PS&E Support- This amount and activity is to account for staff and attorney time engaged on the project for this PS&E stage. It includes staff time to coordinate consultants, attend meetings, review work product, and ensure adequate progress. It includes drafting of numerous contracts and cooperative agreements, as well as providing legal opinions as to various project issues including potential early acquisitions. It does not include any litigation support or services.

Right of Way Support - This activity is the engagement of the right of way team. At the time of this Agreement the scope of work is not completely known or understood. This is because the prime design team (Dokken) is refining/changing the design. This activity could add right of way takes or TCE's (Temporary Construction Easements). The project right of way is environmentally cleared for a 4-lane facility, but the phase 1, 2-lane facility was originally contemplated in a location different than as progressed in the final design. This means that additional parcels not assumed impacted in the first phase could now be impacted with the prime design. All of this is allowed and within the footprint of the Environmental Document. The resultant ROW activity could result in more or less parcels to be engaged with the initial project. TCE's will not be known completely until the 65% plans have been developed.

Utility Relocation- This amount is reserved to capture costs associated with clearing right of way prior to construction. Early utility relocation is necessary to ensure a clear right of way for the construction contractor to build the project. If the right of way is not clear at the project construction start, contractor could suffer right of way delay and not be able to complete the project on time. This amount and activity helps ensure that the project will be completed as anticipated in Dec 2020. It was recently discovered that a 54 inch SS line at the westerly end of the project needs to be religned and a second crossing installed. The estimated cost for this repair is in the $1M range. Sponsor is seeking ways to lower this projected cost.

Plan Check- This amount and activity is reserved to provide plan check engineering of the PS&E. The SR132 project is a regional project and a project that requires highly developed skills to design. These skills are not available amongst City staff as well as the scope and scale of the project would require significant staff involvement of time such that other on-going City commitments could suffer. Additionally, investment in plan check engineering helps to control cost overruns in the construction phase due to inconsistencies and uncertainties in the plans and specifications.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-404

RESOLUTION APPROVING A LAND EXCHANGE AGREEMENT BETWEEN CITY OF MODESTO AND STANISLAUS FOOD PRODUCTS, MODESTO, CA, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the City of Modesto (City) is the fee owner of certain real property (the "**City Property**"), known as 11th Street between D Street and Morton Blvd., 12th Street between B Street and Morton Blvd., and B Street between 12th Street and 10th Street, located in the City, and

WHEREAS, Stanislaus Food Products (SFP) is the fee owner of certain real property (the "**Stanislaus Property**,") located in the City, formerly known as a portion of 10th Street between B Street and D Street, and strips of land bordering 10th Street between B Street and Morton Blvd., and a strip of land from 11th Street to Morton Blvd. on both sides of 11th Street, and a strip of land along 9th and B Streets, and

WHEREAS, SFP owns the property adjacent to the City Property and desires to acquire ownership of the City Property with no restrictions in order to close 11th Street between D Street and Morton Blvd, 12th Street between B Street and Morton Blvd., and B Street between 12th Street and 10th Street, and to make permanent improvements that will benefit SFP, and

WHEREAS, the City desires to purchase the SFP Property for future public purposes, and

WHEREAS, the City and SFP have negotiated a land exchange agreement (the "Land Exchange Agreement") substantially in the form on file with the City Clerk, and

WHEREAS, the City hereby finds that the transactions contemplated under this Resolution further the health, safety and welfare of the City's residents and are in conformity with the City's economic development plans and Municipal Code.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that Council hereby approves the Land Exchange Agreement between the City and Stanislaus Food Products, substantially in the form on file with the City Clerk.

BE IT FURTHER RESOLVED, that the Interim City Manager, or his designee, is hereby authorized to execute the Land Exchange Agreement, in a form approved by the City Attorney, and to take all other actions and execute all other documents that are necessary to carry out the intent of this Resolution and to exchange the properties, as set forth in the Land Exchange Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of October, 2017, by Councilmember Zoslocki, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-405

Print

RESOLUTION ACCEPTING A REPORT ON A DRAFT RECORD OF VIOLATION FROM THE CENTRAL VALLEY REGIONAL WATER QUALITY CONTROL BOARD AND PAYING THE MANDATORY MINIMUM PENALTIES OF $165,000 AND WAIVING THE RIGHT TO A HEARING RELATING TO AN UNALLOWABLE DISCHARGE INTO THE SAN JOAQUIN RIVER IN MARCH 2017, AND APPROPRIATING $165,000 FROM WASTEWATER FUND RESERVES TO PAY THE MANDATORY MINIMUM PENALTY

WHEREAS, on March 2, 2017, staff notified the Central Valley Regional Water Quality Control Board (CVRWQCB) that influent flows to the treatment facilities had increased significantly due to recent Tuolumne River flooding, and

WHEREAS, excessive inflow and infiltration (I/I) was the result of a sewer trunk pipe failure that runs parallel to the Tuolumne River, which overwhelmed the City's treatment facilities, and

WHEREAS, staff began to release undisinfected secondary treated wastewater to the San Joaquin River from March 2, 2017 through March 30, 2017, which was necessary to protect the pond levees and treatment processes infrastructure at the Jennings Road Wastewater Treatment Plant, as the ponds had reached full capacity due to the flooding event, and

WHEREAS, the Director of Utilities made a determination on March 2, 2017, to discharge undisinfected secondary treated wastewater to the San Joaquin River and Council was notified of the unanticipated event, and

WHEREAS, as of March 31, 2017, staff discharged approximately 755 million gallons of undisinfected secondary treated wastewater and triggered 59 exceedance violations, and

WHEREAS, staff is aware that Mandatory Minimum Penalties (MMPs) are required by Section 13385 of the California Water Code and the CVRWQCB must assess MMPs for violations of the effluent limitations contained in the Waste Discharge Requirements, and

WHEREAS, the Record of Violation contains a listing of effluent limitation violations that occurred due to discharges from the facility from April 1, 2013 through June 30, 2017 and the CVRWQCB assessed approximately 5 years of data to conclude staff reached the maximum allowable violations, and

WHEREAS, California Water Code section 13385(i) requires that a Mandatory Minimum Penalty (MMP) of $3,000 be assessed by the Regional Water Boards for each non-serious violation, and

WHEREAS, on September 11, 2017, staff received an Administrative Civil Liability (ACL) complaint (R5-2017-0551) regarding the MMPs, which has several options, pursuant to Water Code section 13323, including: pay the proposed administrative civil liability and waive its right to a hearing; ask that the hearing be postponed to facilitate settlement discussions or for other reasons; or contest the Complaint and/or enter into settlement discussions without signing the enclosed waiver, and

WHEREAS, due to the fact that the City self-reported the violations, staff is recommending paying the proposed administrative civil liability and waive the City's right to a hearing, and

WHEREAS, staff has deemed the MMP of $165,000 is reasonable, and

WHEREAS, staff negotiated with the board staff and received an extension to October 31, 2017, and

WHEREAS, staff presented this item to the Effective Government Committee on September 25, 2017, where the recommendation was made to forward this item to Council.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts a report on a draft Record of Violation from the Central Valley Regional Water Quality Control Board and authorizes payment of the Mandatory Minimum Penalties of $165,000 and waiving the right to a hearing relating to an unallowable discharge into the San Joaquin River in March 2017, and appropriating $165,000 from Wastewater Fund reserves to pay the Mandatory Minimum Penalty.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of October, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-406

RESOLUTION APPROVING TWO DAYS A WEEK OUTDOOR WATER USE FOR CITY OF MODESTO CONTIGUOUS WATER CUSTOMERS (SERVED BY SURFACE AND GROUNDWATER) FROM NOVEMBER 1, 2017 THROUGH MARCH 31, 2018 AND THREE DAYS A WEEK WATERING SCHEDULE APRIL 1, 2018 THROUGH OCTOBER 31, 2018 AND CONTINUING THESE SCHEDULES YEAR-ROUND; AND APPROVING TWO DAYS A WEEK OUTDOOR WATER USE FOR ALL CUSTOMERS SERVED BY GOUNDWATER (DEL RIO, GRAYSON, TURLOCK AND CERES - WALNUT MANOR), EFFECTIVE NOVEMBER 1, 2017, AND CONTINUING THIS SCHEDULE YEAR-ROUND, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE NECESSARY DOCUMENTS RELATED TO THE IMPLEMENTATION OF OUTDOOR WATER USE

WHEREAS, on May 23, 2017, Council, by Resolution No. 2017-206, approved Outdoor Water Use Regulations for June through October 2017 for water customers served by the Modesto sub-basin groundwater supply or surface water which implemented a three days a week watering schedule, and

WHEREAS, by executive order B-40-17 on April 7 1017, Governor Brown declared an end to California's drought, and

WHEREAS, the City is now receiving the full allotment of surface water from the Modesto Regional Water Treatment Plant, and

WHEREAS, staff will continue to monitor groundwater levels, especially in the outlying water systems, precipitation and snow pack levels to determine if further restrictions become necessary to meet State conservation goals and water supply requirements, and

WHEREAS, staff is recommending a two days a week outdoor water use for City contiguous water customers (served by surface water and groundwater), from November 1, 2017 through March 31, 2018, and

WHEREAS, since the City's outlying water service areas are served with only groundwater, staff is recommending two days a week outdoor watering year-round for customers in those areas, and

WHEREAS, staff is also recommending return to three days a week watering schedule April 1, 2018 through October 31, 2018 for contiguous water customers and continuing these schedules year-round, and

WHEREAS, staff estimates the two-day watering schedule will keep usage at the current rate and therefore keep revenues consistent with the winter months when customers typically use less water, and

WHEREAS, this item was considered by the Finance Committee at the September 25, 2017 meeting and Committee recommended forwarding to full Council for approval.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves two days a week outdoor water usage for City of Modesto contiguous water customers (served by surface and groundwater) from November 1, 2017 through March 31, 2018 and three days a week watering schedule April 1, 2018 through October 31, 2018 and continuing these schedules year-round; and approving two days a week outdoor water use for customers served by groundwater (Del Rio, Grayson, Turlock and Ceres - Walnut Manor), effective November 1, 2017, and continuing this schedule year-round.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the necessary documents related to the implementation of outdoor water use.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-407

RESOLUTION APPOINTING JOSEPH "JOE" MURATORE (TERM EXPIRATION JANUARY 1, 2020) AND LAUREN TREVINO (TERM EXPIRATION JANUARY 1, 2018) TO FILL TWO VACANCIES ON THE DOWNTOWN IMPROVEMENT DISTRICT ADVISORY BOARD.

WHEREAS, Section 1102 of the Charter of the City of Modesto authorizes the City Council to appoint members to various Boards and Commissions, and

WHEREAS, there are presently two (2) vacancies on the Board of Directors of the Downtown Improvement District Advisory Board (D.I.D.) occasioned by the death of Norma Reed whose term would have been up in 2020 and the resignation of Don Phillips whose term would have been up in 2018 and

WHEREAS, the D.I.D. put out a call for applicants in order to fill these vacancies and received eight applications and

WHEREAS, the Downtown Improvement District Board of Directors are recommending the appointments of Joseph "Joe" Muratore to fill the vacancy left by Norma Reed with an term expiration of January 1, 2020 and Lauren Trevino to fill the vacancy left by Don Phillips with a term ending January 1, 2018 to the Downtown Improvement District Advisory Board.

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. Joseph "Joe" Muratore and Lauren Trevino are hereby appointed to the Downtown Improvement District Advisory Board.

SECTION 2. The City Clerk is hereby directed to transmit a copy of this Resolution to the reappointed members of Downtown Improvement District Advisory Board, and as Secretary thereof.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of October, 2017, by Councilmember Zoslocki, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-413

RESOLUTION AMENDING THE FISCAL YEAR 2017-2018 CAPTIAL IMPROVEMENT PROGRAM BUDGET TO APPROPRIATE $120,000 FROM THE GENERAL FUND TO THE JOHN THURMAN FIELD CAPITAL IMPROVEMENT FUND (PROJECT 101019)

WHEREAS, City Council Resolution No. 2016-503 and No. 2016-504 approved an agreement with HWS Baseball, IV, LLC (the Nuts) for the use and operation, and management of John Thurman Field and to establish a fund for capital improvements to be made to the stadium, and

WHEREAS, the 2018 List of Priorities for Capital Improvements has been submitted to the City and is **attached** hereto, and

WHEREAS, the City has identified and approved the replacement of the stadium seats and completion of the anti-skid treads on the stadium steps, and

WHEREAS, the Fiscal Year 2017-2018 Capital Improvement Program Budget must be amended to appropriate $120,000 from Fiscal Year 2016-2017 General Fund Carryover to the John Thurman Field Capital Improvement Fund budget to fund the approved improvements.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby amends the Fiscal Year 2017-2018 Capital Improvement Budget to appropriate and transfer $120,000 from 2016-2017 FY General Fund Carryover to the John Thurman Capital Improvement Project Fund (Project 101019).

BE IT FURTHER RESOLVED, that the Interim City Manager, or his designee, is hereby authorized to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold
NOES:	Councilmembers:	None

MODESTO NUTS PROFESSIONAL BASEBALL
CALIFORNIA LEAGUE AFFILIATE OF THE SEATTLE MARINERS

POST OFFICE BOX 883
MODESTO, CA 95353

(P) 572-HITS(4487)
(F) 572-4490

2018 List of Priorities at John Thurman Field

1. Replacement of approximately 1,000 Upper Box seats
    a. Estimated Cost: $140,000
    b. Reason: The Upper Box seats are the same seats that were installed in 1997. Typically, these seats have a lifespan of 10 years. We have just completed our 21st season with the same seats. They are faded, loose and in constant need of repair.
2. Installation of misters in the seating area
    a. Estimated Cost: $10,000
    b. Reason: There is very little shade in the seating area at John Thurman Field. The high temperatures we experience in the summer has a dramatic negative impact on attendance. Installing a mister unit, similar to other ballparks in California, will allow our fans to stay cool during hot games.
3. Renovate two lower level seating sections into a premium seating area
    a. Estimated Cost: $20,000
    b. Reason: Premium seating options close to the field are in high demand across the country. Currently, our premium seating options are limited to groups and tend to be further from the action. By removing 2 sections of seats (160 total) and installing a deck area with round tables and misters, we can create a unique environment close to the action for the individual fan to purchase.
4. Replacement of video board
    a. Estimated Cost: $500,000
    b. Reason: The current videoboard was purchased and installed prior to the 2007 season. With proper maintenance, video boards have a lifespan of 8-10 years. The maintenance of the scoreboard has not been kept up and we will complete our 11th season with the video board. While the board is still currently operational, the franchise believes we are on borrowed time.
5. New fencing/gates around the perimeter of the facility
    a. Estimated Cost: TBD
    b. Reason: The fencing around the facility is weak, outdated and easy to climb. Trespassers can easily climb the fence or pull the bottom from the Municipal Golf course and enter the stadium with relative ease. This has subjected the franchise to numerous break-ins and losses.
6. Repainting of green steel throughout the facility
    a. Estimated Cost: $50,000
    b. Reason: The steel is stained, faded and gives an overall rundown impression throughout the stadium. This project can be broken up into smaller parts over time.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-414

RESOLUTION OF INTENTION TO ANNEX TERRITORY TO CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 2004-1 (VILLAGE ONE #2) AND TO AUTHORIZE THE LEVY OF SPECIAL TAX WITHIN THE TERRITORY PROPOSED TO BE ANNEXED (ANNEXATION #16)

WHEREAS, pursuant to Chapter 2.5 Division 2 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the "Mello-Roos Community Facilities Act of 1982" (the "Act"), proceedings for the annexation of territory to an existing community facilities district may, pursuant to Article 3.5 of the Act, be instituted by the adoption by the legislative body of a resolution of intention to annex such territory, and

WHEREAS, pursuant to the Act, this Council did, by its Resolution No. 2004-199, adopted on April 6, 2004 (the "Resolution of Formation"), establish the City's Community Facilities District No. 2004-1 (Village One #2) (the "District"), and

WHEREAS, pursuant to the Act, this Council did, by its Resolution No. 2004-681, adopted on December 14, 2004, clarify the Rate and Method of Apportionment with respect to the Maximum Special Taxes to be generated by a parcel that has been rezoned, and

WHEREAS, pursuant to the Act, this Council did, by its Resolution No. 2004-683, adopted on December 14, 2004 ("Resolution of Creation of Tax Zone #2), create Tax Zone #2 within the District, and

WHEREAS, the One-Time Facilities Special Tax component of the special taxes is higher in Tax Zone #2 than in Tax Zone #1, and

WHEREAS, pursuant to California Streets and Highways Code Section 3113.5, this Council did, by its Resolution No. 2005-566, adopted on November 9, 2005, direct that all prior modifications, amendments and annexations to the District be consolidated into a single map of the District, specifically all prior boundary maps and amendments thereto related to formation of the District and Annexation Nos. 1 through 10 to the District, and

WHEREAS, on November 23, 2005, said boundary maps were consolidated into a single map entitled "Consolidation of Boundary Maps of Community Facilities District No. 2004-1 (Village One #2)" and recorded with the County Recorder of the County of Stanislaus at Book 4 of Maps of Assessments and Communities Facilities Districts, at Page 33 (the "Consolidated Boundary Map"), and

WHEREAS, subsequent to the recordation of the Consolidated Boundary Map, additional territory was annexed to the District through Annexations Nos. 11, 12, 13, 14, and 15, and

WHEREAS, this Council hereby determines that the public convenience and necessity require the annexation of additional certain territory to the District, and

WHEREAS, the territory to be annexed is within the City limits, and

WHEREAS, it is intended that the territory be annexed to Tax Zone #2.

NOW, THEREFORE, BE IT RESOLVED, by Council of the City of Modesto that the Council finds and orders the following:

1. The above recitals are true and correct.

2. The current boundaries of the District are shown on the Consolidated Boundary Map as supplemented by the map entitled "Annexation Map No. 11 of

Community Facilities District No. 2004-1 (Village One #2)" on file with the County Recorder at Book 4 of Maps of Assessment and Community Facilities Districts, at Page 36, the map entitled "Annexation Map No. 12 of Community Facilities District No. 2004-1 (Village One #2)" on file with the County Recorder at Book 4 of Maps of Assessment and Community Facilities Districts, at Page 42, the map entitled "Annexation Map No. 13 of Community Facilities District No. 2004-1 (Village One #2)" on file with the County Recorder at Book 4 of Maps of Assessment and Community Facilities Districts at Page 57, the map entitled "Annexation Map No. 14 of Community Facilities District No. 2004-1 (Village One #2)" on file with the County Recorder at Book 4 of Maps of Assessment and Community Facilities Districts at Page 98 and the map entitled "Annexation Map No. 15 of Community Facilities District No. 2004-1 (Village One #2)" on file with the Count Recorder at Book 5 of Maps of Assessment and Community Facilities Districts at Page 52.

3. The territory proposed to be annexed to the District (the "Territory") is described in **Exhibit A, attached** hereto.

4. The boundaries of the Territory are also shown on the map thereof, entitled "Proposed Boundaries of Annexation No. 16 to the City of Modesto Community Facilities District No. 2004-1 (Village One #2)", City of Modesto, County of Stanislaus, State of California," on file in the office of the City Clerk, which map is hereby approved and adopted. Pursuant to Sections 3110.5 and 3113 of the California Streets and Highways Code, the City Clerk shall endorse her certificate on the original and one copy of the map evidencing the date and adoption of this Resolution, file the original in her office and, not later than fifteen (15) days after the adoption of this Resolution, file a

copy of the map with the County Recorder of the County of Stanislaus. The map shall contain the legends provided in Sections 3110 and 3110.5 of the California Streets and Highways Code; including a reference to the title, book, page and recording date of the original boundary map of the District.

5. The public facilities and services to be provided for the District are set forth in the Resolution of Formation. It is intended that these same facilities and services be provided to the Territory.

6. The special taxes to be levied in the District are set forth in the Resolution of Formation. It is intended that the same special taxes be levied in the Territory, except that the increase of the One-Time Facilities Special Tax component of the special taxes, as authorized by the Resolution of Creation of Tax Zone #2, shall be levied in the Territory.

7. A public hearing on this Resolution will be held at 5:30 p.m., or as soon thereafter as practicable, on Tuesday November 28, 2017, at the regular meeting place of the City Council, City Council Chambers, Basement Level, 1010 Tenth Street, Modesto, California 95353, such time being not less than 30 or more than 60 days following the adoption hereof.

8. At the hearing, any interested persons for or against the annexation of the Territory to the District, and the levy of the special taxes therein, may appear and will be heard and considered. Any protest may be made orally or in writing. However, any protests pertaining to the regularity or sufficiency of the proceedings shall be in writing and clearly set forth the irregularities and defects to which the objection is made. All written protests shall be filed with the City Clerk on or before the time fixed for the

public hearing. Written protests may be withdrawn in writing at any time before the conclusion of the hearing.

9. The City Clerk is directed to publish, not later than seven days prior thereto, a notice of the hearing, in the form required by the Act, in a newspaper of general circulation published in the area of the District, being the Modesto Bee, and otherwise in accordance with Section 6061 of the California Government Code, stating (a) the text or a summary of this Resolution, (b) the time and place of the hearing, and (c) that all interested persons for or against the proposed annexation or the levying of the special tax therein will be heard.

10. If a majority (but at least six) of the registered voters residing within the District or a majority (but at least six) of the registered voters residing within the Territory, or the owners of one-half or more of the area of the land in the District and not exempt from the special tax, or the owners of one-half or more of the Territory, file written protests against the proposed annexation, and the protests are not withdrawn so as to reduce the value of the protests to less than a majority, no further proceedings to annex the Territory to the District, or to levy in the Territory the special taxes to be levied in the District, shall be taken for a period of one year from the date of the decision of the Council on the issues discussed at the hearing.

11. At the conclusion of the hearing, if the Council determines to annex the Territory to the District, it will submit the levy of the special taxes to the qualified electors of the Territory in a special election.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-415

RESOLUTION APPROVING AN UPDATED ACQUISITION AND SHORTFALL AGREEMENT WITH BERBERIAN HOLDINGS, LP, MODESTO, CA, TO REDUCE PERFORMANCE AND PAYMENT SECURITIES TO 50% OF THE ESTIMATED COST OF THE IMPROVEMENTS; RESCINDING RESOLUTION NO. 2017-311; AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT IN BOTH THE CAPACITY OF FORM OF INTERIM CITY MANAGER AND AS DISTRICT ADMINISTRATOR

WHEREAS, in January 2008, by Resolution No. 2008-024 City of Modesto adopted the Policies and Procedures for the Formation, Annexation, and Administration of Community Facilities Districts Created Pursuant to the Provisions of the Mello-Roos Community Facilities Act of 1982, and

WHEREAS, the policy allows developers to install public improvements which benefit properties within a proposed CFD, and be reimbursed for the work if certain parameters are met, and

WHEREAS, on April 6, 2004, the City of Modesto formed City of Modesto Community Facilities District No. 2004-1 (CFD No. 2004-1) to pay for various infrastructure improvements as well as the maintenance of parks, parkways and open space, storm drainage basin and related facilities that serve the Village One area, and

WHEREAS, a developer may construct identified improvements for CFD No. 2004-1 and be reimbursed, provided an agreement for such improvements is entered into with the City and CFD No. 2004-1 prior to commencement of work, and

WHEREAS, on April 26, 2017, Berberian Holdings, LP (Applicant) submitted an application to develop an 18-acre neighborhood shopping center known as The Marketplace on property located at the southwest corner of Sylvan Avenue and Oakdale Road, and

WHEREAS, the proposed project will construct public improvements at the Sylvan Avenue and Oakdale Road intersection as well as on Oakdale Road between Sylvan Avenue and Post Office Drive and includes paving, curb, gutters, sidewalks, storm drainage, traffic signal modification and MID pole relocation, and

WHEREAS, the City's General Plan calls for Oakdale Road to be a six lane principal arterial, and for Sylvan Avenue to be constructed as a six lane principal arterial, and

WHEREAS, an Acquisition & Shortfall Agreement between the City of Modesto, City of Modesto Community Facilities District No. 2004-1 (Village One #2) and Berberian Holdings, LP, must be executed prior to commencement of work in order for Applicant to be reimbursed for certain public improvements, and

WHEREAS, the proposed Acquisition and Shortfall Agreement has a maximum reimbursement amount of $2,635,322; however, reimbursement will be based upon actual expenses incurred and in no event will exceed the maximum reimbursement amount, and

WHEREAS, reimbursement is strictly limited to funds from the City of Modesto Community Facilities District No. 2004-1 (Village One #2), and

WHEREAS, on August 8, 2017, by Resolution 2017-311, the Council approved an Acquisition and Shortfall Agreement with Applicant, and

WHEREAS, under the terms of the Acquisition & Shortfall Agreement, the Applicant is required to provide both payment and performance securities in an amount equal to 100% of the estimated cost of the improvements to be installed by the Applicant, and

WHEREAS, this is the standard language for Acquisition & Shortfall Agreements, and

WHEREAS, the Acquisition & Shortfall Agreement approved on August 8, 2017, was not signed by the Applicant, and

WHEREAS, the Applicant requested the security requirements in Section 3(g) of the Acquisition & Shortfall Agreement be amended to reflect a 50% performance security and a 50% security be provided in lieu of the current 100% performance and 100% payment security requirement, and

WHEREAS, at the 100% security requirement, the Applicant is required post two securities, each in the amount of $2,635,322, and

WHEREAS, if the security requirement is reduced to 50%, the Applicant will be required to post two securities, each in the amount of $1,317,661, and

WHEREAS, rather than providing bonds, the Applicant will assign two Certificates of Deposit, each in the amount of $1,317,661, to the City, and

WHEREAS, Certificates of Deposit are sounder securities than bonds as they are essentially "cash" the City can draw upon in the event Applicant breaches the Acquisition & Shortfall Agreement, and

WHEREAS, if the updated Acquisition & Shortfall Agreement to reduce the amount of the two securities is not approved, the developer would have to look into other options to provide the stated securities and it would delay construction on the project.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an updated Acquisition and Shortfall Agreement with Berberian

Holdings, LP, Modesto, CA, to reduce performance and payment securities to 50% of the estimated cost of the improvements.

BE IT FURTHER RESOLVED that Resolution No. 2017-311 is rescinded in its entirety.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the agreement in both the capacity of Interim City Manager and as District Administrator, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-416

RESOLUTION CLAIMING FISCAL YEAR 2016-2017 UNCLAIMED FUNDS OF $27,094 HELD IN THE CITY'S TRUST FUND FOR MORE THAN THREE YEARS AND AUTHORIZING THE TRANSFER TO THE GENERAL FUND

WHEREAS, the City issues checks from time to time that remain uncashed the payee, and such checks that are not cashed remain in the accounting records as Outstanding Checks; and

WHEREAS, California Government Code Sections 50050-50053 and 50055 establishes provisions for the escheatment of such unclaimed money to the City's General Fund; and

WHEREAS, State law requires unclaimed funds in the amount of $15 or more, held in the City's Trust fund, be published in a newspaper of general circulation in the City of Modesto, for two successive weeks; and

WHEREAS, after a forty-five day period from the date of the first publication any funds that are not claimed become the property of the City of Modesto.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby claims the FY 2016-2017 unclaimed funds of $27,094 held in the City's trust fund for more than three years and authorizes the transfer to the General Fund.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to take the necessary steps to implement the provisions of this Resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-417

RESOLUTION APPROVING A MEMORANDUM OF AGREEMENT WITH STANISLAUS COUNTY FOR A JOINT APPLICATION FOR FUNDING IN THE AMOUNT OF $169,479 THROUGH THE EDWARD BYRNE JUSTICE ASSISTANCE GRANT (JAG) FORMULA PROGRAM; AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE MEMORANDUM OF AGREEMENT

WHEREAS, the allocation of Edward Byrne Memorial Justice Assistance Grant (JAG) is based on a formula of population and violent crime statistics, in combination with a minimum allocation to ensure that each state and territory received an appropriate share of funding, and

WHEREAS, the JAG Program allows states, tribes and local governments to support a broad range of activities to prevent and control crime based on their own local need and conditions, and

WHEREAS, the City of Modesto Police Department is eligible to apply for $140,751 and Stanislaus County is eligible for $28,728, and

WHEREAS, the City of Modesto Police Department is considered "disparate" under the terms of this grant because the City is eligible to receive one and one-half times more than a County (150% more than the County with concurrent jurisdiction), and

WHEREAS, the Modesto Police Department and Stanislaus County are required to submit a joint application for the total eligible allocation of $169,479 and

WHEREAS, recommended distribution of the 2017 JAG funds are as follows:

Probation	$ 7,182
Sheriff	$ 21,546
Sheriff (Administrative Fee)	$ 4,223
Modesto Police Department	$136,528

WHEREAS, the City of Modesto will use its allocation to help fund the acquisition and implementation of License Plate Reader (LPR) equipment and analytical software, and

WHEREAS, there is no match required for this grant, and

WHEREAS, the awards are made in the first fiscal year of the appropriation and may be expended during the following three years for a total of four years, and

WHEREAS, Stanislaus County will be the fiscal agent for this grant, and

WHEREAS, the County will charge the City a three percent (3%) administrative fee in the amount of $4,223 to cover the reporting costs associated with the grant, and

WHEREAS, the administrative fee reduces the City's total projected grant award to $136,528 ($140,751 less the 3% administrative fee of $4,223), and

WHEREAS, the grant requires that a trust fund must be established for fund deposits, and funds cannot be commingled with funds from any other source, and

WHEREAS, the Memorandum of Agreement states that the City agrees to provide the County a quarterly financial and programmatic report not later than fifteen (15) calendar days after the end of the quarter, and

WHEREAS, grant requires a signed Memorandum of Agreement between the City and County for the application.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Memorandum of Agreement with Stanislaus County for a joint application for funding in the amount of $169,479 through the Edward Byrne Justice Assistance Grant (JAG) Formula Program.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the grant application upon award.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-418

RESOLUTION ACCEPTING THE 2018 PEDESTRIAN AND BICYCLE SAFETY PROGRAM GRANT IN THE AMOUNT OF $30,000 FROM THE OFFICE OF TRAFFIC SAFETY TO INCREASE AWARENESS AND EDUCATION FOR PEDESTRIAN AND BICYCLE SAFETY; AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE NECESSARY DOCUMENTS

WHEREAS, the City of Modesto Police Department desires to undertake a certain project designated as the Pedestrian and Bicycle Safety Program grant from the Office of Traffic Safety (OTS), and

WHEREAS, the Police Department was awarded a grant in the sum of $30,000 from OTS, and

WHEREAS, acceptance of said $30,000 grant will provide funding for pedestrian and bicycle safety presentations, equipment and resources to educate and bring awareness for safety of non-motorized travel on city roadways, and

WHEREAS, OTS will pay overtime for Police staff to participate in traffic safety fairs, community events and otherwise educate citizens through community-based organizations at both the neighborhood and community levels, and

WHEREAS, the term of this grant will be from October 1, 2017, through September 30, 2018,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the Pedestrian and Bicycle Safety Program Grant in the amount of approximately $30,000 from the Office of Traffic Safety to increase awareness and education for pedestrian and bicycle safety.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the necessary award documents.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-420

RESOLUTION APPROVING AN AGREEMENT WITH BRASCO INTERNATIONAL, INC., MADISON HEIGHTS, MI, TO PROVIDE BUS STOP SHELTERS FOR THE MODESTO AREA EXPRESS (MAX) TRANSIT SYSTEM, AT A COST OF $95,615 FOR THE FIRST YEAR AND TOTALING $562,075 OVER FIVE YEARS, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, a Request for Bids (RFB) for bus stop shelters was issued soliciting bids from qualified firms on August 7, 2017, and

WHEREAS, Brasco International, Inc., Madison Heights, MI, submitted a bid that was determined to be reasonable and cost effective, and

WHEREAS, the RFB conformed to the formal bid procedures in Modesto Municipal Code section 8-3.203 and staff recommends awarding the contract to the lowest responsive and responsible proposal, which was submitted by Brasco International, Inc., Madison Heights, MI.

NOW THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an agreement with Brasco International, Inc., Madison Heights, MI, to provide bus stop shelters for the Modesto Area Express (MAX) Transit System, at a cost of $95,615 for the first year and totaling $562,075 over five years.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-421

RESOLUTION ACCEPTING THE AWARD FROM THE FEDERAL TRANSIT ADMINISTRATION (FTA) OF $5,172,318 IN FTA SECTION 5307 FUNDS AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE AND FILE THE ANNUAL CERTIFICATIONS AND ASSURANCES, AND ALL OTHER NECESSARY DOCUMENTS WITH THE FTA

WHEREAS, the Federal Transit Administration (FTA) has been delegated authority to award federal financial assistance for transportation related projects, and

WHEREAS, the City of Modesto has provided all annual certifications and assurances required by the FTA to be eligible for funding under 49 U.S.C Section 5307, and

WHEREAS, on September 26, 2017, Council approved the submittal of a grant application through Resolution No. 2017-379, and

WHEREAS, the projects are included in the 2017 Federal Transportation Improvement Program (FTIP) adopted by the Stanislaus Council of Governments (StanCOG), and

WHEREAS, Modesto is eligible to use federally approved Transportation Development Funds, formerly known as "State Toll Credits", in lieu of a local match, and

WHEREAS, these Section 5307 funds will be used for preventative maintenance, to fund the capital cost of contracting for Stanislaus County, and for employee education and training, bus stop shelters, and maintenance to the downtown Transit Center.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the award of $5,172,318 in FTA Section 5307 funds.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute and file the annual certifications and assurances and other documents the FTA requires for awarding a federal assistance grant.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-422

RESOLUTION APPROVING THE PLANS AND SPECIFICATIONS FOR THE PROJECT TITLED, "NEW TRAFFIC SIGNALS" AT ROSELLE AVENUE AT BELHARBOUR DRIVE, FLOYD AVENUE AT MILLBROOK AVENUE AND PRESCOTT ROAD AT MOUNT VERNON DRIVE, ACCEPTING THE BID, AND AWARDING THE CONSTRUCTION CONTRACT TO TIM PAXIN'S PACIFIC EXCAVATION, INC. OF ELK GROVE, CA IN THE AMOUNT OF $878,860, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE CONTRACT

WHEREAS, in April, 2010 City Staff applied for Congestion Mitigation and Air Quality (CMAQ) funds to construct a new traffic signal at the following three intersections in the City of Modesto: (1) Roselle Avenue at Belharbour Drive, (2) Floyd Avenue at Millbrook Avenue, and (3) Prescott Road at Mount Vernon Drive, and

WHEREAS, construction of this project would install new traffic signals including LED street lighting at the intersections and meeting current Americans with Disabilities Act (ADA) standards, and

WHEREAS, on December 18, 2015, City Council approved Roselle Avenue at Belharbour Drive, Floyd Avenue at Millbrook Avenue, and Prescott Road at Mount Vernon Drive as a Capital Improvement Project (CIP) project, and

WHEREAS, City staff has worked diligently with California Department of Transportation (Caltrans) for project funding and approval, and

WHEREAS, City staff worked with Stanislaus Council of Governments (StanCOG) staff to increase the amount of CMAQ funds for the New Traffic Signals project, and

WHEREAS, on July 6, 2017, City Council, by Resolution No. 2017-269 approved the addition of $160,000 in Measure L funds to the construction phase and match funding of this project, and

WHEREAS, on July 22, 2017, the project was advertised for bids, and

WHEREAS, on August 15, 2017, bids were publicly opened pursuant to Modesto Municipal Code Section 8-3.403 and later tabulated by the Public Works Director for the consideration of Council, and

WHEREAS, the Director of Community and Economic Development and the Interim City Manager have recommended that the bid of $878,860 received from Tim Paxin's Pacific Excavation, Inc. be accepted as the lowest responsive and responsible bid and the contract be awarded to Tim Paxin's Pacific Excavation, Inc. of Elk Grove, CA.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the plans and specifications for the project titled, "New Traffic Signals" at Roselle Avenue at Belharbour Drive, Floyd Avenue at Millbrook Avenue, and Prescott Road at Mount Vernon Drive, accepts the bid from Tim Paxin's Pacific Excavation, Inc., of Elk Grove, CA in the amount of $878,860 and awards Tim Paxin's Pacific Excavation, Inc. of Elk Grove, CA the contract for the "New Traffic Signals – 2013" project.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the contract in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-424

RESOLUTION APPROVING THE JOINT POWERS AGREEMENT BETWEEN THE CITY OF MODESTO AND STANISLAUS COUNTY REGARDING THE RIGHT-OF-WAY ACQUISITIONS FOR THE STATE ROUTE 132 PROJECT AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, State Route (SR) 132 is an east-west highway that extends from I-580 in the Central Valley, south of the City of Tracy, to SR 49 in the foothills of the Sierra Mountains, terminating in the town of Coulterville, and

WHEREAS, the SR 132 corridor is a vital link through the Central Valley, serving local traffic from these communities and providing for regional traffic between the Bay Area and the mountains for the movement of traffic and goods and services, and

WHEREAS, the SR 132 West Freeway/Expressway Project developed by Caltrans (Project) proposes to construct a four lane freeway/expressway on a new alignment south of Kansas Avenue from Dakota Avenue to east of SR 99 at Needham Street, and

WHEREAS, the purpose of the Project is to improve regional and interregional circulation, relieve traffic congestion along existing SR 132, and enhance safety and operations for the existing and proposed transportation network, and

WHEREAS, Phase 1 of the Project is approximately four miles in length and will allow for construction of the ultimate multi-lane freeway. Phase 1 of the Project will replace the existing 2-lane highway segment of SR-132 along Maze Boulevard from SR-99 to Dakota Avenue, and

WHEREAS, the City will be primarily responsible for the implementation of Phase 1 of the Project.

WHEREAS, as part of Phase 1 of the Project, the City will need to acquire property that is within the geographic boundaries of the City as well as some parcels that are within the unincorporated areas of the County, and

WHEREAS, pursuant to the Joint Exercise of Powers Act and Code of Civil Procedure section 1240.140, the Joint Powers Agreement delegates the common powers to acquire and condemn real property for state highway purposes to the City, for right-of-way acquisition for the Project.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Joint Powers Agreement between the City of Modesto and Stanislaus County regarding the right-of-way acquisitions for the State Route 132 Project.

BE IT FURTHER RESOLVED, that the Interim City Manager, or his designee, is authorized to execute the Agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of October, 2017, by Councilmember Zoslocki, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-425

RESOLUTION APPROVING AN AMENDMENT TO THE AGREEMENT WITH ABS DIRECT INC., MODESTO, CALIFORNIA, INCREASING THE CONTRACT AMOUNT FOR PRINTING SERVICES BY $257,579, FROM $731,350 TO $988,929, EXTENDING THE TERM OF THE AGREEMENT FROM SEPTEMBER 7, 2016 TO MAY 31, 2018; AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE AN AMENDMENT TO THE AGREEMENT

WHEREAS, in November, 2010 the City went through a formal bidding process, pursuant to Modesto Municipal Code 8-3.203, for the furnishing of forms, printing and mailing services used primarily for the mailing of City utility bills, and

WHEREAS, Council authorized the award of proposal to ABS Direct, Inc., through Resolution No. 2011-385, and

WHEREAS, the City executed a contract with ABS Direct, Inc. in September 2011 for the furnishings of Forms, Printing and Mailing services for an estimated annual cost of $146,270 totaling $731,350 over a five year period, and

WHEREAS, over the five year term of the agreement, postage costs of $3.1 million were approved and reimbursed to ABS Direct Inc., through the annual budget process, and

WHEREAS, the City required the continued use if its Forms, Printing and Mailing services in order to ensure it met its daily business needs such as sending utility bills or business licenses until a competitive bid process occurred, and

WHEREAS, due to exigent circumstances created by the ongoing mailing needs of the City, from September 7, 2016 to September 6, 2017, $113,554 was paid for the Forms, Printing and Mailing services and pass through postage costs of $426,452 were reimbursed to ABS Direct Inc., and

WHEREAS, $42,597 of outstanding invoices have been received from ABS Direct, Inc., which include $7,262 for printing and mailing services and $35,335 for postage costs , and

WHEREAS, it is estimated an additional $136,763 will be needed for Forms, Printing and Mailing services and an additional $326,802 in pass through postage costs for the period of September 7, 2017 through May 31, 2018, and

WHEREAS, the Finance Department has completed the competitive bid process and is scheduled to forward the results and recommendation of award to the Finance Committee on November 27, 2017 to request the Committee forward to Council for consideration on December 5, 2017, and

WHEREAS, Modesto Municipal Code Section 8-3.204(c), Exceptions to Formal Bidding Requirements, provides that the Purchasing Manager, in his or her discretion, may determine that calling for bids on a competitive basis as set forth in Modesto Municipal Code section 8-3.203 is undesirable due to exigent circumstances, and

WHEREAS, Modesto Municipal Code 8-3.204(d) states that where the Purchasing Manager, in his or her discretion, determines that a process other than the formal bid procedure set forth in Section 8-3.203 will result in a procurement for the City at the lowest possible cost commensurate with the desired quality, the purchase may be exempt from the formal bid process, and

WHEREAS, the Purchasing Manager has determined that the current situation is an exigent circumstance since the City cannot have any lapse in printing and mailing of utility bills and business licenses since this is a major source of revenue for the City. Due to the exigent circumstances, the Purchasing Manager has also determined that

continuing in the current contract with ABS until such time that the RFP process can be completed would prevent any lapse in mailing services and save the City from incurring additional costs relating to staff time, and

WHEREAS, the postage costs are an essential and implied cost of mailing utility bills and business licenses and it is more efficient for the vendor to pay the postage costs to the Postal Service with reimbursement of the vendor by the City, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it finds the foregoing recitals to be true and correct and hereby approves an amendment to the agreement with ABS Direct, Inc., Modesto, CA, increasing the contract amount for printing services by $257,579 from $731,350 to $988,929 and extending the term of the agreement from September 7, 2016 to May 31, 2018.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the amended Agreement, in a form approved by the City Attorney.

BE IT FURTHER RESOLVED that the City Council acknowledges the postage costs reimbursed to ABS Direct, Inc. since 2011 are a pass through cost of the Forms, Printing and Mailing services.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of October, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-426

RESOLUTION ACCEPTING THE RESIGNATION OF CHARLES AUSTIN FROM THE CITY OF MODESTO HOUSING REHABILITATION LOAN COMMITTEE

WHEREAS, the City of Modesto's Housing Rehabilitation Loan Committee was established to develop administrative procedures and policies for the City's housing rehabilitation loans and grants and its down payment assistance program, and

WHEREAS, it also has the authority to review and approve housing rehabilitation loans, funded through the Community Development Block Grant – Revolving Loan Fund, in an amount up to $60,000, and

WHEREAS, on March 1, 2016 by Resolution No. 2016-66, Charles Austin was appointed to the City of Modesto Housing Rehabilitation Loan Committee, and

WHEREAS, Charles Austin submitted his resignation on October 12, 2017 as he will no longer be able to serve on the committee.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the resignation of Charles Austin from the City of Modesto Housing Rehabilitation Loan Committee is hereby accepted.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-427

RESOLUTION APPROVING AMENDMENTS TO SECTION 3 (COMMUNITY DEVELOPMENT BLOCK GRANT PROGRAMS), SECTION 6 (HOUSING REHABILITATION PROGRAM), AND SECTION 13 (NEIGHBORHOOD STABILIZATION PROGRAM) OF THE HOUSING AND URBAN DEVELOPMENT POLICIES & PROCEDURES MANUAL

WHEREAS, on October 25, 2016, by Resolution No. 2016-425, the City Council consolidated all Housing and Urban Development policies & procedures into one comprehensive manual entitled Housing and Urban Development Policies & Procedures Manual (HUD Policies & Procedures Manual), and

WHEREAS, on August 8, 2017, the Council, by Resolution No. 2017-312, added Section 13 (Neighborhood Stabilization Program Subrecipient Management) to the HUD Manual, and

WHEREAS, an amendment to Section 3 (Community Development Block Grant Program), Section 6 (Housing Rehabilitation Program), and Section 13 (Neighborhood Stabilization Program) of the HUD Policies & Procedures Manual is proposed to reflect updated policies, and

WHEREAS, on October 12, 2017, the City of Modesto's Citizen's Housing and Community Development Committee reviewed, approved and forwarded an amended Section 3 (Community Development Block Grant Program) Section 6 (Housing Rehabilitation Program), and Section 13 (Neighborhood Stabilization Program) of the HUD Policies & Procedures Manual, to the City Council for review and approval.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto hereby amends Section 3 (Community Development Block Grant Program), Section 6 (Housing Rehabilitation Program), and Section 13 (Neighborhood Stabilization Program)

of the Housing and Urban Development Policies & Procedures Manual, as set forth in **Exhibit** A, which is attached hereto and incorporated by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

1. Introduction

1.1. The City of Modesto has been a participating jurisdiction in the Community Development Block Grant (CDBG) Program of the U.S. Department of Housing and Urban Development (HUD) since the program was established by Congress in 1974.

1.1.1. HUD distributes federal CDBG funds to states, counties and urban cities to fulfill the goals of the program to:

1.1.1.1. Provide decent, safe, and sanitary housing

1.1.1.2. Provide a suitable living environment, and to

1.1.1.3. Expand economic opportunities principally for low and moderate-income persons.

1.2. Minimum requirements applicable to any CDBG funded activity are set forth in CDBG Program Regulations 24 CFR 570. CDBG regulations allow for local discretion as to the use and management of the CDBG program. Local community needs, resources, priorities and procedures for managing the CDBG program are approved by the City Council as part of the City's five-year Consolidated Plan (CP) process. In addition, each year the Modesto City Council reviews and considers approval of an Annual Action Plan (AAP) which includes objectives and outcomes, an evaluation of past performance, and activities to be undertaken in the next program year.

1.3. This document is intended to satisfy the requirement for a concise policy and procedures administrative manual in the administration and implementation of CDBG funded activities.

2. Background

2.1. **U.S. Department of Housing and Urban Development and Office of Community Planning and Development**

2.1.1. The mission of the U.S. Department of Housing and Urban Development (HUD) is "to create strong, sustainable, inclusive communities and quality, affordable homes for all."

2.1.2. The HUD Office of Community Planning and Development (CPD) seeks to develop viable communities by promoting integrated approaches that provide decent housing, a suitable living environment, and expanded economic opportunities for low- and moderate-income persons. These goals come out of the mission of HUD to "create strong, sustainable, inclusive communities and quality, affordable homes for all." The primary means towards this end is the development of partnerships between all levels of government and the private sector, including for-profit and non-profit organizations.

2.2. City of Modesto Entitlement Programs

2.2.1. The City of Modesto is a participating jurisdiction in three (3) Community Planning and Development (CPD) entitlement programs:

2.2.1.1. The Community Development Block Grant (CDBG) program supports public services and improvements that benefit low- and moderate-income individuals, families and neighborhoods. Federal regulations governing the CDBG program are in Title 24 of the Code of Federal Regulations Part 570 (24 CFR 570).

2.2.1.2. The Emergency Solutions Grants Program provides funding to (1) engage homeless individuals and families living on the street; (2) improve the number and quality of emergency shelters for homeless individuals and families; (3) help operate these shelters; (4) provide essential services to shelter residents, (5) rapidly re-house homeless individuals and families, and (6) prevent families/individuals from becoming homeless.

2.2.1.3. The HOME Investment Partnership (HOME) program supports affordable access to homeownership and development of affordable rental housing for low- and moderate-income families. Federal regulations governing the HOME program are in Title 24 of the Code of Federal Regulations Part 92 (24 CFR 92).

2.3. Federal Regulations (24 CRF Parte 570)

2.3.1. The City of Modesto will follow the regulations governing the CDBG program which are found in Title 24 of the Code of Federal Regulations (CFR) Part 570, Community Development Block Grants.

2.4. Subpart C – Basic Eligible Activities (24 CFR 570.201)

2.4.1. **24 CFR 570 Subpart C**

2.4.1.1. The City of Modesto may assist an activity in whole or in part with CDBG funds for activities which include, but are not limited to the following (all CDBG funded activities shall comply with 24 CFR Subpart C Eligible Activities requirements):

2.4.1.1.1. Acquisition of real property;

2.4.1.1.2. Disposition of real property acquired with CDBG funds

2.4.1.1.3. Construction of public facilities and improvements, such as water and sewer facilities, streets, neighborhood centers, and the conversion of school buildings for eligible purposes

2.4.1.1.4. Clearance and remediation of buildings and improvements;

2.4.1.1.5. Public Services within certain limits
- 2.4.1.1.5.1. Housing Services: Privately owned utilities
- 2.4.1.1.5.2. Construction of affordable housing
- 2.4.1.1.5.3. Homeownership assistance within certain limits
- 2.4.1.1.5.4. Technical Assistance
- 2.4.1.1.5.5. Rehabilitation of residential and non-residential structures
- 2.4.1.1.5.6. Special economic development activities

2.5. Ineligible Activities (24 CFR 570.207)

2.5.1. The general rule is that the City of Modesto's CDBG funds shall not be used for any activity that is not authorized under the provisions of 24 CFR Parts 570.201–570.206.

2.5.2. Generally, the following types of activities are ineligible:
- 2.5.2.1. acquisition, construction, or reconstruction of buildings for the general conduct of government
- 2.5.2.2. General government expenses
- 2.5.2.3. Political activities
- 2.5.2.4. Purchase of equipment
- 2.5.2.5. Construction equipment
- 2.5.2.6. Furnishings and personal property
- 2.5.2.7. Operating and maintenance expenses associated with public facilities
- 2.5.2.8. New housing construction
- 2.5.2.9. Subsistence payments made directly to an individual or family

2.6. Criteria for National Objectives – CDBG

2.6.1. In compliance with CDBG regulations, the City of Modesto strives to utilize the majority of funding in a manner that serves low- and moderate-income persons during each program year, but not less than fifty-one percent (51%) of CDBG funds shall be used for activities that benefit low- and moderate-income persons. When considering funding activities, the City of Modesto will ensure that each activity must meet one of the following National Objectives for the CDBG program.
- 2.6.1.1. Benefit low and moderate income individuals, families, or neighborhoods;
- 2.6.1.2. Prevention or elimination of slums or blight; or
- 2.6.1.3. Address community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the

health or welfare of the community for which other funding is not available.

2.7. Selecting Activities that Comply

2.7.1. While there are many aspects that must be considered in selecting activities to assist under the CDBG program, there are six (6) key steps that City of Modesto Community Development Division (CDD) staff will take into consideration during the early stages of the process of determining if CDBG funds may be used to assist a proposed activity:

2.7.1.1. Determine if the activity falls within a category of explicitly authorized activities in the CDBG statute. Generally, if an activity does not fall within a category of explicitly authorized activities in the statute, the activity is considered ineligible. *HUD's Guide to National Objectives and Eligible Activities* describes all categories of basic eligibility that were authorized at the time of publication:

https://www.hudexchange.info/resource/89/community-development-block-grant-program-cdbg-guide-to-national-objectives-and-eligible-activities-for-entitlement-communities/

2.7.1.2. Determine if a proposed activity does not appear to be included in the statute's list of eligible activities, but there is precedent indicating it has been interpreted as eligible under the statute by the CDBG Eligible Activity regulations.

2.7.1.3. Most importantly, determine if the proposed activity can meet one of the national objectives of the program as outlined in 24 CFR 570.208. If an activity cannot meet one of the national objectives, the activity shall be found to be ineligible.

2.7.1.4. Ensure that carrying out the activity with CDBG funds will not result in the City violating its certification that at least 51 percent of CDBG expenditures will be for activities that are considered to benefit Low/Moderate income persons over the one, two, or three consecutive program years specified by the City of Modesto.

2.7.1.5. Review proposed costs of the activity to determine if they appear to be necessary and reasonable and will otherwise conform with the requirements of the following:

2.7.1.5.1. OMB Circulars A-87, "Cost Principles for State, Local, and Indian Tribal Governments,"

2.7.1.5.2. A-122, "Cost Principles for Non-Profit Organizations,"

2.7.1.5.3. A-21, "Cost Principles for Educational Institutions,"

2.7.1.5.4. 24 CFR Part 84, "Uniform Administrative Requirements for Grants and Agreements With Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations;" or

2.7.1.5.5. 24 CFR Part 85, "Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments," as applicable.

2.7.1.6. Complete the environmental review and clearance procedures for the project of which the activity is a part as required by 24 CFR Part 58. Federal law prohibits HUD from releasing funds for a CDBG activity until certification is made with respect to environmental review completion.

3. Subpart J – Grant Administration (24 CFR Part 570.501)

3.1. 24 CFR 570 Subpart J

3.2. Responsibility for Grant Administration

3.2.1. The City of Modesto Community and Economic Development Department (CEDD) has been designated to administer the activities assisted under the CDBG program. The City of Modesto CEDD is responsible for ensuring that CDBG funds are used in accordance with all program requirements. The City of Modesto will adhere to all administrative requirements covered by Subpart J (24 CFR 570.500-570.513), which includes general responsibilities for grant administration, including uniform administrative requirements, provisions of subrecipient agreements, program income, use of real property, recordkeeping and reporting, and closeout procedures.

3.2.2. Applicability of Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards §570.502

3.2.3. The City of Modesto and its subrecipients shall follow Office of Management and Budget's (OMB) Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (also known as the Super Circular) codified at 2 CFR 200. The Super Circular guidance superseded and consolidated the requirements from OMB Circulars A-21, A-87, A-110, A-122, A-89, A-102, A-133, and A-50.

3.2.4. The City will ensure that all subrecipients (agencies and organizations that receive grant funds from the City) are in compliance with *OMB Super Circular requirements.*

3.3. Agreements with Sub-recipients § 570.503

3.3.1. Before disbursing any CDBG funds to a sub-recipient, the City of Modesto will sign a written agreement with the sub-recipient. The agreement will remain in effect during any period that the sub-recipient has control over CDBG funds, including program income.

3.3.2. At a minimum, the written agreement with the sub-recipient will include provisions concerning the following:

3.3.2.1. **Statement of Work**: The agreement will include a description of the work to be performed, a schedule for completing the work, and a budget. These items will be in sufficient detail to provide a sound basis for the City of Modesto to effectively monitor performance under the agreement.

3.3.2.2. **Records and Reports**: The City of Modesto will specify in the agreement the particular records the sub-recipient must maintain and the particular reports the sub-recipient must submit in order to assist the City of Modesto in meeting its recordkeeping and reporting requirements.

3.3.2.3. **Program Income (PI)**: The agreement will include the PI requirements set forth in **§570.504(c).** The agreement will also specify that, at the end of the calendar year, the City of Modesto may require remittance of all or part of any PI balances (including investments thereof) held by the sub-recipient (except those needed for immediate cash needs, cash balances of a revolving loan fund, cash balances from a lump sum drawdown, or cash or investments held for section 108 security needs).

3.3.2.4. **Uniform Administrative Requirements**: The agreement will require the sub-recipient to comply with applicable uniform administrative requirements, as described in **§570.502.**

3.3.2.5. **Other Program Requirements**: The agreement will require the sub-recipient to carry out each activity in compliance with all Federal laws and regulations described in 24 CFR 570 Subpart K of the regulations, except that:

3.3.2.5.1. The sub-recipient does not assume the City of Modesto's environmental review (ER) responsibilities described at §**570.604**; and

3.3.2.5.2. The sub-recipient doesnot assume the City of Modesto's responsibility for initiating the review process under the provisions of 24 CFR part 52.

3.3.2.6. **Suspension and Termination**: The agreement will specify that, in accordance with 24 CFR 85.43, suspension or termination may occur if the sub-recipient materially fails to comply with any term of the award, and that the award may be terminated for convenience in accordance with 24 CFR 85.44.

3.3.2.7. **Reversion of Assets**: The agreement will specify that upon its expiration the sub-recipient shall transfer to the City of Modesto any CDBG funds on hand at the time of expiration and any accounts receivable attributable to the use of CDBG funds. It will also include provisions designed to ensure that any real property under the sub-recipient's control that was acquired or improved in whole or in part with CDBG funds (including CDBG funds provided to the sub-recipient in the form of a loan) in excess of $25,000 is either:

3.3.2.7.1. Used to meet one of the national objectives in §**570.208** (formerly §**570.901**) until five (5) years after expiration of the agreement, or for such longer period of time as determined to be appropriate by the City of Modesto; or

3.3.2.7.2. ot used in accordance with paragraph (b)(7)(i) of this section, in which event the subrecipient shall pay to the City of Modesto an amount equal to the current market value of the property less any portion of the value attributable to expenditures of non-CDBG funds for the acquisition of, or improvement to, the property. The payment is program income to the City of Modesto.

4. Program Income

4.1. Treatment of Program Income and Revolving Loan Funds (RLFs) Per the 24 CFR 570.500 definitions.

4.2. § 570.500 Definitions.

4.2.1. For the purposes of this subpart, the following terms shall apply:

4.2.1.1. **(a) *Program income*** means gross income received by the recipient or a subrecipient directly generated from the use of CDBG funds,

4.2.1.2. **(b) *Revolving fund*** means a separate fund (with a set of accounts that are independent of other program accounts) established for the purpose of carrying out specific activities which, in turn, generate payments to the fund for use in carrying out the same activities. Each revolving loan fund's cash balance must be held in an interest-bearing account, and any interest paid on CDBG funds held in this account shall be considered interest earned on grant advances and must be remitted to HUD for transmittal to the U.S. Treasury no less frequently than annually. [Interest paid by borrowers on eligible loans (e.g. – Homeowner Rehabilitation Loan Interest portion payments made from the revolving loan fund) shall be program income and treated accordingly. Receipted as program income, not as RLF.]

4.2.2. Beginning with FY 2015 formula allocations, it has been determined that First-In-First-Out (FIFO) accounting does not comply with federal financial standards *(May 9 2014 – Memorandum – System and Regulatory Changes to Eliminate First-In-First-Out Accounting in the Integrated Disbursement and Information System (IDIS))*. Funding is now tied to a grant specific year, and the related activities described within the respective Annual Action Plan (AAP) (e.g. Year 1 – 7/1/2015 – 6/30/2016; Year 2 – 7/1/2016 – 6/30/2017; Year 3 – 7/1/2017 – 6/30/2018).

4.2.3. Under the provision of this rule the City of Modesto Community Development Division (CDD) will accumulate program income, including interest paid by borrowers on eligible loans made from the Revolving Loan Fund, repaid funds, and recaptured funds it receives during the program year, rather than expending them for the next eligible draw.

4.2.4. Moving forward, at the conclusion of each calendar year (e.g. – Program Income accumulated through 12/31/2016; will be reflected in the next Annual Action Plan (AAP)). The City of Modesto will calculate any accumulated uncommitted program income to include interest paid by borrowers on eligible loans made from the Revolving Loan Fund(s),

repaid funds, and recaptured funds incorporating all into the upcoming AAP. This funding received during the previous program year(s) will be described as resources and assigned to eligible activities in the upcoming AAP (e.g. – AAP FY 2017-2018). Emergency Solutions Grants (ESG) is currently excluded from this requirement.

4.2.5. In prior years, this was not required, as the amounts in revolving loan funds (RLFs) were excluded from calculations related to the City of Modesto timeliness standards described in 24 CFR Part 570.902. On February, 22, 2017, HUD Headquarters clarified that with all formula grantees that this will no longer be allowable.

4.2.6. Program income still needs to be remitted to the U.S. treasury, if the calculation at the end of each program year (June 30th) is in access of the guidelines as outlined in the CDBG Manual (Chapter 11: Financial Management – page 11-13).

4.2.7. The receipt and expenditure of program income as defined in §**570**.500(a) will be recorded as part of the financial transactions of the City of Modesto CDBG grant program.

4.2.8. Program income (PI) received before grant closeout may be retained by the City of Modesto. PI will be treated as additional CDBG funds subject to all applicable requirements governing the use of CDBG funds.

4.2.9. Program income retained by the City of Modesto will be disposed as follows:

4.2.10. Program income in the form of repayments to, or interest earned on, a revolving fund as defined in §570.500(b) tied to that specific grant year AAP shall be substantially disbursed from the fund before additional cash withdrawals are made from the U.S. Treasury for the same activity. (This rule does not prevent a lump sum disbursement to finance the rehabilitation of privately owned properties as provided for in §570.513.)

4.2.11. Substantially all other AAP program year program income shall be disbursed for eligible activities before additional cash withdrawals are made from the U.S. Treasury. If the calculation at the end of each program year (June 30th) is in access of the guidelines as outlined in the CDBG Manual (Chapter 11: Financial Management – page 11-13).

4.2.12. At the end of each program year, the aggregate amount of program income cash balances and any investment thereof (except those needed for immediate cash needs, cash balances of a revolving loan fund, cash balances from a lump-sum drawdown, or cash or investments held for section 108 loan guarantee security needs) that, as of the last day of the program year, exceeds one-twelfth of the most recent grant made pursuant to §570.304 shall be remitted to HUD as soon as practicable thereafter, to be placed in the City of Modesto's line of credit. This provision applies to program income cash balances and investments thereof held by the City of Modesto and its sub-recipients.

4.2.13. CDBG and HOME PI balance as of December 31 of each year will be budgeted for use in the following Fiscal Year Annual Action Plan. Program Income received after December 31, will be kept in account until the end of the following year to be budgeted for the following fiscal year; The City of Modesto may elect to use program income received after December 31 by conducting a substantial amendment to the respective year Annual Action Plan.

4.2.14. Under the provision of this rule the City of Modesto Community Development Division (CDD) will accumulate program income, including ***interest paid by borrowers on eligible loans made from the Revolving Loan Fund,*** repaid funds, and recaptured funds it receives during the program year, rather than expending them for the next eligible draw.

4.2.15. The City of Modesto will calculate any accumulated uncommitted program income to include interest paid by borrowers on eligible loans made from the Revolving Loan Fund(s), repaid funds, and recaptured funds incorporating all into the upcoming AAP. This funding received during the previous program year(s) will be described as resources and assigned to eligible activities in the upcoming AAP (e.g. – AAP FY 2017-2018). Emergency Solutions Grants (ESG) is currently excluded from this requirement.

4.2.16. In prior years, this was not required, as the amounts in revolving loan funds (RLFs) were excluded from calculations related to the City of Modesto timeliness standards described in 24 CFR Part 570.902. On February, 22, 2017, HUD Headquarters clarified that with all formula grantees that this will no longer be allowable.

5. Use of real property

5.1. Section 570.505

5.1.1. The City of Modesto will comply the standards described 24 CFR 570.505 with relation to the use of real property within the City of Modesto's control acquired or improved in whole or in part using CDBG funds in excess of $25,000.

6. Records to be maintained

6.1. Section 570.560

6.1.1. The City of Modesto will establish and maintain sufficient records to enable HUD to determine whether the City of Modesto has met the CDBG program requirements for activities administered by the City of Modesto under the CDBG program. At a minimum, the following records will be maintained:

6.1.2. Records providing a full description of each activity assisted (or being assisted) with CDBG funds, including its location (if the activity has a geographical locus), the amount of CDBG funds budgeted, obligated and expended for the activity, and the provision in subpart C under which it is eligible.

6.1.3. Records demonstrating that each activity undertaken meets one of the criteria set forth in §570.208 (Criteria for National Objectives).

6.1.4. Records that demonstrate that the City of Modesto has made the determinations required as a condition of eligibility of certain activities, as prescribed in §570.201(f)-interim assistance, 570.201(i)(2) - emergency, 570.201(p) - technical assistance, 570.201(q) - higher education institutions, 570.202(b)(3) - rehabilitation loans, 570.206(f) - Submission of applications for federal programs, 570.209 - economic development, 570.210 - prohibition employee relocation, and 570.309 - restriction on location.

6.1.5. Records which demonstrate compliance with §570.505 - regarding any change of use of real property acquired or improved with CDBG assistance.

6.1.6. Records that demonstrate compliance with the citizen participation requirements prescribed in 24 CFR part 91, subpart B, for entitlement recipients.

6.1.7. Records that demonstrate compliance with the requirements in §570.606 regarding acquisition, displacement, relocation, and replacement housing

6.1.8. Fair housing and equal opportunity records containing:

6.1.8.1. Documentation of the analysis of impediments and the actions the City of Modesto has carried out with its housing and community development and other resources to remedy or ameliorate any impediments to fair housing choice in the City of Modesto's community.

6.1.8.2. Data on the extent to which each racial and ethnic group and single headed households (by gender of household head) have applied for, participated in, or benefited from, any program or activity funded in whole or in part with CDBG funds. Such information shall be used only as a basis for further investigation as to compliance with nondiscrimination requirements. The City of Modesto is not required to attain or maintain any particular statistical measure by race, ethnicity, or gender in covered programs.

6.1.8.3. Data on employment in each of the City of Modesto's operating units funded in whole or in part with CDBG funds, with such data maintained in the categories prescribed on the Equal Employment Opportunity Commission's EEO-4 form; and documentation of any actions undertaken to assure equal employment opportunities to all persons regardless of race, color, national origin, sex or handicap in operating units funded in whole or in part under this part.

6.1.8.4. Data indicating the race and ethnicity of households (and gender of single heads of households) displaced as a result of CDBG funded activities, together with the address and census tract of the housing units to which each displaced household relocated. Such information shall be used only as a basis for further investigation as to compliance with nondiscrimination requirements. The City of Modesto is not required to attain or maintain any particular statistical measure by race, ethnicity, or gender in covered programs.

6.1.8.5. Documentation of actions undertaken to meet the requirements of §570.607(b) which implements Section 3 of the Housing Development Act of 1968, as amended (12 U.S.C. 1701U) relative to the hiring and training of low and moderate income persons and the use of local businesses.

6.1.8.6. Data indicating the racial/ethnic character of each business entity receiving a contract or subcontract of $25,000 or more paid, or to be paid, with CDBG funds, data indicating which of those entities are

women's business enterprises as defined in Executive Order 12138, the amount of the contract or subcontract, and documentation of recipient's affirmative steps to assure that minority business and women's business enterprises have an equal opportunity to obtain or compete for contracts and subcontracts as sources of supplies, equipment, construction and services. Such affirmative steps may include, but are not limited to, technical assistance open to all businesses but designed to enhance opportunities for these enterprises and special outreach efforts to inform them of contract opportunities. Such steps shall not include preferring any business in the award of any contract or subcontract solely or in part on the basis of race or gender.

6.1.8.7. Documentation of the affirmative action measures the City of Modesto has taken to overcome prior discrimination, where the courts or HUD have found that the City of Modesto has previously discriminated against persons on the ground of race, color, national origin or sex in administering a program or activity funded in whole or in part with CDBG funds.

6.1.8.8. Financial records, in accordance with the applicable requirements listed in§**570**.502 - uniform administrative requirements - including source documentation for entities not subject to parts 84 and 85 of the regulation. The City of Modesto will maintain evidence to support how the CDBG funds provided to such entities are expended. Such documentation will include, to the extent applicable, invoices, schedules containing comparisons of budgeted amounts and actual expenditures, construction progress schedules signed by appropriate parties (e.g., general contractor and/or a project architect), and/or other documentation appropriate to the nature of the activity.

6.1.9. Records required to be maintained in accordance with other applicable laws and regulations set forth in subpart K of 24 CFR Part 570.

6.1.10. Subrecipient record retention requirements will be established within subrecipient agreements.

7. Required Annual Reports

7.1. § 570.507

7.2. Preparation of Annual Action Plan

7.2.1. CDBG regulations at 24 CFR 91.15(a)(1) requires entitlement jurisdictions (City of Modesto) to submit its Consolidated Plan or Action Plan at least 45 days before the start of its program year. The City of Modesto will begin to plan for the development of the Annual Action Plan (AAP) as early as October of the year prior to the beginning of its next fiscal year – July 1. For purposes of planning the Annual Action Plan, an Annual Action Plan schedule may be developed in the month of October outlining all pertinent deadlines related to the development and adoption of the Annual Action Plan.

7.2.2. The following will be general milestone targets of the City of Modesto's Annual Action Plan tentative schedule (efforts will be made to follow the outlined schedule as close as possible, however, variables outside the City's control may contribute to changes on the actual schedule):

7.2.2.1. **Oct./Nov: Develop AAP schedule**

7.2.2.2. **December: Release CDBG/ESG Public Services Notice of Funding Availability (NOFA)**

7.2.2.2.1. Host Mandatory Technical Workshop and Open Public Service Application Period

7.2.2.2.2. Begin Draft AAP

7.2.2.3. **January: Continue Draft AAP**

7.2.2.3.1. CDBG/ESG Public Services Application Deadline

7.2.2.3.2. Application Technical Review Notifications (for ineligible applications)

7.2.2.3.3. Deadline for Appeals of Technical Review Determination

7.2.2.4. **February: RFP Presentations to CH&CDC and Application Evaluation**

7.2.2.5. **March/April: Finalize Draft AAP.**

7.2.2.5.1. If official entitlement amounts are not known, a Draft Annual Acton Plan using projected entitlement award amounts will be prepared.

7.2.2.5.2. Draft AAP with funding recommendations to CH&CDC

7.2.2.5.3. Draft AAP to CH&CDC; Open 30 day public comment period –

7.2.2.5.4. Conduct Citizen Participation outreach in compliance with Citizen Participation Plan

7.2.2.5.5. Update AAP with official HUD entitlement allocations for CDBG, ESG, and HOME programs.

7.2.2.5.6. Update Draft AAP during 30 day comment period as needed. Insert comments received during public comment period/citizen participation process.

7.2.2.6. Draft subrecipient agreements per activities identified in the Draft AAP. The City Attorney shall annually review the draft CDBG sub recipient and capital projects agreements to ensure compliance with federal, state and City codes and regulations, including non-discrimination clauses and City insurance requirements.

7.2.2.7. **May/June: Final AAP to City Council.**

7.2.2.7.1. Following the Citizen Participation process, the City of Modesto will submit the Annual Action Plan to the San Francisco Field Office no later than May 15 of each year (45 days prior to the start of the program year) if HUD has announced official program allocations.

7.2.2.7.2. Per HUD CPD Notice CPD-16-18, HUD has directed entitlement communities to not submit the Annual Action Plan until after the fiscal year allocations have been announced. Entitlement communities may delay submission of its action plan to HUD until 60 days after the date allocations are announced, or until August 16 of the respective fiscal year, whichever comes first. This delay will give the entitlement communities time to revise its Annual Action Plan to incorporate actual allocation amounts, and to conduct any additional citizen participation, if necessary.

7.2.2.7.3. For example, if HUD were to announce the FY allocation amounts to grantees on April 28: For grantees with July 1 and August 1 program year start dates, their normal plan submission date would be less than 60 days after HUD's announcement of allocation amounts. These grantees

would also be able to postpone submission of their consolidated plan/action plan until June 26.

7.2.2.7.4. Once HUD informs grantees of their fiscal year funding allocation amounts, the City of Modesto, prior to submission, will ensure that the fiscal year funding allocation amounts are reflected in the form SF-424, in the description of resources and objectives, and in the description of activities to be undertaken.

7.2.2.7.5. Upon City Council adoption, contracts will be prepared and executed.

7.2.2.8. **July 1** **Beginning of Program Year**

7.2.2.9. In no case may a Consolidated Plan/Action Plan be submitted to HUD later than August 16 of the respective fiscal year.

7.2.2.10. Throughout the development of the Annual Action Plan, the City of Modesto will comply with all Citizen Participation plan requirements to ensure proper public noticing, citizen participation, and public hearings are conducted. The City of Modesto's Citizen Participation Plan may be found at https://www.modestogov.com/1848/Publications-Reports.

8. Preparation of the Consolidated Annual Performance Evaluation Report (CAPER)

8.1. CDBG regulations at 24 CFR 91.520 requires entitlement jurisdictions (City of Modesto) to submit an Annual Performance Report within 90 days of the close of the entitlement jurisdiction's program year. This is in accordance with the Consolidated Plan regulations at 24 CFR Part 91.

8.2. The City of Modesto will begin to plan for the development of the Consolidated Annual Performance Evaluation Report (CAPER) in June of the year after the end of its next fiscal year – June 30. For purposes of planning the CAPER, a CAPER schedule may be developed in the month of June outlining all pertinent deadlines related to the development and adoption of the CAPER.

8.3. The following will be general milestone targets of the City of Modesto's CAPER tentative schedule (efforts will be made to follow the outlined schedule as close as possible, however, variables outside the City's control may contribute to changes on the actual schedule):

8.3.1. June - Develop AAP schedule

8.3.2. July - Compile Data for Draft CAPER

8.3.2.1. Begin Draft CAPER

8.3.3. August - Present Draft CAPER to CH&CDC

8.3.3.1.1. Open 15 day Public Comment Period

8.3.3.1.2. Conduct Citizen Participation Process

8.3.4. September Present CAPER to City Council

8.3.4.1.1. Submit CAPER to HUD

8.4. Throughout the development of the CAPER, the City of Modesto will comply with all Citizens' Participation Plan requirements to ensure proper public noticing, citizen participation, and public hearings are conducted. The City of Modesto's Citizen Participation Plan may be found at https://www.modestogov.com/1848/Publications-Reports.

9. Program and Financial Reporting

9.1. Throughout the fiscal year, the City of Modesto will comply with all reporting requirements. All attempts will be made to submit each report by the respective deadline. The following is a list of reports that the City of Modesto is required to submit as a recipient of HUD funds:

9.1.1. SF 425 – Federal Financial Report and SF 425-A – Federal Financial Report Attachment

9.1.2. HUD-92010 Equal Employment Opportunity Certification – if applicable (HUD/EEO-4)

9.1.3. Form HUD-60002-Section 3 Summary Report: Section 3 reports will be submitted in the SPEARS system on or before September 30 each year.

9.1.4. HUD-2516 Contract and Subcontract Activity (MBE Report) – Due to HUD by November 15 each year.

9.1.5. HUD-4710 Semi-Annual Labor Standards Enforcement Report – Due to HUD by April 15 and October 15

9.1.6. All other reports/information HUD determines necessary

9.2. The City of Modesto will work with all subrecipients to ensure that they understand reporting requirements, with the understanding that the City and subrecipients share joint

responsibility for carrying out permitted activities in conformance with federal requirements.

9.3. Subrecipients shall provide documentation that demonstrates the achievement of program goals and the completion of activities on quarterly basis at a minimum. All requests for reimbursement shall have adequate documentation, as determined by the City of Modesto, of how federal funds were used and that funds were used only for eligible activities. Complete records, and accurate and timely reporting, are essential to successful CDBG programs for the City and all subrecipients.

9.4. The City of Modesto Housing and Urban Development subdivision will ensure that expenditures of CDBG funds shall be drawn down using the Integrated Disbursement and Information System (IDIS) on a regular basis and not less than monthly.

10. Sub-recipient Application & Award Process

10.1. Public Services Application Release and Schedule

10.1.1. HUD allows the City of Modesto to procure, select, and fund activities in accordance with local community development goals and objectives. With respect to CDBG and ESG Public Services, the City of Modesto will annually release a Notice of Funding Availability (NOFA) to solicit public service program proposals that align with Consolidated Plan needs and objectives. The CDBG/ESG Public Services NOFA schedule will align with the development of each year's Annual Action Plan (see Section 7.2 above for information about each year's NOFA schedule).

10.1.2. With respect to Public Service funding, the City of Modesto will make available up to fifteen percent (15%) of the total CDBG allocation for the program year for Public Services.

10.1.3. For ESG award purposes, the City of Modesto will competitively award 82.5% of the ESG allocation for the program year to Homeless Service Providers and 10% to HMIS eligible activities. The remaining 7.5% of the ESG allocation will be used for ESG City of Modesto administrative purposes in accordance with ESG regulations.

10.2. Solicitation of Applications for CDBG Funds

10.2.1. In order to ensure maximum participation, the City of Modesto will issue a Notice of Funding Availability (NOFA) and distribute via email to established email groups, mail, and/or the City of Modesto's website. Whenever necessary, the

City of Modesto may publish notices in the local newspaper (The Modesto Bee/Vida en el Valle) and/or issue a press release to the local media.

10.2.2. Prospective applicants shall pay close attention to the NOFA Guidelines when preparing their project proposal/application. The NOFA Guidelines will include key information including but not limited to eligible activities, eligible applicants, organizational capacity, consistency with Consolidated Plan, and Evaluation Criteria. Further, the NOFA Guidelines will provide a calendar of events that will include the following information: Application Period, Mandatory Technical Workshop, Application Deadline, Proposal Presentations, Public Comment Period Opening, Public Comment Period Closing, and Annual Action Plan Submittal to HUD.

10.3. Application Requirements

10.3.1. Applicants must apply for funds during the open application period using a web-based application program (e.g. - ZoomGrants™) as indicated by the City of Modesto. All applicants must submit a Master application detailing the proposed program, goals, measurable objectives and agency/program finances.

10.3.2. As part of the application packet, all applicants must submit sufficient documentation within the various required exhibits to substantiate the applicant's ability to comply with the stringent CDBG requirements if an award is granted.

10.3.3. All applicants must submit all requested documents within the web-based system including but not limited to the documents listed in this section. Any application lacking the following documentation and/or the criteria described for each will be considered incomplete and may be disqualified from the application process:

10.3.3.1. **Completed Web-Based Application**: All questions must be completed in their entirety.

10.3.3.2. **Executive Summary**: Executive summary of project proposal. Must include detailed information about the project purpose, target population, service area, proposed objectives, performance indicators, proposed outcomes. The executive summary must discuss the level of involvement and agency's role within the Focus on Prevention efforts as well as the level of coordination with other service providers to reduce duplication of services.

10.3.3.3. **Board of Directors Agenda and Minutes:** Board of Directors minutes must specifically authorize applicant to submit an application to the City

of Modesto and specify application type (i.e. CDBG/ESG/HOME). In compliance with internal control requirements per 24 CFR 85.20(b)(3)to(b)(6) and 84.21(a)(3), Board of Directors must not include members acting as staff or in any other capacity that may be perceived as a conflict of interest.

10.3.3.4. **Articles of Incorporation:** Articles of Incorporation Stamped by the Secretary of State of the State of California.

10.3.3.5. **Organization By-Laws:** Organization By-Laws (with Secretary's Certificate/Signature).

10.3.3.6. **California Franchise Tax Board Tax Exempt Status Letter**

10.3.3.7. **Internal Revenue Service (IRS) Federal Tax-Exempt Status Letter**

10.3.3.8. **Certified Audit and/or Financial Statement (most recent):** Must be prepared by a Certified Public Accountant/Independent Auditor.

10.3.3.9. **IRS 990:** IRS 990 Tax Return for the most recently ended fiscal year. If the 990 Tax Return has not been completed by the time of the open Application Period, applicant can submit a copy of their extension form.

10.3.3.10. **City of Modesto Business License:** Business License must be current and its use must comply with City of Modesto Municipal Code of Ordinances.

10.3.3.11. **Organization Chart:** Most recent/updated organizational chart.

10.3.3.12. **Board of Directors Roster:** Most recent/updated Board of Directors roster.

10.3.3.13. **Certifications/Fingerprinting Clearance:** All CDBG/ESG funded staff working with children must be fingerprinted. Provide copies of applicable licenses, evidence of fingerprinting clearance, if applicable, and/or certifications pertaining to the project or component that will use CDBG/ESG funds.

10.3.3.14. **NEPA Environmental Review Form:** Completed NEPA environmental review form with original signature.

10.3.3.15. **Fee Schedule (if applicable):** Charging fees is generally discouraged when program is funded by CDBG/ESG. If fees are charged, provide a

copy of fee schedule. Failure to submit the fee schedule for a fee-based project will render application as disqualified.

10.3.3.16. **Site Control Documentation:** Documentation/evidence of site control (i.e. lease, MOU, or other form of legal agreement). Evidence of site control must be current and meet the current City business permitting guidelines.

10.3.3.17. **Service Area Map:** If the project provides service on an area basis, attach a map showing the area to be served that includes the eligible Census Tracts and Block Groups being served.

10.3.3.18. **Staff Resumes:** Copies of resumes for program staff who will be involved in operating/implementing the CDBG/ESG program.

10.3.3.19. **Proof of Insurance:** Copy of evidence of insurance as required by the City of Modesto. If awarded, insurance requirements must be met as outlined on the templates provided.

10.3.3.20. **Disclosure of City Relationships:** List any employees or board members of the applicant agency who are elected official, appointed members of a City of Modesto Commission/Committee, or a City employee if applicable. If not applicable, upload a note on company letterhead indicating "Not Applicable".

10.3.3.21. **Professional References:** Provide contact information of three (3) partner agencies, non-profits, service providers, or public/private agencies. Any letters of support must be dated within the last 30 days.

10.3.3.22. **Budget Detail and Support:** If needed, provide additional budget detail and supporting documentation for costs and sources of funds. This may be used to further support/explain the proposed program budget. If not applicable, upload a note on company letterhead indicating "Not Applicable".

10.4. Technical Assistance to Applicants

10.4.1. A mandatory Application Orientation/Technical Assistance workshop is held for all prospective applicants each year. The purpose of the workshop is to explain the NOFA Guidelines, any program changes, the application process, and answer any questions relating to funding requirements, criteria, and priorities.

10.4.2. Community Development Programs staff will present and answer questions on program guidelines, applicant and activity eligibility requirements, the National Objectives for the programs, local objectives and priority activities in the City's five-year Consolidated Plan, and application requirements.

10.4.3. Staff will be available for technical assistance from the beginning of the application period until 4:00 p.m. on the deadline date for submission.

10.5. Technical Review of Applications by City Staff

10.5.1. City of Modesto staff will conduct a technical review of all applications upon submission to ensure that:

10.5.1.1. Applications are complete;

10.5.1.2. Program proposal meets one of the CDBG National Objectives; and

10.5.1.3. Consistency with City of Modesto Consolidated Plan

10.5.2. The technical review will include a review of the applicant organization to ensure that the applicant is an eligible nonprofit organization. This will generally be determined by

10.5.2.1. Reviewing the documentation within the various required exhibits to substantiate the applicant's ability to comply with the stringent CDBG requirements if an award is granted.

10.5.2.2. Ensuring that the applicant is not excluded from conducting business with any federal agency by conducting a search on the federal System for Award Management website at www.sam.gov.

10.5.3. Upon technical review completion, City of Modesto staff will notify the applicant and provide an opportunity correct any errors or omissions on their application. Applicants will be given a specific timeframe to make corrections and finalize application. After the final deadline, further access to the application by the applicant will be blocked.

10.5.4. City staff will provide a technical review summary to the Application Review Committee that will reflect applicant responsiveness to application requirements.

10.6. Application Review Committee: Citizens Housing and Community Development Sub-Committee (CHCDC)

10.6.1. A subcommittee composed of five (5) members of the Citizens Housing and Community Development Committee (CHCDC) will act as the Application Review

Committee. The Application Review Committee will review and score all application submissions.

10.6.2. CHCDC members may volunteer or be appointed by the Chairperson of the CHCDC to the Application Review Committee.

10.6.3. The Application Review Committee shall review applications thoroughly and shall evaluate the proposals on the basis of:

10.6.4. Past Performance, if funded in previous years. City Staff will provide past performance reports to the Application Review Committee which will include but will not be limited to:

10.6.4.1. The amount of CDBG/ESG funds received by an applicant organization from the City in the past three (3) years, if any;

10.6.4.2. The extent to which previously-funded organizations have met program objectives, satisfied contract obligations, and expended allocated funds in an efficient, appropriate and timely manner;

10.6.4.3. Information provided in the application;

10.6.4.4. Information provided in the applicant presentation/interview;

10.6.4.5. Rating Criteria;

10.6.5. Application Review Committee members judge applications solely on the merits of the application and the objective criteria. Members should not be influenced by their personal convictions or viewpoints. If a member feels that she/he cannot judge an application fairly and impartially, conflict of interest provisions as discussed in this manual shall apply.

10.7. Conflict of Interest Declarations

10.7.1. Before discussion of applicant organizations and agencies, Application Review Committee members shall declare relationships, if any, with applicant organizations or persons associated with the applicants.

10.7.2. This may include:

10.7.2.1. Serving as a Board member of or volunteer in an applicant agency or organization;

10.7.2.2. Membership or participant in activities of an applicant agency or organization;

10.7.2.3. Direct contributor to an applicant agency or program;

10.7.2.4. Beneficiary of the activities or services of an application agency or program; and

10.7.2.5. Any connection with the applicant that would constitute or that could be perceived to constitute a conflict of interest.

10.7.3. When a member has a perceived or real conflict of interest with an applicant organization, the member shall refrain from ranking the application and shall withdraw from the interview with the applicant and any discussion of the merits of the application.

10.7.4. Members shall also declare any personal interest in an organization that is in direct competition with an applicant organization that may cause them to rank the application other than strictly on the merits of the application.

10.7.5. Committee members who have been involved with the preparation of an application shall withdraw from consideration of that application.

10.8. Applicant Presentation/Interviews

10.8.1. Applicants will have the opportunity to provide a 10-minute presentation before the Application Review Committee to explain their proposed program and funding request.

10.8.2. Following the applicant presentation, there will be a five (5) minute question and answer period. While questions will be primarily driven by the Application Review Committee, City program staff may also ask clarifying questions relevant to the application proposal to further assist the Application Review Committee in the proposal evaluation.

10.8.3. Following the five (5) minute question and answer period, the Application Review Committee will have 5 minutest to score the proposal and prepare for the following presentation.

10.8.4. Time will be strictly enforced as feasibly possible to be fair to all participants and to stay on schedule.

10.9. Rating Criteria

10.9.1. Upon reviewing and conducting application presentation and interview, the Application Review Committee will use an application scoring sheet prepared by CEDD staff that include the following rating factors to objectively evaluate and score each application proposal

10.9.1.1. URGENCY/PERSISTENCE OF NEED

10.9.1.2. DESIGN

10.9.1.3. BUDGET/FINANCIAL MANAGEMENT CAPACITY

10.9.1.4. FUND DEVELOPMENT

10.9.1.5. COLLABORATION

10.9.2. Specific criteria definitions will be provided within the Notice of Funding Availability Guidelines released annually.

10.9.3. From time to time, there may be a need to incorporate additional application scoring criteria corresponding to local initiatives or special programs (i.e. bonus points for applicant willingness to carry out special program components). In every case, the NOFA Guidelines will specify if additional criteria applies and will be disclosed during the Mandatory Technical Workshop.

10.10. Application Review Committee Funding Recommendations

10.10.1. At the conclusion of Application Review Committee's rating of all applications, City staff will compile scoring results and will share scoring results with the Application Review Committee on the same day.

10.10.2. All applications with a score of 70 points or greater will be funded by multiplying the amount requested times the application score, as a percent [i.e. Amount requested = $30,000; Score = 92.2 ($30,000 x 92.2% = $27,660)]. This method will be applied beginning with the highest score down to the 70 point mark or until funds are exhausted.

10.10.3. Any remaining funds after the 70 point score threshold will be used to fund Community Based Public Service needs identified by community groups and relayed to City staff during community meetings/ Citizen Participation outreach process.

10.10.4. Draft scoring and funding results will be presented to the CHCDC at the monthly meeting following the Applicant Presentations/Interviews.

10.10.5. The CHCDC will deliberate on the Subcommittee's recommendations. Final recommendations will be approved by majority vote. City staff will present these CHCDC recommendations to Modesto City Council, which will ultimately determine funding awards.

10.10.6. In years when CDBG entitlement amount is not known, an estimated amount will be used. The amount of funds awarded may be adjusted per City Council-approved contingency plan. This plan will be utilized when the CDBG entitlement differs from the estimate. The plan ensures the City does not exceed the fifteen percent (15%) public services cap.

10.11. CDBG/ESG Public Service Award and Denial Notification and Appeal Process

10.11.1. CDBG/ESG applicants will be notified in writing of the Application Review Committee funding recommendations upon release of the Draft Annual Action Plan. The written notification will provide each applicant application rank and score information and whether or not application will be recommended for funding.

10.11.2. Appeal Process

10.11.2.1. Any applicant that maintains its proposal has been wrongly determined to be ineligible may submit a written response to the Community Development Manager within seven (7) business days of notification. The written response must include specific details that address/cure the ineligibility determination(s) issued.

10.11.2.2. City Staff will schedule an in person meeting (Technical Assistance) with applicant representatives to discuss the factors/compliance issues that have deemed the application ineligible in the view of the Application Review Committee. City Staff will use this opportunity to provide technical assistance to be considered by the applicant in future funding cycles. After meeting with the applicant, staff will confirm the discussion in writing by sending a follow up letter outlining the Technical Assistance points of discussion.

10.11.2.3. This appeal process does not provide an opportunity to revise proposals, nor does it guarantee that determinations will be overturned.

10.12. Public Participation and City Council Action

10.12.1. Responsibility for the appropriation of all CDBG/ESG funds resides with the City Council, which considers the advisory input of the CHCDC, however HUD regulations require a certain level of public participation. Public participation will be accomplished through a series of public meetings and an opportunity for public comment on the annual Action Plan prior to the submission of the plan to HUD. The City will follow its Citizen Participation Plan to comply with HUD Citizen Participation requirements.

11. Subpart K – Other Program Requirements

11.1. Subpart K sets forth certain additional program requirements which are determined to be applicable to CDBG grants provided as a matter of administrative discretion. The Community Development Programs Staff shall incorporate the following additional program requirements as per § 570.600 through § 570.614 as applicable.

11.2. Affirmatively Furthering Fair Housing/Non-discrimination

11.2.1. § 570.601

11.2.2. The City as a recipient of CDBG funds shall ensure that subrecipients comply with Title VI of the Civil Rights Act of 1964 (prohibiting race, color, and national origin discrimination including language access for limited English proficient persons), Section 504 of the Rehabilitation Act of 1973 (prohibiting disability discrimination), Title IX of the Education Amendments of 1972 (prohibiting sex discrimination in education and training programs), the Age Discrimination Act of 1975 (prohibiting age discrimination in the provision of services), and a variety of program-specific statutes with nondiscrimination requirements.

11.2.3. Programs may target particular groups for services without violating guidelines regarding equal access to services, so long as any member of the particular group - e.g., any senior for a senior services program, any school-age child for a neighborhood-based afterschool program - is able to participate in the program.

11.2.4. The City shall ensure that provisions of Executive Order No. 11246 of September 24, 1965, as amended, regarding Equal Employment Opportunity are carried out on all CDBG funded projects or activities, and that subrecipients agree to and abide by federal (FHEO) and state (CA DFEH) fair housing and equal opportunity requirements for non-discrimination with regard to access to services or housing provided by a subrecipient.

11.2.5. The City will further ensure that provisions of Executive Order 13166, "Improving Access to Services by Persons with Limited English Proficiency," are carried out by subrecipients to improve access to CPD programs and activities by eligible persons with limited English proficiency (LEP).

11.3. Section 109 - Prohibitions against Discrimination

11.3.1. § 570.602

11.3.2. The City and all subrecipients shall adhere to Section 109 of the Act which requires that no person in the United States shall on the grounds of race, color, national origin, religion, or sex be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance made available pursuant to the Act. Section

109 also directs that the prohibitions against discrimination on the basis of age under the Age Discrimination Act and the prohibitions against discrimination on the basis of disability under Section 504 shall apply to programs or activities receiving Federal financial assistance under Title I programs.

11.4. Labor Standards

11.4.1. § 570.603

11.4.2. Whenever CDBG funds in excess of $2,000 are allocated for construction projects (excluding homeowner occupied residential rehabilitation and first-time homebuyer activities), the City, subrecipient and any contractor(s) shall abide by requirements of Davis Bacon and Related Acts (DBRA) for prevailing wages and of Section 3 economic opportunities for low and very low-income persons. The City shall provide appropriate guidance to both subrecipient and contractor regarding DBRA requirements, including wage determinations, and Section 3 requirements as applicable to all CDBG-funded projects.

11.4.3. Labor Standards Enforcement

11.4.3.1. The City of Modesto Community Development Division has developed Federal Labor Standards Enforcement Guidelines. These guidelines will be provided to the respective City Department, subrecipient, or contractor responsible for contract oversight. The Federal Labor Standards Enforcement Guidelines will be enforced throughout the implementation of any applicable HUD funded activities by City of Modesto Community Development Division staff.

11.5. Environmental Review

11.5.1. 24 CFR part 58 § 570.605 § 570.604

11.5.1.1. The environmental review procedures set forth at 24 CFR part 58 must be completed for each activity (or project as defined in 24 CFR part 58), as applicable. Contracts will not be executed with subrecipients and expenditures for City-managed projects will not be approved until environmental review is complete. State (CEQA) environmental regulations requirements will also be considered. Environmental review forms and documents must be signed by the appropriate staff preparing the environmental review and the Certifying Officer.

11.5.1.2. The City will ensure that all *Finding of No Significant Impact* (FONSI) and *Request for Release of Funds* (RROF) requirements are completed for

capital improvement projects and housing rehabilitation projects prior to initiation of project activities.

11.6. Citizen Participation

11.6.1. Throughout the implementation of HUD grant programs, the City of Modesto will comply with all Citizen Participation plan requirements to ensure proper public noticing, citizen participation, and public hearings are conducted. The City of Modesto's Citizen Participation Plan may be found at https://www.modestogov.com/1848/Publications-Reports.

11.7. Relocation

11.7.1. §570.606

11.7.1.1. In the event of any temporary or permanent relocation of residents or businesses as a result of CDBG-funded activity, the City will follow § 570.606 - Displacement, relocation, acquisition, and replacement of housing as applicable and/or its Relocation Plan as set forth in the Citizen Participation Plan. The Plan shall be updated as needed to adhere to HUD Handbook 1378, *Real Estate Acquisition and Relocation Policy and Guidance.*

11.8. ADA Requirements

11.8.1. The City will abide by HUD regulations in Section 504, HUD's implementation of the American with Disabilities Act, to ensure that no qualified individual with a disability should, only by reason of his or her disability, be excluded from the participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving CDBG funds. The City will include monitoring for Section 504 compliance as part of the annual monitoring of HUD Entitlement funded programs/projects. Monitoring will include inspection of facilities in which CDBG- funded program are offered to ensure that the facilities are accessible to persons with disabilities.

11.9. Financial Management

11.9.1. Subrecipients will be paid on a reimbursement basis upon receipt of a Request for Funds reimbursement form with all supporting documentation.

11.9.2. Reimbursement of funds to contractors for capital projects will be paid directly to the contractor or vendor.

11.9.3. Reimbursement payments will be made only upon presentation of invoices from the contractor or vendor and approved for payment by the Community Development Program Staff responsible for Labor Standards review.

11.9.4. Final payments to subrecipients will be made only upon submission of final program reports that document the achievement of program goals and satisfactory completion of the CDBG-funded activity.

11.9.5. Each request for payment must have adequate documentation for the costs incurred such as payroll records, purchase orders, copies of canceled checks, timesheets reflecting time spent directly on CDBG activities, etc. Requests must be only for costs directly related to the approved activity and included in the approved budget attached to the contract.

11.9.6. Subrecipients may not use CDBG funds for general administrative costs or "overhead" costs, unless the subrecipient has established a cost allocation for such costs, applicable to all subrecipient activities regardless of funding source.

11.9.7. Subrecipients will be required to submit requests for reimbursement on a quarterly basis, unless otherwise approved by Community Development Division staff.

11.9.8. The City will not request CDBG funds in advance or as "float" funds from the U.S. Treasury.

11.10. HMIS Participation

11.10.1. CDBG/ESG-funded projects designed to assist persons experiencing homelessness or designed to prevent homelessness are required to participate in the Homeless Management Information System (HMIS) of the Stanislaus County Continuum of Care (CoC) and regularly attend CoC meetings and participate in CoC related matters. Furthermore, subrecipients are required to execute an HMIS Data Sharing Agreement to share HMIS Universal Data Elements to more effectively utilize and enhance HMIS data quality.

11.11. CDBG Sponsored Identification Requirement

11.11.1. Sub-recipients and subcontractors receiving CDBG funds from the City of Modesto shall ensure that all CDBG-funded programs and activities are clearly identified to participants and the public as those of the CDBG program, and that these programs and activities do not appear to be an extension of the programs and activities of any private organization or public institution. To comply with this requirement, a notification to be worded as follows shall be clearly posted or otherwise displayed: "This project is funded in whole or in part with Community Development Block Grant (CDBG) Program funds provided by the U.S. Department of Housing and Urban Development (HUD).

11.12. Section 3 Compliance

11.12.1. The requirements for Section 3 of the Housing and Urban Development Act of 1968, as amended (Section 3) applies to capital projects and housing development projects that exceed $200,000 in HUD funding. Subcontractors receiving an excess of $100,000 from projects required to comply with Section 3 shall also be required to comply with Section 3 requirements. These requirements are listed in the CDBG Agreement.

11.13. Single Audit Report (SAR) compliance

11.13.1. The City of Modesto will ensure any corrective action plans identified as a result of any Single Audits are carried out in accordance with the Single Audit Act.

11.13.1.1. To comply with corrective action plans, the City will develop a table listing of corrective actions identified with the respective finding number, list of planned corrective actions, identify an anticipated completion date, and identify a responsible contact person.

12. Monitoring of Subrecipients

12.1. The City of Modesto (the recipient) and its subrecipients must have written policies and procedures to ensure that CDBG, HOME, and ESG funds are used in accordance with HUD requirements and sufficient records to enable HUD, and the recipient to determine whether ESG requirements are being met. [24 CFR 576.500(a)]

12.2. As the lead agency for HUD Entitlement funds, the City of Modesto will monitor all subrecipients on a regular basis through written contacts, phone conversations, electronic information transfers, face-to-face monitoring visits (at least once annually), and project file review, pursuant to applicable regulation.

12.3. Monitoring will be conducted to ensure statutory and regulatory requirements are being met and that information submitted to City of Modesto is accurate and complete.

12.4. Monitoring will normally be conducted utilizing a three (3) tiered approach, depending upon the risk involved:

12.4.1. Limited Review

12.4.1.1. A limited review will be conducted of all subrecipients and projects on an annual basis. The timing of this monitoring will be in alignment with an

organization's submittal of a Quarterly Performance Report and an Invoice for Payment for expenses incurred against their City grant over the previous 90 days.

12.4.1.2. At least one quarter review will focus on the year-end financial statement or audit, and where applicable, the Single Audit. If the Single Audit contains audit findings or contains a management letter, the subrecipient will be selected for an in depth review. The goal of a Limited Review is to provide clarification to a specific unknown submission that cannot be determined from the subrecipient reports, and to identify areas of technical assistance needed by each subrecipient.

12.4.2. On-Site Monitoring Review

12.4.2.1. An on-site monitoring review will be a site visit to a subrecipient program assisted with HUD funds and will achieve a balance between programmatic and fiscal reviews, and much documentation review can be done prior to the on-site visit. The on-site monitoring includes a tour of the program facilities as appropriate, an explanation of the services provided, discussions with program and administrative staff, and introduction to one or more actual beneficiaries, if possible. As a result of this visit, staff will determine whether an in-depth review is needed for further clarification of one or more issues identified during the on-site visit.

12.4.2.2. ***A Program review*** will focus on the specific subrecipient program activities. Program staff may be asked to define the strategic plans for the related programs and, as applicable, how those plans are used to help clients in those programs.

12.4.2.3. ***A Financial review*** will make the connections between the program budget, expenditures and actual beneficiaries assisted, including evidence of case managers time in client files, reviewing payroll documents for the period clients are reported, determining eligibility of clients based on income documentation in client files, the general relationship between the contents of client files (excluding Attorney Client or HIPAA confidential data) and benefit data reported by the subrecipient on the same clients.

12.4.2.4. ***The number of case files*** to be reviewed will reflect approximately 10% of

the total clients served in the program, or more if there appear to be any systemic issues that need to be addressed.

12.4.2.5. ***Invoices*** may be randomly selected for review and traced back from City reimbursement to the original organization's advance expenditure and client assisted (if appropriate). For example, exact dollars billed for housing accessibility modifications can be traced directly to one client. Conversely, a different review model is required when dollars billed provided case management for multiple homeless individuals. It is expected that staff will review original invoices, cancelled checks, and other such documentation evidencing the expenditure, the relationship to the CDBG program objective, the appropriate proportion of CDBG expenditure in comparison to other funding, and accounting receipt of the federal grant funds.

12.4.3. In-Depth Review

12.4.4. An in-depth review will be a concentrated and focused review around a particular activity or program area. This will typically be a concentrated review of a known high-risk area or critical function, such as but not limited to:

12.4.4.1.1. Financial review for expenditures for ineligible activities,

12.4.4.1.2. Financial review for expenditures that cannot be traced through supporting documentation,

12.4.4.1.3. A program which requires donations as a condition of receiving service,

12.4.4.1.4. Management practices in affordable housing,

12.4.4.1.5. Section 504 and ADA compliance reviews upon receipt of a complaint from a person with disabilities,

12.4.4.1.6. A fair housing complaint from a home seeker treated differently while trying to obtain housing from the subrecipient,

12.4.4.1.7. Denial of services for no valid reason, or

12.4.4.1.8. Failure to meet prevailing wage requirements in construction activities subject to Davis Bacon, etc.

12.5. Administrative Process for Monitoring

12.5.1. Monitoring will be conducted in two phases. File review will generally confirm compliance with reporting requirements, financial submittals, and contract provisions and much of it will be completed prior to the onsite visit. On-site reviews will focus more on the beneficiary documentation and services provided,

including quantitative performance outcomes to local and federal objectives, and financial processes and documentation only available at the program site.

12.5.2. Staff will use the risk analysis criteria identified in Section 12.4 to determine the type of monitoring approach for each subrecipient. Upon the arrangement of mutual date and time with the subrecipient, staff will send letters at least two (2) weeks in advance of the date the monitoring is to be held. The monitoring policies and checklist may be provided to the subrecipient and the letter may emphasize any specific areas of compliance to be reviewed and how files will be selected for review, as applicable.

12.5.3. At the conclusion of the monitoring visit, staff will send each subrecipient written documentation of the site visit, summarizing what was reviewed, and indicating any findings of regulatory non-compliance or concerns of program weaknesses. Additionally, staff will provide technical assistance to correct any deficiencies noted, and will acknowledge the performance level of the program, and whether they will either meet or fall short of contract goals.

12.6. Findings, Concerns & Noncompliance

12.6.1. Findings

12.6.1.1. Where an identified deficiency results in a finding of non-compliance with CDBG/ESG rules, the finding will be communicated to the subrecipient citing the finding/violation, regulatory or statutory requirement not met, and the corrective action with a deadline.

12.6.1.2. The monitoring letter should also provide timelines for response and corrections, as well as actions the City may take if the subrecipient fails to make corrections in a timely manner.

12.6.2. Concerns

12.6.2.1. Monitoring concerns will be brought to the subrecipient's attention. City staff will suggest or recommend actions that the subrecipient may take to address a concern, based on sound management principles or other guidelines. Corrective actions are not ***required*** for concerns; however City staff may offer specific recommendations and/or requests for improvement. Non-responsiveness to these concerns may impact current and future funding recommendations.

12.6.3. Actions for Non-Compliance

12.6.3.1. Subrecipients who are found to be in non-compliance and receive a finding as a result of their monitoring will be provided with technical assistance towards resolution, and actions taken by the City to achieve compliance may include, but not be limited to, withholding further disbursements of CDBG funds until satisfactory compliance with applicable regulations are achieved.

12.6.3.2. City staff will offer technical assistance to subrecipients when monitoring indicates less than complete compliance with CDBG regulations or contract requirements. Such assistance may include, but is not limited to, providing applicable copies of Office of Management and Budget (OMB) circulars, in particular OMB Circular No. A-122 *Cost Principles for Nonprofit Organizations.* In addition, the latest edition of *Playing by the Rules* guidance for CDBG subrecipients may be provided.

13. CDBG Timeliness

13.1. Entitlement jurisdictions that receive CDBG funds, such as the City of Modesto, are required to use CDBG funds in a timely manner. Per 24 CFR 570.902, the HUD standard requires that entitlement jurisdictions not have more than 1.5 of its annual grant in its line of credit 60 days prior to the close of the program year. That date is April 30th for the City of Modesto.

13.2. The penalty for noncompliance may include sanctions, such as the loss of future CDBG funding. As such, CDBG funds are subject to reprogramming by the City if a City Project or sub-recipient activity is no longer feasible and/or there is lack of activity and expenses within the first six months of the date of the allocation.

14. Playing by the Rules Handbook

14.1. Sub-recipients receiving CDBG funds shall adhere to all other requirements set forth in the Playing by Rules Handbook, as provided through the City of Modesto's CDBG Program: https://www.hudexchange.info/resource/687/playing-by-the-rules-a-handbook-for-cdbg-subrecipients-on-administrative-systems/

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-428

RESOLUTION APPROVING THE ADDITION OF SECTION 16 TO THE HOUSING AND URBAN DEVELOPMENT POLICIES & PROCEDURES MANUAL (FOUR FACTOR ANALYSIS FOR LIMITED ENGLISH PROFICIENT PERSONS- LANGUAGE ASSISTANCE PLAN POLICY)

WHEREAS, on October 25, 2016, by Resolution No. 2016-425, the City Council consolidated all Housing and Urban Development policies & procedures into one comprehensive manual entitled Housing and Urban Development Policies & Procedures Manual (HUD Policies & Procedures Manual), and

WHEREAS The City is an entitlement jurisdiction and receives various grants funds from the U.S. Department of Housing and Urban Development (HUD), and

WHEREAS, in May 2014, the HUD Office of Fair Housing an Equal Opportunity (HUD FHEO) conducted an on-site review of the City's Community Development Block Grant (CDBG), Home Investment Partnerships (HOME), and Neighborhood Stabilization (NSP) programs to determine if the programs were administered in compliance with the nondiscrimination provisions of Section 109; Title VI of the Civil Rights Act of 1964, as amended; Section 504 of the Rehabilitation Act of 1973, as amended; and Title VIII of the Civil Rights Act of 1968, as amended (Federal Regulations), and

WHEREAS, the review disclosed that while the City was administering the program in general compliance with Federal Regulations, it was in preliminary non-compliance with several Federal Requirements including, but not limited, to citizen participation requirements relating to meeting the needs of Limited English Proficient persons, and

WHEREAS, On June 24, 2015, the City and HUD FHEO entered into a Voluntary Compliance Agreement which outlined items the City needed to address to be

in compliance with the Federal Regulations. Many of the concerns outlined in the Voluntary Compliance Agreement have been resolved through amendments to existing policies & procedures or through administrative procedural changes, and

WHEREAS, HUD FHEO requested the City develop a Language Assistance Plan Policy which sets forth an outreach plan to notify Limited English Proficient persons of public hearings and comment periods, the availability of interpreter services and the availability of translation of vital documents necessary for applying to and participating in HUD-funded programs, and

WHEREAS, to address these concerns, staff has prepared a Four Factor Analysis for Limited English Proficient Persons -Language Assistance Plan Policy (LAP Policy), which is attached hereto as **Exhibit** A, and

WHEREAS, Staff will forward the LAP Policy to the HUD FHEO for review and comment, and

WHEREAS, any minor/non-substantial changes recommended by the HUD FHEO will be considered administrative changes and will not require further Council approval, however any substantial recommended by the HUD FHEO will require additional committee and Council consideration, and

WHEREAS, on October 12, 2017, the Citizen's Housing and Community Development Committee reviewed, approved and forwarded the proposed amended Section 16 (Four Factor Analysis for Limited English Proficient Persons and Language Assistance Plan) to the City Council for review and approval.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto hereby approves the addition of Section 16 of the Housing and Urban Development

Policies & Procedures Manual (Four Factor Analysis for Limited English Proficient Persons and Language Assistance Plan) as set forth in **Exhibit A**, which is attached hereto and incorporated by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold
NOES:	Councilmembers:	None
ABSENT:	Councilmembers:	None

City of Modesto City Council Approved by Resolution 2016-425 on October 25, 2016

EQUAL HOUSING OPPORTUNITY

CITY OF MODESTO
FOUR FACTOR ANALYSIS FOR LIMITED ENGLISH PROFICIENT PERSONS
AND
LANGUAGE ASSISTANCE PLAN

(October 2017)

---

1. FOUR FACTOR ANALYSIS FOR LIMITED ENGLISH PROFICIENT PERSONS

1.1. In order to determine the needs of Limited English Proficient (LEP) persons in the jurisdiction of the City of Modesto (the City), the City conducted the following analysis defined by the U.S. Department of Housing and Urban Department (HUD):

2. Factor 1: Number or proportion of LEP persons served or encountered in the eligible service area:

2.1. The City obtained information from the U.S. Census Bureau's American Factfinder website, as recommended by HUD, to gather data about the City's overall population, as well as the population of LEP persons within the City and the primary languages spoken. The following results were obtained from the American Factfinder 2011-2015 American Community Survey 5-Year Estimates.

2.2.

Total Population 5 years and Over:	192,811
Total LEP Population 18 Years and Over:	23,121
Spanish Speaking LEP Population 18 Years and Over:	15,347
Asian and Pacific Island Languages 18 Years and Over:	3,488
Other Indo-European Language Speaking LEP Population 18 Years and Over:	2,347
Other LEP Speaking Population 18 Years and Over:	1,939

2.3. The above data demonstrates that approximately 66% (15,347) of the City's LEP population is Spanish Speaking. This language group is the only one that meets the 1,000 or 5% requirement for written translation services as described in the Language Assistance Plan (LAP).

Draft

2.4. The next largest LEP population group is Asian and Pacific Island Languages which constitutes approximately 15% (3,488) of the City's LEP population. The Asian and Pacific Islander group consists of a combination of many different languages including, but not limited to, Chinese, Vietnamese, Hmong, Urdu, Bengali, and Korean. According to the U.S. Department of Education, the 3 most common Asian and Pacific Islander languages in the U.S., for which data was collected and reported, are Chinese, Vietnamese, and Hmong. According to the Statistical Atlas, in 2015 there were 962 Chinese LEP persons, 385 Vietnamese LEP persons, and 164 Hmong LEP persons in the City.

2.5. The next LEP population constitutes 10% (2,347) which consists of Indo-European language speakers. This population includes, but is not limited to, Albanian, Armenian, Baltic, Slavic, Germanic, and Greek.

2.6. It is not known what languages were categorized under the "Other LEP speaking population."

3. **Factor 2: Frequency with which LEP persons come into contact with the program:**

3.1. A review of the frequency of LEP persons contacting the City for the covered HUD housing programs revealed that approximately 4 out of 10 persons contacting the City were Spanish speaking. There were no records of any other language group contacting the City for the same programs.

3.2. The City's Community Development Division includes staff who speak Spanish and regularly provide oral interpretation services to customers who access the City's housing programs.

4. **Factor 3: Nature and importance of the program, activity, or service provided by the program:**

4.1. The services provided by the City's Community Development Division provide affordable housing opportunities via homebuyer assistance and owner occupied housing rehabilitation. These programs directly address General Plan/Housing Element goals as well as state and federal housing requirements.

5. **Factor 4: Available resources and costs to the City:**

5.1. Because the City has Spanish speaking staff, it is cost effective for the City to provide Spanish language translation of vital documents.

5.2. The City will utilize any documents provided by HUD in languages other than English.

5.3. The City will consider professional interpretation services to provide oral interpretation in languages other than Spanish, as needed.

Draft

6. LANGUAGE ASSISTANCE PLAN

6.1. Introduction

6.1.1. The City is committed to providing equal opportunity housing in a non-discriminatory manner, and to fully comply with all Federal, State and local nondiscrimination laws as well as with regulations governing Fair Housing and Equal Opportunity in housing and employment. This includes complying with Title VI of the Civil Rights Act of 1964 to ensure meaningful access to programs and activities by Limited English Proficient (LEP) persons.

6.1.2. The purpose of this LAP is to identify how the City will ensure its methods of administration will not have the effect of subjecting LEP persons to discrimination because of their national origin, and to ensure LEP persons have full access to City programs and services.

6.2. Who is LEP?

6.2.1. For purposes of this LAP, anyone whose primary language is not English, and has a limited ability to read, write, speak or understand English may be an LEP person.

6.2.2. The City will not identify anyone as an LEP person; the beneficiaries of the services and activities must identify themselves as an LEP person (Federal Register Vol. 72, No. 13, January 22, 2007).

6.3. Safe Harbor

6.3.1. "Safe Harbor" guidance provided by HUD states that written translations of vital documents should be provided for each eligible LEP language group that constitutes 1,000 or more of the eligible population in the market area or 5% of the eligible population.

6.3.2. It is important to note that the "Safe Harbor" concept only applies to the translation of documents. Failure to provide translation does not mean there is non-compliance. Oral interpretation may be an acceptable way of providing access when the translation of documents becomes so burdensome as to defeat the legitimate objectives of a program. Other considerations will be the importance of the service, benefit or activity, the nature of the information sought, and whether the proportion of the LEP persons served calls for written translations.

6.4. Service Area

6.4.1. The Service Area shall mean the Modesto City limits.

6.4.2. When considering written translations, the "Safe Harbor" evaluation will differ depending on the population the City is considering as follows:

6.4.3. When conducting outreach to the eligible population in the service area, the number and percentage of the eligible LEP population in the service area will be evaluated.

Draft

6.4.4. When working with program beneficiaries (i.e. applicants to City's housing programs), the number and percentage of LEP persons accessing the program will be evaluated.

6.5. Identification of Language Needs within the City

6.5.1. It was determined through review of the U.S. Census Bureau's American Fact Finder 2011-2015 American Community Survey 5-Year Estimates data, that the total LEP population 18 years of age and over in the City is 23,121.

6.5.2. Of the total LEP population, the largest LEP population is Spanish speaking with 15,347 (66% of LEP population) Spanish Speaking LEP persons.

6.5.3. A review of the frequency of LEP persons contacting the City for the covered HUD Housing programs revealed that approximately 4 out of 10 persons contacting the City within any given week were Spanish speaking. There were no records of any other language group contacting the City for the same programs.

6.5.4. To comply with the "Safe Harbor" rule, the City has determined that because there are more than 1,000 Spanish-speakers in the City who speak English less than very well, the City will translate vital documents into Spanish.

6.5.5. The next largest LEP population were persons who speak Asian and Pacific Islander languages (which consist of Chinese, Vietnamese, Hmong, Urdu, Bengali, and Korean among others) and identified themselves as speaking English "less than very well." This is a population of 3,488 or 15% of the overall LEP population. According to the U.S. Department of Education, the 3 most common Asian/Pacific Islander languages in the U.S. are Chinese, Vietnamese, and Hmong. According to the Statistical Atlas, in 2015 there were 962 Chinese LEP persons, 385 Vietnamese LEP persons and 164 Hmong LEP persons. The City has determined that because there are less than 1,000 people in each of the major Asian/Pacific Islander languages, the City will not translate vital documents into these languages. However, the City will provide oral interpretation as needed to LEP persons requesting such services.

6.5.6. The remaining LEP population consists of Indo-European language speaking and other LEP speaking populations for which data was not available. Written translation of vital documents into these languages will not be provided. The City will provide oral interpretation, as needed, to LEP persons requesting such services.

6.6. Written Translation

6.6.1. As stated above in Section V, the City has determined that because there are more than 1,000 *Spanish-speakers in the City who speak English less than very well, the City will translate vital documents into Spanish. As of the date of the adoption of this LAP, Spanish is the only language into which vital documents will be translated. This may subject to change upon updates of the LAP.

6.7. Vital Documents

6.7.1. HUD has defined "Vital Documents" to be those documents that are critical for ensuring meaningful access to the City's major activities and programs by beneficiaries generally and LEP persons specifically.

6.7.2. In general, the City will attempt to translate all letters sent to Spanish speaking program applicants who are identified as LEP. However, the following is a list of documents the City has determined to be Vital Documents and has committed to translating into or providing HUD-approved versions in Spanish:

6.8. Vital Documents

6.8.1. Public Hearing Notices related to Consolidated Plan, Annual Action Plan, Consolidated Annual Performance Evaluation Report, and Assessment of Fair Housing.

6.8.2. Homebuyer Assistance Program Application

6.8.3. Homebuyer Assistance Program Brochure

6.8.4. Homeowner Rehabilitation Program Application

6.8.5. Homeowner Rehabilitation Program Brochure

6.8.6. Annual Monitoring Notices

6.9. Oral Interpretation

6.9.1. The City will make every effort to provide oral interpretation for all its clients who have identified themselves as LEP persons and request services.

6.10. Bilingual Staff

6.10.1. The City's Community Development Division employs bilingual, Spanish-speaking staff in several positions, including program management. Currently, the City's Community Development Division has four full-time Spanish-speaking staff.

6.10.2. In addition, the City has access to other bilingual City employees, including numerous Spanish-speaking staff, as well as staff members who speak: Hindi, Laotian, Hmong, French, Khmer, and Cambodian.

6.10.3. Bilingual employees must pass a competency test in the respective language in order to be designated as a bilingual person. This test consists of an oral question and answer session conducted in an oral panel interview setting by Certified City employees.

6.11. Interpreter Services

6.11.1. When there is not a City staff person who speaks the LEP person's primary language, the City will seek interpretation through a professional interpreter service.

6.11.2. In the event the LEP person's primary language is not widely spoken and the City is unable to locate a suitable interpreter through a professional interpreter service, the City may resort to other methods such as seeking community volunteers.

6.11.3. As a last resort in cases where the City is unable to find an acceptable interpreter within a time frame to effectively assist the client, the City may use an online translation website in order to communicate via an in-office computer.

Draft

6.12. Informal Interpreters

6.12.1. The City will generally discourage the use of family members or other informal interpreters, but will allow the use of an interpreter of the LEP person's choosing (including family members or a professional interpreter at the LEP person's own expense) when the LEP person rejects the City's free language assistance services. The City will document the offer and the LEP person's subsequent rejection.

6.13. Staff Training

6.13.1. The City will provide a copy of this LAP to all existing and incoming staff, and will also provide training as to its contents and what is required under the policy.

6.14. Monitoring and Updating of This LAP

6.14.1. The City will review/revise this LAP on an as needed basis, but no less than every five years to ensure the populations of the various language groups within the jurisdiction and their needs are reflected in the provision of primary-language services.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-429

RESOLUTION APPROVING AN AGREEMENT WITH EMA, INC., TUCSON, AZ FOR CONSULTANT SERVICES FOR THE SCADA SYSTEM REPLACEMENT, IN AN AMOUNT NOT TO EXCEED $217,186 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS $21,178.60 FOR ADDITIONAL SERVICES (IF NEEDED), FOR A MAXIMUM TOTAL AMOUNT OF $238,364.60 AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the City uses a Supervisory Control and Data Acquisition (SCADA) System to operate over 200 water, wastewater, and stormwater facilities (including groundwater wells, tanks, wastewater treatment plant equipment, and lift stations), and

WHEREAS, the SCADA System is comprised of computer hardware, software and a telemetry system that is critical in controlling and delivering a safe drinking water supply to customers and helps in controlling the conveyance and treatment of the City's wastewater, and

WHEREAS, the SCADA system is over 20 years old and is at the end of its life-cycle, and

WHEREAS, SCADA improvements can be costly, prior to making any management decisions to upgrade or replace portions of the SCADA System, an independent review of its current capabilities, and a thorough assessment of current and anticipated SCADA needs is required, and

WHEREAS, in accordance with Administrative Directive 3.1, Selection Procedures for Professional Consultants Who Provide Architectural and Engineering Services for Capital Projects, a Request for Qualifications was sent out on July 31, 2015, and

WHEREAS, three non-local firms responded, but only two were deemed qualified to perform this type of specialized work. A Request for Proposals was sent out to the two qualified firms on October 9, 2015, and

WHEREAS, two proposals were received, and EMA, Inc., was selected as the most qualified firm to perform the work, and

WHEREAS, on June 7, 2016, by Resolution No. 2016-236, Council approved an agreement with EMA, Inc., to conduct a SCADA Upgrade Study, which was intended to independently review the existing SCADA system and recommend if the City needs to continue with the HSQ system or migrate to another SCADA system, and

WHEREAS, this study concluded that it is necessary for the City to migrate to another system to achieve the performance requirements of a functional, modern, and reliable SCADA system, and

WHEREAS, the remaining planning level work is generally within the scope of the original Request for Proposal, staff recommends retaining EMA, Inc., who was the most qualified consultant after solicitation per Administrative Directive 3.1, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with EMA, Inc., Tucson, AZ, for engineering services for the SCADA Master Plan project, in an amount not to exceed $217,186.00 for the identified scope of services, plus $21,178.60 for additional services, if needed, for a maximum total amount of $238,364.60.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-430

RESOLUTION APPROVING THE PLANS AND SPECIFICATIONS FOR THE LA LOMA PHASE 2B STRENGTHEN AND REPLACE WATER MAINS PROJECT, ACCEPTING THE BID, APPROVING A CONTRACT WITH D.A. WOOD CONSTRUCTION, INC., OF MODESTO, CA IN THE AMOUNT OF $3,749,000, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE CONTRACT

WHEREAS, specifications have been prepared for the La Loma Phase 2B Strengthen and Replace Water Mains Project , and City staff recommends approval by the City Council, and

WHEREAS, the bids received for the La Loma Phase 2B Strengthen and Replace Water Mains Project were opened at 11:00 a.m. on October 3, 2017 for the consideration of the Council, and

WHEREAS, the Director of Utilities has recommended that the bid of $3,749,000 received from D.A. Wood Construction, Inc., be accepted as the lowest responsible and responsive bid and the contract be awarded to D.A. Wood Construction, Inc.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the specifications for La Loma Phase 2B Strengthen and Replace Water Mains Project, accepts the bid of $3,749,000, and awards D.A. Wood Construction, Inc., the contract for the La Loma Phase 2B Strengthen and Replace Water Mains Project.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the contract, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-431

RESOLUTION AMENDING THE FISCAL YEAR 2017-18 CAPITAL IMPROVEMENT PROGRAM BUDGET IN THE AMOUNT OF $2,058,140 TO BE TRANSFERRED INTO WATER FUND RESERVES FROM 100797-UPP, ENGINEERING DESIGN "LA LOMA PHASE 2B STRENGTHEN AND REPLACE WATER MAINS"

WHEREAS, certain budgetary transactions are necessary in the amount of **$2,058,140.00** to be transferred into Water Fund Reserves, in order to fully fund the construction, contingency, construction administration, City construction forces and design support during construction for the project., and

WHEREAS, the Fiscal Year 2017-2018 Capital Improvement Program Budget must be amended as shown in **Exhibit A**, which is incorporated by reference herein.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the amendment of the Fiscal Year 2017-2018 Capital Improvement Program Budget as shown in **Exhibit A**, attached hereto.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

					($2,058,140)	100797	
					$2,058,140	101057	
					$0	Net Effect to Water Fund Reserves	

To account for the different phases of this CIP project, costs associated with La Loma Phase 2B will be tracked separately. A separate CIP has been created: 101057 – UPP.Engineering Design – "La Loma Phase 2C Strengthen and Replace Water Mains" for these improvements.

Thus, a budget adjustment is necessary to amend the Fiscal Year 2017-18 Capital Improvement Program (CIP) Budget. First, upon Council approval, $2,058,140 will be returned to Water Fund Reserves from CIP 100797. Second, $2,058,140 from Water Fund Reserves will be used to establish the budget for CIP 101057 to fund engineering design, bidding and future construction.

The net effect of which to the Water Fund Reserves will be $0.00.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-435

RESOLUTION APPROVING AN AGREEMENT WITH RMC, A WOODARD CURRAN COMPANY, FOR CLEAN WATER STATE REVOLVING FUND APPLICATION SERVICES FOR RIVER TRUNK REALIGNMENT PROJECT IN AN AMOUNT NOT TO EXCEED $49,546 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS $4,955 FOR ADDITIONAL SERVICES (IF NEEDED), FOR A MAXIMUM TOTAL AMOUNT OF $54,501 AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the River Trunk consists of a pipeline that ranges from 24 inches to 60 inches in diameter that conveys flow from the Beard Industrial Park to the Sutter Avenue Wastewater Treatment Plant, and

WHEREAS, the total length of the River Trunk is approximately five miles and conveys approximately 24 percent of the City's domestic wastewater flow, and

WHEREAS, the current location of the River Trunk, adjacent to the Tuolumne River, poses access limitations to operations staff and could be subject to catastrophic damage in the event of elevated river flows, and

WHEREAS, on April 1, 2014, by Resolution No. 2014-121, the City Council approved an agreement with Carollo Engineers, Inc. for preparation of a Preliminary Design Report, which serves as the basis of design for this project, and

WHEREAS, on March 22, 2016, by Resolution No. 2016-125, the City Council approved an agreement with Carollo Engineers, Inc. for preparation of Final Design Services to complete the design and construction documents for the project, and

WHEREAS, City staff has been researching funding options for wastewater projects, and

WHEREAS, the Clean Water State Revolving Fund is a loan assistance authority for water quality improvement projects and is administered by the State Water Resources Control Board, and

WHEREAS, Clean Water State Revolving Fund program is desirable because of its flexible term and low interest rate, and

WHEREAS, RMC a Woodard Curran Company is a well-respected firm that has a thorough understanding of the funding process, and

WHEREAS, RMC a Woodard Curran Company has successfully obtained over $180 million of state revolving fund loans for the City, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, this agreement is for professional services and therefore, exempt from the bid requirement, and

WHEREAS, however, staff still went through a RFP process pursuant to Administrative Directive 3.1., and

WHEREAS, staff recommends approval of the agreement with RMC a Woodard Curran Company for application services for the River Trunk Realignment project.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with RMC a Woodard Curran Company, Sacramento, CA, for application services for the River Trunk Realignment project, in an amount not to exceed $49,546 for the identified scope of services, plus $4,955 for additional services, if needed, for a maximum total amount of $54,501.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-436

RESOLUTION APPROVING THE APPLICATION OF MURPHY MEDICAL TRANSPORTATION, INC. AND ISSUING A PERMIT TO OPERATE AS A NON-EMERGENCY MEDICAL TRANSPORT COMPANY IN THE CITY OF MODESTO

WHEREAS, Murphy Medical Transportation, Inc. has submitted an application to provide non-emergency medical transport within the City of Modesto, and

WHEREAS, Murphy Medical Transportation, Inc. has paid the required $1,000 filing fee and has provided all necessary information as outlined in Modesto Municipal Code Section 3-9.03-3-9.04, and

WHEREAS, the Modesto Police Department has completed a background investigation regarding Murphy Medical Transportation, Inc., per Modesto Municipal Code Section 3-9.05, and

WHEREAS, on September 11, 2017, the Great Safe Neighborhoods Committee reviewed this item and recommended scheduling a public hearing for Council consideration.

WHEREAS, Council approval is required for Murphy Medical Transportation, Inc. to function as a non-emergency medical transport service within the City of Modesto, and

WHEREAS, a duly noticed public hearing was held by the City Council of the City of Modesto on November 8, 2017, at 5:30 p.m. in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, to consider authorizing the issuance of a permit to US Medical Transportation, Inc. for a non-emergency medical transport within the City of Modesto, and

WHEREAS, Modesto City Council finds that Murphy Medical Transportation, Inc. will serve the public convenience and necessity requirements.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the application of Murphy Medical Transportation, Inc. and issues a permit to operate as a non-emergency medical transport company within the City of Modesto.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8th day of November, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING AMENDING AGREEMENTS WITH 4LEAF INC., BUREAU VERITAS, CSG CONSULTANTS INC., AND INTERWEST CONSULTING GROUP TO EXTEND SERVICES FOR PLAN REVIEW, BUILDING INSPECTION, CHIEF BUILDING OFFICIAL AND CODE ENFORCEMENT SERVICES FOR ONE YEAR AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AMENDMENTS

WHEREAS, by Resolution No. 2012-486, Council approved the award of proposal and contracts for professional assistance with plan review and inspection services to 4LEAF Inc., Bureau Veritas, CSG Consultants and Interwest Consulting Group, and

WHEREAS, on August 19, 2014, an amendment to the Interwest Consulting Group contract was made to provide for Chief Building Official services, and

WHEREAS, by Resolution No. 2014-354, Council approved an amendment to the standard agreement for consultant services with Interwest Consulting Group for Building Official and Code Enforcement services in an amount not to exceed $180,000, and

WHEREAS, by Resolution No. 2015-364, Council approved an amendment to the standard agreement for consultant services with Interwest Consulting Group for Building Official and Code Enforcement services in an amount not to exceed $200,000, and

WHEREAS, by Resolution No. 2015-363, Council approved an amendment to the standard agreement for consultant services with 4LEAF Inc., Bureau Veritas, and CSG Consultants Inc., for plan review and inspection services to increase annual compensation for each contract in an amount not to exceed $50,000, and

WHEREAS, the City has exhausted all extensions provided through the Agreements which are set to expire December 3, 2017 and a formal Request for Proposals (RFP) cannot be accomplished prior to the expiration of these agreements, and

WHEREAS, staff is requesting a one-year extension to 4LEAF Inc., Bureau Veritas, CSG Consultants Inc., and Interwest Consulting Group agreements to prevent regulatory or compliance issues that may impact the safety of the community,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the following Agreements:

1. A Second Amendment with 4LEAF Inc., for a one year extension of the term only

2. A Second Amendment with Bureau Veritas, for a one year extension of the term only

3. A Second Amendment with CSG Consultants Inc., for a one year extension of the term only

4. A Fourth Amendment with Interwest Consulting Group, for a one year extension of the term and to increase the agreement amount by an additional $200,000

to extend services for Plan Review, Building Inspection, Chief Building Official and Code Enforcement Services.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the Amendments to the Agreements, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING THE PRE-QUAL1FIED CONSULTANT LIST, CONSISTING OF ALTA DESIGN + DESIGN, OAKLAND, CA, DRAKE HAGLAN AND ASSOCIATES, MODESTO, CA, MARK THOMAS, FRESNO, CA, AND O'DELL ENGINEERING, MODESTO, CA FOR CIVIL ENGINEERING SERVICES FOR VARIOUS CAPITAL IMPROVEMENT PROGRAM (CIP) PROJECTS FOR A PERIOD OF TWO YEARS, WITH TWO ADDITIONAL ONE-YEAR EXTENSIONS AT THE WRITTEN APPROVAL OF THE INTERIM CITY MANAGER

WHEREAS, the Community and Economic Development Department anticipates developing several Capital Improvement Projects that require civil engineering services that are beyond the City's current staffing levels and workload to accomplish in a timely manner, and

WHEREAS, Community and Economic Development Department has found it necessary to utilize a vendor list for civil engineering services, and

WHEREAS, retaining pre-qualified consultants allows the division to have quick access to specific civil engineering services when needed, and

WHEREAS, using experienced consultants provides a quick turnaround, which is essential for an efficient response to the large undertaking of projects, and

WHEREAS, all four consultant firms are familiar with the layout of the City as well as City Standards, and

WHEREAS, all four consultant firms have established experience and were the most qualified consultants from those who submitted Statement of Qualifications, and

WHEREAS, the selected consultant will be determined on a project basis once a scope of work and contract have been negotiated with the most qualified firm(s) from the vendor list, and

WHEREAS, in accordance with Administrative Directive 3.1, Selection Procedures for Professional Consultants Who Provide Architectural & Engineering Services for Capital Projects, which is in compliance with State of California Government Code, Sections 4526-4529, staff solicited and formally advertised an RFQ through Planet Bids for civil design and drafting services, and

WHEREAS, staff received ten (10) Statements of Qualifications (SOQs), five (5) which were considered local firms, and

WHEREAS, after careful review of the SOQs by the Community and Economic Development Department staff, the following local firms were selected as the four most qualified: 1) Alta Planning + Design, Oakland, CA; 2) Drake Haglan and Associates, Modesto, CA; 3) Mark Thomas, Fresno, CA; and 4) O'Dell Engineering, Modesto, CA, and

WHEREAS, when as-needed civil design or drafting services are required for CIP projects with a total budget of $2 million or less, a Request for Proposals (RFP) with a specific scope of work may be issued to these firms, and

WHEREAS, a department director may eliminate the State of Qualifications portion of the process for major projects and secure a firm or firms directly from the professional consultant list, and

WHEREAS, an agreement for engineering design services will then be presented to City Council for approval and

WHEREAS, this prequalified local consultant list will be active for two years from the date of Council approval, at which time the City may extend the list for two additional one-year extensions at the written approval of the City Manager, and

WHEREAS, in the event the firms listed on the pre-qualified list are deemed to lack experience or expertise for specific projects, the City retains the right to recruit consultants for individual projects and not be restricted to only using the approved list, and

WHEREAS, a formal bidding process will be conducted should this situation occur.

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the prequalified consultant list, consisting of Alta Planning + Design, Oakland, CA, Drake Haglan and Associates, Modesto, CA, Mark Thomas, Fresno, CA and O'Dell Engineering, Modesto, CA for Civil Engineering Services for various Capital Improvement Program (CIP) projects for a period of two years, with the two one-year extensions at the written approval of the Interim City Manager.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION AMENDING THE FISCAL YEAR 2017-18 ANNUAL OPERATING AND CAPITAL IMPROVEMENT BUDGET

WHEREAS, a financial analysis has been completed and it has been determined that a budget adjustment is required to the Annual and Capital Improvement Budgets of the City of Modesto for Fiscal Year 2017-18,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the Fiscal Year 2017-18 Annual Operating and Capital Improvement budget as shown in Exhibit A, which is attached hereto and incorporated by reference herein.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following votes:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

EXHIBIT A

FISCAL YEAR 2017-18

COMMUNITY & ECONOMIC DEVELOPMENT

A budget adjustment is necessary to recognize $1,584,493 of unbudgeted revenue from the State Department of Transportation in the Capital Grants – Streets CIP Fund, Fund 3160, and reallocate to Capital Improvement Project #100806, 2016 Pavement Rehabilitation Project, discretionary task accounts.

A budget adjustment is necessary to recognize $4,000,000 of unbudgeted revenue from the Regional Measure L funds in the Streets Capital Facility Fee Fund, Fund 3410, and reallocate to Capital Improvement Project #100614 – State Route 132 West Expressway, discretionary task accounts.

A budget adjustment is necessary to appropriate $60,000 in the Abatement Fund for costs associated with the relocation benefits for tenants of the property located at 624 9th Street, Modesto, CA. The action to have these funds available was approved on August 2, 2017 by Council Resolution No. 2017-307, but this action did not include a resolution to amend the budget to appropriate funds for these costs. These costs were temporarily absorbed within existing department budgets outside of the Abatement Fund. However, their ultimate funding needs to be adjusted to the Abatement Fund via the budget adjustment presented in this action. The $60,000 will be appropriated in the Abatement Fund in the following account (4910-14225-53074).

FIRE DEPARTMENT

A budget adjustment is necessary to increase the expense and revenue budget in the Fire Department's Training division by $295,704 to account for the reimbursement of expenses paid for the agreement with the California Governor's Office of Emergency Services (CalOES). The revenue account being increased is 42191 (Intergov – State – CalEMA/CalOES). This agreement was entered into to allow for Modesto Fire Department staff to attend hazardous material training required by CalOES. The agreement covers the costs of backfilling positions while they attend training. While this adjustment will increase the revenue and expense budgets of the Fire Department it is strictly for reimbursement of costs associated with this agreement.

RESOLUTION APPROVING THE ACCOUNTS RECEIVABLE WRITE-OFF REPORTS THROUGH JUNE 30, 2017 TOTALING $746,193, AND DIRECTING A REPORT OF DISPOSITION BE FILED WITH THE CITY CLERK

WHEREAS, the Finance Department maintains a billing system to track monies owed to the City, and

WHEREAS, occasionally the responsible party does not pay the City as required, and

WHEREAS, it is the City's policy to actively pursue collection of past-due accounts and write off amounts deemed to be uncollectible, and

WHEREAS, the City employs various different means of trying to collect past-due accounts, and

WHEREAS, collection efforts continue until the legal statute restricts the City's collections actions, and

WHEREAS, the City's Write-off of Uncollectible Accounts Receivable policy, as allowed under by Section 2-3.406 of Article 4 of Title 2 of the Municipal Code, requires the following approval authority: the Director of Finance is authorized to approve the write-off of accounts with an outstanding balance due of up to $5,000, and the City Manager is authorized to approve the write-off of accounts with an outstanding balance due in excess of $5,000 and up to $25,000; and

WHEREAS, the following amounts with an outstanding balance less than $5,000 have been approved for write-off by the Director of Finance for the Fiscal Year 2016-2017 and as such all available collection remedies have been exhausted: (1) Utilities Accounts - $356,350 and (2) Miscellaneous Receivables - $252,057, and

WHEREAS, the following amounts with an outstanding balance less than $25,000 have been approved for write-off by the City Manager for the Fiscal Year 2016-2017 and as such all available collection remedies have been exhausted: Miscellaneous Receivables - $104,959, and

WHEREAS, for the write off amount in excess of $25,000 for $32,827, Section 2-3.406 of Article 4 of Title 2 of the Municipal Code requires the City Manager to report the accounts to the City Council with his recommendation,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the City Manager's and Director of Finance reports of uncollectible utility and accounts receivable in the total amount of $746,193, and approve a report of disposition be filled with the City Clerk,

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING THE SOLE SOURCE PROCUREMENT WITH T2 SYSTEMS, INC., INDIANAPOLIS, IN TO SECURE THE COST FOR SOFTWARE MAINTENANCE AND SUPPORT OF THE T2 PARKING CITATION MANAGEMENT SYSTEM OVER FIVE YEARS FOR A TWO (2) YEAR AGREEMENT WITH THREE (3) ONE YEAR EXTENSION OPTIONS FOR AN ANNUAL ESTIMATED COST OF $21,667 AND OVER FIVE YEARS OF $103,038, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE CONTRACT

WHEREAS, on September 25, 2007, Council approved Resolution No. 2007-548, to execute an agreement with T2 Systems, Inc. for the purchase of a Parking Citation Management System (PCMS) for the Customer Services Division of the Finance Department, and

WHEREAS, this system is utilized by the Parking Citation Processing Division in coordination with the Modesto Police Department to manage ticket issuance, Informal and Formal Administrative Hearing process, Residential Parking Permit program, fines and revenue collection, and

WHEREAS, the Finance Department requires the regular use of its T2 Systems, Inc. module in order to meet its daily business needs including but not limited to overseeing the collection of parking citations and managing the administrative review process for contested parking citations for the Modesto Police Department, and

WHEREAS, this module includes an online payment and appeals module managed through a cloud-based system providing a more efficient and convenient avenue for our citizens while also ensuring compliance with the Payment Card Industry Data Security Standard (PCI DSS),and

WHEREAS, the City currently has an agreement with T2 for software maintenance support that expires November 1, 2017, and

WHEREAS, the owner and operator of the PCMS, T2 Systems, Inc. is uniquely qualified to provide maintenance for their software, and

WHEREAS, staff recommends the City enter into a sole source agreement with T2 Systems, Inc. to secure the cost for maintenance over five years, for a two (2) year agreement with three (3) one year extension options for an annual estimated cost of $21,667 and over five (5) years at an estimated cost of $103,038 based on annual maintenance cost, and

WHEREAS, Modesto Municipal Code Section 8-3.203, generally requires all purchases, which meet or exceed $50,000 for material, equipment or contractual services to be formally bid. However, there are exceptions to the rule set forth in the Modesto Municipal Code. One exception, MMC Section 8-3.204(d), allows for the Purchasing Manager, in his or her discretion, to determine if a process other than the usual fonnal bid procedure set forth in MMC Section 8-3.203 will result in procurement for the City at the lowest possible cost commensurate with the desired quality, and

WHEREAS, the Purchasing Manager has invoked that exception for this purchase due to cost savings of staff time, and

WHEREAS, the fact that T2 is the only vendor who could maintain the T2 software, the sole source award of an agreement to T2 Systems, Inc. will conform to MMC Section 8-3.204(d), and

WHEREAS, in November 2016 a system upgrade was approved at a cost of $35,574 which included maintenance costs for Fiscal Year 2016-17 of $13,524, and

WHEREAS, maintenance costs for Fiscal Year 2016-17 were pro-rated based on changes to the timeline for implementation of the new online payment and appeals module, and

WHEREAS, sufficient funds are budgeted in Fiscal Year 2017-18 in appropriation unit 0100-12450-53100 to cover the first year of the agreement in the amount of $21,667 which includes a test environment for one year in the amount of $4,350.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes an agreement for a sole source procurement with T2 Systems, Inc., Indianapolis, IN for software maintenance and support of the T2 Parking Citation Management System for a total estimated cost of $103,083 over five (5) years, and

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

EXHIBIT "A"
SCOPE OF SERVICES
FOR
MANAGEMENT SERVICES OF
EDUCATION & GOVERNMENT PROGRAMMING

Final Cut Media shall provide the following services to the City:

A. Management of the Education, and Government television master control room facility. Scheduling of all programming on the Education and Government channels, including live web casting via the Internet.

B. Consultant shall report solely to the Director of the Information Technology Department (IT) or to designated IT staff regarding the management of the Education and Government Channels and master control facility.

C. Production and Broadcasting Services – Consultant will provide camera crew to produce, broadcast and/or video tape the following meetings originating from the basement chambers of Tenth Street Place, Modesto Centre Plaza, Modesto Police Department, Stanislaus County Office of Education and/or any other City of Modesto sites identified in exhibit "B":

a. All regularly or specially scheduled Modesto City Council Meetings
b. All regularly or specially scheduled Modesto City Council Committee Meetings (upon request)
c. All regularly or specially scheduled Modesto City Planning Commission Meetings
d. Specially scheduled City of Modesto Department and/or Citizen Advisory Committee Meetings (upon request).
e. All regularly or specially scheduled Stanislaus County Board of Supervisors Meetings
f. All regularly or specially scheduled Stanislaus County Board of Supervisors Committee Meetings (upon Request).
g. All regularly or specially scheduled Stanislaus County Planning Commission Meetings.
h. Specially scheduled Stanislaus County Department Meetings.
i. Regularly scheduled "Making the Grade" programs of the Stanislaus County Office of Education.
j. Specially scheduled Stanislaus County Office of Education meetings.
k. Government Youth Commission Meetings.
l. Yearly City and County Budget Meetings.

D. The City's site locations have been identified in exhibit "B. Consultant shall be equipped and capable of broadcasting at any of the listed sites in exhibit "B".
E. Media Duplication – Consultant staff will duplicate media of all Modesto City Council and Stanislaus County Board of Supervisors, meetings, providing copies of said meetings to the City of Modesto Clerk's Office and the Stanislaus County Clerk of the Board's

Office and storing master copies of all meetings in the Master Control Room library. Master copies shall not be discarded or destroyed without the prior written consent from the City Clerk or Clerk of the Board.

F. Create Video bulletin boards that appear between taped or live programming. Information will be submitted to Consultant at least five (5) days prior to the requested start date.

G. Any new programming airing on the Government and Education must be pre-approved by IT staff.

H. Consultant will provide ongoing recommendations to IT staff for the effective management of the Master Control Room facility. All final decisions pertaining to the Master Control Room facility shall be made by IT staff, unless upon emergency and IT staff is unavailable for direction.

I. Consultant will work with IT staff and contracted broadcast engineers to ensure the proper maintenance and installation of new equipment at the Master Control Room location of 1100 H Street, Modesto, California.

J. Consultant agrees that any commercial use of equipment is prohibited. Consultant may not rent City-owned equipment to other parties. Consultant also may not profit from programs produced with City equipment and facilities. Any questions regarding commercial use should be directed to the IT staff.

K. Additional production or equipment setup that is not listed on the Scope of Services shall be compensated at a rate of $75.00 per hour.

L. Consultant shall provide staff possessing a qualified skill-level and working knowledge of operating and maintaining broadcast equipment for the transmission of Education and Government programming.

M. Consultant agrees to maintain the Regular Hours of Operation as:

a. Monday through Friday 10 am – 5 pm for Master Control Room Operation
b. Monday through Saturday as needed for Education & Government programming
c. Saturday and Sunday – Open only for Master Control Room Operation
d. On-Call – 24 hours per day and 365 days per year to oversee the use of the facility and provide technical management as needed
e. Master Control Room access is available by appointment only.

N. City and Consultant shall perform quarterly inspections of the basement chambers of Tenth Street Place and the Master Control Room location of 1100 H Street, Modesto, California. Consultant agrees to respond and correct deficiencies as identified.

O. Consultant shall provide a comprehensive inventory, drawings, diagrams, flow chart and other related material of all equipment and communications that are utilized in conducting broadcast services. Material shall be provided at signing of agreement and updated bi-annually.

RESOLUTION ACCEPTING THE GROGAN PARK WELL TIVOLI PROJECT AS COMPLETE AUTHORIZING ALL NECESSARY STEPS TO FILE WITH THE COUNTY RECORDER, RELEASE SECURITIES AND PAYMENTS TOTALING $496,222 TO HYDRO-RESOURCES, INC., OF WINNEMUCCA, NEVADA

WHEREAS, the Grogan Park Well Tivoli Project has been completed by Hydro-Resources, Inc., of Winnemucca, NV in accordance with the contract agreement dated March 1, 2016,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Grogan Park Well Tivoli Project is hereby accepted as complete from said contractor, Hydro-Resources, Inc., of Winnemucca, NV, and that the City Clerk is authorized to complete all necessary steps to file with the County Recorder, release securities and payments totaling $496,222, as is authorized and provided in the contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

PRINT

RESOLUTION APPROVING PAYMENT OF INVOICE 1019-17 FROM WASTEWATER SOLIDS MANAGEMENT COMPANY OF YACHATS, OR, IN THE AMOUNT OF $41,700 FOR ADDITIONAL CLEANING OF DIGESTER OUTSIDE THE CONTRACTED AMOUNT

WHEREAS, on June 13, 2017, by Resolution No. 2017-235, Council authorized the award of bid for the furnishing of digester cleaning services to Wastewater Solids Management Company (Wastewater Solids), Yachats, OR, and

WHEREAS, on July 26, 2017, Wastewater Solids started the process of cleaning Digester #1, and

WHEREAS, the current contract requires staff to reduce the liquid volume in the two million gallon digester to 50% prior to the contractor beginning work, and

WHEREAS, staff took operational steps to remove the digester tank from service and reduce the volume in the tank to one million gallons several weeks prior to the contractor coming on site, and

WHEREAS, once the contractor was mobilized, set up and ready to pump and clean the digester tank, it was discovered that the tank level had increased back to 80% of capacity, and

WHEREAS, the contractor informed staff that additional pumping days would be required to complete the job, and

WHEREAS, the additional pumping and delay costs from cleaning Digester #1 was $58,082 and exceeds the initial project annual cost of digester cleaning, and

WHEREAS, as a courtesy, Wastewater Solids gave the City a discount of $16,382, thereby reducing the total costs to $41,700, and the costs are in addition to the annual $36,350 for Digester #1 cleaning, and

WHEREAS, staff investigated the cause of the "slow leak" and determined one of the large 24–inch isolation valves to the digester tank was not completely sealing, and

WHEREAS, the sealing failure was due to foreign material lodged in the valve and the valve is an isolation valve and is only used when the Digester is shut down for cleaning, and

WHEREAS, staff is unable to anticipate the problem prior to removing the digester from service and it is impossible to disassemble and repair the valve while the digester is full, and

WHEREAS, the contractor was directed to continue with the cleaning of the digester with the understanding there would be additional pumping costs, and

WHEREAS, this extra pumping cost was due to the leakage that occurred into the tank from the faulty valve as the contractor was reducing and cleaning the tank, which was not within the contracted scope of work, and resulted with the contractor having to be on site more than twice as long as anticipated, and

WHEREAS, staff has since excavated, removed the lodged debris, and repaired the faulty valve,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the payment of Invoice 1019-17, from Wastewater Solids Management Company of Yachats, OR, in the amount of $41,700 for additional cleaning of Digester outside of contracted amount.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING AN AMENDMENT TO THE ANNUAL PURCHASING AGREEMENT FOR HOT PATCH WORK WITH GARRETT THOMPSON CONSTRUCTION, INC., MODESTO, CA, TO INCREASE THE AMOUNT BY $2,533,893 FOR AN AGREEMENT TOTAL OF $9,061,000; AND AN AMENDMENT INCREASE OF $9,504 TO THE ANNUAL PURCHASING AGREEMENT FOR HOT PATCH WORK WITH UNITED PAVEMENT MAINTENANCE, HUGHSON, CA, FOR AN AGREEMENT TOTAL OF $256,517, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO INCREASE THE ANNUAL PURCHASE AGREEMENT

WHEREAS, the Utilities Department uses contracted services to perform hot patch work throughout Modesto and the outlying areas which are included in the City's regional water system, and

WHEREAS, in 2012 the City performed a competitive bid process for hot patch services as required by the Modesto Municipal Code (MMC), and on September 25, 2012 by Resolution 2012-386 City Council approved the award of bid to Garrett Thompson Construction, Inc. as the primary contractor, United Pavement Maintenance as the secondary, and Patch Crew as the third contractor for an estimated annual cost of $749,700, which equals $3,748,500 over five years, and

WHEREAS, during 2013 and 2014, work demands for contracted hot patch work exceeded staff estimates which increased the costs of hot patch work by Garrett Thompson Construction, and

WHEREAS, on December 9, 2014 by Resolution 2014-538, Council approved an increase in funds for $3.1 million to annual agreements issued to Garret Thompson Construction, United Pavement Maintenance, and Patch Crew which expired on September 24, 2017 and were for a total of $6,848,500, and

WHEREAS, during the summer of 2017, staff determined clerical errors were made by the Finance Department when the original agreements were established in 2012 and again in 2015 which caused an larger than authorized agreement amount to be entered into the system, and

WHEREAS, City staff is in the process of re-engineering the Purchasing Division and changing procedures to prevent this type of situation from reoccurring again in the future, and

WHEREAS, staff is seeking Council authority to increase the funds available under the purchasing agreement with Garrett Thompson Construction by $2,533,893 and with United Pavement Maintenance by $9,504 for a total of $2,538,397.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an amendment to the annual purchasing agreement for hot patch work with Garrett Thompson Construction, Inc., Modesto, CA, to increase the amount by $2,533,893 for an agreement total of $9,061,000; and an amendment increase of $9,504 to the annual purchasing agreement for hot patch work with United Pavement Maintenance, Hughson, CA, for an agreement total of $256,517.

BE IT FURTHER RESOLVED, that the Interim City Manager, or his designee, is authorized to amend the annual purchase agreements with Garrett Thomson Construction Inc., and United Pavement Maintenance.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of November, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-449

RESOLUTION ACCEPTING THE STATE SUPPLEMENTAL LAW ENFORCEMENT GRANT, IN THE AMOUNT OF AT LEAST 5100,000, FROM THE STATE SUPPLEMENTAL LAW ENFORCEMENT SERVICES FUND TO BE USED FOR POLICE OVERTIME, TRAINING, TECHNOLOGY, AND EQUIPMENT AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE NECESSARY PROGRAM DOCUMENTS

WHEREAS, in 1996, the State Legislature passed, and the Governor signed, Assembly Bill 3229, the Supplemental Law Enforcement Services Act, and

WHEREAS, the purpose of the law is to provide additional resources for local law enforcement, and

WHEREAS, Supplemental Law Enforcement Services Fund (SLESF) monies cannot be transferred to, or intermingled with, the monies in any other fund except that monies may be transferred from the SLESF to the City's General Fund to the extent necessary to facilitate the appropriation and expenditure of funds, and

WHEREAS, SLESF monies cannot be used to supplant existing budgeted funds, and

WHEREAS, a SLESF has been established in each county, and

WHEREAS, the funding for each county and city is based upon proportionate population, and

WHEREAS, the allocation to the City of Modesto, for Fiscal Year (FY) 2017/2018, of at least $100,000, to be made in four installments of $25,000 each.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the State Supplemental Law Enforcement Grant, in the amount of at

least $100,000, from the State Supplemental Law Enforcement Services Fund for police overtime, training, technology, and equipment,

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is authorized to execute the necessary program documents accepting the State Supplemental Law Enforcement Grant.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of November, 2017, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING ADJUSTMENTS TO VARIOUS AIRPORT RATES AND FEES FOR SPECIFIC ACTIVITIES AND SERVICES AT THE MODESTO CITY-COUNTY AIRPORT (AIRPORT), EFFECTIVE JANUARY 1, 2018, AND RESCINDING RESOLUTION NO. 2016-213

WHEREAS, the Modesto City-County Airport (Airport) is an enterprise fund and is expected to be self-supporting. The Airport has conducted a Local Airports Rate and Fee Market Analysis, and

WHEREAS, the Local Airports Rate and Fee Market Analysis revealed a deficiency in pricing of the Modesto City-County Airport rates and fees, and

WHEREAS, adjusting Airport Rates and Fees will increase revenue that will allow the airport to recover growing operational expenses, and

WHEREAS, on July 20, 2017, the Airport Advisory Committee (AAC) recommended this increase of various rates and fees be forwarded on to City Council for its consideration, and

WHEREAS, on September 13, 2017, the Healthy Economy Committee (HEC) recommended this increase of various rates and fees be forwarded on to City Council for its consideration.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves adjustments to various Airport Rates and Fees for specific activities and services at the Modesto City-County Airport as noted in **Attachment A, attached** hereto.

BE IT FURTHER RESOLVED that Resolution 2016-213 shall be rescinded on January 1, 2018 at 12 am.

THIS RESOLUTION WAS RESCINDED BY MODESTO CITY COUNCIL RESOLUTION NO. 2019-217 ON MAY 7, 2019

BE IT FURTHER RESOLVED that this resolution shall go into effect and be in full force and operation on January 1, 2018.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal was upon roll call carried and the resolution adopted by the following vote:

SECTION 1. HANGARS. Rental charges for the rental of hangars at the Modesto City-County Airport/Hairy Sham Field are hereby established as follows, payable in advance:

(a) T-Hangars and Storage Units as of July 2017

Small T-Hangars (no electricity provided) Hangar A Units 2-12 Hangar B Units 2-9 Hangar C Units 2, 3, 7 Hangar D Units 2-5 & 7-9	$178.50 per month
Small T-Hangars (electricity provided) Hangar A Unit 1 Hangar C Units 4-6 Hangar D Unit 6	$209.00 per month
Medium T-Hangars (no electricity provided) Hangar B Units 1, 10 Hangar C Unit 8 Hangar D Unit 10	$222.25 per month
Medium T-Hangars (electricity provided) Hangar C Unit 1 Hangar D Unit 1 Hangar E Units 1-10 Hangar F Units 1-10 Hangar G Units 1-8, 10 Hangar H Units 1-8, 10 Hangar J Units 1-10 Hangar L Units 1-10	$279.90 per month
Large T-Hangars (electricity provided) Hangar G Unit 9 Hangar H Unit 9 Hangar K Units 2-6, 8-11	$328.88 per month
Large Modified Box Hangar (electricity provided) Hangar K Unit 1	$400.00 per month

Extra Large T-Hangars (electricity provided) Hangar I Units 1-8 Hangar K Unit 7	$328.88 per month
Storage Units	
Hangar I Storage Unit	$129.92 per month
Hangar J Storage Unit	$49.42 per month
Hangar L Storage Unit	$49.42 per month

All T-Hangars leased under Section 1 subparagraphs (a) with no electricity which later have electricity installed will increase to the electricity provided rate with corresponding T-Hangar size.

(b) Corporate Executive Commercial Box Hangars

Hangar 1	$1,718.54 per month
Hangar 2	$1,399.60 per month
Hangar 3	$767.82 per month
Hangar 4	$1,307.89 per month
Hangar 5	$1,301.26 per month
Hangar 6	$762.21 per month
Hangar 7	$87.07 per month (ground lease)

(c) Portable Hangars and Ground Lease

Portable Hangars 1-14	$70.31 per month
Ground Lease (per sq. ft.)	$.057 per month

A five percent (5%) discount will be made in any of the above rental charges when a year's lease is entered into and the year's rental charges are paid in advance.

SECTION 2. AIRPORT KEYS

(a) Two (2) hangar keys and one (1) gate proximity card are included in initial lease

(b) $20.00 for each additional proximity card

(c) $45.00 for each additional hangar key

(d) $45 for each gate key

SECTION 3. TIE-DOWN FEES. Tie-down charges and fees at the Modesto City-County Airport/Harry Sham Field are hereby established as follows, payable in advance:

(a) Aircraft less than 12,500 lbs. maximum certificated gross landing weight

Permanent	$46.38 per month
Transient	$7.64 per day

(b) Aircraft greater than 12,501 lbs. maximum certificated gross landing weight

Permanent	$78.25 per month
Transient	$15.16 per day

A five-percent (5%) discount will be made in the rental charges set forth in Section 1 subparagraphs (a), (b), and (c), when a year's lease is entered into and the year's rental charges are paid in advance.

A volume discount may be given to Fixed Base Operators (FBO) that operate flight schools for light single and multi-engine aircraft (less than 12,500 lbs. of maximum certificated gross landing weight) for tie-down spaces as set forth in subsections (a) and (b) above. For every two tail-in spaces the FBO agrees to lease, one taxi-in tie-down may be leased for the same price as a tail-in tie-down.

Overnight tie-down of aircraft belonging to or in the custody or possession of a lessee at the Modesto City-County Airport/Harry Sham Field shall be subject to the normal tie-down charge as specified by this section.

SECTION 4. OFFICE SPACE. The monthly charge for office space(s) at the Modesto City-County Airport/Harry Sham Field are hereby established as follows:

Old Administration Building Utilities furnished by Airport	$.97 per sq. ft.
Office Building(s) 1 & 2 Utilities furnished by Tenant	$.97 per sq. ft.

SECTION 5. TEMPORARY USE OF AIRPORT PASSENGER TERMINAL. Organization and service providers desiring to temporarily use the passenger terminal will be charged a daily rate:

(a) Ticket counter ..... $.0.97 per square foot

(b) Other areas ..... $.0.97 per square foot

SECTION 6. AIRCRAFT CARRYING PASSENGERS AND/OR CARGO FOR HIRE. Aircraft landing at the Modesto City-County Airport/Harry Sham Field shall pay a landing fee as follows:

(a) All aircraft weighing greater than 12,501 lbs. maximum certificated gross landing weight – $1.10 per 1,000 pounds per landing

(b) All transient aircraft owned and operated by individuals, companies, and corporations carrying their own products shall not be charged for the first two (2) trips per calendar months. All other trips for the same calendar month shall be charged at the same rates applied to nonscheduled aircraft carrying cargo for hire.

(c) No landing fee shall be charged for any aircraft, which lands at the airport due to any mechanical or other emergency, except weather, provided that such emergency is reported to the Airport Control Tower prior to landing.

SECTION 7. PASSENGER FACILITY CHARGE (PFC). Commercial air carrying passengers excluding "frequent flyers" or similar airline bonus award enplaning at Modesto City-County Airport/Harry Sham Field shall pay a PFC as approved by Federal Aviation Regulations (FAR) Part 158.

(a) Enplaned passenger by airline - $4.50 per ticketed passenger.

SECTION 8. ADVERTISEMENT CALLBOARD. Firms wishing to advertise in the airport passenger terminal shall have an approved agreement with the City of Modesto. A monthly charge shall be assessed for the use of the advertisement callboard as follows

Display Size	Display Only	Display & Telephone
7.5" x 9.5"	$20.00	$30.00
7.5" x 21"	$40.00	$60.00
19" x 21"	$50.00	$70.00

SECTION 9. MODESTO CITY-COUNTY AIRPORT BASED COMMERCIAL SERVICES Any person engaging in a commercial enterprise based at the Modesto City-County Airport/Harry Sham Field shall pay to the City a fee equivalent to the City Business License Fees set forth in Chapter 1 of Title 6 of the Modesto Municipal Code, except that a minimum fee of $100 will be paid for each aircraft sold, for the privilege of engaging in business in the City of Modesto and on the Airport. Said sum shall be payable at the time and in the manner provided for in Chapter 1 of Title 6 of the Modesto Municipal Code.

SECTION 10. FUEL FLOWAGE FEES. A fuel flowage fee of seven cents ($.07357) per gallon of fuel sold or dispensed on the Airport shall be collected for the City of Modesto by

the fuel vendors, except that reduced fuel flowage fees collected from scheduled air carriers can be negotiated for volume purchases.

SECTION 12. TEMPORARILY BASED COMMERCIAL SERVICES. Any person engaging in a commercial enterprise, temporarily based at the Modesto City-County Airport/Harry Sham Field, shall pay to the City a license fee in the sum of two hundred and no/lOOths ($200.00) dollars, payable in advance.

Each such operator shall also pay to the City as a minimum an additional sum of ninety and no/lOOths ($90.00) dollars per month, or any portion thereof, payable in advance, for the privilege of using the Airport and its facilities.

SECTION 12. OFF-AIRPORT CAR RENTAL OPERATOR FEE. Off-airport operators picking up customers at the Modesto City-County Airport/Harry Sham Field will pay to the City of Modesto ten percent (10%) of gross receipt for each vehicle rental. Additionally, the operators will be assessed a parking fee at the same rate on-airport car rental operators are charged for vehicles left in the public parking area overnight.

SECTION 13. MOTOR VEHICLE STORAGE CHARGES. Any person who parks a motor vehicle in Terminal Building Parking Lots at the Modesto City-County Airport/Harry Sham Field shall pay seven and no/lOOths ($7.00) dollars per day or forty-two and no/1lOths ($42.00) dollars per week.

SECTION 14. PENALTIES. A five percent (5%) per month penalty charge shall be made on any of the charges and fees established by this resolution when such charges and fees are not paid within thirty (30) days after they are due and payable. No penalties will be collected on the PFC.

SECTION 15. ADJUSTMENT OF RENTS, FEES AND CHARGES.

Rates and fees for the Airport may be adjusted from time to time by Resolution of the City Council.

For other than fair market value adjustments, said rents, fees, and charges shall be adjusted in the following manner: The base for computing the adjustment is the National Consumer Price Index for All Urban Consumers, West Urban Area, published by the United States Department of Labor, Bureau of Labor Statistics ("Index"), with a base year of 1982 – 1984 = 100 ("Beginning Index"). In no case shall the minimum rents, fees and charges be less than existing approved and adopted rents, fees and charges.

RESOLUTION REJECTING ALL BIDS RECEIVED TO REQUEST FOR BID NO. 1718-05 FOR HOT PATCH WORK

WHEREAS, the Utilities Department uses contracted services to perform hot patch work throughout Modesto and the outlying areas which are included in the City's regional water system; and

WHEREAS, the Interim City Manager authorized the Purchasing Department to issue Request for Bid (RFB) No. 1718-05 for Hot Patch Work on July 21, 2017; and

WHEREAS, after reviewing the bids received and bid package, it was determined that staff needed to amend the original Scope of Service to ensure a more competitive process and eliminate ambiguity in the original scope; this determination was based on the significant price variances between vendors; and

WHEREAS, the Utilities Department, Water Division, will work with the Finance Department to amend the Scope of Services to better define the project and Purchasing will work on updating the bid process; and

WHEREAS, until a new agreement is awarded by Council, the Public Works Department will be handling all Hot Patch Work for the Utility Division.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves rejecting all bids received to Request for Bid No. 1718-05 for Hot Patch work.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 14th day of November, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-453

PRINT

RESOLUTION APPROVING THE AWARD FOR PROPOSAL FOR POLYGRAPH SCREENINGS TO TTI POLYGRAPH, BENICIA, CA, FOR A TWO-YEAR AGREEMENT WITH THREE ONE-YEAR EXTENISION OPTIONS AT THE SOLE DISCRETION OF THE CITY, FOR AN ANNUAL COST NOT TO EXCEED $93,750, AND $468,750 OVER FIVE YEARS, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO ISSUE A PURCHASING AGREEMENT

WHEREAS, the Modesto Police Department has a need for polygraph services as part of the recruitment process, and

WHEREAS, the Police Department expects to need no more than 250 polygraph screenings per year for an annual cost of $93,750, and

WHEREAS, the Interim City Manager authorizes the Purchasing Manager to issue formal Requests for Proposal (RFP) for polygraph services, and

WHEREAS, the Purchasing Division issued RFP No. 1617-06 Polygraph Examination Services on the City's website under commodity codes for polygraph screening services and polygraph screening equipment and supplies, and three companies chose to download the RFP document, and

WHEREAS, bids were formally opened in the City Clerk's Office and three companies chose to respond, none of which were a local vendor. All companies provided responsive and responsible bids, and

WHEREAS, based on the responsive and responsible bids received, City staff recommends the award for proposal for polygraph services to TTI Polygraph, Benicia, CA, and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed $50,000 for material, equipment or contractual services

to be formally proposed. The award for proposal for polygraph screenings to TTI Polygraph, Benicia, CA, conforms to the Modesto Municipal Code, 8-3.203, and

WHEREAS, the cost for this purchase agreement will be covered through the existing budget in 0100-19420-53300.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto, that it hereby approves the award for proposal for polygraph services to TTI Polygraph, Benicia, CA, for a two-year purchase agreement with three one-year extension options at the sole discretion of the City, for an annual cost not to exceed $93,750 or a total of up to $468,750 over five years.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to issue the purchasing agreement.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 14th day of November, 2017, by Councilmember Zoslocki, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-454

PRINT

RESOLUTION RETROACTIVELY APPROVING PURCHASING AGREEMENTS WITH NOONAN AND HART INVESTIGATIVE SERVICES, INC., PLEASANTON, CA, AND STI INVESTIGATIONS, BENICIA, CA, FOR $184,136 AND $116,377, RESPECTIVELY, FOR A TERM OF 5 YEARS ENDING SEPTEMBER 22, 2019; AND RETROACTIVELY INCREASING PURCHASING AGREEMENT WITH SIMPSON INVESTIGATIVE SERVICES GROUP, PLEASANT HILL, CA, BY $150,353, FOR TOTAL AGREEMENTS OF $800,866 OVER 5 YEARS WITH ALL FOUR COMPANIES, INCLUDING RANK INVESTIGATIONS WITH WHOM NO CHANGE IS REQUIRED, AND AUTHORIZING THE FINANCE DIRECTOR, OR DESIGNEE, TO ADJUST AGREEMENT TOTALS BASED ON THE WORK CAPACITY FOR THE VENDORS, ENSURING THE OVERALL AGREEMENT TOTAL BETWEEN THE FOUR VENDORS WILL NOT CHANGE.

WHEREAS, the City of Modesto entered into a contract with Simpson Investigative Services Group, Inc. as 'primary' contractor, and with Rank Investigations and Protection, Inc. as 'secondary' contractor, by Resolution No. 2014-359 in 2014 for an estimated annual cost of $35,000 or a total cost of $175,000 each , which equals $350,000 over a five year period, and

WHEREAS, the City entered into agreements with Noonan and Hart Investigative Services Inc. in February, 2015, in the amount of $345,000 without Council approval, and

WHEREAS, the City entered into agreements with STI Investigations in June, 2015, in the amount of $45,000; and

WHEREAS, the Purchasing staff in the Finance Department increased the agreement amount in the accounting system with Simpson Investigative Services from the Council approved amount of $175,000 to $500,000 without Council authorization, and

WHEREAS, these agreements expire on September 22, 2019, and

WHEREAS, since 2014, the City has continued to see an increased need for background investigations related to the recruitment process in order to find viable sworn and non-swom candidates, and

WHEREAS, this demand significantly exceeded staff estimates in 2014 when the original agreement was competitively bid and has resulted in the need to increase the amount of the annual agreement with the four background investigation vendors, and

WHEREAS, the four background investigation vendors have successfully been able to meet the demands by the City for background investigations in conjunction with in-house background investigators who are retired law enforcement personnel, and

WHEREAS, Finance staff created purchasing authority under agreements Nos. 69596, 72942, 79675 and 67751 for a combined total authority of $1,065,000, and

WHEREAS, expenditures to date for background investigations total $379,278, and

WHEREAS, the background investigations agreements were accessed by the Modesto Fire Department and the IT Department, and

WHEREAS, staff anticipates it will continue to need background investigations from Noonan and Hart Investigative Services, Inc., Rank Investigation and Protection, Inc., Simpson Investigative Services Group, and STI Investigations in order to continue the recruitment process to fill the growing vacancies in the Police, Fire and Information and Technology Departments, and

WHEREAS, staff is seeking Council authority to retroactively increase the funds available under the purchasing agreements with the four background investigation vendors by $450,866 to $800,866 from $350,000.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby retroactively approves purchasing agreements with Noonan and Hart Investigative Services, Inc., and STI Investigations, for $184,136 and $116,377 respectively, for a term of 5 years ending September 22, 2019, and

BE IT FURTHER RESOLVED by the Council of the City of Modesto that it hereby retroactively approves increasing purchasing agreement with Simpson Investigative Services Group by $150,353, for a total of $325,353, and

BE IT FURTHER RESOLVED that the Finance Director, or designee, is authorized to adjust agreement totals based on the work capacity of the vendors, provided that the total cost the four agreements (Noonan and Hart Investigative Services, STI Investigation, Simpson Investigative Services Group and Rank Investigation and Protection) does not exceed $800,866 over 5 years, and

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to increase and execute the annual purchasing agreements and prepare and execute consultant services agreement amendments, in a fonn approved by the City Attorney and consistent with this resolution, with Noonan and Hart Investigative Services, STI Investigation, Simpson Investigative Services Group and Rank Investigation and Protection.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of November, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-455

RESOLUTION OF THE COUNCIL OF THE CITY OF MODESTO CONFIRMING THE CANVASS OF THE REGULAR MUNICIPAL ELECTION WHICH WAS HELD IN THE CITY OF MODESTO ON NOVEMBER 7, 2017, AND DECLARING THE RESULTS OF SAID ELECTION

WHEREAS, on Tuesday, November 7, 2017, a Regular Municipal Election was held in the City of Modesto (herein called "City") and in the Modesto City Schools District (herein called "District") of Stanislaus County to elect the following:

1. One City Councilmember to District 2 for a four year term;
2. One City Councilmember to District 4 for a four year term;
3. One City Councilmember to District 5 for a four year term;
4. One District Board of Education Member to Trustee Area 1 for a four year term;
5. One District Board of Education Member to Trustee Area 3 for a four year term;
6. One District Board of Education Member to Trustee Area 5 for a four year term; and
7. One District Board of Education Member to Trustee Area 7 for a four year term;

WHEREAS, as set forth in Section 5 hereof, the following ballot measure was submitted to the qualified electors in the November 7, 2017, City of Modesto election: Measure T was a cannabis business tax measure; and

WHEREAS, said election was held on Tuesday, November 7, 2017, in accordance with law and the proceedings of this Council, and the votes thereat received and canvassed, and the returns thereof ascertained, determined, and declared in all respects as required by law, and

WHEREAS, the Stanislaus County Registrar of Voters, at the request of the City Council, canvassed the returns of said regular municipal election in accordance with law, and reported the results of the election of the City Clerk, which the City Clerk certified to the Council by a Certificate of Canvass and Statement of Votes dated November 28, 2017, a copy of which is **attached** hereto marked **Exhibit "A"** and made a part hereof,

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto as follows:

SECTION 1. Said election results as shown on the Certificate of Canvass and Statement of Votes and the results of the election are hereby ratified, confirmed, approved, and declared.

SECTION 2. That in accordance with Section 10264 of the Elections Code, a copy of said Certificate of Canvass and Statement of Votes, which is **attached** hereto marked as **Exhibit "A"** and made a part hereof, shows a complete tabulation of the following:

(A) The whole number of votes cast for Districts 2, 4 and 5, in the City of Modesto.

(B) The whole number of votes cast for Trustee Areas 5 and 7 in the Modesto City Schools District (Trustee Areas 1 and 3 incumbents ran unopposed).

(C) The names of the persons voted for.

(D) For what office each person was voted for.

(E) The number of votes given in the City and in the Modesto City Schools District to each person.

(F) The number of votes given in the City for and against each Measure.

SECTION 3. That, at said Regular Municipal Election, the following named persons having received a majority of the votes cast for the elective offices, as designated on **Exhibit "A",** are hereby declared to be duly and regularly elected to such office, and the City Clerk is hereby directed to issue a Certificate of election to each such persons, certifying his/her election to the office appearing after his/her name, and to administer to each of said persons the oath of office prescribed by the Constitution and laws of the State of California and the Charter of the City, to wit:

Tony Madrigal	Councilmember for a term of four years, District 2, Modesto City Council.
Bill Zoslocki	Councilmember for a term of four years, District 4, Modesto City Council.
Jenny Kenoyer	Councilmember for a term of four years, District 5, Modesto City Council.
Cindy Marks	Member, Modesto City Schools District Board of Education, for a term of four years, Trustee Area 1.
Chad Brown	Member, Modesto City Schools District Board of Education, for a term of four years, Trustee Area 3.
Charlene G. West	Member, Modesto City Schools District Board of Education, for a term of four years, Trustee Area 5.
Adolfo Lopez	Member, Modesto City Schools District Board of Education, for a term of four years, Trustee Area 7.

SECTION 4. The following votes were cast for Measure T:

Measure	Total Votes For	Total Votes Against
Measure T: **Cannabis Business Tax** Shall the City of Modesto adopt an ordinance establishing a cannabis business tax on all cannabis businesses within the City, up to 10% of gross receipts of each business, potentially generating approximately one million dollars or more in revenues annually for general City services, including neighborhood safety, maintaining parks and recreation, and job creation, with all revenues remaining local, and which continues until repealed by the City Council or the voters?	**19,832**	**4,214**

Measure T. More than a majority of all the votes cast at the election for Measure T were in favor of said proposed Measure, and said Measure did carry and was approved by a majority of the qualified voters voting on said Measure.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of November, 2017 by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold
NOES:	Councilmembers:	None

RESOLUTION NO. 2017-456

RESOLUTION APPOINTING DUKE LEFFLER TO THE COMMERCIAL BROKER SEAT ON THE COMPREHENSIVE FEES TASK FORCE

WHEREAS, on June 28, 2016, the City Council, by Resolution No. 2016-277 approved reconvening the Comprehensive Fees Task Force, and

WHEREAS, the Comprehensive Fees Task Force was reconvened to review development-related fees and provide policy direction for a comprehensive Capital Facilities Fees program update, and

WHEREAS, Resolution No. 2016-277 approved the following voting membership: Healthy Economy Committee Member, Effective Government Committee Member, Representative of the Manufacturer's Council, Representative of the Building Industry Association, Representative of the Chamber of Commerce, four Citizen-at-Large, one Commercial Broker, and one Affordable Housing Representative, and

WHEREAS, on November 14, 2017 Brian Velthoen resigned as the Commercial Broker seat on the Comprehensive Fees Task Force leaving a vacancy, and

WHEREAS, Duke Leffler was on the last Comprehensive Fees Task Force in 2011 and applied to be a part of the Comprehensive Fees Task Force when it reconvened, and

WHEREAS, Duke has over thirty-eight years of experience in the commercial real estate industry in Stanislaus County, and

WHEREAS, the Appointments Committee met on November 2, 2017 and recommended the appointment of Duke Leffler to the Comprehensive Fees Task Force.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto it hereby appoints Duke Leffler to the Commercial Broker Seat on the Comprehensive Fees Task Force.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of November, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold
NOES:	Councilmembers:	None

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-457

RESOLUTION APPROVING THE AUDIT REPORT ISSUED BY THE STATE CONTROLLER'S OFFICE ON THEIR EXAMINATION OF CITY INDIRECT COST RATES CHARGED TO FEDERALLY FUNDED PROJECTS FOR FISCAL YEARS 2008-09 THROUGH 2014-15

WHEREAS, the City submits an Indirect Cost Rate Proposal (ICRP) to our cognizant agency which allows the City to claim indirect cost reimbursement for federal grants which is outlined under the Uniform Guidance 2 CPR 200.19, and

WHEREAS, the cognizant agency is the federal agency responsible for reviewing, negotiating and approving the City's proposal. During the time period of this audit, the California Department of Transportation (CalTrans) was the City's cognizant agency and provided the approval for the ICRP for Community Economic Development Department (CEDD) Street Engineering, CEDD Engineering Design, Utilities Department (UD) Construction Administration and UD Engineering Design, and

WHEREAS, the State Controller's Office (SCO) and CalTrans entered into Interagency Agreement No. 77A0044 for the period of June 1, 2014 through May 31, 2018 wherein the SCO was to perform audits of indirect cost allocation plans submitted to CalTrans from local government entities, and

WHEREAS, on February 10, 2016, the City was informed that the SCO would be conducting an audit on the ICRP for CEDD Street Engineering, CEDD Engineering Design, UD Construction Administration and UD Engineering Design for Fiscal Years 2008-09 through 2014-15, and

WHEREAS, this audit is required by Government Code 12410, which grants the Controller authority to review our financial records to verify all indirect expenses claimed are allowable under the federal guidelines, and

WHEREAS, the objective of the audit is to ensure the City is in compliance with the following: 1. The cost principles prescribed in Title 2 of the Code of Federal Regulations, Part 225 (2 CFR 225); 2. the City's ICRP are in compliance with the requirements for the ICRP preparation and application identified in the CalTrans Local Program Procedures Manual, Chapter 5; 3.The City has a sufficient financial management system to properly manager federal and State funded projects; 4. The City has procurement policies and procedures that are in compliance with 49 CFR, Part 18.36., and

WHEREAS, the following findings were reported which will result in repayment of funds to CalTrans due to identified unallowable cost:

1. Indirect Salaries and Benefits not chargeable to any direct projects and charged to the employees home cost center were not tracked as to what was performed during these hours; due to the lack of support for these work hours, the SCO determined the labor charged to their home cost center did not comply with 2 CFR 225. 2 CFR 225 Appendix B, Section 8 Part H (4) (c) which states, "such documentary support will be required where employees work on an indirect cost activity and direct cost activity.", and

WHEREAS, SCO did allow these labor charges for employees who supervised based on the assumption these hours were spent on supervisory duties but any staff in non-supervisory duties were considered unallowable costs; These unallowable costs lowered the allowable indirect rate per hour.

a. The total unallowable cost due to this finding has been provided below:

i. Utilities Engineering Design - $585,452

ii. Utilities Construction Administration - $384,891

iii. CED Street Engineering - $74,815, and

WHEREAS, the second finding is associated with the City's Liability insurance fund cost category allocated to all City departments included a surcharge that related to civil suits brought due to alleged discrimination in the workplace, and

WHEREAS, this is an unallowable cost under the Uniform Guidance 2 CPR 225, Appendix B, Section 10. (a) (1), which states all cost are unallowable for all cost incurred in defense of any civil or criminal fraud or similar proceeding, and

WHEREAS, City staff has attempted to identify any tracking of the indirect salaries and benefits considered to be ineligible by reviewing prior emails or project notes, and

WHEREAS, based on the research, staff has concluded that the City has no additional support to address this finding, and

WHEREAS, the City has already issued a response to the finding and based on CalTrans response we must proceed with adjusting our rates based on these unallowable cost, and

WHEREAS, the General Fund is responsible for covering a portion of the amount due since these are unallowable cost under the Federal Regulations which means any other restricted funding source would also be considered unallowable, and

WHEREAS, the unallowable cost identified under the two findings reflect the indirect cost amount that must be revised in calculating the ICRP and based on the rate change then determines what is due to CalTrans, and

WHEREAS, City staff has implemented procedures in our Oracle Time and Labor system to ensure all indirect time not billed out to Projects must be documented as to what this time was spent on

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the audit report issued by the State Controller's Office on their examination of City Indirect Cost Rates charged to federally funded projects for Fiscal Years 2008-09 through 2014-15.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 28th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-458

RESOLUTION AMENDING THE FISCAL YEAR 2017-2018 OPERATING AND CAPITAL IMPROVEMENT PROGRAM BUDGET TO APPROPRIATE AND TRANSFER $28,821 FROM THE STREETS CAPITAL FACILITY FEES FUND AND $162,837 FROM THE GENERAL FUND TO VARIOUS CAPITAL IMPROVEMENT PROJECTS IN ORDER TO FULLY REPAY THE DEPARTMENT OF TRANSPORTATION (CALTRANS) FOR THE DIFFERENCE BETWEEN THE PROPOSED AND AUDITED INDIRECT RATES FROM FISCAL YEAR 2008-09 THROUGH 2014-15

WHEREAS, the Department of Transportation (Caltrans) conducted an audit for the difference between the proposed and audited indirect rates from Fiscal Year 2008-09 through 2014-15, and

WHEREAS, the Department of Transportation (Caltrans) had two findings the first being related to indirect salaries and benefits not chargeable to any direct projects and charged to the employees home cost center and the second being the surcharge related to civil suits allocated as part of the liability internal service fund charge, and

WHEREAS, based on these two findings the City's Indirect Cost Rate Proposal was revised for Fiscal Year 2008-09 through 2014-15 and the impact requires repayment to the Department of Transportation (Caltrans), and

WHEREAS, the General Fund is responsible for covering a portion of the amount due since these are unallowable cost under the Federal Regulations in which any other restricted funding source would also be considered unallowable, and

WHEREAS, the Fiscal Year 2017-2018 Operating and Capital Improvement Program budget must be amended to appropriate and transfer $28,821 from the Streets Capital Facility Fee Fund and $162,837 from the General Fund to various capital improvement projects in order to fully repay the Department of Transportation (Caltrans).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby amends the Fiscal Year 2017-2018 operating and capital improvement budget to appropriate and transfer $28,821 from the Streets Capital Facility Fee Fund and $162,837 from the General Fund to various capital improvement projects in order to fully repay the Department of Transportation (Caltrans) for the difference between the proposed and audited indirect rates from fiscal year 2008-09 through 2014-15.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-459

RESOLUTION APPROVING DEFERRAL OF FIRE PREVENTION DEVELOPMENT USER FEES FOR S1 AND S2 OCCUPANCIES IN THE CATEGORIES OF COMPLETE BUILDING; SHELL BUILDING; TENANT IMPROVEMENTS; FIRE SPRINKLER SYSTEMS AND FIRE ALARM SYSTEMS UNTIL EITHER AN OCCUPANCY PERMIT IS ISSUED BY THE BUILDING OFFICIAL OR UNTIL NEW PLAN CHECK FEES ARE ESTABLISHED

WHEREAS, on May 15, 1990, Council by Resolution No. 90-521A, adopted Plan Check Fees for the Fire Prevention Division of the City's Fire Department, and

WHEREAS, in 2014 by Resolution No. 2014-286, Council reviewed and updated the Fire Prevention User Fees to, among other things, adjust the fees for inflation, and

WHEREAS, the fees are categorized by type which include: Complete Building; Shell Building; Tenant Improvements; Fire Sprinkler Systems and Fire Alarm Systems; Care Facility; Annual Inspection of Jails and Detention Facilities; and Annual Inspection of High Rise Structures, and

WHEREAS, the Complete Building; Shell Building; Tenant Improvements; Fire Sprinkler Systems and Fire Alarm Systems are calculated by multiplying a recommended fee of between $60-$145 for every 1,000 square feet of construction, and

WHEREAS, the fees are typically imposed at the time of submittal, and

WHEREAS, the current methodology for calculating Complete Building; Shell Building; Tenant Improvements; Fire Sprinkler Systems and Fire Alarm Systems can result in prohibitively high fees for the plan review process which ultimately deters development, and

WHEREAS, the current Plan Check Fees do not include a category for warehouses (S1 and S2 Building Occupancy), which are large structures but not complex construction which would require a more in-depth plan review, and

WHEREAS, the Fire Department is in the process of conducting an analysis of various factors to determine the appropriate fees for the Complete Building; Shell Building; Tenant Improvements; Fire Sprinkler Systems and Fire Alarm Systems to create a new category for "Warehouse (S1 and S2 Occupancies)" which will be calculated using an appropriate hourly rate rather than square footage, and

WHEREAS, the Fire Department expects to complete its analysis by May 30, 2018;

WHEREAS, the Fire Department recommends that Plan Check Fees for Complete Building, Shell Building and Tenant Improvement, Fire Sprinkler Systems and Fire Alarm Systems be deferred in S1 and S2 occupancies until either an Occupancy Permit is issued by the Building Official or until new fees are established.

NOW THEREFORE BE IT RESOLVED, by the Council of the City of Modesto that it hereby approves the deferral of Fire Prevention User Fees for S1 and S2 occupancies in the categories of Complete Building; Shell Building; Tenant Improvements; Fire Sprinkler Systems and Fire Alarm Systems until either an Occupancy Permit is issued by the Building Official or until new Plan Check Fees are established.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING A FOURTH FIRE PREVENTION INSPECTOR II POSITION ALLOCATION FOR THE FIRE DEPARTMENT

WHEREAS, the Fire Department includes a Fire Prevention Division, which is responsible for State mandated annual inspections, new development and tenant improvement inspections, plan reviews, public education presentations, and follow-up on citizen complaints, and

WHEREAS, there are currently approximately 870 State regulated occupancies with State mandated inspections and over 500 assembly occupancies, that do not have State mandated inspections but are considered high risk occupancies necessitating inspection, and

WHEREAS, the Fire Prevention Division has not had a fourth inspector position since September 2008, and

WHEREAS, an increase in the volume of activities and the loss of a Fire Prevention Inspector II have caused staff to be unable to complete mandated inspections on a timely basis, and

WHEREAS, one Fire Prevention Inspector II has been dedicated to performing only construction related inspections due to the significant increase in construction activity within the City's jurisdiction, and

WHEREAS, establishing an additional Fire Prevention Inspector II position would allow the Fire Prevention Division to increase the number and types of mandated inspections performed within the City each year, which will lead to improved safety within the community, and

WHEREAS, with the addition of another Fire Prevention Inspector II and holding the existing Administrative Assistant III position vacant will result in approximately $185 in cost savings annually.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes a fourth Fire Prevention Inspector II position for the Fire Department.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-461

RESOLUTION AMENDING THE FISCAL YEAR 2017-2018 POSITION ALLOCATION FOR THE FIRE DEPARTMENT

WHEREAS, a Position Allocation for the City of Modesto was adopted by Modesto City Council on June 27, 2017, as part of the Annual Budget of the City of Modesto for Fiscal Year 2017-2018, and

WHEREAS, classification studies are conducted to ensure that a classification system is equitable and consistent within an organization and that positions are correctly classified, and

WHEREAS, per Personnel Administrative Order 2.2-87-12, a classification study may be conducted in response to a reclassification request, to develop/revise a classification specification, or to assist in a reorganization, and

WHEREAS, classification studies were conducted by Human Resources to determine appropriate classification, and

WHEREAS, position changes will be effective the first full pay period following Council adoption, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the Fiscal Year 2017-18 Position Allocation for the Fire Department as follows:

1. Reallocate one (1) Administrative Officer Assistant III to one (1) Fire Prevention Inspector II in the Fire Prevention Division of the Fire Department.

The foregoing resolution was adopted at a regular meeting of the Council of the City of Modesto held on the 28th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION AMENDING THE FISCAL YEAR 2017-2018 OPERATING EXPENSE BUDGET FOR THE FIRE DEPARTMENT IN THE AMOUNT OF $83,118 FOR THE CREATION OF A FOURTH FIRE PREVENTION INSPECTOR II POSITION IN THE FIRE PREVENTION DIVISION AS WELL AS AN INCREASE TO THE REVENUE BUDGET FOR FIRE INSPECTION FEES IN THE AMOUNT OF $24,198

WHEREAS, the Fire Department includes a Fire Prevention Division, which is responsible for State mandated annual inspections, new development and tenant improvement inspections, plan reviews, public education presentations, and follow-up on citizen complaints, and

WHEREAS, an increase in the volume of activities and the loss of a Fire Prevention Inspector II have caused staff to be unable to complete mandated inspections on a timely basis, and

WHEREAS, establishing an additional Fire Prevention Inspector II position would allow the Fire Prevention Division to increase the number and types of mandated inspections performed within the City each year which will lead to improved safety within the community, and

WHEREAS, with the addition of another Fire Prevention Inspector II position there would be an increase in revenues from inspection fees in an estimated amount of $24,198 which would offset the additional costs of the requested position, and

WHEREAS, staff is seeking Council authority to increase the Fiscal Year 2017-18 General Fund Operating Expense Budget in the Fire Prevention Division (18510) by $83,118 to account for the increased costs of adding 1.0 additional Fire Prevention Inspector II position which will in turn be offset by an increase in the Fiscal Year 2017-

18 General Fund Operating Revenue Budget in the Fire Prevention Division for Fire Inspection Fees (0100-18510-43342) by $24,198.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an increase of $83,118 to the Fiscal Year 2017-18 Operating Expense Budget in the Fire Department Fire Prevention Division budget for the addition of one Fire Prevention Inspector II position as well as an increase of $24,198 in Operating Revenue Budget for Fire Inspection Fees.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-463

RESOLUTION AUTHORIZING AWARD OF BID FOR THE PURCHSE OF MOBILE DATA COMPUTERS (MDCs) FOR THE MODESTO FIRE DEPARTMENT FROM DELL INC., SANTA CLARA, CA, FOR AN ESTIMATED TOTAL COST OF $113,900 AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE A PURCHASE ORDER

WHEREAS, Robovu, the manufacturer of the Fire Department's existing MDCs no longer supports the units currently being utilized in the field during emergency responses, and

WHEREAS, the Modesto Police Department recently replaced their MDCs with the Dell Latitude 12 Rugged Extreme 7214 and this is the same model of MDC the Fire Department has bid out, and

WHEREAS, having the same MDC units for both Police and Fire makes service and support more efficient and cost effective from an information technology perspective, and

WHEREAS, the City Manager authorized the issuing of a formal Request for Bid (RFB) and the Purchasing Division issued RFB 1718-09 Mobile Data Computers, and

WHEREAS, two companies chose to respond and Dell Inc., Santa Clara, CA was the overall lowest responsive and responsible bidder, and

WHEREAS, the bid for the purchase of mobile data computers to Dell Inc., Santa Clara, CA, conforms to the Modesto Municipal Code, 8-3.203, and

WHEREAS, sufficient funds are budgeted in Fiscal Year 2017-18 in the Fleet Replacement Fund/Fleet Replacement Expenses budget, and

WHEREAS, the Fire Department and Fleet Services will enter into an MOU for the repayment of these costs and future replacement costs to mirror how the Police Department replaces their MDC units.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes award of proposal for the purchase of mobile data computers (MDCs) for the Modesto Fire Department from Dell Inc., Santa Clara, CA for an estimated total cost of $113,900.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute a purchase order.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-464

RESOLUTION APPROVING AN AMENDMENT TO THE AGREEMENT WITH YOSEMITE COMMUNITY COLLEGE DISTRICT AND THE COUNTY OF STANISLAUS FOR THE CONTINUED OPERATIONS OF THE REGIONAL FIRE SCIENCE TRAINING CENTER IN FISCAL YEAR 2017-18 AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AMENDMENT

WHEREAS, the Regional Fire Science Training Center (RFTC) operates under a joint use and management agreement between the City, County of Stanislaus (County), and the Yosemite Community College District (District), and

WHEREAS, the original 20-year agreement was for the construction, maintenance and operation of the facility and expired in 2012 and the 2014 agreement encompassed the maintenance and operation of the facility and expired in June of 2017, and

WHEREAS, the participating agencies are seeking approval of an amendment to the agreement that will enable the local network to continue use of the RFTC for the remainder of the 2017-18 year with an expiration of June 30, 2018, and

WHEREAS, there is currently a liability exposure for all involved parties without such an amendment in place, and

WHEREAS, sufficient funds are budgeted in the Fiscal Year 2017-18 department operating budget, and

WHEREAS, the amendment will enable participating agencies to continue normal operations of the facility while also discussing the future of the partnerships and the facility, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes an amendment to the agreement with Yosemite Community College District and the County of Stanislaus for the continued operations of the Regional Fire Science Training Center in Fiscal Year 2017-18.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the amendment.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-465

RESOLUTION APPROVING THE ESTABLISHMENT OF A CAPITAL IMPROVEMENT PROJECT FOR THE ROOF REPLACEMENT AND EXTERIOR PAINTING OF STATION 1, AND APPROPRIATING $337,850 TO SAID PROJECT FROM THE FIRE DEPARTMENT GENERAL FUND OPERATING BUDGET

WHEREAS, Modesto Fire Department's Station 1 was built in 1939, and

WHEREAS, several layers of roofing material have deteriorated over the years due to water damage causing the roof to need immediate replacement, and

WHEREAS, the scope of work for this project exceeds what can be accommodated in the Fire Department's existing operating budget without significant impact to the operations of the department, and

WHEREAS, the Fire Department has identified a total of $337,850 from its existing General Fund Operating Budget in order to establish a Capital Improvement Project for the work to be completed at Station 1, and

WHEREAS, the funds will come from the Suppression Cost center (18210) account 51403 (Budget Only-Salary Adjustment (Decrease)), and

WHEREAS, once the audited financial statements are finalized, it is anticipated that there will be sufficient money to cover these expenses, and

WHEREAS, staff will be seeking a budget adjustment to reallocate the funds to cover the expenses from the department budget, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the establishment of a Capital Improvement Project for the roof replacement and exterior painting at Station1, and appropriates $337,850 to said project from the Fire Department General Fund Operating Budget.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2017-466

RESOLUTION ACCEPTING THE CALIFORNIA STATE PARK - YOUTH SOCCER AND RECREATION DEVELOPMENT PROGRAM GRANT FUNDS TO FUND THE CARPENTER ROAD AREA SOCCER COMPLEX IN AN AMOUNT OF $1 MILLION AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO ACCEPT AND UTILIZE THE GRANT AWARD

WHEREAS, Bellenita Park was constructed more than 60 years ago and a grant was awarded from the California State Parks - Youth Soccer and Recreation Development Program in an amount of $1 million dollars to fund the Carpenter Road Area Soccer Complex, and

WHEREAS, the Carpenter Road Area Soccer Complex is part of the TRRP system. The portion of the Carpenter Road Area Soccer Complex that this grant is expected to develop is located south of John Street, east of Bellenita Park and northwest of the Sutter Wastewater Treatment Facility, and

WHEREAS, on October 11, 2016, the City Council approved resolution 2016-411 authorizing the submittal of an application to the Youth Soccer and Recreation Grant Program. City Staff submitted an application for this grant program on November 1, 2016, and

WHEREAS, due to a technical issue, on February 28, 2017, the City Council rescinded resolution 2016-411 and approved resolution 2017-82 once again authorizing the submittal of an application to the Youth Soccer and Recreation Grant Program, and

WHEREAS, the City of Modesto has received notice of a grant award from the Youth Soccer and Recreation Development Program in an amount of $1 million to fund

development and construction of a portion of the Carpenter Road Area Soccer Complex, and

WHEREAS, the City will be responsible for contributing $35,000 to the construction of the Soccer Complex.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it accepts the Youth Soccer and Recreation Development Program Grant Funds in an amount of $1 million to fund development and construction of a portion of the Carpenter Road Area Soccer Complex.

BE IT FURTHER RESOLVED that the City Manager or his designee is hereby authorized to accept and utilize the grant award from the Youth Soccer and Recreation Development Program for the development and construction of a portion of the Carpenter Road Area Soccer Complex adjacent to Bellenita Park.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-468

RESOLUTION APPROVING THE GRANT OF AN EASEMENT DEED TO PACIFIC GAS & ELECTRIC COMPANY FOR A FIFTEEN FEET (15') WIDE GAS PIPELINE EASEMENT LOCATED AT 400 SOUTH MORTON BOULEVARD, MODESTO, CA (BEARDBROOK PARK, APN 106-034-001), CONTAINING APPROXIMATELY 5,829 SQUARE FEET AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE EASEMENT DEED

WHEREAS, the City of Modesto maintains a public park known as Beardbrook Park located on South Morton Blvd. (APN 106-034-001), and

WHEREAS, Pacific Gas & Electric Company (PG&E) has installed a gas pipeline within Beard Brook Park, and

WHEREAS, the gas pipeline was installed in 1952 according to an agreement between the City and PG&E, and

WHEREAS, an easement is required at this time to more formally record the gas pipeline easement, and

WHEREAS, this is a part of PG&E's Community Pipeline Safety Initiative, and

WHEREAS, staff recommends the gas pipeline easement be approved.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the grant of a gas pipeline easement deed to Pacific Gas &Electric Company for a fifteen (15') wide gas pipeline located at 400 South Morton Boulevard (APN 106-034-001) containing approximately 5,829 square feet.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the Easement Deed for a gas pipeline easement.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-469

RESOLUTION APPROVING THE PLANS AND SPECIFICATIONS FOR THE CERES TRUNK REHABILITATION PROJECT, ACCEPTING THE BID, AND APPROVING A CONTRACT WITH ROLFE CONSTRUCTION COMPANY OF ATWATER, CA, IN THE AMOUNT OF $5,743,485, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE CONTRACT

WHEREAS, specifications have been prepared for the Ceres Trunk Rehabilitation Project, and City staff recommends approval by the City Council, and

WHEREAS, the bids received for the Ceres Trunk Rehabilitation Project were opened at 11:00 a.m. on October 17, 2017 for the consideration of the Council, and

WHEREAS, the Director of Utilities has recommended that the bid of $5,743,485 received from Rolfe Construction Company be accepted as the lowest responsible and responsive bid and the contract be awarded to Rolfe Construction Company.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the plans and specifications for Ceres Trunk Rehabilitation Project, accepts the bid of $5,743,485 and awards Rolfe Construction Company of Atwater, CA, the contract for the Ceres Trunk Rehabilitation Project.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING AN AGREEMENT WITH BROWN AND CALDWELL, OF WALNUT CREEK, CA, FOR DESIGN SUPPORT DURING CONSTRUCTION FOR THE CERES TRUNK REHABILITATION PROJECT, IN AN AMOUNT NOT TO EXCEED $191,031 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS $19,103 FOR ADDITIONAL SERVICES (IF NEEDED), FOR A MAXIMUM TOTAL AMOUNT OF $210,134, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the Wastewater Collection System Master Plan lists the Ceres Trunk as a high priority project because it is one of the most severely corroded reinforced concrete pipe sewer trunk in the City , and

WHEREAS, the pipe's poor condition was evident in March 2015 when the City's Collections crew made immediate repairs to sections of the Ceres Trunk to prevent collapse and obstruction of flows near the Tuolumne River, and

WHEREAS, Brown and Caldwell are the Engineer-of-Record for the project, design support services from Brown and Caldwell are required to ensure construction of the facilities meets the original design described in the plans and specifications, and

WHEREAS, in accordance with Administrative Directive 3.1, Selection Procedures for Professional Consultants who provide Architectural and Engineering Services for Capital Projects, the selection committee evaluated the proposals and determined Brown and Caldwell to be the most qualified and responsive, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with Brown and Caldwell, Walnut Creek, CA, for engineering support during construction services in an amount not to exceed $191,031,

for the identified scope of services, plus $19,103 for additional services, if needed, for a maximum total amount of $210,134.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the agreement in a form approved by the City Attorney.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-472

RESOLUTION APPROVING A PURCHASE AND SALE AGREEMENT WITH JACOBS-WALDEN FAMILY TRUST, FOR THE ACQUISITION OF A TOTAL OF 800 SQUARE FEET OF EASEMENT AREA, LOCATED AT 207 STODDARD AVENUE (APN: 110-003-070) FOR A PERMANENT SEWER EASEMENT AND TEMPORARY CONSTRUCTION EASEMENT, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE PURCHASE AND SALE AGREEMENT AND ALL RELATED DOCUMENTS REQUIRED TO COMPLETE THE SALE AND CLOSE ESCROW

WHEREAS, the City of Modesto is replacing and improving older sewer infrastructure in various Modesto neighborhoods, and

WHEREAS, the Stoddard Avenue neighborhood project will require sewer easements as part of an upgrade and replacement of sewer lines, and

WHEREAS, the project requires acquisition of one new permanent sewer easement location and a temporary easement for the sewer construction on a private property, and

WHEREAS, the Stoddard area neighborhood is one area identified for replacement and repair due to its aging sewer infrastructure and increased demand, and

WHEREAS, a sewer main replacement project was designed to replace and reroute the existing sewer system, and

WHEREAS, one parcel requires a new easement to collect wastewater and deliver it to the sewer main in the public right of way of Stoddard Avenue, and

WHEREAS, an appraisal report was ordered to determine the fair market value for a permanent sewer easement and a temporary construction easement, and

WHEREAS, City staff is recommending acquisition of easement interests, and

WHEREAS, an agreement is needed for the acquisition of the easements and City staff recommends approving the Purchase and Sale Agreement for acquisition of the required easements.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Purchase and Sale Agreement with Jacobs-Walden Family Trust, for the acquisition of a permanent sewer easement, consisting of a 150 square feet, and a temporary construction easement, consisting of 650 square feet, for acquisition of a total of 800 square feet of easement area and located at 207 Stoddard Avenue (APN 110-003-070), for the 2015-2016 Sanitary Sewer Collection System Replacement Project.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the Agreement, and all related documents required to close escrow.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of November, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING AN INCREASE TO THE ANNUAL PURCHASE AGREEMENT WITH RANK INVESTIGATION AND PROTECTION, INC., MODESTO, CALIFORNIA, BY $61,000 FOR A TERM OF 6 MONTHS ENDING JUNE 30, 2018 WITH A NOT TO EXCEED TOTAL AGREEMENT OF $111,000 FOR SECURITY GUARD SERCVICES FOR MODESTO CENTRE PLAZA, CITY PARKS AND CITY PARKING GARAGES AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO INCREASE THE PURCHASE AGREEMENT

WHEREAS, the City uses armed uniformed security guard services to enhance the safekeeping of various City facilities and to provide additional protection at certain events, and

WHEREAS, those facilities include the Modesto Centre Plaza, City Parks, and City Parking Garages, and

WHEREAS, the City requested informal bids for Security Guard Services in November 2015 and on January 7, 2016 issued an annual agreement to Rank Investigations to provide armed uniformed security guard services on an as-needed basis for two years for a cost not to exceed $50,000, and

WHEREAS, the City has a critical need for armed security guard services that supplement its contracted unarmed services and those of the Modesto Police Department; and without armed security guard services, there is a risk of loss of property and an increased concern for public safety, and

WHEREAS, staff intends to conduct a formal Request for Bid during the next 6 months and there is a need for continued security guard services during this timeframe, and

WHEREAS, the Purchasing Manager has determined that a calling for bids on a competitive basis is undesirable due to exigent circumstances in accordance with MMC 8-3.204(c) since the City cannot have any lapse in armed security guard services as it is a critical service for public safety and the safeguarding of City assets.

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto that it approves an increase to the annual purchasing agreement with Rank Investigation and Protection, Inc., Modesto, California, by $61,000 for a term of 6 months ending June 30, 2018 with a not to exceed total agreement of $111,000 for security guard services for Modesto Centre Plaza, City Parks and City Parking Garages.

BE IT FURTHER RESOLVED, that the Interim City Manager, or his designee, is authorized to increase the purchase agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of November, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-477

PRINT

RESOLUTION APPROVING AN INCREASE OF $115,000 TO BLANKET PURCHASE ORDER 121044 WITH SAFE-T-LITE, MODESTO, CA, FOR SAFETY TOOLS, SIGNAGE, EQUIPMENT, FIELD SUPPLIES AND BARRICADE RENTALS FOR EMERGENCY PREPARATIONS, ROAD CLOSURES AND ANNUAL SPECIAL EVENTS, FOR A TOTAL AMOUNT NOT TO EXCEED $165,000, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO INCREASE THE ANNUAL BLANKET PURCHASE ORDER

WHEREAS, The City uses safety tools, signage, equipment and field supplies for road closures, water construction, and daily duties, on an as-needed basis to ensure the safety of construction and transit activity, and

WHEREAS, under the City of Modesto's Purchasing Policy, one of the procurement methods used under this policy allows for the Purchasing Division to establish a Blanket Purchase Order; a Blanket Purchase Order is issued to selected suppliers for use by City employees to procure repetitive, high volume, low dollar value (less than $1,000) items on a continuing basis and annual spending must be under $50,000, and

WHEREAS, on July 1, 2017, the City entered into a Blanket Purchase Order 121044 with Safe-T-Lite for $50,000 for citywide use; This Blanket Purchase Order expires June 30, 2018; Safe-T-Lite has reached the $50,000 cap and departments cannot use this blanket purchase order until Council approves a higher spending level, and

WHEREAS, staff is requesting this increase be made until a formal Request for Bid (RFB) can be done which is scheduled to be completed by the end of the fiscal year, and

WHEREAS, PRN utilizes barricades from Safe-T-Lite during the holiday season for traffic and pedestrian control during the Celebration of Lights Parade and Spirit of Giving Run; In the event of a large storm Public Works orders additional barricades to assist with street closures, and

WHEREAS, per MMC Section 8-3.204(c), Exceptions to Formal Bidding Requirements, provides that the Purchasing Manager, in his or her discretion, may determine that calling for bids on a competitive basis as set forth in Modesto Municipal Code section 8-3.203 is undesirable due to exigent circumstances, and

WHEREAS, the Purchasing Manager has determined that the current situation is an exigent circumstance since the City cannot have any lapse in the safety tools, signage, equipment and field supplies for road closures, and barricades that are provided by Safe-T-Lite and are essential for the day-to-day operation of the City as well as the special events held within the City, and

WHEREAS, the Purchasing Manager recommends staff be allowed to increase spending authority under this Blanket Purchase Order to $165,000 in accordance with MMC Section 8-3.204(c) ensuring citywide services are not interrupted and needed work is not significantly delayed.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an increase of $115,000 to Blanket Purchase Order 121044 with Safe-T-Lite, Modesto, CA, for a total amount not to exceed $165,000.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to increase the annual Blanket Purchase Order.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of November, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2017-478

PRINT

RESOLUTION APPROVING THE RETROACTIVE ADDITION OF AQUATIC BIOASSAY & CONSULTING LABORATORIES, INC., VENTURA, CA, TO THE PURCHASING AGREEMENT APPROVED BY RESOLUTION NO. 2013-66

WHEREAS, the requirements for monthly bioassay testing are mandated by the California Regional Water Quality Control Board, Central Valley Region, as specified in two Waste Discharge Requirements (WDRs) (Order No. R5-2016-0010 and No. R5-2017-0064), and required for discharging treated municipal wastewater to the Delta-Mendota Canal or San Joaquin River, and

WHEREAS, bioassay testing is also mandated by our Storm Water Permit (Order No. R5-2016-0040) that requires annual testing for two wet weather and one dry weather sample, and

WHEREAS, in accordance with MMC Section 8-3.203 and on February 12, 2013, by Resolution No. 2013-66, Council approved a purchasing agreement with multiple vendors for analytical laboratory testing; Alpha Analytical Laboratories, BSK Analytical Laboratories, FGL Environmental, Sierra Analytical and TestAmerica Laboratories for an annual amount of $333,160, for two years, with three one-year extensions, for an amount not to exceed $1,665,800 over five years, and

WHEREAS, on August 5, 2013, FGL Environmental communicated to Purchasing that the company would no longer be managing the bioassay test and provided the information for their subcontractor, Aquatic Bioassay and Consulting Laboratories, and

WHEREAS, none of the companies approved by Council on February 12, 2013 are able to perform this testing in a timely manner, and

WHEREAS, the next mandatory testing date will be the week of December 4, 2017. It is important to have a vender under agreement that can perform the testing in order to avoid the risk of civil and criminal penalties, and

WHEREAS, the total amount currently expended for all vendors under these purchasing agreements is $1,085,015 of the $1,665,800 originally authorized by Council, and

WHEREAS, all agreements expire on February 11, 2018, and

WHEREAS, bioassay testing was originally factored into these amounts and is included under Council's authorization in Resolution No. 2013-66,

WHEREAS, staff is not seeking to increase original authorized amounts as they have not been exceeded and are sufficient to cover payments to Aquatic Labs through February 2018, and

WHEREAS, staff anticipates spending no more than $30,000 through February 2018 for future testing resulting in total payments of $169,325 to Aquatic Labs from 2013 through February 2018.

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto that it approves the retroactive addition of Aquatic Bioassay & Consulting Laboratories, Inc., Ventura, CA, to the purchasing agreement approved by Resolution No. 2013-66.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of November, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-485

RESOLUTION APPROVING THE REAPPOINTMENT OF ALLAN RAMSAY AND DICK BRANER TO THE MODESTO CITY-COUNTY AIRPORT ADVISORY COMMITTEE FOR A TWO YEAR TERM

WHEREAS, the City of Modesto operates the Modesto City-County Airport (Airport) for the benefit of all businesses, industries, visitors and residents in the City of Modesto, Stanislaus County and surrounding areas, and

WHEREAS, the Modesto City Council and the Stanislaus County Board of Supervisors seek to ensure that the Airport is maintained and developed in such a manner that it will continue to be a high quality aviation facility for its users and a good neighbor in the community, recognizing that both the users and community may change as the surrounding area continues to grow and develop, and

WHEREAS, both Allan Ramsay and Dick Braner have already served a two year term, and

WHEREAS, Section 1102 of the Charter of the City of Modesto authorizes the City Council to appoint members to various Boards and Commissions.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the reappointment of Allan Ramsay to fill the position on the Modesto City-County Airport Advisory Committee representing an airport general aviation small aircraft owner, and Dick Braner to fill the position on the Modesto City-County Airport Advisory Committee representing an airport general aviation business owner/service provider, each for a term of two years.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of December, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-486

RESOLUTION APPROVING A HOMEOWNER REHABILITATION PROGRAM LOAN TO SANDRA STARN FOR HEALTH AND SAFETY CONCERNS OF THE PROPERTY AT 139 LEE STREET MODESTO, CA 95354, NOT TO EXCEED $91,770, AND AUTHORIZING THE INTERIM CITY MANAGER TO EXECUTE THE AGREEMENT AND LOAN DOCUMENTS

WHEREAS, the Homeowner Rehabilitation Loan Program is designed to repair or eliminate health and safety hazards in residential properties for qualifying low income households whose income is 80% or below the Area Median Income, and

WHEREAS, eligible improvements include roofing, weatherization, heating and cooling systems, plumbing, electrical, ramps, handrails and widening of doorways, and

WHEREAS, financial assistance is available in the form of low interest loans, secured by Deeds of Trust and recorded against equity qualifying owner-occupied properties, and

WHEREAS, the Homeowner Rehabilitation Grant Program is designed to address health and safety concerns in residential properties for qualifying low income households whose income is 80% or below the Area Median Income (AMI) and eligible Improvements include upgrading or replacement of heating, ventilating and air conditioning systems; replacement of windows, water heaters, doors, fans; insulation, and leaking roofs, and

WHEREAS, technical assistance is provided for both programs and includes preparation of work specifications, preparation and review of cost estimates, bidding assistance and coordination with local contractor(s) to ensure work is completed pursuant to applicable Federal & State regulations, and

WHEREAS, January 27, 2017, staff met with Sandra Starn (homeowner) to conduct an assessment of her property located at 139 Lee Street, Modesto, CA, 95354 (property) and the inspection found signs of roofing and subflooring damage, damage to the bathroom ceiling, window and door replacement, need for a new HVAC unit, insulation, exterior painting, and the removal and replacement of the electrical box, and

WHEREAS, February 16, 2017, this project was presented to the Housing Rehabilitation Loan Committee (HRLC) to consider either a full demolition and reconstruction project not to exceed $130,000 or a substantial rehabilitation project not to exceed $105,000. The committee recommended exploring both options and asked staff to return to the committee with the lowest and most responsive option, and

WHEREAS, May 17, 2017, staff posted a request for bids on the project pursuant to a reconstruction project this resulted two bids were unreasonable; exceeding the maximum cost thresholds approved by the committee, and

WHEREAS, on October 9, 2017, staff posted a request for bids on the project pursuant to the rehabilitation approach; pursuant to Section 10.0 (Bid Solicitation Process) of the Housing Rehabilitation Program Policies and Procedures, a minimum of three bids by a California Licensed Contractors shall be obtained prior to bid approval consideration, and

WHEREAS, this approach is considered a cost savings measure and generally results in lower bid results, and

WHEREAS, collectively, staff received three (3) total bids for the project, however only one (1) responsive bid was received for the rehabilitation project approach, and

WHEREAS, staff reviewed this bid submittal to determine reasonableness compared to the cost estimate prepared by the Housing Rehabilitation Specialist and the analysis revealed that the rehabilitation proposal is reasonable, and

WHEREAS, on November 2, 2017, HRLC agreed with the staff analysis and requested the item be forwarded to the council for approval, and

WHEREAS, a more detailed breakdown of the project improvements and corresponding bid results are provided in the Homeowner Rehabilitation Program Summary Sheet, provided as **Attachment A.**

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it hereby approves a Homeowner Rehabilitation Program Loan toSandra Starn for health and safety concerns of the property at 139 Lee Street Modesto, Ca 95354, in an amount not to exceed $91,770

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the agreement and loan documents, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-487

RESOLUTION APPROVING A CONTRACT WITH BENEFITFOCUS FOR THE ESTABLISHMENT OF AN ONLINE BENEFITS PORTAL IN THE AMOUNT NOT TO EXCEED $53,805 DURING THE FIRST YEAR AND $202,833 OVER FIVE YEARS, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEEMENT

WHEREAS, the City of Modesto requested our acting benefits broker, Peter C. Foy & Associates, to conduct research and recommend companies that could transition the City's benefit functions to an online portal, and

WHEREAS, the City was presented with a list of twenty-one (21) benefit administration companies, this list was then narrowed to five (5) companies utilizing a matrix of most desired products and overall benefits to the City, and

WHEREAS, three (3) companies presented formal presentations to the City in July 2017, and

WHEREAS, the Director of Human Resources recommends that the bid of $53,805 received from Benefitfocus be accepted as the most viable option for the City's online benefit portal needs and the contract be awarded to Benefitfocus.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the establishment of an online benefits portal, awarding a service contract to Benefitfocus in the amount not to exceed $53,805 during the first year and $ 202,833 over five.

BE IT FUTHER RESOLVED by the Council of the City of Modesto that the City Manager, or designee, is hereby authorized to execute the contract, in a form approved by the City Attorney.

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 5th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Mayor Brandvold
NOES:	Councilmembers:	None

RESOLUTION AMENDING THE FISCAL YEAR 2017-2018 OPERATING BUDGET IN HUMAN RESOURCES DEPARTMENT IN THE AMOUNT OF $53,805

WHEREAS, certain budgetary transactions are necessary in the amount of $53,805 in order to establish the online benefit portal, and

WHEREAS, the Fiscal Year 2017-2018 Operating Budget will be amended in the amount of $53,805, which is incorporated by reference herein,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the amendment of the Fiscal Year 2017-2018 Operating Budget by $53,805.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-489

RESOLUTION APPROVING AND AUTHORIZING THE MAYOR OR HIS DESIGNEE TO EXECUTE AN AGREEMENT WITH CPS HR CONSULTING, SACRAMENTO, CA, A PROFESSIONAL FIRM, TO PROVIDE EXECUTIVE RECRUITMENT SERVICES FOR THE POSITION OF CITY MANAGER FOR A NOT TO EXCEED AMOUNT OF $23,500, PLUS $11,500 IN COSTS AND EXPENSES, EFFECTIVE DECEMBER 5, 2017.

WHEREAS, the City Manager provided his resignation on March 30, 2017 and his last day in office was March 31, 2017, and

WHEREAS, the City Council appointed an acting City Manager effective April 4, 2017, and

WHEREAS, the City Council retitled the acting City Manager to interim City Manager effective July 5, 2017, and

WHEREAS, the City Council needs to appoint a permanent City Manager to fill the role of City Manager within City service, and

WHEREAS, the City has determined that it needs assistance conducting an executive level recruitment for City Manager

WHEREAS, the City Council contacted various firms to determine their availability to provide said services.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves and authorizes the Mayor or his designee to execute an agreement with CPS HR Consulting, a professional firm, to provide executive recruitment services for a City Manager. Be it further resolved that the Agreement shall be in a substantially similar form as that **attached** to this Resolution as **Exhibit "A".**

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 5th day of December, 2017, by Councilmember Ah You, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

Your Path to Performance

CPS HR CONSULTING

October 20, 2017

Ted Brandvold, Mayor
City of Modesto
PO Box 642
Modesto, CA 95353

Submitted via email to: tbrandvold@modestogov.com

Subject: Executive Recruitment Services for City Manager

Dear Mr. Brandvold:

CPS HR Consulting (CPS HR) is pleased to have the opportunity to submit a proposal to assist the City of Modesto (City) with the recruitment of a new City Manager. We are uniquely qualified to undertake this effort as we have vast experience in assisting public agencies with executive search, screening, and placement.

We understand that each agency is unique, and our extensive experience allows us to tailor our process to specifically meet your needs. Our work with local government agencies throughout the United states gives us an in-depth understanding of government operations, programs, and services.

Each recruitment is an opportunity to shape and prepare your organization for the future. We understand how important this transition is for you and are perfectly placed to assist you in this endeavor. Once this project begins, we will work with the City to tailor our process to highlight this exciting opportunity and attract the best possible candidates.

Agency	Title	Year Completed
Oro Valley, Town of	Town Manager	2017
Merced County Association of Governments	Executive Director	2017
Avalon, City of	City Manager	2016
Boulder, City of	Deputy City Manager	2016
Hayward Area Recreation and Park District	General Manager	2016
Santa Clara, County of	Deputy County Executive	2016

Agency	Title	Year Completed
South San Luis Obispo County Sanitation District	District Administrator	2016
Anaheim, City of	City Manager	2015
East Palo Alto, City of	City Manager	2015
Garden Grove, City of	City Manager	2015
Marana, Town of	Deputy Town Manager	2014
Maricopa, City of	City Manager	2014
Maricopa, City of (Partial)	Assistant to the City Manager	2014
Paradise Valley, Town of	Town Manager	2014
San Francisco Estuary Institute	Executive Director	2014

It is our commitment to work in partnership with your organization to a successful result.

Thank you for the opportunity to be considered for this assignment. Should you have questions or comments about the information presented in this proposal, **please contact me at masher@cpshr.us or (916) 471-3358.**

Sincerely,

Melissa Asher

Methodology

Key Stakeholder Involvement

The City Council must be intimately involved in the search for a new City Manager. For this reason, our approach assumes their direct participation in key phases of the search process. Additionally, at the discretion of the City Council, other key stakeholders may also be invited to participate in focus group sessions or round-table meetings to provide input for the development of the candidate profile.

City's Needs

A critical first step in a successful executive search is for the City Council to define the professional and personal qualities required of the City Manager. To be certain this occurs, we have developed a very effective process that will permit the City Council to clarify the preferred future direction for the City of Modesto (City); the specific challenges the City is likely to face in achieving this future direction; the working style and organizational climate the City Council wishes to establish with the City Manager; and ultimately, the professional and personal qualities that will be required of the City Manager.

Commitment to Communication

Throughout the recruitment process, we are strongly committed to keeping you fully informed of our progress. We will collaborate with you to provide updates on the status of the recruitment via your preferred method of communication (phone conference, email, etc.).

In addition, during each phase in the process, we are corresponding with candidates and advising them of their status. We place the highest level of importance on customer service and responding in a timely manner to all client and candidate inquiries. Our previous clients and candidates have expressed a sincere appreciation for our level of service and responsiveness to the management of the recruitment process; as a result, we have many long-term relationships with clients that have resulted in the opportunity to assist them with multiple recruitments.

CPS HR's communication extends once you have selected the new City Manager. We will contact both the City Council and the newly appointed City Manager within six months of appointment to ensure an effective transition has occurred.

Aggressive, Proactive, and Robust Recruitment

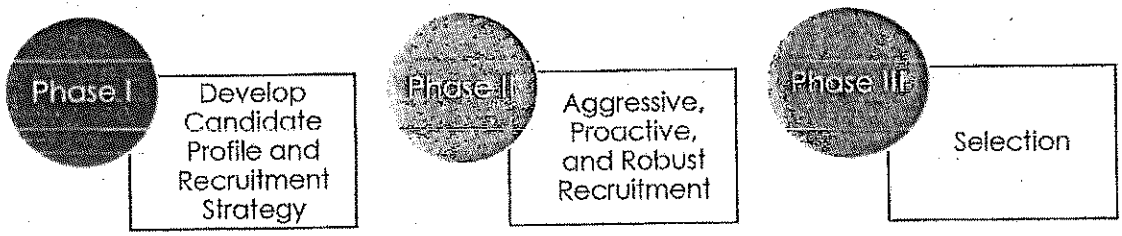
We take an aggressive approach in identifying and recruiting the best available candidates. There are those candidates who would gladly rise to the professional challenge and apply for this position; however, some of the best candidates are often not actively seeking a new position and may only consider a change once we present them with your opportunity. Evoking the sense of vision and opportunity in qualified persons is among the responsibilities of CPS HR, and we pride ourselves in our efforts to reach the best available potential candidates.

Selection

The selection of the best available candidate requires the use of tools specifically designed to evaluate each candidate against the personal and professional qualities identified by the City Council. For this reason, we tailor our selection techniques to the City's specific requirements. In addition, we also assume responsibility for administering the selection process for the City.

Three-Phase Project Approach for Success

Our proposed executive search process is designed to provide the City with the full range of services required to ensure the ultimate selection of a new City Manager who is uniquely suited to the City's needs.



Phase I: As desired by the City, our consultant will meet with the City Council and other City representatives to ascertain the City's needs and ideal candidate attributes, to target our search efforts, and maximize candidate fit with the City.

Phase II: The recruitment process is tailored to fit the City's specific wants and needs, with targeted advertising, combined with personal contacts with qualified individuals from our extensive database.

Phase III: The selection process is customized for the City. CPS HR will work with the City Council to determine the process best suited to the City of Modesto.

Project Tasks

Phase I - Develop Candidate Profile and Recruitment Strategy

Task 1 - Review and Finalize Executive Search Process and Schedule

The first step in this engagement is a thorough review of the following with the City Council:

- City's needs, culture, and goals
- Executive search process
- Schedule

This will ensure that the City's needs are met in the most complete manner possible.

Task 2 - Key Stakeholder Meetings

As desired by the City, CPS HR is prepared to meet with any additional key stakeholders to obtain input in developing the ideal candidate profile and to assist CPS HR in understanding key issues and challenges that will face a new City Manager. The specific nature of the involvement process would be developed in consultation with the City. The results of the above activities will be summarized by CPS HR and provided to the City as an additional source of information for developing the candidate profile and selection criteria.

Task 3 - Candidate Profile and Recruitment Strategy Development

This task will be accomplished during a workshop session involving the City Council and CPS HR. It will result in the identification of the personal and professional attributes required for the position and will include the following activities:

- The City Council will identify key priorities for the new City Manager.
- CPS HR will assist them in identifying the conditions and challenges likely to be encountered in achieving the priorities identified above.
- The City Council will describe the type of working relationship they wish to establish with the City Manager.
- CPS HR will assist the City in generating lists of specific competencies, experiences, and personal attributes needed by the new City Manager in light of the analyses conducted above.
- CPS HR will present several recruitment and selection strategies for the City's consideration. The City will choose the recruitment and selection process most likely to produce the intended results.

Task 4 – Develop Recruitment Brochure

Following the completion of the workshop session, CPS HR will work with a professional graphic artist to design a recruitment brochure and present it to the City for review prior to printing. Please refer to **Appendix A** for a sample brochure. Additional brochure examples are available on our website at www.cpshr.us/search.

Task 5 – Place Advertisements

Advertisements (which will include a direct link to your brochure) will be prepared and placed for publication in appropriate magazines, journals, newsletters, job bulletins, social media, and websites to attract candidates on a nationwide, regional, local, or targeted basis, depending on the preference of the City. CPS HR will present examples to the City for review and approval. Examples may include:

Advertising Sources	
• Jobs Available	• League of CA Cities (On-Line)
• LinkedIn	• ICMA
• MMANC/MMASC	• Public CEO
• California City Management Foundation	• CA City News
• NFBPA	• International Hispanic Network
	• CPS HR Website

CPS HR will prepare an email distribution list containing prospective candidates and referral sources. These individuals will receive a link to the City Manager brochure along with a personal invitation to contact CPS HR should they have any questions about the position.

CPS HR is focused on reaching a diverse candidate pool and would recommend publications/websites that are targeted to minority and female candidates. CPS HR will specifically research other jurisdictions in which the demographics mirror those of the Stanislaus County area and target outreach to those individuals. In addition to placing ads on websites aimed at minority candidates, we will contact leaders within appropriate associations to gain their insight and referrals of possible candidates.

Within the past five years, we have successfully placed more than 170 minority and female candidates in executive level positions.

Phase II – Aggressive, Proactive, and Robust Recruitment

Task 1 - Identify and Contact Potential Candidates

This very crucial task will include a variety of activities. CPS HR will:

- Contact respected and experienced industry leaders to identify outstanding potential candidates on a referral basis. CPS HR maintains a comprehensive, up-to-date database of such professionals; however, we do not rely solely upon our current database. We also conduct specific research to target individuals relevant to your specific needs and expectations to ensure that we are thorough in our efforts to market this position to the appropriate audience and to garner a diverse and quality pool of candidates. These individuals, as well as other potential candidates, are typically contacted very soon after they have received a recruitment brochure in order to maximize the impact of the multiple contacts.
- Select top quality candidates for consideration from past recruitments.
- Provide each potential candidate with a copy of the recruitment brochure.
- Contact potential candidates by telephone to explain the career opportunity, answer questions, and encourage them to submit a resume. Oftentimes this component necessitates multiple conversations with the same person to pique his/her interest and to answer his/her questions sufficiently.

As a consulting firm that interacts with hundreds of public sector executives during engagements, we have a cadre of individuals who we inform of recruitments, both to increase the visibility of the opening and to attract appropriate individuals who fit the special needs of our client. Communication with these professionals ensures that an accurate picture of the requirements of the job is apparent and proliferated throughout their professional networks. The approach utilized by CPS HR employs the following techniques:

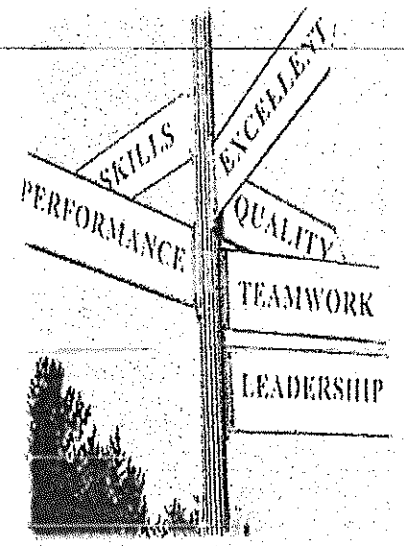
- Communicating to candidates, through advertising materials and verbal conversations, a strong sense of the purpose and strategy of the City. For many talented individuals, understanding these aspects is one of the key motivators to compete in such an environment.
- Providing guidance and resources to candidates regarding the area's cost of living, mean and median housing prices, higher education opportunities, K-12 education information, and other aspects of interest to those who are considering relocating to the area. We have found that potential candidates sometimes make the decision not to apply based on

rumored information, rather than facts and research. It is our job to ensure the candidates we are in communication with have accurate and helpful information.

- Actively seeking individuals who are highly visible in the field – widely published, frequent presenters and/or thought leaders – who are seemingly ready for the challenge. These highly qualified candidates may be attracted by the prospect of collaboration with other City departments, providing exceptional leadership to the City of Modesto, or continuing to ensure the public confidence in the integrity of the City.

Task 2 – Resume Review and Screening Interviews

All resumes will be submitted directly to CPS HR for initial screening. This screening process is specifically designed to assess the personal and professional attributes the City is seeking and will include:



- A thorough review of each candidate's resume, and if applicable, supplemental questionnaire responses and other supporting materials.
- Interviews with the candidates who appear to best meet the City's needs. CPS HR will spend extensive time ascertaining each candidate's long term career goals and reasons why the candidate is seeking this opportunity, as well as gaining a solid understanding of the candidate's technical competence and management philosophy. We will also gather data on any other unique aspects specific to this recruitment based upon the candidate profile.
- Internet research on each candidate interviewed.

Task 3 – City Council Selects Finalists

At the conclusion of the previous tasks, CPS HR will prepare a written report that summarizes the results of the recruitment processes and recommends candidates for further consideration by the City. Typically the report will recommend five to eight highly qualified candidates, and will include resumes and a profile on each interviewee's background. CPS HR will meet with the City Council to review this report and to assist the City in selecting a group of finalists for further evaluation.

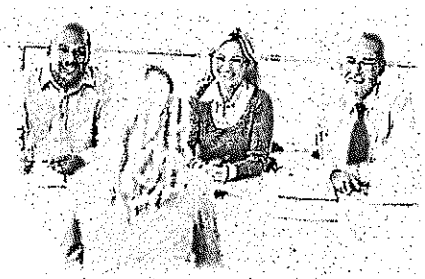
Phase III – Selection

Task 1 - Design Selection Process

Based on the results of the meeting conducted in Phase I, CPS HR will design a draft selection process. CPS HR will meet with the City to review this process and discuss the City's preferred approach in assessing the final candidates. The selection process will typically include an in-depth interview with each candidate, but may also include other selection assessments such as an oral presentation, preparation of written materials, and/or problem-solving exercises.

Task 2 - Administer Selection Process

CPS HR will coordinate all aspects of the selection process for the City. This includes preparing appropriate materials such as interview questions, evaluation manuals, and other assessment exercises; facilitating the interviews; assisting the City with deliberation of the results; and contacting both the successful and unsuccessful candidates.



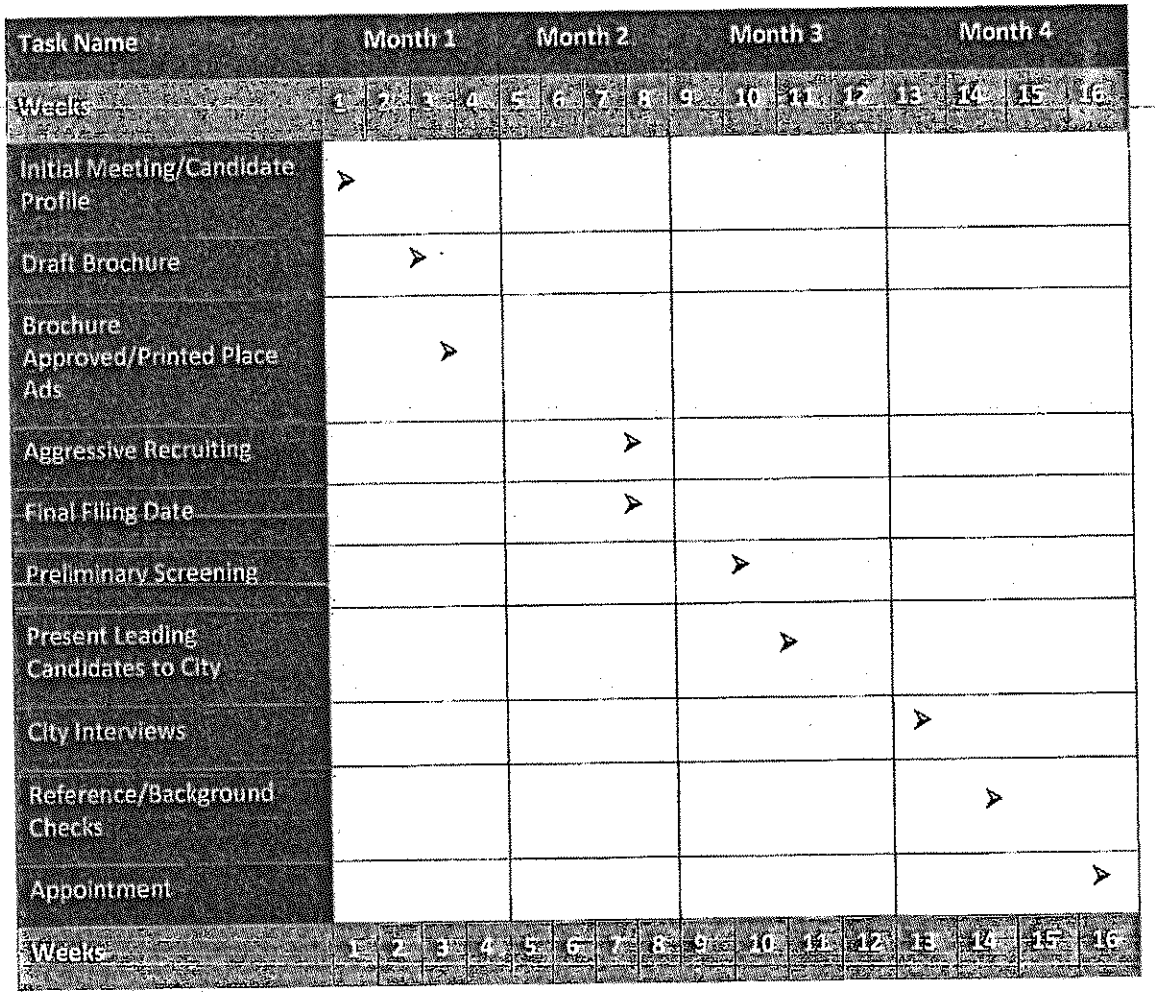
Task 3 – Final Preparation for Appointment

Following the completion of the selection process, CPS HR will be available to complete the following components:

- ***Arrange Follow-up Interviews/Final Assessment Process:*** Should the City wish to arrange follow-up interviews and/or conduct a final assessment in order to make a selection, CPS HR will coordinate this effort.
- ***Conduct In-Depth Reference Checks:*** The in-depth reference checks are a comprehensive 360 evaluation process whereby we speak with current and previous supervisors, peers, and direct reports. (It is our policy to not contact current supervisors until a job offer is made contingent upon that reference being successfully completed so as not to jeopardize the candidates' current employment situation.) The candidates are requested to provide a minimum of six references sources. CPS HR is able to ascertain significant, detailed information from reference sources due to our assurance and commitment to each individual that their comments will remain confidential, which leads to a willingness to have an open and candid discussion, resulting in the best appointment for the City. A written (anonymous) summary of the reference checks is provided to the City.
- ***Conduct Background Checks:*** We will arrange for a background records check of a candidate's driving record, criminal and civil court, credit history, education, newspaper article publishings, and other sensitive items. Should any negative or questionable content appear during these checks, CPS HR will have a thorough discussion with the finalist(s) and will present a full picture of the situation to the City for further review.

Project Timeline

The project team CPS HR has selected is prepared to begin work upon receipt of a fully-executed contractual agreement. All search activities up to and including the selection of a new City Manager can be completed in 14 to 16 weeks. The precise schedule will depend on the placement of advertising in the appropriate professional journals, and the ability to schedule, as quickly as possible, the initial meeting. A proposed schedule of major milestones is presented below.



Executive Recruitment Team

Our executive recruitment team of Ms. Pam Derby, Mr. Frank Rojas, Mr. Stuart Satow, and Ms. Teresa Webster possesses extensive public sector recruiting experience and will serve as resources throughout this recruitment effort. The specific project manager will be determined based on our ability to meet all your customer service needs in a timely and effective manner. We do not utilize subcontractors and no staff members will be removed or replaced without the prior written concurrence of the City. Their full resumes follow.

Role/Project Assignment	Name	Phone	Email

Resumes

Pamela H. Derby

Profile

Since joining CPS HR Consulting in 2003, Pam Derby has conducted a wide range of recruitments for county, city, special district and association executives including city attorney, executive director, general manager, city manager, assistant and deputy city manager, police chief, community and economic development director, human resource director, finance director, city administrator, registrar of voters, library director, and director of information technology in addition to specialized support positions.

Prior to joining CPS HR, Ms. Derby served as the Aide to the Yuba County Board of Supervisors serving as the Board's liaison to County Department Heads, the community, and the media. This experience provided her with a unique perspective into the special circumstances that exist in a Board/Council-Manager relationship and a keen awareness of the inner workings of local government. She is sensitive to balance the wants of the community with the needs of the client so as to tailor a recruitment process that reaches out to the most appropriate candidates and ensures a diverse group of individuals from which to make a selection. She has successfully employed these techniques in jurisdictions ranging from under 10,000 to 10 million. Moreover, she employs a firmly-held personal philosophy that candidates must be treated with the same respect and careful consideration as her client. Prior to her local government service, Ms. Derby

served in the private sector and with several non-profit lobbying associations. She was responsible for the management of several large consumer groups.

Employment History

- Senior Executive Recruiter, CPS HR Consulting
- Professional Management Consultant, CPS HR Consulting
- Administrative Technician, CPS HR Consulting
- Aide to the Board of Supervisors, Yuba County, CA
- Special Cases Manager, Consumer Relations, The Money Store, CA
- Supervisor, Trailing Documents, The Money Store, CA
- Executive Assistant, Randlett Associates, CA

Professional Experience

- Project manager for local government, special district, and non-profit executive recruitments. Responsible for all facets of process including proposal interviews, all client meetings, creating marketing and advertising materials, conducting candidate screening interviews and developing finalist candidate interview processes.
- Assisted executive recruiting team in the recruitment of local government and public agency executives.
- Managed staff responsible for addressing escalated customer complaints. Negotiated and mediated pre-litigation settlements with attorneys, state regulators, and other state agencies, involving home improvement loans. Served as department fraud coordinator.
- Provided administrative support to SVP, including drafting correspondence, report writing, and special projects as assigned. Supervised department receptionist, responsible for interfacing with vendors and facilities management.
- Provided administrative and research support for private professional lobbying firm. Researched legislative bills, corresponded with professional association members regarding legislative proposals.

Education

- California State University, Chico, major course emphasis – Physical Education/English

Frank Rojas

Profile

Frank Rojas is a Senior Executive Recruiter with CPS HR Consulting. Frank brings more than 30 years of recruiting experience from the highly competitive direct placement and contract labor industries as well as the corporate environment. Mr. Rojas has significant experience placing corporate leaders, executive, professional, and technical staff including individual contributors for government sector, non-profits, aerospace, architectural and engineering, information technology, petroleum and chemical, energy, power, civil/structural, transportation and private industry.

In addition to just completing recruitments for City of Moreno Valley, City of Anaheim, City of Upland, and OCTA, recent successful efforts include positions of City Manager, Director of Human Resources & Organizational Development, Vice President of Human Resources, Chief Executive Officer, Chief Information Officer, Vice President of Risk, Corporate and Government Controllers, General In-House Counsel, and Director-level hires for Finance, Administrative Services, Engineering, Emergency Services, Fleet, Environmental, Regulatory Compliance, Training, and Division/Site General Managers. Mr. Rojas has established a strong client and customer base through trust, effective recruiting, relationship building, and teamwork.

Mr. Rojas began his career in Contract Labor and over the next 20+ years launched seven start-up offices in several states and locations providing direct placement and contract support to hundreds of clients in virtually all industries and levels of talent. He continued his career in the non-profit environment managing and building talent acquisition support during significant growth periods. Having been a speaker at several networking and career coaching venues, Frank believes in utilizing traditional recruiting methodology with social media. He was named in the top 1% viewed profiles on LinkedIn.

Mr. Rojas resides in Riverside, CA.

Employment History

- Senior Executive Recruiter, CPS HR Consulting
- Employment Director and Senior Recruiter, PRIDE Industries
- Corporate Recruiter, EMF Broadcasting
- Branch Manager and Acting Vice President, Fastek Technical Services

Professional Experience

- Managed and led recruiting efforts including client interface to define and write position descriptions, profiles, and goals. Responsible for creating marketing plans, screening and selection strategies, conducting interviews and participating in final hire and post-hire activities including reference and background checks.

- Assisted in salary evaluation and competitive comparisons. This includes candidate negotiations, travel and relocation (if appropriate), benefits, and confirmation and acceptance of any requirements prior to the submittal process and acceptance of offer.
- Managed in-house staff to ensure adherence of company policies and legal compliance. Developed and maintained positive, team-building methodologies that increased productivity, created a positive, productive staff, and maintained cooperativeness and trust.
- Recruited and identified senior-level management for several federal locations including General Managers, Assistant General Managers, HR Directors, Site Controllers, Quality Managers, T-4 Water and Environmental Director and Departmental Leadership at Fort Bliss, El Paso; Fort Polk, Louisiana; Joint Base McGuire-Dix-Lakehurst; New Jersey; Los Angeles Air Force Base; Cape Canaveral, Florida; and the Lawrence Livermore National Laboratory.
- Set up staff procedures and office functions; negotiated service agreements, ensured EEO, safety/OSHA quality, and all local, state, and federal compliance policies. Migrated and implemented several Applicant Tracking Systems including participation as Systems Administrator.
- Initiated effort to define the mission and business plans of expanding organizations. Developed road maps to build client base, relevant labor pools, and resources to sustain growth for the entire enterprise. Started corporate recruiting department and initiated recruiting strategies, hiring processes, retention, and integrated cost-effective marketing tools.
- Hired and motivated in-house talent and created cross-functional business/sales and recruiting process allowing for growth, skills development, and achievement to meet customer needs and provide for an effective team-oriented environment.

Education

- B.A., Political Science, University of California at Berkeley, Berkeley, CA

Stuart Satow

Profile

Since joining CPS HR Consulting in 2002, Stuart Satow has conducted over 250 successful recruitments covering all areas of public sector executive search including city, county, state, special district, and regional governments. Mr. Satow has extensive experience in conducting high-level recruitments for council/board appointed positions, as well as executive recruitments for mid-management and department head level positions in community development/planning, finance, human resources, information technology, legal, parks and recreation, public safety, and public works/utilities. Mr. Satow has conducted prior executive searches on behalf of the City of Modesto, including City Manager and City Attorney. He very recently completed the executive recruitment for a new Town Manager for the Town of Oro Valley (AZ), and is currently assisting the City of Goodyear (AZ) in its search for a new City Manager. Mr. Satow recently assisted the Merced County Association of Governments in its search for a new Executive Director.

Previously, as a sportscaster for ABC affiliate KXTV Channel 10, Mr. Satow interviewed hundreds of management-level executives, university officials, and professional and amateur athletes. He is a popular public speaker and emcee who has long been involved in community events in the Sacramento region. With a BA degree in Communication Studies from California State University, Sacramento and 27 years of experience in the communications industry, Mr. Satow is an experienced writer and interviewer who has excellent people skills and a positive track record in staff and project management.

Employment History

- Senior Executive Recruiter, CPS HR Consulting
- Sports Director, KXTV-10, Sacramento, CA
- Sports Reporter / Weekend Sports Anchor, KXTV-10, Sacramento, CA
- Sports Reporter / Weekend Sports Anchor, KNTV Channel 11, San Jose, CA
- Sports Reporter / News/Sports Photographer, KTXL, Channel 40, Sacramento, CA

Professional Experience

- Conducting public sector recruitments for executive level positions (includes upper- and mid-management, department directors, and council/board appointed positions).
- Managing entire recruitment process: develop and submit responses to proposals, meet with clients to understand their recruitment needs and develop a project plan, develop marketing brochures for recruitments, place advertisements, and research and identify potential candidates. Proactively contact potential candidates; market the position to them. Conduct screening interviews. Facilitate the entire interview process. Perform

thorough reference checks and oversee extensive background checks on candidates. Negotiate employment agreements.

- Coordinating activities of the Sports Department for local television news station
- Reporting on local sports events/teams of interest including high school, college and professional sports (and others)
- Liaison to local and regional sports contacts (including local and bay area professional teams, universities/colleges, high school athletic directors/coaches, and other key sports contacts)
- Experienced writer and interviewer with excellent people skills and a positive track record in staff and project management.

Education

- B.A., Communication Studies (with honors), California State University, Sacramento

Teresa Webster

Profile

Ms. Webster has 15 years of professional consulting and marketing experience in public sector human resources, including experience in the areas of project management, marketing communications, administration, and employee recruitment. She has worked as a CPS HR consultant for more than ten years, where she has managed or completed a wide variety of projects for CPS HR Consulting (CPS HR) subject matter experts and senior executive staff.

Employment History

- Executive Recruiter, CPS HR Consulting
- Senior Marketing Coordinator, CPS HR Consulting
- Northwest Hydraulic Consultants, Inc., West Sacramento, California

Professional Experience

- Conducts recruitments for various positions for public sector clients.
- Assisted the CPS HR Executive Search team as an Associate Recruiter. Wrote advertising copy, recruitment brochure text, did email outreach, built target candidate lists based on candidate requirements, researched other sources for outreach and candidate pools, conducted screening interviews, helped facilitate candidate interviews, and performed candidate reference checks.
- Served as liaison for internal business units collaborating on long-term marketing plans and strategies. Worked closely with unit managers, coordinators, vendors and staff support the organization's mission and direction.
- Managed CPS HR's Webinar Series. Worked with business units to develop monthly webinar calendar highlighting expertise of CPS HR consultants and diverse services. Moderates monthly sessions.
- Chaired Qualification Appraisal Panels (QAPs) for the Merit System Services contract. Lead structured interviews for social services candidates. Worked with panel members from client counties to ensure an unbiased rating process according to merit principles. Reviewed rating scales, discussed failing scores, and various types of rating errors with panel members. Served on rating panel.
- Conducted client visits to public agencies in California and Oregon to ensure that client needs are met. Relayed any service issues or grievances to appropriate service manager. Informs and educates clients on CPS HR products and services. Researched online data to pursue potential new areas of growth.

- Wrote copy for CPS HR collateral including print ads, html blasts, direct mail, and case studies. Plans and executes e-mail and direct mail campaigns. Wrote articles for trade journals.
- Contributes on an as-needed basis as a member of CPS HR's external website team developing content, collaborating with work units on content page deadlines. Performs website maintenance and page development, familiar with html code and SEO techniques
- Coordinates CPS HR booth/personnel logistics at various conferences and tradeshows. Develops and maintains budget. Plans and implements pre-tradeshow promotions. Interface with current and potential clients at tradeshows throughout the year
- Establishes and/or maintains relationships with regional and local agencies and associations, such as CSDA, ACWA, and MMANC, to promote CPS HR and its consultants. Served as committee member on MMANC branding and conference initiatives
- Managed Board offsite (two times a year) and Senior Manager Offsite (quarterly or as needed) meetings. Organized special events. Researched and wrote new policy on security badges

Professional Fees, Expenses, & Guarantee

Professional Services

Our professional fixed fee covers all CPS HR services associated with **Phases I, II, and III** of the recruitment process, including the necessary field visits (up to three) to develop the candidate profile and recruitment strategy, assist the City with finalist selection, and facilitate candidate interviews.

Reimbursable Expenses

Actual out-of-pocket expenses for such items as consultant travel, advertising, marketing, printing/copying, and postage/delivery charges are reimbursable at cost. There is no mark-up on expenses and ***we will work proactively with the City to ensure that the dollars being spent for expenses are in keeping with the City's expectations***. Travel expenses for candidates who are invited forward in the interview process are not included under our reimbursable range. The listed reimbursable expenses range includes a background check on the selected finalist candidate.

Professional Fixed Fee & Reimbursable Expenses*	
Professional Services Full Recruitment (Fixed Flat Fee)	$17,000
Reimbursable Expenses (Travel costs for candidates is not included in recruitment costs) Approximate recruitment costs include: ■ Brochure Design and Printing ■ Advertising ■ Background check for one candidate ■ Other recruitment expenses such as supplies, travel, and shipping	$5,500-$6,500
Not-to-Exceed Total	**$23,500**

**Professional fees and reimbursable expenses would be billed and paid monthly.*

Two Year Guarantee

If the employment of the candidate selected and appointed by the City, as a result of a full executive recruitment *(Phases I, II, and III)*, comes to an end before the completion of the first two years of service, CPS HR will provide the City with professional services to appoint a replacement. Professional consulting services will be provided at no cost. The City would be responsible only for reimbursable expenses. **This guarantee does not apply to situations in which the successful candidate is promoted or re-assigned within the organization during the two-year period.** Additionally, should the initial recruitment efforts not result in a successful appointment, CPS HR will extend the aggressive recruiting efforts and screen qualified candidates until an offer is made and accepted. CPS HR does not provide a guarantee for candidates placed as a result of a partial recruitment effort.

About CPS HR

CPS HR Consulting has been assisting organizations with their talent management needs for over 30 years. We have unique expertise in delivering HR management and consulting services, employment testing, and assessment services to government agencies throughout North America. Our core competency is its knowledge of and expertise in the public sector. As a public agency, we understand the challenges and issues facing our client base. As a self-supporting public entity, we also understand the need for innovative yet practical results. CPS HR can provide expertise that is unique because we share with our clients a common perspective. There is no competitor in the industry that can make this claim.

CPS HR specializes in the recruitment and selection of key professionals for cities, counties, special districts, and non-profits. Working in partnership with the governing body or selection team, we develop customized search strategies that focus on locating and recruiting qualified candidates who match the agency's unique needs. Our wealth of recruitment experience has been gained through ***more than 13 years*** of placing top and mid-level executives in public agencies throughout the United States.

- **Unmatched Recruitment Experience for Government Agencies**

  CPS HR has extensive experience in recruiting executive-level professionals for public agencies across the United States. As a public agency ourselves, we understand how to work with and within government. Our understanding of public sector culture and policy uniquely sets us apart from our competitors.

- **Seasoned Executive Recruiters**

  Our recruiters possess a high level of expertise in recruiting and placing executive-level professionals. Our staff of experts includes an exceptional group of full-time employees as well as a full complement of subject matter experts, intermittent employees, and part-time employees with a variety of public and private sector experience.

- **Detailed Needs Assessments**

  We conduct a detailed needs assessment to identify 1) future organizational direction; 2) challenges facing the position; 3) the working style and organizational climate; and 4) required core and job specific competencies as well as personal and professional characteristics.

- **Vast Pool of Public Agency Contacts**

  CPS HR maintains a database of candidates and an extensive network of external resources to leverage for executive-level positions. We utilize our vast pool of public and

non-profit contacts to deliver a strong list of competitive candidates who will be well prepared to assist you in the accomplishment of your specific mission and goals.

- **Success Recruiting Non-Job Seeking Talent**

  We recognize that the very best candidates for some types of positions may not be looking for a career change, therefore, our recruitment team takes a very aggressive approach to identify and recruit such candidates.

- **Diversity Sensitivity**

  CPS HR encourages applicant diversity and incorporates a variety of activities to attract the best available candidates. We have successfully recruited and placed minority and female candidates for a variety of executive-level positions.

- **Cost Effective**

  The combination of CPS HR's seasoned recruitment management and highly qualified staff enable us to reliably deliver successful results on time and on budget.

- **Satisfied Clients**

  Our executive search client satisfaction rating averages 4.6 on a scale of 5. While many companies talk about client satisfaction, how many measure the impact of that through assessing client satisfaction by distributing written surveys and tying the results of these surveys to their performance management system? CPS HR Consulting does. A client satisfaction survey is sent at the end of every engagement requesting feedback on the quality of our staff, deliverables, and the overall consulting relationship.

- **Strong Base of Repeat Clients**

  We make sure we understand our client's challenges and customize our process to fit their needs. As a result, we have a long and growing list of returning clients who seek our services for multiple engagements.

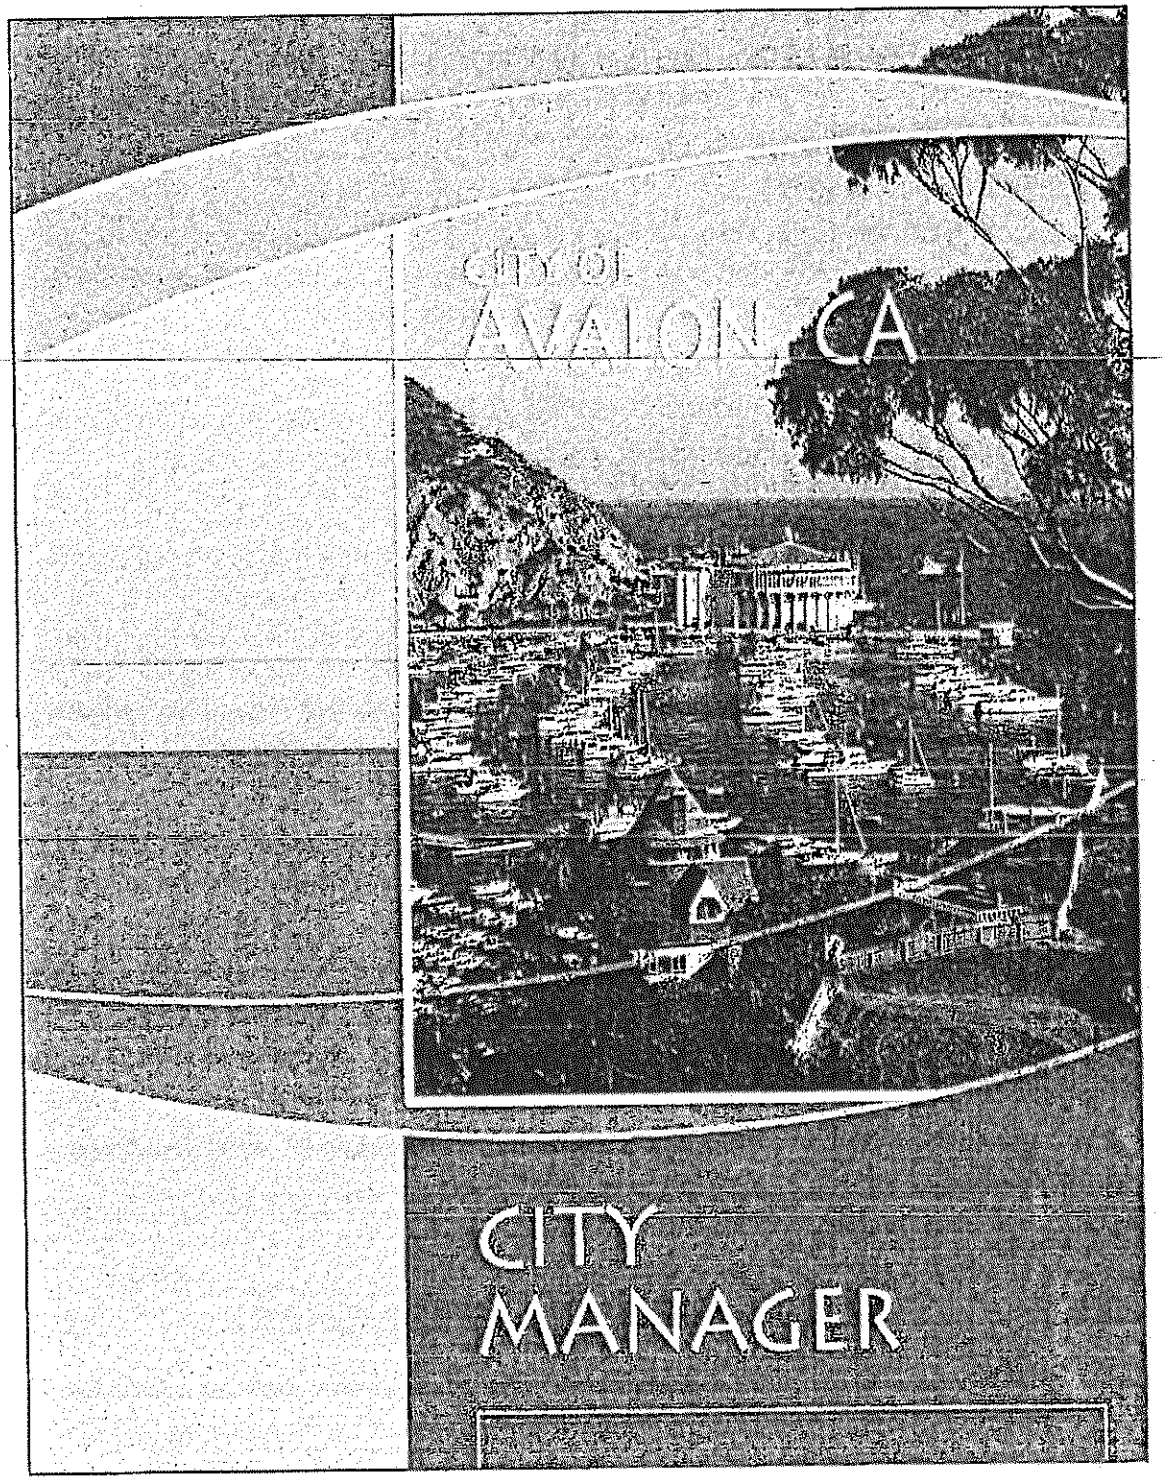
CPS HR currently has a staff of 107+ full-time employees and more than 1,200 subject matter experts and contract employees who have a wide variety of government, public, and private sector human resources experience. CPS HR has worked with more than 1,200 government and public/non-profit clients throughout the United States and Canada.

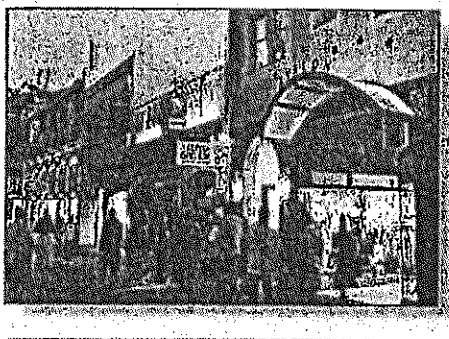
Our headquarters are located in Sacramento, CA. We have regional offices in Littleton, CO and Austin, TX.

CPS HR CONSULTING

We thank you for your consideration of our proposal. We are committed to providing high quality and expert solutions and look forward to partnering with the City of Modesto in this important endeavor.

Appendix A: Sample Brochure





THE CITY OF AVALON – A UNIQUE ISLAND PARADISE

The City of Avalon is a picturesque and leisurely seaport village with an estimated permanent population of 3,600 and an annual visitor count of close to one million. It is the only incorporated city on Santa Catalina Island, and enjoys a mild subtropical climate with warm temperatures year-round which allows for many opportunities to enjoy the Island's land and sea activities. Catalina has a unique and arresting natural environment, including dozens of plants and animals found only on the Island, and boasts more than 60 miles of unspoiled beaches and secluded coves - the longest publicly accessible stretch of undeveloped coastline left in Southern California. The town is clean and safe. As a resort, Avalon offers its visitors a unique, quiet, peaceful, high-quality vacation experience. The community continually strives for excellence in cleanliness, customer service and product quality. Residents have access to housing options comparable in price to other Southern California cities, good school facilities, a variety of post high school educational opportunities, and abundant recreational, cultural, and social facilities and programs. The Island's primary industry is tourism where every weekend is like a vacation.

The City of Avalon is situated on the easterly portion of Catalina Island, 22 miles south/southwest of the Los Angeles Harbor breakwater. Avalon is a little over 2 2/3 square miles in size. The Island itself is 76 square miles in area, 88% of which is in a conservancy and is to be maintained in its natural state in perpetuity.

Catalina Island is part of Los Angeles County and Avalon schools are part of the Long Beach Unified School District. Avalon is a full service city providing fire protection, harbor operations, ambulance, planning, building, sewer, trash, cemetery, public works, and many other city services. Law enforcement services are provided under contract by Los Angeles County.

THE CITY GOVERNMENT

Incorporated on June 26, 1913, Avalon is a general law city with a Council/Manager form of government including a Mayor and four council members. The Mayor is elected to serve a two-year term while council members are elected to four-year terms. Currently, Avalon has a Mayor, Mayor Pro Tem, and three Councilmembers. The City Manager is the executive officer of Avalon and is appointed directly by the City Council.

Avalon's annual operating budget is approximately $25 million. There are approximately 59 full-time employees with that number increasing to over 100 full-time and part-time employees during the summer season. The City has seven departments, including Administration, Finance, Fire, Harbor, Planning & Building, Public Works and Recreation. The City owns both a sewer treatment plant and a solid waste authority, but contracts out operation of both to private companies.

THE POSITION

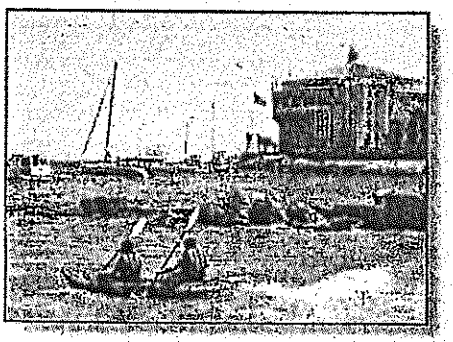
The City Manager is the operational head of city government. He/she will provide exceptional leadership and a collaborative and engaging management style throughout Avalon's operations and in interactions with the City Council. Coordination of financial planning, budget preparation, public information, citizens' group support and policy development are key parts of the City Manager's mission.

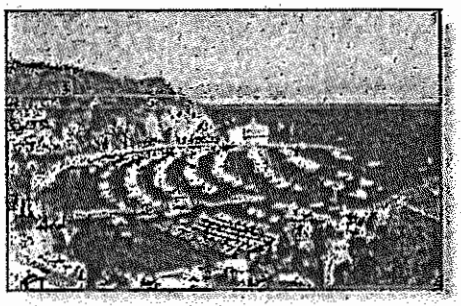
The City Manager's principal duties and responsibilities include enforcing all the laws and ordinances of Avalon, overseeing and managing the professional efforts of all departments under his or her jurisdiction to ensure the effective operation of the City, and assisting the members of the City Council in formulating policies and responding to issues and concerns raised by both residents and visitors.

To learn more about the City of Avalon, go to www.cityofavalon.com

THE IDEAL CANDIDATE

The ideal candidate will be an effective and collaborative leader; possessing confidence, patience, excellent communication and interpersonal skills, and strong technical and business acumen; who understands the need for public service through community engagement and participation, and protecting the 'brand' of the City of Avalon. An understanding of the City's service opportunities including mountains and the ocean, harbors, water issues, transportation, and an array of other priorities that make Avalon unique is invaluable. The successful candidate will have a demonstrated and solid track record of finance and public administration, leading and managing municipal service initiatives, business and economic development, and public works. The successful candidate shall have expertise in enterprise and budget management, agency





administration, and the ability to build and maintain collaborative relationships with city council, regional and business partners, surrounding cities, governmental agencies, staff and the community, through open and respectful dialogue. He or she will demonstrate open and transparent communication and will be known as someone who is responsive and approachable. A candidate that can demonstrate the ability to work positively and effectively with staff and promote positive morale and team building in the organization is highly valued, as is their desire to live in and be a part of the City of Avalon.

DUTIES AND RESPONSIBILITIES

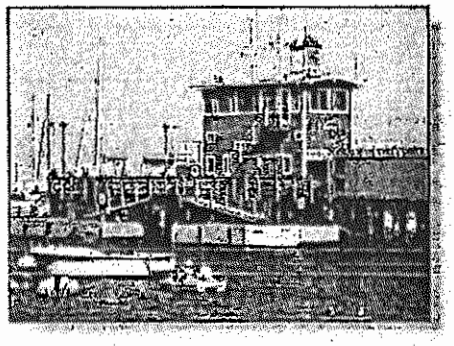
- Plan, direct, and coordinate municipal programs and activities; analyze unusual situations and find solutions through application of management principles and practices, and creativity.
- Develop comprehensive plans to meet future City needs and services.
- Lead and participate in community meetings with the ability to demonstrate diplomacy and tact.
- Constructively handle conflict and develop effective resolutions.
- Develop new policies and processes that impact city-wide operations.
- Supervise the work of officers and employees engaged in a variety of municipal services and occupational fields.
- Meet schedules, timelines, and deadlines.
- Attend all City Council meetings.

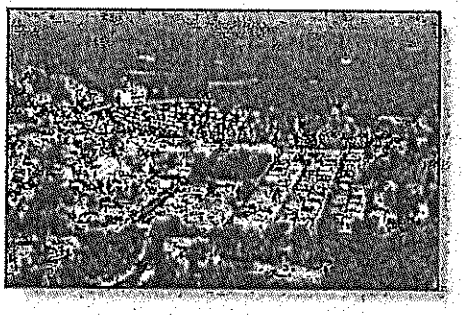
KNOWLEDGE, SKILLS, AND EXPERIENCE

- Organizational and operational management of municipal government.
- Fiscal management; able to develop funding sources and obtain grants.
- Pertinent laws, ordinances and regulations related to California city government and public administration and public contracting.
- Techniques of maintaining effective council, staff, and community relations.
- A professional who can lead the organization with a commitment to uphold the values of Avalon; develop positive business relationships and respect the richness of the City.
- A competent manager of both issues and staff; someone who can mentor and develop employees; retain and attract top talent.
- Able to effectively present and articulate ideas both verbally and in writing to various groups.
- Knowledge of transportation; a background in vehicle studies is a plus.

MANAGEMENT STYLE AND CHARACTERISTICS

- A strong, seasoned leader with the highest integrity, character, and ethics.
- Honest, with the ability to build and maintain trust and actively listen.
- A friendly and approachable leader who is visible and actively engaged in the community and will ensure quality customer service; someone that understands the needs of the citizens, listens and allows the public to be heard and respected.
- Successful at building collaborative business and community oriented working relationships.
- An enthusiastic, inspiring and engaged communicator.
- A forward thinker with the willingness to make difficult decisions based on what is right and uniform not only the letter of the law, but the spirit of the law.
- A strong leader who shares the vision of the council and community, and can advocate, articulate, and implement that vision.
- A Manager who is able to blend innovation and creativity, think outside the box, can creatively move the City in a positive direction, or next step, while acknowledging and responding to its challenges.
- Diplomatic; being known as a 'people person', with a can do style that is comfortable interacting with a wide spectrum of individuals and one who welcomes dialogue and discussion.
- Technologically astute; who recognizes the value of harnessing and integrating the benefits of cutting edge technology for city government and for residents.





MINIMUM QUALIFICATIONS

- A Bachelor's degree in finance, business, or public administration or a related field.
- A Master's degree is highly desirable.
- Eight - ten years of experience in a municipal management capacity.
- Fiscal management; able to develop funding sources and obtain grants.
- Solid operational experience typical of municipal services.
- Knowledge of and/or participation with California Coastal Commission, State of California Regional Water Quality Control Board, Public Agency Risk Sharing Authority of California, and other governmental and public policy agencies.
- Techniques of maintaining effective relations with council, staff, and the general public.

COMPENSATION AND BENEFITS

The salary range for this position is **$150,000 - $185,000** commensurate with the successful candidate's experience and qualifications.

In addition, the City offers an attractive benefit package that includes:

- **Retirement** – CalPERS 2% @ 55 retirement benefit formula with employee paying 7% if considered a "classic member" by CalPERS. If considered a "new member" by CalPERS, then the retirement benefit formula is 2% at 62 with 6.25% contribution amount. The 6.25% contribution amount for "new members" is subject to adjustment by CalPERS.
- **Health Insurance** – The City pays the premium for the City Manager and his or her dependents.
- **Dental Insurance** – The City pays the premium for the City Manager and his or her dependents.
- **Paid Holidays** – 12 days annually, plus 2 floating holidays.
- **Sick Leave** – 12 days of sick leave per year.
- **Vacation/Administration Leave** – 10 days of vacation and 7 days of administration leave.
- **Deferred Compensation** – The City offers a Section 457(b) deferred compensation plan to be funded by employee salary reductions only.

APPLICATION PROCESS AND RECRUITMENT SCHEDULE

The final filing date for this position is **Monday, April, 11, 2016.** To be considered for this exceptional career opportunity, please submit your cover letter, resume, current salary and 10 work-related references (who will **not** be contacted in the early stages of the recruitment). Resumes should reflect years **and** months of employment and positions held. Forward your resume to Frank Rojas:

CPS HR CONSULTING

CPS HR Consulting
Sacramento, CA 95815
tel: 916- 471-3111
Email: resumes@cpshr.us
Website: www.cpshr.us/search

Resumes will be screened on the criteria outlined in this brochure. Candidates with the most relevant qualifications will be given preliminary interviews by the consultant. The City of Avalon will then select finalists to be interviewed. Candidates deemed most qualified will be invited to participate in a final interview process that includes comprehensive reference and background checks. For additional information about this opportunity please contact Frank Rojas.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-490

RESOLUTION APPROVING THE AWARD OF BIDS FOR RENTAL EQUIPMENT SERVICES TO HERC RENTALS, MODESTO, CA AND UNITED RENTALS, MODESTO, CA; FOR A TWO-YEAR AGREEMENT WITH THREE ONE-YEAR EXTENSION OPTIONS AT THE SOLE DISCRETION OF THE CITY, FOR AN ANNUAL COST NOT TO EXCEED $500,000, AND $2,500,000 OVER FIVE YEARS, AND AUTHORIZING THE ACTING FINANCE DIRECTOR, OR HER DESIGNEE, TO ADJUST AGREEMENT TOTALS BASED ON THE WORK CAPACITY FOR THE VENDORS, ENSURING THE OVERALL AGREEMENT TOTAL BETWEEN THE TWO VENDORS WILL NOT CHANGE, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO ISSUE PURCHASE AGREEMENTS

WHEREAS, the Interim City Manager authorized the Purchasing Manager to issue formal Request for Bids (RFB) for rental equipment services, and

WHEREAS, on August 2, 2017, the Purchasing Division issued RFB No. 1718-04 for Rental Equipment Services on the City's website under the commodity codes for rental equipment, ten companies chose to download the RFB document, and

WHEREAS, on August 29, 2017, bids were formally opened in the City Clerk's Office and four companies chose to respond; all companies provided responsive and responsible bids; two local vendors capable of providing this type of service chose to respond, and

WHEREAS, to ensure continued services to the City, contracts shall be awarded to two companies. Herc Rentals of Modesto, CA. will be awarded 34 pieces of equipment and United Rentals of Modesto, CA. will be awarded the balance of 16 pieces of equipment for a not to exceed annual cost of $350,000 to Herc Rentals and $150,000, respectively to United Rentals, and

WHEREAS, to ensure continued services to the City, contracts shall be awarded to more than one company to provide for backup should the primary company be unable

to meet the City's needs. A secondary company may be awarded a specific job if the primary company is unable to provide the required equipment, or if the primary company is unable to maintain acceptable quality standards required by the City, and

WHEREAS, based on the responsive and responsible bids received, City staff recommends the award of bids for the furnishing of rental equipment services to Herc Rentals, Modesto, CA and United Rentals, Modesto, CA; for an estimated total annual cost of $500,000 and an estimated total cost of $2,500,000 over five years, and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed $50,000 for material, equipment or contractual services to be formally bid. The award of bids for rental equipment services to Herc Rentals, Modesto, CA and United Rentals, Modesto, CA; conforms to the Modesto Municipal Code, 8-3.203, and

WHEREAS, in the last five years, citywide rental equipment expenses have totaled approximately $2,102,990. With a potential Consumer Price Index increase and additional usage over the next five years, staff requests a total of $2,500,000 for this contract.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the award of bids for rental equipment services to Herc Rentals, Modesto, CA and United Rentals, Modesto, CA for a two-year agreement with three one-year extension options at the sole discretion of the City; for an annual cost not to exceed $500,000, and $2,500,000 over five years.

BE IT FURTHER RESOLVED that the Acting Finance Director or her designee, is authorized to adjust agreement totals based on the work capacity of the vendors, ensuring the overall agreement total between the two vendors will not change,

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to issue purchase agreements.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-491

RESOLUTION ACCEPTING A PRELIMINARY AWARD, ENTERING INTO A FUNDING AGREEMENT WITH THE STATE WATER RESOURCES CONTROL BOARD AND AUTHORIZING AND DESIGNATING A REPRESENTATIVE FOR THE DESTRUCTION OF WATER SUPPLY WELLS PROJECT, AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE ALL GRANT-RELATED DOCUMENTS AND ENTER INTO AN AGREEMENT TO RECEIVE GRANT FUNDS, IF AWARDED, AND ANY AMENDMENTS OF CHANGES THERETO.

WHEREAS, in November 2014, Proposition 1 was passed by voters and provided $900 million for a Groundwater Sustainability Program (Assembly Bill 1471, Chapter 10), and the State Water Resources Control Board will administer $800 million to prevent and cleanup contamination of groundwater that serves (or has served) as a source of drilling water, and

WHEREAS, on September 13, 2016 by Resolution 2016-364, the City of Modesto authorized the submittal of applications to the State Water Resources Control Board (SWRCB) and other agencies for groundwater quality funding program grans and other Proposition 1 funding and authorized the City Manager or his designee to execute all grant-related documents and enter into agreements to receive grant funds, if awarded, and

WHEREAS, in July 2016, the City of Modesto Utilities Department submitted a Pre-application to the SWRCB Division of Drinking Water (DDW) for the Destruction of Water Supply Wells Project for consideration of funding through the Groundwater Grant Program, and

WHEREAS, on October 5, 2016 the City of Modesto Utilities Department received an invitation from the SWRCB DDW to submit a Final Application for the project, and

WHEREAS, on November 18, 2016 the City of Modesto Utilities Department submitted a Final Application for the project, and

WHEREAS, on March 30, 2017 the Utilities Department received a Proposition 1 Groundwater Grant Funding Preliminary Award of up to $943,985, and

WHEREAS, the City of Modesto would be required to enter into Grant Agreements with the DDW, if the City choses to accept the grant, and

WHEREAS, the City may manage grant administration tasks in-house or may decide to hire a consultant (by future Council action) for grant administration tasks, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes accepting the preliminary award and entering into a funding agreement with the State Water Resources Control Board for Proposition 1 Groundwater Grant funding for the Destruction of Water Supply Wells Project.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to represent the City of Modesto in carrying out the City of Modesto's responsibilities under the funding agreement, and directed to execute all grant-related documents, and any amendments or changes thereto, and enter into an agreement to receive the grant funds, if awarded; and signatory of grant invoice forms during requests for reimbursements and to certify disbursement requests.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-493

RESOLUTION ACCEPTING THE CAPITAL FACILITIES FEES ANNUAL REPORT FOR FISCAL YEAR 2016-17 AND MAKING FINDINGS RELATING TO EACH OF THE FEE CATEGORIES

WHEREAS, the City of Modesto imposes fees to mitigate the impacts of development, pursuant to Government Code section 66000 *et seq.*, and

WHEREAS, California Government Code sections 66001 and 66006 require cities to annually make certain fee-related information available to the public and findings relating to the necessity of collecting fees for new development, and

WHEREAS, the City, in accordance with Government Code section 66006(a) and Section 8-1.904 of the Modesto Municipal Code, established Capital Facilities Fees ("CFF") for the purpose collecting fees to fund the construction of public improvements that will be needed as a result of new development, and

WHEREAS, on March 22, 2011, the City Council, by Resolution No. 2011-105, established the nexus for fees imposed by each land use, said nexus and fees were later amended by Resolution No. 2013-177 on May 7, 2013, and

WHEREAS, the following fees were established by Resolution No. 2013-177:

- The Streets CFF fund was established to accrue funds for arterial roadways, intersections, expressways, freeway interchanges and associated landscaping, and
- The Public Transportation CFF fund was established to accrue funds for the expansion of the City's transit system including additional buses and their associated facilities, and

- The Air Quality Mitigation CFF Fund was established to accrue funds to assist in the reduction of automobile travel, specifically for the development of park and ride lots, Class I Bike Trails, and
- The Police CFF Fund was established to accrue funds for additional policing needs including an additional station, police cars and associated equipment, a northeast area precinct, a training facility, a computer aided dispatch system, and an expanded radio system, and
- The Fire CFF Fund was established to accrue funds for the construction of additional fire stations, fire vehicles, and a new training station, and
- The Parks CFF Fund was established to accrue funds for the development of additional regional parks, community centers, and neighborhood parks, and the expansion of the McClure Country Place, and
- The General Government CFF Fund was established to accrue funds for the debt service payments on City Hall, related parking facilities, the corporation yard and related facilities, City vehicles and the City's information technology expansion, and

WHEREAS, the Capital Facilities Fee Annual Report for Fiscal Year 2015-16 has been completed and is on file with the City Clerk and is **attached** hereto as **Exhibit "A"**, and

WHEREAS, a public hearing at the City Council in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California was set for December 5, 2017, to enable the public to have the opportunity to comment on the CFF collected.

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it hereby makes the following findings relating to each of the fee categories:

1) The Capital Facilities Fee program, set forth in City Council Resolution No. 2013-177, and incorporated herein by reference, continues to be a necessary program to fund future infrastructure needed for new development.

2) The Capital Facilities Fee Annual Report for Fiscal Year 2016-17 **(Exhibit A)** reports on the below information for each of the fee categories:

   a. The amount of the fee. (Table 1)

   b. The beginning and ending balance of the account or fund. (Table 3)

   c. The amount of the fees collected and the interest earned. (Table 2)

   d. An identification of each public improvement on which fees were expended and the amount of the expenditures on each improvement, including the total percentage of the cost of the public improvement that was funded with fees. (Table 10)

3) The CFF revenue anticipated for the full development of infrastructure improvements for new development has not been fully collected to complete the financing of incomplete improvements. It is presently anticipated that there will be no regular sources of funding to develop CFF infrastructure improvements apart from CFF collections.

4) The anticipated dates for the full collection of fees is unknown at this time as fees are based on development activity which is not controlled by the City.

5) The necessary funds for constructing and/or purchasing the following have not yet been accumulated and the approximate date is not yet known, but there is

still a need as outlined in Resolution No. 2013-177, and therefore fees should still be collected for the following purposes:

- Additional fire stations, fire vehicles, and a new training station, and
- An additional police station, police cars and associated equipment, a northeast area precinct, a training facility, a computer-aided dispatch system, and an expanded radio system, and
- Development of additional regional parks, community centers, neighborhood parks, and the expansion of McClure Country Place, and
- Debt service payments on City Hall, related parking facilities, the corporation yard and related facilities, City vehicles and the City's information technology expansion, and
- Reduction of automobile travel, specifically for the development of park and ride lots and Class I Bike Trails, and
- Arterial roadways, intersections, expressway, freeway interchanges and all of their associated landscaping, and
- Expansion of the transit system.

6) All reportable fees, collections and expenditures have been received, deposited, invested and expended in compliance with the relevant sections of the California Government Code and all other applicable laws for the Fiscal Year 2016-17.

7) No refunds and allocations of reportable fees, as required by California Government Code section 66001, are deemed payable at this time.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that it hereby accepts the Fiscal Year 2016-17 Capital Facilities Fees Report as described in **Exhibit "A", attached** hereto and incorporated herein by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of December, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Mayor Brandvold

LEGAL REQUIREMENTS

A. What Are Impact Fees?

California Government Code §66000 allows a local jurisdiction to establish an impact fee to mitigate the impacts of new development. These fees may be used for the purchase, construction, expansion, rehabilitation, or acquisition of public facilities, and must be consistent with the adopted fee program, which is updated every five years.

New development increases the demand for health and safety service provided by a city, affects the quality of the community's infrastructure, and increases the need for public facilities. Typically, impact fees are paid to a city at the time a building permit is issued and assist in paying for the cumulative impact of new development through infrastructure improvements and additions. Facilities partly funded by impact fees include police, fire and administrative buildings, park sites, bike trails, public landscape areas, community centers, transportation and transit facilities and roadway improvements. Impact fees cannot be used for maintenance of existing or future city facilities.

B. Establishing An Impact Fee Program

The City of Modesto ("City") impact fee program, more commonly known as the Capital Facilities Fees Program ("CFF Program"), was established in 1987 and has been updated periodically to reflect the changes in land values, projects and costs. Impact fees imposed on new development must have the proper nexus to any project on which they are imposed. The CFF Program sets forth the relationship between contemplated future developments, facilities needed to serve future development and the estimated cost of those improvements based on the current General Plan for build-out. Estimated project costs and the summary of fee apportionment for each CFF Program fee category are identified in the 2003 and 2011 CFF Program updates.

C. Adoption of a Capital Improvement Program

California Government Code §66002 requires local agencies that have implemented an impact fee program to adopt a Capital Improvement Program (CIP) indicating the approximate location, size, and time of projects, plus an estimate for the costs of all facilities or improvements to be financed by the impact fees. At a minimum, a formal CIP is recommended as a five-year plan. The City annually produces a five-year CIP which assists in maintaining and updating the City's General Plan.

The City's CIP connects annual capital expenditures to a long-range plan for public improvements. The City's CIP also assists in maximizing the funds available, connecting the plan for public improvements to the City's capacity for funding, and projecting expenditures over a period of years. This type of fiscal management is particularly

important during periods where budgetary demands exceed financial resources. The City's CIP is financed in part by the impact fees collected through the CFF Program.

D. Reporting

Annual reporting of a local agency's impact fee program is required by Government Code §66006. The impact fees collected must be segregated from general and other funds containing fees collected for other improvements. Interest on each impact fee fund or account must be credited to that fund or account and be used only for the purpose for which the impact fee was collected.

California Government Code §66006(b) requires that a local agency make the following information available to the public for each separate impact fee fund on an annual basis and that the local agency review that information at a public meeting. The law also requires the annual report include the following information for the prior fiscal year and be made available within 180 days after the last day of each fiscal year:

- Describe the type of impact fee in the account or fund.
- Identify the amount of the impact fee.
- Provide the beginning and ending balance of the account or fund.
- Provide the amount of impact fees collected and interest earned.
- Identify each public improvement on which impact fees were expended and the amount of the expenditures on each improvement, including the total percentage of the cost of the public improvement that was funded with the impact fee.
- Identify an approximate date by which the construction of the public improvement will commence, if the local agency determines that sufficient funds have been collected to complete financing on an incomplete public improvement and the public improvement remains incomplete.
- Describe each interfund transfer or loan made from the account or fund, including the public improvement on which the transferred or loaned impact fees will be expended, and, in the case of an interfund loan, the date on which the loan will be repaid and the rate of interest that the account or fund will receive on the loan.
- Provide the amount of refunds made due to sufficient funds being collected to complete financing on incomplete public improvements, and the amount of reallocation of impact funds made to administrative costs of refunding unexpended revenues exceeding the amount to be refunded.

If an agency no longer needs the funds for the purposes collected or fails to make the required findings or perform certain administrative tasks prescribed, the agency may be required to refund, on a prorated basis to owners of the properties upon which the impact fees for the improvement were imposed, the monies collected for that project and any interest earned on those funds.

California Government Code §66001(d) also requires that the local agency make all of the following findings every fifth year with respect to that portion of the account remaining unexpended, whether committed or uncommitted:

- Identify the purpose to which the impact fee is to be allocated.
- Demonstrate a reasonable relationship between the impact fee and the purpose for which is it charged.
- Identify all sources and amounts of funding anticipated to complete financing of incomplete improvements.
- Designate the approximate dates on which the funding is expected to be deposited into the appropriate account or fund.
- In any action imposing a fee as a condition of approval of a development project by a local agency, the local agency shall determine how there is a reasonable relationship between the amount of the impact fee and the cost of the public facility or portion of the public facility attributable to the development on which the impact fee is imposed.

DESCRIPTION OF CAPITAL FACILITIES FEES

The CFF Program mitigates the impacts associated with new development on certain public facilities. The CFF Program is used to finance the acquisition, construction, and improvement of public facilities as a result of new development. The City has the following eight (8) CFF Program fee categories:

Streets Capital Facilities Fee – Fund 3410
This fee is collected for roadway improvements such as expressways, interchanges, arterial and collector roads, turn lanes, intersections and traffic signals.

Public Transportation Capital Facilities Fee – Fund 3420
This fee is collected for new buses, bus shelters, bus stops, the bus maintenance facility, and the northeast transfer station.

Air Quality Mitigation Capital Facilities Fee – Fund 3430
This fee is collected for facilities that reduce automobile travel by facilitating alternative modes of travel such as the Amtrak station parking lot, park and ride lots, vanpooling, carpooling, Class I bike trails, bike storage, turn lanes, footpaths, and pedestrian accesses.

Police Capital Facilities Fee – Fund 3440
This fee is collected for the Police Tactical Training Center, police vehicles, parking facilities, communication systems, special equipment, and the future Northeast Area Precinct (to be shared with Fire).

Fire Capital Facilities Fee – Fund 3450
This fee is collected for fire facility expansions, fire vehicles, special equipment, and the future Northeast Area Precinct (to be shared with Police).

Parks Capital Facilities Fee – Fund 3460
This fee is collected for land and construction costs for neighborhood, community, and regional parks, sports facilities, and community buildings.

City Hall and Other Government Facilities Capital Facilities Fee – Fund 3470
This fee is collected for debt service payments on City Hall, related parking facilities, the corporation yard and related facilities, City vehicles, and the City's information technology expansion.

Administration Capital Facilities Fee – Fund 3480
This fee is collected for the administration of the CFF Program. This includes preparation of an Annual CFF Program Report, preparation of a Five-Year CFF Report, day-to-day management of the CFF Program including preparation of annual CIP budgets, CFF Program annual inflationary updates, land value analyses and updates and CFF Program Proformas.

CURRENT FEE SCHEDULES

The current CFF Program allows for an annual inflationary adjustment equal to the increase in the annual change in the San Francisco Bay Area Engineering News Record Construction Cost Index through the month of December of the preceding year. No increase was applied in Fiscal Year 2016-17. Table 1 provides the adopted fee schedule for Fiscal Year 2016-17.

COMBINING STATEMENT OF REVENUES, EXPENDITURES AND CHANGES IN FUND BALANCES[1]

The Combining Statement of Revenues, Expenditures and Changes in Fund Balances provided in Table 2 outlines the beginning and ending balance of each fund for Fiscal Year 2016-17. Expenditures are identified by general categories. All revenue, unless collected under the deferral program, is collected at the time a building permit is issued. Since the CFF Program is a "pay-as-you-go" program, the City must accrue enough revenue prior to commencing construction of a project, resulting in an "aging" of fund balances. The aging or accumulation occurs until enough revenue has been collected to construct a project.

1 - Financial data is current as of September 18, 2017

FIVE YEAR REVENUE AND EXPENSE HISTORY[2]

As previously discussed, most revenue is collected when a building permit is issued for new development. Overall, CFF Program revenues increased 128% between Fiscal Years 2015-16 and 2016-17 while expenditures decreased 34.62% over the same time period. Tables 3 and 4 provide a five-year snapshot of the CFF Program revenues and expenditures, respectively. Table 5 offers a combined picture of revenues, expenses and fund balance levels over the past five years.

DEFERRED CAPITAL FACILITIES FEES

Multi-Family, Commercial and Industrial

CFF Deferral Programs for Multi-Family, Commercial, and Industrial developments have been in place since 1991. Deferrals assist in off-setting the cost of new development by allowing applicants to pay a portion of the CFF due at the time of building permit issuance and the balance, plus interest, over a predetermined period of time. Table 6 details the five (5) active deferrals in Fiscal Year 2016-17.

EXEMPTIONS

The City of Modesto encourages the construction of Very Low and Low Income Housing development projects within the City. CFF exemptions can be provided to the Housing Authority of Stanislaus or to Community Housing Development Organizations (CHDO) for the development of low and very-low income households (under 60% of the area median income). Table 7 details the two (2) exemptions in Fiscal Year 2016-17.

REFUNDS

CFF may be refunded if a building permit expires, is revoked, voluntarily surrendered or voided, and no construction or improvement of land has commenced. In addition, CFF paid for placement of Trailers may be refunded if requested in writing within six years of payment, minus the administration component. There were no CFF refunds made in Fiscal Year 16-17

CREDITS

CFF credits are granted when previously existing building(s) are removed and new building(s) are constructed. These credits may off-set up to but not more than 100% of the CFF due for the new development. Table 8 details the credits provided in Fiscal Year 2016-17.

2 - Financial data is current as of September 18, 2017

TRANSFERS

A total of eight (8) inter-fund transfers occurred in Fiscal Year 2016-17. The transfers included the Tenth Street Place (City Hall) Debt Service payment, CIP Project closures and police loans. Table 9 offers details of each transfer.

CAPITAL IMPROVEMENT PROJECTS[3]

Information on projects funded by the CFF Program can be found in Table 10. The information in the table includes a listing of current projects, estimated construction start and end dates, estimated project costs, percentage of project funded by the CFF Program and general accounting information.

3- Financial data is current as of September 18, 2017

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-494

RESOLUTION ACCEPTING THE FISCAL YEAR 2016-17 ANNUAL REPORT OF FUNDS HELD FOR FUTURE IMPROVEMENTS, AND MAKING FINDINGS RELATED TO EACH SECURITY ON FILE

WHEREAS, California Government Code Sections 66000 and 66006 require that the City make certain information available to the public and findings relating to the necessity of collecting fees for new development, and

WHEREAS, the City is collecting impact fees as security for future improvements that will be needed as a condition of approval for new development, and

WHEREAS, $2,500 in impact fees were paid by Fuentes Construction on March 8, 2001, as a condition of approval for the project located at 1024 Florence Avenue, Modesto, for future improvements including connection to the City sewer system and the installation of curb, gutter and sidewalk improvements, and

WHEREAS, $29,393.72 in impact fees were collected from American Home Builders as a condition of approval for its project located at 3055 Floyd Avenue, Modesto, on September 2, 2005, for future improvements including the expansion of Beta Street to the north of the property, and

WHEREAS, $27,165 in impact fees were collected from Best Modesto Partners on September 30, 2008, as a condition of approval for its project located at 3019 Floyd Avenue, Modesto, for future improvements including the construction of an on-site driveway and the reconstruction of the nearby bus turnout and off-site driveway, and

WHEREAS, it has been determined that full funding for the various improvements has not yet been received, and

WHEREAS, it has been determined by staff that the impact fees collected for all three projects should be retained until additional funding can be obtained, and

WHEREAS, a public hearing at the City Council in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California was set for December 5, 2017, to enable the public to have the opportunity to comment on the impact fees collected.

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it hereby finds and determines that the impact fees collected for future improvements are necessary to fund future infrastructure needed for new development.

1. That the revenue anticipated for the full development of infrastructure improvements required for these projects have not been fully collected to complete the financing of said improvements. It is presently anticipated that there will be no regular sources of funding to develop the required improvements apart from impact fees collected from neighboring properties.
2. That the anticipated dates for the full collection of fees is unknown at this time as impact fees are based on development activity which is not controlled by the City.
3. That the funding for the future improvements to include connection to the City sewer system and the installation of curb, gutter and sidewalk improvements located at 1024 Florence Avenue, Modesto, is not yet known, but there is still a need, and therefore fees should still be retained for these purposes.
4. That the timing for the future improvements including the expansion of Beta Street to the north of the property located at 3055 Floyd Avenue, Modesto, is not

yet known, but there is still a need, and therefore fees should still be retained for these purposes.

5. That the timing for the future improvements including the construction of an on-site driveway and the reconstruction of the nearby bus turnout and off-site driveway located at 3019 Floyd Avenue, Modesto, is not yet known, but there is still a need, and therefore fees should still be retained for these purposes.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of December, 2017, by Councilmember Ah You, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-495

RESOLUTION CALLING A SPECIAL ELECTION FOR THE CITY OF MODESTO TO ANNEX TERRITORY TO CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 2004-1 (VILLAGE ONE #2)

WHEREAS, this Council did, on October 24, 2017, adopt its Resolution No. 2017-414 (the "Resolution of Intention to Annex") to indicate its intention to annex certain territory to the City's Community Facilities District No. 2004-1 (Village One #2) (the "District") and authorize the levy of the District special taxes within the territory proposed to be annexed (the "Annexed Territory"), pursuant to Chapter 2.5 of Part 1 of Division 2 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the "Mello-Roos Community Facilities Act of 1982" (the "Act"), and set a hearing thereon, and

WHEREAS, pursuant to the Act, this Council did, by its Resolution No. 2004-681, adopted on December 14, 2004, clarify the Rate and Method of Apportionment with respect to the Maximum Special Taxes to be generated by a parcel that has been rezoned, and

WHEREAS, pursuant to the Act, this Council did, by its Resolution No. 2004-683, adopted on December 14, 2004, create Tax Zone #2 within the District, and

WHEREAS, the One-Time Facilities Special Tax component of the special taxes is higher in Tax Zone #2 than in Tax Zone #1, and

WHEREAS, the Annexed Territory will be annexed to and subject to the special taxes in Tax Zone #2, and

WHEREAS, notice of the hearing was duly published as required by law, as evidenced by the proof of publication on file with the City Clerk, and

WHEREAS, a map of the Annexed Territory, entitled "Annexation Map No. 16 of Community Facilities District No. 2004-1 (Village One #2) City of Modesto, County of Stanislaus, State of California was recorded on November 9, 2017, in the Office of the County Recorder of the County of Stanislaus, in Book 5 of Maps of Assessment and Community Facilities Districts, at page 67, and

WHEREAS, at the time and date set for the hearing (December 5, 2017) pursuant to the Resolution of Intention to Annex, this Council held the public hearing, as required by the Act, related to the proposed annexation and the levy of the District special taxes for Tax Zone #2 within the Annexed Territory, and all other matters set forth in the Resolution of Intention to Annex, and

WHEREAS, at the hearing all persons desiring to be heard on all matters pertaining to the proposed annexation and the levy of the District special taxes for Tax Zone #2 within the Annexed Territory, and all other matters set forth in the Resolution of Intention to Annex, including all interested persons for or against the proposed annexation to the District and the levy of the District special taxes for Tax Zone #2 within the Annexed Territory were heard and considered, and a full and fair hearing was held thereon, and

WHEREAS, at the hearing evidence was presented to this Council on the matters before it, and this Council, at the conclusion of the hearing, was fully advised as to all matters related to the proposed annexation and the levy of the District special taxes for Tax Zone #2 within the Annexed Territory, and all other matters set forth in the Resolution of Intention to Annex, and

WHEREAS, written protests against the proposed annexation and the levy of the District special taxes for Tax Zone #2 within the Annexed Territory have not been filed with the City Clerk by 50 percent or more of the registered voters or six registered voters, whichever is more, residing within the District or residing within the Annexed Territory, or the owners of one-half or more of the land in the District, or in the Annexed Territory, and

WHEREAS, the Stanislaus County Registrar of Voters has certified there are less than 12 registered voters residing in the Annexed Territory; accordingly, the qualified electors are the landowners, and

WHEREAS, the City Clerk, being the Council's designated election official for purposes of the election herein called, has concurred in the election date herein set forth for the election.

NOW THEREFORE, BE IT RESOLVED, ORDERED AND FOUND by the City Council of the City of Modesto that:

1. The foregoing recitals are true and correct.

2. All prior proceedings taken with respect to the annexation of the Annexed Territory to the District, and the levy of the District special taxes for Tax Zone #2 within the Annexed Territory were valid and in conformity with the requirements of the Act. This determination shall be final and conclusive upon all persons.

3. The proposed annexation of the Annexed Territory to the District and the levy of the District special taxes for Tax Zone #2 within the Annexed

Territory have not been precluded by majority protest pursuant to Section 53339.5 of the Act.

4. As stated in the Resolution of Intention to Annex, it is the intention of this Council, subject to the approval of the qualified electors of the Annexed Territory, to annex the Annexed Territory to the District and levy the District special taxes for Tax Zone #2 within the Annexed Territory. Upon such approval the Council will be authorized to levy the District special taxes for Tax Zone #2 within the Annexed Territory.

5. A special election is hereby called at which the question of levying the District special taxes for Tax Zone #2 within the Annexed Territory shall be submitted to the qualified electors of the Annexed Territory. The election shall be held in accordance with and subject to the Act, all of the terms of which shall, unless waived as herein provided, be applicable to such election. The ballot measure shall be substantially in the form **attached** hereto as **Exhibit A.**

6. Fewer than 12 persons have been registered to vote within the Annexed Territory for each of the 90 days preceding the close of the hearing referenced herein. Accordingly, the vote shall be by the landowners of the Annexed Territory, and each such landowner shall have one vote for each acre or portion thereof that he or she owns within the Annexed Territory. The ballots shall be distributed by mail with return postage prepaid, or by personal service, to each landowner, all as provided in Section 53326 of the Act.

7. Since the City Clerk has received an appropriate waiver of time limits and other requirements pertaining to the conduct of the election by the

owner of all of the land in the Annexed Territory (the "Landowner"), the election shall be held on the 5th day of December 2017. The election shall be conducted by the City Clerk in the manner required by this resolution, the Act and applicable laws.

8. The City Clerk shall accept the ballots of the qualified electors in the office of the City Clerk up to and including 5:30 p.m., Pacific Time, on December 5, 2017, and/or up to the conclusion of the Public Hearing, whether said ballots shall be personally delivered or received by mail.

9. In accordance with Section 53327(b) of the Act, analysis and arguments, as required by Section 53327(a) of the Act are hereby waived, as the City Clerk has received the unanimous consent to such waivers from the Landowner.

10. The publication of this Resolution as notice of the special election is hereby waived as the City Clerk has received the unanimous consent to such waiver from the Landowner.

11. The Annexed Territory shall constitute a single election precinct for the purpose of holding the election.

12. The City Clerk is hereby authorized to take any and all steps necessary for the holding of the election, and to perform and render all services and proceedings incidental to and in connection with the election.

13. The City Clerk shall canvass the returns and certify the results of the election to this Council. If two-thirds or more of the votes cast are in favor of levying the District special taxes for Tax Zone #2 in the Annexed Territory, this

Council may thereafter order the annexation of the Annexed Territory to the District and levy the District special taxes in the Annexed Territory in the amount and for the purposes specified in Resolution No. 2004-199 adopted by this Council on April 6, 2004 (the "Resolution of Formation"). The Special Tax will be levied only at the rate and apportioned only in the manner specified in the Resolution of Formation, as clarified by the City Council on December 14, 2004 (Resolution No. 2004-681), and at the rates set forth in Tax Zone #2 created by the City Council on December 14, 2004 (Resolution No. 2004-683).

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of December, 2017, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Mayor Brandvold
NOES:	Councilmembers:	None
ABSENT:	Councilmembers:	Madrigal, Ridenour, Zoslocki

RESOLUTION NO. 2017-496

RESOLUTION DECLARING THE RESULTS OF THE DECEMBER 5, 2017 SPECIAL ELECTION AND ORDERING THE ANNEXATION OF THE ADDITIONAL TERRITORY TO CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 2004-1 (VILLAGE ONE #2)

WHEREAS, this Council is conducting proceedings pertaining to the annexation of certain territory to the City's Community Facilities District No. 2004-1 (Village One #2) (the "District") and the levy of the District special taxes (the "District Special Taxes") within such territory, as described in its Resolution No. 2016-422 entitled "A Resolution of Intention to Annex Territory to City of Modesto Community Facilities District No. 2004-1 (Village One #2) and to Authorize the Levy of Special Taxes within the Territory Proposed to be Annexed (Annexation No. 16)", pursuant to Chapter 2.5 of Part 1 of Division 2 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the "Mello-Roos Community Facilities Act of 1982" (the "Act"); and

WHEREAS, the owners of all the property within the territory proposed to be annexed to the District waived those provisions related to the timing and conduct of the election referenced in Sections 5, 6, 7 and 8 of this Council's Resolution No. 2017-495, adopted on December 5, 2017, and, as a result, this Council called an election within the territory proposed to be annexed to the District (the "Election") for December 5, 2017, or as soon thereafter as practicable, relative to the foregoing; and

WHEREAS, on December 5, 2017, the Election was held; and

WHEREAS, the City Clerk has certified that at the Election the proposition of levying the District Special Taxes within the territory proposed to be annexed to the District was approved by more than two-thirds (2/3) of the votes cast at the Election;

NOW, THEREFORE, BE IT RESOLVED, ORDERED AND FOUND by the City Council of the City of Modesto that:

1. The Election was duly and validly conducted in conformity with all applicable laws pertaining thereto. It is hereby determined that the owner or owners of the territory proposed to be annexed are as set forth in the Certificate of City Clerk as to Distribution of Official Ballots, submitted to this Council and on file with the City Clerk.

2. The ballot proposition presented to the qualified electors of the territory proposed to be annexed at the Election received at least two-thirds (2/3) of the votes cast at the Election. A copy of the City Clerk's certificate of election results is **attached.**

3. Pursuant to Section 53339.8 of the Act, it is hereby ordered that the territory proposed to be annexed to the District pursuant to Resolution No. 2017-414 be annexed to and be a part of the District with full legal effect, and that the District Special Taxes be levied within the territory.

4. The City Clerk is hereby directed to enter this resolution on the minutes of this City Council, which shall constitute the official declaration of the result of the Election.

5. The City Clerk is further authorized and directed to record an amendment to the Notice of Special Tax Lien with the County Recorder of the County of Stanislaus, within 15 days from the date hereof, in accordance with the provisions of Sections 3114.5 and 3117.7 of the California Streets and Highways Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th day of December, 2017, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Mayor Brandvold
NOES:	Councilmembers:	None
ABSENT:	Councilmembers:	Madrigal, Ridenour, Zoslocki

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-497

RESOLUTION SELECTING AND ADOPTING ALTERNATIVE 1B AS THE PREFERRED ALTERNATIVE ROUTE FOR THE ROUTE ALIGNMENT FOR THE NORTH COUNTY CORRIDOR PROJECT (TULLY ROAD TO STATE ROUTE 12)

WHEREAS, the North County Corridor Project ("NCC") is a high priority project for Stanislaus County, its communities and the growing urbanized cities within the County, including Modesto, and

WHEREAS, the purpose of the Project is to ultimately build a west-east freeway/expressway that would improve regional network circulation, relieve existing traffic congestion, reduce traffic delay, accommodate future traffic, benefit commerce and enhance safety, and

WHEREAS, the California Department of Transportation, as the lead agency for purposes of the California Environmental Quality Act ("CEQA") officially released the NCC Environmental Impact Report/Environmental Impact Statement "(EIR/EIS") for public review and comments on August 9, 2017, and

WHEREAS, City staff has spent a considerable amount of time and effort reviewing and evaluating the NCC EIR/EIS, and

WHEREAS, the public comment period for the NCC EIR/EIS closed on October 16, 2017, and

WHEREAS, staff has had an opportunity to review the alternative routes and recommends adoption of Alternative 1B as the preferred alternative route for the NCC.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby selects and adopts Alternative 1B as the preferred alternative route for the route alignment for the North County Corridor Project (Tully Road to State Route 12).

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 5th of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-499

RESOLUTION APPROVING A SECOND AMENDMENT TO THE LEGAL SERVICES AGREEMENT DATED DECEMBER 21ST, 2016 WITH NORTON ROSE FULBRIGHT US LLP IN AN AMOUNT NOT TO EXCEED $240,000 , FOR A TOTAL AGREEMENT AMOUNT NOT TO EXCEED $335,000 TO CONTINUE REPRESENTING THE CITY IN FINANCE MATTERS, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the City Attorney's Office is in need of outside counsel services that relate to finance matters; and

WHEREAS, Norton Rose Fulbright US LLP has represented the City in finance matters since December of 2016; and

WHEREAS, additional essential legal work needs to be performed that will result in fees exceeding the agreed upon budget of $95,000; and

WHEREAS, the City Attorney's Office desires to extend the agreement with Norton Rose Fulbright US LLP; and

WHEREAS, the City Attorney's office has drafted a Second Amendment to the Legal Services agreement with Norton Rose Fulbright US LLP to continue services.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Second Amendment to the Legal Services Agreement with Norton Rose Fulbright US LLP in an amount not to exceed $240,000, for a total agreement amount of $335,000 to continue representing the City in finance matters, as provided in **Exhibit A attached** hereto and incorporated herein, and further authorizes the City Attorney to execute such agreement in a form substantially similar to **Exhibit A.**

BE IT FURTHER RESOLVED that the Interim City Manager or his designee, are hereby authorized to execute the agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

SECOND AMENDMENT TO LEGAL SERVICES AGREEMENT

This Second Amendment for Legal Services (this "**Second Amendment**"), is made and entered into on _____ day of _____ 2017 ("**Effective Date**"), by and between the **CITY OF MODESTO**, a California Municipal Corporation ("**City**"), and **NORTON ROSE FULBRIGHT US LLP**, a Texas limited liability partnership ("**Attorney**"), located at 580 California Street, Floor 16, San Francisco, California 94104. City and Attorney are hereinafter collectively referred to as the "**Parties**," and singularly as "**Party**".

RECITALS

WHEREAS, City and Attorney entered into a Legal Services Agreement ("**Agreement**") for services for legal advice, representation and assistance on matters involving finance matters; and

WHEREAS, Attorney is specially trained, experienced and competent to perform such services; and

WHEREAS, the public interest, economy and general welfare will be served by the Agreement; and

WHEREAS, City and Attorney desire to amend the Agreement for further service by increasing the previously approved amount of fees by $240,000.

NOW, THEREFORE, it is hereby agreed that the Legal Services Agreement between the City of Modesto and Norton Rose Fulbright US LLP, dated December 21st, 2016, and amended by Resolution No. 2017-308, is amended as follows:

1. Section 2(a) of Paragraph 2, "Fees and Costs," Hourly Rates is amended to state as follows:

"The total of all fees paid to Attorney for the performance of all services set forth in Section 1(thereafter the "**Service**"), and for all authorized Reimbursable Expenses (as defined hereafter), shall not exceed a total sum of three hundred thirty five thousand dollars ($335,000)."

2. **Entire Agreement**. The parties to this Second Amendment understand and agree that except as stated herein all terms and conditions of the original Agreement, dated December 21st, 2016, remain in full force and effect to the extent they are not in conflict with this Second Amendment. This document, including all exhibits, contain the entire amendment to the Agreement between the Parties and supersedes whatever oral or written understanding they may have had prior to the execution of this Second Amendment. No alteration to the terms of this Second Amendment shall be valid unless approved in writing by Attorney and by City, in accordance with applicable provision of the Modesto City Code.

3. **Authority**. The person signing this Second Amendment for Attorney hereby represents and warrants that he/she is fully authorized to sign this Second Amendment on behalf of Attorney and to bind Attorney to the performance of its obligations hereunder.

IN WITNESS WHEREOF, the Parties have executed this Second Amendment as of the dates stated below.

CITY OF MODESTO,
A Municipal Corporation

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-500

RESOLUTION APPROVING A RESTATED LEGAL SERVICES AGREEMENT WITH ARATA, SWINGLE, VAN EGMOND & GOODWIN IN AN AMOUNT NOT TO EXCEED $130,000 TO CONTINUE REPRESENTING THE CITY OF MODESTO IN TORT CASES, AND AUTHORIZING THE INTERIM CITY MANAGER OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the City Attorney's Office is still in need of outside counsel services; and

WHEREAS, the City Council by Resolution No. 2014-241 had previously approved an agreement with Arata, Swingle, Van Egmond & Goodwin, in the amount of $200,000 to represent the City in the following types of cases: tort, trip and fall, sidewalk, road and other similar cases; and

WHEREAS, the original agreement was amended by Resolution Nos. 2015-198, 2016-289, 2016-506, and 2017-220; and

WHEREAS, the City Attorney's Office desires to restate the agreement with Arata, Swingle, Van Egmond & Goodwin; and

WHEREAS, this Restated Agreement amends, restates and replaces in its entirety the original Legal Services Agreement, dated June 24th, 2014 and all amendments; and

WHEREAS, the City Attorney's office has drafted a Restated Legal Services agreement with Arata, Swingle, Van Egmond and Goodwin.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Restated Legal Services Agreement with Arata, Swingle, Van Egmond & Goodwin, in an amount not to exceed $130,000 to continue representing the City of Modesto in tort matters, as provided in **Exhibit A attached** hereto and

incorporated herein, and further authorizes the City Attorney to execute such agreement in a form substantially similar to **Exhibit A.**

BE IT FURTHER RESOLVED, that the Interim City Manager or his designee, are hereby authorized to execute the agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESTATED LEGAL SERVICES AGREEMENT

This Restated Agreement for Legal Services (this "**Restated Agreement**") is made and entered into on the ___ day of _____, 20__ ("**Effective Date**"), by and between the **CITY OF MODESTO**, a California Municipal Corporation ("**City**"), located at 1010 Tenth Street, Sixth Floor, Modesto, California 95353 and **ARATA, SWINGLE, VAN EGMOND & GOODWIN**, a Professional Corporation ("**Attorney**"), located at 1207 I Street, Modesto, California 95354. City and Attorney are hereinafter collectively referred to as the "**Parties**," and singularly as a "**Party**."

RECITALS

WHEREAS, this Agreement amends, restates and replaces in its entirety the original Legal Services Agreement, dated June 24th, 2014 and amended by Resolution Nos. 2015-198, 2016-289, 2016-506, and 2017-220,

WHEREAS, City desires to continue Attorney's services with respect to providing legal advice, representation and assistance to City in defense of tort claims as assigned; and

WHEREAS, Attorney is specially trained, experienced and competent to perform such services; and

WHEREAS, the public interest, economy and general welfare will be served by this Agreement.

NOW, THEREFORE it is hereby agreed as follows:

1. Services.

a. Scope of Work: Subject to the terms and conditions set forth in this Agreement, Attorney shall provide to City the following services ("**Services**"):

Claims including litigation as assigned. Cases will include tort, trip and fall, sidewalk, road and other similar cases.

Attorney shall not be compensated for services outside the scope of work identified under this Section unless prior to the commencement of such services: (i) Attorney notifies City and City agrees that such services are outside the scope of work under this Section; (ii) Attorney estimates the additional compensation required for these additional services; and (iii) City, after notice, approves in writing a Supplemental Agreement specifying the additional services and amount of compensation therefor.

Specific tasks including specific claims under the scope of work of this Agreement performed by Attorney will be assigned by City with written notice to Attorney. Within ten (10) days of receiving notice by City of a new task, Attorney shall provide City a budget for the requested task. Attorney must receive written approval by City of the proposed budget prior to commencement of task. Total compensation for all tasks under this Agreement shall not exceed the total compensation under Section 2 of this Agreement.

b. **Term:** This Agreement shall become effective on the Effective Date, and shall continue in effect until both Parties have fully performed their respective obligations under this Agreement unless sooner terminated as provided in Section 7.

c. **Partner in Charge:** The partner in charge of the defense of City in assigned tort claims will be George Arata and Bradley Swingle. Attorney will utilize experienced associate attorneys and paralegals under supervision of the partner in charge. The partner in charge will be the contact person for City and will make himself/herself reasonable available to respond to questions from the City Attorney or City staff.

2. Fees and Costs.

a. **Hourly Rates:**

George Arata	$175.00/hour
Bradley J. Swingle	$175.00/hour
Colleen F. Van Egmond	$175.00/hour

The total of all fees paid to Attorney for the performance of all services set forth in Section 1 (hereafter the "**Services**"), and for all authorized Reimbursable Expenses (as defined hereafter), shall not exceed the total sum of one hundred thirty thousand dollars ($130,000.00).

b. **Reimbursable Expenses.** City shall reimburse Attorney for the actual, reasonable and necessary expense of travel out of the Modesto metropolitan area, approved in advance, at $0.56 per mile. Attorney will not charge City for the cost of telephone calls or photocopying. Litigation costs and expenses for statutory fees, witness fees, reporters' per diem and stenographic transcriptions, jury fees, and the expenses of serving process shall be advanced by Attorney and reimbursed by City. Expert consultants and witnesses may be retained by Attorney on terms acceptable to City, approved in advance by email or letter by the City Representative (as defined hereafter), in which case City shall reimburse Attorney or pay such consultants or experts directly.

c. **Billing:**

i. Legal billings shall be submitted to City every thirty (30) days unless otherwise advised.

ii. Each task shall be distinctly and completely identified. In litigation matters, City will not pay invoices that contain block billing. Each billing entry must contain the initials of the individual performing the task, the nature of the task, the date it was performed, and the length of time it took.

iii. Costs under $1,000.00 shall be paid by Attorney and submitted with their normal billing.

iv. City reserves the right to audit all invoices.

v. Payments to Attorney shall be made within a reasonable time after receipt of Attorney's invoice, generally within sixty (60) days of receipt. Attorney shall be responsible for supplying all documentation necessary to verify the monthly billings to the satisfaction of City.

vi. In addition to the provisions stated elsewhere in this Agreement regarding the payment of fees, billing and budgeting, the following guidelines for billing apply:

(1) City expects each individual working on the matter for which Attorney is retained to have the necessary experience to perform the services required to protect or pursue City's interests in the matter in a cost effective manner, consistent with high professional and ethical standards.

(2) City expects Attorney to select the individual most suitable for the task required and the specific needs of the matter, and to use the maximum efficiencies available. Billings for services performed by the inappropriate level of personnel will be reduced by City based on rate adjustments for the appropriate level of personnel.

(3) City will not pay for unnecessary review of texts, codes, rules of court, or other fundamental references. City will pay the hourly rate for specific legal research which is unique to the matter, assuming that Attorney has used maximum efficiencies and that Attorney has not already recently performed research in the same or very similar areas of law.

(4) City acknowledges the benefit of communications between attorneys in the firm. City does, however, expect that intra-office conferences will only be held as needed, and will be kept to a minimum. Intra-office conferences shall be for the purpose of discussing strategy and legal issues which directly further the matter. City will not pay for conferences which are supervisorial, instructional or administrative. Any invoice which lists an intra-office conference that does not meet these guidelines must contain a full explanation and is subject to reduction by City. City will not pay for "team meetings" and City will scrutinize all intra-office conferences for "value added" to the matter by the conference, for the number of individuals attending the conference, the length of the conference, the subjects discussed at the conference and who participated in it, and will, in City's sole discretion, determine if such value has been added.

(5) City will not pay for local telephone calls, incoming facsimiles, postage, time spent on filing, calendaring, indexing pleadings, photocopying, conferences with Clerks of court or court reporters, secretarial proofreading, re-drafting due to substandard work, or opening, organizing or closing files. City will not pay for time billed by summer interns, time for more than one individual to attend a trial, hearing, court appearance, arbitration, mediation, deposition, third party meeting, conference call or similar event, unless otherwise approved by City in advance.

(6) Vague billing which does not contain sufficient information to allow City's reviewer of the invoice to determine the nature of the task, the reason for the task, and the individual performing the task is subject to reduction by City.

(7) City will not reimburse for overtime, word processing, supplies, anything identified on an invoice as "miscellaneous," or any other unidentified charges.

d. Budget:

i. Within ten (10) days of the Effective Date, Attorney shall provide City with a proposed budget for the Services to be rendered pursuant to this Agreement. If Services involve tasks that have not yet been assigned by City, Attorney shall provide City with a proposed budget for all assigned new tasks with ten (10) days of receiving written notice from the City assigning Attorney the new task. Total compensation for all tasks under this Agreement shall not exceed the total compensation under Section 2 of

this Agreement. The budget shall include all projected fees and costs to be incurred by Attorney and necessary for completion of the Services necessary to conclude the representation. The budget shall be a good faith estimate and shall be as complete and detailed as reasonably possible, including such items as discovery and motions for trial, preparation of documents for transactional services, and anticipated research and investigations. The proposed budget shall identify the projected total hours that will be billed to each task, and the individual that are anticipated to be performing the task. Any deviation from the budget in excess of fifteen percent (15%), must be approved in advance by the City Attorney or designee. Notwithstanding the foregoing, Should it become reasonably apparent to Attorney that the actual billings will exceed Attorney's initial estimate of anticipated legal costs and fees, Attorney shall immediately notify City thereof in advance and shall submit a revised written estimate for City's approval.

3. Reporting.

a. Attorney shall provide City with a preliminary status report and evaluation within thirty (30) days of the Effective Date and the assignment of such task which report shall include an evaluation of the total exposure to the City, the liability risk, estimated cost to litigate or settle, and the particular attorneys who will be assigned. In this preliminary report, Attorney shall also make recommendations for discovery and any needed investigation, if any, and provide an estimate of total anticipated legal costs and fees for the handling of this matter. Thereafter, Attorney shall provide a status update to the City Representative, as defined in Section 4, every sixty (60) days on any matter under this Agreement.

b. Attorney shall provide to City representative an electronic version of all agreements, pleadings, motions, and discovery documents filed or propounded by Attorney in a Microsoft Word format compatible with that used by the City Attorney's office.

c. In the event that Attorney's handling of the above-designated matter exceeds a period of twenty-four (24) months, Attorney shall, in addition to providing regular status reports to City, also report directly to the City representative on an annual basis and no later than March 30th of each year, setting forth in detail the status of the matter, and Attorney's plan for further handling of the matter, and the estimated length of time to conclude the matter.

4. **City Representative.** The City Attorney, or the City Attorney's designee, shall be the "City Representative" under this Agreement and shall administer this Agreement for City, including any payments hereunder. All Attorney questions pertaining to this Agreement shall be referred to the City Representative or the Representative's designee.

5. **Insurance Requirements.** During the entire term of this Agreement, Attorney shall maintain the following insurance:

   a. **Minimum Scope of Insurance:** Coverage should be at least as broad as:

      i. Insurance Services Office Form No. CG 0001 (Commercial General Liability);

      ii. Insurance Services Office Form No. CA 0001 (Ed. 1/87) (Automobile Liability, Code "any auto");

      iii. Workers' Compensation as required by the Labor Code of the State of California, and Employers' Liability Insurance:

      iv. Professional Liability (Errors and Omissions) insurance against loss due to error, omission or malpractice.

   b. **Minimum Limits of Insurance:** Attorney shall maintain limits no less than:

      i. **Commercial General Liability:** $1,000,000 combined single limit per occurrence, including endorsements for contractual liabilities, broad form property damage and personal injury.

      ii. **Automobile Liability:** $1,000,000 combined single limit per accident for personal injury and property damage arising from owned, hired and non-owned vehicles.

      iii. **Workers' Compensation and Employers' Liability:** Workers' compensation limits as required by the Labor Code of the State of California and Employers' Liability limits of $1,000,000 per accident.

      iv. **Professional Liability (Errors and Omissions):** $2,000,000 combined single limit per occurrence.

   c. **Deductibles and Self-Insured Retentions:** Any deductibles or self-insured retentions must be declared to and approved by the City.

   d. **Other Insurance Provisions:** The policies are to contain, or be endorsed to contain, the following provisions:

i. **General Liability and Automobile Liability Coverages:**

(1) The General Liability and Automobile Liability policies shall be written on an occurrence form and shall name City, its officers, officials, agents, employees and volunteers as additional insureds. Such policy(ies) of insurance shall be endorsed so that Attorney's insurance shall be primary and any insurance or self-insurance maintained by City, its officials, employees or volunteers shall be in excess of Attorney's insurance and shall not contribute with it.

(2) Any failure to comply with reporting provisions of the policies shall not affect coverage provided to City, its officials, employees or volunteers.

(3) Coverage shall state that Attorney's insurance shall apply separately to each insured against whom claim is made or suit is brought, except with respect to the limits of the insurer's liability.

ii. **All Coverages:**

(1) Each insurance policy required by this Agreement shall be endorsed to state that coverages shall not be canceled except after thirty (30) days prior written notice has been given to City. In addition, Attorney agrees that it shall not reduce its coverage or limits on any such policy except after thirty (30) days prior written notice has been given to City and City approves the reduction in coverage or limits. Attorney further agrees that it shall not increase any deductibles or self-insured retentions on any such policy except after thirty (30) days prior written notice has been given to City and City approves such increase.

(2) In the event claims made forms are used for any Professional Liability coverage, either (i) the policy(ies) shall be endorsed to provide not less than a five (5) year discovery period, or (ii) the coverage shall be maintained for a minimum of five (5) years following the termination of this Agreement and the requirements of this section relating to such coverage shall survive termination or expiration of this Agreement. Attorney shall furnish City with the certificate(s) and applicable endorsements for ALL required insurance prior to City's execution of this Agreement.

e. **Acceptability of Insurers:** Insurance shall be placed with insurers with a Bests' rating of no less than A:VII. This requirement may, however, be waived in individual cases for Errors and Omissions Coverages only; provided, however,

that in no event shall a carrier with a rating below B:IX be acceptable.

f. **Verification of Coverage:** Attorney shall furnish City with certificates of insurance showing compliance with the above requirements and with original endorsements affecting all coverages required by this Agreement both prior to the execution of this Agreement, and during the pendency of this Agreement at any time upon request by City. The certificates and/or endorsements shall set forth a valid policy number for City, and shall indicate the Issue Date, Effective Date and Expiration Date. The certificates and endorsements for each insurance policy shall be signed by a person authorized by the insurer to bind coverage on its behalf. The certificates and endorsements shall be forwarded to the City Representative.

g. **Payment Withhold:** City shall withhold payments to Attorney if the certificates of insurance and endorsements required in this section are canceled or Attorney otherwise ceases to be insured as required herein.

6. **Indemnification.**

a. **Indemnity:** Attorney shall fully indemnify and save harmless, City, its officers and employees, including without limitation the City Attorney, and each and every one of them, from and against all actions, damages, costs, liability, claims, losses, judgments, penalties and expenses of every type and description, including, but not limited to, any fees and/or costs reasonably incurred by City's staff attorneys or outside attorneys and any fees and expenses incurred in enforcing this provision (hereafter collectively referred to as "**Liabilities**"), to which any or all of them may be subjected, to the extent such Liabilities are caused by or result from any negligent act or omission or willful misconduct of Attorney, its subcontractors or agents, and their respective officers and employees, in connection with the performance or nonperformance of this Agreement, whether or not the City, its officers or employees reviewed, accepted or approved any service or work product performed or provided by the Attorney, and whether or not such Liabilities are litigated, settled or reduced to judgment.

b. **Obligation to Defend:** Attorney shall, upon City's request, defend at Attorney's sole cost any action, claim, suit, cause of action or portion thereof which asserts or alleges Liabilities to the extent such Liabilities are caused by or result from any negligent act or omission or willful misconduct of Attorney, its sub-attorneys, subcontractors or agents, and their respective officers and employees, in connection with the performance or nonperformance of this Agreement, whether such action, claim, suit, cause of action or portion thereof is well founded or not.

c. **Insurance Policies; Intellectual Property Claims:** The existence or acceptance by City of any of the insurance policies or coverages described in this Agreement

shall not affect or limit any of City's rights under this section, nor shall the limits of such insurance limit the liability of Attorney hereunder. This section shall not apply to any intellectual property claims, actions, lawsuits or other proceedings subject to the provisions of Section 4 (Confidentiality of City Information) above. The provisions of this section shall survive any expiration or termination of this Agreement.

7. Termination.

a. **By City**. City may terminate this Agreement at any time by written notice. After receiving such notice, Attorney will cease providing services. Attorney will cooperate with City in the orderly transfer of all related files and records to your new counsel.

b. **By Attorney**. Attorney may terminate this Agreement at any time with City's consent or for good cause. Attorney may terminate this Agreement for any reason by giving to City Attorney not less than thirty (30) days prior written notice of termination. The notice shall specify the effective date of and reason for the termination. Good cause exists if (a) any statement is not paid within ninety (90) days of its receipt; (b) City fails to meet any other obligation under this Agreement and continues in that failure for 15 days after Attorney sends written notice to City; (c) City has misrepresented or failed to disclose material facts to Attorney, refused to cooperate with Attorney, refused to follow Attorney's advice on a material matter, or otherwise made Attorney's representation unreasonably difficult; or (d) any other circumstance exists in which ethical rules of the legal profession mandate or permit termination, including situations where a conflict of interest arises. If Attorney terminates Services, City agree to execute a substitution of attorneys promptly and otherwise cooperate in effecting that termination.

Termination of this Agreement, whether by City or by Attorney, will not relieve the obligation to pay for services rendered and costs incurred before our services formally ceased.

8. General Provisions.

a. Independent Contractor.

i. It is understood and agreed that Attorney (including Attorney's employees) is an independent contractor and that no relationship of employer-employee exists between the Parties hereto for any purpose whatsoever. Neither Attorney nor Attorney's assigned personnel shall be entitled to any benefits payable to employees of City. City is not required to make any deductions or withholdings from the compensation payable to Attorney under the

provisions of this Agreement, and Attorney shall be issued an IRS Form 1099 for its services hereunder. As an independent contractor, Attorney hereby agrees to indemnify and hold City harmless from any and all claims that may be made against City based upon any contention by any of Attorney's employees or by any third party, including but not limited to any state or federal agency, that an employer-employee relationship or a substitute therefor exists for any purpose whatsoever by reason of this Agreement or by reason of the nature and/or performance of any Services under this Agreement.

ii. It is further understood and agreed by the Parties hereto that Attorney, in the performance of its obligations hereunder, is subject to the control and direction of City as to the designation of tasks to be performed and the results to be accomplished by the Services agreed to be rendered and performed under this Agreement, but not as to the means, methods, or sequence used by Attorney for accomplishing such results. To the extent that Attorney obtains permission to, and does, use City facilities, space, equipment or support services in the performance of this Agreement, this use shall be at the Attorney's sole discretion based on the Attorney's determination that such use will promote Attorney's efficiency and effectiveness. Except as may be specifically provided elsewhere in this Agreement, the City does not require that Attorney use City facilities, equipment or support services or work in City locations in the performance of this Agreement.

iii. If, in the performance of this Agreement, any third persons are employed by Attorney, such persons shall be entirely and exclusively under the direction, supervision, and control of Attorney. Except as may be specifically provided elsewhere in this Agreement, all terms of employment, including hours, wages, working conditions, discipline, hiring, and discharging, or any other terms of employment or requirements of law, shall be determined by Attorney. It is further understood and agreed that Attorney shall issue W-2 or 1099 Forms for income and employment tax purposes, for all of Attorney's assigned personnel and subcontractors.

b. **Licenses; Permits, Etc.:** Attorney represents and warrants that Attorney has all licenses, permits, City Business Operations Tax Certificate, qualifications, and approvals of whatsoever nature which are legally required for Attorney to practice its profession or provide any services under the Agreement.

_____
Attorney's Initial

Attorney represents and warrants that Attorney shall, at its sole cost and expense,

keep in effect or obtain at all times during the term of this Agreement any licenses, permits, and approvals which are legally required for Attorney to practice its profession or provide such Services. Without limiting the generality of the foregoing, if Attorney is an out-of-state corporation, Attorney warrants and represents that it possesses a valid certificate of qualification to transact business in the State of California issued by the California Secretary of State pursuant to Section 2105 of the California Corporations Code.

c. **Conflicts of Interest.** Attorney represents and warrants that they have made a diligent effort to determine whether there are any actual or potential conflicts of interest that would preclude or interfere with Attorney's performance of this Agreement, and that no such conflict of interest exists. Attorney shall indemnify and hold harmless City from and against any and all liability, loss, expense and obligation arising directly or indirectly out of any breach of the foregoing representation and warranty. Attorney agrees to avoid conflicts of interest or the appearance of any conflicts of interest with the interests of City at all times during the performance of this Agreement.

d. **Confidentiality of City Information.** Attorney understands and agrees that during the course performing the services required by this Agreement, or in contemplation thereof, Attorney may have access to private or confidential information which may be owned or controlled by City and that such information may contain proprietary or confidential details, the disclosure of which to third parties may be damaging to City. Attorney agree that all information disclosed by City to Attorney shall be held in confidence and used only in performance of the services required by this Agreement. A violation of this section shall be a material violation of this Agreement and shall justify legal and/or equitable relief.

e. **Publicity.** The City Representative shall serve as the point of contact for press information regarding all matters pertaining to Services performed by Attorney under this Agreement. Attorney will consult with and obtain approval of the City Representative before making any statement to any media outlet (whether radio, print, internet or television) about the Services.

f. **Disqualification of Judges.** At the option of the City Attorney, judges may be disqualified from hearing City litigation, and Attorney shall adhere to such decision of the City Attorney. In the event that Attorney is of the opinion that a judge ought to be disqualified, the City Attorney must be consulted in advance by Attorney, and Attorney must obtain the City Attorney's written consent to such disqualification.

g. **Equal Employment Opportunity.** During the performance of this Agreement, Attorney, for itself, its assignees and successors in interest, agrees as follows:

i. **Compliance With Regulations:** Attorney shall comply with the Executive Order 11246 entitled "Equal Opportunity in Federal Employment", as amended by Executive Order 11375 and 12086, and as supplemented in Department of Labor regulations (41 CFR Chapter 60), hereinafter collectively referred to as the "Regulations."

ii. **Nondiscrimination:** Attorney, with regards to the work performed pursuant to this Agreement, shall not discriminate on the ground of race, color, religion, sex, national origin, age, marital status, physical handicap or sexual orientation in selection and retention of subcontractors, including procurement of materials and leases of equipment. Attorney shall not participate either directly or indirectly in discrimination prohibited by the Regulations.

h. **Severability.** If any portion of this Agreement or the application thereof to any person or circumstance shall be held invalid or unenforceable, the remainder of this Agreement shall not be affected thereby and shall be enforced to the greatest extent permitted by law.

i. **Waiver.** Neither City acceptance of, or payment for, any Service or Additional Service performed by Attorney, nor any waiver by either Party of any default, breach or condition precedent, shall be construed as a waiver of any provision of this Agreement, nor as a waiver of any other default, breach or condition precedent or any other right hereunder.

j. **Enforcement of Agreement.** This Agreement shall be governed, construed and enforced in accordance with the laws of the State of California. Venue of any litigation arising out of or connected with this Agreement shall lie exclusively in the state trial court or Federal District Court located in Stanislaus County in the State of California, and the Parties consent to jurisdiction over their persons and over the subject matter of any such litigation in such courts, and consent to service of process issued by such courts.

k. **Attorneys' Fees.** In any action to enforce the terms of this Agreement, the prevailing Party shall recover its reasonable attorneys' fees.

l. **Assignment Prohibited.** The expertise and experience of Attorney are material considerations for this Agreement. City has a strong interest in the qualifications and capability of the persons and entities who will fulfill the obligations imposed on Attorney under this Agreement. In recognition of this interest, Attorney shall not assign any right or obligation pursuant to this Agreement without the written consent of the City. Any attempted or purported assignment without City's written consent shall be void and of no effect.

m. **Notice.** Any notice, demand, request, consent, approval, communication either Party desires or is required to give the other party or any other person shall be in writing and either served personally or sent by prepaid, first-class mail to the address set forth below. Either Party may change its address by notifying the other Party of the change of address in writing. Notice shall be deemed communicated forty-eight (48) hours from the time of mailing if mailed as provided in this section.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-501

RESOLUTION APPROVING A THIRD AMENDMENT TO THE LEGAL SERVICES AGREEMENT DATED AUGUST 8TH, 2016 WITH LIEBERT CASSIDY WHITMORE IN AN AMOUNT NOT TO EXCEED $75,000 TO CONTINUE REPRESENTING THE CITY OF MODESTO IN LABOR AND EMPLOYMENT MATTERS, AND AUTHORIZING THE INTERIM CITY MANAGER OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the City Attorney's Office is in need of outside counsel services that relate to labor and employment; and

WHEREAS, Liebert Cassidy Whitmore currently represents the City in one lawsuit; and

WHEREAS, the City Attorney's Office desires to extend the agreement with Liebert Cassidy Whitmore; and

WHEREAS, the City Attorney's office has drafted a Third Amendment to the Legal Services agreement with Liebert Cassidy Whitmore to continue services.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Third Amendment to the Legal Services Agreement with Liebert Cassidy Whitmore in an amount not to exceed $75,000 to continue representing the City of Modesto in labor and employment matters, as provided in **Exhibit A attached** hereto and incorporated herein, and further authorizes the City Attorney to execute such agreement in a form substantially similar to **Exhibit A.**

BE IT FURTHER RESOLVED, that the Interim City Manager or his designee, are hereby authorized to execute the agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

THIRD AMENDMENT TO LEGAL SERVICES AGREEMENT

This Third Amendment for Legal Services (this "**Third Amendment**"), is made and entered into on _____ day of _____ 2017 ("**Effective Date**"), by and between the **CITY OF MODESTO**, a California Municipal Corporation ("**City**"), and **LIEBERT CASSIDY WHITMORE,** ("**Attorney**"), located at 5250 N. Palm Avenue, Suite 310, Fresno, California 93704. City and Attorney are hereinafter collectively referred to as the "**Parties,**" and singularly as "**Party**".

RECITALS

WHEREAS, City and Attorney entered into a Legal Services Agreement ("**Agreement**") for services for legal advice, representation and assistance on matters involving labor and employment law; and

WHEREAS, Attorney is specially trained, experienced and competent to perform such services; and

WHEREAS, the public interest, economy and general welfare will be served by the Agreement; and

WHEREAS, City and Attorney desire to amend the Agreement for further service by increasing the previously approved amount of fees from $202,500 to $277,500.

NOW, THEREFORE, it is hereby agreed that the Legal Services Agreement between the City of Modesto and Liebert Cassidy Whitmore, dated August 8th, 2016, amended by Resolution Nos. 2016-510 and 2017-273 is amended as follows:

1. Section 2(a) of Paragraph 2, "Fees and Costs," Hourly Rates is amended to state as follows:

"The total of all fees paid to Attorney for the performance of all services set forth in Section 1(thereafter the "**Service**"), and for all authorized Reimbursable Expenses (as defined hereafter), shall not exceed a total sum of two hundred seventy-seven thousand and five hundred dollars ($277,500)."

2. **Entire Agreement**. The parties to this Third Amendment understand and agree that except as stated herein all terms and conditions of the original Agreement, dated August 8th, 2016, remain in full force and effect to the extent they are not in conflict with this Third Amendment. This document, including all exhibits, contain the entire amendment to the Agreement between the Parties and supersedes whatever oral or written understanding they may have had prior to the execution of this Third Amendment. No alteration to the terms of this Third Amendment shall be valid unless approved in writing by Attorney and by City, in accordance with applicable provision of the Modesto City Code.

3. **Authority**. The person signing this Third Amendment for Attorney hereby represents and warrants that he/she is fully authorized to sign this Third Amendment on behalf of Attorney and to bind Attorney to the performance of its obligations hereunder.

IN WITNESS WHEREOF, the Parties have executed this Third Amendment as of the dates stated below.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-502

RESOLUTION APPROVING AN AGREEMENT WITH DRAKE HAGLAN AND ASSOCIATES, MODESTO, CA, IN AN AMOUNT NOT TO EXCEED $239,726, FOR PROFESSIONAL ENGINEERING DESIGN SERVICES FOR THE CARPENTER ROAD STREET IMPROVEMENTS PROJECT, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the City is ready to begin design for the Carpenter Road Street Improvements Project, and

WHEREAS, on May 24, 2016, by Resolution 2016-220, Council approved a list of projects to be funded upon the passage of Measure L within the first 5 years, and

WHEREAS, the list includes the Carpenter Road Street Improvements project under the Local Streets and Roads category with a total budget of $2.9 million dollars, and

WHEREAS, in November of 2016 the voters of Stanislaus County approve the county wide, 25-year, half-cent sales tax increase known as Measure L, and

WHEREAS, on July 5, 2017, by Resolution 2017- 269, Council approved a list of proposed projects including the Carpenter Road Street Improvements project to be funded with Measure L tax proceeds in Fiscal Year 2017-18, and

WHEREAS, in accordance with Administrative Directive 3.1 staff utilized a pre-qualified local consultant list and requested a proposal from Drake Haglan to perform design services for the Carpenter Road Street Improvements project.

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an agreement with Drake Haglan and Associates (Modesto, CA)

for professional engineering design services for the Carpenter Road Street Improvements project, in an amount not to exceed $239,726.36.

BE IT FURTHER RESOLVED, that the Interim City Manager, or his designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-503

RESOLUTION APPROVING THE SUBMITTAL REQUIREMENTS FOR THE PROCESSING OF LANDMARK PRESERVATION (MILLS ACT) CONTRACT APPLICATIONS

WHEREAS, the Landmark Preservation Commission responsibilities have been transferred to the Community and Economic Development Department, effective July 1, 2016, and

WHEREAS, the Community and Economic Development Department established a Process Improvement program for development processes which identified the need for increased clarity and specificity in submittal requirements for development approvals, and

WHEREAS, on February 27, 2007, the City Council, by Resolution No. 2007-154, formally established submittal requirements for several types of zoning and development applications, and

WHEREAS, submittal requirements for Landmark Preservation (Mills Act) contract-related applications serve to ensure that important information is collected prior to processing the contract; to facilitate processing of the contract; and, to ensure a predictable and equitable approach to processing contracts, and

WHEREAS, at its regular meeting of July 27, 2017, at 1010 10th Street, Modesto, California, the Landmark Preservation Commission discussed proposed submittal requirements for Landmark Preservation (Mills Act) contract applications, and

WHEREAS, at its meeting of November 8, 2017, at 1010 10th Street, Modesto, California, the Economic Development Committee of the City Council accepted the report and voted to forward it to City Council, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the proposed application submittal requirements as described in **Exhibit "A", attached** hereto and incorporated herein by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

EXHIBIT A

CITY OF MODESTO
Community and Economic Development Department/Planning Division
1010 Tenth Street, Suite 3300, P.O. Box 642
Modesto, CA 95353
(209) 577-5267 (209) 491-5798 FAX

Landmark Preservation Contract Application Submittal Requirements

GENERAL REQUIREMENTS:

☐ 1. The first two pages of the Uniform Application must be typed or printed and filled in completely. Please recycle the remaining sheets.

If the applicant is not the property owner, the property owner shall designate the applicant as the authorized agent to act on his or her behalf and both shall sign this application.

☐ 2. Landmark Preservation Contract Plan for Improvements (final list will be attached to contract).

Possible improvements include:

(a) The cost of ongoing maintenance.

(b) Clean up of the exterior, such as removal of dirt, obsolete ducts, wires, and other clutter, repainting

(c) Restoration of exterior features as they wear out.

(d) Removal of add-ons and restoration to original façade (e.g. remove stucco, replace vinyl windows with double-hung glass)

Include photos, if needed, to illustrate.

☐ 3. All applicable filing fees (see adopted fee schedule).

FOR YOUR INFORMATION: Staff may deem additional information necessary to adequately review the application, complete environmental review for the project, or make recommendations to the Landmark Preservation Commission. Completion of the application does not presume approval or staff support of the application. Such approval is discretionary with the Director, Planning Commission, and/or City Council. The Director, Planning Commission, or City Council may deny, modify, or conditionally approve the application.

About Landmark Preservation Contracts

What is a Landmark Preservation contract?
Old buildings are more costly to maintain and repair than more contemporary buildings. A Landmark Preservation contract—often referred to as a "Mills Act" contract-- acknowledges the value of maintaining historic buildings in good condition by exchanging a reduction in property tax for a plan for restoration and maintenance of a particular building. (In Modesto, these are officially referred to as "Landmark Preservation contracts.") Mills Act contracts are 10-year contracts that automatically renew annually if neither party to the contract takes action to terminate the contract. Contract termination may start a 10-year process of winding down or may terminate immediately. Immediate termination results in a financial penalty.

Can I get a Mills Act contract on my old building?
Any property or structure that meets the criteria in the Landmark Preservation Ordinance (Title 9, Chapter 10, of the Modesto Municipal Code) and which has been designated as a landmark is eligible for the Mills Act. Applications for Landmark Preservation contracts are heard before the Landmark Preservation Commission, which makes a recommendation to City Council. City Council makes the final decision at a public hearing.

Are there any other responsibilities I should know about?
The approved plan for improvements and maintenance is reviewed periodically to ensure that work is being performed in accordance with the contract. The property owner may submit a letter with receipts attached indicating the work performed since the last review. Staff may make appointments with the property owner to review the work. If the schedule of improvements and maintenance will change, the property owner should inform staff as part of the report.

What happens if I don't make the improvements?
The Landmark Preservation Commission can determine whether the contract should be terminated and makes a recommendation to City Council. City Council makes the final decision whether to terminate the contract.

What happens if I sell my house?
The Landmark Preservation contract follows the property and the contract will be disclosed as part of the sale. Property tax reduction is a positive selling point for the property.

Modesto's Municipal Code (Title 9, Chapter 10) includes these definitions of historic significance:

(a) Significance: The quality of the information, example, interest or meaning represented by the site for understanding and appreciating the past, development or culture.

(b) Historic Significance: Associated with activities, processes, events, trends or persons of importance to the community, state or nation.

(c) Architectural Significance: Possessing distinctive characteristics of a style, place, period, method or materials of construction, builder or architect.

(d) Cultural Significance: A significant setting of manmade or natural features (including significant trees or other plant life located thereon), or a combination, possessing meaning primarily by long association or identification with the community and/or its citizens.

(e) Archaeological Significance: A setting possessing the potential to reveal information important to historic or prehistoric studies.

(f) Engineering Significance: A work demonstrating a technology, design or method characteristic of a historic period or activity.

(g) Modesto Landmark Preservation Site: An area, district, building, structure or object, which has been designated for preservation for reasons of its significance by the City Council.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-504

RESOLUTION APPROVING AN AMENDMENT TO THE AGREEMENT WITH BRIGHTVIEW GOLF MAINTENANCE, CALABASAS, CA (FORMERLY KNOWN AS VALLEYCREST GOLF MAINTENANCE, INC.), IN PARTNERSHIP WITH KEMPERSPORTS MANAGEMENT, FOR GOLF COURSE MANAGEMENT AND MAINTENANCE SERVICES; TO EXTEND THE AGREEMENT TERM FOR ONE YEAR TO DECEMBER 31, 2018; TO INCREASE ANNUAL COMPENSATION BY $127,738, IN AN AMOUNT NOT TO EXCEED $2,529,443 FOR THE ONE YEAR EXTENSION; AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AMENDMENT

WHEREAS, the City owns, operates and manages the Municipal Golf Course ("Municipal Course"), Dryden Park Municipal Golf Course ("Dryden Course"), and Creekside Municipal Golf Course ("Creekside Course"), and

WHEREAS, in February 2015 the City issued a formal Request for Proposals (RFP) to provide golf course management and maintenance services, and

WHEREAS, ValleyCrest Golf Maintenance ("ValleyCrest") ranked highest, and

WHEREAS, in July 2015, the Finance Committee opted to defer awarding the contract and directed staff to return with additional financial information, potential land use options, and possible closure scenarios for one or more courses, and

WHEREAS, in November 2015, the Finance Committee directed staff to continue pursuing options for repurposing a golf course and to proceed with agreement negotiations for a two-year contract with ValleyCrest, in partnership with KemperSports Management, Inc. ("KemperSports"), and

WHEREAS, on December 15, 2017, by Resolution No. 2015-486, the City Council approved a two year agreement with ValleyCrest, in partnership with

KemperSports, to provide golf course management and maintenance services, in an amount not to exceed $2,401,705 per year, and

WHEREAS, ValleyCrest is now doing business as BrightView Golf Maintenance, Inc. (BrightView), and

WHEREAS, in May 2016 staff made a presentation on the status of the City's golf courses to the Mayor's 100 Day Budget Review Committee ("Committee"), and

WHEREAS, Committee members Ron Jackson and George Petrulakis were appointed to explore possible options for the City's courses to reduce their impacts to the General Fund, and

WHEREAS, in September 2017, Ron Jackson, and staff presented a Golf Workshop to Council,

WHEREAS, the Council directed to staff to conduct public workshops and report findings at a future meetings, and

WHEREAS, public workshops are scheduled for January 2018, and

WHEREAS, the current contract is set to expire on December 31, 2017, and

WHEREAS, in order to maintain service to the City's courses, an extension is required, and

WHEREAS, BrightView and staff renegotiated the extension of the term and to amend compensation, and

WHEREAS, the proposed amendment will formerly recognize the name change of ValleyCrest to BrightView; extend the term of the agreement for one year or through December 31, 2018; and to increase the minimum annual compensation by $127,738, in an amount not to exceed $2,529,443 for the additional year, and

WHEREAS, the increase to the contract covers the rising costs of wages, primarily due to the increase in the minimum wage, as well as the cost of merchandise, food and beverages sold in the clubhouses, and

WHEREAS, the total increase is $127,738, for a total cost of $2,529,443 for one year, is currently included in the adopted Fiscal Year 2017-2018 operating budget, and

WHEREAS, on November 27, 2017, the Finance Committee reviewed the proposed amendment and recommended it be forwarded to Council for consideration.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an amendment to the Agreement with BrightView which includes the following:

1. Recognizing the formal name change of ValleyCrest Golf Maintenance, Inc. to BrightView Golf Maintenance, Inc.
2. Extending the term of the Agreement for one year or through December 31, 2018.
3. Increasing the minimum annual compensation by $127,738, in an amount not to exceed $2,529,443 for the additional year.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the Amendment to the Agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Ridenour, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-505

RESOLUTION APPROVING THE MEASURE L MASTER FUNDING AGREEMENT WITH THE STANISLAUS COUNCIL OF GOVERNMENTS (STANCOG) AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, in November of 2016, Stanislaus County voters approved a county-wide, 25-year, half-cent sales tax increase known as Measure L, and

WHEREAS, the Stanislaus Council of Governments (StanCOG), as the Local Transportation Authority, will administer the proceeds from the one-half cent sales tax, and

WHEREAS, the Measure L Master Funding Agreement (Agreement) delineates the requirements of the Measure L funds that are allocated to the jurisdictions within Stanislaus County for local streets and roads, traffic management and bike and pedestrian improvements, and Transit Provider funds for Transit Services, as authorized by the Measure L Expenditure Plan, and

WHEREAS, each of the member agencies of StanCOG is required to enter into the Agreement prior to receiving Measure L fund disbursements, and

WHEREAS, this Agreement was approved by the StanCOG Policy Board on November 15, 2017, and

WHEREAS, the term of the Agreement is three (3) years.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Measure L Master Funding Agreement with the Stanislaus Council of Governments (StanCOG).

BE IT FURTHER RESOLVED, that the Interim City Manager, or his designee, is authorized to execute the Agreement, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-506

RESOLUTION APPROVING AN EIGHTEEN MONTH USE AGREEMENT WITH THE REGENTS OF THE UNIVERSITY OF CALIFORNIA, WITH (3) ONE-YEAR AUTOMATIC EXTENSION OPTIONS ENDING JUNE 30, 2022 TO LOCATE A VENTURE LAB AT THE MODESTO CENTRE PLAZA RESULTING IN ANNUAL PAYMENT TO THE CITY OF $23,377 AND A TOTAL OF $105,197 OVER THE TERM OF THE AGREEMENT

WHEREAS, the Regents of the University of California, (University of California) and City of Modesto have identified the benefits of making secondary education opportunities available in Modesto, and

WHEREAS, the University of California, Merced (UC Merced) desires to establish a satellite Venture Lab in Modesto to focus on start-up businesses and works with founders to develop and market test their value propositions and discover their customers, and

WHEREAS, the City operates and manages the Modesto Centre Plaza (MCP), and

WHEREAS, repurposing a portion of the MCP as a Venture Lab will provide an economic benefit to the City and the downtown area, and

WHEREAS, City desires to enter into a use agreement with the University of California to use the Magnolia and Ash rooms on the lower level of MCP for $1.00 per year, and

WHEREAS, the proposed agreement term will be January 1, 2018 through June 30, 2019 with three (3) automatic one-year extension options, and

WHEREAS, the University of California will assume all expenses related to improvements, in addition to $23,377 per year for insurance, maintenance expenses, and utility expenses, and

WHEREAS, the University of California will have the option to purchase permits for two parking spaces at the City's prevailing monthly rate (currently $80/month), and

WHEREAS, on September 25, 2017, the Finance Committee (formerly Effective Government Committee) recommended this agreement be forwarded to the City Council for approval.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an eighteen month use agreement with The Regents of the University of California, with (3) one-year automatic extension options ending June 30, 2022 to locate a Venture Lab at the Modesto Centre Plaza.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the agreement in a form substantially similar to the **attached Exhibit A** and any other necessary implementing documents.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

USE AGREEMENT
BY AND BETWEEN
CITY OF MODESTO
AND
THE REGENTS OF THE UNIVERSITY OF CALIFORNIA

THIS USE AGREEMENT (the "**Agreement**") is entered into as of _____, 2017, by and between the CITY OF MODESTO ("**City**") and THE REGENTS OF THE UNIVERSITY OF CALIFORNIA ("**Operator**"), under the following terms and conditions:

1. Background.

a. City is the lessee of that certain parcel of real property located generally at 1000 L Street, Modesto, California (APN 105-048-011), which is currently improved with that portion of the Community Center Project known and referred to as the Modesto Centre Plaza (the "**Plaza**" or "**Building**").

b. Operator desires to use a portion of the space located on the lower level of the Plaza, consisting of approximately 1,600 square feet of improved space, referred to as the Ash/Magnolia rooms (the "**Designated Area**"), as shown on the diagram attached hereto as **Exhibit A** and incorporated herein by reference.

c. City desires to grant to Operator the right to use the Designated Area pursuant to the terms and conditions set forth in this Agreement.

2. City hereby grants to Operator the right to use the Designated Area, for the Activities described in Section 7, below, subject to all of the terms and conditions set forth in this Agreement.

3. Term, Occupancy, and Renewal.

a. Term. The term (the "**Term**") of this Agreement shall commence on the date this Agreement is signed by both parties (the "**Commencement Date**"), and shall continue in effect through June 30, 2019 (the "**Initial Term**").

b. Extensions. Operator shall have three (3) options(s) (each, an "Extension Option") to extend the Term beyond the initial term for consecutive periods of one (1) year each (each an "Extended Term"). Each Extension Option must be exercised, if at all, no later than three (3) months prior to the last day of the then current Term (or Extended Term) by written notice to City. All terms and conditions of this Agreement shall remain in full force during the Extended Terms(s). If such notice is not given, then this Agreement shall expire upon the expiration of the Initial Term or then current Extension Term, as the case may be.

4. Use Fee.

a. During the Term of this Agreement, Operator shall pay an annual fee of One Dollar ($1.00) (the "**Use Fee**") for the use of the Designated Area. All monetary obligations of

Operator to City under the terms of this Agreement, including but not limited to Operator's pro rata share of the Operating Expenses provided for under Section 11, below, shall be deemed to be a part of the Use Fee, and shall be paid in addition to the Use Fee amount set forth above.

b. Late Charge. Operator acknowledges that late payment by Operator to City of the Use Fee will cause City to incur costs not contemplated by this Agreement. If any installment of Use Fee due from Operator is not received by City within five (5) days after it becomes due, Operator shall pay to City an additional sum of 6% of the overdue Use Fee as a late charge.

c. Interest on Unpaid Use Fee. The Use Fee or other charges under this Agreement not paid within five (5) days of the date due shall, in addition to any late charges under Section 4.b, above, bear interest at the lesser of the maximum legal rate or 10% per annum from the date due until paid.

d. Place of Payment of Use Fee. The Use Fee and all other sums which shall become due under this Agreement, including but not limited to late charges and Operating Expenses, shall be payable by hand delivery or mail at the office of the City located at 1010 10th Street (P. O. Box 3441), Modesto, CA 95354, or at such other place as City may designate from time to time in writing. Mailed payments must be received (not postmarked) by City by the date due.

5. Parking. Operator acknowledges that there is no parking in the Building. City shall provide Operator, at no cost, two (2) parking spaces in the Tenth Street public parking garage, located in the proximity of the Plaza, for twelve (12) months from the effective date of this Agreement. Thereafter, Operator shall have the option of obtaining permits for two (2) parking spaces in the Tenth Street public parking garage, located in the proximity of the Plaza, at the prevailing cost of a Monthly Pass, currently Eighty Dollars ($80.00) per space per month. Parking passes to be purchased from the City Finance Department, Customer Service Division, 1010 10th Street, Second Floor. Any additional parking required shall be arranged by Operator through Parking Services Division of Public Works Department.

6. Condition of, and Improvements to, Designated Area.

a. Improvements. Except for the normal maintenance obligations set forth in Section 13.b., City shall have no obligation or responsibility, actual or implied, to install, construct, accommodate, or make any improvements to the Designated Area prior to, or as a condition of, Operator's use and occupancy of the Designated Area. Operator shall be responsible, at its sole cost and expense, for all work related to construction and build-out of the Venture Lab within the Designated Area, pursuant to plans approved by City. Operator shall also be permitted to install a key card system at the lower level exterior door, in accordance with plans approved by City, and if so installed, Operator shall be responsible for all repairs and maintenance of such key card system. Operator shall also be permitted to install security cameras, with the approval of the City, as well as white boards and removable decals inside the Designated Area. Any improvements affixed to the Designated Area, except furnishings, equipment and trade fixtures, shall, at City's option, become part of the real property and belong to City on expiration or termination of the Term or any Extended Term of this Agreement.

Operator shall keep the Designated Area and the Plaza free and clear of any liens or encumbrances which may arise from any such work. At City's option, Operator shall, at its sole cost and expense, remove all such improvements from the Designated Area at the end of the Term and repair any damage to the Designated Area occasioned by such removal. If Operator shall fail to complete such removal and repair such damage within ten (10) days after termination of this Agreement, City may do so and Operator shall pay the reasonable cost thereof as an additional User Fee within ten (10) days after City shall render to Operator a written statement therefor.

b. Operator shall cause all work performed in connection with the construction of the Venture Lab, defined in Section 7, below, and any other improvements to the Designated Area to be performed in compliance with all applicable laws, ordinances, rules and regulations of federal, state, county and municipal governments or agencies now in force or that may be enacted hereafter.

c. Prevailing Wages. Operator shall and shall cause its contractor and subcontractors to comply with all applicable provisions of California Labor Code Section 1720 *et seq.*, 1770 *et seq.*, 1777.5 *et seq.*, and implementing regulations of the California Department of Industrial Relations ("**DIR**"), and keep and retain such records as are necessary to determine if such prevailing wages have been paid as required pursuant to California Labor Code Section 1720 *et seq.*, and apprentices have been employed as required by California Labor Code Section 1777.5 *et seq.* Operator shall indemnify, hold harmless and defend (with counsel reasonably acceptable to the City) the City against any claim for damages, compensation, fines, penalties or other amounts arising out of the failure or alleged failure of any person or entity (including Operator, its contractor and subcontractors) to pay prevailing wages as determined pursuant to California Labor Code Section 1720 *et seq.*, to employ apprentices pursuant to California Labor Code Section 1777.5 *et seq.*, and implementing regulations of the DIR or to comply with the other applicable provisions of California Labor Code Sections 1720 *et seq.*, 1770 *et seq.*, 1777.5 *et seq.*, and the implementing regulations of the DIR in connection with the construction of the improvements to the Designated Area or any other work undertaken or in connection with the Designated Area. The requirements in this Subsection shall survive any termination of this Agreement.

d. As-Is Condition. Operator warrants and agrees that Operator has inspected the Designated Area. Operator agrees to take possession of the Designated Area in an AS-IS condition (which exists on the date this Agreement is signed) provided:

All doors and windows and glazing, interior and exterior, are repaired and in good working order at the occupancy date

The "premises" currently complies with all applicable codes and laws, including without limitation, the law commonly known as the Americans With Disabilities Act and California Code of Regulations Title 8, Sections 3281 through 3299 (collectively, "Laws") prior to Operator occupying.

The collapsible wall is in good working order and repair upon occupancy.

All Building Systems including, but not limited to, electrical, lighting, roof, ceiling and HVAC, are in good working order and repair at the occupancy date.

Operator further agrees that City shall have no responsibility for any repairs or improvements to the Designated Area, prior to, or as a condition of, Operator's occupation of the Designated Area. City makes no representations regarding the condition, status, compliance with laws or suitability for a particular purpose for Operator's use.

e. Condition Upon Surrender. Upon termination of this Agreement, Operator shall surrender the Designated Area to City in as good condition as when received, ordinary wear and tear and damage by fire, earthquake, or act of God excepted, and including any repairs or improvements made by Operator. If Operator fails to maintain the Designated Area in good order and repair, after thirty (30) days' prior written notice, City may, at its option, make such repairs, and Operator shall pay the reasonable cost thereof as additional Use Fee hereunder within ten (10) days after receipt of a written statement therefor. In the event the giving of thirty (30) days' prior notice may result in additional damage to the Designated Area, City may make such repairs, at Operator's expense, without thirty (30) days' prior written notice.

7. Use. The Designated Area shall be used only for the construction and operation of a Venture Lab ("**Venture Lab**") associated with UC Merced, to serve as an incubator for business entrepreneurs and small start-up businesses, as well as providing instruction via in-person or virtual classrooms. Operator shall not use any portion of the Designated Area for purposes other than those specified without first obtaining the written consent of City. Operator shall not do, bring, allow or keep anything in, on, or about the Designated Area which will in any way increase the premium rate or cause the cancellation of any fire or other insurance upon the Designated Area, the building in which the Designated Area is located, or any of its contents.

8. Common Areas. The term "**Common Areas**" is defined as all areas and facilities outside the Designated Area and within the exterior boundary line of the Plaza that are provided and designated by City from time-to-time for the general nonexclusive use of City, Operator and tenants and other occupants of the Plaza and their respective agents, employees, customers, contractors, licensees, invitees and other visitors, including entryways, hallways, restrooms, elevators, loading and unloading areas, trash areas, sidewalks, walkways, parkways, driveways and landscaped areas. Operator acknowledges that the City is not obligated to make any improvements either to the Designated Area or the Common Areas, in its sole and absolute discretion, determine to do so. City hereby grants to Operator, for the benefit of Operator and its directors, agents, employees, students, contractors, licensees, invitees and other visitors, during the Term of this Agreement, the nonexclusive right to use, in common with others entitled to such use, the Common Areas as they exist and ingress and egress to the Designated Area, subject to any rights, powers and privileges reserved by City under the terms hereof or under the terms of any rules and regulations or restrictions governing the use of the Building or the Designated Area. Under no circumstances shall the right herein granted to use the Common Areas be deemed to include the right to store any property, temporarily or permanently, in the Common Areas. Any such storage shall be permitted only by the prior written consent of City or City's designated agent, which consent may be revoked at any time. In the event that any unauthorized storage shall occur then City shall have the right, without notice, in addition to any other rights

and remedies that it may have, to remove the property and charge the cost to Operator, which cost shall be payable as additional Use Fee immediately upon demand by City.

9. Compliance with Laws/Hazardous Materials.

a. Operator, at Operator's expense, shall comply with and cause all of Operator's directors, employees, agents, students and others to comply with all applicable laws, ordinances, rules and regulations of governmental authorities applicable to the Designated Area or the use or occupancy thereof, including, without limitation, the law commonly known as the Americans With Disabilities Act and California Code of Regulations Title 8, Sections 3281 through 3299 (collectively, "**Laws**").

b. Operator shall not cause or permit any Hazardous Materials, as defined below, to be brought upon, kept, used, discharged, deposited or leaked in or about the Designated Area or the Plaza by Operator or any of Operator's directors, employees, licensees, students, invitees, agents, or contractors, or by anyone else in the Designated Area (other than City or its agents, employees or contractors), and shall indemnify City against the same.

10. Waste; Nuisance; Quiet Enjoyment. Operator shall not suffer or commit any waste or nuisance in the Designated Area, nor shall Operator interfere with or obstruct the rights of or disturb the quiet enjoyment of any other occupant of the Building or injure or annoy them. Operator shall not use or allow the Designated Area to be used for any improper, immoral, or objectionable purposes, to be determined in City's sole and absolute judgment.

11. Utilities; Operating Expenses. Operator shall pay Operator's pro rata share of the actual costs incurred by or on behalf of City for the operation of the Plaza (all, collectively, the "**Operating Expenses**"), including (a) insurance premiums (currently estimated to be $1.07 per square foot, or approximately $1,712 per year for the 1,600 square feet of space in the Designated Area), (b) maintenance costs (currently estimated to be $5.18 per square foot, or approximately $8,288 per year for the 1,600 square feet of space in the Designated Area), (c) real estate taxes, if applicable, and (d) all utilities and services furnished to or used by Operator upon the Designated Area or the Common Areas, including electricity, water, sewer, natural gas, and HVAC (currently estimated to be $8.36 per square foot, or approximately $13,376 per year for the 1,600 square feet of space in the Designated Area). Notwithstanding anything to the contrary herein, the pro rata share of maintenance costs to be paid by Operator, as set forth in subsection (b), above, shall not increase more than five percent (5%) per year. Operator's pro rata share of the Operating Expenses shall be paid in addition to the Use Fee amount set forth in Section 4, above, and shall be considered a part of the Use Fee for purposes of this Agreement. (See Attached **Exhibit B, Schedule of User Fee and Operating and Utility Expenses**, attached hereto).

Operator shall contract directly with the following utilities/service providers and pay for such services directly: cable service, telephone services, and all applicable connection charges.

City shall not be responsible for any interruptions or disturbance of service regardless of whether Operator is paying directly for such services or if such services are being contracted for by City, nor shall there be any abatement of the Use Fee resulting from any cessation or

interruption of utility service or other service contemplated by this section. Operator shall deposit all trash only in designated areas. Operator hereby waives the provisions of California Civil Code Section 1932(1) or any other applicable existing or future law, ordinance or governmental regulation permitting the termination of this Agreement due to the interruption or failure of any services to be provided under this Agreement.

12. Signs. Operator shall be permitted to install signage over the glass doors to the lower level of the Building, as well as a sign visible to the street at the top of the stairs, at an available location approved by City. All costs associated with such signage, including permits, design, furnishing, installation, repairs, maintenance and removal thereof, and including any restoration of the Building to its original condition prior to the installation of any such signage, shall be borne by Operator. All such signage shall meet all requirements of and be in accordance with the City's sign ordinance, and shall be subject to City's approval. The Building signage provisions are personal to Operator and may not be transferred or in any way utilized by a subtenant or assignee.

13. Maintenance, Repairs, Alterations and Liens.

a. Operator shall not make or cause to be made any alterations, additions, or improvements to or of the Designated Area or any part thereof without the prior written consent of City. If City authorizes any alterations, additions or improvements to or of the Designated Area or any part thereof, Operator shall keep the Designated Area and the Plaza free and clear of any liens or encumbrances which may arise from any such work.

b. City's Obligations. City shall keep in good order, condition and repair (a) the foundations, exterior walls, structural condition of interior bearing walls and structural roof of the Building; (b) the walkways, driveways, landscaping, fences, signs, the Common Areas, and all parts thereof; (c) all plumbing, heating, ventilating and air conditioning systems, electrical and lighting facilities and equipment within the Plaza, including those that serve the Designated Area; and (d) fixtures, interior walls and interior surfaces of exterior walls, ceilings, windows, and doors of the Building, the cost of which shall all be considered Operating Expenses subject to reimbursement under Section 11, above. City shall not, however, be obligated to paint the exterior or interior surface of exterior walls, paint the interior of the Designated Area or clean the carpets. City shall have no obligation to make repairs under this Section 13.b until a reasonable time after receipt of written notice from City of the need for such repairs.

c. Operator's Obligations. Except for those items that are the responsibility of City under Section 13.b., above, Operator shall keep the Designated Area, and all improvements, furnishings and equipment constructed or installed by Operator, in good order, condition and repair in all other respects, including replacement of glass located within the Designated Area. Operator is responsible for all janitorial needs of the Designated Area.

14. Assignment and Sublicense. Operator shall not assign or encumber this Agreement or any interest herein or sublet or license the Designated Area or any portion thereof either voluntarily or by operation of law without the prior written consent of City, which consent shall not be unreasonably withheld.

15. Entry by City. City and its agents shall have the right to enter the Designated Area at reasonable times to inspect and examine the same and to make such repairs to the Designated Area as the City shall deem advisable, and to show the Designated Area to prospective tenants, buyers or lenders.

16. Indemnification.

a. Waiver of Claims. To the extent permitted by law, Operator waives all claims against City for damage to person or property arising for any reason. Operator assumes all such risks for Operator and any directors, employees, licensees, students, invitees, agents, or contractors.

b. General Indemnity.

City's obligation. City shall indemnify, defend, hold harmless Operator, its officers, agents, and employees from and against any claims, damages, costs, expenses, or liabilities (collectively "Claims") arising out of or in any way connected with this Agreement including, without limitation, Claims for loss or damage to any property, or for death or injury to any person or persons, but only in proportion to and to the extent that such Claims arise from the negligent or wrongful acts or omissions of the City, its officers, partners, agents, or employees.

Operator's Obligation. Operator shall indemnify, defend and hold harmless City, its officers, partners, agents, and employees from and against any Claims arising out of or in any way connected with this Agreement including, without limitation, Claims for loss or damage to any property or for death or injury to any person or persons, but only in proportion to and to the extent that such Claims arise from the negligent or wrongful acts or omissions of Operator, its officers, agents, or employees.

17. Insurance.

Operator shall procure and maintain for the duration of the contract insurance against claims for injuries to persons or damages to property which may arise from or in connection with the Operator's operation and use of the leased premises. The cost of such insurance shall be borne by the Operator.

MINIMUM SCOPE AND LIMIT OF INSURANCE

Coverage shall be at least as broad as:

a. Commercial General Liability (CGL): Insurance Services Office Form CG 00 01 covering CGL on an "occurrence" basis, including products and completed operations, property damage, bodily injury and personal & advertising injury with limits no less than $1,000,000 per occurrence. If a general aggregate limit applies, either the general aggregate limit shall apply separately to this project/location (ISO CG 25 03 or 25 04) or the general aggregate limit shall be twice the required occurrence limit.

b. Workers' Compensation insurance as required by the State of California, with Statutory Limits, and Employer's Liability Insurance with limits of no less than $1,000,000 per accident for bodily injury or disease (for lessees with employees).

c. Property insurance against all risks of loss to any tenant improvements or betterments, at full replacement cost with no coinsurance penalty provision.

If the Operator maintains broader coverage and/or higher limits than the minimums shown above, the City requires and shall be entitled to the broader coverage and/or higher limits maintained. Any available insurance proceeds in excess of the specified minimum limits of insurance and coverage shall be available to the City.

Application of Excess Liability Coverage: Operators may use a combination of primary, and excess insurance policies which provide coverage as broad as ("follow form" over) the underlying primary policies, to satisfy the Required Insurance provisions.

d. Other Insurance Provisions

The insurance policies are to contain, or be endorsed to contain, the following provisions:

(1) Additional Insured Status

The City of Modesto, its officers, officials, employees, agents and volunteers are to be covered as additional insureds on the CGL policy with respect to liability arising out of work or operations performed by or on behalf of the Operator including materials, parts, or equipment furnished in connection with such work or operations. General liability coverage can be provided in the form of an endorsement to the Operator's insurance at least as broad as ISO Form CG 20 10.

(2) Primary Coverage

For any claims related to this contract, the Operator's insurance coverage shall be primary insurance coverage at least as broad as ISO CG 20 01 04 13 as respects the City, its officers, officials, employees, agents and volunteers. Any insurance or self-insurance maintained by the City, its officers, officials, employees, agents or volunteers shall be excess of the Operator's insurance and shall not contribute with it.

(3) Reporting

Any failure to comply with reporting provisions of the policies shall not affect coverage provided to the City or its officers, officials, employees, agents or volunteers.

(4) Notice of Cancellation

Each insurance policy required above shall provide that coverage shall not be canceled, except with notice to the City.

(5) Waiver of Subrogation

Operator hereby grants to City a waiver of any right to subrogation which any insurer of said Operator may acquire against the City by virtue of the payment of any loss under such insurance. Operator agrees to obtain any endorsement that may be necessary to affect this waiver of subrogation, but this provision applies regardless of whether or not the City has received a waiver of subrogation endorsement from the insurer.

(6) Self-Insured Retentions

Self-insured retentions must be declared to and approved by the City. At the option of the City, either: the Operator shall obtain coverage to reduce or eliminate such self-insured retentions as respects the City, its officers, officials, employees, agents and volunteers; or the Operator shall provide a financial guarantee satisfactory to the City guaranteeing payment of losses and related investigations, claim administration, and defense expenses. The policy language shall provide, or be endorsed to provide, that the self-insured retention may be satisfied by either the named insured or City.

(7) Acceptability of Insurers

Insurance is to be placed with California admitted insurers (licensed to do business in California) with a current A.M. Best's rating of no less than A-VII, however, if no California admitted insurance company provides the required insurance, it is acceptable to provide the required insurance through a United States domiciled carrier that meets the required Best's rating and that is listed on the current List of Approved Surplus Line Insurers (LASLI) maintained by the California Department of Insurance.

(8) Verification of Coverage

Operator shall furnish the City with a copy of the policy declaration and endorsement page(s), original certificates and amendatory endorsements or copies of the applicable policy language providing the insurance coverage required above. All certificates and endorsements are to be received and approved by the City before work commences. However, failure to obtain the required documents prior to the work beginning shall not waive the Operator's obligation to provide them. The City reserves the right to require complete, certified copies of all required insurance policies, including endorsements, required by these specifications, at any time.

(9) Special Risks or Circumstances

City reserves the right to modify these requirements, including limits, based on the nature of the risk, prior experience, insurer, coverage, or other special circumstances.

(10) Insurance Limits

The limits of insurance described herein shall not limit the liability of the Operator and Operator's officers, employees, agents, representatives or subcontractors. Operators' obligation to defend, indemnify and hold the City, it's officers, officials, employees, agents and volunteers harmless under the provisions of this paragraph is not limited to or restricted by any requirement in the Agreement for Operators to procure and maintain a policy of insurance.

18. Destruction of Designated Area.

a. Destruction Due to Risk Covered by Insurance. If, during the Term of this Agreement, including any Extended Term, the Designated Area or the Building and other improvements in which the Designated Area are located are totally or partially destroyed from a risk covered by insurance carried by either Operator or City, rendering the Designated Area totally or partially inaccessible or unusable, City shall restore the Designated Area or the Building, and other improvements in which the Designated Area are located, to substantially the same condition as they were immediately before destruction if they can be repaired within a reasonable period of time from date of destruction. City can elect to terminate this Agreement by giving notice to Operator within fifteen (15) days after determining that the restoration cost will exceed the insurance proceeds.

b. Destruction Due to Risk Not Covered by Insurance. If, during the Term of this Agreement, including any Extended Term, the Designated Area or the Building and other improvements in which the Designated Area are located are totally or partially destroyed by a risk not covered by the insurance, rendering the Designated Area totally or partially inaccessible or unusable, City can elect to terminate this Agreement by giving notice to Operator within fifteen (15) days after determining the restoration cost and replacement value.

c. Abatement or Reduction of Use Fee. In case of destruction, there shall be an abatement or reduction of Use Fee between the date of destruction and the date of substantial completion of restoration based on the extent to which the destruction interferes with Operator's use of the Designated Area.

d. Waiver of Civil Code Sections. Operator waives the provisions of California Civil Code Section 1932(2) and California Civil Code Section 1933(4) with respect to any destruction of the Designated Area.

19. Default and City's Remedies.

a. Default. The occurrence of any of the following shall constitute a default by Operator:

(1) Operator shall fail to pay when due any Use Fee or any other monetary sum payable under this Agreement.

(2) Operator shall fail to observe, keep or perform any of the other terms, covenants, agreements or conditions contained in this Agreement.

(3) Operator shall become bankrupt or insolvent or make a transfer in fraud of creditors, or make an assignment for the benefit of creditors, or take or have taken against Operator any proceedings of any kind under any provision of the Federal Bankruptcy Act or under any other insolvency, bankruptcy or reorganization act and, in the event any such proceedings are involuntary, Operator is not discharged from the same within thirty (30) days thereafter.

(4) A receiver is appointed for a substantial part of the assets of Operator, and such receivership is not released within thirty (30) days.

(5) The abandonment of the Designated Area by Operator, or the vacation (hereby defined to be thirty (30) or more consecutive days of continual absence from the Designated Area) of the Designated Area by Operator.

(6) This Agreement or any estate of Operator hereunder shall be levied upon by any attachment or execution and such levy is not released within thirty (30) days.

b. City's Remedies. If any default by Operator shall occur, and following notice of default as required by this Agreement (for the period applicable to the default under the applicable provision of this Agreement), City shall have the following remedies in addition to all other rights and remedies provided by law or equity, to which City may resort cumulatively or in the alternative.

(1) City shall have the immediate option to terminate this Agreement and all rights of Operator hereunder by giving written notice of such intention to terminate. In the event that City shall so elect to terminate this Agreement, then City may recover from Operator:

(a) The worth at the time of award of any unpaid Use Fee which had been earned at the time of such termination; plus

(b) The worth at the time of award of the amount by which the unpaid Use Fee which would have been earned after termination until the time of award exceeds the amount of such Use Fee loss Operator proves could have been reasonably avoided; plus

(c) The worth at the time of award of the amount by which the unpaid Use Fee for the balance of the term after the time of award exceeds the amount of such Use Fee loss that Operator proves could be reasonably avoided; plus

(d) Any other amount necessary to compensate City for all the detriment proximately caused by Operator's failure to perform its obligations under this Agreement or which in the ordinary course of things would be likely to result therefrom; and

(e) At City's election, such other amounts in addition to or in lieu of the foregoing as may be permitted from time to time by applicable law.

As used in Subparagraphs (a) and (b) above of this section, the "worth at the time of award" is computed by allowing interest at the maximum rate an individual is permitted by law to charge. As used in subparagraph (c) above, the "worth at the time of award" is computed

by discounting such amount at the discount rate of the Federal Reserve Bank of San Francisco at the time of award plus one percent (1%).

(2) In the event of the vacation or abandonment of the Designated Area by Operator, or in the event that City shall elect to reenter as provided herein or shall take possession of the Designated Area pursuant to legal proceeding or pursuant to any notice provided by law, then City shall have the remedy specified by Civil Code Section 1951.4, in which City may from time to time recover any Use Fee as it becomes due or relet the Designated Area or any part thereof for the account of Operator on such term or terms and at such rental or rentals and upon such other terms and conditions as City in its sole discretion may deem advisable, with the right to make alterations and repairs to the Designated Area.

(3) No reentry or taking possession of the Designated Area by City pursuant to this section shall be construed as an election to terminate this Agreement unless a written notice of such intention be given to Operator or unless the termination thereof be decreed by a court of competent jurisdiction.

20. Broker's Fee. City and Operator each represent and warrant to the other that no broker has represented either of them or is otherwise entitled to a commission or fee in connection with the transaction contemplated in this Agreement. Each party hereby indemnifies, defends and holds the other party harmless from all loss, cost and expense (including reasonable attorneys' fees) arising out of a breach of its representation set forth in this Section 20. The provisions of this Section 20 shall survive the termination of the Agreement.

21. Estoppel Certificate. Operator shall execute and deliver to City within ten (10) days of request a commercially reasonable estoppel statement. City and Operator intend that any estoppel statement delivered pursuant to this Section may be relied upon by any mortgagee, beneficiary, purchaser or prospective purchaser of the Building or any interest therein and failure to execute and return such estoppel shall be a material breach of the Agreement.

22. Attorneys' Fees. If either party commences an action against the other party arising out of or in connection with this Agreement, the prevailing party shall be entitled to have and recover from the losing party reasonable attorney's fees and costs of suit.

23. Notices. Any notice required or permitted to be given hereunder must be given in writing and may be served (a) by personal delivery, (b) by registered or certified mail or United States Postal Service Express Mail, with postage fully prepaid, (c) by recognized overnight courier that guarantees next-day delivery, or (d) by receipt-confirmed facsimile transmission, provided a copy is also delivered by personal delivery, mail or courier. Either party may, by notice to the other, specify a different address for notice purposes.

CITY: City of Modesto
1010 Tenth Street
Modesto, CA 95354
Attention: Laurie A. Smith
(209) 577-5347

UC MERCED:	The Regents of the University of California c/o UC Merced Associate Vice Chancellor, Physical Operations, Planning and Development 5200 North Lake Road Merced, CA 95344 Attention: Associate Vice Chancellor, Physical Operations, Planning & Development
Copy to:	UC Merced, Contracts & Real Estate Manager 5200 North Lake Road Merced, CA 95344

24. Waiver; Accord and Satisfaction. No delay or omission in the exercise of any right or remedy of City on any default by Operator shall impair such right or be construed as a waiver. The receipt and acceptance by City of delinquent Use Fee shall not constitute a waiver of any other default; it shall constitute only a waiver of timely payment for the particular Use Fee payment involved. Time is of the essence of this Agreement as to the performance of all terms, covenants, and conditions stated herein.

25. Successors and Assigns. Except as otherwise provided herein, all of the terms and conditions hereof shall be binding upon and inure to the benefit of the parties hereto and their respective successors and assigns. In the event of any transfer, assignment or other conveyance or transfers of any such title or Operator, City (and in case of any subsequent transfers or conveyances, the then grantor) shall be automatically freed and relieved from and after the date of such transfer. City may transfer its interest in the Designated Area without the consent of Operator and such transfer or subsequent transfer shall not be deemed a violation on City's part of any of the terms and conditions of this Agreement.

26. This Agreement contains the entire agreement of the parties and supersedes all prior negotiations, drafts, and other understandings which the parties may have concerning the subject matter hereof. This Agreement may not be modified except by written instrument duly executed by the parties hereto or their successors in interest. This Agreement shall be governed by and construed pursuant to the laws of the State of California.

27. Any provision of this Agreement which shall prove to be invalid, void or illegal in no way affects, impairs or invalidates any other provision hereof, and such other provisions shall remain in full force and effect.

IN WITNESS WHEREOF, the City of Modesto, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. 2017-_____, adopted by the Council of the City of Modesto on the ____ day of _____, 2017, and The Regents of the University of California has caused this agreement to be duly executed in duplicate as of the Effective Date.

Exhibit "B"

Schedule of User Fee and Operating and Utility Expenses

1. **User Fee**
   a. Operator shall pay an annual fee of One Dollar ($1.00) ("**User Fee**") for the use of the Designated Area. Payment shall be made to:

City of Modesto
1010 10th Street
P.O. Box 3441
Modesto, CA 95354

2. **Operating & Utility Expense**

a. Insurance

Property Insurance:	$20,546
Liability Insurance:	$ 5,240
Total Annual Insurance cost:	$25,786

$25,786/24,000 sf = $1.07/sf
$1.07/sf x 1,600 sf = $1,712/year

$1,712/yr / 12 months = $142.66/month

b. Operating/Maintenance

Annual maintenance expense: $124,396

$124,396/24,000 sf = $5.18/sf
$5.18/sf x 1,600 sf = $8,288/yr

$8,288/yr/12 months = $691/month

c. Utilities

$200,735/24,000 sf = $8.36/sf
$8.36/sf x 1,600 sf = $13,376/yr

$13,376 /12 months = $865/month

Operating & Utility Expense Summary

Expense Type	Annual Amount	Monthly Amount	Per Square Foot
Insurance	$1,712	$143	$1.07
Maintenance	$8,288	$691	$5.18
Utilities	$13,376	$865	$8.36
Total	$23,376	$1,699	$54.61

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-507

RESOLUTION APPROVING THE FINAL MAP OF HILLGLEN ROSELLE SUBDIVISION, AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE A SUBDIVISION AGREEMENT WITH MODESTO ROSELLE, LLC, A CALIFORNIA LIMITED LIABILITY COMPANY AND AUTHORIZING THE CITY CLERK TO CERTIFY THE FINAL MAP AND RECORD IT WITH THE STANISLAUS COUNTY RECORDER'S OFFICE

WHEREAS, MODESTO ROSELLE, LLC, ("SUBDIVIDER"), is in possession of a tract of land situated in the City of Modesto, County of Stanislaus, consisting of 8.39 acres, known as the HILLGLEN ROSELLE SUBDIVISION ("SUBDIVISION"), in the Precise Plan Number 13 of the Village One Specific Plan, and

WHEREAS, a tentative map of said tract was approved by the Planning Commission of the City of Modesto on February 27, 2006 with conditions of approval as noted in Planning Commission resolution Number 2006-08, and

WHEREAS, the Secretary of the Planning Commission of the City of Modesto and the City Engineer, as designated by the Public Works Director, have certified that the final map of said tract substantially conforms to the approved tentative map, and

WHEREAS, the project is currently under construction and the public improvements have not yet been completed, and

WHEREAS, as required by Section 4-4.605 of the Modesto Municipal Code, the SUBDIVIDER has executed a Subdivision Agreement, and

WHEREAS, the City Engineer of the City of Modesto has certified that the final map of said SUBDIVISION meets all of the provisions of the California Subdivision Map Act and the provisions of the Modesto Municipal Code relating to subdivisions, and the City Surveyor has determined that the map is technically correct, and

WHEREAS, the SUBDIVIDER has furnished securities, as set forth in Section 4-4.605 of the Modesto Municipal Code, which shall secure the obligations set forth in Section 66499.3 of the Government Code of the State of California. Said securities are in forms acceptable to the City Attorney and in the amounts required by the City Engineer.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that said Final Map be approved; that the dedications for public streets and easements as shown thereon within the boundaries of said tract be accepted on behalf of the public for public use; and that the City Manager or his designee be authorized to execute the Subdivision Agreement.

BE IT FURTHER RESOLVED that the City Clerk be authorized to certify the map of said tract on behalf of the City of Modesto after the fees and deposits required by the Modesto Municipal Code in amounts determined by the City Engineer have been paid.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-508

RESOLUTION APPROVING A MEMORANDUM OF UNDERSTANDING BETWEEN THE COLLEGE AREA NEIGHBORHOOD ALLIANCE, MODESTO NEIGHBORHOODS, INC. AND THE CITY OF MODESTO REGARDING THE DESIGN AND INSTALLATION OF VARIOUS GRACEADA & ENSLEN PARK IMPROVEMENT PROJECTS AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE MOU

WHEREAS, in late 2016, College Area Neighborhood Alliance and Modesto Neighborhoods, Inc. (Organization) approached the City of Modesto (City) to discuss the need to complete various park improvement projects (Project) at Graceada Park and Enslen Park, and

WHEREAS, the Organization will obtain approval from the City for each Project(s) at Graceada Park and Enslen Park prior to beginning work on said Project, and

WHEREAS, the Organization wants to raise funds to complete the design and construction of Project(s) at Graceada Park and Enslen Park on behalf of the City, and

WHEREAS, the Organization wants to donate completed Project(s) at Graceada Park & Enslen Park to the City, and

WHEREAS, the Memorandum of Understanding (MOU) affirms and formalizes the understanding between the Parties related to the Organization's purchase, design, installation, donation and maintenance of the Project without committing the City to any of the Projects.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Modesto that it hereby approves a Memorandum of Understanding between the College Area Neighborhood Alliance, Modesto Neighborhoods, Inc. and the City of Modesto

relating to the purchase, design, installation, donation and maintenance of various park improvement projects at Graceada Park and Enslen Park.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the MOU, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Ah You, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-509

RESOLUTION APPROVING A SETTLEMENT AGREEMENT AND RELEASE WITH RONALD DIAS FOR THE PURCHASE AND SALE OF REAL PROPERTY LOCATED AT 2847 RIVER ROAD (APN 039-008-005), IN THE AMOUNT OF $339,000 AND PAYMENT OF ATTORNEYS' FEES AND COSTS IN THE AMOUNT OF $75,000 AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT AND ALL NECESSARY DOCUMENTS REQUIRED TO CLOSE ESCROW

WHEREAS, the City of Modesto, Stanislaus County and Ronald Dias were parties to a certain action entitled "City of Modesto vs. Dias," Case No. 2013360, and

WHEREAS, as part of the resolution of that case, the City has agreed to purchase and Ronald Dias has agreed to sell property located at 2847 River Road, Modesto California, Assessor's Parcel Number 039-008-005, and

WHEREAS, in addition to the purchase of the property, the City has also agreed to pay attorney fees and costs in the amount of $75,000 for a full and final mutual release of claims, and

WHEREAS, the City and Ronald Dias have agreed to the terms of the Settlement Agreement and Release, which is **attached** hereto as **Exhibit A**, and

WHEREAS, Stanislaus County and Ronald Dias entered into a separate settlement agreement, and

WHEREAS, the property, located on River Road in Modesto is near the Modesto City-County Airport, and

WHEREAS, because of the location of the property in relation to the runways, the property must comply with the Federal Aviation Administration ("FAA") regulations relating to transitional airspace, which might affect whether the FAA allows the airport to function, and

WHEREAS, a clear zone is required by the FAA for the southeast end of the airport, and

WHEREAS, Ronald Dias, the property owner of 2847 River Road (APN 039-008-005), has agreed to execute a Grant Deed to the City as part of the terms of the settlement, to ensure that the City can maintain the property in compliance with FAA regulations relating to transitional airspace.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Settlement Agreement and Release with Ronald Dias of the purchase and sale of real property located at 2847 River Road (APN 039-008-005) in the amount of $339,000 and payment of attorneys' fees and costs in the amount of $75,000.

BE IT FURTHER RESOLVED, that the Interim City Manager, or his designee, is authorized to execute the Settlement Agreement and Release, in a form approved by the City Attorney, and all necessary sale documents required for the sale of the real property (APN 039-008-005) and all related documents required to close escrow.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

SETTLEMENT AGREEMENT AND RELEASE

Case Name: *City of Modesto v. Ronald Edwin Dias*

Case No.: Stanislaus County Superior Court Case No. Case No. 2013360

1. CONSIDERATION

FOR GOOD AND VALUABLE CONSIDERATION, in the amount of $339,000.00 (Three Hundred Thirty-Nine Thousand) Dollars (the "PURCHASE PRICE"), the sufficiency of which is hereby admitted and acknowledged, RONALD EDWIN DIAS, individually and on behalf of his heirs, domestic partners, executors, administrators, and assigns, if any (hereinafter referred to individually and collectively as "RELEASOR"), hereby agrees to sell the property located at 2847 River Road, Modesto California, Assessor's Parcel Number 039-008-005 ("PROPERTY") to the Plaintiff and Cross-Defendant City of Modesto ("CITY") and to fully and forever release and discharge the City of Modesto, together with its council members, their elective and/or appointive boards, agents, servants, employees, consultants, departments, commissioners, and officers, from any and all claims, actions, causes of action, liabilities, damages, demands, attorneys' fees, expenses and costs (including without limitation court costs) of any kind or nature whatsoever, whether known or unknown, suspected or unsuspected, which have existed or may have existed, or which do exist, or which hereafter shall or may exist, and which (1) are alleged or set forth or attempted to be set forth in the pleadings on file in that certain action entitled "*City of Modesto vs. Dias*," being Case No. 2013360 on the records of the Stanislaus County Superior Court (hereinafter referred to as the "ACTION"), or (2) arise out of or are in any way related to any of the transactions, occurrences, acts or omissions set forth or alleged in any of the pleadings in the Action (hereinafter referred to collectively as the "CLAIMS")

For good and valuable consideration, the sufficiency of which is hereby admitted and acknowledged, CITY agrees to fully and forever release and discharge RONALD EDWIN DIAS from any and all claims, actions, causes of action, liabilities, damages, demands, attorneys' fees, expenses and costs (including without limitation court costs) of any kind or nature whatsoever, whether known or unknown, suspected or unsuspected, which have existed or may have existed, or which do exist, or which hereafter shall or may exist, including, but not limited to those which (1) are alleged or set forth or attempted to be set forth in the pleadings on file in the ACTION, or (2) arise out of or are in any way related to any of the transactions, occurrences, acts or omissions set forth or alleged in any of the CLAIMS.

2. EFFECTIVE DATE

The Effective Date of the Agreement, as set forth hereinabove, shall be the date the RELEASOR'S signature is affixed to this Agreement.

3. PURCHASE AND SALE OF REAL PROPERTY

RELEASOR agrees to sell and CITY agrees to purchase the PROPERTY subject to the terms and conditions in this Agreement. CITY shall pay the full $339,000.00, in cash to OWNER by depositing cash or in immediately available funds to Escrow Agent, as defined in Section 4 of this Agreement, on or before the Closing Date as defined in Section 10 of this Agreement.

4. ESCROW AGENT AND INSTRUCTIONS

By this Agreement, CITY and RELEASOR establish an escrow ("Escrow") to consummate the sale of the Property according to the terms of this Agreement, at the office of Chicago Title Company, 1700 Standiford Ave, Suite 110, Modesto, California, 95350, Attention: Jennifer Carothers ("Escrow Agent"), subject to Escrow Agent's standard instructions and the terms of this Agreement. An executed copy of this Agreement shall be delivered as escrow instructions to Escrow Agent. In the event of any conflict between the terms of this Agreement and Escrow Agent's standard escrow instructions, the terms of this Agreement shall control. RELEASOR hereby authorizes CITY to prepare and deliver to Escrow Agent any special escrow instructions in accordance with this Agreement on behalf of both parties.

At least ten (10) days prior to the Closing Date (as defined in Section 10), Escrow Agent shall notify CITY and RELEASOR in writing of the estimated costs to close escrow to include the following:

a. The estimated cost of premium for the CLTA standard coverage title insurance policy in the full amount of the PURCHASE PRICE of the Subject Property;

b. Escrow Agent's escrow fees;

c. An estimate for any governmental fees to be charged; and

d. An estimate of recording fees.

5. CONDITIONAL PURCHASE, CONDITIONS PRECEDENT

RELEASOR understands and agrees that CITY's agreement to purchase the Subject Property is a conditional one and is contingent on multiple conditions, each of which must be satisfied. The Close of Escrow and CITY's obligation to purchase the Subject Property pursuant to this Agreement are contingent on the satisfaction or written waiver by CITY of each of the following conditions which are solely for CITY's benefit unless otherwise indicated. Any of said conditions may be waived by CITY, so long as such waiver is in writing. The City Manager of the City of Modesto is authorized to give any notices under this Agreement on behalf of CITY.

a. Marketable Title. The conveyance to CITY of good and marketable fee simple title to the Property, as evidenced by a CLTA standard coverage title insurance policy issued by North American Title Company in the full amount of the PURCHASE PRICE insuring title to the Property vested in CITY free and clear of all title defects, liens, encumbrances, conditions, covenants, restrictions, and other adverse interests of record or known to RELEASOR, subject only to those exceptions approved by CITY's City Manager in writing and the following: a lien for current real property taxes.

b. Possession. The delivery of possession of the Subject Property to CITY immediately on the Close of Escrow, free and clear of all uses and occupancies except those approved in writing by CITY's City Manager.

c. Approval by City Council. Approval of the Agreement by City Council of City of Modesto as set forth in Section 29.

If any condition set forth herein is not satisfied, or if the CITY notifies RELEASOR in writing before the Closing Date of RELEASOR's breach of any of RELEASOR's warranties set forth in this Agreement, CITY may, in CITY's sole discretion, cancel the escrow and terminate this Agreement by giving written notice to RELEASOR and Escrow Agent before the Closing Date. The exercise of this power shall not waive any other rights CITY may have against RELEASOR for breach of contract. If this Agreement terminates pursuant to this provision, the parties shall be relieved of all further obligations and liabilities to each other under this Agreement and all funds and documents deposited with Escrow Agent shall be promptly returned by Escrow Agent to the depositing party. In the event of such termination of the Agreement, CITY shall bear any costs and expense of escrow.

6. SPECIAL CONDITIONS

a. In addition to the PURCHASE PRICE, CITY shall pay all escrow, recording and title insurance charges incurred at the Close of Escrow for the purchase of the Property.

b. CITY shall have no responsibility or liability for the payment of any real estate commission for the purchase and sale of the Property.

c. If the Property is encumbered by a mortgage(s), deed(s) of trust, or other secured instrument, RELEASOR is responsible for payment of any demand under authority of said mortgage, deed of trust, or security interest and authorizes Escrow Agent to pay such amount out of RELEASOR's proceeds from the sale of the Property. Such amounts may include but not be limited to payments of unpaid principal and interest.

7. RELEASOR'S REPRESENTATIONS RELATING TO PROPERTY

RELEASOR warrants to CITY that as of the Effective Date of this Agreement and as of the Close of Escrow:

a. RELEASOR owns the Property and RELEASOR has no knowledge of any unrecorded or undisclosed legal or equitable interest in the Property owned or claimed by anyone other than RELEASOR.

b. RELEASOR represents that no leases, licenses or other agreements or arrangements allowing any third party rights to use the Subject Property or any portion thereof will be in force as of the Close of Escrow.

c. RELEASOR represents and warrants that he has been offered and is not in need of relocation assistance in the form of either moving expenses or a dislocation allowance for RELEASOR or any tenants that may have resided on the Property prior to Close of Escrow.

d. The Property is free, and to RELEASOR's knowledge has always been free from hazardous substances, hazardous materials or other contaminants; RELEASOR has no knowledge or notice of any buried or partially buried storage tanks located on the Property containing or having contained gasoline, diesel, herbicides, insecticides, or other petrochemicals; RELEASOR has not conducted any activity or allowed others to conduct any activity that has resulted in toxic or hazardous wastes or substances to be deposited on the Property; RELEASOR has

received no notice, warning, notice of violation, administrative complaint, judicial complaint, or other formal or informal notice alleging that conditions on the Property are or have been in violation of any environmental law or informing RELEASOR that the Property is subject to investigation or inquiry regarding hazardous substances or hazardous materials on the Property or the potential violation of any environmental law; RELEASOR has received no notice or has no knowledge that the Property has ever been used as a dump or landfill.

e. Other than the ACTION that is described herein, the RELEASOR is not aware of any other pending, actual or threatened litigation, administrative proceeding or other legal or governmental action with respect to the Property.

8. TITLE

a. Within ten (10) days of the Effective Date of this Agreement, CITY shall cause, at CITY's sole expense, Escrow Agent to issue to CITY (with a copy to RELEASOR) a preliminary report (hereinafter "Preliminary Report") for a CLTA Policy of Title Insurance for the Property, setting forth all liens, encumbrances, easements, restrictions, conditions, covenants, pending litigation, judgments, administrative proceedings and any other matters affecting RELEASOR's title to the Property (hereafter "Exceptions") together with copies of all documents relating to the Exceptions referred to in the Preliminary Report.

b. CITY shall advise RELEASOR in writing within twenty-one (21) days after receipt of the Preliminary Report of CITY's disapproval of any Exception or any other matter that adversely affects title to the Subject Property (hereafter "Disapproved Exception"). CITY's failure to advise RELEASOR within twenty-one (21) days of receipt of the Preliminary Report of any Disapproved Exception disclosed Preliminary Report shall be deemed to be approval of any such exception (hereafter "Approved Exception or approved Exceptions"). CITY's City Manager is authorized to determine the condition of title and to provide the required notices hereunder.

c. As to any Disapproved Exception, RELEASOR shall have the right, but not the obligation, within thirty (30) days, following expiration of the twenty-one (21) day period provided in 8(b) above, to cause each or any Disapproved Exception to be discharged, satisfied, released or terminated as the case may be, of record, and in a form that is reasonably satisfactory to CITY and Escrow Agent, all at RELEASOR's sole cost and expense. RELEASOR authorizes Escrow Agent to disperse from the cash portion of the PURCHASE PRICE and proceeds otherwise disbursable to RELEASOR upon Close of Escrow with sum sufficient to discharge any Disapproved Exception that may be discharged only by the payment of money. If RELEASOR is unable or unwilling to obtain a discharge, satisfaction, above, then this Agreement shall automatically terminate ten (10) business days after expiration of the thirty-day (30) period for curing the Disapproved Exceptions or after RELEASOR advises CITY in writing that RELEASOR is unable or unwilling to cause such discharge, satisfaction, release, or termination, whichever occurs first, unless within such ten-business-day period CITY's City Manager waives in writing such Disapproved Exception, in which event

such Disapproved Exception shall be deemed an Approved Exception under this Exception under this Agreement. If this Agreement terminates pursuant to the foregoing sentence, the parties shall be relieved of all further obligations and liabilities to each other under this Agreement except as otherwise provided herein and all funds and documents deposited with Escrow Agent shall be promptly refunded or returned, as the case may be, by Escrow Agent to the depositing party.

9. CLOSE OF ESCROW

Simultaneously with the Close of Escrow, Escrow Agent shall issue a CLTA policy of Title Insurance insuring CITY in the amount of the PURCHASE PRICE, subject only to the following matters:

a. Approved Exceptions by CITY in accordance with Section 8 (b) of this Agreement.

RELEASOR shall deposit with Escrow Agent on or before the Close Date the following documents/items:

a. A grant deed duly executed and acknowledged by RELEASOR suitable for recordation conveying to CITY good and marketable fee simple title to the Property subject only to Approved Exceptions in accordance with this Agreement;

b. RELEASOR's affidavit of non-foreign status as contemplated by the United States Internal Revenue Code ("FIRPTA Affidavit");

c. RELEASOR's affidavit as contemplated by the California Revenue and Taxation Code ("Withholding Affidavit");

d. All other documents/items reasonably required by Escrow Agent to consummate Close of Escrow.

CITY shall deposit with Escrow Agent on or before the Closing Date the following documents/items:

a. The full PURCHASE PRICE in the form of cash or immediately available funds;

b. The total amount of fees and charges CITY is responsible to pay pursuant to this Agreement, as set forth in Section 15, in the form of cash or in immediately available funds;

c. All other documents/items reasonably required by Escrow Agent to consummate Close of Escrow.

10. CLOSING DATE

CITY and RELEASOR agree the conveyance of the Property by RELEASOR to CITY in the closing of the transaction covered in this Agreement ("Close of Escrow") shall take place on a date mutually agreeable to CITY and RELEASOR that is within ninety (90) days following the satisfaction of the last condition of those conditions set forth in Sections 5, 6 and 29 of this Agreement, but in no event later than one hundred twenty (120) days from the Effective Date of this Agreement (the "Closing Date"). If escrow has not closed by the Closing Date, the parties may extend the Closing Date by mutual agreement in writing.

11. ESCROW AGENT'S DUTIES

On the Closing Date, Escrow Agent shall close escrow as follows:

a. Record the Grant or Quit Claim Deed (marked for return to "CITY") in the Office of the Recorder of the County of Stanislaus (which shall be deemed delivery to CITY);

b. Issue the CLTA Policy of Title Insurance described in this Agreement.

c. Disburse to RELEASOR the PURCHASE PRICE less amounts and charges to be paid on behalf of RELEASOR;

d. Disburse to RELEASOR any fees, costs and expenses owed to RELEASOR pursuant to Section 15;

e. Charge CITY and RELEASOR for those costs and expenses to be paid by them respectively pursuant to this Agreement and disburse any net funds remaining after the preceding disbursement to CITY;

f. Prepare and deliver to both CITY and RELEASOR one signed copy of Escrow Agent's closing statement showing all receipts and disbursements of the Escrow;

g. Deliver to CITY the FIRPTA Affidavit and Withholding Affidavit, if required.

If Escrow Agent is unable to simultaneously perform all of the instructions set forth above, Escrow Agent shall notify CITY and RELEASOR and retain all funds and documents pending receipt of further instructions jointly by CITY and RELEASOR.

12. PRORATIONS AND COSTS

Escrow Agent shall prorate the following costs at the Close of Escrow:

a. CITY shall pay:

   1. Governmental Conveyancing Fees;

   2. The premium for the CLTA Policy Title Insurance;

   3. The escrow fee charged by Escrow Agent;

   4. Recording charges in connection with recordation of the Grant Deed;

b. RELEASOR shall pay:

   1. Any demand for payoff under authority of a mortgage, deed of trust or secured instrument of the Property;

   2. All payments and charges pursuant to real estate taxes, bonds, and assessments owed relating to the Property. Real property taxes shall be prorated at the Close of Escrow based on the most current real property tax bill available, including any additional property taxes that may be assessed after the Close of Escrow, regardless of when notice of those taxes is received or who receives the notice. All installments of any bond or assessment that constitutes a lien on the Property at the Close of Escrow shall be paid by RELEASOR.

13. POSSESSION

Possession of the Subject Property shall be delivered to CITY at the Close of Escrow.

14. RELEASOR'S PRECLOSING COVENANTS

Commencing on the Effective Date of this Agreement and until the Close of Escrow:

a. RELEASOR shall not permit any liens, encumbrances or easements to be placed on the Property, other than the Approved Exceptions, nor shall RELEASOR enter into any Agreement regarding the sale, rental, management, repair, improvement or any other matter affecting the Property that would be binding on CITY or on the Subject Property after the Close of Escrow without the prior written consent of CITY.

b. RELEASOR shall not permit any act of waste or act that would tend to diminish the value of the Property for any reason, except that caused by ordinary wear and tear.

c. RELEASOR shall maintain the Property in its present condition subject to ordinary wear and tear, until the Close of Escrow.

d. If the Property, or any portion of the Subject Property, is encumbered by a deed of trust, mortgage or any other secured instrument, RELEASOR shall pay any demand under authority of said deed of trust, mortgage or secured instrument out of RELEASOR's proceeds of the sale of the Subject Property. Such amounts may include, but not be limited to payments of unpaid principle and interest.

15. LITIGATION FEES/COSTS/EXPENSES

At Close of Escrow the CITY agrees to pay/reimburse to RELEASOR fees, costs and expenses relating to litigation of the ACTION the amount of $75,000.00 (seventy-five thousand dollars and zero cents).

16. DISMISSAL OF ACTION

The CITY will dismiss its complaint in the ACTION, with prejudice at the Close of Escrow and RELEASOR will dismiss his cross-complaint against the CITY and Stanislaus County in the ACTION, with prejudice at the Close of Escrow.

Stanislaus County and RELEASOR shall enter into a separate agreement relating to resolution of the ACTION that is contingent upon the satisfaction of the terms of this Agreement.

17. RELEASOR'S REPRESENTATIONS RELATING TO CLAIMS

RELEASOR represents and warrants that he has not assigned or transferred, or agreed to assign or transfer, or attempted to assign or transfer, to any third party or entity (including without limitation any insurer) any interest in any of the CLAIMS. RELEASOR agrees to defend, indemnify and hold harmless the CITY against any loss, expense or liability, including without limitation reasonable attorneys' fees, arising from any breach of the foregoing. Furthermore, in the event that the CITY learns that RELEASOR has breached this warranty, the CITY may, at its sole option, elect to rescind this Agreement and Release, in which case RELEASOR shall immediately remit to the CITY the PURCHASE PRICE, plus interest accruing thereon at a rate of ten percent per year, compounded monthly, from the date of payment thereof.

18. RELEASOR'S REPRESENTATIONS RELATING TO LIENS

RELEASOR represents and warrants that either (a) there are no liens, including without limitation any medical reimbursement, unemployment or disability compensation liens, in existence which may attach to the PURCHASE PRICE or to any recovery paid to RELEASOR pursuant to the ACTION, or (b) to the extent there are any such liens, RELEASOR will pay and retire all such liens out of the PURCHASE PRICE. RELEASOR agrees to defend, indemnify and hold harmless THE CITY OF MODESTO against any and all claims by any person or entity purporting to hold any lien, interest, or other claim, whether for medical care, unemployment and/or disability compensation, attorneys' fees, or otherwise, involving RELEASOR and arising in connection with any of the CLAIMS.

19. RELEASE AND WAIVER

RELEASOR and the CITY each certify that he/it has read Section 1542 of the California Civil Code, which provides:

> A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS WHICH THE CREDITOR DOES NOT KNOW OR SUSPECT TO EXIST IN HIS FAVOR AT THE TIME OF EXECUTING THE RELEASE, WHICH IF KNOWN BY HIM MUST HAVE MATERIALLY AFFECTED HIS SETTLEMENT WITH THE DEBTOR.

RELEASOR and the CITY hereby waive application of Section 1542 of the Civil Code. RELEASOR and the CITY understand and acknowledge that, as a consequence of this waiver of Section 1542, even if RELEASOR or the CITY should eventually suffer additional or further loss, damages or injury arising out of or in any way related to any of the events which gave rise to the CLAIMS, or any of them, RELEASOR and the CITY will not be permitted to make any further claims against each other to recover for such loss, damages or injury. RELEASOR and the CITY acknowledge that he/it intends these consequences even as to claims for personal injury or property damage that may exist as of the date of this Settlement Agreement and Release but which RELEASOR and the CITY do not know exist, and which, if known, would materially affect RELEASOR's or the CITY's decision to execute this Settlement Agreement and Release, regardless of whether RELEASOR's or the CITY's lack of knowledge is the result of ignorance, oversight, error, negligence, or any other cause.

The parties hereto acknowledge that, in executing this Settlement Agreement and Release, they are acting on their own, independent judgment informed by their own legal counsel. RELEASOR and CITY acknowledge having read this Settlement Agreement and Release and having been advised by their attorneys as to its meaning and effect. The parties hereto acknowledge and warrant that their execution of this Settlement Agreement and Release is free and voluntary. RELEASOR further represents and warrants that, at the time he executed this Settlement Agreement and Release, he was not in the period of first physical confinement, whether as an inpatient or outpatient, in a clinic or health facility (as defined in Sections 1203 and 1250 of the Health and Safety Code) as a result of the injury alleged to have given rise to any of the CLAIMS, and that as a result

Business and Professions Code section 6152(b) cannot be used to invalidate this Settlement Agreement and Release.

20. ENTIRE AGREEMENT BETWEEN PARTIES

RELEASOR and the CITY acknowledge that this Settlement Agreement and Release contains and constitutes the entire agreement between RELEASOR and the CITY with respect to the CLAIMS. The terms of this Settlement Agreement are contractual and not a mere recital. RELEASOR and the CITY each acknowledge that they have made no representations, express or implied, to induce the other to enter into this Settlement Agreement, other than as expressly set forth herein.

21. NO ADMISSION OF LIABILITY

No aspect of this Settlement Agreement or the settlement which led to it is intended to be nor at any time shall be construed, deemed, or treated in any respect as an admission by RELEASOR or the CITY of liability for any purpose. It is expressly understood by RELEASOR that this Settlement Agreement does not constitute an admission of the truth or accuracy of any of the allegations made in the cross-complaint on file in the ACTION or of liability for any of the CLAIMS, and that the CITY expressly denies the allegations made in the cross-complaint, as more fully set forth in the answer or other responsive pleadings on file in the ACTION.

22. SEVERABILITY

If any of the provisions of this Settlement Agreement and Release or the application thereof is held to be invalid, its invalidity shall not affect any other provision or application of this Settlement Agreement and Release to the extent that such other provision or application can be given effect without the invalid provision or application, and to this end, the provisions of this Settlement Agreement and Release are declared and understood to be severable; provided, however, that should a court of competent jurisdiction hold that RELEASOR is entitled to sue the CITY upon any of the CLAIMS, and should RELEASOR bring or join in such a suit, then RELEASOR shall immediately remit to the CITY the PURCHASE PRICE, plus interest thereon accruing at a rate of ten percent per year, compounded monthly, from the date of payment thereof.

23. LEGAL EXPENSES AND COSTS

RELEASOR understands and acknowledges that both RELEASOR and the CITY shall bear their own legal expenses and costs incurred in connection with prosecuting or defending against the ACTION and any of the CLAIMS, except as specified in paragraph 15 of this agreement.

24. CONSTRUCTION OF AGREEMENT

This Settlement Agreement and the settlement which led to it have been fully negotiated with the assistance of counsel and should not be construed more strictly against one party than another.

25. COUNTERPARTS

This Settlement Agreement and Release may be executed in two or more counterparts, all of which counterparts shall be deemed originals.

26. GOVERNING LAW/VENUE

This Agreement shall be governed by the laws of the State of California and venue shall be the Superior Court of California, Stanislaus County.

27. WAIVER

No breach of any provision of this Agreement can be waived unless in writing. Waiver of any one breach of a provision hereof shall not be deemed a waiver of any other breach of the same or any other provision or covenant in this Agreement, including the time for performance of any obligation. An extension of time for performance of any obligation or act shall not be deemed an extension of time for performance of any other obligation or act. The exercise by a party of any remedy provided in this Agreement or at law shall not prevent the exercise by that party of any other remedy provided in this Agreement or at law.

28. SUCCESSORS, BINDING EFFECT

This Agreement shall be binding on and inure to the benefit of the parties to this Agreement and their heirs, personal representatives, successors, and assigns, except as otherwise provided in this Agreement.

29. APPROVAL

RELEASOR acknowledges, understands and agrees that this AGREEMENT is subject to the approval by City Council of the CITY and this Agreement shall have no force or affect unless and until such approval by the City Council of the CITY is obtained.

IN WITNESS WHEREOF, the City of Modesto, a municipal corporation, has authorized the execution of this Agreement by its City Manager and attestation by its City Clerk by Resolution No. 2017-_____adopted by the Council on the _____ day of_____, 2017, and RELEASOR has caused this Agreement to be duly executed.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-510

RESOLUTION ACCEPTING THE GRANT DEED FROM RONALD EDWIN DIAS AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE CERTIFICATE OF ACCEPTANCE FOR THE GRANT DEED FOR PROPERTY LOCATED AT 2847 RIVER ROAD (APN 039-008-005)

WHEREAS, Section 27281 of the Government Code requires a public agency to accept real property prior to the recordation of a deed or adopt a resolution accepting real property, and

WHEREAS, the City of Modesto desires to accept real property totaling approximately 1.41 acres, located at 2847 River Road (APN 039-008-005), to be conveyed to the City of Modesto, and

WHEREAS, the grant deed will allow the City to maintain an area for the Modesto City-County Airport clear zone, and

WHEREAS, a grant deed is required for transfer of the real property to the City of Modesto.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Grant Deed from Ronald Dias for property located at 2847 River Road (APN 039-008-005) is hereby accepted.

BE IT FURTHER RESOLVED, the Interim City Manager, or his designee, is hereby authorized to execute the Certificate of Acceptance for the Grant Deed for the acquisition of real property located at 2847 River Road (APN 039-008-005) to be conveyed to the City of Modesto.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-511

RESOLUTION AUTHORIZING THE CREATION OF CAPITAL IMPROVEMENT PROJECT #101062 AND AMENDING THE FISCAL YEAR 2017-2018 CAPITAL IMPROVEMENT BUDGET IN THE AMOUNT OF $414,000 TO PURCHASE REAL PROPERTY LOCATED AT 2847 RIVER ROAD (APN 039-008-005) IN THE AMOUNT OF $339,000 WITH ADDITIONAL ATTORNEYS' FEES AND COSTS OF $75,000 TO BE FUNDED BY THE COUNTY AIRCRAFT TAX (FUND 4330)

WHEREAS, a new capital improvement project is needed to purchase real property located at 2847 River Road in the amount of $339,000 with additional attorneys' fees and costs of $75,000, for total cost of $414,000, and

WHEREAS, the Fiscal Year 2017-2018 Capital Improvement Budget will be amended in the amount of $414,000.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the amendment of the Fiscal Year 2017-2018 Capital Improvement Budget by $414,000.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-512

RESOLUTION APPROVING THE PLANS AND SPECIFICATIONS FOR THE TERTIARY BYPASS LINE IMPROVEMENTS PROJECT, ACCEPTING THE BID, AND APPROVING A CONSTRUCTION CONTRACT WITH MYERS-RADOS, A JOINT VENTURE OF SANTA ANA, CA, IN THE AMOUNT OF $205,000, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE CONTRACT

WHEREAS, specifications have been prepared for the Tertiary Bypass Line Improvements Project, and City staff recommends approval by the City Council, and

WHEREAS, the bids received for the Tertiary Bypass Line Improvements Project were opened at 11:00 a.m. on November 7, 2017 for the consideration of the Council, and

WHEREAS, the Director of Utilities has recommended that the bid of $205,000 received from Myers-Rados, a Joint Venture, be accepted as the lowest responsible and responsive bid and the contract be awarded to Myers-Rados, a Joint Venture.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the plans and specifications for Tertiary Bypass Line Improvements Project, accepts the bid of $205,000 and awards Myers-Rados, a Joint Venture, of Santa Ana, CA the contract for the Tertiary Bypass Line Improvements Project.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2017-514

RESOLUTION APPROVING THE PLANS AND SPECIFICATIONS FOR THE TANK 6 RECOAT & REPAIRS PROJECT, ACCEPTING THE BID, AND APPROVING A CONTRACT WITH WEST COAT INDUSTRIAL COATINGS, INC., OF HEMET CA, IN THE AMOUNT OF $823,933, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE CONTRACT

WHEREAS, specifications have been prepared for the Tank 6 Recoat & Repairs Project, and City staff recommends approval by the City Council, and

WHEREAS, the bids received for the Tank 6 Recoat & Repairs Project were opened at 11:00 a.m. on November 7, 2017 for the consideration of the Council, and

WHEREAS, the Director of Utilities has recommended that the bid of $823,933 received from West Coat Industrial Coatings, Inc., be accepted as the lowest responsible and responsive bid and the contract be awarded to West Coat Industrial Coatings, Inc.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the plans and specifications for Tank 6 Recoat & Repairs Project, accepts the bid of $823,933 and awards West Coat Industrial Coatings, Inc., of Hemet, CA the contract for the Tank 6 Recoat & Repairs Project.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the contract in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2017-515

RESOLUTION AUTHORIZING AN INCREASE IN THE DIRECTOR'S AUTHORITY TO ISSUE CHANGE ORDERS FOR THE TANK 6 RECOAT & REPAIRS PROJECT FROM 10 PERCENT ($82,393) TO 20 PERCENT ($164,787) OF THE CONSTRUCTION CONTRACT AMOUNT

WHEREAS, on December 12, 2017, the City Council is concurrently awarding a $823,933 contract to West Coast Industrial Coatings, Inc., of Hemet, CA for the construction of the Tank 6 Recoat & Repairs Project, and

WHEREAS, the City periodically inspects water storage tanks and schedules recoating as part of routine maintenance of the distribution system as required by the State Board, Division of Drinking Water, and

WHEREAS, the "Tank 6 Recoat & Repairs" Project was part of the Fiscal Year 2016-2017 annual Capital Improvement Program budget approval process, and as approved by Council, the scope of CIP 100977 includes modifications, structural repairs, and the preparation and recoating of the interior and exterior of Tank 6, and

WHEREAS, given the nature of structural repairs and recoating projects, additional work may be needed to address unexpected conditions that require changes in project scope that may exceed the Director's change order authority of 10%, as established by the Council's Change Order Approval Policy adopted by Resolution No. 94-443, and

WHEREAS, the Director of Utilities currently has authority to approve change orders up to a cumulative amount of $82,393,

WHEREAS, staff recommends that the Director's change order authority be increased to 20%,

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the Director of Utilities to issue change orders for the Tank 6 Recoat & Repairs Project from 10 percent ($82,393) to 20 percent ($164,787) of the construction contract price of $823,933 with West Coast Industrial Coatings, Inc. of Hemet, CA.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-517

RESOLUTION APPROVING AN AGREEMENT WITH KENNEDY/JENKS CONSULTANTS, INC., FOR HYDROGEOLOGICAL AND ENGINEERING SERVICES FOR THE NEW DEL RIO WELL 68 PROJECT IN AN AMOUNT NOT TO EXCEED $120,410 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS $12,041 FOR ADDITIONAL SERVICES (IF NEEDED), UP TO A TOTAL AMOUNT OF $132,451, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECURTE THE AGREEMENT

WHEREAS, the City owns and operates the outlying water system in the community of Del Rio, located in Stanislaus County, and

WHEREAS, per the City's 2010 Water System Engineer's Report, a hydraulic assessment of the system was performed to evaluate the system's ability to meet the community's current and build-out demands, and

WHEREAS, this assessment identified the need to construct a new 1,000-gallon per minute domestic well, 250,000-gallon storage tank, and 1 million-gallon per day booster pump station to correct existing supply and pressure deficiencies, and

WHEREAS, in 2017, per Resolution 2017-231, Council approved a prequalified list of consultants to provide hydrogeological services and for on-call hydrogeological services. The list consisting of three firms included Jacobson James & Associates, TODD Groundwater and Kennedy/Jenks Consultants, Inc., and

WHEREAS, in 2011, URS Corporation was selected to provide hydrogeological services for the New Del Rio Well 68. Eddy Teasdale, formerly of URS Corporation and now with Kennedy/Jenks, is the lead hydro-geologist for the Del Rio Water System Improvements projects Environmental Impact Report (EIR), and

WHEREAS, while working at URS and contracted with the City, Mr. Teasdale was responsible for review and analysis of previously collected soil and water samples

taken during the replacement test well drilling. Following that analysis, Mr. Teasdale was responsible for preparing construction documents for the design of a new test well and production well, as well as monitoring the construction of the test well, and

WHEREAS, given the unique and specialized expertise required for design of municipal wells, and consideration of the amount of work that was previously completed satisfactorily, the Utilities Director determined to have final subsurface design services provided by Kennedy/Jenks, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, this agreement is for professional services and therefore, exempt from the bid requirement, and

WHEREAS, staff recommends approval of the agreement with Kennedy/Jenks Consultants, Inc. for application services for the new Del Rio Well 68 project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with Kennedy/Jenks Consultants, Inc., for hydrogeological and engineering services for the new Del Rio Well 68 project, in an amount not to exceed $120,410 for the identified scope of services, plus $12,041 for additional services, if needed, for a maximum total amount of $132,451.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-518

RESOLUTION AUTHORIZING AN INCREASE IN THE DIRECTOR'S AUTHORITY TO ISSUE CHANGE ORDERS FOR THE NEW DEL RIO WELL 68 PROJECT FROM 10 PERCENT ($43,098) TO 40 PERCENT ($172,392) OF THE CONSTRUCTION CONTRACT AMOUNT

WHEREAS, on December 12, 2017, the City Council is concurrently awarding a $430,980 contract to Roadrunner Drilling & Pump Company, Inc., of Woodland, CA for the construction of the New Del Rio Well 68 Project, and

WHEREAS, the City owns and operates the outlying water system in the community of Del Rio, located in Stanislaus County, and

WHEREAS, per the City of Modesto's 2010 Water System Engineer's Report a hydraulic assessment of the system was performed to evaluate the system's ability to meet the community's current and build-out demands, and

WHEREAS, this assessment identified the need to correct existing supply and pressure deficiencies by constructing a new 1,000 gallon-per-minute domestic well, 250,000 gallon storage tank, 1 million-gallon-per-day booster pump station, and

WHEREAS, in consideration of the Settlement Agreement with the Del Rio Community Association, and the City's obligation to complete the recommended improvements to meet the existing Del Rio water system needs, the Utilities Department Director informed staff to move forward with final design of the New Del Rio Well in the summer of 2017, and

WHEREAS, given the nature of well drilling and well construction, additional work may be needed to address unexpected conditions that require changes in project

scope that may exceed the Director's change order authority of 10%, as established by the Council's Change Order Approval Policy adopted by Resolution No. 94-443, and

WHEREAS, the Director of Utilities currently has authority to approve change orders up to a cumulative amount of $43,098,

WHEREAS, staff recommends that the Director's change order authority be increased to 40%,

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the Director of Utilities to issue change orders for the New Del Rio Well 68 Project from 10 percent ($43,098) to 40 percent ($172,392) of the construction contract price of $430,980 with Roadrunner Drilling & Pump Company, Inc., of Woodland, CA

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-519

RESOLUTION AUTHORIZING AN INCREASE IN THE DIRECTOR'S AUTHORITY RELATED TO THE EXPAND ATMS AND CCTV ALONG BRIGGSMORE AVENUE PROJECT, FROM 10% TO 16% OF THE ORIGINAL CONSTRUCTION CONTRACT PRICE OF $280,350 WITH CARL JOSEPH BARTALDO CONSTRUCTION, OF PALO CEDRO, CA, AND INCREASE IN CONSTRUCTION ADMINISTRATION COSTS FROM $28,597 TO $37,150

WHEREAS, the City Council, on March 22, 2016, by Resolution No. 2016-113, awarded a $280,530 contract to Carl Joseph Bartaldo Construction, for the construction of the Expand ATMS And CCTV Along Briggsmore Avenue project, and

WHEREAS, the originally authorized construction administration budget was 10 percent ($28,035), and

WHEREAS, additional change order work not included in the original bid needed to be added to the project to allow completion of the project, and

WHEREAS, the administrative and field inspection costs associated with ensuring the additional change order work conforms to the City's standards of construction and quality,

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes an increase in Director's Authority to issue change orders for the Expand ATMS and CCTV along Briggsmore Avenue from Oakdale Road to Claus Road project from 10 percent ($28,035) to approximately 16 percent ($44,856), and increase in Construction Administration Costs from $25,597 to $37,150.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-520

RESOLUTION APPROVING THE PROCUREMENT OF CONCRETE BOXES, COVERS, VALVES, HYDRANTS AND FITTINGS TO FERGUSON WATERWORKS, MODESTO, CA, FOR A TWO-YEAR PURCHASING AGREEMENT WITH THREE ONE-YEAR EXTENSION OPTIONS, FOR AN ANNUAL COST NOT TO EXCEED $900,000 AND AN AMOUNT NOT TO EXCEED $4,500,000 OVER FIVE YEARS, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO ISSUE A PURCHASING AGREEMENT

WHEREAS, the Interim City Manager authorizes the Purchasing Manager to issue formal Request for Bids (RFB) for purchase of concrete boxes, covers, valves, hydrants and fittings, and

WHEREAS, on June 14, 2017, the Purchasing Division issued RFB No. 1617-33 for the purchase of concrete boxes, covers, valves, hydrants and fittings on the City's website and three companies chose to download the RFB document, and

WHEREAS, on July 17, 2017, bids were formally opened in the City Clerk's Office. Three companies chose to respond and all companies provided responsive and responsible bids, and only one local vendor responded, and

WHEREAS, based on providing lowest responsive and responsible bids, City staff recommends the award of bids for the purchase of concrete boxes, covers, valves, hydrants and fittings to Ferguson Waterworks, Modesto, CA, for a two-year purchasing agreement with three one-year extension options, for an annual cost not to exceed $900,000, and an amount not to exceed $4,500,000 over five years, and

WHEREAS, as shown in the **attached** cost abstract, certain items were bid at a lower cost by the non-awarded bidders. Based on City's projected future usage of these items, staff believes any cost savings that could result from award to bid to these bidders

would be eliminated through increased staff and system costs to maintain agreement with multiple vendors. In addition, Ferguson Waterworks has agreed to match low bid on 18 of the items that complies with Modesto Municipal Code 8-3.206 Support of Local Vendors, and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed $50,000 for material, equipment or contractual services to be formally bid. The award of bids for the purchase of concrete boxes, covers, valves, hydrants and fittings to Ferguson Waterworks, Modesto, CA, conforms to the Modesto Municipal Code, based on providing the overall lowest cost, while providing greater efficiency in placing orders and in managing the agreement, and

WHEREAS, expenditures for the prior 5-year agreement totaled $3,182,955. With current pricing per RFB No. 1617-33 and accounting for potential CPI increases over the next five years, staff estimates an annual cost not to exceed $900,000 and up to $4,500,000 over five years. Funds are budgeted in Water Fund 4100-45020-53150, 4100-45040-53150, 4100-45050-53150, and CIP 4180-100575, 100576, 100577, 101013; and Wastewater Fund 4210-44211-53150.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the purchase of concrete boxes, covers, valves, hydrants and fittings to Ferguson Waterworks, Modesto, CA, for a two year purchasing agreement with three one-year extension options, for an annual cost not to exceed $900,000 and an amount not to exceed $4,500,000 over five years, and

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to issue a purchasing agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-521

RESOLUTION ACCEPTING THE DOWNSTREAM WATER SYSTEM IMPROVEMENTS PRESSURE REGULATING VALVES PROJECT AS COMPLETE, AUTHORIZING ALL NECESSARY STEPS TO FILE WITH THE COUNTY RECORDER, RELEASE SECURITIES, RECEIVING CREDITS, AND RELEASE PAYMENTS TOTALING $2,303,583 TO HOBBS CONSTRUCTION, INC., OF FRESNO, CA

WHEREAS, the Downstream Water System Improvements Pressure Regulating Valves project has been completed by Hobbs Construction, Inc., of Fresno, CA in accordance with the contract agreement dated October 28, 2014,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Downstream Water System Improvements Pressure Regulating Valves Project is hereby accepted as complete from said contractor, Hobbs Construction, Inc., of Fresno, CA, and that the City Clerk is authorized to complete all necessary steps to file with the County Recorder, release securities and payments totaling $2,303,583, as is authorized and provided in the contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-522

RESOLUTION APPROVING THE ANNUAL WATER RATE REVIEW AND ADOPTING 9% WATER RATE INCREASES TO BE EFFECTIVE APRIL 1, 2018 FOR FISCAL YEAR 2017/18

WHEREAS, the City of Modesto provides water service to over 73,000 accounts consisting of residential, multi-family, commercial, and industrial customers located within the City of Modesto, as well as the communities of Salida, Empire, Grayson, Del Rio and portions of Ceres, Turlock and unincorporated Stanislaus County, and

WHEREAS, the City of Modesto's water sources are groundwater and treated surface water purchased from the Modesto Irrigation District; and

WHEREAS, the City's water utility is a self-supporting utility enterprise funded by customer revenues; and

WHEREAS, Modesto Municipal Code Section 11-6.05 authorizes Council, by resolution, to establish charges for metered water services, and Section 11-6.06 authorizes the Council, by resolution, to establish charges for unmetered water services; and

WHEREAS, Proposition 218 amended the California Constitution to establish a process that public agencies must follow when imposing new or increasing "property related fees" (Cal. Const. Article XIID); and

WHEREAS, water service fees are property-related fees and thus subject to Proposition 218's procedural and substantive requirements; and

WHEREAS, the City engaged Bartle Wells Associates ("BWA") in July 2015 to conduct a comprehensive review of the City's water rates and charges in accordance with Proposition 218; and

WHEREAS, BWA prepared a report dated May 2016 entitled "City of Modesto Water Rate and Fee Study" ("Report"), containing analyses and recommendations for adjusting the City's water rates and charges; and

WHEREAS, the Report analyzes the number of water customers, projections for customer growth, water revenues, water capital improvement programs, operations and maintenance needs, customer services costs, and volumetric use; and

WHEREAS, the Report concludes that the revenues generated under existing water rates are insufficient to meet water utility's revenue requirements for fiscal year 2016-17 and subsequent years, given changes and new developments in the City's water system, including new capital improvement projects identified in the soon to be completed Water Master Plan; and

WHEREAS, the Report recommends increasing the City's existing water rates and charges, and makes certain recommendations for the City's water services rates for the period beginning fiscal year 2016-17; and

WHEREAS, the Report demonstrates that the recommended rates do not exceed the reasonable cost of providing such service or regulatory activity and, as such, the proposed rates are not levied for general revenue purposes; and

WHEREAS, the Report also demonstrates that the recommended rates result in charges to property owners or ratepayers that do not exceed the proportionate cost of providing water services attributable to the parcel or persons; and

WHEREAS, the City mailed a notice of the public hearing, and notice of oral and written protest procedures against the proposed rate increases to all affected property owners and ratepayers in compliance with California Constitution Article XIII D, Section

6; at least forty-five days in advance of the public hearing at which this Resolution was considered; and

WHEREAS, on August 9, 2016, the City Council duly held the public hearing , and at its conclusion the City Clerk tabulated the number of written and oral protests received, if any, and reported that there was not a majority protest of the proposed rates by owners or authorized representatives of identified property owners or ratepayers receiving water services; and

WHEREAS, the City Council subsequently approved a new water rate structure in accordance with Proposition 218 by Resolution No. 2016-343 and adopted a five-year schedule of new maximum water service rates beginning in Fiscal Year 2016-17 and increasing those rates by up to 25.04% in Fiscal Year 2016-17; 11.08% in Fiscal Year 2017-18; 9.00% in Fiscal Years 2018-19 through 2020-21; and

WHEREAS, City staff has recently conducted an annual review of the water rates as required by Resolution 2016-343 to ensure that the approved 11.08% increase for Fiscal Year 2017-18 meets the enterprise's revenue needs based on anticipated expenses and the City's policies; and

WHEREAS, upon review of the FY2017-18 proposed Water Fund proforma, the City's Budget Division agrees that lowering the increase from 11.08% per the approved rate schedule to 9.00% in annual rate would allow the fund to maintain a minimum 1.5 debt service coverage ratio required by Council policy, and maintain a 2.0 debt coverage ratio in future years as recommended in the recent Fitch Rating review; and

WHEREAS, the Budget Division also recommends a 9.00% increase in water rates for FY 2017-18 based on the anticipated revenues and proposed operating and capital expenses for the upcoming fiscal years; and

WHEREAS, pursuant to amended Resolution 2004-627, the approved increase in water rates for Fiscal Year 2017-18 will become effective 90 days after completion of the annual review, unless the City Council directs otherwise, and Staff recommends the FY 2017-18 rate increase become effective on April 1, 2018.

NOW, THEREFORE, BE IT RESOLVED, by Council of the City of Modesto as follows:

1. WATER RATE SCHEDULE- METERED WATER RATES.

Metered ratepayers shall pay a water (volume) rate for water as follows, and the drought water rates shall be imposed when the State Water Resources Control Board imposes a mandatory conservation target that exceeds the City's self-imposed conservation target.

Meter Size	Current	FY2017/18	FY2018/19	FY2019/20	FY2020/21
Fixed Meter Charges ($/month)					
5/8 inch	$20.79	$21.47	$23.34	$25.42	$27.73
3/4 inch	$20.79	$21.47	$23.34	$25.42	$27.73
1 inch	$29.30	$30.39	$33.48	$36.90	$40.72
1.5 inch	$50.58	$52.71	$58.83	$65.62	$73.19
2 inch	$76.11	$79.49	$89.25	$100.08	$112.16
3 inch	$156.98	$164.30	$185.59	$209.19	$235.57
4 inch	$276.14	$289.28	$327.55	$370.00	$417.42
6 inch	$561.28	$588.33	$667.24	$754.78	$852.58
8 inch	$1,029.42	$1,079.32	$1,224.95	$1,386.51	$1,567.01
10 inch	$1,625.23	$1,704.21	$1,934.76	$2,190.53	$2,476.29
12 inch	$2,135.93	$2,239.84	$2,543.16	$2,879.69	$3,255.67
Water Rate ($/ccf)					
Drought	$1.97	$1.98	$2.07	$2.17	$2.27
Non-drought	$1.79	$1.82	$1.93	$2.05	$2.17

2. **WATER RATE SCHEDULE- UNMETERED WATER RATES.** The following contains the maximum water (volume) rate service charges for unmetered ratepayers. The drought water (volume) rate shall be imposed when the State Water Resources Control Board imposes a mandatory conservation target that exceeds the City's self-imposed conservation target.

DROUGHT Unmetered Fixed Charge ($/month)					
Rate Code	**Current**	**FY2017/18**	**FY2018/19**	**FY2019/20**	**FY2020/21**
PRO1 - 0 to 5,000 sq ft	$49.20	$50.39	$54.39	$58.82	$63.65
PRO2 - 5,001 to 7,000 sq ft	$57.27	$58.51	$62.87	$67.71	$72.95
PRO3 - 7001 to 11,000 sq ft	$73.23	$74.54	$79.64	$85.29	$91.34
PRO4 - 11,001 to 17,000 sq ft	$97.07	$98.50	$104.69	$111.55	$118.81
PRO5 - Over 17,000 sq ft	$109.09	$110.58	$117.32	$124.79	$132.66

NON-DROUGHT Unmetered Fixed Charge ($/month)					
Rate Code	**Current**	**FY2017/18**	**FY2018/19**	**FY2019/20**	**FY2020/21**
PRO1 - 0 to 5,000 sq ft	$47.38	$48.77	$52.97	$57.61	$62.64
PRO2 - 5,001 to 7,000 sq ft	$54.72	$56.23	$60.89	$66.01	$71.53
PRO3 - 7001 to 11,000 sq ft	$69.22	$70.98	$76.52	$82.62	$89.11
PRO4 - 11,001 to 17,000 sq ft	$90.88	$93.00	$99.87	$107.42	$115.37
PRO5 - Over 17,000 sq ft	$101.80	$104.10	$111.65	$119.93	$128.61
TUR - Turlock Fire Charge	$4.19	$4.19	$4.19	$4.19	$4.19

3. **EFFECTIVE DATE.** This Resolution shall go into effect and be in full force and operation on or after April 1, 2018.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-523

RESOLUTION APPROVING A DEVELOPMENT PLAN FOR PLANNED DEVELOPMENT ZONE, P-D(604)

WHEREAS, a verified application for an amendment to Section 22-3-9 of the Zoning Map was filed by Meridian Property Ventures LLC on May 23, 2017, to reclassify from Low Density Residential Zone, R-1, to Planned Development Zone, P-D(604) to allow for a 11,500 square foot office building and on-site parking, for property located at 1328 Coffee Road, described as follows:

R-1 to P-D(604)

All that portion of Lot 12 of Broughton Colony, shown on that certain map filed in the office of the Recorder of Stanislaus County, State of California, on March 17, 1904 in Volume 1 Page 78 of Maps, lying within a portion of Section 22, Township 3 South, Range 9 East, Mount Diablo Base and Meridian, being more particularly described as follows:

Commencing at the Northwest corner of Lot 12 of Broughton Colony, said point being at the intersection of the center line of Coffee Road and Orangeburg Avenue; thence South 0° 30' East 259.20 feet to the True Point of Beginning of this description; thence North 89° 52' East 436.00 feet; thence South 0° 30' East 100.00 feet; thence North 89° 52' West 436.00 feet; thence North 0° 30' West 100.00 feet to the True Point of Beginning.

Less a 25.00 foot strip along West side for Co. Road Right-of-way.

Excepting therefrom that portion conveyed to City of Modesto, a municipal corporation, described in Grant Deed, recorded September 17, 1974, Document No. 113265, Book 2654, Page 504 of Official Records.

Including also the easterly half of 90-foot wide Coffee Road, all being immediately adjacent to the above-described property.

APN No. 032-009-007

WHEREAS, after a public hearing held on October 16, 2017, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, it was found and

determined by the Planning Commission, by its Resolution No. 2017-24, that rezoning of the property as requested will not be detrimental to the public health, safety or welfare because the proposed rezone to Planned Development to allow for a new office building will provide professional services to the City's residents, including dialysis treatment services as the sole allowed medical use of the site, the requested zone change will result in an orderly planned use of land because the conditions of approval will ensure that the proposed project is compatible with the adjacent professional office and residential land uses, and will provide for off-street parking at a sufficient level to support professional office uses as well as medical dialysis treatment as the sole allowed medical office use, and the requested zone change is in accordance with the community objectives as set forth in the Modesto Urban Area General Plan and any applicable specific plans(s) because the proposed change to Planned Development allowing for professional office uses is consistent with the Modesto Urban General Plan, which designates this property as Mixed Use (MU), which allows for professional and medical office uses, and

WHEREAS, said matter was set for a public hearing of the City Council to be held on December 12, 2017, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which date and time said duly noticed public hearing was held, and

WHEREAS, after said public hearing the Council found and determined that the application of Meridian Property Ventures LLC for a Planned Development Zone will not be detrimental to the public health, safety or welfare, will result in an orderly planned use of land, and is in accordance with the community objectives as set forth in the Modesto

Urban Area General Plan and any applicable specific plans(s) for the reasons set forth in Planning Commission Resolution No. 2017-24 and quoted above, and

WHEREAS, the Council has introduced Ordinance No. 3682-C.S. on the 12th day of December 2017, reclassifying the above-described property from Low Density Residential Zone, R-1, to Planned Development Zone, P-D(604),

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

1. DEVELOPMENT PLAN. The development plan for Planned Development Zone, P-D(604), is hereby approved subject to the following conditions:

1. Prior to the issuance of a building permit, all development shall conform to the Development Plan titled "Modesto Medical Office Building" as amended in red and stamped approved by the City Council on December 12, 2017

2. Prior to the issuance of a building permit, any variation from the approved site plan or building elevations on file with the City must be reviewed and approved by the Director of Community and Economic Development or designee.

3. Any public improvements that are missing damaged or not to current City standards shall be designed per City standards in accordance with City Code (Article 7-1.701), standards and specifications. Such improvements may include, but not be limited to curb & gutter, drive approach, sidewalk, ADA access ramps, fire hydrants and street lights. All public improvement plans shall be designed by a Registered Engineer, reviewed and approved by the City Engineer prior to issuance of an Encroachment or Building permit.

4. The improvement plans shall include all landscaping, parking, and any and all easements required for the establishment of new utilities and the preservation of existing utilities.

5. Prior to issuance of a Certificate of Occupancy, the developer shall execute a Reciprocal Access Agreement with the City to provide a reciprocal access along the northern property line, as shown in red on the site plan, located adjacent to the existing reciprocal access on the adjacent property to the north as referenced in Document No. 2001-0083737-00, Stanislaus County Records, for the purpose of a shared driveway between

the two properties. Said reciprocal access agreement shall also include provisions for the shared maintenance of the driveway.

6. Prior to occupancy of any structure, fences and/or walls shall be constructed as follows, to the satisfaction to the Director of Community and Economic Development:

    a. Seven-foot high decorative masonry wall with cap treatment along the east property line.

    b. A seven-foot high wrought-iron fence with decorative masonry pilasters and a cap treatment at 16 feet on center along the south property line.

7. Prior to certificate of occupancy, the masonry wall at the east property line shall be treated with a graffiti-proof coating to the satisfaction of the Director of Community and Economic Development or Designee. Construction drawings shall note the type of graffiti treatment used.

8. Prior to issuance of a building permit, trash enclosures shall be designed using building materials, colors and finishes which are consistent or compatible with those used for the office building, as approved by the Community and Economic Development Director.

9. Prior to issuance of a building permit, the developer shall submit a lighting plan that includes the location and design of proposed lighting fixtures for review and approval by the Director of Community and Economic Development. Said plans shall include specifications of the proposed lighting fixtures and demonstrate the adequate shielding of lighting fixtures to minimize glare or light spillage upon neighboring residents east of the project site. The height of the lighting shall not exceed 15 feet above grade.

10. Along pedestrian corridors, the use of low mounted bollard light standards, which reinforce pedestrian scale, shall be used. Steps and ramps should be illuminated wherever possible, with built-in light fixtures to the satisfaction of the Director of Community and Economic Development.

11. All signs shall comply with the sign requirements of the P-O Zone. Wall signs located on the east elevation of the building shall be non-illuminated and less than eight feet in height.

12. Prior to issuance of a sign permit, individual sign plans for the project shall be submitted for separate review and approval prior to installation.

13. Prior to Certificate of Occupancy of any structure, all ground mounted utility structures such as transformers and HVAC equipment shall be located out of view from a public street to the satisfaction of the Director of Community and Economic Development. Equipment shall be placed

underground or adequately screened though the use of landscaping or masonry walls.

14. Exterior building elevations showing building wall materials, roof types, exterior colors and appropriate vertical dimensions shall be included in the development construction drawings.

15. Construction drawings shall demonstrate that all building drainage gutters, down spouts, vents, etc. located on exterior walls, are be completely concealed from public view or designed to be architecturally compatible (decorative) with the exterior building design and color to the satisfaction of the Director of Community and Economic Development.

16. Construction drawings shall demonstrate that new ladders for roof access are mounted on the inside of the building to the satisfaction of the Director of Community and Economic Development.

17. Prior to occupancy of any structure, striping of parking stalls, aisles and driveways shall conform to the provisions of MMC Section 10-5.105, Parking Lot Design Standards.

18. Parking lot shade trees shall be provided in all new parking areas to meet current parking lot shading requirements (1 tree per 8 stalls, 50% coverage within 10 years).

19. The applicant shall install screen landscaping along the east property line as approved by the Parks, Recreation and Neighborhoods.

20. The project shall install a street light according to City's Standard Specifications.

21. The existing sidewalk along the property's frontage shall be reconstructed per current City of Modesto standards to remove and replace existing, broken curb, gutter and sidewalk and to remove the old, existing driveway approaches.

22. There is an existing 10–inch water main in Coffee Road that is available for connection and it is adequately sized. For any new water connection or an upgrade to an existing substandard water service size, water connection fees shall be paid and an Encroachment permit issued by the City prior to any new connection being made.

23. There is an existing 10-inch sewer main in Coffee Road that is available for connection and with adequate capacity for the uses expected demand. For any new connection to the sewer main, sewer connection fees shall be paid and an Encroachment permit be issued by the City prior to any new connection being made. Submit estimated sewer demand calculation for review prior to issuance of a building permit.

24. The property shall retain all storm water runoff on-site through low impact development methods to promote ground water recharge. The design shall abide by current City of Modesto storm drainage standards.

25. Prior to the issuance of a Grading, Demolition, or Building Permit, Developer shall submit improvement plans conforming to design requirements of the most current edition of the City of Modesto Guidance Manual for Development, Stormwater Quality Control Measures and the City of Modesto Municipal Code.

26. Prior to the issuance of a Grading, Demolition, or Building Permit, Developer shall submit a plan to integrate Low Impact Development (LID) principles into the project design. The plan shall retain, treat, and infiltrate the first 0.5" of stormwater runoff on site, and incorporate pervious landscape features into the project design wherever possible.

27. Prior to the issuance of a Grading, Demolition, or Building Permit, Developer shall submit a plan to provide permanent, post-construction treatment (grass swale, bioretention, vegetative strip, or other approved proprietary device) to remove pollutants from the first 0.5" of stormwater run-off from site.

28. Prior to the issuance of a Grading, Demolition, or Building Permit, Developer shall submit a plan for trash enclosures to be sufficiently elevated to prevent stormwater run-on from parking lot and floor of enclosures shall be graded to drain into adjacent landscape areas.

29. Prior to the issuance of a Grading, Demolition, or Building Permit, Property Owner shall provide a signed and notarized Stormwater Treatment Device Access and Maintenance Agreement to Land Development Engineering, Stormwater for recording.

30. Prior to the issuance of a Grading, Demolition, or Building Permit, Developer shall prepare and submit a Water Pollution Control Plan (WPCP) or Local SWPPP to Land Development Engineering, Stormwater for review. The WPCP or Local SWPPP shall include a description of all erosion, sediment, and pollution control BMPs to be used at the construction or demolition site to prevent sediment and other sources of pollution from entering the City storm drain system as well as a site plan showing their placement.

31. Fire hydrant spacing and distribution for this project is 300-feet O.C. An on-site fire hydrant will be required.

32. Buildings shall be equipped with automatic fire sprinkler systems installed in accordance with NFPA 13.

33. A fire alarm system installed in accordance with NFPA 72 may be required for an ambulatory care facility. Alarm system shall be U. L. Certified.

34. A fire hydrant will be required within 90 feet of the Fire Department Connection (FDC) to fire sprinklers.

35. Applicant shall submit Landscape and Irrigation plans for review and approval by the City's Park Planning and Development Division. L&I plans shall meet current State of California water use requirements, MMC requirements and City of Modesto standards at time of submittal.

36. Applicant shall provide street trees along Coffee Road thirty five (35') feet on center and located within seven (7') feet of the sidewalk or curb.

37. Applicant shall install a separate landscape water meter.

38. The applicant shall provide a minimum 10-foot landscaped setback from the front property line.

39. The landscape design can include accent landscaping to be installed at the driveway for visual connectivity to employees, visitors, delivery trucks and street traffic.

40. LID control and treatment measures shall be vegetated for erosion protection and sediment entrapment to collect/treat storm water run-off before entering the storm drain system. Storm drainage basins shall be appropriately landscaped and irrigated to address the specific type of storm water control measure.

41. Climbing vines shall be included in the landscape surrounding the trash enclosures to discourage tagging.

42. Applicant shall install bicycle parking racks as part of the project development per MMC and Green Building Code.

43. All department Conditions of Approval for the project shall be included with building plans and shall be continuously maintained on-site during project construction to the satisfaction of the Chief Building Official.

44. All construction documentation shall be coordinated for consistency, including but not limited to, architectural, structural, mechanical, electrical, plumbing, landscape and irrigation, grading, utility and street improvement plans. All such plans shall be consistent with the approved entitlement plans on file with the Planning Department.

45. Prior to issuance of a building permit, any variation from the approved site plan or building elevations on file with the City must be reviewed and approved by the Director of Community and Economic Development.

46. All existing underground and aboveground utilities, irrigation, and electrical lines shall be protected, relocated, or removed as required by the City Engineer or designee. Easements for utilities, irrigation, and electrical lines to remain shall be reserved as required.

47. All landscaping, fences, and walls shall be maintained and the premises shall be kept free of weeds, trash, and other debris.

48. At the time of issuance of a building permit, the developer shall pay development impact fees at the established rate. Such fees may include but are not limited to, sewer and water connection fees, community facility fees, building permit and plan check fees.

49. Prior to start of construction, all-weather, hard-surfaced roadways shall be constructed and maintained free of obstructions at all times during construction as required by Director of Community and Economic Development.

50. The property owner and developer shall, at their sole expense, defend, indemnify and hold harmless the City of Modesto, its agents, officers, directors and employees, from and against all claims, actions, damages, losses, or expenses of every type and description, including but not limited to payment of attorneys' fees and costs, by reason of, or arising out of, this development approval. The obligation to defend, indemnify and hold harmless shall include but is not limited to any action to arbitrate, attack, review, set aside, void or annul this development approval on any grounds whatsoever. The City of Modesto shall promptly notify the developer of any such claim, action, or proceeding and shall cooperate fully in the defense.

The following conditions are mitigation measures from the City of Modesto General Plan Master EIR to be applied to the project:

51. All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover. [AQ-42]

52. All on-site unpaved roads and off-site unpaved access roads shall be effectively stabilized of dust emissions using water or chemical stabilizer/suppressant. [AQ-43]

53. All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking. [AQ-44]

54. When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained. [AQ-46]

55. All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. (The use of dry rotary brushes is expressly prohibited except where preceded or

accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.) [AQ-47]

56. Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant. [AQ-48]

57. Within urban areas, track out shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday. [AQ-49]

58. Any site with 150 or more vehicle trips per day shall prevent carryout and track out. [AQ-50]

59. The City has also established a noise ordinance to control noise within the City. The City's noise ordinance (Modesto Municipal Code Section 4-9.101) prohibits the "loud and raucous discharge into the open air of the steam of any steam equipment or exhaust from any stationary internal-combustion engine." [N-1]

60. Additionally, the noise ordinance prohibits the loud and raucous operation or use of any of the following before 7:00 a.m. or after 9:00 p.m. daily (except Saturday and Sunday and state or federal holidays, when the prohibited time shall be before 9:00 a.m. and after 9:00 p.m.):

    a. A hammer, or any other device or implement used to pound or strike an object.

    b. An impact wrench, or other tool or equipment powered by compressed air.

    c. A hand-powered saw.

    d. Any tool or piece of equipment powered by an internal-combustion engine such as, but not limited to, chain saw, backpack blower, and lawn mower.

    e. Any electrically powered (whether by alternating current electricity or by direct current electricity) tool or piece of equipment used for cutting, drilling, or shaping wood, plastic, metal, or other materials or objects, such as, but not limited to, a saw, drill, lathe, or router.

    f. Any of the following: heavy equipment (such as but not limited to bulldozer, steam shovel, road grader, back hoe), ground drilling and boring equipment (such as but not limited to derrick or dredge), hydraulic crane and boom equipment, portable power generator or pump, pavement equipment (such as but not limited to pneumatic hammer, pavement breaker, tamper, compacting

equipment), piledriving equipment, vibrating roller, sand blaster, gunite machine, trencher, concrete truck, and hot kettle pump.

g. Any construction, demolition, excavation, erection, alteration, or repair activity. In the case of urgent necessity and in the interest of public health and safety, the Chief Building Official may issue a permit for exemption from these. Such period shall not exceed three (3) working days in length while the emergency continues but may be renewed for successive periods of three (3) days or less while the emergency continues. The Chief Building Official may limit such permit as to time of use and/or permitted action, depending upon the nature of the emergency and the type of action requested. [N-2]

61. The City of Modesto shall require construction activities to comply with the City's noise ordinance (Title 4, Chapter 9), and noise-reducing construction practices to be implemented as conditions of approval for development projects where substantial construction-related noise impacts would be likely to occur (e.g., where construction would include extended periods of pile driving, where construction would occur over an unusually long period, or where noise-sensitive uses like homes and schools would be in the immediate vicinity, etc.). The city should consider potential mitigation measures, including, but not limited to, the following: Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields. Equipment that is quieter than standard equipment should be utilized. Haul routes that affect the fewest number of people should be selected. [N-3]

62. Construction activities shall comply with the requirements of the City's Storm Water Management Plan under its municipal NPDES stormwater permit, and the State Water Resources Control Board's General Permit for Discharges of Storm Water Associated with Construction Activity. [SD-9, FWQ-13]

2. DEVELOPMENT SCHEDULE. The following development schedule is hereby approved for said Planned Development Zone, P-D(604):

The entire construction program be accomplished in one phase, construction to begin on or before December 12, 2019, and completion to be not later than three (3) years from the date of adoption.

3. CHANGES IN DEVELOPMENT PLAN. Any changes in the above approved development plan shall be made in accordance with the provisions of Section 10-7.108 of the Modesto Municipal Code.

4. COMPLIANCE WITH CODE PROVISIONS, ETC. In all other respects said planned development shall be accomplished in accordance with and in strict adherence to the provisions of Article 1 of Chapter 7 of Title 10 of the Modesto Municipal Code relating to Planned Development Zones and other applicable City laws, rules, regulations and procedures.

5. EFFECTIVE DATE. This resolution shall not become effective unless and until the ordinance reclassifying the above-described property to Planned Development Zone, P-D(604), becomes effective.

BE IT FURTHER RESOLVED that the conditions of project approval set forth herein include certain fees, dedication requirements, reservations requirements, and other exactions, and that pursuant to Government Code Section 66020(d)(1), these conditions constitute written notice of a statement of the amount of such fees, and a description of the dedications, reservations, and other exactions.

BE IT FURTHER RESOLVED that the applicant is hereby further notified that the ninety (90) day approval period in which a protest of these fees, dedications, reservations, and other exactions, pursuant to Government Code Section 66020(a) can be filed, begins on December 12, 2017, and that if a protest is not filed within this ninety (90)-day period complying with all of the requirements of Section 66020, the applicant will be legally barred from later challenging such exactions.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Zoslocki, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-524

RESOLUTION FINDING THAT THE FOLLOWING SUBSEQUENT PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (STATE CLEARINGHOUSE NO. 2007072023): AMENDMENT TO SECTION 22-3-9 OF THE ZONING MAP TO REZONE FROM LOW DENSITY RESIDENTIAL ZONE (R-1) ZONE TO PLANNED DEVELOPMENT ZONE P-D(604), TO ALLOW FOR AN 11,500 SQUARE FOOT OFFICE BUILDING AND ON-SITE PARKING, PROPERTY LOCATED AT 1328 COFFEE ROAD

WHEREAS, on October 14, 2008, the City Council of the City of Modesto certified the Final Master Environmental Impact Report ("Master EIR") (SCH No. 2007072023) for the Modesto Urban Area General Plan, and

WHEREAS, Meridian Property Ventures LLC has proposed a rezone of property located at 1328 Coffee Road from Low Density Residential (R-1) Zone to Planned Development Zone P-D(604) to allow a 11,500 square foot office building and on-site parking, and

WHEREAS, pursuant to Section 21157.1 of the Public Resources Code, the City of Modesto's Community & Economic Development Department prepared an Environmental Assessment Initial Study EA/C&ED 2017-16 ("Initial Study") which analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report, and

WHEREAS, in accordance with CEQA guidelines beginning on November 21, 2017, the City caused to be published a 20-day notice of the City's intent to make a finding that the subsequent project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on December 12, 2017, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed rezone, a copy of which is **attached** hereto as **Exhibit "A"**, and incorporated herein by reference, and based on substantial evidence in the Initial Study makes the following findings:

1. An Initial Study was prepared by the City of Modesto that analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report.

2. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.

3. No new or additional mitigation measures or alternatives are required.

4. The subsequent project is within the scope of the project covered by the Master EIR.

5. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

6. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of approval or determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Zoslocki, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold
NOES:	Councilmembers:	None
ABSENT:	Councilmembers:	Grewal

EXHIBIT A

Initial Study

EA/C&ED 2017-16

City of Modesto

Finding of Conformance to General Plan Master EIR:

Initial Study Environmental Checklist
C&ED No. 2017-16

For the proposed:

PDZ-17-004
Rezone from Low Density Residential (R-1) Zone to Planned Development Zone for Professional Office (P-O) Uses
New 11,500 Sq. Ft. Professional Office Building
1328 Coffee Road

Prepared by:
City of Modesto
Community & Economic Development Department
Planning Division

September 14, 2017

Updated: September 2013

(Intentional Blank Page)

City of Modesto
Master EIR Initial Study Environmental Checklist

I. PURPOSE

CEQA allows for the limited environmental review of subsequent projects under the City's Master Environmental Impact Report ("Master EIR" or "MEIR"). This Initial Study Environmental Checklist ("Initial Study") is used in determining whether the proposed rezone to Planned Development Zone for a new 11,500 Sq. Ft. office building ("Project") is "within the scope" of the project analyzed in the Modesto Urban Area General Plan Master EIR (SCH# 2007072023) (Public Resources Code section 21157.1). When the Initial Study supports this conclusion, the City will issue a finding of conformance.

A subsequent project is "within the scope" of the Master EIR when:

1. it will have no additional significant effects on the environment that were not addressed as significant effects in the Master EIR; and

2. no new or additional mitigation measures or alternatives are required.

"Additional significant effects" means a project-specific effect that was not addressed as a significant effect in the Master EIR. [Public Resources Code Section 21158(d)]

The determination must be based on substantial evidence in the record. "Substantial evidence" means facts, reasonable assumptions predicated upon facts, or expert opinion based on facts. It does not include speculation or unsubstantiated opinion. (CEQA Guidelines Section 15384)

II. PROJECT DESCRIPTION

A. Title: PDZ-17-004: Rezone from R-1 to Planned Development Zone for Professional Office Uses and Dialysis Clinic

B. Address or Location: 1328 Coffee Road (APN 032-009-007)

C. Applicant: Meridian Property Ventures (c/o Mike Conn) 2420 Camino Ramon, Suite 215 San Ramon, CA 94583

D. City Contact Person: Katharine Martin, Associate Planner

Project Manager: Katharine Martin
Department: Community and Economic Development, Planning Division
Phone Number: 209-577-5267
E-mail address: kamartin@modestogov.com

E. Current General Plan Designation(s): Mixed Use (MU)

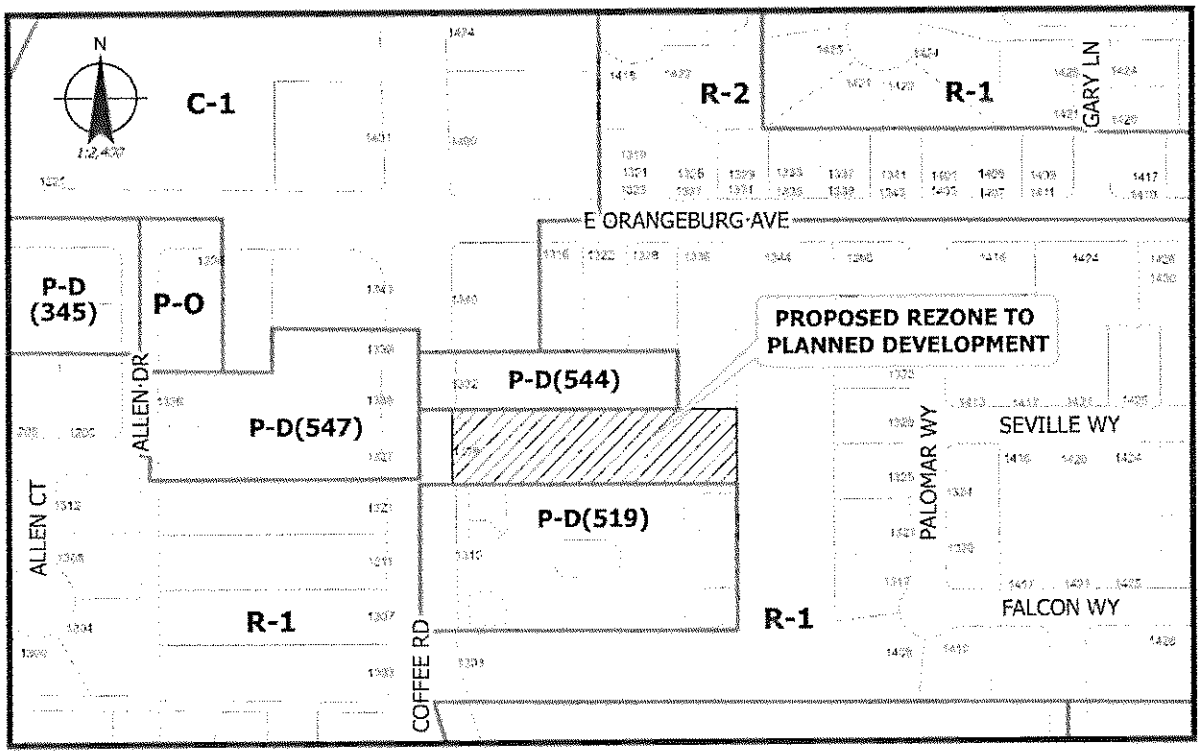
F. Current Zoning Classification(s): Low Density Residential (R-1) Zone

G. Surrounding Land Uses:

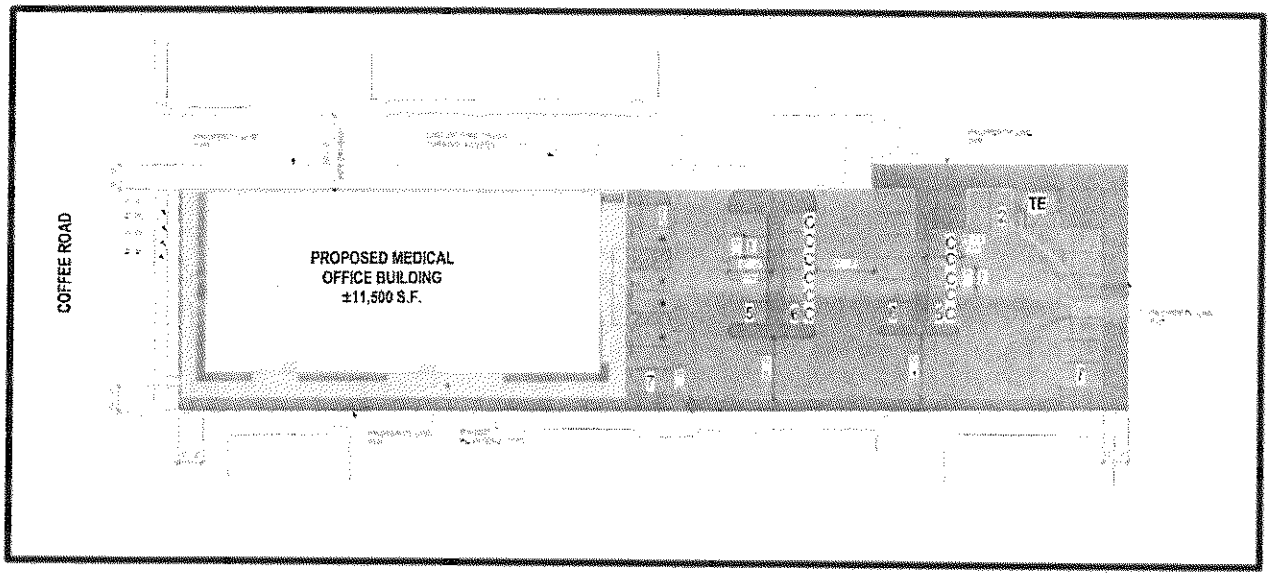
North: Planned Development Zone P-D(544), Professional Office
South: Planned Development Zone P-D(519), Professional Office Complex
East: Low Density Residential (R-1) Zone, single family residential and residential care facility
West: Planned Development Zone P-D(547), Medical Offices, and Low Density Residential (R-1) Zone, single family residential

H. Project Description, including the project type listed in Section II.C (Anticipated Future Projects) of the Master EIR (Attach additional maps/support materials as needed for complete record):

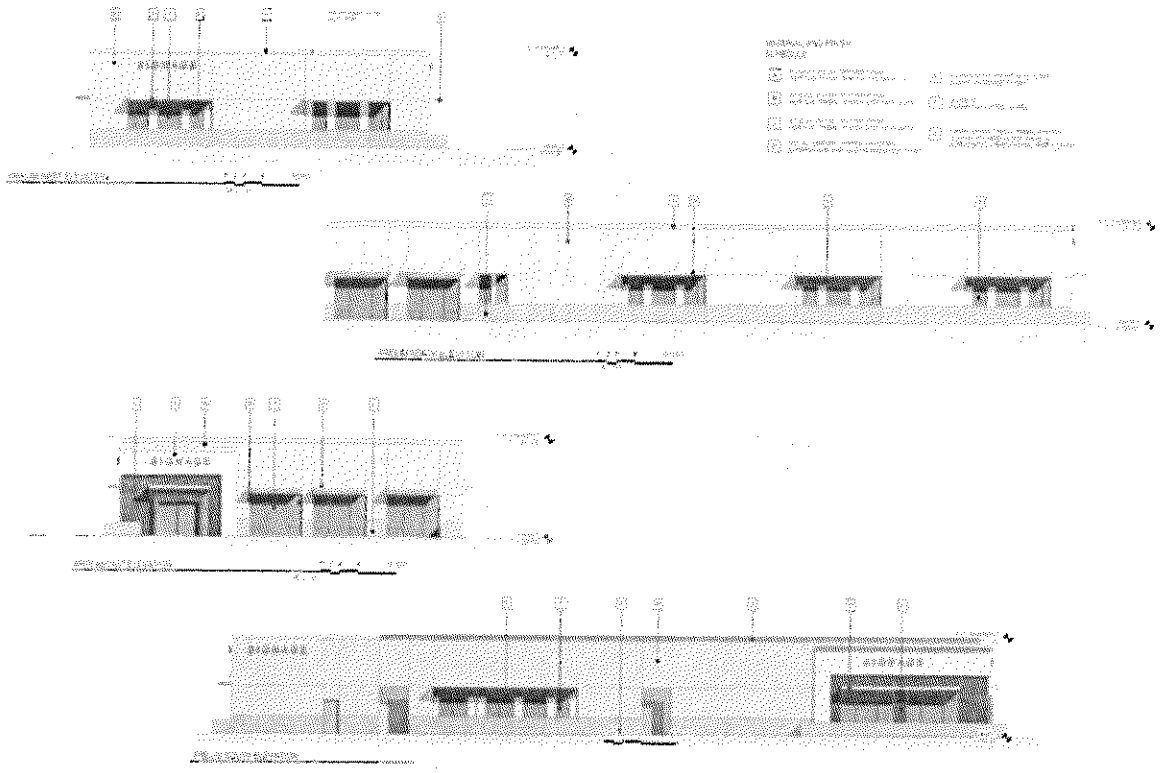
Rezone of a vacant 0.89-acre parcel within the Baseline Developed Area of the City's General Plan from Low Density Residential Zone to Planned Development Zone allowing for Professional Office (P-O) Zone uses with dialysis clinic as the sole allowable medical use, to facilitate development of a new 11,500 square foot office building with 38 spaces of off-street parking.



AREA OF PLANNED DEVELOPMENT ZONE
PDZ-17-004



SITE PLAN OF PROPOSED OFFICE BUILDING
PDZ-17-004



ELEVATIONS OF PROPOSED OFFICE BUILDING
PDZ-17-004

I. Other Public Agencies Whose Approval is Required: None

III. FINDINGS/DETERMINATION (SELECT ONE ON THE BASIS OF THE ANALYSIS IN SECTION IV)

1. _X_ Within the Scope - The project is within the scope of the Master EIR and no new environmental document or Public Resources Code Section 21081 findings are required. All of the following statements are found to be true:

A. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.

B. No new or additional mitigation measures or alternatives are required.

C. The subsequent project is within the scope of the project covered by the Master EIR.

D. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

E. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

2. ____ Mitigated Negative Declaration Required - On the basis of the above determinations, the project is not within the scope of the Master EIR. A mitigated negative declaration will be prepared for the project. The following statements are all found to be true:

A. The subsequent project is within the scope of the project covered by the Master EIR.

B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

C. The project will have one or more potential new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures are being required of the project that will reduce the effects to a less-than-significant level.

D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

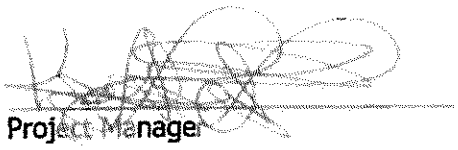
3.____ Focused EIR Required- On the basis of the above determinations, the project is not within the scope of the Master EIR. A Focused EIR will be prepared for the project. All of the following statements are found to be true:

A. The subsequent project is within the scope of the project covered by the Master EIR.

B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

C. The project will have one or more new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures or alternatives are required as a result.

D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.



Project Manager | Associate Planner
Title | September 14, 2017
Date

4. Within the Scope Analysis of this Document:

The Master EIR allows projects to be found within the scope of the MEIR if certain criteria are met. If the following statements are found to be true for all 21 impact categories included in this Initial Study, then the proposed project is addressed by the MEIR analysis and is within the scope of the MEIR. Any "No" response must be discussed.

		YES	NO
(1)	The lead agency for subsequent projects shall be the City of Modesto or a responsible agency identified in the Master EIR.	☒	☐
(2)	City policies which reduce, avoid, or mitigate environmental effects will continue to be in effect and, therefore, would be applied to subsequent projects where appropriate. The policies are described in the list of policies in place and mitigation measures attached to the Initial Study template. Project impacts would be mitigated to a less-than-significant level using MEIR mitigations only.	☒	☐
(3)	Federal, State, regional, and Stanislaus County regulations do not change in a manner that is less restrictive on development than current law (i.e., would not offer the same level of protection assumed under the Master EIR).	☒	☐
(4)	No specific information concerning the known or potential presence of significant resources is identified in future reports, or through formal or informal input received from responsible or trustee agencies or other qualified sources.	☒	☐
(5)	The development will occur within the boundaries of the City's planning area as established in this Urban Area General Plan.	☒	☐
(6)	Development within the project will comply with all appropriate mitigation measures contained and enumerated in the 2008 General Plan Master EIR.	☒	☐

5. Currency of the Master EIR Document

The MEIR should be reviewed on a regular basis to determine its currency, and whether additional analysis/mitigation should be incorporated into the MEIR via a Supplemental or Subsequent EIR (CEQA Section 21157.6). Staff has reviewed Sections 1 through 21 of this document in light of the criteria listed below to determine whether the MEIR is current. The analysis contained within the Master EIR is current as long as the following circumstances have not changed. Any "no" response must be explained.

		YES	**NO**
(1)	Certification of the General Plan Master EIR occurred less than five years prior to the filing of the application for this subsequent project.	☐	☒
(2)	This project is described in the Master EIR and its approval will not affect the adequacy of the Master EIR for any subsequent project because the City can make the following findings:	☒	☐
(a)	No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified.	☒	☐
(b)	No new information, which was not known and could not have been known at the time the Master EIR was certified as complete, has become available.	☒	☐
(c)	Policies remain in effect which require site-specific mitigation, and avoidance or other mitigation of impacts as a prerequisite to future development.	☒	☐

Discussion:

(1) The General Plan Master EIR was certified on October 14, 2008, so more than five years has passed since the MEIR was certified. However, the analysis contained in the MEIR is still adequate for subsequent projects, as documented in the discussion below.

(2) The project is consistent with the analysis contained in the MEIR. This is documented in the discussion of the individual issue areas of this initial study.

(2)(a) There have been no substantive changes to the General Plan since the MEIR was certified that would create additional significant environmental effects that were not analyzed by the MEIR.

(2)(b) There has been no new information that would affect the adequacy of the analysis contained in the MEIR.

(2)(c) All policies contained in the MEIR that require site-specific mitigation or avoidance of impacts remain in effect and will be applied to the project as appropriate.

IV. ENVIRONMENTAL ANALYSIS

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, discloses whether the proposed project may cause any project-specific significant effect on the environment that was not examined in the Final Master EIR (MEIR) for the General Plan and whether new or additional mitigation measures or alternatives may be required as a result. The Initial Study thereby documents whether or not the project is "within the scope" of the Master EIR.

Pursuant to Public Resources Code Section 21157.1, no new environmental document or findings are necessary for projects that are determined to be within the scope of the MEIR. Adoption of the findings specified in Section III.1, above after completion of the Initial Study fulfills the City's obligation in that situation.

All environmental effects cited reflect 2025 conditions resulting from the Urban Area General Plan, as identified in the Master EIR.

The environmental impact analysis in the Master EIR for the Urban Area General Plan is organized in twenty-one subject areas. The following analysis is based on the impact analyses contained in Chapter V of the Master EIR. For ease of reference, the sections are numbered in the same order as the analyses in Chapter V.

1. TRAFFIC AND CIRCULATION

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable traffic and circulation impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Increased automobile traffic will result in roadway segments (see MEIR on Table 1-7, pages V-1-32 to V-1-34) operating at LOS D, Modesto's significance threshold for automobile traffic, or lower (LOS E or F).

Effect: The substantial increase in traffic relative to the existing load and capacity of the street system will cause, either individually or cumulatively, the violation of automobile service standards established by StanCOG's Congestion Management Plan for designated roads and highways.

Effect: A substantial increase in automobile vehicle miles traveled and automobile vehicle hours of travel and a decrease in average automobile vehicle speed (see MEIR Table 1-6, page V-1-31).

Cumulative Impacts

Effect: Potential for growth inducement or acceleration of development resulting from highway and local road projects.

Effect: Substantial increase in traffic in relation to the existing traffic load and capacity of the street system, including a violation, either individually or cumulatively, of an automobile LOS standard established by the Congestion Management Plan for designated roads and highways.

Effect: Increased demand for capacity-enhancing alterations to existing roads or automobile traffic reduction.

Other impact categories affected by Traffic and Circulation are addressed throughout this Initial Study (see also Section 2, Degradation of Air Quality; Section 3, Generation of Noise; Section 7 Loss of Sensitive Wildlife and Plant Habitat; Section 8, Disturbance of Archaeological/Historic Sites; Section 14 Increased Demand for Fire Services; Section 18, Energy; Section 19, Visual Resources; Section 20, Land Use and Planning, and Section 21, Climate Change).

b. Master EIR and/or New Mitigation Measures Applied to the Project

Traffic and Circulation mitigation measures pertinent to this project are found on MEIR pages V-1-9 through V-1-28. All mitigation measures appropriate to the project, including any new measures, will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures regarding traffic from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-1.B of the Master EIR provides analysis of Traffic and Circulation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: A subsequent development project will have a new significant effect on the environment if it would exceed the following criteria:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1. TRAFFIC AND CIRCULATION				
1) The proposed project exceeds traffic generation assumptions in the Master EIR for the site by 100 trips or more and City Engineering and Transportation staff has determined that the project would have additional potentially significant project-specific effects that are not avoided or reduced by the Master EIR's mitigation measures.	☐	☐	☐	☒
2) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads or highways?	☐	☐	☐	☒
3) The proposed project would cause additional roadway segments in the General Plan area to exceed LOS D and/or cause additional violations of standards in the Congestion Management Plan, and/or cause an increase in automobile vehicle miles or vehicle hours of travel or a decrease in automobile travel speed, as compared to the impacts disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project would cause emergency response times to exceed acceptable standards established by the Fire Department, as compared to impacts disclosed in the Master EIR (see Section 14, Increased Demand for Fire Services).	☐	☐	☐	☒
5) The proposed project would result in less parking than required by the Municipal Code or as determined by staff.	☐	☐	☒	☐
6) The proposed project would conflict with adopted policies, plans, or programs that support alternative transportation, including, but not limited to the Regional Transportation Plan, the Sustainable Communities Strategy, the Bicycle Action Plan, and so on.	☐	☐	☐	☒
7) The proposed project would result in an increase	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
in automobile vehicle miles traveled on a per capita basis, in excess of that considered in the Urban Area General Plan MEIR.				

Discussion:

(1) The project consists of the rezoning of a vacant 0.89 acre parcel from Low Density Residential (R-1) Zone to Planned Development Zone for Professional Office (P-O) Zone uses to facilitate the development of a new 11,500 square foot office building with off-street parking. The project was referred to Land Development Engineering, Traffic, who indicated no concerns with traffic volumes exceeding 100 trips.

(2) The project would not exceed a level of service standard established by the county congestion management agency (StanCOG).

(3) There are no significant changes in the level of service or the volume-capacity ratio as a result of the project, and therefore there are no significant cumulative (long-term) traffic impacts.

(4) Police and Fire Staff have reviewed this proposal and have not indicated that there would be an impact to response times as a result of the project.

(5) The project includes off-street parking at a sufficient level to serve professional office uses. The zoning will allow dialysis clinic uses as the sole allowable medical use as dialysis clinics typically require less parking than general medical office uses, due to the length of dialysis procedure times and utilization of medical transport services by patients.

(6) Traffic and Transit staff have reviewed this proposal and indicated no issues with adopted plans for alternative transportation. A bus stop is located at the northeast corner of Coffee Road and Orangeburg Avenue, approximately 300-feet north of the site.

(7) The proposed project would not result in a significant increase in automobile vehicle miles traveled (per capita) in excess of what was considered in the Urban Area General Plan.

2. DEGRADATION OF AIR QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable air quality impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Expected automobile traffic will result in increased operational emissions of reactive organic gases (ROG) and oxides of nitrogen (NO_X) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased emissions of particulate matter 10 microns or less (PM_{10}) and 2.5 microns or less in diameter ($PM_{2.5}$) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased carbon monoxide (CO) levels in the project area (see MEIR Table 2-7, page V-2-26, and Table 2-8, page V-2-27).

Cumulative Impacts

The Master EIR indicates the same impacts identified as direct impacts above will contribute to regional impacts on air quality for the criteria pollutants ROG, NO_x, PM_{10}, and $PM_{2.5}$.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Air quality mitigation measure(s) pertinent to the proposed project are found on pages V-2-13 through V-2-24 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes AQ-42 through AQ-50 from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-2.B of the Master EIR is the analysis of air quality impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
2. DEGRADATION OF AIR QUALITY				
1) The proposed project exceeds the project-level emissions thresholds established for CO, ROG, NO_x, PM_{10}, and $PM_{2.5}$ by the San Joaquin Valley Air Pollution Control District (SJVUAPCD) and is not consistent with the development assumptions for the project site, as established in the Urban Area General Plan and Master EIR.	☐	☐	☐	☒
2) The proposed project does not incorporate the best management practices established by the SJVAPCD for CO, ROG, NO_x, PM_{10}, and $PM_{2.5}$.	☐	☐	☐	☒
3) The proposed project does not comply with the air quality policies in the Modesto Urban Area General Plan.	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
4) The proposed project would expose sensitive receptors to pollutant concentrations in excess of those expected to occur as a result of implementation of the Urban Area General Plan.	☐	☐	☒	☐
5) The proposed project would create objectionable odors affecting a substantial number of people.	☐	☐	☐	☒

Discussion:

(1) The project consists of the rezoning of a vacant 0.89 acre parcel from Low Density Residential (R-1) Zone to Planned Development Zone for Professional Office (P-O) Zone uses to facilitate the development of a new 11,500 square foot office building with off-street parking. The subsequent development would not exceed emissions thresholds established by the SJVUAPCD, and is consistent with the development standards for an office use as established by the General Plan.

(2) The project will incorporate best management practices with implementation of the mitigation measures above during the construction process.

(3) The project would comply with the air quality policies in the General Plan, and would not expose sensitive receptors to pollutants or odors in excess of assumptions for residential uses.

(4-5) There may be temporary odors generated through the construction process but with implementation of the mitigation measures outlined above the impacts will be less than significant.

3. GENERATION OF NOISE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable noise impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Future automobile traffic noise levels and roadway construction and maintenance activities resulting from development of the Urban Area General Plan will exceed the City's noise thresholds at various locations, but particularly in areas adjacent to heavily traveled roadways (see MEIR Table 3-3, page V-3-10, and Figure VII-2 and Table 3-6, pages V-3-18 and V-3-19).

Effect: Expected noise from airport operations and airport construction projects may expose up to 468 dwellings and three churches to noise levels of 65 dB CNEL and up to eight dwellings to noise levels of 70 dB CNEL.

Effect: Expose noise-sensitive land uses to noise from the construction of bicycle and transit projects.

Effect: Expose noise-sensitive land uses to noise from freight and passenger rail operations.

Cumulative Impacts

Effect: Traffic from development in the City of Modesto would, when combined with traffic from new development in the County and other cities, contribute to a cumulative increase in roadside noise levels on major roads and highways throughout Stanislaus County.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Noise policies and mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-3-11 through V-3-15 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and any new measures are listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes N-1 through N-3 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-3.B of the MEIR discloses noise impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of the proposed project's effects are based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
3. GENERATION OF NOISE				
1) The proposed project will exceed the standards for noise level and hours of operation established by the Modesto noise ordinance.	☐	☐	☐	☒
2) The proposed project will not comply with the noise policies of, or otherwise be inconsistent with, the Modesto Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project will result in an increase in ambient noise levels in the project vicinity above those disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project will result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels disclosed in the Master EIR implementation of the Urban Area	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
General Plan.				

Discussion:

(1) The project consists of the rezoning of a vacant 0.89 acre parcel from Low Density Residential (R-1) Zone to Planned Development Zone for Professional Office (P-O) Zone uses to facilitate the development of a new 11,500 square foot office building with off-street parking. The subsequent development would be required to adhere to the City's noise ordinance.

(2-4) The development would not be inconsistent the noise policies of the General Plan, nor result in ambient noise levels above those assumed by the General Plan for an office use. Any increase in ambient noise levels would be construction-related and temporary in the process of developing the office building.

4. EFFECTS ON AGRICULTURAL LANDS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on agricultural lands expected after application of mitigations/policies:

Direct Impacts

Effect: Between 1995 and 2025, development of the Urban Area General Plan may convert up to approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area to urban uses.

Effect: Approximately 1,200 acres of urban development along a 28.5-mile boundary 350 feet wide between urban and agricultural uses could be affected by continued agricultural operations, including noise, dust, and chemical overspray or drift.

Cumulative Impacts

Effect: Growth within Modesto's planning area would contribute considerably to the loss of agricultural land within Stanislaus County, accounting for the conversion of as much as approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area from 1995 to 2025.

b. Master EIR and/or New Mitigation Measures Pertinent to the Project

Agricultural land mitigation measures pertinent to the proposed project are found on pages V-4-6 to and V-4-8 of the Master EIR. All mitigation measures appropriate to the project and any new mitigation to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures regarding agricultural lands from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-4.B of the Master EIR discloses the impacts resulting from the implementation of the Urban Area General Plan on agricultural lands. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
4. EFFECTS ON AGRICULTURAL LANDS				
1) The proposed project is inconsistent with the Urban Area General Plan's policies relating to agricultural land.	☐	☐	☐	☒
2) The proposed project will either directly or indirectly result in the development of land outside the 2008 Urban Area General Plan's planning area boundary.	☐	☐	☐	☒
3) The proposed project will conflict with existing zoning for agricultural use, or there is an existing Williamson Act contract on the project site.	☐	☐	☐	☒
4) The proposed project will involve other changes in the existing environment not anticipated in the Master EIR which, due to their location or nature, could result in conversion of farmland to non-agricultural use.	☐	☐	☐	☒

Discussion:

(1) The project site is a vacant infill lot within the Baseline Developed Area not in agricultural production, and is completely surrounded by urbanized area consisting of office and residential uses. The project would therefore not be inconsistent with the General Plan's policies related to agricultural land.

(2-4) The project site is not zoned for agricultural use, and no Williamson Act contract is in place on the property. The site is surrounded by urban area and would not cause the conversion of farmland to a non-agricultural use.

5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on long-term water supplies expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts have been disclosed in the Master EIR.

Cumulative Impacts

Effect: Operational yields of the Modesto and Turlock subbasins, both of which underlie the City of Modesto, are unknown, although the City is participating in a study with the United States Geological Survey in order to quantify the operational yields of both subbasins. Groundwater withdrawals from both basins by the City, when combined with other users' withdrawals, may result in overdrafting both subbasins.

Effect: Despite available options, during drought years, significant water shortages are forecast for the San Joaquin River basin, which includes both the Modesto and Turlock subbasins, by 2020. Modesto would make a cumulatively considerable contribution to the cumulative impact on water supply under drought conditions.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Water supply mitigation measures pertinent to the proposed project are found on pages V-5-6 through V-5-12 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures regarding water supply from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-5.B of the Master EIR discloses impacts on long-term water supplies resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
5. INCREASED DEMAND FOR LONG-TERM				

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
WATER SUPPLIES				
1) The proposed project is inconsistent with water supply policies in the Urban Area General Plan.	☐	☐	☐	☒
2) Water demand for the proposed project will exceed estimates for similar projects or for development on the project site anticipated in the Urban Area General Plan or sufficient water supplies are not otherwise available to serve the project from existing entitlements and resources.	☐	☐	☐	☒
3) The proposed project would deplete groundwater supplies to a greater degree than anticipated in the Urban Area General Plan or would interfere with groundwater recharge.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the water supply policies in the General Plan.

(2) The project was referred to Land Development Engineering Staff who indicated no concerns with water supply to the project. The proposed development will not exceed estimates or water supplies needed to serve other entitlements and resources.

(3) The proposed project is consistent with the ground water demands assumed in the General Plan. The project would not have a significant effect on ground water recharge or depletion of long-term water supplies.

6. INCREASED DEMAND FOR SANITARY SEWER SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sanitary sewer services after application of mitigations/policies:

Direct Impacts

Effect: Development resulting from implementation of the Urban Area General Plan will require substantial new sewage treatment and disposal capacity, treatment plant improvements, sewer mains and collection lines, and pump stations. The Wastewater Master Plan anticipates the need for these facilities and its EIR evaluates the impact of developing those facilities. Potential impacts include degradation of water quality through erosion and chemical releases; localized flooding; construction noise; exposure of construction workers and the public to hazardous materials; and on the habitat of the elderberry longhorn beetle, burrowing owl, and Swainson's hawk, as well as certain other regulated habitats. All of these impacts are mitigated to a less-than-significant level.

Additional impacts that are not mitigated to a less-than-significant level include loss of farmland cause by construction of the Phase IA tertiary treatment facility at the Jennings Road Secondary Treatment

Facility, an increase in pollutant loads from increased wastewater flows to the San Joaquin River, and an increase in noise and criteria air pollutants due to construction activities, including traffic.

Cumulative Impacts

Effect: No additional cumulative impacts were identified in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Sewer service mitigation measures pertinent to the proposed project are found on pages V-6-3 through V-6-8 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-6.B of the Master EIR discloses impacts on the Increased Demand for Sanitary Sewer Service resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
6. INCREASED DEMAND FOR SANITARY SEWER SERVICES				
1) The proposed project is inconsistent with wastewater policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project will generate sewage flows greater than those anticipated in the Urban Area General Plan for the project site.	☐	☐	☐	☒
3) The proposed project will result in a determination by the wastewater treatment provider which serves or may serve the project that it has inadequate capacity to serve the project's projected demand in addition to the provider's existing commitments.	☐	☐	☐	☒

Discussion:

(1) The project would be consistent with the General Plan's policies relating to wastewater and conform to applicable City Zoning Codes and Standards.

(2-3) The project would not generate sewage flows greater than estimates for a project of similar office uses. The project was referred to Land Development Engineering, who indicated no concerns with the project.

7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sensitive wildlife and plant habitat expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant impacts on sensitive wildlife and plan habitat are expected to occur with the application of the policies contained in the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will contribute to the cumulative impact of habitat loss in the San Joaquin Valley. Requiring density development than has occurred in the past or that is expected in the future would minimize the City's contribution to the cumulative loss of habitat. Nonetheless, this is a significant and unavoidable impact.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Wildlife and plant habitat mitigation measures pertinent to the proposed project are found on pages V-7-17 through V-7-24 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-7.B of the Master EIR discloses impacts on the Loss of Sensitive Wildlife and Plant Habitat resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT				
1) The project is inconsistent with the policies pertaining to the loss of sensitive wildlife and plant habitat contained in the Urban Area General Plan.	☐	☐	☐	☒
2) Consultation with the California Department of Fish and Game or the U.S. Fish and Wildlife Service determines that the project would have a significant effect on a candidate, sensitive, or special status species in excess of the impact disclosed in the Master EIR.	☐	☐	☐	☒
3) The proposed project would have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act through direct removal, filling, hydrological interruption, or other means, in excess of the impact disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project would substantially interfere with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites.	☐	☐	☐	☒
5) Conflict with local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.	☐	☐	☐	☒
6) The proposed project would conflict with provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan.	☐	☐	☐	☒

Discussion:

(1) The project involves the development of a 11,500 square foot office building on a 0.89-acre parcel of vacant land. The project would not be inconsistent with General Plan policies pertaining to wildlife and plant habitat.

(2-4) The project site is located within the Baseline Developed Area of the City and is completely surrounded by developed urban area consisting of office and residential uses. It is not a biologically sensitive site as defined by Figure V-7-1 of the MEIR. The California Department of Fish and Game and the U.S. Fish and Wildlife Service were consulted in the production of the MEIR.

(5-6) The project is not in conflict with any local policies or ordinances protecting biological resources, nor is in conflict with any adopted habitat conservation plan.

8. DISTURBANCE OF ARCHAEOLOGICAL/HISTORICAL SITES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on archaeological/historical sites expected after application of mitigations/policies:

Direct Impacts

Effect: Modification resulting in a substantial adverse change in the significance of a historic resource or the demolition of a listed or eligible historic resource.

Effect: The modification or demolition of a structure more than 50 years in age may be significant.

Effect: Discovery of archaeological resources in areas outside of the riparian corridors, as a result of construction activities.

Effect: Construction in an area of high archaeological sensitivity.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Archaeological or historic mitigation measures pertinent to the project being analyzed in this Initial Study are found on page V-8-16 through V-8-20 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-8.B of the MEIR discloses impacts on archaeological/historical resources resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
8. DISTURBANCE OF ARCHAEOLOGICAL/ HISTORICAL SITES				
1) The proposed project is inconsistent with the archaeological/historical resource policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would demolish a building eligible for listing as a historic resource or remove a landmark from the Modesto inventory.	☐	☐	☐	☒
3) The proposed project would modify or demolish a structure more than 50 years in age.	☐	☐	☐	☒
4) The project would adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources.	☐	☐	☐	☒
5) The project would adversely affect a Tribal Cultural Resource identified and/or defined consistent with Public Resources Code section 5024.1(c).	☐	☐	☐	☒

Discussion:

(1) The project would not be inconsistent with General Plan policies pertaining to archaeological or historic resources.

(2-4) The project site is vacant infill land surrounded by urban uses. The site is not classified as being of state or federal historic status nor is eligible for listing for such status.

(5) The project does not conflict with local policies affecting biological resources.

9. INCREASED DEMAND FOR STORM DRAINAGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on storm drainage expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: The population of Stanislaus County is projected to increase in a fashion similar to that of Modesto, resulting in additional urban development and associated increases in impervious surface area and associated increases in storm water runoff. Cumulative hydrologic impacts of storm water flows from Modesto urban areas and other areas of the County could occur due to the fixed capacity of MID and TID irrigation canals to convey drainage west to the San Joaquin River. If drainage channels in some areas prove insufficient to handle the increased drainage discharges, existing storm water runoff from urban and agricultural areas during large storm events would have to be interrupted until water levels receded to a point allowing the resumption of discharges to the channel. Ceasing discharges to drainage channels could cause inundation in and around the drainage conveyance pipeline systems, surface drainage channels, detention basins, and other urban areas. This cumulative impact is considered significant and unavoidable.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Storm Drainage mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-9-4 through V-9-9. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes: SD-9 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-9.B of the MEIR discloses impacts on the demand for storm drainage resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
9. INCREASED DEMAND FOR STORM DRAINAGE				
1) The proposed project is inconsistent with the storm drainage policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or offsite, as compared to impacts anticipated to result from	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
the Urban Area General Plan or create substantial unanticipated sources of polluted runoff.				
3) The proposed project does not utilize Low Impact Development strategies to reduce runoff from the site and increase infiltration, resulting in no net increase in runoff before and after development.	☐	☐	☐	☒

Discussion:

(1) Construction activities will comply with the requirements of the City's Storm Water Management Plan under its municipal NPDES stormwater permit, and the State Water Resources Control Board's General Permit for Discharges of Storm Water Associated with Construction Activity (MIER Policy SD-9). In addition, the City will ensure that new development complies with the City of Modesto's Stormwater Management Program: Guidance Manual for New Development Stormwater Quality Control Measures (MIER Policy SD-11). These policies will be implemented as conditions of project approval.

(2) The project is not located in an area that has a positive storm drainage system. The project will be required to manage storm water impacts on-site as required in accordance to current City Standards and its amendments, as a condition of approval.

(3) The project will utilize low impact strategies and meet the standards contained in the "Guidance Manual for New Development-Storm Water Quality Control Measures." This requirement will be implemented as a condition of project approval.

10. FLOODING AND WATER QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on flooding and water quality expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Flooding and Water Quality mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-10-6 through V-10-9 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes: FWQ-13 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-10.B of the Master EIR provides analysis of Flooding and Water Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
10. FLOODING AND WATER QUALITY				
1) The proposed project is inconsistent with the flooding and water quality policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project does not comply with the regulatory requirements of the federal Clean Water Act or the State Porter-Cologne Act.	☐	☐	☐	☒
3) The proposed project would place more housing within a 100-year flood hazard zone than assumed in the Urban Area General Plan.	☐	☐	☐	☒
4) The proposed project would place structure within a 100-year flood hazard area so that they would impede or redirect floodwater or would substantially alter the existing on-site drainage pattern or a watercourse, in such a way as to cause flooding on- or offsite.	☐	☐	☐	☒
5) The proposed project does not comply with Modesto's Guidance Manual for New Development Storm Water Quality Control Measures.	☐	☐	☐	☒
6) The proposed project would violate water quality standards or waste discharge requirements.	☐	☐	☐	☒
7) The proposed project would substantially alter the existing drainage pattern of the site or area or a watercourse in a manner that would result in substantial erosion or siltation on- or offsite in excess of the assumptions of the Urban Area General Plan.	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
8) The proposed project would create or contribute runoff, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff, not expected as part of Urban Area General Plan implementation.	☐	☐	☐	☒

Discussion:

(1) The proposed project is consistent with the flooding and water quality policies in the Urban Area General Plan.

(2) The project would comply with the Federal Clean Water Act and the Porter Cologne Act requirements.

(3) The project site is not within a 100-year flood hazard zone as established by the Federal Emergency Management Agency (FEMA) Flood Rate Insurance Map 06099C0340E dated September 26, 2008.

(4) The project will comply with the Guidance Manual for New Development Storm Water Quality Control Measures (MIER Policy SD-11). This will be implemented as a condition of project approval.

(5) The project will comply with the Guidance Manual for New Development Storm Water Quality Control Measures (MIER Policy SD-11). This will be implemented as a condition of project approval.

(6) The project will not violate water quality standards or waste discharge requirements.

(7) The project would not substantially alter the existing drainage pattern of the site, area or a watercourse in a manner that would result in erosion or siltation.

(8) The project is not located in an area that has a positive storm drainage system. The project will be required to manage storm water impacts on-site as required in accordance to current City Standards and its amendments, as a condition of approval.

11. INCREASED DEMAND FOR PARKS AND OPEN SPACE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on parks and open space expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Parks and open space mitigation measures pertinent to the proposed project are found on pages V-11-3 through V-11-9 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-11.B of the MEIR discloses impacts of the Urban Area General Plan on parks and open space. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
11. INCREASED DEMAND FOR PARKS AND OPEN SPACE				
1) The proposed project is inconsistent with the parks and open space policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would eliminate parks or open space.	☐	☐	☐	☒
3) The proposed project would cause an increase in the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility in question would occur or be accelerated or the proposed project would include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the parks and open space policies in the General Plan.

(2) The project would not eliminate an existing park or designated open space. The project is on a vacant lot within the Baseline Developed Area of the General Plan.

(3) The project would not cause an increase in use of existing local and regional parks.

12. INCREASED DEMAND FOR SCHOOLS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on school facilities expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR. By statute, the impact of new students is considered to be mitigated below a level of significance by payment of school impact fees and the exercise of any or all of the financing options set out in Government Code Section 65997.

Cumulative Impacts

Effect: Similar to direct impacts of implementation of the Urban Area General Plan, no residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. As long these policies are applied to all subsequent projects, no new mitigation is necessary. Further, payment of school impact fees and compliance with SB 50 is statutorily deemed to be full mitigation of school impacts (Government Code Section 65995).

The following schools mitigation measures on pages V-12-5 through V-12-7 of the Master EIR are pertinent to the proposed project. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures are listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-12.B of the Master EIR discloses impacts resulting from implementation of the Urban Area General Plan associated with increased demand for schools. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
12. INCREASED DEMAND FOR SCHOOLS				
1) The proposed project is inconsistent with the policies relating to schools in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project does not comply with SB 50/Proposition 1A funding provisions, or succeeding measures which state that compliance results in less-than-significant impacts on schools.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the policies relating to schools in the General Plan.

(2) The project was referred to Modesto City Schools who indicated no concerns with the project.

13. INCREASED DEMAND FOR POLICE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on police services expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Police services mitigation measures pertinent to the proposed project are found on pages V-13-2 through V-13-5 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-13.B of the Master EIR discloses impacts on police services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
13. INCREASED DEMAND FOR POLICE SERVICES				
1) The proposed project is inconsistent with policies relating to police services in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the policies relating to police services in the General Plan.

(2) The project would not result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives. The project meets City Standards for emergency services access.

14. INCREASED DEMAND FOR FIRE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on fire services expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Fire Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-14-4 through V-14-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-14.B of the Master EIR discloses impacts on fire services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
14. INCREASED DEMAND FOR FIRE SERVICES				
1) The proposed project is inconsistent with the fire service policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	☐	☐	☐	☒
3) The proposed project, based upon substantial evidence, would cause the erosion or elimination of fire protection services in adjoining fire protection districts.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the fire service policies in the General Plan.

(2) The project would not result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives.

(3) The project would not significantly impact adjacent fire districts or result in the elimination of fire protection services.

15. GENERATION OF SOLID WASTE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on solid waste expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Solid waste mitigation measures pertinent to the proposed project are found on pages V-15-4 through V-15-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.
Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-15.B of the Master EIR discloses solid waste impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
15. GENERATION OF SOLID WASTE				
1) The project is inconsistent with the solid waste policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The County is unable to expand its solid waste disposal capacity, as expected, causing all new development to result in cumulative impacts on the County's disposal capacity.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the solid waste policies in the General Plan.

(2) This project was referred to the Solid Waste Division for review, who indicated no concerns over service to the project area.

16. GENERATION OF HAZARDOUS MATERIALS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts regarding hazardous materials expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Hazardous materials mitigation measures pertinent to the proposed project are found on pages V-16-8 through V-16-13 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-16.B of the Master EIR discloses impacts on hazardous materials resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
16. GENERATION OF HAZARDOUS MATERIALS				
1) The project is inconsistent with the hazardous materials policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.	☐	☐	☐	☒
3) The proposed project would be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would create a significant hazard to the public or the environment.	☐	☐	☐	☒
4) The proposed project would be constructed on a contaminated site not known to the State of California as of March 2008.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the hazardous materials policies in the General Plan.

(2) No hazardous materials will be involved with this project.

(3) The project would not be located on a site, which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would not create a significant hazard to the public or the environment.

(4) The project site is not known to contain any contaminants.

17. GEOLOGY, SOILS, AND MINERAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts related to geology, soils, and mineral resources expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Geology, soils, and mineral resource mitigation measures pertinent to the proposed project are found on pages V-17-9 and V-17-10 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of the proposed project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-17.B of the Master EIR discloses geology, soils, and mineral resource impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
17. GEOLOGY, SOILS, AND MINERAL RESOURCES				
1) The project is inconsistent with policies relating to geology, soils, and mineral resources contained in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would expose people or structures to potential substantial adverse effects including the risk off loss, injury, or death involving fault rupture, strong seismic activity; location on an	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
expansive soil; result in the loss of topsoil; location on soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems in areas where sewers are not available for the disposal of wastewater; result in the loss of known mineral resources that would be of value to the region and the state; or result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan.				

Discussion:

(1) The project is consistent with policies relating to geology, soils, and mineral resources in the General Plan.

(2) The project would not be located on soil that is unstable, or that would become unstable as a result of the project. There are no known mineral resources of value to the region and the state on the property.

18. ENERGY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to energy expected after application of mitigations/policies:

Direct Impacts

Effect: Continued development in the Planned Urbanizing Area would have an impact on available energy supplies. Energy consumption likely would increase substantially by 2025 as a result of implementation of the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on energy consumption.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following energy mitigation measures pertinent to the proposed project are found on pages V-18-2 through V-18-8 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
18. ENERGY				
1) The proposed project is inconsistent with policies relating to energy in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in energy consumption during construction, operation, maintenance, or removal that is more wasteful, inefficient, and unnecessary than assumed in the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the energy policies in the General Plan.

(2) The project would not result in energy consumption during construction, operation, maintenance or removal that is more wasteful, inefficient and unnecessary than assumed in the General Plan.

19. EFFECTS ON VISUAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on visual resources expected after application of mitigations/policies:

Direct Impacts

Effect: New development in the Planned Urbanizing Area will occur in areas that are in agricultural production or are otherwise lightly developed, which could lead to the introduction of light and glare in areas that have little nighttime illumination.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following visual resources mitigation measures pertinent to the proposed project are found on pages V-19-3 and V-19-4 in the Master EIR. All mitigation measures appropriate to the proposed project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
19. EFFECTS ON VISUAL RESOURCES				
1) The proposed project is inconsistent with policies relating to visual resources in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would degrade views from riverside areas and parks to a greater degree than assumed in the Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project would degrade views of riverside areas from public roadways and nearby properties to a greater degree than assumed in the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the policies relating the visual resources in the General Plan.

(2) The project would not impact views from riverside areas and parks.

(3) The project would not impact views of riverside areas from roadways or nearby properties.

20. LAND USE AND PLANNING

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to land use and planning expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following land use and planning mitigation measures pertinent to the proposed project are found on pages V-20-6 through V-20-17 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-20.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on land use and planning. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
20. LAND USE AND PLANNING				
1) The proposed project is inconsistent with land use and planning policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project contains elements that would physically divide an established community in	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
a way not assumed in the Urban Area General Plan.				
3) The proposed project conflicts with a land use plan, policy or regulation established for the purpose of avoiding or mitigating an environmental impact by an agency that has jurisdiction over the proposed project.	☐	☐	☐	☒
4) The proposed project conflicts with an applicable habitat conservation plan or natural community conservation plan.	☐	☐	☐	☒

Discussion:

(1) The project is designated as Mixed Use (MU) in the General Plan, which allows for professional and medical offic uses. The project is consistent with the current General Plan Land Use Designation, and therefore is consistent with land use and planning policies in the General Plan.

(2) The project would not divide an established community. The surrounding area is developed with residential and office uses. The proposed rezone to facilitate the development of an office building is consistent with the surrounding uses and would not divide existing neighborhood.

(3) The project does not conflict with the land use plan, policies and regulations of the City of Modesto designed to mitigate project impacts.

(4) The project does not conflict with applicable habitat conservation plans or natural community conservation plans.

21. CLIMATE CHANGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to climate change expected after application of mitigations/policies:

Direct Impacts

Effect: Impacts resulting from implementation of the Urban Area General Plan are not substantial enough to result in a significant direct impact on climate change, as disclosed in the Master EIR.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on climate change.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following climate change mitigation measures pertinent to the proposed project are found on pages V-21-7 through V-21-10 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on climate change. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
21. CLIMATE CHANGE				
1) The proposed project is inconsistent with policies relating to climate change in the Urban Area General Plan.	☐	☐	☒	☐
2) The proposed project would result in average automobile trip lengths or CO_2 emissions higher than those assumed in the Master EIR.	☐	☐	☒	☐
3) The proposed project would conflict with the Sustainable Communities Strategy or Alternative Planning Strategy that the Air Resources Board has agreed will achieve the goals of AB 32.	☐	☐	☒	☐

Discussion:

(1) The City of Modesto General Plan Master EIR addressed potential climate change impacts due to development and other activities associated with the Urban Area General Plan (UAGP). The Urban Area General Plan Master EIR (MEIR) determined that buildout of the UAGP would make a cumulatively considerable contribution to global climate change. The UAGP nonetheless authorizes development that will contribute to global climate change by virtue of the production of greenhouse gases. The MEIR states the projected rate of growth of vehicle miles traveled (VMT) will increase the City's contribution to global climate change as the City develops. Development under the UAGP is expected to generate approximately 1,096,226.4

metric tons per year above 2005 emissions. The City Council adopted a Statement of Overriding Considerations in 2008, finding that the benefits of the UAGP outweighed the City's increased contribution to global climate change.

The MEIR identifies policies CL-3 through CL-26 as policies in effect that have been determined to reduce, avoid or mitigate air quality environmental impacts within the existing City limits and within the Planned Urbanizing Areas as they annex and develop. These policies include but are not limited to, the use of shade trees to reduce the heat island effect, current energy efficient building standards to reduce energy consumption, and the inclusion of facilities for alternative transportation. The proposed project is required to develop in accordance with climate change policies included in the UAGP and the MIER.

(2) Climate change is an inherently cumulative impact because no single project can produce enough greenhouse gases to substantially alter the global climate. No thresholds have been set for individual or cumulative greenhouse gases. Nonetheless, the proposed project would result in greenhouse gas emissions due primarily to automobile travel and energy use for lighting, heating, cooling and other activities. The primary source of CO_2 emissions generated from the project would be related to automobile trips. As identified under the traffic and circulation discussion, traffic engineering staff has determined that the project will be in substantial conformance with the GP MEIR assumptions for traffic generation, the CO_2 emissions generated from the project would also be in substantial conformance with that which was assumed under the GP MEIR analysis.

(3) A Sustainable Communities Strategy has not yet been implemented by the Air Resources Board. Future development will be required to comply with the provisions of the Sustainable Communities Strategy once it is established.

V. MITIGATION MEASURES APPLIED TO THE PROPOSED PROJECT

If the Initial Study results in the determination that a Finding of Conformance can be adopted for the proposed project Section A below applies. If the Initial Study results in the determination that a Finding of Conformance cannot be adopted and a Mitigated Negative Declaration/EIR must be prepared for the project then Section B, below applies.

A. Master EIR Mitigation Measures Applied to the Project

Pursuant to Public Resources Code Section 21157.1(c), in order for a Finding of Conformance to be made, all appropriate mitigation measures from the Master EIR shall be incorporated into the proposed project. Urban Area General Plan Policies/Master EIR mitigation measures shall be made part of the proposed project prior to approval by means of conditions of project approval or incorporation into the appropriate document or plan.

All applicable and appropriate mitigation measures have been applied to the project (see mitigation measures listed below).

B. New or Additional Mitigation Measures or Alternatives Required

Where the project's effects would exceed the significance criteria for each environmental impact category, a mitigated negative declaration or Focused EIR must be prepared. Staff has reviewed the project against the significance criteria thresholds established in the Master EIR for all impact categories in this Initial Study.

A Mitigated Negative Declaration or Focused EIR shall be prepared for the project. The following additional project-specific mitigation measures listed below are necessary to reduce the identified new significant effect:

Traffic and Circulation:

N/A

Degradation of Air Quality:

AQ-42: All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover.

AQ-43: All on-site unpaved roads and off-site unpaved access roads shall be effectively stabilized of dust emissions using water or chemical stabilizer/suppressant.

AQ-44: All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.

AQ-45: With the demolition of buildings up to six stories in height, all exterior surfaces of the building shall be wetted during demolition.

AQ-46: When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.

AQ-47: All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. (The use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)

AQ-48: Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.

AQ-49: Within urban areas, track out shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.

AQ-50: Any site with 150 or more vehicle trips per day shall prevent carryout and track out.

Generation of Noise:

N-1: The City has also established a noise ordinance to control noise within the City. The City's noise ordinance (Modesto Municipal Code Section 4-9.101) prohibits the "loud and raucous discharge into the open air of the steam of any steam equipment or exhaust from any stationary internal-combustion engine."

N-2: Additionally, the noise ordinance prohibits the loud and raucous operation or use of any of the following before 7:00 a.m. or after 9:00 p.m. daily (except Saturday and Sunday and state or federal holidays, when the prohibited time shall be before 9:00 a.m. and after 9:00 p.m.):

1. A hammer, or any other device or implement used to pound or strike an object.
2. An impact wrench, or other tool or equipment powered by compressed air.
3. A hand-powered saw.
4. Any tool or piece of equipment powered by an internal-combustion engine such as, but not limited to, chain saw, backpack blower, and lawn mower.
5. Any electrically powered (whether by alternating current electricity or by direct current electricity) tool or piece of equipment used for cutting, drilling, or shaping wood, plastic, metal, or other materials or objects, such as, but not limited to, a saw, drill, lathe, or router.
6. Any of the following: heavy equipment (such as but not limited to bulldozer, steam shovel, road grader, back hoe), ground drilling and boring equipment (such as but not limited to derrick or dredge), hydraulic crane and boom equipment, portable power generator or pump, pavement equipment (such as but not limited to pneumatic hammer, pavement breaker, tamper, compacting equipment), piledriving equipment, vibrating roller, sand blaster, gunite machine, trencher, concrete truck, and hot kettle pump.
7. Any construction, demolition, excavation, erection, alteration, or repair activity. In the case of urgent necessity and in the interest of public health and safety, the Chief Building Official may issue a permit for exemption from these. Such period shall not exceed three (3) working days in length while the emergency continues but may be renewed for successive periods of three (3) days or less while the emergency continues. The Chief Building Official may limit such permit as to time of use and/or permitted action, depending upon the nature of the emergency and the type of action requested.

N-3: The City of Modesto shall require construction activities to comply with the City's noise ordinance (Title 4, Chapter 9), and noise-reducing construction practices to be implemented as conditions of approval for development projects where substantial construction-related noise impacts would be likely to occur (e.g., where construction would include extended periods of pile driving, where construction would occur over an unusually long period, or where noise-sensitive uses like homes and schools would be in the immediate vicinity, etc.). The city should consider potential mitigation measures, including, but not limited to, the following: Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields. Equipment that is quieter than standard equipment should be utilized. Haul routes that affect the fewest number of people should be selected.

Effects on Agricultural Lands:

N/A

Increased Demand for Long-Term Water Supplies:

N/A

Increased Demand for Sanitary Sewer Services:

N/A

Loss of Sensitive Wildlife and Plant Habitat:

N/A

Disturbance of Archaeological/Historic Sites:

N/A

Increased Demand for Storm Drainage:

SD-9: Construction activities shall comply with the requirements of the City's Storm Water Management Plan under its municipal NPDES stormwater permit, and the State Water Resources Control Board's General Permit for Discharges of Storm Water Associated with Construction Activity.

Flooding and Water Quality:

FWQ-13: Construction activities shall comply with the requirements of the City's Storm Water Management Plan under its municipal NPDES Stormwater permit, and the State Water Resources Control Board's General Permit for Discharges of Storm Water Associated with Construction Activity.

Increased Demand for Parks and Open Space:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-525

PRINT

RESOLUTION ESTABLISHING A MAXIMUM NUMBER OF PERMITTED RETAIL CANNABIS DISPENSARIES IN THE CITY OF MODESTO

WHEREAS, the City Council has introduced a Commercial Cannabis Ordinance that would establish the City's regulatory framework for commercial cannabis uses, and

WHEREAS, under Section 10-3.704(b) of the Ordinance, the City Council may establish the total number of commercial cannabis permits issued by the City for each state license type, and

WHEREAS, under Section 10-3.704(g), the City Manager may design the application forms and procedures for commercial cannabis permits.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby establishes the following:

1) The total number of commercial cannabis permits issued by the City for retail cannabis dispensaries (state license Type 10 or 12) shall not exceed ten (10);
2) The City Council is not under any obligation to issue all ten (10) permits; and
3) The City Manager shall proceed with developing a Request for Proposals process for retail cannabis dispensaries seeking a permit to operate in the City, with input from the City Council Cannabis Ad Hoc Committee.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Zoslocki, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-526

RESOLUTION ADOPTING APPLICATION AND PERMIT FEES FOR COMMERCIAL CANNABIS PERMITS RELATED TO CANNABIS BUSINESSES

WHEREAS, the City Council has introduced a Commercial Cannabis Ordinance that would establish the regulatory framework for commercial cannabis businesses to operate within the City of Modesto, and

WHEREAS, the City will begin developing application and permit procedures, forms, and administration protocols for commercial cannabis permits in anticipation of the Ordinance becoming effective in early 2018, and

WHEREAS, staff time and City materials have been and will continue to be expended to establish the application process and procedures, and

WHEREAS, the City may collect fees to recover the costs related to these services, and

WHEREAS, a duly noticed City Council meeting was held by Council on December 12, 2017, at 5:30 p.m. in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which all interested persons were given the opportunity to be heard relative to the proposed fees for specific activities and services related to commercial cannabis permits.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the fee schedule related to fees for specific activities and services related to commercial cannabis permits, **attached** hereto as **Exhibit A.**

BE IT FURTHER RESOLVED that this resolution shall go into effect and be in full force and operation immediately, but shall be rescinded in the event the Commercial Cannabis Ordinance is not adopted by the City Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Zoslocki, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-527

RESOLUTION DIRECTING STAFF TO PREPARE A BALLOT MEASURE FOR VOTER APPROVAL THAT WOULD PROPOSE CHARTER AMENDMENTS SUFFICIENT TO (I) CHANGE THE DATE OF THE CITY'S REGULAR MUNICIPAL ELECTION TO THE STATEWIDE GENERAL ELECTION PRIOR TO NOVEMBER 8, 2022, AND (II) PROVIDE A ONE-TIME EXTENSION OF EXISTING FOUR-YEAR COUNCIL TERMS TO FIVE YEARS

WHEREAS, Article III, Section 300 of the Charter of the City of Modesto establishes that the regular municipal election for the election of officers shall be held on the first Tuesday after the first Monday in November of each odd-numbered year, and

WHEREAS, the City's Charter also provides that the Office of Mayor and all members of Council shall hold office for a term of four years (Art. VI, § 600; Art. VII, § 700.), and

WHEREAS, in 2015, the California Legislature adopted and the Governor signed Senate Bill 415, the California Voter Participation Rights Act ("CVPRA"), and

WHEREAS, the CVPRA prohibits a city from holding a regular election other than on a statewide election date, if holding an election on an odd-numbered year has previously resulted in voter turnout being at least twenty-five (25%) less than the average voter turnout for the previous four statewide general elections, and

WHEREAS, the voter turnout in the City's regular municipal elections have been at least twenty-five (25%) less than the average voter turnout in the last four statewide general elections, and

WHEREAS, SB 415 requires cities who have had a voter turnout at least twenty-five (25%) less than the average turnout over the last four statewide general elections to

adopt a plan to consolidate future elections with statewide elections that begins with an election not later than November 8, 2022, and

WHEREAS, the Council desires to comply with state law by proposing a ballot measure that would amend the City's Charter sufficiently to be consistent with SB 415.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby directs the staff to prepare a proposed ballot measure that would amend the City Charter to change the regular municipal election dates for election of officers to occur during the statewide general elections in even years and provide a one-year extension of existing four-year terms of elected officers to five years, as follows:

Council Term Begins	**Number of Seats**	**Currently Scheduled Next City Election**	**Proposed New City Election Date**	**Term Change**
2015	**Four** (Mayor and Districts 1, 3 and 6)	November 2019	November 2020	+ 1 year to 2020
2017	**Three** (Districts 2, 4 and 5)	November 2021	November 2022	+ 1 year to 2022

BE IT FURTHER RESOLVED that staff shall prepare the necessary ballot measure for the Council's review and consideration to place said measure on the ballot for the statewide general election in November 2018.

BE IT FURTHER RESOLVED that this Resolution constitutes the City's plan to consolidate all future elections with a statewide election as set forth in subdivision (b) of Elections Code section 14052.

BE IT FURTHER RESOLVED that, should SB 415 be deemed inapplicable to charter cities, as so legally adjudged by a court of competent jurisdiction or as so decreed

by any legislative action, the Council reserves its right to reconsider the scope, force, and effect of this Resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-528

PRINT

RESOLUTION APPROVING AN AGREEMENT FOR FORMS PRINTING AND MAILING SERVICES FOR CITY BILLINGS WITH INFOSEND, INC., ANAHEIM, CA. FOR AN ANNUAL COST NOT TO EXCEED $118,456, FOR TWO YEARS, WITH THREE ONE-YEAR EXTENSION OPTIONS FOR A MAXIMUM TOTAL OF $621,475 FOR FIVE YEARS; THE OPTIONAL PRINTING OF ENVELOPES AND MISCELLANEOUS SERVICES FOR AN ANNUAL COST NOT TO EXCEED $52,050; AND AN ESTIMATED ANNUAL COST FOR POSTAGE OF $432,070 FOR A MAXIMUM TOTAL OF $2,203,992 FOR FIVE YEARS; FOR A GRAND TOTAL OF ALL COMPONENTS OVER FIVE YEARS OF $3,085,717 AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the Finance Department, Customer Services and Accounts Receivables Divisions and Information Technology Department manage and facilitate the creation, printing and mailing of the City's bills and miscellaneous customer forms, and

WHEREAS, these forms are created, printed and mailed to both residential and commercial customers, and include, but are not limited to, business license, declarations, notices and utility bills, and

WHEREAS, the City currently outsources the printing, designing and mailing of these forms to an outside vendor providing benefits to the City such as enhanced customer service, utilizing vendors with specialized technology, flexibility in bill print design and messaging, ability to adapt forms to business needs on an ad hoc basis, specialized reporting options, mail tracking and time stamping of bill delivery, and special filtering and sorting capabilities, and

WHEREAS, the majority of these services are utilized for the creation of the City's utility bills with both Finance and IT staff spending a significant amount of resources managing one million plus utility billing statements annually in an ever changing technical environment, and

WHEREAS, the City's strategic commitments include continuous improvement in technology advancements to aid in improving efficiency and service delivery, and

WHEREAS, the Interim City Manager authorized the Purchasing Manager to issue a formal Request for Proposal (RFP) for the Forms Printing and Mailing Services for a two (2) year agreement with three (3) one-year extension options, at the sole discretion of the City, and

WHEREAS, the Purchasing Division issued RFP 1516-36 Forms Printing and Mailing Services under commodity codes for mailing services, processing systems services data, printing and typesetting services, forms printing, and offset printing with prospective proposers noticed online of the proposal opportunity with twenty-two companies downloading the RFP document, and

WHEREAS, proposals were opened in the City Clerk's office with three companies choosing to respond, one of which was a local company, and all three companies providing responsive and responsible proposals, and

WHEREAS, an evaluation committee comprised of five City staff members evaluated the proposals and Councilmember Kenoyer was chosen by the Mayor to observe the RFP process, and

WHEREAS, based on being ranked highest in total evaluation criteria, with Infosend, Inc. having the highest ranking, the evaluation committee recommends the award of proposal for the furnishing of forms printing and mailing services to InfoSend, Inc., and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases which meet or exceed $50,000 for material, equipment or contractual services

to be formally bid with the award of the proposal for the furnishing of forms printing and mailing services to Infosend, Inc. conforms to the purchasing requirements of Modesto Municipal Code Section 8-3.203, and

WHEREAS, the annual cost for forms printing and mailing services is $118,456 for a five year estimated cost of $621,475 which includes a 4% CPI increase for years three through five and an annual estimated postage cost of $432,070 for a five year cost of $2,203,992 which includes a 1% per year postage rate increase and optional annual printing costs for envelopes and miscellaneous services of $52,050 over five years of $260,250 **(Exhibit D)** and a five year total cost not to exceed $3,085,717 , and

WHEREAS, a one month postage deposit is placed with the vendor to cover initial costs prior to the first mailing as all postage charges are paid as a reimbursement to the vendor, and

WHEREAS, estimated costs for forms printing and mailing services for the remainder of Fiscal Year 2017-18 are $69,098 with sufficient funds budgeted in General Fund, Water, Wastewater and Storm Drain Funds, and

WHEREAS, estimated costs for reimbursed postage for the remainder of Fiscal Year 2017-18 are $285,291 with sufficient funds budgeted in General Fund, Water, Wastewater and Storm Drain Funds.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the award of an agreement for forms printing and mailing services with InfoSend, Inc., Anaheim, CA. for an annual cost not to exceed $118,456, for two years, with three one-year extension options for a maximum total of $62,475 for five years; the optional printing of envelopes and miscellaneous services for an annual

cost not to exceed $52,050; and an estimated annual cost for postage of $432,070 for a maximum total of $2,203,992 for five years for a grand total of all components over five (5) years of $3,085,717.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the contract in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

Professional Services Fees

Please pick from one of the options below:

Option 1 - Express PDF Implementation: $WAIVED
With this option you control the formatting of your documents and do not pay maintenance fees.

Option 2 - Data-Only (e.g. flat files, XML) Implementation: $WAIVED
When this option is selected InfoSend creates, hosts and maintains an application to generate your bills. Your current document design will be matched. Please note that data manipulations are not part of the standard offering.

Document Redesign Service: $WAIVED We will assist you in redesigning the format of your printed documents if needed. We will become responsible for later changing the format of the documents, if needed (Professional Services Fees will apply for future changes.

Please note that Clients must sign off on requirements documents (Statement of Work, project plan, etc.) before programming and system configuration can begin. Client can be charged additional fees and/or have the project go-live date delayed if requirements are changed after they have been finalized and signed off.

Professional Services Fee Per hour and performed only upon request. For customizations made to your data processing application after go-live. Work is only started after receiving your approval of a formal quote.	**Per Hour**	$150.00

InfoSend's Fees – Turnkey Data Processing, Print & Mail Service:

The individual prices shown in the table below apply only to the turnkey Data Processing Print & Mail service for the following document types. Other types of document printing and or mailing can be quoted later, if needed

		Per Item	Options Below:
Primary Services	**Turnkey Data Processing Print & Mail service** Price is per physical page. Includes processing of your unique data, CASS address validation, presorting, printing, and mail insertion. Same business day mailing provided when we receive from the City an electronic data print file in flat format each workday morning by 6:00AM. InfoSend will post a sample approval file for the City to review by 8:00AM. The City must provide approval of the sample file by 10:00 AM for same day production. Finished mail pieces are delivered to the USPS within one (1) business day. File upload deadline for next-day mailing is 3:00PM local time at the production facility designated for your account. If samples are required then they must be approved by 5:30PM for the file to be mailed by the next business day. Excludes materials, sales tax (where applicable), and postage. A postage deposit will be required prior to go live. For the quoted prices to apply InfoSend must have the right to combine data files sent by your organization with other files you have sent, when possible. Higher pricing applies if files must be printed separately. *Pricing assumes the use of materials options listed in the below section.*	**All Documents excluding AR Statements/Notices and Parking Citations**(Per Sheet) Weekly and Quarterly Batches Price includes up to 4 colors (full color) printed on the front of the page and 1 color printed on the back of the page onto a white form with or without a perforation (See forms section on next page)	$0.0523
		AR Statements/Notices and Parking Citations (Per Sheet) Est. 4 Batches/month Price includes up to 4 colors (full color) printed on the front of the page and 1 color printed on the back of the page onto a white form with or without a perforation (See forms section on next page)	$0.0823
		Inline Inserts (Per Sheet) Price for inserts printed on demand as additional pages	TBD
		Multiple Page Mail Piece Surcharge – Handwork This surcharge is assessed per mail piece (not per page). This surcharge only applies to multiple page bills that have too many pages to be inserted into the #10 envelope by machine. This surcharge covers the necessary manual labor required to process these mail pieces.	$0.25
		Postage (for all job types) You will be invoiced for the exact postage used. You must use one of the two USPS approved Move Update methods to get the presort discounts:	Pass Through
		Electronic Address Updates – NCOALink or ACS Per reported update. InfoSend electronically reports the addresses it received in your data that need to be updated because the customer filed a Change of Address Report with the USPS. Cost is per update.	$0.35

Material Component Fees – Data Processing Print & Mail Service

Materials

Statement, Invoice, or Letter Paper Stock

All Documents: white paper stock with or without perforation. Paper is 8.5x11" and 24lb. Price includes all inventory costs. The larger 8.5x14" format is supported at a higher material cost and higher printing cost. All of your content will be digitally printed on the plain white paper in black, black plus one color, or full color per the printing option from the prior table that you select before implementation. Black printing onto custom pre-printed forms is available but not recommended. Dynamically printing content onto white paper gives you more flexibility. Additionally if you utilize plain white paper and standard InfoSend envelopes then all materials will be readily available to print at any one of InfoSend's three production facilities should there be a disaster at one of the facilities. Standard materials keep costs down and ensure proper disaster recovery.	Per Sheet	$0.014

InfoSend Standard Window Envelopes

Standard Window Envelopes These envelopes include security tint printed on the inside of the paper stock and clear film that prevent the contents of the envelope from being viewed. These envelopes also use sustainably logged paper (SFI).	**Per Standard Envelope**	**Options Below:**
	#10 InfoSend Standard Double Window Outgoing Envelope	$0.0152
	#9 InfoSend Standard Single Window Return Envelope	$0.0135

Other Envelopes

Flat Single Window Envelope – only used for multiple page statements that do not fit in the #10 envelope.	Per Flat Envelope	$0.16

InfoSend's Fees – Turnkey Data Processing, Print & Mail Service:

The individual prices shown in the table below apply only to the turnkey Data Processing Print & Mail service for the following document types. Other types of document printing and or mailing can be quoted later, if needed.

		Per Item	Options Below:
Primary Services - Postcards	**Turnkey Data Processing Print & Mail service** Price is per physical postcard. Includes processing of your unique data, CASS address validation, presorting, printing, and mail insertion. Finished mail pieces are delivered to the USPS **within two (2) business days.** If samples (proofs) are requested then the mailing will be completed within one day of sample approval. Excludes materials, sales tax (where applicable), and postage. A postage deposit will be required prior to go live. For the quoted prices to apply InfoSend must have the right to combine data files sent by your organization with other files you have sent, when possible. Higher pricing applies if files must be printed separately. *Pricing requires the use of materials options listed in this table.*	**Postcards** Est. Volume 69,000 documents/month Est. 1 Batch/annual Price includes duplex printing of variable data and static elements on the front and back of the postcard stock. The paper stock price is listed separately below. Small Postcards: 4.25 x 5.5" (Per Postcard) 4/4 Full color on both sides	$0.05
		Postcard Paper Stock InfoSend standard white postcard stock. Exact thickness is subject to change based on compatibility with potential new equipment. Approximate range is 9-10 point.	$0.015 per card
		Optional UV Coating We can UV coat one side of the postcard to protect it during USPS mail processing.	$0.02 per card
		Postage (for all job types) You will be invoiced for the exact postage used. You must use one of the two USPS approved Move Update methods to get the presort discounts:	Pass Through
		Electronic Address Updates – NCOALink or ACS Per reported update. InfoSend electronically reports the addresses it received in your data that need to be updated because the customer filed a Change of Address Report with the USPS. Cost is per update.	$0.35

Optional Services

Drop-Shipped Inserts & Inserting of InfoSend-Printed Inserts Clients can print and fold inserts and ship them to InfoSend to be mailed with the statements. If folding is required add $0.01 to the fee. InfoSend-printed inserts are quoted upon request. No additional service cost to use selective inserting to selectively include inserts with certain bill types as long as at least 3,000 customers are targeted (set-up costs can apply in some situations for advanced selective inserting criteria). Cost includes all inventory costs.	Per Insert	$0.01
Enhanced Transactional Image Quality The baseline print image quality for transactional documents such as statements and invoices is 600 x 600 DPI. Work produced from the Anaheim facility can be printed at an enhanced image quality at an additional cost. This option uses high definition pigment ink & variable drop sizes to achieve a perceived 1200 x 1200 DPI image quality.	Per Sheet	$0.01
Print Messages on the Outside of the Standard Envelope Custom messages and images can be printed onto the standard InfoSend #10 double window envelope. This type of printing is referred to as "sniping" and usually used to print temporary content on a month or two worth of envelope stock. It is more cost effective to digitally inkjet print this content onto pre-manufactured envelopes than to order truly custom stock that was manufactured specifically for you. Price depends on the artwork you'd like to print – number of colors and whether it prints on one or both sides of the envelope. Price is quoted upon request.	Per Envelope	TBD
Print Image Archive Each bill is stored as a PDF and indexed in a database. Search by account number or other key fields. You are charged one up-front fee per document to process it, index it, and store it for a set number of months. The PDFs are accessed using a browser-based application that is accessed by logging in to the InfoSend website. Third party applications can also access the PDFs via a lightweight API with no cost increase to the unit fees. Setup fees may apply depending on your configuration needs. ***This service includes outbound mail tracking at no additional cost.*** You can view USPS-provided mail tracking data from the same interface that you use to view PDFs of the printed bills. *Only available with mail sent using 1st Class Postage, and not available in some cases with postcard mailings.*	Per PDF (No Set-up Fee)	$0.01 - For 12 Months of Retention $0.017 - For 18 Months of Retention $0.022 - For 24 Months of Retention $0.027 - For 36 Months of Retention
Electronic Inserts PDF copies of your physical inserts can be included in the Print Image Archive at an additional cost. This will let your team see exactly which inserts were delivered with each mail piece. This will also allow you to include the inserts in the eBill PDFs that are presented and/or emailed to customers if you use an InfoSend eBusiness service that delivers eBills to your customers or if you use a third party application that pulls the PDFs from InfoSend's Print Image Archive API to present to your customers.	Per Insert (No Set-up Fee)	$0.005
FinalDoc CD This CD archiving service is a simple and cost effective way for you to retain document images long-term. You can search by account number or name. The documents are stored on the CD in PDF format. FinalDoc CD is used by your staff to look up individual documents.	Per CD	$95.00 + Shipping & Handling

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-529

PRINT

RESOLUTION APPROVING AN AMENDMENT INCREASING THE CONTRACT AMOUNT WITH ARAMARK UNIFORM SERVICES, MODESTO, CA, FOR THE FURNISHING OF UNIFORM AND LAUNDRY SERVICES BY $350,000 TO REFLECT OVERSPENDING, PLUS AN ADDITIONAL $100,000 (TO COVER EXPENSES THROUGH JANUARY, 2018); AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE AN AMENDMENT TO THE AGREEMENT

WHEREAS, Article 22 of the Memorandum of Understanding (MOU) with the Modesto City Employees Association (MCEA) requires the City to provide uniform and laundry services for Non-Sworn City employees, and

WHEREAS, in addition to the above article, the City is required to provide coveralls, pants, and rain gear for employees, dependent upon classification, and

WHEREAS, on August 14, 2012 by Resolution 2012-321, Council approved an agreement with Aramark Uniform Services, Modesto, CA for the furnishing of uniform and laundry services for a 2 year agreement with 3 one-year extension options at the sole discretion of the City for an estimated annual cost of $100,000 and a total cost of $500,000 for the five year term of the agreement, and

WHEREAS, the contract with Aramark Uniform Services expired on August 7, 2017 and was increased without Council approval from the agreement amount of $500,000 to $800,000 by the Purchasing Division on in December 2015, and

WHEREAS, once the $800,000 limit was reached an additional $50,000 expenditure was authorized to ensure that the uniform and laundry services continued as required by Article 22 of the MOU with MCEA, and

WHEREAS, due to the urgency of the need for these services to continue, the City is requesting we increase this agreement an additional $100,000 to all the Purchasing

Division to issue a new RFP and to establish a recommendation to Council no later than January of 2018.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an amendment increasing the contract amount with Aramark Uniform Services, Modesto, CA, for the furnishing of uniform and laundry services by $450,000 from $500,000 to $950,000, and extending the term of the agreement from August 7, 2017, to January 31, 2018.

BE IT FURTHER RESOLVED, that the Interim City Manager, or his designee, is authorized to execute an amendment to this agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-530

PRINT

RESOLUTION APPROVING AN ANNUAL RETAIL ADVERTISING CONTRACT WITH THE MODESTO BEE IN THE AMOUNT OF $100,000 (MCCLATCHY NEWSPAPER GROUP); AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE CONTRACT

WHEREAS, the City of Modesto is currently using the Modesto Bee (McClatchy Newspaper Group) as its primary advertising source for its advertising requirements, and

WHEREAS, the advertising services are required for classified and legal advertisements as required by law, and for retail advertisements for public information purposes, and

WHEREAS, the City's Purchasing Manager will review the retail rate pricing annually with the Modesto Bee and based on advertising volume commitments over the prior year identifies retail contract options which would best meet the City's retail advertising needs, and

WHEREAS, the current retail contract has expired, and

WHEREAS, the City's Division met with the Modesto Bee to discuss what contract renewal options would be available to the City, and

WHEREAS, the Modesto Bee has agreed to renew the retail advertising contract for another year, and

WHEREAS, the "non-profit no-commitment" will be at a contract rate of $31.00 per column inch (pci) and additional color charges, if needed through October 31, 2018 , and

WHEREAS, the $31.00 per column inch rate will continue through October 31, 2018 and multiple insertions of the same ad within a seven-day period will result in

additional discounts to the $31.00 pci rate; Any digital targeted audience rate will range from $10.00 to $15.00 cost per mile (cpm), and

WHEREAS, per MMC Section 8-3.204(b) All Purchases in excess of fifty thousand dollars ($50,000), or when directed by the City Manager for any purchase of fifty thousand dollars or less, shall follow formal bid procedures, except for the following, which shall be exempt from the bid requirement: Where the Purchasing Agency's requirements can be met solely by a single article or process"

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an annual retail advertising contract with the Modesto Bee (McClatchy Newspaper Group), consisting of one contract for a retail "no-commitment" non-profit rate of $31.00 per column inch, and

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the contract, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Ridenour, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-531

RESOLUTION APPROVING AN AMENDMENT TO THE CONTRACT WITH JOCELYN E. ROLAND, PH.D.,ABPP, TO PROVIDE COUNSELING/THERAPY FOR THE MODESTO POLICE DEPARTMENT, FOR AN ANNUAL COST NOT TO EXCEED $58,000, AND PRE-EMPLOYMENT PSYCHOLOGICAL SCREENINGS FOR ALL REGULAR AND RESERVE PEACE OFFICER APPLICANTS, AS WELL AS ANIMAL CONTROL OFFICER APPLICANTS, AT A RATE OF $450 PER SCREENING, FOR AN ANNUAL COST NOT TO EXCEED $24,750 FROM JULY, 2016 TO PRESENT, FOR A TOTAL EIGHT YEAR CONTRACT AMOUNT NOT TO EXCEED $662,000, AND AUTHORIZING THE INTERIM CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE CONTRACT

WHEREAS, the City of Modesto entered into a contract with Dr. Jocelyn E. Roland, Ph.D., ABPP, by Resolution No. 2015-178 for counseling/therapy services for the Modesto Police Department for an annual cost of $58,000, and pre-employment psychological screenings for all regular and reserve Peace Officer applicants, as well as Animal Control Officer applicants, at a rate of $425 per screening, for an annual cost of $10,000, for a total contract amount not to exceed $544,000 over an eight year period, and

WHEREAS, the contract allows for a price escalation to be negotiated on or about January 15th of each year, allowing Dr. Roland to increase her counseling/therapy services should the number of covered employees increase or decrease by ten and the cost of performing pre-employment screening increases, and

WHEREAS, this contract will expire on June 30, 2023, and

WHEREAS, since 2014, the City has continued to see an increased need for pre-employment psychological screenings related to the recruitment process in order to find viable sworn Peace Officer and Animal Control Officer candidates, and

WHEREAS, this demand significantly exceeded staff estimates in 2015 when the original contract was approved and has resulted in the need to increase the amount of the annual contract with Dr. Jocelyn E. Roland, Ph.D., ABPP, and

WHEREAS, in July, 2016, Dr. Roland reviewed the cost of performing the pre-employment screenings and increased the cost per screening to $450, however the total annual contract amount for these screenings did not increase from $10,000,and

WHEREAS, the Modesto Police Department requested 46 candidate screenings in fiscal year 2015-2016, which resulted in a $19,550 annual cost, $9,550 over the Council approved amount in the accounting system, and 44 candidates in fiscal year 2016-2017, which resulted in a $19,800 annual cost, $9,800 over the Council approved amount in the accounting system, and

WHEREAS, staff anticipates requesting no more than 55 pre-employment psychological screenings annually in order to continue the recruitment process to fill the growing vacancies in the Police Department, resulting in an annual amount not to exceed $24,750, or $198,000 for the eight year contract term and

WHEREAS, staff is seeking Council authority to retroactively increase the funds available for pre-employment psychological screenings only under the contract with the Dr. Jocelyn E. Roland, Ph.D., by $118,000 to $198,000 from $80,000.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the contract amendment with Dr. Jocelyn E. Roland, Ph.D., ABPP, for a term of 8 years ending June 30, 2023, increasing only the pre-employment psychological screenings to $450 per screening from July, 2016 to present, for $24,750 annually, for an amount not to exceed $198,000, over 8 years, and retaining the current

counseling/therapy services cost of $58,000 annually, for an amount not to exceed $464,000 over eight years, for a total eight year contract amount not to exceed $662,000.

BE IT FURTHER RESOLVED that the Interim City Manager, or his designee, is hereby authorized to execute the Amendment in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 12th day of December, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:
