MODESTO CITY COUNCIL
RESOLUTION NO. 2017-02

Print

RESOLUTION APPROVING THE CITY OF MODESTO SPONSORSHIP OF THE 2017 CINCO DE MAYO PARADE, INCLUDING THE WAIVER OF CITY PERMIT FEES, POLICE OVERTIME COSTS, AND VEHICLE FEE EXPENSES INCURRED BY THE CITY OF MODESTO POLICE DEPARTMENT, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE ANY DOCUMENTS NECESSARY RELATED TO THE SPONSORSHIP

WHEREAS, the annual Cinco de Mayo Parade on Crows Landing Road is a tradition for families living in the Crows Landing Road area as well as all residents of Modesto and Stanislaus County, and

WHEREAS, the Parade first started in 2003 through the efforts of local non-profit groups with approximately 20 entries and 3,000 spectators, and

WHEREAS, in 2010, the non-profit organization, South Modesto Businesses United, began managing the Cinco de Mayo Parade, expanding it to over 60 entries and 12,000+ spectators, and

WHEREAS, this event brings the community together to celebrate the history and culture of Mexico and also has a growing economic benefit to businesses located on Crows Landing Road, and

WHEREAS, there are additional economic benefits for all the businesses that provide goods and services for the parade itself; and

WHEREAS, staff is requesting City Council approval to sponsor the 2017 Cinco de Mayo Parade, and

WHEREAS, the sponsorship will include the waiver of City permit fees, Police Department overtime costs, and vehicle fee expenses to provide public safety coverage for this event, and

WHEREAS, Police Explorers and Police Volunteers will also be used, at no cost, to provide the necessary staffing needed for this event, and

WHEREAS, the total expense to the City of Modesto to sponsor the 2017 Cinco de Mayo Parade is approximately $7,792.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the City of Modesto sponsorship for the 2017 Cinco de Mayo Parade including the waiver of City permit fees, overtime costs, and vehicle fee expenses incurred by the City of Modesto Police Department, for a total cost of approximately $7,792.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the necessary documents related to the sponsorship.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of January, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING A WILL SERVE LETTER AND OUTSIDE SERVICE AGREEMENT BETWEEN THE CITY OF MODESTO AND CARUSO SHOPPING CENTER TO CONNECT TO THE CITY OF MODESTO'S EXISTING SEWER SYSTEM FOR THE PROPERTY LOCATED AT 311 W. HATCH ROAD (APN: 038-026-050), AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO SIGN THE WILL SERVE LETTER AND EXECUTE THE AGREEMENT

WHEREAS, Caruso Shopping Center owns commercial property located at 311W. Hatch Road which is located outside of Modesto City Limits and inside the City's Sphere of Influence, and

WHEREAS, the property located at 311 W. Hatch Road, is not connected to the City's sewer system and is requesting a sewer connection due to a failing septic system, and

WHEREAS, on November 25, 2014, City Council approved Resolution No. 2014-473 amending City Council Policy 5.002, and

WHEREAS, on December 9, 2014, City Council approved adoption of Ordinance No. 3612-C.S. amending City of Modesto Municipal Code Section 11-1.05, and

WHEREAS both of these amendments included language allowing the City Manager, upon the recommendation of the Director responsible for utility system planning to approve standard agreements of service for extension of sewer services into certain unincorporated areas without City Council approval, and

WHEREAS, the property located at 311 W. Hatch Road is not located within one of those designated areas and therefore requires City Council approval prior to allowing the sewer connection, and

WHEREAS, City staff has completed an analysis and determined that it is reasonable for the City of Modesto to provide sewer service to this property, and

WHEREAS, consistent with adopted LAFCO Policy 15, the extension of sewer service is proposed to remedy a health and safety concern in an area with failing septic system, and

WHEREAS, the sewer connection fees shall be paid and associated permits will be obtained prior to connecting to the City sewer system, and

WHEREAS, the property owner has executed an Outside Service Agreement for sewer service with the City, as required, to receive sewer service outside the City limits,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Will Serve Letter and Outside Service Agreement for sewer service for the property located at 311 W. Hatch Road (APN: 038-026-050) in Modesto.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to approve the Will Serve letter and execute the Outside Service Agreement for sewer service.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of January, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION ACCEPTING THE SUBMITTAL REQUIREMENTS FOR THE PROCESSING OF LANDMARK PRESERVATION PROJECT APPLICATIONS

WHEREAS, the Landmark Preservation Commission responsibilities have been transferred to the Community and Economic Development Department, effective July 1, 2016, and

WHEREAS, the Community and Economic Development Department established a Process Improvement program for development processes which identified the need for increased clarity and specificity in submittal requirements for development approvals, and

WHEREAS, on February 27, 2007, the City Council, by Resolution No. 2007-154, formally established submittal requirements for several types of zoning and development applications, and

WHEREAS, submittal requirements for Landmark Preservation-related applications serve to ensure that important information is collected prior to processing the entitlement; to facilitate processing of the entitlement; and, to ensure a predictable and equitable approach to processing entitlements, and

WHEREAS, at its regular meeting of October 17, 2016, the Landmark Preservation Commission discussed proposed submittal requirements for applications to designate a local landmark, to remove a property from the Eligible Historic Properties list, and to alter, renovate, or demolish a landmark or building eligible for landmark status, and

WHEREAS, at its meeting of November 28, 2016, the Landmark Preservation Commission approved a resolution recommending City Council adopt the submittal requirements for Landmark Preservation-related applications, and

WHEREAS, said matter was set for a public hearing of the City Council to be held on January 10, 2017, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which date and time said duly noticed public hearing of the Council was held for the purpose of receiving public comment on the proposed application submittal requirements, and

WHEREAS, after said public hearing the Council found and determined that adoption of application submittal requirements is consistent with public necessity, convenience and general welfare.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby finds and determines that the proposed application submittal requirements as described in **Exhibit "A", attached** hereto and incorporated herein by reference, are required for the public health, safety, and welfare of the citizens of Modesto.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that it hereby adopts the proposed application submittal requirements as described in **Exhibit "A", attached** hereto and incorporated herein by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of January, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

Landmark Designation Application Submittal Requirements

GENERAL REQUIREMENTS:

☐ 1. The first two pages of the Uniform Application must be typed or printed and filled in completely. Please recycle the remaining sheets.

If the applicant is not the property owner, the property owner shall designate the applicant as the authorized agent to act on his or her behalf and both shall sign this application.

☐ 2. Three (3) copies of a narrative describing the character defining features of the building or object, including architectural style, interior spaces, secondary buildings, and mature landscaping, as appropriate.

☐ 3. Three (3) copies of any photos or similar documentation, including information from the City's historic resources survey and Modesto's Historic Resources Database. Photos should be recent and show all sides of the resource and include close-up photos of distinguishing characteristics.

☐ 4. Three (3) copies of a completed DPR 523a and/or DPR 523b, as applicable, prepared by a person who meets the Secretary of the Interior's Professional Qualification Standards (see http://www.modestogov.com/1152/Landmark-Preservation-Commission for detailed information).

☐ 5. Photographs of the site and surrounding properties to illustrate context.

☐ 6. Construction history and building condition, building plans, if available, any alterations to the building, and whether it is located on its original site and date moved, if applicable. This section will include potential threats to the property, including vandalism, zoning, or other factors that could damage the property.

☐ 7. Historic significance of the property, including any information to support a finding of significance under the criteria described in the Landmark Preservation Ordinance (Title 9, Chapter 10, of the Modesto Municipal Code), including sources (books, documents, personal interviews).

☐ 8. All applicable filing fees (see adopted fee schedule).

FOR YOUR INFORMATION: Staff may deem additional information necessary to adequately review the application, complete environmental review for the project, or make recommendations to the Landmark Preservation Commission. Completion of the application does not presume approval nor staff support of the application. Such approval is discretionary with the Director, Planning Commission, and/or City Council. The Director, Planning Commission, or City Council may deny, modify, or conditionally approve the application.

About Landmarks and Historic Properties

Is my property a landmark?
For a property to be considered a landmark, it must be listed on Modesto's List of Historic Resources or be included in Modesto's Historic Resources Inventory and determined to meet the designation criteria for historic landmarks by the Landmark Preservation Commission. These properties are determined to be Eligible Historical Resources. Any area and neighborhood surveyed in accordance with the standards established by the California Office of Historic Preservation and determined to meet the designation criteria for historic district by the Landmark Preservation Commission is determined to be an Eligible Historic District. To find out if your property is on the list, please contact the Planning Division.

Can I have my property designated a landmark?
Any property or structure that meets the criteria in the Landmark Preservation Ordinance (Title 9, Chapter 10, of the Modesto Municipal Code) can be designated a Modesto Landmark. The City has already conducted a Historic Resources Inventory and many of those properties are on the City's List of Eligible Historic Resources. Some research on many of these properties has already been conducted. If a property is not on the City's List of Eligible Historic Resources, it may still be designated if it meets the designation criteria, once the property is surveyed.

Can I have my neighborhood designated?
Any neighborhood that meets the criteria in the Landmark Preservation Ordinance (Title 9, Chapter 10, of the Modesto Municipal Code) can be designated a Modesto Historic District Properties that contribute to the significance of the neighborhood are considered contributing structures and are treated just like a landmark. Newer structures and those that do not contribute to the significance of the neighborhood are considered non-contributing structures. These properties have more flexibility with alterations, but are not eligible for preservation incentives. In order for a neighborhood to be designated, a majority of the properties in the proposed district must be contributing structures.

What is the designation process?
Complete and submit an application with the material identified in the submittal requirements to the Planning Division for review. The Planning Division will research the property with assistance of the McHenry Museum and County Library, to determine the historic significance of the property. A staff report will be prepared and presented to the Landmark Preservation Commission. The Landmark Preservation Commission will hold a public hearing to consider the application and staff report and make a recommendation to City Council. The City Council will then hold a public hearing and decide whether to designate the property a Modesto Landmark.

Modesto's Municipal Code (Title 9, Chapter 10) includes these definitions of historic significance:

(a) Significance: The quality of the information, example, interest or meaning represented by the site for understanding and appreciating the past, development or culture.

(b) Historic Significance: Associated with activities, processes, events, trends or persons of importance to the community, state or nation.

(c) Architectural Significance: Possessing distinctive characteristics of a style, place, period, method or materials of construction, builder or architect.

(d) Cultural Significance: A significant setting of manmade or natural features (including significant trees or other plant life located thereon), or a combination, possessing meaning primarily by long association or identification with the community and/or its citizens.

(e) Archaeological Significance: A setting possessing the potential to reveal information important to historic or prehistoric studies.

(f) Engineering Significance: A work demonstrating a technology, design or method characteristic of a historic period or activity.

(g) Modesto Landmark Preservation Site: An area, district, building, structure or object, which has been designated for preservation for reasons of its significance by the City Council.

Removal from Eligible Historic Properties List Application Submittal Requirements

GENERAL REQUIREMENTS:

☐ 1. The first two page of the Uniform Application must be typed or printed and filled in completely. Please recycle the remaining sheets.

If the applicant is not the property owner, the property owner shall designate the applicant as the authorized agent to act on his or her behalf and both shall sign this application.

☐ 2. Three (3) copies of any photos or similar documentation, including information from the City's historic resources survey and Modesto's Historic Resources Database. Photos should be recent and show all sides of the resource and include close-up photos of distinguishing characteristics.

☐ 3. Construction history and building condition, building plans, if available, any alterations to the building made since the most recent historic resources survey was conducted, and whether it is located on its original site and date moved, if applicable. This section will include potential threats to the property, including vandalism, zoning, or other factors that could or have damaged the property.

☐ 4. Historic significance of the property, including any information indicating how the building does NOT meet the criteria for designation described in the Landmark Preservation Ordinance (Title 9, Chapter 10, of the Modesto Municipal Code), including sources (books, documents, personal interviews).

☐ 5. All applicable filing fees (see adopted fee schedule).

FOR YOUR INFORMATION: Staff may deem additional information necessary to adequately review the application, complete environmental review for the project, or make recommendations to the Landmark Preservation Commission. Completion of the application does not presume approval nor staff support of the application. Such approval is discretionary with the Director, Planning Commission, and/or City Council. The Director, Planning Commission, or City Council may deny, modify, or conditionally approve the application.

About Removal from the Eligible Historic Properties List

The City Council, following the recommendation of the Landmark Preservation Commission, has declared almost 60 properties as Modesto Landmarks and hundreds of sites as eligible properties on the Historic Resources Database. Unfortunately, many of the properties surveyed in the 1990s have lost their integrity.

The Landmark Preservation Commission intends to reevaluate the properties on the Historic Resources Database, but this may take many years.

In order to streamline the process of evaluating and removing properties from the Historic Resources Database, property owners may request that their properties be removed from the list of eligible properties on the Historic Resources Database. If it is determined that your property no longer meets the designation criteria of the Landmark Preservation Ordinance (Title 9, Chapter 10 of the Modesto Municipal Code), the Landmark Preservation Commission will consider whether to remove it from the list. City Council will consider the recommendation of the Landmark Preservation Commission and make a determination.

Complete and submit an application with the material identified in the submittal requirements to the Planning Division. The Landmark Preservation Commission will hold a public hearing to consider the request.

Please note that any evaluation will be good for five (5) years. A property will only be evaluated if the most recent survey is over five (5) years old and an evaluation has not been made within the last five (5) years.

EVALUATION CONSIDERATIONS

Integrity In addition to having significance, resources must have integrity for the period in which it is significant. The period of significance is the date or span of time within which significant events transpired, or significant individuals made their important contributions. Integrity is the authenticity of a historical resource's physical identity as evidenced by th survival of characteristics or historic fabric that existed during the resource's period of significance. Only after significance has been established should the issue of integrity be addressed. The following concerns should be considered when evaluating properties for integrity.

1. **Design** Any alterations to the property should not have adversely affected the character-defining features of the property. Alterations to a resource or changes in its use over time may have historical, cultural, or architectural significance.
2. **Setting** Changes in the immediate surroundings of the property (buildings, land use, topography, etc.) should not have adversely affected the character of the property.
3. **Materials and Workmanship** Any original materials should be retained, or if they have been removed or altered, the replacements have been made that are compatible with the original materials.
4. **Location** The relationship between the property and its location is an important part of integrity. The place where the property was built and where historic events occurred is often important to understanding why the property was created or why something happened. The actual location of a historic property, complemented by its setting, is particularly important in recapturing the sense of historic events and persons. Except in a few cases, the relationship between a property and its historic associations is destroyed if the property is moved.
5. **Feeling** Feeling is a property's expression of the aesthetic or historic sense of a particular period of time. It results from the presence of physical features that, taken together, convey the property's historic character.
6. **Association** Association is the direct link between an important historic event or person and a historic property. A property retains association if it is the place where the event or activity occurred and is sufficiently intact to convey that relationship to an observer. Like feeling, association requires the presence of physical features that convey a property's historic character. For example, a Revolutionary War battlefield whose natural and manmade elements have remained intact since the 18th century will retain its quality of association with the battle.

   Because feeling and association depend on individual perceptions, their retention alone is not sufficient to support eligibility.

Historical resources must retain enough of their historic character or appearance to be recognizable as historical resources and to convey the reasons for their significance.

CITY OF MODESTO

Request to Alter, Renovate, or Demolish Landmark or Landmark-Eligible Building Submittal Requirements

GENERAL REQUIREMENTS:

☐ 1. The first two pages of the Uniform Application must be typed or printed and filled in completely. Please recycle the remaining sheets.

If the applicant is not the property owner, the property owner shall designate the applicant as the authorized agent to act on his or her behalf and both shall sign this application.

☐ 2. Three (3) copies of a narrative describing the character defining features of the building or object, including architectural style, interior spaces, secondary buildings, and mature landscaping, as appropriate.

☐ 3. Three (3) copies of any photos or similar documentation, including information from the City's historic resources survey and Modesto's Historic Resources Database. Photos should be recent and show all sides of the resource and include close-up photos of distinguishing characteristics.

☐ 4. Three (3) copies of a completed DPR 523a and/or DPR 523b, as applicable, prepared by a person who meets the Secretary of the Interior's Professional Qualification Standards (see http://www.modestogov.com/1152/Landmark-Preservation-Commission for detailed information)..

☐ 5. Photographs of the site and surrounding properties to illustrate context.

☐ 6. Three (3) copies of building permit application and building plans folded to 8-1/2" x 11".

☐ 7. Completed Environmental Information Form

☐ 8. All applicable filing fees (see adopted fee schedule).

Please note that, pursuant to California Code of Regulations Section 15064.5, demolition or alteration of a designated or potential historic landmark may be considered a significant impact. Additional documentation may be required, with costs of preparation borne by the applicant.

FOR YOUR INFORMATION: Staff may deem additional information necessary to adequately review the application, complete environmental review for the project, or make recommendations to the Landmark Preservation Commission. Completion of the application does not presume approval nor staff support of the application. Such approval is discretionary with the Director, Planning Commission, and/or City Council. The Director, Planning Commission, or City Council may deny, modify, or conditionally approve the application.

About Landmarks and Historic Properties

Is my property a landmark?
For a property to be considered a landmark, it must be listed on Modesto's List of Historic Resources or be included in Modesto's Historic Resources Inventory and determined to meet the designation criteria for historic landmarks by the Landmark Preservation Commission. These properties are determined to be Eligible Historical Resources. Any area and neighborhood surveyed in accordance with the standards established by the California Office of Historic Preservation and determined to meet the designation criteria for historic district by the Landmark Preservation Commission is determined to be an Eligible Historic District. To find out if your property is on the list, please contact the Planning Division.

Can I have my property designated a landmark?
Any property or structure that meets the criteria in the Landmark Preservation Ordinance (Title 9, Chapter 10, of the Modesto Municipal Code) can be designated a Modesto Landmark. The City has already conducted a Historic Resources Inventory and many of those properties are on the City's List of Eligible Historic Resources. Some research on many of these properties has already been conducted. If a property is not on the City's List of Eligible Historic Resources, it may still be designated if it meets the designation criteria, once the property is surveyed.

Can I have my neighborhood designated?
Any neighborhood that meets the criteria in the Landmark Preservation Ordinance (Title 9, Chapter 10, of the Modesto Municipal Code) can be designated a Modesto Historic District Properties that contribute to the significance of the neighborhood are considered contributing structures and are treated just like a landmark. Newer structures and those that do not contribute to the significance of the neighborhood are considered non-contributing structures. These properties have more flexibility with alterations, but are not eligible for preservation incentives. In order for a neighborhood to be designated, a majority of the properties in the proposed district must be contributing structures.

What is the designation process?
Complete and submit an application with the material identified in the submittal requirements to the Planning Division for review. The Planning Division will research the property with assistance of the McHenry Museum and County Library, to determine the historic significance of the property. A staff report will be prepared and presented to the Landmark Preservation Commission. The Landmark Preservation Commission will hold a public hearing to consider applications for demolition and make a recommendation to City Council. The City Council will then hold a public hearing and decide whether to designate the property a Modesto Landmark. Applications to alter or renovate will only be considered by the Landmark Preservation Commission, which will determine whether the change is appropriate.

Modesto's Municipal Code (Title 9, Chapter 10) includes these definitions of historic significance:

(a) Significance: The quality of the information, example, interest or meaning represented by the site for understanding and appreciating the past, development or culture.

(b) Historic Significance: Associated with activities, processes, events, trends or persons of importance to the community, state or nation.

(c) Architectural Significance: Possessing distinctive characteristics of a style, place, period, method or materials of construction, builder or architect.

(d) Cultural Significance: A significant setting of manmade or natural features (including significant trees or other plant life located thereon), or a combination, possessing meaning primarily by long association or identification with the community and/or its citizens.

(e) Archaeological Significance: A setting possessing the potential to reveal information important to historic or prehistoric studies.

(f) Engineering Significance: A work demonstrating a technology, design or method characteristic of a historic period or activity.

(g) Modesto Landmark Preservation Site: An area, district, building, structure or object, which has been designated for preservation for reasons of its significance by the City Council.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-05

Print

RESOLUTION APPROVING A PROPOSED AGREEMENT INCLUDING LANGUAGE CHANGES FOR A SUCCESSOR MEMORANDUM OF UNDERSTANDING (MOU) BETWEEN THE CITY OF MODESTO AND MODESTO POLICE MANAGEMENT ASSOCIATION (MPMA) FOR A TERM OF JANUARY 1, 2017 TO SEPTEMBER 3, 2019; AND AUTHORIZING THE CITY MANAGER TO TAKE THE NECESSARY ADMINISTRATIVE ACTION TO IMPLEMENT THE AGREEMENT

WHEREAS, the current Memorandum of Understanding (MOU) between the City of Modesto (CITY) and the Modesto Police Management Association (MPMA) expired on December 31, 2016, and

WHEREAS, representatives of the CITY and the MPMA have met and conferred in good faith concerning wages, hours, terms and conditions of employment for employees in said bargaining unit, and

WHEREAS, the CITY and MPMA have reached agreement on language changes for a successor MOU which, upon execution, shall be **attached** hereto and made a part hereof, and

WHEREAS, the MOU provides as follows:

SECTION 1. TERM. The term of the MOU shall be from January 1, 2017 to September 3, 2019.

SECTION 4. SALARY. The City shall increase the salary schedule by two percent (2.0%) effective January 10, 2017; followed by an additional increase of two and one half percent (2.5%) effective June 27, 2017; and followed by an additional increase of three percent (3%) effective June 26, 2018. Effective August 20, 2019, the City shall increase base salary ranges for all classes by CPI-U Western Cities. In addition, the salary range for Police Lieutenant shall increase from range 617 to range 618. Salary

ranges shall increase in accordance with the schedules set forth in **Exhibits A through D attached** hereto.

For Sergeants with fifteen (15) years of service or more, they will receive a two percent (2.0%) increase for a total of 2.0% effective June 27, 2017. Sergeants with ten (10) years of service or more will receive a one percent (1.0%) increase for a total of one (1.0%) with successful completion of one supervisory collateral assignment effective June 27, 2017. For Lieutenants with twenty (20) years of service or more, they will receive a two percent (2.0%) increase for a total of 2.0% effective June 27, 2017. Lieutenants with fifteen (15) years of service or more will receive one percent (1.0%) increase for a total of 1.0% effective June 27, 2017. The maximum an officer can receive will be 3% after 20 years of service. Current members of MPMA are eligible for the longevity pay; new members are required to meet additional stipulations.

SECTION 5. SPECIAL COMPENSATION.

a) Additional 2.0% to Supervisory Post pay effective March 7, 2017.

b) 1% POST pay incentive from previous agreement to expire effective December 26, 2016

c) Collateral Assignment Pay of 1.0% effective June 27, 2017 to apply to SWAT, CIT and K9 units only, additional 0.5% for Collateral Assignments effective June 26, 2018 and additional 1% effective August 20, 2019 for a total incentive pay of 2.5%.

d) Employees will be eligible to remain in Specialty Assignments, up to four years, only with a satisfactory annual performance review in that assignment.

e) Employees will be eligible to remain in a Collateral Assignment, only with a satisfactory annual performance review.

f) Eliminate Special Pay for Lieutenants performing as Watch Commanders. In lieu, employees with a Bachelor's Degree will receive 2.5%. Employees currently in MPMA will be grandfathered in. This applies for newly hired Lieutenants.

g) Employees in multiple Special or Collateral Assignments will only be compensated up to a maximum of five percent (5%).

h) Bilingual Pay to change from 3 hours of CTO to 2.75% Incentive Pay

SECTION 11. RETIREMENT. Effective June 27, 2017, the City shall increase base salary by two and one half percent (2.5%) and the Association shall pick up three percent (3.0%) of the employee's PERS contribution. The additional three percent (3.0%) is on the employer side of the pension contribution as allowed under Public Employee Pension Reform Act (PEPRA).

SECTION 12. RETIREE HEALTH INSURANCE. To be addressed during Health Reopener.

SECTION 13. HEALTH, DENTAL, VISION INSURANCE. The City's contribution to health, dental and vision benefits shall be a three-tier system as follows and the City contribution (excluding opt out) shall increase by four (4) percent annually as follows:

	Current	2017	2018	2019
Opt-out of City Medical Coverage	$450.00	$450.00	$450.00	$450.00
Employee only	$621.00	$645.00	$670.00	$700.00

Employee plus 1	$858.00	$900.00	$930.00	$965.00
Employee plus family	$1214.00	$1260.00	$1310.00	$1365.00

There will be a reopener on this section to commence no later than January 31, 2017.

SECTION 19. HOLIDAYS. Holiday days off will be valued at ten (10) hours each.

SECTION 20. SICK LEAVE. Attendance policy to have parity with another City Association.

SECTION 22. WORK SCHEDULES. A three (3) day workweek shall consist of three (3) [consecutive duty] days for which the employee shall work twelve and one half (12.5) hours per day and shall be assigned pending department analysis. This schedule will allow for several maximum deployment days throughout the year to address a wide array of issues from gang activity, quality of life issues, and neighborhood specific crime issues and will be implemented at the discretion of the Police Chief.

CHANGES AND REMAINING PROVISIONS. Other changes and remaining provisions of the December 31, 2015 through December 31, 2016 MOU and Letter of Agreements through December 31, 2016 between the CITY and MPMA shall continue in the new MOU. The exact language of all provisions shall be set forth in the MOU between the CITY and MPMA.

WHEREAS, the Council considered this matter at its meeting of January 10, 2017,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the language changes for a successor Memorandum of Understanding between the City of Modesto and the Modesto Police Management

Association, which covers a term from January 1, 2017 through September 3, 2019, and upon execution of same, a copy of the MOU will be on file in the office of the City Clerk.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of January, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold
NOES:	Councilmembers:	None
ABSENT:	Councilmembers:	None

ATTEST: _____
STEPHANIE LOPEZ, City Clerk

(SEAL)

APPROVED AS TO FORM:

THIS RESOLUTION WAS RESCINDED BY MODESTO CITY COUNCIL RESOLUTION NO. 2019-165

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-06

RESOLUTION GRANTING SALARY CHANGES TO NON-SWORN UNREPRESENTED MANAGEMENT AND CONFIDENTIAL EMPLOYEES INCLUDING CHARTER OFFICERS AND EXECUTIVES AND UNREPRESENTED SWORN POLICE EMPLOYEES, EFFECTIVE JANUARY 10, 2017, RESCINDING RESOLUTION NO. 2016-377, AND AUTHORIZING THE CITY MANAGER OR DESIGNEE TO TAKE THE NECESSARY ADMINISTRATIVE ACTION TO IMPLEMENT THE CHANGES

WHEREAS, by Resolution No. 2016-377, which became effective on September 13, 2016, the City Council approved Class Range Tables and salary schedule changes for unrepresented Management and Confidential employees including Charter Officers and Executives, and

WHEREAS, the Council of the City of Modesto adopted an agreement with Modesto Police Management Association (MPMA) on January 10, 2017 which included salary increases,

WHEREAS, the Council of the City of Modesto desires to approve a two percent (2.0%) base salary increase for all Unrepresented Sworn Police Captains effective December 27, 2016; followed by an additional two and one half percent (2.5%) base salary increase for all Unrepresented Sworn Police employees effective June 27, 2017 and an additional three (3.0%) base salary increase for all Unrepresented Sworn Police employees effective June 26, 2018.

WHEREAS, the Council of the City of Modesto desires to amend the "City of Modesto Class Range Table Police Management Classes (Unrepresented) Effective February 9, 2016,", and

WHEREAS, the City desires to maintain competitive position with the labor market;

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

1. SALARY RANGES, RATES AND EFFECTIVE DATES. For Unrepresented Police Captains, the City shall increase the salary schedule by two percent (2.0%) effective January 10, 2017 and for all Unrepresented Police employees, inclusive of the Police Chief, the City shall increase the salary schedule by two and one half percent (2.5%) effective June 27, 2017; followed by an additional increase of three percent (3%) effective June 26, 2018. Effective August 20, 2019, the City shall increase base salary ranges for all classes by CPI-U Western Cities. The salary rates, salary ranges and salary steps as set forth in the following **exhibits** which are **attached** hereto and made a part hereof provide for amending the Police Captain from salary range 1624 to 1626 effective January 10, 2017. In addition, based on the results of the City's most recent labor market study, the salary range for each of the benchmark classes listed in **Exhibit X**, along with any related classes, shall increase in accordance with the schedule and is set forth in these **Exhibits.**

2. CHARTER OFFICERS. The salaries for the positions of the Charter Officers shall be as follows effective December 2, 2014:

TITLE	HOURLY	BI-WEEKLY	MONTHLY
City Manager Jim Holgersson	102.65	8,212.00	17,861.11
City Attorney Contract	77.97	6,237.50	13,566.57
City Clerk Stephanie Lopez	52.60	4,208.00	9,152.40

Charter Officers shall be as follows effective the pay period that includes March 1, 2016:

TITLE	HOURLY	BI-WEEKLY	MONTHLY
City Manager Jim Holgersson	103.68	8,294.40	18,040.32
City Attorney Contract	78.75	6,299.88	13,702.24
City Clerk Stephanie Lopez	53.13	4,250.40	9,244.62

3. USE OF CLASSES. The designated classes of positions may be used in any organizational unit of the City deemed proper by the City Manager.

4. POSITIONS. The City Council authorizes and directs the City Manager, within the limits of funds budgeted therefor, to appoint employees in such number and in such classes in each department as may be necessary to properly operate the department under the Charter, ordinances and resolutions adopted by the City Council, including, but not limited to, creating additional positions to replace employees who are on disability leave or other leaves of absence.

5. APPOINTMENTS AND SALARIES. The City Manager is hereby authorized to appoint, in accordance with the applicable provisions of the Modesto Municipal Code and Personnel Rules and within the limits of funds budgeted therefor, any person to a position in a class for which he is the appointing authority and for which the salary is hereby provided, to designate the definite salary rate or salary step at which such person is appointed, and the salary so designated is hereby fixed as the salary of such employee for the position.

6. SPECIAL SALARY RATES. The City Manager is further authorized, subject to budgetary appropriation control by the City Council, to fix the salary range or rate for part-time, hourly or special positions in the Unclassified Service for which the City Manager is the appointing authority and which are not designated herein.

7. PART-TIME EMPLOYMENT. Employees appointed to any of the positions referred to herein who, with the approval of the City Manager, regularly work less hours per week than established for their class by rule 13.1 of the Personnel Rules, shall be paid in approximate proportion of the time worked.

8. REPEAL. Resolution No. 2016-377 is hereby rescinded effective January 10, 2017.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of January, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

A RESOLUTION WAS RESCINDED BY MODESTO CITY COUNCIL RESOLUTION NO. 2019-166

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-07

RESOLUTION RESCINDING RESOLUTION NO. 2016-376 TO UPDATE BENEFIT OFFERINGS FOR UNREPRESENTED MANAGEMENT SWORN POLICE EMPLOYEES; AND AUTHORIZING THE CITY MANAGER OR DESIGNEE TO TAKE THE NECESSARY ADMINISTRATIVE ACTION TO IMPLEMENT THE CHANGES

WHEREAS, by Resolution No 2016-376, which became effective on September 13, 2016, the City Council approved salary and benefit changes to Unrepresented Management and Confidential employees, including Charter Officers and Executives, and

WHEREAS, the City has historically implemented terms and conditions of employment for Unrepresented Police Captains consistent with the terms and conditions of employment covering employees in the Modesto Police Management Association (MPMA) bargaining unit,

WHEREAS, the City desires to approve the following terms and conditions for Unrepresented Management Sworn Police Employeesto have parity with the MPMA Agreement:

a) One percent (1.0%) POST Pay from previous agreement expired effective December 31, 2016;

b) Effective March 7, 2017 increase Supervisory POST Pay by 2.0%;

c) Effective January 10, 2017, increase Executive POST Pay to 10.0%

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. PROBATIONARY PERIOD. All original and promotional appointments to positions in the Classified Service shall be tentative and subject to a probationary period of one year from the date of appointment to the position. The purpose of the probationary period is to train, observe and evaluate the employee on conduct, performance, attitude, adaptability and job knowledge.

Time spent on any leave of absence, or time during which an employee is unable to perform the full range of duties due to injury or illness, whether or not job-related, shall not be considered as part of any probationary period, and such time will be added to the probationary period. Any further extension of probation will only be upon mutual agreement.

During the probationary period an employee may be released at any time without right of appeal. Written notice of release shall be furnished to the probationer. An employee released during or at the conclusion of probation following a promotion, shall be reinstated to the position previously held, at the former salary step, except if the reasons for release are cause for dismissal.

SECTION 2. COMPENSATORY TIME OFF CAP. Management and Confidential employees who are overtime-eligible shall be paid quarterly for all CTO over their established cap. For employees hired on or after December 6, 2005, the CTO cap shall be 100 hours. For employees hired before December 6, 2005, the cap shall be 160 hours.

SECTION 3. HOLIDAY CAP. Holiday time for unrepresented non-sworn employees may be accrued up to a maximum of 40 hours. When the employee reaches the 40 hour maximum, additional holiday time shall be compensated in cash at straight

time rates on a quarterly basis.

SECTION 4. MANAGEMENT LEAVE. Commencing January 1, 2012, management employees in exempt regular positions shall be advanced 80 hours of Management Leave (Fire Battalion Chiefs on a 56-hour schedule shall be advanced 112 hours) January of each calendar year to be taken at the discretion of the employee and upon approval of City Manager, or designee, and shall be prorated for less than full-time employees. Management Leave will be forfeited if not used by the last pay period ending in December. An exempt employee hired after Management Leave has been advanced shall be eligible for a pro-rated portion of Leave.

In the event of separation from City employment of any person who has taken Management Leave prior to the time all of said leave is earned, the employee shall be required to make full restitution to the City for that portion of leave taken but remaining unearned on the date of termination of employment. Employees separating from City service will be paid for earned Management Leave credit.

SECTION 5. MANAGEMENT LEAVE ANNUAL CASHOUT. The maximum number of hours available for cash out each December shall be 40 hours annually for Management employees. All employees may cash out Management Leave once annually during the pay period in which December 1 falls.

Effective December 2007, the maximum annual cash out shall be 80 hours for Executives and Charter Officers, and 60 hours for Police Captains, Fire Battalion Chiefs, Fire Division Chiefs, Deputy Directors, Assistant City Attorney and Deputy City Attorney I/II/III/Senior. For Fire Battalion Chiefs on a 56-hour schedule, the maximum cash out shall be 84 hours.

SECTION 6. MEDICAL LEAVES OF ABSENCE. Effective December 6, 2005, employees requesting an Authorized Medical Leave of Absence without pay, due to a medical incapacity to perform the duties of their position, must provide written medical verification of a long-term disability, illness or injury.

SECTION 7. CATASTROPHIC LEAVE. Effective December 6, 2005, employees requesting Catastrophic Leave donations must provide a written medical verification of long term illness or injury, or verification of a family member's illness or injury.

SECTION 8. NEGATIVE VACATION. Effective March 7, 2006, use of negative vacation will be permitted only for extenuating circumstances and will require the approval of the City Manager, or designee.

SECTION 9. LEAVE CASHOUTS FOR SWORN FIRE MANAGEMENT EMPLOYEES. Sworn Fire Management employees in the classifications of Fire Battalion Chief, Fire Division Chief and Fire Chief working a 40 hour schedule shall be afforded the opportunity to cash out up to 61 hours of vacation leave per calendar year (at straight time rates) and up to 88 hours of holiday leave per calendar year (at time and one-half), effective July 1, 2003. Employees in the classification of Fire Battalion Chief working a 56 hour schedule shall be afforded the opportunity to cash out up to 72 hours of vacation leave per calendar year (at straight time rates) effective June 20, 2000, and up to 132 hours of holiday leave per calendar year (at time and one-half). Holiday leave may not be carried over year-to-year regardless of the schedule worked.

SECTION 10. SICK LEAVE. Non-sworn employees hired on or before December 31, 2010 shall have all accrued sick time transferred to a grandfathered sick

leave bank effective the pay period ending October 22, 2012. Sworn employees hired on or before December 31, 2010 shall have all accrued sick time transferred to a grandfathered sick leave bank effective pay period ending August 25, 2014. For employees hired on or before December 31, 2010 and who promoted to an unrepresented management classification, employee's grandfathered accrued balance and regular sick accrued balance shall follow the employee. Employees who promote from MCFFA shall have their sick leave balance as of promotion date split between grandfathered sick leave and regular sick leave as follows:

- Grandfathered sick bank – Eligible for sick leave balance on the books as of September 8, 2015, reduced by hours previously converted to Deferred Compensation, and up to the amount of hours in employee's sick leave bank upon promotion.
- Regular sick bank – remaining sick leave balance as of promotion date not grandfathered

When taking sick leave, employees with grandfathered sick leave banks shall utilize new sick leave accrued hours prior to utilizing hours from the grandfathered bank.

SECTION 11. SICK LEAVE CASHOUT FOR SWORN FIRE MANAGEMENT EMPLOYEES. Sworn Fire management employees who leave City service in good standing (other than retirement) after five (5) years of continuous service, shall be paid the first twenty-two hundred (2,200) hours of their current unused grandfathered sick leave, reduced by hours previously converted to Deferred Compensation, as follows: (1) Ninety (90%) percent of sick leave hours as of the date of the employee's initial promotion to a management classification shall be paid out at the current regular rate of pay (top step) for Fire Captain, and (2) In addition, twenty-five (25%) percent of the

remaining sick leave hours accrued after promotion to a management classification shall be paid out at the employee's then current regular rate of pay.

SECTION 12. PROMOTION. Employees promoted on or after November 17, 2015, prior to an employee's promotion to an unrepresented management classification, all compensatory time off (CTO) and grandfathered compensatory time off (GCTO) shall be compensated in cash at the employee's then current regular rate of pay.

SECTION 13. MASTERS DEGREE INCENTIVE PAY. Effective June 29, 2004, employees who possess a Master's Degree or Juris Doctor from an accredited institution, shall be granted one and one half percent (1.5%) Masters Pay, subject to criteria as established by the City. Effective December 26, 2017, for Unrepresented Sworn Police employees who possess a Master's Degree or who have obtained their certificate from either Command College or the Federal Bureau of Investigations National Academy shall be granted two and one half percent (2.5%) Masters Pay.

SECTION 14. REGISTRATION AND CERTIFICATION FEES. Effective July 1, 2003, when an employee is required by the City to obtain or renew a certificate, license or registration in order to carry out their assigned duties, except a California Class C Driver's License, the City will pay the fee for the actual certificate, license or registration, (and exam fee, if any).

SECTION 15. VEHICLE ALLOWANCE. Per Resolution No. 2001-271 effective July 1, 2001, the vehicle allowance for Executives and Charter Officers who receive an allowance, shall be $400/month, and the City Manager is authorized to grant Deputy Directors either an assigned City vehicle or a vehicle allowance in the amount of $300/month. The City Manager is also authorized to grant selected Management

employees a vehicle allowance of $100-$200/month based on Department Director recommendation and an annual justification relating to extensive use of a personal vehicle while conducting City business. Effective May 27, 2008, per Resolution 2008-305, the vehicle allowance for Charter Officers is increased to a maximum of $500/month.

SECTION 16. UNIFORM ALLOWANCES. Uniform allowances for unrepresented Management and Confidential employees who are required to wear a uniform, are as follows:

Positions	Effective Date	Allowance
Sworn Police	February 1, 2015	$101.67
Sworn Fire Management	July 1, 2007	$85.00

SECTION 17. POST CERTIFICATION PAY. Effective September 6, 2016, Police Captains who provide evidence that they have received a Supervisory POST Certificate shall be eligible for one and eight tenths percent (1.8%) certification pay. Effective March 7, 2017, the same shall be eligible for an additional two percent (2.0%) certification pay for a total of ten percent (10%). Effective September 6, 2016, Police Captains who provide evidence that they have received a Management POST Certificate shall be eligible for two and three tenths percent (2.3%) certification pay. Effective December 27, 2016, Management POST Certificate pay shall be eight percent (8.0%). Effective March 7, 2017, Management POST Certificate pay shall be ten percent (10%). Effective September 6, 2016, Police Chief shall be eligible for five percent (5.0%) Executive POST pay. Effective January 10, 2016, Police Chief shall be eligible for an additional five percent (5.0%) Executive POST pay, for a total of ten percent (10%).

These amounts are not cumulative and Captains receiving Management POST pay shall not also receive Supervisory POST pay. The maximum allowable POST pay is ten percent (10.0%).

SECTION 18. BONUS PAY FOR UNREPRESENTED POLICE CAPTAINS. City shall pay one thousand five hundred dollars ($1,500) to any Sworn Police Captain in an active paid status as of pay period ending February 22, 2016. An additional one thousand dollars ($1,000) will be paid on July 1, 2016 to Sworn Police Captains in an active paid status from February 23, 2016 through June 27, 2016. New City of Modesto employees appointed as Police Captains will receive a pro-rated amount based on time worked. Police Captains who separate prior to June 27, 2016 will not be eligible for the one thousand dollars ($1,000).

SECTION 19. ASSISTANT CHIEF OF POLICE ASSIGNMENT PAY. Effective May 26, 1998, subject to the approval of the City Manager, the Police Chief may appoint employees currently employed by the Police Department in the classification of Police Captain to the assignment of Assistant Chief of Police. Such appointment may be made without competitive examination and shall continue at the will and pleasure of the Police Chief. The Police Chief may end the assignment at any time and such employee shall return to an assignment as Police Captain (unless removed due to dismissal) at a step no lower than the step the employee held at time of assignment. The total number of assignments shall be at the sole discretion of the City Manager.

SECTION 20. ASSISTANT CHIEF OF POLICE ASSIGNMENT PAY. Effective May 26, 1998, subject to the approval of the City Manager, the Police Chief may appoint employees currently employed by the Police Department in the

classification of Police Captain to the assignment of Assistant Chief of Police. Such appointment may be made without competitive examination and shall continue at the will and pleasure of the Police Chief. The Police Chief may end the assignment at any time and such employee shall return to an assignment as Police Captain (unless removed due to dismissal) at a step no lower than the step the employee held at time of assignment. The total number of assignments shall be at the sole discretion of the City Manager.

SECTION 21. EMERGENCY MEDICAL TECHNICIAN CERTIFICATION PAY. Sworn Fire Management employees in the classifications of Fire Battalion Chief and Fire Division Chief, who are certified as Emergency Medical Technicians (EMT-I), shall receive a five percent (5.0%) of the base salary for their classification. Effective July 12, 2016, the five percent (5%) pay for EMT certification will be rolled into base salary for their classification.

SECTION 22. HAZARDOUS MATERIALS CERTIFICATION PAY. Effective July 1, 2003, one (1) Fire Department Battalion Chief or Division Chief shall be authorized five percent (5%) Haz Mat Pay, when certified as a Hazardous Materials Specialist and assigned to administer the City of Modesto's participation in the Regional Hazardous Materials Response Team. This pay replaced the annual Haz Mat Stipend.

SECTION 23. ALS PARAMEDIC PAY. Effective July 14, 2015, one (1) Fire Department Battalion Chief or Division Chief shall be authorized six percent (6%) ALS Paramedic pay, when assigned to the ALS Paramedic Program and have the required California State Paramedic License and all additional local required ALS certifications.

SECTION 24. FIRE CHIEF OFFICER SHIFT STIPEND. Effective December 2, 2014, Fire Battalion Chiefs and Fire Division Chiefs assigned to work extra shifts in

order to maintain a consistent staffing of two (2) Battalion Chiefs to the extent possible, may receive a stipend of one thousand five hundred dollars ($1,500) per 24-hour shift. Criteria for assignment to extra shifts with the stipend shall be at the discretion of the Fire Chief, who shall also determine when staffing at the level of one Battalion Chief is acceptable. The Fire Chief shall annually determine the maximum number of assignments available for stipend, subject to funds budgeted and the needs of the City. As FLSA Exempt management employees, Fire Battalion Chiefs and Fire Division Chiefs may be required to work both emergency and non-emergency assignments without additional compensation.

SECTION 25. MUTUAL AID ASSIGNMENT. Sworn Fire Management employees in the classification of Fire Battalion Chief and Fire Division Chief shall receive a stipend when assigned to fill Strike Team and Task Force Leader assignments. Fire Battalion Chiefs assigned as Strike Team or Task Force Leader or Strike Team or Task Force Leader Trainee shall receive a stipend of $1500 for a 24 hour period. Fire Division Chiefs assigned as Strike Team or Task Force Leader or Strike Team or Task Force Leader Trainee shall receive a stipend of $1500 for a 24 hour period subject to the following conditions:

1. The assignment results from a request through the California Office of Emergency Services.
2. The assignment is subject to reimbursement through the "Cooperative Agreement for Local Government Fire Suppression."
3. Regularly scheduled work hours are not included and partial periods are pro-rated to the nearest hour.

The City Manager is authorized to adjust the stipend amount, from time to time, consistent with increases in overall Fire Management salaries and reimbursement rates.

SECTION 26. DEFERRED COMPENSATION 457 PLAN. The CITY shall continue to provide access to a 457 deferred compensation program authorized by the City Council for the voluntary participation of City employees. In addition, the CITY shall match on behalf of a participating employee in a regular position, one and one-half percent (1.5%) of an employee's regular rate of pay on a bi-weekly basis; provided, the employee is contributing at least one and one-half percent (1.5%). For such employees who have been continuously employed by the CITY for nine (9) or more years, the CITY shall contribute two and one-half percent (2.5%); provided the employee is contributing at least two and one-half percent (2.5%). Effective January 1, 2006, this increase in the City's contribution shall be effective with the first pay period to begin in the month following completion of nine (9) years of service, provided that the employee has completed any required documents.

SECTION 27. DEFERRED COMPENSATION 401(a) MONEY PURCHASE PLANS. The 401(a) Money Purchase Plans shall provide for a City-paid contribution and equal mandatory employee contribution, effective January 1, 2006, of 5% for Charter Officers, 3% for Executives other than Charter Officers, and 2% for all other unrepresented Management and Confidential employees.

SECTION 28. HEALTH, DENTAL AND VISION BENEFITS. The City's contribution to health, dental and vision benefits for Unrepresented Management and Confidential employees, including Charter Officers and Executives, shall be a three-tier system as follows and the City contribution (excluding opt out) shall increase by four (4)

percent annually as follows:

	Current	2017	2018	2019
Opt-out of City Medical Coverage	$450.00	$450.00	$450.00	$450.00
Employee only	$621.00	$645.00	$670.00	$700.00
Employee plus 1	$858.00	$900.00	$930.00	$965.00
Employee plus family	$1214.00	$1260.00	$1310.00	$1365.00

The City shall deposit into the employee's deferred compensation account any balance remaining from the above listed contributions not needed to pay for the employee's health, dental or vision premiums. Effective July 22, 2008, for employees enrolled in the City-sponsored High Deductible Health Plan, any balance of said contributions shall be directed to the employee's Health Savings Account. Only in the event that an employee does not qualify for enrollment into a Health Savings Account, the City shall deposit any balance of the above contribution not needed to pay for the employee's combined premium into the employee's deferred compensation account.

Effective July 26, 2005, the City's contribution toward unrepresented employees with Family coverage shall not exceed the actual premium amount for the lowest cost health (HMO Plan), dental and vision plans offered by the City, regardless of the health plan selected by the employee or the contribution amounts listed above.

SECTION 29. DOMESTIC PARTNERS. Benefits applicable to spouses shall be extended to registered domestic partners, as required by law.

SECTION 30. RETIREE HEALTH INSURANCE. Employees who retire prior to December 31, 2015, may elect on a one-time basis at retirement to purchase health, dental and vision insurance under a City-authorized plan and are responsible for all cost.

Non-sworn employees hired **on or before December 31, 2010** and who retire from the City prior to October 23, 2012 after five (5) years of continuous service in good standing may, on a one-time basis, exercise the option to have ninety percent (90%) of their unused grandfathered sick leave applied by the City upon retirement to premiums for health, dental and vision insurance plans covered by the CITY at the rate of eight (8) hours equals one month of contribution. Said insurance contribution shall be provided in an amount up to that contributed to active employees subject to changes in the median priced health HMO plan for active employees, as needed to cover the cost of retiree health, dental and vision premium.

Non-sworn employees hired **on or before December 31, 2010** and who retire from the City between October 23, 2012 and December 31, 2014, after five (5) years of continuous service in good standing may, on a one-time basis, exercise the option to have ninety percent (90%) of their unused grandfathered sick leave applied by the City upon retirement to premiums for health, dental and vision insurance plans covered by the CITY at the rate of eight (8) hours equals one month of contribution. Said insurance contribution shall be provided as needed to cover the cost of retiree health, dental and vision premiums up to a monthly rate of $621 for retiree without dependents and up to $1,100 for retirees with dependent coverage.

Sworn employees hired **on or before December 31, 2010** and who retire from the City prior to January 1, 2015, after five (5) years of continuous service in good standing

may, on a one-time basis, exercise the option to have ninety percent (90%) of their unused grandfathered sick leave applied by the City upon retirement to premiums for health, dental and vision insurance plans covered by the CITY at a rate of eight (8) hours equals one month of contribution (employees promoted on or after December 30, 2014 into a Fire Unrepresented position on a 56-hour schedule, shall have hours at retirement applied at a rate of twelve (12) hours equals one month of contribution). Said insurance shall be provided in an amount up to that contributed to active employees subject to changes in the median priced health HMO plan for active employees, as needed to cover the cost of retiree health, dental and vision premium.

For all Non-Sworn and Sworn employees hired on or before December 31, 2010 who retire from the City on or after January 1, 2015, the City will no longer offer retiree medical plans through City's group plans effective December 31, 2015, however, retirees may elect on a one-time basis at retirement the option to purchase and maintain City's dental and vision plans at retiree's cost. For these employees who retire after five (5) continuous years of service in good standing may, on a one time basis, have ninety (90%) percent of their unused grandfathered sick leave converted to the City sponsored defined contribution retiree medical benefit plan at the rate of eight (8) hours equals one month of contribution (Fire Unrepresented position on a 56-hour schedule, shall have hours at retirement applied at a rate of twelve (12) hours equals one month of contribution) to purchase medical insurance. For each eight hours (or twelve hours) converted to the retiree medical program, the recipient shall be provided a monthly contribution under one of the following schedules:

Non-Medicare Eligible Recipient	Medicare Eligible Recipient
Retiree Only = $500	Retiree Only = $250
Retiree +1 Dep = $1,000	Retiree +1 Dep = $500
Retiree + Family= $1,000	Retiree + Family = $500

Combined contributions for Retirees

1 Non-Medicare + 1 Medicare coverage = $750

Retiree only contribution for eligible recipients is allowable regardless of where the retiree acquires authorized and legitimate medical insurance coverage (i.e. through State Exchange, through individual insurance company, through a current employer, or through spouse employer). Retiree shall not be eligible to receive a contribution for dependent, spouse, or registered domestic partner under the Retiree + 1 or Retiree + Family levels if retiree's dependent, spouse, or registered domestic partner has medical insurance coverage through their current employer, is covered under Retiree's current employer, or if Retiree does not purchase individual insurance for dependent. Upon retirement only, the City shall transfer contributions based on eligibility above into the City's sponsored Retiree Health Reimbursement Arrangement (HRA) for the individual. Employees will not be eligible for these contributions should they separate from City service prior to retirement. Contributions to eligible retirees will be made as follows: Upon Retirement – initial contributions will be made for the months following loss of coverage with City through either December 31st or June 30th, whichever date is earlier. Contributions will be deposited no later than 30 days after retirement date. Ongoing Contribution – a semi-annual years' worth of contributions will be made on a semi-annual basis no later than Jan 31st (for months January – June) and July 31st (for months July - December) until

exhaustion of sick leave conversion. To receive the semi-annual contribution, the retiree must provide the City with proof and cost of coverage by December 15th each year to receive a contribution for the following calendar year. Failure to provide proof of coverage will result in the retiree losing a City contribution for that calendar year, however, if the retiree provides proof of coverage before June 15th, the retiree will be eligible for the July contribution. Lose of contribution will not result in a reduction to the number of months the retiree is eligible to receive contributions in the future. If retiree has a status change during any calendar year that would change the monthly contribution, such as a marriage, divorce, death, birth, spouse or dependent loss of coverage, the City will reconcile the new amount the retiree is eligible for with the following semi-annual contribution. The change in status is presumed effective the 1st of the month following the month when the retiree provided notice to the City of the change in status. For example, if the retiree's status changes from retiree only to retiree +1 on November 15, the City will provide an additional $500 along with the total semi-annual contribution for the following calendar year to compensate the retiree for the change in status for the month of December in the previous calendar year. If the retiree's change in status results in monies owed to the City, the City will recoup the amount owed by deducting it from the following semi-annual contribution. However, in the event of a death of the retiree receiving a contribution for the retiree only level during the calendar year in which the contribution was already received, any remaining months of contribution will be deleted for subsequent calendar years, but the City will not endeavor to seek payments already made for the months following the retiree's death. In the event of the death of retiree participating in the contribution program, surviving qualified

spouse will be eligible to receive a contribution for the following calendar year if the retiree would have been eligible to receive a contribution. If eligible, the contribution will be consistent with the eligibility criteria set above and continue until the exhaustion of the deceased retiree's sick leave bank, upon the death of the surviving spouse, upon the spouse and/or dependents coverage for other insurance through an employer, or upon voluntarily election to not continue with the contribution program.

For employees hired on or before December 31, 2010, the City shall contribute to a Defined Contribution retiree medical benefit plan for each eligible employee in the form of a deposit into a Health Reimbursement Arrangement (HRA). For non-sworn employees, effective July 2, 2013, the City shall contribute $25.00 per month. For sworn employees, effective August 26, 2014 the City shall contribute $25.00 per month. For a full time employee, this equates to a maximum of $300 per year. Employees in regular positions budgeted less than eighty (80) hours per pay period or job-shared positions, shall receive a pro-rated amount per month. Beginning January 1, 2015, the defined City contribution for non-sworn and sworn employees shall increase annually through January 1, 2019, by an additional $10 per year, per employee each January. The defined City contribution shall be a maximum contribution of $75 per month by January 2019. For all employees regardless of date of hire by January 1, 2019, the City will increase the City contribution to the City HRA by an additional ten dollars ($10.00) monthly per employee effective January 1, 2017; followed by an additional increase of ten dollars ($10.00) monthly per employee effective January 1, 2018; and followed by an additional increase of ten dollars ($10.00) monthly per employee effective January 1, 2019. The contribution effective January 1, 2019 will be $100.

For all unrepresented employees (sworn and non-sworn) hired on or after January 1, 2011, the City shall contribute to a Defined Contribution retiree medical benefit plan for each eligible employee in the form of a deposit into a Health Reimbursement Arrangement (HRA) account. An employee is eligible to receive a City HRA contribution upon completion of two full years. If an employee separates employment before meeting eligibility requirement, the employee shall receive no benefit. On the first pay period following completion of two full years of continuous City service, the CITY shall deposit $2,400 into an HRA account established in the employee's name. Employees in regular positions budgeted less than eighty (80) hours per pay period or job-shared positions, shall receive a pro-rated lump sum contribution based on hours worked. After the initial contribution is made, the City shall contribute $100 per month for each eligible full time employee. Employees in regular positions budgeted less than eighty (80) hours per pay period or job-shared positions, shall receive a pro-rated amount per month. Employees hired on or after January 1, 2011 and subject to this defined contribution plan shall not be eligible for any sick leave conversion towards retiree medical premiums of any sort. The City's contribution under this section represents the entire contribution towards employee retiree medical.

SECTION 31. PAYCHECK ADVICES. All employees who are on direct deposit will no longer be receiving hard-copy pay advices for. Employees will now be able to utilize the Employee self-service tool available via Oracle under the CoM Employee Self Service responsibility to view their pay advices including their annual W-2s. For any employees who currently are still receiving a payroll pay check, they will continue to receive a hard copy check with their **attached** payroll remittance. Pay

advices will be available anytime during payday Friday and payslips can be printed utilizing city computer workstation.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that Resolution No. 2016-376 is hereby rescinded.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of January, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION AMENDING A LABOR POLICY FOR PAYING AND REPORTING THE VALUE OF EMPLOYER PAID MEMBER CONTRIBUTIONS TO THE CALIFORNIA PUBLIC EMPLOYEES' RETIREMENT SYSTEM (CALPERS) ON BEHALF OF EMPLOYEES REPRESENTED BY THE MODESTO POLICE MANAGEMENT ASSOCIATION (MPMA) AND RESCINDING RESOLUTION NO. 2014-315

WHEREAS, by Resolution No 2014-315 adopted by the Council on August 12, 2014, the City adopted a labor policy providing for Public Employees' Retirement System (PERS) employee contributions to be paid by the City on behalf of employees and for reporting of employer-paid normal member contributions to PERS as compensation, and

WHEREAS, the governing body of the City of Modesto has the authority to implement Government Code Section 20636(c)(4) pursuant to Section 20691, and

WHEREAS, the governing body of the City of Modesto has a written labor policy or agreement which specifically provides for the normal member contributions to be paid by the employer, and reported as additional compensation, and

WHEREAS, one of the steps in the procedures to implement Section 20691 is the adoption by the governing body of the City of Modesto of a Resolution to commence paying and reporting the value of said Employer Paid Member Contributions, and

WHEREAS, the governing body has the authority to amend all members in a group or class of employment pursuant to Government Code Section 20691.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

Effective June 27, 2017, for Police Safety employees, the City of Modesto elects to pay zero percent (0%) of the normal member contributions of twelve percent (12%). No payment shall be implemented pursuant to the provisions of Section 20636 (c)(4) of the California Government Code.

BE IT FURTHER RESOLVED that this Resolution shall become effective on January 10, 2017.

BE IT FURTHER RESOLVED that effective June 27, 2017 Resolution No. 2014-315 is hereby repealed in its entirety.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of January, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION AUTHORIZING THE AWARD OF BID FOR THE PURCHASE OF SEVEN ONE-TON TRUCKS TO ALBANY FORD, ALBANY, CA, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO ISSUE A PURCHASING ORDER FOR AN ESTIMATED TOTAL COST OF $342,343

WHEREAS, the replacement of four one-ton trucks for various departments has been subjected to a thorough evaluation and has met or exceeded the replacement criteria before being placed on the replacement list, and

WHEREAS, the purchase of three new one-ton trucks for various departments was approved in the adopted Fiscal Year 2015-2016 budget to support the growth in personnel, and

WHEREAS, the purchase of one new one-ton truck for the Utilities Department, Wastewater Division was approved in the adopted Fiscal Year 2016-2017 budget to support the growth in personnel, and

WHEREAS, the City Manager authorized the Purchasing Manager to issue formal Request for Bids (RFB) for new vehicles and heavy equipment through various competitive processes, and

WHEREAS, on September 20, 2016, the Purchasing Division issued RFB 1516-39 for the purchase of six one-ton trucks on the City's website under the commodity codes for one-ton trucks. Prospective bidders were notified online of the bid opportunity. Fifteen companies chose to download the RFB document, and

WHEREAS, on October 11, 2016, bids were formally opened in the City Clerk's office. Five companies chose to respond. There was one local vendor capable of

providing this type of equipment. All five companies provided responsive and responsible bids, and

WHEREAS, the local vendor's bid was within five percent of the overall lowest responsive and responsible bid. Support Local Vendors was offered to the local vendor to price match the lowest bid. The local vendor declined this offer, and

WHEREAS, After the RFB closed a new request was received for an additional one-ton truck with the same specifications as one of the trucks in RFB 1516-39. To save staff time and the need for a second RFB the additional one-ton truck has been added to this award for a total of seven trucks, and

WHEREAS, based on providing the overall lowest responsive and responsible bid, City staff recommends the award of bid for the purchase of seven one-ton trucks to Albany Ford, Albany CA, for a total estimated cost of $342,343, and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed $50,000 for material, equipment or contractual services to be formally bid. The award of bid for the purchase of seven one-ton trucks to Albany Ford, Albany, CA, conforms to the Modesto Municipal Code, 8-3.203, and

WHEREAS, sufficient funds for three replacement one-ton trucks for the Parks, Recreation and Neighborhoods Department, Utilities Department, and the Public Works Department, were encumbered in account 5409-53246-57003 in both Fiscal Years 2015-2016 and 2016-2017. One replacement one-ton truck was encumbered in account 5409-53246-57003 in Fiscal Year 2016-2017. Funding for these vehicles was collected through the Internal Service Fund (ISF) via straight-line depreciation over the life of the vehicle, and

WHEREAS, sufficient funds for three new one-ton trucks were encumbered in accounts 4210-44316-57003, 4210-44410-57003, and 4210-44211-57003 in Fiscal Year 2015-2016 to be used for the purchase of these new vehicles in Fiscal Year 2016-2017.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the award of bid for the purchase of seven one-ton trucks to Albany Ford, Albany, CA, for an estimated total cost of $342,343.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is authorized to issue a purchase order for the purchase of the vehicles.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of January, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

RESOLUTION NO. 2017-11

Print

RESOLUTION AUTHORIZING THE AWARD OF BID FOR THE PURCHASE OF A TRUCK MOUNTED AERIAL TOWER TO TEREX UTILITIES, WATERTOWN, SD, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO ISSUE A PURCHASE ORDER FOR AN ESTIMATED TOTAL COST OF $172,043

WHEREAS, the replacement of a truck mounted aerial tower for the Public Works Department, Green Waste Division, has been subjected to a thorough evaluation and has met or exceeded the replacement criteria before being placed on the replacement list, and

WHEREAS, the City Manager authorized the Purchasing Manager to issue formal Request for Bids (RFBs) for new vehicles and heavy equipment through various competitive processes, and

WHEREAS, on October 28, 2015, the Purchasing Division issued RFB 1516-16 for the purchase of a non-brand specific truck with an aerial bucket on the City's website under the commodity codes for trucks one-ton or less and specialized bodies. Prospective bidders were notified online of the bid opportunity. Nine companies chose to download the RFB document, and

WHEREAS, on December 8, 2015, bids were formally opened in the City Clerk's office. Three companies chose to respond. There are no local vendors capable of providing this type of equipment. All three companies provided responsive and responsible bids, and

WHEREAS, on February 16, 2016, City Council awarded the bid to Terex Utilities through Resolution No. 2016-45. The City purchased that aerial tower unit and

has been satisfied with the performance of the equipment and responsiveness of the manufacturer, and

WHEREAS, based on providing the overall lowest responsive and responsible bid, City staff recommends the purchase of a truck mounted aerial tower to Terex Utilities, Watertown, SD, for a total estimated cost of $172,043, and

WHEREAS, City staff was advised by Terex Utilities that if the City were interested in purchasing another unit, Terex would honor the 2015 bid estimate of $172,043, and

Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed $50,000 for material, equipment or contractual services to be formally bid. However, there are exceptions to the rule set forth in the Modesto Municipal Code. One exception, MMC Section 8-3.204(d), is available where the Purchasing Manager, in his/her discretion, determines that a process other than the usual formal bid procedure set forth in MMC Section 8-3.203 will result in procurement for the City at the lowest possible cost commensurate with the desired quality, and

The Purchasing Manager has determined that this purchase meets the exceptions specified in MMC Section 8-3.204(d) by utilizing the previous competitive bid price, save a significant amount in staff time, and purchase a known manufacturer that meets or exceeds the desired quality of product. By accessing the pricing from a previous competitive bid, utilizing the prior competitive bid, the City will take advantage of the lowest price, avoiding any annual price increases and making the purchase of this equipment conform to MMC Section 8-3.204(d), and

WHEREAS, sufficient funds for a truck mounted aerial tower are budgeted in current Fiscal Year 2016-2017 in account 5409-53246-57003. Funding for this unit was collected through the internal service fund (ISF) via straight-line depreciation over the life of the unit.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the purchase of a truck mounted aerial tower to Terex Utilities, Watertown, SD, for an estimated total cost of $172,043.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is authorized to issue a purchase order.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of January, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION ACCEPTING THE FEDERAL HIGHWAY SAFETY IMPROVEMENT PROGRAM (HSIP) CYCLE 8 GRANT IN THE AMOUNT OF $391,230 TO INSTALL 1900 TRAFFIC SIGNAL BACKPLATES WITH 2-INCH REFLECTIVE BORDERS, 300 MARKED CROSSWALKS, AND 500 STOP BARS AND STOP LEGENDS AT VARIOUS LOCATIONS IN MODESTO, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE ALL NECESSARY GRANT DOCUMENTS

WHEREAS, staff was notified that Highway Safety Improvement Program (HSIP) funds may be available for the installation of reflective traffic signal backplates, high visibility crosswalk markings and stop bars and stop legends at various locations in Modesto, and

WHEREAS, on August 11, 2016, the application for this grant was submitted to the State (Caltrans), and

WHEREAS, on November 22, 2016, the City was notified that it was awarded this project, and

WHEREAS, the project will be 90% funded by the HSIP grant, with 10% funding required by the City, and

WHEREAS, the grant will be for the installation of 1900 traffic signal backplates with 2-inch reflective borders, 300 high visibility crosswalks, and 500 stop bars and stop legends at various locations in Modesto, and

WHEREAS, the completion of this project will result in a reduction of traffic collisions in Modesto, and

WHEREAS, the completion of this project will improve public safety and it will also allow public safety resources to be redirected to other necessary public services when there is a reduction is traffic collisions, and

WHEREAS, resources for pavement delineation maintenance have not been at a sustainable level resulting in an increase in deferred maintenance and this grant will help reduce a portion of the work back log at various locations in Modesto.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the Highway Safety Improvement Program (HSIP) Cycle 8 grant in the amount of $391,230, to install 1900 traffic signal backplates with 2-inch reflective borders, 300 marked crosswalks, and 500 stop bars and stop legends at various locations in Modesto.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute all necessary grant documents.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of January, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-13

RESOLUTION APPROVING THE QUARTERLY ADJUSTMENTS TO THE MAXIMUM RATE SCHEDULE FOR CITY RESIDENTIAL OF $.05 PER MONTH AND COMMERCIAL SOLID WASTE COLLECTION SERVICES OF $.05 PER CUBIC YARD PER MONTH, RETROACTIVE TO JANUARY 1, 2017, AND RESCINDING RESOLUTION NO. 2016-386

WHEREAS, with the adoption of Ordinance No. 3068-C.S. in November of 1997, the City no longer sets rates for the collection of garbage in Modesto, and instead performs a comprehensive review of cost information submitted by the contract garbage haulers, and

WHEREAS, the City sets the maximum rate that the haulers may charge for the various types of services provided under the contracts based on cost data provided by the lowest cost hauler, and

WHEREAS, Section f (2) of the City's Service Agreements with its solid waste collectors requires that when the City makes adjustments to the collection services provided under the Agreements, any additional costs should be covered by adjustments to the maximum rates, and

WHEREAS, in addition, maximum rates for solid waste collection services are reviewed annually as requested by the City's garbage collection companies, and

WHEREAS, the City conducted an analysis using the audited financial statements provided by the garbage haulers, supplemental data provided by the garbage haulers, and fuel price information and forecast prices developed by the United States Department of Energy, and

WHEREAS, new maximum rates were calculated and a recommendation for a new maximum rate schedule was developed, which included a recommendation that

RESCINDED
JUL 11 2017
[1]THIS RESOLUTION WAS RESCINDED BY MODESTO CITY COUNCIL RESOLUTION NO. 2017-279

quarterly adjustments to the fuel component of the maximum rates be made, and

WHEREAS, staff has made adjustments related to the fuel component of the maximum rates and has incorporated the fuel component adjustments into the schedule of the Maximum Charges for Garbage Service **attached** hereto, marked **Attachment A,** January 1, 2017, and incorporated herein by reference, and

WHEREAS, on September 27, 2016, by Resolution No. 2016-386, the City Council approved the schedule for Maximum Charges for Garbage Service **attached** hereto as **Attachment A**, January 1, 2017, and incorporated by reference, and

WHEREAS, this action is to adjust maximum rates for existing services and therefore does not require environmental review, and

WHEREAS, it was found and determined by the Council of the City of Modesto that the quarterly adjustments to the fuel component of the maximum rates should be made.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the **attached** quarterly fuel adjustments to the Maximum Rate Schedule for City residential of $.05 per month and, and commercial solid waste collection services of $.05 per cubic yard per month, to become effective retroactive to January 1, 2017.

BE IT FURTHER RESOLVED, that adjustments to the Maximum Rate Schedule for Garbage Services, **Attachment A**, dated January 1, 2017, are approved and shall become effective retroactive to January 1, 2017 and shall remain in effect until rescinded.

BE IT FURTHER RESOLVED, said Maximum Charges for Garbage Service **attached** as **Attachment A** to this Resolution, dated January 1, 2017, shall replace **Attachment A** of Resolution No. 2016-386 in its entirety and shall become effective

January 1, 2017, and shall remain in effect until revised or rescinded by Council.

BE IT FURTHER RESOLVED that Resolution No. 2016-386 is hereby rescinded effective January 1, 2017.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of January, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

ATTACHMENT A
January 1, 2017

MAXIMUM CHARGES FOR GARBAGE SERVICE

STANDARD CONTAINERS

Maximum Monthly Rates (Once a Week Pickup Service)

Standard container service maximum rates shall include the following:

- One 96-gallon container for garbage and one 96-gallon container for organics recycling
- Two bulky item collections per year by appointment
- Maintenance of City trees, including collection & composting of Green Waste/Forestry materials
- Removal of illegally dumped items in streets and alleys
- Drop off program for Household Hazardous Waste at the HHW Facility

Standard container service customers may opt for smaller containers; however, maximum rates apply. Containers must be placed in a location set forth in Section 5-5.111 of the Municipal Code.

1. Standard container service

a. The maximum rate for new sign-ups for service or changes in service that occur after October 1, 1996, shall be **$30.52 per month** regardless of size of container. A fuel component of $.88 per month is included in the maximum rate for August 2016 through October 2016. The fuel component may be adjusted quarterly as needed.

b. The maximum rate for each additional garbage container shall be **$21.44 per month, and $10.27 per month** for each additional organics recycling container.

2. 60-gallon container service (grandfathered customers)

a. The maximum rate for customers with 60-gallon containers who subscribed to service at an address prior to July 1, 1996 and who have not changed their service address shall be **$24.11 per month.** A fuel component of $.88 per month is included in the maximum rate for August 2016 through October 2016. The fuel component may be adjusted quarterly as needed

b. The maximum rate for each additional 60-gallon garbage container shall be **$20.90 per month.**

3. **Fuel Component adjustments** - The fuel component will be analyzed quarterly and adjustments shall be made as needed. The adjustment shall be based on the average price of fuel for a preceding quarter as follows: July 1/January-March; October 1/April-June; January 1/July-September; April 1/October-December. Average prices shall be determined based on published prices for California from the Department of Energy, Energy Information Agency.

RESOLUTION AUTHORIZING THE AWARD OF BID FOR THE PURCHASE OF A BACKHOE FOUR-WHEEL DRIVE TO SONSRAY MACHINERY, STOCKTON, CA, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO ISSUE A PURCHASE ORDER FOR AN ESTIMATED TOTAL COST OF $112,105

WHEREAS, the replacement of a backhoe four-wheel drive for the Utilities Department, Water Division, has been subjected to a thorough evaluation and has met or exceeded the replacement criteria before being placed on the replacement list, and

WHEREAS, the City Manager authorized the Purchasing Manager to issue formal Request for Bids (RFBs) for new vehicles and heavy equipment through various competitive processes, and

WHEREAS, on September 27, 2016, the Purchasing Division issued RFB 1617-03 for the purchase of a backhoe four-wheel drive on the City's website under the commodity codes for agriculture equipment, road and highway equipment and front end loaders. Prospective bidders were notified online of the bid opportunity. Seven companies chose to download the RFB document, and

WHEREAS, on October 25, 2016, bids were formally opened in the City Clerk's office. Two companies chose to respond. Both companies provided responsive and responsible bids. Local vendors capable of providing this type of equipment chose not to respond, and

WHEREAS, based on providing the overall lowest responsive and responsible bid, City staff recommends the award of bid for the purchase of a backhoe four-wheel drive to Sonsray Machinery, Stockton CA, for a total estimated cost of $112,105, and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed $50,000 for material, equipment or contractual services to be formally bid. The award of bid for the purchase of a backhoe four-wheel drive to Sonsray Machinery, Stockton, CA, conforms to the Modesto Municipal Code, 8-3.203, and

WHEREAS, sufficient funds for a backhoe four-wheel drive were encumbered in account 5409-53246-57003 in Fiscal Year 2015-2016. Funding for this unit was collected through the internal service fund (ISF) via straight-line depreciation over the life of the unit.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the award of bid for the purchase of a backhoe four-wheel drive to Sonsray Machinery, Stockton, CA, for an estimated total cost of $112,105.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is authorized to issue a purchase order.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of January, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION AUTHORIZING THE AWARD OF BID FOR THE PURCHASE OF A NEW COMPACT BIKE LANE SWEEPER TO MUNICIPAL MAINTENANCE EQUIPMENT, SACRAMENTO, CA, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO ISSUE A PURCHASE ORDER FOR AN ESTIMATED TOTAL COST OF $246,768

WHEREAS, the purchase of a new compact bike lane sweeper for the Green Waste Division of the Public Works Department has been approved to support the cleaning of new bike lanes in various locations around the City, and

WHEREAS, the City Manager authorized the Purchasing Manager to issue formal Request for Bids (RFB) for new vehicles and heavy equipment through various competitive processes, and

WHEREAS, on September 28, 2016, the Purchasing Division issued RFB 1617-12 for the purchase of a new compact bike lane sweeper on the City's website under the commodity codes for automotive vehicles, trucks with specialized bodies and street sweepers. Prospective bidders were notified online of the bid opportunity. Eight companies chose to download the RFB document, and

WHEREAS, on October 25, 2016, bids were formally opened in the City Clerk's office. One company chose to respond. There are no local vendors capable of providing this type of equipment. Municipal Maintenance Equipment, Sacramento, CA, provided a responsive and responsible bid, and

WHEREAS, based on providing the overall lowest responsive and responsible bid, City staff recommends the award of bid for the purchase of a compact bike lane sweeper to Municipal Maintenance Equipment, Sacramento, CA, for a total estimated cost of $246,768, and

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed $50,000 for material, equipment or contractual services to be formally bid. The award of bid for the purchase of a compact bike lane sweeper to Municipal Maintenance Equipment, Sacramento, CA, conforms to the Modesto Municipal Code 8-3.203, and

WHEREAS, all street sweepers in the City are purchased by the Stormwater Compliance Fund and operated by the Green Waste Division, and

WHEREAS, sufficient funds for a new compact bike lane sweeper are budgeted in Fiscal Year 2016-2017 in account 4480-44111-57003.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the award of bid for the purchase of a new compact bike lane sweeper to Municipal Maintenance Equipment, Sacramento, CA,

BE IT FURTHER RESOLVED that the City Manager, or his designee, is authorized to issue a purchase order for an estimated total cost of $246,768.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of January, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING A PURCHASE AND SALE AGREEMENT WITH ALLEN ENTERPRISES, FOR ACQUISITION OF 0.77 ACRES FOR A PERMANENT WATER LINE EASEMENT AND 0.77 ACRES FOR A TEMPORARY CONSTRUCTION EASEMENT, LOCATED AT 307 ZACHARIAS ROAD, IN PATTERSON, (APN: 021-020-022), AT MINIMAL COST TO THE CITY, FOR THE NORTH VALLEY REGIONAL RECYCLED WATER PROJECT

WHEREAS, the City of Modesto is a participant in the North Valley Regional Recycled Water Project (the Project), and

WHEREAS, the Project will convey treated tertiary water via pipeline from the City's Jennings Treatment Facilities to the Delta-Mendota Canal via a new pump station and underground pipelines, to serve irrigation customers of the Del Puerto Water District (DPWD), and

WHEREAS, the improvements in this Project include the construction and installation of underground pipelines and related improvements on real property located at 307 Zacharias Road in Patterson (APN 021-020-022) (the Subject Property), and

WHEREAS, Allen Enterprises, the owner of the Subject Property, has agreed to convey to the City of Modesto a permanent water line easement over a 0.77-acre area, and a temporary construction easement, over a 0.77-acre area of the Subject Property to allow the City to install and maintain the pipelines, at no cost to the City, and

WHEREAS, City Staff recommends that the City enter into the Purchase and Sale Agreement with the property owner for acquisition of the permanent and temporary construction easements on the Subject Property.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Purchase and Sale Agreement with Allen Enterprises, for the

acquisition of a permanent water line easement over a 0.77-acre area, and a temporary construction easement over a 0.77-acre area of the Subject Property located at 307 Zacharias Road in Patterson (APN 0021-020-022), at no cost to the City for the North Valley Regional Recycled Water Project.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the Agreement, and all related documents required to close escrow, including the certificate of acceptance.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of January, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING THE GRANT OF EASEMENT FROM ALLEN ENTERPRISES AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO SIGN THE CERTIFICATE OF ACCEPTANCE FOR THE GRANT OF EASEMENT FOR THE PERMANENT WATER LINE EASEMENT, CONSISTING OF 0.77 ACRES AND TEMPORARY CONSTRUCTION EASEMENT, CONSISTING OF 0.77 ACRES, LOCATED AT 307 ZACHARIAS ROAD, IN PATTERSON, (APN 021-020-022), FOR THE NORTH VALLEY REGIONAL RECYCLED WATER PROJECT

WHEREAS, the City of Modesto is a participant for the North Valley Regional Recycled Water Project (the Project), and

WHEREAS, the Project will convey treated tertiary water via pipeline from the City's Jennings Treatment Facilities to the Delta-Mendota Canal via a new pump station and underground pipelines, to serve irrigation customers of the Del Puerto Water District (DPWD), and

WHEREAS, the improvements in this Project include the construction and installation of underground pipelines and related improvements on real property located at 307 Zacharias Road in Patterson (APN 021-020-022) (the Subject Property), and

WHEREAS, Allen Enterprises, the owner of the Subject Property, has agreed to convey to the City of Modesto a permanent and temporary construction easement to allow the City to install and maintain the pipelines, and

WHEREAS, City staff recommends that the City Council execute and accept the Grant Of Easement, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Grant Of Easement with Allen Enterprises for the acquisition of a permanent water line easement over a 0.77-acre area, and a temporary construction

easement, over a 0.77-acre area, of the Subject Property located at 307 Zacharias Road, Patterson (APN 021-020-022), for the North Valley Regional Recycled Water Project.

BE IT FURTHER RESOLVED that the Council of the City of Modesto that the City Manager, or his designee, is hereby authorized to execute the Certificate of Acceptance for the Grant Of Easement for the acquisition of a permanent water line easement and temporary construction easement on the Subject Property located at 307 Zacharias Road, in Patterson, (APN 021-020-022) to be conveyed to the City of Modesto.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute and accept the Grant of Easement, and all related documents required to close escrow.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of January, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-18

Print

RESOLUTION APPROVING AN AGREEMENT WITH HAZEN AND SAWYER, INC., SAN FRANCISCO, CA, FOR HYDROGEOLOGICAL AND DESIGN SERVICES FOR THE GRAYSON WELL 274 REPLACEMENT PROJECT, IN AN AMOUNT NOT TO EXCEED $293,973 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS $29,397 FOR ADDITIONAL SERVICES (IF NEEDED), FOR A MAXIMUM TOTAL AMOUNT OF $323,370 AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the Grayson water service area was acquired from the Del Este Water Company in 1995 as part of the overall acquisition of Del Este's water system, and

WHEREAS, the City now operates and maintains two wells and storage tank No. 9 in the outlying service area of Grayson, and

WHEREAS, elevated nitrate concentrations have been a problem at Well 274, and the water requires treatment for nitrate removal at the Well 295/Tank 9 site, and

WHEREAS, a feasibility study completed in January 2015, addressing nitrate concentrations in Well 274 and recommended a replacement well, because the current well is relatively shallow and was installed in 1967, and

WHEREAS, on November 24, 2015, by Resolution No. 2015-454, Council accepted a 9,945 square foot site from Stanislaus County, expanding the Well 274 site in order to drill a replacement well, and

WHEREAS, on March 22, 2016, by Resolution No. 2016-116, Council approved an agreement with Kleinfelder, Inc. to provide a geophysical investigation of the site, and

WHEREAS, the geophysical investigation results determined that a production zone of approximately 270-340 feet below ground surface (bgs) could potentially produce 400-500 gallons per minute (gpm), which would be suitable for a replacement well, and

WHEREAS, in accordance with Administrative Directive 3.1, Selection Procedures for Professional Consultants Who Provide Architectural and Engineering Services for Capital Projects, a Request for Proposal (RFP) was sent to five (5) pre-qualified consultants for Engineering Design Services for Water Capital Improvement Program Projects, and

WHEREAS, in addition, Kleinfelder, Inc., who performed the geophysical investigation, was sent the RFP, and

WHEREAS, on November 4, 2016, staff received and distributed six (6) proposals to a selection committee consisting of Utilities engineering and operations staff, and

WHEREAS, the selection committee evaluated the proposals and determined that Hazen and Sawyer, Inc. (Hazen), to be the most qualified and responsive, and

WHEREAS, Hazen's sealed proposal costs were opened after the selection ranking had been finalized, and

WHEREAS, Hazen's proposal cost and scope were reviewed and determined to be reasonable to provide hydrogeological and design services, and

WHEREAS, as a part of their design team, Hazen proposed L Street Architects and NorthStar Engineering Group as local sub-consultants, and

WHEREAS, the scope of services to be provided under the agreement includes: 1) Design of production well including subsurface design; 2) Hydro-geological support during drilling of production well; 3) Design of above-grade facilities; and 4) Services during equipping of the production well,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with Hazen and Sawyer, Inc., San Francisco, CA, for hydrogeological and design services for the Grayson Well 274 Replacement Project, in an amount not to exceed $293,973 for the identified scope of services, plus $29,397 for additional services (if needed), for a maximum total amount of $323,370.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the Agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of January, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

RESOLUTION APPROVING AMENDMENT NO. 2 TO CITY OF MODESTO PROGRAM YEAR 2016-2017 ANNUAL ACTION PLAN TO (1) ALLOCATE $13,257.50 OF UNCOMMITTED FY 2016-2017 EMERGENCY SOLUTIONS GRANT FUNDS FOR RAPID REHOUSING AND HOMELESS PREVENTION ACTIVITIES; (2) ALLOCATE AN ADDITIONAL $100,000 IN COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) ENTITLEMENT FUNDS FOR THE ACQUISITION, PUBLIC FACILITY IMPROVEMENT, CLEARANCE AND REMEDIATION ACTIVITIES RELATED TO THE HOMELESS ACCESS CENTER; (3) ALLOCATE $400,000 IN CDBG ENTITLEMENT FUNDS TO ESTABLISH A REVOLVING LOAN FUND FOR A HOMEOWNER SEWER AND WATER CONNECTION PROGRAM; (4) ADD A FAIR HOUSING ACTIVITY AND ALLOCATE UP TO $10,000 IN CDBG ENTITLEMENT FUNDS; AND (5) ESTABLISH THE USE OF ACTIVITY DELIVERY COSTS ASSOCIATED WITH CDBG ELIGIBLE PROJECTS, AUTHORIZING STAFF TO SUBMIT AN APPLICATION TO THE U.S. DEPARTMENT OF HOUSING & URBAN DEVELOPMENT FOR AMENDMENT NO. 2 AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO NEGOTIATE AND EXECUTE ANY RELATED PROGRAM AGREEMENTS, CONTRACTS OR OTHER DOCUMENTATION REQUIRED FOR IMPLEMENTATION OF AMENDMENT NO. 2

WHEREAS, on June 14, 2016, the City Council, by Resolution No. 2016-254, approved the submission of the Program Year 2016-2017 Annual Action Plan (AAP) to the U.S. Department of Housing and Urban Development (HUD), and

WHEREAS, on June 21, 2016, City Council, by Ordinance No., 3652-C.S., adopted the Fiscal Year 2016-2017 Annual and Multi- Year Operating Budgets, and

WHEREAS, any changes to AAP allocations are accomplished through amendments to the AAP, and

WHEREAS, on October 4, 2016, the City Council, by Resolution No. 2016-406, approved Amendment No. 1 to the City of Modesto Program Year 2016-17 AAP, and

WHEREAS, Amendment No. 2 to the City of Modesto Program Year 2016-17 AAP (Amendment No. 1): (1) allocates $13,257.50 of uncommitted FY 2016-2017

Emergency Solutions Grant (ESG) funds for Rapid Rehousing and Homeless Prevention Activities; (2) allocates an additional $100,000 in Community Development Block Grant (CDBG) entitlement funds for the Acquisition, Public Facility Improvement, and Clearance and Remediation Activities related to a Homeless Access Center; (3) allocates $400,000 in CDBG entitlement funds to establish a Revolving Loan Fund for a Homeowner Sewer and Water connection program; (4) allocates $10,000 in CDBG entitlement funds to fund Fair Housing activities; and (5) establishes the use of CDBG entitlement funds for activity delivery costs associated with CDBG eligible projects in an amount up to 20% of overall project cost, and

WHEREAS, the public was afforded a 30-day comment period on the proposed amendment, and

WHEREAS, on December 8, 2016, City staff presented the Amendment No. 2 to the Citizens' Housing & Community Development Committee meeting who recommended it be forwarded to forward to City Council for approval, and

WHEREAS, on December 15, 2016, City staff held a community meeting, to assess local needs and priorities related to Amendment No. 2, and

WHEREAS, the 30-day public review period to review and comment on the draft documents opened on Wednesday, December 7, 2016 and closed with a public hearing at the City Council meeting on Tuesday, January 10, 2017, and

WHEREAS, any comments received during the public review period or during the January 10, 2017 City Council meeting will be incorporated into the final Amendment No. 2 to City of Modesto Program Year 2016-2017 Annual Action Plan, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby adopts Amendment No. 2 to City of Modesto Program Year 2016-2017 Annual Action Plan to (1) allocate $13,257.50 of uncommitted FY 2016-2017 Emergency Solutions Grant (ESG) funds for Rapid Rehousing and Homeless Prevention Activities; (2) allocate an additional $100,000 in Community Development Block Grant (CDBG) entitlement funds for the Acquisition, Public Facility Improvement, and Clearance and Remediation Activities related to a Homeless Access Center; (3) allocate $400,000 in CDBG entitlement funds to establish a Revolving Loan Fund for a Homeowner Sewer and Water connection program; (4) allocate $10,000 in CDBG entitlement funds to fund Fair Housing activities; and (5) establish the use of CDBG entitlement funds for activity delivery costs associated with CDBG eligible projects in an amount up to 20% of overall project cost.

BE IT FURTHER RESOLVED that City staff is authorized to submit an application to HUD for Amendment No. 2 to the City of Modesto Program Year 2016-2017 Annual Action Plan as described in "Draft Program Year 2016-2017 Annual Action Plan Second Amendment," **attached** hereto as **Exhibit A** and incorporated by reference herein.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the City Manager, or his designee, is hereby authorized to negotiate and execute any related program agreements, contracts or other documentation required for implementation of Amendment No. 2 to City of Modesto Program Year 2016-17 Annual Action Plan.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of January, 2017, by Councilmember Zoslocki, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

City of Modesto
Program Year 2016-2017
Annual Action Plan Second Amendment

SECOND AMENDMENT
City of Modesto

2016 Annual Action Plan

Substantial Amendment

City Council January 10, 2017:

The purpose of the Substantial Amendment is to define the following Eligible Uses:

1. **Emergency Shelter Beds and Eligible - Supportive Services - Homeless (SP-60 Homelessness Strategy - 24 CFR 91.215(d)).**

Access Center $100,000

Resources: CDBG 24CFR 570.200

National Objective: Low/Moderate Income Area (LMA)

- Acquisition (570.504)
- Public Facility Improvement (570.200(b))
- Clearance and remediation activities (570.205)

2. **Emergency Solutions Grant (ESG) Request for Proposals (RFP): Release a Request for Proposals of uncommitted FY 2016-2017 ESG funds.**

Rapid Rehousing and Homeless Prevention Activities $13,257.50

Resources: ESG 24CFR 576.104

National Objective: Low/Moderate Clientele (LMC)

- Housing Relocation and Stabilization Services (576.105)
- Short- and Medium-term Rental Assistance (576.106)

3. **Activity Delivery Costs Clarification: The definition of program administration costs from 24 CFR 570.206 specifically excludes activity delivery costs (e.g. – staff and overhead costs directly related to carrying out activities under 24 CFR 570.201 through 570.204).**

Resources: 24CFR 570.201 through 24CFR570.204

For example, in a rehabilitation project, the costs for preparation of work specifications, loan processing, and property inspections would be eligible activity delivery costs regardless of whether or

not the actual rehabilitation of the structure was paid for with CDBG funds. However, to be eligible activity delivery costs, the activity being delivered must be CDBG-eligible. There is not limit on the percentage of CDBG funds that may be used for eligible activity delivery costs.

4. **Sewer Connection Program: Establish a Revolving Loan Fund for the purpose of carrying out a sewer housing connection program which, in turn, generates payments to the fund for use in carrying out the same activities. This program will provide financial assistance to eligible owner-occupied residents located within the City of Modesto. These activities will repair or eliminate conditions that present critical health and safety hazards, including connection fees.**

Homeowner Rehabilitation Activities $400,000

Resources: CDBG 24CFR 570.202; Matrix Code 14A, 14B,

National Objective: Low/Moderate Clientele (LMC)

- Water and Sewer Connections in the form of grants, loans, loan guarantees, interest subsidies, or other forms of assistance to homeowners for the purpose of repairs, rehabilitation, or reconstruction.

5. **Fair Housing: Add an activity within the FY 2016-2017 AAP that would allow the City of Modesto to contract with a local fair housing service provider to deliver fair housing services within the City of Modesto.**

Fair Housing Activities $10,000

Resources: CDBG 24 CFR 570.602

National Objective: Low/Moderate Clientele (LMC)

- The delivery of fair housing services on behalf of the City of Modesto

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-20

RESOLUTION AMENDING THE FISCAL YEAR 2016-17 ANNUAL OPERATING AND CAPITAL IMPROVEMENT BUDGETS TO REFLECT CHANGES NOTED IN THE ATTACHED AMENDMENT NO. 2 TO CITY OF MODESTO'S PROGRAM YEAR 2016-2017 ANNUAL ACTION PLAN FOR COMMUNITY DEVELOPMENT BLOCK GRANT AND EMERGENCY SOLUTION GRANT FUNDS, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO TAKE THE NECESSARY STEPS TO IMPLEMENT THE PROVISIONS OF THIS RESOLUTION

WHEREAS, on June 14, 2016, the City Council, by Resolution No. 2016-254, approved the submission of the Program Year 2016-2017 Annual Action Plan (AAP) to the U.S. Department of Housing and Urban Development (HUD), and

WHEREAS, on June 21, 2016, City Council, by Ordinance No. 3652-C.S., adopted the Fiscal Year 2016-2017 Annual and Multi-Year Operating Budgets, and

WHEREAS, any changes to AAP allocations are accomplished through amendments to the AAP, and

WHEREAS, on October 4, 2016, the City Council, by Resolution No. 2016-406, approved Amendment No. 1 to the City of Modesto Program Year 2016-17 AAP, and

WHEREAS, Amendment No. 2 to the City of Modesto Program Year 2016-17 AAP (Amendment No. 1) allocates $13,257.50 of uncommitted FY 2016-2017 Emergency Solutions Grant (ESG) funds for Rapid Rehousing and Homeless Prevention Activities, and

WHEREAS, Amendment No. 2 allocates an additional $100,000 in Community Development Block Grant (CDBG) entitlement funds for the Acquisition, Public Facility Improvement, and Clearance and Remediation Activities related to a Homeless Access Center, and

WHEREAS, Amendment No. 2 allocates $400,000 in CDBG entitlement funds to establish a Revolving Loan Fund(Project) for a Homeowner Sewer and Water connection program, and

WHEREAS, Amendment No. 2 adds $10,000 in CDBG entitlement funds to fund a Fair Housing activity, and

WHEREAS, Amendment No. 2 establishes the use of CDBG entitlement funds for activity delivery costs associated with CDBG eligible projects in an amount up to 20% of overall project cost, and

WHEREAS, the public was afforded a 30-day comment period on the proposed amendment, and

WHEREAS, on December 8, 2016, City staff presented Amendment No. 2 to the Citizens' Housing & Community Development Committee meeting who recommended it be forwarded to City Council for approval.

NOW, THEREFORE, BE IT RESOLVED, that the Modesto City Council hereby approves an amendment to the fiscal year 2016-17 annual operating and capital improvement budgets to reflect changes noted in Amendment No. 2, **attached** hereto as **Exhibit A**, to City of Modesto's Program Year 2016-2017 Annual Action Plan for Community Development Block Grant and Emergency Solution Grant Funds, and authorizing the City Manager, or his designee, to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of January, 2017, by Councilmember Zoslocki, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-21

Print

RESOLUTION APPROVING AN AMENDMENT TO THE GENERAL PLAN TO ADOPT THE 2015 HOUSING ELEMENT

WHEREAS, Government Code Section 65300 et. seq. requires the legislative body of each city and county to adopt a comprehensive, long-term general plan for the physical development of the county or city and of any land outside its boundaries which in the planning agency's judgment bears relation to its planning, and

WHEREAS, on October 14, 2008, the City Council of the City of Modesto certified the Final Master Environmental Impact Report ("Master EIR") (SCH No. 2007072023) for the Modesto Urban Area General Plan, and

WHEREAS, Government Code Section 65358 permits the amendment of the mandatory elements of a general plan no more often than four times during any calendar year; and

WHEREAS, the State of California requires each city to include in its General Plan a Housing Element, which must be updated every eight years (Government Code Section 65580 et seq.), and

WHEREAS, said Housing Element must demonstrate that a city has accommodated a certain number of dwelling units to house people of different income levels, and

WHEREAS, staff transmitted the revised Housing Element to the Department of Housing and Community Development on December 10, 2015, and

WHEREAS, the City of Modesto received a comment letter from the Department of Housing and Community Development on February 9, 2016, identifying needed revisions to the Housing Element, and

WHEREAS, a public hearing was held by the Planning Commission on March 21, 2016, in Chambers, 1010 Tenth Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered, and

WHEREAS, the Planning Commission recommended City Council approve a resolution (Resolution 2016-07) adopting an Initial Study, Environmental Assessment No. EA/C&ED 2016-01, which concluded that the potential environmental effects of the proposed specific plan amendment have been adequately addressed within the context of the previously-certified Master EIR (SCH No. 2007072023), Tivoli Specific Plan EIR (SCH #2005072125) and Woodglen Specific Plan EIR (SCH #2007042087), and that, pursuant to Section 15182 of the CEQA Guidelines, Section 21166 of the Public Resources Code, no new environmental review is required, and

WHEREAS, the Planning Commission also recommended City Council approve an amendment to the General Plan (Resolution 2016-08) to adopt the 2015 Housing Element, and

WHEREAS, a public hearing was held by the City Council on April 12, 2016, in Chambers, 1010 Tenth Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered, and

WHEREAS, the City Council adopted an Initial Study, Environmental Assessment No. EA/C&ED 2016-01 (Resolution 2016-154), which concluded that the potential environmental effects of the proposed specific plan amendment have been

adequately addressed within the context of the previously-certified Master EIR (SCH No. 2007072023), Tivoli Specific Plan EIR (SCH #2005072125) and Woodglen Specific Plan EIR (SCH #2007042087), and that, pursuant to Section 15182 of the CEQA Guidelines, Section 21166 of the Public Resources Code, no new environmental review is required, and

WHEREAS, the City Council also approved an amendment to the General Plan (Resolution 2016-155) to adopt the 2015 Housing Element, and

WHEREAS, staff transmitted the revised Housing Element to the Department of Housing and Community Development on September 1, 2016, and

WHEREAS, the City of Modesto received a letter from the Department of Housing and Community Development on November 1, 2016, indicating that the revised 2015 Housing Element meets the statutory requirements and will comply with State law when the revisions are adopted and submitted to the State, and

WHEREAS, a public hearing was held by the Planning Commission on November 21, 2016, in Chambers, 1010 Tenth Street, Modesto, California, at which evidence both oral and documentary was received and considered, and

WHEREAS, said matter was set for a public hearing of the City Council held on December 13, 2016, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which date and time said duly noticed public hearing of the Council was held for the purpose of receiving public comment on the proposed amendment to the Modesto Urban Area General Plan Housing Element, Chapter IV.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby finds and determines that the proposed amendment to the Modesto Urban

General Plan to as described in **Exhibit "A", attached** hereto and incorporated herein by reference, is required for the public health, safety, and welfare of the citizens of Modesto.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that it hereby adopts the proposed amendment to the General Plan as described in **Exhibit "A", attached** hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community and Economic Development Department Director is hereby authorized and directed to forward certified copies of this resolution and said amendment to the Urban Area General Plan to the Board of Supervisors, and file a Notice of Determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of January, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-22

Print

RESOLUTION FINDING THAT THE FOLLOWING SUBSEQUENT PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (STATE CLEARINGHOUSE NO. 2007072023): AMENDMENT TO SECTION 22-3-9 OF THE ZONING MAP OF THE CITY OF MODESTO TO REZONE FROM LOW DENSITY RESIDENTIAL (R-1) ZONE TO GENERAL COMMERCIAL (C-2) ZONE, PROPERTY LOCATED AT 1115 OAKDALE ROAD, WEST OF MORNINGSIDE DRIVE (GFF & R II)

WHEREAS, on October 14, 2008, the City Council of the City of Modesto certified the Final Master Environmental Impact Report ("Master EIR") (SCH No. 2007072023) for the Modesto Urban Area General Plan, and

WHEREAS, GFF & R II has proposed a rezone of property located at 1115 Oakdale Road from Low Density Residential (R-1) Zone to General Commercial (C-2) Zone, and

WHEREAS, pursuant to Section 21157.1 of the Public Resources Code, the City of Modesto's Community & Economic Development Department prepared an Environmental Assessment Initial Study EA/C&ED 2016-23 ("Initial Study") which analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report, and

WHEREAS, in accordance with CEQA guidelines beginning on December 13, 2016, the City caused to be published a 20-day notice of the City's intent to make a finding that the subsequent project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on January 10, 2017, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed rezone, a copy of which is **attached** hereto as **Exhibit "A"**, and incorporated herein by reference, and based on substantial evidence in the Initial Study makes the following findings:

1. An Initial Study was prepared by the City of Modesto that analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report.

2. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.

3. No new or additional mitigation measures or alternatives are required.

4. The subsequent project is within the scope of the project covered by the Master EIR.

5. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

6. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of approval or determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of January, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold
NOES:	Councilmembers:	None
ABSENT:	Councilmembers:	None

"OFFICIAL" FILE COPY

City of Modesto

Finding of Conformance to General Plan Master EIR:

Initial Study Environmental Checklist C&ED No. 2016-23

For the proposed:

RZN-16-002: Rezone of 4.76 Acres from Low Density Residential (R-1) Zone to General Commercial (C-2) Zone

TPM-16-003: Vesting Tentative Parcel Map of one 3.6 Acre Parcel within Rezone Area to Two Parcels

DPR-16-009: Development Plan Review for Five New Commercial Buildings on 4.76 Acres

1115 Oakdale Road
(APN 032-015-047 and portion of APN 032-015-045)

Prepared by:
City of Modesto
Community & Economic Development Department
Planning Division

October 20, 2016

(Intentional Blank Page)

City of Modesto
Master EIR Initial Study Environmental Checklist

I. PURPOSE

CEQA allows for the limited environmental review of subsequent projects under the City's Master Environmental Impact Report ("Master EIR" or "MEIR"). This Initial Study Environmental Checklist ("Initial Study") is used in determining whether the Rezone, Vesting Tentative Parcel Map and Development Plan Review for 1115 Oakdale Road ("Project") is "within the scope" of the project analyzed in the Modesto Urban Area General Plan Master EIR (SCH# 2007072023) (Public Resources Code section 21157.1). When the Initial Study supports this conclusion, the City will issue a finding of conformance.

A subsequent project is "within the scope" of the Master EIR when:

1. it will have no additional significant effects on the environment that were not addressed as significant effects in the Master EIR; and

2. no new or additional mitigation measures or alternatives are required.

"Additional significant effects" means a project-specific effect that was not addressed as a significant effect in the Master EIR. [Public Resources Code Section 21158(d)]

The determination must be based on substantial evidence in the record. "Substantial evidence" means facts, reasonable assumptions predicated upon facts, or expert opinion based on facts. It does not include speculation or unsubstantiated opinion. (CEQA Guidelines Section 15384)

II. PROJECT DESCRIPTION

A. Title:
RZN-16-002—Rezone of 4.76 acres from Low Density Residential (R-1) Zone to General Commercial (C-2) Zone
TPM-16-003—Vesting Tentative Parcel Map, 3.6 acre parcel into two parcels
DPR-16-009—Development of five new commercial buildings on 4.76 acres

B. Address or Location: 1115 Oakdale Road, Modesto CA 95355

C. Applicant: GFF&R II, c/o Michael Fenley; 1121 Oakdale Road, Suite 7, Modesto CA 95355

D. City Contact Person: Katharine Martin, Associate Planner

Project Manager: Katharine Martin
Department: Community and Economic Development Department, Planning Division
Phone Number: 209-577-5465
E-mail address: kamartin@modestogov.com

E. Current General Plan Designation(s): Mixed Use (MU)

F. Current Zoning Classification(s): Low Density Residential (R-1) Zone

G. Surrounding Land Uses:

North: Planned Development Zone P-D(593), Professional Office, Veterans Administration Medical Clinic

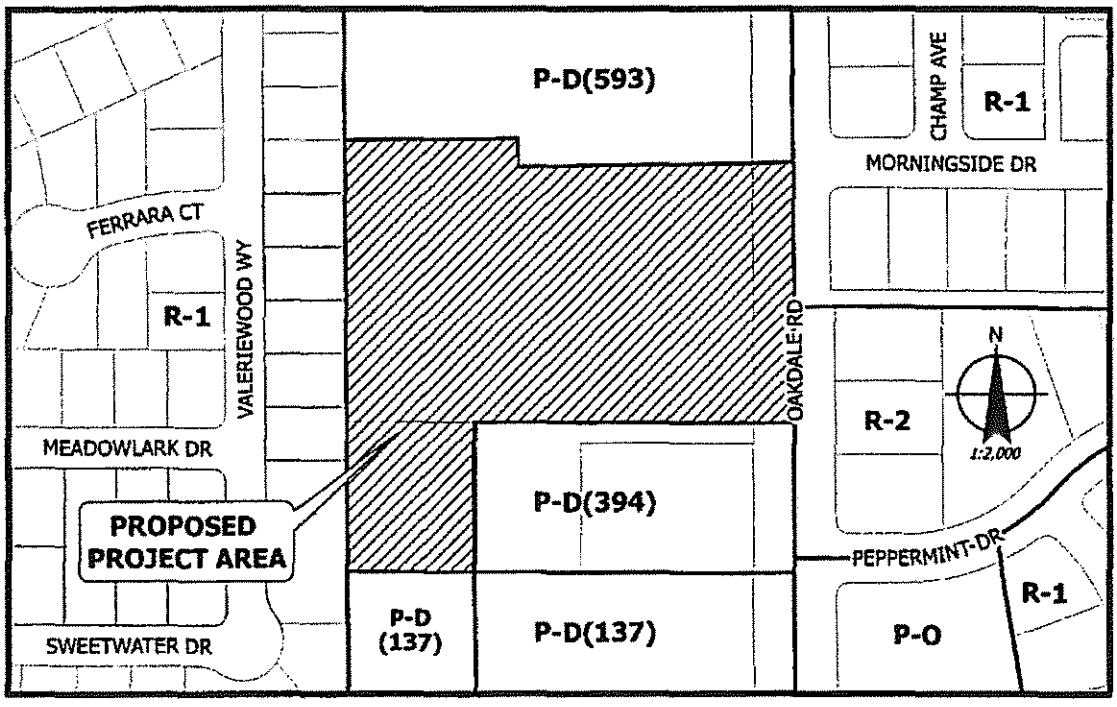
South: Planned Development Zone P-D(394), General Commercial Uses, Gas Station, Retail Businesses

East: Low Density Residential (R-1) Zone, single-family residences; and Medium Density Residential (R-2) Zone, residential duplexes

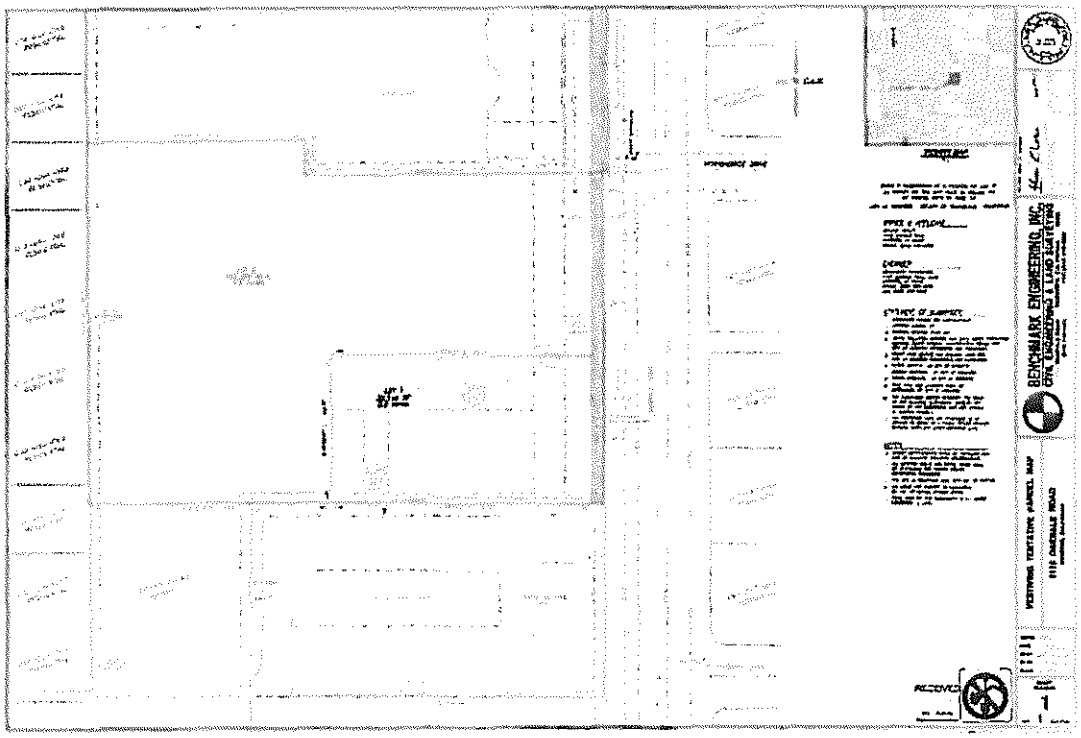
West: Low Density Residential (R-1) Zone, single-family residences

H. Project Description, including the project type listed in Section II.C (Anticipated Future Projects) of the Master EIR (Attach additional maps/support materials as needed for complete record):

Project proposes the rezone of 4.76 acres of vacant land from Low Density Residential (R-1) Zone to General Commercial (C-2) Zone to facilitate the development of five new commercial buildings. Project also proposes a Vesting Tentative Parcel Map to divide a 3.6-acre parcel that covers a portion of the rezone area into two parcels of 2.8 acres and 0.80 acres respectively. Initial commercial development is proposed to occur on the 0.80-acre parcel, for a retail tire shop. Rezone of the site to be by City Council Ordinance. Development of the site to be by administrative Development Plan Review to ensure compliance with applicable City Zoning Codes and Standards, with a determination by the Director of Community and Economic Development or designee, and is contingent on the proposed rezoning.



PROPOSED REZONE AREA



PROPOSED VESTING TENTATIVE PARCEL MAP

I. Other Public Agencies Whose Approval is Required: None.

III. FINDINGS/DETERMINATION (SELECT ONE ON THE BASIS OF THE ANALYSIS IN SECTION IV)

1. _X_ Within the Scope - The project is within the scope of the Master EIR and no new environmental document or Public Resources Code Section 21081 findings are required. All of the following statements are found to be true:

A. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.

B. No new or additional mitigation measures or alternatives are required.

C. The subsequent project is within the scope of the project covered by the Master EIR.

D. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

E. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

2. ____ **Mitigated Negative Declaration Required** - On the basis of the above determinations, the project is not within the scope of the Master EIR. A mitigated negative declaration will be prepared for the project. The following statements are all found to be true:

   A. The subsequent project is within the scope of the project covered by the Master EIR.

   B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

   C. The project will have one or more potential new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures are being required of the project that will reduce the effects to a less-than-significant level.

   D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

3. ____ **Focused EIR Required**- On the basis of the above determinations, the project is not within the scope of the Master EIR. A Focused EIR will be prepared for the project. All of the following statements are found to be true:

   A. The subsequent project is within the scope of the project covered by the Master EIR.

   B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

   C. The project will have one or more new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures or alternatives are required as a result.

   D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

Steve Mitchell for KM	Principal Planner	11/14/16
Project Manager	Title	Date

4. Within the Scope Analysis of this Document:

The Master EIR allows projects to be found within the scope of the MEIR if certain criteria are met. If the following statements are found to be true for all 21 impact categories included in this Initial Study, then the proposed project is addressed by the MEIR analysis and is within the scope of the MEIR. Any "No" response must be discussed.

		YES	NO
(1)	The lead agency for subsequent projects shall be the City of Modesto or a responsible agency identified in the Master EIR.	☒	☐
(2)	City policies which reduce, avoid, or mitigate environmental effects will continue to be in effect and, therefore, would be applied to subsequent projects where appropriate. The policies are described in the list of policies in place and mitigation measures attached to the Initial Study template. Project impacts would be mitigated to a less-than-significant level using MEIR mitigations only.	☒	☐
(3)	Federal, State, regional, and Stanislaus County regulations do not change in a manner that is less restrictive on development than current law (i.e., would not offer the same level of protection assumed under the Master EIR).	☒	☐
(4)	No specific information concerning the known or potential presence of significant resources is identified in future reports, or through formal or informal input received from responsible or trustee agencies or other qualified sources.	☒	☐
(5)	The development will occur within the boundaries of the City's planning area as established in this Urban Area General Plan.	☒	☐
(6)	**Development within the project will comply with all appropriate mitigation measures contained and enumerated in the 2008 General Plan Master EIR.**	☒	☐

5. Currency of the Master EIR Document

The MEIR should be reviewed on a regular basis to determine its currency, and whether additional analysis/mitigation should be incorporated into the MEIR via a Supplemental or Subsequent EIR (CEQA Section 21157.6). Staff has reviewed Sections 1 through 21 of this document in light of the criteria listed below to determine whether the MEIR is current. The analysis contained within the Master EIR is current as long as the following circumstances have not changed. Any "no" response must be explained.

		YES	**NO**
(1)	**Certification of the General Plan Master EIR occurred less than five years prior to the filing of the application for this subsequent project.**	☐	☒
(2)	This project is described in the Master EIR and its approval will not affect the adequacy of the Master EIR for any subsequent project because the City can make the following findings:	☒	☐
(a)	No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified.	☒	☐
(b)	No new information, which was not known and could not have been known at the time the Master EIR was certified as complete, has become available.	☒	☐

(c)	Policies remain in effect which require site-specific mitigation, and avoidance or other mitigation of impacts as a prerequisite to future development.	☒	☐

Discussion:

(1) The General Plan Master EIR was certified on October 14, 2008, so more than five years has passed since the MEIR was certified. However, the analysis contained in the MEIR is still adequate for subsequent projects, as documented in the discussion below.

(2) The project is consistent with the analysis contained in the MEIR. This is documented in the discussion of the individual issue areas of this initial study.

(2)(a) There have been no substantive changes to the General Plan since the MEIR was certified that would create additional significant environmental effects that were not analyzed by the MEIR.

(2)(b) There has been no new information that would affect the adequacy of the analysis contained in the MEIR.

(2)(c) All policies contained in the MEIR that require site-specific mitigation or avoidance of impacts remain in effect and will be applied to the project as appropriate.

IV. ENVIRONMENTAL ANALYSIS

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, discloses whether the proposed project may cause any project-specific significant effect on the environment that was not examined in the Final Master EIR (MEIR) for the General Plan and whether new or additional mitigation measures or alternatives may be required as a result. The Initial Study thereby documents whether or not the project is "within the scope" of the Master EIR.

Pursuant to Public Resources Code Section 21157.1, no new environmental document or findings are necessary for projects that are determined to be within the scope of the MEIR. Adoption of the findings specified in Section III.1, above after completion of the Initial Study fulfills the City's obligation in that situation.

All environmental effects cited reflect 2025 conditions resulting from the Urban Area General Plan, as identified in the Master EIR.

The environmental impact analysis in the Master EIR for the Urban Area General Plan is organized in twenty-one subject areas. The following analysis is based on the impact analyses contained in Chapter V of the Master EIR. For ease of reference, the sections are numbered in the same order as the analyses in Chapter V.

1. TRAFFIC AND CIRCULATION

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable traffic and circulation impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Increased automobile traffic will result in roadway segments (see MEIR on Table 1-7, pages V-1-32 to V-1-34) operating at LOS D, Modesto's significance threshold for automobile traffic, or lower (LOS E or F).

Effect: The substantial increase in traffic relative to the existing load and capacity of the street system will cause, either individually or cumulatively, the violation of automobile service standards established by StanCOG's Congestion Management Plan for designated roads and highways.

Effect: A substantial increase in automobile vehicle miles traveled and automobile vehicle hours of travel and a decrease in average automobile vehicle speed (see MEIR Table 1-6, page V-1-31).

Cumulative Impacts

Effect: Potential for growth inducement or acceleration of development resulting from highway and local road projects.

Effect: Substantial increase in traffic in relation to the existing traffic load and capacity of the street system, including a violation, either individually or cumulatively, of an automobile LOS standard established by the Congestion Management Plan for designated roads and highways.

Effect: Increased demand for capacity-enhancing alterations to existing roads or automobile traffic reduction.

Other impact categories affected by Traffic and Circulation are addressed throughout this Initial Study (see also Section 2, Degradation of Air Quality; Section 3, Generation of Noise; Section 7 Loss of Sensitive Wildlife and Plant Habitat; Section 8, Disturbance of Archaeological/Historic Sites; Section 14 Increased Demand for Fire Services; Section 18, Energy; Section 19, Visual Resources; Section 20, Land Use and Planning, and Section 21, Climate Change).

b. Master EIR and/or New Mitigation Measures Applied to the Project

Traffic and Circulation mitigation measures pertinent to this project are found on MEIR pages V-1-9 through V-1-28. All mitigation measures appropriate to the project, including any new measures, will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The project does not require mitigation measures from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-1.B of the Master EIR provides analysis of Traffic and Circulation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: A subsequent development project will have a new significant effect on the environment if it would exceed the following criteria:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1. TRAFFIC AND CIRCULATION				
1) The proposed project exceeds traffic generation assumptions in the Master EIR for the site by 100 trips or more and City Engineering and Transportation staff has determined that the project would have additional potentially significant project-specific effects that are not avoided or reduced by the Master EIR's mitigation measures.	☐	☐	☒	☐
2) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads or highways?	☐	☐	☐	☒
3) The proposed project would cause additional roadway segments in the General Plan area to exceed LOS D and/or cause additional violations of standards in the Congestion Management Plan, and/or cause an increase in automobile vehicle miles or vehicle hours of travel or a decrease in automobile travel speed, as compared to the impacts disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project would cause emergency response times to exceed acceptable standards established by the Fire Department, as compared to impacts disclosed in the Master EIR (see Section 14, Increased Demand for Fire Services).	☐	☐	☐	☒
5) The proposed project would result in less parking than required by the Municipal Code or as determined by staff.	☐	☐	☐	☒
6) The proposed project would conflict with adopted policies, plans, or programs that support alternative transportation, including, but not limited to the Regional Transportation Plan, the Sustainable Communities Strategy, the Bicycle Action Plan, and so on.	☐	☐	☐	☒
7) The proposed project would result in an increase in automobile vehicle miles traveled on a per capita basis, in excess of that considered in the Urban Area General Plan MEIR.	☐	☐	☐	☒

Discussion:

(1) The project would rezone 4.76 acres of vacant land from Low Density Residential (R-1) Zone uses to General Commercial (C-2) Zone uses, and divide 3.6 acres of the rezone area into two parcels. The site is within the Baseline Developed Area of the General Plan, and is within an area designated as Mixed Use (MU) in the General Plan. While the change in use would create more trips than would be typical of residential development, the project would not exceed traffic generation assumptions in the General Plan MEIR for commercial uses within the Mixed Use land use designation, and the City's Traffic Division indicated no concerns with traffic generated by the project.

(2) The project would not exceed a level of service standard established by the county congestion management agency for designated roads or highways.

(3) The project would not cause an increase in level of service for the adjacent streets or conflict with any Congestion Management Plans, or cause an increase in vehicle miles or hours traveled. The segment of Oakdale Road at the location is already at LOS D, and the City's Traffic Division indicated no concerns that the project would cause the level of service to exceed that level.

(4) The project would not cause emergency response times to exceed acceptable standards. The project was referred to the City Fire Department, who indicated no concerns.

(5) The project would provide parking as required for commercial uses.

(6) The project would not conflict with adopted alternative transportation plans or programs.

(7) The project would not result in an increase in vehicle miles traveled in excess of what was considered by the General Plan MEIR.

2. DEGRADATION OF AIR QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable air quality impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Expected automobile traffic will result in increased operational emissions of reactive organic gases (ROG) and oxides of nitrogen (NO_X) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased emissions of particulate matter 10 microns or less (PM_{10}) and 2.5 microns or less in diameter ($PM_{2.5}$) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased carbon monoxide (CO) levels in the project area (see MEIR Table 2-7, page V-2-26, and Table 2-8, page V-2-27).

Cumulative Impacts

The Master EIR indicates the same impacts identified as direct impacts above will contribute to regional impacts on air quality for the criteria pollutants ROG, NO_x, PM_{10}, and $PM_{2.5}$.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Air quality mitigation measure(s) pertinent to the proposed project are found on pages V-2-13 through V-2-24 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes AQ-42 through AQ-50 from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-2.B of the Master EIR is the analysis of air quality impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
2. DEGRADATION OF AIR QUALITY				
1) The proposed project exceeds the project-level emissions thresholds established for CO, ROG, NO_x, PM_{10}, and $PM_{2.5}$ by the San Joaquin Valley Air Pollution Control District (SJVUAPCD) and is not consistent with the development assumptions for the project site, as established in the Urban Area General Plan and Master EIR.	☐	☐	☐	☒
2) The proposed project does not incorporate the best management practices established by the SJVAPCD for CO, ROG, NO_x, PM_{10}, and $PM_{2.5}$.	☐	☐	☐	☒
3) The proposed project does not comply with the air quality policies in the Modesto Urban Area General Plan.	☐	☐	☐	☒
4) The proposed project would expose sensitive receptors to pollutant concentrations in excess of those expected to occur as a result of implementation of the Urban Area General Plan.	☐	☐	☐	☒
5) The proposed project would create objectionable	☐	☐	☒	☐

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
odors affecting a substantial number of people.				

Discussion:

(1) The project involves the development of vacant land for commercial uses. The initial development is to be on 0.80 acres along the Oakdale Road frontage, for a retail tire and wheel store. The project would not exceed emissions thresholds established by the SJVUAPCD, and is consistent with the development standards for an office use as established by the General Plan.

(2) Development of the site will be required to adhere to applicable City Zoning Ordinances, Standards, and applicable best management practices during the construction process.

(3) The project would comply with the air quality policies in the Urban Area General Plan with implementation of the mitigation measures cited above.

(4) With mitigation measures cited above, the project would not expose sensitive receptors to pollutant concentrations in excess of those expected to occur as a result of implementation of the Urban Area General Plan.

(5) Construction activities could potentially generate odors with processes such as application of architectural coatings and asphalt paving materials; however, activities will be mitigated as called for by the MEIR with the mitigation measures listed above.

3. GENERATION OF NOISE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable noise impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Future automobile traffic noise levels and roadway construction and maintenance activities resulting from development of the Urban Area General Plan will exceed the City's noise thresholds at various locations, but particularly in areas adjacent to heavily traveled roadways (see MEIR Table 3-3, page V-3-10, and Figure VII-2 and Table 3-6, pages V-3-18 and V-3-19).

Effect: Expected noise from airport operations and airport construction projects may expose up to 468 dwellings and three churches to noise levels of 65 dB CNEL and up to eight dwellings to noise levels of 70 dB CNEL.

Effect: Expose noise-sensitive land uses to noise from the construction of bicycle and transit projects.

Effect: Expose noise-sensitive land uses to noise from freight and passenger rail operations.

Cumulative Impacts

Effect: Traffic from development in the City of Modesto would, when combined with traffic from new development in the County and other cities, contribute to a cumulative increase in roadside noise levels on major roads and highways throughout Stanislaus County.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Noise policies and mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-3-11 through V-3-15 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and any new measures are listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes N-1 through N-3 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-3.B of the MEIR discloses noise impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of the proposed project's effects are based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
3. GENERATION OF NOISE				
1) The proposed project will exceed the standards for noise level and hours of operation established by the Modesto noise ordinance.	☐	☐	☐	☒
2) The proposed project will not comply with the noise policies of, or otherwise be inconsistent with, the Modesto Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project will result in an increase in ambient noise levels in the project vicinity above those disclosed in the Master EIR.	☐	☐	☒	☐
4) The proposed project will result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels disclosed in the Master EIR implementation of the Urban Area General Plan.	☐	☐	☒	☐

Discussion:

(1-2) The project is consistent with the noise policies of the General Plan. The proposed development is not anticipated to generate noise levels that exceed the noise thresholds of the MEIR.

(3-4) The project will not result in a substantial increase in ambient noise above levels described in the MEIR. There will be temporary construction-related noise, but implementation of the mitigation measures outlined above would reduce the impacts to a less than significant amount.

4. EFFECTS ON AGRICULTURAL LANDS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on agricultural lands expected after application of mitigations/policies:

Direct Impacts

Effect: Between 1995 and 2025, development of the Urban Area General Plan may convert up to approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area to urban uses.

Effect: Approximately 1,200 acres of urban development along a 28.5-mile boundary 350 feet wide between urban and agricultural uses could be affected by continued agricultural operations, including noise, dust, and chemical overspray or drift.

Cumulative Impacts

Effect: Growth within Modesto's planning area would contribute considerably to the loss of agricultural land within Stanislaus County, accounting for the conversion of as much as approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area from 1995 to 2025.

b. Master EIR and/or New Mitigation Measures Pertinent to the Project

Agricultural land mitigation measures pertinent to the proposed project are found on pages V-4-6 to and V-4-8 of the Master EIR. All mitigation measures appropriate to the project and any new mitigation to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

Discussion:

The project does not require mitigation measures from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-4.B of the Master EIR discloses the impacts resulting from the implementation of the Urban Area General Plan on agricultural lands. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
4. EFFECTS ON AGRICULTURAL LANDS				
1) The proposed project is inconsistent with the Urban Area General Plan's policies relating to agricultural land.	☐	☐	☐	☒
2) The proposed project will either directly or indirectly result in the development of land outside the 2008 Urban Area General Plan's planning area boundary.	☐	☐	☐	☒
3) The proposed project will conflict with existing zoning for agricultural use, or there is an existing Williamson Act contract on the project site.	☐	☐	☐	☒
4) The proposed project will involve other changes in the existing environment not anticipated in the Master EIR which, due to their location or nature, could result in conversion of farmland to non-agricultural use.	☐	☐	☐	☒

Discussion:

(1) The project would be consistent with the General Plan's policies relating to agricultural land. The site is located within the Baseline Developed Area, and is designated as Mixed Use (MU) in the General Plan's Land Use Diagram.

(2) The project will not result in the development of land outside of the 2008 General Plan boundary. The site is within the Baseline Developed Area and is surrounded by urbanized area within the jurisdiction of the City.

(3) The site is not zoned for agricultural uses, is currently zoned for Low Density Residential (R-1) uses and is proposed to be rezoned to General Commercial (C-2) to allow for the development of two new office buildings. There are no Williamson Act contracts on the properties of the project site.

(4) The project will not convert existing farmland to a non-agricultural use.

5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on long-term water supplies expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts have been disclosed in the Master EIR.

Cumulative Impacts

Effect: Operational yields of the Modesto and Turlock subbasins, both of which underlie the City of Modesto, are unknown, although the City is participating in a study with the United States Geological Survey in order to quantify the operational yields of both subbasins. Groundwater withdrawals from both basins by the City, when combined with other users' withdrawals, may result in overdrafting both subbasins.

Effect: Despite available options, during drought years, significant water shortages are forecast for the San Joaquin River basin, which includes both the Modesto and Turlock subbasins, by 2020. Modesto would make a cumulatively considerable contribution to the cumulative impact on water supply under drought conditions.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Water supply mitigation measures pertinent to the proposed project are found on pages V-5-6 through V-5-12 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The project does not require mitigation measures from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-5.B of the Master EIR discloses impacts on long-term water supplies resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES				
1) The proposed project is inconsistent with water supply policies in the Urban Area General Plan.	☐	☐	☐	☒
2) Water demand for the proposed project will exceed estimates for similar projects or for development on the project site anticipated in the	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
Urban Area General Plan or sufficient water supplies are not otherwise available to serve the project from existing entitlements and resources.				
3) The proposed project would deplete groundwater supplies to a greater degree than anticipated in the Urban Area General Plan or would interfere with groundwater recharge.	☐	☐	☐	☒

Discussion:

(1) The proposed project is consistent with the water supply policies in the General Plan.

(2) The project was referred to Land Development Engineering staff who indicated no concerns with water supply or demands of the project.

(3) The proposed project is consistent with the ground water demands assumed in the General Plan. The project would not have a significant effect on ground water recharge or depletion of long-term water supplies.

6. INCREASED DEMAND FOR SANITARY SEWER SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sanitary sewer services after application of mitigations/policies:

Direct Impacts

Effect: Development resulting from implementation of the Urban Area General Plan will require substantial new sewage treatment and disposal capacity, treatment plant improvements, sewer mains and collection lines, and pump stations. The Wastewater Master Plan anticipates the need for these facilities and its EIR evaluates the impact of developing those facilities. Potential impacts include degradation of water quality through erosion and chemical releases; localized flooding; construction noise; exposure of construction workers and the public to hazardous materials; and on the habitat of the elderberry longhorn beetle, burrowing owl, and Swainson's hawk, as well as certain other regulated habitats. All of these impacts are mitigated to a less-than-significant level.

Additional impacts that are not mitigated to a less-than-significant level include loss of farmland cause by construction of the Phase IA tertiary treatment facility at the Jennings Road Secondary Treatment Facility, an increase in pollutant loads from increased wastewater flows to the San Joaquin River, and an increase in noise and criteria air pollutants due to construction activities, including traffic.

Cumulative Impacts

Effect: No additional cumulative impacts were identified in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Sewer service mitigation measures pertinent to the proposed project are found on pages V-6-3 through V-6-8 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-6.B of the Master EIR discloses impacts on the Increased Demand for Sanitary Sewer Service resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
6. INCREASED DEMAND FOR SANITARY SEWER SERVICES				
1) The proposed project is inconsistent with wastewater policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project will generate sewage flows greater than those anticipated in the Urban Area General Plan for the project site.	☐	☐	☐	☒
3) The proposed project will result in a determination by the wastewater treatment provider which serves or may serve the project that it has inadequate capacity to serve the project's projected demand in addition to the provider's existing commitments.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the wastewater policies in the General Plan.

(2-3) The project was referred to Land Development Engineering staff, who indicated no concerns with generation of sewer flows or capacity generated by the project.

7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sensitive wildlife and plant habitat expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant impacts on sensitive wildlife and plan habitat are expected to occur with the application of the policies contained in the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will contribute to the cumulative impact of habitat loss in the San Joaquin Valley. Requiring density development than has occurred in the past or that is expected in the future would minimize the City's contribution to the cumulative loss of habitat. Nonetheless, this is a significant and unavoidable impact.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Wildlife and plant habitat mitigation measures pertinent to the proposed project are found on pages V-7-17 through V-7-24 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The project does not require mitigation measures from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-7.B of the Master EIR discloses impacts on the Loss of Sensitive Wildlife and Plant Habitat resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT				

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The project is inconsistent with the policies pertaining to the loss of sensitive wildlife and plant habitat contained in the Urban Area General Plan.	☐	☐	☐	☒
2) Consultation with the California Department of Fish and Game or the U.S. Fish and Wildlife Service determines that the project would have a significant effect on a candidate, sensitive, or special status species in excess of the impact disclosed in the Master EIR.	☐	☐	☐	☒
3) The proposed project would have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act through direct removal, filling, hydrological interruption, or other means, in excess of the impact disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project would substantially interfere with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites.	☐	☐	☐	☒
5) Conflict with local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.	☐	☐	☐	☒
6) The proposed project would conflict with provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the General Plan policies related to the loss of sensitive wildlife and plant habitat.

(2) The project site is not within a biologically sensitive area as defined by Figures V-7-1a through V 7-1e of the MEIR. The California Department of Fish and Game and the U.S. Fish and Wildlife Service were consulted in the production of the MEIR.

(3) The site does not qualify as a federally protected wetland per Section 404 of the Clean Water Act.

(4) The site is not within a biologically sensitive area as defined by Figures V-7-1a through V 7-1e of the MEIR. The movement of fish or birds or other wildlife would not be significantly affected by the project.

(5) The project would not conflict with any local policies or ordinances protecting biological resources.

(6) There is no conflict with any adopted habitat conservation plan, natural community conservation plan, or other approved local, regional or state habitat conservation plan.

8. DISTURBANCE OF ARCHAEOLOGICAL/HISTORICAL SITES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on archaeological/historical sites expected after application of mitigations/policies:

Direct Impacts

Effect: Modification resulting in a substantial adverse change in the significance of a historic resource or the demolition of a listed or eligible historic resource.

Effect: The modification or demolition of a structure more than 50 years in age may be significant.

Effect: Discovery of archaeological resources in areas outside of the riparian corridors, as a result of construction activities.

Effect: Construction in an area of high archaeological sensitivity.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Archaeological or historic mitigation measures pertinent to the project being analyzed in this Initial Study are found on page V-8-16 through V-8-20 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes the measures specified in Table V-8-1(b-f) from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-8.B of the MEIR discloses impacts on archaeological/historical resources resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
8. DISTURBANCE OF ARCHAEOLOGICAL/ HISTORICAL SITES				
1) The proposed project is inconsistent with the archaeological/historical resource policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would demolish a building eligible for listing as a historic resource or remove a landmark from the Modesto inventory.	☐	☐	☐	☒
3) The proposed project would modify or demolish a structure more than 50 years in age.	☐	☐	☐	☒
4) The project would adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources.	☐	☐	☐	☒
5) Conflict with local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.	☐	☐	☐	☒

Discussion:

(1) The project would be consistent with the archeological and historical resource policies in the General Plan.

(2-3) The project site is vacant land with no structures.

(4) The project would not affect a resource that is listed or eligible for listing in the California Register of Historic Resources.

(5) The project would not conflict with a local policy or ordinance protecting biological resources. The City of Modesto does not have a tree preservation policy or ordinance.

9. INCREASED DEMAND FOR STORM DRAINAGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on storm drainage expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: The population of Stanislaus County is projected to increase in a fashion similar to that of Modesto, resulting in additional urban development and associated increases in impervious surface area and associated increases in storm water runoff. Cumulative hydrologic impacts of storm water flows from Modesto urban areas and other areas of the County could occur due to the fixed capacity of MID and TID irrigation canals to convey drainage west to the San Joaquin River. If drainage channels in some areas prove insufficient to handle the increased drainage discharges, existing storm water runoff from urban and agricultural areas during large storm events would have to be interrupted until water levels receded to a point allowing the resumption of discharges to the channel. Ceasing discharges to drainage channels could cause inundation in and around the drainage conveyance pipeline systems, surface drainage channels, detention basins, and other urban areas. This cumulative impact is considered significant and unavoidable.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Storm Drainage mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-9-4 through V-9-9. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes: SD-7 and SD-9 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-9.B of the MEIR discloses impacts on the demand for storm drainage resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
9. INCREASED DEMAND FOR STORM DRAINAGE				
1) The proposed project is inconsistent with the storm drainage policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or offsite, as compared to impacts anticipated to result from	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
the Urban Area General Plan or create substantial unanticipated sources of polluted runoff.				
3) The proposed project does not utilize Low Impact Development strategies to reduce runoff from the site and increase infiltration, resulting in no net increase in runoff before and after development.	☐	☐	☐	☒

Discussion:

(1) The project would not be inconsistent with the storm drainage policies of the General Plan.

(2-3) The project will be required to handle and treat storm water runoff on-site in accordance to City Standards.

10. FLOODING AND WATER QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on flooding and water quality expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Flooding and Water Quality mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-10-6 through V-10-9 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes: FWQ-12 and FWQ-13 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-10.B of the Master EIR provides analysis of Flooding and Water Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
10. FLOODING AND WATER QUALITY				
1) The proposed project is inconsistent with the flooding and water quality policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project does not comply with the regulatory requirements of the federal Clean Water Act or the State Porter-Cologne Act.	☐	☐	☐	☒
3) The proposed project would place more housing within a 100-year flood hazard zone than assumed in the Urban Area General Plan.	☐	☐	☐	☒
4) The proposed project would place structure within a 100-year flood hazard area so that they would impede or redirect floodwater or would substantially alter the existing on-site drainage pattern or a watercourse, in such a way as to cause flooding on- or offsite.	☐	☐	☐	☒
5) The proposed project does not comply with Modesto's Guidance Manual for New Development Storm Water Quality Control Measures.	☐	☐	☐	☒
6) The proposed project would violate water quality standards or waste discharge requirements.	☐	☐	☐	☒
7) The proposed project would substantially alter the existing drainage pattern of the site or area or a watercourse in a manner that would result in substantial erosion or siltation on- or offsite in excess of the assumptions of the Urban Area General Plan.	☐	☐	☐	☒
8) The proposed project would create or contribute runoff, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff, not expected as part of Urban Area General Plan implementation.	☐	☐	☐	☒

Discussion:

(1) The proposed project is consistent with the flooding and water quality policies in the Urban Area General Plan.

(2) The project would comply with the Federal Clean Water Act and the Porter Cologne Act requirements.

(3-4) The project site is not within a 100-year flood hazard zone as established by the Federal Emergency Management Agency (FEMA).

(5) The project will comply with the Guidance Manual for New Development Storm Water Quality Control Measures.

(6) The project will not violate water quality standards or waste discharge requirements.

(7) The project would not substantially alter the existing drainage pattern of the site, area or a watercourse in a manner that would result in erosion or siltation.

(8) The project will be required to treat and store on-site storm water drainage. The project was referred to Land Development Engineering who indicated no concerns with the project creating or contributing to runoff in excess of what is expected as part of the General Plan's implementation.

11. INCREASED DEMAND FOR PARKS AND OPEN SPACE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on parks and open space expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Parks and open space mitigation measures pertinent to the proposed project are found on pages V-11-3 through V-11-9 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-11.B of the MEIR discloses impacts of the Urban Area General Plan on parks and open space. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
11. INCREASED DEMAND FOR PARKS AND OPEN SPACE				
1) The proposed project is inconsistent with the parks and open space policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would eliminate parks or open space.	☐	☐	☐	☒
3) The proposed project would cause an increase in the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility in question would occur or be accelerated or the proposed project would include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the parks and open space policies in the General Plan.

(2-3) The project will not impact parks or open space, or cause an increase in the use of existing parks. The project involves rezoning property from Low Density Residential (R-1) uses to General Commercial (C-2) uses, which would not impact parks.

12. INCREASED DEMAND FOR SCHOOLS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on school facilities expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR. By statute, the impact of new students is considered to be mitigated below a level of significance by payment of school

impact fees and the exercise of any or all of the financing options set out in Government Code Section 65997.

Cumulative Impacts

Effect: Similar to direct impacts of implementation of the Urban Area General Plan, no residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. As long these policies are applied to all subsequent projects, no new mitigation is necessary. Further, payment of school impact fees and compliance with SB 50 is statutorily deemed to be full mitigation of school impacts (Government Code Section 65995).

The following schools mitigation measures on pages V-12-5 through V-12-7 of the Master EIR are pertinent to the proposed project. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures are listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-12.B of the Master EIR discloses impacts resulting from implementation of the Urban Area General Plan associated with increased demand for schools. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
12. INCREASED DEMAND FOR SCHOOLS				
1) The proposed project is inconsistent with the policies relating to schools in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project does not comply with SB 50/Proposition 1A funding provisions, or succeeding measures which state that compliance results in less-than-significant impacts on schools.	☐	☐	☐	☒

Discussion:

(1) The project involves rezoning property from Low Density Residential (R-1) uses to General Commercial (C-2) uses, which would not conflict with policies related to schools in the General Plan.

(2) The project would not conflict with SB50/Proposition 1A funding provisions, or succeeding measures.

13. INCREASED DEMAND FOR POLICE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on police services expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Police services mitigation measures pertinent to the proposed project are found on pages V-13-2 through V-13-5 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-13.B of the Master EIR discloses impacts on police services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
13. INCREASED DEMAND FOR POLICE SERVICES				

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with policies relating to police services in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the policies relating to police services in the General Plan.

(2) The project would not result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives. The project was referred to the City Police Department, who indicated no concerns.

14. INCREASED DEMAND FOR FIRE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on fire services expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Fire Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-14-4 through V-14-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-14.B of the Master EIR discloses impacts on fire services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
14. INCREASED DEMAND FOR FIRE SERVICES				
1) The proposed project is inconsistent with the fire service policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	☐	☐	☐	☒
3) The proposed project, based upon substantial evidence, would cause the erosion or elimination of fire protection services in adjoining fire protection districts.	☐	☐	☐	☒

Discussion:

(1) The proposed rezone and subsequent commercial development is consistent with the fire service policies in the General Plan.

(2) The project would not result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives.

(3) The project would not cause the erosion or elimination of fire protection services. Development of professional office buildings as a result of the rezone will meet City Standards for emergency services access.

15. GENERATION OF SOLID WASTE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on solid waste expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Solid waste mitigation measures pertinent to the proposed project are found on pages V-15-4 through V-15-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.
Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-15.B of the Master EIR discloses solid waste impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
15. GENERATION OF SOLID WASTE				
1) The project is inconsistent with the solid waste policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The County is unable to expand its solid waste disposal capacity, as expected, causing all new development to result in cumulative impacts on the County's disposal capacity.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the solid waste policies in the General Plan.

(2) The project would not cause an impact to the disposal capacity of solid waste facilities in the County.

16. GENERATION OF HAZARDOUS MATERIALS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts regarding hazardous materials expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Hazardous materials mitigation measures pertinent to the proposed project are found on pages V-16-8 through V-16-13 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-16.B of the Master EIR discloses impacts on hazardous materials resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
16. GENERATION OF HAZARDOUS MATERIALS				
1) The project is inconsistent with the hazardous materials policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
3) The proposed project would be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would create a significant hazard to the public or the environment.	☐	☐	☐	☒
4) The proposed project would be constructed on a contaminated site not known to the State of California as of March 2008.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the hazardous materials policies in the General Plan.

(2) The project will comply with all applicable federal, state, and county standards and regulations relative to the handling, storage, disposal, and transport of hazardous or toxic materials or wastes. (No hazardous materials will be involved with this project).

(3) The project is not located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would not create a significant hazard to the public or the environment.

(4) The project site is not known to contain any contaminants.

17. GEOLOGY, SOILS, AND MINERAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts related to geology, soils, and mineral resources expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Geology, soils, and mineral resource mitigation measures pertinent to the proposed project are found on pages V-17-9 and V-17-10 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of the proposed project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-17.B of the Master EIR discloses geology, soils, and mineral resource impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
17. GEOLOGY, SOILS, AND MINERAL RESOURCES				
1) The project is inconsistent with policies relating to geology, soils, and mineral resources contained in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would expose people or structures to potential substantial adverse effects including the risk off loss, injury, or death involving fault rupture, strong seismic activity; location on an expansive soil; result in the loss of topsoil; location on soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems in areas where sewers are not available for the disposal of wastewater; result in the loss of known mineral resources that would be of value to the region and the state; or result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with policies relating to geology, soils, and mineral resources in the General Plan.

(2) The project site is not be located on soil that is unstable, or that would become unstable as a result of the project. There are no known mineral resources of value to the region and the state on the property.

18. ENERGY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to energy expected after application of mitigations/policies:

Direct Impacts

Effect: Continued development in the Planned Urbanizing Area would have an impact on available energy supplies. Energy consumption likely would increase substantially by 2025 as a result of implementation of the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on energy consumption.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following energy mitigation measures pertinent to the proposed project are found on pages V-18-2 through V-18-8 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
18. ENERGY				
1) The proposed project is inconsistent with policies relating to energy in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in energy consumption during construction, operation, maintenance, or removal that is more wasteful, inefficient, and unnecessary than assumed in the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the energy policies in the General Plan.

(2) The project would not result in energy consumption during construction, operation, maintenance or removal that is more wasteful, inefficient and unnecessary than assumed in the General Plan.

19. EFFECTS ON VISUAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on visual resources expected after application of mitigations/policies:

Direct Impacts

Effect: New development in the Planned Urbanizing Area will occur in areas that are in agricultural production or are otherwise lightly developed, which could lead to the introduction of light and glare in areas that have little nighttime illumination.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following visual resources mitigation measures pertinent to the proposed project are found on pages V-19-3 and V-19-4 in the Master EIR. All mitigation measures appropriate to the proposed project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
19. EFFECTS ON VISUAL RESOURCES				
1) The proposed project is inconsistent with policies relating to visual resources in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would degrade views from riverside areas and parks to a greater degree than assumed in the Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project would degrade views of riverside areas from public roadways and nearby properties to a greater degree than assumed in the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the policies relating the visual resources in the General Plan.

(2-3) The project would not impact views from riverside areas and parks, nor would degrade views of riverside areas and parks from public roadways.

20. LAND USE AND PLANNING

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to land use and planning expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following land use and planning mitigation measures pertinent to the proposed project are found on pages V-20-6 through V-20-17 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-20.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on land use and planning. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
20. LAND USE AND PLANNING				
1) The proposed project is inconsistent with land use and planning policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project contains elements that would physically divide an established community in a way not assumed in the Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project conflicts with a land use plan, policy or regulation established for the purpose of avoiding or mitigating an environmental impact by an agency that has jurisdiction over the proposed project.	☐	☐	☐	☒
4) The proposed project conflicts with an applicable habitat conservation plan or natural community conservation plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the Redevelopment Planning District (RPD) land use designation in the General Plan.

(2) The project would not divide an established community. The proposal is to rezone two existing residential properties on an arterial street to Professional Office uses, in an area that is transitioning from residential uses to office uses.

(3) The project is consistent with the land use plan, policies and regulations of the City of Modesto designed to mitigate project impacts.

(4) The project does not conflict with applicable habitat conservation plans or natural community conservation plans.

21. CLIMATE CHANGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to climate change expected after application of mitigations/policies:

Direct Impacts

Effect: Impacts resulting from implementation of the Urban Area General Plan are not substantial enough to result in a significant direct impact on climate change, as disclosed in the Master EIR.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on climate change.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following climate change mitigation measures pertinent to the proposed project are found on pages V-21-7 through V-21-10 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on climate change. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
21. CLIMATE CHANGE				
1) The proposed project is inconsistent with policies relating to climate change in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in average automobile trip lengths or CO_2 emissions higher than those assumed in the Master EIR.	☐	☐	☐	☒
3) The proposed project would conflict with the	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
Sustainable Communities Strategy or Alternative Planning Strategy that the Air Resources Board has agreed will achieve the goals of AB 32.				

Discussion:

(1) The project is consistent with the policies relating to climate change in the Urban Area General Plan. The project would not have a significance effect on climate change.

(2) The project would not affect automobile trip lengths or CO_2 emissions.

(3) A Sustainable Communities Strategy has not yet been implemented by the ARB. Future development will be required to comply with the provisions of the Sustainable Communities Strategy once it is established.

V. MITIGATION MEASURES APPLIED TO THE PROPOSED PROJECT

If the Initial Study results in the determination that a Finding of Conformance can be adopted for the proposed project Section A below applies. If the Initial Study results in the determination that a Finding of Conformance cannot be adopted and a Mitigated Negative Declaration/EIR must be prepared for the project then Section B, below applies.

A. Master EIR Mitigation Measures Applied to the Project

Pursuant to Public Resources Code Section 21157.1(c), in order for a Finding of Conformance to be made, all appropriate mitigation measures from the Master EIR shall be incorporated into the proposed project. Urban Area General Plan Policies/Master EIR mitigation measures shall be made part of the proposed project prior to approval by means of conditions of project approval or incorporation into the appropriate document or plan.

All applicable and appropriate mitigation measures have been applied to the project (see mitigation measures listed below).

B. New or Additional Mitigation Measures or Alternatives Required

Where the project's effects would exceed the significance criteria for each environmental impact category, a mitigated negative declaration or Focused EIR must be prepared. Staff has reviewed the project against the significance criteria thresholds established in the Master EIR for all impact categories in this Initial Study.

A Mitigated Negative Declaration or Focused EIR shall be prepared for the project. The following additional project-specific mitigation measures listed below are necessary to reduce the identified new significant effect:

Traffic and Circulation:

N/A

Degradation of Air Quality:

AQ-42: All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover.

AQ-43: All on-site unpaved roads and off-site unpaved access roads shall be effectively stabilized of dust emissions using water or chemical stabilizer/suppressant.

AQ-44: All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.

AQ-46: When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.

AQ-47: All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. (the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)

AQ-48: Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.

AQ-49: Within urban areas, track out shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.

AQ-50: Any site with 150 or more vehicle trips per day shall prevent carryout and track out.

Generation of Noise:

N-1: The City has also established a noise ordinance to control noise within the City. The City's noise ordinance (Modesto Municipal Code Section 4-9.101) prohibits the "loud and raucous discharge into the open air of the steam of any steam equipment or exhaust from any stationary internal-combustion engine."

N-2: Additionally, the noise ordinance prohibits the loud and raucous operation or use of any of the following before 7:00 a.m. or after 9:00 p.m. daily (except Saturday and Sunday and state or federal holidays, when the prohibited time shall be before 9:00 a.m. and after 9:00 p.m.):

A hammer, or any other device or implement used to pound or strike an object.

1. An impact wrench, or other tool or equipment powered by compressed air.
2. A hand-powered saw.
3. Any tool or piece of equipment powered by an internal-combustion engine such as, but not limited to, chain saw, backpack blower, and lawn mower.
4. Any electrically powered (whether by alternating current electricity or by direct current electricity) tool or piece of equipment used for cutting, drilling, or shaping wood, plastic, metal, or other materials or objects, such as, but not limited to, a saw, drill, lathe, or router.
5. Any of the following: heavy equipment (such as but not limited to bulldozer, steam shovel, road grader, back hoe), ground drilling and boring equipment (such as but not limited to derrick or dredge), hydraulic crane and boom equipment, portable power generator or pump, pavement equipment (such as but not limited to pneumatic hammer, pavement breaker, tamper, compacting equipment), piledriving equipment, vibrating roller, sand blaster, gunite machine, trencher, concrete truck, and hot kettle pump.
6. Any construction, demolition, excavation, erection, alteration, or repair activity. In the case of urgent necessity and in the interest of public health and safety, the Chief Building Official may issue a permit for exemption from these. Such period shall not exceed three (3) working days in length while the emergency continues but may be renewed for successive periods of three (3) days or less while the emergency continues. The Chief Building Official may limit such permit as to time of use and/or permitted action, depending upon the nature of the emergency and the type of action requested.

N-3: The project shall comply with the City's noise ordinance. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and

impact tools should be equipped with shrouds or shields. Equipment that is quieter than standard equipment should be utilized. Haul routes that affect the fewest number of people should be selected.

Effects on Agricultural Lands:

N/A

Increased Demand for Long-Term Water Supplies:

N/A

Increased Demand for Sanitary Sewer Services:

N/A

Loss of Sensitive Wildlife and Plant Habitat:

N/A

Disturbance of Archaeological/Historic Sites:

Table V-8-1(b-f):

b. Prior to excavation and construction, the prime construction contractor and any subcontractors shall be cautioned on the legal and/or regulatory implications of knowingly destroying cultural resources or removing artifacts, human remains, bottles, or other cultural materials from the project area.

c. The project sponsor shall identify a qualified archeologist prior to any demolition, excavation, or construction. The City will approve the project sponsor's selection of a qualified archeologist. The archeologist would have the authority to temporarily halt excavation and construction activities in the immediate vicinity (ten-meter radius) of a find if significant or potentially significant cultural resources are exposed and/or adversely affected by construction operations.

d. Reasonable time shall be allowed for the qualified archeologist to notify the proper authorities for a more detailed inspection and examination of the exposed cultural resources. During this time, excavation and construction would not be allowed in the immediate vicinity of the find; however, those activities could continue in other areas of the project site.

e. If any find is determined to be significant by the qualified archeologist, representatives from the construction contractor and the City, the qualified archeologist, and a representative of the Native American community (if the discovery is an aboriginal burial) would meet to determine the appropriate course of action.

f. All cultural materials recovered as part of a monitoring program would be subject to scientific analysis, professional curation, and a report prepared according to current professional standards.

Increased Demand for Storm Drainage:

SD-7: New development shall comply with City requirements for conveyance, retention and detention. New development shall include onsite storage of Stormwater as necessary. Rockwells shall not be allowed for new development except at infill areas smaller than three acres where no other feasible alternative is available. (UAGP Policy V-E.3[f])

SD-9: Construction activities shall comply with the requirements of the City's Storm Water Management Plan under its municipal NPDES Stormwater permit, and the State Water Resources Control Board's General Permit for Discharges of Storm Water Associated with Construction Activity. (UAGP Policy V.E.3[h])

Flooding and Water Quality:

FWQ-12: New development shall comply with City requirements for conveyance, retention and detention. New development shall include onsite storage of Stormwater as necessary. Rockwells shall not be allowed for new development except at infill areas smaller than three acres where no other feasible alternative is available. (UAGP Policy V-E.3[f])

FWQ-13: Construction activities shall comply with the requirements of the City's Storm Water Management Plan under its municipal NPDES Stormwater permit, and the State Water Resources Control Board's General Permit for Discharges of Storm Water Associated with Construction Activity. (UAGP Policy V.E.3[h])

Increased Demand for Parks and Open Space:

N/A

Increased Demand for Schools:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-23

Print

RESOLUTION AMENDING THE CITY'S GENERAL FUND RESERVE POLICY AND INCREASING THE EMERGENCY RESERVES TO $12.8 MILLION

WHEREAS, during the FY 2016-17 Budget process, discussion was held concerning the General Fund Reserves and the appropriate level of funding for General Fund Emergency Reserves. Council expressed their desire to commit additional funds to the General Fund Emergency Reserves in light of the fact that the City had renewed their Letter of Credit (LOC) with Bank of America and with the carryover from previous fiscal years remaining unrestricted; and

WHEREAS, the original LOC was entered into with the Bank of America in 2008 and expired in 2011. From the time period of 2011 to 2014 the City's financial advising firm, Public Financial Management, Inc. (PFM), and staff regularly worked with Bank of America to obtain short-term or one-year extensions of the LOC; and

WHEREAS, the City, through Council approval, renewed its LOC with Bank of America. With this renewal came the release of the requirement that the City maintain at least $7 million in General Fund Unassigned Fund Balance. This requirement had been in place since Fiscal Year 2010-11 and was only recently lifted through the recognition by Bank of America that the City has successfully managed its finances and budget through the recession. This also led to an increased term for the City's renewed LOC of three years rather than the annual one-year extensions it had seen over the past four years; and

WHEREAS, the General Fund reserves have fluctuated in the last decade. Available Fund Balance was $14.7 million in FY 2005-06 and decreased to $3.2 million in FY 2010-11. During the next several fiscal years it increased and was $7.5 million by

the end of FY 2014-15; and

WHEREAS, the addition of $7 million to the Emergency Reserves will improve the City's financial stability and will approach the GFOA recommended reserve levels for all general-purpose governments. The industry standard reserve level policy would require the City to have at a minimum two months of General Fund operating revenues. Based on current General Fund operations, this would be equivalent to approximately $19.8 million in unassigned reserves. The City currently has $3 million in General Fund Emergency Reserves. With the addition of $7 million to the Emergency Reserves, the City will have a total of $10 million in Emergency Reserves; and

WHEREAS, during the 2016 Budget process, Councilmembers and the Mayor expressed their desire to increase the General Fund Emergency Reserves beyond the $7 million from the LOC; and

WHEREAS, the total Available Fund Balance for the General Fund in FY 2015-16 is approximately $5.8 million; and

WHEREAS, this item was brought before the Effective Government Committee whom unanimously approved allocating all $5.8 million from Available Fund Balance and $7 million from the LOC to emergency reserve; and

WHEREAS, including the total Available Fund Balance of $5.8 million in combination with the $7 million from emergency reserves will increase the current emergency reserve by $12.8 million total for a resulting emergency reserve of $15.8 million.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the City's General Fund Reserve policy, and increasing

the Emergency Reserves by $12.8 million for a total of $15.8 million.

BE IT FURTHER RESOLVED that the Deputy City Manager, or his designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 10th day of January, 2017, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following votes:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-24

RESOLUTION APPOINTING DAVID LEAMON TO THE LANDMARK PRESERVATION COMMISSION AS THE CULTURE COMMISSION REPRESENTATIVE WITH A TERM EXPIRATION OF JANUARY 1, 2020

WHEREAS, Section 1102 of the Charter of the City of Modesto authorizes the City Council to appoint members to various Boards, Commissions, and Committees, and

WHEREAS, on December 6, 2016, the Culture Commission unanimously recommended David Leamon as its representative to the Landmark Preservation Commission.

WHEREAS, Mr. Leamon is qualified, willing and able to serve on the Landmark Preservation Commission,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the appointment of David Leamon as the Culture Commission representative to the Landmark Preservation Commission with a term expiration of January 1, 2020.

BE IT FURTHER RESOLVED that the City Clerk is hereby directed to transmit a copy of this resolution to the appointed member of the Landmark Preservation Commission, and the Secretary thereof.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of January, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-25

RESOLUTION REAPPOINTING TAMI KRAUSS TO THE GOLF COURSES ADVISORY COMMITTEE AS THE MEMBER REPRESENTING THE CREEKSIDE GOLF CLUB WITH A TERM EXPIRATION OF DECEMBER 31, 2020

WHEREAS, Section 1102 of the Charter of the City of Modesto authorizes the City Council to appoint members to various Boards and Commissions, and

WHEREAS, from March 1, 2013 through December 31, 2016, Tami Krauss served one term on the Golf Course Advisory Committee as a representative of the Creekside Golf Club, and

WHEREAS, Tammi Krauss has indicated that she is willing and able to serve a second term on the Golf Course Advisory Committee, and

WHEREAS, reappointment to a second term would commence on January 1, 2017 through December 31, 2020.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby reappoints Tami Kraus to the Golf Courses Advisory Committee, as the member representing the Creekside Golf Club, with a term expiration of December 31, 2020.

BE IT FURTHER RESOLVED that the City Clerk is hereby directed to transmit a copy of this resolution to the appointed members of the Golf Course Advisory Committee, and the Secretary, thereof.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of January, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-26

RESOLUTION ACCEPTING THE SUBDIVISION IMPROVEMENTS AND APPROVING THE FINAL MAP OF HINTZE LANDING SUBDIVISION, AUTHORIZING THE CITY MANAGER OR HIS DESIGNEE TO EXECUTE THE SUBDIVISION AGREEMENT WITH HAHNCO HOLDING, INC., A CALIFORNIA CORPORATION, AND AUTHORIZING THE CITY CLERK TO CERTIFY THE FINAL MAP AND RECORD IT WITH THE STANISLAUS COUNTY RECORDER'S OFFICE

WHEREAS, HAHNCO HOLDING, INC., a California corporation ("SUBDIVIDER"), is in possession of a tract of land situated in the City of Modesto, County of Stanislaus, consisting of 1.81 acres, known as the HINTZE LANDING SUBDIVISION ("SUBDIVISION"), and

WHEREAS, a tentative map of said tract was approved by the Planning Commission of the City of Modesto on February 24, 2014, and

WHEREAS, the City Council approved the rezoning of this property to low density residential zone on April 8, 2014, and

WHEREAS, the Secretary of the Planning Commission of the City of Modesto and the City Engineer have certified that the final map of said SUBDIVISION substantially conforms to the approved tentative map, and

WHEREAS, the City Engineer of the City of Modesto has certified that the final map of said SUBDIVISION meets all of the provisions of the California Subdivision Map Act and the provisions of the Modesto Municipal Code relating to subdivisions, and the City Surveyor has determined that the map is technically correct, and

WHEREAS, the project has been completed and the faithful performance bond release has been requested upon approval of the improvements, and

WHEREAS, as required by Section 4-4.605 of the Modesto Municipal Code, the SUBDIVIDER has executed a Subdivision Agreement, and

WHEREAS, the SUBDIVIDER has furnished a warranty bond, as set forth in Section 4-4.605 of the Modesto Municipal Code, which shall secure the obligations set forth in Section 66499.3 of the Government Code of the State of California. Said securities are in forms acceptable to the City Attorney and in the amounts required by the City Engineer,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that said Final Map of Hintze Landing Subdivision is approved; that the dedications for public streets and easements as shown thereon within the boundaries of said SUBDIVISION be accepted on behalf of the public for public use; and that the City Manager or designee be authorized to execute the Subdivision Agreement.

BE IT FURTHER RESOLVED that the City Clerk be authorized to certify the map of said SUBDIVISION on behalf of the City of Modesto and allow City staff to deliver it to the County Recorder, and the City Clerk to release the faithful performance bond and release the warranty security one year and one day after acceptance of the improvements, if no claim is made thereon.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of January, 2017, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-27

RESOLUTION REJECTING ALL BIDS FOR THE STREET IMPROVEMENTS SOUTHBOUND PRESCOTT ROAD TO WESTBOUND PLAZA PARKWAY PROJECT

WHEREAS, in April 2010, the City of Modesto applied for Congestion Mitigation and Air Quality (CMAQ) funds to construct a dedicated right turn lane on Southbound Prescott Road at Plaza Parkway, and

WHEREAS, the construction of this project will modify the existing curb return and the existing traffic signal and construct a right turn lane with in the City right-of-way, and

WHEREAS, these improvements will reduce the amount of southbound congestion, while providing a right turn lane consistent with City of Modesto Standard Specifications, and

WHEREAS, the original time line for construction of this project was for construction to begin in June, 2013 and be complete by December, 2013, and

WHEREAS, as part of the project the relocation of dry utilities by outside agencies was to be completed prior to the start of road construction improvements, and

WHEREAS, CMAQ funds were intended to pay for costs associated with dry utility relocation work which were not covered under either franchise agreements or by outside agencies, and

WHEREAS, in 2012 Caltrans determined that CMAQ funds were not eligible for reimbursement for relocating dry utilities, and

WHEREAS, with the determination made by Caltrans and local funds programmed for the project, the project was placed on hold until an agreement could be reached between the City of Modesto and Modesto Irrigation District (MID), and

WHEREAS, in 2015, an agreement between the City of Modesto and MID outlined the requirements necessary for the relocation of dry utilities at MID's expense, and

WHEREAS, in late October, 2016 all dry utility relocation work was completed by the outside agencies, and on November 8, 2016 the project was advertised for bid, and

WHEREAS, bids were opened on December 6, 2016 and only two bids were received, and

WHEREAS, DSS Company dba Knife River Construction of Stockton, California was the apparent low bidder at 55.10% above the engineer's estimate, and

WHEREAS, George Reed Inc. of Modesto, California was the second low bidder at 101.96% above the engineer's estimate, and

WHEREAS, in analyzing the bids, staff believes that due to the project delay, its relatively small size and the time of year that bids were solicited may have resulted in high unit prices and fewer bidders, and

WHEREAS, City staff recommends that the City reject the bids, make some modifications to the scope of work and re-bid the project in early 2017 with the intention of attracting a higher number of contractors and additional bids.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby rejects all bids for the Street Improvements Southbound Prescott Road to Westbound Plaza Parkway project.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of January, 2017, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-28

RESOLUTION AMENDING SECTION 7 (HOMEBUYER ASSISTANCE PROGRAM) AND ADDING SECTION 12 (LOAN & GRANT PORTFOLIO MANAGEMENT POLICY) TO THE HOUSING AND URBAN DEVELOPMENT POLICIES & PROCEDURES MANUAL

WHEREAS, on October 25, 2016, by Resolution No. 2016-425, the City Council consolidated all Housing and Urban Development policies & procedures into one comprehensive manual entitled Housing and Urban Development Policies & Procedures Manual (HUD Policies & Procedures Manual), and

WHEREAS, an amendment to Section 7 (Homebuyers Assistance Program) of the HUD Policies & Procedures Manual is proposed to reflect updated policies, and

WHEREAS, an addition of Section 12 (Loan & Grant Portfolio Management) to the HUD Policies & Procedures Manual is proposed to provide allowable subordination considerations, and

WHEREAS, on December 15, 2016, the City of Modesto's Housing Rehabilitation Loan Committee reviewed, approved and forwarded an amended Section 7 (Homebuyers Assistance Program) and the addition of Section 12 (Loan & Grant Portfolio Management Policy) to the HUD Policies & Procedures Manual, to the City Council for review and approval.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto hereby amends Section 7 (Homebuyers Assistance Program) of the Housing and Urban Development Policies & Procedures Manual, as set forth in **Exhibit A attached** hereto and incorporated by reference.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that Section 12 (Loan & Grant Portfolio Management Policy) be added to the Housing and Urban Development Policies & Procedures Manual, as set forth in **Exhibit B attached** hereto and incorporated by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of January, 2017, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold
NOES:	Councilmembers:	None

City of Modesto City Council Approved by Resolution [redacted]

*These policies supersede any previously adopted policies and are subject to review and revision by the City of Modesto Housing Programs Loan Committee.

EQUAL HOUSING
OPPORTUNITY

Homebuyer Assistance Program (HAP) Policies

1. APPLICABLE LAWS AND REGULATIONS
   1.1. All Housing Assistance Program (HAP) activities shall be conducted in compliance with all applicable federal, state, and local program funding sources, if any.

   1.2. All terms used within these policies shall be as defined by applicable funding source(s) or other locally approved HAP and acquisition program policies.

   1.3. All program applications will be processed in accordance to the date of receipt and are subject to available funding.

2. PROPERTY ELIGIBIILTY
   2.1. Eligible property shall be located in a residentially zoned area within Modesto City limits.
      2.1.1. Eligible property shall not be located within a 100-year flood zone.
      2.1.2. Additional location requirements may be applicable depending on available funding source(s).

   2.2. Eligible property type may be:
      2.2.1. Single-family housing unit; or
      2.2.2. Condominium unit; or
      2.2.3. Townhouse unit; or

   2.3. Eligible property shall have the following occupancy characteristics:
      2.3.1. Currently occupied by the owner-seller of the property; or
      2.3.2. If a rental property, sold only to the existing tenant; or
      2.3.3. Vacant for ninety days or longer prior to submission of purchase offer by Borrower.

   2.4. Eligible property shall meet the following criteria:
      2.4.1. The housing unit shall have been constructed after 1978, unless the following standards for lead-based paint hazards have been met:
         2.4.1.1. The unit shall have been inspected by a certified lead-based paint inspector and, if any defective paint is discovered, the seller shall provide verification of lead-based paint abatement having been completed by a professional abatement contractor. Certification of inspection and abatement shall be provided by the seller in the form required by City of Modesto. The seller is responsible for the cost of all inspections and abatement.

      2.4.2. Property with an in-ground pool may not be eligible if the cost of pool maintenance, operations (utilities), and insurance causes the back-end debt to income ratio to exceed 45 percent. (See Section 5.0)

      2.4.3. Property shall meet or exceed HUD's Housing Quality Standards (HQS) prior to close of escrow, except when a HAP loan is approved for both HAP and Rehabilitation.

         2.4.3.1. The property shall be inspected by a rehabilitation specialist or other personnel authorized by the Community Development Manager for compliance with all applicable codes, ordinances, and standards. The seller is responsible for the cost of correcting any deficient items noted in the inspection, except when a HAP loan is approved for both HAP and Rehabilitation and the following criteria are met:

            2.4.3.1.1. Combined Loan-to-Value (CLTV) (primary financing, HAP and rehabilitation loan) shall not exceed 105% of the purchase price (except where the funding source used requires a lower CLTV);

2.4.3.1.2. Work to correct deficient items related to health and safety and/or code violations, must start within 30-days of escrow closing with the reasonable anticipation that work will be completed within sixty days of closing; and

2.4.3.1.3. All work to correct deficiencies shall be done by a California licensed contractor and with all applicable permits.

2.5. The following inspection reports are required and will be at the buyer's risk and expense, unless negotiated with the seller:

2.5.1. Termite inspection.

2.5.2. Home (whole house) inspection by a licensed property inspector.

3. MAXIMUM PURCHASE PRICE

3.1. The maximum purchase price of an assisted property shall not exceed 100% of the current median sales price of a single family home listed for City of Modesto. This information may be obtained from a minimum of three (3) sources including, but not limited to, Zillow, Trulia, Data Quick, Realty Trac, Real Quest, Eppraisal.com, or FHA 203(b) loan limits. In order to verify the purchase price, the following shall be provided to City of Modesto:

3.1.1. A copy of the signed purchase agreement, at the time of opening of escrow.

3.1.2. Prior to close of escrow, an appraisal prepared by a state-licensed residential property appraiser.

3.2. The following purchase price criteria shall be met when a HAP loan is approved for both HAP and Rehabilitation:

3.2.1. The maximum purchase price, prior to rehabilitation, shall not exceed the "as is" value as established by a California State-licensed residential property appraiser;

3.2.2. The after rehabilitation value may not exceed 100% of the current median sales price as identified in Section A above.

3.2.3. The Appraiser may use a single appraisal to show both values (sub-Sections i and ii) or the appraiser may use two separate appraisals, with the second one issued after completion of the rehabilitation work.

4. HOUSEHOLD/BORROWER ELIGIBILITY

4.1. The borrowing household shall have incomes at or below 80 percent (80%) of the Stanislaus County Area Medium Income (AMI), adjusted for household size, as published annually by the California State Department of Housing and Community Development (HCD) or United Stated Department of Housing and Urban Development (HUD) (depending on the HAP funding source used) unless a higher AMI is authorized by specific funding sources.

4.2. Borrowers shall qualify as first time homebuyers (FTHB) and shall occupy the property as a principal place of residence.

4.2.1. A FTHB is defined as a purchaser of a property who neither has, nor has had, present ownership in a principal residence at any time during the three (3) year period prior to the date on which a mortgage pursuant to this Program is executed, except as otherwise allowed by the specific funding source(s) utilized. All Borrowers to be listed on title to the property must meet the definition of a FTHB. Co-signers and co-mortgagors not meeting the definition of a FTHB and who do not intend to occupy the property are prohibited.

4.3. Borrowers shall meet the following credit worthiness criteria:

4.3.1. No outstanding judgments or liens at the time of HAP approval or HAP execution. As part of application for assistance, Borrower shall disclose any personal liens that may attach to the property (failure to disclose any pertinent information that may affect

eligibility and may be grounds for denial of assistance and application withdrawal). To identify any personal liens, a title search of Borrowers shall be conducted after Loan Committee approval.

4.3.2. Outstanding collections must be paid prior to HAP approval, unless the Loan Committee determines on a case by case basis that the circumstances that led to collection were outside of the applicant's control and the payment of the outstanding collection(s) will not impact the applicant's ability to financially undertake homeownership.

4.3.3. Late payments due to extenuating circumstances will be considered as part of the credit worthiness approval process. Factors leading to late payments will be reviewed and considered on a case by case basis.

4.3.4. Shall not have filed bankruptcy, or received a bankruptcy discharge, in the last 3 years prior to date of application.

4.3.5. Shall not have been foreclosed upon in the last 3 years prior to date of application.

4.3.6. Shall not have defaulted (including bankruptcy or foreclosure) on any HAP, acquisition, or rehabilitation program funding provided at any time by City of Modesto.

4.3.7. The Loan Committee may consider other factors impacting Borrower's creditworthiness.

4.4. The borrowing household shall, at a minimum, contribute the following amount toward the closing cost of the home purchase based on household AMI:

4.4.1. 50% or less, no contribution required.

4.4.2. 51% to 80%, the lesser of $1,350 or 1% of purchase price.

4.4.3. 81% to 120%[1], the lesser of $5,000 or 3% of purchase price.

4.5. Borrowers shall have completed a First Time Home Buyer education course from a HUD certified housing counseling agency and provide a copy of the certificate to City of Modesto prior to release of funds.

4.6. Borrowers must have the income and credit worthiness to qualify for primary financing, from a primary lender of their choice.

4.6.1. Primary financing shall be in the form of a 30-year fixed rate loan (no co-signers accepted).

4.6.2. There shall be no balloon payment requirements or prepayment penalties included in the terms of the first mortgage.

4.6.3. The monthly mortgage payment must include impound account costs for the payment of property taxes and property insurance as required by the program.

4.7. There is no asset limitation for participation in HUD assisted-housing programs. However, the definition of annual income includes net income from family assets.

4.7.1. Net Family Assets include the following:

[1] Assistance to households with AMI levels between 81% and 120% may only be available if funding source allowing said limits is available.

4.7.1.1. Cash held in savings and checking accounts, safe deposit boxes, homes, etc. For savings accounts, use the current balance. For checking accounts, use the average balance for the last six months. Assets held in foreign countries are considered assets.

4.7.1.2. Revocable trusts. Include the cash value of any revocable trust available to the family.

4.7.1.3. Equity in rental property or other capital investments. Include the current fair market value less;

4.7.1.3.1. Any unpaid balance on any loans secured by the property; AND

4.7.1.3.2. Reasonable costs that would be incurred in selling the asset (e.g., penalties, broker fees, etc.). NOTE: If the person's main business is real estate, then count any income as business income. Do not count it both as an asset and business income.

4.7.1.4. Stocks, bonds, Treasury bills, certificates of deposit, mutual funds, and money market accounts. Interest or dividends earned are counted as income from assets even when the earnings are reinvested. The value of stocks and other assets vary from one day to another. The value of the asset may go up or down the day before or after rent is calculated and multiple times during the year thereafter. The owner may assess the value of these assets at any time after the authorization for the release of information has been received. The tenant may request an interim recertification at any time thereafter that a decrease in stock value may result in a decrease in rent.

4.7.1.5. Individual retirement, 401K, and Keogh accounts. These are included when the holder has access to the funds, even though a penalty may be assessed. If the individual is making occasional withdrawals from the account, determine the amount of the asset by using the average balance for the previous six months. (Do not count withdrawals as income.)

4.7.1.6. Retirement and pension funds.

4.7.1.6.1. While the person is employed. Include only amounts the family can withdraw without retiring or terminating employment. Count the whole amount less any penalties or transaction costs.

4.7.1.6.2. At retirement, termination of employment, or withdrawal. Periodic receipts from pension and retirement funds are counted as income. Lump-sum receipts from pension and retirement funds are counted as assets. Count the amount as an asset or as income, as provided below.

4.7.1.6.2.1. If benefits will be received in a lump sum, include the lump sum receipt in net family assets.

4.7.1.6.2.2. If benefits will be received through periodic payments, include the benefits in annual income. Do not count any remaining amounts in the account as an asset.

4.7.1.6.2.3. If the individual initially receives a lump-sum benefit followed by periodic payments, count the lump-sum benefit as an asset as provided in the example below and treat the periodic payment as income. In subsequent years, count only the periodic payment as income. Do not count the remaining amount as an asset.
NOTE: This paragraph and the example below assume that the lump-sum receipt is a one-time receipt and that it does not represent delayed periodic payments. However, in situations in which a lump-sum payment does represent delayed periodic

payments, then the amount would be considered as income and not an asset.

4.7.1.6.2.4. Cash value of life insurance policies available to the individual before death (e.g., the surrender value of a whole life policy or a universal life policy). It would not include a value for term insurance, which has no cash value to the individual before death.

4.7.1.6.2.5. Personal property held as an investment. Include gems, jewelry, coin collections, or antique cars held as an investment. Personal jewelry is NOT considered an asset.

4.7.1.6.2.6. Lump-sum receipts or one-time receipts. These include inheritances, capital gains, one-time lottery winnings, victim's restitution, settlements on insurance claims (including health and accident insurance, worker's compensation, and personal or property losses), and any other amounts that are not intended as periodic payments.

4.7.1.6.3. A mortgage or deed of trust held by an applicant.

4.7.1.6.3.1. Payments on this type of asset are often received as one combined payment of principal and interest with the interest portion counted as income from the asset.

4.7.1.6.3.2. This combined figure needs to be separated into the principal and interest portions of the payment. (This can be done by referring to an amortization schedule that relates to the specific term and interest rate of the mortgage.)

4.7.1.6.3.3. To count the actual income for this asset, use the interest portion due, based on the amortization schedule, for the 12-month period following the certification.

4.7.1.6.3.4. To count the imputed income for this asset, determine the asset value **as of the effective date of the certification**. Since this amount will continually be reduced by the principal portion paid during the previous year, the owner will have to determine this amount at each annual recertification.

4.7.1.6.3.5. Net family assets DO NOT include the following:
IMPORTANT: The owner does not compute income from any assets in this paragraph.

4.7.1.6.3.5.1. Personal property (clothing, furniture, cars, wedding ring, other jewelry that is not held as an investment, vehicles specially equipped for persons with disabilities).

4.7.1.6.3.5.2. Interests in Indian trust land.

4.7.1.6.3.5.3. Term life insurance policies (i.e., where there is no cash value).

4.7.1.6.3.5.4. Equity in the cooperative unit in which the family lives.

4.7.1.6.3.5.5. Assets that are part of an active business. "Business" does NOT include rental of properties that are held as investments unless such properties are the applicant's or tenant's main occupation. NOTE: No revocable trusts (i.e., irrevocable trusts) are not covered by this paragraph.

4.7.2. Borrowers shall not be a person or the immediate relative of any person who is in a decision-making position relative to the HAP Program.

5. QUALIFYING DEBT TO INCOME RATIOS:

5.1. Front end (housing) debt-to-income ratio shall not exceed 35 percent (35%) and is the percentage of a borrower's gross monthly income (before deductions) that would cover the cost of the loan principal and interest payment, property taxes, property insurance, mortgage

insurance, and HOA dues, if any.

5.2. Back-end (total) debt-to-income ratio shall not exceed 45 percent (45%) and is the percentage of the borrower's gross monthly income that would cover the cost of housing as described in Section 5.0(A) above, plus any other monthly debt payments such as car loans, personal loans, credit card debt or child support and alimony payments.

6. MAXIMUM AMOUNT OF PROGRAM ASSISTANCE:

6.1. HAP assistance shall be provided in the form of "gap" financing to assist the homebuyer purchase a home while keeping their housing costs affordable as defined in Section 5.0. Gap financing shall not exceed 60,000*. Up to 5 percent of the assistance provided may be used to pay non-recurring closing costs.

6.2. Borrowers must receive the maximum first mortgage loan for which they qualify.

6.3. EXAMPLE Gap Financing Loan Calculation

Contract Sales Price		$ 250,000
First Mortgage Pre-Approval (meets City terms)		$(200,000)
Buyer's Minimum Contribution (81% to 120% AMI)		$ (5,000)
Gap Financing	$ 45,000	
MAXIMUM Down Payment Assistance (DPA) Available		$ 60,000
Gap Financing		$ (45,000)
Estimated Closing Costs[2] (5% of $250,000)		$ (12,500)
Balance Available - DPA	$ 2,500	
Total DPA to Eligible Homebuyer		$ 57,500

7. MAXIMUM COMBINED LOAN TO VALUE RATIO (CLTV):

7.1. The Combined Loan-to-Value (CLTV) ratio for a HAP Program loan, when combined with all other indebtedness to be secured by the property, shall not exceed 100 percent of the purchase price, plus a maximum of up to 5 percent of the purchase price, if allowed by funding source, to cover actual, non-recurring closing costs (except where the funding source used requires a lower CLTV).

8. HAP LOAN TERMS:

8.1. The City of Modesto HAP loan term shall be 30 years.

8.2. The following Lending Criteria shall apply based on the household's Area Median Income (AMI) level:

8.2.1. Very Low to Low-Income (0-80% AMI): The loan shall accrue interest at a rate of 3% simple interest for the first 20 years. The loan shall accrue zero percent (0%) interest for the remaining 10 year term. Payment shall be deferred for 30 years. Voluntary payments are encouraged.

8.2.2. Median/Moderate Income (81% - 120% AMI – If funding source is available): The loan shall accrue interest at a rate of 3% for the first 20 years. The loan shall accrue zero percent (0%) interest for the remaining 10 year term. Simple interest payments shall begin at year 5 until year 20.

[2] Closing costs in excess of 5% are the responsibility of the homeowner

8.3. All borrowers will be required to have impound accounts for the payment of taxes and insurance to ensure they remain current during the life of the Program loan.

8.4. The Program loan shall be secured by the property as a 2nd deed of trust.

8.5. The Program loan, principal and interest, shall be due and payable upon:
- 8.5.1. Sale, transfer, rental or lease of the property.
- 8.5.2. Borrower's failure to occupy the Property as Borrower's principal place of residence (Borrower must certify occupancy annually).
- 8.5.3. The Program loan maturity date, however, if it is determined by the loan committee that repayment of the loan at maturity will cause a hardship to the Borrower, the Loan Committee may, at its option, elect to:
  - 8.5.3.1. Approve a one-time additional deferral period of up to 15 years in length at 0% additional interest; or
  - 8.5.3.2. Convert the debt (principal and accrued interest) to a 15 year amortized loan at 0% additional interest. The cost of loan servicing, if any, shall be added to the repayment cost of the amortized loan.
  - 8.5.3.3. Upon default under the HAP Program loan promissory note, deed of trust, the deed of trust rider or the covenants, or other recorded documents of record pertaining to the property.
  - 8.5.3.4. Refinancing of any superior mortgages and drawing cash from equity.

8.6. City of Modesto may accept voluntary payments on the loan. Loan payments will be credited to the interest first, then to principal. The borrower may repay the loan balance at any time with no pre-payment penalty.

8.7. Program loans are not assumable except under the following limited circumstances:
- 8.7.1. The transfer of the Property to the surviving joint tenant under a will, descent or operation of the law, on the death of a joint tenant;
- 8.7.2. A transfer of the Property where the spouse becomes an owner of the property;
- 8.7.3. A transfer of the Property resulting from a decree of dissolution of marriage, legal separation or from an incidental property settlement agreement by which the spouse becomes an owner of the property.
- 8.7.4. A transfer to an inter vivos trust in which the Borrower is and remains the beneficiary and occupant of the property.

8.8. Restrictions on Sale and Recapture of City of Modesto Funds:
- 8.8.1. In any transaction in which the City loan is the only secondary financing, the Borrower cannot be restricted from selling the home at its fair market value at any time.
- 8.8.2. Subsequent buyers, unless assisted with a City loan under this Program, do not need to meet the Eligible Household requirements set forth above, unless required by an affordability covenant resulting from original HAP loan on the same property (i.e. RDA loans).

8.9. City of Modesto shall recapture the entire HAP subsidy provided to the Borrower before the Borrower receives a return. The City's recapture amount is limited to the net proceeds available from the sale.
- 8.9.1. In cases where the net proceeds available at the time of sale are insufficient to recapture the entire direct HAP subsidy provided by the Borrower, City of Modesto will collect any and all net proceeds available resulting from the sale.

8.9.2. In applying the recapture provisions, the following formula shall be used to determine the net proceeds subject to recapture:

Sales Price of the Unit

- Superior Non-HAP Debt (principal balance on 1st Mortgage)

-Closing Costs (all costs of sale including commission, escrow, title, recording fees, etc.)

=Net Proceeds subject to recapture

8.10. Subordination Policy (see Attachment 1)

8.11. When high housing market conditions require, the Loan Committee may approve subordinate financing to cover mortgage subsidy costs that exceed the HAP loan maximum, provided maximum combined loan to value limits are met, all subordinate liens must have payments deferred, and the term must be for at least as long as the term of the HAP loan.

9. ENVIRONMENTAL REVIEW

9.1. All assisted properties shall be subject to Federal environmental review as required by the funding source(s). No funds shall be released until all environmental reviews have been conducted to the satisfaction of City of Modesto.

10. AFFORDABILITY PERIOD

10.1. All assisted properties shall be subject to affordability periods as required by the funding source(s). If multiple funding source(s) are utilized, the affordability period shall be the longest of the all affordability periods. Affordability periods shall be reflected in a covenant to be recorded on the assisted property and may continue to run with the property even after sale or transfer by the Borrower.

11. HOUSING REHABILITATION LOAN COMMITTEE APPROVAL

11.1. All Down Payment Assistance activities shall be subject to majority vote approval by the City of Modesto Housing Rehabilitation Loan Committee. The Committee shall be comprised of the following voting members:

11.1.1. Councilmember (appointment by the Mayor)	4 years
11.1.2. Financial Institution – Representative	4 years
11.1.3. Service Provider – Representative	4 years
11.1.4. General Contractor (active or retired)	4 years
11.1.5. Housing Authority of Stanislaus County – Representative	4 years
11.1.6. Citizen-at-Large	4 years
11.1.7. Citizen-at-Large	4 years
11.1.8. Citizen's Housing & Community Development Committee (alternate)	4 years

11.2. The Community Development Manager may appoint a substitute voting member using alternative criteria if existing circumstances do not allow for a Committee make-up as specified above and time constraints warrant a substitution.

11.3. All actions of the Housing Rehabilitation Loan Committee shall be reflected in meeting minutes to be prepared by staff of the City of Modesto Community Development Division.

12. APPROVAL CONTINGENCIES

12.1. All HAP activities approved by the loan committee shall be contingent on meeting the following requirements:

12.1.1. The borrower shall provide an American Land Title Association (ALTA) title insurance policy in the amount of the City loan to be paid via closing costs or at borrower's expense.

12.1.2. All HAP loans shall be evidenced by the following documents and provisions:

12.1.2.1. Loan Agreement;

12.1.2.2. Promissory Notes (s) payable to City of Modesto in the principal amount of the loan and stating the terms and rate of interest;

12.1.2.3. Deed of Trust(s) securing the Note (deed shall be recorded and shall secure City's financial interest in the property);

12.1.2.4. Declaration of Conditions, Covenants, and Restrictions (if applicable);

12.1.2.5. Other appropriate security instrument naming City as beneficiary;

12.1.2.6. Request for copy of "Request for Notice of Default" on first mortgage; and

12.1.2.7. Any other documents determined necessary by the Community Development Manager.

12.1.3. The borrower shall provide and maintain fire insurance on the property for the duration of the program loan(s). This insurance must be adequate to cover all encumbrances on the property.

12.1.3.1. The insurer must identify City of Modesto as Loss Payee for the amount of the program loans.

12.1.3.2. A copy of the homeowner's insurance policy shall be provided to City of Modesto at time of close of escrow.

12.1.3.3. Borrower must cause for a copy of homeowner's insurance policy to be provided to City of Modesto on an annual basis.

12.1.4. City of Modesto will annually monitor and certify in the loan file that the Borrower and housing unit are adhering to program requirements including but not limited to:

12.1.4.1. Owner-occupancy;

12.1.4.2. Good standing with property tax payment;

12.1.4.3. Hazard insurance;

12.1.4.4. Good standing on primary loan

*These policies supersede any previously adopted policies and are subject to review and revision by the City of Modesto Housing Programs Loan Committee.

EQUAL HOUSING
OPPORTUNITY

Loan and Grant Portfolio Management Policy

1. Subordinations
   1.1. The City of Modesto may approve a request to subordinate a City of Modesto loan under any of the City's housing programs, allowing the Borrower to refinance the property, under the following conditions (other conditions may apply based on funding source(s):
      1.1.1. The Combined Loan-to-Value Ratio shall not exceed 105% of the appraised value.
      1.1.2. The City of Modesto's lien position will remain the same or be advanced (the City of Modesto will not give up a first lien position, when the City has provided 100% financing).
      1.1.3. The new primary loan is not greater than the balance of the loan being refinanced, except the costs of refinancing the loan may be added to the principal balance.
      1.1.4. The purpose of the new primary loan is to reduce the interest rate being paid and/or reduce the owner's payments.
      1.1.5. If the purpose of the new loan is to reduce the loan term, (i.e. from a 30 year loan to a 15 year loan), the Borrower's Debt to Income ratios may not exceed the program limits.
      1.1.6. No cash out from equity.
      1.1.7. The refinanced loan must have an impound account for taxes and insurances.
      1.1.8. The refinancing terms must be acceptable to the City of Modesto.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-29

RESOLUTION ACCEPTING THE *DESTINATION MODESTO* REPORT FOR THE FIRST AND SECOND QUARTER OF FISCAL YEAR 2016-17

WHEREAS, on October 27, 2015, the City Council accepted the *Destination Modesto* Report – First Quarter Fiscal Year 2015-16 for the convention and tourism activity, and

WHEREAS, on March 1, 2016, the City Council accepted the *Destination Modesto* Report – Second Quarter Fiscal Year 2015-16 for the convention and tourism activity as well as activity at the McHenry Mansion, McHenry Museum, all three (3) City owned golf courses and City parks, and

WHEREAS, on June 7, 2016, the City Council accepted the *Destination Modesto* Report – Third Quarter Fiscal Year 2015-16 for the convention, tourism, McHenry Mansion, McHenry Museum, all three (3) City owned golf courses and City parks activity, and

WHEREAS, on September 13, 2016, CEDD staff prepared the *Destination Modesto* Report – Fourth Quarter Fiscal Year 2015-16 for the convention, tourism, McHenry Mansion, McHenry Museum, Modesto Centre Plaza, all three (3) City owned golf courses and City parks activity as well as an overview of each previous quarter to show overall data for Fiscal Year 2015-16, and

WHEREAS, the *Destination Modesto* Report – First and Second Quarter Fiscal Year 2016-17 for the convention, tourism, McHenry Mansion, McHenry Museum, Modesto Centre Plaza, all three (3) City owned golf courses and City parks activity omits

second quarter Convention & Tourism activity and modifies the Modesto Centre Plaza report to show revenues earned by the facility and DoubleTree Hotel.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the *Destination Modesto* Report – First and Second Quarter Fiscal Year 2016-17.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of January, 2017, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold
NOES:	Councilmembers:	None

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-30

RESOLUTION AUTHORIZING THE GROUNDWATER SUSTAINABILITY AGENCY MEMORANDUM OF UNDERSTANDING, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE MEMORANDUM OF UNDERSTANDING, AND PREPARE AND SUBMIT NOTICE OF THE STANISLAUS AND TUOLUMNE RIVERS GROUNDWATER BASIN ASSOCIATION GROUNDWATER SUSTAINABILITY AGENCY'S ELECTION TO BE THE GROUNDWATER SUSTAINABILITY AGENCY FOR THE MODESTO SUB-BASIN TO DEPARTMENT OF WATER RESOURCES

WHEREAS, in September of 2014, Governor Edmund G. Brown signed into law, the Sustainable Groundwater Management Act of 2014 (SGMA), which changed the method for groundwater management, and

WHEREAS, SGMA is a comprehensive three bill package that sets the framework for statewide sustainable groundwater management by local agencies, and

WHEREAS, SGMA requires the formation of Groundwater Sustainable Agencies (GSA) and the preparation of Groundwater Sustainability Plans (GSP) with a focus on long-term sustainability, and

WHEREAS, formation of a GSA must occur no later than June 30, 2017, and development and adoption of a GSP must be adopted no later than January 31, 2022, for high and medium priority basins not currently in critical overdraft, and

WHEREAS, the Modesto Sub-basin (designated basin number 5-22.02 in DWR's CASGEM groundwater basin system) is designated as a high-priority basin, and

WHEREAS, SGMA authorizes a local agency, or a combination of local agencies, overlying a groundwater basin to form a GSA, and

WHEREAS, multi-agency GSAs may be formed through either a Memorandum of Understanding (MOU) or other legal agreement, and

WHEREAS, the Stanislaus and Tuolumne Rivers Groundwater Basin Association (STRGBA) member agencies are all local agencies, pursuant to SGMA's definition, and

WHEREAS, the STRGBA member agencies include the cities of Oakdale, Riverbank, Modesto, and Waterford; Stanislaus County; Oakdale Irrigation District; and Modesto Irrigation District, and

WHEREAS, since its inception in 1994, STRGBA has provided a forum for local agencies to work cooperatively to provide for coordinated planning in the pursuit of effective and sustainable management of the Modesto Sub-basin, and

WHEREAS, the STRGBA member agencies believe that the sustainable management of the Modesto Sub-basin pursuant to SGMA may best be achieved through the cooperation of the Member Agencies operating through the GSA MOU, and

WHEREAS, SGMA requires formal procedures be followed to become a GSA, and

WHEREAS, each of the local agencies electing to be a GSA must hold a noticed public hearing to receive public comment on the local agency's decision to become the GSA for the Basin, and

WHEREAS, at the conclusion of this public hearing, it is anticipated that the governing board for each local agency will authorize the execution of the **attached** GSA MOU and adopt the **attached** resolution forming the GSA for the Basin,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizing the Groundwater Sustainability Agency Memorandum of Understanding, and authorizing the City Manager, or his designee, to execute the Memorandum of Understanding, and prepare and submit notice of the Stanislaus and

Tuolumne Rivers Groundwater Basin Association Groundwater Sustainability Agency's election to be the Groundwater Sustainability Agency for the Modesto Sub-basin to Department of Water Resources.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute said Memorandum of Understanding on behalf of the City, and prepare and submit notice of the Stanislaus and Tuolumne Rivers Groundwater Basin Association Groundwater Sustainability Agency's election to be the Groundwater Sustainability Agency for the Modesto Sub-basin to Department of Water Resources.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 24th day of January, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold
NOES:	Councilmembers:	None
ABSENT:	Councilmembers:	None

MEMORANDUM OF UNDERSTANDING FORMING THE STANISLAUS AND TUOLUMNE RIVERS GROUNDWATER BASIN ASSOCIATION GROUNDWATER SUSTAINABILITY AGENCY

January 24, 2017

1. **PARTIES**. The Parties to this Memorandum of Understanding (MOU) are: the County of Stanislaus, a political subdivision of the State of California; the Oakdale Irrigation District, a California irrigation district; the City of Oakdale, a California public agency; the City of Riverbank, a California public agency; the City of Modesto, a California public agency; the City of Waterford, a California public agency; and the Modesto Irrigation District, a California irrigation district (each referred to individually as a "Party" or collectively as the "Parties").

2. **RECITALS**. This MOU is entered into with regard to the following facts and circumstances, among others:

2.1 Groundwater and surface water resources within the Modesto Sub-basin of the San Joaquin Valley Groundwater Basin (DWR Bulletin 118 No. 5-22.02) ("Sub-basin") are vitally important resources, in that they provide the foundation to maintain and fulfill current and future environmental, agricultural, domestic, municipal and industrial needs, and to maintain the economic viability, prosperity, and sustainable management of the Sub-basin.

2.2 Agriculture has been prominent in making Stanislaus County one of the world's foremost agricultural areas, and has played a major role in the development of the economy of Stanislaus County; in an era of increasing competition for the area's finite water resources, it is important to understand and plan for the local area's economic well-being.

2.3 Although each of the Parties overlies and has rights to extract groundwater from the Sub-basin, each Party's individual surface and groundwater rights, historical groundwater production, and groundwater recharge and conveyance activities vary greatly from one another.

2.4 The California Legislature has adopted, and the Governor has signed into law, the Sustainable Groundwater Management Act ("SGMA"), which authorizes local agencies to manage groundwater in a sustainable fashion.

2.5 The Parties intend to enter into this MOU in order to ensure that the Sub-basin remains locally and sustainably managed.

2.6 SGMA requires groundwater basins designated as either medium or high-priority to be managed by one or more Groundwater Sustainability Agencies ("GSA") by June 30, 2017 and that GSAs adopt a groundwater sustainability plan ("Plan") by January 31, 2022.

2.7 The Sub-basin is currently designated as a high-priority basin, and thus must comply with the deadlines in the previous recital.

2.8 Pursuant to SGMA, a combination of local agencies may form a GSA through a memorandum of understanding or other legal agreement.

2.9 Each of the Parties overlies a portion of the Sub-basin and is a local agency as defined by SGMA.

2.10 In order to coordinate groundwater management activities and to comply with SGMA, the Parties desire to form a GSA for the portion of the Sub-basin that lies within their collective jurisdictions.

2.11 This MOU is intended to be an agreement for formation of a GSA as authorized by section 10723.6(a)(2) of the Water Code.

2.12 The Parties further intend and will work cooperatively to develop a separate operating agreement for the Stanislaus and Tuolumne River Groundwater Basin Association ("STRGBA") GSA ("STRGBA GSA").

2.13 The Parties believe that cooperative and coordinated actions by local agencies and users within the Sub-basin will result in the continued sustainable use of the groundwater within the Sub-basin.

3. DEFINITIONS. The following terms, whether in the singular or the plural, and when used herein with initial capitalization, shall have the meanings specified below:

3.1 **Annual Budget.** The GSA budget developed annually, pursuant to Section 6.2, to fund certain project(s) to advance the goals and objectives of this MOU.

3.2 **Committee.** That body, consisting of one representative from each of the Parties, which governs the GSA, as established pursuant to Section 4.3 of this MOU.

3.3 **Coordinator.** The individual appointed by the Committee pursuant to Section 5.

3.4 **Funding Percentage.** A Party's Funding Percentage as set forth in Section 7.1 of this MOU.

3.5 **Governing Bodies.** The governing entities of the Parties to this MOU.

3.6 **GSA.** A Groundwater Sustainability Agency created pursuant to SGMA.

3.7 **MOU.** This Memorandum of Understanding creating the STRGBA GSA.

3.8 **Parties.** Each of those entities named in Section 1 of this MOU, or those Parties added pursuant to Section 4.5 of this MOU.

3.9 **Plan.** A Groundwater Sustainability Plan developed and adopted pursuant to SGMA.

3.10 **SGMA.** The Sustainable Groundwater Management Act of 2014.

3.11 **Stanislaus and Tuolumne River Groundwater Basin Association GSA or STRGBA GSA.** The GSA created pursuant to this MOU to manage the Sub-basin.

3.12 Sub-basin. The Modesto Sub-basin of the San Joaquin Valley Groundwater Basin (DWR Bulletin 118 No. 5-22.02), which is geographically defined as that area in the State of California bounded on the west by the San Joaquin River; on the north by the Stanislaus River, on the east by the base of the Sierra Nevada foothills; and on the south by the Tuolumne River, and includes the area of land overlying that Sub-basin and all tributaries therein as defined by the then-current Department of Water Resources Bulletin 118.

3.13 Voting Percentage. A Party's Voting Percentage as set forth in Section 7.3 of this MOU.

4. THE GSA.

4.1 Creation of GSA. The Parties hereby establish the STRGBA GSA to manage the portion of the Sub-basin within the Parties' collective jurisdictions.

4.2 Purposes and Powers. The purposes and powers of the STRGBA GSA are as follows:

4.2.1 This MOU is entered into by and between the Parties to, consistent with SGMA, exert local control over the management of the Sub-basin and to facilitate a cooperative and ongoing working relationship that will allow compliance with SGMA and state law, as amended from time to time.

4.2.2 The STRGBA GSA shall act on behalf of its members to coordinate the Parties' activities and actions to further the sustainable management of the Sub-basin and facilitate compliance with SGMA. It shall in no way determine or modify the surface water rights or groundwater rights, if any, of any Party.

4.2.3 The STRGBA GSA shall determine and evaluate the Sub-basin's existing groundwater supply;

4.2.4 The STRGBA GSA shall promote coordination of groundwater management planning activities within the Sub-basin;

4.2.5 The STRGBA GSA shall evaluate the Sub-basin's need for additional or improved water extraction, storage, delivery, conservation, and recharge facilities;

4.2.6 The STRGBA GSA shall provide and share information and guidance for the management, preservation, protection and enhancement of groundwater quality and quantity in the Sub-basin; and

4.2.7 The STRGBA GSA shall have the powers and authorities granted to GSAs under SGMA.

4.3 Committee. The STRGBA GSA shall be governed by a Committee whose membership and responsibilities are set forth herein.

4.3.1 Each Party shall designate one staff person to serve as a member of the Committee, and one or more alternates. The names of the member and alternates will be submitted to the Coordinator. Each member of the Committee, and each alternate, shall serve at the pleasure of the Party appointing such member. A Party's alternate may serve in the place of that Party's member in the absence of such member and, in such case, the alternate shall have the powers of the member.

4.3.2 The Committee shall elect a chair and vice chair from its members at the first meeting of each calendar year. The chair shall be responsible for presiding over meetings of the Committee, and shall notify members and the Coordinator of meetings of the Committee. The Committee shall establish a date, time and place for its regular meetings, and may hold special meetings when required for the proper transaction of business. All meetings of the Committee will be held in accordance with the provisions of the Brown Act, California Government Code Section 54950 et seq. The Committee shall prescribe such procedures for the conduct of its business as it deems appropriate.

4.3.3 A quorum will consist of a simple majority of the Parties, subject to the provisions of section 6.5, except that less than a quorum may adjourn meetings of the Committee from time to time. Alternatively, the Coordinator may adjourn a meeting of the Committee to a specified time, date and place if there is less than a quorum of members present for a meeting.

4.3.4 The Committee shall have the following duties and responsibilities:

a. Develop and implement activities designed to achieve the objectives of SGMA.

b. Designate a Party that will enter into contracts, and approve all amendments thereto, for and on behalf of the STRGBA GSA, necessary to carry out the powers and duties of the STRGBA GSA.

c. Establish an Annual Budget for the STRGBA GSA, and approve proposed revisions to such budget, provided that no action of the STRGBA GSA shall be deemed to bind any party to contribute such funds absent approval of each Party's Governing Body.

d. Recommend for approval by each Party's Governing Body's Annual Budget(s) necessary to carry out proposed project(s).

e. Establish such committees as may be necessary or desirable to carry out the purposes of the STRGBA GSA, and to exercise general supervision over such committees.

4.3.5 Except for actions for which a different approval standard is set forth in this MOU, all actions of the Committee will be approved by a majority of the members present.

4.4 **Staff.** The staff of the STRGBA GSA shall be composed of staff from each Party. The STRGBA GSA shall also have the authority to hire or retain agents, contractors and consultants as the Committee shall determine necessary and appropriate.

4.5 **New Parties.** New parties may join the STRGBA GSA, provided that they meet the requirements set forth below:

4.5.1 Any county or local public agency that meets the definition of "local agency" as set forth in SGMA.

4.5.2 Application for membership will be subject to simple majority approval by the Committee.

4.5.3 As a condition of admission to the STRGBA GSA, any new Party to this MOU shall agree to be subject to the terms of this MOU and shall be required to first pay its proportionate share of back contributions or as otherwise determined appropriate by the Committee.

5. COORDINATOR.

5.1 **Appointment.** The Committee shall appoint a one of the Committee members as the Coordinator, who shall have the duties and responsibilities set forth in this Section 5.

5.2 **Duties and Responsibilities.** The Coordinator will have the following duties and responsibilities:

5.2.1 Develop and submit for review and approval by the Committee a work plan and schedule of activities designed to comply with the requirements of SGMA, or as may be otherwise directed by the Committee.

5.2.2 Propose an Annual Budget, and from time to time such revisions as the Coordinator may feel necessary or desirable, to the Committee for its review and approval.

5.2.3 Submit to the Committee, as directed by the Committee, a progress report as to the STRGBA GSA's activities and a report which compares actual expenditures with the Annual Budget, as adopted.

5.2.4 Execute and administer contracts as directed by the Committee.

5.2.5 Maintain proper records and accounts of work performed by the Committee.

5.2.6 Receive and disburse funds at or under the direction of the Committee.

5.2.7 Act as secretary/treasurer to the STRGBA GSA, and acting in that capacity, prepare, record and distribute minutes of all Committee meetings.

5.2.8 Perform such other actions as may be necessary or desirable to promote the work of the Committee and the STRGBA GSA.

6. GSA BUDGET AND COSTS.

6.1 Budget Cycle. The budget cycle of the STRGBA GSA shall be on a calendar year basis.

6.2 Annual Budget. The Coordinator shall prepare an Annual Budget for each calendar year that the Committee determines certain projects are necessary. The Coordinator's draft Annual Budget for the following year shall be delivered to the Committee members no later than June 1 of each year. The Committee shall approve or revise the draft Annual Budget and distribute the draft Annual Budget to each Party no later than July 1 of each year. The Committee shall meet to review input from the Parties' Governing Bodies no later than August 1 of each year, and shall approve a final budget no later than September 1 of each year for the following year. The respective Governing Bodies of the Parties shall review the Annual Budget no later than October 1 of each year and notify the Coordinator that it has allocated or appropriated its respective contribution to the Annual Budget no later than October 15 of each year. The Committee shall adopt and approve the Annual Budget and have it in place and effect by January 1 of each year, or as approved by the Parties.

6.3 Allocation of Funds. Within the Annual Budget adopted pursuant to Section 6.2, the Committee shall have the authority to make minor adjustments in the allocation of funds between budget categories; provided, however, that the cumulative change in the budget category does not exceed ten percent (10%) of the amount authorized in the Annual Budget and the total amount of the Annual Budget is not increased. Other budget adjustments require approval of the Governing Bodies.

6.4 Budget Increases. Increases in the total amount of a budget must be approved by the Governing Bodies of a simple majority of the Parties.

6.5 Failure to Pay. If any Party fails to pay its respective share of any Annual Budget or budget increase when due, whether or not that Party's Governing Body approved the Annual Budget or the budget increase, then that Party shall be ineligible to vote on any subject or issue unless such failure is excused by the Committee through formal action and majority approval of the Committee. During any period of time during which a Party is ineligible to vote on a matter by reason of the application of this Section 6.5, such Party shall not be counted as a Party in determining a quorum, or in determining a "majority" with regard to the approval of any action. In order to restore its eligibility to vote, a Party must be current on all amounts due, including any expenditures approved by the Committee while such Party was ineligible to vote.

6.6 **Expenditures.** STRGBA GSA funds may be properly expended for all costs approved by the Committee and properly incurred in the performance of the work approved by the Committee, or under such authority as may be delegated to the Coordinator by the Committee.

6.7 **Non Reimbursable Costs.** Costs incurred by any Party in connection with any functions of the STRGBA GSA, or any committee established by the Committee, and expenses of a Party's personnel including, without limitation, the regular and alternate members appointed by a Party to any committee while performing such functions, shall not be reimbursed by the STRGBA GSA except through formal action and majority approval of the Committee provided that a Party shall be reimbursed for the services performed by such Party's employees while serving as staff to the STRGBA GSA as approved through the Annual Budget process.

7. FUNDING AND VOTING PERCENTAGES.

7.1 **Funding Percentage.** Each Party shall be responsible for its proportionate share of the funding requirements of the STRGBA GSA. The proportionate shares of each Party shall be determined by dividing the funding requirements of the STRGBA GSA by the number of Parties. During Committee approval of certain projects that beneficially affect the Parties disproportionately, equitable project funding shall be determined through formal action and majority approval of the Committee.

The Parties shall provide funding consistent with the Annual Budget adopted by the Committee on the schedule set forth in such budgets, or pursuant to the Coordinator's discretion. Funding needs of the STRGBA GSA payable by the Parties shall be determined by the Committee, and such funds shall be transmitted by the Party to the Coordinator within sixty (60) days of project approval. Upon receipt, the Coordinator will immediately deposit funds in an interest-bearing bank account, separate from other accounts of the Parties. The funds in such account shall remain the property of each contributing Party until spent, and interest earned thereon shall belong to each contributing Party.

7.2 **Payment Reduction.** Each Party agrees that the Parties' respective obligations to make payments hereunder shall not be subject to any reduction, whether by offset, counter claim, recoupment or otherwise. A Party's funding contributions to the STRGBA GSA, or a portion thereof, may be reimbursed upon termination of that Party's participation in the STRGBA GSA and approval by a simple majority vote of the Committee.

7.3 **Voting Percentage.** Each Party's representative on the Committee shall be entitled to one vote; provided however, that if a matter being decided by the Committee will have a disproportionate effect on the financial obligations of one or more Parties, as contemplated in Section 7.1, each Party shall be entitled to a weighted vote proportionate to the financial obligation or benefit of the Parties. The Voting Percentages set forth in this Section shall remain in effect only until voting percentages are established in the operating agreement for the STRGBA GSA.

7.4 Modification by Party. Funding Percentages and/or Voting Percentages may be changed only upon simple majority approval of the Committee.

8. RELATIONSHIPOFPARTICIPANTS.

8.1 Each Party's Action Independent. The obligation of each Party to make payments under Section 7.1 of this MOU is an individual and several obligation and not a joint obligation of the Parties. Each Party shall be individually responsible for its own covenants, obligations and liabilities under this MOU. No Party shall be under the control of or shall be deemed to control any other Party or the Parties collectively. No Party shall be the agent of or have the right or power to bind any other Party without such Party's express written consent, except as expressly provided in this MOU.

8.2 Indemnity. No Party, nor any officer or employee of a Party, shall be responsible for any damage or liability occurring by reason of anything done or omitted to be done by another Party under or in connection with this MOU. The Parties further agree, pursuant to Government Code Section 895.4, that each Party shall fully indemnify and hold harmless each other Party and its agents, officers, employees and contractors from and against all claims, damages, losses, judgments, liabilities, expenses and other costs, including litigation costs and attorney fees, arising out of, resulting from, or in connection with any work delegated to or action taken or omitted to be taken by such Party under this MOU.

In no event, except for any claim, demand, liability, loss or damage arising out of or resulting from any action taken or not taken by one Party at the direction of its directors, officers, or employees of management or administrative responsibility, which is knowingly or intentionally taken or not taken with conscious indifference to the consequences thereof or with the intent that injury or damage would result or would probably result therefrom, shall a Party be liable to any other Party for any indirect or consequential damage claim, demand, liability, loss, expense (including attorney's fees), or damage arising out of or in any way connected with this MOU, including any negligence in connection therewith.

8.3 No Creation of a Joint Powers Authority. The Parties agree that by this MOU they do not intend to provide for the creation of an agency or entity which is separate from the Parties pursuant to Chapter 5 (commencing with Section 6500) of Division 7 of Title 1 of the Government Code, relating to the joint exercise of powers.

9. TERMOFTHISMOU. The term of this MOU shall commence once all named parties have executed this MOU and shall remain in effect unless terminated by the mutual written consent of all Parties. Upon termination of this MOU, the Committee shall determine the assets and liabilities of the STRGBA GSA, make every effort to satisfy all obligations within sixty (60) days of the termination of this MOU, and equitably distribute any remaining fund balance to each Party in proportion to each Party's Funding Percentage.

10. GENERALPROVISIONGOVERNINGMOU.

10.1 Severability. In the event that any of the terms, covenants or conditions of this MOU or the application of any such term, covenant or condition shall be held

invalid as to any Party, person or circumstance by any court of competent jurisdiction, all other terms, covenants or conditions of this MOU and their application shall not be affected thereby, but shall remain in full force and effect unless any such court holds that those provisions are not separable from all other provisions of this MOU.

10.2 No Third Party Beneficiaries. This MOU is for the sole benefit of the Parties and shall not be construed as granting rights to any person other than the Parties or imposing obligations on any person other than another Party.

10.3 Good Faith. Subject to the right of a Party to withdraw or terminate its membership in the STRGBA GSA, each Party shall use its best efforts and work wholeheartedly and in good faith for the expeditious completion of the objectives of this MOU and the satisfactory performance of the terms and provisions contained herein.

10.4 Withdrawal or Termination of Membership. Except in the event of the termination of this MOU pursuant to Section 9, a Party who withdraws or terminates its membership in the STRGBA GSA shall not be entitled to a refund of its funding contributions. Any Party may terminate membership and withdraw from the STRGBA GSA upon thirty (30) days written notice of termination to the STRGBA GSA. If a Party withdraws from the STRGBA GSA when the Party is in arrears as to complying with its Funding Percentage, that Party's entitlement to use any groundwater model or other work product of the STRGBA GSA as provided for herein shall be determined by the Committee. Whenever a Party withdraws from the STRGBA GSA, it is the intent of the Parties and of the STRGBA GSA that the withdrawal shall remove the area within the Party's water service area from further management by the STRGBA GSA, provided that the withdrawal shall be in accordance with the requirements of SGMA and shall leave no area within the Basin unmanaged.

10.5 Amendment. Unless provided otherwise, this MOU may be amended upon the affirmative vote of the Governing Bodies of a simple majority of the Parties.

10.6 Counterpart Execution. This MOU may be executed in counterparts, each of which shall be deemed an original, but all of which together shall constitute one and the same instrument.

10.7 Governance. This MOU is made under and shall be governed by the laws of the State of California. Venue of any action arising from this MOU shall be in the County of Stanislaus.

10.8 Reasonable Delivery of Documents. The Parties agree to act in good faith to promptly execute any documents that are necessary, or may become necessary, to implement activities approved by the Governing Bodies in the Annual Budget, subject to the authority and the right of the Governing Bodies to terminate participation in this MOU.

10.9 Attorney Fees. If any action at law or in equity, including action for declaratory relief, is brought to enforce or interpret provisions of this MOU, the prevailing Party shall be entitled to reasonable attorney's fees and costs that may be set by

IN WITNESS WHEREOF, the City of Modesto, a municipal corporation, has authorized the execution of this Memorandum of Understanding forming the Stanislaus and Tuolumne Rivers Groundwater Basin Association Groundwater Sustainability Agency in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. 2017-30, adopted by the Council of the City of Modesto on the 24th day of January, 2017.

RESOLUTION APPOINTING DOUGLASS PARMAN TO THE EQUAL OPPORTUNITY/DISABILITY AND HUMAN RELATIONS COMMISSION FOR A TERM TO EXPIRE ON AUGUST 11, 2017

WHEREAS, Section 1102 of the Charter of the City of Modesto authorizes the City Council to appoint members to various Boards and Commissions, and

WHEREAS, the Appointments Committee met on August 24, 2016, and recommended appointment of Douglass Parman to serve jointly on the Equal Opportunity/ Disability Commission and Human Relations Commission.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

I. Douglass Parman is hereby appointed to serve jointly on the Equal Opportunity/Disability and Human Relations Commission with a term expiration of August 11, 2017.

2. The City Clerk is hereby directed to transmit a copy of this resolution to the reappointed members of the Commissions and the Secretary thereof.

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 7th day of February, 2017, by Councilmember Ah You, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-35

RESOLUTION APPROVING THE PLANS AND SPECIFICATIONS FOR THE ROSELLE AVENUE WIDENING PROJECT, ACCEPTING THE BID, APPROVING THE CONTRACT WITH DSS COMPANY (DBA KNIFE RIVER CONSTRUCTION) OF STOCKTON, CA, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE CONSTRUCTION AGREEMENT, IN A FORM APPROVED BY THE CITY ATTORNEY, IN THE AMOUNT OF $3,249,779.40

WHEREAS, plans and specifications have been prepared for the Roselle Avenue Widening Project, and City staff recommends approval by the City Council, and

WHEREAS, the bids received for the Roselle Avenue Widening Project were publicly opened at 11:00 a.m. on December 20, 2016 for the consideration of the Council, and

WHEREAS, in 2009 the City Council approved an Initial Study, Environmental Assessment No. EA/PW 2009-13, which concluded that the potential effects of the project have been adequately addressed within the context of the previously-certified Village One Program EIR (SCH No. 90020181), and that no further environmental review is required, and

WHEREAS, all applicable mitigation measures contained within the previously-certified Village One Program EIR will be applied to the project, and

WHEREAS, the Director of Community and Economic Development and the City Manager have recommended that the bid of $3,249,779.40 received from DSS Company dba Knife River Construction of Stockton, California, be accepted as the lowest responsible and responsive bid and the contract be awarded to DSS Company dba Knife River Construction.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the plans and specifications for the Roselle Avenue Widening Project.

BE IT FURTHER RESOLVED, that the Council accepts the bid of DSS Company dba Knife River Construction of Stockton, California and approves the contract with DSS Company dba Knife River Construction of Stockton, California for the Roselle Avenue Widening Project.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the construction agreement, in a form approved by the City Attorney, in the amount of $3,249,779.40.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of February, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-36

RESOLUTION AMENDING THE FISCAL YEAR 2016-2017 CAPITAL IMPROVEMENT PROGRAM BUDGET TO TRANSFER A TOTAL OF $213,234 FROM THE FOLLOWING LINE ITEMS: CONSTRUCTION (CON) AND LAND ACQUISITION (LA) TO CONSTRUCTION ADMINISTRATION (CA), CITY CONSTRUCT FORCE (CFF), CONTINGENCY (CTGY), AND ENGINEERING/DESIGN/ ADMINISTRATION (EDA) LINE ITEMS

WHEREAS, certain budgetary transactions are necessary in the amounts shown in **Exhibit A**, in order to fund construction, contingency, construction administration and engineering support during construction for the Roselle Avenue Widening Project, and

WHEREAS, the Fiscal Year 2016-2017 Capital Improvement Program Budget must be amended as shown in **Exhibit A**, which is incorporated by reference herein.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the amendment of the Fiscal Year 2016-2017 Capital Improvement Program Budget as shown in **Exhibit A, attached** hereto, in order to transfer a total of $213,234 from the following line items: Construction (CON) and Land Acquisition (LA) to Construction Administration (CA), City Construct Force (CFF), Contingency (CTGY), and Engineering/Design/Administration (EDA) line items.

BE IT FURTHER RESOLVED, that the Director of Finance, or her designee, is hereby authorized to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of February, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION AUTHORIZING THE DIRECTOR OF UTILITIES TO ISSUE CHANGE ORDERS ON THE ROSELLE AVENUE WIDENING PROJECT, IN THE TOTAL AMOUNT OF $389,974 (12% OF THE ORIGINAL CONTRACT PRICE)

WHEREAS, On July 19, 1994, City Council adopted by Resolution No. 94-443, a Change Order Approval Policy which provides Director authority to issue change orders in an amount of 8% for any single contract of at least $1,000,000, but less than $10,000,000, and

WHEREAS, the Change Order Approval Policy also states that variance from limitations may be requested at time of bid award for unforeseen conditions which may arise in the field, and

WHEREAS, the contingency cost for Roselle Avenue Widening Project has been estimated to be $389,974, 12% of the original contract price, due to unusually poor soil conditions and the complexity of existing conditions in the project area, and

WHEREAS, the Director of Utilities is requesting authority to approve change orders up to the cumulative amount of $389,974.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the Director of Utilities to issue change orders on the Roselle Avenue Widening Project in the total amount of $389,974 (12% of the original contract price).

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of February, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION AUTHORIZING THE AWARD OF BID FOR CONSTRUCTION OF THE DRY UTILITIES RELOCATION FOR THE FUTURE COURTHOUSE PROJECT, AND APPROVING A CONTRACT WITH R&R PACIFIC CONSTRUCTION OF WOODLAND, CALIFORNIA IN THE AMOUNT OF $217,850 AND AUTHORIZING THE CITY MANAGER OR HIS DESIGNEES TO EXECUTE THE AGREEMENT, IN A FORM TO BE APPROVED BY THE CITY ATTORNEY

WHEREAS, on November 19, 2014 a Property Acquisition Agreement was signed between the City of Modesto and the Judicial Council of California, and

WHEREAS, the agreement required the city to relocate the utilities from the property being sold to the state, and the funds to relocate the utilities are being held in an escrow account until 45 days after the utilities have been relocated, and

WHEREAS, the City has until May 15, 2017 to complete the project per an agreement between the City and the Judicial Council of California , and

WHEREAS this project will relocate the overhead utilities that are located in the alley located between G and H Streets and 9th and 10th Streets, and

WHEREAS, staff advertised this project for bid on December 23, 2016, and

WHEREAS, the bids received for the Dry Utilities Relocation for the Future Court House Project were opened at 11:00 a.m. on January 17, 2017 for the consideration of the Council, and

WHEREAS, the City Manager has recommended that the bid of $217,850 received from R&R Pacific Construction, California, be accepted as the lowest responsible and responsive bid and the contract be awarded to R&R Pacific Construction,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the bid of $217,850 and awards R&R Pacific Construction of

Woodland, CA, the contract for the Dry Utilities Relocation for the Future Court House Project.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the contract, in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of February, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION AUTHORIZING AN INCREASE IN THE DIRECTOR OF UTILITIES AUTHORITY TO ISSUE CHANGE ORDERS FOR THE DRY UTILITIES RELOCATION FOR THE FUTURE COURTHOUSE PROJECT FROM $25,000 TO 25% ($54,463) OF THE CONSTRUCTION CONTRACT PRICE OF $217,850 WITH R&R PACIFIC CONSTRUCTION, OF WOODLAND, CALIFORNIA

WHEREAS, on February 7, 2017, the City Council is concurrently awarding a $217,850 contract to R&R Pacific Construction of Woodland, California for the construction of the Dry Utilities Relocation for the Future Courthouse Project, and

WHEREAS, this project will relocate the overhead utilities that are located in the alley located between G and H Streets and 9th and 10th Streets, and

WHEREAS, there are many unknowns under the street that may require unforeseen additional work, and

WHEREAS, this project is under a tight time frame to complete this work per an agreement with the Judicial Council of California and will not have time to return to council to request addition funds, and

WHEREAS, City staff is requesting authorization to increase the Director's Authority to 25% to provide for additional material and/or labor that may be needed for this project, and

WHEREAS, the additional costs could exceed the Director's authority of $25,000 cumulative change orders for the project as established by the Council's Change Order Approval Policy adopted by Resolution No. 94-443,

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the Director of Utilities to issue change orders for the Dry

Utilities Relocation for the Future Courthouse Project from $25,000 to 25% ($54,463) of the construction contract price of $218,850 with R&R Pacific Construction of Woodland, California.

RESOLUTION AMENDING THE FISCAL YEAR 2016-17 NON - CAPITAL PROGRAM MULTI YEAR BUDGET (PROJECT # 100859) IN THE AMOUNT OF $367,000 TO BE TEMPORARILY TRANSFERRED INTO THE PROJECT FROM GENERAL FUND RESERVES IN ORDER TO FULLY FUND THE PROJECT UNTIL THE ESCROW FUNDS ARE RELEASED AND REIMBURSED TO THE GENERAL FUND RESERVES

WHEREAS, certain budgetary transactions are necessary in the amount of $367,000, in order to fund construction, contingency, and City construction forces for the Dry Utilities Relocation for the Future Courthouse Project, and

WHEREAS, the City of Modesto entered into an agreement to sell property to the Judicial Council of California, and

WHEREAS, the agreement placed $367,000 into an escrow account until the utilities located on the property were relocated and the alley abandoned, and

WHEREAS, the escrow funds will not be released until 45 days after the utilities are fully relocated, and

WHEREAS, it could take up to 60 days to relocate the utilities after the conduit is placed, and

WHEREAS, the contractor that installed the conduit for the utility relocation will need to be paid before the utilities can be relocated and the escrow funds released, and

WHEREAS, the Fiscal Year 2016-2017 Non - Capital Program Budget must be amended as shown in **Exhibit A**, which is incorporated by reference herein,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the amendment of the Fiscal Year 2016-2017 Non - Capital Program Budget as shown in **Exhibit A**.

BE IT FURTHER RESOLVED that the Deputy City Manager, or his designee, is hereby authorized to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of February, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

Exhibit A

Due to construction funds being held in an escrow account and not being released until the utilities are fully relocated around the property purchased by the Judicial Council of California from the City of Modesto, funds need to be temporarily transferred from General Fund Reserves to pay for construction work required prior to the utilities relocating their services, line item increases/decreases are necessary for Fiscal Year 2016-17 Non - Capital Program Multi Year Budget (project # 100859) and the total project costs need to be increased by $367,000.

To fund the above account, $367,000 will be transferred from General Fund Reserves into Fiscal Year 2016-17 Non - Capital Program Multi Year Budget (project # 100859). Once the $367,000 of escrow funds are released they will be deposited into the General Fund Reserves.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-41

RESOLUTION AMENDING THE FISCAL YEAR 2016-2017 ANNUAL OPERATING AND CAPITAL IMPROVEMENT BUDGET

WHEREAS, a financial analysis has been completed and it has been determined that a budget adjustment is required to the Annual and Capital Improvement Budgets of the City of Modesto for Fiscal Year 2016-17,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the Fiscal Year 2016-17 Annual Operating and Capital Improvement budgets as shown in **Exhibit A**, which is **attached** hereto and incorporated by reference herein.

BE IT FURTHER RESOLVED that the Deputy City Manager, or his designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of February, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following votes:

EXHIBIT A

FISCAL YEAR 2016-17

COMMUNITY & ECONOMIC DEVELOPMENT

A budget adjustment is to recognize and appropriate revenue received that exceeded the initial project budget amounts. The revenue received is from the State Department of Courts and is being used for the relocation expenses required by the agreement with the State of California. This adjustment will recognize $172,302 in additional revenue to for the project and appropriate the same amount in expense budget under the Professional Services account in project 100859 (Courthouse Project).

A Budget Adjustment is necessary to add unspent Emergency Solutions Grant (ESG) funds in the amount of $57,262.64 to the Fiscal Year 2016-2017 Operating Budget for Fund 1180. ESG grantees have 24 months to expend these funds.

PUBLIC WORKS

A budget adjustment is necessary to recognize $743,000 of unbudgeted Public Transportation Modernization, Improvement, and Service Enhancement Account (PTMISEA) Revenue for Project # 100982, MAX Intelligent Transportation System Equipment Purchase and Installation, in Fund 4510, Bus Fixed Route, and reallocate said funds to the project's discretionary accounts for the purchase and installation of Intelligent Transportation Systems equipment for the City's MAX bus fleet.

UTILITIES

A budget adjustment of $1,000,000 is necessary to create and establish the operating budget for the Council approved Water Rate Assistance Program (WRAP). These funds will come from Water Fund revenue collected by the City Utility Billing and Collections Division as late payments and delinquency charges on City utility bills.

A budget adjustment is necessary to reduce the General Fund expense budget in account 54425 (Senior/Disabled Discount Charges) by $210,000. An adjustment will then increase the expense budget in cost center 41410 (Water General) by $210,000 to fund the Senior/ Disabled Low Income Discount program with revenue collected by the City Utility Billing and Collections Division as late payments and delinquency charges on City utility bills.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-42

Print

RESOLUTION APPROVING AN AGREEMENT WITH BROWN AND CALDWELL, RANCHO CORDOVA, CA, FOR DESIGN AND CONSTRUCTION SERVICES FOR THE REPLACEMENT WELL 226 PROJECT, IN AN AMOUNT NOT TO EXCEED $175,197 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS $17,520 FOR ADDITIONAL SERVICES (IF NEEDED), FOR A MAXIMUM TOTAL AMOUNT OF $192,717, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, City water supply Well 226, located at the northwest corner of Conant and Brenner Avenues, was taken offline in 2006 due to elevated arsenic and nitrate concentrations, and

WHEREAS, Well 226 was originally drilled in 1954, and is strategically located near the Highway Village neighborhood, and

WHEREAS, on April 7, 2009, by Resolution 2009-149, Council approved a short-list of hydrogeologists to be used on a rotating, as-needed basis, and

WHEREAS, in accordance with Administrative Directive 3.1, Selection Procedures for Professional Consultants Who Provide Architectural and Engineering Services for Capital Projects, Brown and Caldwell (B&C) was selected as the most qualified to provide design services for well remediation at Well 226, and

WHEREAS, on November 24, 2009, by Resolution No. 2009-554, Council approved an agreement with B&C for Design Services for Well Remediation at Well 226, and

WHEREAS, a new, deeper well was proposed to be drilled on the existing site, built to current well construction standards, and

WHEREAS, Well 226 was over 60 year's old, shallow at 270 feet, and drilled using a method that cannot isolate specific water layers, and

WHEREAS, in 2011, plans and specifications for removal and replacement of Well 226 were prepared, but the project was deferred due to lack of funding, and

WHEREAS, the agreement with B&C was subsequently closed, and

WHEREAS, on June 28, 2016, by Resolution 2016-270, Council approved the specifications for destruction of certain water wells, and awarded a contract to Howk Systems of Modesto, CA, and

WHEREAS, Well 226 was destroyed as part of this work, and

WHEREAS, in the interest of efficiency and due to the fact that B&C was previously selected to provide design services for the replacement of Well 226, a further selection process was not deemed necessary, and

WHEREAS, at the Utilities Department staff request, B&C submitted a proposal to update the plans and specifications to meet the City's current operational needs and current standards, and to provide bid and construction services, and

WHEREAS, B&C's proposal cost and scope were reviewed and determined to be reasonable to provide design and construction services, and

WHEREAS, the scope of services to be provided under the agreement includes: 1) Revise well drilling design; 2) Well equipping design; 3) Bid period services; 4) Engineering support during construction; and 5) Permitting support, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204 Exceptions to Formal Bidding Requirements, this agreement for professional services is exempt from the bid requirement, and

WHEREAS, therefore, staff recommends approval of the agreement with B&C for design and construction services for the Replacement Well 226,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with Resolution approving an Agreement with Brown and Caldwell, Rancho Cordova, CA, for design and construction services for the Replacement Well 226 Project, in an amount not to exceed $175,197 for the identified scope of services, plus $17,520 for additional services (if needed), for a maximum total amount of $192,717.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of February, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-43

RESOLUTION APPROVING AN AGREEMENT WITH WEST YOST ASSOCIATES, INC., PLEASANTON, CA, FOR ON-CALL HYDRAULIC WATER SYSTEM MODELING SUPPORT SERVICES FOR A TERM OF TWO YEARS WITH TWO ONE-YEAR EXTENSIONS AT THE SOLE DISCRETION OF THE CITY, NOT TO EXCEED $75,000 PER YEAR FOR A TOTAL COST OF $300,000 OVER THE TERM OF THE AGREEMENT, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT, AND UP TO TWO, ONE-YEAR EXTENSIONS

WHEREAS, Utilities Department staff has developed a hydraulic model of the City's water distribution system, and

WHEREAS, the model has been used over time to analyze the current system and evaluate proposed improvements, and

WHEREAS, on September 2, 2014, by Resolution 2014-336, City Council approved an agreement with West Yost Associates, Inc., for consultant services to develop a Water Master Plan, and

WHEREAS, the scope of work included recalibrating the City's current hydraulic model and reallocating system demands based on new meter data, and

WHEREAS, modeling support is needed for timely analysis related to design of water infrastructure and to assist/optimize water system operations, and

WHEREAS, West Yost Associates, Inc. (West Yost), has been providing water system hydraulic modeling support for several years, typically related to a specific task, such as the Water Engineer's Report and Water Master Plan, and

WHEREAS, West Yost was previously selected as being the most qualified to provide services that included updating the hydraulic model of the water system, and is

also deemed most qualified to provide the necessary on-call hydraulic water system modeling support, and

WHEREAS, West Yost has the hardware and software, including an updated version of the City's current water system infrastructure, and

WHEREAS, establishing an on-call service agreement will provide a method of timely support, and

WHEREAS, when on-call hydraulic water system modeling services are required on an "as needed" basis, written task orders will be issued to the consultant identifying the scope, cost, and schedule to complete the specific task, and

WHEREAS, there are no fiscal impacts at this time, and to fund consultant work for project-specific task orders, funds will be budgeted and encumbered against each specific Capital Improvement Program (CIP) project account as the task is assigned, and

WHEREAS, consultant invoices will be paid from each specific CIP project on a task order basis received and verified by Engineering Design Division staff, and

WHEREAS, costs for on-call hydraulic water system modeling services will not exceed the allotted amount for each year for two years with two, one-year extension options, at the sole discretion of the City, and

WHEREAS, when on-call hydraulic water system modeling support services are required, staff will prepare task order(s), and

WHEREAS, the consultant will submit a written scope of services outlining the specific work, schedule, and cost estimate associated with each task order, and

WHEREAS, the consultant will not perform any services until Engineering Design Division management has approved the proposed specific task order and a written

Notice to Proceed is prepared and sent to the consultant, prior to commencement of services, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204 Exceptions to Formal Bidding Requirements, this agreement for professional services is exempt from the bid requirement, and

WHEREAS, total cost for four years is not to exceed $300,000, and

WHEREAS, therefore, staff recommends approval of the above on-call consultant agreement for hydraulic water system modeling support services,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with West Yost Associates, Inc., Pleasanton, CA, for On-Call Hydraulic Water System Modeling Support Services for a term of two years with two one-year extensions at the sole discretion of the City, not to exceed $75,000 per year for a total cost of $300,000 over the term of the agreement.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement, and up to two, one-year extensions.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of February, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-46

RESOLUTION REAPPOINTING ROSA ESCUTIA-BRAATON TO THE CITY OF MODESTO PLANNING COMMISSION WITH A TERM EXPIRATION OF JANUARY 1, 2021

WHEREAS, Section 1102 of the Charter of the City of Modesto authorizes the City Council to appoint members to various Boards and Commissions, and

WHEREAS, the Appointments Committee met on January 30, 2017 and recommended reappointment of Rosa Escutia-Braaton to the Modesto Planning Commission.

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. Rosa Escutia-Braaton is hereby reappointed to the Modesto Planning Commission with a term expiration of January 1, 2021.

SECTION 2. The City Clerk is hereby directed to transmit a copy of this resolution to the appointed member of the Modesto Planning Commission, and the Secretary thereof.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of February, 2017, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-47

RESOLUTION AUTHORIZING THE AWARD OF PROPOSAL FOR THE FURNISHING OF METRO ETHERNET SERVICES TO COMCAST BUSINESS COMMUNICATIONS, LLC, PHILADELPHIA, PA, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO ISSUE A PURCHASE AGREEMENT FOR AN ESTIMATED THREE (3) YEAR TOTAL $417,000

WHEREAS, The City Manager authorized the Purchasing Manager to issue a formal Request for Proposals (RFP) for the furnishing of metro Ethernet services for the Information Technology Department, and

WHEREAS, the Purchasing Division issued RFP 1516-15 Metro Ethernet Services on the City's website under the commodity code for computer hardware, and

WHEREAS, prospective proposers were noticed online of the proposal opportunity, and

WHEREAS, two (2) companies chose to download the RFP document, one of which is a local company, and

WHEREAS, proposals were formally opened in the City Clerk's office and two (2) companies chose to respond, and

WHEREAS, the two (2) companies responding each provided a responsive and responsible proposal, and

WHEREAS, an evaluation committee comprised of three (3) City staff members evaluated the proposals, and

WHEREAS, based on being ranked highest in total evaluation criteria the evaluation committee recommends the award of proposal for the furnishing of metro Ethernet services to Comcast Business Communications, LLC, Philadelphia, PA, for an estimated three (3) year annual cost of $417,000, and

WHEREAS, Modesto Municipal Code Section 8-3.203 requires all purchases which meet or exceed $50,000 for material, equipment or contractual services to be formally bid and the award of proposal for the furnishing of metro Ethernet services to Comcast Business Communications, LLC, Philadelphia, PA, conforms to the Modesto Municipal Code, 8-3.203, and

WHEREAS, funds are budgeted in Fiscal Year 2016-17 in the Information Technology Fund, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the award of proposal for the furnishing of metro Ethernet services to Comcast Business Communications, LLC, Philadelphia, PA.

BE IT FURTHER RESOLVED that the City Manager, or designee, is hereby authorized to issue a purchase agreement for an estimated three (3) year cost of $417,000.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of February, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION AUTHORIZING THE AWARD OF BID FOR THE PURCHASE OF ENTERPRISE RESOURCE PLANNING SYSTEM HARDWARE UPGRADE EQUIPMENT TO SOLID NETWORKS INC., SALIDA, CA, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO ISSUE A PURCHASE ORDER FOR AN ESTIMATED COST OF $476,000

WHEREAS, The City Manager authorized the Purchasing Manager to issue formal Request for Bids (RFB) for Enterprise Resource Planning System Hardware Upgrade Equipment, and

WHEREAS, the Purchasing Division issued RFB 1617-18 ERP System Hardware Upgrade Equipment on the City's website under the commodity codes for computer hardware, consulting and computer management services and

WHEREAS, prospective proposers were noticed online of the bid opportunity, and

WHEREAS, nineteen companies chose to download the RFB document and

WHEREAS, on December 20, 2016, bids were formally opened in the City Clerk's office. One (1) company chose to respond and provided a responsive and responsible bid, and

WHEREAS, the bid received was provided by a local vendor, and

WHEREAS, based on providing a responsive and responsible bid, City staff recommends the award of bid for the purchase of Enterprise Resource Planning System Hardware Upgrade Equipment to Solid Networks Inc., Salida, CA, for an estimated cost of $476,000, and

WHEREAS, Modesto Municipal Code Section 8-3.203 requires all purchases which meet or exceed $50,000 for material, equipment or contractual services to be

formally bid. The award of bid for the furnishing of Enterprise Resource Planning System Hardware Upgrade Equipment to Solid Networks Inc., Salida, CA, conforms to the Modesto Municipal Code, 8-3.203, and

WHEREAS, funds are budgeted in Fiscal Year 2016-17, in Appropriation Unit: 5230-17810-57005 (Information Technology Replacement Fund).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the award of bid for the furnishing of Enterprise Resource Planning System Hardware Upgrade Equipment to Solid Networks Inc., Salida, CA.

BE IT FURTHER RESOLVED that the City Manager, or designee, is hereby authorized to issue a purchase agreement for an estimated cost of $476,000.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of February, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-49

RESOLUTION REJECTING ALL BIDS FOR THE SANDERS AND FREEDOM NEIGHBORHOOD PARKS RENOVATION PROJECT

WHEREAS, the Sanders and Freedom Neighborhood Parks Renovation Project will remove and replace the existing rubber play surfacing and selected play equipment at Sanders and Freedom Neighborhood Parks; basketball court restriping at Sanders Park and replacement of lighted steel bollards at Freedom Park, and

WHEREAS, the one bid received for the Sanders and Freedom Neighborhood Parks Renovation Project was publicly opened at 11:00 a.m. on November 29, 2016, and later tabulated by the Utilities Department for the consideration of the Council, and

WHEREAS, Dossett Construction of Modesto, California was the sole and apparent low bidder at 53.38% above the engineer's estimate, and

WHEREAS, the Parks Planning and Development Division staff determined that the lack of bids was due to another bid opening on the same date and the high cost was associated with the one bidder providing a bid for a larger scope than required by the bid documents, and

WHEREAS, City staff recommends that the City reject the bids, make modifications to the scope of work and re-advertise the project for bid in early 2017 with the intention of attracting a higher number of contractors and more competitive bids.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby rejects the bids received for the Sanders and Freedom Neighborhood Parks Renovation Project.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of February, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-50

RESOLUTION ACCEPTING GRANT FUNDING FROM THE URBAN STREAMS RESTORATION PROGRAM ADMINISTERED BY THE CALIFORNIA DEPARTMENT OF WATER RESOURCES IN THE AMOUNT OF $412,918 TO PARTIALLY FUND THE REMOVAL OF THE REMNANT DENNETT DAM AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO ACCEPT AND UTILIZE THE GRANT AWARD FROM THE URBAN STREAMS RESTORATION PROGRAM FOR THE CONSTRUCTION COSTS FOR THE REMOVAL PROJECT OF THE REMNANT DENNET DAM

WHEREAS, the City of Modesto and Tuolumne River Preservation Trust (TRT) have received a grant award from the Urban Streams Restoration Program (USRP) of $412,918 (four hundred twelve thousand nine hundred and eighteen dollars) for removal of the Remnant Dennett Dam, and

WHEREAS, on June 14, 2016 the City Council approved a Memorandum of Understanding (MOU) with TRT to fund the construction to remove project, and

WHEREAS, removal of the Remnant Dennett Dam benefits the City of Modesto and TRT by restoring instream habitat and fish passage conditions, improving native riparian habitat and creating safe recreational boating opportunities, and

WHEREAS, the TRT staff is continuing the pursuit of additional grant funding opportunities to obtain the necessary construction funding of approximately $1 million (one million dollars) anticipated to begin Summer 2017, and

WHEREAS, the City will be the financial agent that houses the grant funding obtained by the TRT staff for the construction to remove project.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it accepts the grant funding from the Urban Streams Restoration Program in the

amount of $412,918 to partially fund the construction to remove the Remnant Dennett Dam.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to accept and utilize the grant award from the Urban Streams Restoration Program for the construction costs for the removal project of the Remnant Dennett Dam.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of February, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-51

RESOLUTION AUTHORIZING THE DEPUTY CITY MANAGER, OR HIS DESIGNEE, TO AMEND THE FISCAL YEAR 2016/2017 MULTI-YEAR OPERATING BUDGET TO ESTABLISH A NEW NON-CAPITAL PROJECT #100993, IN AN AMOUNT NOT TO EXCEED $412,918 IN REVENUE; TO BUDGET EXPENDITURES AS OUTLINED IN ATTACHMENT A TO PARTIALLY FUND THE REMOVAL OF THE REMNANT DENNETT DAM; AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO ESTABLISH A GRANT FUNDED NON-CAPITAL PROJECT FOR THE CONSTRUCTION COSTS FOR THE REMOVAL PROJECT OF THE REMNANT DENNETT DAM

WHEREAS, the Tuolumne River Preservation Trust (TRT) has received a grant award from the Urban Streams Restoration Program (USRP) of $412,918 (four hundred twelve thousand nine hundred eighteen dollars) for construction costs to remove the Remnant Dennett Dam, and

WHEREAS, the City Council entered into a Memorandum of Understanding (MOU) with TRT on June 14, 2016, and

WHEREAS, the City Council shall consider approving and amending the 2016/17 Multi-year Operating Budget to establish a new Non-Capital project with the grant award to fund the construction removal project in an amount not to exceed $412,918, and

WHEREAS, additional grant funding avenues are being pursued by TRT staff to obtain the necessary construction funding of approximately $1 million, and

WHEREAS, the City will be the financial agent that houses the grant funding for the project proposed to be established.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it is amending the Multi-Year Operating Budget to establish a Non-Capital project for the removal of the Remnant Dennett Dam in an amount not to exceed $412,918 and to

budget expenditures as outlined in **Attachment A**, **attached** hereto, to partially fund the Removal of the Remnant Dennett Dam.

BE IT FURTHER RESOLVED that the Deputy City Manager, or his designee, is hereby authorized to establish a grant funded Non- Capital project for the construction costs for the removal project of the Remnant Dennett Dam.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of February, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-52

RESOLUTION AUTHORIZING AWARD FOR THE PURCHASE AND INSTALLATION OF A REAL TIME CRIME CENTER DASHBOARD SOLUTION FOR THE MODESTO POLICE DEPARTMENT TO CYBERTECH SYSTEMS AND SOFTWARE INC., OAK BROOK, IL, AND AUTHORIZING THE CITY MANAGER OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT FOR AN ESTIMATED FIVE (5) YEAR TOTAL CONTRACT COST OF $502,549

WHEREAS, the Modesto Police Department completed the construction phase of the Real Time Crime Center (RTCC) in August 2016, and

WHEREAS, the RTCC is equipped with tools to assist field staff in real-time by immediately researching, monitoring, analyzing, and disseminating important crime bulletins and/or trends, and

WHEREAS, the RTCC has access to numerous law enforcement, department, and public databases, but the need still exists to provide field staff this information in an organized and easy to use manner, thus creating the need for a Real Time Crime Center Dashboard Solution, and

WHEREAS, the City Manager authorized the Purchasing Manager to issue a formal Request for Proposals (RFP) for the purchase of a Real Time Crime Center Dashboard Solution, and

WHEREAS, the Purchasing Division issued RFP 1617-04, with fifteen (15) companies downloading the RFP document, and

WHEREAS, three (3) companies provided responsive and responsible proposalsto RFP 1617-04 and an evaluation committee comprised of seven (7) City staff members evaluated the proposals, and

WHEREAS, based on being ranked highest in total evaluation criteria, the evaluation committee recommended the award of proposal for the purchase of a Real Time Crime Center Dashboard Solution to CyberTech Systems and Software, Inc., Oak Brook, IL, for an estimated five (5) year total cost of $502,549.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the award of proposal and agreement for the purchase and installation of a Real Time Crime Center Dashboard Solution for the Modesto Police Department, to CyberTech Systems and Software, Inc., Oak Brook, IL, for an estimated five (5) year total contract cost of $502,549.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the14th day of February, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-53

RESOLUTION AUTHORIZING THE DEPUTY CITY MANAGER, OR HIS DESIGNEE, TO AMEND THE FISCAL YEAR 2016/2017 OPERATING AND CAPITAL IMPROVEMENT BUDGETS TO APPROPRIATE EXPENDITURES OF APPROXIMATELY $167,217 FOR THE MODESTO POLICE DEPARTMENT'S PURCHASE OF A RTCC DASHBOARD SOLUTION AND SYSTEM COMPONENTS

WHEREAS, the Modesto Police Department completed the construction phase of the Real Time Crime Center (RTCC) in August 2016, and

WHEREAS, the RTCC has the need for a Real Time Crime Center Dashboard Solution to efficiently and effectively access and disseminate in-progress crime information and other useful multiagency data to officers and staff in the field, and

WHEREAS, the City Manager authorized the Purchasing Manager issued Request for Proposals (RFP) 1617-04 for the purchase of a Real Time Crime Center Dashboard Solution, and

WHEREAS, based on being ranked highest in total evaluation criteria, the evaluation committee recommended the award of proposal for the purchase of a Real Time Crime Center Dashboard Solution to CyberTech Systems and Software, Inc., Oak Brook, IL, for an estimated five (5) year total cost of $502,549, and

WHEREAS, the expenses for the initial purchase of the Real Time Crime Center Dashboard Solution ($106,549) as well as the costs associated with other system components including the purchase of three (3) servers ($32,213) and professional services for the installation and deployment of the entire ESRI ArcGIS Enterprise stack ($28,455) will come from existing appropriations in the Police Department's Operating Budget for FY2016-17, and

WHEREAS, included in the agreement is an annual software subscription and system maintenance support costs of approximately $99,000 for each of the remaining four (4) years, which will be incorporated into the Police Department's annual budget.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the Fiscal Year 2016/2017 Operating and Capital Improvement Budgets to appropriate expenditures for the first year of approximately $167,217 for the Modesto Police Department's purchase of a RTCC Dashboard Solution and system components.

BE IT FURTHER RESOLVED that the Deputy City Manager, or his designee, is hereby authorized to amend the Fiscal Year 2016/2017 Operating and Capital Improvement Budgets in conformance with this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the14th day of February, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-54

Print

RESOLUTION APPROVING AN INCREASE TO THE EXISTING PURCHASE AGREEMENT WITH TTI POLYGRAPH TO INCREASE THE CONTRACT AMOUNT FROM $45,000 TO $131,250 ANNUALLY, UNTIL SUCH TIME THAT THE MODESTO POLICE DEPARTMENT CAN COMPLETE A FORMAL COMPETITIVE BID PROCESS

WHEREAS, the City of Modesto Police Department utilizes polygraph services as part of the recruitment process, and

WHEREAS, in January 2016, the Modesto Police Department went through an informal bid process for such services, anticipating processing approximately forty (40) candidate polygraphs, and

WHEREAS, on February 2, 2016, the Modesto Police Department entered into a three (3) year contract with TTI Polygraph for their polygraph screening services for approximately forty (40) screenings at a rate of $375 per screening for an anticipated annual total of $15,000, and

WHEREAS, from February 2016 until December 2016, the Modesto Police Department conducted 147 polygraph screenings through TTI Polygraph, with an anticipated fifty (50) more screenings needed through the end of the first contract year on January 31, 2017, and

WHEREAS, the increased need for polygraph screenings during the first contract year was a result of vacancies created by staff retirements and resignations beyond those anticipated, coupled with additional position allocations approved in the adopted Operating Budget for Fiscal Year 2016/2017, and the award of the COPS Hiring grant in October 2016, and

WHEREAS, the current purchase agreement does not have a limit to the number of polygraph services that the City can request, the Modesto Police Department is requesting that Council approve the increase in the allowable annual contract amount to $131,250, with TTI Polygraph because the annual usage will exceed the $50,000 threshold, and

WHEREAS, the Modesto Police Department intends to complete a formal competitive bid process for polygraph services according to Modesto Municipal Code Section 8-3.203 in six (6) months, and

WHEREAS, there are exceptions to the rule set forth in the Modesto Municipal Code Section 8-3.204(c), wherein the Purchasing Manager, at his or her discretion, has the authority to make the determination that calling for bids on a competitive bid basis is undesirable due to exigent circumstances to ensure that polygraph services are not interrupted.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the increase to the existing purchase agreement with TTI Polygraph to increase the funding associated with polygraph services to $131,250 annually, until such time the Modesto Police Department can complete a competitive bid process.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of February, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-55

RESOLUTION APPROVING AN AGREEMENT WITH WEST YOST ASSOCIATES, INC., PLEASANTON, CA, FOR DESIGN SERVICES FOR THE REPLACEMENT WELL 229 PROJECT, IN AN AMOUNT NOT TO EXCEED $329,836 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS $32,984 FOR ADDITIONAL SERVICES (IF NEEDED), FOR A MAXIMUM TOTAL AMOUNT OF $362,820 AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, City water supply Well 229, located near Sutter and Rouse Avenues, was taken offline in early 2016 due to elevated nitrate concentrations, and

WHEREAS, Well 229 was originally drilled in 1950 and is strategically important, located in southwest Modesto. Well 229 is more than 65 years old, shallow at a depth of 230 feet, and originally drilled using a method that cannot isolate specific water layers, and

WHEREAS, a new, deeper well is proposed to be drilled on the existing site, built to current well construction standards, and

WHEREAS, on June 28, 2016, by Resolution 2016-270, Council approved the specifications for destruction of certain water wells, and awarded a contractor to Howk Systems of Modesto, CA, and

WHEREAS, Well 229 was destroyed as part of this work, and

WHEREAS, in accordance with Administrative Directive 3.1, Selection Procedures for Professional Consultants Who Provide Architectural and Engineering Services for Capital Projects, a Request for Proposal (RFP) was sent to five (5) pre-qualified consultants for engineering design services for water Capital Improvement Program projects, and

WHEREAS, on December 13, 2016, staff received and distributed five (5) proposals to a selection committee consisting of Utilities engineering and operations staff, and

WHEREAS, the selection committee evaluated the proposals and determined West Yost Associates, Inc. (West Yost) to be the most qualified and responsive, and

WHEREAS, West Yost's sealed proposal costs were opened after the selection ranking had been finalized, and

WHEREAS, West Yost's proposal cost and scope were reviewed and determined to be reasonable to provide design and bid period services, and

WHEREAS, the scope of services to be provided under the agreement includes: 1) Design of production well including subsurface design; 2) Hydrogeological support during drilling of production well; and 3) Design of above-grade facilities, and

WHEREAS, the design and bid period services for Replacement Well 229 fall within the scope of services of West Yost's proposal, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204 Exceptions to Formal Bidding Requirements, this agreement is for professional services and therefore exempt from the bid requirement, and

WHEREAS, staff however still went through a RFP process pursuant to Administrative Directive 3.1, and

WHEREAS, staff recommends approval of the agreement with West Yost for design and bid period services for the Replacement Well 229 Project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with West Yost Associates, Inc., Pleasanton, CA,

for design services for the Replacement Well 229 Project, in an amount not to exceed $329,836 for the identified scope of services, plus $32,984 for additional services (if needed), for a maximum total amount of $362,820.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of February, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-56

RESOLUTION APPROVING THE FOOD SERVICE ESTABLISHMENT COST SHARE PROGRAM

WHEREAS, Title 5, Chapter 6, Article 10 of the City of Modesto Municipal Code, requires all Food Service Establishments (FSEs) be connected to a grease interceptor/trap that removes Fats, Oil and Grease (FOG), prior to discharge to the City of Modesto sewer system, and

WHEREAS, the FSEs are responsible for the installation, maintenance, and repair of any and all grease interceptors/traps, and

WHEREAS, new or current owners of FSEs may be required to install or retrofit grease interceptors/traps if there has been a substantial change in operation, menu, or owner, if the current operation requires extensive cleaning of City sewer line as a result of FOG, or if FOG from the FSEs has caused a sewer overflow into the public right of way, and

WHEREAS, in July 2016, the City adopted Resolution 2016-181, which adjusted the sewer rate structure to properly fund the utility, ensuring revenues were sufficient to meet future operational and capital improvement projects, in accordance with Proposition 218, and

WHEREAS, as a result of this rate change, FSEs that are operating without an approved grease interceptor/trap are billed as a Commercial Group 4 business with biochemical oxygen demand (BOD) and total suspended solids (TSS) loading greater than 1401 mg/l, and

WHEREAS, proper installation of a grease interceptor/trap has the potential to decrease BOD and TSS loading to less than 1000 mg/l which would put them into a different Commercial Group, therefore, FSEs would see a decrease in their sewer bill from $8.06 per 1,000 gallons to $6.42 to $5.05 per 1,000 gallons, a reduction of 20% to 37%, and

WHEREAS, for some FSEs, the installation of a grease interceptor/trap can be an additional hardship, therefore, a Cost Share Program (CSP) will be funded through the Wastewater Fund and with an annual budget of $100,000, and

WHEREAS, through the CSP, owners of FSEs that do not have a grease interceptor/trap are eligible to receive reimbursement for up to 50% of the cost to purchase either a grease interceptor or trap with the owners of FSEs responsible for cost of installation, maintenance and repairs.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto hereby approves the Food Service Establishment Cost Share Program,

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of February, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION AMENDING FISCAL YEAR 2016-17 ENVIRONMENTAL SERVICES OPERATING BUDGET FOR AN AMOUNT OF $100,000 FROM WASTEWATER FUND RESERVES

WHEREAS, Title 5, Chapter 6, Article 10 of the City of Modesto Municipal Code, requires all Food Service Establishments (FSEs) be connected to a grease interceptor/trap that removes Fats, Oil and Grease (FOG), prior to discharge to the City of Modesto sewer system, and

WHEREAS, the FSEs are responsible for the installation, maintenance, and repair of any and all grease interceptors/traps, and

WHEREAS, for some FSEs, the installation of a grease interceptor/trap can be an additional hardship, therefore, a Cost Share Program (CSP) will be funded through the Wastewater Fund and with an annual budget of $100,000, and

WHEREAS, through the CSP, owners of FSEs are eligible to receive reimbursement for up to 50% of the cost to purchase a grease interceptor/trap with the owners of FSEs responsible for cost of installation, maintenance and repairs, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto hereby approves the transfer of $100,000 from Wastewater Reserves to the Environmental Services budget (4210-44113-53300) for the Food Service Establishment Cost Share Program,

BE IT FURTHER RESOLVED that the Director of Finance, or her designee, is hereby authorized to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of February, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-58

RESOLUTION APPROVING A UTILITIES DEPARTMENT POLICY REGARDING PROCEDURES TO DEFINE PROJECT SCOPE ON MAJOR CAPITAL IMPROVEMENT PROGRAM PROJECTS

WHEREAS, the City's adopted Capital Improvement Program (CIP) often contains projects for which the project scope has not been fully developed, and

WHEREAS, this is due to the fact that it is not possible to fully develop a project's scope until the design development phase of the project has been comprehensively evaluated, and

WHEREAS, this leads to the risk of a project scope changing significantly between the time it is initially approved by Council and the time the design is fully completed, and

WHEREAS, scope changes are legitimate and justifiable, and are needed to address issues that become apparent during the development of the project, and

WHEREAS, however, these scope changes may result in significant modifications in project budget and schedule, and

WHEREAS, on September 26, 2006, by Resolution No. 2006-624, Council approved a Major Scope Policy that applied to CIP projects with a total project budget of $1 million or more, and

WHEREAS, the purpose of the policy was to help establish a clear focus of project scope, provide Council with information at specific milestones during project development, and allow Council the opportunity to make informed decisions concerning a project's budget and scope before significant investment in final design and construction of the project, and

WHEREAS, the policy required preparation of a Preliminary Design Report (PDR) to fully define the scope for major CIP projects, and

WHEREAS, PDRs would include completion of a 35% level design, which encompasses project development, alternatives analysis, cost estimates, and recommendations for implementation, and

WHEREAS, based on experience with the current policy, staff determined improvements can be realized, and developed a scope policy specific to Major Utility CIP projects that is cost effective, improves internal efficiencies, and provides clarity, and

WHEREAS, the 2006 policy defined major CIP projects as those with a total project budget of $1 million and above, and

WHEREAS, project costs have increased significantly since 2006, making the $1 million threshold outdated and inefficient, and

WHEREAS, the 2006 policy adds additional time, effort and costs, for projects with budgets ranging from $1 million to $3 million, without any added benefit, and

WHEREAS, the 2006 policy also extends the project schedule by four to six months, resulting in increased costs, and

WHEREAS, many water and wastewater projects currently scheduled consist of replacement or rehabilitation of existing infrastructure and have budgets ranging from $2 million to $8 million each, and

WHEREAS, for these types of projects, the scope is well defined, and

WHEREAS, preparation of PDRs does not add any significant value in terms of scope definition and may delay the construction of needed improvements while increasing the project cost, and

WHEREAS, the same applies to projects consisting of new facilities that cost under $3 million, and

WHEREAS, for example, most new water wells and wastewater lift stations have total project costs under $3 million; and a scope that is clearly defined, based on predetermined or established hydraulic studies and City standards, and

WHEREAS, the proposed scope policy for Major Utility CIP projects focuses on clarifying the definition of major projects as well as revising the original procedure to a more condensed and efficient process, and

WHEREAS, the proposed policy shall apply to Utility CIP projects only and all other non-Utility CIP projects shall continue to adhere to the 2006 policy, and

WHEREAS, adoption of the proposed policy will formalize a process that provides Council an opportunity to make informed decisions regarding a project's scope and budget at appropriate times in the project development process, and

WHEREAS, for the purpose of this policy, a major project is being changed from the original policy definition of a Public Works project with a total project budget of $1 million or more to a Utilities project involving either: 1) new facilities with an approved CIP budget of $3 million or more, or 2) existing facilities involving replacement or rehabilitation with approved CIP budgets of $10 million or more, and

WHEREAS, the said revised Scope Policy for Utilities Major Capital Improvement Program Projects is **attached** hereto as **Exhibit "A"**, and made a part hereof,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Scope Policy for Utilities Major Capital Improvement Program Projects as defined by the **attached** revised policy.

BE IT FURTHER RESOLVED that the Director of Utilities, or his designee, is hereby authorized to execute the policy.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of February, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

EXHIBIT A

SCOPE POLICY FOR UTILITIES MAJOR CAPITAL IMPROVEMENT PROGRAM PROJECTS

Issued: February 14, 2017

Policy #_____

Background:

During the development of a major Capital Improvement Program (CIP) for Utilities projects, there is the potential that the scope of the project may change to the extent it significantly exceeds the original scope of work approved by Council. Most often scope changes are legitimate and justifiable changes that are needed to address issues that become apparent during the development of the project. However, these changes in scope may involve significant changes in project budget and schedule. The purpose of the policy is to provide direction in establishing a clear focus of project scope and to provide Council with information at specific milestones during project development to allow Council the opportunity to make informed decisions concerning a project's budget and scope before significant investment in final design and construction of utilities projects. For all other City CIP projects, (non-Utilities), Policy 2006-624 prevails. This Policy _____ pertains solely to Utilities CIP projects.

For the purpose of this policy a major project is defined as a project involving new facilities with an approved CIP budget $3 million or more, or a replacement or rehabilitation project with an approved CIP budget $10 million or more.

Policy:

In order to fully define the scope for major Utilities CIP projects, a Preliminary Design Report (PDR) shall be prepared to clearly define the scope of work of the project to the greatest extent possible. The PDR shall define the issues related to the project including environmental, Utilities, right of way, and technical issues. The report shall include an opinion of probable cost for the project including appropriate contingencies based on the identified issues.

All major Utilities CIP projects shall conform to the procedure outlined below.

1. Following consultant selection procedures, under Administrative Directive 3.1, a firm shall be selected to provide preliminary design services for the project which include preparation and completion of a PDR. A contract for these preliminary design services shall be presented to Council for approval.

2. Once the PDR is completed, staff shall present it to Council for approval prior to proceeding with final design.

3. Following approved procedures, a firm shall be selected to provide final design services for the project based on the PDR. Staff may recommend use of the same firm that completed the PDR for final design services. A contract for final design services shall be presented to Council for approval.

4. If during the course of final design the scope of the project changes by more than 30% for previously unforeseen reasons, a report of the scope change shall be presented to Council as soon as practical once the extent of the scope change is known.

Nothing in this policy is intended to restrict what work staff can perform. Any of the above work may be performed by City staff, if appropriate.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-60

RESOLUTION ACCEPTING THE EMERGENCY SEWER AND STORM DRAIN REPAIRS AS COMPLETE, AUTHORIZING ALL NECESSARY STEPS TO FILE WITH THE COUNTY RECORDER, RELEASE SECURITIES, AND AUTHORIZE PAYMENTS TOTALING $188,570 TO ROLFE CONSTRUCTION COMPANY OF ATWATER, CALIFORNIA

WHEREAS, recent rain events exposed areas of vulnerability with the sewer and storm drain collection systems, which required emergency repair, and

WHEREAS, City staff initiated an expedited process to secure a Contractor to perform the repairs, and

WHEREAS, Section 8-3.102.(e) of the Modesto Municipal Code allows the City Manager to approve and authorize contracts in the amount of $200,000 or less for projects that are of urgent necessity for the preservation of life, health and property, and

WHEREAS, the three locations of Roseburg Avenue and McHenry Boulevard, Creekside Golf Course and Scenic Road required urgent repair in order to protect residents from potential harms as well as provide continued service to residents, and

WHEREAS, the City Manager reported the circumstances of the emergency to City Council within ten days of the emergencies, and

WHEREAS the Emergency Sewer and Storm Drain Repairs have been completed by Rolfe Construction Company of Atwater.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Emergency Sewer and Storm Drain Repairs are hereby accepted as complete from said contractor, Rolfe Construction Company of Atwater, Ca, and that the City Clerk is authorized to complete all necessary steps to file with the County Recorder, release securities and authorize payments totaling $188,570, as is authorized.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of February, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-61

RESOLUTION ACCEPTING THE EMERGENCY SEWER REPAIRS AS COMPLETE, AUTHORIZING ALL NECESSARY STEPS TO FILE WITH THE COUNTY RECORDER, RELEASE SECURITIES, AND AUTHORIZE PAYMENTS TOTALING $87,000 TO GATEWAY PACIFIC CONTRACTORS, INC. OF SACRAMENTO, CALIFORNIA

WHEREAS, recent rain events exposed areas of vulnerability with the sewer and storm drain collection systems, which required emergency repair, and

WHEREAS, City staff initiated an expedited process to secure a Contractor to perform the repairs, and

WHEREAS, Section 8-3.102.(e) of the Modesto Municipal Code allows the City Manager to approve and authorize contracts in the amount of $200,000 or less for projects that are of urgent necessity for the preservation of life, health and property, and

WHEREAS, the Calaveras Sewer subtrunk required urgent repair in order to protect residents from potential harms as well as provide continued service to residents, and

WHEREAS, the City Manager reported the circumstances of the emergency to City Council within ten days of the emergency, and

WHEREAS, the Emergency Sewer Repairs have been completed by Gateway Pacific Contractors, Inc. of Sacramento.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Emergency Sewer Repairs are hereby accepted as complete from said contractor, Gateway Pacific Contractors, Inc. of Sacramento, Ca, and that the City Clerk is authorized to complete all necessary steps to file with the County Recorder, release securities and authorize payments totaling $87,000, as is authorized.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of February, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-62

RESOLUTION APPROVING THE PLANS AND SPECIFICATIONS FOR THE INDUSTRIAL TANK NO. 13 AND PUMP STATION PROJECT, ACCEPTING THE BID, AND APPROVING AWARD OF CONSTRUCTION CONTRACT TO CONCO-WEST, INC., MANTECA CA, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE CONTRACT, IN A FORM APPROVED BY THE CITY ATTORNEY, IN THE AMOUNT OF $9,076,000

WHEREAS, this project will construct a 4-million gallon (MG) water storage concrete reservoir, a 12-million gallon per day (MGD) booster pump station and retention basin with a 1 MG holding capacity, and

WHEREAS, the project will increase service reliability of the City of Modesto's water system in southeast industrial area of Modesto, and

WHEREAS, the project site is located on 5.3 acres on the south side of Modesto Irrigation District Lateral No. 1 on the west side of Codoni Avenue, approximately half a mile south of Yosemite Boulevard, and

WHEREAS, plans and specifications have been prepared for the Industrial Tank 13 and Pump Station Project, and City staff recommends approval by the City Council, and

WHEREAS, the bids received for the Industrial Tank 13 and Pump Station Project were publicly opened at 11:00 a.m. on November 15, 2016 for the consideration of the Council pursuant to Modesto Municipal Code section 8-3.403, and

WHEREAS, the Director of Utilities and the City Manager recommend that the bid of $9,076,000 received from Conco-West, Inc., of Manteca, California, be accepted as the lowest responsible and responsive bid and the construction contract be awarded to Conco-West, Inc.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the plans and specifications for the Industrial Tank 13 and Pump Station Project and awards the construction contract to Conco-West, Inc. of Manteca, California.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the contract, in a form approved by the City Attorney, in the amount of $9,076,000.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of February, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-63

RESOLUTION APPROVING AN AGREEMENT WITH NV5, INC., MANTECA, CA, FOR CONSTRUCTION MANAGEMENT AND INSPECTION SERVICES FOR THE INDUSTRIAL TANK NO. 13 AND PUMP STATION PROJECT IN AN AMOUNT NOT TO EXCEED $1,014,544.97 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS $132,000 FOR ADDITIONAL SERVICES (IF NEEDED), FOR A MAXIMUM TOTAL AMOUNT OF $1,146,544.97, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, this project will construct a 4-million gallon (MG) water storage concrete reservoir, a 12-million gallon per day (MGD) booster pump station and retention basin with a 1 MG holding capacity, and

WHEREAS, the project will increase service reliability of the City of Modesto's water system in southeast industrial area of Modesto, and

WHEREAS, the project site is located on 5.3 acres on the south side of Modesto Irrigation District Lateral No. 1 on the west side of Codoni Avenue, approximately half a mile south of Yosemite Boulevard, and

WHEREAS, due to the size and complexity of this project, along with City staff workload, staff recommends utilizing a consultant to provide construction management and inspection services for the anticipated 15-month construction phase, and

WHEREAS, the selection process followed the City's policy, Administrative Directive 3.1, Selection Procedures for Professional Consultants Who Provide Architectural & Engineering Services for Capital Projects, and

WHEREAS, for the construction management and inspection services, a Request for Qualifications (RFQ) and Request for Proposals (RFP) was issued to both local and non-local firms for construction management and inspection services for this project, and

WHEREAS, staff received qualifications and proposals from four interested firms, and

WHEREAS, after careful review and evaluation by the selection committee, NV5 Inc. (NV5) was selected as the most qualified firm for the Project, and

WHEREAS, NV5 demonstrated experience with multiple projects similar in scope and size, including successfully providing similar construction management services on a previous City project (West Tank 12), and

WHEREAS, NV5 will be the main point of contact for all construction activities and reporting during this project, and

WHEREAS, City staff recommends approving an agreement with NV5, for construction management and inspection services.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with NV5 Inc. for Construction Management and Inspection Services for the Industrial Tank No. 13 and Pump Station Project in an amount not to exceed $1,014,544.97 for the identified scope of services, plus $132,000 for additional services (if needed), for a maximum total amount of $1,146,544.97.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of February, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-64

RESOLUTION APPROVING AN AGREEMENT WITH CAROLLO ENGINEERS, INC., SACRAMENTO, CA, FOR DESIGN SUPPORT DURING CONSTRUCTION FOR THE INDUSTRIAL TANK NO. 13 AND PUMP STATION PROJECT IN AN AMOUNT NOT TO EXCEED $291,488 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS $29,149 FOR ADDITIONAL SERVICES (IF NEEDED), FOR A MAXIMUM TOTAL AMOUNT OF $320,637, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, this project will construct a 4-million gallon (MG) water storage concrete reservoir, a 12-million gallon per day (MGD) booster pump station and retention basin with a 1 MG holding capacity, and

WHEREAS, the project will increase service reliability of the City of Modesto's water system in southeast industrial area of Modesto, and

WHEREAS, the project site is located on 5.3 acres on the south side of Modesto Irrigation District Lateral No. 1 on the west side of Codoni Avenue, approximately half a mile south of Yosemite Boulevard, and

WHEREAS, Carollo Engineers, Inc. (Carollo) is the design engineering consultant and is the Engineer-of-Record for the Industrial Tank No. 13 and Pump Station project, and

WHEREAS, the design support services from Carollo are required to ensure construction of the facilities meets the original design described in the plans and specifications, and

WHEREAS, Carollo will provide support to City staff, NV5 and Conco West by reviewing submittals, requests for information, and initial startup of the tank and pump station, and

WHEREAS, due to the size and complexity of the project, construction support services from Carollo are required to facilitate construction activities and promote timely and successful completion of the project, and

WHEREAS, the scope of services for the Engineering Support During Construction (ESDC) agreement includes: 1) Project Administration; 2) Construction Progress Meetings; 3) Responding to Requests for Information (RFIs); 4) Submittal Reviews; 5) Project Changes / Change Orders; 6) Commissioning and Start Up; and 7) As-Built Drawings, and

WHEREAS, Carollo was selected through the review processes outlined in the City's Administrative Directive 3.1 and City staff recommends approving an agreement with Carollo for ESDC services for the Industrial Tank No. 13 and Pump Station Project.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with Carollo Engineers, Inc., Sacramento, CA, for Design Support During Construction for the Industrial Tank No. 13 and Pump Station project in an amount not to exceed $291,488 for the identified scope of services, plus $29,149 for additional services (if needed), for a maximum total amount of $320,637.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the Agreement.

RESOLUTION AMENDING THE FISCAL YEAR 2016-17 CAPITAL IMPROVEMENT PROGRAM BUDGET IN THE AMOUNT OF $1,430,224 TO BE TRANSFERRED INTO THE PROJECT FROM WATER FUND RESERVES IN ORDER TO FULLY FUND THE CONSTRUCTION, CONTINGENCY, CONSTRUCTION ADMINISTRATION, CITY CONSTRUCTION FORCES, AND DESIGN SUPPORT DURING CONSTRUCTION FOR THE INDUSTRIAL TANK NO. 13 AND PUMP STATION PROJECT

WHEREAS, certain budgetary transactions are necessary in the amount of **$1,430,224**, in order to fund construction, contingency, construction administration, City construction forces, design support during construction plus City staff support for the Industrial Tank No. 13 and Pump Station Project, and

WHEREAS, the Fiscal Year 2016-2017 Capital Improvement Program Budget must be amended as shown in **Exhibit A**, which is incorporated by reference herein.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the amendment of the Fiscal Year 2016-2017 Capital Improvement Program Budget as shown in **Exhibit A**, **attached** hereto.

BE IT FURTHER RESOLVED that the Deputy City Manager, or his designee, is hereby authorized to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of February, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

Exhibit A

Due to construction costs being higher than initially budgeted for the project, line item increases/decreases are necessary for CIP Account #100475 "Industrial Tank No. 13 and Pump Station", and the total project costs need to be increased by $1,430,224. This would be done by adjusting Construction Admin by $455,705, City Construction Forces by $30,000, Construction by $776,000, Contingency-CIP by <$103,920>, and Eng/Design/Admin by $272,439.

To fund the above account, $1, 430,224 will be transferred from Water Fund Reserves into CIP Project 100475 for the Industrial Tank No. 13 and Pump Station Project.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-66

RESOLUTION FINDING THAT MAINTENANCE OF THE 7TH STREET BRIDGE IS NO LONGER ECONOMICALLY FEASIBLE; SUPPORTING ALTERNATIVE 2B AS THE PREFERRED ALTERNATIVE REPLACEMENT FOR THE 7TH STREET BRIDGE; AND REQUESTING THE STANISLAUS COUNTY BOARD OF SUPERVISORS ADOPT A MITIGATION MEASURE TO INCLUDE IN THE EIS / EIR FOR THE 7TH STREET BRIDGE PROJECT, REQUIRING AN INTERPRETIVE PLAZA TO PRESERVE HISTORIC AND AESTHETIC FEATURES OF THE EXISTING 7TH STREET BRIDGE

WHEREAS, by Resolution No. 19 adopted on November 18, 1991, the Landmark Preservation Commission recommended designation of the 7th Street Bridge as a Modesto Landmark Preservation site, and

WHEREAS, by Resolution No. 92-186 adopted on April 28, 1992, the City Council designated the 7th Street Bridge as a Modesto Landmark Preservation site, and

WHEREAS, subsequent evaluations of the 7th Street Bridge determined it has structural deficiencies, functional deficiencies, and load restrictions that make rehabilitating the bridge financially infeasible and that will result in the loss of its historical integrity, and

WHEREAS, the Stanislaus County Department of Public Works has prepared an Environmental Impact Report (SCH #2013092059) evaluating the impacts of several alternatives, and

WHEREAS, the Landmark Preservation Commission of the City of Modesto, at its November 28, 2016 meeting, recommended City Council request the Board of Supervisors include in the Draft Environmental Impact Statement / Environmental Impact Report a mitigation measure for the construction of an interpretive plaza and giving the

Landmark Preservation Commission oversight of the preservation of elements of the 7th Street Bridge to reduce project impacts on historic resources, and

WHEREAS, said matter was set for a public hearing of the City Council to be held on February 14, 2017, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which date and time said duly noticed public hearing of the Council was held for the purpose of receiving public comment on the proposed project, and

WHEREAS, after said public hearing the Council supports Alternative 2B as the preferred alternative conditioned on the inclusion of a mitigation measure to retain and interpret the historic and aesthetic qualities of the existing bridge and of information available to the City of Modesto at this time and with the understanding that the public will have the opportunity to comment on the Environmental Impact Report up to the time it is certified by the Stanislaus County Board of Supervisors.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby finds and determines that:

1. The physical condition of the 7th Street Bridge is such that maintenance is no longer economically feasible.

2. Alternative 2B, which best meets the project objectives of improving safety for all users, eliminating structural and hydraulic problems, increasing load and vehicular capacity, and preserving the historic structure and qualities, is the preferred alternative design for the new bridge.

3. A mitigation measure preserving and interpreting the historic and aesthetic qualities of the existing bridge must be included in the certified Environmental Impact Report in order to reduce impacts on historic resources. As part of this mitigation measure, the Modesto Landmark Preservation Commission will have oversight of the preservation of elements of the 7th Street Bridge that demonstrate both the engineering significance of the bridge and its aesthetic qualities and their interpretation of these elements in a plaza, which will be incorporated into the design of a replacement bridge. This is a feasible mitigation measure, is desirable, and will promote historical education and retention of the site as a landmark.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of February, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2017-67

RESOLUTION APPOINTING MICHELLE HARRIS TO THE EQUAL OPPORTUNITY/DISABILITY COMMISSION AND THE HUMAN RELATIONS COMMISSION TO COMPLETE A TERM SET TO EXPIRE ON AUGUST 11, 2017

WHEREAS, Section 1102 of the Charter of the City of Modesto authorizes the City Council to appoint members to various Boards and Commissions, and

WHEREAS, the Appointments Committee met on January 12, 2017, and recommended appointment of MICHELLE HARRIS to serve jointly on the Equal Opportunity/ Disability Commission and Human Relations Commission.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

I. MICHELLE HARRIS is hereby appointed to serve jointly on the Equal Opportunity/Disability Commission and Human Relations Commission with a term expiration of August 11, 2017.

2. The City Clerk is hereby directed to transmit a copy of this resolution to the reappointed members of the Commissions and the Secretary thereof.

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 28th day of February, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-69

RESOLUTION OF THE CITY OF MODESTO REQUESTING FROM THE STANISLAUS COUNTY BOARD OF SUPERVISORS TO CONSOLIDATE THE CITY OF MODESTO GENERAL MUNICIPAL ELECTION TO BE HELD ON NOVEMBER 7, 2017, REQUESTING THE SERVICES OF THE REGISTRAR OF VOTERS, ELECTIONS DIVISION OF THE COUNTY OF STANISLAUS TO CONDUCT THE ELECTION ON BEHALF OF THE CITY OF MODESTO AND THE MODESTO CITY SCHOOLS BOARD OF EDUCATION

WHEREAS, the City of Modesto will hold an election on November 7, 2017 for the purpose of electing three (3) Councilmembers (District 2, 4 and 5), and four (4) Modesto City Schools Board of Education members (four year terms); and

WHEREAS, the City of Modesto respectively requests that the Stanislaus County Registrar of Voters, Elections Division, furnish all other services, facilities, supplies, equipment, etc. necessary for the election; and

WHEREAS, the City of Modesto City Clerk's Office will be responsible for issuing/collecting election information, publishing the Notice of Election and the Nominees for Public Office; and

WHEREAS, the City of Modesto will reimburse the County of Stanislaus for all actual costs for services performed to conduct the municipal election on behalf of the City.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby formally requests from the Board of Supervisors of Stanislaus County, California, to consolidate the City of Modesto's Municipal Election with the County's General Election to be held on November 7, 2017, requesting the services of the Registrar of Voters, Elections Division of the County of Stanislaus to conduct the election on behalf of the City of Modesto and Modesto City Schools Board of Education.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of February, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-70

RESOLUTION RATIFYING AN EMERGENCY PROCLAMATION ISSUED BY THE CITY MANAGER REGARDING FLOODING

WHEREAS, Section 3-4.06 of the Modesto Municipal Code empowers the Director of Emergence Services (City Manager) to proclaim the existence or threatened existence of a local emergency when the City of Modesto is affected of likely to be affected by a public calamity and the City Council is not in session, subject to ratification by the City Council within seven (7) days; and

WHEREAS, conditions of extreme peril to the safety of persons and property have arisen within the City of Modesto caused by a flooding commencing on or about February 17th, 2017, at which time the City Council of the City of Modesto was not in session; and

WHEREAS, the City Manager of the City of Modesto did proclaim the existence of a local emergency within the City of Modesto on February 21, 2017, and

WHEREAS, the Modesto City Council does hereby find that the aforesaid conditions of extreme peril did warrant and necessitate the proclamation of the existence of a local emergency,

WHEREAS, these conditions are or are likely to be beyond the control of the services, personnel, equipment, and facilities of the City of Modesto.

NOW, THEREFORE, BE IT HEREBY RESOLVED that the City Council of the City of Modesto hereby ratifies the Emergency Proclamation issued by the City Manager on February 21, 2017.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of February, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-71

RESOLUTION ACCEPTING THE PUBLIC IMPROVEMENTS FOR FIORE ESTATES SUBDIVISION, LOCATED AT 908 ROSE AVENUE, AUTHORIZING THE CITY CLERK TO FILE A NOTICE OF COMPLETION WITH THE STANISLAUS COUNTY RECORDER'S OFFICE, AND TO RELEASE SECURITIES UPON EXPIRATION OF STATUTORY PERIODS

WHEREAS, WINPAC-ROSE AVE, LLC, a California limited liability company ("SUBDIVIDER"), is the subdivider of a tract of land situated in the City of Modesto, consisting of 5.54 acres, known as the FIORE ESTATES SUBDIVISION ("SUBDIVISION"), and

WHEREAS, the Public Works Department has verified that all required PUBLIC IMPROVEMENTS for this project have been satisfactorily completed and all inspection fees have been paid, and

WHEREAS, the SUBDIVIDER will assume maintenance responsibilities of the PRIVATE IMPROVEMENTS as described in the Covenants, Conditions and Restrictions (CC&R's), and

WHEREAS, the SUBDIVIDER has stated that fees for maintaining the improvements are currently being collected into an Home Owner's Association (HOA) fund, and

WHEREAS, the Public Works Department will assume maintenance responsibilities upon acceptance of the PUBLIC IMPROVEMENTS, which includes the water main, the sewer main, City street trees, sidewalk and ADA ramps along Rose Avenue, and

WHEREAS, pursuant to the Subdivision Agreement, SUBDIVIDER has filed a Faithful Performance Letter of Credit in the amount of $681,939.65 and a Payment Letter of Credit in the amount of $340,969.83, and

WHEREAS, pursuant to the Subdivision Agreement, SUBDIVIDER has filed a Warranty Bond in the amount of $68,193.97, and

WHEREAS, the developer has requested that the improvements be accepted and the letters of credit be released, and

WHEREAS, the Public Works Director has indicated that it would be in order for the City Council to accept said PUBLIC IMPROVEMENTS as complete, authorize the City Clerk to file a Notice of Completion, and to release the securities upon expiration of the statutory periods.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that:

1. The said PUBLIC IMPROVEMENTS constructed by the SUBDIVIDER are hereby accepted, and the City Clerk is hereby authorized to file a Notice of Completion.
2. The City Clerk is hereby authorized to release the Subdivision Faithful Performance Letter of Credit in the amount of $681,939.65, upon recordation of the Notice of Completion.
3. The City Clerk is hereby authorized to release the Faithful Performance Letter of Credit in the amount of $340,969.83, upon recordation of the Notice of Completion.

4. The City Clerk is hereby authorized to release the Warranty Bonds in the amount of $68,193.97 one year and one day after the effective date of this resolution, provided no claim is made thereon.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of February, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING THE FINAL MAP OF LINCOLN PARKS SUBDIVISION, AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE A SUBDIVISION AGREEMENT WITH MODESTO MABLE, LLC, A CALIFORNIA LIMITED LIABILITY COMPANY AND AUTHORIZING THE CITY CLERK TO CERTIFY THE FINAL MAP AND RECORD IT WITH THE STANISLAUS COUNTY RECORDER'S OFFICE

WHEREAS, MODESTO MABLE, LLC, a California limited liability company ("SUBDIVIDER"), is in possession of a tract of land situated in the City of Modesto, County of Stanislaus, consisting of 9.52 acres, known as the LINCOLN PARKS SUBDIVISION ("SUBDIVISION"), in the Village One specific plan and the precise plan number 18, and

WHEREAS, a tentative map of said tract was approved by the Planning Commission of the City of Modesto on December 15, 2014 with conditions of approval as noted in Planning Commission resolution Number 2014-22, and

WHEREAS, the Secretary of the Planning Commission of the City of Modesto and the City Engineer have certified that the final map of said tract substantially conforms to the approved tentative map, and

WHEREAS, the project is currently under construction and the public improvements have not yet been completed, and

WHEREAS, as required by Section 4-4.605 of the Modesto Municipal Code, the SUBDIVIDER has executed a Subdivision Agreement, and

WHEREAS, the City Engineer of the City of Modesto has certified that the final map of said SUBDIVISION meets all of the provisions of the California Subdivision

Map Act and the provisions of the Modesto Municipal Code relating to subdivisions, and the City Surveyor has determined that the map is technically correct, and

WHEREAS, the SUBDIVIDER has furnished securities, as set forth in Section 4-4.605 of the Modesto Municipal Code, which shall secure the obligations set forth in Section 66499.3 of the Government Code of the State of California. Said securities are in forms acceptable to the City Attorney and in the amounts required by the City Engineer

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that said Final Map be approved; that the dedications for public streets and easements as shown thereon within the boundaries of said tract be accepted on behalf of the public for public use; and that the City Manager or his designee be authorized to execute the Subdivision Agreement in a form approved by the City Attorney.

BE IT FURTHER RESOLVED that the City Clerk be authorized to certify the map of said tract on behalf of the City of Modesto after the fees and deposits required by the Modesto Municipal Code in amounts determined by the City Engineer have been paid.

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 28th day of February, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION DESIGNATING THE COMMUNITY DEVELOPMENT MANAGER AS THE "ENGINEER OF WORK" AND DIRECTING STAFF TO PREPARE AND FILE THE 2017-2018 ANNUAL ENGINEER'S REPORT FOR CITY OF MODESTO LANDSCAPE MAINTENANCE ASSESSMENT DISTRICT NO. 1

WHEREAS, Resolution No. 88-935 adopted by the Council of the City of Modesto on December 13, 1988, initiated proceedings for the formation of Landscape Assessment District No. 1 (LMAD No. 1) to provide funding for the landscape maintenance in the public right-of-way, street medians and adjacent to the access control walls in Dry Creek Meadows Subdivisions Nos. 1-6, and

WHEREAS, LMAD No. 1 was formed in accordance with the Landscaping and Lighting Act of 1972 (Streets and Highways Code Sections 22500 through 22679), and

WHEREAS, Section 22620 et. seq. of the Streets and Highways Code requires the legislative body (the City Council) adopt a resolution which shall generally describe any proposed new improvements or any substantial changes in existing improvements and orders the preparation and filing of the report, and

WHEREAS, the annual assessment for LMAD No. 1 has remained the same since 1996, and

WHEREAS, staff does not anticipate any new improvements or substantial changes in existing improvements.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby designates the Community Development Manager as the "Engineer of Work" for LMAD No. 1, and directs staff to prepare and file an annual report in

accordance with the provisions of the Landscaping and Lighting Act of 1972, as amended, (Streets and Highways Code Sections 22500 through 22679).

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of February, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION DESIGNATING THE COMMUNITY DEVELOPMENT MANAGERS AS THE "ENGINEER OF WORK" FOR THE SHACKELFORD, LLD AND DIRECTING STAFF TO PREPARE AND FILE THE 2017-2018 ANNUAL ENGINEER'S REPORT FOR THE SHACKELFORD LANDSCAPE AND LIGHTING DISTRICT

WHEREAS, on June 29, 1999, the County of Stanislaus formed the Shackelford Landscape and Lighting District (Shackelford LLD) for the purpose of administering and maintaining seventy-seven (77) 200-watt high-pressure sodium streetlights, and

WHEREAS, the Shackelford LLD was formed in accordance with the Landscaping and Lighting Act of 1972 (Streets and Highways Code Sections 22500 through 22679), and

WHEREAS, the Shackelford LLD is comprised of approximately 153 acres, includes 496 lots with both residential and commercial development, and is bounded by Crows Landing Road on the west, East Hatch Road on the south, Union Pacific Railroad on the east, and State Route 99 on the north, and

WHEREAS, on July 1, 2012, the City of Modesto assumed jurisdiction of the Shackelford Landscape and Lighting District from the County of Stanislaus, and

WHEREAS, Section 22620 of the Streets and Highways Code requires the legislative body (the City Council) to adopt a resolution which shall generally describe any proposed new improvements or any substantial changes in existing improvements and direct staff to prepare and to file a report accordingly,

WHEREAS, the annual assessment for the Shackelford LLD has gradually increased since June 1999, and

WHEREAS, staff does not anticipate any new improvements or substantial changes in existing improvements.

NOW, THEREFORE, BE IT RESOLVED that the Community Development Manager is designated by this Council as the "Engineer of Work" for the Shackelford LLD, and is hereby directed to prepare and file an annual report in accordance with the provisions of the Landscaping and Lighting Act of 1972, as amended, (Streets and Highways Code Sections 22500 through 22679).

Independent Auditor's Report

Board of Directors
Modesto Convention and Visitors Bureau
Modesto, California

We have audited the accompanying financial statements of the Modesto Convention and Visitors Bureau (the Bureau) (a nonprofit organization), which comprise the statement of financial position as of June 30, 2015, and the related statements of activities, functional expenses and cash flows for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Bureau's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bureau's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Modesto Convention and Visitors Bureau as of June 30, 2015, and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matter

The Bureau receives substantially all of its support and revenue from the City of Modesto, California. As discussed in Note 8 to the financial statements, as of July 1, 2015, the City ceased funding the Bureau in order to perform the services directly.

NOTE 1 – NATURE OF ACTIVITIES

The Modesto Convention and Visitors Bureau (the Bureau) is the primary marketing organization for the City of Modesto, California (the City) and is dedicated to enhancing the community's economic and social vitality through the development and execution of creative, one-of-a-kind initiatives designed to drive incremental business to local merchants, restaurants, hotels and attractions. The Bureau's efforts target media, travel, trade and consumers in the United States and internationally.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation:

The financial statements have been prepared on the accrual basis of accounting.

Asset Restrictions:

The accompanying financial statements include assets, net assets, and financial activities of the Bureau prepared in accordance with Financial Accounting Standard Board (FASB) Accounting Standard Codification No. 958 (ASC 958) "*Not-for-Profit Entities*." This statement requires that the Bureau report gifts of cash and other assets as restricted support if they are received with donor stipulations that limit the use of the donated assets. When a donor restriction expires, that is, when a stipulated time restriction ends or purpose restriction is accomplished, temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as net assets released from restrictions.

The characteristics of the types of net assets that are required to be reported under ASC No. 958 "*Revenue Recognition - Contributions Received*" are as follows:

Unrestricted Net Assets: Unrestricted net assets represent resources over which the Board of Directors has discretionary control and are used to carry on the operations of the Bureau in accordance with its bylaws.

Temporarily Restricted Net Assets: Temporarily restricted net assets represent resources currently available for use, but expendable only for those operating purposes specified by the donor. Resources of this class of net assets originate from contributions, grants, bequests and investment income earned by the restricted assets. The Bureau currently has no temporarily restricted net assets.

Permanently Restricted Net Assets: Permanently restricted net assets are maintained as an endowment which represents net assets that are subject to restrictions of gift instruments requiring, in perpetuity, that the principal be invested and permits the organization to use all or part of the income earned for general or specific purposes. The Bureau currently has no permanently restricted net assets.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Cash:

The Bureau considers deposits that can be redeemed on demand to be cash. As of June 30, 2015, the Bureau's cash was deposited in one financial institution.

Equipment:

Equipment is recorded at cost, less accumulated depreciation. Depreciation is provided on the straight-line basis over the estimated useful life of the asset, which is five years.

Income Taxes:

The Bureau is exempt from federal income and California franchise taxes under Internal Revenue Code Section 501(c)(6) and California Revenue and Taxation Code Section 23701(e), respectively.

The Bureau files income tax returns in the U.S. federal and California jurisdictions. As of June 30, 2015, no material uncertainties exist regarding positions taken in the Bureau's tax returns that would have any effect on the Bureau. The Bureau is no longer subject to U.S. federal examinations by tax authorities for fiscal years ending before 2012, and state examinations by tax authorities for fiscal years ending before 2011.

Support and Revenue:

The Bureau receives substantially all of its support and revenue from the City.

Functional Allocation of Expenses:

The costs of providing the various programs and activities have been summarized on a functional basis in the accompanying statement of functional expenses. Accordingly, certain costs have been allocated among the programs and supporting services benefited based on management's estimates.

Use of Estimates:

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities and the disclosure of contingent assets and liabilities at the date of the financial statements and revenues and expenses during the reporting period. Actual results could differ from those estimates.

NOTE 3 – EQUIPMENT, NET

The Bureau financed the purchase of a printer/copy machine through a five-year capital lease. The useful life of the copier is five years. Depreciation expense was $467 for the year ended June 30, 2015. On July 1, 2015, the Bureau transferred the copier and its related lease to the City.

NOTE 4 – CAPITAL LEASE

The Bureau entered into a lease for a printer/copy machine expiring February 2020. The assets and liabilities under this capital lease are recorded at lower of the present value of the minimum lease payments or the fair value of the assets. On July 1, 2015, the Bureau transferred the copier to the City. The City assumed the responsibility of the related capital lease for the remaining term and payments.

NOTE 5 – OPERATING LEASE

The Bureau leases its office facility pursuant to an operating lease agreement with the Double Tree Hotel owned and operated by Modesto Hospitality, LLC expiring in February 2016. Rent expense was $20,848 for the year ended June 30, 2015. Deferred rent is calculated on a straight-line basis over the term of the lease. On July 1, 2015, the City assumed responsibility of the office lease for the remaining term.

NOTE 6 – CONTRACT WITH CITY OF MODESTO

In 2005, the Bureau and the City entered into a contract whereby the Bureau will provide promotional, publicity, and advertising services for the benefit of the City. The aforementioned contract called for City funding in an amount equal to 13.33% of the City's annual Transient Occupancy Tax (TOT) receipts less than $2,475,613, plus 5% of any annual TOT receipts exceeding $2,475,613.

NOTE 7 – CONCENTRATIONS OF CREDIT RISK

All of the Bureau's cash balances are maintained in one financial institution. These balances are insured by the Federal Deposit Insurance Corporation (FDIC) up to $250,000. At June 30, 2015, the Bureau's cash balance was fully insured by the FDIC coverage. The Bureau has not experienced any losses in such accounts.

NOTE 8 – SUBSEQUENT EVENTS

The Bureau has evaluated subsequent events through June 10, 2016, which is the date these financial statements were issued. All subsequent events requiring recognition as of June 30, 2015 have been incorporated into these financial statements.

As of July 1, 2015, the City ceased funding the Bureau in favor of performing the services directly. The outstanding receivable was paid to the Bureau and the Bureau's equipment and office space were transferred to the City.

Board of Directors
Modesto Convention and Visitors Bureau
Modesto, California

In planning and performing our audit of the financial statements of the Modesto Convention and Visitor's Bureau (Bureau) as of and for the year ended June 30, 2015, in accordance with auditing standards generally accepted in the United States of America, we considered the Bureau's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Bureau's internal control. Accordingly, we do not express an opinion on the effectiveness of the Bureau's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that were not identified. In addition, because of inherent limitations in internal control, including the possibility of management override of controls, misstatements due to error or fraud may occur and not be detected by such controls. However, as discussed below, we identified certain deficiencies in internal control that collectively we consider to be a material weakness.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies in internal control, such that there is a reasonable possibility that a material misstatement of the Bureau's financial statements will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in the Bureau's internal control described as items 1through 3 in the attachment to collectively be a material weakness in internal control over financial reporting.

This communication is intended solely for the information and use of the Board of Directors and management of the Bureau, and is not intended to be, and should not be, used by anyone other than these specified parties.

Macias Gini & O'Connell LLP

Sacramento, California

MODESTO CONVENTION AND VISITOR'S BUREAU
Summary of Material Weakness
June 30, 2015

1) Internal controls and Accounting policies and procedures

Professional auditing standards define "internal control" as a process-effected by an entity's board of directors, management, and other personnel-designed to provide reasonable assurance regarding the achievement of objectives in the following categories:

(a) reliability of financial reporting

(b) effectiveness and efficiency of operations, and

(c) compliance with applicable laws and regulations.

Internal control over financial reporting is generally considered to consist of five interrelated elements:

1. Control environment: The tone of an organization, which influences the control consciousness of its employees. This environment is what provides a foundation of discipline and structure to other elements of internal control.
2. Risk assessment: This is the entity's identification of risks that may affect the integrity of the financial reporting system. This forms the basis for controls that reduce the risk of financial reporting errors.
3. Control activities: These are practices, policies, and procedures that reduce the possibility of errors entered into the financial reporting system (preventive controls), or that detect errors that are made (detective controls).
4. Information and communication: These are processes aimed at identifying, capturing, and exchanging information, to ensure the availability of complete and reliable information.
5. Monitoring: This is the process of testing the quality of internal control over time. This may include an internal audit function, or testing by outside auditors.

During our audit, we noted that the Bureau does not have a manual of accounting and financial reporting policies and procedures. The purpose of such a manual is to ensure that control activities are documented and communicated throughout the Bureau to ensure consistency of application to prevent and/or detect errors in financial reporting. Additionally, an element of effective internal controls is the proper segregation of duties. The basic premise of segregating duties is to prevent situations where an employee has the ability to perpetrate an error or irregularity and to conceal it as well. Proper segregation of duties provides for a system of checks and balances such that the functions of one employee are subject to review through the performance of the interrelated functions of another employee.

We recommend that the Bureau develop a comprehensive accounting policies and procedures manual. A well-written accounting manual will assist management in delegating and segregating duties. The manual should include, at a minimum:

- An organizational chart
- Job descriptions, outlining duties and responsibilities
- Descriptions of methods, procedures, and accounting principles to be followed, including explanations and examples of principle transactions, such as monthly review of internally generated reports, polices related to cash which would include preparation of bank reconciliations, controls over cash disbursements and cash receipts, etc.

- A chart of accounts containing adequate explanation of account purpose, use and content
- Desired list of standard forms used in the Bureau with detailed explanations of their purpose and preparation

2) Accrual Basis of Accounting

The Bureau maintains its accounting records on the cash basis of accounting and prepares annual adjustments to prepare the financial statements on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America. The Bureau's personnel does not have the professional knowledge necessary to prepare the year-end closing entries without assistance from its external auditors. During the audit we noted several adjustments to properly reflect the activities of the Bureau's financial statements, such adjustments resulted in an increase in reported assets of $92,917, an increase in reported liabilities of $24,987, an increase in reported revenues of $20,198 and an increase in reported expenses of $6,331.

We recommend that the Bureau evaluate its financial reporting function and provide personnel with training to adequately perform their job functions and/or engage a third-party with sufficient knowledge to provide guidance and management over the financial reporting process, with the oversight of the Board of Directors.

3) Recording expenses on a functional basis

According to Financial Accounting Standards Board Accounting Standards Codification topic 958-225-05, *Not-for-Profit Entities, Income Statement*, the primary purpose of a statement of activities is to provide relevant information about how resources are used in providing various programs and supporting services. During our audit, we noted that the Bureau does not have a method for reporting its expenses on a functional basis. We recommend that the Bureau develop policies and procedures, including a methodology for allocating expenses to properly reflect program activity related to the marketing of the City of Modesto and administrative support. During the audit we noted an adjustment of $70,034, which was necessary to properly allocate expenses among the program and supporting services benefited.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-78

RESOLUTION APPROVING A LETTER OF AGREEMENT BETWEEN THE CITY OF MODESTO AND MODESTO FIRE FIGHTERS ASSOCIATON (MCFFA) AMENDING THE MEMORANDUM OF UNDERSTANDING FOR THE PERIOD OF JULY 1, 2013 TO JUNE 30, 2018 TO CHANGE LANGUAGE IN SECTION 5, MEDICAL CERTIFICATION ALLOWANCE AND SECTION 6, PARAMEDIC PROGRAM; AND AUTHORIZING THE CITY MANAGER OR DESIGNEE TO TAKE THE NECESSARY ADMINISTRATIVE ACTION TO IMPLEMENT THE AGREEMENT

WHEREAS, the current Memorandum of Understanding (MOU) between the City of Modesto (CITY) and the Modesto Fire Fighters Association (MCFFA) expires on June 30, 2018, and

WHEREAS, representatives of the CITY and the MCFFA have met and conferred in good faith concerning incentive pays, and

WHEREAS, the CITY and MCFFA have reached agreement on language changes for a Letter of Agreement (LOA) which, upon execution, shall be attached hereto and made a part hereof, and

RESCINDED
APR - 9 2019
THE ABOVE RESOLUTION WAS RESCINDED BY MODESTO CITY COUNCIL RESOLUTION
2019-164

WHEREAS, the LOA provides as follows:

PARAMEDIC DIFFERENTIAL: Qualified individuals shall receive a total Paramedic differential of ten percent (10%). The ten percent (10%) differential is a combination of the current six percent (6%) differential and an additional four percent (4%). There are currently eighteen (18) employees eligible for the new differential amount.

TECHNICAL RESCUE: There are thirty-three (33) assigned employees to the Technical Rescue program at any time. Each assigned Technical Rescue shall receive a five percent (5%) differential in compensation for participation in the program. Bidding

for the program shall be every two (2) years and individuals shall participate in the program for a six (6) year period of time. Individuals will need to obtain the requisite coursework on their own time in order to participate in the program. The Department will update the current Standard Operating Procedure to reflect these changes.

WHEREAS, this contract amendment shall become effective upon ratification by the MCFFA and adoption by the City Council,

WHEREAS, the Council considered this matter at its meeting February 28, 2017

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the Letter of Agreement between the City of Modesto and the Modesto Fire Fighters Association (MCFFA), amending Section 5 of the Memorandum of Understanding which covers a term from July 1, 2013 through June 30, 2018, and upon execution of same, a copy of the LOA will be on file in the office of the City Clerk.

BE IT FUTHER RESOLVED by the Council of the City of Modesto that the City Manager or designee is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of February, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-79

RESOLUTION AUTHORIZING THE SUBMITAL OF AN APPLICATION FOR GRANT FUNDS FROM THE CALIFORNIA DIVISION OF BOATING AND WATERWAYS (DBW) NON-MOTORIZED BOATING FACILITY GRANT FUNDING PROGRAM IN THE AMOUNT OF $731,120 TO FUND DESIGN AND CONSTRUCTION OF THE NEECE DRIVE BOAT LAUNCH AND RIVER ACCESS FACILITY IN TUOLUMNE RIVER REGIONAL PARK (TRRP) AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO PREPARE THE NECESSARY DATA AND EXECUTE THE APPLICATION

WHEREAS, the City of Modesto, as managing partner, on behalf of the TRRP Joint Power Authority (TRRP JPA) has the authority to construct, operate, and maintain the Neece Drive Boat Launch and River Access Facility, and

WHEREAS, the possibility of constructing a Tuolumne River boating access facility would be a positive opportunity and would offer regional residents water-based recreational opportunities on the Tuolumne River through Modesto as well as improved emergency river access, and

WHEREAS, the City of Modesto on behalf of the TRRP JPA desires to construct and maintain the Neece Drive Boat Launch and River Access Facility to meet the needs of watercraft users and provide other public amenities to those utilizing the facility.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Modesto authorizes the submittal of an application be made to the State of California, Department of Parks and Recreation, Division of Boating and Waterways for grant funding pursuant and subject to all of the terms and provisions of the Harbors and Watercraft Revolving Fund program, in the amount of $731,120 to fund design and construction of the Neece Drive Boat Launch and River Access Facility in the Tuolumne River Regional Park.

BE IT FURTHER RESOLVED, that the City Manager of the City of Modesto, or his designee, is hereby authorized and directed to cause the necessary data to be prepared and application to be signed and filed with the Division of Boating and Waterways.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of February, 2017, by Councilmember Zoslocki, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-80

RESOLUTION ACCEPTING GRANT FUNDING FROM THE HOUSING-RELATED PARKS PROGRAM (HRPP) ADMINISTERED BY THE CALIFORNIA DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT IN THE AMOUNT OF $782,150 TO FULLY FUND THE RENOVATION OF GARRISON AND J.M. PIKE NEIGHBORHOOD PARKS AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO ACCEPT AND UTILIZE THE GRANT AWARD FROM THE HRPP FOR THE RENOVATION OF GARRISON AND J.M. PIKE NEIGHBORHOOD PARKS

WHEREAS, Both Garrison and J.M. Pike Neighborhood Parks were constructed more than 60 years ago and are in need of renovations to the irrigation system and other park amenities, and

WHEREAS, the renovation of Garrison and J.M. Pike Neighborhood Parks will benefit Modesto residents and update these two parks to current State water ordinance and Americans with Disabilities Act requirements, and

WHEREAS, on March 1, 2016 the City Council approved Resolution 2016-69 authorizing the submission of an application to the Department of Housing and Community Development, and

WHEREAS, the City of Modesto has received a grant award from the Housing-Related Parks Program (HRPP) of $782,150 for the renovation of Garrison and J.M. Pike Neighborhood Parks, and

WHEREAS, time is of the essence in these projects as there is a two year window to utilize these funds and construction is anticipated to begin in fall 2017.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it accepts the grant funding from the Housing-Related Parks Program (HRPP) administered by the California Department of Housing and Community Development in

the amount of $782,150 to fully fund the renovation of Garrison and J.M. Pike Neighborhood Parks.

BE IT FURTHER RESOLVED that the City Manager or his designee is hereby authorized to accept and utilize the grant award from the HRPP for the renovation of Garrison and J.M. Pike Neighborhood Parks.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of February, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-82

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MODESTO RESCINDING CITY COUNCIL RESOLUTION #2016-411 AND APPROVING THE APPLICATION FOR YOUTH SOCCER AND RECREATION DEVELOPMENT PROGRAM GRANT FUNDS IN AN AMOUNT OF $1,000,000 TO FUND DEVELOPMENT AND CONSTRUCTION OF A PORTION OF THE CARPENTER ROAD PLANNING AREA SOCCER COMPLEX AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE ALL DOCUMENTS RELATING TO THE GRANT

WHEREAS, on October 11, 2016, the City Council approved Resolution 2016-411 authorizing the submittal of an application to the Youth Soccer and Recreation Grant Program and City Staff submitted an application for this grant program by November 1, 2016; and

WHEREAS, the resolution that was approved by the City Council in October 2016 did not include all the wording required by the State and was considered to be unacceptable for this grant program; and

WHEREAS, in order to ensure that the grant application is considered for funding Resolution 2016-411 must be rescinded; and

WHEREAS, the State Department of Parks and Recreation has been delegated the responsibility by the Legislature of the State of California for the administration of the Youth Soccer and Recreation Development Program, setting up necessary procedures governing the application; and

WHEREAS, said procedures established by the State Department of Parks and Recreation require the Applicant to certify by resolution the approval of application before submission of said application to the State; and

WHEREAS, successful Applicants will enter into a contract with the State of California to complete the Grant Scope project.

NOW, THEREFORE, BE IT RESOLVED that the City Council hereby: Approves the filing of an application for the Carpenter Road Planning Area Soccer Complex, and

1. Certifies that said Applicant has or will have available, prior to commencement of any work on the project included in this application, the sufficient funds to complete the project; and

2. Certifies that if the project is awarded the Applicant has or will have sufficient funds to operate and maintain the project, and

3. Certifies that the Applicant has reviewed, understands, and agrees to the General Provisions contained in the contract shown in the Grant Administration Guide; and

4. Delegates the authority to the City Manager to conduct all negotiations, sign and submit all documents, including, but not limited to applications, agreements, amendments, and payment requests, which may be necessary for the completion of the Grant Scope; and

5. Agrees to comply with all applicable federal, state and local laws, ordinances, rules, regulations and guidelines.

BE IT FURTHER RESOLVED That Resolution 2016-411 is hereby rescinded

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of February, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the Resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-83

RESOLUTION REAFFIRMING THE COMMITMENT OF THE CITY OF MODESTO TO SUPPORT THE CONTINUED OPERATION AND MAINTENANCE OF THE TUOLUMNE RIVER REGIONAL PARK, INCLUDING THE CARPENTER ROAD PLANNING AREA SOCCER COMPLEX, FOR A PERIOD OF AT LEAST 30 YEARS FROM THE DATE OF THE GRANT AGREEMENT OR THE ISSUANCE OF GRANT FUNDS, WHICHEVER PROVIDES FOR THE LATER DATE.

WHEREAS, the City Council approved the submittal of an application to the Youth Soccer and Recreation Grant Program and City Staff submitted an application for this grant program by November 1, 2016; and

WHEREAS, a provision of the grant is to provide evidence satisfactory to the State that the project will be operated and maintained as public open space for a minimum of 30 years; and

WHEREAS, the Tuolumne River Regional Park (TRRP) is operated under a Joint Powers Authority (JPA) comprised of the County of Stanislaus, the City of Modesto and the City of Ceres; and

WHEREAS, the intent of the JPA is to operate and maintain TRRP, including the Carpenter Road Planning Area Soccer Complex, as a public access facility for use by citizens of Stanislaus County and the general public; and

WHEREAS, in the unlikely event that the JPA desires to dissolve, the area known as the Carpenter Road Planning Area Soccer Complex will continue to be cared for in a manner consistent with the rest of TRRP by the City of Modesto; and

WHEREAS, in order to be eligible to receive funding from the Youth Soccer and Recreation Grant Program administered by the California State Department of Parks and Recreation, the City of Modesto must reaffirm its commitment to continue to maintain

TRRP, and the Carpenter Road Planning Area Soccer Complex, as public open space for a period of no less than 30 years from the date of the grant agreement or issuance of grant funds, whichever provides for the later date.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby reaffirms the commitment of the City of Modesto to support the continued operation and maintenance of TRRP, including the Carpenter Road Planning Area Soccer Complex, should the TRRP JPA dissolve, as a public access facility for use by the citizens of Stanislaus County and the general public for a period of time ending no later than 30 years from the date of the grant agreement or issuance of grant funds, whichever provides for the later date.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of February, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the Resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-84

RESOLUTION APPROVING AN AGREEMENT WITH O'DELL ENGINEERING, INC., MODESTO, CA, FOR DESIGN SERVICES FOR THE STRENGTHEN AND REPLACE WATERLINES HIGHWAY VILLAGE PROJECT, IN AN AMOUNT NOT TO EXCEED $101,988 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS $10,199 FOR ADDITIONAL SERVICES (IF NEEDED), FOR A MAXIMUM TOTAL AMOUNT OF $112,187 AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, in accordance with Administrative Directive 3.1, Selection Procedures for Professional Consultants Who Provide Architectural and Engineering Services for Capital Projects, a Request for Proposal (RFP) was sent to four (4) pre-qualified local consultants for Civil Engineering Services for Capital Improvement Program Projects, and

WHEREAS, on January 5, 2017, staff received and distributed three (3) proposals to a selection committee consisting of Utilities engineering and operations staff, and

WHEREAS, the selection committee evaluated the proposals and determined that O'Dell Engineering, Inc. (O'Dell), to be the most qualified and responsive, and

WHEREAS, O'Dell's sealed cost proposal was opened after the selection ranking had been finalized, and

WHEREAS, O'Dell's proposal cost and scope were reviewed and determined to be reasonable to provide design services, and

WHEREAS, the scope of services to be provided under the agreement includes: 1) Project Management; 2) Meetings with City Staff; 3) Topographic Survey; and 4) Preparation of Plans and Specifications, and

WHEREAS, the design services for the Strengthen and Replace Highway Village project falls within the scope of services of O'Dell's proposal, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, this agreement is for professional services and therefore, exempt from the bid requirement, and

WHEREAS, however, staff still went through a RFP process pursuant to Administrative Directive 3.1., and

WHEREAS, staff recommends approval of the agreement with O'Dell for design services for the Strengthen and Replace Highway Village Project.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with O'Dell Engineering, Inc., Modesto, CA, for design services for the Strengthen and Replace Highway Village Project, in an amount not to exceed $101,988 for the identified scope of services, plus $10,199 for additional services (if needed), for a maximum total amount of $112,187.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of February, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-85

RESOLUTION ADOPTING THE TERMS FOR A DOWNTOWN PARKING AGREEMENT WITH AMERICAN SPECIALTY HEALTHCARE, AUTHORIZING STAFF TO PREPARE A PARKING AGREEMENT CONSISTENT WITH THIS RESOLUTION AND COUNCIL DIRECTION, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT IN A FORM APPROVED BY THE CITY ATTORNEY

WHEREAS, promoting new and expanding businesses through targeted incentives is a strategic economic objective to enhance the City's revenue base, and

WHEREAS, American Specialty Healthcare has committed to establish a corporate headquarters to house approximately 181 employees in downtown Modesto, and

WHEREAS, American Specialty Healthcare has expressed concern over the cost of parking for these employees, and

WHEREAS, American Specialty Healthcare indicated that they cannot justify locating downtown unless parking spaces were made available, and

WHEREAS, IMPLAN calculations provided by Opportunity Stanislaus show that 100 new health-sector employees downtown are expected to generate approximately 203 jobs, and about $24 million in goods and services in the greater Modesto area economy, and

WHEREAS, if paid parking is displaced during the five years of the parking agreement, the parking system will be made whole by tax revenues collected from economic activity generated from this corporate headquarters locating downtown, and

WHEREAS, the terms of a Parking Agreement with American Specialty Healthcare are proposed to be as follows:

1. No charge for employee parking for five years for up to 150 employees. One hundred (100) employee parking spaces will be allocated in the 11th Street Garage, and fifty (50) employee parking spaces will be allocated at the 9th/I Streets surface lot between the hours of 6:00 a.m. and 6:00 p.m.
2. The City and American Specialty Healthcare will agree to a five year parking agreement with an option to extend for an additional five years.
3. American Specialty Healthcare will agree to retain the 150 jobs at the downtown corporate headquarters location, and provide the City with an annual written report of the number of jobs and annual salary rate of the jobs to be retained at this location.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto, that it hereby approves the terms for a proposed downtown parking agreement with American Specialty Healthcare, authorizing staff to prepare a parking agreement consistent with the Resolution and Council direction, and authorizing the City Manager to execute the agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of February, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-86

RESOLUTION APPROVING A CITYWIDE HIRING AND PROMOTION/ADVANCEMENT FREEZE AND MEASURES RELATED TO UNBUDGETED PURCHASES TO MAINTAIN THE FISCAL SUSTAINABILITY OF THE CITY AND DIRECTING THE CITY MANAGER TO RETURN TO COUNCIL WITH SPECIFIC INFORMATION RELATIVE TO THE FISCAL SUSTAINABILITY MEASURES

WHEREAS, since 2008, the City has made every effort to maintain fiscal sustainability including making significant changes to staffing and employee benefits, such as eliminating 200 positions, restructuring employee benefits and reorganizing the City to ensure the most efficient and effective operations while still providing quality services to our citizens; and

WHEREAS, despite these changes, and even with major reductions in workforce and other short and long-term financial strategic actions that have resulted in significant progress in fiscal sustainability as recognized by our AA Fitch bond rating, the City continues to project challenges to sustained fiscal health given rising expenses and relatively flat revenue growth; and

WHEREAS, recent changes approved by the CalPERS Board have made the City more cognizant of the impending significant negative impact on future budgets and to redouble the City's commitment to fiscal sustainability; and

WHEREAS, staff is only projecting moderate growth to city revenue including flat sales tax which is the City's largest source of revenue; and

WHEREAS, staff also anticipates that a recession will likely occur and will further impact the City's revenues. At this time, staff is unable to predict the magnitude

RESCINDED
JUN 27 2017
THIS RESOLUTION WAS RESCINDED BY MODESTO CITY COUNCIL RESOLUTION NO. 2017-249

and the timing of any potential recession, but past experience and current research indicates that one is likely at some point in the next several years; and

WHEREAS, the City desires to maintain financial health and to prepare for future challenges to avoid more drastic measures in the future.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it approves the implementation of the following measures to maintain fiscal sustainability of the City:

1. Instituting a citywide hiring and promotion/advancement freeze of all city positions, excluding the hiring of the 22 police officer position previously authorized by the Council and other essential positions as approved by City Council.
2. All purchases that have been budgeted in FY 2016/17, but not yet implemented, will require City Manager's Office (CMO) approval. Any new request will also require CMO approval.

BE IT FURTHER RESOLVED that the City Manager is directed to return to Council with specific information relative to the positions that will be impacted, effect those positon have on City operations, and further details related to other mitigating measures.

BE IT FURTHER RESOLVED that the previsions of this Resolution are made subject to compliance with all applicable State and City laws.

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 28th day of February, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-87

RESOLUTION APPROVING THE APPOINTMENT OF CHRIS VIERRA, CITY OF CERES, TO THE GOVERNING BOARD OF THE SAN JOAQUIN VALLEY AIR POLLUTION CONTROL DISTRICT – STANISLAUS CITY SEAT

WHEREAS, Health and Safety Code Section 40600.5 created by a Special City Selection Committee for the appointment of city members of the San Joaquin Valley Air Pollution Control District (District) Governing Board; and

WHEREAS, the Special City Selection Committee has adopted procedures for making their appointments, based upon the adopted procedures, a city councilmember representing a City with a population of less than 100,000 from Stanislaus County shall be appointed to the District Governing Board; and

WHEREAS, in selecting a nominee for appointment by the Special City Selection Committee to the District Governing Board, the City Council considered the application materials from the eligible applicant(s); and

WHEREAS, the vote to select a candidate took place as an item on the publicly noticed agenda and was discussed during the normal City Council meeting with time for public comment.

NOW, THEREFORE, BE IT RESOLVED that the City of Modesto nominates Chris Vierra to the Special City Selection Committee for appointment to the District Governing Board.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of March, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-88

RESOLUTION APPROVING AN AGREEMENT WITH ALTA PLANNING + DESIGN INC., OAKLAND CA, FOR DESIGN SERVICES FOR THE CLAUS ROAD PAVEMENT REHABILITATION PROJECT IN AN AMOUNT NOT TO EXCEED $61,856 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS $6,185 FOR ADDITIONAL SERVICES (IF NEEDED), FOR A MAXIMUM TOTAL AMOUNT OF $68,041, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the Claus Road Pavement Rehabilitation project incorporates pavement rehabilitation and a Class IV bike path, and

WHEREAS, the Class IV bike path is listed as a priority project on the 2006 City of Modesto Non-Motorized Transportation Master Plan, and

WHEREAS, as part of project design it has been identified that bicycle signal and protected intersection design features are necessary to guide and protect cyclists at street intersections, and

WHEREAS, City staff has determined there is a need to hire a professional consultant to design the bicycle signal and protected intersection design features, and

WHEREAS, City staff has determined it is in the best interest of the public and the City of Modesto to hire Alta Planning + Design Inc. for design services as the most qualified,

WHEREAS, on February 28, 2017, Council approved Resolution No. 2017-86 implementing a spending freeze in order to maintain fiscal sustainability of the City. The City Manager's Office approved an exception to this freeze for this procurement based upon the fact that this contract is fully funded with Capital Facilities Fees (Streets) and is connected with a federally-funded pavement rehabilitation project that is to be constructed this summer.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an agreement with Alta Planning + Design for design services for the Claus Road Class IV Bike Path Project, in an amount not to exceed $61,856 for the identified scope of services, plus $6,185 for additional services (if needed), for a maximum total amount of $68,041.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of March, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-89

RESOLUTION APPROVING A WILL SERVE LETTER AND OUTSIDE SERVICE AGREEMENT BETWEEN THE CITY OF MODESTO AND DAVID J. CUTLERAND JUDITH A. CUTLER, AS TRUSTEES OF THE 2014 CUTLER FAMILY TRUST, TO CONNECT TO THE CITY OF MODESTO'S EXISTING SEWER SYSTEM FOR THE PROPERTY LOCATED AT 2100 BLUE GUM AVENUE (APN: 081-022-005), AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO THE SIGN THE WILL SERVE LETTER AND EXECUTE THE AGREEMENT

WHEREAS, David J. Cutler and Judith A. Cutler , as Trustees of the 2014 Cutler Family Trust, own a Residential property located at 2100 Blue Gum Avenue which is located outside of Modesto City Limits and inside the City's Sphere of Influence, and

WHEREAS, the property located at 2100 Blue Gum Avenue, is not connected to City's sewer system and is requesting a sewer connection due to a failing septic system, and

WHEREAS, on November 25, 2014, City Council approved Resolution No. 2014-473 amending City Council Policy 5.002, and

WHEREAS, on December 9, 2014, City Council approved adoption of Ordinance No.3612-C.S. amending City of Modesto Municipal Code Section 11-1.05, and

WHEREAS both of these amendments included language allowing the City Manager, upon the recommendation of the Director responsible for utility system planning to approve standard agreements of service for extension of sewer services into certain unincorporated areas without City Council approval, and

WHEREAS, the property located at 2100 Blue Gum Avenue is not located within one of those designated areas and therefore requires City Council approval prior to allowing the sewer connection, and

WHEREAS, City staff has completed an analysis and determined that it is reasonable for the City of Modesto to provide sewer service to this property due to health and safety concerns, and

WHEREAS, consistent with adopted LAFCO Policy 15, the extension of sewer service is proposed to remedy a health and safety concern in an area with failing septic system, and

WHEREAS, the sewer connection fees shall be paid and associated permits will be obtained prior to connecting to the City sewer system, and

WHEREAS, the property owner has executed an Outside Service Agreement for sewer service with the City as required to receive sewer service outside the City limits.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Will Serve Letter and Outside Service Agreement for sewer service for the property located at 2100 Blue Gum Avenue (APN: 081-022-005) in Modesto.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to approve the Will Serve letter and execute the Outside Service Agreement for sewer service.

The foregoing documents were introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of March, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION AUTHORIZING THE SUBMISSION OF THE CITY'S LOCAL TRANSPORTATION FUND (LTF) CLAIM FOR NON-MOTORIZED PURPOSES IN THE AMOUNT OF $154,330 TO THE STANISLAUS COUNCIL OF GOVERNMENTS (STANCOG)

WHEREAS, the Stanislaus Council of Governments (StanCOG) has informed the City that Local Transportation Funds (LTF) funds have been apportioned by StanCOG for allocation to the City, and

WHEREAS, this Claim for Non-motorized Purposes is the formal request by the City to StanCOG to release its apportionment of LTF funds for non-motorized purposes during the current fiscal year, and

WHEREAS, LTF funds provide the required local match for Federal funds received for the purpose of non-motorized projects, and

WHEREAS, two percent (2%) of all LTF funds available to StanCOG are designated to be used for bicycle and pedestrian projects, and

WHEREAS, the City has prepared its LTF Claim for Fiscal Year 2016-2017, **attached** hereto, pursuant to Articles 4 and 8 of Chapter 4 of Part 11, Division 10 of the California Public Utilities Code, and

WHEREAS, Council action authorizing submission of the claim is required by the rules and regulations governing the Transportation Development Act Funds, including StanCOG's approved Transit Cost Sharing Procedures, before any LTF funding can be released to the City.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes submission of the City's Local Transportation Fund Claim for

Fiscal Year 2016-2017 Non-motorized Funds, in the amount of $154,330, to the Stanislaus Council of Governments.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of March, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

TRANSPORTATION DEVELOPMENT ACT
LOCAL TRANSPORTATION FUND
CLAIM FOR FISCAL YEAR 2016/17 OTHER PURPOSES

TO: Stanislaus Council of Governments
1111 I Street, Suite 308
Modesto, CA 95354

FROM:

Applicant: City of Modesto

Address: 1010 10th Street

City: Modesto, CA Zip: 95354

Contact Person: Maria Garnica/Bill Sandhu Phone: 209-577-5249

E-mail Address: mgarnica@modestogov.com Fax: 209-491-5992

The City of Modesto hereby requests, in accordance with the Transportation Development Act and applicable rules and regulations, that its claim for other purposes be approved in the amount of $ 154,330 for fiscal year 2016/17, to be drawn from the Local Transportation Fund.

When approved, please transmit this claim to the County Auditor for payment. Approval of the claim and payment by the County Auditor to this applicant is subject to such monies being on hand and available for distribution, and to the provisions that such monies will be used only in accordance with the terms contained in the approving resolution to the Stanislaus Council of Governments.

The claimant certifies that this Local Transportation Fund claim and the financial information contained therein is reasonable and accurate to the best of my knowledge and conforms with the requirements of the Transportation Development Act and applicable rules and regulations.

NONMOTORIZED PROJECTS
FY 2016/17
(Continued)

NONMOTORIZED REGULATION/POLICY REMINDERS:

A. State law allows a jurisdiction to use LTF to update a Bicycle Action Plan once every five years (PUC 99234(h)).

B. State law allows a jurisdiction to use up to 20% of the amount available each year to restripe Class II bicycle lanes (PUC 99234(h)).

C. State law allows a jurisdiction to use up to 5% of the amount available each year to supplement moneys from other sources to fund bicycle safety education programs, but the funds shall not be used to fully fund the salary of any one person (PUC 99233.3).

D. All funds must be spent within five years of receipt. Over the five-year period shown in Table 3, at least 50% of funds must be spent for bicycle purposes. StanCOG will not allocate funds to any jurisdiction which is in violation of these policies.

NOTES:

* By StanCOG policy, all bike projects must appear in either StanCOG's Bicycle Action Plan, or in a City or County bicycle plan, to be eligible for LTF funding.

** Beginning with FY 2003/04, nonmotorized funds will only be allocated by StanCOG for specific projects. If no project is identified, funds will be held in reserve at StanCOG for eventual use by that jurisdiction.

STANISLAUS COUNCIL OF GOVERNMENTS
RESOLUTION 15-39
A RESOLUTION APPROVING THE TRANSPORTATION DEVELOPMENT ACT APPORTIONMENTS FOR FY 2016/17 FOR TRANSIT AND OTHER PURPOSES

WHEREAS, the Stanislaus Council of Governments (StanCOG) is the designated Regional Transportation Planning Agency (RTPA), the designated Metropolitan Planning Organization (MPO), and the designated Council of Governments for Stanislaus County; and

WHEREAS, StanCOG has been designated as the Regional Transportation Planning Agency with the responsibility to administer the Transportation Development Act (TDA), including the apportionment and allocation of the Local Transportation Fund (LTF) and the State Transit Assistance (STA) Fund; and

WHEREAS, on February 17, 2016, the StanCOG Policy Board approved STA apportionments totaling $2,303,250 for FY 2015/16, plus the LTF needed for TDA administration and transportation planning, along with 2% by jurisdiction for Nonmotorized (bicycle and pedestrian) purposes; and

WHEREAS, from the remaining LTF balance of $19,192,320, the Transit Cost Sharing Committee recommended that LTF in the amount of $18,069,038 is needed for transit in FY 2016/17, leaving a balance of $1,123,282 available to be apportioned for Other purposes.

NOW THEREFORE, BE IT RESOLVED that based on the Rules and Regulations governing the Transportation Development Act funds, including StanCOG's approved Transit Cost Sharing Procedures, the Stanislaus Council of Governments hereby approves the apportionments for Local Transportation Funds for transit and Other purposes as presented in Schedule 3.

The foregoing Resolution was introduced at a regular meeting of the Stanislaus Council of Governments, on the 15th day of June, 2016. A motion was made and seconded to adopt the foregoing Resolution. Motion carried and Resolution adopted.

WHEREAS, the Stanislaus Council of Governments (StanCOG) is a Regional Transportation Planning Agency (RTPA) and a Metropolitan Planning Organization, pursuant to State and Federal designation; and

WHEREAS, the Stanislaus Council of Governments (StanCOG), as the RTPA, is responsible for administering the Transportation Development Act, including the apportionment and allocation of the Local Transportation Fund (LTF); and

WHEREAS, StanCOG approved an LTF funding apportionment for FY 2015/16 of $19,900,000; and

WHEREAS, LTF funds of $20,660,586 were received for FY 2015/16; and

WHEREAS, the excess LTF funds of $760,586 are available for a supplemental apportionments, which were approved by StanCOG Policy Board Resolution 16-06 on September 21, 2016.

WHEREAS, Resolution 16-06 for Local Transportation Fund Supplemental Apportionment, authorized on September 21, 2016 is revoked.

WHEREAS, the deficit of STA funds of $707,388 decrease the amount available for Supplemental Apportionments.

WHEREAS, that per Transportation Development Act (TDA) guidelines LTF Article 4 – Transit Funds are distributed before Article 8 - Other Purposes for jurisdictions for the FY 2015/16 LTF claims.

WHEREAS, that LTF funds be distributed to Transit Operators to offset the deficit of STA funds as represented in their respective FY 2015/16 approved transit claims.

WHEREAS, the revised excess LTF funds of $53,198 are available for a supplemental apportionment.

NOW, THEREFORE, BE IT RESOLVED, that based on the Rules and Regulations governing the Local Transportation Fund, the Stanislaus Council of Governments approves the Revised FY 2015/16 Local Transportation Fund (LTF) Supplemental Apportionment as shown in the table below.

FY 2015/16 Proposed Supplemental Apportionments

Jurisdiction	StanCOG Planning	Nonmotorized	Other Purposes	Total
StanCOG	$ 1,596			$ 1,596
Ceres		$ 91	$ 6,025	$ 6,116
County		$ 217	$ 22,406	$ 22,623
Hughson		$ 14	$ 1,005	$ 1,019
Modesto		$ 405		$ 405
Newman		$ 21	$ 1,511	$ 1,532
Oakdale		$ 42	$ 3,021	$ 3,063
Patterson		$ 41	$ 2,898	$ 2,939
Riverbank		$ 46	$ 3,068	$ 3,114
Turlock		$ 138	$ 9,514	$ 9,652
Waterford		$ 17	$ 1,122	$ 1,139
Total	$ 1,596	$ 1,032	$ 50,570	$ 53,198

BE IT FURTHER RESOLVED, that the Executive Director, or the Policy Board Chair of StanCOG, or his/her designee, is hereby authorized and empowered to execute in the name of Stanislaus Council of Governments all necessary administrative changes to implement and carry out the purposes specified in this resolution.

NOW, THEREFORE, BE IT FURTHER RESOLVED, that the Executive Director, or his/her designee, is authorized to issue an allocation instruction to the County Auditor and issue disbursement instructions to honor claimant invoices as funds become available.

The foregoing Resolution was introduced at a regular meeting of the Stanislaus Council of Governments, on the 16th day of November 2016. A motion was made and seconded to adopt the foregoing Resolution. The motion carried and the Resolution was adopted.

MEETING DATE: November 16, 2016

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-91

RESOLUTION AUTHORIZING AWARD OF PROPOSAL FOR THE PURCHASE OF A SCHEDULING AND TIME-KEEPING MANAGEMENT SOFTWARE SYSTEM FOR THE MODESTO POLICE DEPARTMENT TO INTIME SOLUTIONS, INC. VANCOUVER, BC CANADA, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT FOR AN ESTIMATED FIVE (5) YEAR TOTAL CONTRACT COST OF $222,452

WHEREAS, the Modesto City Council approved the purchase of Kronos Telestaff scheduling software for the Modesto Police Department on September 10, 2013, with the intent to have the software be a personnel scheduling and tracking mechanism for employees at the Police Department with the ability to integrate with the Oracle Applications payroll module, and

WHEREAS, Telestaff has been unable to interface with the Oracle payroll module during the last three years, creating the need for employees to continue to produce paper timesheets and manually enter time into the payroll system in addition to the systems inability to provide a 30 day scheduling view needed in projecting accurate and efficient staffing levels, and

WHEREAS, the City Manager authorized the Purchasing Manager to issue a formal Request for Proposals (RFP) for the purchase of a Scheduling and Time-Keeping Software System, and

WHEREAS, the Purchasing Division issued RFP 1516-41, with eighteen (18) companies downloading the RFP document, and

WHEREAS, two (2) companies responded to RFP 1516-41 and an evaluation committee comprised of five (5) City staff members evaluated the responsive and responsible proposals, and

WHEREAS, based on being ranked highest in total evaluation criteria, the evaluation committee recommended the award of proposal for the purchase of a Scheduling and Time-Keeping Management Software System to InTime Solutions, Inc. Vancouver, BC Canada, for a five (5) year contract for an estimated total cost of $222,452, and

WHEREAS, on February 28, 2017, Council approved Resolution No. 2017-86 implementing a spending freeze in order to maintain fiscal sustainability of the City. The City Manager's Office approved an exception to this freeze for this procurement based upon the need of the Police Department to have an interactive scheduling and time-keeping management software system that provides for a 30 to 90 day employee scheduling view, in order to ensure that minimum staffing levels are met at all times. Additionally, this system will eliminate the need for dual entry in multiple systems to process time exceptions for payroll purposes and will allow the department to migrate to a paperless time entry system.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the award of proposal and agreement for the purchase and installation of a Scheduling and Time-Keeping Management Software System to InTime Solutions, Inc. Vancouver, BC Canada.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement for an estimated five (5) year total contract cost of $222,452.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of March, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

RESOLUTION AUTHORIZING THE DEPUTY CITY MANAGER, OR HIS DESIGNEE, TO AMEND THE MULTI-YEAR NON-CIP BUDGET TO APROPRIATE EXPENDITURES OF APPROXIMATELY $137,363 FOR THE MODESTO POLICE DEPARTMENTS PURCHASE OF A SCHEDULING AND TIME-KEEPING MANAGEMENT SOFTWARE SYSTEM

WHEREAS, the Modesto Police Department currently uses Kronos Telestaff scheduling software as approved by the Modesto City Council on September 10, 2013, and

WHEREAS, Telestaff has been unable, for the last three years, to interface with the Oracle payroll module, requiring staff to continue to produce paper timesheets and payroll staff to manually enter time into the system, along with the systems inability to provide a 30 day scheduling view, and

WHEREAS, the City Manager authorized the Purchasing Manager issued Request for Proposals (RFP) 1516-41 for the purchase of a Scheduling and Time-Keeping Management Software System, and

WHEREAS, based on being ranked highest in total evaluation criteria, the evaluation committee recommended the award of proposal for the purchase of a Scheduling and Time-Keeping Management Software System to InTime Solutions, Inc. Vancouver BC, Canada, for an estimated five (5) year total cost of $222,452, and

WHEREAS, the expenses for the purchase of the Scheduling and Time-Keeping Management Software System will come from existing appropriations in the 2015-16 State Law Enforcement Supplemental Funds (SLESF) Grant residing in the Operations Block Grant Fund for a total of $137,363.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the Deputy City Manager, or his designee, to amend the Multi Year Non-CIP Budget to appropriate expenditures of approximately $137,363 for the Modesto Police Department's purchase of a Scheduling and Time-Keeping Management Software System.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of March, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-93

RESOLUTION APPROVING A GRANT DEED FROM THE COUNTY OF STANISLAUS FOR A PROPERTY CONSISTING OF 30,550 SQUARE FEET (0.70 ACRES), LOCATED AT 124 PECOS AVE, IN MODESTO, (APN: 038-032-040), AT NO COST TO THE CITY, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE CERTIFICATE OF ACCEPTANCE AND GRANT DEED

WHEREAS, the City of Modesto, in 2012, annexed an area in south Modesto known as the Shackelford Neighborhood, and

WHEREAS, as a result of the annexation the City acquired title to the public roadways, and

WHEREAS, the Shackelford Storm Drainage Basin collects storm water runoff from the public roadways, and

WHEREAS, a Grant Deed is required to transfer title from the County to the City for the Shackelford Storm Drainage Basin, and

WHEREAS, the Grant Deed requires the signature of the City of Modesto, and

WHEREAS, City staff is recommending the City accept the Grant Deed.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Grant Deed from the County of Stanislaus for a parcel of 30,550 square feet (0.70 acres) for a storm drainage basin, located at 124 Pecos Avenue (038-032-040), for the Shackelford Storm Drainage Basin.

BE IT FURTHER RESOLVED that the Council of the City of Modesto, that the City Manager, or his designee, is hereby authorized to execute the Certificate of Acceptance for the Grant Deed for the parcel located at 124 Pecos Avenue, in Modesto, (APN 038-032-040) to be conveyed to the City of Modesto.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute and accept the Grant Deed, and all related documents required to record the Grant Deed.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of March, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION AUTHORIZING A TWO-YEAR AGREEMENT WITH THREE ONE-YEAR EXTENSION OPTIONS FOR THE SOLE SOURCE PROCUREMENT OF UV LAMPS WITH XYLEM WATER SOLUTIONS USA INC., CHARLOTTE, NC, FOR AN ESTIMATED ANNUAL COST OF $39,392 AND OVER FIVE YEARS OF $198,556, AND AUTHORIZING THE CITY MANAGER OR HIS DESIGNEE TO EXECUTE THE PURCHASING AGREEMENT

WHEREAS, the City of Modesto, Utilities Department, Wastewater Services Division, utilizes Tertiary Treatment for the treatment of the City of Modesto Wastewater, and

WHEREAS, Phase 1 of the Tertiary Treatment process is the disinfection of the wastewater by UV lamps which must be replaced after 12,000 hours of operation, and

WHEREASE, the UV lamps are a specialized system component that must be purchased and contracted from a Wedeco Distributor to maintain equipment performance standards, and

WHEREAS, the local exclusive manufacturer representative is Xylem Water Solutions USA, Inc., and

WHEREAS, it is anticipated that each year 120 lamps will need to be replaced to ensure the efficiency of the disinfection process, and

WHEREAS, staff has negotiated with Xylem Water Solutions USA, Inc., to freeze the cost of the lamps for two years; for the following three years there will be an increase not to exceed the Consumer Price Index, and

WHEREAS, to maintain the equipment guarantee for the Tertiary equipment, staff finds that the justification meets the City's sole source criteria as identified under the Modesto Municipal Code 8-3.204(b), and

WHEREAS, on February 28, 2017, Council approved Resolution No. 2017-86 implementing a spending freeze in order to maintain fiscal sustainability of the City, and

WHEREAS, on March 2, 2017, the City Manager's Office approved an exception to this freeze for this procurement based upon the specific need for these lamps to utilize Tertiary treatment of Wastewater, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the procurement of UV lamps and approving a sole source agreement with Xylem Water Solutions USA, Inc., Charlotte, NC , for five years at an annual cost of $39,392 and a cost over five years of $198,556.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the purchase agreements.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of March, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION AUTHORIZING THE CITY MANAGER OR HIS DESIGNEE TO EXECUTE STANDARD PROGRAM SUPPLEMENTAL AGREEMENTS, FUND EXCHANGE AGREEMENTS, AND/OR FUND TRANSFER AGREEMENTS, IN A FORM APPROVED BY THE CITY ATTORNEY, ON A PROJECT BY PROJECT BASIS BETWEEN THE CITY OF MODESTO AND THE STATE OF CALIFORNIA FOR AUGMENTATION TO THE MASTER AGREEMENT FOR THE USE OF STATE FUNDS

WHEREAS, the City of Modesto uses various state funded programs for transportation related projects, and

WHEREAS, these funds are controlled by the State of California through Caltrans, and

WHEREAS, examples of these state funded programs include, but are not limited to, the Highway Safety Improvement Program (HSIP), Active Transportation Program (ATP), and Systematic Safety Analysis Report Program (SSARP), and

WHEREAS, the terms and conditions for the use of these grant funds are established by a Master Agreement, Program Supplemental Agreements, Fund Exchange Agreements and/or Funds Transfer Agreements between the City and State of California (Caltrans), and

WHEREAS, on May 2, 2000, by Resolution 2000-195 Council authorized the City Manager to execute a Master Agreement between the City of Modesto and the State of California for administering state funded transportation projects, and

WHEREAS, by Resolution 2000-196 Council authorized the City Manager to execute Program Supplements on a project-by-project basis between the City of Modesto and the State of California for augmentation to the Master Agreement for the use of State Transportation Improvement Program (STIP) funding only, and

WHEREAS, after discussion with Caltrans, it has been brought to staff's attention, that a Resolution approved by the City Council is needed authorizing the City Manager or his designee to execute Program Supplemental Agreements, Fund Exchange Agreements and/or Fund Transfer Agreements for all state funded transportation related projects,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the City Manager or his designee to execute the Program Supplemental Agreements, Fund Exchange Agreements, and/or Fund Transfer Agreements between the City of Modesto and the State of California for administering all transportation related State funded projects.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of March, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING A TWO YEAR AGREEMENT WITH THREE ONE-YEAR EXTENSION OPTIONS FOR THE SOLE SOURCE PROCUREMENT OF COLILERT-18™ BRAND PRODUCTS AND VARIOUS LABORATORY SUPPLIES WITH IDEXX DISTRIBUTION, INC., WESTBROOK, MA, FOR AN ESTIMATED ANNUAL COST OF $12,257 AND OVER FIVE YEARS OF $61,285, AND AUTHORIZING THE CITY MANAGER OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the Wastewater Division, Laboratory Services, performs bacteriological analysis for both water and wastewater samples using a presence/absence method, and

WHEREAS, the Lab has utilized Colitag™ in the past but has currently found Colilert-18™ from IDEXX to be more accurate, and

WHEREAS, the general method requires pre-packaged reagents that can be purchased in the form of Colitag™ (CPI International) or Colilert-18™ (IDEXX), and

WHEREAS, Colilert-18™ is the best overall confirming agent of total coliform and E. coli bacteria with 99.5% accuracy, and

WHEREAS, Colitag™ is a similar product to Colilert-18™ but has an accuracy of only 52.3% and requires duplicate analysis of all individual samples to yield the same results and accurately confirm the presence or absence of bacteria, and

WHEREAS, if the duplicate Colitag™ results are not in agreement, re-sampling would be required, and

WHEREAS, after researching other testing supply companies, staff found that there is no competition for Colilert-18™ and therefore, IDEXX is the only vendor that can supply this item, and

WHEREAS, considering the requirement of duplicated analysis with Colitag™, IDEXX has the overall lowest per unit cost when compared to Colitag™, and

WHEREAS, in addition, Colilert-18™ is the only reagent EPA-approved for fecal coliform detection in wastewater, and

WHEREAS, the Director of Finance, acting as Purchasing Manager, has determined that the purchase of Colilert-18™ is appropriate as a sole source purchase due to the cost savings of staff time and the limited number of competitors for this product, and

WHEREAS, the sole source award of an agreement to IDEXX Distribution, Inc., Westbrook, MA, will conform to MMC Section 8-3.204(d), and

WHEREAS, on February 28, 2017, Council approved Resolution No. 2017-86 implementing a spending freeze to maintain fiscal sustainability of the City , and

WHEREAS, on March 6, 2017, the City Manager's Office approved an exception to this freeze for this procurement based upon the need for the WQC Laboratory to have testing supplies that provide accurate results.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a two year Agreement with three one-year extension options for the sole source procurement of Colilert-18™ brand products and various laboratory supplies with IDEXX Distribution, Inc., Westbrook, MA for an estimated annual cost of $12,257 and over five years of $61,285.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of March, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-97

RESOLUTION ACCEPTING THE FISCAL YEAR 2015-2016 ANNUAL AUDIT REPORTS FOR THE CITY OF MODESTO, ITS COMMUNITY FACILITIES DISTRICTS, VARIOUS JOINT POWERS AGENCIES AND GRANT PROGRAMS

WHEREAS, pursuant to Section 1306 of the Charter of the City of Modesto, the City Council shall employ an independent certified public accountant who, at least annually, shall audit the books and records of the City of Modesto, and submit a final audit and report to the City Council as soon as practicable after the end of the fiscal year and

WHEREAS, the accounting firm of Macias, Gini & O'Connell, LLP has completed its audit of the City's financial statements for the fiscal year ended June 30, 2016, and has provided its opinion on these financial statements based on that audit, and

WHEREAS, the independent auditors also audited financial statements of nine Community Facilities Districts and various Joint Powers Agencies, as required by their respective enabling legislations, and for which the City of Modesto serves as the financial administrator,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the Fiscal Year 2015-2016 annual audit reports for the City of Modesto, its nine Community Facilities Districts, and various Joint Powers Agencies, as listed below and as **attached** in **Exhibit A**, which is incorporated by reference herein.

December 15, 2016

To the Honorable Mayor, Members of the City Council, and Citizens of the City of Modesto:

We are pleased to present to you the Comprehensive Annual Financial Report (CAFR) for the City of Modesto (City). The City of Modesto City Charter and Municipal Code require that a complete CAFR, which is comprised of financial statements and report on the finances of the City, be submitted to the City Council at the end of each fiscal year. This report fulfills that requirement for the year ended June 30, 2016.

City management assumes full responsibility for the completeness and reliability of the information contained in this report. We believe the data fairly represents the financial position and results of operations of the City. The disclosures necessary to enable the reader to understand the City's financial affairs have been included. The City's accounting system has been developed and maintained with due consideration given to the adequacy of internal controls. Because the cost of internal controls should not exceed the anticipated benefits, the objective is to provide reasonable, rather than absolute, assurance that the financial statements are free of any material misstatements. The evaluation of the costs and benefits of a particular control requires estimates and judgments by management.

The Modesto City Charter also requires an annual audit be performed by an independent certified public accountant selected by the Modesto City Council. The accounting firm of Macias Gini & O'Connell LLP was selected in 2015 to perform the City's annual financial audits. The auditors have issued an unmodified ("clean") opinion on the financial statements for the fiscal year ended June 30, 2016, which is presented on page 3. In addition to meeting the City Charter audit requirements, the audit was also designed to meet the requirements of the federal Single Audit Act Amendments of 1996 and Title 2 U.S. Code of Federal Regulations (CFR) Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards (Uniform Guidance). The auditor's reports related specifically to the Single Audit will be presented separately at a later date.

Management's discussion and analysis (MD&A) immediately follows the independent auditor's report and provides a narrative introduction, overview, and analysis of the basic financial statements. The MD&A is designed to be read in conjunction with this transmittal letter.

City of Modesto Profile

Modesto is located in the heart of California's San Joaquin Valley and is the County Seat of Stanislaus County. It is also the retail, service and financial center of Stanislaus County. The City currently occupies a land area of 37.4 square miles and serves a population of 211,903. The City has a diverse economy and population with a strong sense of community pride.

Incorporated as a municipal city in 1884, the City adopted its City Charter on March 12, 1951, with a Council-Manager form of government. The Modesto City Council (Council) is the City's legislative body and is made up of seven elected officials serving overlapping 4-year terms. The Mayor is elected at-large by the entire City; while the six Councilmembers are elected by district and are limited to two terms.

The Council sets policy and tax rates, approves budgets, and passes ordinances and resolutions, which govern the City. The Council also appoints citizens to advisory boards, committees and commissions as well as appoints the City Manager, City Attorney, City Clerk and City Auditor. The City Manager is responsible for carrying out Council policy and managing the day-to-day affairs of the City.

The City is a "full-service" city including police and fire; public works; water and sewer; community and economic development; parks, recreation and neighborhoods; public transportation; and cultural and convention visitor services.

The City's financial reporting entity includes all funds and activities of the City as the primary government and its component units, which are legally separate entities that operate under the auspices of the City and provide services that supplement City services. The City's component units are blended into the City's funds because there is a financial benefit/burden relationship with the City or management has operational responsibility over the component unit. These component units are the Modesto Public Financing Authority and the City of Modesto Community Facilities Districts.

The annual operating budget serves as the foundation for City's financial planning and control. The proposed budget is adopted annually prior to July 1, by City Council ordinance. The Council's legally adopted budget level is at the fund level. Throughout the fiscal year, the budget may be modified. The City Council has also adopted fiscal policies that delineate the delegated budget control authority to the following parties: the City Council, the City Manager and the Director of Finance.

Local Economy

Modesto is the county seat for fast-growing Stanislaus County. A major center for local commerce, the City attracts thousands to its environs for work, shopping and entertainment. Major employment sectors include manufacturing, healthcare, education and retail. Modesto and its surrounding communities contain canneries, packing plants and warehouses which ship agricultural products across the nation and the world. An active farm to table movement has been spearheaded by the area's large production of nuts, dairy, poultry and other locally grown products.

The unemployment rate within the county-wide Modesto Statistical Area decreased during the 2015-2016 fiscal year. As of June 30, 2016, the MSA's unemployment rate was recorded at 9.1%, which is down from the 9.3% rate of a year ago. The total non-farm employment in the MSA is projected to reach 182,800 jobs by 2022. The industry sector consisting of private educational service, health care, and social assistance is expected to increase by 32.4 percent during this projection period with the health care and social assistance subsector contributing 8,500 jobs. Leisure and hospitality is expected to grow by almost 30 percent, adding 4,400 jobs in the area. Retail trade anticipates job gains of 3,200, led by a job growth of 900 jobs in general merchandise stores.

The 2016-17 Stanislaus County assessment roll, on which property taxes are based, is $44.3 billion, which is an increase of nearly 6 percent over the previous year. The 2016 median home sales price in Modesto is approximately $265,000 or $166 per square foot, up from a square foot price of $147 a year ago. Modesto building permit activity during fiscal year 2015-2016 ended with a total of 4,939 permits issued with a valuation of $92,768,634.

Modesto is a prime and central location for business, and has attracted both start-ups and expanding firms. Specialized health care facilities like HealthSouth and Central Valley Specialty Hospital have chosen to expand their services and operations in Modesto. There is also a strong culture of entrepreneurship and innovation. Datapath, a technology management company with headquarters in Modesto, has been recognized by Inc. Magazine as one of the fastest-growing private companies in America. E&J Gallo Winery, also based in Modesto, is the world's largest privately owned winery and the leading US exporter of California wines. The Gallo Glass Company is a state of the art glass manufacturer and a leading producer of wine and spirits glass bottles in the US.

The median sales price for a home in the City is approximately $325,000 or $204/square foot, which reflects an increase of approximately 22% when compared to the prior year.

Entertainment and Tourism

Modesto is the home of the Modesto Nuts baseball team, which is an affiliate of major league team, the Seattle Mariners.

Downtown Modesto features a Third Thursday Art Walk with local artists displaying art for sale, artist demos, and local gallery shows. Downtown Modesto is also home of the Modesto Historic Graffiti Cruise Route, the Legends of the Cruise Walk of Fame, and the Classic Community Mural series of large scale art celebrating the American Graffiti history which was immortalized in the award-winning film American Graffiti by native son and filmmaker, George Lucas.

The Gallo Center for the Arts is a community asset and state-of-the-art performing arts complex in the downtown area. It provides national and international entertainment, arts, multicultural programming and activities for the Central Valley region.

The City's annual Architectural Festival includes tours, exhibits and workshops to celebrate and heighten awareness of Modesto's architecture and architectural design history. Modesto's mid-century buildings have been featured four times in Museum of Modern Art publications.

Our Strategic Priorities

During 2016, the City updated its 2015-2018 Strategic Plan to incorporate input from newly elected Councilmembers and to reaffirm our strategic priorities. Our priorities bring the City's vision and values to life in our community and define our overall direction as a city. It also confirms our commitment to our citizens. While the priorities are individually important, they are also interconnected and cannot be addressed in isolation. In addition, they are the basis of our scorecard that measures success and upon which our performance metrics are built.

- **Healthy Economy and Great Quality of Life:** Increase the City's proactive economic development efforts by creating and preserving jobs, strengthening our economic base and enhancing the City's revenue base.

- **Vibrant Infrastructure and Sustainable Environment:** Strengthen and maintain a safe infrastructure of City roads, water supply, storm sewers, transit and airport needs for residents, businesses and visitors.

- **Great Safe Neighborhoods:** Explore new approaches to public safety, working in partnership with the community to reduce crime and maintain a safe and inviting community in which to live, work and play. Increase collaboration with neighborhoods and school districts to achieve quality of life improvements, and safe neighborhoods through supporting community self-reliance, problem solving and public/private partnerships.

- **Effective, Responsive and Transparent Government:** Enhance the organization's commitment to develop new and creative methods to leverage technology, market organization strengths and remain dedicated to seeking efficiencies and continuous improvement.

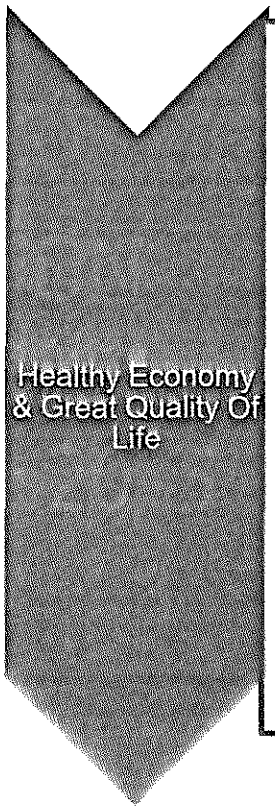
Long-Term Financial Planning

The City continues to refine its 10-year forecasting model and update estimates and assumptions used to project future operations. At the end of fiscal year 2015-16, General Fund Balance was as follows: Restricted and Nonspendable - $4.7 million; Committed - $3 million; Assigned - $6.5 million; and Unassigned $12.8 million. The Committed Fund Balance allows the City to respond to unplanned circumstances and maintain adequate working capital to meet its cash flow needs.

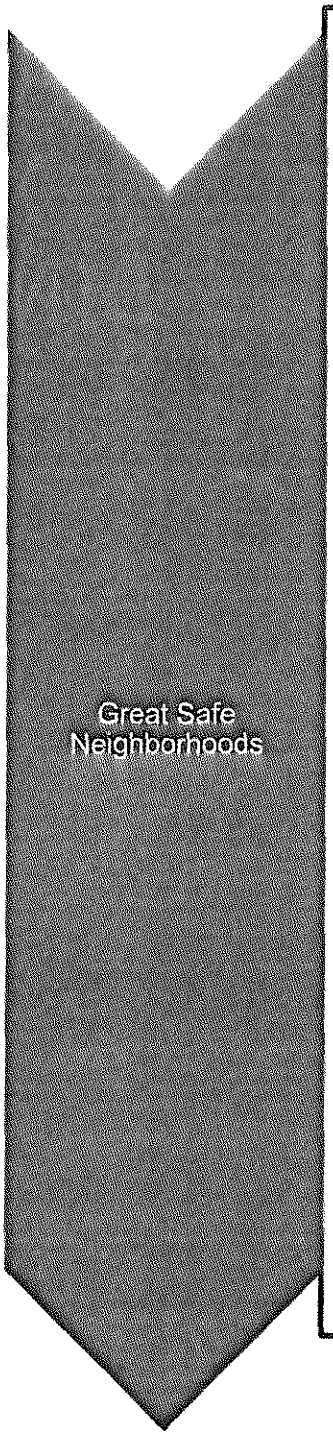
The City's long-term maintenance of a stable fund balance is a direct reflection of the Mayor and Council's leadership and prudent fiscal management.

SIGNIFICANT EVENTS and ACCOMPLISHMENTS

Local Initiatives and Accomplishments



- American Planning Association award for the City's Downtown Form Based Code
- Food Network star and celebrity chef Guy Fieri visits three Modesto locations for an episode of "Diners, Drive-Ins and Dives" including the Food Fix Truck (Chef Hank Olson), Bauer's 66 ½ Skillet & Grill, and Commonwealth Gastropub
- The Turlock/Modesto Branch of the American Association of University Women recognized the Docent Council for the McHenry Mansion for their outstanding work in preserving Modesto's heritage and presenting it to the community
- Noted by Streetsblog.org as a progressive bicycle friendly city that has been applying complete street principles on its roads
- Installation of 10th Street Improvements/Art Block Project
- Downtown Revitalization - Formation of the Downtown Community Benefit District
- Over 37,000 visitors attended Modesto On Ice skating rink
- Over 150,000 participants were served through Modesto's recreation and neighborhood programming
- More than 26,000 participants were served through the Modesto Senior Citizen Center's health and wellness programming as well as over 5,000 others who enjoyed free services such as meals, tax-preparation and special events
- Staff coordinated 1,567 volunteers to complete 11,200 hours of community service at a value of $307,645 to the City of Modesto



- Increased Neighborhood Watch Groups by 5%
- Increased Crime Free Multi-Housing properties by 10% along with the number of properties inspected
- Ranked 1st in California and 5th in the nation for areas with a population of 100,000 to 299,000 for participation in National Night Out with a total of 174 parties hosted in 2016
- Modesto Police Department (MPD) hosted 4 Town Hall Meetings, one for each area command as well as multiple Coffee with Cops events throughout the City
- Received a $50,000 grant to implement a field situational awareness technology platform to enable MFD and shared resource partners to aid in comprehensive resource allocation/tracking on multi-jurisdictional incidents
- Hired 8 new firefighter paramedics to further help Modesto Fire Department (MFD) in provide the most effective and efficient advanced life support to the community
- The Public Education Clown Program was expanded to two-weeks and reached 5,000 elementary students with important and fun fire and life safety information
- Taught hands-only CPR to 2,000 junior high school students in partnership with Modesto City Schools
- Placed two new Engines and one new Brush apparatus into service
- Expended $415,000 in one-time enhancement funds to aid in the deferred maintenance of our 11 fire stations
- Reoped Splash playgrounds during the hottest summer months
- Stanislaus County is ranked number 30 out of 3111 counties in the United States for "Natural aspects of attractiveness" according to the USDA
- Named a Tree City USA for 35 Years by the Arbor Day Foundation
- 2016 Outstanding Planning Award for Downtown Form-Based Zoning Code by APA California Central Section
- Tower Park Completed - a 50-unit affordable housing project restricted to seniors 55 years and over, earning 30% - 60% of the area median income
- "Tag We're On It" Program for Tagging Abatement Implemented
- Constructed a Class IV bicycle facility connecting Modesto Junior College East and West campuses. This project was featured on the cover of a brochure prepared by the California Bicycle Coalition
- The McHenry Mansion Docents funded an exhibit of clothing and accessories in the closet of Oramil McHenry's bedroom. Much of the clothing was purchased by the Mansion's Acquisitions Committee and covers the 1896-1906 period
- Recreation staff provided safe and educational after-school programing to an average of 1,100 students per day!
- 1,097 youth took swim lessons this year and another 4,085 swimmers took advantage of our public recreational swim program

Vibrant Infrastructure & Sustainable Environment

- Partnered with the McHenry Mansion Foundation on a Parks Project to install synthetic grass on the heavily shaded garden side of the Modesto Mansion. The turf is better suited to sustain high traffic and saves water
- The City has recently completed the Phase 2 BNR/Tertiary Treatment Facilities, which was built to produced recycled water to meet more stringent discharge requirements
- The City is now partnering with a local irrigation district interested in purchasing recycled water from the City, as part of the North Valley Regional Recycled Water Program. Construction is expected to be complete by December 2017
- Construction of the 6 million gallon North Tank is nearly completion. This will be the largest tank in the City's water system
- Construction started on the Tuolumne River Regional Park (TRRP) Gateway Parcel Phase 2 project which will complete the habitat restoration along the Tuolumne River at the Gateway Parcel and will add to the current trail system in TRRP

Effective Responsive & Transparent Government

- Provided staff support to the Mayor's 100 Day Review Committee as they examined City process for efficiencies and cost-saving reductions
- Prepared Action Plans to achieve recommendations from the Mayor's 100 Day Review Committee and updated the 2015-2018 Strategic Plan
- Launched the GoModesto mobile application in May 2016 with approximately 2,700 downloads and over 2,300 service request commmunications from users
- Redesigned the City's website with a July 2016 launch date
- Began implementation of a new budgeting software system which will allow the City to link its budget to performance metrics
- Began a reengineering of the City's purchasing processes in order to improve process flow and maximize efficiencies
- Prepared the City's first Popular Annual Financial Report and received a Certificate of Achievement for it from the Government Finance Officer's Association
- Selected to participate in Bloombergs' *What Works Cities Program* to improve the City's Open Data platform and enhance Performance and Analytics delivery to its citizens
- Ranked first in California and seventh nationwide in the Center for Digital Government's Digital Cities Award

Awards and Acknowledgments

The Government Finance Officers Association of the United States and Canada (GFOA) awarded a Certificate of Achievement for Excellence in Financial Reporting to the City of Modesto for its comprehensive annual financial report for the fiscal year ended June 30, 2015. This was the 32nd consecutive year that the government has achieved this prestigious award. In order to be awarded a Certificate of Achievement, a government must publish an easily readable and efficiently organized comprehensive annual financial report. This report must satisfy both generally accepted accounting principles and applicable legal requirements.

A Certificate of Achievement is valid for a period of one year only. We believe that our current comprehensive annual financial report continues to meet the Certificate of Achievement Program's requirements and we are submitting it to the GFOA to determine its eligibility for another certificate.

The Comprehensive Annual Financial Report (CAFR) is the result of the cooperative work of many people. We wish to convey our appreciation to all of the City departments and members of the Finance Department team who prepared and contributed to its successful completion. Without their hard work, this report would not be possible.

In addition, the City submitted and received award from the GFOA for its first ever Popular Annual Financial Report (PAFR) for fiscal year ended June 30, 2015. A PAFR presents financial information in a manner that appeals to the reader, is understandable and shows creativity and usefulness. The PAFR award is valid for one year and the City intends to again submit it 2016 PAFR to the GFOA for consideration.

Finally, we would like to express our appreciation to the City Council, City employees, and community for their leadership and support. We look forward to the next year's challenges and opportunities.

Respectfully submitted,

James N. Holgersson

Independent Auditor's Report

City Council of the City of Modesto
Modesto, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Modesto, California (City), as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of June 30, 2016, and the respective changes in financial position, and, where applicable, cash flows thereof for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, schedule of changes in the net pension liability and related ratios, schedule of plan contributions, schedule of funding progress for OPEB, schedule of revenues – budget (GAAP basis) and actual – General Fund, schedule of expenditures by function – budget (GAAP basis) and actual – General Fund, and schedule of revenues, expenditures, and changes in fund balance – budget (GAAP basis) and actual – Housing and Community Development special revenue fund, as listed in the accompanying table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City's basic financial statements. The introductory section, the combining and individual fund statements and schedules, the statistical section, and the continuing disclosure section are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual fund statements and schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual fund statements and schedules are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

The introductory, statistical, and continuing disclosure sections have not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on them.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated December 15, 2016 on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance.

Macias Gini & O'Connell LLP

Walnut Creek, California
December 15, 2016

Management's Discussion and Analysis

This section of the City of Modesto (City) comprehensive annual financial report presents a discussion and analysis of the City's financial performance during the fiscal year ended June 30, 2016. Please read it in conjunction with the transmittal letter at the front of this report and the basic financial statements following this section.

FINANCIAL HIGHLIGHTS

- The assets of the City exceeded liabilities at the close of the 2016 fiscal year by $978,430,122 (*total net position)*. Of this amount, $137,672,402 is restricted for a specific purpose (*restricted net position*), $921,708,464 is invested in capital assets, net of related debt and ($80,950,744) is unrestricted (*unrestricted net position)*.
- The City's total net position increased by $10,892,198 compared to the prior year. This increase is attributed to additions made to the City's infrastructure and improvements.
- As of June 30, 2016, the City's governmental funds reported combined fund balances of $117,053,754, an increase of $1,406,154 in comparison with the prior year. This increase is attributed to the beginning fund balance restated by $993,395 due to adjustments related to prior year. The current year change based on fiscal year 2015-16 activity resulted in an increase in fund balance of $412,759.
- Approximately 47.3% of the General fund balance of $12,822,134 is available to meet the City's current and future needs (*General Fund unassigned fund balance).*
- At the end of the fiscal year, the General Fund balance was $27,065,721 or 24.5% of total General Fund expenditures. Of this, $2,092,126 is the restricted fund balances. The unassigned fund balance of $12,822,134 represents 11.0% of total General Fund outflows. The City Council has adopted a goal of maintaining an 8% unassigned fund balance amount based on General Fund outflows.
- The City's total long-term liabilities showed a net decrease of $3,552,947 in comparison with the prior year. This decrease was attributed to the principal payments made during the fiscal year and the refunding of the Wastewater Revenue Bonds Series 2005 A and partially refund for the 2006A bonds.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis are intended to serve as an introduction to the City's basic financial statements. The City's basic financial statements comprise three components 1) **Government-wide** financial statements; 2) **Fund** financial statements and 3) **Notes** to basic financial statements. Required Supplementary Information is included in addition to the basic financial statements.

Government-wide Financial Statements are designed to provide readers with a broad overview of City finances, in a manner similar to a private-sector business.

The *statement of net position* presents information on all City assets and liabilities, deferred outflows of resources and deferred inflow of resources, with the difference between the two reported as *net position.* Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the City is improving or deteriorating.

The *statement of activities* presents information showing how net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash flows in future fiscal periods (e.g., uncollected taxes and earned but unused vacation leave).

Both of these government-wide financial statements distinguish functions of the City that are principally supported by taxes and intergovernmental revenues (*governmental activities)* from other functions that are intended to recover all or a portion of their costs through user fees and charges (*business-type activities).* The governmental activities of the City include general government, community development, highways and streets, public works, parks and recreation, and public safety. The business-type activities of the City include the Water, Sewer, Parking, Storm Drain, Compost, Airport, Bus, Golf, Community Center and Abatement and Public Nuisance operations.

Component units are included in our basic financial statements and consist of legally separate entities for which the City is financially accountable and that have substantially the same board as the City Council, or provide services entirely to the City or the City has operational responsibility for the entities. Examples are the Community Facilities Districts, Redevelopment Successor Agency of the City of Modesto and the Modesto Public Financing Authority.

The government-wide financial statements can be found on pages 19-21 of this report.

Fund Financial Statements are groupings of related accounts that are used to maintain control over resources that have been segregated for specific activities or objectives. The City, like other state and local governments, uses fund accounting to ensure and demonstrate finance-related legal compliance. All of the funds of the City can be divided into three categories: *governmental funds, proprietary funds* and *fiduciary funds*.

Governmental funds are used to account for essentially the same functions reported as *governmental activities* in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on *near-term inflows* and *outflows of spendable resources,* as well as on *balances of spendable resources* available at the end of the fiscal year. Such information may be useful in evaluating the City's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for *governmental funds* with similar information presented for *governmental activities* in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between *governmental funds* and *governmental activities.*

The City reports 16 individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures and changes in fund balances for the General Fund and Housing and Community Development Fund. Data from the other governmental funds are combined into a single, aggregated presentation. Individual fund data for each of these nonmajor governmental funds is provided in the form of *combining statements* elsewhere in this report.

The governmental funds financial statements can be found on pages 22-25 of this report

Proprietary funds are maintained two ways. *Enterprise funds* are used to report the same functions presented as *business-type activities* in the government-wide financial statements. The City uses enterprise funds to account for its Water, Sewer, Parking, Storm Drain, Compost, Airport, Bus, Golf, Community Center and Abatement and Public Nuisance operations. *Internal service funds* are an accounting device used to accumulate and allocate costs internally among the City's various functions. The City uses internal service funds to account for its Fleet Management, Central Services, Information and Technology Services, Insurance, Employee Benefits Management and Building Services functions. Because these services predominantly benefit governmental rather than business-type functions, they have been included within *governmental activities* in the government-wide financial statements with the exception of portions of the net OPEB obligation and compensated absences that have been included within business-type activities. The rest of internal services benefiting business-type functions have been allocated as "internal balances".

Proprietary funds provide the same type of information as the government-wide financial statements, only in more detail. The Water, Sewer and Bus funds are considered to be major funds of the City. The City's six internal service funds are combined into a single, aggregated presentation in the proprietary funds financial statements. Individual fund data for the internal service funds is provided in the form of *combining statements* elsewhere in this report.

The proprietary funds financial statements can be found on pages 26-29 of this report.

Fiduciary funds are used to account for resources held for the benefit of parties outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the City's own programs. The accounting used for fiduciary funds is much like that used for proprietary funds except for agency funds.

The fiduciary fund financial statements can be found on page 30-31 of this report.

Notes to Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes can be found on **pages 32-74** of this report.

Required Supplementary Information is also presented. The City adopts an annual appropriated budget. Budgetary comparison schedules for the major governmental funds have been provided to demonstrate compliance with this budget. This section also includes the schedules for net pension liability and OPEB.

Required supplementary information can be found on pages 77-85 of this report.

The *combining and individual fund statements and schedules* referred to earlier provide information for nonmajor governmental, enterprise and internal service funds and are presented immediately following the required supplementary information. Combining and individual fund statements and schedules can be found on **pages 90-123** of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the City, assets exceeded liabilities by $978,430,122 at the close of the most recent fiscal year.

Net Position

	Governmental activities		Business-type activities		Total	
	2016	2015	2016	2015	2016	2015
Current and other assets	$242,284,397	$248,979,362	$243,332,330	$257,455,772	$485,616,727	$506,435,134
Capital assets	421,005,457	418,803,027	854,078,506	841,130,531	1,275,083,963	1,259,933,558
Total assets	663,289,854	667,782,389	1,097,410,836	1,098,586,303	1,760,700,690	1,766,368,692
Deferred outflows of resources	29,527,963	23,792,551	49,190,388	40,254,775	78,718,351	64,047,326
Current and other liabilities	260,520,365	241,951,212	144,402,121	134,841,204	404,922,486	$376,792,416
Long-term liabilities	90,656,679	91,288,243	343,719,665	346,641,048	434,376,344	437,929,291
Total liabilities	351,177,044	333,239,455	488,121,786	481,482,252	839,298,830	814,721,707
Deferred inflows of resources	17,408,971	38,654,888	4,281,118	9,501,499	21,690,089	48,156,387
Net position:						
Net investment in capital assets	381,887,289	378,145,625	539,821,175	527,784,338	921,708,464	905,929,963
Restricted net position	115,619,807	121,105,182	22,052,595	20,622,619	137,672,402	141,727,801
Unrestricted net position	(173,275,294)	(179,570,210)	92,324,550	99,450,370	(80,950,744)	(80,119,840)
Total net position	$324,231,802	$319,680,597	$654,198,320	$647,857,327	$978,430,122	$967,537,924

The largest portion of the City's net position, $921,708,464 (94.2 percent), reflects its investment in capital assets (e.g. land, water rights, buildings, improvements, furnishings and equipment, buses and fare boxes, pipelines, and infrastructure), less any related debt used to acquire those assets that are still outstanding. The City uses these capital assets to provide services to citizens; consequently, these assets are *not* available for

future spending. Although the City's investment in its capital assets is reported net of debt and related deferred outflows and inflows, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

Another significant portion of the City's net position represents *unrestricted net position* of ($80,950,744) (-8.3 percent).

The remaining balance of the City's net position of $137,672,402 (14.1 percent) represents resources that are subject to external restrictions on how they may be used.

The City's net position increased by $10,892,198 during the current fiscal year was largely due to the additions associated with the City's infrastructure and reduction on the City's long-term liabilities.

The long-term liabilities decrease was attributed to the principal payments of about $7.3 million made during the fiscal year and the refunding of the Wastewater Revenue Bonds Series 2005 A and partially refund for the 2006A bonds.

The following table indicates the changes in net position for governmental and business-type activities, as well as comparative data for the prior year:

Changes in Net Position

	Governmental activities		Business-type activities		Total	
	2016	2015	2016	2015	2016	2015
Revenues:						
Program revenues:

Governmental activities. Governmental activities increased the City's net position by $4,551,205. This increase was mainly due to an increase in the governmental capital assets and the reduction in long-term liabilities associated with our revenue bonds, loans payable and capital leases. Taxes continue to increase slightly by $2.3 million compared to 2015 due to a continuous improvement in the economy. Charges for service revenues increased by $1.5 million mainly due to on-going efforts to promote the City of Modesto programs. Operating and capital grants contributions decreased due to several construction projects being completed in 2015. Intergovernmental revenue decreased due to a majority of the construction cost for the Pelandale Interchange project occurring in 2015.

Expenses in total were lower compared to the prior year by $300,087, or -0.2%, due mainly to continuous efforts to reduce departmental operational cost from position savings. Additionally, the volume of grant expense activity was significantly less compared to the prior year due to projects being completed.

Business-type activities. Business-type activities increased the City's net position by $6,340,993. This increase is attributed to a healthy net position in our Sewer Fund which generated an increase in net position by $19.2 million and increase in our business-type capital assets. The Sewer fund has been able to manage their operational revenues due to rate increases to ensure they meet the debt ratio requirements set by Council. The capital contributions decreased significantly due to major bus purchases made in 2015.

In the Water Fund, the net position decreased due to a restatement in net position for a correction in capitalized interest from the prior year. The other Enterprise funds had a decrease in net position due to accounting for a pollution remediation liability of $2.6 million associated with the Carpenter Road Landfill.

FINANCIAL ANALYSIS OF THE CITY'S FUNDS

As noted earlier, the City uses ***fund accounting*** to ensure and demonstrate compliance with finance-related legal requirements.

Governmental funds. The general government functions are contained in the general, special revenue, capital projects, and debt service funds. The focus of the City's *governmental funds* is to provide information on near-term inflows, outflows, and balances of *spendable* resources. Such information is useful in assessing the City's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of a government's net resources available for spending at the end of the fiscal year.

At June 30, 2016, the City's governmental funds reported combined fund balances of $117,053,754 an increase of $1,406,154 from the prior year. This increase is attributed to the beginning fund balance restated by $993,395 due to adjustments related to prior year. The current year change resulted in an increase in fund balance of $412,759. The total unassigned fund balance for the governmental funds was $12,097,293, which includes a positive $12,822,134, which represents the General Fund unassigned fund balance that is available to meet the City's current and future needs. The remainder of fund balance is *nonspendable, restricted, committed and assigned* to indicate that it is *not* available for new spending because certain constraints have been placed on the use of the balances.

The General Fund is the chief operating fund of the City. At June 30, 2016, unassigned fund balance of the General Fund was $12,822,134 while total fund balance was $27,065,721. As a measure of the General Fund's liquidity, it may be useful to compare both unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 11.6% of total General Fund expenditures, while total fund balance represents 24.5% of that same amount. The prior year ratios were 13.6% and 23.2%, respectively.

The Housing and Community Development fund accounts for the grants and funds received to disburse for projects developed and administered under the Housing and Community Development Act. At June 30, 2016, total fund balance was $25,533,233, an increase of $3,480,806 from prior year. This increase is attributed to new program income received to fund future low income project activity.

Revenues of governmental funds totaled $159,658,987 in fiscal year 2015-16, which represents a decrease of $10,871,571 from fiscal year 2014-15.

Expenditures of governmental funds totaled $156,071,836 in fiscal year 2015-16, representing a decrease of $6,570,638 from fiscal year 2014-15.

The following table presents governmental fund revenues from various sources, with comparisons to the prior year:

Revenues Classified by Source – Governmental Funds

	FY 2016		FY 2015		Increase (Decrease)	
Revenues by Source	Amount	Percent	Amount	Percent	Amount	% Change
Taxes	$54,965,459	34.3%	$52,619,101	30.8%	$2,346,358	4.5%
Licenses and permits	186,624	0.1%	149,888	0.1%	36,736	24.5%
Intergovernmental	76,317,229	47.8%	88,906,770	52.1%	(12,589,541)	-14.2%
Charges for services	20,429,860	12.8%	22,337,357	13.1%	(1,907,497)	-8.5%
Special assessments	3,168,260	2.0%	1,924,623	1.1%	1,243,637	64.6%
Interest and rent	1,297,734	0.8%	957,846	0.6%	339,888	35.5%
Net increase (decrease) in fair value	102,422	0.1%	(320,398)	-0.2%	422,820	-132.0%
Fines and forfeits	904,802	0.6%	1,171,076	0.7%	(266,274)	-22.7%
Miscellaneous	2,286,597	1.5%	2,784,295	1.7%	(497,698)	-17.9%
Total	$159,658,987	100.0%	$170,530,558	100.0%	($10,871,571)	-6.4%

- Taxes – Revenues for property and business license taxes came in higher than the prior year due to an ongoing positive upturn in the economy and increased collection and compliance efforts by City staff.
- Intergovernmental – Revenues decreased by $12.6 million due to a majority of the construction cost for the Pelandale Interchange project occurring in 2015.
- Special Assessments – Revenues increased by $1.2 million due to increases to the assessed values for property values.
- Interest and rent – Revenues increased due to increases to our interest earnings based on improvements to our return on investment in the City's portfolio.

The following table presents expenditures by function compared to prior year amounts.

Expenditures by Function – Governmental Funds

	FY 2016		FY 2015		Increase (Decrease)	
Exp by Function	Amount	Percent	Amount	Percent	Amount	% Change
General government	$12,414,982	8.0%	$11,334,202	7.0%	$1,080,780	9.5%
Community development	12,453,678	8.0%	11,511,154	7.1%	942,524	8.2%
Highways and streets	8,498,783	5.4%	9,672,790	5.9%	(1,174,007)	-12.1%
Public works	10,393,169	6.7%	9,228,780	5.7%	1,164,389	12.6%
Parks and recreation	3,385,484	2.2%	4,212,301	2.6%	(826,817)	-19.6%
Public safety	84,022,670	53.8%	81,353,131	50.0%	2,669,539	3.3%
Capital outlay	19,817,025	12.7%	30,339,677	18.6%	(10,522,652)	-34.7%
Debt Service-principal retirement	2,345,362	1.5%	1,789,335	1.1%	556,027	31.1%
Debt Service-interest charges	2,043,278	1.3%	2,417,840	1.5%	(374,562)	-15.5%
Debt Service-other	697,405	0.4%	783,264	0.5%	(85,859)	-11.0%
Total	$156,071,836	100.0%	$162,642,474	100.0%	($6,570,638)	-4.0%

The following provides an explanation of the expenditures by function that changed significantly over the prior year:

- Public Works – Expenditures increased by $1,164,389 or 12.6% due to increase cost associated with parks maintenance and restructuring of a Public Work administration division.

- Parks and recreation – Expenditures decreased by $826,817 or 19.6% over the prior year, due to the position vacancy savings and re-organizational structure changes from various public buildings such as McHenry Museum and Mansion moving to Community Development.

- Public safety –Expenditures increased by $2,669,539 or 3.3% over the prior year, due to an increase of expenses for police services. These increases were attributed to continuous increases to workers' compensation cost for police, information technology and police equipment and salary and benefit increase for the police department.

- Capital outlay –Expenditures decreased by $10,522,652 or 34.7% reflects a majority of the construction cost associated with the new Pelandale Interchange project occurring in FY 2014-15.

Other financing sources and uses are presented below to illustrate changes from the prior year:

			Increase/(Decrease)	
	FY 2016	FY 2015	Amount	Percent
Transfers in	$6,960,425	$8,157,278	($1,196,853)	-14.7%
Transfers out	(10,572,346)	(10,682,539)	110,193	-1.0%
Capital leases	330,947	1,070,472	(739,525)	-69%
Sale of assets	106,582	94,489	12,093	100.0%
Net financing (uses)	($3,174,392)	($1,360,300)	($1,814,092)	133.4%

Transfers - The City uses interfund transfers to: (1) move resources from a fund to other funds that will utilize them in accordance with statutory and budgetary requirements, (2) utilize unrestricted resources collected in the General Fund to help finance various programs and capital projects accounted for in other funds in accordance with budgetary authorization, and (3) move cash to pay debt service to the funds that are responsible for payment as those payments become due.

- The net transfers in/out *from* governmental funds for 2016 were $(3,611,921) compared to $(2,525,261) in the prior year. This net transfer is *to* various City funds including transferring funds from the General Fund, Capital Facility Fee funds and the Public Financing Authority to cover the debt service payments and various transfers to cover City grant matches.

Debt transactions – A lease was issued in 2016 for the acquisition of one Pierce 4X4 Freightliner Wildland pumper in the amount of $330,947 under a capital lease agreement.

The fund balance of the City's General Fund increased by $2,246,221 during the fiscal year. This result is consistent with the City Council's budgetary direction to reduce spending and identify additional revenue sources that would allow the General Fund to retain an unrestricted reserve that meets the City Council's adopted 8% unassigned fund balance amount based on General Fund outflows.

Proprietary funds. The City's proprietary fund disclosures provide the same type of information found in the government-wide financial statements, but in more detail.

The following table shows actual revenues, expenses and results of operations of enterprise funds for the current fiscal year:

	Major Funds			Nonmajor Funds	
	Water	Sewer	Bus	Other	Total
Operating revenues	$55,094,860	$46,304,239	$3,352,615	$17,777,914	$122,529,628
Operating expenses	(54,401,134)	(31,513,657)	(19,170,860)	(25,383,773)	(130,469,424)
Operating income (loss)	693,726	14,790,582	(15,818,245)	(7,605,859)	(7,939,796)
Nonoperating revenues (expenses), net	(1,302,864)	2,511,696	12,896,349	1,408,837	15,514,018
Income (loss) before capital contributions and transfers	(609,138)	17,302,278	(2,921,896)	(6,197,022)	7,574,222
Contributions and transfers	(528,114)	1,850,232	69,231	3,929,051	5,320,400
Changes in net position	($1,137,252)	$19,152,510	($2,852,665)	($2,267,971)	$12,894,622

The Water fund did not have a CPI increase and the Sewer fund had a rate increase of 3.1% in fiscal year 2015-16. The Water fund continues to have a decline in revenue due to the drought conservation efforts in California. With the water drought, if metered rates drop, there will be a corresponding drop in sewer revenues from the City's commercial and industrial customers as part of the metered water consumed but due to the Sewer rate increases the revenues were higher by $1,067,348.

A pollution remediation liability was reported for the Water and Sewer fund in the amounts of $8,998,408 and $10,210,999 based on net recoveries the City has received from various settlements. Additional information regarding these liabilities can be found under Note II-M.

GENERAL FUND BUDGETARY HIGHLIGHTS

Budget to actual information for the General Fund is presented as Required Supplementary Information, beginning on **page 81-82** of this report.

While the City Council amended the budget several times through the year, the differences between the original budget and the final amended budget for the General Fund were increased overall mainly due to an increase in taxes, intergovernmental revenue, and miscellaneous revenue. The estimated revenues increased about $1,245,214 while total appropriations were increased $3,202,172. These amendments were to adjust the actual beginning balances and carryovers after closing the prior fiscal year, and to reflect adjustments to current estimates based on the periodic monitoring of revenue and expenditures throughout the year.

Revenues came in $3,952,062 more than final estimates. Variances in Business Taxes $688,291, Franchise Taxes $986,658, In-lieu sales taxes $1,638,425, Other Intergovernmental $1,023,276, and Miscellaneous Revenue $988,936 were due to an increase in collection and compliance efforts and the insurance and recovery reimbursements.

Expenditures, overall, were $6,180,201 under budget, primarily due to efforts of departments to realize savings, and certain purchases being deferred to future periods.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital assets

The City's investment in capital assets for its governmental and business-type activities as of June 30, 2016, amounted to $1,275,083,963 (net of accumulated depreciation). The total increase in the City's investment in capital assets compared to 2015 was 1.0%.

Capital assets net of depreciation, for the governmental and business-type activities are presented below to illustrate changes from the prior year.

	Governmental		Business-type		Total		Increase (decrease) Percent	
	2016	2015	2016	2015	2016	2015	Change	$ Change
Land	$33,219,069	$33,123,493	$33,515,655	$31,102,451	$66,734,724	$64,225,944	4%	$2,508,780

Major capital asset events during the current fiscal year included the following:

- Infrastructure – Some major construction projects were completed related to the LED street light upgrade, road improvements, and Carpenter Road bridge improvements.
- Buses and fareboxes - New bus enhancements to existing buses were made in fiscal year 2015-16.
- Construction in progress – New water construction projects related to improvements to our waters system were made in fiscal year 2015-16.

The City's infrastructure assets are recorded at historical cost in the government-wide financial statements. Depreciation expense is recorded using the straight-line method, based on estimated useful life of the asset. Additional information on the City's capital assets can be found in note II-B on pages **45-46** of this report.

The City had major capital commitments for contracts awarded for various construction projects. As of June 30, 2016, there were major contracts awarded for water, sewer system improvements, enhancements to bus and vehicle purchases, the Pelandale interchange reconstruction, and major street and street lighting improvements throughout the City in the amount of $12.4 million for governmental funds. Additional information on the City's commitments can be found in note III-D on page **63** of this report.

Long-term debt

At June 30, 2016, the City had total long-term liabilities outstanding of $434,376,344 net of unamortized discounts and premiums, as compared to $437,929,291in the prior year. This amount was comprised of $56,305,000 of lease revenue bonds, $48,330,053 of certificates of participation, $33,945,516 of revenue bonds payable, $132,375,084 of reimbursement agreement related to Modesto Irrigation District bonds, $8,789,950 of estimated compensated absences, $23,596,531 of claims liability, $126,285,704 of loans payable, $1,238,449 of developer advances, $942,057 of capital leases, and $2,568,000 of notes payable.

Overall, the long-term debt decreased was mainly due to the principal payments made during the fiscal year and the refunding of the Wastewater Revenue Bonds Series 2005 A and partially refund for the 2006A bonds. Additional information on the City's long-term debt can be found in Note II-C on pages **47-56** of this report.

The City maintains a current bond rating for the various bonds listed below.

BONDS	Moody's Rating	S & P Rating	Fitch Rating
1993 Golf Certificates of Participation		AA-	
Wastewater Revenue Bonds, Series 2006A	A2	AA	AA-
2008 Lease Revenue Bonds		A/A-1	A+
2008 Water Certificates of Participation	Aa1	AA+/A-1	

Modesto maintains an Employee Benefits internal service fund (EBF) to pay a portion of retiree health benefits and other employee related expenses. As of June 30, 2016, the net OPEB obligation amounts to approximately $56.2 million. This contributes significantly to the Employee Benefit Fund's $55.1 million deficit net position. Additional information on the City's EBF can be found in Notes II-H, III-F and III-G.

Economic Factors and Next Year's Budget and Rates

- *Consumer Price Index* – Growth in the CPI has been relatively stable during the past ten years and serves as a measure for the growth in the cost for supplies and services used by the City. In the fiscal year ended June 30, 2016, the CPI-Western Urban Index increased by 1.7%.

- *Utility Service Charges* - Water and Sewer utility rates have a 25.0% and 6.0% scheduled rate increase for fiscal year 2016-17. For the Water and Sewer utility rates, these planned rate increases was effective on July 1, 2016. These rate increases will be used to assist with maintaining the debt coverage ratio requirements and related capital improvements for the utility funds.

All of these factors were considered in preparing the City's budget for fiscal year 2016-17.

During the current fiscal year, fund balance in the General Fund increased by $2,246,221, to $27,065,721, which represents 23.2% of total General Fund outflows which exceeds the City Council's target value of 8% unassigned fund balance amount based on General Fund outflows. The budget adopted for fiscal year 2016-17 reflects a planned reduction in the reserve level on a temporary basis, from 8% to a flat reserve amount of $7 million. This amount is reported as part of the unassigned fund balance.

Requests for Information

This financial report is designed to provide a general overview of the City's finances for all those with an interest in the City's financial condition. Questions concerning any of the information provided in this report and requests for additional financial information should be addressed to the City of Modesto, Attention: Finance Department, P.O. Box 642, Modesto, CA 95353.

CITY OF MODESTO
RECONCILIATION OF THE STATEMENT OF REVENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOVERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES -GOVERNMENTAL ACTIVITIES
FISCAL YEAR ENDED JUNE 30, 2016

Net change in fund balances - total governmental funds		$ 412,759
Amounts reported for governmental activities in the statement of activities are different because:		
Governmental funds report capital outlay as expenditures. However, in the statement of activities the cost of those assets is allocated over their estimated useful lives and reported as depreciation expense.		
Capital outlay	$ 19,817,025	
Depreciation expense	(17,843,971)	1,973,054
In the statement of activities, only the gain or loss on the sales of capital assets is reported, whereas in the governmental funds, the proceeds from such sales increase financial resources. Thus, the change in net position differs from the change in fund balances by the cost of the assets sold.		47,517
Revenues in the statement of activities that do not provide current financial resources are not reported as revenues in the funds.		
Change in unearned revenues	$ (5,340,472)	
Change in investments in joint ventures	(1,512,336)	(6,852,808)
Recognition of Successor Agency annual payment for their Reimbursement Agreement receivable associated with long-term debt.		(482,850)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt consumes the current financial resources of governmental funds. Neither transaction, however, has any effect on net position.		
Principal retirement	$ 2,345,362	
Proceeds of long-term debt	(330,947)	2,014,415
Some expenses reported in the statement of activities require the use of current financial resources and therefore are not reported as expenditures in governmental funds.		
Change in accrued interest	$ 48,789	
Pension expense associated with net pension liability	4,190,263	4,239,052
Revenues in the governmental funds provide current financial resources which are not reported as revenue with the governmental activities.		
Principal income associated with housing loans		325,569
Internal service funds are used by management to charge the costs of certain activities to individual funds. The net revenue (expense) of internal service funds is reported with governmental activities.		1,624,533
Change in net position of governmental activities		$ 3,301,241

The notes to basic financial statements are an integral part of this statement.

CITY OF MODESTO
NOTES TO BASIC FINANCIAL STATEMENTS
FISCAL YEAR ENDED JUNE 30, 2016

I. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. THE FINANCIAL REPORTING ENTITY

The City of Modesto (the City) was incorporated in 1884 and operates under a Council-Manager form of government as authorized by its charter adopted in 1951. The City Council consists of seven elected members. The following services are provided by the City to its citizens: public safety (fire and police), highways and streets, drinking water, wastewater collection and treatment, storm drainage, public transit, recreation, public improvements, community development, planning and zoning, and general administrative services.

These financial statements present the financial status of the City and its component units. The component units discussed in the following paragraphs are included in the City's reporting entity because the City is financially accountable for their operations.

1. The MPFA (Modesto Public Financing Authority) was established as a separate legal entity whose sole purpose is to provide financing for various City capital projects.

2. The City of Modesto has established several Community Facilities Districts to provide funding and reimbursement mechanisms for public facilities and services required by each District Specific Plan. These Districts are the vehicles used to ensure that all landowners in the Districts contribute to the cost of public improvements. There are currently nine active Districts, which are combined for presentation in these financial statements. Individual component unit financial statements are prepared for each District.

The Redevelopment Successor Agency (Successor Agency) operates under the auspices of a legislatively formed Oversight Board comprised of representatives of the local agencies that serve the development project area. The Oversight Board, in its fiduciary capacity, has authority over the operations and the timely dissolution of the former Redevelopment Agency (RDA). It is tasked with fulfilling the obligations of the former RDA, and is also responsible for revenue collection, maintaining necessary loan reserves and disposing of excess property. This agency is reported as a private-purpose trust fund based on the generally accepted accounting standards requirement.

Although these component units are legally separate from the City, they are reported on a blended basis as part of the primary government because their boards consist of all seven members of the City Council and operational responsibility. There is an operational responsibility for the City related to these component units and for the MPFA it provides services solely for the City. Component unit financial statements may be obtained from the City's Finance Department.

The joint ventures and jointly governed organizations described in Note III-E are not considered part of the reporting entity because the City is not financially accountable for their operations.

B. GOVERNMENT-WIDE AND FUND FINANCIAL STATEMENTS

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the non-fiduciary activities of the primary government and its component units. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment and 2) grants and contributions restricted to meeting the operational or capital requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported instead as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major individual enterprise funds are reported as separate columns in the fund financial statements.

C. BASIS OF PRESENTATION, BASIS OF ACCOUNTING, AND MEASUREMENT FOCUS

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting, as are the proprietary fund statements. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met. Agency funds have no measurement focus. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. For grant revenues, the City considers this type of revenue to be available if collected within 180 days. This revenue recognition generated a change in accounting principles which had an immaterial impact to the financial statements. Expenditures generally are recorded when a liability is incurred, as under accrual accounting. However, principal and interest, compensated absences, claims and judgement expenditures are recorded as fund liabilities when due or when amounts have been accumulated in the debt service funds for payments to be made early in the following year.

Substantially all property taxes, taxpayer-assessed taxes (such as sales and use, utility users, business license, transient occupancy, franchise fees, and gas taxes), interest, special assessments levied, state and federal grants, and charges for current services are all considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Revenues from licenses, permits, and fines and forfeits are considered to be measurable and available only when cash is received by the City.

The City reports the following major governmental funds:

The General Fund is the City's primary operating fund. It accounts for all financial resources of the general government, except those required to be accounted for in another fund.

The Housing and Community Development Fund accounts for various grant funds received from Federal Community Development Block grants to be used for a variety of housing related programs primarily targeted at low-income housing. Additionally, this fund accounts for the City's revolving fund, which provides housing loans to low-income individuals and accounts for emergency shelter grant revenue received from the Housing and Urban Development Department.

The City reports the following major proprietary funds:

The Water Fund accounts for all revenues collected by the City for the purpose of financing the construction, operation, and maintenance of the City water distribution system. Revenues are derived from water service charges and various installation fees.

The Sewer Fund accounts for revenues collected by the City for the purpose of financing the construction, operation, and maintenance of the City sewer system. Revenues include, but are not limited to, sewer service charges and sewer lateral charges.

The Bus Fund accounts for operations, maintenance, and capital expenditures of the City's mass transportation service. This system operates pursuant to the terms of a Federal grant agreement. Buses are operated by a private contractor under the terms of a supervisory agreement with the City. A separate contract provides Dial-a-Ride service for the elderly and handicapped.

Additionally, the City reports the following fund types:

Internal service funds account for fleet management, central services, information and technology services,

insurance, employee benefits management, and building services provided to other departments or agencies of the City on a cost-reimbursement basis.

Agency funds account for cash and investments held by the City as agent for various assessment districts, governmental entities and non-public organizations. Agency funds cannot be major funds.

Private-purpose Trust Fund accounts as the fiduciary fund type used by the City to report trust arrangements under which principal and income benefit other governments. The fund reports the assets, liabilities, and net position of the Successor Agency.

As a general rule, the effect of interfund activity has been eliminated from the government-wide financial statements. Exceptions to this general rule are exchange or exchange-like transactions between functions of the government. Eliminations of these charges would distort the direct costs and program revenues reported for the various functions concerned.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise and internal service funds are charges to customers for sales and services. The Water and Sewer Funds also recognize as operating revenue the portion of tap fees intended to recover the cost of connecting new customers to the systems. Operating expenses for enterprise and internal service funds include the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, then unrestricted resources as they are needed.

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period including the note disclosures. Actual results could differ from those estimates.

D. ASSETS, DEFERRED OUTFLOWS OF RESOURCES, LIABILITIES, DEFERRED INFLOWS OF RESOURCES, AND NET POSITION/FUND BALANCE

1. Cash and Cash Equivalents

Cash and investments (including restricted assets) held in the City's investment pool are reported as cash and cash equivalents on the statement of net position and balance sheet because funds can spend cash at any time without prior notice or penalty. All investments with fiscal agents are also considered cash equivalents because they are highly liquid and have maturities of 3 months or less at the time of purchase with the exception of the MID collateral agreement which has a maturity date based on the 18 year period of the interest swap agreement. Investments are stated at fair value. Valuations are obtained based on various levels identified further under Note II-A – Fair value measurements.

2. Restricted Assets - Cash and Cash Equivalents

Refundable deposits of the General Fund are classified as restricted assets – cash and cash equivalents on the governmental funds balance sheet because their use is restricted for repayment of those refundable deposits. Legal or contractual obligations associated with the nonmajor governmental funds have been reported as restricted assets due to the restrictions identified on the revenue sources generated from these funds. Refundable deposits in the Water and Sewer funds are also reported as restricted assets on the proprietary funds statement of net position. In addition, certain proceeds of Water certificates of participation and Sewer revenue bonds are considered restricted assets because their use is limited by applicable debt covenants. These proceeds are reported as part of "restricted assets – cash and cash equivalents" on the proprietary funds statement of net position. The Employee Benefits Management Fund collects funds which are restricted for future payouts for leave balances due to employees who terminate or retire from the City as well as any severance payouts. These assets are restricted due to management's designation of assets for future payments for

employee uses.

3. Receivables and Payables

Balances representing lending/borrowing transactions between funds outstanding at the end of the fiscal year are reported as either "due from/due to other funds" (amounts due within one year), or "advances to/from other funds" (non-current portions of interfund lending/borrowing transactions). Any residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances." Advances to other funds and prepaid items are offset by a nonspendable fund balance in applicable governmental funds to indicate they are not available for appropriation and are not expendable available financial resources to indicate that they are not in spendable form.

All property taxes are collected and allocated by the County of Stanislaus to the various taxing entities. Property taxes are determined annually as of March 1 and attach as an enforceable lien on real property as of January 1. Taxes are due November 1 and February 1 and are delinquent if not paid by December 10 and April 10, respectively. The City participates in the County "Teeter Plan" method of property tax distribution. Under the Teeter Plan, the County remits property taxes to the City based on assessments, not on collections, according to the following schedule: 55 percent in December, 40 percent in April, and 5 percent at the end of the fiscal year. Property taxes recognized in governmental funds when it is available and measurable. The City considers property tax as available if it is received within 60 days after year-end.

Revenue from taxpayer-assessed taxes (sales and use, business license, transient occupancy, utility users, gas, and franchise fees) are accrued in the governmental funds when they are both measurable and available. The City considers these revenues available if they are received during the period when settlement of prior fiscal year accounts payable occurs. Historically, the majority of these taxes are received within 60 days of the fiscal year end; therefore, revenue from taxpayer-assessed taxes is accrued if it is received by August 31.

Grant and entitlement revenues are recorded as receivables in the funds when they are susceptible to accrual (i.e., when all eligibility requirements have been met). The corresponding governmental fund revenues are recorded when they become available, with the differences recorded as deferred inflow of resources. The corresponding proprietary fund revenues are recorded as nonoperating revenues when the receivables are recorded. Some grant and entitlement revenues are not susceptible to accrual, in which case the corresponding revenues are recorded when received. The total amount due from governments for grants, entitlements, and shared receivables and revenues at June 30, 2016 is $19,135,005.

Utility service accounts receivable are $11,518,263 net of an allowance for doubtful collections of $852,386 and include unbilled receivables using actual amounts billed in July for June services for all City funds. City accounts receivable of $3,364,927 are reported net of an allowance for doubtful collections of $1,237,432, and are based on miscellaneous receivables from the City's invoice system as well as other receivables accrued at year-end.

4. Inventories and Prepaid Expenses/Expenditures

Inventories of material and supplies held by governmental and proprietary funds are stated at average cost. Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid expenses/expenditures.

5. Capital Assets

Capital assets, which include property, plant and equipment, intangible assets and infrastructure assets (e.g., streets, bridges, sidewalks, and similar items), are reported in the applicable governmental or business-type activities columns in the government-wide financial statements. Capital assets are defined by the government as assets with an initial, individual cost of more than $5,000 and an estimated useful life in excess of one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

In the case of the initial capitalization of infrastructure assets reported by governmental activities, the City chose to include them regardless of their acquisition date or amount. Historical values were estimated.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend assets

lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed. Interest incurred during the construction phase of capital assets of business-type activities and enterprise funds are included as part of the capitalized value of the assets constructed. The amount of interest capitalized is determined by offsetting interest expense incurred from the date of borrowing until completion of the project, against interest earned on invested proceeds of tax-exempted debt over the same period.

Depreciation is recorded using the straight line method over the estimated useful lives of the assets, which are 75 years for pipelines, 30 years for buildings, 20 years for improvements, 12 years for buses, 10 years for furnishings and equipment, 2 to 10 years for vehicles, 5 to 15 years for intangible assets, 30 to 50 years for streets, 20 years for signalization, and 50 years for bridges. Operating expenses include depreciation on all depreciable capital assets.

Capital leases are recorded as an asset and an obligation at an amount equal to the present value at the beginning of the lease term of minimum lease payments during the lease term.

6. Deferred Outflows and Inflows of Resources

The Governmental Accounting Standards Board (GASB) establishes criteria for recognizing deferred outflows and inflows of resources. A deferred outflow of resources is defined as a consumption of net position by the government that is applicable to a future reporting period. A deferred inflow of resources is defined as an acquisition of net position by the government that is applicable to a future reporting period. Refer to Note II. N for a detail listing of the deferred outflows and inflows of resources the City has recognized.

7. Compensated Absences

All earned vacation, holiday, and compensating time, and a portion of accumulated sick leave payable upon termination or retirement, are accrued in the Employee Benefits Management Internal Service Fund as compensated absences. Estimated sick leave termination payments have been calculated using the GASB Statement 16 vesting method. Under this method, a liability is accrued for a portion of the sick leave balances of all employees who are currently eligible, or are assumed to become eligible in the future, to receive a payment for sick leave upon termination. As of June 30, 2016, the total estimated liability for all compensated absences, including vacation and sick leave, is $8,789,950.

8. Fund Equity

In the fund financial statements, governmental funds report fund balance as nonspendable, restricted, committed, assigned or unassigned based primarily on the extent to which the City is bound to honor constraints on how specific amounts can be spent.

- *Nonspendable fund balance* – amounts that cannot be spent because they are either (a) not spendable in form or (b) legally or contractually required to be maintained intact.

- *Restricted fund balance* – amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments; or (b) imposed by law through constitutional provisions or enabling legislation.

- *Committed fund balance* – amounts that can only be used for specific purposes determined by formal action of the City's highest level of decision-making authority (City Council) and that remain binding unless removed in the same manner. The underlying action that imposed the limitation needs to occur no later than the close of the reporting period.

- *Assigned fund balance* – amounts that are constrained by the City's intent to be used for specific purposes. The intent can be established at either the highest level of decision making, which includes City Council or by an official designated such as the City Manager for such purpose.

- *Unassigned fund balance* – the residual classification for the City's General Fund that includes amounts not contained in other classifications. In other funds, the unassigned classification is used

only if expenditures incurred for specific purposes exceed the amounts restricted, committed or assigned to those purposes.

The City establishes and modifies or rescinds fund balance commitments by passage of an ordinance. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget as a commitment of the fund, such as approved construction contracts. Assigned fund balance is established by the City through adoption or amendment of the budget or future year budget plan as intended for a specific purpose.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, followed by the unrestricted committed, assigned, and unassigned resources as they are needed.

9. Fund Balance Policy

The City believes that sound financial management principles require that sufficient funds be retained by the City to provide a stable financial base at all times. To retain this stable financial base, the City needs to maintain unrestricted fund balance in its City funds sufficient to fund cash flows of the City and to provide financial reserves for unanticipated expenditures and/or revenue shortfalls of an emergency nature. Committed, assigned and unassigned fund balances are considered unrestricted.

The purpose of the City's fund balance policy is to maintain a prudent level of financial resources to protect against reducing service levels or raising taxes and fees because of temporary revenue shortfalls or unpredicted one-time expenditures.

The City has adopted a policy to achieve and maintain unrestricted fund balance in the General Fund of a flat $7 million for fiscal year 2015-2016.

E. OTHER SIGNIFICANT ACCOUNTING POLICIES

1. Employee Benefits

The City established the Employee Benefits Management Internal Service Fund to account for all compensated absences and non-insurance benefits. Insurance benefits for current employees are paid from the Insurance Internal Service Fund. The Employee Benefits Management Fund is reimbursed based on actual benefits paid and leave taken, through payroll charges to the City's operating funds. Leave earned but not taken is being funded over a reasonable period of time.

2. Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the California Public Employees' Retirement System (CalPERS) Safety (police and fire) and Miscellaneous (all other) Plans and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, the benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value. GASB 68 requires that the reported results must pertain to the liability and asset information within certain defined timeframes. For this report, the following:

Valuation Date: June 30, 2014
Measurement Date: June 30, 2015
Measurement Period: July 1, 2014 to June 30, 2015

3. Interfund Transactions

The City transfers resources among funds in the course of normal operations. Interfund services provided and used, such as equipment pool rental, are accounted for as revenues and expenditures or expenses. Transactions to reimburse a fund for expenditures/expenses initially made from it that are applicable to another fund are recorded as expenditures/expenses in the correct fund and as reductions of expenditures/expenses in the original fund. All other interfund transactions are reported as transfers.

F. NEW ACCOUNTING STANDARDS

During the fiscal year ended June 30, 2016, the City implemented the following GASB standards:

GASB Statement No. 72, Fair Value Measurement and Application. This statement is intended to improve accounting and financial reporting by enhancing the comparability of financial statements amount governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. The City implemented this change for the fiscal year ended June 30, 2016. Additional information is available under Note II-A.

GASB Statement No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and No. 68. This statement establishes requirements for those pensions and pension plans that are not administered through a trust meeting specified criteria and thus are not covered by Statements Nos. 67 and 68. This statement did not have any impact to the City's financial statements.

GASB Statement No. 76, The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments. This statement clarifies the hierarchy of generally accepted accounting principles (GAAP), and reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within the scope of authoritative GAAP. This statement did not have a significant impact to the City's financial statements.

GASB Statement No. 79, Certain External Investment Pools and Pool Participants. The statement addresses accounting and financial reporting for certain external investment pools and pool participants. The statement establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. It also establishes additional note disclosure requirements to include information about any limitations or restrictions on participant withdrawals. This statement did not have a significant impact to the City's financial statements.

The Agency is currently evaluating its accounting practices to determine the potential impact on the financial statements for the following GASB Statements:

In June 2015, GASB issued **Statement No. 74, Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans**. This statement addresses reporting by OPEB plans that administer benefits on behalf of governments. This Statement is effective for the City's fiscal year ending June 30, 2017.

In June 2015, GASB issued **Statement No. 75, Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions**. This statement addresses reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments. This Statement is effective for the City's fiscal year ending June 30, 2018.

In August 2015, GASB issued **Statement No. 77, Tax Abatement Disclosures**. This statement requires governments that enter into tax abatement agreements to disclose the following information about the agreements: (i) brief descriptive information; (ii) the gross dollar amount of taxes abated during the period; and (iii) commitments made by a government, other than to abate taxes, as part of a tax abatement agreement. This Statement is effective for the City's fiscal year ending June 30, 2017.

In December 2015, the GASB issued **Statement No. 78, Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans**. The objective of this statement is to address a practice issue regarding the scope and applicability of Statement No. 68 associated with pensions provided through certain cost-sharing multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions. Such plans are not considered a state or local government pension plan and are used to provide benefits to both employees of state and local governments and employees of employers that are not state or local governments. This Statement is effective for the City's fiscal year ending June 30, 2017.

In January 2016, the GASB issued **Statement No. 80, Blending Requirements for Certain Component Units—an amendment of GASB Statement No. 14.** The objective of this statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. This statement amends the blending

requirements established in GASB Statement No. 14, The Financial Reporting Entity, as amended. This Statement is effective for the City's fiscal year ending June 30, 2017.

In March 2016, the GASB issued **Statement No. 81, Irrevocable Split-Interest Agreements**. The statement provides recognition and measurement guidance for situations in which a government is a beneficiary of these agreements. This Statement is effective for the City's fiscal year ending June 30, 2018.

In March 2016, the GASB issued **Statement No. 82, Pension Issues – an amendment of GASB Statements No. 67, No. 68, and No. 73,** to address certain issues that have been raised with respect to **Statements No. 67, Financial Reporting for Pension Plans, No. 68, Accounting and Financial Reporting for Pensions, and No. 73, Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68.** The statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practices for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. This Statement is effective for the City's fiscal year ending June 30, 2017.

II. DETAILED NOTES

A. CASH AND INVESTMENTS

The City maintains a cash and investment pool that is used by all funds. Each fund's portion of the City's cash and investment pool is displayed on the balance sheet and proprietary and fiduciary fund statements of net position as "cash and cash equivalents." Each fund is allocated interest on average monthly cash balances held by the funds throughout the year. Certain deposits held in trust are displayed on the governmental funds balance sheet and the proprietary funds statement of net position as "restricted assets – cash and cash equivalents." The City also maintains "cash and cash equivalents with fiscal agent", which represent monies held by fiscal agents for payment of various City debt and capital projects costs.

The City cash and investments are reported as follows:

Primary government:		
Cash and cash equivalents	$	235,762,344
Restricted cash and cash equivalents		83,082,107
Restricted cash and cash equivalents with fiscal agent		30,735,509
Sucessor Agency Private-Purpose Trust Fund		
Cash and cash equivalents		1,507,927
Cash and cash equivalents held with fiscal agent		1,977,050
Agency funds		
Cash and cash equivalents		3,545,139
Cash and cash equivalents held with fiscal agent		2,936,138
Total cash and investments	$	359,546,214

Investments Authorized by the California Government Code and the City's Investment Policy

The City's investment policy and the California Government Code allow the City to invest in the following types of instruments, and the table also identifies certain provisions of the California Government Code, or the City's investment policy where it is more restrictive:

Authorized Investment Type	Maximum Maturity	Minimum Credit Quality	Maximum Percentage Of Portfolio	Maximum Investment in One Issuer
Local Agency Bonds	5 years	None	None	None
Treasury Obligations	5 years	None	None	None
State Obligations	5 years	A Rating	None	None
CA Local Agency Obligations	5 years	A Rating	None	None
Federal Agencies	5 years	None	None	None
Banker's Acceptances	180 days	Federal Reserve Eligible	40%	5%
Commercial Paper	270 days	A1/P1 Rating	25%	5%
Negotiable Certificates of Deposit	5 years	A Rating	30%	5%
Certificates of Deposit	1 year	FDIC insured or collateralized	20%	5%
Repurchase Agreements	90 days	None	None	5%
Reverse Repurchase Agreements	92 days	None	20% of combined base value	5%
Medium Term Notes	5 years	A Rating	30%	5%
Money Market Mutual Funds	N/A	Multiple	15%	10%
Mortgage and Asset-backed Securities	5 years	AA Rating	20%	5%
CAMP	N/A	N/A	None	None
LAIF	N/A	N/A	N/A	None

The City is a voluntary participant in the California Asset Management Program (CAMP). CAMP is an investment pool offered by the California Asset Management Trust (the Trust). The Trust is a joint powers authority and public agency created by the Declaration of Trust and established under the provisions of the California Joint Exercise of Powers Act (California Government Code Sections 6500 et seq., or the "Act") for the purpose of exercising the common power of its participants to invest certain proceeds of debt issues and surplus funds. The Pool's investments are limited to investments permitted by subdivisions (a) to (n), inclusive, of Section 53601 of the California Government Code. Security types prohibited include, but are not limited to: Investments in inverse floaters, range notes, or interest only strips that are derived from a pool of mortgages. At June 30, 2016, the fair value approximated the City's cost. At June 30, 2016, these investments range from a maximum maturity of 5 years to some maturity limits of 180 days or less. The City reports its investments in CAMP at the fair value amounts provided by CAMP.

Investments Authorized by Debt Agreements

The City must maintain required amounts of cash and investments with trustees or fiscal agents under the terms of certain debt issues. These funds are unexpended bond proceeds or are pledged as reserves to be used if the City fails to meet its obligations under these debt issues. The California Government Code requires these funds to be invested in accordance with City ordinance, bond indentures or State statute. All current bond indentures authorize the

same investments as the City's investment policy.

Custodial Credit Risk – Deposits

The Custodial Credit Risk for Deposits is the risk that, in the event of the failure of a depository financial institution, the City will not be able to recover deposits, or will not be able to recover collateral securities that are in the possession of an outside party. The City does not, currently, have a Custodial Credit Risk – Deposits Policy. Under California Government Code Section 53651, depending on specific types of eligible securities, a bank must deposit eligible securities posted as collateral with its Agent having a fair value of 110% to 150% of the City's cash on deposit. All of the City's deposits are either insured by the Federal Depository Insurance Corporation (FDIC) or collateralized with pledged securities held in the trust department of the financial institution in the City's name.

The City of Modesto has 11 deposit accounts at Bank of America that are monitored for deposit collateral purposes. As per the CA Government Code, the bank must provide collateral for the collected deposit balances at 110% coverage. The City is collateralized as part of the California Local Agency Collateral Pool Program. As of June 30, 2016 the City had collected deposit balances of $30,328,519. On this amount, the FDIC insurance coverage was $500,000 ($250,000 for their time and savings accounts and $250,000 for their demand accounts). The remainder of their balances was collateralized as part of the California Local Agency Pool Program.

For further information, on June 30, 2016, the total collected deposit balances at Bank of America from California Local Agency Pool Program participants was $2,020,523,151 of which $92,716,599 was FDIC insured. The remaining uninsured balances, $1,927,806,552 were collateralized by securities pledged by Bank of America that had a market value of $2,461,798,780. This results in collateral margin coverage of 126% far in excess of the 110% required by the California Government Code.

Custodial Credit Risk – Investments

The Custodial Credit Risk for Investments is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, the City will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The City's investment policy limits its exposure to custodial credit risk by requiring that all security transactions entered into by the City, including collateral for repurchase agreements, be conducted on a delivery-versus-payment basis. Securities are to be held by a third party custodian.

The City's investments consist of pooled investments, dedicated investments, and other funds held by trustees. The dedicated investment funds represent restricted funds and relate to bond proceeds of the Water and Sewer Enterprise Funds, assessment districts (reported under Agency Funds) and the Successor Agency. The other funds held by trustees are made either in accordance with bond covenants and are pledged for payment of principal, interest, and specified capital improvements or in accordance with trust agreements. All investments held by a custodian are in the City's name excluding the Successor Agency.

Interest Rate Risk

Interest Rate Risk is the risk that interest rates will rise and reduce the fair value of an investment. Long-term fixed-income securities have the greatest amount of interest rate risk, due to potential loss in fair value.

As of June 30, 2016, the City owned four callable bonds. There were no Federal Agency callables. It is assumed the callable bonds will not be called in the segmented time distribution table on the following page. Information on those bonds has been provided as follows:

Corporate Notes			
Amount	Maturity Date	Call Date	Call Terms
$2,920,000	9/19/2016	8/19/2016	Callable on and any time after 8/19/16
$2,940,000	5/15/2017	4/15/2017	Callable on and any time after 4/15/17
$5,475,000	5/22/2018	4/22/2018	Callable on and any time after 4/22/18
$1,095,000	11/5/2018	10/5/2018	Callable on and any time after 10/5/18

Disclosures Related to Credit Risk

Generally, Credit Risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a nationally recognized statistical rating organization. The City may from time to time be invested in a security whose rating is downgraded subsequent to the date of purchase. In the event a rating drops below the minimum allowed rating category for that given investment type, the investment advisor shall notify the Finance Director and recommend a plan of action. The City will limit investments in any one non-government issuers, except investment pools to no more than 5% regardless of security type.

The following table summarizes the City's investments based on maturity dates of various investments:

	Credit Rating		Remaining Time to Maturity				
Investment Type	Standard & Poor's	Moody's Investors Service	Total	Less Than 1 Year	1-2 Years	2-3 Years	3-4 years
U.S. Treasury Notes	AA+	Aaa	$49,041,730	$1,605,939	$6,362,472	$ 41,073,319	$ -
Federal Agencies:							
Collateralized Mortgage Obligation	AA+	Aaa	10,850,498	-	2,026,754	6,701,149	2,122,595
Federal Agency Bond/Notes	AA+	Aaa	68,083,253	-	16,926,379	51,156,874	-
Corporate Notes	See Below	See Below	59,555,642	8,649,852	38,176,629	12,729,161	-
Negotiable Certificates of Deposit	See Below	See Below	47,170,792	21,695,380	25,475,412	-	-
CAMP Pool	AAAm	N/A	62,924,672	62,924,672	-	-	-
Total			$297,626,587	$94,875,843	$88,967,646	$111,660,503	$2,122,595
Held By Fiscal Agent							
Money Market Funds	AAAm	Aaa-mf	$6,157,427	$6,157,427	-	-	-
CAMP	AAAm	N/A	9,482,386	9,482,386	-	-	-
MID – Collateral Agreement	A+	Aa3	20,008,884	20,008,884	-	-	-
Fiscal Agent Total			$35,648,697	$35,648,697	$ -	$ -	$ -
City of Modesto Banking Accts & Cash on Hand	A/A-1	A1/P1	26,826,913				
Timing Differences for Deposit & Electronic Vendor Payments			(555,983)				
Total Cash and Investments			$359,546,214				

The following is a table indicating the credit ratings for the City's investment in Corporate Notes:

Amount	Standard & Poors	Moody's Investors Service
$ 3,013,334	AA+	Aaa
884,213	AA	Aa2
3,011,448	AA-	Aa2
10,306,210	AA-	Aa3
6,459,421	A	A1
8,702,621	A+	A1
3,012,069	AA	A1
4,994,100	AA-	A1
9,267,455	A	A2
4,079,783	A-	A2
5,824,988	A-	A3
$ 59,555,642		

The following is a table indicating the credit ratings for the City's investment in Negotiable Certificates of Deposit:

Amount	Standard & Poors	Moody's Investors Service
$ 15,866,617	A-1	P-1
5,725,830	A-1	Aa3
10,553,071	A-1+	P-1
9,234,624	AA-	Aa3
5,790,650	AA-	Aa1
$ 47,170,792		

In the event a rating drops below the minimum allowed rating category for a given investment type, the investment advisor shall notify the Finance Director and/or Designee and recommend a plan of action. The City will limit investments in any one non-government issuer, except local agency investment pools and money market funds, to no more than 5% regardless of security type.

Concentration of Credit Risk

The City's investment policy contains no limitations on the amount that can be invested in any one issuer beyond that stipulated by the California Government Code. Investments in any one issuer, other than U.S. Treasury securities, mutual funds, and external investment pools that represent 5% or more of total entity-wide investments are as follows at June 30, 2016:

Issuer	Investment Type	Reported Amount	Percent of Portfolio
Federal Home Loan Bank	Federal agency securities	$23,785,268	6.62%
Fannie Mae (FNMA)	Federal agency securities	46,759,496	13.01%

Fair Value measurements

The Pool categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. These principles recognize a three-tiered fair value hierarchy, of which levels 1 & 2 apply to the City as follows:

- Level 1: Valuations are based on quoted prices in active markets for identical assets or liabilities. Since valuations are based on quoted prices that are readily and regularly available in an active market, valuation of these products does not entail a significant degree of judgement. Examples would be securities with prices derived from the major exchanges.

- Level 2: Valuations are based on quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active and model-based valuations for which all significant assumptions are observable or can be corroborated by observable market data. Examples would be securities with prices derived from market corroborated sources such as indices and yield curves; and matrix pricing, such as for most debt securities.

Union Bank is the custodian of the City's investments. Union Bank utilizes pricing services that deliver current market values and security information which is input into their trust accounting systems. A security will be valued on the basis of valuations provided by a pricing service vendor if it has a substantial public market (i.e. is not thinly traded), and is freely tradable without restriction, has a valid CUSIP or SEDOL and resides on one of the depositories. Based on their direction, Union Bank will continue to obtain valuations for all other securities and assets, for which they do not receive a pricing feed and/or descriptive information from their pricing service vendors, from various sources independent of Union Bank. If no current market value price is available from their pricing service vendors and their agents have provided Union Bank with pricing information, Union Bank will show the value of the asset at such value as Union Bank shall determine, such value to be for administrative purposes only and not be any indication of any market value.

The Pool has the following recurring fair value measurements as of June 30, 2016:

		Fair Value Measurements Using	
Investments by Fair Value for Investment Pool		Quoted Prices in Active Markets for Identical Assets	Significant Other Observable Inputs
Investment Type		(Level 1)	(Level 2)
U.S Treasury Notes	$ 49,041,730	$ 49,041,730	$ -
Corporate Notes	59,555,642	-	59,555,642
Negotiable Certificates of Deposit	47,170,792	-	47,170,792
Collateralized Mortgage Obligation	10,850,498	-	10,850,498
Federal Agency Bond/Notes	68,083,253	-	68,083,253
Total Investments measured at fair value	234,701,915	49,041,730	185,660,185
Investments not subject to Fair Value hierarchy			
CAMP	62,924,672		
	$ 297,626,587		
Investments by Fair Value for Fiscal Agents			
Money Market Funds	$ 6,157,427	$ -	$ 6,157,427
Total Fiscal Agent investments measured at fair value	6,157,427	-	6,157,427
Investments not subject to Fair Value hierarchy			
CAMP	9,482,386		
MID Collateral Agreement	20,008,884		
	$ 35,648,697		

B.CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2016 was as follows:

	Beginning Balance, As Restated (1)	Additions	Deletions	Ending Balance
Governmental activities:				
Capital assets, not being depreciated:				
Land	$ 33,123,493	$ 98,576	$ (3,000)	$ 33,219,069
Construction in progress	61,301,765	18,471,559	(30,723,212)	49,050,112
Total capital assets, not being depreciated:	94,425,258	18,570,135	(30,726,212)	82,269,181
Capital assets being depreciated:

C. LONG-TERM DEBT

Loans Payable

Governmental Activities:

No-interest loan payable to the Stanislaus County Economic Development Bank loan program, to pay costs incurred by the City for the Kiernan Business Park East Project; loan intended to be repaid within five years of project completion, provided funds are available from revenue stream. As of June 30, 2016, no payments have been made to the Stanislaus County Economic Development Bank as no funds are available. According to the agreement, the Project will be completed as of the date the City first issues building permits within the Kiernan Business Park East area. To date, no building permits have been issued. The authorized loan amount is up to $500,000. Currently, there is a balance of $498,362. Outstanding amount will increase as more eligible costs are incurred and remaining available loan amount is borrowed.	$ 498,362
Total Principal Balance – Governmental-Type Activities	$498,362

Business-Type Activities:

Water Enterprise Fund:

Loan payable to State of California Department of Public Health, also known as ARRA Water Grant. This Agreement constitutes funding in the form of a loan with forgiveness of principal made by State under the provisions of California Safe Drinking Water State Revolving Fund Law of 1997, and the American Recovery and Reinvestment Act of 2009 (ARRA) Public Law 11 1-5. The purpose of the funding is to assist in financing construction of a project, which will enable the City to meet safe drinking water standards or to address other health concerns, herein referred to as the "Project". The maximum loan amount of $800,000 of which fifty percent (50%), or an estimated $400,000 will not need to be repaid. The loan repayment term is 20 years at 2.5017% interest rate.	476,079

Sewer Enterprise Fund:

Loan payable to California State Water Resources Control Board, State Revolving Fund. The Project, commonly known as Tertiary Treatment Phase 1B Project generally consists of constructing a 12.6 million gallon per day tertiary treatment plant. Completion of construction date is established as June 1, 2016. Project completion date is established as December 1, 2016. The City agrees to repay all project funds at an interest rate of two and six-tenths percent (2.6%) per annum and an administrative service charge of zero percent (0%) per annum. The loan payable balance only reflects the current loan disbursements as of June 30, 2016. The total loan approved by the State Water Resources Control Board is $125,161,776, plus $5,328,665 in Accrued Construction Period Interest. The loan repayment term is 20 years (final payment due on December 1, 2035) and the annual principal and interest payments are $8,114,485.	125,311,263
Total Principal Balances – Business-Type Activities	$125,787,342

Annual debt service requirements to maturity for loans payable are as follows:

Year Ending June 30,	Governmental-Type Activities		Business-Type Activities	
	Principal	Interest	Principal	Interest
2017	$-	$-	$4,880,924	$3,269,850

Total	$498,362	$-	$125,787,342	$37,082,987

Certificates of Participation:

Business-Type Activities:

Golf Enterprise Fund:

1993 Refunding Certificates of Participation issued to refund earlier certificates for the Creekside Golf Course capital project; serial certificates with annual maturities on November 1, in amounts from $225,000 to $235,000; interest rate of 5.5%; term certificates at 5.6% due November 1, 2016, and in the amount of $3,585,000 at 5.0% due November 1, 2023, with annual payments ranging from $250,000 to $480,000 beginning in 2010. The certificates are repayable from any source of available funds of the City. However, the City has elected to repay the certificates from revenues of the Golf Enterprise Fund. $3,260,000

Water Enterprise Fund:

2008 Water Refunding Revenue Certificates of Participation issued to refund the 2006 issue, to provide funding for construction of new downstream water facilities and various water distribution system improvements in connection with Modesto Irrigation District's expansion of the regional water treatment plant; variable rate securities maturing October 1, 2036, with interest initially calculated weekly, fluctuating according to market conditions. The Certificates may be converted to a daily, term, flexible, or fixed rate.

While the 2008 COPS are in the Weekly Mode, they are subject to optional tender and mandatory tender for purchase. Funds for the payment of the purchase price of 2008 COPS that are tendered for purchase and that are not remarketed by the Remarketing Agent will be available (subject to certain conditions) under a Standby Certificate Purchase Agreement, dated May 1, 2008 (the "Liquidity Facility"). The Liquidity Facility does not support, secure or guaranty the payments of the principal of or interest with respect to the 2008 COPS. Subject to the terms and conditions of the Liquidity Facility, the Liquidity Facility Provider is to provide funds for the payment of the purchase price on each purchase of 2008 COPS up to $47,625,000 in principal amount (the "Available Principal Commitment") and $548,014 an amount equal to 35 days' interest on the Available Principal Commitment at an assumed rate of 12% and accrued interest on 2008 COPS subject to the Weekly Rate tendered or deemed tendered for purchase in the event that remarketing proceeds are not sufficient to pay the purchase price of such 2008 COPS. The Liquidity Facility will not provide for the payment of principal of and interest on any 2008 COPS other than with respect to the purchase price of the 2008 COPS tendered or deemed tendered and not remarketed. The initial Liquidity Facility expired on May 29, 2011 and was subsequently extended to July 14, 2017 by Bank of America.

Water Enterprise Fund:

The Liquidity Facility will not provide for the payment of principal of and interest on any 2008 COPS other than with respect to the purchase price of the 2008 COPS tendered or deemed tendered and not remarketed. Barring an event of default, any such draws on the Letter of Credit will be repaid under the terms of the Reimbursement Agreement. Under the terms of the Reimbursement Agreement, the City will repay the amount drawn in ten equal semi-annual installments of principal, plus monthly interest at the Bank Rate, over a 5 year period. However, the entire balance of the amount drawn shall become due immediately if the 2008 COPs are cancelled or prepaid, are remarketed, or converted to bear interest at a rate other than a daily rate or weekly rate; an alternate credit facility is secured; or an event of default occurs. The Credit Facility and Reimbursement Agreement initially expired May 29, 2011, but were subsequently extended to July 14, 2017 at a commitment fee of 0.875%."

The City entered into a 30-year interest rate swap agreement as discussed below. The combination of the variable rate 2008 COPs and the floating rate swap creates a synthetic fixed-rate debt for the City. The synthetic fixed-rate was 3.48% at June 30, 2016.	45,180,000
Total Principal Balances – Business-Type Activities	48,440,000
Less:	
Unamortized Bond Discount – 2008 Water Refunding Certificates of Participation	(109,947)
Total Business-Type Activities – Certificates of Participation	$48,330,053

The City has pledged future Water Enterprise Fund revenues, net of specified operating expenses, to repay the 2008 Certificates of Participation. The City has pledged future Golf Enterprise Fund revenues to pay the 1993 Certificates of Participation for the Golf Course Refinancing project. The Water and Golf Funds total principal and interest remaining to be paid on the certificates is $58,514,700. The Water Fund's principal, interest and other debt service cost paid on certificates for the current year, along with payments to Modesto Irrigation District under the Treatment and Delivery Agreement, totaled $12,818,218, and net operating revenues of the Fund were $19,857,757, which represented coverage of 155%. The Golf Fund's principal and interest paid on certificates totaled $493,417, and net operating revenues of the Fund were $166,476, which represented coverage of .34%.

Annual debt service requirements to maturity for Certificates of Participation, for 2008 Water and 1993 Golf, are as follows:

	Business-Type Activities	
Year Ending June 30,	Principal	Interest
2017	$705,000	$832,369
2018	720,000	809,519
2019	775,000	785,331
2020	795,000	759,906
2021	805,000	733,731
2022-2026	9,475,000	3,129,600
2027-2031	14,110,000	2,094,112
2032-2036	17,185,000	911,344
2037	3,870,000	18,788
Total	$48,440,000	$10,074,700

Lease Revenue Bonds – Governmental Activities:

2008 Lease Revenue Refunding Bonds in the amount of $65,170,000 issued to refund the balance of the 1998 Lease Revenue Bonds and the 2007 Lease Revenue Refunding and Capital Improvement Bonds; variable rate securities maturing September 1, 2033, with interest initially calculated weekly, fluctuating according to market conditions. The bonds may be converted to a daily, term, flexible, or fixed rate. The combination of the variable rate bonds and a floating swap rate creates a synthetic fixed-rate debt for the City. The synthetic fixed-rate was 3.61% at June 30, 2016.

Regularly scheduled payments of principal and interest are supported by an irrevocable, direct pay Letter of Credit (the "Credit Facility") issued by Bank of America, N. A. The Trustee can draw funds under the Credit Facility to pay the purchase price of tendered bonds that are not remarketed. Barring an event of default, any such draws on the Letter of Credit will be paid under the terms of the Reimbursable Agreement. Under the terms of the Reimbursement Agreement, the City will repay the amount drawn in equal semi-annual installments of principal plus monthly interest, at the Bank Rate, over a 5 year amortization period. However, the entire balance of the amount drawn shall become due immediately if the tendered bonds are remarketed or defeased, or an alternate credit facility is secured, or an event of default occurs. The Credit Facility and Reimbursement Agreement initially expired August 1, 2011, but were subsequently extended to June 22, 2019 at a commitment fee of 0.60%.

$56,305,000

Annual debt service requirements to maturity for Lease Revenue Bonds are as follows:

Year Ending June 30,	Governmental-Type Activities	
	Principal	Interest
2017	$1,835,000	$823,931
2018	1,695,000	797,981
2019	1,860,000	770,700
2020	2,000,000	741,225
2021	2,170,000	709,313
2022-2026	13,990,000	2,960,363
2027-2031	19,140,000	1,691,250
2032-2034	13,615,000	261,356
Total	$56,305,000	$8,756,119

Revenue Bonds – Business-Type Activities:

Sewer Enterprise Fund:

Wastewater Revenue Bonds, Series 2006A; interest payable on November 1 and May 1; serial certificates with annual maturities on November 1, in amounts from $880,000 to $1,005,000, with interest rates from 4.2% to 4.5%; term certificates in the amount of $5,710,000 maturing in 2031 and $7,060,000 maturing in 2036, bearing interest at 4.25%, with annual payments beginning in 2024. There was a Partial Refunding of 2006A, in the amount of $1,800,000, with the Private Placement of the Wastewater Revenue Refunding Bond Series 2015.

14,735,000

Wastewater Revenue Refunding Bond Series 2015; interest payable on November 1 and May 1, commencing May 1, 2016. Principal is payable in annual installments on each November 1, commencing November 1, 2016 and ending November 1, 2024. The Series 2015 Bond shall bear interest at a rate equal to 2.42% per annum; Payment of principal and interest on the Series 2015 Bond is secured by a pledge of Net Revenues; The Series 2015 Bond constitutes "Parity Debt" under the Indenture.

On October 30, 2015, the City issued the Series 2015 Bond, as a Parity Debt to fully refund the 2005A and partially refund the 2006A Wastewater Revenue Bonds. The proceeds were used to: 1) Refund the Wastewater Revenue Refunding Bonds, Series 2005A, which refinanced the acquisition and construction of improvements to the City's wastewater enterprise, 2) refund a portion of the Wastewater Revenue Bonds, Series 2006A, and 3) pay cost of issuance in connection with the financing. The Series 2005A Bonds have been fully redeemed and the 2023 and 2024 maturities of Series 2006A Bonds were redeemed. As of June 30, 2016, $19,460,000 of the Series 2005A and $1,800,000 of the Series 2006A Wastewater Revenue Bonds were defeased. The City will realize significant savings from the refunding of the 2005A and 2006A Bonds, bearing an interest rate of 2.42%. Total gross savings will be approximately $4.6 million with a net present value savings of $2.2 million or 10.6%. Annual cash flow savings will approximate $611,000 per year. Incorporated into this saving is Cost of Issuance totaling $137,500. The current refunding of the Series 2015 Bond resulted in the aggregate difference in debt service between the 2005A and 2006A Wastewater Revenue Bonds in the amount of $146,461, due to Cost of Issuance. As a result of the refunding, there was a deferred loss in the amount of $599,834. As of June 30, 2016, the City has amortized $44,432 and has a balance of $555,402.	19,429,913
Total Principal Balances – Business-Type Activities	34,164,913
Less: Unamortized Bond Discount – 2006 Bonds	(219,397)
Total Business-Type Activities Revenue Bonds	$ 33,945,516

The 2005 and 2006 bonds were issued to fund a variety of Sewer Enterprise Fund wastewater capital improvements. The City has pledged future Sewer Enterprise Fund revenues, net of specified operating expenses, to repay the 2005 and 2006 bonds through 2036. On October 30, 2015, the Wastewater Revenue Bonds, Series 2005A were Fully Refunded and the 2006A were Partially Refunded with the Private Placement of the Wastewater Revenue Refunding Bond Series 2015, in the amount of $19,429,913. The Sewer Fund's total principal and interest remaining to be paid on the bonds is $46,789,125. The Sewer Fund's principal and interest paid for the current year and total customer net revenues were $4,570,286 and $24,789,419, respectively.

Annual debt service requirements to maturity for Revenue Bonds are as follows:

	Business-Type Activities	
Year Ending June 30,	Principal	Interest
2017	$2,350,027	$1,067,527
2018	2,394,504	1,010,118
2019	2,459,096	951,389
2020	2,521,327	891,124
2021	2,577,644	829,428
2022-2026	8,087,315	3,368,029
2027-2031	5,475,000	2,734,984
2032-2036	6,765,000	1,621,588
2037-2039	1,535,000	150,025
Total	$34,164,913	$12,624,212

Notes Payable – Governmental Activities:

On March 26, 2015, the City received notice of a public offering to refinance the existing note, with an outstanding balance of $2,568,000. The City agreed to refinance the note, as it reduced the interest on the HUD Section 108 Loan, a net savings of approximately $502,908. The public offering date was May 28, 2015. The terms of the new promissory note include semi-annual payments on August and February through the maturity date of August 1, 2024. The interest rates range from 0.28% through 2.85%. No new security provisions were required, as the Contract for Fixed Rate Note incorporates the previous additional security provisions.	$2,568,000
Total Notes Payable	$2,568,000

Annual debt service requirements to maturity for this Notes Payable are as follows:

	Governmental-Type Activities	
Year Ending June 30,	Principal	Interest
2017	$233,000	$50,951
2018	245,000	48,845
2019	256,000	46,003
2020	269,000	41,773
2021	283,000	36,442
2022-2024	1,282,000	72,328
Total	$2,568,000	$296,342

Reimbursement Agreement - Business-Type Activities:

Water Enterprise Fund:

In 1992, the City entered into a treatment and delivery agreement with the Modesto Irrigation District (MID) and the Del Este Water Company (Del Este). The City assumed Del Este's interest and obligations under the agreement when it acquired Del Este in July 1995. Under the agreement, MID built and operates a surface water treatment plant on the Tuolumne River for the purpose of providing a long-term source of domestic treated water for the City. MID is the sole owner of the project, and has all management and operations responsibility. In exchange for the treated water, the City has agreed to pay: all debt service on bonds issued by MID for the construction of the project; a raw water charge as set forth in the agreement; project operation, administration, and maintenance costs; and insurance on the project. Gross revenues of the City's Water Fund are irrevocably pledged for the punctual payment of the MID debt service and all obligations of the City under any parity debt. Current parity debt of the City consists of the 2008 Water Revenue Certificates of Participation and the California Safe Drinking Water Act loan (as described previously). The treatment plant completed all tests and began commercial operations on May 15, 1995, at which time the City began paying for raw water and operations.

The City and MID have agreed upon an expansion of the initial Domestic Water Project facilities beyond the existing design capacity of 36 million gallons per day ("mgd") to a design capacity of 72 mgd. In June 2007, the MID issued $93,190,000 Domestic Water Project revenue bonds pursuant to the terms of the existing treatment and delivery agreement. On August 14, 2013, Modesto Irrigation District Financing Authority refunded the 1998 D Bonds, with 2013 G Bonds. As of June 30, 2016, the total outstanding on the MID bonds is: $35,190,000 for the 2013 G Bonds and $93,190,000 for the 2007 F Bonds, for a total of $128,380,000. For the 2007F Bonds, the annual principal payments begin on September 1, 2023 and mature on September 1, 2037 in amounts from $4,275,000 to $11,870,000, with variable interest rates fluctuating according to market conditions. For the 2013 G Bonds, the annual principal payments began on September 1, 2014 and mature on September 1, 2022, in amounts from $3,970,000 to

$5,795,000, with variable interest rates fluctuating from 2% to 5%. The City has entered into interest-rate swap agreements to synthetically fix the rates that the City pays at 4.38% and 4.44%. Refer to the Interest Rate Swap agreement section below with more information about the debt schedule.

Annual debt service payments to maturity for the Reimbursement Agreement are as follows:

Year Ending June 30,	Business-Type Activities	
	Principal	Interest
2017	$4,320,000	$2,386,501
2018	4,535,000	2,165,127
2019	4,760,000	1,932,751
2020	5,005,000	1,688,627
2021	5,260,000	1,432,002
2022-2026	24,690,000	3,978,235
2027-2031	26,740,000	2,432,788
2032-2036	33,535,000	1,173,947
2037-2038	19,535,000	56,089
Total	$128,380,000	$17,246,067

Interest Rate Swap Agreements:

Objective of the swaps – The primary objective of the swaps is to mitigate the effect of fluctuations in variable interest rates by paying a fixed-rate and receiving a floating rate on the swap. Combining a pay-fixed receive-variable rate swap with variable debt results in what is termed "synthetic" fixed-rate debt. It is called synthetic because the economics are similar to fixed-rate debt, but another instrument is involved unlike regular fixed-rate debt. Each time the City created synthetic fixed-rate debt a comparison and determination was made that the fixed-rate on regular debt would have been higher than the fixed rate on the swap.

During fiscal year 2007, the City entered into an interest swap agreement in connection with the 2006 Water Revenue Certificates of Participation. This transaction was updated due to the refunding of the 2006 Certificates by the 2008 Water Refunding Revenue Certificates of Participation (COPs). The swap agreement allows the City to create a synthetic fixed-rate on the COPs, protecting it against increases in short-term interest rates.

During fiscal year 2008, the City entered into an interest swap agreement in connection with the 1998 and 2007 Lease Revenue Bonds. The swap agreement allows the City to create a synthetic fixed rate on the Lease Revenue Bonds, protecting it against increases in short-term interest rates. The terms, fair value and credit risk of these swap agreements are disclosed below.

Additionally, in May 2007, the City approved the issuance of revenue bonds by the Modesto Irrigation District Financing Authority related to the financing of Phase 2 of the Domestic Water Treatment and Delivery System of the Modesto Irrigation District. The MID Water Refunding Bonds were issued with an interest swap feature with Bear Sterns, which was subsequently acquired by JP Morgan. Under the agreement between MID and JP Morgan, the City must post collateral when our negative position exceeds the Pledgor's Threshold of $20 million. This negative position represents the present value of declining interest rates to date from issuance of bonds. In June 2010, the City Council authorized the City to post collateral up to $18 million, which would support a negative position of $38 million. In July 2010, the City Council increased the City's authorization to post collateral from $18 million to up to $20 million. At the end of fiscal year 2016, the City had posted a cumulative total of $20 million of collateral posting, which is reported in the Water Enterprise Fund cash with fiscal agent.

Terms – The terms, including the counterparty credit rating of the outstanding swaps, as of June 30, 2016 are shown in the table below. The swap agreements contain scheduled reductions to the outstanding notional amounts that are expected to follow scheduled principal reductions in the associated debt issues.

Related Debt Issue	Current Notional Amount	Effective Date	Counterparty	Credit Rating (S&P)	Fixed Rate Paid	Variable Rate Received	Termination Date
2008 Water Refunding Revenue COPs	$45,180,000	5/30/2008	Bank of America	A	3.47%	63.7% of USD-LIBOR, plus .154%	10/1/2036
2008 Lease Revenue Refunding and Capital Improvement	56,305,000	8/28/2008	Bank of America	A	3.61%	63.7% of USD-LIBOR, plus .154%	9/1/2033
2007 MID Domestic Water Revenue Bonds Series 2007F	23,370,000	6/26/2007	JP Morgan Chase Bank	A+	4.38%	67% of 3 Month LIBOR + 0.58%	9/1/2027
2007 MID Domestic Water Revenue Bonds Series 2007F	69,820,000	6/26/2007	JP Morgan Chase Bank	A+	4.44%	67% of 3 Month LIBOR + 0.63%	9/1/2037

Based on the swap agreement the City owes interest calculated at a fixed rate to the counterparty (Bank of America and JP Morgan). In return, the counterparty owes the City interest based on the variable rate that approximates the rate required by the associated COPs and lease revenue bonds. Debt principal is not exchanged; it is only the basis on which the swap receipts and payments are calculated.

GASB Statement 53 (GASB 53) addresses the recognition measurement and disclosure of information regarding derivative instruments entered into by state and local governments. All derivatives are to be reported on the statement of net position at fair value and all hedges must be tested for effectiveness to qualify for hedge accounting. The tests are outlined in GASB 53. Depending on the test results, the changes in fair value are either reported on the statement of net position as a deferral or in the statement of activities as investment revenue or loss.

Fair value – Fair value takes into consideration the prevailing interest rate environment, the specific terms and conditions of each transaction and any upfront payments that may have been received. Fair value was estimated using the zero-coupon discounting method, which calculates the future payments required by the swap, assuming that the current forward rates implied by the LIBOR swap yield curve are the market's best estimate of future spot interest rates. These payments are then discounted using the spot rates implied by the current yield curve for a hypothetical zero-coupon rate bond due on the date of each future net settlement on the swaps.

As of June 30, 2016, the fair value of the swaps was in favor of the counterparty as shown in the following table:

Bond Issue	Fair Value
2008 Water Refunding Rev. Certificates of Participation	($12,630,581)
2008 Lease Revenue Bonds	($13,411,625)
2007 MID Domestic Water Revenue Bonds	($32,592,092)

Credit risk – As of June 30, 2016, the City was not exposed to credit risk on the swaps because the swaps had negative fair value. However, if interest rates increase and the fair value becomes positive, the City would be exposed to credit risk. The City will be exposed to interest rate risk only if the counterparty to the swap defaults or if the swap is terminated.

Basis risk - Basis risk is the risk that the interest rate paid by the City to the bondholders on the underlying variable rate bonds temporarily differs from the variable swap rates received from the counterparty. The swaps have basis risk since the City receives a percentage of the LIBOR Index to offset the actual variable bond rates the City pays on the underlying certificates of participation. The City is exposed to basis risk should the floating rate that it receives on the swap be less than the actual variable rate the City pays on the bonds. Depending on the magnitude and duration of any basis risk shortfall, the expected cost of the basis risk may vary.

A portion of this basis risk is tax risk. The City is exposed to tax risk when the relationship between the taxable LIBOR

based swaps and tax-exempt variable rate bonds changes as a result of a reduction in federal and state income tax rates. Should the relationship between LIBOR and the underlying tax-exempt variable rate bonds converge the City is exposed to this basis risk.

Termination risk - The City may terminate the swap contracts if the other party fails to perform under the terms of the contracts. The City will be exposed to variable rates if the counterparty defaults or if the swap contract is terminated. A termination of the swap contract may also result in the City's making or receiving a termination payment based on market interest rates at the time of the termination. If at the time of termination the swap has a negative fair value, the City would be liable to the counterparty for a payment equal to the swap's fair value.

Swap payments and associated debt – Using rates as of June 30, 2016, debt service requirements of the 2008 Water Refunding Revenue Certificates of Participation, the 2008 Lease Revenue Refunding Bonds, and the 2007 MID Domestic Water Revenue Bonds, including net swap payments and broker fees, are as shown in the following table assuming current interest rates remain the same for their term. The bond interest payments and net swap payments will vary as interest rates vary.

Year Ending	Variable-Rate Bonds		Net Swap Payments and Remarketing	
June 30,	Principal	Interest	Fees	Total
2017	$2,200,000	$2,236,801	$6,555,678	$10,992,479
2018	2,060,000	2,205,377	6,759,463	11,024,840
2019	2,255,000	2,172,282	6,681,353	11,108,635
2020	2,395,000	2,136,883	6,600,490	11,132,373
2021	2,565,000	2,099,046	6,508,252	11,172,298
2022-2026	35,470,000	9,390,323	30,002,350	74,862,673
2027-2031	59,990,000	6,218,150	21,006,036	87,214,186
2032-2036	64,335,000	2,346,647	9,654,991	76,336,638
2037	23,405,000	74,877	970,931	24,450,808
Total	$194,675,000	$28,880,386	$94,739,544	$318,294,930

Changes in Long-Term Liabilities

Long-term liability activity for the year ended June 30, 2016, was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Governmental activities:					
Loans Payable	$498,362	$-	$-	$498,362	$-
Lease Revenue Bonds:	57,970,000	-	1,665,000	56,305,000	1,835,000
Notes Payable	2,789,000	-	221,000	2,568,000	233,000
Obligations under Capital Leases	1,070,472	330,947	459,362	942,057	467,093
Compensated Absences	6,429,778	4,754,128	4,437,177	6,746,729	2,650,580
Claims liability	22,530,631	10,798,772	9,732,872	23,596,531	5,033,143
Total governmental activities	**$91,288,243**	**$15,883,847**	**$16,515,411**	**$90,656,679**	**$10,218,816**

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Business-type activities:					
Loans Payable	$117,690,257	$8,251,298	$154,213	$125,787,342	$4,880,924
Compensated Absences	2,516,303	870,700	1,343,782	2,043,221	802,718
Certificates of participation:	49,105,000	-	665,000	48,440,000	705,000
Unamortized Discounts	(115,444)	-	(5,497)	(109,947)	-
Reimbursement Agreement:					
MID Bonds	132,490,000	-	4,110,000	128,380,000	4,320,000
Unamortized Premium	4,565,810	-	570,726	3,995,084	-
Sewer Bonds:	38,265,000	19,429,913	23,530,000	34,164,913	2,350,027
Unamortized Premium	1,022,405	-	1,022,405	-	-
Unamortized Discount	(229,844)	-	(10,447)	(219,397)	-
Developer advances	1,331,561	-	93,112	1,238,449	93,112
Business-type activities	**$346,641,048**	**$28,551,911**	**$31,473,294**	**$343,719,665**	**$13,151,781**

Principal balances are reported on the government-wide and enterprise funds statements of net position, net of unamortized issuance discounts and premiums. Deferred losses on refundings are reported as deferred outflows of resources. Internal service funds predominantly serve the governmental funds. Accordingly, long-term liabilities for the internal service funds are included as part of the above totals for governmental activities. At year-end, internal service funds obligations were zero under notes payable, and zero in capital leases. Also, the compensated absences and claims liability balances relate to the internal service funds, and as such they are liquidated by the internal service funds. The predominant contributors for these internal service funds include the General Fund, Water Fund, and Sewer Fund.

D. OBLIGATIONS UNDER CAPITAL LEASES

Governmental Activities

The City entered into a capital lease agreement with Pierce Manufacturing Inc. for the purchase of two Pierce Velocity 1500 GPM Pumpers, valued at $1,070,472, less $48,551 accumulated depreciation. The City also entered into a capital lease agreement with Pierce Manufacturing Inc. for the purchase of one 4x4 Freightliner Wildland Pumper valued at $330,947, less $24,866 accumulated depreciation.

The following is a schedule of the future minimum lease payments, as of June 30, 2016:

Year Ending June 30,	
2017	$ 482,977
2018	482,977
Total minimum lease payments	965,954
Less: amount representing interest	(23,897)
Present value of minimum lease payments	$942,057

E. DEVELOPER ADVANCES

The Del Este Water Company (Del Este) entered into various agreements with developers under which infrastructure components were either constructed on behalf of Del Este or cash was advanced to the company to construct the infrastructure. Agreements in existence at the time of the City's acquisition of Del Este were assumed by the City. The terms of repayment call for no interest, with principal paid over a 40-year period. As of June 30, 2016, the total

outstanding balance due under the agreements is $1,238,449. The total annual payments fluctuate depending on the ending date of each agreement. At June 30, 2016, the amount of $93,112 due during fiscal year 2017 has been reported as "current portion-developer advances" on the Water Enterprise Fund statement of net position. The remaining $1,145,337 of outstanding principal has been reported under noncurrent liabilities, as "developer advances."

F. INTERFUND BALANCES

Interfund balances as of June 30, 2016 consist of the following:

Due to General Fund from:	
Other governmental funds	$4,935,597
Other enterprise funds	342,380
Total Due to General Fund	5,277,977
Total Due to/Due From:	$ 5,277,977
Advances from General Fund to:	
Other governmental funds	$1,143,157
Other enterprise funds	1,324,704
Advances from General Fund	2,467,861
Advances from Water Fund to:	
General Fund	150,000
Other governmental funds	21,660
Advances from Water Fund	171,660
Advances from Sewer Fund to other enterprise funds	923,400
Advance from internal service funds to General Fund	781,738
Total Advances from/Advances to	$4,344,659

All balances reported as "due to/due from" are short-term loans to cover temporary fund cash shortages as of June 30, 2016, and were repaid early in fiscal year 2017. Balances reported as "advance to/advance from" were for capital projects expenditures and are either in the process of being repaid or have scheduled repayments in future years.

G. Fund Balance

Detailed classifications of the City's Fund Balances, as of June 30, 2016, are provided below:

	General Fund	Housing and Community Development	Other Governmental	Total Governmental Funds
Nonspendable				
Advances to other funds	$ 2,467,861	$ -	$ -	$ 2,467,861
Prepaid Items	179,831	1,546	84,696	266,073
Total Nonspendable Fund Balance	2,647,692	1,546	84,696	2,733,934
Restricted				
Capital Facility Fees	-	-	26,591,390	26,591,390
Cash with Fiscal Agent	-	-	5,556,724	5,556,724
Community Facilities District	-	-	17,013,152	17,013,152
Grants and Donations	-	1,563,231	1,087,908	2,651,139
Notes Receivable	-	23,968,456	2,281,179	26,249,635
Deposits	2,092,126	-	-	2,092,126
Traffic Fines	-	-	2,501,534	2,501,534
Total Restricted Fund Balance	2,092,126	25,531,687	55,031,887	82,655,700
Committed				
General Fund Set-Aside	3,000,000	-	-	3,000,000
Total Committed Fund Balance	3,000,000	-	-	3,000,000
Assigned				
Encumbrances - Vendor Contracts	2,167,175	-	-	2,167,175
FY 16-17 Budget Carryover	4,336,594	-	-	4,336,594
Downtown Improvement District	-	-	57,661	57,661
Successor Redevelopment Housing Agency	-	-	443,437	443,437
Gas Tax Funding	-	-	8,555,524	8,555,524
Special Capital Outlay Projects	-	-	18,875	18,875
Strategic Planning and Development	-	-	987,561	987,561
Total Assigned Fund Balance	6,503,769	-	10,063,058	16,566,827
Unassigned - General Fund	12,822,134	-	-	12,822,134
Unassigned - Special Revenue Funds	-	-	(191,497)	(191,497)
Unassigned - Debt Service Funds	-	-	(40,337)	(40,337)
Unassigned - Capital Project Funds	-	-	(493,007)	(493,007)
Total Unassigned Fund Balance	12,822,134	-	(724,841)	12,097,293
Total Fund Balance	$ 27,065,721	$ 25,533,233	$ 64,454,800	$ 117,053,754

H. DEFICIT FUND EQUITY

The Capital Grants fund has a fund balance deficit of $490,674, which will be recovered through future revenues and local matches covered through the General Fund or other City funds.

The Compost Fund has a net position deficit of $1,772,155, due to the pollution remediation liability reported for the Carpenter Landfill during this fiscal year. The remediation funding has been incorporated into the utility fees related to garbage rates to cover the anticipated cost.

The Golf Enterprise Fund has a net position deficit of $1,570,687, due to a change in accounting policy several years ago, as well as revenues not keeping up with expenses. The City originally classified the 1993 Refunding Certificates of Participation as debt of the governmental funds, with construction proceeds transferred to the Golf Enterprise Fund when the certificates were issued. However, since the Golf Fund is paying, and is expected to continue paying, the entire debt service cost, it was decided that the balance of the debt should be recorded in the Golf Fund. The Golf Fund also has struggled due to competition and lagging revenues. Depreciation expense further contributes to the deficit. The City is looking at various options to resolve this funding deficit.

The Employee Benefits Management Internal Service Fund has a net position deficit of $55,107,015. It exists partially because the total compensated absences and other post-employment benefit balance previously classified as debt of the governmental funds was included in this fund at its inception several years ago, and has never been fully funded. The City is continuing to charge a higher benefit rate to help reduce this deficit. In addition, one-time revenues having to do with employee benefits are deposited to this fund.

The Insurance Fund has a net position deficit of $5,943,767, due mainly to the recognition of settlements that were reached in the prior fiscal year which have been reported as liabilities of the Liability Insurance Fund. Both settlements involved matters that represented city-wide policies and practices and therefore are allocable to all of the funds that make annual contributions to the liability insurance program. The liability insurance program will recover the full amount of the settlement from charges to the funds that participate in the liability insurance program over a period of 5 years based on this methodology being factored into the Internal Service Fund allocation that is distributed to City departments.

I. INTERFUND TRANSFERS

The following is a schedule of interfund transfers.

	Transfers from (out):								
Transfers (in) to:	General Fund	Housing & Community Development	Other Governmental	Water	Sewer	Bus	Other Enterprise Funds	Internal Service	Total
General Fund			$ 141,380	$ 65,000	$ 68,640		$ 276,972		$ 551,992
Housing & Community Dev	$ 41,457								41,457
Other Governmental	4,422,233	$ 64,406	1,512,405	954			24,618	$ 342,360	6,366,976
Water	264,500		821						265,321
Sewer	114,000						17,719		131,719
Bus	1,500								1,500
Other Enterprise	1,071,610		1,558,841	700,000		$ 66,016			3,396,467
Internal Service	307,000		1,072,193	27,481	285,448	913,136	781,846	25,970	3,413,074
Grand Total	$ 6,222,300	$ 64,406	$ 4,285,640	$ 793,435	$ 354,088	$979,152	$ 1,101,155	$ 368,330	$14,168,506

In general, the City uses interfund transfers to (1) move revenues from the funds that collect them to the funds that statute or budget requires to expend them, (2) use unrestricted revenues collected in the General Fund to help finance various programs and capital projects accounted for in other funds in accordance with budgetary authorization, and (3) move cash to debt service funds from the funds responsible for payment as debt service payments become due.

J. SUCCESSOR AGENCY TRUST FOR ASSETS OF FORMER REDEVELOPMENT AGENCY

On December 29, 2011, the California Supreme Court upheld Assembly Bill 1X 26 (Bill) that provides for the dissolution of all redevelopment agencies in the State of California. This action impacted the reporting entity of the City that previously had reported a redevelopment agency blended component unit. The Bill provides that upon dissolution of a redevelopment agency, either the City or another unit of local government will agree to serve as the "successor agency" to hold the assets until they are distributed to other units of state and local government. On January 24, 2012, the City Council elected to become the Successor Agency for the former Redevelopment Agency (RDA) in accordance with the Bill as part of County Resolution number 12-7.

After enactment of the law, which occurred on June 28, 2011, redevelopment agencies in the State of California cannot enter into new projects, obligations or commitments. Subject to the control of a newly established oversight board, remaining assets can only be used to pay enforceable obligations in existence at the date of dissolution (including the completion of any unfinished projects that were subject to legally enforceable contractual commitments).

In future fiscal years, successor agencies will only be allocated revenue in the amount that is necessary to pay the estimated annual installment payments on enforceable obligations of the former redevelopment agency until all enforceable obligations of the prior redevelopment agency have been paid in full and all assets have been liquidated.

The Bill directs the State Controller to review the propriety of any transfers of assets between redevelopment agencies and other public bodies that occurred after January 1, 2011.If the public body that received such transfers is

not contractually committed to a third party for the expenditure or encumbrance of those assets, the State Controller is required to order the available assets to be transferred to the public body designated as the successor agency by the Bill.

Management believes, in consultation with legal counsel, that the obligations of the former RDA due to the City are valid enforceable obligations payable by the Successor Agency trust under the requirements of the Bill.

In accordance with the timeline set forth in the Bill (as modified by the California Supreme Court on December 29, 2011), all redevelopment agencies in the State of California were dissolved and ceased to operate as a legal entity as of February 1, 2012.

After the date of dissolution, as allowed under Section 34176(a) of the Bill, the City elected to retain the housing assets and functions previously performed by the former RDA. The assets and activities for the Successor Agency Housing fund continue to be reported in the City's governmental fund financial statements. The remaining assets, liabilities, and activities of the dissolved RDA, are reported in the Successor Agency fiduciary fund (private-purpose trust fund) in the financial statements of the City.

As of June 30, 2016, one of the obligations under the Successor Agency trust is associated with the 10th Street Place Project:

Reimbursement agreement with the City totaling $19,566,862. The original loan is from the City's 1998 Lease Revenue Bonds and the 2007 Lease Revenue Bonds that pertain to the Successor Agency. On August 28, 2008, the City refinanced the entire outstanding balance of the City's 1998 Lease Revenue Bonds and the 2007 Lease Revenue Bonds with variable rate 2008 Lease Revenue Bonds. The new balance has been provided as of June 30, 2016 that pertains to the Successor Agency. Additional information related to the 2008 Lease Revenue bonds is provided in Note II-C under the Lease Revenue Bonds – Governmental Activities section.	$16,328,450

Annual debt service requirements to maturity are as follows:

Year Ending June 30,	Principal	Interest	Total
2017	$532,150	$839,935	$1,372,085
2018	491,550	812,745	1,304,295
2019	539,400	787,147	1,326,547
2020	580,000	760,238	1,340,238
2021	629,300	731,626	1,360,926
2022-2026	4,057,100	3,123,625	7,180,725
2027-2031	5,550,600	1,948,446	7,499,046
2032-2035	3,948,350	487,064	4,435,414
Total	$16,328,450	$9,490,826	$25,819,276

The reserves for the Reimbursement Agreement are recorded in the Public Financing Authority debt service fund for the City.

No-interest loan payable to the Stanislaus County Economic Development Bank loan program, for the purpose of funding the Kansas Avenue Business Park Project's Master Plan costs. The Agency has no obligation to begin repayment until the Project is completed and revenues begin; final payment is due in 2016 if not repaid sooner.

Future debt service requirements to maturity for loans payable, as of June 30, 2016, are as follows:

Year Ending June 30	Principal	Interest	Total
2018	$ 405,000	$ 0	$ 405,000
Total	$ 405,000	$ 0	$ 405,000

As of June 30, 2016, the Successor Agency was obligated for the following long-term debt in conjunction with the Community Center Project:

1993 Refunding Certificates of Participation; serial certificates with annual maturities on November 1 in amounts ranging from $800,000 to $1,040,000; interest rates from 5.3% to 5.6%; and in the amount of $12,235,000 at 5.0% maturing November 1, 2023, with annual payment of $1,090,000 to $1,610,000 beginning in 2011.	$10,895,000

Future debt service requirements to maturity for the Certificates of Participation, as of June 30, 2016, are as follows:

Year Ending June 30,	Principal	Interest	Total
2017	$1,135,000	$516,375	$1,651,375
2018	1,195,000	458,125	1,653,125
2019	1,260,000	396,750	1,656,750
2020	1,320,000	332,250	1,652,250
2021	1,385,000	264,625	1,649,625
2022-2024	4,600,000	352,750	4,952,750
Total	$10,895,000	$2,320,875	$13,215,875

The former RDA also has a few outstanding obligations related to reimbursements for parking expenses with Westland Development Company and payments to the Tenth Street Joint Power Agency for maintenance for common areas in the Tenth Street Place. These amounts are all reported in the Successor Agency in the Fiduciary financial statements under the Private-Purpose Trust Fund.

K. NOTES AND LOANS RECEIVABLE

The notes receivable in the Housing and Community Development and Other Governmental Funds of $54,679,074 net of $201,943 allowance for doubtful accounts, consist of loans made for low-income housing rehabilitation, first-time homebuyers, property improvement and small business origination. The loans are collateralized by deeds of trust on the improved properties or business assets, and are generally bearing annual interest at 3 or 5 percent. Some direct loans may be subject to forgiveness, some are interest free and require no repayment of principal until the loans reach maturity, and some are subject to residual receipt payment agreements. Loan terms range from 5 to 55 years.

L. APPROVED LOANS PAYABLE

The approved loans payable in the Housing and Community Development Special Revenue Fund of $1,998,464 consist of amounts being held for rehabilitation of properties using funds provided by federal grants. This liability is expected to be liquidated in less than a year.

The approved loans payable in the Governmental Activities related to the Successor Redevelopment Housing Agency of $575,000 consists of amounts being held for affordable housing for the Palms Valley and Village One Town Center. The liability is expected to be liquidated within a long-term period.

M. POLLUTION REMEDIATION LIABILITY

The City reported a liability in the Water and Sewer Enterprise funds, which represents the recoveries the City has collected less any remediation and legal costs incurred in pursuit of mitigating damages from the manufacturers of perchlorethylene, or PCE, a common chemical used in the dry cleaning industry. This chemical has seeped into the groundwater through sewer lines when improperly disposed, and threatens the City's groundwater supplies. Modesto has been proactive in attempting to recover damages and future cleanup costs from the dry cleaners and their insurers, and has also initiated litigation with the manufacturers. As of June 30, 2016, the City reported a pollution remediation liability from the Water and Sewer funds in the amount of $8,998,408 and $10,210,999, respectively.

In addition, in the Compost Fund, a liability was reported related to the Carpenter Road Landfill which is a 39-acre City owned landfill, located on both the east and west sides of Carpenter Road between Kenneth and Robertson Roads and the Tuolumne River, which was in operation from 1956 to 1968. This landfill precedes Subtitle-D and had no liner or leachate collection or removal system. In 1993, six methane gas monitoring wells were installed. In December 2005, there was a spike in the methane gas level at the landfill's Northern boundary. The State required the City to determine the cause and develop a mitigation and monitoring plan to ensure the landfill remained in compliance with the state statutes. In November of 2010, a Corrective Action Plan was proposed for the landfill involving hydrogen releasing compound injection. In October 2014, a revised Corrective Action Plan and post closure maintenance plan was submitted to the Central Valley Regional Water Quality Control Board (CVRWQCB). In March 2015, a Cleanup and Abatement Order was issued to the City of Modesto for the Carpenter Road Landfill by the California Regional Water Quality Control Board to complete the clean closure correction action plan by January 15, 2017. As of June 30, 2016, the City reported a pollution remediation liability from Compost Fund in the amount of $2,600,000.

N. DEFERRED INFLOWS/OUTFLOWS OF RESOURCES

Pursuant to GASB Statement No. 63, "Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position", the City recognized deferred outflows and inflows of resources in the entitywide and governmental fund statements. These items are an acquisition of net position by the City that is applicable to a future reporting period. On the governmental fund statements, the Housing and Community Development Fund reported deferred inflow of resources in the amount of $28,429,439 for unavailable resources related to note and grant receivables not meeting the period of availability. Previous financial reporting standards do not include guidance for reporting these in the financial statements, which are distinct from assets and liabilities. The items relate to outflows and inflows for net pension liability (Note III-G), swap hedging (Note II-C) and loss on refunding.

III. OTHER INFORMATION

A. RISK MANAGEMENT

The City is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to and illnesses of employees; and natural disasters. The City maintains the Insurance Internal Service Fund to account for and finance its risks of loss. Under this program, the City is self-insured for the following risks up to the maximum amount per claim/occurrence as follows: workers' compensation $500,000; liability $1,000,000. The City purchases commercial insurance for property loss, airport liability, and for claims in excess of the preceding self-insured coverage amounts.

For liability claims, the City is one of twelve members of the Authority for California Cities Excess Liability (ACCEL) risk pool. This pool covers City claims between $1,000,000 and $5,000,000. The purpose of the pool is to spread the adverse effect of losses among the member agencies. The City contributes its pro rata share of anticipated losses to the pool. Should actual losses among participants be greater than anticipated, the City will be assessed its pro rata share of that deficiency. Conversely, if the actual losses are less than anticipated, the City will be refunded its pro rata share of the excess. Commercial insurance covers claims over $5,000,000 in four excess layers, of $10,000,000 each and one additional layer of $5,000,000 above $45,000,000; for additional total coverage of $50,000,000 per claim. Settled claims have not exceeded this commercial coverage in any of the past five fiscal years.

All operating funds participate in the program and make payments to the Insurance Fund based on historical cost and/or actuarial estimates of the amounts needed to pay prior and current year claims, and to allow accrual of estimated incurred but not reported claims and allocated loss adjustment expenses. Insurance premiums to commercial insurers are also processed through the Insurance Fund . The total claims liability at June 30, 2016 is

$23,596,531 consisting of $18,914,425 workers' compensation, $4,466,977 general liability, $170,706 dental, and $44,423 vision. Workers' compensation and general liability claims liabilities are estimated on an actuarial basis, and are reported at their net present value using an expected future investment yield assumption of 3% (general liability) and 3% (workers' compensation). The undiscounted workers' compensation and liability claims totaled $22,498,536 and $4,737,467, respectively. The actuarial liability for workers' compensation and general liability were based on December 2015 actuarial reports.

The current portion of the total claims liability is estimated to be $5,033,143 and the balance of $18,563,388 is reported as a long-term liability on the statement of net position. Changes in the Insurance Fund claims liability during the fiscal years ended June 30, 2014 through June 30, 2016 were:

	Claims Liability July 1	Current-Year Claims and Changes in Estimates	Current-Year Claim Payments	Claims Liability June 30
2014-15	$22,284,679	$5,914,018	$(5,668,066)	$22,530,631
2015-16	22,530,631	9,732,872	(8,666,972)	23,596,531

B. COMMUNITY FACILITIES DEBT WITHOUT CITY COMMITMENT

Special assessment and community facilities districts have been established in various areas of the City to provide improvements to properties located in those districts. Properties are assessed for the cost of the improvements; these assessments are payable solely by the property owners over the term of the debt issued to finance the improvements. The City is not legally obligated to pay these debts or be the purchaser of last resort of foreclosed properties in the special assessment districts, nor is it obligated to advance City funds to repay this debt in the event of default by any property owners. The City functions as an agent for the property owners by collecting assessments and forwarding collections to trustees for payment to bond holders.

At June 30, 2016, the balance of these districts' outstanding debt was as follows:

Issue	Outstanding Amount
Village One #2 Community Facilities District	$29,000,000
Fairview Village Community Facilities District	4,245,000

C. CONDUIT DEBT OBLIGATIONS

From time to time, the City has issued revenue bonds to provide financial assistance to private-sector entities for the acquisition and construction of industrial, commercial, health care, and multiple-family housing facilities deemed to be in the public interest. The bonds are secured by the property financed and are payable solely from developer payments on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities transfers to the private-sector entity served by the bond issuance. Neither the City, the State, nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are considered conduit debt obligations and are not reported as liabilities in the accompanying financial statements.

As of June 30, 2016, there were two series of conduit revenue bonds outstanding. The aggregate principal amount payable for these multiple-family housing bond issues, issued between 1994 and 2002, was $7,975,000.

D. COMMITMENTS AND CONTINGENCIES

The City is involved in litigation relating to tort claims, workers' compensation claims and other claims such as contract actions and inverse condemnation actions for which the City is self-insured, as disclosed in Note III-A. The City is a defendant in various matters of litigation.

The City receives funding from a number of federal, state and local grant programs, principally the Federal Highway Administration, Community Development Block Grants, and Federal Transit Administration grants. These programs are subject to financial and compliance review by the grantors. Accordingly, the City's compliance with applicable grant requirements will be determined at some future date. Expenditures, if any, which may be disallowed by the granting agencies, cannot be determined at this time. The City does not expect the undeterminable amounts of disallowed expenditures, if any, to materially affect the basic financial statements. Receipt of these federal, state and

local grant revenues is not assured in the future.

The City has commitments of $12,397,729 for the City's governmental funds as of June 30, 2016 for contracts awarded but not completed and other outstanding purchase requisitions and orders. This amount consists of $2,167,175 in the General Fund, $264,782 in the Housing and Community Development, and $9,965,772 in other governmental funds. Commitments of the governmental funds are recorded in one of the classifications of fund balance based on the various funding restrictions on the balance sheet. As of June 30, 2016, there are major contracts for water (Gateway Pacific Contractors - $9.9 million and Knife River Construction - $2.5 million), sewer system improvements (Carollo Engineers - $4.7 million and Monterey Mechanical - $2.6 million), bus and vehicle purchases (vendors varies - $4.9 million), and Pelandale interchange reconstruction (Teichert - $32.6 million and Mendoza and Associates - $4.2 million).

E. JOINT VENTURES AND JOINTLY GOVERNED ORGANIZATION

Tuolumne River Regional Park

The City participates with Stanislaus County and the City of Ceres in the operation and development of the Tuolumne River Regional Park (TRRP). The governing body consists of 2 members from the County Board of Supervisors, 2 members from the Modesto City Council, and 1 member from the Ceres City Council. The TRRP board prepares the annual budget, which must be approved by both cities' councils and the board of supervisors. Each participant has an equity interest in the capital assets of TRRP based on the percentage of cumulative contributions paid. The City's contribution to TRRP was $108,462 for the fiscal year ended June 30, 2016. As of June 30, 2016 the City's investment in this joint venture was $789,981, and is included in governmental activities on the statement of net position. Financial statements for TRRP are prepared by the City of Modesto Finance Department.

Stanislaus Drug Enforcement Agency

Stanislaus County (County) and the cities of Modesto, Oakdale, Ceres, Patterson, Turlock, Riverbank, Hughson, Waterford and Newman are the participants in the Stanislaus Drug Enforcement Agency (SDEA). The purpose of the SDEA is to maintain a specially trained police unit to assist each of the participating agencies in the enforcement of drug control laws, and to study, plan, and set priorities for effective enforcement of such laws throughout Stanislaus County. The governing board consists of the sheriff of Stanislaus County and the chief of police of each participating city. All participants contribute to the funding of the SDEA budgeted expenditures, based on population and assessed property value. The City's cash contribution to the SDEA for the fiscal year ended June 30, 2016 was $167,454. The City's investment in this joint venture was estimated to be $285,975 as of June 30, 2016, based on the most recent available information. This amount is reported in governmental activities in the statement of net position. Financial statements of the SDEA are prepared by the City of Modesto Finance Department.

City-County Capital Improvements and Financing Agency

The City and Stanislaus County formed the City-County Capital Improvements and Financing Agency (Agency) to provide for the design, construction, ownership, operation, management and financing of a City-County administration center located in Modesto's downtown redevelopment area. The governing body is a commission consisting of 2 members of the City Council, 2 members of the County Board of Supervisors, the County Chief Executive Officer, and the City Manager. The commission is responsible for developing an annual budget and determining the annual contribution rates, subject to approval by both the City and the County. The Stanislaus County Auditor Controller was the fiscal administrator during the construction phase, which was final at the end of June 2003. Starting in July 1, 2010 the County Auditor Controller became the fiscal administrator. For the fiscal year ended June 30, 2016, the City's payments to the Agency were $798,017 for operations and capital reserve. The City's equity interest in the Agency is $9,130,070, equal to its capital asset contributions to date net of depreciation, and is reported in governmental activities as investments in joint ventures in the statement of net position. Financial statements of the Agency are prepared by the Stanislaus County Auditor Controller office.

Stanislaus Waste-to-Energy Financing Agency

The City participates with Stanislaus County in the Stanislaus Waste-to-Energy Financing Agency (Agency). The Agency was created to provide financing for a facility that generates power from solid waste. The costs of operating the Agency, if any, are shared equally by the participants. The governing body consists of 2 members each from the

County Board of Supervisors and the Modesto City Council. As of June 30, 2016, the City has no equity interest. Stanislaus County Treasurer's office prepares the Agency's financial statements.

Consolidated Emergency Dispatch Agency

The Modesto/Stanislaus Consolidated Emergency Dispatch Agency (the MSCEDA) was created on September 1, 1999, pursuant to a joint exercise of powers agreement between the City of Modesto and the County of Stanislaus. The MSCEDA is administered by a seven-member commission consisting of one member of the City Council, one member of the County Board of Supervisors, the County Chief Executive Officer, the City Manager, two members from the Dispatch Advisory Board, and one member from the City of Ceres' City Council or one member selected by the City Council of another participating City. The purpose of the MSCEDA is to consolidate the public safety communications system. The responsibilities of the agency include approval of annual budget, claims, liabilities, and the use of MSCEDA property as collateral. Each participant will contribute sufficient funds to pay for all costs and expenses associated with providing Emergency Dispatch Services. Upon termination of the agreement, assets will be distributed equally to the City and County, unless otherwise approved. The financial statements may be obtained by writing to the Modesto/Stanislaus Consolidated Emergency Dispatch, Office Manager, 3705 Oakdale Road, Modesto, California 95357.

North County Corridor Transportation Expressway Authority

On April 1, 2008, the City Council approved the establishment of a Joint Powers Authority between the County and the cities of Modesto, Oakdale and Riverbank to create the North County Corridor Transportation Expressway Authority (NCCTEA). The purpose of the Authority is to prepare, identify, and adopt a precise alignment, and prepare and certify environmental documents for a route to improve east/west traffic circulation in the County.

The intent of the NCCTEA is to provide a high capacity high speed east-west roadway to accommodate anticipated traffic growth, alleviate traffic on parallel roads, and to accommodate multi-modal travel. Under the terms of the agreement, the County will incur 40% of the costs of the project while each of the participating cities will be contributing 20%. The preliminary project development costs will be funded by State Transportation Program and Public Facility Fees. The NCCTEA Board of Directors will be comprised of two directors appointed by the County, and one director from each participating city. The board acts autonomously from the respective member agencies. The County of Stanislaus Public Works Director is designated as the NCCTEA's manager. Upon completion of the agreement, all assets will be distributed to the respective parties of the agreement as determined by the Board of Directors of the Authority. Financial statements may be obtained by writing to the County of Stanislaus, Public Works Department, 1716 Morgan Road, Modesto, CA 95358.

Stanislaus Animal Services Agency

The Stanislaus Animal Services Agency (SASA) was created October 27, 2009, pursuant to a joint powers agreement among the cities of Ceres, Hughson, Modesto, Patterson, Waterford, and the County of Stanislaus. SASA is administered by a six-member board comprised of the City Manager of each partner agency, and the Chief Executive Officer of the County. The purpose of SASA is to operate a regional agency providing animal services to their respective communities. The SASA Executive Director is responsible for the annual budget which must be approved by the SASA Board of Directors. Each partner agency will contribute sufficient funds to pay for all costs approved in the budget to provide animal services. Upon termination of the agreement, assets will be distributed in accordance with the joint powers agreement. The financial statements may be obtained by writing to the Stanislaus Animal Services Agency, Executive Director, 3647 Cornucopia Way, Modesto, CA 95358.

Regional Fire Training Center

The City has entered into an agreement with the Yosemite Community College District (YCCD) and Stanislaus County for the use and management of the regional fire training center at Modesto Junior College. The executive board consists of the YCCD Chancellor, the President of Modesto Junior College, the City Manager of the City of Modesto, and the Chief Executive Officer of Stanislaus County. The YCCD is responsible for accounting and for monitoring the center's budget. All three entities share in the operating costs. Initial construction costs were paid by the YCCD from borrowed funds, with the City and County reimbursing a portion of these costs in exchange for future use of the center. The City has paid its share of the construction costs in full. Title to the constructed asset is held by the YCCD; therefore, the City has no equity interest.

Stanislaus Regional Water Authority

The City participates in the Stanislaus Regional Water Authority, which was established between the City of Ceres, Modesto and Turlock on September 27, 2011. The purpose of the authority is direct the future of the proposed Regional Surface Water Supply Project (RSWSP). The authority would purchase water from the Turlock Irrigation District, would treat such water, and make treated water available "at cost" to the participating agencies. As of November 30, 2015, the City of Modesto withdrew from this Authority and no longer participates as a partner in this Authority. As of the withdrawn date of November 30, 2015, the City's payments to the Agency were $7,259. The City has no equity interest.

North Valley Regional Recycled Water Program (NVRRWP)

The City participates in the NVRRWP, which was established by the City of Modesto and Del Puerto Water District in November 2014. The purpose of this agreement is to develop, construct, operate and maintain water supply facilities and service. Through this agreement all partner agencies will cooperate and collaborate to use their best efforts regarding the submission of grants, loans and other funding resources to cover future cost related to the design and construction on future projects. At the end of the fiscal year June 30, 2016, the City has no equity interest.

F. POST-RETIREMENT HEALTH CARE DEFINED BENEFIT PLAN

Plan Description

In addition to the pension benefits described below in Note III-G, the City participates in an agent multiple-employer plan which provides health care benefits to employees who retire from the City based on certain criteria related to their hired and retirement date, under contractual agreements with all employee groups. All full-time employees hired before January 1, 2011, except firefighters who receive a cash payout, are eligible to set aside a percentage of accumulated sick leaves upon retirement to be used for payment of future health care premiums to a choice of insurance plans (sick leave conversion). The City has no obligation to pay the health insurance allowance for retirees with no accumulated sick leave. All employees hired on or after January 1, 2011 will not be eligible to participate in the sick leave conversion. As of June 30, 2016, there were 339 retirees receiving these health care benefits or a buy-out contribution to a retirement health savings account. If an employee elects to receive a buy-out contribution, they will be removed from the City's medical plan and will no longer be allowed to return to the City's medical plan.

The OPEB Plan provisions and benefits in effect at June 30, 2016, are summarized as follows:

	Police (including Management)	General Employees	Management	Fire	Fire Management
Benefit Types Provided	Medical, dental and vision	Medical, dental and vision	Medical, dental and vision	Medical, dental and vision	Medical, dental and vision
Duration of Benefits	One month per eight hours of converted sick leave	One month per eight hours of converted sick leave	One month per eight hours of converted sick leave	Lifetime	One month per eight hours of converted sick leave
City Health Allowance per month*	$621.00 for single; $1,100.00 with dependents	$621.00 for single; $1,100.00 with dependents	$621.00 for single; $1,100.00 with dependents	$122.00	$621.00 for single; $1,100.00 with dependents
	Police (including Management)	General Employees	Management	Fire	Fire Management
City Health Allowance per month**	N/A	$621.00 for single; $858 with spouse; $1,214 with dependents	N/A	N/A	N/A
City Health Allowance per month***	N/A	N/A	N/A	N/A	N/A

*Employees hired before January 1, 2011 and retired on or after October 23, 2012 through December 31, 2014 have had their sick leave conversion frozen with the health allowance.

**Employees hired before January 1, 2011 and retire after January 31, 2015 through December 31, 2015.

***Employees hired before January 1, 2011 and retire after December 31, 2015 (after January 31, 2015 for General Employees, after July 1, 2014 for Modesto Police Officers Association, and after August 26, 2014 for Modesto Police Management Association) will be subject to the City's new retirement program. The new retirement program will provide a City contribution to a Retirement Health Savings (RHS) account based on allowance. More information about the new retirement program is available under the City of Modesto Human Resources Department website under Compensation and Labor Agreements.

Except for the Fire group, the City health allowance amounts may increase each year based on the health allowance for active employees but for all union groups newly retired employees will not have this option due to these health allowances being frozen. For the Fire group, the City health allowance amounts increase each year in accordance with Government Code Section 22825.

Funding Policy and Actuarial Assumptions

The City's funding policy for the Plan is to fund benefits on a pay-as-you-go basis. The annual required contribution was determined as part of the January 1, 2015 actuarial valuation using the entry age normal actuarial cost method. This is a projected benefit cost method, which takes into account those benefits that are expected to be earned in the future as well as those already accrued. The actuarial assumptions included (a) 4% investment rate of return, (b) 7% graded down to ultimate 5% rate over 8 years Medical cost trend rate; 5% Dental/Vision cost trend rate (c) Projected salary increases are based on California Public Employee Retirement System (CalPERS) experience study released in 2014 for miscellaneous, police and fire (refer to chart below).

Actuarial valuations of an ongoing plan involve estimates of the value of reported amounts and assumptions about the probability of occurrence of events far into the future. Examples include assumptions about future employment, mortality, and the healthcare cost trend. Amounts determined regarding the funded status of the plan and the annual required contribution of the employer are subject to continual revision as actual results are compared with past expectations and new estimates are made about the future. The actuarial methods and assumptions used include techniques that are designed to reduce the short-term volatility in actuarial accrued liabilities and actuarial value of asset. Actuarially determined amounts are subject to continual revision as results are compared to past expectations and new estimates are made about the future. The City's OPEB unfunded actuarial accrued liability is being amortized as a level percentage of projected payroll on a closed basis.

Projections of benefits for financial purposes are based on the substantive plan (the plan as understood by the employer and plan members) and include types of benefits provided at the time of each valuation and the historical pattern of sharing benefit costs between the employer and the plan members to that point. Actuarial calculations reflect a long-term perspective and actuarial valuations involve estimates of the value of reported amounts and assumptions about the probability of events far into the future.

The remaining amortization period at June 30, 2016 was 20 years.

Projected Salary Increases
(CalPERS experience study released in 2014)

Service	Miscellanous	Police	Fire
0	11.60%	14.70%	19.80%
3	8.10%	7.80%	9.40%
5	6.00%	5.80%	6.40%
10	4.30%	4.30%	4.60%
15	4.00%	4.30%	4.20%
20	3.80%	4.30%	3.90%
25	3.60%	4.30%	3.70%
30	3.40%	4.30%	3.60%

The City has set aside $9,401,469 of Employee Benefits Management Internal Service Fund cash and investments to be used to fund the above benefits. Generally accepted accounting principles permit assets to be treated as OPEB assets and deducted from the Actuarial Accrued Liability when such assets are placed in an irrevocable trust or

equivalent arrangement. Since the City's Internal Service Fund does not meet this requirement, the assets have been excluded from the actuarial study and calculation. This funding policy means that the City contributions are considered to be on a pay-as-you-go basis. As a result, the City has calculated and recorded the Net OPEB Obligation, representing the difference between the annual required contribution and the pay-as-you-go contributions.

In prior years, the City estimated and recorded an accrued liability representing unfunded retiree pension costs in its Employee Benefits Management Internal Service Fund. In accordance with GASB 45, municipalities are permitted to retain an estimated liability for prior years unfunded OPEB costs, so long as it is calculated in a manner consistent with GASB Statement 27, which employed methodologies consistent with those now required under GASB 45.

The Plan annual required contributions and actual contributions for the fiscal year ended June 30, 2016 and the prior two years is set forth below:

Fiscal Year	Annual Required Contribution (ARC)	Interest on Net OPEB Obligations	ARC Adjustments	Annual OPEB Cost	Actual Contribution	Net OPEB Obligation	Percentage of Annual OPEB Cost Contributed
6/30/2014	$ 8,564,803	$ 2,470,678	$ (4,544,921)	$ 6,490,560	$ 4,818,434	$ 59,569,740	74.24%
6/30/2015	3,189,054	2,382,790	(4,383,246)	1,188,598	3,806,476	56,951,862	320.25%
6/30/2016	3,189,054	2,382,790	(4,383,246)	1,188,598	1,949,129	56,191,331	163.99%

The Schedule of Funding Progress is based on the most recent actuarial valuation as of January 1, 2015.

Actuarial Valuation Date	Actuarial Value of Assets (A)	Entry Age Actuarial Accrued Liability (B)	(Underfunded) Actuarial Accrued Liability (A-B)	Funded Ratio (A/B)	Covered Payroll (C)	(Underfunded) Actuarial Liability as Percentage of Covered Payroll [(A-B)/C]
01/01/2015	$0	$31,691,066	($31,691,066)	0.00%	$46,576,754	-68.04%

The schedule of funding progress, presented as RSI following the notes to the basic financial statements, presents multi-year trend information about whether the actuarial value of plan assets is increasing or decreasing over time relative to the actuarial accrued liability of benefits.

G. PENSION PLANS

I. General Information about the Pension Plans

Plan Descriptions

All City of Modesto qualified employees are eligible to participate in the City of Modesto separate Safety (police and fire) and Miscellaneous (all other) Plans, agent multi-employer defined benefit pension plans administered by the California Public Employees' Retirement System (CalPERS), which acts as a common investment and administrative agent for its participating member employers. Benefit provisions under the Plans are established by the State statute and City resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS website. This report is available online at www.calpers.ca.gov.

The California Legislature passed and the Governor signed the "Public Employees' Pension Reform Act of 2013" (PEPRA) on September 12, 2012. PEPRA contained a number of provisions intended to reduce future pension obligations. PEPRA primarily affects new pension plan members who are enrolled for the first time after December 2012. Benefit provisions and other requirements are established by State statute.

Benefits Provided

The benefits for the Plans are based on members' years of service, age, final compensation, and benefit formula. Benefits are provided for disability, death, and survivors of eligible members or beneficiaries. Members become fully vested in their retirement benefits earned to date after five years of credited service.

The Plans' provisions and benefits in effect at June 30, 2016 are summarized as follows:

Miscellaneous Plan:

Hire date	Prior to January 17, 2012	January 17, 2012 to December 31, 2012	On or after January 1, 2013
Benefit formula	2% @ 55	2% @ 60	2% @ 62
Benefit vesting schedule	5 years service	5 years service	5 years service
Benefit payments	monthly for life	monthly for life	monthly for life
Retirement age	50 to 67	50 to 67	52 to 67
Monthly benefits, as a % of eligible compensation	1.426 to 2.418%	1.092 to 2.418%	1.0 to 2.5%

Safety Plan:

Hire date	Prior to September 11, 2012	September 11, 2012 through December 31, 2012	On or after January 1, 2013
Benefit formula	3% @ 50	3% @ 55	2.7% @ 57
Benefit vesting schedule	5 years service	5 years service	5 years service
Benefit payments	monthly for life	monthly for life	monthly for life
Retirement age	50 to 55	50 to 55	50 to 57
Monthly benefits, as a % of eligible compensation	3.0%	2.4 to 3.0%	2.0 to 2.7%

Contributions
Section 20814(c) of the California Public Employees Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through the CalPERS' annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The City is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

For the measurement period ended June 30, 2015 (the measurement date) for the Plans, the average active employee contribution rate was 6.933% of annual pay for Miscellaneous and 9.101% for Safety and the employer's contribution rate is 13.539% of annual payroll for Miscellaneous and 34.304% for Safety. The employee and employer contributions made in for fiscal year June 30, 2016 was $10.0 million for the Miscellaneous plan and $13.9 million for the Safety plan. Employer contribution rates may change if plan contracts are amended.

II. Net Pension Liability

The City's net pension liability for each Plan is measured as the total pension liability, less the pension plan's fiduciary net position. The net pension liability of each of the Plans is measured as of June 30, 2015, using an annual actuarial valuation as of June 30, 2014 rolled forward to June 30, 2015 using standard update procedures.

A summary of principal assumptions and methods used to determine the net pension liability is shown below:

	Miscellaneous Plan	Safety Plan
Actuarial Cost Method	Entry-Age Normal	Entry-Age Normal
Actuarial Assumptions:		
Discount Rate	7.65%	7.65%
Inflation	2.75%	2.75%
Salary Increases	Varies by Entry Age and Service	Varies by Entry Age and Service
Investment Rate of Return	7.5% [1]	7.5% [1]
Mortality Rate Table[2]	CalPERS Membership Data	CalPERS Membership Data
Post Retirement Benefit Increase	Up to 2.75%	Up to 2.75%

[1] Net of Pension Plan Investment and Administrative Expenses; includes inflation
[2] The mortality table used was developed based on CalPERS specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB. For more details on this table, please refer to the 2014 experience study report.

All other actuarial assumptions used in the June 30, 2014 valuation were based on the results of an actuarial experience study for the period from 1997 to 2011, including updates to salary increase, mortality and retirement rates. The Experience Study report can be obtained at CalPERS website under Forms and Publications.

Discount Rate

The discount rate used to measure the total pension liability was 7.65 percent. To determine whether the municipal bond rate should be used in the calculation of a discount rate for each plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the current 7.65 percent discount rate is adequate and the use of the municipal bond rate calculation is not necessary. The long-term expected discount rate of 7.65 percent is applied to all plans in the Public Employees Retirement Fund. The stress test results are presented in a detailed report called "GASB Crossover Testing Report" that can be obtained at CalPERS' website under the GASB 68 section.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one-quarter of one percent.

The table below reflects long-term expected real rate of return by asset class as of the target allocation for the June 30, 2015 measurement date. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These geometric rates of return are net of administrative expenses.

Asset Class	New Strategic Allocation	Real Return Years 1 – 10(1)	Real Return Years 11+(2)
Global Equity	51.0%	5.25%	5.71%
Global Fixed Income	19.0	0.99	2.43
Inflation Sensitive	6.0	0.45	3.36
Private Equity	10.0	6.83	6.95
Real Estate	10.0	4.50	5.13
Infrastructure and Forestland	2.0	4.50	5.09
Liquidity	2.0	(0.55)	(1.05)

(1) An expected inflation of 2.5% used for this period
(2) An expected inflation of 3.0% used for this period

III. Changes in the Net Pension Liability

The changes in the Net Pension Liability for each Plan follows:

Miscellaneous Plan:

	Increase (Decrease)		
	Total Pension Liability (a)	Plan Fiduciary Net Position (b)	Net Pension Liability/(Asset) (c) = (a) - (b)
Balance at June 30, 2014 (1)	$ 394,909,831	$ 320,571,374	$ 74,338,457
Changes Recognized for the Measurement Period:			
Service Cost	5,768,082	-	5,768,082
Interest on the Total Pension Liability	28,873,755	-	28,873,755
Changes of Assumptions	(6,709,358)	-	(6,709,358)
Differences between Expected and Actual Experience	(3,177,191)	-	(3,177,191)
Plan to Plan Resource Movement	-	(188)	188
Contributions - Employer	-	5,632,179	(5,632,179)
Contributions - Employees	-	3,061,157	(3,061,157)
Net Investment Income	-	7,093,159	(7,093,159)
Benefit Payments, including Refunds of Employee	(20,945,229)	(20,945,229)	-
Administrative Expense		(355,544)	355,544
Net Change during 2014-15	3,810,059	(5,514,466)	9,324,525
Balance at June 30, 2015 (1)	$ 398,719,890	$ 315,056,908	$ 83,662,982

Safety Plan:

	Increase (Decrease)		
	Total Pension	Plan Fiduciary Net	Net Pension
Balance at June 30, 2014 (1)	$ 498,449,004	$ 372,472,672	$ 125,976,332
Changes Recognized for the Measurement Period:			
Service Cost	8,633,865	-	8,633,865
Interest on the Total Pension Liability	36,721,112	-	36,721,112
Changes of Assumptions	(9,188,394)	-	(9,188,394)
Differences between Expected and Actual Experience	(849,707)	-	(849,707)
Plan to Plan Resource Movement	-	211	(211)
Contributions - Employer	-	10,210,101	(10,210,101)
Contributions - Employees	-	2,800,626	(2,800,626)
Net Investment Income	-	8,215,387	(8,215,387)
Benefit Payments, including Refunds of Employee	(25,426,619)	(25,426,619)	-
Administrative Expense	-	(414,089)	414,089
Net Change during 2014-15	9,890,257	(4,614,383)	14,504,640
Balance at June 30, 2015 (1)	$ 508,339,261	$ 367,858,289	$ 140,480,972

(1) The fiduciary net position includes receivables for employee service buybacks, deficiency reserves, fiduciary self-insurance and OPEB expense. This may differ from the plan assets reported in the funding actuarial valuation report.

Sensitivity of the Net Pension Liability to Changes in the Discount Rate

The following presents the net pension liability of the Plan as of the measurement date, calculated using the discount rate of 7.65 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.65 percent) or 1 percentage-point higher (8.65 percent) than the current rate:

Miscellaneous Plan:

	Discount Rate - 1% (6.65%)	Current Discount Rate (7.65%)	Discount Rate + 1% (8.65%)
Plan's Net Pension Liability/ (Asset)	$ 133,899,156	$ 83,662,982	$ 41,898,828

Safety Plan:

	Discount Rate - 1% (6.65%)	Current Discount Rate (7.65%)	Discount Rate + 1% (8.65%)
Plan's Net Pension Liability/ (Asset)	$ 210,106,259	$ 140,480,972	$ 83,429,793

IV. Pension Expenses and Deferred Outflows/Inflows of Resources Related to Pensions

As of the start of the measurement period (July 1, 2014), the net pension liability was $74,338,457 for the Miscellaneous Plan and $125,976,332 for the Safety Plan.

For the measurement period ended June 30, 2015 (the measurement date), the City incurred a pension expense of $3,006,639 for the Miscellaneous Plan and $10,198,508 for the Safety Plan.

As of June 30, 2016, the City has deferred outflows and deferred inflows of resources related to pensions as follows:

Miscellaneous Plan:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Change of Assumptions	$ -	$ (4,845,647)
Differences between Expected and Actual Experiences	-	(2,294,638)
Net Difference between Projected and Actual Earnings on Pension Plan Investments	-	(3,222,232)
Contributions subsequent to the measurement date	6,919,036	-
Total	$ 6,919,036	$ (10,362,517)

Safety Plan:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Change of Assumptions	$ -	$ (7,051,558)
Differences between Expected and Actual Experiences	-	(652,101)
Net Difference between Projected and Actual Earnings on Pension Plan Investments	-	(3,623,913)
Contributions subsequent to the measurement date	12,158,068	-
Total	$ 12,158,068	$ (11,327,572)

The amounts above are net of outflows and inflows recognized in the 2014-2015 measurement period expense. The amounts above reported as deferred outflows of resources related to contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ending June 30, 2017.

Other amounts reported as deferred inflows of resources related to pensions will be recognized in future pension expense as follows:

Fiscal Year Ended June 30	Miscellaneous Plan	Safety Plan
2017	(4,946,358)	(4,855,658)
2018	(4,946,358)	(4,855,658)
2019	(3,847,853)	(4,855,659)
2020	3,378,052	3,239,403
Total	$ (10,362,517)	$ (11,327,572)

H. PRIOR YEAR ADJUSTMENTS

Governmental Activities

A prior year adjustment was reported in the Housing and Community Development Fund to increase the fund balance in the amount of $1,183,700 to account for loan payable disbursements not reported in the prior fiscal year. In other governmental funds, a grant accrual was reported incorrectly related to project expenditures not covered through the grant in the Capital Facility Fees fund which generated a reduction in fund balance by $190,305. The total amount for the prior year adjustment to increase fund balance for all governmental funds is $993,395.

Additionally, there were some corrections to various governmental capital assets that were identified as part of the annual inventory review, which generated an increase in net position in the amount of $256,569. The total amount reported for the Governmental Activities is a decrease in net position in the amount of $1,249,964.

Business-type Activities

For the Water Fund, capitalized interest was calculated for the 2008 Water Refunding Revenue bonds incorrectly. The change in net position included a reduction for the Water Fund in the amount of $4,086,842. The total amount reported for the business-type activities is a decrease in net position in the amount of $4,086,842.

I. DEFICIENCY OF EXPENDITURES OVER APPROPRATIONS

For the fiscal year ended June 30, 2016, expenditures exceeded appropriations as follows:

General Fund

Expenditures	Amount
Public Works Administration	$109,113
Interest Expenditures	8,307

Other Governmental Funds

Expenditures	Amount
Operating Grants – Parks and Recreation	$34,016

J. SUBSEQUENT EVENTS

On August 3, 2016, the City Council approved amending the budget for the North Valley Regional Recycled Water Program Project which will be funded by a new financing agreement in the amount of $56.9 million with the State Water Resources Control Board to fund the design and construction activities for this project. Part of this agreement is related to a $15 million grant and the remaining amount will be reported as a loan that will be repaid once construction is completed.

City of Modesto
Schedule of Changes in the Net Pension Liability and Related Ratios
For the Year Ended June 30th

Miscellaneous Plan

Measurement Period	2014-2015	2013-2014
TOTAL PENSION LIABILITY		
Service Cost	$ 5,768,082	$ 6,400,912
Interest on Total Pension Liability	28,873,755	28,037,915
Changes of Benefit Terms	-	-
Changes of Assumptions	(6,709,358)	-
Difference Between Expected and Actual Experience	(3,177,191)	-
Benefit Payments, Including Refunds of Employee Contributions	(20,945,229)	(20,334,821)
Net Change in Total Pension Liability	3,810,059	14,104,006
Total Pension Liability – Beginning	394,909,831	380,805,825
Total Pension Liability – Ending (a)	$ 398,719,890	$ 394,909,831
PLAN FIDUCIARY NET POSITION		
Contributions – Employer	$ 5,632,179	$ 4,654,055
Contributions – Employee	3,061,157	2,853,492
Net Investment Income	7,093,159	48,702,803
Other Miscellaneous Income	-	-
Benefit Payments, Including Refunds of Employee Contributions	(20,945,229)	(20,334,821)
Plan to Plan Resource Movement	(188)	-
Administrative Expense	(355,544)	-
Net Change in Fiduciary Net Position	(5,514,466)	35,875,529
Plan Fiduciary Net Position – Beginning	320,571,374	284,695,845
Plan Fiduciary Net Position – Ending (b)	$ 315,056,908	$ 320,571,374
Plan Net Pension Liability – Ending (a) - (b)	$ 83,662,982	$ 74,338,457
Plan Fiduciary Net Position as a Percentage of the Total Pension Liability	79.02%	81.18%
Covered-Employee Payroll (1)	$ 41,562,776	$ 44,125,963
Plan Net Pension Liability as a Percentage of Covered-Employee Payroll	201.29%	168.47%

(1) Covered-Employee payroll presented above is based on pensionable earnings provided by the employer. However, GASB 68 defines covered-employee payroll as the total payroll of employees that are provided pensions through the pension plan.

Benefit Changes: The figures above do not include any liability impact that may have resulted from plan changes, which occurred after June 30, 2014 as they have minimal cost impact. This applies for voluntary benefit changes as well as any offers of Two Years Additional Service Credit (a.k.a. Golden Handshakes).

Changes of Assumptions: The discount rate was changed from 7.5 percent (net of administrative expenses) to 7.65 percent.

City of Modesto
Schedule of Plan Contributions (1)

Miscellaneous Plan

Fiscal Year	2015-2016	2014-2015	2013-2014
Actuarially Determined Contribution (2)	$ 6,919,036	$ 5,632,179	$ 4,654,055
Contributions in Relation to the Actuarially Determined Contribution (2)	(6,919,036)	(5,632,179)	(4,654,055)
Contribution Deficiency (Excess)	-	-	-
Covered-Employee Payroll (3)(4)	$ 46,586,921	$ 41,562,776	$ 44,125,963
Contributions as a Percentage of Covered-Employee Payroll (3)	14.85%	13.55%	10.55%

Safety Plan

Fiscal Year	2015-2016	2014-2015	2013-2014
Actuarially Determined Contribution (2)	$ 12,158,068	$ 10,210,101	$ 8,963,542
Contributions in Relation to the Actuarially Determined Contribution (2)	(12,158,068)	(10,210,101)	(8,963,542)
Contribution Deficiency (Excess)	$ -	$ -	$ -
Covered-Employee Payroll (3)(4)	$ 32,027,013	$ 31,202,983	$ 31,090,551
Contributions as a Percentage of Covered-Employee Payroll (3)	37.96%	32.72%	28.83%

(1) Historical information is required only for fiscal year for which GASB 68 is applicable. As prescribed in GASB 68, paragraph 46, the information presented in the Schedule of Plan Contributions should also be determined as of the employer's most recent fiscal year-end. The employer is responsible for determining this information as prescribed by the standard as this data is not available to CalPERS.

(2) Employers are assumed to make contributions equal to the actuarially determined contributions. However, some employers may choose to make additional contributions towards their unfunded liability. Employer contributions for such plans exceed the actuarially determined contributions.

(3) Covered-Employee Payroll presented above is based on pensionable earnings provided by the employer. However, GASB 68 defines covered-employee payroll as the total payroll of employees that are provided pensions through the pension plan.

(4) Payroll from prior year was $30,294,158 for the Safety plan and $40,352,210 for the Miscellaneous plan was assumed to increase by 3.00% payroll growth assumption.

Notes to schedule:

The actuarial methods and assumptions used to set the actuarially determined contributions for Fiscal Year 2014-15 were as follows for June 30, 2012 actuarial valuations.

Actuarial Cost Method	Entry Age Normal
Amortization Method/Period	For details, see June 30, 2012 Funding Valuation Report.
Asset Valuation Method	Actuarial Value of Assets
Inflation	2.75%
Salary Increases	Varies by Entry Age and Service
Payroll Growth	3.00%
Investment Rate of Return	7.50% Net of Pension Plan Investment and Administrative Expenses; includes Inflation.
Retirement Age	The probabilities of Retirement are based on the 2010 CalPERS Experience Study for the period from 1997 to 2007.
Mortality	The probabilities of mortality are based on the 2010 CalPERS Experience Study for the period from 1997 to 2007. Pre-retirement and Post-retirement mortality rates include 5 years of projected mortality improvement using Scale AA published by the Society of Actuaries.

SCHEDULE OF FUNDING PROGRESS FOR OPEB

Actuarial Valuation Date**	Actuarial Value of Assets (A)	Entry Age Actuarial Accrued Liability (B)	(Underfunded) Actuarial Accrued Liability (A-B)	Funded Ratio (A/B)	Covered Payroll (C)		(Underfunded) Actuarial Liability as Percentage of Covered Payroll [(A-B)/C]
6/30/2010	$0	$104,399,231	($104,399,231)	0.00%	$81,027,934		(128.84%)
1/1/2013	0	78,245,964	(78,245,964)	0.00%	77,058,743		(101.54%)
1/1/2015	0	31,691,066	(31,691,066)	0.00%	46,576,754	(1)	(68.04%)

(1) Payroll decreased because it is limited to active participants with a liability.

CITY OF MODESTO
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
FISCAL YEAR ENDED JUNE 30, 2016

BUDGETARY INFORMATION - The City follows these procedures annually in establishing the budgetary data reflected in the budgetary comparison schedules for operating, non-capital multi-year, and capital budgets:

1. The City Manager submits to the City Council a proposed budget for the fiscal year commencing the following July 1. The budget includes proposed expenditures and the means of financing them for operating, non-capital multi-year and capital projects.

2. The City Council reviews the proposed budget at specially scheduled sessions, which are open to the public. The Council also conducts a public hearing on all proposed budgets to obtain comments from interested persons.

3. Prior to July 1, the budget is legally adopted through passage of an ordinance. .This budget is reported as the Original Budget in the budgetary comparison schedules.

4. During the fiscal year, changes to the Adopted Budget may be authorized, as follows:

    a. Authority to approve any adjustment in the amount of $25,000 or less is delegated to the Director of Finance.

    b. Authority to approve any adjustment in an amount between $25,000 and $50,000 is delegated to the City Manager.

    c. Authority for any budget adjustment more than $50,000 is delegated to the parties described below:

        a. Items requiring City Council Action – appropriation of undesignated reserves; appropriation of new revenues; transfers of appropriations between funds (inter-fund transfers); creation of inter-fund loans; creation of, or increase in, any multi-year appropriation.

        b. Items delegated to the City Manager – transfer appropriations between departments within a fund; changing any capital equipment appropriation; appropriation of reserves for litigation on a case-by-case basis; appropriation of developer payments not previously budgeted.

        c. Items delegated to the Director of Finance – appropriation of grant interest; revise the allocation of Internal Service Fund charges between departments provided that the total allocated amount does not increase; changing any capital improvement budget line item appropriation; make technical budget corrections to implement the intent of Council approved actions and resolutions.

        d. Items delegated to Department Directors – transfer appropriations within a department, within a single fund.

5. Formal budgetary accounting is employed as a management tool for all funds. Annual budgets are legally adopted and amended as required for the general, special revenue, enterprise and internal service funds. Project length budgets are adopted for the capital projects funds. All budgets are prepared on a basis consistent with generally accepted accounting principles (GAAP), and budgetary comparisons for the general and major special revenue funds are presented on this basis in the required supplementary information. A debt service payment schedule for the debt service funds is also approved as part of the budget process.

6. Budget amounts are reflected after all authorized amendments and revisions. This budget is reported as the Final Budget in the budgetary comparison schedules.

7. For each legally adopted operating budget, expenditures may not exceed budgeted appropriations at the appropriation unit level. The legal appropriation basis is at the level called "department". A "department" for legal appropriation purposes may be a single organization (e.g., City Attorney), or an entire department having multiple organizations within the same fund (e.g., Operations and Maintenance), or an entire fund (e.g., Downtown Improvement District). All departments and funds complete the year within their legally authorized expenditures except the Local Transportation Fund due to a budget error. Encumbrance accounting, under which purchase orders, contracts and other commitments are recorded to reserve the applicable appropriations, is employed in the governmental funds.

   The City does, however, honor the contracts represented by year-end encumbrances and the subsequent year's appropriations provide authority to complete these transactions.

This page is intentionally left blank.

COMBINING AND INDIVIDUAL FUND STATEMENTS AND SCHEDULES

Nonmajor Governmental Funds

Nonmajor Special Revenue Funds

Special Revenue Funds include funds which are restricted as to use by the Federal or State governments, and special purpose funds established by authority of the City Council. Nonmajor Special Revenue Funds include:

OPERATING GRANTS FUND – To account for a variety of governmental fund operating grants, including law enforcement grants.

LOCAL TRANSPORTATION FUND – To account for revenues and expenditures of Local Transportation Fund allocations for streets, urban trails, and non-motorized facilities. Allocations for the City bus system are reported directly in the Bus Enterprise Fund.

TRAFFIC SAFETY FUND – To account for receipts and expenditures of traffic safety fines.

DOWNTOWN IMPROVEMENT DISTRICT FUND – To account for the fiscal activities of Business Improvement Area A of the City of Modesto.

STRATEGIC PLANNING AND DEVELOPMENT FUND – Established to provide a funding source for future village planning, general plan update and other large expenses related to planning and development. This fund was originally financed with an apportionment of the PERS rebate related to AB702. Subsequent funding has been provided by transfers from the General Fund. Future funding will be provided by fees imposed on private development.

SPECIAL GAS TAX STREET IMPROVEMENT FUND – To account for state-collected, locally-shared gas tax monies. This fund may be used for all street and traffic purposes including construction, purchase of rights-of-way, and maintenance.

Nonmajor Capital Projects Funds

Capital Projects Funds are used to account for financial resources to be used for the acquisition or construction of major capital facilities other than those financed by proprietary funds. Nonmajor Capital Projects Funds include:

SPECIAL FUND FOR CAPITAL OUTLAYS – To account for capital outlay authorized by the City Council. No monies placed in this fund are to be disbursed except for this purpose unless authorized by a vote of the people.

PARKS FUND – To account for a discretionary transfer of General Fund property tax revenue to provide for the development of parks within the City, as directed by the City Council.

SECURITIES FOR FUTURE IMRPOVEMENTS FUND – To account for the collection of impact fees for approved development projects to construct facilities needed for future development.

CAPITAL GRANTS – To account for receipts and disbursements of a variety of Governmental Fund capital grants.

COMMUNITY FACILITIES DISTRICTS FUND – To account for the construction of public improvements deemed to benefit properties against which special taxes are levied.

SUCCESSOR REDEVELOPMENT HOUSING AGENCY FUND – To account for the housing redevelopment capital projects financed by the Successor Redevelopment Housing Agency of the City of Modesto.

CAPITAL FACILITY FEES FUND – To account for special fees collected on new building permits to be used for construction of certain growth related projects. The fees and related capital projects include police department expansion, fire department expansion, expressway loop, street lights, street improvements, parks, new traffic signals, City downtown, wastewater treatment, public transportation, and air quality improvements.

Nonmajor Debt Service Fund

Debt Service Funds are used to account for the accumulation of resources for, and the payment of, general long-term debt principal and interest. Nonmajor Debt Service Fund includes:

PUBLIC FINANCING AUTHORITY FUND – To account for payment of debt issued to finance projects authorized by the Modesto Public Financing Authority.

Nonmajor Enterprise Funds

Enterprise Funds are established to account for activities that render services on a user-charge basis to the general public. Nonmajor Enterprise Funds include:

PARKING FUND – Revenues in this fund consist of charges for off-street parking and the downtown parking garage, as well as in-lieu parking fees. The revenue is used to develop and maintain parking facilities.

STORM DRAIN FUND – To account for storm drain improvements, operations and maintenance. The activities of the fund include street cleaning, rock well maintenance, and compliance with Federal and State water quality standards on storm water discharge.

COMPOST FUND – To account for tip fees charged at the City's composting facility for processing various compostable materials and the sale of compost product. Excess revenues over expenses are set aside to protect the enterprise against market fluctuations, and to provide for capital improvements to the facility infrastructure.

AIRPORT FUND – To account for all airport operations as stipulated in the City-Stanislaus County agreement of January 1968. Amounts received from the Federal government, State of California, and Stanislaus County, requiring matching amounts by the City, are recorded in this fund and are appropriated to finance approved capital projects.

GOLF FUND – Revenues in this fund consist of fees charged for using the City's golf courses. The revenue is used to improve, operate, and maintain golf courses.

COMMUNITY CENTER FUND – Accounted for in this fund are all amounts collected for the purpose of operating and maintaining the Modesto Centre Plaza Community Center. Revenues include room rental, catering fees, ticket sales, and other charges for using the center.

ABATEMENT AND PUBLIC NUISANCE FUND – To account the activity for expenses and recovery for the cost for both dangerous and unsafe building and property abatements.

Internal Service Funds

Internal Service Funds are established to finance and account for services and commodities furnished by a designated agency of a governmental unit to other departments of the same governmental unit. Since the services and commodities are supplied exclusively to other departments of a governmental jurisdiction, they are distinguishable from those public services which are rendered to the public in general and which are accounted for in General, Special Revenue, or Enterprise Funds. Internal Service Funds include:

FLEET MANAGEMENT FUND – To provide the maintenance necessary for the City's equipment pool, which serves the needs of all City departments.

CENTRAL SERVICES FUND – To provide office supplies, various maintenance and construction materials, records storage, and mail services to all City departments.

INFORMATION AND TECHNOLOGY SERVICES FUND – To finance and account for the replacement, upgrade and maintenance of the City's network and technology infrastructure, and to develop and implement a coordinated city-wide information technology plan.

INSURANCE FUND – To finance and account for the City's insurance and risk management programs.

EMPLOYEE BENEFITS MANAGEMENT FUND – To account for all compensated absences and other employee benefits. Insurance benefits for current employees are accounted for in the Insurance Fund.

BUILDING SERVICES FUND – To account for the true cost of occupying and maintaining office space, to better reflect the value of that space, and to accumulate amounts for future building repair costs.

AGENCY FUNDS

Agency Funds account for assets held by the City as an agent for individuals, governmental entities and non-public organizations.

SPECIAL DISTRICTS - To account for collection of special district assessments from property owners and forwarding these collections to trustees for payment to bondholders.

TUOLUMNE RIVER REGIONAL PARK - To account for cash and investments of the Tuolumne River Regional Park, a joint powers agency between the City of Modesto, Stanislaus County and City of Ceres. The agency provides financing, development, and maintenance of the Tuolumne River Regional Park facilities. The cash and investments of the Park are invested as part of the City's investment pool.

STANISLAUS DRUG ENFORCEMENT AGENCY - To account for cash and investments of the Stanislaus Drug Enforcement Agency, a joint powers agency between Stanislaus County and the cities of Modesto, Oakdale, Turlock, Ceres, Hughson, Newman, Patterson, Riverbank, and Waterford. The agency's purpose is to maintain a specially trained police unit to assist each of the participating agencies in the enforcement of drug control laws, and to study, plan, and set priorities for effective enforcement of such laws throughout Stanislaus County. Cash and investments of the Agency are invested in the City's investment pool.

INDUSTRIAL FIRE DISTRICT - To record and distribute the special assessments for fire protection that were established under the Industrial Fire District. This is a joint powers agency between the Modesto Regional Fire Authority, the City of Ceres, and the Industrial Fire District. Cash and investments of the Agency are invested in the City's investment pool.

STANISLAUS REGIONAL WATER AUTHORITY - To account for cash and investments of the Stanislaus Regional Water Authority, a joint powers agency between the City of Modesto, City of Turlock and City of Ceres. The agency provides direction for the future of the proposed Regional Surface Water Supply Project. The cash and investments of this agency are invested as part of the City's investment pool.

MODESTO REGIONAL FIRE AUTHORITY - To account for cash and investments of the Modesto Regional Fire Authority, a joint powers agency between the City of Modesto, Stanislaus County and Salida Fire Protection District. The agency provides fire suppression, protection and prevention, emergency management and related services. The cash and investments of this agency are invested as part of the City's investment pool.

CITY/COUNTY JOINT POWERS FINANCING AUTHORITY - To account for cash and investments of the City/County Capital Improvements and Financing Agency, a joint powers agency between the City of Modesto and Stanislaus County. The agency builds and maintains a joint City-County government complex in downtown Modesto. The cash and investments of the Agency are invested as part of the City's investment pool.

STATISTICAL SECTION
DIVIDER

STATISTICAL SECTION

Statistical Section

This part of the Comprehensive Annual Financial Report presents detailed information to aid in understanding what the information in the financial statements, note disclosures, and required supplementary information says about the City's overall financial health. In contrast to the financial section, the statistical section information is not subject to independent audit.

Financial Trends
These schedules contain trend information to help the reader understand how the City's financial performance has changed over time:

1. Net Position by Component
2. Changes in Net Position
3. Fund Balances of Governmental Funds
4. Changes in Fund Balances of Governmental Funds

Revenue Capacity
This schedule gives information on the City's most significant local revenue source, the water usage charges:

1. Water Utility System – Ten Largest Customers
2. Water revenues by customer class
3. Water rates

Debt Capacity
These schedules present information to help the reader assess the affordability of the City's current levels of outstanding debt and the City's ability to issue additional debt in the future:

1. Ratio of Outstanding Debt by Type
2. Computation of Direct and Overlapping Debt
3. Computation of Legal Debt Margin
4. Revenue Bond Coverage, Wastewater Revenue Bonds

Demographic and Economic Information
These schedules offer demographic and economic indicators to help the reader understand the environment within which the City's financial activities take place:

1. Demographic and Economic Statistics
2. Principal Employers
3. Principal Property Taxpayers

Operating Information
These schedules contain service and infrastructure data to help the reader understand how the information in the City's financial report relates to the services the City provides and the activities it performs:

1. Full-Time City Government Employees by Function
2. Operating Indicators by Function
3. Capital Asset Statistics by Function/Program

Sources: Unless otherwise noted, the information in these schedules is derived from the Comprehensive Annual Financial Reports for the relevant year.

Total primary government net position	$724,416,294	$804,854,466	$829,777,447	$824,207,474	$1,030,341,625	$1,047,688,542	$1,088,996,929	$1,109,651,087	$967,537,924	$978,430,122

1) Accounting standards require that net position be reported in three components in the financial statements: net investment in capital assets; restricted; and unrestricted. Net position is considered restricted when a) externally imposed by creditors (such as debt covenants), grantors, contributors, or laws or regulations of other governments or b) imposed by law through constitutional provisions or enabling legislation.
2) The significant decrease in net position was due to the implementation of GASB 68 related to the City's net pension liability.

(1) The amount reported under utility users taxes and property taxes were keyed backwards in 2011. The amounts have been fixed to reflect the correct numbers in these two categories.
(2) Due to the dissolution of the Redevelopment agencies, no tax increments will be reported on the entity-wide statements.
(3) Starting in 2015, connection fee revenues were reported as part of program revenues for the Water fund.
(4) Starting in 2015, the special item related to pollution remediation has been reported as a liability. Any expenses incurred will be accounted for as a reduction to the liability.
(5) Starting in 2015, general revenues for grants and contributions not restricted to specific programs other related governmental activities were reclassified to provide more specific category revenue types.

Note: Debt amounts are gross outstanding at year end without including any premiums, discounts, or other amortization amounts.
(a) See Demographic and Economic Statistics for personal income and population data.
(b) The MID Treatment and Delivery issued by MID on behalf of the City has been reported as a City liability.
(c) The Certificates of Participation bonds for the Governmental Activities due to the dissolution of the Redevelopment Agency.
(d) In 2011, the OPEB was reported in the Certificates of Participation in error. In 2012 the Loans payable increase from the bond reimbursements related to the State Revolving loan approved for the construction of a new tertiary treatment plant.
(e) In 2015, the Reimbursement agreement with MID was reclassified from revenue bonds payable to reimbursement agreement related to MID since this long-term debt is listed under MID but is the City's liability due to nature of the treatment and delivery agreement.
(f) The total for Business-Type Activities did not include the capital leases in error. The total has been updated to account for this debt.
(g) Starting in 2016, the amounts presented include net of unamortized premiums or discounts.

CITY OF MODESTO
COMPUTATION OF DIRECT AND OVERLAPPING DEBT
JUNE 30, 2016

Jurisdiction	Net Debt Outstanding (1)	Percentage Applicable to City of Modesto (2)	Amount Applicable to City of Modesto
Direct debt:			
City of Modesto	$ 60,313,419	100%	$ 60,313,419
Overlapping General Obligation debt - school districts:			
Ceres Unified School District	66,483,128	4.82%	3,206,785
Hart-Ransom Union School District	3,782,873	30.76%	1,163,692
Modesto Elementary School District	9,655,360	78.06%	7,537,443

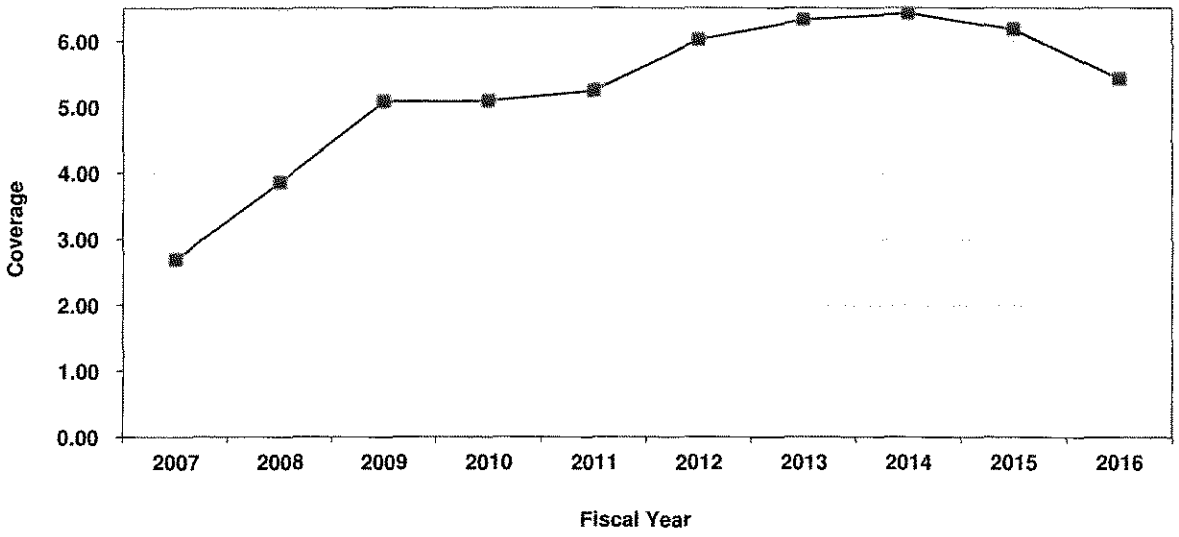
WASTEWATER REVENUE BONDS
LAST TEN FISCAL YEARS (4)



Fiscal Year	Gross Revenue (1)	Operating Expenses (2)(4)	Net Revenue Available for Debt Service	Debt Service Requirements(3)	Coverage
2007	$ 26,367,977	$ 16,399,785	$ 9,968,192	$ 3,705,523	2.69
2008	32,214,071	16,280,914	15,933,157	4,127,837	3.86
2009	37,539,860	17,050,138	20,489,722	4,030,633	5.08
2010	39,086,504	18,161,292	20,925,212	4,110,221	5.09
2011	39,844,523	18,722,729	21,121,794	4,021,108	5.25
2012	43,453,216	19,287,894	24,165,322	4,014,808	6.02
2013	45,018,125	19,586,799	25,431,326	4,019,558	6.33
2014	47,233,028	19,860,430	27,372,598	4,261,980	6.42
2015	46,853,368	21,207,025	25,646,343	4,150,322	6.18
2016	50,207,559	25,418,140	24,789,419	4,570,286	5.42

Notes: (1) Consists of all receipts of the Sewer fund not dedicated to capital spending purposes and including charges for services, connection fees, interest and rental income.
(2) Reflects total sewer fund operating expenses less depreciation; also includes certain transfers out that are made for operational costs incurred in other funds.
(3) Includes total principal and interest of Wastewater Refunding Revenue Bonds Series 2005 A and 2005 B and 2006 Wastewater Revenue Bonds.
(4) The amount reported in 2014 was corrected from $28,203,399 to $19,860,430. The former amount included $8.4 million for the State Revolving Fund loan which should not have been included in the calculation.

Connection charge information: The Sewer Enterprise imposes connection fees on an on-time basis to new users of the sewer system and to users who significantly expand their usage. The fees have three components:

Capacity charge:	$ 2,643 per Equivalent Dwelling Unit for residential units. Commercial and industrial property charged based on type of business.
Sub-trunk sewer charge:	$645 per acre
Connection (lateral) charge:	$33 per linear foot of lot frontage adjacent to the sewer line.

Customer Base by Type of Account

(1) In fiscal year 2012-13, the amount reported for Charges for Services was incorrectly reported in the amount of $59,906,488. The correct amount is $56,906,488 which is reflected in the table above.

(2) Service Credits are reimbursements from other City funds of costs associated with employee time worked on other projects. In fiscal year 2009-10 Cashiering, Utilities, and Collections division was moved into the Water Fund. This caused a structural change and in return an increase in service credits.

(3) Beginning in fiscal year 2008-09 total operating expenses increased as a result of the initiation of a meter program and increases in costs associated with supplies, maintenance, water treatment litigation and administration.

(4) Operating transfers in fiscal year 2008-09 increased due to an administrative oversight and funds were returned to the correct fund.

(5) Includes operating transfers for building rental fee of $65,000 annually and commencing in fiscal year 2009-10 $700,000 annual transfer to the Storm Drain Fund to actively protect the groundwater supply source from contamination. In fiscal year 2011-12 $668,610 a one time transfer for information technology internal service funds.

(6) In fiscal year 2009-10, the City made a prior period adjustment to reclassify certain operating costs previously recorded as capital improvements. This prior period adjustment has been reflected in this table in the years costs were incurred.

(7) Total operating expenses excludes depreciation and amortization, as well as the debt service component under the Treatment and Delivery Agreement.

(8) 1997 COPS were prepaid in full in fiscal year 2010-11

(9) Debt service payment increased by $4.1 million in fiscal year 2010-11 due to the expiration of capitalized interest.

(10) The sale of the Waterford-Hickman Water System for $2.6 million had a significant impact to the Water Fund debt service calculation. Without the sale of this system Water Fund debt service coverage would have been 1.35.

Draw from (deposit to) rate stabilization fund	-	-	-	-	-
Service credits	2,725,722	2,752,980	2,780,509	2,808,314	3,026,911
Miscellaneous	17,414	17,762	18,118	18,480	20,000
GF (parks loan) P/I	53,500	53,500	53,500	53,500	53,500
Total gross operating revenues	$62,742,632	$69,306,729	$75,271,030	$81,772,460	$89,048,189
Operating expenses[3]	41,702,000	42,521,000	43,307,000	44,134,000	44,978,000
Operating transfers	765,000	765,000	765,000	765,000	765,000
Total operating expenses[4]	$42,467,000	$43,286,000	$44,072,000	$44,899,000	$45,743,000
Net operating revenues	20,275,632	26,020,729	31,199,030	36,873,460	43,305,189
2008 Revenue Certificates of Participation	2,835,077	2,835,077	2,835,077	2,835,077	2,835,077
MID Treatment & Delivery Agreement	10,149,792	10,149,792	10,149,792	10,149,792	10,149,792
CDWR Loan	132,359	-	-	-	-
ARRA Grant	36,289	36,289	36,290	36,290	36,290
Total debt service	$13,153,517	$13,021,158	$13,021,159	$13,021,159	$13,021,159
Debt service coverage	1.54	2.00	2.40	2.83	3.33

(1) Calculated in conformity with the Contract and Trust Agreement.
(2) Revenues do NOT include a Consumer Price Index (CPI) increase. There were approved water rate increases as follows: FY 2016/17 25.04%, FY 2017/18 11.08%, FY 2018/19 9.00%, FY 2019/20 9.00%, and FY 2020/21 9.00%.
(3) Operating expenses have assumed an inflationary rate of 4% in 2017-21.
(4) Total operating expenses exclude depreciation and amortization, as well as the debt service component under the MID Treatment & Delivery Agreement.

* Please note that all of the projections have been updated to account for no annual CPI adjustment being used as well as drought impacts to the Water Fund. A current Water rate study is underway and will be completed by the start of FY2016-17.

Independent Auditor's Report

The Honorable City Council
of the City of Modesto, California

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the City of Modesto Community Facilities District Number 1998-2 (Carver-Bangs/Pelandale-Snyder) (the District), a component unit of the City of Modesto, California, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly in all material respects the respective financial position of the governmental activities and each major fund of the District as of June 30, 2016, and the respective changes in financial position thereof and the respective budgetary comparison for the Special Revenue Fund for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2016, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 1998-2 (CARVER-BANGS/PELANDALE-SNYDER)
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

The City of Modesto Community Facilities District No. 1998-2 (Carver-Bangs/Pelandale-Snyder) (the District) has issued its financial statements in the format prescribed by the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34, which requires the District to provide this overview of its financial activities for the fiscal year.

Please read this overview in conjunction with your reading of the accompanying basic financial statements.

THE PURPOSE OF THE DISTRICT

The District is a component unit of the City of Modesto (City). It is controlled by the City, and the City Council is the District's governing body. City employees perform most of the duties and functions required of the District, but certain tasks are provided by third parties under contract.

The District's purpose under California law is to provide a funding mechanism for public facilities and services authorized by the District. The District is the vehicle that will be used to ensure that all landowners in the Specific Plan area contribute to the cost of the public facilities and services. Additional information on the District can be found below, and in Note 1 to the accompanying financial statements.

BACKGROUND AND MANAGEMENT'S DISCUSSION

The Carver-Bangs Specific Plan (Resolution No. 97-1 61) was adopted by the City Council on April 1, 1997, and was subsequently amended on November 4, 1997 (Resolution No. 97-633). The Carver-Bangs Specific Plan has been developed under the City's Village Residential guidelines and should yield approximately 800 single-family residential units. On January 16, 1996, the City Council approved the Pelandale-Snyder Specific Plan (Resolution No. 95-16) and amended the Pelandale-Snyder Specific Plan on March 18, 1997 (Resolutions 97-136 and 97-139). The Pelandale-Snyder Specific Plan area contains approximately 227 acres designated as single-family residential and approximately 57 acres are designated multi-family residential.

In December 1998, the City formed the District to provide a funding and reimbursement mechanism for public facilities and services required to serve the Carver-Bangs and Pelandale-Snyder Specific Plan areas in the City and to fund ongoing maintenance costs. Portions of both Specific Plan areas were included within the initial boundaries of the District and the remainder of the property within both Specific Plan areas, excluding a remainder parcel, have annexed to the District.

As a condition of development, developers are required to install various public improvements that will serve the increased population generated from the projects. Many of these improvements must be provided in the early stages of development and, therefore, the first developer(s) to build within the Specific Plan areas must install the improvements. The District was established as a funding/reimbursement for many of the improvements. Up until a few years ago, developers installed most of the improvements. The developers received a cash reimbursement or tax credit equal to the cost of that improvement(s) as set forth in the Public Report adopted in connection with the formation of the District.

Over the past several years, the City has designed and overseen the installation of the improvements. Construction of the storm drain pump stations located at the East and West Basins on Prescott Road between Pelandale and Snyder was completed in the summer of 2007 while the Snyder Avenue widening project between Prescott Road and Carver Road commenced in the spring of 2008. Design of the bike trail commenced in 2009.

FISCAL YEAR 2016 FINANCIAL HIGHLIGHTS

Financial highlights of the year include the following:

Government-Wide:

- The District's net position increased to $1,886,094 for fiscal year 2016.
- Total District revenues were $977,187.

Fund Basis:

- Capital Projects Fund revenues of $801,242 were $798,603 more than the prior year due to the collection of the facilities special tax. This revenue was not collected in prior year. Expenditures of $36,826 were $36,209 more than the previous year. The Capital Projects Fund ending fund balance increased by $764,416, with ending fund balance of $1,545,156.
- Special Revenue Fund revenues of $175,945 were $1,931 more than the prior year due to increased interest earnings and expenditures of $168,874 were $8,249 less than the prior year. The Special Revenue Fund balance increased by $7,071 to an ending fund balance of $340,938.

THE BASIC FINANCIAL STATEMENTS

The basic financial statements comprise the government-wide financial statements and the fund financial statements; these two sets of financial statements provide two different views of the District's financial activities and financial position.

Government-Wide Financial Statements

The government-wide financial statements provide a long-term view of the District's activities as a whole and comprise the statement of net position and the statement of activities. The statement of net position provides information about the financial position of the District as a whole, including all its capital assets and long-term liabilities. The statement of activities provides information about the District's revenues and all its expenses. The statement of activities explains in detail the change in net position for the year.

The statement of net position and the statement of activities present information about the following:

- ***Governmental activities*** – All of the District's basic services are considered to be governmental activities, including formation, financing, construction, and maintenance activities. These services are supported by formation deposits, special facilities taxes, and annual maintenance assessments.

Government-wide financial statements are prepared on the accrual basis of accounting, which means they measure the flow of all economic resources of the District as a whole, similar to that used by the private sector.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

FINANCIAL ACTIVITIES OF THE DISTRICT AS A WHOLE

This analysis focuses on the net position and changes in net position of the District's governmental activities in the government-wide financial statement of net position and statement of activities that follow.

As of June 30, 2016, total assets of $1,897,174 were offset by liabilities of $11,080. The District's net position from governmental activities increased to $1,886,094 in 2016 from $1,114,607 in 2015. All of the District's net position is restricted as follows: $1,545,156 for acquisition or construction of infrastructure and $340,938 for maintaining that infrastructure.

The following is a condensed statement of net position:

Statement of Net Position – Governmental Activities

	2016	2015
Cash and investments	$ 1,891,149	$ 1,134,652
Assessments receivable	1,984	-
Interest receivable	4,041	1,980
Total assets	1,897,174	1,136,632
Current and other liabilities	11,080	22,025
Net position:		
Restricted for:		
Capital projects	1,545,156	780,740
District maintenance	340,938	333,867
Total net position	$ 1,886,094	$ 1,114,607

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 1998-2 (CARVER-BANGS/PELANDALE-SNYDER)
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

FISCAL YEAR 2016 GOVERNMENTAL ACTIVITIES

The District's fiscal year 2016 revenue came primarily from facilities special tax and maintenance special tax which contributed $787,482 and $172,843, respectively, while interest income contributed $16,862. District expenses of $205,700 were for services and professional and utilities expenses.

The following is a condensed statement of activities:

Statement of Activities – Governmental Activities

	2016	2015
Revenues:		
General revenues:		
Facilities special tax	$ 787,482	$ 172,810
Maintenance special tax	172,843	-
Investment earnings	16,862	3,843
Total revenues	977,187	176,653
Expenses:		
Community development	205,700	177,740
Change in net position	771,487	(1,087)
Net position, beginning of year	1,114,607	1,115,694
Net position, end of year	$ 1,886,094	$ 1,114,607

Fund Financial Statements

The fund financial statements report the District's operations in more detail than the government-wide financial statements and focus primarily on the short-term activities of the District's two funds. The fund financial statements measure only current revenues and expenditures and fund balances; they exclude capital assets, long-term debt, and other long-term amounts.

The fund financial statements provide detailed information about each of the District's most significant funds, called major funds. Major funds present the major activities of the District for the year, and may change from year to year as a result of changes in the pattern of District's activities. All of the District's funds are presented here as major funds; their purpose is explained in Note 1 to the financial statements.

All the District's funds are governmental funds; financial statements for these funds are prepared on the modified accrual basis of accounting, which means they measure only current financial resources and uses.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 1998-2 (CARVER-BANGS/PELANDALE-SNYDER)
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

The following is a condensed statement of revenues, expenditures, and changes in fund balances for the year ended June 30, 2016:

Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Activities

	Capital Projects Fund	Special Revenue Fund	Total
Revenues	$ 801,242	$ 175,945	$ 977,187
Expenditures	36,826	168,874	205,700
Changes in fund balances	764,416	7,071	771,487
Fund balances, beginning of year	780,740	333,867	1,114,607
Fund balances, end of year	$ 1,545,156	$ 340,938	$ 1,886,094

THE DISTRICT'S FUND FINANCIAL STATEMENTS

At June 30, 2016, the District's governmental funds reported combined fund balances of $1,886,094, which was a $771,487 increase from fiscal year 2015. The Capital Projects Fund realized a $764,416 increase, due to the facilities special tax and interest income, while the Special Revenue Fund realized a $7,071 increase due to maintenance special tax and investment revenues exceeding professional services and utilities.

CAPITAL ASSETS

Under GASB Statement No. 34, the District is required to record all its capital assets, including infrastructure, at their historical cost, and to depreciate these assets over their estimated useful lives. However, title to all infrastructure assets acquired or constructed by the District is turned over to the City upon completion and acceptance. Accordingly, capital outlay expenditures are reported in both the District's fund and government-wide financial statements. Therefore, the District reports no long-term capital assets.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

These basic financial statements are intended to provide citizens, taxpayers, investors, and creditors with a general overview of the District's finances. Questions about this report should be directed to the City of Modesto, Administrator, Infrastructure Financing Programs, P.O. Box 642, Modesto, California 95353.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 1998-2 (CARVER-BANGS/PELANDALE-SNYDER)

STATEMENT OF NET POSITION AND STATEMENT OF ACTIVITIES

The statement of net position and the statement of activities summarize the entire District's financial activities and financial position. They are prepared on the same basis of accounting that is used by most businesses, which means they include all the District's assets and all its liabilities, as well as all its revenues and expenses. This is known as the full accrual basis of accounting – the effect of all the District's transactions is taken into account, regardless of whether or when cash changes hands, but all material internal transactions between District funds have been eliminated.

The statement of net position reports the difference between the District's total assets and the District's total liabilities, including all the District's capital assets and all its long-term debt. The statement of net position focuses the reader on the composition of the District's net position, by subtracting total liabilities from total assets. The statement of net position summarizes the financial position of the District in a single column.

The statement of activities reports increases and decreases in the District's net position. It is also prepared on the full accrual basis of accounting, which means it includes all the District's revenues and all its expenses, regardless of when cash changes hands. This differs from the "modified accrual" basis of accounting used in the fund financial statements, which reflect only current assets, current liabilities, available revenues and measurable expenditures.

The format of the statement of activities presents the District's expenses, which are listed by program, first. Program revenues – that is, revenues which are generated directly by these programs – are then deducted from program expenses to arrive at the net program revenue (expense). General revenues – that is, revenues which are not generated directly by these programs – are then added to arrive at the change in net position and reconciled with the statement of net position.

FUND FINANCIAL STATEMENTS

Major funds are defined generally as having significant activities or balances in the current year.

The District determined all its funds to be major funds. They are:

The **Capital Projects** Fund accounts for all financial resources and uses related to acquisition, construction, and formation/annexation activities.

The **Special Revenue** Fund accounts for all financial resources and uses related to maintenance of parkways and open space within the District.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 1998-2 (CARVER-BANGS/PELANDALE-SNYDER)
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description and Reporting Entity

The Community Facilities District Number 1998-2 (Carver-Bangs/Pelandale-Snyder) (the District) was formed in December 1998 by a vote of the property owners within the proposed district. The District, a separate legal entity, was formed to provide a funding and reimbursement mechanism for public facilities and services required by the District Specific Plans. The District is the vehicle that will be used to ensure that all landowners in the District pay their share of the public improvements. The District is a proposed 480-acre project bounded on the East by Carver Road, on the North by Bangs Avenue, on the West by Dale Road, and the Modesto Irrigation District canal and Snyder Avenue on the South. The District is expected to yield 3,413 residential dwelling units at buildout; in addition, 36 acres of the District will be used for an elementary school site, a City park, and a church.

The District is an integral part of the City of Modesto (the City) and the accompanying financial statements are included as a component unit of the basic financial statements prepared by the City. A component unit is a separate governmental unit, agency, or nonprofit corporation which, when combined with all other component units, constitutes the reporting entity as defined in the City's basic financial statements.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and statement of activities) report information on all of the activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities normally are supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which direct expenses are offset by program revenues. Direct expenses are those that are clearly identifiable with the community development function. Program revenues include grants and contributions that are restricted to meeting the operational requirements of the community development function. Investment earnings, and other items which are not properly included among program revenues, are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Basis of Presentation, Basis of Accounting, and Measurement Focus

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Taxes are recognized as revenues in the year for which they are levied.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when collectible within the current period or soon enough thereafter to pay liabilities to the current period. For this purpose, the District considers revenues to be available if they are collected within 180 days of the end of the current fiscal period. During the year ended June 30, 2016, the District changed its availability period from 60 days to 180 days. However, this accounting change had no effect on the District's financial statements. Expenditures generally are recorded when a liability is incurred, as under the accrual basis of accounting.

Substantially all taxes and interest, including the net increase (decrease) in the fair value of investments, are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Miscellaneous revenues are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental funds:

The **Capital Projects** Fund accounts for all financial resources and uses related to acquisition, construction, and formation/annexation activities.

The **Special Revenue** Fund accounts for all financial resources and uses related to maintenance of parkways and open space within the District.

D. Capital Assets

The District is required to record all its capital assets, including infrastructure, at their historical cost, and to depreciate these assets over their estimated useful lives. However, title to all infrastructure assets acquired or constructed by the District is turned over to the City upon completion and acceptance. Accordingly, capital outlay expenditures/expenses are reported in both the District's fund and government-wide financial statements.

E. Facilities and Maintenance Special Taxes

The facilities and maintenance special taxes are collected by the County of Stanislaus on the property tax bill. The special taxes are due November 1 and February 1 and are delinquent if not paid by December 10 and April 10, respectively. The County of Stanislaus bills and collects the special taxes and remits them to the District. The Rate and Method of Apportionment of Special Tax (RMA), set forth in the District's Public Report, describes how the tax will be allocated among properties in the District. The Public Report was established during the formation of the District. A cost of living adjustment is applied to the special taxes annually.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Fund Balance

In the fund financial statements, governmental funds report fund balance as nonspendable, restricted, committed, assigned, or unassigned based primarily on the extent to which the District is bound to honor constraints on how specific amounts can be spent.

- **Nonspendable** - Amounts that are not in spendable form (such as inventory) or are required either legally or contractually to be maintained intact.
- **Restricted** - Amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional or enabling legislation.
- **Committed** - Amounts constrained to specific purposes by the District itself, using the District's highest level of decision-making authority (the City Council). To be reported as committed, amounts cannot be used for any other purpose unless the District takes the same highest level action to remove or change the constraint. The underlying action that imposed the limitation needs to occur no later than the close of the reporting period.
- **Assigned** - Amounts the District *intends* to use for a specific purpose. Intent can be expressed by the District at either the highest level of decision-making or by an official or body to which the District delegates the authority.
- **Unassigned** - The residual classification for the District that includes amounts not contained in the other classifications. In other funds, the unassigned classification is used only if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes.

The District establishes and modifies or rescinds fund balance commitments by passage of an ordinance or policy. This is typically done through the adoption or the amendment of the budget. A fund balance commitment is further indicated in the budget as a designation or commitment of the fund, such as approved construction contracts. Assigned fund balance is established by the District through the adoption or the amendment of the budget or future year budget plan as intended for a specific purpose.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, followed by the committed, assigned, and unassigned resources as they are needed.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Governmental Accounting Standards Update

During the year ended June 30, 2016, the District implemented the following Governmental Accounting Standards Board (GASB) standards:

GASB Statement No. 72, *Fair Value Measurement and Application*. This statement is intended to improve accounting and financial reporting for state and local governments' investments by enhancing the comparability of financial statements amount governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. This statement did not have a significant impact to the District's financial statements.

GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and No. 68*. This statement establishes requirements for those pensions and pension plans that are not administrated through a trust meeting specified criteria and thus are not covered by Statement Nos. 67 and 68. This statement did not have a significant impact to the District's financial statements.

GASB Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*, which supersedes Statement No. 55. This statement clarifies the hierarchy of generally accepted accounting principles (GAAP), and reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within the scope of authoritative GAAP. This statement did not have a significant impact to the District's financial statements.

GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*. The statement addresses accounting and financial reporting for certain external investment pools and pool participants. The statement establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. It also establishes additional note disclosure requirements to include information about any limitations or restrictions on participant withdrawals. This statement did not have a significant impact to the District's financial statements.

The District is currently evaluating its accounting practices to determine the potential impact on the financial statements for the following GASB Statements:

In June 2015, GASB issued Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans*. This statement addresses reporting by OPEB plans that administer benefits on behalf of governments. This Statement is effective for the District's fiscal year ending June 30, 2017.

In June 2015, GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions*. This statement addresses reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments. This Statement is effective for the District's fiscal year ending June 30, 2018.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In August 2015, GASB issued Statement No. 77, *Tax Abatement Disclosures.* This statement requires governments that enter into tax abatement agreements to disclose the following information about the agreements: (i) brief descriptive information; (ii) the gross dollar amount of taxes abated during the period; and (iii) commitments made by a government, other than to abate taxes, as part of a tax abatement agreement. This Statement is effective for the District's fiscal year ending June 30, 2017.

In December 2015, the GASB issued Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*. The objective of this statement is to address a practice issue regarding the scope and applicability of Statement No. 68 associated with pensions provided through certain cost-sharing multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions. Such plans are not considered a state or local government pension plan and are used to provide benefits to both employees of state and local governments and employees of employers that are not state or local governments. This Statement is effective for the District's fiscal year ending June 30, 2017.

In January 2016, the GASB issued Statement No. 80, *Blending Requirements for Certain Component Units—an amendment of GASB Statement No. 14.* The objective of this statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. This statement amends the blending requirements established in GASB Statement No. 14, *The Financial Reporting Entity*, as amended. This Statement is effective for the District's fiscal year ending June 30, 2017.

In March 2016, the GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*. The statement provides recognition and measurement guidance for situations in which a government is a beneficiary of these agreements. This Statement is effective for the District's fiscal year ending June 30, 2018.

In March 2016, the GASB issued Statement No. 82, *Pension Issues – an amendment of GASB Statements No. 67, No. 68, and No. 73,* to address certain issues that have been raised with respect to Statements No. 67, *Financial Reporting for Pension Plans*, No. 68, *Accounting and Financial Reporting for Pensions*, and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68.* The statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practices for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. This Statement is effective for the District's fiscal year ending June 30, 2017.

NOTE 2 – CASH AND INVESTMENTS

Cash and investments of the District are pooled with other City funds. The District's portion of this pooled amount was $1,891,149 at June 30, 2016. At June 30, 2016, the City's investment pool is unrated and the weighted average maturity is 518 days. Interest earned on pooled cash and investments is credited to the funds based on each fund's average monthly cash balance. Detailed information concerning the City's pooled cash and investments, including information regarding the fair value of investments, may be found in the City's Comprehensive Annual Financial Report. As of June 30, 2016, the fair value of the District's position in the pool is the same as the value of its pool shares.

The fair value hierarchy established by generally accepted accounting principles is based on the valuation inputs used to measure the fair value of the assets. The District's investment in the City's investment pool is exempt from fair value measurement disclosures.

NOTE 3 – RESTRICTED NET POSITION AND FUND BALANCES

Net position is measured on the full accrual basis of accounting, which differs from the concept of fund balance, which is measured on the modified accrual basis of accounting.

A. Net Position

Net position is the excess of all the District's assets over all its liabilities. Net position is determined only at the government-wide level.

Restricted describes the portion of net position which is restricted as to use by the terms and conditions of agreements with outside parties, governmental regulations, laws, or other restrictions which the District cannot unilaterally alter. These principally include developer fees received for capital projects and District maintenance.

B. Restrictions of Fund Balances

Fund balances are all presented in the restricted category (see Note 1 for a description of fund balance categories). As of June 30, 2016, restrictions included:

Restricted for Capital Projects, the portion of fund balance legally restricted for the acquisition, construction, and formation/annexation activities.

Restricted for District Maintenance, the portion of fund balance legally restricted for maintenance of parkways and open space within the District.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Honorable City Council
of the City of Modesto, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the City of Modesto Community Facilities District Number 1998-2 (Carver-Bangs/Pelandale-Snyder) (the District), as of and for the year ended June 30, 2016, and related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 30, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe that a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report

The Honorable City Council
of the City of Modesto, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and Special Revenue Fund of the City of Modesto Community Facilities District Number 2000-2 (Coffee-Claratina) (the District), a component unit of the City of Modesto, California, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly in all material respects the respective financial position of the governmental activities and Special Revenue Fund of the District as of June 30, 2016, and the respective changes in financial position thereof and the respective budgetary comparison for the Special Revenue Fund for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2016, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 2000-2 (COFFEE-CLARATINA)
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

The City of Modesto Community Facilities District No. 2000-2 (Coffee-Claratina) (the District) has issued its financial statements in the format prescribed by the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34, which requires the District to provide this overview of its financial activities for the fiscal year.

Please read this overview in conjunction with your reading of the accompanying basic financial statements.

THE PURPOSE OF THE DISTRICT

The District is a component unit of the City of Modesto (City). It is controlled by the City, and the City Council is the District's governing body. City employees perform most of the duties and functions required of the District, but certain tasks are provided by third parties under contract.

The District's purpose under California law is to provide a funding mechanism for public facilities and services authorized by the District. The District is the vehicle that will be used to ensure that all landowners in the Specific Plan area contribute to the cost of the public facilities and services. Additional information on the District can be found below, and in Note 1 to the accompanying financial statements.

BACKGROUND AND MANAGEMENT'S DISCUSSION

In November 1999, the City Council approved the Coffee-Claratina Specific Plan that set forth a plan for development of 170 acres that includes up to 1,000 residential dwelling units, 40 acres of "Regional Commercial" property and 15 acres of "Mixed Community Commercial" development. The District was formed in December 2000 to provide a funding source for maintenance and repair of the storm drain basin and dual-use flood control/recreation facility and for maintenance of median, bikeway, round-about, and miscellaneous planting areas within the Coffee-Claratina Specific Plan.

FISCAL YEAR 2016 FINANCIAL HIGHLIGHTS

Financial highlights of the year include the following:

Government-Wide:

- The District's net position decreased $449 in fiscal year 2016.
- At June 30, 2016, net position was $302,503.
- Total District revenues were $102,328.

Fund Basis:

- Special Revenue Fund revenues were $102,328, while expenditures were $102,777. The Special Revenue Fund ending fund balance decreased $449 to $302,503.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 2000-2 (COFFEE-CLARATINA)
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

THE BASIC FINANCIAL STATEMENTS

The basic financial statements comprise the government-wide financial statements and the fund financial statements; these two sets of financial statements provide two different views of the District's financial activities and financial position.

Government-Wide Financial Statements

The government-wide financial statements provide a long-term view of the District's activities as a whole and comprise the statement of net position and the statement of activities. The statement of net position provides information about the financial position of the District as a whole, including all its capital assets and long-term liabilities. The statement of activities provides information about the District's revenues and all its expenses. The statement of activities explains in detail the change in net position for the year.

The statement of net position and the statement of activities present information about the following:

- ***Governmental activities*** – All of the District's basic services are considered to be governmental activities, including formation, financing, construction, and maintenance activities. These services are supported by formation deposits, special facilities taxes, and annual maintenance assessments.

Government-wide financial statements are prepared on the accrual basis of accounting, which means they measure the flow of all economic resources of the District as a whole, similar to that used by the private sector.

FINANCIAL ACTIVITIES OF THE DISTRICT AS A WHOLE

This analysis focuses on the net position and changes in net position of the District's governmental activities in the government-wide statement of net position and statement of activities that follow.

As of June 30, 2016, total assets of $305,456 were offset by liabilities of $2,953. The District's net position from governmental activities decreased to $302,503 in 2016 from $302,952 in 2015. All of the District's net position is restricted for maintenance.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 2000-2 (COFFEE-CLARATINA)
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

The following is a condensed statement of net position:

Statement of Net Position – Governmental Activities

	2016	2015
Cash and investments	$ 303,370	$ 307,975
Assessments receivable	1,457	-
Interest receivable	629	558
Total assets	305,456	308,533
Current and other liabilities	2,953	5,581
Net position:		
Restricted for:		
District maintenance	$ 302,503	$ 302,952

FISCAL YEAR 2016 GOVERNMENTAL ACTIVITIES

The District's fiscal year 2016 revenue came primarily from maintenance special tax of $99,564, along with additional investments earnings of $2,764. District expenses of $102,777 in fiscal year 2016 were for maintenance and administration.

The following is a condensed statement of activities:

Statement of Activities – Governmental Activities

	2016	2015
Revenues:		
General revenues:		
Maintenance special tax	$ 99,564	$ 101,227
Investment earnings	2,764	1,034
Total revenues	102,328	102,261
Expenses:		
Community development	102,777	111,268
Change in net position	(449)	(9,007)
Net position, beginning of year	302,952	311,959
Net position, end of year	$ 302,503	$ 302,952

Fund Financial Statements

The fund financial statements report the District's operations in more detail than the government-wide statements and focus primarily on the short-term activities of the District's one fund. The fund financial statements measure only current revenues and expenditures and fund balances; they exclude capital assets, long-term debt, and other long-term amounts.

The fund financial statements provide detailed information about the District's most significant fund, called a major fund. The major fund presents the major activities of the District for the year, and may change from year to year as a result of changes in the pattern of District's activities. The District's fund is presented here as a major fund; its purpose is explained in Note 1 to the financial statements.

The District's fund is a governmental fund; a financial statement for this fund is prepared on the modified accrual basis of accounting, which means it measures only current financial resources and uses.

The following is a condensed statement of revenues, expenditures, and change in fund balance for the year ended June 30, 2016:

Statement of Revenues, Expenditures, and Change in Fund Balance – Special Revenue Fund

Revenues	$ 102,328
Expenditures	102,777
Change in fund balance	(449)
Fund balance, beginning of year	302,952
Fund balance, end of year	$ 302,503

THE DISTRICT'S FUND FINANCIAL STATEMENTS

At June 30, 2016, the District's governmental fund reported a fund balance of $302,503, which is a decrease of $449 compared with last year.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

These basic financial statements are intended to provide citizens, taxpayers, investors, and creditors with a general overview of the District's finances. Questions about this report should be directed to the City of Modesto, Administrator, Infrastructure Financing Programs, P.O. Box 642, Modesto, California 95353.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 2000-2 (COFFEE-CLARATINA)

STATEMENT OF NET POSITION
AND STATEMENT OF ACTIVITIES

The statement of net position and the statement of activities summarize the entire District's financial activities and financial position. They are prepared on the same basis of accounting that is used by most businesses, which means they include all the District's assets and all its liabilities, as well as all its revenues and expenses. This is known as the full accrual basis of accounting – the effect of all the District's transactions is taken into account, regardless of whether or when cash changes hands, but all material internal transactions between District funds have been eliminated.

The statement of net position reports the difference between the District's total assets and the District's total liabilities, including all the District's capital assets and all its long-term debt. The statement of net position focuses the reader on the composition of the District's net position, by subtracting total liabilities from total assets. The statement of net position summarizes the financial position of the District in a single column.

The statement of activities reports increases and decreases in the District's net position. It is also prepared on the full accrual basis of accounting, which means it includes all the District's revenues and all its expenses, regardless of when cash changes hands. This differs from the "modified accrual" basis of accounting used in the fund financial statements, which reflect only current assets, current liabilities, available revenues, and measurable expenditures.

The format of the statement of activities presents the District's expenses, which are listed by program, first. Program revenues – that is, revenues which are generated directly by these programs – are then deducted from program expenses to arrive at the net program revenue (expense). General revenues – that is, revenues which are not generated directly by these programs – are then added to arrive at the change in net position and reconciled with the statement of net position.

FUND FINANCIAL STATEMENTS

Major funds are defined generally as having significant activities or balances in the current year.

The District's only fund is considered to be a major fund:

The **Special Revenue** Fund accounts for all financial resources and uses related to maintenance of parkways and open space within the District.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 2000-2 (COFFEE-CLARATINA)
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description and Reporting Entity

The Community Facilities District Number 2000-2 (Coffee-Claratina) (the District) was formed in October 2000 by vote of the property owners within the proposed district. The District, a separate legal entity, was formed for the purpose of setting forth a plan of rehabilitation and development for the site, which is located on the south side of Claratina Avenue, bound by Coffee Road on the East, McHenry on the West, and the Modesto City limits to the South. Coffee-Claratina is a 170-acre project designated for a maximum of 1,000 residential dwelling units, 40 acres designated "Regional Commercial," and 15 acres of "Mixed Community Commercial." In addition, the District is intended to fund the maintenance of median, bikeway, round-about, and miscellaneous planting areas, in addition to the funding maintenance and repair of a storm drain basin and dual-use flood control/recreation facility.

The District is an integral part of the City of Modesto (the City) and the accompanying financial statements are included as a component unit of the basic financial statements prepared by the City. A component unit is a separate governmental unit, agency, or nonprofit corporation which, when combined with all other component units, constitutes the reporting entity as defined in the City's basic financial statements.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and statement of activities) report information on all of the activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities normally are supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which direct expenses are offset by program revenues. Direct expenses are those that are clearly identifiable with the community development function. Program revenues include grants and contributions that are restricted to meeting the operational requirements of the community development function. Investment earnings, and other items which are not properly included among program revenues, are reported instead as general revenues.

The fund financial statements (i.e., balance sheet and statement of revenues, expenditures, and changes in fund balance) report information on the Special Revenue Fund of the District.

Since the amounts presented in the District's balance sheet and statement of net position are the same, they are presented as one financial statement. Similarly, since the amounts presented in the District's statement of revenues, expenditures, and change in fund balance and the statement of activities are the same, they are presented as one financial statement.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Presentation, Basis of Accounting, and Measurement Focus

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Taxes are recognized as revenues in the year for which they are levied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when collectible within the current period or soon enough thereafter to pay liabilities to the current period. For this purpose, the District considers revenues to be available if they are collected within 180 days of the end of the current fiscal period. During the year ended June 30, 2016, the District changed its availability period from 60 days to 180 days. However, this accounting change had no effect on the District's financial statements. Expenditures generally are recorded when a liability is incurred, as under the accrual basis of accounting.

Substantially all taxes and interest, including the net increase (decrease) in the fair value of investments, are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Miscellaneous revenues are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental fund:

The **Special Revenue** Fund accounts for all financial resources and uses related to maintenance of parkways and open space within the District.

D. Maintenance Special Tax

The maintenance special tax is collected by the County of Stanislaus on the property tax bill. The maintenance charges are due November 1 and February 1 and are delinquent if not paid by December 10 and April 10, respectively. The County of Stanislaus bills and collects the maintenance taxes and remits them to the District. The Rate and Method of Apportionment of Special Tax (RMA), set forth in the District's Public Report, describes how the tax will be allocated among properties in the District. The Public Report was established during the formation of the District. A cost of living adjustment is applied to the maintenance taxes annually. The District levied maintenance taxes during the year ended June 30, 2016.

E. Fund Balance

In the fund financial statements, governmental funds report fund balance as nonspendable, restricted, committed, assigned, or unassigned based primarily on the extent to which the District is bound to honor constraints on how specific amounts can be spent.

- **Nonspendable** - Amounts that are not in spendable form (such as inventory) or are required either legally or contractually to be maintained intact.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- **Restricted** - Amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional or enabling legislation.
- **Committed** - Amounts constrained to specific purposes by the District itself, using the District's highest level of decision-making authority (the City Council). To be reported as committed, amounts cannot be used for any other purpose unless the District takes the same highest level action to remove or change the constraint. The underlying action that imposed the limitation needs to occur no later than the close of the reporting period.
- **Assigned** - Amounts the District *intends* to use for a specific purpose. Intent can be expressed by the District at either the highest level of decision-making or by an official or body to which the District delegates the authority.
- **Unassigned** - The residual classification of the District that includes amounts not contained in the other classifications. In other funds, the unassigned classification is used only if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes.

The District establishes and modifies or rescinds fund balance commitments by passage of an ordinance or policy. This is typically done through the adoption and the amendment of the budget. A fund balance commitment is further indicated in the budget as a designation or commitment of the fund, such as approved construction contracts. Assigned fund balance is established by the District through the adoption or the amendment of the budget or future year budget plan as intended for a specific purpose.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, followed by the committed, assigned, and unassigned resources as they are needed.

F. Governmental Accounting Standards Update

During the year ended June 30, 2016, the District implemented the following Governmental Accounting Standards Board (GASB) standards:

GASB Statement No. 72, *Fair Value Measurement and Application*. This statement is intended to improve accounting and financial reporting for state and local governments' investments by enhancing the comparability of financial statements amount governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. This statement did not have a significant impact to the District's financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and No. 68.* This statement establishes requirements for those pensions and pension plans that are not administrated through a trust meeting specified criteria and thus are not covered by Statement Nos. 67 and 68. This statement did not have a significant impact to the District's financial statements.

GASB Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*, which supersedes Statement No. 55. This statement clarifies the hierarchy of generally accepted accounting principles (GAAP), and reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within the scope of authoritative GAAP. This statement did not have a significant impact to the District's financial statements.

GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*. The statement addresses accounting and financial reporting for certain external investment pools and pool participants. The statement establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. It also establishes additional note disclosure requirements to include information about any limitations or restrictions on participant withdrawals. This statement did not have a significant impact to the District's financial statements.

The District is currently evaluating its accounting practices to determine the potential impact on the financial statements for the following GASB Statements:

In June 2015, GASB issued Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans.* This statement addresses reporting by OPEB plans that administer benefits on behalf of governments. This Statement is effective for the District's fiscal year ending June 30, 2017.

In June 2015, GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.* This statement addresses reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments. This Statement is effective for the District's fiscal year ending June 30, 2018.

In August 2015, GASB issued Statement No. 77, *Tax Abatement Disclosures.* This statement requires governments that enter into tax abatement agreements to disclose the following information about the agreements: (i) brief descriptive information; (ii) the gross dollar amount of taxes abated during the period; and (iii) commitments made by a government, other than to abate taxes, as part of a tax abatement agreement. This Statement is effective for the District's fiscal year ending June 30, 2017.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In December 2015, the GASB issued Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*. The objective of this statement is to address a practice issue regarding the scope and applicability of Statement No. 68 associated with pensions provided through certain cost-sharing multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions. Such plans are not considered a state or local government pension plan and are used to provide benefits to both employees of state and local governments and employees of employers that are not state or local governments. This Statement is effective for the District's fiscal year ending June 30, 2017.

In January 2016, the GASB issued Statement No. 80, *Blending Requirements for Certain Component Units—an amendment of GASB Statement No. 14*. The objective of this statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. This statement amends the blending requirements established in GASB Statement No. 14, *The Financial Reporting Entity*, as amended. This Statement is effective for the District's fiscal year ending June 30, 2017.

In March 2016, the GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*. The statement provides recognition and measurement guidance for situations in which a government is a beneficiary of these agreements. This Statement is effective for the District's fiscal year ending June 30, 2018.

In March 2016, the GASB issued Statement No. 82, *Pension Issues – an amendment of GASB Statements No. 67, No. 68, and No. 73,* to address certain issues that have been raised with respect to Statements No. 67, *Financial Reporting for Pension Plans*, No. 68, *Accounting and Financial Reporting for Pensions*, and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68.* The statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practices for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. This Statement is effective for the District's fiscal year ending June 30, 2017.

NOTE 2 – CASH AND INVESTMENTS

Cash and investments of the District are pooled with other City funds. The District's portion of this pooled amount was $303,370 at June 30, 2016. At June 30, 2016, the City's investment pool is unrated and the weighted average maturity is 518 days. Interest earned on pooled cash and investments is credited to the funds based on each fund's average monthly cash balance. Detailed information concerning the City's pooled cash and investments, including information regarding the fair value of investments, may be found in the City's Comprehensive Annual Financial Report. As of June 30, 2016, the fair value of the District's position in the pool is the same as the value of its pool shares.

The fair value hierarchy established by generally accepted accounting principles is based on the valuation inputs used to measure the fair value of the assets. The District's investment in the City's investment pool is exempt from fair value measurement disclosures.

NOTE 3 – RESTRICTED NET POSITION AND FUND BALANCES

Net position is measured on the full accrual basis of accounting, which differs from the concept of fund balance, which is measured on the modified accrual basis of accounting.

A. Net Position

Net position is the excess of all the District's assets over all its liabilities. Net position is determined only at the government-wide level.

Restricted describes the portion of net position which is restricted as to use by the terms and conditions of agreements with outside parties, governmental regulations, laws, or other restrictions which the District cannot unilaterally alter. These principally include developer fees received for District maintenance.

B. Fund Balances

Fund balances are all presented in the restricted category (see Note 1 for a description of fund balance categories). As of June 30, 2016, restrictions included:

Restricted for District Maintenance, the portion of fund balance legally restricted for maintenance of parkways and open space within the District.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Honorable City Council
of the City of Modesto, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and Special Revenue Fund of the City of Modesto Community Facilities District Number 2000-2 (Coffee- Claratina) (the District), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 30, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe that a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The

results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report

The Honorable City Council
of the City of Modesto, California

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities and Special Revenue Fund of the City of Modesto Community Facilities District Number 1998-1 (Enterprise Business Park) (the District), a component unit of the City of Modesto, California, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly in all material respects the respective financial position of the governmental activities and Special Revenue Fund of the District as of June 30, 2016, and the respective changes in financial position thereof and the respective budgetary comparison for the Special Revenue Fund for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2016, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 1998-1 (ENTERPRISE BUSINESS PARK)
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

The City of Modesto Community Facilities District No. 1998-1 (Enterprise Business Park) (the District) has issued its financial statements in the format prescribed by the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34, which requires the District to provide this overview of its financial activities for the fiscal year.

Please read this overview in conjunction with your reading of the accompanying basic financial statements.

THE PURPOSE OF THE DISTRICT

The District is a component unit of the City of Modesto (City). It is controlled by the City, and the City Council is the District's governing body. City employees perform most of the duties and functions required of the District, but certain tasks are provided by third parties under contract.

The District's purpose under California law is to provide a funding mechanism for public facilities and services authorized by the District. The District is the vehicle that will be used to ensure that all landowners in the Specific Plan area contribute to the cost of the public facilities and services. Additional information on the District can be found below, and in Note 1 to the accompanying financial statements.

BACKGROUND AND MANAGEMENT'S DISCUSSION

On April 7, 1997, the City's Planning Commission approved a vesting tentative map for the Enterprise Business Park subdivision. The project area included two assessor's parcels and more than 80 acres of property located in the southwestern section of the City. Upon recordation of the final map, the property was subdivided into eight parcels ranging in size from 1.12 to 24.17 acres. The parcels are zoned M-2, a heavy industrial designation allowing for development of warehouse, distribution, processing, manufacturing, and other related uses.

In July 1998, the City Council formed the District and authorized the District to issue up to $2.05 million in bonds to fund certain street improvements, water and sewer main extensions, and other water, sewer, and storm drainage improvements required to serve the District. All District-funded improvements have been completed.

FISCAL YEAR 2016 FINANCIAL HIGHLIGHTS

Financial highlights of the year include the following:

Government-Wide:

- The District's net position decreased $5,959 in fiscal year 2016.
- At June 30, 2016, net position was $80,514.
- Total District revenues were $801.

Fund Basis:

- Special Revenue Fund revenues of $801 were $497 more than last year and expenditures of $6,760 were $2,178 more than last year.
- Special Revenue Fund ending fund balance decreased $5,959 to $80,514.

THE BASIC FINANCIAL STATEMENTS

The basic financial statements comprise the government-wide financial statements and the fund financial statements; these two sets of financial statements provide two different views of the District's financial activities and financial position.

Government-Wide Financial Statements

The government-wide financial statements provide a long-term view of the District's activities as a whole and comprise the statement of net position and the statement of activities. The statement of net position provides information about the financial position of the District as a whole, including all its capital assets and long-term liabilities. The statement of activities provides information about the District's revenues and all its expenses. The statement of activities explains in detail the change in net position for the year.

The statement of net position and the statement of activities present information about the following:

- ***Governmental activities*** – All of the District's basic services are considered to be governmental activities, including formation, financing, construction, and maintenance activities. These services are supported by formation deposits, special facilities taxes, and annual maintenance assessments.

Government-wide financial statements are prepared on the accrual basis of accounting, which means they measure the flow of all economic resources of the District as a whole, similar to that used by the private sector.

FINANCIAL ACTIVITIES OF THE DISTRICT AS A WHOLE

This analysis focuses on the net position and changes in net position of the District's governmental activities in the government-wide financial statement of net position and statement of activities that follow.

As of June 30, 2016, the District total assets were $80,551. The District's net position from governmental activities decreased from $86,473 in fiscal year 2015 to $80,514 in fiscal year 2016. All of the District's net position is restricted for District maintenance.

Following is a condensed statement of net position:

Statement of Net Position – Governmental Activities

	2016	2015
Cash and investments	$ 80,381	$ 86,388
Interest receivable	170	161
Total assets	80,551	86,549
Current and other liabilities	37	76
Net position:		
Restricted for:		
District maintenance	$ 80,514	$ 86,473

FISCAL YEAR 2016 GOVERNMENTAL ACTIVITIES

The District's fiscal year 2016 revenue came from investment earnings generating $801. District expenses of $6,760 in fiscal year 2016 were for maintenance and ongoing administrative expenses.

Following is a condensed statement of activities:

Statement of Activities – Governmental Activities

	2016	2015
Revenues:		
General revenues:		
Investment earnings	$ 801	$ 304
Expenses:		
Community development	6,760	4,582
Change in net position	(5,959)	(4,278)
Net position, beginning of year	86,473	90,751
Net position, end of year	$ 80,514	$ 86,473

Fund Financial Statements

The fund financial statements report the District's operations in more detail than the government-wide financial statements and focus primarily on the short-term activities of the District's one fund. The fund financial statements measure only current revenues and expenditures and fund balances; they exclude capital assets, long-term debt, and other long-term amounts.

The fund financial statements provide detailed information about the District's significant fund, called a major fund. The major fund presents the major activities of the District for the year, and may change from year to year as a result of changes in the pattern of District's activities. The District's fund is presented here as a major fund; its purpose is explained in Note 1 to the financial statements.

The District's fund is a governmental fund; financial statements for this fund are prepared on the modified accrual basis of accounting, which means it measures only current financial resources and uses.

Following is a condensed statement of revenues, expenditures, and change in fund balance for the year ended June 30, 2016:

Statement of Revenues, Expenditures, and Change in Fund Balance – Special Revenue Fund

Revenues	$ 801
Expenditures	6,760
Change in fund balance	(5,959)
Fund balance, beginning of year	86,473
Fund balance, end of year	$ 80,514

THE DISTRICT'S FUND FINANCIAL STATEMENTS

At June 30, 2016, the District's governmental fund reported a fund balance of $80,514 which was a decrease of $5,959 from fiscal year 2015.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

These basic financial statements are intended to provide citizens, taxpayers, investors, and creditors with a general overview of the District's finances. Questions about this report should be directed to the City of Modesto, Administrator, Infrastructure Financing Programs, P.O. Box 642, Modesto, California 95353.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 1998-1 (ENTERPRISE BUSINESS PARK)

STATEMENT OF NET POSITION AND STATEMENT OF ACTIVITIES

The statement of net position and the statement of activities summarize the entire District's financial activities and financial position. They are prepared on the same basis of accounting as that used by most businesses, which means they include all the District's assets and all its liabilities, as well as all its revenues and expenses. This is known as the full accrual basis of accounting – the effect of all the District's transactions is taken into account, regardless of whether or when cash changes hands, but all material internal transactions between District funds have been eliminated.

The statement of net position reports the difference between the District's total assets and the District's total liabilities, including all the District's capital assets and all its long-term debt. The statement of net position focuses the reader on the composition of the District's net position, by subtracting total liabilities from total assets. The statement of net position summarizes the financial position of the District in a single column.

The statement of activities reports increases and decreases in the District's net position. It is also prepared on the full accrual basis of accounting, which means it includes all the District's revenues and all its expenses, regardless of when cash changes hands. This differs from the "modified accrual" basis of accounting used in the fund financial statements, which reflect only current assets, current liabilities, available revenues, and measurable expenditures.

The format of the statement of activities presents the District's expenses, which are listed by program, first. Program revenues – that is, revenues which are generated directly by these programs – are then deducted from program expenses to arrive at the net program revenue (expense). General revenue – that is, revenues which are not generated directly by these programs – are then added to arrive at the change in net position and reconciled with the statement of net position.

FUND FINANCIAL STATEMENTS

Major funds are defined generally as having significant activities or balances in the current year.

The District's only fund is considered to be a major fund:

The **Special Revenue** Fund accounts for all financial resources and uses related to maintenance of parkways and open space within the District.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 1998-1 (ENTERPRISE BUSINESS PARK)
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description and Reporting Entity

The Community Facilities District Number 1998-1 (Enterprise Business Park) (the District) was formed in July of 1998 by a vote of the property owners within the proposed District. The District, a separate legal entity, was formed to provide a financing mechanism for the purchase, construction, expansion, or rehabilitation of any real or tangible property, including public facilities and infrastructure improvements, necessary to meet increased demands placed upon local agencies as a result of development occurring within the District. In addition, the District can fund a variety of public services including maintenance of parks, parkways, and open space. The District is the vehicle that will be used to ensure that all landowners within the District pay their share of the public improvements and services needed. The District includes two assessor's parcels and more than 80 acres of property located in the southwestern section of the City of Modesto (the City). The property is subdivided into eight parcels ranging in size from 1.12 to 24.17 acres. The parcels have been zoned M-2, which is a heavy industrial designation allowing for development of warehouse, distribution, processing, manufacturing, and other related uses.

The District is an integral part of the City and the accompanying financial statements are included as a component unit of the basic financial statements prepared by the City. A component unit is a separate governmental unit, agency, or nonprofit corporation which, when combined with all other component units, constitutes the reporting entity as defined in the City's basic financial statements.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and statement of activities) report information on all of the activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities normally are supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which direct expenses are offset by program revenues. Direct expenses are those that are clearly identifiable with the community development function. Program revenues include grants and contributions that are restricted to meeting the operational requirements of the community development function. Investment earnings, and other items which are not properly included among program revenues, are reported instead as general revenues.

The fund financial statements (i.e., balance sheet and statement of revenues, expenditures, and changes in fund balance) report information on the Special Revenue Fund of the District.

Since the amounts presented in the District's balance sheet and statement of net position are the same, they are presented as one financial statement. Similarly, since the amounts presented in the District's statement of revenues, expenditures, and change in fund balance and the statement of activities are the same, they are presented as one financial statement.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Presentation, Basis of Accounting, and Measurement Focus

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Taxes are recognized as revenues in the year for which they are levied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 180 days of the end of the current fiscal period. During the year ended June 30, 2016, the District changed its availability period from 60 days to 180 days. However, this accounting change had no effect on the District's financial statements. Expenditures generally are recorded when a liability is incurred, as under the accrual basis of accounting.

Substantially all taxes and interest, including the net increase (decrease) in the fair value of investments, are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Miscellaneous revenues are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental fund:

The **Special Revenue** Fund accounts for all financial resources and uses related to maintenance of parkways and open space with the District.

D. Fund Balance

In the fund financial statements, governmental funds report fund balance as nonspendable, restricted, committed, assigned, or unassigned based primarily on the extent to which the District is bound to honor constraints on how specific amounts can be spent.

- **Nonspendable** - Amounts that are not in spendable form (such as inventory) or are required either legally or contractually to be maintained intact.
- **Restricted** - Amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional or enabling legislation.
- **Committed** - Amounts constrained to specific purposes by the District itself, using the District's highest level of decision-making authority (the City Council). To be reported as committed, amounts cannot be used for any other purpose unless the District takes the same highest level action to remove or change the constraint. The underlying action that imposed the limitation needs to occur no later than the close of the reporting period.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- **Assigned** - Amounts the District *intends* to use for a specific purpose. Intent can be expressed by the District at either the highest level of decision-making or by an official or body to which the District delegates the authority.
- **Unassigned** - The residual classification for the District that includes amounts not contained in the other classifications. In other funds, the unassigned classification is used only if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes.

The District establishes and modifies or rescinds fund balance commitments by passage of an ordinance or policy. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget as a designation or commitment of the fund, such as approved construction contracts. Assigned fund balance is established by the District through adoption or amendment of the budget or future year budget plan as intended for a specific purpose.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, followed by the committed, assigned, and unassigned resources as they are needed.

E. Governmental Accounting Standards Update

In the year ended June 30, 2016, the District has implemented the following Governmental Accounting Standards Board (GASB) standards:

GASB Statement No. 72, *Fair Value Measurement and Application*. This statement is intended to improve accounting and financial reporting for state and local governments' investments by enhancing the comparability of financial statements amount governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. This statement did not have a significant impact to the District's financial statements.

GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and No. 68.* This statement establishes requirements for those pensions and pension plans that are not administrated through a trust meeting specified criteria and thus are not covered by Statement Nos. 67 and 68. This statement did not have a significant impact to the District's financial statements.

GASB Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*, which supersedes Statement No. 55. This statement clarifies the hierarchy of generally accepted accounting principles (GAAP), and reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within the scope of authoritative GAAP. This statement did not have a significant impact to the District's financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*. The statement addresses accounting and financial reporting for certain external investment pools and pool participants. The statement establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. It also establishes additional note disclosure requirements to include information about any limitations or restrictions on participant withdrawals. This statement did not have a significant impact to the District's financial statements.

The District is currently evaluating its accounting practices to determine the potential impact on the financial statements for the following GASB Statements:

In June 2015, GASB issued Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans.* This statement addresses reporting by OPEB plans that administer benefits on behalf of governments. This Statement is effective for the District's fiscal year ending June 30, 2017.

In June 2015, GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.* This statement addresses reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments. This Statement is effective for the District's fiscal year ending June 30, 2018.

In August 2015, GASB issued Statement No. 77, *Tax Abatement Disclosures.* This statement requires governments that enter into tax abatement agreements to disclose the following information about the agreements: (i) brief descriptive information; (ii) the gross dollar amount of taxes abated during the period; and (iii) commitments made by a government, other than to abate taxes, as part of a tax abatement agreement. This Statement is effective for the District's fiscal year ending June 30, 2017.

In December 2015, the GASB issued Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*. The objective of this statement is to address a practice issue regarding the scope and applicability of Statement No. 68 associated with pensions provided through certain cost-sharing multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions. Such plans are not considered a state or local government pension plan and are used to provide benefits to both employees of state and local governments and employees of employers that are not state or local governments. This Statement is effective for the District's fiscal year ending June 30, 2017.

In January 2016, the GASB issued Statement No. 80, *Blending Requirements for Certain Component Units—an amendment of GASB Statement No. 14.* The objective of this statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. This statement amends the blending requirements established in GASB Statement No. 14, *The Financial Reporting Entity*, as amended. This Statement is effective for the District's fiscal year ending June 30, 2017.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In March 2016, the GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*. The statement provides recognition and measurement guidance for situations in which a government is a beneficiary of these agreements. This Statement is effective for the District's fiscal year ending June 30, 2018.

In March 2016, the GASB issued Statement No. 82, *Pension Issues – an amendment of GASB Statements No. 67, No. 68, and No. 73,* to address certain issues that have been raised with respect to Statements No. 67, *Financial Reporting for Pension Plans*, No. 68, *Accounting and Financial Reporting for Pensions*, and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68.* The statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practices for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. This Statement is effective for the District's fiscal year ending June 30, 2017.

NOTE 2 – CASH AND INVESTMENTS

Cash and investments of the District are pooled with other City funds. The District's portion of this pooled amount was $80,381 at June 30, 2016. At June 30, 2016, the City's investment pool is unrated and the weighted average maturity is 518 days. Interest earned on pooled cash and investments is credited to the funds based on each fund's average monthly cash balance. Detailed information concerning the City's pooled cash and investments, including information regarding the fair value of investments, may be found in the City's Comprehensive Financial Report. As of June 30, 2016, the fair value of the District's position in the pool is the same as the value of its pool shares.

The fair value hierarchy established by generally accepted accounting principles is based on the valuation inputs used to measure the fair value of the assets. The District's investment in the City's investment pool is exempt from fair value measurement disclosures.

NOTE 3 – RESTRICTED NET POSITION AND FUND BALANCES

Net position is measured on the full accrual basis of accounting, which differs from the concept of fund balance, which is measured on the modified accrual basis of accounting.

A. Net Position

Net position is the excess of all the District's assets over all its liabilities. Net position is determined only at the government-wide level.

Restricted describes the portion of net position which is restricted as to use by the terms and conditions of agreements with outside parties, governmental regulations, laws, or other restrictions which the District cannot unilaterally alter. These principally include developer fees received for use on District maintenance.

NOTE 3 – RESTRICTED NET POSITION AND FUND BALANCES (Continued)

B. Restrictions of Fund Balances

Fund balances are all presented in the restricted category (see Note 1 for a description of fund balance categories). As of June 30, 2016, restrictions included:

Restricted for District Maintenance, the portion of fund balance legally restricted for maintenance of parkways and open space within the District.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Honorable City Council
of the City of Modesto, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and Special Revenue Fund of the City of Modesto Community Facilities District Number 1998-1 (Enterprise Business Park) (the District), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 30, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe that a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report

The Honorable City Council
of the City of Modesto, California

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the City of Modesto Community Facilities District Number 2003-1 (Fairview Village) (the District), a component unit of the City of Modesto, California, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly in all material respects the respective financial position of the governmental activities and each major fund of the District as of June 30, 2016, and the respective changes in financial position thereof and the respective budgetary comparison for the Special Revenue Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2016, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Macias Gini & O'Connell LLP

Walnut Creek, California

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 2003-1 (FAIRVIEW VILLAGE)
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

The City of Modesto Community Facilities District No. 2003-1 (Fairview Village) (the District) has issued its financial statements in the format prescribed by the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34, which requires the District to provide this overview of its financial activities for the fiscal year.

Please read this overview in conjunction with your reading of the accompanying basic financial statements.

THE PURPOSE OF THE DISTRICT

The District is a component unit of the City of Modesto (City). It is controlled by the City, and the City Council is the District's governing body. City employees perform most of the duties and functions required of the District, but certain tasks are provided by third parties under contract.

The District's purpose under California law is to provide a funding mechanism for needed public facilities and services authorized by the District. The District is the vehicle that will be used to ensure that all landowners in the Specific Plan area contribute to the cost of the public facilities and services. Additional information on the District can be found below, and in Note 1 to the accompanying financial statements.

BACKGROUND AND MANAGEMENT'S DISCUSSION

In 1989, the City adopted the Urban Growth Management Strategy, which requires that any future development within the "Urban Reserve" be planned and annexed as "villages" under the auspices of Specific Plans. This action was seen as necessary to prevent new development from occurring in undeveloped areas prior to there being adequate consideration for public facilities such as roadways, parks, schools, and utility improvements.

Fairview Village is a proposed planned community with an expected population of 5,000 people living in approximately 2,250 homes. The project is to be developed on a 364-acre site located just outside the southwest edge of the City in Stanislaus County. The Fairview Village Plan Area is essentially square with each edge approximately three-quarters of a mile in length. It is contiguous to the Bret Harte neighborhood on the east, and is bounded by the expanded Hatch Road to the north, Carpenter Road to the west, and Whitmore Avenue to the south. The District is designed around a large central neighborhood park and new elementary school that forms the center of the new community. Fairview Village will also include a secondary elementary school and a commercial center with shops, offices, and apartments.

In December 2003, the City Council formed the District and authorized the District to issue up to $25 million in bonded indebtedness to acquire or construct certain water, storm drain, and sewer system improvements and a bike trail and all appurtenances and appurtenant work in connection therewith. The only qualified voter eligible to vote during the formation of the District was Del Valle Corporation (the Developer), the owner of approximately 81.66 acres. A final map was recorded subdividing the Developer's 81.66 acres into 382 single-family residential lots.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 2003-1 (FAIRVIEW VILLAGE)
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

In September 2005, the District issued Special Tax Bonds, Series 2005 in the principal amount of $5.0 million. The majority of the net construction proceeds were used to reimburse the Developer for the District-funded infrastructure it will install pursuant to the Acquisition & Shortfall Agreements entered into with the District. In October 2005, supplemental information concerning the bond issue was distributed to the repositories. This supplemental information advised the bond holders and market of the amendments to the Acquisition & Shortfall Agreement that allow the issuance of certain occupancy permits prior to the completion of the infrastructure projects specified in the Acquisition & Shortfall Agreement.

Matters related to the Developer's subdivision located in the District were first memorialized in an Acquisition & Shortfall Agreement between the City and Norman Galas, etc. in December 1997. On January 9, 2003, the Acquisition & Shortfall Agreement was amended and named Del Valle Capital Corporation, Inc., as a party to the Acquisition & Shortfall Agreement. Since that time, two subsequent amendments have occurred and additional agreements have between executed between the City and the District. The chronology of the agreements related to the Developer's subdivision follows:

- The Acquisition & Shortfall Agreement between the City and Norman Galas, June Galas, Stanley Galas, and Bonnie K. Galas dated as of September 16, 1997, as amended by the First Amendment to the Acquisition & Shortfall Agreement between the City and Norman Galas, June Galas, Stanley Galas, Bonnie K. Galas, and Del Valle Capital Corporation, Inc., dated as of January 9, 2003, and as further amended by the Second Amendment to the Acquisition & Shortfall Agreement between the City and Norman Galas, June Galas, Stanley Galas, Bonnie K. Galas, and Del Valle Capital Corporation, Inc., dated as of June 10, 2003, and as finally amended by the Third Amendment to the Acquisition & Shortfall Agreement between the City and Norman Galas, June Galas, Stanley Galas, Bonnie K. Galas, Del Valle Capital Corporation, Inc., dated as of June 22, 2004.
- Advanced Funding Agreement for the District dated as of October 28, 2003, Subdivision Agreement, dated as of December 23, 2003, pertaining to Galas Brothers Subdivision Unit No. 1.
- Subdivision Agreement, dated as of December 23, 2003, pertaining to Galas Brothers Subdivision Unit No. 2.
- Agreement to Complete Necessary Infrastructure Prior to Final Inspection or Occupancy, dated as of December 23, 2003, as amended by the Amendment to Agreement dated as of January 25, 2005, and as further amended by the Second Amendment to Agreement dated as of November 9, 2005, and as further amended by the Third Amendment to Agreement dated as of December 14, 2005, and as finally amended by the Fourth Amendment to Agreement, dated as of June 27, 2006.
- Two Acquisition & Shortfall Agreements between the District and Del Valle Homes, each dated as of June 22, 2004.
- Agreement by and between the City, Del Valle Capital Corporation, Inc., D.R. Horton, Inc., and Pulte Home Corporation Regarding the Funding and Construction of Certain Interim Water Improvements in Return for City's Issuance of Certain Permits, dated as of September 30, 2005.
- Letter of Agreement between City and Del Valle Homes dated as of February 2, 2007.
- Agreement for the Acceptance of Completed Public Improvements and Partial Release of Security, dated as of June 12, 2007.

On November 25, 2008, the City Council approved a *Settlement Agreement and Mutual Release* with the Developer. The City agreed to accept the infrastructure improvements remaining to be accepted such as the well, storage, booster pumps, wellhead treatment system, and some in-tract subdivision improvements. In return, the Developer received a gross payment of $1.3 million minus approximately $452,365 that was withheld pursuant to the terms of the Settlement Agreement, of which approximately $99,000 will be utilized by City crews to complete repairs to the accepted infrastructure. The Developer received a net payment of $847,635.

FISCAL YEAR 2016 FINANCIAL HIGHLIGHTS

Financial highlights of the year include the following:

Government-Wide:

- The District's total net position in fiscal year 2016 was $1.1 million.
- At June 30, 2016, total assets were $5.2 million while total liabilities were $4.3 million.
- Total District revenues were $285,715 and expenses were $372,519.

Fund Basis:

- Special Revenue Fund revenues decreased from $175,479 in the prior year to $168,781 for fiscal year 2016 and expenditures increased from $170,791 in the prior year to $176,666 for fiscal year 2016. Both revenues and expenditures were consistent with the prior year.
- Special Revenue Fund ending fund balance decreased from $266,575 in prior year to $258,690 in current year.
- Debt Service Fund revenues decreased from $331,293 for fiscal year 2015 to $291,934 for fiscal year 2016 and expenditures decreased from $777,097 in the prior year to $365,253 for fiscal year 2016. Revenues decreased from previous year due to excess reserves. The decrease in expenditures is attributed to the District's refunding in the prior year.
- Debt Service Fund ending fund balance for fiscal year 2016 decreased from $771,527 for fiscal year 2015 to $698,208 for fiscal year 2016.

THE BASIC FINANCIAL STATEMENTS

The basic financial statements comprise the government-wide financial statements and the fund financial statements; these two sets of financial statements provide two different views of the District's financial activities and financial position.

Government-Wide Financial Statements

The government-wide financial statements provide a long-term view of the District's activities as a whole and comprise the statement of net position and the statement of activities. The statement of net position provides information about the financial position of the District as a whole, including all its capital assets and long-term liabilities. The statement of activities provides information about the District's revenues and all its expenses. The statement of activities explains in detail the change in net position for the year.

The statement of net position and the statement of activities present information about the following:

- ***Governmental activities*** – All of the District's basic services are considered to be governmental activities, including formation, financing, construction, and maintenance activities. These services are supported by formation deposits, special facilities taxes, and annual maintenance assessments.

Government-wide financial statements are prepared on the accrual basis of accounting, which means they measure the flow of all economic resources of the District as a whole, similar to that used by the private sector.

FINANCIAL ACTIVITIES OF THE DISTRICT AS A WHOLE

This analysis focuses on the net position and changes in net position of the District's governmental activities in the government-wide financial statement of net position and statement of activities that follow.

As of June 30, 2016, total assets and deferred outflows of resources of $5.4 million were offset by liabilities of $4.3 million. The District's net position from governmental activities remained unchanged at $1.1 million from prior year. The District's net position is restricted as follows: $0.3 million for maintenance activities and $0.8 million for debt service.

Following is a condensed statement of net position:

Statement of Net Position – Governmental Activities

	2016	2015
Cash and investments	$ 759,503	$ 840,343
Cash and investments with fiscal agent	195,192	206,935
Interest receivable	2,349	1,331
Prepaid expenses	573	-
Assessments receivable	4,252,513	4,424,254
Total assets	5,210,130	5,472,863
Deferred loss on refunding	153,182	161,174
Current and other liabilities	66,247	75,168
Long-term debt	4,245,000	4,420,000
Total liabilities	4,311,247	4,495,168
Net postion:		
Restricted for:		
District maintenance	258,690	266,575
Debt service	793,375	872,294
Total net position	$ 1,052,065	$ 1,138,869

FISCAL YEAR 2016 GOVERNMENTAL ACTIVITIES

The District's fiscal year 2016 revenue came primarily from annual maintenance and facilities special taxes, which amounted to $274,750. District expenses of $372,519 were primarily for services and professional expenses and interest on long-term debt.

Following is a condensed statement of activities:

Statement of Activities – Governmental Activities

	2016	2015
Revenues:		
Program revenues:		
Operating grants and contributions	$ 954	$ -
General revenues:		
Facilities special tax	109,247	24,589
Maintenance special tax	165,503	174,590
Investment earnings	10,011	2,593
Total revenues	285,715	201,772
Expenses:		
Community development	187,698	316,418
Interest on long-term debt	184,821	143,794
Total expenses	372,519	460,212
Change in net position	(86,804)	(258,440)
Net postion, beginning of year	1,138,869	1,397,309
Net position, end of year	$ 1,052,065	$ 1,138,869

Fund Financial Statements

The fund financial statements report the District's operations in more detail than the government-wide financial statements and focus primarily on the short-term activities of the District's two funds. The fund financial statements measure only current revenues and expenditures and fund balances; they exclude capital assets, long-term debt, and other long-term amounts.

The fund financial statements provide detailed information about each of the District's most significant funds, called major funds. Major funds present the major activities of the District for the year, and may change from year to year as a result of changes in the pattern of the District's activities. All of the District's funds are presented here as major funds; their purpose is explained in Note 1 to the financial statements.

All the District's funds are governmental funds; financial statements for these funds are prepared on the modified accrual basis of accounting, which means they measure only current financial resources and uses.

Following is a condensed statement of revenues, expenditures, and changes in fund balances for the year ended June 30, 2016:

Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds

	Special Revenue Fund	Debt Service Fund	Total
Revenues	$ 168,781	$ 291,934	$ 460,715
Expenditures	176,666	365,253	541,919
Changes in fund balances	(7,885)	(73,319)	(81,204)
Fund balances, beginning of year	266,575	771,527	1,038,102
Fund balances, end of year	$ 258,690	$ 698,208	$ 956,898

THE DISTRICT'S FUND FINANCIAL STATEMENTS

The District's fiscal year 2016 revenue primarily came from facilities special taxes in the amount of $284,247 and maintenance special taxes in the amount of $165,503.

District expenditures of $541,919 in fiscal year 2016 consisted of $176,666 in Special Revenue Fund expenditures and $365,253 in Debt Service Fund expenditures.

At June 30, 2016, the District's governmental funds reported combined fund balances of $956,898, a decrease of $81,204 compared with last year. This decrease was due to the District's debt service expenditures of $354,221 exceeding the facilities special tax revenue of $284,247.

DEBT ADMINISTRATION

The District issued Special Tax Bonds, Series 2005 in the principal amount of $5.0 million in September 2005. Except for approximately $20,000 that was used to reimburse the City water fund for work performed by its crews, the proceeds were used to reimburse the Developer for infrastructure it installed pursuant to the Acquisition & Shortfall Agreements entered into between Developer and the District.

The District issued Refunding Special Tax Bonds, Series 2014 in the principal amount of $4.4 million in December 2014 to refund the outstanding Special Tax Bonds, Series 2005.

The balance of the long-term debt at June 30, 2016, is $4.2 million. Additional details can be found in Note 3 to the financial statements.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

These basic financial statements are intended to provide citizens, taxpayers, investors, and creditors with a general overview of the District's finances. Questions about this report should be directed to the City of Modesto, Administrator, Infrastructure Financing Programs, P.O. Box 642, Modesto, California 95353.

COMMUNITY FACILITIES DISTRICT
NUMBER 2003-1 (FAIRVIEW VILLAGE)

STATEMENT OF NET POSITION AND STATEMENT OF ACTIVITIES

The statement of net position and the statement of activities summarize the entire District's financial activities and financial position. They are prepared on the same basis of accounting that is used by most businesses, which means they include all the District's assets and all its liabilities, as well as all its revenues and expenses. This is known as the full accrual basis of accounting – the effect of all the District's transactions is taken into account, regardless of whether or when cash changes hands, but all material internal transactions between District funds have been eliminated.

The statement of net position reports the difference between the District's total assets, deferred outflows of resources, and the District's total liabilities, including all the District's capital assets and all its long-term debt. The statement of net position focuses the reader on the composition of the District's net position, by subtracting total liabilities from total assets and deferred outflows of resources. The statement of net position summarizes the financial position of the District in a single column.

The statement of activities reports increases and decreases in the District's net position. It is also prepared on the full accrual basis of accounting, which means it includes all the District's revenues, and all its expenses, regardless of when cash changes hands. This differs from the "modified accrual" basis of accounting used in the fund financial statements, which reflect only current assets, current liabilities, available revenues, and measurable expenditures.

The format of the statement of activities presents the District's expenses, which are listed by program, first. Program revenues – that is, revenues which are generated directly by these programs – are then deducted from program expenses to arrive at the net program revenue (expense). General revenues – that is, revenues which are not generated directly by these programs – are then added to arrive at the change in net position and reconciled with the statement of net position.

FUND FINANCIAL STATEMENTS

Major funds are defined generally as having significant activities or balances in the current year.

The District determined all its funds to be major funds. They are:

The **Special Revenue** Fund accounts for all financial resources and uses related to maintenance of parkways and open space within the District.

The **Debt Service** Fund accounts for the payment of principal and interest on the 2014 Refunding Special Tax Bonds.

RECONCILIATION OF THE STATEMENT OF REV ENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOV ERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2016

Changes in Fund Balances of Governmental Funds	$ (81,204)
Amounts reported for governmental activities in the statement of activities are different because of the following:	
Revenues previously recognized in the statement of activities that did not provide current financial resources and therefore were not reported as revenues in the funds are reported as revenues in the funds this year when received.	(175,000)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt and the payment to refunding escrow consumes current financial resources of governmental funds. Neither transaction, however, has any effect on net position:	
Repayment of the principal of long-term debt	175,000
Some expenses reported in the statement of activities do not require the use of current financial resources and therefore are not reported as expenditures in governmental funds:	
Amortization of deferred loss on refunding	(7,992)
Interest payable	2,392
Change in Net Position of Governmental Activities	$ (86,804)

See accompanying notes to the basic financial statements.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 2003-1 (FAIRVIEW VILLAGE)
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description and Reporting Entity

The Community Facilities District Number 2003-1 (Fairview Village) (the District) was formed in December 2003 by a vote of the property owners within the proposed district. The District, a separate legal entity, was formed to provide a funding and reimbursement mechanism for public facilities and services required by the District Specific Plan. The District encompasses approximately 359 gross acres of land located in the southwest area of the City of Modesto (the City), the south side of Hatch Road and east of Carpenter Road. The District is expected to yield 383 single-family residential lots, a water well, storm drainage basin, water tank, sewer outfall line, and a portion of the central neighborhood park site and related infrastructure on 81.66 acres located in the northeast portion of the District. The remaining properties with the 359 acres are expected to annex to the District in the future, as the area develops.

The District is an integral part of the City and the accompanying financial statements are included as a component unit of the basic financial statements prepared by the City. A component unit is a separate governmental unit, agency, or nonprofit corporation which, when combined with all other component units, constitutes the reporting entity as defined in the City's basic financial statements.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and statement of activities) report information on all of the activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities normally are supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which direct expenses are offset by program revenues. Direct expenses are those that are clearly identifiable with the community development function. Program revenues include grants and contributions that are restricted to meeting the operational requirements of the community development function. Investment earnings, and other items which are not properly included among program revenues, are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Basis of Presentation, Basis of Accounting, and Measurement Focus

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Taxes are recognized as revenues in the year for which they are levied.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when collectible within the current period or soon enough thereafter to pay liabilities to the current period. For this purpose, the District considers revenues to be available if they are collected within 180 days of the end of the current fiscal period. During the year ended June 30, 2016, the District changed its availability period from 60 days to 180 days. However, this accounting change had no effect on the District's financial statements. Expenditures generally are recorded when a liability is incurred, as under the accrual basis of accounting. However, principal and interest expenditures are recorded as fund liabilities when due or when amounts have been accumulated in the Debt Service Fund for payments early in the following year.

Substantially all taxes and interest, including the net increase (decrease) in the fair value of investments, are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Miscellaneous revenues are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental funds:

The **Special Revenue** Fund accounts for all financial resources and uses related to maintenance of infrastructure within the District.

The **Debt Service** Fund accounts for the payment of principal and interest on the 2014 Refunding Special Tax Bonds.

D. Facilities and Maintenance Special Taxes

The facilities and maintenance special taxes are collected by the County of Stanislaus on the property tax bill. The special taxes are due November 1 and February 1 and are delinquent if not paid by December 10 and April 10, respectively. The County of Stanislaus bills and collects the special taxes and remits them to the District. The Rate and Method of Apportionment of Special Tax (RMA), set forth in the District's Public Report, describes how the special taxes will be allocated among properties in the District. The Public Report was established during the formation of the District. A cost of living adjustment is applied to the special taxes annually.

E. Fund Balance

In the fund financial statements, governmental funds report fund balance as nonspendable, restricted, committed, assigned, or unassigned based primarily on the extent to which the District is bound to honor constraints on how specific amounts can be spent.

- **Nonspendable** - Amounts that are not in spendable form (such as inventory) or are required either legally or contractually to be maintained intact.
- **Restricted** - Amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional or enabling legislation.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- **Committed** - Amounts constrained to specific purposes by the District itself, using the District's highest level of decision-making authority (the City Council). To be reported as committed, amounts cannot be used for any other purpose unless the District takes the same highest level action to remove or change the constraint. The underlying action that imposed the limitation needs to occur no later than the close of the reporting period.
- **Assigned** - Amounts the District *intends* to use for a specific purpose. Intent can be expressed by the District at either the highest level of decision-making or by an official or body to which the District delegates the authority.
- **Unassigned** - The residual classification for the District that includes amounts not contained in the other classifications. In other funds, the unassigned classification is used only if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes.

The District establishes and modifies or rescinds fund balance commitments by passage of an ordinance or policy. This is typically done through adoption or amendment of the budget. A fund balance commitment is further indicated in the budget as a designation or commitment of the fund, such as approved construction contracts. Assigned fund balance is established by the District through adoption or amendment of the budget or future year budget plan as intended for a specific purpose.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, followed by the committed, assigned, and unassigned resources as they are needed.

F. Governmental Accounting Standards Update

During the year ended June 30, 2016, the District implemented the following Governmental Accounting Standards Board (GASB) standards:

GASB Statement No. 72, *Fair Value Measurement and Application.* This statement is intended to improve accounting and financial reporting for state and local governments' investments by enhancing the comparability of financial statements amount governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. This statement requires additional disclosures and did not have a significant impact to the District's financial statements.

GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and No. 68.* This statement establishes requirements for those pensions and pension plans that are not administrated through a trust meeting specified criteria and thus are not covered by Statement Nos. 67 and 68. This statement did not have a significant impact to the District's financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

GASB Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*, which supersedes Statement No. 55. This statement clarifies the hierarchy of generally accepted accounting principles (GAAP), and reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within the scope of authoritative GAAP. This statement did not have a significant impact to the District's financial statements.

GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*. The statement addresses accounting and financial reporting for certain external investment pools and pool participants. The statement establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. It also establishes additional note disclosure requirements to include information about any limitations or restrictions on participant withdrawals. This statement did not have a significant impact to the District's financial statements.

The District is currently evaluating its accounting practices to determine the potential impact on the financial statements for the following GASB Statements:

In June 2015, GASB issued Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans.* This statement addresses reporting by OPEB plans that administer benefits on behalf of governments. This Statement is effective for the District's fiscal year ending June 30, 2017.

In June 2015, GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.* This statement addresses reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments. This Statement is effective for the District's fiscal year ending June 30, 2018.

In August 2015, GASB issued Statement No. 77, *Tax Abatement Disclosures.* This statement requires governments that enter into tax abatement agreements to disclose the following information about the agreements: (i) brief descriptive information; (ii) the gross dollar amount of taxes abated during the period; and (iii) commitments made by a government, other than to abate taxes, as part of a tax abatement agreement. This Statement is effective for the District's fiscal year ending June 30, 2017.

In December 2015, the GASB issued Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*. The objective of this statement is to address a practice issue regarding the scope and applicability of Statement No. 68 associated with pensions provided through certain cost-sharing multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions. Such plans are not considered a state or local government pension plan and are used to provide benefits to both employees of state and local governments and employees of employers that are not state or local governments. This Statement is effective for the District's fiscal year ending June 30, 2017.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In January 2016, the GASB issued Statement No. 80, *Blending Requirements for Certain Component Units—an amendment of GASB Statement No. 14.* The objective of this statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. This statement amends the blending requirements established in GASB Statement No. 14, *The Financial Reporting Entity*, as amended. This Statement is effective for the District's fiscal year ending June 30, 2017.

In March 2016, the GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements.* The statement provides recognition and measurement guidance for situations in which a government is a beneficiary of these agreements. This Statement is effective for the District's fiscal year ending June 30, 2018.

In March 2016, the GASB issued Statement No. 82, *Pension Issues – an amendment of GASB Statements No. 67, No. 68, and No. 73,* to address certain issues that have been raised with respect to Statements No. 67, *Financial Reporting for Pension Plans*, No. 68, *Accounting and Financial Reporting for Pensions*, and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68.* The statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practices for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. This Statement is effective for the District's fiscal year ending June 30, 2017.

NOTE 2 – CASH AND INVESTMENTS

Cash and investments of the District, with the exception of cash and investments with fiscal agents, are pooled with other City funds. At June 30, 2016, the City's investment pool is unrated and the weighted average maturity is 518 days. Interest earned on pooled cash and investments is credited to the funds based on each fund's average monthly cash balance. Detailed information concerning the City's pooled cash and investments, including information regarding the fair value of investments, may be found in the City's Comprehensive Annual Financial Report. As of June 30, 2016, the fair value of the District's position in the pool is the same as the value of its pool shares. The following table shows the distribution of the District's investments by type, credit rating, and maturity:

	Amount	Weighted Average Maturity	Rating
Cash and investments with fiscal agent:			
Money Market Fund	$ 195,192	26 days	AAAm
Pooled with the City of Modesto	759,503		
Total Cash and Investments	$ 954,695		

NOTE 2 – CASH AND INVESTMENTS (Continued)

Concentration of Credit Risk

The District is required to disclose investments that represent a concentration of five percent or more of investments in any one issuer held by individual funds in the securities of issuers other than U.S. Treasury securities, mutual funds, and external investment pools. At June 30, 2016, the Debt Service Fund did not hold any other investments.

Fair Value Hierarchy

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the assets. Level 1 inputs are quoted prices in an active market for identical assets; level 2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. The inputs and techniques used for valuing securities are not necessarily an indication of risk associated with investing in those securities. The District's investment in the City's Pool and money market fund are exempt from fair value measurement disclosures.

NOTE 3 – LONG-TERM DEBT

On December 16, 2014, the District issued Refunding Special Tax Bonds (refunding bonds) with a par amount of $4,420,000 to refund the District's $4,660,000 outstanding Special Tax Bonds (refunded bonds) issued on September 1, 2005, which were issued primarily to finance various public improvements needed to develop property located within the District. Interest on the refunding bonds is payable semiannually on each March 1 and September 1 through September 1, 2035. The refunding bonds were issued with an interest rate of 4.1% and are payable solely from revenues derived from the assessment of annual special taxes to be levied on the taxable property within the District and from certain other funds pledged under the Trust Indenture.

The long-term debt activity for the year ended June 30, 2016 was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Refunding Special Tax Bonds	$4,420,000	$ -	$ (175,000)	$4,245,000	$ 90,000

NOTE 3 – LONG-TERM DEBT (Continued)

Annual debt service requirements for the refunding bonds are shown below:

Year Ended June 30,	Principal	Interest
2017	$ 90,000	$ 172,200
2018	100,000	168,305
2019	115,000	163,897
2020	120,000	159,080
2021	130,000	153,955
2022-2026	835,000	676,398
2027-2031	1,200,000	469,245
2032-2036	1,655,000	178,248
	$ 4,245,000	$ 2,141,328

NOTE 4 – RESTRICTED NET POSITION AND FUND BALANCES

Net position is measured on the full accrual basis of accounting, which differs from the concept of fund balance, which is measured on the modified accrual basis of accounting.

A. Net Position

Net position is the excess of all the District's assets over all its liabilities. Net position is determined only at the government-wide level.

Restricted describes the portion of net position which is restricted as to use by the terms and conditions of agreements with outside parties, governmental regulations, laws, or other restrictions which the District cannot unilaterally alter. These principally include developer fees received, reduced by related liabilities, for District maintenance and debt service requirements.

NOTE 4 – RESTRICTED NET POSITION AND FUND BALANCES (Continued)

B. Fund Balances

Fund balances are all presented in the restricted category (see Note 1 for a description of fund balance categories). As of June 30, 2016, restrictions included:

Restricted for District Maintenance, the portion of fund balance legally restricted for maintenance of parkways and open space within the District.

Restricted for Debt Service, the portion of fund balance legally restricted to the payment of principal and interest on long-term liabilities.

NOTE 5 – DELINQUENCIES AND FORECLOSURES

The District has made a covenant under the Trust Indenture of the Special Tax Bonds discussed in Note 3 that it will initiate foreclosure proceedings against delinquent parcels as follows:

a. Any parcel that is delinquent for three consecutive payments. Foreclosure against these parcels is to be initiated within 120 days after the third delinquency.

b. All parcels delinquent at June 30 when the District received Special Taxes totaling less than 95% of the total Special Tax levied for that fiscal year. Foreclosure against these parcels is to be initiated by September 1 following the end of the fiscal year.

The District has also covenanted that it will pursue the foreclosure proceedings until the delinquent Special Taxes have been paid.

At June 30, 2016, the District had 8 parcels that were delinquent for a total of $6,508, of which one parcel was delinquent more than three consecutive payments. The delinquencies total of $6,508 at June 30, 2016 is included in assessments receivable on the statement of net position and balance sheet.

The District received 98.56% of the Debt Service Fund facilities special taxes levied during the year ended June 30, 2016.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Honorable City Council
of the City of Modesto, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the City of Modesto Community Facilities District Number 2003-1 (Fairview Village) (the District), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 30, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe that a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 2003-1 (FAIRVIEW VILLAGE)
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FOR THE YEAR ENDED JUNE 30, 2016

2015 Comment:	***2015-001 – Unrecorded Assessments Receivable***
Condition/Effect:	The City did not record the assessments receivable (asset) or the related unavailable revenues (deferred inflow of resources) in the trial balance of the District's Debt Service Fund. This condition resulted in a material audit adjustment adding the 'assessments receivable' balance of $4,424,254 and the 'unavailable revenues' balance of $4,420,000, while increasing the 'facilities special tax' revenue by $4,254 in the District's Debt Service Fund.
Recommendation:	The City should record this audit adjustment in the District's trial balance and maintain the correct balances of these accounts going forward.
Status:	Corrected.
2015 Comment:	***2015-002 – Incorrect Recording of Refunding***
Condition/Effect:	The City incorrectly recorded the refunding transaction in the trial balance of the District's Debt Service Fund. This condition resulted in a material audit adjustment adding the 'refunding escrow' (debt service expenditure) amount of $407,116 and the 'payment to refunding escrow' (other financing use) amount of $4,418,395; and reducing 'refunding bonds issued' (other financing source) by $1,387, 'principal' (debt service expenditure) by $4,706,600, and 'interest and fiscal charges' (debt service expenditure) by $120,298 in the District's Debt Service Fund.
Recommendation:	The City should do the research to determine the correct accounting when it encounters unusual transactions such as the refunding transaction that occurred this year.
Status:	Corrected.

COMMUNITY FACILITIES DISTRICT
NUMBER 2003-1 (FAIRVIEW VILLAGE)
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FOR THE YEAR ENDED JUNE 30, 2016

2015 Comment:	***2015-003 – Misposting of Special Tax***
Condition/Effect:	The City posted one of the District's Debt Service Fund's two special tax receipts from Stanislaus County incorrectly to the trial balance of another community facilities district. This condition resulted in a material audit adjustment increasing 'cash and investments' and 'facilities special tax' revenue by $153,684 in the District's Debt Service Fund.
Recommendation:	The City should review the District's trial balance at the end of the year against both the prior year actual amounts and the current year budget amounts, and research any unexpected differences.
Status:	Corrected.

Independent Auditor's Report

The Honorable City Council
of the City of Modesto, California

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities and Special Revenue Fund of the City of Modesto Community Facilities District Number 2007-2 (Kiernan Business Park West) (the District), a component unit of the City of Modesto, California, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly in all material respects the respective financial position of the governmental activities and Special Revenue Fund of the District as of June 30, 2016, and the respective changes in financial position thereof and the respective budgetary comparison for the Special Revenue Fund for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2016, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 2007-2 (KIERNAN BUSINESS PARK WEST)
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

The City of Modesto Community Facilities District No. 2007-2 (Kiernan Business Park West) (the District) has issued its financial statements in the format prescribed by the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34, which requires the District to provide this overview of its financial activities for the fiscal year.

Please read this overview in conjunction with your reading of the accompanying basic financial statements.

THE PURPOSE OF THE DISTRICT

The District is a component unit of the City of Modesto (City). It is controlled by the City, and the City Council is the District's governing body. City employees perform most of the duties and functions required of the District, but certain tasks are provided by third parties under contract.

The District's purpose under California law is to provide a funding mechanism for public facilities and services authorized by the District. The District is the vehicle that will be used to ensure that all landowners in the Specific Plan area contribute to the cost of the public facilities and services. Additional information on the District can be found below, and in Note 1 to the accompanying financial statements.

BACKGROUND AND MANAGEMENT'S DISCUSSION

On April 1, 1997, the City Council approved the Kiernan Business Park Specific Plan that set forth a plan of development for approximately 614 acres that were, at that time, located adjacent to the City's northern border, east of Highway 99 and south of Kiernan Avenue in a portion of unincorporated Stanislaus County. To date, approximately 250 acres within the Kiernan Business Park Specific Plan have been annexed into the City. Approximately 88 of the City annexed acres will ultimately be included within the District. The Kiernan Business Park Specific Plan is intended to provide for the development of a new business park, commercial and industrial uses that will assist in implementing the City's long-range objectives to enhance its local economy, generate jobs for residents, and create a better jobs/housing balance.

The District was formed by the City Council in September 2007 to generate funding for construction of certain roadway improvements and the ongoing maintenance of landscaped medians, a bike path, well site, storm drainage pump and basin, and related facilities.

FISCAL YEAR 2016 FINANCIAL HIGHLIGHTS

Financial highlights of the year include the following:

Government-Wide:

- The District's net position was $175,842 in fiscal year 2016.
- At June 30, 2016, total assets were $177,417 while total liabilities were $1,575.
- Total District revenues were $1,937.

Fund Basis:

- Special Revenue Fund revenues were $1,937 from investment earnings. Expenditures of $34,002 were for ongoing maintenance and administrative expenses.

THE BASIC FINANCIAL STATEMENTS

The basic financial statements comprise the government-wide financial statements and the fund financial statements; these two sets of financial statements provide two different views of the District's financial activities and financial position.

Government-Wide Financial Statements

The government-wide financial statements provide a long-term view of the District's activities as a whole and comprise the statement of net position and the statement of activities. The statement of net position provides information about the financial position of the District as a whole, including all its capital assets and long-term liabilities. The statement of activities provides information about the District's revenues and all its expenses. The statement of activities explains in detail the change in net position for the period July 1, 2015 to June 30, 2016.

The statement of net position and the statement of activities present information about the following:

- ***Governmental activities*** – All of the District's basic services are considered to be governmental activities, including formation, financing, construction, and maintenance activities. Formation deposits, special facilities taxes, and annual maintenance assessments support these services.

Government-wide financial statements are prepared on the accrual basis of accounting, which means they measure the flow of all economic resources of the District as a whole, similar to that used by the private sector.

FINANCIAL ACTIVITIES OF THE DISTRICT AS A WHOLE

This analysis focuses on the net position and changes in net position of the District's governmental activities in the government-wide financial statement of net position and statement of activities that follow.

As of June 30, 2016, total assets of $177,417 were offset by liabilities of $1,575. The District's net position from governmental activities was $175,842. All of the District's net position is restricted for District maintenance.

Following is a condensed statement of net position:

Statement of Net Position – Governmental Activities

	2016	2015
Cash and investments	$ 177,010	$ 210,636
Interest receivable	407	421
Total assets	177,417	211,057
Current and other liabilities	1,575	3,150
Net position:		
Restricted for:		
District maintenance	$ 175,842	$ 207,907

FISCAL YEAR 2016 GOVERNMENTAL ACTIVITIES

The District's revenue for fiscal year 2016 came from investment earnings in the amount of $1,937. District expenses of $34,002 during fiscal year 2016 were for ongoing maintenance and administrative expenses.

Following is a condensed statement of activities:

Statement of Activities – Governmental Activities

	2016	2015
Revenues:		
General revenues:		
Investment earnings	$ 1,937	$ 875
Expenses:		
Community development	34,002	28,800
Change in net position	(32,065)	(27,925)
Net position, beginning of year	207,907	235,832
Net position, end of year	$ 175,842	$ 207,907

Fund Financial Statements

The fund financial statements report the District's operations in more detail than the government-wide financial statements and focus primarily on the short-term activities of the District's one fund. The fund financial statements measure only current revenues and expenditures and fund balances; they exclude capital assets, long-term debt, and other long-term amounts.

The fund financial statements provide detailed information about each of the District's most significant funds, called major funds. Major funds present the major activities of the District for the year, and may change from year to year as a result of changes in the pattern of District's activities. All of the District's funds are presented here as major funds; their purpose is explained in Note 1 to the financial statements.

All the District's funds are governmental funds; financial statements for these funds are prepared on the modified accrual basis of accounting, which means they measure only current financial resources and uses.

The Special Revenue Fund accounts for all activity of the District. The Capital Projects Fund was developed for the formation of the District. During the year ended June 30, 2010, the Capital Projects Fund was considered no longer necessary, and was closed out with all remaining fund balance transferred to the Special Revenue Fund to continue operations and activities of the District.

Following is a condensed statement of revenues, expenditures, and change in fund balance for the year ended June 30, 2016:

Statement of Revenues, Expenditures, and Change in Fund Balance – Special Revenue Fund

Revenues	$ 1,937
Expenditures	34,002
Change in fund balance	(32,065)
Fund balance, beginning of year	207,907
Fund balance, end of year	$ 175,842

THE DISTRICT'S FUND FINANCIAL STATEMENTS

At June 30, 2016, the District's governmental special revenue fund reported a fund balance of $175,842.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

These basic financial statements are intended to provide citizens, taxpayers, investors, and creditors with a general overview of the District's finances. Questions about this report should be directed to the City of Modesto, Administrator, Infrastructure Financing Programs, P.O. Box 642, Modesto, California 95353.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 2007-2 (KIERNAN BUSINESS PARK WEST)

STATEMENT OF NET POSITION AND STATEMENT OF ACTIVITIES

The statement of net position and the statement of activities summarize the entire District's financial activities and financial position. They are prepared on the same basis of accounting that is used by most businesses, which means they include all the District's assets and all its liabilities, as well as all its revenues and expenses. This is known as the full accrual basis of accounting – the effect of all the District's transactions is taken into account, regardless of whether or when cash changes hands, but all material internal transactions between District funds have been eliminated.

The statement of net position reports the difference between the District's total assets and the District's total liabilities, including all the District's capital assets and all its long-term debt. The statement of net position focuses the reader on the composition of the District's net position, by subtracting total liabilities from total assets. The statement of net position summarizes the financial position of the District in a single column.

The statement of activities reports increases and decreases in the District's net position. It is also prepared on the full accrual basis of accounting, which means it includes all the District's revenues and all its expenses, regardless of when cash changes hands. This differs from the "modified accrual" basis of accounting used in the fund financial statements, which reflect only current assets, current liabilities, available revenues, and measurable expenditures.

The format of the statement of activities presents the District's expenses, which are listed by program, first. Program revenues – that is, revenues which are generated directly by these programs – are then deducted from program expenses to arrive at the net program revenue (expense). General revenues – that is, revenues which are not generated directly by these programs – are then added to arrive at the change in net position and reconciled with the statement of net position.

FUND FINANCIAL STATEMENTS

Major funds are defined generally as having significant activities or balances in the current year.

The District's only fund is considered to be a major fund:

The **Special Revenue** Fund accounts for all financial resources and uses related to maintenance of parkways and open space within the District.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 2007-2 (KIERNAN BUSINESS PARK WEST)
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description and Reporting Entity

The Community Facilities District Number 2007-2 (Kiernan Business Park West) (the District) was formed in October 2007 by a vote of the property owners within the proposed district. The District, a separate legal entity, was formed to provide a funding and reimbursement mechanism for public facilities and services required by the District Specific Plans. The District is the vehicle that will be used to ensure that all landowners in the District pay their share of the public improvements. The District is a proposed 88-acre project, a portion of the Kiernan-Carver Comprehensive Planning District, and bounded on the North by Kiernan Avenue, on the East by Dale Road, on the South by Bangs Avenue, and on the West by Modesto's City Limits.

The District is an integral part of the City of Modesto (the City) and the accompanying financial statements are included as a component unit of the basic financial statements prepared by the City. A component unit is a separate governmental unit, agency, or nonprofit corporation which, when combined with all other component units, constitutes the reporting entity as defined in the City's basic financial statements.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and statement of activities) report information on all of the activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities normally are supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which direct expenses are offset by program revenues. Direct expenses are those that are clearly identifiable with the community development function. Program revenues include grants and contributions that are restricted to meeting the operational requirements of the community development function. Investment earnings, and other items which are not properly included among program revenues, are reported instead as general revenues.

The fund financial statements (i.e., balance sheet and statement of revenues, expenditures, and change in fund balance) report information on the Special Revenue Fund of the District.

Since the amounts presented in the District's balance sheet and statement of net position are the same, they are presented as one financial statement. Similarly, since the amounts presented in the District's statement of revenues, expenditures, and change in fund balance and the statement of activities are the same, they are presented as one financial statement.

C. Basis of Presentation, Basis of Accounting, and Measurement Focus

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Taxes are recognized as revenues in the year for which they are levied.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when collectible within the current period or soon enough thereafter to pay liabilities to the current period. For this purpose, the District considers revenues to be available if they are collected within 180 days of the end of the current fiscal period. During the year ended June 30, 2016, the District changed its availability period from 60 days to 180 days. However, this accounting change had no effect on the District's financial statements. Expenditures generally are recorded when a liability is incurred, as under the accrual basis of accounting.

Substantially all taxes and interest, including the net increase (decrease) in the fair value of investments, are considered to be susceptible to the accrual basis of accounting and so have been recognized as revenues of the current fiscal period. Miscellaneous revenues are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental fund:

The **Special Revenue** Fund accounts for all financial resources and uses related to maintenance of parkways and open space within the District.

D. Fund Balance

In the fund financial statements, governmental funds report fund balance as nonspendable, restricted, committed, assigned, or unassigned based primarily on the extent to which the District is bound to honor constraints on how specific amounts can be spent.

- **Nonspendable** - Amounts that are not in spendable form (such as inventory) or are required either legally or contractually to be maintained intact.
- **Restricted** - Amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional or enabling legislation.
- **Committed** - Amounts constrained to specific purposes by the District itself, using the District's highest level of decision-making authority (the City Council). To be reported as committed, amounts cannot be used for any other purpose unless the District takes the same highest level action to remove or change the constraint. The underlying action that imposed the limitation needs to occur no later than the close of the reporting period.
- **Assigned** - Amounts the District *intends* to use for a specific purpose. Intent can be expressed by the District at either the highest level of decision-making or by an official or body to which the District delegates the authority.
- **Unassigned** - The residual classification for the District that includes amounts not contained in the other classifications. In other funds, the unassigned classification is used only if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The District establishes and modifies or rescinds fund balance commitments by passage of an ordinance or policy. This is typically done through adoption or amendment of the budget. A fund balance commitment is further indicated in the budget as a designation or commitment of the fund, such as approved construction contracts. Assigned fund balance is established by the District through adoption or amendment of the budget or future year budget plan as intended for a specific purpose.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, followed by the committed, assigned, and unassigned resources as they are needed.

E. Governmental Accounting Standards Update

During the year ended June 30, 2016, the District implemented the following Governmental Accounting Standards Board (GASB) standards:

GASB Statement No. 72, *Fair Value Measurement and Application*. This statement is intended to improve accounting and financial reporting for state and local governments' investments by enhancing the comparability of financial statements amount governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. This statement did not have a significant impact to the District's financial statements.

GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and No. 68.* This statement establishes requirements for those pensions and pension plans that are not administrated through a trust meeting specified criteria and thus are not covered by Statement Nos. 67 and 68. This statement did not have a significant impact to the District's financial statements.

GASB Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*, which supersedes Statement No. 55. This statement clarifies the hierarchy of generally accepted accounting principles (GAAP), and reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within the scope of authoritative GAAP. This statement did not have a significant impact to the District's financial statements.

GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*. The statement addresses accounting and financial reporting for certain external investment pools and pool participants. The statement establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. It also establishes additional note disclosure requirements to include information about any limitations or restrictions on participant withdrawals. This statement did not have a significant impact to the District's financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The District is currently evaluating its accounting practices to determine the potential impact on the financial statements for the following GASB Statements:

In June 2015, GASB issued Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans.* This statement addresses reporting by OPEB plans that administer benefits on behalf of governments. This Statement is effective for the District's fiscal year ending June 30, 2017.

In June 2015, GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.* This statement addresses reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments. This Statement is effective for the District's fiscal year ending June 30, 2018.

In August 2015, GASB issued Statement No. 77, *Tax Abatement Disclosures.* This statement requires governments that enter into tax abatement agreements to disclose the following information about the agreements: (i) brief descriptive information; (ii) the gross dollar amount of taxes abated during the period; and (iii) commitments made by a government, other than to abate taxes, as part of a tax abatement agreement. This Statement is effective for the District's fiscal year ending June 30, 2017.

In December 2015, the GASB issued Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*. The objective of this statement is to address a practice issue regarding the scope and applicability of Statement No. 68 associated with pensions provided through certain cost-sharing multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions. Such plans are not considered a state or local government pension plan and are used to provide benefits to both employees of state and local governments and employees of employers that are not state or local governments. This Statement is effective for the District's fiscal year ending June 30, 2017.

In January 2016, the GASB issued Statement No. 80, *Blending Requirements for Certain Component Units—an amendment of GASB Statement No. 14*. The objective of this statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. This statement amends the blending requirements established in GASB Statement No. 14, *The Financial Reporting Entity*, as amended. This Statement is effective for the District's fiscal year ending June 30, 2017.

In March 2016, the GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*. The statement provides recognition and measurement guidance for situations in which a government is a beneficiary of these agreements. This Statement is effective for the District's fiscal year ending June 30, 2018.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In March 2016, the GASB issued Statement No. 82, *Pension Issues – an amendment of GASB Statements No. 67, No. 68, and No. 73,* to address certain issues that have been raised with respect to Statements No. 67, *Financial Reporting for Pension Plans*, No. 68, *Accounting and Financial Reporting for Pensions*, and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68.* The statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practices for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. This Statement is effective for the District's fiscal year ending June 30, 2017.

NOTE 2 – CASH AND INVESTMENTS

Cash and investments of the District are pooled with other City funds. The District's portion of this pooled amount was $177,010 at June 30, 2016. At June 30, 2016, the City's investment pool is unrated and the weighted average maturity is 518 days. Interest earned on pooled cash and investments is credited to the funds based on each fund's average monthly cash balance. Detailed information concerning the City's pooled cash and investments, including information regarding the fair value of investments, may be found in the City's Comprehensive Annual Financial Report. As of June 30, 2016, the fair value of the District's position in the pool is the same as the value of its pool shares.

The fair value hierarchy established by generally accepted accounting principles is based on the valuation inputs used to measure the fair value of the assets. The District's investment in the City's investment pool is exempt from fair value measurement disclosures.

NOTE 3 – RESTRICTED NET POSITION AND FUND BALANCES

Net position is measured on the full accrual basis of accounting, which differs from the concept of fund balance, which is measured on the modified accrual basis of accounting.

A. Net Position

Net position is the excess of all the District's assets over all its liabilities. Net position is determined only at the government-wide level.

Restricted describes the portion of net position which is restricted as to use by the terms and conditions of agreements with outside parties, governmental regulations, laws, or other restrictions which the District cannot unilaterally alter. These principally include developer fees received for District maintenance.

NOTE 3 – RESTRICTED NET POSITION AND FUND BALANCES (Continued)

B. Fund Balances

Fund balances are all presented in the restricted category (see Note 1 for a description of fund balance categories). As of June 30, 2016, restrictions included:

Restricted for District Maintenance, the portion of fund balance legally restricted for maintenance of parkways and open space within the District.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Honorable City Council
of the City of Modesto, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and Special Revenue Fund of the City of Modesto Community Facilities District Number 2007-2 (Kiernan Business Park West) (the District), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 30, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe that a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report

The Honorable City Council
of the City of Modesto, California

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the City of Modesto Community Facilities District Number 1997-1 (North Beyer Park) (the District), a component unit of the City of Modesto, California, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly in all material respects the respective financial position of the governmental activities and each major fund of the District as of June 30, 2016, and the respective changes in financial position thereof and the respective budgetary comparison for the Special Revenue Fund for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2016, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Walnut Creek, California
November 30, 2016

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 1997-1 (NORTH BEYER PARK)
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

The City of Modesto Community Facilities District No. 1997-1 (North Beyer Park) (the District) has issued its financial statements in the format prescribed by the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34, which requires the District to provide this overview of its financial activities for the fiscal year.

Please read this overview in conjunction with your reading of the accompanying basic financial statements.

THE PURPOSE OF THE DISTRICT

The District is a component unit of the City. It is controlled by the City, and the City Council is the District's governing body. City employees perform most of the duties and functions required of the District, but certain tasks are provided by third parties under contract.

The District's purpose under California law is to provide a funding mechanism for public facilities and services authorized by the District. The District is the vehicle that will be used to ensure that all landowners in the Specific Plan area contribute to the cost of the public facilities and services. Additional information on the District can be found below, and in Note 1 to the accompanying financial statements.

BACKGROUND AND MANAGEMENT'S DISCUSSION

On November 26, 1996, the City Council of the City approved the North Beyer Park Specific Plan, allowing for a maximum of 1,200 residential units to be developed on 160 acres within the Specific Plan area. In addition, three areas within the Specific Plan were designated "Mixed Use," two of which were expected to develop as neighborhood commercial shopping centers and the third which was expected to develop as office space. At the same meeting at which the City Council approved the Specific Plan, a residential subdivision was approved for 263 dwelling units to be built on 55 acres within the Specific Plan. One condition of the tentative map of this subdivision required formation of or annexation into a Mello-Roos Community Facilities District (CFD) to fund maintenance of parkways and open space within the development.

In order to comply with the condition of the tentative map, in June 1997 the District was formed and authorized to levy a special tax to pay for capital improvements (medians on Coffee and Oakdale Roads) and ongoing maintenance costs. Subsequent development has annexed to this CFD.

To date, the CFD has been unable to construct the medians. This is because (1) insufficient tax monies have been collected for the construction projects and (2) the medians cannot be installed until the property owners on both sides of Coffee and Oakdale Roads dedicate the necessary right-of-way to construct the full street width. However, the CFD has levied and collected taxes sufficient for the ongoing maintenance expenses. In fact, the CFD has built sufficient reserves that the levy of the annual maintenance tax ceased as of fiscal year 2003-2004 and is not expected to be reinstated until the authorized improvements have been installed.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 1997-1 (NORTH BEYER PARK)
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

FISCAL YEAR 2016 FINANCIAL HIGHLIGHTS

Financial highlights of the year include the following:

Government-Wide:

- The District's net position decreased $4,087 in fiscal year 2016.
- At June 30, 2016, net position was $94,216.
- Total general revenues were $918.

Fund Basis:

- Capital Projects Fund revenues were $414. This is an increase of $265 from the prior year. The revenues are attributed to interest earnings.
- Capital Projects Fund ending fund balance increased $414 to $42,619.
- Special Revenue Fund revenues of $504 were $306 more than last year, attributed to an increase in interest earnings. Expenditures of $5,005 were $2,113 more than the prior year.
- Special Revenue Fund ending fund balance decreased $4,501 to $51,597.

THE BASIC FINANCIAL STATEMENTS

The basic financial statements comprise the government-wide financial statements and the fund financial statements; these two sets of financial statements provide two different views of the District's financial activities and financial position.

Government-Wide Financial Statements

The government-wide financial statements provide a long-term view of the District's activities as a whole and comprise the statement of net position and the statement of activities. The statement of net position provides information about the financial position of the District as a whole, including all its capital assets and long-term liabilities. The statement of activities provides information about the District's revenues and all its expenses. The statement of activities explains in detail the change in net position for the year.

The statement of net position and the statement of activities present information about the following:

- ***Governmental activities*** – All of the District's basic services are considered to be governmental activities, including formation, financing, construction, and maintenance activities. Formation deposits, special facilities taxes, and annual maintenance assessments support these services.

Government-wide financial statements are prepared on the accrual basis of accounting, which means they measure the flow of all economic resources of the District as a whole, similar to that used by the private sector.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 1997-1 (NORTH BEYER PARK)
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

FINANCIAL ACTIVITIES OF THE DISTRICT AS A WHOLE

This analysis focuses on the net position and changes in net position of the District's governmental activities in the government-wide financial statement of net position and statement of activities that follow.

As of June 30, 2016, total assets were $94,216. The District's net position from governmental activities decreased $4,087 in 2016 from $2,545 in 2015. All of the District's net position is restricted as follows: $42,619 for capital projects and $51,597 for District maintenance.

Following is a condensed statement of net position:

Statement of Net Position – Governmental Activities

	2016	2015
Cash and investments	$ 94,018	$ 98,121
Interest receivable	198	182
Total assets	94,216	98,303
Net position:		
Restricted for:		
Capital projects	42,619	42,205
District maintenance	51,597	56,098
Total net position	$ 94,216	$ 98,303

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 1997-1 (NORTH BEYER PARK)
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

FISCAL YEAR 2016 GOVERNMENTAL ACTIVITIES

The District's fiscal year 2016 revenue came from interest income. Community development expense increased by $2,113 due to related increases in salaries and benefits of City employees providing administrative and program services for the District.

Following is a condensed statement of activities:

Statement of Activities – Governmental Activities

	2016	2015
Revenues:		
General revenues:		
Investment earnings	$ 918	$ 347
Expenses:		
Community development	5,005	2,892
Change in net position	(4,087)	(2,545)
Net position, beginning of year	98,303	100,848
Net position, end of year	$ 94,216	$ 98,303

Fund Financial Statements

The fund financial statements report the District's operations in more detail than the government-wide financial statements and focus primarily on the short-term activities of the District's two funds. The fund financial statements measure only current revenues and expenditures and fund balances; they exclude capital assets, long-term debt, and other long-term amounts.

The fund financial statements provide detailed information about each of the District's most significant funds, called major funds. Major funds present the major activities of the District for the year, and may change from year to year as a result of changes in the pattern of the District's activities. All of the District's funds are presented here as major funds; their purposes are explained in Note 1 to the financial statements.

All the District's funds are governmental funds; financial statements for these funds are prepared on the modified accrual basis of accounting, which means they measure only current financial resources and uses.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 1997-1 (NORTH BEYER PARK)
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

Following is a condensed statement of revenues, expenditures, and changes in fund balances for the year ended June 30, 2016:

Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds

	Capital Projects Fund	Special Revenue Fund	Total
Revenues	$ 414	$ 504	$ 918
Expenditures	-	5,005	5,005
Changes in fund balances	414	(4,501)	(4,087)
Fund balances, beginning of year	42,205	56,098	98,303
Fund balances, end of year	$ 42,619	$ 51,597	$ 94,216

THE DISTRICT'S FUND FINANCIAL STATEMENTS

At June 30, 2016, the District's governmental funds reported combined fund balances of $94,216, which is a decrease of $4,087 compared with last year.

CAPITAL ASSETS

Under GASB Statement No. 34, the District is required to record all its capital assets, including infrastructure, at their historical cost, and to depreciate these assets over their estimated useful lives. However, title to all infrastructure assets acquired or constructed by the District is turned over to the City upon completion and acceptance. Accordingly, capital outlay expenditures are reported in both the District's fund and government-wide financial statements. Therefore, the District reports no long-term capital assets.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

These basic financial statements are intended to provide citizens, taxpayers, investors, and creditors with a general overview of the District's finances. Questions about this report should be directed to the City of Modesto, Administrator, Infrastructure Financing Programs, P.O. Box 642, Modesto, California 95353.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 1997-1 (NORTH BEYER PARK)

STATEMENT OF NET POSITION AND STATEMENT OF ACTIVITIES

The statement of net position and the statement of activities summarize the entire District's financial activities and financial position. They are prepared on the same basis of accounting as that used by most businesses, which means they include all the District's assets and all its liabilities, as well as all its revenues and expenses. This is known as the full accrual basis of accounting – the effect of all the District's transactions is taken into account, regardless of whether or when cash changes hands, but all material internal transactions between District funds have been eliminated.

The statement of net position reports the difference between the District's total assets and the District's total liabilities, including all the District's capital assets and all its long-term debt. The statement of net position focuses the reader on the composition of the District's net position, by subtracting total liabilities from total assets. The statement of net position summarizes the financial position of the District in a single column.

The statement of activities reports increases and decreases in the District's net position. It is also prepared on the full accrual basis of accounting, which means it includes all the District's revenues and all its expenses, regardless of when cash changes hands. This differs from the "modified accrual" basis of accounting used in the fund financial statements, which reflect only current assets, current liabilities, available revenues, and measurable expenditures.

The format of the statement of activities presents the District's expenses, which are listed by program, first. Program revenues – that is, revenues which are generated directly by these programs – are then deducted from program expenses to arrive at the net program revenue (expense). General revenues – that is, revenues which are not generated directly by these programs – are then added to arrive at the change in net position and reconciled with the statement of net position.

FUND FINANCIAL STATEMENTS

Major funds are defined generally as having significant activities or balances in the current year.

The District determined all its funds to be major funds. They are:

The **Capital Projects** Fund accounts for all financial resources and uses related to acquisition, construction, and formation/annexation activities.

The **Special Revenue** Fund accounts for all financial resources and uses related to maintenance of parkways and open space within the District.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description and Reporting Entity

The Community Facilities District Number 1997-1 (North Beyer Park) (the District) was formed in June 1997 by a vote of the property owners within the proposed District. The District, a separate legal entity, was formed to provide a funding mechanism for public facilities and services as required by the District Specific Plan. The District is a 160-acre project, the boundaries of which are recorded in Book 2, page 80 of the Book of Assessment District Maps in the Stanislaus County Recorder's Office.

The District is an integral part of the City of Modesto (the City) and the accompanying financial statements are included as a component unit of the basic financial statements prepared by the City. A component unit is a separate governmental unit, agency, or nonprofit corporation which, when combined with all other component units, constitutes the reporting entity as defined in the City's basic financial statements.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and statement of activities) report information on all of the activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities normally are supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which direct expenses are offset by program revenues. Direct expenses are those that are clearly identifiable with the community development function. Program revenues include grants and contributions that are restricted to meeting the operational requirements of the community development function. Investment earnings, and other items which are not properly included among program revenues, are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Basis of Presentation, Basis of Accounting, and Measurement Focus

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Taxes are recognized as revenues in the year for which they are levied.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 180 days of the end of the current fiscal period. During the year ended June 30, 2016, the District changed its availability period from 60 days to 180 days. However, this accounting change had no effect on the District's financial statements. Expenditures generally are recorded when a liability is incurred, as under the accrual basis of accounting.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Substantially all taxes and interest, including the net increase (decrease) in the fair value of investments, are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Miscellaneous revenues are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental funds:

The **Capital Projects** Fund accounts for all financial resources and uses related to acquisition, construction, and formation/annexation activities.

The **Special Revenue** Fund accounts for all financial resources and uses related to maintenance of parkways and open space within the District.

D. Capital Assets

The District is required to record all its capital assets, including infrastructure, at their historical cost, and to depreciate these assets over their estimated useful lives. However, title to all infrastructure assets acquired or constructed by the District is turned over to the City upon completion and acceptance. Accordingly, capital outlay expenditures/expenses are reported in both the District's fund and government-wide financial statements.

E. Fund Balance

In the fund financial statements, governmental funds report fund balance as nonspendable, restricted, committed, assigned, or unassigned based primarily on the extent to which the District is bound to honor constraints on how specific amounts can be spent.

- **Nonspendable** - Amounts that are not in spendable form (such as inventory) or are required either legally or contractually to be maintained intact.
- **Restricted** - Amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional or enabling legislation.
- **Committed** - Amounts constrained to specific purposes by the District itself, using the District's highest level of decision-making authority (the City Council). To be reported as committed, amounts cannot be used for any other purpose unless the District takes the same highest level action to remove or change the constraint. The underlying action that imposed the limitation needs to occur no later than the close of the reporting period.
- **Assigned** - Amounts the District *intends* to use for a specific purpose. Intent can be expressed by the District at either the highest level of decision-making or by an official or body to which the District delegates the authority.
- **Unassigned** - The residual classification for the District that includes amounts not contained in the other classifications. In other funds, the unassigned classification is used only if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The District establishes and modifies or rescinds fund balance commitments by passage of an ordinance or policy. This is typically done through adoption or amendment of the budget. A fund balance commitment is further indicated in the budget as a designation or commitment of the fund, such as approved construction contracts. Assigned fund balance is established by the District through adoption or amendment of the budget or future year budget plan as intended for a specific purpose.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, followed by the committed, assigned, and unassigned resources as they are needed.

F. Governmental Accounting Standards Update

During the year ended June 30, 2016, the District implemented the following Governmental Accounting Standards Board (GASB) standards:

GASB Statement No. 72, *Fair Value Measurement and Application*. This statement is intended to improve accounting and financial reporting for state and local governments' investments by enhancing the comparability of financial statements amount governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. This statement did not have a significant impact to the District's financial statements.

GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and No. 68*. This statement establishes requirements for those pensions and pension plans that are not administrated through a trust meeting specified criteria and thus are not covered by Statement Nos. 67 and 68. This statement did not have a significant impact to the District's financial statements.

GASB Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*, which supersedes Statement No. 55. This statement clarifies the hierarchy of generally accepted accounting principles (GAAP), and reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within the scope of authoritative GAAP. This statement did not have a significant impact to the District's financial statements.

GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*. The statement addresses accounting and financial reporting for certain external investment pools and pool participants. The statement establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. It also establishes additional note disclosure requirements to include information about any limitations or restrictions on participant withdrawals. This statement did not have a significant impact to the District's financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The District is currently evaluating its accounting practices to determine the potential impact on the financial statements for the following GASB Statements:

In June 2015, GASB issued Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans.* This statement addresses reporting by OPEB plans that administer benefits on behalf of governments. This Statement is effective for the District's fiscal year ending June 30, 2017.

In June 2015, GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.* This statement addresses reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments. This Statement is effective for the District's fiscal year ending June 30, 2018.

In August 2015, GASB issued Statement No. 77, *Tax Abatement Disclosures.* This statement requires governments that enter into tax abatement agreements to disclose the following information about the agreements: (i) brief descriptive information; (ii) the gross dollar amount of taxes abated during the period; and (iii) commitments made by a government, other than to abate taxes, as part of a tax abatement agreement. This Statement is effective for the District's fiscal year ending June 30, 2017.

In December 2015, the GASB issued Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*. The objective of this statement is to address a practice issue regarding the scope and applicability of Statement No. 68 associated with pensions provided through certain cost-sharing multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions. Such plans are not considered a state or local government pension plan and are used to provide benefits to both employees of state and local governments and employees of employers that are not state or local governments. This Statement is effective for the District's fiscal year ending June 30, 2017.

In January 2016, the GASB issued Statement No. 80, *Blending Requirements for Certain Component Units—an amendment of GASB Statement No. 14*. The objective of this statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. This statement amends the blending requirements established in GASB Statement No. 14, *The Financial Reporting Entity*, as amended. This Statement is effective for the District's fiscal year ending June 30, 2017.

In March 2016, the GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*. The statement provides recognition and measurement guidance for situations in which a government is a beneficiary of these agreements. This Statement is effective for the District's fiscal year ending June 30, 2018.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In March 2016, the GASB issued Statement No. 82, *Pension Issues – an amendment of GASB Statements No. 67, No. 68, and No. 73,* to address certain issues that have been raised with respect to Statements No. 67, *Financial Reporting for Pension Plans,* No. 68, *Accounting and Financial Reporting for Pensions*, and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68.* The statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practices for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. This Statement is effective for the District's fiscal year ending June 30, 2017.

NOTE 2 – CASH AND INVESTMENTS

Cash and investments of the District are pooled with other City funds. The District's portion of this pooled amount was $94,018 at June 30, 2016. At June 30, 2016, the City's investment pool is unrated and the weighted average maturity is 518 days. Interest earned on pooled cash and investments is credited to the funds based on each fund's average monthly cash balance. Detailed information concerning the City's pooled cash and investments, including information regarding the fair value of investments, may be found in the City's Comprehensive Annual Financial Report. As of June 30, 2016, the fair value of the District's position in the pool is the same as the value of its pool shares.

The fair value hierarchy established by generally accepted accounting principles is based on the valuation inputs used to measure the fair value of the assets. The District's investment in the City's investment pool is exempt from fair value measurement disclosures.

NOTE 3 – RESTRICTED NET POSITION AND FUND BALANCES

Net position is measured on the full accrual basis of accounting, which differs from the concept of fund balance, which is measured on the modified accrual basis of accounting.

A. Net Position

Net position is the excess of all the District's assets over all its liabilities. Net position is determined only at the government-wide level.

Restricted describes the portion of net position which is restricted as to use by the terms and conditions of agreements with outside parties, governmental regulations, laws, or other restrictions which the District cannot unilaterally alter. These principally include developer fees received for use on capital projects and District maintenance.

NOTE 3 – RESTRICTED NET POSITION AND FUND BALANCES (Continued)

B. Restrictions of Fund Balances

Fund balances are all presented in the restricted category (see Note 1 for a description of fund balance categories). As of June 30, 2016, restrictions included:

Restricted for Capital Projects, the portion of fund balance legally restricted for the acquisition, construction, and formation/annexation activities.

Restricted for District Maintenance, the portion of fund balance legally restricted for maintenance of parkways and open space within the District.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Honorable City Council
of the City of Modesto, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the City of Modesto Community Facilities District Number 1997-1 (North Beyer Park) (the District), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 30, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe that a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report

The Honorable City Council
of the City of Modesto, California

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the City of Modesto Community Facilities District Number 2002-1 (Northpointe) (the District), a component unit of the City of Modesto, California, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly in all material respects the respective financial position of the governmental activities and each major fund of the District as of June 30, 2016, and the respective changes in financial position thereof and the respective budgetary comparison for the Special Revenue Fund for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2016, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

November 30, 2016

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 2002-1 (NORTHPOINTE)
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

The City of Modesto Community Facilities District No. 2002-1 (Northpointe) (the District) has issued its financial statements in the format prescribed by the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34, which requires the District to provide this overview of its financial activities for the fiscal year.

Please read this overview in conjunction with your reading of the accompanying basic financial statements.

THE PURPOSE OF THE DISTRICT

The District is a component unit of the City of Modesto (City). It is controlled by the City, and the City Council is the District's governing body. City employees perform most of the duties and functions required of the District, but certain tasks are provided by third parties under contract.

The District's purpose under California law is to provide a funding mechanism for public facilities and services authorized by the District. The District is the vehicle that will be used to ensure that all landowners in the Specific Plan area contribute to the cost of the public facilities and services. Additional information on the District can be found below, and in Note 1 to the accompanying financial statements.

BACKGROUND AND MANAGEMENT'S DISCUSSION

On April 1, 1997, the City Council approved the Kiernan Business Park Specific Plan that set forth a plan of development for approximately 614 acres that were, at that time, located adjacent to the City's northern border, east of Highway 99 and south of Kiernan Avenue in a portion of unincorporated Stanislaus County. To date, approximately 250 acres within the Kiernan Business Park Specific Plan have been annexed into the City. Approximately 55 of the City-annexed acres are included within the District. The Kiernan Business Park Specific Plan is intended to provide for the development of a new business park, commercial and industrial uses that will assist in implementing the City's long-range objectives to enhance its local economy, generate jobs for residents, and create a better jobs/housing balance.

The District was formed by the City Council in February 2002 in order to generate funding for landscaping improvements, a variety of maintenance responsibilities (weed control, litter removal, landscape maintenance, and general maintenance and replacement of storm drainage facilities), and improvement and replacement costs necessitated by development of the projects within the District. The Capital Projects Fund, earmarked to fund the storm drain basin landscape improvements, will be utilized once the final configuration of the storm drain basin has been determined.

FISCAL YEAR 2016 FINANCIAL HIGHLIGHTS

Financial highlights of the year include the following:

Government-Wide:

- At June 30, 2016, net position was $296,921.
- Total District revenues were $10,003.
- Total District expenses were $20,347.

Fund Basis:

- Capital Projects Fund revenues of $401 were $211 more than the prior year. The Capital Projects Fund ending fund balance increased $52 to $42,544.
- Special Revenue Fund revenues of $9,602 were $3,555 more than the prior year due to an increase of other revenue and expenditures of $19,998 were $1,909 more than the prior year. The Special Revenue Fund balance decreased by $10,396 to an ending fund balance of $254,377 due to maintenance expenditures of $19,998 with no maintenance special tax collected.

THE BASIC FINANCIAL STATEMENTS

The basic financial statements comprise the government-wide financial statements and the fund financial statements; these two sets of financial statements provide two different views of the District's financial activities and financial position.

Government-Wide Financial Statements,

The government-wide financial statements provide a long-term view of the District's activities as a whole and comprise the statement of net position and the statement of activities. The statement of net position provides information about the financial position of the District as a whole, including all its capital assets and long-term liabilities. The statement of activities provides information about the District's revenues and all its expenses. The statement of activities explains in detail the change in net position for the year.

The statement of net position and the statement of activities present information about the following:

- ***Governmental activities*** – All of the District's basic services are considered to be governmental activities, including formation, financing, construction, and maintenance activities. These services are supported by formation deposits, special facilities taxes, and annual maintenance assessments.

Government-wide financial statements are prepared on the accrual basis of accounting, which means they measure the flow of all economic resources of the District as a whole, similar to that used by the private sector.

FINANCIAL ACTIVITIES OF THE DISTRICT AS A WHOLE

This analysis focuses on the net position and changes in net position of the District's governmental activities in the government-wide financial statement of net position and statement of activities that follow.

As of June 30, 2016, total assets of $298,221 were offset by liabilities of $1,300. The District's net position from governmental activities decreased from $307,265 in 2015 to $296,921 in 2016. All of the District's assets are restricted as follows: $42,544 for acquisition or construction of capital projects and $254,377 for maintenance.

The following is a condensed statement of net position:

Statement of Net Position – Governmental Activities

	2016	2015
Cash and investments	$ 297,575	$ 306,476
Interest receivable	646	789
Total assets	298,221	307,265
Current and other liabilities	1,300	-
Net position:		
Restricted for:		
Capital projects	42,544	42,492
District maintenance	254,377	264,773
Total net position	$ 296,921	$ 307,265

FISCAL YEAR 2016 GOVERNMENTAL ACTIVITIES

The District's fiscal year 2016 revenue came from investment earnings which contributed $2,803 and other of $7,200. District expenses consisted of $20,347 in maintenance and administration.

The following is a condensed statement of activities:

Statement of Activities – Governmental Activities

	2016	2015
Revenues:		
General revenues:		
Investment earnings	$ 2,803	$ 1,379
Other	7,200	4,858
Total revenues	10,003	6,237
Expenses:		
Community development	20,347	91,920
Change in net position	(10,344)	(85,683)
Net position, beginning of year	307,265	392,948
Net position, end of year	$ 296,921	$ 307,265

Fund Financial Statements

The fund financial statements report the District's operations in more detail than the government-wide financial statements and focus primarily on the short-term activities of the District's two funds. The fund financial statements measure only current revenues and expenditures and fund balances; they exclude capital assets, long-term debt, and other long-term amounts.

The fund financial statements provide detailed information about each of the District's most significant funds, called major funds. Major funds present the major activities of the District for the year, and may change from year to year as a result of changes in the pattern of District's activities. All of the District's funds are presented here as major funds; their purpose is explained in Note 1 to the financial statements.

All the District's funds are governmental funds; financial statements for these funds are prepared on the modified accrual basis of accounting, which means they measure only current financial resources and uses.

The following is a condensed statement of revenues, expenditures, and changes in fund balances for the year ended June 30, 2016:

Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds

	Capital Projects Fund	Special Revenue Fund	Total
Revenues	$ 401	$ 9,602	$ 10,003
Expenditures	349	19,998	20,347
Changes in fund balances	52	(10,396)	(10,344)
Fund balances, beginning of year	42,492	264,773	307,265
Fund balances, end of year	$ 42,544	$ 254,377	$ 296,921

THE DISTRICT'S FUND FINANCIAL STATEMENTS

At June 30, 2016, the District's governmental funds reported fund balances of $296,921, a decrease of $10,344 from 2015, all restricted as follow: $42,544 will be used to fund future capital projects while $254,377 will be used to fund maintenance and administrative expenditures.

CAPITAL ASSETS

Under GASB Statement No. 34, the District is required to record all its capital assets, including infrastructure, at their historical cost, and to depreciate these assets over their estimated useful lives. However, title to all infrastructure assets acquired or constructed by the District is turned over to the City upon completion and acceptance. Accordingly, capital outlay expenditures are reported in both the District's fund and government-wide financial statements. Therefore, the District reports no long-term capital assets.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

These basic financial statements are intended to provide citizens, taxpayers, investors, and creditors with a general overview of the District's finances. Questions about this report should be directed to the City of Modesto, Administrator, Infrastructure Financing Programs, P.O. Box 642, Modesto, California 95353.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 2002-1 (NORTHPOINTE)

STATEMENT OF NET POSITION AND STATEMENT OF ACTIVITIES

The statement of net position and the statement of activities summarize the entire District's financial activities and financial position. They are prepared on the same basis of accounting that is used by most businesses, which means they include all the District's assets and all its liabilities, as well as all its revenues and expenses. This is known as the full accrual basis of accounting – the effect of all the District's transactions is taken into account, regardless of whether or when cash changes hands, but all material internal transactions between District funds have been eliminated.

The statement of net position reports the difference between the District's total assets and the District's total liabilities, including all the District's capital assets and all its long-term debt. The statement of net position focuses the reader on the composition of the District's net position, by subtracting total liabilities from total assets. The statement of net position summarizes the financial position of the District in a single column.

The statement of activities reports increases and decreases in the District's net position. It is also prepared on the full accrual basis of accounting, which means it includes all the District's revenues and all its expenses, regardless of when cash changes hands. This differs from the "modified accrual" basis of accounting used in the fund financial statements, which reflect only current assets, current liabilities, available revenues, and measurable expenditures.

The format of the statement of activities presents the District's expenses, which are listed by program, first. Program revenues – that is, revenues which are generated directly by these programs – are then deducted from program expenses to arrive at the net program revenue (expense). General revenues – that is, revenues which are not generated directly by these programs – are then added to arrive at the change in net position and reconciled with the statement of net position.

FUND FINANCIAL STATEMENTS

Major funds are defined generally as having significant activities or balances in the current year.

The District determined all its funds to be major funds. They are:

The **Capital Projects** Fund accounts for all financial resources and uses related to acquisition, construction, and formation/annexation activities.

The **Special Revenue** Fund accounts for all financial resources and uses related to maintenance of parkways and open space within the District.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 2002-1 (NORTHPOINTE)
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description and Reporting Entity

The Community Facilities District Number 2002-1 (Northpointe) (the District) was formed in February 2002 by a vote of the property owners within the proposed District. The District, a separate legal entity, was formed to provide a funding and reimbursement mechanism for public facilities and services required by the District Specific Plans. The District is the vehicle used to ensure that all landowners in the Specific Plans pay their fair share of the public improvements. The District is a 55-acre project bounded on the East by Highway 99, and by Pelandale Avenue on the South. The District will provide for the development of new business park and industrial uses and includes such tenants as Costco, Lowe's, and Union Safe Deposit Bank.

The District is an integral part of the City of Modesto (the City) and the accompanying financial statements are included as a component unit of the basic financial statements prepared by the City. A component unit is a separate governmental unit, agency, or nonprofit corporation which, when combined with all other component units, constitutes the reporting entity as defined in the City's basic financial statements.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and statement of activities) report information on all of the activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities normally are supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which direct expenses are offset by program revenues. Direct expenses are those that are clearly identifiable with the community development function. Program revenues include grants and contributions that are restricted to meeting the operational requirements of the community development function. Investment earnings, and other items which are not properly included among program revenues, are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Basis of Presentation, Basis of Accounting, and Measurement Focus

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Taxes are recognized as revenues in the year for which they are levied.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when collectible within the current period or soon enough thereafter to pay liabilities to the current period. For this purpose, the District considers revenues to be available if they are collected within 180 days of the end of the current fiscal period. During the year ended June 30, 2016, the District changed its availability period from 60 days to 180 days. However, this accounting change had no effect on the District's financial statements. Expenditures generally are recorded when a liability is incurred, as under the accrual basis of accounting.

Substantially all taxes and interest, including the net increase (decrease) in the fair value of investments, are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Miscellaneous revenues are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental funds:

The **Capital Projects** Fund accounts for all financial resources and uses related to acquisition, construction, and formation/annexation activities.

The **Special Revenue** Fund accounts for all financial resources and uses related to maintenance of parkways and open space within the District.

D. Capital Assets

The District is required to record all its capital assets, including infrastructure, at their historical cost, and to depreciate these assets over their estimated useful lives. However, title to all infrastructure assets acquired or constructed by the District is turned over to the City upon completion and acceptance. Accordingly, capital outlay expenditures/expenses are reported in both the District's fund and government-wide financial statements.

E. Fund Balance

In the fund financial statements, governmental funds report fund balance as nonspendable, restricted, committed, assigned, or unassigned based primarily on the extent to which the District is bound to honor constraints on how specific amounts can be spent.

- **Nonspendable** - Amounts that are not in spendable form (such as inventory) or are required either legally or contractually to be maintained intact.
- **Restricted** - Amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional or enabling legislation.
- **Committed** - Amounts constrained to specific purposes by the District itself, using the District's highest level of decision-making authority (the City Council). To be reported as

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

committed, amounts cannot be used for any other purpose unless the District takes the same highest level action to remove or change the constraint. The underlying action that imposed the limitation needs to occur no later than the close of the reporting period.

- **Assigned** - Amounts the District *intends* to use for a specific purpose. Intent can be expressed by the District at either the highest level of decision-making or by an official or body to which the District delegates the authority.
- **Unassigned** - The residual classification for the District that includes amounts not contained in the other classifications. In other funds, the unassigned classification is used only if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes.

The District establishes and modifies or rescinds fund balance commitments by passage of an ordinance or policy. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget as a designation or commitment of the fund, such as approved construction contracts. Assigned fund balance is established by the District through adoption or amendment of the budget or future year budget plan as intended for a specific purpose.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, followed by the committed, assigned, and unassigned resources as they are needed.

F. Governmental Accounting Standards Update

In the year ended June 30, 2016, the District has implemented the following Governmental Accounting Standards Board (GASB) standards:

GASB Statement No. 72, *Fair Value Measurement and Application*. This statement is intended to improve accounting and financial reporting for state and local governments' investments by enhancing the comparability of financial statements amount governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. This statement did not have a significant impact to the District's financial statements.

GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and No. 68*. This statement establishes requirements for those pensions and pension plans that are not administrated through a trust meeting specified criteria and thus are not covered by Statement Nos. 67 and 68. This statement did not have a significant impact to the District's financial statements.

GASB Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*, which supersedes Statement No. 55. This statement clarifies the hierarchy of generally accepted accounting principles (GAAP), and reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within the scope of authoritative GAAP. This statement did not have a significant impact to the District's financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*. The statement addresses accounting and financial reporting for certain external investment pools and pool participants. The statement establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. It also establishes additional note disclosure requirements to include information about any limitations or restrictions on participant withdrawals. This statement did not have a significant impact to the District's financial statements.

The District is currently evaluating its accounting practices to determine the potential impact on the financial statements for the following GASB Statements:

In June 2015, GASB issued Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans.* This statement addresses reporting by OPEB plans that administer benefits on behalf of governments. This Statement is effective for the District's fiscal year ending June 30, 2017.

In June 2015, GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.* This statement addresses reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments. This Statement is effective for the District's fiscal year ending June 30, 2018.

In August 2015, GASB issued Statement No. 77, *Tax Abatement Disclosures.* This statement requires governments that enter into tax abatement agreements to disclose the following information about the agreements: (i) brief descriptive information; (ii) the gross dollar amount of taxes abated during the period; and (iii) commitments made by a government, other than to abate taxes, as part of a tax abatement agreement. This Statement is effective for the District's fiscal year ending June 30, 2017.

In December 2015, the GASB issued Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*. The objective of this statement is to address a practice issue regarding the scope and applicability of Statement No. 68 associated with pensions provided through certain cost-sharing multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions. Such plans are not considered a state or local government pension plan and are used to provide benefits to both employees of state and local governments and employees of employers that are not state or local governments. This Statement is effective for the District's fiscal year ending June 30, 2017.

In January 2016, the GASB issued Statement No. 80, *Blending Requirements for Certain Component Units—an amendment of GASB Statement No. 14*. The objective of this statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. This statement amends the blending requirements established in GASB Statement No. 14, *The Financial Reporting Entity*, as amended. This Statement is effective for the District's fiscal year ending June 30, 2017.

In March 2016, the GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*. The statement provides recognition and measurement guidance for situations in which a government is a beneficiary of these agreements. This Statement is effective for the District's fiscal year ending June 30, 2018.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In March 2016, the GASB issued Statement No. 82, *Pension Issues – an amendment of GASB Statements No. 67, No. 68, and No. 73,* to address certain issues that have been raised with respect to Statements No. 67, *Financial Reporting for Pension Plans*, No. 68, *Accounting and Financial Reporting for Pensions*, and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68.* The statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practices for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. This Statement is effective for the District's fiscal year ending June 30, 2017.

NOTE 2 – CASH AND INVESTMENTS

Cash and investments of the District are pooled with other City funds. The District's portion of this pooled amount was $297,575 at June 30, 2016. At June 30, 2016, the City's investment pool is unrated and the weighted average maturity is 518 days. Interest earned on pooled cash and investments is credited to the funds based on each fund's average monthly cash balance. Detailed information concerning the City's pooled cash and investments, including information regarding the fair value of investments, may be found in the City's Comprehensive Annual Financial Report. As of June 30, 2016, the fair value of the District's position in the pool is the same as the value of its pool shares.

The fair value hierarchy established by generally accepted accounting principles is based on the valuation inputs used to measure the fair value of the assets. The District's investment in the City's investment pool is exempt from fair value measurement disclosures.

NOTE 3 – RESTRICTED NET POSITION AND FUND BALANCES

Net position is measured on the full accrual basis of accounting, which differs from the concept of fund balance, which is measured on the modified accrual basis of accounting.

A. Net Position

Net position is the excess of all the District's assets over all its liabilities. Net position is determined only at the government-wide level.

Restricted describes the portion of net position which is restricted as to use by the terms and conditions of agreements with outside parties, governmental regulations, laws, or other restrictions which the District cannot unilaterally alter. These principally include developer fees received for capital projects and District maintenance.

NOTE 3 – RESTRICTED NET POSITION AND FUND BALANCES (Continued)

B. Fund Balances

Fund balances are all presented in the restricted category (see Note 1 for a description of fund balance categories). As of June 30, 2016, restrictions included:

Restricted for Capital Projects, the portion of fund balance legally restricted for the acquisition, construction, and formation/annexation activities.

Restricted for District Maintenance, the portion of fund balance legally restricted for maintenance of parkways and open space within the District.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Honorable City Council
of the City of Modesto, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the City of Modesto Community Facilities District Number 2002-1 (Northpointe) (the District), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 30, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe that a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

COMMUNITY FACILITIES DISTRICT
NUMBER 2002-1 (NORTHPOINTE)
SUMMARY SCHEDULE OF PRIOR AUDIT FINDING
FOR THE YEAR ENDED JUNE 30, 2016

2015 Comment:	***2015-001*** **– Misposting of Special Tax**
Condition/Effect:	The City posted a special tax receipt from Stanislaus County for another community facilities district incorrectly to the trial balance of the District's Special Revenue Fund. This condition resulted in a material audit adjustment reducing 'maintenance special tax' revenue and 'cash and investments' by $153,684 in the District's Special Revenue Fund.
Recommendation:	The City should review the District's trial balance at the end of the year against both the prior year actual amounts and the current year budget amounts, and research any unexpected differences.
Status:	Corrected.

Independent Auditor's Report

The Honorable City Council
of the City of Modesto, California

Report on Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the City of Modesto Community Facilities District Number 2004-1 (Village One #2) (the District), a component unit of the City of Modesto, California, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly in all material respects the respective financial position of the governmental activities and each major fund of the District as of June 30, 2016, and the respective changes in financial position thereof and the respective budgetary comparison for the Special Revenue Fund for the year then ended, in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2016, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 2004-1 (VILLAGE ONE #2)
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

The City of Modesto Community Facilities District No. 2004-1 (Village One #2) (the District) has issued its financial statements in the format prescribed by the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34, which requires the District to provide this overview of its financial activities for the fiscal year.

Please read this overview in conjunction with your reading of the accompanying basic financial statements.

THE PURPOSE OF THE DISTRICT

The District is a component unit of the City of Modesto (City). It is controlled by the City, and the City Council is the District's governing body. City employees perform most of the duties and functions required of the District, but certain tasks are provided by third parties under contract.

The District's purpose under California law is to provide a funding mechanism for needed public facilities and services authorized by the District. The District is the vehicle that will be used to ensure that all landowners within the Specific Plan area contribute to the cost of the public facilities and services. Additional information on the District can be found below, and in Note 1 to the accompanying financial statements.

BACKGROUND AND MANAGEMENT'S DISCUSSION

The Village One #2 Specific Plan encompasses approximately 1,840 gross acres of land within the City, on which a pedestrian-oriented, mixed-use, planned community is anticipated to be developed. In 1996 the City Council formed City of Modesto Community Facilities District (CFD) No. 1996-1 to provide funding for the acquisition or construction of certain road, storm drainage, and park improvements. In 2004 it was determined that the tax rates set forth in CFD No. 1996-1 would be insufficient to fund the required infrastructure; therefore, in early 2004, the City Council formed the District to assist in the financing of the remaining required infrastructure. The District includes a one-time facilities special tax, an annual facilities special tax, and an annual maintenance special tax. The District, in conjunction with CFD No. 1996-1, will provide the funding needed to complete the District funded core infrastructure needed for the Village One area.

Below is a summary of the District funded infrastructure that was under design, construction or constructed/acquired for the Village One area in fiscal year 2015-16 using tax monies and bond proceeds from the District:

Under Design

- Sylvan Avenue between Oakdale and Wood Sorrell
- Oakdale Road between Floyd Avenue and Sylvan Avenue
- Roselle Avenue between Sylvan Avenue and Floyd Avenue

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 2004-1 (VILLAGE ONE #2)
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

FISCAL YEAR 2016 FINANCIAL HIGHLIGHTS

Financial highlights of the year include the following:

Government-Wide:

- The District's total net position in fiscal year 2016 was $15.2 million.
- At June 30, 2016, total assets were $44.8 million while total liabilities were $30.8 million.
- Total District revenues were $2.4 million and expenses were $2.0 million.

Fund Basis:

- Capital Projects Fund revenues increased from $101,422 in the prior year to $426,180 for fiscal year 2016 and expenditures decreased from $392,450 in the prior year to $137,986 for fiscal year 2016. The increase in revenues is attributed to an increase in the facilities special tax and interest income, as well as a contribution of $153,550 from the Community Facilities District Number 1996-1 (Village One), and the decrease in expenditures is attributed to decrease in work on capital projects.
- Capital Projects Fund ending fund balance for fiscal year 2016 increased from $12.0 million to $12.3 million. This increase is primarily attributed to the intergovernmental contributions of $153,550, increase in facilities special tax of $85,362, and an increase in the interest income of $52,157.
- Special Revenue Fund revenues decreased from $636,647 in the prior year to $513,332 for fiscal year 2016 and expenditures decreased from $652,503 in the prior year to $551,160 for fiscal year 2016. The decrease in revenue is due to a decrease in the maintenance special tax levy, and the decrease in expenditures is due to decreases in professional and other services.
- Special Revenue Fund ending fund balance decreased from $557,560 in prior year to $519,732 in current year.
- Debt Service Fund revenues remained the same at $1.8 million for fiscal year 2016 from prior year and expenditures decreased from $2.0 million in the prior year to $1.6 million for fiscal year 2016. The decrease in expenditures is attributed to the District's refunding in the prior year.
- Debt Service Fund ending fund balance for fiscal year 2016 increased from $2.8 million for fiscal year 2015 to $3.0 million for fiscal year 2016. This increase is primarily attributed facilities special tax revenue exceeding the debt service payments.

THE BASIC FINANCIAL STATEMENTS

The basic financial statements comprise the government-wide financial statements and the fund financial statements; these two sets of financial statements provide two different views of the District's financial activities and financial position.

Government-Wide Financial Statements

The government-wide financial statements provide a long-term view of the District's activities as a whole and comprise the statement of net position and the statement of activities. The statement of net position provides information about the financial position of the District as a whole, including all its capital assets and long-term liabilities. The statement of activities provides information about the District's revenues and all its expenses. The statement of activities explains in detail the change in net position for the year.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 2004-1 (VILLAGE ONE #2)
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

The statement of net position and the statement of activities present information about the following:

- ***Governmental activities*** – All of the District's basic services are considered to be governmental activities, including formation, financing, construction, and maintenance activities. These services are supported by formation deposits, special facilities taxes, and annual maintenance assessments.

Government-wide financial statements are prepared on the accrual basis of accounting, which means they measure the flow of all economic resources of the District as a whole, similar to that used by the private sector.

FINANCIAL ACTIVITIES OF THE DISTRICT AS A WHOLE

This analysis focuses on the net position and changes in net position of the District's governmental activities in the government-wide financial statement of net position and statement of activities that follow.

As of June 30, 2016, total assets and deferred outflows of resources of $46.0 million were offset by liabilities of $30.8 million. The District's net position from governmental activities increased to $15.2 million in 2016 from $14.8 million in 2015. This increase was partly due to an increase in facilities special tax revenue and a decrease in community development expenses. The District's net position has restrictions as follows: $12.3 million for acquisition or construction of infrastructure, $2.4 million for debt service, and $0.5 million for District maintenance.

Following is a condensed statement of net position:

Statement of Net Position – Governmental Activities

	2016	2015
Cash and investments	$ 13,013,198	$ 12,595,074
Cash and investments with fiscal agent	2,740,946	2,736,623
Due from other governments	7,954	12,040
Interest receivable	32,715	25,122

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

FISCAL YEAR 2016 GOVERNMENTAL ACTIVITIES

The District's fiscal year 2016 revenue came primarily from annual facilities and maintenance special taxes, which amounted to $2,135,243, capital grants and contributions in the amount of $157,379, along with additional investments earnings of $151,423. District expenses of $2,009,725 were primarily for maintenance, administration, and interest on long term debt.

Following is a condensed statement of activities:

Statement of Activities – Governmental Activities

	2016	2015
Revenues:		
Program revenues:		
Capital grants and contributions	$ 157,379	$ 12,011
General revenues:		
Facilities special tax	1,634,374	1,234,208
Maintenance special tax	500,869	631,260
Investment earnings	151,423	20,533
Other	7,020	18,780
Total general revenues	2,293,686	1,904,781
Total revenues	2,451,065	1,916,792
Expenses:		
Community development	701,768	1,810,124
Interest on long-term debt	1,307,957	696,246
Total expenses	2,009,725	2,506,370
Change in net position	441,340	(589,578)
Net position, beginning of year	14,775,411	15,364,989
Net position, end of year	$ 15,216,751	$ 14,775,411

Fund Financial Statements

The fund financial statements report the District's operations in more detail than the government-wide financial statements and focus primarily on the short-term activities of the District's three funds. The fund financial statements measure only current revenues and expenditures and fund balances; they exclude capital assets, long-term debt, and other long-term amounts.

The fund financial statements provide detailed information about each of the District's most significant funds, called major funds. Major funds present the major activities of the District for the year, and may change from year to year as a result of changes in the pattern of the District's activities. All of the District's funds are presented here as major funds; their purpose is explained in Note 1 to the financial statements

All the District's funds are governmental funds; financial statements for these funds are prepared on the modified accrual basis of accounting, which means they measure only current financial resources and uses.

Following is a condensed statement of revenues, expenditures, and changes in fund balances for the year ended June 30, 2016:

Statement of Revenues, Expenditures, and Changes in Fund Balances – Governmental Funds

	Capital Projects Fund	Special Revenue Fund	Debt Service Fund	Total
Revenues	$ 426,180	$ 513,332	$ 1,831,553	$ 2,771,065
Expenditures	137,986	551,160	1,648,028	2,337,174
Changes in fund balances	288,194	(37,828)	183,525	433,891
Fund balances, beginning of year	11,998,582	557,560	2,770,401	15,326,543
Fund balances, end of year	$ 12,286,776	$ 519,732	$ 2,953,926	$ 15,760,434

THE DISTRICT'S FUND FINANCIAL STATEMENTS

The District's fiscal year 2016 revenue primarily came from facilities special taxes in the amount of $2.0 million and maintenance special taxes in the amount of $0.5 million.

District expenditures of $2.3 million in fiscal year 2016 consisted of $137,986 in Capital Projects Fund expenditures, $551,160 in Special Revenue Fund expenditures for maintenance of District facilities and ongoing administrative expenditures, and $1.6 million in Debt Service Fund expenditures.

At June 30, 2016, the District's governmental funds reported combined fund balances of $15.8 million, an increase of $433,891 compared with last year. This increase was primarily due to the increased facilities special tax and maintenance special tax and the decrease in debt service charges associated with the prior year debt refunding.

COMMUNITY FACILITIES DISTRICT
NUMBER 2004-1 (VILLAGE ONE #2)
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

CAPITAL ASSETS

Under GASB Statement No. 34, the District is required to record all its capital assets, including infrastructure, at their historical cost, and to depreciate these assets over their estimated useful lives. However, title to all infrastructure assets acquired or constructed by the District is turned over to the City upon completion and acceptance. Accordingly, capital outlay expenditures are reported in both the District's fund and government-wide financial statements. Therefore, the District reports no long-term capital assets.

DEBT ADMINISTRATION

The District issued Special Tax Bonds, Series 2006 in the principal amount of $31.1 million in March 2006. The proceeds have been and will continue to be used to reimburse Developers for infrastructure they install pursuant to the Acquisition & Shortfall Agreements entered into between Developers and the District as well as to fund authorized facilities installed by the District.

The District issued Refunding Special Tax Bonds, Series 2014 in the principal amount of $29.3 million with a premium of $1.5 million in July 2014 to refund the outstanding Special Tax Bonds, Series 2006.

The balance of the long-term debt at June 30, 2016, is $30.3 million. Additional details can be found in Note 3 to the financial statements.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

These basic financial statements are intended to provide citizens, taxpayers, investors, and creditors with a general overview of the District's finances. Questions about this report should be directed to the City of Modesto, Administrator, Infrastructure Financing Programs, P.O. Box 642, Modesto, California 95353.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 2004-1 (VILLAGE ONE #2)

STATEMENT OF NET POSITION AND STATEMENT OF ACTIVITIES

The statement of net position and the statement of Activities summarize the entire District's financial activities and financial position. They are prepared on the same basis of accounting that is used by most businesses, which means they include all the District's assets and all its liabilities, as well as all its revenues and expenses. This is known as the full accrual basis of accounting – the effect of all the District's transactions is taken into account, regardless of whether or when cash changes hands, but all material internal transactions between District funds have been eliminated.

The statement of net position reports the difference between the District's total assets, deferred outflows of resources, and the District's total liabilities, including all the District's capital assets and all its long-term debt. The statement of net position focuses the reader on the composition of the District's net position, by subtracting total liabilities from total assets and deferred outflows of resources. The statement of net position summarizes the financial position of the District in a single column.

The statement of activities reports increases and decreases in the District's net position. It is also prepared on the full accrual basis of accounting, which means it includes all the District's revenues and all its expenses, regardless of when cash changes hands. This differs from the "modified accrual" basis of accounting used in the fund financial statements, which reflect only current assets, current liabilities, available revenues, and measurable expenditures.

The format of the statement of activities presents the District's expenses, which are listed by program, first. Program revenues – that is, revenues which are generated directly by these programs – are then deducted from program expenses to arrive at the change in net position and reconciled with the statement of net position.

FUND FINANCIAL STATEMENTS

Major funds are defined generally as having significant activities or balances in the current year.

The District determined all its funds to be major funds. They are:

The **Capital Projects** Fund accounts for all financial resources and uses related to acquisition, construction, and formation/annexation activities.

The **Special Revenue** Fund accounts for all financial resources and uses related to maintenance of parkways and open space within the District.

The **Debt Service** Fund accounts for the payment of principal and interest on the 2014 Refunding Special Tax Bonds.

RECONCILIATION OF THE STATEMENT OF REV ENUES, EXPENDITURES, AND CHANGES IN FUND BALANCES OF GOV ERNMENTAL FUNDS TO THE STATEMENT OF ACTIVITIES CHANGE IN NET POSITION OF GOVERNMENTAL ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2016

Changes in Fund Balances of Governmental Funds	$ 433,891
Amounts reported for governmental activities in the statement of activities are different because of the following:	
Revenues previously recognized in the statement of activities that did not provide current financial resources and therefore were not reported as revenues in the funds are reported as revenues in the funds this year when received.	(320,000)
The issuance of long-term debt provides current financial resources to governmental funds, while the repayment of the principal of long-term debt and the payment to refunding escrow consumes current financial resources of governmental funds. Neither transaction, however, has any effect on net position:	
Repayment of the principal of long-term debt	320,000
Some expenses reported in the statement of activities do not require the use of current financial resoures and therefore are not reported as expenditures in governmental funds:	
Amortization of bond premium	66,659
Amortization of deferred loss on refunding	(61,343)
Interest payable	2,133
Change in Net Position of Governmental Activities	$ 441,340

NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description and Reporting Entity

The Community Facilities District Number 2004-1 (Village One #2) (the District) was formed in April 2004 by a vote of the property owners within the proposed district. The District, a separate legal entity, was formed to provide a funding and reimbursement mechanism for public facilities and services required by the District Specific Plan. The District is the vehicle used to ensure that all landowners in the Specific Plan area contribute to the cost of public improvements. The District encompasses approximately 1,840 gross acres of land on which a pedestrian-oriented, mixed-use, planned community is anticipated to be developed. The District is located in the North Eastern portion of the City of Modesto (the City), bordered by Sylvan Avenue to the North, Claus Road to the East, Briggsmore to the South, and Oakdale Road to the West. The District is expected to yield 6,186 residential dwelling units at buildout; in addition to 15 acres of commercial property and 220 acres of industrial property.

The District is an integral part of the City and the accompanying financial statements are included as a component unit of the basic financial statements prepared by the City. A component unit is a separate governmental unit, agency, or nonprofit corporation which, when combined with all other component units, constitutes the reporting entity as defined in the City's basic financial statements.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and statement of activities) report information on all of the activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities normally are supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which direct expenses are offset by program revenues. Direct expenses are those that are clearly identifiable with the community development function. Program revenues include grants and contributions that are restricted to meeting the operational requirements of the community development function. Investment earnings, and other items which are not properly included among program revenues, are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Basis of Presentation, Basis of Accounting, and Measurement Focus

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Taxes are recognized as revenues in the year for which they are levied.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when collectible within the current period or soon enough thereafter to pay liabilities to the current period. For this purpose, the District considers revenues to be available if they are collected within 180 days of the end of the current fiscal period. During the year ended June 30, 2016, the District changed its availability period from 60 days to 180 days. However, this accounting change had no effect on the District's financial statements. Expenditures generally are recorded when a liability is incurred, as under the accrual basis of accounting. However, principal and interest expenditures are recorded as fund liabilities when due or when amounts have been accumulated in the Debt Service Fund for payments early in the following year.

Substantially all taxes and interest, including the net increase (decrease) in the fair value of investments, are considered to be susceptible to the accrual basis of accounting and so have been recognized as revenues of the current fiscal period. Miscellaneous revenues are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental funds:

The **Capital Projects** Fund accounts for all financial resources and uses related to acquisition, construction, and formation/annexation activities.

The **Special Revenue** Fund accounts for all financial resources and uses related to maintenance of infrastructure within the District.

The **Debt Service** Fund accounts for the payment of principal and interest on the 2014 Refunding Special Tax Bonds.

D. Facilities and Maintenance Special Taxes

The facilities and maintenance special taxes are collected by the County of Stanislaus on the property tax bill. The special taxes are due November 1 and February 1 and are delinquent if not paid by December 10 and April 10, respectively. The County of Stanislaus bills and collects the special taxes and remits them to the District. The Rate and Method of Apportionment of Special Tax (RMA), set forth in the District's Public Report, describes how the special taxes will be allocated among properties in the District. The Public Report was established during the formation of the District. A cost of living adjustment is applied to the special taxes annually.

E. Capital Assets

The District is required to record all its capital assets, including infrastructure, at their historical cost, and to depreciate these assets over their estimated useful lives. However, title to all infrastructure assets acquired or constructed by the District is turned over to the City of Modesto upon completion and acceptance. Accordingly, capital outlay expenditures/expenses are reported in both the District's fund and government-wide financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

F. Fund Balance

In the fund financial statements, governmental funds report fund balance as nonspendable, restricted, committed, assigned, or unassigned based primarily on the extent to which the District is bound to honor constraints on how specific amounts can be spent.

- **Nonspendable** - Amounts that are not in spendable form (such as inventory) or are required either legally or contractually to be maintained intact.
- **Restricted** - Amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional or enabling legislation.
- **Committed** - Amounts constrained to specific purposes by the District itself, using the District's highest level of decision-making authority (the City Council). To be reported as committed, amounts cannot be used for any other purpose unless the District takes the same highest level action to remove or change the constraint. The underlying action that imposed the limitation needs to occur no later than the close of the reporting period.
- **Assigned** - Amounts the District *intends* to use for a specific purpose. Intent can be expressed by the District at either the highest level of decision-making or by an official or body to which the District delegates the authority.
- **Unassigned** - The residual classification for the District that includes amounts not contained in the other classifications. In other funds, the unassigned classification is used only if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes.

The District establishes and modifies or rescinds fund balance commitments by passage of an ordinance or policy. This is typically done through adoption or amendment of the budget. A fund balance commitment is further indicated in the budget as a designation or commitment of the fund, such as approved construction contracts. Assigned fund balance is established by the District through adoption or amendment of the budget or future year budget plan as intended for a specific purpose.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, followed by the committed, assigned, and unassigned resources as they are needed.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Governmental Accounting Standards Update

During the year ended June 30, 2016, the District implemented the following Governmental Accounting Standards Board (GASB) standards:

GASB Statement No. 72, *Fair Value Measurement and Application*. This statement is intended to improve accounting and financial reporting for state and local governments' investments by enhancing the comparability of financial statements amount governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. This statement requires additional disclosures and did not have a significant impact to the District's financial statements.

GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and No. 68.* This statement establishes requirements for those pensions and pension plans that are not administrated through a trust meeting specified criteria and thus are not covered by Statement Nos. 67 and 68. This statement did not have a significant impact to the District's financial statements.

GASB Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*, which supersedes Statement No. 55. This statement clarifies the hierarchy of generally accepted accounting principles (GAAP), and reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within the scope of authoritative GAAP. This statement did not have a significant impact to the District's financial statements.

GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*. The statement addresses accounting and financial reporting for certain external investment pools and pool participants. The statement establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. It also establishes additional note disclosure requirements to include information about any limitations or restrictions on participant withdrawals. This statement did not have a significant impact to the District's financial statements.

The District is currently evaluating its accounting practices to determine the potential impact on the financial statements for the following GASB Statements:

In June 2015, GASB issued Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans.* This statement addresses reporting by OPEB plans that administer benefits on behalf of governments. This Statement is effective for the District's fiscal year ending June 30, 2017.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In June 2015, GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.* This statement addresses reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments. This Statement is effective for the District's fiscal year ending June 30, 2018.

In August 2015, GASB issued Statement No. 77, *Tax Abatement Disclosures.* This statement requires governments that enter into tax abatement agreements to disclose the following information about the agreements: (i) brief descriptive information; (ii) the gross dollar amount of taxes abated during the period; and (iii) commitments made by a government, other than to abate taxes, as part of a tax abatement agreement. This Statement is effective for the District's fiscal year ending June 30, 2017.

In December 2015, the GASB issued Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*. The objective of this statement is to address a practice issue regarding the scope and applicability of Statement No. 68 associated with pensions provided through certain cost-sharing multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions. Such plans are not considered a state or local government pension plan and are used to provide benefits to both employees of state and local governments and employees of employers that are not state or local governments. This Statement is effective for the District's fiscal year ending June 30, 2017.

In January 2016, the GASB issued Statement No. 80, *Blending Requirements for Certain Component Units—an amendment of GASB Statement No. 14*. The objective of this statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. This statement amends the blending requirements established in GASB Statement No. 14, *The Financial Reporting Entity*, as amended. This Statement is effective for the District's fiscal year ending June 30, 2017.

In March 2016, the GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*. The statement provides recognition and measurement guidance for situations in which a government is a beneficiary of these agreements. This Statement is effective for the District's fiscal year ending June 30, 2018.

In March 2016, the GASB issued Statement No. 82, *Pension Issues – an amendment of GASB Statements No. 67, No. 68, and No. 73,* to address certain issues that have been raised with respect to Statements No. 67, *Financial Reporting for Pension Plans*, No. 68, *Accounting and Financial Reporting for Pensions*, and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68.* The statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practices for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. This Statement is effective for the District's fiscal year ending June 30, 2017.

NOTE 2 – CASH AND INVESTMENTS

Cash and investments of the District with the exception of cash and investments with fiscal agents are pooled with other City funds. At June 30, 2016, the City's investment pool is unrated and the weighted average maturity is 518 days. Interest earned on pooled cash and investments is credited to the funds based on each fund's average monthly cash balance. Detailed information concerning the City's pooled cash and investments, including information regarding the fair value of investments, may be found in the City's Comprehensive Annual Financial Report. As of June 30, 2016, the fair value of the District's position in the pool is the same as the value of its pool shares.

The District is a voluntary participant in the California Asset Management Program (CAMP), a California Joint Powers Authority that falls under California Government Code Section 53601(p), which is directed by a Board of Trustees that is made up of experienced local government finance directors and treasurers. At June 30, 2016, CAMP had a balance of $1.8 billion with an average maturity of 45 days. The District reports its investments in CAMP at the fair value amounts provided by CAMP, which is the same as the value of the pool share.

The following table shows the distribution of the District's investments by type, credit rating, and maturity:

Investment Type	Rating	Maturities Less Than One Year	Total
California Asset Management Program (CAMP)	AAAm	$ 2,740,944	$ 2,740,944
Money Market Funds	AAAm	2	2
Total Investments		$ 2,740,946	2,740,946
Pooled with the City			13,013,198
Total Cash and Investments			$ 15,754,144

Concentration of Credit Risk

The District is required to disclose investments that represent a concentration of five percent or more of investments in any one issuer held by the District in the securities of issuers other than U.S. Treasury securities, mutual funds, and external investment pools. At June 30, 2016, no investments represented a concentration of five percent or more of investments in any one issuer held by the District in the securities of issuers other than U.S. Treasury securities, mutual funds, and external investment pools.

Fair Value Hierarchy

The District categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the assets. Level 1 inputs are quoted prices in an active market for identical assets; level

NOTE 2 – CASH AND INVESTMENTS (Continued)

2 inputs are significant other observable inputs; and Level 3 inputs are significant unobservable inputs. The inputs and techniques used for valuing securities are not necessarily an indication of risk associated with investing in those securities. The District's investment in the City's Pool and money market fund are exempt from fair value measurement disclosures.

NOTE 3 – LONG-TERM DEBT

On July 30, 2014, the District issued Refunding Special Tax Bonds (refunding bonds) with a par amount of $29,320,000 to refund the District's $29,925,000 outstanding Special Tax Bonds (refunded bonds) issued on March 8, 2006, which were issued primarily to finance various public improvements needed to develop property located within the District. Interest on the refunding bonds is payable semiannually on each March 1 and September 1 through September 1, 2036. The refunding bonds were issued with interest rates varying from 2% to 5% and are payable solely from revenues derived from the assessment of annual special taxes to be levied on the taxable property within the District and from certain other funds pledged under the Trust Indenture.

The long-term debt activity for the year ended June 30, 2016 was as follows:

	Beginning Balance	Additions	Reductions	Ending Balance	Due Within One Year
Refunding Special Tax Bonds	$ 29,320,000	$ -	$ (320,000)	$ 29,000,000	$ 475,000
Premium on Refunding Bonds	1,410,950	-	(66,659)	1,344,291	66,659
Total	$ 30,730,950	$ -	$ (386,659)	$ 30,344,291	$ 541,659

Annual debt service requirements for the bonds are shown below:

Year ending June 30,	Principal	Interest
2017	$ 475,000	$ 1,302,300
2018	535,000	1,284,475
2019	595,000	1,261,875
2020	655,000	1,235,238
2021	725,000	1,202,375
2022-2026	4,915,000	5,352,375
2027-2031	7,550,000	3,809,250
2032-2036	10,920,000	1,684,100
2037	2,630,000	52,600
	$ 29,000,000	$ 17,184,588

NOTE 4 – RESTRICTED NET POSITION AND FUND BALANCES

Net position is measured on the full accrual basis of accounting, which differs from the concept of fund balance, which is measured on the modified accrual basis of accounting.

A. Net Position

Net position is the excess of all the District's assets over all its liabilities. Net position is determined only at the government-wide level.

Restricted describes the portion of net position which is restricted as to use by the terms and conditions of agreements with outside parties, governmental regulations, laws, or other restrictions which the District cannot unilaterally alter. These principally include developer fees received reduced by related liabilities, to fund capital projects, District maintenance, and debt service requirements.

B. Fund Balances

Certain fund balances are presented in the restricted category (see Note 1 for a description of fund balance categories). As of June 30, 2016, restrictions included:

Restricted for Capital Projects, the portion of fund balance legally restricted for the acquisition, construction, and formation/annexation activities.

Restricted for District Maintenance, the portion of fund balance legally restricted for maintenance of parkways and open space within the District.

Restricted for Debt Service, the portion of fund balance legally restricted to the payment of principal and interest on long-term liabilities.

NOTE 5 – DELINQUENCIES AND FORECLOSURES

The District has made a covenant under the Trust Indenture of the Special Tax Bonds discussed in Note 3 that it will initiate foreclosure proceedings against delinquent parcels as follows:

a. Any parcel that is delinquent three consecutive payments. Foreclosure against these parcels is to be initiated within 120 days after the third delinquency.

b. All parcels delinquent at June 30 when the District received Special Taxes totaling less than 95% of the total Special Tax levied for that fiscal year. Foreclosure against these parcels is to be initiated by September 1 following the end of the fiscal year.

At June 30, 2016, the District had 4 parcels that were delinquent for a total of $7,860, of which two parcels were delinquent more than three consecutive payments.

The District received 99.60% of the Debt Service Fund facilities special taxes levied during the year ended June 30, 2016. The delinquencies total of $7,860 at June 30, 2016 is included in assessments receivable on the statement of net position and balance sheet.

NOTE 6 – INTERGOVERNMENTAL REVENUES

During the year ended June 30, 2016, the District's Capital Projects Fund received $153,550 from the Community Facilities District Number 1996-1 (Village One) for Sanders and Freedom Neighborhood Parks Renovation improvements.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Honorable City Council
of the City of Modesto, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the City of Modesto Community Facilities District Number 2004-1 (Village One #2) (the District), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 30, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe that a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 2004-1 (VILLAGE ONE #2)
SUMMARY SCHEDULE OF PRIOR AUDIT FINDINGS
FOR THE YEAR ENDED JUNE 30, 2016

2015 Comment:	***2015-001 – Unrecorded Assessments Receivable***
Condition/Effect:	The City did not record the assessments receivable (asset) or the related unavailable revenues (deferred inflow of resources) in the trial balance of the District's Debt Service Fund. This condition resulted in a material audit adjustment adding the 'assessments receivable' balance of $29,324,693 and the 'unavailable revenues' balance of $29,320,000, while increasing the 'facilities special tax' revenue by $4,693 in the District's Debt Service Fund.
Recommendation:	The City should record this audit adjustment in the District's trial balance and maintain the correct balances of these accounts going forward.
Status:	Corrected.
2015 Comment:	***2015-002 – Incorrect Recording of Refunding***
Condition/Effect:	The City incorrectly recorded the refunding transaction in the trial balance of the District's Debt Service Fund. This condition resulted in a material audit adjustment adding the 'refunding escrow' (debt service expenditure) amount of $492,165 and the 'premium on refunding bonds issued' (other financing source) amount of $1,472,057; eliminating the 'principal' (debt service expenditure) amount of $345,000; and reducing 'refunding bonds issued' (other financing source) by $5,478,648, 'services – professional and other' (current expenditure) by $6,383, 'interest and fiscal charges' (debt service expenditure) by $763,053, and 'payment to refunding escrow' (other financing use) by $3,384,320 in the District's Debt Service Fund.
Recommendation:	The City should do the research to determine the correct accounting when it encounters unusual transactions such as the refunding transaction that occurred this year.
Status:	Corrected.

Independent Auditor's Report

The Honorable City Council
of the City of Modesto, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the City of Modesto Community Facilities District Number 1996-1 (Village One) (the District), a component unit of the City of Modesto, California, as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the District as of June 30, 2016, and the respective changes in financial position thereof and the respective budgetary comparison for the Special Revenue Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 30, 2016, on our consideration of the District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 1996-1 (VILLAGE ONE)
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

The City of Modesto Community Facilities District No. 1996-1 (Village One) (the District) has issued its financial statements in the format prescribed by the provisions of Governmental Accounting Standards Board (GASB) Statement No. 34, which requires the District to provide this overview of its financial activities for the year.

Please read this overview in conjunction with your reading of the accompanying basic financial statements.

THE PURPOSE OF THE DISTRICT

The District is a component unit of the City of Modesto (City). It is controlled by the City, and the City Council is the District's governing body. City employees perform most of the duties and functions required of the District, but certain tasks are provided by third parties under contract.

The District's purpose under California law is to provide a funding mechanism for public facilities and services authorized by the District. The District is the vehicle that will be used to ensure that all landowners in the Specific Plan area contribute to the cost of the public facilities and services. Additional information on the District can be found below, and in Note 1 to the accompanying financial statements.

BACKGROUND AND MANAGEMENT'S DISCUSSION

In 1989-1990, the City initiated planning of the area now known as Village One. The original Village One plan contemplated a pedestrian oriented, self-contained neighborhood concept that offered housing to accommodate various income levels. In addition, the original plan called for a number of landscaped areas as well as other amenities. Over the years, substantial revisions to the original plan occurred, including a reconfiguration of streets, a reduction of landscaped areas, and modification of the financing strategy. At the close of fiscal year 2003-2004, the Village One area was based on the Specific Plan, the Infrastructure Financing Plan, and the Facilities Master Plan adopted in April 2003. The 2003 Infrastructure Financing Plan calls for a combination of funding sources, including the City's Capital Facilities Fees (CFF*) program and a Mello-Roos Community Facilities District (CFD).

In February 2004, the City Council formed City of Modesto Community Facilities District No. 2004-1 (Village One #2). This CFD, in conjunction with CFD No. 1996-1, will provide the funding needed to complete the CFD-funded core infrastructure needed for the Village One area.

* The CFF program is a city-wide development impact fee whereas the Village One CFD is a taxing district that is created to provide a funding and reimbursement mechanism for public facilities and services required to serve the Village One area.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

FISCAL YEAR 2016 FINANCIAL HIGHLIGHTS

Financial highlights of the year include the following:

Government-Wide:

- The District's net position decreased $145,485 in fiscal year 2016. This decrease is primarily due to maintenance and utilities expenses and a contribution to the Community Facilities District Number 2004-1 (Village One #2) in excess of the maintenance special tax.
- At June 30, 2016, net position was $702,479.
- Total general revenues were $561,884.

Funds:

- Capital Projects Fund revenues were $39,935, $27,081 more than the prior year. This increase is due to $44,226 in facilities special tax collected, an increase of $30,581.
- Capital Projects Fund ending fund balance increased $30,339 to a deficit of $216,764 as a result of collecting $44,226 in facilities special tax.
- Special Revenue Fund revenues of $521,949 were $38,327 less than the prior year, and expenditures of $697,773 were $119,748 more than last year due to $33,802 decrease in maintenance expenditures and the $153,550 intergovernmental expenditure for contribution to Community Facilities District Number 2004-1 (Village One #2).
- Special Revenue Fund ending fund balance decreased $175,824 due to maintenance expenditures in excess of the maintenance special tax and the contribution to Community Facilities District Number 2004-1 (Village One #2).

THE BASIC FINANCIAL STATEMENTS

The basic financial statements comprise the government-wide financial statements and the fund financial statements; these two sets of financial statements provide two different views of the District's financial activities and financial position.

Government-Wide Financial Statements

The government-wide financial statements provide a long-term view of the District's activities as a whole and comprise the statement of net position and the statement of activities. The statement of net position provides information about the financial position of the District as a whole, including all its capital assets and long-term liabilities. The statement of activities provides information about the District's revenues and all its expenses. The statement of activities explains in detail the change in net position for the year.

The statement of net position and the statement of activities present information about the following:

- ***Governmental activities*** – All of the District's basic services are considered to be governmental activities, including formation, financing, construction, and maintenance activities. These services are supported by formation deposits, special facilities taxes, and annual maintenance assessments.

Government-wide financial statements are prepared on the accrual basis of accounting, which means they measure the flow of all economic resources of the District as a whole, similar to that used by the private sector.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

FINANCIAL ACTIVITIES OF THE DISTRICT AS A WHOLE

This analysis focuses on the net position and changes in net position of the District's governmental activities in the government-wide financial statement of net position and statement of activities that follow.

As of June 30, 2016, total assets of $733,222 were offset by liabilities of $30,743. The District's net position from governmental activities decreased to $702,479 in 2016 from $847,964 in 2015. The District's net position is restricted as follows: $919,243 for maintaining infrastructure, leaving a negative unrestricted net position of $216,764.

Following is a condensed statement of net position:

Statement of Net Position – Governmental Activities

	2016	2015
Cash and investments	$ 725,288	$ 900,153
Assessments receivable	6,031	-
Interest receivable	1,903	1,571
Total assets	733,222	901,724
Current and other liabilities	30,743	53,760
Net position:		
Restricted for:		
District maintenance	919,243	1,095,067
Unrestricted	(216,764)	(247,103)
Total net position	$ 702,479	$ 847,964

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

FISCAL YEAR 2016 GOVERNMENTAL ACTIVITIES

The District's fiscal year 2016 revenue came primarily from annual maintenance special taxes, which amounted to $502,647. District expenses of $707,369 were primarily for services and professional expenses.

Following is a condensed statement of activities:

Statement of Activities – Governmental Activities

	2016	2015
Revenues:		
General revenues:		
Facilities special tax	$ 44,226	$ 13,645
Maintenance special tax	502,647	552,839
Investment earnings	7,991	2,866
Other	7,020	3,780
Total revenues	561,884	573,130
Expenses:		
Community development	707,369	587,738
Change in net position	(145,485)	(14,608)
Net position, beginning of year	847,964	862,572
Net position, end of year	$ 702,479	$ 847,964

Fund Financial Statements

The fund financial statements report the District's operations in more detail than the government-wide financial statements and focus primarily on the short-term activities of the District's two funds. The fund financial statements measure only current revenues and expenditures and fund balances; they exclude capital assets, long-term debt, and other long-term amounts.

The fund financial statements provide detailed information about each of the District's most significant funds, called major funds. Major funds present the major activities of the District for the year, and may change from year to year as a result of changes in the pattern of the District's activities. All of the District's funds are presented here as major funds; their purposes are explained in Note 1 to the financial statements.

All the District's funds are governmental funds; financial statements for these funds are prepared on the modified accrual basis of accounting, which means they measure only current financial resources and uses.

MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

Following is a condensed statement of revenues, expenditures, and changes in fund balances for the year ended June 30, 2016:

Statement of Revenues, Expenditures, and Changes in Fund Balances - Governmental Funds

	Capital Projects Fund	Special Revenue Fund	Total
Revenues	$ 39,935	$ 521,949	$ 561,884
Expenditures	9,596	697,773	707,369
Changes in fund balances	30,339	(175,824)	(145,485)
Fund balances (deficit), beginning of year	(247,103)	1,095,067	847,964
Fund balances (deficit), end of year	$ (216,764)	$ 919,243	$ 702,479

THE DISTRICT'S FUND FINANCIAL STATEMENTS

At June 30, 2016, the District's governmental funds reported combined fund balances of $702,479, which is a decrease of $145,485 compared with last year. The Capital Projects Fund realized an increase of $30,339. The Special Revenue Fund realized a decrease of $175,824.

CAPITAL ASSETS

Under GASB Statement No. 34, the District is required to record all its capital assets, including infrastructure, at their historical cost, and to depreciate these assets over their estimated useful lives. However, title to all infrastructure assets acquired or constructed by the District is turned over to the City upon completion and acceptance. Accordingly, capital outlay expenditures are reported in both the District's fund and government-wide financial statements. Therefore, the District reports no long-term capital assets.

CONTACTING THE DISTRICT'S FINANCIAL MANAGEMENT

These basic financial statements are intended to provide citizens, taxpayers, investors, and creditors with a general overview of the District's finances. Questions about this report should be directed to the City of Modesto, Administrator, Infrastructure Financing Programs, P.O. Box 642, Modesto, California 95353.

STATEMENT OF NET POSITION AND STATEMENT OF ACTIVITIES

The statement of net position and the statement of activities summarize the entire District's financial activities and financial position. They are prepared on the same basis of accounting as that used by most businesses, which means they include all the District's assets and all its liabilities, as well as all its revenues and expenses. This is known as the full accrual basis of accounting – the effect of all the District's transactions is taken into account, regardless of whether or when cash changes hands, but all material internal transactions between District funds have been eliminated.

The statement of net position reports the difference between the District's total assets and the District's total liabilities, including all the District's capital assets and all its long-term debt. The statement of net position focuses the reader on the composition of the District's net position, by subtracting total liabilities from total assets. The statement of net position summarizes the financial position of the District in a single column.

The statement of activities reports increases and decreases in the District's net position. It is also prepared on the full accrual basis of accounting, which means it includes all the District's revenues and all its expenses, regardless of when cash changes hands. This differs from the "modified accrual" basis of accounting used in the fund financial statements, which reflect only current assets, current liabilities, available revenues, and measurable expenditures.

The format of the statement of activities presents the District's expenses, which are listed by program, first. Program revenues – that is, revenues which are generated directly by these programs – are then deducted from program expenses to arrive at the net program revenue (expense). General revenues – that is, revenues which are not generated directly by these programs – are then added to arrive at the change in net position and reconciled with the statement of net position.

FUND FINANCIAL STATEMENTS

Major funds are defined generally as having significant activities or balances in the current year.

The District determined all its funds to be major funds. They are:

The **Capital Projects** Fund accounts for all financial resources and uses related to acquisition, construction, and formation/annexation activities.

The **Special Revenue** Fund accounts for all financial resources and uses related to maintenance of parkways and open space within the District.

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT
NUMBER 1996-1 (VILLAGE ONE)
NOTES TO THE BASIC FINANCIAL STATEMENTS
FOR THE YEAR ENDED JUNE 30, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description and Reporting Entity

The Community Facilities District Number 1996-1 (Village One) (the District) was formed in October 1996 by a vote of the property owners within the proposed district. The District, a separate legal entity, was formed to provide a funding and reimbursement mechanism for public facilities and services required by the District Specific Plan. The District is the vehicle used to ensure that all landowners in the Specific Plan area contribute to the cost of public improvements. The District encompasses approximately 1,840 gross acres of land. The District is located in the North Eastern portion of the City of Modesto (the City), bordered by Sylvan Avenue to the North, Claus Road to the East, Briggsmore to the South, and Oakdale Road to the West. The District is expected to yield 6,186 residential dwelling units at buildout, in addition to 15 acres of commercial property and 220 acres of industrial property.

The District is an integral part of the City and the accompanying financial statements are included as a component unit of the basic financial statements prepared by the City. A component unit is a separate governmental unit, agency, or nonprofit corporation which, when combined with all other component units, constitutes the reporting entity as defined in the City's basic financial statements.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and statement of activities) report information on all of the activities of the District. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities normally are supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which direct expenses are offset by program revenues. Direct expenses are those that are clearly identifiable with the community development function. Program revenues include grants and contributions that are restricted to meeting the operational requirements of the community development function. Investment earnings, and other items which are not properly included among program revenues, are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Basis of Presentation, Basis of Accounting, and Measurement Focus

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Taxes are recognized as revenues in the year for which they are levied.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when collectible within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the District considers revenues to be available if they are collected within 180 days of the end of the current fiscal period. During the year ended June 30, 2016, the District changed its availability period from 60 days to 180 days. However, this accounting change had no effect on the District's financial statements. Expenditures generally are recorded when a liability is incurred, as under the accrual basis of accounting.

Substantially all taxes and interest, including the net increase (decrease) in the fair value of investments, are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Miscellaneous revenues are considered to be measurable and available only when cash is received by the District.

The District reports the following major governmental funds:

The **Capital Projects** Fund accounts for all financial resources and uses related to acquisition, construction, and formation/annexation activities.

The **Special Revenue** Fund accounts for all financial resources and uses related to maintenance of parkways and open space within the District.

D. Facilities and Maintenance Special Taxes

The facilities and maintenance special taxes are collected by the County of Stanislaus on the property tax bill. The special taxes are due November 1 and February 1 and are delinquent if not paid by December 10 and April 10, respectively. The County of Stanislaus bills and collects the special taxes and remits them to the District. The Rate and Method of Apportionment of Special Tax (RMA), set forth in the District's Public Report, describes how the special taxes will be allocated among properties in the District. The Public Report was established during the formation of the District. A cost of living adjustment is applied to the special taxes annually.

E. Capital Assets

The District is required to record all its capital assets, including infrastructure, at their historical cost, and to depreciate these assets over their estimated useful lives. However, title to all infrastructure assets acquired or constructed by the District is turned over to the City upon completion and acceptance. Accordingly, capital outlay expenditures/expenses are reported in both the District's fund and government-wide financial statements.

F. Fund Balance

In the fund financial statements, governmental funds report fund balance as nonspendable, restricted, committed, assigned, or unassigned based primarily on the extent to which the District is bound to honor constraints on how specific amounts can be spent.

- **Nonspendable** - Amounts that are not in spendable form (such as inventory) or are required either legally or contractually to be maintained intact.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- **Restricted** - Amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional or enabling legislation.
- **Committed** - Amounts constrained to specific purposes by the District itself, using the District's highest level of decision-making authority (the City Council). To be reported as committed, amounts cannot be used for any other purpose unless the District takes the same highest level action to remove or change the constraint. The underlying action that imposed the limitation needs to occur no later than the close of the reporting period.
- **Assigned** - Amounts the District *intends* to use for a specific purpose. Intent can be expressed by the District at either the highest level of decision-making or by an official or body to which the District delegates the authority.
- **Unassigned** - The residual classification for the District that includes amounts not contained in the other classifications. In other funds, the unassigned classification is used only if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes.

The District establishes and modifies or rescinds fund balance commitments by passage of an ordinance or policy. This is typically done through adoption or amendment of the budget. A fund balance commitment is further indicated in the budget as a designation or commitment of the fund, such as approved construction contracts. Assigned fund balance is established by the District through adoption or amendment of the budget or future year budget plan as intended for a specific purpose.

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first, followed by the committed, assigned, and unassigned resources as they are needed.

G. Governmental Accounting Standards Update

During the year ended June 30, 2016, the District implemented the following Governmental Accounting Standards Board (GASB) standards:

GASB Statement No. 72, *Fair Value Measurement and Application*. This statement is intended to improve accounting and financial reporting for state and local governments' investments by enhancing the comparability of financial statements amount governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. This statement did not have a significant impact to the District's financial statements.

GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and No. 68.* This statement establishes requirements for those pensions and pension plans that are not administrated through a trust meeting specified criteria and thus are not covered by Statement Nos. 67 and 68. This statement did not have a significant impact to the District's financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

GASB Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*, which supersedes Statement No. 55. This statement clarifies the hierarchy of generally accepted accounting principles (GAAP), and reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within the scope of authoritative GAAP. This statement did not have a significant impact to the District's financial statements.

GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*. The statement addresses accounting and financial reporting for certain external investment pools and pool participants. The statement establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. It also establishes additional note disclosure requirements to include information about any limitations or restrictions on participant withdrawals. This statement did not have a significant impact to the District's financial statements.

The District is currently evaluating its accounting practices to determine the potential impact on the financial statements for the following GASB Statements:

In June 2015, GASB issued Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans.* This statement addresses reporting by OPEB plans that administer benefits on behalf of governments. This Statement is effective for the District's fiscal year ending June 30, 2017.

In June 2015, GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.* This statement addresses reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments. This Statement is effective for the District's fiscal year ending June 30, 2018.

In August 2015, GASB issued Statement No. 77, *Tax Abatement Disclosures.* This statement requires governments that enter into tax abatement agreements to disclose the following information about the agreements: (i) brief descriptive information; (ii) the gross dollar amount of taxes abated during the period; and (iii) commitments made by a government, other than to abate taxes, as part of a tax abatement agreement. This Statement is effective for the District's fiscal year ending June 30, 2017.

In December 2015, the GASB issued Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*. The objective of this statement is to address a practice issue regarding the scope and applicability of Statement No. 68 associated with pensions provided through certain cost-sharing multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions. Such plans are not considered a state or local government pension plan and are used to provide benefits to both employees of state and local governments and employees of employers that are not state or local governments. This Statement is effective for the District's fiscal year ending June 30, 2017.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In January 2016, the GASB issued Statement No. 80, *Blending Requirements for Certain Component Units—an amendment of GASB Statement No. 14*. The objective of this statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. This statement amends the blending requirements established in GASB Statement No. 14, *The Financial Reporting Entity*, as amended. This Statement is effective for the District's fiscal year ending June 30, 2017.

In March 2016, the GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*. The statement provides recognition and measurement guidance for situations in which a government is a beneficiary of these agreements. This Statement is effective for the District's fiscal year ending June 30, 2018.

In March 2016, the GASB issued Statement No. 82, *Pension Issues – an amendment of GASB Statements No. 67, No. 68, and No. 73,* to address certain issues that have been raised with respect to Statements No. 67, *Financial Reporting for Pension Plans*, No. 68, *Accounting and Financial Reporting for Pensions*, and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68.* The statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practices for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. This Statement is effective for the District's fiscal year ending June 30, 2017.

NOTE 2 – CASH AND INVESTMENTS

Cash and investments of the District are pooled with other City funds. The District's portion of this pooled amount was $725,288 at June 30, 2016. At June 30, 2016, the City's investment pool is unrated and the weighted average maturity is 518 days. Interest earned on pooled cash and investments is credited to the funds based on each fund's average monthly cash balance. Detailed information concerning the City's pooled cash and investments, including information regarding the fair value of investments, may be found in the City's Comprehensive Annual Financial Report. As of June 30, 2016, the fair value of the District's position in the pool is the same as the value of its pool shares.

The fair value hierarchy established by generally accepted accounting principles is based on the valuation inputs used to measure the fair value of the assets. The District's investment in the City's investment pool is exempt from fair value measurement disclosures.

NOTE 3 – INTERNAL BALANCES

The Capital Projects Fund owes the Special Revenue Fund $216,764 for funds borrowed to fund its improvements and is expected to be repaid by District contributions and facilities special tax levies.

NOTE 4 – RESTRICTED NET POSITION AND FUND BALANCES

Net position is measured on the full accrual basis of accounting, which differs from the concept of fund balance, which is measured on the modified accrual basis of accounting.

A. Net Position

Net position is the excess of all the District's assets over all its liabilities. Net position is determined only at the government-wide level.

Restricted describes the portion of net position which is restricted as to use by the terms and conditions of agreements with outside parties, governmental regulations, laws, or other restrictions which the District cannot unilaterally alter. These principally include developer fees received for capital projects and District maintenance.

B. Fund Balances

Fund balances are all presented in the restricted category (see Note 1 for a description of fund balance categories). As of June 30, 2016, restrictions included:

Restricted for District Maintenance, the portion of fund balance legally restricted for maintenance of parkways and open space within the District.

NOTE 5 – FUND DEFICIT

The Capital Projects Fund has a fund deficit of $216,764 as of June 30, 2016. The deficit is expected to be eliminated by District contributions and facilities special tax levies.

NOTE 6 – INTERGOVERNMENTAL EXPENDITURES

During the year ended June 30, 2016, the District contributed $153,550 from the District's Special Revenue Fund to Community Facilities District Number 2004-1 (Village One #2) for Sanders and Freedom Neighborhood Parks Renovation improvements.

NOTE 7 – SETTLEMENT CONTINGENCY

The City and the District entered into a settlement agreement with Charleston Place, a California Limited Partnership, on December 31, 2004. The District has a contingent liability of $114,000 to be paid after Charleston Place has completed certain construction obligations per the settlement. Charleston Place has not completed any of the construction obligation as of June 30, 2016. Management evaluates the need to record the obligation on an annual basis, however, due to uncertainty of completion of the construction obligation, liability has not been recognized in the financial statements. The contingent liability is budgeted for each year.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

The Honorable City Council
of the City of Modesto, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the City of Modesto Community Facilities District Number 1996-1 (Village One) (the District), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the District's basic financial statements, and have issued our report thereon dated November 30, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the District's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the District's internal control. Accordingly, we do not express an opinion on the effectiveness of the District's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe that a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the District's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report

Members of the Governing Committee
Stanislaus Drug Enforcement Agency
Modesto, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and General Fund of the Stanislaus Drug Enforcement Agency (the Agency) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the General Fund of the Agency, as of

June 30, 2016, and the respective changes in financial position thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Management has omitted the management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 16, 2016, on our consideration of the Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control over financial reporting and compliance.

STANISLAUS DRUG ENFORCEMENT AGENCY

GOVERNMENT-WIDE FINANCIAL STATEMENTS

The Statement of Net Position reports the difference between the Stanislaus Drug Enforcement Agency's (the Agency) total assets and the Agency's total liabilities, including all the Agency's capital assets and all its long-term debt. The Statement of Net Position focuses the reader on the composition of the Agency's net position, by subtracting total liabilities from total assets.

The Statement of Net Position summarizes the Agency's financial position in a single column.

The Statement of Activities reports increases and decreases in the Agency's net position. It is prepared on the full accrual basis of accounting, which means it includes all the Agency's revenues and all its expenses, regardless of when cash changes hands. This differs from the "modified accrual" basis of accounting used in the fund financial statements, which reflect only current assets, current liabilities, available revenues, and measurable expenditures.

The Statement of Activities presents the Agency's expenses that are listed by program first. Program revenues, that is, revenues which are generated directly by these programs – are then deducted from program expenses to arrive at the net expense of each program. The Agency's general revenues are then listed and the Change in Net Position is computed and reconciled with the Statement of Net Position.

These financial statements along with the fund financial statements and the notes to the basic financial statements are called *Basic Financial Statements.*

STANISLAUS DRUG ENFORCEMENT AGENCY

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. General

The Stanislaus Drug Enforcement Agency (the Agency) was formed in 1986 by a joint powers agreement between the County of Stanislaus, California, (the County) and several municipalities within the County. During the year ended June 30, 2016, the participating municipalities, in addition to the County, were the cities of Ceres, Hughson, Modesto, Newman, Oakdale, Patterson, Riverbank, Turlock, and Waterford. The governing committee of the Agency is comprised of the Sheriff of the County, the District Attorney of the County, the Chief Probation Officer of the County, and the Police Chiefs of the participating municipalities.

The Agency was created to assist in the enforcement of drug control laws of the State of California. The Agency maintains a fully operational, specially trained police unit to assist each of the participating jurisdictions in enforcing these laws and to study, plan, and set priorities for effective enforcement of such laws throughout the County. Agency personnel are provided by the participating jurisdictions.

Funding for Agency operations includes annual cash contributions by the participating jurisdictions. Certain jurisdictions also provide in-kind contributions in the form of employee services. Cash contributions are established based upon assessed property values and the population base of each jurisdiction as of January 1 of each year. The County and the City of Modesto provide cash contributions for Agency salary and benefits expenditures, while all participating jurisdictions provide cash contributions for non-salary and benefits operating expenditures. Other revenue sources include those assets forfeited through court resolution of criminal cases and federal grants supporting drug enforcement activities.

The Agency is considered to be a separate legal entity and is not a component unit of any of the participating jurisdictions. Pursuant to Section 6508.1 of the California Government Code and Section 7F of the joint powers agreement, the debts, liabilities, and obligations of the Agency are those of the Agency and not of the parties to the joint powers agreement.

Financial transactions of the Agency for the year ended June 30, 2016, were processed and accounted for by the City of Modesto.

B. Basis of Presentation

The Agency's basic financial statements are prepared in conformity with accounting principles generally accepted in the United States of America. The Governmental Accounting Standards Board (GASB) is the acknowledged standard setting body for establishing accounting and financial reporting standards followed by governmental entities in the United States of America.

These standards require that the financial statements described below be presented.

Government-Wide Financial Statements: The Statement of Net Position and the Statement of Activities include the financial activities of the overall Agency government. Eliminations have been made to minimize the double counting of internal activities.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Statement of Activities presents a comparison between direct expenses and program revenues for each function of the Agency's governmental activities. Direct expenses are those that are specifically associated with a program or function and, therefore, are clearly identifiable to a particular function. Program revenues include (a) charges paid by the recipients of goods or services offered by the programs, (b) grants and contributions that are restricted to meeting the operational needs of a particular program, and (c) fees, grants, and contributions that are restricted to financing the acquisition or construction of capital assets. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

Fund Financial Statements: The fund financial statements provide information about the Agency. The emphasis of fund financial statements is on major individual governmental funds. The Agency has only one fund, the General Fund.

C. Basis of Accounting

The government-wide financial statements are reported using the *economic resources measurement focus* and the *full accrual* basis of accounting. Revenues are recorded when *earned* and expenses are recorded at the time liabilities are *incurred,* regardless of when the related cash flows take place.

Governmental funds are reported using the *current financial resources* measurement focus and the *modified accrual* basis of accounting. Under this method, revenues are recognized when *measurable and available.* The Agency considers all revenues reported in the governmental funds to be available if the revenues are collected within 180 days after year-end. During the year ended June 30, 2016, the Agency changed its availability period from 45 days to 180 days. However, this accounting change had no effect on the Agency's financial statements. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on long-term debt, claims and judgments, and compensated absences, which are recognized as expenditures to the extent they have matured. Capital asset acquisitions are reported as *expenditures* in governmental funds. Proceeds of general long-term debt and acquisitions under capital leases are reported as *other financing sources.*

Non-exchange transactions, in which the Agency gives or receives value without directly receiving or giving equal value in exchange, include property taxes, grants, entitlements, and donations. On an accrual basis of accounting, revenue from property taxes is recognized in the fiscal year for which the taxes are levied. Revenue from grants, entitlements, and donations is recognized in the fiscal year in which all eligibility requirements have been satisfied.

Other revenues susceptible to accrual include intergovernmental revenues, member contributions, and interest.

D. Due from Other Governments

The Agency's receivables consist of amounts due from grants and other agencies. Management has determined the Agency's receivables to be fully collectible. Accordingly, no allowance for doubtful accounts has been made.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

E. Capital Assets

All capital assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Contributed capital assets are valued at their estimated fair market value on the date contributed. The Agency capitalizes assets with an initial, individual cost of $5,000 or more and an estimated useful life in excess of one year. The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized.

All capital assets with limited useful lives are depreciated over their estimated useful lives. Depreciation is provided using the straight-line method which means the cost of the asset is divided by its expected useful life in years and the result is charged to expense each year until the asset is fully depreciated. The purpose of depreciation is to spread the cost of capital assets equitably over the lives of these assets. The amount charged to depreciation expense each year represents that year's pro rata share of the cost of capital assets.

The Agency has assigned the useful lives below to capital assets:

	Useful Lives In Years
Buildings	30
Structures and Improvements	20
Vehicles, Furnishings, and Equipment	3 to 10

F. Seized Assets

Seized assets can include monetary instruments, real property, and tangible personal property seized as a consequence of a violation of public law that are held as evidence in state and/or mixed jurisdiction cases until adjudicated. Once adjudicated, the seized assets could be either returned to the accused or distributed to any number of government agencies. The seized assets liability at June 30, 2016 was $583,147.

G. Net Position

Net position is the excess of all the Agency's assets over all its liabilities, regardless of fund. Net position is divided into two captions. These captions apply only to net position, which is determined only at the government-wide level, and are described below:

Investment in Capital Assets, describes the portion of net position which is represented by the current net book value of the Agency's capital assets.

Restricted describes the portion of net position which is restricted as to use by the terms and conditions of agreements with outside parties, governmental regulations, laws, or other restrictions which the Agency cannot unilaterally alter.

Unrestricted describes the portion of net position which is not restricted as to use.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

H. Fund Balance

In the fund financial statements, governmental funds report fund balance as nonspendable, restricted, committed, assigned, or unassigned based primarily on the extent to which the Agency is bound to honor constraints on how specific amounts can be spent.

Nonspendable describes amounts that are not in spendable form (such as imprest cash) or are required either legally or contractually to be maintained intact.

Restricted describes amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional or enabling legislation.

Committed describes amounts constrained to specific purposes by the Agency itself, using the Agency's highest level of decision-making authority (the Governing Committee). To be reported as committed, amounts cannot be used for any other purpose unless the Agency takes the same highest level action to remove or change the constraint. The underlying action that imposed the limitation needs to occur no later than the close of the reporting period.

Assigned describes amounts the Agency *intends* to use for a specific purpose. Intent can be expressed by the Agency at either the highest level of decision-making or by an official or body to which the Agency delegates the authority.

Unassigned describes the residual classification for the Agency's General Fund that includes amounts not contained in the other classifications. In other funds, the unassigned classification is used only if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes.

The Agency establishes and modifies or rescinds fund balance commitments by passage of an ordinance or policy. This is typically done through adoption or amendment of the budget. A fund balance commitment is further indicated in the budget as a designation or commitment of the fund, such as approved construction contracts. Assigned fund balance is established by the Agency through adoption or amendment of the budget or future year budget plan as intended for a specific purpose.

When both restricted and unrestricted resources are available for use, it is the Agency's policy to use restricted resources first, followed by the committed, assigned, and unassigned resources as they are needed.

The Agency believes that sound financial management principles require that sufficient funds be retained by the Agency to provide a stable financial base at all times. To retain this stable financial base, the Agency needs to maintain unrestricted fund balance in its funds sufficient to fund cash flows of the Agency and to provide financial reserves for unanticipated expenditures and/or revenue shortfalls of an emergency nature. Committed, assigned, and unassigned fund balances are considered unrestricted.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

I. Accounting Standards Update

During the year ended June 30, 2016, the Agency implemented the following GASB standards:

GASB Statement No. 72, *Fair Value Measurement and Application.* This statement is intended to improve accounting and financial reporting for state and local governments' investments by enhancing the comparability of financial statements amount governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. This statement did not have a significant impact to the Agency's financial statements.

GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and No. 68.* This statement establishes requirements for those pensions and pension plans that are not administrated through a trust meeting specified criteria and thus are not covered by Statement Nos. 67 and 68. This statement did not have a significant impact to the Agency's financial statements.

GASB Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*, which supersedes Statement No. 55. This statement clarifies the hierarchy of generally accepted accounting principles (GAAP), and reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within the scope of authoritative GAAP. This statement did not have a significant impact to the Agency's financial statements.

GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*. The statement addresses accounting and financial reporting for certain external investment pools and pool participants. The statement establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. It also establishes additional note disclosure requirements to include information about any limitations or restrictions on participant withdrawals. This statement did not have a significant impact to the Agency's financial statements.

The Agency is currently evaluating its accounting practices to determine the potential impact on the financial statements for the following GASB Statements:

In June 2015, GASB issued Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans.* This statement addresses reporting by OPEB plans that administer benefits on behalf of governments. This Statement is effective for the Agency's fiscal year ending June 30, 2017.

In June 2015, GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.* This statement addresses reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments. This Statement is effective for the Agency's fiscal year ending June 30, 2018.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In August 2015, GASB issued Statement No. 77, *Tax Abatement Disclosures.* This statement requires governments that enter into tax abatement agreements to disclose the following information about the agreements: (i) brief descriptive information; (ii) the gross dollar amount of taxes abated during the period; and (iii) commitments made by a government, other than to abate taxes, as part of a tax abatement agreement. This Statement is effective for the Agency's fiscal year ending June 30, 2017.

In December 2015, the GASB issued Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*. The objective of this statement is to address a practice issue regarding the scope and applicability of Statement No. 68 associated with pensions provided through certain cost-sharing multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions. Such plans are not considered a state or local government pension plan and are used to provide benefits to both employees of state and local governments and employees of employers that are not state or local governments. This Statement is effective for the Agency's fiscal year ending June 30, 2017.

In January 2016, the GASB issued Statement No. 80, *Blending Requirements for Certain Component Units—an amendment of GASB Statement No. 14.* The objective of this statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. This statement amends the blending requirements established in GASB Statement No. 14, *The Financial Reporting Entity*, as amended. This Statement is effective for the Agency's fiscal year ending June 30, 2017.

In March 2016, the GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*. The statement provides recognition and measurement guidance for situations in which a government is a beneficiary of these agreements. This Statement is effective for the Agency's fiscal year ending June 30, 2018.

In March 2016, the GASB issued Statement No. 82, *Pension Issues – an amendment of GASB Statements No. 67, No. 68, and No. 73,* to address certain issues that have been raised with respect to Statements No. 67, *Financial Reporting for Pension Plans*, No. 68, *Accounting and Financial Reporting for Pensions*, and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68.* The statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practices for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. This Statement is effective for the Agency's fiscal year ending June 30, 2017.

J. Defined Benefit Pension Plan

Agency employees participate in the Public Employees' Retirement System of the State of California or Stanislaus County Employees Retirement Association through their applicable sponsoring jurisdiction. Employer pension contributions for these employees are allocated to the Agency by the respective jurisdictions.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

K. Budgets and Budgetary Accounting

The Agency's governing committee adopts an annual operating budget for the General Fund on or before June 30. The budget is adopted on a basis of accounting consistent with accounting principles generally accepted in the United States of America. The governing committee may amend the budget during the fiscal year, and Agency expenditures are limited to the amount of total appropriations allowed by this budget.

Budgeted amounts are as originally adopted, or as amended by the governing committee. Individual amendments were not material in relation to the original appropriations which were amended

NOTE 2 – CASH AND INVESTMENTS

Cash and investments are classified in the financial statements as shown below. Investments are carried at fair value as follows at June 30, 2016:

Cash in City of Modesto Treasury	$ 2,601,331
Imprest Cash	15,500
Total Cash and Investments	$ 2,616,831

The Agency's Cash in City of Modesto Treasury is cash and investments included in the City of Modesto's cash and investment pool. At June 30, 2016, the City's investment pool is unrated and the weighted average maturity is 518 days. Interest earned on pooled cash and investments is credited to each participant in the pool based on each participant's average monthly cash balance. Detailed information concerning the City of Modesto's pooled cash and investments, including information regarding the fair value of investment, may be found in the City of Modesto's Comprehensive Annual Financial Report. As of June 30, 2016, the fair value of the Agency's position in the pool is the same as the value of its pool shares.

NOTE 3 – CAPITAL ASSETS

Capital assets activity for the year is as follows:

	Balance June 30, 2015	Additions	Transfers	Balance June 30, 2016
Capital assets not being depreciated:				
Land	$ 268,000	$ -	$ -	$ 268,000
Construction in progress	29,067	-	(29,067)	-
Total capital assets not being depreciated	297,067	-	(29,067)	268,000
Capital assets being depreciated:				
Buildings and improvements	505,579	-	-	505,579
Vehicles	317,920	221,500	29,067	568,487
Intangible assets	23,976	-	-	23,976
Furnishings and equipment	593,052	12,051	-	605,103
Total capital assets being depreciated	1,440,527	233,551	29,067	1,703,145
Less accumulated depreciation for:				
Buildings and improvements	(327,146)	(14,349)	-	(341,495)
Vehicles	(203,403)	(52,463)	-	(255,866)
Intangible assets	(23,976)	-	-	(23,976)
Furnishings and equipment	(445,502)	(41,077)	-	(486,579)
Total accumulated depreciation	(1,000,027)	(107,889)	-	(1,107,916)
Net capital assets being depreciated	440,500	125,662	29,067	595,229
Total capital assets, net	$ 737,567	$ 125,662	$ -	$ 863,229

Depreciation expense for the year ended June 30, 2016, was $107,889.

NOTE 4 – UNEARNED REVENUE

The Agency is the recipient of fines and forfeitures allocated through legal proceedings of criminal prosecutions issued by government agencies (U.S. Department of Justice, U.S. Department of Treasury, State of California, etc.). Forfeiture proceeds allocated to the Agency are recorded as unearned revenue. The Agency is also a recipient of grants. Revenue is recognized as the fines and forfeitures and grants are expended on approved costs. As of June 30, 2016, the Agency had recorded $1,676,947 of forfeiture proceeds as unearned revenue.

NOTE 5 – RELATED PARTY TRANSACTIONS

The Agency pays member jurisdictions for various services provided, such as, but not limited to, personnel services and consultant services. The Agency also reimburses the City of Modesto and County of Stanislaus for administrative as well as other costs incurred on the Agency's behalf.

NOTE 6 – COMMITMENTS AND CONTINGENCIES

The Agency is subject to litigation arising in the normal course of business. The current litigation pending will not have a material adverse effect on the financial position of the Agency.

NOTE 7 – RISK MANAGEMENT

As provided in the joint powers agreement, the City of Modesto has sole responsibility for personal injury and damage awards for which the Agency is liable in those cases in which the liability award does not exceed $100,000. For awards in excess of $100,000, the City of Modesto and the County share responsibility in proportion to their respective Agency contribution rates for the year.

The joint powers agreement also specifies that workers' compensation insurance will not be provided by the Agency and remains the responsibility of the jurisdiction sponsoring the Agency's respective employees.

The Agency uses two helicopters and two airplanes owned by the County in its operations. Therefore the Agency purchased a commercial insurance policy through the County which provides coverage up to $10,000,000 with deductibles ranging from $5,000 to $8,530, depending on the aircraft and whether the rotors are in motion. The Agency paid a premium of $18,696 for current year coverage.

NOTE 8 – EXPENDITURES OVER APPROPRIATIONS

For the year ended June 30, 2016, expenditures exceeded appropriations as follows:

General Fund:	
City of Modesto employees	$ 12,417
Services and supplies	2,525
Capital outlay	30,551

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Members of the Governing Committee
Stanislaus Drug Enforcement Agency
Modesto, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and general fund of the Stanislaus Drug Enforcement Agency (the Agency) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements, and have issued our report thereon dated November 16, 2016.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Agency's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Agency's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

STANISLAUS DRUG ENFORCEMENT AGENCY
SUMMARY SCHEDULE OF PRIOR YEAR FINDING AND RECOMMENDATION
FOR THE YEAR ENDED JUNE 30, 2016

2015 Comment:	***2015-001 – Restatement of Beginning Fund Balance and Net Position***
Condition/Effect:	The Agency has been accumulating member contributions that in previous years were based on estimated expenditures/expenses that were never adjusted for actual expenditures/expenses or for expenditures/expenses that were eventually reimbursed by grants. This condition resulted in the Agency materially restating its beginning fund balance and net position by decreasing both $266,495.
Recommendation:	The Agency should record transactions accurately enough not to require restatement in the following year.
Status:	Corrected.

Independent Auditor's Report

To City Council of the City of Modesto
Modesto, California

Report on the Financial Statement

We have audited the accompanying statement of receipts and costs of the City of Modesto, California, Abandoned Vehicle Abatement Program (the Program) for the year ended June 30, 2016, and the related note to the financial statement, as listed in the table of contents.

Management's Responsibility for the Financial Statement

Management is responsible for the preparation and fair presentation of this financial statement in accordance with the cash basis of accounting described in Note 1; this includes determining that the cash basis of accounting is an acceptable basis for the preparation of the financial statement in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of the financial statement that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on this financial statement based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and certain provisions of the *AVA Program Handbook,* issued by the California Highway Patrol. Those standards and the *AVA Program Handbook* require that we plan and perform the audit to obtain reasonable assurance as to whether the financial statement is free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statement referred to above presents fairly, in all material respects, the receipts and costs of the Program for the year ended June 30, 2016, in accordance with the cash basis of accounting described in Note 1.

Basis of Accounting

We draw attention to Note 1 of the financial statement, which describes the basis of accounting. The financial statement is prepared on the cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Reporting Required by *Government Auditing Standards* and the *AVA Program Handbook*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 3, 2016, on our consideration of the Program's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and the *AVA Program Handbook* in considering the Program's internal control over financial reporting and compliance.

CITY OF MODESTO
ABANDONED VEHICLE ABATEMENT PROGRAM
NOTE TO THE FINANCIAL STATEMENT
FOR THE YEAR ENDED JUNE 30, 2016

NOTE 1 – SIGNIFICANT ACCOUNTING POLICIES

The Abandoned Vehicle Abatement Program (the Program) is a statewide program administered by the California Highway Patrol (CHP). The City of Modesto (the City) administers and operates the local vehicle abatement program pursuant to Section 22710 of the Vehicle Code, Modesto Municipal City Code Section 3-2.1002 et seq., and the Stanislaus Area Association of Governments (SAAG) Abandoned Vehicle Program and Plan. Section 9250.7 of the Vehicle Code establishes the funding source for the abatement of abandoned vehicles by a county-based Service Authority (the Authority), pursuant to the provisions of Section 22710 of the Vehicle Code. The Vehicle Code imposes a service fee of one dollar ($1) on vehicles registered to an owner with an address in the County of Stanislaus that established the Authority. This fee is paid to the Department of Motor Vehicles (DMV) at the time of registration or renewal of registration. The DMV, after deducting its administrative costs, at least quarterly transmits the net amount collected to the State Controller's Office (SCO) for deposit in the Abandoned Vehicle Trust Fund. All money in the fund is continuously appropriated to the SCO for allocation to an Authority that has an approved Program pursuant to Section 22710 of the Vehicle Code, and for payment of the administrative costs of the SCO. SAAG, the Authority established pursuant to Vehicle Code Section 22710, distributes Program funds to participating entities based on the allocations determined in the Vehicle Abatement Services Agreement. The receipts and costs of the Program are included in the General Fund of the City's basic financial statements.

Financial Statement Presentation – The financial statement is prepared on the method of accounting prescribed by the California Highway Patrol (CHP) and the *AVA Program Handbook*. The financial statement presents the information requested by the CHP and, therefore, does not purport to reflect results of operations in accordance with accounting principles generally accepted in the United States of America.

Basis of Accounting – The financial statement for the Program is prepared on the cash basis of accounting in which revenue is recognized when distributions are received and costs are recognized as disbursed and claimed in accordance with the *AVA Program Handbook* Guidelines.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* and the *AVA Program Handbook*

To City Council of the City of Modesto
Modesto, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and certain provisions of the *AVA Program Handbook,* issued by the California Highway Patrol, the statement of receipts and costs of the City of Modesto, California, Abandoned Vehicle Abatement Program (the Program) for the year ended June 30, 2016, and the related note to the financial statement and have issued our report thereon dated November 3, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statement, we considered the Program's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statement, but not for the purpose of expressing an opinion on the effectiveness of the Program's internal control. Accordingly, we do not express an opinion on the effectiveness of Program's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Program's financial statement is free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* or the *AVA Program Handbook.*

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and the *AVA Program Handbook* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Independent Auditor's Report

Honorable Members of the City Council
City of Modesto, California

Report on the Financial Statements

We have audited the accompanying financial statements of the Local Transportation Special Revenue Funds and the Bus Enterprise Fund (collectively known as the Transportation Development Act Funds) of the City of Modesto, California (City), as of and for the year ended June 30, 2016, and the related notes, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the Local Transportation Special Revenue Funds and the Bus Enterprise Fund of the City as of June 30, 2016, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of Matters

Basis of Presentation

As discussed in Note 1, the financial statements of the Transportation Development Act Funds of the City are intended to present the financial position, the changes in financial position, and, where applicable, cash flows of only that portion of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City that is attributable to the transactions of the Transportation Development Act Funds. They do not purport to, and do not present fairly the financial position of the City as of June 30, 2016, the changes in its financial position, or, where applicable, its cash flows for the year then ended in conformity with accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to this matter.

Other Matters

Prior-Year Comparative Information

The financial statements of the Local Transportation Special Revenue Funds include summarized prior-year comparative information. Such information does not include all of the information required or sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the Local Transportation Special Revenue Funds' financial statements for the year ended June 30, 2015, from which such summarized information was derived. We have previously audited the Local Transportation Special Revenue Funds' 2015 financial statements, and we expressed an unmodified audit opinion on the Local Transportation Special Revenue Funds' financial statements in our report dated December 3, 2015. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2015, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Required Supplementary Information

Management has omitted management's discussion and analysis (MD&A) and the respective budgetary comparison schedules for the special revenue funds that accounting principles generally accepted in the United States of America require to be presented to supplement the financial statements. Such missing information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. Our opinion on the financial statements is not affected by this missing information.

Accounting principles generally accepted in the United States of America require that the schedule of the Bus Fund's proportionate share of the net pension liability and schedule of the Bus Fund's contributions be presented to supplement the financial statements. Such information, although not a part of the financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the financial statements, and other knowledge we obtained during our audit of the financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards* and the Transportation Development Act

In accordance with *Government Auditing Standards*, we have also issued our report dated December 14, 2016, on our consideration of the City's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters as it relates to the Transportation Development Act Funds. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance as it relates to the Transportation Development Act Funds. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the City's internal control over financial reporting and compliance as it relates to the Transportation Development Act Funds.

CITY OF MODESTO
Transportation Development Act Funds
Notes to the Financial Statements
For the Year Ended June 30, 2016

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Description of Reporting Entity

The City of Modesto (City) accounts for California Transportation Development Act (TDA) monies in the Local Transportation Special Revenue Funds and the Bus Enterprise Fund (TDA Funds). These funds are a part of the City and not a separate legal entity. As such, these financial statements only present the fund financial statements and no government-wide information or financial statements. The Local Transportation Special Revenue Funds are combined and presented as a special revenue fund in the City's Comprehensive Annual Financial Report (CAFR) along with the Bus Enterprise Fund. These financial statements are intended to reflect the financial position, changes in financial position, and cash flows, where applicable, of the TDA Funds in accordance with accounting principles generally accepted in the United States of America.

B. Basis of Presentation, Basis of Accounting, and Measurement Focus

The Local Transportation Special Revenue Funds are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible with the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the City considers revenues to be available if they are collected within 180 days of the end of the current fiscal period. During the year ended June 30, 2016, the City changed its availability period from 60 days to 180 days. However, this accounting change had no effect on the District's financial statements. Expenditures generally are recorded when a liability is incurred, as under the accrual basis of accounting. Intergovernmental and interest revenues are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Under Governmental Accounting Standards Board (GASB) Statement No. 34, budgetary comparison information is required to be presented for each major special revenue fund with a legally adopted budget. The City is not legally required to adopt a budget for the TDA Funds. Therefore, budget comparison information is not included in these financial statements.

The Bus Enterprise Fund is reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows.

The financial statements include certain prior-year summarized comparative information in total but not at the level of detail required for a presentation in accordance with generally accepted accounting principles. Accordingly, such information should be read in conjunction with the TDA's financial statements for the year ended June 30, 2015, from which the summarized information was derived.

Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

The City reports the following Local Transportation Special Revenue Funds:

The **Non-Motorized Fund** accounts for monies received and spent under Article 3, Section 99234 of the TDA.

The **Streets and Roads Fund** accounts for monies received and spent under Article 8, Section 99400(a) of the TDA.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The City reports the following Enterprise Fund:

The **Bus Enterprise Fund** accounts for monies received and spent under Article 4, Section 99250 (public transit) of the TDA. The Bus Enterprise Fund also receives federal funds through the Federal Transit Administration, and other state and local grants, in addition to operating revenues.

Proprietary funds distinguish operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. The principal operating revenues of the enterprise fund are charges to customers for bus fares, sales, and services. Operating expenses for the enterprise fund includes the cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as nonoperating revenues and expenses.

C. Management's Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

D. Due from Other Governments/Unearned Revenue

Grants, entitlements, or shared revenues are recorded as receivables and revenues in the special revenue funds when they are received or susceptible to accrual. Grants awarded for enterprise funds are recorded as receivables and nonoperating revenues when they are earned.

Unearned revenue consists of grant funds received in excess of qualified expenditures. Grant revenue is recognized in the period of qualified expenditure/expenses.

E. Capital Assets

Capital assets are defined by the City as assets with an initial individual cost of more than $5,000 and estimated useful life in excess of two years. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated assets are recorded at estimated fair value at the date of donation.

Capital projects funded by the Local Transportation Special Revenue Funds, including infrastructure (roads, curbs, gutters, streets, bridges, sidewalks, drainage systems, lighting systems, right-of-ways, and land related to such assets), are recorded as transfers out to other City funds and capital outlay expenditures of the Local Transportation Special Revenue Funds. These expenditures are capitalized in the City's government-wide financial statements as the related capital assets become the property of the City and are maintained by the City.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In the Bus Enterprise Fund, buildings and equipment are depreciated using the straight-line method over the estimated useful lives of the assets, which are 30 years for buildings, 20 years for improvements, 12 years for buses, 10 years for furnishings and equipment, and 2 to 10 years for vehicles. Depreciation is included in operating expenses.

F. Fund Equity

In the fund financial statements, governmental funds report fund balance as nonspendable, restricted, committed, assigned, or unassigned based primarily on the extent to which the City is bound to honor constraints on how specific amounts can be spent.

- **Nonspendable** - Amounts that are not in spendable form (such as inventory) or are required, either legally or contractually, to be maintained intact.
- **Restricted** - Amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional or enabling legislation.
- **Committed** - Amounts constrained to specific purposes by the City, using the highest level of decision-making authority (City Council). To be reported as committed, amounts cannot be used for any other purpose unless the City takes the same highest level action to remove or change the constraint. The underlying action that imposed the limitation needs to occur no later than the close of the reporting period.
- **Assigned** - Amounts the City *intends* to use for a specific purpose. Intent can be expressed by the City at either the highest level of decision-making authority or by an official or body to which the City delegates the authority. This is also the classification for residual funds in the special revenue funds.
- **Unassigned** - For the TDA Special Revenue Funds, the unassigned classification is used only if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes.

The City establishes and modifies or rescinds fund balance commitments by passage of an ordinance or policy. This is typically done through adoption or amendment of the budget. A fund balance commitment is further indicated in the budget as a designation or commitment of the fund, such as approved construction contracts. Assigned fund balance is established by the City through adoption or amendment of the budget or future year budget plan as intended for a specific purpose.

When both restricted and unrestricted resources are available for use, it is the City's policy to use restricted resources first, followed by the committed, assigned, and unassigned resources as they are needed.

G. Net Position

Net position is the excess of all the assets and deferred outflows of resources over all the liabilities and deferred inflows of resources, regardless of fund. Net position is divided into three captions. These captions apply only to net position of the Bus Enterprise Fund, and are described below:

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment in Capital Assets describes the portion of net position which is represented by the current net book value of the capital assets, less the outstanding balance of any debt issued to finance these assets.

Restricted describes the portion of net position which is restricted as to use by the terms and conditions of agreements with outside parties, governmental regulations, laws, or other restrictions which the City cannot unilaterally alter. These principally include resources from grant revenues with Federal and State limitations on how the City may expend these grant funds.

Unrestricted describes the portion of net position which is not restricted as to use.

H. Pensions

For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Miscellaneous Plan (Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by the CalPERS Financial Office. For this purpose, benefit payments (including refunds of employee contributions) are recognized when currently due and payable in accordance with the benefit terms. Investments of the Plan are reported at fair value.

GASB Statement No. 68 requires that the reported results must pertain to liability and asset information within certain defined timeframes. For this report, the following timeframes are used:

Valuation Date:	June 30, 2014
Measurement Date:	June 30, 2015
Measurement Period:	July 1, 2014 to June 30, 2015

I. New Accounting Pronouncements

During the year ended June 30, 2016, the City implemented the following GASB standards:

GASB Statement No. 72, *Fair Value Measurement and Application.* This statement is intended to improve accounting and financial reporting for state and local governments' investments by enhancing the comparability of financial statements among governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. This statement did not have a significant impact to the TDA Funds' financial statements.

GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and No. 68.* This statement establishes requirements for those pensions and pension plans that are not administrated through a trust meeting specified criteria and thus are not covered by Statement Nos. 67 and 68. This statement did not have a significant impact to the TDA Funds' financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

GASB Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*, which supersedes Statement No. 55. This statement clarifies the hierarchy of generally accepted accounting principles (GAAP), and reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within the scope of authoritative GAAP. This statement did not have a significant impact to the TDA Funds' financial statements.

GASB Statement No. 79, *Certain External Investment Pools and Pool Participants.* The statement addresses accounting and financial reporting for certain external investment pools and pool participants. The statement establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. It also establishes additional note disclosure requirements to include information about any limitations or restrictions on participant withdrawals. This statement did not have a significant impact to the TDA Funds' financial statements.

The City is currently evaluating its accounting practices to determine the potential impact on the financial statements for the following GASB Statements:

In June 2015, GASB issued Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans.* This statement addresses reporting by OPEB plans that administer benefits on behalf of governments. This Statement is effective for the TDA Funds' fiscal year ending June 30, 2017.

In June 2015, GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.* This statement addresses reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments. This Statement is effective for the TDA Funds' fiscal year ending June 30, 2018.

In August 2015, GASB issued Statement No. 77, *Tax Abatement Disclosures.* This statement requires governments that enter into tax abatement agreements to disclose the following information about the agreements: (i) brief descriptive information; (ii) the gross dollar amount of taxes abated during the period; and (iii) commitments made by a government, other than to abate taxes, as part of a tax abatement agreement. This Statement is effective for the TDA Funds' fiscal year ending June 30, 2017.

In December 2015, the GASB issued Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*. The objective of this statement is to address a practice issue regarding the scope and applicability of Statement No. 68 associated with pensions provided through certain cost-sharing multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions. Such plans are not considered a state or local government pension plan and are used to provide benefits to both employees of state and local governments and employees of employers that are not state or local governments. This Statement is effective for the TDA Funds' fiscal year ending June 30, 2017.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

In January 2016, the GASB issued Statement No. 80, *Blending Requirements for Certain Component Units—an amendment of GASB Statement No. 14*. The objective of this statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. This statement amends the blending requirements established in GASB Statement No. 14, *The Financial Reporting Entity*, as amended. This Statement is effective for the TDA Funds' fiscal year ending June 30, 2017.

In March 2016, the GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*. The statement provides recognition and measurement guidance for situations in which a government is a beneficiary of these agreements. This Statement is effective for the TDA Funds' fiscal year ending June 30, 2018.

In March 2016, the GASB issued Statement No. 82, *Pension Issues – an amendment of GASB Statements No. 67, No. 68, and No. 73,* to address certain issues that have been raised with respect to Statements No. 67, *Financial Reporting for Pension Plans*, No. 68, *Accounting and Financial Reporting for Pensions*, and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68.* The statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practices for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. This Statement is effective for the TDA Funds' fiscal year ending June 30, 2017.

NOTE 2 – INVESTMENT IN CITY OF MODESTO POOL

The cash and investments of the TDA Funds are held in the City's investment pool. The cash and investments of the TDA Funds are reported as cash and cash equivalents on the balance sheet and statement of net position because the City can spend cash of the TDA Funds at any time without prior notice or penalty. At June 30, 2016, the City's investment pool is unrated and the weighted average maturity is 518 days. Interest earned on pool cash and investments is credited to each participant in the pool based on each participant's average monthly cash balance. The Modesto City Council has oversight responsibility of the City investment pool. Detailed information concerning the City's pooled cash and investments, including information regarding the fair value of investments, may be found in the City's Comprehensive Annual Financial Report. The TDA Funds' investments in the pool are stated at fair value. As of June 30, 2016, the fair value of the TDA Funds' position in the pool is the same as the value of its pool shares.

The fair value hierarchy established by generally accepted accounting principles is based on the valuation inputs used to measure the fair value of the assets. The TDA Funds' investment in the City's investment pool is exempt from fair value hierarchy disclosures.

NOTE 3 – CAPITAL ASSETS

Capital asset activity for the Bus Enterprise Fund for the year ended June 30, 2016, was as follows:

	Beginning Balance	Additions and transfers in	Deletions and transfers out	Ending Balance
Capital assets, not being depreciated:				
Land	$ 4,060,454	$ -	$ -	$ 4,060,454
Construction in progress	3,674,277	716,881	(3,674,277)	716,881
Total capital assets, not being depreciated	7,734,731	716,881	(3,674,277)	4,777,335
Capital assets, begin depreciated:				
Buildings	23,240,846	467,566	-	23,708,412
Improvements	4,336,165	-	-	4,336,165
Furnishings and equipment	1,448,291	-	(52,404)	1,395,887
Vehicles	222,284	-	-	222,284
Buses and fareboxes	27,997,105	3,653,855	(3,163,161)	28,487,799
Total capital assets, being depreciated	57,244,691	4,121,421	(3,215,565)	58,150,547
Less accumulated depreciation for:				
Buildings	(5,467,167)	(765,543)	-	(6,232,710)
Improvements	(1,929,661)	(206,367)	-	(2,136,028)
Furnishings and equipment	(577,767)	(127,695)	47,164	(658,298)
Vehicles	(163,599)	(16,042)	-	(179,641)
Buses and fareboxes	(15,543,860)	(1,710,384)	2,959,418	(14,294,826)
Total accumulated depreciation	(23,682,054)	(2,826,031)	3,006,582	(23,501,503)
Total capital assets, being depreciated, net	33,562,637	1,295,390	(208,983)	34,649,044
Total capital assets, net	$ 41,297,368	$ 2,012,271	$ (3,883,260)	$ 39,426,379

Depreciation expense ended June 30, 2016 was $2,826,031.

NOTE 4 – COMPLIANCE REQUIREMENTS OF LOCAL TRANSPORTATION FUNDS

The Bus Enterprise Fund is subject to TDA provisions requiring the calculation and adherence of fare and local support ratios for TDA transit funding. Effective November 17, 2010, the Stanislaus Council of Governments (StanCOG), the transportation planning agency for Stanislaus County, approved a permanent combined system farebox recovery ratio of 15%. The City's Bus Enterprise Fund is now required to combine the fixed route and demand response into one calculation. The Bus Enterprise Fund's fare ratio of operating revenues to operating expenses, as calculated below, indicates the City is in conformance with the provisions of the TDA:

	2016	2015
Charges for services	$ 2,939,307	$ 3,093,783
Advertising revenue	235,393	-
Less: Non-fare charges	(14,115)	(14,136)
Fare revenues	3,160,585	3,079,647
Operating expenses	19,170,860	19,009,076
Less expenses not related to fare generated activities:		
Depreciation	(2,826,031)	(2,260,367)
Transfers in from other City funds	(1,500)	(1,500)

NOTE 5 – PROPOSITION 1B: PUBLIC TRANSPORTATION MODERNIZATION, IMPROVEMENT, AND SERVICE ENHANCEMENT ACCOUNT (PTMISEA)

In November 2006, California voters passed a bond measure enacting the Highway Safety, Traffic Reduction, Air Quality, and Port Security Bond Act of 2006. Of the $19.925 billion of State general obligation bonds authorized, $4 billion was set aside by the State as instructed by the statute as the Public Transportation Modernization, Improvement, and Service Enhancement Account (PTMISEA). These funds are available to the California Department of Transportation for intercity rail projects and to transit operators in California for rehabilitation, safety, or modernization improvements; capital service enhancements or expansions; new capital projects; bus rapid transit improvements; or for rolling stock procurement, rehabilitation, or replacement.

NOTE 5 – PROPOSITION 1B: PUBLIC TRANSPORTATION MODERNIZATION, IMPROVEMENT, AND SERVICE ENHANCEMENT ACCOUNT (PTMISEA) (Continued)

In fiscal year 2016, the City received $350,092 from State of California Department of Transportation passed through StanCOG. The City spent $647,378 in various projects during the year and earned an additional $39,258 in interest, leaving $4,166,093 of unspent PTMISEA funds as of June 30, 2016.

Project Name	Beginning Unearned Revenue	Interest Earned	New Receipts	Expended	Ending Unearned Revenue
Rehabilitation of existing buses	$ 24,598	$ 216	$ -	$ (24,137)	$ 677
New and refurbish buses	2,732,737	22,907	-	(623,241)	2,132,403
Bus stops	95,056	956	11,700	-	107,712
Depository	442,165	3,903	-	-	446,068
Security	1,129,565	9,970	-	-	1,139,535
Fareboxes	-	1,306	338,392	-	339,698
Total	$4,424,121	$ 39,258	$ 350,092	$ (647,378)	$4,166,093

NOTE 6 – PROPOSITION 1B: CALIFORNIA TRANSIT SECURITY GRANT (CTSG)

In fiscal year 2016, the City received no additional funding but received $87 in interest on the unspent funds, and had no disbursements of CTSG funds, leaving $9,958 of unspent CTSG funds as of June 30, 2016.

NOTE 7 – CAPITAL TRANSIT AND LOCAL TRANSPORTATION FUNDS

Unearned revenue for the TDA Funds for the year ended June 30, 2016, was as follows:

	Local Transportation Special Revenue Funds		
	Non-Motorized	Streets and Roads	Total
Unearned revenue, beginning of year	$ 855,110	$ 797,255	$ 1,652,365
TDA funds allocated	153,047	-	153,047
TDA funds earned	(21,459)	(529,131)	(550,590)
Adjustment	-	(38,341)	(38,341)
Unearned revenue, end of year	$ 986,698	$ 229,783	$ 1,216,481

	Bus Enterprise Fund		
	LTF/LCTOP	Capital Transit/ LCTOP	Total
Unearned revenue, beginning of year	$ 1,630,003	$ 432,076	$ 2,062,079
TDA funds allocated	7,531,364	992,333	8,523,697
TDA funds earned	(7,395,436)	(90,151)	(7,485,587)
Adjustment	-	(24,997)	(24,997)
Unearned revenue, end of year	$ 1,765,931	$ 1,309,261	$ 3,075,192

NOTE 8 – PENSION PLAN

General Information about the Pension Plan

Plan Description – All of the Bus Fund qualified employees are eligible to participate in the City's Miscellaneous Pension Plan (Plan), an agent multi-employer defined benefit pension plan administered by the California Public Employees' Retirement System (CalPERS). Departments and funds of the City, including the Bus Fund, are in a cost-sharing arrangement in which all risks and costs are shared proportionately. A full description of the Plan regarding number of employees covered, benefit provisions, assumptions (for funding, but not accounting purposes), and membership information are listed in the June 30, 2013 Annual Actuarial Valuation Report. Details of the benefits provided can be obtained in Appendix B of the actuarial valuation report. This report and CalPERS' audited financial statements are publicly available reports that can be obtained at CalPERS' website at www.calpers.ca.gov under Forms and Publications.

The California Legislature passed and the Governor signed the "Public Employees' Pension Reform Act of 2013" (PEPRA) on September 12, 2012. PEPRA contained a number of provisions intended to reduce future pension obligations. PEPRA primarily affects new pension plan members who are enrolled for the first time after December 2012. Benefit provisions under the Plan and other requirements are established by State statute and City resolution.

Benefits Provided – The benefits for the Plan are based on members' years of services, age, final compensation, and benefit formula. Benefits are provided for disability, death, and survivors of eligible members or beneficiaries. Members come fully vested in their retirement benefits earned to date after five years of credited service.

The Plan's provisions and benefits in effect at June 30, 2016 and 2015 are summarized as follows:

Hire date	Prior to January 17, 2012	January 17, 2012 to December 31, 2012	On or After January 1, 2013
Benefit formula	2% @ 55	2% @ 60	2% @ 62
Benefit vesting schedule	5 years of service	5 years of service	5 years of service
Benefit payments	monthly for life	monthly for life	monthly for life
Retirement age	50 to 67	50 to 67	52 to 67
Monthly benefits, as a % of eligible compensation	1.426 to 2.418%	1.092 to 2.418%	1.000 to 2.500%

Contributions – Section 20814(c) of the California Public Employees Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through the CalPERS' annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. The City is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

NOTE 8 – PENSION PLAN (Continued)

For the measurement period ended June 30, 2015 (the measurement date) for the Plan, the average active employee contribution rate was 6.933% of annual pay and the employer's contribution rate was 13.539% of annual payroll. For the measurement period ended June 30, 2014 (the measurement date) for the Plan, the average active employee contribution rate was 6.971% of annual pay and the employer's contribution rate was 11.984% of annual payroll. Employer contribution rates may change if plan contracts are amended. It is the responsibility of the City to make necessary accounting adjustments to reflect the impact due to any employer-paid member contributions or situations where members are paying a portion of the employer contribution.

For the year ended June 30, 2016, the employer contributions recognized as a deferred outflow of resources was $178,451.

Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

As of June 30, 2016, the Bus Fund reported a liability of $2,149,389 for its proportionate share of the net pension liability. The net pension liability at June 30, 2016, was measured as of June 30, 2015, using an annual actuarial valuation as of June 30, 2014, rolled forward to June 30, 2015 using standard update procedures. The Bus Fund's proportion of the net pension liability was based on its contributions to the Plan relative to all contributions to the Plan. At June 30, 2016, the Bus Fund's proportion was 2.6843%.

For the year ended June 30, 2016, the Bus Fund recognized pension expense of $80,173. At June 30, 2016, the Bus Fund reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

June 30, 2016	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contribution subsequent to measurement date	$ 178,451	$ -
Changes of assumptions		(130,073)
Differences between expected and actual experiences	-	(61,595)
Net difference between projected and actual earnings on pension plan investments	-	(57,563)
Totals	$ 178,451	$ (249,231)

NOTE 8 – PENSION PLAN (Continued)

Amounts reported as deferred outflows and deferred inflows of resources related to pensions will be recognized in future pension expense as follows:

Year Ending June 30	
2017	$ (132,562)
2018	(132,562)
2019	(103,115)
2020	119,008
Total	$ (249,231)

Actuarial Assumptions – The total pension liabilities in the June 30, 2014 actuarial valuations, which were rolled forward to June 30, 2015, were determined using the following actuarial method and assumptions:

Valuation Date	June 30, 2014
Measurement Date	June 30, 2015
Actuarial Cost Method	Entry-Age Normal
Actuarial Assumptions:	
Discount Rate	7.65%
Inflation	2.75%
Payroll Growth	3.00%
Salary Increases	Varies by Entry Age and Service
Investment Rate of Return	7.65% Net of Pension Plan Invesment and Administrative Expenses, includes Inflation
Mortality Rate Table [(1)]	Derived using CalPERS' Membership Data for all Funds
Post Retirement Benefit Increase	Contract COLA up to 2.75% until Purchasing Power Protection Allowance Floor on Purchasing Power applies, 2.75% thereafter

[(1)] The mortality table used was developed based on CalPERS' specific data. The table includes 20 years of mortality improvements using Society of Actuaries Scale BB. For more details on this table, please refer to the 2014 experience study report available on CalPERS website.

All other actuarial assumptions used in the June 30, 2014 valuation was based on the results of actuarial experience study for the period from 1997 to 2011, including updates to salary increase, mortality and retirement rates. The Experience Study report can be obtained at CalPERS website under Forms and Publications.

NOTE 8 – PENSION PLAN (Continued)

Discount Rate – The discount rate used to measure the total pension liability at June 30, 2016 was 7.65 percent. To determine whether the municipal bond rate should be used in the calculation of a discount rate for the Plan, CalPERS stress tested plans that would most likely result in a discount rate that would be different from the actuarially assumed discount rate. Based on the testing, none of the tested plans run out of assets. Therefore, the discount rate is adequate and the use of municipal bond rate calculation is not necessary. The long-term expected discount rate of 7.65 percent is applied to all plans in the Public Employees Retirement Fund for the June 30, 2015 measurement date. The stress test results are presented in a detailed report called "GASB Crossover Testing Report" that can be obtained at CalPERS' website under the GASB 68 section.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS staff took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds' asset classes, expected compound (geometric) returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation. These geometric rates of return are net of administrative expenses.

The target allocation for the June 30, 2015 measurement date was as follows:

Asset Class	New Strategic Allocation	Real Return Years 1 - 10 [1]	Real Return Years 11+ [2]
Global Equity	51.00%	5.25%	5.71%
Global Fixed Income	19.00%	0.99%	2.43%
Inflation Sensitive	6.00%	0.45%	3.36%
Private Equity	10.00%	6.83%	6.95%
Real Estate	10.00%	4.50%	5.13%
Infrastruction and Forestland	2.00%	4.50%	5.09%
Liquidity	2.00%	-0.55%	-1.05%
Total	100.00%		

[1] An expected inflation of 2.5% used for this period.

[2] An expected inflation of 3.0% used for this period.

NOTE 8 – PENSION PLAN (Continued)

Sensitivity of the Bus Fund's Proportionate Share of the Net Pension Liability to Changes in the Discount Rate – The following presents the net pension liability of the Plan as of the June 30, 2015 measurement date, calculated using the discount rate of 7.65 percent, as well as what the net pension liability would be if it were calculated using a discount rate that is 1 percentage-point lower (6.65 percent) or 1 percentage-point higher (8.65 percent) than the current rate:

	Discount Rate - 1% (6.65%)	Current Discount Rate (7.65%)	Discount Rate + 1% (8.65%)
Bus Fund's Proportionate Share of Plan's Net Pension Liability	$ 3,594,255	$ 2,149,389	$ 1,124,699

Pension Plan Fiduciary Net Position – Detailed information about the pension plan's fiduciary net position is available in the separately issued CalPERS financial report. Copies of which may be obtained from the CalPERS Executive Offices, Lincoln Plaza East, 400 Q Street, Sacramento, California 95811.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards* and the Transportation Development Act

Honorable Members of the City Council
City of Modesto, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the Local Transportation Special Revenue Funds and the Bus Enterprise Fund (collectively known as the Transportation Development Act Funds) of the City of Modesto, California (City), as of and for the year ended June 30, 2016, and the related notes to the financial statements, and have issued our report thereon dated December 14, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting as it relates to the Transportation Development Act Funds (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City's internal control. Accordingly, we do not express an opinion on the effectiveness of City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's Transportation Development Act Funds financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, including the applicable statutes, rules and regulations of the Transportation Development Act and the allocation instructions and resolutions of the Stanislaus Council of Governments as required by Sections 6666 and 6667 of Title 21, Division 3, Chapter 2, Article 5.5 of the California Code of Regulations, noncompliance with which could have a direct

and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* or the Transportation Development Act.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* and the Transportation Development Act in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Walnut Creek, California
December 14, 2016

Independent Accountant's Report on Compliance with the Public Transportation Modernization, Improvement, and Service Enhancement Account (PTMISEA)

Honorable Members of the City Council
City of Modesto, California

We have examined the City of Modesto's (City) compliance with the verification of receipt and appropriate expenditure of bond funds audit requirements per the Public Transportation Modernization, Improvement and Service Enhancement Account (PTMISEA) Guidelines during the year ended June 30, 2016. Management is responsible for the City's compliance with those requirements. Our responsibility is to express an opinion on the City's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants and, accordingly, included examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances. We believe that our examination provides a reasonable basis for our opinion. Our examination does not provide a legal determination on the City's compliance with specified requirements.

In our opinion, the City complied, in all material respects, with the aforementioned requirements for the year ended June 30, 2016.

This report is intended solely for the information and use of the Stanislaus Council of Governments, management, the State of California Department of Transportation, and State Controller's Office and is not intended to be and should not be used by anyone other than these specified parties.

CITY OF MODESTO
Transportation Development Act Funds
Summary Schedule of Prior Audit Findings
For the Year Ended June 30, 2016

2015 Comment:	***2015-001 – Restatements of Prior Year Financial Statements***
Condition/Effect:	The City did not properly record capital assets nor properly accrue revenue in its Bus Fund in the 2014 financial statements. This condition resulted in the City restating its 2014 Bus Fund financial statements to increase "capital assets – construction in progress" and decrease "maintenance and supplies expenses" by $766, and decrease "buses and fareboxes accumulated depreciation" and "depreciation expenses" by $685,745. In addition, "due from other governments" and "intergovernmental – Federal Transit Administration" were increased by $26,037.
Recommendation:	The City should record transactions in its Bus Fund accurately to present restatements in the following year.
Status:	Corrected.
2015 Comment:	***2015-002 – Intergovernmental – Nonoperating Revenues and Capital Contributions***
Condition/Effect:	The City did not correctly present intergovernmental and capital contributions in its Bus Fund for the year ended June 30, 2014, nor were such initial amounts correct for the year ended June 30, 2015. This condition resulted in the City reclassifying its 2014 Bus Fund financial statements decreasing "capital contributions" and increasing "intergovernmental revenues" by $4,672,465. Also, additional analysis was necessary for the City"s 2015 Bus Fund financial statements to be presented correctly.
Recommendation:	The City should analyze its intergovernmental revenue sufficiently to determine whether the reimbursements relate to operating expenses or capital outlays.
Status:	Corrected.

CITY OF MODESTO
Transportation Development Act Funds
Summary Schedule of Prior Audit Findings
For the Year Ended June 30, 2016

2015 Comment:	***2015-003 – Compilation of Financial Statements***
Condition/Effect:	The City did not compile the financial information in a manner necessary to prepare its Bus Fund financial statements. This condition resulted in the auditor spending a significant amount of time to compile the financial information from the trial balance of the City's Bus Fund and to work with the City to adjust the initial financial statement compilation to meet the City's approval.
Recommendation:	The City should compile the trial balance of its Bus Fund as to enable the auditor to prepare its Bus Fund financial statements that meet the City's approval.
Status:	Corrected.

Independent Auditor's Report

Board of Directors
Modesto-Ceres Fire Protection Agency
Modesto, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and General Fund of the Modesto-Ceres Fire Protection Agency (the Agency) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and the General Fund of the Agency, as of

June 30, 2016, and the respective changes in financial position thereof and the respective budgetary comparison for the General Fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Management has omitted management's discussion and analysis that accounting principles generally accepted in the United States of America require to be presented to supplement the basic financial statements. Such missing information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. Our opinion on the basic financial statements is not affected by this missing information.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the Agency's basic financial statements. The schedule of officers is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The schedule of officers has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance on it.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 3, 2016, on our consideration of the Agency's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Agency's internal control over financial reporting and compliance.

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Organization

The Modesto-Ceres Fire Protection Agency (the Agency) was formed on March 13, 2007 by a joint powers agreement made in accordance with Chapter 5 of Division 7 of Title 1 of the Government Code of the State of California (commencing with Section 6500) between the Industrial Fire District (District), the City of Modesto, and the City of Ceres for the cities to provide fire protection and administrative services within the District. The Agency operates under the Fire Protection District Law of 1987 and the Health and Safety Code, Sections 13,801-13,999.

Revenue to finance the Agency's operation is derived from the County of Stanislaus property tax rolls.

B. Summary of Significant Accounting Policies

The accounting and reporting policies of the Agency relating to the funds included in the accompanying financial statements conform in all material respects to accounting principles generally accepted in the United States of America that are applicable to state and local governments.

The following significant accounting policies were applied in the preparation of the accompanying financial statements.

C. Reporting Entity

The Agency's financial statements include the accounts of all Agency operations. The criteria for including organizations as component units within the Agency's reporting entity, as set forth in Section 2100 of the Governmental Accounting Standards Boards (GASB) Codification of Government Accounting and Financial Reporting Standards, include whether:

– the organization is legally separate (can sue and be sued in their own name)

– the Agency holds the corporate powers of the organization

– the Agency appoints a voting majority of the organization's board

– the Agency is able to impose its will on the organization

– the organization has the potential to impose a financial benefit/burden on the Agency

– there is fiscal dependency by the organization on the Agency

Based on the aforementioned criteria, the Agency has no component units.

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

D. Government-Wide and Fund Financial Statements

The Agency's government-wide financial statements include a statement of net position and a statement of activities. These statements present summaries of governmental activities for the Agency.

These statements are presented on an "economic resources" measurement focus and the accrual basis of accounting. Accordingly, all of the Agency's assets and liabilities are included in the accompanying statement of net position.

The statement of activities demonstrates the degree to which the direct expenses of a given function or identifiable activities are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or identifiable activity. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or identifiable activity and 2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or identifiable activity. Taxes and other items not properly included among program revenues are reported instead as general revenues.

The Agency's governmental fund financial statements include a balance sheet and a statement of revenues, expenditures, and change in fund balance. The General Fund is the only governmental fund.

The General Fund is accounted for on a spending or "current financial resources" measurement focus and the modified accrual basis of accounting. Accordingly, only current assets and current liabilities are included on the balance sheet. The statement of revenues, expenditures, and change in fund balance presents increases (revenues) and decreases (expenditures) in fund balance.

Under the modified accrual basis of accounting, revenues are recognized in the accounting period in which they become both measurable and available to finance expenditures of the current period. Accordingly, revenues are recorded when received in cash, except for revenues susceptible to accrual (generally received 60 days after year-end). The primary revenue source, which have been treated as susceptible to accrual by the Agency, is property taxes.

Expenditures are recorded in the accounting period in which the related fund liability is incurred.

Since the amounts presented in the Agency's balance sheet and statement of net position are the same, they are presented as one financial statement. Similarly, since the amounts presented in the Agency's statement of revenues, expenditures, and change in fund balance and the statement of activities are the same, they are presented as one financial statement. There were no encumbrances outstanding as of June 30, 2016, so the actual budgetary-basis expenditures are the same as the actual GAAP-basis expenditures.

E. Budget

The budget for the General Fund is prepared on the cash and expenditures/encumbrances basis. Revenues are budgeted in the year receipt is expected; expenditures, which include encumbrances, are budgeted in the year that the applicable warrant requisitions are expected to be issued.

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Annual budget requests are submitted by the Agency staff to the Agency's Board of Directors for review. After public hearing, a budget is approved by the Agency's Board of Directors, with a resolution adopting said budget. Copies of the approved budget are sent to all required agencies.

The General Fund budget is prepared within the limit on spending as regulated by Proposition 4 Appropriations Limitation. Unencumbered appropriations for annually budgeted funds lapse at year-end.

F. Proposition 4

The Proposition 4 Appropriations Limitation for the year ended June 30, 2016, was $982,066.

G. Property Tax

Secured property taxes attach as an enforceable lien on real property as of the 1st day of January. Taxes are payable in two installments on November 10th and March 10th, and become delinquent if not paid before December 10th and April 10th. Unsecured property taxes are billed in one installment, are due March 15th, and become delinquent if not paid on or before August 31st. The County of Stanislaus bills and collects all property taxes and remits to the Agency its share of the 1% property tax allocation. Tax revenues are recognized by the Agency when received.

H. Employees' Retirement Plan

The Agency no longer participates in the County of Stanislaus retirement plan since firefighters are paid by the Cities of Modesto and Ceres.

I. Fund Balance

In the fund financial statements, governmental funds report fund balance as nonspendable, restricted, committed, assigned, or unassigned based primarily on the extent to which the Agency is bound to honor constraints on how specific amounts can be spent.

- **Nonspendable** – Amounts that are not in spendable form (such as inventory) or are required either legally or contractually to be maintained intact.
- **Restricted** – Amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional or enabling legislation.
- **Committed** – Amounts constrained to specific purposes by the Agency itself, using the Agency's highest level of decision-making authority (the Board of Directors). To be reported as committed, amounts cannot be used for any other purpose unless the Agency takes the same highest level action to remove or change the constraint. The underlying action that imposed the limitation needs to occur no later than the close of the reporting period.
  Assigned – Amounts the Agency *intends* to use for a specific purpose. Intent can be expressed by the Agency at either the highest level of decision-making authority or by an official or body to which the Agency delegates the authority. This is also the classification for residual funds in the Agency's General Fund.

NOTE 1 – ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

- **Unassigned** – The residual classification for the Agency's General Fund that includes amounts not contained in the other classifications. In other funds, the unassigned classification is used only if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes.

The Agency establishes and modifies or rescinds fund balance commitments by passage of an ordinance or policy. This is typically done through adoption or amendment of the budget. A fund balance commitment is further indicated in the budget as a designation or commitment of the fund, such as approved construction contracts. Assigned fund balance is established by the Agency through adoption or amendment of the budget or future year budget plan as intended for a specific purpose.

When both restricted and unrestricted resources are available for use, it is the Agency's policy to use restricted resources first, followed by the committed, assigned and unassigned resources as they are needed.

J. Accounting Standards Update

During the year ended June 30, 2016, the Agency implemented the following GASB standards:

GASB Statement No. 72, *Fair Value Measurement and Application.* This statement is intended to improve accounting and financial reporting for state and local governments' investments by enhancing the comparability of financial statements amount governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. This statement did not have a significant impact to the Agency's financial statements.

GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and No. 68.* This statement establishes requirements for those pensions and pension plans that are not administrated through a trust meeting specified criteria and thus are not covered by Statement Nos. 67 and 68. This statement did not have a significant impact to the Agency's financial statements.

GASB Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*, which supersedes Statement No. 55. This statement clarifies the hierarchy of generally accepted accounting principles (GAAP), and reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within the scope of authoritative GAAP. This statement did not have a significant impact to the Agency's financial statements.

GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*. The statement addresses accounting and financial reporting for certain external investment pools and pool participants. The statement establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. It also establishes additional note disclosure requirements to include information about any limitations

or restrictions on participant withdrawals. This statement did not have a significant impact to the Agency's financial statements.

The Agency is currently evaluating its accounting practices to determine the potential impact on the financial statements for the following GASB Statements:

In June 2015, GASB issued Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans.* This statement addresses reporting by OPEB plans that administer benefits on behalf of governments. This Statement is effective for the Agency's fiscal year ending June 30, 2017.

In June 2015, GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.* This statement addresses reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments. This Statement is effective for the Agency's fiscal year ending June 30, 2018.

In August 2015, GASB issued Statement No. 77, *Tax Abatement Disclosures.* This statement requires governments that enter into tax abatement agreements to disclose the following information about the agreements: (i) brief descriptive information; (ii) the gross dollar amount of taxes abated during the period; and (iii) commitments made by a government, other than to abate taxes, as part of a tax abatement agreement. This Statement is effective for the Agency's fiscal year ending June 30, 2017.

In December 2015, the GASB issued Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*. The objective of this statement is to address a practice issue regarding the scope and applicability of Statement No. 68 associated with pensions provided through certain cost-sharing multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions. Such plans are not considered a state or local government pension plan and are used to provide benefits to both employees of state and local governments and employees of employers that are not state or local governments. This Statement is effective for the Agency's fiscal year ending June 30, 2017.

In January 2016, the GASB issued Statement No. 80, *Blending Requirements for Certain Component Units—an amendment of GASB Statement No. 14*. The objective of this statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. This statement amends the blending requirements established in GASB Statement No. 14, *The Financial Reporting Entity*, as amended. This Statement is effective for the Agency's fiscal year ending June 30, 2017.

In March 2016, the GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*. The statement provides recognition and measurement guidance for situations in which a government is a beneficiary of these agreements. This Statement is effective for the Agency's fiscal year ending June 30, 2018.

In March 2016, the GASB issued Statement No. 82, *Pension Issues – an amendment of GASB Statements No. 67, No. 68, and No. 73,* to address certain issues that have been raised with respect to Statements No. 67, *Financial Reporting for Pension Plans*, No. 68, *Accounting and Financial Reporting for Pensions*, and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions*

of GASB Statements 67 and 68. The statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practices for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee (plan member) contribution requirements. This Statement is effective for the Agency's fiscal year ending June 30, 2017.

NOTE 2 – CASH AND INVESTMENTS

Cash and investments of the Agency are pooled with other City of Modesto funds. The Agency's portion of this pooled amount was $207,093 at June 30, 2016. At June 30, 2016, the City's investment pool is unrated and the weighted average maturity is 518 days. Interest earned on pooled cash and investments is credited to each participant in the pool based on each participant's average monthly cash balance. Detailed information concerning the City of Modesto's pooled cash and investments, including information regarding the fair value of investments, may be found in the City of Modesto's Comprehensive Annual Financial Report. As of June 30, 2016, the fair value of the Agency's position in the pool is the same as the value of its pool shares.

NOTE 3 – EXPENDITURES OVER APPROPRIATIONS

For the year ended June 30, 2016, expenditures exceeded appropriations as follows:

General Fund	
Services, professional, and other	$ 62
Other	876

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Board of Directors
Modesto-Ceres Fire Protection Agency
Modesto, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and General Fund of the Modesto-Ceres Fire Protection Agency (Agency) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements, and have issued our report thereon dated November 3, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Agency's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we do not express an opinion on the effectiveness of Agency's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Agency's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The

results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

County of Stanislaus, California, and
The City Councils of Modesto and Ceres, California

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities and each major fund of the Tuolumne River Regional Park (the Park) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Park's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities and each major fund of the Park as of June 30, 2016, and the respective changes in financial position thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated November 16, 2016, on our consideration of the Park's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Park's internal control over financial reporting and compliance.

TUOLUMNE RIVER REGIONAL PARK
MANAGEMENT'S DISCUSSION AND ANALYSIS
FOR THE YEAR ENDED JUNE 30, 2016

This section of the annual financial report presents a discussion and analysis of financial performance of Tuolumne River Regional Park (the Park) during the past fiscal year. Please read it in conjunction with the Park's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

The assets of the Park exceeded liabilities at the close of the 2016 fiscal year by $6,381,161 (net position). Of this amount, $6,210,706 is invested in capital assets, and $170,455 (unrestricted net position) may be used to meet ongoing obligations to citizens and creditors.

- Total net position decreased by $102,217 from current year activity.
- As of June 30, 2016, the Park's funds reported combined fund deficit of $58,309, an increase of $3,212 in comparison with the prior year.
- At the end of the fiscal year, the General Fund had a fund balance of $10,712.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Park's basic financial statements. The basic financial statements are made up of three components 1) Government-Wide Financial Statements, 2) Fund Financial Statements, and 3) Notes to the Basic Financial Statements. Required Supplementary Information is included in addition to the basic financial statements.

Government-Wide Financial Statements are designed to provide readers with a broad overview of Park finances, in a manner similar to a private-sector business.

The statement of net position presents information on all assets and liabilities, with the difference between the two reported as *net position.* Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Park is improving or deteriorating.

The statement of activities presents information showing how net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will result in cash inflows or outflows in future fiscal periods.

The sole function of the Park is parks and recreation. It is principally supported by contributions from the three participating agencies of the Park joint powers agreement, the County of Stanislaus and the Cities of Modesto and Ceres, rather than by user fees, and thus, is considered a governmental activity.

The government-wide financial statements can be found on pages 10 and 11 of this report.

Fund Financial Statements provide evidence of accountability by demonstrating compliance with budgetary decisions. A fund is a group of related accounts that is used to maintain control over resources that have been segregated for specific activities or purposes stipulated by laws, regulations, or policies. Both Park funds are governmental funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental funds financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's near-term financing requirements.

Because the focus of governmental funds financial statements is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental funds balance sheet and the governmental funds statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The Park maintains two individual governmental funds. Information is presented separately in the governmental funds balance sheet and in the governmental funds statement of revenues, expenditures, and changes in fund balances for both the General Fund and the Capital Projects Fund.

The governmental funds financial statements can be found on pages 12 through 13 of this report.

Notes to the Basic Financial Statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements. The notes can be found on pages 15 through 21 of this report.

Required Supplementary Information presents budgetary comparison schedules for the General Fund to demonstrate compliance with the budget. Required supplementary information can be found on pages 23 through 24 of this report.

GOVERNMENT-WIDE FINANCIAL ANALYSIS

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. Net position of the Park was $6,381,161 at the close of fiscal year 2016, compared with $6,483,378 as of June 30, 2015.

Statement of Net Position – Governmental Activities

	2016	2015
Current and other assets	$ 430,092	$ 242,812
Capital assets	6,210,706	6,316,135
Total assets	6,640,798	6,558,947
Current and other liabilities	259,637	75,569
Net position:		
Investment in capital assets	6,210,706	6,316,135
Unrestricted	170,455	167,243
Total net position	$ 6,381,161	$ 6,483,378

The largest portion of net position, $6,210,706, is made up of the Park's investment in capital assets. The Park uses these assets to provide its parks and recreation services; consequently, they are not available for future spending.

The resultant unrestricted net position is $170,455. This amount is the balance at year-end which may be used to meet the Park's ongoing obligations.

The Park's net position decreased by $102,217 during the current fiscal year.

Statement of Activities – Governmental Activities

	2016	2015
Revenues:		
Program revenues:		
Charges for services	$ 63,317	$ 51,312
Capital grants and contributions	193,313	273,093
Operating grants and contributions	255,577	202,999
General revenues:		
Investment earnings	-	212
Other	980	7,263
Total revenues	513,187	534,879
Expenses:		
Parks and recreation	615,404	623,377
Change in net position	(102,217)	(88,498)
Net position, beginning of year	6,483,378	6,571,876
Net position, end of year	$ 6,381,161	$ 6,483,378

The 2016 net position decrease of $102,217 is mainly attributable to overall decrease in capital grants and contributions and operating grants and contributions made by joint power authority participants compared to 2015.

FINANCIAL ANALYSIS OF PARK FUNDS

As noted earlier, the Park uses fund accounting to ensure and demonstrate compliance with budgetary decisions.

Governmental funds. The parks and recreation function of the Park is recorded in the General and Capital Projects Funds. The focus of these governmental funds is to provide information on near-term inflows, outflows, and balances of spendable resources. Such information is useful in assessing the Park's financing requirements. In particular, *unassigned fund balance* may serve as a useful measure of net resources available for spending at the end of the fiscal year.

At June 30, 2016, the Park's governmental funds reported a combined deficit in fund balance of $58,309, an increase of $3,212 in comparison with the prior year.

The General Fund is the chief operating fund of the Park. At June 30, 2016, the General Fund had a fund balance of $10,712, an increase of $5,099 from the prior year. This increase can be attributed to the increase in rental revenues and contributions from the joint powers authority.

General and Capital Projects funds revenues totaled $513,187 in fiscal year 2016, an increase of 11.96% over fiscal year 2015. The following table presents the revenues from various sources as well as increases or decreases from the prior year.

Revenues Classified by Source
Governmental Funds

	2016		2015		Increase / (Decrease)	
Revenues by Source	Amount	Percent of Total	Amount	Percent of Total	Amount	Percent of Total
Rents	$ 63,317	12.34%	$ 51,312	11.20%	$ 12,005	23.40%
Interest	-	0.00%	550	0.12%	(550)	-100.00%
Change in fair value of investments	-	0.00%	(338)	-0.07%	338	-100.00%
Contributions by supporting agencies	279,870	54.54%	399,571	87.17%	(119,701)	-29.96%
Intergovernmental	169,020	32.93%	-	0.00%	169,020	100.00%
Other	980	0.19%	7,263	1.58%	(6,283)	-86.51%
	$ 513,187	100.00%	$ 458,358	100.00%	$ 54,829	11.96%

The increase in revenues is attributable to the increase in rents and intergovernmental revenues. Rent revenues are approved via the budget adopted each year based on the expected needs of the Park for the current year and for future years. The Park received state grant during the fiscal year to fund for the Tuolumne River Regional Park Gateway Parcel Phase 2 Project.

The following table presents expenditures by function compared to prior year amounts.

Expenditures by Function
Governmental Funds

	2016		2015		Increase / (Decrease)	
Expenditures by Function	Amount	Percent of Total	Amount	Percent of Total	Amount	Percent of Total
Parks and recreation	$ 316,662	62.09%	$ 292,564	51.72%	$ 24,098	8.24%
Capital outlay	193,313	37.91%	273,093	48.28%	(79,780)	-29.21%
	$ 509,975	100.00%	$ 565,657	100.00%	$ (55,682)	-9.84%

Current parks and recreation expenditures for operations showed an increase, primarily due to increased maintenance expenses for the year. Capital outlay decreased due to the decrease in capital-related activity compared to 2015. These costs are expected to be reimbursed by a grant from the State of California.

The current year changes in fund balances are presented in the following table:

Statement of Revenues, Expenditures, and Changes in Fund Balances
Governmental Funds

	General Fund	Capital Projects Fund	Total
Revenues	$ 319,874	$ 193,313	$ 513,187
Expenditures	(314,775)	(195,200)	(509,975)
Changes in fund balances	5,099	(1,887)	3,212
Fund balances (deficit), beginning of year	5,613	(67,134)	(61,521)
Fund balances (deficit), end of year	$ 10,712	$ (69,021)	$ (58,309)

The fund balance of the Park's General Fund increased by $5,099 during the fiscal year, compared to the final budget anticipated increase of $9,402. The key factor was the continued financial support by the TRRP JPA and minimal reduction to expenses overall.

GENERAL FUND BUDGETARY HIGHLIGHTS

Actual revenues were higher than final budgetary estimates by $14,797. This is mainly attributable to higher than budgeted rents. Actual expenditures were $19,100 higher than final budgetary estimates. This is mainly attributable to higher than budgeted contractual services (i.e., financial support by the City of Modesto).

CAPITAL ASSETS

The Park's investment in capital assets as of June 30, 2016, amounted to $6,210,706 (net of accumulated depreciation). This investment in capital assets includes land, buildings and other improvements, and construction in progress. The investment in capital assets decreased by $105,429, or 1.67% over the prior year. The major components of this change were:

Depreciation expense	$ (298,742)
Construction in progress additions	193,313
Total	$ (105,429)

For government-wide financial statement presentation, all depreciable capital assets are being depreciated using the straight-line method. Fund financial statements record capital asset purchases as expenditures. The Park has no infrastructure assets.

Capital assets, net of depreciation, are shown below to illustrate changes from the prior year:

	2016	2015	Increase (Decrease)
Land	$ 2,528,566	$ 2,528,566	$ -
Buildings	42,534	44,688	(2,154)
Improvements	3,163,075	3,459,663	(296,588)
Construction in progress	476,531	283,218	193,313
Total	$ 6,210,706	$ 6,316,135	$ (105,429)

Additional information on the Park's capital assets can be found in Note 3 on page 20 of this report.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The three agencies that make up the Park's JPA continue to work collaboratively to ensure that the vision for this urban river corridor becomes a reality. Contributing agency funding levels have remained at the same level since 2011 with all of the participating agencies' apportionments allocated to operating costs. Due to a city-wide landscape maintenance service agreement implemented in fiscal year 2006 and being updated in 2016, the City of Modesto was able to secure favorable costs for improved Park maintenance. Utility costs continue to increase and the Park has limited options to control or reduce these costs. Turf watering has been eliminated in Legion Park with the turf areas of the Park reverting to a more natural, native look and becoming brown during the periods of no rain or low river levels.

The TRRP Commission has approved a budget for FY 2016/17 that includes a recommendation of an increase of 50% in the contributions from the member agencies. Staff is currently working to obtain approval from the member agencies for an increased contribution. If approval can be obtained there will an appreciable increase to the operating budget for the fiscal year. This additional funding will be used to increase the maintenance of the TRRP and to set aside some funding to leverage community efforts for deferred maintenance and improvements in TRRP.

Staff and the Park Commission continue to seek funding from all appropriate grant sources. The Park JPA was successful in being awarded a $2.2 million grant, funded by State Proposition 84, and a $450,000 grant, funded by the Land and Water Conservation Fund, for the development of Phase 2 of the Gateway Parcel. Phase 2 will continue habitat restoration by creating a backwater channel, developing approximately 800-feet of trail, installing a pre-fabricated pedestrian bridge and River Overlook, and planting approximately 11 acres of riparian habitat plants. This project is currently under construction and anticipated to be completed in late 2016. This project will improve the high water flow capacity of the park, helping to reduce the impact of flood events down river from the Gateway Parcel while completing the restoration of the riparian areas of the Gateway Parcel.

The City of Modesto's Parks, Recreation, and Neighborhoods Department began a project to plan for the future development of the Park when the JPA of the City of Modesto, City of Ceres, and Stanislaus County adopted the Park Master Plan in December 2001. In April 2005, staff began work on the Precise Plan and the Finding of Conformance to the MEIR for the Gateway Parcel project, and in September 2005, the City Council approved the Precise Plan for the Gateway Parcel of the Park. Since then, three phases of restoration work, totaling approximately 63 acres, have been completed.

REQUEST FOR INFORMATION

This financial report is designed to provide a general overview of Park's finances for those interested in its finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the City of Modesto, Accounting Division, P.O. Box 642, Modesto, California 95353.

TUOLUMNE RIVER REGIONAL PARK

TUOLUMNE RIVER REGIONAL PARK
RECONCILIATION OF THE CHANGES IN FUND BALANCES
OF TOTAL GOVERNMENTAL FUNDS WITH THE CHANGE
IN NET POSITION OF GOVERNMENTAL ACTIVITIES
FOR THE YEAR ENDED JUNE 30, 2016

Changes in Fund Balances of Total Governmental Funds	$	3,212
Amounts reported for governmental activities in the Statement of Activities are different because of the following:		
Governmental funds report capital outlays as expenditures. However, in the Statement of Activities, the cost of those assets is capitalized and allocated over their estimated useful lives and reported as depreciation expense.		
Capital outlay expenditures		193,313
Depreciation expense		(298,742)
Change in Net Position of Governmental Activities	$	(102,217)

See accompanying notes to the basic financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity and Description of Services

Tuolumne River Regional Park (the Park) was founded in 1972 by an agreement between the County of Stanislaus (the County) and the cities of Modesto and Ceres (Cities). The agreement provides for financing, development, and maintenance of the Park facilities. The Park includes approximately 62 developed and 720 undeveloped acres with group picnic areas, play equipment lots, ballfields, and Legion Hall. Rent is generated from public use of these facilities. The County and Cities provide additional operating funds. The Park is governed by the Tuolumne River Regional Park Committee, which consists of two members of the County's Board of Supervisors, two members of the City of Modesto's City Council, and one member of the City of Ceres' City Council.

Financial transactions initiated by the Park are processed and accounted for by the City of Modesto's financial system.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the Park. For the most part, the effect of interfund activity has been removed from these statements. Governmental activities normally are supported by taxes and intergovernmental revenues.

The statement of activities demonstrates the degree to which the direct expenses are offset by program revenues. Direct expenses are those that are clearly identifiable with the parks and recreation function. Program revenues include 1) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by the parks and recreation function and 2) grants and contributions that are restricted to meeting the operational requirements of the parks and recreation function. Investment earnings, which are not properly included among program revenues, are reported instead as general revenues.

Separate financial statements are provided for governmental funds. Major individual governmental funds are reported as separate columns in the fund financial statements.

C. Basis of Presentation, Basis of Accounting, and Measurement Focus

The government-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Revenues are considered to be available when they are collectible within the current period or soon enough thereafter to pay liabilities of the current period.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

For this purpose, the Park considers revenues to be available if they are collected within 180 days of the end of the current fiscal period. During the year ended June 30, 2016, the Park changed its availability period from 60 days to 180 days. However, this accounting change had no effect on the Park's financial statements. Expenditures generally are recorded when a liability is incurred, as under the accrual basis of accounting.

Substantially all rents, contributions made by joint powers authority participants, interest, including the change in fair value of investments, and intergovernmental are considered to be susceptible to accrual and so have been recognized as revenues of the current fiscal period. Other revenues are considered to be measurable and available only when cash is received by the Park.

The Park reports the following major governmental funds:

General Fund

The General Fund is the operating fund of the Park.

Capital Projects Fund

The Capital Projects Fund is used to account for financial resources restricted for specific purposes.

Amounts reported as program revenues include 1) charges to customers or applicants for goods, services, or privileges provided and 2) operating grants and contributions. Internally dedicated resources are reported as general revenues rather than as program revenues. Likewise, general revenues include all investment earnings.

When both restricted and unrestricted resources are available for use, it is the Park's policy to use restricted resources first, then unrestricted resources as they are needed.

D. Management's Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions. These estimates and assumptions affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from these estimates.

E. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the government-wide financial statements. Capital assets are defined by the Park as assets with an initial, individual cost of more than $5,000 and an estimated useful life in excess of two years. Such assets are recorded at historical cost or

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

The cost of normal maintenance and repairs that do not add to the value of the asset or materially extend assets lives are not capitalized. Major outlays for capital assets and improvements are capitalized as projects are constructed.

Depreciation is recorded using the straight-line method over the estimated useful lives of the assets, which are 30 years for buildings and 20 years for improvements. Operating expenses include depreciation on all depreciable capital assets.

Capital assets acquired by the governmental funds are recorded as expenditures by the governmental funds and are capitalized, at cost, in the statement of net position. Title to capital assets vests with all of the parties to the agreement, each having an undivided interest therein.

F. Fund Balance

In the fund financial statements, governmental funds report fund balance as nonspendable, restricted, committed, assigned, or unassigned based primarily on the extent to which the Park is bound to honor constraints on how specific amounts can be spent.

- **Nonspendable** - Amounts that are not in spendable form (such as inventory) or are required either legally or contractually to be maintained intact.
- **Restricted** - Amounts with constraints placed on their use that are either (a) externally imposed by creditors, grantors, contributors, or laws or regulations of other governments or (b) imposed by law through constitutional or enabling legislation.
- **Committed** - Amounts constrained to specific purposes by the Park itself, using the Park's highest level of decision-making authority (Park Committee). To be reported as committed, amounts cannot be used for any other purpose unless the Park takes the same highest level action to remove or change the constraint. The underlying action that imposed the limitation needs to occur no later than the close of the reporting period.
- **Assigned** - Amounts the Park *intends* to use for a specific purpose. Intent can be expressed by the Park at either the highest level of decision-making or by an official or body to which the Park delegates the authority.
- **Unassigned** - The residual classification for the Park's General Fund that includes amounts not contained in the other classifications. In other funds, the unassigned classification is used only if expenditures incurred for specific purposes exceed the amounts restricted, committed, or assigned to those purposes.

The Park establishes and modifies or rescinds fund balance commitments by passage of an ordinance or policy. This is typically done through adoption and amendment of the budget. A fund balance commitment is further indicated in the budget as a designation or commitment of the fund, such as approved construction contracts. Assigned fund balance is established by the Park through adoption or amendment of the budget or future year budget plan as intended for a specific purpose.

When both restricted and unrestricted resources are available for use, it is the Park's policy to use restricted resources first, followed by the committed, assigned, and unassigned resources as they are needed.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

G. Risk Management

The Park is exposed to various risks of loss related to torts; theft of, damage to, and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The Park participates in the City of Modesto's insurance pool to mitigate the risk of loss and contributes its pro-rata share of estimated losses. The City of Modesto's insurance pool does not maintain separate records for estimated outstanding liabilities, including incurred but not reported claims. Refer to the City of Modesto's Comprehensive Annual Financial Report for further information related to the insurance pool. Additional insurance is purchased for special events when certain Park facilities are rented to the public.

H. Governmental Accounting Standards Update

During the fiscal year ending June 30, 2016, the Park implemented the following Governmental Accounting Standards Board (GASB) standards:

GASB Statement No. 72, *Fair Value Measurement and Application.* This statement is intended to improve accounting and financial reporting for state and local governments' investments by enhancing the comparability of financial statements amount governments by requiring measurement of certain assets and liabilities at fair value using a consistent and more detailed definition of fair value and accepted valuation techniques. This statement did not have a significant impact to the Park's financial statements.

GASB Statement No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement No. 68, and Amendments to Certain Provisions of GASB Statements No. 67 and No. 68.* This statement establishes requirements for those pensions and pension plans that are not administrated through a trust meeting specified criteria and thus are not covered by Statement Nos. 67 and 68. This statement did not have a significant impact to the Park's financial statements.

GASB Statement No. 76, *The Hierarchy of Generally Accepted Accounting Principles for State and Local Governments*, which supersedes Statement No. 55. This statement clarifies the hierarchy of generally accepted accounting principles (GAAP), and reduces the GAAP hierarchy to two categories of authoritative GAAP and addresses the use of authoritative and nonauthoritative literature in the event that the accounting treatment for a transaction or other event is not specified within the scope of authoritative GAAP. This statement did not have a significant impact to the Park's financial statements.

GASB Statement No. 79, *Certain External Investment Pools and Pool Participants*. The statement addresses accounting and financial reporting for certain external investment pools and pool participants. The statement establishes criteria for an external investment pool to qualify for making the election to measure all of its investments at amortized cost for financial reporting purposes. It also establishes additional note disclosure requirements to include information about any limitations or restrictions on participant withdrawals. This statement did not have a significant impact to the Park's financial statements.

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

The Park is currently evaluating its accounting practices to determine the potential impact on the financial statements for the following GASB Statements:

In June 2015, GASB issued Statement No. 74, *Financial Reporting for Postemployment Benefit Plans Other Than Pension Plans.* This statement addresses reporting by OPEB plans that administer benefits on behalf of governments. This Statement is effective for the Park's fiscal year ending June 30, 2017.

In June 2015, GASB issued Statement No. 75, *Accounting and Financial Reporting for Postemployment Benefits Other Than Pensions.* This statement addresses reporting by governments that provide OPEB to their employees and for governments that finance OPEB for employees of other governments. This Statement is effective for the Park's fiscal year ending June 30, 2018.

In August 2015, GASB issued Statement No. 77, *Tax Abatement Disclosures.* This statement requires governments that enter into tax abatement agreements to disclose the following information about the agreements: (i) brief descriptive information; (ii) the gross dollar amount of taxes abated during the period; and (iii) commitments made by a government, other than to abate taxes, as part of a tax abatement agreement. This Statement is effective for the Park's fiscal year ending June 30, 2017.

In December 2015, the GASB issued Statement No. 78, *Pensions Provided through Certain Multiple-Employer Defined Benefit Pension Plans*. The objective of this statement is to address a practice issue regarding the scope and applicability of Statement No. 68 associated with pensions provided through certain cost-sharing multiple-employer defined benefit pension plans and to state or local governmental employers whose employees are provided with such pensions. Such plans are not considered a state or local government pension plan and are used to provide benefits to both employees of state and local governments and employees of employers that are not state or local governments. This Statement is effective for the Park's fiscal year ending June 30, 2017.

In January 2016, the GASB issued Statement No. 80, *Blending Requirements for Certain Component Units—an amendment of GASB Statement No. 14*. The objective of this statement is to improve financial reporting by clarifying the financial statement presentation requirements for certain component units. This statement amends the blending requirements established in GASB Statement No. 14, *The Financial Reporting Entity*, as amended. This Statement is effective for the Park's fiscal year ending June 30, 2017.

In March 2016, the GASB issued Statement No. 81, *Irrevocable Split-Interest Agreements*. The statement provides recognition and measurement guidance for situations in which a government is a beneficiary of these agreements. This Statement is effective for the Park's fiscal year ending June 30, 2018.

In March 2016, the GASB issued Statement No. 82, *Pension Issues – an amendment of GASB Statements No. 67, No. 68, and No. 73,* to address certain issues that have been raised with respect to Statements No. 67, *Financial Reporting for Pension Plans,* No. 68, *Accounting and Financial Reporting for Pensions,* and No. 73, *Accounting and Financial Reporting for Pensions and Related Assets That Are Not within the Scope of GASB Statement 68, and Amendments to Certain Provisions of GASB Statements 67 and 68.* The statement addresses issues regarding (1) the presentation of payroll-related measures in required supplementary information, (2) the selection of assumptions and the treatment of deviations from the guidance in an Actuarial Standard of Practices for financial reporting purposes, and (3) the classification of payments made by employers to satisfy employee

NOTE 1 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

(plan member) contribution requirements. This Statement is effective for the Park's fiscal year ending June 30, 2017.

NOTE 2 – INVESTMENT IN CITY OF MODESTO POOL

All of the Park's cash and investments are included within the City of Modesto's cash and investment pool. The Park's portion of this pooled amount was $22,126. At June 30, 2016, the City's investment pool is unrated and the weighted average maturity is 518 days. Interest earned on pool cash and investments is credited to each participant in the pool based on each participant's average monthly cash balance. The Modesto City Council has oversight responsibility of the City of Modesto investment pool. Detailed information concerning the City of Modesto's pooled cash and investments, including information regarding the fair value of investments, may be found in the City of Modesto's Comprehensive Annual Financial Report. The Park's investments in the pool are stated at fair value. As of June 30, 2016, the fair value of the Park's position in the pool is the same as the value of its pool shares.

NOTE 3 – CAPITAL ASSETS

Capital asset activity for the year ended June 30, 2016, was as follows:

	Beginning Balance	Additions	Ending Balance
Capital assets, not being depreciated:			
Land	$ 2,528,566	$ -	$ 2,528,566
Construction in progress	283,218	193,313	476,531
Total capital assets not being depreciated	2,811,784	193,313	3,005,097
Capital assets, being depreciated:			
Buildings	455,935	-	455,935
Improvements	7,481,168	-	7,481,168
Total capital assets, being depreciated	7,937,103	-	7,937,103
Less accumulated depreciation for:			
Buildings	(411,247)	(2,154)	(413,401)
Improvements	(4,021,505)	(296,588)	(4,318,093)

Capital assets, net	$ 6,316,135	$ (105,429)	$ 6,210,706

Depreciation expense for the year ended June 30, 2016, was $298,742.

NOTE 4 – RELATED PARTY TRANSACTIONS

The Park reimburses the City of Modesto for administrative and other costs incurred by the City of Modesto on the Park's behalf. During the 2016 fiscal year, contractual service expenditures included $85,552 of the City of Modesto's payroll costs allocated to the Park.

NOTE 5 – EXPENDITURES OVER APPROPRIATIONS

For the year ended June 30, 2016, expenditures exceeded appropriations as follows:

General Fund	
Contractual services	$ 16,738
Materials and supplies	1,968
Interest cost	645

TUOLUMNE RIVER REGIONAL PARK
NOTE TO THE REQUIRED SUPPLEMENTARY INFORMATION
FOR THE YEAR ENDED JUNE 30, 2016

NOTE 1 – BUDGETS AND BUDGETARY ACCOUNTING

Tuolumne River Regional Park (the Park) operates under the general laws of the State of California and annually adopts a budget for its General Fund to be effective July 1 for the ensuing fiscal year. The budget must be approved by each of the legislative bodies of parties to the joint powers agreement. From the effective date of the budget, which is adopted and controlled at the fund level, the amounts stated therein as proposed expenditures become appropriations. The Park may amend the budget by approval from each of the legislative bodies of the parties to the agreement during the fiscal year. The budget for the General Fund is prepared on the cash and expenditures/encumbrance basis. Revenues are budgeted in the year receipt is expected; expenditures, which include encumbrances, are budgeted in the year that the applicable warrant requisitions are expected to be issued. There were no encumbrances outstanding as of June 30, 2016, so the actual budgetary-basis expenditures are the same as the actual GAAP-basis expenditures.

OTHER REPORT

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Tuolumne River Regional Park Commission,
The Board of Supervisors of the
County of Stanislaus, California, and
The City Councils of Modesto and Ceres, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and each major fund of the Tuolumne River Regional Park (the Park), as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Park's basic financial statements, and have issued our report thereon dated November 16, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Park's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Park's internal control. Accordingly, we do not express an opinion on the effectiveness of the Park's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe that a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Park's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those

provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards.*

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Macias Gini & O'Connell LLP

Walnut Creek, California
November 16, 2016

TUOLUMNE RIVER REGIONAL PARK
SUMMARY SCHEDULE OF PRIOR YEAR FINDINGS AND RECOMMENDATIONS
FOR THE YEAR ENDED JUNE 30, 2016

2015 Comment:	***2015-001 – Proper Accrual of Accounts Payable***
Condition/Effect:	A significant disbursement was not properly accrued at year-end. This condition resulted in material audit adjustment increasing 'accounts payable' and 'capital assets' in the Park's governmental activities and increasing 'accounts payable' and 'capital outlay' expenditures in the Park's Capital Projects Fund by $25,543.
Recommendation:	Management should strengthen year-end close procedures to ensure that activity subsequent to year-end is analyzed and recorded in the correct period.
Status:	Corrected.
2015 Comment:	***2015-002 – Proper Reporting of Unearned and Unavailable Revenues***
Condition/Effect:	Receivables not collected during the period of availability were not deferred as unavailable in the Park's Capital Projects Fund. This condition resulted in a material audit adjustment adding the 'unavailable revenue' balance and eliminating the 'intergovernmental' revenue amount of $228,764 in the Park's Capital Projects Fund.
Recommendation:	Management should strengthen its understanding of unearned and unavailable revenue and year-end close procedures over intergovernmental revenues in order to properly recognize such revenues.
Status:	In progress.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-98

RESOLUTION ACCEPTING THE FISCAL YEAR 2015-2016 SINGLE AUDIT REPORTS FOR THE CITY OF MODESTO AND THE STANISLAUS DRUG ENFORCEMENT AGENCY (SDEA)

WHEREAS, pursuant to Section 1306 of the Charter of the City of Modesto, the City Council shall employ an independent certified public accountant who, at least annually, shall audit the books and records of the City of Modesto, and submit a final audit and report to the City Council as soon as practicable after the end of the fiscal year and

WHEREAS, the accounting firm of Macias, Gini & O'Connell, LLP has completed its single audit of the City's financial statements for the fiscal year ended June 30, 2016, and has provided its opinion on these financial statements based on that audit, and

WHEREAS, the independent auditors also audited financial statements of the Stanislaus Drug Enforcement Agency, as required by the Single Audit Act of 1984, the Single Audit Act Amendments of 1996, and the Office of Management and Budget's (OMB) Circular A-133, and for which the City of Modesto serves as the financial administrator,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the Fiscal Year 2015-2016 single audit reports for the City of Modesto and the Stanislaus Drug Enforcement Agency, **attached** as **Exhibit A**, and incorporated by reference herein.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of March, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold
NOES:	Councilmembers:	None
ABSENT:	Councilmembers:	None

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance With *Government Auditing Standards*

City Council of the City of Modesto
Modesto, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City of Modesto, California (City), as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements, and have issued our report thereon dated December 15, 2016.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered the City's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the City's internal control. Accordingly, we do not express an opinion on the effectiveness of the City's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or, significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

December 15, 2016

Independent Auditor's Report on Compliance for Each Major Federal Program; Report on Internal Control Over Compliance; and Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

City Council of the City of Modesto
Modesto, California

Report on Compliance for Each Major Federal Program

We have audited the City of Modesto, California's (City) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the City's major federal programs for the fiscal year ended June 30, 2016. The City's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the City's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and the Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the City's compliance.

Basis for Qualified Opinion on CFDA No. 14.218 Community Development Block Grants/Entitlement Grants

As described in the accompanying schedule of findings and questioned costs, the City did not comply with the requirements regarding CFDA No. 14.218 Community Development Block Grants/Entitlement Grants as described in finding number 2016-001 for Reporting. Compliance with such requirements is necessary, in our opinion, for the City to comply with the requirements applicable to that program.

Qualified Opinion on CFDA 14.218 Community Development Block Grants/Entitlement Grants

In our opinion, except for the noncompliance described in the Basis for Qualified Opinion paragraph, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on CFDA No. 14.218 Community Development Block Grants/Entitlement Grants for the fiscal year ended June 30, 2016.

Unmodified Opinion on Each of the Other Major Federal Programs

In our opinion, the City complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its other major federal programs identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs for the year ended June 30, 2016.

Other Matters

The City's responses to the noncompliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The City's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

Report on Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the City's internal control over compliance with the types of compliance requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. However, as discussed below, we identified a deficiency in internal control over compliance that we consider to be a material weakness.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiency in internal control over compliance described in the accompanying schedule of findings and questioned costs as finding 2016-001 to be a material weakness.

The City's response to the internal control over compliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. The City's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of and for the fiscal year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements. We issued our report thereon dated December 15, 2016, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements that collectively comprise the City's basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

CITY OF MODESTO, CALIFORNIA
Notes to Schedule of Expenditures of Federal Awards
For the Fiscal Year Ended June 30, 2016

NOTE 1 – GENERAL

The accompanying Schedule of Expenditures of Federal Awards (Schedule) presents the activity of all federal award programs of the City of Modesto, California (City). The City reporting entity is defined in Note I.A. to the City's basic financial statements. All federal awards received directly from federal agencies, as well as federal awards passed through other government agencies, are included in the Schedule.

NOTE 2 – BASIS OF ACCOUNTING

Expenditures of federal awards reported in the Schedule are recognized when incurred, which is consistent with the modified accrual basis of accounting used by the City's governmental funds and the accrual basis of accounting used by the City's proprietary funds, which are described in Note I.C. to the City's basic financial statements.

NOTE 3 – RELATIONSHIP TO FEDERAL FINANCIAL REPORTS

Amounts reported in the schedule agree to or can be reconciled with the amounts reported in the related financial reports.

NOTE 4 – INDIRECT COSTS

The City did not elect to use the 10% de minimis cost rate as covered in 2 CFR section 200.414 Indirect (F&A) costs.

CITY OF MODESTO, CALIFORNIA
Schedule of Findings and Questioned Costs
For the Fiscal Year Ended June 30, 2016

Section I – Summary of Auditor's Results

Financial Statements:

Type of auditor's report issued:	Unmodified
Internal control over financial reporting:	
• Material weakness(es) identified?	No
• Significant deficiency(ies) identified?	None reported
Noncompliance material to financial statements noted?	No

Federal Awards:

Internal control over major federal programs:	
• Material weakness(es) identified?	Yes
• Significant deficiency(ies) identified?	None reported
Type of auditor's report issued on compliance for major federal programs:	Unmodified for all major federal programs except for CFDA No. 14.218 Community Development Block Grants/Entitlement Grants, which was qualified.
Any audit findings required to be reported in accordance with 2 CFR 200.516(a)?	Yes

Identification of major federal programs:

CFDA Number	Name of Major Federal Program or Cluster
14.218	Community Development Block Grants/Entitlement Grants
20.500, 20.507	Federal Transit Cluster

Dollar threshold used to distinguish between type A and type B programs:	$750,000
Auditee qualified as low-risk auditee	No

Section II – Financial Statement Findings

None noted.

CITY OF MODESTO, CALIFORNIA
Schedule of Findings and Questioned Costs
For the Fiscal Year Ended June 30, 2016

Section III – Federal Award Findings and Questioned Costs

Reference Number:	2016-001
Type of Finding:	Material Weakness and Material Instance of Noncompliance
Category of Finding:	Reporting
Federal Program Title:	Community Development Blocks Grant/Entitlement Grants
Federal Catalog Number:	14.218
Federal Agency:	U.S. Department of Housing and Urban Development
Federal Award Numbers and Years:	B-15-MC-06-0002 / B-14-MC-06-0002 / B-13-MC-06-0002 / B-10-MC-06-0002 / B-11-MN-06-0004

Criteria:
24 CFR sections 135.3(a)(1) and 135.90
Each recipient that administers covered public and Indian housing assistance, regardless of the amount expended, and each recipient that administers covered housing and community development assistance in excess of $200,000 in a program year, must submit HUD 60002 information using the automated Section 3 Performance Evaluation and Registry (SPEARS) System .

Condition:
The City did not submit the required HUD 60002 information for fiscal years 2014, 2015 and 2016.

Cause:
Due to management changes, reorganization and staff shortage, the City fell behind on filing the HUD 60002. The City had turnover within the Community Development Department during the prior fiscal year and did not appropriately transfer all of the position responsibilities to the remaining personnel. In addition, HUD required the report to be filed in a new web-based system.

Effect:
Key line items containing critical information of Form HUD 60002 are not submitted to HUD on a timely basis.

Questioned Costs:
There are no questioned costs.

Recommendation:
We recommend that the City develop procedures to transition key duties to personnel in place to ensure that it meets all mandated reporting deadlines. In addition, the City should evaluate its internal control procedures on grant reporting requirements to ensure that procedures are properly documented and updated so that reporting requirements are completed during staff absence or turnover.

Management Response and Corrective Action:
The Community Development Division of the City is now staffed with personnel that are updating procedures to transition key duties to personnel in place to ensure that it meets all mandated reporting deadlines. These policies and procedures will be completed no later than June 2017 in advance of the December 15, 2017 (next HUD 60002 electronic submission deadline). In the interim, the division Environmental Review Specialist is currently entering all Section 3 data for FY 2014, 2015, and 2016 using the automated Section 3 Performance Evaluation and Registry (SPEARS) System to be completed within the next 90 days. In addition, the newly hired Housing & Urban Development Supervisor is reviewing the internal control procedures on grant reporting requirements to ensure that procedures are properly documented and updated at least once per fiscal year, so that reporting requirements are completed during staff absence and/or turnover.

CITY OF MODESTO, CALIFORNIA
Status of Prior Year Findings and Questioned Costs
For the Fiscal Year Ended June 30, 2016

Reference Number:	**2015-001**
Type of Finding:	**Material Weakness – Pollution Remediation Obligations**
Condition:	The City had not previously presented a liability in its financial statements for the net recoveries it had collected over the years to pay for the remediation and legal costs incurred in pursuit of mitigating damages from the manufacturers of perchloroethylene, or PCE. In prior years, it was the City's practice to present any payments made from the collection of net recoveries as a special item in its financial statements.
Cause:	The City was not fully aware of the requirements of GASB Statement No. 49.
Effect:	This condition resulted in an audit adjustment to record the pollution remediation liability and decrease the beginning net position of the Water Fund by $9,988,781, the Sewer Fund by $10,914,776, and the business-type activities by $20,903,557.
Recommendation:	The City should account for subsequent payments made from the net recoveries it has collected as a reduction of the newly-created pollution remediation liability in accordance with GASB Statement No. 49.
Current Year Status:	Corrected.

CITY OF MODESTO, CALIFORNIA
Status of Prior Year Findings and Questioned Costs
For the Fiscal Year Ended June 30, 2016

Reference Number:	**2015-002**
Type of Finding:	**Material Weakness – Deferred Loans**
Condition:	The City presented unavailable revenue related to its deferred loans as unearned revenue (a liability) in the Housing and Community Development Fund and governmental activities financial statements.
Cause:	The City was not fully aware of the requirements of GASB Statement No. 65.
Effect:	This condition resulted in an audit adjustment to reclassify the unavailable revenue related to deferred loans from unearned revenue to unavailable revenue (a component of deferred inflows of resources) in the City's Housing and Community Development Fund. Accordingly, this reclassification did not have an impact on the Housing and Community Development Fund's beginning fund balance. However, in the government-wide financial statements, this adjustment increased the beginning net position of the governmental activities by $28,677,805 to recognize the revenue associated with prior years.
Recommendation:	The City should analyze the long-term assets of its governmental funds and for any related revenues that do not meet the City's availability criteria, such amounts should be presented as unavailable revenue as a component of deferred inflows of resources in the governmental funds financial statements. The unavailable revenue should be recognized as revenue in the government-wide financial statements in accordance with GASB Statement No. 65.
Current Year Status:	Corrected.

CITY OF MODESTO, CALIFORNIA
Status of Prior Year Findings and Questioned Costs
For the Fiscal Year Ended June 30, 2016

Reference Number:	**2015-003**
Type of Finding:	**Material Weakness – Gas Taxes**
Condition:	The City was presenting gas tax revenue as unearned revenue in its Special Gas Tax Street Improvement Fund (other governmental fund) and governmental activities financial statements.
Cause:	The City was not fully aware of the requirements of GASB Statement No. 33.
Effect:	This condition resulted in an audit adjustment to eliminate the unearned revenue and increase the beginning fund balance of the Special Gas Tax Street Improvement Fund and the beginning net position of the governmental activities by $12,575,507.
Recommendation:	The City should account for the receipt of gas taxes and other similar government-mandated nonexchange transactions as revenue when received in accordance with GASB Statement No. 33.
Current Year Status:	Corrected.
Reference Number:	**2015-004**
Type of Finding:	**Material Weakness – Reimbursement Agreement**
Condition:	The City had not previously presented a receivable or a payable for a reimbursement agreement between the City and Successor Agency (Private-Purpose Trust Fund) associated with the obligations for the repayment of the 2008 Lease Revenue Bonds. In prior years, payments made on the reimbursement agreement were accounted for in operations.
Cause:	The City was not fully aware of generally accepted accounting principles.
Effect:	This condition resulted in an audit adjustment to record the receivable in the governmental activities and the payable in the Successor Agency and increase and decrease, respectively, net position by $17,247,750.
Recommendation:	The City should account for subsequent payments made from the Successor Agency to the City as a reduction of the newly-created receivable and payable in accordance with generally accepted accounting principles.
Current Year Status:	Corrected.

CITY OF MODESTO, CALIFORNIA
Status of Prior Year Findings and Questioned Costs
For the Fiscal Year Ended June 30, 2016

Reference Number:	**2015-005**
Type of Finding:	**Material Weakness – Debt Refunding**
Condition:	During fiscal year 2014, an interest payment on debt being refunded was included in the refunding transaction as the refunding occurred prior to the date the interest was due, and the City incorrectly accounted for that amount titled "bond refunding contribution" as a deferred inflow of resources. In addition, the City accounted for the underwriters' discount as a bond discount.
Cause:	The City was not fully aware of the requirements of GASB Statement No. 65.
Effect:	This condition resulted in an audit adjustment to eliminate the "bond refunding contribution" and bond discount and increase the beginning net position of the Water Fund and business-type activities by $4,783,179.
Recommendation:	The City should account for debt refunding transactions in accordance with GASB Statement No. 65. Specifically, the difference between the reacquisition price and the net carrying amount of the old debt should be reported as a deferred outflow of resources or a deferred inflow of resources and recognized as a component of interest expense in a systematic and rational manner over the remaining life of the old debt or the life of the new debt, whichever is shorter.
Current Year Status:	Corrected.
Reference Number:	**2015-006**
Type of Finding:	**Material Weakness – Governmental Fund Long-Term Liability**
Condition:	The City reported the unfunded portion of loans approved by the City to fund third parties in its Successor Redevelopment Housing Agency Fund (other governmental fund) that were not due and payable at fiscal year-end.
Cause:	The City was not fully aware of the requirements of GASB Interpretation No. 6.
Effect:	This condition resulted in an audit adjustment to eliminate the unfunded portion of the approved loans payable and increase the beginning fund balance of the Successor Redevelopment Housing Agency Fund by $575,000.
Recommendation:	The City should only report governmental fund liabilities that are normally due and payable in full when incurred in accordance with generally accepted accounting principles.
Current Year Status:	Corrected.

CITY OF MODESTO, CALIFORNIA
Status of Prior Year Findings and Questioned Costs
For the Fiscal Year Ended June 30, 2016

Reference Number: **2015-007**

Type of Finding: **Material Weakness – Other Prior Period Adjustments**

Condition: During fiscal year 2015, the City identified a number of errors in its June 30, 2014 compensated absences, accounts payable, receivables, and property held for resale balances.

Cause: The compensated absences error was due to a miscalculation; the accounts payable and receivables errors were due to improper cutoff; and the property held for resale errors were the result of the accounting department not being informed of the sale of those properties.

Effect: These conditions resulted in the City adjusting the beginning net position/fund balances of its opinion units/funds as follows:

Opinion Units	Compensated Absences	Accounts Payable	Receivables	Property Held for Resale
Governmental activities	$ 2,330,638	$ (915,984)	$ 34,045	$ (784,000)
Business-type activities	-	-	26,037	(630,000)
General Fund	-	(111,616)	-	-
Housing and Community Development Fund	-	(805,437)	-	-
Capital Grants Fund	-	1,069	-	-
Other governmental funds	-	-	34,045	(784,000)
Bus Fund	-	-	26,037	-
Other enterprise funds	-	-	-	(630,000)
Internal service funds	2,330,638	-	-	-

Recommendation: The City should implement procedures to ensure that all transactions are recorded in the proper period at fiscal year-end. Such procedures should include timely communication between project managers and the accounting department related to the sale of property held for resale. Financial information should be reviewed at year-end for completeness and reasonableness of account balances. Immaterial errors detected in a current period that relate to a prior period may be reported as current year activity.

Current Year Status: Corrected.

CITY OF MODESTO, CALIFORNIA
Status of Prior Year Findings and Questioned Costs
For the Fiscal Year Ended June 30, 2016

Reference Number:	**2015-008**
Type of Finding:	**Significant Deficiency – Cash Flows Statements**
Condition:	The City was not properly reporting many of the cash receipts and payments, as well as noncash transactions, made during the year in its cash flows statements. The City was reporting items such as gains and losses and prior period adjustments at the same amounts reported in its operating statements, which are prepared on the accrual basis of accounting.
Effect:	This condition resulted in a significant number of revisions to the City's cash flows statements in order to present them in accordance with GASB requirements.
Recommendation:	While using a tool, such as an Excel workbook, is very beneficial to preparing cash flow statements, the City should provide additional training to staff on the preparation of cash flows statements, including how to convert accrual based balances to cash receipts and disbursements, in order to present cash flows statements in accordance with generally accepted accounting principles.
Current Year Status:	Corrected.

CITY OF MODESTO, CALIFORNIA
Status of Prior Year Findings and Questioned Costs
For the Fiscal Year Ended June 30, 2016

Reference Number:	**2015-009**
Type of Finding:	**Material Weakness and Material Instance of Noncompliance - Reporting**
Program Identification:	**Home Investment Partnerships Program (14.239)**
Condition:	The City did not submit the required HUD 60002 information.
Cause:	Due to management changes, reorganization and staff shortage, the City fell behind on filing the HUD 60002. In addition, HUD required the report to be filed in a new web-based system.
Effect:	Key line items containing critical information of Form HUD 60002 are not submitted to HUD on a timely basis.
Recommendation:	We recommend that the City develop controls and procedures to ensure that required reports are submitted when due.
Current Year Status:	In progress. Performance Evaluation and Registry (SPEARS) System Section 3 data input will be completed within the next 90 days (March 24, 2017)

Reference Number:	**2015-010**
Type of Finding:	**Material Weakness and Material Instance of Noncompliance – Special Test and Provisions**
Program Identification:	**Home Investment Partnerships Program (14.239)**
Condition:	The City did not perform housing quality inspections for the fiscal year ended June 30, 2015.
Cause:	Due to management changes and reorganization, staff did not perform inspections.
Effect:	Property standards might not be met and/or needed repairs might not be completed timely.
Recommendation:	We recommend that the City develop controls and procedures to identify those units on which housing quality inspections are due and to ensure that the required inspections of units are performed as outlined above.
Current Year Status:	In progress. The controls and procedures will be completed no later than June 2017 in advance of the next HUD 60002 electronic submission deadline.

Independent Auditor's Report on Internal Control Over Financial Reporting and on Compliance and Other Matters Based on an Audit of Financial Statements Performed in Accordance with *Government Auditing Standards*

Members of the Governing Committee
Stanislaus Drug Enforcement Agency
Modesto, California

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities and general fund of the Stanislaus Drug Enforcement Agency (the Agency) as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements, and have issued our report thereon dated November 16, 2016.

Internal Control over Financial Reporting

In planning and performing our audit of the financial statements, we considered the Agency's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Agency's internal control. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Agency's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Macias Gini & O'Connell LLP

Walnut Creek, California
November 16, 2016

Independent Auditor's Report on Compliance for Each Major Program; Report on Internal Control Over Compliance; and Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

Members of the Governing Committee
Stanislaus Drug Enforcement Agency
Modesto, California

Report on Compliance for Each Major Federal Program

We have audited the Stanislaus Drug Enforcement Agency's (the Agency) compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of the Agency's major federal programs for the year ended June 30, 2016. The Agency's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and terms and conditions of its federal awards applicable to its federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Agency's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards,* issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Agency's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of the Agency's compliance.

Opinion on Each Major Federal Program

In our opinion, the Agency complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended June 30, 2016.

Report on Internal Control Over Compliance

Management of the Agency is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Agency's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to

determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Agency's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by the Uniform Guidance

We have audited the financial statements of the governmental activities and the general fund of the Agency as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the Agency's basic financial statements. We have issued our report thereon dated November 16, 2016, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by the Uniform Guidance and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

See accompanying notes to schedule of expenditures of federal awards.

STANISLAUS DRUG ENFORCEMENT AGENCY
NOTES TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
FOR THE YEAR ENDED JUNE 30, 2016

NOTE A – **GENERAL**

The accompanying Schedule of Expenditures of Federal Awards (Schedule) presents the activity of all federal financial assistance programs of the Stanislaus Drug Enforcement Agency (Agency). The Agency reporting entity is defined in Note I.A to the Agency's basic financial statements. All federal financial assistance received directly from federal agencies, as well as federal financial assistance passed through other government agencies, is included in the Schedule.

NOTE B – **BASIS OF ACCOUNTING**

Expenditures of federal awards reported in the Schedule are recognized when incurred, which is consistent with the modified accrual basis of accounting used by the Agency's governmental funds, which is described in Note I.C to the Agency's basic financial statements.

NOTE C – **INDIRECT COSTS**

The Agency did not elect to use the 10% de minimis cost rate as covered in 2 CFR section 200.414 Indirect (F&A) costs.

NOTE D – **RELATIONSHIP TO FEDERAL FINANCIAL REPORTS**

Amounts reported in the Schedule agree to or can be reconciled with the amounts reported in the related financial reports.

STANISLAUS DRUG ENFORCEMENT AGENCY
STATUS OF PRIOR YEAR FINDING AND QUESTIONED COSTS
FOR THE YEAR ENDED JUNE 30, 2016

2015 Comment:	***2015-001 – Restatement of Beginning Fund Balance and Net Position***
Condition/Effect:	The Agency has been accumulating member contributions that in previous years were based on estimated expenditures/expenses that were never adjusted for actual expenditures/expenses or for expenditures/expenses that were eventually reimbursed by grants. This condition resulted in the Agency materially restating its beginning fund balance and net position by decreasing both $266,495.
Recommendation:	The Agency should record transactions accurately enough not to require restatement in the following year.
Status:	Corrected.

RESOLUTION ACCEPTING THE FISCAL YEAR 2015-2016 AUDITOR'S REPORT ON COMPLIANCE WITH REQUIREMENTS FOR THE PASSENGER FACILITY CHARGE PROGRAM

WHEREAS, pursuant to Section 1306 of the Charter of the City of Modesto, the City Council shall employ an independent certified public accountant who, at least annually, shall audit the books and records of the City of Modesto, and submit a final audit and report to the City Council as soon as practicable after the end of the fiscal year and

WHEREAS, the accounting firm of Macias, Gini & O'Connell, LLP has completed its auditor's report in compliance with the applicable compliance requirements of the Passenger Facility Charge Audit Guide For Public Agencies, issued by the Federal Aviation Administration (Guide), and

WHEREAS, the independent audit is applicable to the City's Passenger Facility Charge program at the Modesto City-County Airport for the year ending June 30, 2016,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the Fiscal Year 2015-2016 Passenger Facility Charge audit program for the City of Modesto, **attached** as **Exhibit A**, which is incorporated by reference herein.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of March, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

Independent Auditor's Report on Compliance With Applicable Requirements of the Passenger Facility Charge Program; Report on Internal Control Over Compliance; and Report on Schedule of Passenger Facility Charge Revenues and Expenditures Required by the *Passenger Facility Charge Audit Guide for Public Agencies*

To the Honorable City Council of the
City of Modesto, California

Compliance

We have audited the City of Modesto, California's (City) compliance with the applicable compliance requirements described in the *Passenger Facility Charge Audit Guide for Public Agencies*, issued by the Federal Aviation Administration (Guide) applicable to the City's passenger facility charge program at the Modesto City-County Airport for the year ended June 30, 2016.

Management's Responsibility

Compliance with the requirements referred to above is the responsibility of the City's management.

Auditor's Responsibility

Our responsibility is to express an opinion on the City's compliance based on our audit.

We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States; and the Guide. Those standards and the Guide require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the compliance requirements referred to above that could have a material effect on the passenger facility charge program occurred. An audit includes examining, on a test basis, evidence about the City's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion. Our audit does not provide a legal determination of the City's compliance with those requirements.

Opinion

In our opinion, the City complied, in all material respects, with the compliance requirements referred to above that are applicable to its passenger facility charge program for the year ended June 30, 2016.

Internal Control Over Compliance

Management of the City is responsible for establishing and maintaining effective internal control over compliance with the compliance requirements referred to above. In planning and performing our audit, we considered the City's internal control over compliance to determine the auditing procedures for the purpose of expressing our opinion on compliance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the City's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a compliance requirement will not be prevented, or detected and corrected, on a timely basis.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be deficiencies, significant deficiencies, or material weaknesses in internal control over compliance. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses, as defined above.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Guide. Accordingly, this report is not suitable for any other purpose.

Report on Schedule of Passenger Facility Charge Revenues and Expenditures Required by the *Passenger Facility Charge Audit Guide for Public Agencies*

We have audited the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the City as of and for the year ended June 30, 2016, and the related notes to the financial statements, which collectively comprise the City's basic financial statements. We issued our report thereon dated December 22, 2016, which contained unmodified opinions on those financial statements. Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the basic financial statements. The accompanying schedule of passenger facility charge revenues and expenditures is presented for purposes of additional analysis as required by the Guide and is not a required part of the basic financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of passenger facility charge revenues and expenditures is fairly stated in all material respects in relation to the basic financial statements as a whole.

Macias Gini & O'Connell LLP

See accompanying notes to the schedule of passenger facility charge revenues and expenditures.

MODESTO CITY-COUNTY AIRPORT
NOTES TO THE SCHEDULE OF PASSENGER FACILITY CHARGE REVENUES AND EXPENDITURES
FOR THE YEAR ENDED JUNE 30, 2016

A. Basis of Presentation

The accompanying schedule of passenger facility charge revenues and expenditures (the Schedule) includes the passenger facility charge activity at the Modesto City-County Airport by the City of Modesto, California (City). Interest income is earned on deposit balances of passenger facility charge receipts. Passenger facility charge collection revenue and expenditures are presented on the cash basis of accounting, and the interest income is presented on the accrual basis of accounting. The information in this schedule is presented for purposes of additional analysis, as specified in the *Passenger Facility Charge Audit Guide for Public Agencies*, issued by the Federal Aviation Administration (FAA). Therefore, some amounts presented in this schedule may differ from amounts presented in, or used in preparation of, the basic financial statements.

Passenger facility charge expenditures may consist of direct project costs, administrative costs, debt service costs and bond financing costs, if requested in the application. Eligible expenditures not requested or approved in the application are not applied against passenger facility charge collections. The Schedule includes the eligible expenditures that have been applied against passenger facility charge collections through June 30, 2016, however, the City did not collect any passenger facility charges during the year because of the commercial airlines discontinued operations in June 2014.

B. Passenger Facility Charge Matching Funds

Passenger facility charge revenue is used to match funding for various grants. Funding provided under government grants is considered earned as the related allowable expenditures are incurred.

C. Relationship to Federal Financial Reports

Amounts reported in the Schedule agree to or can be reconciled with the amounts reported to the FAA on the Passenger Facility Charge Quarterly Status Reports.

RESOLUTION AMENDING THE FISCAL YEAR 2016-2017 ANNUAL OPERATING AND CAPITAL IMPROVEMENT BUDGET

WHEREAS, a financial analysis has been completed and it has been determined that a budget adjustment is required to the Annual and Capital Improvement Budgets of the City of Modesto for Fiscal Year 2016-17,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the Fiscal Year 2016-17 Annual Operating and Capital Improvement budgets as shown in **Exhibit A**, which is **attached** hereto and incorporated by reference herein.

BE IT FURTHER RESOLVED that the Deputy City Manager, or his designee, is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of March, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

EXHIBIT A

FISCAL YEAR 2016-17

COMMUNITY AND ECONOMIC DEVELOPMENT

A budget adjustment is necessary to amend the FY16/17 Operating Budget and the Multi-Year budget to authorize $250,000 in Community Development Block Grant (CDBG) Entitlement Funds be transferred to a new Community Development Financial Institution (CDFI) Small Business Loan Project. Background: City Council approved an agreement with CDFI to establish a 5 year "revolving loan" small business loan program (Reso 2014-412). CDBG Entitlement funds should have funded MY Project 100829 for this purpose as noted in the PY2014 Annual Action Plan, not revolving loan funds (as reflected most recently in the FY17 multi-year adopted budget & previously in Reso 2014-413). Additionally, it has been decided that a new project will be created specifically to track CDFI small business loans. This action reverses the previous transfer budgeted from fund 1150 to the old project 100829, and replaces it with a transfer from fund 1130 to the new project 100992 - CDFI Small Business Loans. It also reduces the expense budget in the old 100829 project, and authorizes it in the new project 100992. Any expenses related to CDFI already incurred in 100829 will be journaled to the new project. The City will be reimbursed with CDBG Entitlement Funds from PY 2014 as funds are expended/drawn.

PUBLIC WORKS

A budget adjustment is necessary in the amount of $82,420 to reestablish a transfer out of Fund 4892, Green Waste Fund, to Fund 1341, Grants-Operation Grants Reimbursement, for the Fiscal Year 2016-17 Cal Fire Grant matching component.

In Fiscal Year 2015-16 the Geer Road Landfill Project, #100971, expense budget was established in the Waste to Energy Fund. Revenues related to this project were deposited into the General Fund. A budget adjustment is necessary to establish a transfer in the amount of $206,632 from General Fund Emergency Reserves to the Waste to Energy Fund, 4895, due to Geer Road Landfill Litigation insurance reimbursements which were recognized in the General Fund.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-101

RESOLUTION APPROVING VARIOUS ONE-YEAR SOFTWARE MAINTENANCE SUPPORT AGREEMENTS FROM ORACLE TO BE PURCHASED THROUGH THE "SOLE SOURCE" EXEMPTION TO FORMAL BIDDING REQUIREMENTS FOR AN ESTIMATED ANNUAL COST NOT TO EXCEED $383,994

WHEREAS, The City has an ongoing need for maintenance/support agreements for software assets utilized by the City and managed by the Information Technology Department, and

WHEREAS, some maintenance agreements purchased are only available through the original software provider and their annual agreements must be authorized as "sole source" procurements, and

WHEREAS, these products were originally procured through formal processes and were authorized by Council,

Whereas, on February 28, 2017, Council approved Resolution No. 2017-86 implementing a spending freeze in order to maintain fiscal sustainability of the City. The City Manager's Office approved an exception to this freeze for this procurement based upon the reliance of the City on its core business systems including payroll, finance, purchasing, permits, and fleet management to continue the city's daily operations in every department.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves various one-year software maintenance support agreements, in a form approved by the City Attorney, to be purchased through the "sole source" exemption to formal bidding requirements for an estimated annual cost not to exceed $383,994.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of March, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

RESOLUTION AUTHORIZING THE AWARD OF CONTRACT FOR THE PURCHASE OF ENTERPRISE RESOURCE PLANNING SYSTEM UPGRADE SERVICES TO APPLICATION SOFTWARE TECHNOLOGY (AST), NAPERVILLE, IL, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO ISSUE A PURCHASE ORDER FOR AN ESTIMATED COST OF $524,700 WITH A CONTINGENCY AMOUNT OF TEN PERCENT (10%) $52,470, FOR A TOTAL ESTIMATED PROJECT COST OF $577,170

WHEREAS, in 2003, the City of Modesto began a business analysis and subsequently contracted with Gartner Consulting to review and assess the City's key business process and automated systems, and

WHEREAS, this review resulted in the City Council adopting a Business Process Analysis and System Requirement Development "blueprint" plan in 2004, and

WHEREAS, the "blueprint" included a multi-year business transformation initiative and recommended replacement of existing financial and human resource systems with an ERP system, and

WHEREAS, on December 9, 2008, the City Council, by Resolution No. 2008-676, authorized the Purchasing Manager to issue a Request for Proposal (RFP) for an Enterprise Resource Planning (ERP) bid, and

WHEREAS, RFP 0809-13 for an ERP System Solution and Implementation Services was issued on December 9, 2008, and proposals were received on February 17, 2009, and

WHEREAS, based on being ranked highest in the overall evaluation criteria and Best and Final Offers (BAFO), the City entered into a contract with AST Corporation, Naperville, IL for an Oracle ERP System Solution and System Implementation, and

WHEREAS, the current ERP system needs to be upgraded; and

WHEREAS, on February 28, 2017, Council approved Resolution No. 2017-86 implementing a spending freeze in order to maintain fiscal sustainability of the City. The City Manager's Office approved an exception to this freeze for this procurement based upon the reliance of the City on its core business system and the necessity of updating the infrastructure it utilizes to ensure its continued operation. The servers hosting the current ERP system are seven years old and in need of replacement. Council just recently approved their replacement. Because of the new operating systems that these hardware platforms have, the ERP software must be upgraded. The current servers, which, because of age, are increasingly causing problems will be desupported after June 2017 and pose high risk of system outage and critical impact on financial, payroll, procurement and HR processes.

WHEREAS, Modesto Municipal Code Section 8-3.204(c), provides the Purchasing Manager with the authority to determine that a project is not subject to formal bidding procedures when exigent circumstances are present; and

WHEREAS, In this case, AST was the implementation partner and the vendor who provided the technical and functional expertise and guidance during the ERP implementation in 2010 and 2011, AST has established knowledge and experience with the current ERP infrastructure, system configuration and enhancements and preparation of a scope of work suitable for competitive bidding of the project would be very complex and costly, the Purchasing Manager has determined that the award of a contract for the ERP upgrade services to AST Corporation is not subject to formal bidding requirements pursuant to Section 8-3.204(c) and

WHEREAS, funds for the project are initially coming from the IT Fund with a transfer into the IT fund from the departments as part of the FY 2017-18 Budget Development:

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the award of a contract for the furnishing of Enterprise Resource Planning System Upgrade Services to AST Corporation of Naperville, Il, and

BE IT FURTHER RESOLVED that the City Manager, or designee, is hereby authorized to issue a purchase agreement for an estimated cost of $577,170.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of March, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING A MEMORANDUM OF UNDERSTANDING (MOU) BETWEEN THE LA LOMA NEIGHBORHOOD ASSOCIATION AND THE CITY OF MODESTO REGARDING THE INSTALLATION OF A WATER CONSERVATION / NATIVE PLANT GARDEN ON ENCINA AVENUE AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE MOU

WHEREAS, in June 2016, staff met with a member of the La Loma Neighborhood regarding the parcel north of Encina Avenue between Conejo Avenue and Phoenix Avenue, and

WHEREAS, the La Loma Neighborhood Association wants to beautify their neighborhood with the installation of a Water Conservation / Native Plant Garden, and

WHEREAS, a public meeting was held on October 13, 2016 and follow up meetings were held with neighbors to obtain agreement on the project scope, and

WHEREAS, City staff has prepared an Memorandum of Understanding (MOU) to allow the La Loma Neighborhood Association to lease the property for a period of five years and install and maintain the garden on City property during the term of the lease, and

WHEREAS, the MOU outlines the terms of the agreement for both parties, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Memorandum of Understanding between the La Loma Neighborhood Association and the City of Modesto regarding the installation of a Water Conservation / Native Plant Garden on Encina Avenue.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the MOU.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of March, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the Resolution adopted by the following vote:

RESOLUTION APPROVING A FISCAL SPONSOR AGREEMENT WITH SHANE'S INSPIRATION FOR THE PURPOSES OF FUNDRAISING RELATED TO THE DEVELOPMENT OF AN INCLUSIVE PLAYGROUND AT BEYER COMMUNITY PARK, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the play equipment at Beyer Community park was installed in 1986, and

WHEREAS, Beyer Community Park is one of the parks identified for playground improvements, and

WHEREAS, it is the desire of the City to install an inclusive playground designed for citizens of all abilities to play side by side at Beyer Community Park, and

WHEREAS, a group of citizens has organized into The Awesome Spot Playground team for the purposes of playground design, community engagement, and fundraising, and

WHEREAS, Shane's Inspiration holds a current 501(c)(3) Non-Profit Status, and

WHEREAS, The Awesome Spot Playground team is seeking to obtain 501(c)(3) Non-Profit Status, and

WHEREAS, The Awesome Spot Playground team desires to begin fund raising for the project, and

WHEREAS, Shane's Inspiration desires to partner with the City and The Awesome Spot Playground team to assist with fundraising efforts as a fiscal sponsor.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Fiscal Sponsor Agreement with Shane's Inspiration for the

purposes of fundraising related to the development of an inclusive playground and Beyer Community Park.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the Agreement and any other supporting documents.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of March, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION AUTHORIZING THE SUBMITTAL OF AN ALLOCATION REQUEST TO THE CALIFORNIA DEPARTMENT OF TRANSPORTATION (CALTRANS) FOR $255,849 IN FY 2016-17 LOCAL AND REGIONAL FUNDING UNDER THE LOW CARBON TRANSIT OPERATIONS PROGRAM (LCTOP) AND A MATCH OF $51,170 IN EXISTING LOCAL TRANSPORTATION FUNDS (LTF) FOR IMPROVEMENTS AND UPGRADES TO THE DOWNTOWN TRANSIT CENTER, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE ALL GRANT APPLICATIONS AND GRANT AGREEMENT DOCUMENTS

WHEREAS, Senate Bill 862 (2014), created the Low Carbon Transit Operations Program (LCTOP) and identified the California Department of Transportation (Caltrans) as the administrating agency for LCTOP, and

WHEREAS, in Fiscal Year 2016-17, LCTOP appropriated $255,849 to the Stanislaus Council of Governments (StanCOG) for regional distribution to local transit agencies, and

WHEREAS, at the March 15, 2017 StanCOG Policy Board meeting, the City of Modesto was allocated $238,250 of the regional funds, and

WHEREAS, in Fiscal Year 2016-17, LCTOP appropriated $2,430 to Stanislaus County, and

WHEREAS, Stanislaus County agreed to contribute their $2,430 in LCTOP funds to Modesto's regional project at the downtown Modesto Transit Center, and

WHEREAS, in Fiscal Year 2016-17, LCTOP appropriated $731 to the City of Turlock, and

WHEREAS, the City of Turlock agreed to contribute their $731 in LCTOP funds to a regional project at the downtown Modesto Transit Center, and

WHEREAS, in Fiscal Year 2016-17, LCTOP appropriated $14,438 to the City of Modesto, and

WHEREAS, the City of Modesto is eligible to apply for a total of $255,849 in LCTOP funds, and

WHEREAS, the statutes related to state-funded transit projects require Modesto to abide by various regulations, and

WHEREAS, Caltrans has developed guidelines for the purpose of administering and distributing LCTOP funds to local agencies, and

WHEREAS, the City of Modesto is an eligible project sponsor and may receive state funding from LCTOP, and

WHEREAS, the City of Modesto agrees to comply with all conditions and requirements set forth by LCTOP.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes submittal of an allocation request to the California Department of Transportation (Caltrans) for $255,849 in FY 2016-17 local and regional funding under the Low Carbon Transit Operations Program (LCTOP) and a match of $51,170 in existing Local Transportation Funds (LTF) for improvements and upgrades to the downtown Transit Center.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is authorized to execute all necessary grant applications and grant agreement documents.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of March, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING AN AGREEMENT WITH CONSOLIDATED CM, INC., OAKLAND, CA, FOR DESIGN-BUILD OWNER ADVISOR SERVICES FOR THE WATER CORPORATION YARD PROJECT, IN AN AMOUNT NOT TO EXCEED $760,447 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS $76,045 FOR ADDITIONAL SERVICES (IF NEEDED), FOR A MAXIMUM TOTAL AMOUNT OF $836,492, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, on November 4, 2015, by Resolution Numbers 2015-424 and 2015-426, Council approved the purchase of a 48.62 acre property located on Litt Road in northeast Modesto for the Water Corporation Yard Project, and

WHEREAS, the project site is approximately 3,000 feet north of Sylvan Avenue and 850 feet south of Plainview Road, just outside of City limits but within the City's sphere of influence., and

WHEREAS, to achieve an anticipated project completion by spring of 2019, the City will need to expedite the project delivery (design and construction), and

WHEREAS, staff recommends pursuing a Design-Build (D-B) approach, which expedites the design and construction process by compiling the design and construction services under a single entity, and

WHEREAS, this methodology should minimize risks and reduce the project delivery schedule, and

WHEREAS, considering the technical complexity and accelerated schedule of this project, in addition to current staff workload and lack of expertise, City staff is recommending the use of a consultant to provide Owner Advisor (OA) services to the City throughout the D-B process, and

WHEREAS, on February 28, 2017, Council approved Resolution No. 2017-86 implementing a spending freeze in order to maintain fiscal sustainability of the City, and

WHEREAS, as allowed by this resolution, the City Manager's Office approved an exception to this freeze for this procurement, and

WHEREASE, justification for this exception is based upon the project has been already budgeted in the current Fiscal Year 2016-2017 water fund and will not require budget transfer from reserves to provide the required services, and

WHEREAS, in accordance with Administrative Directive 3.1, Selection Procedures for Professional Consultants Who Provide Architectural and Engineering Services for Capital Projects, a Request for Proposal (RFP) was issued on November 23, 2016 via the Planet Bids website, and

WHEREAS, on January 5, 2017, staff received and distributed two (2) proposals to a selection committee consisting of Utilities Department and Community & Economic Development Department Staff, and

WHEREAS, the selection committee evaluated the responses and on January 26, 2017, met to interview the firms, discuss the evaluations and review the rankings, and

WHEREAS, the committee recommended Consolidated CM, Inc. (CCM) as the most qualified firm to provide D-B OA services to the City for the Project, and

WHEREAS, CCM's involvement of local sub-consultants accounts for 18% of the total contract amount, and

WHEREAS, the scope of services to be provided under this agreement includes: 1) Project management and administration; 2) Develop D-B procurement strategy, criteria, documentation and schedule; 3) Develop D-B qualification and proposal

documents and review criteria; 4) Predesign geotechnical evaluations and survey; 5) Prepare conceptual and selective preliminary design; 6) Assist staff to evaluate proposals and negotiate final D-B contract; and 6) Prepare construction documents and estimates for Litt Road, and

WHEREAS, the OA services for the Water Corporation Yard Project fall within the scope of services of CCM's proposal, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, this agreement is for professional services and, therefore, exempt from the bid requirement, and

WHEREAS, however, staff proceeded through a RFP process pursuant to Administrative Directive 3.1Staff recommends approval of the agreement with CCM for OA services for the Water Corporation Yard Project, and

WHEREAS, staff recommends approval of the agreement with CCM for OA services for the Water Corporation Yard Project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with Consolidated CM, Inc., Oakland, CA, for Design-Build Owner Advisor Services for the Water Corporation Yard Project, in an amount not to exceed $760,447 for the identified scope of services, plus $76,045 for additional services (if needed), for a maximum total amount of $836,492.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of March, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2017-107

Print

RESOLUTION APPROVING THE PROCUREMENT, INSTALLATION AND ANNUAL SUPPORT OF MAINTENANCE CONNECTION COMPUTER MAINTENANCE MANAGEMENT SYSTEM WITH MAINTENANCE CONNECTION IN DAVIS, CA, FOR THE UTILITES DEPARTMENT, WASTEWATER DIVISION, FOR AN INITIAL COST OF $42,996 AND WITH ANNUAL SUPPORT OVER FIVE YEARS FOR A TOTAL COST OF $65,453

WHEREAS, Resolution 2015-20, dated January 27, 2015, authorized the purchase of an Oracle eAM Enterprise Asset Management Program (eAM) from AST Corporation (AST) for Wastewater Operations Administration, and

WHEREAS, staff has been using eAM since its start up on October 1, 2015, and

WHEREAS, Wastewater staff, Information Technology (IT) staff and AST have been working together with the eAM Program, and

WHEREAS, while it performs well as an Asset Management Program, staff is unable to utilize the program as required by the City's Wastewater Treatment National Pollutant Discharge Elimination System (NPDES) Permit, and

WHEREAS, the City is required to track all maintenance activities and be able to provide asset specific history per our NPDES permit, and

WHEREAS, to have a program that will assist with tracking and asset history, staff has determined that the purchase of the Maintenance Connection program is necessary, and

WHEREAS, staff reviewed several programs currently in use by the City of Modesto as a supplement for eAM, and

WHEREAS, Maintenance Connection has over 300 standard reports that can be manipulated various ways to create the exact report as needed and also has an Inventory

Module and a mobile application that can be accessible anywhere on any mobile device, and

WHEREAS, Maintenance Connection is not housed on a City server; it is web based and housed on the Maintenance Connection server, which they maintain at all times, and

WHEREAS, Help Desk support is available 24 hours a day by way of phone, internet, or email along with many online "How To" questions and answers, and

WHEREAS, on February 28, 2017, Council approved Resolution No. 2017-86 implementing a spending freeze to maintain fiscal sustainability of the City.

WHEREAS, on March 6, 2017, the City Manager's Office approved an exception to this freeze for this procurement based upon the need for the Wastewater Division to have in place a Computer Maintenance Management System CMMS program that allows for the tracking of staff and equipment for reports to be submitted to the State of California as required by their NPDES Permit,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the procurement, installation and annual support of Maintenance Connection Computer Maintenance Management System with Maintenance Connection in Davis, CA for the Utilities Department, Wastewater Division, for an initial cost of $42,996 and with annual support over five years for a total cost of $65,453.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to issue the purchase agreements in forms approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of March, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING THE PLANS AND SPECIFICATIONS FOR THE RUMBLE SEWER TRUNK LINE REPLACEMENT PROJECT, ACCEPTING THE BID, AND APPROVING A CONSTRUCTION CONTRACT WITH ROLFE CONSTRUCTION, ATWATER, CA, IN THE AMOUNT OF $2,327,287, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE CONTRACT

WHEREAS, specifications have been prepared for the Rumble Sewer Trunk Line Replacement Project, and City staff recommends approval by the City Council, and

WHEREAS, the bids received for the Rumble Sewer Trunk Line Replacement Project were opened at 11:00 a.m. on March 7, 2017 for the consideration of the Council pursuant to Modesto Municipal Code section 8-3.403, and

WHEREAS, the Director of Utilities has recommended that the bid of $2,327,287 received from Rolfe Construction be accepted as the lowest responsible and responsive bid and the contract be awarded to Rolfe Construction.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the specifications for Rumble Sewer Trunk Line Replacement Project, accepts the bid of $2,327,287 and awards Rolfe Construction of Atwater, CA, the contract for the Rumble Sewer Trunk Line Replacement Project.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of March, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION AUTHORIZING AN INCREASE IN THE DIRECTOR'S AUTHORITY TO ISSUE CHANGE ORDERS FOR THE RUMBLE SEWER TRUNK LINE REPLACEMENT PROJECT FROM 8% ($186,183) TO 10% ($232,729) OF THE CONSTRUCTION CONTRACT PRICE OF $2,327,287 WITH ROLFE CONSTRUCTION, ATWATER, CA

WHEREAS, on March 28, 2017, the City Council is concurrently awarding a $2,327,287 contract to Rolfe Construction, of Atwater, CA for the construction of the Rumble Sewer Trunk Line Replacement Project, and

WHEREAS, the existing sewer trunk line will be replaced with 24-inch diameter pipe to address hydraulic deficiencies and will be realigned in certain sections to address access limitations, and

WHEREAS, sections of the Rumble Sewer Trunk Line Replacement Project will involve construction in narrow alley ways,

WHEREAS, the excavation and pipe construction is difficult due to the multiple utilities within the alley and the limited work space, and

WHEREAS, the additional costs could exceed the Director's authority for the project as established by the Council's Change Order Approval Policy adopted by Resolution No. 94-443, and

WHEREAS, the Director of Utilities currently has authority to approve change orders up to a cumulative amount of $186,183,

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the Director of Utilities to issue change orders for the Rumble Sewer Trunk Line Replacement Project from 8 percent ($186,183) to 10 percent

($232,729) of the construction contract price of $2,327,287 with Rolfe Construction, Atwater, CA.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-110

RESOLUTION AMENDING THE FISCAL YEAR 2016-17 CAPITAL IMPROVEMENT PROGRAM BUDGET IN THE AMOUNT OF $320,200 TO BE TRANSFERRED INTO THE PROJECT FROM WASTEWATER FUND RESERVES IN ORDER TO FULLY FUND THE CONSTRUCTION, CONTINGENCY, CONSTRUCTION ADMINISTRATION, CITY CONSTRUCTION FORCES, AND DESIGN SUPPORT DURING CONSTRUCTION FOR THE RUMBLE SEWER TRUNK LINE REPLACEMENT PROJECT

WHEREAS, certain budgetary transactions are necessary in the amount of **$320,200**, in order to fund construction, contingency, construction administration, City construction forces, design support during construction plus City staff support for the Rumble Sewer Trunk Line Replacement Project, and

WHEREAS, the Fiscal Year 2016-2017 Capital Improvement Program Budget must be amended as shown in **Exhibit A**, which is incorporated by reference herein.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the amendment of the Fiscal Year 2016-2017 Capital Improvement Program Budget as shown in **Exhibit A, attached** hereto.

BE IT FURTHER RESOLVED that the Deputy City Manager, or his designee, is hereby authorized to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of March, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

Exhibit A

Due to construction costs being higher than initially budgeted for the project, line item increases/decreases are necessary for CIP Account #100678 "Rumble Sewer Trunk Line Replacement", and the total project costs need to be increased by $320,200. This would be done by adjusting Construction Admin by <$12,537>, City Construction Forces by $60,000, Construction by $277,282, Contingency-CIP by $27,729, and Eng/Design/Admin by <$32,274.

To fund the above account, $320,200 will be transferred from Wastewater Fund Reserves into CIP Project 100678 for the Rumble Sewer Trunk Line Replacement Project.

RESOLUTION APPROVING A PURCHASE AND SALE AGREEMENT WITH MIGUEL PEDROZA AND YANET Y. LOPEZ SOLORIO, FOR ACQUISITION OF 0.31 ACRES FOR A SEWER LIFT STATION, LOCATED AT 3500 LYDIA LANE, IN MODESTO, (APN: 083-005-021), IN THE AMOUNT OF $303,300, FOR THE SONOMA TRUNK LIFT STATION PROJECT, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT AND ALL RELATED DOCUMENTS REQUIRED TO CLOSE ESCROW

WHEREAS, the City of Modesto has been in search of a site to locate a parcel of land for use by Utilities' to place the Sonoma Trunk Lift Station within a defined area and as determined by engineering specifications and,

WHEREAS, staff has identified a 0.31-acre parcel, located at 3500 Lydia Lane, in Modesto, and

WHEREAS, the Wastewater Collection System Master Plan (WWCSMP) identifies the Sonoma Trunk Extension and Sonoma Lift Station as a system that is necessary to serve the immediate area as well as future development of the Roselle/Claribel Comprehensive Planning District (CPD) located in the northeast area of the City, and

WHEREAS, the Sonoma Trunk is currently stubbed off at the intersection of Wood Sorrel Drive and Sylvan Avenue, which is relatively shallow, and

WHEREAS, it is necessary to install a lift station to force the main to pump wastewater from new development into the existing system, and

WHEREAS, property acquisition is needed for the lift station site, and

WHEREAS, initially, Utilities sought an area for an easement to install a lift station, however, property owners in the area were not willing to grant an easement due to concerns it would impact their commercial property, and

WHEREAS, Utilities plans to construct the lift station on the property, adjacent to the residence, without major impacts to the existing structures, once complete, the City intends to resell the property and,

WHEREAS, an Agreement is needed for the acquisition of the property,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Purchase Agreement with Purchase and Sale Agreement with Miguel Pedroza and Yanet Y. Lopez Solorio, for acquisition of 0.31 acres for a Sewer Lift Station, located at 3500 Lydia Lane, in Modesto, (APN: 083-005-021), in the amount of $303,300, for the Sonoma Trunk Lift Station Project.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the Agreement, in a form approved by the City Attorney, and all related documents required to close escrow.

RESOLUTION APPROVING AN EXEMPTION TO THE HIRING FREEZE FOR ONE SENIOR FINANCIAL ANALYST, ONE SENIOR UTILITIES SERVICES WORKER, ONE ADMINISTRATIVE OFFICE ASSISTANT II, AND THREE WATER SERVICE AND MAINTENANCE AIDES

WHEREAS, Council Resolution No. 2017-86, adopted February 28, 2017, imposed a citywide hiring freeze to ensure City hiring practices are consistent with long term fiscal sustainability and comply with current and future anticipated budget constraints, and

WHEREAS, adoption of Resolution No. 2017-86 prevented employment offers for positions although candidates had previously been selected to fill the vacant positions, and

WHEREAS, five of these positions are in the Utilities Water Fund and one is in the Budget Division, and

WHEREAS, the position in the Budget Division is primarily funded by Utilities through the Water and Wastewater Funds by direct charge reimbursements to the General Fund, and

WHEREAS, the Utilities Department functions are regulatory compliance driven and adequate financial resources are available to fill the existing vacant positions.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Hiring Freeze Exceptions for one Senior Financial Analyst, one Senior Utilities Worker, one Administrative Office Assistant II, and three Water Service and Maintenance Aides are hereby approved.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of March, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING AN EXEMPTION TO THE HIRING FREEZE FOR THREE FIRE CAPTIANS AND FIVE FIRE ENGINEER POSITIONS

WHEREAS, Council Resolution No. 2017-86, adopted February 28, 2017, imposed a citywide hiring freeze to ensure City hiring practices are consistent with long term fiscal sustainability and comply with current and future anticipated budget constraints, and

WHEREAS, adoption of Resolution No. 2017-86 prevented employment offers for positions although candidates had previously been selected to fill the vacant positions, and

WHEREAS, on September 27, 2016, Council adopted Resolution No. 2016-389 accepting the 2015 SAFER for the purposes of re-opening Engine 11. As a result of this action, nine (9) positions were created; 3 Firefighter positions, 3 Engineer positions and 3 Captains positions, and

WHEREAS, currently the Engineer and Captains positions are under-filled with Firefighters as they go through academy training, which will be completed in April of 2017, and

WHEREAS, in addition to the SAFER grant, the Fire Department has seen a recent spike in retirements and employees leaving for other departments, this has resulted in additional Engineer and Captain vacancies. Currently, the Fire Department has a total of three (3) Captains positions and five (5) Engineer positions that are all currently under-filled, and

WHEREAS, these positions are fully funded in the current fiscal year and no cost savings will result in keeping these positions under-filled, and

WHEREAS, the projected fiscal impact of not approving the requested promotions will result in an estimated $60,000 per month increase in overtime, and

WHEREAS, staff has identified essential positions in **Attachment A** and seeks Council approval to fill these positons in FY2016/17. This action will not result in any need for new hires.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the essential positions listed in **Attachment A** are hereby approved.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of March, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Ah You, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING AN EXEMPTION TO THE HIRING FREEZE FOR NON-BENEFITED PART TIME POSITIONS ASSIGNED TO THE PARKS, RECREATION AND NEIGHBORHOODS DEPARTMENT

WHEREAS, Council Resolution No. 2017-86, adopted February 28, 2017, imposed a citywide hiring freeze to ensure City hiring practices are consistent with long term fiscal sustainability and comply with current and future anticipated budget constraints, and

WHEREAS, staff has taken actions to implement the provision of Resolution No 2017-86; and

WHEREAS, certain part-time non benefited positions are critical to the various recreational, after school and other department programs, and

WHEREAS, part-time staff is the backbone of the Parks, Recreation and Neighborhoods Department, and

WHEREAS, without non-benefited part time staff, the City must reduce programs and service levels to a wide variety of programs, and

WHEREAS, without well qualified and trained employees, the City risks the continuity of our programs, placing current program users at risk and not fulfilling our commitment to the community.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that exception to the hiring freeze non-benefited part time positions assigned to the Parks, Recreation, and Neighborhoods Department is hereby approved.

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-117

Print

RESOLUTION APPROVING A DEVELOPMENT PLAN FOR PLANNED DEVELOPMENT ZONE, P-D(37)

WHEREAS, Planned Development Zone, P-D(37) was approved by the City Council by Ordinance 878-C.S., which became effective on April 10, 1968, to allow for the expansion of the existing recreational facilities of the Sportsmen of Stanislaus Health Club in addition to new health club facilities on property located at 819 Sunset Avenue, and

WHEREAS, a verified application for an amendment to Planned Development Zone, P-D(37) was filed by TA Modesto SA, LP on November 18, 2016 to allow for the addition of Kindergarten-Grade 12 Charter School to the allowable uses at the site, with conversion of the existing structures for use as educational facilities including the addition of 7,560 square feet as a second-story within the existing building square footage for use as educational facilities, allow new construction of up to 17,350 square feet for educational facilities, and permit the use of the site for a K-12 Charter School with parking at a level less than is required by the City's Zoning Code for Elementary and High School uses; property located at 819 Sunset Avenue, and

WHEREAS, after a public hearing held on February 6, 2017, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, it was found and determined by the Planning Commission, by its Resolution No. 2017-04, that amending the allowable uses of the Planned Development Zone P-D(37) as requested will not be detrimental to the public health, safety or welfare because the project will provide for a

new Kindergarten through Grade 12 charter school to serve the needs of the surrounding community, and

WHEREAS, the Planning Commission found the following:

1) The requested zone change will result in an orderly planned use of land because the project will allow for the conversion of an existing health club facility into a new elementary through high school educational facility; and
2) The requested amendment to allow on-site parking at a lower amount than Modesto Municipal Code requirement would not adversely affect operations of the facility because there is an abundance of available on-street parking on the street frontages of the school and nearby Neece Drive, which would provide for additional parking for the school, and the school will maintain a lower student-to-classroom ratio for the high school grades than typical of traditional high schools; and
3) The requested zone change is in accordance with the community objectives as set forth in the Modesto Urban Area General Plan and any applicable specific plans(s) because the K-12 Charter School is consistent with the Mixed Use (MU) land use designation of the site, which allows for institutional uses such as public schools, and

WHEREAS, said matter was set for a public hearing of the City Council to be held on March 28, 2017, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which date and time said duly noticed public hearing was held, and

WHEREAS, after said public hearing the Council found and determined that the application of TA Modesto 819 SA, LP for an amendment to Planned Development Zone P-D(37) will not be detrimental to the public health, safety or welfare, will result in an orderly planned use of land, and is in accordance with the community objectives as set forth in the Modesto Urban Area General Plan and any applicable specific plans(s) for the reasons set forth in Planning Commission Resolution No. 2017-04 **attached** hereto and quoted above, and

WHEREAS, the Council has introduced Ordinance No. 3668-C.S. on the 28th day of March, 2017, amending the allowable uses of Planned Development Zone P-D(37) to include a Kindergarten-Grade 12 Charter School.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

1. DEVELOPMENT PLAN. The development plan for Planned Development Zone, P-D(37), is hereby approved subject to the following conditions:

    1. Prior to the issuance of a building permit, all development shall conform to the development plan titled "Modesto Charter School, 819 Sunset Avenue, Modesto CA, TA II Acquisition LLC", stamped approved by the City Council on [date to be determined].

    2. All conditions of City Council Resolution No. 68-207 not in conflict with this action shall remain in full force and effect.

    3. Fencing along the south property line and the street frontages shall be replaced with new fencing to amend existing fencing in poor condition. Wrought-iron fencing is highly recommended for security and durability. Minimum fence height shall be seven (7) feet from grade.

    4. Parking lot lighting along the north property line shall be adequately shielded to minimize light spillage or glare upon neighboring residents north of the project site.

5. Bicycle racks shall be provided per the Modesto Municipal Code and Green Building Code.

6. In the event the parking lot layout is changed beyond restriping and rerouting traffic flow, one shade tree for each eight (8) parking spaces shall be provided. Parking lot shade trees shall be located no closer than fifteen (15) feet from parking lot light fixtures.

7. Applicant shall provide street trees along the Roselawn, Neece and Sunset Avenue street frontages.

8. Vehicular access shall be provided to the parking lot from Roselawn Avenue.

9. Prior to issuance of a building permit, new classroom construction shall maintain the minimum setback of ten (10) feet from the Roselawn Avenue frontage and the southerly property line, and the setback areas shall be landscaped.

10. Any public improvements that are missing damaged or not to current City standards shall be designed per City standards in accordance with City Code (Article 7-1.701), standards and specifications. Such improvements may include, but not be limited to curb & gutter, drive approach, sidewalk, ADA access ramps, fire hydrants and street lights. All public improvement plans shall be designed by a Registered Engineer and reviewed and approved by the City Engineer prior to issuance of an Encroachment permit.

11. Prior to issuance of a building or grading permit, plans shall address on-site storm water management and any increase in run-off to off-site areas shall be mitigated in accordance to City and State Standards.

12. Prior to the issuance of a Grading, Demolition, or Building Permit, Developer shall submit improvement plans conforming to design requirements of the most current edition of the City of Modesto Guidance Manual for Development, Stormwater Quality Control Measures and the City of Modesto Municipal Code.

13. Prior to the issuance of a Grading, Demolition, or Building Permit, Developer shall submit a plan to integrate Low Impact Development (LID) principles into the project design. The plan shall retain, treat, and infiltrate the first 0.5" of stormwater runoff on site, and incorporate pervious landscape features into the project design wherever possible.

14. Prior to the issuance of a Grading, Demolition, or Building Permit, Developer shall submit a plan to provide permanent, post-construction treatment (grass swale, bioretention, vegetative strip, or other approved proprietary device) to remove pollutants from the first 0.5" of stormwater run-off from site.

15. Prior to the issuance of a Grading, Demolition, or Building Permit, Developer shall submit a plan for trash enclosures to be sufficiently elevated to prevent stormwater run-on from parking lot and floor of enclosures shall be graded to drain into adjacent landscape areas.

16. Prior to the issuance of a Grading, Demolition, or Building Permit, Property Owner shall provide a signed and notarized Stormwater Treatment Device Access and Maintenance Agreement to Land Development Engineering, Stormwater for recording.

17. Prior to the issuance of a Grading or Building Permit, Developer shall prepare and submit a Water Pollution Control Plan (WPCP) or Local SWPPP to Land Development Engineering, Stormwater for review. The submittal shall include a description of all erosion, sediment, and pollution control BMPs to be used at the construction site to prevent sediment and other sources of pollution from entering the City storm drain system as well as a site plan showing their placement.

18. Prior to issuance of a building or grading permit, Developer shall submit Landscape and Irrigation plans for review and approval by the City's Parks Planning and Development Division. L&I plans shall be compliant with current State of California Model Water Use Ordinance, MMC requirements and City Standards at the time of submittal.

19. On-site fire hydrants shall be provided to meet requirement of spacing and distribution of 500 feet O.C.

20. Modification for the change of use of these buildings shall be in accordance with the California Building Code (CBC) and California Fire Code (CFC).

21. Modifications to the fire sprinkler system shall be in accordance to NFPA 13.

22. Fire Department Connections (FDC) to fire sprinklers are to be within 90-feet of a fire hydrant.

23. A fire alarm system conforming to the requirements of the CFC will be required for existing and new buildings for student use.

24. Fire department access roads are to be provided with an unobstructed 20-foot width, have an all-weather surface, with changes in direction having an inside radii of 20-feet and outside radii of 40-feet and be able to support the load of a 30-ton (60,000-lb) fire apparatus.

25. Access gates plans shall be submitted to Modesto Fire Prevention Division for approval prior to installation.

26. All existing underground and aboveground utilities, irrigation, and electrical lines shall be protected, relocated, or removed as required by the City Engineer or designee. Easements for utilities, irrigation, and electrical lines to remain shall be reserved as required.

27. All department Conditions of Approval for the project shall be included with building plans and shall be continuously maintained on-site during project construction to the satisfaction of the Chief Building Official.

28. All landscaping, fences, and walls shall be maintained and the premises shall be kept free of weeds, trash, and other debris.

29. At the time of issuance of a building permit, the developer shall pay development impact fees at the established rate. Such fees may include but are not limited to, sewer and water connection fees, community facility fees, building permit and plan check fees.

30. Prior to start of construction, all-weather, hard-surfaced roadways shall be constructed and maintained free of obstructions at all times during construction as required by Director of Community and Economic Development.

31. The property owner and developer shall, at their sole expense, defend, indemnify and hold harmless the City of Modesto, its agents, officers, directors and employees, from and against all claims, actions, damages, losses, or expenses of every type and description, including but not limited to payment of attorneys' fees and costs, by reason of, or arising out of, this development approval. The obligation to defend, indemnify and hold harmless shall include but is not limited to any action to arbitrate, attack, review, set aside, void or annul this development approval on any grounds whatsoever. The City of Modesto shall promptly notify the developer of any such claim, action, or proceeding and shall cooperate fully in the defense.

The following conditions are recommended mitigation measures from the City of Modesto General Plan Master EIR that should be applied to the project:

32. All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover.

33. All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.

34. When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.

35. All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. (the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)

36. Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.

37. Within urban areas, track out shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.

38. Any site with 150 or more vehicle trips per day shall prevent carryout and track out.

39. The project shall comply with the City's noise ordinance. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields. Equipment that is quieter than standard equipment should be utilized. Haul routes that affect the fewest number of people should be selected.

40. Construction activities shall comply with the requirements of the City's Storm Water Management Plan under its municipal NPDES Stormwater permit, and the State Water Resources Control Board's General Permit for Discharges of Storm Water Associated with Construction Activity. (UAGP Policy V.E.3[h])

2. DEVELOPMENT SCHEDULE. The following development schedule is hereby approved for said Planned Development Zone, P-D(37):

> The entire construction program shall be accomplished in one phase, construction to begin within two years of the effective date of the amendment to the allowable uses of the Planned Development Zone, and completion to be not later than two years after commencement of construction.

3. CHANGES IN DEVELOPMENT PLAN. Any changes in the above approved development plan shall be made in accordance with the provisions of Section 10-7.108 of the Modesto Municipal Code.

4. COMPLIANCE WITH CODE PROVISIONS, ETC. In all other respects said planned development shall be accomplished in accordance with and in strict adherence to the provisions of Article 1 of Chapter 7 of Title 10 of the Modesto Municipal Code relating to Planned Development Zones and other applicable City laws, rules, regulations and procedures.

5. EFFECTIVE DATE. This resolution shall not become effective unless and until the ordinance amending the allowable uses of the above-described Planned Development Zone, P-D(37), becomes effective.

BE IT FURTHER RESOLVED that the conditions of project approval set forth herein include certain fees, dedication requirements, reservations requirements, and other exactions, and that pursuant to Government Code Section 66020(d)(1), these conditions constitute written notice of a statement of the amount of such fees, and a description of the dedications, reservations, and other exactions.

BE IT FURTHER RESOLVED that the applicant is hereby further notified that the ninety (90) days approval period in which a protest of these fees, dedications, reservations, and other exactions, pursuant to Government Code Section 66020(a) can be

filed, begins on March 28, 2017, and that if a protest is not filed within this ninety (90)-day period complying with all of the requirements of Section 66020, the applicant will be legally barred from later challenging such exactions.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of March, 2017, by Councilmember Zoslocki, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

PLANNING COMMISSION
RESOLUTION NO. 2017-04

A RESOLUTION RECOMMENDING TO THE CITY COUNCIL APPROVAL OF AN AMENDMENT TO P-D(37), PROPERTY LOCATED AT 819 SUNSET AVENUE (TA MODESTO 819 SA, LP)

WHEREAS, Planned Development Zone, P-D(37), was approved by the City Council by Ordinance No. 878-C.S., which became effective on April 10, 1968, to allow for the expansion of the existing recreational facilities of the Sportsmen of Stanislaus Health Club in addition to new health club facilities on property located at 819 Sunset Avenue; and

WHEREAS, a verified application for an amendment to P-D(37) was filed by TA Modesto 819 SA, LP on November 18, 2016, to allow for the addition of K-12 Charter School to the allowable uses at the site, with conversion of the existing structures for use as educational facilities, new construction of up to 17,350 square feet for educational facilities, and permit the use of the site for a K-12 charter school with parking at 29 spaces fewer than required by the City's Zoning Code for Elementary and High School uses; and

WHEREAS, a public hearing was held by the Planning Commission on February 6, 2017, in the Chambers, 1010 Tenth Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered; and

WHEREAS, the Planning Commission certifies it has received and reviewed the Initial Study, Environmental Assessment No. EA/C&ED 2017-02, which concluded that the project is within the scope of the General Plan Master EIR (SCH No. 2007072023) and that pursuant to Section 21157.1 of the Public Resources Code, no new environmental review is required.

NOW, THEREFORE, BE IT RESOLVED by the Planning Commission that it hereby finds and determines as follows:

1. The requested amendment will not be detrimental to the public health, safety or welfare because the project will provide for a new Kindergarten through Grade 12 charter school to serve the needs of the surrounding community.

2. The requested amendment will result in an orderly planned use of land because the project will allow for the conversion of an existing health club facility into a new elementary through high school educational facility.

3. The requested amendment to allow on-site parking at a lower amount than Modesto Municipal Code requirement would not adversely affect operations of the facility because there is an abundance of available on-street parking on the street frontages of the school and nearby Neece Drive, which would provide for additional parking for the school, and the school will maintain a lower student-to-classroom ratio for the high school grades than typical of traditional high schools.

4. The requested amendment is in accordance with the community's objectives as set forth in the General Plan and any applicable specific plan(s) because the K-12 Charter School is consistent with the Mixed Use (MU) land use designation of the site, which allows for institutional uses such as public schools.

5. An Initial Study was prepared by the City of Modesto that analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report.

6. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.

7. No new or additional mitigation measures or alternatives are required.

8. The subsequent project is within the scope of the project covered by the Master EIR.

9. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

10. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

BE IT FURTHER RESOLVED by the Planning Commission that it recommends to the Council as follows: That P-D(37) be amended to permit the addition of K-12 Charter School to the allowable uses at the site, with remodeling of the existing structures to add 7,560 square feet as a second-story within the existing building square footage for use as educational facilities, allow new construction of up to 17,350 square feet for educational facilities, and permit the use of the site for a K-12 charter school with parking at a level less than is required by the City's Zoning Code for High School use.

IT IS FURTHER RECOMMENDED that a revised development plan for P-D(37) be approved subject to the following conditions:

1. Prior to the issuance of a building permit, all development shall conform to the development plan titled "Modesto Charter School, 819 Sunset Avenue, Modesto CA, TA II Acquisition LLC", stamped approved by the City Council on [date to be determined].

2. All conditions of City Council Resolution No. 68-207 not in conflict with this action shall remain in full force and effect.

3. Fencing along the south property line and the street frontages shall be replaced with new fencing to amend existing fencing in poor condition. Wrought-iron fencing is highly recommended for security and durability. Minimum fence height shall be seven (7) feet from grade.

4. Parking lot lighting along the north property line shall be adequately shielded to minimize light spillage or glare upon neighboring residents north of the project site.

5. Bicycle racks shall be provided per the Modesto Municipal Code and Green Building Code.

6. In the event the parking lot layout is changed beyond restriping and rerouting traffic flow, one shade tree for each eight (8) parking spaces shall be provided. Parking lot shade trees shall be located no closer than fifteen (15) feet from parking lot light fixtures.

7. Applicant shall provide street trees along the Roselawn, Neece and Sunset Avenue street frontages.

8. Vehicular access shall be provided to the parking lot from Roselawn Avenue.

9. Prior to issuance of a building permit, new classroom construction shall maintain the minimum setback of ten (10) feet from the Roselawn Avenue frontage and the southerly property line, and the setback areas shall be landscaped.

10. Any public improvements that are missing damaged or not to current City standards shall be designed per City standards in accordance with City Code (Article 7-1.701), standards and specifications. Such improvements may include, but not be limited to curb & gutter, drive approach, sidewalk, ADA access ramps, fire hydrants and street lights. All public improvement plans shall be designed by a Registered Engineer and reviewed and approved by the City Engineer prior to issuance of an Encroachment permit.

11. Prior to issuance of a building or grading permit, plans shall address on-site storm water management and any increase in run-off to off-site areas shall be mitigated in accordance to City and State Standards.

12. Prior to the issuance of a Grading, Demolition, or Building Permit, Developer shall submit improvement plans conforming to design requirements of the most current edition of the City of Modesto Guidance Manual for Development, Stormwater Quality Control Measures and the City of Modesto Municipal Code.

13. Prior to the issuance of a Grading, Demolition, or Building Permit, Developer shall submit a plan to integrate Low Impact Development (LID) principles into the project design. The plan shall retain, treat, and infiltrate

the first 0.5" of stormwater runoff on site, and incorporate pervious landscape features into the project design wherever possible.

14. Prior to the issuance of a Grading, Demolition, or Building Permit, Developer shall submit a plan to provide permanent, post-construction treatment (grass swale, bioretention, vegetative strip, or other approved proprietary device) to remove pollutants from the first 0.5" of stormwater run-off from site.

15. Prior to the issuance of a Grading, Demolition, or Building Permit, Developer shall submit a plan for trash enclosures to be sufficiently elevated to prevent stormwater run-on from parking lot and floor of enclosures shall be graded to drain into adjacent landscape areas.

16. Prior to the issuance of a Grading, Demolition, or Building Permit, Property Owner shall provide a signed and notarized Stormwater Treatment Device Access and Maintenance Agreement to Land Development Engineering, Stormwater for recording.

17. Prior to the issuance of a Grading or Building Permit, Developer shall prepare and submit a Water Pollution Control Plan (WPCP) or Local SWPPP to Land Development Engineering, Stormwater for review. The submittal shall include a description of all erosion, sediment, and pollution control BMPs to be used at the construction site to prevent sediment and other sources of pollution from entering the City storm drain system as well as a site plan showing their placement.

18. Prior to issuance of a building or grading permit, Developer shall submit Landscape and Irrigation plans for review and approval by the City's Parks Planning and Development Division. L&I plans shall be compliant with current State of California Model Water Use Ordinance, MMC requirements and City Standards at the time of submittal.

19. On-site fire hydrants shall be provided to meet requirement of spacing and distribution of 500 feet O.C.

20. Modification for the change of use of these buildings shall be in accordance with the California Building Code (CBC) and California Fire Code (CFC).

21. Modifications to the fire sprinkler system shall be in accordance to NFPA 13.

22. Fire Department Connections (FDC) to fire sprinklers are to be within 90-feet of a fire hydrant.

23. A fire alarm system conforming to the requirements of the CFC will be required for existing and new buildings for student use.

24. Fire department access roads are to be provided with an unobstructed 20-foot width, have an all-weather surface, with changes in direction having an inside radii of 20-feet and outside radii of 40-feet and be able to support the load of a 30-ton (60,000-lb) fire apparatus.

25. Access gates plans shall be submitted to Modesto Fire Prevention Division for approval prior to installation.

26. All existing underground and aboveground utilities, irrigation, and electrical lines shall be protected, relocated, or removed as required by the City Engineer or designee. Easements for utilities, irrigation, and electrical lines to remain shall be reserved as required.

27. All department Conditions of Approval for the project shall be included with building plans and shall be continuously maintained on-site during project construction to the satisfaction of the Chief Building Official.

28. All landscaping, fences, and walls shall be maintained and the premises shall be kept free of weeds, trash, and other debris.

29. At the time of issuance of a building permit, the developer shall pay development impact fees at the established rate. Such fees may include but are not limited to, sewer and water connection fees, community facility fees, building permit and plan check fees.

30. Prior to start of construction, all-weather, hard-surfaced roadways shall be constructed and maintained free of obstructions at all times during construction as required by Director of Community and Economic Development.

31. The property owner and developer shall, at their sole expense, defend, indemnify and hold harmless the City of Modesto, its agents, officers, directors and employees, from and against all claims, actions, damages, losses, or expenses of every type and description, including but not limited to payment of attorneys' fees and costs, by reason of, or arising out of, this development approval. The obligation to defend, indemnify and hold harmless shall include but is not limited to any action to arbitrate, attack, review, set aside, void or annul this development approval on any grounds whatsoever. The City of Modesto shall promptly notify the developer of any such claim, action, or proceeding and shall cooperate fully in the defense.

The following conditions are recommended mitigation measures from the City of Modesto General Plan Master EIR that should be applied to the project:

32. All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover.

33. All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.

34. When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.

35. All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. (the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)

36. Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.

37. Within urban areas, track out shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.

38. Any site with 150 or more vehicle trips per day shall prevent carryout and track out.

39. The project shall comply with the City's noise ordinance. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields. Equipment that is quieter than standard equipment should be utilized. Haul routes that affect the fewest number of people should be selected.

40. Construction activities shall comply with the requirements of the City's Storm Water Management Plan under its municipal NPDES Stormwater permit, and the State Water Resources Control Board's General Permit for Discharges of Storm Water Associated with Construction Activity. (UAGP Policy V.E.3[h])

IT IS FURTHER RECOMMENDED that the entire construction program be accomplished in one phase, construction to begin on or before February 6, 2017, and be completed by not later than February 6, 2019.

The foregoing resolution was introduced at the regular meeting of the Planning Commission held on February 6, 2017, by Commissioner Pollard, who moved its adoption, which motion was seconded by Commissioner Lucas and carried by the following vote:

Ayes:	Escutia-Braaton, Lucas, Pollard, Smith, Vohra

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-118

Print

RESOLUTION FINDING THAT THE FOLLOWING SUBSEQUENT PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (STATE CLEARINGHOUSE NO. 2007072023): AMENDMENT TO PLANNED DEVELOPMENT ZONE P-D(37) TO ALLOW FOR A K-12 CHARTER SCHOOL IN ADDITION TO THE ALLOWABLE USES, PROPERTY LOCATED AT 819 SUNSET AVENUE

WHEREAS, on October 14, 2008, the City Council of the City of Modesto certified the Final Master Environmental Impact Report ("Master EIR") (SCH No. 2007072023) for the Modesto Urban Area General Plan, and

WHEREAS, TA Modesto 819 SA, LP has proposed an amendment to Planned Development P-D(37) to allow for a Kindergarten to Grade 12 Charter School to the allowable uses of the site, property located at 819 Sunset Avenue, and

WHEREAS, pursuant to Section 21157.1 of the Public Resources Code, the City of Modesto's Community & Economic Development Department prepared an Environmental Assessment Initial Study EA/C&ED 2017-02 ("Initial Study") which analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report, and

WHEREAS, in accordance with CEQA guidelines beginning on March 8, 2017, the City caused to be published a 20-day notice of the City's intent to make a finding that the subsequent project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on March 28, 2017, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed amendment to Planned Development P-D(37), a copy of which is **attached** hereto as **Exhibit "A",** and incorporated herein by reference, and based on substantial evidence in the Initial Study makes the following findings:

1. An Initial Study was prepared by the City of Modesto that analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report.

2. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.

3. No new or additional mitigation measures or alternatives are required.

4. The subsequent project is within the scope of the project covered by the Master EIR.

5. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

6. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of approval or determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of March, 2017, by Councilmember Zoslocki, who moved its adoption, which motion being duly seconded by Councilmember Grewal, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

City of Modesto
Master EIR Initial Study Environmental Checklist

I. PURPOSE

CEQA allows for the limited environmental review of subsequent projects under the City's Master Environmental Impact Report ("Master EIR" or "MEIR"). This Initial Study Environmental Checklist ("Initial Study") is used in determining whether the amendment to Planned Development Zone P-D(37), ("Project") is "within the scope" of the project analyzed in the Modesto Urban Area General Plan Master EIR (SCH# 2007072023) (Public Resources Code section 21157.1). When the Initial Study supports this conclusion, the City will issue a finding of conformance.

A subsequent project is "within the scope" of the Master EIR when:

1. it will have no additional significant effects on the environment that were not addressed as significant effects in the Master EIR; and

2. no new or additional mitigation measures or alternatives are required.

"Additional significant effects" means a project-specific effect that was not addressed as a significant effect in the Master EIR. [Public Resources Code Section 21158(d)]

The determination must be based on substantial evidence in the record. "Substantial evidence" means facts, reasonable assumptions predicated upon facts, or expert opinion based on facts. It does not include speculation or unsubstantiated opinion. (CEQA Guidelines Section 15384)

II. PROJECT DESCRIPTION

A. Title: PDA-16-003—Amendment to Planned Development Zone P-D(37)

B. Address or Location: 819 Sunset Avenue, Modesto CA 95351

C. Applicant: TA Modesto 819 SA LP, attn.: Liat Bishko
3000 Olympic Blvd, Bldg. 1, Suite 2120
Santa Monica, CA 90404

D. City Contact Person: Katharine Martin, Associate Planner

Project Manager: Katharine Martin
Department: Community and Economic Development, Planning Division
Phone Number: 209-577-5267
E-mail address: kamartin@modestogov.com

E. Current General Plan Designation(s): Mixed Use (MU)

F. Current Zoning Classification(s): Planned Development Zone P-D(37)

G. Surrounding Land Uses:
North: Low Density Residential (R-1) Zone, single-family residences.

South: Low Density Residential (R-1) Zone, parking lot and maintenance buildings for Dryden Golf Course.
East: Low Density Residential (R-1) Zone, Dryden Golf Course.
West: Low Density Residential (R-1) Zone, single-family residential, and Medium Density Residential (R-2) Zone, residential duplexes and triplexes.

H. Project Description, including the project type listed in Section II.C (Anticipated Future Projects) of the Master EIR (Attach additional maps/support materials as needed for complete record):

The project involves the amendment of the Planned Development Zone P-D(37) to allow for a K-12 Charter School in addition to current uses. The project site is located 819 Sunset Avenue within the Baseline Urbanized Area of the General Plan.

The Planned Development Zone was adopted by the Modesto City Council on March 7, 1968 by Ordinance 878-C.S. to provide custom zoning that allowed for a Health Club, for the existing Sportsmen of Stanislaus fitness and recreation facility. The facility, founded in 1957, currently consists of 57,260 square feet of building area comprised of workout facilities, locker rooms, gymnasium, and conference rooms, with outdoor facilities including swimming pools and tennis courts.

The amendment proposes adding K-12 Charter School to the allowed use, in order to facilitate the reuse and remodel of the existing facility. The remodel would include the conversion of existing buildings to educational facilities, the addition of 7,650 square feet as an interior second-story to an existing building, and allow new construction of 17,350 square feet for educational purposes. The proposal would permit use of the site for up to 924 students in addition to staff.

PROPOSED AMENDMENT TO ALLOW FOR K-12 CHARTER SCHOOL
PDA-16-003

I. Other Public Agencies Whose Approval is Required: None.

III. FINDINGS/DETERMINATION (SELECT ONE ON THE BASIS OF THE ANALYSIS IN SECTION IV)

1. _X_ Within the Scope - The project is within the scope of the Master EIR and no new environmental document or Public Resources Code Section 21081 findings are required. All of the following statements are found to be true:

A. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.

B. No new or additional mitigation measures or alternatives are required.

C. The subsequent project is within the scope of the project covered by the Master EIR.

D. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

E. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

2. ____ Mitigated Negative Declaration Required - On the basis of the above determinations, the project is not within the scope of the Master EIR. A mitigated negative declaration will be prepared for the project. The following statements are all found to be true:

A. The subsequent project is within the scope of the project covered by the Master EIR.

B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

C. The project will have one or more potential new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures are being required of the project that will reduce the effects to a less-than-significant level.

D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

3.____ Focused EIR Required- On the basis of the above determinations, the project is not within the scope of the Master EIR. A Focused EIR will be prepared for the project. All of the following statements are found to be true:

A. The subsequent project is within the scope of the project covered by the Master EIR.

B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

C. The project will have one or more new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures or alternatives are required as a result.

D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

_____	Associate Planner	_____
Project Manager	Title	Date

4. Within the Scope Analysis of this Document:

The Master EIR allows projects to be found within the scope of the MEIR if certain criteria are met. If the following statements are found to be true for all 21 impact categories included in this Initial Study, then the proposed project is addressed by the MEIR analysis and is within the scope of the MEIR. Any "No" response must be discussed.

		YES	NO
(1)	The lead agency for subsequent projects shall be the City of Modesto or a responsible agency identified in the Master EIR.	☒	☐
(2)	City policies which reduce, avoid, or mitigate environmental effects will continue to be in effect and, therefore, would be applied to subsequent projects where appropriate. The policies are described in the list of policies in place and mitigation measures attached to the Initial Study template. Project impacts would be mitigated to a less-than-significant level using MEIR mitigations only.	☒	☐
(3)	Federal, State, regional, and Stanislaus County regulations do not change in a manner that is less restrictive on development than current law (i.e., would not offer the same level of protection assumed under the Master EIR).	☒	☐
(4)	No specific information concerning the known or potential presence of significant resources is identified in future reports, or through formal or informal input received from responsible or trustee agencies or other qualified sources.	☒	☐
(5)	The development will occur within the boundaries of the City's planning area as established in this Urban Area General Plan.	☒	☐
(6)	Development within the project will comply with all appropriate mitigation measures contained and enumerated in the 2008 General Plan Master EIR.	☒	☐

5. Currency of the Master EIR Document

The MEIR should be reviewed on a regular basis to determine its currency, and whether additional analysis/mitigation should be incorporated into the MEIR via a Supplemental or Subsequent EIR (CEQA Section 21157.6). Staff has reviewed Sections 1 through 21 of this document in light of the criteria listed below to determine whether the MEIR is current. The analysis contained within the Master EIR is current as long as the following circumstances have not changed. Any "no" response must be explained.

		YES	**NO**
(1)	Certification of the General Plan Master EIR occurred less than five years prior to the filing of the application for this subsequent project.	☐	☒
(2)	This project is described in the Master EIR and its approval will not affect the adequacy of the Master EIR for any subsequent project because the City can make the following findings:	☒	☐
(a)	No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified.	☒	☐
(b)	No new information, which was not known and could not have been known at the time the Master EIR was certified as complete, has become available.	☒	☐
(c)	Policies remain in effect which require site-specific mitigation, and avoidance or other mitigation of impacts as a prerequisite to future development.	☒	☐

Discussion:

(1) The General Plan Master EIR was certified on October 14, 2008, so more than five years has passed since the MEIR was certified. However, the analysis contained in the MEIR is still adequate for subsequent projects, as documented in the discussion below.

(2) The project is consistent with the analysis contained in the MEIR. This is documented in the discussion of the individual issue areas of this initial study.

(2)(a) There have been no substantive changes to the General Plan since the MEIR was certified that would create additional significant environmental effects that were not analyzed by the MEIR.

(2)(b) There has been no new information that would affect the adequacy of the analysis contained in the MEIR.

(2)(c) All policies contained in the MEIR that require site-specific mitigation or avoidance of impacts remain in effect and will be applied to the project as appropriate.

IV. ENVIRONMENTAL ANALYSIS

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, discloses whether the proposed project may cause any project-specific significant effect on the environment that was not examined in the Final Master EIR (MEIR) for the General Plan and whether new or additional mitigation measures or alternatives may be required as a result. The Initial Study thereby documents whether or not the project is "within the scope" of the Master EIR.

Pursuant to Public Resources Code Section 21157.1, no new environmental document or findings are necessary for projects that are determined to be within the scope of the MEIR. Adoption of the findings specified in Section III.1, above after completion of the Initial Study fulfills the City's obligation in that situation.

All environmental effects cited reflect 2025 conditions resulting from the Urban Area General Plan, as identified in the Master EIR.

The environmental impact analysis in the Master EIR for the Urban Area General Plan is organized in twenty-one subject areas. The following analysis is based on the impact analyses contained in Chapter V of the Master EIR. For ease of reference, the sections are numbered in the same order as the analyses in Chapter V.

1. TRAFFIC AND CIRCULATION

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable traffic and circulation impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Increased automobile traffic will result in roadway segments (see MEIR on Table 1-7, pages V-1-32 to V-1-34) operating at LOS D, Modesto's significance threshold for automobile traffic, or lower (LOS E or F).

Effect: The substantial increase in traffic relative to the existing load and capacity of the street system will cause, either individually or cumulatively, the violation of automobile service standards established by StanCOG's Congestion Management Plan for designated roads and highways.

Effect: A substantial increase in automobile vehicle miles traveled and automobile vehicle hours of travel and a decrease in average automobile vehicle speed (see MEIR Table 1-6, page V-1-31).

Cumulative Impacts

Effect: Potential for growth inducement or acceleration of development resulting from highway and local road projects.

Effect: Substantial increase in traffic in relation to the existing traffic load and capacity of the street system, including a violation, either individually or cumulatively, of an automobile LOS standard established by the Congestion Management Plan for designated roads and highways.

Effect: Increased demand for capacity-enhancing alterations to existing roads or automobile traffic reduction.

Other impact categories affected by Traffic and Circulation are addressed throughout this Initial Study (see also Section 2, Degradation of Air Quality; Section 3, Generation of Noise; Section 7 Loss of Sensitive Wildlife and Plant Habitat; Section 8, Disturbance of Archaeological/Historic Sites; Section 14 Increased Demand for Fire Services; Section 18, Energy; Section 19, Visual Resources; Section 20, Land Use and Planning, and Section 21, Climate Change).

b. Master EIR and/or New Mitigation Measures Applied to the Project

Traffic and Circulation mitigation measures pertinent to this project are found on MEIR pages V-1-9 through V-1-28. All mitigation measures appropriate to the project, including any new measures, will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes none from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-1.B of the Master EIR provides analysis of Traffic and Circulation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: A subsequent development project will have a new significant effect on the environment if it would exceed the following criteria:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1. TRAFFIC AND CIRCULATION				
1) The proposed project exceeds traffic generation assumptions in the Master EIR for the site by 100 trips or more and City Engineering and Transportation staff has determined that the project would have additional potentially significant project-specific effects that are not avoided or reduced by the Master EIR's mitigation measures.	☐	☐	☒	☐
2) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads or highways?	☐	☐	☐	☒
3) The proposed project would cause additional roadway segments in the General Plan area to exceed LOS D and/or cause additional violations of standards in the Congestion Management Plan, and/or cause an increase in automobile vehicle miles or vehicle hours of travel or a decrease in automobile travel speed, as compared to the impacts disclosed in the Master EIR.	☐	☐	☒	☐
4) The proposed project would cause emergency response times to exceed acceptable standards established by the Fire Department, as compared to impacts disclosed in the Master EIR (see Section 14, Increased Demand for Fire Services).	☐	☐	☐	☒
5) The proposed project would result in less parking than required by the Municipal Code or as determined by staff.	☐	☐	☒	☐
6) The proposed project would conflict with adopted policies, plans, or programs that support alternative transportation, including, but not limited to the Regional Transportation Plan, the Sustainable Communities Strategy, the Bicycle Action Plan, and so on.	☐	☐	☐	☒
7) The proposed project would result in an increase	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
in automobile vehicle miles traveled on a per capita basis, in excess of that considered in the Urban Area General Plan MEIR.				

Discussion:

(1) The project proposes conversion of the existing facilities of an established health club into a K-12 charter school. A Trip Generation Study between Health Club uses and schools was conducted by KD Anderson and Associates (attached) which concluded that while trip generation would increase in the Peak AM hours above that of a health club, the school would generate fewer daily trips than a health club. The project was referred to Traffic Engineering and Land Development Engineering, Traffic, who indicated no concerns with traffic volume exceeding daily trip generation assumptions for such uses in the General Plan MEIR.

(2) The project would not exceed a level of service standard established by the county congestion management agency for designated roads or highways.

(3) The project would not conflict with any Congestion Management Plans, or cause an increase in vehicle miles or hours traveled. There will be increases in traffic of short duration in the morning and afternoon hours as is typical of drop-off and pick-up times at similar schools; however, the school's administration will use staggered start times for the elementary grades and Middle-high school grades to lessen the impact, and the City's Traffic Division indicated no concerns that the project would cause the surrounding street's level of service to exceed LOS D.

(4) The project would not cause emergency response times to exceed acceptable standards. The project was referred to the City Fire Department, who indicated no concerns.

(5) The project proposes 141 parking spaces for students, visitors and staff, 29 spaces less than the City's requirement for office, elementary school and high school uses, as required by the City's Zoning Code for parking spaces per square footage of use. However, the student-classroom ratio is projected by the school to be low, approximately 14:1 in the high school classrooms, reducing the parking shortage to a less than significant impact.

(6) The proposed project will not conflict with adopted policies, plans, or programs that support alternative transportation.

(7) The project would not result in an increase in vehicle miles traveled in excess of what was considered by the General Plan MEIR.

2. DEGRADATION OF AIR QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable air quality impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Expected automobile traffic will result in increased operational emissions of reactive organic gases (ROG) and oxides of nitrogen (NO_X) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased emissions of particulate matter 10 microns or less (PM_{10}) and 2.5 microns or less in diameter ($PM_{2.5}$) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased carbon monoxide (CO) levels in the project area (see MEIR Table 2-7, page V-2-26, and Table 2-8, page V-2-27).

Cumulative Impacts

The Master EIR indicates the same impacts identified as direct impacts above will contribute to regional impacts on air quality for the criteria pollutants ROG, NO_X, PM_{10}, and $PM_{2.5}$.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Air quality mitigation measure(s) pertinent to the proposed project are found on pages V-2-13 through V-2-24 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes AQ-42, and AQ-44 through AQ-50 from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-2.B of the Master EIR is the analysis of air quality impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
2. DEGRADATION OF AIR QUALITY				
1) The proposed project exceeds the project-level emissions thresholds established for CO, ROG, NO_X, PM_{10}, and $PM_{2.5}$ by the San Joaquin Valley Air Pollution Control District (SJVUAPCD) and is not consistent with the development assumptions for the project site, as established in the Urban Area General Plan and Master EIR.	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
2) The proposed project does not incorporate the best management practices established by the SJVAPCD for CO, ROG, NO_x, PM_{10}, and $PM_{2.5}$.	☐	☐	☐	☒
3) The proposed project does not comply with the air quality policies in the Modesto Urban Area General Plan.	☐	☐	☐	☒
4) The proposed project would expose sensitive receptors to pollutant concentrations in excess of those expected to occur as a result of implementation of the Urban Area General Plan.	☐	☐	☐	☒
5) The proposed project would create objectionable odors affecting a substantial number of people.	☐	☐	☒	☐

Discussion:

(1) The project involves the remodeling of existing health club facilities into a K-12 Charter school. The project would not exceed emissions thresholds established by the SJVUAPCD, and is consistent with the development standards for a school as established by the General Plan.

(2) Development of the site will be required to adhere to applicable City Zoning Ordinances, Standards, and applicable best management practices during the construction process.

(3) The project would comply with the air quality policies in the Urban Area General Plan with implementation of the mitigation measures cited above.

(4) With mitigation measures cited above, the project would not expose sensitive receptors to pollutant concentrations in excess of those expected to occur as a result of implementation of the Urban Area General Plan.

(5) Construction activities could potentially generate odors with processes such as application of architectural coatings and asphalt paving materials; however, activities will be mitigated as called for by the MEIR with the mitigation measures listed above.

3. GENERATION OF NOISE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable noise impacts expected after application of mitigations/policies:

Direct Impacts

Effect: Future automobile traffic noise levels and roadway construction and maintenance activities resulting from development of the Urban Area General Plan will exceed the City's noise thresholds at

various locations, but particularly in areas adjacent to heavily traveled roadways (see MEIR Table 3-3, page V-3-10, and Figure VII-2 and Table 3-6, pages V-3-18 and V-3-19).

Effect: Expected noise from airport operations and airport construction projects may expose up to 468 dwellings and three churches to noise levels of 65 dB CNEL and up to eight dwellings to noise levels of 70 dB CNEL.

Effect: Expose noise-sensitive land uses to noise from the construction of bicycle and transit projects.

Effect: Expose noise-sensitive land uses to noise from freight and passenger rail operations.

Cumulative Impacts

Effect: Traffic from development in the City of Modesto would, when combined with traffic from new development in the County and other cities, contribute to a cumulative increase in roadside noise levels on major roads and highways throughout Stanislaus County.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Noise policies and mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-3-11 through V-3-15 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and any new measures are listed in Section V, Mitigation Applied to Project.

Discussion:

The appropriate mitigation to be applied to this project includes N-3 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-3.B of the MEIR discloses noise impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of the proposed project's effects are based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
3. GENERATION OF NOISE				
1) The proposed project will exceed the standards for noise level and hours of operation established by the Modesto noise ordinance.	☐	☐	☐	☒
2) The proposed project will not comply with the noise policies of, or otherwise be inconsistent with,	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
the Modesto Urban Area General Plan.				
3) The proposed project will result in an increase in ambient noise levels in the project vicinity above those disclosed in the Master EIR.	☐	☐	☒	☐
4) The proposed project will result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels disclosed in the Master EIR implementation of the Urban Area General Plan.	☐	☐	☒	☐

Discussion:

(1-2) The project is consistent with the noise policies of the General Plan. The proposed development is not anticipated to generate noise levels that exceed the noise thresholds of the MEIR.

(3) The project will not result in a substantial increase in ambient noise above levels described in the MEIR. There will be occasional outdoor noise associated with children at play during recess times and outdoor physical activity, but at levels not expected to be in excess of normal activities of the previously operational health club.

(4) There will be temporary construction-related noise, but implementation of the mitigation measure outlined above would reduce the impacts to a less than significant amount.

4. EFFECTS ON AGRICULTURAL LANDS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on agricultural lands expected after application of mitigations/policies:

Direct Impacts

Effect: Between 1995 and 2025, development of the Urban Area General Plan may convert up to approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area to urban uses.

Effect: Approximately 1,200 acres of urban development along a 28.5-mile boundary 350 feet wide between urban and agricultural uses could be affected by continued agricultural operations, including noise, dust, and chemical overspray or drift.

Cumulative Impacts

Effect: Growth within Modesto's planning area would contribute considerably to the loss of agricultural land within Stanislaus County, accounting for the conversion of as much as approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area from 1995 to 2025.

b. Master EIR and/or New Mitigation Measures Pertinent to the Project

Agricultural land mitigation measures pertinent to the proposed project are found on pages V-4-6 to and V-4-8 of the Master EIR. All mitigation measures appropriate to the project and any new mitigation to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

Discussion:

The project does not require mitigation measures from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-4.B of the Master EIR discloses the impacts resulting from the implementation of the Urban Area General Plan on agricultural lands. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
4. EFFECTS ON AGRICULTURAL LANDS				
1) The proposed project is inconsistent with the Urban Area General Plan's policies relating to agricultural land.	☐	☐	☐	☒
2) The proposed project will either directly or indirectly result in the development of land outside the 2008 Urban Area General Plan's planning area boundary.	☐	☐	☐	☒
3) The proposed project will conflict with existing zoning for agricultural use, or there is an existing Williamson Act contract on the project site.	☐	☐	☐	☒
4) The proposed project will involve other changes in the existing environment not anticipated in the Master EIR which, due to their location or nature, could result in conversion of farmland to non-agricultural use.	☐	☐	☐	☒

Discussion:

(1) The project would be consistent with the General Plan's policies relating to agricultural land. The site is located within the Baseline Developed Area, and is designated as Mixed Use (MU) in the General Plan's Land Use Diagram.

(2) The project will not result in the development of land outside of the 2008 General Plan boundary. The site is within the Baseline Developed Area and is surrounded by urbanized area within the jurisdiction of the City.

(3) The site is not zoned for agricultural uses. The proposed amendment is to allow for a charter school within a facility established as a health club in 1957. There are no Williamson Act contracts on the properties of the project site.

(4) The project will not convert existing farmland to a non-agricultural use.

5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on long-term water supplies expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts have been disclosed in the Master EIR.

Cumulative Impacts

Effect: Operational yields of the Modesto and Turlock subbasins, both of which underlie the City of Modesto, are unknown, although the City is participating in a study with the United States Geological Survey in order to quantify the operational yields of both subbasins. Groundwater withdrawals from both basins by the City, when combined with other users' withdrawals, may result in overdrafting both subbasins.

Effect: Despite available options, during drought years, significant water shortages are forecast for the San Joaquin River basin, which includes both the Modesto and Turlock subbasins, by 2020. Modesto would make a cumulatively considerable contribution to the cumulative impact on water supply under drought conditions.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Water supply mitigation measures pertinent to the proposed project are found on pages V-5-6 through V-5-12 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The project does not require mitigation measures from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-5.B of the Master EIR discloses impacts on long-term water supplies resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES				
1) The proposed project is inconsistent with water supply policies in the Urban Area General Plan.	☐	☐	☐	☒
2) Water demand for the proposed project will exceed estimates for similar projects or for development on the project site anticipated in the Urban Area General Plan or sufficient water supplies are not otherwise available to serve the project from existing entitlements and resources.	☐	☐	☐	☒
3) The proposed project would deplete groundwater supplies to a greater degree than anticipated in the Urban Area General Plan or would interfere with groundwater recharge.	☐	☐	☐	☒

Discussion:

(1) The proposed project is consistent with the water supply policies in the General Plan.

(2) The project was referred to Land Development Engineering staff who indicated no concerns with water supply or demands of the project.

(3) The proposed project is consistent with the ground water demands assumed in the General Plan. The project would not have a significant effect on ground water recharge or depletion of long-term water supplies.

6. INCREASED DEMAND FOR SANITARY SEWER SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sanitary sewer services after application of mitigations/policies:

Direct Impacts

Effect: Development resulting from implementation of the Urban Area General Plan will require substantial new sewage treatment and disposal capacity, treatment plant improvements, sewer mains

and collection lines, and pump stations. The Wastewater Master Plan anticipates the need for these facilities and its EIR evaluates the impact of developing those facilities. Potential impacts include degradation of water quality through erosion and chemical releases; localized flooding; construction noise; exposure of construction workers and the public to hazardous materials; and on the habitat of the elderberry longhorn beetle, burrowing owl, and Swainson's hawk, as well as certain other regulated habitats. All of these impacts are mitigated to a less-than-significant level.

Additional impacts that are not mitigated to a less-than-significant level include loss of farmland cause by construction of the Phase IA tertiary treatment facility at the Jennings Road Secondary Treatment Facility, an increase in pollutant loads from increased wastewater flows to the San Joaquin River, and an increase in noise and criteria air pollutants due to construction activities, including traffic.

Cumulative Impacts

Effect: No additional cumulative impacts were identified in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Sewer service mitigation measures pertinent to the proposed project are found on pages V-6-3 through V-6-8 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR are required. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-6.B of the Master EIR discloses impacts on the Increased Demand for Sanitary Sewer Service resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
6. INCREASED DEMAND FOR SANITARY SEWER SERVICES				
1) The proposed project is inconsistent with wastewater policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project will generate sewage flows greater than those anticipated in the Urban Area General Plan for the project site.	☐	☐	☐	☒
3) The proposed project will result in a	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
determination by the wastewater treatment provider which serves or may serve the project that it has inadequate capacity to serve the project's projected demand in addition to the provider's existing commitments.				

Discussion:

(1) The project is consistent with the wastewater policies in the General Plan.

(2-3) The project was referred to Land Development Engineering staff, who indicated no concerns with generation of sewer flows or capacity generated by the project.

7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sensitive wildlife and plant habitat expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant impacts on sensitive wildlife and plan habitat are expected to occur with the application of the policies contained in the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will contribute to the cumulative impact of habitat loss in the San Joaquin Valley. Requiring density development than has occurred in the past or that is expected in the future would minimize the City's contribution to the cumulative loss of habitat. Nonetheless, this is a significant and unavoidable impact.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Wildlife and plant habitat mitigation measures pertinent to the proposed project are found on pages V-7-17 through V-7-24 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

The project does not require mitigation measures from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-7.B of the Master EIR discloses impacts on the Loss of Sensitive Wildlife and Plant Habitat resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT				
1) The project is inconsistent with the policies pertaining to the loss of sensitive wildlife and plant habitat contained in the Urban Area General Plan.	☐	☐	☐	☒
2) Consultation with the California Department of Fish and Game or the U.S. Fish and Wildlife Service determines that the project would have a significant effect on a candidate, sensitive, or special status species in excess of the impact disclosed in the Master EIR.	☐	☐	☐	☒
3) The proposed project would have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act through direct removal, filling, hydrological interruption, or other means, in excess of the impact disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project would substantially interfere with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites.	☐	☐	☐	☒
5) Conflict with local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.	☐	☐	☐	☒
6) The proposed project would conflict with provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the General Plan policies related to the loss of sensitive wildlife and plant habitat.

(2) The project site is not within a biologically sensitive area as defined by Figures V-7-1a through V 7-1e of the MEIR. The California Department of Fish and Game and the U.S. Fish and Wildlife Service were consulted in the production of the MEIR.

(3) The site does not qualify as a federally protected wetland per Section 404 of the Clean Water Act.

(4) The site is not within a biologically sensitive area as defined by Figures V-7-1a through V 7-1e of the MEIR. The movement of fish or birds or other wildlife would not be significantly affected by the project.

(5) The project would not conflict with any local policies or ordinances protecting biological resources.

(6) There is no conflict with any adopted habitat conservation plan, natural community conservation plan, or other approved local, regional or state habitat conservation plan.

8. DISTURBANCE OF ARCHAEOLOGICAL/HISTORICAL SITES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on archaeological/historical sites expected after application of mitigations/policies:

Direct Impacts

Effect: Modification resulting in a substantial adverse change in the significance of a historic resource or the demolition of a listed or eligible historic resource.

Effect: The modification or demolition of a structure more than 50 years in age may be significant.

Effect: Discovery of archaeological resources in areas outside of the riparian corridors, as a result of construction activities.

Effect: Construction in an area of high archaeological sensitivity.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Archaeological or historic mitigation measures pertinent to the project being analyzed in this Initial Study are found on page V-8-16 through V-8-20 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

The project does not require mitigation measures from the MEIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-8.B of the MEIR discloses impacts on archaeological/historical resources resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
8. DISTURBANCE OF ARCHAEOLOGICAL/ HISTORICAL SITES				
1) The proposed project is inconsistent with the archaeological/historical resource policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would demolish a building eligible for listing as a historic resource or remove a landmark from the Modesto inventory.	☐	☐	☐	☐
3) The proposed project would modify or demolish a structure more than 50 years in age.	☐	☐	☒	☐
4) The project would adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources.	☐	☐	☐	☒
5) Conflict with local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.	☐	☐	☐	☒

Discussion:

(1) The project would be consistent with the archeological and historical resource policies in the General Plan.

(2) The site is not a local landmark nor is listed or eligible for listing as a historic resource.

(3) The facility was originally established in 1957 and has been in regular use as a health club with gymnasium and conference areas. The project would remodel existing structures from the health club facilities to accommodate the activities of a K-12 Charter School. Any modification and new construction is to be as required by the California Building Code and the California Department of General Services, Division of the State Architect.

(4) The project would not affect a resource that is listed or eligible for listing in the California Register of Historic Resources.

(5) The project would not conflict with a local policy or ordinance protecting biological resources. The City of Modesto does not have a tree preservation policy or ordinance.

9. INCREASED DEMAND FOR STORM DRAINAGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on storm drainage expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: The population of Stanislaus County is projected to increase in a fashion similar to that of Modesto, resulting in additional urban development and associated increases in impervious surface area and associated increases in storm water runoff. Cumulative hydrologic impacts of storm water flows from Modesto urban areas and other areas of the County could occur due to the fixed capacity of MID and TID irrigation canals to convey drainage west to the San Joaquin River. If drainage channels in some areas prove insufficient to handle the increased drainage discharges, existing storm water runoff from urban and agricultural areas during large storm events would have to be interrupted until water levels receded to a point allowing the resumption of discharges to the channel. Ceasing discharges to drainage channels could cause inundation in and around the drainage conveyance pipeline systems, surface drainage channels, detention basins, and other urban areas. This cumulative impact is considered significant and unavoidable.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Storm Drainage mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-9-4 through V-9-9. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes: SD-9 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-9.B of the MEIR discloses impacts on the demand for storm drainage resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
9. INCREASED DEMAND FOR STORM DRAINAGE				
1) The proposed project is inconsistent with the storm drainage policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or offsite, as compared to impacts anticipated to result from the Urban Area General Plan or create substantial unanticipated sources of polluted runoff.	☐	☐	☒	☐
3) The proposed project does not utilize Low Impact Development strategies to reduce runoff from the site and increase infiltration, resulting in no net increase in runoff before and after development.	☐	☐	☐	☒

Discussion:

(1) The project would not be inconsistent with the storm drainage policies of the General Plan.

(2) The project involves the reuse of existing health club facilities into a K-12 charter school with addition of new classrooms at the existing tennis courts. Storm water runoff from the site is not expected to increase significantly with the project as the new construction is to be built at the location of the existing tennis courts.

(3) Best management practices will be utilized with construction through the mitigation measure cited above.

10. FLOODING AND WATER QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on flooding and water quality expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Flooding and Water Quality mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-10-6 through V-10-9 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

The appropriate mitigation to be applied to this project includes: FWQ-13 from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-10.B of the Master EIR provides analysis of Flooding and Water Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
10. FLOODING AND WATER QUALITY				
1) The proposed project is inconsistent with the flooding and water quality policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project does not comply with the regulatory requirements of the federal Clean Water Act or the State Porter-Cologne Act.	☐	☐	☐	☒
3) The proposed project would place more housing within a 100-year flood hazard zone than assumed in the Urban Area General Plan.	☐	☐	☐	☒
4) The proposed project would place structure within a 100-year flood hazard area so that they would impede or redirect floodwater or would substantially alter the existing on-site drainage pattern or a watercourse, in such a way as to cause flooding on- or offsite.	☐	☐	☐	☒
5) The proposed project does not comply with Modesto's Guidance Manual for New Development Storm Water Quality Control Measures.	☐	☐	☐	☒
6) The proposed project would violate water quality standards or waste discharge requirements.	☐	☐	☐	☒
7) The proposed project would substantially alter	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
the existing drainage pattern of the site or area or a watercourse in a manner that would result in substantial erosion or siltation on- or offsite in excess of the assumptions of the Urban Area General Plan.				
8) The proposed project would create or contribute runoff, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff, not expected as part of Urban Area General Plan implementation.	☐	☐	☐	☒

Discussion:

(1) The proposed project is consistent with the flooding and water quality policies in the Urban Area General Plan.

(2) The project would comply with the Federal Clean Water Act and the Porter Cologne Act requirements.

(3) The project site is not within a 100-year flood hazard zone as established by the Federal Emergency Management Agency (FEMA).

(4) The project would remodel and expand existing structures from the health club to accommodate the activities of a K-12 Charter School. Expansion is to be in the form of a second-story addition within the interior of an existing building and the placement of new classroom spaces over an existing tennis court area at the southwest corner of the site. No structures would be placed within a 100-year flood hazard zone.

(5) The project will comply with the Guidance Manual for New Development Storm Water Quality Control Measures.

(6) The project will not violate water quality standards or waste discharge requirements.

(7) The project would not substantially alter the existing drainage pattern of the site, area or a watercourse in a manner that would result in erosion or siltation.

(8) The project was referred to Land Development Engineering who indicated no concerns with the project creating or contributing to runoff in excess of what is expected as part of the General Plan's implementation.

11. INCREASED DEMAND FOR PARKS AND OPEN SPACE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on parks and open space expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Parks and open space mitigation measures pertinent to the proposed project are found on pages V-11-3 through V-11-9 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-11.B of the MEIR discloses impacts of the Urban Area General Plan on parks and open space. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
11. INCREASED DEMAND FOR PARKS AND OPEN SPACE				
1) The proposed project is inconsistent with the parks and open space policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would eliminate parks or open space.	☐	☐	☐	☒
3) The proposed project would cause an increase in the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility in question would occur or be accelerated or the proposed project would include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
physical effect on the environment.				

Discussion:

(1) The project is consistent with the parks and open space policies in the General Plan.

(2-3) The project will not impact parks or open space, or cause an increase in the use of existing parks. The project involves the reuse of an existing health club into a K-12 Charter School, which would not impact parks.

12. INCREASED DEMAND FOR SCHOOLS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on school facilities expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR. By statute, the impact of new students is considered to be mitigated below a level of significance by payment of school impact fees and the exercise of any or all of the financing options set out in Government Code Section 65997.

Cumulative Impacts

Effect: Similar to direct impacts of implementation of the Urban Area General Plan, no residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Mitigation relies upon the implementation of the policies in place under the Modesto Urban Area General Plan. As long these policies are applied to all subsequent projects, no new mitigation is necessary. Further, payment of school impact fees and compliance with SB 50 is statutorily deemed to be full mitigation of school impacts (Government Code Section 65995).

The following schools mitigation measures on pages V-12-5 through V-12-7 of the Master EIR are pertinent to the proposed project. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures are listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-12.B of the Master EIR discloses impacts resulting from implementation of the Urban Area General Plan associated with increased demand for schools. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
12. INCREASED DEMAND FOR SCHOOLS				
1) The proposed project is inconsistent with the policies relating to schools in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project does not comply with SB 50/Proposition 1A funding provisions, or succeeding measures which state that compliance results in less-than-significant impacts on schools.	☐	☐	☐	☒

Discussion:

(1) The project involves the reuse of an existing health club into a new K-12 Charter School, which would not conflict with policies related to schools in the General Plan.

(2) The project would not conflict with SB50/Proposition 1A funding provisions, or succeeding measures.

13. INCREASED DEMAND FOR POLICE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on police services expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Police services mitigation measures pertinent to the proposed project are found on pages V-13-2 through V-13-5 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-13.B of the Master EIR discloses impacts on police services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
13. INCREASED DEMAND FOR POLICE SERVICES				
1) The proposed project is inconsistent with policies relating to police services in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the policies relating to police services in the General Plan.

(2) The project would not result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives. The project was referred to the City Police Department, who indicated no concerns.

14. INCREASED DEMAND FOR FIRE SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on fire services expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Fire Services mitigation measure(s) pertinent to the project being analyzed in this Initial Study are found on pages V-14-4 through V-14-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-14.B of the Master EIR discloses impacts on fire services resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
14. INCREASED DEMAND FOR FIRE SERVICES				
1) The proposed project is inconsistent with the fire service policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in the need for new or significantly altered facilities not considered as part of the Urban Area General Plan or Master EIR which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times, or other performance objectives.	☐	☐	☐	☒
3) The proposed project, based upon substantial evidence, would cause the erosion or elimination of fire protection services in adjoining fire protection	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
districts.				

Discussion:

(1) The proposed project is consistent with the fire service policies in the General Plan.

(2) The project would not result in the need for construction of new or significantly altered facilities which could cause new significant environmental impacts in order to maintain acceptable service ratios, response times or other performance objectives.

(3) The project would not cause the erosion or elimination of fire protection services. The project will meet City Standards for emergency services access.

15. GENERATION OF SOLID WASTE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on solid waste expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Solid waste mitigation measures pertinent to the proposed project are found on pages V-15-4 through V-15-7 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-15.B of the Master EIR discloses solid waste impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
15. GENERATION OF SOLID WASTE				
1) The project is inconsistent with the solid waste policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The County is unable to expand its solid waste disposal capacity, as expected, causing all new development to result in cumulative impacts on the County's disposal capacity.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the solid waste policies in the General Plan.

(2) The project would not cause an impact to the disposal capacity of solid waste facilities in the County.

16. GENERATION OF HAZARDOUS MATERIALS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts regarding hazardous materials expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Hazardous materials mitigation measures pertinent to the proposed project are found on pages V-16-8 through V-16-13 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-16.B of the Master EIR discloses impacts on hazardous materials resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
16. GENERATION OF HAZARDOUS MATERIALS				
1) The project is inconsistent with the hazardous materials policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.	☐	☐	☐	☒
3) The proposed project would be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would create a significant hazard to the public or the environment.	☐	☐	☐	☒
4) The proposed project would be constructed on a contaminated site not known to the State of California as of March 2008.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the hazardous materials policies in the General Plan.

(2) The project will comply with all applicable federal, state, and county standards and regulations relative to the handling, storage, disposal, and transport of hazardous or toxic materials or wastes. (No hazardous materials will be involved with this project).

(3) The project is not located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and as a result, would not create a significant hazard to the public or the environment.

(4) The project site is not known to contain any contaminants.

17. GEOLOGY, SOILS, AND MINERAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts related to geology, soils, and mineral resources expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Geology, soils, and mineral resource mitigation measures pertinent to the proposed project are found on pages V-17-9 and V-17-10 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of the proposed project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-17.B of the Master EIR discloses geology, soils, and mineral resource impacts resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. Project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
17. GEOLOGY, SOILS, AND MINERAL RESOURCES				
1) The project is inconsistent with policies relating to geology, soils, and mineral resources contained in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would expose people or structures to potential substantial adverse effects including the risk off loss, injury, or death involving fault rupture, strong seismic activity; location on an	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
expansive soil; result in the loss of topsoil; location on soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems in areas where sewers are not available for the disposal of wastewater; result in the loss of known mineral resources that would be of value to the region and the state; or result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan.				

Discussion:

(1) The project is consistent with policies relating to geology, soils, and mineral resources in the General Plan.

(2) The project site is not be located on soil that is unstable, or that would become unstable as a result of the project. There are no known mineral resources of value to the region and the state on the property.

18. ENERGY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to energy expected after application of mitigations/policies:

Direct Impacts

Effect: Continued development in the Planned Urbanizing Area would have an impact on available energy supplies. Energy consumption likely would increase substantially by 2025 as a result of implementation of the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on energy consumption.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following energy mitigation measures pertinent to the proposed project are found on pages V-18-2 through V-18-8 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
18. ENERGY				
1) The proposed project is inconsistent with policies relating to energy in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in energy consumption during construction, operation, maintenance, or removal that is more wasteful, inefficient, and unnecessary than assumed in the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the energy policies in the General Plan.

(2) The project would not result in energy consumption during construction, operation, maintenance or removal that is more wasteful, inefficient and unnecessary than assumed in the General Plan.

19. EFFECTS ON VISUAL RESOURCES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on visual resources expected after application of mitigations/policies:

Direct Impacts

Effect: New development in the Planned Urbanizing Area will occur in areas that are in agricultural production or are otherwise lightly developed, which could lead to the introduction of light and glare in areas that have little nighttime illumination.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following visual resources mitigation measures pertinent to the proposed project are found on pages V-19-3 and V-19-4 in the Master EIR. All mitigation measures appropriate to the proposed project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on energy resources. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
19. EFFECTS ON VISUAL RESOURCES				
1) The proposed project is inconsistent with policies relating to visual resources in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would degrade views from riverside areas and parks to a greater degree than assumed in the Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project would degrade views of riverside areas from public roadways and nearby properties to a greater degree than assumed in the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the policies relating the visual resources in the General Plan.

(2-3) The project would not impact views from riverside areas and parks, nor would degrade views of riverside areas and parks from public roadways.

20. LAND USE AND PLANNING

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to land use and planning expected after application of mitigations/policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following land use and planning mitigation measures pertinent to the proposed project are found on pages V-20-6 through V-20-17 in the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-20.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on land use and planning. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
20. LAND USE AND PLANNING				
1) The proposed project is inconsistent with land use and planning policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project contains elements that would physically divide an established community in a way not assumed in the Urban Area General Plan.	☐	☐	☐	☒

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
3) The proposed project conflicts with a land use plan, policy or regulation established for the purpose of avoiding or mitigating an environmental impact by an agency that has jurisdiction over the proposed project.	☐	☐	☐	☒
4) The proposed project conflicts with an applicable habitat conservation plan or natural community conservation plan.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the Mixed Use (MU) land use designation in the General Plan.

(2) The project would not divide an established community. The proposal is to rezone two existing residential properties on an arterial street to Professional Office uses, in an area that is transitioning from residential uses to office uses.

(3) The project is consistent with the land use plan, policies and regulations of the City of Modesto designed to mitigate project impacts.

(4) The project does not conflict with applicable habitat conservation plans or natural community conservation plans.

21. CLIMATE CHANGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts pertaining to climate change expected after application of mitigations/policies:

Direct Impacts

Effect: Impacts resulting from implementation of the Urban Area General Plan are not substantial enough to result in a significant direct impact on climate change, as disclosed in the Master EIR.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will have a cumulatively considerable impact on climate change.

b. Master EIR and/or New Mitigation Measures Applied to the Project

The following climate change mitigation measures pertinent to the proposed project are found on pages V-21-7 through V-21-10 in the Master EIR. All mitigation measures appropriate to the project

will be incorporated into or made conditions of approval of this project. Those measures will be listed in Section V, Mitigation Applied to Project.

Discussion:

There are no applicable mitigation measures from the Master EIR. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-18.B of the Master EIR discloses impacts of implementing the Urban Area General Plan on climate change. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
21. CLIMATE CHANGE				
1) The proposed project is inconsistent with policies relating to climate change in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would result in average automobile trip lengths or CO_2 emissions higher than those assumed in the Master EIR.	☐	☐	☐	☒
3) The proposed project would conflict with the Sustainable Communities Strategy or Alternative Planning Strategy that the Air Resources Board has agreed will achieve the goals of AB 32.	☐	☐	☐	☒

Discussion:

(1) The project is consistent with the policies relating to climate change in the Urban Area General Plan. The project would not have a significance effect on climate change.

(2) The project would not affect automobile trip lengths or CO_2 emissions.

(3) A Sustainable Communities Strategy has not yet been implemented by the ARB. Future development will be required to comply with the provisions of the Sustainable Communities Strategy once it is established.

V. MITIGATION MEASURES APPLIED TO THE PROPOSED PROJECT

If the Initial Study results in the determination that a Finding of Conformance can be adopted for the proposed project Section A below applies. If the Initial Study results in the determination that a Finding of Conformance cannot be adopted and a Mitigated Negative Declaration/EIR must be prepared for the project then Section B, below applies.

A. Master EIR Mitigation Measures Applied to the Project

Pursuant to Public Resources Code Section 21157.1(c), in order for a Finding of Conformance to be made, all appropriate mitigation measures from the Master EIR shall be incorporated into the proposed project. Urban Area General Plan Policies/Master EIR mitigation measures shall be made part of the proposed project prior to approval by means of conditions of project approval or incorporation into the appropriate document or plan.

All applicable and appropriate mitigation measures have been applied to the project (see mitigation measures listed below).

B. New or Additional Mitigation Measures or Alternatives Required

Where the project's effects would exceed the significance criteria for each environmental impact category, a mitigated negative declaration or Focused EIR must be prepared. Staff has reviewed the project against the significance criteria thresholds established in the Master EIR for all impact categories in this Initial Study.

A Mitigated Negative Declaration or Focused EIR shall be prepared for the project. The following additional project-specific mitigation measures listed below are necessary to reduce the identified new significant effect: none.

Traffic and Circulation:

N/A

Degradation of Air Quality:

AQ-42: All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover.

AQ-44: All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.

AQ-46: When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.

AQ-47: All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. (the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)

AQ-48: Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.

AQ-49: Within urban areas, track out shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.

AQ-50: Any site with 150 or more vehicle trips per day shall prevent carryout and track out.

Generation of Noise:

N-3: The project shall comply with the City's noise ordinance. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields. Equipment that is quieter than standard equipment should be utilized. Haul routes that affect the fewest number of people should be selected.

Effects on Agricultural Lands:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-119

Print

RESOLUTION APPROVING THE PLANS AND SPECIFICATIONS FOR THE SENIOR CITIZENS CENTER & AIRPORT NEIGHBORHOOD COMMUNITY CENTER KITCHEN RENOVATION PROJECTS, ACCEPTING THE BID, AND APPROVING A CONSTRUCTION CONTRACT WITH JHK CONSTRUCTION, INC., ESCALON, CA, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE CONTRACT IN THE AMOUNT OF $407,300

WHEREAS, as a U.S. Department of Housing and Urban Development (HUD) entitlement community, the City of Modesto is required to develop an Annual Action Plan that describes proposed activities funded with Community Development Block Grant (CDBG), HOME Investment Partnerships (HOME), and Emergency Solutions Grant (ESG) funds, and

WHEREAS, on June 14, 2016, City Council, by Resolution No. 2016-254, approved the Program Year 2016-2017 Annual Action Plan (Plan), and

WHEREAS, included in the Plan were anticipated use of CDBG funds for Public Facility Improvements for the Senior Center (100865) and Airport Neighborhood Community Center (100868), and

WHEREAS, there is no impact to the General Fund as these funds are received from HUD for the project, and

WHEREAS, the project will renovate the existing Senior Citizen's Center kitchen providing for new appliances, sinks, counters and expand the kitchen to accommodate the needs of the users of the facility, and

WHEREAS, the project will install a commercial grade kitchen in the Airport Neighborhood Center to accommodate the needs of the community, and

WHEREAS, the project was advertised for bids on February 1, 2017, and

WHEREAS, on February 28, 2017, Council approved Resolution No. 2017-86 Implementing a spending freeze in order to maintain fiscal sustainability of the City. The City Manager's Office approved an exception to this freeze for this procurement based upon the fact that this project is fully funded by Grant funds and no General Fund money is required to complete this project.

WHEREAS, bids were publicly opened on March 7, 2017 pursuant to Modesto Municipal Code section 8-3.403, and

WHEREAS, three bids were received, three bids were above the engineer's estimate, and

WHEREAS, the lowest responsive and responsible bid was JHK Construction, Inc., Escalon, CA, 10.08% above the engineer's estimate, and

WHEREAS, the remaining bids ranged from 51% above to 62% above the engineers, estimate.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the plans and specifications for the Senior Citizens Center & Airport Neighborhood Community Center Kitchen Renovation Projects, accepts the bid, and approves a construction contract with JHK Construction, Inc., Escalon, CA.

BE IT FURTHER RESOLVED by the Council of the City of Modesto authorizes the City Manager, or his designee, to execute the contract in the amount of $407,300.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of April, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold

RESOLUTION AMENDING THE FISCAL YEAR 2016-17 CAPITAL IMPROVEMENT PROGRAM BUDGET IN THE AMOUNT OF $271,444 TO BE TRANSFERRED INTO THE PROJECT FROM CDBG FUNDS IN ORDER TO FULLY FUND THE CONSTRUCTION, CONTINGENCY, CONSTRUCTION ADMINISTRATION, AND DESIGN SUPPORT DURING CONSTRUCTION FOR THE SENIOR CITIZENS CENTER & AIRPORT NEIGHBORHOOD COMMUNITY CENTER KITCHEN RENOVATION PROJECTS, AND AUTHORIZING THE DEPUTY CITY MANAGER, OR HIS DESIGNEE, TO IMPLEMENT THE AMENDMENTS

WHEREAS, on June 14, 2016, City Council, by Resolution No. 2016-254, approved the Program Year 2016-2017 Annual Action Plan (Plan), and

WHEREAS, included in the Plan were anticipated use of CDBG funds for Public Facility Improvements for the Senior Citizens Center (100865) and Airport Neighborhood Community Center (100868), and

WHEREAS, the total estimated cost for the construction portion of the projects is $521,344.00.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes amending the FY 2016-2017 Capital Improvement Program Budgets to add $197,026.40 in CDBG funds to fully fund the Senior Citizens Center (100865) and $74,417.60 in CDBG funds to fully fund the Airport Neighborhood Community Center (100868).

BE IT FURTHER RESOLVED by the Council of the City of Modesto that it authorizes the Deputy City Manager, or his designee, to implement the amendments.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of April, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION ACCEPTING THE FEDERAL AVIATION ADMINISTRATION (FAA) GRANT FUNDED AIRPORT IMPROVEMENT PROGRAM (AIP) NO. 39 PROJECT TITLED "AIRPORT PERIMETER FENCE CONSTRUCTION" AS COMPLETE, AND AUTHORIZING ALL NECESSARY STEPS TO FILE THE NOTICE OF COMPLETION WITH THE COUNTY CLERK RECORDER

WHEREAS, the Modesto City-County Airport (Airport) is a federally obligated facility and is required to meet Federal Aviation Administration (FAA) standards, and

WHEREAS, the FAA requires that the Airport secure the airport and implement methods to reduce the hazard of wildlife strikes to aircraft, and

WHEREAS, the fencing project replaced 1.5 miles of failing airport perimeter fencing, enhancing security and adding wildlife deterrent fencing for compliance, and

WHEREAS, the Airport Perimeter Fence Construction Project has been completed by Golden Bay Fence of Stockton, CA in accordance with the contract agreement dated September 2, 2015.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Airport Perimeter Fence Construction Project is hereby accepted as complete from said contractor, Golden Bay Fence, of Stockton, CA.

BE IT FURTHER RESOLVED that the City Clerk is authorized to complete all necessary steps to file the Notice of Completion with the County Clerk Recorder.

RESOLUTION APPROVING AMENDMENT NO. 3 TO CITY OF MODESTO PROGRAM YEAR 2016-2017 ANNUAL ACTION PLAN TO ALLOCATE $400,000 IN COMMUNITY DEVELOPMENT BLOCK GRANT ENTITLEMENT FUNDS TO CARRY OUT A HOMEBUYERS ASSISTANCE PROGRAM; AUTHORIZING CITY STAFF TO SUBMIT AN APPLICATION TO HUD FOR AMENDMENT NO. 3 TO THE CITY OF MODESTO PROGRAM YEAR 2016-2017 ANNUAL ACTION PLAN, ATTACHED HERETO AS EXHIBIT A; AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO NEGOTIATE AND EXECUTE ANY RELATED PROGRAM AGREEMENTS, CONTRACTS OR OTHER DOCUMENTATION REQUIRED FOR IMPLEMENTATION OF AMENDMENT NO. 3

WHEREAS, on June 14, 2016, the City Council, by Resolution No. 2016-254, approved the submission of the Program Year 2016-2017 Annual Action Plan (AAP) to the U.S. Department of Housing and Urban Development (HUD), and

WHEREAS, on June 21, 2016, City Council, by Ordinance No., 3652-C.S., adopted the Fiscal Year 2016-2017 Annual and Multi- Year Operating Budgets, and

WHEREAS, any changes to AAP allocations are accomplished through amendments to the AAP, and

WHEREAS, on October 4, 2016, the City Council, by Resolution No. 2016-405, approved Amendment No. 1 to the City of Modesto Program Year 2016-17 AAP, and

WHEREAS, on January 10, 2017, the City Council, by Resolution No. 2017-19, approved Amendment No. 2 to the City of Modesto Program Year 2016-17 AAP, and

WHEREAS, Amendment No. 3 to the City of Modesto Program Year 2016-17 AAP (Amendment No. 3) allocates $400,000 in Community Development Block Grant funds for the purpose of carrying out a homebuyer assistance program to assist eligible first time buyers with gap financing loans to allow the purchase of a home, and

WHEREAS, the public was afforded a 30-day comment period on the proposed amendment, and

WHEREAS, on March 9, 2017, City staff presented the Amendment No. 3 to the Citizens' Housing & Community Development Committee meeting who recommended it be forwarded to City Council for approval, and

WHEREAS, on March 9, 2017, City staff held a community meeting, to assess local needs and priorities related to Amendment No. 3, and

WHEREAS, the 30-day public review period to review and comment on the draft documents opened on February 5, 2017 and closed with a public hearing at the City Council meeting on Tuesday, April 4, 2017, and

WHEREAS, any comments received during the public review period or during the April 4, 2017 City Council meeting will be incorporated into the final Amendment No. 3 to City of Modesto Program Year 2016-2017 Annual Action Plan.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby adopts Amendment No. 3 to City of Modesto Program Year 2016-2017 Annual Action Plan to allocate $400,000 in Community Development Block Grant entitlement funds to carry out a Homebuyers Assistance Program and authorizing the City Manager, or his designee, to negotiate and execute any related program agreements, contracts or other documentation required for implementation of Amendment No. 3.

BE IT FURTHER RESOLVED that City staff is authorized to submit an application to HUD for Amendment No. 3 to the City of Modesto Program Year 2016-2017 Annual Action Plan as described in "Program Year 2016-2017 Annual Action Plan Third Amendment," **attached** hereto as **Exhibit A** and incorporated by reference herein.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the City Manager, or his designee, is hereby authorized to negotiate and execute any related program agreements, contracts or other documentation required for implementation of Amendment No. 3 to City of Modesto Program Year 2016-17 Annual Action Plan.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of April, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

EXHIBIT A

City of Modesto
Program Year 2016-2017 Annual Action Plan
Amendment No. 3

THIRD AMENDMENT

City of Modesto
FY 2016-2017 Annual Action Plan

Substantial Amendment

City Council April 4, 2017

The purpose of the Substantial Amendment is to define the following Eligible Uses:

1. **Establish a Fund in the amount of $400,000 for the purpose of carrying out a Homebuyer Assistance Program to assist eligible first time buyers with gap financing loans to allow the purchase of a home. The fund is designed to generate payments to the fund once loans are paid to the City of Modesto. All recaptured loan funds will be used to carry out the same activity- 24 CFR 570.201(n)**

   Homebuyer Assistance Program $400,000

   Resources: CDBG 24CFR 570.201(n)

   National Objective: Low/Moderate Income Clientele (LMC)
   - Up to 50% of down payment assistance amount;
   - All assisted households must be low- and moderate-income;
   - Interest rate write-downs;
   - Principal write-downs; and
   - Subsidizing interest rates and mortgage principal amounts, including making grants to reduce the effective interest rate on the amount needed by the purchaser to an affordable level. (Funds granted would have to be applied to the purchase price);
   - Subordinating direct loans toward the purchase price, at little interest, so that the total mortgage will be affordable to the purchaser;
   - Paying all or part of the premium (on behalf of the purchaser) for the mortgage insurance required up-front by a private mortgagee. (This would include private mortgage insurance (PMI)).

RESOLUTION AMENDING THE FISCAL YEAR 2016-17 ANNUAL OPERATING AND CAPITAL IMPROVEMENT BUDGETS TO REFLECT CHANGES NOTED IN THE ATTACHED AMENDMENT NO. 3 TO THE CITY OF MODESTO'S PROGRAM YEAR 2016-2017 ANNUAL ACTION PLAN FOR COMMUNITY DEVELOPMENT BLOCK GRANT, AND AUTHORIZING THE DEPUTY CITY MANAGER, OR HIS DESIGNEE, TO TAKE THE NECESSARY STEPS TO IMPLEMENT THE PROVISIONS OF THIS RESOLUTION

WHEREAS, on June 14, 2016, the City Council, by Resolution No. 2016-254, approved the submission of the Program Year 2016-2017 Annual Action Plan (AAP) to the U.S. Department of Housing and Urban Development (HUD), and

WHEREAS, on June 21, 2016, City Council, by Ordinance No. 3652-C.S., adopted the Fiscal Year 2016-2017 Annual and Multi-Year Operating Budgets, and

WHEREAS, any changes to AAP allocations are accomplished through amendments to the AAP, and

WHEREAS, on October 4, 2016, the City Council, by Resolution No. 2016-405, approved Amendment No. 1 to the City of Modesto Program Year 2016-17 AAP, and

WHEREAS, on January 10, 2017, the City Council, by Resolution No. 2017-19, approved Amendment No. 2 to the City of Modesto Program Year 2016-17 AAP, and

WHEREAS, Amendment No. 3 to the City of Modesto Program Year 2016-17 AAP (Amendment No. 3) allocates $400,000 in Community Development Block Grant funds for the purpose of carrying out a homebuyer assistance program to assist eligible first time buyers with gap financing loans to allow the purchase of a home, and

WHEREAS, the public was afforded a 30-day comment period on the proposed amendment, and

WHEREAS, on March 9, 2017, City staff presented Amendment No. 3 to the Citizens' Housing & Community Development Committee meeting who recommended it be forwarded to forward to City Council for approval, and

WHEREAS, on March 9, 2017, City staff held a community meeting, to assess local needs and priorities related to Amendment No. 3.

NOW, THEREFORE, BE IT RESOLVED, that the Modesto City Council hereby approves an amendment to the fiscal year 2016-17 annual operating and capital improvement budgets to reflect changes noted in Amendment No. 3, **attached** hereto as **Exhibit A**, to City of Modesto's Program Year 2016-2017 Annual Action Plan for Community Development Block Grant and authorizing the Deputy City Manager, or his designee, to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of April, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING AMENDMENT NO. 4 TO CITY OF MODESTO PROGRAM YEAR 2016-2017 ANNUAL ACTION PLAN TO ALLOCATE $1,200,000 IN COMMUNITY DEVELOPMENT BLOCK GRANT ENTITLEMENT FUNDS TO ESTABLISH A RENTAL HOUSING REHABILITATION PROGRAM TO SERVE LOW INCOME HOUSING, AND AMEND AN EXISTING PROGRAM NAME TO "AFFORDABLE HOUSING ACQUISITION PROGRAM" AND ALLOCATE AN ADDITIONAL $400,000 IN FUNDING; AUTHORIZING CITY STAFF TO SUBMIT AN APPLICATION TO HUD FOR AMENDMENT NO. 4 TO THE CITY OF MODESTO PROGRAM YEAR 2016-2017 ANNUAL ACTION PLAN, ATTACHED HERETO AS EXHIBIT A; AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO NEGOTIATE AND EXECUTE ANY RELATED PROGRAM AGREEMENTS, CONTRACTS OR OTHER DOCUMENTATION REQUIRED FOR IMPLEMENTATION OF AMENDMENT NO. 4

WHEREAS, on June 14, 2016, the City Council, by Resolution No. 2016-254, approved the submission of the Program Year 2016-2017 Annual Action Plan (AAP) to the U.S. Department of Housing and Urban Development (HUD), and

WHEREAS, on June 21, 2016, City Council, by Ordinance No., 3652-C.S., adopted the Fiscal Year 2016-2017 Annual and Multi- Year Operating Budgets, and

WHEREAS, any changes to AAP allocations are accomplished through amendments to the AAP, and

WHEREAS, on October 4, 2016, the City Council, by Resolution No. 2016-405, approved Amendment No. 1 to the City of Modesto Program Year 2016-17 AAP, and

WHEREAS, on January 10, 2017, the City Council, by Resolution No. 2017-19, approved Amendment No. 2 to the City of Modesto Program Year 2016-17 AAP, and

WHEREAS, on April 4, 2017, the City Council, by Resolution No. 2017-128, approved Amendment No. 3 to the City of Modesto Program Year 2016-17 AAP, and

WHEREAS, Amendment No. 4 to the City of Modesto Program Year 2016-17 AAP (Amendment No. 4) to allocate $1,200,000 in Community Development Block Grant entitlement funds to establish a Rental Housing Rehabilitation Program to serve low income housing and (2) amend an existing program name to "Affordable Housing Acquisition Program" and allocate an additional $400,000 in funding, and

WHEREAS, the public was afforded a 30-day comment period on the proposed amendment, and

WHEREAS, on March 9, 2017, City staff presented the Amendment No. 4 to the Citizens' Housing & Community Development Committee meeting who recommended it be forwarded to forward to City Council for approval, and

WHEREAS, on March 9, 2017, City staff held a community meeting, to assess local needs and priorities related to Amendment No. 4, and

WHEREAS, the 30-day public review period to review and comment on the draft documents opened on March 5, 2017 and closed with a public hearing at the City Council meeting on Tuesday, April 4, 2017, and

WHEREAS, any comments received during the public review period or during the April 4, 2017 City Council meeting will be incorporated into the final Amendment No. 4 to City of Modesto Program Year 2016-2017 Annual Action Plan.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby adopts Amendment No. 4 to City of Modesto Program Year 2016-2017 Annual Action Plan to allocate $1,200,000 in Community Development Block Grant entitlement funds to establish a Rental Housing Rehabilitation Program to serve low

income housing, amend an existing program name to "Affordable Housing Acquisition Program" and allocate an additional $400,000 in funding.

BE IT FURTHER RESOLVED that City staff is authorized to submit an application to HUD for Amendment No. 4 to the City of Modesto Program Year 2016-2017 Annual Action Plan as described in "Program Year 2016-2017 Annual Action Plan Fourth Amendment," **attached** hereto as **Exhibit A** and incorporated by reference herein.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the City Manager, or his designee, is hereby authorized to negotiate and execute any related program agreements, contracts or other documentation required for implementation of Amendment No. 4 to City of Modesto Program Year 2016-17 Annual Action Plan.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of April, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING AN EXTENSION OF THE CURRENT NON-EXCLUSIVE NON-CONSENSUAL FRANCHISE TOWING SERVICES AGREEMENT, REQUEST FOR APPLICATION (RFA) NO. 1314-28 CONTRACT, UNTIL THE COMPLETION OF THE RFA PROCESS OR UP TO SIX MONTHS

WHEREAS, on April 14, 2014, the City Council awarded Non-Exclusive Non-Consensual Franchise Towing Services contracts (RFA No. 1314-28) to sixteen applicants, and

WHEREAS, the current contract is a three year contract with two one-year extensions, and

WHEREAS, the current contract expires on April 13, 2017, and

WHEREAS, the Non-Exclusive Non-Consensual Franchise Towing Services contract has been managed by the Police Department for approximately eight years, and

WHEREAS, the Great Safe Neighborhoods Committee heard this agenda item on March 13, 2017 and recommended forwarding to the City Council for approval, and

WHEREAS, upon approval by the City Council of Resolution No. 2017-132, approving a Request for Application (RFA) authorizing the Purchasing Manager to issue the RFA, and

WHEREAS, the Purchasing Manager will issue the RFA for Non-Exclusive Non-Consensual Franchise Towing Services within 90 days from Council's approval.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the extention of the current Non-Exclusive Non-Consensual Franchise Tow Agreement, RFA No. 1314-28 contract, until the completion of the RFA process or up to six months.

RESOLUTION APPROVING A REQUEST FOR APPLICATION (RFA) AND IMPLEMENTATION OF THE CITY OF MODESTO NON-EXCLUSIVE NON-CONSENSUAL FRANCHISE TOWING SERVICE AGREEMENT 90 DAYS FROM COUNCIL'S APPROVAL OF THIS ITEM

WHEREAS, on March 13, 2017, the Great Safe Neighborhoods Committee received a report from the Police Department requesting endorsement for the issuance of a RFA for City Council approval of Non-Exclusive Non-Consensual Franchise Tow Services, and

WHEREAS, in September 2016, Police Department staff embarked on formulating an improved contract for the City that would provide optimum service, greater accountability and a tiered fees structure that would offset the growing cost of the City's Non-Consensual Towing Program, and

WHEREAS, it is the intent of the Modesto Police Department to secure safe and reliable towing services and a manageable contract that will also offset the City's costs of its Non-Consensual Towing Program, and

WHEREAS, a Non-Exclusive Non-Consensual Franchise Towing Service Agreement with specific requirements, including a tiered fee structure and implementation of dispatching and tracking software will ensure safe, prompt, reliable and professional service to the Police Department and the citizens of Modesto, and

WHEREAS, recommendation for contract awards will be made for all companies that meet the financial/business/insurance and application requirements, and

WHEREAS, financial/business and insurance requirements will be reviewed by the Finance Director and the Risk Manager, and

WHEREAS, the Modesto Police Department will review the RFA.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Request for Application (RFA) and authorizes the Purchasing Manager to issue the Request for Application for City of Modesto Non-Exclusive Non-Consensual Franchise Towing Services 90 days from Council's approval of this item.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of April, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING THE AMENDED TIERED TOW RELEASE FEES

WHEREAS, the Police Department will be making a formal Request for Applications (RFA) for Non-Exclusive Non-Consensual Franchise Towing Services, and

WHEREAS, the new Non-Exclusive Non-Consensual Franchise Towing Services Agreement would be a three year contract with the option for two one-year extensions, and

WHEREAS, the new Non-Exclusive Non-Consensual Franchise Towing Services Agreement would charge the approved applicants the current $60 franchise fee for the first two years, and the franchise fee would increase to $70 commencing in the third year of this Agreement (i.e. the 731st day from the start date), and

WHEREAS, under a tiered tow release program the approved applicants would be allowed to charge the new rates for services rendered, as listed on **Exhibit A**, and

WHEREAS, the Franchise Tow project was developed under CVC 12110(b), which allows an agency to collect fees and charge a franchise fee, as long as it does not exceed its actual costs in doing so, and

WHEREAS, California Vehicle Code 22850.5 allows a City or entity to adopt a procedure for the release of properly impounded vehicles and for the imposition of a charge equal to its administrative costs relating to the removal, impound, storage, or release of the vehicle, and

WHEREAS, the Police Department did an updated study of the Vehicle Impound Fees and recommended a tiered tow release structure, and

WHEREAS, the purpose of the recommended tiered Tow Release Fees is to

recover costs that the Police Department incurs, and

WHEREAS, the tiered system includes the following categories and proposed fees: Illegally Parked/Abandoned Vehicle ($120); Unlicensed Driver/Expired Registration ($160); Suspended/Revoked Driver/Arrested ($250); DUI Driver ($450).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the implementation of the amended Tiered Tow Release Fees, **attached** hereto and hereinafter incorporated by reference as **Exhibit A.**

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of April, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING THE IMPLEMENTATION OF THE DISPATCHING AND TRACKING SOLUTION (DTS) SOFTWARE PROGRAM AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE AN AGREEMENT, IN A FORM APPROVED BY THE CITY ATTORNEY, RELATING TO THE IMPLEMENTATION OF THE SOFTWARE PROGRAM

WHEREAS, the City of Modesto Police Department currently utilizes a Tow Impound Tracking Database from 1998 that is antiquated and not accurately capturing statistics for vehicles that are towed by Modesto Police Department, and

WHEREAS, staff is recommending implementing a new DTS software program to replace the current Tow Impound Tracking Database, and

WHEREAS, the new Agreement will require tow companies to contract with DTS to tow for the Non-Exclusive Non-Consensual Franchise Towing Services Agreement, and

WHEREAS, the proposed contract for the tow companies with DTS software will charge the tow companies $12-$25 per vehicle towed, and

WHEREAS, the new software program will create more accountability on the part of the tow companies, and streamline the workload for the Franchise Tow Administrator, and

WHEREAS, the DTS software program is a web-based program which oversees summons, audits and manages tow requests, and

WHEREAS, the Police Department will receive a real-time view into the vehicle history of vehicles that are towed and stored, and

WHEREAS, the program will reduce officer wait time, improve public service, reduce dispatch call time, increase fee collections, and reduce department liability, and

WHEREAS, there will be a 90-day transitional period to allow for training in use of DTS,

WHEREAS, DTS software is used by Orange County, Sacramento Sheriff's Department, Clovis Police Department, and Fresno Police Department, and has been very successful, and

WHEREAS, DTS software is a free program to the Police Department.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the implementation of the Dispatching and Tracking Solution software program and authorizes the City Manager, or his designee, to execute an agreement, in a form approved by the City Attorney, relating to the implementation of the software program.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of April, 2017, by Councilmember Ridenour, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING THE INSTALLATION OF A PUBLIC ART PROJECT ON WELL #211; A MEMORANDUM OF UNDERSTANDING (MOU) BETWEEN THE CITY OF MODESTO AND THE LA LOMA NEIGHBORHOOD ASSOCIATION RELATING TO THE PROJECT; AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE MOU

WHEREAS, Section 4-22.04 of the Municipal Code of the City of Modesto authorizes the Culture Commission to approve or deny art project proposals, and

WHEREAS, the Culture Commission met on January 18, 2017 and approved a request by the La Loma Neighborhood Association to install a public art project on Well #211 at 904 Edgebrook Drive, subject to approval by the City to locate the project on public property and to meet the City requirements for installation.

WHEREAS, the La Loma Neighborhood Association proposes installation of a community art project to enhance the identity of the neighborhood and to engage the public, and

WHEREAS, the La Loma Neighborhood Association will create and install the piece at its own cost and expense, and

WHEREAS, The City must approve the method of installation of the art project before it is installed and the City does not anticipate any damage will be caused to Well #211 as a result of the installation.

WHEREAS, the La Loma Neighborhood Association will be responsible for all ongoing maintenance and repair of the project pursuant to the terms of the MOU, and

WHEREAS, the City will own the public art project once it becomes affixed to Well #211.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto hereby approves the installation of a public art project to Well #211.,

BE IT FURTHER RESOLVED, that the **attached** Memorandum of Understanding between the City of Modesto and the La Loma Neighborhood Association is hereby approved and the City Manager, or his designee, is authorized to execute the Memorandum of Understanding.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of April, 2017, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MEMORANDUM OF UNDERSTANDING

THIS Memorandum of Understanding ("Memorandum of Understanding" or "agreement"), made and entered into on _____, effective as of the last signature herein, in the City of Modesto, State of California, ("Effective Date") by and between the CITY OF MODESTO, a municipal corporation of the State of California, hereinafter referred to as the "CITY," and the La Loma Neighborhood Association, a California nonprofit organization, hereinafter referred to as "ASSOCIATION". The City and Association shall be collectively referred to as the "parties."

I. Recitals

This Memorandum of Understanding is made with regard to the following Recitals:

WHEREAS, the CITY owns and maintains a parcel in the CITY and pumping station Well # 211 located at 904 Edgebrook Drive, Modesto California ("Property"); and

WHEREAS, the ASSOCIATION desires to enhance this Property with the installation of a community art project, depicted in Exhibit A attached hereto and hereinafter incorporated by reference, which shall be a 14x4 framed panel which shall be covered with porcelain tiles that each have upon them art that has been painted by local neighbors in the La Loma neighborhood ("Project") and affixed to Well #211; and

WHEREAS, the CITY has made a strategic commitment to develop and maintain a safe and inviting community in which to live, work and play. Additionally, the City has adopted a Public Art Commission and is committed to making the City a more aesthetically pleasing and enjoyable place to live that reflects the City's diverse culture, history, future, and geography; and

WHEREAS, the CITY and the ASSOCIATION wish to affirm and formalize the understanding between the parties related to the ASSOCIATION's placement of the Project on City property; and

WHEREAS, both parties understand that ASSOCIATION does not have insurance and it is not feasible for ASSOCIATION to obtain insurance coverage for this Project, the CITY agrees to take its normal liability as it relates to the use of the Property by the public. This liability shall be limited during the construction and maintenance operations of the Project as outlined herein; and

WHEREAS, the parties intend this MOU to be binding and enforceable in a court of law.

II. Terms

NOW THEREFORE, in consideration of this Memorandum of Understanding, and the mutual promises, covenants and stipulations hereinafter contained, the parties agree as follows:

A. Recitals.

The parties agree that the aforementioned recitals are true and correct and are incorporated into the terms of this Memorandum of Understanding.

B. Term of Memorandum of Understanding.

The CITY shall allow placement of the Project on the Property until such time as either party terminates this Memorandum of Understanding, the Association ceases to exist, or the Project is destroyed.

C. Use of Property.

Use of the Property shall be for display of the Project only and may be terminated at any time, for any reason, by the CITY, pursuant to section F of this Memorandum of Understanding.

D. Ownership.

CITY shall own the Project once it is affixed to Well #211.

E. Installation.

1. ASSOCIATION shall secure the Project to Well #211. The method and means of affixing the Project on the Property shall be approved by City prior to installation and City staff must be present during the time the Project is affixed to Well #211.

2. The Project shall in no way interfere with the purpose and function of Well #211 nor shall it be installed in a manner that would cause damage to the Property.

F. Maintenance.

1. ASSOCIATION shall be responsible for the maintenance of the Project. For purposes of this agreement, "maintenance" shall mean the process of maintaining or preserving the Project, which includes, but is not limited to, the removal of graffiti or repair to the Project due to vandalism, weather, deterioration, or any other cause.

2. CITY shall contact ASSOCIATION and advise them of any necessary maintenance. Any maintenance that shall be performed by the ASSOCIATION must first be approved by the CITY.

3. The ASSOCIATION agrees to conduct any maintenance of the Project at its own expense.

4. CITY will continue to provide maintenance to the Property, including maintenance to the exterior of Well #211, at its own expense, but shall not contribute to the maintenance of the Project.

G. Termination.

Should the ASSOCIATION fail to maintain the Project the CITY shall issue a "notice of non-compliance" with this Memorandum of Understanding. The ASSOCIATION will have ten (10) days from the receipt of the notice to complete the required maintenance. If the ASSOCIATION does not comply with the notice, the CITY shall have the right to immediately terminate this Memorandum of Understanding and to remove the Project. If the Project is removed, the CITY may, in its discretion, relocate, store, or destroy the Project.

The CITY or the ASSOCIATION shall be able to terminate this Memorandum of Understanding, for any reason, upon thirty (30) days' written notice to the other party.

H. Insurance.

ASSOCIATION shall ensure that any and all general contractors working on the Project performing construction or maintenance, provide at their own expense and maintain at all times the following insurance with insurance companies licensed in the State of California and shall provide evidence of such insurance to City as may be required by the City Manager of City. The policies or certificates thereof shall provide that, thirty (30) days prior to cancellation or material change in the policy, notices of same shall be given to the Risk Manager of City by registered mail, return receipt requested. for all of the following stated insurance policies.

1. General Liability insurance with a minimum limit of liability per occurrence of $1,000,000 for bodily injury and $1,000,000 for property damage or $1,000,000 combined single limit. This insurance shall indicate on the certificate of insurance the following coverages and indicate the policy aggregate limit applying to: premises and operations; broad form contractual; independent contractors and subcontractors; products and completed operations; and/or professional liability
2. Automobile Liability insurance with a minimum limit of liability per occurrence of $1,000,000 for bodily injury and $100,000 for property damage or $1,000,000 combined single limit. This insurance shall cover any automobile for bodily injury and property damage.
3. Workers Compensation in compliance with the statutes of the State of California, plus employer's liability with a minimum limit of liability of $1,000,000.
4. The CITY, its agents, officers, employees, and volunteers shall be named as an additional insured on all insurance policies required herein, except Workers' Compensation. The Workers' Compensation insurer shall agree to waive all rights of subrogation against the CITY, its agents, officers, employees, and volunteers for losses arising from work performed on the Project. The insurance policy(ies) shall include a provision that the coverage is primary as respects the CITY; shall include no special limitations to coverage provided to additional insured; and, shall be placed with insurer(s) with acceptable Best's rating of A:VII or with approval of the Risk

Manager. Certificates must be delivered evidencing existence of the insurance listed above to the CITY prior to the time the contract is signed.

5. Contractor's or Organizations shall provide CITY with separate endorsements evidencing proof of the CITY's additional insured status as to both the general liability and automobile liability insurance policies. In addition, Contractor's or Organizations shall provide CITY with a Workers Compensation subrogation waiver by way of a separate endorsement. All endorsements referenced above must include the applicable policy number.

If at any time any of said policies shall be unsatisfactory to CITY, as to form or substance or if a company issuing such policy shall be unsatisfactory to CITY. ASSOCIATION shall promptly ensure contractors and organizations obtain a new policy, submit the same to Risk Manager of CITY for approval and submit a certificate thereof as herein above provided. Upon failure of ASSOCIATION to furnish, deliver or maintain such insurance and certificates as above provided, this Memorandum of Understanding, at the election of CITY, may be forthwith declared suspended or terminated. Failure of ASSOCIATION to ensure contractors and organizations obtain and/or maintain any required insurance shall not relieve ASSOCIATION from any liability under this Memorandum of Understanding, nor shall the insurance requirements be construed to conflict with or otherwise limit the obligations of ASSOCIATION concerning indemnification. If any insurance policy maintains higher limits than the minimum shown above, the CITY requires and shall be entitled to coverage for the higher limits maintained.

I. Waivers.

The ASSOCIATION agrees to ensure that all volunteers, contractors or organizations performing construction or maintenance on the Project sign a waiver of liability, attached hereto and incorporated by reference as Exhibit A, as required by the CITY. This waiver will be provided to the CITY shortly after the execution of the waiver by all volunteers, contractors, or organizations and will limit the liability for the CITY in respect to the construction and maintenance of the Project.

J. Compliance With Laws.

The ASSOCIATION and its agents shall not do or suffer to be done on or about the Property anything that would or does violate or conflict with any applicable law, ordinance, rule or regulation which is now in force or effect or which may hereafter be enacted or adopted by federal, state, county or municipal authority.

K. Partnership Disclaimer.

It is mutually understood and agreed that nothing in this agreement is intended or shall be construed as in any way creating or establishing the relationship of co-partners between the parties hereto, or as constituting the ASSOCIATION as agents or representatives of CITY for any purpose or in any manner whatsoever.

L. Entire Agreement.

This Memorandum of Understanding contains the sole and only agreement of the parties relating to the Project described herein. Any prior agreements, promises, negotiations or representations not expressly set forth in this Memorandum of Understanding are of no force or effect.

M. Notices.

All notices pursuant to this Memorandum of Understanding shall be in writing and served on the other party (a) by personal delivery, or (b) by certified mail, return receipt requested, to the respective addresses set forth below:

CITY: Cynthia Birdsill, CEDD Director
1010 Tenth Street, Ste. 3300
Modesto, CA 95356

ASSOCIATION: La Loma Neighborhood Association
Attn. Deborah Steinberg
1112 Highland Ave
Modesto, CA. 95354

N. Amendments.

This Memorandum of Understanding, including any exhibits hereto, shall not be amended, except in writing and signed by the parties. Any amendment or addendum to this Memorandum of Understanding shall expressly refer to this agreement.

O. No Limitation on Property Rights.

Nothing contained herein shall limit or restrict the CITY'S ownership of the Property and the ASSOCIATION may continue use of the Property until such time as this Memorandum of Understanding is terminated. The parties agree that this Memorandum of Understanding does not vest any property rights with the ASSOCIATION.

P. Governing Law.

This Memorandum of Understanding shall be governed according to the laws of the State of California and venue shall be proper in Stanislaus County Superior Court.

Q. Time.

Time is of the essence in every provision of this contract.

R. Partial Invalidity.

If any provision in this Memorandum of Understanding is held by a court of competent jurisdiction to be invalid, void, or unenforceable, the remaining provisions shall nevertheless continue in full force without being impaired or invalidated in any way.

S. Waiver.

The waiver by any party to this Memorandum of Understanding of a breach of any provision hereof shall be in writing and shall not operate or be construed as a waiver of any other or subsequent breach hereof unless specifically stated in writing.

IN WITNESS WHEREOF, the City of Modesto, a municipal corporation, has authorized the execution of this Memorandum of Understanding in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. 2017- , adopted by the Council of the City of Modesto on the _____ day of March, 2017, and La Loma Neighborhood Association has caused this agreement to be duly executed in duplicate as of the Effective Date

RESOLUTION APPROVING AN AGREEMENT WITH MODESTO JUNIOR COLLEGE (MJC) FOUNDATION AND STANISLAUS COUNTY, COMMENCING JULY 1, 2017, TO PROVIDE A MJC BUS PASS PROGRAM FOR THE MODESTO AREA EXPRESS (MAX) TRANSIT SYSTEM WITH AN ANNUAL REVENUE OF $100,000, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the City of Modesto operates the Modesto Area Express (MAX) bus system, and

WHEREAS, Stanislaus County operates the StaRT bus system, and

WHEREAS, the City wishes to promote ridership to college students on the MAX bus system, and

WHEREAS, college students are a demographic that utilize the bus due to their economic status, growing reluctance to use a personal vehicle and general focus on a sustainable environment, and

WHEREAS, the Modesto Junior College (MJC) Foundation is willing to enter into an agreement with the City and the County to start a bus pass program for all MJC students, and

WHEREAS, MJC will pay a set amount of $100,000 per year for the first two years of the agreement to the City's MAX system, and

WHEREAS, the revenues from the MJC bus program will be budgeted for the operations of MAX's fixed route system as part of the annual budget process.

NOW THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an agreement with MJC Foundation and Stanislaus County, commencing July 1, 2017 to provide a bus pass program for the MAX transit system with

an annual revenue of $100,000, and authorizing the City Manager, or his designee, to execute the agreement.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of April, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Zoslocki, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-137

RESOLUTION ACCEPTING THE FINAL REPORT AS PRESENTED FOR THE PROJECT TITLED "RETIME DOWNTOWN TRAFFIC SIGNALS – 2010 PROJECT" AS COMPLETE, AND AUTHORIZING THE CITY CLERK TO COMPLETE ALL NECESSARY STEPS TO FILE ALL DOCUMENTS WITH THE STANISLAUS COUNTY CLERK RECORDER

WHEREAS, the Retime Downtown Traffic Signals - 2010 Project has been completed by City of Modesto staff, and

WHEREAS, in 2010, the City of Modesto was awarded a grant from the Congestion Mitigation Air Quality (CMAQ) program to develop more efficient traffic signal timing plans along 18 designated corridors in the City, and

WHEREAS, staff collected traffic data which was used to retime 72 traffic signals within the downtown area of Modesto, and

WHEREAS, on May 27, 2016, timing plans were installed to minimize the impact on motorists.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Retime Downtown Traffic Signals - 2010 Project is hereby accepted as complete.

BE IT FURTHER RESOLVED, the City Clerk is authorized to complete all necessary steps to file all documents with the Stanislaus County Clerk Recorder.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of April, 2017, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-138

RESOLUTION APPROVING THE AWARD OF BIDS FOR PUMP STATION REJUVENATION SERVICES TO DON PEDRO PUMP, HUGHSON, CA, AS "PRIMARY" CONTRACTOR, AND HOWK SYSTEMS, MODESTO, CA, AS 'SECONDARY" CONTRACTOR, FOR A TWO YEAR AGREEMENT WITH THREE ONE-YEAR EXTENSION OPTIONS AT THE SOLE DISCRETION OF THE CITY, FOR AN ESTIMATED ANNUAL COST OF $600,000, AND $3,000,000 OVER FIVE YEARS, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO ISSUE PURCHASE AGREEMENTS FOR AN ESTIMATED ANNUAL COST OF $600,000

WHEREAS, the City Manager authorizes the Purchasing Manager to issue formal Request for Bids (RFB) for pump station rejuvenation services, and

WHEREAS, on January 24, 2017, the Purchasing Division issued RFB No. 1617-21 Pump Station Rejuvenation Services on the City's website under the commodity codes for pumps and pump accessory maintenance and repair, seventeen companies chose to download the RFB document, and

WHEREAS, bids were formally opened in the City Clerk's Office. Two (2) companies chose to respond, both were local vendors. All companies provided responsive and responsible bids, and

WHEREAS, to ensure continued services to the City, contracts shall be awarded to more than one contractor to provide for backup should the primary contractor be unable to meet the City's needs. A secondary contractor may be awarded a specific job if the primary contractor is unable to perform the service, the primary contractor is unable to complete the specific job within the time frame required by the City, or if the primary contractor is unable to maintain acceptable quality standards required by the City, and

WHEREAS, based on the responsive and responsible bids received, City staff recommends the award of bids for pump station rejuvenation services for the Utilities

Department, Water Services Division and Wastewater Services Division, to Don Pedro Pump, Hughson, CA, as "primary" contractor, and Howk Systems, Modesto, CA, as "secondary" contractor, and

WHEREAS, on February 28, 2017, Council approved Resolution No. 2017-86 implementing a spending freeze to maintain fiscal sustainability of the City. As allowed by the resolution, the City Manager's Office approved an exception to this freeze for this procurement. Justification for this exception is based upon the need of the Utilities Department to strengthen and maintain a safe infrastructure of water supply and sewers to ensure reliable fire protection, water and storm/sewer service to City of Modesto customers.

WHEREAS, Modesto Municipal Code Section 8-3.203 generally requires all purchases, which meet or exceed $50,000 for material, equipment or contractual services to be formally bid. The award of bids for the Pump station rejuvenation services to Don Pedro Pump, Hughson, CA, as "primary" contractors and Howk Systems, Modesto, CA, as "secondary" contractor, conforms to the Modesto Municipal Code, and

WHEREAS, the cost for these services will be covered by the Water and Wastewater funds through existing budget in the following cost centers and projects:

4100-45050-53150	Repair and Maintenance Services
CIP – 100800	Well Rehabilitation
4210-44314-53100	UPP – Jennings Plant Maintenance
4210-44313-53100	UPP – Sutter Plant Maintenance
4210-44315-53100	UPP – Sewer Lift Stations
4480-44311-53100	UPP – Stormwater Lift Stations

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the award of bids for pump station rejuvenation services to Don Pedro Pump, Hughson, CA, as "primary" contractor, and Howk Systems, Modesto, CA, as "secondary" contractor.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to issue purchase agreements for an estimated annual cost of $600,000.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of April, 2017, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING AN AGREEMENT WITH DF ENGINEERING, INC., MODESTO, CA, FOR ENGINEERING DESIGN SERVICES FOR THE NINTH STREET STORM DRAIN BASIN AND PUMP STATION PROJECT, IN AN AMOUNT NOT TO EXCEED $89,750 FOR THE IDENTIFIED SCOPE OF SERVICES, PLUS $8,975 FOR ADDITIONAL SERVICES, IF NEEDED, FOR A MAXIMUM TOTAL AMOUNT OF $98,725, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT

WHEREAS, the proposed storm drain basin on 9th Street was initially part of the Kansas Needham Overpass Project but was not constructed due to site issues, and

WHEREAS, this storm drain basin is necessary for additional storm water storage, and

WHEREAS, the basin will be designed to maximize the horizontal footprint and vertical depth to achieve optimal storage capacity, and

WHEREAS, a pump station will be also constructed to transfer storm water into the existing nearby MID canal Lat. No.4 once a certain water level in the basin is filled, and

WHEREAS, in addition to the storage basin, new storm drain conveyance and storage improvements will be provided to alleviate the localized flooding experienced at the nearby area of 9th Street and Tully Road, and

WHEREAS, these improvements will provide remediation measures to mitigate storm water from ponding at different locations along 9th Street and will allow the intersections to function in their normal state during storm events without storm water impeding the traffic flow, and

WHEREAS, City staff is recommending the use of a consultant to increase project delivery efficiencies, and

WHEREAS, on September 13, 2016, by Resolution 2016-356, Council approved a prequalified list of local consultants for Civil Engineering Services for Capital Improvement Program (CIP) projects, and

WHEREAS, in accordance with Administrative Directive 3.1, Selection Procedures for Professional Consultants Who Provide Architectural and Engineering Services for Capital Projects, a Request for Proposal (RFP) was sent to four (4) pre-qualified local consultants for Civil Engineering Services for Capital Improvement Program Projects, and

WHEREAS, on December 23, 2017, staff received and distributed two (2) proposals to a selection committee consisting of Utilities engineering staff, and

WHEREAS, the selection committee evaluated the proposals and determined that DF Engineering, Inc., to be the most qualified and responsive, and

WHEREAS, DF Engineering's sealed cost proposal was opened after the selection ranking had been finalized, and

WHEREAS, DF Engineering's proposal cost and scope were reviewed and determined to be reasonable to provide engineering design services, and

WHEREAS, the scope of services to be provided under the agreement includes: 1) Project Management; 2) Meetings with City Staff; 3) Topographic Survey; and 4) Hydraulic calculations, 5) Preparation of Plans and Specifications, 6) Bid Phase Support and 7) Engineering Support During Construction and

WHEREAS, on February 28, 2017, by Resolution No. 2017-86, Council approved implementing a spending freeze in order to maintain fiscal sustainability of the City, and

WHEREAS, as allowed by this resolution, the City Manager's Office approved an exception to this freeze for this procurement, and

WHEREAS, justification for this exception is based upon public safety needs, the project being budgeted in the current Fiscal Year 2016-2017 storm drain fund, and it will not require a budget transfer from reserves to provide the required services, and

WHEREAS, in accordance with Modesto Municipal Code 8-3.204(a) Exceptions to Formal Bidding Requirements, this agreement is for professional services and therefore, exempt from the bid requirement, and

WHEREAS, however, staff still went through a RFP process pursuant to Administrative Directive 3.1, and

WHEREAS, staff recommends approval of the agreement with DF Engineering for engineering design services for the Ninth Street Storm Drain Basin and Pump Station Project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Agreement with DF Engineering, Inc., Modesto, CA, for design services for the Ninth Street Storm Drain Basin and Pump Station Project, in an amount not to exceed $89,750 for the identified scope of services, plus $8,975 for additional services, if needed, for a maximum total amount of $98,725.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement in a form approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of April, 2017, by Councilmember Grewal, who moved its adoption, which motion being duly seconded by Councilmember Madrigal, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION APPROVING AN EXEMPTION TO THE HIRING FREEZE FOR ONE SENIOR SOFTWARE ANALYST AND ONE SENIOR SYSTEMS TECHNICIAN ASSIGNED TO THE INFORMATION TECHNOLOGY DEPARTMENT

WHEREAS, Council Resolution No. 2017-86, adopted February 28, 2017, imposed a citywide hiring freeze to ensure City hiring practices are consistent with long term fiscal sustainability and comply with current and future anticipated budget constraints, and

WHEREAS, staff has taken actions to implement the provision of Resolution No. 2017-86; and

WHEREAS, there are currently six vacant positions in the Information Technology Department, and

WHEREAS, certain positions are critical to the daily support of emergency service technology at the City of Modesto Police Department and Modesto Fire Department, and

WHEREAS, not filling these positions will negatively impact technology support and service delivery for a department that responds to public safety emergencies, and

WHEREAS, certain positions are critical to the management of the applications support specialists and to manage software upgrades and implementation projects, and

WHEREAS, not filling these positions may impact project timelines and may create cost overruns for projects and could create severe system outage and impact business operations.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Hiring Freeze Exceptions for one Senior Software Analysts and one Senior Systems Technician are hereby approved.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of April, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2017-141

RESOLUTION APPROVING AN EXEMPTION TO THE HIRING FREEZE FOR NON-BENEFITED PART TIME POSITIONS ASSIGNED TO THE PUBLIC WORKS DEPARTMENT

WHEREAS, Council Resolution No. 2017-86, adopted February 28, 2017, imposed a citywide hiring freeze to ensure City hiring practices are consistent with long term fiscal sustainability and comply with current and future anticipated budget constraints, and

WHEREAS, staff has taken actions to implement the provision of Resolution No 2017-86; and

WHEREAS, certain part-time non benefited positions are critical to the Parks Operations Division and other department programs, and

WHEREAS, without non-benefited part time staff, the City must reduce programs and service levels to a wide variety of services, and

WHEREAS, without part time positions, the City parks will not be maintained at the current levels, tagging abatement will not be completed in a timely manner and mandated fire breaks and fuel reduction will not be completed.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that exception to the hiring freeze non-benefited part time positions assigned to the Public Works Department is hereby approved.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of April, 2017, by Councilmember Madrigal, who moved its adoption, which motion being duly seconded by Councilmember Kenoyer, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION FINDING THAT THE FOLLOWING SUBSEQUENT PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (SCH NO. 2007072023): CODE AMENDMENT FOR DIGITAL FREEWAY BILLBOARDS

WHEREAS, on October 14, 2008, the City Council of the City of Modesto certified the Final Master Environmental Impact Report ("Master EIR") (SCH No. 2007072023) for the Modesto Urban Area General Plan, and

WHEREAS, the City of Modesto has proposed a code amendment for digital freeway billboards ("subsequent project"), and

WHEREAS, pursuant to Section 21157.1 of the Public Resources Code, the City of Modesto's Community & Economic Development Department prepared an Environmental Assessment Initial Study EA/C&ED 2016-27 ("Initial Study") which analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report, and

WHEREAS, in accordance with CEQA guidelines beginning on January 17, 2017, the City caused to be published a 20-day notice of the City's intent to make a finding that the subsequent project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on April 11th, 2017, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed

code amendment for digital freeway billboards, a copy of which is **attached** hereto as **Exhibit "A"**, and incorporated herein by reference, and based on substantial evidence in the Initial Study makes the following findings:

1. An Initial Study was prepared by the City of Modesto that analyzed whether the subsequent project may cause any significant effect on the environment that was not examined in the Master EIR and whether the subsequent project was described in the Master EIR as being within the scope of the report.

2. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.

3. No new or additional mitigation measures or alternatives are required.

4. The subsequent project is within the scope of the project covered by the Master EIR.

5. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

6. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of approval or determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of April, 2017, by Councilmember Kenoyer, who moved its adoption, which motion being duly seconded by Councilmember Ridenour, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Ah You, Grewal, Kenoyer, Madrigal, Ridenour, Zoslocki, Mayor Brandvold
NOES:	Councilmembers:	None
ABSENT:	Councilmembers:	None

ATTEST: _____
STEPHANIE LOPEZ, City Clerk

APPROVED AS TO FORM:

By: _____
ADAM U. LINDGREN, City Attorney

EXHIBIT A

Initial Study

EA/C&ED 2016-27

City of Modesto

Finding of Conformance to General Plan Master EIR:

Initial Study Environmental Checklist
C&ED No. EA No. 2016-27

For the proposed:

Zoning Code Amendment
CODE-16-001
Digital Freeway Billboards

Prepared by:
City of Modesto
Community & Economic Development Department
Planning Division

December 12, 2016

(Intentional Blank Page)

City of Modesto
Master EIR Initial Study Environmental Checklist

I. PURPOSE

CEQA allows for the limited environmental review of subsequent projects under the City's Master Environmental Impact Report ("Master EIR" or "MEIR"). This Initial Study Environmental Checklist ("Initial Study") is used in determining whether Zoning Code Amendment, Digital Freeway Billboards, is "within the scope" of the project analyzed in the Modesto Urban Area General Plan Master EIR (SCH# 2007072023) (Public Resources Code section 21157.1). When the Initial Study supports this conclusion, the City will issue a finding of conformance.

A subsequent project is "within the scope" of the Master EIR when:

1. it will have no additional significant effects on the environment that were not addressed as significant effects in the Master EIR; and

2. no new or additional mitigation measures or alternatives are required.

"Additional significant effects" means a project-specific effect that was not addressed as a significant effect in the Master EIR. [Public Resources Code Section 21158(d)]

The determination must be based on substantial evidence in the record. "Substantial evidence" means facts, reasonable assumptions predicated upon facts, or expert opinion based on facts. It does not include speculation or unsubstantiated opinion. (CEQA Guidelines Section 15384)

II. PROJECT DESCRIPTION

A. Title: Zoning Code Amendment, Digital Freeway Billboards

B. Address or Location: Various locations along State Highway 99

C. Applicant: City of Modesto

D. City Contact Person: Paul Liu
Project Manager: Paul Liu
Department: Community and Economic Development
Phone Number: 209-577- 5267
E-mail address: pliu@modestogov.com

E. Current General Plan Designation(s): Not applicable

F. Current Zoning Classification(s): Not applicable

G. Surrounding Land Uses: Not applicable

H. Project Description, including the project type listed in Section II.C (Anticipated Future Projects) of the Master EIR (Attach additional maps/support materials as needed for complete record): The proposed project is an amendment the Zoning Code allow digital freeway

billboards. The Zoning Code amendment include a requirement for a conditional use permit approval for new digital freeway billboards and specific development standards such as sign height, size, location, aesthetics, and illumination level. No application to construct a new digital billboard is part of this proposal.

I. Other Public Agencies Whose Approval is Required: None

III. FINDINGS/DETERMINATION (SELECT ONE ON THE BASIS OF THE ANALYSIS IN SECTION IV)

1. _X_ **Within the Scope** - The project is within the scope of the Master EIR and no new environmental document or Public Resources Code Section 21081 findings are required. All of the following statements are found to be true:

   A. The subsequent project will have no additional significant effect on the environment, as defined in subdivision (d) of Section 21158 of the Public Resources Code, that was not identified in the Master EIR.

   B. No new or additional mitigation measures or alternatives are required.

   C. The subsequent project is within the scope of the project covered by the Master EIR.

   D. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

   E. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

2. ____ **Mitigated Negative Declaration Required** - On the basis of the above determinations, the project is not within the scope of the Master EIR. A mitigated negative declaration will be prepared for the project. The following statements are all found to be true:

   A. The subsequent project is within the scope of the project covered by the Master EIR.

   B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

   C. The project will have one or more potential new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures are being required of the project that will reduce the effects to a less-than-significant level.

   D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

3.____ **Focused EIR Required-** On the basis of the above determinations, the project is not within the scope of the Master EIR. A Focused EIR will be prepared for the project. All of the following statements are found to be true:

A. The subsequent project is within the scope of the project covered by the Master EIR.

B. All applicable policies, regulations, and mitigation measures identified in the Master EIR have been applied to the subsequent project or otherwise made conditions of approval of the subsequent project.

C. The project will have one or more new significant effects on the environment that were not addressed as significant effects in the Master EIR. New or additional mitigation measures or alternatives are required as a result.

D. No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified, and no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.

Project Manager	Title	Date

4. Within the Scope Analysis of this Document:

The Master EIR allows projects to be found within the scope of the MEIR if certain criteria are met. If the following statements are found to be true for all 21 impact categories included in this Initial Study, then the proposed project is addressed by the MEIR analysis and is within the scope of the MEIR. Any "No" response must be discussed.

		YES	NO
(1)	The lead agency for subsequent projects shall be the City of Modesto or a responsible agency identified in the Master EIR.	☒	☐
(2)	City policies which reduce, avoid, or mitigate environmental effects will continue to be in effect and, therefore, would be applied to subsequent projects where appropriate. The policies are described in the list of policies in place and mitigation measures attached to the Initial Study template. Project impacts would be mitigated to a less-than-significant level using MEIR mitigations only.	☒	☐
(3)	Federal, State, regional, and Stanislaus County regulations do not change in a manner that is less restrictive on development than current law (i.e., would not offer the same level of protection assumed under the Master EIR).	☒	☐
(4)	No specific information concerning the known or potential presence of significant resources is identified in future reports, or through formal or informal input received from responsible or trustee agencies or other qualified sources.	☒	☐
(5)	The development will occur within the boundaries of the City's planning area as established in this Urban Area General Plan.	☒	☐
(6)	Development within the project will comply with all appropriate mitigation measures contained and enumerated in the 2008 General Plan Master EIR.	☒	☐

Discussion:

(1) The Zoning Code Amendment is not a development project. The City of Modesto will be the lead agency for subsequent projects for a new digital freeway billboard.

(2) No modifications to the Urban Area General Plan are proposed as part of this project. No significant impacts are expected to occur beyond those identified in the Urban Area General Plan Master EIR and all relevant mitigations/policies will be applied.

(3) The proposed project does not include changes to federal, state, regional, or county regulations.

(4) There is no new information regarding the presence of significant resources.

(5) The Zoning Code Amendment is not a development project.

(6) The Zoning Code Amendment is not a development project.

5. Currency of the Master EIR Document

The MEIR should be reviewed on a regular basis to determine its currency, and whether additional analysis/mitigation should be incorporated into the MEIR via a Supplemental or Subsequent EIR (CEQA Section 21157.6). Staff has reviewed Sections 1 through 21 of this document in light of the criteria listed below to determine whether the MEIR is current. The analysis contained within the Master EIR is current as long as the following circumstances have not changed. Any "no" response must be explained.

		YES	NO
(1)	Certification of the General Plan Master EIR occurred less than five years prior to the filing of the application for this subsequent project.	☐	☒
(2)	This project is described in the Master EIR and its approval will not affect the adequacy of the Master EIR for any subsequent project because the City can make the following findings:	☒	☐
(a)	No substantial changes have occurred with respect to the circumstances under which the Master EIR was certified.	☒	☐
(b)	No new information, which was not known and could not have been known at the time the Master EIR was certified as complete, has become available.	☒	☐
(c)	Policies remain in effect which require site-specific mitigation, and avoidance or other mitigation of impacts as a prerequisite to future development.	☒	☐

Discussion:

(1) The General Plan Master EIR was certified on October 14, 2008, so more than five years has passed since the MEIR was certified. However, the analysis contained in the MEIR is still adequate for subsequent projects, as documented in the discussion below.

(2) The project is consistent with the analysis contained in the MEIR. This is documented in the discussion of the individual issue areas of this initial study.

(2)(a) There have been no substantive changes to the General Plan since the MEIR was certified that would create additional significant environmental effects that were not analyzed by the MEIR.

(2)(b) There has been no new information that would affect the adequacy of the analysis contained in the MEIR.

(2)(c) All policies contained in the MEIR that require site-specific mitigation or avoidance of impacts remain in effect and will be applied to the project as appropriate.

IV. ENVIRONMENTAL ANALYSIS

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, discloses whether the proposed project may cause any project-specific significant effect on the environment that was not examined in the Final Master EIR (MEIR) for the General Plan and whether new or additional mitigation measures or alternatives may be required as a result. The Initial Study thereby documents whether or not the project is "within the scope" of the Master EIR.

Pursuant to Public Resources Code Section 21157.1, no new environmental document or findings are necessary for projects that are determined to be within the scope of the MEIR. Adoption of the findings specified in Section III.1, above after completion of the Initial Study fulfills the City's obligation in that situation.

All environmental effects cited reflect 2025 conditions resulting from the Urban Area General Plan, as identified in the Master EIR.

The environmental impact analysis in the Master EIR for the Urban Area General Plan is organized in twenty-one subject areas. The following analysis is based on the impact analyses contained in Chapter V of the Master EIR. For ease of reference, the sections are numbered in the same order as the analyses in Chapter V.

1. TRAFFIC AND CIRCULATION

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable traffic and circulation impacts expected after application of mitigations / policies:

Direct Impacts

Effect: Increased automobile traffic will result in roadway segments (see MEIR on Table 1-7, pages V-1-32 to V-1-34) operating at LOS D, Modesto's significance threshold for automobile traffic, or lower (LOS E or F).

Effect: The substantial increase in traffic relative to the existing load and capacity of the street system will cause, either individually or cumulatively, the violation of automobile service standards established by StanCOG's Congestion Management Plan for designated roads and highways.

Effect: A substantial increase in automobile vehicle miles traveled and automobile vehicle hours of travel and a decrease in average automobile vehicle speed (see MEIR Table 1-6, page V-1-31).

Cumulative Impacts

Effect: Potential for growth inducement or acceleration of development resulting from highway and local road projects.

Effect: Substantial increase in traffic in relation to the existing traffic load and capacity of the street system, including a violation, either individually or cumulatively, of an automobile LOS standard established by the Congestion Management Plan for designated roads and highways.

Effect: Increased demand for capacity-enhancing alterations to existing roads or automobile traffic reduction.

Other impact categories affected by Traffic and Circulation are addressed throughout this Initial Study (see also Section 2, Degradation of Air Quality; Section 3, Generation of Noise; Section 7 Loss of Sensitive Wildlife and Plant Habitat; Section 8, Disturbance of Archaeological/Historic Sites; Section 14 Increased Demand for Fire Services; Section 18, Energy; Section 19, Visual Resources; Section 20, Land Use and Planning, and Section 21, Climate Change).

b. Master EIR and/or New Mitigation Measures Applied to the Project

Traffic and Circulation mitigation measures pertinent to this project are found on MEIR pages V-1-9 through V-1-28. All mitigation measures appropriate to the project, including any new measures, will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-1.B of the Master EIR provides analysis of Traffic and Circulation impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: A subsequent development project will have a new significant effect on the environment if it would exceed the following criteria:

1. TRAFFIC AND CIRCULATION	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project exceeds traffic generation assumptions in the Master EIR for the site by 100 trips or more and City Engineering and Transportation staff has determined that the project would have additional potentially significant project-specific effects that are not avoided or reduced by the Master EIR's mitigation measures.	☐	☐	☐	☒
2) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads or highways?	☐	☐	☐	☒
3) The proposed project would cause additional roadway segments in the General Plan area to exceed LOS D and/or cause additional violations of standards in the Congestion Management Plan, and/or cause an increase in automobile vehicle miles or vehicle hours of travel or a decrease in automobile travel speed, as compared to the impacts disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project would cause emergency	☐	☐	☐	☒

1. TRAFFIC AND CIRCULATION	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
response times to exceed acceptable standards established by the Fire Department, as compared to impacts disclosed in the Master EIR (see Section 14, Increased Demand for Fire Services).				
5) The proposed project would result in less parking than required by the Municipal Code or as determined by staff.	☐	☐	☐	☒
6) The proposed project would conflict with adopted policies, plans, or programs that support alternative transportation, including, but not limited to the Regional Transportation Plan, the Sustainable Communities Strategy, the Bicycle Action Plan, etc.	☐	☐	☐	☒
7) The proposed project would result in an increase in automobile vehicle miles traveled on a per capita basis, in excess of that considered in the Urban Area General Plan MEIR.	☐	☐	☐	☒

Discussion:

(1) The proposed project is a Zoning Code amendment that will allow for digital freeway billboards and will have no effect on traffic generation assumptions.

(2) The project will have no effect on the level of service standard established by the county congestion management.

(3) The project will have no effect on traffic and circulation issues.

(4) The project will have no effect on emergency response time.

(5) The project will have no effect on meeting parking requirements.

(6) The project will have no effect on alternative transportation policies.

(7) The project will have no effect on automobile vehicle miles traveled.

2. DEGRADATION OF AIR QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable air quality impacts expected after application of mitigations / policies:

Direct Impacts

Effect: Expected automobile traffic will result in increased operational emissions of reactive organic gases (ROG) and oxides of nitrogen (NO_X) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased emissions of particulate matter 10 microns or less (PM_{10}) and 2.5 microns or less in diameter ($PM_{2.5}$) (see MEIR Table 2-8, page V-2-27).

Effect: Expected automobile traffic will result in increased carbon monoxide (CO) levels in the project area (see MEIR Table 2-7, page V-2-26, and Table 2-8, page V-2-27).

Cumulative Impacts

The Master EIR indicates the same impacts identified as direct impacts above will contribute to regional impacts on air quality for the criteria pollutants ROG, NO_x, PM_{10}, and $PM_{2.5}$.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Air quality mitigation measure(s) pertinent to the proposed project are found on pages V-2-13 through V-2-24 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-2.B of the Master EIR is the analysis of air quality impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

2. DEGRADATION OF AIR QUALITY	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project exceeds the project-level emissions thresholds established for CO, ROG, NO_x, PM_{10}, and $PM_{2.5}$ by the San Joaquin Valley Air Pollution Control District (SJVUAPCD) and is not consistent with the development assumptions for the project site, as established in the Urban Area General Plan and Master EIR.	☐	☐	☐	☒
2) The proposed project does not incorporate the best management practices established by the SJVAPCD for CO, ROG, NO_x, PM_{10}, and $PM_{2.5}$.	☐	☐	☐	☒
3) The proposed project does not comply with the air quality policies in the Modesto Urban Area General Plan.	☐	☐	☐	☒
4) The proposed project would expose sensitive receptors to pollutant concentrations in excess of those expected to occur as a result of implementation of the Urban Area General Plan.	☐	☐	☐	☒
5) The proposed project would create objectionable odors affecting a substantial number of people.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on emissions thresholds.

(2) The project will have no effect on best management practices established by the SJVAPCD.

(3) The project will have no effect on air quality policies.

(4) The project will have no effect on sensitive receptors.

(5) The project will not result in the creation of objectionable odors.

3. GENERATION OF NOISE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable noise impacts expected after application of mitigations / policies:

Direct Impacts

Effect: Future automobile traffic noise levels and roadway construction and maintenance activities resulting from development of the Urban Area General Plan will exceed the City's noise thresholds at various locations, but particularly in areas adjacent to heavily traveled roadways (see MEIR Table 3-3, page V-3-10, and Figure VII-2 and Table 3-6, pages V-3-18 and V-3-19).

Effect: Expected noise from airport operations and airport construction projects may expose up to 468 dwellings and three churches to noise levels of 65 dB CNEL and up to eight dwellings to noise levels of 70 dB CNEL.

Effect: Expose noise-sensitive land uses to noise from the construction of bicycle and transit projects.

Effect: Expose noise-sensitive land uses to noise from freight and passenger rail operations.

Cumulative Impacts

Effect: Traffic from development in the City of Modesto would, when combined with traffic from new development in the County and other cities, contribute to a cumulative increase in roadside noise levels on major roads and highways throughout Stanislaus County.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Noise policies and mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-3-11 through V-3-15 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project and any new measures are listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-3.B of the MEIR discloses noise impacts resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not analyzed in the Master EIR.

Significance Criteria: Determination of the proposed project's effects are based on the following thresholds. Project-specific effects will be less than significant unless:

3. GENERATION OF NOISE	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project will exceed the standards for noise level and hours of operation established by the Modesto noise ordinance.	☐	☐	☐	☒
2) The proposed project will not comply with the noise policies of, or otherwise be inconsistent with, the Modesto Urban Area General Plan.	☐	☐	☐	☒
3) The proposed project will result in an increase in ambient noise levels in the project vicinity above those disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project will result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels disclosed in the Master EIR implementation of the Urban Area General Plan.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on noise level standards.

(2) The project will have no effect on noise policies.

(3) The project will not result in an increase of ambient noise levels.

(4) The project will not result in a temporary or periodic increase of ambient noise levels.

4. EFFECTS ON AGRICULTURAL LANDS

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on agricultural lands expected after application of mitigations / policies:

Direct Impacts

Effect: Between 1995 and 2025, development of the Urban Area General Plan may convert up to approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area to urban uses.

Effect: Approximately 1,200 acres of urban development along a 28.5-mile boundary 350 feet wide between urban and agricultural uses could be affected by continued agricultural operations, including noise, dust, and chemical overspray or drift.

Cumulative Impacts

Effect: Growth within Modesto's planning area would contribute considerably to the loss of agricultural land within Stanislaus County, accounting for the conversion of as much as approximately 26,000 acres of farmland in various categories in the Planned Urbanizing Area from 1995 to 2025.

b. Master EIR and/or New Mitigation Measures Pertinent to the Project

Agricultural land mitigation measures pertinent to the proposed project are found on pages V-4-6 to and V-4-8 of the Master EIR. All mitigation measures appropriate to the project and any new mitigation to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-4.B of the Master EIR discloses the impacts resulting from the implementation of the Urban Area General Plan on agricultural lands. The following is an analysis of whether the proposed project would result in a new, significant, project -specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

4. EFFECTS ON AGRICULTURAL LANDS	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with the Urban Area General Plan's policies relating to agricultural land.	☐	☐	☐	☒
2) The proposed project will either directly or indirectly result in the development of land outside the 2008 Urban Area General Plan's planning area boundary.	☐	☐	☐	☒
3) The proposed project will conflict with existing zoning for agricultural use, or there is an existing Williamson Act contract on the project site.	☐	☐	☐	☒
4) The proposed project will involve other changes in the existing environment not anticipated in the Master EIR which, due to their location or nature, could result in conversion of farmland to non-agricultural use.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on agricultural land policies.

(2) The project will have no effect on development outside the Modesto planning area.

(3) The project will have no effect on land zoned for agricultural use or with Williamson Act contract.

(4) The project will have no effect on the conversion of farmland to non-agricultural use.

5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on long-term water supplies expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts have been disclosed in the Master EIR.

Cumulative Impacts

Effect: Operational yields of the Modesto and Turlock subbasins, both of which underlie the City of Modesto, are unknown, although the City is participating in a study with the United States Geological Survey in order to quantify the operational yields of both subbasins. Groundwater withdrawals from both basins by the City, when combined with other users' withdrawals, may result in overdrafting both subbasins.

Effect: Despite available options, during drought years, significant water shortages are forecast for the San Joaquin River basin, which includes both the Modesto and Turlock subbasins, by 2020. Modesto would make a cumulatively considerable contribution to the cumulative impact on water supply under drought conditions.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Water supply mitigation measures pertinent to the proposed project are found on pages V-5-6 through V-5-12 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-5.B of the Master EIR discloses impacts on long-term water supplies resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

5. INCREASED DEMAND FOR LONG-TERM WATER SUPPLIES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with water supply policies in the Urban Area General Plan.	☐	☐	☐	☒
2) Water demand for the proposed project will exceed estimates for similar projects or for development on the project site anticipated in the Urban Area General Plan or sufficient water supplies are not otherwise available to serve the project from existing entitlements and resources.	☐	☐	☐	☒
3) The proposed project would deplete groundwater supplies to a greater degree than anticipated in the Urban Area General Plan or would interfere with groundwater recharge.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on the water supply.

(2) The project will have no effect on water demand.

(3) The project will have no effect on groundwater supply.

6. INCREASED DEMAND FOR SANITARY SEWER SERVICES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sanitary sewer services after application of mitigations / policies:

Direct Impacts

Effect: Development resulting from implementation of the Urban Area General Plan will require substantial new sewage treatment and disposal capacity, treatment plant improvements, sewer mains and collection lines, and pump stations. The Wastewater Master Plan anticipates the need for these facilities and its EIR evaluates the impact of developing those facilities. Potential impacts include degradation of water quality through erosion and chemical releases; localized flooding; construction noise; exposure of construction workers and the public to hazardous materials; and on the habitat of the elderberry longhorn beetle, burrowing owl, and Swainson's hawk, as well as certain other regulated habitats. All of these impacts are mitigated to a less-than-significant level.

Additional impacts that are not mitigated to a less-than-significant level include loss of farmland cause by construction of the Phase IA tertiary treatment facility at the Jennings Road Secondary Treatment Facility, an increase in pollutant loads from increased wastewater flows to the San Joaquin River, and an increase in noise and criteria air pollutants due to construction activities, including traffic.

Cumulative Impacts

Effect: No additional cumulative impacts were identified in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Sewer service mitigation measures pertinent to the proposed project are found on pages V-6-3 through V-6-8 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-6.B of the Master EIR discloses impacts on the Increased Demand for Sanitary Sewer Service resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

6. INCREASED DEMAND FOR SANITARY SEWER SERVICES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with wastewater policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project will generate sewage flows greater than those anticipated in the Urban Area General Plan for the project site.	☐	☐	☐	☒
3) The proposed project will result in a determination by the wastewater treatment provider which serves or may serve the project that it has inadequate capacity to serve the project's projected demand in addition to the provider's existing commitments.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on the wastewater policies.

(2) The project will have no effect on sewage flows.

(3) The project will have no effect on wastewater capacity.

7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on sensitive wildlife and plant habitat expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant impacts on sensitive wildlife and plan habitat are expected to occur with the application of the policies contained in the Urban Area General Plan.

Cumulative Impacts

Effect: Implementation of the Urban Area General Plan will contribute to the cumulative impact of habitat loss in the San Joaquin Valley. Requiring density development than has occurred in the past or that is expected in the future would minimize the City's contribution to the cumulative loss of habitat. Nonetheless, this is a significant and unavoidable impact.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Wildlife and plant habitat mitigation measures pertinent to the proposed project are found on pages V-7-17 through V-7-24 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project.

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-7.B of the Master EIR discloses impacts on the Loss of Sensitive Wildlife and Plant Habitat resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

7. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The project is inconsistent with the policies pertaining to the loss of sensitive wildlife and plant habitat contained in the Urban Area General Plan.	☐	☐	☐	☒
2) Consultation with the California Department of Fish and Game or the U.S. Fish and Wildlife Service determines that the project would have a significant effect on a candidate, sensitive, or special status species in excess of the impact disclosed in the Master EIR.	☐	☐	☐	☒
3) The proposed project would have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act through direct removal, filling, hydrological interruption, or other means, in excess of the impact disclosed in the Master EIR.	☐	☐	☐	☒
4) The proposed project would substantially interfere with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites.	☐	☐	☐	☒
5) Conflict with local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.	☐	☐	☐	☒
6) The proposed project would conflict with provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on wildlife and plant habitat policies.

(2) The project will have no effect on a candidate, sensitive, or special status species in excess of the impact disclosed in the Master EIR.

(3) The project will have no effect on federally protected wetlands.

(4) The project will have no effect on native resident or migratory fish or wildlife species.

(5) The project will have no effect on local policies or ordinances protecting biological resources.

(6) The project will have no effect on local, regional, or state habitat conservation plan.

8. DISTURBANCE OF ARCHAEOLOGICAL/HISTORICAL SITES

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on archaeological/historical sites expected after application of mitigations / policies:

Direct Impacts

Effect: Modification resulting in a substantial adverse change in the significance of a historic resource or the demolition of a listed or eligible historic resource.

Effect: The modification or demolition of a structure more than 50 years in age may be significant.

Effect: Discovery of archaeological resources, in areas outside of the riparian corridors, as a result of construction activities.

Effect: Construction in an area of high archaeological sensitivity.

Cumulative Impacts

Effect: No additional cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Archaeological or historic mitigation measures pertinent to the project being analyzed in this Initial Study are found on page V-8-16 through V-8-20 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-8.B of the MEIR discloses impacts on archaeological/historical resources resulting from implementation of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

8. DISTURBANCE OF ARCHAEOLOGICAL/ HISTORICAL SITES	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with the archaeological / historical resource policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would demolish a building eligible for listing as a historic resource or remove a landmark from the Modesto inventory.	☐	☐	☐	☒
3) The proposed project would modify or demolish a structure more than 50 years old.	☐	☐	☐	☒
4) The project would adversely affect a cultural resource that is either listed or eligible for listing in the California Register of Historical Resources.	☐	☐	☐	☒
5) The project would adversely affect a Tribal Cultural Resource identified and/or defined by the applicable Tribe.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on archaeological/historical resource policies.

(2) The project will have no effect on historical buildings or landmarks.

(3) The project will have no effect on structures.

(4) The project will have no effect on cultural resources.

(5) The project will have no effect on tribal cultural resources.

9. INCREASED DEMAND FOR STORM DRAINAGE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on storm drainage expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: The population of Stanislaus County is projected to increase in a fashion similar to that of Modesto, resulting in additional urban development and associated increases in impervious surface area and associated increases in storm water runoff. Cumulative hydrologic impacts of storm water flows from Modesto urban areas and other areas of the County could occur due to the fixed capacity of MID and TID irrigation canals to convey drainage west to the San Joaquin River. If drainage channels in some areas prove insufficient to handle the increased drainage discharges, existing storm water runoff from urban and agricultural areas during large storm events would have to be interrupted until water levels receded to a point allowing the resumption of discharges to the channel.

Ceasing discharges to drainage channels could cause inundation in and around the drainage conveyance pipeline systems, surface drainage channels, detention basins, and other urban areas. This cumulative impact is considered significant and unavoidable.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Storm Drainage mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-9-4 through V-9-9. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Measures Applied to Project:

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-9.B of the MEIR discloses impacts on the demand for storm drainage resulting from development of the Urban Area General Plan. The following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not disclosed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

9. INCREASED DEMAND FOR STORM DRAINAGE	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with the storm drainage policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project would substantially increase the rate or amount of surface runoff in a manner that would result in flooding on- or offsite, as compared to impacts anticipated to result from the Urban Area General Plan or create substantial unanticipated sources of polluted runoff.	☐	☐	☐	☒
3) The proposed project does not utilize Low Impact Development strategies to reduce runoff from the site and increase infiltration, resulting in no net increase in runoff before and after development.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on storm drainage policies.

(2) The project will have no effect on surface runoff.

(3) The project will have no effect on Low Impact Development strategies to reduce runoff.

10. FLOODING AND WATER QUALITY

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on flooding and water quality expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Flooding and Water Quality mitigation measures pertinent to the project being analyzed in this Initial Study are found on pages V-10-6 through V-10-9 of the Master EIR. All mitigation measures appropriate to the project will be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:

No mitigation measures from the Master EIR will apply to this project. No new or additional mitigation measures or alternatives are required to reduce project impacts to a less-than-significant level.

c. Project-Specific Effects

Section V-10.B of the Master EIR provides analysis of Flooding and Water Quality impacts of development of the General Plan, the following is an analysis of whether the proposed project would result in a new, significant, project-specific effect not previously analyzed in the Master EIR.

Significance Criteria: Determination of project effects will be based on the following thresholds. The project-specific effects will be less than significant unless:

10. FLOODING AND WATER QUALITY	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1) The proposed project is inconsistent with the flooding and water quality policies in the Urban Area General Plan.	☐	☐	☐	☒
2) The proposed project does not comply with the regulatory requirements of the federal Clean Water Act or the State Porter-Cologne Act.	☐	☐	☐	☒
3) The proposed project would place more housing within a 100-year flood hazard zone than assumed in the Urban Area General Plan.	☐	☐	☐	☒
4) The proposed project would place structure within a 100-year flood hazard area so that they would impede or redirect floodwater or would substantially alter the existing on-site drainage pattern or a	☐	☐	☐	☒

10. FLOODING AND WATER QUALITY	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
watercourse, in such a way as to cause flooding on- or off-site.				
5) The proposed project does not comply with Modesto's Guidance Manual for New Development Storm Water Quality Control Measures.	☐	☐	☐	☒
6) The proposed project would violate water quality standards or waste discharge requirements.	☐	☐	☐	☒
7) The proposed project would substantially alter the existing drainage pattern of the site or area or a watercourse in a manner that would result in substantial erosion or siltation on- or offsite in excess of the assumptions of the General Plan.	☐	☐	☐	☒
8) The proposed project would create or contribute runoff, which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff, not expected as part of General Plan implementation.	☐	☐	☐	☒

Discussion:

(1) The proposed project will have no effect on flooding and water quality policies.

(2) The project will have no effect on federal Clean Water Act or the State Porter-Cologne Act.

(3) The project will not result in more housing within a 100-year flood hazard zone.

(4) The project will have no effect on flooding.

(5) The project will have no effect on Modesto's Guidance Manual for New Development Storm Water Quality Control Measures.

(6) The project will have no effect on water quality standards or waste discharge requirements.

(7) The project will have no effect on existing drainage pattern of the site or area or a watercourse in a manner that would result in substantial erosion or siltation.

(8) The project will have no effect on runoff.

11. INCREASED DEMAND FOR PARKS AND OPEN SPACE

a. Significant Effects Identified in the Master EIR

The Master EIR discloses the following residual significant and unavoidable impacts on parks and open space expected after application of mitigations / policies:

Direct Impacts

Effect: No residual significant direct impacts were disclosed in the Master EIR.

Cumulative Impacts

Effect: No residual significant cumulative impacts were disclosed in the Master EIR.

b. Master EIR and/or New Mitigation Measures Applied to the Project

Parks and open space mitigation measures pertinent to the proposed project are found on pages V-11-3 through V-11-9 of the Master EIR. All mitigation measures appropriate to the project to be incorporated into or made conditions of approval of this project are listed in Section V, Mitigation Applied to Project:

Discussion:
