

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-1**

A RESOLUTION AUTHORIZING THE AWARD OF PRESORT MAILING SERVICES TO ABS PRESORT, MODESTO, CA FOR A PERIOD OF ONE (1) YEAR WITH FOUR (4) ONE-YEAR EXTENSION OPTIONS

WHEREAS, by Resolution No. 2002-335, Council authorized the solicitation of formal proposals for presort mailing services, and

WHEREAS, the City of Modesto's City Clerk's Office and Finance Department Customer Service Division combined resources with Stanislaus County and the Modesto City School District to obtain the best value possible for presort mailing services, and

WHEREAS, these services include the collection of mail from centralized locations, presorting by zip codes, bar coding and delivery of metered mail.

Additionally, the vendor is required to fold, insert into envelopes, presort, barcode and mail City's utility billings, and

WHEREAS, by using a presort service, the City receives a discount of approximately \$0.04 per piece on postage, and this discount postage rate includes the cost of the presort service, and

WHEREAS, for the utility billing alone, this equates to a postage savings of approximately \$2,700.00 per year, and

WHEREAS, the Purchasing Division solicited formal proposals for presort mailing services from nine (9) vendors with two (2) responding to the Request for Proposal (RFP), and

WHEREAS, ABS Presort met all of the proposal specifications and was deemed to be the lowest responsive and responsible bidder with a proposal of \$1,232,444.00 for all Agencies, and

WHEREAS, the estimated annual cost to the City is \$270,200.00 for a period of one (1) year, with four (4) one-year extension options, and

WHEREAS, City staff recommends that the City award the proposal for presort mailing services to ABS Presort for a one (1) year agreement, with four (4) one-year extension options,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby awards the proposal for presort mailing services to ABS Presort, Modesto, CA for an estimated "City Wide" annual cost of \$270,200.00 for a one (1) year agreement, with four (4) one-year extension options.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of January, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating,
O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: None

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-2**

**A RESOLUTION ADOPTING AN ONLINE PRIVACY AND USE STATEMENT AND
AUTHORIZING ITS INCLUSION ON THE CITY OF MODESTO INTERNET WEB
SITE**

WHEREAS, the City continues to promote use of its public web site and participates in e-government, and

WHEREAS, there may be online collection of personal information from citizens in some applications, and

WHEREAS, it is in the best interest of visitors to the City's web site to adopt policies pertaining to citizen's privacy concerns, and

WHEREAS, it is the City's desire to strengthen consumer support for new, innovative e-government applications and on-line services, and

WHEREAS, City staff has proposed that an Online Privacy and Use Statement be adopted to alleviate citizens' concerns and encourage the use of new technologies and methods of interacting with government, a copy of the proposed Online Privacy and Use Statement is marked **Exhibit "A"**, attached hereto and incorporated herein by reference, and

WHEREAS, the Finance Committee met on November 25, 2002 and supported the recommended Online Privacy and Use Statement, and

WHEREAS, the Information Technology Department , by report dated November 26, 2002 to the Mayor and City Council, a copy of which is on file in the office of the City Clerk, recommended adoption of a resolution approving the proposed Online Privacy and Use Statement, and

WHEREAS, at its meeting which was held on January 7, 2003, the Council considered the proposed Online Privacy and Use Statement,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Online Privacy and Use Statement, a copy of which is marked Exhibit "A", attached hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED that the Information Technology Department is authorized to post the Online Privacy and Use Statement on the City of Modesto Internet Web Site.

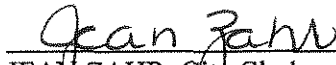

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of January, 2003, by Councilmember Conrad, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

City of Modesto Online Privacy and Use Statement - DRAFT

Department of Information and Technology
revised: 12/06/02

Section A. Introduction

This statement addresses collection, use, security of and access to information that may be obtained through use of the City of Modesto's web site (<http://www.modestogov.com>). It is provided for informational purposes only. The information presented here is not meant to be a contract of any type either expressed or implied, and should not be treated as such by site visitors. The information in this statement and/or the policies described here may change at any time, without prior notice to any visitor.

This statement covers the following topics:

- Section B. Information Collected and How it is Used
- Section C. Personal Information and Choice
- Section D. Public Access to Personally Identifiable Information
- Section E. Procedure for Review and Correction of Personally Identifiable Information
- Section F. Minor's Privacy Policy
- Section G. Use of Cookies and Applets
- Section H. Security
- Section I. Electronic Commerce
- Section J. Disclaimer of Linked Content
- Section K. Limitation of Liability
- Section L. Ownership Statement
- Section M. Contact Information

Section B. Information Collected and How it is Used

1. Information collected if you only browse this site.

If you do nothing during your visit to our web site but browse, read pages, or download information, we will gather and store certain information about your visit. This information does not identify you personally. The following information is automatically collected and stored about your visit:

1. The Internet Protocol Address and domain name used. The Internet Protocol address is a numerical identifier assigned either to your Internet service provider or directly to your computer. We use the Internet Protocol Address to direct Internet traffic to you. This address can be translated to determine the domain name of your service provider (e.g. xcompany.com or yourschool.edu). Generally, the City only determines visitor domain names if a security issue is suspected;
2. The type of browser and operating system you used;
3. The date and time you visited this site;
4. The web pages, downloaded files or services you accessed at this site; and
5. The web site you visited prior to coming to this web site.

This information is collected for statistical and site management purposes. The City's web site uses software programs to create summary statistics, which are used for such purposes as assessing what information is of most and least interest, determining technical design specifications, and identifying system performance or problem areas.

For site security purposes and to ensure that this service remains available to all users, the City's web site employs software programs to monitor network traffic to identify unauthorized attempts to upload or change information, or otherwise cause damage. Except for authorized law enforcement investigations and the security purposes mentioned elsewhere in this notice, no other attempts are made to identify individual users or their usage habits. Raw data logs are used for no other purposes.

Unauthorized attempts to upload information or change information on this service are strictly prohibited and may be punishable under state and federal statutes including the Computer Fraud and Abuse Act of 1986 and the National Information Infrastructure Protection Act.

2. What we collect if you volunteer information.

If during your visit to our web site you participate in a survey, send an email, or perform some other transaction on-line, the following additional information will be collected:

1. The email address, and contents of email, for those who communicate with us via email.
2. Information volunteered in response to a survey.
3. Information volunteered through an on-line form for any other purpose.
4. Information volunteered by participating in an online transaction with the City.

The information collected is not limited to text characters and may include audio, video, and graphic information formats you send us.

We use your email address to respond to you. Survey information is used for the purpose identified by the survey. Information from other on-line forms is used only for conducting City business related to the online form.

Information provided for a transaction is used only for the purpose of completing and recording the transaction. Information requested will be no more specific than if a visitor were engaging in the transaction by other means, including by telephone or in-person while visiting a City facility. In all cases, the City strives to collect the minimum information necessary to comply with applicable law or provide the service requested.

The City does not sell, rent or otherwise distribute visitor's information, including electronic mail addresses, to any outside company or organization, unless legally required to do so. This applies to information that may be collected on the City's site and on that of any third party with whom the City contracts to provide Internet related services.

Section C. Personal Information and Choice

You may choose whether to provide personal information on-line.

"Personal information" is information about a natural person that is readily identifiable to that specific individual. Personal information includes such things as an individual's name, address, and phone number. A domain name or Internet Protocol address is not considered personal information.

We collect no personal information about you unless you voluntarily provide it to us by sending us email, participating in a survey, completing an on-line form, or engaging in an online transaction. You may choose not to contact us by email, participate in a survey, provide personal information using an online form, or engage in an electronic transaction. Your choice to not participate in these activities will not impair your ability to browse, read, or download general information provided on the site. Information protected on this site by a password, when subject to disclosure, may be obtained by contacting the City directly.

If personal information is requested on the web site or volunteered by the user, state law and the federal Privacy Act of 1974 may protect it. However, this information is treated like any other information provided to the city, and may be subject to public inspection and copying if not protected by federal or state law.

If you believe that your personal information is being used for a purpose other than what was intended when submitted, please contact the department responsible for collecting the information. See [Contacts](#) for specifics.

Section D. Public Access to Personally Identifiable Information

In the State of California, laws exist to ensure that government is open and that the public has a right to access appropriate records and information possessed by government. At the same time, there are exceptions to the public's right to access public records. These exceptions serve various needs including maintaining the privacy of individuals. Both State and federal laws provide exceptions.

All information at this site becomes public record that may be subject to inspection and copying by the public, unless an exemption in law exists. In the event of a conflict between this Privacy and Use Statement and the California Public Records Act, the California Civil Discovery Act of 1986, the Information Practices Act, or any other law governing the disclosure of records, the California Public Records Act, the California Civil Discovery Act of 1986, the Information Practices Act, or other applicable law will control.

The City of Modesto only shares such public records with another government agency if the user's inquiry relates to that agency, to protect the interests of others, to protect and defend the rights or property of the City of Modesto or as otherwise provided by law.

While the California Public Records Act sets the general policies for access to City records, other sections of California code as well as federal laws may also deal with confidentiality issues.

Section E. Procedure for Review and Correction of Personally Identifiable Information

Unless otherwise prohibited by state or federal law, rule or regulation you will be granted the ability to review and correct the personally identifiable information collected. Prior to making your information available or revising it, the City of Modesto will take reasonable steps to verify your identity. Each city service that collects personally identifiable information will allow for review and update of that information. See [Contacts](#) for specifics.

Section F. Children's Privacy Policy

Any information collected by any City site from children under 13 is subject to the same guidelines as the general City Privacy and Use Statement. In addition, the following guidelines will be followed for any information collected by or for any child under 13:

- Information that could be collected from or for a minor includes but might not be limited to name, address, telephone number, e-mail address, school, and hobbies.
- Parental (including legal guardian) Consent
 - Parental consent will be obtained before collecting, using or disclosing personal information about a child.
 - If any information practices change in a "material" way, new consent will be obtained from the parents. This includes changes in the kinds of material being collected, a change in how that information is being used, or if there is a change in the third parties that have access to that information.
- Parents will be able to review the personal information collected from their children. This will require verification of the identity of the requesting parent. See Procedure for Review and Correction of Personally Identifiable Information for specifics.
- Parents will be allowed to revoke their consent and delete information collected from or for their children on request. When consent is revoked, the website will stop collecting, using or disclosing information from or for that child. Revocation may end a child's participation in an activity if the information collected was necessary for participation on the website.
- Additional information can be obtained at the FTC's Consumer Response Center and the Kidz Privacy websites.

Section G. Use of Cookies and Applets

Cookies are simple text files stored on your computer by your web browser. The City does not currently use cookies on its web site. However, because cookies can be used to customize your browsing experience and confirm the integrity of an online transaction, the City may decide to use them in the future. If the decision is made to use cookies, the only personal information they will contain is information you supply yourself.

The use of Cookies can be disabled through a setting in your browser. However this may prevent you from using features that require them.

An Applet is a program that can be included in an HTML page, much in the same way an image is included. When you use a browser to view a page that contains an applet, the applet's code is transferred to your system and executed by the browser. Applets are intended to enhance your browsing experience by enabling you to view information in a unique manner or enable access to information that your computer would otherwise be unable to access without the applet.

The use of Applets can be disabled through a setting in your browser. However this may prevent you from using features that require them.

Section H. Security

Unless a particular web page on the City of Modesto's web site indicates that encryption technology is being used, the user should not assume that information uploaded through that web page to the City of Modesto's web server will be treated as confidential. If a user submits information to the City of Modesto's server through a web page containing visible indicators of active encryption technology, the City of Modesto will take all reasonable precautions to safeguard the confidentiality of such information, but shall nevertheless not be held liable for any

injury caused by the disclosure of that information, whether caused by security breach, accident, inadvertence or any other act resulting in disclosure.

Section I. Electronic Commerce

Increasingly, you have the option to do business with the City over the Web including making electronic payments for goods and services. Such transactions are allowed only under tightly controlled circumstances, where there are appropriate technological and other safeguards in place to protect financial and other sensitive data.

Under statute, the City is responsible for properly securing communications that are exempt from public disclosure. This includes financial information.

The design of the electronic commerce systems supported on the City's web site is such that financial data remains primarily with financial institutions. Wherever possible, financial information is not seen or collected by the City itself. Instead, designated banks route the data, transfer the funds and confirm payment to both you and the City. In addition, measures including but not limited to encryption are used to ensure the integrity and security of your financial information.

The provision of this Privacy and Use Statement shall not be construed in any way as giving business, legal, or other advice, or warranting as fail-proof, the security of information provided via the City's web site.

Section J. Disclaimer of Linked Content

The City's web site has many links to other web sites. These include links to web sites operated by other government agencies, nonprofit organizations and private businesses. When you link to another site, you are no longer on the City's web site and this Privacy Notice will not apply. When you link to another web site, you are subject to the privacy policy of that new site. Visitors linking to another site are encouraged to examine the privacy policy of that site.

Neither the City, nor any department, officer, or employee of the City warrants the accuracy, reliability or timeliness of any information published by this system, nor endorses any content, viewpoints, products, or services linked from this system, and shall not be held liable for any losses caused by reliance on the accuracy, reliability or timeliness of such information. Portions of such information may be incorrect or not current. Any person or entity that relies on any information obtained from this system does so voluntarily at his/her own risk.

Section K. Limitation of Liability

The City of Modesto attempts to maintain the highest accuracy of content of its web site. Any errors or omissions should be reported for investigation.

The City of Modesto makes no claims, promises, or guarantees about the absolute accuracy, completeness or adequacy of the contents of this web site and expressly disclaims liability for errors and omissions in the contents of this web site. No warranty of any kind, implied, expressed, or statutory, including but not limited to the warranties of non-infringement of third party rights, title, merchantability, fitness for a particular purpose, and freedom from computer virus, is given with respect to the contents of this web site or its hyperlinks to other internet resources.

Reference in this web site to any specific commercial products, processes, or services, or the use of any trade, firm, or corporation name is for the information and convenience of the public, and

does not constitute endorsement, recommendation, or favoring by the City of Modesto, or its employees or agents.

This Privacy and Use Statement is subject to change without notice.

Section L. Ownership Statement

In general, information presented on this web site, unless otherwise indicated, is considered in the public domain. It may be distributed or copied as permitted by law. However, the City of Modesto does make use of copyrighted data (e.g. photographs), which may require additional permissions prior to your use. In order to use any information on this web site not owned or created by the City, you must seek permission directly from the owning (or holding) sources. The City shall have the unlimited right to use for any purpose, free of any charge, all information submitted via this site except those submissions made under separate legal contract. The City shall be free to use, for any purpose, any ideas, concepts, or techniques contained in information provided through this site.

Section M. Contact

The City of Modesto is made up of several departments. Each department is responsible for the personally identifying information it collects. To review your collected personal information, if any, or request correction of factual errors in your personal information, please contact the department that requested the information. Contact information can be found on each department's main web page.

To offer comments about the information presented in this Privacy and Use Statement, please contact:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-3**

A RESOLUTION TO SUPPLEMENT MILITARY PAY AND CONTINUE HEALTH INSURANCE FOR UP TO TWENTY-FOUR (24) MONTHS FOR EMPLOYEES CALLED TO ACTIVE DUTY FOR NATIONAL DEFENSE BEFORE JANUARY 1, 2005.

WHEREAS, in the wake of the September 11th terrorist attack on America, two City employees have already been called into active duty, and

WHEREAS, on November 20, 2001, the City Council adopted Resolution 2001-592 extending pay and benefits for twelve (12) months for Reservists called into active military duty, and

WHEREAS, the City now desires to supplement military pay and continue health insurance for employees called to active duty for up to twenty-four (24) month, and

WHEREAS, the City has identified 12 regular City employees who are Reservists and who could be called into active duty, and

WHEREAS, the Modesto Police Officers' Association supports the City's efforts to continue to provide additional salary and health benefits to activated employees, and

WHEREAS, on November 25, 2002, the Council Finance Committee voted unanimously to recommend approval of this action to the full City Council,

NOW, THEREFORE, BE IT RESOLVED by the City Council that the City will pay the difference between an employee's base City salary and the employee's military pay including all military allowances and/or premiums (if the base City salary exceeds the military pay).

BE IT FURTHER RESOLVED, that the City will pay the same contribution towards an employee's health, dental and vision premiums for an employee called into

active duty that it was paying at the time the employee was called up, excluding in-lieu deferred compensation payments.

BE IT FURTHER RESOLVED, the City will continue the benefits outlined in this Resolution for up to twenty-four (24) months for employees remaining in active duty and called into such duty before January 1, 2005.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th of January, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating,
O'Bryant, Mayor Sabatino

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-4**

A RESOLUTION APPOINTING FIVE (5) OF THE EQUAL OPPORTUNITY/DISABILITY COMMISSIONERS TO THE HUMAN RELATIONS COMMISSION AND AUTHORIZING THEIR JOINT MEMEBERSHIP IN BOTH COMMISSIONS AND GRANTING AUTHORITY TO CONDUCT JOINT MEETINGS

WHEREAS out of seven (7) authorized members on the Human Relations Commission there are five (5) vacancies, and

WHEREAS there are nine (9) Council Appointed Commissioners on the Equal Opportunity/Disability Commission for the City of Modesto, and

WHEREAS, for several years, the Human Relations Commission has been unable to obtain a quorum and conduct official business, and

WHEREAS, the City now desires to enhance the Human Relations Commission by assigning five (5) of the existing Equal Opportunity/Disability Commissioners dual roles of responsibility by serving on both Commissions, and

WHEREAS, on October 21, 2002, the Equal Opportunity/Disability Commission recommended approval of this action, and

WHEREAS, on December 9, 2002, the Economic Development Committee voted unanimously to recommend approval of this action to the full City Council,

NOW, THEREFORE, BE IT RESOLVED that the following individuals: Ed Penfold (Reappointed 2/12/02, Resolution No. 2002-73), Scott Hallmon (Reappointed 2/12/02 Resolution No. 2002-73), Galena Gilstrap (Reappointed 7/25/00, Resolution No. 2000-400), Jackie Deabler (Appointed 11/23/99, Resolution No. 99-581) and Dwight Bateman (Reappointed 2/12/02, Resolution No. 2002-73), all originally appointed to the

Equal Opportunities/Disability Commission, be reappointed to additionally serve as Human Relations Commissioners, as established by the City of Modesto Charter November 4, 1980. This term will expire in four years, on January 1, 2007,

BE IT FURTHER RESOLVED that the Human Relations Commission and the Equal Opportunity Commission be empowered to meet jointly as one body until otherwise determined by ordinance or Resolution and act as an advisory commission to City Council, formulate recommendations for furthering human relations in the community, and perform such other duties with respect to human relations and equal opportunity as the City Council may prescribe by ordinance or Resolution.

The foregoing Resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of January, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the Resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003 - 7**

A RESOLUTION APPROVING SOLICITATION OF A REQUEST FOR PROPOSALS FROM SIGN MANUFACTURERS TO DESIGN, MANUFACTURE AND INSTALL AN ILLUMINATED MARQUEE SIGN AT MODESTO CITY-COUNTY AIRPORT THAT HONORS HARRY SHAM FOR HIS AVIATION CONTRIBUTION TO THE COMMUNITY AND PROVIDES THE GENERAL PUBLIC WITH AN AIRPORT LOCATION IDENTIFICATION MEDIA.

WHEREAS, Modesto City-County Airport is the community airport providing commercial and general aviation services for community residents, and

WHEREAS, the airport is in need of a marquee sign to serve as a media for identifying the location of the airport and its services, and

WHEREAS, the City Manager has requested placing a sign at the airport that honors Harry Sham for his aviation contribution to the community, and

WHEREAS, the project was approved as part of the Modesto City-County Airport's Operating Budget for Fiscal Year 2002/2003, and

WHEREAS, Staff has recommended that the marquee sign be an illuminated sign placed at the Mitchell Road and Tenaya Drive intersection, and

WHEREAS, Staff further recommended the placement of a second sign at the intersection of Mitchell Road and Airport Way, if sufficient funding exists, and

WHEREAS, the members of the Airport Advisory Committee have considered the need for a marquee sign, and are in support of its placement, and

WHEREAS, the Council Economic Development Committee approved solicitation of a request for proposals for the project at its meeting on August 12, 2002.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Modesto that it hereby approves solicitation of a request for proposals to design, manufacture, and install an illuminated marquee sign at the Modesto City-County Airport at the intersection of Mitchell Road and Tenaya Drive, and placement for an additional sign at the intersection of Mitchell Road and Airport Way, if sufficient funding exists for the additional sign.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of January 2003 by Councilmember Fisher who moved for its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote.

RESOLUTION NO. 2003-10**

**A RESOLUTION REJECTING THE BID AND CONTRACT FOR THE
PROJECT TITLED "VILLAGE ONE WEST BASIN ROAD IMPROVEMENTS"
AND RESCINDING RESOLUTION NO. 2002-560**

WHEREAS, the bids received for Village One West Basin Road Improvements were opened at 11:00 a.m. on October 29, 2002, and

WHEREAS, the low bidder was George Reed, Inc. at a price of \$899,333, and

WHEREAS, a contract was awarded to George Reed, Inc. by City Council on November 12, 2002, by Resolution No. 2002-560, and

WHEREAS, during the post award process, staff determined that the project was advertised as a non-prevailing wage project; therefore, staff recommends the bid and contract be rejected and the specifications be revised to include prevailing wages, and re-solicitation for this service be conducted at a later date,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the bids received for the Village One West Basin Road Improvements, opened in the office of the City Clerk on October 29, 2002, are hereby rejected.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the contract awarded to George Reed, Inc., for the Village One West Basin Road Improvements, is hereby nullified, and Resolution No. 2002-560 is hereby rescinded.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of January, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: None

RESOLUTION NO. 2003-11**

**A RESOLUTION AWARDING A \$66,775 CONTRACT TO ASSOCIATED
ENGINEERING GROUP, INC. FOR ENGINEERING DESIGN SERVICES FOR
THE PROJECT TITLED "VILLAGE ONE STORM DRAINAGE
IMPROVEMENTS"**

WHEREAS, following a Request for Qualifications which was sent to all local engineering firms, six statements of qualifications were received for the Village One Storm Drainage Improvements Design and were submitted to the City, and

WHEREAS, a selection team decided all six firms were qualified to provide engineering design services, and

WHEREAS, the selection team decided that Associated Engineering Group, Inc., rated highest for storm drainage design, in accordance with Administrative Directive 3.1, and

WHEREAS, the Engineering and Transportation Director has recommended that Associated Engineering Group, Inc., be accepted as the most qualified engineering consulting firm for engineering design services for the "Village One Storm Drainage Improvements", and

WHEREAS, the Engineering & Transportation Director has recommended accepting the proposal of Associated Engineering Group, Inc., in an amount not to exceed \$66,775,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby awards a contract for engineering design services for the project titled "Village One Storm Drainage Improvements" to Associated Engineering Group, Inc., in an amount not to exceed \$66,775.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of January, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2003-14**

**A RESOLUTION AUTHORIZING STAFF TO ENTER INTO NEGOTIATIONS
WITH THE DEL RIO FOUNDATION TO BRING THE FIRST TEE PROGRAM
TO MUNI GOLF COURSE.**

WHEREAS, The First Tee Program is a national program formed in 1997 to promote the involvement of young people in golf and teach “life skills” as part of the curriculum, and

WHEREAS, in order to be chosen as a First Tee site, there are several requirements that must be met, the most important of which is that a non-profit organization, that has missions and values that match those of The First Tee Program, be in place to manage and administer the program, and

WHEREAS, the Del Rio Foundation was founded to carry out the purpose of fostering youth and amateur sports activity and competition in the greater valley region, and

WHEREAS, the Del Rio Foundation has expressed an interest in administering The First Tee program at Muni Golf Course, and

WHEREAS, the Safety and Communities Committee met on December 2, 2002, and supported the recommendation to enter into negotiations with the Del Rio Foundation to bring The First Tee Program to Muni Golf Course,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby authorizes staff to enter into negotiations with the Del Rio Foundation to bring The First Tee Program to Muni Golf Course.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of January, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-15**

A RESOLUTION APPROVING A LEASE AGREEMENT RENEWAL FOR THE DOWNTOWN WATER TANK CELLULAR ANTENNA SITE AND LEASE AGREEMENT AMENDMENTS FOR CELLULAR ANTENNA/TOWER SITES AT BEYER, DAVIS, AND DOWNEY COMMUNITY PARKS WITH AT&T WIRELESS SERVICE OF CALIFORNIA, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE LEASE AGREEMENT DOCUMENTS.

WHEREAS, the negotiation process with AT&T Wireless Service of California started in late January 2002 with AT&T's Request For Consent to complete antenna and communication facility upgrades at City sites covered by existing lease agreements, and

WHEREAS, during the review process, it was revealed that AT&T Wireless Service of California had not renewed the Downtown Water Tank lease agreement as required, and as a result, the City made a business decision to re-negotiate each lease agreement with compensation and language changes, and

WHEREAS, the compensation issues were: 1) monthly rental fee increases, and 2) installation of antenna and wireless connections for computer and cellular phones as a part of the "Communication Facilities" for exclusive use, without cost or obligation to the City, and

WHEREAS, the City has negotiated a renewed five-year lease agreement with AT&T Wireless Service of California for use of the Downtown Water Tank as a site for antennas and a communication facility, including: 1) the option for AT&T Wireless Service of California to extend lease agreement for a five-year term by giving written notice of intent prior to the lease agreement expiration, 2) increased compensation to the City for use of site from \$735.82 to \$1,600.00 per month, effective April 1, 2002, 3) collection of back rent from AT&T Wireless Service of California from April 2002,

through December 2002, in the amount of \$864.18 per month, 4) additional language in the hold harmless agreement holding the City harmless from any claims, including injury to person or wrongful death, for use of the water tower property, and 5) City's consent to upgrade antennas and communication facilities, and

WHEREAS, the City of Modesto and AT&T Wireless Service of California have negotiated amendments to these lease agreements, including: 1) a compensation increase at Beyer park site from \$1,090.00 to \$1,600.00 per month and at Davis and Downey park sites from \$1,327.62 to \$1,600.00 per month, effective April 1, 2002, 2) collection of back rent from April 2002, through October 2002, in the amount of \$510.00 per month for the Beyer park site and \$272.38 per month for the Downey park site, 3) collection of back rent from April 2002, through December 2002, in the amount of \$272.38 per month for the Davis park site, 4) City's consent to upgrade antennas and communication facilities, and 5) requirement that AT&T maintain landscaping in a commercially reasonable manner after completing any maintenance on cellular tower sites in these community parks, and

WHEREAS, the Safety and Communities Committee met on December 2, 2002, and supported the recommendation to approve a lease agreement renewal for the Downtown Water Tank cellular antenna site and lease agreement amendments for cellular antenna/tower sites at Beyer, Davis, and Downey Community Parks with AT&T Wireless Service of California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves a lease agreement renewal for the Downtown Water Tank cellular antenna site and lease agreement amendments for cellular antenna/tower

sites at Beyer, Davis, and Downey Community Parks with AT&T Wireless Service of California.

BE IT FURTHER RESOLVED that the City Manager or his designee is hereby authorized to execute the lease agreement documents.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of January, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-16**

**A RESOLUTION GRANTING THE APPEAL OF PAUL AND SUE THORPE TO
A PLANNING COMMISSION DECISION APPROVING THE MIRA LOMA
VESTING TENTATIVE SUBDIVISION MAP**

WHEREAS, Modesto Municipal Code Section 4-4.404 authorizes the Planning Commission to take action on proposed subdivision maps, and

WHEREAS, on April 29, 2002, SUTCO Construction/Ridge Sutter submitted an application for a vesting tentative subdivision map, Mira Loma, and

WHEREAS, the Planning Commission considered the application at their regularly scheduled meeting on August 26, 2002, in the Tenth Street Place Chambers, located at 1010 Tenth Street, Modesto, California, at which meeting evidence both oral and documentary was received and considered, and

WHEREAS, on August 26, 2002, the Planning Commission denied the Mira Loma vesting tentative subdivision map due to inconsistency with the General Plan, because it did not provide for the connection of Encina Avenue, a designated collector street in the General Plan, and

WHEREAS, on September 3, 2002, SUTCO Construction/Ridge Sutter filed a revised vesting tentative subdivision map, Mira Loma, that provided a connection of Encina Avenue via Julian Avenue, and

WHEREAS, a public hearing was held by the Planning Commission on November 18, 2002, in the Tenth Street Place, Chambers, located at 1010 Tenth Street, Modesto, California, at which meeting evidence both oral and documentary was received and considered, and

WHEREAS, the Planning Commission by Resolution No. 2002-49 approved the revised vesting tentative subdivision map ("Map"), Mira Loma, because it was deemed consistent with the General Plan policy calling for collector streets to be offset within the interior of neighborhoods, and

WHEREAS, an appeal to the decision of the Planning Commission was filed with the Office of the City Clerk by letter from Paul and Sue Thorpe on December 2, 2002, and

WHEREAS, said appeal was set for a duly noticed public hearing before the City Council to be held on Tuesday, January 7, 2003, at 5:30 p.m. in the Tenth Street Place

Chambers, located at 1010 Tenth Street, Modesto, California, at which time said public hearing was held, and evidence both oral and documentary was received and considered, and

WHEREAS, after said public hearing the Council found and determined that said appeal to the decision of the Planning Commission should be granted because the Map is inconsistent with the City's General Plan for the following reasons:

1. Encina is intended to be a collector street pursuant to the General Plan
2. The Map would have the effect of making Julian Street and a portion of Fusco Street into collector streets that are not so designated by the General Plan.
3. Policy III-C.2.e. (1) of the General Plan states that collector streets should provide direct linkages from the residences within a neighborhood to neighborhood facilities within the same neighborhood, such as schools, parks, etc., and a connection to peripheral arterials. The Map is inconsistent with the General Plan because the redirection of traffic from Encina to Fusco, Julian and Conejo Streets does not provide (1) a direct linkage via Encina from the residences to the east of the proposed subdivision to their neighborhood facilities, including but not limited to La Loma Junior High School and parks to the west, or (2) a direct connection via Encina from the residences to the west to the El Vista arterial.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the appeal of Paul and Sue Thorpe to the decision of the Planning Commission approving the Mira Loma vesting tentative subdivision map is granted, and the decision of the Planning Commission is hereby overturned for the reasons set forth above.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of January, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-17**

A RESOLUTION APPROVING A DEVELOPMENT PLAN FOR PLANNED DEVELOPMENT ZONE, P-D(557) (REDEV, INC.)

WHEREAS, a verified application for an amendment to Section 6-3-9 of the Zoning Map was filed by Redev, Inc. on July 30, 2002, to reclassify from Specific Plan-Overlay Zone, to Planned Development Zone, P-D(557), to allow a medical office complex, property located on the northwest corner of Tully Road and Snyder Avenue, described as follows:

SP-O to P-D(557)

All that certain real property situated in a portion of the Southeast quarter of Section 6, Township 3 South, Range 9 East, Mount Diablo Base and Meridian and lying within the City of Modesto, County of Stanislaus, State of California, more particularly described as follows:

Parcel B as shown and designated on that certain Parcel Map filed in the Office of the County Recorder of Stanislaus County, California, on May 14, 1999 in Book 49 of Parcel Maps, at Page 49;

Including the Westerly portion of Tully Road West of the centerline of original 40 foot Tully Road and the North half of Snyder Avenue, all immediately adjacent to the above described property.

WHEREAS, after a public hearing held on December 2, 2002, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, it was found and determined by the Planning Commission, by its Resolution No. 2002-53, that rezoning of the property as requested is required by public necessity, convenience, and general welfare for the following reasons:

1. The proposed office development is consistent with the current land use designation for the site.
2. Conditions of approval will ensure compatibility with surrounding land uses.

WHEREAS, said matter was set for a public hearing of the City Council to be held on January, 7 2003, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which date and time said duly noticed public hearing was held, and

WHEREAS, after said public hearing the Council found and determined that the application of Redev, Inc. for a Planned Development Zone should be granted as consonant with public necessity, convenience and general welfare for the reasons set forth in Planning Commission Resolution No. 2002-53 and quoted above, and

WHEREAS, the Council has introduced Ordinance No. 3278-C.S. on the seventh day of January, 2003, reclassifying the above-described property from Specific Plan-Overlay Zone (SP-O), to Planned Development Zone, P-D(557).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. DEVELOPMENT PLAN. The development plan for Planned Development Zone, P-D(557), is hereby approved subject to the following conditions:

1. All development shall conform to the plot plan and elevations titled "Proposed Office Complex: 4101 Tully Road" as amended in red, stamped approved by the City Council.
2. Prior to the issuance of a building permit, a landscaping and irrigation plan shall be approved by the Chief Building Official. Evergreen, screen landscaping shall be installed along the north and west property lines. Landscaping and the irrigation system shall be installed and maintained in accordance with the approved plan.
3. Fences or walls shall be constructed prior to occupancy and shall be as follows:
 - Six-foot-high wood fence with decorative masonry pilasters at 16-foot on centers along the west property line where the fence is adjacent to buildings.
 - Six-foot-high, solid double-sided alternating-board fence with decorative masonry pilasters at 16-foot on centers along the west property line where the fence is adjacent to parking or driveways.
4. All landscaping, fences, and walls shall be maintained and the premises shall be kept free of weeds, trash, and other debris.

5. Prior to issuance of a building permit, improvement plans for required improvements shall be prepared by a Registered Civil Engineer and approved by the Engineering and Transportation Director. Improvements shall be constructed in accordance with the approved plans.
6. Prior to occupancy of any building, irrigation, electrical, gas and domestic water lines shall be removed, relocated, or protected as required by the Engineering and Transportation Director and/or the utility companies, and easements for utility lines to remain shall be dedicated.
7. All existing street and property monuments within or abutting this project site shall be preserved. If, during construction of on-site or off-site improvements, monuments are damaged or destroyed, the applicant/developer shall retain a qualified licensed land surveyor or civil engineer to reset those monuments per City standards and file the necessary information with the County Recorder's Office as required by AB1414.
8. Prior to issuance of a building permit, the developer shall show on the plans submitted to Building Inspection all fire hydrants as required by the Fire Chief. All hydrants required by the Fire Chief shall be installed and operable prior to construction of any structures.
9. Ten-foot-wide public utility easements, and planting easements located within the ten-foot-wide public utility easements, shall be dedicated along all street frontages as required by the Engineering and Transportation Director.
10. Prior to the issuance of a building permit, the developer shall submit a plan for approval by the Operations and Maintenance Director to provide on-site treatment of stormwater in accordance with the guidance manual for new development stormwater quality control measures. Storm drain improvements shall be constructed in accordance with the approved plans.
11. The developer shall indemnify, defend and hold harmless the City of Modesto, its agents, officers, and employees from any and all claims, actions, or proceedings against the City of Modesto, its agents, officers, and employees to arbitrate, attack, review, set aside, void, or annul, any approval by the City of Modesto of a development approval. The City of Modesto shall promptly notify the developer of any claim, action, or proceeding and shall cooperate fully in the defense. If the City fails to do so, the developer shall not thereafter be responsible to defend, indemnify, or hold City harmless.

12. The developer shall implement pre- and post- construction best management practices (BMPs) to minimize pollutants entering the storm system.
13. All signs shall comply with the sign requirements of the P-O Zone.
14. Trash bins shall be kept in enclosures in accordance with the approved plan and in accordance with plans approved by the Operations and Maintenance Department Director. Enclosures shall be constructed of building materials consistent with those used in the major buildings as approved by the Community and Economic Development Department Director.
15. Prior to the issuance of a building permit the developer shall execute a Reciprocal Parking and Access Agreement which shall provide for mutual and reciprocal vehicular and pedestrian access and vehicular parking for the benefit of all six parcels. Said agreement shall be in a form approved by the City Attorney.
16. All outdoor lighting shall be shielded from adjacent residential properties as required by the Engineering and Transportation Director.

SECTION 2. DEVELOPMENT SCHEDULE. The following development schedule is hereby approved for said Planned Development Zone, P-D(557):

The entire construction program be accomplished in one phase, construction to begin on or before January 7, 2005, and completion to be not later than January 7, 2006.

SECTION 3. CHANGES IN DEVELOPMENT PLAN. Any changes in the above approved development plan shall be made in accordance with the provisions of Section 10-2.1709 of the Modesto Municipal Code.

SECTION 4. COMPLIANCE WITH CODE PROVISIONS, ETC. In all other respects said planned development shall be accomplished in accordance with and in strict adherence to the provisions of Article 17 of Title 10 of the Modesto Municipal Code relating to Planned Development Zones and other applicable City laws, rules, regulations and procedures.

SECTION 5. EFFECTIVE DATE. This resolution shall not become effective unless and until the ordinance reclassifying the above-described property to Planned Development Zone, P-D(557), becomes effective.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of January, 2003, by Councilmember Keating, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-18**

A RESOLUTION FINDING THAT THE FOLLOWING PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY A FINAL ENVIRONMENTAL IMPACT REPORT (SCH NO. 93042004) RELATING TO THE APPROVAL OF THE PELANDALE- SNYDER SPECIFIC PLAN: REZONING OF 2.43 ACRES LOCATED ON THE NORTH-WEST CORNER OF SNYDER AVENUE AND TULLY ROAD FROM SPECIFIC PLAN- OVERLAY ZONE, (SP-O), TO PLANNED DEVELOPMENT ZONE, P-D(557) (REDEV, INC.)

WHEREAS, on January 16, 1996, by Resolution No. 96-22, the City Council of the City of Modesto certified the Final Environmental Impact Report (“EIR”) (SCH No. 93042004) for the Pelandale-Snyder Specific Plan, and

WHEREAS, Redev, Inc. has proposed that property located on the northwest corner of Tully Road and Snyder Avenue be rezoned from Specific Plan Overlay Zone, (SP-O), to Planned Development Zone, P-D(557), in the City of Modesto (“the project”) to allow for a medical office complex, and

WHEREAS, Section 21166 of the Public Resources Code provides that the lead agency not require a subsequent or supplemental EIR for a project where an EIR has already been certified, unless the lead agency finds that substantial changes are proposed that will require major revisions of the EIR, substantial changes have occurred with respect to the circumstances under which the project is being undertaken, or new information becomes available that would change the conclusions of the EIR, and

WHEREAS, the City’s Community & Economic Development Department by Environmental Assessment Initial Study EA/C&ED 2002-65 (“Initial Study”) reviewed the proposed amendment to the Zoning Map and rezone to P-D(557) project and made the determination that there are no substantial changes proposed in the project which will require major revisions in the Final EIR, that no substantial changes have occurred in the

circumstances under which the project is being undertaken, and that there is no new information that would change the conclusions of the Final EIR, and

WHEREAS, in accordance with CEQA guidelines beginning on December 19, 2002, the City caused to be published a 10-day notice of the City's intent to make a finding that the proposed project conforms with the Pelandale-Snyder Specific Plan EIR.

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on January 7, 2003, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed amendment to the Zoning Map and rezone to P-D(557) project, a copy of which is attached hereto as **Exhibit "A"**, and incorporated herein by reference, and based on the substantial evidence included in said Initial Study makes the following findings:

1. There are no substantial changes in the proposed Planned Development that will require major revisions of the Pelandale-Snyder Specific Plan Environmental Impact Report (SCH No. 93042004).
2. There are no substantial changes occurring with respect to the circumstances under which the project is being undertaken which will require major revisions to the Pelandale-Snyder EIR.
3. No new information, which was not known and could not have been known at the time the Pelandale-Snyder Specific Plan EIR was certified as complete, has become available.

4. The Initial Study, Environmental Assessment EA/C&ED 2002-65, provides the substantial evidence necessary to support findings 2-4.
5. As per Section 21166 of the Public Resources Code, no new environmental document or findings are required by the California Environmental Quality Act (CEQA).

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of January, 2003, by Councilmember Keating, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

EXHIBIT A

“Initial Study”

EA/C&ED 2002-65

City of Modesto
Initial Study

P-D - 4101 Tully

EA/C&ED 2002-65
November 18, 2002

I. PURPOSE

On January 16, 1996, the Modesto City Council certified the Final Environmental Impact Report for the Pelandale-Snyder Specific Plan (SCH# 93042004). This Final EIR analyzed the impacts of build-out of the Pelandale-Snyder Specific Plan, which includes the area in which this project is proposed.

Section 21166 of Public Resources Code allows the Pelandale-Snyder Specific Plan EIR to be used for subsequent projects, provided the following findings can be made:

- A. No substantial changes are proposed in the project which will require major revisions of the environmental impact report.
- B. No substantial changes are occurring with respect to the circumstances under which the project is being undertaken which will require major revisions in the environmental impact report.
- C. No new information, which was not known and could not have been known at the time the environmental impact report was certified as complete, becomes available.

The purpose of this Initial Study is to provide the substantial evidence for the above findings.

II. PROJECT DESCRIPTION

- A. Project title:
P-D – 4101 Tully
- B. Lead agency name and address:
City of Modesto, PO Box 642, Modesto, CA 95353
- C. Contact person and phone number:
Josh Bridegroom, Community and Economic Development Department, (209) 571-5540
- D. Project Location:
The northwest corner of Tully Road and Snyder Avenue.
- E. Project Sponsor:
Redev Inc., 2020 Standiford Avenue Ste. D-5, Modesto, Ca. 95350
- F. General Plan Designation:
Village (VR)
- G. Current Zoning:
Specific Plan-Overlay (SP-O) Zone

- H. Description of Proposed Project:
This is an application to rezone 2.43 acres from SP-O to P-D to allow for the development of a medical office complex made up of two buildings of 3,000 square feet and four buildings of 4,000 square feet and related parkway, parking and driveways.
- I. Surrounding land uses:
The project is bounded by existing single-family homes to the west, multi-family to the north, a currently-developing single-family subdivision to the east, and vacant land designated for multi-family development to the south.
- J. Other public agencies whose approval is required:
None.

III. ANALYSIS OF CONFORMANCE WITH SECTION 21166 FINDINGS

- A. No substantial changes are proposed in the project which will require major revisions of the environmental impact report

Following is an analysis of how there are no substantial changes proposed in the project which would require major revisions of Pelandale-Snyder Specific Plan EIR, organized by impact sections in the EIR:

1. Land Use, Consistency with Plans and Policies, and Agriculture

Impacts to land use, consistency with plans and policies, and agriculture, are discussed on pages 33 through 41 of the Pelandale-Snyder Specific Plan EIR. The project is consistent with the Specific Plan in land use and intensity, and would not convert any agricultural land not previously analyzed in the EIR. Therefore, there would be no substantial changes needed to the Land Use, Consistency with Plans and Policies, and Agriculture section of the EIR.

2. Population, Employment, and Housing

Impacts to population, employment, and housing are analyzed on pages 42 through 44 of the Pelandale-Snyder Specific Plan EIR. The project is consistent with the Specific Plan in land use and intensity. Therefore, there would be no change needed to the impacts to population, employment, and housing analyzed in this section of the EIR.

3. Traffic and Circulation

Traffic and circulation impacts are analyzed on pages 45 through 94 of the Pelandale-Snyder Specific Plan EIR. The project is consistent with the Specific Plan in land use and intensity. Therefore, there would be no change needed in the Traffic and Circulation section of the EIR. Furthermore, Engineering and Transportation staff have determined that the project will generate 81 peak-hour-trips, which is less than the 100-peak-hour-trip threshold of significance for further analysis under the Engineering and Transportation Department's Traffic Study Policy (attached) and that no additional traffic analysis is required. Therefore, there would be no change needed in the Traffic and Circulation section of the EIR.

4. Noise

Noise impacts are analyzed on pages 95 through 109 of the Pelandale-Snyder Specific Plan EIR. The project is consistent with the Specific Plan in land use and intensity. Therefore, there would be no change needed to the noise analyzed in this section of the EIR.

5. Air Quality

Impacts to air quality are analyzed on pages 110 through 126 of the Pelandale-Snyder Specific Plan EIR. The project is consistent with the Specific Plan in land use and intensity. Therefore, the conclusions of the Pelandale-Snyder EIR in this impact area would not change, and there would be no change needed in this section of the EIR.

6. Biology

Impacts to biology are analyzed on pages 127 through 129 of the Pelandale-Snyder Specific Plan EIR. The EIR concluded that there were no significant biological impacts. The project will not impact any additional areas not already analyzed in the EIR. Therefore, there would be no change needed to the section of the EIR analyzing biological impacts.

7. Archaeology

Impacts to archaeology are analyzed on page 130 of the Pelandale-Snyder Specific Plan EIR. The project will not impact any additional areas not already analyzed in the EIR. Therefore, there would be no change needed to the section of the EIR analyzing archaeological impacts.

8. Public Services

Impacts to public services are analyzed on pages 131 through 136 of the Pelandale-Snyder Specific Plan EIR. The project is consistent with the Specific Plan in land use and intensity. Furthermore, the project was referred to affected public agencies for comments. None of the agencies indicated that there are any issues with regard to services needed to serve the proposed development. Therefore, there would be no change needed to the impacts to public services analyzed in the EIR.

9. Hydrology and Drainage

Hydrology and drainage are analyzed on pages 137 through 141 of the Pelandale-Snyder Specific Plan EIR. The project will not affect the conclusions reached in the EIR regarding hydrology and drainage, as the project will continue to provide storm drainage consistent with the Specific Plan.

10. Growth Inducing Impacts

Growth-inducing impacts are analyzed on page 142 of the Pelandale-Snyder Specific Plan EIR. The project is consistent with the Specific Plan in land use and intensity. Therefore, there would be no change needed to the analysis of growth-inducing impacts in the EIR.

11. Geology/Soils

Impacts to geology and soils are analyzed on pages 143 through 144 of the Pelandale-Snyder Specific Plan EIR. The project will not impact any additional areas not already analyzed in the EIR. Therefore, there would be no change needed to the section of the EIR analyzing impacts to soils and geology.

- B. No substantial changes are occurring with respect to the circumstances under which the project is being undertaken which will require major revisions in the environmental impact report

The Pelandale-Snyder Specific Plan EIR was certified by the Modesto City Council on January 16, 1996. In the period since then, the City Council has approved the Carver-Bangs and Kiernan Business Park Specific Plans for development immediately to the north of the Pelandale-Snyder Specific Plan. However, this development was consistent with the City's General Plan, and was therefore assumed in the analysis of the Pelandale-Snyder Specific Plan EIR. Therefore, there have been no substantial changes with respect to the circumstances under which this project is being undertaken which will require major revisions in the Pelandale-Snyder Specific Plan EIR.

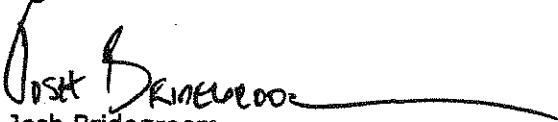

- C. No new information, which was not known and could not have been known at the time the environmental impact report was certified as complete, becomes available

The Pelandale-Snyder Specific Plan EIR was certified by the Modesto City Council on January 16, 1996. In the intervening period, there has been no new information, which was not known at the time the Pelandale-Snyder Specific Plan EIR was certified, has become available, that would change the conclusions of the EIR.

IV. CONCLUSIONS/DETERMINATIONS OF FINDINGS

- A. There are no substantial changes proposed in the project which will require major revisions of the Pelandale-Snyder Specific Plan EIR.
- B. There are no substantial changes occurring with respect to the circumstances under which the project is being undertaken which will require major revisions in the Pelandale-Snyder Specific Plan EIR.
- C. No new information, which was not known and could not have been known at the time the Pelandale-Snyder Specific Plan EIR was certified as complete, has become available.
- D. This initial study provides substantial evidence to support findings A, B and C, above.

Assistant Planner

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-19**

RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MODESTO APPROVING THE ISSUANCE OF CALIFORNIA STATEWIDE COMMUNITIES DEVELOPMENT AUTHORITY REVENUE BONDS (SUTTER HEALTH), SERIES 2003 IN AN AGGREGATE PRINCIPAL AMOUNT NOT TO EXCEED \$115,000,000 FOR THE PURPOSE OF FINANCING AND REFINANCING THE ACQUISITION, IMPROVEMENT AND EQUIPPING OF MEMORIAL HOSPITALS ASSOCIATION AND CERTAIN OTHER MATTERS RELATING THERETO

WHEREAS, Sutter Health, a California nonprofit public benefit corporation (the "Corporation"), has requested that the California Statewide Communities Development Authority (the "Authority") participate in the issuance of revenue bonds in an aggregate principal amount not to exceed \$115,000,000 (the "Bonds") for the acquisition, improvement and equipping of the medical, education and research facilities known as Memorial Hospitals Association (the "Facilities") to be owned and operated by the Corporation (or an affiliate of the Corporation) and located within the City of Modesto (the "City") and other facilities located outside of the City; and

WHEREAS, pursuant to Section 147(f) of the Internal Revenue Code of 1986 (the "Code"), the issuance of the Bonds by the Authority must be approved by the City because the Facilities are located within the territorial limits of the City; and

WHEREAS, the City Council of the City (the "City Council") is the elected legislative body of the City and is one of the applicable elected representatives required to approve the issuance of the Bonds under Section 147(f) of the Code; and

WHEREAS, the Authority has requested that the City Council approve the issuance of the Bonds by the Authority in order to satisfy the public approval requirement of Section 147(f) of the Code and the requirements of Section 9 of the Amended and Restated Joint Exercise of Powers Agreement, dated as of June 1, 1988 (the "Agreement"), among certain local agencies, including the City; and

WHEREAS, pursuant to Section 147(f) of the Code, the City Council has, following notice duly given, held a public hearing regarding the issuance of the Bonds, and now desires to approve the issuance of the Bonds by the Authority;

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Modesto as follows:

Section 1. The City Council hereby approves the issuance of the Bonds by the Authority for the purposes of acquiring, improving and equipping the Facilities. It is the purpose and intent of the City Council that this resolution constitute approval of the issuance of the Bonds by the Authority, for the purposes of (a) Section 147(f) of the Code by the applicable elected representative of the governmental unit having jurisdiction over the area in which the Facilities are located, in accordance with said Section 147(f) and (b) Section 9 of the Agreement.

Section 2. The officers of the City are hereby authorized and directed, jointly and severally, to do any and all things and to execute and deliver any and all documents which they deem necessary or advisable in order to carry out, give effect to and comply with the terms and intent of this resolution and the financing transaction approved hereby.

Section 3. This resolution shall take effect immediately upon its adoption.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of January, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating,
O'Bryant, Mayor Sabatino

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-20A**

**A RESOLUTION ADOPTING THE VILLAGE ONE FACILITIES
PRIORITIZATION LIST AND ESTABLISHING POLICIES WITH RESPECT TO
ADMINISTRATION OF THE VILLAGE ONE FACILITIES PRIORITIZATION
LIST**

WHEREAS, on January 7, 2003 staff presented a Village One Facilities Prioritization List ("Facilities Prioritization List") to the City Council for consideration, and

WHEREAS, said Facilities Prioritization List will provide residents a blueprint showing where and in what order CFD-funded projects will be constructed, and

WHEREAS, said Facilities Prioritization List will allow construction of the CFD-funded facilities to be tied to the community's needs, and

WHEREAS, said Facilities Prioritization List will allow staff to schedule construction of the identified projects,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Village One Facilities Prioritization List, attached hereto as **Exhibit "A"**, is hereby adopted.

BE IT FURTHER RESOLVED that the following Facilities Prioritization List policy guidelines are hereby adopted:

1. Until all projects within a higher priority, with Priority 1 being the highest priority, (i) have been constructed by Community Facilities District No. 1996-1 ("CFD"), (ii) have been constructed by a third party, pursuant to a contract executed with the CFD, and reimbursement has been paid to said third party, or (iii) funds have been reserved to construct the remaining projects within said priority, no projects within a lower priority shall be constructed by the CFD, no reimbursement shall be paid to a third party for construction of lower priority work and no funds shall be reserved for lower priority work.

2. A third party due reimbursement from the CFD, pursuant to an executed contract with the CFD, shall be placed in position, within a priority, based upon the date the Notice of Completion is issued for the work performed under said contract.
3. The City Council may, by subsequent action of the City Council, move a project or projects from one priority to another priority.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of January, 2003, by Councilmember Fisher who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-26**

**A RESOLUTION REAPPOINTING ANDREW MENDLIN TO THE PLANNING
COMMISSION**

WHEREAS, Section 1102 of the Charter of the City of Modesto authorizes the City Council to appoint members to various Boards and Commissions,

WHEREAS, the Economic Development Committee met on December 9, 2002, and recommended its approval to reappoint ANDREW MENDLIN to the Planning Commission.

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. ANDREW MENDLIN is hereby reappointed to the Planning Commission with a term expiration of January 1, 2007.

SECTION 2. The City Clerk is hereby directed to transmit a copy of this resolution to the reappointed member of the Planning Commission, and the Secretary thereof.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of January, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2003-27**

**A RESOLUTION REAPPOINTING MARGARET LEAMAN, MARY GROGAN
AND DAVE GIANELLI TO THE TUOLUMNE RIVER REGIONAL PARK
CITIZENS ADVISORY COMMITTEE**

WHEREAS, Section 1102 of the Charter of the City of Modesto authorizes the City Council to appoint members to various Boards and Commissions,

WHEREAS, the Economic Development Committee met on December 9, 2002, and recommended its approval to reappoint MARGARET LEAMAN, MARY GROGAN and DAVE GIANELLI to the Tuolumne River Regional Park Citizens Advisory Committee.

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. MARGARET LEAMAN, MARY GROGAN and DAVE GIANELLI are hereby reappointed to the Tuolumne River Regional Park Citizens Advisory Committee with term expirations of January 1, 2007.

SECTION 2. The City Clerk is hereby directed to transmit a copy of this resolution to the reappointed members of the Tuolumne River Regional Park Citizens Advisory Committee, and the Secretary thereof.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of January, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2002-28**

**A RESOLUTION AUTHORIZING ISSUANCE OF A REQUEST FOR
PROPOSALS FOR EXTERNAL AUDIT SERVICES, TO PERFORM THE CITY
OF MODESTO ANNUAL FINANCIAL STATEMENT AUDITS.**

WHEREAS, the Charter of the City of Modesto requires the Modesto City Council to employ independent auditors to perform an annual financial audit of the City, and

WHEREAS, the Modesto City Council has, in Resolution 2000-376, delegated the selection process for said auditors to its Audit Committee, and

WHEREAS, the Audit Committee of the Modesto City Council recommends that the City of Modesto obtain proposals from audit firms for performing the annual financial audits, and

WHEREAS, the independent auditors who have performed these audits for the past seven years have reached the end of their contract term, and

WHEREAS, the independent auditors who have performed the audits the past seven years have also performed consulting services for the City of Modesto that disqualify them to continue performing the audits, under the new independence standards of the Government Auditing Standards,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the Audit Committee to issue a Request for Proposals to solicit proposals from independent audit firms for audit services to perform the annual financial audits.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of January, 2002, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-29**

**A RESOLUTION APPROVING THE FORMATION OF CITIZEN CORPS AND
COMMUNITY EMERGENCY RESPONSE TEAMS (CERT)**

WHEREAS, the Federal Emergency Management Agency supports local homeland security efforts, and

WHEREAS, Citizen Corps activities, including Community Emergency Response Teams (CERT), is a program that trains individual citizens in emergency response skills, and

WHEREAS, the Citizen Corps' and CERT program's mission is to make communities safer, stronger and better prepared to respond to threats of terrorism, public health issues, and disasters of all kinds by engaging individuals in emergency preparedness and response education, training, and volunteer service, and

WHEREAS, the purpose is to have all citizens better prepared to respond to disasters of all kinds and a nation prepared; and

WHEREAS, the Safety and Communities Committee met on January 6, 2003, to review this recommendation,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the formation of a Citizen Corps and Community Emergency Response Teams (CERT) program in Modesto.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of January, 2002, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-30**

**A RESOLUTION APPROVING THE APPLICATION FOR FEDERAL
EMERGENCY MANAGEMENT AGENCY, OFFICE OF NATIONAL
PREPAREDNESS FY 2002 SUPPLEMENTAL APPROPRIATION GRANT FOR
CITIZEN CORPS AND CERT APPLICATION FOR ASSISTANCE**

WHEREAS, the Federal Emergency Management Agency Region IX has notified the governors' offices of California, Hawaii, and Nevada that their states will receive grants from a total of \$2.7 million available to support local homeland security efforts, and

WHEREAS, the funds are available to support Citizen Corps activities, including the formation of Citizen Corps Council and expansion of FEMA's Community Emergency Response Teams (CERT), and

WHEREAS, the Citizen Corps' mission is to make communities safer, stronger and better prepared to respond to threats of terrorism, public health issues, and disasters of all kinds by engaging individuals in emergency preparedness and response education, training, and volunteer service, and

WHEREAS, the Community Emergency Response Teams (CERT) program trains individual citizens in emergency response skills, and

WHEREAS, the purpose is to have all citizens better prepared to respond to disasters of all kinds and a nation prepared, and

WHEREAS, the City desires to apply for grant funding to provide CERT training which will consist of both classroom and hands-on instruction to citizens in the community, and

WHEREAS, THE Safety and Communities Committee met on January 6, 2003, to review this recommendation,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the filing of an application for Federal Emergency Management Agency, Office of National Preparedness FY 2002 Supplemental Appropriations Grant for Citizen Corps and CERT Application for Assistance.

BE IT FURTHER RESOLVED that the City Council hereby authorizes the City Manager as the agent of the City to execute and submit all documents, which may be necessary for the completion of the grant application.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of January, 2002, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-31**

**A RESOLUTION AMENDING THE FISCAL YEAR 2002-03 CAPITAL
IMPROVEMENT PROJECTS (CIP) BUDGET TO RE-APPROPRIATE FUNDS
FOR PROJECTS APPROVED, BUT NOT COMPLETED.**

WHEREAS, from time to time, the City Council authorizes funding to the CIP Budget to complete specific major projects, and

WHEREAS, construction of the Wastewater Collections Building, an approved Capital Improvement Project, was designed in two phases, and

WHEREAS, the first phase utilized FEMA funding from the 1997 floods prior to the funding expiration date, and

WHEREAS, the first phase has been successfully completed, and

WHEREAS, staff now desires to complete phase two of the project, however, the current balance remaining in the account, \$392,902.43, is not enough to complete the job, and

WHEREAS, there are some CIP projects that have been completed, however, their accounts remain open, because funds are still present and,

WHEREAS, staff would like to close the below mentioned accounts and transfer the remaining balances totaling \$220,301.00 back to their respective Fund Reserve account (6210-800-8000-8003) and,

WHEREAS staff recommends then appropriate the amount of \$220,301.00 from the Sewer Operations Fund Reserve account plus an additional \$154,067.78 from the Sewer Operating Reserve Funds to complete the project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the Fiscal Year 2002-03 CIP to:

Close out and re-appropriate to the Sewer Operations Fund Reserve (6210-800-8000-8003)

621-480-E557	Parallel Outfall Siphon/Toulumne	\$25,730.16
621-440-K010	Kiernan Business Park Subtruck	\$ 9,196.47
621-440-K003	Sludge Drying Bed Rehab	\$14,451.53
621-440-K690	Clarifier Control Box Rehab	\$ 8,829.99
621-440-K736	Co-Compost Facility Exit	\$ 1,340.43
621-440-K684	Replace Sutter Sewer	\$ 12,449.31
621-480-H011	Co-Compost Facility	\$ 8,077.04
621-480-H386	North Trunk to Kiernan Business	\$81,785.42
621-480-H818	Beyer Subtrunk Project	\$ 8,634.97
6210-480 L079	Pond Control Room Lab, Office	\$ 8,808.57
6210-480-N028	Sewer Replacement	\$37,717.94
623-480-H866	Pipeline Rehabilitation	\$ 1,705.94
623-480-H867	Dryden Relief Line	\$ 0.81
623-480-H868	Headworks and Grit Removal	\$ 1.69
623-480-J629	Industry Waste Billing Software	\$ 1,571.00

BE IT FUTHER RESOLVED by the Council of the City of Modesto that it hereby approves transferring \$374,369.05 from the Sewer Operations Reserve fund) to the CIP project Wastewater Collections Maintenance Building account 621-480-F743.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-32**

A RESOLUTION APPROVING A \$179,380 AGREEMENT WITH THOMPSON-HYSELL ENGINEERS FOR ENGINEERING DESIGN SERVICES FOR THE PROJECTS TITLED “PELANDALE INTERSECTION IMPROVEMENTS AND PRESCOTT/SNYDER TRAFFIC SIGNAL” AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT.

WHEREAS, following a Request for Qualifications for engineering design services, which was sent to all local engineering firms, six statements of qualifications were received for the Pelandale Intersection Improvements including the Prescott/Snyder Traffic Signal Design, and were submitted to the City, and

WHEREAS, the City’s Selection Committee decided all six firms were qualified to provide engineering design services, and

WHEREAS, the Selection Committee decided that Thompson-Hysell Engineers rated highest for traffic signal and intersection improvement design, in accordance with Administrative Directive 3.1, and

WHEREAS, the Engineering and Transportation Director has recommended that Thompson-Hysell Engineers, be accepted as the most qualified engineering consulting firm to provide the necessary design services, and

WHEREAS, the Engineering & Transportation Director has recommended accepting the proposal of Thompson-Hysell Engineers, in an amount not to exceed \$179,380,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an agreement for engineering design services with Thompson-Hysell Engineers, in an amount not to exceed \$179,380 for the projects titled “Pelandale Intersection Improvements” and “Prescott/Snyder Traffic Signal”.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of January, 2002, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-33**

A RESOLUTION ACCEPTING A GRANT AWARD FROM THE UNITED STATES ENVIRONMENTAL PROTECTION AGENCY FOR CONDUCTING THE NINTH STREET STORM DRAIN DESIGN PROJECT AND AUTHORIZING THE CITY MANAGER TO EXECUTE ALL GRANT APPLICATIONS AND GRANT AGREEMENT DOCUMENTS

WHEREAS, the City of Modesto has applied for Federal funds to complete its design of the Ninth Street Storm Drain Replacement, and

WHEREAS, the U.S. EPA has approved the City's application for Federal funds to develop this design for up to and not exceeding \$242,500, and

WHEREAS, the City of Modesto must follow administrative conditions to receive grant funding including using Federal funds for project approved expenses, agreeing to comply with Minority Business Enterprise/Women Business Enterprise (WBE/WBE) terms and conditions, and following EPA grant program financial accounting procedures,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the Grant Agreement XP 97920801-0 from the U.S. EPA for \$242,500.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute and file the necessary applications, grant agreements, financial and accounting forms and other documents required by EPA regulations for the City of Modesto to receive payment and report on financial transactions during this EPA supported project.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of January, 2002, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-34**

A RESOLUTION AMENDING THE CAPITAL IMPROVEMENT BUDGET TO APPROPRIATE ADDITIONAL REVENUE FROM THE UNITED STATES ENVIRONMENTAL PROTECTION AGENCY, AND TO REDUCE GENERAL FUND COMMITMENTS TO THE NINTH STREET STORM DRAIN DESIGN.

WHEREAS, the City Council has previously accepted a U.S. EPA Grant of \$242,500 for the preparation of a Design for the Ninth Street Storm Drain (XP-97920801-0), and

WHEREAS, the City Council has amended the Fiscal Year 2001-2002 Annual Capital Improvement Project Budget to include this project on June 16, 2002, and

WHEREAS, the City Council budgeted \$500,000 of General Fund Reserve to fund this project.

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the Finance Director to amend the current Fiscal Year 2002-2003 Capital Improvement Project budget for Design for the Ninth Street Storm Drain (1) to increase the amount of EPA grant revenue to \$242,500 (6280-430-N686-3601) and (2) to decrease the general fund support of this project from \$500,000 to \$257,500.

ENGINEERING CORPORATION FOR ENGINEERING DESIGN SERVICES
FOR THE PROJECT TITLED "NINTH STREET STORM DRAIN DESIGN"
AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE CONTRACT.**

WHEREAS, following a Request for Qualifications which was sent to 78 engineering firms, eleven Statements of Qualifications were received for the Ninth Street Storm Drain Design, and

WHEREAS, the City's Selection Committee chose four firms which were sent a Request for Proposals, and four proposals were received from said firms, and

WHEREAS, the proposals and interviews for the engineering design services for said project were rated by the Selection Committee, and Boyle Engineering Corporation was rated highest, in accordance with Administrative Directive 3.1, and

WHEREAS, the Engineering and Transportation Director has recommended that Boyle Engineering Corporation, be accepted as the most qualified engineering consulting firm, and

WHEREAS, the Engineering & Transportation Director has recommended accepting the proposal of Boyle Engineering Corporation, in an amount not to exceed \$430,509, for the engineering design services for the project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby awards a contract for engineering design services for the project titled "Ninth Street Storm Drain Design" to Boyle Engineering Corporation, in an amount not to exceed \$430,509.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the contract.

RELEASE OF ALL CLAIMS WITH DAVANTE VILLAS, A CALIFORNIA
LIMITED PARTNERSHIP AND ROBERT CALCAGNO REGARDING
REIMBURSEMENT FOR EXCAVATION OF THE VILLAGE ONE CENTRAL
BASIN AND AUTHORIZING THE CITY MANAGER AND THE DISTRICT
ADMINISTRATION TO EXECUTE SAID AGREEMENT**

WHEREAS, on July 14, 1998 the City of Modesto and Robert D. Calcagno entered into a "CFD Credit Agreement" regarding excavation and removal of 5,400 cubic yards from the Central storm drainage basin in Village One, and

WHEREAS, in September 1998 an amendment was executed reducing the rate of credit from \$8.015 per cubic yard to \$6.00 per cubic yard + 14.5% contingency, and

WHEREAS, in July 2001 Robert D. Calcagno assigned his right to reimbursement to Davante Villas, a California Limited Partnership ("Davante Villas"), and

WHEREAS, the CFD Engineer determined that Davante Villas was entitled to reimbursement for 3,200 cubic yards, and

WHEREAS, Davante Villas received a reimbursement check in the amount of \$26,881.27 (3,200 cubic yards @ \$6.00/cubic yard + 13.875% contingency + annual COLA adjustments), and

WHEREAS, there was a disagreement as to the total amount of cubic yardage for which Davante Villas should have been reimbursed,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that a settlement has been reached whereby Davante Villas will receive reimbursement for an additional 2,200 cubic yards at the rate of \$5.00 per cubic yard.

BE IT FURTHER RESOLVED that the "Settlement Agreement And Release Of All Claims" between the City of Modesto, Community Facilities District No. 1996-1 (Village One), Davante Villas, a California Limited Partnership and Robert Calcagno is hereby approved.

BE IT FURTHER RESOLVED that the City Manager, or his designee, and the District Administrator, or his designee, are hereby authorized to execute said agreement.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-38**

A RESOLUTION DETERMINING THAT THE PUBLIC INTEREST AND NECESSITY REQUIRE THE ACQUISITION OF CERTAIN IMPROVEMENT TO REAL PROPERTY FROM VIACOM OUTDOOR AND DIRECTING THE FILING OF EMINENT DOMAIN PROCEEDINGS FOR THE NINTH STREET BRIDGE REPLACEMENT PROJECT IMPROVEMENT TO REAL PROPERTY LOCATED ON APN 102-18-01 (IMPROVEMENT OWNED BY VIACOM OUTDOOR)

WHEREAS, it is desirable and necessary for the City of Modesto to acquire certain improvement to real property, consisting of an outdoor advertising sign structure, more particularly described and depicted in Exhibits “A” and “B”, attached hereto and made a part hereof by reference, in order to implement the Ninth Street Bridge Replacement Project (the “Project”), and

WHEREAS, the City of Modesto is vested with the power of eminent domain to acquire real property by virtue of Article I, Section 19, of the Constitution of the State of California, and the California Eminent Domain Law, California Code of Civil Procedure Section 1230.010, et seq., and pursuant to Section 37350.5 of the Government Code of California, and

WHEREAS, pursuant to the provisions of Section 1245.235 of the Code of Civil Procedure of the State of California, notice has been duly given to all persons whose property is to be acquired by eminent domain, all of whom have been given a reasonable opportunity to appear and be heard before the Modesto City Council on the following matters:

- (a) Whether the public interest and necessity require the Project;
- (b) Whether the Project is planned or located in the manner that will be most compatible with the greatest public good and the least private injury;

- (c) Whether the property sought to be acquired is necessary for the Project;
and
- (d) Whether the offer required by Government Code Section 7267.2 has been made to the owner(s) of record.

WHEREAS, the hearing set out in the notice was held on January 14, 2003 at the time and place stated therein, and all interested parties were given an opportunity to be heard. The hearing was closed. Based upon the evidence presented, the Council by vote of two-thirds or more of its members, further FINDS, DETERMINES, RESOLVES AND ORDERS as follows:

1. The public interest and necessity require the Project;
2. The Project is planned and located in the manner which will be most compatible with the greatest public good and the least private injury;
3. The taking of the fee simple title in and to the improvement to real property more particularly described in said Exhibits "A" and "B" is necessary for the Project;
4. The offer required by Section 7267.2 of the Government Code of the State of California has been made to the owner or owners of record of the real property;
5. All conditions and statutory requirements necessary to exercise the power of eminent domain to acquire the property described herein have been complied with by the City of Modesto;
6. The Office of the City Attorney of the City of Modesto or counsel retained by the Office of the City Attorney of the City of Modesto is hereby authorized and directed to institute and conduct to conclusion an action in eminent domain for the acquisition of the estates and interests aforesaid and to take such action as it may deem advisable or necessary in connection therewith
7. The Office of the City Attorney of the City of Modesto or counsel retained by the Office of the City Attorney of the City of Modesto is hereby authorized and empowered to deposit with the State

Treasury Condemnation Fund the probable amount of compensation, based on an appraisal, and to apply to the Court for an order of prejudgment possession of the subject property for said public uses and purposes.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of January, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

NINTH STREET BRIDGE RIGHT-OF-WAY ACQUISITION
 CITY OF MODesto, STANISLAUS COUNTY, CALIFORNIA

EXHIBIT "B"

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-39**

A RESOLUTION DETERMINING THAT THE PUBLIC INTEREST AND NECESSITY REQUIRE THE ACQUISITION OF CERTAIN IMPROVEMENT TO REAL PROPERTY FROM VIACOM OUTDOOR AND DIRECTING THE FILING OF EMINENT DOMAIN PROCEEDINGS FOR THE NINTH STREET BRIDGE REPLACEMENT PROJECT IMPROVEMENT TO REAL PROPERTY LOCATED ON APN 38-06-05 (IMPROVEMENT OWNED BY VIACOM OUTDOOR)

WHEREAS, it is desirable and necessary for the City of Modesto to acquire certain improvement to real property, consisting of an outdoor advertising sign structure, more particularly described and depicted in Exhibits “A” and “B”, attached hereto and made a part hereof by reference, in order to implement the Ninth Street Bridge Replacement Project (the “Project”), and

WHEREAS, the City of Modesto and County of Stanislaus entered into a Joint Powers Agreement on March 13, 2001 for the Ninth Street Bridge Replacement Project and agreed pursuant to section 1810 of the Streets and Highways Code, and sections 37350.5 and 37353 of the Government Code that the City shall acquire, by purchase or eminent domain, all property or rights-of-way necessary for completion of the Project, including property outside its boundaries in the unincorporated area of the County, and

WHEREAS, the City of Modesto is vested with the power of eminent domain to acquire real property by virtue of Article I, Section 19, of the Constitution of the State of California, and the California Eminent Domain Law, California Code of Civil Procedure Section 1230.010, et seq., and pursuant to Section 37350.5 of the Government Code of California and Section 1810 of the Streets and Highways Code of California, and

WHEREAS, pursuant to the provisions of Section 1245.235 of the Code of Civil Procedure of the State of California, notice has been duly given to all persons whose property is to be acquired by eminent domain, all of whom have been given a reasonable opportunity to appear and be heard before the Modesto City Council on the following matters:

- (a) Whether the public interest and necessity require the Project;
- (b) Whether the Project is planned or located in the manner that will be most compatible with the greatest public good and the least private injury;
- (c) Whether the property sought to be acquired is necessary for the Project; and
- (d) Whether the offer required by Government Code Section 7267.2 has been made to the owner(s) of record, and

WHEREAS, the hearing set out in the notice was held on January 14, 2003 at the time and place stated therein, and all interested parties were given an opportunity to be heard. The hearing was closed. Based upon the evidence presented, the Council by vote of two-thirds or more of its members, further FINDS, DETERMINES, RESOLVES AND ORDERS as follows:

- 1. The public interest and necessity require the Project;
- 2. The Project is planned and located in the manner which will be most compatible with the greatest public good and the least private injury;
- 3. The taking of the fee simple title in and to the improvement to real property more particularly described in said Exhibits "A" and "B" is necessary for the Project;
- 4. The offer required by Section 7267.2 of the Government Code of the State of California has been made to the owner or owners of record of the real property;
- 5. All conditions and statutory requirements necessary to exercise the power of eminent domain to acquire the property described herein

have been complied with by the City of Modesto;

6. The Office of the City Attorney of the City of Modesto or counsel retained by the Office of the City Attorney of the City of Modesto is hereby authorized and directed to institute and conduct to conclusion an action in eminent domain for the acquisition of the estates and interests aforesaid and to take such action as it may deem advisable or necessary in connection therewith; and
7. The Office of the City Attorney of the City of Modesto or counsel retained by the Office of the City Attorney of the City of Modesto is hereby authorized and empowered to deposit with the State Treasury Condemnation Fund the probable amount of compensation, based on an appraisal, and to apply to the Court for an order of prejudgment possession of the subject property for said public uses and purposes.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of January, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-40**

A RESOLUTION APPROVING AN AGREEMENT WITH RAINES, MELTON, & CARELLA, INC., (RMC), TO PERFORM A FEASIBILITY STUDY FOR THE NORTHERN SAN JOAQUIN REGIONAL WATER RECLAMATION FACILITY AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT

WHEREAS, Requests for Qualifications for an engineering consulting firm to prepare the Northern San Joaquin Regional Water Reclamation Facility Study (NSJRWRF) were sent to 73 consulting engineering firms, including seven local companies, on August 5, 2002, and

WHEREAS, City staff received ten responses, none of which were from local firms, and

WHEREAS, a review team of staff comprised from the Engineering & Transportation and Operations and Maintenance Departments selected five firms, based upon their qualifications, to receive a Request for Proposal (RFP) and

WHEREAS, three of the five firms who received the RFP submitted proposals, and interviews were conducted on October 28, 2002, by the City's selection team, and

WHEREAS, the Proposals and Interviews for the preparation of the NSJRWRF Feasibility Study were rated by the selection team, in accordance with Administrative Directive 3.1, and later tabulated by the Engineering and Transportation Director for the consideration of the Council, and

WHEREAS, the Engineering and Transportation Director has recommended that Raines, Melton, & Carella, Inc. (RMC) be accepted as the most qualified engineering consulting firm, and

WHEREAS, the Engineering & Transportation Director has recommended accepting the proposal of RMC, in an amount not to exceed \$150,000,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the agreement with RMC for preparation of the NSJRWRF Feasibility Study, in an amount not to exceed \$150,000.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of January, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-41**

**A RESOLUTION AMENDING THE OPERATING BUDGET IN THE AMOUNT
OF \$150,000 WHICH WILL BE USED FOR A WATER RECYCLING
FACILITIES FEASIBILITY STUDY**

WHEREAS, the Safe Drinking Water, Clean Water, Watershed Protection and Flood Protection Act (AB 1584) which was approved by voters as Proposition 13, contains a bond law that includes loans and grants for the design of water recycling projects, and

WHEREAS, the City of Modesto's Utility Services and Franchise Committee has directed City Staff to proceed with the application of a planning grant for the design of a water recycling project, and

WHEREAS, the State Water Resources Control Board (SWRCB) placed the City of Modesto's Northern San Joaquin Valley Water Reclamation project as a Category 2 (Early Planning Phases) Project on the Water Recycling Construction Program Priority List, which allowed the City of Modesto to apply for a planning grant of up to 50% of the planning study costs, not to exceed \$75,000, and required the City to submit a detailed Plan of Study for grant approval, and

WHEREAS, the SWRCB has approved the City of Modesto's Plan of Study and will place the City's grant application on the State Board's Agenda Item list for approval, and

WHEREAS, the City will need to show its financial commitment to the feasibility study by budgeting for the \$150,000 study costs, as required by SWRCB's approval of the City of Modesto's grant application, and

WHEREAS, the grant was awarded to the City on March 19, 2002, under SWRCB Contract Number 01-706-550-0 and Grant Number WR-3502-010, and the City will receive revenue of 50% of the study costs, up to \$75,000, through the grant reimbursement,

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes an appropriation of \$75,000.00 from the Sewer Reserve fund - Account Number 6210-800-8000-8003, to the Regional Water Reclamation Facility Feasibility Study fund - Account Number 6210-440-5207, to fully fund the feasibility study.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of January, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-42**

A RESOLUTION APPROVING A PRE-DEVELOPMENT AGREEMENT WITH THE HOUSING AUTHORITY OF THE COUNTY OF STANISLAUS TO PROVIDE \$245,000 IN HOME FUNDS FOR THE FEASIBILITY STUDY OF A MULTI-FAMILY HOUSING PROJECT IN VILLAGE ONE AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE HOME AGREEMENT.

WHEREAS, on April 9, 2002, the City Council approved Resolution No.2002-172 authorizing staff to solicit Requests for Qualifications for the development of multi-family housing for working citizens in the Village I Specific Plan Area (“Village One”), and

WHEREAS, staff issued a Request for Qualifications in the amount of \$245,000 on April 16, 2002, and

WHEREAS, an RFP review sub-committee met on August 2, 2002, and unanimously recommended the Housing Authority of the County of Stanislaus (“Housing Authority”) and its consulting team as the agency to develop an affordable housing development in Village I, and

WHEREAS, the Citizens Housing and Community Development Committee met on August 23, 2002, and supported the sub-committee’s recommendation that the Housing Authority and its consulting team be selected as the agency to develop an affordable housing development in Village I, and

WHEREAS, on October 1, 2002, by Resolution Ni. 2002-489, the Council of the City of Modesto approved the Housing Authority of the County of Stanislaus as the agency to plan and prepare for and study and determine the feasibility of a multi-family affordable housing project in Village I,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the it hereby approves a pre-development agreement with the Housing Authority of the County of Stanislaus to provide up to \$245,000 in HOME funds in order to plan and prepare for, and study and determine, the feasibility of a multi-family affordable housing development in Village I.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the pre-development agreement with the Housing Authority.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of January, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2003 - 43**

**A RESOLUTION APPROVING AN AMENDMENT TO AGREEMENT FOR
LEGAL SERVICES BETWEEN THE LAW FIRM OF HOWARD, RICE,
NEMEROVSKI, CANADY, FALK AND RABKIN AND THE CITY OF
MODESTO AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE
AGREEMENT**

WHEREAS, on February 26, 1998, the City of Modesto entered into a “standard form” Agreement for Legal Services with the law firm of Howard, Rice, Nemerovski, Canady, Falk and Rabkin with respect to the case of *Howard Jarvis Taxpayers Association, et al. v. City of Modesto*, and

WHEREAS, the City of Modesto and Howard, Rice, Nemerovski, Canady, Falk and Rabkin now desire to amend the provisions of said agreement, and

WHEREAS, the City desires to retain the law firm of Howard, Rice, Nemerovski, Canady, Falk and Rabkin’s with respect to the case of *City of Modesto v. National Med, Inc.*, which is pending as Action No. 292944 in the Superior Court of Stanislaus County, and any appeals and writ proceedings arising from the litigation,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Amendment to Agreement for Legal Services between the law firm of Howard, Rice, Nemerovski, Canady, Falk and Rabkin and the City of Modesto is hereby approved.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of January, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-46**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO
FORMALLY SOLICIT REQUEST FOR BIDS FOR CUSTOMER SERVICE
COUNTER REMODEL**

WHEREAS, the Customer Service Division of the Finance Department has determined the need to remodel existing counter space to better accommodate City of Modesto Citizens and to ensure the safety of City of Modesto employees, and

WHEREAS, the existing counter has been found to be ergonomically inadequate, and

WHEREAS, the Customer Service lobby was oversized in the original building design, and

WHEREAS, there are few security measures in place to ensure safety and allow citizens easy access to the Customer Service area and registers, and

WHEREAS, Patti Hill Thomas, Assistant Executive Officer for Stanislaus County personally viewed the counter configuration and agreed that the JPA should bear the financial responsibility for the remodel, and

WHEREAS, by soliciting formal bids, the Finance Department-Purchasing Division will comply with the City of Modesto Municipal Code, Section 8-3.203, regarding formal bid procedures,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. The City Clerk is hereby authorized to solicit public competitive sealed bids for the remodel of counter space in the Customer Service-Finance Division, to be opened in the office of the City Clerk, 1010 10th Street, in the

City of Modesto. The City Clerk is hereby directed to give notice inviting such sealed bids in the time, form and manner provided by law.

SECTION 2. After the bids are opened, they shall be tabulated and analyzed according to a set procedure and a report submitted to the Council at its regular meeting.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of January, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following votes:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-47**

A RESOLUTION APPROVING AN AGREEMENT WITH CALLANDER ASSOCIATES TO PROVIDE DESIGN SERVICES FOR THE PRODUCTION OF CONSTRUCTION DOCUMENTS FOR THE NEW INSTALLATION AND REMODEL OF PLAYGROUND EQUIPMENT IN FIFTEEN (15) CITY NEIGHBORHOOD PARKS AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT.

WHEREAS, City of Modesto staff has identified a need to replace playground equipment in City parks that do not meet current safety standards as set by AB 1055 – The Playground Safety and Recycling Act of 1999, and

WHEREAS, in October 2000, staff evaluated the status of current playground equipment in City parks and developed a proposed 5-year replacement schedule, which has since been revised into a 3-year schedule, and

WHEREAS, the schedule calls for replacement in fiscal year 2002-03 of playground equipment in eight (8) City parks and for the installation in two (2) City neighborhood parks of new playground equipment, and

WHEREAS, the identified parks for replacement of equipment this fiscal year are: Beard Brook, Chrysler, John Muir, Roosevelt, Sherwood, Sonoma, Sylvan and Whitmore, based on need and current condition of playground equipment, and

WHEREAS, the two (2) parks scheduled to receive new installations in this fiscal year are Mark Twain and Sharp, and

WHEREAS, an additional five (5) park playgrounds will be replaced in Fiscal Years 2003-04 and 2004-05, and

WHEREAS, staff has determined that, in order to complete these projects in a timely manner, hiring the services of a Landscape design firm to produce the construction documents is necessary, and

WHEREAS, staff has concluded that Callander Associates is most qualified based on their previous design experience on renovating neighborhood parks and their strong showing of teamwork, and due to their previous experience working with City of Modesto staff on Parks projects, and

WHEREAS, Callander Associates has agreed to perform the required work at a cost not to exceed \$60,000, and

WHEREAS, the Safety and Communities Committee met on August 5, 2002, and supported the recommendation to replace playground equipment and surfacing at eight (8) neighborhood playgrounds and new playground equipment and surfacing in two (2) neighborhood parks,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the Agreement with Callander Associates to provide design services for the production of construction documents for the new installation and remodel of playground equipment in fifteen (15) City neighborhood parks.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of January, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2003-48**

A RESOLUTION APPROVING AN AMENDMENT TO THE TUOLUMNE RIVER REGIONAL PARK JOINT POWERS AGREEMENT TO INCLUDE FOURTEEN (14) RESIDENTIAL PARCELS OF LAND UNDER THE HOUSING AND URBAN DEVELOPMENT DISASTER RELIEF INITIATIVE PROGRAM AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AMENDMENT TO AGREEMENT.

WHEREAS, in August, 1997, the City of Modesto was notified that it was eligible for \$650,426 in supplemental Community Development Block Grant (CDBG) funds from the Emergency Disaster Relief Initiative to be used to mitigate conditions that were caused by the January 1997 floods, and

WHEREAS, the City prepared a required Action Plan for Disaster Relief, which determined that the appropriate project was to purchase fourteen (14) residential parcels on the south side of Hillside Drive, and to donate the property to the Tuolumne River Regional Park to be kept in passive park use, and

WHEREAS, on December 9, 1997, by Resolution No. 97-677, the City Council authorized staff to submit the Flood Disaster Relief Application to the U. S. Department of Housing and Urban Development (HUD) and authorized the City Manager to execute the necessary grant documents, and

WHEREAS, on December 4, 2001, the City Council adopted Resolution No. 2001-614 which accepted all activities associated with this project as being complete, and

WHEREAS, the properties should now be included in the TRRP Agreement as agreed in the Project Action Plan and Grant Agreement with HUD,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves an amendment to the Tuolumne River Regional Park Joint Powers Agreement to include fourteen (14) residential parcels of land under the Housing and Urban Development Disaster Relief Initiative Program.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the Amendment to the Joint Powers Agreement.

MODESTO CITY COUNCIL
RESOLUTION NO. 2003-49

RESOLUTION AMENDING THE 2001-2004 STRATEGIC PLAN AND VISION

WHEREAS, in September 2000, Council and staff embarked on a strategic planning process to develop a Vision and *Strategic Plan* for the City, and

WHEREAS, the Vision forms the foundation for the *Strategic Plan*, and

WHEREAS, the Vision and *Strategic Plan* build upon previous visioning and planning efforts on the part of the City, and

WHEREAS, the City's organization structure has been realigned to reflect the City's Vision and *Strategic Plan*, and

WHEREAS, on June 18, 2001, Council held a Workshop to review the draft *Strategic Plan* and Vision and

WHEREAS, since that time, numerous public presentations have been made to receive comments on the Vision and *Strategic Plan*, and

WHEREAS, the Vision and *Strategic Plan* have been refined based upon public comments received during the review process, and

WHEREAS, the plan is intended to be a fluid document, which is modified from time to time, and

WHEREAS, a number of amendments to the *Strategic Plan* have been proposed, as set forth in **Exhibit "A"**,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby amends the *2001-2004 Strategic Plan and Vision* as set forth in **Exhibit "A"**, a copy of which is attached hereto as **Exhibit "A"** and incorporated herein by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of January, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

I.C.1.a.(3).	Form Partnerships to Develop Regional Storm Drain solutions. [E&T]	2002-09	2003-09
III.B.5.c.	Develop the Virginia Corridor as a priority Class I Bikeway and linear parkway. [PR&N]	2003-12	2010-12
C.I.A.8.	Expand programming and uses of King Kennedy Center. [PR&N]	2002-12	Ongoing
C.I.B.2.	Coordinate and expand annual Celebration of Lights. [PR&N]	2002-12	Ongoing
H.II.C.1.b.	Seek opportunities to market and expand the Down Payment Assistance Program. [PR&N]	2002-07	Ongoing
H.II.F.1.a.	Design and plan for construction of the West Side Community Service Center. [PR&N]	2002-07	2002-12
H.V.A.16.	Continue and expand the Mo Band Café for teens. [PR&N]	2002-06	Ongoing
H.V.B.1.	Expand and enhance the Youth in Government Day. [PR&N]	2002-02	Ongoing
C.I.B.3.	Expand Fourth of July Parade to include wider community representation. [PR&N]	2002-07	Ongoing
C.V.A.3.	Plan and initiate Skate Rally. [PR&N]	2002-06	Ongoing
C.II.D.3.	Use the Culture Commission to revise the Master Plan for Cultural Activities and Historic Buildings. [PR&N]	2002-07	2005-07

Other Amendments

Item Number	Item	Requested Amendment	Reason for Amendment
H.V.A.5.	Partner with the community, non-profits, YMCA, etc. to develop Youth Master Plan and action items. [PR&N]	Delete	This item is recommended for deletion due to budgetary constraints.
H.V.C.1.	Develop a Cable Access program run by youth. [PR&N]	Delete	There are presently several youth programs on cable access television.
H.V.D.3.	Offer more opportunities for teens to interact with School Board members and include teens in the decision making process. [PR&N]	Delete	The Modesto City Schools Board of Education has two student representatives. This action item is outside the authority/jurisdiction of the City.
H.V.D.4.	Increase After School <u>Learning</u> Programs for you in the City. [PR&N]	Revise text, as per underline.	This more accurately reflects the nature of the After School programs.
C.I.A.10.	Increase use of Mancini Bowl. [PR&N]	Delete	Staff explored this option but found it to be unviable because most of the potential users want amplified music. Improving lighting at Mancini Bowl is also cost prohibitive.
C.I.A.11.	Partner with business and non-profits to develop Meeting Space for Neighborhood Groups. [PR&N]	Delete	The department secures meeting space as part of the activities related to specific actions. Outside neighborhood groups are eligible to rent our facilities at a reduced rate.
C.V.A.5.	Increase Scholarships and Co-sponsorships of sports groups.	Delete	Council's policy direction has been to hold the funding levels constant.

Item Number	Item [PR&N]	Requested Amendment	Reason for Amendment Without additional funding, this action item cannot be accomplished.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-50**

**RESOLUTION APPROVING AN AMENDMENT TO AN AGREEMENT WITH
KRAMER.FIRM, INC. FOR PROFESSIONAL CABLE CONSULTATION
SERVICES IN AN AMOUNT NOT TO EXCEED \$155,000 AND AUTHORIZING
THE CITY MANAGER TO EXECUTE THE AGREEMENT.**

WHEREAS, on November 18, 2002, the City was notified that in connection with the closing of the merger between AT&T Broadband and Comcast, the name of the new ultimate parent company was changed from "AT&T Comcast Corporation" to Comcast Corporation, and

WHEREAS, the cable operator in the City of Modesto, United Cable Television Corporation has changed its name to Comcast of California XII, Inc., and

WHEREAS, the City continues to work with Comcast Corporation on franchise compliance issues but has concerns regarding progress toward meeting the franchise requirements, and

WHEREAS, existing staff does not have the expertise to assess legal and technical issues pertaining to the cable franchise transfer and compliance, and

WHEREAS, the City has utilized the services of Kramer.Firm, Inc., in the past and been very satisfied with the level of technical knowledge and expertise of that firm, and

WHEREAS, the existing contract entered into on April 23, 2002, is for an amount not to exceed \$55,000, and

WHEREAS the cost of continued services by Kramer.Firm, Inc., to resolve technical issues pertaining to the transfer and cable franchise compliance is estimated at \$155,000, and

WHEREAS, the City is reimbursed for expenditures for these purposes, as per the Cable Transfer Agreement, and

WHEREAS, an additional funding allocation is not being requested,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an amendment to Item 3 Compensation of the existing agreement with Kramer.Firm, Inc., for professional technical cable services in an amount not to exceed \$155,000, a copy of which is attached hereto as Attachment 1.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of January, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

MODESTO CITY COUNCIL
RESOLUTION NO. 2003-51

A RESOLUTION ACCEPTING THE PROJECT TITLED "2002 SLURRY SEALS" AS COMPLETE

WHEREAS, a report has been filed by the Engineering & Transportation Director that the project titled "2002 Slurry Seals", has been completed by Graham Contractors, Inc., in accordance with the contract agreement dated June 11, 2002,

NOW, THEREFORE, BE IT RESOLVED that the "2002 Slurry Seals" project be accepted from said contractor, Graham Contractors, Inc., that the notice of completion be filed with the Recorder of Stanislaus County and that payment of amounts due totaling \$1,060,085.20 as provided in the contract, be authorized.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of January, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003 -53**

**A RESOLUTION APPROVING A THIRD AMENDMENT TO AGREEMENT
FOR FINANCIAL MANAGEMENT SERVICES WITH L. PATRICK SAMSELL
AND AUTHORIZING THE CITY MANAGER TO EXECUTE SAID
AGREEMENT**

WHEREAS, on July 3, 2001, the City of Modesto entered into an Agreement for Financial Management Services with L. Patrick Samsell for financial management services, and

WHEREAS, on December 31, 2001, the City of Modesto entered into a First Amendment to Agreement for Financial Management Services with L. Patrick Samsell for continued financial management services, and

WHEREAS, on June 25, 2002, the City of Modesto entered into a Second Amendment to Agreement for Financial Management Services with L. Patrick Samsell for continued financial management services, and

WHEREAS, the City has determined that the additional services will be needed after the expiration of the original agreement,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Third Amendment to Agreement for Financial Management Services with L. Patrick Samsell, is hereby approved.

BE IT FURTHER RESOLVED that the City Manager or his designee is hereby authorized to execute said agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of January, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003 - 54**

**A RESOLUTION ADOPTING WRITTEN POLICIES FOR THE CAPITAL
IMPROVEMENT PROGRAM**

WHEREAS, the City does not currently have a centralized process to manage its Capital Improvement Program; and with over \$320 million dollars of capital projects, with more projects being added each year, it is difficult for staff to accurately offer status updates, track revenue sources and close out existing projects, and

WHEREAS, staff has created policies and procedures for the Capital Improvement Program which will improve the tracking process of the program,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that written Capital Improvement Program Policies and Procedures, as shown in **Attachment A**, are hereby adopted.

BE IT FURTHER RESOLVED that the Finance Director is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of January, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following votes:

Capital Improvement Program Policies

Definition of a Capital Project

- Cost should be \$100,000 or more
- Most will take more than a single year to complete
- Project revenues and expenditures should be clearly identified and balanced (e.g., revenue should equal project expenditures)
- Projects should have an identifiable schedule that includes a beginning, intervening milestones, and an end

* Ongoing maintenance projects are not considered Capital Projects and will be included and entered into the Operating budget.

Process

The existing projects will be reviewed each quarter during the year. This quarterly review will compare user status and financial information to identify potential project progress and completion. These quarterly reports will be integrated into the budget proforma review process.

The Finance Department will work with the CIP project managers to develop CIP revenue forecasts for the budget year. This analysis will be compiled by the Finance Department and distributed during the meetings with the CIP project managers.

The City Manager and Deputy City Managers will review and prioritize all existing CIP's to assure it is consistent with the City's General Plan and the City's updated vision statement.

Finance Department's recommended Capital Improvement Program (CIP) Policies

CIP Projects. Large construction projects and equipment purchases will be included in the Capital Improvement Program. (Maintenance projects will be excluded)

CIP Purpose. The purpose of the CIP is to systematically plan, schedule, manage, monitor and finance capital projects to ensure cost-effectiveness as well as conformance with established policies. The CIP is a ten-year plan organized into the same functional groupings used for the operating programs. The CIP will reflect a balance between capital replacement projects that repair, replace or enhance existing facilities, equipment or infrastructure; and capital facility projects that significantly expand or add to the City's existing fixed assets.

Project Manager. Every CIP project will have a project manager who will prepare the project proposal, ensure that required phases are completed on schedule, authorize all project expenditures, ensure that all regulations and laws are observed, and periodically report project status. Each proposed CIP project will include the approximate location, size, time of availability and estimate of costs and source of funding such as General Fund, Capital Facility Fees, Federal or State Grant, etc. The project manager will also ensure that projects comply with Community Facility District (CFD) and Capital Facility Fees (CFF) regulations. The project managers will also be responsible for development of quarterly status reports for their CIP.

The Planning Commission will review proposed and existing CIP projects each year as part of the annual budget process. This review will be done prior to Council review.

All projects will not be successfully completed and more projects will be studied than will be designed, and more projects will be designed than will be constructed or purchased during the term of the CIP.

CIP Appropriation. The City's annual CIP appropriation for study, design, acquisition and/or construction is based on the projects designated by the Council through adoption of the Budget. **Adoption of the CIP appropriation does not automatically authorize funding for specific project phase.** Project engineering and preliminary engineering will be appropriated at the time of Council action. This authorization for construction and vehicle purchase generally occurs only after the costs for the phases have been fully developed, a grant is awarded or a contract is granted after a competitive bid process or request for proposal (RFP) and approved by Council.

Accordingly, project construction and vehicle purchase authorizations are generally made when contracts are awarded. If contract costs at the time of bid award are less than the budgeted amount, the unobligated balance will either be re-appropriated to project contingency or returned to fund balance. This action should be clearly explained in the fiscal impact section of a Council document and include any estimate for City engineering costs and required contingency to complete the project.

If project costs at the time of bid award are greater than budget amounts, four basic options are available:

1. Eliminate the project.
2. Defer the project for consideration to the next Budget cycle.
3. Re-scope or change the phasing of the project to meet the existing budget.
4. Appropriate additional resources as necessary from fund balance or other revenue sources.

For new CIP projects outside of the adoption process, resources need to be identified:

- Is there sufficient fund balance or monitored cash flow?
- Has an invoicing procedure been established?
- If sufficient funds are not available then lower priority projects will need to be eliminated and the budget will need to be re-appropriated and returned to the correct fund balance.

CIP Budget Carry-over. The City Manager has authority to close CIP projects that lapse under the following circumstances:

- A CIP will lapse 2 years after budget adoption action if the environmental document is not complete
- A construction appropriation will lapse one year after Council has accepted the environmental document if a contract has not been activated.

Actions involving any Federal or State funded CIP will be restrained by the conditions of the grant.

Projects which lapse from lack of project account appropriations may be resubmitted for inclusion in a subsequent Budget CIP cycle. Project accounts, which have been appropriated and contracts awarded/encumbered, will not lapse until completion of the project phase assuming proper status reporting.

Project Status. Project milestones will be listed as objectives in the program narratives in order to track the status of projects.

CIP Project Reporting and Update Process

- Cost Estimates/Actuals by Phase
- Schedule (Time Line)
- Accounting Procedures/Revenue Tracking/Grant Invoicing /Project Closeout Procedures
- Timely Status Update Reporting. (Note: Cost overruns and funding needs to be determined early. Updated costs and postponed timelines flag potential funding issues.)

CIP Authority

1. City Council has authority to create new CIPs
2. City Council has authority to increase the budget of CIPs.
3. City Manager has authority to close any CIP and to return project funds to the fund balance
4. City Manager has authority to appropriate project contingency funds to individual budget lines

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-55**

**A RESOLUTION APPROVING THE DESIGN DEVELOPMENT REPORT AND
MASTER PLAN INCLUDED THEREIN FOR COFFEE CLARATINA
NEIGHBORHOOD PARK AND DUAL-USE BASIN.**

WHEREAS, on December 19, 2002, City of Modesto staff completed a Design Development Report, which includes the Master Plan, for Coffee Claratina Neighborhood Park and Dual-Use Basin, and

WHEREAS, prior to adopting the Design Development Report, the California Environmental Quality Act (CEQA) requires that the City of Modesto consider the environmental consequences of the proposed project, and

WHEREAS, on January 3, 2003, the Safety and Communities Committee recommended approval of the Coffee Claratina Neighborhood Park and Dual-Use Basin Design Development Report,

WHEREAS, by an agenda report dated January 10, 2003 from the Parks, Recreation and Neighborhoods Director, staff recommended to the Council approving the Coffee Claratina Neighborhood Park and Dual-Use Basin Design Development Report, a copy of said report is on file in the office of the City Clerk, and

WHEREAS, the Coffee Claratina Design Development Report dated December 19, 2002, is within the scope of and contemplated by the City of Modesto Urban Area General Plan, and

WHEREAS, on January 28, 2003, concurrent with this resolution, the Modesto City Council adopted Resolution No. 2003-56, finding that development and construction of the Coffee Claratina Neighborhood Park and Dual-Use Basin is in conformance with the City Of Modesto General Plan MEIR (SCH No. 92052017),

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby finds that the Coffee Claratina Neighborhood Park and Dual-Use Basin Design Development Report is complete and adequate, and it hereby approves the Coffee Claratina Neighborhood Park and Dual-Use Basin Design Development Report, and Master Plan included therein, a copy of which is on file in the office of the City Clerk.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of January, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: Fisher

Attest: Jean Zahr
JEAN ZAHR, City Clerk

APPROVED AS TO FORM:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-56**

A RESOLUTION FINDING THAT THE FOLLOWING PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (SCH NO. 92052017), THE COFFEE-CLARATINA CPD SPECIFIC PLAN MITIGATED NEGATIVE DECLARATION AND THE DUAL-USE FLOOD CONTROL/RECREATION FACILITIES MITIGATED NEGATIVE DECLARATION: PREPARATION OF CONSTRUCTION DOCUMENTS FOR COFFEE-CLARATINA NEIGHBORHOOD PARK AND DUAL-USE BASIN.

WHEREAS, on August 15, 1995, the City Council of the City of Modesto certified the Final Master Environmental Impact Report (“Master EIR”) (SCH NO. 92052017) for the Modesto Urban Area General Plan, and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for a Master EIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the master environmental impact report and whether the subsequent project was described in the master environmental impact report as being within the scope of the project, and

WHEREAS, the City’s Parks, Recreation and Neighborhoods Department, by Environmental Assessment Initial Study, EA/PR&N No. 2002-21 (“Initial Study”), reviewed the proposed development and construction of the Coffee-Claratina Neighborhood Park and Dual-Use Basin project to determine whether the proposed project is within the scope of the project covered by the Modesto Urban Area General Plan Master Environmental Impact Report, and made the determination that the proposed project will have no additional significant effect on the environment that was not

identified in the Master EIR and, further, that no new or additional mitigation measures or alternatives are required, and that, therefore, the proposed project is within the scope of the project covered by the Master EIR, and

WHEREAS on January 28, 2003, concurrently with this resolution, the City Council considered approving and adopting the Coffee-Claratina Neighborhood Park and Dual-Use Basin project, which includes: adoption of the Master Plan and Design Development Report and the award of a contract with Stantec Consulting, Inc. to prepare construction documents, and

WHEREAS, in accordance with the CEQA guidelines, on January 8, 2003, the City caused to be published a 20-day notice of the City's intent to make a finding of conformance with the Initial Study and the Modesto Urban Area General Plan EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on January 28, 2003 at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 10th Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study No. EA/ PR&N 2002-21, entitled "Proposed Design and Development of Coffee-Claratina Neighborhood Park & Dual-Use Basin", for the proposed project, a copy of which is attached hereto as **Exhibit "A"** and incorporated herein by reference, and based on the substantial evidence included in said Initial Study makes the following findings:

- A. The proposed project will have no new additional significant effect on the environment not addressed in the General Plan Master Environmental Impact Report (SCH#92052017), the Coffee-Claratina CPD Specific Plan Mitigated Negative Declaration (SCH#98022079) and the Dual-Use Flood

Control/Recreation Facilities Mitigated Negative Declaration (EA/CDD-2000-58).

- B. No new or additional mitigation measures are required for the proposed project.
- C. The proposed project is within the scope of the overall development covered by the General Plan Master Environmental Impact Report (SCH#92052017), the Coffee-Claratina CPD Specific Plan Mitigated Negative Declaration (SCH#98022079) and the Dual-Use Flood Control/Recreation Facilities Mitigated Negative Declaration (EA/CDD-2000-58).
- D. No new environmental document or findings pursuant to section 21081 shall be required by the California Environmental Quality Act (per section 21157.1) for the project.
- E. There are no specific features unique to this proposed project that require project specific mitigation measures. All certified mitigation measures identified in the General Plan Master Environmental Impact Report (SCH#92052017), the Coffee-Claratina CPD Specific Plan Mitigated Negative Declaration (SCH#98022079) and the Dual-Use Flood Control/Recreation Facilities Mitigated Negative Declaration (EA/CDD-2000-58) will apply to this project as appropriate.
- F. This Initial Study EA/PR&N No. 2002-21 provides substantial evidence to support findings “A, B, C, D and E” above.

A copy of said Environmental Assessment No. EA/PR&N 2002-21, entitled “Proposed Design and Development of Coffee-Claratina Neighborhood Park & Dual-Use Basin”, is on file and available in the City Clerk’s Office.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Parks, Recreation and Neighborhoods Director is hereby authorized and directed to file a Notice of Determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of January, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

INITIAL STUDY AND FINDINGS

PROPOSED DESIGN AND DEVELOPMENT OF COFFEE-CLARATINA NEIGHBORHOOD PARK & DUAL-USE BASIN

EA/PR&N – 2002 - 21

December 19, 2002

1. Purpose of Initial Study:

Section 15177 of the CEQA Guidelines allows for limited environmental review of subsequent projects under a Master EIR, provided that certain findings are made. The Modesto Urban Area General Plan Master EIR (SCH# 92052017), adopted August 15, 1995, allows such limited review for projects in the Coffee-Claratina Comprehensive Planning District that are consistent with the General Plan and existing zoning.

Based on CEQA Guidelines Section 15150, the following documents are incorporated by reference and are available for review at the City of Modesto Parks, Recreation and Neighborhoods Department, Parks Planning and Development Division, 1010 Tenth Street, Fourth Floor, Suite 4400, Modesto, California, 95354.

On June 2, 1998, the Modesto City Council certified a Mitigated Negative Declaration for the Coffee-Claratina CPD Specific Plan (SCH#98022079). This Mitigated Negative Declaration analyzed the impacts of build-out of the Coffee-Claratina CPD Specific Plan, which includes the area in which this project is proposed. This Mitigated Negative Declaration is incorporated in this Initial Study by reference, and is referred to herein as "Coffee-Claratina Specific Plan Mitigated Negative Declaration".

Subsequently, on December 12, 2000, the City Council certified a Mitigated Negative Declaration for an amendment to the Modesto Urban Area General Plan to allow Dual-Use Flood Control/Recreation Facilities in the Modesto Urban Area and adoption of Design Standards for their development (EA/CDD-2000-58). This Mitigated Negative Declaration analyzed the impacts of developing Dual-Use Flood Control/Recreation Facilities in the Modesto Urban Area, which includes the area in which this project is proposed. This Mitigated Negative Declaration is incorporated in this Initial Study by reference, and is referred to herein as "Dual-Use Flood Control/Recreation Facilities Mitigated Negative Declaration".

This Initial Study, in accordance with Section 15177 of the CEQA Guidelines, analyzes the following:

- A. Whether this project may cause additional significant effects on the environment that were not examined in the General Plan Master EIR, the Coffee-Claratina Specific Plan Mitigated Negative Declaration, or the Dual –Use Flood Control/Recreation Facilities Mitigated Negative Declaration.
- B. Whether new additional mitigation measures or alternatives will be required as a result of this project that were not previously considered in the General Plan Master EIR, the Coffee-Claratina Specific Plan Mitigated Negative Declaration, or the Dual –Use Flood Control/Recreation Facilities Mitigated Negative Declaration.
- C. Whether the proposed project is within the scope of the General Plan Master EIR, the Coffee-Claratina Specific Plan Mitigated Negative Declaration, and the Dual –Use Flood Control/Recreation Facilities Mitigated Negative Declaration.

- 2. Project title:**
Coffee-Claratina Neighborhood Park and Dual-Use Basin
- 3. Lead agency name and address:**
City of Modesto, P.O. Box 642, Modesto, CA 95353
- 4. Contact person and phone number:**
Loren R. Holt, Project Coordinator, Parks, Recreation and Neighborhoods Department,

- 5. Project location:**
In Stanislaus County, in the north area of Modesto, CA, south of Grecian Avenue, east of Highlights Way, and west of Drakeshire Drive. APN #: 082-08-27 (see attached Exhibit "A")
- 6. Project sponsor's name and address:**
City of Modesto
Parks, Recreation and Neighborhoods Department
P.O. Box 642, Modesto, CA 95353
- 7. General plan designation:**
The area proposed as the Coffee-Claratina Neighborhood Park and Dual-Use Basin site is designated as R-Residential on the adopted Land Use Diagram. (pg. III-114, Urban Area General Plan).
- 8. Zoning:**
SP-O - Specific Plan Overlay Zone, R-1 – Sub-zone Residential
- 9. Description of project:**
This project will construct an 8.5 acre neighborhood park and Dual-Use Basin within the Northeast McHenry Neighborhood. Park developments will include: grading, paving, underground utilities, landscaping, irrigation, game court, water play area, family picnic units, a children's play area with play apparatus, park furniture and security lighting. This project includes adoption of a Park Master Plan and Design Development Report, Construction Documents and subsequent development of the Park and Dual-Use Basin. (see attached Master Plan, Exhibit "B")
- 10. Surrounding land uses and setting:**
North: Single-family housing, zoned SP-O/subzone R-1.
South: Single-family housing, zoned R-1.
West: Single-family housing, zoned SP-O/subzone R-1.
East: Single-family housing, zoned SP-O/subzone R-1.
- 11. Other public agencies whose approval is required (e.g., permits, financing approval, or participation agreement.)**
None.

**EVALUATION OF ENVIRONMENTAL IMPACTS:
FOR A PROPOSED SUBSEQUENT PROJECT TO MASTER EIR**

The following sections evaluate the proposed subsequent project to the City's General Plan Master EIR pursuant to CEQA Section 21157.1 (b) whether the subsequent project may cause any significant effect on the environment that was not examined in the master environmental impact report and subsequent Mitigated Negative Declarations, and, if so, make a determination pursuant to Section 21157.5 which requires a mitigated negative declaration to be prepared for a proposed subsequent project if both of the following occur:

- (1) An initial study has identified potentially new or additional significant effects on the environment that were not analyzed in the master environmental impact report and subsequent Mitigated Negative Declarations.
- (2) Feasible mitigation measures or alternatives will be incorporated to revise the proposed subsequent project, before the negative declaration is released for public review, in order to avoid the effects or mitigate the effects to a point where clearly no significant effect on the environment will occur.

The following analysis is based on Appendix G of the CEQA Guidelines and adapted to reflect the eighteen environmental subject areas in the City of Modesto's General Plan Master EIR.

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

I. TRAFFIC AND CIRCULATION NEEDS – Compared to the Master EIR certified for the Modesto Urban Area General Plan and subsequent Mitigated Negative Declarations, will the project result in increased impacts that would:

- | | | | | |
|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a) Cause an increase in traffic which is substantial in relation to the existing traffic load and capacity of the street system (i.e., result in a substantial increase in either the number of vehicle trips, the volume to capacity ratio on roads, or congestion at intersections)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads or highways? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c) Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e) Result in inadequate emergency access? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

- f) Result in inadequate parking capacity?
- g) Conflict with adopted policies, plans, or programs supporting alternative transportation (e.g., bus turnouts, bicycle racks)?

The development of this park is consistent with the General Plan, the General Plan Master EIR, and the Coffee-Claratina Specific Plan and Mitigated Negative Declaration, which anticipated that this existing vacant City Park site would be completed. Therefore, the traffic impacts of this project are consistent with those contained in the General Plan Master EIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Traffic and Circulation Needs (pages IV-1-1 through IV-1-38) and in the Coffee-Claratina Specific Plan Mitigated Negative Declaration (pages 6-10), are still valid for the reasons discussed below.

Discussion:

- a) The proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin development would have no impact with regard to increased impacts to the City’s roadway system because the collector street from McHenry Avenue to Coffee Road is already constructed. Access in all directions is adequately provided through Collector and Neighborhood Streets to the Major Collectors in this area. The park is a neighborhood park and it is expected that a large portion of the users will not require a vehicle trip. There are no organized sports fields identified in the park master plan, therefore traffic will be a minimum. Therefore, there will be no additional traffic and circulation impacts associated with the Coffee-Claratina Neighborhood Park and Dual-Use Basin development beyond those already studied in the Master EIR and Coffee-Claratina Specific Plan Mitigated Negative Declaration.
- b) As previously mentioned, there are no additional traffic and circulation impacts associated with the Coffee-Claratina Neighborhood Park and Dual-Use Basin development beyond those already studied in the Master EIR and Coffee-Claratina Specific Plan Mitigated Negative Declaration. Also, the Coffee-Claratina Specific Plan Mitigated Negative Declaration includes a Traffic Analysis that identifies Level of Service C or D for all project intersections. Therefore, the proposed development will have no impact to contributing to traffic exceeding the adopted level of service for the City’s General Plan street system.
- c) The proposed project is located in either R-1 or SP-O/subzone R-1 land use designations and both of these designations allow the development of park facilities as mentioned in the City of Modesto Urban Area General Plan on page III-6. Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin development would not result in a land use change from the adopted General Plan, there would be no impact relating to a change in air traffic patterns (including either an increase in traffic levels or a change in location that results in substantial safety risks.)
- d) All roads in this neighborhood have been developed in accordance with City of Modesto Standards for Road Development. Because the park development will be served by the same roadway system that is identified in the adopted General Plan and Coffee-Claratina Specific

Plan, there would be no impact in regard to substantially increased hazards due to a design feature (e.g. sharp curves or dangerous intersections) or incompatible uses.

- e) The project has a road along the west, north and east sides of the park. The design of the park is such that access is provided for emergency vehicles along each side of the park and the paths throughout the park will be able to accommodate vehicular access. Therefore, there would be no impact that would result in inadequate emergency access.
- f) The park is not designed with any on-site parking, as is typical of a neighborhood park. Highlights Way, Grecian Ave. and Drakeshire Drive will provide the off-site parking for this site. The Park side of all streets will be available for parking and at a typical parallel stall length would be able to accommodate over 60 cars. The parking provided is more than adequate for a neighborhood park, where it is anticipated that most of the users will not require a vehicle trip. Therefore, there would be no impact that would result in inadequate parking capacity.
- g) This project would actually encourage the use of alternative transportation due to the fact that currently there is no park development in this neighborhood. With the development of this park, the neighborhood will have a suitable place for recreational activities to occur within walking or biking distance of their homes, thus increasing the opportunity for alternative transportation methods to be used. The design of the park will provide bike racks at various locations throughout the park. Therefore, there would be no impact that would conflict with adopted policies, plans or programs supporting alternative transportation (e.g. bus turnouts, bicycle racks).

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

II. DEGRADATION OF AIR QUALITY – Compared to the Master EIR certified for the Modesto Urban Area General Plan and subsequent Mitigated Negative Declarations, will the project result in increased impacts that would:

- a) Conflict with or obstruct implementation of the applicable air quality plan?
- b) Violate any air quality standard or contribute substantially to an existing or projected air quality violation?
- c) Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard (including releasing emissions which exceed quantitative thresholds for ozone precursors)?
- d) Expose sensitive receptors to substantial pollutant concentrations?
- e) Create objectionable odors affecting a substantial number of people?

The air quality impacts, for this development, are directly related to the traffic impacts. Since traffic impacts are no greater than those anticipated in the Master EIR and Coffee-Claratina Specific Plan Mitigated Negative Declaration, this development will not cause additional impacts to air quality beyond those described in the Degradation of Air Quality section of the MEIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration. The Existing Conditions, Impacts Analysis and Mitigation Measures listed for Degradation of Air Quality in the MEIR (pages IV-2-1 through IV-2-25) and Coffee-Claratina Specific Plan Mitigated Negative Declaration (page 10) are therefore, still valid for the reasons discussed below.

Discussion:

- a) The development of Coffee-Claratina Neighborhood Park and Dual-Use Basin would not generate significantly greater traffic than what is anticipated in the Master EIR and Coffee-Claratina Specific Plan Mitigated Negative Declaration for neighborhood parks, as discussed in the Traffic and Circulation section of this Initial Study. Therefore, there would be no impact to conflict with or obstruct the implementation of the San Joaquin Valley Unified Air Pollution Control District air quality plan.
- b) The development of Coffee-Claratina Neighborhood Park and Dual-Use Basin would not generate significantly greater traffic than what is anticipated in the Master EIR and Coffee-Claratina Specific Plan Mitigated Negative Declaration for neighborhood parks, as discussed in the Traffic and Circulation section of this Initial Study. Therefore, there would be no impact that would result in the violation of any air quality standard or contribute substantially to an existing or projected air quality violation.
- c) Because Coffee-Claratina Neighborhood Park and Dual-Use Basin would not be any larger than the standard for neighborhood parks with Dual-use Basins as outlined in the City of Modesto Urban Area General Plan, the Coffee-Claratina Specific Plan and the Design Standards for Dual-Use Flood Control/Recreation Facilities, it will not generate significantly greater traffic than what is anticipated in the Master EIR and subsequent Mitigated Negative Declarations. Therefore, there would be no impact to a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard (including releasing emissions which exceed quantitative thresholds for ozone precursors).
- d) Because Coffee-Claratina Neighborhood Park and Dual-Use Basin would not be any larger than the standard for neighborhood parks as outlined in the City of Modesto Urban Area General Plan, the Coffee-Claratina Specific Plan and the Design Standards for Dual-Use Flood Control/Recreation Facilities, there would be no impact to increase exposure of sensitive receptors to substantial pollutant concentrations beyond that which was studied in the Master EIR and subsequent Mitigated Negative Declarations.
- e) Because Coffee-Claratina Neighborhood Park and Dual-Use Basin would not be any larger and would include no elements other than the standard for neighborhood parks as outlined in the City of Modesto Urban Area General Plan, the Coffee-Claratina Specific Plan, and the Design Standards for Dual-Use Flood Control/Recreation Facilities, there would be no impact to creation of objectionable odors affecting a substantial number of people.

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

III. GENERATION OF NOISE – Compared to the Master EIR certified for the Modesto Urban Area General Plan and subsequent Mitigated Negative Declarations, will the project result in increased impacts that would:

- | | | | | |
|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a) Result in exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) Result in exposure of persons to or generation of excessive groundborne vibration or groundborne noise levels? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c) Result in a substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d) Result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project expose people residing or working in the project area to excessive noise levels? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| f) For a project within the vicinity of a private airstrip, would the project expose people residing or working in the project area to excessive noise levels? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Because the proposed project is consistent with the General Plan and the Coffee-Claratina Specific Plan in land use and intensity, the noise impacts from the project and to the project are consistent with those analyzed in the Master EIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration. As stated in the Traffic and Circulation section, this project will not significantly increase vehicle trips, so it is anticipated that noise from this source would not increase. Therefore, the project will not create additional significant noise impacts, and the Mitigation Measures listed, for Generation of Noise, in the MEIR (pages IV-3-1 through IV-3-33) and the Coffee-Claratina Specific Plan Mitigated Negative Declaration (pages 10-11) are therefore still valid for the reasons discussed below.

Discussion:

- a) Because the elements and uses of the park are consistent with the standards that are set by the City of Modesto Urban Area General Plan, the Coffee-Claratina Specific Plan and the Design Standards for Dual-Use Flood Control/Recreation Facilities, their development would be consistent with what was analyzed in the Master EIR and subsequent Mitigated Negative Declarations. Therefore, their development would result in no impact to exposure of persons

to, or generation of, noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies.

- b) Because the elements and uses of the park are consistent with the standards that are set by the City of Modesto Urban Area General Plan, the Coffee-Claratina Specific Plan and the Design Standards for Dual-Use Flood Control/Recreation Facilities, their development would be consistent with what was analyzed in the Master EIR and subsequent Mitigated Negative Declarations. Therefore, their development would result in no impact to exposure of persons to or generation of excessive groundborne vibration or groundborne noise levels.
- c) Because the elements and uses of the park are consistent with the standards that are set by the City of Modesto Urban Area General Plan, the Coffee-Claratina Specific Plan and the Design Standards for Dual-Use Flood Control/Recreation Facilities, their development would be consistent with what was analyzed in the Master EIR and subsequent Mitigated Negative Declarations. Therefore, their development would result in no impact to a substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project.
- d) Because the elements and uses of the park are consistent with the standards that are set by the City of Modesto Urban Area General Plan, the Coffee-Claratina Specific Plan and the Design Standards for Dual-Use Flood Control/Recreation Facilities, their development would be consistent with what was analyzed in the Master EIR and subsequent Mitigated Negative Declarations. Therefore, their development would result in no impact to a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project.
- e) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin would be located outside the noise contour of the Airport, (Figure 3-2 MEIR) analyzed in the General Plan Master EIR, its development would result in no impact to an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, and the project would not expose people residing or working in the project area to excessive noise levels.
- f) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin would not be located in the vicinity of any private airstrips, its development would result in no impact to a private airstrip, nor would the project expose people residing or working in the project area to excessive noise levels.

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

IV. LOSS OF PRODUCTIVE AGRICULTURAL LAND - Compared to the Master EIR certified for the Modesto Urban Area General Plan and subsequent Mitigated Negative Declarations, will the project result in increased impacts that would:

- a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

- b) Conflict with existing zoning for agricultural use, or a Williamson Act contract?
- c) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland to non-agricultural use?

The Urban Area General Plan MEIR recognizes that loss of agricultural land is a significant and unavoidable effect under CEQA, even with the adoption of all feasible mitigation measures. As such, overriding consideration findings have been adopted for the General Plan, and therefore, this project is covered by that statement of overriding consideration. The Existing Conditions, Impacts Analysis, and Mitigation Measures listed for Loss of Productive Agricultural Land in the MEIR (pages IV-4-1 through IV-4-16) and Coffee-Claratina Specific Plan Mitigated Negative Declaration (pages 11-12) are still valid for the reasons discussed below.

Discussion:

- a) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin would be developed to the Design Standards for Dual-Use Flood Control/Recreation Facilities and co-located to maximize land use acreage within the Coffee-Claratina Specific Plan Area of the adopted General Plan, which is covered by the General Plan Master EIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration, there would be no impact to Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use.
- b) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin would be developed to the Design Standards for Dual-Use Flood Control/Recreation Facilities and co-located to maximize land use acreage within the Coffee-Claratina Specific Plan Area of the adopted General Plan, which is covered by the General Plan Master EIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration, there would be no impact to existing zoning for agricultural use, or a Williamson Act contract.
- c) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin would be developed to the Design Standards for Dual-Use Flood Control/Recreation Facilities and co-located to maximize land use acreage within the Coffee-Claratina Specific Plan Area of the adopted General Plan, which is covered by the General Plan Master EIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration, there would be no impact to changes in the existing environment which, due to their location or nature, could result in conversion of Farmland to non-agricultural use.

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

V. INCREASED DEMAND FOR WATER SUPPLIES - Compared to the Master EIR certified for the Modesto Urban Area General Plan and subsequent Mitigated Negative Declarations, will the project result in increased impacts that would:

- a) Have sufficient water supplies available to serve the project from existing entitlements and resources, or are new or expanded entitlements needed?
- b) Require or result in the construction of new water treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effect?

The Urban Area General Plan MEIR recognizes that additional water supply to the planned urbanized area is a significant and unavoidable effect under CEQA, even with the adoption of all feasible mitigation measures. As such, overriding consideration findings have been adopted for the General Plan and therefore, this project is covered by that statement of overriding consideration. The proposed project will require no additional water beyond that identified in the Increased Demand for Water Supplies section of the MEIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed for Increased Demand for Water Supplies in the MEIR (pages IV-5-1 through IV-5-11) and Coffee-Claratina Specific Plan Mitigated Negative Declaration (page 12) are, therefore, still valid for the reasons discussed below.

Discussion:

- a) Because Coffee-Claratina Neighborhood Park and Dual-Use Basin would not be any larger than the standard and would include no elements other than the standard for neighborhood parks with Dual-Use Basins as outlined in the City of Modesto Urban Area General Plan, the Coffee-Claratina Specific Plan and the Design Standards for Dual-Use Flood Control/Recreation Facilities, there would be no impact to water supplies available to serve the project from existing entitlements and resources, and no new or expanded entitlements would be needed.
- b) Because Coffee-Claratina Neighborhood Park and Dual-Use Basin would not be any larger than the standard and would include no elements other than the standard for neighborhood parks with Dual-Use Basins as outlined in the City of Modesto Urban Area General Plan, the Coffee-Claratina Specific Plan and the Design Standards for Dual-Use Flood Control/Recreation Facilities, there would be no impact to any requirement or need for the construction of new water treatment facilities or expansion of existing facilities, the construction of which would cause significant environmental effects.

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

VI. INCREASED DEMAND FOR SANITARY SEWER - Compared to the Master EIR certified for the Modesto Urban Area General Plan and subsequent Mitigated Negative Declarations, will the project result in increased impacts that would:

- a) Result in a determination by the wastewater treatment provider which serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?
- b) Exceed wastewater treatment requirements of applicable Regional Water Quality Control Board?
- c) Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effect?

The proposed project will create no additional demand for sewer capacity not identified in the MEIR or the Coffee-Claratina Specific Plan Mitigated Negative Declaration. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed for Increased Demand for Sanitary Sewer Services in the MEIR (pages IV-6-1 through IV-6-9) and Coffee-Claratina Specific Plan Mitigated Negative Declaration (pages 12-13) are therefore still valid, for the reasons discussed below.

Discussion:

- a) The proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin will have no impact to increased demand for sanitary sewer service over what was assumed in the MEIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration because it would not be any larger than the standard and would include no elements other than the standard for neighborhood parks as outlined in the City of Modesto Urban Area General Plan and the Coffee-Claratina Specific Plan. Therefore, project development would result in a determination by the wastewater treatment provider which serves or may serve the project (City of Modesto) that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments.
- b) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin would not be any larger than the standard and would include no elements other than the standard for neighborhood parks as outlined in the City of Modesto Urban Area General Plan and the Coffee-Claratina Specific Plan, the project would not generate increased demand for sanitary sewer services over what was assumed in the Master EIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration. Therefore, the project would result in no impact to wastewater treatment requirements of the applicable Regional Water Quality Control Board.
- c) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin would not be any larger than the standard and would include no elements other than the standard for neighborhood parks as outlined in the City of Modesto Urban Area General Plan and the Coffee-

Claratina Specific Plan, the project would not generate increased demand for sanitary sewer services over what was assumed in the Master EIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration. Therefore, the project would result in no impact to a requirement for or result in the construction of new wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effect.

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

VII. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT - Compared to the Master EIR certified for the Modesto Urban Area General Plan and subsequent Mitigated Negative Declarations, will the project result in increased impacts that would:

- | | | | | |
|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U. S. Fish and Wildlife Service? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or U. S. Fish and Wildlife Service? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c) Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| f) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

The project is not located in a Potential Biological Resource Study Area, as presented in Figure 7-1 of the MEIR. Furthermore, the Urban Area General Plan MEIR states that all impacts to sensitive wildlife and plant habitat can be mitigated. Therefore, the Existing Conditions, Impact Analysis, and the Mitigation Measures for the Loss of Sensitive Wildlife and Plant Habitat in the MEIR (pages IV-7-1 through IV-7-30) and the Coffee-Claratina Specific Plan Mitigated Negative Declaration (page 13) are still valid for the reasons discussed below.

Discussion:

- a) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin will be developed and operated to the proposed Design Standards for Dual-Use Flood Control/Recreation Facilities and Neighborhood Parks and will be located in the Planned Urbanizing Area of the adopted Urban Area General Plan outside of "potential biological resource study areas" (as defined in Figure 7-1 of the MEIR), the proposed project would not result in any effect on loss of sensitive wildlife and plant habitat that was not already analyzed by the General Plan Master EIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration. Therefore, the proposed project would have no impact either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, regulations or by the California Department of Fish and Game or U.S. Fish and Wildlife Service.
- b) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin will be developed and operated to the proposed Design Standards for Dual-Use Flood Control/Recreation Facilities and Neighborhood Parks and will be located in the Planned Urbanizing Area of the adopted Urban Area General Plan outside of "potential biological resource study areas" (as defined in Figure 7-1 of the MEIR), the proposed project would not result in any effect on loss of sensitive wildlife and plant habitat that was not already analyzed by the General Plan Master EIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration. Therefore, the proposed project would have no impact in regard to having a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or U.S. Fish and Wildlife Service.
- c) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin will be developed and operated to the proposed Design Standards for Dual-Use Flood Control/Recreation Facilities and Neighborhood Parks and will be located in the Planned Urbanizing Area of the adopted Urban Area General Plan outside of "potential biological resource study areas" (as defined in Figure 7-1 of the MEIR), the proposed project would not result in any effect on loss of sensitive wildlife and plant habitat that was not already analyzed by the General Plan Master EIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration. Therefore, the proposed project would have no impact in regard to having a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means.
- d) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin will be developed and operated to the proposed Design Standards for Dual-Use Flood Control/Recreation Facilities and Neighborhood Parks and will be located in the Planned Urbanizing Area of the adopted Urban Area General Plan outside of "potential biological resource study areas" (as defined in Figure 7-1 of the MEIR), the proposed project would not result in any effect on loss of sensitive wildlife and plant habitat that was not already analyzed

by the General Plan Master EIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration. Therefore, the proposed project would have no impact, in regard to interfering substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites.

- e) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin will be developed and operated to the proposed Design Standards for Dual-Use Flood Control/Recreation Facilities and Neighborhood Parks and will be located in the Planned Urbanizing Area of the adopted Urban Area General Plan outside of "potential biological resource study areas" (as defined in Figure 7-1 of the MEIR), the proposed project would not result in any effect on loss of sensitive wildlife and plant habitat that was not already analyzed by the General Plan Master EIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration. Therefore, the proposed project would have no impact above and beyond the impacts outlined in the MEIR in regard to a conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.
- f) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin will be developed and operated to the proposed Design Standards for Dual-Use Flood Control/Recreation Facilities and Neighborhood Parks and will be located in the Planned Urbanizing Area of the adopted Urban Area General Plan outside of "potential biological resource study areas" (as defined in Figure 7-1 of the MEIR), the proposed project would not result in any effect on loss of sensitive wildlife and plant habitat that was not already analyzed by the General Plan Master EIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration. Therefore, the proposed project would have no impact in regard to a conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan.

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

VIII. DISTURBANCE OF ARCHAEOLOGICAL OR HISTORICAL SITES - Compared to the Master EIR certified for the Modesto Urban Area General Plan and subsequent Mitigated Negative Declarations, will the project result in increased impacts that would:

- a) Cause a substantial adverse change in the significance of a historical resource as defined in §15064.5?
- b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to §15064.5?
- c) Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?
- d) Disturb any human remains, including those interred outside of formal cemeteries?

The project is not located in an Archaeological Resource Zone, as presented in Figure 8-1 of the MEIR. Therefore, the Existing Conditions, Impact Analysis, and the Mitigation Measures for the Disturbance of Archaeological or Historical Sites in the MEIR (pages IV-8-1 through IV-8-21) and the Coffee-Claratina Specific Plan Mitigated Negative Declaration (page 13) are still valid, for the reasons discussed below.

Discussion:

- a) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin will be developed and operated to the proposed Design Standards for Dual-Use Flood Control/Recreation Facilities and Neighborhood Parks and will be located in the Planned Urbanizing Area of the adopted Urban Area General Plan outside of "archaeological resource zones" (as defined in Figure 8-1 of the MEIR), the proposed project would not result in any effect on disturbance of archaeological or historical sites that was not already analyzed by the General Plan Master EIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration. Therefore, the proposed project would have no impact to cause a substantial adverse change in the significance of a historical resource as defined in §15064.5.
- b) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin will be developed and operated to the proposed Design Standards for Dual-Use Flood Control/Recreation Facilities and Neighborhood Parks and will be located in the Planned Urbanizing Area of the adopted Urban Area General Plan outside of "archaeological resource zones" (as defined in Figure 8-1 of the MEIR), the proposed project would not result in any effect on disturbance of archaeological or historical sites that was not already analyzed by the General Plan Master EIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration. Therefore, the proposed project would have no impact, above what has already been studied in the MEIR, to cause a substantial adverse change in the significance of an archaeological resource pursuant to §15064.5.
- c) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin will be developed and operated to the proposed Design Standards for Dual-Use Flood Control/Recreation Facilities and Neighborhood Parks and will be located in the Planned Urbanizing Area of the adopted Urban Area General Plan outside of "archaeological resource zones" (as defined in Figure 8-1 of the MEIR), the proposed project would not result in any effect on disturbance of archaeological or historical sites that was not already analyzed by the General Plan Master EIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration. Therefore, the proposed project would have no impact, above what has already been studied in the MEIR, to directly or indirectly destroy a unique paleontological resource or site or unique geologic feature.
- d) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin will be developed and operated to the proposed Design Standards for Dual-Use Flood Control/Recreation Facilities and Neighborhood Parks and will be located in the Planned Urbanizing Area of the adopted Urban Area General Plan outside of "archaeological resource zones" (as defined in Figure 8-1 of the MEIR), the proposed project would not result in any effect on disturbance of archaeological or historical sites that was not already analyzed by the General Plan Master EIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration. Therefore, the proposed project would have no impact, above what has already been studied in the MEIR, to disturb any human remains, including those interred outside of formal cemeteries.

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

IX. DRAINAGE, FLOODING AND WATER QUALITY - Compared to the Master EIR certified for the Modesto Urban Area General Plan and subsequent Mitigated Negative Declarations, will the project result in increased impacts that would:

- | | | | | |
|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a) Violate any water quality standards or waste discharge requirements? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) Substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support the land uses or planned uses for which permits have been granted)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c) Substantially alter the existing drainage pattern of the site or area, including through the alteration of course of a stream or river, in a manner which would result in a substantial erosion or siltation on- or off-site? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d) Create or contribute runoff water which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e) Otherwise substantially degrade water quality? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| f) Place housing within a 100-year flood hazard area as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| g) Place within a 100-year flood hazard area structures which would impede or redirect flood flows? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| h) Expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| i) Inundation by seiche, tsunami, or mudflow? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

The proposed project will have no impact to Drainage, Flooding, and Water Quality. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Drainage, Flooding, and Water Quality (pages IV-9-1 through IV- 9-23) are still valid for the reasons listed below.

Discussion:

- a) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin will be developed and operated to the proposed Design Standards for Dual-Use Flood Control/Recreation Facilities and Neighborhood Parks and will be located in the Planned Urbanizing Area of the adopted Urban Area General Plan outside of any "flood potential study areas" (as defined in Figure 9-1 of the MEIR), the proposed project would not result in any effect to Drainage, Flooding and Water Quality that was not already analyzed by the General Plan Master EIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration. Therefore, the proposed project would have no impact to violate any water quality standards or waste discharge requirements.
- b) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin will be developed and operated to the proposed Design Standards for Dual-Use Flood Control/Recreation Facilities and Neighborhood Parks and will be located in the Planned Urbanizing Area of the adopted Urban Area General Plan outside of any "flood potential study areas" (as defined in Figure 9-1 of the MEIR), the proposed project would not result in any effect to Drainage, Flooding and Water Quality that was not already analyzed by the General Plan Master EIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration. Therefore, the proposed project would have no impact to substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted).
- c) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin will be developed and operated to the proposed Design Standards for Dual-Use Flood Control/Recreation Facilities and Neighborhood Parks and will be located in the Planned Urbanizing Area of the adopted Urban Area General Plan outside of any "flood potential study areas" (as defined in Figure 9-1 of the MEIR), the proposed project would not result in any effect to Drainage, Flooding and Water Quality that was not already analyzed by the General Plan Master EIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration. Therefore, the proposed project would have no impact to substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner which would result in substantial erosion or siltation on- or off-site.
- d) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin will be developed and operated to the proposed Design Standards for Dual-Use Flood Control/Recreation Facilities and Neighborhood Parks and will be located in the Planned Urbanizing Area of the adopted Urban Area General Plan outside of any "flood potential study areas" (as defined in Figure 9-1 of the MEIR), the proposed project would not result in any effect to Drainage, Flooding and Water Quality that was not already analyzed by the General Plan Master EIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration. Therefore, the proposed project would have no impact to create or contribute runoff water which would exceed the capacity of existing or planned storm water drainage systems or provide substantial additional sources of polluted runoff.
- e) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin will be developed and operated to the proposed Design Standards for Dual-Use Flood Control/Recreation Facilities and Neighborhood Parks and will be located in the Planned Urbanizing Area of the adopted Urban Area General Plan outside of any "flood potential study areas" (as defined in Figure 9-1 of the MEIR), the proposed project would not result in any

effect to Drainage, Flooding and Water Quality that was not already analyzed by the General Plan Master EIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration. Therefore, the proposed project would have no impact to substantially degrade water quality.

- f) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin will be developed and operated to the proposed Design Standards for Dual-Use Flood Control/Recreation Facilities and Neighborhood Parks and will be located in the Planned Urbanizing Area of the adopted Urban Area General Plan outside of any "flood potential study areas" (as defined in Figure 9-1 of the MEIR), the proposed project would not result in any effect to Drainage, Flooding and Water Quality that was not already analyzed by the General Plan Master EIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration. Therefore, the proposed project would have no impact in regard to placing housing within a 100-year flood hazard area as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map.
- g) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin will be developed and operated to the proposed Design Standards for Dual-Use Flood Control/Recreation Facilities and Neighborhood Parks and will be located in the Planned Urbanizing Area of the adopted Urban Area General Plan outside of any "flood potential study areas" (as defined in Figure 9-1 of the MEIR), the proposed project would not result in any effect to Drainage, Flooding and Water Quality that was not already analyzed by the General Plan Master EIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration. Therefore, the proposed project would have no impact in regard to placing within a 100-year flood hazard area structures which would impede or redirect flood flows.
- h) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin will be developed and operated to the proposed Design Standards for Dual-Use Flood Control/Recreation Facilities and Neighborhood Parks and will be located in the Planned Urbanizing Area of the adopted Urban Area General Plan outside of any "flood potential study areas" (as defined in Figure 9-1 of the MEIR), the proposed project would not result in any effect to Drainage, Flooding and Water Quality that was not already analyzed by the General Plan Master EIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration. Therefore, the proposed project would have no impact in regard to exposing people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam.
- i) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin will be developed and operated to the proposed Design Standards for Dual-Use Flood Control/Recreation Facilities and Neighborhood Parks and will be located in the Planned Urbanizing Area of the adopted Urban Area General Plan outside of any "flood potential study areas" (as defined in Figure 9-1 of the MEIR), the proposed project would not result in any effect to Drainage, Flooding and Water Quality that was not already analyzed by the General Plan Master EIR and the Coffee-Claratina Specific Plan Mitigated Negative Declaration. Therefore, the proposed project would have no impact to inundation by seiche, tsunami, or mudflow.

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

X. INCREASED DEMAND FOR STORM DRAINAGE - Compared to the Master EIR certified for the Modesto Urban Area General Plan and subsequent Mitigated Negative Declarations, will the project result in increased impacts that would:

a) Require or result in the construction of new storm water drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?

The Existing Conditions, Impacts Analysis and the Mitigation Measures for the Increased Demand for Storm Drainage listed in the MEIR (pages IV-10-1 through IV- 10-8) and the Coffee-Claratina Specific Plan Mitigated Negative Declaration (pages 13-14) are still valid for the reasons discussed below.

Discussion:

a) The proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin is designed to supplement planned regional drainage basins, and will be developed based on the Design Standards for Dual-Use Flood Control/Recreation Facilities, which are consistent with Table 9-4 of the MEIR, thus providing increased storage capacity for times of high storm events. The project will not present any new impacts that have not already been addressed in the Urban Area General Plan MEIR, the Coffee-Claratina Specific Plan Mitigated Negative Declaration or the Dual-Use Basin Mitigated Negative Declaration. Therefore, the project would have no impact to any requirements for or result in the construction of new storm water drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effect.

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

XI. INCREASED DEMAND FOR PARKS AND OPEN SPACE - Compared to the Master EIR certified for the Modesto Urban Area General Plan and subsequent Mitigated Negative Declarations, will the project result in increased impacts that would:

a) Would the project increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?

b) Does the project include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse physical effect on the environment?

The demand for parks and open space in the Northeast McHenry Neighborhood will be met with the development of the 8.5 acre Coffee-Claratina Neighborhood Park and Dual-Use Basin. This project does not create an additional need for parks and open space and it satisfies the current policies and standards that are set forth in the General Plan and the Coffee-Claratina Specific Plan. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed for the Increased Demand for Parks and Open Space in the MEIR (pages IV-11-1 through IV- 11-11) and the Coffee-Claratina Specific Plan Mitigated Negative Declaration (page14) are still valid, for the reasons discussed below.

Discussion:

- a) Coffee-Claratina Neighborhood Park and Dual-Use Basin will be designed pursuant to the Design Standards for Dual-Use Flood Control/Recreation Facilities and provides for an effective increase in the amount of available park and open space land since dual-use facilities provide for sharing of uses between storm drainage and recreation lands. Therefore, the project would have no impact to increasing the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated.
- b) Coffee-Claratina Neighborhood Park and Dual-Use Basin will be designed pursuant to the Design Standards for Dual-Use Flood Control/Recreation Facilities and provides for an effective increase in the amount of available park and open space land since dual-use facilities provide for sharing of uses between storm drainage and recreation lands. Therefore, the project would have no impact to the requirement for the construction or expansion of recreational facilities which might have an adverse effect on the environment.

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

XII. INCREASED DEMAND FOR SCHOOLS - Compared to the Master EIR certified for the Modesto Urban Area General Plan and subsequent Mitigated Negative Declarations, will the project result in increased impacts to:

- a) Would the project result in substantial adverse physical impacts associated with the provisions of new or physically altered school facilities, need for new or physically altered school facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for school services.

This development will not create any additional demand for schools. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed for the Increased Demand for Schools in the MEIR (pages IV-12-1 through IV- 12-11) and the Coffee-Claratina Specific Plan Mitigated Negative Decalaration (page 14) are still valid, for the reasons discussed below.

Discussion:

- a) Because Coffee-Claratina Neighborhood Park and Dual-Use Basin would not be any larger than the standard and would include no elements other than the standard for neighborhood parks with Dual-Use Basins as outlined in the City of Modesto Urban Area General Plan, the Coffee-Claratina Specific Plan and the Design Standards for Dual-Use Flood Control/Recreation Facilities, there would be no impact resulting in substantial adverse physical impacts associated with the provisions of new or physically altered school facilities, need for new or physically altered school facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for school services.

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

XIII. INCREASED DEMAND FOR POLICE SERVICES - Compared to the Master EIR certified for the Modesto Urban Area General Plan and subsequent Mitigated Negative Declarations, will the project result in increased impacts to:

- a) Would the project result in substantial adverse physical impacts associated with the provisions of new or physically altered police service facilities, need for new or physically altered police facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for police services.

Because the project is consistent with the Urban Area General Plan and the Coffee-Claratina Specific Plan in land use and intensity, it will not present any increased demand for police services that has not already been addressed. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed for the Increased Demand for Police Services in the MEIR (pages IV-13-1 through IV- 13-8) and the Coffee-Claratina Specific Plan Mitigated Negative Declaration (page 14) are therefore still valid, for the reasons discussed below.

Discussion:

- a) Because Coffee-Claratina Neighborhood Park and Dual-Use Basin would not be any larger than the standard and would include no elements other than the standard for neighborhood parks with Dual-Use Basins as outlined in the City of Modesto Urban Area General Plan, the Coffee-Claratina Specific Plan and the Design Standards for Dual-Use Flood Control/Recreation Facilities, there would be no impact associated with the provisions of new or physically altered police service facilities, need for new or physically altered police facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for police services.

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

XIV. INCREASED DEMAND FOR FIRE SERVICES - Compared to the Master EIR certified for the Modesto Urban Area General Plan and subsequent Mitigated Negative Declarations, will the project result in increased impacts to:

a) Would the project result in substantial adverse physical impacts associated with the provisions of new or physically altered fire protection facilities, need for new or physically altered fire protection facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for fire protection services.

Because the project is consistent with the Urban Area General Plan and the Coffee-Claratina Specific Plan in land use and intensity, it will not present any increased demand for police services that has not already been addressed. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed for the Increased Demand for Fire Services in the MEIR (pages IV-14-1 through IV- 14-9) and the Coffee-Claratina Specific Plan Mitigated Negative Declaration (page 14) are therefore still valid, for the reasons discussed below.

Discussion:

a) Coffee-Claratina Neighborhood Park and Dual-Use Basin would not be any larger than the standard and would include no elements other than the standard for neighborhood parks with Dual-Use Basins as outlined in the City of Modesto Urban Area General Plan, the Coffee-Claratina Specific Plan and the Design Standards for Dual-Use Flood Control/Recreation Facilities. Therefore, the project will result in no impact associated with the provisions of new or physically altered fire protection facilities, need for new or physically altered fire protection facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for fire protection services.

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

XV. GENERATION OF SOLID WASTE - Compared to the Master EIR certified for the Modesto Urban Area General Plan and subsequent Mitigated Negative Declarations, will the project result in increased impacts to:

a) Be served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs?

b) Comply with federal, state, and local statutes and regulations related to solid waste?

This project will not cause the generation of solid waste beyond that which is identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed for the Generation of Solid Waste in the MEIR (pages IV-15-1 through IV- 15-10) and the Coffee-Claratina Specific Plan Mitigated Negative Declaration (page 15) are therefore still valid, for the reasons discussed below.

Discussion:

- a) Coffee-Claratina Neighborhood Park and Dual-Use Basin would not be any larger than the standard and would include no elements other than the standard for neighborhood parks with Dual-Use Basins as outlined in the City of Modesto Urban Area General Plan, the Coffee-Claratina Specific Plan and the Design Standards for Dual-Use Flood Control/Recreation Facilities. Therefore, the project will result in no impact to increase demand for service by a landfill with sufficient permitted capacity to accommodate the project’s solid waste disposal needs.
- b) Coffee-Claratina Neighborhood Park and Dual-Use Basin would not be any larger than the standard and would include no elements other than the standard for neighborhood parks with Dual-Use Basins as outlined in the City of Modesto Urban Area General Plan, the Coffee-Claratina Specific Plan and the Design Standards for Dual-Use Flood Control/Recreation Facilities. Therefore, the project will result in no impact to compliance with federal, state, and local statutes and regulations related to solid waste.

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

XVI. GENERATION OF HAZARDOUS MATERIALS - Compared to the Master EIR certified for the Modesto Urban Area General Plan and subsequent Mitigated Negative Declarations, will the project result in increased impacts to:

- a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?
- b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment?
- c) Emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?
- d) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would create a significant hazard to the public or the environment?

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

- | | | | | |
|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in a safety hazard for people residing or working in the project area? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| f) For a project within the vicinity of a private airstrip, would the project result in a safety hazard for people residing or working in the project area? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| g) Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| h) Expose people or structures to a significant risk of loss, injury or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Figure 16-1 of the Urban Area General Plan MEIR shows the potential hazardous contamination study areas within the General Plan Area. Coffee-Claratina Neighborhood Park and Dual-Use Basin does not fall within one of these potential hazardous contamination study areas and will not result in additional hazardous materials generated beyond those identified. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed for the Generation of Hazardous Materials in the MEIR (pages IV-16-1 through IV- 16-15), the Coffee-Claratina Specific Plan Mitigated Negative Declaration (page15) and the Dual-Use Flood Control/Recreation Facilities Mitigated Negative Declaration (pages 24-25) are therefore still valid, for the reasons discussed below.

Discussion:

- a) Coffee-Claratina Neighborhood Park and Dual-Use Basin would not be any larger than the standard and would include no elements other than the standard for neighborhood parks with Dual-Use Basins as outlined in the City of Modesto Urban Area General Plan, the Coffee-Claratina Specific Plan and the Design Standards for Dual-Use Flood Control/Recreation Facilities. Also, the park and basin will be constructed and maintained to the standards set forth in the City of Modesto Specifications and the Dual-Use Flood Control/Recreation Facilities. Therefore, the project will result in no impact greater than that studied in the General Plan MEIR to create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials.
- b) Coffee-Claratina Neighborhood Park and Dual-Use Basin would not be any larger than the standard and would include no elements other than the standard for neighborhood parks with Dual-Use Basins as outlined in the City of Modesto Urban Area General Plan, the Coffee-Claratina Specific Plan and the Design Standards for Dual-Use Flood Control/Recreation Facilities. Also, the park and basin will be constructed and maintained to the standards set forth in the City of Modesto Specifications and the Dual-Use Flood Control/Recreation Facilities. Therefore, the project will result in no impact greater than that studied in the General Plan MEIR to create a significant hazard to the public or the environment through reasonably

foreseeable upset and accident conditions involving the release of hazardous materials into the environment.

- c) The nearest school to Coffee-Claratina Neighborhood Park and Dual-Use Basin is Stockard Coffee Elementary School, which is located seven tenths of a mile from the proposed project. There are no proposed school sites within one-quarter mile of the proposed site and assuming the current development standards for schools are adhered to there will not be one proposed. Therefore, there is no impact greater than that studied in the General Plan MEIR to emit hazardous emissions or handle hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school.
- d) Coffee-Claratina Neighborhood Park and Dual-Use Basin is not located in a Potential Hazardous Contamination Study Area, as presented in Figure 16-1 of the MEIR. Therefore, there is no impact to being located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, the project would not create a significant hazard to the public or the environment.
- e) Coffee-Claratina Neighborhood Park and Dual-Use Basin is not located within the Modesto City-County Airport Land Use Planning Area Boundary as indicated in the Airport Land Use Commission Plan, adopted August 3, 1978. Therefore, there is no impact to a project located within an airport land use plan, which would result in a safety hazard for people residing in, working in, or visiting the project area.
- f) Because the proposed Coffee-Claratina Neighborhood Park and Dual-Use Basin would be located in the Planned Urbanizing Area of the General Plan, and there are no private airstrips within or adjacent to the Modesto General Plan Area, its development would result in no impact to a private airstrip, or to result in a safety hazard for people residing or working in the project area.
- g) Coffee-Claratina Neighborhood Park and Dual-Use Basin would not be any larger than the standard and would include no elements other than the standard for neighborhood parks with Dual-Use Basins as outlined in the City of Modesto Urban Area General Plan, the Coffee-Claratina Specific Plan and the Design Standards for Dual-Use Flood Control/Recreation Facilities. Also, the park and basin will be constructed and maintained to the standards set forth in the City of Modesto Specifications and the Dual-Use Flood Control/Recreation Facilities. Therefore, there would be no impact that would impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan.
- h) Coffee-Claratina Neighborhood Park and Dual-Use Basin would not be any larger than the standard and would include no elements other than the standard for neighborhood parks with Dual-Use Basins as outlined in the City of Modesto Urban Area General Plan, the Coffee-Claratina Specific Plan and the Design Standards for Dual-Use Flood Control/Recreation Facilities. Also, the park and basin will be constructed and maintained to the standards set forth in the City of Modesto Specifications and the Dual-Use Flood Control/Recreation Facilities. Therefore, there is no impact, beyond that already studied, to expose people or structures to a significant risk of loss, injury or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands.

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

XVII. LANDSLIDES AND SEISMIC ACTIVITY - Compared to the Master EIR certified for the Modesto Urban Area General Plan and subsequent Mitigated Negative Declarations, will the project result in increased impacts to:

Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving:

- | | | | | |
|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a) Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b) Strong seismic ground shaking? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c) Seismic-related ground failure, including liquefaction? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d) Landslide? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e) Result in substantial soil erosion or the loss of topsoil? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| f) Be located on a geological unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction or collapse? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| g) Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| h) Have soils incapable of adequately supporting the use of septic tanks or alternative waste water disposal systems where sewers are not available for the disposal of waste water? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

This use will result in no additional potential for exposing people to landslides or earthquake-related hazards such as liquefaction beyond those identified. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed for Landslides and Seismic Activity in the MEIR (pages IV-17-1 through IV- 17-11) and the Coffee-Claratina Specific Plan Mitigated Negative Declaration (pages 15-16) are therefore still valid, for the reasons discussed below.

Discussion:

- a) Because Coffee-Claratina Neighborhood Park and Dual-Use Basin will be located within the boundaries of the Urban Area General Plan, and, per Figure 17-1 MEIR, the nearest fault is 15 miles west of the Modesto General Plan Area, there is no impact to expose people or structures

to potential substantial adverse effects, including the risk of loss, injury, or death involving rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault.

- b) Because Coffee-Claratina Neighborhood Park and Dual-Use Basin will be located within the boundaries of the Urban Area General Plan, and, per Figure 17-1 MEIR, the nearest fault is 15 miles west of the Modesto General Plan Area, there is no impact to expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving strong seismic ground shaking.
- c) Because Coffee-Claratina Neighborhood Park and Dual-Use Basin will be located within the boundaries of the Urban Area General Plan, and, per Figure 17-1 MEIR, the nearest fault is 15 miles west of the Modesto General Plan Area, there is no impact to expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving seismic-related ground failure, including liquefaction.
- d) Because Coffee-Claratina Neighborhood Park and Dual-Use Basin will be located within the boundaries of the Urban Area General Plan and the Coffee-Claratina Specific Plan, will be consistent in use and intensity with Neighborhood Park standards, and will be constructed to City standards, there is no impact to expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving landslides.
- e) Because Coffee-Claratina Neighborhood Park and Dual-Use Basin will be located within the boundaries of the Urban Area General Plan and the Coffee-Claratina Specific Plan, will be consistent in use and intensity with Neighborhood Park standards, and will be constructed to City standards, there is no impact to result in substantial soil erosion or the loss of topsoil.
- f) Because Coffee-Claratina Neighborhood Park and Dual-Use Basin will be located within the boundaries of the Urban Area General Plan and the Coffee-Claratina Specific Plan, will be consistent in use and intensity with Neighborhood Park standards, and will be constructed to City standards, there is no impact to being located on a geological unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction or collapse.
- g) Because Coffee-Claratina Neighborhood Park and Dual-Use Basin will be located within the boundaries of the Urban Area General Plan and the Coffee-Claratina Specific Plan, will be consistent in use and intensity with Neighborhood Park standards, and will be constructed to City standards, there is no impact to being located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property.
- h) Because Coffee-Claratina Neighborhood Park and Dual-Use Basin will be located within the boundaries of the Urban Area General Plan and the Coffee-Claratina Specific Plan, will be consistent in use and intensity with Neighborhood Park standards, and will be constructed to City standards, there is no impact to soils incapable of adequately supporting the use of septic tanks or alternative waste water disposal systems where sewers are not available for the disposal of waste water.

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

XVIII. ENERGY - Compared to the Master EIR certified for the Modesto Urban Area General Plan and subsequent Mitigated Negative Declarations, will the project result in increased impacts to:

- a) Use of fuel, water, or energy in a wasteful manner.
- b) Encourage activities which result in the use of large amounts of fuel, water, or energy.

The Existing Conditions, Impacts Analysis and the Mitigation Measures listed for Energy in the MEIR (pages IV-18-1 through IV- 18-6) and the Coffee-Claratina Specific Plan Mitigated Negative Declaration (page 16) are still valid, for the reasons discussed below.

Discussion:

- a) Because service providers indicated ability to serve the area covered by the MEIR, and because of the low energy requirements of parks and storm drainage facilities, there would be no impact to use of fuel, water, or energy in a wasteful manner.
- b) Because service providers indicated ability to serve the area covered by the MEIR, and because of the low energy requirements of parks and storm drainage facilities, there would be no impact to encouraging activities which result in the use of large amounts of fuel, water, or energy.

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

Issues:

XIX. MANDATORY FINDINGS OF SIGNIFICANCE - Compared to the Master EIR certified for the Modesto Urban Area General Plan and subsequent Mitigated Negative Declarations:

- a) Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory?

Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------------------------------	---	------------------------------	-----------

b) Does the project have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects)?

c) Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?

Discussion:

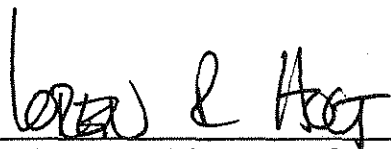

- a) As set forth in the MEIR, the Coffee-Claratina Specific Plan Mitigated Negative Declaration and this Initial Study, Coffee-Claratina Neighborhood Park and Dual-Use Basin does not have the potential to further degrade the quality of the environment. This project is not located in biological, archeological, hazardous materials or any otherwise significant study areas.
- b) Because Coffee-Claratina Neighborhood Park and Dual-Use Basin would be consistent with Neighborhood Park Plan Standards as outlined in the Urban Area General Plan and Design Standards for Dual-Use Flood Control/Recreation Facilities, the project does not have impacts which would be considered cumulatively considerable. The MEIR prepared on the General Plan specifically projects development of the entire General Plan by the year 2025, and this project is a small increment of that development. Since the adoption of the MEIR, there are no major projects proposed in the vicinity of this project which would further exacerbate impacts which have not already been reviewed.
- c) Finally, as set forth in the MEIR, the Coffee-Claratina Specific Plan, the Design Standards for Dual-Use Flood Control/Recreation Facilities and this Initial Study, it is not expected that the project will cause substantial adverse effects on human beings, either directly or indirectly.

XIX. CONCLUSION/DETERMINATIONS OF FINDINGS

Based on substantial evidence provided in the Initial Study, the City of Modesto finds:

- a. The proposed project will have no new additional significant effect on the environment not addressed in the General Plan Master Environmental Impact Report (SCH#92052017), the Coffee-Claratina CPD Specific Plan Mitigated Negative Declaration (SCH#98022079) and the Dual-Use Flood Control/Recreation Facilities Mitigated Negative Declaration (EA/CDD-2000-58).
- b. No new or additional mitigation measures are required for the proposed project.
- c. The proposed project is within the scope of the overall development covered by the General Plan Master Environmental Impact Report (SCH#92052017), the Coffee-Claratina CPD Specific Plan Mitigated Negative Declaration (SCH#98022079) and the Dual-Use Flood Control/Recreation Facilities Mitigated Negative Declaration (EA/CDD-2000-58).
- d. No new environmental document or findings pursuant to section 21081 shall be required by the California Environmental Quality Act (per section 21157.1) for the project.
- e. There are no specific features unique to this proposed project that require project specific mitigation measures. All certified mitigation measures identified in the General Plan Master Environmental Impact Report (SCH#92052017), the Coffee-Claratina CPD Specific Plan Mitigated Negative Declaration (SCH#98022079) and the Dual-Use Flood Control/Recreation Facilities Mitigated Negative Declaration (EA/CDD-2000-58) will apply to this project as appropriate.
- f. This Initial Study EA/PR&N No. 2002-21 provides substantial evidence to support findings "A, E C, D and E" above.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2002-57**

A RESOLUTION APPROVING AN AGREEMENT WITH STANTEC CONSULTING, INC. FOR PROFESSIONAL LANDSCAPE ARCHITECTURAL SERVICES TO PREPARE CONSTRUCTION DOCUMENTS FOR COFFEE CLARATINA NEIGHBORHOOD PARK AND DUAL-USE BASIN AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE CONTRACT.

WHEREAS, the City owns an approximately 8.5-acre neighborhood park and dual-use storm water basin site in the Northeast McHenry Neighborhood, at the northeast corner of Grecian Way and Drakeshire Drive, and

WHEREAS, the Master Plan and Design Development Report for Coffee-Claratina Neighborhood Park and Dual-Use Basin (“project”) were approved by the City Council on January 28, 2003, and

WHEREAS, staff now desires to enter into an agreement to complete the construction documents for the park, and

WHEREAS, Stantec Consulting, Inc., professional landscape architectural firm, has agreed to prepare the construction documents at a cost not to exceed \$94,500, and

WHEREAS, the Safety and Communities Committee met on January 3, 2003, and supported the recommendation to enter into an agreement with Stantec Consulting, Inc. for the preparation of construction documents for Coffee-Claratina Neighborhood Park and Dual-Use Basin,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the agreement with Stantec Consulting, Inc. for the preparation of construction documents for Coffee-Claratina Neighborhood Park and Dual-Use Basin, at a cost not to exceed \$94,500.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of January, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: Fisher

Attest: Jean Zahr

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-58**

**A RESOLUTION ACCEPTING THE FIVE-YEAR PLAN FOR THE MODESTO
CENTRE PLAZA.**

WHEREAS, a Five-Year Plan for the Modesto Centre Plaza was last prepared and adopted in 1997, and

WHEREAS, a new Five-Year Plan has been prepared by Dakota Enterprises, Inc., and

WHEREAS, in order to have a guideline for the operations and budget of the City's community/convention facility, a new Five-Year Plan should be adopted, and

WHEREAS, the Safety and Communities Committee met on January 6, 2003, and supported the recommendation to accept the new Five-Year Plan,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby accepts the Five-Year Plan for the Modesto Centre Plaza.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of January 2003, by Councilmember Conrad, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-59**

**A RESOLUTION AMENDING EXHIBIT "B" OF MODESTO CITY COUNCIL
RESOLUTION NO. 86-1184 TO REVISE RENTAL RATES AT THE MODESTO
CENTRE PLAZA, AND RESCINDING RESOLUTION NO 91-544.**

WHEREAS, on October 14, 1986, the Council, by Resolution No. 86-1184,
approved the Modesto Community Center Policies and Rental rates, and

WHEREAS, on May 22, 1990, the Council, by Resolution No. 90-546, amended
Exhibit "B" of Council Resolution No. 86-1184, and

WHEREAS, on August 26, 1991, the Council, by Resolution No. 91-544,
amended **Exhibit "B"** of Council Resolution No. 86-1184 and rescinded Resolution No.
90-546, and

WHEREAS, a Five Year Plan ("Plan") for operation and management of the
Modesto Centre Plaza ("Centre") was presented to the City Council on January 28, 2003,
and

WHEREAS, this Plan recommends increasing rental rates at the Centre for all
persons to whom a license for Modesto Centre Plaza use is issued after July 1, 2003, and

WHEREAS, the Safety and Communities Committee met on January 6, 2003, and
supported the recommended rental rate increase, and

WHEREAS, said matter was considered at a public hearing by the City Council at
its meeting on January 28, 2003, in the Tenth Street Place Chambers located at 1010 10th
Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that **Exhibit "B"** of Modesto City Council Resolution No. 86-1184 is hereby amended and that the revised rental rates for use of the Modesto Centre Plaza are hereby approved as set forth on **Exhibit "B"** attached hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED that all other provisions of Modesto City Council Resolution No. 86-1184 not in conflict with this resolution shall remain in full force and effect.

BE IT FURTHER RESOLVED that Resolution No. 91-544 adopted on August 27, 1991, is hereby rescinded effective June 30, 2003.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of January 2003, by Councilmember Conrad, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

1. All those that use the Modesto Centre Plaza caterer to provide a full meal will receive a rental discount equal to 10% of their catering cost before taxes and service charges are added.
2. Those holding ticketed events will be charged the listed rental rate of 10% or gross ticket sales, whichever is greater.
3. All events with commercial booths will be charged the listed rental rate or \$.26 per net square foot, whichever is greater.
4. Half-day rates are not available on Friday, Saturday, or Sunday.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-60**

**A RESOLUTION ACCEPTING THE MODESTO CENTRE PLAZA SUBSIDY
RECOMMENDATIONS AS PRESENTED IN THE FIVE-YEAR PLAN.**

WHEREAS, a Five-Year Plan for the Modesto Centre Plaza was last prepared and adopted in 1997, and

WHEREAS, a new Five-Year Plan has been prepared by Dakota Enterprises, Inc., and

WHEREAS, this plan includes a projected operating subsidy from the City's General Fund, and

WHEREAS, the recommended subsidy is shown on "Exhibit A" attached hereto and incorporated herein by reference, and

WHEREAS, the Safety and Communities Committee met on January 6, 2003, and supported the recommendation to accept the subsidy as proposed in the Five-Year Plan,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby accepts the General Fund subsidy as shown on "Exhibit A" and recommended in the Five-Year Plan for the Modesto Centre Plaza.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of January 2003, by Councilmember Conrad, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-61**

A RESOLUTION APPROVING A DEVELOPMENT PLAN FOR PLANNED DEVELOPMENT ZONE, P-D(558) (DAVID A. CERUTTI)

WHEREAS, a verified application for an amendment to Section 27-3-9 of the Zoning Map was filed by David A Cerutti on May 24, 2002, to reclassify from Neighborhood Commercial Zone, C-1, to Planned Development Zone, P-D(558), to allow a car wash in conjunction with an existing convenience store and service station, property located at the southwest corner of N. Santa Cruz Avenue and La Loma Avenue, described as follows:

C-1 to P-D(558)

Beginning at the Northwestern corner of Lot 1, Block 2088 of Coey Tract, as per map thereof, filed April 8, 1946 in Volume 14 of Maps, at Page 48, Stanislaus County Records; thence North 44 degrees 48' 30" East, 14.05 feet, to a line which is parallel with and 10.00 feet, measured at right angles, Northerly from the Northern line of said Lot 1; thence along said parallel line, South 89 degrees 50' East, 109.10 feet to the Northeasterly line of the Coey Tract; thence along said Northeasterly line, South 42 degrees 38' 15", 31.17 feet to the Eastern lot of said Lot 1; thence along said Eastern line South 0 degrees 33' E 137.09' to the Southeastern corner of Lot 3 of the Coey Tract; thence along the Southern line of said Lot 3 North 89 degrees 50' West 140.00 feet to the Southwestern corner of said Lot 3; thence North 0 degrees 33' West, 149.96 feet to the point of beginning.

APN: 108-16-12; 108-16-13

WHEREAS, after a public hearing held on December 16, 2002, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, it was found and determined by the Planning Commission, by its Resolution No. 2002-55, that rezoning of the property as requested is required by public necessity, convenience, and general welfare for the following reasons:

1. The requested planned development zone for a car wash in conjunction with an existing convenience store and service station is located on a minor collector street, and would not result in adverse impacts to the adjacent residential neighborhood(s).
2. The proposed planned development zone, by reason of its site design and conditions of approval, is compatible with existing and potential surrounding development.

WHEREAS, said matter was set for a public hearing of the City Council to be held on January 28, 2003, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which date and time said duly noticed public hearing was held, and

WHEREAS, after said public hearing the Council found and determined that the application of David A. Cerutti for a Planned Development Zone should be granted as consonant with public necessity, convenience and general welfare for the reasons set forth in Planning Commission Resolution No. 2002-55 and quoted above, and

WHEREAS, the Council has introduced Ordinance No. 3279-C.S. on the 28th day of January, 2003, reclassifying the above-described property from Neighborhood Commercial Zone, C-1, to Planned Development Zone, P-D(558).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. DEVELOPMENT PLAN. The development plan for Planned Development Zone, P-D(558), is hereby approved subject to the following conditions:

1. All development shall conform to the site plan and elevations titled "Crystal Clean" as amended in red, stamped approved by the City Council.
2. Fences or walls shall be constructed prior to occupancy and shall be as follows: six-foot-high wood fence with decorative masonry pilasters at 16-

foot on center along the south property line; eight-foot-high masonry wall along the west property lines.

3. Prior to the issuance of a building permit, a landscaping and irrigation plan shall be approved by the Chief Building Official. Screen landscaping shall be installed along the west property lines. Landscaping and the irrigation system shall be installed and maintained in accordance with the approved plan.
4. All landscaping, fences, and walls shall be maintained and the premises shall be kept free of weeds, trash, and other debris.
5. Trash bins shall be kept in enclosures in accordance with the approved plan and in accordance with plans approved by the Operations and Maintenance Department Director. Enclosures shall be constructed of building materials consistent with those used in the major buildings as approved by the Director of Community and Economic Development Department.
6. Prior to the issuance of a building permit, the developer shall submit a plan to provide on-site treatment of stormwater, as approved by the Operations and Maintenance Director. Storm drain improvements shall be constructed in accordance with the approved plans.
7. Existing overhead and underground electric facilities shall be removed, protected, or relocated as required by the Modesto Irrigation District and the Engineering and Transportation Director.
8. Street improvements consistent to Standard Specifications shall be provided prior to the occupancy of any structures or when requested by the Engineering and Transportation Director to alleviate a health, safety, or traffic problem in the area.
9. Prior to issuance of a building permit, improvement plans for required improvements shall be prepared by a Registered Civil Engineer and approved by the Engineering and Transportation Director. Improvements shall be constructed in accordance with the approved plans.
10. Ten-foot public utility easements and four-foot planting easements located within the ten-foot public utility easements shall be dedicated along all street frontages as required by the Engineering and Transportation Director.
11. Prior to issuance of a building permit the developer shall dedicate public utility easements as required by the utility companies and the Engineering and Transportation Director.

12. All signs shall comply with the sign requirements of the C-1 Zone.
13. All outdoor lighting shall be shielded from adjacent residential properties as required by the Engineering and Transportation Director.
14. The car wash and vacuum cleaners shall not be available for use by customers between the hours of 7 p.m. and 7 a.m. In addition, no intercoms, speakers, or amplified sounds are permitted.
15. The developer shall indemnify, defend and hold harmless the City of Modesto, its agents, officers, and employees from any and all claims, actions, or proceedings against the City of Modesto, its agents, officers, and employees to arbitrate, attack, review, set aside, void, or annul, any approval by the City of Modesto of a development approval. The City of Modesto shall promptly notify the developer of any claim, action, or proceeding and shall cooperate fully in the defense. If the City fails to do so, the developer shall not thereafter be responsible to defend, indemnify, or hold City harmless.

SECTION 2. DEVELOPMENT SCHEDULE. The following development schedule is hereby approved for said Planned Development Zone, P-D(558):

The entire construction will be accomplished in one phase, with construction to begin within two years of approval by the City Council, and completion to be not later than three years from this same date.

SECTION 3. CHANGES IN DEVELOPMENT PLAN. Any changes in the above approved development plan shall be made in accordance with the provisions of Section 10-2.1709 of the Modesto Municipal Code.

SECTION 4. COMPLIANCE WITH CODE PROVISIONS, ETC. In all other respects said planned development shall be accomplished in accordance with and in strict adherence to the provisions of Article 17 of Title 10 of the Modesto Municipal Code relating to Planned Development Zones and other applicable City laws, rules, regulations and procedures.

SECTION 5. EFFECTIVE DATE. This resolution shall not become effective unless and until the ordinance reclassifying the above-described property to Planned Development Zone, P-D(558), becomes effective.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of January, 2003, by Councilmember O'Bryant, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-62**

A RESOLUTION FINDING THAT THE FOLLOWING PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (SCH NO. 92052017): AMENDMENT TO SECTION 27-3-9 OF THE ZONING MAP TO REZONE FROM NEIGHBORHOOD COMMERCIAL ZONE, C-1, TO PLANNED DEVELOPMENT ZONE, P-D(558) PROPERTY LOCATED AT THE SOUTHWEST CORNER OF N. SANTA CRUZ AVENUE AND LA LOMA AVENUE (DAVID A. CERUTTI)

WHEREAS, on August 15, 1995, the City Council of the City of Modesto certified the Final Master Environmental Impact Report (“Master EIR”) (SCH No. 92052017) for the Modesto Urban Area General Plan, and

WHEREAS, David A. Cerutti has proposed that the zoning designation for property located at the southwest corner of N. Santa Cruz Avenue and La Loma Avenue, be amended to rezone from Neighborhood Commercial Zone, C-1, to Planned Development Zone, P-D(558), in the City of Modesto (“the project”), to allow a car wash in conjunction with an existing convenience store and service station, and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for a Master EIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the master environmental impact report and whether the subsequent project was described in the master environmental impact report as being within the scope of the project, and

WHEREAS, the City’s Community & Economic Development Department by Environmental Assessment Initial Study EA/C&ED 2002-63 (“Initial Study”) reviewed the proposed amendment to the Zoning Map and rezone to P-D(558) project to determine

whether the project is within the scope of the project covered by the Modesto Urban Area General Plan Master EIR (“Master EIR”), and concluded that the proposed project is within the scope of the Master EIR and will have no additional significant effect on the environment that was not identified in the Master EIR, and further, that no new or additional mitigation measures or alternatives are required, and that, therefore, the proposed project is within the scope of the project covered by the Master EIR, and

WHEREAS, in accordance with CEQA guidelines beginning on January 6, 2003 the City caused to be published a 20-day notice of the City’s intent to make a finding that the proposed project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on January 28, 2003, at 5:30 p.m. in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed amendment to the Zoning Map and rezone from P-D(558) project, a copy of which is attached hereto as **Exhibit “A”**, and incorporated herein by reference, and based on the substantial evidence included in said Initial Study makes the following findings:

1. That the proposed project is contemplated and described in the Master EIR (SCH No. 92052017) as being within the scope of the Master EIR report.
2. That the project will have no new additional significant effects on the environment not identified or examined in the Master EIR, and no new or additional mitigation measures are required.
3. That, as per Section 21157.1 of the Public Resources Code, no new environmental document or findings are required by the California Environmental Quality Act (CEQA).

4. That there are no specific features that are unique to the proposed project that require project specific mitigation measures. Accordingly, the certified mitigation measures identified in the Master EIR will be sufficient for this project.
5. That all feasible mitigation measures set forth in the Master EIR which are appropriate to the project shall be incorporated in the project.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of January, 2003, by Councilmember O'Bryant, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

EXHIBIT A

Initial Study

EA/C&ED 2002-63

City of Modesto
Initial Study

Rezone from C-1 to P-D for Car Wash

EA/CDD 2002-63
November 8, 2002

I. PURPOSE

Section 21157.1 of the Public Resources Code, allows for limited environmental review of subsequent projects under a Master EIR, provided that certain findings are made. The Modesto Urban Area General Plan Master EIR (SCH No. 92052017), adopted August 15, 1995, allows such limited review for projects in the Baseline Developed Area that are consistent with and within the scope of the Master EIR.

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, analyzes whether this project may cause any significant effects on the environment that were not examined in the General Plan Master EIR. This Initial Study also provides documentation that the project is within the scope of the General Plan Master EIR.

II. PROJECT DESCRIPTION

- A. Project title:
Public Hearing - Application of Horizon Consulting Services for General Plan amendment and rezone from R-1 (Neighborhood Commercial Zone) to P-D (Planned Development Zone) to allow an automatic car wash in conjunction with an existing convenience store and gas station, property located at the southwest corner of N. Santa Cruz and La Loam Avenues.
- B. Lead agency name and address:
City of Modesto, P.O. Box 642, Modesto, CA 95353
- C. Contact person, address and phone number:
Brad Wall
City of Modesto Community Development Department
1010 10th Street, Suite 3100
Modesto, CA 95353
(209) 577-5282
- D. Project Location:
Southwest corner of N. Santa Cruz and La Loma Avenues
- E. Project Sponsor:
David A. Cerutti
- F. General Plan Designation:
Commercial (C)
- G. Current Zoning:
Neighborhood Commercial (C-1)

H. Description of Proposed Projects:

This is an application to rezone a 0.9-acre parcel from C-1 (Neighborhood Commercial Zone) to P-D (Planned Development Zone), to allow an automatic car wash in conjunction with an existing convenience store and gas station, property located at the southwest corner of N. Santa Cruz and La Loma Avenues.

I. Surrounding land uses:

Residential land uses exist to the west, north and east of the subject property; a commercial land use exists to the south.

J. Other public agencies whose approval is required:

None

III. ANALYSIS OF CONFORMANCE WITH THE MASTER EIR

There are eighteen subject areas in the Master EIR for the General Plan. Following is an analysis of how this project conforms to the analysis contained within the Master EIR.

A. Traffic and Circulation

The proposed planned development zone to allow an automatic car wash will contribute to increased traffic in the neighborhood. However, the proposed development is consistent with the Traffic and Circulation needs section of the MEIR. Therefore, the Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Traffic and Circulation Needs (pages IV-1-1 through IV-1-38) are still valid.

B. Degradation of Air Quality

The proposed planned development zone to allow an automatic car wash is within the urban developed area of the City of Modesto. This use will not cause additional impacts to air quality beyond those described in the Degradation of Air Quality section of the MEIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Degradation of Air Quality (pages IV-2-1 through IV-2-25) are therefore still valid.

C. Generation of Noise

The proposed planned development zone to allow an automatic car wash is adjacent to and surrounded by urban development. The adjacent developed neighborhood contains a mixture of residential uses. Because of building walls, fencing, structure setbacks, and hours of operation, the Day-Night Average Sound Level (Ldn) for this neighborhood area can be ensured. The applicant has prepared a noise study for the proposed project, which concludes that no significant noise impacts will be generated as a result of the proposed car wash use, nor will the adjacent neighborhood be impacted as a result of this use. It will not create additional significant effects and the Mitigation Measures listed in the MEIR for Generation of Noise (pages IV-3-1 through IV-3-33) are therefore still valid.

D. Loss of Productive Agricultural Land

The proposed planned development zone to allow an automatic car wash is located on property noted as Urban and Built-Up Land as shown on Figure 4-1 in the Loss of Productive Agricultural Land section of the MEIR. Also, the requested planned development zone and resulting professional office development is subject to conditions of approval. Therefore, the Existing Conditions, Impacts Analysis, and Mitigation Measures listed in the MEIR for Loss of Productive Agricultural Land (pages IV-4-1 through IV-4-16) are still valid.

- E. Increased Demand for Water Supplies**
The proposed planned development zone to allow an automatic car wash will require no additional water beyond that identified in the Increased Demand for Water Supplies section of the MEIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Increased Demand for Water Supplies (pages IV-5-1 through IV-5-11) are therefore still valid.
- D. Increased Demand for Sanitary Sewer Services**
The proposed planned development zone to allow an automatic car wash will create no additional demand for sewer capacity not identified in the MEIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Increased Demand for Sanitary Sewer Services (pages IV-6-1 through IV-6-9) are therefore still valid.
- G. Loss of Sensitive Wildlife and Plant Habitat**
The proposed planned development zone to allow an automatic car wash is in a built-up urban area and will not impact sensitive wildlife or any plant habitat above and beyond that which was identified in the Loss of Sensitive Wildlife and Plant Habitat section of the MEIR. The Existing Conditions, Impact Analysis, and Mitigation Measures listed in this section of the MEIR (pages IV-7-1 through IV-7-30) are therefore still valid.
- H. Disturbance of Archaeological and Historic Sites**
Figure 8-1 of the MEIR indicates that the proposed project is not within the Archaeological Resource Study Area, which shows areas that may require additional site-specific investigations. Therefore, the proposed project will not disturb any archaeological or historic sites that have been identified in the Disturbance of Archaeological or Historical Sites section of the MEIR, and the Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Disturbance of Archaeological or Historical Sites (pages IV-8-1 through IV-8-21) are still valid.
- I. Drainage, Flooding and Water Quality**
The proposed planned development zone to allow an automatic car wash will not present any new impacts that have not already been addressed in the MEIR. The mitigation measures will reduce the impacts of increased runoff within the baseline developed area to a less than significant level. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for the Drainage, Flooding, and Water Quality (pages IV-9-1 through IV-9-23) are therefore still valid.
- J. Increased Demand for Storm Drainage**
The proposed planned development zone to allow an automatic car wash is consistent with the General Plan in land use and intensity, and will provide the necessary infrastructure to provide for adequate storm drainage. The mitigation measures contained in the Master EIR will not reduce the impacts of increased runoff within the baseline developed area to a less than significant level. In adopting the Master EIR, the City Council adopted a finding of overriding findings for this impact. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for the Increased Demand for Storm Drainage (pages IV-10-1 through IV-10-8) are therefore still valid.
- K. Increased Demand for Parks and Open Space**
The proposed planned development zone to allow an automatic car wash will not have an effect upon the parks or open space needs in the area. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for the Increased Demand for Parks and Open Space (pages IV-11-1 through IV-11-11) are therefore still valid.

L. Increased Demand for Schools

The MEIR concluded that demand for schools would be mitigated by collection of fees by the affected school districts. Since this project would be required to pay these fees, as applicable, the Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for the Increased Demand for Schools (pages IV-12-1 through IV-12-11) are still valid.

M. Increased Demand for Police Services

The proposed planned development zone to allow an automatic car wash will have a less than significant impact upon the need for additional police services to this area. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for the Increased Demand for Police Services (pages IV-13-1 through IV-13-8) are therefore still valid.

N. Increased Demand for Fire Services

The proposed planned development zone to allow an automatic car wash will have a less than significant impact upon the need for additional fire services to this area. Fire Station Number 1 is located approximately 1.5 miles away, in downtown Modesto. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for the Increased Demand for Fire Services (pages IV-14-1 through IV-14-9) are therefore still valid.

O. Generation of Solid Waste

The proposed planned development zone to allow an automatic car wash will not cause the generation of solid waste beyond that which is identified in the MEIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for the Generation of Solid Waste (pages IV-15-1 through IV-15-10), are therefore still valid.

P. Generation of Hazardous Materials

The proposed project will not result in additional hazardous materials generated beyond those identified in the MEIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for the Generation of Hazardous Materials (pages IV-16-1 through IV-16-15) are therefore still valid.

Q. Landslides and Seismic Activity

The proposed project will result in no additional potential for exposing people to landslides or earthquake related hazards such as liquefaction beyond those identified in the MEIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for the Landslides and Seismic Activity (pages IV-17-1 through IV-17-11) are therefore still valid.

R. Energy

The proposed planned development zone to allow an automatic car wash will result in less than significant additional demands for energy, as identified in the MEIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Energy (pages IV-18-1 through IV-18-6) are therefore still valid. Mitigation measures identified for air quality and traffic would also help to mitigate energy impacts.

IV. CONCLUSIONS / DETERMINATIONS OF FINDINGS

- A. The proposed planned development zone to allow an automatic car wash in conjunction with an existing convenience store and gas station is within the scope of the General Plan Master EIR (SCH No. 92052017), which analyzed the potential impacts of buildout of the Baseline Development Area.
- B. No additional significant environmental effects will occur as a result of the proposed planned development zone that were not previously examined in the General Plan Master EIR.
- C. No new mitigation measures or alternatives will be required as a result of the proposed planned development zone that were not previously considered in the General Plan Master EIR.
- D. There are no specific features unique to this proposed planned development zone that require specific mitigation measures. All certified mitigation measures identified in the General Plan Master EIR will apply Citywide, including this project as appropriate.
- E. This Initial Study provides substantial evidence to support findings A, B, C, and D above.

Associate Planner

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003 - 63**

**A RESOLUTION URGING THE CALIFORNIA LEGISLATURE TO REJECT
THE GOVERNOR'S PROPOSED SHIFT OF LOCAL VLF REVENUES AND TO
HONOR THE 1998 COMMITMENT TO RESTORE THE VLF**

WHEREAS, prior to 1935, cities and counties collected property taxes on motor vehicles to fund essential local public health and safety services; and

WHEREAS, in 1935, the Legislature first enacted the Vehicle License Fee (VLF) Act, replacing the property tax on vehicles with a 1.75 percent fee charged against the value of the motor vehicle; and

WHEREAS, in 1948, the rate of the VLF was increased to 2 percent of the value of the vehicle; and

WHEREAS, in 1986, the voters voted overwhelmingly to constitutionally dedicate the proceeds of the VLF to fund city and county services; and

WHEREAS, in 1998, a period of strong economic growth, the Legislature approved the use of a portion of the rapidly growing state General Fund to reduce the VLF payments of vehicle owners. This amount, known as the "offset", grew in future years to a 67.5 percent offset against the amount owed. The amount paid to local governments in lieu of the reduced VLF payment is shown as the "VLF backfill"; and

WHEREAS, the 1998 legislation and subsequent enactments contain clear provisions that when insufficient funds are available to be transferred from the General Fund to fully fund the offsets and backfill amount that the VLF offset shall be reduced and VLF payments increased; and

WHEREAS, VLF and backfill revenues constitute 15 to 25 percent of typical city and county general purpose revenues. On average, more than 60 percent of city general fund spending and more than half of county general funds go to front line law enforcement, fire, emergency medical services, and health care programs; and

WHEREAS, revenues derived from the VLF and backfill are of critical importance in funding vital local public health and safety services; and

WHEREAS, any failure by the Legislature to maintain the VLF backfill or restore the VLF will cause widespread disruption in local government services essential to the well-being of California citizens and their cities and counties; and

WHEREAS, Governor Davis' proposal to divert \$4 billion in local VLF backfill payments over the next 17 months fails to honor the 1998 commitment and is a direct assault on local services that will be felt by every California resident; and

WHEREAS, shifting \$4.2 billion in locally controlled revenues for local services is neither equitable nor fair. No state program or department has been asked to shoulder such a disproportionate share of the budget pain. These cuts come on top of the nearly \$5 billion each year that is transferred from local services to fund state obligations.

NOW, THEREFORE, BE IT RESOLVED BY THE CITY COUNCIL OF THE CITY OF MODESTO, CALIFORNIA, that if the state General Fund can no longer afford the expense of part or all of the VLF "backfill" that the Legislature and Governor of California are hereby respectfully urged to implement the provisions of current law providing for the reduction of the VLF offset in bad economic times and to restore the VLF in an amount necessary to reduce the VLF backfill; and

BE IT FURTHER RESOLVED, that the City Council of the City of Modesto hereby expresses its profound appreciation to the legislators who support such VLF restoration legislation.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of January, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following votes:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-66**

A RESOLUTION AMENDING THE WRITTEN POLICY REGARDING THE USE OF ENVIRONMENTAL ASSESSMENTS IN THE ACQUISITION OF REAL PROPERTY BY THE CITY OF MODESTO, AND RESCINDING RESOLUTION NO. 2002-533.

WHEREAS, on November 6, 2002, by Resolution No. 2002-533, the City Council of the City of Modesto adopted a written policy regarding the use of environmental assessments in the acquisition of real property, and

WHEREAS, written policy is set forth in Council Resolution 2002-533, and

WHEREAS, City staff is recommending amending the written policy regarding the use of environmental assessments in the acquisition of real property to provide an exemption in the acquisition of real property for the purpose of right of way improvements such as, but not limited to, street improvements, utility line installations, and landscaping, and

WHEREAS, the Council Economic Development Committee met on January 13, 2003, and recommended an amendment of the policy, and

WHEREAS, the City Council desires to amend said written policy regarding the use of environmental assessments in the acquisition of real property to allow for said exemption.

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Modesto that it hereby amends the written City policy regarding the use of environmental assessments in the acquisition of real property by the City of Modesto as follows:

1. A Phase I Assessment shall be conducted on all real estate acquisitions.
2. A Phase I Assessment shall be conducted by an accredited environmental firm, chosen through a City selection process.
3. All contracts shall be administered by City staff.

4. A Phase II Assessment shall be conducted based on results of the Phase I Assessment and consultation with the contracted environmental firm. A Phase II Assessment shall be required if any indication or concern is raised in the Phase I Assessment.
5. Written approval/authorization of the decision regarding the completion of a Phase II Assessment shall be required by the Project Manager, Planning Division staff, and the Department Director.
6. The Council Agenda Bluesheet and Council Staff Report format for reporting Environmental Review shall continue to be used as part of this policy.
7. Acquisition of residential property may be exempt from this policy upon approval of the Department Director.
8. Acquisition of real property for the purpose of right of way such as, but not limited to, street improvements, utility line installations, and landscaping, may be exempt from this policy upon the approval of the Department Director.

BE IT FURTHER RESOLVED that Resolution No. 2002-533 is hereby rescinded.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of February, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-67**

A RESOLUTION AUTHORIZING STAFF TO PROCEED WITH A REQUEST FOR QUALIFICATIONS AND REQUEST FOR PROPOSALS FOR A WASTEWATER MASTER PLAN UPDATE OF THE CITY OF MODESTO'S WASTEWATER SYSTEM AND APPROVING THE PROPOSED EVALUATION CRITERIA FOR THE WASTEWATER MASTER PLAN UPDATE

WHEREAS, the City of Modesto's sewer flows have increased as a result of the population growth experienced over the last few years, and

WHEREAS, due to the City's expansion, the City's Wastewater Treatment Plant and collection system are experiencing capacity constraints, and

WHEREAS, the last Wastewater Master Plan was completed in 1995 and the report's findings are becoming out of date, and

WHEREAS, in order to continue to provide quality wastewater service for all current needs and for future economic growth, and before any major improvements can be made to the wastewater system, an updated wastewater master plan is necessary to determine current and future capacity constraints and identify improvements to correct these constraints, and

WHEREAS, City desires to proceed with a consultant selection process for the WWMP Update to include a Request for Qualifications and a Request for Proposals for said project, and

WHEREAS, City staff has proposed evaluation criteria to be included in the Request for Qualifications and the Request for Proposals, and

WHEREAS, Attachment A and Attachment B of the Director of Engineering and Transportation's February 4, 2003, agenda report to Council contains the recommended evaluation criteria to be used in selecting a firm to perform the Wastewater Master Plan Update, and

WHEREAS, this study is a capital improvement project within the wastewater program (CIP Account #6210-480-Q229) for a total amount of \$400,000 over fiscal years 2002/03 and 2003/04, and

WHEREAS, the Economic Development Committee met on January 13, 2003, and recommended proceeding with the consultant selection process,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes City staff to proceed with a Request for Qualifications and a Request for Proposals for a Wastewater Master Plan Update of the of the City of Modesto's Wastewater System.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the evaluation criteria contained in the aforementioned report is hereby approved.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of February, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-68**

A RESOLUTION APPROVING THE TIMELINE FOR CITIZEN PARTICIPATION CALENDAR OF EVENTS FOR 2003-2004 HUD ANNUAL ACTION PLAN AND PUBLIC SERVICE GRANTS, AND FOR ESTIMATED AMOUNTS FOR THE PUBLIC SERVICE GRANTS.

WHEREAS, Federal Housing and Urban Development (HUD) regulations require the City of Modesto to have a Citizens Participation Plan which contains the City's procedures for community participation in the development of the Annual Action Plan and the use of Community Development Block Grant (CDBG), HOME Investment Partnership Grant (HOME) and Emergency Shelter Grant (ESG) funds, and

WHEREAS, by Resolution No. 97-696, on December 9, 1997, the City Council adopted and last amended its Citizen Participation Plan, a copy of which is available for review at the Recreation and Neighborhood Services Division office at Tenth Street Place, and

WHEREAS, the proposed calendar for citizen participation includes Public Service grant applications for CDBG as well as ESG proposals, and

WHEREAS, the proposed allocation of Public Service grants includes \$150,000 to be designated to the Modesto Police Department for the operation of the Crime Free Multi Housing Project, and

WHEREAS, the proposed estimated RFP amounts for Public Service grants are \$250,000 in CDBG funds and \$88,000 in ESG funds, and

WHEREAS, at its January 24, 2003, meeting, the Citizens Housing and Community Development Committee considered and supported staff recommendations for the timeline for the Citizens Participation Calendar of Events for 2003-2004 HUD

Annual Action Plan and Public Service grants, and for the estimated RFP amounts for Public Service grants,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the timeline for Citizens Participation Calendar of Events for 2003-2004 HUD Annual Action Plan and Public Service grants, and for the estimated RFP amounts for Public Service grants, a copy of which is attached hereto as Exhibit "A" and incorporated herein by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of February, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-69**

A RESOLUTION APPROVING AN INITIAL APPLICATION TO THE HOUSING AND URBAN DEVELOPMENT DEPARTMENT (HUD) FOR A \$4.5 MILLION SECTION 108 LOAN GUARANTEE TO FINANCE THE CONSTRUCTION OF THE NEIGHBORHOOD CENTER AT MARSHALL PARK AND THE RENOVATION AND EXPANSION OF MADDUX YOUTH CENTER, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE INITIAL APPLICATION.

WHEREAS, the Section 108 Loan Guarantee is a loan guarantee from Federal Housing and Urban Development Department (HUD) that allows an entitlement recipient to borrow up to five times the amount of their annual entitlement to fund Community Development Block Grant (CDBG) activities, and

WHEREAS, the City would borrow against a \$4.5 million Section 108 Loan Guarantee, of which \$3.1 million is for the construction of a joint service facility in Marshall Park, which would house a fire station, a police sub-station and a recreation office/ facility, and \$1.4 million is for the renovation and expansion of the Maddux Youth Center, and

WHEREAS, the total cost of the two projects would be \$5.6 million, and

WHEREAS, the loan guarantee can be used for any CDBG eligible activity, and these two proposed projects are both located in the low-income census tracts and will benefit low- and moderate-income persons, and

WHEREAS, the City would pay quarterly interest due on the amount borrowed, with the interest rate on the interim financing being adjustable, and based on the London Interbank Offered Rate (LIBOR) plus a mark up of 20 basis points, and

WHEREAS, the maximum term is 20 years, and loans cannot be prepaid during the first ten years of the amortization period; principal is paid once a year and the interest is due on August 1 and February 1, and

WHEREAS, the City of Modesto is proposing a 20-year amortization period on the permanent financing, and

WHEREAS, HUD requires that the City use its future CDBG entitlement as collateral, as well as other collateral which in the City's situation would be Marshall Park, Cesar Chavez Park (the location of the Maddux Youth Center), the buildings and all improvements,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves an initial application to be submitted to the Federal Housing and Urban Development Department (HUD) for a \$4.5 million Section 108 Loan Guarantee to finance the construction of the Neighborhood Center at Marshall Park and the renovation and expansion of Maddux Youth Center, a copy of which is attached hereto as **Exhibit "A"** and incorporated herein by reference.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the initial application.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of February, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

**CITY OF MODESETO
INITIAL APPLICATION FOR SECTION 108
LOAN GUARANTEE**

1. Project Description

The City of Modesto is requesting \$4.5 million in Section 108 Loan Guarantee funds to finance 1) \$3.1 million for the construction of the Neighborhood Center at Marshall Park, a joint service facility for police, fire and recreational services, and 2) \$1.4 million for the renovation expansion of the Maddux Youth Center. These projects will provide safety services, as well as family and youth services to a low-income area located in the western sector of Modesto.

2. Sources of Funding and Uses

Neighborhood Center at Marshall Park

Costs

	\$	<u>2,297,800</u>

**Total
Construction Costs: \$ 5,642,300**

**Total Section 108
Loan Guarantee: \$ 4,500,000**

3. Project Structure and Participants

Both existing park sites are owned by the City and any improvements and construction in the park will be owned by the City. The Marshall Park land and improvements is currently valued by the City at \$2.9 million and the Cesar Chavez parkland and improvements, including the current Maddux Youth Center, has a value of \$6.2 million. The estimated value after completion of the two projects is over \$14 million. If the Section 108 Loan Guarantee is approved, the funds will be used for the construction and as permanent financing.

a. Neighborhood Center at Marshall Park

The joint service facility will provide citizens the opportunity to interact with City employees in their own neighborhood. They will be able to meet with police and fire staff, conduct city business such as paying water or sewer bill, enroll a child in a recreation program, or just ask questions concerning City programs and policies. This facility will be built in the open space in one of the City's existing parks, Marshall Park, located at Sutter and Chicago Avenues.

The existing fire station located in the area was built in 1923 and is outdated and there is no room for expansion. The community police sub-station is in an existing strip mall and could easily be combined with the fire staff. The new facility would be an 8,500 square foot fire station with three truck bays and a 4,075 square foot police and recreation area. There would be an office that would staff personnel from all three departments, as well as a fitness room, community meeting room, restroom, and a small kitchenette.

Since March, WLC Architects has been working on the schematic design, preparation of design development documents, plans, specifications and the cost estimate for the new joint use facility. WLC has been meeting with staff and community groups to insure that the design is the best fit for the community, the needs of City staff, and for the existing appearance of the park. Upon completion of the design documents, a Request for Proposal process will be used for the selection of a contractor to build the new joint facility. This should be accomplished by August 2003. Construction could begin in October 2003 and completion twelve months later.

b. Maddux Youth Center

The Maddux Youth Center was built in 1952 and is located in the existing Cesar Chavez Park. The center houses a gym, a weight room, and offices for staff. This building is in sore need of renovation and expansion to meet the needs of today's youth.

A 2,500 square foot addition to the south side of the building would be utilized for a computer lab, additional restrooms, and a multi-purpose room. A 3,500 square foot addition to the northeast side of the building would accommodate the activities of the Police Activities League (PAL) youth boxing program. Renovation to the existing

9,451 square foot structure would include a new roof with skylights, a new air handling system, replacement of interior and exterior doors, enclosure of existing windows, and abatement of the asbestos in the flooring, and installation of new flooring in the facility, excluding the gym.

RRM Design Group has been working on the design development and construction documents since August 2001. RRM has hosted two public meetings on the design to facilitate community input. Following the final design, the City will seek Request for Proposals for the construction of the project. It is estimated that the contractor will be selected by August 2003, with construction to begin in February 2004 and completion twelve months later.

4. Repayment Schedule

The estimated payment plan is as follows: (calculated at 2% for the interim financing in years 2003 and 2004, calculated at 5% for the amortized 20-year loan).

Total Payment is approximately **\$361,000** per year (adjusted for requirement that payments be rounded to nearest thousand for principal amount).

Payment Date	Beginning Balance	Interest	Principal	Ending Balance	Annual Payment
2004	4,000,000	80,000	0	4,000,000	80,000
2005	4,500,000	225,000	136,000	4,364,000	361,000
2006	4,364,000	218,200	143,000	4,221,000	361,200
2007	4,221,000	211,050	150,000	4,071,000	361,050
2008	4,071,000	203,550	158,000	3,913,000	361,550
2009	3,913,000	195,650	165,000	3,748,000	360,650
2010	3,748,000	187,400	174,000	3,574,000	361,400
2011	3,574,000	178,700	182,000	3,392,000	360,700
2012	3,392,000	169,600	192,000	3,200,000	361,600
2013	3,200,000	160,000	201,000	2,999,000	361,000
2014	2,999,000	149,950	211,000	2,788,000	360,950
2015	2,788,000	139,400	222,000	2,566,000	361,400
2016	2,566,000	128,300	233,000	2,333,000	361,300
2017	2,333,000	116,650	244,000	2,089,000	360,650
2018	2,089,000	104,450	257,000	1,832,000	361,450
2019	1,832,000	91,600	269,000	1,563,000	360,600
2020	1,563,000	78,150	283,000	1,280,000	361,150
2021	1,280,000	64,000	297,000	983,000	361,000
2022	983,000	49,150	312,000	671,000	361,150
2023	671,000	33,550	328,000	343,000	361,550
2024	343,000	17,150	343,000	0	360,150
	Total Paid	\$2,701,500	\$4,500.00		

5. Collateral

The City of Modesto proposes to pay the Section 108 Loan Guarantee with funds from the annual CDBG entitlement. The City will also pledge the parks and the two buildings, the proposed Neighborhood Center at Marshall Park and the improved Maddux Youth Center, as collateral for the loan. A Deed of Trust in favor of HUD will be recorded against the land and buildings.

6. Time Tables and Stages

The construction for both projects should begin by late 2003 or early 2004 and be completed by the end of 2004. During the construction phase, initial advances will be taken from the Section 108 Loan Guarantee to pay the construction costs. Interest due on the initial advances will be paid through the adjustable rate interim financing. It is hoped that the project will be almost fully funded at the time of the annual public offering in 2004, if the public offering is in the later half of the year. The City will participate in the public offering and convert the existing Section 108 Loan Guarantee into fixed rate financing for a 20-year term.

7. Eligible Activity

a. Neighborhood Center at Marshall Park

The project is eligible under 24 CFR 570.201(c), Construction of Public Facilities. The facility will be a city-owned, neighborhood-based, multi-department service center, consisting of a fire station, police station, and recreation office, with the specific intent to serve a limited service area on the west side of Modesto.

b. Maddux Youth Center

The project is eligible under 24 CFR 570.201(c), Construction and Rehabilitation of Public Facilities. The existing Maddux Youth Center is a city-owned, neighborhood-based, youth recreation center. This project will substantially rehabilitate and renovate the youth center.

8. National Objective

a. Neighborhood Center at Marshall Park

The project will meet a national objective under 24 CFR 570.208(a)(1)(I), Activities benefiting low- and moderate-income persons, area benefit activities. At least 51% of the residents who reside in the service areas of the neighborhood fire/police/recreation office are low/moderate income persons.

b. Maddux Youth Center

The project will meet a national objective under 24 CFR 570.208(a)(1)(I), Activities benefiting low- and moderate-income persons, area benefit activities. At least 51% of the residents who reside in the service area of the recreation center are low-moderate income.

9. Public Benefit Standards

a. Neighborhood Center at Marshall Park

- The total amount of CDBG funds (e.g. Section 108 funds and any other CDBG-related funds) to be used in the project: \$3,344,500
- The total number of low- and moderate-income persons living within the project's service area:
 - Fire Department Service Area: 11,010 low/moderate-income persons out of a total population of 17,904 persons
 - Police Department Service Area: 12,653 low/moderate-income persons out of a total population of 23,079 persons
 - Recreation Department Service Area: 12,653 low/moderate-income persons out of a total population of 23,079 persons

b. Maddux Youth Center

- The total amount of CDBG funds (e.g. Section 108 Loan Guarantee funds and other CDBG-related funds) to be used in the project: \$1,623,800.
- The total number of low- and moderate-income persons living within the proposed project service area: 13,922 low/moderate-income persons out of a total population of 25,025 persons.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-70**

A RESOLUTION AUTHORIZING THE MODESTO CITY FIRE DEPARTMENT TO PARTICIPATE IN AN ADVANCED LIFE SUPPORT (ALS) ENGINE PILOT PROGRAM, AND AUTHORIZING THE CITY MANAGER TO EXECUTE ALL NECESSARY CONTRACTS AND AGREEMENTS.

WHEREAS, on June 25, 2002, the City Council approved funding for the development of a Modesto Fire Department – Advanced Life Support (ALS) Pilot Program, and

WHEREAS, the development of the program and labor agreements are completed, and

WHEREAS, the training and licensing of the Fire Department ALS pilot personnel will be completed in February, 2003, and

WHEREAS, implementation of the program requires contractual agreements between the City of Modesto and Mountain-Valley Emergency Medical Services Agency, the governing Emergency Medical Services Authority for the County of Stanislaus, and

WHEREAS, on October 1, 2000, the Safety and Communities Committee approved “in-concept” the Pilot Advanced Life Support first responder program within the Modesto Fire Department, and

WHEREAS, on October 2, 2002, the Safety and Communities Committee received an update on the progress of the ALS pilot program to date,

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that the Fire Department is hereby authorized to implement an Advanced Life Support Engine Pilot Program on or about the 1st day of March, 2003.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the City's acceptance of all contracts, agreements and documents necessary regarding the aforementioned program.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of February, 2003, by Council member Fisher, who moved its adoption, which motion being duly seconded by Council member Frohman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-71**

A RESOLUTION GRANTING AN APPEAL OF THE CURRENT APPLICATION OF CAPITAL FACILITIES FEE (CFF) EXEMPTIONS FOR BUILDINGS DEMOLISHED AT 339 PARADISE ROAD, AND PROVIDING A CFF CREDIT EXEMPTION FOR BUILDINGS DEMOLISHED AT 339 PARADISE ROAD, 1333 N. CARPENTER ROAD, 801 OAKDALE ROAD, AND 2020 W. BRIGGSMORE AVENUE.

WHEREAS, an appeal was requested to grant the application of a CFF credit for buildings demolished at 339 Paradise Road, and

WHEREAS, City staff is aware of additional properties located at 1333 N. Carpenter Road, 801 Oakdale Road, and 2020 W. Briggsmore Avenue, where buildings were previously demolished, and the property owners have relied on an expectation that they will receive a CFF credit for the demolished buildings, and

WHEREAS, the City's past policies granted a CFF credit for reconstructed buildings on sites that demolished the existing buildings, and

WHEREAS, the developers of the four projects at the locations stated above have relied on the past policy of granting-receiving CFF credits for reconstructed buildings on sites that demolished the existing buildings, in determining the feasibility of their projects, and

WHEREAS, the Economic Development Committee met on January 13, 2003, and recommended that the appeal be granted, and that CFF credits be provided for buildings demolished at 339 Paradise Road, 1333 N. Carpenter Road, 801 Oakdale Road, and 2020 W. Briggsmore Avenue,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the appeal of the current application for a CFF credit for buildings demolished at 339 Paradise Road, 1333 N. Carpenter Road, 801 Oakdale Road, and 2020 W. Briggsmore Avenue is hereby granted.

BE IT FURTHER RESOLVED that staff be directed to allow an exception to the current application of CFF exemptions for the projects listed above.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of February, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO
FORMALLY SOLICIT REQUEST FOR BIDS FOR THE PRINTING OF THE
MONTHLY UTILITY BILL INSERT, FOR A THREE (3) YEAR AGREEMENT
WITH TWO (2) ONE-YEAR EXTENSION OPTIONS.**

WHEREAS, the City of Modesto has provided the citizen's of Modesto a utility bill insert with the monthly billing statement since 1987, and

WHEREAS, the utility bill insert provides the City an economical means of reaching all households and businesses with important City information, and

WHEREAS, the utility bill insert has proven to be a most cost effective means of keeping the public informed about the City, resulting in improved customer understanding of City issues, and

WHEREAS, the anticipated annual cost for the ongoing monthly printing of the utility bill insert is approximately \$38,520.00, and

WHEREAS, Modesto Municipal Code, Section MMC 8-3.203, generally requires all purchases, which meet or exceed \$50,000.00 for material, equipment or contractual services to be formally bid, and

WHEREAS, by soliciting competitive bids for the monthly printing of the utility bill insert the Finance Department Purchasing Division will comply with Modesto City Code Section MMC 8-3.203 regarding formal bid procedures.

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. The City Clerk is hereby authorized to call for public competitive sealed bids for the monthly printing of the utility bill insert, for a three (3) year agreement with two (2) one-year extension options, to be opened in the office of the City Clerk, 1010 Tenth Street, in the City of Modesto. The City Clerk shall be directed to give notice inviting such sealed bids in the time, form, and manner provided by law.

SECTION 2. After the sealed bids are opened, they shall be tabulated and analyzed and a report submitted to Council.

RESOLUTION NO. 2003-72**

A RESOLUTION APPROVING AN AMENDED AIRCRAFT T-HANGAR AND TIE-DOWN LEASE AGREEMENT AT THE MODESTO CITY-COUNTY AIRPORT, REVISING THE AMOUNT A TENANT WOULD PAY FOR AN AIRCRAFT HANGAR AT THE TIME THE LEASE BECOMES EFFECTIVE, AND CHANGING THE NUMBER OF DAYS NOTICE EITHER THE CITY OR LESSEE WOULD BE REQUIRED TO GIVE BEFORE LEASE TERMINATION

WHEREAS, the City of Modesto leases small aircraft storage hangars at Modesto City-County Airport, and

WHEREAS, the City occasionally has a vacancy that requires a unit be rented to a different individual, and

WHEREAS, previous tenants often do not provide adequate notice of termination of their leases, causing a delay in renting the hangar to a new tenant, resulting in lost revenue for the City, and

WHEREAS, the Airport Advisory Committee requested public input at their meeting on November 20, 2002, and received no comments, and voted to support changing the Airport's Aircraft T-Hangar and Tie-down Lease Agreement to add a requirement of payment of first and last months' rent at the time a lease is entered, and a 30-day notice of termination in order to eliminate the loss of revenue, and

WHEREAS, the Council's Economic Development Committee considered the airport's amended lease agreement at their January 13, 2003, meeting, and recommended approval of the amended lease agreement,

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Modesto that it hereby approves the City's Amended Aircraft T-Hangar and Tie-down Lease Agreement with the recommended changes, as shown in **Exhibit A** attached.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of February 2003, by Councilmember Fisher who moved for its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote.

AYES: Councilmember: Conrad, Fisher, Frohman, Jackman, Keating
O'Bryant, Mayor Sabatino

LEASE AGREEMENT
(T-Hangar or Tie-Down Spaces)

This Lease Agreement, made and entered into in the City of Modesto, County of Stanislaus, State of California, as of this ____ day of the Month of _____, 20____, by and between the CITY OF MODESTO, a municipal corporation of the State of California, hereinafter called CITY, and _____ hereinafter called LESSEE.

WITNESSETH:

That for and in consideration of the covenants, conditions, agreements, and stipulations hereinafter expressed, CITY does hereby demise and lease unto LESSEE, and LESSEE hereby hires from CITY, those certain premises situated at the Modesto City-County Airport in the City of Modesto, County of Stanislaus, State of California, known as «PropertyName», on a month-to-month tenancy commencing on the ____ day of the Month of _____ 20____, at the rate established from time to time by Resolution of the City Council payable monthly in advance commencing on the ____ day of Month of _____, 20____, to the City of Modesto, and mail in c/o Modesto City-County Airport, 617 Airport Way, Modesto, California 95354. **In addition, for the right to lease a City owned hangar the LESSEE agrees to pay an additional month's rent, which the CITY agrees to use for rent charges assessed at the time notice of termination when given by either party to the lease.**

In addition thereto the parties hereby mutually agree as follows:

1. **USE:** That said premises shall not be used by the LESSEE during the term of this lease for other than storage of aircraft purposes except with the written consent of the CITY.
2. **REGULATIONS:** LESSEE acknowledges receipt of a copy of the Modesto Municipal Code Airport Regulations and agrees to abide by the Code as written. A copy of the regulations herein referred to is attached hereto, marked Exhibit "A" and made a part hereof as though set forth in full herein.
3. **ASSIGNMENT:** LESSEE shall not assign this lease nor any right hereunder, nor sublet the premises, nor any part thereof, nor suffer any other person to occupy or use the said premises or any portion thereof. In the event of a breach of this condition, CITY shall have the power to immediately declare this lease agreement terminated and will thereupon be entitled to take immediate possession of the premises.
4. **INSURANCE:** CITY will keep the premises insured against fire and other insurable risks covered within its blanket policy, provided, however, that LESSEE waives the right to claim damages from CITY for any damage resulting to any personal property in or upon the premises in the event damage results from fire or any other cause. LESSEE agrees to provide insurance

in the amounts set forth in Sections 7-3.108 and 7-3.108.1 of the Modesto Municipal Code, and to file a certificate evidencing such coverage in the Office of the City Clerk of the City of Modesto. Should the LESSEE fail to provide the City with an insurance certificate as required by sections 7-3.108 and 7-3.108.1 of the Modesto Municipal Code, the Airport Manager will have the right to padlock the aircraft until a current insurance certificate is provided to the City as evidence of insurance coverage naming the City of Modesto as additional insured.

5. INDEMNIFICATION: LESSEE agrees to indemnify and hold CITY harmless from and against all liabilities or injuries to persons or damage to property caused by LESSEE'S use of, occupancy of, or operation of the demised premises, unless caused by negligence on the part of the City.

6. RIGHT OF ENTRY UPON PREMISES: CITY and its agents and employees shall have the right to enter upon said premises at all reasonable times to inspect the same to determine if LESSEE is performing the covenants of this lease on his part to be performed and to post such reasonable notices as CITY may desire to protect its rights.

7. DEFAULT: If LESSEE makes default in the performance of any of the covenants here of, CITY at any time thereafter, without notice or demand, may lawfully declare said term ended and re-enter the said premises with or without process of law. The waiver of any breach of any covenant by CITY herein shall not constitute a waiver of any other breach regardless of CITY'S knowledge thereof.

8. TERMINATION: It is agreed between the parties hereto that this lease may be terminated by either party hereto upon giving ~~ten (10)~~ **thirty (30)** days written notice to the other party. The Airport Manager is authorized to terminate this lease on behalf of the CITY.

9. FAILURE TO VACATE: LESSEE agrees to vacate said premises within **thirty (30)** days after receipt of notice to do so from CITY, and failing to vacate as herein provided, agrees that CITY, or its authorized agents, may enter upon said property and remove all personal property therefrom and in this event, **LESSEE agrees to pay reasonable charges if CITY is required to remove personal property, and** waives any and all claims for damages against CITY, its agents or employees. Nothing herein shall be deemed a waiver of any rights of CITY to demand and obtain possession of said premises in accordance with law in the event of a violation of LESSEE'S part of any of the terms or conditions hereof.

10. COMMERCIAL OPERATIONS: LESSEE acknowledges that a permit must be granted by the Modesto City Council as a prerequisite to LESSEE'S conducting commercial operations out of the leased premises, and that without such permit, aircraft stored upon the leased premises shall not be leased or hired by LESSEE by any person or entities for compensation.

11. TIME OF ESSENCE, BINDING UPON HEIRS, ETC.: Time is of the essence of each and all the terms and provisions of this lease, and the terms and provisions of this lease shall extend to and be binding upon and insure to the benefit of the heirs, executors, administrators, successors, and assigns of the respective parties hereto.

12. POSSESSORY INTEREST: LESSEE recognizes and understands that this lease may create a possessory interest subject to property taxation and that the LESSEE may be subject to the payment of property taxes levied on such interest.

IN WITNESS THEREOF, the City of Modesto, a municipal corporation, has authorized the execution of this lease agreement in duplicate by its Airport Manager under authority of Resolution No. 70-205, adopted by the Council of the City of Modesto on the ____day of the Month of _____, 20____ and LESSEE has caused this lease agreement to be executed.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-73**

A RESOLUTION APPROVING THE FINAL MAP AND ACCEPTING PUBLIC IMPROVEMENTS IN THE OLYMPIC PARK NO. 4 SUBDIVISION OF THE CITY OF MODESTO AND AUTHORIZING THE CITY MANAGER TO EXECUTE A SUBDIVISION AGREEMENT WITH WARREN SMITH LAWSON FAMILY, INC., A CALIFORNIA CORPORATION

WHEREAS, WARREN SMITH LAWSON FAMILY, INC., a California Corporation, is possessed of a tract of land situated in the City of Modesto, County of Stanislaus, consisting of 10.08 acres, known as the OLYMPIC PARK NO. 4 (“SUBDIVISION”), in the Village One Specific Plan Area, and

WHEREAS, a tentative map of said tract was approved by the Planning Commission of the City of Modesto on the 2nd day of October, 2000, and

WHEREAS, the Secretary of the Planning Commission of the City of Modesto has certified that the final map of said tract substantially conforms to the approved tentative map, and

WHEREAS, the City Engineer of the City of Modesto has certified that the final map of said SUBDIVISION meets all of the provisions of the California Subdivision Map Act and the provisions of the Modesto Municipal Code relating to subdivisions, and that the map is technically correct, and

WHEREAS, the Engineering and Transportation Director has certified that all public improvements required by the City of Modesto have been completed in said tract to the satisfaction of the Engineering and Transportation Director,

WHEREAS, the subdivider has posted a warranty security in an amount equal to the estimated cost of the public improvements, as determined by the City Engineer, to guarantee and warranty the public improvements for a period of one year after acceptance, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that:

1. The final map is hereby approved.

2. The dedications for streets, alleys and easements as shown thereon within the boundaries of said tract are hereby accepted on behalf of the public for public use.
3. The improvements completed in Olympic Park No. 4 Subdivision are hereby accepted.
4. The City Clerk is hereby authorized to certify the map of said tract on behalf of the City of Modesto, and to file a Notice of Completion on behalf of the City of Modesto after the fees and deposits required by the Modesto Municipal Code in amounts determined by the City Engineer have been paid.
5. The City Manager and the City Clerk are hereby authorized to execute and attest, respectively, an agreement with subdivider as required by Section 4-4.604(c) of the Municipal Code.
6. The City Clerk is further authorized to release the warranty security to guarantee improvements in the amount of \$41,000.00 one year and one day after the effective date of this resolution, provided no claim is made thereon.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of February, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Jackman, Keating, O'Bryant,
Mayor Sabatino

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-74**

A RESOLUTION APPROVING THE FINAL MAP AND ACCEPTING PUBLIC IMPROVEMENTS IN THE OLYMPIC PARK NO. 5 SUBDIVISION OF THE CITY OF MODESTO AND AUTHORIZING THE CITY MANAGER TO EXECUTE A SUBDIVISION AGREEMENT WITH WARREN SMITH LAWSON FAMILY, INC., A CALIFORNIA CORPORATION

WHEREAS, WARREN SMITH LAWSON FAMILY, INC., a California Corporation, is possessed of a tract of land situated in the City of Modesto, County of Stanislaus, consisting of 3.08 acres, known as the OLYMPIC PARK NO. 5 (“SUBDIVISION”), in the Village One Specific Plan Area, and

WHEREAS, a tentative map of said tract was approved by the Planning Commission of the City of Modesto on the 25th day of February, 2002, and

WHEREAS, the Secretary of the Planning Commission of the City of Modesto has certified that the final map of said tract substantially conforms to the approved tentative map, and

WHEREAS, the City Engineer of the City of Modesto has certified that the final map of said SUBDIVISION meets all of the provisions of the California Subdivision Map Act and the provisions of the Modesto Municipal Code relating to subdivisions, and that the map is technically correct, and

WHEREAS, the Engineering and Transportation Director has certified that all public improvements required by the City of Modesto have been completed in said tract to the satisfaction of the Engineering and Transportation Director,

WHEREAS, the subdivider has posted a warranty security in an amount equal to the estimated cost of the public improvements, as determined by the City Engineer, to guarantee and warranty the public improvements for a period of one year after acceptance, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that:

1. The final map is hereby approved.
2. The dedications for streets, alleys and easements as shown thereon within the boundaries of said tract are hereby accepted on behalf of the public for public use.
3. The improvements completed in Olympic Park No. 5 Subdivision are hereby accepted.

4. The City Clerk is hereby authorized to certify the map of said tract on behalf of the City of Modesto, and to file a Notice of Completion on behalf of the City of Modesto after the fees and deposits required by the Modesto Municipal Code in amounts determined by the City Engineer have been paid.
5. The City Manager and the City Clerk are hereby authorized to execute and attest, respectively, an agreement with subdivider as required by Section 4-4.604(c) of the Municipal Code.
6. The City Clerk is further authorized to release the warranty security to guarantee improvements one year and one day after the effective date of this resolution, provided no claim is made thereon.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of February, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-75**

**A RESOLUTION AMENDING THE POLICIES AND PROCEDURES FOR
ACCESSMODESTO**

WHEREAS, on the 26th day of November, 2002, by Resolution No. 2002-590, the City Council established Policies and Procedures for the operation of AccessModesto, and

WHEREAS the City Council now desires to amend the Policies and Procedures, and

WHEREAS, the City Council has determined broadcasting hours of programming containing indecent material shall be restricted to the hours between 1:00 a.m.-4:00 a.m., and

WHEREAS, the City Council has determined that amended Indemnification and new public content surveys are required, and

WHEREAS, the City Council has determined the number of playbacks on the Public Access channel are limited to two (2) per week with a maximum cap of three (3), depending on availability, and

WHEREAS, the City Council has determined the City retains the right to preempt any programming for all City-related news conferences, and

WHEREAS, Exhibit A, attached hereto, contains the violation and appeal process and amended Policies and Procedures as determined by City Council, and

WHEREAS, the City Council has determined to appoint members to the Local Cable Programming Committee and consider said appointees as Board of Director members upon establishment of 501 (c)(3), and

WHEREAS, the City Council has determined the Local Cable Programming Committee shall hear appeals and apply penalties, as approved and determined by Council, to said violators of the Policy and Procedures, and

WHEREAS, City Council has determined Channel 27 is hereby revised to broadcast Public Access and Education programming with a priority on Educational programming, and

WHEREAS, the amendments to the Policies and Procedures have been reviewed and recommended for approval by the Safety and Communities Committee,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the amendments to the AccessModesto Policy and Procedures, a copy of which is attached hereto as **Exhibit "A"**.

EXHIBIT

A

Operating Policies & Procedures

I. INTRODUCTION

The City of Modesto regulates the local cable television franchise agreement, which allows the cable company to use public rights of way for their cables and wiring. Within this franchise agreement, provisions are made for Public-Education-Government (PEG) access channels.

These Operating Policies and Procedures set out the rules that govern the operation of the City of Modesto Master Control Room and AccessModesto Community TV (AMCTV) channels.

These Operating Policies and Procedures will evolve with the growth and development of AccessModesto Community TV, and the experiences of those who use the channels and Master Control Room facility. AccessModesto Community TV reserves the right to modify this document at any time.

A. PEG

In the City of Modesto, Channels 2, 8 and 27 on the AT&T Broadband cable system have been set aside for use by members of the public, community organizations, educational institutions, and governmental agencies as the city's community access channels. AccessModesto Community TV aims to be the nexus that provides the public with the facilities and equipment needed to produce television programs to be shown over these local community channels.

B. Public Access

Public Access means TV for you, by you, and about you. This is television made by you free of censorship (to the extent allowed by law) and free of commercials. Public access allows for varying degrees of an individual's participation. One can participate in Public Access easily by bringing in a previously taped show or by putting a message on the Video Bulletin Board. Future plans include a more hands on approach that will allow citizens to

participate in production workshops, check out equipment, and produce their own television shows.

C. Education & Government Access

The channels are also used to deliver programming produced by educational institutions, as well as agencies of local and state government. This programming is referred to as education and government access and includes coverage of City Council and County Board of Supervisor meetings, information on City and County services, credit and noncredit courses delivered to the home, and special events. Section VI describes how AccessModesto Community TV will schedule this mix of programs in a way that ensures a good balance of programs.

D. Contact Information

The City of Modesto Communications & Marketing Division manages the city's AccessModesto Community TV program with assistance from the city's Local Cable Citizen Advisory Committee. Future plans are to implement an independent, nonprofit corporation to oversee the policies and procedures of AccessModesto Community TV, to enhance the diversity of thought, culture, and heritage within the City of Modesto and Stanislaus County, and to be a communication resource among all the communities in Stanislaus County.

Scheduling/Programming

Master Control Room Fax (209) 525-5113

Video Bulletin Board Announcements

<http://www.modesto.tv>

email: info@modesto.tv

E. Drop-off

Video tapes prepared for airing on the AccessModesto Community TV channels may be:

- Dropped off at the City Manager's Office, 1010 Tenth Street, Suite 6100, Modesto, California between the hours of Monday through Friday, 8 am – 5 pm.
- Mailed to AccessModesto Community TV, P.O. Box 642, Modesto, CA 95353, or
- Placed in the drop-box located at the Stanislaus County Office of Education South Door.

A presenter must submit a signed Content Program Survey form with each program. Since a tape must be entered into the AccessModesto Community TV tape database, labeled, and scheduled, an airdate cannot be given at the time of submission. Airdates will be available approximately three business days after a tape has been submitted. Producers submitting episodes of an approved series must deliver the tape and Program Content Survey to AccessModesto Community TV at least seven days prior to their time slot to allow for scheduling, unless other arrangements are agreed upon with the Programming Manager.

Our Purpose

Assisting residents and organizations to communicate ideas and exchange information through the medium of community access television.

To accomplish this, we will work toward the following goals:

- Advocate the use and benefits of community access television
- Encourage the cablecasting of non-commercial programs directly related to the community of Modesto and/or Stanislaus County
- Encourage the creation of programs aimed at preserving, developing, and enhancing the diversity of thought, culture, and heritage within Modesto and/or Stanislaus County
- Facilitate lifelong learning and community participation in the democratic process
- Serve as a local information exchange
- Develop cooperative partnerships with Public, Education, and Government individuals and groups to help further the goals of community access
- Monitor and incorporate, to the extent funding is available, the use of emerging technologies that will benefit community access users
- Maintain those cable channels dedicated to public use in a manner that is free of censorship and control of program content, except as necessary to comply with State or Federal law
- Attempt to provide equitable access to community channels by developing and utilizing rules and policies

AccessModesto Community TV programming is broadcast on Channels 2, 8, and 27 on the AT&T Broadband cable system and is available to all AT&T cable residents in the City of Modesto as part of their basic cable television service.

I. MASTER CONTROL ROOM FACILITY

The City of Modesto Master Control Room is located in the basement of the Stanislaus County Office of Education, 1100 H Street, Modesto, California 95354.

Currently, the AccessModesto Community TV does not offer production/studio facilities for public access. It is the intent of the City of Modesto to determine the feasibility of providing a Public Access studio. Until then, each producer is responsible for identifying a location for the production of his or her program.

Additionally, producers are fully responsible for signing and obtaining all necessary forms and releases involved in their production. This includes talent releases and music rights. The City of Modesto and AccessModesto Community TV have no legal liability for clearances that have not been obtained.

Regular Hours of Operation

- A. Monday through Friday 10 am – 7 pm for Master Control Room Operation
- B. Monday through Saturday as needed for Education/Government programming
- C. Saturday and Sunday – Open only for Master Control Room Operation

Technical staff is available on-call 24 hours per day and 365 days per year to oversee the use of the facility and provide technical management as needed. The facility staff will answer any technical questions regarding the equipment. However, it is not the responsibility of staff to serve as crew on any community productions.

II. PRODUCERS' RESPONSIBILITIES

1. Application Forms

Forms must be completed for each show that is produced for AccessModesto Community TV. The forms provide details about the production and serves as a working production tool for both the producer and Master Control Room staff.

- a. Application for Access Channel Cablecast
- b. Statement of Compliance
- c. Indemnification
- d. Duplication Process Policy
- e. Program/Technical Requirements
- f. Program Content Survey

2. Tape Duplication

AccessModesto Community TV recommends that access producers keep possession of their SVHS edit master and submit a good quality SVHS dub for cablecasting which AccessModesto Community TV will keep. The AccessModesto Community TV is not responsible for damage to the air tape, under the Statement of Compliance form, which is completed for cablecasting.

3. Dubbing Charges

If producers wish to retain their edit master, they may request that one SVHS tape be dubbed in the Master Control Room to submit for cablecasting at no charge. Producers may also request one VHS tape be dubbed of their public access program in the Master Control Room at no charge. Producers must provide tape stock. Staff will duplicate tapes based on the availability of the equipment. Dubs for cablecasting have

priority over VHS dubs. Additional dubs will be copied by staff for a fee of \$10 per tape including the cost of the tape stock.

III. SERVICES PROVIDED

A. Video Bulletin Board

A separate bulletin board appears on each of the Public Access-Education-Government channels in between taped or live programming.

Eligible users may submit messages and announcements to the Video Bulletin Board. Eligible users include bona fide nonprofit agencies, educational, and governmental organizations.

Public Access producers may submit a brief description of their own program with air times for display on the Public Access Bulletin Board.

Messages may be typed or printed on an AccessModesto Community TV Bulletin Board Form. Messages may be no longer than 100 words, however press release of approximately the same length will be accepted. The information should be submitted 10 days in advance of requested airdate. Cost: Free. Pick up a Bulletin Board Form in the City of Modesto City Manager's Office, online at www.modesto.tv or request one be faxed or mailed to you by calling 525-5104.

IV. PROGRAMMING GUIDELINES

A. Program Content Policy

AccessModesto Community TV has designed its policies and facility to encourage the broadest possible usage of the cable television community channels, to celebrate the diversity of the community, and to strengthen the sense of community in the City of Modesto and Stanislaus County.

AccessModesto Community TV is committed to being the vehicle for non-commercial programming made by individuals and groups in the City of Modesto. As such, it is the producer or presenter of the program who accepts responsibility for the content, not AccessModesto Community TV. AccessModesto Community TV will exercise no control over program content, except that legally, community access programming must not contain:

1. Obscene or indecent matter as defined by the First Amendment to the U.S. Constitution and any applicable case law in the 1992 FCC guidelines.
2. Materials that contain other speech not protected by the Constitution: i.e., speech, which directly results in violence, 'fighting words,' and incitement to riot.
3. The direct or indirect presentation of lottery or other information as prohibited by State Law.
4. Political endorsements outside of politically sanctioned debates and/or political advertising material.
5. Advertising material that promotes the sale of commercial products or services or motivates a viewer to contact guests or businesses for additional information. For example: A program with a guest from a business or organization cannot contain a slate that states "For more information call or contact:..." Also, no phone number of a commercial business can be provided to the viewer.

6. The telephone number of certified non-profit organizations may be included as a service to the public. A non-profit may be required to provide documentation of its non-profit status.

7. The direct solicitation of funds or donations for any and all purposes is prohibited. Bona fide nonprofit agencies may appeal for volunteers or publicize fundraising events.

8. Material which constitutes libel, slander, invasion of privacy, or publicity rights, unfair competition, violation of trademark or copyright, or which might violate any local, state, or federal law.

B. Copyright and other Clearances

Users presenting a tape-recorded or live program for cablecast must state in writing that they have made all appropriate arrangements to obtain all rights to materials to be cablecast.

Users shall obtain in writing, the consent of all persons and parental permission for all minors appearing in programs submitted for cablecasting. Sample Talent Release Forms are available online at www.modesto.tv.

C. Minors Submitting Programs

A parent or legal guardian must sign the Cablecast Agreement for each program submitted by a minor. Staff may request copies of all clearances and releases before airing a program.

D. Acknowledgements and Disclaimers

The presenter of a program must be clearly identified on a slate appearing at the beginning and end of each program. The slate must include the presenter's name and address. A phone number is optional. The slate provides the viewer with contact information in case of questions or concerns. (A presenter is a Modesto resident or organization who signs the cablecast

agreement form and submits a show for airing. Presenters are legally responsible for the content of a show. The presenter may or may not be the producer of the program.)

E. Viewer's Discretion

Presenters are required to notify staff if their program contains matter inappropriate for children, or issues of a particularly sensitive nature for which viewer's discretion is advised. An announcement must be included at the beginning of a program to indicate that portions of the upcoming program may contain such materials. Presenters are requested to work with AccessModesto Community TV staff to appropriately schedule programs of this nature between the hours of 1:00 and 4:00 a.m.

F. Ownership

The presenter of any program submitted for cablecasting on any of the AccessModesto Community TV channels retains copyright ownership of the program. AccessModesto Community TV reserves the right to retain a copy of the program for later cablecasting on the community channel or for other non-commercial, promotional purpose.

G. Distribution Rights

The producer/presenter retains the rights of distribution for all programs aired on AccessModesto Community TV channels.

H. Underwriting and Sponsorship

Public Access producers are permitted to seek underwriting and sponsorship for their productions, as long as the support is in direct relation to the cost of program production. Free use of access facilities is not intended for the financial gain or employment of the producer. The producer may give on-air

credit to the person or organization that has given financial or in-kind support for the production or promotion of a program using the following guidelines:

- Length: A credit of up to 30 seconds is given per every 30 minutes of programming. For instance, a half hour show (30 minutes) would receive a 30-second slot for crediting sponsors and an hour show (60 minutes) would get one- minute (60 seconds) of time for sponsor acknowledgement.
- Placement: Credits may be placed at the beginning, middle, and/or end of a show. The credit may be split into any time increment.

However, the total amount of sponsorship credit may not exceed the amount determined by the length of the program. For instance, if you have one sponsor for a 30-minute show, they can use all 30 seconds of the time allotted for sponsorship. However, if you have 2 sponsors for a half hour (30-minute) show, the total amount of sponsorship credit time may not exceed 30 seconds. One sponsor may have 20 seconds, but then the other sponsor can only have 10 seconds.

- Contents: A credit may contain:
 - The Company/Person's Name
 - The Company Logo
 - The Company/Person's Address and/or Phone Number
 - A web site address
 - A qualifying line – A five word description of the business type that can describe the service or product provided by the company.

A credit MAY NOT contain

- A video or photograph of a product
- A description of services

- A slogan – A slogan is defined by AccessModesto Community TV as a copyrighted catch phrase associated with a company that is used for marketing purposes and established to assist that business in making a profit
- Phone number of a commercial venture or person
- A promotion of any form for the purchase or use of alcoholic or tobacco products

I. Non-commercial

Companies can sponsor shows:

- Which cover local, public community events relating to their product or service.

Companies cannot sponsor shows:

- About themselves
- Showing their product or service exclusively

V. Programming Publicity

A. Program Schedule

Specific requests for airtimes will be met when possible. Generally, program cablecast requests submitted to AccessModesto Community TV four (4) weeks prior to the requested airdate will be listed in the TV listings aired on the Public-Education-Government Bulletin Board. The schedule will also appear on the AccessModesto Community TV website (www.modesto.tv) which is updated weekly.

B. Producer's Promotion

Presenters are encouraged to promote and otherwise encourage viewership for their programs. Presenters can submit program description forms, which will be faxed by the AccessModesto Community TV staff to media outlets.

C. Cable Guide

The Cable Guide is aired daily on Channel 28. Programming on the AccessModesto Community TV channels will be submitted each week for this daily listing service.

VI. Program Scheduling Policies

AccessModesto Community TV's scheduling policies are designed to:

- Provide equitable allocation of available channel time, as determined by our Operating Policies and Procedures
- Give residents, education institution and government agencies of the City of Modesto and Stanislaus County priority in the allocation of airtime on the community access channels.
- Encourage viewership of the community channels
- Maximize opportunities for program promotion

A. General Scheduling

The channels will be scheduled in blocks of time dedicated to Public, Education, and Government programming. The Public Access block is divided into general categories to show a mix of different types of programming throughout the week.

a. Priority: To establish priority, the following will be considered:

- Time-dated programs
- Locally-produced programming
- Programs that have not been previously shown on the community channel
- Programs produced by new producers

B. Review

All program schedules are subject to review by the programming staff. No individual may reserve a specific time slot, except with an approved series. The programming schedule appears on the website at www.modesto.tv.

C. Series

Series seasons run quarterly for 12 weeks. There is a one-week break between seasons. Series applications are available to producers in the City Manager's Office, 1010 Tenth Street, Suite 6100; online at www.modesto.tv; or may be requested by fax or mail by calling 525-5104. The awarding of series time slots will be at the discretion of City of Modesto Local Cable Citizen Advisory Committee. Priority will be given to live series and new series programs.

D. New Users and Time Dated Programs

Staff reserves several time slots each week to accommodate programs created by new eligible users and / or time dated programs.

E. Repeats

AccessModesto Community TV reserve the right to repeat the same show within each programming block period. The number of playback times is limited to two (2) per week for all programs, with a maximum playback of three (3) times per week if scheduling allows. This excludes any contractual agreements the City may have with presenters.

F. Sensitive Programs

Programs, which contain material that may be inappropriate for children or deal with issues of a particularly sensitive nature, will be cablecast in accordance with FCC guidelines. It is the program presenter's responsibility to notify AccessModesto Community TV staff in advance if their program is of a sensitive nature. A Program Content Survey must be completed for each submission. The presenter is encouraged to work with AccessModesto Community TV staff to discuss special scheduling, disclaimers, and any other programming issues that may arise from cablecasting sensitive material.

G. Program Submission

A presenter must submit a signed Cablecast Agreement prior to submitting any programming. A Program Content Survey form must be submitted with each program. Programs submitted without the Program Content Survey will not be aired. Since a tape must be entered into the AccessModesto Community TV tape database, labeled, and scheduled, an airdate cannot be given at the time of submission. Airdates will be available approximately three business days after a tape has been submitted. Producers submitting episodes of an approved series must deliver the tape and Program Content Survey to AccessModesto Community TV at least seven days prior to their time slot to allow for scheduling, unless other arrangements are agreed upon with the Programming Manager.

H. Re-submittal of regular programs and series programs

Regular programs will air for up to two years. Upon a program's expiration, AccessModesto Community TV will act according to the instructions provided by the presenter on the cablecast agreement form. Re-submittals will be considered on a case-by-case basis. Series programs can be resubmitted for up to two more airdates. These additional airdates will be at the discretion of the programming department and will be subordinate to regular submittals and first-time series programs.

I. Failure to Submit Tape

In the case of a series, producers who fail to submit tapes on schedule will risk the loss of their time slots. Staff reserves the right to cancel the series if the producer fails to provide a new show within the agreed upon time frame.

J. Cancellation, Pre-emption and Rescheduling

Staff reserves the right to pre-empt the regular schedule as necessary to accommodate date sensitive programs, technical difficulties, education and/or

government related news conferences, or emergency announcements or programming. Staff shall make every effort to reschedule pre-empted programs at the earliest available time slot.

K. Program Length

The recommended length for programming on Access Modesto Cable TV is 28:30 minutes for a half hour show and 58:30 minutes for an hour show. These lengths allow time in-between programs for public service announcements (PSAs), stations identifications, and the interactive bulletin board. PSAs and station ID's are available at AccessModesto Community TV for producers to tag onto their programs.

L. Exceeding Time Slot

The community channels run several hours in the evenings and weekend by computer automation with a limited amount of VCR's for program playback. AccessModesto Community TV reserves the right to cut series programming which exceeds its scheduled time slot, unless prior arrangements are made. For example, a half-hour series program should not exceed 30:00 minutes, even by half a second. This could cause the program credits to be cut short, or the next program to start late. Series producers must submit a properly timed program in order to help maintain the schedule and create the best possible appearance of the community channels.

VII. Technical Issues

A. Tape Formats

Acceptable tape formats for cablecasting include DVD, Mini-DV, and DV Cam, SVHS, VHS.

B. Technical Standards

Tape-recorded programs must have technical standards high enough to deliver a clear and unbroken picture to cable subscribers. The audio must be clearly understandable and at audible levels without distortion. Tapes should be recorded in standard play speed (SP). Tapes recorded in extended play (EP) will not be accepted.

C. Technical Information

- a. There must be at least 30 and no more than 90 seconds of black at the head of the tape. Tapes will not be accepted with more than 90 seconds of black before the program. Color bars are not necessary.
- b. The black section must be followed by the Viewers Discretion Advisory, if required. The beginning of this Advisory is the beginning of the program.
- c. An identification slate, which includes the name and address of the presenter of the program, must then be displayed for at least 10 seconds. A phone number is optional.
- d. The program audio and video should begin within 3 seconds of the end of the presenter's slate.
- e. Program credits should appear at the end of the program. Credits should include the name of each crewmember

(unless anonymity is requested), and allowable credit to the underwriters/sponsors of the show.

- f. Repeat the presenter's slate. The end of this page is the end of the show.
- g. The end of the show must be followed by 30 seconds of black.

D. Label Information

The following information must be legibly included on labels affixed to both the videocassette and videocassette box. If the information is not on the label or is unreadable, the tape will not air.

- a. Presenter's name, local address, and phone number
- b. Program Title
- c. Exact length of programs (minutes, seconds, and frames timed from the first frame of the beginning title page to the last frame the end title page)
- d. Date (month and year) you are submitting the program

V. INFRACTIONS AND APPEALS PROCESS

A. Violations

Violations of AccessModesto Community TV's programming policies and rules, or breaches of the Statement of Compliance may subject the offender to immediate forfeiture of the privilege of using the channel, facilities, and services. The City Manager, according to the severity and frequency of the infractions, will determine the duration of the forfeiture. Violations of AccessModesto Community TV's Operating Policies and Procedures will be documented in writing in the user's file. Violators of the AccessModesto Community TV Policies and Procedures will face the following penalties:

- First Violation: Loss of privileges for six (6) months
- Second and Repeat Violations: Loss of privileges for one (1) year and a possible fine.

B. Appeals Process

If staff imposes sanctions on a user or refuses to cablecast a user's program, the user may appeal to the Local Cable Citizen Advisory Committee for a hearing. The following steps shall be followed for appeals:

1. User first meets with the AccessModesto Community TV Manager to discuss his/her concern.
2. If the user feels his/her concern has not been resolved, the user must present a written report to the Local Cable Citizen Advisory Committee, which will review and make recommendations to the Modesto City Council. If a quorum of the Local Cable Citizen Advisory Committee is not available, appeals will be taken directly to the Modesto City Council for review.

3. The Modesto City Council may request a public hearing with the user, or may direct the AccessModesto Community TV Manager to respond to the report.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-76**

**A RESOLUTION ESTABLISHING LITTER REMOVAL AND LANDSCAPE
MAINTENANCE FEES ASSOCIATED WITH THE "DON'T TRASH
MODESTO" CAMPAIGN**

WHEREAS, in 2001, the City embarked upon a campaign to reduce litter and improve the image of our community, and

WHEREAS, the bulk of the City's image enhancement efforts has been accomplished largely through private donations of funds, materials and labor, and

WHEREAS, since 1994, the City has used Neighborhood Environmental Action Teams [NEAT] to channel beautification volunteers, and

WHEREAS, the format of the NEAT program originally involved only donated labor and no paid sponsorships, and

WHEREAS, the "Don't Trash Modesto" Campaign provides opportunities for paid sponsorships as well as donated labor as part of the NEAT program, and

WHEREAS, City staff is recommending that NEAT program volunteers can either perform the work of litter removal and landscape maintenance themselves or pay others to perform the work as arranged by city staff, and

WHEREAS, the proposed litter removal and landscape maintenance fees for volunteers wishing to pay others are one hundred dollars (\$100.00) per mile to Adopt a Right of Way, fifteen dollars (\$15.00) per mile to Adopt a Trail, and forty cents (\$.40) per square foot to Adopt a Planter, and negotiated on a case by case basis to Adopt a Park, and

WHEREAS, the proposed fees are based upon current contract costs and reflect the actual cost of performing beautification and litter removal services, and

WHEREAS, the proposed fees would help offset the costs for the Honor Farm Deputy and inmates that perform litter removal, and

WHEREAS, the Economic Development Committee recommended approval by the City Council at its January 13, 2003, meeting, and

WHEREAS, by an agenda report dated January 23, 2003, from the Operations and Maintenance Director, city staff recommended to the City Council that litter

removal and landscape maintenance fees associated with the "Don't Trash Modesto" campaign be established, a copy of said report is on file in the City Clerk's office, and

WHEREAS, said matter was set for a duly noticed public hearing of the City Council to be held at 5:30 p.m. on February 11, 2003, in the Tenth Street Place Chambers located at 1010 10th Street, Modesto, California, for the purpose of receiving public comment on the proposed fees.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the litter removal and landscape fees associated with the "Don't Trash Modesto" Campaign as follows:

<u>NEAT Zone</u>	<u>Monthly Fee</u>
Adopt a Right of Way	\$100 per mile for litter removal
Adopt a Trail	\$ 15 per mile for litter removal
Adopt a Park	negotiated by park and activity
Adopt a Planter	\$.40 sq ft. for landscape maintenance contract

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of February, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2003-77**

**A RESOLUTION ESTABLISHING PASSENGER FARES FOR MODESTO
AREA EXPRESS (MAX) BART EXPRESS AND ACE EXPRESS COMMUTER
ROUTES AND RESCINDING RESOLUTION NO. 2000-639.**

WHEREAS, the City of Modesto provides commuter services on Modesto Area Express (MAX) to connect Modesto with the Dublin/Pleasanton BART station (MAX BART Express) and the Manteca/Lathrop Altamont Commuter Express (ACE) train station (MAX ACE Express), and

WHEREAS, due to increasing costs of operation City staff is recommending increasing fares for the BART Express and ACE Express routes, and

WHEREAS, the Economic Development Committee met on January 13, 2003, and supported the recommendation of City staff, and

WHEREAS, by an agenda report to the City Council dated January 15, 2003, from the Engineering and Transportation Director, City staff recommended to the Council accepting staff's recommendation of increasing fares for the BART Express and ACE Express routes, and

WHEREAS, a duly noticed public hearing was held by the Council on February 11, 2003, in the Tenth Street Place Chambers, located at 1010 Tenth Street, Modesto, California, at which public hearing all interested persons were given an opportunity to be heard relative to the proposal to increase fares on the BART Express and ACE Express routes,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the following fares are hereby established for passengers riding on the MAX BART Express operating between Modesto and the Dublin/Pleasanton BART station:

- | | | |
|----|---------------------|----------|
| 1. | One-fourth Month | \$29.00 |
| 2. | One-half Month | \$55.00 |
| 3. | Three-fourths Month | \$83.00 |
| 4. | Full Month | \$106.00 |

- | | | |
|----|------------|---------|
| 5. | One-way | \$9.00 |
| 6. | Round-trip | \$11.00 |

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the following fares are hereby established for passengers riding on the MAX ACE Express operating between Modesto and the Manteca/Lathrop ACE Train station:

- | | | |
|----|--|---------|
| 1. | One-Way Trip | \$2.00 |
| 2. | 20-Ride Ticket (\$1.50 per one-way trip) | \$30.00 |

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the above fees shall go into effect on and after May 1, 2003.

BE IT FURTHER RESOLVED that Resolution No. 2000-639, adopted by the City Council on December 12, 2000, is hereby rescinded effective April 30, 2003.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of February, 2003, by Councilmember Conrad, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

**A RESOLUTION DIRECTING STAFF TO PURCHASE TWO BUSES FOR THE
MODESTO AREA EXPRESS (MAX) BART EXPRESS AND ACE EXPRESS
COMMUTER ROUTES.**

WHEREAS, the City of Modesto provides commuter services on Modesto Area Express (MAX) to connect Modesto with the Dublin/Pleasanton BART station (MAX BART Express) and the Manteca/Lathrop Altamont Commuter Express (ACE) train station (MAX ACE Express), and

WHEREAS, City staff is recommending the purchase of two buses to improve service quality and provide a spare bus for said routes, and

WHEREAS, the Economic Development Committee met on January 13, 2003, and supported the recommendation of City staff, and

WHEREAS, by an agenda report to the City Council dated January 15, 2003, from the Engineering and Transportation Director, City staff recommended to the Council accepting staff's recommendation of purchasing two additional buses to operate on the MAX BART Express and MAX ACE Express routes, and

WHEREAS, the estimated cost of the two buses is \$770,000, and

WHEREAS, the cost of the buses will be funded with a combination of federal (83% of total cost) and Local Transportation Fund (17% of total cost) dollars.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that staff is hereby directed to include in the fiscal year 2003-04 budget funds for the purchase of two buses to be used on the MAX BART Express and MAX ACE Express routes.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of February, 2003, by Councilmember Conrad, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2003-79**

A RESOLUTION DIRECTING STAFF TO PROMOTE THE MODESTO AREA EXPRESS (MAX) BART EXPRESS AND ACE EXPRESS COMMUTER ROUTES.

WHEREAS, the City of Modesto provides commuter services on Modesto Area Express (MAX) to connect Modesto with the Dublin/Pleasanton BART station (MAX BART Express) and the Manteca/Lathrop Altamont Commuter Express (ACE) train station (MAX ACE Express), and

WHEREAS, City staff is recommending that these two routes be promoted to increase ridership, reduce traffic congestion, and improve air quality, and

WHEREAS, the Economic Development Committee met on January 13, 2003, and supported the recommendation of City staff, and

WHEREAS, by an agenda report to the City Council dated January 15, 2003, from the Engineering and Transportation Director, City staff recommended to the Council accepting staff's recommendation to promote the MAX BART Express and MAX ACE Express routes, and

WHEREAS, a more comprehensive promotional program will alert consumers to the potential for commuting to the Bay Area using public transportation and is likely to increase fare revenue.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that staff is hereby directed to promote the MAX ACE Express and MAX BART Express routes.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-80**

A RESOLUTION AMENDING RESOLUTION NO. 2000-250 ENTITLED "A RESOLUTION APPROVING A MULTI-YEAR MEMORANDUM OF UNDERSTANDING BETWEEN THE CITY OF MODESTO AND THE MODESTO POLICE MANAGEMENT ASSOCIATION, EFFECTIVE JUNE 20, 2000" TO PROVIDE INCREASED PAYMENT OF HEALTH, DENTAL AND VISION BENEFITS FOR EMPLOYEES WITH FAMILY COVERAGE AND INCREASED PAYMENT OF RETIREMENT BENEFITS TO EMPLOYEES REPRESENTED BY MODESTO POLICE MANAGEMENT ASSOCIATION (MPMA).

WHEREAS, the City of Modesto (hereafter referred to as "CITY") and Modesto Police Management Association (hereafter referred to as "MPMA") entered into a Memorandum of Understanding on May 23, 2000, covering the term of June 20, 2000, through June 27, 2005, which provides authorized increases in CITY'S contribution toward Health, Dental and Vision premiums of \$30 effective August 2003, and \$30 effective August 2004, and which provides that the CITY shall make no contribution toward employee's 9% Retirement contribution effective July 29, 2003, and

WHEREAS, representatives of CITY and the MPMA have met and discussed the issue of CITY contribution toward Health, Dental and Vision premiums for employees with Family coverage and have agreed to amend the current MPMA MOU to include additional increases totaling \$215/month to be phased-in over a 16 month period, and

WHEREAS, representatives of the CITY and MPMA have met and discussed the issue of the CITY'S contribution toward retirement and have agreed to amend the current MPMA MOU to provide for increasing the CITY'S payment of the employee's contribution to the Public Employees' Retirement System to 7.5%,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Amendment to the Memorandum of Understanding between

the City of Modesto and the Modesto Police Management Association effective February 11, 2003, to increase the CITY'S contribution to Family Health, Dental and Vision to \$556.76/month effective March 25, 2003, to \$656.76/month effective August 1, 2003, and to \$731.76/month effective August 1, 2004,

BE IT FURTHER RESOLVED by the Council of the City of Modesto that it hereby approves that the CITY shall pay 4% of the Employee's 9% Retirement contribution, effective March 25, 2003, and CITY shall pay 7.5% of the Employee's 9% contribution effective March 9, 2004. Effective March 25, 2003, CITY paid employee contributions shall be reported to the Public Employees' Retirement System as compensation. CITY and MPMA further agree to cost sharing, effective July 1, 2004, for increases in the Normal Cost of Retirement in excess of 18.3%.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of February, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-81A**

Jun 26 2003
RESCINDED BY MODESTO
CITY COUNCIL
RESOLUTION
2003-350

A RESOLUTION AMENDING SECTION 8 OF RESOLUTION NO. 2002-307 ENTITLED "A RESOLUTION GRANTING SALARY AND BENEFIT CHANGES TO MANAGEMENT AND CONFIDENTIAL EMPLOYEES, INCLUDING CHARTER OFFICERS, AMENDING THE CLASS RANGE TABLE FOR POLICE CAPTAIN (EXHIBIT 'G') TO PROVIDE A 2.5% EQUITY ADJUSTMENT EFFECTIVE JUNE 18, 2002, AND RESCINDING RESOLUTION NO. 2001-270" TO PROVIDE INCREASED CONTRIBUTIONS FOR HEALTH BENEFITS FOR UNREPRESENTED SWORN FIRE MANAGEMENT AND UNREPRESENTED SWORN POLICE MANAGEMENT EMPLOYEES.

WHEREAS, by Resolution No. 2002-307, effective June 18, 2002, City granted salary and benefit increases to unrepresented Management and Confidential employees, and

WHEREAS, CITY desires to amend those benefits as they relate to health contributions for unrepresented Sworn Fire Management employees and unrepresented Sworn Police Management employees to increase the CITY'S contribution toward Health, Dental and Vision premiums for said employees with Family coverage, and

WHEREAS, CITY previously authorized increases in CITY'S Health contribution of \$30/month effective August, 2003, and \$30/month effective August, 2004, and now desires to increase the CITY'S contribution by an additional \$215/month to be phased in over a 16 month period,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending Section 8 of Resolution No. 2002-307 as it applies only to unrepresented Sworn Fire Management employees and unrepresented Sworn Police Management employees as follows:

DELETED

<u>Effective Date</u>	<u>Contribution</u>	
	<u>Family</u>	<u>Single</u>
August 1, 2001	\$416.76 mo.	\$317.98 mo.
August 1, 2002	\$456.76 mo.	\$317.98 mo.
March 25, 2003	\$556.76 mo.	\$317.98 mo.
August 1, 2003	\$656.76 mo.	\$347.98 mo.
August 1, 2004	\$731.76 mo.	\$377.98 mo.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of February, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-82**

A RESOLUTION AMENDING A LABOR POLICY PROVIDING FOR PUBLIC EMPLOYEES' RETIREMENT SYSTEM EMPLOYEE CONTRIBUTIONS TO BE PAID BY THE CITY ON BEHALF OF EMPLOYEES REPRESENTED BY THE MODESTO POLICE OFFICERS ASSOCIATION ("MPOA"). 2012-350

WHEREAS, by Resolution No. 2000-253 adopted by the Council, the City adopted a labor policy providing for Public Employees' Retirement System (PERS) employee contributions to be paid by the City on behalf of employees and for reporting of employer-paid normal member contributions to PERS as compensation, and

WHEREAS, the Council desires to amend said policy,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

Pursuant to the provisions of Section 20691 of the California Government Code, effective March 25, 2003, the City of Modesto elects to pay four percent (4%) of the normal member contributions of nine percent (9%) as employer-paid member contributions (EPMC) and report same to PERS as compensation for safety members. Such payment shall be implemented pursuant to the provisions of Section 20636(c)(4) of the California Government Code.

Pursuant to the provisions of Section 20691 of the California Government Code, effective March 9, 2004, the City of Modesto elects to pay seven and one-half percent (7.5%) of the normal member contributions of nine percent (9%) as employer-paid member contributions (EPMC) and report same to PERS as compensation for safety members. Such payment shall be implemented pursuant to the provisions of Section 20636(c)(4) of the California Government Code.

This benefit shall apply to all employees represented by the Modesto Police Officers Association (MPOA) who are classified police safety members by PERS.

BE IT FURTHER RESOLVED that this Resolution shall become effective on March 25, 2003.

BE IT FURTHER RESOLVED that effective March 25, 2003, Resolution No. 2000-253 is hereby repealed in its entirety.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of February, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-83**

THIS RESOLUTION WAS
RESCINDED BY MODESTO
CITY COUNCIL RESOLUTION
NO. 2012-351

A RESOLUTION AMENDING A LABOR POLICY PROVIDING FOR CITY PUBLIC EMPLOYEES' RETIREMENT SYSTEM EMPLOYEE CONTRIBUTIONS TO BE PAID BY THE CITY ON BEHALF OF EMPLOYEES REPRESENTED BY THE MODESTO POLICE MANAGEMENT ASSOCIATION ("MPMA") AND UNREPRESENTED MANAGEMENT POLICE SAFETY MEMBERS.

2012-351
2012-352

WHEREAS, by Resolution No. 2000-251 adopted by the Council, the City adopted a labor policy providing for Public Employees' Retirement System (PERS) employee contributions to be paid by the City on behalf of employees and for reporting of employer-paid normal member contributions to PERS as compensation, and

WHEREAS, the Council desires to amend said policy,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

Pursuant to the provisions of Section 20691 of the California Government Code, effective March 25, 2003, the City of Modesto elects to pay four percent (4%) of the normal member contributions of nine percent (9%) as employer-paid member contributions (EPMC) and report same to PERS as compensation for safety members. Such payment shall be implemented pursuant to the provisions of Section 20636(c)(4) of the California Government Code.

Pursuant to the provisions of Section 20691 of the California Government Code, effective March 9, 2004, the City of Modesto elects to pay seven and one-half percent (7.5%) of the normal member contributions of nine percent (9%) as employer-paid member contributions (EPMC) and report same to PERS as compensation for safety members. Such payment shall be implemented pursuant to the provisions of Section 20636(c)(4) of the California Government Code.

This benefit shall apply to all employees represented by the Modesto Police Management Association (MPMA) who are classified police safety members by PERS and to unrepresented management personnel classified as police safety members by PERS.

BE IT FURTHER RESOLVED that this Resolution shall become effective on March 25, 2003.

BE IT FURTHER RESOLVED that effective March 25, 2003, Resolution No. 2000-251 is hereby repealed in its entirety.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of February, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating,
O'Bryant, Mayor Sabatino

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-84**

A RESOLUTION AMENDING THE FISCAL YEAR 02-03 OPERATING BUDGET TO TRANSFER \$208,900 FROM 7510-800-8000-8003 EMPLOYEE BENEFITS FUND, TO THE GENERAL FUND, 0100-190-1961-0151, \$46,500; 0100-180-1832-0151, \$2,400; 0100-190-1961-0160, \$160,000; TO PROVIDE FUNDING TO INCREASE THE CITY'S CONTRIBUTION TOWARD FAMILY HEALTH, DENTAL, AND VISION BENEFITS AND RETIREMENT BENEFITS FOR EMPLOYEES REPRESENTED BY MPOA, MPMA AND FOR UNREPRESENTED SWORN POLICE AND SWORN FIRE MANAGEMENT EMPLOYEES.

WHEREAS, the City desires to increase the City's contributions toward Health, Dental, and Vision Benefits for employees represented by Modesto Police Officers Association (MPOA), Modesto Police Management Association (MPMA) and for unrepresented Sworn Police and Sworn Fire Management employees who have Family coverage, and

WHEREAS, the City also desires to increase the City's payment toward the employees retirement contribution for employees represented by MPOA, MPMA and for unrepresented Sworn Police Management employees, and

WHEREAS, in addition to funds budgeted within the Retiree Health Sick Leave Conversion, 7510-030-6650-0128, an additional \$208,900 is needed to implement the increases for Family Health, Dental and Vision coverage and increases in the City's payment of the employee's retirement contribution,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Fiscal Year 2002-03 Operating Budget is hereby amended to transfer \$208,900 from the Employee Benefits Fund Reserve 7510-800-8000-8003, to: General Fund

0100-190-1961-0151 \$46,500

0100-180-1832-0151 \$2,400

0100-190-1961-0160 \$160,000

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-85**

A RESOLUTION ACCEPTING THE PRELIMINARY CAPITAL FACILITY FEES, INITIATING PROCEEDINGS TO ADOPT THE UPDATED CFF BY SETTING A PUBLIC HEARING TO BE HELD ON MARCH 11, 2003, TO REVIEW THE FINAL REPORT AND ADOPT THE UPDATED CAPITAL FACILITY FEES, AND DIRECTING STAFF TO PUBLISH LEGAL NOTICE OF THE PROPOSED CFF UPDATE

WHEREAS, the City Council of the City of Modesto has adopted Modesto Municipal Code Sections 8-1.904 et seq. creating and establishing the authority for imposing and charging Capital Facility Fees (CFF), and

WHEREAS, the City is in the process of updating its Capital Facility Fees, and

WHEREAS, the City of Modesto is in the process of updating its General Plan and General Plan Master Environmental Impact Report, and

WHEREAS the Capital Facilities FEES update has been coordinated to be consistent with the proposed update of the City's General Plan and Master Environmental Impact Report, and

WHEREAS, it is desirable to update the CFF prior to the final development of the updated financing plan for the Village One CFD,

WHEREAS, on January 27, 2003, the Finance Committee recommended the CFF report and preliminary fees be accepted and presented to the City Council for further consideration, and

WHEREAS, on February 11, 2003, the City Council considered City staff's recommendation to accept the CFF Update Report and the preliminary CFF, initiate proceedings to adopt the updated CFF by setting a public hearing to be held on March 11, 2003, to review the final report and adopted the updated CFF and directing staff to publish legal notice of the proposed CFF update.

NOW, THEREFORE, BE IT RESOLVED that the Council hereby accepts the CFF Update Report, dated January 31, 2003, and the preliminary CFF and attached to this resolution, and made a part hereof.

BE IT FURTHER RESOLVED that the Council hereby initiates proceedings to adopt the updated CFF and sets a public hearing to be held on Tuesday, March 11, 2003, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California for the purpose of reviewing the final CFF Report and adoption of updated Capital Facility Fees, and hereby directs staff to publish legal notice of the public hearing pursuant to Government Code Section 65090.

BE IT FURTHER RESOLVED that the Council sets a public hearing at its regularly scheduled Council meeting of March 11, 2003 to review the final Capital Facility Report and to adopt updated Capital Facility Fees.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of February, 2003 by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

1ST QTR FY 02-03 ADJUSTMENTS - SCHEDULE A

Type of Account	Description	Fund	Agency	Object/ Orgn	App Revenue Unit	Current Budget (\$)	Adjustment Amount (\$)	Revised Budget (\$)
1) Appropriation	Real Property M&R Supplies	0100	480	4612	0360	504,002	363,000	867,002
	Non-CIP Other	0700	410	4120	5900	1,533,611	(363,000)	1,170,611
Transfer-Rev	Transfer adjustment	0100	700	4612	9070	2,848,970	363,000	3,211,970
Transfer-Exp	Transfer adjustment	0700	700	4612	7010	2,848,970	363,000	3,211,970

This request is for a transfer of \$363K from Gas Tax Fds. To the Streets Div. Oper. Budget, acct. # 0100-480-4612-0360. This funding was removed from the Streets Div. Budget as part of the 02-03 budget process with the understanding it would be backfilled with Gas Tax fds. This will allow us to overlay 3.6 lane miles of residential roadways. If not, funding will need to wait until July 03 to begin 2003 street overlay paving season.

2) Revenue	Storm Drain Loan Transfer	6280	700	7000	9260	0	635,000	635,000
Appropriation	Storm Drain Loan Reserve	6280	800	8000	8003	0	635,000	635,000
	Village I - CFD Reserve	2600	800	8000	8003	0	(635,000)	(635,000)
	Transfer from Village I-CFD	2600	700	7000	7628	0	635,000	635,000

City Council authorized \$635k payback to Storm Drain Fund. (reimbursement for purchase of the VI Central Basin land).

3) Carryover O&M Maintenance

Appropriation	Water Carryover	6100	480	5013	0360	325,000	122,324	447,324
	Water Carryover	6100	480	5016	0360	300,000	127,191	427,191
	Water Carryover	6150	480	5056	0360	30,000	29,866	59,866
	Water Carryover	6160	480	5066	0360	17,000	17,000	34,000
	Wasterwater Carryover	6210	480	5225	0360	0	458,902	458,902
	Wasterwater Carryover	6210	480	5226	0360	622,985	198,846	821,831
	Wasterwater Carryover	6210	480	5227	0360	464,845	402,884	867,729
Appropriation	Water Reserve-Zone 1	6100	800	8000	8003	0	(249,515)	(249,515)
	Water Reserve-Zone 2	6150	800	8000	8003	(320,000)	(29,866)	(349,866)
	Water Reserve-Zone 3	6160	800	8000	8003	0	(17,000)	(17,000)
Appropriation	Sewer Reserve	6210	800	8000	8003	(232,353)	(1,060,632)	(1,292,985)
							(1,357,013)	(1,357,013)

O&M requested all positive balances from year-end FY 01-02 maintenance accounts be re-appropriated to FY 02-03 balances. This was the understanding resulting from the move of these accounts from the Capital Improvements Program (CIP) to the operating budget for annual maintenance items.

Appropriation	Gas Tax Reserve	0700	800	8000	8003		0	(1,200,000)	(1,200,000)

This adjustment corrects the revenue budget to correspond to the expenditure budget considered last month by the Council (BT023)
 This budget is consistent with all previous Council actions and does not materially change the CIP budget. It is essentially a correction.

8)	Cable Contract								
Appropriation	Communicatiions & Marketing	0100	020	0219	0235		212,280	110,000	322,280
Appropriation	General Fd. Reserve	0100	800	8000	8003		(2,103,641)	(110,000)	(2,213,641)

This adjustment is for a Cable Contract as part of the 02-03 Budget process \$110,000 of cable set asides money was to be transferred to the City Manager's budget for cable contract work. This transfer was not completed.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-90**

A RESOLUTION AUTHORIZING STAFF TO PROCEED WITH A REQUEST FOR QUALIFICATIONS AND REQUEST FOR PROPOSALS FOR A PELANDALE MCHENRY PROJECT STUDY REPORT AND APPROVING THE PROPOSED EVALUATION CRITERIA FOR THE PELANDALE MCHENRY PROJECT STUDY REPORT

WHEREAS, Pelandale Avenue is planned to be a six lane expressway, and

WHEREAS, McHenry Avenue is planned to be a six lane arterial street, and

WHEREAS, this intersection will need to facilitate over 100,000 vehicles per day,

and

WHEREAS, an urban interchange is planned to be constructed at this location,

and

WHEREAS, City desires to proceed with a consultant selection process to include a Request for Qualifications (RFQs) and a Request for Proposals (RFPs) for the Pelandale McHenry Project Study Report, and

WHEREAS, City staff has proposed evaluation criteria to be included in the Request for Qualifications and the Request for Proposals, and

WHEREAS, the recommended evaluation criteria to be used in selecting a firm to perform the Pelandale McHenry Project Study Report is attached, and

WHEREAS, the Economic Development Committee met on February 10, 2003, reviewed the Pelandale McHenry Project Study Report RFQ/RFP process and recommended proceeding with the consultant selection process,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes City staff to proceed with a Request for Qualifications and a Request for Proposals for the Pelandale McHenry Project Study Report.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that it hereby approves the evaluation criteria as shown in the attached exhibit.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of February, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following votes:

Project Study Report

Dear Consultant:

The City of Modesto is soliciting qualifications of engineering consulting for the preparation of the Pelandale/McHenry Urban Interchange Project Study Report. **If you wish to be considered for this work, please submit five (5) copies of the qualifications by 4:00 p.m. by XXXX, 2003 to:**

City of Modesto
Engineering and Transportation Department 4th Floor
1010 Tenth Street, Suite 4600
Modesto, CA 95354
Attention: Richard Ulm

Via Mail: P.O. Box 642, Modesto, CA 95353

Once the qualifications have been evaluated, request for proposals (RFPs) will be sent to the firms City staff have determined are the most qualified to perform the project. Following evaluation of the proposals, interviews will be conducted and the City will select a consultant.

The City will evaluate all qualifications submitted, but the Request for Qualifications does not commit the City of Modesto to award a contract, to pay for any costs incurred in preparation or presentation of a Statement of Qualifications, or to procure a contract for services. The selection considerations for evaluating the Statement of Qualifications is included in this RFQ following the Contents and Requirements section.

BACKGROUND:

Pelendale Avenue is planned to be a 6-lane expressway and McHenry Avenue (SR108) is planned to be a 6-lane principal arterial. McHenry Avenue is a state highway. Consequently, the project study report(PSR) shall conform to Caltrans format and will require review and approval by Caltrans.

It is projected that this intersection will need to facilitate over 100,000 vehicles per day at the City's General Plan build-out. A single-point urban interchange is planned at this location to accommodate this level of traffic.

PLAN OF STUDY:

(A more detailed work plan will be included below in the final RFQ)

STATEMENT OF QUALIFICATIONS CONTENTS AND REQUIREMENTS:

Each proposal shall include the following information:

PROJECT MANAGER: The consultant's Project Manager is defined to be the individual within the prime consultant's firm who is directly responsible for and engaged in performing the required services. The Project Manager is the most knowledgeable individual regarding all aspects of the project but not necessarily a principal of the firm. The Project Manager should be located within two hours travel time of the project site.

Consultant is to provide the Project Manager's:

- Name and title, name of firm employed by, years of experience with this firm, and years of experience with other firms
- Education, degrees, specialization, year attained
- Active professional registration, in what state, year first registered, discipline
- Firm(s), office location, and time period for each location at which the individual worked during the last five (5) years to the present
- Representative experiences: For not more than five (5) projects, provide the following information on two pages. Include project(s) he/she is currently working on and schedule to which he/she is committed.
 - Owner (or client firm is subconsultant), project description (including size), location and completion date.
 - Name, address and phone number of knowledgeable owner/client's representative.
 - Consultant services for which the individual was directly responsible; service/functions directly performed by individual (not just job title).
 - Firm with which the individual was employed during project experience.

OTHER KEY PROJECT STAFF: Not more than four individuals may be listed. Provide for each individual:

- Name
- Specific project responsibility and functions to be performed
- Name of firm employed and office location where individual will perform required project services
- Years of experience with this firm and with other firms
- Education, degrees, specialization, year attained
- Active professional registration, in what state, year first registered, discipline
- Firm(s), office location, and time period for each location at which the individual worked during the last five (5) years to the present
- Representative experience (not more than five projects)
 - Owner, project description (including size), location and completion date.
 - Name, address and phone number of knowledgeable owner/client's representative.
 - Consultant services for which the individual was directly responsible; service/functions directly performed by individual (not just job title).
 - Firm with which the individual was employed during project experience.

FIRM(S) EXPERIENCE AND PRODUCTION CAPABILITIES: The following information is required for the prime consultant and any proposed subconsultant:

- Office address(s) in which services are to be performed and percentage of work to be performed in each office.
- Percentage of total fees in last five years, firm wide, received from similar service.
- Facilities, manpower and production capabilities of office(s) in which work is to be performed.
- Listing of recent experience related to this project in California, including type and size of consulting services provided and name, address, and phone number of knowledgeable owner/client representative.

FIRM LOCATION: City of Modesto Policy

It is the policy of the City of Modesto, when not prohibited by the funding source, that all other factors being equal, local firms whose qualifications are satisfactory and who have sufficient experience and capabilities for providing the necessary professional services shall normally be given priority in being considered for employment by the City. The location of any sub-consultant firms proposed by the consultant will also be considered when applying this policy. The funding source for this project does not prohibit the application of this policy in this case.

SELECTION CONSIDERATIONS:

Rating 1-5

A. EXPERIENCE:

1. Years of experience of firm and/or its principals as design professionals.
2. Broad character and scope of past projects.
3. Experience of proposed study team members in studies of similar magnitude, design requirements and complexity within past five years.
4. If experience is lacking, explanation by consultant as to why it should be selected over others with more experience.
5. History of repeat business with clients. Stipulate the number of previous architectural or engineering contracts with the City of Modesto.

B. ANALYSIS:

6. Originality, creativity, and soundness of approach to problem solving and analysis of design requirements.
7. Demonstrated management and organizational ability as relates to time management, scheduling, City staff/client relationships, etc., and the ability to meet deadlines.
8. Ability to execute complete, clear, and concise reports and produce a quality work product.

C. GENERAL:

9. Size of firm and available staff appropriate to study size.
10. Location of firm in relation to City of Modesto and project size.
11. General comprehension of the study assignment and responsiveness to special study requirements.
12. Demonstrated understanding of community social relationships such as citizen and environmental concerns, energy conservation, ecological and economic considerations.
13. Firm reputation as relates to principles, credibility, and attitude.

ADDITIONAL INFORMATION:

Use up to 2 pages to provide any additional information supporting your firm's qualifications for the proposed project.

The proposal is expected to be clear and concise and respond to the requirements set forth in this Request for Proposals. Unnecessarily elaborate or glossy statements of qualifications are neither expected nor desired.

REPORT SCHEDULE:

The anticipated milestones for this report are as follows:

MILESTONE	DATE
Issue Request for Qualifications (RFQs)	TBD
RFQs Due	TBD
Select and Issue Request for Proposals (RFPs)	TBD
RFPs Due	TBD
Consultants Interviews	TBD
Award Contract	TBD

A selection committee will review the responses and determine the best-qualified consultant(s), which will be invited to respond to an RFP.

If you have any questions, please contact me at (209) 577-5215.

Sincerely,

Richard Ulm
Deputy Director

February 7, 2003

DRAFT

Consultant Name
John Doe, CEO
1234 ABC Street, Suite 10000
Your Town, CA 12345

SUBJECT: Request for Proposals for City of Modesto
Pelandale/McHenry(SR108) Urban Interchange
Project Study Report

Dear Consultant:

The City of Modesto is soliciting proposals for the preparation of the Pelandale/McHenry Urban Interchange Project Study Report. Your firm has been selected to submit a proposal from those firms which submitted a statement of qualifications. **If you wish to be considered for this work, please submit five (5) copies of the proposals by 4:00 p.m. by XXXX, 2003 to:**

City of Modesto
Engineering and Transportation Department
4th Floor
1010 Tenth Street, Suite 4600
Modesto, CA 95354
Attention: Richard Ulm

Via Mail: P.O. Box 642, Modesto, CA 95353

Following evaluation of the proposals, interviews will be conducted and the City will select a consultant.

The City will evaluate all proposals submitted, but this Request for Proposals does not commit the City of Modesto to award a contract, to pay for any costs incurred in preparation or presentation of a Proposal, or to procure a contract for services. The selection considerations for evaluating the Proposal is included in this RFP following the Contents and Requirements section.

PROPOSAL CONTENTS AND REQUIREMENTS:

Each proposal shall include the following sections:

1. Scope of Services

The Scope of Services section shall include a description of the intended approach to complete the project study report. The consultant should specify data and the expected level of support from City staff and a description of the project deliverables.

2. Project Team and Experience

This section should include the size of the organization and a list of the consultant's principals, employees, agents, and subconsultants, which the proposer anticipates assigning to this project. This list shall include a summary of the qualifications, licenses, and experience of each individual, the type of work to be performed and availability of each individual.

Additionally, this section will include a list of the most recent projects for which the consultant has performed similar services of similar scope, size, and complexity. This list shall include the name, contact person, address, and phone number of each party for whom the service was provided, as well as a brief description of the service performed, the dollar amount of the contract, and the date the project was completed.

3. Project Schedule

The consultant shall provide a proposed schedule for all services necessary to complete the project specifying the major tasks, the expected time to complete each task, and the interdependency of the tasks.

4. Estimated Level of Effort

The consultant shall provide an estimate of staff time, by task presented in the project schedule. This section will not include any estimate of costs.

5. Proposed Compensation

The consultant shall provide, in a separately sealed and clearly marked envelope, the cost to be charged to the City by task and a total proposed project cost. The cost proposal shall identify the overall multiplier and include direct labor costs and expenses including travel and high-end computer use. Cost proposals will not be opened until after each firm interviewed has been ranked and the firm deemed most qualified has been selected. All cost proposals will then be opened and will form the basis of negotiations for the contract.

6. Contract

The successful firm will be asked to execute the City's standard agreement for consultant services. A copy is attached for reference. (Attachment X) The proposal shall note any exceptions to the standard contract that would prevent the consultant from executing the contract in its present form.

7. Insurance Certificate

A consultant providing a copy of its insurance certificate, or a letter of intent to provide insurance from the issuing company (including a description of types of coverage and dollar amount limits) may be favorably considered.

8. Resumes

Consultant shall provide resumes for each individual project team member.

The proposal is expected to be clear and concise and respond to the requirements set forth in this Request for Proposals. Unnecessarily elaborate or glossy proposals are neither expected nor desired.

PROJECT DESCRIPTION:

(A detailed project description will be included below in the final RFP)

FIRM LOCATION: City of Modesto Policy

It is the policy of the City of Modesto, when not prohibited by the funding source, that all other factors being equal, local firms whose qualifications are satisfactory and who have sufficient experience and capabilities for providing the necessary professional services shall normally be given priority in being considered for employment by the City. The location of any sub-consultant firms proposed by the consultant will also be considered when applying this policy.

SELECTION CONSIDERATIONS:

Rating 1-5

A. EXPERIENCE:

1. Years of experience of firm and/or its principals as design professionals.
2. Broad character and scope of past projects.

3. Experience of proposed study team members in studies of similar magnitude, design requirements and complexity within past five years.
4. If experience is lacking, explanation by consultant as to why it should be selected over others with more experience.
5. History of repeat business with clients. Stipulate the number of previous architectural or engineering contracts with the City of Modesto.

B. ANALYSIS:

6. Originality, creativity, and soundness of approach to problem solving and analysis of design requirements.
7. Demonstrated management and organizational ability as relates to time management, scheduling, City staff/client relationships, etc., and the ability to meet deadlines.
8. Ability to execute complete, clear, and concise reports and produce a quality work product.

C. GENERAL:

9. Size of firm and available staff appropriate to study size.
10. Location of firm in relation to City of Modesto and project size.
11. General comprehension of the study assignment and responsiveness to special study requirements.
12. Demonstrated understanding of community social relationships such as citizen and environmental concerns, energy conservation, ecological and economic considerations.
13. Firm reputation as relates to principles, credibility, and attitude.

AWARD OF AGREEMENT:

Negotiations will begin with the firm deemed most qualified. If agreement cannot be reached in negotiations, the City will begin negotiations with the firm that is judged to be next most qualified. If the City determines to award the agreement, a Professional Services Agreement shall be sent to the successful consultant for the consultant's signature. No proposal shall be binding upon the City until after the agreement has been signed by duly authorized representatives of both the consultant and the City. The City reserves the right to reject any or all proposals, and to waive any irregularity. The award of the agreement, if made by the City, will be based on a total review and analysis of each

proposal and interview. The consultant will be required to submit insurance verification as noted in the standard contract prior to execution of the contract.

CONFLICT OF INTEREST:

The City's Conflict of Interest Code requires that consultants file a Statement of Economic Interests, when the consultant provides information, advice, recommendations or counsel to the City. Before the City enters into a contract for services with the selected firm, the firm will be required to report economic interest on the following:

1. Real Property Interest (geographically limited)
2. Sources of Income
3. Business Positions
4. Business Investments

REPORT SCHEDULE:

The anticipated milestones for this report are as follows:

MILESTONE	DATE
Issue Request for Proposals (RFPs)	TBD
RFPs Due	TBD
Consultants Interviews	TBD
Award Contract	TBD

If you have any questions, please contact me at (209) 577-5215.

Sincerely,

Richard Ulm
Deputy Director

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-91**

**A RESOLUTION ACCEPTING THE PROJECT TITLED "AIRPORT DISTRICT
REPLACE WATER MAINS" AS COMPLETE**

WHEREAS, a report has been filed by the Engineering & Transportation Director that the project titled "Airport District Replace Water Mains", has been completed by Dell Engineering, in accordance with the contract agreement dated June 5, 2001,

NOW, THEREFORE, BE IT RESOLVED that the "Airport District Replace Water Mains" project be accepted from said contractor, Dell Engineering, that the notice of completion be filed with the Recorder of Stanislaus County and that payment of amounts due totaling \$205,563.32 as provided in the contract, be authorized.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of February, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following votes:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: None

ATTEST: Jean Zahr
JEAN ZAHR, City Clerk

(SEAL)

APPROVED AS TO FORM:

By Michael D. Milich
MICHAEL D. MILICH, City Attorney

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-92**

A RESOLUTION AUTHORIZING STAFF TO NEGOTIATE AN AGREEMENT WITH ECONOMICS RESEARCH ASSOCIATES TO RE-EXAMINE OPTIONS FOR THE CITY OF MODESTO GOLF PROGRAM AT A COST NOT TO EXCEED \$20,000.

WHEREAS, in 1998, the City of Modesto hired Economics Research Associates (ERA) to conduct a management audit of the City of Modesto Golf Program, and

WHEREAS, in order to minimize the fiscal impact to the General Fund and to maximize the City's investment in the Golf Program infrastructure, staff is recommending that the management options for the Golf Program be re-examined, and

WHEREAS, inasmuch as ERA performed the first audit and already has the background information needed to complete a revised audit, staff feels that this firm is the most qualified, and

WHEREAS, staff feels that an agreement with ERA can be negotiated at a cost not to exceed \$20,000, and

WHEREAS, funds are budgeted in the Parks, Recreation and Neighborhoods Department's Administration budget through carryover reserve (0100-300-3001-8099), and

WHEREAS, the Safety and Communities Committee met on February 3, 2003, and supported the recommendation to authorize staff to negotiate an agreement with Economics Research Associates to re-examine options for the City of Modesto Golf Program at a cost not to exceed \$20,000,

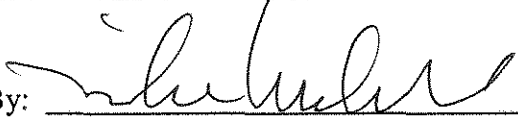

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby authorizes staff to negotiate an agreement with Economics Research Associates to re-examine options for the City of Modesto Golf Program at a cost not to exceed \$20,000.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of February, 2003, by Councilmember Conrad, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Conrad, Fisher, Jackman, Keating, O'Bryant, Mayor Sabatino
NOES:	Councilmembers:	Frohman
ABSENT:	Councilmembers:	None

Attest: Jean Zahr
JEAN ZAHR, City Clerk

APPROVED AS TO FORM:

MICHAEL D. MILICH, City Attorney

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-93**

A RESOLUTION AWARDING A CONTRACT TO ALTA PLANNING AND DESIGN OF BERKELEY, CALIFORNIA FOR PROFESSIONAL SERVICES TO UPDATE THE MODESTO NON-MOTORIZED TRANSPORTATION MASTER PLAN AT A COST NOT TO EXCEED \$77,320, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE CONTRACT.

WHEREAS, in July 1996, the City Council adopted the Modesto Non-Motorized Transportation Master Plan ("Plan"), which describes a comprehensive system of on- and off-street non-motorized transportation facilities, and

WHEREAS, this Plan needs to be updated to reflect the growth of Modesto and to capitalize on efforts to revitalize the downtown area and to emphasize bicycle and pedestrian safety, and

WHEREAS, in order to plan for projects to be implemented over the short- and long-term, an update to the Plan is needed, and

WHEREAS, following the City's standard RFP process, a three (3) member panel determined that Alta Planning and Design of Berkeley, California was the most qualified firm to complete this project, due to their experience in non-motorized transportation planning, and

WHEREAS, Alta Planning and Design has agreed to provide the services outlined in **Exhibit "A"** attached hereto and incorporated herein by reference at a cost not to exceed \$77,320.00, and

WHEREAS, the Safety and Communities Committee met on February 3, 2003, and supported the recommendation to award a contract to Alta Planning and Design for professional services to update the Modesto Non-Motorized Transportation Master Plan, at a cost not to exceed \$77,320.00,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves award of a contract to Alta Planning and Design for professional services to update the Modesto Non-Motorized Transportation Master Plan, at a cost not to exceed \$77,320.00.

BE IT FURTHER RESOLVED that the City Manager or his designee is hereby authorized to execute the contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of February 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Conrad was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating,
O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: None

MICHAEL D. MILICH, City Attorney

EXHIBIT A: WORK PLAN AND BUDGET

The Alta Planning + Design Team offers the best combination of local, state, and national knowledge and understanding of non-motorized planning, design, and implementation. We will employ our experience in tailoring a Non-Motorized Transportation Master Plan Update for the City of Modesto that will support the increased use of bicycles for commuting and recreation, enhance the environment for pedestrians, and improve safety for all non-motorized users. The Alta team will develop an updated plan that is innovative, progressive, and responsive to the desires of the community. The proposed Project Schedule is provided following the Work Plan.

TASK 1: ORGANIZATION AND SCOPING MEETING

Alta team members will attend a kick-off meeting with the project manager and key City staff to:

- Review the project purpose and intent;
- Review scope of services and work plan approach;
- Gather or identify available background data and documents;
- Establish consultant team meeting, public outreach, and presentation schedule;
- Establish communication channels with other City departments and stakeholders;
- Review and list State and Federal required elements; and
- Review and list applicable design and planning standards.

Changes to the Scope of Work will be made (if necessary) at the conclusion of this effort, and an amended Scope of Work and schedule will be prepared. Initial contacts will be made with other appropriate agencies and groups including:

- Community Development Department and Engineering and Transportation Department staff
- School district representatives
- Local advocacy groups
- Caltrans
- Stanislaus County
- Others (as agreed upon during scoping meeting)

The purpose of these contacts will be to explain the goals and objectives of the Plan Update, identify and collect resources such as plans and maps, listen to each group's interests and concerns, and develop channels for future communication.

Task 1 Deliverable:

One Kick-off Staff Meeting
Final Detailed Scope and Schedule

TASK 2: TECHNICAL ADVISORY COMMITTEE

Alta will work with the City's Technical Advisory Committee (TAC) for the Plan Update, consisting of City staff, representatives from other affected agencies or organizations (e.g. Modesto Irrigation District), and representatives from local trail and bicycling advocacy groups. The TAC will be active throughout the Update process in providing input and feedback on recommended improvements, and will review and comment on major work products as they are produced by Alta.

Task 2 Deliverable:

Preparation of materials for and attendance at TAC Meetings (assume four (4) TAC meetings over the course of the project)

TASK 3: REVIEW EXISTING PLAN AND ASSESS CURRENT NON-MOTORIZED TRANSPORTATION NEEDS

The Alta team will review the 1996 Modesto Non-Motorized Transportation Master Plan in context of the City's current non-motorized transportation needs. Alta will update existing conditions and background information, review the status of projects recommended in the 1996 Plan, and evaluate the Master Plan in relation to the City's General Plan and other policy documents. The Alta team will conduct field observations to assess the adequacy of existing conditions for non-motorized transportation, analyze accident and traffic data, and prepare updated bicycle use projections. Following this review, we will prepare a report of our findings, including updated background information, to City staff.

3.1. REVIEW PLAN GOALS

Alta will work with staff to review and amend (as needed) overall goals for the Plan Update building on the 1996 Plan goals.

3.2. UPDATE BACKGROUND DATA

The Alta Team will update existing conditions information, including development patterns in the City, existing commuting patterns and bicycle use (from 2000 Census data), major destinations, transit service, key opportunities and constraints, and major planned facilities.

3.3. POLICY CONTEXT

Alta will review the 1996 Master Plan as it relates to the Modesto General Plan to determine if existing City policies provide adequately for the development of non-motorized transportation facilities. We will identify any modifications needed, to either Master Plan policies or General Plan policies, to ensure consistency between the documents and to promote the development of roadway and trail facilities Modesto that effectively accommodate non-motorized users.

3.4. REVIEW EXISTING AND PROPOSED NON-MOTORIZED TRANSPORTATION NETWORK

The objective of this task is to review the existing citywide non-motorized transportation network to ensure that it connects to all major destinations, linkages, transit hubs, and neighborhoods via streets and trail

corridors that are comfortable and acceptable for all level of cyclists. We will determine the adequacy of the existing non-motorized transportation facilities for the following criteria:

- Safety;
- Connectivity;
- Completeness of network;
- Ability to serve work centers, shopping, residential areas, parks, schools, civic buildings, community centers, transit links, and other important destinations;
- Accessibility;
- Convenience; and
- Ability to serve the needs of different types of bicyclists, pedestrians, and other non-motorized users.

We will identify gaps in the system and areas of the city that are not well served. We will also identify the needs of the various users that are not well served. We will work with City staff and TAC members to develop a list of corridors and locations that merit greater attention to implementation.

3.5. TAC MEETING TO DISCUSS EXISTING NETWORK

A primary goal of the initial TAC meeting will be to obtain feedback on the functionality of the existing non-motorized network, to identify any problem areas, and begin to compile recommendations and suggestions for improvements to the system. TAC comments will be incorporated into the existing conditions report.

3.5. FIELD REVIEW AND EVALUATION OF EXISTING ROUTES

Alta will perform a **field review** of existing non-motorized transportation routes in Modesto. We will rely on City staff and TAC members to direct us to existing routes and other specific areas for detailed field review. Field investigations will be documented using field notes and digital photography. Alta will develop a photo and informational database of important field observations, documenting key features of the existing facilities, including roadway cross-sections, travel lane widths, type of bicycle facility, observed level of use, condition of facility, and key gaps or other obstacles.

3.6. ANALYZE ACCIDENT DATA

The Alta team will review available bicycle accident data compiled by the City for the last three years. We will look at the volume of accidents, their locations, and compare accidents on a per capita basis. Information derived from this analysis will be used to identify specific locations that require improvement, plus possible enhancements in motorist, bicyclist, and pedestrian awareness and educational programs.

3.7. ANALYZE TRAFFIC DATA

The Alta team will collect traffic count data from the City of Modesto and identify the level of service on existing bike routes at key study intersections as well as at the mid-block level. Traffic data will also be compiled for other key facilities as well. This data will be utilized during the development of network alternatives to determine the appropriateness of different types of non-motorized facilities on specific roadway segments or at specific crossing locations.

3.8. UPDATE BICYCLE USE PROJECTIONS

Alta will provide updated estimates of existing and projected numbers of bicyclists using our **Bicycle Demand Model**. Using this model, Alta will establish a baseline of bicycle commuting in Modesto, including: 1) employed adults; 2) school children; 3) college students; 4) bike transit users; and 5) persons making utilitarian (shopping) trips. This information will provide the most accurate estimate of existing bicycling possible. Alta will present all projections in a clear and organized format, readily understood by policy decision makers and funding agencies.

3.9. EXAMINE EXISTING PROGRAMS

The Alta team will gather information on existing bicycle/pedestrian education and marketing programs in Modesto. We will collect information regarding enforcement policies of the Modesto Police Department, and will analyze the adequacy and effectiveness of these programs, in compliance with Bicycle Transportation Account bicycle plan requirements.

3.10. REVIEW POLICIES, GUIDELINES AND EDUCATION PROGRAMS

Alta will review the policies, guidelines, and educational programs outlines in the 1996 Plan and identify any language that needs to be amended or supplemented as part of Task 5 (Draft Plan preparation).

Task 3 Deliverable:

Report of Findings on Existing Master Plan and Non-Motorized Transportation Needs

- Updated background information

- Assessment of existing/recommended routes

- Accident analysis

- Updated bicycle use projections

TASK 4: PUBLIC PARTICIPATION

The City of Modesto is committed to public input in the Non-Motorized Transportation Master Plan Update process. Therefore, it is of prime importance for this project to build consensus through a public involvement process. The public involvement process will give community members an opportunity to share their vision of a non-motorized plan for their city. As outlined in the RFP, there will be three (3) workshops set up for the general public. MIG will facilitate the first two public workshops, and Alta will lead the final workshop. Alta team members will be present at all workshops to assist with the presentation of technical information.

The community workshops will be structured to ensure clear understanding of the issues and opportunities associated with the project, the options available and their impacts, and preferred visions and strategies. Workshop formats will be fixed or flexible, as appropriate. Each workshop will be designed to meet identified goals, with activities including, but not limited to: informal presentations or progress reports, large or small group discussions, group brainstorming, individual or group feedback exercises, and prioritization or ranking of community preferences. Workshops can also be designed to accommodate multi-languages.

4.1. PRE-WORKSHOP PREPARATION AND PUBLICITY

MIG will work with City staff and the project team to identify and focus workshop objectives and design workshop processes and agendas accordingly. MIG will provide input for agendas and prepare comment sheets on which participants can record their ideas, concerns and suggestions.

To announce the workshop, MIG will design a workshop announcement flyer. This flyer can be mailed to residents or community groups by the City; can be posted by the City to its website; can be sent by the City or Alta by e-mail to existing bikers' clubs or organizations; and placed as an ad in the local newspaper by the City. The Alta team will provide one (1) camera-ready and one (1) electronic copy of the flyer to the City.

4.2. FIRST PUBLIC WORKSHOP

Project Introduction and Identification of Issues, Concerns, Opportunities and Vision. The purpose of the first workshop is to introduce the project to the community; explain the purpose and objectives for the project; and identify the community's issues, concerns, goals and visions for the project.

4.3. SECOND PUBLIC WORKSHOP

Presentation of Updated Plan. At the second workshop, the Alta team will present the major components of the proposed Non-Motorized Plan Update to the community for review and evaluation.

4.4. THIRD PUBLIC WORKSHOP

Final Plan Presentation. The third and final workshop will be held to present the final Plan to the community.

In order to ensure productive outcomes, each community workshop will involve the following subtasks:

WORKSHOP FACILITATION AND GRAPHIC RECORDING

MIG will facilitate and record each workshop using a key feature of all MIG meetings—"facilitation graphics," which combines the group leadership skills of a trained facilitator with the "language" of graphic notetaking. Particularly effective in large group settings, this technique encourages free thinking and the rapid generation of ideas. Participant comments and questions are recorded in text and graphics on wall-sized sheets of paper. These "wallgraphics" help to establish the group's memory of both the flow and content of discussions. This method of meeting facilitation encourages interaction and cooperative participation, and leads to group consensus because participants are able to visualize their ideas and build upon each other's comments. These wallgraphics will be photoreduced, summarized, and included as part of the workshop summary report.

POST-WORKSHOP REPORT

Based on the discussion at each workshop and the wallgraphic documentation, MIG will produce a summary report of the results of each workshop. One (1) camera-ready copy of the report, with one (1) camera-ready original of the wallgraphic reductions, will be provided to Alta staff for incorporation into the Plan document.

OTHER OUTREACH EFFORTS

As a part of our public outreach effort we will take advantage of local- and Central Valley-based experts such as the Great Valley Center and the Local Government Commission. These local nonprofit organizations have long-standing interest in transportation and community design. Through our professional contacts at these organizations we can obtain contact information to gather additional public input and support for the update of the City of Modesto Non-Motorized Transportation Plan. In addition to providing contact information, these organizations may be willing to assist in publicizing project meetings to their membership and provide local knowledge that will assist us in appropriately prioritizing projects for implementation.

Task 4 Deliverables:

Notification Flyers for all meetings
First Public Meeting (after review of Existing Plan)
Second Public Meeting (after development of Updated Network)
Final Public Meeting (after development of Final Preferred Plan)
Workshop Graphics and Post-Workshop Reports

TASK 5 DEVELOP UPDATED NETWORK

With the information collected during the existing plan review and needs assessment task, with input from the TAC, and with input from the First Public Meeting, Alta will hold a meeting with City staff and the TAC to outline the elements that require update, amendment, or expansion as part of the Non-Motorized Transportation Master Plan Update. Following this meeting, Alta expects to have a solid grasp of what the Updated Non-Motorized network will look like, and we will then move forward on developing detailed cross sections and other components of the Plan. We will strive to develop an Updated network and Plan that provides:

- **Connectivity** - provide connectivity between existing sidewalks, routes, lanes, or paths. Major gaps and barriers, including narrow roadway segments, should be targeted as high priority items.
- **Multi-Modal Coordination** - take advantage of multi-modal connections, including bus transfer stations and transit terminals and shuttles to major destinations.
- **Accessibility** - be accessible from residential neighborhood and connect to major destinations, including Modesto Junior College, downtown, parks, community centers, employment centers, schools, and commercial centers. Existing and future activity center maps will be used to identify any changes in the location of major destinations in the region, including transit centers, employment centers, entertainment venues, and other destinations.
- **Convenience** - provide reasonably direct routes from residential areas to major destinations.
- **Aesthetics** - both recreational and commuting users prefer to ride along streets and through areas that are shaded, have visual relief, or offer other visual amenities.
- **Usage** - serve the greatest number of commuters and recreational users possible, focusing on major destinations. Potential usage will be determined through field observation, surveys, and feedback from staff and the Steering Committee.
- **Safety** - provide the highest level of safety possible while mitigating major safety concerns such as narrow roadway segments. This will be determined through discussions with staff, field observations, and the accident analysis. We will also identify high vehicular traffic locations and present the opportunities and constraints associated with the proposed bike and pedestrian vis-à-vis general circulation.
- **Planned Roadway Improvement Projects** - take advantage of planned roadway improvements that may accommodate bicycle facilities with relatively little additional cost.

All proposed bikeway facilities will be described by the classification system developed by Caltrans in Chapter 1000: Planning and Design of Bicycle Facilities, by AASHTO in a “A Policy on Geometric Design,” and by the latest research conducted by FHWA on bikeway planning and design. The Caltrans classification system consists of the following categories:

- Bike Paths (Class I): bicycle or multi-use paths separate from roadways, with at-grade or grade-separated crossings
- Bike Lanes (Class II): striped bicycle lanes, typically on the right-hand side of roadways
- Bike Routes (Class III): roadways that provide adequate shoulder or curb lane width and signing, but no striping

For liability, funding, and other purposes, we propose to use this classification system for this study. Due to the differing needs of recreational/family cyclists and commuter cyclists, we will attempt to develop a network that provides a balanced network of on- and off-street facilities.

We will describe the classification of each of the recommended routes, their starting and ending points, as well as the destinations and neighborhoods they will serve. We will work with the City and TAC to develop creative identifiers for major routes, with possible features such as unique signage directing cyclists to key destinations in the city. We will propose typical cross-sections of each of the recommended on-street or off-street routes, including typical lane widths and restriping that would be needed. We will describe any paving, striping, signage, and other improvements needed to create each of the bikeways. We will also prepare a general cost estimate for each bikeway for discussion purposes with City staff and at the Second Public Workshop.

The Updated Modesto non-motorized transportation system will also be planned to link up to bikeways in the neighboring cities of Riverbank and Ceres, as well as neighboring unincorporated areas consistent with the Stanislaus County Regional Bicycle Action Plan.

Specific Components of the Update Plan will include:

5.1. IDENTIFY PROJECTS

With input from the First Public Meeting and TAC/City staff meetings, Alta will identify an Updated Non-Motorized Transportation Network. For the Updated Network, Alta will prepare a detailed spreadsheet listing the bicycle and pedestrian improvements and describing key characteristics of each proposed route. We will develop project sheets for the top priority projects drawing from the spreadsheet and cost estimates. As part of this process, we will work with the City and TAC to creatively identify routes to and from major destinations. Where possible, we will attempt to distinguish between commuter and recreational routes. Elements of such routes may include unique signage styles/logos, destination and mileage identifiers on signs, unique stencils, and designation on trail/bikeway maps. We expect to work closely with the City and TAC to refine these suggested concepts into a workable bikeway system for Modesto that will help to increase awareness of cycling, improve safety, and increase non-motorized trips.

5.2. ROUTE MAPPING

Proposed Updated Network routes will be identified on large-scale City maps for discussion purposes at TAC/staff and public meetings. These maps will be reduced for inclusion in the Draft Plan Update report,

and will form the basis of the Trail Map prepared in Task 7. We assume that the City will provide Alta street centerline files in GIS or AutoCAD format for base mapping.

5.3. CROSS SECTIONS

We will prepare detailed cross-sections for typical segments of major unique projects identified in the Updated Plan. These cross sections will provide a template for the future development of project segments, and will show right of way, setbacks, trail/bikeway width, roadway lane/parking widths for on-street segments, landscaping, fencing, and other amenities. Cross sections will be produced to-scale to allow for use in a variety of applications including discussion with engineering and other technical staff, enlargement for public meetings, and inclusion in the final Updated Plan document. Alta proposes to develop up to 30 unique cross-sections as part of this Work Plan. It is assumed that many on-street segments will be similar and can be identified by typical cross-sections for a particular roadway width/classification.

5.4. SIGNAGE

Alta understands that the City is currently working with a consultant to prepare a uniform trails signage package. Alta will conduct one (1) review of the proposed plan and make comments related to its functionality for non-motorized users. We will also recommend, if necessary, additional signage that may be beneficial to bicyclists, such as route identification, destination, or mileage.

5.5. SITE AMENITIES

Alta will describe the extent of existing support facilities and identify recommended improvements and standards. In addition to signage, support facilities for non-motorized transportation routes will include signal loop detectors, lighting, benches and drinking fountains, bicycle racks and lockers, and shower facilities. Support facilities will be inventoried for the system through available data and field observation. Support facilities will also be described and classified whenever possible. For example, the Bicycle Federation of America defines bike lockers as Class I, covered locking racks as Class II, and exposed racks as Class III.

5.6 CROSSING ENHANCEMENTS

As part of the Updated Network, the Alta team will develop specific recommendations to improve the environment for non-motorized users at intersections and other roadway crossings. We will propose specific improvements and prepared detailed project sheets for the highest priority locations. Recommendations may include such crossing enhancements as:

- New or enhanced crosswalks
- Refuge islands
- New signals
- Improved signage or pavement markings
- Curb extensions
- In-pavement flashing markers
- Countdown signals
- Wider sidewalks
- ADA ramps or improvements to existing ramps

5.7. TRAFFIC CALMING

The non-motorized transportation environment can often be enhanced with various traffic calming techniques. For the Preferred Network, the Alta team will recommend traffic calming measures if and where they appear to be appropriate. Before preparing such recommendations, we will consult with the City to

identify the types of situations and the types of traffic calming devices that are most applicable. The Alta team has extensive experience in the development and application of traffic calming tools and techniques. The “toolbox” of traffic calming measures that may be applied in Modesto may include: curb extensions; chicanes; chokers; medians; traffic circles and roundabouts; raised crosswalks; speed humps; staggered parking; forced-turn islands; traffic diverters; or street closures. Any recommended traffic calming measures will be identified as part of the recommended network, and will be included in cost estimates for specific segments.

5.8. MAINTENANCE PROGRAM

Alta will include in the Draft Plan a detailed maintenance standards for both on- and off-street bikeways. Alta has considerable experience developing bikeway and trail maintenance programs in cooperation with a broad range of agencies. We can draw from this experience to provide the City with standard maintenance procedures and agreements that will enable greater ease of implementation when working jointly with other local jurisdictions (e.g. Modesto Irrigation District). Specific maintenance cost mechanisms (such as Adopt-a-Trail) will be discussed in Task 5.10, Financial Plan.

5.9. CONSTRUCTION AND MAINTENANCE COST ESTIMATES

Alta will prepare cost estimates using a spreadsheet developed for this project listing detailed information on each proposed segment length, corridor conditions, and other information. The costs will be separated out between land cost (if any), site preparation, planning, design and engineering costs, construction costs, and environmental documentation/mitigation costs (if any). Alta will use the latest unit costs experienced by the Modesto Parks, Recreation and Neighborhoods Department.

Each segment will also be evaluated according to an estimated cost-per-mile and estimated on-going maintenance and operation costs by implementation phase based on comparable experiences. Departmental responsibility will also be identified, as will the relationship to possible funding and other specific requirements.

5.10. IMPLEMENTATION AND FINANCE MECHANISMS

RANKING OF IMPROVEMENTS

The recommended programs and improvements will be ranked according to general planning criteria and submitted to the TAC for review and comment. A decision matrix will be used to attach weights to each criterion and determine which recommendations meet the highest number of criteria listed. These criteria will consist of those listed below and others developed with staff.

- | | |
|--|---|
| a. Closure of critical gap or correction of a bottleneck in existing system; | f. Cost effectiveness; |
| b. Improvement or program that serves an immediate safety need; | g. Projected reduction in vehicle trips and vehicle miles traveled; |
| c. Segment which will attract high usage; | h. Integration into the existing regional bikeway system; |
| d. Current availability and/or suitability of right of way; | i. Interface with other modes; and |
| e. Service to a previously neglected part of Modesto; | j. Local political and community support. |

The recommended programs and improvements will next be evaluated according to very specific criteria listed in funding sources such as TEA-21 and TDA Article 3 bulletins. Each source requires a different type of project and documentation of impacts and benefits. Because of this, the selected routes or improvements will be developed in sufficient detail to qualify for the most stringent program requirements. Other criteria to be applied from TEA-21 includes an emphasis on commuter routes, coordination with adjoining community bikeways, coordination with other modes (transit), a completed and adopted bikeway plan, compatibility with the Regional Transportation Plan, use of multiple sources for funding, and meeting Chapter 1000 guidelines of the Caltrans Highway Design Manual. Our team will work closely with the staff and TAC throughout the selection and ranking process, lending expertise on funding, planning, and design guidelines when required.

PHASING

A Phasing Plan will be developed based on the ranking outcome combined with (a) funding availability and requirements, (b) other programmed transportation improvements, (c) eliminating an immediate bottleneck or safety hazard, and (d) ensuring that the system grows rationally rather than as a series of disconnected pieces over time. The Phasing Plan will recommend a ranking (short-term, immediate-term, and long-term) to complete a system over the next 10 to 20 years.

FUNDING REQUIREMENTS

Alta will identify potential matching and major funding sources, compile criteria and requirements, assist with completing applications, design this study to serve as an appendix to the funding application, and relate the anticipated schedule of funding to the prioritized list of segments. Costs of the phased improvements will be compared with funding needs, so that long term programming for local matching funds can be accomplished. We will recommend all appropriate funding options, which may include:

- a. Local public works and parks and recreation Capital Improvement Project budgets
- b. State agencies (Bike Transportation Account and Transportation Development Act Article 3)
- c. Federal government -TEA-21 (composed of eight separate funding sources)
- d. Non-profit organizations
- e. Corporate sponsors
- f. Zoning requirements
- g. Development fees
- h. Air quality grants

FINANCIAL PLAN

Based on the recommended phasing schedule, findings of regional significance, cost information, and funding opportunities, we will produce a final Priority List and 20-year Financial Plan that clearly identifies the funding requirements by year for the life of the plan. This will include estimates of operating and maintenance costs that are usually borne by local governments.

Funding for on-going operational and maintenance costs is often a key concern related to trail development. Alta will outline a variety of programs that could potentially be used to fund on-going trail maintenance, ranging from the formation of community assessment districts to private sponsorship efforts such as Adopt-a-Trail programs.

Alta will also compile past expenditures on bicycle facilities and programs by the City of Modesto for use in future Bike Transportation Account applications.

5.11. UPDATED POLICIES, GUIDELINES AND EDUCATION

The Policies, Guidelines and Education element of the Plan Update will draw on Chapter VI of the existing Master Plan, consisting of policies, facility guidelines, and educational programs to support the non-motorized transportation in Modesto. We will update and amend the existing Policies section as appropriate. The Alta team can draw from our extensive work with many experienced public sector planning and engineering professionals to identify policies, guidelines, and programs appropriate for application in Modesto. Some key types of policies and programs may include traffic calming standards; pedestrian/bicyclist awareness campaigns; bicycle education; or safety enforcement.

5.12. PREPARE DRAFT PLAN

Alta will prepare up to one (1) photo-ready reproducible black-and-white copy, one (1) PDF format electronic copy, and one (1) color copy with graphics and large-scale maps of the Draft Non-Motorized Transportation Master Plan Update for City review. The document will include:

- a. Title page
- b. Table of contents
- c. Executive summary
- d. Intent and Requirements of Proposed Improvements
- e. Relationship to 1996 Master Plan
- f. Summary of Changes to 1996 Master Plan
- g. Existing Conditions
- h. Updated Non-Motorized Transportation Network (short-, intermediate-, and long-term)
- i. Updated Policies, Guidelines and Education
- j. List of tables, figures, and appendices
- k. List of references and bibliography
- l. Technical appendices

The Plan Update report will also include maps and graphics that depict facility improvements ranging from bikeways and bicycle parking to intersection improvements and signage. The Non-Motorized Transportation Plan Update plan will be prepared according to all requirements of California Streets and Highways Code 891.2 to enable the City to apply for Bicycle Transportation Account funds, as well as other transportation funds.

Following preparation of the Plan Update Report, Alta will hold a meeting with City staff and the TAC to outline key elements of the Draft Plan, including the network components, phasing recommendations and cost estimates.

Task 5 Deliverables:

TAC/Staff Meeting to Discuss Data collected during Task 1 and First Public Meeting Input
Updated Network

- Large-scale color map illustrating the proposed Updated Network
- Text descriptions of major recommended routes
- Cross sections for major unique routes
- General cost estimates

Draft Non-Motorized Transportation Master Plan Update, including all elements listed above and large-scale map of Updated Network for Second Public Meeting.

TAC/Staff Meeting to present Updated Network, Phasing Recommendations, and Cost Estimates (prior to Second Public Meeting)

TASK 6: ENVIRONMENTAL REVIEW

Alta will review the Initial Study and Negative Declaration for the 1996 Non-Motorized Transportation Master Plan. A new CEQA Initial Study checklist will be prepared for the Plan Update. Written explanations will be prepared for each environmental issue area, drawing on baseline information from the City of Modesto Master EIR where appropriate. Following completion of the Checklist, a recommendation as to the appropriate level of CEQA/NEPA environmental clearance for the Plan Update will be given (e.g. Negative Declaration, MND, EIR). Alta will note whether any additional technical study is required in order to make a conclusion about the environmental impacts of the Plan Update. Alta will prepare one (1) photo-ready copy and one electronic copy of the Initial Study checklist to City staff.

Task 6 Deliverable:

Initial Study Checklist and recommendation for further CEQA/NEPA documentation

TASK 7: TRAIL MAP/BROCHURE

Following finalization of the Preferred Network, the Alta team will write a press release for distribution to the local media announcing the updated non-motorized plan and the availability of the new bike routes brochure. The City will distribute the press release.

Based on the Preferred Network, we will design and produce a brochure/map featuring the non-motorized transportation routes and trails in the City of Modesto. The brochure will be approximately 20 X 24 inches, and fold down into approximately 3 1/2 X 8 inches. This user-friendly, "slim jim" size fits easily into existing display racks, backpacks and pockets. The map will be color coded to feature bike lanes, off-street bike paths and trails, and recommended rides. The reverse side of the map will feature descriptions of the lanes, trails and rides as well as safety tips, information about how to use bikes on transit, and additional resources for cyclists and pedestrians.

Task 7 Deliverable:

Press Release to Notify Residents of Plan and Map Availability

Draft Trail Map/Brochure

TASK 8: FINAL PLAN AND PUBLIC HEARING

Alta will respond to City comments on the Draft Master Plan Update, brochure and Trail Map. We will prepare one (1) color copy of the Final Plan including fold-out maps, cross sections, and other design renderings, one (1) black-and-white reproducible copy, and one (1) PDF format electronic file on CD. For the Trails Map, we will make final corrections and changes, prepare the brochure for printing, and present one (1) original copy, one (1) electronic file, and GIS and AutoCAD files as appropriate.

Following completion of the Final Non-Motorized Transportation Plan Update and Trails Map, Alta staff will present a summary of the document and map to the Modesto City Council at a public hearing.

Task 8 Deliverables:

Final Non-Motorized Transportation Plan Update

Final Trail Map/Brochure

City Council Hearing

Meeting of Safety and Communities Committee

Meeting of Economic Development Committee

TASK 9: OPTIONAL WORK - PREPARE GRANT APPLICATIONS

As an optional task (not included in the proposed budget), Alta can prepare two applications for funding bicycle and/or pedestrian projects. Approximately two-thirds of Alta's applications have been successful in receiving funding. The work would include following all of the guidelines to fill out the application forms, including cost estimates, maps, and diagrams as needed. Prior to preparing these applications, Alta will advise the City as to the type of projects that are likely to be funded by specific funding sources.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-94**

**A RESOLUTION ACCEPTING THE PARKS, RECREATION AND
NEIGHBORHOODS DEPARTMENT FUND DEVELOPMENT PROGRESS
REPORT FOR 2002.**

WHEREAS, in recent years the City of Modesto Parks, Recreation and Neighborhoods Department has faced an increase in the demand for services and the prospect of dwindling resources, and

WHEREAS, the City of Modesto Parks, Recreation and Neighborhoods Department, in an effort to be proactive in securing future funding for its parks, programs and facilities, created a dedicated fund development function, and

WHEREAS, this action included hiring a Fund Development Specialist responsible for securing grant funding and increasing co-sponsorships and donations, and forming a Fund Development Team, and

WHEREAS, in the one year since the fund development function was established, co-sponsorships and grant awards increased, alternate funding sources were identified, and a proposed Strategic Funding Plan was developed, and

WHEREAS, the City of Modesto Parks, Recreation and Neighborhoods Department submits for acceptance a Fund Development Progress Report for the year 2002, which outlines the department fund development efforts and achievements during FY 2002-2003, and

WHEREAS, at its meeting on February 3, 2003, the Safety and Communities Committee supported acceptance of the Fund Development Report for 2002,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby accepts the Parks, Recreation and Neighborhoods Fund Development Progress Report for 2002, attached hereto as **Exhibit "A"** and incorporated herein by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of February of 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: None

Attest: Jean Zahr
JEAN ZAHR, City Clerk

APPROVED AS TO FORM:

By: Michael D. Milich
MICHAEL D. MILICH, City Attorney

Fund Development Progress Report

Background:

In recent years, the Modesto Parks, Recreation and Neighborhoods Department has faced an increase in the demand for facilities and services and a decrease in funding for those facilities and services. Parks and recreation systems all over the country are facing the same challenges and others, including:

- Competition for scarce resources
- State and local budget shortfalls
- Dwindling alternate funding sources
- National focus on funding for public safety

Noting these trends nationally and locally, Modesto Parks, Recreation and Neighborhoods was determined to take these proactive steps in securing the future of its programs and reducing dependence on the General Fund:

- Increase co-sponsorship efforts
- Increase number of grant submissions
- Dedicate a "fund development" function

The department also created a new position dedicated to fund development. It is a one-year provisional position designated as an Administrative Analyst I, with the functional title: Fund Development Specialist. It was anticipated that the new position would be responsible to secure grant funding, as well as to increase co-sponsorships and donations from local businesses, organizations, community groups and individuals.

It was anticipated that the position would be "fiscally neutral" to the General Fund, securing enough new funding for existing programs and service credit off-sets to fully fund continuation of the position.

In addition, the Fund Development Specialist has explored alternative funding sources and best practices of other agencies. These studies have led to recommendations for staff training and development of new funding strategies.

This report outlines the fund development efforts and achievements of the Parks, Recreation and Neighborhoods Department over the last 12 months. It also contains brief discussions regarding future fund development activities.

Prepared by: Debbie Carlson-Gould
 Fund Development Specialist
 Parks, Recreation and Neighborhoods Department

1. Grant Seeking and Grant Writing.

Since February 2002, applications for the following grants have been submitted:

Parks, Recreation and Neighborhoods Grant Seeking 2002

	Source	Project	Amount Requested	Amount Awarded
1.	American Rivers-NOAA	Removal of Dennet Dam	\$50,000	Notification pending
2.	Caltrans Bicycle Transportation Account (December 2002)	VA Corridor Phases I and III	\$1,195,000	Notification pending
3.	Caltrans Bicycle Transportation Account (June 2002)	VA Corridor Phases I and III	\$3,200,000	\$0
4.	Caltrans Community Based Transportation Planning Grant	Campus Connection Feasibility Study	\$109,200	Notification pending
5.	Great Valley Center LEGACI Grant	Neighborhood Nature Experience (Summer Park Program)	\$9,000	\$0
6.	Habitat Conservation Fund	Removal of Dennet Dam from Tuolumne River	\$200,000	Notification pending
7.	Land and Water Conservation Fund	Creekwood Park Picnic Shelter and other site amenities	\$37,750	\$36,531
8.	Children and Families Commission funded by Prop 10	Sharp Park Playground Equipment	\$20,000	\$20,000
9.	Prop 12 Per Capita	Graceada and Beyer Park Pavilions	\$197,000	\$197,000
10.	Prop 12 Per Capita	Orville Wright Park Development	\$932,000	\$932,000
11.	Public Health Institute/California Healthy Cities Technical Assistance Grant	Bicycle Safety	\$18,000	\$18,000
12.	Recreational Trails Program	TRRP Non-motorized trail system	\$200,000	Notification pending
13.	Riparian and Riverine Habitat Grant	TRRP	\$400,000	\$0
14.	Riparian and Riverine Habitat Grant	Peggy Mensinger Trail Enhancements	\$41,411	\$0
Totals			\$6,609,361	\$1,203,531

Upcoming Grant Opportunities in 2003 Government Sources

- **Proposition 40**

On March 5, 2002, voters passed Proposition 40, the \$2.6 billion "California Clean Water, Clean Air, Safe Neighborhood Parks, and Coastal Protection Act of 2002" (2002 Resources Bond). The passage of Proposition 40 provided funds for local assistance grants.

We expect the state to allocate \$1.5 million in funding to the City of Modesto through the Per Capita Grant Program in FY 2003-2004. Modesto will also be eligible to compete for additional Prop 40 funds through the Murray Hayden Urban Youth Services Grant Program and AB 1481, Frommer - Urban Park Act of 2001 Grant Program.

- **Land and Water Conservation Fund (Competitive Grants)**

Applications for funding through this source have been successful in the past. We plan to submit a request in May 2003 for a picnic shelter in Orville Wright Neighborhood Park.

- **Caltrans- various (Competitive Grants)**

We are positioned to apply for Safe Routes to Schools and various non-motorized transportation funding.

- **Habitat Conservation Fund (Competitive Grant)**

- **Recreational Trails Program (Competitive Grant; pending federal reauthorization)**

Other Sources

- **Great Valley Center-LEGACI Grant (Competitive Grants)**

- **Tony Hawke Foundation (Competitive Grants)**

- **Tiger Woods Foundation (Competitive Grants)**

2. Sponsorships/Co-Sponsorships

Over the last five years the amount of support from sponsorships and co-sponsorships has varied widely. Total values from cash and in-kind donations have averaged \$66,000. The number of donating groups has varied from twenty-eight to fifty-eight groups. (Note: reporting has not been consistent department-wide.)

In fiscal year 2003 to date, the department has secured over \$107,000 in donations and co-sponsorships.

3. Legislative Requests

Virginia Corridor Rails-to-Trails Project

\$13.7 million – TEA-21 Funding

\$1 million – Transportation and Community System Preservation Program

\$14.5 million – Legislative Request, Sponsor: Congressman Dennis Cardoza

\$2 million – Legislative Request, Sponsor: Senator Barbara Boxer

Partnership for Healthy Youth
(Citywide Junior High campus lunchtime recreation and education programs)
\$100,000 – Legislative Request, Sponsor: Congressman Dennis Cardoza
\$100,000 – Labor, Health & Human Services Appropriations Bill

Tuolumne River Regional Park Trail Development
\$1,015,060 – TEA-21 Funding

Class I Trailhead Peggy Mensinger Trail and Dry Creek Regional Park
\$3.5 million – TEA-21 Funding

4. Other Significant Funding Sources

McHenry Mansion Foundation
\$48,750 – for improvements and furnishings at the McHenry Mansion

McHenry Museum Guild
\$5,000 – for improvements to the McHenry Museum

Soft Drink Vending Machines
\$25,000-\$30,000 per year

Cell Tower Agreements
\$194,000 per year

5. Strategic Fund Development Plan

In order to fully grasp the funding needs and activities of the department, the Fund Development Specialist conducted research and interviewed Parks, Recreation and Neighborhoods staff regarding budgets, current funding sources, types of projects, and goals. She met with local fundraising professionals to discuss local strategies and best practices, and conducted interviews and research of other municipalities and park districts regarding the most lucrative fund development practices of these agencies.

Key areas studied:

- Government grant sources
- Private and corporate grant sources
- Traditional fundraising activities, e.g. annual campaigns, special events, etc.
- Municipal marketing/corporate sponsorship
- Naming rights
- Fees and Charges
- Cause-related marketing
- Formation of non-profit park foundation
- Endowments
- Other private sector sources, e.g. Adopt-A-Trail, advertising, event sponsorship

Based on findings from these studies, and analysis of department resources, it became apparent that to make best use of fund development efforts, to maximize return on investment of staff time and other resources, a set of comprehensive fund development

strategies and practices would be needed. (See *Fund Development Strategies and Actions* and *Fund Development Policy Considerations*.)

6. Fund Development Team

In July 2002, a Fund Development Advisory Team was formed. In a collaborative forum, led by Fund Development Specialist, the team is responsible for addressing key topics related to fund development. The team format benefits the department through the pooling of knowledge, and by streamlining and coordinating the donation and sponsorship seeking processes.

The team has developed three important documents:

- Project Funding Needs Report ("master list" to aid in strategic fundraising efforts)
- Event Sponsorship Guidelines (with recommended staff training)
- Donor/Sponsorship Recognition Guidelines

Future functions of the team include:

- Centralize/ coordinate all solicitations and recognition
- Develop solicitation materials
- Continually identify potential new funding sources and sponsors
- Recommend funding strategies and sources to fully realize funding potential

7. Staff Development

This section outlines staff development (continuing education) activities in various fund development topic areas.

Fund Development Specialist Training

- *Securing Your Organization's Future: Strategic Fundraising*
- *Selling More Sponsorship*
- Association of Fundraising Professionals - membership

Other Staff Training

- *Fund Development Overview* for all full time staff at Bi-Annual Staff Meeting (presented by Fund Development Specialist)
- *Private Sector Support*, including independent park foundations and endowments, for key management and program staff (presented by Bill Koegler, Oglebay Foundation)
- *Municipal Marketing* presentation for PRN Executive Team (presented by Pat Saign, Public Enterprise Group)
- *Maximize Event Sponsorship* for key program staff (planned for February 2003)

Through formal and informal means, Fund Development Specialist continues to emphasize to staff and management the importance of incorporating fund development strategies as major components in project and program planning.

8. Modular DVD/Video Presentation

Fund Development Specialist is coordinating the production of a new fundraising tool. This state-of-the-art DVD/video presentation will allow PRN division and activity-specific segments of the DVD/video to be viewed individually or to be combined with other segments for a fully customized presentation. This format is preferred because the user needs only one disk to prepare and present a variety of customized presentations

suited to the needs of the presenter and audience. It also eliminates the need for multiple videotapes or power point presentations.

Use of this cutting edge technology will effectively promote the Parks, Recreation and Neighborhoods Department's activities to a variety of audiences, as well as reflect the creative and innovative spirit of the department.

Potential audiences:

- Service clubs and community groups (Rotary, Soroptomists, Omega Nu, etc.)
- Corporate/Private Foundation Boards of Directors
- Government grant program officers
- Estate planner associations
- Potential "Friends" groups
- Corporate sponsor/partner prospects (municipal marketing, naming rights, etc.)

In addition to serving as an exciting fundraising tool, this DVD/video presentation may also play an important role in the following areas:

Public Relations

- Schools
- Churches
- Service groups
- Community non-profit groups
- Modesto Public Access Channel
- Tradeshow exhibits
- Professional Conferences
- Park design workshops

Marketing

- Community and Economic Development
- Modesto Centre Plaza
- Convention and Visitors Bureau
- Golf Modesto
- John Thurman Field alternative events
- Neighborhood Services

Internal Uses

- Recruiting
- New employee orientation
 - City-wide staff
 - Parks, Recreation and Neighborhoods staff
- New Council Member orientation

9. Future Fund Development Functions

It is anticipated that current fund development efforts will be continued. However, discussion of new fund development strategies (*See Fund Development Policy Considerations*) should lead efforts in new directions.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-95**

A RESOLUTION ACCEPTING THE FUND DEVELOPMENT STRATEGIES AND ACTIONS AS RECOMMENDED BY THE PARKS, RECREATION AND NEIGHBORHOODS DEPARTMENT AND DIRECTING STAFF TO DEVELOP SPECIFIC FUNDING PLANS FOR CORPORATE SPONSORSHIPS/ MUNICIPAL MARKETING, NAMING RIGHTS, EXCLUSIVE VENDOR/OFFICIAL SUPPLIER AGREEMENTS AND FRIENDS OF PARKS FOUNDATION.

WHEREAS, in recent years the City of Modesto Parks, Recreation and Neighborhoods Department has faced an increase in the demand for services and the prospect of dwindling resources, and

WHEREAS, the City of Modesto Parks, Recreation and Neighborhoods Department, in an effort to be proactive in securing future funding for its parks, programs and facilities, created a dedicated fund development function, and

WHEREAS, this action included hiring a Fund Development Specialist responsible for securing grant funding and increasing co-sponsorships and donations, and forming a Fund Development Team, and

WHEREAS, in the one year since the fund development function was established, proposed Fund Development Strategies and Actions were developed, and

WHEREAS, the Fund Development Strategies and Actions recommend that staff provide the City Council with a more specific plan in the areas of Corporate Sponsorship/ Municipal Marketing, Naming Rights, Exclusive Vendor/Official Supplier Agreements, and a Friends of Parks Foundation as these plans are developed, and

WHEREAS the Fund Development Strategies and Actions further recommend that staff pursue an Asset Inventory and Asset Valuation, and

WHEREAS, at its meeting held on February 3, 2003, the Safety and Communities Committee supported acceptance of the Fund Development Strategies and Actions,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the Parks, Recreation and Neighborhoods Department's Fund Development Strategies and Actions attached hereto as **Exhibit "A"** and incorporated herein by this reference.

BE IT FURTHER RESOLVED that staff is hereby directed to develop specific plans for Corporate Sponsorship/ Municipal Marketing, Naming Rights, Exclusive Vendor/Official Supplier Agreements, and a Friends of Parks Foundation and to provide the City Council with these plans as they are developed.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of February of 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating,
O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: None

Fund Development Strategies and Actions

Staff has been investigating new revenue sources in order to enhance and expand services to the public while minimizing impact on the General Fund. Staff has conducted extensive research and, in some cases, program development for these fund development activities.

Based on this research, the following list was generated. It catalogs current revenue generating activities. It also lists potential future strategies and actions (indicated by the designation "New").

It should be noted that these strategies and actions would not and could not be implemented concurrently. The list is intended to illustrate all the means of fund development available to the Parks, Recreation and Neighborhoods Department.

Parks, Recreation and Neighborhoods Fund Development Strategies and Actions

I. Government Grant Programs

- A. California State Bond Acts
 - 1. Prop 12
 - a. Per Capita (non-competitive)
 - b. RZH (competitive and non-competitive)

 1. Annual campaign
 2. Major gift campaign
 3. Endowments
 4. Planned giving
- VIII. *(New)* Merchandise (fund development *plus* marketing!)**
- A. Apparel
 - B. Postcards
 - C. Calendars

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003- 96**

A RESOLUTION AFFIRMING THE CITY'S CO-SPONSORSHIP OF "EARTHDAY IN THE PARK FESTIVAL, 2003!" AT GRACEADA PARK AND ALLOWING THE SALE OF MERCHANDISE IN THE PARK DURING THE EVENT.

WHEREAS, in 1970, Earth Day was established to make the public aware of programs successful in protecting the environment and conserving natural resources, and

WHEREAS, by Resolution No. 92-129, adopted March 24, 1992, the City Council acknowledged "Earth Day in the Park" as an annual event, and

WHEREAS, the Citizen's Advisory Committee on Recycling (CACOR) sponsors the event, and the 14th Annual "Earth Day in the Park" will be held on Saturday, April 12, 2003, at Graceada Park, and

WHEREAS, "Earth Day in the Park Festival, 2002!" drew 92 vendors and an estimated 15,000 residents, and

WHEREAS, because the CACOR is an advisory committee to the City Council, the group's ability to obtain event liability coverage is restricted, and City co-sponsorship of the event will allow provision of automatic coverage under the umbrella of the City's existing insurance policy, and

WHEREAS, the City's Risk Manager has assessed the scope of the event and determined it to be of minimal exposure to the City, and

WHEREAS, as in prior years' events, the Committee seeks Council approval for the sale of merchandise in the Park during the event, and

WHEREAS, this event provides a forum for merchants to display and sell their “environmentally friendly” merchandise, and for the creation of a “festival atmosphere”, while giving the public an opportunity to make purchases of positive benefit to the environment,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the City hereby affirms its co-sponsorship of “Earth Day in the Park Festival, 2003!”, at Graceada Park.

BE IT FURTHER RESOLVED by the Council that it hereby approves the sale of merchandise at Graceada Park during the “Earth Day in the Park Festival, 2003!” event.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of February, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

BYLAWS OF
MODESTO CONVENTION AND VISITORS BUREAU
A California Nonprofit Public Benefit Corporation

ARTICLE I

NAME

The name of this corporation is **MODESTO CONVENTION AND VISITORS BUREAU**
(ABureau@)

ARTICLE II

PRINCIPAL OFFICE

The principal office of the organization for its transaction of business is located in
Modesto, California.

ARTICLE III

OBJECTIVE AND PURPOSE

Section 1. The corporation is organized as a nonprofit public benefit corporation under
Internal Revenue Code Section 501(c)(6) and California Revenue and Taxation Code Section
23701(e).

The objectives of the Bureau are as follows:

A. To attract visitors to the area by promoting and marketing Modesto as a
convention, sports, tourism, and leisure travel destination.

B. To provide coordination and leadership for the community and the visitor industry on matters relating to convention activity and tourism.

C. To gather community information designed to convey to opinion leaders and the public at large the status of the visitor industry.

D. To work with local governmental units, private enterprise and other interested parties to structure suitable financing plans for the Bureau, and to implement those plans.

Section 2. Limitation. The Bureau shall be nonprofit and nonpartisan and shall not participate in or lend its support to the election of any candidate for public office.

ARTICLE IV

MEMBERSHIP

Section 1) Members. The corporation shall have no members within the meaning of the Nonprofit Corporation Law.

Section 2) Associates. The Bureau may refer to persons or entities associated with it as Amembers@, even though such persons or entities are not voting members. The term and condition under which such persons or entities are referred to as Amember@ shall be determined by the board of directors.

ARTICLE V

DIRECTORS

Section 1. Number. The authorized number of directors of the Bureau shall be seven (7). Each member of the City Council shall appoint one member to the Board of Directors. In addition there shall be three (3) ex-officio, nonvoting members of the board as follows:

§ The Modesto Centre Plaza Manager

§ A Modesto City Councilmember appointed by the Mayor

§ The Chief Executive Officer. The CEO and/or staff shall be ex-officio members of all Board committees.

Section 2. Designated Directors. Seven (7) of the directors shall be designated, holding office for four (4) years, and at the pleasure of their appointing body and until a successor has been designated and qualified. [The designated directors shall appoint three (3) additional Aat large@ directors.] The term of each director shall be four (4) years. No person shall serve more than two (2) terms as a director. Board members are eligible for re-appointment to the Board after a two- (2) year absence.

Section 3. The term of office shall be effective as of the first of January.

Section 4. Serving any portion of an unexpired term shall not be counted as service of one term. Members not eligible for re-appointment may continue to serve until their successors are appointed and meet all of the qualifications outlined in Article V, Section 8 of these Bylaws. No member shall serve more than a maximum of eight (8) consecutive years.

Section 5. The terms of office for the Board will be set to coincide with the term of office of their respective appointing City Council member. Each member=s term shall terminate on December 31 of his or her respective year.

Section 6. The members of the Board shall receive no compensation for the performance of their official duties.

Section 7. Appointments to fill vacancies on the Board shall be handled in the same manner as original appointments. When a vacancy occurs during a term, the appointment to fill such vacancy shall be for the unexpired portion of the term.

Section 8. Qualifications. The board of directors should be representative of business interest groups throughout the City including, but not limited to, the following business categories: hotel, restaurant, entertainment, travel, sports, retail, public relations, advertising, and marketing.

Directors shall be chosen without discrimination on the basis of race, sex, sexual preference, color, religion, age, national origin, income, marital status or handicap. Directors are expected to be actively involved and shall serve on committees and task forces as appointed by the President and approved by the board.

Section 9. The members of the Committee shall reside or have business interests or employment within the city limits of the City of Modesto at the time of appointment and must maintain residence/business interest/employment within the City at all times during their service on the Committee.

Section 10. Vacancies on Board. A vacancy on the board shall exist on the occurrence of the following:

- A. **Resignation.** The resignation or death of any director;
- B. **Designated Seats.** The declaration by a designating agency that the designation has been terminated;
- C. **Attendance.** Unexcused absence from three (3) consecutive regular meetings in any twelve (12) month period shall result in the position being vacated. Excused absences shall

include illness, medical reasons, work related conflicts, and jury duty which shall be authorized provided that notification is given to the executive director or appropriate staff by telephone, facsimile, mail or e-mail at least 48 hours prior to such absence. In addition, attendance shall be recorded in the minutes of monthly meetings and such minutes shall be transmitted to the board of directors monthly.

D. Termination. A designated director who is also an elected official is no longer in office or unable to perform his or her public duty with the designating public agency;

E. Qualifications. The director no longer meets the qualifications set forth in these bylaws; or

F. Expulsion. The expulsion of any director upon a 2/3 majority vote of the board of directors.

An appointee of the majority of the directors shall fill any non-designated director vacancies occurring on the board of directors, by reason of any of the above-listed events. Such director, so appointed, shall hold office until expiration of the board term of the vacating officer.

Section 11. Powers.

A. Board Direction. Subject to the provisions and limitation of the California Nonprofit Public Benefit Corporation Law and any other applicable laws, the corporation=s activities and affairs shall be managed, and all corporate power shall be exercised, by or under the board=s direction.

B. Appointments. The directors shall have the specific power to appoint and remove at the pleasure of the board, the chief executive officer (CEO)/executive vice-president,

to approve the compensation range and describe the powers and duties for that official consistent with the law, and to require a bond of any employee handling any monies of the organization.

C. **Contracts.** The board of directors may authorize any officer or officers, agent or agents, to enter into any contract or execute and deliver any instrument on behalf of the corporation and such authority may be general or confined to specific instances.

D. **Loans.** No loans shall be contracted on behalf of the corporation and no evidence of indebtedness shall be issued in its name unless authorized by resolution of the board of directors. Such authority may be general or confined to specific instances.

E. **Payment of Monies.** All checks, drafts, and other orders of payment of money issued in the name of the corporation within budget shall be signed by such officer or officers, agent or agents, of the corporation and in such manner as shall from time to time be determined by resolution of the board of directors.

F. **Deposits.** All funds of the corporation not otherwise employed shall be deposited from time to time to the credit of the corporation in such depositories as the board of directors by resolution may direct.

Section 12. Meetings.

A. **Meetings.** Regular meetings of the board of directors shall be held at such times and places as from time to time may be designated by the president of the board. Special meetings of the board for any purpose or purposes may be called at any time by the president or by a majority of the directors. The time for regular meetings and special meetings of this corporation shall be provided for by board resolution or, if none, by the president.

B. Notice. Written notice of the time and place of any regular or special meeting of the board of directors or the executive committee shall be delivered personally to each voting member of the respective body, or sent to each voting member by mail or other form or written delivery, charges prepaid, addressed to him or her at his or her address as it is shown in the corporate records, or by fax or e-mail, sent to him or her at the fax number or e-mail address shown in the corporate records. Any such notice shall be mailed, delivered, faxed or e-mailed at least seventy-two (72) hours before the date of a regular meeting, and at least twenty-four (24) hours before the time of a special meeting.

C. Brown Act Compliance. All meetings of the corporation, whether of the board of directors or its committees and commissions, shall be held in conformity with the Brown Act, found at Government Code Section 54950 et seq. Accordingly, any and all meetings of the board of directors and the corporation=s committees and commissions to which the Brown Act applies, shall be open and public.

1. A Meeting@ Defined. A Ameeting@ under the provisions of the Brown Act includes any congregation of a majority of the members of the board of directors, executive committee, or any other committee of the corporation to which the Brown Act applies, at the same time and place to hear, discuss, or deliberate upon any item that is within the subject matter jurisdiction of any such body or the local agencies to which it pertains.

2. Notice. Where required by the Brown Act, the board of directors of the corporation shall:

(a) Cause mailed notice of any regular meeting to be sent at least seventy-two (72) hours prior to the date set for the meeting to any and all persons who have filed a written request for that notice with the board of directors;

(b) Cause mailed notice of any special meeting to be given as deemed practical, provided it otherwise complies with Brown Act requirements, where the special meeting is called less than seventy-two (72) hours prior to the date set for the meeting to any and all persons who have filed a written request for that notice with the board of directors;

(c) Cause notice of any special meeting of the board of directors to be personally delivered or mailed to each local newspaper of general circulation, radio or television station requesting notice in writing, said notice, stating time, place and business to be transacted, to be received at least twenty-four (24) hours before the time of the meeting as specified in the notice;

(d) Cause notice of the date, time and location of any regular meeting, and an agenda containing a brief general description of each item of business to be transacted or discussed at the meeting, to be posted at least seventy-two (72) hours prior to the meeting in a location that is freely accessible to members of the public; and

(e) Cause notice of the date, time, and location of any special meeting to be posted at least twenty-four (24) hours prior to the special meeting in a location that is freely accessible to members of the public.

3. **Agenda.** Every meeting agenda mailed or posted shall provide an opportunity for members of the public to directly address the board of directors or executive committee on any item of interest to the public, before or during consideration of the item.

4. **Adjournment.** Where a meeting is adjourned, the time and place to which it is adjourned shall be announced at the time of adjournment, and the time and place so announced shall be conspicuously posted on or near the door of the place where the regular, adjourned regular, special or adjourned special meeting was held within twenty-four (24) hours after the time of adjournment. Written notice of said adjournment shall be given in the same manner as provided for special meetings under Article 5, Section C2, subsections b, c and e of these bylaws. Where a regular meeting or adjourned regular meeting is adjourned, the resulting adjourned meeting is a regular meeting for all purposes, including notice.

5. **Cancellation of Scheduled Meetings.** The president, with the concurrence of the chief executive officer, may cancel any scheduled meeting when in their opinion there is no policy matter requiring a full board meeting, or due to lack of quorum.

D. Quorum.

1. **Meetings of the Board of Directors.** At least half of the whole number of directors then serving on the board shall constitute a quorum for the transaction of business by the board of directors of the corporation, and every act or decision of a majority of the directors present at a meeting at which at least a quorum is present, made or done when duly assembled, shall be valid as the act of the board of directors. A majority of those present at the time and place of any stated or special meeting, although less than a quorum, may adjourn without further notice. When a quorum shall attend, any business may be transacted that might have been transacted at the meeting had the same been held on the day which the same was originally appointed or called. Should a meeting be held with less than a quorum present, any business transacted thereat may be advisory only and not valid as an act of the board of directors.

Every voting member or member of the board of directors shall have one vote for the transaction of business of the corporation, and the use of proxy votes is prohibited.

2. **Meetings of the Executive Committee.** The presence of a majority of the executive committee, together with the chief executive officer, at any executive committee meeting shall constitute a quorum.

E. **Waiver of Notice.** Providing there is no violation of the Brown Act, the transactions of any meeting of the board of directors or any committee or commission of this corporation, however called and noticed, shall be valid as though a meeting had been held after regular call and notice if a quorum is present and if either before or after the meeting each of the voting members not present signs a written waiver of notice, or a consent to holding this meeting, or an approval of the minutes of the meeting. Notice of a meeting shall also be deemed given to any director who attends the meeting without protesting before or at its commencement about the lack of adequate notice. All of the waivers, consents, or approval shall be filed with the corporate records or be made part of the minutes of the meeting.

F. **Conduct of Meeting.** The president of the board, or in his or her absence, the vice-president, or in the absence of the vice-president, a chairperson elected by the directors present, shall call the meeting to order, and shall act as the presiding officer thereof.

G. **Minutes.** The chief executive officer of the corporation shall cause the minutes of all meetings to be recorded, and in his or her absence, the presiding officer may appoint any person to act as recorder. These minutes shall be promptly mailed to each member of the committee having met, and to each member of the board of directors of the corporation, and a copy shall be filed in the corporation office with the corporate records.

ARTICLE VI

OFFICERS

Section 1) Officers. The executive officers of the corporation shall be a president of the board, the immediate past president, vice-president, treasurer, and chief executive officer, who shall serve as the executive director of the corporation.

In addition to the above-mentioned officers, the board of directors may appoint such other officers as the business of the corporation may require, each of whom shall hold office for such period, have such authority, and perform such duties and receive such compensation as the board of directors may from time to time prescribe. No one director may hold more than one position.

Section 2) Election. All officers, except the chief executive officer, shall be elected by the board of directors from their own number and shall hold office for one (1) year or until their successors are elected. There shall be no limit on the number of consecutive terms that a board member can hold an office, except as provided for by the board of directors.

Section 3) Compensation. The compensation of the chief executive officer shall be fixed by the board of directors. No compensation shall be given to the executive officers, except the chief executive officer.

Section 4) Removal and Resignation. Subject to the rights, if any, of an officer under any contract of employment, the board at any regular or special meeting may remove any officer, with or without cause.

Section 5) Vacancies. If the office of president, immediate past president, vice-president, or treasurer, becomes vacant, by reasons of death, resignation, removal or otherwise,

the board of directors shall elect a successor, who shall hold office for the unexpired term, and/or until his or her successor is elected.

Section 6) Positions and Responsibilities.

A. President. The president of the board shall preside at all the meetings of the membership. The president shall execute, with the chief executive officer and in the name of the corporation, all deeds, bonds, contracts exceeding \$7,500 in value, and other obligations and instruments authorized by the board of directors to be executed, and with the chief executive officer shall sign all certificates of honorary membership of the corporation. The president shall appoint from the board of directors any committees that may from time to time be needed to conduct the business of the corporation. The president shall be an ex officio member of all committees and shall be a member of the executive committee.

The president shall also have such other powers and shall perform such other duties as may be assigned to him or her by the board of directors.

B. Immediate Past President. The immediate past president shall be a member of the executive committee and perform such duties as may be prescribed from time to time by the board of directors.

C. Vice-President. The vice-president shall be vested with all the powers and shall perform all the duties of the president of the board, in case of the absence or disability of the president. The vice-president shall also have such other powers and shall perform such other duties as may be assigned by the board of directors.

D. Treasurer. The treasurer shall insure the safekeeping of all funds of the corporation and insure the deposit of them in the bank or banks that may be designated by the

board of directors. Checks of the corporation in excess of a maximum amount authorized by the board shall be paid out only when signed by the chief executive officer and any other elected officer approved by the board for that purpose, or by such agents as may be designated by the board of directors as authorized to sign them. The treasurer shall have such other powers to perform such duties as may be prescribed by the board of directors from time to time.

E. Chief Executive Officer. The chief executive officer (hereinafter, ACEO@) shall be the chief executive officer of the corporation and executive director of the Bureau. The CEO shall have general charge of the business of the corporation, and shall, in general, perform all duties delegated by the board of directors. Job descriptions and a total compensation plan (wages/salary, benefits) for the CEO shall be recommended, and compensation and performance shall be reviewed annually, by the executive committee. Recommendations for adoption shall be submitted to the board of directors for approval. Once approved, a written contract for the CEO will be drawn up and signed by the CEO and the president as authorized by the board. His or her duties and obligations include, but are not limited to, the following:

1. **Execution of Instruments.** The CEO shall execute, with the president of the board and in the name of the corporation, all deeds, bonds, contracts, and other obligations and instruments authorized by the board of directors to be executed, and with the president of the board shall sign all certificates of honorary membership of the corporation.

2. **Committees and Meetings.** The CEO shall be a nonvoting member of the board of directors and all committees. As such, the CEO shall cause to be kept the minutes of all proceedings of the board of directors and all committees of the corporation. The CEO shall

attend to the giving and servicing of notices of all meetings of the board of directors, committees, and otherwise.

3. **Record Keeping.** The CEO shall act as corporate secretary. As such, he or she shall keep and have charge of the minutes of the meetings of the board of directors, and shall keep in an orderly fashion a record of such meetings. The CEO shall keep such books and papers as the board of directors may direct.

4. **Financial Management and Records.** The CEO shall keep, or cause to be kept, full and accurate accounts of receipts and disbursements to be kept in books for that purpose. The CEO shall receive and deposit, or cause to be deposited, all monies and other valuables of the corporation, in the name of and to the credit of the corporation in such depositories as may be designated by the board of directors. The CEO shall disburse or cause to be disbursed the funds of the corporation as may be directed by the board of directors, taking proper vouchers for such disbursements. The CEO shall render to the president of the board and to the board of directors, whenever they may require, accounts of his or her transactions and of the financial condition of the corporation.

5. **Hiring.** The CEO shall have the power to hire and terminate all employees of the corporation and shall set all employees' job responsibilities and compensation consistent with the budget approved by the board of directors.

ARTICLE VII

COMMITTEES

Section 1) **Standing Committees.**

A. **Formation.** The board may establish the following committees which shall advise the board in their areas of responsibility as set forth, or as time to time prescribed, by the board.

1. The executive committee shall consist of the officers of the corporation and up to five (5) board members as selected by the board. Each member of the executive committee shall serve for a period of one (1) year or until their successors are selected. There shall be no limit on the number of consecutive terms that any board member may serve on the executive committee. The CEO shall be a nonvoting member of the executive committee. The executive committee shall make recommendations and set the agenda for the board, transact business of an emergency nature on behalf of the board of directors between meetings of the board. At the direction of the board, the executive committee shall conduct an annual performance evaluation of the CEO and report to the board its findings, together with any recommendations for action.

2. The nominating committee shall work with the agencies responsible for designating directors, recommend members at large, and shall nominate officers.

3. In the event that the board determines that the management of the corporation would be benefited by the establishment of one or more standing or special committees in addition to the executive committee and the nominating committee, the board may from time to time establish one or more such committees/task forces.

B. **Composition and Meetings.** Each committee shall consist of a chairperson and committee members appointed by the president and approved by the board.

Each committee shall meet on call of the chairperson of that committee. Except that the president or a majority of the executive committee may call a meeting of the executive committee.

ARTICLE VIII

RECORDS AND REPORTS

Section 1) Record of Contributors/Associates. The chief executive officer shall keep or cause to be kept, at the principal office of the corporation, an annual record showing the names and addresses of each contributing member and the individual, if any, entitled to represent that member. Termination of any such honorary membership shall be recorded in the record, together with the date on which the honorary membership ceased.

Section 2) Records. The corporation shall keep adequate and correct records of account and minutes of the proceedings of its board and committees. The minutes shall be kept in written form. Other books and records shall be kept in wither written form or in any other form capable of being converted into written form. The articles of incorporation and bylaws of the corporation, with amendments to current dates, shall also be maintained at the principal office of the corporation.

Section 3) Annual Report. The board of directors shall cause an annual report to be prepared after the end of the corporation=s fiscal year. The report shall contain all the information required by Section 6321(a) of the Corporations Code, or any successor statute thereto, and shall be accompanied by any report thereon of independent accountants. Said report may take the form of an annual review. An annual audit shall not be necessary unless required by the board of directors. If there is no such report, the certificate of an authorized officer of the

corporation that such statements were prepared without audit from the books and records of the corporation shall be attached to the annual report. The annual report shall be furnished to all directors.

ARTICLE IX

LIABILITY AND INDEMNIFICATION

Section 1) Liability. To the fullest extent allowed by law, there shall be no monetary liability and no cause of action for damages shall arise against any nonpaid director, including a nonpaid director who is serving as a nonpaid officer or committee member of this corporation.

Section 2) Contracts With Directors and Officers. No director of this corporation nor any other committee, firm, association, or other entity in which one or more of this corporation=s directors are directors, or have a material financial interest, shall be interested, directly or indirectly, in any contract or other transaction with this corporation, unless the material facts regarding such director=s financial interest in such contract or transaction or regarding such common directorship, officership, or financial interest are fully disclosed in good faith and are noted in the minutes or are known to all board members before consideration by the board of such contract or transaction, and such contract or transaction is authorized in good faith by a majority of the board by a vote sufficient for that purpose without counting the vote of the interested director.

Section 3) Loans to Directors and Officers. This corporation shall not lend any money or property to, or guarantee the obligation of, any director or officer of the corporation or of its parent, affiliate, or subsidiary unless (a) the board decides that the loan or guaranty may reasonably be expected to benefit the corporation, and (b) before consummating the transaction

or any part of it, the loan or guaranty is approved by the vote of a majority of the directors then in office, without counting the vote of the director who is to receive the loan or guaranty.

Section 4) Indemnification. To the fullest extent permitted bylaw, this corporation shall indemnify its directors, officers, employees, and other persons described in Corporations Code Section 5238(a), including persons formerly occupying any such positions, against all expenses, judgments, fines, settlements, and other amounts actually and reasonably incurred by them in connection with any Aproceeding,@ as that term is used in that section, and including an action by or in the right of the corporation, by reason of the fact that the person is or was a person described in that section. AExpenses,@ as used in this bylaw, shall have the same meaning as in that section of the Corporations Code.

On written request to the board by any person seeking indemnification under Corporations Code Section 5238(b) or Section 5238(c), the board shall promptly decide under Corporations Code Section 5238(e) whether the applicable standard of conduct set forth in Corporations Code Section 5238(b) or Section 5238(c) has been met and, if so, the board shall authorize indemnification. If the board cannot authorize indemnification, because the number of directors who are parties to the proceeding with respect to which indemnification is sought prevents the formation of a quorum of directors who are not parties to that proceeding, the board shall promptly call a meeting of members. At that meeting, the members shall determine under Corporations Code Section 5238(e) whether the applicable standard of conduct has been met and, if so, the members present at the meeting in person or by proxy shall authorize indemnification.

To the fullest extent permitted by law and except as otherwise determined by the board in a specific instance, expenses incurred by a person seeking indemnification under this section in

defending any proceeding covered by this section shall be advanced by the corporation before final disposition of the proceeding, on receipt by the corporation of an undertaking by or on behalf of that person that the advance will be repaid unless it is ultimately found that the person is entitled to be indemnified by the corporation for those expenses.

Section 5) Insurance. This corporation shall have the right to purchase and maintain insurance to the full extent permitted by law on behalf of its officers, directors, employees, and other agents, to cover any liability asserted against or incurred by any officer, director, employee, or agent in such capacity or arising from the officer=s, director=s, employee=s, or agent=s status as such.

ARTICLE X

FISCAL YEAR

The fiscal year for the corporation shall be the calendar year July 1 to June 30.

ARTICLE XI
AMENDMENTS

The bylaws of the corporation may be amended at any meeting of the board, so long as the directors have received written notification of the substance of the proposed amendments or amendments at least seven (7) days prior to the meeting, and the proposed amendment is approved by a two-thirds (2/3) vote of the directors then holding office.

ARTICLE XII
CONSTRUCTION AND DEFINITIONS

Unless the context requires otherwise, the general provisions, rules of construction, and definitions in the California Nonprofit Corporation Law shall govern the construction of these bylaws. Without limiting the generality of the foregoing, the masculine, feminine, or neuter gender, and the singular or plural number, each shall be deemed to include the others whenever the context so indicates, and the term Aperson@ includes both a legal entity and a natural person.

CERTIFICATION

I, _____, hereby certify:

That I am the duly elected and acting secretary of MODESTO CONVENTION AND VISITORS BUREAU. The foregoing Bylaws, consisting of sixteen (16) pages, constitute the Bylaws of this nonprofit, public benefit corporation, as duly adopted on by the vote of the designed directors of the Corporation.

BILL JONES, Secretary of State

ARTICLES OF INCORPORATION
OFMODESTO CONVENTION AND VISITORS BUREAU,
a California public benefit corporation

ARTICLE I

Name. The name of this corporation is the Modesto Convention and Visitors Bureau, Inc. ("Bureau").

ARTICLE II

(A) This corporation is a non-profit public benefit corporation and is not organized for the private gain of any person. It is organized under the non-profit public benefit corporation law for the purpose of improving business conditions generally in the City of Modesto, within the meaning of United States Tax Code Section 501(c)(6) and California Revenue and Taxation Code Section 23701(e).

(B) The specific purposes for which this corporation is organized are: (1) to attract visitors to the area by promoting and marketing Modesto as a convention, sports, tourism, and leisure travel destination, (2) to provide coordination and leadership for the community and the visitor industry on matters relating to convention activity and tourism, (3) to gather community information designed to convey to opinion leaders and the public at large the status of the visitor industry, (4) to work with local governmental agencies, private enterprise and other interested parties to structure suitable financing plans for the bureau, and to implement those plans.

(C) Limitation: Bureau shall be non-profit and non-partisan and shall neither participate in nor lend its support to the election of any candidate for public office.

ARTICLE III

The name and address in the State of California of this corporation's initial agent for service of process is:

Roland R. Stevens, Assistant City Attorney
City of Modesto
P. O. Box 642
Modesto, CA 95353

ARTICLE IV

The names and addresses of the persons appointed to act as the initial directors of this corporation are:

<u>Name</u>	<u>Address</u>
Jack Crist, Initial Director	City of Modesto P. O. Box 642 Modesto, CA 95353
Robert Quintella, Initial Director	City of Modesto 1000 L Street Modesto, CA 95354
Roland R. Stevens, Initial Director	City Attorney's Office P. O. Box 642 Modesto, CA 95353

ARTICLE V

(A) This corporation is organized and operated exclusively for the purposes set forth above. In no event will any part of its net earnings inure to the benefit of any private individual. The corporation is not organized for profit or to engage in an activity ordinarily carried on for profit.

(B) The corporation is, will be, and will remain an incorporation of an association of persons having common business interests, the purpose of which is to promote that common interest(s), and not to engage in a regular business of a kind ordinarily carried on for profit.

(C) The corporation will be devoted to the improvement of business conditions of one or more lines of business in the Modesto, California area, as distinguished from the performance of particular services for individual persons.

(D) The corporation may or may not engage in the operation of a trade publication primarily intended to attract visitors to the Modesto area by promoting and marketing Modesto as a convention, sports, tourism, and leisure travel destination, which thereby is intended to benefit the tourism industry in general, and not a specific company or companies within that industry, or any other industry.

(E) The corporation will also be operated to encourage the use of goods and services of the entire travel, recreation, sports and leisure industry in and around the City of Modesto, California.

(F) The corporation is organized to work for the enactment of laws to advance the common business interests of the corporation's members as permitted within the meaning of United States Tax Code Section 501(c)(6) as it is currently enacted and interpreted, and as that statute may be amended or interpreted in the future. Notwithstanding this or any other provision of these Articles, the corporation shall not carry on any activities not permitted to be carried on (1) by a corporation exempt from federal income tax under Section 502(c)(6) of the Internal Revenue Code of the United States, or (2) by a corporation, contributions to which are deductible under Section 170 (c)(2) of the Internal Revenue Code of the United States.

(G) Except as set forth in the next preceding paragraph, no substantial part of the activities of this corporation shall consist of carrying on propaganda, or otherwise attempting to influence legislation. The corporation shall not participate or intervene in any political campaign (including the publishing or distribution of statements) on behalf of or opposing any candidate for public office. Exception: "grassroots lobbying" as permitted by Internal Revenue Service Publication 557 discussions of United States Tax Code Section 501(c)(6), such lobbying being limited to contacts of prospective members or calls upon members of the corporation to contact their employees and customers for the purpose of urging such persons to communicate with their elected state or congressional representatives to support the promotion, defeat, or repeal of legislation that is of direct interest to the organization.

ARTICLE VI

The property of this corporation is irrevocably dedicated to the purposes set forth in paragraphs IIA and IIB above, and no part of the net income or assets of the organization shall ever inure to the benefit of any director, officer, or member of the corporation, or to the benefit of any private person or organization. An affidavit of the officers of the Modesto Convention and Visitors Bureau is filed simultaneously with these Articles, averring that the transfer of all property owned by the Modesto Convention and Visitors Bureau has been approved for transfer to the Bureau in accordance with all of the procedures and rules of the Modesto Convention and Visitors Bureau and/or the City of Modesto Chamber of Commerce.

ROLAND R. STEVENS, Initial Director

JACK R. CRIST, Initial Director

ROBERT QUINTELLA, Initial Director

We declare that we are the persons who executed the foregoing Articles of Incorporation which execution is our act and deed.

ROLAND R. STEVENS, Initial Director

JACK R. CRIST, Initial Director

ROBERT QUINTELLA, Initial Director

ROBERT QUINTELLA, Incorporator

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-101**

A RESOLUTION APPROVING AN AMENDMENT TO THE MODESTO URBAN AREA GENERAL PLAN TO SHIFT COMPREHENSIVE PLANNING DISTRICT BOUNDARIES IN ORDER TO ADD A 17.4 ACRE PROPERTY LOCATED AT THE NORTHEAST CORNER OF COFFEE ROAD AND CLARATINA EXPRESWAY, TO THE NORTH BEYER COMPREHENSIVE PLANNING DISTRICT (SHELTER COVE CHURCH) (FILE NO. GPA 2002-02-002)

WHEREAS, on August 15, 1995, by Resolution No. 95-408, the City Council certified the Final Master Environmental Impact Report (“Master EIR”) (SCH #92052017) for the Modesto Urban Area General Plan, and

WHEREAS, a General Plan for the City of Modesto entitled “City of Modesto Urban Area General Plan”, was adopted by the City Council by Resolution No. 95-409 on August 15, 1995, in accordance with Section 65300 of the Government Code, and

WHEREAS, said General Plan has been amended by Modesto City Council Resolution Nos. 95-584, 96-20, 96-338, 96-639, 97-3, 97-137, 97-158, 98-293, 99-162, 99-564, 2000-303, 2000-633, 2001-47, 2001-476 and 2002-526, copies of which are on file in the office of the City Clerk, and

WHEREAS, Government Code Section 65358 permits the amendment of General Plans by the legislative body up to four times per year, and

WHEREAS, Shelter Cove Church applied for an amendment to the North Beyer Specific Plan (File No.P-SPA-02-001) to include the 17.4 acre property located on the northeast corner of Coffee Road and Claratina Avenue in the North Beyer Specific Plan and designate the subject property as Church (CH) for the purposes of developing the project site as a church, and

WHEREAS, City staff determined that this Specific Plan amendment would require an amendment to the General Plan, and

WHEREAS, Shelter Cove Community Church has proposed an amendment to the City of Modesto Urban Area General Plan (File No. GPA 2002-02-002) to shift comprehensive planning district boundaries in order add the subject 17.4 acre property to the North Beyer Comprehensive Planning District, and

WHEREAS, on January 27, 2003, the Planning Commission held a duly noticed public hearing in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which hearing evidence both oral and documentary relating to this proposed amendment to the Modesto Urban Area General Plan was considered, and

WHEREAS, after said public hearing, the Modesto Planning Commission adopted Resolution No. 2003-03, recommending to the City Council an amendment to the Modesto Urban Area General Plan Community Development Policies Section, Exhibit III-8, Hetch Hetchy Comprehensive Planning District and Exhibit III-15, North Beyer Comprehensive Planning District to shift comprehensive planning district boundaries in order to add the subject 17.4 acre property to the North Beyer Comprehensive Planning District, and

WHEREAS, said matter was set for a public hearing of the City Council to be held on February 25, 2003, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which date and time said duly noticed public hearing of the Council was held for the purpose of receiving public comment on the proposed amendment to the Modesto Urban Area General Plan Community Development Policies Section, Exhibit III-8, Hetch Hetchy Comprehensive Planning District and Exhibit III-15,

North Beyer Comprehensive Planning District, to shift comprehensive planning district boundaries in order add the subject 17.4 acre property to the North Beyer Comprehensive Planning District.

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it hereby finds and determines that the proposed amendment to the Modesto Urban Area General Plan Community Development Policies Section shifting comprehensive planning district boundaries to add the subject 17.4 acre property to the North Beyer Comprehensive Planning District is required for the public health, safety and welfare of the citizens of Modesto and said General Plan is hereby amended to read as shown on **Exhibit "A"** attached hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Department Director is hereby authorized and directed to forward certified copies of this resolution and said amendment to the General Plan to the Board of Supervisors, and file a notice of determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

BE IT FURTHER RESOLVED that the project applicant shall indemnify, defend, and hold harmless the City of Modesto, its agents, officers, and employees from any and all claims, actions, or proceedings against the City of Modesto, its agents, officers, and employees to attack, set aside, void, or annul, any approval by the City of Modesto and its advisory agency, appeal board, or a legislative body concerning a general plan amendment (File No. GPA 2002-02-002), and related files. The City of Modesto shall promptly notify the applicant of any claim, action, or proceeding and shall cooperate fully in the defense. If the City fails to do so, the applicant shall not thereafter be responsible to defend, indemnify, or hold City harmless.

The foregoing resolution was introduced at the regular meeting of the Modesto City Council held on February 25, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

Ayes:	Councilmembers:	Conrad, Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino
Noes:	Councilmembers:	None
Absent:	Councilmembers:	None

ATTEST: Jean Zahr
JEAN ZAHR, City Clerk

(SEAL)

APPROVED AS TO FORM.

EXHIBIT "A"
URBAN AREA GENERAL PLAN AMENDMENT
BY SHELTER COVE CHURCH

HETCH HETCHY

COMPREHENSIVE PLANNING DISTRICT

1. Overview

960

This 980-acre Comprehensive Planning District, located between Claribel Road and Claratina Avenue (a proposed expressway), proposes predominantly "Village Residential" uses. The Hetch hetchy electrical transmission lines and aqueduct, which ultimately serve the City and County of San Francisco, traverse this site in a 110-foot-wide right-of-way.

2. Principal Comprehensive Planning District Policies

The Comprehensive Plan to implement this Comprehensive Planning District shall address the Principal Comprehensive Planning District Policies presented in this Chapter.

3. Land Use Description

a. Land Use Types: (See Section III-B)

840

- 860 acres designated "Village Residential"
- 120 acres designated "Regional Commercial"

b. Distribution of Land Uses Within the CPD

- (1) The regional commercial uses are located along the east side of McHenry Avenue to accommodate the established commercial uses along McHenry Avenue.
- (2) The supporting commercial uses in the Village Residential portion of this Comprehensive Planning District should be sited to facilitate pedestrian access from the residential development.

4. Land Use Policies

a. Implementation of Adopted Land Use Policies:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the Land Use Policies presented earlier in this Chapter, as follows:

- (1) Overall Land Use Policies (Section III-C(1))
- (2) Neotraditional Planning Principles (Section III-C(3))

b. Supplemental Land Use Policies:

In addition, the Comprehensive Plan shall also address the following land use policies which apply to this particular Comprehensive Planning District:

- (1) Notwithstanding the land use intensities presented in Section III-B, this Comprehensive Planning District shall contain a maximum of ~~4,400~~ 4,300 dwelling units.
- (2) The Hetch Hetchy right-of-way, power lines, and aqueduct that traverse this Comprehensive Planning District present a significant design constraint that should be addressed.
- (3) The regional commercial uses should be located along the east side of McHenry Avenue to join the established commercial uses along McHenry Avenue.

c. Housing Policy Implementation:

The Comprehensive Plan which implements this Comprehensive Planning District shall address the relevant Housing Policies presented in Chapter IV for the residentially-designated portion of this Comprehensive Planning District.

5. Provision of Public Facilities and Services:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the public facilities and services policies presented in Chapter V. In addition, the Comprehensive Plan shall also address the following policies which apply to this particular Comprehensive Planning District:

- a. This Comprehensive Planning District will be served by an extension of the North Trunk from Dale Road easterly through two Comprehensive Planning Districts: Kiernan/Carver and Kiernan/McHenry.

6. Focused EIR:

The Focused Environmental Impact Report for this Comprehensive Planning District shall consider the following issues identified in the Master Environmental Impact Report for the General Plan:

- a. A total of ^{4,300}~~4,400~~ dwelling units was assumed for this Comprehensive Planning District.
 - b. A total of 3,100 employees was assumed for this Comprehensive Planning District.
7. Special Considerations Unique to this Comprehensive Planning District:

The exact boundary between the Village Residential and Regional Commercial uses will be determined by the Comprehensive Plan.

HETCH HETCHY C.P.D.

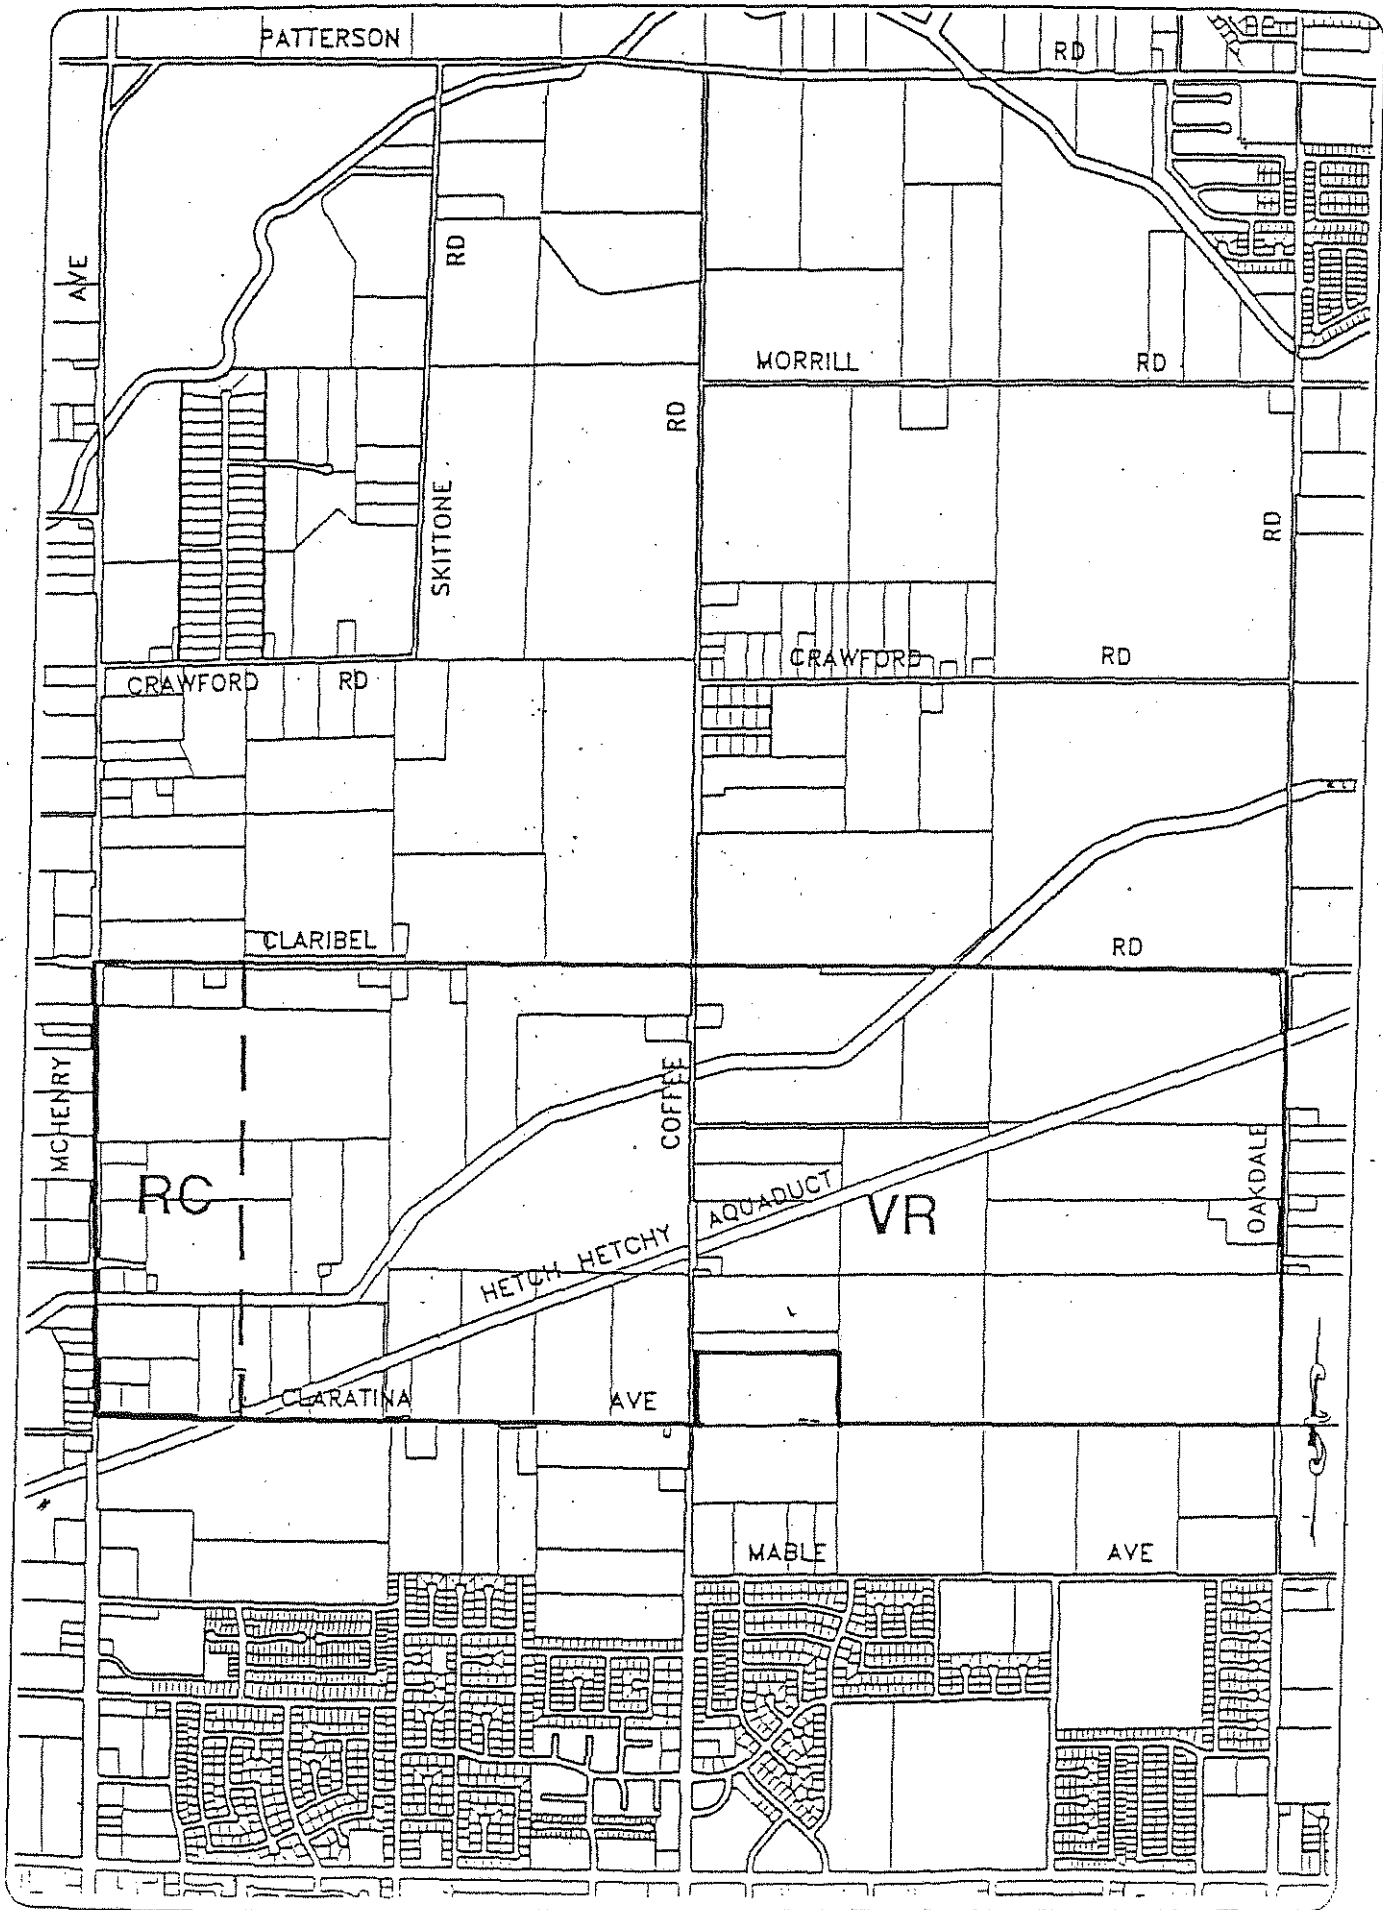

Exhibit III-15

NORTH BEYER

COMPREHENSIVE PLANNING DISTRICT

1. Overview

180

This ~~160~~-acre Comprehensive Planning District is essentially an extension of the existing residential development (Beyer Neighborhood) south of Mable Avenue.

2. Principal Comprehensive Planning District Policies

The Comprehensive Plan to implement this Comprehensive Planning District shall address the Principal Comprehensive Planning District Policies presented in this Chapter.

3. Land Use Description

a. Land Use Types: (See Section III-B)

180

~~160~~ acres: 130 acres designated "Residential" and 30 acres designated "Mixed Use," and 20 acres designated "Village Residential."

b. Distribution of Land Uses Within the CPD

The Mixed Use areas are located: 1) along Coffee Road between Pelandale Expressway and Mable Avenue, 2) the southwest corner of the Oakdale Road Pelandale Expressway intersection.

4. Land Use Policies

a. Implementation of Adopted Land Use Policies:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the Land Use Policies presented earlier in this Chapter, as follows:

- (1) Overall Land Use Policies (Section III-C(1))
- (2) "Neighborhood Plan Prototype" Policies (Section III-C(2))

b. Supplemental Land Use Policies:

In addition, the Comprehensive Plan shall also address the following land use policies which apply to this particular Comprehensive Planning District:

- (1) Notwithstanding the land use intensities presented in Section III-B, this Comprehensive Planning District shall contain a maximum of 1,200 dwelling units.
- (2) Neighborhood Shopping Center(s) developed within the Mixed Use areas shall be consistent with the City's Neighborhood Shopping Center Policy.
- (3) The Village Residential 20 acres shall be developed as a church, or remain as a golf course/driving range. If the 20 acres of Village Residential is proposed to be developed as any other use, it will be required to develop with the Hetch Hetchy CPD, and be subject to all development guidelines contained in the Hetch Hetchy CPD Exhibit III-8.

PROPOSE

c. Housing Policy Implementation:

The Comprehensive Plan which implements this Comprehensive Planning District shall address the relevant Housing Policies presented in Chapter IV for the residentially-designated portion of this Comprehensive Planning District.

5. Provision of Public Facilities and Services:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the public facilities and services policies presented in Chapter V. In addition, the Comprehensive Plan shall also address the following policies which apply to this particular Comprehensive Planning District:

- a. This Comprehensive Planning District will be served by a subtrunk in Coffee Road that ties into the existing sanitary sewer system.

6. Focused EIR:

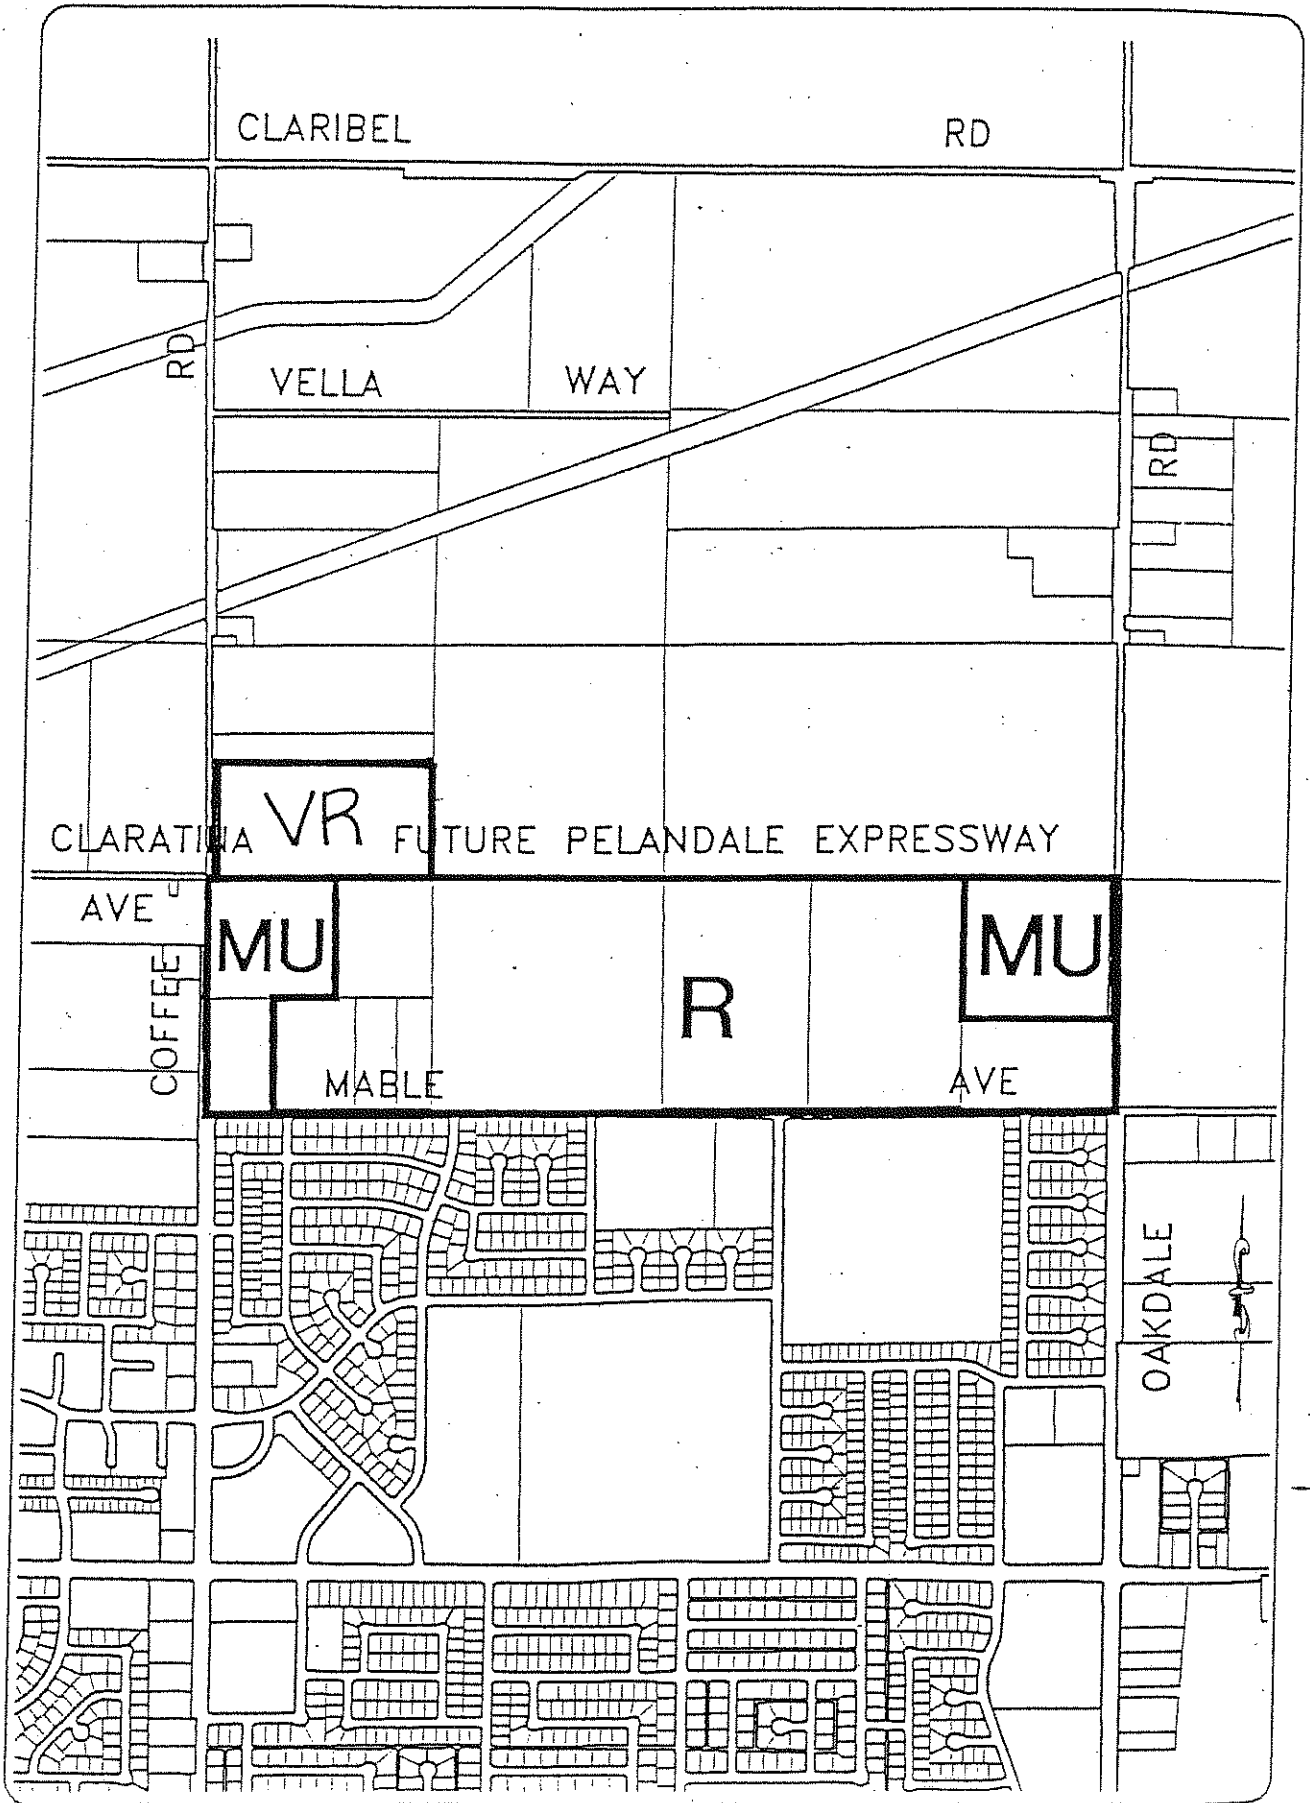

General Plan Policy III(D)(1)(g) specifically exempts the North Beyer CPD from the requirement to prepare a Focused EIR. CEQA review for the Comprehensive Plan for the North Beyer Comprehensive Planning District shall consider the following issues identified in the Master Environmental Impact Report for the General Plan:

- a. A total of 1,200 dwelling units was assumed for this Comprehensive Planning District.

7. Special Considerations Unique to this Comprehensive Planning District:

None.

NORTH BEYER C.P.D.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-102**

A RESOLUTION APPROVING AN AMENDMENT TO THE NORTH BEYER SPECIFIC PLAN TO INCLUDE A 17.4 ACRE PROPERTY LOCATED AT THE NORTHEAST CORNER OF COFFEE ROAD AND CLARATINA AVENUE IN THE NORTH BEYER SPECIFIC PLAN AND DESIGNATE THE SITE AS CHURCH (CH) (SHELTER COVE CHURCH) (FILE NO. P-SPA-02-001)

WHEREAS, Government Code Section 65450 et.seq. permits cities and counties to adopt Specific Plans for the systematic implementation of the General Plan and to provide for greater level of detail in planning sites or areas of special interest or value, and

WHEREAS, on November 26, 1996, the City Council by Resolution No. 96-641, adopted the North Beyer Specific Plan, and

WHEREAS, Government Code Section 65453 permits the amendment of Specific Plans as often as deemed necessary by the legislative body, and

WHEREAS, Shelter Cove Church applied for an amendment to the North Beyer Specific Plan to include the 17.4 acre property located on the northeast corner of Coffee Road and Claratina Avenue in the North Beyer Specific Plan and designate the subject property as Church (CH) for the purposes of developing the subject property as a church, and

WHEREAS, on January 27, 2003, the Planning Commission held a duly noticed public hearing in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which hearing evidence both oral and documentary relating to this proposed amendment to the North Beyer Specific Plan was considered, and

WHEREAS, after said public hearing held on January 27, 2003, the Planning Commission adopted Resolution No. 2003-04, recommending to the City Council an amendment to the North Beyer Specific Plan to include the 17.4 acre property located on the northeast corner of Coffee Road and Claratina Avenue in the North Beyer Specific Plan and designate the subject property as Church (CH), and

WHEREAS, said matter was set for a public hearing of the City Council to be held on February 25, 2003, at 5:15 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered, and

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it hereby finds and determines that the proposal to amend the North Beyer Specific Plan to include the 17.4 acre property located at the northeast corner of Coffee Road and Claratina Avenue in the North Beyer Specific Plan, as recommended by the Planning Commission in its Resolution 2003-04, is consistent with the City of Modesto General Plan for the following reasons:

1. The project is compatible with the surrounding existing and planned land uses.
2. The proposed Specific Plan land use designation for the project site, Church (CH), is consistent with the Village Residential (VR) General Plan land use designation.
3. The street improvements and traffic control measures that will be implemented with this project will ensure that there will be no significant increase in traffic impacts to the surrounding area resulting from this project.
4. A sewer capacity analysis prepared by Northstar Engineering Group dated December 9, 2002, determined that the existing sewer line in Coffee Road provides adequate capacity to serve the project site and the remaining undeveloped portions of the North Beyer Park and Coffee-Claratina plan areas. The Northstar report determined that no new trunk, subtrunk lines would need to be extended to serve the project, and no sewer facilities downstream of the project site would need to be upgraded. The City

Engineering & Transportation Department reviewed the Northstar report, and concurs with the conclusions contained therein.

5. An analysis of water needs for the project prepared by Northstar Engineering dated December 9, 2002, determined that future development of the project site can connect to existing City facilities for the provision of water that would not require additional water supplies beyond those identified in the Increased Demand for Water Supplies section of the General Plan Master Environmental Impact Report. The City Engineering & Transportation Department reviewed the Northstar report, and concurs with the conclusions contained therein.
6. Flood control measures that will be implemented with this project will ensure that there will be no significant impact to planned stormwater drainage systems.
7. The proposed project would develop at intensities equal to or less than those set forth in the General Plan, and as such, would result in no new or additional significant effect related to the degradation of air quality, not analyzed by the General Plan Master Environmental Impact Report.
8. The proposed project will not affect any land designated open space in the General Plan.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that said amendment to the North Beyer Specific Plan to include the 17.4 acre property located at the northeast corner of Coffee Road and Claratina Avenue in said Specific Plan, as recommended by the Planning Commission, is hereby approved as set forth in **Exhibit "A"**, a copy of which is attached hereto and incorporated herein by reference, and on file in the office of the City Clerk.

BE IT FURTHER RESOLVED that the project applicant shall indemnify, defend, and hold harmless the City of Modesto, its agents, officers, and employees from any and all claims, actions, or proceedings against the City of Modesto, its agents, officers, and employees to attack, set aside, void, or annul, any approval by the City of Modesto and its advisory agency, appeal board, or a legislative body concerning the specific plan amendment (File No. P-SPA 02-002) and related files. The City of Modesto shall promptly notify the applicant of any claim, action, or proceeding and shall cooperate fully in the defense. If the City fails to do so, the applicant shall not thereafter be responsible to defend, indemnify, or hold City harmless.

The foregoing resolution was introduced at the regular meeting of the Modesto City Council held on February 25, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

Ayes: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

Noes: Councilmembers: None

Absent: Councilmembers: None

ATTEST: Jean Zahr
JEAN ZAHR, City Clerk

EXHIBIT "A"

Amendment to the North Beyer Specific Plan (File No. P-SPA-02-001)

AMENDMENTS
TO THE
NORTH BEYER PARK
SPECIFIC PLAN

Paragraphs and Figures for insertion are listed in the following document as "INSERT # _". Following with the attached Specific Plan, you will see corresponding "INSERT # _" to show where the new wording or Figure is proposed.

North Beyer Specific Plan
Text Inserts

INSERT # 1

Add SPA#2 to page entitled
Amendments to the North Beyer Park Specific Plan

SPA#2 Amended to expand the plan area to include approximately 20-
acres at the northeast corner of Coffee Road and Claratina
Expressway and specify development as a church site.

INSERT # 2

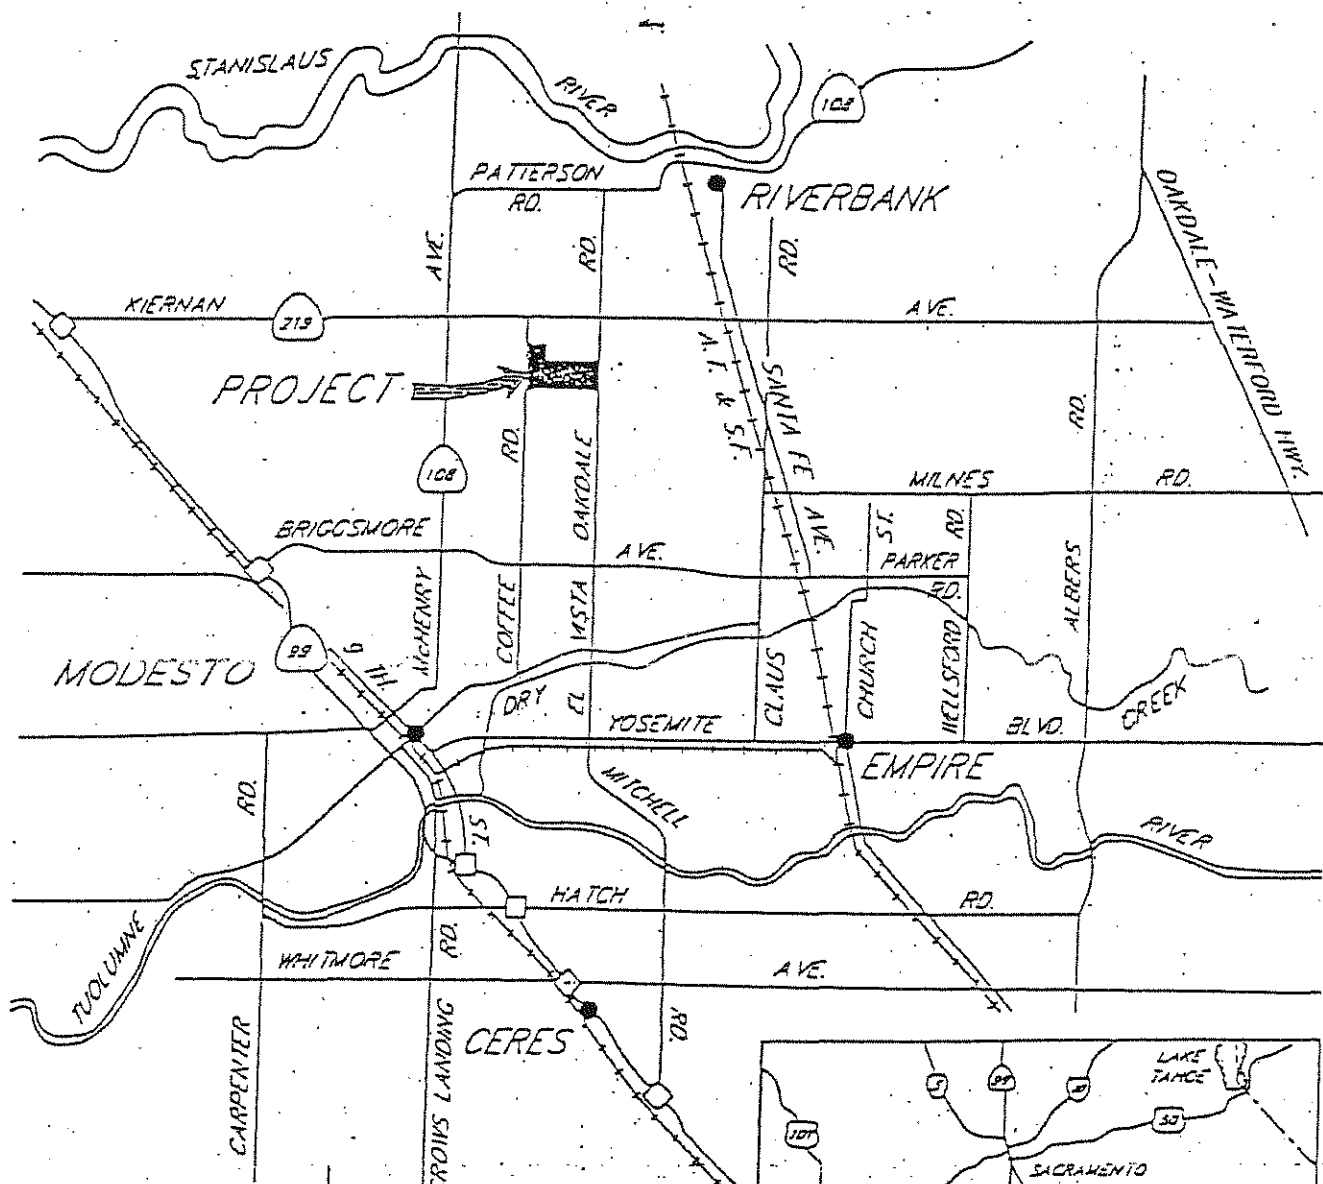

New Third Paragraph
(Chapter 1; Section B.)

In September of 2002, an application was submitted to amend the specific plan to realign its northerly boundary to add the existing approximately 17 acre Claratina Driving Range and Golf Course (the "Claratina Driving Range") site to the North Beyer Specific Plan, to add a land use designation to the North Beyer Specific Plan of Church (CH), and to designate the Claratina Driving Range for development as a church (CH). The Claratina Driving Range is located at the northeast corner of Coffee Road and the Claratina Expressway, and Figure 1 has been modified to show the addition of this property to the North Beyer Specific Plan.

(If approved by the City Council, final action information will be added here.)

INSERT # 3

New Figure 1 showing Project Location

PROJECT LOCATION
FIGURE 1

INSERT #3

LAND PLANNING • ENGINEERING • SURVEYING

900 H STREET, SUITE G MODESTO, CA. 95353 TEL: (209) 526-4214

INSERT # 4

New Third Paragraph (Chapter 1; Section E.)

To allow the addition of the Claratina Driving Range property to the North Beyer Specific Plan, a General Plan Amendment was required to shift Comprehensive Planning District boundaries in the General Plan in order to add approximately 17 acres of land to the North Beyer CPD (General Plan Exhibit III-15) and simultaneously remove the property from the Hetch Hetchy CPD (General Plan Exhibit III-8). This General Plan Amendment was adopted prior to the inclusion of the Claratina Driving Range into the North Beyer Specific Plan.

INSERT # 5

New Third Paragraph (Chapter 1; Section G.)

As part of the addition of the Claratina Driving Range to the North Beyer Specific Plan, a Mitigated Negative Declaration was prepared, circulated and adopted (SCH # 2002122117).

INSERT # 6

New Land Use Designation (Chapter 2; Section A; Subsection 8.)

8. Church (CH)

The CH designation will permit the construction of a church after the acquisition of a Final Development Plan from the City of Modesto Planning Commission. The development standards shall be as set forth in the City's R-1 Zone, subject to the exceptions listed below. The only permissible use of the site will be as a church. The existing golf course/driving range is allowed as an interim use until the site is developed.

Exceptions to R-1 Standards

- a. Landscape setbacks shall be a minimum of 25 feet along Coffee Road and the Claratina Expressway and 15 feet along the north and east property lines.
- b. Walls shall incorporate decorative treatment including a cap treatment, pilasters and finished with materials complementary to the exterior materials on the building. Walls along the north or east property line should transition gradually from the maximum six foot (6') allowable height to 42" within the setback area.
- c. All exterior mechanical, heating and air conditioning equipment must be screened from public view.
- d. Exterior lighting shall be arranged or shielded in such a manner as to contain direct illumination on the site and avoid glare onto adjacent residential areas.

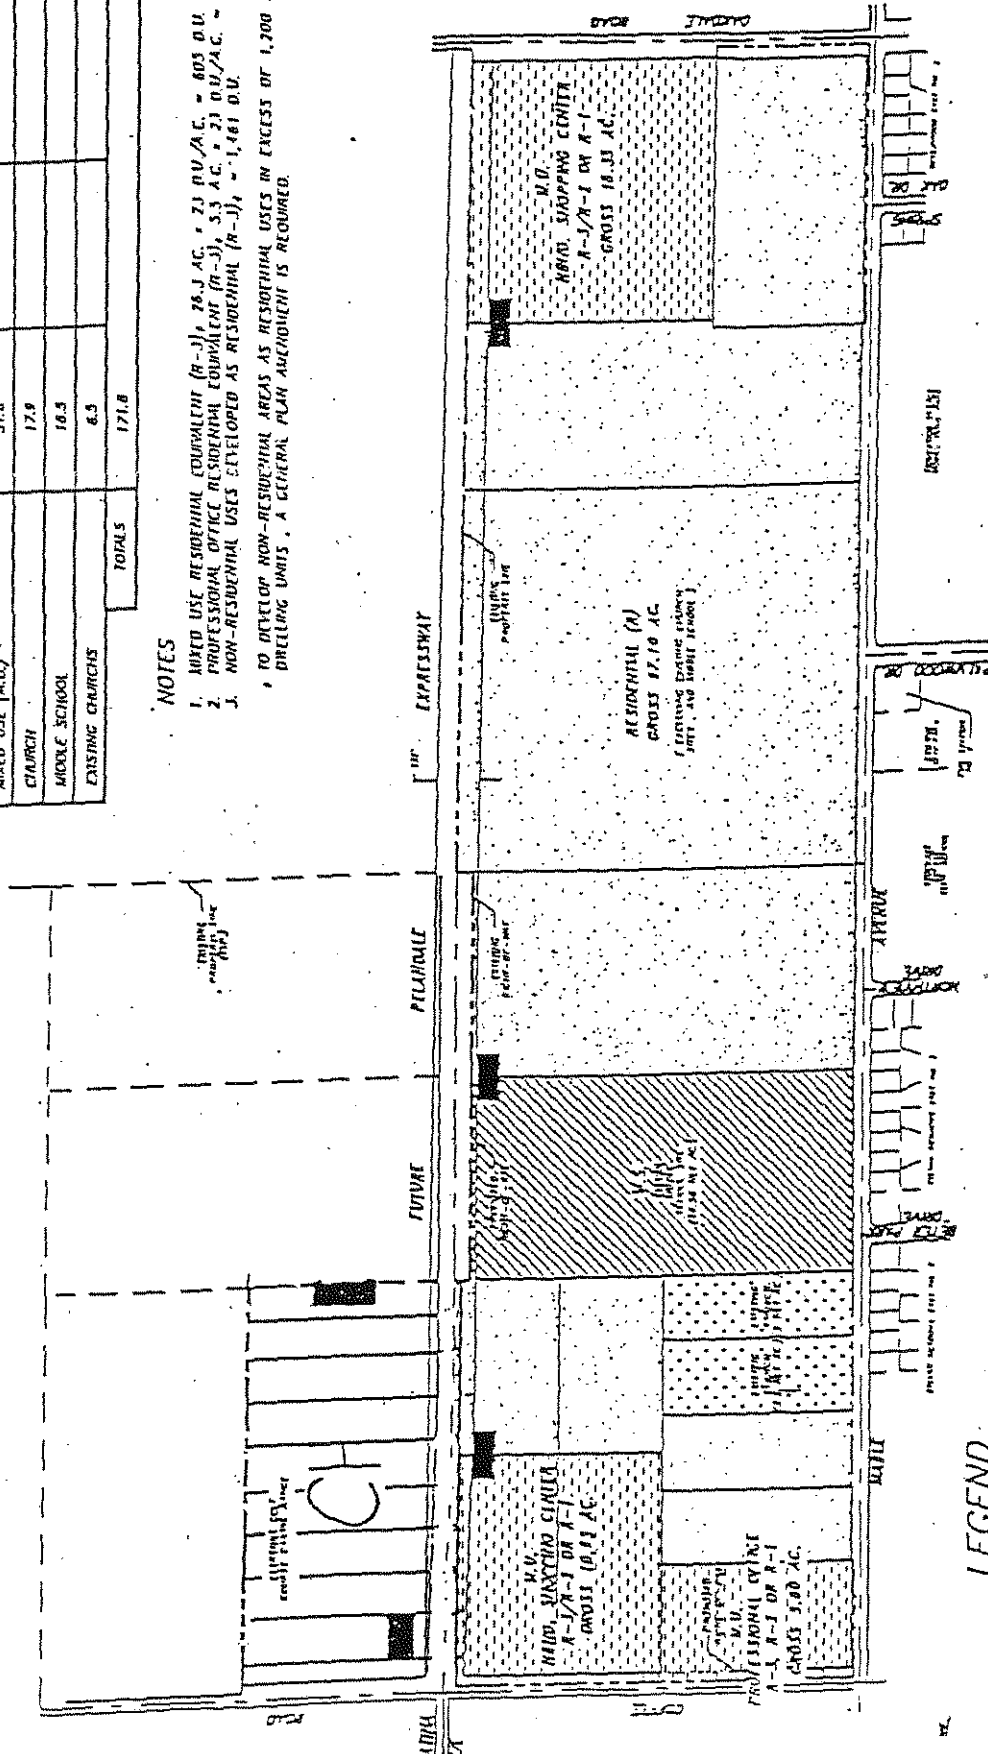

INSERT # 7

New Figure 2 Land Use Diagram

LAND USE	GROSS AC.	DENSITY	TOTAL DWELLING UNITS
RESIDENTIAL			
RESIDENTIAL	97.1	7.5 DU'S/AC	728
MIXED USE (M.U.) *	31.8		
CHURCH	17.9		
MIDDLE SCHOOL	16.3		
EXISTING CHURCHES	6.5		
TOTALS	171.8		

NOTES

- MIXED USE RESIDENTIAL EQUIVALENT (R-3), 26.3 AC. = 23 DU./AC. = 605 DU.
 - PROFESSIONAL OFFICE RESIDENTIAL EQUIVALENT (R-3), 5.3 AC. = 23 DU./AC. = 122 DU.
 - NON-RESIDENTIAL USES DEVELOPED AS RESIDENTIAL (R-3), = 1,481 DU.
- * TO DEVELOP NON-RESIDENTIAL AREAS AS RESIDENTIAL USES IN EXCESS OF 1,200 TOTAL DWELLING UNITS, A GENERAL PLAN AMENDMENT IS REQUIRED.

LAND USE DIAGRAM
FIGURE 2

INSERT # 8

New Second Paragraph (Chapter 3; Section A)

The infrastructure plans contained in this Chapter were modified in 2003 as part of the addition of the Claratina Driving Range property to the North Beyer Specific Plan. The following discussion under Section B. INFRASTRUCTURE PLAN, details the revisions made to the infrastructure plans to accommodate the addition of the Claratina Driving Range property to the North Beyer Specific Plan.

INSERT # 9

New Second Paragraph (Chapter 3; Section B; Subsection 1)

The Claratina Driving Range will be served by a sewer fly line coming off of the manhole currently existing in the intersection of Coffee Road and the Claratina Expressway. The line will be sized to serve, and will serve, only the Claratina Driving Range property. Downstream sewer lines and lift stations have been analyzed and determined to have adequate capacity to serve the Claratina Driving Range as its existing use, or as a redeveloped church use.

The sewer line will be eight inches (8") in size coming to the site from the existing manhole at the intersection of Coffee Road and the Claratina Expressway. At development of the site, the on-site sewer will be constructed in such a manner that when the North Trunk becomes available north of the site, sewer flows can be diverted to that trunk line, and the connection to the line in Coffee Road can be abandoned. Figure 3 has been updated to show these sewer lines.

INSERT # 10

New Second Paragraph (Chapter 3; Section B; Subsection 2)

Concurrent with its redevelopment as a church, the Claratina Driving Range property will provide its own on-site storage for storm runoff, adequate to capture storm runoff to City Standards. A line will be stubbed from the site to permit for the future connection of the site to an area-wide storm drainage facility. The size and location of the facilities will be finally determined as part of the Final Development Plan process required for redevelopment of the site.

INSERT # 11

New Second Paragraph (Chapter 3; Section B; Subsection 3)

The Claratina Driving Range property will connect to the existing City water system for the provision of water to the site. A well site will be provided to the City, subject to reimbursement consistent with current City policy, for the location of a future well. The actual location for the well site will be determined as part of the Final Development Plan process required for the redevelopment of the site. As the entire site is currently served by an existing well for irrigation, domestic and fire flow purposes, this well may remain in service for a period of time, until connection to the City system is deemed appropriate. The connection is proposed to consist of a four to six inch (4"-6") line for domestic service, and an eight inch (8") line for fire flow.

INSERT # 12

New Second Paragraph

(Chapter 3; Section D; After Project Traffic Improvement Table)

The improvements set forth in the previous table were reanalyzed and evaluated as part of the Mitigated Negative Declaration for the addition of the Claratina Driving Range to the North Beyer Specific Plan. At the time of that evaluation, late 2002/early 2003, improvements contained in this table were in differing levels of completion, with some unfinished, some partially finished, and some complete. It was determined at that time that the redevelopment of the Claratina Driving Range as a church would require the completion of the traffic signal at the intersection of Coffee Road and the Claratina Expressway. This facility is incorporated into the City of Modesto Capital Facilities Fee Program (the "CFF Program"). At the redevelopment of the Claratina Driving Range property, the funding for the Coffee Road/Claratina Expressway traffic signal will be required as a condition of the project. The funding for this traffic signal will be reimbursed by the City from the CFF Program on the same schedule as if the City were constructing the signal without the project.

At the time of preparation of a site plan for review and processing on the project site, a Site Access Study, consistent with the General Plan requirement contained in Chapter V(B)(7)(c) shall be prepared. The Site Access Study will also evaluate how to provide adequate pedestrian and vehicular access to the balance of the Hetch Hetchy CPD, which may include the reservation of road right-of-way and/or the granting of vehicular/pedestrian cross access rights, to make certain that the project properly integrates with the balance of the Hetch Hetchy CPD, at the time of its development.

A preliminary site plan for the property designated Church (CH) shows an access point along the Claratina Expressway. In the General Plan, the Claratina Expressway is designated as a Class "B" Expressway. Consistent with the General Plan, access to the Expressway is not permitted unless certain findings can be made (Chapter V, Section B.5.c 1995 Urban Area General Plan).

INSERT # 16

New Second Paragraph
(Chapter 4; Section C)

As part of the addition of the Claratina Driving Range into the North Beyer Specific Plan a Mitigated Negative Declaration was adopted along with a Mitigation Monitoring and Reporting Program. The mitigation measures contained therein are to be imposed at the redevelopment of the property to a church. The mitigation measures will be made conditions of the Final Development Plan which is required prior to redevelopment of the Claratina Driving Range property.

INSERT # 17

New Third and Fourth Paragraph
(Chapter 4; Section D)

While the Claratina Driving Range property has been added to the North Beyer Specific Plan to permit its immediate development as a church, it is more connected to the Hetch Hetchy CPD relative to the provision of future Master Storm Drainage, Sewer and other infrastructure. As such, while the Claratina Driving Range site may redevelop, paying for the cost of providing the services needed for the project today, consistent with City standards and policies, the Claratina Driving Range will be required to form a Mello-Roos Community Facilities District for the Hetch Hetchy CPD (the "CFD") prior to issuance of a building permit for a church use on the Claratina Driving Range property.

Prior to approval of a Final Development Plan for the redevelopment of the Claratina Driving Range property to a church, a Development Agreement, prepared consistent with the provisions of Government Code Section 65864 et. seq. shall be adopted. The Development Agreement shall, among other things, clarify the Claratina Driving Range property's obligation to participate in the formation of the CFD for the Hetch Hetchy CPD, and the financing of CFD improvements, before a building permit will be issued for a church on the Claratina Driving Range property. In addition to the financing issues, the Development Agreement is to address the following items:

1. A prohibition on school uses without further environmental review and City approval;
2. Future connections to Master Storm Drainage and Sewer Facilities;
3. Project Fees;
4. Well Site dedication and reimbursement;
5. Project contribution and reimbursement for the Coffee/Claratina Traffic Signal;
6. Access from the Claratina Driving Range property to the property to the east; and
7. A Site Access Study referred to in Chapter 3, Section D of this Specific Plan.

The list is not intended to be all inclusive, but rather representative of the items which shall be addressed in the Development Agreement.

Chapter 1. Specific Plan Introduction

A. PURPOSE OF SPECIFIC PLAN

The North Beyer Park Specific Plan is a tool to guide the orderly development of land within the plan area. The purpose of the North Beyer Park Specific Plan is to implement the City of Modesto's General Plan as authorized by Section 65450 et. Seq. of the State Government Code. The Specific Plan provides a bridge between the General Plan's broad base goals and policies and the City's precise zoning and subdivision regulations. The North Beyer site is located within a "Comprehensive Planning District (CPD)", therefore in accordance with the City of Modesto's General Plan adopted policies the adoption of a Specific Plan is required prior to any development. This Specific Plan ensures that the city-wide effects of development projects, especially the need for providing adequate infrastructure, is addressed.

The Specific Plan was created using the City's guidelines for preparing comprehensive plans and following procedures for Specific Plans contained in Government Code Section 65453(b).

The Specific Plan area is within the North Beyer CPD and subject to the CPD policies and provisions of the City's General Plan (Exhibit III-15) which include:

1. Maximum of 1,200 dwelling units.
2. Implementing adopted City General Plan policies.

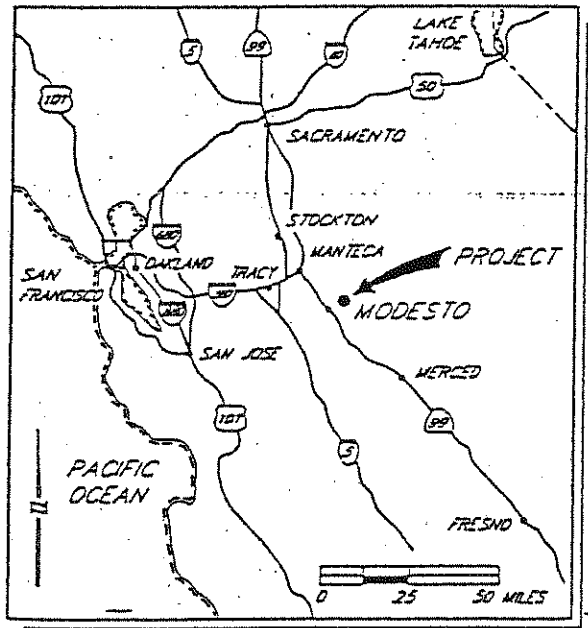

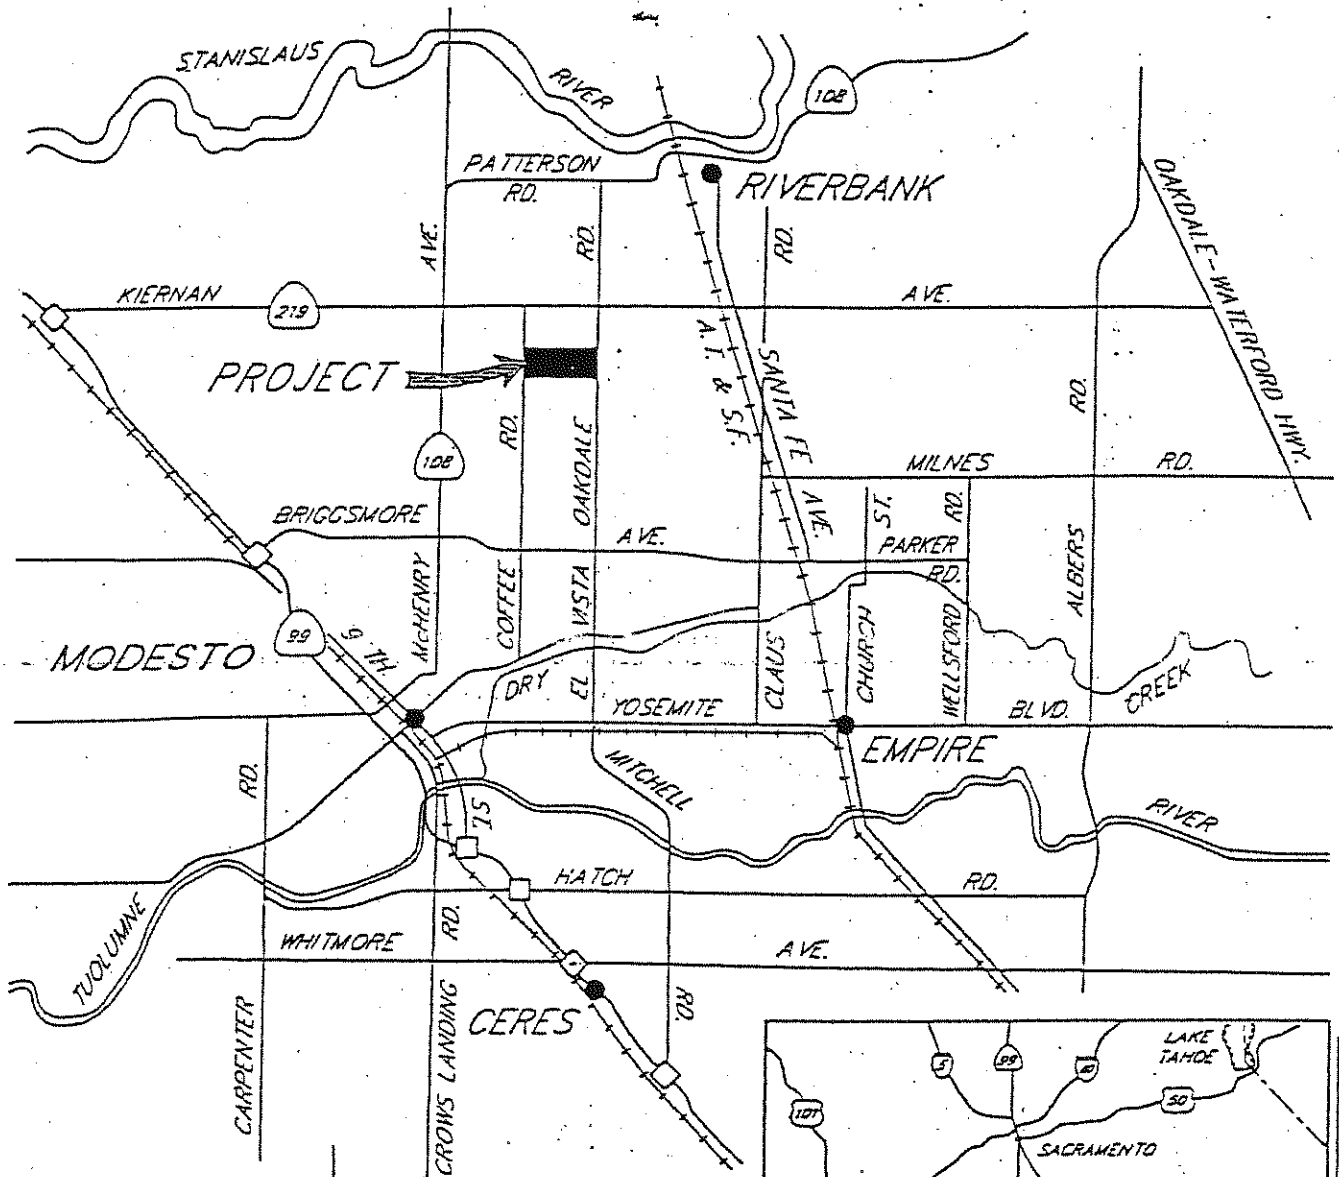

The North Beyer Specific Plan will guide development of land within the Plan area. The Specific Plan will implement Modesto's long-range objective of orderly growth by providing housing, shopping and professional offices for City residents.

B. PLAN AREA DESCRIPTION

The North Beyer Park CPD is located on the north side of Mable Avenue (See Figure 1). The site is bound by Coffee Road on the west, the extension of Claratina Avenue to the north and Oakdale Road on the east side. The project site contains approximately 160 acres.

The existing land use of the property is primarily agricultural with vineyard's occupying the middle portion of the site and peach orchards occupying about the eastern one-third of the site. There are three houses on the site, a Christmas Tree Farm, the Mable Avenue Baptist Church, and the Assyrian of the East Church. There are also barns and other farm buildings on-site.

LAND PLANNING • ENGINEERING • SURVEYING

900 H STREET, SUITE G MODESTO, CA. 95353 TEL: (209) 526-4214

INSERT # 3

1. Surrounding Land Use

The surrounding land uses are as follows:

North - (North of the Eastward Extension of Claratina Avenue) - Claratina Golf and Country Grill (Golf Course Driving Range) adjacent to Coffee Road, and agricultural uses (almond orchards, peach orchards, and vineyards).

South - (South of Mable Avenue all within the City of Modesto) - Vacant lot adjacent to Coffee Road, single family residences, Stockard Coffee Elementary School, Undeveloped 5 Acre City Park, City Fire Station #7, and Homewood Village Mobile Home Park.

East - (East Side of Oakdale Road) - Agricultural Uses - Almond orchards and a ranchette development.

West - (Opposite side of Coffee Road - The Claratina / Coffee Plan Area)- Silverwood Mobile Home Park, orchard, Exxon Mini-mart, existing residence and open field.

C. PLANNING PROCESS

Adoption of the Specific Plan and adoption of the North-Beyer Mitigated Negative Declaration establishes and defines the planning criteria and necessary mitigation measures that will be used to guide the subsequent stages of the established planning process, when initiated by private developers and public agencies, as follows:

- Tentative Subdivision Map Application
- Land Use and Site Design Review, Where Applicable

A discussion of each of these subsequent components of the planning process following Specific Plan adoption is found in the Implementation Element of the Plan (Chapter 4).

D. STATUTORY AUTHORITY

A Specific Plan is a policy document used to implement the "Comprehensive Planning District" concept presented in Section III-D of the City's General Plan. The General Plan acknowledges specific plans (as defined by Section 65450 of the California Government Code) as an appropriate form of comprehensive plan to implement CPD policies. Specific Plans are authorized under Section 65450 of the Government Code for the systematic implementation of all or part of a general plan.

The North Beyer Specific Plan is intended to facilitate development within the Plan area by: 1) defining the types and distribution of land uses and the location and type of infrastructure, 2) setting development standards, and 3) documenting financing of public improvements. The Specific Plan has been prepared in accordance with the California Government Code. Section 65451 mandates that a specific plan include, at minimum, text and diagrams to describe the following:

1. The distribution, location and extent of land uses, including open space, within the plan area.
2. The proposed distribution, location, extent, and intensity of major components of public and private transportation, sewage, water, drainage, solid waste, energy, and other essential facilities proposed to be located within the plan area and needed to support land uses described in the specific plan.
3. Standards and criteria by which development will proceed and standards for the conservation, development, and utilization of natural resources, where applicable.
4. A program of implementation measures, including regulations, programs, public works projects, and financing measures necessary to implement the specific plan.
5. A statement of the relationship between the specific plan and the city's general plan.

E. RELATIONSHIP OF THE SPECIFIC PLAN TO THE GENERAL PLAN

The City adopted its current General Plan and certified the Master EIR in August 1995. The General Plan identified 25 Comprehensive Planning Districts, including North Beyer, within the City's Planned Urbanizing Area. Collectively, the CPDs cover 17,600 acres and represent the City's major urban growth area. The City's General Plan contains a comprehensive range of goals and policies to manage future growth in these districts. In addition to overall community development policies affecting all CPDs (Chapter III), the City's General Plan includes policies for developing its community services and facilities (Chapter V), and managing the City's environmental resources and open space (Chapter VII).

A General Plan Amendment will be required to revise the North Beyer Comprehensive Planning District text and map, Exhibit III-15, to allow the projects proposed non-residential uses. These proposed uses are consistent with the Neighborhood Plan Prototype Policies of the General Plan, Policy III-C-2, and a General Plan amendment will be adopted concurrently with this Specific Plan adoption.

INSERT # 4

F. SPECIFIC PLAN ADOPTION

Adoption of the North Beyer Specific Plan and adoption of the Mitigated Negative Declaration establishes the standards, criteria, and mitigation measures for tentative and final subdivision map approval, rezoning, and development of the Plan area.

Should any regulation, condition, program, or portion of this Specific Plan be ruled invalid or unconstitutional by a California or federal court of competent jurisdiction, such portions will be deemed separate, distinct, and independent provisions. The invalidity of these provisions will not affect the validity of the remaining portions of the Specific Plan or Mitigated Negative Declaration.

G. CEQA REVIEW

The North Beyer Specific Plan has received environmental review under the California Environmental Quality Act pursuant to the City's General Plan Master EIR (SCH #92052017) through the preparation of an Initial Study leading to adoption of a Mitigated Negative Declaration (CEQA Section 21157.5). A 30 day public review period was provided for the Mitigated Negative Declaration which included the Specific Plan document. Because earlier analysis was performed on the project area for substantially similar uses, Stanislaus County LAFCo Staged EIR (SCH #91102032), a Mitigated Negative Declaration per CEQA Section 21157.5 rather than a Focused EIR was used.

Project adoption will include a General Plan Amendment exempting the North Beyer Specific Plan from the requirement for preparation of a Focused EIR, Policy III-D-1-g.

INSERT # 5

Chapter 2. Development Policies and Standards

A. LAND USE (SEE FIGURE 2)

1. General Plan Policies

North Beyer Park will be developed in compliance with applicable City General Plan community development, CPD, and related policies. Since the Plan Area is the remaining undeveloped portion of an existing developed neighborhood, land use policies relative to the development of existing neighborhoods apply. City General Plan policies regarding land uses implemented through the Specific Plan are: Overall land use policies based on the City's zoning code, Title X of the Modesto Municipal Code (Section III-C(1)), "Neighborhood Plan Prototype" Policies (Section III-C(2)), and the North Beyer Park Specific Plan. City General Plan policies for providing community services and facilities, maintaining public safety, and managing environmental and open space resources are included in subsequent chapters of this Specific Plan.

2. The Specific Plan Overlay Zone

The purpose of the SP-O Zone is to permit development within the North Beyer Specific Plan area under Title X of the Modesto Municipal Code and any exceptions as defined in the Specific Plan.

The City Zoning map, as allowed by Section 10-2.305 of the Modesto Municipal Code, "The Zoning Map", shall indicate SP-O zoning for the area of the North Beyer Specific Plan.

3. Subsequent Exceptions to Development Regulations

The Planning Commission may grant exceptions to any of the development regulations listed in this chapter, by resolution, based on the following considerations:

- a. **Exception Guidelines.** Exceptions may be granted to achieve the following purposes:
 1. To encourage creative and efficient land uses.
 2. To encourage mixed or multiple-use projects.
 3. To permit variations from the density, height, and other standards in the various zones.

4. Residential (R)

The R designation accommodates single family residential uses. The maximum permitted density for an overall land use area is 7.5 dwelling units acre. Areas designated R utilize the City's R-1 zone as its development regulations with the following exceptions: Lot sizes smaller than 5,000 square feet and senior housing facilities, as an example, are permitted as long as the 1200 dwelling unit maximum is not exceeded. The existing churches and the Middle School site are designated R in the General Plan which is consistent with City policy.

5. Mixed Use (MU)

The mixed use designation applies to a 10-acre site at the southeast corner of the Coffee Road and Claratina Avenue intersection and also a 14-acre site at the southwest corner of the Oakdale Road and proposed Pelandale Expressway intersection, which would allow a possible neighborhood shopping center at both locations. Professional Office uses are proposed for the area at the northeast corner of the Coffee Road and Mable Avenue intersection. A Stanislaus County approved 50,000 square foot office building, known as "The Arbors", has been planned for this site. Also permitted in the Mixed Use area are R-3, R-2 and R-1 uses according to the City's Zoning Code. To develop non-residential areas as residential uses in excess of 1200 total dwelling units requires a General Plan Amendment. For each of the two Mixed-Use / Neighborhood shopping centers, plot plan approval by the Planning Commission shall be required prior to development. Performance standards deemed necessary by the Commission shall be required at that time.

6. Middle School (MS)

This designation is intended to allow development of a 18.50 acre Middle School facility for the Sylvan Union School District.

7. Storm Drainage (SD)

This designation is intended to permit development for storm drainage facilities to service the project area including basins and related facilities.

9. ~~8~~ Land Use Regulations

INSERT # 6

The City of Modesto's Title X Planning and Zoning Code latest edition, is hereby adopted and incorporated by reference into the North Beyer Park Specific Plan, as the Plan's land use regulations and development standards. All development projects shall be subject to the zoning provisions that are current at the time of application. The City may grant exemptions from the certain Code provision at it's discretion in order to implement the Plan.

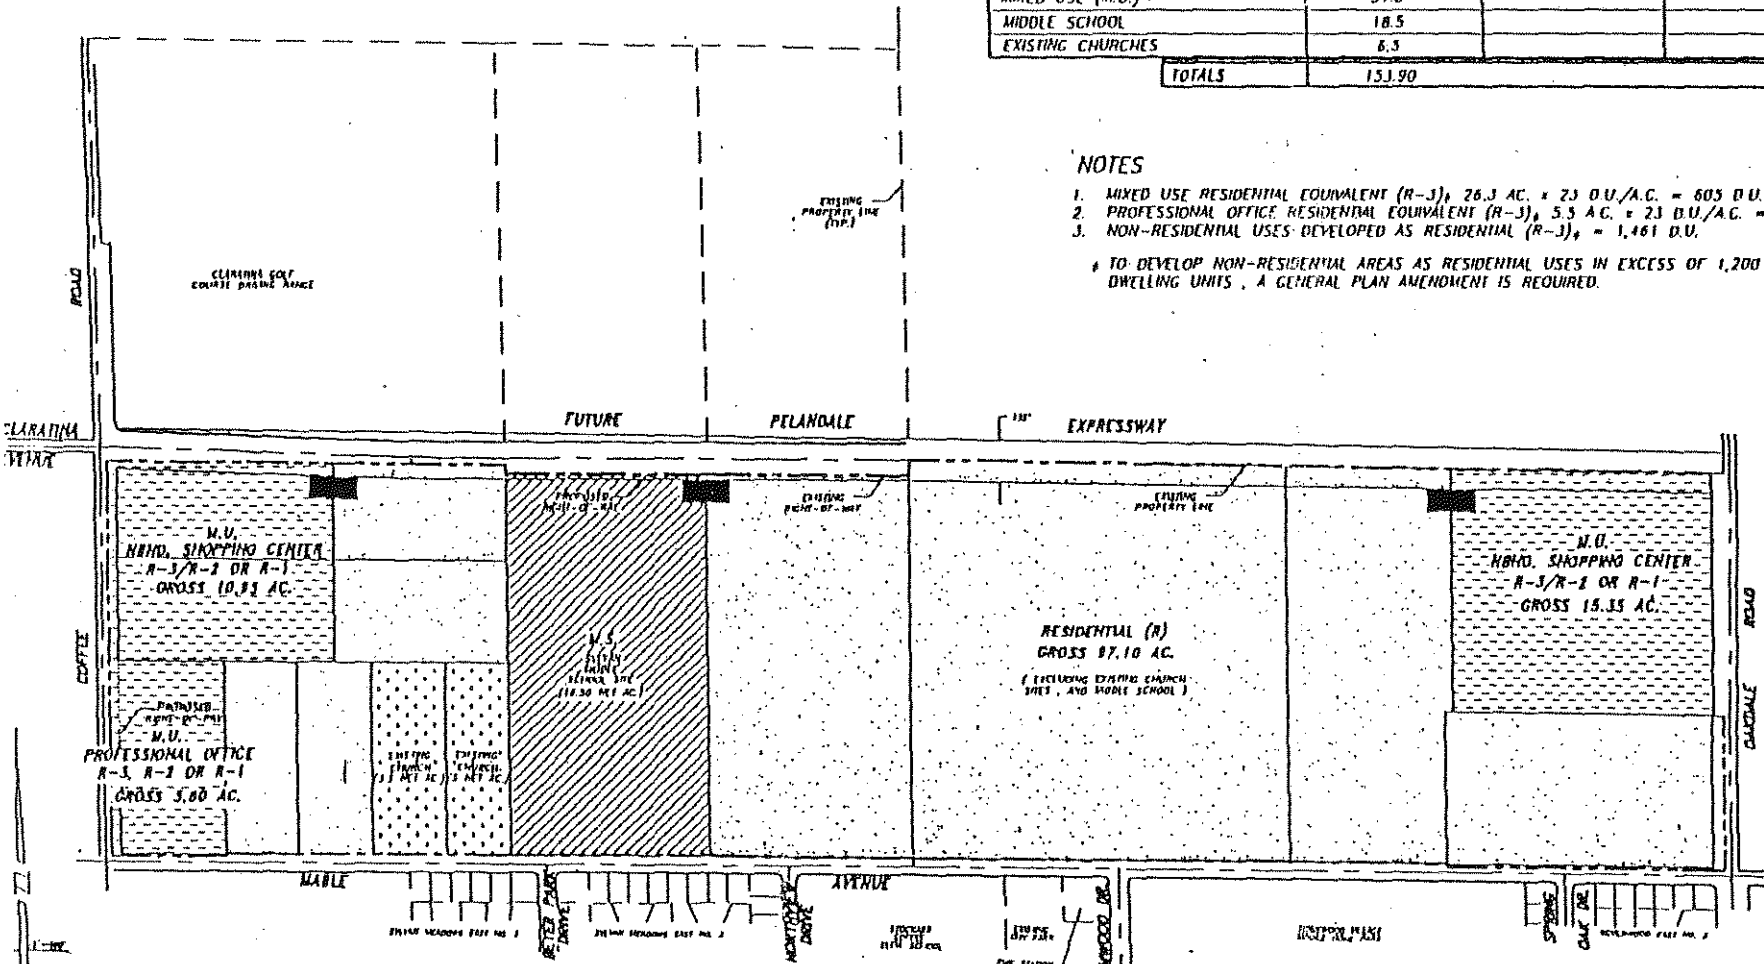

10.
§. Improvement Standard Regulations

The City of Modesto Department of Public Works Standard Specifications are hereby adopted and incorporated by reference into the North Beyer Park Specific Plan as the Plan's Development Standards. All development projects shall be subject to the Standard Specifications that are current at the time of application. The City may grant exemptions from the certain code provisions at its discretion in order to implement the plan.

LAND USE	GROSS AC.	DENSITY	TOTAL DWELLING UNITS
RESIDENTIAL			
RESIDENTIAL (R)	97.1	7.5 DU'S/AC	729
MIXED USE (M.U.)*	31.8		
MIDDLE SCHOOL	18.5		
EXISTING CHURCHES	6.3		
TOTALS	153.90		729

NOTES

1. MIXED USE RESIDENTIAL EQUIVALENT (R-3), 26.3 AC. x 23 D.U./A.C. = 603 D.U.
 2. PROFESSIONAL OFFICE RESIDENTIAL EQUIVALENT (R-3), 5.3 AC. x 23 D.U./A.C. = 127 D.U.
 3. NON-RESIDENTIAL USES DEVELOPED AS RESIDENTIAL (R-3), = 1,461 D.U.
- * TO DEVELOP NON-RESIDENTIAL AREAS AS RESIDENTIAL USES IN EXCESS OF 1,200 TOTAL DWELLING UNITS, A GENERAL PLAN AMENDMENT IS REQUIRED.

Chapter 3. Public Facilities

A. OVERVIEW

The North Beyer Park Plan area infrastructure system is an extension of the existing neighborhood area's infrastructure. Buildout of the plan area was planned for as part of the existing neighborhood planning areas. This chapter describes development of the transportation and circulation, wastewater collection, water delivery, storm water drainage, utilities (electricity, street lighting, natural gas, telephone, cable television, irrigation), schools, and parks and recreation necessary to support development in the Plan Area. Improvement of North Beyer infrastructure will be as described in the General Plan policies in Chapter V, Community Services and Facilities.

B. INFRASTRUCTURE PLAN

INSERT # 8

The North Beyer Park Infrastructure Plan is shown on Figures 3 and 4, and incorporated into this Specific Plan. The figures serve as a design schematic for the planning area infrastructure and does not represent specific alignments or locations for facilities. The figures indicate the preliminary sizing and design for backbone infrastructure in the planning area. Exact phasing and design will be determined as development occurs. Prior to the recording of subdivision maps, improvement plans consistent with the general design in this Specific Plan shall be approved by the City.

1. Sanitary Sewer Service (See Figure 3)

The existing 18" subtrunk sewer main at Coffee Road at Sylvan Meadows Drive will be utilized to serve the North Beyer Park Plan Area. A sewer lift station must be installed in order to obtain the depth required to accommodate the expected construction and build-out of the Plan Area. A "sub-trunk" sewer line must be extended from the pump station north up Coffee Road to the proposed Claratina Expressway, and then extending east down the Expressway to serve the North Beyer Park project. The pump station and "sub-trunk" sewer system in Coffee Road will be sized to serve both the North Beyer Park Plan Area and the Claratina / Coffee Plan Area. The "sub-trunk" system and sewer lift station and force main shall be funded by the City with fees collected for that purpose.

INSERT # 9

2. Storm Drainage (See Figure 4)

A positive storm drainage system comprised of catch basins, pipelines and storm drain basins is proposed to serve this project. The storm drain basins will be constructed as development occurs. The storm drain collection system and basins will be designed in accordance with the City of Modesto and Stanislaus County Standards and specifications.

INSERT # 10

3. Water (See Figure 3)

City water service will be provided to the entire plan area through connection to the existing water mains in Mable Avenue. An existing 10" water main and a 24" transmission water main which lie in Mable Avenue are part of a larger looped water system designed to serve the entire Plan Area. All private wells shall be abandoned and capped at the time of development, in accordance with the City of Modesto, Stanislaus County and Department of Health Services Standards.

INSERT # 11

C. TRANSPORTATION AND CIRCULATION

1. Overview

The North Beyer Park Plan Area circulation system represents a logical extension of the City's existing arterial and collector street system as specified in the General Plan. The location and classification of streets within this extended street system is shown on Figure 5, Vehicular Circulation Diagram. The plan provides for the dedication of right-of-way (R.O.W.) that is required within North Beyer Park for the proposed Pelandale Expressway. Additional dedication will be necessary for the expressway which will be required by the properties north of the Plan Area as future development occurs. The Specific Plan and Mitigated Negative Declaration preparation included a traffic analysis performed under the direction of the City of Modesto Public Works and Transportation Department.

2. Specific Plan Street Classifications

Table 2 (below) Specific Plan Street Classifications, describes the streets which are a part of the North Beyer Park Plan Area. The street classifications correspond to Public Works Standards. Street cross-sections shall conform to Public Works Standards and policies with the following exception, the Pelandale Expressway shall correspond to Schematic Section, Figure 8, on Page 2-11 of the Pelandale / Snyder Final Specific Plan.

Table 2 - Specific Plan Street Classifications

Street / Classification	Street R.O.W.
Class B Expressway (Pelandale Expressway)	135 Feet*
Principle Arterial (Oakdale Road)	114 Feet*
Minor Arterial (Coffee Road)	100 Feet*
Collector Street (Mable Avenue)	60 Feet*
Minor Residential Street	50 Feet

* Additional right-of-way may be required at intersections per City of Modesto Standard Specifications.

- a. **Class B Expressway - Claratina Avenue** is designated as an expressway in the General Plan. Public Works analysis has determined Claratina Avenue to be an eastward extension of the Pelandale Expressway to be developed to a 135' Class B Expressway. The Expressway will ultimately connect from Highway 99 to the Claus Road Expressway. The expressway shall include a Class I Bike Trail that will link up with the Claratina and Claus Road trails consistent with the City of Modesto's Non-Motorized Transportation Master Plan. As property owners develop within the Plan Area they will be required to dedicate right-of-way for the expressway and construct a sound wall along the property adjacent to the expressway. The City will be responsible for all improvements on the Pelandale Expressway except for the soundwall which will be the developers responsibility. The City will reimburse the developer the cost of 12' of right-of-way. Pelandale Expressway will be improved per Schematic Section, Figure 8, Page 2-11, Pelandale / Snyder Final Specific Plan.
- b. **Arterial Streets** - The extensions of two arterial streets, Coffee Road and Oakdale Road are part of the City's circulation system. Coffee and Oakdale Roads shall include a Class II Bike Lane consistent with the City of Modesto's Non-Motorized Transportation Master Plan. Coffee Road will be improved as a 100' minor arterial and Oakdale Road will be a 114' principle arterial per Public Works Standards.
- c. **Collector Streets** - Existing Mable Avenue is the only 60' collector street crossing the Plan Area. Mable Avenue will connect Coffee and Oakdale Roads.
- d. **Minor Residential Streets** - Minor residential streets provide internal neighborhood circulation while minimizing through traffic. This street network will be determined at the time each individual property owner develops. No connection will be permitted between minor residential streets and the proposed Claratina Expressway through the planned residential areas.

D. TRAFFIC CIRCULATION SYSTEM ANALYSIS

The following outline shows general traffic circulation system improvement needs anticipated for the next 30 years based on the Traffic Impact Analysis prepared by kdAnderson Transportation Engineers. These needs cover areas adjacent to and outside the project area. A majority of these improvements would be needed even without this project. A listing of these needs does not indicate the project responsibility which can be found in Chapter 4, Implementation and Financing.

Concurrent with Project Development (1-5 Years) —

<u>Facility</u>	<u>Impact (Level of Service)</u>	<u>Recommended Improvements</u>
Coffee / Claratina Intersection	LOS F	Signals needed plus four lane improvements
Coffee / Mable Intersection	Future Turning Movements	Provide adequate setbacks and dedication at northeast corner for future intersection turn lanes
Pelandale Expressway	LOS Degraded on Surrounding Roadways	Dedicate right-of-way along adjacent projects per Specific Plan
Fronting roadways of development: Coffee Road Oakdale Road Mable Avenue	LOS is degraded	Dedicate and improve roadway to City Standards along fronting projects

5 Years (Phase 1 of Project)

<u>Facility</u>	<u>Impact (Level of Service)</u>	<u>Recommended Improvements</u>
Coffee / Mable Intersection	LOS F	Signals needed plus improvements per study
Fronting roadways of development: Pelandale Expressway Coffee Road Oakdale Road Mable Avenue	LOS is degraded	Dedicate and improve roadway to City Standards along fronting projects. Pelandale Expressway improvements per Specific Plan.

Year 2025 (Project Buildout)

<u>Facility</u>	<u>Impact (Level of Service)</u>	<u>Recommended Improvements</u>
Coffee / Claratina Intersection	LOS E	Three through lanes needed and upgrade signals
Coffee / Sylvan Intersection	LOS D	None
Oakdale / Sylvan Intersection	LOS C	Dedicate and improve to City Standards
Coffee / Mable Intersection	LOS E	Dual southbound turn lanes if no mid-block median break on Coffee Road
Oakdale / Mable Intersection	LOS B	Signals needed
Pelandale Expressway	LOS F at intersections	Six through lanes needed per North Beyer Park Specific Plan.
Fronting roadways of development: Coffee Road Oakdale Road Mable Avenue	LOS is degraded	Dedicate and improve roadway to City Standards along fronting projects

E. SCHOOLS

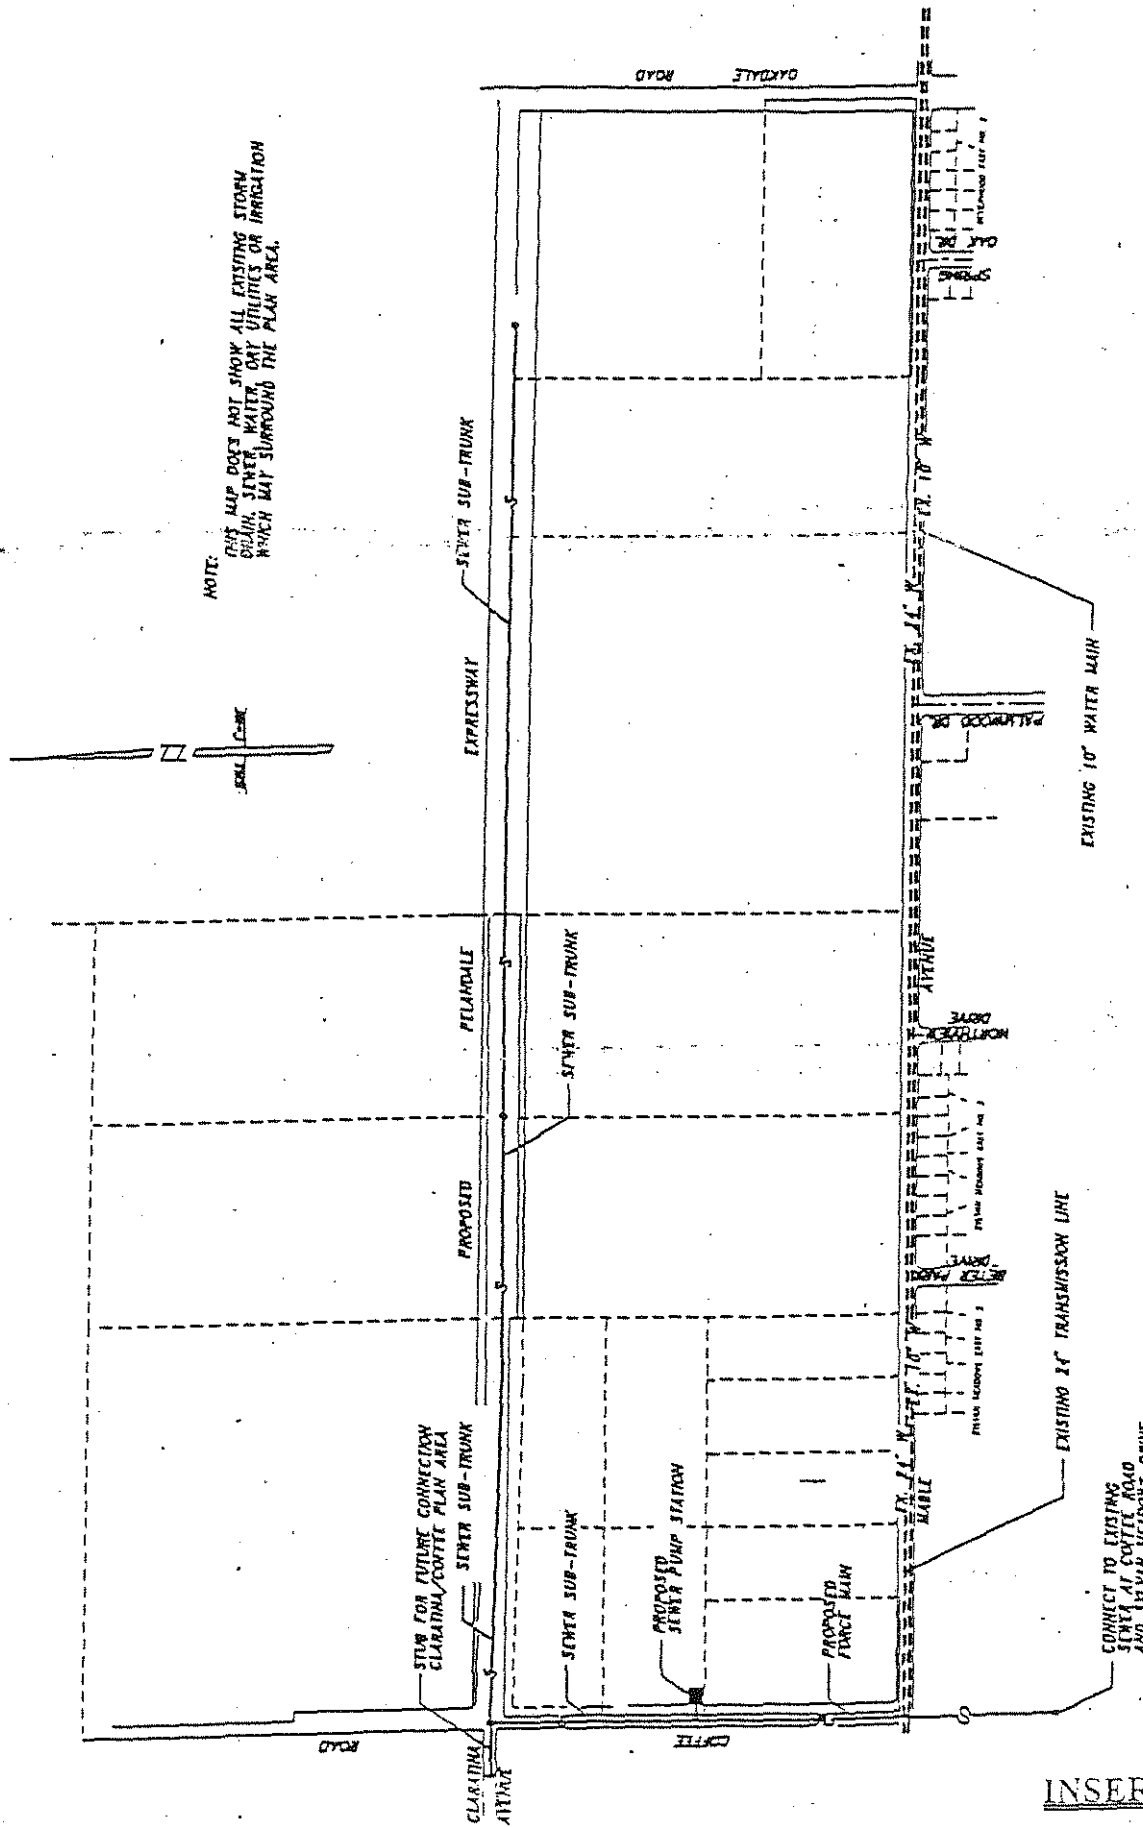

The North Beyer Park project will be served by the Sylvan Union School District for grades Kindergarten (K) through 8, and by the Modesto High School District for 9-12. The North Beyer Park Plan Area is proposing a 18.50 net acre middle school site as shown on the Land Use Diagram (Figure 2). The school site will have a west orientation facing the existing church sites. As stated in the City's General Plan (Policy VH.3.i, Page V-25), the City considers impacts on public school capital facilities fully mitigated when it receives a letter stating that the school district and project proponent have resolved school impacts and the means by which they are resolved. One project (approximately 55 acres of residential) within the North Beyer Park Plan Area has already annexed to the CFD.

F. PARKS

In Modesto, open space is provided through a comprehensive network of regional, community and neighborhood parks. The North Beyer Park Specific Plan is the remaining portion of an existing neighborhood and lies within Park Planning Area No. 9 as shown on Figure V-5 of the General Plan. There are existing and planned parks within the neighborhood. Payment of capital facilities fees will mitigate the projects impact to parks and open space demand in the area.

Chapter 4. Implementation and Financing

A. PLAN IMPLEMENTATION

The following defines the implementation measures that will guide development within the Plan Area.

1. Action required for implementation of the North Beyer Park Specific Plan

The following actions are required prior to development of land uses proposed in the Specific Plan:

- a. Approval of tentative and final subdivision maps.
- b. Approval of land use and site design review, where applicable.

2. Tentative and Final Subdivision Map Approvals

Implementation of residential uses in the Plan Area will require processing of a tentative map. The tentative map process is governed by the City's Subdivision Ordinance and the State Subdivision Map Act (Sections 66410 et seq.). Tentative and Final Subdivision Map approval requires conformance to the requirements of the Specific Plan and Mitigated Negative Declaration for the Specific Plan.

3. Specific Plan Amendment Process

Any amendments to Specific Plans shall be in accordance with Section 65453 of the Government Code which provides the amendment procedure for Specific Plans.

B. IMPLEMENTATION POLICIES

The following policies will be used to implement the long range financing strategy:

1. Unless specifically excepted, each property owner shall finance and construct improvements as specified in the Specific Plan, and in accordance with the City of Modesto Standards which occur directly on their property.
2. The referenced improvements will be sized by each property owner, in accordance with the Specific Plan. In the event that the properties develop out of sequence, each property owner is required to provide easements and access that may be necessary to install facilities for the benefit of the other property owners. Each property owner will reimburse

the other(s) for their oversize expenses at the time of filing the first final map within each development, building permit or connection to the system whichever occurs first.

3. The existing city-wide and County fees for new construction will prevail for development within the Plan Area and are intended to pay for the improvements as specified in this Specific Plan.
4. Property owners may receive credits to the payment of city-wide and County fees to the extent that there exists any duplication of improvements provided by the property owner versus improvements intended by the fee structure.
5. Accounting for facility oversizing will be the responsibility of the property owners, in conformance with City Policies and Standards. Repayment will be enforced by the City by being part of the City's requirement for the subdivision map filing. Disputes among property owners will be subject to binding arbitration by a member of the American Arbitration Association (AAA). Outstanding balances for oversizing will be subject to 10% annual interest, payable by the benefiting "downstream" property owner at the time of final map filing, building permit or connection to the system whichever occurs first.
6. To the extent permitted by law, the costs of developing the Specific Plan, including but not limited to traffic studies, noise studies and environmental documentation, shall be reimbursed by property owners in the Specific Plan to the property owners in the Specific Plan who have fronted those costs. Reimbursement shall be pursuant to City of Modesto Ordinances and Policies. The existing church sites within the Specific Plan shall not be responsible for the costs associated with the development of the Specific Plan. Disputes among property owners will be subject to binding arbitration by the American Association of Arbitrators (AAA).
7. The City shall require dedication of land for road improvements and construction of arterial and collector street improvements consistent with city-wide policies and regulations.
8. Reimbursement for oversizing utility lines and roadway improvements shall also be consistent with city-wide policies and regulations.

C. CEQA MITIGATION MONITORING

CEQA Section 21081.6 requires the public agency approving a project to adopt a reporting or monitoring program for mitigation measures made conditions of project approval. The North Beyer Park Specific Plan complies with this requirement by incorporating the mitigation measures from the North Beyer Mitigated Negative Declaration (project CEQA review document) into the Specific Plan as development policies and/or standards. These measures are thus fully enforceable with project approval.

INSERT # 16

D. FINANCING

A long range financing strategy for the North Beyer Park Plan Area is provided as part of this Specific Plan, both in accordance with State Government Code Requirements and with the City of Modesto Urban Area General Plan Policy.

A basic concept of the Specific Plan Financing Strategy is that infrastructure improvements are to be constructed in conjunction with individual project development. These infrastructure improvements shall be sized according to identified future needs with compensation from property owners who will receive future benefit. The City of Modesto does require Specific Plans to provide for the installation and maintenance for certain public facilities as identified below (See Item E.2.b on Page 4-4) through participation in a City Mello-Roos Community Facilities District.

INSERT # 17

E. FUNDING METHODS

The infrastructure element of the North Beyer Park Plan Area describes a number of community facilities necessary to implement the plan. The following funding sources will be used to cover the costs of those facilities. All interior infrastructure shall be installed by individual property owners as projects develop:

1. Pelandale Expressway

- a. Funding Source: City of Modesto's Capital Facilities Fee Program (CFF).
- b. Net cost to City: None. City wide fees will provide financing for these improvements.
- c. Developer to dedicate right-of-way and construct sound wall.
- d. The City will reimburse the developer the cost of 12 feet of right-of-way.
- e. The City is responsible for all improvements of the Pelandale Expressway except the soundwall which is the developer's responsibility.

**2. Principle / Minor Arterials
(Coffee and Oakdale Roads)**

- a. Funding Source: Existing City wide fees and individual property owner/developer's requirements.
- b. Medians and landscaping setbacks along soundwalls.
Funding Source: City Mello-Roos Community Facilities District.
- c. Net cost to City: None. Existing City policies govern the dedication of land for road improvements and requires developers of a given road frontage to construct the first 40' of the road improvements measured from the property line. The City would be responsible for any improvements required beyond the 40'.

**3. Collector Street (Mable Avenue) /
Minor Residential Streets**

- a. Funding Source: Individual property owners/developers shall be responsible for street improvements adjacent to their property.
- b. Net Cost to City: None. Development will provide financing for these improvements.

4. Water

- a. Funding Source: Existing City wide user fees and Developer Requirements.
- b. Net Cost to City: None. The existing water distribution lines in Mable Avenue will be utilized to serve the North Beyer Park Plan Area. The Plan Area shall be subject to the typical City of Modesto water related fees (i.e. water systems fee, water meter fee, water connection fee, etc.) which are applicable to each individual property owner/developer at the time of development.

**5. Sanitary Sewer (Pump Station,
Force Main and Sub-Trunk System)**

- a. Funding Source: City Sub-trunk sewer fee which is designated to fund sub-trunk sewers. City sewer bond redemption charge which includes a component for lift stations.
 - b. Net Cost to City: None. City wide user fees as described above are sufficient to pay for needed sewer infrastructure facilities.
-

6. Storm Drainage

- a. Funding Source: Each individual property owner/developer shall be responsible for installation of infrastructure improvements (i.e. main storm drain trunk system, storm drain basin) which are required for development of their property and are in accordance with this Specific Plan.
- b. Net Cost to City: None. Development will provide financing for these improvements.

7. Schools

- a. Funding Source: Separate agreement with school district or annexation into the Village One Schools Infrastructure Financing Agency (SIFA CFD 1994-1).

School impacts shall be considered mitigated when the project is annexed to the Schools Infrastructure Financing Agency or has executed a developer fee agreement with Modesto City Schools. As of this date, only four parcels have not completed the mitigation process; A.P.N. 52-05-18, A.P.N. 52-05-20, A.P.N. 52-05-21, and A.P.N. 52-05-22. Compliance with this policy shall be a condition on any final map which includes these parcels.

- b. Net Cost to City: None. The individual property owners/developers shall reach full agreement with Modesto City Schools and the Sylvan School District to insure funding and to mitigate impacts to the school districts.

8. Parks - None Are Required Within the Plan Area

- a. Park fees will be paid within the North Beyer Park Plan Area.
- b. Net Cost to City: None. City wide fees and development will provide financing for park improvements.

F. UTILITIES

Following are the agencies and organizations which were providing services to the project area at the time the Specific Plan was originally adopted. Subsequent changes in service responsibilities may occur without affecting the validity of the Specific Plan. The City intends that adequate service will be provided to the project area, irrespective of the organization providing that service.

Electricity - Electricity to the Plan Area shall be provided by the Modesto Irrigation District (MID).

Street Lighting - Street lighting shall be provided along the streets per Public Works Standards as individual properties develop.

Natural Gas - Natural gas service shall be provided by Pacific Gas and Electric (P.G. & E.).

Telephone - Telephone service shall be provided by Pacific Bell.

Cable Television - Television service shall be provided by Post Newsweek Cable.

Irrigation - Irrigation service is currently provided by the Modesto Irrigation District and, existing irrigation facilities will be abandoned and/or relocated as properties develop.

G. INFRASTRUCTURE COST SHARING

Developers that install oversized facilities consistent with this Specific Plan and benefitting other parts of the Plan Area shall be reimbursed. The cost of infrastructure improvements shall be distributed throughout the Plan Area based on a project's relative benefit. A reimbursement agreement or some other form of reimbursement method shall be secured at the appropriate time in the approval process (prior to the recordation of a final map).

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-103**

**A RESOLUTION OF APPLICATION TO THE STANISLAUS LOCAL AGENCY
FORMATION COMMISSION TO ANNEX 17.4 ACRES OF PROPERTY LOCATED ON
THE NORTHEAST CORNER OF COFFEE ROAD AND CLARATINA AVENUE TO
THE CITY OF MODESTO (OWNER INITIATED – UNINHABITED)**

WHEREAS, Shelter Cove Church is the owner of approximately 17.4 acres of real property, located on the northeast corner of Coffee Road and Claratina Avenue, and proposes that the Property be included within the North Beyer Specific Plan area for planning purposes (“Property”), and

WHEREAS, the City has received a written request from Shelter Cove Church to initiate annexation of the Property to the City of Modesto under the Cortese-Knox-Hertzberg Local Reorganization Act of 2000, California Government Code Section 56000, et seq, and

WHEREAS, the Resolution of Application is proposed pursuant to California Government Code Sections 56654 and 56700, and

WHEREAS, on or about December 23, 2002 a notice of intention to adopt said resolution of application was given to the Stanislaus County Local Agency Formation Commission and the following interested and subject agencies: Stanislaus County, Modesto City School District, Modesto Irrigation District, Modesto High School District, Sylvan Union School District and Stanislaus Consolidated Fire Protection District, and

WHEREAS, the Property proposed to be annexed is uninhabited, and a description of the boundaries of the subject Property is set forth in **Exhibit “A”**, attached hereto and by this reference incorporated herein, and

WHEREAS, the subject territory proposed to be annexed is within Stanislaus County, contiguous to the existing City limits and within the current Sphere of Influence of the City of Modesto, as adopted by Stanislaus Local Agency Formation Commission, Resolution No. 97-11, on May 28, 1997, and

WHEREAS, the property is covered by a Williamson Act contract, No. 77-2611, and

WHEREAS, said Williamson Act contract was protested by the City on December 27, 1976, pursuant to City Council Resolution No. 76-1372, and

WHEREAS, LAFCO held a public hearing to consider the City's protest of said Williamson Act contract on April 19, 1978 and adopted Resolution No. 76-1372, upholding the City's protest, and

WHEREAS, before an annexation application may be heard by LAFCO, there must be an agreement with the County providing for the sharing of property taxes following an annexation, and

WHEREAS, the proposed annexation area is covered by the Master Property Tax Agreement entered into between the County of Stanislaus and City of Modesto which was approved by Council Resolution No. 96-170 on April 9, 1996, and

WHEREAS, it is desired to provide that the proposed reorganization be subject to the following terms and conditions:

- (a) The annexation of said territory, as set forth on **Exhibit "A"** attached hereto, to the City of Modesto.
 - (b) The detachment of said territory from the Stanislaus Consolidated Fire District.
- WHEREAS, the reasons for this proposed reorganization to the City of Modesto are as

follows:

- (a) Staff has received a written request signed by the sole property owner, Shelter Cove Church, to annex their Property to the City of Modesto.
- (b) The proposed annexation is consistent with the Urban Area General Plan and the North Beyer Specific Plan and can be served by City services.
- (c) The proposed annexation will result in planned, orderly and efficient development of the area, and provision of services, and

WHEREAS, pursuant to Government Code Section 56653, a plan for providing services is set forth in **Exhibit “B”**, attached hereto and by this reference incorporated herein, and

WHEREAS, Planning Commission held a duly noticed public hearing to consider the proposed application for annexation on January 27, 2003, at 7:00 p.m. in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, and recommended adoption of a resolution of application to annex the Property, and

WHEREAS, the Modesto City Council held a duly noticed public hearing to consider the proposed application for annexation on February 25, 2003, at 7:00 p.m. in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Modesto City Council:

1. That application be made for reorganization of the Property subject to the following terms and conditions:
 - (a) The annexation of said territory, as set forth on **Exhibit “A”** attached hereto, to the City of Modesto.
 - (b) The detachment of said territory from the Stanislaus Consolidated Fire District.
2. That future development of this site shall be consistent with the Modesto Urban Area General Plan adopted by the Council of the City of Modesto on August 15, 1995, and the North Beyer Specific Plan adopted by the Council of the City of Modesto on January 7, 1997, and subsequent amendments.
3. That all owners of land within the affected territory have given their written consent to the reorganization and therefore, pursuant to California Government Code Section 56663 (c)(1), the City Council consent to waiver of conducting authority proceedings.
4. That the City hereby exercises its option not to succeed to the Williamson Act Contract, No. 77-2611, pursuant to California Government Code Section 51243.5, and thereby tentatively cancels said contract.
5. That the Resolution of Application is consistent with the City of Modesto Urban Area General Plan, adopted by the Modesto City Council by Resolution No. 95-409 on August 15, 1995.
6. That the proposed Reorganization and has received CEQA environmental review through an Initial Study, leading to a Mitigated Negative Declaration (SCH # 2002122117).

BE IT FURTHER RESOLVED that the project applicant shall indemnify, defend, and hold harmless the City of Modesto, its agents, officers, and employees from any and all claims, actions, or proceedings against the City of Modesto, its agents, officers, and employees to attack, set aside, void, or annul, any approval by the City of Modesto and its advisory agency, appeal board, or a legislative body concerning the resolution of application which action is brought within the time period provided for in Section 66499.37 of the Government Code of the State of California. The City of Modesto shall promptly notify the applicant of any claim, action, or proceeding and shall cooperate fully in the defense. If the City fails to do so, the applicant shall not thereafter be responsible to defend, indemnify, or hold City harmless.

The foregoing resolution was introduced at the regular meeting of the Modesto City Council held on February 25, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

Ayes:	Councilmembers:	Conrad, Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino
Noes:	Councilmembers:	None
Absent:	Councilmembers:	None

PLAN FOR SERVICE

EXHIBIT "C"

SHELTER COVE REORGANIZATION PLAN FOR PROVIDING SERVICES

Pursuant to Government Code Section 56653, the following Plan for Services to be extended to the affected territory has been prepared for the Machado Reorganization:

- A. The project site is part of the North Beyer Specific Plan adopted January 7, 1997 (City Council Resolution No. 97-4), amended on February 25, 2003 (City Council Resolution No. *). A Mitigated Negative Declaration was prepared for a General Plan and Specific Plan Amendment, and rezoning, to shift the boundaries of the Hetch Hetchy Comprehensive Planning District (CPD) and North Beyer CPD so the existing 17.4 acre Claratina Golf Course and Driving Range property is contained in the North Beyer CPD (SCH# 95122030). Said Mitigated Negative Declaration analyzed community facilities and services. These services include traffic and circulation, waste water collection, water delivery, storm water drainage, solid waste disposal, energy, schools, parks, fire, police and other governmental services. The City of Modesto is a full-service municipal city and would provide the following services:
1. **Fire Protection** – Upon reorganization, the properties will be withdrawn from the Stanislaus Consolidated Fire Protection District and fire protection services will be provided by the Modesto Fire Department. Primary response will come from Station No. * located approximately one (1) mile from the project site on Mable Avenue.
 2. **Police Protection** – Modesto City Police would assume responsibility for police protection upon effective date of annexation.
 3. **Garbage and Garden Refuse Pickup** – Weekly pickup would be extended to the area upon effective date of annexation.
 4. **Sanitary Sewer Service** – Sewer service can be provided to the annexation area from an existing 18" sewer line in Coffee Road. Service would be extended upon development of the subject site at no cost to the City, as existing City fees and property owner financing will be sufficient to cover the cost.
 5. **Water Service** – Service would be provided by the City of Modesto upon annexation. The City currently has water facilities in the area. Future development of the subject site as a church requires dedication of a water well site for a future well location. Currently, the project site is served by two wells, one providing irrigation water to the project site, and another which provides domestic water to the restaurant, pro shop and public facilities that currently exist on the subject site. The existing property is 17.4 net acres in size, but this does not include the right-of-way for the future Claratina Expressway. The future Claratina Expressway right-of-way is currently fenced, landscaped and irrigated as part of the Claratina Golf Course and Driving Range facility. The project engineer has estimated that approximately 15 acres of the project site is currently in turf. Based on the engineer's conversation with a local landscape architect, an estimate of 52.6 inches of water per square foot of turf was used to determine that

Exhibit "C" Plan for Services
Shelter Cove Reorganization

approximately 65 acre-feet of water per year is used to irrigate the existing turf at the project site. This 65 acre-feet does not take into consideration any additional domestic water use for the restaurant, pro shop and public facilities at the site. Independently, as part of the project analysis, the City of Modesto Engineering and Transportation Department determined that for the sizing of water infrastructure, a peak flow of 15.35 million gallons per year would be used. This peak flow number is only for the purpose of sizing facilities, and the same analysis determined that the average yearly water use at the site at development would be approximately 3.8 million gallons, or about 12 acre-feet per year. Based upon the foregoing, the site is estimated to currently use approximately 65 acre-feet of year of water to irrigate turf, and after development of the project, it is estimated that approximately 12 acre-feet per year of water will be needed to serve the church project and its landscaping.

6. **Streets** – Coffee Road already exists along the site frontage. Claratina Avenue is proposed to be extended in 2004 pursuant to the Modesto Capital Improvement Plan, however site access is proposed via Coffee Road and not Claratina Avenue. These streets will be the responsibility of the City.

B. The level and range of services:

The City of Modesto is a full service provider of municipal services and would provide the full range of services for those areas listed above.

C. When can the services be provided?

The above-described services can be provided upon the effective date of annexation.

D. Improvements required as condition of reorganization.

No improvements will be required as a condition of reorganization. Connection to the City of Modesto sewer system will be required five years from when sewer is available per Modesto Municipal Code Section 5-6.18. Improvements would be required as a condition of development.

E. How will services be financed?

Services will be financed through a combination of City fees and Enterprise Fund.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-104**

A RESOLUTION APPROVING A MITIGATED NEGATIVE DECLARATION (SCH NO. 2002122117) FOR THE FOLLOWING PROJECTS 1) GENERAL PLAN AMENDMENT TO SHIFT COMPREHENSIVE PLANNING DISTRICT BOUNDARIES IN ORDER TO MOVE THE 17.4 ACRE PROPERTY LOCATED AT THE NORTHEAST CORNER OF COFFEE ROAD AND CLARATINA AVENUE FROM THE HETCH HETCHY COMPREHENSIVE PLANNING DISTRICT (CPD) TO THE NORTH BEYER CPD; 2) SPECIFIC PLAN AMENDMENT TO INCLUDE THE SUBJECT 17.4 ACRE PROPERTY IN THE NORTH BEYER PARK SPECIFIC PLAN AND DESIGNATE THE PROPERTY AS CHURCH (CH), 3) RESOLUTION OF APPLICATION TO STANISLAUS LOCAL AGENCY FORMATION COMMISSION FOR A PROPOSED REORGANIZATION TO ANNEX THE SUBJECT 17.4 ACRE PROPERTY TO THE CITY OF MODESTO AND ELECTION NOT TO SUCCEED TO WILLIAMSON ACT CONTRACT AND 4) ORDINANCE AMENDMING SECTION 339 OF THE ZONING MAP OF THE CITY OF MODESTO PREZONING TO SPECIFIC PLAN OVERLAY (SP-O) ZONE

WHEREAS, on August 15, 1995, the City Council of the City of Modesto certified the Final Master Environmental Impact Report ("Master EIR") (SCH No. 92052017) for the Modesto Urban Area General Plan, and

WHEREAS, on November 26, 1996, by Resolution No. 96-640, the City Council of the City of Modesto certified the Mitigated Negative Declaration for the North Beyer Park Specific Plan (SCH No. 96102053), and

WHEREAS, the Shelter Cove Church have proposed 1) a General Plan Amendment (File No. P-GPA 02-002) to shift Comprehensive Planning District boundaries in order to move the 17.4 acre property located at the northeast corner of Coffee Road and Claratina Avenue from the Hetch Hetchy Comprehensive Planning District (CPD) to the North Beyer CPD; 2) a Specific Plan Amendment (File No. P-SPA-02-001) to include the subject 17.4 acre property in the North Beyer Specific Plan and

designate the property as Church (CH); 3) a request to Prezone (File No. PRZ 02-001) the subject 17.4 acre property to Specific Plan Overlay (SP-O) zone, and

WHEREAS, the City of Modesto proposes to adopt a Resolution of Application to the Stanislaus County Local Agency Formation Commission for a proposed reorganization to annex the 17.4 acre property located at the northeast corner of Coffee Road and Claratina Expressway and election not to succeed to a Williamson Act Contract, and

WHEREAS, the proposed General Plan Amendment, Specific Plan Amendment, rezoning designation and the Resolution of Application are hereafter collectively referred to as “the projects”, and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for a Master EIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the master environmental impact report as being within the scope of the project, and

WHEREAS, the City’s Community & Economic Development Department prepared an Initial Study leading to a Mitigated Negative Declaration (SCH No. 2002122117) which reviewed the proposed subsequent project to the City’s General Plan Master EIR, the Initial Study identified additional potentially significant environmental effects that were not analyzed in the Master EIR in terms of Traffic, Noise, Agricultural Resources, Drainage, Flooding and Water Quality, and Storm Drainage, and

WHEREAS, feasible mitigation measures were incorporated to revise the subsequent project before the Initial Study/Mitigated Negative Declaration was released for public review pursuant to CEQA Section 21092 in order to avoid or mitigate the identified effects to a point where clearly no significant effect on the environment will occur, and

WHEREAS, Government Code Section 21175.5 permits the adoption of Mitigated Negative Declarations; and

WHEREAS, the City's Community & Economic Development Department by Environmental Assessment Initial Study EA No. C&ED 2002-76, determined that a Mitigated Negative Declaration should be adopted for the proposed project under the General Plan Master Environmental Impact Report (SCH No. 92052017), and

WHEREAS, the Draft Mitigated Negative Declaration (SCH No. 2002122117) was released for public review and comment for the required 30-day period ending on January 26, 2003, and

WHEREAS, the Final Mitigated Negative Declaration (SCH No. 2002122117), incorporates all comments received during the circulation period and response to comments, and

WHEREAS, no new unavoidable significant effect was identified and mitigation measures or project revisions were required to be added in order to reduce potential effects to less than significance as a result of public comments on the Draft Mitigated Negative Declaration, and

WHEREAS, responses to comments received during the circulation period, were distributed to commenting agencies for the required ten-day period, and

WHEREAS, the Initial Study/Mitigated Negative Declaration EA/C&ED 2002-76 (SCH No. 2002122117) was considered by the Planning Commission at a duly noticed public hearing which was held on January 27, 2003, at 7:00 p.m., in the Tenth Street Place Chambers, 1010 Tenth Street, Modesto, California.

WHEREAS, after said public hearing, the Modesto Planning Commission adopted Resolution No. 2003-07, recommending to the City Council, approval of a mitigated negative declaration (SCH No. 2002122117) for the subject projects, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it has reviewed and considered the Initial Study/Mitigated Negative Declaration prepared for the proposed Projects, a copy of which is on file with the City Clerk and incorporated herein by reference, and based on the substantial evidence included in said Initial Study makes the following findings:

1. An Initial Study/Mitigated Negative Declaration prepared for the proposed project pursuant to CEQA Section 21157.1, has identified additional significant environmental effects that were not analyzed in the General Plan Master EIR. These additional significant effects are potential impacts to Traffic, Noise, Agricultural Resources, Drainage, Flooding and Water Quality, and Storm Drainage.
2. Feasible mitigation measures were incorporated to revise the subsequent project before the Negative Declaration and Initial Study were released for public review in order to avoid or mitigate the effects to a point where clearly no significant effects on the environment will occur.
3. There is no substantial evidence in light of the whole record before the public agency that the project, as revised, may have a significant effect on the environment (CEQA Section 21064.5(2)).
4. Based on the above referenced Initial Study and feasible mitigation

measures incorporated to revise the proposed project in order to avoid the effects or mitigate the effects to a point where clearly no significant effect on the environment will occur, staff finds that a Mitigated Negative Declaration should be adopted pursuant to CEQA Section 21157.5 et seq. for the proposed projects.

5. Although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because the mitigation measures described above have been added to the projects. The MITIGATED NEGATIVE DECLARATION will therefore be certified.
6. Finding 1 above provides the substantial evidence to support the certification and adoption of the Initial Study/Mitigated Negative Declaration and City Council finds that the document reflects the independent judgment of the lead agency.
7. As required by CEQA Section 21081.6 et seq., a mitigation monitoring program will be adopted by incorporating the mitigation measures into the project plan (Section 21081.6 (b)).

BE IT FURTHER RESOLVED that the project applicant shall indemnify, defend and hold harmless the City of Modesto, its agents, officers, and employees from any and all claims, actions, or proceedings against the City of Modesto, its agents, officers, and employees to attack, set aside, void, or annul, any approval by the City of Modesto and its advisory agency, appeal board, or a legislative body concerning the project. The City of Modesto shall promptly notify the applicant of any claim, action or proceeding and shall cooperate fully in the defense. If the City fails to do so, the applicant shall not thereafter be responsible to defend, indemnify, or hold City harmless.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Department Director is hereby authorized and directed to file a notice of determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public resources Code.

The foregoing resolution was introduced at the regular meeting of the Modesto City Council held on February 25, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

Ayes: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

Noes: Councilmembers: None

Absent: Councilmembers: None

RESCINDED

FEB - 6 2007

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-105**

**A RESOLUTION ESTABLISHING FEES FOR EVENING AND WEDNESDAY
PARKING AT THE TENTH STREET PLACE (TSP) AND 11TH STREET
PARKING GARAGES AND ALLOCATING SEVENTY-FIVE PERCENT (75%)
OF THE GROSS REVENUES FROM EVENING FEES ASSESSED AT THE
11TH STREET GARAGE TO FUND POLICE SERVICES REQUIRED TO
SUPPORT EVENING ACTIVITIES IN PROXIMITY TO THAT GARAGE**

THIS RESOLUTION WAS
RESCINDED BY MODESTO
CITY COUNCIL RESOLUTION
NO. 2007-026

WHEREAS, the City Council has established fees for parking at the City's off-street parking facilities, and

WHEREAS, the current hours for fee collection at the TSP and 11th Street Garages are set from 8 a.m. to 6 p.m., Monday through Friday, and

WHEREAS, Council has also authorized collection of a two dollar (\$2.00) fee for special event parking beyond the designated fee collections hours, subject to the discretion of the Operations and Maintenance Director, and

WHEREAS, the present collection hours were adopted in order not to discourage persons from visiting downtown during the evening hours, on weekends and on holidays, and

WHEREAS, in recent months new businesses have opened in the downtown area which are bringing in large crowds, particularly between the hours of 8 p.m. and 2 a.m., and

WHEREAS, most of the people visiting the City during these evening hours use the 11th Street Garage for a parking facility, and

WHEREAS, the additional crowds downtown require a higher level of police presence and also require using private security forces in the evening hours in the City's parking garages, the cost of which is significant, and

WHEREAS, charging an evening fee at the parking garages would help offset the costs of operation to support the larger evening crowds, and

WHEREAS, the prospect of charging evening fees was discussed with the Downtown Improvement District Board, which Board supported the fees as long as they did not adversely impact downtown restaurants, and

WHEREAS, staff conducted tests at the 11th Street Garage using the special event authority to charge two dollar (\$2.00) parking fees at various times from 8 p.m. to 9:30 p.m., and

WHEREAS, depending upon the hours of staffing, revenues on evenings with downtown activities during this test period ranged from three hundred dollars (\$300) to nine hundred and fifty dollars (\$950) per evening, and

WHEREAS, on many nights the 11th Street Garage was at capacity by 10 p.m. and there were no complaints raised by customers regarding payment of the fee, and

WHEREAS, implementation of a parking fee for evening and weekend uses set at a range from three dollars (\$3.00) to five dollars (\$5.00) per vehicle will result in estimated revenues of ninety thousand dollars (\$90,000) annually at the 11th Street Garage and twenty thousand dollars (\$20,000) annually at both garages for weekend and holiday uses, and

WHEREAS, seventy-five percent (75%) of the evening fees assessed would be directed toward police services required to support evening activities in proximity to the 11th Street Garage, and

WHEREAS, said parking fees would be assessed during the hours from 8 p.m. to 12:30 a.m., for evening users, and between 8 a.m. and 5 p.m., for weekend and

holiday users, dependent upon the activity level in downtown, in order to be least disruptive to downtown restaurants, and

WHEREAS, the Finance Committee recommended approval by the City Council at its January 27, 2003, meeting, and

WHEREAS, by an agenda report dated January 28, 2003, from the Operations and Maintenance Director, city staff recommended to the City Council that evening and weekend parking fees be established, a copy of said report is on file in the City Clerk's office, and

WHEREAS, said matter was set for a duly noticed public hearing of the City Council to be held at 5:30 p.m. on February 25, 2003, in the Tenth Street Place Chambers located at 1010 10th Street, Modesto, California, for the purpose of receiving public comment on the proposed fees.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves evening and weekend/holiday fees for the City's TSP and 11th Street Parking Garages as follows:

<u>Time</u>	<u>Fee</u>
Evenings - 8 p.m. to 12:30 p.m.	\$3 - \$5 per vehicle**
Weekends/Holidays* - 8 a.m. to 5 p.m.	\$3 - \$5 per vehicle**

* Subject to activities

** Exact fee left to the discretion of the Operations and Maintenance Director

BE IT FURTHER RESOLVED by the Council of the City of Modesto that seventy-five percent (75%) of the gross evening revenues collected at the 11th Street Parking Garage be allocated for police services to support evening activities in proximity to that garage.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of February, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-106**

A RESOLUTION OF INTENTION TO ANNEX TERRITORY TO COMMUNITY FACILITIES DISTRICT NO. 1998-2 (CARVER-BANGS/PELANDALE-SNYDER) AND AUTHORIZE THE LEVY OF A SPECIAL TAX WITHIN THE TERRITORY PROPOSED TO BE ANNEXED (ANNEXATION #2)

WHEREAS, pursuant to Chapter 3.5 of Part 1 of Division 2 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the "Mello-Roos Community Facilities Act of 1982" (the "Act"), proceedings for annexation of additional territory to an existing community facilities district may be instituted by the adoption by the legislative body of a resolution of intention to annex such territory, and

WHEREAS, pursuant to the Act, this Council did, by its Resolution No. 98-653, adopted on December 8, 1998, (the "Resolution of Formation") establish Community Facilities District No. 1998-2 ("the District"), and

WHEREAS, pursuant to the Act, this Council did, by its Resolution No. 99-286, adopted on June 8, 1999, order a change and add taxes for completion of Snyder Avenue improvements, and

WHEREAS, by its Resolution No. 2000-278 adopted on June 6, 2000, this Council resolved to complete Annexation #1 to the District, and

WHEREAS, this Council hereby determines that the public convenience and necessity require the annexation, pursuant to Section 53339 of the Act, of certain territory to the District, and

WHEREAS, the territory to be annexed is within the City limits,

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Modesto that:

SECTION 1. The above recitals are true and correct.

SECTION 2. Certain territory is proposed to be annexed to the District (the “Annexed Territory”) under the terms of the Act.

SECTION 3. The original boundaries of the District are shown on a map entitled “Proposed Boundaries of Community Facilities District No. 1998-2 (Carver-Bangs/Pelandale-Snyder) County of Stanislaus, State of California” on file with the County Recorder of the County of Stanislaus, at Volume 2 of Maps of Assessment and Community Facilities Districts, at Page 97.

SECTION 4. District boundaries after Annexation #1 are shown on a map entitled “Annexation No. 1 to Community Facilities District No. 198-2 (Carver-Bangs/Pelandale-Snyder)” on file with the County Recorder of the County of Stanislaus at Volume 3 of Maps of Assessment and Community Facilities Districts, at Page 33.

SECTION 5. The Annexed Territory is described in **Exhibit “A”** to this Resolution. The boundaries of the Annexed Territory are also shown on the maps thereof, entitled AAnnexation No. 2 to Carver-Bangs/Pelandale-Snyder CFD No. 1998-2”, on file in the office of the City Clerk, and hereby approved and adopted. Pursuant to Sections 3110.5 and 3113 of the California Streets and Highways Code, the City Clerk shall endorse her certificate on the original and one copy of the map evidencing the date and adoption of this Resolution, file the original in her office and, not later than 10 days after the adoption of this Resolution, file a copy of the map with the County Recorder of

the County of Stanislaus. The map shall contain the legends provided in Sections 3110 and 3110.5 of the California Streets and Highways Code; including a reference to the title, book, page and recording date of the original boundary map of the District.

SECTION 6. An amendment to the District was processed in 1999, adding taxes for the completion of Snyder Avenue improvements.

SECTION 7. The types of public facilities and services authorized to be provided to the District are set forth in the Public Report, as amended in March, 1999, a copy of which is attached hereto as Exhibit "B". These same types of facilities and services will be provided to the Annexed Territory.

SECTION 8. The Maintenance Special Tax component of the special tax to be levied in the Annexed Territory shall be the same as the Maintenance Special Tax currently levied in the original District, as set forth in the Resolution of Formation. The Facilities Special Tax component of the special tax to be levied in the Annexed Territory shall be slightly higher than that levied in the Resolution of Formation, to account for the additional cost of completion of Snyder Avenue improvements, as referenced in Section 5 hereof. The Facilities Special Tax for the Annexed Territory is described in the CFD Public Report adopted for the District, as amended in March, 1999, a copy of which is on file with the City Clerk and attached hereto as Exhibit "B". It is the intention of the City Council that in the event all of the subject taxes are not approved by the qualified electors of the Annexed Territory at an election to be held subsequent to the approval of this Resolution of Intention, that then, and in that sole event, the annexation of the Annexed Territory shall be a nullity, and void from the date of the public hearing on this

resolution where it is approved.

Pursuant to the Public Report, the maximum Maintenance Special Tax and the maximum Facilities Special Tax shall be adjusted annually.

The Facilities Special Tax rates in effect as of January 1, 2003 are as follows:

	Tax Area A (Carver-Bangs)		Tax Area B (Pelandale-Snyder)	
	Non-Storm Drainage (per acre)	Storm Drainage (per acre)	Non-Storm Drainage (per acre)	Storm Drainage (per acre)
1/1/03 - 12/31/03	\$ 8,303.44	\$ 12,586.58	\$ 13,554.61	\$ 15,987.13

The Annual Maintenance Tax rates in effect as of July 1, 2002 are as follows:

Tax Year	Tax Area A (Carver-Bangs)			Tax Area B (Pelandale-Snyder)		
	Single Family Per Unit	Multi-Family Per Acre	Non-Residential Per Acre	Single Family Per Unit	Multi-Family Per Acre	Non-Residential Per Acre
2002-2003	\$138.04	\$1,105.52	\$1,105.52	\$107.63	\$857.51	\$857.51

SECTION 9. A public hearing upon this Resolution shall be held at 5:30 p.m., or as soon thereafter as practicable, on Tuesday, April 3, 2003, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, such time being not less than thirty (30) or more than sixty (60) days following the adoption thereof.

SECTION 10. At the hearing, any interested persons for or against the annexation of the Annexed Territory to the District, and the levy of the special tax therein, may appear and will be heard and considered. Any protest may be made orally or in writing. However, any protests pertaining to the regularity or sufficiency of the proceedings shall be in writing and clearly set forth the irregularities and defects to which the objection is made. All written protests shall be filed with the City Clerk on or before the time fixed for the public hearing. Written protests may be withdrawn in writing at any time before the conclusion of the hearing.

The foregoing Resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of February, 2003, by Councilmember Conrad, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Frohman, Jackman, Keating,
O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: Fisher

ATTEST:

APPROVED AS TO FORM:

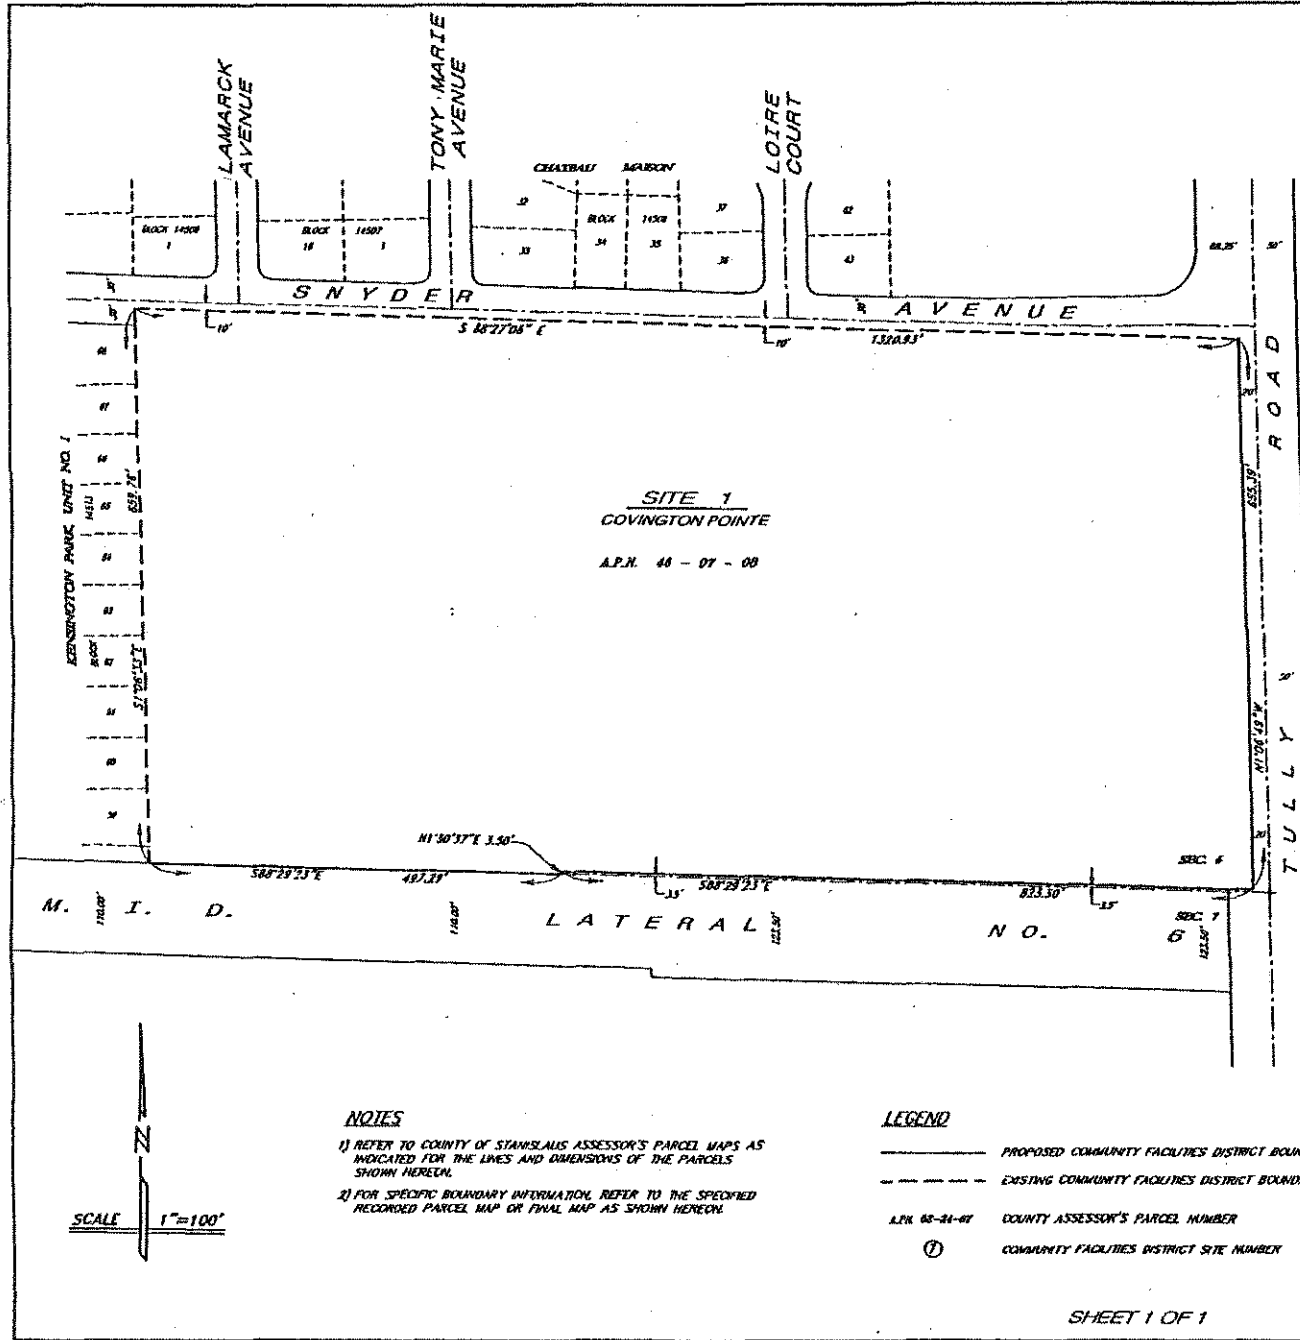

By 
MICHAEL D. MILICH, City Attorney

SECTION 11. The City Clerk is directed to publish, not later than seven (7) days prior thereto, a notice of the hearing, in the form required by the Act, in a newspaper of general circulation published in the area of the District, being the Modesto Bee, and otherwise in accordance with Section 6061 of the California Government Code, stating (a) the text or a summary of this Resolution, (b) the time and place of the hearing, and (c) that all interested persons for or against the proposed annexation or the levying of the special tax therein will be heard.

SECTION 12. If a majority (but at least six) of the registered voters residing within the District or a majority (but at least six) of the registered voters residing within the Annexed Territory, or the owners of one-half or more of the area of land in the District and not exempt from the special tax, or the owners of one-half or more of the Annexed Territory, file written protests against the proposed annexation of the Annexed Territory to the District, and the protests are not withdrawn so as to reduce the value of the protests to less than a majority, no further proceedings to annex the Annexed Territory, or to levy the District special tax therein, shall be taken for a period of one year from the date of the election of the Council on the issues discussed at the hearing.

At the conclusion of the hearing, if the Council determines to annex the Annexed Territory, it shall then submit the levy of the District special tax to the qualified electors of the Annexed Territory in a special election.

III. Description of Facilities and Services to be Funded by CFD No. 1998-2	4

APPENDICES:

Appendix A: CFD Boundary Map

Appendix B: Rate and Method of Apportionment of Special Tax and Reimbursements

Appendix C: Detailed Facility Cost Estimates

I. BACKGROUND

Community Facilities District (CFD) No. 1998-2 is being formed to provide a funding and reimbursement mechanism for public facilities and services required to serve the Carver-Bangs and Pelandale-Snyder Specific Plans in the City of Modesto. Portions of both Specific Plan areas are included within the initial boundaries of the CFD, and the remainder of the property within both Plan areas is expected to annex into the CFD at a later date.

As a condition of development of the Specific Plan areas, the developers are required to install various public improvements which will serve the increased population generated from the projects. Many of these improvements must be provided in the early stages of development and, therefore, the first developers to build within the projects must install the improvements and receive fee credits or reimbursements in exchange for the facilities. CFD No. 1998-2 is the vehicle that will be used to ensure that all landowners in the Specific Plans pay their fair share of the public improvements. In addition, the CFD will generate funding for ongoing maintenance of landscaping and open space within the project areas.

Following is a brief description of both projects:

A. *Carver-Bangs Specific Plan*

On April 1, 1997, the City Council of the City of Modesto approved Resolution No. 97-161, thereby adopting the Carver-Bangs Specific Plan. The Specific Plan was subsequently amended by City Council Resolution 97-633. Carver-Bangs is a proposed 160-acre project bounded on the east by Carver Road, on the North by Bangs Avenue, on the south by the Pelandale-Snyder Specific Plan (discussed further below), and on the west by the Kiernan Business Park area. The Carver-Bangs Specific Plan will be developed under the City's Village Residential guidelines, which will yield approximately 800 single family residential units.

B. *Pelandale-Snyder Specific Plan*

The Pelandale-Snyder Specific Plan was approved by the City Council on January 16, 1996 by the adoption of Resolution No. 95-16, and was subsequently amended by City Council Resolutions 97-136 and 97-139. The Specific Plan area is bounded by Dale Road on the west, the extension of Pelandale Road on the north, Union Pacific Railroad on the east, and the Modesto Irrigation District canal and Snyder Avenue on the South. Approximately 227 acres of the project are designated Single Family Residential (SFR), and 57 acres are designated Multi-Family Residential; in total, 2,613 residential dwelling units are expected at buildout of the Specific Plan. In addition, 36 acres of the Specific Plan area will be used for an elementary school site, a City park, and a church.

II. STRUCTURE OF COMMUNITY FACILITIES DISTRICT NO. 1998-2

A. Introduction

A Mello-Roos CFD may provide for the purchase, construction, expansion or rehabilitation of any real or tangible property, including public facilities and infrastructure improvements, with an estimated useful life of five (5) years or longer, which is necessary to meet increased demands placed upon local agencies as a result of development or rehabilitation occurring within the CFD. In addition, a CFD may pay for various public services and maintenance of public improvements, including parkways and open space.

The Resolution of Intention to Establish CFD No. 1998-2 (Resolution No. 98-582) was adopted by the City Council on November 3, 1998. After a public hearing and a successful election by landowners within the CFD, the CFD will be formed and the levy of a special tax will be authorized.

B. Boundaries of CFD 1998-2

As mentioned above, the initial boundaries of the CFD include portions of both the Carver-Bangs and Pelandale-Snyder Specific Plans. Additional property is expected to annex into the CFD in future years as development in the area expands. It is anticipated that property subsequently annexed into the CFD will be subject to the same special tax formula as property in the CFD from the start, with a maximum Facilities Special Tax (discussed further below) assigned to the property when it is annexed. Property in the Carver-Bangs Specific Plan is included within Tax Area A of the CFD, and parcels in Pelandale-Snyder make up Tax Area B of the CFD. A separate maximum tax has been calculated for each tax area, as discussed further in Section C below.

The boundaries of the CFD are shown on a boundary map that was approved by the City Council and recorded in Volume 3, page 5 of the Book of Maps of Assessment Districts and Community Facilities Districts in the Stanislaus County Recorder's Office. A copy of the CFD boundary map is provided as Appendix A of this CFD Public Report.

C. CFD Special Tax Structure

1. Facilities Special Tax

Each year, special taxes will be levied and collected from parcels within the CFD to pay costs associated with storm drainage and road improvements, as well as maintenance of these improvements (authorized facilities and maintenance costs are discussed in more detail below). The Rate and Method of Apportionment of Special Tax and Reimbursements ("RMA"), which describes in detail how the tax will be allocated among properties in the CFD, is included as Appendix B of this report.

As explained in Sections D and E of the RMA, two different special taxes will be levied within the CFD. First, a "Facilities Special Tax" will be levied to pay for capital improvements and appurtenant expenses, such as design, planning, engineering and inspection. The entire Facilities Special Tax will be collected prior to a final building permit inspection being completed or a certificate of occupancy being issued for new construction on a parcel within the CFD. Because each Specific Plan area is responsible for only the facilities required to serve that area, separate "tax areas" were established within the CFD to avoid any crossover of responsibility for the funding of required infrastructure. A separate Facilities Special Tax has been determined for each assessor's parcel that was included within each tax area at the time CFD No. 1998-2 was formed; Attachment 2 of Appendix B identifies the maximum Facilities Special Tax assigned to each parcel.

Section C.1 of the RMA (Appendix B) explains how the Facilities Special Tax obligation assigned to each original assessor's parcel will be reallocated when subdivision occurs. Regardless of changes in land use in future years, the maximum Facilities Special Tax revenues that can be collected from property in the CFD will never be reduced. In January 2002 and each January thereafter, the maximum Facilities Special Tax assigned to each assessor's parcel will be increased by four percent of the amount in effect in the prior year.

Section D of Appendix B sets forth a credit/reimbursement program which allows developers who have constructed and dedicated public improvements to take credits against the Facilities Special Taxes that would otherwise be paid until such credits equal the cost set forth in Appendix C of this CFD Public Report for the public improvements provided by the developer. Regardless of the actual cost incurred by the developer for construction of the public improvement(s), credits against the Facilities Special Tax can be taken until the amount credited is equal to the facility cost shown in Appendix C for that improvement(s). If the developer's project is built out and a balance remains to be credited, the developer will instead receive a cash reimbursement from Facilities Special Taxes collected from other property owners in the CFD until the combined amount of fee credits and cash reimbursements is equal to the cost of the public improvement(s) as shown in Appendix C of this report. All costs and reimbursements are subject to a four percent increase in January 2002 and each January thereafter.

Facility Special Tax credits and reimbursements will be applied based on a specified order of priority, which is identified in Attachment 1 of Appendix B. Until all facilities of a higher priority have been fully funded, a developer who builds an improvement that is of a lower priority will not receive fee credits or reimbursements. The order of priority is specific to each tax area, which means facilities of a lower priority may be funded in one tax area even if the higher priority facilities in the other tax area have not yet been fully funded. Appendix B provides a more detailed description of the credit/reimbursement program.

2. Maintenance Special Tax

The second special tax that can be levied in the CFD is the "Maintenance Special Tax", which will be collected to pay costs associated with maintaining parkways and open space in both Specific Plan areas. Again, a separate maximum Maintenance Special Tax has been determined for Tax Area A and Tax Area B, as shown in the following table:

CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 1998-2 (CARVER-BANGS/PELANDALE-SNYDER) FISCAL YEAR 1998-99 MAXIMUM ANNUAL MAINTENANCE SPECIAL TAX*		
<i>Land Use Type</i>	<i>Tax Area A (Carver-Bangs)</i>	<i>Tax Area B (Pelandale-Snyder)</i>
Single Family	\$118 per unit	\$92 per unit
Multi-Family	\$945 per Acre	\$733 per Acre
Non-Residential	\$945 per Acre	\$733 per Acre
* Beginning in January 1999 and each January thereafter, the maximum Annual Maintenance Special Tax shall be increased by 4% of the amount in effect in the prior year. Each annual adjustment of the maximum Annual Maintenance Special Tax shall become effective on the subsequent July 1.		

The Maintenance Special Tax will be collected each fiscal year on the property tax bills of all parcels in the CFD that have had a final building permit inspection conducted or a certificate of occupancy issued prior to June 1 of the preceding fiscal year.

III. FACILITIES AND SERVICES TO BE FUNDED BY CFD NO. 1998-2

The facilities and services described below are all facilities which the City of Modesto is authorized to finance and which are required to adequately meet the needs of CFD No. 1998-2. The special taxes required to pay for these facilities and services will be apportioned according to the "Rate and Method of Apportionment of Special Tax" included as Appendix B of this report.

Capital Improvements

A. *Carver-Bangs (Tax Area A)*

Following is a summary of the capital improvements to be funded through CFD No. 1998-2 to serve the Carver-Bangs Specific Plan. A detailed breakdown of facility components and the corresponding cost estimates is provided in Appendix C of this report.

Storm Drainage Improvements	\$1,494,750
Prescott Road	145,422
American Avenue	24,033
Bangs Avenue	254,305
Carver Road	57,270
American Avenue Canal Overcrossing	295,066
Class I Bike Trail	142,500
CFD Formation Costs	<u>67,500</u>
Total Capital Improvement Costs	\$2,480,847

B. Pelandale-Snyder (Tax Area B)

Storm Drainage Improvements	\$4,389,042
Dale Road	531,075
Prescott Road	628,297
Tully Road	1,011,016
Snyder Avenue	504,283
Class I Bike Trail	752,675
CFD Formation Costs	<u>67,500</u>
Total Capital Improvement Costs	\$7,883,888

Annual Maintenance Costs

A. Carver-Bangs

<u>Item</u>	<u>Quantity</u>	<u>Unit</u>	<u>Cost</u>	<u>Total Cost</u>
Bangs Avenue (South Side)				
8' Landscape Strip (4,680 LF x 8' = 37,400 SF)	37,400	SF	\$0.72	\$26,957
American Avenue (East Side)				
8' Landscape Strip (1,200 LF x 8' =9,600 SF)	9,600	SF	\$0.72	\$6,912
Prescott Road 16' Center Median	10,500	SF	\$0.72	\$7,740
Prescott Road Treewell and Vine Blockouts with 10' Sidewalk and Masonry Wall (56 Each 5' x 5' Treewalls + 56 each 3' x 10' vine blockouts)	3,080	SF	\$0.72	\$2,218
Class I Bike Trail	1,308	SF	\$0.72	\$942
Pelandale Avenue (North Side) Landscape Strip	1,996	SF	\$0.72	\$1,437
Carver Road (West Side) (1,194 L.F. x 8' = 9,552 S.F.)	9,552	SF	\$0.72	\$6,877
Total Annual Maintenance Costs				<u>\$53,083</u>

B. Pelandale-Snyder

<u>Item</u>	<u>Quantity</u>	<u>Unit</u>	<u>Total</u>	<u>Cost</u>	<u>Cost</u>
Dale Road (East Side), 12' Wide Landscape Strip (1,255 LF x 12' = 14,700 SF)	14,700	SF	\$0.72	\$10,584	
Prescott Road (East Side), 12' Wide Landscape Strip (1,225 LF x 12' = 14,700 SF)	14,700	SF	\$0.72	\$10,584	
Prescott Road 16' Center Median	10,750	SF	\$0.72	\$7,740	
Tully Road (Both Sides), 12' Wide Landscape Strip (2,650 LF x 12' = 21,800 SF)	31,800	SF	\$0.72	\$22,896	
Tully Road 16' Center Median	10,750	SF	\$0.72	\$7,740	
Class I Bike Trail	8,820	SF	\$0.72	\$6,350	
Pelandale Avenue (South Side)	10,400	SF	\$0.72	\$7,488	
Carver West Side Back-up Lots South of Pelandale Avenue (515 L.F. x 5' = 2,575)	2,575	SF	\$0.72	\$1,854	
Landscaping Surrounding Storm Drain Basins	35,000	SF	\$0.72	\$25,200	
Total Annual Maintenance Costs					\$100,436

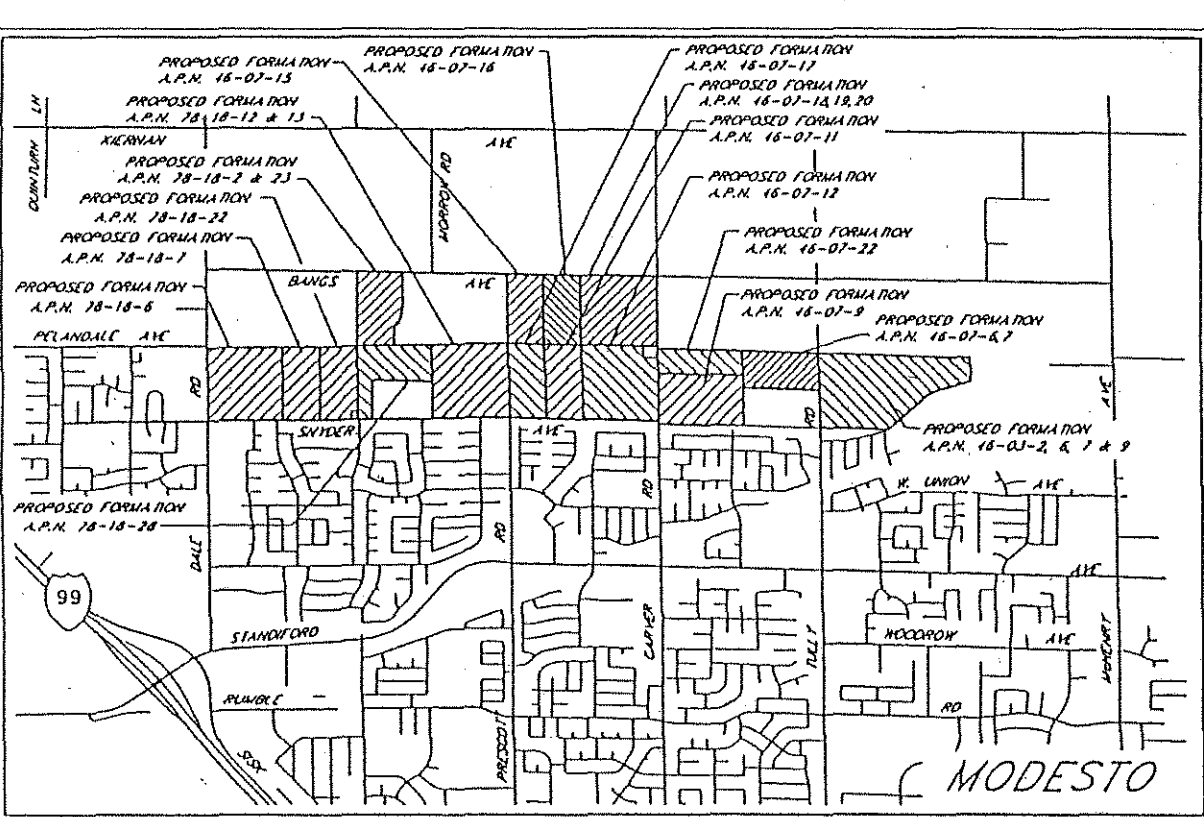

The description of facilities and services, as set forth herein, is general in nature. The final nature and location of improvements will be determined upon the preparation of final plans and specifications.

APPENDIX B

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT NO. 1998-2

RATE AND METHOD OF APPORTIONMENT OF
SPECIAL TAX AND REIMBURSEMENTS

EXHIBIT B

CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 1998-2 (CARVER-BANGS/PELANDALE-SNYDER)

RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX AND REIMBURSEMENTS

A special tax applicable to each Assessor's Parcel in Community Facilities District No. 1998-2 (herein "CFD No. 1998-2") shall be levied and collected according to the tax liability determined by the City Council of the City of Modesto, through the application of the appropriate amount or rate for Taxable Property, as described below. All of the property in CFD No. 1998-2, unless exempted by law or by the provisions of Section F below, shall be taxed for the purposes, to the extent, and in the manner herein provided, including property subsequently annexed to CFD No. 1998-2 unless a separate Rate and Method of Apportionment of Special Tax and Reimbursements is adopted for the annexation area.

A. DEFINITIONS

The terms hereinafter set forth have the following meanings:

"Acre or Acreage" means the land area of an Assessor's Parcel as shown on an Assessor's Parcel Map, or if the land area is not shown on an Assessor's Parcel Map, the land area shown on the applicable Final Map, parcel map, or other recorded County parcel map.

"Administration Component" means that portion of the Facilities Special Tax which must be paid (i.e., is not subject to fee credits) prior to a final building permit inspection being completed or a certificate of occupancy being issued for new construction (whichever occurs first) for any residential or non-residential structure. The revenue collected from the Administration Component will be used by the City to pay annual expenses, consultants' fees, and staff time associated with administering the CFD, monitoring the Authorized Facilities and effecting reimbursements, including but not limited to the following: (i) tracking development in the CFD, (ii) preparing the tax roll for the Annual Maintenance Special Tax, (iii) calculating and collecting the Facilities Special Tax, (iv) engineering, (v) planning, (vi) legal services, and (vii) acquisition and construction of land and improvements associated with the Authorized Facilities.

"Administrator" shall mean the person(s) or firm(s) designated by the City to administer the Special Tax according to this Rate and Method of Apportionment of Special Tax and Reimbursements.

"Annual Maintenance Special Tax" means a Special Tax levied in any Fiscal Year to pay the Maintenance Special Tax Requirement, as defined below.

“Assessor's Parcel” means a lot or parcel shown in an Assessor's Parcel Map with an assigned Assessor's Parcel number.

“Assessor's Parcel Map” means an official map of the County Assessor of the County of Stanislaus designating parcels by Assessor's Parcel number.

“Authorized Facilities” or “Authorized Facility” means those public improvements (including portions of such public improvements) to be funded by CFD No. 1998-2 as identified in Attachment 1 of this Rate and Method of Apportionment of Special Tax and Reimbursements, including appurtenant expenses such as planning, design, engineering and inspection.

“Buildable Lot” means an individual numbered lot which is in its final configuration and for which a building permit may be issued.

“CFD Costs” means the total amount shown in the CFD Public Report to cover costs associated with CFD formation, CFD administration, and engineering, legal services, planning and geotechnical studies related to the Authorized Facilities.

“CFD Public Report” means the report filed with the City Clerk on behalf of CFD No. 1998-2 pursuant to Section 53321.5 of the Mello-Roos Community Facilities Act of 1982.

“Church Property” means any Parcel within the CFD that is exempt from ad valorem property taxes because it is owned by a religious organization.

“City” means the City of Modesto.

“Council” means the City Council of the City of Modesto, acting as the legislative body of CFD No. 1998-2.

“Credit/Reimbursement Amount” means the sum of the portion of the CFD Costs and the costs of Authorized Facilities that have been paid in advance by a builder/developer and have not yet been reimbursed to that builder/developer through one of the following: (i) the application of Special Tax Credits (as defined below) or (ii) payments to the builder/developer from Facilities Special Taxes collected from other builders/developers in the CFD. The Credit/Reimbursement Amount outstanding at any point in time will be determined pursuant to Section D below.

“Facilities Special Tax” means a Special Tax collected by the City to pay for one or more of the following: (i) the costs of Authorized Facilities and CFD Costs, (ii) to reimburse a builder/developer who has an outstanding Credit/Reimbursement Amount, and (iii) if all Authorized Facilities have been completed, to pay for maintenance authorized to be funded by the CFD.

“Final Map” means a final map, or portion thereof, approved by the City pursuant to the Subdivision Map Act (California Government Code Section 66410 *et seq.*).

"Fiscal Year" means the period starting July 1 and ending on the following June 30.

"Maintenance Special Tax Requirement" means the amount necessary in any Fiscal Year to (i) pay for authorized maintenance expenses, (ii) pay administrative expenses of CFD No. 1998-2, and (iii) cure any delinquencies in the payment of Annual Maintenance Special Taxes levied in prior Fiscal Years or (based on delinquencies in the payment of Special Taxes which have already taken place) are expected to occur in the Fiscal Year in which the tax will be collected.

"Maximum Special Tax" means the maximum Special Tax, determined in accordance with Section C below, that can be levied by the City in any Fiscal Year on Taxable Property.

"Non-Residential Property" means, in any Fiscal Year, all Parcels for which a building permit has been issued for a commercial, office or industrial establishment or any other use which is not single family or multi-family residential property and which is not exempt from Special Taxes pursuant to Section F below.

"Order of Priority" means the order in which the Authorized Facilities and CFD Costs must be fully credited or reimbursed before Special Tax Credits can be made against the Facilities Special Tax or reimbursements paid to a builder/developer for other CFD facilities that are of lower priority. The Order of Priority is identified in Attachment 1 of this Rate and Method of Apportionment of Special Tax and Reimbursements.

"Original Parcel" means an Assessor's Parcel that will be further subdivided upon recordation of a Final Map. The Original Parcels in CFD No. 1998-2 at the time the Resolution of Formation of CFD No. 1998-2 was approved by the Council are listed in Attachment 2.

"Public Agency" means the federal government, State of California or other local governments or public agencies.

"Reimbursable Cost" means, for any of the Authorized Facilities, the amount shown in 1998 dollars in the CFD Public Report, which amount shall, beginning in January 2002 and each January thereafter, be increased by four percent (4%) of the amount in effect in the prior year.

"Special Tax Credit" means a waiver of the creditable portion of the Facilities Special Tax that would otherwise be due from a Parcel in the CFD if the builder/developer of that Parcel did not have an outstanding Credit/Reimbursement Amount.

"Subdivided Property" means, in any Fiscal Year, all Buildable Lots for which a final building permit inspection has taken place or a certificate of occupancy has been issued prior to June 1 of the preceding Fiscal Year.

"Successor Parcel" means an Assessor's Parcel of Taxable Property created by the subdivision or reconfiguration of an Original Parcel within the CFD.

“Taxable Property” means, in any Fiscal Year, all Parcels in CFD No. 1998-2 that have not been exempted from the Special Tax pursuant to Section F below.

“Tax Area A” means parcels within the Carver-Bangs Specific Plan Area, which Area is shown in Attachment 3A of this Rate and Method of Apportionment of Special Tax and Reimbursements.

“Tax Area B” means parcels within the Pelandale-Snyder Specific Plan Area, which Area is shown in Attachment 3B of this Rate and Method of Apportionment of Special Tax and Reimbursements.

B. ANNUAL MONITORING

The Administrator shall keep an ongoing record of the Acreage and current Assessor’s Parcel numbers within Tax Area A and Tax Area B and, after July 1 of each Fiscal Year, shall identify the Assessor’s Parcels which have become Subdivided Property and, therefore, will be subject to the levy of the Maintenance Special Tax in that Fiscal Year. The Administrator shall also continually monitor Subdivided Property to ensure the Facilities Special Tax is collected prior to final building permit inspection or issuance of a certificate of occupancy (whichever occurs first), unless the Parcel qualifies for a Special Tax Credit, as discussed further in Section D below.

C. MAXIMUM SPECIAL TAX

1. *Facilities Special Tax*

The maximum 1998 Facilities Special Tax for Original Parcels in CFD No. 1998-2 when the CFD was formed is shown in Attachment 2. Each time a Final Map is approved within the CFD or when Parcels in the CFD are otherwise subdivided or reconfigured, the Administrator shall reallocate the maximum Facilities Special Tax assigned to each Original Parcel to the Subsequent Parcels created by approval of the Final Map as follows:

- Step 1a. Identify the maximum Facilities Special Tax applicable to the Original Parcel being subdivided (the maximum Facilities Special Tax for Original Parcels in the CFD when the CFD was formed are shown in Attachment 2);
- Step 1b. Determine the Acreage of Taxable Property within the approved Final Map;
- Step 1c. Determine the total Acreage of Taxable Property within the Original Parcel being subdivided, including the Taxable Property within the Final Map;

- Step 1d. Divide the Acreage determined in Step 1b by the total Acreage of the Original Parcel determined in Step 1c to calculate a percentage;
- Step 1e. Multiply the percentage determined in Step 1d by the amount identified in Step 1a to calculate the maximum Facilities Special Tax to be allocated to the Final Map area. If a Final Map is approved for a portion of an Original Parcel, the maximum Facilities Special Tax that has not been allocated to the Final Map area will stay assigned to the remainder of the Taxable Property within the Original Parcel until it is further subdivided;
- Step 1f. Spread the maximum Facilities Special Tax calculated in Step 1e to each of the Successor Parcels within the Final Map area based on each Successor Parcel's share of the Acreage of Taxable Property within the Final Map.

After each reallocation of the maximum Facilities Special Tax upon subdivision or reconfiguration of Original Parcels, the sum of the maximum Facilities Special Tax assigned to Subsequent Parcels shall never be less than the maximum Facilities Special Tax assigned to the Original Parcel(s) prior to such reallocation. Beginning in January 2002 and each January thereafter, the maximum Facilities Special Tax assigned to each Parcel shall be increased by four percent (4%) of the amount in effect in the prior year.

2. *Annual Maintenance Special Tax*

All Subdivided Property within the CFD shall be subject to an Annual Maintenance Special Tax that shall be levied each Fiscal Year to meet the Maintenance Special Tax Requirement. The Annual Maintenance Special Tax shall be reflected as an annual lien on each Parcel in CFD No. 1998-2 and is anticipated to stay with the property and be paid each year by the current homeowner or property owner. The following maximum rates apply to all Parcels of Taxable Property within CFD No. 1998-2 for Fiscal Year 1998-99:

CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 1998-2 (CARVER-BANGS/PELANDALE-SNYDER) FISCAL YEAR 1998-99 MAXIMUM ANNUAL MAINTENANCE SPECIAL TAX*		
<i>Land Use Type</i>	<i>Tax Area A (Carver-Bangs)</i>	<i>Tax Area B (Pelandale-Snyder)</i>
Single Family	\$118 per unit	\$92 per unit
Multi-Family	\$945 per Acre	\$733 per Acre
Non-Residential	\$945 per Acre	\$733 per Acre
* Beginning in January 1999 and each January thereafter, the maximum Annual Maintenance Special Tax shall be increased by 4% of the amount in effect in the prior year. Each annual adjustment of the maximum Annual Maintenance Special Tax shall become effective on the subsequent July 1.		

D. IMPLEMENTATION OF CREDIT/REIMBURSEMENT PROGRAM

Certain builders/developers may be required to pay CFD Costs and fund and construct Authorized Facilities that are ultimately intended to be funded from Facilities Special Tax revenues. The City shall implement a Special Tax Credit and reimbursement program, which will ensure that builders/developers that pay more than their fair share of the CFD Costs and/or Authorized Facilities costs will be reimbursed for the overage.

At the request of the landowners and developers at the time this Rate and Method of Apportionment was prepared and CFD No. 1998-2 was formed, all credits and reimbursements to builder/developers who provide Authorized Facilities shall be in amounts equal to the costs set forth for those Authorized Facilities in the CFD Public Report (except as adjusted as described below). Pursuant to this request, whether the actual cost to build an Authorized Facility is higher or lower than the amount shown in the CFD Public Report for that Authorized Facility, a builder/developer shall be credited and/or reimbursed for the dollar amount included in the CFD Public Report for that Authorized Facility. If there is a cost savings for one Authorized Facility and a cost overrun for another, there is no opportunity pursuant to this Rate and Method of Apportionment for the cost savings to offset the cost overrun.

The following steps shall be applied to implement the credit/reimbursement program:

On an Ongoing Basis

- In January 2002 and each January thereafter, the Administrator shall escalate the following items by four percent (4%): (i) the Facilities Special Tax assigned to each Parcel, (ii) the Credit/Reimbursement Amount outstanding for any builder/developer, and (iii) the costs of Authorized Facilities that have not yet been constructed. An updated list of these three items shall be available each year by February 15.

- The Administrator will keep a current list of the adjustments that have been applied in each year to the items listed above.
- The Administrator will keep track of which Authorized Facilities shown in Attachment 1 have been fully credited or reimbursed to establish the next Authorized Facility to be funded according to the Order of Priority.
- For builder/developers who pay more than their pro-rata share of the cost of particular Authorized Facilities and/or CFD Costs and are due a reimbursement after applying Special Tax Credits, the Administrator shall keep track of the date on the "Notice of Completion of Public Facilities to be Acquired by CFD No. 1998-2" (or other such certificate issued by the City) to ensure that reimbursements of costs that fall within the same Order of Priority will be made on a first incurred/first paid basis.

When a Final Map is Approved by the City Council:

- Step 1.* The Administrator shall determine which Authorized Facilities the builder/developer subdividing the property has funded;
- Step 2.* The Administrator shall determine the Order of Priority for the Authorized Facilities funded by the builder/developer. If the improvements are not first in the Order of Priority, the Administrator shall determine whether facilities that are of a higher priority have yet been fully reimbursed or credited;
- Step 3.* By reference to the detailed cost estimates set forth in the CFD Public Report, the Administrator shall determine the estimated 1998 cost that had been included in the maximum Facilities Special Tax for the Authorized Facilities provided by the builder/developer;
- Step 4.* Using 2002 as the first year of escalation, the Administrator shall escalate the cost of the Authorized Facilities (as shown in the CFD Public Report) provided by the builder/developer to the year in which the Credit/Reimbursement Amount is being calculated. This escalation shall apply on an annual basis (i.e., subtract 2001 from the then current year to determine how many years worth of escalation to apply) and shall be compounded in the same manner as the Facilities Special Tax has been escalated. This escalated cost represents the total Credit/Reimbursement Amount due to the builder/developer, the balance of which, as of the year 2002 and each year following, shall be escalated by four percent (4%) each year until fully reimbursed or credited against Facilities Special Taxes paid by the builder/developer.

Prior to final building permit inspection or issuance of a certificate of occupancy
(whichever occurs first)

Note: the following steps may be applied to a single Parcel or a group of Parcels (i.e., all residential lots within a particular Final Map)

The Administrator shall determine if the builder/developer has an outstanding Credit/Reimbursement Amount and apply one of the following:

Step 1. If there is an outstanding Credit/Reimbursement Amount for the builder/developer, the Administrator shall apply the following steps to determine if a Facilities Special Tax is due from the subject Parcel(s):

Step 1a. Identify the Facilities Special Tax that would have been paid by the Parcel(s) if no Credit/Reimbursement Amount were outstanding;

Step 1b. Multiply the amount determined in Step 1a by .07 to calculate the Administration Component, which shall be due and payable to the City prior to final building permit inspection or issuance of a certificate of occupancy (whichever comes first);

Step 1c. Subtract the Administration Component calculated in Step 1b from the Facilities Special Tax identified in Step 1a to calculate the net amount that could be collected for facility costs, and apply one of the following:

- *If the net amount determined in Step 1c is less than the outstanding Credit/Reimbursement Amount for the builder/developer, the Administration Component calculated in Step 1b shall be collected and the builder/developer shall be given a Special Tax Credit against the remainder of the Facilities Special Tax for that Parcel(s). After the Special Tax Credit has been calculated, the Administrator shall subtract that amount from the outstanding Credit/Reimbursement Amount for that builder/developer.*
- *If the net amount determined in Step 1c is greater than the outstanding Credit/Reimbursement Amount for the builder/developer, subtract the outstanding Credit/Reimbursement Amount from the net amount of Facilities Special Tax calculated in Step 1c to determine the amount that must be paid by the builder/developer. If the calculation is being prepared*

for multiple Parcels at one time, the builder/developer may use up the remaining Credit/Reimbursement Amount by taking Special Tax Credits against the first lots to develop and pay the remaining balance when the subsequent lots develop. The Administrator shall update the CFD records to reflect a zero Credit/Reimbursement Amount for that builder/developer.

Step 2. If there is not an outstanding Credit/Reimbursement Amount for the builder/developer, the Administrator shall apply the following steps:

Step 2a. Identify the Facilities Special Tax assigned to the Parcel(s), which shall be due and payable to the City prior to final building permit inspection or issuance of a certificate of occupancy (whichever comes first);

Step 2b. Multiply the amount determined in Step 2a by .07 to calculate the Administration Component, which shall remain on deposit with the City;

Step 2c. Subtract the Administration Component calculated in Step 2b from the Facilities Special Tax identified in Step 2a to calculate the net amount that shall be collected to provide reimbursements to builder/developers with outstanding Credit/Reimbursement Amounts;

Step 2d. Determine whether there is an outstanding Credit/Reimbursement Amount due other builder/developers in the CFD and apply one of the following:

- *If there are outstanding Credit/Reimbursement Amounts*, look at the Order of Priority of the Authorized Facilities for which a Credit/Reimbursement Amount is due. In addition, identify the dates on the "Notice of Completion of Public Facilities to be Acquired by CFD No. 1998-2" (or other such certificate issued by the City) which were provided to each builder/developer for which a Credit/Reimbursement Amount is outstanding. Reimbursements shall be paid based on the Order of Priority and, if there are multiple Credit/Reimbursement Amounts due within the same priority level, based on the date on which a "Notice of Completion of Public Facilities to be Acquired by CFD No. 1998-2" was issued to each

builder/developer. After the reimbursements are made, the Administrator shall reduce the Credit/Reimbursement Amount for the builder/developer(s) who received reimbursement by the amount of such reimbursement.

If there are no outstanding Credit/Reimbursement Amounts due any builder/developer, the City shall deposit the Facilities Special Tax into an account which will be designated for funding the Authorized Facilities. The balance in this fund will be used either to pay directly for the construction of Authorized Facilities or to reimburse a builder/developer who constructs Authorized Facilities in future years. The interest earned on funds in this account shall accrue to the account for the same purposes.

E. METHOD OF LEVY AND COLLECTION OF THE SPECIAL TAX

1. Facilities Special Tax

The maximum Facilities Special Tax determined pursuant to Section C above shall be collected prior to a final building permit inspection being completed or a certificate of occupancy being issued for new construction (whichever occurs first) for any residential or non-residential structure within CFD No. 1998-2 and shall be immediately delinquent if not so paid.

2. Annual Maintenance Special Tax

Commencing with Fiscal Year 1999-00 and for each following Fiscal Year, the Administrator shall determine the Maintenance Special Tax Requirement for that Fiscal Year. The Annual Maintenance Special Tax shall then be levied on all Parcels of Subdivided Property as follows:

Step 1: Calculate the total Maintenance Special Tax revenues that could be collected from Subdivided Property within the CFD based on application of the maximum Annual Maintenance Special Tax rates determined pursuant to Section C.2 above;

Step 2: Divide the Maintenance Special Tax Requirement by the maximum revenues that could be collected as determined in Step 1;

Step 3: If the ratio determined in Step 2 is greater than or equal to 1, levy the maximum Annual Maintenance Special Tax determined pursuant to Section C.2 on all Subdivided Property in the CFD. If the ratio determined in Step 2 is less than 1, continue to Step 4.

Step 4: If the ratio determined in Step 2 is less than 1, levy the maximum Annual Maintenance Special Tax against all Parcels of Subdivided Property in equal percentages up to 100% of the maximum Annual Maintenance Special Tax determined pursuant to Section C.2 above until the amount so levied equals the Maintenance Special Tax Requirement for the Fiscal Year.

The Annual Maintenance Special Tax for CFD No. 1998-2 shall be collected in the same manner and at the same time as ordinary ad valorem property taxes, provided, however, that CFD No. 1998-2 may (under the authority of Government Code Section 53340), in any particular case, bill the taxes directly to the property owner, off the County tax roll, and the Special Taxes will be equally subject to foreclosure if delinquent as annual Special Taxes levied on the County tax roll.

In no event shall the Maintenance Special Tax levied and collected in one Tax Area be increased due to delinquencies in the other Tax Area.

F. LIMITATIONS

Notwithstanding any other provision of this Rate and Method of Apportionment of Special Tax and Reimbursements, no Special Tax shall be levied on structures built on land that has been conveyed to a Public Agency, except as otherwise provided in Sections 53317.3 and 53317.5 of the Mello-Roos Community Facilities Act of 1982. No Annual Maintenance Special Tax shall be levied on Church Property unless such Church Property is built on a Parcel or Parcels that had previously been developed with residential or non-residential land uses which had paid the Annual Maintenance Special Tax. The maximum Annual Maintenance Special Tax assigned to such Church Property would be equal to the maximum Annual Maintenance Special Tax that had previously been assigned to the residential or non-residential land uses on the property.

The Maintenance Special Tax will continue to be levied and collected unless and until the City determines that Maintenance Special Tax revenues are no longer needed to pay authorized services of the CFD.

G. ENFORCEMENT

All delinquent Facility Special Taxes, or delinquent Annual Maintenance Special Taxes billed off the County tax roll, shall be subject to an immediate 10% penalty plus simple interest charges of

1.5% as of the first day of the month after the delinquency date and on the first day of each month thereafter. Any such delinquent Special Taxes shall, at the City's discretion, be placed on the next secured property tax roll. The amount placed on the roll shall include the 10% penalty and the interest charges through the following January 1. This shall not prevent the City from simultaneously pursuing the delinquency by an action on a contract or guarantee against a third party who promised to pay the taxes, or from assigning such right of action to the property owner or other appropriate party.

CAFILES\WPWIN\MODESTO\CRVRENGS\RMA7.CLN

ATTACHMENT I

COMMUNITY FACILITIES DISTRICT NO. 1998-2 (CARVER BANGS/PELANDALE-SNYDER) ORDER OF PRIORITY OF AUTHORIZED FACILITIES

First Priority

- Storm drain basin construction (including but not limited to basins, inlet structures, pipelines, and fencing)
- Storm drain trunkline in Snyder Avenue adjacent to school and park sites
- CFD Costs (as identified in the CFD Public Report)
- Engineering design costs for storm drain related improvements (including geotechnical)

Second Priority

- Storm drain basin land purchase for both basins (Van Konynenburg properties), east and west of Modest Irrigation District lateral No. 6

Third Priority

- Storm drain trunk lines (other than trunkline in Snyder Avenue adjacent to school and park sites)

[Note that storm drain trunk lines are specific to each tax area and will remain a third priority within a tax area until all trunk lines within that tax area are credited or reimbursed.]

Fourth Priority

- Storm drain pump station, piping and landscaping around storm drainage basin

Fifth Priority, Tax Area A (Carver Bangs)

- Bike trail
- American Avenue
- Prescott Road
- Bangs Avenue
- Carver Road
- American Avenue crossing of Modest Irrigation District lateral No. 6
- Pedestrian bridge crossing of Modesto Irrigation District lateral No. 6

Fifth Priority, Tax Area B (Pelandale-Snyder)

- Bike trail
- Dale Road
- Prescott Road
- Tully Road
- Snyder Avenue (opposite)
- Tully/Snyder traffic signal

NOTES:

1. THE ABOVE ESTIMATE IS FOR THE PORTION OF PRESCOTT ROAD IMPROVEMENTS WHICH IS ABOVE AND BEYOND A NORMAL CITY STANDARD COLLECTOR STREET (60' WIDE) AND WHICH IS NOT FUNDED THROUGH THE CITY'S CFF PROGRAM. (SEE FIGURE 2).
2. THE ABOVE ESTIMATE ONLY INCLUDES THE STORM DRAIN COSTS FOR THE CATCH BASINS, STORM DRAIN CATCH BASIN LATERALS AND STORM MANHOLES WHICH IS ASSUMED TO BE A PROPORTIONATE SHARE OF THE STORM IMPROVEMENTS. THE "MAINLINE" STORM DRAIN IMPROVEMENTS ARE TO BE INSTALLED BY ADJACENT DEVELOPMENT.
3. THE R-VALUE ASSUMPTIONS WERE DERIVED FROM SOILS REPORTS PREPARED BY KLEINFELDER, INC.

PRESCOTT ROAD SECTION

(MID-BLOCK)

NOTES:

1. BASED ON CITY POLICY, THE PORTION OF THE ROADWAY IMPROVEMENTS ABOVE AND BEYOND THE ADJACENT DEVELOPERS RESPONSIBILITY IS INCLUDED IN THE CFF PROGRAM. THE CFF PORTION GETS WIDER AS THE ROAD SECTION FLARES AT THE PRESCOTT/BANGS AND PRESCOTT/PELANDALE INTERSECTIONS.
2. BASED ON CITY POLICY, 40' OF IMPROVEMENTS ARE CONSTRUCTED BY THE ADJOINING DEVELOPMENT. THE 40' SECTION IS CONSTANT AT THE FLARED INTERSECTIONS.
3. THE STANDARD CITY CROSS SECTION FOR A MINOR COLLECTOR STREET IS 60' TOTAL. COLLECTOR STREETS ARE ENTIRELY CONSTRUCTED BY THE ADJOINING DEVELOPMENT.
4. THE REMAINING PORTION THAT IS NOT FUNDED BY THE CITY'S CFF PROGRAM AND IS NOT WITHIN THE STANDARD 60' MINOR COLLECTOR SECTION IS INCLUDED WITHIN THE CFD.

(MID-BLOCK-LOOKING NORTH)

NOTES:

1. BASED ON CITY POLICY, THE PORTION OF THE ROADWAY IMPROVEMENTS ABOVE AND BEYOND THE ADJACENT DEVELOPERS RESPONSIBILITY IS INCLUDED IN THE CFF PROGRAM. THE CFF PORTION GETS WIDER AS THE ROAD SECTION FLARES AT THE PRESCOTT/BANGS AND PRESCOTT/PELANDALE INTERSECTIONS.
2. BASED ON CITY POLICY, 40' OF IMPROVEMENTS ARE CONSTRUCTED BY THE ADJOINING DEVELOPMENT. THE 40' SECTION IS CONSTANT AT THE FLARED INTERSECTIONS.
3. THE STANDARD CITY CROSS SECTION FOR A MINOR COLLECTOR STREET IS 60' TOTAL. COLLECTOR STREETS ARE ENTIRELY CONSTRUCTED BY THE ADJOINING DEVELOPMENT.
4. THE REMAINING PORTION THAT IS NOT FUNDED BY THE CITY'S CFF PROGRAM AND IS NOT WITHIN THE STANDARD 60' MINOR COLLECTOR SECTION IS INCLUDED WITHIN THE CFD.

Preliminary Engineer's Estimate
October 23, 1998

NOTES:

1. THE ABOVE ESTIMATE ASSUMES THE PHASE 1A INTERIM PELANDALE AVENUE WILL BE CONSTRUCTED ON THE WEST SIDE OF PRESCOTT AND A PORTION OF THE IMPROVEMENTS (APPROXIMATELY 650 L.F. FROM THE SNYDER INTERSECTION) WILL BE REMOVED FOR THE ULTIMATE IMPROVEMENTS. THE REMAINING INTERIM SECTION IS ASSUMED TO REMAIN AND BE OVERLAYED WITH 2" A.C.
2. THE ABOVE ESTIMATE DOES NOT INCLUDE THE CENTER 20' PORTION OF PRESCOTT ROAD SINCE IT IS INCLUDED IN THE CFF PROGRAM.
3. THE ABOVE ESTIMATE DOES NOT INCLUDE THE MAINLINE STORM DRAIN IMPROVEMENTS SINCE THOSE COSTS ARE INCLUDED WITH THE STORM DRAIN COMPONENT OF THE CFD.
4. THE ABOVE ESTIMATE INCLUDES ALL NECESSARY CATCH BASINS. THIS CATCH BASIN ESTIMATE WAS TAKEN DIRECTLY FROM THE APPROVED "ALMOND VALLEY SUBDIVISION" IMPROVEMENT PLANS.
5. THE R-VALUE ASSUMPTIONS WERE DERIVED FROM SOILS REPORTS PREPARED BY KLEINFELDER, INC. FOR THE FOLLOWING SUBDIVISIONS: KENSINGTON PARK, TUSCANY, EASTPORT AND ALMOND VALLEY.

NOTES:

1. THIS ESTIMATE ITEM II IS FOR THE ENTIRE COST OF THE CENTER 34 FEET OF TULLY ROAD IMPROVEMENTS. THE CENTER 34 FEET OF IMPROVEMENTS ON TULLY ROAD ARE FUNDED BY THE CFF PROGRAM, HOWEVER, THE FUNDS ARE NOT AVAILABLE FOR THE ENTIRE PROJECT SO A PORTION OF THE PROJECT NOT FUNDED BY CFF WILL BE FUNDED BY THE PELANDALE-SNYDER CFD.
2. THIS ESTIMATE IS BASED ON THE ASSUMPTION THAT THE CENTER 26+/- FEET OF EXISTING PAVEMENT WILL REMAIN AND ADJACENT DEVELOPMENT WILL BE REQUIRED TO MATCH EXISTING PAVEMENT.
3. THE ABOVE COST ESTIMATE INCLUDES THE COST FOR IMPROVEMENTS FROM THE NORTH SIDE OF THE MODESTO IRRIGATION DISTRICT LATERAL TO PELANDALE AVENUE.
4. THE TULLY ROAD IMPROVEMENTS INCLUDE A COST TO REMOVE AND REPLACE THE EXISTING IMPROVEMENTS ALONG THE BIG VALLEY GRACE COMMUNITY CHURCH FRONTAGE (50' EXISTING TO 57' CITY STANDARD) TO BRING THE CROSS SECTION TO CITY STANDARD. HOWEVER, SPECIFIC DECELERATION OR ACCELERATION LANES WHICH ARE SITE SPECIFIC IMPROVEMENTS ARE NOT INCLUDED IN THE ESTIMATE.
5. THE RIGHT-OF-WAY COSTS ARE THE REQUIRED DEDICATIONS FOR RIGHT-OF-WAY BEYOND THE ALREADY EXISTING DEDICATIONS.
6. THE R-VALUE ASSUMPTIONS WERE DERIVED FROM SOILS REPORTS PREPARED BY KLEINFELDER, INC. FOR THE FOLLOWING SUBDIVISIONS: KENSINGTON PARK, TUSCANY, EASTPORT AND ALMOND VALLEY.

SNYDER AVENUE ADJACENT TO THE BIKE TRAIL TOTAL =====>					\$451,541
SNYDER AVENUE GRAND TOTAL =====>					\$504,283

NOTES:

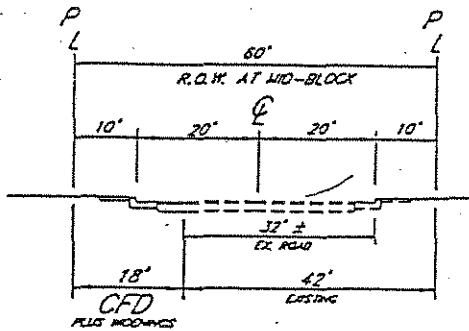

A. SNYDER AVENUE ADJACENT TO STORM DRAIN BASIN

1. THE SNYDER AVENUE IMPROVEMENTS ADJACENT TO THE STORM DRAINAGE BASIN, INCLUDE THE COST FOR IMPROVEMENT FROM THE WEST SIDE OF THE PROPOSED BASIN PROPERTY TO THE RETURN AT PRESCOTT ROAD.
2. THE RIGHT-OF-WAY COSTS IS THE AREA OF DEDICATION REQUIRED ASSUMING AN EXISTING 20 FOOT DEDICATION ON THE NORTH SIDE OF SNYDER AVENUE.

B. SNYDER AVENUE SOUTH SIDE ADJACENT TO BIKE TRAIL

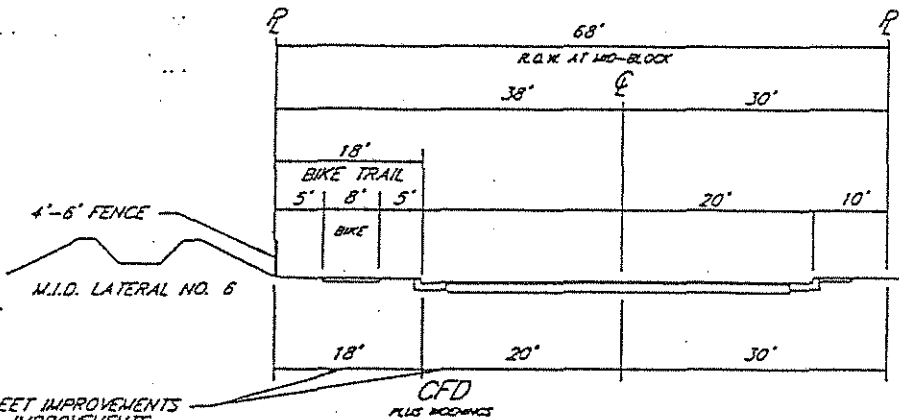

1. THE SNYDER AVENUE IMPROVEMENTS INCLUDE THE COSTS FOR ROADWAY IMPROVEMENTS (EXCLUDING BIKE TRAIL) SOUTH OF THE CENTERLINE (20') FROM PRESCOTT ROAD TO CARVER ROAD.
2. THE RIGHT-OF-WAY AREA TO BE INCLUDED WITHIN THIS CFD ALONG SNYDER AVENUE BETWEEN PRESCOTT ROAD AND CARVER ROAD IS AS FOLLOWS:
 - A. VARYING RIGHT-OF-WAY WIDTH FROM 1.8+/- FEET TO 12.5+/- FEET FROM THE PROPOSED NEW SNYDER AVENUE CENTERLINE TO THE EXISTING SNYDER AVENUE DEDICATION.
 - B. 20' WIDTH RIGHT-OF-WAY FROM PROPOSED NEW SNYDER CENTERLINE NORTH. ADJACENT DEVELOPMENT WOULD BE RESPONSIBLE FOR A 10 FOOT WIDTH RIGHT-OF-WAY DEDICATION ALONG THE NORTH SIDE OF SNYDER AVENUE.
3. NO "MAINLINE" STORM DRAIN IMPROVEMENTS ARE INCLUDED SINCE THOSE COSTS ARE INCLUDED WITHIN THE STORM DRAIN COMPONENT OF THE C.F.D.
4. NO COSTS ARE INCLUDED IN THIS ESTIMATE FOR THE CLASS I BIKE TRAIL ADJACENT TO SNYDER AVENUE.
5. THE PAVEMENT REMOVAL QUANTITIES INCLUDES THE COST TO REMOVE THE ENTIRE EXISTING PAVEMENT SECTION FROM PRESCOTT ROAD TO CARVER ROAD.
6. THIS ESTIMATE INCLUDES A COST TO ABANDON EXISTING STORM DRAIN PUMP STATION NO. 47 ASSUMING CONNECTION TO THE POSITIVE STORM DRAIN SYSTEM.
7. NO COST FOR EXISTING POWER POLE RELOCATION IS INCLUDED IN COSTS.
8. THE R-VALUE ASSUMPTIONS WERE DERIVED FROM SOILS REPORTS PREPARED BY KLEINFELDER, INC. FOR THE FOLLOWING SUBDIVISIONS: KENSINGTON PARK, TUSCANY, EASTPORT AND ALMOND VALLEY.

MODESTO CITY COUNCIL
RESOLUTION NO. 2003-107

A RESOLUTION APPOINTING WILLIAM A. JAQUES AND RICHARD VANDEN BOSCH TO THE AIRPORT ADVISORY COMMITTEE

WHEREAS, Section 1102 of the Charter of the City of Modesto authorizes the City Council to appoint members to various Boards and Commissions, and

WHEREAS, the Economic Development Committee met on February 10, 2003, and recommended appointment of WILLIAM A. JAQUES and RICHARD VANDEN BOSCH to the Airport Advisory Committee.

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. WILLIAM A. JAQUES and RICHARD VANDEN BOSCH are hereby appointed to the Airport Advisory Committee with term expirations of January 1, 2007.

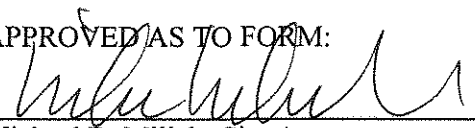

SECTION 2. The City Clerk is hereby directed to transmit a copy of this resolution to the newly appointed members of the Airport Advisory Committee, and the Secretary thereof.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of February, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Conrad, Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino
NOES:	Councilmembers:	None
ABSENT:	Councilmembers:	None

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-113**

**A RESOLUTION AUTHORIZING THE APPOINTMENT OF COUNCILMEMBER
JANICE KEATING TO THE HOUSING REHABILITATION LOAN COMMITTEE**

WHEREAS, the City Councilmembers serve on various boards and committees and act as representative on behalf of the City of Modesto, and

WHEREAS, the recent election left vacancies on several boards and committees, and

WHEREAS, the Housing Rehabilitation Loan Committee includes one member of the Modesto City Council to act in an advisory capacity to staff in carrying out the provisions of the agreements and also act in an advisory capacity to the legislative bodies of the parties of these agreements, and

WHEREAS, the term of offices for the councilmembers serving on these committees has expired,

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that Councilmember JANICE KEATING is hereby appointed as the City Council representative to the Housing Rehabilitation Loan Committee.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of February, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-114**

**A RESOLUTION ACCEPTING THE BID AND AWARDING ELITE
LANDSCAPING, INC., THE CONTRACT FOR THE PROJECT TITLED
“ORVILLE WRIGHT PARK PHASE II”**

WHEREAS, the bids received for Orville Wright Park were opened at 11:00 a.m. on January 28, 2003, and later tabulated by the Engineering and Transportation Director for the consideration of the Council, and

WHEREAS, the low bidder's proposal, which was 10% under the engineer's estimate, was reviewed by the City of Modesto Attorney's office and was confirmed as the lowest responsible bidder, and

WHEREAS, the Engineering and Transportation Director has recommended that the bid of \$749,285 received from Elite Landscaping, Inc., be accepted as the lowest responsible bid, and the contract be award to Elite Landscaping, Inc.,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the bid of Elite Landscaping, Inc., as the lowest responsible bid and hereby awards Elite Landscaping, Inc., the contract entitled “Orville Wright Park Phase II” in the amount of \$749,285.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of March, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2003-115**

**A RESOLUTION APPROVING A LEASE AGREEMENT BY AND BETWEEN
THE CITY OF MODESTO AND EVERETT & JONES BBQ, LLC FOR THE
PROPERTY LOCATED AT 1029 NINTH STREET, MODESTO, CALIFORNIA**

WHEREAS, the City of Modesto (“City”) is the owner of the property located at 1029 Ninth Street (Assessor’s Parcel No.: 104-0310) and including all of the buildings thereon (“Site”), and

WHEREAS, City desires to enter into a Lease Agreement with Everett & Jones BBQ, LLC (“Leasee”) to lease the stand-alone building on the Northeast corner of said Site, at the intersection of 9th Street and K Street, for use as a restaurant under the name “Everett and Jones BBQ”, and

WHEREAS, City and Leasee have agreed to certain terms and conditions as set forth in a Lease Agreement (“**Exhibit A**”) which is attached hereto and made a part hereof by this reference.

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto that the Lease Agreement between the City of Modesto and Everett & Jones BBQ, LLC, for the property located at 1029 Ninth Street, Modesto, California is hereby approved.

BE IT FURTHER RESOLVED that the Council of the City of Modesto hereby authorizes and directs the City Manager to execute all documents related to and required by said Lease Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of March, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

STANDARD INDUSTRIAL/COMMERCIAL SINGLE-TENANT LEASE - NET
AMERICAN INDUSTRIAL REAL ESTATE ASSOCIATION

1. Basic Provisions ("Basic Provisions").

1.1 **Parties:** This Lease ("Lease"), dated for reference purposes only, February 21, 2003, is made by and between City of Modesto ("Lessor") and Annie P. Jones and Robert S. Dudley, dba Everett & Jones Barbeque, LLC, a Nevada Limited Liability Company ("Lessee"), (collectively the "Parties", or individually a "Party").

1.2(a) **Premises:** That certain portion of the Property (as defined below), including all improvements therein or to be provided by Lessor under the terms of this Lease, commonly known by the street address of 1029 9th Street, located in the City of Modesto, County of Stanislaus, State of California, with zip code 95354, as outlined on Exhibit _____ attached hereto ("**Premises**") and generally described as (describe briefly the nature of the Premises): approximately 3,600 square feet. Lessee shall not have any rights to the roof, exterior walls or utility raceways of the building containing the Premises ("**Building**"). The Premises, the Building, the land upon which they are located, along with all other improvements thereon, are herein collectively referred to as the "**Property**." (See also Paragraph 2)

1.2(b) **Parking:** thirty-five (35) unreserved vehicle parking spaces ("**Unreserved Parking Spaces**"); (See also Paragraph 2.6)

1.3 **Term:** Ten (10) years, plus any partial month, ("**Original Term**") commencing on the earlier to occur of the following: (i) sixty (60) days after the Early Possession Date, or (ii) the date Tenant first opens for business in the Premises. ("**Commencement Date**") and ending on the last day of the one hundred and twentieth (120) full calendar month thereafter. ("**Expiration Date**"). (See also Paragraph 3)

1.4 **Early Possession:** March 13, 2003 ("**Early Possession Date**").

(See also Paragraphs 3.2 and 3.3)

1.5 **Base Rent:** \$ 3,600.00 per month ("**Base Rent**"), payable on the first day of each month as follows: (See also Paragraph 4)

Months 1 – 12:	\$3,600.00 per month
Months 13 – 24:	\$3,708.00 per month
Months 25 – 36:	\$3,819.00 per month
Months 37 – 48:	\$3,934.00 per month
Months 49 – 60:	\$4,052.00 per month
Months 61 – 72:	\$4,173.00 per month
Months 73 – 84:	\$4,299.00 per month
Months 85 – 96:	\$4,428.00 per month
Months 97 – 108:	\$4,560.00 per month
Months 109 – 120:	\$4,697.00 per month

If this box is checked, there are provisions in this Lease for the Base Rent to be adjusted. (See paragraph 1.5 above).

1.6 **Base Rent and Other Monies Paid Upon Execution:**

(a) **Base Rent:** \$ 3,600.00 for the period of first (1st) month.

(b) **Security Deposit:** \$ 3,600.00 ("**Security Deposit**"). (See also Paragraph 5)

(c) **Association Fees:** \$ _____ for the period _____.

(d) **Other:** \$ _____ for _____.

(e) **Total Due Upon Execution of this Lease:** \$ 7,200.00.

1.7 **Agreed Use:** A full service and take out Barbeque style restaurant. (See also Paragraph 6)

1.8 **Insuring Party:** Lessor is the "**Insuring Party**". (See also Paragraph 8)

1.9 **Real Estate Brokers:** (See also Paragraph 15)

(a) **Representation:** The following real estate brokers (the "**Brokers**") and brokerage relationships exist in this transaction

check applicable boxes:

Brekke Real Estate, Inc. represents Lessor exclusively ("**Lessor's Broker**");

Lee & Associates-Central Valley, Inc. represents Lessee exclusively ("**Lessee's Broker**"); or

_____ represents both Lessor and Lessee ("**Dual Agency**").

(b) **Payment to Brokers:** Upon execution and delivery of this Lease by both Parties, Lessor shall pay to the Brokers the brokerage fee agreed to in a separate written agreement (or if there is no such agreement, the sum of _____ or _____ % of the total Base Rent for the brokerage services rendered by the Brokers).

1.10 **Guarantor.** The obligations of the Lessee under this Lease are to be guaranteed by N/A ("**Guarantor**"). (See also Paragraph 37)

1.11 **Attachments.** Attached hereto are the following, all of which constitute a part of this Lease:

an Addendum consisting of Paragraphs _____ through _____.

a plot plan depicting the Premises;

a current set of the Rules and Regulations;

a Work Letter;

other (specify): _____

2. Premises.

2.1 **Letting.** Lessor hereby leases to Lessee, and Lessee hereby leases from Lessor, the Premises, for the term, at the rental, and upon all of the terms, covenants and conditions set forth in this Lease. Unless otherwise provided herein, any statement of size set forth in this Lease, or that may have been used in calculating Rent, is an approximation which the Parties agree is reasonable and any payments based thereon are not subject to revision whether or not the actual size is more or less.

2.2 **Condition.** Lessor shall deliver that portion of the Premises to Lessee broom clean and free of debris and in "as-is" condition on the Early Possession Date, whichever first occurs ("**Start Date**"), and, so long as the required service contracts described in Paragraph 7.1(b) below are obtained by Lessee and in effect within thirty days following the Start Date, warrants that the existing electrical, plumbing, lighting, heating, ventilating and air conditioning systems ("**HVAC**"), shall be in good operating condition on said date. If a non-compliance with such warranty exists as of the Start Date, or if of such systems or elements should malfunction or fail within the appropriate warranty period, Lessor shall, as Lessor's sole obligation with respect to matter, except as otherwise provided in this Lease, promptly after receipt of written notice from Lessee setting forth with specificity the nature and of such non-compliance, malfunction or failure, rectify same at Lessor's expense. The warranty periods shall be as follows: (i) 6 months as to the C systems, and (ii) 30 days as to the remaining systems and other elements of the Unit. If Lessee does not give Lessor the required notice within the appropriate warranty period, correction of any such non-compliance, malfunction or failure shall be the obligation of Lessee at Lessee's sole cost and expense.

2.3 **Compliance.** Lessor makes no representation and/or warrants to Lessee that the improvements on or about the Premises comply with current or former building codes or applicable laws, covenants or restrictions of record, regulations, and ordinances in effect on the Start Date ("**Applicable Requirements**"). **NOTE: Lessee is responsible for determining whether or not the Applicable Requirements, and especially the zoning, are**

appropriate for Lessee's intended use, and acknowledges that past uses of the Premises may no longer be allowed. If the Applicable Requirements are hereafter changed so as to require during the term of this Lease the construction of an addition to or an alteration of the Premises or other physical modification of the Premises ("Capital Expenditure"), Lessee shall be solely responsible for the cost of such work.

2.4 **Acknowledgements.** Lessee acknowledges that: (a) it has been advised by Lessor and/or Brokers to satisfy itself with respect to the condition of the Premises (including but not limited to the electrical, HVAC and fire sprinkler systems, security, environmental aspects, and compliance with Applicable Requirements and the Americans with Disabilities Act), and their suitability for Lessee's intended use, (b) Lessee has made such investigation as it deems necessary with reference to such matters and assumes all responsibility therefor as the same relate to its occupancy of the Premises, and (c) neither Lessor, Lessor's agents, nor Brokers have made any oral or written representations or warranties with respect to said matters other than as set forth in this Lease. In addition, Lessor acknowledges that: (i) Brokers have made no representations, promises or warranties concerning Lessee's ability to honor the Lease or suitability to occupy the Premises, and (ii) it is Lessor's sole responsibility to investigate the financial capability and/or suitability of all proposed tenants.

2.5 **Lessee as Prior Owner/Occupant.** Not Applicable.

2.6 **Vehicle Parking.** Lessee shall be entitled to use the number of Unreserved Parking Spaces specified in Paragraph 1.2(b) on those portions of the adjoining Modesto City surface parking lot as designated from time to time by Lessor for parking. Lessee shall not use more parking spaces than said number. Said parking spaces shall be used for parking by vehicles no larger than full-size passenger automobiles or pick-up trucks, herein called "Permitted Size Vehicles." Lessor may regulate the loading and unloading of vehicles by adopting Rules and Regulations as provided in Paragraph 2.9. No vehicles other than Permitted Size Vehicles may be parked in the Common Area without the prior written permission of Lessor.

(a) Lessee shall not permit or allow any vehicles that belong to or are controlled by Lessee or Lessee's employees, suppliers, shippers, customers, contractors or invitees to be loaded, unloaded, or parked in areas other than those designated by Lessor for such activities.

(b) Lessee shall not service or store any vehicles.

(c) If Lessee permits or allows any of the prohibited activities described in this Paragraph 2.6, then Lessor shall have the right, without notice, in addition to such other rights and remedies that it may have, to remove or tow away the vehicle involved and charge the cost to Lessee, which cost shall be immediately payable upon demand by Lessor.

3. **Term.**

3.1 **Term.** The Commencement Date, Expiration Date and Original Term of this Lease are as specified in Paragraph 1.3.

3.2 **Early Possession.** If Lessee totally or partially occupies the Premises prior to the Commencement Date, the obligation to pay Base Rent shall be abated for the period of such early possession. All other terms of this Lease (including but not limited to the obligations to pay Real Property Taxes and insurance premiums and to maintain the Premises) shall, however, be in effect during such period. Any such early possession shall not affect the Expiration Date.

3.3 **Delay in Possession.** Lessor agrees to use its best commercially reasonable efforts to deliver possession of the Premises to Lessee by the Commencement Date. If, despite said efforts, Lessor is unable to deliver possession as agreed, Lessor shall not be subject to any liability therefor, nor shall such failure affect the validity of this Lease. Lessee shall not, however, be obligated to pay Rent or perform its other obligations until Lessor delivers possession of the Premises and any period of rent abatement that Lessee would otherwise have enjoyed shall run from the date of delivery of possession and continue for a period equal to what Lessee would otherwise have enjoyed under the terms hereof, but minus any days of delay caused by the acts or omissions of Lessee. If possession is not delivered within 60 days after the Commencement Date, Lessee may, at its option, by notice in writing within 10 days after the end of such 60 day period, cancel this Lease, in which event the Parties shall be discharged from all obligations hereunder. If such written notice is not received by Lessor within said 10 day period, Lessee's right to cancel shall terminate. If possession of the Premises is not delivered within 120 days after the Commencement Date, this Lease shall terminate unless other agreements are reached between Lessor and Lessee, in writing.

3.4 **Lessee Compliance.** Lessor shall not be required to deliver possession of the Premises to Lessee until Lessee complies with its obligation to provide evidence of insurance (Paragraph 8.5). Pending delivery of such evidence, Lessee shall be required to perform all of its obligations under this Lease from and after the Start Date, including the payment of Rent, notwithstanding Lessor's election to withhold possession pending receipt of such evidence of insurance. Further, if Lessee is required to perform any other conditions prior to or concurrent with the Start Date, the Start Date shall occur but Lessor may elect to withhold possession until such conditions are satisfied.

4. **Rent.**

4.1 **Rent Defined.** All monetary obligations of Lessee to Lessor under the terms of this Lease (except for the Security Deposit) are deemed to be rent ("Rent").

4.2 **Payment.** Lessee shall cause payment of Rent to be received by Lessor in lawful money of the United States on or before the day on which it is due, without offset or deduction (except as specifically permitted in this Lease). Rent for any period during the term hereof which is for less than one full calendar month shall be prorated based upon the actual number of days of said month. Payment of Rent shall be made to Lessor at its address stated herein or to such other persons or place as Lessor may from time to time designate in writing. Acceptance of a payment which is less than the amount then due shall not be a waiver of Lessor's rights to the balance of such Rent, regardless of Lessor's endorsement of any check so stating. In the event that any check, draft, or other instrument of payment given by Lessee to Lessor is dishonored for any reason, Lessee agrees to pay to Lessor the sum of \$25 in addition to any Late Charge and Lessor, at its option, may require all future payments to be made by Lessee to be by cashier's check. Payments will be applied first to accrued late charges and attorney's fees, second to accrued interest, then to Base Rent and Operating Expense Increase, and any remaining amount to any other outstanding charges or costs.

4.3 **Association Fees.** Not Applicable.

5. **Security Deposit.** Lessee shall deposit with Lessor upon execution hereof the Security Deposit as security for Lessee's faithful performance of its obligations under this Lease. If Lessee fails to pay Rent, or otherwise Defaults under this Lease, Lessor may use, apply or retain all or any portion of said Security Deposit for the payment of any amount due Lessor or to reimburse or compensate Lessor for any liability, expense, loss or damage which Lessor may suffer or incur by reason thereof. If Lessor uses or applies all or any portion of the Security Deposit, Lessee shall within 10 days after written request therefor deposit monies with Lessor sufficient to restore said Security Deposit to the full amount required by this Lease. If the Base Rent increases during the term of this Lease, Lessee shall, upon written request from Lessor, deposit additional monies with Lessor so that the total amount of the Security Deposit shall at all times bear the same proportion to the increased Base Rent as the initial Security Deposit bore to the initial Base Rent. Should the Agreed Use be amended to accommodate a material change in the business of Lessee or to accommodate a sublessee or assignee, Lessor shall have the right to increase the Security Deposit to the extent necessary, in Lessor's reasonable judgment, to account for any increased wear and tear that the Premises may suffer as a result thereof. If a change in control of Lessee occurs during this Lease and following such change the financial condition of Lessee is, in Lessor's reasonable judgment, significantly reduced, Lessee shall deposit such additional monies with Lessor as shall be sufficient to cause the Security Deposit to be at a commercially reasonable level based on such change in financial condition. Lessor shall not be required to keep the Security Deposit separate from its general accounts. Within 14 days after the expiration or termination of this Lease, if Lessor elects to apply the Security Deposit only to unpaid Rent, and otherwise within 30 days after the Premises have been vacated pursuant to Paragraph 7.4(c) below, Lessor shall return that portion of the Security Deposit not used or applied by Lessor. No part of the Security Deposit shall be considered to be held in trust, to bear interest or to be prepayment for any monies to be paid by Lessee under this Lease.

6. **Use.**

6.1 **Use.** Lessee shall use and occupy the Premises only for the Agreed Use, or any other legal use which is reasonably comparable thereto, and for no other purpose. Lessee shall not use or permit the use of the Premises in a manner that is unlawful, creates damage, waste or a nuisance, or that disturbs occupants or causes damage to neighboring premises or properties. Lessor shall not unreasonably withhold or delay its consent to any written request for a modification of the Agreed Use, so long as the same will not impair the structural integrity of the improvements on the Premises or the mechanical or electrical systems therein, and/or is not significantly more burdensome to the Premises. If Lessor elects to withhold consent, Lessor shall within 7 days after such request give written notification of same, which notice shall include an explanation of Lessor's objections to the change in the Agreed Use.

6.2 **Hazardous Substances.**

(a) **Reportable Uses Require Consent.** The term "Hazardous Substance" as used in this Lease shall mean any product, substance, or waste whose presence, use, manufacture, disposal, transportation, or release, either by itself or in combination with other materials expected to be on the Premises, is either: (i) potentially injurious to the public health, safety or welfare, the environment or the Premises, (ii) regulated or monitored by any governmental authority, or (iii) a basis for potential liability of Lessor to any governmental agency or third party under any applicable statute or common law theory. Hazardous Substances shall include, but not be limited to, hydrocarbons, petroleum, gasoline, and/or crude oil or any products, by-products or fractions thereof. Lessee shall not engage in any activity in or on the Premises which constitutes a Reportable Use of Hazardous Substances without the express prior written consent of Lessor and timely compliance (at Lessee's expense) with all Applicable Requirements. "Reportable Use" shall mean (i) the installation or use of any above or below ground storage tank, (ii) the generation, possession, storage, use, transportation, or disposal of a Hazardous Substance that requires a permit from, or with respect to which a report, notice, registration or business plan is required to be filed with, any governmental authority, and/or (iii) the presence at the Premises of a Hazardous Substance with respect to which any Applicable Requirements requires that a notice be given to persons entering or occupying the Premises or neighboring properties. Notwithstanding the foregoing, Lessee may use any ordinary and customary materials reasonably required to be used in the normal course of the Agreed Use, so long as such use is in compliance with all Applicable Requirements, is

not a Reportable Use, and does not expose the Premises or neighboring property to any meaningful risk of contamination or damage or expose Lessor to any liability therefor. In addition, Lessor may condition its consent to any Reportable Use upon receiving such additional assurances as Lessor reasonably deems necessary to protect itself, the public, the Premises and/or the environment against damage, contamination, injury and/or liability, including, but not limited to, the installation (and removal on or before Lease expiration or termination) of protective modifications (such as concrete encasements) and/or increasing the Security Deposit.

(b) **Duty to Inform Lessor.** If Lessee knows, or has reasonable cause to believe, that a Hazardous Substance has come to be shed in, on, under or about the Premises, other than as previously consented to by Lessor, Lessee shall immediately give written notice of such fact to Lessor, and provide Lessor with a copy of any report, notice, claim or other documentation which it has concerning the presence of such Hazardous Substance.

(c) **Lessee Remediation.** Lessee shall not cause or permit any Hazardous Substance to be spilled or released in, on, under, or about the Premises (including through the plumbing or sanitary sewer system) and shall promptly, at Lessee's expense, take all investigatory and/or remedial action reasonably recommended, whether or not formally ordered or required, for the cleanup of any contamination of, and for the maintenance, security and/or monitoring of the Premises or neighboring properties, that was caused or materially contributed to by Lessee, or pertaining to or involving any Hazardous Substance brought onto the Premises during the term of this Lease, by or for Lessee, or any third party.

(d) **Lessee Indemnification.** Lessee shall indemnify, defend and hold Lessor, its agents, employees, lenders and ground lessor, if any, harmless from and against any and all loss of rents and/or damages, liabilities, judgments, claims, expenses, penalties, and attorneys' fees and consultants' fees arising out of or involving any Hazardous Substance brought onto the Premises by or for Lessee, or any third party (provided, however, that Lessee shall have no liability under this Lease with respect to underground migration of any Hazardous Substance under the Premises from adjacent properties not caused or contributed by Lessee). Lessee's obligations shall include, but not be limited to, the effects of any contamination or injury to person, property or the environment created or suffered by Lessee, and the cost of investigation, removal, remediation, restoration and/or abatement, and shall survive the expiration or termination of this Lease. **No termination, cancellation or release agreement entered into by Lessor and Lessee shall release Lessee from its obligations under this Lease with respect to Hazardous Substances, unless specifically so agreed by Lessor in writing at the time of such agreement.**

(e) **Lessor Indemnification.** Lessor and its successors and assigns shall indemnify, defend, reimburse and hold Lessee, its employees and lenders, harmless from and against any and all environmental damages, including the cost of remediation, which existed as a result of Hazardous Substances on the Premises prior to the Lessee's occupancy or which are caused by the gross negligence or willful misconduct of Lessor, its agents or employees. Lessor's obligations, as and when required by the Applicable Requirements, shall include, but not be limited to, the cost of investigation, removal, remediation, restoration and/or abatement, and shall survive the expiration or termination of this Lease.

(f) **Investigations and Remediations.** Lessor shall retain the responsibility and pay for any investigations or remediation measures required by governmental entities having jurisdiction with respect to the existence of Hazardous Substances on the Premises prior to the Lessee's occupancy, unless such remediation measure is required as a result of Lessee's use (including "Alterations", as defined in paragraph 7.3(a) below) of the Premises, in which event Lessee shall be responsible for such payment. Lessee shall cooperate fully in any such activities at the request of Lessor, including allowing Lessor and Lessor's agents to have reasonable access to the Premises at reasonable times in order to carry out Lessor's investigative and remedial responsibilities.

(g) **Lessor Termination Option.** If a Hazardous Substance Condition (see Paragraph 9.1(e)) occurs during the term of this Lease, unless Lessee is legally responsible therefor (in which case Lessee shall make the investigation and remediation thereof required by the Applicable Requirements and this Lease shall continue in full force and effect, but subject to Lessor's rights under Paragraph 6.2(d) and Paragraph 13), Lessor may, at Lessor's option, either (i) investigate and remediate such Hazardous Substance Condition, if required, as soon as reasonably possible at Lessor's expense, in which event this Lease shall continue in full force and effect, or (ii) if the estimated cost to remediate such condition exceeds 12 times the then monthly Base Rent or \$100,000, whichever is greater, give written notice to Lessee, within 30 days after receipt by Lessor of knowledge of the occurrence of such Hazardous Substance Condition, of Lessor's desire to terminate this Lease as of the date 60 days following the date of such notice. In the event Lessor elects to give a termination notice, Lessee may, within 10 days thereafter, give written notice to Lessor of Lessee's commitment to pay the amount by which the cost of the remediation of such Hazardous Substance Condition exceeds an amount equal to 12 times the then monthly Base Rent or \$100,000, whichever is greater. Lessee shall provide Lessor with said funds or satisfactory assurance thereof within 30 days following such commitment. In such event, this Lease shall continue in full force and effect, and Lessor shall proceed to make such remediation as soon as reasonably possible after the required funds are available. If Lessee does not give such notice and provide the required funds or assurance thereof within the time provided, this Lease shall terminate as of the date specified in Lessor's notice of termination.

6.3 Lessee's Compliance with Applicable Requirements. Except as otherwise provided in this Lease, Lessee shall, at Lessee's sole expense, fully, diligently and in a timely manner, materially comply with all Applicable Requirements, the requirements of any applicable fire insurance underwriter or rating bureau, and the recommendations of Lessor's engineers and/or consultants which relate in any manner to the Premises, without regard to whether said requirements are now in effect or become effective after the Start Date. Lessee shall, within 10 days after receipt of Lessor's written request, provide Lessor with copies of all permits and other documents, and other information evidencing Lessee's compliance with any Applicable Requirements specified by Lessor, and shall immediately upon receipt, notify Lessor in writing (with copies of any documents involved) of any threatened or actual claim, notice, citation, warning, complaint or report pertaining to or involving the failure of Lessee or the Premises to comply with any Applicable Requirements. Lessee shall at all times during the term of this Lease maintain a valid business license with the City of Modesto.

6.4 Inspection; Compliance. Lessor and Lessor's "Lender" (as defined in Paragraph 30) and consultants shall have the right to enter into Premises at any time, in the case of an emergency, and otherwise at reasonable times, for the purpose of inspecting the condition of the Premises and for verifying compliance by Lessee with this Lease. The cost of any such inspections shall be paid by Lessor, unless a violation of Applicable Requirements, or a Hazardous Substance Condition (see paragraph 9.1) is found to exist or be imminent, or the inspection is requested or ordered by a governmental authority. In such case, Lessee shall upon request reimburse Lessor for the cost of such inspection, so long as such inspection is reasonably related to the violation or contamination. In addition, Lessee shall provide copies of all relevant material safety data sheets (MSDS) to Lessor within 10 days of the receipt of a written request therefor. Lessor has the right to enter onto the Premises at reasonable times to perform an inspection of the Premises to ensure that the Lessee is performing in compliance with the terms and conditions of the Lease

7. Maintenance; Repairs, Utility Installations; Trade Fixtures and Alterations.

7.1 Lessee's Obligations.

(a) **In General.** Subject to the provisions of Paragraph 2.2 (Condition), 2.3 (Compliance), 6.3 (Lessee's Compliance with Applicable Requirements), 7.2 (Lessor's Obligations), 9 (Damage or Destruction), and 14 (Condemnation), Lessee shall, at Lessee's sole expense, keep the Premises, Utility Installations (intended for Lessee's exclusive use, no matter where located), and Alterations in good order, condition and repair (whether or not the portion of the Premises requiring repairs, or the means of repairing the same, are reasonably or readily accessible to Lessee, and whether or not the need for such repairs occurs as a result of Lessee's use, any prior use, the elements or the age of such portion of the Premises), including, but not limited to, all equipment or facilities, such as plumbing, HVAC equipment, electrical, lighting facilities, boilers, pressure vessels, fixtures, interior walls, interior surfaces of exterior walls, ceilings, floors, windows, doors, plate glass, skylights, landscaping driveways, parking lots, fences, retaining walls, signs, sidewalks and parkways located in, on, or adjacent to the Premises. Lessee, in keeping the Premises in good order, condition and repair, shall exercise and perform good maintenance practices, specifically including the procurement and maintenance of the service contracts required by Paragraph 7.1(b) below. Lessee's obligations shall include restorations, replacements or renewals when necessary to keep the Premises and all improvements thereon or a part thereof in good order, condition and state of repair. Lessee shall, during the term of this Lease, keep the exterior appearance of the Building in a first-class condition (including, e.g. graffiti removal) consistent with the exterior appearance of other similar facilities of comparable age and size in the vicinity, including, when necessary, the exterior repainting of the Building.

(b) **Service Contracts.** Lessee shall, at Lessee's sole expense, procure and maintain contracts, with copies to Lessor, in customary form and substance for, and with contractors specializing and experienced in the maintenance of the following equipment and improvements, if any, if and when installed on the Premises: (i) HVAC equipment, (ii) fire extinguishing systems, including fire alarm and/or smoke detection, (iii) landscaping and irrigation systems, (iv) roof covering and drains, and (v) basic utility feed to the perimeter of the Building, and (vi) any other equipment, if reasonably required by Lessor. However, Lessor reserves the right, upon notice to Lessee, to procure and maintain any or all of such service contracts, and if Lessor so elects, Lessee shall reimburse Lessor, upon demand, for the cost thereof.

(c) **Failure to Perform.** If Lessee fails to perform Lessee's obligations under this Paragraph 7.1, Lessor may enter upon the Premises after 10 days' prior written notice to Lessee (except in the case of an emergency, in which case no notice shall be required), perform such obligations on Lessee's behalf, and put the Premises in good order, condition and repair, and Lessee shall promptly pay to Lessor a sum equal to 115% of the cost thereof.

(d) **Replacement.** Subject to Lessee's indemnification of Lessor as set forth in Paragraph 8.7 below, and without relieving Lessee of liability resulting from Lessee's failure to exercise and perform good maintenance practices, if an item described in Paragraph 7.1(b) cannot be repaired or replaced at a cost which is in excess of 50% of the cost of replacing such item, then such item shall be replaced by Lessor, and the cost thereof shall be shared between the Parties and Lessee shall only be obligated to pay, each month during the remainder of the term of this Lease, on the date on which the Rent is due, an amount equal to the product of multiplying the cost of such replacement by a fraction, the numerator of which is one, and the denominator of which is 144 (i.e. 1/144th of the cost per month). Lessee shall pay interest on the unamortized balance at a rate that is commercially reasonable in the judgment of Lessor's accountants. Lessee may, however, prepay its obligation at any time.

7.2 Lessor's Obligations. Subject to the provisions of Paragraphs 2.2 (Condition), 2.3 (Compliance), 9 (Damage or Destruction) and 14 (Condemnation), it is intended by the Parties hereto that Lessor have no obligation, in any manner whatsoever, to repair and maintain the Premises, or the equipment therein, all of which obligations are intended to be that of the Lessee. It is the intention of the Parties that the terms of this Lease govern the respective obligations of the Parties as to maintenance and repair of the Premises, and they expressly waive the benefit of any statute now or hereafter in effect to the extent it is inconsistent with the terms of this Lease.

7.3 Utility Installations; Trade Fixtures; Alterations.

(a) **Definitions.** The term "Utility Installations" refers to all floor and window coverings, air and/or vacuum lines, power panels, electrical distribution, security and fire protection systems, communication systems, lighting fixtures, HVAC equipment, plumbing, and fencing in or on the Premises. The term "Trade Fixtures" shall mean Lessee's machinery and equipment that can be removed without doing material damage to the Premises. The term "Alterations" shall mean any modification of the improvements, other than Utility Installations or Trade Fixtures, whether by addition or deletion. "Lessee Owned Alterations and/or Utility Installations" are defined as Alterations and/or Utility Installations made by Lessee that are not yet owned by Lessor pursuant to Paragraph 7.4(a).

(b) **Consent.** Lessee shall not make any Alterations or Utility Installations to the Premises without Lessor's prior written consent. Lessee may, however, make non-structural Utility Installations to the interior of the Premises (excluding the roof) without such consent but upon notice to Lessor, as long as they are not visible from the outside, do not involve puncturing, relocating or removing the roof or any existing walls, and the cumulative cost thereof during this Lease as extended does not exceed a sum equal to 3 month's Base Rent in the aggregate or a sum equal to one month's Base Rent in any one year. Notwithstanding the foregoing, Lessee shall not make or permit any roof penetrations and/or install anything on the roof without the prior written approval of Lessor. Lessor may, as a precondition to granting such approval, require Lessee to utilize a contractor chosen and/or approved by Lessor. Any Alterations or Utility Installations that Lessee shall desire to make and which require the consent of the Lessor shall be presented to Lessor in written form with detailed plans. Consent shall be deemed conditioned upon Lessee's: (i) acquiring all applicable governmental permits, (ii) furnishing Lessor with copies of both the permits and the plans and specifications prior to commencement of the work, and (iii) compliance with all conditions of said permits and other Applicable Requirements in a prompt and expeditious manner. Any Alterations or Utility Installations shall be performed in a workmanlike manner with good and sufficient materials. Lessee shall promptly upon completion furnish Lessor with as-built plans and specifications. For work which costs an amount in excess of one month's Base Rent, Lessor may condition its consent upon Lessee providing a lien and completion bond in an amount equal to 150% of the estimated cost of such Alteration or Utility Installation and/or upon Lessee's posting an additional Security Deposit with Lessor.

(c) **Liens; Bonds.** Lessee shall pay, when due, all claims for labor or materials furnished or alleged to have been furnished to or for Lessee at or for use on the Premises, which claims are or may be secured by any mechanic's or materialman's lien against the Premises or any interest therein. Lessee shall give Lessor not less than 10 days notice prior to the commencement of any work in, on or about the Premises, and Lessor shall have the right to post notices of non-responsibility. If Lessee shall contest the validity of any such lien, claim or demand, then Lessee shall, at its sole expense defend and protect itself, Lessor and the Premises against the same and shall pay and satisfy any such adverse judgment that may be rendered thereon before the enforcement thereof. If Lessor shall require, Lessee shall furnish a surety bond in an amount equal to 150% of the amount of such contested lien, claim or demand, indemnifying Lessor against liability for the same. If Lessor elects to participate in any such action, Lessee shall pay Lessor's attorneys' fees and costs.

7.4 Ownership; Removal; Surrender; and Restoration.

(a) **Ownership.** Subject to Lessor's right to require removal or elect ownership as hereinafter provided, all Alterations and Utility Installations made by Lessee shall be the property of Lessee, but considered a part of the Premises. Lessor may, at any time, elect in writing to be the owner of all or any specified part of the Lessee Owned Alterations and Utility Installations. Unless otherwise instructed per paragraph 7.4(b) hereof, all Lessee Owned Alterations and Utility Installations shall, at the expiration or termination of this Lease, become the property of Lessor and be surrendered by Lessee with the Premises.

(b) **Removal.** By delivery to Lessee of written notice from Lessor not earlier than 90 and not later than 30 days prior to the end of the term of this Lease, Lessor may require that any or all Lessee Owned Alterations or Utility Installations be removed by the expiration or termination of this Lease. Lessor may require the removal at any time of all or any part of any Lessee Owned Alterations or Utility Installations made without the required consent.

(c) **Surrender; Restoration.** Lessee shall surrender the Premises by the Expiration Date or any earlier termination date, with all of the improvements, parts and surfaces thereof broom clean and free of debris, and in good operating order, condition and state of repair, ordinary wear and tear excepted. "Ordinary wear and tear" shall not include any damage or deterioration that would have been prevented by good maintenance practice. Notwithstanding the foregoing, if this Lease is for 12 months or less, then Lessee shall surrender the Premises in the same condition as delivered to Lessee on the Start Date with NO allowance for ordinary wear and tear. Lessee shall repair any damage occasioned by the installation, maintenance or removal of Trade Fixtures, Lessee owned Alterations and/or Utility Installations, furnishings, and equipment as well as the removal of any storage tank installed by or for Lessee. Lessee shall also completely remove from the Premises any and all Hazardous Substances brought onto the Premises by or for Lessee, or any third party (except Hazardous Substances which were deposited via underground migration from areas outside of the Property) even if such removal would require Lessee to perform or pay for work that exceeds statutory requirements. Trade Fixtures shall remain the property of Lessee and shall be removed by Lessee. The failure by Lessee to timely vacate the Premises pursuant to this Paragraph 7.4(c) without the express written consent of Lessor shall constitute a holdover under the provisions of Paragraph 26 below.

8. Insurance; Indemnity.

8.1 Payment For Insurance. Lessee shall pay for all insurance required under Paragraph 8 except to the extent of the cost attributable to liability insurance carried by Lessor under Paragraph 8.2(b) in excess of \$2,000,000 per occurrence. Premiums for policy periods commencing prior to or extending beyond the Lease term shall be prorated to correspond to the Lease term. Payment shall be made by Lessee to Lessor within 10 days following receipt of an invoice.

8.2 Liability Insurance.

(a) **Carried by Lessee.** The Lessee shall provide at its own expense and maintain at all times the following insurance with insurance companies licensed in the State of California and shall provide evidence of such insurance to the Lessor as may be required by the Risk Manager of the Lessor (Risk Manager for the City of Modesto). The policies or certificates thereof shall provide that, thirty (30) days prior to cancellation or material change in the policy, notices of same shall be given to the Risk Manager of the Lessor by certified mail, return receipt requested, for all of the following stated insurance policies.

(i) **Worker's Compensation** - in compliance with the statutes of the State of California, plus employer's liability with a minimum limit of liability of \$500,000.

(ii) **General Liability** insurance with a minimum limit of liability per occurrence of \$1,000,000 for bodily injury and \$100,000 for property damage or \$1,000,000 combined single limit. This insurance shall indicate on the certificate of insurance the following coverages and indicate the policy aggregate limit applying to: premises and operations; broad form contractual; independent Lessees and subcontractors; products and completed operations; and professional liability.

(iii) **Automobile Liability** insurance with a minimum limit of liability per occurrence of \$1,000,000 for bodily injury and \$100,000 for property damage or \$1,000,000 combined single limit. This insurance shall cover any automobile for bodily injury and property damage.

If at any time any of said policies shall be unsatisfactory to the Lessor, as to form or substance, or if a company issuing such policy shall be unsatisfactory to the Lessor, the Lessee shall promptly obtain a new policy, submit the same to the Risk Manager for approval and submit a certificate thereof as hereinabove provided. Upon failure of the Lessee to furnish, deliver or maintain such insurance and certificates as above provided, this Lease, at the election of the Lessor, may be forthwith declared suspended, or terminated. Failure of the Lessee to obtain and/or maintain any required insurance shall not relieve the Lessee from any liability under this Lease, nor shall the insurance requirements be construed to conflict with or otherwise limit the obligations of the Lessee concerning indemnification. The Lessor, its agents, officers, employees, and volunteers shall be named as an additional insured on all insurance policies required herein, except Workers' Compensation. The Workers' Compensation insurer shall agree to waive all rights of subrogation against the Lessor, its agents, officers, employees, and volunteers for losses arising from work performed by Lessee for the Lessor. The Lessee's insurance policy(ies) shall include a provision that the coverage is primary as respects the Lessor; shall include no special limitations to coverage provided to additional insured; and, shall be placed with insurer(s) with acceptable Best's rating of A:VII or with approval of the Risk Manager. The Lessee must deliver certificates evidencing existence of the insurance called for in the contract specifications to the City of Modesto Clerk at the time the contract is signed.

(b) **Carried by Lessor.** Lessor shall maintain liability insurance as described in Paragraph 8.2(a), in addition to, and not in lieu of, the insurance required to be maintained by Lessee. Lessee shall not be named as an additional insured therein.

8.3 Property Insurance - Building, Improvements and Rental Value.

(a) **Building and Improvements.** Lessor shall obtain and keep in force a policy or policies of insurance in the name of Lessor, with loss payable to Lessor, any ground-lessor, and to any Lender insuring loss or damage to the Premises. The amount of such insurance shall be equal to the full replacement cost of the Premises, as the same shall exist from time to time, or the amount required by any Lender, but in no event more than the commercially reasonable and available insurable value thereof. If Lessor is the Insuring Party, however, Lessee Owned Alterations and Utility Installations, Trade Fixtures, and Lessee's personal property shall be insured by Lessee under Paragraph 8.4 rather than by Lessor. If the coverage is available and commercially appropriate, such policy or policies shall insure against all risks of direct physical loss or damage (except the perils of flood and/or earthquake unless required by a Lender), including coverage for debris removal and the enforcement of any Applicable Requirements requiring the upgrading, demolition, reconstruction or replacement of any portion of the Premises as the result of a covered loss. Said policy or policies shall also contain an agreed

valuation provision in lieu of any coinsurance clause, waiver of subrogation, and inflation guard protection causing an increase in the annual property insurance coverage amount by a factor of not less than the adjusted U.S. Department of Labor Consumer Price Index for All Urban Consumers for the city nearest to where the Premises are located. If such insurance coverage has a deductible clause, the deductible amount shall not exceed \$1,000 per occurrence, and Lessee shall be liable for such deductible amount in the event of an insured Loss.

(b) **Rental Value.** The insuring Party shall obtain and keep in force a policy or policies in the name of Lessor with loss payable to Lessor and any Lender, insuring the loss of the full Rent for one year with an extended period of indemnity for an additional 180 days ("Rental Value range"). Said insurance shall contain an agreed valuation provision in lieu of any coinsurance clause, and the amount of coverage shall be adjusted annually to reflect the projected Rent otherwise payable by Lessee, for the next 12 month period. Lessee shall be liable for any deductible amount in the event of such loss.

(c) **Adjacent Premises.** If the Premises are part of a larger building, or of a group of buildings owned by Lessor which are adjacent to the Premises, the Lessee shall pay for any increase in the premiums for the property insurance of the such building or buildings if said increase is caused by Lessee's acts, omissions, use or occupancy of the Premises.

8.4 Lessee's Property; Business Interruption Insurance.

(a) **Property Damage.** Lessee shall obtain and maintain insurance coverage on all of Lessee's personal property, Trade Fixtures, and Lessee Owned Alterations and Utility Installations. Such insurance shall be full replacement cost coverage with a deductible of not to exceed \$1,000 per occurrence. The proceeds from any such insurance shall be used by Lessee for the replacement of personal property, Trade Fixtures and Lessee Owned Alterations and Utility Installations. Lessee shall provide Lessor with written evidence that such insurance is in force.

(b) **Business Interruption.** Lessee shall obtain and maintain loss of income and extra expense insurance in amounts as will reimburse Lessee for direct or indirect loss of earnings attributable to all perils commonly insured against by prudent lessees in the business of Lessee or attributable to prevention of access to the Premises as a result of such perils.

(c) **No Representation of Adequate Coverage.** Lessor makes no representation that the limits or forms of coverage of insurance specified herein are adequate to cover Lessee's property, business operations or obligations under this Lease.

8.5 **Insurance Policies.** Insurance required herein shall be by companies duly licensed or admitted to transact business in the state where the Premises are located, and maintaining during the policy term a "General Policyholders Rating" of at least B+, V, as set forth in the most current issue of "Best's Insurance Guide", or such other rating as may be required by a Lender. Lessee shall not do or permit to be done anything which invalidates the required insurance policies. Lessee shall, prior to the Start Date, deliver to Lessor certified copies of policies of such insurance or certificates evidencing the existence and amounts of the required insurance. No such policy shall be cancelable or subject to modification except after 30 days prior written notice to Lessor. Lessee shall, at least 30 days prior to the expiration of such policies, furnish Lessor with evidence of renewals or "insurance binders" evidencing renewal thereof, or Lessor may order such insurance and charge the cost thereof to Lessee, which amount shall be payable by Lessee to Lessor upon demand. Such policies shall be for a term of at least one year, or the length of the remaining term of this Lease, whichever is less. If either Party shall fail to procure and maintain the insurance required to be carried by it, the other Party may, but shall not be required to, procure and maintain the same.

8.6 **Waiver of Subrogation.** Without affecting any other rights or remedies, Lessee and Lessor each hereby release and relieve the other, and waive their entire right to recover damages against the other, for loss of or damage to its property arising out of or incident to the perils required to be insured against herein. The effect of such releases and waivers is not limited by the amount of insurance carried or required, or by any deductibles applicable hereto. The Parties agree to have their respective property damage insurance carriers waive any right to subrogation that such companies may have against Lessor or Lessee, as the case may be, so long as the insurance is not invalidated thereby.

8.7 **Indemnity.** Lessee, its agents, officers and employees shall defend, indemnify, and hold harmless Lessor, its agents, officers, and employees from and against all claims, damages, losses, judgment, liabilities, expenses, and other costs including litigation costs and attorney's fees from every cause, including but not limited to injury to person or property or wrongful death arising directly or indirectly out of any act or omission of Lessee whether or not the act or omission arises from the sole negligence or other liability of Lessor, or its agents, officers, and employees or volunteers relating to or during the performance of its obligations under this Lease.

Lessee's obligation to defend, indemnify, and hold the Lessor, its agents, officers, and employees harmless under the provisions of this paragraph is not limited to or restricted by any requirement in this Lease for Lessee to procure and maintain a policy of insurance.

8.8 **Exemption of Lessor from Liability.** Lessor shall not be liable for injury or damage to the person or goods, wares, merchandise or other property of Lessee, Lessee's employees, contractors, invitees, customers, or any other person in or about the Premises, whether such damage or injury is caused by or results from fire, steam, electricity, gas, water or rain, or from the breakage, leakage, obstruction or other defects of pipes, fire sprinklers, wires, appliances, plumbing, HVAC or lighting fixtures, or from any other cause, whether the said injury or damage results from conditions arising on the Premises or upon other portions of the Building, or from other sources or places. Lessor shall not be liable for any damages arising from any act or act of any other tenant of Lessor nor from the failure of Lessor to enforce the provisions of any other lease in the Property. Notwithstanding Lessor's negligence or breach of this Lease, Lessor shall under no circumstances be liable for injury to Lessee's business or for any loss of income or profit therefrom.

8.9 **Failure to Provide Insurance.** Lessee acknowledges that any failure on its part to obtain or maintain the insurance required herein will expose Lessor to risks and potentially cause Lessor to incur costs not contemplated by this Lease, the extent of which will be extremely difficult to ascertain. Accordingly, for any month or portion thereof that Lessee does not maintain the required insurance and/or does not provide Lessor with the required binders or certificates evidencing the existence of the required insurance, the Base Rent shall be automatically increased, without any requirement for notice to Lessee, by an amount equal to 10% of the then existing Base Rent or \$100, whichever is greater. The parties agree that such increase in Base Rent represents fair and reasonable compensation for the additional risk/costs that Lessor will incur by reason of Lessee's failure to maintain the required insurance. Such increase in Base Rent shall in no event constitute a waiver of Lessee's Default or Breach with respect to the failure to maintain such insurance, prevent the exercise of any of the other rights and remedies granted hereunder, nor relieve Lessee of its obligation to maintain the insurance specified in this Lease.

9. Damage or Destruction.

9.1 Definitions.

(a) **"Premises Partial Damage"** shall mean damage or destruction to the improvements on the Premises, other than Lessee Owned Alterations and Utility Installations, which can reasonably be repaired in 3 months or less from the date of the damage or destruction, and the cost thereof does not exceed a sum equal to 6 month's Base Rent. Lessor shall notify Lessee in writing within 30 days from the date of the damage or destruction as to whether or not the damage is Partial or Total.

(b) **"Premises Total Destruction"** shall mean damage or destruction to the improvements on the Premises, other than Lessee Owned Alterations and Utility Installations and Trade Fixtures, which cannot reasonably be repaired in 3 months or less from the date of the damage or destruction and/or the cost thereof exceeds a sum equal to 6 month's Base Rent. Lessor shall notify Lessee in writing within 30 days from the date of the damage or destruction as to whether or not the damage is Partial or Total.

(c) **"Insured Loss"** shall mean damage or destruction to improvements on the Premises, other than Lessee Owned Alterations and Utility Installations and Trade Fixtures, which was caused by an event required to be covered by the insurance described in Paragraph 8.3(a), irrespective of any deductible amounts or coverage limits involved.

(d) **"Replacement Cost"** shall mean the cost to repair or rebuild the improvements owned by Lessor at the time of the occurrence to their condition existing immediately prior thereto, including demolition, debris removal and upgrading required by the operation of Applicable Requirements, and without deduction for depreciation.

(e) **"Hazardous Substance Condition"** shall mean the occurrence or discovery of a condition involving the presence of, or a contamination by, a Hazardous Substance as defined in Paragraph 6.2(a), in, on, or under the Premises which requires repair, remediation, or restoration.

9.2 **Partial Damage - Insured Loss.** If a Premises Partial Damage that is an Insured Loss occurs, then Lessor shall, at Lessor's expense, repair such damage (but not Lessee's Trade Fixtures or Lessee Owned Alterations and Utility Installations) as soon as reasonably possible and this Lease shall continue in full force and effect; provided, however, that Lessee shall, at Lessor's election, make the repair of any damage or destruction the total cost to repair of which is \$10,000 or less, and, in such event, Lessor shall make any applicable insurance proceeds available to Lessee on a reasonable basis for that purpose. Notwithstanding the foregoing, if the required insurance was not in force or the insurance proceeds are not sufficient to effect such repair, the Insuring Party shall promptly contribute the shortage in proceeds (except as to the deductible which is Lessee's responsibility) as and when required to complete said repairs. In the event, however, such shortage was due to the fact that, by reason of the unique nature of the improvements, full replacement cost insurance coverage was not commercially reasonable and available, Lessor shall have no obligation to pay for the shortage in insurance proceeds or to fully restore the unique aspects of the Premises unless Lessee provides Lessor with the funds to cover same, or adequate assurance thereof, within 10 days following receipt of written notice of such shortage and request therefor. If Lessor receives said funds or adequate assurance thereof within said 10 day period, the party responsible for making the repairs shall complete them as soon as reasonably possible and this Lease shall remain in full force and effect. If such funds or assurance are not received, Lessor may nevertheless elect by written notice to Lessee within 10 days thereafter to: (i) make such repair and repair as is commercially reasonable with Lessor paying any shortage in proceeds, in which case this Lease shall remain in full force and effect, or (ii) have this Lease terminate 30 days thereafter. Lessee shall not be entitled to reimbursement of any funds contributed by Lessee to repair any such damage or destruction. Premises Partial Damage due to flood or earthquake shall be subject to Paragraph 9.3, notwithstanding that there may be some insurance coverage, but the net proceeds of any such insurance shall be made available for the repairs if made by either Party.

9.3 **Partial Damage - Uninsured Loss.** If a Premises Partial Damage that is not an Insured Loss occurs, unless caused by a negligent or willful act of Lessee (in which event Lessee shall make the repairs at Lessee's expense), Lessor may either: (i) repair such damage as soon as reasonably

possible at Lessor's expense, in which event this Lease shall continue in full force and effect, or (ii) terminate this Lease by giving written notice to Lessee within 30 days after receipt by Lessor of knowledge of the occurrence of such damage. Such termination shall be effective 60 days following the date of such notice. In the event Lessor elects to terminate this Lease, Lessee shall have the right within 10 days after receipt of the termination notice to give written notice to Lessor of Lessee's commitment to pay for the repair of such damage without reimbursement from Lessor. Lessee shall provide Lessor with said funds or satisfactory assurance thereof within 30 days after making such commitment. In such event this Lease shall continue in full force and effect, and Lessor shall proceed to make such repairs as soon as reasonably possible after the required funds are available. If Lessee does not make the required commitment, this Lease shall terminate as of the date specified in the termination notice.

9.4 **Total Destruction.** Notwithstanding any other provision hereof, if a Premises Total Destruction occurs, this Lease shall terminate 60 days following such Destruction. If the damage or destruction was caused by the gross negligence or willful misconduct of Lessee, Lessor shall have the right to recover Lessor's damages from Lessee, except as provided in Paragraph 8.6.

9.5 **Damage Near End of Term.** If at any time during the last 6 months of this Lease there is damage for which the cost to repair exceeds one month's Base Rent, whether or not an insured Loss, Lessor may terminate this Lease effective 60 days following the date of occurrence of such damage by giving a written termination notice to Lessee within 30 days after the date of occurrence of such damage. Notwithstanding the foregoing, if Lessee at that time has an exercisable option to extend this Lease or to purchase the Premises, then Lessee may preserve this Lease by, (a) exercising such option and (b) providing Lessor with any shortage in insurance proceeds (or adequate assurance thereof) needed to make the repairs on or before the earlier of (i) the date which is 10 days after Lessee's receipt of Lessor's written notice purporting to terminate this Lease, or (ii) the day prior to the date upon which such option expires. If Lessee duly exercises such option during such period and provides Lessor with funds (or adequate assurance thereof) to cover any shortage in insurance proceeds, Lessor shall, at Lessor's commercially reasonable expense, repair such damage as soon as reasonably possible and this Lease shall continue in full force and effect. If Lessee fails to exercise such option and provide such funds or assurance during such period, then this Lease shall terminate on the date specified in the termination notice and Lessee's option shall be extinguished.

9.6 **Abatement of Rent; Lessee's Remedies.**

(a) **Abatement.** In the event of Premises Partial Damage or Premises Total Destruction or a Hazardous Substance Condition for which Lessee is not responsible under this Lease, the Rent payable by Lessee for the period required for the repair, remediation or restoration of such damage shall be abated in proportion to the degree to which Lessee's use of the Premises is impaired, but not to exceed the proceeds received from the Rental Value insurance. All other obligations of Lessee hereunder shall be performed by Lessee, and Lessor shall have no liability for any such damage, destruction, remediation, repair or restoration except as provided herein.

(b) **Remedies.** If Lessor shall be obligated to repair or restore the Premises and does not commence, in a substantial and meaningful way, such repair or restoration within 90 days after such obligation shall accrue, Lessee may, at any time prior to the commencement of such repair or restoration, give written notice to Lessor and to any Lenders of which Lessee has actual notice, of Lessee's election to terminate this Lease on a date not less than 60 days following the giving of such notice. If Lessee gives such notice and such repair or restoration is not commenced within 30 days thereafter, this Lease shall terminate as of the date specified in said notice. If the repair or restoration is commenced within such 30 days, this Lease shall continue in full force and effect. "Commence" shall mean either the unconditional authorization of the preparation of the required plans, or the beginning of the actual work on the Premises, whichever first occurs.

9.7 **Termination; Advance Payments.** Upon termination of this Lease pursuant to Paragraph 6.2(g) or Paragraph 9, an equitable adjustment shall be made concerning advance Base Rent and any other advance payments made by Lessee to Lessor. Lessor shall, in addition, return to Lessee so much of Lessee's Security Deposit as has not been, or is not then required to be, used by Lessor.

9.8 **Waive Statutes.** Lessor and Lessee agree that the terms of this Lease shall govern the effect of any damage to or destruction of the Premises with respect to the termination of this Lease and hereby waive the provisions of any present or future statute to the extent inconsistent herewith.

10. **Real Property Taxes.**

10.1 **Definition.** As used herein, the term "Real Property Taxes" shall include any form of assessment; real estate, general, special, ordinary or extraordinary, or rental levy or tax (other than inheritance, personal income or estate taxes); improvement bond; and/or license fee imposed upon or levied against any legal or equitable interest of Lessor in the Premises or Property, Lessor's right to other income therefrom, and/or Lessor's business of leasing, by any authority having the direct or indirect power to tax and where the funds are generated with reference to the Building address and where the proceeds so generated are to be applied by the city, county or other local taxing authority of a jurisdiction within which the Property is located. Real Property Taxes shall also include any tax, fee, levy, assessment or charge, or any increase therein; (i) imposed by reason of events occurring during the term of this Lease, including but not limited to, a change in the ownership of the Premises, and (ii) levied or assessed on machinery or equipment provided by Lessor to Lessee pursuant to this Lease.

10.2 **Payment of Taxes.** In addition to Base Rent, Lessee shall pay to Lessor an amount equal to the Real Property Tax installment due at lease 20 days prior to the applicable delinquency date. If any such installment shall cover any period of time prior to or after the expiration or termination of this Lease, Lessee's share of such installment shall be prorated. In the event Lessee incurs a late charge on any Rent payment, Lessor may estimate the current Real Property Taxes, and require that such taxes be paid in advance to Lessor by Lessee monthly in advance with the payment of the Base Rent. Such monthly payments shall be an amount equal to the amount of the estimated installment of taxes divided by the number of months remaining before the month in which said installment becomes delinquent. When the actual amount of the applicable tax bill is known, the amount of such equal monthly advance payments shall be adjusted as required to provide the funds needed to pay the applicable taxes. If the amount collected by Lessor is insufficient to pay such Real Property Taxes when due, Lessee shall pay Lessor, upon demand, such additional sum as is necessary. Advance payments may be intermingled with other moneys of Lessor and shall not bear interest. In the event of a Breach by Lessee in the performance of its obligations under this Lease, then any such advance payments may be treated by Lessor as an additional Security Deposit.

10.3 **Joint Assessment.** If the Building is not separately assessed, Real Property Taxes allocated to the Building shall be an equitable proportion of the Real Property Taxes for all of the land and improvements included within the tax parcel assessed, such proportion to be determined by Lessor from the respective valuations assigned in the assessor's work sheets or such other information as may be reasonably available. Lessor's reasonable determination thereof, in good faith, shall be conclusive.

10.4 **Personal Property Taxes.** Lessee shall pay prior to delinquency all taxes assessed against and levied upon Lessee Owned Alterations and Utility Installations, Trade Fixtures, furnishings, equipment and all personal property of Lessee contained in the Premises. When possible, Lessee shall cause its Lessee Owned Alterations and Utility Installations, Trade Fixtures, furnishings, equipment and all other personal property to be assessed and billed separately from the real property of Lessor. If any of Lessee's said property shall be assessed with Lessor's real property, Lessee shall pay Lessor the taxes attributable to Lessee's property within 10 days after receipt of a written statement setting forth the taxes applicable to Lessee's property.

11. **Utilities.** Lessee shall pay for all water, gas, heat, light, power, telephone, trash disposal and other utilities and services supplied to the Premises, together with any taxes thereon. If any such services are not separately metered or billed to Lessee, Lessee shall pay a reasonable proportion, to be determined by Lessor, of all charges jointly metered or billed. There shall be no abatement of rent and Lessor shall not be liable in any respect whatsoever for the inadequacy, stoppage, interruption or discontinuance of any utility or service due to riot, strike, labor dispute, breakdown, accident, repair or other cause beyond Lessor's reasonable control or in cooperation with governmental request or directions.

12. **Assignment and Subletting.**

12.1 **Lessor's Consent Required.**

(a) Lessee shall not voluntarily or by operation of law assign, transfer, mortgage or encumber (collectively, "assign or assignment") or sublet all or any part of Lessee's interest in this Lease or in the Premises without Lessor's prior written consent.

(b) Unless Lessee is a corporation and its stock is publicly traded on a national stock exchange, a change in the control of Lessee shall constitute an assignment requiring consent. The transfer, on a cumulative basis, of 25% or more of the voting control of Lessee shall constitute a change in control for this purpose.

(c) The involvement of Lessee or its assets in any transaction, or series of transactions (by way of merger, sale, acquisition, financing, transfer, leveraged buy-out or otherwise), whether or not a formal assignment or hypothecation of this Lease or Lessee's assets occurs, which results or will result in a reduction of the Net Worth of Lessee by an amount greater than 25% of such Net Worth as it was represented at the time of the execution of this Lease or at the time of the most recent assignment to which Lessor has consented, or as it exists immediately prior to said transaction or transactions constituting such reduction, whichever was or is greater, shall be considered an assignment of this Lease to which Lessor may withhold its consent. "Net Worth of Lessee" shall mean the net worth of Lessee (excluding any guarantors) established under generally accepted accounting principles.

(d) An assignment or subletting without consent shall, at Lessor's option, be a Default curable after notice per Paragraph 13.1(c), or a noncurable Breach without the necessity of any notice and grace period. If Lessor elects to treat such unapproved assignment or subletting as a noncurable Breach, Lessor may either: (i) terminate this Lease, or (ii) upon 30 days written notice, increase the monthly Base Rent to 110% of the Base Rent then in effect. Further, in the event of such Breach and rental adjustment, (i) the purchase price of any option to purchase the Premises held by Lessee shall be subject to similar adjustment to 110% of the price previously in effect, and (ii) all fixed and non-fixed rental adjustments scheduled during the remainder of the Lease term shall be increased to 110% of the scheduled adjusted rent.

(e) Lessee's remedy for any breach of Paragraph 12.1 by Lessor shall be limited to compensatory damages and/or injunctive relief.

12.2 **Terms and Conditions Applicable to Assignment and Subletting.**

(a) Regardless of Lessor's consent, no assignment or subletting shall: (i) be effective without the express written assumption by such assignee or sublessee of the obligations of Lessee under this Lease, (ii) release Lessee of any obligations hereunder, or (iii) alter the primary liability of Lessee for the payment of Rent or for the performance of any other obligations to be performed by Lessee.

(b) Lessor may accept Rent or performance of Lessee's obligations from any person other than Lessee pending approval or disapproval of an assignment. Neither a delay in the approval or disapproval of such assignment nor the acceptance of Rent or performance shall constitute a waiver or estoppel of Lessor's right to exercise its remedies for Lessee's Default or Breach.

(c) Lessor's consent to any assignment or subletting shall not constitute a consent to any subsequent assignment or subletting.

(d) In the event of any Default or Breach by Lessee, Lessor may proceed directly against Lessee, any Guarantors or anyone else responsible for the performance of Lessee's obligations under this Lease, including any assignee or sublessee, without first exhausting Lessor's remedies against any other person or entity responsible therefore to Lessor, or any security held by Lessor.

(e) Each request for consent to an assignment or subletting shall be in writing, accompanied by information relevant to Lessor's determination as to the financial and operational responsibility and appropriateness of the proposed assignee or sublessee, including but not limited to the intended use and/or required modification of the Premises, if any, together with a fee of \$500 as consideration for Lessor's considering and processing said request. Lessee agrees to provide Lessor with such other or additional information and/or documentation as may be reasonably requested. (See also Paragraph 36)

(f) Any assignee of, or sublessee under, this Lease shall, by reason of accepting such assignment or entering into such sublease, be deemed to have assumed and agreed to conform and comply with each and every term, covenant, condition and obligation herein to be observed or performed by Lessee during the term of said assignment or sublease, other than such obligations as are contrary to or inconsistent with provisions of an assignment or sublease to which Lessor has specifically consented to in writing.

(g) Lessor's consent to any assignment or subletting shall not transfer to the assignee or sublessee any Option granted to the original Lessee by this Lease unless such transfer is specifically consented to by Lessor in writing. (See Paragraph 39.2)

12.3 Additional Terms and Conditions Applicable to Subletting. The following terms and conditions shall apply to any subletting by Lessee of all or any part of the Premises and shall be deemed included in all subleases under this Lease whether or not expressly incorporated therein:

(a) Lessee hereby assigns and transfers to Lessor all of Lessee's interest in all Rent payable on any sublease, and Lessor may collect such Rent and apply same toward Lessee's obligations under this Lease; provided, however, that until a Breach shall occur in the performance of Lessee's obligations, Lessee may collect said Rent. In the event that the amount collected by Lessor exceeds Lessee's obligations any such excess shall be refunded to Lessee. Lessor shall not, by reason of the foregoing or any assignment of such sublease, nor by reason of the collection of Rent, be deemed liable to the sublessee for any failure of Lessee to perform and comply with any of Lessee's obligations to such sublessee. Lessee hereby irrevocably authorizes and directs any such sublessee, upon receipt of a written notice from Lessor stating that a Breach exists in the performance of Lessee's obligations under this Lease, to pay to Lessor all Rent due and to become due under the sublease. Sublessee shall rely upon any such notice from Lessor and shall pay all Rents to Lessor without any obligation or right to inquire as to whether such Breach exists, notwithstanding any claim from Lessee to the contrary.

(b) In the event of a Breach by Lessee, Lessor may, at its option, require sublessee to atorn to Lessor, in which event Lessor shall undertake the obligations of the sublessor under such sublease from the time of the exercise of said option to the expiration of such sublease; provided, however, Lessor shall not be liable for any prepaid rents or security deposit paid by such sublessee to such sublessor or for any prior Defaults or Breaches of such sublessor.

(c) Any matter requiring the consent of the sublessor under a sublease shall also require the consent of Lessor.

(d) No sublessee shall further assign or sublet all or any part of the Premises without Lessor's prior written consent.

(e) Lessor shall deliver a copy of any notice of Default or Breach by Lessee to the sublessee, who shall have the right to cure the Default of Lessee within the grace period, if any, specified in such notice. The sublessee shall have a right of reimbursement and offset from and against Lessee for any such Defaults cured by the sublessee.

13. Default; Breach; Remedies.

13.1 Default; Breach. A "Default" is defined as a failure by the Lessee to comply with or perform any of the terms, covenants, conditions or Rules and Regulations under this Lease. A "Breach" is defined as the occurrence of one or more of the following Defaults, and the failure of Lessee to cure such Default within any applicable grace period:

(a) The abandonment of the Premises; or the vacating of the Premises without providing a commercially reasonable level of security, or where the coverage of the property insurance described in Paragraph 8.3 is jeopardized as a result thereof, or without providing reasonable measures to minimize potential vandalism.

(b) The failure of Lessee to make any payment of Rent or any Security Deposit required to be made by Lessee hereunder, whether to Lessor or to a third party, when due, to provide reasonable evidence of insurance or surety bond, or to fulfill any obligation under this Lease which endangers or threatens life or property, where such failure continues for a period of 3 business days following written notice to Lessee.

(c) The failure by Lessee to provide (i) reasonable written evidence of compliance with Applicable Requirements, (ii) the security contracts, (iii) the rescission of an unauthorized assignment or subletting, (iv) an Estoppel Certificate, (v) a requested subordination, (vi) evidence concerning any guaranty and/or Guarantor, (vii) any document requested under Paragraph 41 (easements), or (viii) any other documentation or information which Lessor may reasonably require of Lessee under the terms of this Lease, where any such failure continues for a period of 10 days following written notice to Lessee.

(d) A Default by Lessee as to the terms, covenants, conditions or provisions of this Lease, or of the rules adopted under Paragraph 2.9 hereof, other than those described in subparagraphs 13.1(a), (b) or (c), above, where such Default continues for a period of 30 days after written notice; provided, however, that if the nature of Lessee's Default is such that more than 30 days are reasonably required for its cure, then it shall not be deemed to be a Breach if Lessee commences such cure within said 30 day period and thereafter diligently prosecutes such cure to completion.

(e) The occurrence of any of the following events: (i) the making of any general arrangement or assignment for the benefit of creditors; (ii) becoming a "debtor" as defined in 11 U.S.C. § 101 or any successor statute thereto (unless, in the case of a petition filed against Lessee, the same is dismissed within 60 days); (iii) the appointment of a trustee or receiver to take possession of substantially all of Lessee's assets located at the Premises or of Lessee's interest in this Lease, where possession is not restored to Lessee within 30 days; or (iv) the attachment, execution or other judicial seizure of substantially all of Lessee's assets located at the Premises or of Lessee's interest in this Lease, where such seizure is not discharged within 30 days; provided, however, in the event that any provision of this subparagraph (e) is contrary to any applicable law, such provision shall be of no force or effect, and not affect the validity of the remaining provisions.

(f) The discovery that any financial statement of Lessee or of any Guarantor given to Lessor was materially false.

(g) If the performance of Lessee's obligations under this Lease is guaranteed: (i) the death of a Guarantor, (ii) the termination of a Guarantor's liability with respect to this Lease other than in accordance with the terms of such guaranty, (iii) a Guarantor's becoming insolvent or the subject of a bankruptcy filing, (iv) a Guarantor's refusal to honor the guaranty, or (v) a Guarantor's breach of its guaranty obligation on an anticipatory basis, and Lessee's failure, within 60 days following written notice of any such event, to provide written alternative assurance or security, which, when coupled with the then existing resources of Lessee, equals or exceeds the combined financial resources of Lessee and the Guarantors that existed at the time of execution of this Lease.

13.2 Remedies. If Lessee fails to perform any of its affirmative duties or obligations, within 10 days after written notice (or in case of an emergency, without notice), Lessor may, at its option, perform such duty or obligation on Lessee's behalf, including but not limited to the obtaining of reasonably required bonds, insurance policies, or governmental licenses, permits or approvals. The costs and expenses of any such performance by Lessor shall be due and payable by Lessee upon receipt of invoice therefor. If any check given to Lessor by Lessee shall not be honored by the bank upon which it is drawn, Lessor, at its option, may require all future payments to be made by Lessee to be by cashier's check. In the event of a Breach, Lessor may, with or without further notice or demand, and without limiting Lessor in the exercise of any right or remedy which Lessor may have by reason of such Breach:

(a) Terminate Lessee's right to possession of the Premises by any lawful means, in which case this Lease shall terminate and Lessee shall immediately surrender possession to Lessor. In such event Lessor shall be entitled to recover from Lessee: (i) the unpaid Rent which had been earned at the time of termination; (ii) the worth at the time of award of the amount by which the unpaid rent which would have been earned after termination until the time of award exceeds the amount of such rental loss that the Lessee proves could have been reasonably avoided; (iii) the worth at the time of award of the amount by which the unpaid rent for the balance of the term after the time of award exceeds the amount of such rental loss that the Lessee proves could be reasonably avoided; and (iv) any other amount necessary to compensate Lessor for all the detriment proximately caused by the Lessee's failure to perform its obligations under this Lease or which in the ordinary course of things would be likely to result therefrom, including but not limited to the cost of recovering possession of the Premises, expenses of reletting, including necessary renovation and alteration of the Premises, reasonable attorneys' fees, and that portion of any leasing commission paid by Lessor in connection with this Lease applicable to the unexpired term of this lease. The worth at the time of award of the amount referred to in provision (iii) of the immediately preceding sentence shall be computed by discounting the amount at the discount rate of the Federal Reserve Bank of the District within which the Premises are located at the time of award plus one percent. Lessor shall not waive Lessor's right to recover damages under Paragraph 12. If the termination of this Lease is obtained through the provisional remedy of unlawful detainer, Lessor shall have the right to recover in such proceeding any unpaid Rent and damages as are recoverable therein, or Lessor may reserve the right to recover all or any part thereof in a separate suit. If a notice and grace period required under Paragraph 13.1 was not previously given, a notice to pay rent or quit, or to perform or quit given to Lessee under the unlawful detainer statute shall also constitute the notice required by Paragraph 13.1. In such case, the applicable grace period required by Paragraph 13.1 and the

unlawful detainer statute shall run concurrently, and the failure of Lessee to cure the Default within the greater of the two such grace periods shall constitute both an unlawful detainer and a Breach of this Lease entitling Lessor to the remedies provided for in this Lease and/or by said statute.

(b) Continue the Lease and Lessee's right to possession and recover the Rent as it becomes due, in which event Lessee may sublet or assign, subject only to reasonable limitations. Acts of maintenance, efforts to relet, and/or the appointment of a receiver to protect the Lessor's interests, shall not constitute a termination of the Lessee's right to possession.

(c) Pursue any other remedy now or hereafter available under the laws or judicial decisions of the state wherein the Premises are located. The expiration or termination of this Lease and/or the termination of Lessee's right to possession shall not relieve Lessee from liability under any indemnity provisions of this Lease as to matters occurring or accruing during the term hereof or by reason of Lessee's occupancy of the Premises.

13.3 Inducement Recapture. Any agreement for free or abated rent or other charges, or for the giving or paying by Lessor to or for Lessee of any cash or other bonus, inducement or consideration for Lessee's entering into this Lease, all of which concessions are hereinafter referred to as "Inducement Provisions", shall be deemed conditioned upon Lessee's full and faithful performance of all of the terms, covenants and conditions of this Lease. Upon Breach of this Lease by Lessee, any such Inducement Provision shall automatically be deemed deleted from this Lease and of no further force or effect, and any rent, other charge, bonus, inducement or consideration theretofore abated, given or paid by Lessor under such an Inducement Provision shall be immediately due and payable by Lessee to Lessor, notwithstanding any subsequent cure of said Breach by Lessee. The acceptance by Lessor of rent or the cure of the Breach which initiated the operation of this paragraph shall not be deemed a waiver by Lessor of the provisions of this paragraph unless specifically so stated in writing by Lessor at the time of such acceptance.

13.4 Late Charges. Lessee hereby acknowledges that late payment by Lessee of Rent will cause Lessor to incur costs not contemplated by this Lease, the exact amount of which will be extremely difficult to ascertain. Such costs include, but are not limited to, processing and accounting charges, and late charges which may be imposed upon Lessor by any Lender. Accordingly, if any Rent shall not be received by Lessor within 5 days after such amount shall be due, then, without any requirement for notice to Lessee, Lessee shall pay to Lessor a one-time late charge equal to 10% of each such overdue amount or \$100, whichever is greater. The parties hereby agree that such late charge represents a fair and reasonable estimate of the costs Lessor will incur by reason of such late payment. Acceptance of such late charge by Lessor shall in no event constitute a waiver of Lessee's Default or Breach with respect to such overdue amount, nor prevent the exercise of any of the other rights and remedies granted hereunder. In the event that a late charge is payable hereunder, whether or not collected, for 3 consecutive installments of Base Rent, then notwithstanding any provision of this Lease to the contrary, Base Rent shall, at Lessor's option, become due and payable quarterly in advance.

13.5 Interest. Any monetary payment due Lessor hereunder, other than late charges, not received by Lessor, when due as to scheduled payments (such as Base Rent) or within 30 days following the date on which it was due for non-scheduled payment, shall bear interest from the date when due, as to scheduled payments, or the 31st day after it was due as to non-scheduled payments. The interest ("Interest") charged shall be computed at the rate of 10% per annum but shall not exceed the maximum rate allowed by law. Interest is payable in addition to the potential late charge provided for in Paragraph 13.4.

13.6 Breach by Lessor.

(a) **Notice of Breach.** Lessor shall not be deemed in breach of this Lease unless Lessor fails within a reasonable time to perform an obligation required to be performed by Lessor. For purposes of this Paragraph, a reasonable time shall in no event be less than 30 days after receipt by Lessor, and any Lender whose name and address shall have been furnished Lessee in writing for such purpose, of written notice specifying wherein such obligation of Lessor has not been performed; provided, however, that if the nature of Lessor's obligation is such that more than 30 days are reasonably required for its performance, then Lessor shall not be in breach if performance is commenced within such 30 day period and thereafter diligently pursued to completion.

(b) **Performance by Lessee on Behalf of Lessor.** In the event that neither Lessor nor Lender cures said breach within 30 days after receipt of said notice, or if having commenced said cure they do not diligently pursue it to completion, then Lessee may elect to cure said breach at Lessee's expense and offset from Rent an amount equal to the greater of one month's Base Rent or the Security Deposit, and to pay an excess of such expense under protest, reserving Lessee's right to reimbursement from Lessor. Lessee shall document the cost of said cure and supply said documentation to Lessor.

14. Condemnation. If the Premises or any portion thereof are taken under the power of eminent domain or sold under the threat of the exercise of said power (collectively "Condemnation"), this Lease shall terminate as to the part taken as of the date the condemning authority takes title or possession, whichever first occurs. If more than 10% of the floor area of the Unit, or more than 25% of Lessee's Reserved Parking Spaces, is taken by Condemnation, Lessee may, at Lessee's option, to be exercised in writing within 10 days after Lessor shall have given Lessee written notice of such taking (or in the absence of such notice, within 10 days after the condemning authority shall have taken possession) terminate this Lease as of the date the condemning authority takes such possession. If Lessee does not terminate this Lease in accordance with the foregoing, this Lease shall remain in full force and effect as to the portion of the Premises remaining, except that the Base Rent shall be reduced in proportion to the reduction in utility of the Premises caused by such Condemnation. Condemnation awards and/or payments shall be the property of Lessor, whether such award shall be made as compensation for diminution in value of the leasehold, the value of the part taken, or for severance damages; provided, however, that Lessee shall be entitled to any compensation for Lessee's relocation expenses, loss of business goodwill and/or Trade Fixtures, without regard to whether or not this Lease is terminated pursuant to the provisions of this Paragraph. All Alterations and Utility Installations made to the Premises by Lessee, for purposes of Condemnation only, shall be considered the property of the Lessee and Lessee shall be entitled to any and all compensation which is payable therefor. In the event that this Lease is not terminated by reason of the Condemnation, Lessor shall repair any damage to the Premises caused by such Condemnation.

15. Brokerage Fees.

15.1 Additional Commission. In addition to the payments owed pursuant to Paragraph 1.9 above, and unless Lessor and the Brokers otherwise agree in writing, Lessor agrees that: (a) if Lessee exercises any Option, (b) if Lessee acquires any rights to the Premises or other premises owned by Lessor and located within the same Property, if any, within which the Premises is located, (c) if Lessee remains in possession of the Premises, with the consent of Lessor, after the expiration of this Lease, or (d) if Base Rent is increased, whether by agreement or operation of an escalation clause herein, then, Lessor shall pay Brokers a fee in accordance with the schedule of the Brokers in effect at the time of the execution of this Lease.

15.2 Assumption of Obligations. Any buyer or transferee of Lessor's interest in this Lease shall be deemed to have assumed Lessor's obligation hereunder. Brokers shall be third party beneficiaries of the provisions of Paragraphs 1.10, 15, 22 and 31. If Lessor fails to pay to Brokers any amounts due as and for brokerage fees pertaining to this Lease when due, then such amounts shall accrue interest. In addition, if Lessor fails to pay any amounts to Lessee's Broker when due, Lessee's Broker may send written notice to Lessor and Lessee of such failure and if Lessor fails to pay such amounts within 10 days after said notice, Lessee shall pay said monies to its Broker and offset such amounts against Rent. In addition, Lessee's Broker shall be deemed to be a third party beneficiary of any commission agreement entered into by and/or between Lessor and Lessor's Broker for the limited purpose of collecting any brokerage fee owed.

15.3 Representations and Indemnities of Broker Relationships. Lessee and Lessor each represent and warrant to the other that it has had no dealings with any person, firm, broker or finder (other than the Brokers, if any) in connection with this Lease, and that no one other than said named Brokers is entitled to any commission or finder's fee in connection herewith. Lessee and Lessor do each hereby agree to indemnify, protect, defend and hold the other harmless from and against liability for compensation or charges which may be claimed by any such unnamed broker, finder or other similar party by reason of any dealings or actions of the indemnifying Party, including any costs, expenses, attorneys' fees reasonably incurred with respect thereto.

16. Estoppel Certificates.

(a) Each Party (as "Responding Party") shall within 10 days after written notice from the other Party (the "Requesting Party") execute, acknowledge and deliver to the Requesting Party a statement in writing in form similar to the then most current "Estoppel Certificate" form published by the American Industrial Real Estate Association, plus such additional information, confirmation and/or statements as may be reasonably requested by the Requesting Party.

(b) If the Responding Party shall fail to execute or deliver the Estoppel Certificate within such 10 day period, the Requesting Party may execute an Estoppel Certificate stating that: (i) the Lease is in full force and effect without modification except as may be represented by the Requesting Party, (ii) there are no uncured defaults in the Requesting Party's performance, and (iii) if Lessor is the Requesting Party, not more than one month's rent has been paid in advance. Prospective purchasers and encumbrances may rely upon the Requesting Party's Estoppel Certificate, and the Responding Party shall be estopped from denying the truth of the facts contained in said Certificate.

(c) If Lessor desires to finance, refinance, or sell the Premises, or any part thereof, Lessee and all Guarantors shall deliver to any potential lender or purchaser designated by Lessor such financial statements as may be reasonably required by such lender or purchaser, including but not limited to Lessee's financial statements for the past 3 years. All such financial statements shall be received by Lessor and such lender or purchaser in confidence and shall be used only for the purposes herein set forth.

17. Definition of Lessor. The term "Lessor" as used herein shall mean the owner or owners at the time in question of the fee title to the Premises, or, if this is a sublease, of the Lessee's interest in the prior lease. In the event of a transfer of Lessor's title or interest in the Premises or this Lease, Lessor shall deliver to the transferee or assignee (in cash or by credit) any unused Security Deposit held by Lessor. Except as provided in Paragraph 15, upon such transfer or assignment and delivery of the Security Deposit, as aforesaid, the prior Lessor shall be relieved of all liability with respect to the obligations and/or covenants under this Lease thereafter to be performed by the Lessor. Subject to the foregoing, the obligations and/or covenants in this Lease to be performed by the Lessor shall be binding only upon the Lessor as hereinabove defined.

18. **Severability.** The invalidity of any provision of this Lease, as determined by a court of competent jurisdiction, shall in no way affect the validity of any other provision hereof.

19. **Days.** Unless otherwise specifically indicated to the contrary, the word "days" as used in this Lease shall mean and refer to calendar days.

Limitation on Liability. Subject to the provisions of Paragraph 17 above, the obligations of Lessor under this Lease shall not constitute personal obligations of Lessor, the individual partners of Lessor or its or their individual partners, directors, officers or shareholders, and Lessee shall look to the mises, and to no other assets of Lessor, for the satisfaction of any liability of Lessor with respect to this Lease, and shall not seek recourse against the individual partners of Lessor, or its or their individual partners, directors, officers or shareholders, or any of their personal assets for such satisfaction.

21. **Time of Essence.** Time is of the essence with respect to the performance of all obligations to be performed or observed by the Parties under this Lease.

22. **No Prior or Other Agreements; Broker Disclaimer.** This Lease contains all agreements between the Parties with respect to any matter mentioned herein, and no other prior or contemporaneous agreement or understanding shall be effective. Lessor and Lessee each represents and warrants to the Brokers that it has made, and is relying solely upon, its own investigation as to the nature, quality, character and financial responsibility of the other Party to this Lease and as to the use, nature, quality and character of the Premises. Brokers have no responsibility with respect thereto or with respect to any default or breach hereof by either Party. The liability (including court costs and attorneys' fees), of any Broker with respect to negotiation, execution, delivery or performance by either Lessor or Lessee under this Lease or any amendment or modification hereto shall be limited to an amount up to the fee received by such Broker pursuant to this Lease; provided, however, that the foregoing limitation on each Broker's liability shall not be applicable to any gross negligence or willful misconduct of such Broker.

23. **Notices.**

23.1 **Notice Requirements.** Any and all notices permitted or required to be given hereunder shall be deemed duly given and effective (1) upon actual delivery, if delivery is by hand; or (2) five (5) days after delivery into the United States mail if delivery is by postage paid registered or certified (return receipt requested) mail. Each such notice shall be sent to the parties at the address respectively indicated below or to any other address as the respective parties may designate from time to time.

Either Party may by written notice to the other specify a different address for notice, except that upon Lessee's taking possession of the Premises, the Premises shall constitute Lessee's address for notice. A copy of all notices to Lessor shall be concurrently transmitted to such party or parties at such addresses as Lessor may from time to time hereafter designate in writing.

23.2 **Date of Notice.** Any notice sent by registered or certified mail, return receipt requested, shall be deemed given on the date of delivery shown on the receipt card, or if no delivery date is shown, the postmark thereon. If sent by regular mail the notice shall be deemed given 48 hours after the same is addressed as required herein and mailed with postage prepaid. Notices delivered by United States Express Mail or overnight courier that guarantee next day delivery shall be deemed given 24 hours after delivery of the same to the Postal Service or courier. Notices transmitted by facsimile transmission or similar means shall be deemed delivered upon telephone confirmation of receipt (confirmation report from fax machine is sufficient), provided a copy is also delivered via delivery or mail. If notice is received on a Saturday, Sunday or legal holiday, it shall be deemed received on the next business day.

24. **Waivers.** No waiver by Lessor of the Default or Breach of any term, covenant or condition hereof by Lessee, shall be deemed a waiver of any other term, covenant or condition hereof, or of any subsequent Default or Breach by Lessee of the same or of any other term, covenant or condition hereof. Lessor's consent to, or approval of, any act shall not be deemed to render unnecessary the obtaining of Lessor's consent to, or approval of, any subsequent or similar act by Lessee, or be construed as the basis of an estoppel to enforce the provision or provisions of this Lease requiring such consent. The acceptance of Rent by Lessor shall not be a waiver of any Default or Breach by Lessee. Any payment by Lessee may be accepted by Lessor on account of moneys or damages due Lessor, notwithstanding any qualifying statements or conditions made by Lessee in connection therewith, which such statements and/or conditions shall be of no force or effect whatsoever unless specifically agreed to in writing by Lessor at or before the time of deposit of such payment.

Disclosures Regarding The Nature of a Real Estate Agency Relationship.

(a) When entering into a discussion with a real estate agent regarding a real estate transaction, a Lessor or Lessee should from the outset understand what type of agency relationship or representation it has with the agent or agents in the transaction. Lessor and Lessee acknowledge being advised by the Brokers in this transaction, as follows:

(i) **Lessor's Agent.** A Lessor's agent under a listing agreement with the Lessor acts as the agent for the Lessor only. A Lessor's agent or subagent has the following affirmative obligations: **To the Lessor:** A fiduciary duty of utmost care, integrity, honesty, and loyalty in dealings with the Lessor. **To the Lessee and the Lessor:** (a) Diligent exercise of reasonable skills and care in performance of the agent's duties. (b) A duty of honest and fair dealing and good faith. (c) A duty to disclose all facts known to the agent materially affecting the value or desirability of the property that are not known to, or within the diligent attention and observation of, the Parties. An agent is not obligated to reveal to either Party any confidential information obtained from the other Party which does not involve the affirmative duties set forth above.

(ii) **Lessee's Agent.** An agent can agree to act as agent for the Lessee only. In these situations, the agent is not the Lessor's agent, even if by agreement the agent may receive compensation for services rendered, either in full or in part from the Lessor. An agent acting only for a Lessee has the following affirmative obligations. **To the Lessee:** A fiduciary duty of utmost care, integrity, honesty, and loyalty in dealings with the Lessee. **To the Lessee and the Lessor:** (a) Diligent exercise of reasonable skills and care in performance of the agent's duties. (b) A duty of honest and fair dealing and good faith. (c) A duty to disclose all facts known to the agent materially affecting the value or desirability of the property that are not known to, or within the diligent attention and observation of, the Parties. An agent is not obligated to reveal to either Party any confidential information obtained from the other Party which does not involve the affirmative duties set forth above.

(iii) **Agent Representing Both Lessor and Lessee.** A real estate agent, either acting directly or through one or more associate licenses, can legally be the agent of both the Lessor and the Lessee in a transaction, but only with the knowledge and consent of both the Lessor and the Lessee. In a dual agency situation, the agent has the following affirmative obligations to both the Lessor and the Lessee: (a) A fiduciary duty of utmost care, integrity, honesty and loyalty in the dealings with either Lessor or the Lessee. (b) Other duties to the Lessor and the Lessee as stated above in subparagraphs (i) or (ii). In representing both Lessor and Lessee, the agent may not without the express permission of the respective Party, disclose to the other Party that the Lessor will accept rent in an amount less than that indicated in the listing or that the Lessee is willing to pay a higher rent than that offered. The above duties of the agent in a real estate transaction do not relieve a Lessor or Lessee from the responsibility to protect their own interests. Lessor and Lessee should carefully read all agreements to assure that they adequately express their understanding of the transaction. A real estate agent is a person qualified to advise about real estate. If legal or tax advice is desired, consult a competent professional.

(b) Brokers have no responsibility with respect to any default or breach hereof by either Party. The liability (including court costs and attorneys' fees), of any Broker with respect to any breach of duty, error or omission relating to this Lease shall not exceed the fee received by such Broker pursuant to this Lease; provided, however, that the foregoing limitation on each Broker's liability shall not be applicable to any gross negligence or willful misconduct of such Broker.

(c) Buyer and Seller agree to identify to Brokers as "Confidential" any communication or information given Brokers that is considered by such Party to be confidential.

26. **No Right To Holdover.** Lessee has no right to retain possession of the Premises or any part thereof beyond the expiration or termination of this Lease. In the event that Lessee holds over, then the Base Rent shall be increased to 150% of the Base Rent applicable immediately preceding the expiration or termination. Nothing contained herein shall be construed as consent by Lessor to any holding over by Lessee.

27. **Cumulative Remedies.** No remedy or election hereunder shall be deemed exclusive but shall, wherever possible, be cumulative with all other remedies at law or in equity.

28. **Covenants and Conditions; Construction of Agreement.** All provisions of this Lease to be observed or performed by Lessee are both covenants and conditions. In construing this Lease, all headings and titles are for the convenience of the Parties only and shall not be considered a part of this Lease. Whenever required by the context, the singular shall include the plural and vice versa. This Lease shall not be construed as if prepared by one of the Parties, but rather according to its fair meaning as a whole, as if both Parties had prepared it.

Binding Effect; Choice of Law. This Lease shall be binding upon the parties, their personal representatives, successors and assigns and be governed by the laws of the State in which the Premises are located. Any litigation between the Parties hereto concerning this Lease shall be initiated in the county in which the Premises are located.

30. **Subordination; Attornment; Non-Disturbance.**

30.1 **Subordination.** This Lease and any Option granted hereby shall be subject and subordinate to any ground lease, mortgage, deed of trust, or other hypothecation or security device (collectively, "Security Device"), now or hereafter placed upon the Premises, to any and all advances made on the security thereof, and to all renewals, modifications, and extensions thereof. Lessee agrees that the holders of any such Security Devices (in this Lease together referred to as "Lender") shall have no liability or obligation to perform any of the obligations of Lessor under this Lease. Any Lender may elect to have this Lease and/or any Option granted hereby superior to the lien of its Security Device by giving written notice thereof to Lessee, whereupon this Lease and such Options shall be deemed prior to such Security Device, notwithstanding the relative dates of the documentation or recordation thereof.

30.2 **Attornment.** In the event that Lessor transfers title to the Premises, or the Premises are acquired by another upon the foreclosure or termination of a Security Device to which this Lease is subordinated (i) Lessee shall, subject to the non-disturbance provisions of Paragraph 30.3, attorn to such new owner, and upon request, enter into a new lease, containing all of the terms and provisions of this Lease, with such new owner for the remainder of the term hereof, or, at the election of such new owner, this Lease shall automatically become a new Lease between Lessee and such new owner, upon all of the terms and conditions hereof, for the remainder of the term hereof, and (ii) Lessor shall thereafter be relieved of any further obligations hereunder and such new owner shall assume all of Lessor's obligations hereunder, except that such new owner shall not: (a) be liable for any act or omission of any prior lessor or with respect to events occurring prior to acquisition of ownership; (b) be subject to any offsets or defenses which Lessee might have against any prior lessor, (c) be bound by prepayment of more than one month's rent, or (d) be liable for the return of any security deposit paid to any prior lessor.

30.3 **Non-Disturbance.** With respect to Security Devices entered into by Lessor after the execution of this Lease, Lessee's subordination of this Lease shall be subject to receiving a commercially reasonable non-disturbance agreement (a "Non-Disturbance Agreement") from the Lender which Non-Disturbance Agreement provides that Lessee's possession of the Premises, and this Lease, including any options to extend the term hereof, will not be disturbed so long as Lessee is not in Breach hereof and attorns to the record owner of the Premises. Further, within 60 days after the execution of this Lease, Lessor shall use its commercially reasonable efforts to obtain a Non-Disturbance Agreement from the holder of any pre-existing Security Device which is secured by the Premises. In the event that Lessor is unable to provide the Non-Disturbance Agreement within said 60 days, then Lessee may, at Lessee's option, directly contact Lender and attempt to negotiate for the execution and delivery of a Non-Disturbance Agreement.

30.4 **Self-Executing.** The agreements contained in this Paragraph 30 shall be effective without the execution of any further documents; provided, however, that, upon written request from Lessor or a Lender in connection with a sale, financing or refinancing of the Premises, Lessee and Lessor shall execute such further writings as may be reasonably required to separately document any subordination, attornment and/or Non-Disturbance Agreement provided for herein.

31. **Attorneys' Fees.** If any Party or Broker brings an action or proceeding involving the Premises whether founded in tort, contract or equity, or to declare rights hereunder, the Prevailing Party (as hereafter defined) in any such proceeding, action, or appeal thereon, shall be entitled to reasonable attorneys' fees. Such fees may be awarded in the same suit or recovered in a separate suit, whether or not such action or proceeding is pursued to decision or judgment. The term, "Prevailing Party" shall include, without limitation, a Party or Broker who substantially obtains or defeats the relief sought, as the case may be, whether by compromise, settlement, judgment, or the abandonment by the other Party or Broker of its claim or defense. The attorneys' fees award shall not be computed in accordance with any court fee schedule, but shall be such as to fully reimburse all attorneys' fees reasonably incurred. In addition, Lessor shall be entitled to attorneys' fees, costs and expenses incurred in the preparation and service of notices of Default and consultations in connection therewith, whether or not a legal action is subsequently commenced in connection with such Default or resulting Breach (\$200 is a reasonable minimum per occurrence for such services and consultation).

32. **Lessor's Access; Showing Premises; Repairs.** Lessor and Lessor's agents shall have the right to enter the Premises at any time, in the case of an emergency, and otherwise at reasonable times for the purpose of showing the same to prospective purchasers, lenders, or tenants, and making such alterations, repairs, improvements or additions to the Premises as Lessor may deem necessary. All such activities shall be without abatement of rent or liability to Lessee. Lessor may at any time place on the Premises any ordinary "For Sale" signs and Lessor may during the last 6 months of the term hereof place on the Premises any ordinary "For Lease" signs. Lessee may at any time place on the Premises any ordinary "For Sublease" sign.

33. **Auctions.** Lessee shall not conduct, nor permit to be conducted, any auction upon the Premises without Lessor's prior written consent. Lessor shall not be obligated to exercise any standard of reasonableness in determining whether to permit an auction.

34. **Signs.** Lessor may place on the Premises ordinary "For Sale" signs at any time and ordinary "For Lease" signs during the last 6 months of the term hereof. Except for ordinary "For Sublease" signs, Lessee shall not place any sign upon the Premises without Lessor's prior written consent. All signs must comply with all Applicable Requirements.

35. **Termination; Merger.** Unless specifically stated otherwise in writing by Lessor, the voluntary or other surrender of this Lease by Lessee, the mutual termination or cancellation hereof, or a termination hereof by Lessor for Breach by Lessee, shall automatically terminate any sublease or lesser estate in the Premises; provided, however, that Lessor may elect to continue any one of all existing subtenancies. Lessor's failure within 10 days following any such event to elect to the contrary by written notice to the holder of any such lesser interest, shall constitute Lessor's election to have such event constitute the termination of such interest.

36. **Consents.** Except as otherwise provided herein, wherever in this Lease the consent of a Party is required to an act by or for the other Party, such consent shall not be unreasonably withheld or delayed. Lessor's actual reasonable costs and expenses (including but not limited to architects', attorneys', engineers' and other consultants' fees) incurred in the consideration of, or response to, a request by Lessee for any Lessor consent, including but not limited to consents to an assignment, a subletting or the presence or use of a Hazardous Substance, shall be paid by Lessee upon receipt of an invoice and supporting documentation therefor. Lessor's consent to any act, assignment or subletting shall not constitute an acknowledgment that no Default or Breach by Lessee of this Lease exists, nor shall such consent be deemed a waiver of any then existing Default or Breach, except as may be otherwise specifically stated in writing by Lessor at the time of such consent. The failure to specify herein any particular condition to Lessor's consent shall not preclude the imposition by Lessor at the time of consent of such further or other conditions as are then reasonable with reference to the particular matter for which consent is being given. In the event that either Party disagrees with any determination made by the other hereunder and reasonably requests the reasons for such determination, the determining party shall furnish its reasons in writing and in reasonable detail within 10 business days following such request.

37. **Guarantor.**

37.1 **Execution.** The Guarantors, if any, shall each execute a guaranty in the form most recently published by the American Industrial Real Estate Association, and each such Guarantor shall have the same obligations as Lessee under this Lease.

37.2 **Default.** It shall constitute a Default of the Lessee if any Guarantor fails or refuses, upon request to provide: (a) evidence of the execution of the guaranty, including the authority of the party signing on Guarantor's behalf to obligate Guarantor, and in the case of a corporate Guarantor, a certified copy of a resolution of its board of directors authorizing the making of such guaranty, (b) current financial statements, (c) an Estoppel Certificate, or (d) written confirmation that the guaranty is still in effect.

38. **Quiet Possession.** Subject to payment by Lessee of the Rent and performance of all of the covenants, conditions and provisions on Lessee's part to be observed and performed under this Lease, Lessee shall have quiet possession and quiet enjoyment of the Premises during the term hereof.

39. **Options.** Not applicable

40. **Multiple Buildings.** Not Applicable.

41. **Security Measures.** Lessee hereby acknowledges that the Rent payable to Lessor hereunder does not include the cost of guard service or other security measures, and that Lessor shall have no obligation whatsoever to provide same. Lessee assumes all responsibility for the protection of the Premises, Lessee, its agents and invitees and their property from the acts of third parties.

42. **Reservations.** Lessor reserves to itself the right, from time to time, to grant, without the consent or joinder of Lessee, such easements, rights and dedications that Lessor deems necessary, and to cause the recordation of parcel maps and restrictions, so long as such easements, rights, dedications, maps, and restrictions do not unreasonably interfere with the use of the Premises by Lessee. Lessee agrees to sign any documents reasonably requested by Lessor to effectuate such easement rights, dedication, map or restrictions.

43. **Performance Under Protest.** If at any time a dispute shall arise as to any amount or sum of money to be paid by one Party to the other under the provisions hereof, the Party against whom the obligation to pay the money is asserted shall have the right to make payment "under protest" and such payment shall not be regarded as a voluntary payment and there shall survive the right on the part of said Party to institute suit for recovery of such sum. If it shall be adjudged that there was no legal obligation on the part of said Party to pay such sum or any part thereof, said Party shall be entitled to recover such sum or so much thereof as it was not legally required to pay.

44. **Authority; Multiple Parties; Execution.**

(a) If either Party hereto is a corporation, trust, limited liability company, partnership, or similar entity, each individual executing this Lease on behalf of such entity represents and warrants that he or she is duly authorized to execute and deliver this Lease on its behalf. Each party shall, within 30 days after request, deliver to the other party satisfactory evidence of such authority.

(b) If this Lease is executed by more than one person or entity as "Lessee", each such person or entity shall be jointly and severally liable hereunder. It is agreed that any one of the named Lessees shall be empowered to execute any amendment to this Lease, or other document in writing thereto and bind all of the named Lessees, and Lessor may rely on the same as if all of the named Lessees had executed such document.

(c) This Lease may be executed by the Parties in counterparts, each of which shall be deemed an original and all of which together shall constitute one and the same instrument.

45. **Conflict.** Any conflict between the printed provisions of this Lease and the typewritten or handwritten provisions shall be controlled by the typewritten or handwritten provisions.

46. **Offer.** Preparation of this Lease by either party or their agent and submission of same to the other Party shall not be deemed an offer to lease to the other Party. This Lease is not intended to be binding until executed and delivered by all Parties hereto.

47. **Amendments.** This Lease may be modified only in writing, signed by the Parties in interest at the time of the modification. As long as they do not materially change Lessee's obligations hereunder, Lessee agrees to make such reasonable non-monetary modifications to this Lease as may be reasonably required by a Lender in connection with the obtaining of normal financing or refinancing of the Premises.

48. **Independent Contractor.** All acts of Lessee, its agents, officers, and employees and all others acting on behalf of Lessee relating to the performance of this Lease, shall be performed as independent contractors and not as agents, officers, or employees of Lessor. Lessee, by virtue of this Lease, has no authority to bind or incur any obligation on behalf of Lessor. Lessee has no authority or responsibility to exercise any rights or power vested in the Lessor. No agent, officer, or employee of the Lessor is to be considered an employee of Lessee. It is understood by both Lessee and Lessor that this Lease shall not under any circumstances be construed or considered to create an employer-employee relationship or a joint venture.

Lessee, its agents, officers and employees are and, at all times during the terms of this Lease, shall represent and conduct themselves as independent contractors and not as employees of Lessor.

Lessee shall determine the method, details and means of performing the work and services to be provided by Lessee under this Lease. Lessee shall be responsible to Lessor only for the requirements and results specified in this Lease, and, except as expressly provided in this Lease, shall not be subjected to Lessor's control with respect to the physical action or activities of the Lessee in fulfillment of this Lease. Lessee has control over the manner and means of performing the services under this Lease. Lessee is permitted to provide services to others during the same period service is provided to Lessor under this Lease. If necessary, Lessee has the responsibility for employing other persons or firms to assist Lessee in fulfilling the terms and obligations under this Lease.

If in the performance of this Lease any third persons are employed by Lessee, such persons shall be entirely and exclusively under the direction, supervision, and control of Lessee. All terms of employment including hours, wages, working conditions, discipline, hiring, and discharging or any other term of employment or requirement of law shall be determined by the Lessee. It is understood and agreed that as an independent contractor and not an employee of Lessor neither the Lessee or Lessee's assigned personnel shall have any entitlement as an employee of Lessor, right to act on behalf of the Lessor in any capacity whatsoever as an agent, or to bind the Lessor to any obligation whatsoever. It is further understood and agreed that Lessee must issue W-2 forms or other forms as required by law for income and employment tax purposes for all of Lessee's personnel.

As an independent contractor, lessee hereby indemnifies and holds Lessor harmless from any and all claims that may be made against Lessor based upon any contention by any third party that an employer-employee relationship exists by reason of this Lease.

49. **Mediation and Arbitration of Disputes.** An Addendum requiring the Mediation and/or the Arbitration of all disputes between the Parties and/or Brokers arising out of this Lease is is not attached to this Lease.

50. **Americans with Disabilities Act.** Since compliance with the Americans with Disabilities Act (ADA) is dependent upon Lessee's specific use of the Premises, Lessor makes no warranty or representation as to whether or not the Premises comply with ADA or any similar legislation. In the event that Lessee's use of the Premises requires modification or additions to the Premises in order to be in ADA compliance, Lessee agrees to make any such necessary modifications and/or additions at Lessee's expense.

Governing Law. This Lease shall be governed according to the laws of the State of California.

LESSOR AND LESSEE HAVE CAREFULLY READ AND REVIEWED THIS LEASE AND EACH TERM AND PROVISION CONTAINED HEREIN, AND BY THE EXECUTION OF THIS LEASE SHOW THEIR INFORMED AND VOLUNTARY CONSENT THERETO. THE PARTIES HEREBY AGREE THAT, AT THE TIME THIS LEASE IS EXECUTED, THE TERMS OF THIS LEASE ARE COMMERCIALY REASONABLE AND EFFECTUATE THE INTENT AND PURPOSE OF LESSOR AND LESSEE WITH RESPECT TO THE PREMISES.

ATTENTION: NO REPRESENTATION OR RECOMMENDATION IS MADE BY THE AMERICAN INDUSTRIAL REAL ESTATE ASSOCIATION OR BY ANY BROKER AS TO THE LEGAL SUFFICIENCY, LEGAL EFFECT, OR TAX CONSEQUENCES OF THIS LEASE OR THE TRANSACTION TO WHICH IT RELATES. THE PARTIES ARE URGED TO:

- SEEK ADVICE OF COUNSEL AS TO THE LEGAL AND TAX CONSEQUENCES OF THIS LEASE.
- RETAIN APPROPRIATE CONSULTANTS TO REVIEW AND INVESTIGATE THE CONDITION OF THE PREMISES. SAID INVESTIGATION SHOULD INCLUDE BUT NOT BE LIMITED TO: THE POSSIBLE PRESENCE OF HAZARDOUS SUBSTANCES, THE ZONING OF THE PREMISES, THE STRUCTURAL INTEGRITY, THE CONDITION OF THE ROOF AND OPERATING SYSTEMS, COMPLIANCE WITH THE AMERICANS WITH DISABILITIES ACT AND THE SUITABILITY OF THE PREMISES FOR LESSEE'S INTENDED USE.

WARNING: IF THE PREMISES ARE LOCATED IN A STATE OTHER THAN CALIFORNIA, CERTAIN PROVISIONS OF THE LEASE MAY NEED TO BE REVISED TO COMPLY WITH THE LAWS OF THE STATE IN WHICH THE PREMISES ARE LOCATED.

The parties hereto have executed this Lease at the place and on the dates specified above their respective signatures.

ARBITRATION AGREEMENT
Standard Lease Addendum

Dated February 21, 2003

By and Between (Lessor) City of Modesto

(Lessee) Annie P. Jones & Robert S. Dudley
dba Everett & Jones Barbeque, a Nevada
Limited Liability Company

Address of Premises 1029 9th Street, Modesto, CA, 95354

Paragraph 49.1

A. ARBITRATION OF DISPUTES:

Except as provided in Paragraph B below, the Parties agree to resolve any and all claims, disputes or disagreements arising under this Lease, including, but not limited to any matter relating to Lessor's failure to approve an assignment, sublease or other transfer of Lessee's Interest in the Lease under Paragraph 12 of this Lease, any other defaults by Lessor, or any defaults by Lessee by and through arbitration as provided below and irrevocably waive any and all rights to the contrary. The Parties agree to at all times conduct themselves in strict, full, complete and timely accordance with the terms hereof and that any attempt to circumvent the terms of this Arbitration Agreement shall be absolutely null and void and of no force or effect whatsoever.

B. DISPUTES EXCLUDED FROM ARBITRATION:

The following claims, disputes or disagreements under this Lease are expressly excluded from the arbitration procedures set forth herein: 1. Disputes for which a different resolution determination is specifically set forth in this Lease, 2. All claims by either party which (a) seek anything other than enforcement or determination of rights under this Lease, or (b) are primarily founded upon matters of fraud, willful misconduct, bad faith or any other allegations of tortious action, and seek the award of punitive or exemplary damages, 3. Claims relating to (a) Lessor's exercise of any unlawful detainer rights pursuant to applicable law or (b) rights or remedies used by Lessor to gain possession of the Premises or terminate Lessee's right of possession to the Premises, all of which disputes shall be resolved by suit filed in the applicable court of jurisdiction, the decision of which court shall be subject to appeal pursuant to applicable law and 4. All claims arising under Paragraph 39 of this Lease, which disputes shall be resolved by the specific dispute resolution procedure provided in Paragraph 39 to the extent that such disputes concern solely the determination of rent.

C. APPOINTMENT OF AN ARBITRATOR:

All disputes subject to this Arbitration Agreement, shall be determined by binding arbitration before: [X] a retired judge of the applicable court of jurisdiction (the Superior Court of the State of California) affiliated with Judicial Arbitration & Mediation Services, Inc. ("JAMS"), [] the American Arbitration Association ("AAA") under its commercial arbitration rules, []

or as may be otherwise mutually agreed by Lessor and Lessee (the Arbitrator). Such arbitration shall be initiated by the Parties, or either of them, within ten (10) days after either party sends written notice (the "Arbitration Notice") of a demand to arbitrate by registered or certified mail to the other party and to the Arbitrator. The Arbitration Notice shall contain a description of the subject matter of the arbitration, the dispute with respect thereto, the amount involved, if any, and the remedy or determination sought. If the Parties have agreed to use JAMS they may agree on a retired judge from the JAMS panel. If they are unable to agree within ten days, JAMS will provide a list of three available judges and each party may strike one. The remaining judge (or if there are two, the one selected by JAMS) will serve as the Arbitrator. If the Parties have elected to utilize AAA or some other organization, the Arbitrator shall be selected in accordance with said organization's rules. In the event the Arbitrator is not selected as provided for above for any reason, the party initiating arbitration shall apply to the appropriate Court for the appointment of a qualified retired judge to act as the Arbitrator.

D. ARBITRATION PROCEDURE:

1. PRE-HEARING ACTIONS. The Arbitrator shall schedule a pre-hearing conference to resolve procedural matters, arrange for the exchange of information, obtain stipulations, and narrow the issues. The Parties will submit proposed discovery schedules to the Arbitrator at the pre-hearing conference. The scope and duration of discovery will be within the sole discretion of the Arbitrator. The Arbitrator shall have the discretion to order a pre-hearing exchange of information by the Parties, including, without limitation, production of requested documents, exchange of summaries of testimony of proposed witnesses, and examination by deposition of parties and third-party witnesses. This discretion shall be exercised in favor of discovery reasonable under the circumstances. The Arbitrator shall issue subpoenas and subpoenas duces tecum as provided for in the applicable statutory or case law (e.g., in California Code of Civil Procedure Section 1282.8).

2. THE DECISION. The arbitration shall be conducted in the city or county within which the Premises are located at a reasonably convenient site. Any Party may be represented by counsel or other authorized representative. In rendering a decision(s), the Arbitrator shall determine the rights and obligations of the Parties according to the substantive laws and the terms and provisions of this Lease. The Arbitrator's decision shall be based on the evidence introduced at the hearing, including all logical and reasonable inferences therefrom. The Arbitrator may make any determination and/or grant any remedy or relief that is just and equitable. The decision must be based on, and accompanied by, a written statement of decision explaining the factual and legal basis for the decision as to each of the principal controverted issues. The decision shall be conclusive and binding, and it may thereafter be confirmed as a judgment by the court of applicable jurisdiction, subject only to challenge on the grounds set forth in the applicable statutory or case law (e.g., in California Code of Civil Procedure Section 1288.2). The validity and enforceability of the Arbitrator's decision is to be determined exclusively by the court of appropriate jurisdiction pursuant to the provisions of this Lease. The Arbitrator may award costs, including without limitation, Arbitrator's fees and costs, attorneys' fees, and expert and witness costs, to the prevailing party, if any, as determined by the Arbitrator in his discretion.

Whenever a matter which has been submitted to arbitration involves a dispute as to whether or not a particular act or omission (other than a failure to pay money) constitutes a Default, the time to commence or cease such action shall be tolled from the date that the Notice of Arbitration is served through and until the date the Arbitrator renders his or her decision. Provided, however, that this provision shall NOT apply in the event that the Arbitrator determines that the Arbitration Notice was prepared in bad faith.

Whenever a dispute arises between the Parties concerning whether or not the failure to make a payment of money constitutes a default, the service of an Arbitration Notice shall NOT toll the time period in which to pay the money. The Party allegedly obligated to pay the money may, however, elect to pay the money "under protest" by accompanying said payment with a written statement setting forth the reasons for such protest. If thereafter, the Arbitrator determines that the Party who received said money was not entitled to such payment, said money shall be promptly returned to the Party who paid such money under protest together with interest thereon as defined in Paragraph 13.5. If a Party makes a payment "under protest" but no Notice of Arbitration is filed within thirty days, then such protest shall be deemed waived. (See also Paragraph 43)

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-116**

A RESOLUTION ACCEPTING IMPROVEMENTS IN THE MONTEREY BAY UNIT NO. 3 SUBDIVISION, IN THE CARVER-BANGS SPECIFIC PLAN AREA, AND AUTHORIZING RELEASE OF BONDS

WHEREAS, BRIGHT DEVELOPMENT, a California Corporation, is the subdivider of the Monterey Bay Unit No. 3 Subdivision, and

WHEREAS, BRIGHT DEVELOPMENT, a California Corporation, has filed irrevocable subdivision bonds to secure faithful performance and payment for labor and materials in the amount of \$348,000.00 and \$174,000.00, respectively, and

WHEREAS, BRIGHT DEVELOPMENT, a California Corporation, has filed a warranty bond in the amount of \$34,800.00 to guarantee improvements in the Monterey Bay Unit No. 3 Subdivision, and

WHEREAS, the Engineering & Transportation Director, in a memorandum to Council, indicates that all work required by the Subdivision Agreement has been completed to the satisfaction of the Engineering & Transportation Department, and

WHEREAS, the Engineering & Transportation Director has indicated that it would be in order for the City Council to accept the improvements in said subdivision as complete, and authorize the City Clerk to file a Notice of Completion and release the bonds upon expiration of the statutory periods,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that:

1. The improvements in the Monterey Bay Unit No. 3 Subdivision are hereby accepted and the City Clerk is hereby authorized to file a Notice of Completion for the improvements.

2. The City Clerk is hereby authorized to release the subdivision bond for faithful performance in the amount of \$348,000.00 upon recordation of the Notice of Completion.
3. The City Clerk is hereby authorized to release the subdivision bond for labor and materials in the amount of \$174,000.00 sixty (60) days after the recordation of the Notice of Completion, provided no claim is made thereon.
4. The City Clerk is hereby authorized to release the warranty bond to guarantee improvements in the amount of \$34,800.00 one year and one day after the effective date of this resolution, provided no claim is made thereon.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of March, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Jackman, Keating, O'Bryant,
Mayor Sabatino

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-117**

A RESOLUTION AWARDED A CONTRACT TO PURKISS ROSE/RSI FOR PROFESSIONAL LANDSCAPE ARCHITECTURAL SERVICES TO PREPARE A MASTER PLAN AND DESIGN DEVELOPMENT REPORT FOR GROGAN COMMUNITY PARK AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE CONTRACT.

WHEREAS, the city of Modesto owns the approximately 46 acre Grogan Community Park site located north of Sylvan Avenue and adjacent to the future Modesto City High School site on the west and Litt Road on the east, and

WHEREAS, this is the only community park site in the Village One Specific Plan, and

WHEREAS, the intent of this park is to provide the usual community park amenities along with numerous organized sports facilities, and

WHEREAS, the City now desires to have a Master Plan and Design Development Report prepared for this park, and

WHEREAS, through an RFP process, Purkiss Rose/RSI was determined to be the most qualified firm to prepare the Master Plan and Design Development Report, and

WHEREAS, Purkiss Rose/RSI has agreed to provide the services outlined in Exhibit "A" attached hereto and incorporated herein by reference at a cost not to exceed \$106,575.00, and

WHEREAS, funds are budgeted in Capital Improvement Plan project 1350-310-M177, Sports Complex, and

WHEREAS, the Safety and Communities Committee met on February 3, 2003, and supported the recommendation to award a contract to Purkiss Rose/RSI for

professional landscape architectural services to prepare a Master Plan and Design Development Report for Grogan Community Park at a cost not to exceed \$106,575.00,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves awarding a contract to Purkiss Rose/RSI for professional landscape architectural services to prepare a Master Plan and Design Development Report for Grogan Community Park at a cost not to exceed \$106,575.00.

BE IT FURTHER RESOLVED that the City Manager or his designee is hereby authorized to execute the contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of March, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

EXHIBIT “A” or “Project”

Scope of Work Grogan Community Park

Project Description:

Grogan Community Park is an approximately 46-acre (39-net) site located adjacent to the future James C. Enochs High School site, north of Sylvan Avenue and west of Litt Road in the northeastern part of the City of Modesto. The park site is bordered on the west by the school site and on the other 3 sides by agricultural land. The City desires to develop the site into a community park with emphasis on athletic fields. The anticipated construction budget for this park is approximately \$11,240,000. The project will include the following:

- 1) Preparation of a Master Plan.
- 2) Public involvement in the design process.
- 3) Preparation of a Design Development Report that thoroughly describes the Master Plan and design intent so as to guide the development of working drawings.

The Master Plan phases for this project may include (but are not limited to):

- | | |
|-----------|--|
| Phase I | 20 Acres to include - Site preparation, Grading, Drainage, Irrigation, Paving, Shaded picnic area and furnishings, Landscaping, Off-street parking, Play equipment, Utility/service buildings, Game courts, Security lighting, Athletic fields and facilities, Centralized restrooms, Court and athletic field lighting, Signage |
| Phase II | 14 Acres to include - Site preparation, Grading, Drainage, Irrigation, Paving, Landscaping, Off-street parking for full build-out, Security lighting, Athletic fields and facilities, Conduit for lighting, Entry Features. 5 Acres of the above will be turf only for minimal use prior to the construction of the aquatic center and community center. |
| Phase III | Aquatics Center (approx. 2 acres) |
| Phase IV | Community Center (approx. 15,000 sq. ft. structure on - 3 acre site) |

Professional Services to Include:

Task #1 – Master Plan Development Total Cost Not To Exceed \$80,000.00

1. Review project intent, scope, approach and schedule of work with City staff, City School District and Stakeholders, as directed. (Staff Meeting #1)
2. Collect and review physical limitations and opportunities of the existing site, including configuration, drainage, external influences, access and relationships with the adjacent high school and residential development. Landscape Architect will provide a Boundary and Topographical Survey and will identify all existing utilities, easements, drainage, facilities, etc. Submit an initial report on the findings for staff review and input.
3. Develop a method for community input in the design process and confirm meeting schedule with City staff. Prepare flyer to be mailed by City to interested citizens.
4. Evaluate collected data and formulate with City staff a park development program. (Staff Meeting #2)
5. Throughout the Master Plan development process the Landscape Architect should consult with the Aquatic Consultant and Architect for size of facilities, needs and relational layout. A floor plan for the Aquatic Center and Community Center will not be required.
6. Prepare a maximum of three (3) preliminary development studies depicting alternate solutions to program needs for review with City staff.
7. Prepare a preliminary cost estimate of proposed improvements for each of the alternate solutions. Include any anticipated additional services.
8. Meet and confer with City staff as directed and present three (3) rendered alternative studies and preliminary cost estimates for discussion and input. (Staff Meeting #3)
9. Present three (3) alternative studies for community review and input as directed by City. (Community Meeting #1)
10. Refine preferred concept into a preliminary site plan, depicting project scope, space requirements and functional relationships for review and comment by City staff.
11. Prepare itemized cost estimate of proposed improvements for the preliminary site plan. Present phasing strategy consistent with funding availability. Include any anticipated additional services.
12. Meet and confer with City staff as directed and present the preliminary site plan, proposed programs, preliminary cost estimate and phasing strategy for discussion and input (Staff Meeting #4)
13. Present preliminary site plan, rendered for public presentation, for review and comment to the general public. Receive final input on the refined plans, phasing strategy and proposed programs. (Community Meeting #2)

14. Prepare a Final Rendered Master Plan that reflects the consensus of Staff and community. Provide Rendered Master Plan (full size) to City. Also provide an Electronic Image of the Master Plan on Compact Disc to City which can be printed by the City in various sizes for public distribution and display.

Task #2 – Design Development Report Total Cost Not To Exceed \$14,000.00

1. Prepare final itemized estimates of probable cost for development and anticipate maintenance.
2. Prepare a comprehensive Design Development Report that will including a rendered Master Plan, no larger than 11” x 17”, and a narrative describing the design process, the functional intent and requirements of proposed improvements, a phasing program, environmental impacts associated with the project including any mitigation measures required (as developed by City staff), and a final cost estimate for construction and ongoing maintenance. The Design Development Report should be developed in order to guide the development of working drawings and specifications.
3. Present Draft Design Development Report for review and comment of City Staff. Revise Report as directed by City Staff.
4. Present revised Design Development Report for review and comment of City Staff. Prepare Final Design Development Report based on comments and Deliver one (1) photo ready copy of the Design Development Report and one (1) Electronic file of the Report on CD to City Staff.
5. Present Design Development Report and Master Plan to the City Council at a public hearing for approval of Design Development Report and Master Plan and certification of Environmental Findings. Staff will assist in the presentation to City Council. (Community Meeting #3)

Proposed Compensation

The following fees are based on the scope of work described previously in Exhibit “A”. Payments will be made on a monthly basis when portions of the tasks are completed. The monthly billing should include billable work hours at the Hourly Rates included in Exhibit “B”, any sub-consultant bills at the Hourly Rates included in Exhibit “B”, and verifiable documentation on any reimbursable expenses incurred.

Task #1 – Master Plan Development (not to exceed)	\$ 80,000.00
Task #2 – Design Development Report (not to exceed)	\$ 14,000.00
Reimbursable Expenses (not to exceed budget)	\$ 7,500.00
<u>Additional Services (not to exceed budget)</u>	<u>\$ 5,075.00</u>
Total Contract Amount	\$ 106,575.00

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-118**

**A RESOLUTION AWARDING A CONTRACT TO CALLANDER ASSOCIATES
LANDSCAPE ARCHITECTURE, INC. FOR PROFESSIONAL LANDSCAPE
ARCHITECTURAL SERVICES TO PREPARE A MASTER PLAN, DESIGN
DEVELOPMENT REPORT AND CONSTRUCTION DOCUMENTS FOR
FREEDOM NEIGHBORHOOD PARK AND AUTHORIZING THE CITY
MANAGER TO EXECUTE THE CONTRACT.**

WHEREAS, the City of Modesto currently owns the approximately 7-acre Freedom Neighborhood Park (formerly Merle Neighborhood Park) site immediately to the south of Sharon Avenue and west of the future Sylvan Union Elementary School Site on the corner of Sharon Avenue and Fine Avenue, and

WHEREAS, development of this neighborhood park is expected to begin in spring of 2004, and

WHEREAS, in order to be prepared to begin construction in spring of 2004, the Master Plan, Design Development Report and Construction Documents must be completed by winter of 2003-2004, and

WHEREAS, following the City's standard RFP process, a three (3) member panel determined that Callander Associates Landscape Architecture, Inc. was the most qualified firm to complete this project, due to their vast experience in designing neighborhood parks, and

WHEREAS, Callander Associates Landscape Architecture, Inc. has agreed to provide the services outlined in Exhibit "A" attached hereto and incorporated herein by reference at a cost not to exceed \$97,020.00, and

WHEREAS, the Safety and Communities Committee met on February 3, 2003, and supported the recommendation to award a contract to Callander Associates

Landscape Architecture, Inc. for professional landscape architectural services to prepare a Master Plan, Design Development Report and Construction Documents for Freedom Neighborhood Park at a cost not to exceed \$97,020.00,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves award of a contract to Callander Associates Landscape Architecture, Inc. for professional landscape architectural services to prepare a Master Plan, Design Development Report and Construction Documents for Freedom Neighborhood Park at a cost not to exceed \$97,020.00.

BE IT FURTHER RESOLVED that the City Manager or his designee is hereby authorized to execute the contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of March, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Jackman, Keating, O'Bryant, Mayor Sabatino

EXHIBIT “A” or “Project”

Scope of Work Freedom Neighborhood Park

Project Description:

The City of Modesto wishes to develop a neighborhood park adjacent to Freedom Middle School. The total site area is approximately 7 acres, along Sharon Avenue. The City envisions that the site is to be a neighborhood park with a construction budget of \$805,000. Due to constraints on available funds, it is anticipated the construction will be phased in. The master plan, design development and construction documents will be comprehensive allowing for additive/deductive alternates and/or phasing. It is anticipated that park improvements will be as follows:

- Site preparation, grading and drainage.
- Pavement areas
 - pathways
 - play area border
 - pads for benches
 - pads for picnic tables
 - pad for one (1) shade structure
- One (1) Restroom foundation/pad with utility stubs.
- Landscaping including turf, trees, ground cover and shrubs.
- Automatic irrigation system including central control (with electrical connection).
- Electrical, sewer, water, storm drainage connections, and stub out when appropriate.
- Drinking fountain with water and sewer connection.
- Site furnishings.
- Conduit for future site electrical.
- Fencing.
- Play equipment including curb ramps and resilient surfacing.
- Water play feature.
- One (1) Restroom and / or utility building.
- Game courts (basketball, volleyball).
- Athletic fields (baseball, softball, and soccer).
- Picnic facilities (including one (1) shade structure, picnic tables, and barbecues).
- Security lighting. Ball field lighting is not part of the program.

All parking will be on street parking. A parking lot for the park is not part of the program.

Based on the above we have provided the following scope of services to be performed in chronological order. The items shown in *bold-face italics* represent documents to be provided to the City during that task.

Professional Services to Include:

Task #1 – Master Plan Development

Total Cost Not To Exceed \$24,700.00

- 1.01 Review project intent, scope, approach and schedule of work with City staff, and others, as directed in a joint staff meeting to review project limits, contact information, scope, schedule, budget, regulatory items, approval processes, and other administrative procedures. Provide *written summary* of conclusions.
- 1.02 Coordinate and obtain existing site and planning information from City and County records; prepare *base sheet* for the site. Coordinate and provide topographic survey showing boundary data from title reports provided by the City (boundary survey not included); provide *topographic survey*.
- 1.03 Review physical limitations and opportunities of the existing site. Conduct site reconnaissance and walk the site to visually review apparent features, utilities, and character and context of the site; photograph the site and general vicinity for use in reviewing with City. Prepare and provide a conceptual level *opportunities and constraints map* and *digital photo log* to City staff.
- 1.04 Visit schools and parks in the surrounding neighborhoods and prepare an inventory of amenities of facilities; provide brief *photo log* of facilities.
- 1.05 Develop a method for community input in the design process and confirm meeting schedule with City staff; prepare meeting *agenda*; prepare *flyer* to be copied and mailed by City to interested citizens. City to provide postage.
- 1.06 Prepare two (2) preliminary *design plans* depicting alternate solutions to program needs for review. Prepare one (1) typical concept level cost estimate.
- 1.07 Conduct work session with City staff to present the two (2) alternatives; develop consensus and provide written meeting *summary*.
- 1.08 Refine preliminary design plans as necessary.
- 1.09 Conduct interactive public workshop to present the above documents and concepts for community review and input; provide written meeting *summary*.
- 1.10 Review results of meeting and workshop with City staff in a single review session. At the review session, develop a consensus for proceeding. Prepare a meeting *summary*.
- 1.11 Refine the two (2) alternatives into a single *preliminary plan* (black and white) for review and comment by City. Prepare up to three (3) cross *sections* and an *enlarged plan* of a selected key area; provide *image boards* of proposed park improvements.
- 1.12 Refine documents as necessary.
- 1.13 Prepare a preliminary cost *estimate* of proposed improvements for the total facility and present a plan for logical phase development. Include list of *prioritized additive*

alternates , any additional services, allowances for change orders and City administration, and other items as reviewed with City staff.

- 1.14 Revise community meeting *flyer*, prepare *agenda* and conduct a second interactive public workshop to present the color preliminary plan, cost estimates and related documents; facilitate consensus and provide written meeting *summary*.
- 1.15 Prepare a Final Rendered Master Plan that reflects the consensus of Staff and community. Provide Rendered Master Plan (full size) to City. Also provide an Electronic Image of the Master Plan on Compact Disc to City which can be printed by the City in various sizes for public distribution and display.

Task #2 – Design Development Report Total Cost Not To Exceed \$5,300.00

- 2.01 Prepare a comprehensive *design development report* (DDR) that thoroughly describes the master plan and design intent so as to guide the development of the final construction documents. The report would include a *rendered master plan* (no larger than 11"x17") and a narrative describing the functional intent and requirements of proposed improvements; environmental impacts associated with the projects; a phasing program; *final cost estimate* for construction and on-going maintenance.
- 2.02 Submit Draft Design Development Report for review and comment of City staff. Revise Report as directed by City staff.
- 2.03 Submit revised Design Development Report for review and comment of City staff. Prepare Final Design Development Report based on comments from City and Deliver one (1) photo ready copy and one (1) electronic file of the report on compact disc to City staff.

Task #3 – Construction Documents Total Cost Not To Exceed \$49,700.00

- 3.01 Based on approved master plan, prepare preliminary (50% completion) *construction plans*, refined *cost estimate* and outline *specifications*. Deliver ten (10) sets of plans and specifications to City. City staff will require a minimum of two (2) weeks for review of 50% construction documents.
- 3.02 Conduct a single interdepartmental review session to review City comments. Prepare written *summary*.
- 3.03 Provide geotechnical evaluation of existing soils as warranted for pavements, minor grading, and building and pole foundation design. Submit *geotechnical report*; provide *horticultural soils report* for landscape soil preparation.
- 3.04 Prepare 90% level *construction plans*, *outline specifications* and refined *cost estimates*. Deliver ten (10) sets of plans and specifications to City. Prepare detailed cost estimates for all improvements as per City recommendations. City staff will require a minimum of three (3) weeks for review of 90% construction documents.

- 3.05 Based on comments received prepare 100% level construction plans, specs, and estimate. Plans will be prepared to allow for deductive and additive alternates or phased construction as necessary. City staff may require a minimum of one (1) week for review of 100% construction documents.

The construction documents for the park will include:

- grading and drainage plan (using 1' contours, scaled at 1"=40' minimum)
 - storm water pollution prevention plan
 - site construction staking plan
 - planting plan
 - irrigation plan
 - electrical plan
 - details and specifications
 - play equipment layout plan
 - structural details
 - technical specification
 - bid form
- 3.06 Submit for review and make necessary modifications as part of final submittal.
- 3.07 Present *itemized final cost estimate* for construction and on-going maintenance for review.
- 3.08 Provide one (1) set of *final original plans and specifications* for reproduction and one (1) AutoCAD version 2002 or earlier, *drawings file*.

Task #4 – Bidding and Construction Support Total Cost Not To Exceed \$7,050.00

- 4.01 Assist City staff in bidding process as required, including answering questions from bidders.
- 4.02 Attend pre-construction conference.
- 4.03 Review and process all *shop drawings and submittals* required by technical specifications.
- 4.04 Provide site reviews and prepare *reports* on construction progress and quality with recommendations for correction of any deficiencies (approximately four (4) field meetings).
- 4.05 Participate in the review of interim pay requests, if requested by the City.
- 4.06 Assist in determining and processing requests for information and change orders.
- 4.07 Make final review and *report* on completed project (one field meeting).

Proposed Compensation

The following fees are based on the scope of work described previously in Exhibit "A". Payments will be made on a monthly basis when portions of the tasks are completed. The monthly billing should include billable work hours at the Hourly Rates included in Exhibit "B", any sub-consultant bills at the Hourly Rates included in Exhibit "B", and verifiable documentation on any reimbursable expenses incurred.

Task #1 – Master Plan Development (not to exceed)	\$ 24,700.00
Task #2 – Design Development Report (not to exceed)	\$ 5,300.00
Task #3 – Construction Documents (not to exceed)	\$ 49,700.00
Task #4 – Bidding and Construction Support (not to exceed budget)	\$ 7,050.00
Reimbursable Expenses (not to exceed budget)	\$ 5,650.00
<u>Additional Services (not to exceed budget)</u>	<u>\$ 4,620.00</u>
Total Contract Amount Not to Exceed	\$ 97,020.00

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-118A**

A RESOLUTION AMENDING THE CAPITAL IMPROVEMENT PROGRAM TO CHANGE THE NAME OF PROJECT 1350-310-Q233 FROM MERLE NEIGHBORHOOD PARK TO FREEDOM NEIGHBORHOOD PARK, AND TRANSFERRING \$28,000 FROM PROJECT 1350-310-N445, PARK MASTER PLANNING/CONSTRUCTION DOCUMENTS TO 1350-800-8000-8003, THE FUND 1350 RESERVE, AND APPROPRIATING \$28,000 FROM 1350-800-8000-8003 TO 1350-310-Q233, MERLE NEIGHBORHOOD PARK.

WHEREAS, the City of Modesto currently owns the approximately 7-acre Freedom Neighborhood Park (formerly Merle Neighborhood Park) site immediately to the south of Sharon Avenue and west of the future Sylvan Union Elementary School Site on the corner of Sharon Avenue and Fine Avenue, and

WHEREAS, development of this neighborhood park is expected to begin in spring of 2004, and

WHEREAS, City Council Policy No 6.005 "Naming of City Parks" states that "Parks located adjacent to schools shall be given the same name as the school..." and in accordance with this existing City Council Policy, staff is recommending changing the name of this Park from Merle Neighborhood Park to Freedom Neighborhood Park., and

WHEREAS, in order to be prepared to begin construction in spring of 2004, the Master Plan, Design Development Report and Construction Documents must be completed by winter of 2003-2004, and

WHEREAS, following the City's standard RFP process, a three (3) member panel determined that Callander Associates Landscape Architecture, Inc. was the most qualified firm to complete this project, due to their vast experience in designing neighborhood parks, and

WHEREAS, Callander Associates Landscape Architecture, Inc. has agreed to provide the Master Plan, Design Development Report and Construction Documents at a cost not to exceed \$97,020.00, and

WHEREAS, \$80,000 is available in Capital Improvement Project 1350-310-Q233, and

WHEREAS, in order to fully fund the preparation of the Master Plan, Design Development Report and Construction Documents and related staff time, \$108,000 is needed in project 1350-310-Q233, and

WHEREAS, an additional \$28,000 is available in project 1350-310-N445, Parks Master Planning/Construction Documents, which will be transferred to the Fund 1350 Reserve and appropriated to project Q233, and

WHEREAS, the Safety and Communities Committee met on February 3, 2003, and supported the recommendation to change the name of project 1350-310-Q233 from Merle Neighborhood Park to Freedom Neighborhood Park and to transfer \$28,000 from project 1350-310-N445 to 1350-310-Q233 to fully fund the preparation of the Master Plan, Design Development Report and Construction Documents and related staff time for Freedom Neighborhood Park,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves amending the Capital Improvement Program to change the name of project 1350-310-Q233 from Merle Neighborhood Park to Freedom Neighborhood Park, and transferring \$28,000 from project 1350-310-N445, Park Master Planning/Construction Documents to 1350-800-8000-8003, the Fund 1350 Reserve and appropriating \$28,000 to project 1350-310-Q233.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of March, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2003-119

A RESOLUTION AUTHORIZING THE MAYOR TO SEND A LETTER TO THE STATE CONTROLLER REQUESTING THAT THE CONTROLLER INVESTIGATE THE USE OF LANDFILL ENTERPRISE FUNDS FOR PURPOSES NOT RELATED TO THE OPERATION OF THE LANDFILL, POSSIBLE OVERCHARGES AT THE FINK ROAD LANDFILL, AND PAYMENT OF MORE THAN THE APPRAISED VALUE OF PROPERTY PURCHASED WITH ENTERPRISE FUNDS

WHEREAS, at the February 25, 2003 Council meeting, the Council considered information presented to it regarding tipping fees at the Fink Road Landfill and the use of funds generated by those tip fees, and

WHEREAS, the Council directed that a resolution be prepared authorizing the Mayor to send a letter to the State Controller requesting an investigation of the Fink Road Landfill Enterprise Fund, and

WHEREAS, a draft of this letter is shown as **Exhibit A.**

NOW, THEREFORE, BE IT RESOLVED that the Modesto City Council hereby authorizes the Mayor to send the attached letter to the State Controller, after the March 4, 2003 meeting of the City Council, requesting that the Controller investigate the following actions by Stanislaus County: use of the Fink Road Landfill Enterprise Fund for purposes not related to landfill operations; possible overcharges on tipping fees at the Fink Road Landfill which led to the accumulation of a \$19.2 million pooled cash balance, and; use of \$14 million in Landfill Enterprise Funds to buy land that was appraised at \$10.75 million, the majority of which appears to not be necessary for landfill expansion purposes to meet county disposal needs.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of March, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-121**

A RESOLUTION APPROVING A COST-SHARING AGREEMENT WITH STANISLAUS COUNTY FOR THE CABLECASTING OF CERTAIN COUNTY PROGRAMMING, INCLUDING ALL EMERGENCY BROADCASTS, ON A GOVERNMENT CHANNEL AVAILABLE THROUGH THE CITY'S FRANCHISE AGREEMENT WITH COMCAST CABLE AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE SAME.

WHEREAS, the City of Modesto and the Stanislaus County Office of Education, hereinafter referred to as "SCOE," are parties to an existing agreement allowing the City to establish a Master Control Room in the basement of the SCOE building, and

WHEREAS, City has negotiated a cable television franchise agreement with Comcast Cable which requires the City to establish its own Master Control Room for the cable casting of public, educational, and government programming, and

WHEREAS, City has agreed to cablecast certain County programming, including all emergency broadcasts, on a government channel available through the City's franchise agreement with Comcast Cable, and

WHEREAS, City has agreed to provide the County with staff and facilities for the operation and maintenance of a government channel available through the County's franchise agreement with Charter Communications, and

Whereas, City agrees to accept from County the sum of \$198,000 during the first year of the term of this Agreement as full remuneration for establishing and performing all services and furnishing all staffing, facilities and materials for performance by the City of all its duties and obligations under this agreement, and

Whereas, City agrees to accept from the County the sum of \$128,000 annually as full remuneration for performing all services and furnishing all staffing, facilities and materials for performance by the City of all its duties and obligations under this agreement, and

WHEREAS, this contract is retroactive to July 2, 2002 and will continue for a 10-year period, and

WHEREAS, City agrees to the terms and conditions as set forth in “**Attachment A,**” the Agreement between the City of Modesto and County of Stanislaus for the operation of Government and Educational Programming on AccessModesto Community Television, and

WHEREAS, the City and County believe that by working together in a cooperative effort both entities will be able to better meet their respective needs for government and educational programming in a way, which will result in increased operational efficiency thereby better serving the public, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an agreement with the County of Stanislaus commencing on March 4, 2003, and causing such agreement to be retroactive to July 2, 2002.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the lease agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of March, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

ATTACHMENT A

**AGREEMENT BY AND BETWEEN THE CITY OF MODESTO
AND COUNTY OF STANISLAUS FOR THE OPERATION OF
GOVERNMENT AND EDUCATIONAL PROGRAMMING ON
ACCESSMODESTO COMMUNITY TELEVISION.**

THIS AGREEMENT is made and entered into in the City of Modesto, State of California, this 4th day of March, 2003, by and between the CITY OF MODESTO, a Charter City and municipal corporation of the State of California, hereinafter referred to as "City," and the County of Stanislaus, a political subdivision of the State of California, hereinafter referred to as "County."

This Agreement is made with respect to the following recitals:

WHEREAS, City and the Stanislaus County Office of Education, hereinafter referred to as "SCOE," are parties to an existing agreement allowing the City of Modesto to establish a Master Control Room in the basement of the SCOE building, and

WHEREAS, City has negotiated a cable television franchise agreement with Comcast Cable which requires the City to establish its own Master Control Room for the cable casting of public, educational, and government programming, and

WHEREAS, City has agreed to cablecast certain County programming, including all emergency broadcasts, on a government channel available through the City's franchise agreement with Comcast Cable, and

WHEREAS, City has agreed to provide the County with staff and facilities for the operation and maintenance of a government channel available through the County's franchise agreement with Charter Communications, and

WHEREAS, this contract is retroactive to July 2, 2002, and

NOW, THEREFORE, it is mutually agreed by and between both parties hereto as

follows:

1. City agrees to provide staff, operate and maintain the government channels used by both the City and County. All employees shall not be considered employees of Stanislaus County and shall not be entitled to any benefits that are now, or may be in the future, Stanislaus County employee benefits.
2. City may enter into agreement with a third party or parties to operate the Master Control Room, which broadcasts the government channel(s). If the City contracts with a third party, the City shall require the third party to defend, indemnify and hold County harmless from and against any claim for any damages or liability of any kind that arises directly, indirectly or in any other manner out of the performance of this agreement or operation of the Master Control Room.
3. Day-to-day operations of the Master Control Room shall be vested in the control of the City and may be assigned to a third party or parties "independent contractor" hired by the City. The independent contractor shall report solely to the City, through its City Manager or his/her duly authorized designee, except for the County's government channel that is exclusively controlled by and the responsibility of the County through the Charter Communications Cable System. Notwithstanding the above, the independent contractor hired by the City to run the day-to-day operations shall be responsive to and assist County in carrying out the terms and obligations set forth in this Agreement between the City and County.

4. City shall have full control of and responsibility for all programming placed on the City's government channel.
5. County shall have full control of and responsibility for all programming placed on the County's government channel.
6. City shall provide adequate time for County Emergency Broadcasting Announcements on the public, education and government channels.
7. The City and County agree that political endorsements and/or political advertising material, outside of formal debates, is prohibited on the Education/Government channels operated by both the City and County. Any such programming may be directed to the City's Public Access Channel or any other public access channel provided within Stanislaus County.
8. City agrees to provide County with ample and fairly allocated access to cable capacity on the City's government channel for programming to meet the needs and interests of the residents of the City of Modesto, which will include all regularly and specially scheduled Stanislaus County Board of Supervisors meetings, Stanislaus County Planning Commission meetings, specially scheduled Stanislaus County Department programs, and/or other County special programs or events.
9. City agrees to provide County with ample and fairly allocated access to cable capacity on the City's education channel for programming to meet the needs and interests of the residents of the City of Modesto, which will include specially scheduled Stanislaus County Department programs and other County special programs or events. In exchange, the County agrees to provide ample and fairly allocated access to cable capacity on the County's government channel for

Stanislaus County Office of Education programming and City of Modesto programming that is considered a benefit to all residents of Stanislaus County.

10. City shall provide to the County a camera crew to produce, cablecast and/or videotape the following meetings originating from the basement chambers of Tenth Street Place, Modesto Centre Plaza, Modesto Police Department, or the Stanislaus County Office of Education: All regularly and specially scheduled Stanislaus County Board of Supervisors meetings, Stanislaus County Planning Commission meetings, and specially scheduled Stanislaus County Department programs (up to six (6) per year upon request).
11. City shall provide production and management of video bulletin boards in substantially the same manner for both City and County government channels.
12. City agrees to maintain regular hours of operation of the Master Control Room provided pursuant to the SCOE agreement as follows:
 - a. Monday through Friday 8 am – 5 pm for Tape Drop-Off for Public
 - b. Monday through Friday 10 am – 7 pm for Master Control Room Operation
 - c. Monday through Saturday as needed for Education/Government programming
 - d. Saturday and Sunday – Open only for Master Control Room Operation
 - e. On-Call – 24 hours per day and 365 days per year to oversee the use of the facility and provide technical management as needed
13. City agrees to provide adequate notice on the City's government channel of County programs and shall allow County to place adequate notices and announcements during County programs.
14. County agrees to assume all costs for production beyond the agreed upon production provided in the contract with the City.

15. Information necessary to the creation of the government video bulletin boards shall be submitted by the County to the City at least ten (10) days in advance of the requested air time. City agrees to make a good faith effort to include such County information if submitted after the ten (10) day notice period.
16. City shall duplicate tapes of all regularly and specially scheduled Stanislaus County Board of Supervisors meetings, Stanislaus County Planning Commission meetings, and specially scheduled Stanislaus County Department programs as requested by the County, and provide copies of those meetings to the Stanislaus County Board's Office and store master copies of those meetings in the Master Control Room Library. Master copies shall not be discarded or destroyed without the prior written consent of the Clerk of the Board to the City Manager's Office and Board of Supervisors Office.
17. City agrees to accept from County the sum of \$198,000 during the first year of the term of this Agreement as full remuneration for establishing and performing all services and furnishing all staffing, facilities and materials for performance by the City of all its duties and obligations under this agreement, with the exception of all equipment related to the County's channel provided by Charter Communications and all equipment related to the interconnect between Charter Communications and Comcast, Inc. This sum shall be paid in one lump sum, within thirty (30) days of approval of this Agreement by the Stanislaus County Board of Supervisors.
18. City agrees to accept from the County the sum of \$128,000 annually as full remuneration for performing all services and furnishing all staffing, facilities and materials for performance by the City of all its duties and obligations under this

agreement. This will be considered the “baseline” amount for the contract. This annual sum shall be paid on July 2, each year for the duration of this Agreement. All payments shall be paid to the City within thirty (30) days following date of receipt. A one and one half-percent charge will assess on any late payments.

19. County accepts responsibility for all costs related to the necessary equipment needed to operate the County’s channel provided by Charter Communications and all equipment related to the interconnect between Charter Communications and Comcast, Inc. and will provide a the City with an inventory of all equipment installed in the Master Control Room for such purpose.
20. During the term of the agreement, the City and/or County may require an audit of the financial operations of the Master Control Room, and upon mutual agreement, determine a new “baseline” charge. In the event that actual costs exceed projected costs, the sum set forth herein shall be subject to renegotiation between the parties. In the event that the costs of creating the Master Control Room are less than currently anticipated with respect to either party, such funds shall be retained by City for the sole purpose of maintaining the Master Control Room.
21. The parties agree to split the operating costs of the Master Control Room equally. Such costs shall be set forth in an annual budget to be prepared by the City. All funds provided by either party for the operation of the Master Control Room shall be utilized in accordance with the budget presented by City and approved by both the Modesto City Council and the Stanislaus County Board of Supervisors. The funds paid for operating costs by the parties will be used to provide management of the educational and government cable television channels and video production services as outlined previously in this Agreement.

22. City agrees to submit to County a final accounting of all revenues and expenses at the end of each year.
23. If City enters into cost-sharing agreement with any other agency for the operation of the Master Control Room, City agrees that it will convene a meeting with the County to determine a new "baseline" charge. In determining a new baseline, the City shall be compensated a fee equal to ten (10%) percent of operating expenses to compensate City for administrative overhead costs for all time spent by City staff, the City Manager's office, City Attorney's office, accounting, budgeting and administrative office space and facilities.
23. In the event that Comcast Cable reassigns channel numbers from the existing City controlled channel(s) to some new and different channel numbers, County shall not object to such reassignment. County acknowledges and agrees to an anticipated change in channel designations by the cable provider.
24. The City shall assume all liability related to the negligent maintenance of the Master Control Room, and shall indemnify and hold harmless County from and against all claims, damages, losses, liabilities, expenses and other costs including litigation costs and attorneys fees arising out of, or resulting from the City's negligent maintenance of the Master Control Room. City shall defend all claims arising from bodily injury or property damage relating to the maintenance of the Master Control Room except as to claims arising from negligent acts of the County, its agents, officers, and employees, or hazardous conditions caused by the City, its agents, officers, and employees. In the event that liability shall arise from the combined negligence of the parties, neither party shall have indemnity rights under this paragraph against the other. In the event of a claimed default or

claimed breach by either party of any covenant or condition contained in this Agreement, the parties agree to submit all disputes, controversy, differences or deadlocks in resolving issues which require an agreement of the parties relating to or arising out of this Agreement, that cannot be resolved by discussions between City-County staff for resolution initially to the City Manager of the City of Modesto and the Chief Executive Officer for the County of Stanislaus. If the City Manager and Chief Executive Officer of the County are unable to resolve the matter, then the parties shall agree on an arbitrator and shall submit the matter to binding arbitration. If the parties are unable to agree on an arbitrator, then the parties shall submit to binding arbitration administered by the Judicial Arbitration and Mediation Services, Inc. ("JAMS") unless the parties involved agree to another alternative dispute resolution method.

25. Initiation of Arbitration. Arbitration shall be initiated in the following manner:

25.1 Initiating Party. Any party may initiate the arbitration by serving the other party or parties with a demand for arbitration by registered, certified or FedEx mail. The demand for arbitration shall state the nature and amount of the claim, if applicable, or otherwise describe with reasonable particularity the nature of the dispute or controversy and the relief sought. Unless the parties agree on a non-JAMS arbitrator, the initiating party shall file a copy of the demand at any regional office of JAMS, together with the appropriate filing fee.

25.1.1 Response. If the responding party or parties desire to file a response and/or counterclaim, they must do so within twenty (20) days of service of the demand. Failure to file a counterclaim, they must do so within twenty

(20) days of service of the demand. Failure to file a counterclaim or response will not operate to delay the arbitration proceedings.

25.1.2 No Further Claims. After the filing of the claim, response and counterclaim, no further claims or counterclaims may be made except on motion to the arbitrator.

25.2 Appointment and Powers of Arbitrator.

25.2.1. Choosing an Arbitrator. If the parties are unable to agree on the choice of an arbitrator within twenty (20) days from service of the notice and demand for arbitration, then any party may request from JAMS a list containing at least ten (10) names of available arbitrators, accompanied by their resumes, if available. Each party shall have ten (10) days from mailing of the list in which to cross off the names of not more than four (4) arbitrators they deem objectionable, number the remaining names to indicate the order of preference and return the list to JAMS. If a party does not return the list within ten (10) days, then all persons named therein shall be deemed acceptable to that party. From among the persons who have been approved on the lists of all parties, and in accordance with the designated order of mutual preference, JAMS shall invite an arbitrator to serve. If acceptable arbitrators are unable to serve, or if any other reason the appointment cannot be made from the submitted lists, then JAMS shall have the power to make the appointment from among other retired judges on the panel, without the submission of any additional list.

25.2.2. Powers of Arbitrator, Generally. Subject to Section 25.2.4, the arbitrator shall have full power to make such regulations and to give all orders and

directions as he or she shall deem just and appropriate, not only in respect to the matters, disputes and claims submitted for decision, but also with respect to the mode and times of executing and performing any of the acts, deeds or other matters which may be directed to be done or awarded.

25.2.3. Production of Books and Records. The arbitrator shall have the authority and power to request the production of any books or records in the possession or control of any of the parties, and to order that any party in the meantime shall have access to and be permitted to inspect and take copies of all or any of the same relating to the matters in dispute.

25.2.4. Grant of Relief. The arbitrator may grant any remedy or relief that the arbitrator deems just and equitable and within the scope of this Agreement, including, but not limited, injunctive relief and/or specific performance, provided, however, that the Arbitrator shall not be entitled to grant injunctive relief of any kind to any party which disrupts or interferes with the provision of cable television programming pursuant to this Agreement.

25.2.5. Proceeding Ex Parte. Should any party refuse or neglect to furnish the arbitrator with any papers or information demanded, or fail to attend hearings, the arbitrator is empowered by all parties to proceed ex parte.

25.3. Costs and Fees. Each party to the arbitration shall be responsible for its own costs and expense of the arbitration and the costs and fees of JAMS shall be borne equally by the parties to the arbitration.

25.4. Proceedings/Format.

25.4.1. Pre-hearing. Once the arbitrator is chosen, the Arbitration Administrator at JAMS may be authorized and directed upon application of any party to schedule a pre-hearing conference with the arbitrator for the purpose of narrowing the issues, establishing a discovery schedule, arranging an acceptable procedure for any law and motion proceedings and in all respects arranging for the most expeditious hearing possible of the matters in dispute.

25.4.2. Discovery. Discovery shall be at the discretion of the arbitrator and allowed only upon a showing of good cause utilizing the following guidelines.

25.4.2.1. Arbitrator's Discretion. The arbitrator shall have discretion to order pre-hearing exchange of information, including, but not limited to, the production of requested documents and exchanges of summaries of testimony of proposed witnesses.

25.4.2.2. Depositions. Each party may depose no more than three non-expert witnesses, whether they are party or nonparty witnesses. Any such depositions shall be completed no later than ten (10) days prior to the arbitration hearing. Notice of deposition need not comply with the formal requirements of California law, and may consist of a letter from one party's counsel to the other counsel, but such notice shall be faxed or hand-delivered at least ten (10) days prior to the scheduled deposition. The parties' counsels shall endeavor in good faith to schedule and coordinate depositions in the most efficient manner possible.

25.4.2.3. Interrogatories. No party may serve any interrogatories on another party.

25.4.2.4. Expert Witnesses. There shall be an early and prompt designation of expert witnesses who may be called upon to testify at the arbitration hearing. Their depositions and all other discovery shall be allowed only upon a showing of good cause.

25.4.3. Evidence. Judicial rules relating to the order of proof, the conduct of the hearing and the presentation and admissibility of evidence shall not be applicable in this proceeding. Any relevant evidence, including hearsay, shall be admitted by the arbitrator if it is the sort of evidence upon which responsible persons are customarily to rely in the conduct of serious affairs, regardless of the admissibility of such evidence in a court of law.

25.4.4. Location and Time of Hearing. The arbitration hearing shall be conducted in Modesto, California, unless the parties agree upon another location. The arbitrator shall fix the time for hearing and provide each party with at least fifteen (15) days' written notice thereof.

25.4.5. Counsel. Any party may be represented by counsel in the arbitration.

25.4.6. Time Limits. To the extent possible, the arbitration shall be scheduled on consecutive days from 9:00 A.M. to 5:00 P.M., with a one-hour lunch break. The award shall be made by the arbitrator on or before thirty (30) days after final submission of all matters.

25.4.7. Reasoned Opinion: Jurisdiction. In rendering the award, the arbitrator shall set forth the reasons for his or her decision. The arbitrator shall follow the substantive law and the rules of equity of the State of

California, including the provisions of California law dealing with arbitration as they exist at the time of the arbitration except to the extent such provisions are inconsistent with this Agreement. The arbitrator may grant any remedy or relief inconsistent with this Agreement. The arbitrator may grant any remedy or relief that the arbitrator determines to be just and reasonable, except injunctive relief as set forth in Section 25.2.4, according to the applicable laws and within the scope of this Agreement.

- 25.5. Fees and Costs. Attorneys' fees, costs and expenses incurred in connection with the arbitration shall be awarded in accordance with the provision of this Agreement, and in accordance with the provisions of California law and the rules of practice and procedure of JAMS to the extent such rules do not conflict with this Agreement.
- 25.6. Additional Procedures. The foregoing procedures shall be supplemented by the rules of practice and procedure of JAMS in effect at the time of the arbitration to the extent such rules do not conflict with anything stated above.
- 25.7. Other Relief. The foregoing provisions for non-binding arbitration shall not prevent any party from seeking relief from a court of competent jurisdiction in the event of a breach or other conduct by any party which threatens the innocent party with irreparable injury. All parties agree to waive any and all claims to injunctive relief.

26. Should any part, term or provision of the Agreement be decided by a court of competent jurisdiction to be illegal or in conflict with any law of the State of California, or

otherwise be rendered unenforceable or ineffectual, the validity of the remaining parts, terms or provisions hereof shall not be affected thereby.

27. This Agreement shall not be assignable.

This Agreement is effective as of the date first written above and will continue in effect for a period of ten (10) years.

28. This Agreement may be modified and amended at any time by the mutual agreement of the parties in writing.

29. This Agreement may be terminated prior to its term in the event of the occurrence of any of the following:

1. County fails to meet its financial obligations for services rendered.
2. City fails to perform its duties and obligations as set forth in the terms of this Agreement.
3. Mutual written agreement of the parties.

30. At all times during the course of this Agreement and upon termination or cancellation of this agreement, all equipment, improvements and personal property of any kind located on the property described herein shall be the sole property of the City, except for the equipment purchased by the County for the sole purpose of broadcasting the County's government channel on the Charter Communications Cable System. The County agrees to provide City an inventory of all equipment to be installed in the Master Control Room, prior to its installation, to which the County intends to retain title.

31. This Agreement shall be construed in accordance with and governed by the laws of the State of California.

32. This Agreement, consisting of a total of sixteen (16) pages, may be executed in counterpart.

33. All words used herein in the singular number shall include the plural and the present tense shall include the future and the masculine gender shall include the feminine and neuter.

IN WITNESS WHEREOF, the City of Modesto, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. _____, adopted by the City Council of the City of Modesto on the 4th day of March 2003, and the County of Stanislaus has caused this Agreement to be executed.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-122**

A RESOLUTION APPROVING AN AMENDMENT TO THE MODESTO URBAN AREA GENERAL PLAN TO ADOPT CHANGES TO: THE CIRCULATION AND TRANSPORTATION MAP, SCHOOL POLICY TEXT, ARCHAEOLOGICAL AND CULTURAL RESOURCE POLICIES, AIRPORT NOISE POLICY, EMPLOYMENT ESTIMATES, AND SALIDA COMPREHENSIVE PLANNING DISTRICT, (CITY INITIATED, FILE NO. GPA 2003-01)

WHEREAS, a General Plan for the City of Modesto entitled “City of Modesto Urban Area General Plan”, was adopted by the City Council by Resolution No. 95-409 on August 15, 1995, in accordance with Section 65300 of the Government Code, and

WHEREAS, on August 15, 1995, prior to the adoption of the City of Modesto Urban Area General Plan, by Resolution No. 95-408, the City Council certified the Final Master Environmental Impact Report (“MEIR”) for the Urban Area General Plan (SCH No. 92052017); and

WHEREAS, Government Code Section 65358 permits the amendment of General Plans by the legislative body up to four times per year, and

WHEREAS, said General Plan has been amended by Modesto City Council Resolution Nos. 95-584, 96-20, 96-338, 96-639, 97-3, 97-137, 97-158, 98-293, 99-162, 99-564, 2000-303, 2000-633, 2001-47, 2001-476, 2002-154 and 2002-526, copies of which are on file in the office of the City Clerk, and

WHEREAS, following adoption of the City’s Capital Facilities Fees (CFF) Update in 1999 a general plan amendment to the General Plan Circulation and Transportation Diagram roadway network was initiated by City Staff, as modified by

certain recommended upgrades and downgrades by Engineering and Transportation staff, to reflect said CFF program; and

WHEREAS, additional amendments to the General Plan to reflect changes in various laws and regulations and a traffic model update were initiated including: Airport Noise Policy, Historic Resource Policy, Schools Policy, Employee Estimates, and Salida Comprehensive Planning District, a copy of which is attached as **Exhibit “A”**; and

WHEREAS, pursuant to Public Resources Code Section 21157.6, a Draft comprehensive update to the City’s General Plan Master Environmental Impact Report (“MEIR Update”) (SCH No. 1999082041) document was prepared to meet the Public Resource Code requirements regarding adequacy of environmental review, that includes analysis of the proposed General Plan Amendments along with a detailed traffic study, a copy of which is available at the Community and Economic Development Department, 1010 Tenth Street, Modesto, 95354, and

WHEREAS, the Draft MEIR Update was circulated for a 45-day public review period from November 25, 2002 to January 8, 2003, and

WHEREAS, on December 10, 2002 copies of the proposed General Plan Amendment, and notice of public hearings for the amendment was sent to the appropriate entities as described in Government Code Section 65352 for the required 45-day review period starting December 13, 2002 and ending January 27, 2003, and

WHEREAS, City staff determined that this General Plan amendment meets the Amendment Criteria set forth in Section II-C (4) of the General Plan, and

WHEREAS, on February 10, 2003, the Planning Commission held a duly noticed public hearing in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto,

California, at which hearing evidence both oral and documentary relating to this proposed amendment to the Modesto Urban Area General Plan was considered, and

WHEREAS, after said public hearing, the Modesto Planning Commission adopted Resolution No. 2003-08, recommending to the City Council recommended the City Council certify the MEIR Update and adopt the related statement of findings of significant impacts and rejection of alternatives, statement of overriding considerations, and a mitigation monitoring program, and

WHEREAS, concurrent with its review of the proposed General Plan Amendment, the City Council certified a Final Master Environmental Impact Report Update (SCH#1999082041) (“FMEIR Update”) for the Modesto Urban Area General Plan that comprehensively updated the document pursuant to the requirements of Public Resources Code Section 21157.6, and analyzed the proposed General Plan Amendment, and

WHEREAS, said matter was set for a public hearing of the City Council to be held on March 4, 2003, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, for the purpose of receiving public comment on the proposed amendment to the Modesto Urban Area General Plan text and diagrams in the Community Development Policies, Community Services and Facilities, Public Safety, and Environmental Resources and Open Space Sections of the General Plan Sections as set forth in **Exhibit “A”**.

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it hereby finds and determines that the proposed amendment to the Modesto Urban Area General Plan to adopt changes to the Circulation and Transportation map, School

Policy text, Archaeological and Cultural Resource policies, Airport Noise policy, Employment Estimates, and Salida Comprehensive Planning District, is required for the public health, safety and welfare of the citizens of Modesto because:

1. The amendment will revise the City's General Plan street system to be more economically efficient and these changes would improve the City's ability to finance necessary future roadway improvements. The amended street system will provide for the safe circulation of traffic at General Plan buildout.
2. The amendment will revise historic resources policies contained in Chapter VII of the General Plan (Environmental Resources and Open Space) to be consistent with Section 21084.1 of the Public Resources Code and Section 15064.5 of the CEQA Guidelines. The amended policies will provide for the integration of the cultural resources identified by the Modesto Landmark Preservation Commission into the General Plan, thereby improving the consistency of Commission and General Plan land use policies.
3. The amendment will provide appropriate Airport Noise studies including new contours to meet FAA requirements when an upgrade to jet air service for the City occurs. This will improve consistency between the General Plan and future airport planning and expansion activities, particularly in the area of noise element compliance.
4. The amendment will update the land uses in the Salida area to provide more realistic build out projections to assist in future planning efforts and analysis of infrastructure needs. Consolidation of the Stoddard, Stoddard/Dale, and Highway 99 Comprehensive Planning Districts (CPD's) with the Salida CPD would reflect a more efficient planning approach for the area. This consolidation and related Modesto General Plan policy amendments would be under-taken under the City's planning powers, and would not affect either Stanislaus County's authority to adopt a Salida Community Plan or the County's authority to determine the contents of that plan.
5. The amendment will update School facilities policies consistent with state law, specifically SB-50 and Prop 1A, regarding financing public school construction. This will conform City policies to the controls on school facilities financing established by state law.
6. The amendment will update future employment estimates to reflect current information on employment generation that has been

gathered from other communities with similar types of development. This improves the accuracy of projections that are made for planning purposes. These updated employment estimates are included in the Master EIR traffic model database.

and said General Plan is hereby amended to read as shown on **Exhibit "A"** attached hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community Development Director is hereby authorized and directed to forward certified copies of this resolution and said amendment to the General Plan to the Board of Supervisors, and file a notice of determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at the regular meeting of the Council of the City of Modesto held on March 4, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

Ayes: Councilmembers: Conrad, Fisher, Keating, O'Bryant, Mayor Sabatino

Noes: Councilmembers: Jackman

Absent: Councilmembers: Frohman

ATTEST: Jean Zahr
JEAN ZAHR, City Clerk

**PROPOSED AMENDMENT TO GENERAL PLAN TEXT: COMMUNITY VISION POLICIES,
PAGE I-2**

2. Visions for the Future

The Modesto Urban Area General Plan provides an opportunity to address a variety of visions, as follows:

a. Overall Mission Statement

The following Mission Statement, originally developed by the General Plan Citizens' Steering Committee, remains the most appropriate statement to guide the overall future development of the Modesto community. Altered slightly to fit the context, the Mission Statement of the Modesto Urban Area General Plan reads as follows:

The Modesto Urban Area General Plan addresses the collective challenges of the future. The Urban Area General Plan presents a blueprint for the preservation of Modesto's "quality of life" while providing direction for the growth of business and industry to meet the needs of the future generations in the Modesto community.

b. Employment Opportunities

A guiding force in this General Plan is economic development to provide jobs to match population growth. This General Plan provides for a total of ~~3,800~~ 5,000 acres of new Business Park and ~~4,300~~ 1,000 acres of Commercial land uses. Through these new land uses, along with miscellaneous support commercial land uses in future residential areas, opportunities for land use supporting more than ~~200,000~~ 144,000 new jobs are created in this General Plan.

c. More Comprehensive Planning

As Modesto grows, there will be a need for comprehensive planning approaches to deal with increasingly complex land development and public facilities and service issues. Chapter II of this Plan presents a strategy to recognize the urbanized community as it exists in 1995. The land use pattern in this area, termed the Baseline Developed Area, is not expected to change substantially. Future growth would occur in accordance with existing City zoning designations, and with other City policies in existence as of the Base Year (1995) of this General Plan. This strategy allows the City to concentrate its future growth in the Redevelopment Area, and in the Planned Urbanizing Area, which forms the outer perimeter of the General Plan area. Future projects in the Planned Urbanizing Area are guided by focused policies in the form of Comprehensive Planning Districts.

GPA 2 (1/16/96)
GPA 9 (4/13/99)

b. Supplemental Land Use Policies:

In addition, the Comprehensive Plan shall also address the following land use policies which apply to this particular Comprehensive Planning District:

- (1) The commercial uses adjacent to Freeway 99 shall be designed to present an attractive gateway to the City.

c. Housing Policy Implementation:

Because this Comprehensive Planning District does not propose any residential uses, the Housing Policies presented in Chapter IV do not apply to this Comprehensive Planning District.

5. Provision of Public Facilities and Services:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the public facilities and services policies presented in Chapter V. In addition, the Comprehensive Plan shall also address the following policies which apply to this particular Comprehensive Planning District:

- a. Sewer service for this Comprehensive Planning District may be the installation of the West No. 2 sanitary sewer trunk or an alternative solution for sewer service may be found at the time of the preparation of a Comprehensive Plan. A limited tie-in to the existing West Trunk may be permitted as an interim measure as determined by the Public Works and Transportation Department.

6. Focused EIR:

The Focused Environmental Impact Report for this Comprehensive Planning District shall consider the following issues identified in the Master Environmental Impact Report for the General Plan:

- a. A total of ~~31,000~~ 26,000 employees was assumed for this Comprehensive Planning District.

7. Special Considerations Unique to this Comprehensive Planning District:

The exact boundary between the Regional Commercial uses and the Business Park uses shall be determined by the Comprehensive Plan.

The Comprehensive Plan which implements this Comprehensive Planning District shall address the relevant Housing Policies presented in Chapter IV for the residentially-designated portion of this Comprehensive Planning District.

5. Provision of Public Facilities and Services:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the public facilities and services policies presented in Chapter V. In addition, the Comprehensive Plan shall also address the following policies which apply to this particular Comprehensive Planning District:

- a. This Comprehensive Planning District will be served by a subtrunk in Coffee Road that ties into the existing sanitary sewer system.

6. Mitigated Negative Declaration:

General Plan Policy III(D)(1)(g) specifically exempts the Coffee/Claratina Specific Plan from the requirement to prepare a Focused EIR. CEQA review for this Comprehensive Planning District shall be satisfied by a Mitigated Negative Declaration prepared pursuant to Section 2115.71 of CEQA.

The Mitigated Negative Declaration for this Comprehensive Planning District shall consider the following issues identified in the Master Environmental Impact Report for the General Plan:

- a. A total of 1,000 dwelling units was assumed for this Comprehensive Planning District.
- b. A total of ~~800~~ 1340 employees was assumed for this Comprehensive Planning District.

7. Special Considerations Unique to this Comprehensive Planning District:

None.

**PROPOSED AMENDMENT TO GENERAL PLAN TEXT: COLLEGE WEST CPD,
PAGE III-24**

The Comprehensive Plan to implement this Comprehensive Planning District shall address the public facilities and services policies presented in Chapter V. In addition, the Comprehensive Plan shall also address the following policies which apply to this particular Comprehensive Planning District:

- a. This Comprehensive Planning District is presently served by the West sanitary sewer trunk.

6. Focused EIR:

The Focused Environmental Impact Report for this Comprehensive Planning District shall consider the following issues identified in the Master Environmental Impact Report for the General Plan:

- a. A total of ~~8,400~~ 6,290 employees was assumed for this Comprehensive Planning District.

7. Special Considerations Unique to this Comprehensive Planning District:

The Final EIR prepared for the College West Industrial Park in 1991, should be consulted on the preparation of the Comprehensive Plan for this Comprehensive Planning District.

**PROPOSED AMENDMENT TO GENERAL PLAN TEXT: EMPIRE NORTH CPD,
PAGE III-33**

6. Focused EIR:

The Focused Environmental Impact Report for this Comprehensive Planning District shall consider the following issues identified in the Master Environmental Impact Report for the General Plan:

- a. A total of 1,400 dwelling units was assumed for the Comprehensive Planning District.
- b. A total of 270 employees was assumed for this Comprehensive Planning District.
- c. A biological analysis will need to be prepared.

7. Special Considerations Unique to this Comprehensive Planning District:

Special considerations are as follows:

- A. The Santa Fe Railroad.
- B. The Dry Creek and the flood plain
- C. The segmented nature of the CPD.
- D. The Eastside Mosquito Abatement District's Airstrip.

**PROPOSED AMENDMENT TO GENERAL PLAN TEXT: FAIRVIEW VILLAGE CPD,
PAGE III-36**

b. Supplemental Land Use Policies:

In addition, the Comprehensive Plan shall also address the following land use policies which apply to this particular Comprehensive Planning District:

- (1) Notwithstanding the land use intensities presented in Section III-B, this Comprehensive Planning District shall contain a maximum of 2,250 dwelling units.

c. Housing Policy Implementation:

The Comprehensive Plan which implements this Comprehensive Planning District shall address the relevant Housing Policies presented in Chapter IV for the residentially-designated portion of this Comprehensive Planning District.

5. Provision of Public Facilities and Services:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the public facilities and services policies presented in Chapter V. In addition, the Comprehensive Plan shall also address the following policies which apply to this particular Comprehensive Planning District:

- a. This Comprehensive Planning District will be served by a short subtrunk extension from the trunk sewer in South Modesto.

6. Focused EIR:

The Focused Environmental Impact Report for this Comprehensive Planning District shall consider the following issues identified in the Master Environmental Impact Report for the General Plan:

- a. A total of 2,250 dwelling units was assumed for this Comprehensive Planning District.
- b. A total of 800 employees was assumed for this Comprehensive Planning District.

7. Special Considerations Unique to this Comprehensive Planning District:

The exact boundaries of this Comprehensive Planning District will be determined by the Comprehensive Plan.

**PROPOSED AMENDMENT TO GENERAL PLAN TEXT: HETCHY HETCHY CPD,
PAGE III-40**

- (1) Notwithstanding the land use intensities presented in Section III-B, this Comprehensive Planning District shall contain a maximum of 4,400 dwelling units.
- (2) The Hetch Hetchy right-of-way, power lines, and aqueduct that traverse this Comprehensive Planning District present a significant design constraint that should be addressed.
- (3) The regional commercial uses should be located along the east side of McHenry Avenue to join the established commercial uses along McHenry Avenue.

c. Housing Policy Implementation:

The Comprehensive Plan which implements this Comprehensive Planning District shall address the relevant Housing Policies presented in Chapter IV for the residentially-designated portion of this Comprehensive Planning District.

5. Provision of Public Facilities and Services:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the public facilities and services policies presented in Chapter V. In addition, the Comprehensive Plan shall also address the following policies which apply to this particular Comprehensive Planning District:

- a. This Comprehensive Planning District will be served by an extension of the North Trunk from Dale Road easterly through two Comprehensive Planning Districts: Kiernan/Carver and Kiernan/McHenry.

6. Focused EIR:

The Focused Environmental Impact Report for this Comprehensive Planning District shall consider the following issues identified in the Master Environmental Impact Report for the General Plan:

- a. A total of 4,400 dwelling units was assumed for this Comprehensive Planning District.
- b. A total of ~~3,100~~ 4,000 employees was assumed for this Comprehensive Planning District.

7. Special Considerations Unique to this Comprehensive Planning District:

The exact boundary between the Village Residential and Regional Commercial uses will be determined by the Comprehensive Plan.

Exhibit III-9

HIGHWAY 99

COMPREHENSIVE PLANNING DISTRICT

1. Overview

This 570-acre Comprehensive Planning District proposes regional commercial uses to take advantage of proximity to Highway 99, and to present a "gateway" to Modesto.

2. Principal Comprehensive Planning District Policies

The Comprehensive Plan to implement this Comprehensive Planning District shall address the Principal Comprehensive Planning District Policies presented in this Chapter.

3. Land Use Description

a. Land Use Types: (See Section III-B)

- 570 acres designated "Regional Commercial"

b. Distribution of Land Uses Within the CPD

Not applicable, as there is only one land use proposed.

4. Land Use Policies

a. Implementation of Adopted Land Use Policies:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the Land Use Policies presented earlier in this Chapter, as follows:

(1) Overall Land Use Policies (Section III-C(1))

b. Supplemental Land Use Policies:

In addition, the Comprehensive Plan shall also address the following land use policies which apply to this particular Comprehensive Planning District:

(1) The Regional Commercial uses located adjacent to Freeway 99 shall be designed to present an attractive gateway to the City.

c. Housing Policy Implementation:

Because this Comprehensive Planning District does not propose any residential uses, the Housing Policies presented in Chapter IV do not apply to this Comprehensive Planning District.

5. Provision of Public Facilities and Services:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the public facilities and services policies presented in Chapter V. In addition, the Comprehensive Plan shall also address the following policies which apply to this particular Comprehensive Planning District:

- a. This Comprehensive Planning District can be served by a Westerly extension of the North Sanitary Sewer Trunk. However, downstream capacity in the system cannot accommodate the Highway 99 Comprehensive Planning District and Stoddard Comprehensive Planning District and the planned easterly extension to serve the City's North end. At some point, the westerly leg of the North Trunk will have to be served by the West No. 2 Trunk and a force main and trunk to the primary treatment plant.

6. Focused EIR:

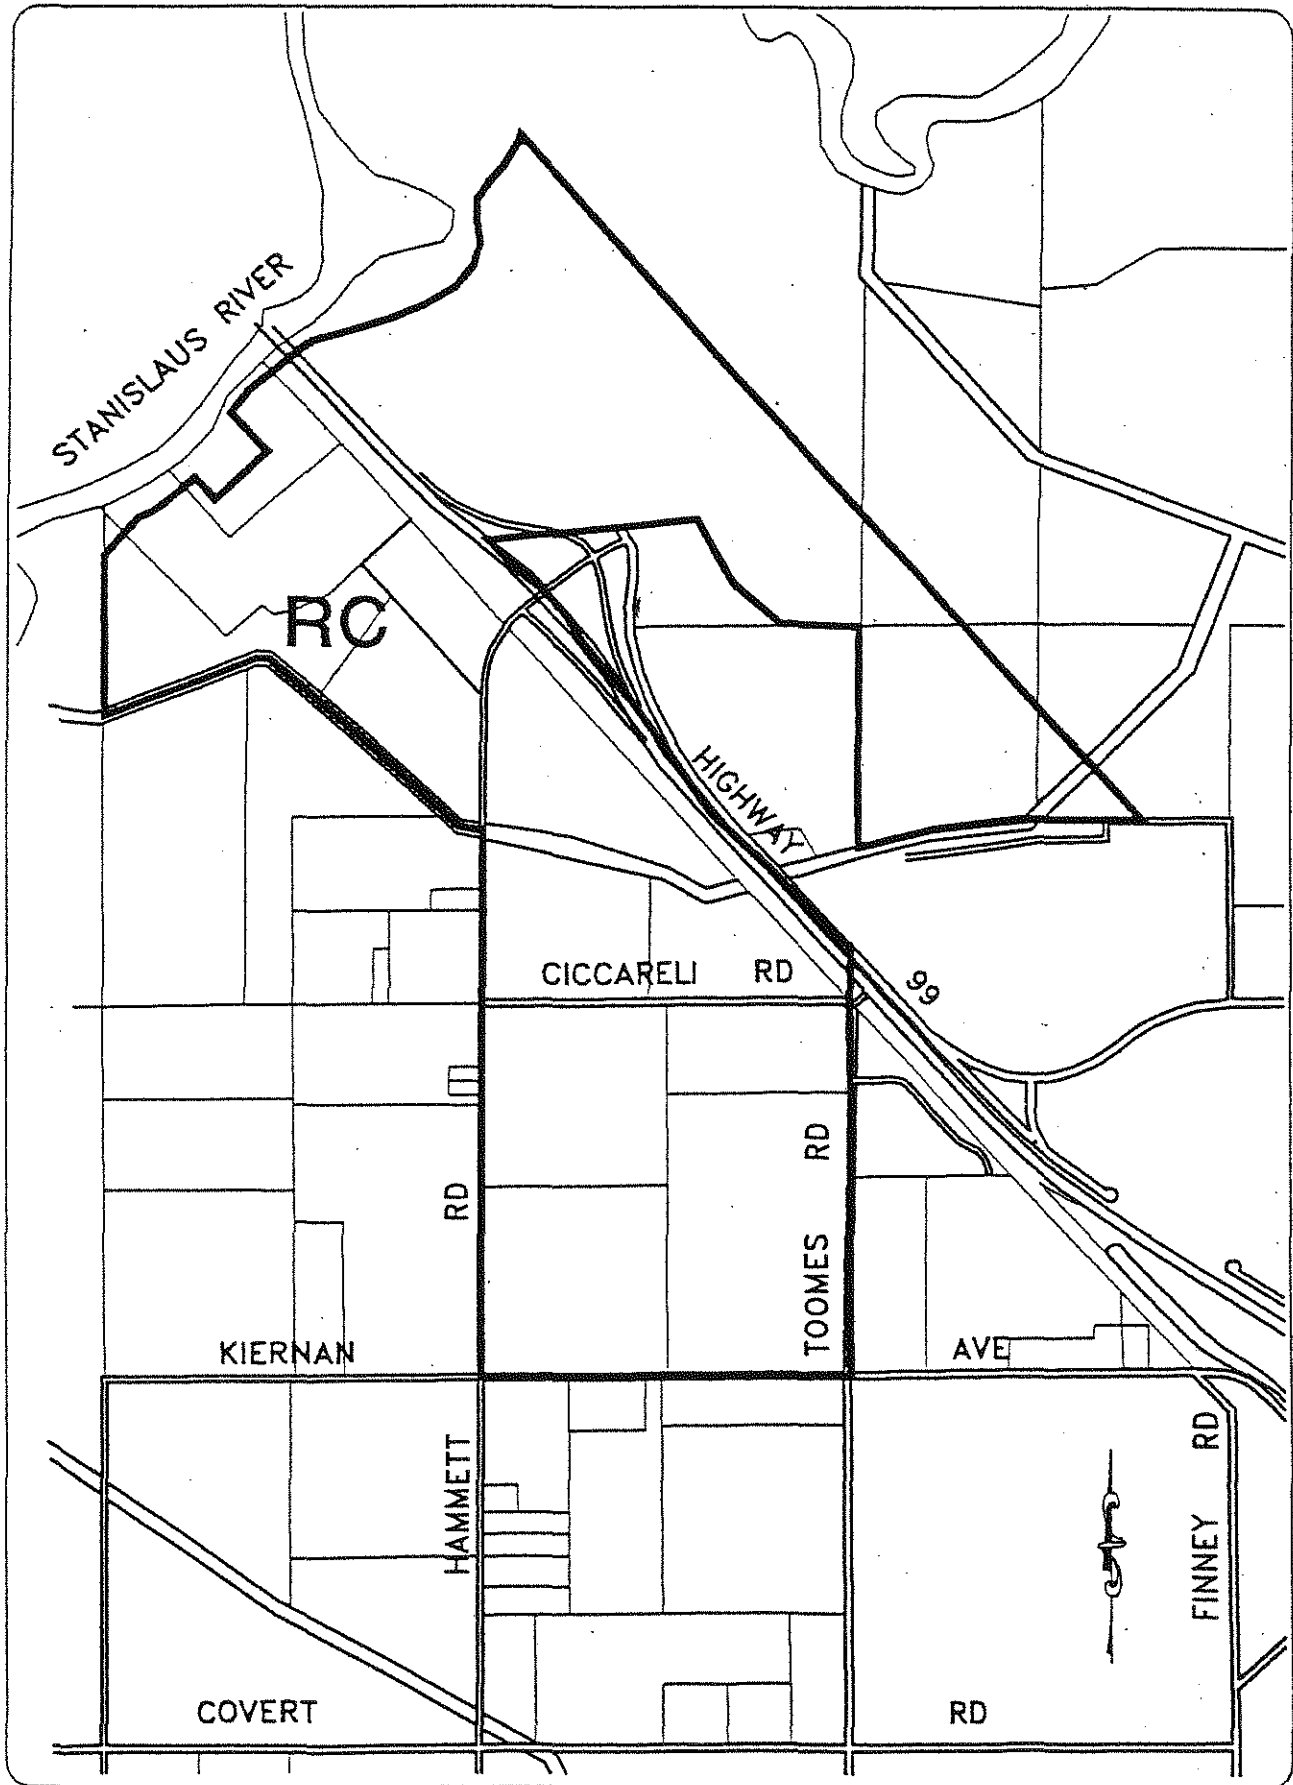

The Focused Environmental Impact Report for this Comprehensive Planning District shall consider the following issues identified in the Master Environmental Impact Report for the General Plan:

- a. A total of 11,000 employees was assumed for this Comprehensive Planning District.

7. Special Considerations Unique to this Comprehensive Planning District:

The exact boundaries of this Comprehensive Planning District will be determined by the Specific Plan.

HIGHWAY 99 C.P.D.

5. Provision of Public Facilities and Services:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the public facilities and services policies presented in Chapter V. In addition, the Comprehensive Plan shall also address the following policies which apply to this particular Comprehensive Planning District:

- a. This Comprehensive Planning District is already served by the West Sanitary Sewer Trunk.

6. Focused EIR:

The Focused Environmental Impact Report for this Comprehensive Planning District shall consider the following issues identified in the Master Environmental Impact Report for the General Plan:

- a. A total of ~~23,100~~ 15,400 employees was assumed for this Comprehensive Planning District.

7. Special Considerations Unique to this Comprehensive Planning District:

None.

**PROPOSED AMENDMENT TO GENERAL PLAN TEXT: JOHANSEN CPD,
PAGE III-49**

- (1) Notwithstanding the land use intensities presented in Section III-B, this Comprehensive Planning District shall contain a maximum of 3,100 dwelling units.
- (2) Johansen High School and Sutton Community Park, as significant existing public facilities, should be a focal point in this Comprehensive Planning District.
- (3) Compatibility with Santa Fe Railroad, as a significant noise generator, should be addressed in the Comprehensive Plan for this Comprehensive Planning District.

c. Housing Policy Implementation:

The Comprehensive Plan which implements this Comprehensive Planning District shall address the relevant Housing Policies presented in Chapter IV for the residentially-designated portion of this Comprehensive Planning District.

5. Provision of Public Facilities and Services:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the public facilities and services policies presented in Chapter V. In addition, the Comprehensive Plan shall also address the following policies which apply to this particular Comprehensive Planning District:

- a. This Comprehensive Planning District will be served by the easterly extension of the Yosemite sanitary sewer trunk along Yosemite Boulevard from Claus Road adjacent to the West, to the Town of Empire.

6. Focused EIR:

The Focused Environmental Impact Report for this Comprehensive Planning District shall consider the following issues identified in the Master Environmental Impact Report for the General Plan:

- a. A total of 3,100 dwelling units was assumed for this Comprehensive Planning District.
- b. A total of 1,000 employees was assumed for this Comprehensive Planning District.

7. Special Considerations Unique to this Comprehensive Planning District:

None.

**PROPOSED AMENDMENT TO GENERAL PLAN TEXT: KIERNAN/CARVER CPD,
PAGE III-52**

b. Supplemental Land Use Policies:

In addition, the Comprehensive Plan shall also address the following land use policies which apply to this particular Comprehensive Planning District:

- (1) Adequate buffering should be provided between the Business Park uses and residential use to the south and east.
- (2) Notwithstanding the land use intensities presented in Section III-B, this Comprehensive Planning District shall contain a maximum of ~~3,300~~ 3700 dwelling units.

c. Housing Policy Implementation:

The Comprehensive Plan which implements this Comprehensive Planning District shall address the relevant Housing Policies presented in Chapter IV for the residentially-designated portion of this Comprehensive Planning District.

5. Provision of Public Facilities and Services:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the public facilities and services policies presented in Chapter V. In addition, the Comprehensive Plan shall also address the following policies which apply to this particular Comprehensive Planning District:

- a. This Comprehensive Planning District will be served by an extension of the North Sanitary Sewer Trunk.

6. Focused EIR:

The Focused Environmental Impact Report for this Comprehensive Planning District shall consider the following issues identified in the Master Environmental Impact Report for the General Plan:

- a. A total of ~~23,100~~ 18,000 employees was assumed for this Comprehensive Planning District.
- b. A total of ~~3,300~~ 3,700 dwelling units was assumed for this Comprehensive Planning District.

**PROPOSED AMENDMENT TO GENERAL PLAN TEXT: KIERNAN/CARVER NORTH CPD,
PAGE III-56**

- (1) Notwithstanding the land use intensities presented in Section III-B, this Comprehensive Planning District shall contain a maximum of 2,300 dwelling units.
- (2) The regional commercial uses should be located along the west side of McHenry Avenue to join the established commercial uses along McHenry Avenue.

c. Housing Policy Implementation:

The Comprehensive Plan which implements this Comprehensive Planning District shall address the relevant Housing Policies presented in Chapter IV for the residentially-designated portion of this Comprehensive Planning District.

5. Provision of Public Facilities and Services:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the public facilities and services policies presented in Chapter V. In addition, the Comprehensive Plan shall also address the following policies which apply to this particular Comprehensive Planning District:

- a. This Comprehensive Planning District will be served by an extension of the North Trunk from Dale Road easterly through the Kiernan/Carver Comprehensive Planning District.

6. Focused EIR:

The Focused Environmental Impact Report for this Comprehensive Planning District shall consider the following issues identified in the Master Environmental Impact Report for the General Plan:

- a. A total of 2,300 dwelling units were assumed for this Comprehensive Planning District.
- b. A total of ~~600~~ 860 employees was assumed for this Comprehensive Planning District.

**PROPOSED AMENDMENT TO GENERAL PLAN TEXT: KIERNAN/MCHENRY CPD,
PAGE III-60**

Because this Comprehensive Planning District does not propose any residential uses, the Housing Policies presented in Chapter IV do not apply to this Comprehensive Planning District.

5. Provision of Public Facilities and Services:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the public facilities and services policies presented in Chapter V. In addition, the Comprehensive Plan shall also address the following policies which apply to this particular Comprehensive Planning District:

- a. This Comprehensive Planning District will be served by the North Sanitary Sewer Trunk after it is extended easterly through the Kiernan/Carver Comprehensive Planning District.

6. Focused EIR:

The Focused Environmental Impact Report for this Comprehensive Planning District shall consider the following issues identified in the Master Environmental Impact Report for the General Plan:

- a. A total of ~~15,000~~ 11,650 employees was assumed for this Comprehensive Planning District.

7. Special Considerations Unique to this Comprehensive Planning District:

The exact boundary between the Business Park and Regional Commercial uses will be determined by the Comprehensive Plan.

**PROPOSED AMENDMENT TO GENERAL PLAN TEXT: NORTH BEYER CPD,
PAGE III-63**

- (1) Notwithstanding the land use intensities presented in Section III-B, this Comprehensive Planning District shall contain a maximum of 1,200 dwelling units.
- (2) Neighborhood Shopping Center(s) developed within the Mixed Use areas shall be consistent with the City's Neighborhood Shopping Center Policy.

c. Housing Policy Implementation:

The Comprehensive Plan which implements this Comprehensive Planning District shall address the relevant Housing Policies presented in Chapter IV for the residentially-designated portion of this Comprehensive Planning District.

5. Provision of Public Facilities and Services:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the public facilities and services policies presented in Chapter V. In addition, the Comprehensive Plan shall also address the following policies which apply to this particular Comprehensive Planning District:

- a. This Comprehensive Planning District will be served by a subtrunk in Coffee Road that ties into the existing sanitary sewer system.

6. Focused EIR:

General Plan Policy III(D)(1)(g) specifically exempts the North Beyer CPD from the requirement to prepare a Focused EIR. CEQA review for the Comprehensive Plan for the North Beyer Comprehensive Planning District shall consider the following issues identified in the Master Environmental Impact Report for the General Plan:

- a. A total of 1,200 dwelling units was assumed for this Comprehensive Planning District.
- b. A total of 780 employees was assumed for this Comprehensive Planning District.

7. Special Considerations Unique to this Comprehensive Planning District:

None.

**PROPOSED AMENDMENT TO GENERAL PLAN TEXT: PARADISE/CARPENTER CPD,
PAGE III-66**

The Comprehensive Plan which implements this Comprehensive Planning District shall address the relevant Housing Policies presented in Chapter IV for the residentially-designated portion of this Comprehensive Planning District.

5. Provision of Public Facilities and Services:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the public facilities and services policies presented in Chapter V. In addition, the Comprehensive Plan shall also address the following policies which apply to this particular Comprehensive Planning District:

- a. This Comprehensive Planning District is already served by the West Sanitary Sewer Trunk.

6. Focused EIR:

The Focused Environmental Impact Report for this Comprehensive Planning District shall consider the following issues identified in the Master Environmental Impact Report for the General Plan:

- a. A total of 4,100 dwelling units was assumed for this Comprehensive Planning District.
- b. A total of ~~600~~ 1,540 employees was assumed for this Comprehensive Planning District.

7. Special Considerations Unique to this Comprehensive Planning District:

The exact boundaries of this Comprehensive Planning District will be determined by the Comprehensive Plan.

**PROPOSED AMENDMENT TO GENERAL PLAN TEXT: PELANDALE/MCHENRY CPD,
PAGE III-69**

b. Supplemental Land Use Policies:

In addition, the Comprehensive Plan shall also address the following land use policies which apply to this particular Comprehensive Planning District:

- (1) Notwithstanding the land use intensities presented in Section III-B, this Comprehensive Planning District shall contain a maximum of 400 dwelling units.
- (2) The uses in this Comprehensive Planning District should support the future use of light rail along the Union Pacific tracks.

c. Housing Policy Implementation:

The Comprehensive Plan which implements this Comprehensive Planning District shall address the relevant Housing Policies presented in Chapter IV for the residentially-designated portion of this Comprehensive Planning District.

5. Provision of Public Facilities and Services:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the public facilities and services policies presented in Chapter V. In addition, the Comprehensive Plan shall also address the following policies which apply to this particular Comprehensive Planning District:

- a. This Comprehensive Planning District will be served by the North Sanitary Sewer Trunk extension after it passes through these Comprehensive Planning Districts to the west: Kiernan/Carver, Kiernan/McHenry.

6. Focused EIR:

The Focused Environmental Impact Report for this Comprehensive Planning District shall consider the following issues identified in the Master Environmental Impact Report for the General Plan:

- a. A total of 400 dwelling units was assumed for this Comprehensive Planning District.
- b. A total of ~~600~~ 720 employees was assumed for this Comprehensive Planning District.

**PROPOSED AMENDMENT TO GENERAL PLAN TEXT: PELANDALE/SNYDER CPD,
PAGE III-73**

c. Housing Policy Implementation:

The Comprehensive Plan which implements this Comprehensive Planning District shall address the relevant Housing Policies presented in Chapter IV for the residentially-designated portion of this Comprehensive Planning District.

5. Provision of Public Facilities and Services:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the public facilities and services policies presented in Chapter V. In addition, the Comprehensive Plan shall also address the following policies which apply to this particular Comprehensive Planning District:

- a. This Comprehensive Planning District can be served one of two ways: a subtrunk from the North Trunk near Dale Road or extension of the adjacent North Trunk sanitary sewer to serve the Kiernan/Carver Comprehensive Planning District as well as this Comprehensive Planning District.

6. Focused EIR:

The Focused Environmental Impact Report for this Comprehensive Planning District shall consider the following issues identified in the Master Environmental Impact Report for the General Plan:

- a. A total of 2,800 dwelling units was assumed for this Comprehensive Planning District.
- b. A total of 930 employees was assumed for this Comprehensive Planning District.

7. Special Considerations Unique to this Comprehensive Planning District:

None.

**PROPOSED AMENDMENT TO GENERAL PLAN TEXT: ROSELLE/CLARIBEL CPD,
PAGE III-77**

b. Supplemental Land Use Policies:

In addition, the Comprehensive Plan shall also address the following land use policies which apply to this particular Comprehensive Planning District:

- (1) Notwithstanding the land use intensities presented in Section III-B, this Comprehensive Planning District shall contain a maximum of 7,300 dwelling units.
- (2) Adequate buffering shall be provided between the residential uses and the business park uses in this Comprehensive Planning District.
- (3) Special consideration shall be given in the design of this Comprehensive Planning District and the following edges: the high school site proposed by Village One; the Santa Fe Railroad; and the southern edge of the Riverbank General Plan/Sphere of Influence boundary.

c. Housing Policy Implementation:

The Comprehensive Plan which implements this Comprehensive Planning District shall address the relevant Housing Policies presented in Chapter IV for the residentially-designated portion of this Comprehensive Planning District.

5. Provision of Public Facilities and Services:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the public facilities and services policies presented in Chapter V. In addition, the Comprehensive Plan shall also address the following policies which apply to this particular Comprehensive Planning District:

- a. This Comprehensive Planning District can be readily served by extensions of the Roselle and Lakewood Sanitary Sewer Trunks that are adjacent in the Village One Comprehensive Planning District.

6. Focused EIR:

The Focused Environmental Impact Report for this Comprehensive Planning District shall consider the following issues identified in the Master Environmental Impact Report for the General Plan:

- a. A total of 7,300 dwelling units was assumed for this Comprehensive Planning District.
- b. A total of ~~10,200~~ 8,550 employees was assumed for this Comprehensive Planning District.

Exhibit III-20

SALIDA

COMPREHENSIVE PLANNING DISTRICT

1. Overview

This ~~1,450-~~ 4,472- acre Comprehensive Planning District is intended to precisely match the land uses adopted by Stanislaus County for the Salida Community Plan. Whether this Comprehensive Planning District completes development in the County, or annexes to the City and completes development, the proposed land uses are the same.

On August 29, 2000 the Stanislaus County Board of Supervisors adopted a General Plan update for the Salida Community Plan. The updated Community plan will be implemented through subsequent Specific Plans, rezones and General Plan amendments through Stanislaus County.

2. Principal Comprehensive Planning District Policies

The Comprehensive Plan to implement this Comprehensive Planning District shall address the Principal Comprehensive Planning District Policies presented in this Chapter.

3. Land Use Description

a. Land Use Types:

The land uses proposed for this Comprehensive Planning District are exactly the Land Use Designations adopted in the Stanislaus County General Plan for the Salida Community Plan as of ~~January 1, 1995~~ August 29, 2000 as follows:

Low Density Residential (LDR) (as defined in the Stanislaus County General Plan as of ~~January 1, 1995~~ August 29, 2000)

"Intent. The intent of this designation is to provide appropriate locations and adequate areas for single-family detached homes, in either conventional or clustered configurations. Single-family detached dwellings are the predominant housing type in areas so designated, and would remain so under this designation. Semi-detached dwellings and manufactured housing would be consistent with this designation.

Zoning. R-A (Rural Residential) and R-1 (Single-Family Residential) zones are appropriate within this designation. PD (Planned Development) zoning may also be appropriate provided the development does not exceed the established building intensity of this designation. The use of the US (Urban Service) combining district in conjunction with any of the above zones would be appropriate for areas adjacent to unincorporated towns so that annexation to

and service from the adjoining sanitary sewer district or community services district is required prior to development. Residential building intensity when served by a community services district or sanitary sewer district and public water district is zero to eight units per net acre. Building intensity for areas not served by public water and sewer service is zero to two units per net acre. Population density ranges from zero to 25 persons per net acre in areas served by public water and sewer and zero to six persons per net acre in other areas. Small second units, as permitted by state law may increase both the building intensity and the population density to a limited degree within this designation.

Appropriate Locations. The Low Density Residential designation is appropriate in established residential areas characterized by single family dwellings. It would also be appropriate in areas: (a) designated by the Board of Supervisors for ranchettes of 1/2 to 1 acre in size if the area is of diminished agricultural importance but capable of supporting rural residential development based on the eight factors to be considered in locating "Estate Residential" land; or (b) adjacent to unincorporated towns which can serve the development after annexation to and service by a sanitary district or community services district."

Medium Density Residential (MDR) (as defined in the Stanislaus County General Plan as of ~~January 1, 1995~~ August 29, 2000)

"Intent. The intent of this designation is to provide appropriate locations for single and multiple family units, primarily in semi-detached or clustered arrangements. Typical housing types would be single family detached manufactured houses, duplexes, triplexes and low-mass multi-family units (townhouses and garden apartments). All lands within this designation shall be within the boundaries of a community services district, sanitary district or similar public district which provides urban services except where such designation existed at the time of adoption of this plan.

Zoning. The R-2 (Duplex Residential) zone is appropriate within this designation. PD (Planned Development) zoning may also be appropriate provided the development does not exceed the established building intensity of this designation. PD zoning which allows sewage generated on site to be metered into the disposal system during non-peak hours are encouraged in communities with limited system capacity. Residential buildings intensity varies from zero to 14 units per net acre. Population density ranges from zero to 45 persons per net acre.

Appropriate Locations. The Medium Density Residential designation would be appropriate in areas adjacent to unincorporated towns where the Board of Supervisors has determined, pursuant to a community plan, that medium density residential use is needed. These areas will be developed only after annexation to and service by a sanitary district or community services district."

Medium High Density Residential (MHDR) (as defined in the Stanislaus County General Plan as of ~~January 1, 1995~~ August 29, 2000)

"Intent. The intent of this designation is to provide appropriate locations for housing types including duplexes, triplexes, fourplexes, and apartment buildings. This designation shall be within the boundaries of a community services district, sanitary district or similar public district which provides urban services.

Zoning. The R-3 (Multiple-Family Residential) zone is appropriate within this designation. PD (Planned Development) zoning may also be appropriate provided the development does not exceed the established building intensity of this designation. PD zoning which allows sewage generated on site to be metered into the disposal system during non-peak hours is encouraged in communities with limited system capacity. Residential building intensity varies from zero to 25 units per net acre. Population density ranges from zero to 85 persons per net acre.

Appropriate Locations. The Medium High Density Residential designation is appropriate in established residential areas characterized by duplexes, triplexes, fourplexes, and apartment buildings. It would also be appropriate in areas adjacent to unincorporated towns where the Board of Supervisors has determined, pursuant to a community plan, that medium high density residential use is needed. These areas will be developed only after annexation to and served by a sanitary district or community services district."

Commercial (C) (as defined in the Stanislaus County General Plan as of ~~January 1, 1995~~
August 29, 2000)

"Intent. The intent of this designation is to indicate areas best suited for various forms of light or heavy commercial uses, including, but not limited to, retail, service and wholesaling operations. The County has one designation to correspond to the various commercial zoning districts. This designation is intended for lands which demonstrate a valid supportive relationship to other existing or projected urban development.

Zoning. C-1 (Neighborhood Commercial), C-2 (General Commercial), and H-1 (Highway Frontage Commercial) zones shall be considered consistent with this designation. PD (Planned Development) zoning may also be appropriate provided the development does not exceed the established building intensity of this designation. The building intensity shall be determined by Zoning Ordinance development standards for setback, landscaping, height, parking and other requirements except that residential building intensity shall not exceed 25 units per net acre. In no case shall buildings exceed 75 feet in height nor shall they cover so much of the lot that insufficient area remains for parking, landscaping, etc. In commercial zones which allow dwelling units, population density can range from zero to 85 persons per net acre.

Appropriate Locations. The Commercial designation is appropriate in areas already committed to commercial use. In unincorporated towns this designation is appropriate for Central Business Districts and other areas within the sanitary

sewer or community services district in sufficient amount to serve the needs of the community. Areas adjacent to community services district may also be appropriate if the US (Urban Service) combining zone is utilized."

Industrial (as defined in the Stanislaus County General Plan as of January 1, 1995)

~~"Intent. The intent of this designation is to indicate areas for various forms of light or heavy industrial uses, including, but not limited to, manufacturing and warehousing. Generally, the Industrial designation shall be used in areas where public sewer and water is available or where the restrictions of the Planned Industrial designation is inappropriate. The Planned Industrial designation shall be used instead of the Industrial designation unless (a) the property to be designated is intended for a single use applicant not permitted in the Planned Industrial designation and needing a very large site (see discussion under DESIGNATING NEW INDUSTRIAL AREAS (Page 38) or, (b) the property is adjacent to an existing industrial area which is reaching capacity and whose services can be extended to serve the expansion.~~

~~**Zoning.** The LM (Limited Industrial), M (Industrial), and PI (Planned Industrial) zones shall be consistent with this designation. PD (Planned Development) zoning may also be appropriate provided the development does not exceed the established building intensity of this designation. Building intensity is governed by the fact that the Zoning Ordinance prohibits more than 75% coverage of the property by buildings. Buildings for human occupancy shall not exceed 75 feet in height. Population density is almost nonexistent as only one residential unit per parcel is allowed and then only if it is secondary to the industrial use of the property.~~

~~**Existing Locations.** Nearly all existing industrial areas are within or adjacent to the sphere of influence of a City or special district which serves an unincorporated town. Only one...west of McHenry (see Salida Community Plan in Stanislaus County's General Plan for complete text).~~

~~**Designating New Industrial Areas.** The amount of land designated as Industrial in the County has changed very little in the past 10 years, decreasing slightly during a five year period from 1979 to 1984 by about 6.9%. Most of this decrease has been through annexation to cities. Although a great deal of land is still available for industrial development, more than 70% is located in the Beard Tract.~~

~~The criteria listed below shall be used in evaluating potential areas, both for general Industrial designation and for designating sites for industries that need very large sites. There are few industries with the need for extremely large parcels but they do exist. It is not practical to designate a large industrial area because a large amount of land might lay idle for an extended period of time. If an industry requiring a large site approaches the County or if more industrial~~

~~sites are needed, the following criteria shall be used in determining whether or not a site is suitable for being designated Industrial:~~

- ~~a. Access. The proposed site should have adequate access to handle the type and quantity of traffic associated with industrial uses without impacting existing facilities. This shall usually mean that the area will be located on a major road at a minimum, with location on a state highway preferred.~~
- ~~b. Sewage disposal. Public sanitary sewer service should be available and a written commitment for service received. (Lands suitable for industrial development but without public sanitary sewer service should more appropriately be designated Planned Industrial.)~~
- ~~c. Water. An adequate supply of potable water should be available for industrial usage including water needed for fire suppression. Generally this will require a public water supply in order to meet fire flow standards.~~
- ~~d. Infrastructure. Other utilities (such as natural gas, electricity) shall be reasonably available to the site as might be required by the proposed uses.~~
- ~~e. Topography. The site is physically suitable for industrial development.~~
- ~~f. Williamson Act and other constraints to development. The site should be free from constraints such as valid Williamson Act Contracts that would inhibit rezoning and development of the area.~~
- ~~g. Conflicts. The proposed site development shall not cause land use conflicts with surrounding properties. From this viewpoint, expansion of existing areas is more desirable than designating totally new areas.~~
- ~~h. City General Plan Land Use Designation. Any new areas proposed for industrial designation shall not be inconsistent with the General Plan of any City in whose Sphere of Influence they lie."~~

Planned Industrial (PI) (as defined in the Stanislaus County General Plan as of ~~January 1 1995~~ August 29, 2000)

"**Intent.** The intent of this designation is to provide locations for light industrial development. Such locations may be so designated on the initiative of the county or may be requested by a property owner or group of property owners. The Planned Industrial designation shall be preferred to the Industrial designation as it allows more control of development to ensure that impacts on adjoining properties are reduced. It shall be used largely in areas without public sewer and/or water service but shall only be used if it is practical, both physically and financially to ~~prove~~ provide sewage disposal and water service as needed by the proposed development.

Zoning. Building intensity will be determined by the County on an individual basis, depending upon the nature and location of the proposed planned development. However, no buildings shall cumulatively occupy more than 70% of the area of any parcel. Population density is almost nonexistent as only one residential unit per parcel is allowed if it is secondary to the industrial use of the property. The A-2 (Exclusive Agriculture), PI (Planned Industrial), PD (25), PD (30), PD (43), PD (77), PD (88) and PD (126) zones shall be consistent with this designation.

Annexation. Areas designated Planned Industrial on the General Plan and rezoned for development which are located within the adopted Sphere of Influence of a city shall include the requirement that an agreement be signed in a form satisfactory to the City Attorney of the affected city and Stanislaus County Counsel guaranteeing that the property on which the planned industrial designation is applicable will be annexed to the affected city upon demand by the city and with the approval of the Stanislaus County Board of Supervisors.

Appropriate Locations. Appropriate locations for the Planned Industrial designation shall be based on the same criteria as used for designating new Industrial areas. The Planned Industrial designation shall be more appropriate than Industrial in locations with limited or no sanitary sewer capacity or in other locations where restricting the permitted uses is desirable. Based on these criteria, the following ~~two~~ areas *of the Salida Plan* have been designated Planned Industrial.

- a. ~~282 acres on the east side of Highway 99 between the Hammett Road and Pelandale Avenue interchanges~~ The area generally bounded by Sisk Road, MID Lateral No. 6, Dale Road and Ladd Road, and
- b. ~~183.31 acres on the south side of Kiernan Avenue, west of McHenry Avenue.~~ the area east and west of Highway 99 and north of the Hammett Road interchange, and
- c. the east side of Pirrone Road generally between Hammett Road and Kiernan Road.

~~**Planned Development** (as defined in the Stanislaus County General Plan as of January 1, 1995)~~

~~"Intent. The Planned Development designation is intended for land which, because of demonstrably unique characteristics, may be suitable for a variety of uses without detrimental effects on other property.~~

~~**Zoning.** Land within a Planned Development designation should be zoned A-2 (Exclusive Agriculture) until development occurs through Planned Development zoning. A PD (Planned Development) zone (which, with the A-2 zone, are the only zoning districts consistent with this designation) is applied through application and submission of specific development plans. Building intensity and~~

~~population density would be determined by the County on an individual basis, depending upon the nature and location of the proposed planned development.~~

~~**Appropriate Locations.** The Zoning Ordinance indicates that all applications for planned development should be consistent with the General Plan. The following are considered to be valid uses of the planned development designation consistent with the intent of this element.~~

- ~~a. Application for uses of unique character (not otherwise allowed as proposed in other zoning districts) for which findings can be made as to the appropriateness of the location and the absence of detrimental effect to the surrounding area.~~
- ~~b. Applications falling within an area designated by this element as a Planned Development area, subject to those resolutions within the appendix of this element that define special policy for planned development uses in the following area:
 - ~~(1)...(see Salida Community Plan for text)~~
 - ~~(2)...~~
 - ~~(3)..."~~~~

~~Highway Commercial Planned Development (as defined in the Stanislaus County General Plan as of January 1, 1995)~~

~~"Intent. This designation is intended for land located at freeway interchanges where it is necessary to provide services to highway travelers.~~

~~**Zoning.** Land within this designation shall be zoned for Exclusive Agriculture (A-2) until rezoned to Planned Development (PD). Population density and building intensity will be will be determined on a case-by-case basis.~~

~~Uses within this designation shall be limited to the following as principal uses:~~

~~Truck Stops
Restaurants
Motels
Service Stations
Overnight R.V. Camping
Fruit Stands~~

~~The following uses may be permitted, but only when accessory to use uses listed above:~~

~~Towing Service
Minor Emergency Automobile Repair
Convenience Market
Wine Tasting~~

~~Appropriate Locations. The Highway Commercial Planned Development designation is appropriate only for parcels adjacent to a freeway interchanges. No property shall be designated Highway Commercial Planned Development and rezoned PD unless findings are made that the change will not be detrimental to the agricultural value of the surrounding property and that the subject property is of diminished agricultural importance."~~

Neighborhood Parks (as defined in the Stanislaus County General Plan as of August 29, 2000)

Parks and vacant land acreage is based on a calculation need of 3 acres/1,000 residents projected in the Community Plan. Vacant parkland is representative of the community Plan "Proposed "Parks" symbol which denotes general location.

Elementary Schools (as defined in the Stanislaus County General Plan as of August 29, 2000)

Vacant land inventory for schools includes the planned middle school to be constructed at the northwest corner of Kiernan Avenue and Toomes road, and for three additional elementary schools that will be needed.

Middle Schools: *A total of 40 acres will be provided for Middle School sites.*

Private School: *Modesto Christian School, total of 40 acres.*

b. Distribution of Land Uses Within the CPD:

The distribution of the above land uses in this Comprehensive Planning District shall be as presented in the Stanislaus County General Plan for the Salida Community Plan as of ~~January 1, 1995~~ August 29, 2000, as shown in Figure III.

4. Land Use Policies

a. Implementation of Adopted Land Use Policies:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the Land Use Policies presented earlier in this Chapter, as follows:

- (1) Overall Land Use Policies (Section III-C(1))

b. Supplemental Land Use Policies:

In addition, the Comprehensive Plan shall also address the following land use policies which apply to this particular Comprehensive Planning District:

None.

c. Housing Policy Implementation:

Any County Housing Policies applicable to the Salida Community Plan, prior to the adoption of the Comprehensive Plan, shall be incorporated into the Comprehensive Plan.

5. Provision of Public Facilities and Services:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the public facilities and services policies presented in Chapter V. In addition, the Comprehensive Plan shall also address the following policies which apply to this particular Comprehensive Planning District:

- a. This Comprehensive Planning District is currently served by the Salida Sanitary Sewer District.

6. Focused EIR:

The Focused Environmental Impact Report for this Comprehensive Planning District shall consider the following issues identified in the Master Environmental Impact Report for the General Plan:

- a. The Final Master EIR Update for the Urban Area General Plan traffic model includes assumptions on the build out of the Salida Community Plan area which included:
b. A total of 7,300 dwelling units was assumed for this Comprehensive Planning District
c. A total of 35,780 employees was assumed for this Comprehensive Planning District

7. Special Considerations Unique to this Comprehensive Planning District:

The August 29, 2000 Salida Community Plan provides sufficient guidance for future land use. All development shall comply with the Salida Community Character and Design Guidelines adopted August 29, 2000. A Mello-Roos Community Facilities District was adopted in 1988, covering much of the property in the Salida Community Plan.

SALIDA C.P.D.

PROPOSED AMENDMENT TO GENERAL PLAN MAP:

Exhibit III-22

STODDARD

COMPREHENSIVE PLANNING DISTRICT

1. Overview

This 1,200-acre Comprehensive Planning District proposes a mixed-use pedestrian-oriented "Village" south of the Stanislaus River park, and a business park along Stoddard Road.

2. Principal Comprehensive Planning District Policies

The Comprehensive Plan to implement this Comprehensive Planning District shall address the Principal Comprehensive Planning District Policies presented in this Chapter.

3. Land Use Description

a. Land Use Types: (See Section III-B)

- 820 acres designated "Village Residential"
- 380 acres designated "Business Park"

b. Distribution of Land Uses Within the CPD:

The Support Commercial uses in the Village Residential portion of this Comprehensive Planning District should be sited to facilitate pedestrian access from the residential development.

4. Land Use Policies

a. Implementation of Adopted Land Use Policies:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the Land Use Policies presented earlier in this Chapter, as follows:

- (1) Overall Land Use Policies (Section III-C(1))
- (2) Neotraditional Planning Principles (Section III-C(3))

**PROPOSED AMENDMENT TO GENERAL PLAN TEXT: STODDARD CPD,
PAGE III-94 – THIS PAGE PROPOSED FOR DELETION**

b. Supplemental Land Use Policies:

In addition, the Comprehensive Plan shall also address the following land use policies which apply to this particular Comprehensive Planning District:

- (1) Notwithstanding the land use intensities presented in Section III-B, this Comprehensive Planning District shall contain a maximum of 2,700 dwelling units.
- (2) Adequate buffering should be provided between the proposed Business Park and the proposed Village Residential uses.

c. Housing Policy Implementation:

The Comprehensive Plan which implements this Comprehensive Planning District shall address the relevant Housing Policies presented in Chapter IV for the residentially-designated portion of this Comprehensive Planning District.

5. Provision of Public Facilities and Services:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the public facilities and services policies presented in Chapter V. In addition, the Comprehensive Plan shall also address the following policies which apply to this particular Comprehensive Planning District:

- a. This Comprehensive Planning District can be served by a westerly extension of the North Sanitary Sewer Trunk. However, downstream capacity in the system cannot accommodate the Highway 99 Comprehensive Planning District and Stoddard Comprehensive Planning District and the planned easterly extension to serve the City's north end. At some point, the westerly leg of the North Trunk will have to be served by the West No. 2 Trunk and a force main and trunk to the primary treatment plant.

6. Focused EIR:

The Focused Environmental Impact Report for this Comprehensive Planning District shall consider the following issues identified in the Master Environmental Impact Report for the General Plan:

- a. A total of 2,700 dwelling units was assumed for this Comprehensive Planning District.

**PROPOSED AMENDMENT TO GENERAL PLAN TEXT: STODDARD CPD,
PAGE III-95 – THIS PAGE PROPOSED FOR DELETION**

b. A total of 13,700 employees was assumed for this Comprehensive Planning District.

7. Special Considerations Unique to this Comprehensive Planning District:

The exact boundaries of this Comprehensive Planning District will be determined by the Comprehensive Plan.

STODDARD C.P.D.

Exhibit III-23

STODDARD/DALE

COMPREHENSIVE PLANNING DISTRICT

1. Overview

This 1,180-acre Comprehensive Planning District proposes a mixed-use pedestrian-oriented "Village" south of the Stanislaus River park, and a business park along Kiernan Avenue.

2. Principal Comprehensive Planning District Policies

The Comprehensive Plan to implement this Comprehensive Planning District shall address the Principal Comprehensive Planning District Policies presented in this Chapter.

3. Land Use Description

a. Land Use Types: (See Section III-B)

- 860 acres designated "Village Residential"
- 320 acres designated "Business Park"

b. Distribution of Land Uses Within the CPD:

The Support Commercial uses in the Village Residential portion of this Comprehensive Planning District should be sited to facilitate pedestrian access from the residential development.

4. Land Use Policies

a. Implementation of Adopted Land Use Policies:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the Land Use Policies presented earlier in this Chapter, as follows:

- (1) Overall Land Use Policies (Section III-C(1))
- (2) Neotraditional Planning Principles (Section III-C(3))

**PROPOSED AMENDMENT TO GENERAL PLAN TEXT: STODDARD/DALE CPD,
PAGE III-98 – THIS PAGE PROPOSED FOR DELETION**

b. Supplemental Land Use Policies:

In addition, the Comprehensive Plan shall also address the following land use policies which apply to this particular Comprehensive Planning District:

- (1) Notwithstanding the land use intensities presented in Section III-B, this Comprehensive Planning District shall contain a maximum of 3,300 dwelling units.
- (2) Adequate buffering should be provided between the proposed Business Park and the proposed Village Residential uses.

c. Housing Policy Implementation:

The Comprehensive Plan which implements this Comprehensive Planning District shall address the relevant Housing Policies presented in Chapter IV for the residentially-designated portion of this Comprehensive Planning District.

5. Provision of Public Facilities and Services:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the public facilities and services policies presented in Chapter V. In addition, the Comprehensive Plan shall also address the following policies which apply to this particular Comprehensive Planning District:

- a. This Comprehensive Planning District can be served by a westerly extension of the North Sanitary Sewer Trunk. However, downstream capacity in the system cannot accommodate the Highway 99 Comprehensive Planning District and Stoddard Comprehensive Planning District and the planned easterly extension to serve the City's north end. At some point, the westerly leg of the North Trunk will have to be served by the West No. 2 Trunk and a force main and trunk to the primary treatment plant.

6. Focused EIR:

The Focused Environmental Impact Report for this Comprehensive Planning District shall consider the following issues identified in the Master Environmental Impact Report for the General Plan:

- a. A total of 3,300 dwelling units was assumed for this Comprehensive Planning District.

**PROPOSED AMENDMENT TO GENERAL PLAN TEXT: STODDARD/DALE CPD,
PAGE III-99 – THIS PAGE PROPOSED FOR DELETION**

- b. A total of 11,700 employees was assumed for this Comprehensive Planning District.
7. Special Considerations Unique to this Comprehensive Planning District:
- a. The exact boundaries of this Comprehensive Planning District will be determined by the Comprehensive Plan.

STODDARD/DALE C.P.D.

**PROPOSED AMENDMENT TO GENERAL PLAN TEXT: CARPENTER/WHITMORE CPD,
PAGE III-112**

- (1) Notwithstanding the land use intensities presented in Section III-B, this Comprehensive Planning District shall contain a maximum of 3,500 dwelling units.
- (2) The landfill located in this Comprehensive Planning District presents a significant design constraint. This constraint should be addressed in the Comprehensive Plan.

c. Housing Policy Implementation:

The Comprehensive Plan which implements this Comprehensive Planning District shall address the relevant Housing Policies presented in Chapter IV for the residentially-designated portion of this Comprehensive Planning District.

5. Provision of Public Facilities and Services:

The Comprehensive Plan to implement this Comprehensive Planning District shall address the public facilities and services policies presented in Chapter V. In addition, the Comprehensive Plan shall also address the following policies which apply to this particular Comprehensive Planning District:

- a. This Comprehensive Planning District will be served by a new South No. 2 Sanitary Sewer Trunk over Tuolumne River to the primary treatment plant at the foot of Sutter Street.

6. Focused EIR:

The Focused Environmental Impact Report for this Comprehensive Planning District shall consider the following issues identified in the Master Environmental Impact Report for the General Plan:

- a. A total of 3,500 dwelling units was assumed for this Comprehensive Planning District.
- b. A total of ~~500~~ 1,200 employees was assumed for this Comprehensive Planning District.

7. Special Considerations Unique to this Comprehensive Planning District:

The exact boundary between this Comprehensive Planning District and the Tuolumne River Comprehensive Planning District shall be determined by the Comprehensive Plan.

PROPOSED AMENDMENT TO GENERAL PLAN TEXT: STORM WATER DRAINAGE POLICIES, PAGE V-16

3. Storm Water Drainage Policies - Planned Urbanizing Area

- a. All of the Storm Water Drainage Policies for the Baseline Developed Area apply within the Planned Urbanizing Area.
- b. The City of Modesto shall require each new development area to be served with positive storm drainage systems. A positive storm drainage system may be comprised of catch basins, pipe lines, channels, recharge/detention basins and pumping facilities which discharge storm water to surface waters of the state. The positive storm drainage facilities shall consider the requirements presented in Table 9-1 of the Final Master Environmental Impact Report.
- c. The City of Modesto shall require positive storm drainage facilities in the Planned Urbanizing Area to accomplish storm water recharge to groundwater of 80% of the average annual runoff. Recharge shall be typically accomplished at recharge/detention basins, designed to be in compliance with applicable federal and state water quality regulations for both groundwater and surface water. The City shall update its Drainage Master Plan to cover the entire area within the City's Sphere of Influence.
- d. New areas shall be designed so that runoff in excess of groundwater recharge in Policy 3.c. shall be discharged to waters of the state in a manner not exceeding the undeveloped storm hydrograph.
- e. Dual-use flood control/recreation facilities shall be developed (dual-use facilities) as part of the storm drainage system. Dual-use facilities maximize efficient use of land and funds by satisfying needs for water quality, flood control, recreation and aesthetics within a single consolidated facility.
- f. Dual-use facilities shall be designed and constructed in accordance with the standards in the "Design Standards for Dual Use Flood control/Recreation Facilities" manual.
- g. *New developments shall be required to implement an appropriate selection of permanent pollution control measures in accordance with the City's implementation policies for the municipal NPDES stormwater permit. Permanent erosion control measures such as seeding and planting vegetation for new cut-and-fill slopes, directing runoff through vegetation, or otherwise reducing the offsite discharge of particulates and sediment are the most effective method of controlling offsite discharges of urban pollutants.*

4. Implementation

A storm water management program (SWMP) should be prepared by the City, potentially incorporating those measures listed in Table 9-4 in the Master Environmental Impact

**PROPOSED AMENDMENT TO GENERAL PLAN TEXT: SCHOOL POLICY,
PAGE V-25**

- (3) A school district has imposed school mitigation fees pursuant to Government Code Section 53080; and
 - (4) A school district has a valid application for the funding of public school capital facilities pending before the State unless it is not eligible for such State funding in which case the school district shall, within thirty (30) days after it has determined in good faith that it is so eligible, initiate a process leading to the filing of a valid application for such funding.
- k. The above policies (3e through 3k) shall not apply to residential projects approved in conjunction with a General Plan Amendment, rezoning, pre-zoning, annexation, or other legislative act that have completed the CEQA process (certification of an environmental impact report, adoption of a negative declaration or adoption of an exemption determination) as of March 5, 1991.

4. Implementation

The construction, maintenance, and day-to-day operations of schools is not governed by the City of Modesto. School districts with elected Boards of Directors are responsible for the actual implementation of School Facilities. Therefore, the City's role in the implementation of the above policies would be limited to: coordination with the affected school districts; determining whether a development project's impacts on school capital facilities is fully mitigated; and making appropriate findings under CEQA if the impacts are not fully mitigated.

5. Proposition 1A and Senate Bill 50

Upon the passage of Proposition 1A on November 3, 1998, the provisions of Senate Bill 50 became effective. Senate Bill 50 alters the method by which school facilities made necessary by development are addressed in the State of California. To the extent that the provisions of the General Plan relating to school facilities do not conflict with Senate Bill 50, they are suspended. The language relating to school facilities will remain unaltered in the General Plan so that a history of school facility development under Senate Bill 50 can exist prior to any further review and amendment of the General Plan provisions relating to school facilities. Should Senate Bill 50 be repealed, the provisions of the General Plan relating to school facilities which were suspended shall once again become effective.

I. COMMUNITY SERVICES - TRANSIT

1. Overview

In addition to the Circulation policies presented in this Chapter, the City should adopt a goal of improving public transportation that could include increased bus and light rail service. This could help mitigate some issues related to site-specific intersection operations or parking requirements, if combined with other trip reduction measures. The ability to add service may be determined by the availability of public sector funding sources, the extent of private sector participation or subsidy, and the overall feasibility of transit service.

2. Transit Policies - Baseline Developed Area and Planned Urbanizing Area

- a. Public transit services shall be provided, using the most cost-effective methods available and based upon professional analysis of alternatives.

 Jones & Stokes

**PROPOSED AMENDMENT TO GENERAL PLAN TEXT: FLOODING HAZARDS,
PAGE VI-4**

c. The results of the Flood Hazard Analysis shall be incorporated into the project design of any Comprehensive Plan.

d. *The Urban Area General Plan Update includes policies to restrict development in the flood plain. Existing policies of the Urban Area General Plan will also restrict the amount of post-development runoff from exceeding pre-development conditions.*

4. Implementation

From time to time, the City may adopt subsequent plans or policy documents to implement some or all of the policies listed above. These subsequent policy documents will be considered "anticipated subsequent projects" in the context of Section 21157.7 of CEQA. Chapter VIII of this General Plan presents a variety of other potential implementation tools.

D. PUBLIC SAFETY - FIRE HAZARDS

Fire protection policies within the City of Modesto are contained in Chapter V. Fire hazards in Modesto are primarily associated with urban fires. Urban fires may be defined as fires which occur in commercial, industrial and residential structures. Most urban fires are caused by human activity, and may result in property damage, injuries, and loss of life.

Over the years, building codes have been established and utilized to reduce the frequency and severity of urban fires. Electrical construction standards have been improved, building separation requirements have been implemented, and fire walls are now required to separate closely sited structures and properties. Buildings which are highly susceptible to fire may also have automatic sprinkler systems installed. Development standards established by the City of Modesto and Stanislaus County zoning codes, including setback and access requirements, also help to minimize urban fire hazards. However, despite these measures, older buildings which do not meet current building codes and/or were constructed prior to the implementation of protective zoning may represent a significant fire hazard.

Peak-load water supply is defined as "the supply of water available to meet both domestic water and fire fighting needs during the particular season and time of day when domestic water demand on a water system is at its peak". Pipeline sizes, pump capacities, and water storage capacity should be adequate to meet the demand for peak-load water supply. The following Policies supplement the Fire Protection Policies contained in Section V-K.

1. Fire Hazard Policies - Baseline Developed Area and Planned Urbanizing Area

a. Peak Load Water Supply

The City shall ensure that adequate water fire-flows are maintained throughout the City and shall regularly monitor fire-flows to ensure adequacy. New development shall comply with the minimum fire-flow rates, as presented in Appendix III-A of

**PROPOSED AMENDMENT TO GENERAL PLAN TEXT: CULTURAL RESOURCES,
PAGE VII-10**

Additional resources exist below the ground. Remnants of razed buildings exist below the surface with related deposits such as trash pits. These sub-surface features are some of the only evidence of past activities, enterprises, and peoples.

2. Policies in the Redevelopment Area and Baseline Developed Area

- a. For all proposed development within an archaeological resource study area (as depicted on Figure 8-1 in the Master Environmental Impact Report), a combination of archival research, particularly through the Central California Information Center at Turlock, and preliminary surface field reconnaissance shall be employed to identify any areas that may have been used by Native Americans. Areas containing prehistoric deposits shall be mapped with evaluation of their significance following only in those areas where proposed development might affect the resources.

Where proposed development could affect the resources, the City shall consult Table 8-1, "*Procedures for Mitigating and Monitoring Impacts to Cultural Resources*", in the Master Environmental Impact Report for the *required* steps to be implemented.

- b. For proposed development outside an identified archaeological resource study area (as depicted on Figure 8-1 in the Master Environmental Impact Report), no further research for prehistoric deposits is warranted unless specific information concerning the known or potential presence of significant cultural resources is identified in future updates at the applicable cultural resource information repository or through formal or informal input received from a qualified source. If previously unknown subsurface cultural resources are discovered during excavation activities, excavation would be temporarily halted and an archaeologist consulted as to the importance of the resources. Should the archaeologist determine that the resources are important, the project sponsor would follow the procedure described in Policy 2-a, above.

**PROPOSED AMENDMENT TO GENERAL PLAN TEXT: CULTURAL RESOURCES,
PAGE VII-11**

- c. The City of Modesto shall implement regulations which identify important historic resources, and establish regulations to preserve the important aspects of those resources. The City could encourage adaptive reuse of listed buildings, including historically sensitive restoration, as a means of preserving eligible structures. Restoration and renovation of buildings should be performed in accordance with the "Secretary of the Interior's Standards for the Treatment of Historic Properties" and the State Historic Building Code. The standards serve as guidelines for rehabilitation, restoration, preservation, retaining, and preserving historic character of a property.
- d. The City shall ensure that zoning provisions for structures of historical significance are sufficiently flexible to ensure that parking or other structures requirements of the Zoning Ordinance allow the historic structures to remain viable in the future.
- e. *The modification of historic structures and places can be mitigated through the application of existing regulations and consultation with the State Historic Preservation Officer, an interim procedure whereby the City evaluates proposals to modify historic structure and develops a program to reduce the impacts on an individual basis.*

Projects that follow Secretary of Interior Standards, in consultation with SHPO, can be considered mitigated to a level of less than significant.

- f. If archaeological resources are discovered at any time during construction, all activity shall cease, until the site is surveyed by a qualified archaeologist. The survey shall include mitigation measures, which shall be implemented before construction resumes. The survey shall follow the criteria presented in Appendix K of the CEQA Guidelines.
- g. *The unearthing of prehistoric items during construction can be mitigated by halting the construction activities and by applying mitigation measures developed by a qualified archaeologist.*

Mitigation a.: *Whenever possible, the City should seek to avoid disturbing or damaging archaeological resources. Preservation is the preferred manner of mitigating impacts to archaeological sites. Preservation may be accomplished by:*

1. *Planning construction to avoid archaeological sites;*
2. *Incorporating sites within parks, greenspace, or other open space;*
3. *Covering the sites with a layer of chemically stable soil;*
4. *Deeding the site into a permanent conservation easement.*

Mitigation b.: *When in-place mitigation is not feasible, data recovery through excavation may be necessary. A data recovery plan, which makes provisions for adequately recovering the scientifically consequential information about the site, shall be prepared and adopted prior to any excavation being undertaken. Such studies must be deposited with the CCIC in Turlock, California. Special rules apply to any archaeological sites known to contain human remains (Health and Safety Code sec. 7050.5; Guidelines sec. 15126.4[b]).*

Data recovery shall not be required if the lead agency determines that testing or studies already completed have adequately recovered the necessary data, provided that the data have already been documented in another EIR and are available for review at the California Historical Resource Regional Information Center (Guidelines sec. 15126.4[b])

- h. When structures or areas of historical significance over 45 years old are proposed for demolition, alteration, or where construction is proposed within 100 feet of that structure, the applicant shall submit data to the City regarding the structure's history or locations prepared by a qualified architectural historian. The City shall evaluate the historical significance of the proposal and require measures be implemented to preserve all structures and places it deems historically significant.
- i. *As an ongoing measure, the City of Modesto shall maintain professional standard inventories of historic resources, such as those conducted by Carey and Company in 1997, with the findings of those inventories concurred by the SHPO and kept on file with the State Office of Historic Preservation. The records will provide a preliminary assessment of eligibility at the initial study stage to indicate whether CEQA protections would apply in the case of a project application or whether the resource has previously been determined ineligible. When no previous survey has been conducted, buildings and structures older than 50 years must be evaluated by a professional historian or architectural historian prior to project approval to determine whether the resource is a historically significant resource, for purposes of CEQA.*

When CEQA does apply, the character-defining elements of resources that will be affected should be identified by an architectural historian, City staff member, or other professional qualified under Secretary of Interior Standards to review such projects. It is these elements that are a crucial part of the ability of the resource to convey its historic significance. Projects that would alter character-defining elements would cause a compromise in historic integrity and would constitute a significant impact. Projects that follow Secretary of Interior Standards, in consultation with SHPO, can be considered mitigated to a level of less than significant.

The modification of historic structures and places can be mitigated through the application of existing regulations and consultation with the State Historic Preservation Officer, an interim procedure whereby the City evaluates proposals to modify historic structures and develops a program to reduce the impacts on an individual basis.

4. Policies in the Planned Urbanizing Area

- a. Policies for the Planned Urbanizing Area are the same as those presented for the Baseline Developed Area.

G. NOISE

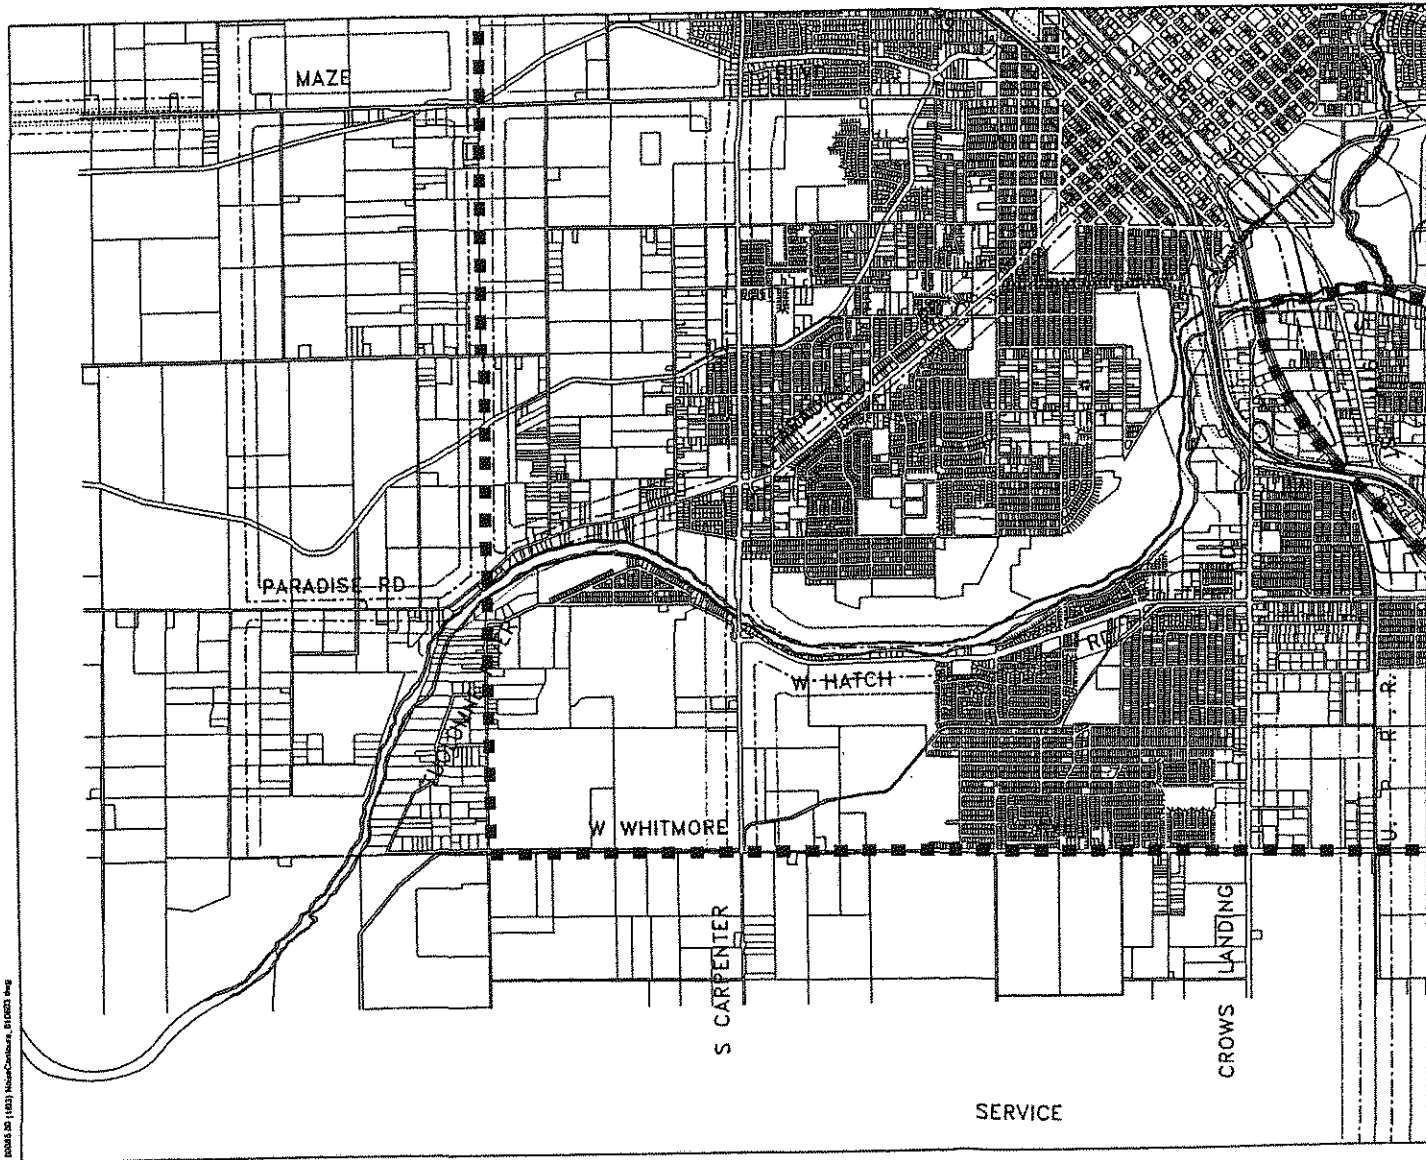

1. Overview

Noise pollution is recognized as a significant source of environmental degradation. In an effort to improve the quality of life in urban areas, California planning law requires every

- (1) Widened right-of-way;
 - (2) Depressed roadway alignments;
 - (3) Earthen berms or earthen/wall combination;
 - (4) Walls;
 - (5) Acoustical retrofitting to affected parties.
- g. In recognition of the conservative methodology used to develop the noise contours shown on Figure VII-1, builders, developers (for private development projects) and the City (for Capital projects) shall be allowed to demonstrate that detailed noise studies and/or mitigation are not necessary because future noise levels would be substantially less than depicted on Figure VII-1 due to, for example, natural shielding (e.g. from intervening topographical features or man-made structures) of a site or inapplicability of assumptions (shown on Table 3-3 of the Master Environmental Impact Report) used to develop the contours.
- h. The City of Modesto shall limit trucking to specific routes, times and speeds that minimize adverse effects to sensitive land uses such as schools and residential areas.
- i. ~~To address noise impacts related to operation of the Airport, the City shall continue with noise abatement measures related to the airport operations (included in the Airport's approved FAR Part 150 Program) including curfews, ground run-up suppressers, prohibition of operations of some aircraft types at certain hours of the day, land acquisition to prevent development in noise impacted areas, use of appropriate zoning and implementation of sound insulation programs in the aircraft noise impacted area.~~ *Airport and aircraft noise analysis will be conducted in accordance with the Modesto City/County Airport's Master Plan mitigation measure in the approved plan published April 1993 and Federal Aviation Regulation (FAR) Part 150. Upon implementation of regular air carrier scheduled jet service, a new noise contour will be prepared based on the daily flight frequency and type of aircraft proposed for use. New contours will be prepared for subsequent significant increases in daily scheduled jet service. Every five years between commencement of air carrier jet service and the year 2010, the City of Modesto will monitor aircraft noise levels within the airport area of influence and publish a report of the findings.*

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-123**

CERTIFYING THE FINAL MASTER ENVIRONMENTAL IMPACT REPORT UPDATE FOR THE MODESTO URBAN AREA GENERAL PLAN (SCH#1999082041), AND ADOPTING STATEMENT OF FINDINGS OF SIGNIFICANT IMPACTS AND REJECTION OF ALTERNATIVES, AND A STATEMENT OF OVERRIDING CONSIDERATIONS, AND A MITIGATION MONITORING PROGRAM

WHEREAS, on August 15, 1995, the City of Modesto adopted a Modesto Urban Area General Plan, that has been amended from time to time, to guide the growth of the City of Modesto to year 2025 and beyond; and

WHEREAS, prior to adopting the Modesto Urban Area General Plan, and any amendments thereto, the California Environmental Quality Act (CEQA) requires that the City consider the environmental consequences of the proposed project; and

WHEREAS, the preparation of the Master Environmental Impact Report (MEIR) is to provide decision-makers and the public with information concerning the individual and cumulative environmental effects of the project, to indicate possible ways to mitigate, reduce or avoid the environmental impacts, and to identify alternatives to the project; and

WHEREAS, on August 15, 1995, a Final Master Environmental Impact Report (MEIR) on the City of Modesto's General Plan (SCH# 92052017) was certified and appropriate findings adopted prior to the adoption of the 1995 Modesto Urban Area General Plan; and

WHEREAS, periodic updates have been made to the MEIR via additions, deletions and other proposed modifications as part of the adoption of Focused Environmental Impact Reports on: Fairview Village Specific Plan (November 1995),

Empire North Unit No. 1 Specific Plan (November 1996), and the Kiernan Business Park/Carver Bangs Specific Plan (April 1997); and

WHEREAS, the City is proposing an amendment to the General Plan for maintenance purposes, including changes to the Circulation and Transportation map, School Policy text, Archaeological and Cultural resource policies, Airport Noise policy, Employment Estimates, and the Salida Comprehensive Planning District; and

WHEREAS, in conjunction with the environmental review for the proposed General Plan Amendment the staff also proposes a comprehensive update to the MEIR; and

WHEREAS, Notices of Preparation (NOPs) for the proposed Update to the MEIR were circulated for the required 30-day periods, from August 20, 1999 to September 25, 1999, August 6, 2001 to September 9, 2001 and June 12, 2002 to July 15, 2002; and

WHEREAS, pursuant to the California Environmental Quality Act, Public Resources Code Section 21000, et seq., (CEQA) and the CEQA Guidelines, California State Office of Planning and Research, 14 California Code of Regulations 15000, et seq. (CEQA Guidelines), the City prepared an MEIR Update entitled "Draft Master Environmental Impact Report Update for the Urban Area General Plan and Related Amendments to the Urban Area General Plan" (DMEIR) (SCH#1999082041); and

WHEREAS, the DMEIR was released for public review and comment for the required 45-day period beginning on November 25, 2002; and

WHEREAS, the City prepared a Final Master Environmental Impact Report Update (FMEIR), which incorporated all the comments received during the circulation period and the City's responses thereto, and the City distributed copies of the response to comments along with the date, time and location of the scheduled public hearing on

certification of the FMEIR Update, to commenting agencies for the required ten-day period on January 30, 2003;

WHEREAS, the Planning Commission held a public hearing on February 10, 2003, to review and consider the proposed FMEIR Update and recommended the City Council certify the FMEIR Update and adopt the related statement of findings of significant impacts and rejection of alternatives, statement of overriding considerations, and a mitigation monitoring program; and

WHEREAS, the City Council held a public hearing on March 4, 2003, to review and consider the proposed Final MEIR Update and the Statement of Findings of Significant Impacts and Rejection of Alternatives, Statement of Overriding Considerations, and a Mitigation Monitoring Program; and

WHEREAS, the information contained in the proposed FMEIR Update, evidence both oral and documentary, and staff reports for the Project, including information submitted throughout the process recited above, was reviewed and considered by the City Council prior to taking action on the FMEIR Update.

NOW, THEREFORE, BE IT RESOLVED as follows:

1. Recitals. The foregoing recitals are true correct and are incorporated herein as findings.
2. Compliance with CEQA. The Final Master Environmental Impact Report Update for the Modesto Urban Area General Plan (SCH# 1999082041) (FMEIR Update) was prepared in compliance with the requirements of the California Environmental Quality Act (CEQA). A copy of the FMEIR Update is on file with the City Clerk.

3. The FMEIR Update, reflects the fact that mitigation monitoring, pursuant to Public Resources Code Section 21081.6, for Mitigation Measures from the 1995 MEIR (SCH# 92052017) has been accomplished by incorporation of those mitigation measures directly into the Urban Area General Plan as adopted policies, thereby leaving only mitigation measures required for new additional impacts not previously identified in the 1995 MEIR.

Traffic and Circulation Needs	V-1-1
Degradation of Air Quality	V-2-1
Generation of Noise	V-3-1
Effects on Agricultural Land	V-4-1
Increased Demand for Long Term Water Supplies	V-5-1
Increased Demand for Sanitary Sewer Facilities	V-6-1
Loss of Sensitive Potential Disturbance of Archaeological or Historical Sites Wildlife and Plant Habitat	V-7-1
Increased Demand for Storm Drainage	V-8-1
Flooding & Water Quality	V-9-1
Increased Demand for Parks and Open Space	V-10-1
Increased Demand for Schools	V-11-1
Generation of Hazardous Materials	V-12-1
Growth-Inducing Impact	VI-1

4. FMEIR Update Reviewed and Considered. The City Council certifies that the FMEIR has been completed in compliance with CEQA; that it has been presented to the Council and that the Council has reviewed and considered the information contained in the FMEIR Update, that the FMEIR Update reflects the independent judgement of the Council, and all of the information contained therein has substantially influenced all aspects of the decision by the Council. The FMEIR Update is a material part of this resolution.

5. Findings Regarding Significant Effects. Section 21081(a) of the Public Resources Code requires the City Council to make certain findings regarding the significant effects of the General Plan. This includes effects that would be significant, but that would be mitigated by either policies of the Urban Area General Plan or by new mitigation measures identified in the Master EIR. The effects addressed by the findings are:

<u>Effect</u>	<u>Page in FMEIR</u>

- | | |
|----|--|
| a. | The City Council adopts these Findings, attached hereto as Exhibit "A" and incorporated herein by this reference, which makes findings for each significant impact identified in the FMEIR and the project alternatives identified in the FMEIR. |
| b. | In accordance with CEQA and the State CEQA Guidelines, the FMEIR examined a range of reasonable alternatives to the Project which could feasibly attain the basic objectives of the Project and evaluated the comparative merits of the alternatives including:

Alternative 1 - the No-Project Alternative – the current General Plan without any amendments, Alternative 2 – the 1998 Capital Facility Fee (CFF) Program Roadway Modifications Only, and Alternative 3 – the Beckwith/Dakota Comprehensive Planning district Develops after year 2025. |
| c. | The City Council adopts the Findings Supporting Rejection of Alternatives, included in Exhibit "A" and incorporated herein by this reference, which makes findings for the rejection of each alternative analyzed in the FMEIR. The City Council, exercising |

their own independent judgment, determines that such Findings are supported by substantial evidence in the record.

6. Statement of Overriding Considerations.

a. The Final Master EIR identified the following impacts as

Significant and Unavoidable:

<u>Effect</u>	<u>Page in FMEIR</u>
Traffic and Circulation Needs (direct and cumulative impacts)	V-1-22-30
Degradation of Air Quality (direct and cumulative impacts)	V-2-20-23
Generation of Noise (direct and cumulative impacts)	V-3-17-20
Loss of Productive Agricultural Land (cumulative impact)	V-4-9-10
Increased Demand for Long Term Water Supplies (cumulative impact)	V-5-10&11
Increased Demand for Sanitary Sewer Facilities (cumulative operational impact)	V-6-10
Loss of Sensitive Wildlife and Plant Habitat (cumulative impact)	V-7-25
Potential Disturbance of Archaeological or Historical Sites (cumulative impact)	V-V-8-18
Increased Demand for Storm Drainage (cumulative impact)	V-9-10
Growth-Inducement	VI-1-4

b. In accordance with Section 21081 of the Public Resources Code and Section 15093 of the State CEQA Guidelines, in order to approve the Project the City Council must make a statement, supported by findings, as to the specific economic, legal, social, technological, or other benefits of the project, which outweigh the project's unavoidable environmental impacts. The City Council has balanced the benefits of the proposed project against its unavoidable environmental risks in determining whether to

approve the project and has determined that the adverse environmental effects are acceptable.

- c. The City Council adopts the Statement of Overriding Considerations, attached hereto as **Exhibit "B"** and incorporated herein by this reference.

7. Mitigation Monitoring.

Pursuant to Section 21081.6 of the Public Resources Code, the mitigation monitoring program set forth in **Exhibit "C"**, is hereby adopted and incorporated herein by this reference to ensure that all mitigation measures adopted for the Project are fully implemented.

8. Location and Custodian of Documents

The record of project approval shall be kept in the office of the Community and Economic Development Department, City of Modesto, City Hall, 1010 Tenth Street, Modesto, CA 95354.

9. Certification. Based on the above facts and findings, the City Council of the City of Modesto hereby certifies the Final Master Environmental Impact Report Update for the Modesto Urban Area General Plan as accurate and adequate. The City Council further certifies that the FMEIR Update was completed in compliance with CEQA and the State CEQA Guidelines. The Community Development Director is directed to file a Notice of Determination as required by CEQA and the State CEQA Guidelines.

The foregoing resolution was introduced at the regular meeting of the Council of the City of Modesto held on March 4, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

Ayes: Councilmembers: Conrad, Fisher, Keating, O'Bryant, Mayor Sabatino

Noes: Councilmembers: Jackman

Absent: Councilmembers: Frohman

ATTEST: Jean Zahr
JEAN ZAHR, City Clerk

(SEAL)

APPROVED AS TO FORM:

By: Michael D. Milich
MICHAEL D. MILICH, City Attorney

STATEMENT OF FINDINGS OF SIGNIFICANT IMPACTS
AND REJECTION OF ALTERNATIVES

Pursuant to Public Resources Code Section 21081 and Section 15091 of the State CEQA Guidelines (14 California Code of Regulations 15000, et seq.), the City of Modesto cannot approve a project for which an Environmental Impact Report (EIR) has been certified which identifies significant effects on the environment unless it adopts findings with respect to each significant effect. The City must also find that there are specific considerations that make infeasible the alternatives identified in the EIR.

In Section A below, the City will make one or more of the following findings for each of the significant effects identified in the Master EIR:

Changes or alterations have been required in, or incorporated into, the project which mitigate or avoid the significant effects on the environment.

Specific economic, legal, social, technological, or other considerations, including considerations for the provision of employment opportunities for highly trained workers, make infeasible the mitigation measures identified in the Master EIR.

In Section B below, the City will make the following finding regarding each of the alternatives identified in the Master EIR.

Specific economic, legal, social, technological, or other considerations, including considerations for the provision of employment opportunities for highly trained workers, make infeasible the alternatives identified in the Master EIR.

Section 21081 provides that the City may also find that "changes or alterations are within the responsibility and jurisdiction of another public agency and have been, or can and should be, adopted by that other agency." That finding does not apply to any of the significant effects identified in the Master EIR.

A. FINDINGS REGARDING SIGNIFICANT IMPACTS

Traffic and Circulation Needs Impact: The project will result in an increase in traffic, with a related reduction in the level of service (LOS) on various streets within the planning area.

Finding:

Changes or alterations have been required in, or incorporated into, the project which mitigate or avoid the significant effects on the environment.

Supporting Evidence:

Modesto Urban Area General Plan policies under section V-4.B.5 require general actions, such as Transportation Demand Management, encouragement of walking, and promotion of bicycle use to reduce future traffic demand. Modesto Urban Area General Plan policies under section V-4.B.6 (applicable to the Baseline Developed Area and

Redevelopment Area) require the review of individual development projects in order to maintain projected LOS. Where LOS cannot be maintained, the policies would require the preparation of a Comprehensive Traffic Study as part of a mitigated negative declaration or Focused EIR on the project. Site-specific mitigation measures will be imposed on that development. The Initial Study prepared for each subsequent activity under the Master EIR (as required by Public Resources Code Section 21157.1) will determine whether the project would exceed projected traffic LOS and, if so, require an analysis and mitigation of the excess traffic.

Modesto Urban Area General Plan policies under section V-4.B.7 (applicable to the Planned Urbanizing Area) require a Comprehensive Traffic Study prior to approval of any Comprehensive Plan. The Comprehensive Plan will include measures necessary to maintain a standard of LOS D.

Traffic and Circulation Needs Impact: The project will contribute to a substantial cumulative impact related to an increase in the existing traffic load in relation to the capacity of the street system.

Finding:

Specific legal, economic and social considerations make infeasible the mitigation measures identified in the Master EIR.

Supporting Evidence:

The EIR certified by the Stanislaus Council of Governments (StanCOG) for its Regional Transportation Plan in 2001 identified the increase in traffic as a cumulative effect. This increase is the result of social and economic conditions that favor continued growth within California and Stanislaus County. State Planning Law, in particular the requirements for housing elements, requires the County and its cities, including Modesto, to plan for their fair share of future housing needs (Government Code Section 65580 et seq.). Neither the County, nor the city may choose to restrict housing opportunities.

Data from the California Department of Finance indicates that the statewide population increased by approximately 13.8 percent (*Public Law 94-171 Summary File, Table 1: Population Change 1990 – 2000, Incorporated Cities by County*). During the same period, the California Department of Motor Vehicles reported that vehicle registration, including commercial vehicles and trailers, increased by 16 percent (*Estimated Fee-Paid Vehicle Registrations by County, Report 2001*). The rate of increase in motor vehicle registration closely tracks the rate of population increase.

The California Department of Finance projects that the population of Stanislaus County will increase by approximately 56.6 percent by the year 2020 (*Interim County Population Projections --June 2001*. California Department of Finance. Sacramento, CA). The number of motor vehicles may be expected to increase at a similar rate.

Degradation of Air Quality Impact: Over the span of the planning period, CO, NO_x, ROG, and PM₁₀ emissions will exceed the significance thresholds established by the San Joaquin Valley Unified Air Pollution Control District.

Findings:

Changes or alterations have been required in, or incorporated into, the project which mitigate or avoid the significant effects on the environment.

Specific legal, economic and social considerations make infeasible the mitigation measures identified in the Master EIR.

Supporting Evidence:

The City has adopted, as part of its Urban Area General Plan, various policies and air quality measures intended to moderate the effects of increased traffic and growth on air quality. These include General Plan policies VII-H.2 and the air quality measures in Tables 2-2 through 2-6 of the Master EIR that are referenced in those policies.

Although the above referenced policies will moderate the projected impacts on air quality, the increase in emissions is the result of social and economic conditions that favor continued growth within California and Stanislaus County. State Planning Law, in particular the requirements for housing elements, requires the County and its cities, including Modesto, to plan for their fair share of future housing needs (Government Code Section 65580 et seq.). Neither the County, nor the city may choose to restrict housing opportunities and thereby control emissions through growth prohibitions.

Motor vehicle use, a major source of emissions will increase with population. Data from the California Department of Finance indicates that the statewide population increased by approximately 13.8 percent (*Public Law 94-171 Summary File, Table 1: Population Change 1990 – 2000, Incorporated Cities by County*). During the same period, the California Department of Motor Vehicles reported that vehicle registration, including commercial vehicles and trailers, increased by 16 percent (*Estimated Fee-Paid Vehicle Registrations by County, Report 2001*). The rate of increase in motor vehicle registration closely tracks the rate of population increase.

The California Department of Finance projects that the population of Stanislaus County will increase by approximately 56.6 percent by the year 2020 (*Interim County Population Projections --June 2001*). The number of motor vehicles may be expected to increase at a similar rate. Despite expected improvements in control technology (e.g., a greater percentage of low emissions vehicles on the road, etc.) and regulations (e.g., limits on burning, formulation of paints, etc.), the increase in vehicles and population will result in the exceedance of significance thresholds over the planning period.

Degradation of Air Quality Impact: The San Joaquin Valley Air Basin is an air quality non-attainment area. Planned growth in Modesto will make a considerable contribution to the cumulative air quality impact within the basin.

Finding:

Specific legal, economic and social considerations make infeasible the mitigation measures identified in the Master EIR.

Supporting Evidence:

State Planning Law, in particular the requirements for housing elements, requires the County and its cities, including Modesto, to plan for their fair share of future housing needs (Government Code Section 65580 et seq.). Neither the County, nor the city may choose to restrict housing opportunities and thereby control emissions through growth prohibitions.

Motor vehicle use, a major source of emissions will increase with population. Data from the California Department of Finance indicates that the statewide population increased by approximately 13.8 percent (*Public Law 94-171 Summary File, Table 1: Population Change 1990 – 2000, Incorporated Cities by County*). During the same period, the California Department of Motor Vehicles reported that vehicle registration, including commercial vehicles and trailers, increased by 16 percent (*Estimated Fee-Paid Vehicle Registrations by County, Report 2001*). The rate of increase in motor vehicle registration closely tracks the rate of population increase.

The California Department of Finance projects that the population of Stanislaus County will increase by approximately 56.6 percent by the year 2020 (*Interim County Population Projections --June 2001*). The number of motor vehicles may be expected to increase at a similar rate. Despite expected improvements in control technology (e.g., a greater percentage of low emissions vehicles on the road, etc.) and regulations (e.g., limits on burning, formulation of paints, etc.), the increase in vehicles and population will result in the exceedance of significance thresholds over the planning period. As the largest city in Stanislaus County, Modesto's growth will make a significant contribution to the county's population gain.

Generation of Noise Impact: Traffic noise levels under future conditions have the potential to result in exceedances of the City's noise significance standards.

Findings:

Changes or alterations have been required in, or incorporated into, the project which mitigate or avoid the significant effects on the environment.

Specific legal, economic and social considerations make infeasible the mitigation measures identified in the Master EIR.

Supporting Evidence:

The City has adopted, as part of its Urban Area General Plan, various policies which moderate the effects of increased traffic and growth on noise. These include the Modesto City Noise Ordinance, which limits noise to daytime hours and prohibits the production of loud noises from stationary engines, and General Plan policies VII-G.3 and VII-G.4 which require mitigation of noise in new development in the existing City limits and Planned Urbanizing Area. These policies are implemented through the Initial Study analysis that is applied to all discretionary projects undertaken under the General Plan.

As described above in the discussion of air quality impacts, California Planning Law and the County's growth rate combine to limit the ability of the City to restrict growth and avoid increases in noise associated with additional growth (including traffic).

Generation of Noise Impact: Traffic noise levels from individual projects under future conditions have the potential to make a cumulatively considerable contribution to the City's noise levels.

Finding:

Specific legal, economic and social considerations make infeasible the mitigation measures identified in the Master EIR.

Supporting Evidence:

As described above in the discussion of air quality impacts, California Planning Law and the County's growth rate combine to limit the ability of the City to restrict growth and avoid increases in noise associated with additional growth (including traffic). Individual project contributions, although moderated by the City Noise Ordinance and General Plan policies described above, would be sufficient to result in a cumulative exceedance of City noise standards in some situations.

Effects on Agricultural Land Impact: The Urban Area General Plan will convert land from agricultural to urban use, particularly in the Planned Urbanizing Area. This impact is less-than-significant in the Baseline Developed and Redevelopment Areas since this conversion has already taken place.

Finding:

Specific legal, economic and social considerations make infeasible the mitigation measures identified in the Master EIR.

Supporting Evidence:

The City of Modesto is surrounded by agricultural lands. As described above in the discussion of air quality impacts, California Planning Law and the County's growth rate combine to limit the ability of the City to restrict growth and avoid the conversion of agricultural land associated with additional growth (including traffic). The City has adopted policies intended to encourage compact growth, including policies VII.D.3[e] of the Urban Area General Plan. While these policies will result in higher densities of development than might occur without those policies, thereby reducing the total amount of farmland that must be converted to meet growth projections, the existing built area of the City cannot absorb the projected 100 percent increase in City population during the planning period.

Effect on Agricultural Land Impact: Modesto's growth will contribute to the cumulative impact of County-wide growth on agricultural lands.

Finding:

Specific legal, economic and social considerations make infeasible the mitigation measures identified in the Master EIR.

Supporting Evidence:

As described above in the discussion of air quality impacts, California Planning Law and the County's growth rate combine to limit the ability of the City to restrict growth and avoid the conversion of agricultural land associated with additional growth (including traffic). The City has adopted policies intended to encourage compact growth, including policies VII.D.3[e] of the Urban Area General Plan. While these policies will result in higher densities of development than might occur without those policies, thereby reducing the total amount of farmland that must be converted to meet growth projections, the existing built area of the City cannot absorb the projected 100 percent increase in City population during the planning period.

Increased Demand for Long-Term Water Supplies Impact: Future development under the Urban Area General Plan will contribute to the cumulative impact of future (2020) groundwater overdraft within the San Joaquin River basin during drought years.

Finding:

Specific legal, economic and social considerations make infeasible the mitigation measures identified in the Master EIR.

Supporting Evidence:

As described above in the discussion of air quality impacts, California Planning Law and the County's growth rate combine to limit the ability of the City to restrict growth and thereby avoid water demand that will contribute to future groundwater shortages. The City has adopted water conservation policies in Section V.C.2 of the Urban Area General Plan. In addition, as described in Section V-5 of the Master EIR, the City is participating in groundwater management planning for the Turlock, Stanislaus, and Tuolumne groundwater basins and, in conjunction with the Modesto Irrigation District, on an Integrated Water Resources Plan. These activities are intended to utilize groundwater resources efficiently, but are ultimately limited in their ability to avoid future groundwater overdraft by the sheer amount of growth that is forecast to arrive in the San Joaquin Valley, Stanislaus County, and Modesto by the year 2020.

Increased Demand for Sanitary Sewer Facilities Impact: Implementation of the City Wastewater Master Plan (WMP) would result in residual cumulative impacts on air quality and odors.

Finding:

Specific legal, economic and social considerations make infeasible the mitigation measures identified in the Master EIR.

Supporting Evidence:

The Master EIR prepared for the WMP identified this cumulative impact on the demand for additional sewer service resulting from future development under the Urban Area General Plan. As described above in the discussion of air quality impacts, California Planning Law and the County's growth rate combine to limit the ability of the City to restrict growth and avoid expansion of the Wastewater Treatment Plant.

Loss of Sensitive Wildlife and Plant Habitat Impact: Development under the Urban Area General Plan will result in the loss of sensitive wildlife and plant habitat.

Finding:

Changes or alterations have been required in, or incorporated into, the project which mitigate or avoid the significant effects on the environment.

Supporting Evidence:

Except for lands within the designated riparian corridors (protected from development under the Urban Area General Plan's Comprehensive Planning District [CPD] policies), lands within the Baseline Developed Area and the Redevelopment Area are of limited habitat value. Impact within these areas are less-than-significant.

Within the Planned Urbanizing Area, development will be subject to further environmental review through CEQA, as well as the state and federal Endangered Species Acts, when CPDs are proposed for development. During the preparation of the specific plan for each CPD, appropriate measures will be required, including urban design and development standards, to avoid taking of listed species. Urban Area General Plan policies, including policies VII-E.3 (and requiring implementation of Table 7-1 of the Master EIR) will protect sensitive habitats.

New Mitigation Measure Biology-1, described in the Master EIR, will require the City to comply with federal requirements to avoid the incidental take of listed species.

Loss of Sensitive Wildlife and Plant Habitat Impact: Development under the Urban Area General Plan will contribute to the cumulative loss of sensitive wildlife and plant habitat.

Finding:

Specific legal, economic and social considerations make infeasible the mitigation measures identified in the Master EIR.

Supporting Evidence:

As described above in the discussion of air quality impacts, California Planning Law and the County's growth rate combine to limit the ability of the City to restrict growth and thereby avoid loss of some habitat lands. The amount of growth that is forecast to arrive in the San Joaquin Valley, Stanislaus County, and Modesto by the year 2020 portends significant losses of habitat within the region.

Potential Disturbance of Archaeological or Historical Sites Impact: Substantial changes to existing historical structures resulting from Zoning Ordinance requirements such as parking and landscaping could have a significant effect.

Finding:

Changes or alterations have been required in, or incorporated into, the project which mitigate or avoid the significant effects on the environment.

Supporting Evidence:

Policies VII-F.2 of the Urban Area General Plan, New Mitigation Measure Cultural-1 and revised Table 8-1 of the Master EIR will reduce this effect to less-than-significant levels. The General Plan policies require protection of archaeological and historical resources within the planning area. New Mitigation Measure Cultural-1 requires the addition of new General Plan policy V.F.2[g] requiring the City to maintain inventories of historical resources and to protect historical resources through the discretionary review process. Revised Table 8-1 establishes procedures for mitigating impacts to cultural resources.

Potential Disturbance of Archaeological or Historical Sites Impact: The cumulative impacts on cultural resources is the same as the project impact described above.

Finding:

Changes or alterations have been required in, or incorporated into, the project which mitigate or avoid the significant effects on the environment.

Supporting Evidence:

Policies VII-F.2 of the Urban Area General Plan, New Mitigation Measure Cultural-1 and revised Table 8-1 of the Master EIR will reduce this effect to less-than-significant levels. The General Plan policies require protection of archaeological and historical resources within the planning area. New Mitigation Measure Cultural-1 requires the addition of new General Plan policy V.F.2[g] requiring the City to maintain inventories of historical resources and to protect historical resources through the discretionary review process. Revised Table 8-1 establishes procedures for mitigating impacts to cultural resources.

Increased Demand for Storm Drainage Impact: New development will potentially stress existing stormwater drainage systems.

Finding:

Changes or alterations have been required in, or incorporated into, the project which mitigate or avoid the significant effects on the environment.

Supporting Evidence:

Urban Area General Plan policies applicable to the Baseline Developed Area (where rockwells provide a portion of the existing storm drainage capacity), including policies V-E.2, require construction of adequate storm drain facilities with new development.

Urban Area General Plan policies applicable to the Planned Urbanizing Area, including policies V-E.3, will require new development areas to be served by positive storm drainage systems, including dual-use (e.g., drainage and recreation) facilities. Tables 9-1 through 9-4 of the Master EIR establish requirements for drainage plans, the design of sediment control basins, and set out best management practices for drainage design. In addition, plans and specifications for new stormwater facilities within the City must comply with the City's Comprehensive Stormwater Management Program to ensure the avoidance of pollutants in stormwater.

In addition, New Mitigation Measure Drainage-1 requires the City to adopt a Master Drainage Plan, in consultation with Stanislaus County, MID, and TID, to address the projected cumulative flows that would be discharged to MID and TID facilities from the urbanized drainage areas. The master drainage program would include the procedures for planning, evaluation, and design of necessary stormwater drainage facilities to ensure that facilities are capable of accommodating the additional flows. The master drainage program would include capital improvement, operations, and maintenance-financing plans necessary to ensure that facilities are constructed in a timely fashion to reduce the impacts from potential flooding problems.

Increased Demand for Storm Drainage Impact: Development in Modesto and the County will contribute to cumulative impact on the capacity of Modesto Irrigation District and Tuolumne Irrigation District canals to convey drainage waters.

Finding:

Specific legal, economic and social considerations make infeasible the mitigation measures identified in the Master EIR.

Supporting Evidence:

As described above in the discussion of air quality impacts, California Planning Law and the County's growth rate combine to limit the ability of the City to restrict growth and thereby avoid increased volumes of storm drainage water.

Flooding and Water Quality Impact: Increased development could contribute to runoff, contributing to flooding problems in the urban area. Development of urban areas could increase discharges of erosion and wastes to surface waters through urban runoff.

Finding:

Changes or alterations have been required in, or incorporated into, the project which mitigate or avoid the significant effects on the environment.

Supporting Evidence:

Adopted policies of the Modesto Urban Area General Plan, specifically General Plan policies VI-C.2 and VI-C.3, City floodplain ordinances, and the City's Guidance Manual for New Development Stormwater Quality Control Measures would reduce direct impacts to less than significant by, among other things, restricting development within floodplains and requiring specific water-quality protections from development.

Flooding and Water Quality Impact: Cumulative impacts could occur from the project's contributions to runoff and discharges of waste and erosion.

Finding:

Changes or alterations have been required in, or incorporated into, the project which mitigate or avoid the significant effects on the environment.

Supporting Evidence:

Adopted policies of the Modesto Urban Area General Plan, specifically General Plan policies VI-C.2 and VI-C.3, City floodplain ordinances, and the City's Guidance Manual for New Development Stormwater Quality Control Measures, as well as federal regulations limiting discharges to surface waters (Clean Water Act sections 402 [NPDES permitting] and 401 [water quality certification]), would reduce the City's contribution to cumulative impacts to less than significant by, among other things, restricting development within floodplains and requiring specific water-quality protections from development.

Increased Demand for Parks and Open Space Impact: Increased population under the Urban Area General Plan would increase demand for park and open space facilities, requiring new facilities to be constructed.

Finding:

Changes or alterations have been required in, or incorporated into, the project which mitigate or avoid the significant effects on the environment.

Supporting Evidence:

Urban Area General Plan policies, including policies V-G.2 and V-G.3, require the provision of park facilities as new development occurs. The required minimum acreages can be met through the application of existing policies and regulations, including also Government Code Section 66474, which enables the City to require developers to pay Parks Capital Facilities Fees to fund the acquisition of appropriate parkland acreage.

Increased Demand for Schools Impact: The project would necessitate the construction of additional school facilities to satisfy the demand created by increased population under the Urban Area General Plan. This is both a direct and cumulative impact.

Finding:

Changes or alterations have been required in, or incorporated into, the project which mitigate or avoid the significant effects on the environment.

Supporting Evidence:

State law, commonly referred to as SB 50, governs K-12 school financing. SB 50 provides that payment of development impact fees, or other compliance with its provisions, reduces the impact on schools to a less-than-significant level.

Generation of Hazardous Materials Impact: Impacts from the generation, transportation, storage, and disposal of hazardous materials within the Baseline Developed Area and the Planned Urbanizing Area cannot be completely eliminated.

Finding:

Changes or alterations have been required in, or incorporated into, the project which mitigate or avoid the significant effects on the environment.

Supporting Evidence:

Urban Area General Plan policies, including policies V-M.2, require avoidance of impacts in new development. Federal and state laws regulating the transportation, storage, disposal, and clean-up of hazardous materials and wastes, including those programs administered by Stanislaus County, are described in Section V-16 of the Master EIR. Together, these reduce the impacts to a less-than-significant level.

Growth-Inducing Impact: The Urban Area General Plan will have a growth-inducing impact by removing regulatory obstacles to growth.

Finding:

Specific legal, economic and social considerations make infeasible the mitigation measures identified in the Master EIR.

Supporting Evidence:

State Planning Law requires each city and county to adopt a general plan for its future development. This general plan must consider land use, transportation, housing, conservation, open-space, noise, and safety issues. Under the Housing Element, State Law requires the City of Modesto, to plan for its fair share of future housing needs (Government Code Section 65580 et seq.). Fair share housing need allocations are assigned on the basis of population projections for the region. The California Department of Finance projects that the population of Stanislaus County will increase by approximately 56.6 percent by the year 2020 (*Interim County Population Projections -- June 2001*).

State law prohibits the City from adopting a general plan that would not make provision for this future growth.

As described in Chapter VI of the Master EIR, the City has adopted a number of policies intended to control the rate of its growth, and to encourage higher-than-usual density of development so that the urban area will develop compactly. These policies will channel the direction and form of growth, but will not prevent it.

B. FINDINGS SUPPORTING REJECTION OF ALTERNATIVES

The Final MEIR discussed and evaluated a range of alternatives as required by CEQA Guidelines Section 15126.6. In order to reject an alternative, the City must find:

Specific economic, legal, social, technological, or other considerations, including considerations for the provision of employment opportunities for highly trained workers, make infeasible the alternatives identified in the Master EIR.

Following are the findings supporting rejection of each of the alternatives.

Alternative 1. No Project Alternative: The "No Project Alternative" reflects the continuation of the 1995 Modesto Urban Area General Plan, as previously amended, into the future.

Finding for rejection:

Specific legal and fiscal considerations make infeasible the alternative identified in the Master EIR.

Supporting Evidence:

The California Planning and Zoning Law (Government Code Section 65300, et seq.) requires each City to adopt a long-term general plan for its physical development. The general plan is expected to be comprehensive, internally consistent, and have a long-term perspective (Chapter 1, *State General Plan Guidelines*. Office of Planning and Research. 1998) Furthermore, the provisions of the circulation element must be "correlated" with the land use element (Government Code Section 65302(b)). In addition, in a charter city such as Modesto, subdivisions of land, specific plans, development agreements, capital improvement plans, and comprehensive plans must be consistent with the general plan (Government Code Sections 66474, 65454, 65867.5, 65103, and 65300.5, respectively).

Since the 1995 adoption of the Urban Area General Plan, the City has revised its job generation estimates, refined its traffic model, identified numerous cultural resources, among other things. These will change the way in which the City considers land use projects. Accordingly, these changes must be represented in revisions to the General Plan roadway network (in order to maintain correlation with the land use element), cultural resources section, and other policies in the Urban Area General Plan so that they may be reflected in the review of subdivisions, specific plans, and other City actions that require consistency with the General Plan. In order to ensure that the general plan consistently reflects proposed changes to the City's roadway network, cultural resources preservation policies, and other policies described in Chapter III (Project Description) of the Master EIR, the City is required to incorporate these proposed changes into the General Plan itself.

The California Environmental Quality Act provides that a Master EIR must be examined within 5 years of its original certification to ensure that it continues to reflect the environment and current information about environmental effects (Public Resources Code Section 21157.6). Since the certification of the Master EIR for the Urban Area General Plan in 1995, the City has consistently cross-referenced new information from later environmental analyses, such as the Focused EIR prepared for the Kiernan Business Park Specific Plan and the Master EIR for the Wastewater Master Plan, to the

Urban Area General Plan Master EIR. In order to ensure that its Master EIR meets the spirit, as well as the letter, of the law Modesto is certifying this update of its Master EIR.

Alternative 2. 1998 Capital Facilities Fee (CFF) Modifications Only Alternative: The "1998 Capital Facilities Fee (CFF) Modifications Only Alternative" consists of a series of modifications to the proposed roadway network that were considered necessary in order that facility improvements could be fully funded through the CFF and other foreseeable funding sources. These comprise an alternative to the set of Modesto Urban Area General Plan roadway network amendments proposed as part of the project.

Finding:

Specific technical considerations make infeasible the alternative identified in the Master EIR.

Supporting Evidence:

This alternative reflects a set of modifications to the roadway network developed in 1998 for consideration as part of the Master EIR Update. Additional development projects approved since 1998, as well as more recent traffic modeling studies have lead the City's Transportation Planners and Engineers to conclude that a number of network modifications, not reflected in Alternative 2, are necessary in order to efficiently serve future development under the Urban Area General Plan. Further, since developing this alternative the City has refined its traffic model and chosen to use that revised traffic model for future traffic projections.

Alternative 2 is rejected because it does not reflect the City's current understanding of traffic generation by proposed land uses (as a function of land use, current employment estimates, and other factors), as embodied in the City's refined traffic model.

Alternative 3. Beckwith/Dakota Comprehensive Planning District (CPD) Develops after Year 2025 Alternative: The "Beckwith/Dakota Comprehensive Planning District (CPD) Develops after Year 2025 Alternative" assumes that no development will occur within the 1,040- acre Beckwith/Dakota CPD until after year 2025.

Finding:

Specific legal and social considerations make infeasible the alternative identified in the Master EIR.

Supporting Evidence:

Although there are currently no proposals to develop the Beckwith/Dakota CPD, such proposals may arise prior to the 2025 planning horizon. The Beckwith/Dakota CPD is designated for business park development on the Urban Area General Plan. General Plan policies (e.g., Policy II-B.1[a]) encourage business park development in order to diversify the City's economic base. Acting to discourage development of this CPD if such a project were proposed would be inconsistent with the General Plan. Government Code Section 65300.5 requires the General Plan to be internally consistent and so would prohibit that action.

Stanislaus County suffers from chronically high unemployment levels in comparison to the rest of California. Based on information from the State Employment Development Department, Stanislaus County's unemployment rate is often twice the state average. In 2001, for example, the County's annual average unemployment rate was 10.2 percent while that of California as a whole was 5.3 percent. In 2000, Stanislaus' rate was 10.4 percent while the California rate was 4.9 percent. (*Civilian Labor Force, Employment and Unemployment*. Employment Development Department. January 15, 2003)

While population growth has been rapid in the area, job growth has not kept pace. The Beckwith/Dakota CPD would generate as many as 26,000 employees at build out. These additional jobs would help to reduce unemployment within the region and meet community growth policies of the Urban Area General Plan which give top priority to expansion of business park areas and diversify the City's economic base (e.g. Policy II-B.1[a]).

STATEMENT OF OVERRIDING CONSIDERATIONS

Pursuant to Public Resources Code Section 21081 and Section 15093 of the State CEQA Guidelines (14 California Code of Regulations 15000, et seq.), the City of Modesto cannot approve a project for which an Environmental Impact Report (EIR) has been certified which identifies significant unavoidable effects on the environment, unless it adopts a statement of overriding considerations that finds that specific overriding economic, legal, social, technological or other benefits of the project outweigh its significant effects on the environment.

The Master EIR identified the following adverse effects of the project that cannot be mitigated below a level of significance:

- Traffic and Circulation Needs (direct and cumulative impacts)
- Degradation of Air Quality (direct and cumulative impacts)
- Generation of Noise (direct and cumulative impacts)
- Loss of Productive Agricultural Land (cumulative impact)
- Increased Demand for Long Term Water Supplies (cumulative impact)
- Increased Demand for Sanitary Sewer Facilities (cumulative operational impact)
- Loss of Sensitive Wildlife and Plant Habitat (cumulative impact)
- Potential Disturbance of Archaeological or Historical Sites (cumulative impact)
- Increased Demand for Storm Drainage (cumulative impact)
- Growth-Inducement

A. FINDINGS REGARDING SIGNIFICANT UNAVOIDABLE IMPACTS

The City Council has determined that the Modesto Urban Area General Plan Amendments should be approved and that any remaining unmitigated environmental impacts attributable to the Modesto Urban Area General Plan are outweighed by the following specific benefits.

Traffic and Circulation Needs (direct and cumulative impacts)

The proposed project, particularly the General Plan Amendment for the roadway network, will establish a set of roadway network standards that are more economically feasible than the current network and that are consistent with new information from the City's traffic model. Because the City will lack sufficient financing to make the roadway improvements identified in the 1995 Urban Area General Plan, it will be unable to meet the standards established in that plan. The proposed project promotes internal consistency within the General Plan, as required under Government Code Section 65300.5.

Although the project will exceed Level of Service standards along numerous road segments within the Planning Area, the development associated with the Urban Area General Plan would result in approximately 144,000 new employment opportunities in total within the planning area at build-out. The increased number of local jobs has the benefit of reducing chronic local unemployment levels that are currently nearly twice the statewide average (*Civilian Labor Force, Employment and Unemployment*. Employment Development Department. January 15, 2003). The increased number of residences benefits the community both socially and legally by helping it meet its future regional fair share housing allocations, as required under Government Code Section 65580 et seq.

The City of Modesto's Redevelopment Plan, adopted in 1991, contains numerous goals and policy statements, which would not be achieved without the promotion of significant employment opportunities. The proposed project benefits the City economically by authorizing nearly 45,000 new employment opportunities and 5,700 residents in the central city area.

Primary among these redevelopment goals are the following:

- The replanning, redesign and development of undeveloped areas, which are stagnant or improperly utilized.
- The strengthening of retail and other commercial functions in the Project Area.
- The strengthening of the economic base of the Project Area and the community by the installation of needed site improvements to stimulate new commercial expansion, employment and economic growth.
- The expansion of the supply of housing for low- and moderate-income persons.

Degradation of Air Quality (direct and cumulative impacts)

California Planning and Zoning Law requires the City to adopt a general plan for its long-range physical development (Government Code Section 65300 et seq.). Substantial population increases are projected to occur in Stanislaus County and the City of Modesto during the planning period. The California Department of Finance projects that the population of Stanislaus County will increase by approximately 56.6 percent by the year 2020 (*Interim County Population Projections* --June 2001. California Department of Finance. Sacramento, CA). The level of development proposed under the Urban Area General Plan and the General Plan Amendments made a part of this project offer the planning benefit of directing how this increased population will be efficiently located within the City through compact development policies contained in the plan, and describing City policies for the provision of future infrastructure and other needs.

The development associated with the Urban Area General Plan would result in approximately 144,000 new employment opportunities within the planning area at build-out in 2025. The increased number of local jobs has the benefit of reducing chronic local unemployment levels that are currently nearly twice the statewide average (*Civilian Labor Force, Employment and Unemployment*. Employment Development Department. January 15, 2003). The increased number of residences economically benefit the community by helping it meet its future regional fair share housing allocations, as required under Government Code Section 65580 et seq.

Generation of Noise (direct and cumulative impacts)

The proposed project, particularly the General Plan Amendment for the roadway network, will establish a set of roadway network standards that are more economically feasible than the current network and that are consistent with new information from the City's traffic model. Because the City will lack sufficient financing to make the roadway improvements identified in the 1995 Urban Area General Plan, it will be unable to meet the standards established in that plan. Although the proposed project will result in increased levels of transportation-related noise at build-out in 2025, it offers the legal benefit of promoting internal consistency within the General Plan, as required under Government Code Section 65300.5.

The development associated with the Urban Area General Plan would result in approximately 144,000 new employment opportunities within the planning area at build-out in 2025. The increased number of local jobs has the benefit of reducing chronic local unemployment levels that are currently nearly twice the statewide average (*Civilian Labor Force, Employment and Unemployment*. Employment Development Department. January 15, 2003). The increased number of residences socially and legally benefit the community by helping it meet its future

regional fair share housing allocations, as required under Government Code Section 65580 et seq.

Loss of Productive Agricultural Land (cumulative impact)

Agriculture is a mainstay of the Stanislaus County economy, with a 2001 market value for its commodities of over \$1.35 billion (*Agriculture Resource Directory 2002*. 2002. California Department of Food and Agriculture. Sacramento, CA). Nonetheless, agriculture is a seasonal occupation and is one reason for Stanislaus County's relatively high unemployment rate. High unemployment rates are common among the agricultural-dependent counties of the San Joaquin Valley, as well as Imperial County (*Civilian Labor Force, Employment and Unemployment*. Employment Development Department. January 15, 2003).

The proposal has the social and economic benefits of encouraging significant new employment opportunities, outside of agriculture, as the business parks identified in the Urban Area General Plan are developed. At build-out, the plan would allow up to 144,000 new jobs within the planning area. This will create a more diversified job market. It will also enable the City to meet the economic development goals of its general plan calling for diversification of its economic base (Policy II-B.1[a]).

California Planning and Zoning Law requires the City to adopt a general plan for its long-range physical development (Government Code Section 65300 et seq.). Substantial population increases are projected to occur in Stanislaus County and the City of Modesto during the planning period. The California Department of Finance projects that the population of Stanislaus County will increase by approximately 56.6 percent by the year 2020 (*Interim County Population Projections* --June 2001. California Department of Finance. Sacramento, CA). The level of development proposed under the Urban Area General Plan and the General Plan Amendments made a part of this project offer the planning benefit of directing how this increased population will be efficiently located within the City through compact development policies contained in the plan, and describing City policies for the provision of future infrastructure and other needs.

Increased Demand for Long Term Water Supplies (cumulative impact)

California Planning and Zoning Law requires the City to adopt a general plan for its long-range physical development (Government Code Section 65300 et seq.). Substantial population increases are projected to occur in Stanislaus County and the City of Modesto during the planning period. The level of development proposed under the Urban Area General Plan and the General Plan Amendments made a part of this project offer the planning benefit of directing how this increased population will be efficiently located within the City through compact development policies contained in the plan, and describing City policies for the provision of future infrastructure and other needs.

The development associated with the Urban Area General Plan would result in approximately 144,000 new employment opportunities within the planning area at build-out in 2025. The increased number of local jobs has the economic and social benefits of reducing chronic local unemployment levels that are currently nearly twice the statewide average (*Civilian Labor Force, Employment and Unemployment*. Employment Development Department. January 15, 2003). The increased number of residences socially and legally benefits the community by helping it meet its future regional fair share housing allocations, as required under Government Code Section 65580 et seq.

The policies of the City's Urban Area General Plan offer the planning benefit of providing a mechanism for responding to future drought conditions. The General Plan and Urban Water Management Plan (UWMP) identify a number of actions that the City is currently conducting or planning to implement to reduce demands on the water supply. These measures include limiting groundwater extraction to the level considered a safe yield for the aquifers, increasing the use of reclaimed wastewater, implementing a mandatory residential water metering, and implementing drought-response measures. The UWMP describes the City's 3-stage Water Shortage Contingency Plan that is implemented during times of drought. Each stage of the drought contingency plan allows the City to implement more restrictive water rationing from relatively simple mechanisms (e.g., outdoor watering restrictions, requiring leaks to be fixed, reducing restaurant water use, requiring positive shutoff and low-flow water fixtures) to very restrictive measures such as mandatory system retrofitting requirements and imposing moratoriums on new construction. The City has implemented additional distribution system improvements, maintenance programs, and automated control systems in recent years to increase system efficiency and reduce water losses. An existing City ordinance requires water meters to be installed on new construction. Although the City currently charges a flat rate for water use, installation of water meters will reduce water use by allowing the City to implement structured water pricing policies if deemed necessary.

Increased Demand for Sanitary Sewer Facilities (cumulative operational impact)

California Planning and Zoning Law requires the City to adopt a general plan for its long-range physical development (Government Code Section 65300 et seq.). Substantial population increases are projected to occur in Stanislaus County and the City of Modesto during the planning period. The level of development proposed under the Urban Area General Plan and the General Plan Amendments made a part of this project offer the planning benefit of directing how this increased population will be efficiently located within the City through compact development policies contained in the plan, and describing City policies for the provision of future infrastructure and other needs.

The development associated with the Urban Area General Plan would result in approximately 144,000 new employment opportunities within the planning area at build-out in 2025. The increased number of local jobs has the social and economic benefits of reducing chronic local unemployment levels that are currently nearly twice the statewide average (*Civilian Labor Force, Employment and Unemployment*. Employment Development Department. January 15, 2003). The increased number of residences socially and legally benefits the community by helping it meet its future regional fair share housing allocations, as required under Government Code Section 65580 et seq.

Loss of Sensitive Wildlife and Plant Habitat (cumulative impact)

California Planning and Zoning Law requires the City to adopt a general plan for its long-range physical development (Government Code Section 65300 et seq.). Substantial population increases are projected to occur in Stanislaus County and the City of Modesto during the planning period. The level of development proposed under the Urban Area General Plan and the General Plan Amendments made a part of this project offer the planning benefit of directing how this increased population will be efficiently located within the City through compact development policies contained in the plan, and describing City policies for the provision of future infrastructure and other needs.

The policies of the Urban Area General Plan relating to the CPDs and protection of special status species within the riparian corridors and the Planned Urbanizing Areas offer the benefit of enabling the City to undertake comprehensive planning of large areas. This will provide opportunities for programmatic, large-scale approaches to the protection of special status species and their habitats.

The development associated with the Urban Area General Plan would result in approximately 144,000 new employment opportunities within the planning area at build-out in 2025. The increased number of local jobs has the economic and social benefits of reducing chronic local unemployment levels that are currently nearly twice the statewide average (*Civilian Labor Force, Employment and Unemployment*. Employment Development Department. January 15, 2003). The increased number of residences benefits the community socially and legally by helping it meet its future regional fair share housing allocations, as required under Government Code Section 65580 et seq.

Potential Disturbance of Archaeological or Historical Sites (cumulative impact)

California Planning and Zoning Law requires the City to adopt a general plan for its long-range physical development (Government Code Section 65300 et seq.). Substantial population increases are projected to occur in Stanislaus County and the City of Modesto during the planning period. The level of development proposed under the Urban Area General Plan and the General Plan Amendments made a part of this project offer the planning benefit of directing how this increased population will be efficiently located within the City through compact development policies contained in the plan, and describing City policies for the provision of future infrastructure and other needs.

New policies proposed as part of this project (see Chapter III of the Master EIR and Section V-8, New Mitigation Measure Cultural-1 and revised Table 8-1) will help to protect existing historic resources from damage or destruction that might otherwise occur as a result of meeting City Zoning Ordinance requirements. This is a resource-protective benefit over existing policies.

The development associated with the Urban Area General Plan would result in approximately 144,000 new employment opportunities within the planning area at build-out in 2025. The increased number of local jobs has the economic and social benefits of reducing chronic local unemployment levels that are currently nearly twice the statewide average (*Civilian Labor Force, Employment and Unemployment*. Employment Development Department. January 15, 2003). The increased number of residences socially and legally benefits the community by helping it meet its future regional fair share housing allocations, as required under Government Code Section 65580 et seq.

Increased Demand for Storm Drainage (cumulative impact)

California Planning and Zoning Law requires the City to adopt a general plan for its long-range physical development (Government Code Section 65300 et seq.). Substantial population increases are projected to occur in Stanislaus County and the City of Modesto during the planning period. The level of development proposed under the Urban Area General Plan and the General Plan Amendments made a part of this project offer the planning benefit of directing how this increased population will be efficiently located within the City through compact development policies contained in the plan, and describing City policies for the provision of future infrastructure and other needs.

The Urban Area General Plan CPD policies give the City the opportunity to undertake comprehensive planning of large areas identified for future development. This provides the

benefit of being able to develop large-scale drainage facilities as part of these plans, in cooperation with other affected agencies. This has the planning benefit of creating programmatic solutions to drainage within those CPDs. The City is currently completing a Drainage Master Plan that will describe the schematic layout of future stormwater drainage systems in all of the planned urbanizing areas (Gilton pers. Comm.). In addition, the City is participating with MID and other local agencies on the preparation of an Integrated Water Resources Management Plan that will address water resources planning and management in the region for surface water, groundwater, wastewater, and stormwater drainage.

The development associated with the Urban Area General Plan would result in approximately 144,000 new employment opportunities within the planning area at build-out in 2025. The increased number of local jobs has the social and economic benefits of reducing chronic local unemployment levels that are currently nearly twice the statewide average (*Civilian Labor Force, Employment and Unemployment*. Employment Development Department. January 15, 2003). The increased number of residences economically and legally benefits the community by helping it meet its future regional fair share housing allocations, as required under Government Code Section 65580 et seq.

Growth-Inducement

California Planning and Zoning Law requires the City to adopt a general plan for its long-range physical development (Government Code Section 65300 et seq.). Substantial population increases are projected to occur in Stanislaus County and the City of Modesto during the planning period. The level of development proposed under the Urban Area General Plan and the General Plan Amendments made a part of this project offer the planning benefit of directing how this increased population will be efficiently located within the City through compact development policies contained in the plan, and describing City policies for the provision of future infrastructure and other needs.

The development associated with the Urban Area General Plan would result in approximately 144,000 new employment opportunities within the planning area at build-out in 2025. The increased number of local jobs has the economic and social benefits of reducing chronic local unemployment levels that are currently nearly twice the statewide average (*Civilian Labor Force, Employment and Unemployment*. Employment Development Department. January 15, 2003). The increased number of residences legally and socially benefits the community by helping it meet its future regional fair share housing allocations, as required under Government Code Section 65580 et seq.

Mitigation Monitoring Program

Background

1. Purpose of the Monitoring Program

This Mitigation Monitoring Program is prepared in accordance with Section 21081.6 of the Public Resource Code. Its purpose is to provide for the accomplishment of the new mitigation measures required by the Final Master Environmental Impact Report (FMEIR) for the City of Modesto Urban Area General Plan.

Because the Master EIR approach has been utilized and because the subject project is a General Plan, the required mitigation measures are programmatic in nature. The mitigation measures generally consist of long-term strategies to be implemented through individual future development projects or through new and existing City procedures.

While implementation of some of the mitigation measures will be ongoing, the implementation of other mitigation measures will occur only when the need arises. For example, building code enforcement will be ongoing, but improvements to the circulation system will be constructed when traffic exceeds acceptable service levels, or when development occurs. Implementation of any programmatic measures will be subject to funding availability.

2. When Implemented

The mitigation measures required for the General Plan will be implemented at various times as development proceeds in the City of Modesto. For each mitigation measure, the implementation schedule may either be ongoing, or concurrent with development. Ongoing indicates that the mitigation measure is a broad policy statement that must be continually implemented. Mitigation measures will also be implemented through all or some future development projects.

3. Monitoring Agency

For each mitigation measure, the monitoring agency will be the City of Modesto. The City will be responsible for ensuring that the mitigation measure is properly implemented.

4. Monitoring Schedule

All the mitigation measures will be monitored periodically, to ensure that implementation is successful. Monitoring will occur, at a minimum, during the Annual General Plan Review and/or during individual development project processing. All of the mitigation measures determined as ongoing will be monitored during the Annual General Plan Review. All of the mitigation measures to be implemented through individual projects will be monitored during both the Annual General Plan Review and through individual project processing.

5. Monitoring

The 2003 FMEIR for the General Plan identifies a number of new mitigation measures to reduce significant environmental impacts. Those mitigation measures identified in the 1995

FMEIR certified for the Urban Area General Plan have been made policies of that plan and are identified in the 2003 FMEIR as policies in place that reduce or avoid significant effects, rather than mitigation measures. They are monitored through the City's Annual Review of its General Plan and are not included as part of this Mitigation Monitoring Program. Some of the new mitigation measures are long-term programs and policies while others are to be implemented through future development projects. The following Mitigation Monitoring Program is limited to those new mitigation measures identified under the 2003 FMEIR. It also identifies those FMEIR tables that have been revised since the 1995 FMEIR was certified and that are referenced in General Plan policies.

When a focused Environmental Impact Report or Mitigated Negative Declaration is prepared for a subsequent development project, the FMEIR for the General Plan will be reviewed in accordance with Section 21157.1 of the Public Resources Code, the City will adopt a Mitigation Monitoring Program specific to that project. The environmental documentation for the proposed development project shall include all the mitigation measures from the FMEIR for the General Plan that are applicable to the proposed project as individual project-level mitigation measures. If some of the applicable mitigation measures have already been incorporated into the project design prior to the preparation of the environmental documentation, the measures will not be included as project-level mitigation measures.

Refinements of the mitigation measures and/or additional mitigation measures beyond those identified in the FMEIR may be required to reduce significant project-level impacts associated with each proposed development project. All mitigation measures identified in the project-level environmental documentation will also be included in the Mitigation Monitoring Program for that project.

6. Format.

The following format is employed for each mitigation measure, in order to comply with the Mitigation Monitoring requirement of Section 21081.6 of the Public Resources Code:

Mitigation Measure

This describes the mitigation measure identified in the Master EIR.

a. Method of Project Implementation

The City of Modesto has adopted all of the mitigation measures identified in the Master EIR into the Modesto Urban Area General Plan as Policy Statements. This approach will comply with section 21081.6(2)(b), which states:

"A public agency shall provide that measures to mitigate or avoid significant effects on the environment are fully enforceable through permit conditions, agreements, or other measures. Conditions of project approval may be set forth in referenced documents which address required mitigation measures, or in the case of the adoption of a plan, policy, regulation, or other public project, by incorporating the mitigation measures into the plan, policy, regulation, or project design." (emphasis added)

b. State Law requires the Mitigation Monitoring Program to be "designed to ensure compliance during project implementation." This Mitigation Measure supports the State Law requirement in the following manner:

In order to ensure compliance of a subsequent project with the Mitigation Measure, the measure itself must be carefully written. It is important to describe the means by which the mitigation measure relates to current practices, or established methods of review.

c. This Measure is "fully enforceable through permit conditions, agreements, or other measures", as follows:

The City has adopted the subject mitigation measure as a Policy Statement in the General Plan. This approach will comply with Public Resources Code Section 21081.6(2)(b).

Mitigation Monitoring Program

Mitigation Measure - Biological Resources

New Mitigation Measure Biology-1: Urban Area General Plan Policy VII-E amendment

3(a) For all lands within the Planned Urbanizing Area, site specific surveys shall be conducted by a qualified biologist to determine whether any sensitive natural communities or species are present within the proposed development area. These studies shall particularly focus on proposed development within any lands included within a potential biological resource study area as delineated on Figure 7-1 in the Final Master EIR. (Riparian Corridor Diagram). Prior to considering development applications, the City shall coordinate with the U.S. Fish and Wildlife Service (USFWS) regarding listed species and potential for impacts. The City shall employ the measures recommended by the USFWS to avoid incidental take.

Surveys should be conducted at the appropriate season to best determine the likelihood of occurrence and should employ accepted methodologies as determined by the DFG and USFWS. The significant results of such surveys should be recorded onto the City's existing biological resources map for future planning purposes.

a. Method of "Project Implementation"

This Mitigation Measure is incorporated directly into the General Plan as a Policy Statement.

b. State Law requires the Mitigation Monitoring Program to be "designed to ensure compliance during project implementation." This Mitigation Measure supports the State Law requirement in the following manner:

The mitigation measure will be applied during the preparation of specific plans and community plans within the Planned Urbanizing Area.

c. This Measure is "fully enforceable through permit conditions, agreements, or other measures" as follows:

State Planning Law (Government Code Section 65100, et seq.) requires specific plans and community plans to be consistent with the Urban Area General Plan. As a result, this measure must be applied during the preparation of a specific plan or community plan.

Mitigation Measure - Biological Resources

Policies VII.E.3 of the Urban Area General Plan will cite Table 8-1 of the 2003 Master EIR, rather than the 1995 Master EIR.

a. Method of "Project Implementation"

This Mitigation Measure is incorporated by reference into the General Plan policies.

b. State Law requires the Mitigation Monitoring Program to be "designed to ensure compliance during project implementation." This Mitigation Measure supports the State Law requirement in the following manner:

The mitigation measure will be applied during the preparation of specific plans and community plans within the Planned Urbanizing Area.

d. This Measure is "fully enforceable through permit conditions, agreements, or other measures" as follows:

State Planning Law (Government Code Section 65100, et seq.) requires specific plans and community plans to be consistent with the Urban Area General Plan. As a result, this measure must be applied during the preparation of a specific plan or community plan.

Mitigation Measure - Cultural Resources

New Mitigation Measure Cultural-1: The Urban Area General Plan shall be amended to include the following Policy VII.F.2[g]:

g. As an ongoing measure, the City of Modesto shall maintain professional standard inventories of historic resources, such as those conducted by Carey and Company in 1997, with the findings of those inventories concurred by the SHPO and kept on file with the State Office of Historic Preservation. The records will provide a preliminary assessment of eligibility at the initial study stage to indicate whether CEQA protections would apply in the case of a project application or whether the resource has previously been determined ineligible. When no previous survey has been conducted, buildings and structures older than 50 years must be evaluated by a professional historian or architectural historian prior to project approval to determine whether the resource is a historically significant resource, for purposes of CEQA.

When CEQA does apply, the character-defining elements of resources that will be affected should be identified by an architectural historian, city staff member, or other professional qualified under Secretary of Interior Standards to review such projects. It is these elements that are a crucial part of the ability of the resource to convey its historic significance. Projects that would alter character-defining elements would cause a compromise in historic integrity and would constitute a significant impact. Projects that follow Secretary of Interior Standards, in consultation with SHPO, can be considered mitigated to a level of less than significant.

The modification of historic structures and places can be mitigated through the application of existing regulations and consultation with the State Historic Preservation Officer, an interim procedure whereby the City evaluates proposals to modify historic structures and develops a program to reduce the impacts on an individual basis.

e. Method of "Project Implementation"

This Mitigation Measure is incorporated directly into the General Plan as a Policy Statement.

f. State Law requires the Mitigation Monitoring Program to be "designed to ensure compliance during project implementation." This Mitigation Measure supports the State Law requirement in the following manner:

Archeological and historical analysis in the Master EIR has used commonly-accepted analytical criteria of the Central California Information Center

(Turlock), National Register of Historic Places, and California State Office of Historic Preservation. The mitigation measure will be applied during the review of subsequent projects through the City's Initial Study process.

g. This Measure is "fully enforceable through permit conditions, agreements, or other measures" as follows:

Section VII-F(2) of the General Plan presents these Mitigation Measures as General Plan Policies. Conditions of approval will be applied at such time as individual projects are approved. Where a project is found, through the Initial Study process, not to comply with these policies, the City will prepare a Mitigated Negative Declaration or Focused EIR and may impose further requirements at that time. Subsequent implementation actions, such as amendments to the Municipal Code, may provide further enforcement opportunities.

Mitigation Measure - Cultural

Policies VII.F.2[a] of the Urban Area General Plan shall be amended to cite Table V-8-1 of the 2003 Master EIR, rather than the 1995 Master EIR.

a. Method of "Project Implementation"

This Mitigation Measure is incorporated directly into the General Plan as a Policy Statement.

b. State Law requires the Mitigation Monitoring Program to be "designed to ensure compliance during project implementation." This Mitigation Measure supports the State Law requirement in the following manner:

Policies VII-F(2) of the Urban Area General Plan require compliance with the provisions of Table 8-1 during project review.

c. This Measure is "fully enforceable through permit conditions, agreements, or other measures" as follows:

General Plan conformance review, which assures that this Mitigation Measure is "fully enforceable," is required for:

- Subdivision Maps (66473.5, Government Code)
- Public Works Projects/Capital Improvement Program (65401)
- Specific Plans (65454)
- Development Agreements (65867.5)
- Redevelopment Plan (33330, et seq, Health & Safety Code)
- Comprehensive Plans (Section III-D, General Plan)

These are the primary means of reviewing development plans and installing public facilities.

Mitigation Measure - Noise

Noise Table 3-3 is incorporated into the 2003 FMEIR to continue the requirement under Urban Area General Plan noise policies VII-G.3 and VII-G.4 that individual project noise contours be based on the assumptions in Table 3-3.

a. Method of "Project Implementation"

This Mitigation Measure is into the General Plan by reference as a Policy Statement.

b. State Law requires the Mitigation Monitoring Program to be "designed to ensure compliance during project implementation." This Mitigation Measure supports the State Law requirement in the following manner:

Table 3-3 will be applied as part of the project conformance review when preparing noise impact studies for individual projects.

c. This Measure is "fully enforceable through permit conditions, agreements, or other measures" as follows:

General Plan conformance review, which assures that this Mitigation Measure is "fully enforceable," is required for:

- Subdivision Maps (66473.5, Government Code)
- Public Works Projects/Capital Improvement Program (65401)
- Specific Plans (65454)
- Development Agreements (65867.5)
- Redevelopment Plan (33330, et seq, Health & Safety Code)
- Comprehensive Plans (Section III-D, General Plan)

These are the primary means of reviewing development plans and installing public facilities.

1. Mitigation Measure

New Mitigation Measure Drainage-1: The City of Modesto shall adopt a Master Drainage Plan, in consultation with Stanislaus County, MID, and TID, to address the projected cumulative flows that would be discharged to MID and TID facilities from the urbanized drainage areas. The master drainage program should include the procedures for planning, evaluation, and design of necessary stormwater drainage facilities to ensure that facilities are capable of accommodating the additional flows. The master drainage program should include capital improvement, operations, and maintenance-financing plans necessary to ensure that facilities are constructed in a timely fashion to reduce the impacts from potential flooding problems.

a. Method of "Project Implementation"

This Mitigation Measure will be implemented as a result of the consistency requirements of State Planning Law. Government Code Section 65401 requires a consistency review of public works plans.

b. State Law requires the Mitigation Monitoring Program to be "designed to ensure compliance during project implementation." This Mitigation Measure supports the State Law requirement in the following manner:

As a General Plan Policy, this Mitigation Measure must be followed in the Capital Improvement Program.

c. This Measure is "fully enforceable through permit conditions, agreements, or other measures" as follows:

General Plan conformance review, which assures that this Mitigation Measure is "fully enforceable," is required for:

- Subdivision Maps (66473.5, Government Code)
- Public Works Projects/Capital Improvement Program (65401)
- Specific Plans (65454)
- Development Agreements (65867.5)
- Redevelopment Plan (33330, et seq, Health & Safety Code)
- Comprehensive Plans (Section III-D, General Plan)

Mitigation Measure - Drainage

Tables 9-1 through 9-4 establish design considerations for new drainage facilities throughout the planning area.

a. Method of "Project Implementation"

These tables are incorporated into the General Plan indirectly, through references in General Plan Policies V-E.2 and V-E..

b. State Law requires the Mitigation Monitoring Program to be "designed to ensure compliance during project implementation." This Mitigation Measure supports the State Law requirement in the following manner:

As a General Plan Policy, this Mitigation Measure must be followed in the Capital Improvement Program.

c. This Measure is "fully enforceable through permit conditions, agreements, or other measures" as follows:

General Plan conformance review, which assures that this Mitigation Measure is "fully enforceable," is required for:

- Subdivision Maps (66473.5, Government Code)
- Public Works Projects/Capital Improvement Program (65401)
- Specific Plans (65454)
- Development Agreements (65867.5)
- Redevelopment Plan (33330, et seq, Health & Safety Code)
- Comprehensive Plans (Section III-D, General Plan)

These are the primary means of reviewing development plans and installing public facilities.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-124**

**A RESOLUTION APPROVING THE INSTALLATION OF A ROUNDABOUT AT
THE INTERSECTION OF SYLVAN AVENUE AND ROSELLE AVENUE AND
THE INTERSECTION OF SYLVAN AVENUE AND MILLBROOK AVENUE**

WHEREAS, on September 3, 2002, by Resolution No.2002-432 the City Council adopted a Roundabout Policy, and

WHEREAS, Modesto City Schools asked City staff to provide a traffic signal/roundabout comparison analysis at the intersection of Sylvan Avenue and Roselle Avenue (Sylvan/Roselle), and

WHEREAS, Modesto City Schools asked City staff to finalize the intersection controls for Sylvan/Roselle to aid them in finishing the improvement plans for a proposed high school, and

WHEREAS, Modesto City Schools also asked City staff to bring to the City Council for review and approval a proposed roundabout at the intersection of Sylvan Avenue and Millbrook Avenue (Sylvan/Millbrook), which will help complete the design of the entire frontage of a proposed high school, and

WHEREAS, the proposed roundabouts for Sylvan/Roselle and Sylvan/Millbrook comply with the Roundabout Policy, and

WHEREAS, on February 10, 2003, the Economic Development Committee approved the proposed roundabout at Sylvan/Roselle,

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the installation of roundabouts at the intersections of Sylvan Avenue and Roselle Avenue and Sylvan Avenue and Millbrook Avenue. In addition,

Staff is directed to prepare a visual model of the Sylvan/Millbrook intersection to resolve any engineering concerns that the schools may have and to advise the Council of any changes in the staff recommendation based on issues of student safety.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 4th day of March, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2003-125**

**A RESOLUTION AWARDED A FIVE-YEAR CONTRACT TO STORER
TRANSIT SYSTEMS TO OPERATE THE MODESTO AREA DIAL-A-RIDE
SERVICE AND AUTHORIZING STAFF TO PREPARE A FINAL AGREEMENT
WITH STORER TRANSIT SYSTEMS FOR CONSIDERATION BY THE CITY
COUNCIL.**

WHEREAS, the existing agreement with Storer Transit Systems to operate the Modesto Area Dial-A-Ride (MADAR) service expires June 27, 2003, and

WHEREAS, the City wishes to continue providing Dial-A-Ride service to the citizens of Modesto, and

WHEREAS, the City Council authorized staff to solicit proposals for a new five-year contract to be effective June 28, 2003, and

WHEREAS, two proposals were received for the contract, and

WHEREAS, an evaluation committee composed of staff from three different transit agencies and the City of Modesto selected Storer Transit System's proposal as the best submitted, and

WHEREAS, by an agenda report to the City Council dated February 11, 2003, from the Engineering and Transportation Director, recommended award of a new MADAR operations contract to Storer Transit systems, AND

WHEREAS, at its February 10, 2003, meeting, the Economic Development Committee approved recommending award of the contract to Storer Transit Systems,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that a five-year contract to operate the Modesto Area Dial-A-Ride service is hereby awarded to Storer Transit Systems, subject to City Council approval of a final agreement.

BE IT FURTHER RESOLVED that staff is hereby authorized to prepare a final agreement with Storer Transit Systems for consideration by the City Council.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-126**

A RESOLUTION APPROVING A “ZERO RENT” GROUND LEASE AGREEMENT WITH THE FEDERAL AVIATION ADMINISTRATION (FAA) FOR THE AIRPORT SITE OF THE AUTOMATED SURFACE OBSERVATION SYSTEM (ASOS) EQUIPMENT, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNATED REPRESENTATIVE, TO EXECUTE THE LEASE ON BEHALF OF THE CITY.

WHEREAS, airport weather information is gathered and reported using an Automated Surface Observation System (ASOS) located at Modesto City-County Airport, and

WHEREAS, the ASOS equipment was owned and maintained by the National Weather Service of the National Oceanic and Atmospheric Administration (NOAA), and NOAA has leased an equipment site at the airport since 1994, and

WHEREAS, the City of Modesto recently received word from the Federal Aviation Administration (FAA) that the responsibility of maintaining the ASOS is now their responsibility, and

WHEREAS, the FAA is requesting that the City enter into a lease with the FAA for the ASOS site, and

WHEREAS, the FAA lease is a “zero rent” ground lease like the NOAA agreement that will continue 12 years beyond that of the NOAA lease, with an expiration date of September 30, 2021, and

WHEREAS, the Council’s Economic Development Committee considered the lease agreement at their February 10, 2003, meeting and supports the acceptance and the approval of the lease with the FAA,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the ground lease agreement with the FAA allowing the continued use of a site at the airport for the Automated Surface Observation System (ASOS).

BE IT FURTHER RESOLVED that the City Manager or his designated representative is hereby authorized to execute the lease on behalf of the City of Modesto.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-127**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO
FORMALLY SOLICIT REQUEST FOR BIDS FOR WATER METERS, FOR A
THREE (3) YEAR AGREEMENT WITH TWO (2) ONE-YEAR EXTENSION
OPTIONS.**

WHEREAS, the Operations and Maintenance Department Water Division has requested the purchase of water meters in various sizes, and

WHEREAS, these water meters will be used to service residential sites and commercial and industrial businesses within the City, and

WHEREAS, the purchase of new meters under the meter replacement program is for the replacement of non-operable and non-repairable water meters, and installation for new metered service in new subdivisions, and

WHEREAS, the City desires to solicit bids for a three (3) year agreement with two (2) one-year extension options, and

WHEREAS, Modesto Municipal Code (MMC), Section 8-3.203, generally requires all purchases, which meet or exceed \$50,000.00 for material, equipment or contractual services to be formally bid, and

WHEREAS, by soliciting competitive bids for water meters in various sizes, the Finance Department Purchasing Division will comply with MMC Section 8-3.203 regarding formal bid procedures,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. The City Clerk is hereby authorized to call for public competitive sealed bids for the purchase of water meters in various sizes, for a three (3) year agreement with two (2) one-year extension options, to be opened in the office of the City Clerk, 1010 Tenth Street, in the City of Modesto. The City Clerk shall be directed to give notice inviting such sealed bids in the time, form, and manner provided by law.

SECTION 2. After the sealed bids are opened, they shall be tabulated and analyzed and a report submitted to Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of March, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmemeber Fisher, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-128**

A RESOLUTION AUTHORIZING THE PURCHASE OF THIRTEEN (13), 2003, FORD CROWN VICTORIA, CHP CLASS "E" PATROL SEDANS THROUGH HERITAGE FORD, MODESTO, CA. FOR A TOTAL ESTIMATED COST OF \$347,743.00

WHEREAS, the Operations and Maintenance Department-Fleet Services has requested the purchase of thirteen (13), 2003, Ford Crown Victoria, CHP Class "E" patrol sedans for the Police Department, and

WHEREAS, eleven (11) of these units have met their life expectancy and are fully funded for replacement from funds set aside out of the vehicle replacement fund, and

WHEREAS, two (2) additional units are needed to replace two patrol sedans that were totaled in collisions, and

WHEREAS, in previous years the police patrol vehicles were purchased through the State of California, Department of General Services vehicle contract, and

WHEREAS, this year the Purchasing Division issued a competitive bid inquiry to see if the pricing received from the local Ford dealer would be competitive with the State contract pricing, and

WHEREAS, after extensive comparison of vehicle standards and options, the pricing received from Heritage Ford was found to be more competitive than the pricing off the State vehicle contract based on not having to pay the administrative fees associated with accessing the contract, and

WHEREAS, pricing the vehicles locally will also afford the City the benefit of local tax dollars, and

WHEREAS, this purchase of 13 sedans is expected to meet the City's patrol sedan needs for the next 12 months, and

WHEREAS, the City will receive the full benefits of the vehicle warranty since warranty start is delayed until the vehicles are put into service, and

WHEREAS, in accordance with the recommendation of the Finance Committee at their meeting on August 26, 2002, staff is bringing requests for critical pieces of equipment forward to Council on an individual "as needed" basis, and

WHEREAS, on January 27, 2003, the Finance Committee recommended that a like-vehicle price comparison be obtained from the local Ford dealer, and

WHEREAS, the estimated cost of thirteen (13), 2003, Ford Crown Victoria, CHP Class "E" patrol sedans purchased through Heritage Ford, Modesto, Ca. is \$347,743.00, which is less than the cost of purchasing the vehicles under the State of California, Department of General Services contract, and

WHEREAS, the Modesto Municipal Code (MMC) generally requires all purchases exceeding \$50,000 for materials and equipment of this type to be formally bid, and

WHEREAS, per MMC 8-3.204 (d) the Purchasing Supervisor may determine that a process other than the formal bid procedure set forth in Section 8-3.203 will result in a procurement for the City at the lowest possible cost commensurate with the desired quality,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the purchase of thirteen (13), 2003, Ford Crown Victoria, CHP Class "E" patrol sedans from Heritage Ford, Modesto, Ca. for a total estimated cost of \$347,743.00.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of March, 2003, by Councilmember Keating, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2003-129**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO
ISSUE A REQUEST FOR PROPOSAL (RFP) FOR HOT PATCH WORK.**

WHEREAS, the Operations and Maintenance Department-Water Division is requesting the purchase of hot patch work for the period of May 30, 2003, through May 30, 2004, with two one-year extension options, and

WHEREAS, hot patch work consists of asphalt repairs to street cuts made in order to perform repairs in Empire and Zone 3 water systems, and

WHEREAS, Zone 3 is comprised of Waterford, Hickman, Empire, Salida, Del Rio, Ceres, Turlock, Grayson, and County areas just outside the City limits that do not receive surface water from the Modesto Irrigation District (MID) water system, and

WHEREAS, the City crews perform some of this work but often in-house resources are not available to perform the hot-patch work needed in Zone 3, and

WHEREAS, the City has encroachment permits with Stanislaus County that allow the City to make the necessary street cuts to repair Empire and Zone 3 water system, and

WHEREAS, those permits give us a restricted timeframe to repair the street system and perform the hot patch work once the street cuts are made, and

WHEREAS, the City has additional exposure to the liability for damages resulting from the vehicles traveling over the un-repaired cuts, and

WHEREAS, by soliciting competitive proposals for hot-patch work, the Finance Department, Purchasing Division will comply with the Modesto Municipal Code, Section 8-3.204, regarding formal proposal procedures,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that formal solicitation of proposals for hot-patch work is hereby approved as follows:

SECTION 1. The City Clerk is hereby authorized to call for public competitive sealed proposals for hot-patch work to be opened in the City Clerk, 1010 10TH Street, in the City of Modesto. The City Clerk shall be directed to give notice inviting such sealed proposals in the time, form, and manner provided by law.

SECTION 2. After the proposals are opened, they shall be tabulated and analyzed and a report submitted to Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of March, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

CHEVROLET SILVERADO 1500 TRUCKS OFF THE STATE OF CALIFORNIA,
DEPARTMENT OF GENERAL SERVICES CONTRACT AND FROM
COALINGA MOTORS OF COALINGA CA. FOR A TOTAL ESTIMATED COST
OF \$104,531.97**

WHEREAS, the Operations and Maintenance Department-Fleet Services has requested the purchase of six (6), 2003 Chevrolet Silverado, 1500 trucks, and

WHEREAS, these units will replace trucks which have become unreliable and costly to keep operational, and

WHEREAS, these units have met their life expectancy, and

WHEREAS, these units are fully funded for replacement from funds set aside out of the Fleet Replacement Fund, and

WHEREAS, the estimated cost for six (6), 2003 Chevrolet Silverado, 1500 trucks purchased under the State of California, Department of General Services (DGS), Purchasing Division contract is \$102,694.19, and

WHEREAS, the estimated State service charge for using the DGS contract is \$1,837.78, and

WHEREAS, Coalinga Motors is the closest State authorized Chevrolet dealer for the Silverado 1500 trucks, and

WHEREAS, purchasing these Chevrolet trucks from Coalinga Motors under the DGS contract will allow the City to receive the lowest possible price for these vehicles, and

WHEREAS, the Purchasing Division went through an extensive informal bid process for these vehicles, and

WHEREAS, the lowest pricing received was \$2,000.00 more than the state pricing, and

WHEREAS, the estimated total cost of this purchase is \$104,531.97, and

WHEREAS, the Modesto Municipal Code generally requires all purchases exceeding \$50,000 for materials and equipment of this type to be formally bid, and

WHEREAS, per MMC 8-3.204 (d) the Purchasing Supervisor may determine that a process other than the formal bid procedure set forth in Section 8-3.203 will result in a procurement for the City at the lowest possible cost commensurate with the desired quality,

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto hereby approves the purchase of six (6), 2003 Chevrolet Silverado, 1500 trucks under the DGS statewide pricing contract for a total estimated cost of \$104,531.97

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of March, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

A RESOLUTION AUTHORIZING THE PURCHASE OF A JOHN DEERE 304H WHEEL LOADER UNDER THE STATE OF CALIFORNIA, DEPARTMENT OF GENERAL SERVICES, CALIFORNIA MULTIPLE AWARD SCHEDULE (CMAS) CONTRACT FROM NORTREX WEST OF FRENCH CAMP, CA. FOR A TOTAL ESTIMATED COST OF \$70,522.45.

WHEREAS, the Operations and Maintenance Department-Fleet Services has requested the purchase of a John Deere 304H wheel loader, and

WHEREAS, this unit will replace a loader which has become unreliable and costly to keep operational, and

WHEREAS, this unit has met its life expectancy, and

WHEREAS, this unit is fully funded for replacement from funds set aside out of the Water Enterprise Fund, and

WHEREAS, the Water Department heavy construction crew, needs this loader to meet its work program installing and replacing major sections of water distributions lines, and

WHEREAS, the estimated cost of a new John Deere 304H loader Purchased under a California multiple Award Schedule (CMAS), General Services Administration Statewide pricing contract is \$69,277.13, and

WHEREAS, the estimated State Service Charge for using the CMAS contract is \$1,245.22, and

WHEREAS, purchasing the equipment from Nortrex West under the CMAS contract will allow the City to receive the lowest possible price for this piece of industrial equipment, and

WHEREAS, Nortrax West, French Camp, CA. is the closest authorized dealer for this equipment, and there are no local vendors authorized to sell this piece of industrial equipment, and

WHEREAS, the estimated total cost of this purchase is \$70,522.45, and
 WHEREAS, the Modesto Municipal Code (MMC) generally requires all purchases exceeding \$50,000 for materials and equipment of this type to be formally bid, and

WHEREAS, per MMC Section 8-3.204 (d) the Purchasing Supervisor may determine that a process other than the formal bid procedure set forth in Section 8-3.203 will result in a procurement for the City at the lowest possible cost commensurate with the desired quality, and

WHEREAS, at its meeting on February 24, 2003, the Finance Committee authorized City staff to take this equipment purchase to Council for approval,

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto hereby approves the purchase of a John Deere 304H wheel loader from Nortrex West under the CMAS statewide pricing contract for a total estimated cost of \$70,522.45.

THE CITY OF MODESTO.**

WHEREAS, a Position Classification Plan for the City of Modesto was adopted by Modesto City Council Resolution 88-338 pursuant to Rule 2 of the Personnel Rules and Regulations of the City of Modesto, and

WHEREAS, the City Manager has recommended to the Council amendments to the Position Classification Plan, and

WHEREAS, Rule 2.2 of the City of Modesto Personnel Rules provides that revisions to the Classification Plan shall be effective upon adoption of resolution of the City Council,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION I. CLASSIFICATION AMENDED. The Position Classification Plan of the City of Modesto is hereby amended to revise the following classification:

Traffic Engineer

This classification is being amended as a result of the updating of the job specification in preparation of opening a recruitment. The specification for the classification of Traffic Engineer (Range 447), as shown on the attached **Exhibit "A"**, which is hereby made a part of this resolution by reference, is hereby approved and made part of the Position Classification Plan of the City of Modesto.

SECTION 2. EFFECTIVE DATE. This resolution shall become effective on and after March 11, 2003.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of March, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

CITY OF MODESTO
No. 2339

January, 2003

TRAFFIC ENGINEER

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

DEFINITION

To plan organize, direct, and participate in the development, operation, and maintenance of the City's traffic system and facilities; and to provide responsible staff assistance to the Deputy Director of Engineering and Transportation, Traffic and Development Services Division.

SUPERVISION RECEIVED AND EXERCISED

Receives administrative direction from the Deputy Director of Engineering and Transportation - Traffic and Development Services Division.

Exercises technical and functional supervision over professional, technical, and clerical staff.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS – Essential and other important responsibilities and duties may include, but are not limited to, the following:

Essential Functions

Develop and implement division goals, objectives, policies, and priorities.

Plan, organize, direct, review and evaluate work involving transportation planning and traffic engineering.

Provide advice and technical assistance to City Council and department management and staff, Planning Commission, Council committees, and the public on traffic matters.

Participate in review of development plans and Environmental Impact Reviews (EIR's).

Provide for the selection, training and professional development of assigned staff.

Direct or conduct studies and prepare reports and correspondence on traffic control issues for presentation to the City Council, Planning Commission, Council committees, and other civil bodies.

Establish and maintain liaison with appropriate governmental bodies, private firms, organizations or individuals to assist in achieving City objectives and insuring compliance with appropriate laws and technical standards affecting traffic engineering.

Represent the City in legal affairs related to traffic and transportation issues; coordinate and prepare answers to legal inquiries.

Monitor the operations and suitability of existing traffic facilities; recommend and assist in the implementation of new traffic control facilities.

Oversee and develop citywide traffic calming programs.

Prepare and administer division budget.

Marginal Functions:

Perform related duties as assigned.

QUALIFICATIONS

Knowledge of:

Principles and practices of traffic engineering.

Principles of traffic calming, neighborhood traffic reduction.

Transportation engineering theory and practices.

Current state and federal traffic regulations.

Recent developments, current literature, and sources of information regarding traffic engineering.

Principles of supervision, training, and budget administration.

Ability to:

Manage and prioritize a diverse traffic control program.

Analyze complex traffic control problems, evaluating alternatives and reaching sound conclusions.

Plan, assign, direct, review, and evaluate the work of others.

Perform a variety of responsible traffic and transportation engineering functions.

Perform required traffic/transportation studies, and analyses.

Identify, analyze, and develop workable solutions to traffic problems.

Understand community traffic concerns.

Explain technical traffic engineering information to nonprofessionals.

Write clear, concise and effective reports, letters, or memos.

Experience and Training Guidelines

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Experience:

Four years of increasingly responsible professional traffic engineering experience including one year of supervisory or lead responsibility.

Training:

Equivalent to a Bachelor's degree from an accredited college or university with major course work in civil and/or traffic engineering or a related field. A Master's Degree in Transportation is desirable.

License or Certificate:

Possession of a valid Certificate of Registration as a Traffic Engineer issued by the California State Board of Registration for Professional Engineers.

Possession of, or ability to obtain, an appropriate, valid California driver's license.

WORKING CONDITIONS

Environmental Conditions:

Office environment; occasionally travel from site to site.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for sitting for prolonged periods of time; travel to and from various locations; attending meetings; and using a personal computer and related office equipment.

POLICE DETECTIVE

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

DEFINITION

To perform law enforcement and crime prevention work; to perform investigative work; to participate in and provide support and assistance to special crime prevention and enforcement programs; and to perform a variety of technical and administrative tasks in support of the department.

SUPERVISION RECEIVED AND EXERCISED

Receives general supervision from higher level supervisory and management staff.

Exercises functional and technical supervision over sworn and non-sworn personnel.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS – Essential and other important responsibilities and duties may include, but are not limited to, the following:

Essential Functions:

Collect, process, photograph and present evidence using scientific techniques including fingerprints, fibers, blood, and related physical evidence.

Conduct a variety of criminal investigations involving crimes against persons and property, auto theft, white collar crime, and narcotics; gather evidence and prepare cases for prosecution.

Identify suspects; conduct interviews and interrogations; apprehend and arrest offenders.

Contact and interview victims and witnesses; preserve and investigate crime scenes.

Conduct covert, undercover investigations as assigned.

Contact and cooperate with other law enforcement agencies in matters relating to the apprehension of offenders and the investigation of offenses.

Assist in the performance of special investigative and crime prevention duties as required.

Prepare reports on arrests made, activities performed and unusual incidents observed.

Make arrests as necessary; interview victims, complainants and witnesses; interrogate suspects; administer polygraph tests; gather and preserve evidence; testify and present evidence in court.

Serve arrest and search warrants within the department and with outside agencies; remain current on laws and procedures required for processing warrants.

Perform a wide variety of laboratory tests and procedures including those related to narcotics testing; act as Department photographer; testify in court as an expert witness.

Gather crime related intelligence information and conduct background investigations; coordinate information and activities with outside agencies and jurisdictions.

Investigate juvenile related crimes including child abuse and juvenile narcotics; coordinate youth services with outside agencies and organizations including local school districts; conduct community presentations and instruct assigned classes.

Operate applicable computer systems; enter and retrieve information; assess bank records.

Conduct personnel recruitment background investigations; interview potential job candidates and references; administer voice stress analysis tests.

Give oral presentations at schools, clubs and other community organizations.

Marginal Functions:

Perform related duties as assigned.

QUALIFICATIONS

Knowledge of:

Police methods and procedures including investigation and identification techniques.

Criminal law and criminal procedure with particular reference to the apprehension, arrest and custody of persons committing misdemeanors and felonies, including rules of evidence pertaining to the seizure and preservation of evidence.

Offensive and defensive weapons nomenclature and theory.

Self defense tactics.

Interviewing and interrogation techniques.

Ability to:

Analyze situations quickly and objectively, and determine and take emergency action.

Understand and carry out oral and written instructions.

Communicate effectively, both orally and in writing.

Learn the operation of standard equipment and facilities required in the performance of assigned tasks including a computer.

Learn standard broadcasting procedures of a police radio system.

Learn to prepare search warrants.

Meet the physical requirements established by the Department including medium-heavy lifting up to 75 lbs.

Learn to cultivate well placed informants in the civilian population.

Use and care for firearms.

Prepare accurate and grammatically correct written reports.

Experience and Training Guidelines

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Experience:

A minimum of four years of increasingly responsible full-time sworn law enforcement experience, two of which must be with Modesto Police Department .

OR

Three years of full-time sworn law enforcement experience with Modesto Police Department.

Training:

Equivalent to the completion of the twelfth grade supplemented by specialized training in police science, criminology or a related field. An Associate of Arts degree is desirable.

License or Certificate

Possession of, or ability to obtain, an appropriate, valid California driver's license.

Possession of a P.O.S.T. Basic Certificate.

WORKING CONDITIONS

Environmental Conditions:

Office and field environment; travel from site to site.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for walking or standing for prolonged periods of time; operating a personal computer and other office equipment and vehicles.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-137**

A RESOLUTION AUTHORIZING THE CITY MANAGER TO EXECUTE A CONTRACT WITH PRC TO DEVELOP MDC COMMUNICATION SOFTWARE FOR MODESTO POLICE DEPARTMENT MOBILE DATA COMPUTERS.

WHEREAS, The City of Modesto currently uses Aether's (formerly Cerulean) mobile data computer software (MDC) in ten of the fleet of sixty police vehicles, to communicate between the Stanislaus Regional 911 Center and the Modesto Police Department mobile computer units in its police vehicles, and

WHEREAS, the current software, provided by Aether, has several performance problems which is due to gaps in functionality between the Stanislaus Regional 911 vendor PRC and the City's current Aether provided software, and

WHEREAS, the problems were brought to the attention of the MDC software provider Cerulean (now Aether) but no resolution to the problem has been provided, and

WHEREAS, the City attempted to negotiate with Aether to correct the problems but was informed their product design did not allow for Modesto's requests without a costly rewrite of their system, and

WHEREAS, The Police Department contacted other agencies and vendors in search for alternatives to Aether's product. and

WHEREAS, the MPD and IT Department developed a detailed requirement specification that was competitively bid, and

WHEREAS, PRC was the only vendor to meet and exceed all the City's requirements including correcting the messaging issue, determined as an officer safety issue and was the lowest responsive bidder, and

WHEREAS The Safety and Communities Committee met on March 3rd, 2003 and supported the execution of a contract with PRC to develop MDC communication software for Modesto Police Department Mobile Data Computers to go to Council for the full review, and

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it authorizes the City Manager to execute a contract with PRC to develop MDC communication software for Modesto Police Department Mobile Data Computers.

BE IT FURTHER RESOLVED The Police Department currently has \$148,805 encumbered under purchase order 02-93082 and it intends to unencumber these funds to pay for this project. If the Police Department is unable to unencumber these funds they will try to locate additional funding sources

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of March, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Keating
O'Bryant, Mayor Sabatino

RESOLUTION NO. 2003-138**

**A RESOLUTION RESCINDING RESOLUTION NO. 2003-119 WHICH
AUTHORIZED MAYOR SABATINO TO SEND A LETTER TO THE STATE
AUDITOR CONTROLLER REQUESTING AN AUDIT WITH REGARD TO
STANISLAUS COUNTY'S POSSIBLE OVERCHARGE OF TIPPING FEES AT
THE FINK ROAD LANDFILL.**

WHEREAS, on March 4, 2003 the City Council authorized Mayor Sabatino to send a letter to the State Auditor Controller requesting an audit with regard to Stanislaus County's possible overcharge of tipping fees at the Fink Road Landfill and other related matters; and

WHEREAS, the letter was not to be sent until the Council had heard an oral report from Stanislaus County's Chief Executive Officer, Reagan Wilson; and

WHEREAS, on March 11, 2003, the City Council did hear an oral report from Reagan Wilson concerning the issues that were to be the subject of the audit.

NOW THEREFORE BE IT RESOLVED, by the Council of the City of Modesto that resolution no 2003-119 is hereby rescinded.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of March, 2003, by Councilmember Conrad, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-139**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO RE-
ISSUE A REQUEST FOR PROPOSAL (RFP) FOR FUEL CARDLOCK
SERVICES**

WHEREAS, the proposals received for Fuel Cardlock Services were opened at 11:00 a.m. on May 14, 2002, in the office of the City Clerk, and

WHEREAS, out of twenty-seven (27) vendors solicited only two (2) responsive proposals were received, and

WHEREAS, one of the responsive proposers alleged that the proposal process was flawed, and

WHEREAS, in November of 2002, by Resolution No. 2002-589, Council authorized rejecting all bids and re-issuing a new Request for Proposal (RFP) with changes to the specifications and evaluation criteria in hopes of receiving a more competitive response, and

WHEREAS, based on direction from the Finance Committee, the following changes to specifications shall be incorporated into the new RFP for Fuel Cardlock Services:

- Contract term will be for three (3) years with the option of two (2) one year extensions.
- A proposers' conference will be held to address any questions regarding the content of the RFP.
- The pricing index used will be OPIS Unbranded Low
- Fuel Sites will be broken down by number of islands and number of nozzles for each fuel type at each island.
- Reporting will entail giving a cost estimate on what it will cost to have the proposers reporting system interface with the City's reporting system.
- Proposers will be required to meet with City staff on a quarterly basis to perform invoice line audits to ensure pricing accuracy and contract compliance.

and,

WHEREAS, new Award Criteria and Weighting shall be as follows:

<u>Criteria</u>	<u>Weighting</u>
Relevant Experience	5
Company Background	5
Fuel Sites/Hours of Operations	30
Auditing, QA, Reporting	25
Pricing	35

and,

WHEREAS, an evaluation committee comprised of representatives from the Fleet and Purchasing Divisions as well as subject experts from other public agencies will evaluate the proposals based on the evaluation criteria, and

WHEREAS, a member of Council and the City's internal auditor will also be invited to observe the evaluation process, and

WHEREAS, Modesto Municipal Code (MMC) Section 8-3.203 generally requires all purchases exceeding \$50,000 for material and equipment of this type to be formally bid, and

WHEREAS, the re-issuance of a formal RFP for Fuel Cardlock Services will conform to MMC 8-3.203, and

WHEREAS, at its meeting on December 12, 2002, the Finance Committee fully supported the issuance of a new Request for Proposal (RFP), and

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto hereby authorizes the Purchasing Supervisor to re-issue a Request for Proposal (RFP) for Fuel Cardlock Services with modifications to the specifications and evaluation criteria as set forth in this Resolution, except that the pricing index will be Opus Low, and;

BE IT FURTHER RESOLVED that staff is directed to implement a process providing for a protest procedure prior to the bid award.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of March, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-149**

A RESOLUTION APPROVING A SUPPLEMENTAL AGREEMENT BETWEEN COVANTA STANISLAUS, INC., THE COUNTY OF STANISLAUS, THE CITY OF MODESTO, AND PACIFIC GAS AND ELECTRIC COMPANY; APPROVING A SETTLEMENT AGREEMENT AND GENERAL RELEASE OF CLAIMS BETWEEN COVANTA STANISLAUS, INC., THE COUNTY OF STANISLAUS, THE CITY OF MODESTO, AND PACIFIC GAS AND ELECTRIC COMPANY; AND AUTHORIZING THE CITY MANAGER TO EXECUTE BOTH AGREEMENTS.

WHEREAS, in 1985, the City and County (the "Contracting Communities") formed a Joint Powers Agency and entered into a Service Agreement with the Stanislaus Waste Energy Company (now Covanta Stanislaus) to build a waste-to-energy facility, and

WHEREAS, on August 20, 1985, Pacific Gas and Electric Company (PG&E) entered into a Power Purchase Agreement with Stanislaus Waste Energy Company, now known as Covanta Stanislaus, and

WHEREAS, pursuant to this Agreement, Covanta is required to sell, and PG&E is obligated to pay for, electrical capacity and to purchase electrical energy generated by Covanta at its waste to energy facility in Stanislaus County through and including December 31, 2009, and

WHEREAS, the Contracting Communities are entitled to receive 90 percent of the monies paid by PG&E pursuant to the terms of the Contract, and

WHEREAS, a dispute arose as to the amount of money due and payable under the Power Purchase Agreement, and a Complaint, Cross Complaint, and Appeal were filed by the parties in relation to this matter, and

WHEREAS, the parties now wish to resolve the disputes and claims arising out of and relating to said Complaint, Cross Complaint, and Appeal, and

WHEREAS, the parties have negotiated a Settlement Agreement and General Release of Claims, which, upon execution, would resolve the disputes and claims, and

WHEREAS, in April, 2001, PG&E filed a Chapter 11 Bankruptcy Petition in the U.S. Bankruptcy Court for the Northern District of California, and

WHEREAS, as of February, 2001, PG&E had not paid for electricity provided to it by the Facility for the period December 1, 2000 through April 6, 2001, and

WHEREAS, the amount PG&E owed the Contracting Communities and Covanta for that period was \$7,794,659.46, and

WHEREAS, PG&E's bankruptcy filing put payment of this amount owed to the Contracting Communities and Covanta on hold until its bankruptcy was resolved, and

WHEREAS, PG&E did resume normal payments to the project once it had filed bankruptcy, and has remained current on its payments since that time, and

WHEREAS, Bankruptcy Counsels for the Contracting Communities and Covanta have now negotiated new terms to a proposed Supplemental Agreement with PG&E that will enable the facility to receive the money owed by PG&E in six (6) monthly installments, and

WHEREAS, PG&E has also agreed to pay 5% per annum interest on the amount owed, and

WHEREAS, these payments would begin 15 days after the execution of the Supplemental Agreement, and

WHEREAS, it will be of benefit of the Contracting Communities to receive these funds in a timely manner.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the City hereby approves the Settlement Agreement and General Release of Claims

attached as **Exhibit A** hereto and the Supplemental Agreement attached as Exhibit B hereto.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute these Agreements on behalf of the City.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of March, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: Conrad

ATTEST: Jean Zahr

SETTLEMENT AGREEMENT
AND GENERAL RELEASE OF CLAIMS

This Settlement Agreement and General Release of Claims ("Settlement Agreement") dated _____, 2003, is made by and between COVANTA STANISLAUS, INC. ("Covanta"), County of Stanislaus ("County"), City of Modesto ("Modesto") and Pacific Gas & Electric Company ("PG&E"). Covanta, County, Modesto and PG&E are referred to herein collectively as the "Parties" or singularly as a "Party".

WITNESSETH:

- A. WHEREAS, on August 20, 1985, PG&E entered into a Power Purchase Agreement for Long-Term Energy and Capacity (the "Contract") with Stanislaus Waste Energy Company; and
- B. WHEREAS, pursuant to said Contract, Covanta, as successor-in-interest to Stanislaus Waste Energy Company, is required to sell and PG&E is obligated to pay for electrical capacity and to purchase electrical energy generated by Covanta at its waste to energy facility in Stanislaus County through and including December 31, 2009; and
- C. WHEREAS, the County and Modesto, in exchange for having assisted in the financing of the waste to energy facility, are entitled to receive the benefit of a certain percentage of the monies paid by PG&E pursuant to the terms of the Contract; and
- D. WHEREAS, a dispute has arisen as to the amount of money due and payable under the terms of the Contract; and
- E. WHEREAS, on October 31, 1997, the County and Modesto filed a Complaint for Declaratory Relief in the Superior Court for the County of Stanislaus, State of California, entitled *County of Stanislaus, a political subdivision of the State of California, and City of Modesto, a municipal corporation, plaintiffs, v. Pacific Gas & Electric Company, a Public Utility; Ogden Martin Systems of Stanislaus, a California*

Corporation; and Does 1 through 20, inclusive, defendants, Stanislaus Superior Court No. 156011 (hereinafter referred to as the "Action"); and

F. WHEREAS, on March 9, 1998, the matter was ordered transferred to and added to a Coordinated Proceeding pending in the Superior Court for the City and County of San Francisco entitled *In Re Power Purchase Agreement Cases*, Judicial Counsel Coordinated Proceeding No. 3241; and

G. WHEREAS, on or about May 22, 1998, PG&E filed a Cross-Complaint in the Judicial Counsel Coordinated Proceeding No. 3241, entitled *Pacific Gas & Electric Company, a California Corporation, Cross-Complainant, v. Ogden Martin Systems of Stanislaus, Inc., a California Corporation, and Roes 1 through 100, inclusive, Cross-Defendants* (the "Cross-Complaint"); and

H. WHEREAS, on July 21, 1998, Judge Thomas J. Mellon, Jr., of the San Francisco Superior Court issued an Order sustaining PG&E's Demurrer to the First Amended Complaint of the County and Modesto without leave to amend; and

I. WHEREAS, on September 14, 1998, the Judge Mellon signed an Order of Dismissal and Judgment thereon in favor of PG&E as to the First Amended Complaint of the County and Modesto; and

J. WHEREAS, on November 12, 1998, the County and Modesto filed a Notice of Appeal (the "Appeal"); and

K. WHEREAS, PG&E filed a Chapter 11 bankruptcy petition pursuant to Title 11, United States Code §§101, *et seq.* (United States Bankruptcy Court for the Northern District of California, San Francisco Division (the "PG&E Bankruptcy Court"), case No. 01-20923-DM ("PG&E Bankruptcy Case")) on April 6, 2001; and

L. WHEREAS, Covanta filed a Chapter 11 bankruptcy petition pursuant to Title 11, United States Code §§101, *et seq.* (United States Bankruptcy Court for the Southern District of New York (the "Covanta

Bankruptcy Court"), jointly administered under case No. 02-40826 (CB) ("Covanta Bankruptcy Case") on April 1, 2002; and

M. WHEREAS, the Appeal filed by County and Modesto is still pending as is PG&E's Cross-Complaint in the Coordinated Proceedings; and

N. WHEREAS, the Parties wish to resolve the disputes and claims arising out of and relating to the Action, the Appeal, and the Cross-Complaint in exchange for the mutual promises and considerations set forth herein; and

O. WHEREAS, the Parties are concurrently executing a Supplemental Agreement ("Supplemental Agreement");

NOW, THEREFORE, in consideration of the premises described above and the terms and conditions set forth below, the Parties hereby agree as follows:

1. The County and Modesto expressly agree that, within fifteen (15) calendar days after the first date that all orders of the PG&E Bankruptcy Court and the QF Bankruptcy Court approving this Settlement Agreement and the Supplement Agreement are final and non-appealable, they will voluntarily dismiss the Appeal currently pending in the Court of Appeal of the State of California, First Appellate District No. 80-85074, with prejudice, provided, however, that it is expressly agreed by PG&E, on behalf of itself, its assigns, parents, subsidiaries, successors, representatives and trustees, that the Order sustaining the Demurrer of PG&E to the First Amended Complaint and the Judgment of the trial court thereon upon which the Appeal is based, shall not have any issue preclusive effect, whether through the application of doctrine of collateral estoppel, the doctrine of res judicata or any other means, on the issue of the standing of the County and/or Modesto to assert any future claims, including claims for declaratory relief, relating to the Power Purchase Agreement identified herein as the "Contract". The County and Modesto expressly represent and warrant to PG&E and County that they are the sole holders of all right, title and interest to the claims raised by them in the Appeal.

2. **PG&E** expressly represents and warrants to **Covanta, County and Modesto** that: (a) it is the sole holder of all right, title and interest to the claims raised in the **Cross-Complaint** in Judicial Counsel Coordinated Proceeding No. 3241; and (b) **PG&E** has not assigned, pledged or otherwise transferred its right, title and interest in the **Cross-Complaint** (or any right or claim to receive in its proceeds or distributions thereon to any third party or parties, for any purpose, whether it is an outright transfer or a transfer for security). **PG&E** further agrees to dismiss with prejudice the **Cross-Complaint** within fifteen (15) calendar days after the first date that all orders of the **PG&E Bankruptcy Court** and the **QF Bankruptcy Court** approving this **Settlement Agreement** and the **Supplement Agreement** are final and non-appealable.

3. Each of the **Parties** agrees to waive and forego any and all claims for attorneys' fees and costs as to one another relating to the **Action**, the **Appeal**, the **Cross-Complaint** or any other aspect of the Judicial Counsel Coordinated Proceeding No. 3241.

4. This **Settlement Agreement** is subject to approval of the **PG&E Bankruptcy Court** and the **Covanta Bankruptcy Court** and shall not become effective until the date of entry of the later in time of the orders of the **PG&E Bankruptcy Court** and the **Covanta Bankruptcy Court** approving this **Settlement Agreement** and the **Supplemental Agreement**.

5. By the initialing of each one's authorized representative below, each of the **Parties** agrees to waive the application of the provisions of Civil Code §1542, which provides as follows:

A general release does not extend the claims which the creditor does not know or suspect to exist in his favor at the time of executing the release, which if known by him must have materially affected his settlement with the debtor.

_____ **County**
 _____ **City**
 _____ **PG&E**
 _____ **Covanta**

IT IS AGREED AND UNDERSTOOD by the Parties that each one is waiving any and all claims, known and unknown, that each one presently or in the past has or had or may have, or may have had arising out of or relating to the **Contract**, except for the following:

(a) This waiver of Civil Code §1542, as well as the other provisions of this **Settlement Agreement**, shall not apply to any claims arising from or relating to the **Contract** that may arise after the date of this **Agreement**;

(b) This waiver of §1542, as well as the other provisions of this **Settlement Agreement**, do not apply to any claims arising out of or relating to the **Assumption Agreement** of July 13, 2001 between **PG&E** and **Covanta** or the **Supplemental Agreement** dated _____, 2002, between and among **PG&E**, **Covanta**, **County** and **Modesto**; and

(c) The waiver of Civil Code §1542, as well as the other provisions of this **Settlement Agreement**, shall not apply to any claims arising out of or relating to the **Contract** that are between the **County** or **Modesto** on one hand and **Covanta** on the other, except for any claims arising out of or relating to the **Fixed Price Period** dispute described in the **First Amended Complaint** filed in the **Action**, the proofs of claim filed in the **PG&E Bankruptcy Case**, and the negotiation and execution of this **Agreement**.

6. Each Party shall pay its own expenses, professional fees and other costs connected with or associated with the negotiation and execution of this **Settlement Agreement** except that in any action to enforce or interpret the terms of this **Settlement Agreement**, the prevailing Party or Parties shall be entitled to recover all costs and expenses (including attorneys' fees) incurred in connection with or arising out of such action.

7. This **Settlement Agreement** made and entered into in the State of California shall in all respects be interpreted and governed by the laws of the California, without regard to principles of conflicts of law.

8. This Settlement Agreement shall be binding upon and inure to the benefit of the successors and assigns of the Parties hereto, including any trustee appointed in the PG&E Bankruptcy Case or the Covanta Bankruptcy Case.

9. Any modification or amendment to this Settlement Agreement must be in writing and must be signed and dated by the Parties, and must expressly state that it is intended to be an amendment to or modification of this Settlement Agreement.

10. Counsel for the respective Parties have reviewed and participated in the drafting of this Settlement Agreement. Consequently, the principle of construction of contracts that ambiguity shall be resolved against the drafter shall not be used or applied in the interpretation of this Settlement Agreement.

11. Each Party hereby represents and warrants to each of the Parties that: (a) the execution of this Settlement Agreement has been duly authorized by all necessary corporate, governmental, shareholder and similar actions; (b) this Settlement Agreement has been duly executed and delivered and constitutes the legal, valid and binding obligation of such Party, enforceable against such Party in accordance with its terms; and (c) the execution and delivery of this Settlement Agreement and the performance by such Party of its obligations hereunder do not and will not conflict with, contravene or breach, any law, judgment, order or material contract applicable to or binding on such Party.

12. This Settlement Agreement may be executed in separate counterparts, each of which when executed shall be an original by all of which, taken together shall constitute one and the same instrument.

IN WITNESS WHEREOF, this Settlement Agreement has been duly executed by or on behalf of Covanta, the County, Modesto and PG&E as of the date first written above by duly authorized representatives.

EXHIBIT E

SUPPLEMENTAL AGREEMENT

THIS SUPPLEMENTAL AGREEMENT, dated _____, 2003, is made by and between COVANTA STANISLAUS, INC. (PG&E Log No. 16P052) ("QF"), COUNTY OF STANISLAUS (the "County"), CITY OF MODESTO ("Modesto") and PACIFIC GAS AND ELECTRIC COMPANY ("PG&E"). QF, County, Modesto and PG&E are sometimes referred to herein as the "Parties" or singularly as a "Party".

WITNESSETH:

A. WHEREAS, PG&E filed a Chapter 11 Bankruptcy Petition pursuant to Title 11 United States Code Sections 101, *et. seq.* ("Bankruptcy Code") in the United States Bankruptcy Court for the Northern District of California, San Francisco Division (the "PG&E Bankruptcy Court") on April 6, 2001; and

B. WHEREAS, QF filed a Chapter 11 Bankruptcy Petition pursuant to Title 11 United States code Sections 101, *et. seq.* ("Bankruptcy Code") in the United States Bankruptcy Court for the Southern Division of New York (the "Covanta Bankruptcy Court") on April 1, 2002; and

C. WHEREAS, QF and PG&E are parties to that certain Agreement dated as of July 13, 2001 ("Assumption Agreement") respecting, among other things, the assumption by PG&E of that Power Purchase Agreement for Long-Term Energy and Capacity Between Stanislaus Waste Energy Co. and Pacific Gas and Electric Company listed therein (the "Contract") and such Assumption Agreement has been approved by order of the PG&E Bankruptcy Court (the "Assumption Order"); and

D. WHEREAS, PG&E's Chapter 11 Bankruptcy case, Case No. 01-20923-DM ("PG&E Bankruptcy Case"), remains pending in the PG&E Bankruptcy Court; and

E. WHEREAS, QF's Chapter 11 Bankruptcy case, jointly administered under Case No. 02-40826(CB) (the "Covanta Bankruptcy Case") remains pending in the Covanta Bankruptcy Court;

Page 1 -

and

F. WHEREAS, pursuant to the Assumption Order, PG&E assumed the Contract pursuant to 11 U.S.C. § 365(b) and (d)(2) and Rules 6006, 9014 and 9019 of the Federal Rules of Bankruptcy Procedure; and

G. WHEREAS, starting on or about February 2, 2001 (the "Initial Default Date"), PG&E failed to pay the full amount due to QF under the Contract for deliveries of energy and capacity for the period between December 1, 2000 and April 6, 2001; and

H. WHEREAS, the principal amount of payables for QF is set forth in Attachment A to the Assumption Agreement for a total principal amount due QF of Seven Million Seven Hundred Ninety-Four Thousand Six Hundred Fifty-Nine Dollars and Forty-Six Cents (\$7,794,659.46), excluding interest thereon (the "Prepetition Payables"); and

I. WHEREAS, the Assumption Agreement provides that the Interest Rate, as defined in the Assumption Agreement, should be negotiated in good faith by the Parties; and

J. WHEREAS, the Parties have negotiated the provisions set forth in this Supplemental Agreement respecting the Interest Rate and payment of the Prepetition Payables; and

K. WHEREAS, the Parties are concurrently executing a Settlement Agreement and General Release of Claims ("Settlement Agreement"); and

L. WHEREAS, the Parties wish to resolve certain preexisting litigation pending in the California Court of Appeal, First Appellate District, and the California Superior Court in San Francisco;

NOW, THEREFORE, in consideration of the premises described above and the terms and conditions set forth below, the Parties hereby agree as follows:

1. Definitions.

Any capitalized term not defined herein shall have the meaning ascribed to it in the **Assumption Agreement**.

2. Calculation and Rate of Interest.

The outstanding principal balance of the **Prepetition Payables** shall bear interest at a rate of five percent (5%) per annum (the "Interest Rate") from the respective due dates of the principal amounts set forth on Attachment A to the **Assumption Agreement** until paid. Interest shall be calculated on the basis of a 365-day year with the actual number of days (excluding the first day and including the last day) occurring during the period for which interest is payable.

3. Payment Schedule.

(a) Interest. All accrued prepetition and postpetition interest due on the **Prepetition Payables**, shall be paid within fifteen (15) calendar days after the first date that all orders of the **PG&E Bankruptcy Court** and the **QF Bankruptcy Court** approving this **Supplemental Agreement** and the **Settlement Agreement** are final and non-appealable.

(b) Principal. Notwithstanding the terms of any plan of reorganization filed by **PG&E** or by any other Party in the **PG&E Bankruptcy Case**, **PG&E** shall pay the outstanding principal balance of the **Prepetition Payables** in six (6) equal monthly installments on the last **PG&E** business day of each month commencing _____, 2003 and continuing at the end of each month thereafter until paid in full.

(c) Separate Payments. All payments of the sums set forth in Attachment A to the **Assumption Agreement** and the principal and interest due hereunder shall be made in accordance with all agreements by and among the Parties providing for payment of any amounts due and owing by **PG&E** pursuant to the **Power Purchase Agreement for Long Term Energy and Capacity** (the

"Contract") with the Stanislaus Waste Energy Co. which were in effect as of April 5, 2001 (unless designated to the contrary in writing by QF, the County and Modesto at least one (1) week in advance of the payment date), in the amounts set forth in Exhibit 1 attached hereto. Each of the payments above is subject to adjustment for rounding errors (either upward or downward) of up to but no more than one dollar(\$1.00).

(d) Due on Plan Effective Date. If the Plan Effective Date of any plan confirmed in the PG&E Bankruptcy Case shall occur before the Prepetition Payables and all interest accrued thereon have been paid in full, the remaining balance of the Prepetition Payables and all interest accrued thereon shall be paid on such Plan Effective Date.

(e) Setoffs. To the extent that PG&E has or claims to have any right to assert any existing or future right of setoff as a defense to the reduction of any of its obligations to pay the Prepetition Payables and/or interest thereon, PG&E hereby waives such right of setoff with respect to such obligations, but only with respect to such obligations. Provided PG&E is not in default of its payment obligations under this Supplemental Agreement, QF shall not setoff any obligation owed to PG&E against such Party's right to receive payments under this Supplemental Agreement. Except as set forth above, each Party retains any and all setoff rights it may have, if any, under the Contract.

(f) Monthly Payments Under the Contract. For deliveries starting on February 1, 2002, QF hereby waives any right that it might have pursuant to California Public Utilities Commission ("CPUC") Decision 01-03-067 to receive semi-monthly payments in lieu of monthly payments pursuant to the Contract. All payments for deliveries starting on February 1, 2002 will be on a monthly billing cycle. Unless otherwise directed by the CPUC, PG&E shall make payments to QF within fifteen (15) days of the end of each monthly billing cycle.

(g) Other Terms. The right of QF to receive all payments hereunder shall be entitled to administrative expense priority under Bankruptcy Code Sections 503 and 507(a)(1). QF shall have standing and reserves the right to object or seek other relief in the PG&E Bankruptcy Court in the

event that PG&E's cash reserves fall below what is reasonably necessary to timely satisfy PG&E's postpetition obligations, including the obligations under this Supplemental Agreement. The obligations of PG&E under this Supplemental Agreement shall be binding on any trustee in a Chapter 7 or Chapter 11 bankruptcy case, and cannot be altered, amended or modified by any plan of reorganization or other order or ruling in the PG&E Bankruptcy Case.

4. Approval by County of Stanislaus and City of Modesto.

Pursuant to certain agreements by and among QF, the County and Modesto ("Fuel Supply Agreements"), transactions such as this Supplemental Agreement and the Settlement Agreement are subject to County and Modesto approval. The County and Modesto hereby certify that the appropriate governing body for each such entity has considered and approved this Supplemental Agreement and the Settlement Agreement.

5. Withdrawal of Claims.

Except for those administrative claims specifically provided for by Section 3(g) hereof, QF, the County and Modesto, and each of them, waive their respective right to file any Section 503 administrative expense claims based on services provided the PG&E estate through the date of this Supplemental Agreement. Furthermore, QF, the County, and Modesto, and each of them, agree to waive and withdraw any and all claims or proofs of claims each of them has filed in the PG&E Bankruptcy Case (including but not limited to Claims Nos. 8780, 9883 and 9884 filed by QF, Claim No. 12499 filed by the County, and Claim No. 12500 filed by Modesto) within fifteen (15) calendar days after the first date that all orders of the PG&E Bankruptcy Court and the QF Bankruptcy Court approving this Supplemental Agreement and the Settlement Agreement are final and non-appealable. QF, the County, and Modesto, and each of them, further agree to forego any rights each of them may have to amend such claims, or to file new claims.

05/18/03 10:22 FAX 8104000000

6. Dismissal of Appeal.

The County and Modesto expressly represent and warrant to PG&E that they are the sole holders of all right, title and interest to the claims raised by them in the appeal entitled *County of Stanislaus, a political subdivision of the State of California, and City of Modesto, a municipal corporation v. Pacific Gas & Electric Company, a Public Utility; Ogden Martin Systems of Stanislaus, a California Corporation; and Does 1 through 20, inclusive*, currently pending in the Court of Appeal of the State of California, First Appellate District (AO 89074) ("Appeal");

The County and Modesto agree that, within fifteen (15) calendar days after the first date that all orders of the PG&E Bankruptcy Court and the QF Bankruptcy Court approving this Supplemental Agreement and the Settlement Agreement are final and non-appealable, they will voluntarily dismiss the Appeal with prejudice; provided, however, that it is expressly agreed by PG&E, on behalf of itself, its assigns, parents, subsidiaries, successors, representatives, and trustees, that the judgment of the trial court upon which the Appeal is based shall not have any issue preclusive effect, whether through the application of the doctrine of collateral estoppel, the doctrine of res judicata or any other means, on the issue of the standing of the County and/or Modesto or their successors or assigns to assert any future claims, including claims for declaratory relief, relating to the Power Purchase Agreement identified herein as the "Contract".

It is further agreed and understood that each Party shall bear its respective costs and fees with respect to the Appeal and related proceedings before the Trial Court.

7. Dismissal of Cross-Complaint.

PG&E expressly represents and warrants to QF, County and Modesto that (a) it is the sole holder of all right, title and interest to the claims raised in the Cross-Complaint filed by PG&E against Ogden Martin Systems of Stanislaus, Inc. in the Judicial Council coordinated Proceeding No. 3241 before the Superior Court of California, County of San Francisco (the "Cross-Complaint"); and (b)

PG&E has not assigned, pledged, or otherwise transferred its right, title and interest in the Cross-Complaint (or any right or claim to received payments, proceeds, or distributions thereon) to any third party or parties for any purpose, whether as an outright transfer or as a transfer for security, PG&E further agrees to dismiss with prejudice the Cross-Complaint within fifteen (15) calendar days after the first date that all orders of the PG&E Bankruptcy Court and the QF Bankruptcy Court approving this Supplemental Agreement and the Settlement Agreement are final and non-appealable. The dismissal of the Appeal and the dismissal of the Cross-Complaint are also subject to the terms and conditions of the Settlement Agreement and General Release of Claims executed concurrently by the Parties hereto.

8. Bankruptcy Court Approval.

This Supplemental Agreement is subject to both PG&E Bankruptcy Court approval and QF Bankruptcy Court approval. This Supplemental Agreement shall not become effective until both the PG&E Bankruptcy Court and the QF Bankruptcy Court enter Orders approving this Supplemental Agreement. This Supplemental Agreement shall not become effective until both the PG&E Bankruptcy Court and the QF Bankruptcy Court enter orders approving this Supplemental Agreement and each of said orders becomes final. Covanta agrees to provide to counsel for PG&E and the City and County copies of any and all orders of the QF Bankruptcy Court approving this Supplemental Agreement and the Settlement Agreement and PG&E agrees to provide counsel for Covanta and the City and County copies of any and all orders of the PG&E Bankruptcy Court approving this Supplemental Agreement and the Settlement Agreement.

9. Default.

In the event that any payment required to be made under this Supplemental Agreement is not made on or before the date due, QF may make a motion to enforce this Supplemental Agreement or seek other appropriate relief before the PG&E Bankruptcy Court on seven (7) calendar days' notice. QF shall not be required to commence an adversary proceeding or other suit and may proceed by noticed motion on seven (7) calendar day's notice without the requirement of obtaining an order shortening time.

Page 7 -

QF reserves the right to seek, as appropriate relief, that the entire amount of the Prepetition Payables and all interest thereon should be accelerated as a result of such nonpayment. PG&E reserves the right to assert that acceleration is not appropriate.

10. Entire Agreement.

This Supplemental Agreement, together with the Assumption Agreement, sets forth the entire agreement between the Parties relating to the Interest Rate and the payment by PG&E of the Prepetition Payables relating to the assumption by PG&E of the Contract and the payment of the Prepetition Payables and supersedes and replaces any prior understanding, correspondence, commitments or agreement, whether oral or written concerning the subject matters of this Supplemental Agreement, except that it is agreed and understood that the terms of the Assumption Agreement and the Contract remain in full force and effect, and any conflict between this Supplemental Agreement and the Assumption Agreement and/or the Contract shall be resolved in favor of this Supplemental Agreement. Any modification or amendment to this Supplemental Agreement must be in writing and must be signed and dated by the Parties, and must explicitly state that it is intended to be an amendment to or modification of this Supplemental Agreement

11. Descriptive Headings.

The descriptive headings of this Supplemental Agreement are inserted for convenience of reference only and do not constitute a part of this Supplemental Agreement.

12. Expenses.

Each Party shall pay its own expenses, professional fees and other costs connected with or associated with the negotiation and execution of this Supplemental Agreement. In any action to enforce or interpret the terms of this Supplemental Agreement, the prevailing Party or Parties shall be entitled to recover all costs and expenses (including attorneys' fees and expenses) incurred in connection with or arising out of such action.

13. Governing Law.

This Supplemental Agreement is made and entered into in the State of California, and shall in all respects be interpreted and governed under the laws of California, without regard to principles of conflicts of law.

14. Binding Agreement.

This Supplemental Agreement shall be binding upon and inure to the benefit of the successors and assigns of the Parties hereto, including any trustee appointed in the PG&E Bankruptcy Case or the Covanta Bankruptcy Case.

15. Construction of Agreement.

Counsel for the respective Parties have reviewed and participated in the drafting of this Supplemental Agreement. Consequently, the principle of construction of contracts that ambiguities shall be resolved against the drafter shall not be used or applied in the interpretation of this Supplemental Agreement.

16. Representations.

Each Party hereby represents and warrants to each of the other Parties that (a) the execution of this Supplemental Agreement has been duly authorized by all necessary corporate, shareholder, official, public agency and similar actions; (b) this Supplemental Agreement has been duly executed and delivered and constitutes the legal valid and binding obligation of such Party, enforceable against such Party in accordance with its terms; and (c) the execution and delivery of this Supplemental Agreement and the performance by such Party of its obligations hereunder do not and will not conflict with, contravene or breach, any law, judgment, order or material contract applicable to or binding on such Party or any of its properties or assets.

17. Transfer of Prepetition Payables.

QF expressly represents and warrants to PG&E: That the **Prepetition Payables** are to be paid in accordance with the terms of all agreements by and among QF, the County and Modesto which were in effect as of April 5, 2001 specifying, inter alia, the manner in which any amounts due and owing by PG&E pursuant to the Contract are to be paid (the "Agreements"). Accordingly, all payments due under this **Supplemental Agreement** shall be delivered by PG&E in accordance with said **Agreements**, unless and until PG&E receives notice of transfer from the QF, as well as a signed consent to the assignment executed by both the **County and Modesto** or their successors or assignees. Such notice shall be in writing to the attention of:

Director, Power Contracts
Pacific Gas and Electric Company
P.O. Box 770000, MC N12E
San Francisco, CA 94177
Fax: 415-973-9176

In the event that PG&E makes a payment of **Prepetition Payables** pursuant to the terms of said **Agreements** after the effective date of any transfer of right, title and interest in the **Prepetition Payables**, QF shall promptly cause such payment to be forwarded to the transferee of the right, title and interest in the **Prepetition Payables**, and indemnify and hold PG&E harmless from any claim, demand or action by the transferee to collect any such payment from PG&E.

18. Execution by Counterparts.

This **Supplemental Agreement** may be executed in separate counterparts, each of which when executed shall be an original, but all of which, taken together shall constitute one and the same instrument.

IN WITNESS WHEREOF, this **Supplemental Agreement** has been duly executed by or on behalf of QF, the County, Modesto and PG&E as of the date first written above.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-151**

A RESOLUTION APPROVING LICENSE AND ENVIRONMENTAL INDEMNITY AGREEMENTS WITH BEARD LAND IMPROVEMENT COMPANY IN THE AMOUNT OF \$2,790 PER MONTH AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENTS AND TO ENTER INTO RENTAL AGREEMENTS FOR A MODULAR BUILDING AND OTHER TEMPORARY SUPPORT FACILITIES FOR THE PURPOSE OF HOUSING A SATELLITE CORPORATION YARD AT 236 CODONI AVE

WHEREAS, for several years the City has sought sufficient funding to support design and construction of a new Bus and Vehicle Maintenance Facility and recently received a federal allocation to support the bulk of this project, and

WHEREAS, construction of the Bus and Vehicle Maintenance Facility will displace current uses in the City's Corporation Yard, and

WHEREAS, a Satellite Corporation Yard has been contemplated for a number of years due to space limitations at the existing Corporation Yard facility and to better support growth areas on the City's east and north sides, and

WHEREAS, staff has identified an optimal site for a temporary Satellite Corporation Yard in the Beard Industrial Tract at 236 Codoni Avenue, and

WHEREAS, the Codoni site is located on approximately 4 acres and has security, fencing and room for expansion, and

WHEREAS, Beard Land Improvement Company is prepared to lease the Codoni site on a month-to-month basis for the sum of \$2,790 per month, and

WHEREAS, development of a Satellite Corporation Yard at the Codoni Avenue location will require leasing modular and other temporary facilities, and

WHEREAS, the Economic Development Committee considered the possibility of developing a Satellite Corporation Yard at the Codoni Avenue site and recommended approval by the City Council at its January 13, 2003 meeting,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the License and Environmental Agreements for Lease of the Codoni Avenue facility as a Satellite Corporation Yard, copies of which are attached hereto as **Exhibits A and B** and authorizes the City Manager, or his designee, to execute the agreements.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that it hereby authorizes the City Manager to enter into Rental Agreements for a Modular Building and other temporary support facilities for the Codoni Avenue Satellite Yard.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of March, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

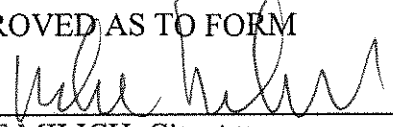

NOES: Councilmembers: None

ABSENT: Councilmembers: Conrad

ATTEST:

JEAN ZAHR, City Clerk

APPROVED AS TO FORM

MIKE MILICH, City Attorney

LICENSE AGREEMENT

THIS LICENSE AGREEMENT (the "License Agreement") is made as of March 25., 2003, the "Effective Date" by and between BEARD LAND IMPROVEMENT COMPANY, a California corporation ("Licensor"), and CITY OF MODESTO, a municipal corporation ("Licensee").

RECITALS

A. Licensor is the owner of that certain real property (A.P.N. 009 19 36) shown on Exhibit A attached hereto (the "Property").

B. For the purposes of this License Agreement, the "Business Use" means parking, occasional loading, unloading, repair and maintenance of commercial trucks and related truck-trailers owned and/or operated by Licensee and/or agents, representatives or contractors of Licensee ("Trucks"), but specifically excludes any fueling and servicing (including, without limitation, oil changes and lubrication work) of any Trucks, and any storage. For the purposes of this License Agreement, "Facilities" mean and include certain facilities, improvements and equipment of the Licensed Area.

C. Licensee desires to use on a non-exclusive basis that portion of the Property described in Exhibit B attached hereto and shown in the site map attached hereto as Exhibit C (the "Licensed Area") for the Business Use.

D. Licensor and Licensee desire to enter into this License Agreement to provide Licensee a personal, revocable license to use the Licensed Area for the Business Use subject to and in accordance with the terms and conditions contained herein, with the express understanding and agreement that this License Agreement is not intended to be, nor is it, a license coupled with an interest, nor is it intended to, nor does it, confer upon Licensee any exclusive rights of possession or occupancy whatsoever in connection with the Licensed Area.

NOW, THEREFORE, for good and valuable consideration, the receipt and sufficiency of which are hereby acknowledged, the parties agree as follows:

1. License. Subject to all the terms and conditions of this License Agreement, Licensee shall have from Licensor a non-exclusive, non-transferable, personal and revocable license (the "License") to use the Licensed Area only for the Permitted Uses.

2. License Consideration.

2.1 License Fee. Licensee shall pay Licensor a license fee (the "License Fee") in the amount of Two Thousand Ninety Dollars (\$2,790.00) per month. The License Fee shall be payable in advance. The first payment shall be due and payable on the Effective Date, and subsequent payments shall be made on or before the first day of each month thereafter until the termination or revocation of the License. Any

License Fee that is allocable to a partial calendar month shall be prorated using a 30-day month.

2.2 **Late Charge.** Licensee and Licensor agree that it would be impossible or extremely impracticable to determine the actual amount of damages Licensor would sustain in the event Licensee fails to pay the License Fee or any other License Consideration due under this License Agreement within the times required hereunder. Therefore, if Licensor fails to receive any License Fee or other License Consideration payable by Licensee on the due date therefor, then Licensee shall pay to Licensor a late charge equal to six percent (6%) of such amounts not paid by the due date therefor ("**Late Charge**") as liquidated damages to compensate Licensor for its administrative costs resulting from such nonreceipt. Receipt of any Late Charge shall not be deemed consent by Licensor to late payment, nor a waiver of Licensor's right to insist upon timely payment at any time, nor a waiver of any remedies to which Licensor is entitled as a result of the late payment of any License Consideration. Licensor may apply any payments received from Licensee to any obligations of Licensee then accrued.

2.3 **Late Interest.** If any payment of the License Fee or any other License Consideration (including without limitation any Late Charge above) is not received by Licensor by the date when due, the amount of such late payment shall bear interest until paid on an annualized basis at the rate of the lower of (i) the announced prime rate established by Wells Fargo Bank, N.A., in San Francisco, California, as of the date such sums are due; and (ii) the maximum interest rate allowed by law. Interest payable under this Section 2.3 shall be payable in addition to any Late Charge.

2.4 **Use of the Licensed Area After License Revocation or Termination.** If Licensee or any property attributable to Licensee remains on or about the Licensed Area after the revocation or termination of the License: (a) Licensee shall continue to be subject to all of Licensee's obligations under this License Agreement but shall not have any rights under this License Agreement; and (b) Licensee shall be a trespasser and at Licensor's election, shall be (i) liable for damages attributable to such trespass; or (ii) liable for, and shall pay, on a monthly basis, a License Fee to Licensor equal to 125% of the License Fee that was in effect immediately preceding the revocation or termination of the License. Acceptance of any such License Fee shall not be deemed to be any consent to extend or modify the License. No use of the Licensed Area by Licensee after any termination or revocation of the License shall give it any rights whatsoever under the License Agreement or the License or in connection with the Licensed Area. If Licensor elects that Licensee shall pay the License Fee set forth in Section 2.4(b)(ii), Licensee shall pay an entire month's License Fee for any portion of a month that it or its property remains on or about the Licensed Area after the revocation or termination of the License.

2.5 **License Consideration.** For purposes of this License Agreement, "**License Consideration**" shall include the License Fee (as defined below) and any other amounts that Licensee is obligated to pay Licensor pursuant to this License Agreement. License Consideration shall be paid to Licensor in the lawful currency of the United States of America, at Licensor's address or at such other place and/or directly to such account as Licensor may designate by written notice. License

Consideration shall be paid without any prior demand or notice therefor, except for such notice as may be expressly required elsewhere in this License Agreement, and shall in all events be paid without any deduction, set-off or counterclaim, except as expressly set forth in this License Agreement.

3. **Permitted Use of Licensed Area; Applicable Requirements.**

3.1 **Permitted Use.** Licensee shall use the Licensed Area and the Facilities only for the Business Use and the installation, operation, maintenance, use and repair of the Facilities solely in connection with the Business Use (the "**Permitted Uses**"). For purposes of this License Agreement, the Licensed Area, together with the Facilities, shall be referred to as the "**Site**."

3.2 **Applicable Requirements.** Licensee shall comply at its sole cost and expense with all Applicable Requirements, whether or not such compliance is required because of any use of all or any portion of the Property by Licensor, or any agent, invitee, contractor, tenant, licensee, affiliate, subsidiary, or parent company of Licensor, changes in Applicable Requirements, or whether compliance necessitates structural changes or improvements to all or any portion of the Site, or interferes with Licensee's use of all or any portion of the Site. For purposes of this License Agreement, "**Applicable Requirements**" shall mean and include:

(a) **Laws and Regulations.** All statutes, codes, decrees, judgments, rules, regulations and other legal requirements, as amended, supplemented or replaced from time to time, which are applicable to the maintenance, repair, alteration, use, safety or operation of all or any portion of the Site; including without limitation the condition or use of the Facilities and/or the Licensed Area; and/or Licensee's business and/or operations on, about or in connection with the Site, as presently conducted or as may be conducted in the future, irrespective of whether any of the foregoing are foreseen or unforeseen, ordinary or extraordinary, minor or substantial.

(b) **Third Party Requirements.** All reasonable requirements of Licensor's insurance underwriters, applicable fire rating bureaus or similar bodies, now or hereafter in effect, pertaining to Licensee's use of and/or business or operations on or about all or any portion of the Site; and

(c) **Title Requirements.** All liens, encumbrances, restrictions, rights and conditions of record or otherwise actually known to Licensee, or reasonably ascertainable by inspection or survey.

(d) **Government Permits.** All permits, approvals and licenses (including, without limitation, all terms and conditions thereof) from any governmental or quasi-governmental agency, authority or entity.

3.3 **Prohibited Activities.** Notwithstanding anything to the contrary in this License Agreement, and without limiting the generality of any other provision in this License Agreement, Licensee shall not: (i) disturb or interfere with Licensor or Licensor's activities at, on or about the Property, or with any tenant or any other

licensee, occupant or invitee of any other part of the Property; (ii) cause, maintain, or suffer any waste or nuisance in, on or about all or any part of the Site, including, without limitation, storage or maintenance of any substance or material that presents a fire, explosion, or other hazard; (iii) use the Site in any manner so as to cause either cancellation of Licensor's insurance policies now or hereafter in effect, or any increase in the premiums in connection therewith; and (iv) place any signs or other markings in or upon any externally visible portions of the Site or the Property without Licensor's prior written consent (which consent may be withheld or conditioned in Licensor's reasonable discretion).

3.4 Licensor's Access. Licensor and its authorized representatives shall have the right, but not the duty, at any time to enter upon the Site in order to monitor or inspect Licensee's activities, assess whether Licensee is in compliance with the provisions of this License Agreement, or for any other purpose, including without limitation installing, maintaining, repairing or replacing utilities, facilities, or other infrastructure and improvements, or conducting invasive tests; provided, however, that Licensor shall use reasonable efforts to minimize the impact of such activities on the operation of the Site.

3.5 Reservation of Rights. Licensor further reserves and retains all rights of possession and ownership in connection with the Licensed Area, including without limitation the right to grant and/or enter into, from time to time, such easements, encumbrances, licenses, leases, rights of way, and dedications in connection with and/or including the Licensed Area, as Licensor deems necessary or advisable, in its sole and absolute discretion. Neither this License Agreement, the License nor any use by Licensee or any Licensee Parties shall confer or be construed to confer upon Licensee or any Licensee Parties any rights of possession or ownership whatsoever in or in connection with the Licensed Area, and Licensee shall not claim or assert anything to the contrary.

3.6 Safety. Without limiting the generality of any other provision in this License Agreement, Licensee shall take all steps necessary or advisable to ensure safety at or about the Site, whether or not such steps are required by any Applicable Requirements. Licensor, at Licensee's cost and expense, shall have, upon five days' notice, the right, but not the obligation, to immediately commence and prosecute to completion any cure of any failure by or on behalf of Licensee to comply with any provisions of this Section 3.6. In the event Licensor determines, in its reasonable discretion, that any condition or situation exists at the Site that poses or may reasonably pose any imminent threat to the safety of any persons or property at or adjacent to the Site or to public health and welfare, Licensor shall have the right, but not the obligation, to immediately, at Licensee's cost and expense: (i) perform any work to remedy or mitigate any such imminent threat; and/or (ii) take any actions to remedy or mitigate any such imminent threat, including, without limitation, requiring Licensee to suspend or cease business operations and suspending or revoking the License.

4. Revocation and Termination.

4.1 **Termination by Licensee.** Licensee may terminate the License in the event of any of the following: (i) for any or no reason, upon 90 days' prior written notice to Licensor; or (ii) any failure by Licensor to comply with any material term or condition of this License Agreement, and such failure is not cured within 15 days after written notice thereof to Licensor or, in the event of a cure which requires in excess of 15 days to complete, if Licensor has not commenced such cure within 15 days of such notice and thereafter does not diligently prosecute the cure to completion.

4.2 **Revocation by Licensor.** Licensor may revoke the License upon the occurrence of any of the following: (i) any failure by Licensee to pay any License Consideration required hereunder when due, if such failure shall continue for more than five business days after delivery to Licensee of notice of such failure to make timely payment (a "**Monetary Default**"); or (ii) any failure by Licensee to comply with any term or condition of this License Agreement, other than the payment of License Consideration (a "**Non-Monetary Default**"), if such Non-Monetary Default is not cured within 15 days after written notice thereof is given to Licensee, or in the event of a cure which requires more than 15 days to complete, if Licensee has not commenced such cure within 15 days of such notice and thereafter does not diligently and continuously prosecute the cure to completion; (iii) any failure by Licensee to comply with any provision of that certain Environmental Indemnity License Agreement entered into by and between Licensor and Licensee of even date herewith (the "**Environmental Indemnity Agreement**"), immediately upon written notice to Licensee; or (iv) for any or no reason upon 90 days' prior written notice to Licensee. Without limiting the generality of Section 12, immediately upon any such revocation, Licensor shall have the right to remove Licensee and/or any and all of Licensee's property from the Licensed Area at Licensee's sole cost and expense.

4.3 **Effective Date of Termination or Revocation.** For purposes of this License Agreement, the last day of any notice period set forth in Sections 4.1 and 4.2 after which the License shall terminate or be revoked shall be referred to as the effective date of termination or revocation.

5. **Maintenance and Repair.** Licensee, at its sole cost and expense, shall maintain and keep the Site or any portion thereof in good working order, condition, and repair, and in a clean and sanitary condition. In the event that any repairs or maintenance to or for the Site or any portion thereof are required, Licensee shall promptly arrange for the same through Licensee's contractors, provided Licensor shall have the right to approve, in its reasonable discretion, such contractors in writing. All such repairs and maintenance shall be performed in a first class, workmanlike manner and such repairs and maintenance shall be of a quality and class equal to or better than the original work or item. If Licensee fails to perform any of its obligations under this Section 5, Licensor shall have the right, but not the obligation, to perform such obligations at Licensee's expense upon 48 hours notice to Licensee. The costs incurred by Licensor therefor shall be reimbursed as License Consideration by Licensee within 15 days after invoice by Licensor.

6. Alterations.

6.1 Licensee shall not make any alterations, improvements, additions, replacements, changes, or installations (collectively "**Alterations**") in, on or about all or any portion of the Site without Licensor's prior written consent (which consent may be granted or withheld in Licensor's sole and absolute discretion). In connection with any such proposed Alterations, Licensor shall have the right to (i) approve, in its reasonable discretion, Licensee's contractors; and (ii) require Licensee to provide Licensor, at Licensee's sole cost and expense, a lien and completion bond in an amount equal to one and one-half times the estimated cost of such Alterations, to insure Licensor against any liability for mechanic's and materialmen's liens and to ensure completion of the work. All Alterations shall be performed in a first-class, workmanlike manner. Should Licensee make any Alterations without the prior approval of Licensor, Licensor shall have the right to require that Licensee immediately remove any or all of such Alterations.

6.2 Any proposed Alterations in or about all or any portion of the Site that Licensee shall desire to make shall be presented to Licensor in written form, with proposed detailed plans. If Licensor shall give its consent, the consent shall be deemed conditioned upon Licensee acquiring all necessary permits and governmental approvals, the furnishing of a copy thereof to Licensor prior to the commencement of the work, and the compliance by Licensee with all Applicable Requirements and all conditions of said permits and approvals in a prompt and expeditious manner.

6.3 Licensee shall pay, when due, all claims for labor or materials furnished or alleged to have been furnished to or for Licensee at or for use in or at all or any portion of the Site, which are or may be secured by any mechanic's or materialmen's lien against all or any portion of the Site or any interest therein. Licensee shall give Licensor not less than 15 days' notice prior to the commencement of any work at all or any portion of the Site, and Licensor shall have the right to post notices of non-responsibility in or on all or any portion of the Site as provided by law. If Licensee, in good faith, shall contest the validity of any such lien, claim or demand, then Licensee shall, at its sole cost and expense, defend itself and Licensor against the same and shall pay and satisfy any such adverse judgment that may be rendered thereon before the enforcement thereof against the Licensor or the Licensed Area or Site. On written request from Licensor, Licensee shall furnish a release bond as provided under California Civil Code Section 3143 or any successor statute, which shall release such lien from the Licensed Area or Site. In addition, Licensor may require Licensee to pay Licensor's attorney's fees and costs in participating in such action if Licensor shall decide it is in its best interest to do so.

7. Impositions; Utilities; Security.

7.1 **Impositions.** Licensee shall be responsible for and pay prior to delinquency all taxes, assessments, rates, charges, license fees, municipal liens, levies, excises or imposts, whether general or special, ordinary or extraordinary, of every name, nature and kind whatsoever, imposed by any public agency or other authority or entity, that may be levied, assessed, charged or imposed or may be or become a lien or

charge upon any part of the Licensed Area, the License Consideration, the use of the Licensed Area or the use and operation of the Site, or upon any Alterations, Facilities or other improvements, equipment or other personal property on the Licensed Area, including, without limitation, any License Consideration tax, sales tax, service tax, transfer tax, or value tax (collectively, "**Impositions**"). The foregoing notwithstanding, Impositions shall not include any real property taxes or assessments (if any), except that Impositions shall include real property taxes or assessments to the extent increases in said real property taxes or assessments are attributable directly to the value of any Alterations, Facilities, equipment or improvements placed upon the Licensed Area by or on behalf of Licensee. Licensee shall give Licensor prompt written notice of any real property taxes or assessments levied against Licensee that are attributable directly to the Licensed Area or the value of the Site, Alterations, Facilities, or other improvements.

7.2 **Utilities, Security.** Licensee shall be responsible for and pay when due all sums in connection with any and all water, gas, heat, power, telephone, cable, communication and other utilities and services supplied to the Licensed Area, together with any taxes thereon. Licensee, at its sole cost and expense, shall provide the necessary janitorial and security services to maintain the Site in a good orderly manner at all times during the License. Licensee shall pay the cost of any required governmental inspections of improvements to the Site. Licensee assumes all responsibility for the protection of the Site, Licensee, any Licensee's Parties and the property of Licensee and any Licensee Parties from all acts of third parties.

8. Condition of Licensed Area; Release.

8.1 **As-Is.** THE LICENSED AREA IS BEING LICENSED BY LICENSOR, AND EACH OF THE LICENSED AREA AND THE FACILITIES HEREBY IS ACCEPTED BY LICENSEE, IN ITS EXISTING STATE AND CONDITION AS OF THE EFFECTIVE DATE, SUBJECT TO ALL COVENANTS AND RESTRICTIONS OF RECORD, "AS IS, WITH ALL FAULTS." NEITHER LICENSOR NOR ANY OTHER PARTY HAS MADE, AND THERE IS HEREBY DISCLAIMED, ANY AND ALL REPRESENTATIONS OR WARRANTIES, EXPRESS OR IMPLIED, OF ANY KIND, WITH RESPECT TO THE LICENSED AREA AND THE FACILITIES, INCLUDING WITHOUT LIMITATION THE CONDITION OF THE LICENSED AREA AND THE FACILITIES, THE SUITABILITY OR FITNESS OF THE LICENSED AREA, THE FACILITIES, OR ANY APPURTENANCES THERETO FOR THE USE OR OPERATION OF THE SITE; THE COMPLIANCE OF THE LICENSED AREA AND THE FACILITIES WITH ANY LAWS, ANY MATTER AFFECTING THE USE, VALUE, OR ENJOYMENT OF THE SITE, THE LICENSED AREA OR THE FACILITIES OR WITH RESPECT TO ANY OTHER MATTER PERTAINING TO THE LICENSED AREA, THE SITE, THE FACILITIES OR ANY APPURTENANCES TO THE LICENSED AREA.

8.2 **Release.** As part of its agreement to accept each of the Licensed Area and the Facilities in its "As Is, With All Faults" condition, Licensee, on behalf of itself and its employees, officers, agents, contractors, guests, invitees, partners, members, shareholders, affiliates, parent company, subsidiaries, successors and assigns (collectively, the "**Licensee Parties**"), hereby waives any right to recover from Licensor, and forever releases, acquits and discharges Licensor of and from, any and all past,

present and future claims, damages, liabilities, suits, losses, costs and expenses (including without limitation attorneys' and expert witness fees and costs of collection), whether direct or indirect, known or unknown, foreseen or unforeseen (collectively, "**Claims**"), arising from and after the Effective Date, that Licensee may now have or that may arise in the future on account of or in any way connected with the Site and/or any portion thereof, including, without limitation: (i) the physical, geotechnical or environmental condition of all or any portion of the Site, including, without limitation, the condition of the Facilities, any seismic, structural, or other deficiencies or defects in connection with the Licensed Area and/or the Facilities, and the presence of any lead-based paint, asbestos or other Hazardous Materials in, on, under or above the Site or any portion thereof (including, without limitation, any soils and groundwater conditions); (ii) the quality, nature or adequacy for Licensee's intended use of all or any portion of the Site and/or existing water, sewer, electric, telecommunications or other utility systems serving the Site; (iii) the Removed Property and/or the Remaining Property (each as defined in Section 12.2); and (iv) any laws or other rules applicable thereto, including, without limitation, laws relating to Hazardous Materials. Notwithstanding anything to the contrary in this License Agreement, the foregoing release: (i) shall not apply to the breach of any express representation, warranty or covenant made by Licensor elsewhere in this License Agreement; (ii) shall not apply to any fraud by Licensor; and (iii) shall survive any revocation or termination of the License or this License Agreement.

8.3 Waiver. Licensee acknowledges, for itself and on behalf of each of the Licensee Parties, that it is aware that it, and/or any of the other Licensee Parties, may hereafter discover facts in addition to or different from those which it now knows or believes to be true with respect to the subject matter of this License Agreement and/or the License, but that it is Licensee's intention to hereby fully, finally and forever waive, assume the risk of, release and discharge each and all of the Claims released under Section 8.2, and to bind all of the Licensee Parties to this release, assumption of risk, discharge and waiver. In furtherance of this intention, the releases set forth in this Section 8 shall be and remain in effect as full and complete general releases notwithstanding the discovery or existence of any such additional or different claim or fact. Licensee, on behalf of itself and all of the Licensee Parties, hereby waives application of California Civil Code Section 1542, which provides as follows:

A GENERAL RELEASE DOES NOT EXTEND TO CLAIMS WHICH THE CREDITOR DOES NOT KNOW OR SUSPECT TO EXIST IN HIS FAVOR AT THE TIME OF EXECUTING THE RELEASE, WHICH IF KNOWN BY HIM MUST HAVE MATERIALLY AFFECTED HIS SETTLEMENT WITH THE DEBTOR.

Licensee's Initials

9. **Insurance and Indemnity.**

9.1 **Insurance.** Licensee, at Licensee's sole cost and expense, shall obtain and maintain:

(a) Comprehensive broad form general public liability insurance, with limits of not less than \$1,000,000 combined single limit for personal injury, bodily injury or death, or property damage or destruction (including loss of use thereof) for any one occurrence. Such insurance shall be on an occurrence basis, shall name Licensor as an additional insured and shall include endorsements for Licensee's indemnity obligations hereunder.

(b) Workers' compensation insurance as required by law.

(c) Primary, noncontributory "all-risk" property insurance covering the Licensed Area, the Site, the Facilities, any Alterations, and Licensee's equipment, other personal property, business records, fixtures and equipment at the Site, for damage or other loss caused by fire or other casualty or cause, including, but not limited to, vandalism and malicious mischief, theft, water damage of any type, explosion and other insurable risks in amounts not less than the full insurable replacement value thereof.

9.2 **Insurance Certificates.** Licensee shall provide Licensor with certificates evidencing the insurance required pursuant to Section 9.1 prior to the Effective Date, which shall state that such insurance may not lapse, be changed, amended, canceled or otherwise terminated without at least 15 days' prior written notice to Licensor. Licensee shall provide renewal certificates to Licensor at least 15 days prior to the expiration of such policies. Should Licensee fail to provide any such renewal certificate within such 15-day period, or to pay the premium for any insurance policy required of Licensee hereunder, then Licensor shall have the right, but not the obligation, to obtain, renew or replace any such policy at Licensee's cost and expense. The amount of any premium paid by Licensor and any costs and expenses incurred by Licensor under this Section 9.2 shall constitute License Consideration.

9.3 **Payment of Premium Increase.** Licensee shall pay to Licensor the amount of any increase in premiums for any insurance carried by Licensor if such premium increase is specified by Licensor's insurance carrier as being caused by the nature of Licensee's use of the Site, or any portion thereof, or any act or omission of Licensee. Licensee shall pay any such premium increases to Licensor within 30 days after receipt by Licensee of a copy of the premium statement or other evidence of such premium increase.

9.4 **Insurance Policies.** Licensee shall not do or permit to be done anything which shall invalidate the insurance policies referred to in this Section 9. All insurance required to be maintained by Licensee under this Section 9 shall be in a form and carry deductibles reasonably satisfactory to Licensor from time to time.

9.5 **Waiver of Subrogation.** Licensee and Licensor shall cause the insurance company issuing their respective property insurance to waive any

subrogation rights that those companies may have against Licensee or Licensor, respectively, as long as the insurance is not invalidated by the waiver. Provided the waivers of subrogation are contained in their respective insurance policies, Licensor and Licensee waive any right that either may have against the other on account of any loss or damage that is insured under their respective property insurance policies or would have been insured against had the party carried the insurance as required by this License.

9.6 Licensee's Assumption of Risk and Waiver; Exculpation.

(a) Except to the extent such matter is not covered by the insurance required to be maintained by Licensee under this License and such matter is attributable to the gross negligence or willful misconduct of Licensor, and without limiting the generality of any provision of this License Agreement, Licensor shall not be liable to Licensee or any Licensee Parties for: (i) any damage to property of Licensee, or of any Licensee Parties or others, located in, on or about the Licensed Area; (ii) the loss of or damage to any property of Licensee or any Licensee Parties or others by theft or otherwise; (iii) any injury or damage to persons or property resulting from fire, explosion, steam, gas, electricity, water, rain or leaks from any part of the Licensed Area; or (iv) any such damage caused by other tenants, occupants, licensees or persons in the Property, tenants, licensees or occupants of adjacent property, or the public, or caused by operations in construction of any private, public or quasi-public work.

(b) Licensor shall in no event be liable for any consequential damages or loss of business or profits and Licensee hereby waives any and all claims for any such damages. The obligations of Licensor under this License Agreement do not constitute personal obligations of the directors, officers, employees, agents or shareholders of Licensor or Licensor's affiliates, subsidiaries or partners, and Licensee shall not seek recourse against any such directors, officers, employees, agents, shareholders or affiliates, subsidiaries or partners, or any of their personal assets, for satisfaction of any liability or obligation with respect to this License or this License Agreement.

9.7 **Indemnity.** Licensee shall fully indemnify, defend, protect and hold Licensor, any affiliate, subsidiary, parent company, partner or shareholder of Licensor, any successor in interest to any of the foregoing, and the respective officers, directors, trustees, employees, agents, assigns, and insurers of any of the foregoing (collectively, "**Licensor Indemnitees**"), harmless from and against any Claim (including, without limitation, any Claim existing or arising after the Effective Date), which may arise from or be related in any way, directly or indirectly, in whole or in part, to the License and the License Agreement, including, without limitation: (i) Licensee's failure to comply with the terms and conditions of this License Agreement; (ii) any acts or omissions of Licensee and/or the Licensee Parties; (iii) the use of all or any portion of the Site and the conduct of Licensee's business by Licensee and/or any of the Licensee Parties; and (iv) the Facilities, any Removed Property and any Remaining Property (each as defined below). Licensee expressly acknowledges and agrees that it has an immediate and independent obligation to defend Licensor and/or the Licensor Indemnitees from any

Claim which actually or potentially falls within this Section 9.7, regardless of whether any such Claim is, or may be, groundless, fraudulent or false, and that Licensee shall defend Licensor and/or the Licensor Indemnitees with counsel approved in writing by Licensor, which approval shall not be unreasonably withheld. Notwithstanding the foregoing, nothing in this License Agreement shall require Licensee to indemnify Licensor in connection with any Claims to the extent directly resulting from Licensor's breach of any representation, warranty or covenant set forth in this License Agreement, or any intentional fraud by Licensor. Licensee's obligations under this Section 9.7 shall arise at the time any such Claim is tendered to the Licensee by Licensor and shall continue until discharged through performance or judicial determination. Licensee shall not settle any claim without the consent of Licensor and any Licensor Indemnitees that may incur liability in connection with such claim under or following such settlement, which consent shall not be unreasonably withheld.

9.8 **Alternative Insurance.** As an alternative to paragraphs 9.1 – 9.4, subject to the written approval of Licensor which approval shall not be unreasonably withheld, City may self-insure for the losses described therein, upon provision to Licensor of written documentation signed by the City's Risk Manager stating the City has sufficient available and unencumbered assets to cover any loss that may arise.

10. **Mechanics' Liens.** Without limiting the generality of any other provision of this License Agreement, Licensee shall keep the Licensed Area and the Property free from any liens arising out of any work performed, materials furnished or obligations incurred by Licensee, its consultants, contractors, subcontractors or suppliers, and any of their employees, laborers and suppliers. If any such lien shall at any time be filed against the Licensed Area or the Property, Licensee shall cause the same to be discharged of record within thirty (30) days after the date of recording by payment, deposit or bond. If Licensee has not so discharged any such lien, Licensor shall have the right, but not the obligation, to pay or otherwise discharge such lien at Licensee's expense, and all such costs incurred by Licensor shall constitute License Consideration and shall be payable within thirty (30) days after invoice therefor. Licensor shall have the right to post and keep posted on or about the Site any notices (including without limitation any notices of nonresponsibility) that may be provided by law or which Licensor may deem proper in order to protect Licensor, the Licensed Area or the Property from any such liens.

11. **Damage and Destruction.** Under no circumstances shall Licensor have any obligation to repair, restore or replace all or any portion of the Site following any damage or destruction to or affecting the Site, and Licensee shall be solely responsible for all costs and other obligations incurred in connection with any repairs, restoration or replacements in connection with any such damage or destruction.

12. **Surrender, Restoration.**

12.1 **Surrender.** No later than the revocation or termination of the License, Licensee shall (i) remove all Alterations and any other personal property and equipment installed or located at the Licensed Area as of the effective date of any termination or revocation of the License and shall be responsible to repair any damage resulting from any such removal, and (ii) shall restore and surrender the Licensed Area in a clean,

sanitary and debris-free condition and in at least as good order and condition as existed immediately prior to the Effective Date, except for reasonable wear and tear.

12.2 Title to and Removal of Licensee's Equipment. Subject to Licensors rights under Section 12.1, the Alterations shall be and remain the property of Licensee at all times, and Licensee shall, upon the revocation or termination of the License, remove the Alterations and all of Licensee's other personal property from the Licensed Area. If Licensee fails to perform any repairs or restoration or fails to remove any Alterations and other personal property and equipment from the Licensed Area as required by this License Agreement, including, without limitation, Section 12.1, within 15 days after receipt of Licensors written notice to do so, Licensor may do so on Licensee's behalf, and Licensee shall pay Licensor the cost of such repair, removal or restoration within 15 days after receipt of Licensor's invoice. All property remaining on the Licensed Area after the effective date of any termination or revocation of the License that is removed from the Licensed Area by Licensor pursuant to any provisions of this License Agreement or any Applicable Requirements may be used, handled, disposed of or stored by Licensor at Licensee's sole risk and expense (such property, the "**Removed Property**"). All property not removed from the Licensed Area by Licensee or Licensor, or claimed from storage by Licensee within 30 days after revocation or termination of the License (the "**Remaining Property**") shall, at Licensor's option without notice, conclusively be deemed to have been conveyed by Licensee to Licensor, as if by bill of sale, as part of the License Consideration. Unless prohibited by Applicable Requirements, Licensor shall have a lien against all such Remaining Property for the costs incurred in removing and storing the same.

13. Assignment and Sublicensing. Licensee shall not voluntarily or by operation of law assign, sublicense, otherwise transfer or encumber all or any part of Licensee's interest in this License Agreement or the License, or allow or suffer any person or entity to use or occupy the Licensed Area or any portion thereof ("**Transfer**"), without Licensor's prior written consent, which Licensor may grant or withhold in its sole and absolute discretion. Any Transfer shall not relieve Licensee (or any other transferor) of its obligations under this License Agreement. Any transferee shall assume and be bound to perform all of the obligations of Licensee under this License Agreement and the Environmental Indemnity License Agreement. Any transfer not in accordance with this Section 13 shall be null and void.

14. Dispute Resolution.

14.1 Arbitration. If a dispute arises relating to the interpretation of, enforcement of or compliance with any or all of the terms of this License Agreement or the License, including, without limitation, this Section 14 (a "**Dispute**"), such Dispute shall be resolved by binding arbitration, which may be initiated by delivering written notice to all other parties to the Dispute. All parties to the Dispute shall attend and participate in, and shall be bound by the results of, the arbitration proceeding. The arbitration award shall be the sole and exclusive remedy between the parties regarding any Dispute. Notwithstanding anything to the contrary in this License Agreement, the arbitration shall be conducted in accordance with the Commercial Arbitration Rules of the American Arbitration Association ("**AAA**"). During the pendency of any arbitration

proceeding, the parties shall continue to perform all undisputed obligations under this License Agreement. All arbitration proceedings shall be held in Modesto, California. The arbitrator shall be selected by mutual agreement of the parties from a panel provided by the office of the American Arbitration Association located in Modesto or the city closest to Modesto in which an AAA office is located, or if the parties are unable to agree on the identity of the arbitrator within 15 days after arbitration is first requested, in accordance with AAA rules. The arbitrator shall have at least ten years' experience in real estate matters. The arbitrator shall set the Dispute for hearing within 30 days after the date the arbitrator is selected and shall try any and all issues of law or fact that are the subject of the arbitration and report a statement of decision upon them, if possible, within 45 days of the date the arbitrator was selected or as soon thereafter as is practicable. Neither party shall have the right to conduct discovery in connection with the arbitration proceeding unless authorized by the arbitrator. The arbitrator shall be empowered to: (i) enter equitable as well as legal relief, including, without limitation, injunctive relief and any and all remedies available to Licensor to remove Licensee from the Licensed Area upon termination or revocation of the License; (ii) provide all temporary and/or provisional remedies; and (iii) enter equitable orders that will be binding upon the parties; however, the arbitrator may not impose punitive or exemplary damages under any circumstances. The arbitrator shall issue a single written decision at the close of the arbitration proceeding which shall dispose of all of the claims of the parties that are the subject of the arbitration, and an order or judgment upon that decision may be obtained by either party in a court of competent jurisdiction. The presentation of evidence from any expert or consultant shall not waive any attorney-client or other privilege or exclusionary rule a party may later seek to assert in another proceeding.

14.2 Other Remedies. All applicable statutes of limitation, repose and similar rules of law regarding the time for giving notice, filing and appealing claims, and commencing legal proceedings shall be tolled during the period that the arbitration procedure described in this Section 14 is in progress. Except as provided in the immediately preceding sentence, this dispute resolution procedure shall not in any way affect any statutes of limitation relating to any claim, dispute or other matter or question arising out of or relating to this License Agreement or the breach thereof.

15. Miscellaneous.

15.1 Notices. Every notice required by this License Agreement shall be given in writing and shall be deemed given and effective upon receipt provided that such are delivered in accordance with the provisions of this Section. Notices shall be delivered either by: (a) personal delivery (including delivery by an overnight courier service which obtains confirmation of receipt); or (b) by facsimile, provided that such transmission is followed by delivery by an overnight courier service which obtains confirmation of receipt; or (c) postage prepaid, return receipt requested, certified mail addressed to the address set forth below, or to such other address as a party may designate by written notice given in accordance with the provisions of this Section:

LICENSOR: Beard Land Improvement Company
P.O. Box 1113
Modesto, CA 95353
Attn: Vice President
Facsimile: (209) 529-0336

LICENSEE: CITY OF MODESTO
P. O. Box 642
Modesto, CA 95353
Attn.: Jack Crist
Facsimile: (209) 571-5128

15.2 **Amendment.** This License Agreement may be supplemented, amended or otherwise modified only by a written instrument signed by both parties.

15.3 **Waiver.** No provision of this License Agreement shall be deemed waived by either party unless expressly waived in writing signed by the waiving party. No waiver shall be implied by delay or any other act or omission of either party. No waiver by either party of any provision of this License Agreement shall be deemed a waiver of such provision with respect to any subsequent matter relating to such provision, and Licensor's consent or approval respecting any action by Licensee shall not constitute a waiver of the requirement for obtaining Licensor's consent or approval respecting any subsequent action. Acceptance of License Consideration by Licensor shall not constitute a waiver of any breach by Licensee of any term or provision of this License Agreement. No acceptance of a lesser amount of License Consideration than the amount herein stipulated shall be deemed a waiver of Licensor's right to receive the full amount due, nor shall any endorsement or statement on any check or payment or any letter accompanying such check or payment be deemed an accord and satisfaction, and Licensor may accept such check or payment without prejudice to Licensor's right to recover the full amount due.

15.4 **Interpretation.** Each party has consulted with counsel, or has had the opportunity to consult with counsel and determined that such consultation is unnecessary, and each party has determined that this License Agreement accurately and completely reflects the agreement of the parties. This License Agreement has been reviewed by both Licensor and Licensee, and no presumption or rule that ambiguities shall be construed against the drafting party shall apply to the interpretation or enforcement of this License Agreement. The headings used in this License Agreement and the table of contents, if any, are for convenience only and shall not affect the interpretation of this License Agreement. No drafts of this License Agreement or any other document shall be used or argued to interpret the meaning of this License Agreement or any provision thereof, or the parties' intent.

15.5 **Entire Agreement.** This License Agreement is an integrated document that contains the entire understanding between the parties relating to the subjects it covers, and supersedes all prior drafts, applications, correspondence and agreements, whether oral or written, concerning the subject matter of this License Agreement.

15.6 **Severability.** If any term, covenant or condition of this License Agreement is held by a court or regulatory body or agency of competent jurisdiction to be invalid, void, or unenforceable, the remaining terms, covenants and conditions shall continue in full force and effect unless a material failure of consideration would result, in which case the License Agreement shall terminate.

15.7 **Survival.** Sections 2, 3, 8, 12 and 14, and any other provision that expressly states that it survives the termination or revocation of this License Agreement or the License shall survive the revocation or termination of the License and/or this License Agreement.

15.8 **Remedies.** Each remedy set forth in this License Agreement is cumulative of and in addition to any other remedy in this License Agreement or available at law or in equity. The exercise, partial exercise or failure to exercise any remedy by any party shall not be an election of remedies and such party shall not be precluded from exercising any other remedy under this License Agreement or other remedy available at law or in equity.

15.9 **Time is of the Essence.** Time is of the essence in the performance of each party's respective obligations under this License Agreement.

15.10 **Attorneys' Fees.** The Prevailing Party in any action or proceeding (including without limitation any arbitration under Section 14) brought to enforce this License Agreement shall be entitled to recover from the other party its reasonable attorneys' fees, costs, and expenses paid or incurred in good faith in connection with such action or proceeding (including, without limitation, expert witness fees and costs of collection, including those fees and costs incurred in enforcing this Section and those fees and costs incurred in connection with any appeal). For purposes of this License Agreement, the "Prevailing Party" shall be deemed to be that party which obtains substantially the relief sought, whether by dismissal or by award or judgment.

15.11 **No Partnership.** Nothing contained in this License Agreement shall be construed as making Licensor and Licensee joint venturers or partners.

15.12 **Third Party Beneficiaries.** There are no third party beneficiaries to this License Agreement, except as expressly provided herein.

15.13 **Governing Law.** This License and this License Agreement shall be governed by the internal laws of the State of California.

15.14 **Brokers.** Licensee shall indemnify, defend and hold Licensor harmless from and against any Claims for brokerage commissions, finder fees or related costs incurred by Licensee or arising from any commitments or agreements alleged to have been made by Licensee relating to this License or the License Agreement. Licensor shall indemnify, defend and hold Licensee harmless from and against any Claims for brokerage commissions, finder fees or related costs incurred by Licensor or arising from any commitments or agreements alleged to have been made by Licensor relating to this License.

15.15 **Counterparts.** This License Agreement may be executed in multiple counterparts, each of which shall be deemed an original and may be transmitted by facsimile. Counterpart signature pages may be assembled to form a single original document.

15.16 **Successors and Assigns.** Subject to Section 13, and except as otherwise expressly provided herein, all of the covenants, conditions and provisions of this License Agreement shall be binding upon, and shall inure to the benefit of, the parties and their respective successors and assigns.

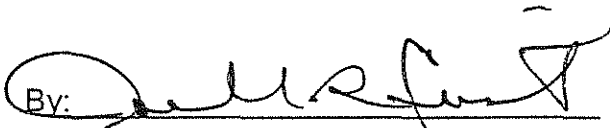

15.17 **Exhibits.** The following attached exhibits are incorporated into and made a part of this License Agreement by this reference:

- Exhibit A Parcel Map of the Property
- Exhibit B Legal Description of the Licensed Area
- Exhibit C Site Plan Showing Licensed Area

IN WITNESS WHEREOF, the parties hereto have entered into this License Agreement as of the Effective Date.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003 - 152**

**A RESOLUTION APPROVING AN EMERGENCY PUBLIC WORKS
CONTRACT WITH IONICS ULTRA-PURE WATER FOR TEMPORARY
LEASE OF NITRATE TREATMENT SYSTEM FOR GRAYSON COMMUNITY
WATER SYSTEM.**

WHEREAS, the City of Modesto is the potable water provider for the community of Grayson, and

WHEREAS, there are only two wells sites serving this community and both require nitrate treatment to meet water quality standards, and

WHEREAS, the electro dialysis reversal treatment system currently in use has failed on a number of occasions and is considered unreliable, and

WHEREAS, the City of Modesto received a compliance order from the California Department of Health Services mandating that a new treatment system be obtained for the two wells, and

WHEREAS, a contract was approved by the City Council on November 6, 2002, to evaluate treatment options, and

WHEREAS, this contractual work and the related construction will not be completed until the fall of 2003, and

WHEREAS, this timing does not meet the compliance order schedule so an extension of time has been requested, and

WHEREAS, it is the City's obligation to provide and maintain an adequate water supply to this area for public health and safety, and

WHEREAS, City staff, understanding the unreliable nature of the existing equipment, arranged for lease from Ionics Ultra-Pure Water for a portable nitrate treatment system, and

WHEREAS, the lease terms are considered acceptable to the City,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an emergency public works contract with Ionics Ultra-Pure Water in an amount not to exceed \$184,420 for the lease of a portable nitrate treatment system.

BE IT FURTHER RESOLVED that execution of the Ionics Ultra-Pure Water contract by the City Manager or his designee is hereby authorized.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of March, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-153**

**A RESOLUTION APPROVING THE APPLICATION FOR \$300,000 IN
HOUSING CODE ENFORCEMENT ASSISTANCE GRANT FUNDING AND
AUTHORIZING THE CITY MANAGER TO EXECUTE THE APPLICATION**

WHEREAS, under Senate Bill 1227 (Chapter 26, Statutes of 2002), HSC section 53533(a)(6), funding was approved as part of Proposition 46 (2002), for Housing Code Enforcement Assistance Grants through the Department of Housing and Community Development (HCD), Division of Codes and Standards, and

WHEREAS, the City is applying for \$300,000 to equip 37 vehicles with wireless technology, \$100,000 of which will be used to install equipment in the vehicles, and \$200,00 for wireless infrastructure, and

WHEREAS, effective code enforcement is necessary to protect public health and safety, to preserve affordable housing that could otherwise be lost through closure or demolition, and to avoid displacement of owners and renters, and

WHEREAS, staff will monitor and report for a three-year grant period as required by the grant agreement,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the filing of an application for Housing Code Enforcement Assistance Grant funding in the amount of \$300,000.

BE IT FURTHER RESOLVED that the City Manager or his designee is hereby authorized to execute the grant application.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of March, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-154**

A RESOLUTION APPROVING AN AMENDMENT TO AGREEMENT WITH RRM DESIGN GROUP TO PROVIDE ADDITIONAL SERVICES RELATED TO THE PREPARATION OF THE CONSTRUCTION DOCUMENTS FOR MADDUX YOUTH CENTER IMPROVEMENTS AT A COST NOT TO EXCEED \$40,374 PLUS A \$2,000 CONTINGENCY AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AMENDMENT TO AGREEMENT.

WHEREAS, the City of Modesto owns the Maddux Youth Center located at 619 Sierra Drive in César Chávez Park, and

WHEREAS, on August 14, 2001, the City entered into an agreement with RRM Design Group ("RRM") to provide a Schematic Design Report and Construction Documents for the Maddux Youth Center for a total contract amount of \$58,200, and

WHEREAS, on February 26, 2002, the City amended the agreement to expand the project scope from a 2,000 square foot addition to 6,000 square feet to include a Police Activities League (PAL) boxing arena, a multi-purpose room, a computer classroom, restroom and entry lobby, at a total contract amount of \$112,626, and

WHEREAS, staff now desires to expand RRM's scope of work further to include: additional demolition costs to the existing building, including the removal of interior walls within the existing office, computer and weight rooms and some preparation work for the added perimeter hallway on the south side of the building; additional interior partitions to be constructed within the existing building; window treatments in the budget for replacement windows; the addition of a PA system; and additional kitchen equipment for a small kitchenette, and

WHEREAS, the Second Amendment provides for a total contract cost of \$155,000, which includes \$2,000 as a contingency in the event additional, but unanticipated, services become necessary, and

WHEREAS, staff recommends a Second Amendment to the Agreement with RRM to provide the additional work as described in **Exhibit "A"**, attached hereto and incorporated by reference, and

WHEREAS, the Safety and Communities Committee met on February 3, 2003, and supported staff's recommendation to approve a Second Amendment to the

Agreement with RRM to provide the additional work as described in Exhibit "A", at a cost not to exceed \$40,374, plus the \$2,000 contingency fund, for a total contract amount not to exceed \$155,000,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves a Second Amendment to Agreement with RRM Design Group to provide additional services related to the preparation of the construction documents for Maddux Youth Center at an additional cost not to exceed \$40,374, plus \$2,000 as a contingency fund.

BE IT FURTHER RESOLVED that the City Manager is hereby authorized to execute the Second Amendment to Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of March, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

CITY OF MODESTO
PARKS, RECREATION AND NEIGHBORHOOD DEPARTMENT

Maddux Youth Center Addition & Remodel

EXHIBIT A-2

REVISED PROJECT SCOPE

Include Modifications to the Maddux Youth Center.

The Maddux Youth Center is in need of renovation and expansion. The existing 7,200 sf facility, built between 1950 and 1952 requires some strategic modifications as well as a 6,125 sf addition to the east and north sides of the building to house a P.A.L. boxing facility, Multipurpose room (for up to 50 persons), computer classroom for 8 students plus teacher, new entry and additional restrooms and support rooms. The construction budget for the project was originally established at \$500,000 with funding having been obtained through Federal grants. However, there has been additional project scope added and a schematic construction budget that included this additional scope totaled \$2.3 million. After reviewing the schematic estimate twice, the construction, budget has been modified and set at +/- \$1.6 million. The project is anticipated to have final construction documentation completed and filed by June of 2003, with occupancy by June 2004.

The revised scope of the project shall add the preparation of construction documents by the Consultant for the following work items:

- Additional demolition work and new interior partitions within the existing building.
- The addition of a hallway on the south side of the existing gymnasium to improve circulation.
- New window treatments
- A new public address system
- Additional kitchen equipment for a small kitchenette

The fee proposal includes the aforementioned workscope and project approach as outlined in the project proposal dated June 7, 2001. The fee proposal also includes the workscope as outlined in Exhibits "A" and "A-1" of the original Agreement and the Amended Agreement. The fee shall include the following design aspects: architecture, civil, geotechnical, structural, mechanical, electrical engineering and cost estimating. The City shall provide an electronic copy of the survey and geotechnical report to the architect for use in the design of the new facility.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-156**

**A RESOLUTION VACATING AND ABANDONING THE ALLEY AND PUBLIC
UTILITY EASEMENT IN BLOCK NO. 69 (STANISLAUS COUNTY)**

WHEREAS, the City of Modesto owns a right of way easement for the purpose of maintaining an alley and public utility easement in Block No. 69 of the City of Modesto, and

WHEREAS, Stanislaus County has filed an application to vacate and abandon the alley in Block No. 69, and

WHEREAS, Streets and Highways Code Section 8320 et seq. prescribes the procedures to vacate and abandon public streets and alleys, and

WHEREAS, Stanislaus County submitted a title report with the abandonment request which vests the underlying fee title to the alley in Stanislaus County, as the adjacent land owners, and

WHEREAS, Stanislaus County is a proponent of the abandonment, and

WHEREAS, all utilities in the alley have been removed and relocated to the satisfaction of the affected utilities, and

WHEREAS, the proposed alley abandonment has been referred to affected City departments and local utility companies, and no objection to the abandonment has been received, and

WHEREAS, Government Code Section 65402 requires that prior to abandoning a public street, the Planning Commission shall make a determination as to whether the abandonment is consistent with the General Plan, and

WHEREAS, on December 2, 2002, the City of Modesto Planning Commission held a public hearing in the Tenth Street Chambers, located at 1010 Tenth Street, Modesto, California, at which hearing evidence was received and considered regarding the proposed vacation and abandonment, and conformance with the City's General Plan pursuant to Government Code Section 65402 and Streets and Highways Code Section 8313, and

WHEREAS, by Resolution No. 2002-51, the Planning Commission found that abandonment of the alley is in conformance with the City's General Plan, and recommended that Council vacate and abandon the alley, and

WHEREAS, a duly noticed public hearing was held by the Council of the City of Modesto on Tuesday, March 25, 2003, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which time all persons interested in or objecting to the proposed vacation and abandonment of the alley were afforded the opportunity to appear, and

WHEREAS, three notices were posted in the alley for two weeks prior to the hearing, and notice was published in the Modesto Bee for two successive weeks prior to the hearing, per Streets & Highways Code sections 8323 and 8332, respectively, and

WHEREAS, all things and acts necessary to be done as required by the State of California Streets and Highways Code, Sections 8300 through 8363: Public Streets, Highways and Service Easements Vacation Law, in order to vacate and abandon the subject alley have been done and accomplished,

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto finds and determines as follows:

1. That the alley and public utility easement to be abandoned will be unnecessary for present or prospective pedestrian, vehicular, or public utility use after all existing utilities have been removed from the alley.

2. That Environmental Assessment No. C&ED 2002-64 judged this project to be within the scope of the General Plan Master EIR.
3. That the vacation and abandonment of the alley and public utility easement in Block No. 69 is in conformance with the City of Modesto General Plan, provided that the conditions set forth below are fully satisfied.

BE IT FURTHER RESOLVED that the City Council hereby orders and declares the vacation and abandonment of the alley and public utility easement in Block No. 69, bounded by H, I, 10th & 11th Streets, subject to the following conditions:

1. No abandonment of the alley or the public utility easement contained therein shall occur until and unless all utilities have been removed from the alley. These utilities include a Modesto Irrigation District high tension line and a secondary line, and Pacific Gas & Electric gas lines.
2. The City Clerk shall not be authorized to record the resolution of abandonment and vacation of the alley and public utility easement until at least five (5) working days after the City Clerk has received written releases from all of the following agencies and utilities stating that their respective facilities have been relocated from the alley and that they consent to the abandonment of the alley and public utility easement: City of Modesto Engineering & Transportation Department, Modesto Irrigation District, Pacific Gas & Electric Company, and AT&T Broadband.
3. If the above conditions have not been satisfied by March 25, 2004, then the conditional approval for abandonment of the alley and public utility easement shall automatically expire and have no further force and effect.

The legal description of the alley and public utility easement to be conditionally vacated and abandoned by this resolution is more particularly described in **Exhibit "A"** attached hereto, and by this reference made a part hereof as though set forth in full herein.

BE IT FURTHER RESOLVED that the City Clerk shall hold this resolution of abandonment until conditions 1 through 3 above have been fully satisfied, and when not less than five (5) working days after said conditions have been fully satisfied, the City Clerk shall cause a certified copy of this resolution, attested under seal of the City, to be recorded in the Office of the County Recorder of Stanislaus County.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of March, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

ALLEY ABANDONMENT

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-157**

A RESOLUTION FINDING THAT THE FOLLOWING PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (SCH NO. 92052017): VACATION AND ABANDONMENT OF THE ALLEY AND PUBLIC UTILITY EASEMENT IN BLOCK NO. 69 (STANISLAUS COUNTY)

WHEREAS, on August 15, 1995, the City Council of the City of Modesto certified the Final Master Environmental Impact Report (“Master EIR”) (SCH No. 92052017) for the Modesto Urban Area General Plan, and

WHEREAS, the County of Stanislaus has proposed that the alley and public utility easement in Block No. 69, in the City of Modesto be conditionally vacated and abandoned (“the project”) to facilitate development of the Gallo Performing Arts Center, and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for a Master EIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the master environmental impact report and whether the subsequent project was described in the master environmental impact report as being within the scope of the project, and

WHEREAS, the City’s Community & Economic Development Department by Environmental Assessment Initial Study EA/C&ED 2002-64 (“Initial Study”) reviewed the proposed project to determine whether the project is within the scope of the project covered by the Modesto Urban Area General Plan Master EIR (“Master EIR”), and concluded that the proposed project is within the scope of the Master EIR and will have

no additional significant effect on the environment that was not identified in the Master EIR, and further, that no new or additional mitigation measures or alternatives are required, and that, therefore, the proposed project is within the scope of the project covered by the Master EIR, and

WHEREAS, in accordance with CEQA guidelines beginning on February 10, 2003, the City caused to be published a 20-day notice of the City's intent to make a finding that the proposed project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on March 25, 2003, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed project, a copy of which is attached hereto as **Exhibit "A"**, and incorporated herein by reference, and based on the substantial evidence included in said Initial Study makes the following findings:

1. That the proposed project is contemplated and described in the Master EIR (SCH No. 92052017) as being within the scope of the Master EIR report.
2. That the project will have no new additional significant effects on the environment not identified in the Master EIR, and no new or additional mitigation measures are required.
3. That, as per Section 21157.1 of the Public Resources Code, no new environmental document or findings are required by the California Environmental Quality Act (CEQA).
4. That there are no specific features unique to the proposed project that require project specific mitigation measures. Accordingly, the

certified mitigation measures identified in the Master EIR will be sufficient for this project.

5. That all feasible mitigation measures set forth in the Master EIR which are appropriate to the project shall be incorporated in the project.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of March, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

Initial Study

EA/C&ED 2002-64

City of Modesto
Initial Study

Abandon Alley in Block No. 69, Downtown Modesto

EA/CDD 2002-64

November 8, 2002

I. PURPOSE

Section 21157.1 of the Public Resources Code, allows for limited environmental review of subsequent projects under a Master EIR, provided that certain findings are made. The Modesto Urban Area General Plan Master EIR (SCH No. 92052017), adopted August 15, 1995, allows such limited review for projects in the Baseline Developed Area that are consistent with the General Plan and existing zoning.

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, analyzes whether this project may cause any significant effects on the environment that were not examined in the General Plan Master EIR. This Initial Study also provides documentation that the project is within the scope of the General Plan Master EIR.

II. PROJECT DESCRIPTION

- A. Project title:
Public Hearing – Application of Stanislaus County, to abandon the alley in Block No. 69, Downtown Modesto
- B. Lead agency name and address:
City of Modesto, PO Box 642, Modesto, CA 95353
- C. Contact person, address and phone number:
Brad Wall
City of Modesto Community Development Department
1010 10th Street, Suite 3100
Modesto, CA 95353
(209) 577-5282
- D. Project Location:
Block No. 69, Downtown Modesto
- E. Project Sponsor:
County of Stanislaus
P.O. Box 3404
Modesto, CA 95353
- F. General Plan Designation:
Redevelopment Planning District (RPD)
- G. Current Zoning:
General Commercial (C-2)

- H. Description of Proposed Project:
This is an application to abandon the alley in Block No. 69, in downtown Modesto. The surrounding area is developed with commercial and government land uses. The purpose of the proposed abandonment is to allow development of the planned Gallo Performing Arts Center.
- I. Surrounding land uses: (See "H." above.)
- J. Other public agencies whose approval is required: None.

III. ANALYSIS OF CONFORMANCE WITH THE MASTER EIR

There are eighteen subject areas in the Master EIR (MEIR) for the General Plan. Following is an analysis of how this project conforms to the analysis contained within the MEIR.

A. Traffic and Circulation

The proposed abandonment will not contribute to increased traffic in the area, and it is consistent with the Traffic and Circulation Needs section of the MEIR. Therefore, the Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Traffic and Circulation Needs (pages IV-1-1 through IV-1-38) are still valid.

B. Degradation of Air Quality

The air quality impacts for the proposed project are directly related to the traffic impacts. Since traffic impacts are no greater than those anticipated in the Master EIR, the proposed abandonment will not cause additional impacts to air quality beyond those described in the Degradation of Air Quality section of the MEIR. Therefore, the Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Degradation of Air Quality (pages IV-2-1 through IV-2-25) are still valid.

C. Generation of Noise

The proposed project is adjacent to and surrounded by urban development. The adjacent developed neighborhood contains a mixture of government and commercial uses. No significant noise impacts will be generated as a result of the proposed abandonment, nor will the adjacent neighborhood be impacted as a result of this project. It will not create additional significant impacts and Mitigation Measures listed in the MEIR for Generation of Noise (pages IV-3-1 through IV-3-33) are therefore still valid.

D. Loss of Productive Agricultural Land

The project area is located in an urbanized portion of Modesto, and there are no agricultural lands affected by this project. Therefore, the Existing Conditions, Impacts Analysis, and Mitigation Measures listed in the MEIR for Loss of Productive Agricultural Land (pages IV-4-1 through IV-4-16) are still valid.

E. Increased Demand for Water Supplies

The proposed project is consistent with the General Plan in land use and intensity, and will provide the necessary infrastructure (if any) to provide water service to the site. Therefore, the Existing Conditions, Impacts Analysis and Mitigation Measures listed in the

MEIR for Increased Demand for Water Supplies (pages IV-5-1 through IV-5-11) are still valid.

F. Increased Demand for Sanitary Sewer Services

The proposed project is consistent with the General Plan in land use and intensity, and will provide the necessary infrastructure (if any) to provide sanitary sewer service to the project site. Therefore, the Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Increased Demand for Sanitary Sewer Services (pages IV-6-1 through IV-6-9) are still valid.

G. Loss of Sensitive Wildlife and Plant Habitat

The proposed project is in a built-up urban area and will not impact sensitive wildlife or any plant habitat above and beyond that which was identified in the Loss of Sensitive Wildlife and Plant Habitat section of the MEIR. Therefore, the Existing Conditions, Impacts Analysis and Mitigation Measures listed in this section of the MEIR (pages IV-7-1 through IV-7-30) are still valid.

H. Disturbance of Archaeological and Historic Sites

Figure 8-1 of the MEIR indicates that the proposed project is not within the Archaeological Resource Study Area, which shows areas that may require additional site-specific investigations. Therefore, the Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Disturbance of Archaeological or Historical Sites (pages IV-8-1 through IV-8-21) are still valid.

I. Drainage, Flooding and Water Quality

The proposed project will not present any new impacts that have not already been addressed in the MEIR. The mitigation measures will reduce the impacts of increased runoff within the baseline developed area to a less than significant level. Therefore, the Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for the Drainage, Flooding, and Water Quality (pages IV-9-1 through IV-9-23) are still valid.

J. Increased Demand for Storm Drainage

The proposed project is consistent with the General Plan in land use and intensity, and will provide the necessary infrastructure to provide for adequate storm drainage. The mitigation measures contained in the Master EIR will not reduce the impacts of increased runoff within the baseline developed area to a less than significant level. In adopting the Master EIR, the City Council adopted a finding of overriding findings for this impact. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for the Increased Demand for Storm Drainage (pages IV-10-1 through IV-10-8) are still valid.

K. Increased Demand for Parks and Open Space

The MEIR concluded that demand for parks and open space would be mitigated through the payment of Capital Facilities Fees (CFF) for new development, which would be used for the development of new parks. As a result, the Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for the Increased Demand for Parks and Open Space (pages IV-11-1 through IV-11-11) are still valid.

L. Increased Demand for Schools

The MEIR concluded that demand for schools would be mitigated by collection of fees by the affected school districts. Since this project would be required to pay these fees, as applicable, the Existing Conditions, Impacts Analysis, and Mitigation Measures listed in the MEIR for the Increased Demand for Schools (pages IV-12-1 through IV-12-11) are still valid.

M. Increased Demand for Police Services

The proposed project is consistent with the General Plan in land use and intensity. Therefore, the Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for the Increased Demand for Police Services (pages IV-13-1 through IV-13-8) are still valid.

N. Increased Demand for Fire Services

The proposed project is consistent with the General Plan in land use and intensity. Therefore, the Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for the Increased Demand for Fire Services (pages IV-14-1 through IV-14-9) are still valid.

O. Generation of Solid Waste

The proposed project is consistent with the General Plan in land use and intensity. Therefore, the Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for the Generation of Solid Waste (pages IV-15-1 through IV-15-10) are still valid.

P. Generation of Hazardous Materials

The proposed project is consistent with the General Plan in land use and intensity. Therefore, the Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for the Generation of Hazardous Materials (pages IV-16-1 through IV-16-15) are still valid.

Q. Landslides and Seismic Activity

The proposed project will result in no additional potential for exposing people to landslides or earthquake related hazards such as liquefaction beyond those identified in the MEIR. Therefore, the Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for the Landslides and Seismic Activity (pages IV-17-1 through IV-17-11) are still valid.

R. Energy

The proposed project is consistent with the General Plan in land use and intensity. Therefore, the Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Energy (pages IV-18-1 through IV-18-6) are still valid.

IV. CONCLUSIONS/DETERMINATIONS OF FINDINGS

- A. The proposed project is within the scope of the General Plan Master EIR (SCH No. 92052017), which analyzed the potential impacts of buildout of the Baseline Developed Area.
- B. No additional significant environmental effects will occur as a result of the proposed project that were not previously examined in the General Plan Master EIR.
- C. No new mitigation measures or alternatives will be required as a result of the proposed project that were not previously considered in the General Plan Master EIR.
- D. There are no specific features unique to this project that require specific mitigation measures. All certified mitigation measures identified in the MEIR will apply Citywide, including this project, as appropriate.
- E. This Initial Study provides substantial evidence to support findings A, B, C, and D above.

Brad Wall,
Associate Planner

**CITY OF MODESTO
RESOLUTION NO. 2003-158**

**A RESOLUTION OF THE CITY OF MODESTO AMENDING THE FY 02-03
BUDGET TO APPROPRIATE \$602,000 FROM THE GENERAL FUND
CONTINGENCY RESERVE AND APPROVING A LOAN BETWEEN THE
MODESTO REDEVELOPMENT AGENCY AND THE CITY OF MODESTO IN
THE AMOUNT OF \$602,000 FOR THE PURPOSE OF FUNDING CERTAIN
PUBLIC IMPROVEMENTS FOR THE GALLO ARTS CENTER**

WHEREAS, the Gallo Arts Center (Center) is a \$31 million project by the County of Stanislaus (County), planned for the block between 10th and 11th streets and H and I streets in downtown Modesto, which will feature a 1,200-seat theater, a 400-seat theater and art gallery, and

WHEREAS, on August 9, 2002, the City received a letter from the County requesting financial participation in said Center street, streetscape and curb improvements, and

WHEREAS, at their hearing of February 4, 2003 the City Council approved providing funding support for the Center in the amount of \$1,030,000, and

WHEREAS, the City Council authorized use of various funding sources for said Center improvements, including Sewer, Water, Storm Drain and Technical Equipment Replacement Funds, and

WHEREAS, the City Council determined that use of Gas Tax revenues as a funding source for the street and streetscape improvements for said Center is not a preferred alternative, and

WHEREAS, said Center property is located within the boundaries of the Modesto Redevelopment Agency (Agency) Project Area and the expenditure of redevelopment tax increment revenues for public improvements is a permitted use of such funds, and

WHEREAS, City has determined that the tax increment revenue portion of the funding support for said Center is \$602,000, as specified in Attachments A and B, and

WHEREAS, the current debt obligation of the City's Redevelopment Agency (RDA) exceeds the Agency's annual net tax increment revenue and necessitates an appropriation from the General Fund Reserves in the amount of \$602,000 to fund certain public improvements for the Gallo Arts Center, and

WHEREAS, the City has determined that a loan in the amount of \$602,000 be allocated to reimburse the County in the amount of \$473,000 and the City in the amount of \$129,000 for construction of curb, gutter and streetscape improvements, as reflected in Attachments A and B, which are attached hereto and made a part hereof by this reference, and

WHEREAS, the City of Modesto and the Agency have established budget policies whereby the City of Modesto can advance money to the Agency, and

WHEREAS, the proposed loan was reviewed by the Finance Committee at their meeting on February 24, 2003 and was recommended for approval to the City Council and Agency.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Modesto that the FY 02-03 Budget is hereby amended to appropriate the amount of \$602,000 from the General Fund Contingency Reserve funds and approve a loan between the Modesto Redevelopment Agency and the City of Modesto in the amount of \$602,000 for the purposes of funding street, curb, streetscape and traffic signal improvements for said Center as follows:

- 1) City of Modesto General Fund Contingency Reserve shall be reduced by \$602,000 (Account No. 0100-800-8000-8003).
- 2) Said \$602,000 shall be placed into the Modesto Redevelopment Agency Capital Improvement Account – Gallo Arts Center Public Improvements (Account No. 9080-140-Q260).
- 3) The Finance Director shall take appropriate steps to document the indebtedness owed by the RDA to the City of Modesto, including principal and interest at 7% per-annum.
- 4) Said documentation shall show the date of each draw down.
- 5) Repayment of the principal and interest of said loan will be made in accordance with the provisions of the policies set-forth in the FY 02/03 Budget.

The foregoing resolution was introduced at a regular meeting of the City Council of the City of Modesto held on the 25th day of March, 2003, by Council member Fisher, who moved its adoption, which motion being duly seconded by Council member Frohman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-159**

**A RESOLUTION REVISING THE POSITION CLASSIFICATION PLAN FOR THE
CITY OF MODESTO.**

WHEREAS, a Position Classification Plan for the City of Modesto was adopted by Modesto City Council Resolution 88-338 pursuant to Rule 2 of the Personnel Rules and Regulations of the City of Modesto, and

WHEREAS, the City Manager has recommended to the Council amendments to the Position Classification Plan, and

WHEREAS, Rule 2.2 of the City of Modesto Personnel Rules provides that revisions to the Classification Plan shall be effective upon adoption of resolution of the City Council, and

WHEREAS, this item was brought before the Finance Policy Committee on February 23, 2003, and

WHEREAS, the Finance Policy Committee unanimously approved the classification and salary range for the Senior Business Analyst, and

WHEREAS, the Finance Policy Committee voted 2 to 1 to approve the classification and salary range for the Business Development Division Manager.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION I. CLASSIFICATIONS CREATED. The Position Classification Plan of the City of Modesto is hereby amended to establish the following classifications:

Senior Business Analyst

Recreate the job classification of Senior Business Analyst at Range 438 (\$4,813-5,854/month) that was deleted by Council action in June of 2001 with the creation of a Business Development Manager.

Business Development Division Manager

Recreate the Business Development Division Manager at Range 447 (\$6,011-7,323/mo.) as a single position class, and moving the incumbent into the Division Manager position.

The specification for the management classification of Senior Business Analyst, (Range 438), as shown on the attached Exhibit "A", and the specification for the management classification of Business Development Division Manager (Range 447), as shown on attached Exhibit "B", assigned to the Management and Confidential Bargaining Unit, which are hereby made a part of this resolution by reference, are hereby approved and made a part of the Position Classification Plan of the City of Modesto.

SECTION 2. EFFECTIVE DATE. This resolution shall become effective on and after March 25, 2003.

The foregoing resolution was introduced in a regular meeting of the Council of the City of Modesto held on the 25th day of March, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Fisher, Frohman, Jackman, Keating, O'Bryant Mayor Sabatino
NOES:	Councilmembers:	None
ABSENT:	Councilmembers:	Conrad

SENIOR BUSINESS ANALYST

DEFINITION

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

To assist the Business Development Division Manager in the planning, coordination, and implementation of activities which promote the City's economic development and redevelopment efforts with emphasis on the recruiting and attracting new business and industry, the retention of current business investments and the expansion of the community's economic base; to supervise and administer staff involved in these functions; to assist in the preparation of operating and capital budgets; and to provide complex staff assistance to the Director.

SUPERVISION RECEIVED AND EXERCISED:

Receives general direction from the Business Development Division Manager. Exercises direct supervision over professional, technical and clerical staff as assigned by the Division Manager.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS

Essential and other important responsibilities may include, but are not limited to, the following:

Recruit business prospects; assist them in the setting and permitting of their businesses both within the redevelopment area and citywide.

Work with existing businesses, both in the redevelopment area and citywide, to protect and expand their investments in the local economy.

Assist the Division Manager in the development of the economic development workplan; assign work activities, projects and programs; monitor workflow; implement policies and procedures.

Assist Department Director with the evaluation of proposals containing incentives to help broaden the local tax bases, generate or attract new capital, increase business activity, produce jobs and diversify the local economy.

ESSENTIAL FUNCTIONS, Continued

Develop and manage databases pertinent to business retention and recruitment efforts.

Develop and implement public relations and marketing programs to communicate and promote City to prospective businesses through trade shows, publications and exhibits.

Research and maintain a variety of information regarding properties, economic and land use data within the City and provide information to prospective businesses.

Investigates economic and redevelopment grants from Federal, State and regional economic development entities to assist in furthering the City's business attraction and retention, affordable housing construction and rehabilitation, downtown revitalization, marketing, and brownfield remediation activities. Responsible for preparing grant applications and administering grants acquired.

Create and analyze proformas and other financial documents; analyze real estate transactions; analyze business loan and grant requests, incentive proposals and return on investment analyses.

Negotiate, prepare, and supervise the processing of documents such as disposition and development agreements, owner participation agreements, contract, resolutions, and requests for proposals/qualifications.

Coordinate the City's and Redevelopment Agency's business development activities with other public and private agencies, including the rest of the City organization.

Participate in recommending the appointment of personnel; provide or coordinate staff training; work with employees to correct deficiencies; implement discipline procedures; recommend employee terminations.

Participate in the development and implementation of the City's and Redevelopment Agency's operating and capital improvement budgets.

Research redevelopment and economic development problems and solutions and prepare a variety of comprehensive reports.

MARIGINAL FUNCTIONS:

Perform related duties and responsibilities, as required.

QUALIFICATIONS

Knowledge of:

Principles and practices of business development, redevelopment, financing programs and real estate.

Pertinent laws, codes and regulations relating to land acquisition, real estate transactions and environmental issues.

Principles and practices of organization, administration, supervision, training and personnel management.

Methods and techniques of statistical analysis, effective technical report preparation and presentation (both oral and graphic).

Principles of budget preparation and expenditure control.

Property values and effect of economic trends on value and price.

General legal authority and parameters for carrying out bonds, grants, assessment, loans and other financial transactions.

Ability to:

Gather and analyze a variety of complex data, including economic studies, financial statements, marketing studies, plans, specifications, and bid documents; prepare comprehensive written and oral reports.

Negotiate and manage contracts, leases, agreements, loans, and rebates with Business Development customers and clients.

Identify and respond to community and City Council issues, concerns, and needs.

Communicate clearly and concisely, both orally and in writing.

Ability to, Continued

Establish and maintain cooperative-working relationships with those contacted in the course of work, including a variety of City and other government officials, consultants, realtors, community groups, business owners, and the general public.

Supervise, evaluate and train assigned staff.

Assist with the preparation and administration of departmental operating and capital improvement budgets and monitoring systems.

Analyze economic studies, financial statements, marketing studies, plans, specifications and bid documents.

Ensure project and grant compliance with Federal, State and local rules, laws and regulations.

Prepare and analyze technical and administrative reports, statements and correspondence.

Experience and Training Guidelines

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Experience:

Four years of increasingly responsible experience in business and community development, redevelopment project management, or real estate finance and development, including at least one year of administrative and supervisory experience.

Education:

Equivalent to a Bachelor's degree from an accredited college or university with major course work in business or public administration, economics, engineering or a closely related field.

License:

Possession of, or the ability to obtain, an appropriate and valid California driver's license.

WORKING CONDITIONS

Environmental Conditions:

Office Environment.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for sitting for prolonged periods of time.

BUSINESS DEVELOPMENT DIVISION MANAGER

DEFINITION

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are **not** intended to reflect all duties performed within the job.

To manage, supervise and administer the division; to assist in the preparation of operating and capital improvement budgets; and to provide complex staff assistance to the department Director on economic development, redevelopment, workforce development and affordable housing programs, projects and activities.

SUPERVISION RECEIVED AND EXERCISED:

Receives administrative direction from the Community and Economic Development Director.

Exercises direct supervision over professional, technical and clerical staff in assigned area.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS

Essential and other important responsibilities may include, but are not limited to, the following:

Manage, direct and organize division activities in the areas of development finance, asset management, redevelopment, business retention and recruitment, business loans, work force development and development regulations.

Implement goals, objectives, policies and priorities for the City's economic and redevelopment programs; identify resource needs.

Supervise negotiation and preparation of documents such as disposition and development agreements, owner participation agreements, contracts, resolutions, and requests for proposals/qualifications.

Monitor activities of City consultants, including preparing and administering contracts.

Negotiate development agreements with proponents of private development projects.

ESSENTIAL FUNCTIONS, Continued

Administer property management and land acquisition policies and strategies.

Evaluate complex revenue and other financial analysis studies used in financial and budgetary planning, assessment districts, tax increment financing, and business loans.

Evaluate revenue projects; investigate and recommend appropriate sources of funding for projects relating to the division.

Review impact of economic and redevelopment regulations and laws; make recommendations for legislative amendments; and represent the City with regulatory and other governmental agencies.

Evaluate proposals containing incentives to help broaden the local tax bases, generate or attract new capital, increase business activity, produce jobs and diversify the local economy.

Participate in recommending the appointment of personnel; provide or coordinate staff training; work with employees to correct deficiencies; implement discipline procedures; recommend employee terminations.

Administer the division budget; direct the forecast of funds needed for departmental goals; monitor and approve expenditures; implement mid-year adjustments.

Direct, oversee and participate in the development of the division's workplan; assign work activities, projects and programs; monitor workflow; implement policies and procedures.

Appear before the City Council, the Redevelopment Agency, boards, commissions, local business representatives and related governmental, non-profit and civic organizations, representing the Division.

Coordinate Division activities with those of other departments and outside agencies and organizations; prepare and present staff reports and other necessary correspondence.

Marginal Functions:

Perform related duties as assigned.

QUALIFICATIONS

Knowledge of:

Principles and practices of business development, redevelopment, financing programs and real estate.

Property values and effect of economic trends on value and price.

Pertinent laws, codes and regulations relating to land acquisition, real estate transactions and environmental issues.

Principles and practices of organization, administration, supervision, training and personnel management.

Methods and techniques of statistical analysis, effective technical report preparation and presentation (both oral and graphic).

Principles of budget preparation and expenditure control.

General legal authority and parameters for carrying out bonds, grants, assessment, loans and other financial transactions.

Ability to:

Assist with the preparation and administration of departmental operating and capital improvement budgets and control budget expenditures.

Effectively manage assigned areas of the departmental program.

Analyze economic studies, financial statements, marketing studies, plans, specifications and bid documents.

Supervise, evaluate and train assigned staff.

Interpret and apply pertinent laws, rules and regulations.

Ensure project and grant compliance with Federal, State and local rules, laws and regulations.

Ability to. Continued:

Prepare and analyze technical and administrative reports, statements and correspondence.

Establish and maintain cooperative-working relationships with those contacted in the course of work.

Communicate clearly and concisely, both orally and in writing.

Experience and Training Guidelines:

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Experience:

Five years increasingly responsible experience in development finance, business development, redevelopment or a related field including at least two years of administrative and supervisory experience.

Training:

Equivalent to a Bachelor's degree from an accredited college or university with major course work in business development, redevelopment, public or business administration, business/development finance, or a related field.

License or Certificate:

Possession of, or ability to obtain, an appropriate, valid California driver's license.

WORKING CONDITIONS

Environmental Conditions:

Office Environment.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for sitting for prolonged periods of time.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-160**

A RESOLUTION AMENDING EXHIBIT "A" OF RESOLUTION NO. 2002-307 TO AMEND THE CLASS RANGE TABLE FOR MANAGEMENT AND CONFIDENTIAL NON-SWORN CLASSES TO ESTABLISH THE SALARY RANGE FOR THE CLASSIFICATIONS OF SENIOR BUSINESS ANALYST AND BUSINESS DEVELOPMENT DIVISION MANAGER EFFECTIVE MARCH 25, 2003.

WHEREAS, the City Council desires to amend **Exhibit "A"** of Resolution No. 2002-307, and

WHEREAS, this item was brought before the Finance Policy Committee on February 23, 2003, and

WHEREAS, the Finance Policy Committee unanimously approved the classification and salary range for the Senior Business Analyst, and

WHEREAS, the Finance Policy Committee voted 2 to 1 to approve the classification and salary range for Business Development Division Manager.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION I. AMENDMENT TO RESOLUTION NO. 2002-307. **Exhibit "A"** entitled "City of Modesto Class Range Table Management and Confidential Non-Sworn Classes Effective June 18, 2002", is hereby amended as shown on the amended Exhibit "A" entitled "City of Modesto Class Range Table Management and Confidential Non-Sworn Classes Effective March 25, 2003, which is attached hereto and made a part hereof as though set forth in full herein. Said amended **Exhibit "A"** establishes the salary range for Senior Business Analyst at Range 438 and Business Development Division Manager at Range 447.

RESOLUTION NO. 2003-161**

**A RESOLUTION AUTHORIZING APPROVAL OF THE WATER SUPPLY
ASSESSMENT STUDY (WSA) PREPARED FOR THE RIVER RANCH
SPECIFIC PLAN AREA AND DIRECTING CITY STAFF TO FORWARD THE
WSA TO STANISLAUS COUNTY**

WHEREAS, Senate Bill 610 (SB 610) requires water suppliers to conduct Water Supply Assessment (WSA) studies for projects meeting the legislative criteria, and

WHEREAS, the City of Modesto received a request from Stanislaus County to conduct such a study for the proposed River Ranch Specific Plan area near Salida, and

WHEREAS, Engineering and Transportation staff completed the WSA, and

WHEREAS, a determination was made that an adequate water supply is not available at this time for the River Ranch Specific Plan (RRSP) project, generally located near the community of Salida, and

WHEREAS, this item was discussed at the Economic Development Committee meeting on March 10, 2003, and a favorable recommendation was made to forward the WSA to the Council for consideration,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Water Supply Assessment Study for the proposed River Ranch Specific Plan area near Salida is hereby approved determining that an adequate water supply is not available at this time for the River Ranch Specific Plan project.

BE IT FURTHER RESOLVED that City staff is hereby directed to forward the Water Supply Assessment Study to Stanislaus County, as required by SB610.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of March, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-162**

**A RESOLUTION APPROVING IMPLEMENTATION OF STAGE ONE OF THE
CITY OF MODESTO DROUGHT CONTINGENCY PLAN AND RESCINDING
RESOLUTION 98-380.**

WHEREAS, on November 5, 1997, the City Council approved the City of Modesto Drought Contingency Plan via Resolution No. 91-666, which provides for the staged response to conditions of projected shortfall in the City's water supply system, and

WHEREAS, the Drought Contingency Plan of the City of Modesto provides that when the City determines that a minor shortage potential exists that a Stage One drought condition can and shall be declared, and

WHEREAS, Section 11-1.14 of the Modesto Municipal Code authorizes the City Council to establish rules and regulations by resolution concerning the City's municipal water system, the use of water, and water conservation, and

WHEREAS, on July 21, 1998, the City Council adopted Resolution No. 98-380 entitled, "*A Resolution Revising Guidelines for Water Use During Stage One Drought Conditions, and Rescinding Resolution No. 91-666*" which eliminated the requirement that outdoor water use occur only on certain days of the week based on the street address, and

WHEREAS, on March 10, 2003, the City Council Economic Development Committee approved a staff recommendation to implement the City's Stage One Drought Contingency Plan and to reinstate the alternate day outdoor water use schedule based on the street address effective May 1, 2003,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the implementation of Stage One of the Drought Contingency Plan effective May 1, 2003, to include the requirement for alternate day outdoor water use schedule based on a street address, as follows:

SECTION 1. The Operations & Maintenance Department, or its agents, shall implement the strategies and enforcement procedures applicable during a Stage One Drought Condition as provided in the City's Drought Contingency Plan.

SECTION 2. In accordance with the Drought Contingency Plan, the following rules and regulations are established for use during a Stage One Drought Condition. Violations of these regulations shall be considered water waste.

1. Outdoor water use shall be prohibited daily from 12:00 p.m. to 7:00 p.m.
2. Odd-numbered addresses shall water outdoors only on Wednesdays, Fridays, and Sundays.
3. Even-numbered addresses shall water outdoors only on Tuesdays, Thursdays, and Saturdays.
4. No outdoor water use is permitted on Mondays.
5. City residents shall not wash cars without the use of a quick-acting positive shut-off nozzle or permit others to do so on their behalf. In addition, car washing must be done in compliance with the schedule for outdoor water use. There shall be no washing of building exteriors, mobile home exteriors, recreational vehicle exteriors, sidewalks, patios, driveways, gutters, or other exterior surfaces unless a permit is issued by

the Operations & Maintenance Director or his designee and the washing is done with a quick-acting positive shut-off nozzle on the hose.

6. City residents shall not have leaky faucets or plumbing fixtures on their premises for more than 24-hours after the leak has been identified or notice has been received from the City, whichever comes first.
7. Eating establishments are encouraged to serve water only at the customer's request.
8. New landscaping installations must comply with all applicable landscape ordinances.
9. Exceptions to the regulations set forth herein may be made by the Operations & Maintenance Director or his authorized designee upon a showing of good cause and necessity.
10. The following penalties may be added to the utility service customer's account upon violation of the above regulations:
 - a. A penalty in the sum of \$50 upon the second violation within one year after having received a Notice of Violation.
 - b. A penalty of \$200 upon the third violation within said one-year period.
 - i. Upon the third violation within one year of having received a Notice of Violation, the resident shall also have a water meter installed if one is not present and metered billing shall commence.

- c. A penalty of \$250 upon the fourth and any subsequent violations within said one-year period.
- d. The customer shall be advised of these charges through a Notice of Intention to Impose a Penalty.

BE IT FURTHER RESOLVED that Resolution No. 98-380 is hereby rescinded effective April 30, 2003.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of March, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-163**

A RESOLUTION APPROVING A MUNICIPAL MASTER LEASE (“AS AMENDED”) WITH DELL MARKETING L.P FOR INFORMATION TECHNOLOGY HARDWARE PRODUCTS AND SERVICES FOR A PERIOD OF 36 MONTHS AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE MUNICIPAL MASTER LEASE AND AMENDMENT TO MUNICIPAL MASTER LEASE AGREEMENT.

WHEREAS, five years ago the City established a Technology and Equipment Replacement Fund (TERF) for the purpose of replacing obsolete tech equipment, and

WHEREAS, in the five years since the replacement fund was established, 326 of our total inventory of 920 personal computers have been replaced through the fund, and

WHEREAS, the customers that IT supports have not been serviced appropriately by this cycle and have had to use their own funds to meet their technology needs, and

WHEREAS, in 1999 the City went through a formal bid process to establish a computer standard throughout the city, and

WHEREAS, Dell Marketing was the lowest responsive and responsible bidder to the formal bid process, and

WHEREAS, the City is desirous of entering into a Municipal Master Lease (“as Amended”) with Dell Marketing for Information Technology Hardware Products and Services for a period of 36 months, and

WHEREAS, in reviewing the Dell leasing program, it has been determined that the City could adopt a 3 year replacement program for an annual investment of \$396,158 as (compared to the average \$487,748 that the City has been spending for technical replacement), and

WHEREAS, the leasing program would allow us to begin the three year replacement program immediately, thereby saving approximately \$420,000 during the first two years of the program, based on the ramp-up factor of the lease, and

WHEREAS, IT views this program as a cost effective measure for the City, emphasizing reduction of the Total Cost of Ownership (TCO) for our technology equipment and helping streamline the City's technology refresh program that affects all departments, and

WHEREAS, Dell Marketing has been providing personal computers to the City for the past three years, and

WHEREAS, during that time the City has received Dell contractual pricing by taking advantage of the Western States Contracting Alliance (WSCA) pricing, and

WHEREAS, WSCA is a coalition of fifteen western states which was formed as a means by which participating states could join together to receive cost effective pricing on personal computers based on economies of scale, and

WHEREAS, last year during the budget process Council instructed the IT Department to explore the lease vs. buy option for the City's personal computers, and

WHEREAS, this 3 year lease program has been approved by the Finance Committee to go to Council for full review.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Municipal Master Lease ("as amended") with Dell Marketing L.P. for Information Technology hardware products and services for a period of 36 months (an annual report will be submitted to the Finance Committee).

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute a Municipal Master Lease and Amendment to Municipal Master Lease Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of March, 2003, by Council member Keating, who moved its adoption, which motion being duly seconded by Council member Jackman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-164**

A RESOLUTION APPROVING A THREE (3) YEAR CONTRACT WITH MAZE & ASSOCIATES TO PROVIDE EXTERNAL AUDIT SERVICES TO PERFORM ANNUAL FINANCIAL AUDITS OF THE CITY OF MODESTO, WITH THE OPTION TO EXTEND THE CONTRACT FOR TWO (2) ONE YEAR TERMS, IN THE AMOUNT OF \$104,405 FOR FY 2003, \$107,645 FOR FY 2004, AND \$110,979 FOR FY 2005, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE CONTRACT.

WHEREAS, by Resolution No. 2003-28 the City Council, on January 14, 2003, directed the Audit Committee, with assistance from the City Clerk & Auditor and Finance Department staff, to obtain proposals for audits of the City of Modesto financial statements, and

WHEREAS, the Audit Committee has received seven responses to its Requests for Proposals for these audit services, and

WHEREAS, on March 13, 2003, the Audit Committee has interviewed the four audit firms best qualified, in its judgment, to perform these audit services, and

WHEREAS, the Audit Committee has recommended Maze and Associates, An Accountancy Corporation, as the audit firm best qualified to perform these audit services,

WHEREAS, Maze and Associates will perform said audit services for the contract price of \$104,405 for FY 2003, \$107,645 for FY 2004, and \$110,979 for FY 2005,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approved a three (3) year contract with Maze & Associates, with the option to extend the contract for two (2) one-year terms, at the contract price of \$104,405 for FY 2003, \$107,645 for FY 2004, and \$110,979 for FY 2005,

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 1st day of April, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003 -165**

A RESOLUTION APPROVING AN AMENDMENT TO A PROFESSIONAL SERVICE AGREEMENT WITH SHUTT MOEN ASSOCIATES, DATED SEPTEMBER 24, 2002, THAT ALLOWS THE NAME CHANGE OF THE CONSULTANT FROM SHUTT MOEN ASSOCIATES TO MEAD & HUNT, INC.; INCREASING THE CONTRACT AMOUNT \$13,000.00 FOR ADDITIONAL WORK; AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THIS AMENDMENT TO THE AGREEMENT ON BEHALF OF THE CITY.

WHEREAS, the City Council approved on September 24, 2002 an agreement with Shutt Moen Associates to perform engineering services for the reconstruction of Runway 10L/28R at Modesto City-County Airport, and

WHEREAS, the firm of Shutt Moen Associates recently merged with the firm of Mead & Hunt, Inc., and

WHEREAS, Shutt Moen Associates is requesting that the name of the engineering firm on the agreement be changed from Shutt Moen Associates to Mead & Hunt, Inc., and

WHEREAS, Shutt Moen Associates has notified the City that the principals completing the project will be the same as listed in the agreement dated September 24, 2002, and

WHEREAS, this amendment also includes an increase of \$13,000.00 to complete the following additional work:

1. Additional engineering to prepare plans and specifications for the runway light replacement - \$8,000.00; and
2. Update of the airport's master record - \$5,000.00, and

WHEREAS, the Federal Aviation Administration has given verbal approval to increase the runway reconstruction engineering and include the replacement of the high intensity runway lights, as well as update the airport master record, and

WHEREAS, the Council Economic Development Committee approved the Amendment to the Agreement at their meeting on March 10, 2003,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an Amendment to the Agreement with Shutt Moen Associates, dated September 24, 2002, that allows a change in the name of the consultant firm to Mead and Hunt, Inc., and

BE IT FURTHER RESOLVED by the Council of the City of Modesto that it hereby approves an increase of \$13,000.00 in the engineering fees to Mead and Hunt, Inc., for completion of plans and specifications for the replacement of the airport's high intensity runway lights, and updating the airport's master record, and

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the Amendment to the Agreement with Mead & Hunt, Inc., on behalf of the City.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 1st day of April, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2003-166**

A RESOLUTION ACCEPTING THE BID AND AWARDING AMERINE SYSTEMS, INC. THE CONTRACT FOR THE PROJECT TITLED "WELL 312, SOUTH STREET, EMPIRE"

WHEREAS, the bids received for Well 312, South Street, Empire, were opened at 11:00 a.m. on July 16, 2002, and later tabulated by the Engineering and Transportation Director for the consideration of the Council, and

WHEREAS, the Engineering and Transportation Director has recommended that the bid of \$230,888 received from Amerine Systems, Inc., be accepted as the lowest responsible bid and the contract be awarded to AMERINE SYSTEMS, INC.,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the bid of AMERINE SYSTEMS, INC., and hereby awards AMERINE SYSTEMS, INC., the contract titled "Well 312, South Street, Empire" in the amount of \$230,888.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the contract.

**A RESOLUTION ACCEPTING THE BID AND AWARDING R. E. MCCOLLUM
THE CONTRACT FOR THE PROJECT TITLED "PUMP STATION 65 AT
TANK 5"**

WHEREAS, the bids received for "Pump Station 65 at Tank 5" were opened at 11:00 a.m. on September 10, 2002, and later tabulated by the Engineering and Transportation Director for the consideration of the Council, and

WHEREAS, all four (4) of the bids received exceeded the engineer's estimate but reflect the current market for the work, with R.E. MCCOLLUM submitting the lowest bid for the project, and

WHEREAS, the Engineering and Transportation Director has recommended that the bid of \$501,467.00 received from R. E. MCCOLLUM, be accepted as the lowest responsible bid, and the contract be awarded to R.E. MCCOLLUM,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the bid of R.E. MCCOLLUM, and hereby awards R.E. MCCOLLUM the contract titled "Pump Station 65 at Tank 5" in the amount of \$501,467.00.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the contract.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-168**

A RESOLUTION ACCEPTING WASTE MANAGEMENT'S OFFER OF A USED WATER TRUCK VALUED AT APPROXIMATELY \$90,000 TO COMPENSATE THE CITY OF MODESTO CO-COMPOST FACILITY FOR LOST REVENUES AND DAMAGES AS A RESULT OF WASTE MANAGEMENT'S FAILURE TO MEET THE PERFORMANCE REQUIREMENTS OF THEIR SERVICE AGREEMENT WITH THE CITY.

WHEREAS, on November 1, 1997, the City of Modesto executed a Service Agreement with Modesto Garbage Company, Inc., D.B.A. Modesto Disposal Service, which was a subsidiary of USA Waste of California. USA Waste's parent company later acquired Waste Management, and changed the name of the corporate parent to Waste Management, and

WHEREAS, Section x 3 of that Service Agreement states: "Containerized yard waste collected under the terms of this Agreement will be taken to the CITY's composting facility or such other locations as directed by the Engineering and Transportation Director. COLLECTOR shall be responsible for the removal of contaminants from the yard waste to an acceptable level as determined by the CITY. The cost of said removal, where reasonable and necessary as determined by the CITY, will be made a component of the maximum rate. The CITY reserves the right to reject or direct to alternative disposal any loads determined to be too contaminated to process," and

WHEREAS, the Modesto Municipal Code Section 5-5.32 prohibits any part of a Service Agreement from being assigned to another party without the prior written approval of the City Council. If a hauler wants to use a contractor to provide some of the services it is obligated to provide, it has to get the City's permission in advance.

Performance breaches of the Service Agreement are subject to penalties, including termination of the Agreement and/or fines, and

WHEREAS, in August, 2002, the City became aware that Waste Management was not bringing all of the green waste it collects in the City to the City's composting facility, and that the local District Manager at that time, began hauling the City's green waste to other facilities beginning in January, 2002, without City approval, and

WHEREAS, it was determined that approximately 4,687 tons of the City's green waste had been diverted to other facilities, impacting the City's ability to meet deliveries of compost under its contracts and losing approximately 5,624 cubic yards of finished product, and

WHEREAS, by Waste Management failing to bring the green waste to the City's compost facility for composting, the facility suffered damages of approximately \$90,000, the current sales price of \$15 per cubic yard and a monetary damage value to the loss of long-term relationships with clients and our inability to meet deliveries, and

WHEREAS, Waste Management has changed its local management as a result of the City's investigation, and in order to resolve this matter, the new District Manager, Mr. Desi Reno, has proposed Waste Management compensate the City for economic losses at the facility caused by the diversion by purchasing a used water truck for the facility, and

WHEREAS, the permits for the compost facility require that a water truck be on site at all times for dust control, however, competing needs for this type of equipment from other City operations have strained the City's ability to meet this requirement for dust suppression, and during recent inspections by the Air Board, the inspectors have reiterated that it is necessary to have a water truck on site at all times to meet their permit

requirements. Non-compliance with this permit condition could result in the issuance of a Notice of Violation, and

WHEREAS, compost facility staff have determined that it would be possible to obtain a water truck in good condition of the type and capacity to meet the facility's needs for approximately \$90,000 and had been proposing to include funds for such a purchase in the 2003 budget, and

WHEREAS, Mr. Reno has proposed that Waste Management compensate the City for economic losses at the facility by purchasing a water truck for the facility for approximately \$90,000, and

WHEREAS, at its March 10, 2003, meeting, the Economic Development Committee recommended its support of Waste Management's offer to purchase a water truck for the City,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto, that it hereby accepts Waste Management's offer of a used water truck valued at approximately \$90,000 to compensate the City's co-compost facility for lost revenues and damages as a result of Waste Management's failure to meet the performance requirements of its Service Agreement with the City.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 1st day of April, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003 -169**

A RESOLUTION REJECTING THE PROPOSALS RECEIVED FROM AVIS RENT A CAR SYSTEM, INC., AND THE HERTZ CORPORATION TO OPERATE A RENTAL CAR CONCESSION IN THE PASSENGER TERMINAL AT MODESTO CITY-COUNTY AIRPORT AND AUTHORIZING CITY STAFF TO REDRAFT A NEW RFP BASED ON CURRENT MARKET CONDITIONS FOR COUNCIL CONSIDERATION

WHEREAS, on October 8, 2002, the City Council approved the solicitation of Request for Proposals (RFPs) from car rental companies interested in operating a rental car concession in the Modesto City-County Airport passenger terminal, and

WHEREAS, the RFP specified the minimum amount the City would accept as payment for the privilege of doing business at the airport, and

WHEREAS, airport staff received four inquiries from interested car rental companies; however, only AVIS RENT A CAR SYSTEMS, INC., and THE HERTZ CORPORATION submitted their proposals by the required deadline of January 22, 2003, and

WHEREAS, neither the proposal from AVIS RENT A CAR SYSTEMS, INC., nor THE HERTZ CORPORATION met the City's advertised required minimums, and

WHEREAS, ENTERPRISE RENT-A-CAR intended to submit a proposal but was unable to do so by the City's deadline, and

WHEREAS, City staff believes that recent changes in the economy have changed the car rental marketplace and the attractiveness of the airport outlet to car rental companies, and staff further believes that if the RFP is updated to current market conditions more interest in the airport concession may be shown,

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Modesto that it hereby rejects the proposals received from AVIS RENT A CAR SYSTEMS, INC., and THE HERTZ CORPORATION.

BE IT FURTHER RESOLVED that City staff is hereby authorized to redraft a new RFP based on current market conditions for Council's consideration.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 1st day of April, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-170**

A RESOLUTION OF INTENTION TO CONSIDER THE REQUEST OF RUDY BONZI, INC. TO ENTER INTO A SERVICE AGREEMENT WITH THE CITY OF MODESTO FOR THE COLLECTION OF INDUSTRIAL GARBAGE, SALVAGEABLE WASTE, AND INDUSTRIAL RECYCLABLES AND SETTING A PUBLIC HEARING ON APRIL 22, 2003, TO CONSIDER SAID MATTER.

WHEREAS, on January 8, 2003, the City Clerk received a permit application request from Rudy Bonzi, Inc. to obtain a license to collect industrial garbage, salvageable waste, and industrial recyclables in the City of Modesto, and

WHEREAS, on March 10, 2003, the Economic Development Committee met and supported the request of Rudy Bonzi, Inc., and

WHEREAS, Modesto Municipal Code section 5-5.17 requires that collection companies enter into Service Agreements with the City in order to provide solid waste collection services, and

WHEREAS, pursuant to Modesto Municipal Code Section 5-5.24, the City Council shall hear such requests at a public hearing, on Tuesday, April 22, 2003, at 5:30 p.m. in the Tenth Street Place Chambers located at 1010 10th Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that Tuesday, April 22nd, 2003, at 5:30 p.m., in the Tenth Street Chambers located at 1010 10th Street, Modesto, California, is hereby set as the date, time and place for a public hearing to be held to consider the request of Rudy Bonzi, Inc., to enter into a service agreement with the City of Modesto for the collection of industrial garbage, salvageable waste, and industrial recyclables.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 1st day of April, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-171**

A RESOLUTION AUTHORIZING THE CITY MANAGER TO APPLY FOR NATIONAL ASSISTANCE TO FIREFIGHTERS GRANT PROGRAM FUNDS IN THE AMOUNT OF \$256,297 AND TO EXECUTE THE NECESSARY GRANT APPLICATION DOCUMENTS.

WHEREAS, the Congress, under Public Law 107-73, has authorized the establishment of the Federal Fire Protection and Control Act and has appropriated \$360 million dollars to carry out the Assistance to Firefighter's Grant Program, and

WHEREAS, the Federal Emergency Management Agency (FEMA) is responsible for administration of the program, setting up necessary rules and procedures governing application by local agencies under the program, and

WHEREAS, said adopted procedures established by the Federal Emergency Management Agency require the applicant to provide 30% local matching funds, and

WHEREAS, the City of Modesto and Modesto Fire Department qualify to submit a grant request, and

WHEREAS, the Public Safety Committee met on March 31, 2003 and recommended support for this grant application,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby:

1. Authorizes the filing of an application for Assistance to Firefighter's Grant Program funds.
2. Certifies that said agency has matching funds from the following source: Fire Department Operating Budget, and can finance 100 percent of the project, 70% of which will be reimbursed.

3. Authorizes the City Manager, or designee, as agent of the City to execute and submit the necessary grant application documents.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 1st day of April, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2003 - 172**

A RESOLUTION AMENDING THE FISCAL YEAR 2002-2003 ANNUAL BUDGET

WHEREAS, a monthly financial analysis has been completed and it has been determined that certain adjustments are required to the Annual Budget of the City of Modesto for the Fiscal Year 2002-2003,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that appropriations, revenues, and transfers for the 2002-2003 budget have been adjusted as shown in Schedule A.

BE IT FURTHER RESOLVED that the Finance Director is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 1st day of April, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following votes:

Department: Parks, Recreation & Neighborhood

N995 - ADA Curb Cuts 01-02 ADA Curb Ramps

1)	Appropriation	Eng/Dsgn/Adm	2300	320	N995	6010	N995	\$104,000	(\$70,388)	\$33,612
	Appropriation	Construction	2300	320	N995	6040	N995	\$416,000	(\$270,348)	\$145,652
	Appropriation	Contingency	2300	320	N995	6050	N995	\$64,000	(\$41,592)	\$22,408
	Appropriation	Constr Admin	2300	320	N995	6060	N995	\$64,000	(\$41,592)	\$22,408
1)	Revenue	Transfer in from Fund 0100	2300	700	N995	9010	na	\$50,000	(\$50,000)	\$0
	Appropriation	Transfer out to Fund 2300	0100	700	N995	7230	N995H	\$50,000	(\$50,000)	\$0
	Revenue	Transfer in from Fund 1130	2300	700	N995	9113	na	\$598,000	(\$373,920)	\$224,080
	Appropriation	Transfer out to Fund 2300	1130	700	N995	7230	N995G	\$598,000	(\$373,920)	\$224,080

Justification N995 includes FY01-02 and FY02-03 ADA Curb Ramps, and FY02-03 ADA Signal Devices
 HUD requires that we report funding for activities by year, so it is necessary to split N995 to a total of three (3) separate projects.
 These projects are not CIP by definition; therefore, operating project numbers 3210 & 3211 were created.

3210 - 02-03 ADA Curb Ramps

2)	Appropriation	Eng/Dsgn/Adm	1130	320	3210	6010	3250	\$0	\$62,888	\$62,888
	Appropriation	Construction	1130	320	3210	6040	3250	\$0	\$237,848	\$237,848
	Appropriation	Contingency	1130	320	3210	6050	3250	\$0	\$36,592	\$36,592
	Appropriation	Constr Admin	1130	320	3210	6060	3250	\$0	\$36,592	\$36,592
2)	Revenue	CDBG Operating Grant Carryover	1130	320	3210	3511	na	\$0	\$373,920	\$373,920

Justification Same as item 1.

3211 - 02-03 ADA Signal Devices

3)	Appropriation	Eng/Dsgn/Adm	1130	320	3211	6010	3250	\$0	\$7,500	\$7,500
	Appropriation	Construction	1130	320	3211	6040	3250	\$0	\$32,500	\$32,500

	Appropriation	Constr Admin	1130	320	3211	6060	3250	\$0	\$5,000	\$5,000
3)	Revenue	Transfer in from Fund 0100	1130	700	3211	9010	na	\$0	\$50,000	\$50,000

Justification Same as item 1.

Department: Operations & Maintenance

1)	Appropriation	General Fund Reserve	0100	800	8000	8003	0100R	(\$2,213,641)	\$27,703	(\$2,241,344)
	Appropriation	Part-time labor	0100	480	4712	0140	4800A	\$47,450	\$822	\$48,272
	Appropriation	Advertising - Informational Flyers	0100	480	4712	0230	4800C	\$0	\$335	\$335
	Appropriation	Insecticide Machinery Rental	0100	480	4712	0308	4800C	\$26,128	\$720	\$26,848
	Appropriation	Merit Insecticide	0100	480	4712	0310	4800C	\$65,000	\$25,826	\$90,826
									\$27,703	

Justification Appropriation transfer from General Fund Reserve to Community Forestry operating accounts to fund the unexpected costs of mitigating Woolly Hackberry Aphid infestation which occurred during the summer/fall of 2002.

2)	Appropriation	Other Facilities CFF	1380	800	8000	8003	1380R	\$0	(\$150,000)	(\$150,000)
	Transfer-Exp	Transfer to 7200	1380	700	7000	7720	1380G	\$0	\$150,000	\$150,000
	Transfer-Rev	Receive transfer from 1380	7200	700	7000	9138		\$0	\$150,000	\$150,000
	Appropriation	CIP Light Vehicle Police Facility	7200	480	J879	6040	J879	\$140,511	\$150,000	\$290,511

Justification Appropriate money from CFF fund to fund 7200 for light vehicle maintenance building
 Transfer was shown in the proforma, but it was not entered into the CIP book and no Blue Sheet was done to carryout the Transfer

MONTHLY FY 02-03 ADJUSTMENTS - WORKSHEET

Type of Account	Description	Fund	Agency	Orgn	Revenue	App Unit	Current Budget (\$)	Adjustment Amount (\$)	Revised Budget (\$)

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-173**

A RESOLUTION TO CONSIDER THE USAGE OF \$500,000 FROM THE CABLE ONE SETTLEMENT AND APPROVING A GENERAL FUND LOAN IN THE AMOUNT OF \$1.6 MILLION TO UPGRADE THE CITY INSTITUTIONAL NETWORK (INET)

WHEREAS, the current I-Net was built over 25 years ago, as part of an agreement between the City of Modesto and their cable franchise provider, Cable One (Cable One was succeeded by AT&T who has since been acquired by Comcast), and

WHEREAS, over the past several years, the I-Net has been problematic and unreliable, as the result of a limited network capacity and an aging network technology, and

WHEREAS, Comcast has undertaken a major capital project to replace its existing subscriber network with fiber optic technology (the "Project"), and

WHEREAS the project will also provide the City with the unique opportunity to upgrade and extend the internal I-Net at a significantly reduced price, since Comcast will bear the costs of all construction and most materials in the areas of the city where they are actively rebuilding their subscriber network, and

WHEREAS, the overall cost of the I-Net rebuild is estimated at \$4.0 million, of which \$1.6 million is for the City portion of the network, and

WHEREAS, once installed, Comcast would be responsible for routine support of the network at no cost to the City, and

WHEREAS, this pricing structure is available to the City as a part of the subscriber rebuild and requires that we officially notify Comcast of our commitment no later than March 31, 2003, and

WHEREAS, , \$500,000 shall be funded from the cable settlement set aside reserve and \$1.1 million shall be funded by a \$1.1 million loan from the General Fund reserve, and

WHEREAS, the Public Safety Committee reviewed a recommendation of \$1.5 million general fund loan at its meeting on January 6th, 2003, and

WHEREAS, based on revised pricing from Comcast the amount of the rebuild has been revised to \$1.6 million, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a general fund loan in the amount of \$1.1 million and the usage of \$500,000 of the Cable settlement fee to upgrade the City's INET..

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 1st day of April, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Fisher, Frohman, Jackman, O'Bryant, Mayor Sabatino

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-174**

A RESOLUTION APPROVING AGREEMENTS WITH COMCAST OF CALIFORNIA XII, INC. (COMCAST), AND AGREEMENTS WITH VARIOUS PUBLIC ENTITIES RELATING TO THE INSTALLATION OF FIBER AND CONDUIT NETWORK FOR CITY AND OTHER PUBLIC AGENCY USE AND AUTHORIZING THE CITY MANGER, OR HIS DESIGNEE, TO EXECUTE THOSE AGREEMENTS ON BEHALF OF THE CITY.

WHEREAS, the Modesto City Council approved a cable television franchise agreement with Comcast on November 18, 2002, and

WHEREAS, the franchise requires that Comcast, among other things, construct a fiber and conduit network (INET) for City and other public agency use (the project) subject to the terms and conditions of the franchise, and

WHEREAS, the project will provide the City and other public agencies with a unique opportunity to upgrade and extend the INET to facilitate telecommunications within the City at a significantly reduced price, since Comcast will bear the cost of all construction and most materials in the areas of the City where they are actively rebuilding their subscriber network, and

WHEREAS, the overall cost of the INET rebuild is estimated at \$4,200,000 of which \$1.6 million is for the City portion of the INET, and

WHEREAS, the following public agencies are considering participating in the project and, if they do choose to so participate, will reimburse the City for their proportionate share of the cost: Sylvan Union School District, Yosemite Community College District, County of Stanislaus, Modesto City Schools, Empire School District, and Stanislaus Union School District,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an agreement with Comcast to provide for the construction and maintenance of the INET project.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that it hereby approves agreements with any of the other public agencies listed above who chose to participate in the project.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the City Manager, or his designee, is hereby authorized to execute said agreements on behalf of the City, subject to any minor conforming, technical or clarifying changes approved by the City Attorney.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 1st day of April, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-175**

A RESOLUTION AMENDING RESOLUTION NO. 91-371 ENTITLED "A RESOLUTION APPROVING A DEVELOPMENT PLAN FOR PREZONED PLANNED DEVELOPMENT ZONE, P-PD(483). (RULE DEVELOPMENT)" (RANDY BREKKE).

WHEREAS, on June 4, 1991, the Modesto City Council, by Ordinance No. 2768-C.S., established Planned Development Zone, P-D(483), to allow a single family home subdivision with commercial uses permitted on the southeast corner of the P-D, at the intersection of Dale Road and Pelandale Avenue, and

WHEREAS, on June 4, 1991, the Modesto City Council adopted City Council Resolution No. 91-371, approving the development plan for Planned Development Zone, P-D(483), and the conditions of approval thereof, and

WHEREAS, on December 15, 1997, the City of Modesto Planning Commission adopted Planning Commission Resolution No. 97-101, amending Planned Development Zone, P-D(483), to approve a new development plan for the development of a Rite-Aid at the southern portion of the area zoned for commercial uses, and

WHEREAS, a verified application for an amendment to Planned Development Zone, P-D(483), was filed by Randy Brekke, on December 9, 2002, to add office condominiums as a permitted use in the P-D and to approve a revised site plan that will allow for the development of professional office condominiums in place of the commercial use previously approved for the site, and

WHEREAS, after a duly noticed public hearing held on March 3, 2003, in the Tenth Street Place Chambers located at 1010 10th Street, Modesto, California, the City of Modesto Planning Commission, by Resolution No. 2003-14, recommended that the City Council approve the proposed amendment to P-D(483) as requested, and that the Council

determine that the proposed amendments are required by public necessity, convenience, and general welfare for the following reasons:

1. The proposed office development is consistent with the current land use designation for the site.
2. Conditions of approval will ensure compatibility with surrounding land uses.

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing on April 1, 2003, at 5:30 p.m. in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered, and

WHEREAS, after said public hearing the Council found and determined that the application of Randy Brekke for an amendment to Planned Development zone, P-D(483), should be granted as consonant with public necessity, convenience and general welfare for the reasons set forth above, and

WHEREAS, the Council has introduced Ordinance No. 3294-C.S. on the 1st day of April, 2003, amending Section 2 of Ordinance No. 2768-C.S. to add professional office condominiums as a permitted use in the P-D zone.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that Modesto City Council Resolution No. 91-371 entitled "A Resolution Approving a Development Plan for Prezoned Planned Development Zone, P-PD(483). (Rule Development)" is hereby amended to read as follows:

“SECTION 1. DEVELOPMENT PLAN. The development plan for Planned Development Zone, P-D(483), is hereby approved subject to the following conditions:

1. All development shall conform to the plot plan and elevations titled “Pelandale Professional Park” as amended in red, stamped approved by the City Council.
2. Prior to the issuance of a building permit, a landscaping and irrigation plan shall be approved by the Chief Building Official. Evergreen, screen landscaping shall be installed along the north and west property lines. Landscaping and the irrigation system shall be installed and maintained in accordance with the approved plan.
3. All landscaping, fences, and walls shall be maintained and the premises shall be kept free of weeds, trash, and other debris.
4. Prior to issuance of a building permit, improvement plans for required improvements shall be prepared by a Registered Civil Engineer and approved by the Engineering and Transportation Director. Improvements shall be constructed in accordance with the approved plans.
5. Prior to occupancy of any building, irrigation, electrical, gas and domestic water lines shall be removed, relocated, or protected as required by the Engineering and Transportation Director and/or the utility companies, and easements for utility lines to remain shall be dedicated.
6. All existing street and property monuments within or abutting this project site shall be preserved. If, during construction of onsite or offsite improvements, monuments are damaged or destroyed, the applicant/ developer shall retain a qualified licensed land surveyor or civil engineer to reset those monuments per City Standards and file the necessary information with the County Recorder’s Office as required by AB1414.
7. Prior to issuance of a building permit, the developer shall show on the plans submitted to Building Inspection all fire hydrants as required by the Fire Chief. All hydrants required by the Fire Chief shall be installed and operable prior to construction of any structures.

8. Ten-foot-wide public utility easements, and planting easements located within the ten-foot-wide public utility easements, shall be dedicated along all street frontages as required by the Engineering and Transportation Director.
9. Prior to the issuance of a building permit, the developer shall submit a plan for approval by the Operations and Maintenance Director to provide on-site treatment of storm water in accordance with the guidance manual for new development storm water quality control measures. Storm drain improvements shall be constructed in accordance with the approved plans.
10. The developer shall indemnify, defend and hold harmless the City of Modesto, its agents, officers, and employees from any and all claims, actions, or proceedings against the City of Modesto, its agents, officers, and employees to arbitrate, attack, review, set aside, void, or annul, any approval by the City of Modesto of a development approval. The City of Modesto shall promptly notify the developer of any claim, action, or proceeding and shall cooperate fully in the defense. If the City fails to do so, the developer shall not thereafter be responsible to defend, indemnify, or hold City harmless.
11. The developer shall implement pre- and post-construction best management practices (BMPs) to minimize pollutants entering the storm system.
12. All signs shall comply with the sign requirements of the P-O Zone.
13. Trash bins shall be kept in enclosures in accordance with the approved plan and in accordance with plans approved by the Operations and Maintenance Department Director. Enclosures shall be constructed of building materials consistent with those used in the major buildings as approved by the Community and Economic Development Department Director.
14. All outdoor lighting shall be shielded from adjacent residential properties as required by the Engineering and Transportation Director.
15. Prior to the issuance of a building permit the developer shall, in a manner approved by the City Attorney, provide a vehicular accessway for on-site traffic circulation for the benefit of the property to the south substantially as shown in red on the plot plan.

SECTION 2. DEVELOPMENT SCHEDULE. The following revised

development schedule is hereby approved for said Planned Development Zone, P-D(483):

The entire construction program for the office condominium portion of P-D (483) shall be accomplished in one phase, construction to begin on or before April 1, 2005, and be completed by not later than April 1, 2006.

SECTION 3. CHANGES IN DEVELOPMENT PLAN. Any changes in the

above approved development plan shall be made in accordance with the provisions of Section 10-2.1709 of the Modesto Municipal Code.

SECTION 4. COMPLIANCE WITH CODE PROVISIONS, ETC. In all other

respects said planned development shall be accomplished in accordance with and in strict adherence to the provisions of Article 17 of Title 10 of the Modesto Municipal Code relating to Planned Development Zones and other applicable City laws, rules, regulations and procedures.”

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 1st day of April, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating, O’Bryant, Mayor Sabatino

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-176**

A RESOLUTION FINDING THAT THE FOLLOWING PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (SCH NO. 1999082041): AMENDING PLANNED DEVELOPMENT ZONE, P-D (483), PROPERTY LOCATED ON THE SOUTHWEST CORNER OF DALE ROAD AND FLEUR DE LIS DRIVE, TO ALLOW FOR THE DEVELOPMENT OF PROFESSIONAL OFFICE CONDOMINIUMS

WHEREAS, on August 15, 1995, the City Council of the City of Modesto certified the Final Master Environmental Impact Report (“Master EIR”) (SCH No. 1999082041) for the Modesto Urban Area General Plan, and

WHEREAS, Randy Brekke has proposed an amendment to Planned Development zone, P-D(483), to allow for the development of professional office condominiums, property located on the southwest corner of Dale Road and Fleur de Lis Drive, in the City of Modesto (the “Project”) and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for a Master EIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the master environmental impact report and whether the subsequent project was described in the master environmental impact report as being within the scope of the project, and

WHEREAS, the City’s Community & Economic Development Department by Environmental Assessment Initial Study EA/C&ED 2003-11(a) (“Initial Study”) reviewed the proposed Amendment to Planned Development zone, P-D(483), to determine whether the Project is within the scope of the project covered by the Modesto Urban Area General Plan Master EIR, and made the determination that the proposed Project will

have no additional significant effect on the environment that was not identified in the Master EIR, and further, that no new additional mitigation measures or alternatives are required, and that, therefore, the proposed Project is within the scope of the project covered by the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on April 1, 2003, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed Amendment to Planned Development zone, P-D(483), a copy of which is attached hereto as **Exhibit "A"**, and incorporated herein by reference, and based on the substantial evidence included in said Initial Study makes the following findings:

1. That the proposed project is contemplated and described in the Master EIR (SCH No. 1999082041) as being within the scope of the Master EIR.
2. That the project will have no new significant effects on the environment not identified or examined in the Master EIR, and no new or additional mitigation measures are required.
3. That, as per Section 21157.1 of the Public Resources Code, no new environmental document or findings are required by the California Environmental Quality Act (CEQA).

4. That there are no specific features which are unique to the proposed project that require project specific mitigation measures. Accordingly, the certified mitigation measures identified in the Master EIR will be sufficient for this project.
5. That all feasible mitigation measures set forth in the Master EIR which are appropriate to the project shall be incorporated in the project.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of approval or determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 1st day of April, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Conrad, Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino
NOES:	Councilmembers:	None

EXHIBIT A
Initial Study
EA/C&ED 2003-11

City of Modesto
Initial Study

Amendment to P-D (483)
EA/C&ED 2003-11(a)
March 18, 2003

I. PURPOSE

Section 21157.1 of the Public Resources Code, allows for limited environmental review of subsequent projects under a Master EIR, provided that certain findings are made. The Modesto Urban Area General Plan Master EIR (SCH No. 1999082041), adopted March 4, 2003, allows such limited review for projects in the Baseline Developed Area that are consistent with the General Plan and existing zoning.

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, analyzes whether this project may cause any significant effects on the environment that were not examined in the General Plan Master EIR. This Initial Study also provides documentation that the project is within the scope of the General Plan Master EIR.

II. PROJECT DESCRIPTION

- A. Project title:
Amendment to P-D (483)
- B. Lead agency name and address:
City of Modesto, PO Box 642, Modesto, CA 95353
- C. Contact person and phone number:
Josh Bridegroom, Community and Economic Development Department, (209) 571-5540
- D. Project Location:
West Side of Dale Road, North of Pelandale Avenue
- E. Project Sponsor:
Randy Brekke, 1127 Lone Palm Avenue, Modesto, Ca.
- F. General Plan Designation:
Residential
- G. Current Zoning:
Planned Development, P-D (483)
- H. Description of Proposed Project:
This is an application to amend P-D (483) to allow for the development of professional office condominiums.
- I. Surrounding land uses:
The project is surrounded by a Walgreens Drug Store to the south, residential to the west and north and Dale Road to the east.

- J. Other public agencies whose approval is required:
None

III. ANALYSIS OF CONFORMANCE WITH THE MASTER EIR

There are eighteen subject areas in the Master EIR for the General Plan. Following is an analysis of how this project conforms with the analysis contained within the Master EIR.

A. Traffic and Circulation

The General Plan designates the project site as commercial. The project is consistent with this designation in land use and intensity and will therefore not generate traffic greater than projected by the MEIR. Furthermore, Engineering and Transportation staff have determined that the project will generate 73 peak-hour-trips, which is less than the 100-peak-hour-trip threshold of significance for further analysis under the Engineering and Transportation Department's Traffic Study Policy (attached) and that no additional traffic analysis is required. Therefore, there would be no change needed in the Traffic and Circulation section of the EIR. Therefore, the Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Traffic and Circulation Needs (pages V-1-1 through V-1-33) are still valid.

B. Degradation of Air Quality

The air quality impacts for this abandonment are directly related to the traffic impacts. Since traffic impacts are no greater than those anticipated in the Master EIR, this development will not cause additional impacts to air quality beyond those described in the Degradation of Air Quality section of the MEIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Degradation of Air Quality (pages V-2-1 through IV-2-26) are therefore still valid.

C. Generation of Noise

The General Plan MEIR assumed that there would be further mixed-use development and thus, noise generation within the Baseline Developed Area. Therefore, the Mitigation Measures listed in the MEIR for Generation of Noise (pages V-3-1 through V-3-22) are still valid.

D. Loss of Productive Agricultural Land

This area is located in an urbanized portion of Modesto, and there are no agricultural lands affected by this project. The Existing Conditions, Impacts Analysis, and Mitigation Measures listed in the MEIR for Loss of Productive Agricultural Land (pages V-4-1 through IV-4-12) are still valid.

E. Increased Demand for Water Supplies

The General Plan MEIR assumed that there would be further development and thus, increased demand for Water Supplies within the Baseline Developed Area. Beyond this, professional offices do not generally use much water and the necessary water supply infrastructure already exists. Therefore, the Existing Conditions, Impacts Analysis and the

Mitigation Measures listed in the MEIR for Increased Demand for Water Supplies (pages V-5-1 through IV-5-13) are therefore still valid.

F. Increased Demand for Sanitary Sewer Services

The project is consistent with the General Plan Designation for the site in land use and intensity and will therefore not increase demand for sanitary sewer service beyond that projected by the MEIR. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Sanitary Sewer Services (pages V-6-1 through V-6-12) are still valid.

G. Loss of Sensitive Wildlife and Plant Habitat

The project is located in a built-up urban area and is not located in a Potential Biological Resource Study Area, as presented in Figure V-7-1 of the MEIR. Therefore, the project will not impact sensitive wildlife or any plant habitat above and beyond that which was identified in the Loss of Sensitive Wildlife and Plant Habitat section of the MEIR. Therefore, the Existing Conditions, Impact Analysis, and the Mitigation Measures listed in this section of the MEIR (pages V-7-1 through V-7-29) are still valid.

H. Disturbance of Archaeological and Historic Sites

This project will not disturb any archaeological or historic sites that have been identified in the Disturbance of Archaeological or Historical Sites section of the 1995 MEIR, as cited in the 2003 MEIR. Figure 8-1 of the 1995 MEIR, as cited in the 2003 MEIR, indicates that this project is also outside the Archaeological Resource Study Area, which shows areas that may require additional site-specific investigations. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Disturbance of Archaeological or Historical Sites (pages V-8-1 through V-8-22) are still valid.

I. Increased Demand for Storm Drainage

The General Plan MEIR assumed that there would be further development and thus, increased demand for Storm Drainage within the Baseline Developed Area. This project is consistent in land use and intensity with the General Plan designation for the site, and the project complies with the adopted storm drainage policies from the various agencies listed in the MEIR. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Storm Drainage (pages V-9-1 through V-9-13) are still valid.

J. Flooding and Water Quality

The General Plan designates the project site as mixed-use. The project is consistent with this designation in land use and intensity and will therefore not generate drainage, flooding or water quality problems greater than projected by the MEIR. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Drainage, Flooding, and Water Quality (pages V-10-1 through V-10-16) are still valid.

K. Increased Demand for Parks and Open Space

The General Plan MEIR assumed that there would be further development and thus, increased demand for Parks and Open Space within the Baseline Developed Area. This project is consistent with the General Plan in terms of land use and intensity. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Parks and Open Space (pages V-11-1 through V-11-14) are still valid.

L. Increased Demand for Schools

This project, being non-residential, would not generate any additional demand for schools. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Schools (pages V-12-1 through V-12-11) are still valid.

M. Increased Demand for Police Services

The General Plan MEIR assumed that there would be further development and thus, increased demand for police services within the Baseline Developed Area. The proposed project is consistent with the General Plan with regard to land use and intensity. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Police Services (pages V-13-1 through V-13-7) are still valid.

N. Increased Demand for Fire Services

The General Plan MEIR assumed that there would be further development and thus, increased demand for fire services within the Baseline Developed Area. The MEIR concludes that adopted policies in the City of Modesto and County of Stanislaus would reduce the impact of new projects on Fire Services to a less than significant level. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Fire Services (pages V-14-1 through V-14-9) are still valid.

O. Generation of Solid Waste

The General Plan MEIR assumed that there would be further development and thus, increased generation of solid waste within the Baseline Developed Area. This project is consistent in land use and intensity with the General Plan designation for the site. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Solid Waste (pages V-15-1 through V-15-10) are still valid.

P. Generation of Hazardous Materials

The General Plan MEIR assumed that there would be further development and thus, increased generation of hazardous materials within the Baseline Developed Area. This project is consistent in land use and intensity with the General Plan designation for the site. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Hazardous Materials (pages V-16-1 through V-16-15) are still valid.

Q. Landslides and Seismic Activity

This project will result in no additional potential for exposing people to landslides or earthquake related hazards such as liquefaction beyond those identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Landslides and Seismic Activity(pages V-17-1 through V-17-12) are therefore still valid.

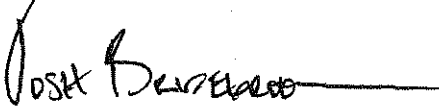

R. Energy

The MEIR concludes that adopted policies in the City of Modesto and County of Stanislaus would reduce the impact of new projects on Energy to a less than significant level. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Energy (pages V-18-1 through IV-18-7) are still valid.

IV. CONCLUSIONS/DETERMINATIONS OF FINDINGS

- A. The proposed project is within the scope of the General Plan Master EIR (SCH No. 1999082041).
- B. No additional significant environmental effects will occur as a result of the proposed project that were not previously examined in the General Plan Master EIR.
- C. No new mitigation measures or alternatives will be required as a result of the proposed project that were not previously considered in the General Plan Master EIR.
- D. There are not specific features unique to this project that require project specific mitigation measures. All certified mitigation measures identified in the MEIR will apply city wide, including this project as appropriate.
- E. This initial study provides substantial evidence to support findings A, B, C, and D above.

Subject: Trip generation for the medical office

Steve,

As requested I check the trip generation of the proposed medical condominiums on Dale Road between Fleur De Lis Drive and the Walgreen's store.

The total square footage of the proposed development is 20,000 sf per the site plan dated 12/3/02.

The traffic generation rate for a medical office at the p.m. peak hour of the adjacent traffic is 3.66 trips/1000 sf. Thus,

$3.66 \text{ trip} \times 20,000/1000 = 73 \text{ trips.}$

This project does not need a traffic study.

MODESTO CITY COUNCIL
RESOLUTION NO. 88-876

A RESOLUTION ADOPTING REVISED CRITERIA FOR TRAFFIC IMPACT STUDIES.

WHEREAS, the Institute of Transportation Engineers (ITE) has published a summary report on proposed recommended practice for Traffic Access and Impact Studies for Site Development in its August 1988 issue of the Institute of Transportation Engineers Journal (extract attached in Appendix A), and

WHEREAS, the Institute of Transportation Engineers' recommended procedure and the Federal Highway Administration (FHWA) Site Impact Traffic Evaluation Methodology both recommend that a complete Traffic Access/Impact Study should be conducted whenever a proposed development and/or addition or extension of an existing development generates one hundred (100) or more peak hour trips to or from the site during the adjacent roadway's peak hour or the development's peak hour, and

WHEREAS, the present criteria that the City of Modesto Environmental Assessment Committee uses requires a Traffic Study for proposed developments generating three hundred (300) or more vehicle trips during the p.m. peak hour, and

WHEREAS, the proposed criteria has been discussed with the Construction Industry Liaison Committee and the Modesto Chamber of Commerce Transportation Committee, and

WHEREAS, the Requirement for Traffic Access and Impact Studies shall not be applicable to any neighborhood which is annexed in its entirety subsequent to this resolution. The term neighborhood includes each area

depicted and individually named on the map of the Modesto Urban Area General Plan,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Criteria for a Traffic Impact Study is hereby adopted as attached hereto marked Exhibit A and incorporated herein by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 15th day of November, 1988, by Councilmember McGrath, who moved its adoption, which motion being duly seconded by Councilmember Lang, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Irizarry, Lang, McGrath, Patterson, Sutton,
Mayor Whiteside

NOES: Councilmembers: None

ABSENT: Councilmembers: Muratore

See page 8 of 10

CRITERIA FOR A TRAFFIC IMPACT STUDY

A Traffic Study shall be performed when:

1. The proposed development and/or addition or extension of an existing development produces 100 or more peak hour trips, and/or,
2. The proposed development and/or addition or extension of an existing development's traffic is 5% or more of the service volume of an intersection approach in the study area.

The Site Impact Issues and Analysis Methodology for a Traffic Impact Study shall include but not be limited to the following elements, and shall be as approved by the Traffic Engineer/Transportation Planner prior to commencing the Traffic Study.

SITE IMPACT ISSUES

a) SIZE OF STUDY AREA

The size of the study area shall be dependent on the size of the development. All intersections where the site traffic is 5% or more of the service volume on any approach shall be included in the study area.

b) MAGNITUDE OF TRAFFIC GROWTH FACTORS

Growth rate shall be computed by using historical growth rate and exponential projection.

c) TRIP GENERATION RATES

The ITE Trip Generation Manual current edition shall be used to estimate trips generated by the proposed project.

d) RATE OF BUILDOUT

The Traffic Study shall identify the proposed project's buildout rate. The buildout rate for other proposed projects in the study area shall be estimated from the information provided by the City Planning and Community Development Department.

e) PASS-BY TRIPS

Rate of pass-by trips shall be as per the lower limits of the range stipulated by the ITE Trip Generation Manual.

ANALYSIS METHODOLOGY

The analysis methodology shall be as per the following flow chart (Figure 1) in phases described below.

PHASE I

Establish existing traffic conditions without the site. Calculate existing Level of Service (LOS) and capacity* for existing traffic flow conditions.

PHASE II

Forecast future traffic conditions (Study Horizon) without the site. The selection of year for which the study results are to be analyzed will be dependent on the size of proposed development. Table 1 suggests the study horizons that may be appropriate for development of various sizes.

PHASE III

Forecast future Site-Only traffic conditions.

PHASE IV

Determine Total future traffic condition (II+III).

PHASE V

Evaluate alternative improvements/mitigations.

PHASE VI

Prepare cost estimates for implementing mitigations and discuss project participation in funding the mitigations.

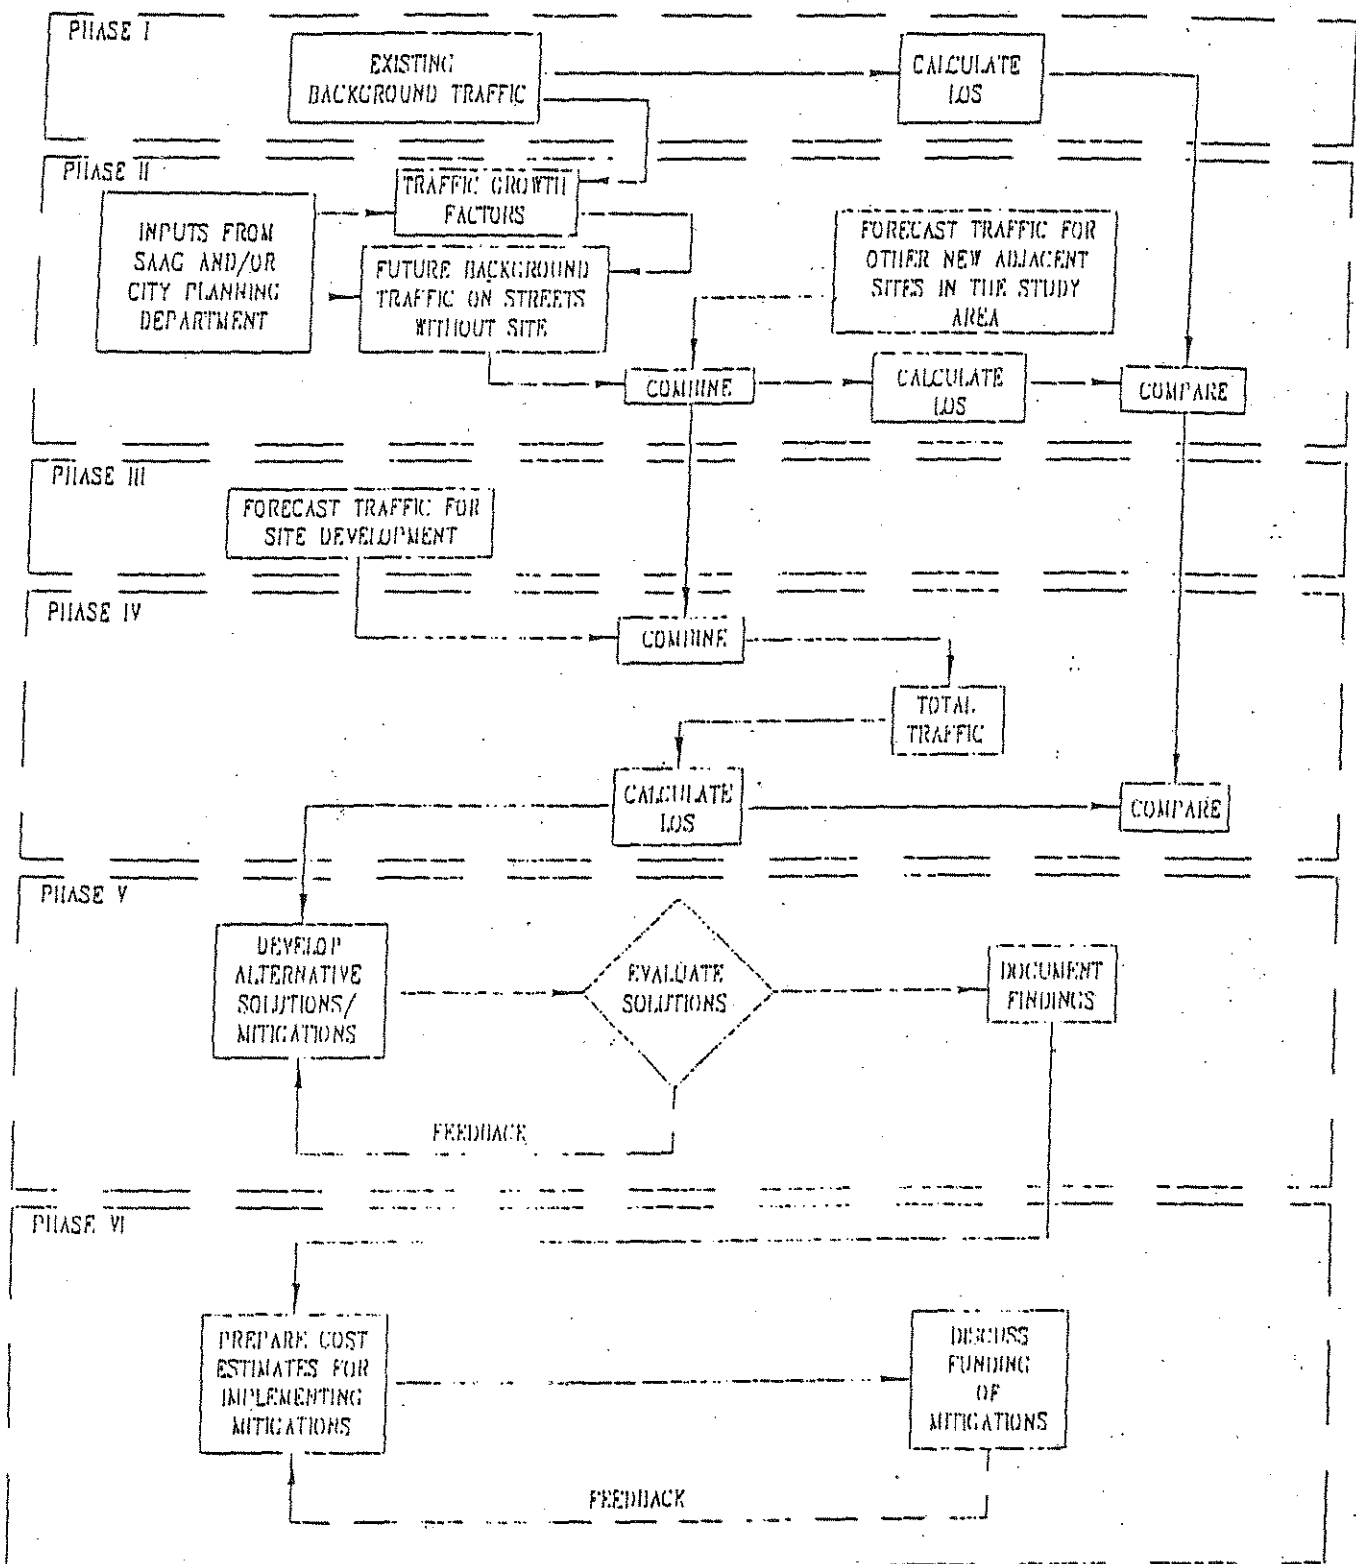

* The Highway Capacity Manual (HCM), as published by the National Research Council, shall be used to analyze intersection capacity and LOS. Intersections that are currently signalized shall be analyzed using the HCM operational method.

Table:1 Appropriate Study Horizons

Development Size	Suggested Horizon(s)
Small (generating less than 500 peak hour trips)	Anticipated opening year, assuming full buildout and occupancy or 5 years, whichever is more.
Moderate, single phase (500-1000 peak hour trips)	<ol style="list-style-type: none"> 1. Anticipated opening year, assuming full buildout and occupancy or 5 years, whichever is more. 2. Adopted transportation plan horizon year if the development is significantly larger than that included in the adopted plan or in forecasts for the area.
Large, single phase (over 1000 peak hour trips)	<ol style="list-style-type: none"> 1. Anticipated opening year, assuming full buildout and occupancy or 5 years, which ever is more. 2. Adopted transportation plan horizon year.
Moderate or large, multiple phase	<ol style="list-style-type: none"> 1. Anticipated opening years, of each, major phase, assuming buildout and full occupancy of each phase. 2. Anticipated year of complete buildout and occupancy or 5 years, whichever is more. 3. Adopted transportation plan horizon year. 4. Additional years when major area transportation improvement is completed.

Note: Trips generated based on rates in ITE Trip Generation Manual

FLOWCHART OF TRAFFIC IMPACT STUDY PROCESS

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-177**

**A RESOLUTION APPROVING SPECIFIC PLAN AMENDMENT NO. 17 TO
THE VILLAGE ONE SPECIFIC PLAN TO ALLOW FOR A REVISED
INFRASTRUCTURE FINANCING PLAN FOR VILLAGE ONE, INCLUDING
THE FORMATION OF A NEW COMMUNITY FACILITIES DISTRICT FOR
REMAINING UNDEVELOPED, UNVESTED PROPERTY IN VILLAGE ONE**

WHEREAS, Government Code Section 65450 et. seq. permits cities and counties to adopt specific plans for the systematic implementation of the General Plan and to provide for a greater level of detail in planning sites or areas of special interest or value, and

WHEREAS, on October 16, 1990, the City Council by Resolution No. 90-828A adopted the Village One Specific Plan, to guide the development of 1,780 acres located in northeast Modesto, and

WHEREAS, Government Code Section 65453 permits the amendment of specific plans as often as deemed necessary by the legislative body, and

WHEREAS, the City Council on June 18, 1991, by Resolution No. 91-405, adopted Specific Plan Amendment No. 1 to the Village One Specific Plan to adopt an amended Affordable Housing Program, and

WHEREAS, the City Council on May 5, 1992, by Resolution No. 92-222, adopted Specific Plan Amendment No. 2 to the Village One Specific Plan to improve technical correctness, readability, and comprehension, and

WHEREAS, the City Council on February 1, 1994, by Resolution No. 94-72, adopted Specific Plan Amendment No. 3 to the Village One Specific Plan to rewrite and reorganize the Plan to be more implementation oriented, and

WHEREAS, the City Council on May 24, 1994, by Resolution No. 94-297, certified the Final Supplemental EIR for Village One (SCH No. 90020181) which provided environmental analysis for the revisions in Specific Plan Amendment No. 4, and

WHEREAS, the City Council on May 24, 1994, by Resolution No. 94-298, adopted Specific Plan Amendment No. 4 to the Village One Specific Plan to widen Floyd Avenue from three-to-five lanes, realign the Claus/Sylvan intersection, delete the non-potable water supply for public landscaping, and integrate mitigation monitoring into the Specific Plan, and

WHEREAS, the City Council on June 28, 1994, by Resolution No. 94-372, adopted Specific Plan Amendment No. 5 to the Village One Specific Plan to revise the Residential Design Policies for cul-de-sacs, alleys, garage orientation, and plan processing, and

WHEREAS, the City Council on June 28, 1994, by Resolution No. 94-373, adopted Specific Plan Amendment No. 6 to the Village One Specific Plan to revise the school and park sites within the Specific Plan and redistribute residential units among the Village One Precise Plan Areas, and

WHEREAS, the City Council on October 10, 1995, by Resolution No. 95-487, adopted Specific Plan Amendment No. 7 to the Village One Specific Plan to reduce costs and to implement recommendations to increase the marketability of development within the Village One area, and

WHEREAS, the City Council on May 14, 1996, by Resolution No. 96-245, adopted Specific Plan Amendment No. 7.1 to the Village One Specific Plan to delete the multiple-family development designation from Precise Plan Areas Nos. 8 and 33, and Resolution No. 26-246 to amend the Design Standard portion of the Village One Specific Plan pertaining to single-family dwelling setbacks and three-car garages, limited to Precise Plan Areas Nos. 8, 32, and 33, and

WHEREAS, the City Council on June 4, 1996, by Resolution No. 96-295, adopted Specific Plan Amendment No. 8 to the Village One Specific Plan to incorporate changes previously approved in Specific Plan Amendment No. 7 into the Specific Plan document itself, to make minor editorial changes to the Specific Plan, and to incorporate changes resulting from development of a revised Village One Facilities Master Plan, and

WHEREAS, the City Council on August 13, 1996, by Resolution No. 96-453, adopted Specific Plan Amendment No. 9 to the Village One Specific Plan to modify the standards for dwelling setbacks and three-car garages for the entire Specific Plan area, and

WHEREAS, the City Council on May 6, 1997, by Resolution No. 97-225, adopted Specific Plan Amendment No. 10 to the Village One Specific Plan to eliminate redundancy with the General Plan Housing Element policies and to eliminate language that was too restrictive, and

WHEREAS, the City Council on June 3, 1997, by Resolution No. 97-300, adopted Specific Plan Amendment No. 11 to the Village One Specific Plan to exempt public facilities from precise plan requirements, to streamline the Specific Plan amendment process, and to provide minor clarification to various policies and diagrams, and

WHEREAS, the City Council on October 21, 1997, by Resolution No. 97-602, adopted Specific Plan Amendment No. 12 to the Village One Specific Plan to allow changes in public service providers, delete the requirement for a business park market study, revise Amtrak station language, revise the business park precise plan diagram, and allow regional commercial uses in the business park, and

WHEREAS, the City Council on February 17, 1998, by Resolution No. 98-97, adopted Specific Plan Amendment No. 13 to the Village One Specific Plan to redesignate 9.8 acres in Precise Plan Area No. 3 from Multi-Family Residential to Village Residential, and

WHEREAS, the City Council on August 17, 1999, by Resolution No. 99-416, adopted Specific Plan Amendment No. 14 to the Village One Specific Plan to modify the mix of land uses allowed in the southeast quadrant of Precise Plan Area No. 20, and

WHEREAS, the City Council on September 26, 2000, by Resolution No. 2000-507, adopted Specific Plan Amendment No. 15 to the Village One Specific Plan to reduce the noise setback along Claus Road, and

WHEREAS, the City Council on May 7, 2002, by Resolution No. 2002-230, adopted Specific Plan Amendment No. 16 to the Village One Specific Plan to move 4.1 acres from Precise Plan Area No. 6 to Precise Plan Area No. 7, and

WHEREAS, in 2001 the City of Modesto contracted with Goodwin Consulting Group to study the infrastructure financing for Village One and provide a plan for the timely funding of facilities needed as the development of Village One progresses, and

WHEREAS, on May 28, 2002, the City Council accepted the draft Infrastructure Financing Plan which concluded that there would be a substantial infrastructure funding shortfall in Village One, and recommended measures to correct this shortfall, and

WHEREAS, the City Council, on June 4, 2002, adopted Ordinance No. 3263-c.s., an emergency interim ordinance imposing a moratorium on the approval of new precise plans, tentative subdivision maps, tentative parcel maps, plot plans, use permits, rezonings, final development plans, and any other land use entitlement in Village One for 45 days, and

WHEREAS, the City Council, on July 9, 2002, adopted Ordinance No. 3265-c.s. extending this moratorium for an additional ten months and fifteen days, and

WHEREAS, the City Council directed City staff to prepare the necessary amendments to the Village One Specific Plan, Facilities Master Plan and Financing Plan, to address the identified infrastructure financing shortfall, and

WHEREAS, City staff is proposing an amendment to the Village One Specific Plan to allow for a revised infrastructure financing plan for Village One, including the formation of a new community facilities district for remaining undeveloped, unvested property in Village One, and

WHEREAS, on February 24, 2003, the Planning Commission held a duly noticed public hearing in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered regarding the Village One Specific Plan amendment, and.

WHEREAS, after said public hearing, the Modesto City Planning Commission by Resolution No. 2003-11, recommended to the City Council approval of an amendment to the Village One Specific Plan to allow for a revised infrastructure financing plan for Village One, including the formation of a new community facilities district for remaining undeveloped, unvested property in Village One, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing on April 1, 2003, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered, and

WHEREAS, the proposed specific plan amendment is not a project under CEQA, as it concerns policy decisions regarding funding mechanisms, and no changes are proposed to infrastructure or land uses.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby finds and determines that the proposed amendment No. 17 to the Village One Specific Plan to allow for a revised infrastructure financing plan for Village One, including the formation of a new community facilities district for remaining undeveloped, unvested property in Village One is consistent with the Modesto Urban Area General Plan and the Village One Specific Plan is hereby amended to read as shown on **Exhibit "A"** attached hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED by the Council that the City Clerk is hereby authorized and directed to send certified copies of this resolution and said amendment to the Village One Specific Plan to the Board of Supervisors of the County of Stanislaus.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 1st day of April, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: Fisher

EXHIBIT A

AMENDMENTS TO CHAPTER II

more pump stations may be needed for the distribution of storm water throughout the retention basins located along the MID Canal. The purpose of the retention basins at this location is to promote infiltration of storm water, and recharging of groundwater.

Groundwater recharge is not well served by conduits that convey storm water out of an area. A basin located within a drainage area helps to replenish groundwater by allowing storm water to percolate into the ground. The sensitivity of surface waters to urban storm drainage and its potential to carry contaminants, is currently being addressed by the Environmental Protection Agency and the State Water Quality Control Board.

The Environmental Protection Agency issued regulations on storm water drainage, which took effect in 1990. As a result of the EPA regulations, the City is required to submit a permit application to the Regional Water Quality Control Board. The associated permit program is expected to have numerical water quality objectives which, as yet, are not specifically defined. However, it is likely that treatment of urban runoff would be required for the Village One area, if a retention basin is not used.

Although the general location of storm water drainage facilities have been indicated on Figure II-27, certain deviations will be necessary as logical adaptations to specific site considerations.

a) Design Principles

1. Storm drainage system shall be developed that replenishes the groundwater by means of a retention basin. The use of a retention basin will allow percolation through the soil profile, thus replenishing the groundwater supply.
2. Storm drainage for individual projects shall utilize the permanent storm drain facilities as shown in the Facilities Master Plan. Temporary storm drainage retention basins shall may be allowed at the discretion of the Engineering and Transportation Department Director, until such time as the necessary components of the storm drainage system are in place to serve the particular development.

Construction of the storm drainage basin is dependent on the collection of fees to pay construction costs. Consequently, many homes will need to be built prior to the time tht the storm drainage system will be operational. Temporary basins allow added flexibility for properties to develop.

3. A Storm Drainage Master Plan shall be established for Village One, prior to any development within the area.

The construction of individual drainage sub-systems must relate to a master plan to ensure a functional transition from a temporary to a permanent system. A master plan would establish the necessary grade and elevation criteria to evaluate temporary sub-system designs.

AMENDMENTS TO CHAPTER IV

Chapter IV

Implementation

This Chapter responds to the requirements of Section 65451(a)(4) of the Government Code by providing public works projects, financing measures, and development review programs necessary to implement the requirements of Chapter I-III.

A. Public Works Projects/Public Infrastructure

1. Facilities Master Plan – Overview

Development of the public infrastructure and facilities required to support Village One will occur in a variety of ways and methods. The general requirements for infrastructure and facilities, and the ~~likely method~~ general methods of funding, are described in Sections IV-A and IV-B. Prior to approval of any development plans a detailed Facilities Master Plan shall be prepared and adopted by the City Council, consistent with, but separately from the Specific Plan. Implementation of the Facilities Master Plan can be assured by inclusion of provisions in development approvals and/or development agreements that require adherence to the plan.

The engineering design for the water, sewer, and storm drainage facilities, and the precise alignments of the major streets and roads, is necessary to allow for the preparation of the Precise Plans for each residential area, the Village Center, and the Business Park. This work shall be of sufficient detail to serve as the basis for financial cost estimates.

2. Facilities Master Plan – Service Standards

Village One will conform to all existing City-wide standards expressed in the General Plan except for standards set exclusively for Village One in the Specific Plan. Projects developed in Village One will pay all required fees and taxes established by City-wide ~~fee~~ ordinances for infrastructure and public facilities.

The Specific Plan for Village One sets new standards for road design and park development compared with City-wide development standards for the City of Modesto. The increased cost of implementing these standards will be a cost borne by the property owners of new developments within Village One.

Facilities with enhanced service standards in Village One include:

a) Streets

Right-of-way widths, median requirements, and landscaping requirements in setbacks have been increased or enhanced above present standards.

b) Parks

Park acreage has been increased due to linear recreational trails along Briggsmore Avenue and Claus Road. Linear recreational trails along Briggsmore Avenue and Claus Road provide recreational features in addition to the neighborhood parks and community park that meet the City's General Plan standard for parks and trails.

3. Facilities Master Plan – Infrastructure Categories

The general requirements for infrastructure and facilities, and the likely method general methods of funding, are described in the following paragraphs. The infrastructure and public facilities required to serve Village One can be grouped into three categories:

a) Backbone Infrastructure

This group includes expressways, expressway interchanges, arterial streets, sanitary sewer trunk system, water delivery system, and the storm drainage system.

b) Community Facilities

This group includes parks, schools, and fire facilities.

c) In-Tract Subdivision Infrastructure

This group includes connector streets and residential streets, sewer, water, storm drainage, setback landscaping and street trees.

Backbone infrastructure items and community facilities serve all land uses within the project area and are primarily funded through a financing system that spread the costs fairly to each benefiting land use combination of Community Facilities District taxes, Capital Facilities Fees, Sewer and Water fees and developer exactions. In-tract subdivision infrastructure benefits only a specific development and the costs are allocated only to borne by the benefiting properties within that development.

In recent years, public agencies have been severely restricted in their ability to fund infrastructure to serve new development. New development within Village One is being required to fully fund not only the in-tract improvements that serve the project, but also the costs of the backbone infrastructure.

4. Facilities Master Plan – Infrastructure Phasing

- a) An infrastructure Sequencing Program shall be prepared as part of the Facilities Master Plan and the Village One Infrastructure Financing Plan, that will allow orderly development throughout the Specific Plan area. This sequencing program is contained in the adopted Village One Infrastructure Financing Plan as the prioritization of street and storm drain projects. All funding for the construction of public improvements within Village One, including any reimbursements for infrastructure installed out of sequence, shall be made available only in accordance with the policies and procedures of the adopted Village One Infrastructure Financing Plan.

The sequencing program will prioritize street, sewer, water drainage, and electrical facilities that must be in place prior to specific levels of development being permitted.

The sequencing program will may, at the discretion of the Engineering and Transportation Director, permit temporary solutions to drainage problems, such as temporary retention basins, for certain areas to allow development prior to the completion of the full drainage system serving the area.

- b) The infrastructure Sequencing Program shall provide for flexibility to permit specific areas to develop ahead of the basic sequencing program, if the developer advances the necessary infrastructure costs or constructs the facilities necessary to extend service to the area.

A reimbursement agreement should be included as part of the development agreement explaining the conditions under which the reimbursements are distributed.

B. Public Facilities Financing Measures

1. Public Facilities Village One Infrastructure Financing Plan – Overview

The Village One Specific Plan process is a new approach to the design and implementation of development projects for the City of Modesto. In the past, the City approved residential neighborhood developments, which conformed to citywide development standards and funded the development costs of necessary infrastructure. These developments were not required to fund the full burden of the impacts the projects placed on the City in terms of the City-wide circulation system, public parks, and police and fire facilities. As a result of these prior development patterns, the City is now faced with costly deficiencies in much of its public infrastructure and services.

The comprehensive planning process for Village One, as set forth in the 1989 City Council revised Urban Growth Policy, calls for the preparation of a Financing Plan that identifies all infrastructure costs and requires development to pay its own way. The preparation of a Financing Plan that identifies all infrastructure costs and requires development to pay its own way. The preparation of a

Financing Plan is designed to provide a framework for orderly development, attainment of standards, and mitigation of adverse environmental and financial impacts.

The Financing Plan for Village One is complicated due to the large number of parcels and ownership's within the Specific Plan area. There is great diversity of opinion as to whether or not owners want to develop their property or maintain it in its current use for an indefinite period. The timing of developments is unknown for those property owners who wish to develop in accordance with the permitted land uses within the Village One Specific Plan. This uncertainty means that the financing plan and the infrastructure sequencing program must be flexible.

2. Public Facilities Village One Infrastructure Financing Plan – Facility Funding Methods

The Facility Village One Infrastructure Financing Plan will determine the appropriate mix of Facility funding methods, based upon the facilities listed below:

a) Expressway System

The expressway system will be funded primarily by the City of Modesto's Capital Facilities Fee Program (CFF). Briggsmore Avenue and Claus Road are planned expressways including planned Claus/Sylvan/Briggsmore interchange. All development will be charged a CFF Capital Facilities Fees at the time building permits are issued. The traffic portion of this fee is divided between the expressway system and arterial streets, traffic signals, air quality mitigation, and transit.

b) Arterial Streets

Arterial streets within the Specific Plan area include Oakdale road, Sylvan Avenue, Roselle Avenue and Floyd Avenue. The City's CFF will fund a portion of the Roselle Avenue improvements. Improvements to the other major streets will be paid for by a combination of developer financing for abutting roadway frontages and an "area of benefit" charge that covers the entire Specific Plan area. Assessment districts or Mello Roos Community Facilities districts may be considered in place of, or in combination with, the "area of benefit" charge. Landscape maintenance within public right of way may be funded by a property owners association or a Landscape and Lighting District. Construction and landscape maintenance of the arterial streets will be funded primarily by one or more Community Facilities Districts (CFD's), but other funding sources may be utilized, as specified in the Village One Infrastructure Financing Plan.

c) Local Connector Streets and Residential Streets

Construction of local connector streets and residential streets will also be the responsibility of developers within each Precise Plan. Landscape maintenance on connector streets within public rights-of-way may be funded by a property owners association or a Landscape and Lighting District CFD's, or other funding sources as specified in the Village One Infrastructure Financing Plan.

d) Police and Fire Facilities

Police and Fire facilities will be funded primarily through the City of Modesto's Capital Facilities Fee Program, one or more CFD's, or other funding sources as specified in the Village One Infrastructure Financing Plan. All new developments will be charged a fee at the time building permits are issued. Construction of the police and fire facilities will be required prior to buildout of Village One, so a portion of the cost of these facilities will be funded through bond financing.

e) Schools

Development within the Specific Plan area will be required to mitigate the impact on the elementary, middle, and high schools. The schools will be funded through a combination of AB2026 development fees, local general obligation bonds, the State School Building Program, and one or more Mello-Rees Community Facilities Districts CFD's. A school facilities financing plan will be included as part of the detailed public services and Facilities Financing Plan prepared for Village One and, for the high school, will include a pedestrian over crossing over Sylvan Avenue. A pedestrian overcrossing for the high school at Sylvan Avenue and Millbrook Avenue will be a shared responsibility between the City and Modesto City School District, or other funding source as specified in the Village One Infrastructure Financing Plan.

f) Pedestrian Paths and Trails

All pedestrian paths and trails within public street rights-of-way and public open space areas will be publicly owned and maintained. Pedestrian paths along public streets will be constructed in conjunction with the installation of these streets. Landscape maintenance within the public rights-of-way will be funded through a Lighting and Landscaping District one or more CFD's or property owners associations, or other funding sources as specified in the Village One Infrastructure Financing Plan.

g) Parks

Neighborhood, community, and regional parks will be funded primarily through the City of Modesto's Capital Facilities Fee Program, the "Area of

Benefit process, and/or private development one or more CFD's, or other funding sources as specified in the Village One Infrastructure Financing Plan. All development will be charged the fee at the time building permits are issued.

Park maintenance for neighborhood and community parks, may be funded through the creation of a Landscape and Lighting District one or more CFD's, or other funding sources as specified in the Village One Infrastructure Financing Plan.

h) Water, Sanitary Sewer, and Storm Drainage Systems

Except for certain major water, sanitary sewer, and storm drainage trunk lines, construction of all utilities infrastructure will proceed in conjunction with development of Precise Plans in the Specific Plan area.

The need for most of the utility systems will be triggered by the approval of tentative maps for residential subdivisions within Precise Plan Areas or by the approval of a final development plan for commercial and multi-family properties.

Prior to the recording of final maps, detailed improvement plans and funding mechanisms consistent with the general design described in this Specific Plan shall be prepared and approved by the City. Developers will pay the sanitary sewer, and water, and storm drainage fees at the filing of the final map. Advance funding may be provided by the City through revenue bonds if the fees for a specific project are insufficient to cover the costs of extensions to the project, due to over sizing of facilities or other factors.

Developers may also be required to initially fund costs if nearby areas are not funding their share of the costs of infrastructure extensions due to the timing of development of specific projects. Depending on the funding source and the type of infrastructure being constructed developers who initially fund the costs above their fair share shall be reimbursed when adequate fee revenues are collected other developments tie into the lines or in accordance with the sequencing program as set forth in the Village One Infrastructure Financing Plan. Reimbursement agreements will be approved by the City governing the contributions and repayment requirements.

i) Street Lights

Street lights will be installed along all expressways, major, connector, and residential streets as specified in the Specific Plan. Street lighting may shall be funded as part of the road improvements or may be funded through a Lighting and Landscaping District. Street lights for arterial

streets may be funded through one or more CFD's, or other funding source as specified in the Village One Infrastructure Financing Plan;

3. Public Facilities Village One Infrastructure Financing Plan - Policies

The following policies shall guide the development of the Facilities Village One Infrastructure Financing Plan:

- a) The full costs of the on-site and off-site public infrastructure and public services required to support development in Village One shall be funded from revenues generated by development within Village One. Public services shall also include reimbursement to the City of Modesto for the Planning and Engineering required for the Village One Specific Plan Area as permitted by State Gov. Code Sec. 65456(a).

Property owners within Village One will be required to pay their fair share of the expressways, Citywide circulation system improvements, local streets, neighborhood and community parks, water, sanitary sewer, storm drainage, schools, and public services that are required to serve the area.

The Village One Infrastructure Financing Plan will identify the specific revenue sources to pay for each of the infrastructure improvements and public services and will describe a cost allocation methodology to distribute the costs of the infrastructure and public services required to serve the Specific Plan area.

- b) The backbone infrastructure costs shall be allocated to property within Village One based on general principles of benefit received, with consideration to the financial feasibility of the proposed land use.

The Financing Plan will describe a cost allocation methodology to distribute the cost of the infrastructure required to serve Village One to the benefiting land uses.

Development projects will then be required to pay their fair share of these costs. Conditions for payment will be stated in the Financing Plan for each Precise Plan Area and may be implemented through the development agreement, or other means.

- e) The City shall create an Area of Benefit for Village One using the City's "Procedural Ordinance for Financing Public Facilities," Article 8 of Title 7 of Modesto City Code. As part of the formation of the Area of Benefit, a fair share cost allocation for public improvements required for the development of Village One will be established for each parcel.

All parcel owners who develop land within Village One will be required to pay their fair share of costs based on the cost allocation methodology.

The Area of Benefit is a method to establish the cost allocation of benefit of each parcel without forming an assessment district.

The formation of an Area of Benefit notifies all property owners that they cannot avoid paying their fair share of infrastructure costs by waiting until the infrastructure has been installed by other developers before developing their project. Payment of the Area of Benefit charge by those parcels developing late in the build out of Village One provides the funds to reimburse those properties within Village One that were built early in the process and were required to advance the costs of the infrastructure.

The Area of Benefit charge shall establish a contingent lien on those properties within Village One that wish to remain in their present land use. The Area of Benefit charge shall not be paid until development occurs on the parcel.

The required Area of Benefit charge may be satisfied by payment of a fee at the time of final map or building permit, or participation in a financing district such as a Mello Roos Community Facilities District or an Assessment District.

c) All property owners who develop land within Village One shall be required to pay their fair share of costs for installing and maintaining the necessary backbone infrastructure and community facilities based on the cost allocation and methodology contained in the Village One Infrastructure Financing Plan and the Village One Community Facilities District, and through payment of CFF, water, sewer and other City development fees. Payment of these fees and taxes provides the funds to construct and maintain the backbone infrastructure and community facilities necessary to serve the Specific Plan area, and to reimburse those property owners who build out of sequence and are required to advance the costs of the infrastructure or community facilities.

d) The City shall use pay as you go financing to the extent possible. Debt financing shall be used only when essential to provide facilities necessary to permit development or to maintain service standards.

Pay as you go financing reduces the net costs of development by minimizing financing costs.

Debt financing should be used only when essential to guarantee that facilities are constructed to meet the requirements of the infrastructure sequencing plan. Debt financing may also be used when it proves more cost effective than pay as you go financing due to interest rate advantages of tax exempt financing and tax deductibility of the repayments.

The pay-as-you-go financing will include development impact fees, develop/landowner dedications and exactions, and private sector financing. Certain facilities may be required in advance of development of specific areas to ensure an orderly development program or to mitigate potential traffic problems. A Mello-Roos Community Facilities District or an assessment district may be formed to issue bonds to pay for the facilities called for in this Specific Plan.

d) In 1996, the City created the Village One Community Facilities District No. 1996-1 (Village One CFD) in order to fund certain backbone infrastructure and community facilities for the Village One Specific Plan area. It is acknowledged, however, that there is a severe shortfall in the funding that was to be provided through the existing Village One CFD. It is the intent of the City Council to create a new special tax district (Tax Area B) within the Village One CFD which will encompass all undeveloped and unvested property within the Village One Specific Plan area, as more particularly shown in the public report to be prepared for Tax Area B. The purpose of Tax Area B will be to ensure the City is collecting all funds necessary to construct and maintain the backbone infrastructure and community facilities, in order to remedy the shortfall. The public report for Tax Area B and the Village One Infrastructure Financing Plan shall establish the cost allocation and methodology for establishing the tax structure for all currently undeveloped and unvested properties within the Specific Plan area. It is the further intent of the City Council that no new development may occur without forming or annexing to the Village One CFD at the tax rates established for Tax Area B, as shown in the public report to be developed for Tax Area B, and actually paying all applicable CFD taxes at the rate established by Tax Area B.

Based on the above history and statements of intent, no precise plan, final map, final development plan, building permit or other development entitlement for currently unvested property shall be deemed consistent with this Specific Plan until and unless the affected parcel is required to form or annex to the Village One CFD at the tax rates established for Tax Area B and pay all applicable CFD taxes at the rate established by the New District.

Therefore, as a condition of approval for development of any parcel within the Specific Plan area, the property owner and/or developer shall be required to take all actions necessary to impose all CFD taxes on the land as are required of parcels within the Tax Area B, including but not limited to annexation to the existing Village One CFD at the tax rates established for the new Tax Area B, securing and establishing the new special tax district as shown in the Village One Infrastructure Financing Plan and the public report for the new Tax Area B, or, if Tax Area B has already been established, annexing the property to the Village One CFD at the tax rates established for Tax Area B, and actually paying all CFD

taxes assessed based on the tax rates established for Tax Area B. The property owner shall be required to secure and establish Tax Area B or annex to the Village One CFD at the tax rates established for Tax Area B prior to recordation of a final map or issuance of a building permit, whichever occurs first, for any property located within Tax Area B. Payment of the CFD tax at the rates established for Tax Area B shall be required prior to issuance of a building permit. Each parcel shall also be required to pay all CFF, sewer and water fees and other development fees applicable to the property in accordance with City ordinances, resolutions, regulations, policies and procedures. Undeveloped properties may be required to annex to the new special tax district in accordance with the provisions of the Village One Infrastructure Financing Plan.

- e) — Development projects in the Specific Plan shall be required to fund any oversizing of facilities required by the City, subject to reimbursement from future developments benefiting from the oversizing.

Village One may be required to fund improvements outside the project area that will be subject to later reimbursement if other projects are approved for development. For example, Village One will be required to fund the widening of Sylvan Avenue. Half of this cost would be allocated to properties along the northern border of Sylvan Avenue.

The City may establish a reimbursement plan to Village One from other development areas, as part of the Financing Plan. These reimbursements would only be available if the other areas are permitted to develop at some future date.

- e) It is essential to provide the necessary backbone infrastructure and community facilities at the earliest possible opportunity in order to ensure orderly development, mitigate potential traffic issues, and maintain appropriate service standards for the Specific Plan area. Debt financing shall be used in the New District, and is the preferred method for funding the construction of remaining backbone infrastructure and community facilities necessary to serve the Specific Plan area. Debt financing is essential to guarantee that facilities will be constructed to meet the requirements of the infrastructure sequencing and prioritization plan.

Pay-as-you-go financing shall only be used to the extent it is applicable to payment of CFF, water and sewer fees and other development fees, and for the provision of in-tract subdivision infrastructure or on-site property improvements which only benefit a specific development.

- f) Developers of Precise Plan Areas properties that proceed ahead of the planned infrastructure sequencing plan contained in the Village One

Infrastructure Financing Plan will be required to pay the costs of extending the backbone infrastructure to their project, subject to future reimbursement, in accordance with the sequencing and prioritization contained in the Village One Infrastructure Financing Plan.

Because the Specific Plan permits property owners to keep their properties in the present land use if they wish, development in Village One may not occur in a sequential pattern. Some developments may need to construct roads, sanitary sewer, water, and storm drainage facilities through areas that remain undeveloped.

The development plan for Village One allows for this type of development but requires the developers to advance the funding needed to extend the infrastructure to their projects. Reimbursements will be available when the properties that were bypassed eventually develop based on the sequencing and prioritization contained in the Village One Infrastructure Financing Plan.

- g) The City shall require dedication of land for road improvements and construction of road improvements consistent with citywide policies, the Facilities Master Plan and the Village One Infrastructure Financing Plan.

Existing City policies govern the dedication of land for road improvements and require developers of a given road frontage to construct the first forty feet of the road, curb and gutter, measured from the property line.

- h) The City shall pay for the acquisition of dedicated property required for arterial streets and connectors that exceed 40 feet of the road, curb and gutter measured from the property line or 25 percent of the gross acreage of any existing parcel whichever is less. Arterial roads are defined as Oakdale Road, Sylvan Avenue, Roselle Avenue, Floyd Avenue, Briggsmore Avenue, and Claus Road. The City shall acquire parcels that are left without an any economic or beneficial use as a result of the land dedication requirements.

Land dedications for public improvement development projects are typically twenty percent to twenty-five percent of gross acreage. In Village One, some of the smaller parcels may require dedications in excess of typical requirements due to the layout of the backbone infrastructure. This policy protects those parcels from a disproportionate share of the burden for land dedications.

The acquisition of property covered by this policy will be funded through the Area of Benefit charge, and the cost spread to all developable parcels in Village One one or more CFD's or other funding sources as specified in the Public Facilities Finance Plan. The City may establish a list of small parcels unlikely to develop further that are adjacent to critical street segments for the purposes of property acquisition in conjunction with development of these street segments as part of the Village One Infrastructure Financing Plan.

i) ~~The City shall defer payment from owners of small parcels (less than ten acres) for the cost of infrastructure required to develop the Specific Plan Area, until the owners develop the parcels according to the land uses assigned by the Land Use Element.~~

ii) ~~Notwithstanding the provisions of Section d), the City may defer the requirement to form or annex to the Village One CFD for:~~

1) ~~Residential properties of less than ten acres, until there is a land division, addition of any dwelling unit or change of use, or~~

2) ~~The existing commercial properties in Precise Plan Area No. 2, as defined in Section IV.C.2.d) of the Specific Plan, until there is a change of use, physical expansion of the existing buildings, construction of new buildings, or division of property.~~

~~Parcel owners will be subject to charges for CFF, water and sewer fees, and other applicable development fees, and for specific infrastructure items that provide direct benefit to their property, such as a sanitary sewer line.~~

~~These parcels owners will be required to pay their fair share of the infrastructure costs at the time a development project for the parcel is approved, as established by the Area of Benefit charge CFD's for the Specific Plan area or the CFF, water and sewer fees, or other funding sources as specified in the Village One Infrastructure Financing Plan.~~

4. Long Term Facilities Management

a) City of Modesto

The City of Modesto will provide the majority of public services to the Specific Plan Area, including: Police, fire, parks, water, sewer, streets and roads, median landscaping, street lighting, storm drainage, and general government services.

b) Landscape and Lighting District and/or Other Assessment Districts
Community Facilities Districts:

~~A landscape and lighting district and/or other similar district(s)~~
Community Facilities Districts will be formed to manage and fund pedestrian and bicycle trails installation and maintenance, median landscaping installation and maintenance, landscape corridor installation and maintenance, and any other facilities deemed appropriate.

~~Regardless of the actual maintenance districts established to perform this maintenance, these services the City shall ensure that public facility~~

maintenance service provided to Village One residents does not diminish service capabilities to other parts of the City. ~~To achieve this objective, The landscaping and lighting district(s) and/or other assessment districts Community Facilities Districts shall include adequate provisions, to the satisfaction of the City Attorney and Public Works Engineering and Transportation Director, for general liability insurance, administration and adherence to safe design standards.~~

c) Property Home Owners Associations

~~Property Private Home Owners Associations may be created in some neighborhoods to manage and fund landscape corridor installation and maintenance, and alley maintenance when there are advantages over inclusion in the Landscape and Lighting District as a CFD obligation.~~

d) Sylvan Union School District

This district will provide elementary and middle schools to serve the Specific Plan area.

e) Modesto City Schools

This district will provide high schools to serve the Specific Plan areas.

f) Modesto Irrigation District

This district will provide electrical service to the Specific Plan Area. The district will also maintain water lines to irrigate lands that remain in agricultural use.

g) Pacific Gas and Electric

PG&E will provide natural gas service to the Specific Plan area.

h) Cable TV

~~Post-Newsweek AT&T Broadband (the current franchise holder) will provide Cable TV service to the Specific Plan area.~~

i) Garbage Collection

Modesto Disposal (the current franchise holder) will provide service to the Specific Plan area.

"Exhibit A"
Amended on 6/29/03
by Reso # 2003-33

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-178**

**A RESOLUTION APPROVING A MEMORANDUM OF UNDERSTANDING
(MOU) BETWEEN THE CITY OF MODESTO AND THE MODESTO
CONFIDENTIAL AND MANAGEMENT ASSOCIATION (MCMA) FOR A
TERM OF APRIL 8, 2003 THROUGH JUNE 27, 2005.**

WHEREAS, effective September 9, 2002, the City of Modesto (CITY) recognized the Modesto Confidential and Management Association (MCMA) as the official representative of a newly formed bargaining unit, and

WHEREAS, representatives of the CITY and the MCMA have met and conferred in good faith concerning wages, hours, terms and conditions of employment for employees in said bargaining unit, and

WHEREAS, pursuant to an Agenda Report dated April 1, 2003, a copy of which report is on file in the office of the City Clerk, the CITY and MCMA have reached agreement on their first Memorandum of Understanding (MOU) which, upon execution, shall be attached hereto and made a part hereof, and

WHEREAS, the MOU provides as follows:

SECTION 1. SALARY INCREASES. Across-the-board salary increases of 3.5% will be effective July 1, 2003 and 3.75% effective June 29, 2004.

SECTION 2. HEALTH, DENTAL AND VISION BENEFITS. The City's contribution to employees' Health, Dental and Vision coverage for employees with Family coverage shall be increased in the amount of \$85 per month effective August, 2003 and an additional \$75 per month increase effective August, 2004, in addition to previously authorized increases. These increases will bring the City's Family contribution to \$571.76 effective August, 2003 and to \$676.76 effective August, 2004.

SECTION 3. CERTIFICATION INCENTIVES. Employees in designated classifications and divisions who voluntarily obtain certain certifications beyond those required of their positions, will be eligible for certification pay ranging from 2.5% to 7.5% of salary, effective July 1, 2003. These certifications are in the areas of Water Distribution, Water Treatment, Wastewater Collection, Water Quality, Pest Control and Playground Safety.

SECTION 4. REGISTRATION FEES. The City shall pay registration and renewal fees for designated certifications and licenses, effective April 8, 2003.

SECTION 5. SHIFT PAY. The City shall pay shift pay in the amounts of \$5.00 and \$7.00 for Custodian Supervisor or Police Support Services Supervisor required to work swing or graveyard shifts, effective April 8, 2003.

SECTION 6. MASTERS DEGREE. The City shall pay an additional 1.5% of salary, effective June 29, 2004, for employees with Masters Degrees, subject to criteria as established by the City, and

WHEREAS, the Council considered this matter at its meeting of April 1, 2003,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the Memorandum of Understanding (MOU) between the City of Modesto and the Modesto Confidential and Management Association (MCMA), which covers a term from April 8, 2003 through June 27, 2005, and upon execution of same, a copy of the MOU will be on file in the office of the City Clerk.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 1st day of April, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Fisher, Frohman, Jackman, Keating, O'Bryant,

NOES: Councilmembers: Conrad, Mayor Sabatino

ABSENT: Councilmembers: None

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-179**

A RESOLUTION APPROVING A LEASE AGREEMENT BETWEEN THE CITY OF MODESTO AND GRACEADA MANSION PARTNERSHIP FOR THE LEASE OF A PORTION OF WELL SITE NO. 2 LOCATED AT 110 POPLAR AVENUE AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE LEASE AGREEMENT.

WHEREAS, when the Graceada Mansion Partnership built the office complex at 110 Poplar Avenue, additional parking was needed, and

WHEREAS, the City agreed to lease the Graceada Mansion Partnership a portion of Well Site No. 2, located across the alley from the office complex, for parking, and

WHEREAS, the original lease was for a ten-year period and expired in March, 1998, and

WHEREAS, a five-year extension of that original lease agreement expired March 3, 2003, and

WHEREAS, staff is supportive of continuing this lease agreement for an additional five-year period commencing on March 3, 2003, at the rental rate of \$130.00 per month,

NOW THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto that it hereby approves the Lease Agreement between the City of Modesto and Graceada Mansion Partnership for a portion of Well Site No. 2 located at 110 Poplar Avenue for a five-year period commencing on March 3, 2003.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the Lease Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8th day of April, 2003, by Councilmember Conrad, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2003-180

A RESOLUTION ACCEPTING THE PROJECT TITLED "EXPAND ATMS
NORTHEAST" AS COMPLETE

WHEREAS, a report has been filed by the Engineering & Transportation Director that the project titled "Expand ATMS Northeast", has been completed by Golden State Utility Company, in accordance with the contract agreement dated November 20, 2001,

NOW, THEREFORE, BE IT RESOLVED that the "Expand ATMS Northeast" project be accepted from said contractor, Golden State Utility Company, that the notice of completion be filed with the Recorder of Stanislaus County and that payment of amounts due totaling \$543,081.67 as provided in the contract, be authorized.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8th day of April, 2003, by Councilmember Conrad, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-182**

A RESOLUTION APPROVING A HOUSING MAINTENANCE PROGRAM (HMP) LOAN FOR PATRICIA LANGLEY AND EGIDIO M. OLIVEIRA, SECURED BY THE HOME AT 422 OAK STREET, IN THE AMOUNT OF \$89,170, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT.

WHEREAS, the City of Modesto has a Housing Maintenance Program (HMP) funded through Federal Community Development Block Grant (CDBG) and proceeds from previous loans, and

WHEREAS, the City Council must approve all loans under this program for over \$25,000, and

WHEREAS, staff recommends approving a loan to Patricia Langley and Egidio M. Oliveira, for a 5%, 15-year amortized loan with a minimum monthly payment of \$705.15, and

WHEREAS, this property is located in Target Area #4 and requires mandatory repairs, and

WHEREAS, the Housing Rehabilitation Loan Committee (HRLC) met on March 20, 2003, and supported and recommended the loan amount and terms,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the request for a Housing Maintenance Program (HMP) loan to Patricia Langley and Egidio M. Oliveira, secured by the home at 422 Oak Street, in the amount of \$89,170.00.

BE IT FURTHER RESOLVED that the recommendation for terms of the loan of 5% interest, a 15-year amortization and monthly payments of \$705.15 is hereby approved.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8th day of April, 2003, by Councilmember Conrad, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating,
O'Bryant, Mayor Sabatino

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-183**

**A RESOLUTION APPROVING ALLOCATION OF \$20,000 IN FUNDING
UNDER THE COMMUNITY DEVELOPMENT BLOCK GRANT
NEIGHBORHOOD CAPITAL IMPROVEMENT PROJECT PROGRAM**

WHEREAS, the City of Modesto receives a Community Development Block Grant (CDBG), and

WHEREAS, for Fiscal Year 2002-2003, \$50,000 has been allocated for the purposes of providing funding to neighborhood-based groups or individuals to do beautification or capital projects in their neighborhoods that will result in an improvement in the quality of life for the residents of that neighborhood, and

WHEREAS, \$20,000 has been allocated for two projects, leaving \$30,000 to be allocated, and

WHEREAS, a Request for Proposal (RFP) for up to \$10,000 per project was released, and

WHEREAS, three neighborhood-based groups or individuals submitted RFPs, and

WHEREAS, a review committee met on March 7, 2003, to review the proposals and submitted recommendations to the Citizen's Housing & Community Development Committee (CH&CDC), and

WHEREAS, the CH&CDC met on March 21, 2003, and supported and recommended the approval of the proposals for the Habitat for Humanity "United Communities" and Volunteer Center/PACE "Hands on the Future,"

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves funding in the amount of \$10,000 each for the Habitat for Humanity "United Communities" and Volunteer Center/PACE "Hands on the Future" proposals.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8th day of April, 2003, by Councilmember Conrad, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-184**

A RESOLUTION APPROVING ALLOCATION OF \$190,745 COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) FUNDING AND \$43,850 IN EMERGENCY SHELTER GRANT (ESG) FUNDING FOR FISCAL YEAR 2003-2004 AND AUTHORIZING THE CITY MANAGER OR HIS DESIGNEE TO SIGN AND EXECUTE THE AGREEMENTS.

WHEREAS, the City of Modesto receives several Federal grants from the United States Department of Housing and Urban Development (H.U.D.), and

WHEREAS, the City receives a Community Development Block Grant (CDBG) and an Emergency Shelter Grant (ESG), and

WHEREAS, the City receives these grants annually because of its population size, number of households living below the poverty level, and the number of housing units that are considered substandard, and

WHEREAS, a maximum of fifteen percent of the City's available CDBG entitlement grant may be allocated for the purposes of providing assistance that is consistent with the functions of CDBG funding to very-low, low and moderate income persons and families residing within the city limits of Modesto, and

WHEREAS, in Fiscal Year 2003-2004, fifteen percent of the City's available CDBG entitlement is \$433,500, and

WHEREAS, in 2000, the City Council recommended that the Modesto Police Department be allocated funds for the Crime Free Multi-Housing Project funded through CDBG Public Service funds for three years at \$150,000 per year, and

WHEREAS, staff has reduced the amount of CDBG funding available to non-profits by \$150,000 to \$283,500 in order to fund the third year of the Crime Free Multi-Housing Program, with \$260,633 in available funds recommended by the Citizens Housing and Community Development Committee (CH&CDC) for allocation to

qualified non-profit agencies, with the balance to be allocated through a second RFP process, and

WHEREAS, the City allocates one hundred percent of its annual ESG to local non-profit organizations for the purposes of providing assistance that is consistent with the functions of ESG funding to very-low, low and moderate income persons and families residing within the city limits of Modesto, and

WHEREAS, in Fiscal Year 2003-2004, the City's ESG grant is \$88,261, of which \$70,250 is recommended for allocation by the CH&CDC, with the balance of \$18,011 to be allocated through a second RFP process, and

WHEREAS, local non-profit organizations were invited to submit Requests for Proposals (RFPs) for the balance of available CDBG Public Service funds in the amount of \$283,500 and for \$88,261 in ESG funds, and

WHEREAS, at a public meeting on March 21, 2003, the Citizens Housing and Community Development Committee recommended funding as set forth in Exhibits "A" and "B" attached hereto and incorporated herein by reference, and

WHEREAS, since that time, staff has had cause to recommend that the \$69,888 in CDBG and \$26,400 in ESG funding recommended for allocation to Community Housing and Shelter Services be withheld pending further review of this organization,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the allocation of \$190,745 in Fiscal Year 2003-2004 Community Development Block Grant funding and \$43,850 in Emergency Shelter Grant funding as set forth in Exhibits "A" and "B" attached hereto and incorporated by reference.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Council hereby approves the allocation of \$150,000 to the Modesto Police Department for the Crime Free Multi-Housing Program.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the City Manager or his authorized designee is hereby authorized to execute any documents with respect to implementation of the allocation of Fiscal Year 2003-2004 CDBG/ESG Public Service Grant funding.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8th day of April, 2003, by Councilmember Conrad, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

The Citizens Housing and Community Development Committee is recommending a total allocation of \$260,633 in CDBG funding. Total CDBG funding available is \$283,500, leaving \$22,867 still remaining to allocate. However, staff is recommending that funding to Community Housing and Shelter Services be withheld pending investigation of issues that were brought to light after the CH&CC

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-185**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO
ISSUE A REQUEST FOR BIDS FOR WATER VALVES AND FIRE HYDRANTS**

WHEREAS, the Finance Department - Central Stores Division and the Operations and Maintenance Department - Water Division has requested the purchase of water valves and fire hydrants, and

WHEREAS, the term of any resulting contract(s) shall be from August 1, 2003, through July 31, 2004, with the City reserving the right to extend the contract for two one-year contract extensions, up to and including July 31, 2006, contingent upon the availability of continuous funding for said purpose, and

WHEREAS, the City's fire hydrants are being replaced at a rate of 30 per week, and

WHEREAS, water valves are used to replace existing valves which may be non-operable, to extend existing water lines, and for new service to new businesses, and

WHEREAS, by soliciting formal bids, the Finance Department - Purchasing Division will comply with Section 8-3.204 of Modesto Municipal Code, formal bid procedures, thereby obtaining the best value for the City,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. The City Clerk is hereby authorized to call for public competitive sealed bids for the furnishing of water valves and fire hydrants to be opened in the office of the City Clerk, 1010 10th Street, in the City of Modesto. The City Clerk is hereby directed to give notice inviting such sealed bids in the time, form and manner provided by law.

SECTION 2. After the bids are opened, they shall be tabulated and analyzed and a report submitted to the Council at its regular meeting.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8th day of April, 2003, by Councilmember Conrad, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2003-186**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO
ISSUE A REQUEST FOR BID (RFB) FOR ONE (1) FORD SUPER DUTY F550
TRUCK, WITH UTILITY BODY AND AERIAL MAN LIFT, FOR AN
ANTICIPATED COST OF \$85,537.00**

WHEREAS, the Operations and Maintenance Department-Fleet Services has requested the purchase of a Ford Super Duty F550 truck, with utility body and aerial man lift, and

WHEREAS, this new truck will be used in the repair of streetlights and traffic signals, and

WHEREAS, the Fleet Services Division has identified this vehicle as a critical need in the performance of its work, and

WHEREAS, the estimated total cost of this purchase is \$85,537.00, and

WHEREAS, the Modesto Municipal Code generally requires all purchases exceeding \$50,000 for materials and equipment of this type to be formally bid,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that formal solicitation of bids for a Ford Super Duty F550 truck is hereby approved as follows:

SECTION 1. The City Clerk is hereby authorized to call for public competitive sealed bids for a Ford Super Duty F550 truck to be opened in the office of the City Clerk, 1010 10TH Street, in the City of Modesto. The City Clerk shall be directed to give notice inviting such sealed bids in the time, form, and manner provided by law.

SECTION 2. After the bids are opened, they shall be tabulated and analyzed and a report submitted to Council.

MODESTO AND DAVID G. AND AUDREY A. GRAHAM FOR THE
ACQUISITION OF PROPERTY, BEING A PORTION OF ASSESSORS PARCEL
NO. 085-0246, FOR THE SHARON AVENUE WIDENING PROJECT**

WHEREAS, on March 12, 2002, the City Council of the City of Modesto directed staff to enter into negotiations with the Grahams to purchase the necessary right-of-way for the widening of Sharon Avenue to improve ingress and egress to the adjacent school site, and

WHEREAS, right of way needs to be acquired for this widening project, and

WHEREAS, as a part of the construction process, a ten-foot (10') temporary construction easement is required from the Grahams, and

WHEREAS, agreements are needed for the acquisition of the needed right of way and temporary construction easement.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that Agreements between City of Modesto and David G. and Audrey A. Graham for the acquisition of property and use of a temporary construction easement, being a portion of Assessors Parcel No. 085-0246, for the Sharon Avenue widening project are hereby approved.

BE IT FURTHER RESOLVED THAT the execution of said Agreements by the City Manager on behalf of the City of Modesto is hereby authorized.

**A RESOLUTION APPROVING AGREEMENT BETWEEN THE CITY OF
MODESTO, SYLVAN UNION SCHOOL DISTRICT AND GREG AVERY, INC.
FOR ACQUISITION OF PROPERTY, CONSTRUCTION OF STREET
IMPROVEMENTS AND SEWER EXTENSIONS FOR THE SHARON AVENUE
WIDENING PROJECT**

WHEREAS, Sylvan Union School District (“District”) owns real property located at the southwest intersection of Sharon Avenue and Fine Avenue (“Property”), and

WHEREAS, District proposes to construct a new elementary school on said Property, and

WHEREAS, Greg Avery, Inc. (“Developer”) is in the process of developing a residential subdivision at the northeast corner of Fine Avenue and Sharon Avenue, commonly known as Banyon Estates (“Subdivision”), and

WHEREAS, as a condition of developing said Subdivision and in order to provide sewer service to said Subdivision, Developer is required to extend the 10” sewer line along Sharon Avenue, approximately three-hundred feet (300’) to the intersection of Sharon Avenue and Fine Avenue, and

WHEREAS, in conjunction with the construction of the school, District and the City of Modesto desire that a full width street be constructed along the north boundary of said Property, and

WHEREAS, a portion of the street improvements are located on said Property and also on a portion of a private property owned by David and Audrey Graham (“Grahams”), and

WHEREAS, City has negotiated a property acquisition agreement with the Grahams to acquire 0.23 acres (10,228 square feet) of Grahams property for a public

utility easement and street right of way and City and Developer have agreed to share in the property acquisition cost, and

WHEREAS, Developer has agreed to construct the sewer extension along Sharon Avenue at Developer's sole expense and District has agreed to construct the street improvements along Sharon Avenue at District's sole expense.

WHEREAS, an Agreement is needed to approve the acquisition of the needed right of way, the sewer extension and the street improvements.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Agreement between the City of Modesto, Sylvan Union School District and Greg Avery, Inc. for the acquisition of property, construction of street improvements and a sewer extension for the Sharon Avenue widening project is hereby approved.

BE IT FURTHER RESOLVED THAT the execution of said Agreement by the City Manager on behalf of the City of Modesto is hereby authorized.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003 – 191**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MODESTO
FINDING THAT THE PROJECT LOCATED AT SHARON AVENUE AND FINE
AVENUE IN MODESTO, CALIFORNIA IS CONSISTENT WITH THE FINAL
PROGRAM ENVIRONMENTAL IMPACT REPORT FOR THE VILLAGE ONE
SPECIFIC PLAN (SCH #90020181)**

WHEREAS, on September 11, 1990, the Modesto City Council certified a Final Program Environmental Impact Report for the Village One Specific Plan (SCH# 90020181), as modified by the Supplemental EIR. This Program EIR analyzed the impacts of build-out of the Village One Specific Plan, which includes the area in which this project is proposed, and

WHEREAS, the City's Community and Economic Development Department reviewed the project to determine if said project might have a significant effect on the environment other than those effects identified in the EIR, and

WHEREAS, by the Initial Study, attached hereto as "**Exhibit A**" and made a part hereof by this reference, findings have been made that the proposed project is within the scope of the Final Program Environmental Impact Report for the Village One Specific Plan (SCH# 90020181), as modified by the Supplemental EIR.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Modesto that the City has completed the Initial Study for the widening of Sharon Avenue at Fine Avenue and the City Council hereby makes the following findings:

1. No substantial changes are proposed in the project which will require major revisions of the environmental impact report.
2. There are no substantial changes proposed in the project that will require major revisions of the Final Program Environmental Impact Report for the Village One Specific Plan, as modified by the Supplemental EIR.
3. There are no substantial changes occurring with respect to the circumstances under which the project is being undertaken which will require major revisions in the Final Program Environmental Impact Report for the Village One Specific Plan, as modified by the Supplemental EIR.

4. No new information, which was not known and could not have been known at the time the Final Program Environmental Impact Report for the Village One Specific Plan, as modified by the Supplemental EIR, was certified as complete, has become available.
5. This initial study provides substantial evidence to support findings 1, 2, and 3 above.
6. There are no new or different mitigation measures or alternatives which would substantially reduce one or more significant effects on the environment. All relevant mitigation measures have been applied to this project.
7. Said Project is in substantial conformance with the Final Program Environmental Impact Report for the Village One Specific Plan, as modified by the Supplemental EIR.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8th day of April, 2003, by Councilmember Conrad, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

**City of Modesto
Initial Study**

ACQUISITION OF THIRTY FIVE (35) FEET OF STREET RIGHT-OF-WAY AND TEN (10) FEET OF TEMPORARY CONSTRUCTION EASEMENT ON SHARON AVENUE, FROM FINE AVENUE TO THREE HUNDRED (300) FEET WEST OF FINE AVENUE, IN THE VILLAGE ONE SPECIFIC PLAN AREA

EA/E&T 2003-03
March 6, 2003

I. PURPOSE

On September 11, 1990, the Modesto City Council certified a Final Program Environmental Impact Report for the Village One Specific Plan (SCH# 90020181). This Program EIR analyzed the impacts of build-out of the Village One Specific Plan, which includes the area in which this project is proposed.

Subsequently, on May 24, 1994, the City Council certified a Supplement to the Village One Program EIR. This supplement updated and modified the original EIR.

Section 15168 (c) (2) of the California Environmental Quality Act (CEQA) Guidelines states that for a Program EIR if the agency finds that pursuant to Section 15162, no new effects could occur or no new mitigation measures would be required, the agency can approve the activity as being within the scope of the project covered by the program EIR, and no new environmental document would be required.

Section 15162 of the CEQA Guidelines states that when an EIR has been certified for a project no subsequent EIR shall be prepared for that project, if the following findings can be made:

- A. No substantial changes are proposed in the project, which will require major revisions of the environmental impact report.
- B. No substantial changes are occurring with respect to the circumstances under which the project is being undertaken which will require major revisions in the environmental impact report.
- C. No new information, which was not known and could not have been known at the time the environmental impact report was certified as complete, becomes available.

The purpose of this Initial Study is to provide the substantial evidence for the above findings.

II. PROJECT DESCRIPTION

- A. Project title:
Acquisition of Thirty Five (35) Feet of Street Right-of-Way and Ten (10) Feet of Temporary Construction Easement on Sharon Avenue, from Fine Avenue to Three Hundred (300) feet West of Fine Avenue, in the Village One Specific Plan area.
- B. Lead agency name and address:
City of Modesto, PO Box 642, Modesto, CA 95353
- C. Contact person and phone number:
Robert Granberg, City of Modesto, Engineering and Transportation Department, (209) 577-5259.
- D. Project Location:
The Village One Specific Plan area between Sylvan and Briggsmore Avenues and Claus Road and Roselle Avenue.
- E. Project Sponsor:
City of Modesto, 1010 Tenth Street, Modesto, CA 95354
- F. General Plan Designation:
Village Residential (VR)
- G. Current Zoning:
Specific Plan-Holding (SP-O) Zone
- H. Description of Proposed Project:
Acquisition of thirty five (35) feet of street right-of-way and ten (10) feet of construction easement on Sharon Avenue, between Fine Avenue and three hundred (300) feet west of Fine Avenue to facilitate the widening of Sharon Avenue to its full Village Connector street width in the Village One Specific Plan Area. The right-of-way will be acquired from the property depicted on APN 085-33-68, as shown on the attached exhibit.
- I. Surrounding Land Uses:
Existing ranchette properties and developing single-family subdivisions surround the subject parcels in the project area.
- J. Other Public Agencies whose approval is required:
None

III. ANALYSIS OF CONFORMANCE WITH SECTION 15162 FINDINGS

- A. No substantial changes are proposed in the project which will require major revisions of the environmental impact report.

Following is an analysis of how there are no substantial changes proposed in the project which would require major revisions of the Village One Program EIR, as modified by the Supplemental EIR:

1. Traffic and Circulation

Impacts to traffic and circulation are discussed on pages III-40 through III-44 of the Supplemental EIR. The proposed public right-of-way acquisition is consistent with and proposes no major revisions to the Village One Specific Plan in alignment, land use and intensity. Therefore, impacts to traffic and circulation for this project are consistent with the analysis presented in the Village One Specific Plan Program EIR, as modified by the Supplemental EIR.

2. Degradation of Air Quality

Impacts to air quality are analyzed on pages III-45 through III-54 of the Supplemental EIR. Air quality impacts for this project are directly related to traffic impacts. The proposed public right-of-way acquisition is consistent with and proposes no major revisions to the Village One Specific Plan in alignment, land use and intensity. Therefore, the project is consistent with the Village One Specific Plan EIR. Project air quality impacts are thus consistent with the analysis presented in the Village One Specific Plan Program EIR, as modified by the Supplemental EIR.

3. Generation of Noise

Noise impacts are analyzed on pages III-55 through III-67 of the Supplemental EIR. The proposed public right-of-way acquisition is consistent with and proposes no major revisions to the Village One Specific Plan in alignment, land use and intensity. Therefore, the noise impacts of this project are consistent with the analysis presented in the Village One Specific Plan Program EIR, as modified by the Supplemental EIR.

4. Vegetation and Wildlife

Impacts to vegetation and wildlife are analyzed on pages III-68 through III-79 of the Supplemental EIR. The proposed public right-of-way acquisition is consistent with and proposes no major revisions to the Village One Specific Plan in alignment, land use and intensity. Therefore, the impacts to vegetation and wildlife of this project are consistent with the analysis presented in the Village One Specific Plan Program EIR, as modified by the Supplemental EIR.

5. Land Use

Land use impacts are analyzed on pages III-80 through III-94 of the Supplemental EIR. The proposed public right-of-way acquisition is consistent with and proposes no major revisions to the Village One Specific Plan in alignment, land use and intensity. Therefore, the land use impacts of this project are consistent with the analysis presented in the Village One Specific Plan Program EIR, as modified by the Supplemental EIR.

6. Population, Employment and Housing

Impacts to population, employment and housing are analyzed on pages III-95 through III-99 of the Supplemental EIR. The proposed public right-of-way acquisition is consistent with and proposes no major revisions to the Village One Specific Plan in alignment, land use and intensity. Therefore, the impacts to population, employment and housing of this project are consistent with the analysis presented in the Village One Specific Plan Program EIR, as modified by the Supplemental EIR.

7. Urban Design and Visual Quality

Impacts to urban design and visual quality are analyzed on pages III-101 through III-103 of the Supplemental EIR. The proposed public right-of-way acquisition is consistent with and proposes no major revisions to the Village One Specific Plan in alignment, land use and intensity or design. Therefore, the impacts to urban design and visual quality of this project are consistent with the analysis presented in the Village One Specific Plan Program EIR, as modified by the Supplemental EIR.

8. Geology and Soils

Impacts to geology and soils are analyzed by the Supplemental EIR on pages III-105 through III-108. The proposed public right-of-way acquisition consistent with and proposes no major revisions to the Village One Specific Plan in alignment, land use and intensity. Therefore, the impacts to geology and soils of this project are consistent with the analysis presented in the Village One Specific Plan Program EIR, as modified by the Supplemental EIR.

9. Hydrology

Hydrology impacts are analyzed on pages III-109 through III-119 of the Supplemental EIR. The proposed public right-of-way acquisition is consistent with and proposes no major revisions to the Village One Specific Plan in alignment, land use and intensity. Therefore, the impacts to hydrology of this project are consistent with the analysis presented in the Village One Specific Plan Program EIR, as modified by the Supplemental EIR.

10. Public Services

Impacts to public services are analyzed on pages III-121 through III-158 of the Supplemental EIR. The proposed public right-of-way acquisition is consistent with and proposes no major revisions to the Village One Specific Plan in alignment, land use and intensity. Therefore the proposed project would not create any additional demand for public services that are in excess of those analyzed by the Village One EIR. Therefore, the impacts to public services of this project are consistent with the analysis presented in the Village One Specific Plan Program EIR, as modified by the Supplemental EIR.

11. Fiscal Impacts

Fiscal impacts are analyzed on pages III-159 through III-160 of the Supplemental EIR. The proposed public right-of-way acquisition is consistent with and proposes no major revisions to the Village One Specific Plan in alignment, land use and intensity. Therefore, the fiscal impacts of this project are consistent with the analysis presented in the Village One Specific Plan Program EIR, as modified by the Supplemental EIR.

12. Cumulative Impacts

Cumulative impacts are analyzed on page III-161 of the Supplemental EIR. The proposed public right-of-way acquisition is consistent with and proposes no major revisions to the Village One Specific Plan in alignment, land use and intensity. Therefore, the cumulative impacts of this project are consistent with the analysis presented in the Village One Specific Plan Program EIR, as modified by the Supplemental EIR.

13. Growth Inducing Impacts

Growth inducing impacts are analyzed by the Supplemental EIR on page III-161. The proposed public right-of-way acquisition is consistent with and proposes no major revisions to the Village One Specific Plan in alignment, land use and intensity. Therefore, the growth-inducing impacts of this project are consistent with the analysis presented in the Village One Specific Plan Program EIR, as modified by the Supplemental EIR.

IV DISCUSSION OF SECTION 15162 FINDINGS

A. No substantial changes are proposed in the project which will require major revisions of the environmental impact report.

The Village One Program EIR was certified by the Modesto City Council on September 11, 1990, and the Supplemental EIR was certified on May 24, 1994. The proposed Sharon Avenue right-of-way acquisition remains consistent with Figure II-27 of the Village One Specific Plan. Therefore, there have been no substantial changes with respect to the development or infrastructure proposed for the Village One project under which this project is being undertaken which will require major revisions in the Village One Program EIR.

B. No substantial changes are occurring with respect to the circumstances under which the project is being undertaken which will require major revisions in the environmental impact report.

The Village One Program EIR was certified by the Modesto City Council on September 11, 1990, and the Supplemental EIR was certified on May 24, 1994. The proposed Sharon Avenue right-of-way acquisition remains consistent with Figure II-27 of the Village One Specific Plan. Therefore, there have been no

substantial changes with respect to the circumstances under which this project is being undertaken which will require major revisions in the Village One Program EIR.

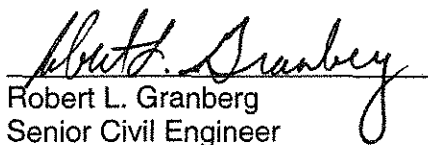

- C. No new information, which was not known and could not have been known at the time the environmental impact report was certified as complete, becomes available

The Village One Program EIR was certified by the Modesto City Council on September 11, 1990, and the Supplemental EIR was certified on May 24, 1994. The proposed Sharon Avenue right-of-way acquisition remains consistent with Figure II-27 of the Village One Specific Plan. Therefore, there is no new information, which was not known at the time the Program EIR was certified, that has become available, that would change the conclusions of the EIR.

V. **CONCLUSIONS/DETERMINATIONS OF FINDINGS**

- A. This project is within the scope of the project covered by the Village One Program EIR, as modified by the Supplemental EIR.
- B. There are no substantial changes proposed in the project, which will require major revisions of the Village One Program EIR, as modified by the Supplemental EIR.
- C. There are no substantial changes occurring with respect to the circumstances under which the project is being undertaken which will require major revisions in the Village One Program EIR, as modified by the Supplemental EIR.
- D. No new information, which was not known and could not have been known at the time the Village One Program EIR, as modified by the Supplemental EIR, was certified as complete, has become available.
- E. This initial study provides substantial evidence to support findings A, B and C, above.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-192**

**A RESOLUTION CALLING AN ELECTION FOR THE PURPOSE OF
SUBMITTING THE LEVY OF THE SPECIAL TAX TO THE QUALIFIED
ELECTORS OF THE TERRITORY PROPOSED TO BE ANNEXED TO
COMMUNITY FACILITIES DISTRICT NO. 1998-2 (Carver-Bangs/Pelandale-
Snyder, Annexation #2)**

WHEREAS, on February 25, 2003, the City Council adopted Resolution No. 2003-106 (the "Resolution of Intention to Annex") indicating its intention to annex certain territory (the "Annexed Territory") to Community Facilities District No. 1998-2 (the "District") in order to finance certain public facilities (the "Facilities") and services (the "Services") and to authorize the levy of a special tax (the "Special Tax") within the Annexed Territory, pursuant to Chapter 3.5 of Part 1 of Division 2 of Title 5 (commencing with Section 53311) of the California Government Code, commonly known as the "Mello-Roos Community Facilities Act of 1982" (the "Act"), and

WHEREAS, a copy of the Resolution of Intention to Annex, describing the territory proposed to be annexed, the list of Facilities and Services to be financed by the Annexed Territory, and the Special Tax to be levied in the Annexed Territory, and setting the hearing thereon, is on file with the City Clerk , and

WHEREAS, notice of the hearing was duly published as required by law, as evidenced by the proof of publication on file with the City Clerk, and

WHEREAS, a hearing of the City Council was held on April 1, 2003, as required by law related to the proposed annexation of territory and the levy of the Special Tax within the Annexed Territory and all other matters set forth in the Resolution of Intention to Annex, and

WHEREAS, at the hearing all persons desiring to be heard on all matters pertaining to the proposed annexation of territory and the levy of the Special Tax therein and all other matters set forth in the Resolution of Intention to Annex, including all interested persons or taxpayers for or against the proposed annexation of territory and the levy of the Special Tax therein were heard and considered, and a full and fair hearing was held thereon, and

WHEREAS, at the hearing evidence was presented to the City Council on the matters before it, and the City Council at the conclusion of the hearing was fully advised as to all matters related to the proposed annexation and the levy of the Special Tax therein and all other matters set forth in the Resolution of Intention to Annex, and

WHEREAS, written protests against the proposed annexation and the levy of the Special Tax therein have not been filed with the City Clerk by fifty percent or more of the registered voters, or six registered voters, whichever is more, residing within either the District or the Annexed Territory proposed to be annexed to the District, or the owners of one-half or more of the area of land in either the territory in the District or the Annexed Territory and not exempt from the Special Tax, and

WHEREAS, the City Clerk has concurred in the election date herein set forth for the election herein called,

NOW THEREFORE, BE IT RESOLVED by the City Council of the City of Modesto that:

SECTION 1. The foregoing recitals are true and correct.

SECTION 2. All prior proceedings taken with respect to the annexation of territory to the District and the levy of the Special Tax therein, were valid and in conformity with the requirements of the Act. This determination shall be final and conclusive upon all persons.

SECTION 3. The proposed annexation of territory and the levy of the Special Tax therein have not been precluded by majority protest pursuant to Section 53339.5 of the Act.

SECTION 4.

- (a) The Facilities to be financed by the Annexed Territory are set forth in **EXHIBIT "A"** attached hereto and incorporated herein by this reference.
- (b) The Facilities are necessary to meet the increased demands placed upon the City and other local agencies operating within the Annexed Territory as a result of development occurring therein.
- (c) No land within the Annexed Territory is devoted primarily to agricultural, timber or livestock uses or being used for the commercial production of agricultural, timber or livestock products.

SECTION 5.

- (a) The Services to be financed by the Annexed Territory are set forth in **EXHIBIT "A"** attached hereto and incorporated herein by this reference, including expenses incidental thereto as authorized by Section 53313 of the Act. The

Services are governmental services that the City is authorized by law to provide to the extent that they are in addition to those provided in the Annexed Territory before the territory was annexed to the District.

- (b) The Services are necessary to meet the increased demands placed upon the City and other local agencies operating within the area of the Annexed Territory as a result of development occurring in the Annexed Territory.

SECTION 6. The Public Report related to the Facilities and Services shall be a part of the record in these proceedings.

SECTION 7.

- (a) As stated in the Resolution of Intention to Annex, it is the intention of the City Council, subject to the approval of the qualified electors of the Annexed Territory, to annex territory to the District and levy a Special Tax within the Annexed Territory. Specifically, upon such approval the Council shall levy the Special Tax upon the Annexed Territory.
- (b) The rate, method of apportionment, and manner of collection of the special tax, in sufficient detail to allow each landowner or resident within the Annexed Territory to estimate the maximum amount that he or she will have to pay, is described in EXHIBIT "A" attached hereto and incorporated herein by this reference.

- (c) The Special Tax as apportioned to each parcel pursuant to EXHIBIT "A" is based on the cost of making the Facilities and Services available to each parcel of the Annexed Territory, or other reasonable basis, and is not based on or upon the ownership of real property.

There is no ad valorem property tax currently being levied on property within the Annexed Territory for the exclusive purpose of making lease payments or paying principal or interest on any other indebtedness incurred to finance the construction of capital facilities which are the same as are to be provided by the Facilities to be financed by the Annexed Territory.

SECTION 8. A special election (the "Election") is hereby called as a mail ballot election on the proposition of levying the Special Tax within the Annexed Territory. The City Council further directs that this Resolution shall constitute the notice of the Election on the above proposition. However, the giving of such notice is waived if the City Clerk shall receive unanimous consent to such waiver from the Landowners.

SECTION 9. It is hereby found that there were fewer than twelve registered voters registered to vote within the Annexed Territory on any one day during the ninety days preceding the close of the protest hearing. Pursuant to Section 53326 of the Act, the vote shall be by the landowners of the Annexed Territory and each landowner who is the owner of record at the close of the Hearing, or the authorized representative thereof, shall have one vote for each acre or portion of an acre of land that he or she owns within the Annexed Territory. The number of votes to be voted by a particular landowner shall be specified on the ballot provided to that landowner.

SECTION 10. If the City Clerk shall have received appropriate waivers of time limits and other requirements pertaining to the conduct of the Election by each of the owners of land included in the Annexed Territory (collectively, the "Landowners") on or before Tuesday, the 8th day of April, 2003, the Election shall be held on that day, or on such earlier date on which the City Clerk shall have received such waivers and completed ballots. Otherwise, the Election shall be held on the first Tuesday after that date which is 90 days after the date on which this Resolution is adopted.

The Election shall be conducted by the City Clerk in the manner required by this Resolution, the Act and applicable laws. Receipt by the City Clerk of this Resolution, a certified map of sufficient scale and clarity to show the boundaries of the Annexed Territory and a sufficient description to allow the City Clerk to determine the boundaries of the Annexed Territory within three business days after the adoption of this Resolution shall be conclusively evidenced by the signature of the City Clerk on the certificate of adoption relating to this Resolution.

In accordance with Section 53326 of the Act, the ballots for the election shall be distributed by mail or by personal service by the City Clerk, with return postage prepaid, to each Landowner, or Landowner's authorized representative for the purpose of voting its interests at the special election, within the Annexed Territory. The City Clerk shall certify the proper mailing or service of ballots by an affidavit, which shall constitute conclusive proof of mailing or service in the absence of fraud. The voted ballots shall be returned to the City Clerk in person or by mail, courier, messenger or other means of delivery not later than 7:00 p.m. on the day of the Election.

SECTION 11. Unless waived with the unanimous consent of all the Landowners, there shall be prepared and included in the ballot material provided to each voter an impartial analysis pursuant to Section 5011 of the California Elections Code (the "Elections Code") and arguments and rebuttals, if any, pursuant to Sections 5012 to 5016, inclusive, and 5025 of the Elections Code.

SECTION 12. The Annexed Territory shall constitute a single election precinct for the purpose of holding the Election.

SECTION 13. The City Clerk is hereby authorized to take any and all steps necessary for the holding of the Election. The City Clerk shall perform and render all services and proceedings incidental to and connected with the Election. These services shall include, but not be limited to, the following activities as are appropriate to the Election:

1. Cause to be printed the requisite number of official ballots, tally sheets and other necessary forms;
2. Furnish and address to mail or personally deliver the official ballots to the qualified electors of the Annexed Territory;
3. Cause the official ballots to be mailed or personally delivered, as required by law;
4. Receive the returns of the Election and supplies;
5. Sort and assemble the election material and supplies in preparation for the canvassing of the returns;
6. Canvass the returns of the Election;
7. Furnish a tabulation of the number of votes given in the Election;

8. Make all arrangements and take the necessary steps to pay all costs of the election incurred as a result of services performed for the Annexed Territory and pay costs and expenses of all election officials; and

9. Conduct and handle all other matters relating to the proceedings and conduct of the Election in the manner and form as required by law.

SECTION 14. Following the Election the City Clerk shall present a report to the City Council with the Election results. The Council shall then make a determination as to whether two-thirds or more of the votes cast are in favor of levying the Special Tax within the Annexed Territory. If the Council determines that two-thirds or more of the votes cast are in favor of the Special Tax, the City Council may levy the Special Tax in the Annexed Territory in the amount and for the purposes specified in the Resolution of Intention to Annex. The Special Tax may be levied in the Annexed Territory at the rate and may be apportioned in the manner specified in the Resolution of Intention to Annex and in the attached EXHIBIT "A".

SECTION 15. The City Clerk, in accordance with Sections 3114.5 and 3117.5 of the Streets and Highways Code, shall record an amendment to the Notice of Special Tax Lien originally recorded pursuant to Section 3114.5 of the California Streets and Highways Code in the office of the County Recorder of the County of Stanislaus as Document No. 98-0118243-00 on December 22, 1998, and subsequently amended by Document No. 99-0060033-00 on June 16, 1999.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8th day of April, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating,
O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

Appendix C: Detailed Facility Cost Estimates

I. BACKGROUND

Community Facilities District (CFD) No. 1998-2 is being formed to provide a funding and reimbursement mechanism for public facilities and services required to serve the Carver-Bangs and Pelandale-Snyder Specific Plans in the City of Modesto. Portions of both Specific Plan areas are included within the initial boundaries of the CFD, and the remainder of the property within both Plan areas is expected to annex into the CFD at a later date.

As a condition of development of the Specific Plan areas, the developers are required to install various public improvements which will serve the increased population generated from the projects. Many of these improvements must be provided in the early stages of development and, therefore, the first developers to build within the projects must install the improvements and receive fee credits or reimbursements in exchange for the facilities. CFD No. 1998-2 is the vehicle that will be used to ensure that all landowners in the Specific Plans pay their fair share of the public improvements. In addition, the CFD will generate funding for ongoing maintenance of landscaping and open space within the project areas.

Following is a brief description of both projects:

A. Carver-Bangs Specific Plan

On April 1, 1997, the City Council of the City of Modesto approved Resolution No. 97-161, thereby adopting the Carver-Bangs Specific Plan. The Specific Plan was subsequently amended by City Council Resolution 97-633. Carver-Bangs is a proposed 160-acre project bounded on the east by Carver Road, on the North by Bangs Avenue, on the south by the Pelandale-Snyder Specific Plan (discussed further below), and on the west by the Kiernan Business Park area. The Carver-Bangs Specific Plan will be developed under the City's Village Residential guidelines, which will yield approximately 800 single family residential units.

B. Pelandale-Snyder Specific Plan

The Pelandale-Snyder Specific Plan was approved by the City Council on January 16, 1996 by the adoption of Resolution No. 95-16, and was subsequently amended by City Council Resolutions 97-136 and 97-139. The Specific Plan area is bounded by Dale Road on the west, the extension of Pelandale Road on the north, Union Pacific Railroad on the east, and the Modesto Irrigation District canal and Snyder Avenue on the South. Approximately 227 acres of the project are designated Single Family Residential (SFR), and 57 acres are designated Multi-Family Residential; in total, 2,613 residential dwelling units are expected at buildout of the Specific Plan. In addition, 36 acres of the Specific Plan area will be used for an elementary school site, a City park, and a church.

II. STRUCTURE OF COMMUNITY FACILITIES DISTRICT No. 1998-2

A. Introduction

A Mello-Roos CFD may provide for the purchase, construction, expansion or rehabilitation of any real or tangible property, including public facilities and infrastructure improvements, with an estimated useful life of five (5) years or longer, which is necessary to meet increased demands placed upon local agencies as a result of development or rehabilitation occurring within the CFD. In addition, a CFD may pay for various public services and maintenance of public improvements, including parkways and open space.

The Resolution of Intention to Establish CFD No. 1998-2 (Resolution No. 98-582) was adopted by the City Council on November 3, 1998. After a public hearing and a successful election by landowners within the CFD, the CFD will be formed and the levy of a special tax will be authorized.

B. Boundaries of CFD 1998-2

As mentioned above, the initial boundaries of the CFD include portions of both the Carver-Bangs and Pelandale-Snyder Specific Plans. Additional property is expected to annex into the CFD in future years as development in the area expands. It is anticipated that property subsequently annexed into the CFD will be subject to the same special tax formula as property in the CFD from the start, with a maximum Facilities Special Tax (discussed further below) assigned to the property when it is annexed. Property in the Carver-Bangs Specific Plan is included within Tax Area A of the CFD, and parcels in Pelandale-Snyder make up Tax Area B of the CFD. A separate maximum tax has been calculated for each tax area, as discussed further in Section C below.

The boundaries of the CFD are shown on a boundary map that was approved by the City Council and recorded in Volume 3, page 5 of the Book of Maps of Assessment Districts and Community Facilities Districts in the Stanislaus County Recorder's Office. A copy of the CFD boundary map is provided as Appendix A of this CFD Public Report.

C. CFD Special Tax Structure

1. Facilities Special Tax

Each year, special taxes will be levied and collected from parcels within the CFD to pay costs associated with storm drainage and road improvements, as well as maintenance of these improvements (authorized facilities and maintenance costs are discussed in more detail below). The Rate and Method of Apportionment of Special Tax and Reimbursements ("RMA"), which describes in detail how the tax will be allocated among properties in the CFD, is included as Appendix B of this report.

As explained in Sections D and E of the RMA, two different special taxes will be levied within the CFD. First, a "Facilities Special Tax" will be levied to pay for capital improvements and appurtenant expenses, such as design, planning, engineering and inspection. The entire Facilities Special Tax will be collected prior to a final building permit inspection being completed or a certificate of occupancy being issued for new construction on a parcel within the CFD. Because each Specific Plan area is responsible for only the facilities required to serve that area, separate "tax areas" were established within the CFD to avoid any crossover of responsibility for the funding of required infrastructure. A separate Facilities Special Tax has been determined for each assessor's parcel that was included within each tax area at the time CFD No. 1998-2 was formed; Attachment 2 of Appendix B identifies the maximum Facilities Special Tax assigned to each parcel.

Section C.1 of the RMA (Appendix B) explains how the Facilities Special Tax obligation assigned to each original assessor's parcel will be reallocated when subdivision occurs. Regardless of changes in land use in future years, the maximum Facilities Special Tax revenues that can be collected from property in the CFD will never be reduced. In January 2002 and each January thereafter, the maximum Facilities Special Tax assigned to each assessor's parcel will be increased by four percent of the amount in effect in the prior year.

Section D of Appendix B sets forth a credit/reimbursement program which allows developers who have constructed and dedicated public improvements to take credits against the Facilities Special Taxes that would otherwise be paid until such credits equal the cost set forth in Appendix C of this CFD Public Report for the public improvements provided by the developer. Regardless of the actual cost incurred by the developer for construction of the public improvement(s), credits against the Facilities Special Tax can be taken until the amount credited is equal to the facility cost shown in Appendix C for that improvement(s). If the developer's project is built out and a balance remains to be credited, the developer will instead receive a cash reimbursement from Facilities Special Taxes collected from other property owners in the CFD until the combined amount of fee credits and cash reimbursements is equal to the cost of the public improvement(s) as shown in Appendix C of this report. All costs and reimbursements are subject to a four percent increase in January 2002 and each January thereafter.

Facility Special Tax credits and reimbursements will be applied based on a specified order of priority, which is identified in Attachment 1 of Appendix B. Until all facilities of a higher priority have been fully funded, a developer who builds an improvement that is of a lower priority will not receive fee credits or reimbursements. The order of priority is specific to each tax area, which means facilities of a lower priority may be funded in one tax area even if the higher priority facilities in the other tax area have not yet been fully funded. Appendix B provides a more detailed description of the credit/reimbursement program.

2. *Maintenance Special Tax*

The second special tax that can be levied in the CFD is the "Maintenance Special Tax", which will be collected to pay costs associated with maintaining parkways and open space in both Specific Plan areas. Again, a separate maximum Maintenance Special Tax has been determined for Tax Area A and Tax Area B, as shown in the following table:

CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 1998-2 (CARVER-BANGS/PELANDALE-SNYDER) FISCAL YEAR 1998-99 MAXIMUM ANNUAL MAINTENANCE SPECIAL TAX*		
<i>Land Use Type</i>	<i>Tax Area A (Carver-Bangs)</i>	<i>Tax Area B (Pelandale-Snyder)</i>
Single Family	\$118 per unit	\$92 per unit
Multi-Family	\$945 per Acre	\$733 per Acre
Non-Residential	\$945 per Acre	\$733 per Acre

* Beginning in January 1999 and each January thereafter, the maximum Annual Maintenance Special Tax shall be increased by 4% of the amount in effect in the prior year. Each annual adjustment of the maximum Annual Maintenance Special Tax shall become effective on the subsequent July 1.

The Maintenance Special Tax will be collected each fiscal year on the property tax bills of all parcels in the CFD that have had a final building permit inspection conducted or a certificate of occupancy issued prior to June 1 of the preceding fiscal year.

III. FACILITIES AND SERVICES TO BE FUNDED BY CFD No. 1998-2

The facilities and services described below are all facilities which the City of Modesto is authorized to finance and which are required to adequately meet the needs of CFD No. 1998-2. The special taxes required to pay for these facilities and services will be apportioned according to the "Rate and Method of Apportionment of Special Tax" included as Appendix B of this report.

Capital Improvements

A. Carver-Bangs (Tax Area A)

Following is a summary of the capital improvements to be funded through CFD No. 1998-2 to serve the Carver-Bangs Specific Plan. A detailed breakdown of facility components and the corresponding cost estimates is provided in Appendix C of this report.

Storm Drainage Improvements	\$1,494,750
Prescott Road	145,422
American Avenue	24,033
Bangs Avenue	254,305
Carver Road	57,270
American Avenue Canal Overcrossing	295,066
Class I Bike Trail	142,500
CFD Formation Costs	<u>67,500</u>
Total Capital Improvement Costs	\$2,480,847

B. Pelandale-Snyder (Tax Area B)

Storm Drainage Improvements	\$4,389,042
Dale Road	531,075
Prescott Road	628,297
Tully Road	1,011,016
Snyder Avenue	504,283
Class I Bike Trail	752,675
CFD Formation Costs	<u>67,500</u>
Total Capital Improvement Costs	\$7,883,888

Annual Maintenance Costs

A. Carver-Bangs

<u>Item</u>	<u>Quantity</u>	<u>Unit</u>	<u>Unit Cost</u>	<u>Total Cost</u>
Bangs Avenue (South Side)				
8' Landscape Strip (4,680 LF x 8' = 37,400 SF)	37,400	SF	\$0.72	\$26,957
American Avenue (East Side)				
8' Landscape Strip (1,200 LF x 8' =9,600 SF)	9,600	SF	\$0.72	\$6,912
Prescott Road 16' Center Median	10,500	SF	\$0.72	\$7,740
Prescott Road Treewell and Vine Blockouts with 10' Sidewalk and Masonry Wall (56 Each 5' x 5' Treewalls + 56 each 3' x 10' vine blockouts)	3,080	SF	\$0.72	\$2,218
Class I Bike Trail	1,308	SF	\$0.72	\$942
Pelandale Avenue (North Side) Landscape Strip	1,996	SF	\$0.72	\$1,437
Carver Road (West Side) (1, 194 L.F. x 8' = 9,552 S.F.)	9,552	SF	\$0.72	\$6,877
Total Annual Maintenance Costs				<u>\$53,083</u>

B. *Pelandale-Snyder*

<u>Item</u>	<u>Quantity</u>	<u>Unit</u>	<u>Total</u>	<u>Cost</u>
Dale Road (East Side), 12' Wide Landscape Strip (1,255 LF x 12' = 14,700 SF)	14,700	SF	\$0.72	\$10,584
Prescott Road (East Side), 12' Wide Landscape Strip (1,225 LF x 12' = 14,700 SF)	14,700	SF	\$0.72	\$10,584
Prescott Road 16' Center Median	10,750	SF	\$0.72	\$7,740
Tully Road (Both Sides), 12' Wide Landscape Strip (2,650 LF x 12' = 21,800 SF)	31,800	SF	\$0.72	\$22,896
Tully Road 16' Center Median	10,750	SF	\$0.72	\$7,740
Class I Bike Trail	8,820	SF	\$0.72	\$6,350
Pelandale Avenue (South Side)	10,400	SF	\$0.72	\$7,488
Carver West Side Back-up Lots South of Pelandale Avenue (515 L.F. x 5' = 2,575)	2,575	SF	\$0.72	\$1,854
Landscaping Surrounding Storm Drain Basins	35,000	SF	\$0.72	\$25,200
Total Annual Maintenance Costs				\$100,436

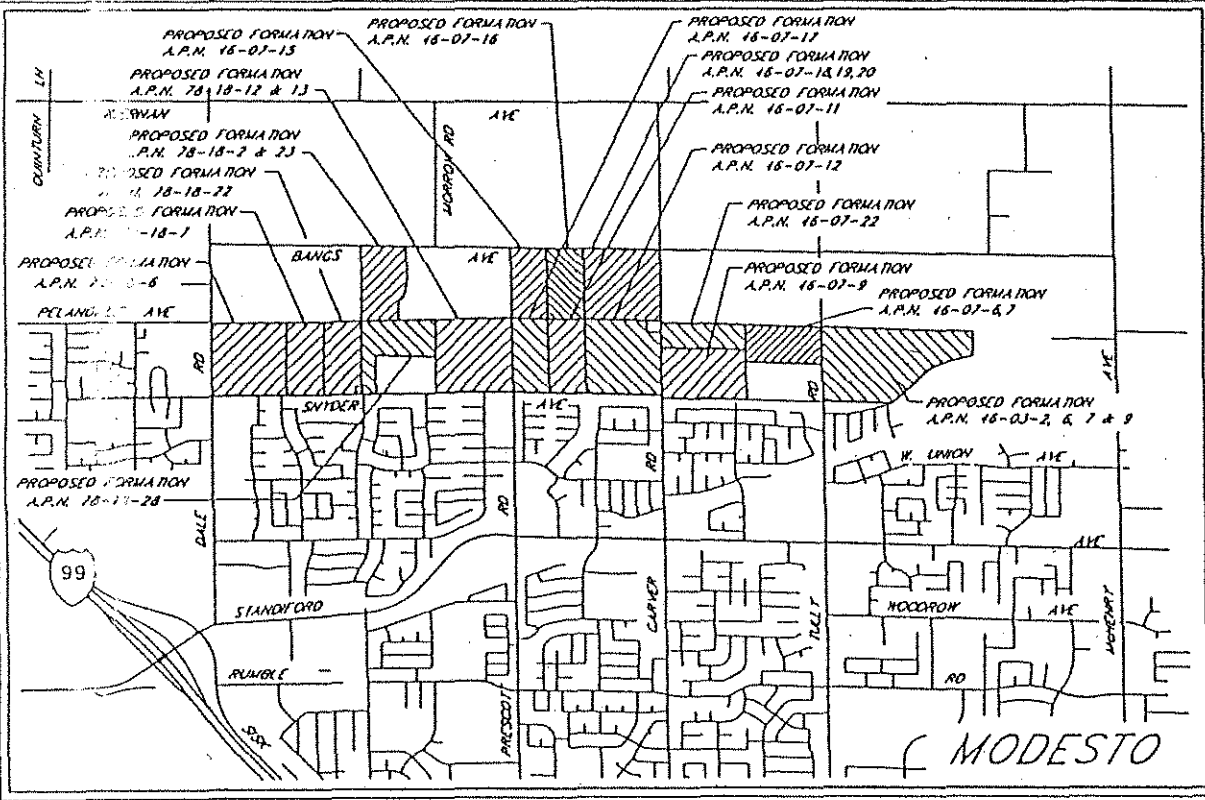

The description of facilities and services, as set forth herein, is general in nature. The final nature and location of improvements will be determined upon the preparation of final plans and specifications.

APPENDIX B

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT No. 1998-2

RATE AND METHOD OF APPORTIONMENT OF
SPECIAL TAX AND REIMBURSEMENTS

EXHIBIT B

CITY OF MODESTO COMMUNITY FACILITIES DISTRICT No. 1998-2 (CARVER-BANGS/PELANDALE-SNYDER)

RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX AND REIMBURSEMENTS

A special tax applicable to each Assessor's Parcel in Community Facilities District No. 1998-2 (herein "CFD No. 1998-2") shall be levied and collected according to the tax liability determined by the City Council of the City of Modesto, through the application of the appropriate amount or rate for Taxable Property, as described below. All of the property in CFD No. 1998-2, unless exempted by law or by the provisions of Section F below, shall be taxed for the purposes, to the extent, and in the manner herein provided, including property subsequently annexed to CFD No. 1998-2 unless a separate Rate and Method of Apportionment of Special Tax and Reimbursements is adopted for the annexation area.

A. DEFINITIONS

The terms hereinafter set forth have the following meanings:

"Acre or Acreage" means the land area of an Assessor's Parcel as shown on an Assessor's Parcel Map, or if the land area is not shown on an Assessor's Parcel Map, the land area shown on the applicable Final Map, parcel map, or other recorded County parcel map.

"Administration Component" means that portion of the Facilities Special Tax which must be paid (i.e., is not subject to fee credits) prior to a final building permit inspection being completed or a certificate of occupancy being issued for new construction (whichever occurs first) for any residential or non-residential structure. The revenue collected from the Administration Component will be used by the City to pay annual expenses, consultants' fees, and staff time associated with administering the CFD, monitoring the Authorized Facilities and effecting reimbursements, including but not limited to the following: (i) tracking development in the CFD, (ii) preparing the tax roll for the Annual Maintenance Special Tax, (iii) calculating and collecting the Facilities Special Tax, (iv) engineering, (v) planning, (vi) legal services, and (vii) acquisition and construction of land and improvements associated with the Authorized Facilities.

"Administrator" shall mean the person(s) or firm(s) designated by the City to administer the Special Tax according to this Rate and Method of Apportionment of Special Tax and Reimbursements.

"Annual Maintenance Special Tax" means a Special Tax levied in any Fiscal Year to pay the Maintenance Special Tax Requirement, as defined below.

“Assessor's Parcel” means a lot or parcel shown in an Assessor's Parcel Map with an assigned Assessor's Parcel number.

“Assessor's Parcel Map” means an official map of the County Assessor of the County of Stanislaus designating parcels by Assessor's Parcel number.

“Authorized Facilities” or “Authorized Facility” means those public improvements (including portions of such public improvements) to be funded by CFD No. 1998-2 as identified in Attachment 1 of this Rate and Method of Apportionment of Special Tax and Reimbursements, including appurtenant expenses such as planning, design, engineering and inspection.

“Buildable Lot” means an individual numbered lot which is in its final configuration and for which a building permit may be issued.

“CFD Costs” means the total amount shown in the CFD Public Report to cover costs associated with CFD formation, CFD administration, and engineering, legal services, planning and geotechnical studies related to the Authorized Facilities.

“CFD Public Report” means the report filed with the City Clerk on behalf of CFD No. 1998-2 pursuant to Section 53321.5 of the Mello-Roos Community Facilities Act of 1982.

“Church Property” means any Parcel within the CFD that is exempt from ad valorem property taxes because it is owned by a religious organization.

“City” means the City of Modesto.

“Council” means the City Council of the City of Modesto, acting as the legislative body of CFD No. 1998-2.

“Credit/Reimbursement Amount” means the sum of the portion of the CFD Costs and the costs of Authorized Facilities that have been paid in advance by a builder/developer and have not yet been reimbursed to that builder/developer through one of the following: (i) the application of Special Tax Credits (as defined below) or (ii) payments to the builder/developer from Facilities Special Taxes collected from other builders/developers in the CFD. The Credit/Reimbursement Amount outstanding at any point in time will be determined pursuant to Section D below.

“Facilities Special Tax” means a Special Tax collected by the City to pay for one or more of the following: (i) the costs of Authorized Facilities and CFD Costs, (ii) to reimburse a builder/developer who has an outstanding Credit/Reimbursement Amount, and (iii) if all Authorized Facilities have been completed, to pay for maintenance authorized to be funded by the CFD.

“Final Map” means a final map, or portion thereof, approved by the City pursuant to the Subdivision Map Act (California Government Code Section 66410 *et seq.*).

"Fiscal Year" means the period starting July 1 and ending on the following June 30.

"Maintenance Special Tax Requirement" means the amount necessary in any Fiscal Year to (i) pay for authorized maintenance expenses, (ii) pay administrative expenses of CFD No. 1998-2, and (iii) cure any delinquencies in the payment of Annual Maintenance Special Taxes levied in prior Fiscal Years or (based on delinquencies in the payment of Special Taxes which have already taken place) are expected to occur in the Fiscal Year in which the tax will be collected.

"Maximum Special Tax" means the maximum Special Tax, determined in accordance with Section C below, that can be levied by the City in any Fiscal Year on Taxable Property.

"Non-Residential Property" means, in any Fiscal Year, all Parcels for which a building permit has been issued for a commercial, office or industrial establishment or any other use which is not single family or multi-family residential property and which is not exempt from Special Taxes pursuant to Section F below.

"Order of Priority" means the order in which the Authorized Facilities and CFD Costs must be fully credited or reimbursed before Special Tax Credits can be made against the Facilities Special Tax or reimbursements paid to a builder/developer for other CFD facilities that are of lower priority. The Order of Priority is identified in Attachment 1 of this Rate and Method of Apportionment of Special Tax and Reimbursements.

"Original Parcel" means an Assessor's Parcel that will be further subdivided upon recordation of a Final Map. The Original Parcels in CFD No. 1998-2 at the time the Resolution of Formation of CFD No. 1998-2 was approved by the Council are listed in Attachment 2.

"Public Agency" means the federal government, State of California or other local governments or public agencies.

"Reimbursable Cost" means, for any of the Authorized Facilities, the amount shown in 1998 dollars in the CFD Public Report, which amount shall, beginning in January 2002 and each January thereafter, be increased by four percent (4%) of the amount in effect in the prior year.

"Special Tax Credit" means a waiver of the creditable portion of the Facilities Special Tax that would otherwise be due from a Parcel in the CFD if the builder/developer of that Parcel did not have an outstanding Credit/Reimbursement Amount.

"Subdivided Property" means, in any Fiscal Year, all Buildable Lots for which a final building permit inspection has taken place or a certificate of occupancy has been issued prior to June 1 of the preceding Fiscal Year.

"Successor Parcel" means an Assessor's Parcel of Taxable Property created by the subdivision or reconfiguration of an Original Parcel within the CFD.

“Taxable Property” means, in any Fiscal Year, all Parcels in CFD No. 1998-2 that have not been exempted from the Special Tax pursuant to Section F below.

“Tax Area A” means parcels within the Carver-Bangs Specific Plan Area, which Area is shown in Attachment 3A of this Rate and Method of Apportionment of Special Tax and Reimbursements.

“Tax Area B” means parcels within the Pelandale-Snyder Specific Plan Area, which Area is shown in Attachment 3B of this Rate and Method of Apportionment of Special Tax and Reimbursements.

B. ANNUAL MONITORING

The Administrator shall keep an ongoing record of the Acreage and current Assessor’s Parcel numbers within Tax Area A and Tax Area B and, after July 1 of each Fiscal Year, shall identify the Assessor’s Parcels which have become Subdivided Property and, therefore, will be subject to the levy of the Maintenance Special Tax in that Fiscal Year. The Administrator shall also continually monitor Subdivided Property to ensure the Facilities Special Tax is collected prior to final building permit inspection or issuance of a certificate of occupancy (whichever occurs first), unless the Parcel qualifies for a Special Tax Credit, as discussed further in Section D below.

C. MAXIMUM SPECIAL TAX

1. Facilities Special Tax

The maximum 1998 Facilities Special Tax for Original Parcels in CFD No. 1998-2 when the CFD was formed is shown in Attachment 2. Each time a Final Map is approved within the CFD or when Parcels in the CFD are otherwise subdivided or reconfigured, the Administrator shall reallocate the maximum Facilities Special Tax assigned to each Original Parcel to the Subsequent Parcels created by approval of the Final Map as follows:

- Step 1a. Identify the maximum Facilities Special Tax applicable to the Original Parcel being subdivided (the maximum Facilities Special Tax for Original Parcels in the CFD when the CFD was formed are shown in Attachment 2);
- Step 1b. Determine the Acreage of Taxable Property within the approved Final Map;
- Step 1c. Determine the total Acreage of Taxable Property within the Original Parcel being subdivided, including the Taxable Property within the Final Map;

- Step 1d. Divide the Acreage determined in Step 1b by the total Acreage of the Original Parcel determined in Step 1c to calculate a percentage;
- Step 1e. Multiply the percentage determined in Step 1d by the amount identified in Step 1a to calculate the maximum Facilities Special Tax to be allocated to the Final Map area. If a Final Map is approved for a portion of an Original Parcel, the maximum Facilities Special Tax that has not been allocated to the Final Map area will stay assigned to the remainder of the Taxable Property within the Original Parcel until it is further subdivided;
- Step 1f. Spread the maximum Facilities Special Tax calculated in Step 1e to each of the Successor Parcels within the Final Map area based on each Successor Parcel's share of the Acreage of Taxable Property within the Final Map.

After each reallocation of the maximum Facilities Special Tax upon subdivision or reconfiguration of Original Parcels, the sum of the maximum Facilities Special Tax assigned to Subsequent Parcels shall never be less than the maximum Facilities Special Tax assigned to the Original Parcel(s) prior to such reallocation. Beginning in January 2002 and each January thereafter, the maximum Facilities Special Tax assigned to each Parcel shall be increased by four percent (4%) of the amount in effect in the prior year.

2. Annual Maintenance Special Tax

All Subdivided Property within the CFD shall be subject to an Annual Maintenance Special Tax that shall be levied each Fiscal Year to meet the Maintenance Special Tax Requirement. The Annual Maintenance Special Tax shall be reflected as an annual lien on each Parcel in CFD No. 1998-2 and is anticipated to stay with the property and be paid each year by the current homeowner or property owner. The following maximum rates apply to all Parcels of Taxable Property within CFD No. 1998-2 for Fiscal Year 1998-99:

CITY OF MODESTO COMMUNITY FACILITIES DISTRICT No. 1998-2 (CARVER-BANGS/PELANDALE-SNYDER) FISCAL YEAR 1998-99 MAXIMUM ANNUAL MAINTENANCE SPECIAL TAX*		
<i>Land Use Type</i>	<i>Tax Area A (Carver-Bangs)</i>	<i>Tax Area B (Pelandale-Snyder)</i>
Single Family	\$118 per unit	\$92 per unit
Multi-Family	\$945 per-Acre	\$733 per Acre
Non-Residential	\$945 per Acre	\$733 per Acre
* Beginning in January 1999 and each January thereafter, the maximum Annual Maintenance Special Tax shall be increased by 4% of the amount in effect in the prior year. Each annual adjustment of the maximum Annual Maintenance Special Tax shall become effective on the subsequent July 1.		

D. IMPLEMENTATION OF CREDIT/REIMBURSEMENT PROGRAM

Certain builders/developers may be required to pay CFD Costs and fund and construct Authorized Facilities that are ultimately intended to be funded from Facilities Special Tax revenues. The City shall implement a Special Tax Credit and reimbursement program, which will ensure that builders/developers that pay more than their fair share of the CFD Costs and/or Authorized Facilities costs will be reimbursed for the overage.

At the request of the landowners and developers at the time this Rate and Method of Apportionment was prepared and CFD No. 1998-2 was formed, all credits and reimbursements to builder/developers who provide Authorized Facilities shall be in amounts equal to the costs set forth for those Authorized Facilities in the CFD Public Report (except as adjusted as described below). Pursuant to this request, whether the actual cost to build an Authorized Facility is higher or lower than the amount shown in the CFD Public Report for that Authorized Facility, a builder/developer shall be credited and/or reimbursed for the dollar amount included in the CFD Public Report for that Authorized Facility. If there is a cost savings for one Authorized Facility and a cost overrun for another, there is no opportunity pursuant to this Rate and Method of Apportionment for the cost savings to offset the cost overrun.

The following steps shall be applied to implement the credit/reimbursement program:

On an Ongoing Basis

- In January 2002 and each January thereafter, the Administrator shall escalate the following items by four percent (4%): (i) the Facilities Special Tax assigned to each Parcel, (ii) the Credit/Reimbursement Amount outstanding for any builder/developer, and (iii) the costs of Authorized Facilities that have not yet been constructed. An updated list of these three items shall be available each year by February 15.

- The Administrator will keep a current list of the adjustments that have been applied in each year to the items listed above.
- The Administrator will keep track of which Authorized Facilities shown in Attachment 1 have been fully credited or reimbursed to establish the next Authorized Facility to be funded according to the Order of Priority.
- For builder/developers who pay more than their pro-rata share of the cost of particular Authorized Facilities and/or CFD Costs and are due a reimbursement after applying Special Tax Credits, the Administrator shall keep track of the date on the "Notice of Completion of Public Facilities to be Acquired by CFD No. 1998-2" (or other such certificate issued by the City) to ensure that reimbursements of costs that fall within the same Order of Priority will be made on a first incurred/first paid basis.

When a Final Map is Approved by the City Council:

- Step 1.* The Administrator shall determine which Authorized Facilities the builder/developer subdividing the property has funded;
- Step 2.* The Administrator shall determine the Order of Priority for the Authorized Facilities funded by the builder/developer. If the improvements are not first in the Order of Priority, the Administrator shall determine whether facilities that are of a higher priority have yet been fully reimbursed or credited;
- Step 3.* By reference to the detailed cost estimates set forth in the CFD Public Report, the Administrator shall determine the estimated 1998 cost that had been included in the maximum Facilities Special Tax for the Authorized Facilities provided by the builder/developer;
- Step 4.* Using 2002 as the first year of escalation, the Administrator shall escalate the cost of the Authorized Facilities (as shown in the CFD Public Report) provided by the builder/developer to the year in which the Credit/Reimbursement Amount is being calculated. This escalation shall apply on an annual basis (i.e., subtract 2001 from the then current year to determine how many years worth of escalation to apply) and shall be compounded in the same manner as the Facilities Special Tax has been escalated. This escalated cost represents the total Credit/Reimbursement Amount due to the builder/developer, the balance of which, as of the year 2002 and each year following, shall be escalated by four percent (4%) each year until fully reimbursed or credited against Facilities Special Taxes paid by the builder/developer.

Prior to final building permit inspection or issuance of a certificate of occupancy
(whichever occurs first)

Note: the following steps may be applied to a single Parcel or a group of Parcels (i.e., all residential lots within a particular Final Map)

The Administrator shall determine if the builder/developer has an outstanding Credit/Reimbursement Amount and apply one of the following:

Step 1. If there is an outstanding Credit/Reimbursement Amount for the builder/developer, the Administrator shall apply the following steps to determine if a Facilities Special Tax is due from the subject Parcel(s):

Step 1a. Identify the Facilities Special Tax that would have been paid by the Parcel(s) if no Credit/Reimbursement Amount were outstanding;

Step 1b. Multiply the amount determined in Step 1a by .07 to calculate the Administration Component, which shall be due and payable to the City prior to final building permit inspection or issuance of a certificate of occupancy (whichever comes first);

Step 1c. Subtract the Administration Component calculated in Step 1b from the Facilities Special Tax identified in Step 1a to calculate the net amount that could be collected for facility costs, and apply one of the following:

- *If the net amount determined in Step 1c is less than the outstanding Credit/Reimbursement Amount for the builder/developer, the Administration Component calculated in Step 1b shall be collected and the builder/developer shall be given a Special Tax Credit against the remainder of the Facilities Special Tax for that Parcel(s). After the Special Tax Credit has been calculated, the Administrator shall subtract that amount from the outstanding Credit/Reimbursement Amount for that builder/developer.*

- *If the net amount determined in Step 1c is greater than the outstanding Credit/Reimbursement Amount for the builder/developer, subtract the outstanding Credit/Reimbursement Amount from the net amount of Facilities Special Tax calculated in Step 1c to determine the amount that must be paid by the builder/developer. If the calculation is being prepared*

for multiple Parcels at one time, the builder/developer may use up the remaining Credit/Reimbursement Amount by taking Special Tax Credits against the first lots to develop and pay the remaining balance when the subsequent lots develop. The Administrator shall update the CFD records to reflect a zero Credit/Reimbursement Amount for that builder/developer.

Step 2. If there is not an outstanding Credit/Reimbursement Amount for the builder/developer, the Administrator shall apply the following steps:

Step 2a. Identify the Facilities Special Tax assigned to the Parcel(s), which shall be due and payable to the City prior to final building permit inspection or issuance of a certificate of occupancy (whichever comes first);

Step 2b. Multiply the amount determined in Step 2a by .07 to calculate the Administration Component, which shall remain on deposit with the City;

Step 2c. Subtract the Administration Component calculated in Step 2b from the Facilities Special Tax identified in Step 2a to calculate the net amount that shall be collected to provide reimbursements to builder/developers with outstanding Credit/Reimbursement Amounts;

Step 2d. Determine whether there is an outstanding Credit/Reimbursement Amount due other builder/developers in the CFD and apply one of the following:

- *If there are outstanding Credit/Reimbursement Amounts, look at the Order of Priority of the Authorized Facilities for which a Credit/Reimbursement Amount is due. In addition, identify the dates on the "Notice of Completion of Public Facilities to be Acquired by CFD No. 1998-2" (or other such certificate issued by the City) which were provided to each builder/developer for which a Credit/Reimbursement Amount is outstanding. Reimbursements shall be paid based on the Order of Priority and, if there are multiple Credit/Reimbursement Amounts due within the same priority level, based on the date on which a "Notice of Completion of Public Facilities to be Acquired by CFD No. 1998-2" was issued to each*

builder/developer. After the reimbursements are made, the Administrator shall reduce the Credit/Reimbursement Amount for the builder/developer(s) who received reimbursement by the amount of such reimbursement.

If there are no outstanding Credit/Reimbursement Amounts due any builder/developer, the City shall deposit the Facilities Special Tax into an account which will be designated for funding the Authorized Facilities. The balance in this fund will be used either to pay directly for the construction of Authorized Facilities or to reimburse a builder/developer who constructs Authorized Facilities in future years. The interest earned on funds in this account shall accrue to the account for the same purposes.

E. METHOD OF LEVY AND COLLECTION OF THE SPECIAL TAX

1. Facilities Special Tax

The maximum Facilities Special Tax determined pursuant to Section C above shall be collected prior to a final building permit inspection being completed or a certificate of occupancy being issued for new construction (whichever occurs first) for any residential or non-residential structure within CFD No. 1998-2 and shall be immediately delinquent if not so paid.

2. Annual Maintenance Special Tax

Commencing with Fiscal Year 1999-00 and for each following Fiscal Year, the Administrator shall determine the Maintenance Special Tax Requirement for that Fiscal Year. The Annual Maintenance Special Tax shall then be levied on all Parcels of Subdivided Property as follows:

Step 1: Calculate the total Maintenance Special Tax revenues that could be collected from Subdivided Property within the CFD based on application of the maximum Annual Maintenance Special Tax rates determined pursuant to Section C.2 above;

Step 2: Divide the Maintenance Special Tax Requirement by the maximum revenues that could be collected as determined in Step 1;

Step 3: If the ratio determined in Step 2 is greater than or equal to 1, levy the maximum Annual Maintenance Special Tax determined pursuant to Section C.2 on all Subdivided Property in the CFD. If the ratio determined in Step 2 is less than 1, continue to Step 4.

Step 4: If the ratio determined in Step 2 is less than 1, levy the maximum Annual Maintenance Special Tax against all Parcels of Subdivided Property in equal percentages up to 100% of the maximum Annual Maintenance Special Tax determined pursuant to Section C.2 above until the amount so levied equals the Maintenance Special Tax Requirement for the Fiscal Year.

The Annual Maintenance Special Tax for CFD No. 1998-2 shall be collected in the same manner and at the same time as ordinary ad valorem property taxes, provided, however, that CFD No. 1998-2 may (under the authority of Government Code Section 53340), in any particular case, bill the taxes directly to the property owner, off the County tax roll, and the Special Taxes will be equally subject to foreclosure if delinquent as annual Special Taxes levied on the County tax roll.

In no event shall the Maintenance Special Tax levied and collected in one Tax Area be increased due to delinquencies in the other Tax Area.

F. LIMITATIONS

Notwithstanding any other provision of this Rate and Method of Apportionment of Special Tax and Reimbursements, no Special Tax shall be levied on structures built on land that has been conveyed to a Public Agency, except as otherwise provided in Sections 53317.3 and 53317.5 of the Mello-Roos Community Facilities Act of 1982. No Annual Maintenance Special Tax shall be levied on Church Property unless such Church Property is built on a Parcel or Parcels that had previously been developed with residential or non-residential land uses which had paid the Annual Maintenance Special Tax. The maximum Annual Maintenance Special Tax assigned to such Church Property would be equal to the maximum Annual Maintenance Special Tax that had previously been assigned to the residential or non-residential land uses on the property.

The Maintenance Special Tax will continue to be levied and collected unless and until the City determines that Maintenance Special Tax revenues are no longer needed to pay authorized services of the CFD.

G. ENFORCEMENT

All delinquent Facility Special Taxes, or delinquent Annual Maintenance Special Taxes billed off the County tax roll, shall be subject to an immediate 10% penalty plus simple interest charges of

1.5% as of the first day of the month after the delinquency date and on the first day of each month thereafter. Any such delinquent Special Taxes shall, at the City's discretion, be placed on the next secured property tax roll. The amount placed on the roll shall include the 10% penalty and the interest charges through the following January 1. This shall not prevent the City from simultaneously pursuing the delinquency by an action on a contract or guarantee against a third party who promised to pay the taxes, or from assigning such right of action to the property owner or other appropriate party.

C:\FILES\WPWIN\MODESTO\CRVRBNGS\RMA7.CLN

ATTACHMENT 1

COMMUNITY FACILITIES DISTRICT NO. 1998-2 (CARVER BANGS/PELANDALE-SNYDER) ORDER OF PRIORITY OF AUTHORIZED FACILITIES

First Priority

- Storm drain basin construction (including but not limited to basins, inlet structures, pipelines, and fencing)
- Storm drain trunkline in Snyder Avenue adjacent to school and park sites
- CFD Costs (as identified in the CFD Public Report)
- Engineering design costs for storm drain related improvements (including geotechnical)

Second Priority

- Storm drain basin land purchase for both basins (Van Konynenburg properties), east and west of Modest Irrigation District lateral No. 6

Third Priority

- Storm drain trunk lines (other than trunkline in Snyder Avenue adjacent to school and park sites)

[Note that storm drain trunk lines are specific to each tax area and will remain a third priority within a tax area until all trunk lines within that tax area are credited or reimbursed.]

Fourth Priority

- Storm drain pump station, piping and landscaping around storm drainage basin

Fifth Priority, Tax Area A (Carver Bangs)

- Bike trail
- American Avenue
- Prescott Road
- Bangs Avenue
- Carver Road
- American Avenue crossing of Modest Irrigation District lateral No. 6
- Pedestrian bridge crossing of Modesto Irrigation District lateral No. 6

Fifth Priority, Tax Area B (Pelandale-Snyder)

- Bike trail
- Dale Road

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT No. 1998-2

DETAILED FACILITY COST ESTIMATES

CARVER-BANGS
(TAX AREA A)

DETAILED FACILITY COST ESTIMATES

**CARVER / BANGS (TAX AREA A)
SPECIFIC PLAN AREA
COMMUNITY FACILITIES DISTRICT (CFD) 1998-2
SUMMARY**

I. CARVER / BANGS SPECIFIC PLAN AREA

TOTAL ESTIMATED CFD COSTS	\$ 2,480,847
	<u>\$2,424,418</u>

A. C.F.D. FEE PER NET ACRE

\$2,424,418 / 137.44 NET ACRES = COST PER NET ACRE =====>	\$17,640
---	----------

B. ANNUAL LANDSCAPE MAINTENANCE COSTS PER NET ACRE

COST PER NET ACRE =====>	\$715
--------------------------	-------

CARVER / BANGS (TAX AREA A)
SPECIFIC PLAN AREA
CFD REIMBURSEMENT PRIORITY

I. ORDER OF REIMBURSEMENT AND/OR CREDIT

A. FIRST PRIORITY

1. STORM DRAIN BASIN CONSTRUCTION (INCLUDING BUT NOT LIMITED TO BASINS, INLET STRUCTURES, PIPELINES, AND FENCING)
2. STORM DRAIN TRUNKLINE IN SNYDER AVENUE ADJACENT TO SCHOOL AND PARK SITES.
3. ALL CFD RELATED FORMATION COSTS (I.E., CITY OF MODESTO, DAVID TAUSSIG AND ASSOCIATES, KAJFMAN & BROAD, RON MALIK, MID-VALLEY ENGINEERING, J.B. ANDERSON LAND PLANNING, RUSSELL A. HARRISON, CONSULTING CIVIL ENGINEER, INC., AND HERUM, CRABTREE, DYER, ZOLEZZI AND TERPSTRA).
4. ALL ENGINEERING DESIGN COSTS FOR STORM DRAIN RELATED IMPROVEMENTS (INCLUDING GEOTECHNICAL).

B. SECOND PRIORITY

1. STORM DRAIN BASIN LAND PURCHASE FOR BOTH BASINS (VAN KONYNENBURG PROPERTIES), EAST AND WEST OF MODESTO IRRIGATION DISTRICT LATERAL NO. 6.

C. THIRD PRIORITY

1. STORM DRAIN TRUNK LINES.

D. FOURTH PRIORITY

1. STORM DRAIN PUMP STATION, PIPING AND LANDSCAPING AROUND THE STORM DRAIN BASIN.

E. FIFTH PRIORITY

1. BIKE TRAIL.
2. AMERICAN AVENUE.
3. PRESCOTT ROAD.
4. BANGS AVENUE.
5. CARVER ROAD.
6. AMERICAN AVENUE CROSSING OF MODESTO IRRIGATION DISTRICT LATERAL NO. 6.
7. PEDESTRIAN BRIDGE CROSSING OF MODESTO IRRIGATION DISTRICT LATERAL NO. 6.

CARVER BANGS SPECIFIC PLAN AREA (TAX AREA A)
COMMUNITY FACILITIES
DISTRICT FORMATION
COST SUMMARY

A. STORM DRAINAGE	\$1,494,750
B. PRESCOTT ROAD	\$145,422
C. AMERICAN AVENUE	\$24,033
D. BANGS AVENUE	\$254,305
E. CARVER ROAD	\$57,270
F. AMERICAN AVENUE CANAL CROSSING	\$295,066
G. CLASS I BIKE TRAIL	\$142,500
H. FORMATION COSTS	\$67,500
	TOTAL CFD COSTS == \$2,480,847

NOTE:

1. THE ABOVE TOTAL COSTS DO NOT INCLUDE THE ANNUAL LANDSCAPE MAINTENANCE COSTS FOR PLAN AREA. THE ANNUAL LANDSCAPE MAINTENANCE COSTS IS ESTIMATED AT \$751 PER ACRE.
2. FINAL BID QUANTITIES MAY INCLUDE MORE DETAILED LINE ITEMS WHICH SHALL BE ALL INCLUSIVE WITHIN LUMP SUM AMOUNTS OR QUANTITIES SHOWN IN THIS DOCUMENT.

NOTES:

1. THE ABOVE ESTIMATE IS FOR THE PORTION OF PRESCOTT ROAD IMPROVEMENTS WHICH IS ABOVE AND BEYOND A NORMAL CITY STANDARD COLLECTOR STREET (60' WIDE) AND WHICH IS NOT FUNDED THROUGH THE CITY'S CFF PROGRAM: (SEE FIGURE 2).
2. THE ABOVE ESTIMATE ONLY INCLUDES THE STORM DRAIN COSTS FOR THE CATCH BASINS, STORM DRAIN CATCH BASIN LATERALS AND STORM MANHOLES WHICH IS ASSUMED TO BE A PROPORTIONATE SHARE OF THE STORM IMPROVEMENTS. THE "MAINLINE" STORM DRAIN IMPROVEMENTS ARE TO BE INSTALLED BY ADJACENT DEVELOPMENT.
3. THE R-VALUE ASSUMPTIONS WERE DERIVED FROM SOILS REPORTS PREPARED BY KLEINFELDER, INC. FOR THE FOLLOWING SUBDIVISIONS: KENSINGTON PARK, TUSCANY, FASTPORT AND ALMOND VALLEY.

PRESCOTT ROAD SECTION

(MID-BLOCK)

NOTES:

1. BASED ON CITY POLICY, THE PORTION OF THE ROADWAY IMPROVEMENTS ABOVE AND BEYOND THE ADJACENT DEVELOPERS RESPONSIBILITY IS INCLUDED IN THE CFF PROGRAM. THE CFF PORTION GETS WIDER AS THE ROAD SECTION FLARES AT THE PRESCOTT/BANGS AND PRESCOTT/PELANDALE INTERSECTIONS.
2. BASED ON CITY POLICY, 40' OF IMPROVEMENTS ARE CONSTRUCTED BY THE ADJOINING DEVELOPMENT. THE 40' SECTION IS CONSTANT AT THE FLARED INTERSECTIONS.
3. THE STANDARD CITY CROSS SECTION FOR A MINOR COLLECTOR STREET IS 60' TOTAL. COLLECTOR STREETS ARE ENTIRELY CONSTRUCTED BY THE ADJOINING DEVELOPMENT.
4. THE REMAINING PORTION THAT IS NOT FUNDED BY THE CITY'S CFF PROGRAM AND IS NOT WITHIN THE STANDARD 60' MINOR COLLECTOR SECTION IS INCLUDED WITHIN THE CFD.

NOTES:

1. BASED ON CITY POLICY, THE PORTION OF THE ROADWAY IMPROVEMENTS ABOVE AND BEYOND THE ADJACENT DEVELOPERS RESPONSIBILITY IS INCLUDED IN THE CFF PROGRAM. THE CFF PORTION GETS WIDER AS THE ROAD SECTION FLARES AT THE PRESCOTT/BANGS AND PRESCOTT/PELANDALE INTERSECTIONS.
2. BASED ON CITY POLICY, 40' OF IMPROVEMENTS ARE CONSTRUCTED BY THE ADJOINING DEVELOPMENT. THE 40' SECTION IS CONSTANT AT THE FLARED INTERSECTIONS.
3. THE STANDARD CITY CROSS SECTION FOR A MINOR COLLECTOR STREET IS 60' TOTAL. COLLECTOR STREETS ARE ENTIRELY CONSTRUCTED BY THE ADJOINING DEVELOPMENT.
4. THE REMAINING PORTION THAT IS NOT FUNDED BY THE CITY'S CFF PROGRAM AND IS NOT WITHIN THE STANDARD 60' MINOR COLLECTOR SECTION IS INCLUDED WITHIN THE CFD.

Community Facilities District
Preliminary Engineer's Estimate
October 23, 1998

NOTES:

1. THE ABOVE ESTIMATE ASSUMES THE PHASE 1A INTERIM PELANDALE AVENUE WILL BE CONSTRUCTED ON THE WEST SIDE OF PRESCOTT AND A PORTION OF THE IMPROVEMENTS (APPROXIMATELY 650 L.F. FROM THE SNYDER INTERSECTION) WILL BE REMOVED FOR THE ULTIMATE IMPROVEMENTS. THE REMAINING INTERIM SECTION IS ASSUMED TO REMAIN AND BE OVERLAYED WITH 2" A.C.
2. THE ABOVE ESTIMATE DOES NOT INCLUDE THE CENTER 20' PORTION OF PRESCOTT ROAD SINCE IT IS INCLUDED IN THE CFF PROGRAM.
3. THE ABOVE ESTIMATE DOES NOT INCLUDE THE MAINLINE STORM DRAIN IMPROVEMENTS SINCE THOSE COSTS ARE INCLUDED WITH THE STORM DRAIN COMPONENT OF THE CFD.
4. THE ABOVE ESTIMATE INCLUDES ALL NECESSARY CATCH BASINS. THIS CATCH BASIN ESTIMATE WAS TAKEN DIRECTLY FROM THE APPROVED "ALMOND VALLEY SUBDIVISION" IMPROVEMENT PLANS.
5. THE R-VALUE ASSUMPTIONS WERE DERIVED FROM SOILS REPORTS PREPARED BY KLEINFELDER, INC. FOR THE FOLLOWING SUBDIVISIONS: KENSINGTON PARK, TUSCANY, EASTPORT AND ALMOND VALLEY.

NOTES:

1. THIS ESTIMATE ITEM II IS FOR THE ENTIRE COST OF THE CENTER 34 FEET OF TULLY ROAD IMPROVEMENTS. THE CENTER 34 FEET OF IMPROVEMENTS ON TULLY ROAD ARE FUNDED BY THE CFF PROGRAM, HOWEVER, THE FUNDS ARE NOT AVAILABLE FOR THE ENTIRE PROJECT SO A PORTION OF THE PROJECT NOT FUNDED BY CFF WILL BE FUNDED BY THE PELANDALE-SNYDER CFD.
2. THIS ESTIMATE IS BASED ON THE ASSUMPTION THAT THE CENTER 26+/- FEET OF EXISTING PAVEMENT WILL REMAIN AND ADJACENT DEVELOPMENT WILL BE REQUIRED TO MATCH EXISTING PAVEMENT.
3. THE ABOVE COST ESTIMATE INCLUDES THE COST FOR IMPROVEMENTS FROM THE NORTH SIDE OF THE MODESTO IRRIGATION DISTRICT LATERAL TO PELANDALE AVENUE.
4. THE TULLY ROAD IMPROVEMENTS INCLUDE A COST TO REMOVE AND REPLACE THE EXISTING IMPROVEMENTS ALONG THE BIG VALLEY GRACE COMMUNITY CHURCH FRONTAGE (50' EXISTING TO 57' CITY STANDARD) TO BRING THE CROSS SECTION TO CITY STANDARD. HOWEVER, SPECIFIC DECELERATION OR ACCELERATION LANES WHICH ARE SITE SPECIFIC IMPROVEMENTS ARE NOT INCLUDED IN THE ESTIMATE.
5. THE RIGHT-OF-WAY COSTS ARE THE REQUIRED DEDICATIONS FOR RIGHT-OF-WAY BEYOND THE ALREADY EXISTING DEDICATIONS.
6. THE R-VALUE ASSUMPTIONS WERE DERIVED FROM SOILS REPORTS PREPARED BY KLEINFELDER, INC. FOR THE FOLLOWING SUBDIVISIONS: KENSINGTON PARK, TUSCANY, EASTPORT AND ALMOND VALLEY.

NOTES:

A. SNYDER AVENUE ADJACENT TO STORM DRAIN BASIN

1. THE SNYDER AVENUE IMPROVEMENTS ADJACENT TO THE STORM DRAINAGE BASIN, INCLUDE THE COST FOR IMPROVEMENT FROM THE WEST SIDE OF THE PROPOSED BASIN PROPERTY TO THE RETURN AT PRESCOTT ROAD.
2. THE RIGHT-OF-WAY COSTS IS THE AREA OF DEDICATION REQUIRED ASSUMING AN EXISTING 20 FOOT DEDICATION ON THE NORTH SIDE OF SNYDER AVENUE.

B. SNYDER AVENUE SOUTH SIDE ADJACENT TO BIKE TRAIL

1. THE SNYDER AVENUE IMPROVEMENTS INCLUDE THE COSTS FOR ROADWAY IMPROVEMENTS (EXCLUDING BIKE TRAIL) SOUTH OF THE CENTERLINE (20') FROM PRESCOTT ROAD TO CARVER ROAD.
2. THE RIGHT-OF-WAY AREA TO BE INCLUDED WITHIN THIS CFD ALONG SNYDER AVENUE BETWEEN PRESCOTT ROAD AND CARVER ROAD IS AS FOLLOWS:
 - A. VARYING RIGHT-OF-WAY WIDTH FROM 1.8+/- FEET TO 12.5+/- FEET FROM THE PROPOSED NEW SNYDER AVENUE CENTERLINE TO THE EXISTING SNYDER AVENUE DEDICATION.
 - B. 20' WIDTH RIGHT-OF-WAY FROM PROPOSED NEW SNYDER CENTERLINE NORTH. ADJACENT DEVELOPMENT WOULD BE RESPONSIBLE FOR A 10 FOOT WIDTH RIGHT-OF-WAY DEDICATION ALONG THE NORTH SIDE OF SNYDER AVENUE.
3. NO "MAINLINE" STORM DRAIN IMPROVEMENTS ARE INCLUDED SINCE THOSE COSTS ARE INCLUDED WITHIN THE STORM DRAIN COMPONENT OF THE C.F.D.
4. NO COSTS ARE INCLUDED IN THIS ESTIMATE FOR THE CLASS I BIKE TRAIL ADJACENT TO SNYDER AVENUE.
5. THE PAVEMENT REMOVAL QUANTITIES INCLUDES THE COST TO REMOVE THE ENTIRE EXISTING PAVEMENT SECTION FROM PRESCOTT ROAD TO CARVER ROAD.
6. THIS ESTIMATE INCLUDES A COST TO ABANDON EXISTING STORM DRAIN PUMP STATION NO. 47 ASSUMING CONNECTION TO THE POSITIVE STORM DRAIN SYSTEM.
7. NO COST FOR EXISTING POWER POLE RELOCATION IS INCLUDED IN COSTS.
8. THE R-VALUE ASSUMPTIONS WERE DERIVED FROM SOILS REPORTS PREPARED BY KLEINFELDER, INC. FOR THE FOLLOWING SUBDIVISIONS: KENSINGTON PARK, TUSCANY, EASTPORT AND ALMOND VALLEY.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-193**

A RESOLUTION CERTIFYING AN ADDENDUM TO THE PELANDALE-SNYDER PROGRAM ENVIRONMENTAL IMPACT REPORT (SCH NO. 93042004) FOR ANNEXATION #2 TO COMMUNITY FACILITIES DISTRICT NO. 1998-2 (CARVER-BANGS/PELANDALE-SNYDER)

WHEREAS, on January 16, 1996, the Modesto City Council has adopted Resolution No. 96-22 certifying that the Final Pelandale-Snyder Specific Plan Area Environmental Impact Report (“EIR”) (State Clearinghouse No. 93042004) was complete and adequate pursuant to Section 15090 of the California Environmental Quality Act (“CEQA”) Guidelines, and

WHEREAS, the City Council is proposing to annex 19.37 acres located at the southwest corner of Snyder avenue and Tully Road (“Property”) to the Carver-Bangs/Pelandale-Snyder CFD No. 1998-2 (“CB-PS CFD”) as a condition of developing a residential subdivision consisting of 81 single family lots, and

WHEREAS, the EIR contemplated that the Property could develop with approximately 67 single family lots and 174 multi-family residences, and

WHEREAS, Section 15164 of the CEQA Guidelines provides that a lead agency shall prepare an Addendum to a previously certified EIR if some changes or additions are necessary but none of the conditions described in Section 15162 of the CEQA Guidelines calling for preparation of a subsequent EIR have occurred, and

WHEREAS, the City’s consultant, Impact Sciences, prepared an Initial Study/Addendum (Environmental Assessment No. EA/CM 2003-1) which reviewed the proposed Annexation #2 to the CB-PS CFD and concluded that some minor changes or additions to the EIR were necessary as a result of the changes in the proposed development of the Property and none of the conditions described in section 15162 of the

CEQA Guidelines calling for the preparation of a subsequent EIR or Negative

Declaration have occurred, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on Tuesday, April 8, 2003 at 5:30 p.m. in the Tenth Street Place Chambers, located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered Environmental Assessment No. EA/CDD 2003-01, entitled "City of Modesto Initial Study/Addendum to the 1996 Program EIR for the Pelandale Snyder Specific Plan (SCH No. 93042004)," for the proposed project, and the Council hereby makes the following findings:

- A. The environmental checklist completed for the project found that a Subsequent EIR is not required because the environmental effects of Annexation No. 2 to the Carver-Bangs/Pelandale Snyder CFD No. 1998-2 were addressed by the Pelandale-Snyder Specific Plan EIR (SCH No. 93042004).
- B. There are no substantial changes proposed in the project that will require major revisions of the Pelandale-Snyder Specific Plan Area EIR (SCH No. 93042004).
- C. There are no substantial changes occurring with respect to the circumstances under which the project is being undertaken which will require major revisions in the Pelandale-Snyder Specific Plan Area EIR.
- D. There is no new information of substantial importance, which was not known and could not have been known with the exercise of reasonable diligence at the time the Pelandale-Snyder Specific Plan Area EIR was certified, that has become available, and shows the project would have new or increased significant impacts.
- E. There is no new information of substantial importance, which was not known or could not have been known with the exercise of reasonable diligence at the time the Pelandale-Snyder Specific Plan EIR was certified, that has become available and shows that previously infeasible mitigation measures or alternatives are now feasible, or that new, different or additional mitigation measures or alternatives are required.
- F. The Initial Study/Addendum prepared by Impact Sciences provides substantial evidence to support findings A, B, C, D and E above.

A copy of said Environmental Assessment No. EA/CDD 2003-01, entitled "City of Modesto Initial Study/Addendum to the 1996 Program EIR for the Pelandale Snyder Specific Plan (SCH No. 93042004)," is attached hereto as **Exhibit "A"**, and incorporated herein by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8th day of April, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating,
O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: None

Attest: Jean Zahr
JEAN ZAHR, City Clerk

APPROVED AS TO FORM:

5. Project Location

The proposed project site is located in the City of Modesto, at the southwest corner of Snyder Avenue and Tully Road.

6. **General Plan Designations**

The Modesto *General Plan* has designated the project site as Village Residential.

7. **Zoning**

The project site is located in a Specific Plan-Overlay (SP-O) Zone; the underlying zoning is R-1 Low Density Residential and R-3 Medium High Density Residential.

8. **Applicable Planning Programs**

City of Modesto Urban Area General Plan

The project site is located within the north central portion of the City's General Plan Boundary in the Planned Urbanizing Area.

Pelandale/Snyder Specific Plan (PSSP)

The project site is located in the PSSP area, within the City limits. The 408-acre area is bounded by Dale Road on the west, the extension of Pelandale Avenue on the north, the Union Pacific Railroad on the east, and the Modesto Irrigation District (MID) Canal and Snyder Avenue on the south.

9. **Existing On-site Land Uses**

The project site is predominately used as an almond orchard. One single-family home is located at the southeastern corner of the site.

10. **Nearby Land Uses**

The project site is bounded by Snyder Avenue to the north, Tully Road to the east, MID Lateral No. 6 (canal) to the south, and a single-family residential development to the west. Land uses in proximity to the site include single-family residential to the north and west, commercial and single-family residential to the east, and multi-family residential to the south.

11. **Description of the Project**

The proposed project includes annexation of the 19.37-acre site (APN 46-07-08) to the Community Facilities District (CFD) 1998-2. Annexation of the property into the CFD would provide a funding and reimbursement mechanism for public facilities and

services required to serve development within the Carver Bangs/Pelandale Snyder Specific Plan area, including the project site. A summary of the Capital Improvement Projects (CIP) in the Carver Bangs/Pelandale Snyder Specific Plan area is provided below.

CIP Projects

- Storm drainage basins and pump station on Prescott between Pelandale and Snyder;
- Prescott Road Improvements from Bangs to Snyder;
- Landscaping along the east side of Dale between Pelandale and Snyder;
- Snyder Avenue between Prescott and Carver;
- Tully Road frontage improvements from Pelandale to MID Lat. #6;
- Tully Road (center 34 feet) between MID Lat. #6 to Pelandale;
- Traffic signal at Tully and Snyder;
- Bangs Avenue – American to Carver
- MID canal crossing at the intersection of American and Bangs;
- American Avenue from Pelandale to Bangs;
- Bike trail and pedestrian crossing of MID Lat. #6; and
- Bike trail system.

(Please note: Future development of the site, in compliance with the PSSP, could potentially include clearing the site of the existing almond orchard to allow for approximately 67 single-family units and 174 multi-family units. However, the Application for Annexation to a CFD filed with the City indicates that the property owners intend to subdivide 16.32 acres of the site into 81 single-family lots. The existing single-family home would remain on its 3.05-acre site. In addition, the property owners have filed a separate application with the Modesto Community & Economic Development Department for subdivision and development of the project site. The City of Modesto prepared an Initial Study for the Covington Pointe Vesting Tentative Subdivision Map project on November 25, 2002 to address the potential impacts related to development of the site. The project applicant(s) has been granted a development entitlement for development of the site.)

12.

Purpose

On January 16, 1996, the Modesto City Council certified the Final EIR for the PSSP. The Final EIR analyzed the impacts of build-out of the PSSP, which includes the area in which this project is proposed. Section 15164 of the CEQA *Guidelines* states that an addendum to a previously certified EIR can be prepared if none of the following conditions, as described in Section 15162, have occurred:

- A. Substantial changes are proposed in the project that will require major revisions to the 1995 PSSP EIR (due to the involvement of new significant environmental impacts or substantial increases in the severity of previously identified significant impacts);
- B. Substantial changes have occurred with respect to the circumstances under which the project is undertaken which will require major revisions of the 1995 PSSP EIR (due to the involvement of new or increased significant impacts); or
- C. New information of substantial importance, which was not known and could not have been known with the exercise of reasonable diligence at the time the 1995 PSSP EIR, has become available, and shows that the project would have new or increased significant impacts.

EVALUATION OF ENVIRONMENTAL IMPACTS:

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
1. AGRICULTURAL RESOURCES - In determining whether impacts to agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Dept. of Conservation as an optional model to use in assessing impacts on agriculture and farmland. Would the project:				
a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
The 1995 PSSP EIR addresses impacts to agricultural lands on pages 37 through 41 of the EIR and identifies the project site and surrounding areas as Prime Farmland. The EIR concludes that the conversion of this farmland to urban uses would constitute a significant unavoidable impact. The City subsequently made the required findings under Section 21081 of the CEQA <i>Guidelines</i> and adopted a Statement of Overriding Considerations for this impact. The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP. The impacts of implementation of these infrastructure projects have already been addressed in the EIR. Thus, impacts related to conversion of agriculture associated with annexation are consistent with the analysis presented in the EIR. Thus, no further discussion is necessary.				
b) Conflict with existing zoning for agricultural use, or a Williamson Act contract?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
The 1995 PSSP EIR identifies the project site as a residential land use. The project site is not under Williamson Act contract. ¹ No further discussion is necessary.				
c) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
The property immediately surrounding the project site is already developed. No further discussion is needed.				

¹ Rocha, Tina, City of Modesto Community Facilities District, March 13, 2003.

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--	--------------------------------	--	------------------------------	-----------

2. AIR QUALITY - Where available, the significance criteria established by the applicable air quality management or air pollution control district may be relied upon to make the following determinations. <i>Would the project:</i>				
a) Conflict with or obstruct implementation of the applicable air quality plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
The 1995 PSSP EIR addresses impacts to air quality on pages 110 through 126 of the EIR and concludes that short-term construction impacts would be less than significant. Also, the 1995 PSSP EIR concludes that buildout of the PSSP would result in significant air quality impacts related to long-term regional emissions, residential wood burning emissions, and microscale projections. All of these impacts could be mitigated to a less-than-significant level. The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP. The impacts of implementation of these infrastructure projects have already been addressed in the EIR. Thus, impacts related to conflicts with or obstruct implementation of the applicable air quality plan associated with annexation are consistent with the analysis presented in the EIR. Thus, no further discussion is necessary.				
b) Violate any air quality standard or contribute substantially to an existing or projected air quality violation?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
See response to 2a.				
c) Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard (including releasing emissions which exceed quantitative thresholds for ozone precursors)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
The 1995 PSSP EIR concludes that cumulative air quality impacts would be less than significant. The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP. The impacts of implementation of these infrastructure projects have already been addressed in the EIR. Thus, impacts related to cumulative air quality associated with annexation are consistent with the analysis presented in the EIR. Thus, no further discussion is necessary.				
d) Expose sensitive receptors to substantial pollutant concentrations?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
See response to 2a.				
e) Create objectionable odors affecting a substantial number of people?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
The proposed project is a financing mechanism to fund off-site infrastructure projects, the impacts of which have already been addressed in the Facilities Master Plan EIR. Annexation of the project site would not create objectionable odors affecting a substantial number of people. No further discussion is necessary.				

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--	--------------------------------	--	------------------------------	-----------

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
3. BIOLOGICAL RESOURCES - Would the project:				
a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Impacts to biological resources are addressed on pages 127 through 129 of the 1995 PSSP EIR. The EIR concludes that impacts would be less than significant. The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP. The impacts of implementation of these infrastructure projects have already been addressed in the EIR. Thus, impacts related to having a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service associated with annexation are consistent with the analysis presented in the EIR. Thus, no further discussion is necessary.				
b) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP. The impacts of implementation of these infrastructure projects have already been addressed in the EIR. Thus, impacts related to having a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or U.S. Fish and Wildlife Service associated with annexation are consistent with the analysis presented in the EIR. Thus, no further discussion is necessary.				
c) Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
No wetlands are located on the project site. No further discussion is necessary.				
d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP. The impacts of implementation of these infrastructure projects have already been addressed in the EIR.				

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--	--------------------------------	--	------------------------------	-----------

Thus, impacts related to a substantial interference with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites associated with annexation are consistent with the analysis presented in the EIR. Thus, no further discussion is necessary.

e) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
---	--------------------------	--------------------------	--------------------------	-------------------------------------

The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP. The impacts of implementation of these infrastructure projects have already been addressed in the EIR. Thus, impacts related to conflicts with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance associated with annexation are consistent with the analysis presented in the EIR. Thus, no further discussion is necessary.

f) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--	--------------------------	--------------------------	--------------------------	-------------------------------------

No current habitat conservation plans or natural community conservation plans apply to the PSSP. No further discussion is necessary.

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
4. CULTURAL RESOURCES - Would the project:				
a) Cause a substantial adverse change in the significance of a historical resource as defined in §15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
The 1995 PSSP EIR addresses impacts to cultural resources on page 130 of the EIR and concludes that buildout of the PSSP may potentially result in the destruction of unknown subsurface archeological resource" and prescribes mitigation to reduce the impact to a less-than-significant level. The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP. The impacts of implementation of these infrastructure projects have already been addressed in the EIR. Thus, impacts related to cultural resources associated with annexation are consistent with the analysis presented in the EIR. Thus, no further discussion is necessary.				
b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to §15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
See response to 4a.				
c) Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
The PSSP area does not contain any paleontological resources or unique geologic features.				

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
d) Disturb any human remains, including those interred outside of formal cemeteries?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
See response to 4a.				

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
5. GEOLOGICAL PROBLEMS - Would the project				
a) Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving:				
i) Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
The 1995 PSSP EIR addresses impacts related to geologic hazards on pages 143 through 144 of the EIR and concludes that the PSSP area is not subject to geologic hazards, including seismic hazards or soils unsuitable for building. No active faults are known to exist in the City of Modesto. No further discussion is necessary.				
ii) Strong seismic ground shaking?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
See response to 5ai. The proposed project is a financing mechanism to fund off-site infrastructure projects, the impacts of which have already been addressed in the 1995 PSSP EIR. The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP. The impacts of implementation of these infrastructure projects have already been addressed in the EIR. Thus, impacts related to geological problems associated with annexation are consistent with the analysis presented in the EIR. Thus, no further discussion is necessary.				
iii) Seismic-related ground failure, including liquefaction?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
See response to 5ii.				
iv) Landslides?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
The PSSP area is flat and therefore is not susceptible to landslides.				
b) Result in substantial soil erosion or the loss of topsoil?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP. The impacts of implementation of these infrastructure projects have already been addressed in the EIR. Thus, impacts related to soil erosion or loss of topsoil associated with annexation are consistent with the analysis presented in the EIR. Thus, no further discussion is necessary.				

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
c) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction or collapse?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
See answers to 5aiii and 5aiv.				
d) Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP. The impacts of implementation of these infrastructure projects have already been addressed in the EIR. Thus, impacts related to expansive soils associated with annexation are consistent with the analysis presented in the EIR. Thus, no further discussion is necessary.				
e) Have soils incapable of adequately supporting the use of septic tanks or alternative waste water disposal systems where sewers are not available for the disposal of waste water?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
The proposed project is a financing mechanism to fund off-site infrastructure projects, the impacts of which have already been addressed in the 1995 PSSP EIR. Annexation of the project site does not include use of septic tanks. Thus, no further discussion is necessary.				

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
6. HYDROLOGY AND WATER QUALITY- Would the project:				
a) Violate any water quality standards or waste discharge requirements?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
The 1995 PSSP EIR addresses impacts to hydrology and water quality on pages 137 through 142 of the EIR and concludes that impacts related to the degradation of groundwater and surface water quality would be less than significant. The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP. The impacts of implementation of these infrastructure projects have already been addressed in the EIR. Thus, impacts related to violation of any water quality standards or waste discharge requirements associated with annexation of the site are consistent with the analysis presented in the EIR. Thus, no further discussion is necessary.				
b) Substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--	--------------------------------	--	------------------------------	-----------

The 1995 PSSP EIR addresses impacts related to reduction in groundwater recharge and concludes that impacts would be less than significant. The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP. The impacts of implementation of these infrastructure projects have already been addressed in the EIR. Thus, impacts related to depletion of groundwater supplies associated with annexation of the site are consistent with the analysis presented in the EIR. Thus, no further discussion is necessary.

c) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner which would result in substantial erosion or siltation on- or off-site?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--	--------------------------	--------------------------	--------------------------	-------------------------------------

See answer to 6a.

d) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner which would result in flooding on- or off-site?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
---	--------------------------	--------------------------	--------------------------	-------------------------------------

The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP. The impacts of implementation of these infrastructure projects have already been addressed in the EIR. Thus, impacts related to flooding associated with annexation are consistent with the analysis presented in the EIR. Thus, no further discussion is necessary.

e) Create or contribute runoff water which would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------	-------------------------------------	--------------------------

See response to 6a and 6d.

f) Otherwise substantially degrade water quality?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------	-------------------------------------	--------------------------

See response to 6a.

g) Place housing within a 100-year flood hazard area as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--	--------------------------	--------------------------	--------------------------	-------------------------------------

The proposed project does not include development of housing. Also, the PSSP area is not within a 100-year flood hazard area.

h) Place within a 100-year flood hazard area structures which would impede or redirect flood flows?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
---	--------------------------	--------------------------	--------------------------	-------------------------------------

See response 6g.

i) Expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
--	--------------------------	--------------------------	-------------------------------------	--------------------------

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--	--------------------------------	--	------------------------------	-----------

Don Pedro Dam is located 40 miles away from the PSSP area. The water level in the canals in the PSSP area are controlled by a spill wall, which prevents the canal from overflowing. Thus, impacts related to flooding hazards are less than significant.

j) Inundation by seiche, tsunami, or mudflow?

The PSSP area is not located near any large bodies of water and is not subject to seiches, tsunamis, or mudflows. No further discussion is necessary.

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--	--------------------------------	--	------------------------------	-----------

7. NOISE - Would the proposal result in:

a) Exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?

The 1995 PSSP EIR addresses impacts related to noise on pages 95 through 109 of the EIR, concludes that impacts related to construction noise would be significant, and prescribes mitigation that would reduce impacts to a less-than-significant level. The EIR also concludes that impacts related to project impacts on surrounding land uses and exposure of project land uses to traffic noise would be less than significant

The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP. The impacts of implementation of these infrastructure projects have already been addressed in the EIR. Thus, impacts related to exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance or applicable standards of other agencies associated with annexation are consistent with the analysis presented in the EIR. Thus, no further discussion is necessary.

b) Exposure of persons to or generation of excessive groundborne vibration or groundborne noise levels?

Annexation of the project site would not generate any excessive groundborne vibration or groundborne noise levels. No further discussion is necessary.

c) A substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?

The 1995 PSSP EIR concludes that noise created by project-generated traffic would not affect surrounding land uses. The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP. The impacts of implementation of these infrastructure projects have already been addressed in the EIR. Thus, impacts related to substantial permanent increases in ambient noise levels associated with annexation are consistent with the analysis presented in the EIR. Thus, no further discussion is necessary.

d) A substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?

See response to 7a.

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--	--------------------------------	--	------------------------------	-----------

e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project expose people residing or working in the project area to excessive noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
---	--------------------------	--------------------------	--------------------------	-------------------------------------

The PSSP area is not located within an airport land use plan or near an airport. No further discussion is necessary.

f) For a project within the vicinity of a private airstrip, would the project expose people residing or working in the project area to excessive noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--	--------------------------	--------------------------	--------------------------	-------------------------------------

The PSSP area is not within the vicinity of a private airstrip. No further discussion is necessary.

8. POPULATION & HOUSING - Would the proposal:

a) Induce substantial population growth in an area, either directly (for example, by proposing new homes and businesses) or indirectly (for example, through extension of roads or other infrastructure)?	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>
---	--------------------------	--------------------------	-------------------------------------	--------------------------

The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP that would serve growth planned for in the PSSP and in the City's *General Plan*.

The impacts of implementation of these infrastructure projects have already been addressed in the EIR. Annexation of Thus, no further discussion is necessary.

b) Displace substantial numbers of existing housing, necessitating the construction of replacement housing elsewhere?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
---	--------------------------	--------------------------	--------------------------	-------------------------------------

As stated in the project description, the owners of the project site do not intend to demolish the single-family home currently located on the site. Thus, the project would not result in the displacement of any homes. No further discussion is necessary.

c) Displace substantial numbers of people, necessitating the construction of replacement housing elsewhere?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
---	--------------------------	--------------------------	--------------------------	-------------------------------------

See response to 12b.

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--	--------------------------------	--	------------------------------	-----------

--	--	--	--	--

9. PUBLIC SERVICES				
---------------------------	--	--	--	--

a) Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities, need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for any of the public services:				
---	--	--	--	--

i) Fire protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
---------------------	--------------------------	--------------------------	--------------------------	-------------------------------------

The 1995 PSSP EIR addresses impacts to fire protection service on pages 132 through 133 of the EIR and concludes that buildout of the PSSP would require the construction of an additional fire station and the employment of additional staff to accommodate increased demands for emergency and fire protection services. The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP. The project would not contribute to the need for fire protection service. Thus, no further discussion is necessary.

ii) Police protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
------------------------	--------------------------	--------------------------	--------------------------	-------------------------------------

The 1995 PSSP EIR addresses impacts to police service on page 133 of the EIR and concludes that buildout of the PSSP would require additional patrol officers, support staff, and equipment to accommodate increased demands for police services. The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP. The project would not contribute to the need for police service. Thus, no further discussion is necessary.

iii) Schools?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
---------------	--------------------------	--------------------------	--------------------------	-------------------------------------

The 1995 PSSP EIR addresses impacts to school services on pages 134 through 135 of the EIR and concludes that buildout of the PSSP would require the construction of additional school facilities and employment of school staff to accommodate increased demands for school services. The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP. The project would not contribute to the need for school service. Thus, no further discussion is necessary.

iv) Parks?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
------------	--------------------------	--------------------------	--------------------------	-------------------------------------

The 1995 PSSP EIR addresses impacts to parks on pages 133 through 134 of the EIR and concludes that the PSSP would contribute funds to meet park funding obligations. The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP. The project would not contribute to the need for parks. Thus, no further discussion is necessary.

v) Other governmental services?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
---------------------------------	--------------------------	--------------------------	--------------------------	-------------------------------------

The 1995 PSSP EIR addresses impacts to social services on page 136 of the EIR and concludes that buildout of the PSSP would result in less-than-significant impacts to social services. The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP. The project would not

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--	--------------------------------	--	------------------------------	-----------

contribute to the need for social service. Thus, no further discussion is necessary.

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
10. TRANSPORTATION/CIRCULATION - Would the project				
a) Cause an increase in traffic which is substantial in relation to the existing traffic load and capacity of the street system (i.e., result in a substantial increase in either the number of vehicle trips, the volume to capacity ratio on roads, or congestion at intersections)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
The 1995 PSSP EIR addresses traffic impacts on pages 45 through 94 of the EIR and concludes that some of the roadway segments in the vicinity of the project site would operate at Level of Service (LOS) E and LOS F, which exceeds the significance threshold of LOS D. The EIRs concludes that some traffic impacts would be significant and unavoidable. The City subsequently made the required findings under Section 21081 of the CEQA Guidelines and adopted a Statement of Overriding Considerations for the impacts identified in the 1995 PSSP EIR. The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP. The impacts of implementation of these infrastructure projects have already been addressed in the EIR. Further, the infrastructure projects would not generate traffic trips and thus, would not cause an increase in traffic. No further discussion is necessary.				
b) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads or highways?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
See response to 10a.				
c) Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
The PSSP area is not near any airports and thus, would not affect air traffic patterns. No further discussion is necessary.				
d) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
All roadway improvements would be designed in accordance with all applicable safety design standards. No further discussion is necessary.				
e) Result in inadequate emergency access?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
All roadway improvements would be designed in accordance with all applicable safety design standards, including emergency access standards. No further discussion is necessary.				

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
--	--------------------------------	--	------------------------------	-----------

f) Result in inadequate parking capacity?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
The proposed project does not include the removal or development of parking. No further discussion is necessary.				
g) Conflict with adopted policies, plans, or programs supporting alternative transportation (e.g., bus turnouts, bicycle racks)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
All roadway improvements would be required to comply with all adopted policies, plans, or programs supporting alternative transportation. No further discussion is necessary.				

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
11. UTILITIES AND SERVICE SYSTEMS - Would the project:				
a) Exceed wastewater treatment requirements of the applicable Regional Water Quality Control Board?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
See response to 6a.				
b) Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
The 1995 PSSP EIR addresses impacts to water service on pages 132 of the EIR and concludes that impacts would be less than significant. The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP. The impacts of implementation of these infrastructure projects have already been addressed in the EIR. Thus, impacts related to the construction of new water or wastewater treatment facilities or expansion of existing facilities associated with annexation are consistent with the analysis presented in the EIR. Thus, no further discussion is necessary.				
c) Require or result in the construction of new storm water drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effects?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
The 1995 PSSP EIR concludes that impacts related to exceeding the capacity of storm drainage facilities would be less than significant. The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP, including storm drainage facilities. The impacts of implementation of these infrastructure projects have already been addressed in the EIR. Thus, impacts related to the construction of new storm water drainage facilities or expansion of existing facilities associated with annexation are consistent with the analysis presented in the EIR. Thus, no further discussion is necessary.				
d) Have sufficient water supplies available to serve the project from existing entitlements and resources, or are new	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No impact
--	--------------------------------	--	------------------------------	-----------

and expanded entitlements needed?

The 1995 PSSP EIR concludes that impacts related to exceeding the capacity of the water service system would be less than significant. The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP. The impacts of implementation of these infrastructure projects have already been addressed in the EIR. Thus, impacts related to water supply associated with annexation are consistent with the analysis presented in the EIR. Thus, no further discussion is necessary.

e) Result in a determination by the wastewater treatment provider which serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

The 1995 PSSP EIR concludes that impacts related to exceeding the capacity of the sewage treatment plant would be less than significant. The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP. The impacts of implementation of these infrastructure projects have already been addressed in the EIR. Thus, impacts related to wastewater treatment capacity associated with annexation are consistent with the analysis presented in the EIR. Thus, no further discussion is necessary.

f) Be served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

The 1995 PSSP EIR concludes that landfills serving the project site and area would have sufficient capacity to accommodate buildout of the PSSP area. The proposed project is a financing mechanism to fund off-site infrastructure projects that are consistent with PSSP. The impacts of implementation of these infrastructure projects have already been addressed in the EIR. Thus, impacts related to landfill capacity associated with annexation are consistent with the analysis presented in the EIR. Thus, no further discussion is necessary.

g) Comply with federal, state, and local statutes and regulations related to solid waste?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

Solid waste generated by the proposed project would be disposed in accordance with all applicable local, state, and federal regulations related to solid waste. No further discussion is necessary.

12. MANDATORY FINDINGS OF SIGNIFICANCE

a) Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or pre-history?

<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
--------------------------	--------------------------	--------------------------	-------------------------------------

As noted throughout this Addendum, the proposed project would not result in any significant impacts.

	Potentially Significant Impact	Less Than Significant with Mitigation Incorporated	Less Than Significant Impact	No Impact
b) Does the project have impacts that are individually limited, but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.)	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
The proposed project would be developed as part of the buildout of the PSSP. The potential cumulative impacts of the proposed project and other projected development in the PSSP area have already been analyzed in the 1995 PSSP EIR. Thus, the project would not result in any new or increased cumulative impacts.				
c) Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
As noted throughout this Addendum, the proposed project would not have the potential to result in significant impacts and thus, would not have the potential to result in substantial adverse effects on human beings.				

Determination

The information and analysis presented herein provides substantial evidence for the City of Modesto to make the following findings pursuant to Sections 15090, 15164, and 15162 of the CEQA *Guidelines*:

1. The proposed project would not result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects requiring the revision to the previous EIR (see checklist answers and associated explanations above);
2. The proposed project would not have circumstances that would result in new significant environmental effects and require revisions to the previous EIR (the only significant impacts identified - loss of agricultural land and intersection LOS - were previously addressed and acknowledged in the 1995 PSSP EIR; and
3. The proposed project would not generate new information not known in the previous EIR that would result in:
 - a. One or more new significant effects (see items 1 and 2 directly above);
 - b. An increase in the severity of a previous significant effect (see item 2 directly above and item (see item 2 directly above and items 1a and 10a in the checklist);
 - c. Find new feasible mitigation measures or alternatives that the project proponents decline to adopt;
 - d. Find new mitigation measures or alternatives different than those in the previous EIR that would reduce significant effects that the project proponents decline to adopt.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-194**

**A RESOLUTION AUTHORIZING ROUTING CHANGES TO MAX ROUTE 34
TO TAKE EFFECT IN AUGUST 2003**

WHEREAS, the City of Modesto's Strategic Plan includes Strategy III.B.1:
"Develop an efficient, well coordinated, county-wide, multi-modal transportation
system", and

WHEREAS, the Modesto Area Express is a critical component of the
transportation system, and

WHEREAS, Route 34 requires routing changes to make it more efficient, and

WHEREAS, the proposed routing changes would result in two different ending
routes in the area currently served by Route 34, and

WHEREAS, the current ending loop would operate on the first and last runs of the
day, and the other eleven runs would operate on a new ending loop in the Village One
area, and

WHEREAS, resources gained by making efficiency changes to Route 34 would
meet the needs of students and workers in Village One while continuing to provide
services to most current riders on the existing route configuration, and

WHEREAS, an agenda report to the Council dated March 20, 2003, from
the Engineering and Transportation Director, City staff recommended making routing
changes to Route 34 and providing new service to Village One, a copy of said report is
attached hereto and incorporated herein by reference, and

WHEREAS, the Economic Development Committee approved the routing change at its March 10, 2003, meeting, and

WHEREAS, a duly noticed public hearing was held by the Council on April 8, 2003 in the Tenth Street Chambers, located at 1010 Tenth Street, Modesto, California, in accordance with Federal Transit Administration regulations, and to solicit public input regarding the proposed route change.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Transit Manager is hereby directed to make the recommended routing changes to Route 34 and provide new service to Village One effective August 2003.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8th day of April, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-195**

**A RESOLUTION APPROVING STANDARD AND SPECIFIC INSURANCE
REQUIREMENTS FOR VARIOUS PERMITTEES AND/OR LICENSEES AS
PROVIDED FOR IN THE MODESTO MUNICIPAL CODE.**

WHEREAS, various permittees/licensees are required to provide insurance coverage in accordance with the provisions of the Modesto Municipal code, and

WHEREAS, the Modesto Municipal Code authorizes the City Council to update standard and specific insurance requirements for various permittees and/or licensees from time to time by resolution, and

WHEREAS, at their meetings of January 13, 2003, and March 10, 2003, the Economic Development Committee approved updating the standard and specific insurance requirements to include requirements for taxicab companies,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the standard and specific insurance requirements that various permittees and/or licensees are required to provide for insurance coverage in accordance with the provisions of the Modesto Municipal Code are hereby approved as set forth in **Exhibit "A,"** entitled **STANDARD AND SPECIFIC INSURANCE REQUIREMENTS**, dated April 1, 2003, a copy of which is attached hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED that any current evidence of insurance coverage already approved by the Risk Manager shall remain on file with the City as being acceptable to the City until the expiration date of each such current evidence of insurance coverage; however, upon renewal of any such permit or insurance certificate, new

requirements for insurance coverage set forth in this resolution shall be effective and required upon the effective date of this resolution.

BE IT FURTHER RESOLVED that upon the effective date of this resolution, any new permittee/licensee shall be required to submit evidence of insurance coverage as required by this resolution.

BE IT FURTHER RESOLVED that this resolution shall not become effective until the effective date of Ordinance No. 3295-C.S. which was introduced by the Council on April 8, 2003.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 8th day of April, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

I. STANDARD INSURANCE REQUIREMENTS:

The permittee/licensee shall provide at its own expense and maintain at all times the specified insurance policies with insurance companies licensed in the State of California and shall provide evidence of such insurance to the CITY as may be required by the Risk Manager of the CITY. The policies or certificates thereof shall provide that, thirty (30) days prior to cancellation or material change in the policy, notice of same shall be given to the City Clerk of the CITY by registered mail, return receipt requested.

If at any time any of said policies shall be unsatisfactory to the CITY, as to form or substance or if a company issuing such policy shall be unsatisfactory to the CITY, the permittee/licensee shall promptly obtain a new policy, submit the same to the Risk Manager for approval and submit a certificate thereof as herinabove provided. Upon failure of the permittee/licensee to furnish, deliver, or maintain such insurance and certificates as above provided, the permit/licensee, at the election of the CITY, may be forthwith declared suspended, or terminated. Failure of the permittee/licensee to obtain and/or maintain any required insurance shall not relieve the permittee/licensee from any liability under the permit/licensee, nor shall the insurance requirement be construed to conflict with or otherwise limit the obligations of the permittee/licensee concerning indemnification. The CITY, its agents, officers, employees, and volunteers shall be named as an additional insured on all insurance policies required, except workers' compensation. The workers' compensation insurer shall agree to waive all rights of subrogation against the CITY, its agents, officers, employees, and volunteers for losses arising from work performed by permittee/licensee. The permittee/licensee's insurance policy(ies) shall include a provision that the coverage is primary as respects the CITY; shall include no special limitations to coverage provided to additional insured; and, shall be placed with insurer(s) with acceptable Best's rating of A:VII or with approval of the Risk Manager.

II. SPECIFIC INSURANCE REQUIREMENTS

A. Ambulance Operators: (MMC §§ 3-8.06 & 3-9.09)

1. Workers' Compensation in compliance with the statutes of the State of California, plus employer's liability with a minimum limit of liability of \$500,000.
2. General Liability insurance with a minimum limit of liability per occurrence of \$1,000,000 for bodily injury and \$100,000 for property damage or \$1,000,000 combined single limit. This insurance shall indicate on the certificate of insurance the following coverages and indicate the policy aggregate limit applying to: premises and operations; broad form contractual; products and completed operations; and medical malpractice liability.
3. Automobile Liability insurance with a minimum limit of liability per occurrence of \$1,000,000 for bodily injury and \$100,000 for property damage or \$1,000,000 combined single limit. This insurance shall cover any automobile for bodily injury and property damage.

B. Towing Service Operators: (MMC § 3-10.23(c))

1. Workers' Compensation in compliance with the statutes of the State of California, plus employer's liability with a minimum limit of liability of \$500,000.
2. General Liability insurance with a minimum limit of liability per occurrence of \$50,000 for bodily injury and \$500,000 for property damage or \$500,000 combined single limit. This insurance shall indicate on the certificate of insurance the following coverages and indicate the policy aggregate limit applying to: premises and operations; broad form contractual; products and completed operations; garage keepers' liability and towing and wrecker liability.
3. Automobile Liability insurance with a minimum limit of liability per occurrence of \$50,000 for bodily injury and \$500,000 for property damage or \$500,000 combined single limit. This insurance shall cover any automobile for bodily injury and property damage.

C. Sidewalk Food Vendors:
(MMC § 4-1.1206)

1. Workers' Compensation in compliance with statues of the State of California, plus employer's liability with a minimum limit of liability of \$500,000.
2. General Liability insurance with a minimum limit of liability per occurrence of \$500,000 for bodily injury and \$50,000 for property damage or \$500,000 combined single limit. This insurance shall indicate on the certificate of insurance the following coverages and indicate the policy aggregate limit applying to: premises and operations; broad form contractual; and products and completed operations.

D. Building Movers:
(MMC § 4-3.07)

1. Workers' Compensation in compliance with the statues of the State of California, plus employer's liability with a minimum limit of liability of \$500,000.
2. General Liability insurance with a minimum limit of liability per occurrence of \$1,000,000 for bodily injury and \$1,000,000 for property damage or \$1,000,000 combined single limit. This insurance shall indicate on the certificate of insurance the following coverages and indicate the policy aggregate limit applying to: premises and operations; broad form contractual; and products and completed operations.
3. Automobile Liability insurance with a minimum limit of liability per occurrence of \$1,000,000 for bodily damage or \$1,000,000 combined single limit. This insurance shall cover any automobile for bodily injury and property damage.

E. Taxicab Operators:
(MMC § 4-6.100)

1. Workers' Compensation in compliance with the statues of the State of California, plus employer's liability with a minimum limit of liability of \$500,000. Taxicab permittee/licensee can request a waiver of this requirement by letter to the City Risk Manager if they are not required to carry insurance.

2. General Liability insurance with a minimum limit of liability per occurrence of \$300,000 for bodily injury and \$50,000 for property damage or \$300,000 combined single limit. This insurance shall indicate on the certificate of insurance the following coverages and indicate the policy aggregate limit applying to: premises and operations; broad form contractual; independent permittee/licensee and subpermittee/licenses; and products and completed operations.
2. Automobile Liability insurance with a minimum limit of liability per occurrence of \$300,000 for bodily injury and \$50,000 for property damage or \$300,000 combined single limit. This insurance shall cover any automobile for bodily injury and property damage.

F. Trampoline Operators:
(MMC § 4-7.1609)

1. Workers' Compensation in compliance with the statutes of the State of California, plus employer's liability with a minimum limit of liability of \$500,000.
2. General Liability insurance with a minimum limit of liability per occurrence of \$1,000,000 for bodily injury and \$100,000 for property damage or \$1,000,000 combined single limit applying to: premises and operations; broad form contractual; and products and completed operations.

G. Refuse Disposal Operators
(MMC § 5-5.28)

1. Workers' Compensation in compliance with the statutes of the State of California, plus employer's liability with a minimum limit of \$500,000.
2. General Liability insurance with a minimum limit of liability per occurrence of \$1,000,000 for bodily injury and \$100,000 for property damage or \$1,000,000 combined single limit. This insurance shall indicate the policy aggregate limit applying to: premises and operations; broad form contractual; and products and completed operations.
3. Automobile Liability insurance with a minimum limit of liability per occurrence of \$1,000,000 for bodily injury and \$100,000 for property damage or \$1,000,000 combined single limit. This insurance shall cover any automobile for bodily injury and property damage.

H. Motor Bus Operators:
(MMC § 6-7.207)

1. Workers' Compensation in compliance with statutes of the State of California, plus employer's liability with a minimum limit of liability of \$500,000.
2. General Liability insurance with a minimum limit of liability per occurrence of \$1,000,000 for bodily injury and \$100,000 for property damage or \$1,000,000 combined single limit. This insurance shall indicate the policy aggregate limit applying to: premises and operations; broad form contractual; and products and completed operations.
3. Automobile Liability insurance with a minimum limit of liability per occurrence of \$15,000,000 for bodily injury and \$100,000 for property damage or \$15,000,000 combined single limit. This insurance shall cover any automobile for bodily injury and property damage.

I. Public Works Permit:
(MMC §§ 7-1.109 & 7-2.29)

1. Workers' Compensation in compliance with the statutes of the State of California, plus employer's liability with a minimum limit of \$500,000.
2. General Liability insurance with a minimum limit of liability per occurrence of \$500,000 for bodily injury and \$50,000 for property damage or \$500,000 combined single limit. This insurance shall indicate on the certificate of insurance the following coverages and indicate the policy aggregate limit applying to: premises and operations; broad form contractual; and products and completed operations.

J. Commercial Aircraft:
(MMC § 7-3.108)

1. Workers' Compensation in compliance with the statutes of the State of California, plus employer's liability with a minimum limit of liability of \$500,000.
2. General Liability insurance with a minimum limit of liability of \$15,000,000 for bodily injury and \$1,000,000 for property damage or \$15,000,000 combined single limit. This insurance shall indicate on the certificate of insurance the following coverages and indicate the policy aggregate limit applying to: premises and operations; broad form contractual; and products and completed operations.

K. Permanently Based Private Aircraft:
(MMC § 7-3.108.1)

1. General Liability insurance with a minimum limit of liability per occurrence of \$300,000 for bodily injury and \$100,000 for property damage or \$300,000 combined single limit. This insurance shall indicate on the certificate of insurance the following coverages and indicate the policy aggregate limit applying to: premises and operations; broad form contractual; and products and completed operations.

L. Motor Vehicles and Motorized Equipment on Air Operations Areas of Airport Premises:
(MMC § 7-3.108.2)

1. Automobile Liability insurance with a minimum limit of liability per occurrence of \$300,000 for bodily injury and \$100,000 for property damage or \$300,000 combined single limit. This insurance shall cover any automobile for bodily injury and property damage.

M. Fixed Base Operators:
(MMC § 7-3.108.3)

1. Workers' Compensation in compliance with the statutes of the State of California, plus employer's liability with a minimum limit of \$500,000.
2. General Liability insurance with a minimum limit of liability per occurrence of \$1,000,000 for bodily injury and \$100,000 for property damage or \$1,000,000 combined single limit. This insurance shall indicate on the certificate of insurance the following coverages and indicate the policy aggregate limit applying to: premises and operations; broad form contractual; products and completed operations; and hanger keepers' liability.

N. Cable Television Franchise:
(MMC § 11-4.33)

1. Workers Compensation in compliance with the statutes of the State of California, plus employer's liability with a minimum limit of liability of \$500,000.
2. General Liability insurance with a minimum limit of liability of \$1,000,000 for bodily injury and \$100,000 for property damage or \$1,000,000 combined single limit. This insurance shall indicate on the certificate of insurance the following coverages and indicate the policy

aggregate limit applying to: premises and operations; broad form contractual; and products and completed operations.

3. Automobile Liability insurance with a minimum limit of liability per occurrence of \$1,000,000 for bodily injury and \$100,000 for property damage or \$1,000,000 combined single limit. The insurance shall cover any automobile injury and property damage.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-196**

A RESOLUTION CANVASSING THE RESULTS OF THE APRIL 15, 2003, ELECTION HELD WITHIN THE TERRITORY PROPOSED TO BE ANNEXED TO COMMUNITY FACILITIES DISTRICT NO. 1998-2, AND ORDERING ANNEXATION OF SAID TERRITORY TO THE DISTRICT (CARVER-BANGS/PELANDALE-SNYDER - ANNEXATION #2)

WHEREAS, pursuant to the Mello-Roos Community Facilities Act of 1982 (the "Act"), the City Council (the "Council") of the City of Modesto (the "City"), by its Resolution of Formation No. 98-653, adopted on December 8, 1998, formed its Community Facilities District No. 1998-2 (the "District"), relating to territory within the Carver-Bangs and Pelandale-Snyder Specific Plan Areas, and, subject to the vote of the qualified electors therein, authorized the levy of a special tax therein, and

WHEREAS, pursuant to the Act, this Council did, by its Resolution No. 99-286, adopted on June 8, 1999, order a change and add taxes for completion of Snyder Avenue improvements, and

WHEREAS, by its Resolution No. 2000-278, adopted on June 6, 2000, this Council resolved to complete annexation #1 to the District, and

WHEREAS, the Council thereafter declared its intention, by its Resolution of Intention to Annex No. 2003-106, adopted February 25, 2003, to annex certain territory to the District, a boundary map for which is recorded in Volume 3 of Maps of Assessment and Community Facilities Districts at page 73 in the Office of the Stanislaus County Recorder (the "Annexed Territory"), relating to territory within the Village One Area, and to levy a special tax therein (the "Special Tax") as set forth in **Exhibit "A"** hereto, and by this reference incorporated herein, for the purposes of financing certain

facilities and services as set forth in **Exhibit "A"** hereto, and by this reference incorporated herein, and to set a hearing thereon for April 8, 2003, and

WHEREAS, at the conclusion of the public hearing, the Council did, on April 8, 2003, adopt its Resolution No. 2003-192, in which it determined to submit the question of the annexation of territory to the District and the levy of the Special Tax therein to the qualified electors of the Annexed Territory, and called an election thereon, which was held on April 15, 2003, (the "Election"), and

WHEREAS, on April 15, 2003, the Election was held relative to the foregoing, and

WHEREAS, the City Clerk has certified that, at the Election, the proposition of levying the Special Tax within the Annexed Territory was approved by at least two-thirds (2/3) of the votes cast,

NOW, THEREFORE, BE IT RESOLVED, ORDERED AND FOUND, by the City Council of the City of Modesto, that:

1. The above recitals are true and correct.
2. The Election was duly and validly conducted in conformity with all applicable laws, rules and regulations pertaining thereto.
3. Based on the City Clerk's certificate of election results, attached hereto as **Exhibit "B"**, the ballot proposition presented to the qualified electors of the Annexed Territory at the Election received at least two-thirds (2/3) of the votes cast.
4. Pursuant to Section 53339.8 of the Act, it is hereby determined that the Annexed Territory is added to and is a part of the District with full

legal effect, and that this Council may levy the Special Tax within the Annexed Territory.

5. The City Clerk of the City of Modesto is hereby directed to enter this resolution in the minutes of this City Council, which shall constitute the official declaration of the result of such Election, and is hereby further authorized and directed to record notice of the annexation by filing an amendment to the notice of special tax lien with the Office of the County Recorder for the County of Stanislaus pursuant to Sections 3114.5 and 3117.7 of the California Streets and Highways Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of April, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Frohman, Jackman, O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: Fisher, Keating

I. BACKGROUND

Community Facilities District (CFD) No. 1998-2 is being formed to provide a funding and reimbursement mechanism for public facilities and services required to serve the Carver-Bangs and Pelandale-Snyder Specific Plans in the City of Modesto. Portions of both Specific Plan areas are included within the initial boundaries of the CFD, and the remainder of the property within both Plan areas is expected to annex into the CFD at a later date.

As a condition of development of the Specific Plan areas, the developers are required to install various public improvements which will serve the increased population generated from the projects. Many of these improvements must be provided in the early stages of development and, therefore, the first developers to build within the projects must install the improvements and receive fee credits or reimbursements in exchange for the facilities. CFD No. 1998-2 is the vehicle that will be used to ensure that all landowners in the Specific Plans pay their fair share of the public improvements. In addition, the CFD will generate funding for ongoing maintenance of landscaping and open space within the project areas.

Following is a brief description of both projects:

A. Carver-Bangs Specific Plan

On April 1, 1997, the City Council of the City of Modesto approved Resolution No. 97-161, thereby adopting the Carver-Bangs Specific Plan. The Specific Plan was subsequently amended by City Council Resolution 97-633. Carver-Bangs is a proposed 160-acre project bounded on the east by Carver Road, on the North by Bangs Avenue, on the south by the Pelandale-Snyder Specific Plan (discussed further below), and on the west by the Kiernan Business Park area. The Carver-Bangs Specific Plan will be developed under the City's Village Residential guidelines, which will yield approximately 800 single family residential units.

B. Pelandale-Snyder Specific Plan

The Pelandale-Snyder Specific Plan was approved by the City Council on January 16, 1996 by the adoption of Resolution No. 95-16, and was subsequently amended by City Council Resolutions 97-136 and 97-139. The Specific Plan area is bounded by Dale Road on the west, the extension of Pelandale Road on the north, Union Pacific Railroad on the east, and the Modesto Irrigation District canal and Snyder Avenue on the South. Approximately 227 acres of the project are designated Single Family Residential (SFR), and 57 acres are designated Multi-Family Residential; in total, 2,613 residential dwelling units are expected at buildout of the Specific Plan. In addition, 36 acres of the Specific Plan area will be used for an elementary school site, a City park, and a church.

II. STRUCTURE OF COMMUNITY FACILITIES DISTRICT No. 1998-2

A. Introduction

A Mello-Roos CFD may provide for the purchase, construction, expansion or rehabilitation of any real or tangible property, including public facilities and infrastructure improvements, with an estimated useful life of five (5) years or longer, which is necessary to meet increased demands placed upon local agencies as a result of development or rehabilitation occurring within the CFD. In addition, a CFD may pay for various public services and maintenance of public improvements, including parkways and open space.

The Resolution of Intention to Establish CFD No. 1998-2 (Resolution No. 98-582) was adopted by the City Council on November 3, 1998. After a public hearing and a successful election by landowners within the CFD, the CFD will be formed and the levy of a special tax will be authorized.

B. Boundaries of CFD 1998-2

As mentioned above, the initial boundaries of the CFD include portions of both the Carver-Bangs and Pelandale-Snyder Specific Plans. Additional property is expected to annex into the CFD in future years as development in the area expands. It is anticipated that property subsequently annexed into the CFD will be subject to the same special tax formula as property in the CFD from the start, with a maximum Facilities Special Tax (discussed further below) assigned to the property when it is annexed. Property in the Carver-Bangs Specific Plan is included within Tax Area A of the CFD, and parcels in Pelandale-Snyder make up Tax Area B of the CFD. A separate maximum tax has been calculated for each tax area, as discussed further in Section C below.

The boundaries of the CFD are shown on a boundary map that was approved by the City Council and recorded in Volume 3, page 5 of the Book of Maps of Assessment Districts and Community Facilities Districts in the Stanislaus County Recorder's Office. A copy of the CFD boundary map is provided as Appendix A of this CFD Public Report.

C. CFD Special Tax Structure

1. Facilities Special Tax

Each year, special taxes will be levied and collected from parcels within the CFD to pay costs associated with storm drainage and road improvements, as well as maintenance of these improvements (authorized facilities and maintenance costs are discussed in more detail below). The Rate and Method of Apportionment of Special Tax and Reimbursements ("RMA"), which describes in detail how the tax will be allocated among properties in the CFD, is included as Appendix B of this report.

As explained in Sections D and E of the RMA, two different special taxes will be levied within the CFD. First, a "Facilities Special Tax" will be levied to pay for capital improvements and appurtenant expenses, such as design, planning, engineering and inspection. The entire Facilities Special Tax will be collected prior to a final building permit inspection being completed or a certificate of occupancy being issued for new construction on a parcel within the CFD. Because each Specific Plan area is responsible for only the facilities required to serve that area, separate "tax areas" were established within the CFD to avoid any crossover of responsibility for the funding of required infrastructure. A separate Facilities Special Tax has been determined for each assessor's parcel that was included within each tax area at the time CFD No. 1998-2 was formed; Attachment 2 of Appendix B identifies the maximum Facilities Special Tax assigned to each parcel.

Section C.1 of the RMA (Appendix B) explains how the Facilities Special Tax obligation assigned to each original assessor's parcel will be reallocated when subdivision occurs. Regardless of changes in land use in future years, the maximum Facilities Special Tax revenues that can be collected from property in the CFD will never be reduced. In January 2002 and each January thereafter, the maximum Facilities Special Tax assigned to each assessor's parcel will be increased by four percent of the amount in effect in the prior year.

Section D of Appendix B sets forth a credit/reimbursement program which allows developers who have constructed and dedicated public improvements to take credits against the Facilities Special Taxes that would otherwise be paid until such credits equal the cost set forth in Appendix C of this CFD Public Report for the public improvements provided by the developer. Regardless of the actual cost incurred by the developer for construction of the public improvement(s), credits against the Facilities Special Tax can be taken until the amount credited is equal to the facility cost shown in Appendix C for that improvement(s). If the developer's project is built out and a balance remains to be credited, the developer will instead receive a cash reimbursement from Facilities Special Taxes collected from other property owners in the CFD until the combined amount of fee credits and cash reimbursements is equal to the cost of the public improvement(s) as shown in Appendix C of this report. All costs and reimbursements are subject to a four percent increase in January 2002 and each January thereafter.

Facility Special Tax credits and reimbursements will be applied based on a specified order of priority, which is identified in Attachment 1 of Appendix B. Until all facilities of a higher priority have been fully funded, a developer who builds an improvement that is of a lower priority will not receive fee credits or reimbursements. The order of priority is specific to each tax area, which means facilities of a lower priority may be funded in one tax area even if the higher priority facilities in the other tax area have not yet been fully funded. Appendix B provides a more detailed description of the credit/reimbursement program.

2. Maintenance Special Tax

The second special tax that can be levied in the CFD is the "Maintenance Special Tax"; which will be collected to pay costs associated with maintaining parkways and open space in both Specific Plan areas. Again, a separate maximum Maintenance Special Tax has been determined for Tax Area A and Tax Area B, as shown in the following table:

CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 1998-2 (CARVER-BANGS/PELANDALE-SNYDER) FISCAL YEAR 1998-99 MAXIMUM ANNUAL MAINTENANCE SPECIAL TAX*		
<i>Land Use Type</i>	<i>Tax Area A (Carver-Bangs)</i>	<i>Tax Area B (Pelandale-Snyder)</i>
Single Family	\$118 per unit	\$92 per unit
Multi-Family	\$945 per Acre	\$733 per Acre
Non-Residential	\$945 per Acre	\$733 per Acre

* Beginning in January 1999 and each January thereafter, the maximum Annual Maintenance Special Tax shall be increased by 4% of the amount in effect in the prior year. Each annual adjustment of the maximum Annual Maintenance Special Tax shall become effective on the subsequent July 1.

The Maintenance Special Tax will be collected each fiscal year on the property tax bills of all parcels in the CFD that have had a final building permit inspection conducted or a certificate of occupancy issued prior to June 1 of the preceding fiscal year.

III. FACILITIES AND SERVICES TO BE FUNDED BY CFD NO. 1998-2

The facilities and services described below are all facilities which the City of Modesto is authorized to finance and which are required to adequately meet the needs of CFD No. 1998-2. The special taxes required to pay for these facilities and services will be apportioned according to the "Rate and Method of Apportionment of Special Tax" included as Appendix B of this report.

Capital Improvements

A. Carver-Bangs (Tax Area A)

Following is a summary of the capital improvements to be funded through CFD No. 1998-2 to serve the Carver-Bangs Specific Plan. A detailed breakdown of facility components and the corresponding cost estimates is provided in Appendix C of this report.

Storm Drainage Improvements	\$1,494,750
Prescott Road	145,422
American Avenue	24,033
Bangs Avenue	254,305
Carver Road	57,270
American Avenue Canal Overcrossing	295,066
Class I Bike Trail	142,500
CFD Formation Costs	<u>67,500</u>
Total Capital Improvement Costs	\$2,480,847

B. Pelandale-Snyder (Tax Area B)

Storm Drainage Improvements	\$4,389,042
Dale Road	531,075
Prescott Road	628,297
Tully Road	1,011,016
Snyder Avenue	504,283
Class I Bike Trail	752,675
CFD Formation Costs	<u>67,500</u>
Total Capital Improvement Costs	\$7,883,888

Annual Maintenance Costs

A. Carver-Bangs

<u>Item</u>	<u>Quantity</u>	<u>Unit</u>	<u>Cost</u>	<u>Total Cost</u>
Bangs Avenue (South Side) 8' Landscape Strip (4,680 LF x 8' = 37,400 SF)	37,400	SF	\$0.72	\$26,957
American Avenue (East Side) 8' Landscape Strip (1,200 LF x 8' = 9,600 SF)	9,600	SF	\$0.72	\$6,912
Prescott Road 16' Center Median	10,500	SF	\$0.72	\$7,740
Prescott Road Treewell and Vine Blockouts with 10' Sidewalk and Masonry Wall (56 Each 5' x 5' Treewalls + 56 each 3' x 10' vine blockouts)	3,080	SF	\$0.72	\$2,218
Class I Bike Trail	1,308	SF	\$0.72	\$942
Pelandale Avenue (North Side) Landscape Strip	1,996	SF	\$0.72	\$1,437
Carver Road (West Side) (1,194 L.F. x 8' = 9,552 S.F.)	9,552	SF	\$0.72	\$6,877
Total Annual Maintenance Costs				<u>\$53,083</u>

B. *Pelandale-Snyder*

<u>Item</u>	<u>Quantity</u>	<u>Unit</u>	<u>Total Cost</u>	
Dale Road (East Side), 12' Wide Landscape Strip (1,255 LF x 12' = 14,700 SF)	14,700	SF	\$0.72	\$10,584
Prescott Road (East Side), 12' Wide Landscape Strip (1,225 LF x 12' = 14,700 SF)	14,700	SF	\$0.72	\$10,584
Prescott Road 16' Center Median	10,750	SF	\$0.72	\$7,740
Tully Road (Both Sides), 12' Wide Landscape Strip (2,650 LF x 12' = 21,800 SF)	31,800	SF	\$0.72	\$22,896
Tully Road 16' Center Median	10,750	SF	\$0.72	\$7,740
Class I Bike Trail	8,820	SF	\$0.72	\$6,350
Pelandale Avenue (South Side)	10,400	SF	\$0.72	\$7,488
Carver West Side Back-up Lots South of Pelandale Avenue (515 L.F. x 5' = 2,575)	2,575	SF	\$0.72	\$1,854
Landscaping Surrounding Storm Drain Basins	35,000	SF	\$0.72	\$25,200
Total Annual Maintenance Costs				\$100,436

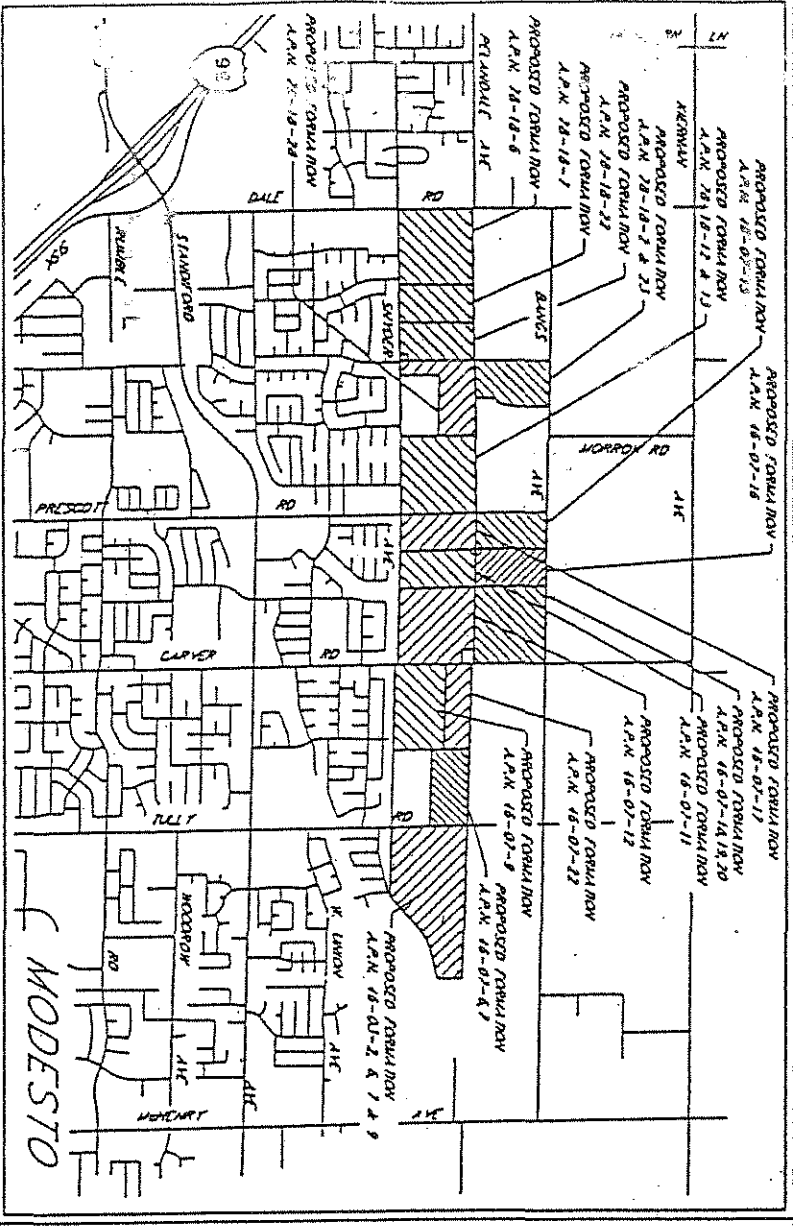

The description of facilities and services, as set forth herein, is general in nature. The final nature and location of improvements will be determined upon the preparation of final plans and specifications.

APPENDIX B

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT NO. 1998-2

RATE AND METHOD OF APPORTIONMENT OF
SPECIAL TAX AND REIMBURSEMENTS

EXHIBIT B

CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 1998-2 (CARVER-BANCS/PELANDALE-SNYDER)

RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX AND REIMBURSEMENTS

A special tax applicable to each Assessor's Parcel in Community Facilities District No. 1998-2 (herein "CFD No. 1998-2") shall be levied and collected according to the tax liability determined by the City Council of the City of Modesto, through the application of the appropriate amount or rate for Taxable Property, as described below. All of the property in CFD No. 1998-2, unless exempted by law or by the provisions of Section F below, shall be taxed for the purposes, to the extent, and in the manner herein provided, including property subsequently annexed to CFD No. 1998-2 unless a separate Rate and Method of Apportionment of Special Tax and Reimbursements is adopted for the annexation area.

A. DEFINITIONS

The terms hereinafter set forth have the following meanings:

"Acre or Acreage" means the land area of an Assessor's Parcel as shown on an Assessor's Parcel Map, or if the land area is not shown on an Assessor's Parcel Map, the land area shown on the applicable Final Map, parcel map, or other recorded County parcel map.

"Administration Component" means that portion of the Facilities Special Tax which must be paid (i.e., is not subject to fee credits) prior to a final building permit inspection being completed or a certificate of occupancy being issued for new construction (whichever occurs first) for any residential or non-residential structure. The revenue collected from the Administration Component will be used by the City to pay annual expenses, consultants' fees, and staff time associated with administering the CFD, monitoring the Authorized Facilities and effecting reimbursements, including but not limited to the following: (i) tracking development in the CFD, (ii) preparing the tax roll for the Annual Maintenance Special Tax, (iii) calculating and collecting the Facilities Special Tax, (iv) engineering, (v) planning, (vi) legal services, and (vii) acquisition and construction of land and improvements associated with the Authorized Facilities.

"Administrator" shall mean the person(s) or firm(s) designated by the City to administer the Special Tax according to this Rate and Method of Apportionment of Special Tax and Reimbursements.

"Annual Maintenance Special Tax" means a Special Tax levied in any Fiscal Year to pay the Maintenance Special Tax Requirement, as defined below.

"Assessor's Parcel" means a lot or parcel shown in an Assessor's Parcel Map with an assigned Assessor's Parcel number.

"Assessor's Parcel Map" means an official map of the County Assessor of the County of Stanislaus designating parcels by Assessor's Parcel number.

"Authorized Facilities" or "Authorized Facility" means those public improvements (including portions of such public improvements) to be funded by CFD No. 1998-2 as identified in Attachment 1 of this Rate and Method of Apportionment of Special Tax and Reimbursements, including appurtenant expenses such as planning, design, engineering and inspection.

"Buildable Lot" means an individual numbered lot which is in its final configuration and for which a building permit may be issued.

"CFD Costs" means the total amount shown in the CFD Public Report to cover costs associated with CFD formation, CFD administration, and engineering, legal services, planning and geotechnical studies related to the Authorized Facilities.

"CFD Public Report" means the report filed with the City Clerk on behalf of CFD No. 1998-2 pursuant to Section 53321.5 of the Mello-Roos Community Facilities Act of 1982.

"Church Property" means any Parcel within the CFD that is exempt from ad valorem property taxes because it is owned by a religious organization.

"City" means the City of Modesto.

"Council" means the City Council of the City of Modesto, acting as the legislative body of CFD No. 1998-2.

"Credit/Reimbursement Amount" means the sum of the portion of the CFD Costs and the costs of Authorized Facilities that have been paid in advance by a builder/developer and have not yet been reimbursed to that builder/developer through one of the following: (i) the application of Special Tax Credits (as defined below) or (ii) payments to the builder/developer from Facilities Special Taxes collected from other builders/developers in the CFD. The Credit/Reimbursement Amount outstanding at any point in time will be determined pursuant to Section D below.

"Facilities Special Tax" means a Special Tax collected by the City to pay for one or more of the following: (i) the costs of Authorized Facilities and CFD Costs, (ii) to reimburse a builder/developer who has an outstanding Credit/Reimbursement Amount, and (iii) if all Authorized Facilities have been completed, to pay for maintenance authorized to be funded by the CFD.

"Final Map" means a final map, or portion thereof, approved by the City pursuant to the Subdivision Map Act (California Government Code Section 66410 *et seq.*).

"Fiscal Year" means the period starting July 1 and ending on the following June 30.

"Maintenance Special Tax Requirement" means the amount necessary in any Fiscal Year to (i) pay for authorized maintenance expenses, (ii) pay administrative expenses of CFD No. 1998-2, and (iii) cure any delinquencies in the payment of Annual Maintenance Special Taxes levied in prior Fiscal Years or (based on delinquencies in the payment of Special Taxes which have already taken place) are expected to occur in the Fiscal Year in which the tax will be collected.

"Maximum Special Tax" means the maximum Special Tax, determined in accordance with Section C below, that can be levied by the City in any Fiscal Year on Taxable Property.

"Non-Residential Property" means, in any Fiscal Year, all Parcels for which a building permit has been issued for a commercial, office or industrial establishment or any other use which is not single family or multi-family residential property and which is not exempt from Special Taxes pursuant to Section F below.

"Order of Priority" means the order in which the Authorized Facilities and CFD Costs must be fully credited or reimbursed before Special Tax Credits can be made against the Facilities Special Tax or reimbursements paid to a builder/developer for other CFD facilities that are of lower priority. The Order of Priority is identified in Attachment 1 of this Rate and Method of Apportionment of Special Tax and Reimbursements.

"Original Parcel" means an Assessor's Parcel that will be further subdivided upon recordation of a Final Map. The Original Parcels in CFD No. 1998-2 at the time the Resolution of Formation of CFD No. 1998-2 was approved by the Council are listed in Attachment 2.

"Public Agency" means the federal government, State of California or other local governments or public agencies.

"Reimbursable Cost" means, for any of the Authorized Facilities, the amount shown in 1998 dollars in the CFD Public Report, which amount shall, beginning in January 2002 and each January thereafter, be increased by four percent (4%) of the amount in effect in the prior year.

"Special Tax Credit" means a waiver of the creditable portion of the Facilities Special Tax that would otherwise be due from a Parcel in the CFD if the builder/developer of that Parcel did not have an outstanding Credit/Reimbursement Amount.

"Subdivided Property" means, in any Fiscal Year, all Buildable Lots for which a final building permit inspection has taken place or a certificate of occupancy has been issued prior to June 1 of the preceding Fiscal Year.

"Successor Parcel" means an Assessor's Parcel of Taxable Property created by the subdivision or reconfiguration of an Original Parcel within the CFD.

"Taxable Property" means, in any Fiscal Year, all Parcels in CFD No. 1998-2 that have not been exempted from the Special Tax pursuant to Section F below.

"Tax Area A" means parcels within the Carver-Bangs Specific Plan Area, which Area is shown in Attachment 3A of this Rate and Method of Apportionment of Special Tax and Reimbursements.

"Tax Area B" means parcels within the Pelandale-Snyder Specific Plan Area, which Area is shown in Attachment 3B of this Rate and Method of Apportionment of Special Tax and Reimbursements.

B. ANNUAL MONITORING

The Administrator shall keep an ongoing record of the Acreage and current Assessor's Parcel numbers within Tax Area A and Tax Area B and, after July 1 of each Fiscal Year, shall identify the Assessor's Parcels which have become Subdivided Property and, therefore, will be subject to the levy of the Maintenance Special Tax in that Fiscal Year. The Administrator shall also continually monitor Subdivided Property to ensure the Facilities Special Tax is collected prior to final building permit inspection or issuance of a certificate of occupancy (whichever occurs first), unless the Parcel qualifies for a Special Tax Credit, as discussed further in Section D below.

C. MAXIMUM SPECIAL TAX

1. *Facilities Special Tax*

The maximum 1998 Facilities Special Tax for Original Parcels in CFD No. 1998-2 when the CFD was formed is shown in Attachment 2. Each time a Final Map is approved within the CFD or when Parcels in the CFD are otherwise subdivided or reconfigured, the Administrator shall reallocate the maximum Facilities Special Tax assigned to each Original Parcel to the Subsequent Parcels created by approval of the Final Map as follows:

- Step 1a. Identify the maximum Facilities Special Tax applicable to the Original Parcel being subdivided (the maximum Facilities Special Tax for Original Parcels in the CFD when the CFD was formed are shown in Attachment 2);
- Step 1b. Determine the Acreage of Taxable Property within the approved Final Map;
- Step 1c. Determine the total Acreage of Taxable Property within the Original Parcel being subdivided, including the Taxable Property within the Final Map;

- Step 1d. Divide the Acreage determined in Step 1b by the total Acreage of the Original Parcel determined in Step 1c to calculate a percentage;
- Step 1e. Multiply the percentage determined in Step 1d by the amount identified in Step 1a to calculate the maximum Facilities Special Tax to be allocated to the Final Map area. If a Final Map is approved for a portion of an Original Parcel, the maximum Facilities Special Tax that has not been allocated to the Final Map area will stay assigned to the remainder of the Taxable Property within the Original Parcel until it is further subdivided;
- Step 1f. Spread the maximum Facilities Special Tax calculated in Step 1e to each of the Successor Parcels within the Final Map area based on each Successor Parcel's share of the Acreage of Taxable Property within the Final Map.

After each reallocation of the maximum Facilities Special Tax upon subdivision or reconfiguration of Original Parcels, the sum of the maximum Facilities Special Tax assigned to Subsequent Parcels shall never be less than the maximum Facilities Special Tax assigned to the Original Parcel(s) prior to such reallocation. Beginning in January 2002 and each January thereafter, the maximum Facilities Special Tax assigned to each Parcel shall be increased by four percent (4%) of the amount in effect in the prior year.

2. *Annual Maintenance Special Tax*

All Subdivided Property within the CFD shall be subject to an Annual Maintenance Special Tax that shall be levied each Fiscal Year to meet the Maintenance Special Tax Requirement. The Annual Maintenance Special Tax shall be reflected as an annual lien on each Parcel in CFD No. 1998-2 and is anticipated to stay with the property and be paid each year by the current homeowner or property owner. The following maximum rates apply to all Parcels of Taxable Property within CFD No. 1998-2 for Fiscal Year 1998-99:

CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 1998-2 (CARVER-BANGS/PELANDALE-SNYDER) FISCAL YEAR 1998-99 MAXIMUM ANNUAL MAINTENANCE SPECIAL TAX*		
<i>Land Use Type</i>	<i>Tax Area A (Carver-Bangs)</i>	<i>Tax Area B (Pelandale-Snyder)</i>
Single Family	\$118 per unit	\$92 per unit
Multi-Family	\$945 per Acre	\$733 per Acre
Non-Residential	\$945 per Acre	\$733 per Acre

* Beginning in January 1999 and each January thereafter, the maximum Annual Maintenance Special Tax shall be increased by 4% of the amount in effect in the prior year. Each annual adjustment of the maximum Annual Maintenance Special Tax shall become effective on the subsequent July 1.

D. IMPLEMENTATION OF CREDIT/REIMBURSEMENT PROGRAM

Certain builders/developers may be required to pay CFD Costs and fund and construct Authorized Facilities that are ultimately intended to be funded from Facilities Special Tax revenues. The City shall implement a Special Tax Credit and reimbursement program, which will ensure that builders/developers that pay more than their fair share of the CFD Costs and/or Authorized Facilities costs will be reimbursed for the overage.

At the request of the landowners and developers at the time this Rate and Method of Apportionment was prepared and CFD No. 1998-2 was formed, all credits and reimbursements to builder/developers who provide Authorized Facilities shall be in amounts equal to the costs set forth for those Authorized Facilities in the CFD Public Report (except as adjusted as described below). Pursuant to this request, whether the actual cost to build an Authorized Facility is higher or lower than the amount shown in the CFD Public Report for that Authorized Facility, a builder/developer shall be credited and/or reimbursed for the dollar amount included in the CFD Public Report for that Authorized Facility. If there is a cost savings for one Authorized Facility and a cost overrun for another, there is no opportunity pursuant to this Rate and Method of Apportionment for the cost savings to offset the cost overrun.

The following steps shall be applied to implement the credit/reimbursement program:

On an Ongoing Basis

- In January 2002 and each January thereafter, the Administrator shall escalate the following items by four percent (4%): (i) the Facilities Special Tax assigned to each Parcel, (ii) the Credit/Reimbursement Amount outstanding for any builder/developer, and (iii) the costs of Authorized Facilities that have not yet been constructed. An updated list of these three items shall be available each year by February 15.

- The Administrator will keep a current list of the adjustments that have been applied in each year to the items listed above.
- The Administrator will keep track of which Authorized Facilities shown in Attachment 1 have been fully credited or reimbursed to establish the next Authorized Facility to be funded according to the Order of Priority.
- For builder/developers who pay more than their pro-rata share of the cost of particular Authorized Facilities and/or CFD Costs and are due a reimbursement after applying Special Tax Credits, the Administrator shall keep track of the date on the "Notice of Completion of Public Facilities to be Acquired by CFD No. 1998-2" (or other such certificate issued by the City) to ensure that reimbursements of costs that fall within the same Order of Priority will be made on a first incurred/first paid basis.

When a Final Map is Approved by the City Council:

- Step 1.* The Administrator shall determine which Authorized Facilities the builder/developer subdividing the property has funded;
- Step 2.* The Administrator shall determine the Order of Priority for the Authorized Facilities funded by the builder/developer. If the improvements are not first in the Order of Priority, the Administrator shall determine whether facilities that are of a higher priority have yet been fully reimbursed or credited;
- Step 3.* By reference to the detailed cost estimates set forth in the CFD Public Report, the Administrator shall determine the estimated 1998 cost that had been included in the maximum Facilities Special Tax for the Authorized Facilities provided by the builder/developer;
- Step 4.* Using 2002 as the first year of escalation, the Administrator shall escalate the cost of the Authorized Facilities (as shown in the CFD Public Report) provided by the builder/developer to the year in which the Credit/Reimbursement Amount is being calculated. This escalation shall apply on an annual basis (i.e., subtract 2001 from the then current year to determine how many years worth of escalation to apply) and shall be compounded in the same manner as the Facilities Special Tax has been escalated. This escalated cost represents the total Credit/Reimbursement Amount due to the builder/developer, the balance of which, as of the year 2002 and each year following, shall be escalated by four percent (4%) each year until fully reimbursed or credited against Facilities Special Taxes paid by the builder/developer.

Prior to final building permit inspection or issuance of a certificate of occupancy
(whichever occurs first)

Note: the following steps may be applied to a single Parcel or a group of Parcels (i.e., all residential lots within a particular Final Map)

The Administrator shall determine if the builder/developer has an outstanding Credit/Reimbursement Amount and apply one of the following:

Step 1. If there is an outstanding Credit/Reimbursement Amount for the builder/developer, the Administrator shall apply the following steps to determine if a Facilities Special Tax is due from the subject Parcel(s):

Step 1a. Identify the Facilities Special Tax that would have been paid by the Parcel(s) if no Credit/Reimbursement Amount were outstanding;

Step 1b. Multiply the amount determined in Step 1a by .07 to calculate the Administration Component, which shall be due and payable to the City prior to final building permit inspection or issuance of a certificate of occupancy (whichever comes first);

Step 1c. Subtract the Administration Component calculated in Step 1b from the Facilities Special Tax identified in Step 1a to calculate the net amount that could be collected for facility costs, and apply one of the following:

- *If the net amount determined in Step 1c is less than the outstanding Credit/Reimbursement Amount for the builder/developer, the Administration Component calculated in Step 1b shall be collected and the builder/developer shall be given a Special Tax Credit against the remainder of the Facilities Special Tax for that Parcel(s). After the Special Tax Credit has been calculated, the Administrator shall subtract that amount from the outstanding Credit/Reimbursement Amount for that builder/developer.*

- *If the net amount determined in Step 1c is greater than the outstanding Credit/Reimbursement Amount for the builder/developer, subtract the outstanding Credit/Reimbursement Amount from the net amount of Facilities Special Tax calculated in Step 1c to determine the amount that must be paid by the builder/developer. If the calculation is being prepared*

for multiple Parcels at one time, the builder/developer may use up the remaining Credit/Reimbursement Amount by taking Special Tax Credits against the first lots to develop and pay the remaining balance when the subsequent lots develop. The Administrator shall update the CFD records to reflect a zero Credit/Reimbursement Amount for that builder/developer.

Step 2. If there is not an outstanding Credit/Reimbursement Amount for the builder/developer, the Administrator shall apply the following steps:

Step 2a. Identify the Facilities Special Tax assigned to the Parcel(s), which shall be due and payable to the City prior to final building permit inspection or issuance of a certificate of occupancy (whichever comes first);

Step 2b. Multiply the amount determined in Step 2a by .07 to calculate the Administration Component, which shall remain on deposit with the City;

Step 2c. Subtract the Administration Component calculated in Step 2b from the Facilities Special Tax identified in Step 2a to calculate the net amount that shall be collected to provide reimbursements to builder/developers with outstanding Credit/Reimbursement Amounts;

Step 2d. Determine whether there is an outstanding Credit/Reimbursement Amount due other builder/developers in the CFD and apply one of the following:

- *If there are outstanding Credit/Reimbursement Amounts*, look at the Order of Priority of the Authorized Facilities for which a Credit/Reimbursement Amount is due. In addition, identify the dates on the "Notice of Completion of Public Facilities to be Acquired by CFD No. 1998-2" (or other such certificate issued by the City) which were provided to each builder/developer for which a Credit/Reimbursement Amount is outstanding. Reimbursements shall be paid based on the Order of Priority and, if there are multiple Credit/Reimbursement Amounts due within the same priority level, based on the date on which a "Notice of Completion of Public Facilities to be Acquired by CFD No. 1998-2" was issued to each

builder/developer. After the reimbursements are made, the Administrator shall reduce the Credit/Reimbursement Amount for the builder/developer(s) who received reimbursement by the amount of such reimbursement.

If there are no outstanding Credit/Reimbursement Amounts due any builder/developer, the City shall deposit the Facilities Special Tax into an account which will be designated for funding the Authorized Facilities. The balance in this fund will be used either to pay directly for the construction of Authorized Facilities or to reimburse a builder/developer who constructs Authorized Facilities in future years. The interest earned on funds in this account shall accrue to the account for the same purposes.

E. METHOD OF LEVY AND COLLECTION OF THE SPECIAL TAX

1. Facilities Special Tax

The maximum Facilities Special Tax determined pursuant to Section C above shall be collected prior to a final building permit inspection being completed or a certificate of occupancy being issued for new construction (whichever occurs first) for any residential or non-residential structure within CFD No. 1998-2 and shall be immediately delinquent if not so paid.

2. Annual Maintenance Special Tax

Commencing with Fiscal Year 1999-00 and for each following Fiscal Year, the Administrator shall determine the Maintenance Special Tax Requirement for that Fiscal Year. The Annual Maintenance Special Tax shall then be levied on all Parcels of Subdivided Property as follows:

Step 1: Calculate the total Maintenance Special Tax revenues that could be collected from Subdivided Property within the CFD, based on application of the maximum Annual Maintenance Special Tax rates determined pursuant to Section C.2 above;

Step 2: Divide the Maintenance Special Tax Requirement by the maximum revenues that could be collected as determined in Step 1;

Step 3: If the ratio determined in Step 2 is greater than or equal to 1, levy the maximum Annual Maintenance Special Tax determined pursuant to Section C.2 on all Subdivided Property in the CFD. If the ratio determined in Step 2 is less than 1, continue to Step 4.

Step 4: If the ratio determined in Step 2 is less than 1, levy the maximum Annual Maintenance Special Tax against all Parcels of Subdivided Property in equal percentages up to 100% of the maximum Annual Maintenance Special Tax determined pursuant to Section C.2 above until the amount so levied equals the Maintenance Special Tax Requirement for the Fiscal Year.

The Annual Maintenance Special Tax for CFD No. 1998-2 shall be collected in the same manner and at the same time as ordinary ad valorem property taxes, provided, however, that CFD No. 1998-2 may (under the authority of Government Code Section 53340), in any particular case, bill the taxes directly to the property owner, off the County tax roll, and the Special Taxes will be equally subject to foreclosure if delinquent as annual Special Taxes levied on the County tax roll.

In no event shall the Maintenance Special Tax levied and collected in one Tax Area be increased due to delinquencies in the other Tax Area.

F. LIMITATIONS

Notwithstanding any other provision of this Rate and Method of Apportionment of Special Tax and Reimbursements, no Special Tax shall be levied on structures built on land that has been conveyed to a Public Agency, except as otherwise provided in Sections 53317.3 and 53317.5 of the Mello-Roos Community Facilities Act of 1982. No Annual Maintenance Special Tax shall be levied on Church Property unless such Church Property is built on a Parcel or Parcels that had previously been developed with residential or non-residential land uses which had paid the Annual Maintenance Special Tax. The maximum Annual Maintenance Special Tax assigned to such Church Property would be equal to the maximum Annual Maintenance Special Tax that had previously been assigned to the residential or non-residential land uses on the property.

The Maintenance Special Tax will continue to be levied and collected unless and until the City determines that Maintenance Special Tax revenues are no longer needed to pay authorized services of the CFD.

G. ENFORCEMENT

All delinquent Facility Special Taxes, or delinquent Annual Maintenance Special Taxes billed off the County tax roll, shall be subject to an immediate 10% penalty plus simple interest charges of

1.5% as of the first day of the month after the delinquency date and on the first day of each month thereafter. Any such delinquent Special Taxes shall, at the City's discretion, be placed on the next secured property tax roll. The amount placed on the roll shall include the 10% penalty and the interest charges through the following January 1. This shall not prevent the City from simultaneously pursuing the delinquency by an action on a contract or guarantee against a third party who promised to pay the taxes, or from assigning such right of action to the property owner or other appropriate party.

ATTACHMENT 1

COMMUNITY FACILITIES DISTRICT NO. 1998-2 (CARVER BANGS/PELANDALE-SNYDER) ORDER OF PRIORITY OF AUTHORIZED FACILITIES

First Priority

- Storm drain basin construction (including but not limited to basins, inlet structures, pipelines, and fencing)
- Storm drain trunkline in Snyder Avenue adjacent to school and park sites
- CFD Costs (as identified in the CFD Public Report)
- Engineering design costs for storm drain related improvements (including geotechnical)

Second Priority

- Storm drain basin land purchase for both basins (Van Konynenburg properties), east and west of Modest Irrigation District lateral No. 6

Third Priority

- Storm drain trunk lines (other than trunkline in Snyder Avenue adjacent to school and park sites)

[Note that storm drain trunk lines are specific to each tax area and will remain a third priority within a tax area until all trunk lines within that tax area are credited or reimbursed.]

Fourth Priority

- Storm drain pump station, piping and landscaping around storm drainage basin

Fifth Priority, Tax Area A (Carver Bangs)

- Bike trail
- American Avenue
- Prescott Road
- Bangs Avenue
- Carver Road
- American Avenue crossing of Modest Irrigation District lateral No. 6
- Pedestrian bridge crossing of Modesto Irrigation District lateral No. 6

Fifth Priority, Tax Area B (Pelandale-Snyder)

- Bike trail
- Dale Road
- Prescott Road
- Tully Road
- Snyder Avenue (opposite)
- Tully/Snyder traffic signal

NOTES:

1. THE ABOVE ESTIMATE IS FOR THE PORTION OF PRESCOTT ROAD IMPROVEMENTS WHICH IS ABOVE AND BEYOND A NORMAL CITY STANDARD COLLECTOR STREET (60' WIDE) AND WHICH IS NOT FUNDED THROUGH THE CITY'S CFF PROGRAM. (SEE FIGURE 2).
2. THE ABOVE ESTIMATE ONLY INCLUDES THE STORM DRAIN COSTS FOR THE CATCH BASINS, STORM DRAIN CATCH BASIN LATERALS AND STORM MANHOLES WHICH IS ASSUMED TO BE A PROPORTIONATE SHARE OF THE STORM IMPROVEMENTS. THE "MAINLINE" STORM DRAIN IMPROVEMENTS ARE TO BE INSTALLED BY ADJACENT DEVELOPMENT.

PRESCOTT ROAD SECTION

(MID-BLOCK)

NOTES:

1. BASED ON CITY POLICY, THE PORTION OF THE ROADWAY IMPROVEMENTS ABOVE AND BEYOND THE ADJACENT DEVELOPER'S RESPONSIBILITY IS INCLUDED IN THE CFF PROGRAM. THE CFF PORTION GETS WIDER AS THE ROAD SECTION FLARES AT THE PRESCOTT/BANGS AND PRESCOTT/PELANDALE INTERSECTIONS.
2. BASED ON CITY POLICY, 40' OF IMPROVEMENTS ARE CONSTRUCTED BY THE ADJOINING DEVELOPMENT. THE CFF SECTION IS CONSTANT AT THE FLARED INTERSECTIONS.
3. THE STANDARD CITY CROSS SECTION FOR A MINOR COLLECTOR STREET IS 60' TOTAL. COLLECTOR STREETS ARE ENTIRELY CONSTRUCTED BY THE ADJOINING DEVELOPMENT.
4. THE REMAINING PORTION THAT IS NOT FUNDED BY THE CITY'S CFF PROGRAM AND IS NOT WITHIN THE STANDARD 60' MINOR COLLECTOR SECTION IS INCLUDED WITHIN THE CFF.

NOTES:

1. THE ABOVE ESTIMATE IS FOR THE PORTION OF AMERICAN AVENUE IMPROVEMENTS WHICH IS ABOVE AND BEYOND A NORMAL CITY STANDARD COLLECTOR STREET (60' WIDE) AND WHICH IS NOT FUNDED THROUGH THE CITY'S CFF PROGRAM. (SEE FIGURE 3).
2. THE ABOVE ESTIMATE ONLY INCLUDES THE STORM DRAIN COSTS FOR THE CATCH BASINS, STORM DRAIN CATCH BASIN LATERALS AND STORM MANHOLES WHICH IS ASSUMED TO BE A PROPORTIONATE SHARE OF THE STORM IMPROVEMENTS. THE "MAINLINE" STORM DRAIN IMPROVEMENTS ARE TO BE INSTALLED BY ADJACENT DEVELOPMENT.

AMERICAN AVENUE SECTION

(MID-BLOCK-LOOKING NORTH)

NOTES:

1. BASED ON CITY POLICY, THE PORTION OF THE ROADWAY IMPROVEMENTS ABOVE AND BEYOND THE ADJACENT DEVELOPERS RESPONSIBILITY IS INCLUDED IN THE CFF PROGRAM. THE CFF PORTION GETS WIDER AS THE ROAD SECTION FLARES AT THE PRESCOTT/BANGS AND PRESCOTT/PELHAM INTERSECTIONS.
2. BASED ON CITY POLICY, 40' OF IMPROVEMENTS ARE CONSTRUCTED BY THE ADJOINING DEVELOPMENT. THE 40' SECTION IS CONSTANT AT THE FLARED INTERSECTIONS.
3. THE STANDARD CITY CROSS SECTION FOR A MINOR COLLECTOR STREET IS 60' TOTAL. COLLECTOR STREETS ARE ENTIRELY CONSTRUCTED BY THE ADJOINING DEVELOPMENT.
4. THE REMAINING PORTION THAT IS NOT FUNDED BY THE CITY'S CFF PROGRAM AND IS NOT WITHIN THE STANDARD 60' MINOR COLLECTOR SECTION IS INCLUDED WITHIN THE CFF.

Preliminary Engineer's Estimate
October 23, 1998

NOTES:

1. THE ABOVE ESTIMATE ASSUMES THE PHASE 1A INTERIM PELANDALE AVENUE WILL BE CONSTRUCTED ON THE WEST SIDE OF PRESCOTT AND A PORTION OF THE IMPROVEMENTS (APPROXIMATELY 650 L.F. FROM THE SNYDER INTERSECTION) WILL BE REMOVED FOR THE ULTIMATE IMPROVEMENTS. THE REMAINING INTERIM SECTION IS ASSUMED TO REMAIN AND BE OVERLAYED WITH 2" A.C.
2. THE ABOVE ESTIMATE DOES NOT INCLUDE THE CENTER 20' PORTION OF PRESCOTT ROAD SINCE IT IS INCLUDED IN THE CFF PROGRAM.
3. THE ABOVE ESTIMATE DOES NOT INCLUDE THE MAINLINE STORM DRAIN IMPROVEMENTS SINCE THOSE COSTS ARE INCLUDED WITH THE STORM DRAIN COMPONENT OF THE CFD.
4. THE ABOVE ESTIMATE INCLUDES ALL NECESSARY CATCH BASINS. THIS CATCH BASIN ESTIMATE WAS TAKEN DIRECTLY FROM THE APPROVED "ALMOND VALLEY SUBDIVISION" IMPROVEMENT PLANS.
5. THE R-VALUE ASSUMPTIONS WERE DERIVED FROM SOILS REPORTS PREPARED BY KLEINFELDER, INC. FOR THE FOLLOWING SUBDIVISIONS: KENSINGTON PARK, TUSCANY, EASTPORT AND ALMOND VALLEY.

NOTES:

1. THIS ESTIMATE ITEM II IS FOR THE ENTIRE COST OF THE CENTER 34 FEET OF TULLY ROAD IMPROVEMENTS. THE CENTER 34 FEET OF IMPROVEMENTS ON TULLY ROAD ARE FUNDED BY THE CFF PROGRAM, HOWEVER, THE FUNDS ARE NOT AVAILABLE FOR THE ENTIRE PROJECT SO A PORTION OF THE PROJECT NOT FUNDED BY CFF WILL BE FUNDED BY THE PELANDALE-SNYDER CFD.
2. THIS ESTIMATE IS BASED ON THE ASSUMPTION THAT THE CENTER 26+/- FEET OF EXISTING PAVEMENT WILL REMAIN AND ADJACENT DEVELOPMENT WILL BE REQUIRED TO MATCH EXISTING PAVEMENT.
3. THE ABOVE COST ESTIMATE INCLUDES THE COST FOR IMPROVEMENTS FROM THE NORTH SIDE OF THE MODESTO IRRIGATION DISTRICT LATERAL TO PELANDALE AVENUE.
4. THE TULLY ROAD IMPROVEMENTS INCLUDE A COST TO REMOVE AND REPLACE THE EXISTING IMPROVEMENTS ALONG THE BIG VALLEY GRACE COMMUNITY CHURCH FRONTAGE (50' EXISTING TO 57' CITY STANDARD) TO BRING THE CROSS SECTION TO CITY STANDARD. HOWEVER, SPECIFIC DECELERATION OR ACCELERATION LANES WHICH ARE SITE SPECIFIC IMPROVEMENTS ARE NOT INCLUDED IN THE ESTIMATE.
5. THE RIGHT-OF-WAY COSTS ARE THE REQUIRED DEDICATIONS FOR RIGHT OF WAY BEYOND THE ALREADY EXISTING DEDICATIONS.
6. THE R-VALUE ASSUMPTIONS WERE DERIVED FROM SOILS REPORTS PREPARED BY KLEINFELDER, INC. FOR THE FOLLOWING SUBDIVISIONS: KENSINGTON PARK, TUSCANY, EASTPORT AND ALMOND VALLEY

NOTES:

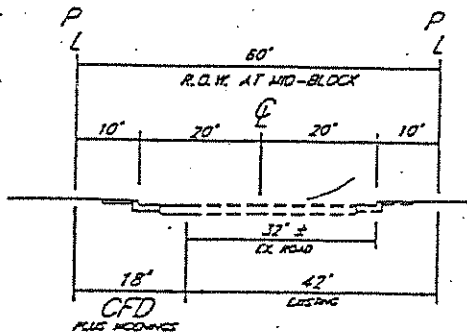

A. SNYDER AVENUE ADJACENT TO STORM DRAIN BASIN

1. THE SNYDER AVENUE IMPROVEMENTS ADJACENT TO THE STORM DRAINAGE BASIN, INCLUDE THE COST FOR IMPROVEMENT FROM THE WEST SIDE OF THE PROPOSED BASIN PROPERTY TO THE RETURN AT PRESCOTT ROAD.
2. THE RIGHT-OF-WAY COSTS IS THE AREA OF DEDICATION REQUIRED ASSUMING AN EXISTING 20 FOOT DEDICATION ON THE NORTH SIDE OF SNYDER AVENUE.

B. SNYDER AVENUE SOUTH SIDE ADJACENT TO BIKE TRAIL

1. THE SNYDER AVENUE IMPROVEMENTS INCLUDE THE COSTS FOR ROADWAY IMPROVEMENTS (EXCLUDING BIKE TRAIL) SOUTH OF THE CENTERLINE (20') FROM PRESCOTT ROAD TO CARVER ROAD.
2. THE RIGHT-OF-WAY AREA TO BE INCLUDED WITHIN THIS CFD ALONG SNYDER AVENUE BETWEEN PRESCOTT ROAD AND CARVER ROAD IS AS FOLLOWS:
 - A. VARYING RIGHT-OF-WAY WIDTH FROM 1.8+/- FEET TO 12.5+/- FEET FROM THE PROPOSED NEW SNYDER AVENUE CENTERLINE TO THE EXISTING SNYDER AVENUE DEDICATION.
 - B. 20' WIDTH RIGHT-OF-WAY FROM PROPOSED NEW SNYDER CENTERLINE NORTH. ADJACENT DEVELOPMENT WOULD BE RESPONSIBLE FOR A 10 FOOT WIDTH RIGHT-OF-WAY DEDICATION ALONG THE NORTH SIDE OF SNYDER AVENUE.
3. NO "MAINLINE" STORM DRAIN IMPROVEMENTS ARE INCLUDED SINCE THOSE COSTS ARE INCLUDED WITHIN THE STORM DRAIN COMPONENT OF THE C.F.D.
4. NO COSTS ARE INCLUDED IN THIS ESTIMATE FOR THE CLASS I BIKE TRAIL ADJACENT TO SNYDER AVENUE.
5. THE PAVEMENT REMOVAL QUANTITIES INCLUDES THE COST TO REMOVE THE ENTIRE EXISTING PAVEMENT SECTION FROM PRESCOTT ROAD TO CARVER ROAD.
6. THIS ESTIMATE INCLUDES A COST TO ABANDON EXISTING STORM DRAIN PUMP STATION NO. 47 ASSUMING CONNECTION TO THE POSITIVE STORM DRAIN SYSTEM.
7. NO COST FOR EXISTING POWER POLE RELOCATION IS INCLUDED IN COSTS.
8. THE R-VALUE ASSUMPTIONS WERE DERIVED FROM SOILS REPORTS PREPARED BY KLEINFELDER, INC. FOR THE FOLLOWING SUBDIVISIONS: KENSINGTON PARK, TUSCANY, EASTPORT AND ALMOND VALLEY

Dated: April 22, 2003

JEAN ZAHR
City Clerk of the City of Modesto

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-197**

**A RESOLUTION APPROVING THE FINAL MAP OF THE COVINGTON
POINTE SUBDIVISION OF THE CITY OF MODESTO AND AUTHORIZING
THE CITY MANAGER TO EXECUTE A SUBDIVISION AGREEMENT WITH
MODESTO TULLY INVESTORS, L.P., A CALIFORNIA LIMITED
PARTNERSHIP, BY MODESTO TULLY VENTRUES, LLC, A CALIFORNIA
LIMITED PARTNERSHIP COMPANY**

WHEREAS, MODESTO TULLY INVESTORS, L.P., A CALIFORNIA LIMITED PARTNERSHIP, is possessed of a tract of land situated in the City of Modesto, County of Stanislaus, consisting of 16.82 acres, known as the COVINGTON POINTE (“SUBDIVISION”), in the Pelandale-Snyder Specific Plan Area, and

WHEREAS, a tentative map of said tract was approved by the Planning Commission of the City of Modesto on the 13th day of November, 2002, and

WHEREAS, the Secretary of the Planning Commission of the City of Modesto has certified that the final map of said tract substantially conforms to the approved tentative map, and

WHEREAS, the City Engineer of the City of Modesto has certified that the final map of said SUBDIVISION meets all of the provisions of the California Subdivision Map Act and the provisions of the Modesto Municipal Code relating to subdivisions, and that the map is technically correct,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that said final map be approved; that the dedications for streets, alleys and easements as shown thereon within the boundaries of said tract be accepted on behalf of the public for public use; and that the City Clerk be authorized to certify the map of said tract on behalf of the City of Modesto after the fees and deposits required by the Modesto Municipal

Code in amounts determined by the City Engineer have been paid; and after subdivider has furnished securities, as set forth in Section 4-4.605 of the Modesto Municipal Code, which shall secure the obligations set forth in Section 66499.3 of the Government Code of the State of California. Said securities shall be in forms acceptable to the City Attorney and in the amounts required by the City Engineer.

BE IT FURTHER RESOLVED that the City Manager and the City Clerk be authorized to execute and attest, respectively, an agreement with subdivider as required by Section 4-4.604(c) of the Modesto Municipal Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of April, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-198**

A RESOLUTION REJECTING BID FOR TIRE RECAPPING AND RELATED SERVICES AND AUTHORIZING RE-BIDDING THIS SCOPE OF WORK FOR A THREE (3) YEAR AGREEMENT WITH TWO (2) ONE-YEAR EXTENSION OPTIONS.

WHEREAS, the bids received for tire recapping and related services were opened at 11:00 a.m. on February 4, 2003, in the office of the City Clerk, and

WHEREAS, bid specifications stated vendors shall submit two (2) original bids, and

WHEREAS, two (2) vendors chose to respond with one vendor submitting two (2) original bids and one vendor submitting one (1) original bid, and

WHEREAS, to reject one of the two vendors based on the fact that one did not supply two (2) original bids would be counter productive to the competitive process.

Therefore, to ensure that the competitive process is met the Purchasing Division is requesting that Council authorize rejecting all bids from Request for Bid No. 0203-18 and allow the Purchasing Division to re-issue bids for tire recapping and related services, and

WHEREAS, re-bidding will allow for modifications in the bid specifications. The Purchasing Division will contact those bidders who chose not to respond to the first bid to find out why. Their reasons should be of benefit when writing the terms and conditions language used for the re-bid. In addition, the Purchasing Division will hold a bidders' conference addressing bid terms and conditions with the bidders, paying particular attention to the requirement of bidders submitting two (2) original bid documents. These efforts should provide a more competitive bid process by increased vendor inclusion, and

WHEREAS, both Modesto Municipal Code 8-3.203 and the bid language allow for all bids to be rejected.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the bids received for tire recapping and related services, Bid No. 0203-18, opened in the office of the City Clerk on February 4, 2003, are hereby rejected.

BE IT FURTHER RESOLVED that a request for bids for a three (3) year agreement with two (2) one-year extension options to re-bid the tire recapping and related services with modified specifications is hereby authorized.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of April, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2003-199**

**A RESOLUTION AUTHORIZING THE PURCHASE OF A JOHN DEERE 444H
LOADER UNDER THE STATE OF CALIFORNIA, DEPARTMENT OF
GENERAL SERVICES, CALIFORNIA MULTIPLE AWARD SCHEDULE (CMAS)
CONTRACT FROM NORTREX WEST OF FRENCH CAMP, CA. FOR A
TOTAL ESTIMATED COST OF \$91,678.41**

WHEREAS, the Operations and Maintenance Department-Fleet Services has requested the purchase of a John Deere 444H loader, and

WHEREAS, this unit has met its life expectancy, and

WHEREAS, this unit is fully funded for replacement from funds set aside out of the Fleet Replacement Fund, and

WHEREAS, the estimated cost of a new John Deere 444H loader purchased under a State of California, California Multiple Award Schedule (CMAS) contract is \$91,678.41, and

WHEREAS, the estimated State Service Charge for using the CMAS contract is \$1,567.67, and

WHEREAS, purchasing the equipment from Nortrex West under the CMAS contract will allow the City to receive the lowest possible price for the equipment, and

WHEREAS, the estimated total cost of this purchase is \$91,678.41, and

WHEREAS, the Modesto Municipal Code generally requires all purchases exceeding \$50,000 for materials and equipment of this type to be formally bid, and

WHEREAS, per MMC 8-3.204 (d) the Purchasing Supervisor may determine that a process other than the formal bid procedure set forth in Section 8-3.203 will result in a procurement for the City at the lowest possible cost commensurate with the desired quality,

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto hereby approves the purchase of a John Deere 444H loader from Nortrex West under the CMAS statewide pricing contract for a total estimated cost of \$91,678.41.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of April, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-200**

A RESOLUTION APPROVING ISSUANCE OF REQUESTS FOR PROPOSALS TO FIRMS PRE-QUALIFIED UNDER THE CITY'S REQUEST FOR QUALIFICATIONS PROCESS TO ASSIST IN UPDATING THE STORM WATER MANAGEMENT PLAN, MANDATED BY THE CITY'S "NATIONAL POLLUTION DISCHARGE ELIMINATION SYSTEM STORMWATER PERMIT - NPDES NO. CAS8083526" STORM WATER MANAGEMENT PROGRAM

WHEREAS, on November 16, 1990, the Environmental Protection Agency published regulations that required municipalities over 100,000 in population to apply for a National Pollution Discharge Elimination System (NPDES) municipal stormwater permit, and

WHEREAS, Council Resolution 2002-588 accepted the renewal of NPDES Stormwater Permit No. CAS8083526 prepared for the City of Modesto, and

WHEREAS, as part of this current NPDES Stormwater Permit, the RWQCB mandates the City to create a Storm Water Management Plan (SWMP) by July 1, 2003, which deadline has been extended from the original April 1, 2003 deadline, and

WHEREAS, within that Plan the City must develop the following programs:

- Construction Program
- Industrial/Commercial Program
- Municipal Program
- Illicit Discharge/Illicit Connection Program
- Education and Public Outreach Program
- Land-Use Planning for New Development and Redevelopment
- Training Program
- Assessment Tools / Performance Standards
- Fiscal Analysis

WHEREAS, City staff has been working on the SWMP, however, there are many complex issues and it will take technical and environmental experts approximately 2,500 additional man-hours to complete this comprehensive plan, and

WHEREAS, staff's already-heavy workload precludes completion of this project without outside assistance, and

WHEREAS, if the Plan is not completed by July 1, 2003 the City will be in violation of its NPDES Stormwater Permit, and

WHEREAS, staff prepared a qualification checklist and issued Requests for Qualifications to various firms who might be able to assist in update the Plan, and

WHEREAS five statements were returned with three of those having met all the required criteria,

NOW, THEREFORE BE IT HEREBY RESOLVED by the Council of the City of Modesto that the City of Modesto hereby send Requests For Proposals to the three qualified firms of:

Camp, Dresser & McKee, Inc
Eisenberg, Olivieri & Associates
Larry Walker & Associates

to assist in updating the NPDES Stormwater Permit's Storm Water Management Plan by the due date of July 1, 2003.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of April, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2003-201**

A RESOLUTION APPROVING XCLAMATION FEST 2003 HOSTED BY CHRIS RICCI PRESENTS, INC. AND JCD CONCEPTS 2000, INC. IN DOWNTOWN MODESTO ON SATURDAY JULY 19, 2003

WHEREAS, on April 25, 2000, by Resolution No. 2000-189, the City Council approved a license agreement with Chris Ricci Presents, Inc., to hold an annual Xclamation Fest (X-Fest), and

WHEREAS, this event will take place again on Saturday, July 19, 2003, and

WHEREAS, Mr. Ricci has met with the Modesto Police Department, the Downtown Improvement District, and the Modesto Centre Plaza staff in order to secure approval and coordination for the event, and

WHEREAS, this event is of financial benefit to the City of Modesto and downtown merchants, and

WHEREAS, the Safety & Communities Committee reviewed this item at its March 31, 2003, meeting and supported approval of the Xclamation Fest,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves Xclamation Fest 2003 to be held in Downtown Modesto on Saturday, July 19, 2003.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of April, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2002-204**

**A RESOLUTION APPROVING AN AMENDMENT TO AGREEMENT WITH-
CALLANDER ASSOCIATES LANDSCAPE ARCHITECTURE INC. TO
PROVIDE ADDITIONAL SERVICES RELATED TO THE PREPARATION OF
THE ENVIRONMENTAL DOCUMENTS FOR THE VIRGINIA AVENUE
CORRIDOR SPECIFIC PLAN PROJECT, INCREASING THE CONTRACTUAL
FEE BY \$72,640 FROM \$304,000 TO \$376,640 AND AUTHORIZING THE CITY
MANAGER TO EXECUTE THE AMENDMENT TO AGREEMENT.**

WHEREAS, the Virginia Avenue Corridor Trail Project consists of conversion of the abandoned 4.2 mile Union Pacific Railroad corridor to a linear park with Class I bikeway and pedestrian trail, and

WHEREAS, on October 8, 2001, the City Council approved an agreement with Callander Associates Landscape Architecture, Inc. to prepare a Specific Plan for the project with a professional service fee of \$304,000, and

WHEREAS, at that time, it was the intent of staff to have the environmental work prepared by a separate environmental consultant, and

WHEREAS, since that time, staff has determined that the environmental document preparation work could best be undertaken by Cotton-Bridges Associates, a sub-consultant of Callander Associates Landscape Architecture, Inc., and

WHEREAS, by including this work within a revised scope of the Agreement with Callander Associates, this firm will have direct oversight to provide coordination between the Specific Plan and the environmental documents, and

WHEREAS, both federal National Environmental Protection Act (NEPA) and State of California Environmental Quality Act (CEQA) compliance will be met so as to qualify the project for federal and state funding sources, and

WHEREAS, staff is recommending amending the Agreement with Callander Associates Landscape Architecture, Inc. to provide the additional work as described in Exhibit "A-1", attached hereto and incorporated by reference, increasing the contractual fee by \$72,640 from \$304,000 to \$376,640, and

WHEREAS, the Safety and Communities Committee met on March 31, 2003, and supported staff's recommendation to approve an Amendment to the Agreement with Callander Associates Landscape Architecture, Inc. to provide the additional work as described in Exhibit "A-1" and to increase the contractual fee by \$72,640 from \$304,000 to \$376,640,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves an Amendment to Agreement with Callander Associates Landscape Architecture, Inc. to provide additional services related to the preparation of the environmental documents for the Virginia Avenue Corridor Specific Plan project at a cost not to exceed \$72,640.

BE IT FURTHER RESOLVED that the City Manager or his designee is hereby authorized to execute the Amendment to Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of April, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

Callander Associates
Landscape Architecture, Inc.

Standard Schedule of Compensation 2003 (S)

General

The following list of fees and reimbursable expense items shall be used in providing service in the agreement. These amounts shall be adjusted in January, upon issuance of an updated Standard Schedule of Compensation:

Hourly Rates

Senior Principal	\$170/hour	Landscape Architect 3	\$79/hour
Principal	\$149/hour	Construction Manager	\$92/hour
Senior Associate	\$132/hour	Assistant 1	\$75/hour
Associate 1	\$128/hour	Assistant 2	\$68/hour
Associate 2	\$106/hour	Assistant 3	\$59/hour
Associate 3	\$96/hour	Technician	\$51/hour
Landscape Architect 1	\$92/hour	Word Processor	\$75/hour
Landscape Architect 2	\$85/hour	Project Assistant	\$75/hour

Reimbursable Expenses

All costs for photography, printing and plotting, special delivery, insurance certificate charges, charges for waivers of subrogation, local business licenses, sales taxes, assessments, fees, mileage, all CADD and visual simulation ancillary costs, such as data transfers, tapes and outside services, and all other costs directly related to the project will be billed as a reimbursable expense at our cost plus a fifteen percent (15%) administration charge. The cost of professional liability insurance and all costs associated with cell phones, electronic mail, faxes, long distance phone charges and related telecommunications shall be charged as a combined surcharge of 2.5% on the total fees.

Payments

Payments are due within ten days after monthly billing with amounts more than thirty days past due subject to a 1.5% per month interest charge. Retainer amounts, if indicated, are due upon signing the agreement and shall be applied to the final invoice for the project.

MODESTO CITY COUNCIL
RESOLUTION NO. 2003-205

A RESOLUTION APPROVING THE APPLICATION FOR \$37,200 IN LAND AND WATER CONSERVATION FUNDS FOR THE ORVILLE WRIGHT NEIGHBORHOOD PARK PICNIC SHELTER PROJECT AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE GRANT APPLICATION DOCUMENTS.

WHEREAS, the Congress under Public Law 88-578 has authorized the establishment of a Federal Land and Water Conservation Fund Grant-in-Aid Program, providing matching funds to the State of California and its political subdivisions for acquiring lands and developing facilities for public outdoor recreation purposes, and

WHEREAS, the State Department of Parks and Recreation is responsible for administration of the program in the state, setting up necessary rules and procedures governing application by local agencies under the program, and

WHEREAS, said adopted procedures established by the State Department of Parks and Recreation require the applicant to certify by resolution the approval of applications and the availability of local matching funds prior to submission of said application to the state, and

WHEREAS, the proposed Orville Wright Neighborhood Park Picnic Shelter Project is consistent with the Statewide Comprehensive Recreation Resources Plan: California Outdoor Recreation Plan 1994, and,

WHEREAS, the project must be compatible with the land use plans of those jurisdictions immediately surrounding the project,

~~NOW, THEREFORE, BE IT RESOLVED~~ by the Council of the City of Modesto that the Council hereby:

1. Approves the filing of an application for Land and Water Conservation Fund assistance in the amount of \$37,200 and
2. Certifies that said agency has matching funds from the following source: Park Fund 1400, and can finance 100 percent of the project, half of which will be reimbursed; and
3. Appoints the City Manager as agent of the city to conduct all negotiations and execute and submit all necessary grant application documents.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of April, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NUMBER 2003-206**

**A RESOLUTION AMENDING THE FISCAL YEAR 2002/03 BUDGET TO
TRANSFER FUNDS FROM THE ASSET FORFEITURE TRUST FUND TO THE
GENERAL FUND - POLICE OPERATIONS FOR THE PURCHASE OF TWO
CANINES**

WHEREAS, there have been two police canines retired from the Police
Department Canine Unit, and

WHEREAS, the Police Department needs to replace these dogs to maintain the
canine unit at full capacity, and

WHEREAS, costs, including travel to the kennel and air transport of the dogs, for
these canines is \$13,810 and

WHEREAS, the Asset Forfeiture Trust Fund has monies available for this
purchase,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto
that the 2002/03 Annual Budget is hereby amended as indicated below:

Appropriate:

To: 0100-190-1961-5297	\$13,810	Police Field Operations
------------------------	----------	-------------------------

Revenue:

From: 0100-190-1961-7202	\$13,810	Seized Forfeitures
--------------------------	----------	--------------------

BE IT FURTHER RESOLVED that the Finance Director is hereby authorized
to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of April, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2003-207**

**A RESOLUTION APPROVING AN AMENDMENT TO THE CONTRACT FOR
AUDIT SERVICES WITH VAVRINEK, TRINE, DAY & CO. FOR THE
COMMUNITY FACILITIES DISTRICTS AUDITS AT A COST NOT TO
EXCEED \$31,000, EXTENDING THE DUE DATE OF THE FINAL AUDIT
REPORTS TO THE MAY 13, 2003, COUNCIL MEETING, AND AUTHORIZING
THE CITY MANAGER TO EXECUTE THE CONTRACT AMENDMENT.**

WHEREAS, at its October 22, 2002, meeting the Modesto City Council adopted Resolution 2002-521 approving execution of a contract with Vavrinek, Trine, Day & Co. to perform audits of the City of Modesto Community Facilities Districts, and

WHEREAS, the City Manager executed said contract on behalf of the City of Modesto, and

WHEREAS, the audit firm has requested approval to perform additional work that is outside the scope of the original contract, at a price not to exceed \$31,000, and

WHEREAS, the contract for these audit services requires Modesto City Council approval for such additional work, and

WHEREAS, the additional work will require an extension of the due date of the final audit reports to May 13, 2003, at which time the reports will be presented to the Modesto City Council, and

WHEREAS, at its April 9, 2003, meeting the Audit Committee recommended that the Council approve both the additional work and the time extension to complete this work,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an amendment to the contract for audit services with Vavrinek, Trine, Day & Co., for the Community Facilities Districts audits, authorizing the additional work proposed, at a cost not to exceed \$31,000, and extending the due date of the final audit reports to the Council until May 13, 2003.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute said contract amendment.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of April, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION NO. 2003-208

A RESOLUTION APPROVING AN ANNUAL PAYMENT OF \$10,000 TO THE FOURTH OF JULY COMMITTEE OF THE MODESTO JAYCEES FOR THEIR ANNUAL PARADE, PICNIC IN THE PARK AND FIREWORKS

WHEREAS, by Resolution No. 96-308, the City Council granted approval to the Fourth of July Committee of the Modesto Jaycees (Committee) for their annual parade, picnic in the park and fireworks display, and

WHEREAS, in order to plan for this annual event, the Committee needs a financial commitment from the City of Modesto in advance of adoption of the City's budget, and

WHEREAS, the recommendation is made to approve an annual payment of \$10,000, with a two year termination clause,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves allocating an annual payment of \$10,000 to the Fourth of July Committee of the Modesto Jaycees to be renewed automatically on the first day of each fiscal year unless:

- (1) There was direct action on the part of City by the Mayor and City Council not to provide funding to support the Fourth of July Parade, Picnic in the Park and Fireworks Display presented by the Fourth of July Committee of the Modesto Jaycees. Should City decide not to provide funding, City shall give the Committee notice of its intent. The date the funding is terminated shall be on the date two years from the date of the written notice of said termination; or
- (2) Discontinuance of activities as described in Resolution No. 96-308. Should the Committee default in the performance of the activities described in Resolution No. 96-308 or materially breach any of its provisions, at its option, City may terminate this Agreement by giving written notification to the Committee. The termination date shall be on the date two-years from the

date of the notice. For the purposes of this section, material breach of their Agreement shall include, but not be limited to any of the following: failure to perform services or duties; failure to provide financial statements or to account for any funds allocated to Committee by the City of Modesto; or

- (3) Voluntary Termination. Either party may terminate this Agreement upon written notice to the other. The termination date shall be on the date two-years from the date of the written notice; or
- (4) This Agreement may be terminated immediately by City upon the conviction of the Fourth of July Committee or the Modesto Jaycees of illegal activities in the name of the Committee or City.

BE IT FURTHER RESOLVED that all provisions of Resolution No. 96-308, a copy of which is attached and incorporated herein by reference, shall remain in full force and effect.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of April, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003- 209**

A RESOLUTION APPROVING A SERVICE AGREEMENT WITH RUDY BONZI, INC. FOR THE COLLECTION OF INDUSTRIAL GARBAGE, SALVAGEABLE WASTE, AND INDUSTRIAL RECYCLABLES AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT.

WHEREAS, the Legislature of the State of California, by enactment of the California

Integrated Waste Management Act of 1990 ("AB 939"), has declared that it is within the public interest to authorize and require local agencies to make adequate provisions for handling solid waste, including garbage, garbage/recyclables, recyclables, yard waste, industrial garbage, and salvageable waste handling within their jurisdictions, and

WHEREAS, pursuant to California Public Resources Code Section 40059, the City

Council has determined that the public health, safety, and well-being require that a service agreement be executed with a qualified firm for the collection, transport, recycling, and disposal of solid waste, including garbage, garbage/recyclables, recyclables, containerized yard waste, industrial garbage, and salvageable waste in residential, commercial, and industrial areas and construction/demolition sites in the CITY, and

WHEREAS, the City Council declares its intention of maintaining reasonable rates for the services to be provided within the City limits by Rudy Bonzi, Inc., under this Agreement, and

WHEREAS, pursuant to California Public Resources Code Section 49510 (b), the City

Council finds that it is in the public interest to foster and encourage solid waste enterprises so that, at all times, there will continue to be competent enterprises willing and financially able to furnish needed solid waste handling services, and

WHEREAS, Sections 5-5.23 through 5-5.33 of the Modesto Municipal Code, inclusive, establish the process by which proposals may be submitted to enter into service agreements with the City, and the procedure by which the City reviews and determines whether to enter into such service agreements, and

WHEREAS, Rudy Bonzi, Inc. has submitted such a proposal to enter into a service agreement, and a public hearing was duly held on April 22, 2003 at 5:30p.m., in the Tenth Street Chambers, located at 1010 Tenth Street, Modesto, California, at which time the matter was considered, and

WHEREAS, the Economic Development Committee considered Rudy Bonzi's request for a Service Agreement at its meeting on March 10, 2003, and recommended its consideration to the full Council,

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto that a Service Agreement between the City of Modesto and Rudy Bonzi, Inc. is hereby approved, for the purposes of providing solid waste collection services in the area of Industrial garbage, salvageable waste, and industrial recyclables.

BE IT FURTHER RESOLVED by the Council that it hereby authorizes the City Manager, or his designee, to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 22nd day of April, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-221**

A RESOLUTION APPROVING THE APPLICATION FOR \$10,000 IN BIKES BELONG COALITION FUNDING FOR THE VIRGINIA CORRIDOR RAILS-TO-TRAILS PROJECT AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE GRANT APPLICATION DOCUMENTS.

WHEREAS, the Bikes Belong Coalition is a membership organization founded by bicycle industry leaders with the mission of "putting more people on bikes more often", and

WHEREAS, the Bikes Belong Coalition distributes grants for bicycle facility, education, and "capacity" projects, and

WHEREAS, the Virginia Corridor Rails-to-Trails Project is consistent with the Bikes Belong Coalition grant project criteria, and

WHEREAS, the Bikes Belong Coalition requires an authorized signature on grant application and contract documents,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the filing of an application for Bikes Belong Coalition assistance in the amount of \$10,000.

BE IT FURTHER RESOLVED that the City Manager or his designee is hereby authorized to execute and submit all necessary grant application documents.

**A RESOLUTION PROCLAIMING MAY 12-17, 2003, "CALIFORNIA BIKE
COMMUTE WEEK 2003."**

WHEREAS, bicycle commuting is an effective means to reduce air pollution, and

WHEREAS, bicycle commuting is an effective means to conserve energy, and

WHEREAS, bicycle commuting helps improve the "livability" of communities by reducing traffic noise and congestion, and

WHEREAS, bicycle transportation is an integral part of the "multi-modal" transportation system planned for by Federal, State, regional, and local transportation government agencies, and

WHEREAS, local bicycle commute promotions, often known as "Bike to Work Days" have been successful at encouraging bicycle commuting, and

WHEREAS, the California Bicycle Coalition, the American Lung Association of California and many public and private groups and individuals have worked together to promote a single week of bicycle commuting, and

WHEREAS, the month of May is "Clean Air Month" as part of the American Lung Association of California's efforts to promote air quality, and

WHEREAS, the month of May is National Bike Month to promote the bicycle as a means of transportation and recreation, and

WHEREAS, The City is co-sponsoring Modesto Bike to Work Day on May 15, 2003, and

WHEREAS, May 17, 2003, will be celebrated with the Seventh Annual "Modesto Family Cycling Festival & Criterium,"

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Modesto City Council urges all citizens to recognize the importance and benefits of bicycling as a zero-polluting transportation alternative, and hereby proclaims May 12-17, 2003, as "California Bike Commute Week 2003."
