OM-3. PARKS AND LANDSCAPE MAINTENANCE SERVICE LEVEL (Parks)		<p>The City's park maintenance service level rating will be at or near a "good" rating value of 3.</p>	<p>Since 1988-1989, the ratio of acres of developed park per full-time equivalent employee (FTE) has increased from 6.3 acres/FTE to 11.46 acres/FTE in 2002-2003. This increase is a result of decreasing labor resources and increasing park acreage. Consequently, service level ratings have declined in recent years.</p>					
<p>What: The City's park maintenance service level rating will be at or near a "good" rating value of 3.</p>	<p>Service Level Ratings* Excellent = 4 Good = 3 Fair = 2 Poor = 1</p>	<p>Service Level Ratings* Excellent = 4 Good = 3 Fair = 2 Poor = 1 *Based upon frequency of performance of parks maintenance tasks.</p>						
<p>Why: Rating is based on the frequency of performing a broad cross section of maintenance activities.</p>	<p>Strategic Plan Goals: I.A.1., I.A.2.</p>	<p>OM-4. PREVENTABLE PUBLIC INJURIES (Parks)</p>		<p>Number of preventable public injuries is less than 4 per fiscal year.</p>	<p>The City's Parks Maintenance crews continue to have an excellent safety record for preventable public injuries.</p>			
<p>What: Number of preventable public injuries occurring in the City's parks per fiscal year.</p>	<p>Number of Injuries Target = < 4</p>		<p>Why: Measures the effectiveness of maintenance crews in keeping parks safe and well-maintained.</p>	<p>Strategic Plan Goals: I.A.1., I.A.2.</p>	<p>OM-5. FACILITIES PREVENTIVE MAINTENANCE EFFECTIVENESS (Building Services)</p>		<p>On an annual basis, 90% of all scheduled facilities preventive maintenance is completed.</p>	<p>Since 1999-2000, staffing levels have stayed constant while the number of buildings maintained by Building Services continues to climb. In the 03-04 Operating Budget an additional maintenance position is requested to address deficiencies in this area.</p>
<p>What: Percent of facilities preventive maintenance performed on schedule.</p>	<p>Percent of Facilities Target</p>		<p>Why: Measures the effectiveness of maintenance crews in keeping buildings safe and well-maintained through preventive maintenance.</p>	<p>Strategic Plan Goals: I.A.1., I.A.2.</p>

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-493**

A RESOLUTION AWARDED THE BID AND APPROVING A \$318,933 CONTRACT WITH CLAYBORN CONTRACTING GROUP, FOR THE PROJECT TITLED "CONSTRUCT ELECTRICAL VAULT BUILDING, RELOCATE/UPGRADE ELECTRICAL VAULT EQUIPMENT, INSTALL EMERGENCY GENERATOR," AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT

WHEREAS, the bids received for the CONSTRUCT ELECTRICAL VAULT BUILDING, RELOCATE/UPGRADE ELECTRICAL VAULT EQUIPMENT, INSTALL EMERGENCY GENERATOR project were opened at 11:00 a.m. on July 22, 2003 and later tabulated by the Engineering and Transportation Director for the consideration of the Council, and

WHEREAS, the Engineering and Transportation Director has recommended that the bid of \$318,933.00 received from Clayborn Contracting Group, be accepted as the lowest responsible bid and the contract be awarded to Clayborn Contracting Group,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts the bid of \$318,933.00, and hereby awards Clayborn Contracting Group the contract titled "CONSTRUCT ELECTRICAL VAULT BUILDING, RELOCATE/UPGRADE ELECTRICAL VAULT EQUIPMENT, INSTALL EMERGENCY GENERATOR."

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of September, 2003, by Councilmember Conrad, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: None

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-494**

**A RESOLUTION APPROVING AN AMENDMENT TO SEWER
REIMBURSEMENT AGREEMENT BETWEEN THE CITY OF MODESTO AND
PHILLIP G. AND WILMA M. SILVA FOR AN 8" SEWER LATERAL IN LONE
PALM AVENUE**

WHEREAS, PHILLIP G. AND WILMA M. SILVA (Owners), installed 973
lineal feet of 8" sanitary sewer lateral in Lone Palm Avenue, and

WHEREAS, the sanitary sewer lateral will also serve other properties on Lone
Palm Avenue and the owners have requested reimbursement for a portion of the costs,
and

WHEREAS, on April 7, 1992, City Council Resolution 92-161 approved a sewer
reimbursement agreement for a portion of the costs of installation, and

WHEREAS, the agreement provides that the City will collect sewer lateral fees
from adjacent property owners as they connect to the sewer lateral and that said fees will
be used to reimburse OWNER for a portion of its costs of installing the sewer lateral and
appurtenances, and

WHEREAS, the agreement had a term of ten (10) years, after which Owners'
right to reimbursement would cease, and

WHEREAS, the former Director of Community Development Director
recommended that the agreement be extended for an additional term to allow ample time
for future connections to the sewer lateral to be made to facilitate reimbursement to
Owners, and

WHEREAS, for unknown reasons, said agreement was never amended and Owners have renewed their request for an extension of the agreement.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the term of the agreement between the CITY OF MODESTO and PHILLIP G. AND WILMA M. SILVA related to the reimbursement for installation of a sanitary sewer lateral be extended for an additional ten (10) years, and

BE IT FURTHER RESOLVED that the City Manager is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of September, 2003, by Councilmember Conrad, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-498**

A RESOLUTION INCREASING THE DIRECTOR OF ENGINEERING AND TRANSPORTATION'S AUTHORITY TO ISSUE CHANGE ORDERS ON THE "RENOVATION OF EXISTING POLICE HEADQUARTERS BUILDING – BID PACKAGE NO. 3" PROJECT FROM \$518,186 TO \$518,700, OR 22.75% OF THE ORIGINAL CONTRACT PRICE WITH BOLLO CONSTRUCTION, INC.

WHEREAS, on December 11, 2001, the City Council awarded a \$2,279,820 contract to Bollo Construction, Inc., to construct the Renovation of Existing Police Headquarters Building – Bid Package No. 3 project, and

WHEREAS, the contractor started work on February 4, 2002, and the work is complete, and

WHEREAS, on July 19, 1994, by Resolution No. 94-443, Council authorized the Director of Engineering and Transportation to approve change orders up to a cumulative amount of 8 percent of the original contract price on a project this size, and

WHEREAS, on April 23, 2002, by Resolution No. 2002-207, the City Council increased the Director of Engineering and Transportation's change order authority from 8 percent to 19 percent, and

WHEREAS, on October 8, 2002, by Resolution No. 2002-493, the City Council increased the Director of Engineering and Transportation's change order authority to \$518,186,

WHEREAS, during the course of construction 40 change orders were issued and the contractor was required to perform additional work that was not covered under the original contract, and

WHEREAS, the total cost of the extra work is approximately \$518,610, an amount which exceeds the Director's current authority for change orders for the project, and

WHEREAS, the Director currently has authority to approve change orders up to a cumulative amount of \$518,186, and an increase in authority is needed to pay for the additional work performed by the Contractor,

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that it hereby increases the Engineering and Transportation Director's authority level to issue change orders, from \$518,186 to \$518,700 for the project entitled "Renovation of Existing Police Headquarters Building – Bid Package No. 3."

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of September, 2003, by Councilmember Conrad, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**A RESOLUTION ESTABLISHING ANGLE PARKING IN THE CITY OF
MODESTO AND RESCINDING RESOLUTION NO. 2001-580**

WHEREAS, Article 10 of Chapter 2 of Title 3 of the Modesto Municipal Code authorizes the City Council, by resolution, to establish angle parking in the City of Modesto, and

WHEREAS, the Downtown Redevelopment Committee, has requested angle parking on the east side of 8th Street between J & K Streets and between K & L Streets to relieve some of the parking demand at the 9th Street Garage, and

WHEREAS, City staff has reviewed the geometrics and traffic flow at this location and has concluded that angled parking can be accommodated as requested without creating a hazard and without impeding traffic flow, and

WHEREAS, the Economic Development Committee considered the additional angle parking on 8th Street at its August 11, 2003, meeting and supported staff's recommendation,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. ANGLE PARKING. Angle parking in the City of Modesto is hereby established at the following locations:

2004-333

- Portions of 10th Street, between I & K Streets (west side)
(diagonal)
- 18th Street, between G and H Streets (west side) (diagonal)
- F Street, between 10th and 11th Streets (south side) (diagonal)
- I Street, between 9th and 12th Streets (both sides) (diagonal)
- P Street, between 9th and Needham Streets (both sides) (diagonal)
- Coldwell Avenue, between Tully Road and College Avenue
- 4th Street, between E Street and G Street (west side)
- 16th Street, between I Street and J Street (east side)
- Elm Street, between Jefferson and Washington Streets (diagonal)
- Jefferson Street, between 8th and Laurel Streets (diagonal)
- 13th Street, between H and L Streets (east side)
- J Street, between 7th Street and 8th Street (north side)
- 10th Street, between G Street and F Street (east side) (diagonal)
- F Street, between 10th Street and 11th Street (north side) (diagonal)
- 15th Street, between K Street and H Street (east side) (diagonal)

MODESTO CITY COUNCIL
BUSINESS LICENSE TAX
APPORTIONMENT GUIDELINES

A. Preamble

Pursuant to Section 6-1.436 of the Modesto Municipal Code, the City Council hereby issues the following apportionment guidelines to instruct taxpayers who do business in more than one city to divide their gross receipts between those cities to reduce the risk of multiple taxation. These guidelines are intended to guide City officials and their representatives in administering and enforcing the business license tax ordinance.

B. Apportioning Taxpayers

For purposes of the business license tax, also known as the mil tax, the City of Modesto ("City") regards as taxable gross receipts all receipts derived from the taxpayer's fixed place of business in the City, or from the taxpayer's business operations performed in the City, as recorded on the records of the business. If a portion of such receipts is derived from business conducted outside the City limits, the taxpayer may apportion its receipts between the jurisdictions in which it does business when the following conditions are met:

1. The activity or portion of activity for which apportionment is requested is part of the business' own operations and it is conducted internally by this business completely outside the City limits; and
2. The taxpayer's business records support with clarity the place of such outside activity and the receipts connected therewith.

C. The Apportionment Factors

Receipts are apportioned with emphasis on different aspects of a taxpayer's operations. The taxpayer's business can be divided into as many of the eight economic components as apply to the taxpayer's activity.

If you apply all of the economic components and the maximum percentage for each, one will account for more than 100% of the value of his or her receipts. But by their terms, some of the components apply only to retailers and other sellers of goods and other components apply only to service providers. Therefore, no taxpayer will apply the maximum of each component to its gross receipts.

1. The Eight Factors

An apportioning taxpayer may reduce its total receipts from its operation of its City business or from work done in the City by the percentage (not exceeding the cap)

ATTACHMENT- A

reflecting various kinds of activity that occur outside the city: (1) if the relevant sales or a portion thereof are negotiated or solicited elsewhere, the taxpayer may reduce its base up to 25%; (2) if the sales office or the place where contracts or orders are accepted and/or processed is elsewhere, the taxpayer may reduce its base up to 15%; (3) if the merchandise was stored elsewhere immediately prior to delivery, the taxpayer may reduce its base by up to 20%; (4) in the case of service providers, if the location of the principal place of business of the service providers who actually worked on the project is outside the City, the taxpayer may reduce its base up to 30%; (5) if the ultimate point of delivery is out of the City, the taxpayer may reduce its base by up to 10%; (6) if the service is actually performed outside the City, the taxpayer may reduce its base by up to 30%; (7) if the billing office is outside the City, the taxpayer may reduce its base by up to 5%; and (8) if the collections office is elsewhere, the taxpayer may reduce its base by up to 5%.

These factors are set forth in the following table:

<u>FACTOR</u>	<u>RANGE</u>
Point Of Sale (solicitation or negotiation)	1% up to 25%
Sales Office Or Place Where Contracts Or Orders Are Accepted And/Or Processed	1% up to 15%
Warehouse Location.	1% up to 20%
The Service Providers' Principal Place of Business	1% up to 20%
Place Where Goods Are Delivered	1% up to 10%
Place Where Service Is Performed	1% up to 30%
Location of Billing Office.	1% up to 5%
Location of Collections Office	1% up to 5%

2. Definitions

a. Point Of Sale

The location where the sales were negotiated or solicited by the taxpayer, through his or her physical presence or the presence of an employee, representative, or agent.

b. Sales Office Or Place Where Contracts Or Orders Are Accepted And/Or Processed

The sales office(s) that served as the base of operations for sales activities, or if there is no such sales, the office(s) from which sales activities were internally directed or controlled, or where orders, contracts, etc. were received, accepted or approved at a level above the sales level.

c. Warehouse Location

This component applies only to retailers and other sellers of goods to whom the business license tax applies. It refers to the facility or facilities, internally controlled and operated, where the goods, wares, or merchandise were stored immediately prior to shipment or delivery.

d. Service Provider's Principal Place Of Business

This component applies only to service providers to whom the business license tax applies. It refers to the location(s) of the principal place of business of the service providers who generated the taxable receipts.

e. Place Where Goods Are Delivered

This component applies only to retailers and other sellers of goods to whom the business license tax applies. It refers to the place(s) where goods, wares, merchandise, or services were delivered if the ultimate delivery point is outside the City.

f. Place Where Services Are Performed

This component applies only to service providers to whom the business license tax applies. It refers to the location(s) at which the service providers actually perform their work.

g. Location of Billing Office

The place(s) where the taxpayer internally performed billing activity.

h. Location of Collections Office

The place(s) where the taxpayer internally performed its revenue collection activity.

D. The Safety Valve

Given the difficulty of designing an apportionment system that can apply evenly and fairly to all business types, the City Council directs the taxpayer to subdivision

ATTACHMENT- A

(c) of Section 6-1.436 of the Municipal Code, which allows taxpayers, with the consent of the Director, to employ an alternative apportionment method:

None of the business license taxes provided for by this title shall be so applied as to occasion an undue burden upon interstate commerce or be violative of the Constitutions of the United States or the State of California. In any case where a business license tax is believed by a tax license holder or applicant for a license to place an undue burden upon interstate commerce, or be violative of such constitutional clauses, he may apply to the Tax Collector for an adjustment of the tax. Such application may be made before, at, or within six (6) months after payment of the prescribed business license tax. The applicant shall, by sworn statement and supporting testimony, show his method of business and the gross volume or estimated gross volume of business and such other information as the Tax Collector may deem necessary in order to determine the extent, if any, of such undue burden or violation. The Tax Collector shall then conduct an investigation and, after having first obtained the written approval of the City Attorney, shall fix as the business license tax for the applicant an amount that is reasonable and nondiscriminatory, or if the business license tax has already been paid, shall order a refund of the amount over and above the business license tax so fixed. In fixing the business license tax to be charged, the Collector shall base the tax upon a percentage of gross receipts or any other measure which will assure that the tax assessed shall be uniform with that assessed on businesses of like nature, and that the tax is imposed only on gross receipts resulting from business done with the City, or reasonably deemed to have been conducted in the City.

1. The Apportionment Questionnaire

Concurrent with each tax payment, an apportioning taxpayer must submit a document substantially in the form of BL-2 Form, the Apportionment Worksheet, and all supporting documents necessary to illustrate their apportionment calculations.

E. Applicability

These rules will apply to all future payments under the City's business license tax, as well as all claims for refund of taxes already paid, including claims that are pending on the date these rules are adopted, if one basis for the claim is the City's application of the tax to receipts arising from transactions that occur, in whole or in part, outside the City.

BUSINESS LICENSE APPORTIONMENT WORKSHEET – BL-2

A taxpayer may reduce total receipts from the operation of business or from work performed in the City by a percentage that represents activities that occur outside the city. If you believe this applies to your business please complete this BLAW-03 Apportionment worksheet.

Business Name: _____ Account Number: _____

Calculate total gross receipts.
Total Gross Receipts = _____

Were all sales, services, deliveries, warehousing, billing, and collection done within the City limits of Modesto?

If yes, Apportionment does not apply. Stop here and complete form BL-1 (Declaration of Gross Receipts)
PAY TAX ON TOTAL GROSS RECEIPTS

Do your records support the existence of operations outside the City of Modesto?

Business records must support apportionment declaration. If they do not, Stop here and complete form BL-1 (Declaration of Gross Receipts)
PAY TAX ON TOTAL GROSS RECEIPTS

Business Eligible for Apportionment - Complete the balance of this worksheet

#1 – Point of Sale: What percentage, if any, of receipts were derived from transactions solicited or negotiated outside of Modesto?
(Point of sale can be up to 25% of value of receipts.) _____ %
Calculation _____ % = _____ /100 x .25 = _____ % transfer to box at right.
Example: (50% Modesto; 50% other = 50/100 x .25= .125 [12.5%])

#2 – Location of Responsible Sales Office: What percentage, if any, of receipts were derived from transactions where the responsible sales office was outside of Modesto?
(Location of responsible sales office can be up to 15% of value of receipts.) _____ %
Calculation _____ % = _____ /100 x .15 = _____ % transfer to box at right.
Example: (90% Modesto; 10% other = 10/100 x .15 = .015 [1.5%])

#3 – Warehouse Location: What percentage, if any, of receipts are derived from transactions where goods sold are stored in a facility outside of Modesto?
(Warehouse location can be up to 20% of value of receipts.) _____ %
*Note: If you are providing a service the answer is "0".
Calculation _____ % = _____ /100 x .20 = _____ % transfer to box at right.
Example: (67% Modesto; 33% Other = 33/100 x .20 = .066 [6.6%])

#4 – Service Providers Principal Place of Business: What percentage, if any, of receipts are derived from transactions in which the service providers who actually worked on the transaction maintained their principal place of business outside of Modesto?

(Service providers principal place of business can be up to 20% of the value of receipts.) _____%

*Note: If you are a retail business the answer is "0".

Calculation _____ % = _____ /100 x .20 = _____ % transfer to box at right.

Example: (75% Modesto; 25% other = 25/100 x .20 = .05 [5%])

#5 – Place Where Goods Were Delivered: What percentage, if any, of receipts are derived from transactions for the sale of goods for which delivery took place outside of Modesto?

(Place where goods were delivered can be up to 10% of the value of receipts.) _____%

*Note: If you are providing a service the answers is "0".

Calculation _____ % = _____ /100 x .10 = _____ % transfer to box at right.

Example: (67% Modesto; 33% Other = 33/100 x .10 = .033 [3.3%])

#6 – Place Where Service Was Performed: What percentage, if any, of receipts are derived from transactions in which the principal service providers worked outside of Modesto?

(Place where service was performed can be up to 30% of value of transaction.) _____%

* Note: If you are a retail business the answer if "0".

Calculation _____ % = _____ /100 x .30 = _____ % transfer to box at right.

Example: (50% Modesto; 50% Other = 50/100 x .30 = .15 [15%])

#7 – Location of Billing Office: What percentage, if any, of receipts are derived from transactions in which billing responsibilities were assigned to personnel based outside of Modesto?

(Location of billing office can be up to 5% of the value of receipts.) _____%

Calculation _____ % = _____ /100 x .05 = _____ % transfer to box at right.

Example: (0% Modesto; 100% other = 100/100 x .05 = .05 [5%])

#8 – Location of Collection Office: What percentage, if any, of receipts are derived from transactions in which collection responsibilities were assigned to company personnel based outside Modesto?

(Location of collection office can be up to 5% of the value of receipts.) _____%

Calculation _____ % = _____ /100 x .5 = _____ % transfer to box at right.

Example: (20% Modesto; 80% other = 80/100 x .05 = .04 [4%])

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-502**

**A RESOLUTION RESCINDING RESOLUTION 2003-305 AND AUTHORIZING
THE PURCHASING SUPERVISOR TO ISSUE A PURCHASE ORDER TO
MISCO OF PLEASANTON, CA. FOR ONE JWC ENVIRONMENTAL SCREEN
WASHER COMPACTOR FOR A TOTAL COST OF \$80,374.68**

WHEREAS, the Operations and Maintenance Department-Water Quality Control (WQC) is requesting the purchase of a JWC Environmental screen washer compactor, and

WHEREAS, a JWC Environmental screen washer compactor is a machine used to wash and compact all of the waste that is collected from the primary WQC plant influent bar screens in preparation for landfill, and

WHEREAS, this machine greatly reduces the volume of waste by approximately 60% by washing organic matter out of the trash putting it back into the treatment process, and

WHEREAS, by using a screen washer compactor in our wastewater process, it will greatly reduce landfill disposal costs, and

WHEREAS, this process also benefits the citizens of Modesto by reducing odors from the WQC plant as well as reducing disposal costs, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that Resolution 2003-305 is hereby resented.

BE IT FURTHER RESOLVED that the Purchasing Supervisor is hereby authorized to issue a purchase order to MISCO of Pleasanton, Ca. in the amount of \$80,374.68.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of September, by Councilmember Conrad, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2003-503**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO
ISSUE A REQUEST FOR BID FOR SIX (6) UTILITY TRUCKS AND ONE (1)
BACKHOE TRAILER FOR A TOTAL ANTICIPATED COST OF \$247,000.00**

WHEREAS, the Operations and Maintenance Department-Fleet Services has requested the purchase of six (6) utility trucks and one (1) backhoe trailer, and

WHEREAS, the six utility trucks consist of one (1), ¾ ton extended cab truck with utility body; one (1), ¾ ton extended cab truck; one (1) 21,000 Goss Vehicle Weight (GVW) cab and chassis; two (2), ¾ ton trucks with utility body; one (1) 15,000 Gross Vehicle Weight (GVW) truck with utility body; and one (1), backhoe trailer, and

WHEREAS, the ¾ ton extended pickup, the ¾ ton extended cab truck with utility body, and the 21,000 GVW cab and chassis are additional trucks for the Water Division, and

WHEREAS, these trucks will be used by the heavy construction crews doing installation and major line constructions, and

WHEREAS, these trucks will also be used by pump mechanics and have been added to the water division, and

WHEREAS, replacement trucks are replacing trucks that have met their life expectancy and are in need of replacement for maintenance and reliability reasons, and

WHEREAS, one ¾ ton truck with utility body is a replacement for an existing truck in the Community Forestry Division, and

WHEREAS, this truck is a replacement for a truck with has met its life expectancy and is in need of replacement of maintenance and reliability reasons, and

WHEREAS, the 15,000 GVW truck with utility body is an additional unit for Transit Division and will be used for maintenance of bus shelters, and

WHEREAS, the trailer-backhoe will be used by the storm water maintenance crews, and

WHEREAS, the new basins are larger and require a higher level of maintenance, and

WHEREAS, the Community Facilities District (CFD) funds are being made available for maintenance on the storm water system, and

WHEREAS, the combined estimated total cost of this purchase is \$247,000.00, and

WHEREAS, the Modesto Municipal Code generally requires all purchases exceeding \$50,000 for materials and equipment of this type to be formally bid, and

WHEREAS, by soliciting competitive bids the City will achieve the best value for the six (6) utility trucks and one (1) backhoe trailer and meet the City's requirements for formal bidding,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that formal solicitation of bids for six (6) utility trucks and one (1) backhoe trailer is hereby approved as follows:

SECTION 1. The City Clerk is hereby authorized to call for public competitive sealed bids for six (6) utility trucks and one (1) backhoe trailer to be opened in the City Clerk, 1010 10TH Street, in the City of Modesto. The City Clerk shall be directed to give notice inviting such sealed bids in the time, form, and manner provided by law.

SECTION 2. After the bids are opened, they shall be tabulated and analyzed and a report submitted to Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of September, 2003, by Councilmember Conrad, who moved its adoption, which motion being duly seconded by Councilmember Jackman was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-506**

**A RESOLUTION AUTHORIZING THE PURCHASE OF TWO PIERCE
QUANTUM FIRE ENGINES FROM GOLDEN STATE FIRE APPARATUS, FOR
A TOTAL COST OF \$686,866.06 AND APPROVING THE USE OF THE CITY
OF BERKELEY'S CONTRACT FOR THIS PURCHASE.**

WHEREAS, the Modesto Fire Department uses fourteen engine companies and two truck companies in its current fire/life safety delivery system, and

WHEREAS, front line apparatus consists of eleven engine companies and two truck companies, and

WHEREAS three reserve engines are utilized when front line apparatus are out-of-service for repairs and/or when additional apparatus is needed to maintain our system delivery, and

WHEREAS, an engine company's useful lifespan is projected at fifteen years in front line service and five in reserve status, and

WHEREAS, in 1989 the Modesto Fire Department established an apparatus committee consisting of our Senior Fire Mechanic and representation from all suppression ranks, and

WHEREAS, their charge was to develop apparatus specifications and to review the capabilities of fire apparatus manufacturing facilities, and

WHEREAS, Finance Department and Fire Department representatives worked together through the bid process to award of contract, and

WHEREAS, Pierce Manufacturing was declared low bidder and awarded the contract, and

WHEREAS, Modesto Fire Department received its first Pierce fire engine in 1989 and a second in 1990, and

WHEREAS, since that time, we have purchased eight (8) additional engines and two (2) trucks from Pierce, and

WHEREAS, in July 2000, the City of Berkeley completed a thorough bid process for fire apparatus, and

WHEREAS, Golden State Apparatus (Pierce Manufacturing) was the successful bidder in the bid process and awarded a contract by the City of Berkeley, and

WHEREAS, Pierce has been successful in forty-two competitive bid processes within the State of California during the last two years, and

WHEREAS, the City of Berkeley's bid specifications closely resemble the ones specified by the Fire Department's apparatus committee, and

WHEREAS, pricing provided to the City will be effective through October 1, 2003, and

WHEREAS, after October 1, 2003 Pierce Manufacturing is anticipating a three-percent increase in pricing, and

WHEREAS, pricing provided to the City using the City of Berkeley's contract represents a savings of approximately, \$5,273.73 per engine on the price paid for the apparatus purchased in August 2002, and

WHEREAS, the cost savings represents a two-engine order, and engineering cost savings, and

WHEREAS, the price also represents a roll back of the 3% increase in between 2002/2003, for an additional savings of \$20,605.00, and

WHEREAS, the total cost of the engines is \$686,866.06,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the purchase of two Pierce Quantum fire engines from Golden State Fire Apparatus at a cost of \$686,866.06.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that it hereby approves the use of the City of Berkeley's contract for Pierce fire engines.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of September, 2003, by Councilmember Conrad, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-508**

A RESOLUTION APPROVING THE APPLICATION FOR \$300,000 TO THE CALIFORNIA STATE DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT FOR FUNDING UNDER THE CALHOME PROGRAM.

WHEREAS, the California State Department of Housing and Community Development (hereinafter is referred to as "HCD") has issued a Notice of Funding Availability ("NOFA") for the CalHome program established by Chapter 84, Statutes of 2000 (SB 1656 Alarcon), and codified in Chapter 6 (commencing with Section 59650) of Part 2 of Division 31 of the Health and Safety Code (the "statute"), and

WHEREAS, pursuant to the statute, HCD is authorizing to approve funding allocations utilizing monies made available by the State Legislature to the CalHome program subject to the terms and conditions of the statute and the CalHome Program Regulations adopted by HCD on July 15, 2003, and

WHEREAS, the City of Modesto, Parks, Recreation and Neighborhood Department wishes to submit an application to obtain from HCD an allocation of CalHome funds in the amount of \$300,000, and

WHEREAS, said adopted procedures established by HCD require the applicant to certify by resolution the approval of applications and the availability of local matching funds prior to submission of said application to the state,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby:

1. Approves the submission of an application to HCD to participate in the CalHome program in response to the NOFA issued on July 16, 2003, which will request a funding allocation for the First Time Home Buyers Down Payment Assistance Program, in the amount of \$300,000 for the City of Modesto, and

2. Certifies that said agency has matching funds from the following source: HOME Fund 1170, and can finance 100 percent of the project, half of which will be reimbursed; and
3. If the application is approved, the City of Modesto, Parks, Recreation and Neighborhood Department hereby agrees to use the CalHome funds for eligible activities in the manner presented in the application as approved by HCD and in accordance with program regulations cited above, and
4. It also may execute any and all other instruments necessary or required by HCD for participation in the CalHome Program, and
5. Authorizes and appoints the City Manager as agent of the City to submit and execute the application, the Standard Agreement, and all other documents, required by HCD for participation in the CalHome Program, and any amendments thereto.

**A RESOLUTION AMENDING THE FISCAL YEAR 2003/04 BUDGET TO
TRANSFER FUNDS FROM THE ASSET FORFEITURE TRUST FUND TO THE
GENERAL FUND, POLICE SUPPORT DIVISION, FOR A DONATION TO THE
COMMUNITY ACTION COALITION**

WHEREAS, the Community Action Coalition is a grass roots organization of government and community leaders, law enforcement, business professionals and members of the faith community who are committed to the goal of improving the quality of life in Stanislaus County, and

WHEREAS, the Coalition desires to sponsor the "*Cutting Edge Training*," a comprehensive crime and drug prevention strategic planning conference to be attended by the Community Action Coalition members on October 21 and 22, 2003. The conference will provide the planning, implementation and evaluation of a systems-wide approach to:

- Quality-of-life Improvements
- Improved Public Safety
- Helping Families Succeed
- Employing all Elements of the community to Secure Peace and Eliminate Disorder
- Building Partnerships and Consensus
- Solving Local Problems as a Team
- Keeping Children Safe, Drug Free, and in School
- Drug and Crime Prevention, and

WHEREAS, the need for this conference and its potential for assuring our county continues to move in the direction its citizens desire and deserve is very important, which is why we want to support the efforts of the Community Action Coalition, and

WHEREAS, the Asset Forfeiture Trust Fund has monies available for the purpose of making a donation to this important training for our community, and

WHEREAS, the Safety and Communities Committee unanimously recommended this action at its meeting of June 30, 2003,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the 2003/04 Annual Budget is hereby amended as indicated below:

Appropriate:

To: 0100-190-1921-1202 \$5,000 Police Support Division

Revenue:

From: 0100-190-1921-7202 \$5,000 Seized Forfeitures

To make a donation of \$5,000 for the "Cutting Edge Training."

BE IT FURTHER RESOLVED that the Finance Director is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of September, 2003, by Councilmember Conrad, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

MODESTO CITY COUNCIL
RESOLUTION No. 2003-513

A RESOLUTION ADOPTING CITY COUNCIL POLICY No. 1.030 FOR REIMBURSEMENT OF CONFERENCE AND BUSINESS EXPENSES FOR MEMBERS OF THE CITY COUNCIL.

2006-183

WHEREAS, on October 16, 1991, an administrative directive was signed by the City Manager which outlined the policy for reimbursement of conference and business expenses for Elected and Appointed City officials, and

WHEREAS, the existing policy has not been revised or updated since October 16, 1991, and

WHEREAS, in March 2002, the City Council directed the City Manager to review the existing travel policy for Elected Officials and to make recommendations to the City Council for any necessary changes or additions, and

WHEREAS, on August 6, 2003, the Audit Committee reviewed the revised policy and made recommendations and changes to the proposed policy, and

WHEREAS, on September 8, 2003, the Audit Committee reviewed and approved the revised City Council Policy No. 1.030, attached hereto, which contains the following changes:

- 1) The inclusion of usage of the credit card for travel related purposes.
- 2) Updating portions of the policy relating to hotel accommodations which include:
 - a) Removing the requirement that councilmembers traveling to the same conference share a room.
 - b) Authorizing early departure from Modesto if available air transportation to a conference is limited and the conference starts at an early hour.

- c) Establishes the conference hotel headquarters rate as the maximum rate allowed.
- 3) Removal of allowance for reimbursement of alcoholic beverages.
- 4) Updating reimbursement policy for mileage and airfare.
- 5) Inclusion of a provision allowing city staff to make travel arrangements for the elected official's spouse/companion insuring that the same rates/arrangements are secured.
- 6) Inclusion of a provision prohibiting hosting of dinners by elected officials.
- 7) Appending the applicable sections of the MMC as well as the policy and procedure manual for use of City credit cards.
- 8) Inclusion of a provision allowing ground travel when it is the most cost effective means of travel.
- 9) Clarifying the appropriate approving authority for the Mayor and City Council.
- 10) Requiring reconciliation between the travel claim form and the bank credit card statement prior to submission of the claim form for reimbursement.
- 11) Adding an audit requirement by the City Auditor and a post audit public disclosure requirement.

WHEREAS, other issues raised were:

- 1) Apportioning the City Council travel budget amongst members of the City Council as follows: one-third for the Mayor, and two-thirds for the remaining members of the Council.

- 2) Require a quarterly report to the Audit Committee of travel related and credit card expenses for the City Council, Charter Officers, Deputy City Managers and Department Directors.

NOW, THEREFORE, BE IT RESOLVED, by the City Council of the City of Modesto that it hereby approves and adopts City Council Policy No. 1.030, Reimbursement of Conference and Business Expenses for Members of the City Council attached hereto and incorporated herein.

The foregoing resolution was introduced at a regular meeting of the Council of The City of Modesto held on the 23rd day of September, 2003, by Councilmember Keating, who moved its adoption, which motion was duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-514**

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF MODESTO
APPROVING REVISED TERMS AND CONDITIONS FOR THE SALE OF REAL
PROPERTY FOR THE PARCELS LOCATED AT THE SOUTHWEST CORNER
OF 10TH STREET AND H STREET AND AUTHORIZING THE SALE OF SAID
PARCELS TO THE MODESTO REDEVELOPMENT AGENCY.**

WHEREAS, on October 10, 2000, the City Council of the City of Modesto (the “Council”) approved the sale of that certain real property located on the southwest corner of 10th and H Streets in the City of Modesto which parcels are more particularly described as Assessor’s Parcel Numbers: 106-42-01; 106-42-02; 106-42-03; 106-42-04 (A map of said parcels is attached hereto as “**Exhibit A**” and made a part hereof by this reference), and

WHEREAS, the City authorized the sale of said parcels to the Modesto Redevelopment Agency (the “Agency”) which Agency will in turn sell said parcels to Valley Tower, LLC, a California limited liability company, pursuant to an approved Disposition and Development Agreement (the “DDA”) for the purpose of constructing a multi-use project consisting of office space, retail space and a parking garage, and

WHEREAS, the Agency on June 24, 2003, approved a First Amendment to said DDA (the “First Amendment”), which First Amendment included revisions to the terms and conditions of said DDA, and

WHEREAS, the Developer has been working with potential tenants and lenders to ensure a reasonable level of occupancy in the Office Project prior to starting construction and to obtain mortgage and equity financing for said Office Project, and

WHEREAS, in order to obtain mortgage and equity financing, the Developer has requested that certain terms and conditions of the DDA and the First Amendment be revised, and

WHEREAS, in order to obtain the required mortgage and equity financing, the Developer has requested that the sale of said real property from the City to the Agency be completed on or before November 19, 2003.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Modesto that it hereby authorizes the sale of real property to the Modesto Redevelopment Agency with the close of escrow to be on or before November 19, 2003, which parcels are more particularly described as Assessor's Parcel Numbers: 106-42-01; 106-42-02; 106-42-03; 106-42-04.

BE IT FURTHER RESOLVED by the City Council of the City of Modesto that the City Manager is hereby authorized and directed to execute any and all documents related to and/or required by said real property sale.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of September, 2003, by Councilmember Keating, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-515**

**A RESOLUTION APPROVING THE DESIGN DEVELOPMENT REPORT AND
MASTER PLAN INCLUDED THEREIN FOR MADDUX YOUTH CENTER
ADDITION/REMODEL PROJECT**

WHEREAS, on August 14, 2001, City Council adopted Resolution No. 2001-425, awarding a contract to RRM Design Group, Inc. professional architectural services to prepare the design development and construction documents for the Maddux Youth Center Addition/Remodel project, and

WHEREAS, on February 2, 2002 and on March 25, 2003, the Council approved amendments to the contract to expand the scope of the project, and

WHEREAS, prior to adopting the Design Development Report, the California Environmental Quality Act (CEQA) requires that the City of Modesto consider the environmental consequences of the proposed project, and

WHEREAS, on February 3, 2003, the Safety and Communities Committee recommended approval of the Maddux Youth Center Addition/Remodel Design Development Report, and

WHEREAS, by an agenda report dated August 22, 2003, from the Parks, Recreation and Neighborhoods Director, staff recommended to the Council approving the Maddux Youth Center Addition/Remodel Design Development Report, a copy of said report is on file in the office of the City Clerk, and

WHEREAS, on September 23, 2003, concurrent with this resolution, the Modesto City Council considered and made certain findings contained in Initial Study EA/PR&N 2003-02, which finds that the potential environmental effects of the project have been adequately addressed by the previously certified Modesto Urban Area General Plan

Master EIR (SCH No. 19999082041), and that the Maddux Youth Center Design Development Report dated August 20, 2003, is within the scope of the Modesto Urban Area General Plan and General Plan Master EIR,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby finds that the Maddux Youth Center Addition/Remodel Project Design Development Report is complete and adequate, and it hereby approves the Maddux Youth Center Addition/Remodel Project Design Development Report, and Master Plan included therein, a copy of which is on file in the office of the City Clerk.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of September, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Conrad, Fisher, Frohman, Jackman, Keating O'Bryant, Mayor Sabatino

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-516**

A RESOLUTION FINDING THAT THE FOLLOWING PROJECT IS CONSISTENT WITH THE SCOPE OF THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (SCH # 1999082041): MADDUX YOUTH CENTER ADDITION/REMODEL PROJECT DESIGN DEVELOPMENT REPORT AND MASTER PLAN INCLUDED THEREIN.

WHEREAS, on March 4, 2003, the Modesto City Council adopted Resolution No. 2003-123 certifying that the Modesto Urban Area General Plan Master Environmental Impact Report (“MEIR”) (State Clearinghouse No. 1999082041) is complete and adequate pursuant to Section 15090 of the California Environmental Quality Act (“CEQA”) Guidelines, and

WHEREAS, the City is proposing to do an addition and remodel to the Maddux Youth Center (“Project”) including remodeling of the existing center and a 6,000 square foot building addition, with specific improvements to include: a 2,500 square foot building addition to include a multi-purpose room, computer classroom, kitchenette and restrooms; a 3,500 square foot building addition to include a boxing ring, training area, office and storage room; replacement of the existing roof and addition of new skylights; replacement of the existing mechanical air conditioning system; replacement of the interior doors and hardware and existing windows; abatement of asbestos flooring in the office, computer room and weight room and installation of new flooring; installation of new dropped acoustical ceiling and carpeting in the office and computer room; and addition of new cabinets and sink in the pool table room, and

WHEREAS, City staff prepared an Initial Study, Environmental Assessment No. PR&N 2003-02, which concluded that the proposed Project is within the scope of the Modesto Urban Area General Plan MEIR (SCH # 1999082041), and

WHEREAS, the Safety and Communities Committee met on February 3, 2003, and supported the recommendation to approve the Design Development Report and Master Plan contained therein and to adopt an Initial Study for the Maddux Youth Center Addition/Remodel Project, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on September 23, 2003, at 5:30 p.m. in the Tenth Street Place Chambers, located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered Environmental Assessment No. EA/PR&N 2003-02 "City of Modesto Initial Study and Findings of Conformance with the Modesto Urban Area Master Environmental Impact Report; Proposed Maddux Youth Center Improvements, Located at 615 Sierra Drive, Modesto, California", for the proposed Project, and the Council hereby makes the following findings:

- A. That the proposed Project is within the scope of the General Plan and the General Plan Master EIR (SCH # 1999082041).
- B. No additional significant environmental effects will occur as a result of this Project that were not previously examined in the General Plan Master EIR.
- C. No new or additional mitigation measures or alternatives will be required as a result of this Project that were not previously considered in the General Plan Master EIR.
- D. All feasible mitigation measures or feasible alternatives set forth in the Master Environmental Impact Report which are appropriate to the Project have been incorporated into the Project.
- E. No new environmental document nor findings pursuant to Section 21081 are required for the Proposed Maddux Youth Center Improvements Project.
- F. This Initial Study provides substantial evidence to support findings "A, B, C, D and E" above.

A copy of said Environmental Assessment No. EA/PR&N 2003-02, entitled "City of Modesto Initial Study and Findings of Conformance with the Modesto Urban Area Master Environmental Impact Report; Proposed Maddux Youth Center Improvements, Located at 615 Sierra Drive, Modesto, California" is attached hereto as **Exhibit "A"**, and incorporated herein by reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of September, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Conrad, Fisher, Frohman, Jackman, Keating O'Bryant, Mayor Sabatino

City of Modesto

**Initial Study and Findings of Conformance with the Modesto
Urban Area Master Environmental Impact Report**

**Proposed Maddux Youth Center Improvements
Located at 615 Sierra Drive
Modesto, California**

EA NO. PR&N 2003-02

Date: August 26, 2003

I. PURPOSE:

The Master Environmental Impact Report (MEIR) for the Modesto Urban Area General Plan provides the basis for environmental review of this proposed Maddux Youth Center Improvements Project, located at 615 Sierra Drive. The Modesto Urban Area General Plan Master EIR (SCH No. 1999082041), adopted March 4, 2003, allows such limited review for projects in the Baseline Developed Area that are consistent with the General Plan and existing zoning.

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, analyzes whether this project may cause any significant effect on the environment that was not examined in the General Plan Master EIR. And, pursuant to Section 21157.1 (c), this Initial Study provides the basis for the determination whether the project is within the scope of the project covered by the General Plan Master EIR.

II. PROJECT DESCRIPTION:

- A. Project Title:**
Maddux Youth Center Improvements
- B. Lead Agency Name and Address:**
City of Modesto, P.O. Box 642 Modesto, CA 95353
- C. Contact Person, address and phone number:**
Bob Ford, Project Coordinator, Parks, Recreation and Neighborhoods
Department, (209) 577-5437
- D. Project Location:**
615 Sierra Drive at "F" Street in Modesto, CA (see attached Exhibit "A")
- E. Project Sponsor, address and phone number:**
City of Modesto Parks, Recreation and Neighborhoods Department
P.O. Box 642, Modesto, CA 95353

F. Modesto General Plan Designation:

The existing Maddux Youth Center is on land designated as MU – Mixed Use on the adopted Land Use Diagram. (p. III-114, Urban Area General Plan).

G. Zoning:

Medium Density Residential (R-2)

H. Description of Proposed Project:

Improvements to the Maddux Youth Center include remodeling of the existing center and a 6,000 square foot building addition. Specific improvements are as follows:

1. A 2,500 square foot building addition to include a multi-purpose room, computer classroom, kitchenette and restrooms.
2. A 3,500 square foot building addition to include a boxing ring, training area, office and storage room.
3. Replacement of the existing roof and addition of new skylights.
4. Replacement of the existing mechanical air conditioning system.
5. Replacement of the interior doors and hardware, and existing windows.
6. Abatement of Asbestos flooring in the office, computer room and weight room and installation of new flooring.
7. Install new dropped acoustical ceiling and carpeting in the office and computer room.
8. Add new cabinets and sink in pool table room.

The project Master Plan, design and programming are described in detail within the "Design Development Report for the Maddux Youth Center Addition and Remodel," dated August 20, 2003. This project includes adoption of the Master Plan and Design Development Report, Construction Documents and construction of the improvements to the Maddux Youth Center. (See attached Master Plan, Exhibit "B")

I. Surrounding Land Uses:

North: Established City of Modesto neighborhood park and residential neighborhood.

South: Established single-family residential neighborhood

East: Established single-family residential neighborhood.

West: Established single-family residential neighborhood.

J. Other Public agencies whose approval is required:

None

III. ANALYSIS OF CONFORMANCE WITH THE MASTER EIR:

There are eighteen subject areas in the Master EIR for the General Plan. Following is an analysis of how this project conforms to the analysis contained within the Master EIR. Compared to the Master EIR certified for the Modesto Urban Area General Plan, the proposal will not result in increased impacts to any of the following subject areas:

A. Traffic and Circulation

The proposed Maddux Youth Center improvements project proposes to remodel the existing building and would add 6,000 square feet of building space. The

expanded use of the Center and the resultant need for additional parking will be off-set by the striping of diagonal parking spaces along Sierra Drive, a change from the current parallel curb-parking arrangement. Sierra Drive is a collector street that has adequate width to accommodate the diagonal parking. Between 35 and 40 spaces would be created with this diagonal striping, which is more than double the current parking capacity along Sierra. The proposed improvements to the Center would result in no revisions to the adopted land use or land use designations, infrastructure, street access or transportation and circulation system in the General Plan. Thus, the proposed improvements to the Maddux Youth Center would result in no significant increase in demand for circulation facilities that are not anticipated by the traffic model that analyzed the General Plan. Therefore, the proposed improvements are consistent with the Traffic and Circulation needs section of the General Plan MEIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Traffic and Circulation Needs (pages IV-1-1 through IV-1-33) are, therefore, still valid.

B. Degradation of Air Quality

Construction of the proposed Maddux Youth Center Improvements would result in no revisions to the existing land use or adopted General Plan land use designations, infrastructure, street access or transportation and circulation system. Thus, the proposed Maddux Youth Center Improvements would not result in a significant increase in generation of traffic that is not anticipated by the traffic model that analyzed the adopted General Plan. Therefore, the proposed Maddux Youth Center Improvements will not cause additional traffic-related impacts to air quality beyond those described in the Degradation of Air Quality section of the MEIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Degradation of Air Quality (pages V-2-1 through V-2-26) are, therefore, still valid.

C. Generation of Noise

The proposed Maddux Youth Center Improvements would result in only minor alterations to the existing building on the site and no changes to land use designations, infrastructure, traffic generation or traffic and circulation system contained in the General Plan. Any construction-related noise would be addressed by compliance to the City's noise ordinance. Because there would not be a significant increase in traffic generated, and roadway level of service would be consistent with the General Plan, the proposed Initiative will not cause an increase in the projected generation of traffic-related noise in the MEIR. Therefore, the project will not create additional significant effects and the Mitigation Measures listed in the MEIR for Generation of Noise (pages V-3-1 through V-3-22) are still valid.

D. Loss of Productive Agricultural Land

Because construction of the proposed Maddux Youth Center Improvements would only affect an existing building that has been on-site for over 50 years, it does not effect conversion of productive agricultural lands within the adopted General Plan area. Therefore, the proposal is not an increased impact to loss of productive agricultural land as analyzed by the MEIR. Therefore, the Existing Conditions, Impacts Analysis, and Mitigation Measures listed in the MEIR for Loss of Productive Agricultural Land (pages V-4-1 through V-4-12) are still valid.

E. Increased Demand for Water Supplies
Construction of the proposed Maddux Youth Center Improvements is in an older urbanized part of the City and would not result in any change to the gross acreage, land use designations, infrastructure or circulation system of the General Plan. Thus the project would not require additional water supplies beyond that identified for the General Plan in the Increased Demand for Water Supplies section of the MEIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Increased Demand for Water Supplies (pages V-5-1 through V-5-13) are, therefore, still valid.

F. Increased Demand for Sanitary Sewer Services
Construction of the proposed Maddux Youth Center Improvements project consists of minor alterations to the existing building, with a 6,000 square foot building addition. The floor area will increase, but there would be no changes to gross acreage, land use, infrastructure or circulation system of the General Plan. There would be a less than significant increase in demand for sewer services but it will not create any increase in demand for sewer capacity not identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Sanitary Sewer Services (pages V-6-1 through V-6-12) are, therefore, still valid.

G. Loss of Sensitive Wildlife and Plant Habitat
The proposed Maddux Youth Center Improvements project site is in an existing, older residential neighborhood in Modesto. The project does not propose to change the gross acreage, land use, infrastructure or circulation system of the General Plan. Thus, the project would have no impact to sensitive wildlife or any plant habitat beyond that which was identified in the Loss of Sensitive Wildlife and Plant Habitat section of the MEIR. The Existing Conditions, Impact Analysis, and the Mitigation Measures listed in this section of the MEIR (pages V-7-1 through V-7-29) are, therefore, still valid.

H. Disturbance of Archaeological and Historic Sites
This proposed Maddux Youth Center project will not disturb any archaeological sites that have been identified in the Disturbance of Archaeological of the MEIR.

According to Figure 8-1 of the Final MEIR of the Urban Area General Plan, the proposed project site is located within 100 feet of City of Modesto Preservation Landmark No. 4 – The Modesto Ash Tree. The City's Urban Area General Plan Archaeological or Historical policies AH-8 through AH-14 apply to this proposal. In addition, Chapter V, Section 8 of Final MEIR addresses potential disturbance of archaeological/ historical sites.

The Final MEIR identified potential mitigation measures listed on Table 8-1 (page V-8-19 and V-8-20), which may be applicable. Development adjacent to known Landmark sites could expose the Landmark Preservation Site to risks that may adversely affect this historically and unique feature. Therefore, the placement of the building addition at the east end of the existing facility will ensure that all construction activity keeps clear of the historic Modesto Ash Tree on the north side of the building.

The project does not propose to change the gross acreage, land use designations, infrastructure or circulation system of the General Plan. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the

MEIR for Disturbance of Archaeological or Historical Sites (pages V-8-1 through V-8-22) are, therefore, still valid.

I. Increased Demand for Storm Drainage

The proposed Maddux Youth Center Improvements project is in an established neighborhood, would not result in any change to impervious surfaces, the gross acreage, land use, infrastructure or circulation system of the General Plan. Thus, construction of the project would cause no significant increase in demand for storm drainage that was not already addressed in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Storm Drainage (pages V-9-1 through V-9-13) are, therefore, still valid.

J. Flooding and Water Quality

The proposed Maddux Youth Center Improvements project consists of a remodel and building addition to an existing building in an established neighborhood, and would not result in a change to the gross acreage, land use designations, infrastructure or circulation system of the General Plan. Therefore, the project will not create any new significant drainage, flooding or water quality impacts that were not addressed in the MEIR. The project site is approximately 1 mile north of the designated flood plain area of the Tuolumne River. The Existing Conditions, Impacts analysis and the Mitigation Measures listed in the MEIR for Drainage, Flooding, and Water Quality (pages V-10-1 through V-10-16) are, therefore, still valid.

K. Increased Demand for Parks and Open Space

The proposed Maddux Youth Center Improvements project is within an existing park within an established neighborhood, and would not change the gross acreage, land use designations, infrastructure or circulation system of the General Plan. Therefore, construction of project would not generate any new population that would increase demand for use of parks or open space facilities. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Parks and Open Space (pages V-11-1 through V-11-14) are, therefore still valid.

L. Increased Demand for Schools

The proposed Maddux Youth Center Improvements project will occur within an established neighborhood, does not propose to change the gross acreage, land use, infrastructure or circulation system of the General Plan. Therefore, construction of the project would not generate any new population that would increase demand for use of school facilities. Thus the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Schools (pages V-12-1 through V-12-11) are, therefore, still valid.

M. Increased Demand for Police Services

The proposed Maddux Youth Center Improvements project will occur within an existing, established neighborhood, consists of minor alterations to an existing building and a building addition. The project does not propose to change the gross acreage, land use designations, infrastructure or circulation system of the General Plan. Thus, it would not result in a significant increase in service demand for the City of Modesto Police Department. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the

Increased Demand for Police Services (pages V-13-1 through V-13-7) are, therefore, still valid.

N. Increased Demand for Fire Services

The proposed Maddux Youth Center Improvements project will occur within an existing, established neighborhood. The project does not propose to change the gross acreage, land use designations, infrastructure or circulation system of the General Plan. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Fire Services (pages V-14-1 through V-14-9) are, therefore, still valid.

O. Generation of Solid Waste

The proposed Maddux Youth Center Improvements project will occur within an existing, established neighborhood, and does not propose to change the gross acreage, land use designations, infrastructure or circulation system of the General Plan. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Solid Waste (pages V-15-1 through V-15-10) are, therefore, still valid.

P. Generation of Hazardous Materials

The proposed Maddux Youth Center Improvements project will occur within an existing, established neighborhood, and would not result in any change to the gross acreage, land use on site or land use designations, infrastructure or circulation system of the General Plan. The work consists of remodel work to the existing structure, with removal and abatement of some vinyl-asbestos flooring by a State-certified removal contractor. There will be no additional hazardous material generated beyond those identified in the MEIR. The Existing Conditions, Impacts analysis and the Mitigation Measures listed in the MEIR for the Generation of Hazardous Materials (pages V-16-1 through V-16-14) are, therefore, still valid.

Q. Landslides and Seismic Activity

The proposed Maddux Youth Center Improvements project will occur within an existing, established neighborhood. The project will remodel the existing structure and will add 6,000 square feet of floor space. The existing building will be evaluated for meeting existing seismic building codes, with all remodel and new construction to meet this code. The proposed project is on an existing park site, does not propose significant changes to gross acreage, land use designations, infrastructure or circulation system of the General Plan. The MEIR analysis shows that because the land is essentially flat, Uniform Building Code requirements have been addressed, and the nearest earthquake fault line is over 15 miles west of the Modesto Urban Area, there will be no additional potential for exposing people to landslides or earthquake related hazards such as liquefaction. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Landslide and Seismic Activity (pages V-17-1 through V-17-12) are, therefore, still valid.

R. Energy

The proposed Maddux Youth Center Improvements project will remodel and add floor space to an existing building. The project will not change gross acreage, land use designations, infrastructure or circulation system of the General Plan. Thus, the project is consistent with the analysis in the General Plan MEIR. Utility

companies serving the Modesto Urban Area indicated, during MEIR preparation, have stated that development of the urban area would result in a less than significant impact on demands for energy. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Energy (pages V-18-1 through V-18-7) are, therefore, still valid. Mitigation Measures for air quality and traffic would also help to mitigate energy impacts.

IV. MITIGATION MEASURES APPLIED TO THE PROJECT

A. Master EIR Mitigation Measures Applied to the Project

Pursuant to CEQA Section 21157.1 (c), in order for a Finding of Conformance to be made, all feasible measures from the Master EIR appropriate to the project shall be incorporated into the project. The following adopted General Plan Policies and Master EIR Mitigation Measures shall be made part of the project prior to approval by means of conditions of project approval or incorporation into the appropriate document or plan:

All applicable and appropriate mitigation measures have been applied to the Maddux Youth Center Improvements Project, including the following:

Traffic and Circulation Measures:

N/A

Air Quality Measures:

Policy VII-H.2[I] The City of Modesto should implement measures to reduce the temporary, yet potentially significant, local air quality impacts from construction activities. Potential measures to be implemented may include those measures listed in Table 2-6 in the Master Environmental Impact Report.

MEIR Table 2-6. Air Quality Measures to Reduce Construction Impacts

1. The following mitigation measures shall be implemented by the City of Modesto, and incorporated into development plans and public facility plans as appropriate:

a. The City of Modesto shall work with the SJVUAPCD to reduce particulate matter emissions from construction, grading, excavation, and demolition to the maximum extent feasible.

b. If required by Regulation VIII (Fugitive Dust Rules) of the San Joaquin Valley Unified Air Pollution Control District, the City of Modesto shall require all access roads, driveways, and parking areas serving new commercial and industrial development to be constructed with materials that minimize particulate emissions and are appropriate to the scale and intensity of use.

2. The following measures should be strongly encouraged, and incorporated into development plans and public facility plans, when it is shown to be appropriate and feasible

a. The City of Modesto should reduce PM10 emissions from City-

maintained roads to the maximum extent feasible

b. The City of Modesto should adopt a standard set of construction-related mitigation measures that can be adapted to all new, non-emergency construction projects in the City.

Mitigation Measure Air-1: PM10 Control Measures

a. SJVUAPCD Regulation VIII Control Measures for Construction Emissions of PM-10. The following controls are required to be implemented at all construction sites:

1. All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover
2. All on-site unpaved roads and off-site unpaved access roads shall be effectively stabilized of dust emissions using water or chemical stabilizer/suppressant.
3. All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.
4. With the demolition of buildings up to six stories in height, all exterior surfaces of the building shall be wetted during demolition.
5. When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.
6. All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. *(the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)*
7. Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.
8. Within urban areas, trackout shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.
9. Any site with 150 or more vehicle trips per day shall prevent carryout and trackout.

Noise Measures:

Modesto Noise Ordinance. The City's noise ordinance (Modesto Municipal Code Section 4-9.101) prohibits the "loud and raucous discharge into the open air of the steam of any steam equipment or exhaust from any stationary internal-combustion engine."

The noise ordinance prohibits the loud and raucous operation or use of any of the following before 7:00 a.m. or after 9:00 p.m. daily (except Saturday and Sunday and State or federal holidays, when the prohibited time shall be before 9:00 a.m. and after 9:00 p.m.):

1. A hammer, or any other device or implement used to pound or strike an object.
2. An impact wrench, or other tool or equipment powered by compressed air.
3. A hand-powered saw.
4. Any tool or piece of equipment powered by an internal-combustion engine such as, but not limited to, chain saw, backpack blower, and lawn mower.
5. Any electrically powered (whether by alternating current electricity or by direct current electricity) tool or piece of equipment used for cutting, drilling, or shaping wood, plastic, metal, or other materials or objects, such as, but not limited to, a saw, drill, lathe, or router.
6. Any of the following: heavy equipment (such as but not limited to bulldozer, steam shovel, road grader, back hoe), ground drilling and boring equipment (such as but not limited to derrick or dredge), hydraulic crane and boom equipment, portable power generator or pump, pavement equipment (such as but not limited to pneumatic hammer, pavement breaker, tamper, compacting equipment), pile-driving equipment, vibrating roller, sand blaster, gunite machine, trencher, concrete truck, and hot kettle pump.
7. Any construction, demolition, excavation, erection, alteration, or repair activity. In the case of urgent necessity and in the interest of public health and safety, the Chief Building Official may issue a permit for exemption from these. Such period shall not exceed three (3) working days in length while the emergency continues but may be renewed for successive periods of three (3) days or less while the emergency continues. The Chief Building Official may limit such permit as to time of use and/or permitted action, depending upon the nature of the emergency and the type of action requested.

All development projects located within the Baseline Developed Area (and Redevelopment Area) are required to incorporate the General Plan policies listed below into the project.

Policy VII-G.3[a] The City of Modesto shall require noise-reducing construction practices to be implemented as conditions of approval for development projects where substantial construction-related noise impacts would be likely to occur (e.g. where construction would include extended periods of pile driving, where construction would occur over an unusually long period, or where noise-sensitive uses like homes and schools would be in the immediate vicinity, etc.). The city should consider potential mitigation measures, including, but not limited to, the following;

1. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields.
2. Other proposed uses: the noise/land use compatibility guidelines (i.e., those noise levels which are "conditionally acceptable," "normally Unacceptable," or "clearly unacceptable,") shown in Table 1 and the most recent noise contours for the City shown in Figure VII-1 [of the City's Urban Area General Plan].

Agricultural Land Measures:

N/A

Water Supply Measures:

Engineering and Transportation Department staff request that calculations be submitted as part of project application including: water demand, including fire sprinkler requirements, if applicable, and fire flow test results to the Capital Planning Division of the Engineering and Transportation Department.

Policy V-C.2[a] During review of all proposed development, the City shall require, as a condition of approval, that all developments reduce their potable water demand. The City should refer to Table V5-1 in the Final Master EIR for potential techniques to reduce potable water demand.

TABLE 5-1: TECHNIQUES FOR REDUCING POTABLE WATER DEMAND

- a. Install water conserving fixtures and appliances including shower heads, toilets, faucets, washing machines, and dishwashers.
- b. Install water conserving landscape materials and irrigation systems in all common landscape areas.

Note: These techniques are required by state law (California Code of Regulations Title 20, Sections 1601-1608). The City of Modesto has adopted these regulations and enforces them through the building permit process.

- c. The City shall implement a requirement for the installation of water meters on all new constructions.

Sanitary Sewer Service Measures:

N/A

Sensitive Wildlife and Plant Habitat Measures:

N/A

Archaeological or Historic Sites Measures:

Pursuant to Mitigation Measure AH-13 on page V-8-14 of the final Master EIR, the applicant shall submit proposed construction plans to the City's Operations and Maintenance Department, Urban Forestry Division to determine whether the Modesto Ash Tree may be adversely affected by the proposed project and the identification of appropriate mitigation measures on Table 8-1 that may be applied to avoid or reduce any potential adverse impacts.

Table 8-1. Procedures for Mitigating and Monitoring Impacts to Cultural Resources

a. Whenever possible, the city shall avoid disturbing or damaging archaeological resources. Preservation in place to maintain the relationship between the artifacts and the archaeological context is the preferred manner of mitigating impacts to archaeological sites. Preservation may be accomplished by:

1. Planning construction to avoid archaeological sites;
2. Incorporating sites within parks, greenspace, or other open space;
3. Covering the sites with a layer of chemically stable soil;
4. Deeding the site into a permanent conservation easement.

When in-place mitigation is not feasible, data recovery through excavation may be necessary. A data recovery plan, which makes provisions for adequately recovering the scientifically consequential information about the site, shall be prepared and adopted prior to any excavation being undertaken. Such studies must be deposited with the Central California Information Center in Turlock, California. Special rules apply to any archaeological sites known to contain human remains (Health and Safety Code sec. 7050.5; Guidelines sec. 15126.4[b]).

Data recovery shall not be required if the lead agency determines that testing or studies already completed have adequately recovered the necessary data, provided that the data have already been documented in another EIR and are available for review at the California Historical Resource Regional Information Center (Guidelines sec. 15126.4[b]).

- b. Prior to excavation and construction, the prime construction contractor and any subcontractors shall be cautioned on the legal and/or regulatory implications of knowingly destroying cultural resources or removing artifacts, human remains, bottles, or other cultural materials from the project area.
- c. The project sponsor shall identify a qualified archaeologist prior to any demolition, excavation, or construction. The City will approve the project sponsor's selection of a qualified archaeologist. The archaeologist would have the authority to temporarily halt excavation and construction activities in the immediate vicinity (ten-meter radius) of a find if significant or potentially significant cultural resources are exposed and/or adversely affected by construction operations.
- d. Reasonable time shall be allowed for the qualified archaeologist to notify the proper authorities for a more detailed inspection and examination of the exposed cultural resources. During this time, excavation and construction would not be allowed in the immediate vicinity of the find; however, those activities could continue in other areas of the project site.
- e. If any find is determined to be significant by the qualified archaeologist, representatives of the construction contractor and the City, the qualified archaeologist, and a representative of the Native American community (if the discovery is an aboriginal burial) would meet to determine the appropriate course of action.
- f. All cultural materials recovered as part of a monitoring program would be subject to scientific analysis, professional museum curation, and a report prepared according to current professional standards.

Policy VII-F.2[e] If archaeological resources are discovered at any time during construction, all activity shall cease until the site is surveyed by a qualified archaeologist. The survey shall include mitigation measures, which shall be implemented before construction resumes. The survey shall follow the criteria presented in Appendix K of the State CEQA Guidelines.

IV CONCLUSIONS/DETERMINATIONS OF FINDINGS

- A. No additional significant environmental effects will occur as a result of this project that were not previously examined in the General Plan Master EIR, because the MEIR assumed the development of the Maddux Youth Center, and the traffic generated by this proposal is less than was analyzed in the MEIR.
- B. No new additional mitigation measures or alternatives will be required as a result of this project that were not previously considered in the General Plan Master EIR, because the environmental effects of this project are less than were analyzed by the MEIR (SCH No. 1999082041) for the proposed Maddux Youth Center Improvements project.
- C. Construction of the proposed Maddux Youth Center Improvements project is within the scope of the project covered by the General Plan Master Environmental Impact Report.
- D. All feasible mitigation measures of feasible alternatives set forth in the Master Environmental Impact Report which are appropriate to the project have been incorporated into the project.

- E. No new environmental document nor findings pursuant to Section 21081 shall be required by the California Environmental Quality Act (per section 21157.1) for the Proposed Maddux Youth Center Improvements project.
- F. This Initial Study provides substantial evidence to support findings "A, B, C, D and E" above.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-517**

**A RESOLUTION APPOINTING TEN MODESTO AREA HIGH SCHOOL
STUDENTS TO THE CITY OF MODESTO YOUTH COMMISSION.**

WHEREAS, Section 1102 of the Charter of the City of Modesto authorizes the City Council to appoint members to various Boards and Commissions, and

WHEREAS, as authorized by Resolution No. 89-443, principals from the High Schools within the City Limits of the City of Modesto have recommended students to serve as Modesto Youth Commissioners,

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. Three Modesto area high school students are hereby appointed to the City of Modesto Youth Commission, with a one-year term limit, as follows:

Davis High School
Samantha Sheppard

Valley Business High School
Savanah Smith

Modesto Christian High School
Jessica Crites

SECTION 2. Seven Modesto area high school students are hereby appointed to the City of Modesto Youth Commission, with a two-year term limit, as follows:

Beyer High School
Lisa Daitoku

Johansen High School
Eve Meyer

Big Valley Grace High School
Megan Rangel

Modesto High School
Cailin Cupp

Central Catholic High School
Jennifer Cust

Modesto Christian School
Kim Meyer

Downey High School
Amy Sutherland

SECTION 3. The City Clerk is hereby directed to transmit a copy of this resolution to the newly appointed members of the City of Modesto Youth Commission, and the Secretary thereof.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of October, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conad, Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: None

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003 -518**

**A RESOLUTION APPROVING A SECOND AMENDMENT TO AGREEMENT
FOR CONSULTANT SERVICES IN THE AMOUNT OF \$71,280 PER YEAR
WITH PATTON BOGGS, LLP, FOR A PERIOD OF TWO YEARS, TO
PERFORM FEDERAL LEGISLATIVE LOBBYING SERVICES AND
AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT**

WHEREAS, the City of Modesto has determined it is desirable to retain a consultant to represent the City's interests at the federal level, and

WHEREAS, in May 22, 2001, the Modesto City Council adopted Resolution No. 2001-229, approving issuance of a Request for Qualifications (RFQ) for Federal Legislative Lobbying Services, and

WHEREAS, on May 23, 2001 a RFQ for Federal Legislative Lobbyists Services was issued and 17 responses were received, and

WHEREAS, the RFQ responses were reviewed and ranked according to criteria established in the RFQ, and

WHEREAS, personal interviews were conducted with the top eight respondents, and

WHEREAS, on August 21, 2001, the Economic Development and Intergovernmental Relations Committee conducted interviews with Patton Boggs and Van Scoyoc and made a recommendation that the full Council approve sole source negotiations with Patton Boggs, and

WHEREAS, on August 14, 2001, the Modesto City Council adopted Resolution No. 2001-424 authorizing the City Manager to conduct sole source negotiations with Patton Boggs, LLP, to perform Federal Legislative Lobbyist Services, and

WHEREAS, said sole source negotiations have been completed with Patton Boggs, LLP, and

WHEREAS, On September 22, 2003, the Finance Committee recommended a second amendment to Agreement for Consultant Services in the amount of \$71,280 per year with Patton Boggs, LLP, for a period of two years be approved,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a second amendment to Agreement for Consultant Services in the amount of \$71,280 per year with Patton Boggs, LLP, for a period of two years.

BE IT FURTHER RESOLVED that the City Manager, or his authorized designee, is hereby authorized to execute the Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of October 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2003-521**

A RESOLUTION AWARDED A \$199,680 CONTRACT TO STANTEC CONSULTING, INC., FOR ENGINEERING DESIGN SERVICES FOR THE PROJECTS TITLED "ROSE / CELESTE LIFT STATION", AND THE "SCENIC LIFT STATION"

WHEREAS, following a Request for Qualifications which was sent to 84 engineering firms, 11 qualification statements for the design of the Rose/Celeste Lift Station and the Scenic Lift Station were submitted to the City, and

WHEREAS, from the 11 qualification statements received, 2 of the most qualified firms were short-listed to receive a Request for Proposal and interview, and

WHEREAS, the proposals and interviews for the engineering design services for said project were rated by the selection team, and Stantec Consulting, Inc., was rated highest, in accordance with Administrative Directive 3.1, and

WHEREAS, the Engineering and Transportation Director has recommended that Stantec Consulting, Inc., be accepted as the most qualified engineering consulting firm, and

WHEREAS, the Engineering & Transportation Director has recommended accepting the proposal of Stantec Consulting, Inc., in an amount not to exceed \$199,680,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby awards a contract for engineering design services for the projects titled "Rose/Celeste Lift Station", and the "Scenic Lift Station," to Stantec Consulting, Inc., in an amount not to exceed \$199,680.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of October 2003, by Councilmemeber Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-523**

A RESOLUTION FINDING THAT THE “MODIFICATION OF 3 TRAFFIC SIGNALS” (STANDIFORD/COLONIAL, EL VISTA/ENCINA, AND TULLY/RUMBLE) PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY A MASTER ENVIRONMENTAL IMPACT REPORT (MEIR), SCH NO. 1999082041

WHEREAS, on March 4, 2003, the City Council of the City of Modesto certified the Final MEIR, SCH No. 1999082041, for the Modesto Urban Area General Plan, and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for a MEIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the MEIR, whether the subsequent project was described in the MEIR, and whether the subsequent project was described in the MEIR as being within the scope of the project, and

WHEREAS, the Engineering and Transportation Department, by Initial Study, EA/ET 2002-11, reviewed and proposed “Modification of 3 Traffic Signals” Project (Standiford/Colonial, El Vista/Encina, and Tully/Rumble) “Project,” which determines that the proposed project is within the scope of the project covered by the MEIR, that the proposed project will have no additional, significant effect on the environment that was not identified in the MEIR, and that no new or additional mitigation measures or alternatives may be required,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed “Modification of 3 Traffic Signals” Project (Standiford/Colonial, El Vista/Encina, and

Tully Rumble), a copy of which is attached hereto as Exhibit “A”, and incorporated herein by reference, and based on the substantial evidence included in said Initial Study makes the following findings:

- A. The proposed Project is consistent with the City of Modesto General Plan and is within scope of the project covered by the General Plan Final MEIR (SCH No. 1999082041).
- B. There are no substantial changes proposed in the Project which result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and, therefore, no major revisions to the General Plan MEIR are required.
- C. No substantial changes have occurred with respect to the circumstances under which the Project is undertaken which will result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and, therefore, no major revisions to the General Plan MEIR are required.
- D. There is no new information of substantial importance which was known and could not have been known with the exercise of reasonable diligence when the General Plan MEIR was adopted which shows any of the following:
 - a. one or more significant effects which is not discussed in the General Plan MEIR; or,
 - b. significant effects which were previously examined will be substantially more severe than previously shown; or,

- c. previously infeasible mitigation measures or alternatives are now feasible and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative; or,
- d. mitigation measures or alternatives which are considerably different from those analyzed in the General Plan MEIR would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Engineering and Transportation Director is hereby authorized and directed to file a Notice of Approval within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of October 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

City of Modesto
Initial Study

THREE TRAFFIC SIGNAL MODIFICATIONS

E.A./E.T. No: 2002-11

I. PURPOSE

Section 21157.1 of the Public Resources Code, allows for limited environmental review of subsequent projects under a Master EIR, provided that certain findings are made. The Modesto Urban Area General Plan Master EIR (SCH No. 199082041), adopted March 4, 2003, allows such limited review for projects in the Baseline Developed Area that are consistent with the General Plan and existing zoning.

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, analyzes whether this project may cause any significant effects on the environment that were not examined in the General Plan Master EIR. This Initial Study also provides documentation that the project is within the scope of the General Plan Master EIR.

II. PROJECT DESCRIPTION

A. Project Title:

Three Traffic Signal Modifications ("Project")

B. Lead Agency Name and Address:

City of Modesto, P.O. Box 642, Modesto, CA 95353

C. Contact Person, Address, and Phone Number:

Steven Liu, Engineering and Transportation Department, (209) 577-5297

D. Project Locations:

At three (3) signalized intersections with the City as follows:

- Standiford and Colonial
- El Vista and Encina
- Tully and Rumble

E. Project Sponsor:

City of Modesto, P.O. Box 642, Modesto, CA 95353

F. General Plan Designation:

Location 1: Standiford/Colonial – MU (Mixed Use). (MU)

Location 2: Tully/Rumble – R (Residential)

Location 3: El Vista/Encina – R (Residential)

G. Zoning:

Location 1: Standiford/Colonial – PD (Planned Development), R2 (Medium Density Residential), and R3 (Medium High Density Residential).

Location 2: Tully/Rumble – R1 (Low Density Residential), and R2 (Medium Density Residential).

Location 3: El Vista/Encina – R1 (Low Density Residential)

H. Description of Proposed Project:

The City is proposing to modify three existing traffic signals at 3 intersections within the City as follows: Standiford and Colonial, El Vista and Encina, and Tully and Rumble. The project will include the addition of protective/permissive left-turn phasing, and upgrading existing signal equipments. The proposed project will help reduce stopping delay, increase traffic safety, and result in a reduction in air pollution at the locations.

I. Surrounding Land Uses:

Location 1: Standiford/Colonial – PD (Planned Development), R2 (Medium Density Residential), and R3 (Medium High Density Residential).

Location 2: Tully/Rumble – R1 (Low Density Residential), R2 (Medium Density Residential), and PD (Planned Development).

Location 3: El Vista/Encina – R1 (Low Density Residential)

J. Other Public Agencies Whose Approval is Required:

None

III. ANALYSIS OF CONFORMANCE WITH THE MASTER EIR

There are eighteen subject areas in the Master EIR for the General Plan. Following is an analysis of how this project conforms to the analysis contained within the Master EIR.

A. Traffic and Circulation

The Project will not result in a physical change to any existing land use. It is consistent with the General Plan designation for this site. Therefore, the traffic impacts of this project are consistent with those contained in the General Plan Master EIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Traffic and Circulation Needs (pages V-1-1 through V-1-33) are, therefore, still valid.

B. Degradation of Air Quality

The air quality impacts for this development are directly related to the traffic impacts. Since traffic impacts are no greater than those anticipated in the Master EIR, this development would not cause additional impacts to air quality beyond those described in the Degradation of Air Quality section of the MEIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Degradation of Air Quality (pages V-2-1 through V-2-26) are, therefore, still valid.

C. Generation of Noise

The Project will not result in a physical change to any existing land use. The proposed use is consistent with the General Plan in land use and intensity, and the noise impacts from the project and to the project are consistent with those analyzed in the Master EIR. Therefore, the project will not create additional significant effects, and the Mitigation Measures listed in the MEIR for Generation of Noise (pages V-3-1 through V-3-22) are, therefore, still valid.

D. Loss of Productive Agricultural Land

All existing Traffic Signals are located in developed areas outside of productive agricultural land. Therefore, the project is consistent with the Existing Conditions, Impacts Analysis, and Mitigation Measures listed in the MEIR for Loss of Productive Agricultural Land (pages V-4-1 through V-4-12) and they are, therefore, still valid.

E. Increased Demand for Water Supplies

The proposed Project includes traffic signal related improvements, and will require no additional water beyond that identified in the Increased Demand for Water Supplies section of the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Water Supplies (pages V-5-1 through V-5-13) are, therefore, still valid.

F. Increased Demand for Sanitary Sewer Services

The proposed Project includes traffic signal related improvements, and will create no additional demand for sewer capacity not identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Sanitary Sewer Services (pages V-6-1 through V-6-12) are, therefore, still valid.

G. Loss of Sensitive Wildlife and Plant Habitat

All existing Traffic Signals are located in developed areas and are not located in a Potential Biological Resource Study Area, as presented in Figure 7-1 of the MEIR. Therefore, the project will not impact sensitive wildlife or any plant habitat

above and beyond that which was identified in the Loss of Sensitive Wildlife and Plant Habitat section of the MEIR. The Existing Conditions, Impact Analysis, and the Mitigation Measures listed in this section of the MEIR (pages V-7-1 through V-7-29) are still valid.

H. Disturbance of Archaeological and Historic Sites

This project will not disturb any archaeological or historic sites that have been identified in the Disturbance of Archaeological or Historical Sites section of the MEIR. Figure 8-1 of the MEIR indicates that it is also outside the Archaeological Resource Study Area, which shows areas that may require additional site specific investigations. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Disturbance of Archaeological or Historical Sites (pages V-8-1 through V-8-22) are, therefore, still valid.

I. Drainage, Flooding and Water Quality

Because the project is consistent with the General Plan in land use and intensity, it will not present any new impacts to drainage, flooding and water quality that have not already been addressed in the MEIR. The mitigation measures in the Master EIR will not reduce the impacts of increased runoff within the baseline developed area to a less than significant level. In adopting the Master EIR, the City Council adopted a finding of overriding findings for this impact. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Drainage, Flooding, and Water Quality (pages V-9-1 through V-9-13) are still valid.

J. Increased Demand for Storm Drainage

The project will not present any new impacts that have not already been addressed in the MEIR. The mitigation measures contained in the Master EIR will not reduce the impacts of increased runoff within the baseline developed area to a less than significant level. In adopting the Master EIR, the City Council adopted a finding of overriding findings for this impact. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Storm Drainage (pages V-10-1 through V-10-16) are still valid.

K. Increased Demand for Parks and Open Space

The proposed improvements will not have an effect upon the parks or open space needs in the area over that anticipated in the Master EIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Parks and Open Space (pages V-11-1 through V-11-14) are, therefore, still valid.

L. Increased Demand for Schools

The proposed improvements will not create any additional demand for schools. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Schools (pages V-12-1 through V-12-11) are still valid.

M. Increased Demand for Police Services

Because the Project is consistent with the General Plan in land use and intensity, it will not present any increased demand for police services that has not already been addressed in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Police Services (pages V-13-1 through V-13-7) are, therefore, still valid.

N. Increased Demand for Fire Services

Because the Project is consistent with the General Plan in land use and intensity, it will not present any increased demand for fire services that has not already been addressed in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Fire Services (pages V-14-1 through V-14-9) are, therefore, still valid.

O. Generation of Solid Waste

This project will not cause the generation of solid waste beyond that which is identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Solid Waste (pages V-15-1 through V-15-10) are, therefore, still valid.

P. Generation of Hazardous Materials

This proposed use will not result in additional hazardous materials generated beyond those identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Hazardous Materials (pages V-16-1 through V-16-15) are, therefore, still valid.

Q. Landslides and Seismic Activity

This use will result in no additional potential for exposing people to landslides or earthquake related hazards such as liquefaction beyond those identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Landslides and Seismic Activity (pages V-17-1 through V-17-12) are, therefore, still valid.

R. Energy

This use will result in less than significant additional demands for energy, as identified in the MEIR. The Existing Conditions, Impacts Analysis and the

Mitigation Measures listed in the MEIR for Energy (pages V-18-1 through V-18-7) are, therefore, still valid.

IV. CONCLUSIONS/DETERMINATIONS OF FINDINGS

- A. The proposed Installation of Three Traffic Signal Modifications project is within the scope of the General Plan Master EIR (SCH No. 1999082041), which analyzed the potential impacts of buildout of the Urban Area General Plan, including roadways in this area.
- B. No additional significant environmental effects will occur as a result of the Three Traffic Signal Modifications project that were not previously examined in the General Plan Master EIR.
- C. No new mitigation measures or alternatives will be required as a result of the proposed Three Traffic Signal Modifications project that were not previously considered in the General Plan Master EIR.
- D. There are no specific features unique to the Three Traffic Signal Modifications project that requires project specific mitigation measures. All certified mitigation measures identified in the MEIR would apply city wide, including this project as appropriate.
- E. This initial study provides substantial evidence to support findings A, B, C, and D above.

Signature:

L. Steven Liu
Assistant Traffic Engineer

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-524**

**A RESOLUTION AWARDING BID AND APPROVING A \$210,358
CONSTRUCTION CONTRACT WITH PROFESSIONAL CONSTRUCTION
SERVICES FOR THE PROJECT ENTITLED "MODIFICATION OF 3 TRAFFIC
SIGNALS"**

WHEREAS, the bids received for the "Modification of 3 Traffic Signals" project were opened at 11:00 a.m., on September 9, 2003, and later tabulated by the Engineering and Transportation Director for the consideration of the Council, and

WHEREAS, the Engineering and Transportation Director has recommended that the bid of \$210,358 received from Professional Construction Services be accepted as the lowest responsible bid,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby awards the bid for "Modification of 3 Traffic Signals" project to Professional Construction Services, and approves a \$210,358 contract for completion of said project,

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the contract.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of October 2003, by Councilmemeber Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-525**

A RESOLUTION AMENDING THE CAPITAL IMPROVEMENT PROGRAM BUDGET 1) TO INCREASE THE EXPENDITURE APPROPRIATION OF MY-2300-160-N067 TO REFLECT THE ANTICIPATED INCREASE OF CONSTRUCTION COSTS, 2) TO SEPARATE THE EXISTING CAPITAL FACILITY FEES (CFF) TRANSFER OF \$55,695 TO MY-2300-700-N067-9141 INTO TWO SEPARATE PROJECT APPROPRIATIONS TO MY-2300-700-N067-9141 (\$23,807) AND MY-2300-700-N498-9141 (\$31,888), AND 3) TO INCREASE THE CFF TRANSFER APPROPRIATION OF MY-2300-700-N067-9141 TO \$68,231 TO COVER THE INCREASED EXPENDITURE APPROPRIATION

WHEREAS, on September 9, 2003, the City Council received bids for a project titled, "Modification of 3 Traffic Signals," Account No. MY-2300-160-N067, and

WHEREAS, the acceptable low bidder was Professional Construction Services, of Pleasant Hills, California, with a bid of \$210,358, and

WHEREAS, the City has obtained CMAQ funding to pay for up to \$181,486, of the project costs and the remaining portion will be appropriated from CFF reserves, and

WHEREAS, \$44,424 in additional local matching funds is required to fully fund the construction of this project, and

WHEREAS, CIP Projects 2300-160-N067 and 2300-160-N498 were once combined as a single project and the existing CFF transfer of \$55,695 to these projects is presently combined in 2300-700-N067-9141, and

WHEREAS, there are sufficient funds in the CFF reserve to fully fund 2300-160-N067,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the CIP budget is hereby amended to:

- 1) increase the expenditure appropriation of MY-2300-160-N067 to reflect the anticipated increase of the construction costs,
- 2) separate the existing CFF transfer of \$55,695 to MY-2300-700-N067-9141 into two separate project appropriations to MY-2300-700-N067-9141 (\$23,807) and MY-2300-700-N498-9141 (\$31,888), and
- 3) increase the CFF transfer appropriation of MY-2300-700-N067-9141 to \$68,231 to cover the increased expenditure appropriation.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of October 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-526**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO
ISSUE A REQUEST FOR PROPOSALS (RFP) FOR SPOILS REMOVAL
SERVICES FOR AN ESTIMATED ANNUAL COST OF \$75,000.00**

WHEREAS, the Operations and Maintenance Department-Water Division has requested the purchase of spoils removal services, and

WHEREAS, the spoils removal service contractor would remove dirt, mud, asphalt, and other debris related to various maintenance and construction activities, and

WHEREAS, this activity affects a number of work areas in the Department, and

WHEREAS, one of the largest generators of spoil materials is the Water Operations Division where spoils materials are generated each time staff repairs a water leak, installs a new water line, renews a water service, and

WHEREAS, if left along the roadside the spoil materials become an eyesore within the community as well as an can attractive nuisance with potential liability concerns for the City, and

WHEREAS, one of the benefits of removing spoils is that the material may be recycled into other products used in construction projects, and

WHEREAS, recycling keeps the materials out of landfills and out of the waste stream, and

WHEREAS, the estimated annual total cost for spoils removal services is \$75,000.00, and

WHEREAS, Modesto Municipal Code Section 8-3.203 requires all purchases exceeding \$50,000 for materials and equipment of this type to be formally bid, and

WHEREAS, by soliciting competitive bids the City will achieve the best value for spoil removal services and meet the City's requirements for formal bidding.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that formal solicitation of bids for spoils removal services is hereby approved as follows:

SECTION 1. The City Clerk is hereby authorized to call for public competitive sealed bids for spoils removal services to be opened in the City Clerk, 1010 10TH Street, in the City of Modesto. The City Clerk shall be directed to give notice inviting such sealed bids in the time, form, and manner provided by law.

SECTION 2. After the bids are opened, they shall be tabulated and analyzed and a report submitted to Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of October 2003, by Councilmemeber Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-527**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO
ISSUE A SOLE SOURCE PURCHASE ORDER TO PACO PUMPS JOHNSTON
PUMP OF SACRAMENTO, CA. FOR REBUILDING THREE (3) PACO
JOHNSTON EFFLUENT PUMPS IN THE AMOUNT OF \$65,522.56.**

WHEREAS, the Operations and Maintenance Department-Water Quality Control (WQC) has requested the purchase of rebuilding three (3) Paco Johnston effluent pumps, and

WHEREAS, Paco Pumps Johnston Pump is the Original Equipment Manufacturer (OEM) for these pumps, and

WHEREAS, due to the critical function these pumps perform they need to be rebuilt by the OEM to ensure they are returned to their original specifications, and

WHEREAS, these pumps are used to pump treated secondary effluent into the San Joaquin River during the months of October through May, and

WHEREAS, river conditions and effluent quality can and usually does shorten the season, and

WHEREAS, due to the sensitive nature of this process, we are required to closely monitor the dilution ratios into the river, and

WHEREAS, this is controlled by three (3) Paco Johnston pumps, and

WHEREAS, these pumps have been in service since 1969 and are now due for rebuild to ensure they provide reliable service during the annual window we have for river discharge, and

WHEREAS, a pump failure could result in the inability to discharge to maximize allowable flow to the river which can result in lack of storage capacity for the following reason,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Purchasing Supervisor is authorized to issue a purchase order to Paco Pumps Johnston Pump of Sacramento, Ca. in the amount of \$65,522.56.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of October 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2003-528**

A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO ISSUE A SOLE SOURCE PURCHASE ORDER TO DOOR OLIVER EIMCO OF SALT LAKE CITY, UTAH FOR ONE MAST TYPE ROTARY DISTRIBUTOR CENTER ASEMBLE IN THE AMOUNT OF \$85,912.89, AND RESCINDING RESOLUTION NO. 2003-442.

WHEREAS, the Operations and Maintenance Department-Water Quality Control (WQC) has requested the purchase of a mast type rotary distributor center assemble, and

WHEREAS, on August 12, 2003, the City Council adopted Resolution 2003-442 authorizing the Purchasing Division to solicit bids for a mast type rotary distributor center assemble, and

WHEREAS, it was later determined by the Operations and Maintenance Department and Purchasing Division staff that this is a sole source requirement, and

WHEREAS, Dorr Oliver EMICO is the original equipment manufacturer for this equipment, and

WHEREAS, the mast type rotary distributor center assemble is a major component to the fixed film reactor located at he Secondary Treatment Plant, located at 7007 Jennings Road, and

WHEREAS, it is utilized to evenly distribute waste water over reactor media, and

WHEREAS, the purpose of the reactor is to remove Bio Oxygen Demand (BOD) from the waste water, and

WHEREAS, by authorizing the sole source purchase for a mast type rotary distributor center assembly the WQC Division will be able to maintain plant operations.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Purchasing Supervisor is authorized to issue a purchase order to DC Frost Inc. of Walnut Creek, Ca. in the amount of \$85,912.89.

BE IT FUTHER RESOLVED that Resolution N0. 2003-442 is hereby rescinded.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-529**

**A RESOLUTION RESTATING GUIDELINES AND APPROVING CHANGES TO
THE DOWN PAYMENT ASSISTANCE PROGRAM, AND RESCINDING
RESOLUTIONS NOS. 95-445, 97-40, 97-154, 2001-434, 2001-606, AND 2002-419.**

WHEREAS, the City of Modesto administers a federally-funded Down Payment Assistance Program (DPAP) to help low and moderate income households purchase a home in Modesto, and

WHEREAS, pursuant to Resolution No. 95-445 adopted on September 12, 1995, the City Council approved dropping the first time buyer requirement, reducing the cash equity requirement for persons under 80% of the median income from 3% to 1%, increasing the maximum assistance for persons under 80% of median income to \$7,500, limiting the program to new housing, and determining sales prices for affordability, and

WHEREAS, pursuant to Resolution No. 97-40 adopted on January 14, 1997, the City Council approved increasing the sales price limits and adjusting the loan terms to allow deferral of payments for five years, and

WHEREAS, pursuant to Resolution No. 97-154 adopted on March 25, 1997, the City Council approved expanding the program to include existing homes, and

WHEREAS, pursuant to Resolution No. 2001-434 adopted on August 14, 2001, the City Council approved increasing the eligible sales price limit to the median sales price index, increasing the maximum loan from \$7,500 to \$25,000, increasing the amortization period from 15 years to 20 years, and requiring the buyer to put at least 1.5% of the purchase price as the buyer's contribution, and

WHEREAS, pursuant to Resolution No. 2001-606 adopted on November 27, 2001, the City Council approved lowering the interest rate from a 5% fixed simple interest to a 3% fixed simple interest, and increasing the amortization period from 25 years to 30 years with the first five years being interest and payment free, requiring staff and Housing Rehabilitation Loan Committee review of loan applications, requiring site visits to test, contain or abate lead-based paint, requiring that illegal conversions and health and safety hazards be addressed prior to loan closing, and authorizing staff to issue a Request for Proposals for home buying classes at \$250 per class, and

WHEREAS, pursuant to Resolution No. 2002-419 adopted on August 27, 2002, the City Council approved requiring that loan applicants reside and/or work in the City of Modesto for at least six consecutive months, increasing the sales price limit up to \$174,450, which is the mortgage limit in Stanislaus County for Federal Housing Administration (FHA) loans, and increasing the sales price limit when FHA limit increases, and

WHEREAS, staff recommends that the Down Payment Assistance Program be further amended to change the program format to a pre-qualifying system to expedite the loan process; to increase the maximum loan amount from \$25,000 to \$60,000; to revise and update the DPAP guidelines; to change the residence requirement to state "The City will allow any eligible low or moderate-income household that has lived within City limits and unincorporated areas or within the City's sphere of influence and has a Modesto address, or has worked within the City limits for the last six consecutive months to apply for a down payment assistance loan"; and to revise the loan amount for the Down Payment Assistance Program on an annual basis, and

WHEREAS, the Citizens Housing and Community Development Committee met on February 28, 2003, and August 22, 2003, and supported the recommended changes to the Down Payment Assistance Program, and

WHEREAS, the Housing Rehabilitation Loan Committee met on August 7, 2003, and approved the recommended changes to the Down Payment Assistance Program, and

WHEREAS, it is desirable that one resolution be adopted which would restate the requirements for eligibility for applicants to the City of Modesto Down Payment Assistance Program and incorporate the various amendments as mentioned above and that it would be appropriate to rescind those resolutions,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby restates the guidelines and approves the changes to the City of Modesto Down Payment Assistance Program as shown on **Exhibit "A"**, attached hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED that Resolution Nos. 95-445, 97-40, 97-154, 2001-434, 2001-606 and 2002-419 are hereby rescinded effective October 7, 2003.

BE IT FURTHER RESOLVED that this resolution shall go into effect and be in full force and operation on and after October 8, 2003.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of October 2003, by Councilmemeber Frohman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

INTRODUCTION

The City of Modesto Parks, Recreation & Neighborhoods Department offers a Down Payment Assistance Program (DPAP) to assist low and moderate-income families purchase a home. With funding from the Community Development Block Grant (CDBG) Program and through partnerships with local lenders we can make homeownership dreams a reality for low and moderate-income families.

The DPAP is designed to assist families that have adequate incomes to afford monthly mortgage payments, but have not been able to save enough money for the down payment and closing costs associated with buying a home. Eligible homes must be located within Modesto city limits and can be either new or existing homes. The program helps homebuyers by providing financial assistance in way of a low interest loan toward down payment and closing costs.

The City of Modesto believes that affordable homeownership opportunities can provide the foundation whereby individual families, and entire neighborhoods, can achieve a sense of stability and community pride.

MAXIMUM LOAN AMOUNT

There is no application fee to apply for a DPAP loan. The maximum loan for each household is determined as follows: For households earning up to 80% of area median income (AMI), the maximum loan is up to \$60,000. The current income eligibility limits for low-income households are:

HOUSEHOLD SIZE	INCOME LIMIT	HOUSEHOLD SIZE	INCOME LIMIT
1 Person	\$26,900	5 Person	\$41,450
2 Person	\$30,700	6 Person	\$44,550
3 Person	\$34,550	7 Person	\$47,600
4 Person	\$38,400	8 Person	\$50,700

(Effective March, 2003 and updated annually)

TERMS AND CONDITIONS

A. **Purchase Price**

The maximum price allowed under this program shall not exceed \$202,350. This price shall be modified based upon information available from FHA Mortgage Limits provided by the U.S. Department of Housing and Urban Development.

B. **Terms**

- The loan shall not accrue interest during the first five years of the term of the loan.
- During the first five years of the term of the loan, applicants shall make monthly payments of 1% of the loan amount. These payments will go towards the principal of the loan.

- On the sixth year interest will start to accrue at a 3% annually on the balance of the loan. For example: The principal balance on a \$60,000 loan would only be \$57,000.00. The payments under these conditions will be approximately \$270.30.
- Applicants can qualify for a grant of 1/5 of the balance of the loan and amortize the balance under a new agreement if they meet the following conditions:
 - i. Must reside in the property purchased with the assistance of the DPAP for 10 consecutive years,
 - ii. Have a good payment history, which includes no late payments, missed payments, or payment arrangements.

Other repayment provisions include the following:

1. The total amount of the loan, plus accrued interest, becomes due and payable at the time of sale or transfer of ownership, refinancing of the property, upon death of owner(s), or upon change of use of the property (if applicant moves out and rents the property).
2. No prepayment penalty. There is no charge or penalty for making full or partial payments on the loan.
3. The DPAP loan is generally not assumable. However, if the subsequent purchaser of the home is otherwise eligible for the Down Payment Assistance Program, the applicant may apply to the City for a waiver of the non-assumption of the loan.

**SILENT SUBORDINATE MORTGAGE/SUBORDINATION
POLICY**

The DPAP loan is silent, subordinate mortgage secured by a promissory note and City or Agency trust deed, and is recorded junior to the primary mortgage.

Subordination Policy:

Subordinations are not generally allowed. Any first lien on the property ("First Lien") held by an individual lender or investor (the "Lender") shall be prior and superior to the City Loan Agreement, the Declaration of Conditions, Covenants and Restrictions and the City Deed of Trust. However request for subordinations could be approved under the following conditions:

- The new loan shall not be larger than the original first loan.
- The new loan shall bear a fixed interest rate.
- The buyers shall not be allowed to take cash out.
- The buyers shall be responsible for paying the closing costs associated with the refinance.
- The City loan shall not be subordinated to a lower position than the original rank.
- The lender/title company shall provide a copy of cost comparison showing the original terms and the proposed new terms.
- The lender/title company shall be responsible for preparing the subordination instrument at the sole costs of the borrowers.
- The lender/title company shall submit a Good Faith Estimate.
- The lender/title company shall submit a Closing Statement of the new loan.

PARTICIPANT ELIGIBILITY REQUIREMENTS

Eligible participants must meet the following eligibility criteria in order to participate.

1. Participant(s) must qualify as a low or moderate-income household. To qualify under these criteria, participant(s) must be household(s) whereby total annual income does not exceed 80 percent (80%) of the area median income (AMI). This is adjusted for family size for Modesto at the time the household initially occupies the property, or at the time the City funds are invested, whichever is later (see income limits previously specified). HOME and CDBG funds can only be used to assist households at or below 80% of AMI.

Section 8 income guidelines are used to determine annual income, which is defined as the gross amount of income of all adult household members that is anticipated to be received during the coming twelve-month period. Income re-certification will be required if more than 180 days have elapsed from the date of the original certification and the date of loan closing or occupancy of the property.

2. The applicant must obtain the maximum loan amount from the first mortgage loan. The City of Modesto will determine the loan amount or gap by calculating the difference between the home sales price and the base loan amount obtained from the first mortgage loan.
3. Participant(s) must complete a homebuyer-counseling workshop from an agency approved by the City, prior to participating in the program.
4. Participant(s) or any household member cannot have owned a home within the past year from date of application. (Exceptions are: death of spouse, recorded dissolution of marriage and relocation due to employment)
5. Eligible participant(s) earning up to 80% of the Area Median Income must contribute 50% of the down payment required by the lender from their own funds.
6. Participant(s) must have sufficient income and credit to qualify for a mortgage loan through a reputable lender.
7. There are some credits issues that applicants must allow for certain time to pass before they can qualify for a DPAP loan. These exceptions are as follows:
 - Two years from the date of discharge for a Bankruptcy, Chapter 7 or Chapter 13. (Applicant should have good credit since to qualify for the program)

- Three years from the date of foreclosure. (Applicant should have good credit since to qualify for the program).

8. Applicant's FICO (Fair Isaac Company) score must be 610 or higher.
9. Participant(s) must occupy the property as a principal residence. This means that the participant(s) household must use the property as its primary place of residence.

Note: Use of the property for rental purposes, including temporary leases, is not allowed and, if at any time during the loan term, the property is no longer the principal residence of the participant(s), the loan will become immediately due and payable in full. The loan documents (loan agreement, deed of trust, promissory note) executed by the City and the participant(s) will incorporate this requirement. The property must be occupied within 60 days of loan closing.

When making eligibility decisions, only the household composition, employment data, or other relevant information as presented in the original DPAP application will be considered. Applicants will not be allowed to make any material changes in the DPAP application in an attempt to reverse a City loan denial.

LOCAL RESIDENCY REQUIREMENT

The City allows any eligible low or moderate-income household that has lived within City limits and unincorporated areas or within the City's sphere of influence and has a Modesto address **OR** works within the City limits for the last six (6) consecutive months to apply for a DPAP loan.

ELIGIBLE HOMES

Homes considered for purchase with a City DPAP loan must meet the following requirements:

1. The home to be purchased must be owner-occupied, vacant or occupied by the tenant making the purchase.

Homes are considered vacant if they have been unoccupied for at least 6 months prior to date that the purchase agreement was signed. Acquisition of a house must not result in the displacement of any tenants residing in the unit. DPAP loans cannot be used to assist in the purchase of tenant-occupied properties, unless the tenant is to be the purchaser.

2. A professional home inspector must inspect the property. Items identified as potential health or safety risks to the occupants must be corrected prior to any commitment of City funds. Also, any housing code violations as determined by a professional property inspector must be corrected if they are determined to pose a health or safety risk.
3. The purchase price of the home must not exceed an appropriate housing index.
4. The property must be appraised to determine that the value should be greater or equal to the purchase price.
5. Houses built prior to January 1978 must be inspected for lead-based paint by a Certified Risk Assessor/ Inspector. Proof of corrections or of passing must be provided to the City prior to any commitment of City funds.

The City can refuse to participate in the purchase of homes that are clearly not in good repair, determined to contain illegal additions or conversions, or if lead-based paint is found on the property (common in homes built before 1978) and the hazard is not properly abated.

COMBINING THE DPAP LOAN WITH OTHER PROGRAMS AND SUBSIDIES

The DPAP loan may also be combined with other homebuyer programs and subsidies, such as approved sweat-equity programs, FHA 203K loans, HUD homes, mortgage credit certificates (MCC's) and Stanislaus County public facilities fees (PFF) waivers/deferrals. Homebuyers are encouraged to request that participating lenders apply for MCC's and PFF waivers/deferrals on their behalf, since such studies may allow homebuyers to qualify for a higher mortgage.

ASSETS LIMITS

A household's assets (i.e., cash or non-cash items that can be converted to cash) are recognized when determining program eligibility and need for assistance. Households can have no more than \$15,000 in liquid assets to be eligible for the program. Should the household's assets be greater than \$15,000, the household is not eligible to participate. Also, ownership of any real estate asset will disqualify an applicant from participating in the program. Examples of assets to be considered include:

- Savings account and the average 6-month balance of checking account(s).
- Stocks, bonds, certificates of deposit, money market funds, and other investment funds.

- Inheritance, lump-sum insurance payments, already received.
- Settlements for personal or property damage already received.
- Equity in real property or other capital investments.
- Cash value of trusts that are available to the household.
- Marketable securities, stocks, bonds and other forms of capital investment, including tax-exempt securities other than an Individual Retirement or Keogh plans.
- Contributions to company retirement/pension funds that can be withdrawn without retiring or terminating employment.
- Assets that, although owned by more than one person, allow unrestricted access by the applicant.
- Lump-sum receipts such as inheritances, jewelry, coin collections, antique cars, capital gains, etc.
- Personal property held as investment such as gems, jewelry, coin collections, etc.
- Cash value of life insurance policies.

CLOSING COST AND FIRST MORTGAGE LOAN TYPE LIMITATIONS

DPAP loans may be used to cover all reasonable closing costs the buyer is responsible for paying. Examples (list not inclusive) include:

- Loan origination fee

- loan discount fee,
- appraisal fee,
- title report/insurance,
- credit report,
- pre-paids,
- professional home inspections, and other normal settlement charges.

Reimbursement for loan origination fee is limited to 1 percent (of base loan) and reimbursement for loan discount fee is limited to actual cost (applies to CHFA 1-year buy-down only). DPAP loans cannot be used to pay off previous debts incurred by the buyer.

DPAP loans cannot be used with variable rate loans (first mortgage) or used to pay discount points on 3-2-1 interest-rate buy-downs. The only buy-downs allowed under the DPAP program are (1) one-year interest rate buy-downs under the CHFA program, and (2) interest-rate buy-downs that offer a permanent rate reduction for the life of the first mortgage loan. Lenders must submit a copy of the buy-down agreement and calculation showing the actual cost of the interest rate buy-down. All loans must be delivered at par with no rebate or overage to the originator.

CO-SIGNER RESTRICTIONS

The City loan shall not be used to assist in the purchase of any home in which ownership in the property is granted to any party other than the borrower(s) (participant) approved by the City loan. In some instances, the first mortgage lender may require a co-signer as a condition of the participant's loan approval. When co-signers are required, such co-signers

cannot hold title to the property being purchased with DPAP assistance. Co-signers must sign the City's Promissory Note, as they, along with the borrower(s), will be held equally responsible for repayment of the City loan. Co-signers, as used in this section, are non-household members. As such, co-signers' income and other criteria (e.g., real estate ownership) are not considered in determining the household's eligibility. The City reserves the right to request co-signer information supplied to the first mortgage lender as part of the loan application.

HOMEBUYER COUNSELING WORKSHOP

Program participants will be required to complete a homebuyer-counseling workshop from an agency approved by the City.

The purpose of the workshop is to provide the homebuyer with step-by-step guidance to successfully purchase and maintain ownership of a home. The workshop also helps homebuyers by educating them on how to obtain mortgage financing they can afford. Subjects covered include shopping for a home, shopping for a mortgage loan, home maintenance, and budgeting, and on-going financial costs.

The workshop provider upon the participant's completion of the class will issue a certificate of completion. Participant must present the certificate (evidence of program completion) to the City of Modesto for inclusion in the City DPAP loan application. The workshop provider may charge participants a nominal fee. This fee is non-refundable and is not reimbursable as an eligible closing cost.

PROFESSIONAL HOME INSPECTION

To give homebuyers a better understanding of the quality and condition of their future home, the City requires that all existing homes considered for purchase have a professional home inspection.

Real estate purchase agreements must contain a 17-days right of rescission to review the results of the home inspection.

Professional home inspections generally cover the inspection of items such as the home's foundation, drainage, attic, crawl space, electrical systems, walls, heating, floors, roof, tiling, painting, siding, plumbing, insulation, porches, patios, decks, hot water heaters, fireplaces, kitchens, appliances, garages, baths, overview of the site, landscaping, retaining walls, and fences.

Participants will be required to select and pay for the home inspection up front. Participants would be reimbursed at close of escrow, with the inspection cost being included in their DPAP loan. Reimbursements for professional home inspections shall not exceed \$250. If escrow does not close, the City will not reimburse the participant, the home inspector, or any other party for the cost of the home inspection fee.

CONDITIONS FOR DISBURSING FUNDS

Before disbursing any funds the homebuyer must:

1. Meet all the Down Payment Assistance Program eligibility requirements.
2. Execute City loan documents (loan agreement, promissory note, subordinate trust deed) assuring compliance with the applicable requirements of the program.
3. Meet all the conditions outlined in the City conditional letter of credit.
4. Submit all the documents required by the City of Modesto.
5. Secure permanent financing (first mortgage).

APPLICATION PROCESS

1. Prospective homebuyer (Participant) contacts City of Modesto, Parks, Recreation and Neighborhoods, at (209) 577-5247 to see if they meet basic program qualifications Participant completes homebuyer-counseling workshop and has the voucher certified by a workshop provider.
2. Participant must provide to the City a Certificate of Completion of the homebuyer-counseling workshop.
3. Participant works with a lender to apply for a first mortgage and to complete a DPAP application. While qualifying the participant for a first mortgage, the lender will also assist them in completing the DPAP application, verify the information, and submit the complete loan application package to the City for approval.
4. Staff will review application and prepare proper documents to submit loan to the loan committee for pre-qualification.
5. Participant shops for a home. A real estate agent can assist participant in selecting a home, and will execute a purchase contract and determine if household has adequate resources to qualify for a loan. The purchase offer will allow for a 17-day review of home inspection report. Participant is not obligated to use the lender referred to by the real estate agent. Any reputable lender can participate in the program.
6. Upon approval of the DPAP application, the City will issue a conditional letter of commitment good for 45 days from the date of issuance.
7. Staff will prepare the necessary loan documents for the silent subordinate mortgage.

8. Staff will schedule an appointment and will meet with applicant(s) to sign loan documents.
9. The down payment assistance funds will be provided to a title company at escrow, to be applied toward the purchase of the home.
10. Escrow agent shall record the City's Deed of Trust, the Declaration of Conditions, Covenants and Restrictions and send original documents to the City of Modesto within seven (7) working days from the date of closure.
11. If there are any cancellations or disqualifications of the first mortgage loan the lender shall immediately notify the City in writing and shall include the reason for this action.
12. Any material change in income, assets, household composition, or other eligibility determination occurring after application, but prior to closing, shall be immediately reported to the lender and the City for review.

RECERTIFICATION

1. Annual:
 - Borrower shall be required to submit an annual affidavit of occupancy;
 - Lender shall, upon receipt provide, City with any Notice of Default on taxes;
 - City shall be named as a beneficiary on hazard insurance policies and shall be notified of modifications or cancellations of insurance coverage.

2. Periodic Recertification:

- The City may require periodic recertification other than at annual where change in occupancy or other circumstances may necessitate and eligibility review.

VIOLATIONS AND PENALTIES

The acceleration clause shall be invoked if the borrower willfully and knowingly makes a false statement or representation, or knowingly fails to disclose a material fact for the purpose of qualifying for the program, or, in completing certifications, affidavits, or recertification documents. The City shall demand full repayment of principal and interest rate from the date of violation.

DEBT RATIO'S GUIDELINES

Following are the two types of debt ratios the City of Modesto will use:

- **Front-End Ratio:** The standard guideline is 29%. The front-end ratio is the gross income divided by the new PITI (Principal, interest, taxes and insurance) mortgage payment.

The typical debts used to determine the qualifying front-end ratios are the current and or future house payment.

- **Back-end ratio:** The standard guideline is 41%. This is the gross income divided by the new PITI mortgage payment and also the minimum monthly payments from the applicant's liabilities.

The typical debts used to determine the qualifying back-end ratio's are the minimum required monthly payments on all of the following:

- Auto loans
- Student loans
- Personal loans
- Charge cards
- Child Support
- Alimony
- Federal Tax Lien Repayment Schedules

DETERMINING ANNUAL INCOME

Section 8 income guidelines are used to calculate annual income to determine program eligibility. Annual income is defined as the "gross" amount of income of *all* adult household members, which are anticipated to be received during the coming 12-month period. The following definitions are key to understanding the requirements for calculating Annual Income.

1. **Gross amount.** For those types of income counted, gross amounts (before any deductions have been taken) are used.
2. **Income of all adult household members.** The definition of Annual Income contains income "inclusions"—types of income to be counted—and income "exclusions"—types of income that are not considered (e.g., income of minors); and
3. **Anticipated to be received.** Annual income is used to determine eligibility and a household's expected ability to pay, rather than past earnings, are used to estimate housing assistance needs.

*The following items shall be **included** in determining Annual Income:*

1. All wages and salaries, overtime pay, commissions, fees, tips and bonuses, and other compensation for personal services (before any payroll deduction);
2. Net income from the operation of a business or profession;
3. Interest, dividends, and other net income of any kind from real or personal property. Income shall include the greater of the actual income derived from all assets or a percentage of such assets based on the current passbook saving rate, as determined by HUD.
4. Lottery winnings paid in periodic payments.
5. All gross periodic payments received from Social Security, annuities, insurance policies, retirement funds, pension, disability or death benefits, and other similar types of periodic receipts, including a lump-sum payment for the delayed start of a periodic payment (except Social Security).
6. Payments in lieu of earnings such as unemployment, worker's compensation and severance pay;
7. Welfare assistance;
8. Periodic and determinable allowances, such as alimony and child support payments, and regular contributions or gifts received from persons not residing in the dwelling;
9. All regular pay, special pay, and allowances of a member of the Armed Forces.

*The following items shall be **excluded** in determining Annual Income:*

1. Income from employment of children (including foster children) under the age of 18 years.
2. Payment received for the care of foster children.
3. Lump-sum additions to family assets, such as inheritances, insurance payments (including payments under health and accident insurance and workers compensation), capital gains and settlement for personal or property losses.
4. Amounts received by the family that are specifically for, or in reimbursement of the cost of medical expenses for any family member.
5. Income of a live-in aide.
6. Amounts of educational scholarships paid directly to the student or to the educational institution, and amounts paid by the government to a veteran, for use in meeting the costs of tuition, fees, books, equipment, material, supplies, transportation, and miscellaneous personal expenses of the student.
7. The special pay to a family member serving in the armed forces who is exposed to hostile fire.
8. Amounts received under training programs funded by HUD.
9. Temporary, nonrecurring, or sporadic income (including gifts).
10. Lump sum payment of SSI and Social Security benefits.
11. Amounts specifically excluded by any other Federal statute from consideration as income for purposes of determining eligibility or benefits under a category of assistance programs that includes assistance under the 1937 Act.

DOCUMENTS NEEDED TO PRE-QUALIFY FOR THE DPAP

The loan approval process depends on the applicant's documentation. To insure a smooth transaction, it is imperative that the applicants have all their documents gathered prior to the initial loan application. Following is a list of all the documents they will need.

1. Down Payment Assistance Application

2. Employment Information:

- Most recent two years complete tax returns with all schedules.
- Most recent two years W-2's, 1099's, etc.
- Most recent pay stubs covering one-month period.
- Verification of Employment for all adults wage earners in the applicant's household.
- *If applicable:* Self-employed will need three years tax returns and YTD Profit & Loss Statement.
- *If applicable:* Statement under penalty of perjury of unemployment status for unemployed adults.

3. Savings Information:

- Most recent three months complete bank statements for any and all accounts with all pages.
- Most recent statement from retirement, 401k, mutual funds, money market, stocks, etc.
- If you are receiving a "gift", you must provide the complete paper trail of the money's being given to you. Typically we will need the person's bank statement that is giving you the money.
- Documentation of other income sources and asset information.

4. Credit information:

- Most recent statements from your bills, indicating minimum payment and account numbers.
- Name, address and phone number of your landlord or 12 months cancelled rent checks.

- *If applicable:* should you have no credit. Copies of your most recent utility bills will be needed.
- *If applicable:* copy of complete Bankruptcy and discharge papers.
- *If applicable:* if you co-signed for a mortgage, car, credit card, etc. need 12 months cancelled checks, front and rear, indicating you are not making payments.
- Copy of drivers license
- Copy of Social security card
- *If applicable:* Copy of complete Divorce, Palimony, Alimony papers
- *If applicable:* copy of green card or work permit

5. First Mortgage Loan Documents

- Copy of Credit Reports (for each adult applicant). First Mortgage loan application, signed by lender and applicant
- Good Faith Estimate of settlement charges.
- Truth in Lending Disclosure Statement.
- Mortgage Credit Analysis worksheet.
- *If applicable:* for FHA loans include case number.
- *If applicable:* Copy of CHFA Buy down agreement.

DOCUMENTS NEEDED AFTER PRE-QUALIFICATION

After pre-qualifying for the DPAP and before disbursement of funds, applicant(s) have 30 days to submit the following documentation:

1. First Mortgage Loan Documents

- Copy of the California Residential Purchase Agreement and Joint Escrow Instructions signed by the buyer and the seller. If applicable copy of the attachments/ amendments.
- Copy of current appraisal and legal description.
- First Mortgage approval letter with any conditions attached.

2. Reports

- Home Inspection Report
- Termite Pest Control Report

- If the home was built before 1978 please submit a Lead Based Paint Inspection Report.

NOTE: The mortgage lender must submit the HUD-1 report to the City of Modesto within 5 days of closing of escrow.

EQUAL CREDIT OPPORTUNITY ACT

This Down Payment Assistance Program will be implemented in ways consistent with the City of Modesto's commitment to Fair Housing. No person shall be excluded from participation in, denied the benefits of, or be subjected to discrimination under the program on the basis of race, color, ancestry, religion, sex, marital status, physical or mental disability (including AIDS and HIV diagnosis), national origin, familial status (children), age, sexual orientation, source of income or other arbitrary reason.

CONFLICTS OF INTEREST

In accordance to title 24, Section 570.611 of the Code of the Federal Regulations, no member of the governing body and no official, employee or agent of the local government, nor any other person who exercises policy or decision-making responsibilities (including members of the loan committee and officers, employees and agents of the loan committee, the administrative agent, contractors and similar agencies) in connection with the planning and implementation of the program shall directly or indirectly be eligible for this program.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-530**

A RESOLUTION APPROVING A COOPERATIVE AGREEMENT BETWEEN THE CITY OF MODESTO AND THE HOUSING AUTHORITY OF THE COUNTY OF STANISLAUS FOR FINANCING AND CONSTRUCTION OF MILLER POINTE APARTMENTS, LOCATED AT THE SOUTHWEST CORNER OF MILLER AVENUE AND RIVERSIDE DRIVE AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE COOPERATIVE AGREEMENT.

WHEREAS, on December 28, 2001, the Housing Authority submitted an application for HOME funds for the Miller Pointe project, and

WHEREAS, on April 9, 2002, the City Council by Resolution No. 2002-168 approved an allocation of \$250,000 in HOME funds for the development of Miller Pointe, and

WHEREAS, this allocation along with other funding sources was estimated to be enough to complete the 16-unit apartment complex, and

WHEREAS, after the Housing Authority's bid opening on June 24, 2003, it was revealed that the lowest responsible bid was approximately \$600,000 higher than originally budgeted, and

WHEREAS, on September 12, 2003, the Housing Authority of the County of Stanislaus submitted a request for the City Council to consider and approve a Cooperative Agreement which is not financially binding on the City, but will assist the Housing Authority's efforts in pursuing bond financing for this project, and

WHEREAS, the Cooperative Agreement serves to assure the Housing Authority that the City will assist in conducting the Tax Equity and Fiscal Responsibility Act of 1982 (TEFRA) public hearing for the Authority's bond financing, which is required in a community whenever the sale of bonds is planned, and

WHEREAS, the City Council is the only authority to conduct TEFRA public hearings for projects within its City limits.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves a Cooperative Agreement between the City of Modesto and the Housing Authority of the County of Stanislaus for financing and construction of Miller Pointe Apartments, located at the southwest corner of Miller Avenue and Riverside Drive.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the Cooperative Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of October 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Frohman, Jackman, Keating,
O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: Fisher

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-531**

**A RESOLUTION AUTHORIZING THE PARKS, RECREATION AND
NEIGHBORHOODS DEPARTMENT TO APPLY FOR GRANT FUNDS FOR
THE PER CAPITA GRANT PROGRAM UNDER THE CLEAN WATER, CLEAN
AIR, SAFE NEIGHBORHOOD PARKS AND COASTAL PROTECTION BOND
ACT OF 2002, IN ORDER TO ENCUMBER \$873,000 IN AFOREMENTIONED
FUNDING**

WHEREAS, the people of the State of California have enacted the Per Capita Grant Program which provides funds to meet the urgent need for safe, open and accessible local park and recreation facilities for increased recreational opportunities that provide positive alternatives to social problems, and

WHEREAS, the California Department of Parks and Recreation has been delegated the responsibility for the administration of the grant program, setting up necessary procedures, and

WHEREAS, said procedures established by the California Department of Parks and Recreation require the City of Modesto's City Council to certify by resolution the approval of the City of Modesto to apply for the Per Capita Allocation, and

WHEREAS, the City of Modesto will enter into a contract with the State of California, and

WHEREAS, the City of Modesto's share of the Per Capita funds is \$873,000, which the City now desires to encumber,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby authorizes the Parks, Recreation and Neighborhoods Department to apply for grant funds for the Per Capita Program under the Clean Water, Clean Air,

Safe Neighborhood Parks and Coastal Protection Bond Act of 2002, in the amount of \$873,000 in Per Capita Funds.

BE IT FURTHER RESOLVED that the City Council appoints the City Manager or his designee as agent to conduct all negotiations, execute and submit all documents to obtain the funding including, but not limited to Applications, agreements, payment requests and so on, which may be necessary for the completion of project(s).

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of October 2003, by Councilmemeber Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-533**

**A RESOLUTION APPROVING RE-ALLOCATION OF \$40,000 IN
COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) FUNDING FOR
FISCAL YEAR 2003-2004 AND AUTHORIZING THE CITY MANAGER OR HIS
DESIGNEE TO SIGN AND EXECUTE THE AGREEMENTS.**

WHEREAS, the City of Modesto receives several Federal grants from the United States Department of Housing and Urban Development (H.U.D.), and

WHEREAS, the City receives a Community Development Block Grant (CDBG), and

WHEREAS, the City receives this grant annually because of its population size, number of households living below the poverty level, and the number of housing units that are considered substandard, and

WHEREAS, a maximum of fifteen percent of the City's available CDBG entitlement grant may be allocated to nonprofit organizations for the purposes of providing assistance that is consistent with the functions of CDBG funding to very-low, low and moderate income persons and families residing within the city limits of Modesto, and

WHEREAS, in Fiscal Year 2003-2004, fifteen percent of the City's available CDBG entitlement is \$433,500, and

WHEREAS, the Modesto City Council passed a resolution (Resolution No. 2003-68) on February 4, 2003, approving an allocation of \$150,000 in CDBG public service funds to the Modesto Police Department for the operation of the Crime Free Multi-Housing Program, and

WHEREAS, the Modesto City Council passed a resolution (Resolution No. 2003-184) on April 8, 2003, approving an allocation of \$190,745 in CDBG funding requests for FY 2003-2004, and

WHEREAS, on May 13, 2003, the Modesto City Council passed a resolution (Resolution No. 2003-238) approving the allocation of \$69,888 in CDBG funding, and

WHEREAS, on April 8, 2003, the Modesto City Council also passed a resolution approving the balance of \$22,867 of CDBG to be allocated through a second RFP process, and

WHEREAS, on June 10, 2003, the Modesto City Council passed a resolution (Resolution No. 2003-283) awarding the balance of \$22,867, and

WHEREAS, staff has received notification that \$40,427 in previously awarded funding for an After-School Learning Program at Orville Wright School, is now available for re-allocation, and

WHEREAS, Modesto City Schools 21st Century Afterschool Learning Program has submitted a letter proposing to undertake this program, and

WHEREAS, at its August 22, 2003, meeting, the Citizens Housing and Community Development Committee supported re-allocation of \$40,000 to the Modesto City Schools 21st Century Afterschool Learning Program for an After-School Learning Program at Orville Wright School, and

WHEREAS, the balance of \$427 in available funds will be held in the public service grant account to pool with any other unused funds for future funding,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the re-allocation of \$40,000 in Fiscal Year 2003-2004 CDBG funding to Modesto City Schools 21st Century Afterschool Learning Program.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the City Manager, or his authorized designee, is hereby authorized to execute any documents with respect to implementation of the re-allocation of Fiscal Year 2003-2004 CDBG Public Service Grant funding.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of October 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2003-534**

**A RESOLUTION REVISING THE POSITION CLASSIFICATION PLAN FOR
THE CITY OF MODESTO.**

WHEREAS, a Position Classification Plan for the City of Modesto was adopted by Modesto City Council Resolution 88-338 pursuant to Rule 2 of the Personnel Rules and Regulations of the City of Modesto, and

WHEREAS, the City Manager has recommended to the Council amendments to the Position Classification Plan, and

WHEREAS, Rule 2.2 of the City of Modesto Personnel Rules provides that revisions to the Classification Plan shall be effective upon adoption of resolution of the City Council,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION I. CLASSIFICATION AMENDED. The Position Classification Plan of the City of Modesto is hereby amended to revise the following classification:

Executive Secretary

The job specification for this classification is being amended as a result of updating the job specification in anticipation of opening a recruitment. The specification for the classification of Executive Secretary, as shown on the attached **Exhibit "A"**, which is hereby made a part of this resolution by reference, is hereby approved and made part of the Position Classification Plan of the City of Modesto.

SECTION 2. EFFECTIVE DATE. This resolution shall become effective on and after October 7, 2003.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of October 2003, by Councilmemeber Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

EXECUTIVE SECRETARY

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

DEFINITION

To perform a variety of highly responsible, confidential and complex administrative/secretarial duties for a Department Director and/or a Deputy City Manager.

DISTINGUISHING CHARACTERISTICS

The work in this class is distinguished by the high level of administrative assistance and technical support to an Executive and at the Executive's direction, to other senior managers.

Positions at this level are characterized by the requirement for in-depth comprehensive knowledge of the functions of the assigned Department and the City at large.

SUPERVISION RECEIVED AND EXERCISED

Receives direction from a Department Director and/or Deputy City Manager.

May exercise direct supervision over clerical and other staff in assigned area.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS

Essential and other important responsibilities and duties may include, but are not limited to, the following:

Essential Functions:

Perform a wide variety of highly responsible, complex and confidential duties in support of the administration of a department or specific functional area.

Respond to calls and visitors with tact and diplomacy; respond to requests for sensitive information and assistance; resolve citizen concerns and complaints.

Maintain liaison with city officials and staff, officials and staff of other agencies, and the

public, to obtain and relay information and coordinate activities.

Represent the department at staff and administrative meetings, committees, and related meetings.

Interpret and apply City policies, procedures, and administrative directives, and communicate laws and regulations in response to inquiries or complaints; refer inquiries as appropriate.

Evaluate new and existing legal, administrative and other requirements and may draft policies and procedures to ensure compliance and overall effectiveness of staff operations.

Maintain awareness of current issues in assigned areas of responsibility.

Research data and compile information to be used in special projects and comprehensive reports.

In the absence of the Department Manager, may sort and distribute time sensitive or confidential mail for follow-up as necessary. Independently respond to letters, electronic communication and general correspondence on behalf of the Department.

Coordinate and make travel arrangements for a Department Director, Deputy City Manager and key staff. Maintain appointment schedules and calendars. Organize and arrange meetings, conferences and civic functions.

Prepare and assemble reports, manuals, newsletters and other materials and distribute to staff.

Develop, maintain and archive a variety of files and records for information related to a department; maintain manuals and update resource materials.

Plan, prioritize, assign, supervise and review the work of a Department's support staff. Participate in the recommendation of the appointment of personnel; provide or coordinate staff training; work with employees to improve performance; implement disciplinary procedures as necessary.

Evaluate, develop, implement and maintain systems and procedures for the efficient operation of assigned area including recommendations for procedural changes affecting staff.

Participate in budget preparation and administration; prepare cost estimates for budget recommendations; submit justifications for budget items; monitor and control expenditures.

Prepare, distribute, and post agendas and minutes for a variety of meetings including Boards, Committees, Commissions, and other civic organizations; provide additional administrative support as necessary which may include the transcription of recorded or written information.

Coordinate the processing of City Council and Council Committee reports.

Marginal Functions:

May be requested to take and transcribe dictation.

Perform related duties as assigned.

QUALIFICATIONS

Knowledge of:

Business English, letter writing formats and technical report preparation.

Modern office management practices and procedures including filing systems management and the operation of a wide variety of office equipment and computer software.

Principles of organization, administration, supervision, training and personnel management.

Principles and procedures of fiscal and statistical record keeping and budget preparation and administration.

Applicable Federal, State, and local laws, codes, programs and regulations.

Functions and organization of municipal government.

Complex filing systems management and document administration.

Skill in:

Interpreting and applying administrative and departmental policies, procedures, laws and regulations.

Working cooperatively with other departments, City officials, outside agencies and members of the public.

Performing responsible and difficult administrative/secretarial work involving the use of independent judgment and personal initiative.

Understanding the organization and operation of the City and of outside agencies as necessary to assume assigned responsibilities.

Analyzing office operations and technical problems, evaluating alternatives and recommending solutions.

Compiling and maintaining complex and extensive records and preparing a variety of reports.

Maintaining confidential data and information for executive staff.

Independently prepare a wide variety of correspondence, brochures, spreadsheets and other materials.

Working independently in the absence of supervision and exercising sound independent judgment within general policy guidelines.

Operating and using modern office equipment including a computer and related software.

Typing, word processing and taking and transcribing dictation at a speed necessary for successful job performance.

Communicating clearly and concisely, both orally and in writing.

Establishing and maintaining cooperative working relationships with those contacted in the course of work.

EXPERIENCE AND TRAINING GUIDELINES

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Experience:

Three years of increasingly responsible administrative/clerical experience of a complex nature. One year of the required experience must include supervisory or lead responsibility.

Training:

Equivalent to graduation from high school or G.E.D. equivalent supplemented by college coursework in office management, computer technology or a related field.

Other Requirements:

Upon appointment specified positions must possess a valid California Driver's License and have a satisfactory driving record; and/or be able to pass a background investigation. After appointment, those specific positions must maintain a valid California Driver's License.

WORKING CONDITIONS

Environmental Conditions:

Office environment; specified positions may be required to work some evening meetings or early mornings to set-up for meetings.

Physical Conditions:

Essential and marginal functions may require maintaining physical condition necessary for sitting, standing, bending, and stooping for prolonged periods of time and occasional lifting; using various office equipment including a computer screen and keyboard.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003 - 535**

A RESOLUTION ACCEPTING A GRANT ENTITLED "CALIFORNIA SEAT BELT COMPLIANCE CAMPAIGN" FROM THE STATE OFFICE OF TRAFFIC SAFETY FOR THE GOAL OF INCREASING STATEWIDE SEAT BELT USE TO 94 PERCENT AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE NECESSARY GRANT DOCUMENTS

WHEREAS, the City of Modesto Police Department desires to undertake a certain project designated as California Seat Belt Compliance Campaign from the State Office of Traffic Safety (hereafter referred to as OTS), and

WHEREAS, the goal of the grant is to increase statewide seat belt use to 94 percent by the year 2004 through the combined efforts of the California Highway Patrol, the State Office of Traffic Safety and local law enforcement, and

WHEREAS, the monies provided in this grant will provide for overtime police personnel for seat belt enforcement during the two week long mobilization period of November 17 – 30, 2003, and

WHEREAS, there is no required City match for this program and all costs are paid for by funds from the State,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby accepts a grant from the State Office of Traffic Safety to participate in the California Seat Belt Compliance Campaign, and

BE IT FURTHER RESOLVED that the City Manager, or his authorized designee, is authorized, to execute the grant contract with OTS, including any extentions or amendments thereof and any subsequent contract with the State in relation thereto.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of September, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-537**

A RESOLUTION DENYING THE APPEAL OF JOHN AND CAROLYN BRONOWSKI TO A BOARD OF ZONING ADJUSTMENT DECISION DENYING THE APPEAL OF JOHN AND CAROLYN BRONOWSKI TO A STAFF DECISION APPROVING A SECOND-STORY ADDITION TO A HOME LOCATED AT 928 ENSLEN AVENUE.

WHEREAS, Section 10-2.508(b) requires plot plan review by the Community and Economic Development Director for second-story additions to homes in existing residential areas in the R-1 Zone, and

WHEREAS, on June 10, 2003, John C. Williams submitted a plot plan and elevations for a second-story addition to a home at 928 Enslen Avenue, and

WHEREAS, on July 11, 2003, the Community and Economic Development Director issued a letter to the applicant and adjoining property owners approving the second-story addition, and

WHEREAS, on July 25, 2003, John and Carolyn Bronowski filed an appeal to the decision to the Board of Zoning Adjustment pursuant to Section 10-2.2801 of the Municipal Code, and

WHEREAS, a public hearing was held by the Board of Zoning Adjustment on August 28, 2003, in the Tenth Street Place Chambers, located at 1010 Tenth Street, Modesto, California, at which meeting evidence both oral and documentary was received and considered, and

WHEREAS, by Resolution No. 2003-17, the Board of Zoning Adjustment denied the appeal of John and Carolyn Bronowski and approved the second-story addition to the home located at 928 Enslen Avenue on August 28, 2003, and

WHEREAS, an appeal to the decision of the Board of Zoning Adjustment was filed with the Office of the City Clerk by John and Carolyn Bronowski on September 8, 2003, and

WHEREAS, said appeal was set for a duly noticed public hearing before the City Council to be held on October 7, 2003, at 5:30 p.m. in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which time said public hearing was held, and evidence both oral and documentary was received and considered, and

WHEREAS, after said public hearing the Council of the City of Modesto found and determined that said appeal to the decision of the Board of Zoning Adjustment should be denied and the decision of the Board of Zoning Adjustment should be affirmed because the proposed second-story addition meets all City Standards contained in Section 10-2.508 of the Municipal Code.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the appeal of John and Carolyn Bronowski to a Board of Zoning Adjustment decision denying the appeal of John and Carolyn Bronowski to a staff decision approving a second-story addition to a home located at 928 Enslin Avenue is denied, and the decision of the Board of Zoning Adjustment is hereby affirmed for the reason set forth above.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of October 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-538**

**A RESOLUTION APPROVING AN AGREEMENT WITH MODESTO
IRRIGATION DISTRICT RELATING TO THE ADVANCE FUNDING OF
COSTS RELATED TO THE PHASE 2 EXPANSION OF THE MODESTO
REGIONAL WATER TREATMENT PLANT AUTHORIZING THE CITY
MANAGER TO EXECUTE THE AGREEMENT.**

WHEREAS, the Council of the City of Modesto approved Resolution No. 92-183 on April 21, 1992, authorizing the original Treatment and Delivery Agreement with the Modesto Irrigation District (MID) and the former Del Este Water Company, and

WHEREAS, the original Treatment and Delivery Agreement contemplated the design, construction, and operation of the Modesto Regional Water Treatment Plant (MRWTP) Phase 2 Expansion, and

WHEREAS, City and MID wish to pursue the design, construction, and operation of the of the MRWTP Phase 2 Expansion, and

WHEREAS, City and MID agree that the preliminary costs should be included in the project costs to be financed at a later date, and

WHEREAS, MID agrees to initially fund certain costs related to preliminary work for the project, and

WHEREAS, City agrees that MID should be reimbursed for certain costs related to preliminary work for the project, and

WHEREAS, City and MID agree that the preliminary costs shall be shared and reimbursed as summarized in **Exhibit "A"** attached hereto and incorporated herein by this reference, and

WHEREAS, the Economic Development Committee recommended approval of the Agreement at its August 11, 2003 meeting,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the agreement relating to the advance funding of costs related to the Phase 2 Expansion of the Modesto Regional Water Treatment Plant authorizes the City Manager to execute said Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of October 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Sabatino, was upon roll call carried and the resolution adopted by the following vote:

** Amounts advanced by MID shall be reimbursed by the City of Modesto at a future date through the Project's financing.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-539**

A RESOLUTION AUTHORIZING MODESTO IRRIGATION DISTRICT TO EXECUTE AN AGREEMENT IN AN AMOUNT NOT TO EXCEED \$170,000 WITH JONES AND STOKES TO PROVIDE CEQA SERVICES RELATED TO THE PHASE 2 EXPANSION OF THE MODESTO REGIONAL WATER TREATMENT PLANT.

WHEREAS, the Council of the City of Modesto approved Resolution No. 92-183 on April 21, 1992, authorizing the original Treatment and Delivery Agreement with the Modesto Irrigation District (MID) and the former Del Este Water Company, and

WHEREAS, the original Treatment and Delivery Agreement contemplated the design, construction, and operation of the Modesto Regional Water Treatment Plant (MRWTP) Phase 2 Expansion, and

WHEREAS, City and MID wish to pursue the design, construction, and operation of the of the MRWTP Phase 2 Expansion, and

WHEREAS, Council has authorized the City Manager to execute an agreement with MID relating to the advance funding of costs related to the MRWTP Phase 2 Expansion, and

WHEREAS, the aforementioned agreement requires MID to obtain City authorization to proceed beyond certain milestones in MRWTP Phase 2 Expansion, and

WHEREAS, MID issued a request for proposals for CEQA services for the MRWTP Phase 2 Expansion, and

WHEREAS, On May 21, 2003, five proposals were received from environmental consulting firms in response to a Request for Proposals solicited by MID staff, and

WHEREAS, a task force was formed consisting of both City and MID staff, which reviewed each of the proposals for compliance with the project's scope of work and all five of the responding firms were interviewed on June 6, 2003, by the task force, and

WHEREAS, the task force selected Jones and Stokes as the firm most qualified to provide CEQA services for the MRWTP Phase 2 Expansion, and

WHEREAS, City and MID staff have reviewed the proposed scope of work for the proposed services, set forth in Attachment "A" attached hereto and incorporated by this reference, and agree they are appropriate for the MRWTP Phase 2 Expansion, and

WHEREAS, MID has negotiated a reasonable fee for the services to be provided not to exceed \$170,000,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes Modesto Irrigation District to execute an agreement in an amount not to exceed \$170,000 with Jones and Stokes to provide CEQA services related to the Phase 2 Expansion of the Modesto Regional Water Treatment Plant.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of October 2003, by Councilmemeber Jackman, who moved its adoption, which motion being duly seconded by Councilmember Sabatino, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-540**

A RESOLUTION AUTHORIZING MODESTO IRRIGATION DISTRICT TO EXECUTE AN AGREEMENT IN AN AMOUNT NOT TO EXCEED \$750,000 WITH BLACK AND VEATCH TO PROVIDE PELIMINARY ENGINEERING RELATED TO THE PHASE 2 EXPANSION OF THE MODESTO REGIONAL WATER TREATMENT PLANT.

WHEREAS, the Council of the City of Modesto approved Resolution No. 92-183 on April 21, 1992, authorizing the original Treatment and Delivery Agreement with the Modesto Irrigation District (MID) and the former Del Este Water Company, and

WHEREAS, the original Treatment and Delivery Agreement contemplated the design, construction, and operation of the Modesto Regional Water Treatment Plant (MRWTP) Phase 2 Expansion, and

WHEREAS, City and MID wish to pursue the design, construction, and operation of the of the MRWTP Phase 2 Expansion, and

WHEREAS, Council has authorized the City Manager to execute an agreement with MID relating to the advance funding of costs related to the MRWTP Phase 2 Expansion, and

WHEREAS, the aforementioned agreement requires MID to obtain City authorization to proceed beyond certain milestones in MRWTP Phase 2 Expansion, and

WHEREAS, MID issued a request for proposals for engineering services for the MRWTP Phase 2 Expansion, and

WHEREAS, three proposals were received from engineering consulting firms in response to a Request for Proposals solicited by MID staff, and

WHEREAS, a task force was formed consisting of both City and MID staff, which reviewed each of the proposals for compliance with the project's scope of work and all three of the responding firms were interviewed on February 21, 2002 by the task force, and

WHEREAS, the task force selected Black and Veatch as the firm most qualified to provide engineering services for the MRWTP Phase 2 Expansion, and

WHEREAS, City and MID staff have reviewed the proposed scope of work for the proposed services, set forth in **Attachment "A"** attached hereto and incorporated herein by this reference, and agree they are appropriate for the MRWTP Phase 2 Expansion, and

WHEREAS, City and MID staff agree that it is appropriate to proceed with tasks 1.1 through 3.1.7 and tasks 3.1.10, 3.1.11, 3.1.15 and 3.1.18, as shown in Attachment "A", as well as the project management tasks necessary to perform the aforementioned tasks, and

WHEREAS, MID has negotiated a reasonable fee for the above services to be provided not to exceed \$750,000,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes Modesto Irrigation District to execute an agreement in an amount not to exceed \$750,000 with Black and Veatch to perform the above tasks related to the Phase 2 Expansion Of The Modesto Regional Water Treatment Plant.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of October 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Sabatino, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

Technical Approach - Scope of Work
Project Workflow Model Task Descriptions

Task No.	Primary Discipline (s)	Inputs (Predecessor Task)	Task/Activity	Outputs
Task 1 - Concept Development Phase - Design Studies				
1.1	Project Team	Notice to Proceed	Objective of Initial Workshop is 1) Verify Data Needs, 2) Confirm Schedule, 3) Establish Communication Tree, 4) Perform Initial Process Screening, 5) Verify Special Study Requirements, and 6) Develop Project Partnering Charter	Project Kickoff Meeting - Initial Partnering Charter Meeting
1.2	Project Team	Existing Information	Prepare Process Basis of Design Matrix. Confirm capacities of Existing Facilities.	Basis of Design Matrix.
1.3	Project Team	Conceptual Design Studies		
1.3.1	Civil, Mechanical Process or Process	District input, 1.2.	<p>Review existing process and evaluation existing and advanced technologies for the main treatment process. In addition to optimizing the existing process, consideration shall be given to dissolved air flotation (DAF). The following data will be provided by the District for Review under this task:</p> <ul style="list-style-type: none"> o District Filter Performance Reports o 5.13.01 – 5.20.01 o 11.03.01 – 11.18.01 o 12.03.01 – 12.10.01 o Modesto Regional WTP Pilot Plant Studies o Summaries of pilot plant runs during July-September, 2001. o Modesto Regional WTP Increased Filtration Protocol Report o Response from DHS to WTP Increased Filtration Protocol Report. o Modesto Regional WTP – Partnership Self Assessment o E-mail of requested tie-off/entry points for fall protection review. o E-mail of Maintenance Shop needs. o Fax copy of City of Modesto Domestic Well Data 1.01.92-1.01.02 o From Lenora Hill, dated 1.17.02. o Information provided in RFQ/RFP o Water Quality Data for past 3-5 years. From WTP Operations Data, in the form of Access Database and Excel Spreadsheets. o Recommendations Section from DHS Operating Permit for the Modesto Domestic Water o O&M Staff Records of Electrical Wiring Changes made since Phase I went into commerce 	Technical Memorandum Number 1. TM-1
1.3.2	Civil, Mechanical Process or Process	District input, 1.2.	<p>Review existing ozone and sodium hypochlorite feed systems and evaluate process and application. Included in the technical memorandum will be methodologies for expansion including in-line ozone injection, pre- and/ozone intermediate ozone, ozone retrofit technologies (LOX vs: air feed, diffusers, baffling and other short circuiting such as drains), and strategies for reducing off-gassing, and improving sampling. An evaluation of two-stage primary disinfection using ozone (pre-) and post filtration UV-light will also be performed. Optional scope item will be to employ Computational Fluid Dynamics (CFD) for design of baffling for the ozone contact basin.</p>	Technical Memorandum Number 2. TM-2

Attachment A-1

Technical Approach - Scope of Work				
Project Workflow Model Task Descriptions				
Task No.	Primary Discipline (s)	Inputs (Predecessor Task)	Task/Activity	Outputs
1.3.3	Civil, Mechanical Process or Process	District input, 1.2.	Review existing process and evaluation alternatives for improving wash water recovery and treatment performance. Design basis will incorporate addition of filter-to-waste to the recovery system (Water Management Basin). Evaluations will include (separating wastes by quality) process enhancement and conversion to different thickening/separation technologies such as inclined plate settlers, membranes, dissolved air flotation, and ballasted floc sedimentation (Acti-flo), or enhancement of existing thickener. This task also provides for recommendations to convert existing solids storage lagoons to solids drying beds.	Technical Memorandum Number 3. TM-3
1.4.1	Civil, Mechanical Process or Process	District input, 1.3.1 through 1.3.3	Prepare Draft Conceptual Design Report. Report includes Conceptual Level (10-Percent Design) Cost Opinion.	Draft Report
1.4.2		District, City and QA/QC Comments	Incorporate Review Comments	Review Comment Matrix
1.4.3		1.4.1, 1.4.2	Prepare Executive Summary	Executive Summary
1.4.4		1.4.2	Submit 50 Copies of Final Report, 50 extra Executive Summary copies, and 2 CD-Rom Electronic Copies	Final Report
1.5		Additional Studies	This subtask provides for a reserve fund to perform additional analysis as requested in order to expedite the Conceptual Design, This could include scope and procure documents for special pilot studies, if desired.	
Task 2.0 - Preliminary Design-Pre-design Studies				
2.0.1	Civil, Mechanical Process or Process	District input, 1.2.	Review all existing liquid chemical feed systems and confirm basis of design for Phase II needs. Evaluate existing lime/carbon dioxide system and evaluate alternatives to optimize the system for improved operation. Evaluate other stabilization alternatives and provide justification for retaining lime/carbon dioxide. Prepare life-cycle cost comparison for improved hydrated lime/mixing system to that of a slaked Tekkem system. Make final recommendations for implementation.	Technical Memorandum Number 4. TM-4
2.0.2	Civil, Mechanical Process or Process	District input, 1.2.	Evaluate and recommend alternatives for increasing WTP to 60 mgd. Consider alternatives for future flows above 60mgd. Identify hydraulic limitations in existing Phase I unit processes and make conceptual recommendations for possible improvements to increase hydraulic capacity.	Technical Memorandum Number 5. TM-5
2.0.3	Civil, Mechanical Process or Process	District input, 1.2.	Evaluate alternatives for maximizing transmission system capacity. This evaluation includes the pump station at the treatment plant site and additional pumping unit at the TRPS site. Optional Scope would be to consider hydraulic base model beyond the TRPS site (distribution side) or improvements necessary to provide service to Empire, CA.	Technical Memorandum Number 6. TM-6
2.0.4	I&C	District input, 1.2.	Evaluate and recommend modifications to update the WTP Control System. Scope will include inclusion of monitoring/surveillance requirements provided under parallel effort by the District. An Audit for security or threat assessment is not included in this Scope of Work.	Technical Memorandum Number 7. TM-7

Technical Approach - Scope of Work
Project Workflow Model Task Descriptions

Task No.	Primary Discipline (s)	Inputs (Predecessor Task)	Task/Activity	Outputs
2.0.5	Electrical	District input, 1.2.	Evaluate the impact of Phase II power needs on the existing power supply. Provide Phase II and other anticipated future electrical loads (such as UV-light disinfection) to the District to assist the District in the evaluation of the need for new District Substation. Evaluate existing standby generator and PCS UPS capacity and make recommendations for Phase II needs.	Technical Memorandum Number 8. TM-8
2.0.6	Civil, Mechanical Process or Process	District input, 1.2. Information from other major utilities in California. DHS Staffing Requirements	Compile staffing information for other major utilities. Prepare TM on staffing needs by job task.	Technical Memorandum Number 9. TM-9
2.0.7	Process, Project Engineer	District input, 1.2.	<p>Provide Oversight and Evaluation of the results from Filter Surveillance, performed by District Staff and an independent testing firm, in accordance with AWWARF Filter O&M recommended procedures, including the following:</p> <ul style="list-style-type: none"> a) A visual inspection of all filters including interior wall cleanliness, condition of filter box trough and valves. b) Provide photographs filters and adjacent areas before and after surveillance. c) Disinfect all materials, equipment and personal protective equipment that will be in direct contact with the media surface immediately prior to each contact with the media. These will include but not be limited to platforms to walk on the media surface, ladders, core samplers and boots. d) Inspect and sample for mudballs e) Visual inspection for media cracks, mounding and depressions f) Check and calculate filter bed (media) expansion g) Perform surface mapping of support gravel bed and report any migration h) Check freeboard measurements i) Record anthracite levels and estimate loss of media j) Take core samples in accordance with ANSI/AWWA B100-96 and ASTM D75 before a k) Observe backwash for air scour pattern, patterns and media boils. l) Composite and reduce the sample size (in accordance to ASTM C70) of the core sample m) Check the troughs to determine if they are level n) Perform backwash turbidity profile o) Perform floc retention analysis according to the guidelines described in the AWWARF p) Perform acid solubility tests on media in accordance with ANSI/AWWA B100-96 q) Perform sieve analysis on media for uniformity coefficient and effective size in accorda r) Perform microscopic evaluation of media for shape, pore size and cleanliness <p>Provide host employer with a complete report on the entire findings of the inspection.</p>	Workshop with Staff and Letter Report Summarizing Evaluation.
2.0.8	All	2.0.1 Through 2.0.7	Based on results of TMs developed under this Phase, Revise and publish revised Preliminary Study as Complete Design Report	Design Report

Technical Approach - Scope of Work				
Project Workflow Model Task Descriptions				
Task No.	Primary Discipline (s)	Inputs (Predecessor Task)	Task/Activity	Outputs
Task 2.1 - Preliminary Design-Process Design				
2.1.1	Process or Civil	Treatment Objectives, Loads & Flows, Regulatory Agency Requirements, District Requirements, permit requirements, design criteria, characteristics, and capacities.	Finalize Loads & Flows. Confirm process loads, flows and other parameters needed to effectively model the process and determine major process equipment sizes and ratings.	Conceptual design, preliminary hydraulic profile, process unit types and sizes; conceptual site arrangement; flows and loads list.
2.1.2	Process or Civil	Process Parameters necessary to run the process designer (2.1.1)	Run Process Model. Run the Cygnet Process Designer to determine design parameters for each items of process equipment. D8	Information necessary to select the number of units for parallel process units, their physical size, and hydraulic capacity.
2.1.3	Process or Civil	Process Parameters necessary to run the process designer (2.1.1) (2.1.2) Authorization to begin work from Project Manager. Permit Requirements, design criteria, raw water characteristics, plant capacity and existing plant information from District	Select No. of Units and Size. Based on process needs and basic understanding of site restrictions, select the number of units required to meet process requirements and determine their physical size and hydraulic capacity.	Initiate project equipment list by listing of all major process elements, including quantity, size, and capacity.
2.1.4	Civil	Concept Requirements & Units and Size (2.1.3) Input to establish square footage needs of buildings.	Develop Conceptual Site Layout. Block layout of site using Concept Requirements and Process information.	Conceptual site layout for discussing any physical limitations on the Process Design.
2.1.5	Construction Group	Concept Phase Documents, Process Flow Diagram (2.1.6), Size and Quantity of Process (2.1.3), Conceptual Layout (2.1.4)	Prepare Conceptual Cost Estimate. Develop conceptual opinion of probable cost for all disciplines.	Conceptual opinion of probable cost.
2.1.6	Civil, Mechanical Process or Process	Quantity, physical size and hydraulic capacity of major process elements.	Develop Process Flow Diagram (PFD). Lay out the major interconnecting piping among process units in a schematic fashion. (Piping is not sized nor routed on the site in this task.)	Basic process flow diagram, showing process units and interconnecting piping, for use as basis of P&ID
2.1.7.1	Project Engineer, Structural Engineer, Safety Engineer	Existing Information	Safety Recommendations. A B&V Safety Professional and MID Project Engineer will Meet with MID O & M staff to review safety procedures and observe existing confined space fall protection, entry, and egress systems/facilities currently in place. B&V will observe the facilities that are representative of those indicated on the list provided to B&V March 11, 2002. B&V will base the assessment and subsequent recommendations on California General Industry Orders, Title 8, Subchapter 7 as follows: Article 6. Powered Platforms and Equipment for Building Maintenance Article 108. Confined Spaces, and Subchapter 4, Construction Safety Orders, Article 24. Fall Protection	Site visit and initial recommendations for improvements in accessibility for existing facilities.

Technical Approach - Scope of Work
Project Workflow Model Task Descriptions

Task No.	Primary Discipline (s)	Inputs (Predecessor Task)	Task/Activity	Outputs
2.1.7.2	Project Engineer, Structural Engineer, Safety Engineer	2.1.7.1	Guidance Document and Report. Based on the observations noted over the course of the assessment, B&V will prepare a brief report and guidance document for MID and B&V Structural and Project Engineers for reference during design of improvements to the Treatment Plant Facilities during the expansion project.	The report and guidance document will include digital photographs with explanations of proposed improvements.
Task 2.2 - Preliminary Design-Schematic Design				
2.2.1	Civil & Mechanical Process	Schematic representation of process flow. (2.1.6)	Select Valve Location and Function. Determine where valves should be located to provide adequate process control and isolation. Determine essential function and type of valves (isolation, flow control, etc.) and locate on PFD	PFD with valves shown in schematic format, list of valves and their essential functions.
2.2.2	Civil, I&C, & Mechanical Process	Basic PFD.(2.1.6)	Indicate Primary I&C Elements. Locate primary instrumentation elements for flow, level, and pressure measurements needed for process control and monitoring	PFD with primary elements shown.
2.2.3	Civil, I&C & Mechanical Process	PFD with valves and primary elements shown. (2.2.1, 2.2.2)	Determine Control Strategy. Determine basic process and equipment control needs for process equipment. Establish requirements for automation and remote control based on District requirements.	Definition of control needs for use in developing the control system block diagram
2.2.4	I&C	Latitude and Longitude and Elevations for Facilities	NOT USED.	
2.2.5	Geotech, Civil	Project Management – Initiate Preliminary Design. Obtain any previous Geotechnical Reports from the District. Obtain Conceptual Site Layout, Regulatory Agency Requirements, Structural Code Requirements, and Subcontract Geotechnical Investigations	Geotechnical Study. Black & Veatch, through subcontract, will provide a geotechnical study for the expansion of the Modesto Regional Water Treatment Plant. The study will include the following: A) Field Reconnaissance including 3 to 4 borings at the proposed WTP expansion location and a survey of sand thickness at the existing solids storage lagoons. B) Laboratory Testing to obtain/confirm engineering properties of materials, C) Engineering Analysis and Evaluations, and D) Preparation of a Geotechnical Report.	Geotechnical Study. 10 Bound Copies of Report, plus camera ready document.
2.2.6	Civil	Obtain site survey from District, if available or secure subcontract to obtain site survey services as required, Conceptual Site Layout.	Perform Site Survey. Black & Veatch, through subcontract., will provide the following: A) Topographic reconnaissance survey of the WTP site for confirmation of the existing grades of the approximately 4.5-acre site proposed for the construction of the expansion. B) Field survey to identify horizontal and vertical locations of the connection points of the utilities to be extended. C) Perform topographic surveys to field place panels for aerial photography. D) Procure a rectified orthographic photo at a scale of 1 inch = 20 feet.	Site survey Topographic Base Map for Final Design Drawings.
2.2.7	Civil & Mechanical Process	Process schematic/PFD with valve shown (2.1.6, 2.2.1); hydraulic ratings of process equipment (2.1.3)	Run Preliminary Hydraulics, Size Major Process Pumps, Piping, and Valves. Perform preliminary hydraulic calculations on the process flow schematic to establish conservative sizing for piping, pumps and valves.	Pipe size, pump size, and valve size information for equipment lists. Hydraulic capacity and hydraulic profile.
2.2.8	I&C	PFD with valves and primary elements shown (2.2.1, 2.2.2), Control strategy definition (2.2.3)	Develop Control System Block Diagram. Develop the control system block diagram showing preliminary arrangement of PLCs, RTUs, computers, and other major control system components. Identify gross or estimated I/O counts for the system.	Control system block diagram and preliminary I/O count

Attachment A-5

Technical Approach - Scope of Work				
Project Workflow Model Task Descriptions				
Task No.	Primary Discipline (s)	Inputs (Predecessor Task)	Task/Activity	Outputs
2.2.9	I&C	Basis of Design Memo PFD with I&C Elements District Preferences	Perform Preliminary Computer Network Design. Develop the preliminary local area network design showing: media types, switches, multiplexers, hubs, termination cabinets, and other LAN components.	Basic Computer Network Design
2.2.10	Civil & Mechanical Process	Process design criteria for subsystems to support primary process. (2.1.3 & 2.1.6)	Select Equipment for Subsystems. Select system equipment for subsystems (chemical feed, nonpotable water, etc.)	Listing of subsystem equipment, including quantity, equipment size, and applicable ratings.
2.2.11	Civil & Geotech, Geotechnical Consultant	Geotechnical Investigation Plan, Conceptual Site Layout, and Grading. (2.1.4)	Obtain Preliminary Foundation Recommendations. Obtain preliminary soils information and investigate potential foundation systems.	Preliminary foundation recommendations from Geotechnical Consultant.
2.2.12	Civil, I&C, Mechanical Process	Piping layout and selection (2.2.2, 2.2.10), location of primary elements, control strategy information (2.2.3), and preliminary pipe, valve and pump sizes (2.2.7).	Produce Preliminary Process and Sub-Process P&IDs. Produce P&IDs illustrating process flow with types and quantities of process elements, preliminary line sizing, primary element functions, I/O connections, and general control strategy.	Produce P&ID for major system and for subsystems with initial I/O connections.
2.2.13	Civil, I&C & Mechanical Process	Number and size of process units (2.1.3); Number and size of subsystem units (2.2.10); valve and primary element information (2.2.2, 2.2.-1); Block diagrams/schematic design information for I&C systems (2.2.8)	Generate Equipment Lists. Generate lists of all major process equipment, subsystem components, including related valves, primary elements, and control system components.	Update equipment lists for design development deliverable; information for SPEC data sheets.
2.2.14	Civil	District requirements and objectives from Design Definition information	Produce Front-end Documents or Terms or Conditions. Develop Adopt the District Construction Contract front-end documents or contract terms and conditions.	Front end documents or contract terms and conditions ready for District review. Provide feedback to the District on Front Documents and propose text for Supplemental Conditions Section.
2.2.15	Civil, I&C & Mechanical Process	P&ID drawings illustrating project scope and design basis. (2.2.12); Equipment List. (2.2.13); Completed SPEC data sheets. (2.2.16)	Prepare Final Control Strategy. Finalize process and equipment control needs for process equipment. Establish requirements for automation and remote control based on District requirements.	Definition of control needs for use in developing the electrical schematics, major specifications, and minor specifications.
2.2.16	Civil, I&C & Mechanical Process	Number and size of process units (2.1.3); Number and size of subsystem units (2.2.10); valve and primary element information (2.2.2, 2.2.3); Block diagrams/schematic design information I&C systems (2.2.11)	Define and Distribute Preliminary Process Equipment Information. Identify and distribute minimum required information about all equipment and systems defined in this phase. Information shall be the minimum required for other design groups to proceed with their scheduled design activities through the next project phase.	System and equipment data and information.

Technical Approach - Scope of Work				
Project Workflow Model Task Descriptions				
Task No.	Primary Discipline (s)	Inputs (Predecessor Task)	Task/Activity	Outputs
2.2.17	Architect	General design criteria, District requirements, and budgetary expectations (Concept Phase)	Prepare Architectural Program. Program includes gross building space requirements; room/space listing, special requirements, height, and usage of each space; District's architectural expectations and visual statement. Describe aesthetic requirements. General description of building systems and materials. Site impacts are described. Building code requirements and handicapped accessibility requirements included.	Architectural Program. Written text with tabulated space listing. Architectural renderings, presentations, or 3D modeling efforts may be required at this time to support District decision-making during review of the Basis of Design Memo.
2.2.18	I&C	General design criteria, District requirements	Prepare Preliminary Software Control Descriptions.	Level of Automation for process equipment
2.2.19	I&C	General design criteria, District requirements, and budgetary expectations (Concept Phase)	Write I&C Text for Basis of Design Memo. Standard Discipline text related to code, conventions, and level of design effort for inclusion in the Basis of Design Discipline Section.	Basis of Design Memo
2.2.20	Electrical	General design criteria, District requirements, and budgetary expectations (Concept Phase)	Write Electrical Text for Basis of Design Memo. Standard Discipline text related to code, conventions, and level of design effort for inclusion in the Basis of Design Discipline Section.	Basis of Design Memo
2.2.21	Architect	General design criteria, District requirements, and budgetary expectations (Concept Phase)	Write Architectural Text for Basis of Design Memo. Standard Discipline text related to code, conventions, and level of design effort for inclusion in the Basis of Design Discipline Section.	Basis of Design Memo
2.2.22	Structural	General design criteria, District requirements, and budgetary expectations (Concept Phase)	Write Structural Text for Basis of Design Memo. Standard Discipline text related to code, conventions, and level of design effort for inclusion in the Basis of Design Discipline Section.	Basis of Design Memo
2.2.23	Mechanical Process, Civil	General design criteria, District requirements, and budgetary expectations (Concept Phase)	Write Mechanical Process Text for Basis of Design Memo. Standard Discipline text and Chemical Feed text related to code, conventions, and level of design effort for inclusion in the Basis of Design Discipline Section.	Basis of Design Memo
2.2.24	Civil	General design criteria, District requirements, and budgetary expectations (Concept Phase)	Write Project/Civil Text for Basis of Design Memo. Standard Discipline text related to code, conventions, and level of design effort for inclusion in the Basis of Design Discipline Section.	Basis of Design Memo
2.3	All	Basis of Design for each Discipline (2.2.19, 2.2.20, 2.2.21, 2.2.22, 2.2.23, and 2.2.24).	Plan Review Initiation. Attend a meeting at District offices and provide 10 copies of basis of design information for independent plan check review team.	Plan Check Review
2.4		Additional Studies	This subtask provides for a reserve fund to perform additional analysis as requested in order to expedite the Preliminary Design.	District Contingency Fund for Preliminary Design Phase.
Task 3.1. - Detailed Design-Spatial Design Level 1				
3.1.1	Civil & Architect	Equipment Lists and SPEC Data Sheets which include major process equipment (2.2.12, 2.2.16) existing site information (2.2.11).	Locate Major Process Structures on Site. Locate and arrange major process elements and buildings to produce a general arrangement site plan.	Preliminary site plan showing location of major process equipment not housed in buildings.
3.1.2	Civil, Mechanical Process & Structural	Equipment Lists which include major process equipment and SPEC data sheets (2.2.12, 2.2.13, 2.2.16)	Establish Space Allocations for Major Process Equipment, Subprocess Equipment, Piping and Basins. Establish space requirements for major process elements on the site and within planned structures & determine major interconnections of process piping.	Space allocation needs and general arrangements for major process equipment, tanks, basins, and chemical storage. Sketch plans. Concepts for basin and tank construction.

Technical Approach - Scope of Work
Project Workflow Model Task Descriptions

Task No.	Primary Discipline (s)	Inputs (Predecessor Task)	Task/Activity	Outputs
3.1.3	Architect	Architectural program and space allocations for major equipment. (2.2.17)	Establish Space Allocations for Personnel. Establish space requirements for personnel spaces within planned structures, including egress and accessibility requirements. Identify concepts for roof drainage and building construction.	Arrangements for personnel spaces corridors, and exits. Stick plans. Concepts for roof drainage and building construction.
3.1.4	Civil	Location and arrangement of major process elements on the site and within buildings (3.1.1, 3.1.2)	Identify Major Points of Connection Between Processes and Buildings. Establish the orientation of buildings and process equipment to determine the location and routing of major piping.	Space requirements and routing for major piping. Location of piping interfaces to buildings.
3.1.5	Mechanical Building and Electrical	Equipment Lists and SPEC data sheets which include major process equipment (2.2.13, 2.2.16); Allocation of space for Process Equipment & Personnel (3.1.2, 3.1.3), Process Text for Basis of Design memo.	Estimate Space Allocations for Electrical/Mechanical Equipment. Consult on space requirements for major electrical and mechanical building systems/HVAC, plumbing, fire protection equipment within buildings and on the site.	Preliminary space allocation needs for mechanical building systems and electrical equipment on the site and within structures.
3.1.6	I&C	Preliminary Floor Plans (3.1.6)	Identify Space Needs for Control Equipment. Use catalogs and similar projects to derive spatial needs for control equipment; such as cabinets, control panels, etc.	Preliminary space allocation needs for control equipment
3.1.7	Civil, Mechanical Process, Structural Architect, Electrical & Mechanical Building	Major Process Structures (3.1.1) P&ID (2.2.12) Equipment List (2.2.13 & 2.2.16) Space Allocation for Process Equipment, Personnel, Utilities, & Piping (3.1.1, 3.1.2, 3.1.3, 3.1.5, 3.1.6) Structural Design Criteria (3.1.8)	Develop Preliminary Floor Plans. Hold workshop to develop preliminary plans (workshop is recommended, but not mandatory).	Preliminary floor plans.
3.1.8	Structural	Established, Code-based, Requirements for Structural Design Criteria (2.2.17) Space Allocation for Utilities, Personnel, Basis of Design memo (2.2.17) and (2.2.18) Preliminary Floor Plans (3.1.7)	Establish Structural Design Criteria.	Structural design criteria
3.1.9	Civil	Major Process Structures (3.1.1) P&ID (2.2.12) Equipment List (2.2.13 & 2.2.16) Space Allocation for Process Equipment, Personnel, Utilities, & Piping (3.1.1, 3.1.2, 3.1.3, 3.1.5, 3.1.6) Structural Design Criteria (3.1.8)	Identify Major Process Points Within Structures. Establish location and location of major process elements (generally including pipe runs) within buildings, housing process equipment and associated with the existing buildings and process layout.	Space requirements and routing of major piping within structures
3.1.10	Civil, Electrical, Architect, Mechanical Building	Basis of Design memo Equipment lists and Data Sheets (2.2.13, 2.2.16). Space allocations for major process equipment, buildings and personnel areas (3.1.2, 3.1.3) hazardous materials and building materials.	Perform Building Space Code Review. Determine the classification rating (if any) for hazardous areas within buildings and surrounding process elements in accordance with NFPA 820 or other applicable codes.	Classification ratings
3.1.11	Civil, Electrical, Architect, Mechanical Building, Mechanical Process	Building space classifications for personnel and NFPA (3.1.3 & 3.1.10)	Prepare Code Classification Table. Completion of Code Classification Table. A project team workshop is recommended but not required.	Code Classification Table

Technical Approach - Scope of Work Project Workflow Model Task Descriptions

Task No.	Primary Discipline (s)	Inputs (Predecessor Task)	Task/Activity	Outputs
3.1.12	Mechanical Engineering	Finalized process flow diagrams, process descriptions, and equipment lists; Preliminary mechanical equipment layout (3.1.11); Preliminary site plan (3.1.1); Preliminary Geotechnical report (3.1.3); Preliminary Electrical and I&C Equipment layout (3.1.15).	Develop Preliminary Mechanical Building Systems Design. Establish basic layout of mechanical building systems including HVAC, process systems, and fire alarm systems. Develop preliminary mechanical equipment layout for major process elements, buildings, and roads. Determine preliminary site grading requirements, including major fills and cuts.	Preliminary mechanical building systems design including descriptions of mechanical building systems, HVAC, fire alarm systems, and fire alarm systems. Determine preliminary mechanical building systems including HVAC, process systems, and fire alarm systems.
3.1.13	Electrical & I&C	Finalized process flow diagrams, process descriptions, and equipment lists; Preliminary mechanical equipment layout (3.1.11); Preliminary site plan (3.1.1); Preliminary Geotechnical report (3.1.3); Preliminary Electrical and I&C Equipment layout (3.1.15).	Develop Preliminary Electrical and I&C Equipment Layout. Establish basic layout of electrical and I&C equipment including power distribution, control systems, and fire alarm systems. Develop preliminary electrical and control equipment layout for major process elements, buildings, and roads. Determine preliminary site grading requirements, including major fills and cuts.	Preliminary electrical and control equipment layout including descriptions of electrical and control equipment, power distribution, control systems, and fire alarm systems.
3.1.14	Civil & Structural	Finalized process flow diagrams, process descriptions, and equipment lists; Preliminary mechanical equipment layout (3.1.11); Preliminary site plan (3.1.1); Preliminary Geotechnical report (3.1.3); Preliminary Electrical and I&C Equipment layout (3.1.15).	Develop Preliminary Site Layout, Roads, and Grading. Establish basic site layout, showing location of all major process elements, buildings, and roads. Determine preliminary site grading requirements, including major fills and cuts.	Preliminary site layout showing process structures, buildings, roads, and gross contours.
3.1.15	Electrical & I&C	Finalized process flow diagrams, process descriptions, and equipment lists; Preliminary mechanical equipment layout (3.1.11); Preliminary site plan (3.1.1); Preliminary Geotechnical report (3.1.3); Preliminary Electrical and I&C Equipment layout (3.1.15).	Develop Preliminary Mechanical Building Systems Design. Establish basic layout of mechanical building systems including HVAC, process systems, and fire alarm systems. Develop preliminary mechanical equipment layout for major process elements, buildings, and roads. Determine preliminary site grading requirements, including major fills and cuts.	Preliminary mechanical building systems design including descriptions of mechanical building systems, HVAC, fire alarm systems, and fire alarm systems.
3.1.16	Civil & Structural	Finalized process flow diagrams, process descriptions, and equipment lists; Preliminary mechanical equipment layout (3.1.11); Preliminary site plan (3.1.1); Preliminary Geotechnical report (3.1.3); Preliminary Electrical and I&C Equipment layout (3.1.15).	Develop Preliminary Site Layout, Roads, and Grading. Establish basic site layout, showing location of all major process elements, buildings, and roads. Determine preliminary site grading requirements, including major fills and cuts.	Preliminary site layout showing process structures, buildings, roads, and gross contours.
3.1.17	Structural Engineering	Finalized process flow diagrams, process descriptions, and equipment lists; Preliminary mechanical equipment layout (3.1.11); Preliminary site plan (3.1.1); Preliminary Geotechnical report (3.1.3); Preliminary Electrical and I&C Equipment layout (3.1.15).	Develop Preliminary Structural Design. Establish basic structural design for major process elements, buildings, and roads. Determine preliminary structural design requirements, including major fills and cuts.	Preliminary structural design showing process structures, buildings, roads, and gross contours.
3.1.18	Civil	Finalized process flow diagrams, process descriptions, and equipment lists; Preliminary mechanical equipment layout (3.1.11); Preliminary site plan (3.1.1); Preliminary Geotechnical report (3.1.3); Preliminary Electrical and I&C Equipment layout (3.1.15).	Develop Preliminary Site Layout, Roads, and Grading. Establish basic site layout, showing location of all major process elements, buildings, and roads. Determine preliminary site grading requirements, including major fills and cuts.	Preliminary site layout showing process structures, buildings, roads, and gross contours.
3.1.19	Civil	Finalized process flow diagrams, process descriptions, and equipment lists; Preliminary mechanical equipment layout (3.1.11); Preliminary site plan (3.1.1); Preliminary Geotechnical report (3.1.3); Preliminary Electrical and I&C Equipment layout (3.1.15).	Develop Preliminary Site Layout, Roads, and Grading. Establish basic site layout, showing location of all major process elements, buildings, and roads. Determine preliminary site grading requirements, including major fills and cuts.	Preliminary site layout showing process structures, buildings, roads, and gross contours.

Attachment A-9

Technical Approach - Scope of Work Project Workflow Model Task Descriptions

Task No.	Primary Discipline (s)	Inputs (Predecessor Task)	Task/Activity	Outputs
1.1	Electrical	Technical Specifications	Review Specifications for consistency with Code/Standards, Report/Code requirements	Tasklist, QA/QC Plan, Specifications
1.2	Electrical	Electrical Power Plans	Complete Electrical Panel, Distribution, and Control Schematics, including wiring diagrams, panel drawings and electrical equipment layouts	Technical specifications, material quantities/schedules, and coordination
1.3	Electrical	Electrical Power Panel Sizing	Complete Electrical Panel Sizing, including Distribution, Control and Control Panel Sizing	Electrical specifications, material quantities/schedules, and coordination
1.4	Electrical	Electrical Power Panel Sizing	Coordinate wiring, panel, and control wiring, with process equipment vendor, electrical equipment manufacturer, and control panel manufacturer	Tasklist, QA/QC Plan, Specifications
1.5	Electrical	Electrical Power Panel Sizing	Complete Electrical Panel Specifications, including panel drawings, wiring diagrams, and electrical equipment layouts	Technical specifications, material quantities/schedules, and coordination
1.6	Electrical	Electrical Power Panel Sizing	Coordinate wiring, panel, and control wiring, with process equipment vendor, electrical equipment manufacturer, and control panel manufacturer	Tasklist, QA/QC Plan, Specifications
1.7	Electrical	Electrical Power Panel Sizing	Complete Electrical Panel Specifications, including panel drawings, wiring diagrams, and electrical equipment layouts	Technical specifications, material quantities/schedules, and coordination
1.8	Electrical	Electrical Power Panel Sizing	Coordinate wiring, panel, and control wiring, with process equipment vendor, electrical equipment manufacturer, and control panel manufacturer	Tasklist, QA/QC Plan, Specifications
1.9	Electrical	Electrical Power Panel Sizing	Complete Electrical Panel Specifications, including panel drawings, wiring diagrams, and electrical equipment layouts	Technical specifications, material quantities/schedules, and coordination
1.10	Electrical	Electrical Power Panel Sizing	Coordinate wiring, panel, and control wiring, with process equipment vendor, electrical equipment manufacturer, and control panel manufacturer	Tasklist, QA/QC Plan, Specifications
1.11	Electrical	Electrical Power Panel Sizing	Complete Electrical Panel Specifications, including panel drawings, wiring diagrams, and electrical equipment layouts	Technical specifications, material quantities/schedules, and coordination
1.12	Electrical	Electrical Power Panel Sizing	Coordinate wiring, panel, and control wiring, with process equipment vendor, electrical equipment manufacturer, and control panel manufacturer	Tasklist, QA/QC Plan, Specifications
1.13	Electrical	Electrical Power Panel Sizing	Complete Electrical Panel Specifications, including panel drawings, wiring diagrams, and electrical equipment layouts	Technical specifications, material quantities/schedules, and coordination
1.14	Electrical	Electrical Power Panel Sizing	Coordinate wiring, panel, and control wiring, with process equipment vendor, electrical equipment manufacturer, and control panel manufacturer	Tasklist, QA/QC Plan, Specifications
1.15	Electrical	Electrical Power Panel Sizing	Complete Electrical Panel Specifications, including panel drawings, wiring diagrams, and electrical equipment layouts	Technical specifications, material quantities/schedules, and coordination
1.16	Electrical	Electrical Power Panel Sizing	Coordinate wiring, panel, and control wiring, with process equipment vendor, electrical equipment manufacturer, and control panel manufacturer	Tasklist, QA/QC Plan, Specifications
1.17	Electrical	Electrical Power Panel Sizing	Complete Electrical Panel Specifications, including panel drawings, wiring diagrams, and electrical equipment layouts	Technical specifications, material quantities/schedules, and coordination
1.18	Electrical	Electrical Power Panel Sizing	Coordinate wiring, panel, and control wiring, with process equipment vendor, electrical equipment manufacturer, and control panel manufacturer	Tasklist, QA/QC Plan, Specifications
1.19	Electrical	Electrical Power Panel Sizing	Complete Electrical Panel Specifications, including panel drawings, wiring diagrams, and electrical equipment layouts	Technical specifications, material quantities/schedules, and coordination
1.20	Electrical	Electrical Power Panel Sizing	Coordinate wiring, panel, and control wiring, with process equipment vendor, electrical equipment manufacturer, and control panel manufacturer	Tasklist, QA/QC Plan, Specifications
1.21	Electrical	Electrical Power Panel Sizing	Complete Electrical Panel Specifications, including panel drawings, wiring diagrams, and electrical equipment layouts	Technical specifications, material quantities/schedules, and coordination
1.22	Electrical	Electrical Power Panel Sizing	Coordinate wiring, panel, and control wiring, with process equipment vendor, electrical equipment manufacturer, and control panel manufacturer	Tasklist, QA/QC Plan, Specifications
1.23	Electrical	Electrical Power Panel Sizing	Complete Electrical Panel Specifications, including panel drawings, wiring diagrams, and electrical equipment layouts	Technical specifications, material quantities/schedules, and coordination
1.24	Electrical	Electrical Power Panel Sizing	Coordinate wiring, panel, and control wiring, with process equipment vendor, electrical equipment manufacturer, and control panel manufacturer	Tasklist, QA/QC Plan, Specifications
1.25	Electrical	Electrical Power Panel Sizing	Complete Electrical Panel Specifications, including panel drawings, wiring diagrams, and electrical equipment layouts	Technical specifications, material quantities/schedules, and coordination
1.26	Electrical	Electrical Power Panel Sizing	Coordinate wiring, panel, and control wiring, with process equipment vendor, electrical equipment manufacturer, and control panel manufacturer	Tasklist, QA/QC Plan, Specifications
1.27	Electrical	Electrical Power Panel Sizing	Complete Electrical Panel Specifications, including panel drawings, wiring diagrams, and electrical equipment layouts	Technical specifications, material quantities/schedules, and coordination
1.28	Electrical	Electrical Power Panel Sizing	Coordinate wiring, panel, and control wiring, with process equipment vendor, electrical equipment manufacturer, and control panel manufacturer	Tasklist, QA/QC Plan, Specifications
1.29	Electrical	Electrical Power Panel Sizing	Complete Electrical Panel Specifications, including panel drawings, wiring diagrams, and electrical equipment layouts	Technical specifications, material quantities/schedules, and coordination
1.30	Electrical	Electrical Power Panel Sizing	Coordinate wiring, panel, and control wiring, with process equipment vendor, electrical equipment manufacturer, and control panel manufacturer	Tasklist, QA/QC Plan, Specifications

Task 4 - Project Management/Coordination/Meetings

4.1	Project Manager	Contract and District.	Prepare Project Workplan, Includes general requirements, Organization Charts, Project Communications, Document Filing Codes, Schedule, and QA/AC Plan.	Project Workplan
4.2	Project Manager and Project Accountant	Contract and BISNET.	Prepare Monthly Invoice and Narrative Progress Report	Monthly Invoice
4.3	Project Team	District and Contract	Attend meetings, prepare and make presentations, and prepare meeting agenda and minutes for distribution.	Meeting Agenda and Minutes, Handouts for presentations.
4.4	QA/QC Team	1.3.1 thru 1.3.9, 1.4.1, 2.2.24, 3.3.19, 3.4.17	Review and provide feed back on all technical memoranda, reports, and design documents.	QA/QC on all documents
4.5	Project Team	Project Team.	Set-up through third party provider, a web-based collaborative system for project management, communication, and scheduling. Service will be subscription service by eRoom.com	Collaborative Website for Project Communication Through Design Phase. Budget for CPS captured separately.
4.6	Project Team	District	Additional Meetings or Presentations	

Task 5 - Construction Administration/Construction/Meetings

5.1	Project Manager	Contract and District	Coordinate and Administer Construction/Meetings	Construction Administration/Construction/Meetings
5.2	Project Manager	Contract and District	Coordinate and Administer Construction/Meetings	Construction Administration/Construction/Meetings
5.3	Project Manager	Contract and District	Coordinate and Administer Construction/Meetings	Construction Administration/Construction/Meetings
5.4	Project Manager	Contract and District	Coordinate and Administer Construction/Meetings	Construction Administration/Construction/Meetings
5.5	Project Manager	Contract and District	Coordinate and Administer Construction/Meetings	Construction Administration/Construction/Meetings
5.6	Project Manager	Contract and District	Coordinate and Administer Construction/Meetings	Construction Administration/Construction/Meetings
5.7	Project Manager	Contract and District	Coordinate and Administer Construction/Meetings	Construction Administration/Construction/Meetings
5.8	Project Manager	Contract and District	Coordinate and Administer Construction/Meetings	Construction Administration/Construction/Meetings
5.9	Project Manager	Contract and District	Coordinate and Administer Construction/Meetings	Construction Administration/Construction/Meetings
5.10	Project Manager	Contract and District	Coordinate and Administer Construction/Meetings	Construction Administration/Construction/Meetings
5.11	Project Manager	Contract and District	Coordinate and Administer Construction/Meetings	Construction Administration/Construction/Meetings
5.12	Project Manager	Contract and District	Coordinate and Administer Construction/Meetings	Construction Administration/Construction/Meetings
5.13	Project Manager	Contract and District	Coordinate and Administer Construction/Meetings	Construction Administration/Construction/Meetings
5.14	Project Manager	Contract and District	Coordinate and Administer Construction/Meetings	Construction Administration/Construction/Meetings
5.15	Project Manager	Contract and District	Coordinate and Administer Construction/Meetings	Construction Administration/Construction/Meetings
5.16	Project Manager	Contract and District	Coordinate and Administer Construction/Meetings	Construction Administration/Construction/Meetings
5.17	Project Manager	Contract and District	Coordinate and Administer Construction/Meetings	Construction Administration/Construction/Meetings
5.18	Project Manager	Contract and District	Coordinate and Administer Construction/Meetings	Construction Administration/Construction/Meetings
5.19	Project Manager	Contract and District	Coordinate and Administer Construction/Meetings	Construction Administration/Construction/Meetings
5.20	Project Manager	Contract and District	Coordinate and Administer Construction/Meetings	Construction Administration/Construction/Meetings

Attachment A-10

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-541**

**A RESOLUTION EXTENDING THE TERM OF debee loyd AS THE POET
LAUREATE OF THE CITY OF MODESTO THROUGH JUNE 30, 2004.**

WHEREAS, on July 13, 1993, by Resolution No. 93-412, the City Council established a non-salaried honorary position to be known as “The Poet Laureate of the City of Modesto”, and

WHEREAS, the Culture Commission has the responsibility for nominating and recommending appointments to the Poet Laureate position, and

WHEREAS, the purpose of a Poet Laureate is to present original poems at various official occasions, and

WHEREAS, a copy of the City of Modesto Policy regarding said non-salaried honorary Poet Laureate position is on file in the office of the City Clerk, and

WHEREAS, debee loyd was appointed as “Poet Laureate of the City of Modesto” by the City Council on July 25, 2000 by Resolution No. 2000-384, and

WHEREAS, the Culture Commission met on August 18, 2003 and concluded that debee loyd has appropriately fulfilled her obligations as Poet Laureate over the previous three years, and

WHEREAS, the Culture Commission further recommended the extension of debee loyd as the Poet Laureate of the City of Modesto through June 30, 2004,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the extension of the term of debee loyd as the Poet Laureate of the City of Modesto through June 30, 2004.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 7th day of October 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating,
O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: None

ATTEST: Jean Zahr
JEAN ZAHR, City Clerk

(SEAL)

APPROVED AS TO FORM:

By Michael D. Milich
MICHAEL D. MILICH, City Attorney

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-542**

**A RESOLUTION APPROVING AN AMENDMENT TO THE AGREEMENT
WITH TOWN HALL SERVICES, IN THE AMOUNT OF \$21,969.01 FOR
ADDITIONAL WORK NOT INCLUDED IN THE ORIGINAL AGREEMENT
AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE SAME**

WHEREAS, on May 28, 2002, the City Council approved a professional services agreement with Town Hall Services to prepare a Capital Facilities Fee Study Update, and

WHEREAS, following completion of their original tasks, Town Hall Services was asked by the project manager to attend a number of meetings and provide additional input, and

WHEREAS, Town Hall Services has requested an additional fee of \$21,969.01 to cover the additional scope of work,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the amendment to agreement with Town Hall Services, in the amount of \$21,969.01, for additional services related to the Capital Facilities Fee Study Update.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the amendment to agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of October, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating,
O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: None

ATTEST: Jean Zahr
JEAN ZAHR, City Clerk

APPROVED AS TO FORM:

By Michael D. Milich
MICHAEL D. MILICH, City Attorney

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003 - 543**

A RESOLUTION APPROVING THE AWARD OF A CONTRACT IN THE AMOUNT OF \$59,174 TO YOUNG ELECTRIC SIGN COMPANY TO DESIGN, MANUFACTURE AND INSTALL THE MARQUEE SIGN AT MODESTO CITY-COUNTY AIRPORT, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE CONTRACT.

WHEREAS, the City of Modesto accepted proposals on March 11, 2003 from sign manufacturers to design, manufacture, and install an illuminated airport marquee sign at the corner of Mitchell Road and Tenaya Drive, and

WHEREAS, the sign will be located adjacent to the airport passenger terminal, and will provide good advertisement of the airport and its services, and

WHEREAS, sign manufacturers were requested to show their creativity in their proposals and provide the City with a cost to design, manufacture and install the sign, and

WHEREAS, the City provided the sign manufacturers with the following elements to include in the design: (1) the name of the airport; (2) its year of establishment; and (3) the airport logo, and

WHEREAS, three proposals were received from sign manufacturers, and of those three, two were considered acceptable, and

WHEREAS, the Airport Advisory Committee selected two members to serve on a subcommittee with the Airport Manager to make a recommendation to the City Council, and

WHEREAS, the Council Economic Development Committee considered this recommendation at their May 12, 2003 meeting and unanimously approved the selection of Young Electric Sign Company, and

WHEREAS, the recommended proposal was over the budgeted amount of the original project budget of \$50,000, and

WHEREAS, this \$50,000 was carried over to Fiscal Year 2003/04 and the Council Finance Committee approved an additional \$10,000 in the Airport's Operating Budget in FY 2003/04 in order to fully fund this project, and

WHEREAS, the Council approved the budget increase to \$60,000 for this project in Fiscal Year 2003/04 at their meeting on August 6, 2003,

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Modesto that it hereby approves awarding a contract in the amount of \$59,174 to Young Electric Sign Company to design, manufacture and install the airport marquee sign.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is authorized to execute the contract on behalf of the City.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of October, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-547**

A RESOLUTION AUTHORIZING THE SOLE SOURCE PURCHASE OF A USED 40-TON, TRUCK-MOUNTED CRANE FROM FORST CRANE WORKS, INC. FOR A TOTAL ESTIMATED COST OF \$267,900.63

WHEREAS, the Water Quality Control Division is in need of a new 40-Ton, Truck-Mounted Crane for maintenance operations in the City, and

WHEREAS, the current equipment is at the end of its useful life, is frequently down for repairs, and is in need of replacement with a larger unit, and

WHEREAS, the City has an opportunity to purchase a used 40-ton-truck-mounted crane, and

WHEREAS, this used, 40-ton, truck-mounted crane will meet the maintenance and service needs of the Wastewater Treatment Plant maintenance crews, and

WHEREAS, the used, recommended 40-ton, truck-mounted crane will offer a full 20-year service life, and

WHEREAS, the same truck purchased new costs \$307,746.75, and

WHEREAS, this used truck is in like-new condition and can be purchased for \$267,900.63, offering the city a savings of \$39,846.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the sole source purchase of a used 40-ton, truck-mounted crane from Forst Crane Works Inc., Phoenix, Arizona at an estimated cost of \$267,900.63.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of October, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-548**

A RESOLUTION APPROVING STAFF'S RECOMMENDATION ON FUTURE USE OF SOCIAL SECURITY ADMINISTRATION BUILDING AS OFFICES, MEETING ROOMS, AND STORAGE SPACE FOR VARIOUS CITY ACTIVITIES AND AUTHORIZING STAFF TO SUBMIT A "LETTER OF INTEREST" TO OBTAIN NECESSARY APPLICATION INSTRUCTIONS FROM THE DEPARTMENT OF HEALTH AND HUMAN SERVICES (HHS) FOR THE SURPLUS OF THE SOCIAL SECURITY ADMINISTRATION BUILDING LOCATED AT 1230 12TH STREET.

WHEREAS, on August 29, 2003, the City of Modesto received a "Notice of Determination," which indicated the Social Security Administration (SSA) Building, located at 1230 12th Street, had been determined to be surplus government property, and

WHEREAS, the notice, issued by the U.S. General Services Administration of the Federal Government, reported that the property was also determined to be suitable by the Department of Housing and Urban Development (HUD), and the first priority for use is programs or services for homeless, and

WHEREAS, the property consists of a .62-acre corner lot improved with an 11,957-square-foot office building and 24 paved outdoor parking spaces, with the zoning designation as C-2 (general commercial), and

WHEREAS, the building is handicapped accessible, and the City bus service stops in front of the building (Max Bus # 30), and

WHEREAS, although the building is in good condition, it does not meet current seismic standards; the cost estimate for both structural and nonstructural seismic retrofit is \$58,860; the mechanical and electrical system and the roof are the major items requiring replacement and repair in the near future, the repair alteration cost estimate for continued operation is \$303,000 for site repair, mechanical and electrical work, and

WHEREAS, asbestos-containing material (ACM) in the form of wallboard joint compound is located throughout the building in the walls and ceilings; the ACM is in good condition and is non-friable, and

WHEREAS, the building also contains lead-base paint; the preliminary estimate to rehabilitate this building is approximately \$400,000, and

WHEREAS, the SSA presently occupies the building and is planning to move to a new facility in January 2004, and

WHEREAS, currently, SSA serves several hundred people per day on an ongoing basis, and

WHEREAS, staff proposes that the building currently housing the SSA could be utilized for several necessary purposes, including:

- Offices for the Restorative Police Function and Bicycle Officers. (The Restorative Policing Program is designed to address adults with mental illness or other disabilities that are at high risk of being repeatedly victimized or arrested for activities related to their disability),
- Offices for the “Information and Referral” agencies involved in the Stanislaus Housing and Support Services Collaborative which the City Council approved as the planning and coordinating body for homeless issues in Stanislaus County,
- Offices, storage, meeting space for the Recreation staff currently located at the Coldwell Office, and
- Storage and possible office sites for the Police Activities League (PAL) function,

and

WHEREAS, if the City's application request is approved, the City of Modesto and the Collaborative's agencies could work in coordination to rehabilitate this facility for the outlined uses, and

WHEREAS, it is expected that the Collaborative should be the agency to oversee their program portion of this facility, and a City team of employees will oversee the Recreation/PAL function,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves staff's recommendation for future use of the Social Security Administration Building.

BE IT FURTHER RESOLVED that staff is hereby authorized to submit a "Letter of Interest" to obtain necessary application instructions from the Department of Health and Human Services (HHS) for the surplus of the Social Security Administration Building located at 1230 12th Street.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of October, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-549**

**A RESOLUTION AUTHORIZING THE PURCHASE OF A SPECIAL WEAPONS
AND TACTICS VEHICLE FOR POLICE SWAT OPERATIONS FOR A TOTAL
ESTIMATED COST OF \$214,825**

WHEREAS, the Police Department is in need of a new Special Weapons and Tactics vehicle for SWAT operations in the City, and

WHEREAS, the Police Department currently utilizes a converted, 21-year old armored car for its SWAT vehicle that was never intended to be a SWAT vehicle, has outlived its useful life, is prone to frequent failures and is in need of replacement, and

WHEREAS, the new, recommended replacement SWAT vehicle utilizes current technologies and is designed as a personnel transport vehicle, and

WHEREAS, this new SWAT vehicle will hold all SWAT equipment and can be used as a rescue vehicle in the event that a person or persons are trapped by gunfire, and

WHEREAS, recent national events dictate that we in Modesto need to be prepared to handle critical events and this SWAT vehicle will assist us for all types of critical events, and

WHEREAS, violence involving guns is on the rise and this SWAT vehicle will allow us to safely confront these problems, and

WHEREAS, this SWAT vehicle's life expectancy is anticipated to be twenty years, and

WHEREAS, at its meeting of September 3, 2003 the Safety and Communities Committee unanimously recommended this action, and

WHEREAS, at its meeting of September 22, 2003 the Finance Committee also unanimously recommended this action, and

WHEREAS, pursuant to Modesto Municipal Code Section 8-3.204(d) the Purchasing Supervisor, in his or her discretion, has determined that a process other than the formal bid procedure set forth in Section 8-3.203 will result in procurement for the City at the lowest possible cost commensurate with the desired quality,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the purchase of a Ballistic Engineered Armored Response/Rescue ("SWAT") Vehicle from Lenco Armored Vehicles at 61 Downing Industrial Park in Pittsfield, Massachusetts at a cost of \$214,825.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of October, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-551**

**CONSIDER REJECTING ALL BIDS FOR RADIO AND COMMUNICATION
EQUIPMENT SERVICE AND REPAIR CONTRACT AND AUTHORIZING RE-
BIDDING THE SERVICES**

WHEREAS, the Fire, Operations and Maintenance and Police Departments have requested ongoing service and repair for their inventory of mobile and portable 2-way radios and communication equipment, and

WHEREAS, the Operations and Maintenance Department, Fleet Services Division manages and maintains the City's inventory of mobile radios, and

WHEREAS, the Fire Department manages and maintains their inventory of portable radios and radio equipment, and

WHEREAS, the Police Department manages and maintains their inventory of portable radios and the City's radio communications infrastructure, and

WHEREAS, in December 2002, Council approved Resolution No. 2002-610 authorizing the Purchasing Supervisor to formally solicit bids for mobile and portable 2-way radio and communication equipment service and repair for the Fire Operations Maintenance and Police Departments, and

WHEREAS, the Purchasing Division solicited Request for Bid No. 0203-13 for mobile and portable 2-way radio and communication equipment service and repair to five (5) vendors. Bids were opened on June 10, 2003. Of the five (5) vendors solicited, two (2) vendors chose to respond, and

WHEREAS, one of the requirements in the bid called for bidders to possess a C7 Low Voltage Systems Contractor's License, and

WHEREAS, of the two (2) respondents, only one (1) bidder, Delta Wireless Inc., had the required license, and

WHEREAS, the other bidder (Lagorio Communications), who does not have the C7 license, stated so in an e-mail prior to the bid opening and also stated that they were in the process of filing for the license with the California Contractors State License Board, and

WHEREAS, to allow for increased vendor inclusion, they were given approval to submit their bid with the C7 license application attached, and

WHEREAS, Lagorio also stated the C7 Contractors license has never been used in the wireless industry and really applies to contractors who do network cabling for computer solutions, and they along with another company who does not have this license have full Motorola dealerships with full warranty repair authorization from Motorola, and

WHEREAS, in further research, the California State License Board declares in California Code of Regulations Division 8, Title 16, Article 3, Classification for a C7 Low Voltage Systems Contractor License: A communication and low voltage contractor installs, services and maintains all types of communication and low voltage systems which are energy limited and do not exceed 91 volts. These systems include, but are not limited to, telephone systems, closed-circuit video systems, satellite dish antennas, instrumentation and temperature controls, and low voltage landscape lighting. Low voltage fire alarm systems are specifically not included in this section, and

WHEREAS, based on the scope of services bid and verbal confirmation from the State Contractors Licensing Board the decision was made, (pending Council approval) to

award to the only responsive bidder currently in possession of the required C7 license,
and

WHEREAS, intent to award letters were mailed on August 26, 2003, and

WHEREAS, on September 8, 2003 the Purchasing Supervisor received a formal
bid protest filed by a Mr. Steve Finch on behalf of Lagorio Communications, and

WHEREAS, Mr. Finch was protesting the C7 license requirement and the lack of
opportunity to protest the requirement, and

WHEREAS, on September 10, 2003 the Purchasing Supervisor responded to the
protest in writing, citing the State Contractors Licensing Board requirements as well as
the protest that Mr. Finch had filed, and

WHEREAS, in summary, the Purchasing Supervisor concluded that the process
was fair and the licensing requirement valid, and

WHEREAS, on September 17, 2003 Mr. Finch appealed the Purchasing
Supervisor's decision to the Deputy City Manager as prescribed in the City's protest
procedures, and

WHEREAS, the Deputy City Manager reviewed the appeal and rendered his
decision, and

WHEREAS, based on the documentation submitted to the Deputy City Manager,
his recommendation was to reject all bids and re-bid the Radio and Communication
Equipment Service and Repair contract with the inclusion of a C7 and/or C10 licensing
requirement and at the bid opening to have all bids read aloud noting that all bids are
conditional and subject to review and evaluation prior to award, and

WHEREAS, his decision was based on his feeling that the prospective bidder might have been confused by being allowed to submit a bid with a C7 license application as opposed to actually having the C7 license, and

WHEREAS, the decision of the Deputy City Manager, after reviewing the protest/appeal documents submitted by the appellant, Lagorio Communications, was to reject all bids and re-bid for services. In addition, page number 3 of the bid states that: The City reserves the right to reject any or all bids or to waive any informalities or minor irregularities in a bid.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby rejects the bids received for Mobile and Portable 2-Way Radio and Communication Equipment Service and Repair, Bid No. 0203-13, opened in the City Clerk's office on June 10, 2003.

BE IT FURTHER RESOLVED that a Request for Proposal for a Mobile and Portable 2-Way Radio and Communication Equipment Service and Repair contract with the inclusion of a C7 and/or C10 licensing requirement, for an estimated annual amount of \$45,425.00, for a three (3) year contract, is hereby authorized.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of October, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-552**

A RESOLUTION APPROVING A DEVELOPMENT PLAN FOR PLANNED DEVELOPMENT ZONE, P-D(562). (SILVEIRA)

WHEREAS, a verified application for an amendment to Section 7-3-9 of the Zoning Map was filed by Mary Silveira on March 31, 2003, to reclassify from Low-Density Residential Zone, R-1, to Planned Development Zone, P-D(562), to allow a 14 unit townhouse-style apartment complex, property located on the west side of Carver Road, opposite Montclair Drive, described as follows:

R-1 to P-D(562)

All that certain real property situated in the City of Modesto, County of Stanislaus, State of California, and being a portion of the Southwest Quarter of Section 7, Township 3 South, Range 9 East, Mount Diablo Base and Meridian, more particularly described as follows:

All of Parcel "1" as per Parcel Map filed on August 31, 1979 in Book 29 of Parcel Maps, at Page 88, Stanislaus County Records;

Also including the westerly half of Carver Road, all being immediately adjacent to the above-described property.

WHEREAS, after a public hearing held on September 8, 2003, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, it was found and determined by the Planning Commission, by its Resolution No. 2003-56, that rezoning of the property as requested is required by public necessity, convenience, and general welfare for the following reasons:

1. The proposed townhouse-style apartment complex is consistent with the current General Plan land use designation for the site.
2. The townhouse-style apartment complex is compatible with the adjacent land uses along Carver Road.

WHEREAS, said matter was set for a public hearing of the City Council to be held on October 14, 2003, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which date and time said duly noticed public hearing was held, and

WHEREAS, after said public hearing the Council found and determined that the application of Mary Silveira for a Planned Development Zone should be granted as consonant with public necessity, convenience and general welfare for the reasons set forth in Planning Commission Resolution No. 2003-56 and quoted above, and

WHEREAS, the Council has introduced Ordinance No. 3325-C.S. on the 14th day of October, 2003, reclassifying the above-described property from Low-Density Residential Zone, R-1, to Planned Development Zone, P-D(562).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. DEVELOPMENT PLAN. The development plan for Planned Development Zone, P-D(562), is hereby approved subject to the following conditions:

1. All development shall conform to the plot plan and elevations titled "Carver Road Multi-Family" as amended in red, stamped approved by the City Council.
2. Prior to the issuance of a building permit, a landscaping and irrigation plan shall be approved by the Parks, Recreation and Neighborhoods Director. Sequoia Sempervirens, "Soquel or "Aptos Blue," 24" box size at 12' on-center spacing, shall be installed along the south property line as indicated on the stamped approved plan and required by the Parks, Recreation and Neighborhoods Director. Screen Landscaping shall be installed along the west property line.
3. Prior to the issuance of certificate of occupancy, landscaping and the irrigation system shall be installed in accordance with the approved plan.
4. Fences or walls shall be constructed prior to occupancy and shall be as follows:

- a. Eight-foot-high wood fence with decorative masonry pilasters at 16-foot on-centers on the south side of the property where the fence is adjacent to the building.
 - b. Seven-foot-high wood fence with decorative masonry pilasters at 16-foot on-centers on the north side of the property where the fence is adjacent to the building.
 - c. Seven-foot-high, solid double-sided alternating-board fence with decorative masonry pilasters at 16-foot on-centers on the south, east and west sides of the property where the fence is adjacent to parking or driveways.
5. All landscaping, fences, and walls shall be maintained in accordance with the approved plan and the premises shall be kept free of weeds, trash, and other debris.
6. Prior to occupancy of any building, irrigation, electrical, gas and domestic water lines shall be removed, relocated, or protected as required by the Engineering and Transportation Director and/or the utility companies, and easements for utility lines to remain shall be dedicated.
7. Street dedication consistent with Standard Specifications shall be made prior to the issuance of a building permit or at any time requested by the Engineering and Transportation Director to alleviate a health, safety, or traffic problem in the area.
8. Street improvements consistent to Standard Specifications shall be provided prior to the occupancy of any structures or when requested by the Engineering and Transportation Director to alleviate a health, safety, or traffic problem in the area.
9. Prior to issuance of a building permit, improvement plans for required improvements shall be prepared by a Registered Civil Engineer and Transportation Director. Improvements shall be constructed in accordance with the approved plans.
10. All existing street and property monuments within or abutting this project site shall be preserved. If, during construction of on-site or off-site improvements, monuments are damaged or destroyed, the applicant/developer shall retain a qualified licensed land surveyor or civil engineer to reset those monuments per City Standards and file the necessary information with the County Recorder's Office as required by AB1414.
11. All utilities shall be underground and cable television service shall be stubbed into all units.

12. Prior to issuance of a building permit, the developer shall show on the plans submitted to Building Inspection all fire hydrants as re-quired by the Fire Chief. All hydrants required by the Fire Chief shall be installed and operable prior to construction of any structures.
13. Ten-foot-wide public utility easements, and planting easements located within the ten-foot-wide public utility easements, shall be dedicated along all street frontages as required by the Engineering and Transportation Director.
14. Prior to the issuance of a building permit, the developer shall submit a plan for approval by the Operations and Maintenance Director to provide on-site treatment of stormwater in accordance with the guidance manual for new development stormwater quality control measures. Storm drain improvements shall be constructed in accordance with the approved plans.
15. The property owner and developer shall, at their sole expense, defend, indemnify and hold harmless the City of Modesto, its agents, officers, directors and employees, from and against all claims, actions, damages, losses, or expenses of every type and description, including but not limited to payment of attorneys' fees and costs, by reason of, or arising out of, this development approval. The obligation to defend, indemnify and hold harmless shall include but is not limited to any action to arbitrate, attack, review, set aside, void or annul this development approval on any grounds whatsoever. The City of Modesto shall promptly notify the developer of any such claim, action, or proceeding and shall cooperate fully in the defense.
16. The developer shall implement pre- and post-construction best management practices (BMPs) to minimize pollutants entering the storm system.
17. All signs shall comply with the sign requirements of the R-3 Zone.
18. Trash bins shall be kept in enclosures in accordance with the approved plan and in accordance with plans approved by the Operations and Maintenance Department Director. Enclosures shall be constructed of building materials consistent with those used in the major buildings as approved by the Community and Economic Development Department Director.
19. The Capital Facilities Fees payable at the time of the issuance of a building permit for any construction in this parcel map shall be based on the rates in effect at time of issuance of the building permit.
20. All outdoor lighting shall be shielded from adjacent residential properties as required by the Engineering and Transportation Director.

21. The developer shall, in a manner approved by the City Attorney, provide a vehicular accessway for on-site traffic circulation for the benefit of both parcels substantially as shown in red on the plot plan.
22. Prior to the certificate of occupancy, a fire turnaround, which meets City Standards, shall be constructed as approved by the Fire Chief.

SECTION 2. DEVELOPMENT SCHEDULE. The following development schedule is hereby approved for said Planned Development Zone,

P-D(562):

The construction program be accomplished in phases as follows:

Phase I – Construction to begin on or before October 14, 2005 and completion to be not later than October 14, 2006.

Phase II – Construction to begin on or before October 14, 2006 and completion to be not later than October 14, 2007.

SECTION 3. CHANGES IN DEVELOPMENT PLAN. Any changes in the above approved development plan shall be made in accordance with the provisions of Section 10-2.1709 of the Modesto Municipal Code.

SECTION 4. COMPLIANCE WITH CODE PROVISIONS, ETC. In all other respects said planned development shall be accomplished in accordance with and in strict adherence to the provisions of Article 17 of Title 10 of the Modesto Municipal Code relating to Planned Development Zones and other applicable City laws, rules, regulations and procedures.

SECTION 5. EFFECTIVE DATE. This resolution shall not become effective unless and until the ordinance reclassifying the above-described property to Planned Development Zone, P-D(562), becomes effective.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of October, 2003, by Councilmember Conrad, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-553**

A RESOLUTION FINDING THAT THE FOLLOWING PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (SCH NO. 1999082041): AMENDING SECTION 7-3-9 OF THE ZONING MAP TO REZONE FROM LOW-DENSITY RESIDENTIAL ZONE, R-1, TO PLANNED DEVELOPMENT ZONE, P-D(562), PROPERTY LOCATED ON THE WEST SIDE OF CARVER ROAD, OPPOSITE MONTCLAIR DRIVE (MARY SILVEIRA)

WHEREAS, on March 4, 2003, the City Council of the City of Modesto certified the Final Master Environmental Impact Report (“Master EIR”) (SCH No. 1999082041) for the Modesto Urban Area General Plan, and

WHEREAS, Mary Silveira has proposed that the zoning designation for the property located on the west side of Carver Road, opposite Montclair Drive be amended to rezone from Low-Density Residential Zone, R-1, to Planned Development Zone, P-D(562), in the City of Modesto (the “project”), to allow a 14 unit townhouse-style apartment complex, and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for a Master EIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the master environmental impact report and whether the subsequent project was described in the master environmental impact report as being within the scope of the project, and

WHEREAS, the City’s Community & Economic Development Department by Environmental Assessment Initial Study EA/C&ED 2003-75 reviewed the proposed amendment to the Zoning Map and rezone P-D(562) project to determine whether the

project is within the scope of the project covered by the Modesto Urban Area General Plan Master EIR (“Master EIR”), and made the determination that the proposed project will have no additional significant effect on the environment that was not identified in the Master EIR, and further, that no new or additional mitigation measures or alternatives are required, and that, therefore, the proposed project is within the scope of the project covered by the Master EIR, and

WHEREAS, in accordance with CEQA guidelines beginning on September 15, 2003 the City caused to be published a 20-day notice of the City’s intent to make a finding that the proposed project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on October 14 , 2003, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed amendment to the Zoning Map and rezone to P-D(562) project, a copy of which is attached hereto as **Exhibit “A”**, and incorporated herein by reference, and based on the substantial evidence included in said Initial Study makes the following findings:

1. That the proposed project is contemplated and described in the FMEIR Update (SCH No. 1999082041) as being within the scope of the FMEIR Update.
2. That the project will have no new significant effects on the environment not identified or examined in the FMEIR Update, and no new or additional mitigation measures are required.

3. That, as per Section 21157.1 of the Public Resources Code, no new environmental document or findings are required by the California Environmental Quality Act (CEQA).
4. That there are no specific features which are unique to the proposed project that require project specific mitigation measures. Accordingly, the certified mitigation measures identified in the FMEIR Update will be sufficient for this project.
5. That all feasible mitigation measures set forth in the FMEIR Update which are appropriate to the project shall be incorporated in the project.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of approval or determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of October, 2003, by Councilmember Conrad, who moved its adoption, which motion being duly seconded by Councilmember O'Bryant, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating,
O'Bryant, Mayor Sabatino

EXHIBIT A
Initial Study
EA/C&ED 2003-75

City of Modesto
Initial Study

P-D – Carver Apartments
EA/C&ED 2003-75
August 19, 2003

I. PURPOSE

Section 21157.1 of the Public Resources Code, allows for limited environmental review of subsequent projects under a Master EIR, provided that certain findings are made. The Modesto Urban Area General Plan Master EIR (SCH No. 1999082041), adopted March 4, 2003, allows such limited review for projects in the Baseline Developed Area that are consistent with the General Plan and existing zoning.

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, analyzes whether this project may cause any significant effects on the environment that were not examined in the General Plan Master EIR. This Initial Study also provides documentation that the project is within the scope of the General Plan Master EIR.

II. PROJECT DESCRIPTION

- A. Project title:
P-D – Carver Apartments
- B. Lead agency name and address:
City of Modesto, PO Box 642, Modesto, CA 95353
- C. Contact person and phone number:
Josh Bridegroom, Community Development Department, (209) 571-5540
- A. Project Location:
West side of Carver Road, opposite Montclair Drive
- E. Project Sponsor:
Mary Silveira
- F. General Plan Designation:
Residential (R)
- G. Current Zoning:
Low Density Residential (R-1)
- H. Description of Proposed Project:
This is an application to rezone a one acre parcel located on the west side of Carver Road, opposite Montclair Drive from R-1 (Single Family Residential) to P-D (Planned Development) to allow the development of a two-story, 14-unit townhouse-style apartment complex with 57 parking stalls.
- I. Surrounding land uses:

The project is surrounded by a vacant lot to the north, Carver Road to the east, a single family residence and church to the south, and single family residential to the west.

- J. Other public agencies whose approval is required:
None

III. ANALYSIS OF CONFORMANCE WITH THE MASTER EIR

There are eighteen subject areas in the Master EIR for the General Plan. Following is an analysis of how this project conforms with the analysis contained within the Master EIR.

A. Traffic and Circulation

The General Plan designates the project site as Residential. The project is consistent with this designation in land use and intensity and will therefore not generate traffic greater than projected by the MEIR. Therefore, there would be no change needed in the Traffic and Circulation section of the EIR. Therefore, the Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Traffic and Circulation Needs (pages V-1-1 through V-1-33) are still valid.

B. Degradation of Air Quality

The air quality impacts for this project are directly related to the traffic impacts. Since traffic impacts are no greater than those anticipated in the Master EIR, this development will not cause additional impacts to air quality beyond those described in the Degradation of Air Quality section of the MEIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Degradation of Air Quality (pages V-2-1 through IV-2-26) are therefore still valid.

C. Generation of Noise

The General Plan MEIR assumed that there would be further development and thus, noise generation within the Baseline Developed Area. This project is consistent with the General Plan in both land use and intensity. Therefore, the Mitigation Measures listed in the MEIR for Generation of Noise (pages V-3-1 through V-3-22) are still valid.

D. Loss of Productive Agricultural Land

This area is located in an urbanized portion of Modesto, and there are no agricultural lands affected by this project. The Existing Conditions, Impacts Analysis, and Mitigation Measures listed in the MEIR for Loss of Productive Agricultural Land (pages V-4-1 through IV-4-12) are still valid.

E. Increased Demand for Water Supplies

The General Plan MEIR assumed that there would be further development and thus, increased demand for Water Supplies within the Baseline Developed Area. This project is consistent with the General Plan in both land use and intensity. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Water Supplies (pages V-5-1 through IV-5-13) are therefore still valid.

F. Increased Demand for Sanitary Sewer Services

The project is consistent with the General Plan Designation for the site in land use and intensity and will therefore not increase demand for sanitary sewer service beyond that projected by the MEIR. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Sanitary Sewer Services (pages V-6-1 through V-6-12) are still valid.

G. Loss of Sensitive Wildlife and Plant Habitat

The project is located in a built-up urban area and is not located in a Potential Biological Resource Study Area, as presented in Figure V-7-1 of the MEIR. Therefore, the project will not impact sensitive wildlife or any plant habitat above and beyond that which was identified in the Loss of Sensitive Wildlife and Plant Habitat section of the MEIR. Therefore, the Existing Conditions, Impact Analysis, and the Mitigation Measures listed in this section of the MEIR (pages V-7-1 through V-7-29) are still valid.

H. Disturbance of Archaeological and Historic Sites

This project will not disturb any archaeological or historic sites that have been identified in the Disturbance of Archaeological or Historical Sites section of the 1995 MEIR, as sited in the 2003 MEIR. Figure 8-1 of the 1995 MEIR, as sited in the 2003 MEIR, indicates that this project is also outside the Archaeological Resource Study Area, which shows areas that may require additional site-specific investigations. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Disturbance of Archaeological or Historical Sites (pages V-8-1 through V-8-22) are still valid.

I. Increased Demand for Storm Drainage

The General Plan MEIR assumed that there would be further development and thus, increased demand for Storm Drainage within the Baseline Developed Area. This project is consistent in land use and intensity with the General Plan designation for the site, and the project complies with the adopted storm drainage policies from the various agencies listed in the MEIR. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Storm Drainage (pages V-9-1 through V- 9-13) are still valid.

J. Flooding and Water Quality

The General Plan designates the project site as Residential. The project is consistent with this designation in land use and intensity and will therefore not generate drainage, flooding or water quality problems greater than projected by the MEIR. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Drainage, Flooding, and Water Quality (pages V-10-1 through V-10-16) are still valid.

K. Increased Demand for Parks and Open Space

The General Plan MEIR assumed that there would be further development and thus, increased demand for Parks and Open Space within the Baseline Developed Area. This

project is consistent with the General Plan in terms of land use and intensity. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Parks and Open Space (pages V-11-1 through V-11-14) are still valid.

L. Increased Demand for Schools

This project was referred to the affected school districts who raised no objection or concern upon reply. The appropriate school impact fees will be assessed on all construction. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Schools (pages V-12-1 through V-12-11) are still valid.

M. Increased Demand for Police Services

The General Plan MEIR assumed that there would be further development and thus, increased demand for police services within the Baseline Developed Area. The proposed project is consistent with the General Plan with regard to land use and intensity. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Police Services (pages V-13-1 through V-13-7) are still valid.

N. Increased Demand for Fire Services

The General Plan MEIR assumed that there would be further development and thus, increased demand for fire services within the Baseline Developed Area. The MEIR concludes that adopted policies in the City of Modesto and County of Stanislaus would reduce the impact of new projects on Fire Services to a less than significant level. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Fire Services (pages V-14-1 through V-14-9) are still valid.

O. Generation of Solid Waste

The General Plan MEIR assumed that there would be further development and thus, increased generation of solid waste within the Baseline Developed Area. This project is consistent in land use and intensity with the General Plan designation for the site. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Solid Waste (pages V-15-1 through V-15-10) are still valid.

P. Generation of Hazardous Materials

The General Plan MEIR assumed that there would be further development and thus, increased generation of hazardous materials within the Baseline Developed Area. This project is consistent in land use and intensity with the General Plan designation for the site. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Hazardous Materials (pages V-16-1 through V-16-15) are still valid.

Q. Landslides and Seismic Activity

This project will result in no additional potential for exposing people to landslides or

earthquake related hazards such as liquefaction beyond those identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Landslides and Seismic Activity(pages V-17-1 through V-17-12) are therefore still valid.

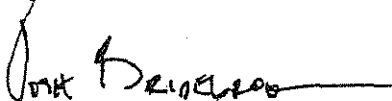

R. Energy

The MEIR concludes that adopted policies in the City of Modesto and County of Stanislaus would reduce the impact of new projects on Energy to a less than significant level. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Energy (pages V-18-1 through IV-18-7) are still valid.

IV. CONCLUSIONS/DETERMINATIONS OF FINDINGS

- A. The proposed project is within the scope of the General Plan Master EIR (SCH No. 1999082041).
- B. No additional significant environmental effects will occur as a result of the proposed project that were not previously examined in the General Plan Master EIR.
- C. No new mitigation measures or alternatives will be required as a result of the proposed project that were not previously considered in the General Plan Master EIR.
- D. There are not specific features unique to this project that require project specific mitigation measures. All certified mitigation measures identified in the MEIR will apply city wide, including this project as appropriate.
- E. This initial study provides substantial evidence to support findings A, B, C, and D above.

Josh Bridegroom,
Assistant Planner

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003- 554**

**A RESOLUTION APPROVING A MEMORANDUM OF UNDERSTANDING
BETWEEN KAISER FOUNDATION HOSPITALS AND THE CITY OF MODESTO**

WHEREAS, Kaiser Foundation Hospitals has applied for rezoning, annexation, a sphere of influence amendment and a development agreement to develop a 1.2-million-square-foot medical center located on the west side of Dale Road north of Bangs Avenue, and

WHEREAS, because of the complexity of the entitlement process for the medical center, Kaiser Foundation Hospitals desires to enter into a Memorandum of Understanding with the City of Modesto for issues related to the processing of said entitlements, and

WHEREAS, staff from Kaiser Foundation Hospitals and the City of Modesto have negotiated terms of a Memorandum of Understanding satisfactory to both parties, and

WHEREAS, the City Council Economic Development Committee considered the proposed Memorandum of Understanding on September 8, 2003, and unanimously recommended approval by the City Council, and

WHEREAS, the City Council considered the proposed Memorandum of Understanding at their regularly scheduled meeting on the 14th day of October, 2003, in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Memorandum of Understanding between Kaiser Foundation Hospitals and the City of Modesto related to the processing of development entitlements

for the proposed medical center on the west side of Dale Road north of Bangs Avenue, a copy of which is attached hereto as **Exhibit "A"** and incorporated herein by this reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of October, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating,
O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: None

**MEMORANDUM OF UNDERSTANDING
BETWEEN KAISER FOUNDATION HOSPITALS AND
THE CITY OF MODESTO**

KAISER FOUNDATION HOSPITALS, a California nonprofit public benefit corporation ("Kaiser") and the CITY OF MODESTO, a municipal corporation of the State of California ("City"), enter into this Memorandum of Understanding as of this day of June, 2003 (the "Agreement"). This Agreement is based upon the following facts:

A. Kaiser desires to build a state-of-the-art Kaiser Permanente Medical Center in Modesto, California (the "Medical Center") on 49-acres of unimproved real property located on Dale Road at the corner of Bangs Avenue, adjacent to the north west border of the City of Modesto in an unincorporated area of the County of Stanislaus (the "Project Site"). At this time, there is no Kaiser Permanente hospital in Stanislaus County or in the southern San Joaquin Valley region, where Kaiser anticipates its membership will increase significantly in the next decade. The Kaiser Permanente Modesto Medical Center will help alleviate a projected shortage of hospital beds in Stanislaus County that is expected to exceed 500 beds by the year 2015.

B. On January 27, 2003, Kaiser submitted an application to the City for environmental review of the Medical Center project approvals, agreements, permits and entitlements, certification under the California Environmental Quality Act and approval by the City (the "Entitlements"). The project calls for the phased construction of various inpatient and outpatient facilities at the new Medical Center campus site over a 25 year term, including a hospital, hospital support wing, medical services buildings, central plant, and ancillary structures (the "Project").

C. Because of the large capital commitments, expenses and outlay for a project of such magnitude, the timing and expedient processing of Entitlements is important to Kaiser. Kaiser understands that the outcome of the Entitlement process cannot be predetermined, but desires that the processing of the Medical Center permits and approvals be granted priority by the City of Modesto. Kaiser desires that the City and its staff understand the importance of the Project schedule and the need for the efficient prioritization and allocation of staff time and resources and cooperation and coordination with the County of Stanislaus to avoid undue delay in the provision of health care to Kaiser members and the community. Because of the need to improve the availability and the quality of health care to Kaiser Permanente members and the community, Kaiser desires to obtain the Entitlements from the City as soon as possible,

with an initial target date of May 1, 2004. Kaiser recognizes that timely, thorough and consistent responses and decisions by Kaiser are required to expedite the schedule.

D. Kaiser has selected the City of Modesto and the County of Stanislaus for the Medical Center site in part because Kaiser is confident in the ability of the City and County to cooperate and process the Entitlements on an expedited basis. To date, Kaiser has received exemplary cooperation from all of the City departments in the timely processing and expediting of the Entitlements. The parties acknowledge that the City of Modesto wishes to undertake the land use entitlement and environmental review process in a time-sensitive manner to expedite the provision of health care to Kaiser members in Modesto.

E. Kaiser Permanente is the largest non-profit health maintenance organization in the United States. The Medical Center campus is expected to serve approximately 165,000 members in Kaiser's Stanislaus/Manteca/Tracy market at the time that the first Medical Services Building opens in 2005 and over 195,000 members when the hospital opens in 2008. After opening, the Medical Center will be recruiting employees from a wide range of professions to service the Medical Center to work and live in Modesto. The parties acknowledge that the economic impacts created by this Project will help generate employment and economic development in the City of Modesto and the County of Stanislaus such as construction related jobs and be an important part of the emergence of Modesto and Stanislaus County as a regional medical center and a Healthcare Center of Excellence.

To achieve the goals outlined in these recitals, the parties desire to enter into this Agreement.

NOW, THEREFORE, the parties hereto mutually agree as follows:

1. City will appoint a development team with one identified team leader empowered to coordinate City's various departments in their interaction with the Kaiser development team. The "City Development Team" shall consist of this team leader and persons responsible for various subject areas and the departments necessary to the timely processing of the Kaiser application, as reasonably requested by Kaiser. The City Development Team shall include an attorney from the City Attorney's office on a periodic basis. Kaiser will appoint a development team with an identified team leader to interact with the City development team and to include all technical and legal experts necessary facilitate the entitlement process.

2. City and Kaiser agree to work with the County of Stanislaus and LAFCO in the processing of the sphere of influence amendment, annexation and related issues and City agrees to participate in a multi-agency team to streamline processing of the Project should other agencies desire to participate.

3. City and Kaiser will use their best efforts to process the Kaiser application pursuant to a schedule mutually agreed upon by both parties. The City and Kaiser will participate in meetings and conference calls and take all actions as are necessary to stay on the processing schedule. The City and Kaiser will ensure that its personnel are available to avoid delay to the schedule. City and Kaiser personnel will be available to review documents produced by City consultants in a timely manner with priority and Kaiser agrees to pay for the reasonable cost of hiring of temporary outside staff support if the City project leader determines that such support will be necessary to keep the Project on schedule. City and Kaiser shall review and provide its input to sub-consultant reports such as traffic and water studies within a reasonable time frame and review and provide its input to the EIR Consultant on the Administrative Draft Environmental Impact Report within thirty (30) working days. The City and Kaiser will use best efforts to maintain the schedule attached hereto as Exhibit "A", which may be revised from time to time.

4. Kaiser acknowledges that changes to the Project, changes to the Project description, and delays in providing and reviewing documents or responding to requests for information from the City, City consultants and LAFCO by Kaiser will result in delays to the schedule. Kaiser agrees to respond to the data requests of the City's EIR consultant in a timely manner and do all necessary actions in its power to expedite the Project schedule. Kaiser also acknowledges that the Project schedule will be impacted by the public comment process and desires to encourage the discourse with the community regarding the development of the Medical Center.

5. City will undertake and produce in a timely manner the water supply assessment required for the project pursuant to the provisions of Senate Bill 610.

6. City represents the following: (a) the Medical Campus project site has complied with the provisions of City initiatives, Measure A and Measure M, or is exempt from such measures; (b) City believes that sufficient wastewater plant treatment capacity and wastewater transmission capacity is or will be available to serve the Medical Campus project. City and Kaiser will cooperate in the preparation of facilities plans to provide wastewater service to each phase of the Medical Campus project; (c) the City believes that there is sufficient domestic water supply capacity to serve the Medical Campus project. City and Kaiser will cooperate in the preparation of the required Municipal Service Review, Master Services Element, SB610 Water Supply Assessment and facility study to ensure water supply, storage and transmission to each phase of the Medical Campus project. The above representations are subject to completion of the required Municipal Service Review, Master Services Element, and water supply assessment required by SB610.

7. City acknowledges that a development agreement will be requested by Kaiser to vest the Project Entitlements for a multi-year term and such a development agreement may include topics such as: (1) the vesting of fees and exactions for the Project, (2) an exemption from any development moratorium unless the moratoria is required to protect the public health and safety, (3) varying the phasing of construction, (4) the possible use by Kaiser of modular buildings for medical uses prior to completion of permanent structures on the site; (5) mitigation for environmental impacts identified in the EIR; and (6) provision for infrastructure necessary to serve the project site and the 39 acres of business park land to the north of the project site.

8. Kaiser represents that the size of the Project Site is the minimum necessary for the Medical Center buildout. If mitigation for environmental or other purposes is proposed that would utilize land owned or to be owned by Kaiser, City will work cooperatively to minimize the use of Kaiser land if other feasible alternatives exist.

9. City and Kaiser agree to prepare any information required by the Stanislaus Local Agency Formation Commission ("LAFCO") pursuant to a schedule that ensures that any necessary LAFCO information is included in the environmental impact report prepared for the project and preparation of such information shall not cause delay to the processing schedule.

10. The City and Kaiser agree to prepare the necessary documents and information needed to process the Specific Plan Amendment to the Kiernan Business Park Specific Plan which is attached hereto as Exhibit "B" and to have such Specific Plan Amendment considered and acted upon by the appropriate decision-making bodies. All City-initiated amendments to the Specific Plan that require analysis by the EIR will be included by City in the project prior to the release of the NOP for the project.

11. City and Kaiser agree to cooperate with the County, Caltrans, StanCOG, and other responsible agencies-to facilitate adequate traffic improvements by these and other agencies in the area of the project.

12. City agrees to provide notice of the CEQA review process to interested parties such as the Salida Municipal Advisory Council, the Salida Fire Protection District, and the Fleur de Ville Homeowners Association. Kaiser agrees to work closely with these entities to address their concerns.

13. The parties agree to work together to create design guidelines for the Kiernan Business Park that will ensure that quality development shall be required in the area surrounding the Medical Campus project site.

14. The project also includes annexation of 39 acres of additional business park land to the north of the project site. Kaiser acknowledges that it is responsible for coordinating responses to the City's requests for information and entitlement proposals for the Kaiser proposal and the adjacent 39 acres, and ensuring that the City receives adequate and timely information necessary for the successful and timely completion of the entitlement process, including CEQA review, for this area.

15. The parties acknowledge and agree that this MOU expresses only the intentions of the parties and shall not constitute a binding agreement. Kaiser acknowledges that as a public municipal corporation, City and its Council, Boards, Commissions, Departments, employees, officers, agents and representatives exercise certain police powers, taxation powers, and other governmental powers duties and authorities over the Project Site and the 39 acres of business park land to the north of the project site, and are required to follow applicable provisions and requirements of the City Charter of the City of Modesto, the Modesto Municipal Code, the California Environmental Quality Act (Public Resources Code § 21000 et seq., "CEQA"), and other ordinances, regulations, statutes and laws (collectively the "Entitlement Laws") regarding the review, consideration, processing and approval of the Entitlements, the Development Agreement and other administrative or ministerial approvals, permits, plans or actions required for the development of the Medical Center. The Entitlement Laws require, among other actions, the filing of applications, payment of processing fees, and public notice and public hearings regarding the Entitlements and the Project. Kaiser acknowledges that City reserves (without qualification or restriction whatsoever) all of its rights under the Entitlement Laws (or any other applicable statute, law, ordinance, order, code or regulation) to approve, conditionally approve, modify, or deny the Entitlements and all other administrative or ministerial approvals, permits, plans or actions required for the development of the Medical Center Project. Notwithstanding any provision of this Agreement to the contrary, nothing contained in this Agreement shall in any manner (a) limit, restrict or affect (or constitute any form of promise to limit, restrict or affect in the future) in any manner the exercise by City of its police powers, taxation powers or any other governmental powers, duties and authorities under the Entitlement Laws or any other statutes, laws, ordinances, or regulations or (b) constitute the approval of a project under CEQA or an action, policy, undertaking or other action requiring approval from the City.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-555**

A RESOLUTION ACCEPTING \$166,485 IN GRANT FUNDING FROM THE CALIFORNIA DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT, JOBS HOUSING BALANCE INCENTIVE GRANT, FOR PORTIONS OF THE CONSTRUCTION OF THE NEIGHBORHOOD CENTER AT MARSHALL PARK, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE GRANT CONTRACT.

WHEREAS, funding for Job Housing Balance Incentive Grant (JHBP) has been made available by the California Department of Housing and Community Development (Department), pursuant to the Housing and Emergency Shelter Trust Fund of 2002 (Proposition 46), Notice of Funding Availability (NOFA) released January 24, 2003, and

WHEREAS, pursuant to the statute, the Department is authorized to approve funding allocations for the program, subject to the terms and conditions of the NOFA and program application form, and

WHEREAS, on March 26, 2003, the City of Modesto, Parks, Recreation and Neighborhood (PR&N) Department applied for, and was successful in receiving grant funding for a portion of the construction costs of the Neighborhood Center at Marshall Park, and

WHEREAS, the PR&N Department shall be subject to the terms and conditions as specified in the standard agreement (Contract), and funds are to be used for allowable expenditures as identified in **Attachment A** of the Contract, and

WHEREAS, the application in full is incorporated as part of the Contract and any and all activities funded, information provided and timelines represented in the application are enforceable through the Contract, and

WHEREAS, the PR&N Department hereby agrees to use the funds for eligible capital assets in the manner presented in the application as approved by the Department and in accordance with the NOFA and application package,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby accepts \$166,485 in grant funding under the California Department of Housing and Community Development, Job Housing Balance Incentive Grant, for a portion of the construction costs of the Neighborhood Center at Marshall Park.

BE IT FURTHER RESOLVED that the City Council hereby authorizes the City Manager, or his designee, to execute the Contract, and any and all instruments required by the Department for participation in the JHBP.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of October, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: None

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-556**

A RESOLUTION AMENDING THE FY2003-04 CIP AND OPERATING BUDGETS TO ESTIMATE \$166,485 IN NEW REVENUE, APPROPRIATE \$166,485 TO CIP NEIGHBORHOOD CENTER AT MARSHALL PARK (1300-310-M163), REDUCE THE CDBG CONTRIBUTION TO PROJECT M163 BY \$166,485, AND TRANSFER THIS AMOUNT TO CDBG RESERVE, (1130-800-8000-8003).

WHEREAS, on March 26, 2003, staff submitted an application for \$166,485 in grant funding under the California Department of Housing and Community Development, Job Housing Balance Incentive Grant (JHBP) for a portion of the construction costs of the Neighborhood Center at Marshall Park, with the balance of project funds to be provided from the anticipated Section 108 Loan Guarantee, and

WHEREAS, staff received a grant contract for the above project dated September 24, 2003 in the amount of \$166,485,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves amending the fiscal year 2003-2004 Capital Improvement budget to estimate \$166,485 in revenue from the California Department of Housing and Community Development, Job Housing Balance Incentive Grant and to appropriate \$166,485 to the Neighborhood Center at Marshall Park (M163).

BE IT FURTHER RESOLVED THAT \$166,485 will be reduced in revenue and expenditure from project M163, and this amount will be transferred to CDBG Reserve.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of October, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-557**

**A RESOLUTION ACCEPTING WITH REGRET THE RESIGNATION OF
ELIZABETH GRAHAM, SUSAN JOHNSEN AND GENE CARHART FROM
THE COMMUNITY QUALITIES FORUM, EFFECTIVE OCTOBER 28, 2003**

WHEREAS, ELIZABETH GRAHAM was appointed a member of the
Community Qualities Forum on May 15, 2001; and

WHEREAS, SUSAN JOHNSEN was appointed a member of the Community
Qualities Forum on April 10, 2001; and

WHEREAS, GENE CARHART was appointed a member of the Community
Qualities Forum on February 12, 2002; and

WHEREAS, ELIZABETH GRAHAM, SUSAN JOHNSEN and GENE
CARHART have tendered their resignations from the Community Qualities Forum,
effective October 28, 2003; and

WHEREAS, ELIZABETH GRAHAM, SUSAN JOHNSEN and GENE
CARHART have been a devoted and sincere public servants and have contributed greatly
to our civic progress,

NOW, THEREFORE, BE IT RESOLVED that the resignations of ELIZABETH
GRAHAM, SUSAN JOHNSEN and GENE CARHART from the Community Qualities
Forum be, and hereby are accepted with regret.

BE IT FURTHER RESOLVED that the Council of the City of Modesto, on its
own behalf, and on behalf of the citizens of this City, hereby expresses its sincere
appreciation to ELIZABETH GRAHAM, SUSAN JOHNSEN and GENE CARHART for
their outstanding service to the community.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of October, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-558**

**A RESOLUTION DECLARING THE CITY COUNCIL'S INTENTION TO
ESTABLISH CITY OF MODESTO COMMUNITY FACILITIES NO. 2003-1
(FAIRVIEW VILLAGE) AND TO AUTHORIZE THE LEVY OF A SPECIAL
TAX WITHIN SAID COMMUNITY FACILITIES DISTRICT**

WHEREAS, Del Valle Capital Corporation, Inc., the owner (the "Owner") of not less than 10 percent of the area of land depicted on the map of the proposed community facilities district referred to below on file with the City Clerk (the "Property"), has filed a written petition with the City of Modesto (the "City") to establish the City of Modesto Community Facilities No. 2003-1 (Fairview Village) (the "Community Facilities District") pursuant to the Mello-Roos Community Facilities Act of 1982, as amended, commencing with Section 53311 of the Government Code of the State of California (the "Act") in order to finance (i) the cost of purchasing, constructing, expanding, improving or rehabilitating the facilities listed in Appendix A hereto, and all appurtenances and appurtenant work associated therewith (collectively the "Facilities") and (ii) the incidental expenses to be incurred in connection with financing the Facilities, including costs associated with the creation of the Community Facilities District and the issuance of bonds, the establishment and replenishment of bond reserve and special reserve funds (the "Incidental Expenses") and to pay the cost of the services listed in Appendix A hereto (the "Services"); and

WHEREAS, the Owner has heretofore submitted to the City an application to form the Community Facilities District and has advanced to the City the deposit required pursuant to the City's Policies & Procedures for the Formation, Annexation, and Administration of Communities Facilities Districts Created Pursuant to the Provisions of the Mello-Roos Community Facilities Act of 1982 (the "City's CFD Policies and Procedures"); and

WHEREAS, the petition submitted by the Owner complies with the requirements of Section 53319 of the Act and the City's CFD Policies and Procedures; and

WHEREAS, subject to the satisfaction of all applicable requirements of law, it is the intention of this City Council to finance the Facilities and the Incidental Expenses and to pay for the Services through the formation of the Community Facilities District and the levy of a special tax and (in the case of the Facilities and the Incidental Expenses) the issuance of bonds, provided that the levy of the special tax and the issuance of the bonds are approved at an election to be held within the boundaries of the Community Facilities District;

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto hereby finds and determines as follows:

SECTION 1. The above recitals are true and correct.

SECTION 2. The Community Facilities District is proposed to be established under the terms of the Act. It is further proposed that the boundaries of the Community Facilities District shall be as depicted on the map of the proposed Community Facilities District which is on file with the City Clerk. The City Clerk is hereby directed to sign the original map of the Community Facilities District and record it with all proper endorsements thereon with the County Recorder of the County of Stanislaus within fifteen days after the adoption of this resolution, all as required by Section 3111 of the Streets and Highways Code of the State of California.

SECTION 3. The name of the proposed Community Facilities District shall be "City of Modesto Community Facilities District No. 2003-1 (Fairview Village)."

SECTION 4. The Facilities and Services proposed to be provided within the Community Facilities District are each facilities or services, as the case may be, which the City is authorized by law to construct, acquire, own and operate, or to provide. This City Council hereby finds and determines that the descriptions of the Facilities and the Services contained herein is sufficiently informative to allow taxpayers within the proposed Community Facilities District to understand what the funds of the Community

Facilities District may be used to pay for. The Incidental Expenses expected to be incurred include the cost of planning and designing the Facilities, the costs of forming the Community Facilities District and levying and collecting a special tax within the Community Facilities District.

SECTION 5. Except where funds are otherwise available, it is the intention of this City Council to levy annually in accordance with the procedures contained in the Act a special tax, secured by recordation of a continuing lien against all non-exempt real property in the Community Facilities District, sufficient to pay for: (i) the Facilities, the Incidental Expenses and the Services and (ii) the principal of and interest on and other periodic costs with respect to the bonds issued to finance the Facilities and the Incidental Expenses, including the establishment and replenishment of any reserve funds deemed necessary by the Community Facilities District and any remarketing, credit enhancement and liquidity facility fees (including such fees for instruments which serve as the basis of a reserve fund in lieu of cash) in connection with the bonds. The Facilities may be financed on a direct payment basis or through the issuance of the bonds. The rate, method of apportionment and manner of collection of the special tax are described in detail in Appendix B attached hereto and incorporated herein as though set forth at length (the "Rate and Method"). Appendix B allows each landowner and resident, if any, within the Community Facilities District to estimate the maximum amount that may be levied against each parcel.

If special taxes of the Community Facilities District are levied against any parcel used for private residential purposes, (i) such tax shall not be levied or collected to pay for Facilities or Incidental Expenses after the 2044-2045 tax year and (ii) under no circumstances will such special tax be increased as a consequence of delinquency or default by the owner of any other parcel or parcels within the Community Facilities District by more than ten percent (10%).

This City Council hereby determines the Rate and Method to be reasonable. The special tax is apportioned to each parcel on the basis of its net acreage pursuant to Section 53325.3 of the Act; and such special tax is not on or based upon the value or ownership of real property. In the event that a portion of the property within the Community Facilities District shall become for any reason exempt, wholly or partially, from the levy of the special tax, this City Council shall, on behalf of the Community Facilities District, cause the levy to be increased, subject to the limitation of the maximum special tax for a parcel as set forth in the Rate and Method, to the extent necessary upon the remaining property within the Community Facilities District which is not delinquent or exempt in order to yield the special tax revenues required for the purposes described in this Section 5.

SECTION 6. A public hearing (the "Hearing") on the establishment of the Community Facilities District and the proposed Rate and Method shall be held at 5:30 p.m., or as soon thereafter as practicable, on December 2, 2003, in the Modesto City Council Chamber, 1010 Tenth Street, Modesto, California 95353. Should this City Council determine to form the Community Facilities District, a special election will be held to authorize the levy of the special tax in accordance with the procedures contained in Government Code Section 53326. If held, the proposed voting procedure at the election is expected to be a landowner vote with each landowner of record as of the close of the Hearing having one vote for each acre of land or portion thereof owned within the Community Facilities District. Ballots for the special election may be distributed by mail or by personal service.

SECTION 7. At the time and place set forth above for the Hearing, any interested person, including all persons owning lands or registered to vote within the proposed Community Facilities District, may appear and be heard.

SECTION 8. Each officer of the City who is or will be responsible for providing the Facilities or Services within the proposed Community Facilities District, if it is established, is hereby directed to study the proposed Community Facilities District and, at or before the time of the Hearing, file a report with this City Council containing a brief

description of the Facilities or Services, as the case may be, which will in his or her opinion be required to meet adequately the needs of the proposed Community Facilities District and an estimate of the cost of providing those Facilities or Services and an estimate of the fair and reasonable cost of any Incidental Expenses to be incurred.

SECTION 9. The City may accept advances of funds or work-in-kind from any source, including, but not limited to, private persons or private entities, for any authorized purpose, including, but not limited to, paying any cost incurred by the City in creating the Community Facilities District. The City may enter into an agreement with the person or entity advancing the funds or work-in-kind, to repay all or a portion of the funds advanced, or to reimburse the person or entity for the value, or cost, whichever is less, of the work-in-kind, as determined by this City Council, with or without interest.

SECTION 10. The Clerk is hereby directed to publish a notice (the "Notice") of the Hearing pursuant to Section 6061 of the Government Code in a newspaper of general circulation published in the area of the Community Facilities District. Such publication shall be completed at least seven days prior to the date of the Hearing. The Clerk is further directed to mail a copy of the Notice to each of the landowners and registered voters, if any, within the boundaries of the Community Facilities District at least 15 days prior to the Hearing. The Notice shall contain the text or a summary of this Resolution, the time and place of the Hearing, a statement that the testimony of all interested persons or taxpayers will be heard, a description of the protest rights of the registered voters and landowners in the proposed Community Facilities District and a description of the proposed voting procedure for the election required by the Act.

SECTION 11. Except to the extent limited in any bond resolution or trust indenture related to the issuance of bonds, the City Council hereby reserves to itself all rights and powers set forth in Section 53344.1 of the Act (relating to tenders in full or partial payment).

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of October, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating,
O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: None

ATTEST: Jean Zahr
JEAN ZAHR, City Clerk

APPROVED AS TO FORM:

By Michael D. Milich
MICHAEL D. MILICH, City Attorney

APPENDIX A

LIST OF FACILITIES

Water System:

Two wells, distribution pipelines, well-head treatment systems, surface water supply pipelines, tanks, booster pumps and approximately 1.75 acres of land. The well-head treatment system is proposed to be financed through acquisition, construction, lease, lease-purchase, or installment-purchase arrangement. The proposed lease, lease-purchase, or installment-purchase arrangement would be for commercial terms for a period not to exceed thirty (30) years.

Wastewater System:

Two lift stations and two force mains.

Storm Drain System:

Approximately nine acres of land, storm drainage facilities including pump station, dual-use basin and landscaping, fencing, lift station, force main and gravity line.

Class I Bike Trail:

Includes demolition, grading and drainage, site electrical, construction, site furnishings, irrigation and planting.

LIST OF SERVICES

Maintenance of parks, parkways and open space (including the bike trail) and maintenance of the storm drainage basin and related facilities.

APPENDIX B
RATE AND METHOD OF APPORTIONMENT

CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT No. 2003-1
(FAIRVIEW VILLAGE)

RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX

Special Taxes applicable to each Assessor's Parcel in Community Facilities District No. 2003-1 (Fairview Village) [herein "CFD No. 2003-1" or "the CFD"] shall be levied and collected according to the tax liability determined by the City Council of the City of Modesto, through the application of the appropriate amount or rate for Taxable Property, as described below. All of the property in CFD No. 2003-1, unless exempted by law or by the provisions of Section G below, shall be taxed for the purposes, to the extent, and in the manner herein provided, including property subsequently annexed to CFD No. 2003-1 unless a separate Rate and Method of Apportionment is adopted for the annexation area.

A. DEFINITIONS

The terms hereinafter set forth have the following meanings:

"Acre" or "Acreage" means the land area of an Assessor's Parcel as shown on an Assessor's Parcel Map, or if the land area is not shown on an Assessor's Parcel Map, the land area shown on the applicable Final Map or other Development Plan.

"Act" means the Mello-Roos Community Facilities Act of 1982, as amended, being Chapter 2.5, (commencing with Section 53311), Division 2 of Title 5 of the California Government Code.

"Administrative Expenses" means any or all of the following: the fees and expenses of any fiscal agent or trustee (including any fees or expenses of its counsel) employed in connection with any Bonds, and the expenses of the City carrying out its duties with respect to CFD No. 2003-1 and the Bonds, including, but not limited to, levying and collecting the Special Taxes, the fees and expenses of legal counsel, charges levied by the County Auditor's Office, Tax Collector's Office, and/or Treasurer's Office, costs related to annexing property into the CFD, costs related to property owner inquiries regarding the Special Taxes, costs associated with complying with any continuing disclosure requirements for the Bonds and the Special Taxes, and all other costs and expenses of the City in any way related to the establishment or administration of the CFD.

"Administrator" means the person or firm designated by the City to administer the Special Taxes according to this Rate and Method of Apportionment of Special Tax.

“Annual Maintenance Special Tax” means a special tax levied in any Fiscal Year to pay the Maintenance Special Tax Requirement, as defined below.

“Annual Facilities Special Tax” means a special tax levied in any Fiscal Year to pay the Annual Facilities Special Tax Requirement, as defined below.

“Annual Facilities Special Tax Requirement” means the amount necessary in any Fiscal Year (i) to pay principal and interest on Bonds, (ii) to create or replenish reserve funds, (iii) to cure any delinquencies in the payment of principal or interest on indebtedness of CFD No. 2003-1 which have occurred in the prior Fiscal Year or (based on delinquencies in the payment of the Annual Facilities Special Taxes which have already taken place) are expected to occur in the Fiscal Year in which the tax will be collected, and (iv) to pay construction expenses to be funded directly from Annual Facility Special Tax proceeds. The amounts referred to in clauses (i) and (ii) of the preceding sentence may be reduced in any Fiscal Year by: (i) interest earnings on or surplus balances in funds and accounts for the Bonds to the extent that such earnings or balances are available to apply against debt service pursuant to a Bond indenture, Bond resolution, or other legal document that sets forth these terms; (ii) proceeds received by CFD No. 2003-1 from the collection of penalties associated with delinquent Annual Facilities Special Taxes; and (iii) any other revenues available to pay debt service on the Bonds as determined by the Administrator.

“Assessor’s Parcel” or **“Parcel”** means a lot or parcel shown on an Assessor’s Parcel Map with an assigned Assessor’s Parcel number.

“Assessor’s Parcel Map” means an official map of the County Assessor designating parcels by Assessor’s Parcel number.

“Bonds” means bonds or other debt (as defined in the Act), whether in one or more series, issued, insured or assumed by CFD No. 2003-1 related to public infrastructure and/or improvements that are authorized to be funded by CFD No. 2003-1.

“Capitalized Interest” means funds in any capitalized interest account available to pay debt service on Bonds.

“CFD Formation” means the date on which the Resolution of Formation to form CFD No. 2003-1 was adopted by the City Council.

“City” means the City of Modesto.

“City Council” means the City Council of the City of Modesto, acting as the legislative body of CFD No. 2003-1.

“County” means the County of Stanislaus.

“Developed Property” means, in any Fiscal Year, the following:

- for Single Family Detached Property, all Parcels for which a Final Map was recorded prior to June 30 of the preceding Fiscal Year
- for Single Family Attached Property, all Parcels for which a building permit for new construction of a residential structure was issued prior to June 30 of the preceding Fiscal Year.
- for Other Property, all parcels for which a building permit for new construction of a building structure was issued prior to June 30 of the preceding Fiscal Year.

“Development Plan” means a condominium plan, apartment plan, site plan or other development plan that identifies such information as the type of structure, the acreage, the square footage, and/or the number of Units that will be developed on Single Family Attached Property or Other Property.

“Fiscal Year” means the period starting July 1 and ending on the following June 30.

“Maintenance Special Tax Requirement” means that amount necessary in any Fiscal Year to (i) pay for authorized maintenance expenses, (ii) pay administrative expenses of CFD No. 2003-1, and (iii) cure any delinquencies in the payment of Annual Maintenance Special Taxes levied in prior Fiscal Years or (based on delinquencies in the payment of Annual Maintenance Special Taxes which have already taken place) are expected to occur in the current Fiscal Year.

“Maximum One-Time Facilities Special Tax” means the greatest amount of One-Time Facilities Special Tax that can be levied on an Assessor’s Parcel in any Fiscal Year determined in accordance with Sections C and D below.

“Maximum Annual Facilities Special Tax” means the greatest amount of Annual Facilities Special Tax that can be levied on an Assessor’s Parcel in any Fiscal Year determined in accordance with Sections C and D below.

“Maximum Annual Maintenance Special Tax” means the greatest amount of Annual Maintenance Special Tax that can be levied on an Assessor’s Parcel in any Fiscal Year determined in accordance with Sections C and D below.

“Maximum Special Taxes” means, collectively, the Maximum One-Time Facilities Special Tax, Maximum Annual Facilities Special Tax, and Maximum Annual Maintenance Special Tax.

“One-Time Facilities Special Tax” means a special tax, levied on Taxable Property to pay the One-Time Facilities Special Tax Requirement and collected by the City prior to a structural building permit being issued for new construction on Taxable Property.

“One-Time Facilities Special Tax Requirement” means the amount determined by the City and identified in Attachment 2 of this Rate and Method of Apportionment that is needed to pay facility costs authorized to be funded by CFD No. 2003-1, which will not be paid by the Bonds or Annual Facilities Special Tax.

“Original Parcel” means an Assessor’s Parcel in CFD No. 2003-1 at the time of CFD Formation, as identified in Attachment 2. A Successor Parcel that is being further subdivided shall also be considered an Original Parcel for purposes of determining the Maximum Special Taxes pursuant to Section C.

“Other Property” means all Taxable Property that is Developed Property but is not Single Family Attached Property or Single Family Detached Property.

“Proportionately” means, for Developed Property, that the ratio of the actual Annual Facilities Special Tax and Annual Maintenance Special Tax levied in any Fiscal Year to the Maximum Annual Facilities Special Tax and Maximum Annual Maintenance Special Tax authorized to be levied in that Fiscal Year is equal for all Assessor’s Parcels of Developed Property, respectively. In addition, for Undeveloped Property, “Proportionately” means that the ratio of the actual Annual Facilities Special Tax and actual Annual Maintenance Facilities Special Tax to the Maximum Annual Facilities Special Tax and Maximum Annual Maintenance Special Tax is equal for all Assessor’s Parcels of Undeveloped Property, respectively.

“Public Property” means any property within the boundaries of CFD No. 2003-1 that is owned by the federal government, State of California, County, City, or other public agency.

“Single Family Attached Property” means, in any Fiscal Year, all Parcels of Developed Property for which a building permit was issued for construction of a residential structure consisting of two or more Units that share common walls and are offered as for-sale Units, including such residential structures that meet the statutory definition of a condominium contained in Civil Code Section 1351.

“Single Family Detached Lot” means an individual numbered lot, which is in its final configuration and for which a building permit may be issued for a single family detached Unit.

“Single Family Detached Property” means, in any Fiscal Year, all Parcels of Developed Property for which a building permit was issued or will be issued for construction of a Unit that does not share a common wall with another Unit.

“Special Taxes” means, collectively, the One-Time Facilities Special Tax, the Annual Facilities Special Tax, and the Annual Maintenance Special Tax.

“Subdivision Map” means a final map, large lot subdivision map, or other map recorded with the County that results in the subdivision of an Original Parcel into two or more Successor Parcels.

“Successor Parcel” means an Assessor’s Parcel of Taxable Property created by the subdivision or reconfiguration of an Original Parcel.

“Taxable Property” means all of the Assessor’s Parcels within the boundaries of CFD No. 2003-1 which are not exempt from the Special Tax pursuant to law or Section G below.

“Taxable Public Property” means, in any Fiscal Year, all Parcels of Public Property within CFD No. 2003-1 that, (i) based on a tentative map or other Development Plan, were expected to be Taxable Property and, (ii) based on this expectation, Maximum Special Taxes were assigned to the Parcels in prior Fiscal Years.

“Tax Zone” means a mutually exclusive geographic area, within which particular Special Tax rates may be levied pursuant to this Rate and Method of Apportionment of Special Tax. Attachment 1 identifies the Tax Zone in CFD No. 2003-1 at CFD Formation; additional Tax Zones may be created when property is annexed into the CFD.

“Tax Zone #1” means the geographic area that was identified in Fiscal Year 2003-04 by Assessor’s Parcel number 56-27-02 and is designated in Attachment 1 of this Rate and Method of Apportionment of Special Tax as Tax Zone #1.

“Undeveloped Property” means, in any Fiscal Year, all Parcels of Taxable Property within CFD No. 2003-1 that are not Developed Property.

“Unit” means (i) for Single Family Detached Property, an individual single-family detached unit, and (ii) for Single Family Attached Property, an individual residential unit within a duplex, triplex, fourplex, townhome, or condominium structure.

B. DATA FOR ANNUAL ADMINISTRATION

On or about July 1 of each Fiscal Year, the Administrator shall identify the current Assessor’s Parcel numbers for all Parcels of Taxable Property. The Administrator shall also determine: (i) the Tax Zone within which each Parcel of Taxable Property is located, (ii) whether each Assessor’s Parcel of Taxable Property is Developed Property or Undeveloped Property, (iii) for Developed Property, which Parcels are Single Family Detached Property, Single Family Attached Property, and Other Property, (iv) for Parcels of Single Family Attached Property, the number of Units on each Parcel, (v) for Other Property, the Acreage of each Parcel, and (vi) the One-Time Facilities Special Tax Requirement, the Annual Facilities Special Tax Requirement, and the Maintenance Special Tax Requirement.

For Single Family Attached Property, the number of Units shall be determined by referencing the relevant Development Plan. If, in any Fiscal Year, an Assessor’s Parcel includes both Developed Property and Undeveloped Property, the Administrator shall determine the acreage associated with the Developed Property, subtract this acreage from the total Acreage of the Assessor’s Parcel, and

use the remaining acreage to calculate the Special Tax that will apply to Undeveloped Property within the Assessor's Parcel. The Special Tax shall then be calculated for the Developed Property on the Parcel, and the total Special Tax levied on the Assessor's Parcel shall be the sum of the Special Taxes determined separately for the Undeveloped Property and Developed Property on the Parcel.

C. CALCULATING THE MAXIMUM SPECIAL TAXES

The Administrator shall use the procedures set forth below to calculate the Maximum Special Taxes for each Parcel in CFD No. 2003-1 in each Fiscal Year, including the Maximum One-Time Facilities Special Tax, Annual Facilities Special Tax, and Annual Maintenance Special Tax.

1. Original Parcels

The Maximum Special Taxes for each Original Parcel in CFD No. 2003-1 as of CFD Formation are identified in Attachment 2. Attachment 2 will be updated by the Administrator as needed to reflect Original Parcels added to the CFD due to annexations.

2. Successor Parcels

a. *All Successor Parcels are Single Family Detached Lots*

If the Parcels created by a recorded Subdivision Map are all Single Family Detached Lots, the Administrator shall apply the following steps to allocate the Maximum Special Taxes assigned to the Original Parcel to each of the Successor Parcels created by the subdivision:

Step 1: Identify the Maximum Special Taxes assigned to the Original Parcel;

Step 2: Divide the Maximum Special Taxes from Step 1 by the number of Single Family Detached Lots created by the Subdivision Map to determine the Maximum Special Taxes for each Single Family Detached Lot.

b. *No Successor Parcels are Single Family Detached Lots*

If none of the Successor Parcels created by recordation of a Subdivision Map are Single Family Detached Lots, the Administrator shall apply the following steps to allocate the Maximum Special Taxes assigned to the Original Parcel to each of the Successor Parcels:

Step 1: Identify the Maximum Special Taxes assigned to the Original Parcel;

- Step 2:** Determine the total Acreage of Taxable Property created by subdivision of the Original Parcel;
- Step 3:** Divide the Maximum Special Taxes from Step 1 by the Acreage from Step 2 to calculate Maximum Special Taxes per acre;
- Step 4:** Multiply the per-acre Maximum Special Taxes from Step 3 by the Acreage in each Successor Parcel to calculate the Maximum Special Taxes for each Successor Parcel.

If, after subdivision of an Original Parcel, a Successor Parcel is further subdivided, the Successor Parcel shall be treated as an Original Parcel for purposes of allocating Maximum Special Taxes pursuant to Section C.2a, C.2b, or C.2c, as appropriate.

c. *Some, But Not All, Successor Parcels are Single Family Detached Lots*

If a Subdivision Map divides an Original Parcel into Successor Parcels, of which some are Single Family Detached Lots and some are not, the Administrator shall apply the following steps to allocate the Maximum Special Taxes assigned to the Original Parcel to each of the Successor Parcels:

- Step 1:** Identify the Maximum Special Taxes assigned to the Original Parcel;
- Step 2:** Determine the total Acreage of Taxable Property created by subdivision of the Original Parcel;
- Step 3:** Determine the total Acreage of Single Family Detached Property created by the subdivision by taking the sum of the Acreage in the individual Single Family Detached Lots;
- Step 4:** Divide the Maximum Special Taxes from Step 1 by the Acreage calculated in Step 2 to calculate Maximum Special Taxes per acre;
- Step 5:** Multiply the per-acre Maximum Special Taxes calculated in Step 4 by the Acreage of Single Family Detached Property calculated in Step 3 to determine the total Maximum Special Taxes to be assigned to the Single Family Detached Property created by the subdivision;
- Step 6:** Divide the amount calculated in Step 5 by the number of Single Family Detached Lots created by the subdivision to determine the Maximum Special Taxes for each Single Family Detached Lot;

- Step 7:** Multiply the per-acre Maximum Special Taxes calculated in Step 4 by the Acreage of each Successor Parcel that is not Single Family Detached Property to calculate the Maximum Special Taxes for such Parcels.

If, after subdivision of an Original Parcel, a Successor Parcel is further subdivided, the Successor Parcel shall be treated as an Original Parcel for purposes of allocating Maximum Special Taxes pursuant to Section C.2a, C.2b, or C.2c, as appropriate.

After each reallocation of the Maximum Special Taxes upon subdivision or reconfiguration of Original Parcels, the sum of the Maximum Special Taxes assigned to Successor Parcels shall never be less than the Maximum Special Taxes assigned to the Original Parcels prior to such reallocation.

D. ESCALATION OF MAXIMUM SPECIAL TAXES

1. One-Time Facilities Special Tax

Beginning in January 2005 and each January thereafter, the Maximum One-Time Facilities Special Tax assigned to each Parcel shall be increased by four percent (4%) of the amount in effect in the prior year.

2. Annual Facilities Special Tax

Beginning with Fiscal Year 2005-06, and each Fiscal Year thereafter, the Maximum Annual Facilities Special Tax assigned to each Parcel shall be increased by two percent (2%) of the amount in effect in the prior Fiscal Year.

3. Annual Maintenance Special Tax

Beginning in January 2005 and each January thereafter, the Maximum Annual Maintenance Special Tax shall be adjusted annually by the greater of (i) the percentage increase, if any, in the construction cost index for the San Francisco region for the prior twelve (12) month period as published in the Engineering News Record or other comparable source if the Engineering News Record is discontinued or otherwise not available, or (ii) four percent (4.0%). Each annual adjustment of the Maximum Annual Maintenance Special Tax shall become effective on the subsequent July 1.

E. METHOD OF LEVY OF THE SPECIAL TAX

1. One-Time Facilities Special Tax

The Maximum One-Time Facilities Special Tax determined pursuant to Sections C and D above shall be levied on all Taxable Property in CFD No. 2003-1 and shall be collected as set forth in Section F below.

2. Annual Facilities Special Tax

Commencing with Fiscal Year 2004-05 and for each following Fiscal Year, the Administrator shall determine the Annual Facilities Special Tax Requirement for that Fiscal Year. The Annual Facilities Special Tax shall then be levied on all Parcels of Taxable Property as follows:

- Step 1:* The Annual Facilities Special Tax shall be levied Proportionately on each Parcel of Developed Property within the CFD up to 100% of the Maximum Annual Facilities Special Tax for each Parcel for such Fiscal Year;
- Step 2:* If additional revenue is needed after Step 1, and after applying Capitalized Interest to the Annual Facilities Special Tax Requirement, the Annual Facilities Special Tax shall be levied Proportionately on each Assessor's Parcel of Undeveloped Property within the CFD, up to 100% of the Maximum Annual Facilities Special Tax for each Parcel of Undeveloped Property for such Fiscal Year;
- Step 3:* If additional revenue is needed after applying the first two steps, the Annual Facilities Special Tax shall be levied Proportionately on each Assessor's Parcel of Taxable Public Property, up to 100% of the Maximum Annual Facilities Special Tax assigned to each Parcel of Taxable Public Property.

3. Annual Maintenance Special Tax

Commencing with Fiscal Year 2004-05 and for each following Fiscal Year, the Administrator shall determine the Maintenance Special Tax Requirement for that Fiscal Year. The Annual Maintenance Special Tax shall then be levied on all Parcels of Taxable Property as follows:

- Step 1:* The Annual Maintenance Special Tax shall be levied Proportionately on each Parcel of Developed Property within the CFD up to 100% of the Maximum Annual Maintenance Special Tax for each Parcel for such Fiscal Year;
- Step 2:* If additional revenue is needed after Step 1, the Annual Maintenance Special Tax shall be levied Proportionately on each Assessor's Parcel of Undeveloped Property within the CFD, up to 100% of the Maximum Annual Maintenance Special Tax for each Parcel of Undeveloped Property for such Fiscal Year;
- Step 3:* If additional revenue is needed after applying the first two steps, the Annual Maintenance Special Tax shall be levied Proportionately on each Assessor's Parcel of Taxable Public Property, up to 100% of the Maximum Annual Maintenance Special Tax assigned to each Parcel of Taxable Public Property.

E. COLLECTION OF SPECIAL TAX

The Maximum One-Time Facilities Special Tax shall be collected prior to a building permit being issued for new construction of any residential or non-residential structure on Taxable Property within CFD No. 2003-1, and shall be immediately delinquent if not so paid.

The Annual Facilities Special Tax and Annual Maintenance Special Tax for CFD No. 2003-1 shall be collected in the same manner and at the same time as ordinary ad valorem property taxes, provided, however, that prepayments are permitted as set forth in Section H below and provided further that the City may directly bill, collect at a different time or in a different manner, and/or collect delinquent Annual Facilities Special Taxes and Annual Maintenance Special Taxes through foreclosure or other available methods.

The Annual Facilities Special Tax shall be levied and collected until principal and interest on Bonds have been repaid, costs of constructing or acquiring authorized facilities from Annual Facilities Special Tax proceeds have been paid, and all administrative expenses have been reimbursed. However, in no event shall an Annual Facilities Special Tax be levied after Fiscal Year 2050-2051. The Annual Maintenance Special Tax will continue to be levied and collected unless and until the City determines that Annual Maintenance Special Tax revenues are no longer needed to pay authorized services of the CFD.

G. EXEMPTIONS

Notwithstanding any other provision of this Rate and Method of Apportionment of Special Tax, no Special Taxes shall be levied on Public Property, except Taxable Public Property, as defined herein.

H. PREPAYMENT OF SPECIAL TAX

The following definitions apply to this Section H:

“Outstanding Bonds” means all Previously Issued Bonds which remain outstanding, with the following exception: if an Annual Facilities Special Tax has been levied against, or already paid by, an Assessor’s Parcel making a prepayment, and a portion of the Annual Facilities Special Tax will be used to pay a portion of the next principal payment on the Bonds that remain outstanding (as determined by the Administrator), that next principal payment shall be subtracted from the total Bond principal that remains outstanding, and the difference shall be used as the amount of Outstanding Bonds for purposes of this prepayment formula.

“Previously Issued Bonds” means all Bonds that have been issued on behalf of the CFD prior to the date of prepayment.

“Public Facilities Requirements” means either \$3.8 million in 2004 dollars, which shall increase on January 1, 2005, and on each January 1 thereafter by the percentage increase, if any, in the construction cost index for the San Francisco region for the prior twelve (12) month period as published in the Engineering News Record or other comparable source if the Engineering News Record is discontinued or otherwise not available, or such lower number as shall be determined by the City as sufficient to fund improvements that are authorized to be funded by the CFD. The Public Facilities Requirements shown above may be adjusted or a separate Public Facilities Requirements identified each time property annexes into CFD No. 2003-1; at no time shall the added Public Facilities Requirement for that annexation area exceed the amount of public improvement costs that are expected to be supportable by the Maximum Annual Facilities Special Tax revenues generated within that annexation area.

“Remaining Facilities Costs” means the Public Facilities Requirements (as defined above), minus public facility costs funded by Outstanding Bonds (as defined above), developer equity, and/or any other source of funding.

The Annual Facilities Special Tax obligation applicable to an Assessor’s Parcel in the CFD may be prepaid and the obligation of the Assessor’s Parcel to pay the Annual Facilities Special Tax permanently satisfied as described herein, provided that a prepayment may be made only if there are no delinquent Annual Facilities Special Taxes with respect to such Assessor’s Parcel at the time of prepayment. The Annual Maintenance Special Tax may not be prepaid. An owner of an Assessor’s Parcel intending to prepay the Annual Facilities Special Tax obligation shall provide the City with written notice of intent to prepay. Within 30 days of receipt of such written notice, the City or its designee shall notify such owner of the prepayment amount for such Assessor’s Parcel. Prepayment must be made not less than 75 days prior to any redemption date for Bonds to be redeemed with the proceeds of such prepaid Annual Facilities Special Taxes. The Prepayment Amount shall be calculated as follows: (capitalized terms as defined below):

	Bond Redemption Amount
plus	Remaining Facilities Amount
plus	Redemption Premium
plus	Defeasance Requirement
plus	Administrative Fees and Expenses
<u>less</u>	<u>Reserve Fund Credit</u>
equals	Prepayment Amount

As of the proposed date of prepayment, the Prepayment Amount shall be determined by application of the following steps:

- Step 1. Compute the total Maximum Annual Facilities Special Tax that could be collected from the Assessor's Parcel prepaying the Annual Facilities Special Tax in the Fiscal Year in which prepayment would be received by the City.
- Step 2. Divide the Maximum Annual Facilities Special Tax from Step 1 by the total amount that could be collected if the Maximum Annual Facilities Special Tax was levied on all Parcels of Taxable Property in the CFD.
- Step 3. Multiply the quotient computed pursuant to Step 2 by the Outstanding Bonds to compute the amount of Outstanding Bonds to be retired and prepaid (*the "Bond Redemption Amount"*).
- Step 4. Compute the current Remaining Facilities Costs (if any).
- Step 5. Multiply the quotient computed pursuant to Step 2 by the amount determined pursuant to Step 4 to compute the amount of Remaining Facilities Costs to be prepaid (*the "Remaining Facilities Amount"*).
- Step 6. Multiply the Bond Redemption Amount computed pursuant to Step 3 by the applicable redemption premium, if any, on the Outstanding Bonds to be redeemed (*the "Redemption Premium"*).
- Step 7. Compute the amount needed to pay interest on the Bond Redemption Amount starting with the first Bond interest payment date after which the prepayment has been received until the earliest redemption date for the Outstanding Bonds, which, depending on the Bond offering document, may be as early as the next interest payment date.
- Step 8: Compute the amount of interest the City reasonably expects to derive from reinvestment of the Bond Redemption Amount plus the Redemption Premium from the first Bond interest payment date after which the prepayment has been received until the redemption date for the Outstanding Bonds.
- Step 9: Take the amount computed pursuant to Step 7 and subtract the amount computed pursuant to Step 8 (*the "Defeasance Requirement"*).
- Step 10. Determine the costs of computing the prepayment amount, the costs of redeeming Bonds, and the costs of recording any notices to evidence the prepayment and the redemption (*the "Administrative Fees and Expenses"*).
- Step 11. If and to the extent so provided in the indenture pursuant to which the Outstanding Bonds to be redeemed were issued, a reserve fund credit shall be calculated as a reduction in the applicable reserve fund for the Outstanding

Bonds to be redeemed pursuant to the prepayment (the "*Reserve Fund Credit*").

Step 12. The Annual Facilities Special Tax prepayment is equal to the sum of the amounts computed pursuant to Steps 3, 5, 6, 9, and 10, less the amount computed pursuant to Step 11 (the "*Prepayment Amount*").

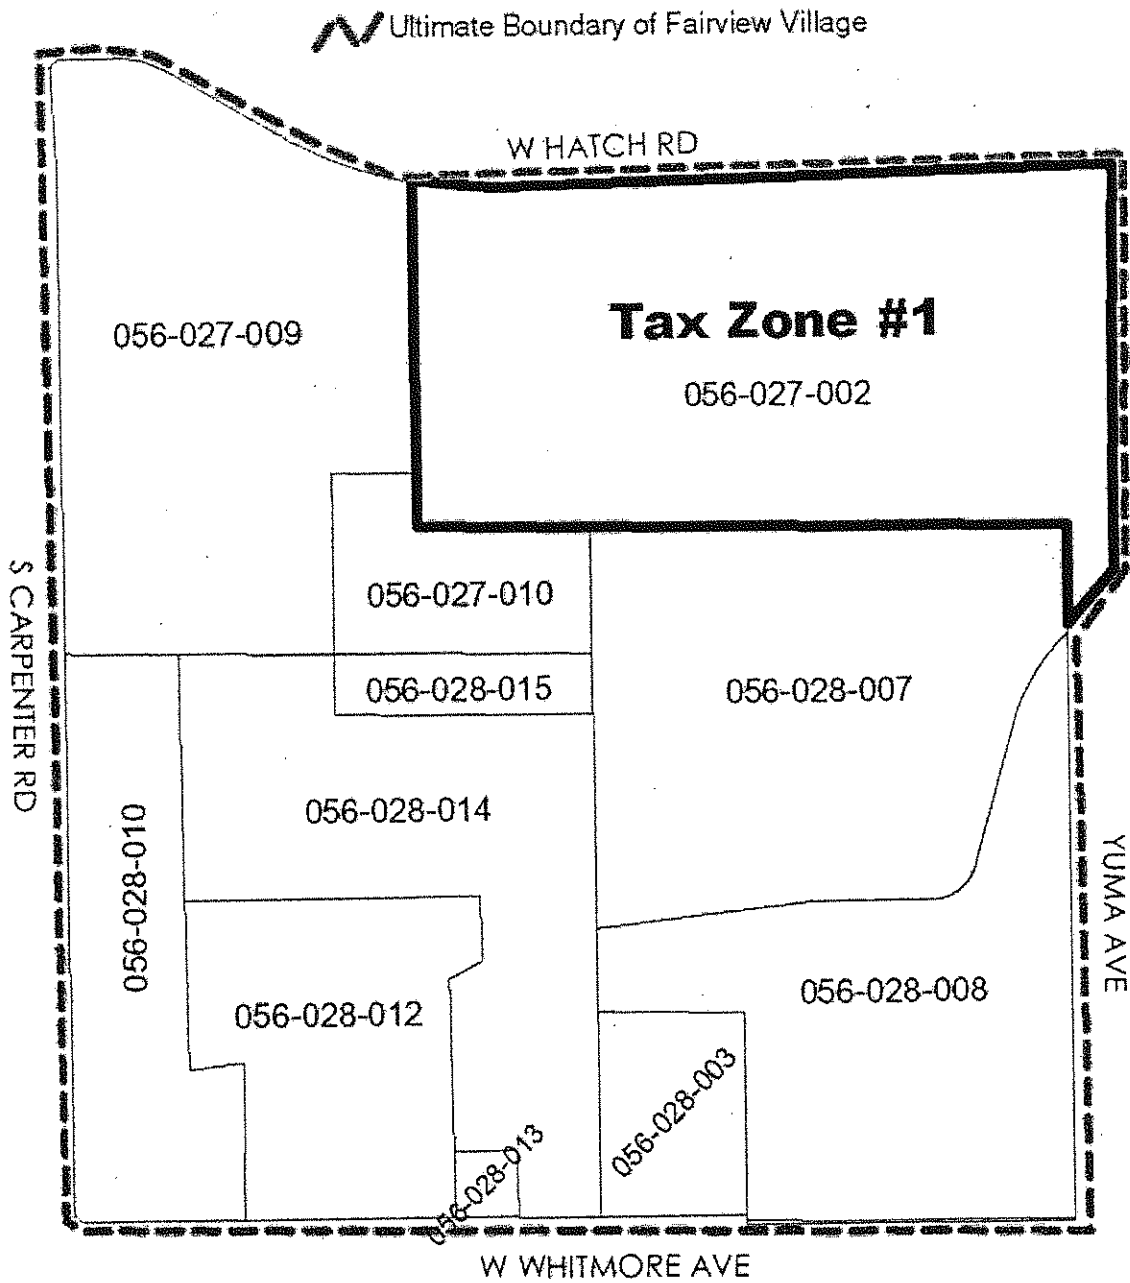

I. INTERPRETATION OF SPECIAL TAX FORMULA

The City reserves the right to make minor administrative and technical changes to this document that does not materially affect the rate and method of apportioning the Special Taxes. In addition, the interpretation and application of any section of this document shall be left to the City's discretion. Interpretations may be made by the City by ordinance or resolution for purposes of clarifying any vagueness or ambiguity in this Rate and Method of Apportionment of Special Tax.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-559**

**A RESOLUTION DECLARING THE CITY COUNCIL'S INTENTION TO
INCUR BONDED INDEBTEDNESS IN THE AMOUNT NOT TO EXCEED
\$25,000,000 WITHIN PROPOSED CITY OF MODESTO COMMUNITY
FACILITIES DISTRICT NO. 2003-1 (FAIRVIEW VILLAGE)**

WHEREAS, pursuant to a resolution adopted on the date hereof (the "Companion Resolution"), this City Council has instituted proceedings for the possible formation of the City of Modesto Community Facilities District No. 2003-1 (Fairview Village) (the "Community Facilities District") pursuant to the Mello-Roos Community Facilities Act of 1982, as amended (the "Act") in order to finance (i) the cost of purchasing, constructing, expanding, improving or rehabilitating the facilities listed in Appendix A to the Companion Resolution, and all appurtenances and appurtenant work associated with the foregoing (collectively, the "Facilities") and (ii) the incidental expenses to be incurred in connection with financing the Facilities, including costs associated with the creation of the Community Facilities District and the issuance of bonds, the establishment and replenishment of bond reserve and special reserve funds (the "Incidental Expenses") and to pay the costs of the services listed in Appendix A to the Companion Resolution (collectively, the "Services"); and

WHEREAS, this City Council estimates that the amount of bond proceeds required to finance the Facilities and Incidental Expenses is approximately \$25,000,000; and

WHEREAS, in order to finance the Facilities and Incidental Expenses, subject to the formation of the Community District and to the satisfaction of all applicable requirements of law, this City Council intends to authorize the issuance of bonds in the maximum aggregate principal amount of \$25,000,000, the repayment of which is to be secured by special taxes levied in accordance with the Act on all property in the Community Facilities District, other than those properties exempted from taxation in the rate and method of apportionment set forth in Appendix B to the Companion Resolution;

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto hereby finds and determines as follows:

SECTION 1. The above recitals are true and correct.

SECTION 2. It is necessary to incur bonded indebtedness within the boundaries of the Community Facilities District in an amount not to exceed \$25,000,000 to finance certain of the costs of the Facilities and Incidental Expenses, as permitted by the Act.

SECTION 3. The indebtedness will be incurred for the purpose of financing the costs of the Facilities and the Incidental Expenses, including, but not limited to, the funding of reserve funds for the bonds, the financing of costs associated with the issuance of the bonds and all other costs and expenses necessary to finance the Facilities which are permitted to be financed pursuant to the Act.

SECTION 4. It is the intent of this City Council to authorize the sale of bonds in one or more series, in the maximum aggregate principal amount specified in Section 2, and at a maximum interest rate not in excess of 12 percent per annum, or a higher rate not in excess of the maximum rate permitted by law at the time that the bonds are issued. The term of the bonds of each series shall be determined pursuant to a resolution of this City Council authorizing the issuance of the bonds of such series, but such term shall in no event exceed 40 years from the date of issuance of the bonds of such series, or such longer term as is then permitted by law.

SECTION 5. A public hearing (the "Hearing") on the proposed debt issue shall be held at 5:30 p.m., or as soon thereafter as practicable, on December 2, 2003, in the Modesto City Council Chamber, 1010 Tenth Street, Modesto, California 93535.

SECTION 6. At the time and place set forth in this Resolution for the Hearing, any interested persons, including all persons owning land or registered to vote within the Community Facilities District, may appear and be heard.

SECTION 7. The City Clerk is hereby directed to publish a notice (the "Notice") of the Hearing pursuant to Section 6061 of the Government Code in a newspaper of general circulation published in the area of the Community Facilities District. Such publication shall be completed at least seven days prior to the date of the Hearing.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of October, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-560**

**A RESOLUTION APPROVING AN ADVANCED FUNDING AGREEMENT FOR
CITY OF MODESTO COMMUNITY FACILITIES DISTRICT NO. 2003-1
(FAIRVIEW VILLAGE)**

WHEREAS, Del Valle Capital Corporation, Inc. (the "Developer") has filed with this City Council a petition requesting the formation of a community facilities district and the issuance of bonds to finance and maintain certain infrastructure; and

WHEREAS, in connection therewith there has been presented to this City Council the form of an Advanced Funding Agreement by and between the City and the Developer relating to advances made and to be made by the Developer to the City (the "Advanced Funding Agreement");

NOW, THEREFORE, BE IT HEREBY RESOLVED that the Council of the City of Modesto that the Advanced Funding Agreement between the City of Modesto and Del Valle Capital Corporation, Inc., be hereby approved and that the City Manager is hereby authorized to execute the Advanced Funding Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of October, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-561**

A RESOLUTION APPROVING AMENDMENT NO. 1 TO THE AGREEMENT BETWEEN THE CITY OF MODESTO AND TURNSTONE CONSULTING FOR PRELIMINARY WORK TO ASSIST IN THE PREPARATION OF AN ENVIRONMENTAL IMPACT REPORT FOR A PROPOSED KAISER MEDICAL CAMPUS PROJECT, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT IN AN AMOUNT NOT TO EXCEED \$635,768.00

WHEREAS, Kaiser Permanente has applied for an amendment to the Kiernan Business Park Specific Plan, rezoning to a planned development zone, a development agreement, annexation and sphere of influence amendment to allow a 1.2 million square-foot medical campus and the annexation of 39 acres of adjacent business park land located on the west side of Dale Road north of Bangs Avenue (“Kaiser Medical Campus”), and

WHEREAS, Section 21080.1 of the California Public Resources Code requires the City of Modesto, as lead agency, to make a determination of whether an environmental impact report is required for projects, and

WHEREAS, the City has determined that an environmental impact report is required for the proposed Kaiser Medical Campus project, and

WHEREAS, on December 10, 2002, the City Council approved a list of environmental service providers, including the firm of Turnstone Consulting, to assist with the preparation of environmental impact reports and other environmental documents for the Kaiser Medical Campus project, and

WHEREAS, City staff selected Turnstone Consulting to prepare the environmental impact report for the Kaiser Medical Campus because of their extensive experience on similar projects in other jurisdictions, and

WHEREAS, City Staff anticipates that the EIR work will involve three contract phases, and

WHEREAS, on June 24, 2003, the City Council adopted Resolution No. 2003-298, approving an agreement with Turnstone Consulting for preliminary work to assist in the preparation of an environmental impact report for the proposed Kaiser Medical Campus in an amount not to exceed \$130,793 (“Agreement”), and

WHEREAS, City staff have negotiated a scope of work for the second phase of the contract, involving preparation of the Draft EIR, for an amount not to exceed \$635,768.00, and now recommend that the Agreement be amended to add this work to the contract.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that Amendment No. 1 to the Agreement between the City of Modesto and Turnstone Consulting Corporation to add Phase II of the environmental work, preparation of the Draft EIR, in an amount not to exceed \$635,768.00 is hereby approved.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute Amendment No. 1 to the Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of October, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-562**

A RESOLUTION APPROVING AND ADOPTING THE WATER SUPPLY ASSESSMENT (WSA) PREPARED FOR THE PROPOSED VILLAGE ONE PRECISE PLAN AREAS 2, 15, 16, AND 17, LOCATED WITHIN THE VILLAGE ONE SPECIFIC PLAN, WHICH HAS DETERMINED THAT AN ADEQUATE SUPPLY OF WATER IS AVAILABLE TO MEET THE DEMANDS OF THE PROPOSED PROJECT

WHEREAS, Senate Bill 610 (SB 610) requires water suppliers to conduct Water Supply Assessment (WSA) studies for projects meeting the legislative criteria to determine if a sufficient water supply is available to meet the demands of the project, and requires the governing legislative body to approve and adopt such assessments, and

WHEREAS, the City of Modesto received a request to conduct a WSA for the proposed approval of Village One Precise Plan Areas 2, 15, 16 and 17 (“Project”), and

WHEREAS, Engineering and Transportation staff completed a WSA for the Project, and

WHEREAS, a determination was made that an adequate water supply is available to meet the demands of the proposed Project, located within the Village One Specific Plan, and

WHEREAS, this item was discussed at the Economic Development Committee meeting on October 13, 2003, and a favorable recommendation was made to forward the WSA to the Council for approval and adoption,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Water Supply Assessment for the proposed Village One Precise Plan Areas 2, 15, 16 & 17 is hereby approved and adopted. It is further determined that an adequate water supply is available to meet the demands of the proposed Village One Precise Plan Areas 2, 15, 16 & 17.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of October, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-563**

A RESOLUTION APPROVING A SECOND AMENDMENT TO THE AGREEMENT WITH WEST YOST AND ASSOCIATES (WYA) IN THE AMOUNT OF \$150,000 FOR ADDITIONAL UNFORESEEN WORK IN INTEGRATING THE MID PHASE II PROJECT WITH THE DISTRIBUTION SYSTEM, DEVELOPING A GROUNDWATER MANAGEMENT PROGRAM, AND ON-CALL ENGINEERING SUPPORT SERVICES RELATED TO THE HYDRAULIC MODEL

WHEREAS, on July 23, 2002, the City Council approved a professional services agreement with West Yost and Associates to prepare the Water System Hydraulic Model Update and Associated System Analysis (Study), and

WHEREAS, on June 24, 2003, the City Council approved an amendment to the professional services agreement with West Yost and Associates in the amount of \$92,500 for additional unforeseen work in developing the detailed Water System Hydraulic Model, and

WHEREAS, the Study will perform critical infrastructure planning tasks, including identifying improvements for existing and future services and identifying improvements needed for the Modesto Regional Water Treatment Plant (MRWTP) planned expansion, and

WHEREAS, additional work efforts are needed for the Study in the amount of \$150,000 to integrate the MID Phase II Project with the distribution system, engineering support to develop a Groundwater Management Program and for on-call engineering support services related to the hydraulic model, and

WHEREAS, this second amendment to agreement, identifying additional work efforts for an amount of \$150,000, will enable the Study to proceed as planned with the remaining tasks,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the second amendment to agreement with West Yost Associates in the amount of \$150,000 for additional services for the Study.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the amendment to agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of October, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-564**

A RESOLUTION AMENDING THE CAPITAL IMPROVEMENT BUDGET TO 1) APPROPRIATE \$105,000.00 FROM THE WATER ENTERPRISE RESERVE FUND 6100-800-8000-8003 TO 6100-430-N639-6010-13; 2) APPROPRIATE \$36,000.00 FROM THE WATER ENTERPRISE RESERVE FUND 6150-800-8000-8003 TO 6150-430-N637-6010-13; 3) APPROPRIATE \$9,000.00 FROM THE WATER ENTERPRISE RESERVE FUND 6160-800-8000-8003 TO 6160-480-Q225-6010-13

WHEREAS, on July 23, 2002, the City Council approved a professional services agreement with West Yost and Associates to prepare the Water System Hydraulic Model Update and Associated System Analysis (Study), and

WHEREAS, on June 24, 2003, the City Council approved an amendment to the professional services agreement with West Yost and Associates in the amount of \$92,500 for additional unforeseen work in developing the detailed Water System Hydraulic Model, and

WHEREAS, the Study will perform critical infrastructure planning tasks, including identifying improvements for existing and future services and identifying improvements needed for the Modesto Regional Water Treatment Plant (MRWTP) planned expansion, and

WHEREAS, additional work efforts are needed for the Study in the amount of \$150,000 to integrate the MID Phase II Project with the distribution system, engineering support to develop a Groundwater Management Program and for on-call engineering support services related to the hydraulic model, and

WHEREAS, this budget augmentation, for an amount of \$150,000 for a total revised Study cost of \$538,900, will enable the Study to proceed as planned with the remaining tasks, and

WHEREAS, the Water Enterprise Reserve Fund has sufficient funds to cover the additional amount of \$150,000,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves amending the Capital Improvement Budget to 1) appropriate \$105,000.00 from Water Enterprise Reserve Fund 6100-800-8000-8003 to 6100-430-N639-6010-13; 2) appropriate \$36,000.00 from Water Enterprise Reserve Fund 6150-800-8000-8003 to 6150-430-N637-6010-13; 3) appropriate \$9,000.00 from Water Enterprise Reserve Fund 6160-800-8000-8003 to 6160-480-Q225-6010-13.

BE IT FURTHER RESOLVED that the Finance Director, or her designee, is hereby authorized to take the steps necessary to amend the Capital Improvement Budget.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of October, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-565**

**RESOLUTION APPROVING A SEWER SERVICE AGREEMENT WITH THE
MEMORIAL HOSPITALS ASSOCIATION RELATED TO FURTHER
DEVELOPMENT OF THE HOSPITAL'S PROPERTY, GENERALLY LOCATED
AT THE CORNER OF BRIGGSMORE AVENUE AND COFFEE ROAD, AND
AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT**

WHEREAS, the Memorial Hospitals Association ("Hospital") has proposed expansion plans on file with the City which include 2 additional Towers, and

WHEREAS, in March 2003, Black & Veatch completed a wastewater system capacity study that identified the improvements needed to provide adequate sewer service for the planned expansion of the Hospital's existing site, and

WHEREAS, the results of the study indicate there is adequate capacity to accommodate the short-term expansion plans of the Hospital, but not the long-term expansion plans without significant improvements to the existing wastewater system, and

WHEREAS, after determining the total cost of the needed improvements to be approximately \$4,100,000, the Hospital will pay its fair share of \$439,000 to the City as a mitigation fee for the impacts to the wastewater collection system resulting from their proposed facility expansions, and

WHEREAS, the design and construction of the required wastewater system improvements for additional discharge capacity to accommodate two additional Tower buildings will be completed by the City prior to the Hospital occupancy of either additional Tower, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the Sewer Service Agreement with the Memorial Hospitals

Association relating to the design and construction of certain wastewater system improvements necessary for the Hospital's long-term expansion plans.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the Agreement.

RESOLUTION NO. 2003-566**

**A RESOLUTION ACCEPTING THE PELANDALE AVENUE STREET
IMPROVEMENTS FROM THE SOUTHEAST CORNER OF PELANDALE
AVENUE AND DALE ROAD TO 600 FEET EAST OF DALE ROAD,
AUTHORIZING THE CITY CLERK TO RECORD A NOTICE OF COMPLETION
AND AUTHORIZING RELEASE OF BONDS**

WHEREAS, O'BRIENS DEVELOPMENT, a California Partnership, entered into a CFF Reimbursement Agreement on September 10, 2002 for improvements to Pelandale Avenue ("Improvements"), and

WHEREAS, HUFF CONSTRUCTION COMPANY, INC., the general contractor for O'BRIENS DEVELOPMENT has filed irrevocable bonds to secure faithful performance and payment for labor and materials in the amount of \$198,600.00 and \$198,600.00, respectively, and

WHEREAS, HUFF CONSTRUCTION COMPANY, INC., on behalf of O'BRIENS DEVELOPMENT, has filed a warranty bond in the amount of \$15,060.00 to guarantee the Improvements, and

WHEREAS, the Engineering & Transportation Director, in a memorandum to Council, indicates that all work required by the Reimbursement Agreement was completed to the satisfaction of the Engineering & Transportation Department as of March 19, 2003, and

WHEREAS, the Engineering & Transportation Director has indicated that it would be in order for the City Council to accept the Improvements as complete, and authorize the City Clerk to file a Notice of Completion and release the performance and

labor and materials securities upon expiration of the statutory periods and to release the warranty security on March 20, 2004.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that:

1. The Pelandale Avenue improvements are hereby accepted and the City Clerk is hereby authorized to file a Notice of Completion for the Improvements.
2. The City Clerk is hereby authorized to release the bond for faithful performance in the amount of \$198,600.00 upon recordation of the Notice of Completion.
3. The City Clerk is hereby authorized to release the bond for labor and materials in the amount of \$198,600.00 sixty (60) days after the recordation of the Notice of Completion, provided no claim is made thereon.
4. The City Clerk is hereby authorized to release the warranty bond to guarantee improvements in the amount of \$15,060.00 on March 20, 2004, provided no claim is made thereon.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-570**

A RESOLUTION OF INTENTION TO CONSIDER OPTIONS FOR PENALTIES FOR THE SUBSTANDARD PERFORMANCE OF WASTE MANAGEMENT IN MEETING THE REQUIREMENTS OF THEIR SERVICE AGREEMENT, AND OPTIONS FOR PROVIDING SERVICE IN WASTE MANAGEMENT'S PRESENT SERVICE AREA, AND SETTING A PUBLIC HEARING ON NOVEMBER 13, 2003, TO CONSIDER SAID MATTER.

WHEREAS, on November 1, 1997, the City executed a Service Agreement with Modesto Garbage Company, Inc., D.B.A. Modesto Disposal Service, which was then a subsidiary of USA Waste of California, which later acquired Waste Management and changed the name of the corporate parent to Waste Management, for a term through January 1, 2007, and

WHEREAS, while the term of this Service Agreement with Waste Management was for 10 years, due to concerns about the corporation's problems in other cities, the City Council added a provision to the Service Agreement to allow the City to terminate the agreement on January 1, 2004, if the City found the company did not meet certain performance standards to the satisfaction of the City, and

WHEREAS, Section b.1. of the Service Agreement states the following performance standards must be met to get to the full 10-year term: Timely payment of fees and charges; Delivery of all waste or recyclables to the facilities specified by the City; Satisfactory resolution of complaints; Compliance with all provisions of the Modesto Municipal Code, the Service Agreement, and state, federal, and local laws pertaining to the collection operations; and Service Agreement provisions regarding recycling and yard waste diversion programs, and

WHEREAS, staff notified the company on multiple occasions that substandard performance was occurring and of the need to meet the requirements of the Service Agreement, and

WHEREAS, staff believes the company has violated multiple provisions of Section b.1. of their Service Agreement, and

WHEREAS, on October 13, 2003, the Economic Development Committee met and supported staff's recommendation to proceed to a full Council hearing to consider penalties and options for providing service in Waste Management's present service area, and

WHEREAS, pursuant to Modesto Municipal Code Section 5-5.33, the City Council shall hear said matter at a public hearing, on Thursday, November 13th, 2003, at 5:30 p.m. in the Tenth Street Place Chambers located at 1010 10th Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that Thursday, November 13th, 2003, at 5:30 p.m., in the Tenth Street Chambers located at 1010 10th Street, Modesto, California, is hereby set as the date, time and place for a public hearing to be held to consider options for penalties for the substandard performance of Waste Management in meeting the requirements of their Service Agreement, and options for providing service in Waste Management's present service area.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of October, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2003-571**

A RESOLUTION OF INTENTION TO CONSIDER THE REQUEST OF BERTOLOTTI DISPOSAL, INC. FOR AN ASSIGNMENT AND EXTENSION OF THEIR SERVICE AGREEMENT WITH THE CITY OF MODESTO FOR THE COLLECTION OF COMMERCIAL/RESIDENTIAL GARBAGE/ RECYCLABLES, CONTAINERIZED YARD WASTE, AND INDUSTRIAL GARBAGE, SALVAGEABLE WASTE, AND RECYCLABLES, AND SETTING A PUBLIC HEARING ON NOVEMBER 13, 2003, TO CONSIDER SAID MATTER.

WHEREAS, on September 25, 2003, the City Clerk received a request from Bertolotti Disposal, Inc. for an Assignment and Extension of their Service Agreement to collect commercial/residential garbage/recyclables, containerized yard waste, and industrial garbage, salvageable waste, and recyclables in the City of Modesto, and

WHEREAS, Bertolotti Disposal, Inc., wishes to assign its rights and interests under said agreement to its newly formed affiliate company, Bertolotti Modesto Disposal, Inc., and

WHEREAS, on October 13, 2003, the Economic Development Committee met and supported the request of Bertolotti Disposal, Inc., and

WHEREAS, Modesto Municipal Code section 5-5.32 requires that collection companies obtain written consent from the City Council after a public hearing is held, prior to an Assignment of a Service Agreement, and

WHEREAS, pursuant to Modesto Municipal Code Section 5-5.24, the City Council shall hear such requests at a public hearing, on Thursday, November 13th, 2003, at 5:30 p.m. in the Tenth Street Place Chambers located at 1010 10th Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that Thursday, November 13th, 2003, at 5:30 p.m., in the Tenth Street Chambers located at 1010 10th Street, Modesto, California, is hereby set as the date, time and place for a public hearing to be held to consider the request of Bertolotti Disposal, Inc., for an Assignment and Extension of their Service Agreement with the City of Modesto for the collection of commercial/residential garbage/recyclables, containerized yard waste, and industrial garbage, salvageable waste, and recyclables.

RESOLUTION NO. 2003-572**

A RESOLUTION APPROVING THE APPLICATION FOR FEDERAL EMERGENCY MANAGEMENT AGENCY (FEMA), OFFICE OF NATIONAL PREPAREDNESS FY 2003 SUPPLEMENTAL APPROPRIATION GRANT FOR THE COMMUNITY EMERGENCY RESPONSE TEAM AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE GRANT APPLICATION AND NECESSARY DOCUMENTS.

WHEREAS, the Federal Emergency Management Agency (FEMA) Region IX has notified the governors' offices of California, Hawaii, and Nevada that their states will receive grants to support local homeland security efforts, and

WHEREAS, grant funding in the amount of \$16,147 is available for the Operational Area of Stanislaus County, and

WHEREAS, the funds are available for continued support of, the Community Emergency Response Teams (CERT), and

WHEREAS, the CERT program trains individual citizens in emergency response skills, and

WHEREAS, the purpose of the training is to have all citizens better prepared to respond to disasters of all kinds and a nation prepared, and

WHEREAS, the City desires to apply for grant funding to provide CERT training which will consist of both classroom and hands-on instruction to citizens in the community, and

WHEREAS, the Safety and Communities Committee met on October 6, 2003, and approved the recommendation to apply for the grant

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the filing of an application for a Federal Emergency Management Agency Office of National Preparedness FY 2003 CERT allocation grant.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is authorized to execute and submit the grant application and all documents which may be necessary for the completion of the grant application.

**A RESOLUTION APPROVING AN AGREEMENT TO PROVIDE UP TO \$40,000
IN COMMUNITY DEVELOPMENT BLOCK GRANT FUNDS TO THE
SALVATION ARMY IN ORDER TO IMPLEMENT A DAY FACILITY FOR
HOMELESS INDIVIDUALS AND AUTHORIZING THE CITY MANAGER TO
EXECUTE THE AGREEMENT.**

WHEREAS, on June 26, 2001, by Resolution No. 2001-313, the City Council approved the designation of the Stanislaus Housing and Support Services Collaborative (SHSSC) as the planning and coordinating body for homeless issues in Stanislaus County, and

WHEREAS, representatives from the Parks, Recreation and Neighborhoods Department participate in this collaborative, and

WHEREAS, the SHSSC is composed of public and private entities concerned with providing safe, affordable housing access and supportive services for people who are homeless or at risk for homelessness, and

WHEREAS, the Homeless Day Facility Committee, a sub-committee of SHSSC, recommended on August 18, 2002, the authorization and distribution of a Request for Qualifications (RFQs) to identify an agency that would take the lead to develop a business plan for a Homeless Day Facility, and

WHEREAS, on October 1, 2002, by Resolution No. 2002-487, the City Council authorized staff to solicit RFQs for the acquisition and implementation of a Day Facility for homeless individuals, and

WHEREAS, the Salvation Army was the only organization to submit a proposal, and

WHEREAS, on December 20, 2002, the Homeless Day Center Review Committee, consisting of a member of the Stanislaus Housing and Support Services Collaborative, County staff, a member from the CH&CDC and City staff met and reviewed the application submitted by The Salvation Army, and

WHEREAS, the Review Committee agreed that The Salvation Army is a well-qualified and capable organization to complete the Homeless Day Facility project, and

WHEREAS, the Citizens Housing and Community Development Committee met on April 25, 2003, and supported the recommendation to accept the Salvation Army, Modesto Corps, as the non-profit agency to implement a day facility for homeless individuals and for staff to develop a \$40,000 pay for performance contract, and

WHEREAS, on August 6, 2003, by Resolution No. 2003-426, the City Council designated the Salvation Army as the non-profit agency to implement a day facility for homeless individuals in Modesto, and authorized staff to work with the Salvation Army to develop a \$40,000 pay for performance contract to begin operation of the Homeless Day Facility, and

WHEREAS, the Salvation Army has developed a four phase plan as follows:

- Phase I: Create networking channels for Homeless Day Facility and other agencies to centralize services targeted specifically for homeless individuals. Preparation of MOU's with each agency.
- Phase II: Completion of Client Assessment/Plan/Referral
- Phase III: Provide communication services to homeless persons (Mail, telephone, computers, staff salaries).
- Phase IV: Showers, laundry facilities, capital improvements.

and,

WHEREAS, the first year, the City will fund up to \$40,000 in CDBG funds to include start-up funding for completion of each phase of said plan,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves an agreement to provide up to \$40,000 in CDBG funds to the Salvation Army in order to implement a day facility for homeless individuals in Modesto.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement.

A RESOLUTION APPROVING THE APPLICATION FOR \$250,000 IN GRANT FUNDING FROM THE CALIFORNIA DEPARTMENT OF HOUSING AND COMMUNITY DEVELOPMENT, EXTERIOR ACCESSIBILITY GRANTS FOR RENTERS (EAGR) PROGRAM, AND AUTHORIZING THE CITY MANAGER TO EXECUTE A STANDARD CONTRACT AND INSTRUMENTS REQUIRED FOR EAGR PROGRAM PARTICIPATION.

WHEREAS, funding for the Exterior Accessibility Grants for Renters (EAGR) Program has been made available by the California Department of Housing and Community Development (HCD), pursuant to the Housing and Emergency Shelter Trust Fund of 2002 (Proposition 46), Notice of Funding Availability (NOFA) released October 6, 2003, and

WHEREAS, pursuant to the statute, the HCD is authorized to approve funding allocations for the program, subject to the terms and conditions of the statute and the EAGR Program Guidelines adopted by HCD on October 1, 2003, and

WHEREAS, the City of Modesto, Parks, Recreation and Neighborhood (PR&N) Department wishes to apply for and receive an allocation of \$250,000 in funds through the EAGR Program, and

WHEREAS, the application in full is incorporated as part of the Contract and any and all activities funded, information provided and timelines represented in the application are enforceable through the Contract, and

WHEREAS, if the application for funding is approved, the PR&N Department shall be subject to the terms and conditions as specified in the standard agreement (Contract), and agrees to use the EAGR funds for eligible activities in the manner

presented in the application as approved by HCD and in accordance with the program guidelines,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the application for \$250,000 in grant funding under the California Department of Housing and Community Development, Exterior Accessibility Grants for Renters (EAGR) Program.

BE IT FURTHER RESOLVED that the City Council hereby authorizes the City Manager, or his designee, to execute the Contract, and any and all instruments required by the Department for participation in the EAGR Program.

RESOLUTION NO. 2003- 575**

A RESOLUTION DECLARING ONE (1) PARCEL AS EXCESS LAND TO CITY'S NEEDS AND AUTHORIZING STAFF TO TAKE ALL APPROPRIATE ACTIONS TO COMPLETE THE SALE OF SAID PARCELS BY FOLLOWING THE PROCEDURE SET FORTH IN THE GOVERNMENT CODE FOR SALE OF EXCESS LAND AND AUTHORIZING THE CITY MANAGER TO EXECUTE ALL REQUIRED DOCUMENTS RELATED TO THE PROPERTY SALE.

WHEREAS, the City of Modesto acquired 12.6 gross acres of property for purposes of a neighborhood park, which is located as shown on the attached map which is incorporated herein by reference, and

WHEREAS, 4.22 acres of said property are excess to the City's needs, and

WHEREAS, the Council of the City of Modesto desires the property be sold to the Sylvan Union School District,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby declares that a portion of the parcel which was originally acquired and utilized for a City of Modesto neighborhood park and which has since been determined to be surplus to the City's future needs, is excess property to the City.

BE IT FURTHER RESOLVED that the Council hereby authorizes and directs staff to sell the property pursuant to Government Code Section 54220, et seq.

BE IT FURTHER RESOLVED that the City Manager or his designee is hereby authorized to execute the necessary documents related to said property sale.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-576**

**A RESOLUTION VACATING AND ABANDONING THE SIX-FOOT-WIDE
WALKWAY BETWEEN DOWNEY HIGH SCHOOL AND LOCKE ROAD
(COLLINS)**

WHEREAS, Streets and Highways Code Section 8320 et seq. prescribes the procedures to vacate and abandon public rights-of-way, and

WHEREAS, Government Code Section 65402 requires that prior to abandoning a public right-of-way, the Planning Commission shall make a determination as to whether the abandonment is consistent with the General Plan, and

WHEREAS, Stanley and Carole Collins have filed an application to vacate and abandon the six-foot-wide walkway between Downey High School and Locke Road, located between 1333 and 1401 Locke Road, and

WHEREAS, a title report was submitted with the abandonment request which vests fee title to the walkway in the adjacent land owners who are proponents of the abandonment, and

WHEREAS, the proposed walkway abandonment has been referred to affected City departments and local utility companies, and no objection to the abandonment has been received, and

WHEREAS, a public hearing was held by the Planning Commission on September 22, 2003, in the Tenth Street Chambers, located at 1010 Tenth Street, Modesto, California, at which hearing both oral and documentary was received and considered regarding the proposed vacation and abandonment, and

WHEREAS, by Planning Commission Resolution No. 2003-58, the Planning Commission recommended approval of the proposed vacation and abandonment, and

WHEREAS, a duly noticed public hearing was held by the Council of the City of Modesto on Tuesday, October 28, 2003, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which time all persons interested in or objecting to the proposed vacation were afforded the opportunity to appear, and

WHEREAS, all things and acts necessary to be done as required by the State of California Streets and Highways Code, Section 8300 through 8363: Public Streets, Highways and Service Easements Vacation Law, in order to vacate and abandon the subject walkway have been done and accomplished (hearing notice published in the Modesto Bee and posted in the walkway for two successive weeks prior to the Council hearing), and

WHEREAS, on October 28, 2003, the Council of the City of Modesto reviewed the Initial Study (EA/C&ED 2003-80) for the proposed walkway abandonment and adopted Resolution No. 2003-?, thereby providing a determination that the project is within the scope of the Modesto Urban Area General Plan Master Environmental Impact Report

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of

Modesto finds and determines as follows:

1. That the walkway to be abandoned is unnecessary for present or future pedestrian or vehicular use.
2. That Environmental Assessment No. EA C&ED 2003-80 judged this project to be within the scope of the General Plan Master EIR.
3. That the vacation and abandonment of the six-foot-wide walkway between Downey High School and Locke Road, and located between 1333 and 1401 Locke Road, is in conformance with the City of Modesto General Plan.

BE IT FURTHER RESOLVED that the Council hereby orders and declares the vacation and abandonment of the six-foot-wide walkway between Downey High School and Locke Road, located between 1333 and 1401 Locke Road. Said walkway to be vacated and abandoned is more particularly described in Exhibit "A" attached hereto, and by this reference made a part hereof as though set forth in full herein.

BE IT FURTHER RESOLVED that the City Clerk shall cause a certified copy of this resolution, attested under seal of the City, to be recorded in the Office of the County Recorder of Stanislaus County.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of October, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

Exhibit "A"

The 6-foot Pedestrian Walk in Block 1033 as shown on that certain map filed for record on August 5, 1955 of Downey Manor in Book 18 of Maps, Page 32, situated in the City of Modesto, County of Stanislaus, State of California, and being a portion of the Southwest Quarter of the Southwest Quarter of Section 22, Township 3 South, Range 9 East, Mount Diablo Base and Meridian, more particularly described as follows:

starting at the southwest corner of said section 22-3-9, being also the centerline intersection of original 50 foot Coffee Road and original 40 foot Lucern Avenue; thence along the west line of said section 22-3-9 and the centerline of Coffee Road, $N0^{\circ}14'W$, 659.2 feet, to a point on said centerline; thence leaving said centerline, $S89^{\circ}43'E$, 25.0 feet, to the northwest corner of said Downey Manor subdivision; thence $S0^{\circ}14'E$, 20.0 feet to a point on the west line of said Downey Manor subdivision; thence leaving said west line, $S89^{\circ}43'E$, 20.0 feet, to the northwest corner of Lot 18 in Block 1033 of said Downey Manor subdivision; thence $S89^{\circ}43'E$, 623.22 feet, to the northeast corner of Lot 10 in Block 1033 of said Downey Manor subdivision, said point being the True Point of Beginning; thence $S0^{\circ}20'E$, 114.82 feet to the southeast of said Lot 10; thence $S89^{\circ}42'E$, 6 feet to the southwest corner of Lot 9 in Block 1033 of said Downey Manor subdivision; thence $N0^{\circ}20'W$, 114.82 feet to the northwest corner of said Lot 9; thence $N89^{\circ}43'W$, 6.0 feet to the northeast corner of said Lot 10 and the True Point of Beginning.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-577**

A RESOLUTION FINDING THAT THE FOLLOWING PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (SCH NO. 1999082041): VACATION AND ABANDONMENT OF THE SIX-FOOT-WIDE WALKWAY BETWEEN DOWNEY HIGH SCHOOL AND LOCKE ROAD (STANLEY & CAROLE COLLINS)

WHEREAS, on March 4, 2003, the City Council of the City of Modesto certified the Final Master Environmental Impact Report ("Master EIR") (SCH No. 1999082041) for the Modesto Urban Area General Plan, and

WHEREAS, Stanley and Carole Collins have proposed that the six-foot-wide walkway between Downey High School and Locke Road, located between 1333 and 1401 Locke Road, be vacated and abandoned, and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for a Master EIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the master environmental impact report as being within the scope of the project, and

WHEREAS, the City's Community & Economic Development Department by Environmental Assessment Initial Study EA/C&ED 2003-80 reviewed the proposed project to determine whether the project is within the scope of the project covered by the Modesto Urban Area General Plan Master EIR, and made the determination that the proposed project will have no additional significant effect on the environment that was not identified in the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on October 28, 2003, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed project, a copy of which is attached hereto as Exhibit "A", and incorporated herein by reference, and based on the substantial evidence included in said Initial Study makes the following findings:

1. The proposed walkway abandonment is within the scope of the General Plan Master EIR (SCH No. 1999082041), which analyzed the potential impacts of buildout of the Baseline Developed Area.
2. No additional significant environmental effects will occur as a result of the proposed project that were not previously examined in the General Plan Master EIR.
3. No new mitigation measures or alternatives will be required as a result of the proposed project that were not previously considered in the General Plan Master EIR.
4. There are no specific features unique to this proposed project that require specific mitigation measures. All certified mitigation measures identified in the General Plan Master EIR will apply Citywide, including this project as appropriate.
5. The Initial Study, EA/C&ED No. 2003-80, provides substantial evidence to support findings 1 through 4, above.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of October, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

EA/C&ED 2003-80

City of Modesto
Initial Study

Walkway Abandonment (Stanley & Carole Collins)

EA/C&ED 2003-80
September 3, 2003

I. PURPOSE

Section 21157.1 of the Public Resources Code, allows for limited environmental review of subsequent projects under a Master EIR, provided that certain findings are made. The Modesto Urban Area General Plan Master EIR (SCH No. 1999082041), adopted March 4, 2003, allows such limited review for projects in the Baseline Developed Area that are consistent with the General Plan and existing zoning.

This Initial Study, in accordance with Section 21157.1 of the Public Resources Code, analyzes whether this project may cause any significant effects on the environment that were not examined in the General Plan Master EIR. This Initial Study also provides documentation that the project is within the scope of the General Plan Master EIR.

II. PROJECT DESCRIPTION

- A. Project title:
P-ABD-03-001 / Application of Stanley and Carole Collins for abandonment of the walkway between Downey High School and Locke Road
- B. Lead agency name and address:
City of Modesto, P.O. Box 642, Modesto, CA 95353
- C. Contact person, address and phone number:
Brad Wall
City of Modesto Community & Economic Development Department
1010 10th Street, Suite 3100
Modesto, CA 95353
(209) 577-5282
- D. Project Location: 1401 Locke Road, Modesto CA
- E. Project Sponsor:
Stanley & Carole Collins
1401 Locke Road
Modesto CA 95355
- F. General Plan Designation: Residential (R)
- G. Current Zoning: Low Density Residential (R-1)
- H. Description of Proposed Project: Abandonment of the walkway

- I. Surrounding land uses:
Residential land uses surround the project site, with the exception of Downey High School to the north.
- J. Other public agencies whose approval is required: None

III. ANALYSIS OF CONFORMANCE WITH THE MASTER EIR

There are eighteen subject areas in the Master EIR for the General Plan. Following is an analysis of how this project conforms to the analysis contained within the Master EIR.

A. Traffic and Circulation

The General Plan designates the project site for Commercial land uses. The project is consistent with this designation and will not generate greater traffic volumes than those projected by the MEIR. Therefore, the Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Traffic and Circulation Needs (pages V-1-1 through V-1-33) are still valid.

B. Degradation of Air Quality

The air quality impacts for this project are directly related to the traffic impacts. Since traffic impacts are no greater than those anticipated in the Master EIR, this project will not cause additional impacts to air quality beyond those described in the Degradation of Air Quality section of the MEIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Degradation of Air Quality (pages V-2-1 through V-2-26) are therefore still valid.

C. Generation of Noise

The General Plan MEIR assumed that there would be further development within the Baseline Developed Area. Therefore, the Mitigation Measures listed in the MEIR for Generation of Noise (pages V-3-1 through V-3-22) are still valid.

D. Loss of Productive Agricultural Land

This area is located in an urbanized portion of Modesto, and there are no agricultural lands affected by this project. The Existing Conditions, Impacts Analysis, and Mitigation Measures listed in the MEIR for Loss of Productive Agricultural Land (pages V-4-1 through V-4-12) are still valid.

E. Increased Demand for Water Supplies

The General Plan MEIR assumed that there would be additional development and increased demand for Water Supplies within the Baseline Developed Area. Therefore, the Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Increased Demand for Water Supplies (pages V-5-1 through V-5-13) are still valid.

F. Increased Demand for Sanitary Sewer Services

The project is consistent with the General Plan Designation for the site in land use and intensity and will therefore not increase demand for sanitary sewer service beyond that projected by the MEIR. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Sanitary Sewer Services (pages V-6-1 through V-6-12) are still valid.

G. Loss of Sensitive Wildlife and Plant Habitat

The project site is located in a built-up urban area and is not located in a Potential Biological Resource Study Area, as presented in Figure V-7-1 of the MEIR. Therefore, the project will not impact sensitive wildlife or any plant habitat above and beyond that which was identified in the Loss of Sensitive Wildlife and Plant Habitat section of the MEIR. Therefore, the Existing Conditions, Impact Analysis, and the Mitigation Measures listed in this section of the MEIR (pages V-7-1 through V-7-29) are still valid.

H. Disturbance of Archaeological and Historic Sites

This project will not disturb any archaeological or historic sites that have been identified in the Disturbance of Archaeological or Historical Sites section of the 1995 MEIR, as cited in the 2003 MEIR. Figure 8-1 of the 1995 MEIR, as cited in the 2003 MEIR, indicates that this project is also outside the Archaeological Resource Study Area, which shows areas that may require additional site-specific investigations. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Disturbance of Archaeological or Historical Sites (pages V-8-1 through V-8-22) are still valid.

I. Increased Demand for Storm Drainage

The General Plan MEIR assumed that there would be further development and increased demand for Storm Drainage within the Baseline Developed Area. This project is consistent in land use and intensity with the General Plan designation for the project site. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Storm Drainage (pages V-9-1 through V-9-13) are still valid.

J. Flooding and Water Quality

The General Plan designates the project site for Commercial land uses. The project is consistent with this designation and will not generate flooding or water quality problems greater than projected by the MEIR. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Drainage, Flooding, and Water Quality (pages V-10-1 through V-10-16) are still valid.

K. Increased Demand for Parks and Open Space

The General Plan MEIR assumed that there would be further development and increased demand for Parks and Open Space within the Baseline Developed Area. This project is consistent with the General Plan in terms of land use and intensity. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for

the Increased Demand for Parks and Open Space (pages V-11-1 through V-11-14) are still valid.

L. Increased Demand for Schools

This project will not generate any additional demand for schools beyond that anticipated in the General Plan MEIR. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Schools (pages V-12-1 through V-12-11) are still valid.

M. Increased Demand for Police Services

The General Plan MEIR assumed that there would be further development and increased demand for police services within the Baseline Developed Area. The proposed project is consistent with the General Plan with regard to land use and intensity. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Police Services (pages V-13-1 through V-13-7) are still valid.

N. Increased Demand for Fire Services

The General Plan MEIR assumed that there would be further development and increased demand for fire services within the Baseline Developed Area. The MEIR concludes that adopted policies in the City of Modesto and County of Stanislaus would reduce the impact of new projects on Fire Services to a less than significant level. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Fire Services (pages V-14-1 through V-14-9) are still valid.

O. Generation of Solid Waste

The General Plan MEIR assumed that there would be further development and increased generation of solid waste within the Baseline Developed Area. This project is consistent in land use and intensity with the General Plan designation for the site. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Solid Waste (pages V-15-1 through V-15-10) are still valid.

P. Generation of Hazardous Materials

This project is consistent in land use and intensity with the General Plan designation for the site. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Hazardous Materials (pages V-16-1 through V-16-15) are still valid.

Q. Landslides and Seismic Activity

This project will not result in additional potential for exposing people to landslides or earthquake related hazards such as liquefaction beyond those identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Landslides and Seismic Activity (pages V-17-1 through V-17-12) are therefore still valid.

R. Energy

The MEIR concludes that adopted policies in the City of Modesto and County of Stanislaus would reduce the impact of new projects on Energy to a less than significant level. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Energy (pages V-18-1 through V-18-7) are still valid.

IV. CONCLUSIONS / DETERMINATIONS OF FINDINGS

- A. The proposed walkway abandonment is within the scope of the General Plan Master EIR (SCH No. 1999082041), which analyzed the potential impacts of buildout of the Baseline Development Area.
- B. No additional significant environmental effects will occur as a result of the proposed project that were not previously examined in the General Plan Master EIR.
- C. No new mitigation measures or alternatives will be required as a result of the proposed project that were not previously considered in the General Plan Master EIR.
- D. There are no specific features unique to this proposed project that require specific mitigation measures. All certified mitigation measures identified in the General Plan Master EIR will apply Citywide, including this project as appropriate.
- E. This Initial Study provides substantial evidence to support findings A, B, C, and D above.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-578**

A RESOLUTION FINDING THAT THE FOLLOWING PROJECT IS WITHIN THE SCOPE OF THE VILLAGE ONE PROGRAM ENVIRONMENTAL IMPACT REPORT (SCH NO. 90020181), AS AMENDED BY THE SUPPLEMENTAL EIR: PRECISE PLAN FOR AREA NO. 2 AND CONCURRENT REZONING FROM SP-H TO SP-O, PROPERTY LOCATED AT THE SOUTHEAST CORNER SYLVAN AVENUE AND OAKDALE ROAD IN THE VILLAGE ONE SPECIFIC PLAN AREA (RONALD L. LaFORCE ET AL, MODESTO VENTURE 168, AND CHRIS & PAULINE GIANULIAS)

WHEREAS, the Modesto City Council has adopted Resolution No. 90-757 certifying that the Village One Final Environmental Impact Report (“EIR”) (State Clearing House No. 90020181) is complete and adequate pursuant to Section 15090 of the California Environmental Quality Act (“CEQA”) Guidelines, and

WHEREAS, the Modesto City Council has adopted Resolution No. 94-297 which certified the Final Supplemental EIR for Village One; thus, the 1990 Village One Program EIR has been superseded and updated by the 1994 Supplemental EIR, adopted on May 24, 1994, which Supplemental EIR incorporates by reference technical studies and background material from the 1990 Program EIR, and

WHEREAS, an application has been filed by Ronald L. LaForce et al., Modesto Venture 168, and Chris & Pauline Gianulias, for a Precise Plan for Area No. 2, property located at the southeast corner of Sylvan Avenue and Oakdale Road, and

WHEREAS, the applicant has applied for approval of a rezoning from Specific Plan-Holding Zone, SP-H, to a Specific Plan-Overlay, SP-O, and

WHEREAS, the City’s Community & Economic Development Department reviewed the proposed project to determine if said project might have a significant effect on the environment, and

WHEREAS, City staff has prepared an Initial Study, Environmental Assessment No. EA/C&ED 2003-78, which concluded that the proposed project is within the scope of the Village One Program EIR (SCH No. 90020181), as amended by the Village One Supplemental EIR, and

WHEREAS, the Planning Commission, by Resolution No. 2003-54, adopted on September 8, 2003, and City staff, by a report dated October 1, 2003, from the Community and Economic Development Department, recommended to the City Council approval of Precise Plan No. 2 of the Village One Specific Plan, and recommended approval of an Amendment to Section 11-3-9 of the Zoning Map to rezone from Specific Plan-Holding Zone, SP-H to Specific Plan-Overlay, SP-O, property located at the southeast corner of Sylvan Avenue and Oakdale Road, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on October 28, 2003, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered Environmental Assessment No. EA/C&ED No. 2003-78, entitled "Projects Within the Scope of the Village One Specific Plan Program Environmental Impact Report for Precise Plans 2, 15, 16, & 17," for the proposed project, and the Council hereby makes the following findings:

1. The proposed Precise Plan and rezoning are consistent with the Village One Specific Plan and Modesto Urban Area General Plan.
2. There are no substantial changes proposed in the project which result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and, therefore, no major revisions to the Village One Program EIR, as amended by the 1994 Supplemental EIR, are required.

3. No substantial changes have occurred with respect to the circumstances under which the project is undertaken which will result in new significant environmental effects or a substantial increase in the severity of previously-identified significant effects and, therefore, no major revisions to the Village One Program EIR, as amended by the 1994 Supplemental EIR, are required.
4. There is no new information of substantial importance which was not known and could not have been known with the exercise of reasonable diligence when the Village One Program EIR, as amended by the 1994 Supplemental EIR, was adopted which shows any of the following:
 - a. one or more significant effects which is not discussed in the Village One Program EIR, as amended by the 1994 Supplemental EIR; or,
 - b. significant effects which were previously examined will be substantially more severe than previously shown; or,
 - c. previously infeasible mitigation measures or alternatives are now feasible and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative; or,
 - d. mitigation measures or alternatives which are considerably different from those analyzed in the Village One Program EIR, as amended by the 1994 Supplemental EIR, would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative.
5. The Initial Study, Environmental Assessment EA/C&ED 2003-78, provides the substantial evidence to support findings 2-4 noted above.

BE IT FURTHER RESOLVED that a copy of said Environmental Assessment No. EA/C&ED No. 2003-78, entitled "Projects Within the Scope of the Village One Specific Plan Program Environmental Impact Report for Precise Plans 2, 15, 16, & 17," is attached hereto as Exhibit "A", and incorporated herein by this reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of October, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers	Conrad, Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

WRITTEN CHECKLIST

EAC&ED No. 2003-78

I. PURPOSE

On September 11, 1990, the Modesto City Council certified a Final Program Environmental Impact Report for the Village One Specific Plan (SCH# 90020181). This Program EIR analyzed the impacts of build-out of the Village One Specific Plan, which includes the area in which this project is proposed.

Subsequently, on May 24, 1994, the City Council certified a Supplement to the Village One Program EIR. This supplement updated and modified the original EIR.

Section 15182 of the CEQA Guidelines allows the approval of subsequent residential projects within the scope of the Project EIR without further environmental review, provided the following findings are made:

- (1) Major revisions to the Village One Program EIR as amended by the 1994 Supplement, are not required because the project will not involve new significant environmental effects or increase severity of effects previously identified, and
- (2) Major revisions to the Village One Program EIR as amended by the 1994 Supplement, are not required because no substantial changes to circumstances have occurred that involve new significant environmental effects or increase severity of effects previously identified, and
- (3) No new information of substantial importance that was not known has become available that shows:
 - a. one or more significant effects is not discussed in the Village One Program EIR as amended by the 1994 Supplement,
 - b. identified significant effects will be more severe,
 - c. previously infeasible mitigation measures are now feasible,
 - d. project proponents have declined to adopt mitigation measures that would substantially reduce significant effects.

The purpose of this initial study is to provide the substantial evidence to support the above findings.

The 1994 Supplemental EIR that amended and superseded the 1990 Program EIR is the document reviewed for projects within the Village One Specific Plan area. A summary of significant impacts and their mitigation measures from the 1994 Supplemental EIR is attached as Exhibit "A." Where appropriate those feasible mitigation measures developed in the Supplement to the program EIR shall be incorporated into the proposed project.

II. PROJECT INFORMATION

1. **Project Title:** Precise Plan Areas 2, 15, 16, & 17
2. **Lead Agency Name and Address:** City of Modesto
3. **Contact Person and Phone Number:** Brad Wall, Associate Planner
Modesto Community & Economic Development
Department
(209) 577-5267
4. **Project Location:** Between Sylvan and Floyd Avenues east of
Oakdale Road - Modesto, California
5. **Project Sponsor's Name and Address:** Ronald L. LaForce (et al)
P.O. Box 814
Modesto CA 95353
6. **General Plan Designation:** The General Plan land use designation for the
project site is: Village Residential (VR). This
designation allows the zoning & land uses
described within the proposed Precise Plans.
7. **Zoning:** Specific Plan Holding (SP-H)
8. **Description of Project:** Pursuant to the adopted Village One Specific Plan, the project
applicant proposes a total of approximately 625 single-family lots within the four Precise
Plans (see attached diagram).
9. **Surrounding Land Uses and Setting:** The Village One Specific Plan Area is over half
built, as planned and approved by the 1990 Village One Specific Plan. The project area is
surrounded largely by undeveloped land, which is designated by the Specific Plan for

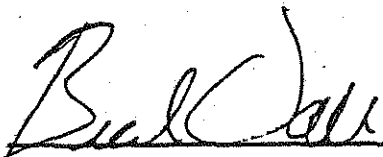

residential development. A mix of residential and commercial zoning and land surround the project site.

10. Other Public Agencies whose Approval Is Required: None.

III. DETERMINATION:

Based on the analysis contained in this document, staff finds that pursuant to Guidelines Section 15182 the following is true for the proposed project:

- (1) Major revisions to the Village One Program EIR as amended by the 1994 Supplement, are not required because the project will not involve new significant environmental effects or increase severity of effects previously identified, and
- (2) Major revisions to the Village One Program EIR as amended by the 1994 Supplement, are not required because no substantial changes to circumstances have occurred that involve new significant environmental effects or increase severity of effects previously identified, and
- (3) No new information of substantial importance that was not known has become available that shows:
 - a. one or more significant effects is not discussed in the Village One Program EIR as amended by the 1994 Supplement,
 - b. identified significant effects will be more severe,
 - c. previously infeasible mitigation measures are now feasible,
 - d. project proponents have declined to adopt mitigation measures that would substantially reduce significant effects.

Date

IV. PROJECT EVALUATION:

The following written Checklist based on Appendix G of the CEQA Guidelines serves to document the evaluation of the site and activity of the proposed project pursuant to CEQA Guidelines Section 15168 (c) (4) to determine whether the environmental effects of the operation were covered in the Program EIR.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
I. AESTHETICS. Would the project:				
a. Have a substantial adverse effect on a scenic vista?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings along a scenic highway?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c. Substantially degrade the existing visual character or quality of the site and its surroundings?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Create a new source of substantial light or glare that would adversely affect daytime or nighttime views in the area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Aesthetic and visual impacts are analyzed on pages III-100 through III-101 of the 1994 Supplement.

Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that as the Specific Plan area is developed, it will eliminate views of the valley and the distant mountains from adjacent areas and reduce the area's visual open space. However, the program EIR found the effects of buildout of Village One on scenic vistas to be less than significant because views from the project area are minimal. The proposed residential development would not change the extent or nature of construction in the Specific Plan area, or cause any other changes in the project area. Impacts on scenic vistas would therefore remain the same as those identified in the program EIR. There would be no additional impact. No mitigation is required.
- b. The Village One Specific Plan program EIR found that there are no scenic resources in the project area, and that development within the Specific Plan area would therefore not result in significant impacts on scenic resources. This

finding would not be affected by the proposed residential projects. There would be no impact. No mitigation is required.

- c. The Village One Specific Plan program EIR found that the development within the Specific Plan area would have a less-than-significant impact on the visual character of the area. The proposed residential development would not change the design or layout of the development proposed within the Village One Specific Plan. For this reason, impacts on the visual character of the area would remain the same as those identified in the program EIR. There would be no additional impact. No mitigation is required.
- d. The proposed residential development is consistent with the Village One Specific Plan. For this reason, impacts associated with additional light and glare would remain the same as those identified in the program EIR. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

II. AGRICULTURAL RESOURCES. In determining whether impacts on agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Department of Conservation. Would the project:

- | | | | | | |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Conflict with existing zoning for agricultural use or conflict with a Williamson Act contract? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Involve other changes in the existing environment that, due to their location or nature, could result in conversion of Farmland to non-agricultural use? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on agricultural resources are analyzed on pages III-80 through III-94 of the 1994 Supplement.

Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that land designated as Prime Farmland would be lost as a result of development in the Village One Specific Plan area. This impact was determined to be significant and not mitigable. The proposed residential development would not affect this finding because the project area would remain the same. There would be no additional impact. No mitigation is required.
- b. The Village One Specific Plan program EIR presented information showing that any Williamson Act contracts in the Village One Specific Plan area would be automatically cancelled on annexation of the land to the City of Modesto, which has occurred, or would expire within 10 years of the time the original program EIR was prepared. The last Williamson Act contract covering land in the Village One Specific Plan area expired in 2001. There are no lands in the project area under Williamson Act contract. The Village One Specific Plan area has also been rezoned consistent with the specific plan, and no lands in the project area are now zoned for agricultural use. There would be no additional impact. No mitigation is required.
- c. The Village One Specific Plan program EIR identified a potential land use conflict between new residential uses in the specific plan area and adjacent agricultural uses. Such conflicts can lead to conversion of adjacent farmlands to other uses. The program EIR proposed mitigation measures for this potential impact that would reduce the impact's significance, although the EIR noted that the mitigation measure might not fully mitigate the impact. No additional mitigation measures are available for this impact. This finding would not be affected by the proposed project because the project area and proposed land uses would remain the same. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

III. AIR QUALITY. When available, the significance criteria established by the applicable air quality management or air pollution control district may be relied upon to make the following determinations. Would the project:

- | | | | | | |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Conflict with or obstruct implementation of the applicable air quality plan? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Violate any air quality standard or contribute substantially to an existing or projected air quality violation? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
c. Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is a nonattainment area for an applicable federal or state ambient air quality standard (including releasing emissions that exceed quantitative thresholds for ozone precursors)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Expose sensitive receptors to substantial pollutant concentrations?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e. Create objectionable odors affecting a substantial number of people?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on air quality are analyzed on pages III-45 through III-54 of the 1994 Supplement.

Responses to Checklist Questions

- a. / b. The Village One Specific Plan program EIR found that air pollution from project-related construction traffic and fireplaces & wood stoves in planned residential areas would violate air quality standards and contribute to an existing air quality violation. Construction traffic emissions would contribute to violation of the state and federal 8-hour carbon monoxide (CO) and particulate matter (PM10) standards and the federal ozone standard in the Modesto Urban Area and the San Joaquin Valley Air Basin. Urban traffic pollution would contribute to violations of the state ozone, CO, and PM10 standards in the Modesto Urban Area and San Joaquin Valley Air Basin. Residential pollution would contribute to violations of the pollutant standard index in the Modesto Urban Area. Partial mitigation for these impacts is included in the program EIR (Mitigation Measures 3-5), and the City of Modesto adopted a statement of overriding consideration for each impact. The proposed residential projects would not change the amount of development and construction in the project area, so trips generated by the project would not be affected and the types of land uses would not change. There would be no additional impact. No mitigation is required.
- c. The Village One Specific Plan program EIR found that air pollutant emissions associated with traffic at buildout of Village One would exacerbate the existing ozone, PM10, and CO violations in the Modesto area and cause a significant cumulative impact. Partial mitigation for these emissions is included in the program EIR (Mitigation Measures 4.5.3[a] and 4.5.3[b]), and the City of Modesto made a statement of overriding consideration for each impact. The proposed residential development would not change the amount of traffic associated with buildout of Village One or the types of land uses, so trips

generated by the project would not be affected. There would be no additional impact. No mitigation is required.

- d. The Village One Specific Plan program EIR found that PM10 generated during construction would aggravate the respiratory problems of people living and working nearby, therefore exposing sensitive receptors in the area to pollutant concentrations and causing a significant impact. However, the program EIR outlines mitigation measures that will be implemented to reduce the impact to an acceptable level (Mitigation Measure 40). The proposed residential development would not change the level of construction emissions. There would be no additional impact. No additional mitigation is required.
- e. The proposed residential development would not create odors. There would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

IV. BIOLOGICAL RESOURCES. Would the project:

- | | | | | | |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special-status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marshes, vernal pools, coastal wetlands, etc.) through direct removal, filling, hydrological interruption, or other means? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

	Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
e. Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f. Conflict with the provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on biological resources are analyzed on pages III-68 through III-79 of the 1994 Supplement.

Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that the buildout could result in the loss of foraging habitat for Swainson's Hawk, a state-listed threatened species, but found that mitigation measures identified in the program EIR would reduce the impact to a less-than-significant level. The project applicant has hired a qualified biologist to survey the project site in order to determine whether the project site contains foraging habitat for the Swainson's Hawk. The biologist's report is attached. There would be no additional impact. No additional mitigation is required.
- b. The Village One Specific Plan program EIR did not find that any riparian habitat or other designated sensitive natural community was present in the project area, and so found that the project would have a less-than-significant impact. The proposed residential development would not change the boundaries of the Specific Plan area. There would be no impact. No mitigation is required.
- c. The Village One Specific Plan program EIR found that buildout of the Village One Specific Plan area would result in the loss of lands that might be classified as wetlands by the U.S. Army Corps of Engineers but that, with mitigation, the impact would be less than significant. The proposed residential development would not change the Specific Plan area boundaries or the areas that would be disturbed. There would be no additional impact. No mitigation is required.
- d. The Village One Specific Plan program EIR did not identify any migratory corridors in the project area, nor did it find that the project would interfere with the movement of any species. The proposed residential development would not change the Specific Plan area boundaries. There would be no impact. No mitigation is required.
- e. / f. No local biological resource protection policies, ordinances, habitat conservation plans, or natural community conservation plans apply to the Village One Specific Plan area. There would be no impact. No mitigation is required.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
V. CULTURAL RESOURCES. Would the project:				
a. Cause a substantial adverse change in the significance of a historical resource as defined in Section 15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Cause a substantial adverse change in the significance of an archaeological resource pursuant to Section 15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c. Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Disturb any human remains, including those interred outside of formal cemeteries?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Responses to Checklist Questions

- a.-d. Impacts on cultural resources resulting from the buildout of Village One (e.g., from construction of associated infrastructure) are addressed in the Opportunities/Constraints Report prepared for the Modesto Planning Commission (December 1, 1989). The report concluded that there are no known historic, archaeological, or paleontological resources in the Village One Specific Plan area. Based on the results of this report, (Cultural and Historic Resources Report, page 3) it was determined that the likelihood that the proposed residential development would change or disturb human remains or significant historic, archaeological, or paleontological resources was low.

The proposed project would not change the locations or types of construction in the project area nor the boundaries of the project area. Development of the proposed project will not result in effects on scattered existing structures. A Cultural Resources Assessment was prepared to determine if any of these affected structures are considered historic resources. The Cultural Resources Assessment is attached to this document as Appendix A. No historic structures are located within the project area boundaries. Therefore, no mitigation measures are necessary.

Since no archaeological, or paleontological resources were found in the previous document to be located in the project area, and since the proposed project would not have a significant impact on historic structures, there would be no impact. No mitigation is required.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
VI. GEOLOGY AND SOILS. Would the project:				
a. Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving:				
1. Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2. Strong seismic groundshaking?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3. Seismic-related ground failure, including liquefaction?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4. Landslides?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Result in substantial soil erosion or the loss of topsoil?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c. Be located on a geologic unit or soil that is unstable or that would become unstable as a result of the project and potentially result in an onsite or offsite landslide, lateral spreading, subsidence, liquefaction, or collapse?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e. Have soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems in areas where sewers are not available for the disposal of wastewater?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts associated with geology and soils are analyzed on pages III-105 through III-108 of the 1994 Supplement.

Responses to Checklist Questions

- a.-d. The program EIR, as supplemented, found that the project area is not subject to geologic or soil-related hazards that cannot be adequately mitigated through the implementation of existing city regulations, such as the building code. No significant impacts were identified, and no mitigation measures were required. The proposed residential development would not change the locations or types of construction in the project area nor the boundaries of the project area. There would be no additional impact. No mitigation is required.
- e. The Village One Specific Plan included provisions for the project to be served by public sewers. No septic tanks or alternative wastewater systems were proposed. The proposed residential project would not change the proposed method of wastewater disposal. There would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
--------------------------------	---------------------------------------	------------------------------	-----------

VII. HAZARDS AND HAZARDOUS MATERIALS.

Would the project:

- | | | | | | |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Emit hazardous emissions or involve handling hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Be located on a site that is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e. | Be located within an airport land use plan area or, where such a plan has not been adopted, be within two miles of a public airport or public use airport, and result in a safety hazard for people residing or working in the project area? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
f. Be located within the vicinity of a private airstrip and result in a safety hazard for people residing or working in the project area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
g. Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
h. Expose people or structures to a significant risk of loss, injury, or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts associated with hazards and hazardous materials are analyzed on pages III-80 through III-94 and III-109 through III-119 of the 1994 Supplement.

Responses to Checklist Questions

- a.-c. The Village One Specific Plan does not allow any land uses that would use hazardous materials. The proposed residential development would not change land uses contemplated by the Specific Plan. There would be no impact. No mitigation is required.
- d. The Village One Specific Plan program EIR, as supplemented, found no hazardous materials were stored at or near the project site. No significant impacts were identified, and no mitigation measures were required. There would be no additional impact. No mitigation is required.
- e. The Village One Specific Plan area is not located in an airport land use plan area or within 2 miles of a public airport. There would be no impact. No mitigation is required.
- f. The Village One Specific Plan program EIR found that a private airstrip, the Eastside Mosquito Abatement District Airstrip, is located to the east of the Village One Specific Plan area. However, take-offs and landings were found to take place parallel to and outside the Specific Plan area boundaries, and flight patterns are generally situated to the east of the Specific Plan area. There would be no additional impact. No mitigation is required.
- g. Since the adoption of the Village One Specific Plan, the Modesto General Plan has been updated to include development of Village One consistent with the specific plan. City emergency plans are developed with the assumption that the Village One Specific Plan will be implemented. The proposed residential development would not change construction, land use, or other physical attributes

of the Right-of-Way Acquisition. There would be no additional impact. No mitigation is required.

- h. The project site is located in an area of the City of Modesto planned for buildout of an urban neighborhood. Approximately 50% of the project area remains undeveloped, with a covering of dry brush and vegetation. The potential for wildland fires is low, and this potential will decrease further as buildout continues. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

VIII. HYDROLOGY AND WATER QUALITY.

Would the project:

- | | | | | | |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Violate any water quality standards or waste discharge requirements? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Substantially deplete groundwater supplies or interfere substantially with groundwater recharge, resulting in a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level that would not support existing land uses or planned uses for which permits have been granted)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner that would result in substantial erosion or siltation onsite or offsite? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner that would result in flooding onsite or offsite? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e. | Create or contribute runoff water that would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| f. | Otherwise substantially degrade water quality? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

		Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
g.	Place housing within a 100-year flood hazard area, as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
h.	Place within a 100-year flood hazard area structures that would impede or redirect floodflows?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
i.	Expose people or structures to a significant risk of loss, injury, or death involving flooding, including flooding as a result of the failure of a levee or dam?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
j.	Contribute to inundation by seiche, tsunami, or mudflow?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts associated with hydrology are analyzed on pages III-109 through III-119 of the 1994 Supplement.

Responses to Checklist Questions

- a. The Village One Specific Plan program EIR did not find that residential development would violate any water quality standards or waste discharge requirements. The proposed project is consistent with the Village One Specific Plan, so there would be no additional impacts. No mitigation is required.
- b. The Village One Specific Plan program EIR found that buildout of the Village One Specific Plan area might interfere with local groundwater recharge. However, the impact was found to be less than significant because the Specific Plan area is not a major groundwater recharge area and it includes a recharge/discharge plan for disposal of stormwater runoff and recharge of groundwater. The proposed project would not change the amount of impervious surface in the Specific Plan area or the proposed storm drain facilities. There would be no additional impact. No mitigation is required.
- c.-e. The Village One Specific Plan program EIR found that development will substantially alter the existing drainage pattern of the area but, because the project will incorporate an urban storm drain system, will not result in any erosion impacts. The proposed project would not change the amount of impervious surface or the proposed storm drain facilities. There would be no additional impact. No mitigation is required.
- f. The Village One Specific Plan program EIR did not find that development would substantially degrade water quality. The proposed project would not change water use or discharge associated with the buildout of the Village One Specific Plan area. There would be no additional impact. No mitigation is required.

- g.-i. According to the Village One Specific Plan program EIR, the project site is not situated in a 100-year flood hazard area or downstream from a levee or dam. There would be no impact. No mitigation is required.
- j. The project site is located in a flat, inland area not susceptible to seiche, tsunami, or mudflow. There would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

IX. LAND USE AND PLANNING. Would the project:

- | | | | | |
|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. Physically divide an established community? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. Conflict with any applicable land use plan, policy, or regulation of an agency with jurisdiction over the project (including, but not limited to, a general plan, specific plan, local coastal program, or zoning ordinance) adopted for the purpose of avoiding or mitigating an environmental effect? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. Conflict with any applicable habitat conservation plan or natural community conservation plan? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts associated with land use and planning are analyzed on pages III-80 through III-94 of the 1994 Supplement.

Responses to Checklist Questions

- a. The proposed project would not result in any physical changes to the environment beyond those described in the Village One Specific Plan. Village One would continue to be developed as a planned community; therefore, the project would not divide an established community. There would be no impact, and no mitigation is required.
- b., c. The Village One Specific Plan has been adopted by the City of Modesto and has been incorporated into the Modesto General Plan. The proposed project would be consistent with the Village One Specific Plan. There are no other applicable land use or conservation plans for the project area. There would be no impact. No mitigation is required.

	Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
X. MINERAL RESOURCES. Would the project:				
a. Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Responses to Checklist Questions

- a., b. No known mineral resources or important recovery sites are located in the Village One Specific Plan Area. There would be no impact. No mitigation is required.

	Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
XI. NOISE. Would the project:				
c. Result in a substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e. Be located within an airport land use plan area, or, where such a plan has not been adopted, within two miles of a public airport or public use airport and expose people residing or working in the project area to excessive noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f. Be located in the vicinity of a private airstrip and expose people residing or working in the project area to excessive noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts associated with noise are analyzed on pages III-55 through III-67 of the 1994 Supplement.

Responses to Checklist Questions

- a., c. The Village One Specific Plan program EIR found that proposed residential housing in the project area would be exposed to noise levels exceeding general plan thresholds, but mitigation measures were incorporated to reduce the impact to a less-than-significant level. The proposed project would not change project-related noise-generating activities. There would be no additional impact. No mitigation is required.
- b. The Village One Specific Plan program EIR found that the buildout of Village One would not expose people to, or generate excessive, groundborne vibration or groundborne noise levels. There would be no impact. No mitigation is required.
- d. The Village One Specific Plan program EIR found that construction of the proposed project would result in a substantial temporary increase in ambient noise levels for residential housing. However, mitigation measures were incorporated into the program EIR to reduce the impact to a less-than-significant level. The proposed project would not change construction activities. There would be no additional impact. No mitigation is required.
- e. The Village One Specific Plan program EIR found that the Village One Specific Plan area is not located in an airport land use plan area or within 2 miles of a public airport. There would be no impact. No mitigation is required.
- f. The Village One Specific Plan program EIR found that a private airstrip, the Eastside Mosquito Abatement District Airstrip, is located east of the Village One Specific Plan area. However, take-offs and landings take place parallel to and outside the Specific Plan boundaries, and flight patterns are generally situated east of the project area. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

XII. POPULATION AND HOUSING. Would the project:

- | | | | | | |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Induce substantial population growth in an area, either directly (e.g., by proposing new homes and businesses) or indirectly (e.g., through extension of roads or other infrastructure)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Displace a substantial number of existing housing units, necessitating the construction of replacement housing elsewhere? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Displace a substantial number of people, necessitating the construction of replacement housing elsewhere? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on population and housing are analyzed on pages III-95 through III-99 of the 1994 Supplement.

Responses to Checklist Questions

- a.-c. The Village One Specific Plan program EIR found that buildout of the Village One Specific Plan area would not result in significant adverse impacts on population and housing units. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

XIII. PUBLIC SERVICES. Would the project:

- a. Result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities or a need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times, or other performance objectives for any of the following public services:

Fire protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Police protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Schools?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Parks?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Other public facilities?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on public services are analyzed on pages III-120 through III-158 of the 1994 Supplement.

Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that the only significant impact that buildout of the Village One Specific Plan area would have on public services would be in the areas of fire protection and law enforcement. Mitigation measures were identified in the program EIR to reduce the level of this impact to a less-than-significant level. No other significant impacts on public services were identified. The proposed project would not change the provision of public services. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
--------------------------------	---------------------------------------	------------------------------	-----------

XIV. RECREATION. Would the project:

- | | | | | |
|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. Increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. Include recreational facilities or require the construction or expansion of recreational facilities that might have an adverse physical effect on the environment? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on recreation are analyzed on pages III-120 through III-158 of the 1994 Supplement.

Responses to Checklist Questions

- a., b. No significant impacts on recreation were identified in the program EIR. The proposed project would not change the provision of parks and recreation facilities. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
--------------------------------	---------------------------------------	------------------------------	-----------

XV. TRANSPORTATION/TRAFFIC. Would the project:

- | | | | | |
|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. Cause an increase in traffic that is substantial in relation to the existing traffic load and capacity of the street system (i.e., result in a substantial increase in the number of vehicle trips, the volume-to-capacity ratio on roads, or congestion at intersections)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. Cause, either individually or cumulatively, exceedance of a LOS standard established by the county congestion management agency for designated roads or highways? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. Result in a change in air traffic patterns, including an increase in traffic levels or a change in location that results in substantial safety risks? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. Substantially increase hazards because of a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

	Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
e. Result in inadequate emergency access?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f. Result in inadequate parking capacity?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
g. Conflict with adopted policies, plans, or programs supporting alternative transportation (e.g., bus turnouts, bicycle racks)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on transportation and traffic are analyzed on pages III-40 – III-44 of the 1994 Supplement.

Responses to Checklist Questions

- a., b. The Village One Specific Plan program EIR found that buildout of the Village One Specific Plan area would cause an increase in traffic that is substantial in relation to the existing traffic load and capacity of the street system and would affect level of service at several intersections. Mitigation measures identified in the program EIR were identified to reduce impacts to a less-than-significant level for all intersections except the Briggsmore Avenue/Oakdale Avenue intersection. For that intersection, the impact was determined to be significant and not mitigable. The City of Modesto made a statement of overriding considerations for that impact at the time it certified the 1994 Supplement. The proposed project would not alter traffic patterns in the Specific Plan area or result in additional trips. There would be no additional impact. No mitigation is required.
- c. The Village One Specific Plan program EIR did not find that the buildout of the Village One Specific Plan area would result in a change in air traffic patterns. The proposed project does not include any elements that would affect air traffic patterns. There would be no impact. No mitigation is required.
- d. The Village One Specific Plan program EIR did not find that buildout of the Village One Specific Plan area included any hazardous design features or increased any incompatible uses for roads in the project area. The proposed project would not change roadway design or land uses. There would be no impact. No mitigation is required.
- e. The Village One Specific Plan program EIR did not find that buildout of the Village One Specific Plan area would result in inadequate emergency access in the Specific Plan area. The Specific Plan includes provision of adequate roadways to serve the Village One development. The proposed project would not change roadway design or land uses contained within the Specific Plan. There would be no additional impact. No mitigation is required.
- f. The Village One Specific Plan program EIR did not find that buildout of the Village One Specific Plan area would result in inadequate parking capacity in the Specific Plan area. The provision of parking, consistent with zoning

requirements for the proposed project, is included in the project design. There would be no impact. No mitigation is required.

- g. The proposed project does not include any changes related to transportation policies, and would have no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

XVI. UTILITIES AND SERVICE SYSTEMS.

Would the project:

- | | | | | | |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Exceed wastewater treatment requirements of the applicable Regional Water Quality Control Board? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effects? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Require or result in the construction of new stormwater drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effects? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Have sufficient water supplies available to serve the project from existing entitlements and resources, or would new or expanded entitlements be needed? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e. | Result in a determination by the wastewater treatment provider that serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| f. | Be served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| g. | Comply with federal, state, and local statutes and regulations related to solid waste? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on utilities and service systems are analyzed on pages III-120 through III-158 of the 1994 Supplement.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

XVII. MANDATORY FINDINGS OF SIGNIFICANCE.

- | | | | | | |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Does the project have impacts that are individually limited but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.) | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Does the project have environmental effects that will cause substantial adverse effects on human beings, either directly or indirectly? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Cumulative impacts are analyzed on page III-161 of the 1994 Supplement.

Responses to Checklist Questions

- a. As described above, the proposed project would not result in any significant impacts on the environment over and above those associated with implementation of the Village One Specific Plan and as analyzed in the Village One Specific Plan program EIR.
- b. As described above, the proposed project would not result in any significant impacts, either on a project or on cumulative level, over and above those associated with implementation of the Village One Specific Plan and as analyzed in the Village One Specific Plan program EIR.
- c. As described above, the proposed project would not result in any significant impacts affecting humans over and above those associated with implementation of the Village One Specific Plan and as analyzed in the Village One Specific Plan program EIR.

Responses to Checklist Questions

- a. The City provides sewer services to the Village One area. All wastewater would be directed to city wastewater treatment facilities. No wastewater discharges would occur in the project area. The proposed project would not increase the amount of wastewater that will be generated at buildout of the Specific Plan area. There would be no additional impact. No mitigation is required.
- b., e. The Village One Specific Plan program EIR discusses the changes and new facilities that will be needed to accommodate buildout of the Village One Specific Plan area. The EIR found that, with mitigation, there would be no significant impact on water or wastewater infrastructure. There would be no additional impact as a result of the proposed project. No mitigation is required.
- c. The Village One Specific Plan program EIR discusses the changes and new facilities that will be needed in order to accommodate buildout of the Village One Specific Plan area. The EIR found that, with mitigation, there would be no significant impact on stormwater drainage facilities. An update to the Storm Drainage Master Plan has been prepared and is under consideration by the City. An addendum to the Village One program EIR for the Storm Drainage Master Plan has also been prepared and is under consideration by the City. The project would not result in any additional impacts or the need for any additional mitigation beyond that assessed in the Addendum to the Village One Program EIR for the Storm Drainage Master Plan.
- d. The Village One Specific Plan program EIR found that, with mitigation, the effects of buildout of the Village One Specific Plan area on water supply would be less than significant. There would be no additional impact resulting from the proposed project. No mitigation is required.
- f., g. The Village One Specific Plan program EIR found that the area's landfills have sufficient permitted capacity to accommodate the project's solid waste disposal needs. The proposed project would not result in any physical changes in the environment or the generation of any additional solid waste. There would be no impact. No mitigation is required.

V. MITIGATION APPLIED TO PROJECT

The following mitigation measures developed in the 1994 Village One Specific Plan Supplement to the Program EIR are appropriate to the project and will be incorporated into the project. Therefore, the environmental effects of the project were covered by the program EIR.

1. "All deeds for lots sold in this subdivision shall contain the following statement:

"This lot is located near existing agricultural operations. Residents may be subjected to customary and accepted farming practices that produce noise, dust, smoke and other impacts. The grantee accepts the potential impacts of customary farming practices, which may include the application and use of various, chemicals through spraying, spreading or other customary means in accordance with applicable state and federal regulations regarding such applications. The grantee also acknowledges the need to avoid activities that conflict with nearby farm uses."

2. The following statement shall be placed in all Precise Plans for Residential Development:

Prior to the Final Inspection, Building Inspection Division shall verify that all fireplaces and wood stoves in residential units are equipped to meet the performance and emissions standards set forth in Part 60, Title 40, Subpart AAA Code of Federal Regulations, February 26, 1988.

3. Noise mitigation for residential dwellings is required along the following streets up to the indicated distance:

Without acoustical treatment, noise levels inside proposed residential housing along the following project area major streets would exceed 45 dBA, the City's General Plan standard. The street segments and distances in feet from centerline these impacts would occur are:

Floyd Avenue (from Oakdale Road to Roselle Avenue): 106 ft.

Oakdale Road (from Sylvan Avenue to Floyd Avenue): 214 ft.

Source: Brown-Buntin Associates Noise Study, April 1993

4. "Construction noise is regulated by the City's Noise Ordinance, Section 4.9 – 103. Construction noise is generally permitted during the hours of 7:00 am to 9:00 pm. To avoid complaints from nearby residents, and possible citations, the full text of the ordinance should be reviewed by builders prior to construction. City construction projects will be monitored by Construction Inspection for conformance with the City's Noise Ordinance."

5. During construction activities, Building Inspection Division shall verify that contractors observe the requirements of City of Modesto Standard Specification 2.07(A)(5), Dust Control, and when necessary, Regulation VIII of the San Joaquin Valley Unified Air Pollution Control District to control the generation of PM 10 from construction related dust and emissions.

July 25, 2003

INTRODUCTION

Swainson's Hawk, *Buteo swainsoni*, is a species of large hawk which nests in the Central Valley of California. It is a California state listed threatened species and thus it is protected, as is its nesting and foraging habitat. The large Village One development in Modesto, California has been divided into 35 "Precise Plan Areas". An earlier study had identified, in general terms, possible Swainson's Hawk foraging habitat within this development. This study was undertaken to assess the foraging habitat for Swainson's Hawk in four of the Precise Plan Areas (2, 15, 16, and 17). Swainson's Hawks forage for food in a prescribed manner. As is typical of a number of other large hawks, they forage during the daylight hours by soaring high above the ground and watching for suitable prey (mostly small mammals such as mice and ground squirrels, but also large insects like grasshoppers). Once prey is spotted the bird dives to the ground to capture it. Thus suitable foraging habitat must be relatively clear of high vegetation for two reasons: to allow the hawk to see the prey, and to allow the hawk to swoop down upon it without hitting branches or other high vegetation. Thus, open fields and low growing croplands are suitable but orchards, vineyards, and tall crops (mature corn) are not. Corn fields thus present different situations at different stages. Until the corn plants exceed a certain height (1-2 feet) the fields are suitable for foraging. Taller than that, they are not, but once cut down, they are suitable again. Since the Swainson's Hawk is only present in the Central Valley during Spring and Summer and nesting occurs predominantly from April through July, it is the condition of the fields at that time which is most important.

QUALIFICATIONS

My Curriculum Vita (resume) is attached. In summary, I have a Ph.D. in Zoology with over 30 years of university teaching experience in ecology and ornithology and appropriate research experience in each including conducting numerous wildlife surveys in Stanislaus County. I am also an ardent bird watcher who has spent many hours observing Swainson's Hawks both in California and throughout its range in the United States.

FIELD WORK

I visited the area on July 21 and 25, 2003 to both assess Swainson's Hawk foraging habitat and to determine the extent of that habitat individually, as well as collectively, in each of the four Precise Plan Areas.

DESCRIPTION OF THE AREA(S)

The four Precise Plan Areas are located at the western end of Village One, areas 2 and 17 ordering Oakdale Road to the west and extending from Sylvan Avenue on the north (area 2) to Floyd Avenue on the south (area 17). Areas 16 and 15 continue east from the eastern edge of areas 2 and 17 to the eastern boundary of Ustach Middle School, occupying approximately the middle third of the land between Sylvan and Floyd

Swainson's Hawk Foraging Habitat Survey - Precise Plan Areas 2, 15, 16, 17 page 2

Avenues. Table 1 indicates the acreage of each of the areas, the amount of acreage which is Swainson's Hawk foraging habitat, and the proportion of the area which is Swainson's Hawk foraging habitat. Overall, the four Precise Plan Areas include just over 176 acres of which about 116 acres (66%) is potential Swainson's Hawk foraging habitat. Below, I will discuss the specifics of each of the areas, including the apparent "quality" of the foraging habitat.

Table 1 - Total Acreage and Swainson's Hawk Foraging Habitat for Precise Plan Areas 2, 15, 16, and 17

Precise Plan Area	Total Acreage	Foraging Acreage*	% Foraging Acreage
2	45.8	23.6	52%
15	46.6	26.6	57%
16	33.5	28.2	84%
17	50.3	37.8	75%
Total	176.2	116.2	66%

* Foraging acreage includes fallow fields and low crop growth.

Precise Plan Area 2

This area contains the least amount of foraging acreage. The non-foraging areas include a block of commercial establishments at the corner of Sylvan Avenue and Oakdale Road, house lots further east along Sylvan Avenue and south along Oakdale Road, and a small vineyard (@3.3 acres) on Oakdale Road. All of the foraging area is fallow land at the present time with low scrubby grasses.

Precise Plan Area 15

This area has the next least amount of foraging acreage, due mainly to the presence of Ustach Middle School (@15.5 acres), but there is also a vineyard (@4.3 acres) to the west of the school. The potential foraging habitat includes the area to the north of the school (@6 acres) which is currently being developed as a city park. The rest of the area is currently planted in corn with the area north of the vineyard about 2 ½ feet tall (@13 acres) and that to the south of the vineyard about 6 inches tall (@ 13 acres).

Swainson's Hawk Foraging Habitat Survey - Precise Plan Areas 2, 15, 16, 17 page 3

Precise Plan Area 16

Just to the west of area 15, this is the only one of the four areas that does not have any human development at the present time. It is entirely agricultural with a vineyard (@5.3 acres) being the only non foraging habitat, and the rest of the land planted in corn.

Precise Plan Area 17

The northern portion of this parcel is developed as a house, outbuildings, yard, and garden (@12.5 acres). The rest of the land is recently disked fallow cropland which is Swainson's Hawk foraging habitat.

ASSESSMENT OF THE SWAINSON'S HAWK FORAGING HABITAT

Simply presenting the numbers above does not give an adequate picture of the value of this land as foraging habitat for the Swainson's Hawk. On the one hand, I have seen Swainson's Hawks in the vicinity of this land engaged in foraging behavior in the past so this land has probably been used. On the other hand, I would assess the quality of this land as Swainson's Hawk foraging habitat as low for the following reasons.

First, the preferred food of this hawk is small mammals, the predominant one in this area being the California ground squirrel. This species is present in these areas in low numbers but only on higher ground (such as the dirt track running from Hillglen Avenue south on the west side of Ustach Middle School to the south end of the school and then turning east as the southern boundary of areas 15 and 16) because their burrows are destroyed in the lower areas that are plowed and flood irrigated. In less intensively cultivated areas, ground squirrels occur at much higher densities.

Second, since this land is surrounded by urban areas including housing developments, schools, and commercial establishments with a lot of automobile traffic on the roads and people walking through the area, the hawks are much more likely to be disturbed while foraging and feeding which may drastically reduce the foraging efficiency for the species. Such reductions in foraging efficiency have been shown to result in nest failure or nest abandonment by the parents.

Finally, the close proximity to many humans and their activities establishes the possibility of inadvertent poisoning of the hawks if people are intentionally or even unintentionally introducing toxic substances into the food chain. Poisons put out for rats, mice, and squirrels have been shown to be ingested by raptors causing illness, sterility, and/or death (this was one of the major causes of the decline in California condors in the 1980's). Substances like antifreeze, while not meant to kill anything, may also be ingested by the hawks be fatal.

DILLON
PAGE 02

Swainson's Hawk Foraging Habitat Survey - Precise Plan Areas 2, 15, 16, 17 page 4

Thus, in summary, although almost two-thirds of the acreage of these four Precise Plan Areas is technically foraging habitat for the Swainson's Hawk at one time or another, the quality of this foraging habitat is so low that its loss to the hawks will have no significant impact on the species' population. I do not think that mitigation is called for.

Sincerely,

Walter Fordoff, Ph.D.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-579**

A RESOLUTION FINDING THAT THE FOLLOWING PROJECT IS WITHIN THE SCOPE OF THE VILLAGE ONE PROGRAM ENVIRONMENTAL IMPACT REPORT (SCH NO. 90020181), AS AMENDED BY THE SUPPLEMENTAL EIR: PRECISE PLAN FOR AREA NO. 15 AND CONCURRENT REZONING FROM SP-H TO SP-O, PROPERTY LOCATED AT THE NORTHWEST CORNER OF KODIAK DRIVE AND BEAR CUB LANE IN THE VILLAGE ONE SPECIFIC PLAN AREA (RONALD L. LaFORCE ET AL., MODESTO VENTURE 168, AND CHRIS & PAULINE GIANULIAS)

WHEREAS, the Modesto City Council has adopted Resolution No. 90-757 certifying that the Village One Final Environmental Impact Report (“EIR”) (State Clearing House No. 90020181) is complete and adequate pursuant to Section 15090 of the California Environmental Quality Act (“CEQA”) Guidelines, and

WHEREAS, the Modesto City Council has adopted Resolution No. 94-297 which certified the Final Supplemental EIR for Village One; thus, the 1990 Village One Program EIR has been superseded and updated by the 1994 Supplemental EIR, adopted on May 24, 1994, which Supplemental EIR incorporates by reference technical studies and background material from the 1990 Program EIR, and

WHEREAS, an application has been filed by Ronald L. LaForce et al., Modesto Venture 168, and Chris & Pauline Gianulias for a Precise Plan for Area No. 15, property located at the northwest corner of Kodaik Drive and Bear Cub Lane, and

WHEREAS, the applicant has applied for approval of a rezoning from Specific Plan-Holding Zone, SP-H, to a Specific Plan-Overlay, SP-O, and

WHEREAS, the City’s Community and Economic Development Department reviewed the proposed project to determine if said project might have a significant effect on the environment, and

WHEREAS, City staff has prepared an Initial Study, Environmental Assessment No. EA/C&ED 2003-78, which concluded that the proposed project is within the scope of the Village One Program EIR (SCH No. 90020181), as amended by the Village One Supplemental EIR, and

WHEREAS, the Planning Commission, by Resolution No. 2003-52, adopted on September 8, 2003, and City staff, by a report dated October 1, 2003, from the Community and Economic Development Department, recommended to the City Council approval of Precise Plan No. 15 of the Village One Specific Plan, and recommended approval of an Amendment to Section 11-3-9 of the Zoning Map to rezone from Specific Plan-Holding Zone, SP-H to Specific Plan-Overlay, SP-O, property located at the northwest corner of Kodiak Drive and Bear Cub Lane, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on October 28, 2003, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered Environmental Assessment No. EA/C&ED No. 2003-78, entitled "Projects Within the Scope of the Village One Specific Plan Program Environmental Impact Report for Precise Plans 2, 15, 16, & 17," for the proposed project, and the Council hereby makes the following findings:

1. The proposed Precise Plan and rezoning are consistent with the Village One Specific Plan and Modesto Urban Area General Plan.
2. There are no substantial changes proposed in the project which result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and, therefore, no major revisions to the Village One Program EIR, as amended by the 1994 Supplemental EIR, are required.

3. No substantial changes have occurred with respect to the circumstances under which the project is undertaken which will result in new significant environmental effects or a substantial increase in the severity of previously-identified significant effects and, therefore, no major revisions to the Village One Program EIR, as amended by the 1994 Supplemental EIR, are required.
4. There is no new information of substantial importance which was not known and could not have been known with the exercise of reasonable diligence when the Village One Program EIR, as amended by the 1994 Supplemental EIR, was adopted which shows any of the following:
 - a. one or more significant effects which is not discussed in the Village One Program EIR, as amended by the 1994 Supplemental EIR; or,
 - b. significant effects which were previously examined will be substantially more severe than previously shown; or,
 - c. previously infeasible mitigation measures or alternatives are now feasible and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative; or,
 - d. mitigation measures or alternatives which are considerably different from those analyzed in the Village One Program EIR, as amended by the 1994 Supplemental EIR, would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative.
5. The Initial Study, Environmental Assessment EA/C&ED 2003-78, provides the substantial evidence to support findings 2-4 noted above.

BE IT FURTHER RESOLVED that a copy of said Environmental Assessment No. EA/C&ED No. 2003-78, entitled "Projects Within the Scope of the Village One Specific Plan Program Environmental Impact Report for Precise Plans 2, 15, 16, & 17," is attached hereto as Exhibit "A", and incorporated herein by this reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of October, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers Conrad, Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

NOES: Councilmembers None

ABSENT: Councilmembers None

WRITTEN CHECKLIST

EA/C&ED No. 2003-78

I. PURPOSE

On September 11, 1990, the Modesto City Council certified a Final Program Environmental Impact Report for the Village One Specific Plan (SCH# 90020181). This Program EIR analyzed the impacts of build-out of the Village One Specific Plan, which includes the area in which this project is proposed.

Subsequently, on May 24, 1994, the City Council certified a Supplement to the Village One Program EIR. This supplement updated and modified the original EIR.

Section 15182 of the CEQA Guidelines allows the approval of subsequent residential projects within the scope of the Project EIR without further environmental review, provided the following findings are made:

- (1) Major revisions to the Village One Program EIR as amended by the 1994 Supplement, are not required because the project will not involve new significant environmental effects or increase severity of effects previously identified, and
- (2) Major revisions to the Village One Program EIR as amended by the 1994 Supplement, are not required because no substantial changes to circumstances have occurred that involve new significant environmental effects or increase severity of effects previously identified, and
- (3) No new information of substantial importance that was not known has become available that shows:
 - a. one or more significant effects is not discussed in the Village One Program EIR as amended by the 1994 Supplement,
 - b. identified significant effects will be more severe,
 - c. previously infeasible mitigation measures are now feasible,
 - d. project proponents have declined to adopt mitigation measures that would substantially reduce significant effects.

The purpose of this initial study is to provide the substantial evidence to support the above findings.

The 1994 Supplemental EIR that amended and superseded the 1990 Program EIR is the document reviewed for projects within the Village One Specific Plan area. A summary of significant impacts and their mitigation measures from the 1994 Supplemental EIR is attached as Exhibit "A." Where appropriate those feasible mitigation measures developed in the Supplement to the program EIR shall be incorporated into the proposed project.

II. PROJECT INFORMATION

1. **Project Title:** Precise Plan Areas 2, 15, 16, & 17
2. **Lead Agency Name and Address:** City of Modesto
3. **Contact Person and Phone Number:** Brad Wall, Associate Planner
Modesto Community & Economic Development
Department
(209) 577-5267
4. **Project Location:** Between Sylvan and Floyd Avenues east of
Oakdale Road - Modesto, California
5. **Project Sponsor's Name and Address:** Ronald L. LaForce (et al)
P.O. Box 814
Modesto CA 95353
6. **General Plan Designation:** The General Plan land use designation for the
project site is: Village Residential (VR). This
designation allows the zoning & land uses
described within the proposed Precise Plans.
7. **Zoning:** Specific Plan Holding (SP-H)
8. **Description of Project:** Pursuant to the adopted Village One Specific Plan, the project
applicant proposes a total of approximately 625 single-family lots within the four Precise
Plans (see attached diagram).
9. **Surrounding Land Uses and Setting:** The Village One Specific Plan Area is over half
built, as planned and approved by the 1990 Village One Specific Plan. The project area is
surrounded largely by undeveloped land, which is designated by the Specific Plan for

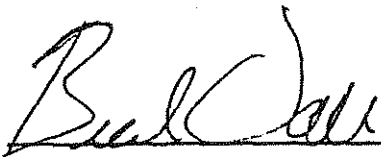

residential development. A mix of residential and commercial zoning and land surround the project site.

10. Other Public Agencies whose Approval Is Required: None.

III. DETERMINATION:

Based on the analysis contained in this document, staff finds that pursuant to Guidelines Section 15182 the following is true for the proposed project:

- (1) Major revisions to the Village One Program EIR as amended by the 1994 Supplement, are not required because the project will not involve new significant environmental effects or increase severity of effects previously identified, and
- (2) Major revisions to the Village One Program EIR as amended by the 1994 Supplement, are not required because no substantial changes to circumstances have occurred that involve new significant environmental effects or increase severity of effects previously identified, and
- (3) No new information of substantial importance that was not known has become available that shows:
 - a. one or more significant effects is not discussed in the Village One Program EIR as amended by the 1994 Supplement,
 - b. identified significant effects will be more severe,
 - c. previously infeasible mitigation measures are now feasible,
 - d. project proponents have declined to adopt mitigation measures that would substantially reduce significant effects.

Project Manager

August 22, 2003

Date

IV. PROJECT EVALUATION:

The following written Checklist based on Appendix G of the CEQA Guidelines serves to document the evaluation of the site and activity of the proposed project pursuant to CEQA Guidelines Section 15168 (c) (4) to determine whether the environmental effects of the operation were covered in the Program EIR.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
I. AESTHETICS. Would the project:				
a. Have a substantial adverse effect on a scenic vista?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings along a scenic highway?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c. Substantially degrade the existing visual character or quality of the site and its surroundings?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Create a new source of substantial light or glare that would adversely affect daytime or nighttime views in the area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Aesthetic and visual impacts are analyzed on pages III-100 through III-101 of the 1994 Supplement.

Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that as the Specific Plan area is developed, it will eliminate views of the valley and the distant mountains from adjacent areas and reduce the area's visual open space. However, the program EIR found the effects of buildout of Village One on scenic vistas to be less than significant because views from the project area are minimal. The proposed residential development would not change the extent or nature of construction in the Specific Plan area, or cause any other changes in the project area. Impacts on scenic vistas would therefore remain the same as those identified in the program EIR. There would be no additional impact. No mitigation is required.
- b. The Village One Specific Plan program EIR found that there are no scenic resources in the project area, and that development within the Specific Plan area would therefore not result in significant impacts on scenic resources. This

finding would not be affected by the proposed residential projects. There would be no impact. No mitigation is required.

- c. The Village One Specific Plan program EIR found that the development within the Specific Plan area would have a less-than-significant impact on the visual character of the area. The proposed residential development would not change the design or layout of the development proposed within the Village One Specific Plan. For this reason, impacts on the visual character of the area would remain the same as those identified in the program EIR. There would be no additional impact. No mitigation is required.
- d. The proposed residential development is consistent with the Village One Specific Plan. For this reason, impacts associated with additional light and glare would remain the same as those identified in the program EIR. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

II. AGRICULTURAL RESOURCES. In determining whether impacts on agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Department of Conservation. Would the project:

- | | | | | | |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Conflict with existing zoning for agricultural use or conflict with a Williamson Act contract? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Involve other changes in the existing environment that, due to their location or nature, could result in conversion of Farmland to non-agricultural use? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on agricultural resources are analyzed on pages III-80 through III-94 of the 1994 Supplement.

Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that land designated as Prime Farmland would be lost as a result of development in the Village One Specific Plan area. This impact was determined to be significant and not mitigable. The proposed residential development would not affect this finding because the project area would remain the same. There would be no additional impact. No mitigation is required.
- b. The Village One Specific Plan program EIR presented information showing that any Williamson Act contracts in the Village One Specific Plan area would be automatically cancelled on annexation of the land to the City of Modesto, which has occurred, or would expire within 10 years of the time the original program EIR was prepared. The last Williamson Act contract covering land in the Village One Specific Plan area expired in 2001. There are no lands in the project area under Williamson Act contract. The Village One Specific Plan area has also been rezoned consistent with the specific plan, and no lands in the project area are now zoned for agricultural use. There would be no additional impact. No mitigation is required.
- c. The Village One Specific Plan program EIR identified a potential land use conflict between new residential uses in the specific plan area and adjacent agricultural uses. Such conflicts can lead to conversion of adjacent farmlands to other uses. The program EIR proposed mitigation measures for this potential impact that would reduce the impact's significance, although the EIR noted that the mitigation measure might not fully mitigate the impact. No additional mitigation measures are available for this impact. This finding would not be affected by the proposed project because the project area and proposed land uses would remain the same. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

III. AIR QUALITY. When available, the significance criteria established by the applicable air quality management or air pollution control district may be relied upon to make the following determinations. Would the project:

- | | | | | | |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Conflict with or obstruct implementation of the applicable air quality plan? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Violate any air quality standard or contribute substantially to an existing or projected air quality violation? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
c. Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is a nonattainment area for an applicable federal or state ambient air quality standard (including releasing emissions that exceed quantitative thresholds for ozone precursors)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Expose sensitive receptors to substantial pollutant concentrations?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e. Create objectionable odors affecting a substantial number of people?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on air quality are analyzed on pages III-45 through III-54 of the 1994 Supplement.

Responses to Checklist Questions

- a. / b. The Village One Specific Plan program EIR found that air pollution from project-related construction traffic and fireplaces & wood stoves in planned residential areas would violate air quality standards and contribute to an existing air quality violation. Construction traffic emissions would contribute to violation of the state and federal 8-hour carbon monoxide (CO) and particulate matter (PM10) standards and the federal ozone standard in the Modesto Urban Area and the San Joaquin Valley Air Basin. Urban traffic pollution would contribute to violations of the state ozone, CO, and PM10 standards in the Modesto Urban Area and San Joaquin Valley Air Basin. Residential pollution would contribute to violations of the pollutant standard index in the Modesto Urban Area. Partial mitigation for these impacts is included in the program EIR (Mitigation Measures 3–5), and the City of Modesto adopted a statement of overriding consideration for each impact. The proposed residential projects would not change the amount of development and construction in the project area, so trips generated by the project would not be affected and the types of land uses would not change. There would be no additional impact. No mitigation is required.
- c. The Village One Specific Plan program EIR found that air pollutant emissions associated with traffic at buildout of Village One would exacerbate the existing ozone, PM10, and CO violations in the Modesto area and cause a significant cumulative impact. Partial mitigation for these emissions is included in the program EIR (Mitigation Measures 4.5.3[a] and 4.5.3[b]), and the City of Modesto made a statement of overriding consideration for each impact. The proposed residential development would not change the amount of traffic associated with buildout of Village One or the types of land uses, so trips

generated by the project would not be affected. There would be no additional impact. No mitigation is required.

- d. The Village One Specific Plan program EIR found that PM10 generated during construction would aggravate the respiratory problems of people living and working nearby, therefore exposing sensitive receptors in the area to pollutant concentrations and causing a significant impact. However, the program EIR outlines mitigation measures that will be implemented to reduce the impact to an acceptable level (Mitigation Measure 40). The proposed residential development would not change the level of construction emissions. There would be no additional impact. No additional mitigation is required.
- e. The proposed residential development would not create odors. There would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

IV. BIOLOGICAL RESOURCES. Would the project:

- | | | | | | |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special-status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marshes, vernal pools, coastal wetlands, etc.) through direct removal, filling, hydrological interruption, or other means? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

	Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
e. Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f. Conflict with the provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on biological resources are analyzed on pages III-68 through III-79 of the 1994 Supplement.

Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that the buildout could result in the loss of foraging habitat for Swainson's Hawk, a state-listed threatened species, but found that mitigation measures identified in the program EIR would reduce the impact to a less-than-significant level. The project applicant has hired a qualified biologist to survey the project site in order to determine whether the project site contains foraging habitat for the Swainson's Hawk. The biologist's report is attached. There would be no additional impact. No additional mitigation is required.
- b. The Village One Specific Plan program EIR did not find that any riparian habitat or other designated sensitive natural community was present in the project area, and so found that the project would have a less-than-significant impact. The proposed residential development would not change the boundaries of the Specific Plan area. There would be no impact. No mitigation is required.
- c. The Village One Specific Plan program EIR found that buildout of the Village One Specific Plan area would result in the loss of lands that might be classified as wetlands by the U.S. Army Corps of Engineers but that, with mitigation, the impact would be less than significant. The proposed residential development would not change the Specific Plan area boundaries or the areas that would be disturbed. There would be no additional impact. No mitigation is required.
- d. The Village One Specific Plan program EIR did not identify any migratory corridors in the project area, nor did it find that the project would interfere with the movement of any species. The proposed residential development would not change the Specific Plan area boundaries. There would be no impact. No mitigation is required.
- e. / f. No local biological resource protection policies, ordinances, habitat conservation plans, or natural community conservation plans apply to the Village One Specific Plan area. There would be no impact. No mitigation is required.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
V. CULTURAL RESOURCES. Would the project:				
a. Cause a substantial adverse change in the significance of a historical resource as defined in Section 15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Cause a substantial adverse change in the significance of an archaeological resource pursuant to Section 15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c. Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Disturb any human remains, including those interred outside of formal cemeteries?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Responses to Checklist Questions

- a.-d. Impacts on cultural resources resulting from the buildout of Village One (e.g., from construction of associated infrastructure) are addressed in the Opportunities/Constraints Report prepared for the Modesto Planning Commission (December 1, 1989). The report concluded that there are no known historic, archaeological, or paleontological resources in the Village One Specific Plan area. Based on the results of this report, (Cultural and Historic Resources Report, page 3) it was determined that the likelihood that the proposed residential development would change or disturb human remains or significant historic, archaeological, or paleontological resources was low.

The proposed project would not change the locations or types of construction in the project area nor the boundaries of the project area. Development of the proposed project will not result in effects on scattered existing structures. A Cultural Resources Assessment was prepared to determine if any of these affected structures are considered historic resources. The Cultural Resources Assessment is attached to this document as Appendix A. No historic structures are located within the project area boundaries. Therefore, no mitigation measures are necessary.

Since no archaeological, or paleontological resources were found in the previous document to be located in the project area, and since the proposed project would not have a significant impact on historic structures, there would be no impact. No mitigation is required.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
VI. GEOLOGY AND SOILS. Would the project:				
a. Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving:				
1. Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2. Strong seismic groundshaking?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3. Seismic-related ground failure, including liquefaction?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4. Landslides?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Result in substantial soil erosion or the loss of topsoil?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c. Be located on a geologic unit or soil that is unstable or that would become unstable as a result of the project and potentially result in an onsite or offsite landslide, lateral spreading, subsidence, liquefaction, or collapse?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e. Have soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems in areas where sewers are not available for the disposal of wastewater?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts associated with geology and soils are analyzed on pages III-105 through III-108 of the 1994 Supplement.

Responses to Checklist Questions

- a.-d. The program EIR, as supplemented, found that the project area is not subject to geologic or soil-related hazards that cannot be adequately mitigated through the implementation of existing city regulations, such as the building code. No significant impacts were identified, and no mitigation measures were required. The proposed residential development would not change the locations or types of construction in the project area nor the boundaries of the project area. There would be no additional impact. No mitigation is required.
- e. The Village One Specific Plan included provisions for the project to be served by public sewers. No septic tanks or alternative wastewater systems were proposed. The proposed residential project would not change the proposed method of wastewater disposal. There would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

VII. HAZARDS AND HAZARDOUS MATERIALS.

Would the project:

- | | | | | | |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Emit hazardous emissions or involve handling hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Be located on a site that is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e. | Be located within an airport land use plan area or, where such a plan has not been adopted, be within two miles of a public airport or public use airport, and result in a safety hazard for people residing or working in the project area? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

		Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
f.	Be located within the vicinity of a private airstrip and result in a safety hazard for people residing or working in the project area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
g.	Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
h.	Expose people or structures to a significant risk of loss, injury, or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts associated with hazards and hazardous materials are analyzed on pages III-80 through III-94 and III-109 through III-119 of the 1994 Supplement.

Responses to Checklist Questions

- a.-c. The Village One Specific Plan does not allow any land uses that would use hazardous materials. The proposed residential development would not change land uses contemplated by the Specific Plan. There would be no impact. No mitigation is required.
- d. The Village One Specific Plan program EIR, as supplemented, found no hazardous materials were stored at or near the project site. No significant impacts were identified, and no mitigation measures were required. There would be no additional impact. No mitigation is required.
- e. The Village One Specific Plan area is not located in an airport land use plan area or within 2 miles of a public airport. There would be no impact. No mitigation is required.
- f. The Village One Specific Plan program EIR found that a private airstrip, the Eastside Mosquito Abatement District Airstrip, is located to the east of the Village One Specific Plan area. However, take-offs and landings were found to take place parallel to and outside the Specific Plan area boundaries, and flight patterns are generally situated to the east of the Specific Plan area. There would be no additional impact. No mitigation is required.
- g. Since the adoption of the Village One Specific Plan, the Modesto General Plan has been updated to include development of Village One consistent with the specific plan. City emergency plans are developed with the assumption that the Village One Specific Plan will be implemented. The proposed residential development would not change construction, land use, or other physical attributes

of the Right-of-Way Acquisition. There would be no additional impact. No mitigation is required.

- h. The project site is located in an area of the City of Modesto planned for buildout of an urban neighborhood. Approximately 50% of the project area remains undeveloped, with a covering of dry brush and vegetation. The potential for wildland fires is low, and this potential will decrease further as buildout continues. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

VIII. HYDROLOGY AND WATER QUALITY.

Would the project:

- | | | | | | |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Violate any water quality standards or waste discharge requirements? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Substantially deplete groundwater supplies or interfere substantially with groundwater recharge, resulting in a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level that would not support existing land uses or planned uses for which permits have been granted)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner that would result in substantial erosion or siltation onsite or offsite? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner that would result in flooding onsite or offsite? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e. | Create or contribute runoff water that would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| f. | Otherwise substantially degrade water quality? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

	Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
g. Place housing within a 100-year flood hazard area, as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
h. Place within a 100-year flood hazard area structures that would impede or redirect floodflows?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
i. Expose people or structures to a significant risk of loss, injury, or death involving flooding, including flooding as a result of the failure of a levee or dam?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
j. Contribute to inundation by seiche, tsunami, or mudflow?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts associated with hydrology are analyzed on pages III-109 through III-119 of the 1994 Supplement.

Responses to Checklist Questions

- a. The Village One Specific Plan program EIR did not find that residential development would violate any water quality standards or waste discharge requirements. The proposed project is consistent with the Village One Specific Plan, so there would be no additional impacts. No mitigation is required.
- b. The Village One Specific Plan program EIR found that buildout of the Village One Specific Plan area might interfere with local groundwater recharge. However, the impact was found to be less than significant because the Specific Plan area is not a major groundwater recharge area and it includes a recharge/discharge plan for disposal of stormwater runoff and recharge of groundwater. The proposed project would not change the amount of impervious surface in the Specific Plan area or the proposed storm drain facilities. There would be no additional impact. No mitigation is required.
- c.-e. The Village One Specific Plan program EIR found that development will substantially alter the existing drainage pattern of the area but, because the project will incorporate an urban storm drain system, will not result in any erosion impacts. The proposed project would not change the amount of impervious surface or the proposed storm drain facilities. There would be no additional impact. No mitigation is required.
- f. The Village One Specific Plan program EIR did not find that development would substantially degrade water quality. The proposed project would not change water use or discharge associated with the buildout of the Village One Specific Plan area. There would be no additional impact. No mitigation is required.

- g.-i. According to the Village One Specific Plan program EIR, the project site is not situated in a 100-year flood hazard area or downstream from a levee or dam. There would be no impact. No mitigation is required.
- j. The project site is located in a flat, inland area not susceptible to seiche, tsunami, or mudflow. There would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

IX. LAND USE AND PLANNING. Would the project:

- | | | | | |
|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. Physically divide an established community? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. Conflict with any applicable land use plan, policy, or regulation of an agency with jurisdiction over the project (including, but not limited to, a general plan, specific plan, local coastal program, or zoning ordinance) adopted for the purpose of avoiding or mitigating an environmental effect? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. Conflict with any applicable habitat conservation plan or natural community conservation plan? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts associated with land use and planning are analyzed on pages III-80 through III-94 of the 1994 Supplement.

Responses to Checklist Questions

- a. The proposed project would not result in any physical changes to the environment beyond those described in the Village One Specific Plan. Village One would continue to be developed as a planned community; therefore, the project would not divide an established community. There would be no impact, and no mitigation is required.
- b., c. The Village One Specific Plan has been adopted by the City of Modesto and has been incorporated into the Modesto General Plan. The proposed project would be consistent with the Village One Specific Plan. There are no other applicable land use or conservation plans for the project area. There would be no impact. No mitigation is required.

		Potentially Significant Impact	Less than Significant with Mitigation	Less-than- Significant Impact	No Impact
X. MINERAL RESOURCES.	Would the project:				
a.	Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b.	Result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Responses to Checklist Questions

- a., b. No known mineral resources or important recovery sites are located in the Village One Specific Plan Area. There would be no impact. No mitigation is required.

		Potentially Significant Impact	Less than Significant with Mitigation	Less-than- Significant Impact	No Impact
XI. NOISE.	Would the project:				
c.	Result in a substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d.	Result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e.	Be located within an airport land use plan area, or, where such a plan has not been adopted, within two miles of a public airport or public use airport and expose people residing or working in the project area to excessive noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f.	Be located in the vicinity of a private airstrip and expose people residing or working in the project area to excessive noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts associated with noise are analyzed on pages III-55 through III-67 of the 1994 Supplement.

Responses to Checklist Questions

- a., c. The Village One Specific Plan program EIR found that proposed residential housing in the project area would be exposed to noise levels exceeding general plan thresholds, but mitigation measures were incorporated to reduce the impact to a less-than-significant level. The proposed project would not change project-related noise-generating activities. There would be no additional impact. No mitigation is required.
- b. The Village One Specific Plan program EIR found that the buildout of Village One would not expose people to, or generate excessive, groundborne vibration or groundborne noise levels. There would be no impact. No mitigation is required.
- d. The Village One Specific Plan program EIR found that construction of the proposed project would result in a substantial temporary increase in ambient noise levels for residential housing. However, mitigation measures were incorporated into the program EIR to reduce the impact to a less-than-significant level. The proposed project would not change construction activities. There would be no additional impact. No mitigation is required.
- e. The Village One Specific Plan program EIR found that the Village One Specific Plan area is not located in an airport land use plan area or within 2 miles of a public airport. There would be no impact. No mitigation is required.
- f. The Village One Specific Plan program EIR found that a private airstrip, the Eastside Mosquito Abatement District Airstrip, is located east of the Village One Specific Plan area. However, take-offs and landings take place parallel to and outside the Specific Plan boundaries, and flight patterns are generally situated east of the project area. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

XII. POPULATION AND HOUSING. Would the project:

- | | | | | | |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Induce substantial population growth in an area, either directly (e.g., by proposing new homes and businesses) or indirectly (e.g., through extension of roads or other infrastructure)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Displace a substantial number of existing housing units, necessitating the construction of replacement housing elsewhere? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Displace a substantial number of people, necessitating the construction of replacement housing elsewhere? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on population and housing are analyzed on pages III-95 through III-99 of the 1994 Supplement.

Responses to Checklist Questions

- a.-c. The Village One Specific Plan program EIR found that buildout of the Village One Specific Plan area would not result in significant adverse impacts on population and housing units. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

XIII. PUBLIC SERVICES. Would the project:

- a. Result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities or a need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times, or other performance objectives for any of the following public services:

Fire protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Police protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Schools?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Parks?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Other public facilities?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on public services are analyzed on pages III-120 through III-158 of the 1994 Supplement.

Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that the only significant impact that buildout of the Village One Specific Plan area would have on public services would be in the areas of fire protection and law enforcement. Mitigation measures were identified in the program EIR to reduce the level of this impact to a less-than-significant level. No other significant impacts on public services were identified. The proposed project would not change the provision of public services. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
--------------------------------	---------------------------------------	------------------------------	-----------

XIV. RECREATION. Would the project:

- | | | | | |
|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. Increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. Include recreational facilities or require the construction or expansion of recreational facilities that might have an adverse physical effect on the environment? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on recreation are analyzed on pages III-120 through III-158 of the 1994 Supplement.

Responses to Checklist Questions

- a., b. No significant impacts on recreation were identified in the program EIR. The proposed project would not change the provision of parks and recreation facilities. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
--------------------------------	---------------------------------------	------------------------------	-----------

XV. TRANSPORTATION/TRAFFIC. Would the project:

- | | | | | |
|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. Cause an increase in traffic that is substantial in relation to the existing traffic load and capacity of the street system (i.e., result in a substantial increase in the number of vehicle trips, the volume-to-capacity ratio on roads, or congestion at intersections)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. Cause, either individually or cumulatively, exceedance of a LOS standard established by the county congestion management agency for designated roads or highways? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. Result in a change in air traffic patterns, including an increase in traffic levels or a change in location that results in substantial safety risks? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. Substantially increase hazards because of a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

	Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
e. Result in inadequate emergency access?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f. Result in inadequate parking capacity?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
g. Conflict with adopted policies, plans, or programs supporting alternative transportation (e.g., bus turnouts, bicycle racks)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on transportation and traffic are analyzed on pages III-40 – III-44 of the 1994 Supplement.

Responses to Checklist Questions

- a., b. The Village One Specific Plan program EIR found that buildout of the Village One Specific Plan area would cause an increase in traffic that is substantial in relation to the existing traffic load and capacity of the street system and would affect level of service at several intersections. Mitigation measures identified in the program EIR were identified to reduce impacts to a less-than-significant level for all intersections except the Briggsmore Avenue/Oakdale Avenue intersection. For that intersection, the impact was determined to be significant and not mitigable. The City of Modesto made a statement of overriding considerations for that impact at the time it certified the 1994 Supplement. The proposed project would not alter traffic patterns in the Specific Plan area or result in additional trips. There would be no additional impact. No mitigation is required.
- c. The Village One Specific Plan program EIR did not find that the buildout of the Village One Specific Plan area would result in a change in air traffic patterns. The proposed project does not include any elements that would affect air traffic patterns. There would be no impact. No mitigation is required.
- d. The Village One Specific Plan program EIR did not find that buildout of the Village One Specific Plan area included any hazardous design features or increased any incompatible uses for roads in the project area. The proposed project would not change roadway design or land uses. There would be no impact. No mitigation is required.
- e. The Village One Specific Plan program EIR did not find that buildout of the Village One Specific Plan area would result in inadequate emergency access in the Specific Plan area. The Specific Plan includes provision of adequate roadways to serve the Village One development. The proposed project would not change roadway design or land uses contained within the Specific Plan. There would be no additional impact. No mitigation is required.
- f. The Village One Specific Plan program EIR did not find that buildout of the Village One Specific Plan area would result in inadequate parking capacity in the Specific Plan area. The provision of parking, consistent with zoning

requirements for the proposed project, is included in the project design. There would be no impact. No mitigation is required.

- g. The proposed project does not include any changes related to transportation policies, and would have no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

XVI. UTILITIES AND SERVICE SYSTEMS.

Would the project:

- | | | | | | |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Exceed wastewater treatment requirements of the applicable Regional Water Quality Control Board? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effects? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Require or result in the construction of new stormwater drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effects? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Have sufficient water supplies available to serve the project from existing entitlements and resources, or would new or expanded entitlements be needed? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e. | Result in a determination by the wastewater treatment provider that serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| f. | Be served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| g. | Comply with federal, state, and local statutes and regulations related to solid waste? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on utilities and service systems are analyzed on pages III-120 through III-158 of the 1994 Supplement.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

XVII. MANDATORY FINDINGS OF SIGNIFICANCE.

- | | | | | | |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Does the project have impacts that are individually limited but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.) | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Does the project have environmental effects that will cause substantial adverse effects on human beings, either directly or indirectly? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Cumulative impacts are analyzed on page III-161 of the 1994 Supplement.

Responses to Checklist Questions

- a. As described above, the proposed project would not result in any significant impacts on the environment over and above those associated with implementation of the Village One Specific Plan and as analyzed in the Village One Specific Plan program EIR.
- b. As described above, the proposed project would not result in any significant impacts, either on a project or on cumulative level, over and above those associated with implementation of the Village One Specific Plan and as analyzed in the Village One Specific Plan program EIR.
- c. As described above, the proposed project would not result in any significant impacts affecting humans over and above those associated with implementation of the Village One Specific Plan and as analyzed in the Village One Specific Plan program EIR.

Responses to Checklist Questions

- a. The City provides sewer services to the Village One area. All wastewater would be directed to city wastewater treatment facilities. No wastewater discharges would occur in the project area. The proposed project would not increase the amount of wastewater that will be generated at buildout of the Specific Plan area. There would be no additional impact. No mitigation is required.
- b., e. The Village One Specific Plan program EIR discusses the changes and new facilities that will be needed to accommodate buildout of the Village One Specific Plan area. The EIR found that, with mitigation, there would be no significant impact on water or wastewater infrastructure. There would be no additional impact as a result of the proposed project. No mitigation is required.
- c. The Village One Specific Plan program EIR discusses the changes and new facilities that will be needed in order to accommodate buildout of the Village One Specific Plan area. The EIR found that, with mitigation, there would be no significant impact on stormwater drainage facilities. An update to the Storm Drainage Master Plan has been prepared and is under consideration by the City. An addendum to the Village One program EIR for the Storm Drainage Master Plan has also been prepared and is under consideration by the City. The project would not result in any additional impacts or the need for any additional mitigation beyond that assessed in the Addendum to the Village One Program EIR for the Storm Drainage Master Plan.
- d. The Village One Specific Plan program EIR found that, with mitigation, the effects of buildout of the Village One Specific Plan area on water supply would be less than significant. There would be no additional impact resulting from the proposed project. No mitigation is required.
- f., g. The Village One Specific Plan program EIR found that the area's landfills have sufficient permitted capacity to accommodate the project's solid waste disposal needs. The proposed project would not result in any physical changes in the environment or the generation of any additional solid waste. There would be no impact. No mitigation is required.

V. MITIGATION APPLIED TO PROJECT

The following mitigation measures developed in the 1994 Village One Specific Plan Supplement to the Program EIR are appropriate to the project and will be incorporated into the project. Therefore, the environmental effects of the project were covered by the program EIR.

1. "All deeds for lots sold in this subdivision shall contain the following statement:

"This lot is located near existing agricultural operations. Residents may be subjected to customary and accepted farming practices that produce noise, dust, smoke and other impacts. The grantee accepts the potential impacts of customary farming practices, which may include the application and use of various, chemicals through spraying, spreading or other customary means in accordance with applicable state and federal regulations regarding such applications. The grantee also acknowledges the need to avoid activities that conflict with nearby farm uses."

2. The following statement shall be placed in all Precise Plans for Residential Development:

Prior to the Final Inspection, Building Inspection Division shall verify that all fireplaces and wood stoves in residential units are equipped to meet the performance and emissions standards set forth in Part 60, Title 40, Subpart AAA Code of Federal Regulations, February 26, 1988.

3. Noise mitigation for residential dwellings is required along the following streets up to the indicated distance:

Without acoustical treatment, noise levels inside proposed residential housing along the following project area major streets would exceed 45 dBA, the City's General Plan standard. The street segments and distances in feet from centerline these impacts would occur are:

Floyd Avenue (from Oakdale Road to Roselle Avenue): 106 ft.

Oakdale Road (from Sylvan Avenue to Floyd Avenue): 214 ft.

Source: Brown-Buntin Associates Noise Study, April 1993

4. "Construction noise is regulated by the City's Noise Ordinance, Section 4.9 – 103. Construction noise is generally permitted during the hours of 7:00 am to 9:00 pm. To avoid complaints from nearby residents, and possible citations, the full text of the ordinance should be reviewed by builders prior to construction. City construction projects will be monitored by Construction Inspection for conformance with the City's Noise Ordinance."

5. During construction activities, Building Inspection Division shall verify that contractors observe the requirements of City of Modesto Standard Specification 2.07(A)(5), Dust Control, and when necessary, Regulation VIII of the San Joaquin Valley Unified Air Pollution Control District to control the generation of PM 10 from construction related dust and emissions.

SWAINSON'S HAWK FORAGING HABITAT SURVEY
VILLAGE ONE
Precise Plan Areas 2, 15, 16, and 17

INTRODUCTION

Swainson's Hawk, *Buteo swainsoni*, is a species of large hawk which nests in the Central Valley of California. It is a California state listed threatened species and thus it is protected, as is its nesting and foraging habitat. The large Village One development in Modesto, California has been divided into 35 "Precise Plan Areas". An earlier study had identified, in general terms, possible Swainson's Hawk foraging habitat within this development. This study was undertaken to assess the foraging habitat for Swainson's Hawk in four of the Precise Plan Areas (2, 15, 16, and 17). Swainson's Hawks forage for food in a prescribed manner. As is typical of a number of other large hawks, they forage during the daylight hours by soaring high above the ground and watching for suitable prey (mostly small mammals such as mice and ground squirrels, but also large insects like grasshoppers). Once prey is spotted the bird dives to the ground to capture it. Thus suitable foraging habitat must be relatively clear of high vegetation for two reasons: to allow the hawk to see the prey, and to allow the hawk to swoop down upon it without hitting branches or other high vegetation. Thus, open fields and low growing croplands are suitable but orchards, vineyards, and tall crops (mature corn) are not. Corn fields thus present different situations at different stages. Until the corn plants exceed a certain height (1-2 feet) the fields are suitable for foraging. Taller than that, they are not, but once cut down, they are suitable again. Since the Swainson's Hawk is only present in the Central Valley during Spring and Summer and nesting occurs predominantly from April through July, it is the condition of the fields at that time which is most important.

QUALIFICATIONS

My Curriculum Vita (resume) is attached. In summary, I have a Ph.D. in Zoology with over 30 years of university teaching experience in ecology and ornithology and appropriate research experience in each including conducting numerous wildlife surveys in Stanislaus County. I am also an ardent bird watcher who has spent many hours observing Swainson's Hawks both in California and throughout its range in the United States.

FIELD WORK

I visited the area on July 21 and 25, 2003 to both assess Swainson's Hawk foraging habitat and to determine the extent of that habitat individually, as well as collectively, in each of the four Precise Plan Areas.

DESCRIPTION OF THE AREA(S)

The four Precise Plan Areas are located at the western end of Village One, areas 2 and 17 ordering Oakdale Road to the west and extending from Sylvan Avenue on the north (area 2) to Floyd Avenue on the south (area 17). Areas 16 and 15 continue east from the eastern edge of areas 2 and 17 to the eastern boundary of Ustach Middle School, occupying approximately the middle third of the land between Sylvan and Floyd

Avenues. Table 1 indicates the acreage of each of the areas, the amount of acreage which is Swainson's Hawk foraging habitat, and the proportion of the area which is Swainson's Hawk foraging habitat. Overall, the four Precise Plan Areas include just over 176 acres of which about 116 acres (66%) is potential Swainson's Hawk foraging habitat. Below, I will discuss the specifics of each of the areas, including the apparent "quality" of the foraging habitat.

Table 1 - Total Acreage and Swainson's Hawk Foraging Habitat for Precise Plan Areas 2, 15, 16, and 17

Precise Plan Area	Total Acreage	Foraging Acreage*	% Foraging Acreage
2	45.8	23.6	52%
15	46.6	26.6	57%
16	33.5	28.2	84%
17	50.3	37.8	75%
Total	176.2	116.2	66%

* Foraging acreage includes fallow fields and low crop growth.

Precise Plan Area 2

This area contains the least amount of foraging acreage. The non-foraging areas include a block of commercial establishments at the corner of Sylvan Avenue and Oakdale Road, house lots further east along Sylvan Avenue and south along Oakdale Road, and a small vineyard (@3.3 acres) on Oakdale Road. All of the foraging area is fallow land at the present time with low scrubby grasses.

Precise Plan Area 15

This area has the next least amount of foraging acreage, due mainly to the presence of Ustach Middle School (@15.5 acres), but there is also a vineyard (@4.3 acres) to the west of the school. The potential foraging habitat includes the area to the north of the school (@6 acres) which is currently being developed as a city park. The rest of the area is currently planted in corn with the area north of the vineyard about 2 ½ feet tall (@13 acres) and that to the south of the vineyard about 6 inches tall (@ 13 acres).

Precise Plan Area 16

Just to the west of area 15, this is the only one of the four areas that does not have any human development at the present time. It is entirely agricultural with a vineyard (@5.3 acres) being the only non foraging habitat, and the rest of the land planted in corn.

Precise Plan Area 17

The northern portion of this parcel is developed as a house, outbuildings, yard, and garden (@12.5 acres). The rest of the land is recently disked fallow cropland which is Swainson's Hawk foraging habitat.

ASSESSMENT OF THE SWAINSON'S HAWK FORAGING HABITAT

Simply presenting the numbers above does not give an adequate picture of the value of this land as foraging habitat for the Swainson's Hawk. On the one hand, I have seen Swainson's Hawks in the vicinity of this land engaged in foraging behavior in the past so this land has probably been used. On the other hand, I would assess the quality of this land as Swainson's Hawk foraging habitat as low for the following reasons.

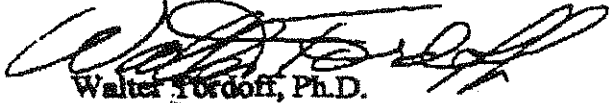

First, the preferred food of this hawk is small mammals, the predominant one in this area being the California ground squirrel. This species is present in these areas in low numbers but only on higher ground (such as the dirt track running from Hillglen Avenue south on the west side of Ustach Middle School to the south end of the school and then turning east as the southern boundary of areas 15 and 16) because their burrows are destroyed in the lower areas that are plowed and flood irrigated. In less intensively cultivated areas, ground squirrels occur at much higher densities.

Second, since this land is surrounded by urban areas including housing developments, schools, and commercial establishments with a lot of automobile traffic on the roads and people walking through the area, the hawks are much more likely to be disturbed while foraging and feeding which may drastically reduce the foraging efficiency for the species. Such reductions in foraging efficiency have been shown to result in nest failure or nest abandonment by the parents.

Finally, the close proximity to many humans and their activities establishes the possibility of inadvertent poisoning of the hawks if people are intentionally or even unintentionally introducing toxic substances into the food chain. Poisons put out for rats, mice, and squirrels have been shown to be ingested by raptors causing illness, sterility, and/or death (this was one of the major causes of the decline in California condors in the 1980's). Substances like antifreeze, while not meant to kill anything, may also be ingested by the hawks be fatal.

Thus, in summary, although almost two-thirds of the acreage of these four Precise Plan Areas is technically foraging habitat for the Swainson's Hawk at one time or another, the quality of this foraging habitat is so low that its loss to the hawks will have no significant impact on the species' population. I do not think that mitigation is called for.

Sincerely,

Walter Fordoff, Ph.D.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-580**

A RESOLUTION FINDING THAT THE FOLLOWING PROJECT IS WITHIN THE SCOPE OF THE VILLAGE ONE PROGRAM ENVIRONMENTAL IMPACT REPORT (SCH NO. 90020181), AS AMENDED BY THE SUPPLEMENTAL EIR: PRECISE PLAN FOR AREA NO. 16 AND CONCURRENT REZONING FROM SP-H TO SP-O, PROPERTY LOCATED IMMEDIATELY EAST OF THE CONVERGENCE OF HILLGLEN AVENUE AND KODIAK DRIVE IN THE VILLAGE ONE SPECIFIC PLAN AREA (RONALD L. LaFORCE ET AL., MODESTO VENTURE 168, AND CHRIS & PAULINE GIANULIAS)

WHEREAS, the Modesto City Council has adopted Resolution No. 90-757 certifying that the Village One Final Environmental Impact Report ("EIR") (State Clearing House No. 90020181) is complete and adequate pursuant to Section 15090 of the California Environmental Quality Act ("CEQA") Guidelines, and

WHEREAS, the Modesto City Council has adopted Resolution No. 94-297 which certified the Final Supplemental EIR for Village One; thus, the 1990 Village One Program EIR has been superseded and updated by the 1994 Supplemental EIR, adopted on May 24, 1994, which Supplemental EIR incorporates by reference technical studies and background material from the 1990 Program EIR, and

WHEREAS, an application has been filed by Ronald L. LaForce, Modesto Venture 168, and Chris & Pauline Gianulias, et al, for a Precise Plan for Area No. 16, property located immediately east of the convergence of Hillglen Avenue and Kodiak Drive, and

WHEREAS, the applicant has applied for approval of a rezoning from Specific Plan-Holding Zone, SP-H, to a Specific Plan-Overlay, SP-O, and

WHEREAS, the City's Community and Economic Development Department reviewed the proposed project to determine if said project might have a significant effect on the environment, and

WHEREAS, City staff has prepared an Initial Study, Environmental Assessment No. EA/C&ED 2003-78, which concluded that the proposed project is within the scope of the Village One Program EIR (SCH No. 90020181), as amended by the Village One Supplemental EIR, and

WHEREAS, the Planning Commission, by Resolution No. 2003-53, adopted on September 8, 2003, and City staff, by a report dated October 1, 2003, from the Community and Economic Development Department, recommended to the City Council approval of Precise Plan No. 16 of the Village One Specific Plan, and recommended approval of an Amendment to Section 11-3-9 of the Zoning Map to rezone from Specific Plan-Holding Zone, SP-H to Specific Plan-Overlay, SP-O, property located immediately east of the convergence of Hillglen Avenue and Kodiak Drive, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on October 28, 2003, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered Environmental Assessment No. EA/C&ED No. 2003-78, entitled "Projects Within the Scope of the Village One Specific Plan Program Environmental Impact Report for Precise Plans 2, 15, 16, & 17," for the proposed project, and the Council hereby makes the following findings:

1. The proposed Precise Plan and rezoning are consistent with the Village One Specific Plan and Modesto Urban Area General Plan.

2. There are no substantial changes proposed in the project which result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and, therefore, no major revisions to the Village One Program EIR, as amended by the 1994 Supplemental EIR, are required.
3. No substantial changes have occurred with respect to the circumstances under which the project is undertaken which will result in new significant environmental effects or a substantial increase in the severity of previously-identified significant effects and, therefore, no major revisions to the Village One Program EIR, as amended by the 1994 Supplemental EIR, are required.
4. There is no new information of substantial importance which was not known and could not have been known with the exercise of reasonable diligence when the Village One Program EIR, as amended by the 1994 Supplemental EIR, was adopted which shows any of the following:
 - a. one or more significant effects which is not discussed in the Village One Program EIR, as amended by the 1994 Supplemental EIR; or,
 - b. significant effects which were previously examined will be substantially more severe than previously shown; or,
 - c. previously infeasible mitigation measures or alternatives are now feasible and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative; or,
 - d. mitigation measures or alternatives which are considerably different from those analyzed in the Village One Program EIR, as amended by the 1994 Supplemental EIR, would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative.
5. The Initial Study, Environmental Assessment EA/C&ED 2003-78, provides the substantial evidence to support findings 2-4 noted above.

BE IT FURTHER RESOLVED that a copy of said Environmental Assessment No. EA/C&ED No. 2003-78, entitled "Projects Within the Scope of the Village One Specific Plan Program Environmental Impact Report for Precise Plans 2, 15, 16, & 17," is attached hereto as Exhibit "A", and incorporated herein by this reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of October, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers	Conrad, Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

WRITTEN CHECKLIST

EA/C&ED No. 2003-78

I. PURPOSE

On September 11, 1990, the Modesto City Council certified a Final Program Environmental Impact Report for the Village One Specific Plan (SCH# 90020181). This Program EIR analyzed the impacts of build-out of the Village One Specific Plan, which includes the area in which this project is proposed.

Subsequently, on May 24, 1994, the City Council certified a Supplement to the Village One Program EIR. This supplement updated and modified the original EIR.

Section 15182 of the CEQA Guidelines allows the approval of subsequent residential projects within the scope of the Project EIR without further environmental review, provided the following findings are made:

- (1) Major revisions to the Village One Program EIR as amended by the 1994 Supplement, are not required because the project will not involve new significant environmental effects or increase severity of effects previously identified, and
- (2) Major revisions to the Village One Program EIR as amended by the 1994 Supplement, are not required because no substantial changes to circumstances have occurred that involve new significant environmental effects or increase severity of effects previously identified, and
- (3) No new information of substantial importance that was not known has become available that shows:
 - a. one or more significant effects is not discussed in the Village One Program EIR as amended by the 1994 Supplement,
 - b. identified significant effects will be more severe,
 - c. previously infeasible mitigation measures are now feasible,
 - d. project proponents have declined to adopt mitigation measures that would substantially reduce significant effects.

The purpose of this initial study is to provide the substantial evidence to support the above findings.

The 1994 Supplemental EIR that amended and superseded the 1990 Program EIR is the document reviewed for projects within the Village One Specific Plan area. A summary of significant impacts and their mitigation measures from the 1994 Supplemental EIR is attached as Exhibit "A." Where appropriate those feasible mitigation measures developed in the Supplement to the program EIR shall be incorporated into the proposed project.

II. PROJECT INFORMATION

1. **Project Title:** Precise Plan Areas 2, 15, 16, & 17
2. **Lead Agency Name and Address:** City of Modesto
3. **Contact Person and Phone Number:** Brad Wall, Associate Planner
Modesto Community & Economic Development
Department
(209) 577-5267
4. **Project Location:** Between Sylvan and Floyd Avenues east of
Oakdale Road - Modesto, California
5. **Project Sponsor's Name and Address:** Ronald L. LaForce (et al)
P.O. Box 814
Modesto CA 95353
6. **General Plan Designation:** The General Plan land use designation for the
project site is: Village Residential (VR). This
designation allows the zoning & land uses
described within the proposed Precise Plans.
7. **Zoning:** Specific Plan Holding (SP-H)
8. **Description of Project:** Pursuant to the adopted Village One Specific Plan, the project
applicant proposes a total of approximately 625 single-family lots within the four Precise
Plans (see attached diagram).
9. **Surrounding Land Uses and Setting:** The Village One Specific Plan Area is over half
built, as planned and approved by the 1990 Village One Specific Plan. The project area is
surrounded largely by undeveloped land, which is designated by the Specific Plan for

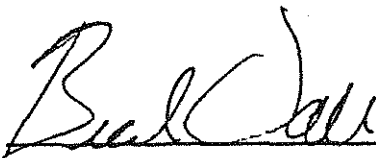

residential development. A mix of residential and commercial zoning and land surround the project site.

10. Other Public Agencies whose Approval Is Required: None.

III. DETERMINATION:

Based on the analysis contained in this document, staff finds that pursuant to Guidelines Section 15182 the following is true for the proposed project:

- (1) Major revisions to the Village One Program EIR as amended by the 1994 Supplement, are not required because the project will not involve new significant environmental effects or increase severity of effects previously identified, and
- (2) Major revisions to the Village One Program EIR as amended by the 1994 Supplement, are not required because no substantial changes to circumstances have occurred that involve new significant environmental effects or increase severity of effects previously identified, and
- (3) No new information of substantial importance that was not known has become available that shows:
 - a. one or more significant effects is not discussed in the Village One Program EIR as amended by the 1994 Supplement,
 - b. identified significant effects will be more severe,
 - c. previously infeasible mitigation measures are now feasible,
 - d. project proponents have declined to adopt mitigation measures that would substantially reduce significant effects.

Project Manager

Date

IV. PROJECT EVALUATION:

The following written Checklist based on Appendix G of the CEQA Guidelines serves to document the evaluation of the site and activity of the proposed project pursuant to CEQA Guidelines Section 15168 (c) (4) to determine whether the environmental effects of the operation were covered in the Program EIR.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
I. AESTHETICS. Would the project:				
a. Have a substantial adverse effect on a scenic vista?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings along a scenic highway?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c. Substantially degrade the existing visual character or quality of the site and its surroundings?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Create a new source of substantial light or glare that would adversely affect daytime or nighttime views in the area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Aesthetic and visual impacts are analyzed on pages III-100 through III-101 of the 1994 Supplement.

Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that as the Specific Plan area is developed, it will eliminate views of the valley and the distant mountains from adjacent areas and reduce the area's visual open space. However, the program EIR found the effects of buildout of Village One on scenic vistas to be less than significant because views from the project area are minimal. The proposed residential development would not change the extent or nature of construction in the Specific Plan area, or cause any other changes in the project area. Impacts on scenic vistas would therefore remain the same as those identified in the program EIR. There would be no additional impact. No mitigation is required.
- b. The Village One Specific Plan program EIR found that there are no scenic resources in the project area, and that development within the Specific Plan area would therefore not result in significant impacts on scenic resources. This

finding would not be affected by the proposed residential projects. There would be no impact. No mitigation is required.

- c. The Village One Specific Plan program EIR found that the development within the Specific Plan area would have a less-than-significant impact on the visual character of the area. The proposed residential development would not change the design or layout of the development proposed within the Village One Specific Plan. For this reason, impacts on the visual character of the area would remain the same as those identified in the program EIR. There would be no additional impact. No mitigation is required.
- d. The proposed residential development is consistent with the Village One Specific Plan. For this reason, impacts associated with additional light and glare would remain the same as those identified in the program EIR. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

II. AGRICULTURAL RESOURCES. In determining whether impacts on agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Department of Conservation. Would the project:

- | | | | | | |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Conflict with existing zoning for agricultural use or conflict with a Williamson Act contract? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Involve other changes in the existing environment that, due to their location or nature, could result in conversion of Farmland to non-agricultural use? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on agricultural resources are analyzed on pages III-80 through III-94 of the 1994 Supplement.

Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that land designated as Prime Farmland would be lost as a result of development in the Village One Specific Plan area. This impact was determined to be significant and not mitigable. The proposed residential development would not affect this finding because the project area would remain the same. There would be no additional impact. No mitigation is required.
- b. The Village One Specific Plan program EIR presented information showing that any Williamson Act contracts in the Village One Specific Plan area would be automatically cancelled on annexation of the land to the City of Modesto, which has occurred, or would expire within 10 years of the time the original program EIR was prepared. The last Williamson Act contract covering land in the Village One Specific Plan area expired in 2001. There are no lands in the project area under Williamson Act contract. The Village One Specific Plan area has also been rezoned consistent with the specific plan, and no lands in the project area are now zoned for agricultural use. There would be no additional impact. No mitigation is required.
- c. The Village One Specific Plan program EIR identified a potential land use conflict between new residential uses in the specific plan area and adjacent agricultural uses. Such conflicts can lead to conversion of adjacent farmlands to other uses. The program EIR proposed mitigation measures for this potential impact that would reduce the impact's significance, although the EIR noted that the mitigation measure might not fully mitigate the impact. No additional mitigation measures are available for this impact. This finding would not be affected by the proposed project because the project area and proposed land uses would remain the same. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

III. AIR QUALITY. When available, the significance criteria established by the applicable air quality management or air pollution control district may be relied upon to make the following determinations. Would the project:

- | | | | | | |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Conflict with or obstruct implementation of the applicable air quality plan? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Violate any air quality standard or contribute substantially to an existing or projected air quality violation? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
c. Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is a nonattainment area for an applicable federal or state ambient air quality standard (including releasing emissions that exceed quantitative thresholds for ozone precursors)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Expose sensitive receptors to substantial pollutant concentrations?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e. Create objectionable odors affecting a substantial number of people?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on air quality are analyzed on pages III-45 through III-54 of the 1994 Supplement.

Responses to Checklist Questions

- a. / b. The Village One Specific Plan program EIR found that air pollution from project-related construction traffic and fireplaces & wood stoves in planned residential areas would violate air quality standards and contribute to an existing air quality violation. Construction traffic emissions would contribute to violation of the state and federal 8-hour carbon monoxide (CO) and particulate matter (PM10) standards and the federal ozone standard in the Modesto Urban Area and the San Joaquin Valley Air Basin. Urban traffic pollution would contribute to violations of the state ozone, CO, and PM10 standards in the Modesto Urban Area and San Joaquin Valley Air Basin. Residential pollution would contribute to violations of the pollutant standard index in the Modesto Urban Area. Partial mitigation for these impacts is included in the program EIR (Mitigation Measures 3-5), and the City of Modesto adopted a statement of overriding consideration for each impact. The proposed residential projects would not change the amount of development and construction in the project area, so trips generated by the project would not be affected and the types of land uses would not change. There would be no additional impact. No mitigation is required.
- c. The Village One Specific Plan program EIR found that air pollutant emissions associated with traffic at buildout of Village One would exacerbate the existing ozone, PM10, and CO violations in the Modesto area and cause a significant cumulative impact. Partial mitigation for these emissions is included in the program EIR (Mitigation Measures 4.5.3[a] and 4.5.3[b]), and the City of Modesto made a statement of overriding consideration for each impact. The proposed residential development would not change the amount of traffic associated with buildout of Village One or the types of land uses, so trips

generated by the project would not be affected. There would be no additional impact. No mitigation is required.

- d. The Village One Specific Plan program EIR found that PM10 generated during construction would aggravate the respiratory problems of people living and working nearby, therefore exposing sensitive receptors in the area to pollutant concentrations and causing a significant impact. However, the program EIR outlines mitigation measures that will be implemented to reduce the impact to an acceptable level (Mitigation Measure 40). The proposed residential development would not change the level of construction emissions. There would be no additional impact. No additional mitigation is required.
- e. The proposed residential development would not create odors. There would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

IV. BIOLOGICAL RESOURCES. Would the project:

- | | | | | | |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special-status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marshes, vernal pools, coastal wetlands, etc.) through direct removal, filling, hydrological interruption, or other means? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

	Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
e. Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f. Conflict with the provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on biological resources are analyzed on pages III-68 through III-79 of the 1994 Supplement.

Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that the buildout could result in the loss of foraging habitat for Swainson's Hawk, a state-listed threatened species, but found that mitigation measures identified in the program EIR would reduce the impact to a less-than-significant level. The project applicant has hired a qualified biologist to survey the project site in order to determine whether the project site contains foraging habitat for the Swainson's Hawk. The biologist's report is attached. There would be no additional impact. No additional mitigation is required.
- b. The Village One Specific Plan program EIR did not find that any riparian habitat or other designated sensitive natural community was present in the project area, and so found that the project would have a less-than-significant impact. The proposed residential development would not change the boundaries of the Specific Plan area. There would be no impact. No mitigation is required.
- c. The Village One Specific Plan program EIR found that buildout of the Village One Specific Plan area would result in the loss of lands that might be classified as wetlands by the U.S. Army Corps of Engineers but that, with mitigation, the impact would be less than significant. The proposed residential development would not change the Specific Plan area boundaries or the areas that would be disturbed. There would be no additional impact. No mitigation is required.
- d. The Village One Specific Plan program EIR did not identify any migratory corridors in the project area, nor did it find that the project would interfere with the movement of any species. The proposed residential development would not change the Specific Plan area boundaries. There would be no impact. No mitigation is required.
- e. / f. No local biological resource protection policies, ordinances, habitat conservation plans, or natural community conservation plans apply to the Village One Specific Plan area. There would be no impact. No mitigation is required.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
V. CULTURAL RESOURCES. Would the project:				
a. Cause a substantial adverse change in the significance of a historical resource as defined in Section 15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Cause a substantial adverse change in the significance of an archaeological resource pursuant to Section 15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c. Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Disturb any human remains, including those interred outside of formal cemeteries?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Responses to Checklist Questions

- a.-d. Impacts on cultural resources resulting from the buildout of Village One (e.g., from construction of associated infrastructure) are addressed in the Opportunities/Constraints Report prepared for the Modesto Planning Commission (December 1, 1989). The report concluded that there are no known historic, archaeological, or paleontological resources in the Village One Specific Plan area. Based on the results of this report, (Cultural and Historic Resources Report, page 3) it was determined that the likelihood that the proposed residential development would change or disturb human remains or significant historic, archaeological, or paleontological resources was low.

The proposed project would not change the locations or types of construction in the project area nor the boundaries of the project area. Development of the proposed project will not result in effects on scattered existing structures. A Cultural Resources Assessment was prepared to determine if any of these affected structures are considered historic resources. The Cultural Resources Assessment is attached to this document as Appendix A. No historic structures are located within the project area boundaries. Therefore, no mitigation measures are necessary.

Since no archaeological, or paleontological resources were found in the previous document to be located in the project area, and since the proposed project would not have a significant impact on historic structures, there would be no impact. No mitigation is required.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
VI. GEOLOGY AND SOILS. Would the project:				
a. Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving:				
1. Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42.	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
2. Strong seismic groundshaking?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
3. Seismic-related ground failure, including liquefaction?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
4. Landslides?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Result in substantial soil erosion or the loss of topsoil?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c. Be located on a geologic unit or soil that is unstable or that would become unstable as a result of the project and potentially result in an onsite or offsite landslide, lateral spreading, subsidence, liquefaction, or collapse?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e. Have soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems in areas where sewers are not available for the disposal of wastewater?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts associated with geology and soils are analyzed on pages III-105 through III-108 of the 1994 Supplement.

Responses to Checklist Questions

- a.-d. The program EIR, as supplemented, found that the project area is not subject to geologic or soil-related hazards that cannot be adequately mitigated through the implementation of existing city regulations, such as the building code. No significant impacts were identified, and no mitigation measures were required. The proposed residential development would not change the locations or types of construction in the project area nor the boundaries of the project area. There would be no additional impact. No mitigation is required.
- e. The Village One Specific Plan included provisions for the project to be served by public sewers. No septic tanks or alternative wastewater systems were proposed. The proposed residential project would not change the proposed method of wastewater disposal. There would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

VII. HAZARDS AND HAZARDOUS MATERIALS.

Would the project:

- | | | | | | |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Emit hazardous emissions or involve handling hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Be located on a site that is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e. | Be located within an airport land use plan area or, where such a plan has not been adopted, be within two miles of a public airport or public use airport, and result in a safety hazard for people residing or working in the project area? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
f. Be located within the vicinity of a private airstrip and result in a safety hazard for people residing or working in the project area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
g. Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
h. Expose people or structures to a significant risk of loss, injury, or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts associated with hazards and hazardous materials are analyzed on pages III-80 through III-94 and III-109 through III-119 of the 1994 Supplement.

Responses to Checklist Questions

- a.-c. The Village One Specific Plan does not allow any land uses that would use hazardous materials. The proposed residential development would not change land uses contemplated by the Specific Plan. There would be no impact. No mitigation is required.
- d. The Village One Specific Plan program EIR, as supplemented, found no hazardous materials were stored at or near the project site. No significant impacts were identified, and no mitigation measures were required. There would be no additional impact. No mitigation is required.
- e. The Village One Specific Plan area is not located in an airport land use plan area or within 2 miles of a public airport. There would be no impact. No mitigation is required.
- f. The Village One Specific Plan program EIR found that a private airstrip, the Eastside Mosquito Abatement District Airstrip, is located to the east of the Village One Specific Plan area. However, take-offs and landings were found to take place parallel to and outside the Specific Plan area boundaries, and flight patterns are generally situated to the east of the Specific Plan area. There would be no additional impact. No mitigation is required.
- g. Since the adoption of the Village One Specific Plan, the Modesto General Plan has been updated to include development of Village One consistent with the specific plan. City emergency plans are developed with the assumption that the Village One Specific Plan will be implemented. The proposed residential development would not change construction, land use, or other physical attributes

of the Right-of-Way Acquisition. There would be no additional impact. No mitigation is required.

- h. The project site is located in an area of the City of Modesto planned for buildout of an urban neighborhood. Approximately 50% of the project area remains undeveloped, with a covering of dry brush and vegetation. The potential for wildland fires is low, and this potential will decrease further as buildout continues. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

VIII. HYDROLOGY AND WATER QUALITY.

Would the project:

- | | | | | | |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Violate any water quality standards or waste discharge requirements? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Substantially deplete groundwater supplies or interfere substantially with groundwater recharge, resulting in a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level that would not support existing land uses or planned uses for which permits have been granted)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner that would result in substantial erosion or siltation onsite or offsite? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, or substantially increase the rate or amount of surface runoff in a manner that would result in flooding onsite or offsite? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e. | Create or contribute runoff water that would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| f. | Otherwise substantially degrade water quality? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

	Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
g. Place housing within a 100-year flood hazard area, as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
h. Place within a 100-year flood hazard area structures that would impede or redirect floodflows?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
i. Expose people or structures to a significant risk of loss, injury, or death involving flooding, including flooding as a result of the failure of a levee or dam?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
j. Contribute to inundation by seiche, tsunami, or mudflow?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts associated with hydrology are analyzed on pages III-109 through III-119 of the 1994 Supplement.

Responses to Checklist Questions

- a. The Village One Specific Plan program EIR did not find that residential development would violate any water quality standards or waste discharge requirements. The proposed project is consistent with the Village One Specific Plan, so there would be no additional impacts. No mitigation is required.
- b. The Village One Specific Plan program EIR found that buildout of the Village One Specific Plan area might interfere with local groundwater recharge. However, the impact was found to be less than significant because the Specific Plan area is not a major groundwater recharge area and it includes a recharge/discharge plan for disposal of stormwater runoff and recharge of groundwater. The proposed project would not change the amount of impervious surface in the Specific Plan area or the proposed storm drain facilities. There would be no additional impact. No mitigation is required.
- c.-e. The Village One Specific Plan program EIR found that development will substantially alter the existing drainage pattern of the area but, because the project will incorporate an urban storm drain system, will not result in any erosion impacts. The proposed project would not change the amount of impervious surface or the proposed storm drain facilities. There would be no additional impact. No mitigation is required.
- f. The Village One Specific Plan program EIR did not find that development would substantially degrade water quality. The proposed project would not change water use or discharge associated with the buildout of the Village One Specific Plan area. There would be no additional impact. No mitigation is required.

- g.-i. According to the Village One Specific Plan program EIR, the project site is not situated in a 100-year flood hazard area or downstream from a levee or dam. There would be no impact. No mitigation is required.
- j. The project site is located in a flat, inland area not susceptible to seiche, tsunami, or mudflow. There would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

IX. LAND USE AND PLANNING. Would the project:

- | | | | | | |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Physically divide an established community? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Conflict with any applicable land use plan, policy, or regulation of an agency with jurisdiction over the project (including, but not limited to, a general plan, specific plan, local coastal program, or zoning ordinance) adopted for the purpose of avoiding or mitigating an environmental effect? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Conflict with any applicable habitat conservation plan or natural community conservation plan? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts associated with land use and planning are analyzed on pages III-80 through III-94 of the 1994 Supplement.

Responses to Checklist Questions

- a. The proposed project would not result in any physical changes to the environment beyond those described in the Village One Specific Plan. Village One would continue to be developed as a planned community; therefore, the project would not divide an established community. There would be no impact, and no mitigation is required.
- b., c. The Village One Specific Plan has been adopted by the City of Modesto and has been incorporated into the Modesto General Plan. The proposed project would be consistent with the Village One Specific Plan. There are no other applicable land use or conservation plans for the project area. There would be no impact. No mitigation is required.

	Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
X. MINERAL RESOURCES. Would the project:				
a. Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Responses to Checklist Questions

- a., b. No known mineral resources or important recovery sites are located in the Village One Specific Plan Area. There would be no impact. No mitigation is required.

	Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
XI. NOISE. Would the project:				
c. Result in a substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e. Be located within an airport land use plan area, or, where such a plan has not been adopted, within two miles of a public airport or public use airport and expose people residing or working in the project area to excessive noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f. Be located in the vicinity of a private airstrip and expose people residing or working in the project area to excessive noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts associated with noise are analyzed on pages III-55 through III-67 of the 1994 Supplement.

Responses to Checklist Questions

- a., c. The Village One Specific Plan program EIR found that proposed residential housing in the project area would be exposed to noise levels exceeding general plan thresholds, but mitigation measures were incorporated to reduce the impact to a less-than-significant level. The proposed project would not change project-related noise-generating activities. There would be no additional impact. No mitigation is required.
- b. The Village One Specific Plan program EIR found that the buildout of Village One would not expose people to, or generate excessive, groundborne vibration or groundborne noise levels. There would be no impact. No mitigation is required.
- d. The Village One Specific Plan program EIR found that construction of the proposed project would result in a substantial temporary increase in ambient noise levels for residential housing. However, mitigation measures were incorporated into the program EIR to reduce the impact to a less-than-significant level. The proposed project would not change construction activities. There would be no additional impact. No mitigation is required.
- e. The Village One Specific Plan program EIR found that the Village One Specific Plan area is not located in an airport land use plan area or within 2 miles of a public airport. There would be no impact. No mitigation is required.
- f. The Village One Specific Plan program EIR found that a private airstrip, the Eastside Mosquito Abatement District Airstrip, is located east of the Village One Specific Plan area. However, take-offs and landings take place parallel to and outside the Specific Plan boundaries, and flight patterns are generally situated east of the project area. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

XII. POPULATION AND HOUSING. Would the project:

- | | | | | | |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Induce substantial population growth in an area, either directly (e.g., by proposing new homes and businesses) or indirectly (e.g., through extension of roads or other infrastructure)? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Displace a substantial number of existing housing units, necessitating the construction of replacement housing elsewhere? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Displace a substantial number of people, necessitating the construction of replacement housing elsewhere? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on population and housing are analyzed on pages III-95 through III-99 of the 1994 Supplement.

Responses to Checklist Questions

- a.-c. The Village One Specific Plan program EIR found that buildout of the Village One Specific Plan area would not result in significant adverse impacts on population and housing units. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

XIII. PUBLIC SERVICES. Would the project:

- a. Result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities or a need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times, or other performance objectives for any of the following public services:

Fire protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Police protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Schools?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Parks?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Other public facilities?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on public services are analyzed on pages III-120 through III-158 of the 1994 Supplement.

Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that the only significant impact that buildout of the Village One Specific Plan area would have on public services would be in the areas of fire protection and law enforcement. Mitigation measures were identified in the program EIR to reduce the level of this impact to a less-than-significant level. No other significant impacts on public services were identified. The proposed project would not change the provision of public services. There would be no additional impact. No mitigation is required.

	Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
XIV. RECREATION. Would the project:				
a. Increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Include recreational facilities or require the construction or expansion of recreational facilities that might have an adverse physical effect on the environment?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on recreation are analyzed on pages III-120 through III-158 of the 1994 Supplement.

Responses to Checklist Questions

- a., b. No significant impacts on recreation were identified in the program EIR. The proposed project would not change the provision of parks and recreation facilities. There would be no additional impact. No mitigation is required.

	Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
XV. TRANSPORTATION/TRAFFIC. Would the project:				
a. Cause an increase in traffic that is substantial in relation to the existing traffic load and capacity of the street system (i.e., result in a substantial increase in the number of vehicle trips, the volume-to-capacity ratio on roads, or congestion at intersections)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Cause, either individually or cumulatively, exceedance of a LOS standard established by the county congestion management agency for designated roads or highways?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c. Result in a change in air traffic patterns, including an increase in traffic levels or a change in location that results in substantial safety risks?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Substantially increase hazards because of a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

	Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
e. Result in inadequate emergency access?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f. Result in inadequate parking capacity?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
g. Conflict with adopted policies, plans, or programs supporting alternative transportation (e.g., bus turnouts, bicycle racks)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on transportation and traffic are analyzed on pages III-40 – III-44 of the 1994 Supplement.

Responses to Checklist Questions

- a., b. The Village One Specific Plan program EIR found that buildout of the Village One Specific Plan area would cause an increase in traffic that is substantial in relation to the existing traffic load and capacity of the street system and would affect level of service at several intersections. Mitigation measures identified in the program EIR were identified to reduce impacts to a less-than-significant level for all intersections except the Briggsmore Avenue/Oakdale Avenue intersection. For that intersection, the impact was determined to be significant and not mitigable. The City of Modesto made a statement of overriding considerations for that impact at the time it certified the 1994 Supplement. The proposed project would not alter traffic patterns in the Specific Plan area or result in additional trips. There would be no additional impact. No mitigation is required.
- c. The Village One Specific Plan program EIR did not find that the buildout of the Village One Specific Plan area would result in a change in air traffic patterns. The proposed project does not include any elements that would affect air traffic patterns. There would be no impact. No mitigation is required.
- d. The Village One Specific Plan program EIR did not find that buildout of the Village One Specific Plan area included any hazardous design features or increased any incompatible uses for roads in the project area. The proposed project would not change roadway design or land uses. There would be no impact. No mitigation is required.
- e. The Village One Specific Plan program EIR did not find that buildout of the Village One Specific Plan area would result in inadequate emergency access in the Specific Plan area. The Specific Plan includes provision of adequate roadways to serve the Village One development. The proposed project would not change roadway design or land uses contained within the Specific Plan. There would be no additional impact. No mitigation is required.
- f. The Village One Specific Plan program EIR did not find that buildout of the Village One Specific Plan area would result in inadequate parking capacity in the Specific Plan area. The provision of parking, consistent with zoning

requirements for the proposed project, is included in the project design. There would be no impact. No mitigation is required.

- g. The proposed project does not include any changes related to transportation policies, and would have no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact

XVI. UTILITIES AND SERVICE SYSTEMS.

Would the project:

- | | | | | | |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Exceed wastewater treatment requirements of the applicable Regional Water Quality Control Board? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which could cause significant environmental effects? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Require or result in the construction of new stormwater drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effects? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Have sufficient water supplies available to serve the project from existing entitlements and resources, or would new or expanded entitlements be needed? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e. | Result in a determination by the wastewater treatment provider that serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| f. | Be served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| g. | Comply with federal, state, and local statutes and regulations related to solid waste? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on utilities and service systems are analyzed on pages III-120 through III-158 of the 1994 Supplement.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

XVII. MANDATORY FINDINGS OF SIGNIFICANCE.

- | | | | | | |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Does the project have impacts that are individually limited but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.) | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Does the project have environmental effects that will cause substantial adverse effects on human beings, either directly or indirectly? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Cumulative impacts are analyzed on page III-161 of the 1994 Supplement.

Responses to Checklist Questions

- a. As described above, the proposed project would not result in any significant impacts on the environment over and above those associated with implementation of the Village One Specific Plan and as analyzed in the Village One Specific Plan program EIR.
- b. As described above, the proposed project would not result in any significant impacts, either on a project or on cumulative level, over and above those associated with implementation of the Village One Specific Plan and as analyzed in the Village One Specific Plan program EIR.
- c. As described above, the proposed project would not result in any significant impacts affecting humans over and above those associated with implementation of the Village One Specific Plan and as analyzed in the Village One Specific Plan program EIR.

Responses to Checklist Questions

- a. The City provides sewer services to the Village One area. All wastewater would be directed to city wastewater treatment facilities. No wastewater discharges would occur in the project area. The proposed project would not increase the amount of wastewater that will be generated at buildout of the Specific Plan area. There would be no additional impact. No mitigation is required.
- b., e. The Village One Specific Plan program EIR discusses the changes and new facilities that will be needed to accommodate buildout of the Village One Specific Plan area. The EIR found that, with mitigation, there would be no significant impact on water or wastewater infrastructure. There would be no additional impact as a result of the proposed project. No mitigation is required.
- c. The Village One Specific Plan program EIR discusses the changes and new facilities that will be needed in order to accommodate buildout of the Village One Specific Plan area. The EIR found that, with mitigation, there would be no significant impact on stormwater drainage facilities. An update to the Storm Drainage Master Plan has been prepared and is under consideration by the City. An addendum to the Village One program EIR for the Storm Drainage Master Plan has also been prepared and is under consideration by the City. The project would not result in any additional impacts or the need for any additional mitigation beyond that assessed in the Addendum to the Village One Program EIR for the Storm Drainage Master Plan.
- d. The Village One Specific Plan program EIR found that, with mitigation, the effects of buildout of the Village One Specific Plan area on water supply would be less than significant. There would be no additional impact resulting from the proposed project. No mitigation is required.
- f., g. The Village One Specific Plan program EIR found that the area's landfills have sufficient permitted capacity to accommodate the project's solid waste disposal needs. The proposed project would not result in any physical changes in the environment or the generation of any additional solid waste. There would be no impact. No mitigation is required.

V. MITIGATION APPLIED TO PROJECT

The following mitigation measures developed in the 1994 Village One Specific Plan Supplement to the Program EIR are appropriate to the project and will be incorporated into the project. Therefore, the environmental effects of the project were covered by the program EIR.

1. "All deeds for lots sold in this subdivision shall contain the following statement:

"This lot is located near existing agricultural operations. Residents may be subjected to customary and accepted farming practices that produce noise, dust, smoke and other impacts. The grantee accepts the potential impacts of customary farming practices, which may include the application and use of various, chemicals through spraying, spreading or other customary means in accordance with applicable state and federal regulations regarding such applications. The grantee also acknowledges the need to avoid activities that conflict with nearby farm uses."

2. The following statement shall be placed in all Precise Plans for Residential Development:

Prior to the Final Inspection, Building Inspection Division shall verify that all fireplaces and wood stoves in residential units are equipped to meet the performance and emissions standards set forth in Part 60, Title 40, Subpart AAA Code of Federal Regulations, February 26, 1988.

3. Noise mitigation for residential dwellings is required along the following streets up to the indicated distance:

Without acoustical treatment, noise levels inside proposed residential housing along the following project area major streets would exceed 45 dBA, the City's General Plan standard. The street segments and distances in feet from centerline these impacts would occur are:

Floyd Avenue (from Oakdale Road to Roselle Avenue): 106 ft.

Oakdale Road (from Sylvan Avenue to Floyd Avenue): 214 ft.

Source: Brown-Buntin Associates Noise Study, April 1993

4. "Construction noise is regulated by the City's Noise Ordinance, Section 4.9 – 103. Construction noise is generally permitted during the hours of 7:00 am to 9:00 pm. To avoid complaints from nearby residents, and possible citations, the full text of the ordinance should be reviewed by builders prior to construction. City construction projects will be monitored by Construction Inspection for conformance with the City's Noise Ordinance."

5. During construction activities, Building Inspection Division shall verify that contractors observe the requirements of City of Modesto Standard Specification 2.07(A)(5), Dust Control, and when necessary, Regulation VIII of the San Joaquin Valley Unified Air Pollution Control District to control the generation of PM 10 from construction related dust and emissions.

SWAINSON'S HAWK FORAGING HABITAT SURVEY
VILLAGE ONE
Precise Plan Areas 2, 15, 16, and 17

INTRODUCTION

Swainson's Hawk, *Buteo swainsoni*, is a species of large hawk which nests in the Central Valley of California. It is a California state listed threatened species and thus it is protected, as is its nesting and foraging habitat. The large Village One development in Modesto, California has been divided into 35 "Precise Plan Areas". An earlier study had identified, in general terms, possible Swainson's Hawk foraging habitat within this development. This study was undertaken to assess the foraging habitat for Swainson's Hawk in four of the Precise Plan Areas (2, 15, 16, and 17). Swainson's Hawks forage for food in a prescribed manner. As is typical of a number of other large hawks, they forage during the daylight hours by soaring high above the ground and watching for suitable prey (mostly small mammals such as mice and ground squirrels, but also large insects like grasshoppers). Once prey is spotted the bird dives to the ground to capture it. Thus suitable foraging habitat must be relatively clear of high vegetation for two reasons: to allow the hawk to see the prey; and to allow the hawk to swoop down upon it without hitting branches or other high vegetation. Thus, open fields and low growing croplands are suitable but orchards, vineyards, and tall crops (mature corn) are not. Corn fields thus present different situations at different stages. Until the corn plants exceed a certain height (1-2 feet) the fields are suitable for foraging. Taller than that, they are not, but once cut down, they are suitable again. Since the Swainson's Hawk is only present in the Central Valley during Spring and Summer and nesting occurs predominantly from April through July, it is the condition of the fields at that time which is most important.

QUALIFICATIONS

My Curriculum Vita (resume) is attached. In summary, I have a Ph.D. in Zoology with over 30 years of university teaching experience in ecology and ornithology and appropriate research experience in each including conducting numerous wildlife surveys in Stanislaus County. I am also an ardent bird watcher who has spent many hours observing Swainson's Hawks both in California and throughout its range in the United States.

FIELD WORK

I visited the area on July 21 and 25, 2003 to both assess Swainson's Hawk foraging habitat and to determine the extent of that habitat individually, as well as collectively, in each of the four Precise Plan Areas.

DESCRIPTION OF THE AREA(S)

The four Precise Plan Areas are located at the western end of Village One, areas 2 and 17 ordering Oakdale Road to the west and extending from Sylvan Avenue on the north (area 2) to Floyd Avenue on the south (area 17). Areas 16 and 15 continue east from the eastern edge of areas 2 and 17 to the eastern boundary of Ustach Middle School, occupying approximately the middle third of the land between Sylvan and Floyd

Swainson's Hawk Foraging Habitat Survey - Precise Plan Areas 2, 15, 16, 17 page 2

Avenues. Table 1 indicates the acreage of each of the areas, the amount of acreage which is Swainson's Hawk foraging habitat, and the proportion of the area which is Swainson's Hawk foraging habitat. Overall, the four Precise Plan Areas include just over 176 acres of which about 116 acres (66%) is potential Swainson's Hawk foraging habitat. Below, I will discuss the specifics of each of the areas, including the apparent "quality" of the foraging habitat.

Table 1 - Total Acreage and Swainson's Hawk Foraging Habitat for Precise Plan Areas 2, 15, 16, and 17

Precise Plan Area	Total Acreage	Foraging Acreage*	% Foraging Acreage
2	45.8	23.6	52%
15	46.6	26.6	57%
16	33.5	28.2	84%
17	50.3	37.8	75%
Total	176.2	116.2	66%

* Foraging acreage includes fallow fields and low crop growth.

Precise Plan Area 2

This area contains the least amount of foraging acreage. The non-foraging areas include a block of commercial establishments at the corner of Sylvan Avenue and Oakdale Road, house lots further east along Sylvan Avenue and south along Oakdale Road, and a small vineyard (@3.3 acres) on Oakdale Road. All of the foraging area is fallow land at the present time with low scrubby grasses.

Precise Plan Area 15

This area has the next least amount of foraging acreage, due mainly to the presence of Ustach Middle School (@15.5 acres), but there is also a vineyard (@4.3 acres) to the west of the school. The potential foraging habitat includes the area to the north of the school (@6 acres) which is currently being developed as a city park. The rest of the area is currently planted in corn with the area north of the vineyard about 2 ½ feet tall (@13 acres) and that to the south of the vineyard about 6 inches tall (@ 13 acres).

Precise Plan Area 16

Just to the west of area 15, this is the only one of the four areas that does not have any human development at the present time. It is entirely agricultural with a vineyard (@5.3 acres) being the only non foraging habitat, and the rest of the land planted in corn.

Precise Plan Area 17

The northern portion of this parcel is developed as a house, outbuildings, yard, and garden (@12.5 acres). The rest of the land is recently disked fallow cropland which is Swainson's Hawk foraging habitat.

ASSESSMENT OF THE SWAINSON'S HAWK FORAGING HABITAT

Simply presenting the numbers above does not give an adequate picture of the value of this land as foraging habitat for the Swainson's Hawk. On the one hand, I have seen Swainson's Hawks in the vicinity of this land engaged in foraging behavior in the past so this land has probably been used. On the other hand, I would assess the quality of this land as Swainson's Hawk foraging habitat as low for the following reasons.

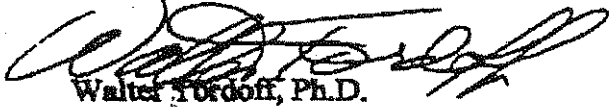

First, the preferred food of this hawk is small mammals, the predominant one in this area being the California ground squirrel. This species is present in these areas in low numbers but only on higher ground (such as the dirt track running from Hillglen Avenue south on the west side of Ustach Middle School to the south end of the school and then turning east as the southern boundary of areas 15 and 16) because their burrows are destroyed in the lower areas that are plowed and flood irrigated. In less intensively cultivated areas, ground squirrels occur at much higher densities.

Second, since this land is surrounded by urban areas including housing developments, schools, and commercial establishments with a lot of automobile traffic on the roads and people walking through the area, the hawks are much more likely to be disturbed while foraging and feeding which may drastically reduce the foraging efficiency for the species. Such reductions in foraging efficiency have been shown to result in nest failure or nest abandonment by the parents.

Finally, the close proximity to many humans and their activities establishes the possibility of inadvertent poisoning of the hawks if people are intentionally or even unintentionally introducing toxic substances into the food chain. Poisons put out for rats, mice, and squirrels have been shown to be ingested by raptors causing illness, sterility, and/or death (this was one of the major causes of the decline in California condors in the 1980's). Substances like antifreeze, while not meant to kill anything, may also be ingested by the hawks be fatal.

Thus, in summary, although almost two-thirds of the acreage of these four Precise Plan Areas is technically foraging habitat for the Swainson's Hawk at one time or another, the quality of this foraging habitat is so low that its loss to the hawks will have no significant impact on the species' population. I do not think that mitigation is called for.

Sincerely,

Walter Fordoff, Ph.D.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-581**

A RESOLUTION FINDING THAT THE FOLLOWING PROJECT IS WITHIN THE SCOPE OF THE VILLAGE ONE PROGRAM ENVIRONMENTAL IMPACT REPORT (SCH NO. 90020181), AS AMENDED BY THE SUPPLEMENTAL EIR: PRECISE PLAN FOR AREA NO. 17 AND CONCURRENT REZONING FROM SP-H TO SP-O, PROPERTY LOCATED AT THE NORTHEAST CORNER OF FLOYD AVENUE AND OAKDALE ROAD IN THE VILLAGE ONE SPECIFIC PLAN AREA (RONALD L. LaFORCE ET AL., MODESTO VENTURE 168, AND CHRIS & PAULINE GIANULIAS)

WHEREAS, the Modesto City Council has adopted Resolution No. 90-757 certifying that the Village One Final Environmental Impact Report (“EIR”) (State Clearing House No. 90020181) is complete and adequate pursuant to Section 15090 of the California Environmental Quality Act (“CEQA”) Guidelines, and

WHEREAS, the Modesto City Council has adopted Resolution No. 94-297 which certified the Final Supplemental EIR for Village One; thus, the 1990 Village One Program EIR has been superseded and updated by the 1994 Supplemental EIR, adopted on May 24, 1994, which Supplemental EIR incorporates by reference technical studies and background material from the 1990 Program EIR, and

WHEREAS, an application has been filed by Ronald L. LaForce et al., Modesto Venture 168, and Chris & Pauline Gianulias, for a Precise Plan for Area No. 17, property located at the northeast corner of Floyd Avenue and Oakdale Road, and

WHEREAS, the applicant has applied for approval of a rezoning from Specific Plan-Holding Zone, SP-H, to a Specific Plan-Overlay, SP-O, and

WHEREAS, the City’s Community and Economic Development Department reviewed the proposed project to determine if said project might have a significant effect on the environment, and

WHEREAS, City staff has prepared an Initial Study, Environmental Assessment No. EA/C&ED 2003-78, which concluded that the proposed project is within the scope of the Village One Program EIR (SCH No. 90020181), as amended by the Village One Supplemental EIR, and

WHEREAS, the Planning Commission, by Resolution No. 2003-55, adopted on September 8, 2003, and City staff, by a report dated October 1, 2003, from the Community and Economic Development Department, recommended to the City Council approval of Precise Plan No. 17 of the Village One Specific Plan, and recommended approval of an Amendment to Sections 11-3-9 and 14-3-9 of the Zoning Map to rezone from Specific Plan-Holding Zone, SP-H to Specific Plan-Overlay, SP-O, property located at the northwest corner of Floyd Avenue and Oakdale Road, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on October 28, 2003, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered Environmental Assessment No. EA/C&ED No. 2003-78, entitled "Projects Within the Scope of the Village One Specific Plan Program Environmental Impact Report for Precise Plans 2, 15, 16, & 17," for the proposed project, and the Council hereby makes the following findings:

1. The proposed Precise Plan and rezoning are consistent with the Village One Specific Plan and Modesto Urban Area General Plan.
2. There are no substantial changes proposed in the project which result in new significant environmental effects or a substantial increase in the severity of previously identified significant effects and, therefore, no major revisions to the Village One Program EIR, as amended by the 1994 Supplemental EIR, are required.

3. No substantial changes have occurred with respect to the circumstances under which the project is undertaken which will result in new significant environmental effects or a substantial increase in the severity of previously-identified significant effects and, therefore, no major revisions to the Village One Program EIR, as amended by the 1994 Supplemental EIR, are required.
4. There is no new information of substantial importance which was not known and could not have been known with the exercise of reasonable diligence when the Village One Program EIR, as amended by the 1994 Supplemental EIR, was adopted which shows any of the following:
 - a. one or more significant effects which is not discussed in the Village One Program EIR, as amended by the 1994 Supplemental EIR; or,
 - b. significant effects which were previously examined will be substantially more severe than previously shown; or,
 - c. previously infeasible mitigation measures or alternatives are now feasible and would substantially reduce one or more significant effects of the project, but the project proponents decline to adopt the mitigation measure or alternative; or,
 - d. mitigation measures or alternatives which are considerably different from those analyzed in the Village One Program EIR, as amended by the 1994 Supplemental EIR, would substantially reduce one or more significant effects on the environment, but the project proponents decline to adopt the mitigation measure or alternative.
5. The Initial Study, Environmental Assessment EA/C&ED 2003-78, provides the substantial evidence to support findings 2-4 noted above.

BE IT FURTHER RESOLVED that a copy of said Environmental Assessment No. EA/C&ED No. 2003-78, entitled "Projects Within the Scope of the Village One Specific Plan Program Environmental Impact Report for Precise Plans 2, 15, 16, & 17," is attached hereto as Exhibit "A", and incorporated herein as reference.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of October, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers Conrad, Fisher, Frohman, Jackman, Keating,
O'Bryant, Mayor Sabatino

WRITTEN CHECKLIST

EA/C&ED No. 2003-78

I. PURPOSE

On September 11, 1990, the Modesto City Council certified a Final Program Environmental Impact Report for the Village One Specific Plan (SCH# 90020181). This Program EIR analyzed the impacts of build-out of the Village One Specific Plan, which includes the area in which this project is proposed.

Subsequently, on May 24, 1994, the City Council certified a Supplement to the Village One Program EIR. This supplement updated and modified the original EIR.

Section 15182 of the CEQA Guidelines allows the approval of subsequent residential projects within the scope of the Project EIR without further environmental review, provided the following findings are made:

- (1) Major revisions to the Village One Program EIR as amended by the 1994 Supplement, are not required because the project will not involve new significant environmental effects or increase severity of effects previously identified, and
- (2) Major revisions to the Village One Program EIR as amended by the 1994 Supplement, are not required because no substantial changes to circumstances have occurred that involve new significant environmental effects or increase severity of effects previously identified, and
- (3) No new information of substantial importance that was not known has become available that shows:
 - a. one or more significant effects is not discussed in the Village One Program EIR as amended by the 1994 Supplement,
 - b. identified significant effects will be more severe,
 - c. previously infeasible mitigation measures are now feasible,
 - d. project proponents have declined to adopt mitigation measures that would substantially reduce significant effects.

The purpose of this initial study is to provide the substantial evidence to support the above findings.

The 1994 Supplemental EIR that amended and superseded the 1990 Program EIR is the document reviewed for projects within the Village One Specific Plan area. A summary of significant impacts and their mitigation measures from the 1994 Supplemental EIR is attached as Exhibit "A." Where appropriate those feasible mitigation measures developed in the Supplement to the program EIR shall be incorporated into the proposed project.

II. PROJECT INFORMATION

1. **Project Title:** Precise Plan Areas 2, 15, 16, & 17
2. **Lead Agency Name and Address:** City of Modesto
3. **Contact Person and Phone Number:** Brad Wall, Associate Planner
Modesto Community & Economic Development
Department
(209) 577-5267
4. **Project Location:** Between Sylvan and Floyd Avenues east of
Oakdale Road - Modesto, California
5. **Project Sponsor's Name and Address:** Ronald L. LaForce (et al)
P.O. Box 814
Modesto CA 95353
6. **General Plan Designation:** The General Plan land use designation for the
project site is: Village Residential (VR). This
designation allows the zoning & land uses
described within the proposed Precise Plans.
7. **Zoning:** Specific Plan Holding (SP-H)
8. **Description of Project:** Pursuant to the adopted Village One Specific Plan, the project
applicant proposes a total of approximately 625 single-family lots within the four Precise
Plans (see attached diagram).
9. **Surrounding Land Uses and Setting:** The Village One Specific Plan Area is over half
built, as planned and approved by the 1990 Village One Specific Plan. The project area is
surrounded largely by undeveloped land, which is designated by the Specific Plan for

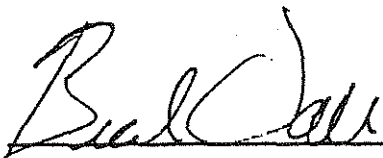

residential development. A mix of residential and commercial zoning and land surround the project site.

10. Other Public Agencies whose Approval Is Required: None.

III. DETERMINATION:

Based on the analysis contained in this document, staff finds that pursuant to Guidelines Section 15182 the following is true for the proposed project:

- (1) Major revisions to the Village One Program EIR as amended by the 1994 Supplement, are not required because the project will not involve new significant environmental effects or increase severity of effects previously identified, and
- (2) Major revisions to the Village One Program EIR as amended by the 1994 Supplement, are not required because no substantial changes to circumstances have occurred that involve new significant environmental effects or increase severity of effects previously identified, and
- (3) No new information of substantial importance that was not known has become available that shows:
 - a. one or more significant effects is not discussed in the Village One Program EIR as amended by the 1994 Supplement,
 - b. identified significant effects will be more severe,
 - c. previously infeasible mitigation measures are now feasible,
 - d. project proponents have declined to adopt mitigation measures that would substantially reduce significant effects.

Project Manager

August 22, 2003

Date

IV. PROJECT EVALUATION:

The following written Checklist based on Appendix G of the CEQA Guidelines serves to document the evaluation of the site and activity of the proposed project pursuant to CEQA Guidelines Section 15168 (c) (4) to determine whether the environmental effects of the operation were covered in the Program EIR.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
I. AESTHETICS. Would the project:				
a. Have a substantial adverse effect on a scenic vista?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings along a scenic highway?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c. Substantially degrade the existing visual character or quality of the site and its surroundings?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Create a new source of substantial light or glare that would adversely affect daytime or nighttime views in the area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Aesthetic and visual impacts are analyzed on pages III-100 through III-101 of the 1994 Supplement.

Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that as the Specific Plan area is developed, it will eliminate views of the valley and the distant mountains from adjacent areas and reduce the area's visual open space. However, the program EIR found the effects of buildout of Village One on scenic vistas to be less than significant because views from the project area are minimal. The proposed residential development would not change the extent or nature of construction in the Specific Plan area, or cause any other changes in the project area. Impacts on scenic vistas would therefore remain the same as those identified in the program EIR. There would be no additional impact. No mitigation is required.
- b. The Village One Specific Plan program EIR found that there are no scenic resources in the project area, and that development within the Specific Plan area would therefore not result in significant impacts on scenic resources. This

finding would not be affected by the proposed residential projects. There would be no impact. No mitigation is required.

- c. The Village One Specific Plan program EIR found that the development within the Specific Plan area would have a less-than-significant impact on the visual character of the area. The proposed residential development would not change the design or layout of the development proposed within the Village One Specific Plan. For this reason, impacts on the visual character of the area would remain the same as those identified in the program EIR. There would be no additional impact. No mitigation is required.
- d. The proposed residential development is consistent with the Village One Specific Plan. For this reason, impacts associated with additional light and glare would remain the same as those identified in the program EIR. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

II. AGRICULTURAL RESOURCES. In determining whether impacts on agricultural resources are significant environmental effects, lead agencies may refer to the California Agricultural Land Evaluation and Site Assessment Model (1997) prepared by the California Department of Conservation. Would the project:

- | | | | | | |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Conflict with existing zoning for agricultural use or conflict with a Williamson Act contract? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Involve other changes in the existing environment that, due to their location or nature, could result in conversion of Farmland to non-agricultural use? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts on agricultural resources are analyzed on pages III-80 through III-94 of the 1994 Supplement.

Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that land designated as Prime Farmland would be lost as a result of development in the Village One Specific Plan area. This impact was determined to be significant and not mitigable. The proposed residential development would not affect this finding because the project area would remain the same. There would be no additional impact. No mitigation is required.
- b. The Village One Specific Plan program EIR presented information showing that any Williamson Act contracts in the Village One Specific Plan area would be automatically cancelled on annexation of the land to the City of Modesto, which has occurred, or would expire within 10 years of the time the original program EIR was prepared. The last Williamson Act contract covering land in the Village One Specific Plan area expired in 2001. There are no lands in the project area under Williamson Act contract. The Village One Specific Plan area has also been rezoned consistent with the specific plan, and no lands in the project area are now zoned for agricultural use. There would be no additional impact. No mitigation is required.
- c. The Village One Specific Plan program EIR identified a potential land use conflict between new residential uses in the specific plan area and adjacent agricultural uses. Such conflicts can lead to conversion of adjacent farmlands to other uses. The program EIR proposed mitigation measures for this potential impact that would reduce the impact's significance, although the EIR noted that the mitigation measure might not fully mitigate the impact. No additional mitigation measures are available for this impact. This finding would not be affected by the proposed project because the project area and proposed land uses would remain the same. There would be no additional impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

III. AIR QUALITY. When available, the significance criteria established by the applicable air quality management or air pollution control district may be relied upon to make the following determinations. Would the project:

- | | | | | | |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Conflict with or obstruct implementation of the applicable air quality plan? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Violate any air quality standard or contribute substantially to an existing or projected air quality violation? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
c. Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is a nonattainment area for an applicable federal or state ambient air quality standard (including releasing emissions that exceed quantitative thresholds for ozone precursors)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Expose sensitive receptors to substantial pollutant concentrations?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e. Create objectionable odors affecting a substantial number of people?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on air quality are analyzed on pages III-45 through III-54 of the 1994 Supplement.

Responses to Checklist Questions

- a. / b. The Village One Specific Plan program EIR found that air pollution from project-related construction traffic and fireplaces & wood stoves in planned residential areas would violate air quality standards and contribute to an existing air quality violation. Construction traffic emissions would contribute to violation of the state and federal 8-hour carbon monoxide (CO) and particulate matter (PM10) standards and the federal ozone standard in the Modesto Urban Area and the San Joaquin Valley Air Basin. Urban traffic pollution would contribute to violations of the state ozone, CO, and PM10 standards in the Modesto Urban Area and San Joaquin Valley Air Basin. Residential pollution would contribute to violations of the pollutant standard index in the Modesto Urban Area. Partial mitigation for these impacts is included in the program EIR (Mitigation Measures 3-5), and the City of Modesto adopted a statement of overriding consideration for each impact. The proposed residential projects would not change the amount of development and construction in the project area, so trips generated by the project would not be affected and the types of land uses would not change. There would be no additional impact. No mitigation is required.
- c. The Village One Specific Plan program EIR found that air pollutant emissions associated with traffic at buildout of Village One would exacerbate the existing ozone, PM10, and CO violations in the Modesto area and cause a significant cumulative impact. Partial mitigation for these emissions is included in the program EIR (Mitigation Measures 4.5.3[a] and 4.5.3[b]), and the City of Modesto made a statement of overriding consideration for each impact. The proposed residential development would not change the amount of traffic associated with buildout of Village One or the types of land uses, so trips

generated by the project would not be affected. There would be no additional impact. No mitigation is required.

- d. The Village One Specific Plan program EIR found that PM10 generated during construction would aggravate the respiratory problems of people living and working nearby, therefore exposing sensitive receptors in the area to pollutant concentrations and causing a significant impact. However, the program EIR outlines mitigation measures that will be implemented to reduce the impact to an acceptable level (Mitigation Measure 40). The proposed residential development would not change the level of construction emissions. There would be no additional impact. No additional mitigation is required.
- e. The proposed residential development would not create odors. There would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

IV. BIOLOGICAL RESOURCES. Would the project:

- | | | | | | |
|----|---|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special-status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marshes, vernal pools, coastal wetlands, etc.) through direct removal, filling, hydrological interruption, or other means? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

	Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
e. Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f. Conflict with the provisions of an adopted habitat conservation plan, natural community conservation plan, or other approved local, regional, or state habitat conservation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on biological resources are analyzed on pages III-68 through III-79 of the 1994 Supplement.

Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that the buildout could result in the loss of foraging habitat for Swainson's Hawk, a state-listed threatened species, but found that mitigation measures identified in the program EIR would reduce the impact to a less-than-significant level. The project applicant has hired a qualified biologist to survey the project site in order to determine whether the project site contains foraging habitat for the Swainson's Hawk. The biologist's report is attached. There would be no additional impact. No additional mitigation is required.
- b. The Village One Specific Plan program EIR did not find that any riparian habitat or other designated sensitive natural community was present in the project area, and so found that the project would have a less-than-significant impact. The proposed residential development would not change the boundaries of the Specific Plan area. There would be no impact. No mitigation is required.
- c. The Village One Specific Plan program EIR found that buildout of the Village One Specific Plan area would result in the loss of lands that might be classified as wetlands by the U.S. Army Corps of Engineers but that, with mitigation, the impact would be less than significant. The proposed residential development would not change the Specific Plan area boundaries or the areas that would be disturbed. There would be no additional impact. No mitigation is required.
- d. The Village One Specific Plan program EIR did not identify any migratory corridors in the project area, nor did it find that the project would interfere with the movement of any species. The proposed residential development would not change the Specific Plan area boundaries. There would be no impact. No mitigation is required.
- e. / f. No local biological resource protection policies, ordinances, habitat conservation plans, or natural community conservation plans apply to the Village One Specific Plan area. There would be no impact. No mitigation is required.

	Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
V. CULTURAL RESOURCES. Would the project:				
a. Cause a substantial adverse change in the significance of a historical resource as defined in Section 15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b. Cause a substantial adverse change in the significance of an archaeological resource pursuant to Section 15064.5?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
c. Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d. Disturb any human remains, including those interred outside of formal cemeteries?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Responses to Checklist Questions

- a.-d. Impacts on cultural resources resulting from the buildout of Village One (e.g., from construction of associated infrastructure) are addressed in the Opportunities/Constraints Report prepared for the Modesto Planning Commission (December 1, 1989). The report concluded that there are no known historic, archaeological, or paleontological resources in the Village One Specific Plan area. Based on the results of this report, (Cultural and Historic Resources Report, page 3) it was determined that the likelihood that the proposed residential development would change or disturb human remains or significant historic, archaeological, or paleontological resources was low.

The proposed project would not change the locations or types of construction in the project area nor the boundaries of the project area. Development of the proposed project will not result in effects on scattered existing structures. A Cultural Resources Assessment was prepared to determine if any of these affected structures are considered historic resources. The Cultural Resources Assessment is attached to this document as Appendix A. No historic structures are located within the project area boundaries. Therefore, no mitigation measures are necessary.

Since no archaeological, or paleontological resources were found in the previous document to be located in the project area, and since the proposed project would not have a significant impact on historic structures, there would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

VI. GEOLOGY AND SOILS. Would the project:

- | | | | | | |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving: | | | | |
| | 1. Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? Refer to Division of Mines and Geology Special Publication 42. | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| | 2. Strong seismic groundshaking? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| | 3. Seismic-related ground failure, including liquefaction? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| | 4. Landslides? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Result in substantial soil erosion or the loss of topsoil? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Be located on a geologic unit or soil that is unstable or that would become unstable as a result of the project and potentially result in an onsite or offsite landslide, lateral spreading, subsidence, liquefaction, or collapse? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Be located on expansive soil, as defined in Table 18-1-B of the Uniform Building Code (1994), creating substantial risks to life or property? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e. | Have soils incapable of adequately supporting the use of septic tanks or alternative wastewater disposal systems in areas where sewers are not available for the disposal of wastewater? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Impacts associated with geology and soils are analyzed on pages III-105 through III-108 of the 1994 Supplement.

Responses to Checklist Questions

- a.-d. The program EIR, as supplemented, found that the project area is not subject to geologic or soil-related hazards that cannot be adequately mitigated through the implementation of existing city regulations, such as the building code. No significant impacts were identified, and no mitigation measures were required. The proposed residential development would not change the locations or types of construction in the project area nor the boundaries of the project area. There would be no additional impact. No mitigation is required.
- e. The Village One Specific Plan included provisions for the project to be served by public sewers. No septic tanks or alternative wastewater systems were proposed. The proposed residential project would not change the proposed method of wastewater disposal. There would be no impact. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
--------------------------------	---------------------------------------	------------------------------	-----------

VII. HAZARDS AND HAZARDOUS MATERIALS.

Would the project:

- | | | | | | |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Emit hazardous emissions or involve handling hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d. | Be located on a site that is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e. | Be located within an airport land use plan area or, where such a plan has not been adopted, be within two miles of a public airport or public use airport, and result in a safety hazard for people residing or working in the project area? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

		Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
f.	Be located within the vicinity of a private airstrip and result in a safety hazard for people residing or working in the project area?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
g.	Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
h.	Expose people or structures to a significant risk of loss, injury, or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts associated with hazards and hazardous materials are analyzed on pages III-80 through III-94 and III-109 through III-119 of the 1994 Supplement.

Responses to Checklist Questions

- a.-c. The Village One Specific Plan does not allow any land uses that would use hazardous materials. The proposed residential development would not change land uses contemplated by the Specific Plan. There would be no impact. No mitigation is required.
- d. The Village One Specific Plan program EIR, as supplemented, found no hazardous materials were stored at or near the project site. No significant impacts were identified, and no mitigation measures were required. There would be no additional impact. No mitigation is required.
- e. The Village One Specific Plan area is not located in an airport land use plan area or within 2 miles of a public airport. There would be no impact. No mitigation is required.
- f. The Village One Specific Plan program EIR found that a private airstrip, the Eastside Mosquito Abatement District Airstrip, is located to the east of the Village One Specific Plan area. However, take-offs and landings were found to take place parallel to and outside the Specific Plan area boundaries, and flight patterns are generally situated to the east of the Specific Plan area. There would be no additional impact. No mitigation is required.
- g. Since the adoption of the Village One Specific Plan, the Modesto General Plan has been updated to include development of Village One consistent with the specific plan. City emergency plans are developed with the assumption that the Village One Specific Plan will be implemented. The proposed residential development would not change construction, land use, or other physical attributes

	Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
g. Place housing within a 100-year flood hazard area, as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
h. Place within a 100-year flood hazard area structures that would impede or redirect floodflows?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
i. Expose people or structures to a significant risk of loss, injury, or death involving flooding, including flooding as a result of the failure of a levee or dam?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
j. Contribute to inundation by seiche, tsunami, or mudflow?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts associated with hydrology are analyzed on pages III-109 through III-119 of the 1994 Supplement.

Responses to Checklist Questions

- a. The Village One Specific Plan program EIR did not find that residential development would violate any water quality standards or waste discharge requirements. The proposed project is consistent with the Village One Specific Plan, so there would be no additional impacts. No mitigation is required.
- b. The Village One Specific Plan program EIR found that buildout of the Village One Specific Plan area might interfere with local groundwater recharge. However, the impact was found to be less than significant because the Specific Plan area is not a major groundwater recharge area and it includes a recharge/discharge plan for disposal of stormwater runoff and recharge of groundwater. The proposed project would not change the amount of impervious surface in the Specific Plan area or the proposed storm drain facilities. There would be no additional impact. No mitigation is required.
- c.-e. The Village One Specific Plan program EIR found that development will substantially alter the existing drainage pattern of the area but, because the project will incorporate an urban storm drain system, will not result in any erosion impacts. The proposed project would not change the amount of impervious surface or the proposed storm drain facilities. There would be no additional impact. No mitigation is required.
- f. The Village One Specific Plan program EIR did not find that development would substantially degrade water quality. The proposed project would not change water use or discharge associated with the buildout of the Village One Specific Plan area. There would be no additional impact. No mitigation is required.

		Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
X. MINERAL RESOURCES.	Would the project:				
a.	Result in the loss of availability of a known mineral resource that would be of value to the region and the residents of the state?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
b.	Result in the loss of availability of a locally important mineral resource recovery site delineated on a local general plan, specific plan, or other land use plan?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Responses to Checklist Questions

a., b. No known mineral resources or important recovery sites are located in the Village One Specific Plan Area. There would be no impact. No mitigation is required.

		Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
XI. NOISE.	Would the project:				
c.	Result in a substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
d.	Result in a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
e.	Be located within an airport land use plan area, or, where such a plan has not been adopted, within two miles of a public airport or public use airport and expose people residing or working in the project area to excessive noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f.	Be located in the vicinity of a private airstrip and expose people residing or working in the project area to excessive noise levels?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts associated with noise are analyzed on pages III-55 through III-67 of the 1994 Supplement.

Impacts on population and housing are analyzed on pages III-95 through III-99 of the 1994 Supplement.

Responses to Checklist Questions

- a.-c. The Village One Specific Plan program EIR found that buildout of the Village One Specific Plan area would not result in significant adverse impacts on population and housing units. No mitigation is required.

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than-Significant Impact	No Impact
--------------------------------	--	------------------------------	-----------

XIII. PUBLIC SERVICES. Would the project:

- a. Result in substantial adverse physical impacts associated with the provision of new or physically altered governmental facilities or a need for new or physically altered governmental facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times, or other performance objectives for any of the following public services:

Fire protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Police protection?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Schools?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Parks?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Other public facilities?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on public services are analyzed on pages III-120 through III-158 of the 1994 Supplement.

Responses to Checklist Questions

- a. The Village One Specific Plan program EIR found that the only significant impact that buildout of the Village One Specific Plan area would have on public services would be in the areas of fire protection and law enforcement. Mitigation measures were identified in the program EIR to reduce the level of this impact to a less-than-significant level. No other significant impacts on public services were identified. The proposed project would not change the provision of public services. There would be no additional impact. No mitigation is required.

	Potentially Significant Impact	Less than Significant with Mitigation	Less-than-Significant Impact	No Impact
e. Result in inadequate emergency access?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
f. Result in inadequate parking capacity?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>
g. Conflict with adopted policies, plans, or programs supporting alternative transportation (e.g., bus turnouts, bicycle racks)?	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>

Impacts on transportation and traffic are analyzed on pages III-40 – III-44 of the 1994 Supplement.

Responses to Checklist Questions

- a., b. The Village One Specific Plan program EIR found that buildout of the Village One Specific Plan area would cause an increase in traffic that is substantial in relation to the existing traffic load and capacity of the street system and would affect level of service at several intersections. Mitigation measures identified in the program EIR were identified to reduce impacts to a less-than-significant level for all intersections except the Briggsmore Avenue/Oakdale Avenue intersection. For that intersection, the impact was determined to be significant and not mitigable. The City of Modesto made a statement of overriding considerations for that impact at the time it certified the 1994 Supplement. The proposed project would not alter traffic patterns in the Specific Plan area or result in additional trips. There would be no additional impact. No mitigation is required.
- c. The Village One Specific Plan program EIR did not find that the buildout of the Village One Specific Plan area would result in a change in air traffic patterns. The proposed project does not include any elements that would affect air traffic patterns. There would be no impact. No mitigation is required.
- d. The Village One Specific Plan program EIR did not find that buildout of the Village One Specific Plan area included any hazardous design features or increased any incompatible uses for roads in the project area. The proposed project would not change roadway design or land uses. There would be no impact. No mitigation is required.
- e. The Village One Specific Plan program EIR did not find that buildout of the Village One Specific Plan area would result in inadequate emergency access in the Specific Plan area. The Specific Plan includes provision of adequate roadways to serve the Village One development. The proposed project would not change roadway design or land uses contained within the Specific Plan. There would be no additional impact. No mitigation is required.
- f. The Village One Specific Plan program EIR did not find that buildout of the Village One Specific Plan area would result in inadequate parking capacity in the Specific Plan area. The provision of parking, consistent with zoning

Potentially Significant Impact	Less than Significant with Mitigation Incorporated	Less-than- Significant Impact	No Impact
--------------------------------------	--	-------------------------------------	--------------

XVII. MANDATORY FINDINGS OF SIGNIFICANCE.

- | | | | | | |
|----|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| a. | Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal, or eliminate important examples of the major periods of California history or prehistory? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| b. | Does the project have impacts that are individually limited but cumulatively considerable? ("Cumulatively considerable" means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effects of other current projects, and the effects of probable future projects.) | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| c. | Does the project have environmental effects that will cause substantial adverse effects on human beings, either directly or indirectly? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

Cumulative impacts are analyzed on page III-161 of the 1994 Supplement.

Responses to Checklist Questions

- a. As described above, the proposed project would not result in any significant impacts on the environment over and above those associated with implementation of the Village One Specific Plan and as analyzed in the Village One Specific Plan program EIR.
- b. As described above, the proposed project would not result in any significant impacts, either on a project or on cumulative level, over and above those associated with implementation of the Village One Specific Plan and as analyzed in the Village One Specific Plan program EIR.
- c. As described above, the proposed project would not result in any significant impacts affecting humans over and above those associated with implementation of the Village One Specific Plan and as analyzed in the Village One Specific Plan program EIR.

V. MITIGATION APPLIED TO PROJECT

The following mitigation measures developed in the 1994 Village One Specific Plan Supplement to the Program EIR are appropriate to the project and will be incorporated into the project. Therefore, the environmental effects of the project were covered by the program EIR.

1. "All deeds for lots sold in this subdivision shall contain the following statement:

"This lot is located near existing agricultural operations. Residents may be subjected to customary and accepted farming practices that produce noise, dust, smoke and other impacts. The grantee accepts the potential impacts of customary farming practices, which may include the application and use of various, chemicals through spraying, spreading or other customary means in accordance with applicable state and federal regulations regarding such applications. The grantee also acknowledges the need to avoid activities that conflict with nearby farm uses."

2. The following statement shall be placed in all Precise Plans for Residential Development:

Prior to the Final Inspection, Building Inspection Division shall verify that all fireplaces and wood stoves in residential units are equipped to meet the performance and emissions standards set forth in Part 60, Title 40, Subpart AAA Code of Federal Regulations, February 26, 1988.

3. Noise mitigation for residential dwellings is required along the following streets up to the indicated distance:

Without acoustical treatment, noise levels inside proposed residential housing along the following project area major streets would exceed 45 dBA, the City's General Plan standard. The street segments and distances in feet from centerline these impacts would occur are:

Floyd Avenue (from Oakdale Road to Roselle Avenue): 106 ft.

Oakdale Road (from Sylvan Avenue to Floyd Avenue): 214 ft.

Source: Brown-Buntin Associates Noise Study, April 1993

4. "Construction noise is regulated by the City's Noise Ordinance, Section 4.9 – 103. Construction noise is generally permitted during the hours of 7:00 am to 9:00 pm. To avoid complaints from nearby residents, and possible citations, the full text of the ordinance should be reviewed by builders prior to construction. City construction projects will be monitored by Construction Inspection for conformance with the City's Noise Ordinance."

INTRODUCTION

Swainson's Hawk, *Buteo swainsoni*, is a species of large hawk which nests in the Central Valley of California. It is a California state listed threatened species and thus it is protected, as is its nesting and foraging habitat. The large Village One development in Modesto, California has been divided into 35 "Precise Plan Areas". An earlier study had identified, in general terms, possible Swainson's Hawk foraging habitat within this development. This study was undertaken to assess the foraging habitat for Swainson's Hawk in four of the Precise Plan Areas (2, 15, 16, and 17). Swainson's Hawks forage for food in a prescribed manner. As is typical of a number of other large hawks, they forage during the daylight hours by soaring high above the ground and watching for suitable prey (mostly small mammals such as mice and ground squirrels, but also large insects like grasshoppers). Once prey is spotted the bird dives to the ground to capture it. Thus suitable foraging habitat must be relatively clear of high vegetation for two reasons: to allow the hawk to see the prey; and to allow the hawk to swoop down upon it without hitting branches or other high vegetation. Thus, open fields and low growing croplands are suitable but orchards, vineyards, and tall crops (mature corn) are not. Corn fields thus present different situations at different stages. Until the corn plants exceed a certain height (1-2 feet) the fields are suitable for foraging. Taller than that, they are not, but once cut down, they are suitable again. Since the Swainson's Hawk is only present in the Central Valley during Spring and Summer and nesting occurs predominantly from April through July, it is the condition of the fields at that time which is most important.

QUALIFICATIONS

My Curriculum Vita (resume) is attached. In summary, I have a Ph.D. in Zoology with over 30 years of university teaching experience in ecology and ornithology and appropriate research experience in each including conducting numerous wildlife surveys in Stanislaus County. I am also an ardent bird watcher who has spent many hours observing Swainson's Hawks both in California and throughout its range in the United States.

FIELD WORK

I visited the area on July 21 and 25, 2003 to both assess Swainson's Hawk foraging habitat and to determine the extent of that habitat individually, as well as collectively, in each of the four Precise Plan Areas.

DESCRIPTION OF THE AREA(S)

The four Precise Plan Areas are located at the western end of Village One, areas 2 and 17 ordering Oakdale Road to the west and extending from Sylvan Avenue on the north (area 2) to Floyd Avenue on the south (area 17). Areas 16 and 15 continue east from the eastern edge of areas 2 and 17 to the eastern boundary of Ustach Middle School, occupying approximately the middle third of the land between Sylvan and Floyd

Swainson's Hawk Foraging Habitat Survey - Precise Plan Areas 2, 15, 16, 17 page 3

Precise Plan Area 16

Just to the west of area 15, this is the only one of the four areas that does not have any human development at the present time. It is entirely agricultural with a vineyard (@5.3 acres) being the only non foraging habitat, and the rest of the land planted in corn.

Precise Plan Area 17

The northern portion of this parcel is developed as a house, outbuildings, yard, and garden (@12.5 acres). The rest of the land is recently disked fallow cropland which is Swainson's Hawk foraging habitat.

ASSESSMENT OF THE SWAINSON'S HAWK FORAGING HABITAT

Simply presenting the numbers above does not give an adequate picture of the value of this land as foraging habitat for the Swainson's Hawk. On the one hand, I have seen Swainson's Hawks in the vicinity of this land engaged in foraging behavior in the past so this land has probably been used. On the other hand, I would assess the quality of this land as Swainson's Hawk foraging habitat as low for the following reasons.

First, the preferred food of this hawk is small mammals, the predominant one in this area being the California ground squirrel. This species is present in these areas in low numbers but only on higher ground (such as the dirt track running from Hillglen Avenue south on the west side of Ustach Middle School to the south end of the school and then turning east as the southern boundary of areas 15 and 16) because their burrows are destroyed in the lower areas that are plowed and flood irrigated. In less intensively cultivated areas, ground squirrels occur at much higher densities.

Second, since this land is surrounded by urban areas including housing developments, schools, and commercial establishments with a lot of automobile traffic on the roads and people walking through the area, the hawks are much more likely to be disturbed while foraging and feeding which may drastically reduce the foraging efficiency for the species. Such reductions in foraging efficiency have been shown to result in nest failure or nest abandonment by the parents.

Finally, the close proximity to many humans and their activities establishes the possibility of inadvertent poisoning of the hawks if people are intentionally or even unintentionally introducing toxic substances into the food chain. Poisons put out for rats, mice, and squirrels have been shown to be ingested by raptors causing illness, sterility, and/or death (this was one of the major causes of the decline in California condors in the 1980's). Substances like antifreeze, while not meant to kill anything, may also be ingested by the hawks be fatal.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-582**

**A RESOLUTION APPROVING THE REMOVAL OF TWO MID-BLOCK
CROSSWALKS ON 10TH AND 12TH STREETS BETWEEN H AND I STREETS.**

WHEREAS, with the construction of the Gallo Performing Arts Center and the 12th Street Office Project, the east side of 10th and 12th Streets has been fenced off between H Street and I Street, and the two mid-block crosswalks have been temporarily closed for the past 8 months, and

WHEREAS, the Gallo Performing Arts Center will not create additional parking, but pedestrian activity will dramatically increase with its completion, and

WHEREAS, the 12th Street Office Project will include a 6-story parking structure, which will also impact pedestrian activity, and

WHEREAS, based on concerns for pedestrian safety and downtown traffic flow, in combination with anticipated increases in new pedestrian traffic, staff recommends removal of both mid-block crosswalks on 10th and 12th Streets, and

WHEREAS, on September 10, 2003, a 30-day "Notice of Removal" for public review was placed at the mid-block crosswalk locations, and

WHEREAS, on September 14, 2003, notice of the proposed mid-block crosswalk removals was duly published in The Modesto Bee in order to gather public input, and

WHEREAS, only one comment against removal of the existing mid-block crosswalks was received, and

WHEREAS, the Economic Development Committee reviewed and recommended removing the two mid-block crosswalks at their meeting on October 13, 2003,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the removal of two mid-block crosswalks on 10th and 12th Streets between H and I Streets.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of October 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating, O'Bryant

NOES: Councilmembers: None

ABSENT: Councilmembers: Sabatino

ATTEST: Jean Zahr
JEAN ZAHR, City Clerk

APPROVED AS TO FORM:

MICHAEL D. MILICH, CITY ATTORNEY

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-583**

A RESOLUTION AUTHORIZING FILING AN APPLICATION WITH THE ECONOMIC DEVELOPMENT BANK FOR THE ROUTE 132 EAST INFILL WIDENING PROJECT IN THE AMOUNT OF \$420,000 WITH CO-APPLICANTS CITY OF CERES, CITY OF WATERFORD AND STANISLAUS COUNTY, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE NECESSARY DOCUMENTS

WHEREAS, the Stanislaus County Board of Supervisors has approved the formation of the ECONOMIC DEVELOPMENT BANK (“Bank”) for the purpose of providing resources for economic development projects throughout Stanislaus County, and

WHEREAS, Stanislaus County has made \$750,000 available for the first round of Fiscal Year 2003/2004 funding, and

WHEREAS, the Stanislaus County Board of Supervisors has established the procedures and criteria for application of said funds, and

WHEREAS, said procedures require the applicants submit competitive proposals to the Stanislaus Economic Development and Workforce Alliance (“Alliance”), as the Board of Directors for the Bank, and

WHEREAS, said procedures require the applicant agencies submit a resolution certifying the approval of the application by the applicant’s governing body before submission of the application to the Alliance, and

WHEREAS, the Stanislaus Council of Governments (StanCOG) is determined to design and build a state highway project using private sector expertise, to demonstrate that local governments working together can build such projects cheaper and faster than Caldrons, and

WHEREAS, The StanCOG Policy Board has selected the Route 132 East Infill Widening Project (Frazine/Codoni to Riverside Drive) as a pilot project to demonstrate the viability of this new approach to delivering state highway projects, and

WHEREAS, the Route 132 project will facilitate over 15,000 daily truck trips and 27,000 peak season jobs in the Beard Industrial Tract by reducing congestion and making safety and operational improvements to this key economic development corridor, and

WHEREAS, StanCOG has identified a need for \$1,555,000 to complete all of the pre-construction work for the Route 132 project, of which the StanCOG Policy Board has determined the \$420,000 should be sought from the Bank, and

WHEREAS, StanCOG has asked the cities of Ceres, Modesto, and Waterford, and the County of Stanislaus, to join together in applying for the \$420,000 because the benefits of the Route 132 project will accrue primarily to those four communities, and

WHEREAS, the loan will be repaid by the State of California using the Stanislaus Council of Governments (StanCOG) future State Transportation Improvement Program (STIP) county shares, through an agreement which is being prepared between StanCOG and the California Transportation Commission, under the provisions of AB 3090, and

WHEREAS, StanCOG has agreed to provide \$215,000 of Regional Surface Transportation Funds and to secure from other sources all remaining funds to reach the required \$1,555,000 total,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the filing of an application with the Bank for the Route 132 East Infill Widening Project in the amount of \$420,000.

BE IT FURTHER RESOLVED that the City Manager is hereby authorized to work with the City of Ceres, City of Waterford, Stanislaus County and StanCOG to execute and submit all necessary documents for the completion of the application for funds.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of October, 2003 by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating,
O'Bryant, Mayor Sabatino

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-584**

**A RESOLUTION APPROVING THE INSTALLATION OF A
ROUNDBOUT AT THE INTERSECTION OF FLOYD AVENUE AND
ROSELLE AVENUE**

WHEREAS, City staff was asked to provide a traffic signal/roundabout comparison analysis for the intersection of Floyd Avenue and Roselle Avenue (Floyd/Roselle), and

WHEREAS, staff has determined that roundabouts are more efficient than traffic signals and stop signs because they provide minimum delay; therefore, vehicles do not stack up at the approaches as would occur at signalized intersections, and

WHEREAS, the latest Insurance Institute study shows up to 70% reduction in 0.injury accidents through roundabouts as compared to stop signs or traffic signal-controlled intersections, and

WHEREAS, staff provided a simulation to the Transportation Policy Committee at their December 20, 2001 meeting, and

WHEREAS, staff was directed to return to the Transportation Policy Committee on February 21, 2002 to incorporate the commercial property and its accesses located on the southeast corner of Floyd Avenue and Roselle Avenue, and

WHEREAS, this matter was referred back to staff to review the concept of a roundabout at the Floyd/Roselle intersection, and

WHEREAS, on September 3, 2002, by Resolution No. 2002-432 the City Council adopted a Roundabout Policy, and

WHEREAS, staff provided a simulation for the Floyd/Roselle intersection at the February 10, 2003, meeting of the Economic Development Committee for their consideration, and

WHEREAS, the developer's representative, Dave Romano, requested additional time to prepare a rebuttal to staff's recommendation, and

WHEREAS, on June 9, 2003, the Economic Development Committee approved the proposed roundabout at Floyd/Roselle, and

WHEREAS, staff prepared an agenda report to go to full Council on August 6, 2003, and the developer requested that this item be pulled from the August 6, 2003 agenda and be brought back again to the Economic Development Committee in September to discuss a new proposal (financial), and

WHEREAS, this item was scheduled for the September 8, 2003 Economic Development Committee, and the developer's representative again asked for an extension, and

WHEREAS, on October 13, 2003, the Economic Development Committee approved the proposed roundabout at Floyd/Roselle, and

WHEREAS, the proposed roundabout for Floyd/Roselle complies with the Roundabout Policy,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the installation of a roundabout at the intersection of Floyd Avenue and Roselle Avenue.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on 28th day of October, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Fisher, Frohman, Jackman, Mayor Sabatino

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003 - 585**

A RESOLUTION AMENDING THE FISCAL YEAR 2003-2004 ANNUAL BUDGET

WHEREAS, a monthly financial analysis has been completed and it has been determined that certain adjustments are required to the Annual Budget of the City of Modesto for the Fiscal Year 2003-2004,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that appropriations, revenues, and transfers for the 2003-2004 budget have been adjusted as shown in Schedule A.

BE IT FURTHER RESOLVED that the Finance Director is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 5th day of November, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-586**

A RESOLUTION APPROVING A DOWN PAYMENT ASSISTANCE PROGRAM (DPAP) LOAN TO DANIEL J. DEVELBISS FOR PROPERTY LOCATED AT 4033 DALE ROAD #C, MODESTO, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE LOAN AGREEMENT.

WHEREAS, the City of Modesto has a Down Payment Assistance Program (DPAP) funded through a Federal Community Development Block Grant (CDBG), and

WHEREAS, the City Council must approve all loans under this program for over \$25,000, and

WHEREAS, staff recommends approving a \$60,000 DPAP loan to Daniel J. DeVelbiss, for a loan with principal only payments of \$50.00 per month for the first five years, and

WHEREAS, at the beginning of the sixth year, interest will start to accrue at 3% annually on the loan balance of \$57,000, and there will be a monthly amortized payment of \$270.30 from years six through thirty, and

WHEREAS, this property is located at 4033 Dale Road # C, Modesto, and

WHEREAS, the Housing Rehabilitation Loan Committee (HRLC) met on October 23, 2003, and supported and recommended the loan amount and terms,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves the request for a Down Payment Assistance Program (DPAP) loan to Daniel J. DeVelbiss, for property located at 4033 Dale Road # C, Modesto, in the amount of \$60,000.

BE IT FURTHER RESOLVED that principal only payments of \$50.00 per month will be paid for the first five years, and at the beginning of the sixth year, interest will start to accrue at 3% annually on the loan balance of \$57,000, with a monthly amortized payment of \$270.30 from years six through thirty.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the loan agreement.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 5th day of November, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-587**

A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO PURCHASE A CATERPILLAR 420D BACKHOE FROM HOLT OF CALIFORNIA, STOCKTON, CA FOR A TOTAL ESTIMATED COST OF \$68,656.07

WHEREAS, the Operations and Maintenance Department-Fleet Services has requested the purchase of a Caterpillar 420D backhoe, and

WHEREAS, the new storm water basins are larger and require a higher level of maintenance which can be performed by the Caterpillar 420D backhoe, and

WHEREAS, this additional backhoe will be used by the maintenance crews, and

WHEREAS, CFD funds are being made available for the City to perform maintenance, and

WHEREAS, Section 8-3.203 of the Modesto Municipal Code generally requires all purchases exceeding \$50,000 for materials and equipment of this type to be formally bid, and

WHEREAS, Modesto Municipal Code Section 8-3.204(d) allows the Purchasing Supervisor to utilize process other than the formal bid procedure, if it will result in a procurement for the City for the lowest possible cost commensurate with the desired quality, and

WHEREAS, piggybacking off the State of California Multiple Award Schedule (CMAS) will achieve the lowest cost at the desired quality, and

WHEREAS, at its meeting on August 13, 2003, the Finance Committee authorized City staff to take this requirement purchase to Council for approval.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Purchasing Supervisor is hereby authorized to purchase said equipment off the CMAS contract and issue a purchase order to Holt of California of Stockton, Ca. for one (1) Caterpillar 420D backhoe for a total estimated cost of \$68,656.07.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 5th day of November, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-588**

**A RESOLUTION APPROVING A CONTRACT FOR THE PRECISE PLAN,
ENVIRONMENTAL DOCUMENTS AND PERMITTING WITH EDAW, INC. IN
THE AMOUNT OF \$380,205.00 AND AUTHORIZING THE CITY MANAGER
TO EXECUTE THE CONTRACT DOCUMENTS.**

WHEREAS, the Tuolumne River Regional Park (TRRP) Master Plan and Master Environmental Impact Report (MEIR) were developed over a two-year period and were approved and certified by the agencies of the TRRP Joint Powers Authority on December 12, 2001, and

WHEREAS, the first phase recommended for development in the TRRP Master Plan is the Gateway Parcel, and

WHEREAS, in order to move toward the development of the Gateway Parcel, a Precise Plan and Environmental Documents are needed, and

WHEREAS, after an extensive interview process it was the unanimous recommendation of an interview panel and of the Citizen's Advisory Committee to the TRRP Commission and Modesto City Council that EDAW, Inc. was the most qualified to provide a Precise Plan and Environmental Documents for the Gateway Parcel, and

WHEREAS, by Resolution No. 2003-337, the City Council accepted a proposal from EDAW Inc. to provide a Precise Plan, Environmental and Construction documents for the Gateway parcel of the Tuolumne River Regional Park; authorizing staff to negotiate a contract with EDAW to complete the Precise Plan and Environmental documents at a cost not to exceed \$350,000 and to return to Council at a later date for contract approval; and authorizing staff to negotiate a contract with EDAW to complete

future Construction documents for the Gateway parcel as funding becomes available and to return to Council at a later date for said contract approval, and

WHEREAS, the original RFP presented by EDAW requested base mapping and survey work to be provided by the City, and

WHEREAS, City staff and EDAW have determined that this service should be performed as a part of this agreement at an additional cost of \$30, 205, and

WHEREAS, City staff has negotiated a contract for a total of \$380, 205, which includes the Council approved price of \$350,000 plus the base mapping and survey work described above, and

WHEREAS, an additional \$15,000 is needed for contingencies and \$20,000 for staff project administration costs for a total project cost of \$415,205, and

WHEREAS, the Tuolumne River Regional Park Citizens Advisory Committee met on September 24, 2003, and supported the recommendation that the City of Modesto enter into an agreement with EDAW, Inc. to provide a Precise Plan and Environmental Documents for the Gateway Parcel of the Tuolumne River Regional Park and supported approval of the expenditure of \$380,205 to EDAW, Inc., with a total expenditure of \$415, 205 to include staff time and contingencies, and

WHEREAS, the Tuolumne River Regional Park Commission met on October 13, 2003, and recommended that the City of Modesto enter into an agreement with EDAW, Inc. to provide a Precise Plan and Environmental Documents for the Gateway Parcel of the Tuolumne River Regional Park, recommended approval of the expenditure of \$380,205 to EDAW, Inc., with a total expenditure of \$415, 205 to include staff time and

contingencies, and recommended approval of the requested budget amendment to fully fund this portion of the project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves a contract for the Precise Plan, Environmental Documents and Permitting with EDAW, Inc. in the amount of \$380,205, with a total expenditure of \$415,205 to include staff time and contingencies, as described in **Exhibit "A"** attached hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED that the City Manager or his designee is hereby authorized to execute the contract documents.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 5th day of November, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: None

Attest: Jean Zahr
JEAN ZAHR, City Clerk

APPROVED AS TO FORM:

By: Michael D. Milich
MICHAEL D. MILICH, City Attorney

EXHIBIT “A” or “Project”

Scope of Work Tuolumne River Regional Park, Gateway Parcel Precise Plan and Environmental Documentation

Project Description:

The City of Modesto, on behalf of the Tuolumne River Regional Park Commission (TRRP Commission), wishes to develop the Gateway Parcel of the Tuolumne River Regional Park (TRRP). The total site area is approximately 87 acres. The TRRP Commission envisions the site to be high-profile public gathering place close to commercial centers of Modesto and Ceres and accessible to the rest of the region along major arterial streets and Highway 99, as defined in the TRRP Master Plan, which was adopted by Stanislaus County, City of Ceres and City of Modesto by resolution in December 2001. The Gateway Parcel is one of several parcels in the TRRP Master Plan that require a precise plan and environmental work to be completed before construction can begin. The Precise Plan will define three phases of construction. Each phase will require the services of EDAW to prepare and produce the construction documentation necessary to complete that phase. The construction estimate for the entire build-out of the Gateway Parcel is \$21 Million.

Specific Plans and Environmental Work

It is anticipated that the Precise Plan, environmental work and construction documents will include, but are not limited to, the following elements:

- Site preparation, grading, terracing and drainage
- Riparian restoration
- Pavement areas:
 - roadways
 - parking lots
 - pathways
 - play area borders
 - pads for benches
 - pads for picnic tables
 - pads for shade structures
 - bridge abutments
 - staging areas
 - bridge under-crossings
 - pier abutments and terracing
 - median island paving
 - vista points and rest area pads
 - seat walls and respite areas
 - restrooms
 - other paved areas as determined by the precise plan

- Restrooms

- Landscaping
- Automatic irrigation system including central control
- All utilities with stub-outs when appropriate
- Drinking fountains with utility connections
- Site furnishings
- Conduit for all utilities
- Fencing
- Play equipment including curb ramps and all surfacing
- Water play feature
- Utility buildings
- Picnic facilities (including shade structures, picnic tables, and barbecues)
- Security lighting
- A parking complex of lots
- Tuolumne Boulevard Extension and connections to adjoining streets
- Amphimeadow and appurtenant support structures

The City of Modesto, on behalf of the TRRP Commission, wishes to contract for the Precise Plan, environmental work, permitting and all related services as outlined in Exhibit 'A' or 'Project', Scope of Work. This work is to be completed as funding becomes available, and contingent upon the schedule set forth in this Agreement.

Professional Services:

I. PRECISE PLAN

This scope of work for the Gateway Parcel Precise Plan will require a series of integrated, multidisciplinary tasks in order to achieve one goal: the creation of a plan that illustrates the future direction of the park. This plan will be as seamless as possible as it addresses all aspects of planning and design. The end product of this plan will communicate to the public not only the technical discussion of how to build it, but also the look and feel of the park and how it will be used. The Precise Plan will be important in setting design criteria and establishing guidelines for development of the park prior to construction.

Task 1.0: Project Start Up

Total Cost Not to Exceed. **\$ 66,629.00**

Task 1.1: Basemapping, Site and Survey Confirmation

EDAW, Inc. will review available base information provided by the City. In addition, EDAW, Inc. will conduct surveying and mapping activities needed for this project and will make this information available to the subconsultants in accordance with the project schedule. It is assumed that, prior to the survey and aerial photography work, the City will provide legal boundary and easement (right-of-way) descriptions to be mapped in the survey and included in all base drawings. As part of these surveying activities, a 3-Dimensional DTM (digital terrain map) that is AutoCAD compatible and is representative of the existing project conditions to within 1 foot of accuracy will be developed by Aspen Survey. The survey will identify

topography, existing trees, underground utilities, and all features of infrastructure relevant to the project. Current aerial photography will be provided by Aspen Survey. EDAW, Inc. will review the aerial photography and the survey of existing topography, existing trees, riverbank grades, underground utilities, and verify site conditions with the intention of identifying specific issues or concerns that will need to be addressed early in the process. The City shall not be responsible for base information accuracy. Any changes to the base map will be provided and documented by EDAW and provided to the City.

Deliverables: One (1) hard copy and one (1) CD with the AutoCAD file of the *Site Survey* to the City of Modesto Parks, Recreation and Neighborhoods (PR&N) staff for review and comment.

Task 1.2 Site Plan & Program Review Workshop

EDAW, Inc. is the author of, and familiar with the Tuolumne River Regional Park (TRRP) Master Plan, Master Environmental Impact Report (MEIR), CEQA Findings, Statement of Overriding Considerations, and the Mitigation Monitoring Program. EDAW, Inc. will proceed immediately into the detailed site review. EDAW, Inc. will conduct an in-house team review of the key components and program elements of the Gateway Parcel. These components include, but are not limited to, the following: site access, grading, landscape restoration, parking, planting, site and hydraulic engineering, permitting, and environmental analysis. EDAW, Inc. will review these components as they relate to each other, and how they may or may not affect the specific program elements. EDAW, Inc. will identify early in the process any specific concerns that will require further study during the Precise Plan development. EDAW will identify issues related to the trails layout, river overlooks, amphimeadow, fishing piers, and other site elements, and develop solutions as to how to integrate environmental mitigation measures with site design and engineering. EDAW, Inc. will facilitate a dialogue between the landscape architects, engineers, and environmental planners.

Deliverables: One (1) copy of the *Minutes of the Site Plan & Program Review Workshop* to the City of Modesto Parks, Recreation and Neighborhoods (PR&N) staff for review and comment.

Task 1.3: Client Kick-Off Meeting

EDAW, Inc. will conduct a team in-house review and will present the initial findings to City PR&N staff and TRRP representatives to formally kick off the project. EDAW, Inc. will confirm the Precise Plan process, and set in motion specific tasks that will need to be accomplished in this phase. EDAW, Inc. will have a roundtable discussion to review all of the site-related issues that will require further study.

Deliverables: One (1) copy of the *Minutes from the Client Kick-Off Meeting* to the City PR&N staff for review and comment.

Task 1.4: Public Meeting #1

EDAW, Inc. will review and discuss the relevant components in detail and confer with City PR&N staff, and will present the findings at an all-day series of meetings with the TRRP Citizens Advisory Committee (TRPP CAC) and the public. During this meeting EDAW will solicit and document public input on the issues surrounding the park, and address any outstanding program elements related to the Gateway Parcel. EDAW will design this first public meeting to focus on gaining valuable public input on the program elements and listening carefully to the public's desires for the Gateway Parcel.

Deliverables: One (1) copy of the *Minutes from Public Meeting #1* to the City PR&N staff for review and comment.

Task 2.0: Technical Analysis

Total Cost Not to Exceed. \$53,890.00

Task 2.1 : Preliminary Grading Plan

EDAW, Inc. will provide a *preliminary grading plan* that communicates the design intent of the park. This plan will define the landscape terraces as they step down to the Tuolumne River, and identify areas of cut and fill. This plan will also be important for understanding the transition from the future alignment of Tuolumne Boulevard elevations to the edge of the riverwalk. With a significant amount of earthwork envisioned for this project, EDAW, Inc. will create bold landforms that create a clear sense of place and reinforce the park’s program. EDAW, Inc. will use the grading plan, in association with a study model, as an important tool early in the process that will be helpful in communicating how the park will ultimately be designed.

Deliverables: Three (3) full size copies of the *preliminary grading plan* to the City PR&N staff for review and comment.

Task 2.2: Working Model

EDAW, Inc. will produce a *working study model* to assist with the three-dimensional understanding of the site. This model will illustrate the landscape terraces and grading direction of the site, as well as show the overall park trail and path layout. The model will also be suitable for public presentation as necessary to communicate the landscape site concepts.

Deliverables: None.

Task 2.3: Hydraulic Analysis

HDR Engineering, Inc., will perform a dynamic study of the riverbank and water movements, and will determine the future shape of the riverbanks. HDR will produce this *hydraulic analysis* which will provide a working model for setting the grades of the river terraces and influence the location of the riverwalk trail, paths, and grading concept. HDR will obtain existing HEC-2 or HEC-RAS hydraulic models for the project reach and will assess the related impacts. HDR will use survey data to verify existing model geometry, and the 2, 10, 25, 50, and 100-year peak discharges. This will then be modeled for existing and proposed conditions. HDR will estimate relative effects of improvements on the river water surface profiles and identify areas of high flow velocities for bank protection. This modeling effort will also be used by EDAW, Inc. to establish overbank elevations that will provide ecological benefit. A summary of these activities, along with a discussion of the results, will be developed and incorporated into the Precise Plan.

Deliverables: One (1) copy of the *Technical memorandum of River Hydraulics* submitted to the City PR&N staff for review and comment.

Task 2.4 Geotechnical Investigations

EDAW, Inc., led by HDR, will perform a geotechnical investigation to identify project constructability issues, soil suitability, data for re-vegetation, and the structural conditions of the soil near the pedestrian bridge. EDAW, Inc. will arrange to have five (5) soil borings over the project site. Two borings will be located at each edge of the proposed pedestrian bridge abutments to a depth of 40 feet. Three (3) borings will be scattered throughout the rest of the project site to a depth of 15 feet, and the boring logs will be recorded as part of this effort. EDAW, Inc. will arrange to have soil samples taken for laboratory analysis. EDAW, Inc. will review laboratory analyses data, and data from other sources, to assess the plant suitability of soil existing at the proposed finished grade. This information will be summarized and incorporated

into the final Precise Plan. This effort is important to understand whether or not a topsoil stockpile and reuse plan will be needed during construction. EDAW, Inc. will verify if the existing topsoil will be suitable enough to meet the needs of the project re-vegetation plan.

Deliverables: Three (3) copies of the *Technical Memorandum of the Geotechnical Investigation, Including geotechnical study, boring logs and soil analysis* to the City PR&N Staff for review and approval.

Task 2.5: Tuolumne Boulevard/ 9th Street Bridge Overpass Review

Lead by HDR, EDAW, Inc. will work with the appropriate agencies to review information regarding the alignment, overall design, and implementation schedule of the proposed Tuolumne Boulevard and 9th Street Bridge. City will supply EDAW, Inc. with the most current set of construction plans for review. EDAW, Inc. will incorporate relevant portions of these plans into the final Precise Plan.

Deliverables: None.

Task 2.6: Preliminary Environmental Studies

EDAW, Inc. will produce several environmental studies of the existing site, with special emphasis on the banks and riparian habitat of the Tuolumne River and Dry Creek. The following studies will be conducted by EDAW, Inc.:

- *Wetland Delineation*
- *Riparian and Terrestrial Habitat Assessment*
- *Species Field Studies*
- *Fisheries Studies*
- *Sensitive habitat for listed species near the location of the pedestrian bridge crossing over Dry Creek*
- *Opportunities/needs for bank stabilization or re-vegetation*
- *Location of trees to be protected*

Deliverables: See deliverables on Section II.

Task 2.7: Public Meeting #2

After completing the above technical studies, including a revised site layout plan, a grading plan, and a working model, and having a better understanding of the soil conditions and future river edge profiles, EDAW, Inc. will present a progress summary of these efforts to City staff. The City will provide consolidated written comments in response to this preliminary presentation. The progress summary will then be presented at a TRRP CAC and public meeting for review and comment. This meeting will enable the public and the committee to have a clearer understanding of the proposed landforms and the dynamic aspects of the park. EDAW, Inc. will compile and document City, TRRP CAC and public comment on the intended specific design of the park.

Deliverables: One (1) copy of the *Comments from Public Meeting #2* submitted to the City PR&N staff for review.

Task 3.0: Precise Plan Refinement

Total Cost Not to Exceed. **\$55,581.00**

Task 3.1: Site Plan Refinement

Once the technical studies are underway, EDAW, Inc. will produce a more detailed site plan of the Gateway Parcel, reviewing at a larger scale such elements as the Loop Road, the path and

trail layout, working grade elevations based on preliminary engineering, examining the river overlook and fishing pier locations, the scale and position of the amphimeadow, the pedestrian bridge location, the landscape terraces, and the riverwalk alignment. EDAW, Inc. will also begin examining the preferred opportunity sites for restrooms, site lighting, park signage, and maintenance areas.

EDAW, Inc. will also review the layout of the landscape terraces and wetland delineation; at this stage these efforts will be determined and reinforced by further environmental analysis that will be developed as explained in tasks 3.2, 3.3 and 3.4.

Deliverables: One full size copy, and a total of three (3) 11"x17" copies of the *Refined Specific Plan* to the City PR&N staff for review.

Task 3.2: Ecological Restoration Plan

EDAW, Inc. will produce an Ecological Restoration Plan. This plan will include the following:

- the re-establishment/restoration of riparian terraces to accommodate flood waters within a designated 185-foot riparian corridor parallel to the river;
- the restoration and maintenance of stream banks;
- the use of vegetated swales instead of traditional curb and gutter systems to capture and treat runoff from large areas of pavement;
- the use of wetlands for the capture and purification of storm water runoff.

Planning and design of these elements will satisfy the requirements of the Mitigation Monitoring Program for the TRRP Master Environmental Impact Report (MEIR): Consideration and inclusion of data related to the hydraulics and flooding capacity of the Tuolumne River; compliance with the native vegetation palettes as developed for the TRRP Master Plan; and riverbank contouring and planting that would provide long-term beneficial impacts to protected fish species in the vicinity of the project.

The Ecological Restoration Plan, a working document in collaboration between EDAW, Inc., HDR and McBain & Trush, will consist of overall descriptions and drawings of proposed restoration activities. The plan will include a project area description specifying project site location, mitigation obligations that need to be fulfilled, and restoration goals including types of habitat to be restored, enhanced, and created. The plan will also include detailed descriptions of proposed restoration activities and protocols for implementation, including site grading concepts, plant palette and planting plan, seed mixes and applications, irrigation and maintenance requirements, and a monitoring plan, including performance criteria and remedial contingencies. Plans and specifications will be incorporated into the grading, planting, and irrigation construction drawing sets in each phase as appropriate.

Deliverables: Three (3) copies of the *Ecological Restoration Plan* to the City PR&N staff for review and comment.

Task 3.3: Riparian Terraces Design

Natural processes will be enhanced by creating terraces to provide floodplain interaction during a variety of flow events. EDAW, Inc. will integrate data developed by HDR on flood volumes and velocities for each of the riparian terraces as identified in the TRRP Master Plan. These terraces are baseflow to 1.5-year flood, 1.5-year to 5-year flood, 5-year to 20-year flood, and 20-year to 100-year flood. Working with McBain & Trush, EDAW, Inc. will develop design details for the terraces, such as the optimal topographic elevations or range of elevations for each terrace, the minimum width needed for the terraces to accommodate flood volume, slope of terraces, location of any low areas or wetlands, the length and pitch of slopes between terraces, the optimal soil cross-section for structural stability, drainage and medium for vegetation, location of trails on each terrace, and appropriate planting plans.

Deliverables: None.

Task 3.4: Stormwater Wetlands and Vegetated Swales Design

EDAW, Inc. will incorporate data on runoff volumes and the location of impermeable surfaces, and will determine the best locations for vegetated swales and/or wetlands for the conveyance and treatment of stormwater runoff. The overall objective is to minimize the amount of offsite runoff and thus reduce water quality impacts to Dry Creek and the Tuolumne River. EDAW, Inc. will determine the needed length, width and cross-section of swales, plant characteristics, and incorporate this plan into the overall plan for the park.

Deliverables: None.

Task 3.5: Pedestrian Bridge, Paths, & Special Areas Layout

EDAW, Inc. will provide detailed plans on the pedestrian bridge design, the layout of the paths and riverfront trails, and the special interest areas such as the vista points and overlooks. The timing and construction of the future pedestrian bridge will be contingent upon the cooperation and acceptance of the Gallo property owners and the formation of the easement to Legion Park along the river edge.

EDAW, Inc. will provide a more detailed study of the vista points and overlook areas envisioned for the riverbank edge in order for the public to comment and also for cost estimation purposes. These special areas will tell the story of this regional park, and are important places to capture the attention of the public. EDAW, Inc. will look at these areas in detail, and provide creative ways to illustrate the park's landscape history and explain the park's ecological restoration processes. EDAW, Inc. will also consult local artists as necessary to assist in this process.

Deliverables: One (1) full size copy, and three (3) 11"x17" color copies of the *detailed plans on the pedestrian bridge design, the layout of the paths and riverfront trails, and the special interest areas* to the City PR&N staff for review and comment.

Task 3.6: Preliminary Planting Design

EDAW, Inc. will provide a preliminary planting plan that graphically illustrates the planting design for the park. The plan will be at an appropriate scale in its development in order to ensure a smooth transition into construction documents. The plan will also update the list of the proposed trees, shrubs, and ground covers to be used for the different landscape terraces as established in the Master Plan. EDAW, Inc. will supply an image board illustrating the specific plants proposed and the concept behind the planting design.

Deliverables: Three (3) copies of the *preliminary planting plan* and *image board* to the City PR&N staff for review and comment.

Task 3.7: Preliminary Design Criteria

EDAW, Inc. will delineate preliminary design criteria for the various site features and program elements such as: the pedestrian bridge construction, roadway construction, bank stabilization, grading activities, river hydraulics, wetlands protection, amphimeadow, and fishing piers. Plan sheets that show rights-of-way, easement lines, limits of improvements, elevations, and project limit lines will be established.

Deliverables: Three (3) copies of preliminary design *criteria* in written and graphic form to City PR&N staff for review and comment.

Task 3.8: Estimate of Probable Costs

After completing the above tasks, EDAW, Inc. will perform an in-house review of the probable site costs associated with the development of the park. This will be an important step in verifying the various park program elements, confirming the future park phasing, and aligning the park budget with the park development strategy. EDAW, Inc. will develop and confirm a unit cost strategy to allow for future flexibility.

Deliverables: Three (3) copies of the *Estimate of Probable Costs* to the City PR&N staff for review and comment.

Task 3.9: Public Meeting #3

After completing the above master plan refinements, including planting and restoration plans, EDAW, Inc. will present a *Summary* of these efforts in preparation to *Public Meeting #3* to City staff. The City will provide consolidated written comments in response to this preliminary presentation. The summary will then be presented at a TRRP CAC and public meeting for review and comment.

Deliverables: None.

Task 4.0: Plan Renderings & Final Report

Total Cost Not to Exceed..... **\$40,791.00**

Task 4.1: Design Sections & Elevations

EDAW, Inc. will develop site cross-sections and site elevations to study the proposed grading and level changes for the park. Working with HDR and McBain and Trush, EDAW, Inc. will analyze the site transitions and provide illustrative drawings that incorporate not only the environmental thinking involved but also the artful grading techniques that create special places in the park. These sections will be particularly important in screening future parking to enhance the park experience for the visitor, illustrating the landscape terraces, showing the grades of the amphimeadow, and illustrating the overlooks along the Tuolumne River.

Deliverables: See deliverables for Task 4.5.

Task 4.2: Perspective Sketches

EDAW, Inc. will provide illustrative perspective sketches, both at eye level and from above, to communicate the park design to the public. These sketches will illustrate relationships of the various site elements, and explain the overall design intent of the park. They will be produced by a professional artist and digitally enlarged and mounted by EDAW, Inc. for public presentation. These renderings will also be designed and produced to be used in assisting the efforts to secure funding for the park.

Deliverables: See deliverables for Task 4.5.

Task 4.3: Illustrative Site Plans

EDAW, Inc. will provide a final illustrative site plan of the Gateway Parcel. EDAW, Inc. will also provide detailed enlargement site plans of specific areas such as the amphimeadow, overlooks, and fishing piers.

Deliverables: See deliverables for Task 4.5.

Task 4.4: Cost Estimate Review

EDAW, Inc. will update the site development costs as appropriate in preparation for the construction document phase.

Deliverables: One (1) copy of the *Cost Estimate Review* to City PR&N staff for review.

Task 4.5: Draft Precise Plan

The Draft Precise Plan will be a compilation of the design and engineering documents produced to date for the Gateway Parcel. EDAW, Inc. will produce a full size set of preliminary engineering plans, site plans, grading plans, planting plans, sections and elevations that summarize the environmental and design aspects. This set will be reduced to an 11 x 17 color document as an administrative draft for distribution to the City staff for review and comment. This document will undergo quality assurance check by the EDAW, Inc. in-house team prior to delivery.

Deliverables: One (1) full-size set, and a total of thirty (30) 11"x17" color copies of the *Draft Precise Plan* (including sections, elevations, perspective sketches, and illustrative site plans as per Tasks 4.1, 4.2 and 4.3) to City PR&N staff, CAC and TRRP Commission for review.

Task 4.6: Public Meeting #4

EDAW, Inc. will present the Draft Precise Plan to the TRRP CAC, TRRP Joint Powers Authority, and the public for comment. EDAW, Inc. will present the draft plan at an all-day session to gain input on the plan and the details of the park program elements.

Deliverables: One (1) copy of the *Minutes from Public Meeting #4* to the City PR&N staff for review and comment.

Task 4.7: Final Precise Plan Document

Once the appropriate parties have reviewed and commented on the draft documents, the City will provide one set of consolidated written comments in response to the Draft Precise Plan. EDAW will incorporate the necessary revisions and produce a final version of the Precise Plan. Copies of this document will be delivered to parks staff in preparation for the construction document phase, and also reviewed by the EDAW, Inc. quality assurance team.

Deliverables: One (1) full size color copy set, a total of seventy (70) 11"x17" color copy sets, and two (2) copies of CDs with the set's digital files of the *Final Precise Plan Document* to City PR&N staff, TRRP CAC and TRRP Commission.

II. ENVIRONMENTAL DOCUMENTS

The overall approach to the environmental documentation portion of the project is to conduct specific environmental technical studies early in the planning process that will serve multiple purposes. The technical studies will serve to satisfy the following environmental review and documentation purposes:

- Implement mitigation measure requirements of the TRRP Master Plan Mitigation Monitoring Program (MMP) (e.g. acoustical engineering study of amplification used at the amphimeadow to meet performance measures set in mitigation measures),
- Provide site-specific resource information required for consultation with resource agencies as part of the environmental permitting process, and
- Assess whether the Precise Plan will result in any new or additional significant impacts not previously addressed in the MEIR.

The environmental review of the Precise Plan will take advantage of the streamlining power of the Master EIR to focus environmental review.

It is anticipated that much of the information for project-level documentation exists within the recently completed MEIR. This information will be augmented as necessary with the technical reports to evaluate site-specific issues related to the Gateway Parcel.

As stated in the MEIR, if the City of Modesto as lead agency determines, based on an Initial Study, that a proposed subsequent project will have no additional significant effect on the environment that was not identified in the Master EIR, then the City shall make a written finding based on the Initial Study that the subsequent project is within the scope of the project covered by the Master EIR (Public Resources Code 21157.1).

EDAW, Inc. proposes that with the site-specific analysis provided in the technical reports, resource agency consultation and fulfillment of environmental permitting requirements, and integration of measures to protect sensitive resources into the park design, it is unlikely that any new significant effects will be found that were not previously identified in the Master EIR.

Task 1.0 Technical Studies

Total Cost Not to Exceed **\$77,171.00**

EDAW, Inc. will conduct the appropriate environmental technical studies required for the Gateway Parcel site design, environmental review, and environmental permitting processes. The Mitigation Monitoring Program for the TRRP Master Plan identifies several studies to be performed when detailed implementation plans are developed, during the environmental permitting processes, and prior to groundbreaking. Technical environmental studies will also be required for environmental review of the Precise Plan to assess whether the plan will result in any additional environmental effects not previously identified in the MEIR.

Many of the technical studies will be performed early in the schedule to provide the technical insight for landscape architects to integrate measures into the Precise Plan that will minimize impact to sensitive resources and fulfill the requirements of the Master Plan mitigation measures.

Some of the studies will also be used to provide information to resource agencies to determine environmental permits required by the project and to develop appropriate mitigation measures through the environmental permit consultation process, in fulfillment of the Master Plan MEIR MMP. EDAW, Inc. will prepare the following technical studies. The City shall provide one set of consolidated comments to EDAW on all draft documents. This scope anticipates one round of review and comment for each draft document.

Task 1.1: Wetlands Delineation

A wetlands delineation will be conducted to determine the extent of jurisdictional Waters of the U.S., including wetlands. A wetland delineation will be conducted immediately following project start-up to inform the Precise Planning process. An EDAW, Inc. wetland biologist and hydric soil specialist will conduct a wetland delineation on the project site, following the procedures specified in the 1987 USACE of Engineers Wetland Delineation Manual. The manual provides technical guidelines and methods for a three-parameter approach to determining the location and boundaries of jurisdictional wetlands. To be considered a wetland, this approach requires that an area support positive indicators of hydrophytic vegetation, wetland hydrology and hydric soils. Data collected on these three parameters will be recorded on routine wetland delineation forms and the location and boundaries of areas qualifying as wetlands will be mapped on a base map of the project site.

Based on the amount of jurisdictional Waters of the U.S. that will be filled, the appropriate permit will be determined through consultation with the U.S. Army Corps of Engineers (USACE) (e.g., a Nationwide, Individual or Letter of Permission permit). If necessary, this information will be used for the Section 404, Section 10 and Section 401 of the Clean Water Act (CWA) and the California Department of Fish and Game (CDFG) 1601 permit applications.

Deliverables: Three (3) copies of the *wetlands delineation* document to the City PR&N staff for review and comment.

Task 1.2: Riparian and Terrestrial Habitat Assessment

A riparian and terrestrial habitat assessment will be conducted by EDAW, Inc. biologists. This information will be used for the development of the detailed restoration plan as well as the Section 1601 Streambed Alteration Agreement permit application.

Deliverables: Three (3) copies of the *riparian and terrestrial habitat assessment* document to the City PR&N staff for review and comment.

Task 1.3: Assessment of Aquatic Habitat and Special-status Fish Species

An assessment of aquatic habitat and fish species occurrence will be conducted in areas where construction of fishing piers, the pedestrian bridge, and riparian restoration is proposed. This information will be used for consultation with the U.S. Fish and Wildlife Service (USFWS) under Section 7 of the Endangered Species Act (ESA) and to determine if an incidental take permit is required.

Deliverables: Three (3) copies of the *assessment of aquatic habitat and fish species* document to the City PR&N staff for review and comment.

Task 1.4: Special-status Species Memorandum

A special-status species technical memorandum will document field studies conducted for special-status species in the project area, including surveys for raptors and elderberry shrubs that may serve as habitat for the valley elderberry longhorn beetle. The surveys and site-specific impact evaluation will be conducted to determine if an incidental take permit is required and will be used for the detailed restoration plans. A Biological Assessment will be prepared for consultation with

USFWS under Section 7 of ESA.

Deliverables: Three (3) copies of the *special-status species technical memorandum* to the City PR&N staff for review and comment.

Task 1.5: Hydrologic and Hydraulic Analysis

Hydrologic and hydraulic analysis will be conducted to confirm that the Precise Plan does not increase river flow velocities, increase base flood water surface elevations, or cause scour or erosion on existing and new bridge piers and fishing piers. This information is also critical for the detailed design of the riparian terraces to ensure that they provide adequate flood protection, as well as function successfully as riparian habitat.

Deliverables: Three (3) copies of the *hydrologic and hydraulic analysis* to the City PR&N staff for review and comment.

Task 1.6: Amphimeadow Acoustical Analysis

EDAW, Inc. landscape architects will consult with an acoustical engineer to develop specific measures to reduce noise-related impacts to nearby residences and other sensitive receptors. A noise specialist will also consult with resource agencies to ensure noise levels would not have an adverse impact on State and federally protected wildlife species. Memorandums will be prepared following the consultation.

Deliverables: Three (3) copies of the *amphimeadow acoustical analysis* document to the City PR&N staff for review and comment.

Task 1.7: Traffic Impact Assessment

A traffic impact assessment will be prepared for environmental review of the Precise Plan to assess whether specific details of the plan would cause a significant environmental effect that was not otherwise identified in the MEIR. If a significant effect is found, corresponding air and noise analyses will be conducted.

Deliverables: Three (3) copies of the *traffic impact assessment* to the City PR&N staff for review and comment.

Task 1.8: Traffic Management Plan

A traffic management plan will be prepared to reduce congestion during special events at the amphimeadow and large special events, as required by Mitigation Measures Traffic-1 and Traffic-2 of the MEIR.

Deliverables: Three (3) copies of the *traffic management plan* to the City PR&N staff for review and comment.

Task 1.9: Parking Management Plan

A parking management plan will be prepared to reduce parking effects on the surrounding neighborhood from special events at the amphimeadow and large special events, as required by Mitigation Measure Traffic-4 and Traffic-5 of the MEIR.

Deliverables: Three (3) copies of the *parking management plan* to the City PR&N staff for review and comment.

Task 2.0 Environmental Review

Total Cost Not to Exceed \$12,416.00

The scope of work for the environmental review of the Precise Plan will follow the limited

environmental review process allowed under CEQA for projects within the scope of a Master EIR. At the time the MEIR was prepared, several projects proposed for the Gateway Parcel were identified as subsequent projects because sufficient information was not reasonably available to support a full assessment of potential impacts.

The Precise Plan will incorporate all mitigation measures as set forth in the MEIR and the focused environmental review of the project will analyze only the subsequent project's additional significant effects on the environment and any new or additional mitigation measures or alternatives that were not identified and analyzed by the MEIR.

The following subsequent projects will be included in the Gateway Parcel Precise Plan and will require additional site-specific environmental review:

- Special events, including those at the amphimeadow
- Removal of Dennett Dam
- River overlooks, fishing piers, and the pedestrian bridge
- Development and grading of children's playgrounds and projects in the former ranch complex in the Gateway Parcel (with regards to hazardous materials site investigations only).

The following details the scope of work that EDAW, Inc. will follow for the Gateway Parcel environmental review.

Task 2.1: Review Existing Documentation

EDAW, Inc. team members will review relevant sections of the TRRP Master Plan, MEIR, CEQA Findings of Fact, Statement of Overriding Consideration and Mitigation Monitoring Program and appropriate technical studies prepared for development of these products. It is anticipated that much of the information for project level documentation exists within the recently completed MEIR. This information will be augmented with additional technical studies as necessary to address site-specific issues related to the Gateway Parcel.

Deliverables: None.

Task 2.2: Prepare Initial Study

EDAW, Inc. will prepare an Initial Study checklist for the TRRP Gateway Parcel, as required by CEQA. The Initial Study will use the most recent checklist from the CEQA Guidelines. The Initial Study will "scope out" those environmental resources that would not be significantly affected by adoption of the TRRP Gateway Parcel Precise Plan or for which a potential impact was covered in the MEIR and for which a mitigation monitoring plan, findings of fact, and statements of overriding considerations were adopted.

It is assumed that the following impacts can be found to be less than significant based on the information provided in the MEIR:

- Aesthetics
- Agricultural Resources
- Cultural Resources (with implementation of mitigation measures identified in the MEIR)
- Geology, Soils, and Seismicity
- Hazardous Materials (with implementation of mitigation measures identified in the MEIR)

- Land Use and Planning
- Mineral Resources
- Population and Housing
- Public Services
- Recreation
- Utilities and Service Systems

Further environmental investigation and technical studies will need to be conducted for other environmental topics to evaluate site-specific conditions. These technical studies will determine whether the Precise Plan would result in any new significant effect not previously identified in the MEIR. The Initial Study will reference the MEIR and technical studies to support its findings.

Because the MEIR analyzed the potential impacts of subsequent projects to the extent feasible using best available assumptions at the time, it is likely that environmental evaluation may confirm that the assumptions made in the Master Plan were accurate and that there have not been significant changes to the environment or circumstances that would result in additional impacts. In addition, our design team will be in constant communication with environmental technical experts throughout the planning process to integrate measures to minimize impact to resources into the plan.

If, based on the Initial Study, it is found that the Precise Plan will have no additional significant effect on the environment that was not identified in the Master EIR, then the City may make a written finding based on the Initial Study that the subsequent project is within the scope of the project covered by the Master EIR (Public Resources Code 21157.1), and no additional environmental review documentation will be needed.

Because it is not anticipated that the program for the Gateway Parcel will change significantly from that envisioned in the Master Plan and evaluated in the MEIR, it is not likely there will be any new significant environmental effects not previously analyzed in the MEIR. We believe that by conducting the appropriate technical analysis and initiating consultation with resource agencies early in the site design process we will be able to inform the site design to minimize impacts to sensitive resources. In addition, because the MEIR mitigation measures developed for potential impacts related to subsequent projects provided performance measures to mitigate impact, the additional technical studies and plans required by the MMP will be able to refine the measures to address any site-specific issues associated with the impacts identified in the MEIR. The following issue areas require evaluation using site-specific information:

Biological Resources

The biological resources evaluation will be based on the MEIR and the technical habitat assessment and species studies required by the MMP and environmental permitting process. (see Section II, Tasks 1.1-1.4) The specific design details of the subsequent projects identified in the MEIR will be evaluated to determine if the Precise Plan would result in any additional significant environmental effects not identified in the MEIR.

Riparian Habitat

As noted in the MEIR, the development of the Gateway Parcel would result in a net increase in riparian habitat over time; however, the short-term loss is a significant environmental effect. The MEIR identifies mitigation measures to mitigate this effect to a less-than-significant level. During consultation with USACE and CDFG to obtain a Section 404 permit and Section 1601 Agreement, additional mitigation for impacts to riparian areas would be developed using the site-specific detailed riparian restoration plan developed as part of the Precise Plan. Site-specific riparian and terrestrial habitat will be assessed in areas designated for construction and a

technical memo prepared evaluating potential project impacts. Consultation with agencies proposed as part of the Environmental Permitting Section of this proposal would fulfill the requirements of the mitigation measures for impacts identified in the MEIR.

Jurisdictional Waters of the U.S.

A wetlands delineation and initial consultation with USACE will be conducted immediately following project startup (see Section II, Task 1.1). Because the MEIR identified Impact Bio-2: Jurisdictional Waters of the U.S., and provided mitigation measures to address the potential impact, including consultation with resource agencies, it is unlikely that additional significant environmental effects would be found, beyond those identified in the MEIR. Consultation with resource agencies described in the Environmental Permitting section of this proposal would fulfill the requirements of the mitigation measures for impacts identified in the MEIR. In addition, to ensure the protection and minimal impact to Jurisdictional Waters, this data will be incorporated into the detailed restoration plan as described in the Precise Plan Section of this proposal.

Special Status Fish

The primary project activities influencing fisheries resources include removal of Dennett Dam, construction of the pedestrian bridge, re-contouring of riverbanks, and alteration of riparian vegetation. Beneficial aspects of dam removal such as enhanced fish passage must be compared to potential impacts such as temporary sediment mobilization during the removal process. Impacts due to construction of the bridge will depend on design features such as the need for piers or bulkheads constructed within the active channel and timing of construction periods relative to life-history phases of potentially impacted species. Based on information provided in the MEIR, site specific details of species utilization and habitat conditions will be conducted for the bridge on Dry Creek. Riverbank re-contouring and riparian plantings are expected to have long-term beneficial impacts on protected fish species present in the vicinity of the project; however, mitigation measures will likely need to be developed for short-term construction-related impacts.

Site-specific information, including habitat assessment and species occurrence, will be developed by Jeff Hagar for proposed construction sites on Dry Creek. Jeff Hagar will provide advice and address questions from the design team for incorporating beneficial features to enhance aquatic habitat for fish, particularly protected species. The technical analysis of habitat assessment and species occurrence will be used to assess potential for new impacts from implementation of the Precise Plan, and will also support the permit application process.

Special-Status Species

A number of special-status species were identified as potentially occurring in the riparian zone on the Gateway Parcel. As required by the MEIR MMP, surveys will be conducted for valley elderberry longhorn beetle habitat and nesting raptors, including Swainson's hawk. Surveys will be conducted during the appropriate season using methods approved by the CDFG and the USFWS. Information on other potentially occurring special-status species presented in the MEIR MMP will be verified and updated as necessary.

Impacts to biological resources including special-status species will be assessed. The assessment will be based primarily on information from the MEIR MMP and the technical studies described under Task 1, and the Biological Assessment. Site-specific avoidance and minimization measures for special-status species will be developed through consultation with the wildlife agencies. In addition to the potential for habitat removal and degradation, potential impacts associated with increased noise and lighting from the amphimeadow and large special events will be assessed.

Hydrology and Water Quality

HDR Engineering will obtain existing HEC-2 or HEC-RAS hydraulic models for the project

reach and will assess project-related impacts. The proposed model geometry (project conditions) will be developed as the precise plan is developed. The 2, 10, 25, 50, and 100-year peak discharges would then be modeled for existing and proposed conditions. The intent of the hydraulic modeling task is to estimate relative effects of improvements on the river water surface profiles and to identify areas of high-flow velocities for bank protection. This modeling effort will also assist the landscape architects and civil engineers in establishing overbank elevations that will provide ecological benefit. Data obtained from the USGS Gage Station 112900 will be used to verify model results and to establish design surface elevations. A summary of these activities, along with a discussion of the results, will be developed and incorporated into the Precise Plan. The Precise Plan will be adjusted to ensure that it does not increase river flow velocities, increase base flood water surface elevations, or cause scour or erosion on existing and new bridge piers and fishing piers as required by the Master Plan MEIR mitigation measures.

Transportation and Circulation

Fehr & Peers will prepare a Traffic Impact Assessment for the Gateway Parcel Precise Plan (See Section II, Task 1.7). The technical analyses prepared for the Modesto General Plan MEIR and TRRP MEIR will form the basis of the analysis. As a result, new technical work will be focused on the transportation impacts identified in the TRRP MEIR as needing further evaluation (i.e., traffic & parking impacts from special events at the amphimeadow and large special events). Fehr and Peers will also conduct a project-level analysis of the potential traffic and parking impacts of the interim parking, circulation and access plan for Phases I and II, prior to the Tuolumne Blvd. realignment and development of the Loop Road in the Gateway Parcel. The environmental setting will include descriptions of the roadway network within the area and traffic conditions, available transit services, bicycle facilities, and pedestrian facilities. Fehr & Peers will evaluate service levels on up to two additional study roadway segments and two study intersections during up to two peak periods. The study intersections and peak periods evaluated will be selected in consultation with City staff. Fehr & Peers will collect new daily traffic counts at the two study roadway segments and new turning movement counts at the two study intersections during the two peak periods (2-hour) of analysis. Existing peak hour service levels for the study intersections will be determined using the daily volume-to-capacity ratio for roadway segments and the Highway Capacity Manual (2000) methodology for each study intersection.

Trip Generation, Distribution and Assignment

Fehr & Peers will estimate the project's daily and peak hour trip generation, distribution, and assignment based upon the TRRP MEIR.

Existing Plus Project Conditions

Fehr & Peers will calculate service levels for the existing plus project (Phase I & II) condition, using the volumes and the methodologies described previously. Fehr & Peers will identify significant project impacts, using the standards of significance developed in coordination with the City.

Fehr & Peers will qualitatively assess the project's impact on emergency access and alternative transportation (i.e., bicycle, pedestrian, and transit facilities).

Fehr & Peers will qualitatively assess the project's impact on parking capacity focusing upon the general park uses anticipated during Phases I & II.

Cumulative Traffic Conditions

Cumulative traffic conditions will be evaluated using the traffic forecasts contained in the MEIR and TRRP EIR assuming completion of project development (including amphimeadow and special events). This scope of services assumes that no changes will be required to the travel demand model used for the MEIR and TRRP EIR. The resulting traffic projections represent

build-out of the City's General Plan in approximately year 2025. Fehr & Peers will then manually add the expected project trips (developed in Task 2b) to the future volumes. Fehr & Peers will calculate service levels for the cumulative condition using the methodologies described previously. Significant project impacts will be identified.

Mitigation

As identified in the TRRP MEIR, a traffic management plan will be developed to reduce congestion during special events at the amphimeadow and large special events (see Section II, Task 1.8). In addition, an event parking management plan will be developed to reduce parking impacts during special events at the amphimeadow and large special events (see Section II, Task 1.9). Fehr & Peers will develop mitigation, if a new significant impact is found, to satisfy near-term parking needs during Phase I and II (prior to initiation of large-scale events).

Prepare Initial Study Document

EDAW, Inc. will compile the results of the technical studies and evaluations into a Draft Initial Study. The standards of significance will be based on the most recent CEQA checklist (Appendix G) and any adopted standards of agencies with jurisdiction over the project area (e.g., City of Modesto, City of Ceres, County of Stanislaus, etc.).

It is anticipated that the technical analysis provided for the Initial Study will support a conclusion that the Precise Plan is covered within the scope of the MEIR and thus no additional documentation will be needed to meet CEQA environmental review requirements for the Precise Plan.

Deliverables: Three (3) copies of the *draft initial study* to the City PR&N staff for review and comment. EDAW, Inc. will incorporate all City comments on the Draft Initial Study to create the Final Initial Study document. Once the City's comments have been incorporated, EDAW, Inc. will provide three (3) copies of the *screencheck version of the initial study* to the City PR&N staff for review and comment, and to verify that all requested changes have been made and all appendix materials, references, and final graphics are acceptable.

As stated in the State CEQA Guidelines section 15177 (3)(c), *Whether a subsequent project is within the scope of the Master EIR is a question of fact to be determined by the lead agency, based upon a review of the Initial Study to determine whether there are additional significant effects or new additional mitigation measures or alternatives required for the subsequent project that are not already discussed in the Master EIR.*

Following this finding by the City, EDAW, Inc. will prepare the appropriate notices of availability and completion. Taking advantage of the Master EIR's streamlining capabilities would result in time and cost savings to the City.

If any new significant environmental effects are found during the environmental technical analysis prepared for the Initial Study, a focused EIR will be prepared and compensation will be negotiated in an addendum to this contract per the discretion and direction of Modesto City Council.

III. ENVIRONMENTAL PERMITTING

Task 1.0: Permitting

Total Cost Not to Exceed\$25,652.00

Task 1.1: Jurisdictional Waters of the U.S. – USACE (Section 404, Section 10)

Task 1.2: Streambed Alteration Permit – CDFG (Section 1601)

Task 1.3: Water Quality – RWQCB (Section 401)

Task 1.4: Federally Listed Species – USFWS, NMFS (Section 7)

Task 1.5: State Listed Species – CDFG (Section 2080.1)

The following environmental permits may be required prior to project construction. EDAW, Inc. will provide permits for the following:

Section 404 of Clean Water Act

Section 10 of Rivers and Harbor Act

1601 Streambed Alteration Agreement

Section 401 of the Clean Water Act

Section 2080.1 of CDFG Code (California Endangered Species Act)

Biological Opinion under Section 7 of ESA.

Overall Approach for Agency Coordination & Consultation

During the project startup phase, EDAW, Inc. biologists will review existing information related to biological resources for the project site. EDAW, Inc. will contact the resource agencies identified in the permit table to discuss the project and get initial informal feedback from the agencies regarding potential impacts and mitigation measures. EDAW, Inc. biologists will communicate the information received from resource agencies with the design team and will work with landscape architects and engineers to minimize impact to sensitive resources. As detailed implementation plans are developed, EDAW, Inc. biologists will update the resource agencies on design progress, potential site-specific impacts, and incorporation of measures to minimize impacts.

When the Precise Plan (30% design) is complete, and the appropriate technical studies have been prepared, biologists will hold a pre-application meeting with the resource agencies (e.g., USACE, CDFG, Regional Water Quality Control Board (RWQCB), USFWS and/or CDFG) to determine what permits are required. The early initial coordination and communication between EDAW, Inc. biologists, the landscape architects, and resource agencies will facilitate the incorporation of measures to minimize impacts to sensitive resources and streamline the environmental permitting process.

Technical Studies/Preparation for Permit Application

EDAW, Inc. biologists will conduct specific technical studies, including habitat assessments and species field studies, to determine whether the Precise Plan will result in potential impacts to biological species, which may require environmental permits from the Resource agencies. The technical studies will serve the environmental review process and support the environmental permit applications. A copy of the Gateway Parcel restoration plan and grading plan will be

submitted with all permit applications. A description of some of the technical studies required for each permit is provided below. The permit that will utilize the study is identified in parentheses following the technical study name.

Wetland Delineation (Section 404, Section 10, Section 401 of CWA, and CDFG 1601)

A wetland delineation will be conducted immediately following project start-up to inform the Precise Planning process. An EDAW, Inc. wetland biologist and hydric soil specialist will conduct a wetland delineation on the project site, following the procedures specified in the 1987 USACE of Engineers Wetland Delineation Manual. The manual provides technical guidelines and methods for a three-parameter approach to determining the location and boundaries of jurisdictional wetlands. To be considered a wetland, this approach requires that an area support positive indicators of hydrophytic vegetation, wetland hydrology and hydric soils. Data collected on these three parameters will be recorded on routine wetland delineation forms and the location and boundaries of areas qualifying as wetlands will be mapped on a base map of the project site.

Following the field visit, EDAW, Inc. wetland biologists will prepare a preliminary wetland delineation report and submit it to the U.S. Army Corps of Engineers (USACE) for verification. The delineation report will describe the methods used to delineate wetlands at the site, the types of wetland present at the site, their acreage and exact locations. The report will also contain a map and copies of all original data forms.

An EDAW, Inc. wetland biologist and hydric soil specialist will conduct a site verification visit with USACE. Following the site verification visit, and depending on comments made by the USACE, EDAW will incorporate any changes to the wetland delineation requested by the USACE and will issue a final wetland delineation report. This report will serve as the baseline for determining impacts on jurisdictional wetlands and other Waters of the United States resulting from the Precise Plan and will be part of the Section 404 permit application package to the USACE. The wetland delineation will also serve as the delineation of CDFG jurisdictional streams/rivers for the Section 2080.1 permit.

Federal Endangered Species Act Consultation

Initial Consultation

Pursuant to the Federal Endangered Species Act, the USFWS and National Marine Fisheries Service (NMFS) have authority over projects that may affect the continued existence of federally listed species. Because the project would require a Section 404 permit from USACE, a Section 7 consultation with USFWS and NMFS will be required.

EDAW, Inc. biologists will consult with USFWS and NMFS regarding potential effects to species that are federally listed or proposed for listing as Threatened or Endangered and species considered as Candidates for listing. The consultation will include discussion of the anticipated approach for the overall process and will provide the opportunity for agency feedback regarding preliminary conclusions. This will help reduce the chance of surprises and subsequent delays later in the process.

Preparation of the Biological Assessment

A Biological Assessment (BA) will be prepared in accordance with USFWS guidelines. The BA will include a summary of consultation to date, description of the proposed action, an account of each species addressed, an assessment of project effects, an analysis of alternative actions, and an effect determination for each species.

Species anticipated to be addressed in the BA include: valley elderberry longhorn beetle, steelhead, Chinook salmon, splittail, California red-legged frog, giant garter snake, California tiger salamander, bald eagle, riparian brush rabbit, and San Joaquin Valley (riparian) woodrat. It

is assumed that with implementation of mitigation measures outlined in the TRRP MEIR and other appropriate impact avoidance and minimization measures, the project would be unlikely to adversely affect most of these species. Therefore, the discussion of these species and potential project effects would be relatively brief. Those species for which incidental take authorization is anticipated to be required include: valley elderberry longhorn beetle, steelhead, Chinook salmon, and splittail. These species will be discussed in greater detail in the BA and potential effects to them will be quantified.

Formal Section 7 Consultation

After submittal of the BA, formal Section 7 consultation will be initiated with the USACE. The effort required to complete the formal consultation can vary greatly, depending on a number of factors, such as the extent of potential effects, proposed mitigation, and USFWS staff assigned to the project. The cost reflected for this task assumes completion of the consultation within the ESA timeframe (i.e., 180 days) and is based on what can be anticipated at this time. If the consultation process becomes more lengthy or complicated than anticipated, additional effort may be required beyond this scope.

California Endangered Species Act Consultation

Initial Consultation

Pursuant to the California Endangered Species Act (CESA), CDFG has authority over projects that are likely to result in take of state-listed species. EDAW biologists will consult with CDFG regarding potential effects to state-listed species; which will serve the same purpose as described above under the federal consultation tasks, which are likely to be involved.

Request for 2080.1 Consistency Determination

The project has the potential to affect species that are protected under CESA and ESA, It is assumed that the project would not result in take of strictly a state-listed species (i., Swainson's hawk), therefore, a Section 2080.1 permit would not be required from CDFG. However, EDAW will request a Section 208.01 consistency determination from CDFG.

Cooperative and Simultaneous Agency Consultation: If a project affects species that are protected under CESA and ESA, the legislation encourages cooperative and simultaneous consultation by CDFG in order to coordinate the federal Section 7 process and that results in a consistent and compatible finding. EDAW, Inc. will consult with CDFG throughout the Section 7 process to identify conditions in the federal incidental take statement (i.e., biological opinion) that are consistent with CESA. This task assumes CDFG will accept a consistency determination.

Prepare Draft Permit Applications

Following the completion of the technical studies and initial consultations with resource agencies, if it is determined that an environmental permit is required for a project action, an EDAW, Inc. environmental permit specialist will begin preparing Preliminary Draft permit applications. EDAW, Inc. will submit the Preliminary Draft permit application to the City of Modesto for review as lead agency. EDAW, Inc. will incorporate the City's comments and then submit the Draft permit applications to the designated resource agency contacts.

Nationwide Permit Application

At this time, it is assumed the proposed project will fall within USACE Nationwide permit requirements. To qualify for this permit, the project must have no more than minimal adverse effects on the aquatic environment, individually and cumulatively. The TRRP MEIR states there is design flexibility for placement of structures to avoid wetland habitat. EDAW, Inc. biologists will work with the City of Modesto to identify jurisdictional wetland habitat and avoid impacts to these wetlands. Using this approach, it is assumed the project would qualify under the

Nationwide permit. EDAW, Inc. will prepare the Nationwide permit application for submittal to USACE. The application package will include Form Eng 4345, project description, project purpose, USACE jurisdiction on the project site, impacts, and proposed mitigation. It is assumed the mitigation measures outlined in the TRRP MEIR will be accepted by the USACE as mitigation.

Regional Water Quality Control Board Certification

The Regional Water Quality Control Board (RWQCB) promulgates and enforces water quality standards to protect water quality in California. The RWQCB has jurisdiction over all Waters of the United States, including wetlands.

Once USACE has verbally approved the appropriateness of the Nationwide Permit, EDAW, Inc. will send a letter of application to the RWQCB for water quality certification. It is assumed that a consultation meeting with RWQCB is not needed. A certified environmental document is required to accompany the water quality certification application.

1601 Streambed Alteration Agreement Application

Based on information provided in the TRRP MEIR, the project may have the potential to affect streams, rivers, and/or creeks with riparian habitat that is under the jurisdiction of the CDFG.

All diversions, obstruction, or changes to the natural flow or bed, channel, or bank of any river, stream, or lake in California that supports wildlife resources is subject to the regulatory approval of CDFG pursuant to Section 1600 through 1603 of the CDFG Code. Section 1601 governs any agency, state, or local, and any public utility, of any project that will divert or obstruct the natural flow or substantially change the bed, channel or bank of any river, stream or lake designated by the department, or use any material from the streambeds, without first notifying the department of such activity. Stream is defined as a body of water that flows at least periodically or intermittently through a bed or channel having banks and supports fish or other aquatic life. This includes watercourses having a surface or subsurface flow that supports or has supported riparian vegetation. CDFG's jurisdiction within altered or artificial waterways is based upon the value of those waterways to fish and wildlife. A CDFG Streambed Alteration Agreement must be obtained for any project that would result in impact to a river, stream, or lake or associated riparian habitat. EDAW, Inc. will submit a 1601 Streambed Alteration Agreement application to CDFG for proposed modifications to drainages on site. This includes completion of Form FG 2030 and the project questionnaire form. A certified environmental document is required to accompany the Streambed Alteration Agreement application.

Consultation/Feedback on Draft Applications

Through consultation and negotiations, appropriate mitigation and avoidance measures will be determined and implemented by EDAW, Inc.

Prepare Final Permit Applications

Deliverables: EDAW, Inc. will prepare a Final Permit Application incorporating comments and negotiated agreements by the resource agencies and the City of Modesto, as lead agency.

EDAW, Inc. will provide three (3) copies of the *Final Permit Application* to the City PR&N staff for review and comment. EDAW, Inc. will submit the Final Permit Application to each of the appropriate agencies.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-589**

A RESOLUTION AMENDING THE FISCAL YEAR 2002-03 OPERATING AND CAPITAL IMPROVEMENT BUDGETS TO 1) REALLOCATE \$30,205 FROM THE TRRP OPERATING ACCOUNT (8900-390-3912-0235); 2) TRANSFER \$125,580 FROM 8910-800-8000-8003; AND 3) TRANSFER \$97,000 FROM 8900-800-8000-8003 TO TRRP CAPITAL IMPROVEMENT PLAN (CIP) PROJECT 2300-310-M269 TO FULLY FUND THE PROJECT.

WHEREAS, the City desires to enter into an agreement with EDAW Inc., a professional landscape architecture firm, to prepare a Precise Plan, Environmental Documents and Permitting for the Gateway Parcel of the Tuolumne River Regional Park, and

WHEREAS, the cost to provide these documents is estimated to be \$380,205, and

WHEREAS, an additional \$35,000 will be needed for contingencies and for City staff to provide project management for a total expenditure of \$415,205, and

WHEREAS, \$159,420 is available in Capital Improvement Project 8910-310-M269, Gateway Parcel Master Plan, and

WHEREAS, \$97,000 is available in the TRRP Operating Reserve, 8900-800-8000-8003, and

WHEREAS, \$128,580 is available in the TRRP Capital Improvement Plan Reserve, 8910-800-8000-8003, and

WHEREAS, \$30,205 is available in the TRRP Operating Budget account 8900-390-3912-0235, Services, Professional and Other, and

WHEREAS, the Tuolumne River Regional Park Citizens Advisory Committee met on September 24, 2003, and supported the recommendation to fully fund the project, and

WHEREAS, the Tuolumne River Regional Park Commission met on October 13, 2003, and supported the recommendation to amend the Fiscal Year 2002-03 Operating and Capital Improvement Budgets to transfer \$30,205.00 from the TRRP Operating account 8900-390-3912-0235 to 8910-310-M269, Gateway Master Plan,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Fiscal Year 2002-03 Operating and Capital Improvement Budgets are hereby amended to 1) reallocate \$30,205 from the TRRP Operating account 8900-390-3912-0235; 2) transfer \$125,580 from the TRRP CIP Reserve, 8910-800-8000-8003; and 3) transfer \$97,000 from the TRRP Operating Reserve, 8900-800-8000-8003 to TRRP Capital Improvement Plan (CIP) project 2300-310-M269 to fully fund the project.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 5th day of November, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: None

Attest: Jean Zahr
JEAN ZAHR, City Clerk

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-590**

A RESOLUTION APPROVING A COOPERATIVE AGREEMENT WITH CALTRANS FOR THE CONSTRUCTION OF A NEW TRAFFIC SIGNAL AT YOSEMITE BOULEVARD (STATE ROUTE-132) AND MORTON BOULEVARD AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT.

WHEREAS, Caltrans District 10 has requested the City of Modesto to enter into a Cooperative Agreement for the construction of a new traffic signal at the intersection of Yosemite Boulevard (SR-132) and Morton Boulevard, and

WHEREAS, the signal installation is decided based upon Caltrans' review of traffic delay and collision history at the intersection, and

WHEREAS, Caltrans performed a traffic signal warrant analysis and the results of this analysis indicate the necessity to construct a traffic signal, and

WHEREAS, the signalization and other proposed improvements to the intersection are expected to reduce the collision rate and help facilitate the orderly movement of both vehicular and pedestrian traffic through the intersection, and

WHEREAS, funds are available in Account No. 2300-160-Q206, "Traffic Signals,"

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Cooperative Agreement with Caltrans for the construction of a new traffic signal at Yosemite Boulevard (State Route-132) and Morton Boulevard.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 5th day of November, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: None

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-591**

A RESOLUTION AMENDING THE FISCAL YEAR 2003 CAPITAL IMPROVEMENT PROGRAM AND OPERATING BUDGETS TO 1) ESTABLISH A NEW OPERATIONAL ACCOUNT IN THE GAS TAX FUND: 04-0700-160-1627-6040 'GAS TAX NEW TS YOSEMITE & MORTON W/CALTRANS, FOR \$98,210, 2) REDUCE THE EXPENDITURE APPROPRIATION OF MY-2300-160-Q206-6040 AND THE INTERFUND TRANSFER MY-2300-700-Q206-9070 BY \$85,000 EACH TO PARTIALLY FUND THE NEW OPERATIONS ACCOUNT, 3) REDUCE THE EXPENDITURE APPROPRIATION OF MY-2300-160-M144-6040 AND THE INTERFUND TRANSFER MY-2300-700-M144-9070 BY \$13,210 EACH TO PARTIALLY FUND THE NEW OPERATIONS ACCOUNT, AND 4) AUTHORIZE THE ROLLOVER OF UNEXPENDED FUNDS IN 04-0700-160-1627-6040 IN THE FISCAL YEAR 2003-2004 OPERATIONS BUDGET TO 05-0700-160-1627-6040 IN THE FISCAL YEAR 2004-2005 OPERATIONS BUDGET

WHEREAS, the City of Modesto has budgeted \$85,000 in the Fiscal Year 2003-2004 Capital Improvement Program (CIP) in MY-2300-160-Q206 to fund a share of the construction of new traffic signal at the intersection of Yosemite Boulevard (State Route 132) and Morton Boulevard, and

WHEREAS, the City of Modesto has also budgeted \$13,210 in the Fiscal Year 2003-2004 CIP in MY-2300-160-M144 to fund a share of the construction of other new traffic signals, and

WHEREAS, the Engineering and Transportation Director has recommended in a separate resolution that the City of Modesto execute a Cooperative Agreement for Caltrans to construct this traffic signal, and

WHEREAS, as part of this Cooperative Agreement the City of Modesto has agreed to pay Caltrans \$98,210 towards the construction of this traffic signal and Caltrans has agreed to pay the remaining \$198,984 needed for this construction, and

WHEREAS, the City of Modesto Finance Department has identified the availability of funds for this project and has recommended that a new operations account be established to track all Caltrans payments.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby amends the FY 02-03 Operations Budget to establish a new operational account in the Gas Tax Fund: 04-0700-160-1627-6040, "Gas New TS Yosemite & Morton w/Caltrans," for \$98,210.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that it hereby amends the Fiscal Year 2003-2004 CIP Budget reducing the expenditure appropriation of MY-2300-160-Q206-6040 and the Inter-fund transfer MY-2300-700-Q206-9070 by \$85,000 each to partially fund the new Operations account.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that it hereby amends the Fiscal Year 2003-2004 CIP Budget reducing the expenditure appropriation of MY-2300-160-M144-6040 and the Inter-fund transfer MY-2300-700-M144-9070 by \$13,210 each to partially fund the new operations account.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that all funds in 04-0700-160-1627-6040 that have not been expended by June 30, 2004, will be appropriated to 05-160-1627-6040 in the Fiscal Year 2005 Operations Budget.

BE IT FURTHER RESOLVED that the Finance Director, or her designee, is hereby authorized to implement the provisions of this resolution to amend both the Fiscal Year 2003-2004 CIP and Operations Budgets as specified above.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 5th day of November, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NUMBER 2003-592**

A RESOLUTION APPROVING THE EXPENDITURE OF THE STATE OF CALIFORNIA SUPPLEMENTAL LAW ENFORCEMENT SERVICES FUND GRANT MONIES ALLOCATED TO THE CITY OF MODESTO IN THE 2003/2004 FISCAL YEAR

WHEREAS, in 1996, the State Legislature passed, and the Governor signed, Assembly Bill 3229, the Supplemental Law Enforcement Services Act, and

WHEREAS, the legislation has continued to be funded each subsequent year at \$100 million, statewide, from sales and use taxes, for exclusive funding of municipal police services, in accordance with written requests submitted by the Chief of Police of a city to his or her governing body, convened in public hearing, and

WHEREAS, the purpose of the law is to ensure public safety, and

WHEREAS, the funding for each county and city is based upon proportionate population, and

WHEREAS, the allocation to the City of Modesto for fiscal year 2003/2004 is \$302,843, and

WHEREAS, the program requires a public hearing by local governmental Chiefs of Police or Sheriffs regarding spending plans, and

WHEREAS, these funds must be held in an interest-bearing Supplemental Law Enforcement Services Fund and must not be used to supplant existing budget funds, and

WHEREAS, The Modesto Police Department has budgeted its 2003/2004 State Supplemental Law Enforcement Services Fund monies of \$302,843 in the 2003/2004 Operating Budget to continue funding five Police Department positions, as follows:

3 Police Clerks
1 Property and Evidence Technician
1 Systems Analyst

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto, after holding a public hearing, that it hereby approves the Chief of Police's spending plan for the 2003/2004 State Supplemental Law Enforcement Services Fund allocation of \$302,843 for the salary and benefits of three Police Clerks, one Property and Evidence Technician and one Systems Analyst.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 5th day of November, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NUMBER 2003-593**

A RESOLUTION APPROVING THE FEDERAL 2003 LOCAL LAW ENFORCEMENT BLOCK GRANT WITH THE U.S. DEPARTMENT OF JUSTICE, BUREAU OF JUSTICE ASSISTANCE FOR THE PROCUREMENT OF EQUIPMENT AND TECHNOLOGY AND AUTHORIZING THE CITY MANAGER TO EXECUTE SAID GRANT

WHEREAS, the City of Modesto Police Department made application to the U. S. Department of Justice, Bureau of Justice Assistance for the 2003 Local Law Enforcement Block Grant Program, and

WHEREAS, the program is of 24-month duration, and it includes the program area of procuring equipment and technology to enhance law enforcement, and

WHEREAS, the Police Department submitted an application for various unmet equipment and technology needs, as attached, and

WHEREAS, acceptance of this grant enhances Healthy and Safe Strategic Action Plan action, H.1.B.8. which calls for obtaining public service grants, and

WHEREAS, the total grant project is \$176,584 of which the federal share is \$158,926 and the local match is \$17,658 and that match is available from the California Law Enforcement Equipment Program, and

WHEREAS, at its meeting of August 4, 2003, the Safety and Communities Committee was informed of this grant opportunity and it unanimously recommended application for the funds, and

WHEREAS, the grant will make possible the purchase of specialized investigative computer software, digital cameras for crime scene photography, ballistic

shields, a latent print comparison system and a video system for the monitoring of departmental holding cells,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto, that it hereby approves the Federal 2003 Local Law Enforcement Block Grant contract for the purchase of police equipment and technology, as attached.

BE IT FURTHER RESOLVED that the City Manager is hereby authorized to execute said grant contract.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 5th day of November, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NUMBER 2003-594**

**A RESOLUTION AMENDING THE FISCAL YEAR 2003/2004 ANNUAL
BUDGET ESTIMATING REVENUE AND APPROPRIATING FUNDS FOR THE
2003 LOCAL LAW ENFORCEMENT BLOCK GRANT**

WHEREAS, the Police Department acquired a grant award from the U.S. Department of Justice for the 2003 Local law Enforcement Block Grant Program in the sum of \$158,926, and

WHEREAS, the City's match for the Federal grant program is \$17,658 and will be made from the California Law Enforcement Equipment Program,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the 2003/2004 Annual Budget is hereby amended as indicated below:

To:	<u>Expense:</u> 0400-190-2980-5906	2003 LLEBG	\$176,584
From:	<u>Revenue:</u> 0400-190-2980-3506	2003 LLEBG CLEEP	\$158,926 \$17,658

BE IT FURTHER RESOLVED that the Finance Director is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 5th day of November, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-595**

**A RESOLUTION APPROVING A STORM DRAIN LATERAL
REIMBURSEMENT AGREEMENT BETWEEN THE CITY OF MODESTO AND
SUNDANCE LAKE MODESTO, LLC RELATED TO THE OVERSIZING OF
1,317 LINEAR FEET OF STORM DRAIN LINE AND AUTHORIZING THE
CITY MANAGER TO EXECUTE THE AGREEMENT.**

WHEREAS, SUNDANCE LAKE MODESTO, LLC, a Delaware limited liability company, owns a certain tract of land consisting of approximately 36.03 acres within Stanislaus County, commonly known as Sundance Lake Subdivision, and

WHEREAS, in connection with the development of the subdivision, Sundance Lake Modesto installed 1,317 linear feet of 30” storm drain lateral, and

WHEREAS, the storm drain lateral was oversized to accommodate future development and will serve adjacent properties located outside of the subdivision, and

WHEREAS, Modesto Municipal Code Section 4-4.802.1 authorizes the City to enter into an agreement with Sundance Lake Modesto to reimburse for oversizing costs, and

WHEREAS, the City has identified those properties to be served by, and which will benefit from Sundance Lake Modesto’s installation of the storm drain lateral, and

WHEREAS, the owners of the benefited properties have not participated in the construction or installation of the storm drain lateral, and

WHEREAS, the benefited properties have paid or will pay mitigation impact fees to the City as a condition of development, which will include their proportionate share of the cost of constructing said storm drain lateral, and

WHEREAS, Sundance Lake Modesto has requested and City has agreed that they be reimbursed for a portion of it's cost to install the storm drain lateral from the monies the City collects through said impact fees, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the agreement between the CITY OF MODESTO and SUNDANCE LAKE MODESTO related to the reimbursement for oversizing a storm drain lateral in the amount of \$77,020.00 is hereby approved.

BE IT FURTHER RESOLVED that the City Manager is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 13th day of November, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-596**

**A RESOLUTION APPROVING A REQUEST FOR AN EXTENSION OF
BUDGET AUTHORITY FOR VARIOUS STATE AND FEDERALLY FUNDED
PROJECTS AND AUTHORIZING THE CITY MANAGER TO SIGN THE
REQUEST**

WHEREAS, the State of California is searching for funds to improve the State Budget, and

WHEREAS, unspent funds that exceed 5 years for State projects, and 7 years for Federal projects have been identified, and

WHEREAS, local jurisdictions may lose unspent funds on the identified projects, and

WHEREAS, if a project is expected to go beyond May 1, 2004, an extension request for budget authority must be submitted by December 1, 2003, and

WHEREAS, an extension of budget authority must be approved by the State Department of Finance, and

WHEREAS, if approved, the expenditure deadline would be extended to June 30, 2005, and

WHEREAS, City staff has identified a list of City projects on Attachment "A" where funding will lapse on May 1, 2004, and for which a request for extension of budget authority should be made, and

WHEREAS, the City Council must indicate concurrence with the request,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that a request to extend the life of the funds listed in **Attachment "A"** is hereby approved.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to sign the request.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 13th day of November, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-597**

**A RESOLUTION DIRECTING WORK TO BE PERFORMED BY CITY FORCES
FOR AN AMOUNT NOT TO EXCEED \$130,000**

WHEREAS, the City is proposing to construct a new traffic signal at the intersection of Tully Road and Snyder Avenue due to the high volume of vehicles currently using the intersection on a daily basis, and

WHEREAS, new developments along both sides of Snyder will increase traffic to a higher volume in the near future, and

WHEREAS, there is a need to serve traffic east of Tully Road from Big Valley Christian School and Church, and

WHEREAS, the installation of a new traffic signal will help reduce stopping delays, increase traffic safety at the intersection and result in a reduction in air pollution, and

WHEREAS, the proposed project will include pedestrian phasing and crosswalks, vehicle detection, and other typical improvements associated with a traffic signal installation, and

WHEREAS, staff has determined that the project would best be constructed using City forces, and

WHEREAS, by Resolution No. 2003-?, adopted on ?,2003, Council found and determined that the Tully Road and Snyder Avenue traffic signal installation is included within the scope of the project covered by a Master Environmental Impact Report (MEIR), Sch. No. 1999082041, and

WHEREAS, the Finance Department has determined that funds for this project have been budgeted in the Fiscal Year 2003-2004 Capital Improvement Program,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that staff is hereby directed to use City forces to construct the new traffic signal installation at Tully Road and Snyder Avenue in an amount up to \$130,000.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 13th day of November, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-598**

**A RESOLUTION FINDING THAT THE “NEW TRAFFIC SIGNAL
INSTALLATION – TULLY ROAD AND SNYDER AVENUE” PROJECT IS
WITHIN THE SCOPE OF THE PROJECT COVERED BY A MASTER
ENVIRONMENTAL IMPACT REPORT (MEIR), SCH NO. 1999082041**

WHEREAS, on March 4, 2003, the City Council of the City of Modesto adopted Resolution No. 2003-123 certifying that the Modesto Urban Area General Plan Master Environmental Impact Report (MEIR), (SCH No. 1999082041), for the Modesto Urban Area General Plan, is complete and adequate pursuant to Section 15090 of the California Environmental Quality Act (CEQA) Guidelines, and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for an MEIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the MEIR, whether the subsequent project was described in the MEIR, and whether the subsequent project was described in the MEIR as being within the scope of the project, and

WHEREAS, the Engineering and Transportation Department, by Initial Study, EA/ET 2003-30, reviewed and proposed the “New Traffic Signal Installation – Tully Road and Snyder Avenue” project, which determined that the proposed project is within the scope of the project covered by the MEIR, that the proposed project will have no additional, significant effect on the environment that was not identified in the MEIR, and that no new or additional mitigation measures or alternatives may be required, and

WHEREAS, on October 7, 2003, the Engineering & Transportation Department caused to be published public notification of the determination conferred in Initial Study EA/ET No. 2003-30, pursuant to Public Resources Code Section 21092.

WHEREAS, said matter was considered by the City Council at a duly noticed meeting which was held on November 13, 2003, at 5:30 p.m., in the Tenth Street Place Chambers, located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study EA/ET 2003-30, prepared for the proposed "New Traffic Signal Installation–Tully Road and Snyder Avenue" project, a copy of which is attached hereto as **Exhibit "A"**, and incorporated herein by reference, and based on the substantial evidence included in said Initial Study makes the following findings:

- A. The proposed project is consistent with the City of Modesto General Plan and is within scope of the project covered by the General Plan Final MEIR (SCH No. 1999082041).
- B. No additional significant environmental effects will occur as a result of the proposed traffic signal project that were not previously examined in the General Plan Master EIR.
- C. No new or additional mitigation measures or alternatives will be required as a result of the proposed traffic signal project that were not previously considered in the General Plan Master EIR.
- D. There are no specific features unique to this traffic signal project that require specific mitigation measures. All certified mitigation measures identified in

the General Plan Master EIR will apply Citywide, including this project, as appropriate.

E. The Initial Study, Environmental Assessment No. EA/ET 2003-30, provides substantial evidence to support findings A through D above.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Engineering and Transportation Director is hereby authorized and directed to file a Notice of Approval within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 13th day of November, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

City of Modesto
Initial Study

INITIAL STUDY
INSTALLATION OF A NEW TRAFFIC SIGNAL
AT THE INTERSECTION OF TULLY ROAD AND SNYDER AVENUE
E.A./E.T. No: 2003-30

I. PURPOSE

Section 21157.1 of the Public Resources Code, allows for limited environmental review of subsequent projects under a Master EIR, provided that certain findings are made. The Modesto Urban Area General Plan Master EIR (SCH No. 199082041), adopted March 4, 2003, allows such limited review for projects in the Baseline Developed Area that are consistent with the General Plan and existing zoning.

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, analyzes whether this project may cause any significant effects on the environment that were not examined in the General Plan Master EIR. This Initial Study also provides documentation that the project is within the scope of the General Plan Master EIR.

II. PROJECT DESCRIPTION

A. Project Title:

Installation of a New Traffic Signal at the Intersection of Tully Road and Snyder Avenue ("Project")

B. Lead Agency Name and Address:

City of Modesto, P.O. Box 642, Modesto, CA 95353

C. Contact Person, Address, and Phone Number:

Steven Liu, Engineering and Transportation Department, (209) 577-5297

D. Project Locations:

At the intersection of Tully Road and Snyder Avenue.

E. Project Sponsor:

City of Modesto, P.O. Box 642, Modesto, CA 95353

F. General Plan Designation:

MU (Mixed Use)

G. Zoning:

SP-O (Specific Plan – Overlay)

H. Description of Proposed Project:

The City is proposing to construct a new traffic signal at the intersection of Tully Road and Snyder Avenue. Currently, the intersection has a stop control on Snyder. Tully Road is a principal arterial north of Standiford per the City's General Plan, with a posted speed limit of 45 mph. The latest traffic counts indicate that Tully Road is carrying approximately 12,000 vehicular traffic per day at the site vicinity. Snyder Avenue is a collector street with a posted speed limit of 30 mph, which is carrying a daily traffic of about 1,600 near the intersection. However, the new developments along both sides of Snyder will quickly bring up traffic to a new high in the very near future. In addition, there is a need to serve traffic east of Tully Road from the Big Valley Christian School and Church.

The new traffic signal will help reduce stopping delay, increase traffic safety, and result in a reduction in air pollution at the intersection. The proposed project will include pedestrian phasing and crosswalks, vehicle detection, and other typical improvements associated with a traffic signal installation. The signal will be coordinated with other traffic signals on Tully Road.

I. Surrounding Land Uses:

The surrounding land uses are as follows. PD (Planned Development), P-O (Professional Office), and R-1 (Low Density Residential).

J. Other Public Agencies Whose Approval is Required:

None

III. ANALYSIS OF CONFORMANCE WITH THE MASTER EIR

There are eighteen subject areas in the Master EIR for the General Plan. Following is an analysis of how this project conforms to the analysis contained within the Master EIR.

A. Traffic and Circulation

The proposed New Traffic Installation Project will not result in a physical change to any existing land use. It is consistent with the General Plan designation for this site. Therefore, the traffic impacts of this project are consistent with those contained in the General Plan Master EIR. The Existing Conditions, Impact Analysis and Mitigation Measures listed in the MEIR for Traffic and Circulation Needs (pages V-1-1 through V-1-33) are, therefore, still valid.

B. Degradation of Air Quality

The air quality impacts for this development are directly related to the traffic impacts. Since traffic impacts are no greater than those anticipated in the Master EIR, this development would not cause additional impacts to air quality beyond those described in the Degradation of Air Quality section of the MEIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR

for Degradation of Air Quality (pages V-2-1 through V-2-26) are, therefore, still valid.

C. Generation of Noise

The Project will not result in a physical change to any existing land use. The proposed use is consistent with the General Plan in land use and intensity, and the noise impacts from the project and to the project are consistent with those analyzed in the Master EIR. Therefore, the project will not create additional significant effects, and the Mitigation Measures listed in the MEIR for Generation of Noise (pages V-3-1 through V-3-22) are, therefore, still valid.

D. Loss of Productive Agricultural Land

The proposed new traffic signals will be located in developed areas outside of productive agricultural land. Therefore, the project is consistent with the Existing Conditions, Impacts Analysis, and Mitigation Measures listed in the MEIR for Loss of Productive Agricultural Land (pages V-4-1 through V-4-12) and they are, therefore, still valid.

E. Increased Demand for Water Supplies

The proposed Project includes traffic signal related improvements, and will require no additional water beyond that identified in the Increased Demand for Water Supplies section of the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Water Supplies (pages V-5-1 through V-5-13 are, therefore, still valid.

F. Increased Demand for Sanitary Sewer Services

The proposed Project includes traffic signal related improvements, and will create no additional demand for sewer capacity not identified in the MEIR. The Existing

Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Sanitary Sewer Services (pages V-6-1 through V-6-12) are, therefore, still valid.

G. Loss of Sensitive Wildlife and Plant Habitat

The proposed new traffic signals will be located in developed areas and not located in a Potential Biological Resource Study Area, as presented in Figure 7-1 of the MEIR. Therefore, the project will not impact sensitive wildlife or any plant habitat above and beyond that which was identified in the Loss of Sensitive Wildlife and Plant Habitat section of the MEIR. The Existing Conditions, Impact Analysis, and the Mitigation Measures listed in this section of the MEIR (pages V-7-1 through V-7-29) are still valid.

H. Disturbance of Archaeological and Historic Sites

This project will not disturb any archaeological or historic sites that have been identified in the Disturbance of Archaeological or Historical Sites section of the MEIR. Figure 8-1 of the MEIR indicates that it is also outside the Archaeological Resource Study Area, which shows areas that may require additional site specific investigations. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Disturbance of Archaeological or Historical Sites (pages V-8-1 through V-8-22) are, therefore, still valid.

I. Drainage, Flooding and Water Quality

Because the project is consistent with the General Plan in land use and intensity, it will not present any new impacts to drainage, flooding and water quality that have not already been addressed in the MEIR. The mitigation measures in the Master EIR will not reduce the impacts of increased runoff within the baseline developed area to a less than significant level. In adopting the Master EIR, the City Council adopted a finding of overriding findings for this impact. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Drainage, Flooding, and Water Quality (pages V-9-1 through V-9-13) are still valid.

J. Increased Demand for Storm Drainage

The project will not present any new impacts that have not already been addressed in the MEIR. The mitigation measures contained in the Master EIR will not reduce the impacts of increased runoff within the baseline developed area to a less than significant level. In adopting the Master EIR, the City Council adopted a finding of overriding findings for this impact. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Storm Drainage (pages V-10-1 through V-10-16) are still valid.

K. Increased Demand for Parks and Open Space

The proposed improvements will not have an effect upon the parks or open space needs in the area over that anticipated in the Master EIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Parks and Open Space (pages V-11-1 through V-11-14) are, therefore, still valid.

L. Increased Demand for Schools

The proposed improvements will not create any additional demand for schools. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Schools (pages V-12-1 through V-12-11) are still valid.

M. Increased Demand for Police Services

Because the Project is consistent with the General Plan in land use and intensity, it will not present any increased demand for police services that has not already been addressed in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Police Services (pages V-13-1 through V-13-7) are, therefore, still valid.

N. Increased Demand for Fire Services

Because the Project is consistent with the General Plan in land use and intensity, it will not present any increased demand for fire services that has not already been addressed in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Fire Services (pages V-14-1 through V-14-9) are, therefore, still valid.

O. Generation of Solid Waste

This project will not cause the generation of solid waste beyond that which is identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Solid Waste (pages V-15-1 through V-15-10) are, therefore, still valid.

P. Generation of Hazardous Materials

This proposed use will not result in additional hazardous materials generated beyond those identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Hazardous Materials (pages V-16-1 through V-16-15) are, therefore, still valid.

Q. Landslides and Seismic Activity

This use will result in no additional potential for exposing people to landslides or earthquake related hazards such as liquefaction beyond those identified in the

MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Landslides and Seismic Activity (pages V-17-1 through V-17-12) are, therefore, still valid.

R. Energy

This use will result in less than significant additional demands for energy, as identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Energy (pages V-18-1 through V-18-7) are, therefore, still valid.

IV. CONCLUSIONS/DETERMINATIONS OF FINDINGS

- A. The proposed installation of a Traffic Signal Project is within the scope of the General Plan Master EIR (SCH No. 1999082041), which analyzed the potential impacts of buildout of the Urban Area General Plan, including roadways in this area.
- B. No additional significant environmental effects will occur as a result of the Project that were not previously examined in the General Plan Master EIR.
- C. No new mitigation measures or alternatives will be required as a result of the Project that were not previously considered in the General Plan Master EIR.
- D. There are no specific features unique to the Project that requires project specific mitigation measures. All certified mitigation measures identified in the MEIR would apply city wide, including this project as appropriate.
- E. This initial study provides substantial evidence to support findings A, B, C, and D above.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-599**

**A RESOLUTION AUTHORIZING THE AWARD OF BID AND CONTRACT
FOR THE FURNISHING OF ROCKWELL REJUVENATION WITH
APPLEGATE BACKHOE & DRILLING, HUGHSON, CA FOR A THREE (3)
YEAR CONTRACT WITH TWO (2) ONE-YEAR EXTENSION OPTIONS**

WHEREAS, the Operations and Maintenance Department, Waste Water Collections Division has requested the furnishing of rockwell rejuvenation, and

WHEREAS, the City of Modesto has a storm drainage system that requires an intense maintenance program, and

WHEREAS, the City has over 10,000 rockwells within this storm drainage system that require annual cleaning and at times rejuvenation, and

WHEREAS, rejuvenation of a rockwell entails replacing the core pipe and upper level rock materials and partially redrilling the original vertical shaft, and

WHEREAS, over the past six years, to maximize the effectiveness of the system, the total number of rockwells rejuvenated annually has grown from 35 to over 500, and

WHEREAS, in fiscal year 2002/2003, 528 rockwells received rejuvenation, and

WHEREAS, based on annual funds of \$1,167,900.00, it is estimated that 488 rockwells will receive rejuvenation in fiscal year 2003/2004, and

WHEREAS, rockwells routinely become contaminated and clogged due to organic material, oils, paint, concrete, silt and other debris, and

WHEREAS, once a rockwell becomes contaminated it ceases to function as designed and is rendered inoperable, and

WHEREAS, the only way to remove the contaminants and return the rockwell to its fully functional state is through the rejuvenation process, and

WHEREAS, the annual routine maintenance and rejuvenation of the City's rockwell drainage system is critical, and

WHEREAS, the continued functionality of all rockwells is completely dependent on their proper maintenance, and

WHEREAS, in June 2003, Council approved Resolution No. 2003-308 authorizing the Purchasing Supervisor to formally solicit bids for the furnishing of rockwell rejuvenation for the Operations and Maintenance Department, Waste Water Collections Division, and

WHEREAS, the Purchasing Division solicited Request for Bid No. 0203-38 for the furnishing of rockwell rejuvenation, and

WHEREAS, ten (10) vendors were solicited with one (1) vendor choosing to respond, and

WHEREAS, on July 29, 2003 bids were opened and recorded in the City Clerk's office, and

WHEREAS, it is recommended by staff that the City award the bid and authorize the City Manager to sign a contract for the furnishing of rockwell rejuvenation with Applegate Backhoe & Drilling, Hughson, CA for an estimated annual cost of \$1,166,000.00, for a three (3) year contract with two (2) one-year extension options,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby awards the bid and contract to Applegate Backhoe & Drilling of Hughson, CA., for the furnishing of rockwell rejuvenation for an estimated annual cost of \$1,166,000.00, for a three (3) year contract with two (2) one-year extension options.

BE IT FURTHER RESOLVED that the City Manager is hereby authorized to execute said contract.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 13th day of November, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Conrad, Fisher, Frohman, Jackman, Keating, O'Bryant, Mayor Sabatino

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-600**

A RESOLUTION AUTHORIZING THE CITY MANAGER TO ACCEPT NATIONAL ASSISTANCE TO FIREFIGHTERS GRANT PROGRAM FUNDS IN THE AMOUNT OF \$256,297 AND TO EXECUTE THE NECESSARY GRANT ACCEPTANCE DOCUMENTS.

WHEREAS, the Congress, under Public Law 107-73, has authorized the establishment of the Federal Fire Protection and Control Act and has appropriated \$360 million dollars to carry out the Assistance to Firefighter's Grant Program, and

WHEREAS, the Federal Emergency Management Agency (FEMA) is responsible for administration of the program, setting up necessary rules and procedures governing application by local agencies under the program, and

WHEREAS, said adopted procedures established by FEMA require the applicant to provide 30% local matching funds, and

WHEREAS, the City of Modesto and Modesto Fire Department qualified to submit a grant request, and

WHEREAS, the Public Safety Committee met on March 31, 2003, and recommended support for this grant application, and

WHEREAS, the National Assistance to Firefighter's Grant Program has awarded a grant to the Modesto Fire Department in the amount of \$256,297,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby:

1. Authorizes the acceptance of Assistance to Firefighter's Grant Program funds in the amount of \$256,297.

2. Certifies that said agency has matching funds from the following source: Fire Department Operating Budget, and can finance 100 percent of the project, 70% of which will be reimbursed.
3. Authorizes the City Manager, or designee, as agent of the City to execute and submit the necessary grant acceptance documents.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 13th day of November, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-601**

**RESOLUTION APPROVING A LEASE AGREEMENT WITH JENNIFER
OLGIATI TO LEASE CITY-OWNED PROPERTY LOCATED AT 801 N
McCLURE ROAD AND AUTHORIZING THE CITY MANAGER TO
EXECUTE THE LEASE.**

WHEREAS, the City owns property located at 801 N McClure Road, and

WHEREAS, the previous Lessee, Tara Fairbairn, notified the City of her intent to terminate the existing Lease Agreement, and

WHEREAS, staff subsequently initiated the process to obtain another Lessee for the property, including advertising, reviewing rental applications, and performing credit/reference checks, and

WHEREAS, staff found Jennifer Olgiati to be the most qualified Lessee, and

WHEREAS, the proposed lease is for a period of twelve (12) months and includes monthly rental payments of \$800 (eight hundred dollars), and

WHEREAS, the proposed lease provides the tenant be responsible for landscape maintenance, major appliance maintenance, and other minor repairs of the property, and

WHEREAS, the proposed lease includes an inflation factor, should the lease be extended beyond the original 12-month commitment.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Lease Agreement with Jennifer Olgiati to Lease City-Owned Property located at 801 N McClure Road, attached hereto as **Exhibit A**, is approved.

Be it further resolved that the City Manager or his designee is hereby authorized to execute the lease.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 13th day of November, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

LEASE AGREEMENT

This Indenture of Lease, made and entered into in the City of Modesto, County of Stanislaus, State of California, as of this 1st day of December 2003, by and between the CITY OF MODESTO, a municipal corporation of the State of California, hereinafter called CITY, and Jennifer Olgiati, hereinafter called LESSEE.

THE PARTIES HERETO AGREE AS FOLLOWS:

That for and in consideration of the covenants, conditions, agreements, and stipulations hereinafter expressed, CITY does hereby demise and lease unto LESSEE, and LESSEE hereby hires from CITY those certain premises located at 801 N. McClure Rd. in the City of Modesto, County of Stanislaus, State of California, more particularly shown in red on the attached map marked Exhibit A.

1. TERM. LESSEE shall be entitled to have and to hold the leased premises, together with the appurtenances, rights, privileges and easement thereunto belonging to or appertaining, for a one (1) year term commencing on December 1, 2003 and ending on December 1, 2004.

If LESSEE with CITY'S consent remains in possession of the leased premises after the expiration of the lease term, possession of the leased premises shall be deemed to be a month-to-month tenancy, terminable on thirty (30) days written notice given by either party. LESSEE'S monthly rent shall be increased in the amount of \$50.00 per each 12-month period beyond the first year term. The City Manager is authorized to give said notice on behalf of CITY.

2. RENTAL.

- (a) Monthly rental for the lease of the leased premises shall be eight hundred and no/100ths (\$800.00) dollars payable each month in advance

commencing on December 1, 2003 payable in lawful money of the United States to CITY'S Director of Finance, P.O. Box 642, Modesto, California. The monthly rent shall be paid for the 1st of each month and subsequent months and a portion of any partial month prorated at the rate of 1/30th of the monthly sum. Rent shall be due on the 1st of the month and will be delinquent on the 15th of the month.

- (b) In the event the rental payment is not paid to CITY by the 15th of the month, there shall be added a monthly penalty of ten percent (10%) of the amount of rental due per month, or \$80.00, whichever is greater.

3. ADDITIONAL CONSIDERATION. LESSEE agrees that as further consideration for the lease of the demised premises to perform the following services:

- (a) At LESSEE'S discretion and sole cost, LESSEE may post signs indicating the leased premises is a private residence and no trespassing will be allowed.
- (b) LESSEE shall take care of minor maintenance, along with maintaining in working condition the kitchen appliances. Repairs to said appliances shall not be made without first obtaining written authorization from the Building Services Superintendent. City shall reimburse LESSEE for approved repair costs.

This agreement recognizes that a substantial inducement to CITY for entering into this agreement was, and is, the reputation and competence of LESSEE. Neither CITY nor its officers, agents or employees shall have any control over the conduct of LESSEE except as herein set forth, and for the purpose of this agreement, LESSEE expressly agrees not to represent that LESSEE is in any manner agent, servant or employee of CITY, it being understood that LESSEE is as to CITY wholly independent

contractor and that LESSEE'S obligations to CITY are solely such as are prescribed by this agreement.

4. DEPOSIT. Concurrently with the delivery of the signed Lease Agreement, LESSEE will deliver the first month's prorated rent in the amount of eight hundred dollars (\$800.00) and a deposit with CITY in the amount of eight hundred and no/100th Dollars (\$800.00) as security for the full and faithful performance of each and every term, provision, covenant, and condition of the Lease Agreement. If LESSEE defaults in respect to any of the terms, provisions, covenants, and conditions of this Lease Agreement, including but not limited to the payment of rent, to repair damages to the premises caused by the LESSEE, or cleaning of such premises upon termination of the Lease Agreement, CITY may use, apply, or retain the whole or any part of this security for payment of and or all of the above mentioned specific purposes. Any remaining portion of such deposit shall be returned to the LESSEE no later than thirty (30) days after termination of the Lease Agreement. LESSEE shall not be entitled to any interest on the security deposit.
5. USE. Said premises shall not be used by LESSEE during the term of this Lease Agreement for other than single-family residential and occasional guests except with the prior written consent of CITY.
6. RESTRICTIONS ON USE. LESSEE agrees to abide by the following restrictions on use of the premises:
 - (a) No animals or pets shall be permitted on the premises except those approved by prior written approval of the City Manager or his designee.
 - (b) All laundry and other types of maintenance operations shall be confined to the interior of the house.
 - (c) All storage, both temporary and permanent, shall be confined to the interior of the house.

- (d) No more than two (2) motor vehicles shall be kept on the premises at any time, and shall be in good running condition at all times.
- (e) Smoking will not be allowed in the house.

7. REPAIR – MAINTENANCE. LESSEE agrees that as part of the consideration for lease of the demised premises that LESSEE will make, at LESSEE'S sole cost and expense, any ordinary repairs to the dwelling necessary to keep said dwelling in a tenable condition.

LESSEE also agrees to maintain the demised premises in a safe, clean and sanitary manner, including the dwelling structure, the yard & landscaping, and to keep the entire premises reasonably free from noxious weeds and grasses. A fee of \$100.00 per month will be added onto the monthly rent for landscaping maintenance and upkeep if LESSEE fails to maintain landscaping at a level acceptable to CITY.

CITY shall be responsible for any major repairs to the demised premises, except as noted previously.

8. IMPROVEMENTS. LESSEE understands that no improvements to or upon the premises may be made without the prior written consent of the City Manager or his designee; any approved improvements will be done at the sole cost and expense of LESSEE.

No buildings or other structures shall be erected upon the premises unless the consent of the City Manager or his designee is first obtained in writing. LESSEE agrees to notify CITY at the time any improvements are begun so that CITY may post and record Notices of Nonresponsibility. LESSEE agrees not to permit any liens for both labor and materials to be placed upon said premises by reason of any improvements made thereon and further agrees to hold CITY harmless from any liability resulting therefrom.

9. RIGHT OF ENTRY UPON PREMISES. CITY and its agents and employees shall have the right to enter upon the leased premises under the following circumstances:

- (a) In case of emergency;
- (b) To make necessary or agreed upon repairs, decorations, alterations or improvements; supply necessary or agreed upon services; exhibit the dwelling unit to prospective or actual purchasers, mortgagees, tenants, workers or contractors; or to make preliminary inspections before termination of the lease agreement;
- (c) When the Lessee has abandoned or surrendered the premises; or
- (d) In accordance with a court order.

Lessor will give Lessee at least twenty-four (24) hour's notice of Lessor's intent to enter unless: (1) an emergency exists, (2) Lessee has abandoned or surrendered the leased premises, or (3) it is impracticable to do so. Further, Lessor will enter only during normal business hours unless: (1) an emergency exists, (2) Lessee has abandoned or surrendered the leased premises, or (3) Lessee consents, at the time of entry that is not during business hours, to the entry.

10. EMERGENCIES. If any emergency arises, LESSEE agrees to promptly take whatever remedial action may be feasible and promptly notify either the Building Services Division of the Operations & Maintenance Department or the Modesto Police Department of the existence of such emergency and the remedial action taken.

11. UTILITIES. LESSEE agrees to pay all utility bills, including electricity, water and garbage. Septic system will be maintained by CITY.

12. ASSIGNMENT BY LESSEE. LESSEE shall not assign this Lease Agreement nor any right hereunder, nor sublet the premises, nor any part thereof, or suffer any other person or entity to occupy or use the said premises or any portion thereof whether through direct assignment, subletting, occupation or use by another person or entity. Any such assignment, subletting and occupation or use by any other person or entity shall be void

and shall, at the option of the City Manager, terminate this Lease Agreement. This Lease Agreement shall not, nor shall any interest therein, be assignable, as to the interest of LESSEE by operation of law, without the prior written consent of CITY.

13. FIRE INSURANCE. CITY shall keep the leased premises, excluding personal property of the LESSEE, insured against losses by fire and other perils to the extent covered within CITY'S insurance policies, except that LESSEE agrees to reimburse CITY for any losses caused by, or arising out of LESSEE'S use, occupancy or operation of the leased premises and not covered under CITY'S insurance policies, including deductible amounts (presently \$5,000.00). LESSEE further agrees to reimburse CITY and/or CITY'S insurance companies for any such losses caused by, or arising out of LESSEE'S use, occupancy or operation of the leased premises for which the LESSEE may be held legally obligated to pay.

14. LIABILITY INSURANCE. LESSEE agrees to provide and keep in full force and effect throughout the term of this Lease Agreement a policy of insurance, covering any and all claims for injury, sickness and disease, including death therefrom, to any/all persons and damage to property, arising out of LESSEE'S use of, occupancy of, or occurring on the leased premises, in the amount of \$300,000. Within thirty (30) days of the commencement of this Lease Agreement, a certificate evidencing said insurance shall be filed with the City Clerk. Said certificate of insurance shall be in a form acceptable to CITY'S Risk Manager. LESSEE further agrees that the amount of insurance required may from time to time be adjusted by CITY'S Risk Manager and LESSEE agrees to file a new insurance certificate with the City Clerk evidencing the new amounts after a thirty (30) day written notice from CITY'S Risk Manager requiring him/her to do so.

15. INDEMNIFICATION. LESSEE agrees to indemnify, defend and hold the City of Modesto, its officers, agents, volunteers and employees free and harmless from and against any and all liabilities, claims, demands, actions, losses, damages or costs of

defense thereof that result in bodily injury and/or property damage caused by, arising out of, or in any way related to LESSEE'S use or occupancy of the leased premises, or occurring on the leased premises during the term of this lease or at any time of occupancy of the leased premises by LESSEE. Upon demand LESSEE shall, at his own expense, defend the City of Modesto, its officers, agents, volunteers and employees against all such liabilities, claims, demands, actions, losses, damages or cost.

16. TERMINATION BY CITY PRIOR TO EXPIRATION.

(a) ABANDONMENT

If Lessee breaches this lease and abandons the property before the end of the term Lessor shall have the right to terminate this Lease by giving written notice of termination to Lessee. Said notice shall be served on Lessee when the rent on the property has been due and unpaid for at least fourteen (14) consecutive days, and Lessor reasonably believes Lessee has abandoned the property. The notice shall inform the Lessee of the date of termination of the Lease and in no event shall such date be less than fifteen (15) days after the notice is served personally on Lessee or, if mailed, not less than eighteen (18) days after the notice is deposited in the mail.

(b) MATERIAL BREACH

(1) Lessor and Lessee agree that every condition, covenant, and provision of this Lease is material and reasonable. Any breach by Lessee of a condition, covenant or provision of this Lease will constitute a material breach. For any material breach by Lessee, Lessor may provide Lessee with a notice as set forth in subparagraph (a) above, which complies with the time constraints set forth therein and describes the breach and the date of the Lease's termination. Failure on the part of Lessee to pay rent

when due, unless such failure is corrected within a fifteen (15) day period, shall constitute a material breach of the Lease Agreement.

- (2) Should Lessee vacate the Leased Premises and leave any personal property not owned by the Lessor on the premises, City shall not be responsible for the custodial protection of the personal property abandoned, even though it is necessary for City to remove Lessee's personal property from the Leased Premises for either storage or disposal.

(c) LESSOR'S REMEDIES

On such termination, Lessor may recover the following from Lessee:

- (1) The worth at the time of the award of the unpaid rent that had been earned at the time of termination;
- (2) The worth at the time of the award of the amount by which the unpaid rent that would have been earned after termination until the time of the award exceeds the amount of rental loss that Lessee proves could have been reasonably avoided;
- (3) The worth at the time of the award of the amount by which the unpaid rent for the balance of the term after the time of the award exceeds the amount of rental loss for that period that Lessee proves could have been reasonable avoided; and
- (4) Any other amount necessary to compensate Lessor for all the detriment proximately caused by Lessee's failure to perform the obligations under this Lease, or that in the ordinary course of things would be likely to result therefrom.

17. TAXES. LESSEE recognizes and understands that this Lease may create a possessory interest subject to property taxes on such interest. LESSEE further agrees

to pay, without the right to deduct from rental fees provided herein, any and all property taxes, if any, assessed during the term of this lease against LESSEE'S possessory interest in the lease premises.

LESSEE further agrees to pay, without right to deduct from rental fees provided herein, any and all personal property taxes assessed against his property on said leased premises and such portion of any real property taxes as may be levied against improvements owned by LESSEE and erected upon land owned by CITY.

18. DAMAGE TO PREMISES. If said premises are so damaged by fire or from any other cause as to render it untenable, then either party shall have the right to terminate this Lease Agreement as of the date on which such damage occurs, through written notice to the other party, to be given within fifteen (15) days after the occurrence of such damage; except that should such damage or destruction occur as the result of the abuse or negligence of LESSEE or his invitees, so as to render said premises untenable, CITY only shall have this right of termination. The City Manager or his designee is authorized to give notice on behalf of the CITY.

19. COMPLIANCE WITH LAWS. LESSEE shall not do or suffer to be done on or about the leased premises anything that would or does violate or conflict with any applicable law, ordinance, rule or regulation which is now in force or effect or which may hereafter be enacted or adopted by federal, state, county or municipal authority.

20. FAILURE TO VACATE. LESSEE agrees to vacate said premises upon termination of this Lease Agreement, and failing to vacate as herein provided, agrees that CITY, or its authorized agents, may enter upon said property and remove all personal property therefrom and in this event, LESSEE waives any and all claims for damages against CITY, its agents or employees. Nothing herein shall be deemed a waiver of any rights of CITY to demand and obtain possession of said premises in accordance with law in the event of a violation on LESSEE'S part of any of the terms or conditions hereof.

21. CO-PARTNERSHIP DISCLAIMER. It is mutually understood and agreed that nothing in this Lease Agreement is intended or shall be construed as in any way creating or establishing the relationship of co-partners between the parties hereto, or as constituting LESSEE as agent or representative of CITY for any purpose or in any manner whatsoever.
22. WAIVER. Any waiver of any breach of covenants or conditions herein contained to be kept and performed by either party shall be effective only if in writing and shall not be deemed or considered as a continuing waiver and shall not operate to bar or prevent the other party from declaring a forfeiture or exercising its rights for any succeeding breach of either the same or other condition or covenant.
23. ATTORNEY'S FEES. In the event that either party hereto shall commence any legal action or proceeding against the other by reason of the alleged failure of the other to perform any term, covenant, or condition of this Lease Agreement by him to be performed or kept, the party prevailing in said action or proceeding shall be entitled to recover a reasonable attorney's fee to be fixed by the court. "The party prevailing" means the party in whose favor final judgement is rendered and "legal action or proceeding" includes arbitration.
24. TIME OF ESSENCE, BINDING UPON HEIRS, ETC. Time is of the essence of each and all the terms and provisions of this Lease Agreement and the terms and provisions of the Lease Agreement shall extend to and be binding upon and inure to the benefit of the heirs, executors, administrators, successors and assigns of the respective parties herein contained shall be joint and several obligations.
25. NUMBER AND GENDER. All words used herein in the singular number shall include the plural and the present tense shall include the future and the masculine gender shall include the feminine.

IN WITNESS WHEREOF, the City of Modesto, a Municipal Corporation, has authorized the execution of this Lease Agreement in duplicate by its City Manager and attestation by its City Clerk under Authority of Resolution No. _____, adopted by the Council of the City of Modesto on the ____ day of _____, 2003. And LESSEE has caused the Lease Agreement to be executed.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-602**

RESOLUTION AMENDING THE MEMORANDUM OF UNDERSTANDING (MOU) BETWEEN THE CITY OF MODESTO AND THE MODESTO CITY FIRE FIGHTERS ASSOCIATION (MCFFA), TO PROVIDE FOR A REVISED METHOD OF IMPLEMENTING EMPLOYEE COST SHARING OF RETIREMENT CONTRIBUTIONS.

WHEREAS, the Board of Arbitrators in the matter of an arbitration under Section 1206 of the Charter of the City of Modesto, between the City and the Modesto City Fire Fighters Association (MCFFA), issued a decision dated May 1, 2002, and

WHEREAS, that decision provided for equal cost sharing between the City and MCFFA for increases in the Normal Cost of retirement benefits above 18.3%, when said increases were due solely to the implementation of the 3% @ 50 retirement formula, and

WHEREAS, such increases in Normal Cost have occurred for FY 02-03 and for FY 03-04, and

WHEREAS, the parties agree to implement the cost sharing provision by delaying for three pay periods the next scheduled across-the-board salary increase for MCFFA, in lieu of making changes to the Employer Paid Member Contribution (EPMC) rate, and

WHEREAS, such a delay will realize for the City approximately the same savings as would have been realized by changes to the EPMC,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes the Memorandum of Understanding between the City and MCFFA, expiring December 27, 2004, be amended to provide that the 3% across-the-board salary increase scheduled for December 30, 2003 be delayed until February 10, 2004.

BE IT FURTHER RESOLVED that this delay shall be in lieu of changes to the Employer Paid Member Contributions, and this delay shall fulfill MCFFA's obligation for cost sharing related to increases in the Normal Cost retirement rate under the current MOU.

BE IT FURTHER RESOLVED that the MCFFA MOU shall be amended to terminate the provision for cost sharing of Normal Cost increases, effective June 30, 2004.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 13th day of November, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-603**

A RESOLUTION APPROVING THE REQUEST OF BERTOLOTTI DISPOSAL, INC. FOR AN ASSIGNMENT AND TWO-YEAR EXTENSION OF THEIR SERVICE AGREEMENT WITH THE CITY OF MODESTO FOR THE COLLECTION OF COMMERCIAL/RESIDENTIAL GARBAGE/RECYCLABLES, CONTAINERIZED YARD WASTE, AND INDUSTRIAL GARBAGE, SALVAGEABLE WASTE, AND RECYCLABLES TO BERTOLOTTI MODESTO DISPOSAL, INC. AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE ASSIGNMENT AND EXTENSION.

WHEREAS, on September 25, 2003, the City Clerk received a request from Bertolotti Disposal Inc. for an Assignment and Extension of their Service Agreement to collect commercial/residential garbage/recyclables, containerized yard waste, and industrial garbage, salvageable waste, and recyclables in the City of Modesto, and

WHEREAS, Bertolotti Disposal Inc., wishes to assign its rights and interests under said agreement to its newly formed affiliate company, Bertolotti Modesto Disposal, Inc., and

WHEREAS, Bertolotti Disposal Inc. has provided all of the information required by the Modesto Municipal Code and Service Agreement, including the proposed assignee, the types of services offered, the equipment to be used, the financial ability of the assignee to perform the services, and the proposed consideration to the City, and

WHEREAS, staff has reviewed the aforementioned documentation and performed due diligence upon the request, and

WHEREAS, on October 13, 2003, the Economic Development Committee met and supported the request of Bertolotti Disposal Inc., and

WHEREAS, in accordance with Modesto Municipal Code section 5-5.24, a public hearing was held on Thursday, November 13, 2003, at 5:30pm in the Tenth Street Place Chambers located at 1010 10th Street, Modesto, California, and

WHEREAS, pursuant to California Public Resources Code Section 49510 (b), the City

Council finds that it is in the public interest to foster and encourage solid waste enterprises so that, at all times, there will continue to be competent enterprises willing and financially able to furnish needed solid waste handling services, and

WHEREAS, Sections 5-5.23 through 5-5.33 of the Modesto Municipal Code, inclusive, establish the process by which proposals may be submitted to enter into service agreements with the City, and the procedure by which the City reviews and determines whether to enter into such service agreements, and

WHEREAS, the Modesto Municipal Code section 5-5.32 requires that collection companies obtain written consent from the City Council after a public hearing is held, prior to an Assignment of a Service Agreement,

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto that an Assignment and Two-Year Extension of the Service Agreement between the City of Modesto and Bertolotti Disposal, Inc. is hereby approved to Bertolotti Modesto Disposal, Inc., for the purposes of providing solid waste collection services of commercial/residential garbage/recyclables, containerized yard waste, and industrial garbage, salvageable waste, and recyclables.

BE IT FURTHER RESOLVED by the Council that it hereby authorizes the City Manager, or his designee, to execute the assignment and extension.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 13th day of November, 2003, by Councilmember Fisher, who moved its adoption, which motion being duly seconded by Councilmember Conrad, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-604**

A RESOLUTION TERMINATING THE CURRENT SERVICE AGREEMENT WITH WASTE MANAGEMENT FOR PERFORMANCE DEFICIENCIES, APPROVING THE EXECUTION OF A 1-YEAR INTERIM CONTRACT, AND IMPOSING PENALTIES FOR FAILURE TO PERFORM UNDER THE 1997 SERVICE AGREEMENT

WHEREAS, on November 1, 1997, the City executed a Service Agreement with Modesto Garbage Company, Inc., D.B.A. Modesto Disposal Service, which was then a subsidiary of USA Waste of California, which later acquired Waste Management and changed the name of the corporate parent to Waste Management, for a term through January 1, 2007, and

WHEREAS, while the term of this Service Agreement with Waste Management was for 10 years, due to concerns about the corporation's problems in other cities, the City Council added a provision to the Service Agreement to allow the City to terminate the agreement on January 1, 2004, if the City found the company did not meet certain performance standards to the satisfaction of the City, and

WHEREAS, Section b.1. of the Service Agreement states the following performance standards must be met to get to the full 10-year term: Timely payment of fees and charges; Delivery of all waste or recyclables to the facilities specified by the City; Satisfactory resolution of complaints; Compliance with all provisions of the Modesto Municipal Code, the Service Agreement, and state, federal, and local laws pertaining to the collection operations; and Service Agreement provisions regarding recycling and yard waste diversion programs, and

WHEREAS, staff notified the company on multiple occasions that substandard performance was occurring and of the need to meet the requirements of the Service Agreement, and

WHEREAS, staff believes the company has violated multiple provisions of Section b.1. of their Service Agreement, and

WHEREAS, on October 13, 2003, the Economic Development Committee met and recommended that the Council terminate Waste Management's Service Agreement, issue an interim contract with the possibility of two, one-year Extensions if they perform to the City's standards, impose penalties for past violations of the Service Agreement, and, if the company continues to fail to perform, either go out to bid or divide the service area between the other collectors effective January, 2006, and

WHEREAS, pursuant to Modesto Municipal Code Section 5-5.33, the City Council heard said matter at a public hearing, on Thursday, November 13th, 2003, at 5:30 p.m. in the Tenth Street Place Chambers located at 1010 10th Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto, that the Council hereby:

1. Terminates the current Service Agreement with Waste Management (D.B.A. Modesto Disposal Service) effective January 1, 2004;
2. Authorizes the City Manager to execute a 1-year interim contract with Waste Management allowing them to continue providing service through January, 2005;
3. Authorizes the City Manager to extend this interim contract for a total of two, 1-year extensions if the company fully complies with the service requirements of the City;
4. Authorizes staff to bill Waste Management to compensate the City for staff time expended in the resolution of customer service complaints; and,
5. If the company fails to comply with the City's service requirements, either go out to bid in 2006 or divide the Waste Management service area among the other collectors effective January 1, 2006;
6. Directs staff to research the possibility of including on the customer's invoice a phone number for Waste Management for complaints as well as the City staff phone number.

BE IT FURTHER RESOLVED, that if the company fails to comply with the City's service requirements during the initial year of the interim contract, the Council hereby directs staff to return with a report recommending that the City either go out to bid in 2006 to provide services in Waste Management's service area, or divide the Waste Management service area among the other collectors effective January 1, 2006.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 13th day of November, 2003, by Councilmember O'Bryant who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-605**

A RESOLUTION APPROVING TWO (2), SEVEN (7) MONTH RETAIL ADVERTISING CONTRACTS WITH THE MODESTO BEE (MCCLATCHY NEWSPAPER GROUP), TO COINCIDE WITH THE FISCAL YEAR CALENDAR, CONSISTING OF, ONE (1) CONTRACT FOR A 500-COLUMN-INCH "NO-COMMITMENT" ADVERTISING RATE OF \$45.65 PER COLUMN INCH AND THE OTHER CONTRACT FOR A "12X COMMITMENT" BUSINESS PACKAGE ADVERTISING PLAN AT A RATE OF \$24.53 PER COLUMN INCH AND AUTHORIZING THE CITY MANAGER TO EXECUTE BOTH CONTRACTS

WHEREAS, the City of Modesto is currently using the Modesto Bee (McClatchy Newspaper Group) as its primary advertising source for its advertising requirements, and

WHEREAS, the advertising services are required for classified and legal advertisements as required by law, and for retail advertisements for public information purposes, and

WHEREAS, in May of 2002 Council directed staff to consolidate the procurement of advertising through a central source in order to obtain the best contractual pricing available for the City, and

WHEREAS, the City's Public Information Officer and the Purchasing Supervisor met with the Modesto Bee and based on advertising volume commitments identified two (2) retail contract options which best met the City's retail advertising needs, and

WHEREAS, in November of 2002 staff went before Council with a recommendation to approve both retail advertising contracts, and

WHEREAS, in November of 2002, by Resolution No. 2002-564, Council approved both contracts and authorized the City Manager to sign the one-year contracts, and

WHEREAS, both retail contracts are set to expire in November of 2003, and

WHEREAS, staff met with the Modesto Bee to discuss what contract renewal options would be available to the City, and

WHEREAS, the Modesto Bee has agreed to renew both retail advertising contracts for another year with a 5% price increase on both, and

WHEREAS, at its meeting on October 27, 2003, the Finance Committee unanimously supported and recommended renewal of the advertising contracts for a one year term, and,

WHEREAS, Council has requested that seven (7) month retail advertising contracts be put in place to coincide with the fiscal year calendar, and

WHEREAS, the price increase associated with the shorter contract term would put the "non-profit no-commitment" contract rate at \$45.65 per column inch and the "12x-commitment business package" rate at \$24.53 per column inch, and

WHEREAS, once signed, both advertising contracts shall be implemented and tracked by the City's Public Information Officer, and

WHEREAS, the Purchasing Supervisor has determined that a process other than the formal bid procedure will result in a procurement of advertising for the City at the lowest cost commensurate with the desired quality, as provided for in MMC 8-3.204(d), and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves two (2), seven (7) month retail advertising contracts with the Modesto Bee (McClatchy Newspaper Group), to coincide with the fiscal year calendar, one for a 500 column inch "no-commitment" non-profit rate at \$45.65 per column inch and the other for a "12x-commitment" business package advertising plan at a rate of \$24.53 per column inch.

BE IT FURTHER RESOLVED that the City Manager or his designee, is hereby authorized to execute the contracts.

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 13th day of November, by Councilmember Keating, who moved its adoption, which motion being duly seconded by Councilmember Fisher, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2003-606**

**A RESOLUTION APPROVING AN EXTENSION OF AN AGREEMENT
BETWEEN THE CITY OF MODESTO AND SUE FISCOE, DBA FISCOE
MANAGEMENT (FM GOLF) AND AUTHORIZING THE CITY MANAGER TO
EXECUTE THE AGREEMENT**

WHEREAS, the City owns, operates and manages the Municipal Golf Course (“Municipal Course”), Dryden Park Municipal Golf Course (“Dryden Course”), Dryden Park Municipal Golf Course Driving Range (“Dryden Range”), Creekside Municipal Golf Course (“Creekside Course”) and Creekside Municipal Golf Course Driving Range (“Creekside Range”), and

WHEREAS, on March 21, 2000, the City of Modesto and FM Golf entered into an agreement under authority of Resolution No. 2000-131 retaining FM Golf as golf course professional to provide golf professional services at Municipal Course, Dryden Course, Dryden Range, Creekside Course, and Creekside Range, and,

WHEREAS, it is the desire of the City of Modesto that FM Golf continue as golf course professional to provide golf professional services at Municipal Course, Dryden Course, Dryden Range, Creekside Course and Creekside Range; and,

WHEREAS, it is the desire of CITY and FM Golf that FM Golf also provide food and beverage concession services at Municipal Course and Dryden Course Clubhouse Concessions, and,

WHEREAS, it is the desire of the City to extend the agreement with FM Golf for a five-year period commencing on July 1, 2003, and terminating on July 1, 2009, with the option to extend the agreement for an additional five-year period, and

WHEREAS, at their June 2, 2003, meeting, the Safety and Communities Committee recommended to continue negotiations with FM Golf and to exercise its right to offer to extend agreements with FM Golf as of June 30, 2003, and

WHEREAS, at their August 4, 2003, meeting, the Safety and Communities Committee recommended a five-year extension of the contract with CITY and FM Golf,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves extending an agreement with FM Golf to provide golf professional services at Municipal Course, Dryden Course, Dryden Range, Creekside Course, Creekside Range and to provide concession services at Municipal Course and Dryden Course Clubhouse Concession for a five-year period commencing on July 1, 2003, and terminating on July 1, 2009, with the option to extend the agreement for an additional five-year period.

BE IT FURTHER RESOLVED that the execution of said agreement by the City Manager, or his designee, is hereby authorized.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-607**

**A RESOLUTION OF THE COUNCIL OF THE CITY OF MODESTO
CONFIRMING THE CANVASS OF THE REGULAR MUNICIPAL ELECTION
WHICH WAS HELD IN THE CITY OF MODESTO ON NOVEMBER 4, 2003,
AND DECLARING THE RESULTS OF SAID ELECTION.**

WHEREAS, on Tuesday, November 4, 2003, a Regular Municipal Election was held in the City of Modesto (herein called "City") and in the Modesto High School District (herein called "District") of Stanislaus County to elect the following:

1. One Councilmember to Chair No. 1 for a four year term;
2. One Councilmember to Chair No. 3 for a four year term;
3. One Councilmember to Chair No. 6 for a four year term;
4. One member to Mayor for a four year term;
5. Three Board of Education Members for four year terms;
6. One Board of Education Member for a two year term; and

WHEREAS, as set forth in Section 5 hereof, Measures I and K, were proposed Charter Amendments, and Measures H, L, M and N were Advisory measures, and were submitted to the qualified electors in the November 4, 2003, City of Modesto election, and

WHEREAS, said election was held on Tuesday, November 4, 2003, in accordance with law and the proceedings of this Council, and the votes thereat received and canvassed, and the returns thereof ascertained, determined, and declared in all respects as required by law, and

WHEREAS, the City Clerk canvassed the returns of said regular municipal election in accordance with law, and certified the results of the election of the Council by a Certificate of Canvass and Statement of Votes dated November 18, 2003, a copy of which is attached hereto marked **Exhibit "A"** and made a part hereof,

NOW, THEREFORE, BE IT RESOLVED, by the Council of the City of Modesto as follows:

SECTION 1. Said canvass by the City Clerk as shown on the Certificate of Canvass and Statement of Votes and the results of the election are hereby ratified, confirmed and approved.

SECTION 2. That in accordance with Section 10264 of the Elections Code, a copy of said Certificate of Canvass and Statement of Votes, which is attached hereto marked as Exhibit "A" and made a part hereof, shows a complete tabulation of the following:

- (A) The whole number of votes cast in the City.
- (B) The whole number of votes cast in the Modesto High School District.
- (C) The names of the persons voted for.
- (D) For what office each person was voted for.
- (E) The number of votes given in the City to each person.
- (F) The number of votes given in the City for each Measure.

SECTION 3. That, at said Regular Municipal election, the following named persons having received a majority of the votes cast for the elective offices, as designated on Exhibit "A", are hereby declared to be duly and regularly elected to such office, and the City Clerk is hereby directed to issue a Certificate of election to each such persons, certifying his/her election to the office appearing after his/her name, and to administer to

each of said persons the oath of office prescribed by the Constitution and laws of the State of California and the Chart of the City, to wit:

Garrard Marsh	Councilmember for a term of four years, Chair No. 3, Modesto City Council.
Brad Hawn	Councilmember for a term of four years, Chair No. 6, Modesto City Council.
Gary Lopez	Member, Modesto Board of Education, for a term of four years.
Connie Chin	Member, Modesto Board of Education, for a term of four years.
Odessa P. Johnson	Member, Modesto Board of Education, for a term of four years.
Robin Brown	Member, Modesto Board of Education, for a term of 2 years.

SECTION 4. The Charter provides that if no candidate for an elective office of the City receives a majority vote at a regular municipal election, a Second Regular Municipal Election shall be held by mail ballot at which the two candidates receiving the highest number of votes at the first election shall have their names on the ballot for election of the office, therefore, the two candidates receiving the highest number of votes for City Council Chair 1, Bob Dunbar and Dave Lopez and the two candidates receiving the highest number of votes for Mayor, Bev Finley and Jim Ridenour, shall have their names on the ballot for a run-off election to be held on Tuesday, December 9, 2003.

SECTION 5. The following votes were cast for Measures H, I, K, L, M, N:

Measure	Total Votes For	Total Votes Against
Measure H: <i>Proposal to direct urban development into the incorporated cities of Stanislaus County.</i>	17,263	8,326
Measure I: <i>Proposed Charter Amendment to change the runoff election date from December of odd-numbered years to March of even-numbered years, commencing with the year 2004</i>	10,503	14,440
Measure K: <i>Proposed Charter Amendment to impose prospectively a two-term limit on the offices of Mayor and Councilmember.</i>	13,337	12,930
Measure L: <i>Proposal extending sewer service to the Empire North Comprehensive Planning District and the Johansen Comprehensive Planning District provided the areas are first annexed to the City.</i>	13510	11,740
Measure M: <i>Proposal extending sewer service to the Kiernan-Carver Comprehensive Planning District provided the area is first annexed to the City.</i>	15,649	9,489
Measure N: <i>Proposal extending sewer service to the Shackelford Infill Area Kiernan-Carver Comprehensive Planning District provided the area is first annexed to the City.</i>	15,209	9,129

Measures H, K, L, M & N. More than a majority of all the votes cast at the election for *Measures H, K, L, M & N* were in favor of said proposed Measures, and said Measures did carry and were approved and were ratified by a majority of the qualified voters voting on said *Measures*.

Measure I. Less than a majority of all of the votes cast at the election for *Measure I* were in favor of said proposed Measure, and said Measure did not carry, was not approved, and was not ratified by a majority of the qualified voters voting on said *Measure*.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th of November, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

**A RESOLUTION FOR ACCEPTANCE OF LANDSCAPE AND IRRIGATION
RELATED IMPROVEMENTS IN OLYMPIC PARK NO. 2 SUBDIVISION, IN THE
VILLAGE ONE SPECIFIC PLAN AREA, AND AUTHORIZING RELEASE OF TRUST
DEPOSIT**

WHEREAS, City Council Resolution No. 2002-112, granted partial acceptance of subdivision improvements, with exception of landscaping and irrigation improvements, and

WHEREAS, Warren Smith Lawson, Inc., a California Corporation, submitted a Cashier's Check to secure faithful performance and payment for labor and materials associated with landscape and irrigation improvements in the amount of \$22,000.00; and

WHEREAS, Warren Smith Lawson, Inc., a California Corporation, has filed a Cashier's Check in the amount of \$1,470.00 to guarantee the landscape and irrigation improvements in Olympic Park No. 2 subdivision; and

WHEREAS, the Engineering & Transportation Director, in a memorandum to Council dated November 4, 2003, indicates that all landscape and irrigation work required by the Subdivision Agreement, has been completed, to the satisfaction of the Engineering & Transportation Department; and

WHEREAS, the Engineering & Transportation Director has indicated that it would be in order for the City Council to accept the landscape and irrigation improvements in said subdivision as complete, and authorize the City Clerk to file Notice of Completion and release the trust deposit upon expiration of statutory periods.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that:

1. The landscape and irrigation improvements in Olympic Park No. 2 Subdivision are hereby accepted, and the City Clerk is hereby authorized to file a Notice of Completion for the landscape and irrigation improvements.
2. The City Clerk is hereby authorized to release the security for faithful performance in the amount of \$14,666.00 upon recordation of the Notice of Completion, and is authorized to release the security for payment for labor and materials in the amount of \$7,334.00 sixty (60) days after recordation of the Notice of Completion, provided no claim is made thereon.
3. The City Clerk is hereby authorized to release the warranty security to guarantee improvements in the amount of \$1,470.00 one year and one day following the effective date of this resolution, provided no claim is made thereon.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of November, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

RESOLUTION NO. 2003-613**

A RESOLUTION APPROVING A STORM DRAIN LATERAL REIMBURSEMENT AGREEMENT BETWEEN THE CITY OF MODESTO AND INLAND VILLAGE RELATED TO THE OVERSIZING OF 756 LINEAR FEET AND INSTALLATION OF 501 LINEAR FEET OF STORM DRAIN LINE AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT.

WHEREAS, INLAND VILLAGE, a California general partnership, owns a certain tract of land consisting of approximately 10.2 acres within Stanislaus County, commonly known as Village Highlands No. 7 Subdivision, and

WHEREAS, in connection with the development of the subdivision, Inland Village installed 1,257 linear feet of 30” storm drain lateral, and

WHEREAS, 756 linear feet of the storm drain lateral was oversized and an additional 501 linear feet was installed to accommodate future development and will serve adjacent properties located outside of the subdivision, and

WHEREAS, Modesto Municipal Code Section 4-4.802.1 authorizes the City to enter into an agreement with Inland Village to reimburse for oversizing costs, and

WHEREAS, the City has identified those properties to be served by, and which will benefit from, Inland Village’s installation of the storm drain lateral, and

WHEREAS, the owners of the benefited properties have not participated in the construction or installation of the storm drain lateral, and

WHEREAS, the benefited properties have paid or will pay mitigation impact fees to the City as a condition of development, which will include their proportionate share of the cost of constructing said storm drain lateral, and

WHEREAS, Inland Village has requested and City has agreed that they be reimbursed for a portion of its cost to install the storm drain lateral from the monies the City collects through said impact fees.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the agreement between the CITY OF MODESTO and INLAND VILLAGE related to the reimbursement for oversizing a storm drain lateral in the amount of \$43,706.00 is hereby approved.

BE IT FURTHER RESOLVED that the City Manager is hereby authorized to execute the agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of November, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**A RESOLUTION APPROVING AN AGREEMENT WITH HARRIS &
ASSOCIATES FOR CONSTRUCTION MANAGEMENT SERVICES FOR
CONSTRUCTION OF THE 9TH STREET BRIDGE REPLACEMENT PROJECT
IN THE AMOUNT OF \$2,501,613 AND AUTHORIZING THE CITY MANAGER
TO EXECUTE THE AGREEMENT**

WHEREAS, a construction contract was awarded to MCM Construction, Inc., on October 14, 2003 for construction of the 9th Street Bridge Replacement project across the Tuolumne River, and

WHEREAS, the 9th Street Bridge Replacement project is a large specialized project that requires augmentation of the City's capacity to provide construction management and inspection, and

WHEREAS, the selection of a construction management firm followed the City's selection procedures for professional consultants, and the Selection Committee recommended that negotiations begin with Harris & Associates, and

WHEREAS, the State of California Department of Transportation (Caltrans) requires a pre-award audit on consultant contracts involving State and Federal funds, and

WHEREAS, City staff requested that Caltrans perform the audit, and

WHEREAS, said audit has been completed, any necessary modifications made to the contract, and the City has been authorized to proceed with execution of the contract, and

WHEREAS, the fee for construction management services has been negotiated with Harris & Associates for an amount not to exceed \$2,501,613,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the agreement between the City of Modesto and Harris & Associates for construction management services during construction of the 9th Street Bridge Replacement project in the amount of \$2,501,613 is hereby approved.

BE IT FURTHER RESOLVED that the execution of said agreement by the City Manager, or his authorized designee, is hereby approved.

AGREEMENT CONSENTING TO COMMON USE

This Agreement is made on _____, 2003, by and between the Modesto Irrigation District, an irrigation district, hereinafter referred to as "District" and the City of Modesto, a municipal corporation, hereinafter referred to as "City."

This Agreement is made with reference to the following facts:

A. District has an interest in certain real property within the City of Modesto consisting of a strip of land with certain improvements, which real property is commonly known as and referred to as District's Lateral No. 6 Right of Way, hereinafter referred to as "Lateral 6".

B. City desires, at City's expense, to install a crossing facility and to make such improvements to the District's Lateral 6 as are necessary to maintain said canal and crossing facility (collectively, the "Crossing Facility"). District currently has a 100' right of way at Lateral 6. The proposed Crossing Facility will be located within District's right of way.

C. The new Crossing Facility will occupy a portion of District's Lateral 6, which portion is hereinafter referred to as the "Area of Common Use", as described in Exhibit "A" and shown in Exhibit "B" attached hereto.

Now, therefore, IT IS AGREED as follows:

1. District, pursuant to the terms and conditions hereinafter set forth, hereby consents to the City's construction of the Crossing Facility within the Area of Common Use.

2. City acknowledges District's interest in District's property and facilities situated at Lateral 6 within the Area of Common Use. District has and maintains the right to make full use of District's property and facilities in the Area of Common Use without need for any further permit or permission from City.

3. Except as specifically provided for in this Agreement, no alteration, improvement, installation, construction or use shall be made or permitted by City in, on, over, under, along, across, or in respect to the Area of Common Use or any other property or facility of District, without the prior written consent of District. City shall have no license, right or privilege with respect to the Area of Common Use, or any other property or facility of District, other than the permission and privileges expressly granted by this Agreement.

4. The construction of the Crossing Facility consented to in Paragraph 1 of this Agreement shall be in compliance with the provisions of this Agreement and shall be coordinated with District's Water and Electric Operations Divisions.

5. City shall obtain District's approval of any and all facilities, construction plans and schedules, including the names and telephone numbers of the contractors, inspectors and the project manager, for making improvements within the Area of Common Use prior to the commencement of any work within the Area of Common Use; provided, however, that such

approval shall not unreasonably be withheld. District may, at its discretion, but is not required to, inspect any and all work performed by City, or City's employees, agents or contractors, in the Area of Common Use. District's rights hereunder to inspect and approve shall not impose any duty or obligation on District, nor shall such rights relieve City of the sole responsibility for the facilities, plans, schedules or work, or relieve City of its contractual responsibilities hereunder.

6. City shall pay District for all reasonable time spent in reviewing plans, inspecting City's work performed in, along, under or near the Area of Common Use, or ensuring compliance of the terms and conditions of this Agreement. The amount charged shall not exceed the employees' weighted labor rate plus other costs actually incurred. Payment shall be made by City within thirty (30) days of submission of an invoice.

7. City shall not perform any work within the Area of Common Use during any irrigation season which would interfere with the delivery of irrigation water. The parties hereto are mindful of the fact that District's irrigation season ordinarily, but not necessarily, ends late October and begins the first of March of the following year.

8. Inasmuch as District's irrigation facilities within the Area of Common Use will have been changed by City pursuant to this Agreement, City agrees to maintain, repair or replace such at City's expense in a timely manner as and when such maintenance, repair or replacement is necessary, unless such maintenance, repair or replacement is made necessary by negligent or wrongful acts of District, its agents, contractors or employees. In no event shall the City be liable for any betterment, changes or alterations in said facility made by or at the request of District for District's sole benefit.

9. Prior to any excavation by City within the Area of Common Use, whether at the time of construction of the Crossing Facility or during subsequent periods or instances of maintenance, City or its contractor shall contact District and the Underground Service Alert (U.S.A. - 1-800-642-2444) for the purpose of determining the location of underground facilities, equipment and other improvements within said Area of Common Use. City shall be solely responsible for locating all underground improvements during construction and maintenance of the Crossing Facility within the Area of Common Use.

10. Except as otherwise set forth herein, the Crossing Facility shall, as between City and District, be the property of City and City shall have the sole responsibility and liability for said Crossing Facility. City shall at all times maintain, at its own cost and expense, the Crossing Facility. City agrees to assume the sole and exclusive risk for damage to property or injury or death to any persons, arising from, or in any way related to, the City's maintenance of or failure to maintain the Crossing Facility. The District shall have no duty or obligation to maintain the Crossing Facility.

11. Except as expressly set forth herein, this Agreement shall not in any way alter, modify or terminate any of District's rights in its property or facilities. Both City and District shall use the Area of Common Use in such a manner as to not interfere unreasonably with the rights of the other. Nothing herein contained shall be construed as a release or waiver of any claim for compensation or damages which District or City may now have, or may hereafter acquire, resulting from the construction of additional facilities or the alteration of facilities by

either City or District in such a manner as to cause an unreasonable interference with the use of the Area of Common Use by the other.

12. Except in emergencies, District shall give reasonable notice to City before performing any work on District's property or facilities in the Area of Common Use. No additional permit will be required to do such work, provided, that in all cases, District shall make adequate provision for the protection of the traveling public when performing work on the District's property or facilities in the Area of Common Use.

13. If the construction, use or maintenance of the Crossing Facility, or any portion thereof, causes damage, injury or degradation of the Area of Common Use, or District's property or facilities on or around the Area of Common Use, City shall, at its sole cost and expense, repair said damage, injury or degradation upon notice by the District. Any such repair shall be performed in a timely manner and shall be in strict accordance with plans acceptable to the District.

14. (a) City shall defend, indemnify and hold District, its directors, officers, agents and employees, and each of them, harmless from and against any and all damages, losses, claims and liabilities arising from any act, omission or negligence of City or City's agents, contractors or employees, or any of them, or arising from any accident, injury, or damage whatsoever caused to any person or property, occurring in, or in any manner connected directly or indirectly with, the performance this Agreement or the installation, operation or maintenance of the Crossing Facility, and from and against all costs, expenses, liabilities and attorneys' fees incurred in, or in connection with, any such claim or proceeding brought thereon.

(b) City shall promptly pay District, on demand, full money compensation for any damage to any of District's property or facilities caused by, or in any manner connected directly or indirectly with, the performance of this Agreement or the installation, operation or maintenance of the Crossing Facility.

15. In the event that District is required to relocate any District facilities in order for City to install, maintain or operate the Crossing Facility, District shall, at City's sole expense, perform such relocation, provided, however, that no relocation of District facilities shall be performed until District receives and records appropriate easements, satisfactory to District, for District's relocated facilities.

16. City shall have the right to allow utility companies to install their facilities within the existing Lateral 6 right of way provided, however that any utility wishing to install their facilities within the Area of Common Use will be required to enter into an agreement permitting such installation with the District prior to the commencement of any work.

17. It is expressly understood and agreed that this Agreement shall operate to give City the rights herein provided for only insofar as District may do so under and by virtue of the rights that District has in that portion of District's Lateral 6 real property to which this Agreement applies. It is further expressly understood and agreed that this Agreement is made without representation or warranty of any kind.

18. District makes no representation as to, and does not warrant, the condition of Lateral 6, either at the inception of this Agreement or as to any future point in time. Nothing in this Agreement shall be construed as creating or imposing upon District any duty or obligation to maintain or repair the Area of Common Use or the District's Lateral 6.

19. This Agreement is made solely for the benefit of City, and it is not made for the benefit of any person, firm, association, corporation or public entity not a party hereto, and no person, firm association, corporation or public entity other than City shall have any right to enforce this Agreement.

20. This Agreement contains all the agreements of the parties hereto and cannot be amended or modified except by a written agreement executed by the parties.

21. This Agreement shall inure to the benefit of and be binding upon the successors and assigns of both parties; provided, however that neither party shall assign its rights or obligations hereunder without the prior consent of the other party.

22. Time is of the essence of each provision of this Agreement.

23. All exhibits referred to in this Agreement are attached hereto and incorporated herein by reference.

24. In the event that the Area of Common Use is no longer used by City for the purposes agreed, City at its expense, shall remove City's improvements or take other closure action acceptable to District, and restore the Area of Common Use to its original condition or to a condition acceptable to the District. At such time as the Area of Common Use is no longer used by City for the purposes agreed, all rights granted to City hereunder shall terminate.

25. If any of City's privileges or duties are to be exercised or performed by any independent contractor or contractors, City shall, effectively and appropriately, bind such contractor or contractors, contractually to the duties and obligations of City hereunder. In that connection, City shall among other requirements, require said contractor or contractors, to indemnify, defend and hold District harmless from and against any and all claims, damages, loss, liability and expenses, including court costs and attorney's fees, arising out of or on account of, any injury to or death of any person or persons, or damage to property of any kind whatsoever and to whosoever belonging, arising out of, in any manner directly or indirectly connected with, said contractors or contractors acts or omission in exercising City's privileges or performing City's duties created by the Agreement.

IN WITNESS WHEREOF, the CITY OF MODESTO, a municipal corporation, has authorized the execution of this Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. 2003- _____, adopted by the Council of the City of

Modesto on the day of November, 2003, and MODESTO IRRIGATION DISTRICT, an irrigation district, has caused this Agreement to be executed in duplicate, effective as of the date first written above. first above written.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-617**

A RESOLUTION ADOPTING AN INITIAL STUDY FOR THE AMERICAN AVENUE / MID LATERAL NO. 6 CANAL CROSSING IN THE CITY OF MODESTO, AND ADOPTING A FINDING THAT THE CITY COUNCIL HAS REVIEWED AND CONSIDERED AND MADE FINDINGS REGARDING THE CEQA ENVIRONMENTAL REVIEW DOCUMENT (ATTACHMENT B)

WHEREAS, on March 4, 2003, the City Council of the City of Modesto certified the Final Master Environmental Impact Report ("Master EIR") (SCH No. 1999082041) for the Modesto Urban Area General Plan, and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for a Master EIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the master environmental impact report and whether the subsequent project was described in the master environmental impact report as being within the scope of the project, and

WHEREAS, the Engineering and Transportation Department, by Initial Study, EA/ET 2003-31, reviewed the proposed American Avenue / MID Lateral No. 6 Canal Crossing, and made the determination that the proposed project will have no additional significant effect on the environment that was not identified in the Master EIR; and further, that no new or additional mitigation measures or alternatives may be required, and that, therefore, the proposed project is within the scope of the project covered by the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed meeting held on the 25th day of November, 2003, at 5:30 p.m., in the Tenth Street Place Chambers, located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed American Avenue / MID lateral No. 6 Canal Crossing, a copy of which is attached hereto as **Attachment "B"**, and incorporated herein by reference, and based on the substantial evidence included in said Initial Study makes the following findings:

- A. The proposed American Avenue / MID Lateral No. 6 Canal Crossing is within the scope of the General Plan Master EIR (SCH No. 1999082041), which analyzed the potential impacts of build out of the Urban Area General Plan, including roadways in this area.
- B. No additional significant environmental effects will occur as a result of the American Avenue / MID Lateral No. 6 Canal Crossing that were not previously examined in the General Plan Master EIR.
- C. No new mitigation measures or alternatives will be required as a result of the proposed American Avenue / MID Lateral No. 6 Canal Crossing that were not previously considered in the General Plan Master EIR.
- D. There are no specific features unique to the American Avenue / MID Lateral No. 6 Canal Crossing that requires project specific mitigation measures. All certified mitigation measures identified in the MEIR would apply city wide, including this project as appropriate.
- E. This Initial Study provides substantial evidence to support findings A, B, C, and D above.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Engineering and Transportation Director is hereby authorized and directed to file a notice of approval or determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of November, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

INITIAL STUDY

EA/ET 2003-31

**City of Modesto
Initial Study**

**American Avenue / MID Lateral No. 6
Canal Crossing**

E.A./E.T. No: 2003-31

I. PURPOSE

Section 21157.1 of the Public Resources Code, allows for limited environmental review of subsequent projects under a Master EIR, provided that certain findings are made. The Modesto Urban Area General Plan Master EIR (SCH No. 199082041), adopted March 4, 2003, allows such limited review for projects in the Baseline Developed Area that are consistent with the General Plan and existing zoning.

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, analyzes whether this project may cause any significant effects on the environment that were not examined in the General Plan Master EIR. This Initial Study also provides documentation that the project is within the scope of the General Plan Master EIR.

II. PROJECT DESCRIPTION

A. Project title:

American Avenue / MID Lateral No. 6 Canal Crossing

B. Lead agency name and address:

City of Modesto, P.O. Box 642, Modesto, CA 95353

C. Contact person, address and phone number:

Dean Phillips, Engineering and Transportation Department, (209) 577-5260

D. Project Location:

American Avenue / Modesto Irrigation District Lateral No. 6, South of Bangs Avenue.

E. Project sponsor:

City of Modesto, P.O. Box 642, Modesto, CA. 95353

F. General Plan Designation:

Business Park
Village Residential

G. Zoning:

Specific Plan (SP-O)
Village Residential

H. Description of Proposed Project:

This is an application to extend American Avenue to Bangs Avenue over the Modesto Irrigation District Lateral No. 6. The project will install 2-66" diameter pipes and underground the existing open canal at American Avenue. American Avenue will then be constructed and connected to Bangs Avenue.

I. Surrounding land uses:

American/Bangs: The project is bounded on the West by an agricultural area (walnut trees) within the City of Modesto. The land will be zoned Business Park to conform to the Modesto Urban Area General Plan. The project is bounded on the East by vacant land owned by the Calvary Chapel Of Modesto, and is currently zoned Village Residential. The project is bounded on the North by an agricultural area with in Stanislaus County.

J. Other public agencies whose approval is required:

None.

III. ANALYSIS OF CONFORMANCE WITH THE MASTER EIR

There are eighteen subject areas in the Master EIR for the General Plan. Following is an analysis of how this project conforms to the analysis contained within the Master EIR.

A. Traffic and Circulation

The American Avenue / MID Lateral No. 6 Canal Crossing project proposes public improvements consistent with the General Plan designation for this site. The proposed project's canal crossing would be within existing Modesto Irrigation District right-of-way. Therefore, the traffic impacts of this project are consistent with those contained in the General Plan Master EIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Traffic and Circulation Needs (pages V-1-1 through V-1-33) are, therefore, still valid.

B. Degradation of Air Quality

The air quality impacts for this development are directly related to the traffic impacts. Since traffic impacts are no greater than those anticipated in the Master EIR, this development would not cause additional impacts to air quality beyond those described in the Degradation of Air Quality section of the MEIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Degradation of Air Quality (pages V-2-1 through IV-2-26) are, therefore, still valid.

C. Generation of Noise

Because the proposed use is consistent with the General Plan in land use and intensity, the noise impacts from the project and to the project are consistent with those analyzed in the Master EIR. The project will not create additional significant effects, and the Mitigation Measures listed in the MEIR for Generation of Noise (pages V-3-1 through V-3-22) are therefore still valid.

D. Loss of Productive Agricultural Land

Portions of this project are located in an agricultural portion of Modesto and Stanislaus County. The project is consistent with the Existing Conditions, Impacts Analysis, and Mitigation Measures listed in the MEIR for Loss of Productive Agricultural Land (pages V-4-1 through V-4-12) are still valid.

E. Increased Demand for Water Supplies

The proposed project will require no additional water beyond that identified in the Increased Demand for Water Supplies section of the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Water Supplies (pages V-5-1 through V-5-13) are, therefore, still valid.

F. Increased Demand for Sanitary Sewer Services

The proposed project will create no additional demand for sewer capacity not identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Sanitary Sewer Services (pages V-6-1 through V-6-12) are therefore still valid.

G. Loss of Sensitive Wildlife and Plant Habitat

The project is located within agricultural lands, however it is not located in a Potential Biological Resource Study Area, as presented in Figure 7-1 of the MEIR. Therefore, the project will not impact sensitive wildlife or any plant

habitat above and beyond that which was identified in the Loss of Sensitive Wildlife and Plant Habitat section of the MEIR. The Existing Conditions, Impact Analysis, and the Mitigation Measures listed in this section of the MEIR (pages V-7-1 through V-7-29) are still valid.

H. Disturbance of Archaeological and Historic Sites

This project will not disturb any archaeological or historic sites that have been identified in the Disturbance of Archaeological or Historical Sites section of the MEIR. Figure 8-1 of the MEIR indicates that it is also outside the Archaeological Resource Study Area, which shows areas that may require additional site-specific investigations. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Disturbance of Archaeological or Historical Sites (pages V-8-1 through V-8-22) are, therefore, still valid.

I. Drainage, Flooding and Water Quality

Because the project is consistent with the General Plan in land use and intensity, it will not present any new impacts to drainage, flooding and water quality that have not already been addressed in the MEIR. The mitigation measures in the Master EIR will not reduce the impacts of increased runoff within the baseline developed area to a less than significant level. In adopting the Master EIR, the City Council adopted a finding of overriding findings for this impact. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Drainage, Flooding, and Water Quality (pages V-9-1 through V-9-13) are still valid.

J. Increased Demand for Storm Drainage

The project will not present any new impacts that have not already been addressed in the MEIR. The mitigation measures contained in the Master EIR will not reduce the impacts of increased runoff within the baseline developed area to a less than significant level. In adopting the Master EIR, the City Council adopted a finding of overriding findings for this impact. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Storm Drainage (pages V-10-1 through V-10-16) are still valid.

K. Increased Demand for Parks and Open Space

The proposed intersection improvements and traffic signals will not have an effect upon the parks or open space needs in the area over that anticipated in the Master EIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Parks and Open Space (pages V-11-1 through V-11-14) are therefore still valid.

L. Increased Demand for Schools

The proposed intersection improvements and traffic signals will not create any additional demand for schools. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Schools (pages V-12-1 through V-12-11) are still valid.

M. Increased Demand for Police Services

Because the project is consistent with the General Plan in land use and intensity, it will not present any increased demand for police services that has not already been addressed in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Police Services (pages V-13-1 through V-13-7) are therefore still valid.

N. Increased Demand for Fire Services

Because the project is consistent with the General Plan in land use and intensity, it will not present any increased demand for fire services that has not already been addressed in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Fire Services (pages V-14-1 through V-14-9) are therefore still valid.

O. Generation of Solid Waste

This project will not cause the generation of solid waste beyond that which is identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Solid Waste (pages V-15-1 through V-15-10) are therefore still valid.

P. Generation of Hazardous Materials

This proposed use will not result in additional hazardous materials generated beyond those identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Hazardous Materials (pages V-16-1 through V-16-15) are therefore still valid.

Q. Landslides and Seismic Activity

This use will result in no additional potential for exposing people to landslides or earthquake related hazards such as liquefaction beyond those identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Landslides and Seismic Activity (pages V-17-1 through V-17-12) are therefore still valid.

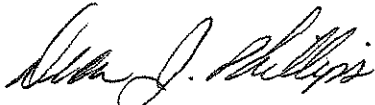

R. Energy

This use will result in less than significant additional demands for energy, as identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Energy (pages V-18-1 through V-18-7) are still valid.

IV. CONCLUSIONS/DETERMINATIONS OF FINDINGS

- A. The proposed American Avenue / MID Lateral No. 6 Canal Crossing is within the scope of the General Plan Master EIR (SCH No. 1999082041), which analyzed the potential impacts of buildout of the Urban Area General Plan, including roadways in this area.
- B. No additional significant environmental effects will occur as a result of the American Avenue / MID Lateral No. 6 Canal Crossing that were not previously examined in the General Plan Master EIR.
- C. No new mitigation measures or alternatives will be required as a result of the proposed American Avenue / MID Lateral No. 6 Canal Crossing that were not previously considered in the General Plan Master EIR.
- D. There are no specific features unique to the American Avenue / MID Lateral No. 6 Canal Crossing that requires project specific mitigation measures. All certified mitigation measures identified in the MEIR would apply city wide, including this project as appropriate.
- E. This initial study provides substantial evidence to support findings A, B, C, and D above.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003 -618**

A RESOLUTION APPROVING AN AMENDMENT TO A PROFESSIONAL SERVICE CONTRACT WITH MEAD & HUNT, INC., AIRPORT ENGINEERS, IN THE AMOUNT OF \$22,000 TO PROVIDE CONSTRUCTION ENGINEERING SUPPORT SERVICES FOR THE ELECTRICAL VAULT BUILDING/ EMERGENCY GENERATOR PROJECT AT THE MODESTO CITY-COUNTY AIRPORT, AND AUTHORIZING THE CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE CONTRACT ON BEHALF OF THE CITY

WHEREAS, the Modesto City Council entered into a professional services contract with Mead and Hunt, Inc. on December 6, 2001 for the design of the Electrical Vault Building/Install Emergency Generator project at the Modesto City-County Airport, and

WHEREAS, said professional services contract contemplated the need for an Amendment to Agreement to provide for Construction Engineering Support Services during the actual construction of the project, and

WHEREAS, the firm of Mead & Hunt, Inc. completed the design portion of their contract for the City, and the firm possesses the technical expertise required to provide Construction Engineering Support Services, and

WHEREAS, the City Council awarded a construction contract to the Clayborn Contracting Group on September 23, 2003, indicating construction is imminent, and

WHEREAS, staff has negotiated what is considered reasonable fees under a not-to-exceed contract approach for Construction Engineering Support Services with Mead & Hunt, Inc., and

WHEREAS, the City Attorney's Office finds the terms of the contract amendment acceptable, and

WHEREAS, City staff has received the Federal Aviation Administration's verbal approval to allow Mead and Hunt, Inc. to provide these services.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the amendment to professional services contract amounting to \$22,000 for Mead & Hunt, Inc. to provide Construction Engineering Support Services for Modesto City-County Airport's Electrical Vault Building/Emergency Generator project.

BE IT FURTHER RESOLVED that the City Manager or his authorized designee is authorized to execute the amendment to the professional services contract with Mead & Hunt, Inc. on behalf of the City.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of November, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Frohman, Hawn, Jackman, Keating, Marsh, O'Bryant,
Mayor Sabatino

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-619**

**A RESOLUTION AWARDING BID AND APPROVING A \$216,584
CONSTRUCTION CONTRACT WITH RICHARD A. HEAPS FOR THE
PROJECT ENTITLED "INSTALLATION OF TRAFFIC SIGNAL DETECTOR
LOOPS"**

WHEREAS, the bids received for the "Installation of Traffic Signal Detector Loops" project were opened at 11:00 a.m., on October 21, 2003, and later tabulated by the Engineering and Transportation Director for the consideration of the Council, and

WHEREAS, the Engineering and Transportation Director has recommended that the bid of \$216,584 received from Richard A. Heaps be accepted as the lowest responsible bid,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the bid of Richard A. Heaps, be accepted and the execution of a contract for the completion of the project by the City's designated officials be authorized.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of November, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-620**

A RESOLUTION FINDING THAT THE “INSTALLATION OF TRAFFIC SIGNAL DETECTOR LOOPS” PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY A MASTER ENVIRONMENTAL IMPACT REPORT (MEIR), SCH NO. 1999082041

WHEREAS, on March 4, 2003, the City Council of the City of Modesto adopted Resolution No. 2003-123 certifying that the Modesto Urban Area General Plan Master Environmental Impact Report (MEIR), (SCH No. 1999082041), for the Modesto Urban Area General Plan, is complete and adequate pursuant to Section 15090 of the California Environmental Quality Act (CEQA) Guidelines, and, and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for an MEIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the MEIR, whether the subsequent project was described in the MEIR, and whether the subsequent project was described in the MEIR as being within the scope of the project, and

WHEREAS, the Engineering and Transportation Department, by Initial Study, EA/ET 2003-28, reviewed and proposed the “Installation of Traffic Signal Detector Loops” project, which determines that the proposed project is within the scope of the project covered by the MEIR, that the proposed project will have no additional, significant effect on the environment that was not identified in the MEIR, and that no new or additional mitigation measures or alternatives may be required, and

WHEREAS, on September 12, 2003, the Engineering and Transportation Department caused to be published public notification of the determination conferred in Initial Study EA/ET No. 2003-28, pursuant to Public Resources Code Section 21092, and

WHEREAS, said matter was considered by the City Council at a duly noticed meeting which was held on November 25, 2003, at 5:30 p.m., in the Tenth Street Place Chambers, located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study EA/ET 2003-28, prepared for the proposed "Installation of Traffic Signal Detector Loops" project, a copy of which is attached hereto as **Exhibit "A"**, and incorporated herein by reference, and based on the substantial evidence included in said Initial Study makes the following findings:

- A. The proposed project is consistent with the City of Modesto General Plan and is within scope of the project covered by the General Plan Final MEIR (SCH No. 1999082041).
- B. No additional significant environmental effects will occur as a result of the proposed traffic signal project that were not previously examined in the General Plan Master EIR.
- C. No new or additional mitigation measures or alternatives will be required as a result of the proposed traffic signal project that were not previously considered in the General Plan Master EIR.
- D. There are no specific features unique to this traffic signal project that require specific mitigation measures. All certified mitigation measures identified in

the General Plan Master EIR will apply Citywide, including this project, as appropriate.

- E. The Initial Study, Environmental Assessment No. EA/ET 2003-28, provides substantial evidence to support findings A through D above.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Engineering and Transportation Director is hereby authorized and directed to file a Notice of Approval within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of November, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Frohman, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Sabatino

City of Modesto
Initial Study

INSTALLATION OF TRAFFIC SIGNAL DETECTOR LOOPS AT VARIOUS LOCATIONS
E.A./E.T. No: 2003-28

I. PURPOSE

Section 21157.1 of the Public Resources Code, allows for limited environmental review of subsequent projects under a Master EIR, provided that certain findings are made. The Modesto Urban Area General Plan Master EIR (SCH No. 199082041), adopted March 4, 2003, allows such limited review for projects in the Baseline Developed Area that are consistent with the General Plan and existing zoning.

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, analyzes whether this project may cause any significant effects on the environment that were not examined in the General Plan Master EIR. This Initial Study also provides documentation that the project is within the scope of the General Plan Master EIR.

II. PROJECT DESCRIPTION

A. Project Title:

Installation of Traffic Signal Detector Loops at Various Locations ("Project")

B. Lead Agency Name and Address:

City of Modesto, P.O. Box 642, Modesto, CA 95353

C. Contact Person, Address, and Phone Number:

Steven Liu, Engineering and Transportation Department, (209) 577-5297

D. Project Location:

25 Intersection Locations throughout the City (see attached the list of the intersections)

E. Project Sponsor:

City of Modesto, P.O. Box 642, Modesto, CA 95353

F. General Plan Designation:

Varied, depending upon the locations.

G. Zoning:

Varied, depending upon the locations.

H. Description of Proposed Project:

The City is proposing to install traffic detector loops at 25 intersections throughout the City, which currently have signal controls. The addition of traffic signal detector loops will help increase safety and efficiency of traffic signal operation at these signalized intersections.

There will be no expected negative impact of the proposed project to the environment. Rather, the project will help reduce traffic congestion and vehicle emission, consequently improving air quality.

I. Surrounding Land Uses:

Varied, depending upon the locations.

J. Other Public Agencies Whose Approval is Required:

None

III. ANALYSIS OF CONFORMANCE WITH THE MASTER EIR

There are eighteen subject areas in the Master EIR for the General Plan. Following is an analysis of how this project conforms to the analysis contained within the Master EIR.

A. Traffic and Circulation

The Project will not result in a physical change to any existing land use. It is consistent with the General Plan designation for this site. Therefore, the traffic impacts of this project are consistent with those contained in the General Plan Master EIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Traffic and Circulation Needs (pages V-1-1 through V-1-33) are, therefore, still valid.

B. Degradation of Air Quality

The air quality impacts for this development are directly related to the traffic impacts. Since traffic impacts are no greater than those anticipated in the Master EIR, this development would not cause additional impacts to air quality beyond those described in the Degradation of Air Quality section of the MEIR. The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Degradation of Air Quality (pages V-2-1 through V-2-26) are, therefore, still valid.

C. Generation of Noise

The Project will not result in a physical change to any existing land use. The

proposed use is consistent with the General Plan in land use and intensity, and the noise impacts from the project and to the project are consistent with those analyzed in the Master EIR. Therefore, the project will not create additional significant effects, and the Mitigation Measures listed in the MEIR for Generation of Noise (pages V-3-1 through V-3-22) are, therefore, still valid.

D. Loss of Productive Agricultural Land

All existing Traffic Signals are located in developed areas outside of productive agricultural land. Therefore, the project is consistent with the Existing Conditions, Impacts Analysis, and Mitigation Measures listed in the MEIR for Loss of Productive Agricultural Land (pages V-4-1 through V-4-12) and they are, therefore, still valid.

E. Increased Demand for Water Supplies

The proposed Project includes traffic signal related improvements, and will require no additional water beyond that identified in the Increased Demand for Water Supplies section of the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Water Supplies (pages V-5-1 through V-5-13) are, therefore, still valid.

F. Increased Demand for Sanitary Sewer Services

The proposed Project includes traffic signal related improvements and maintenance, and will create no additional demand for sewer capacity not identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Sanitary Sewer Services (pages V-6-1 through V-6-12) are, therefore, still valid.

G. Loss of Sensitive Wildlife and Plant Habitat

All existing Traffic Signals are located in developed areas and are not located in a Potential Biological Resource Study Area, as presented in Figure 7-1 of the MEIR. Therefore, the project will not impact sensitive wildlife or any plant habitat above and beyond that which was identified in the Loss of Sensitive Wildlife and Plant Habitat section of the MEIR. The Existing Conditions, Impact Analysis, and the Mitigation Measures listed in this section of the MEIR (pages V-7-1 through V-7-29) are still valid.

H. Disturbance of Archaeological and Historic Sites

This project will not disturb any archaeological or historic sites that have been identified in the Disturbance of Archaeological or Historical Sites section of the MEIR. Figure 8-1 of the MEIR indicates that it is also outside the Archaeological Resource Study Area, which shows areas that may require additional site specific investigations. The Existing Conditions, Impacts Analysis and the

Mitigation Measures listed in the MEIR for Disturbance of Archaeological or Historical Sites (pages V-8-1 through V-8-22) are, therefore, still valid.

I. Drainage, Flooding and Water Quality

Because the project is consistent with the General Plan in land use and intensity, it will not present any new impacts to drainage, flooding and water quality that have not already been addressed in the MEIR. The mitigation measures in the Master EIR will not reduce the impacts of increased runoff within the baseline developed area to a less than significant level. In adopting the Master EIR, the City Council adopted a finding of overriding findings for this impact. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Drainage, Flooding, and Water Quality (pages V-9-1 through V-9-13) are still valid.

J. Increased Demand for Storm Drainage

The project will not present any new impacts that have not already been addressed in the MEIR. The mitigation measures contained in the Master EIR will not reduce the impacts of increased runoff within the baseline developed area to a less than significant level. In adopting the Master EIR, the City Council adopted a finding of overriding findings for this impact. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Storm Drainage (pages V-10-1 through V-10-16) are still valid.

K. Increased Demand for Parks and Open Space

The proposed improvements will not have an effect upon the parks or open space needs in the area over that anticipated in the Master EIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Parks and Open Space (pages V-11-1 through V-11-14) are, therefore, still valid.

L. Increased Demand for Schools

The proposed improvements will not create any additional demand for schools. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Schools (pages V-12-1 through V-12-11) are still valid.

M. Increased Demand for Police Services

Because the Project is consistent with the General Plan in land use and intensity, it will not present any increased demand for police services that has not already been addressed in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Police Services (pages V-13-1 through V-13-7) are, therefore, still valid.

N. Increased Demand for Fire Services

Because the Project is consistent with the General Plan in land use and intensity, it will not present any increased demand for fire services that has not already been addressed in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Fire Services (pages V-14-1 through V-14-9) are, therefore, still valid.

O. Generation of Solid Waste

This project will not cause the generation of solid waste beyond that which is identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Solid Waste (pages V-15-1 through V-15-10) are, therefore, still valid.

P. Generation of Hazardous Materials

This proposed use will not result in additional hazardous materials generated beyond those identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Hazardous Materials (pages V-16-1 through V-16-15) are, therefore, still valid.

Q. Landslides and Seismic Activity

This use will result in no additional potential for exposing people to landslides or earthquake related hazards such as liquefaction beyond those identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Landslides and Seismic Activity (pages V-17-1 through V-17-12) are, therefore, still valid.

R. Energy

This use will result in less than significant additional demands for energy, as identified in the MEIR. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Energy (pages V-18-1 through V-18-7) are, therefore, still valid.

IV. CONCLUSIONS/DETERMINATIONS OF FINDINGS

- A. The proposed Installation of Traffic Signal Detector Loops at Various Locations project is within the scope of the General Plan Master EIR (SCH No. 1999082041), which analyzed the potential impacts of buildout of the Urban Area General Plan, including roadways in this area.
- B. No additional significant environmental effects will occur as a result of the Installation of Traffic Signal Detector Loops at Various Locations project that were not previously examined in the General Plan Master EIR.

- C. No new mitigation measures or alternatives will be required as a result of the proposed Installation of Traffic Signal Detector Loops at Various Locations project that were not previously considered in the General Plan Master EIR.
- D. There are no specific features unique to the Installation of Traffic Signal Detector Loops at Various Locations project that requires project specific mitigation measures. All certified mitigation measures identified in the MEIR would apply city wide, including this project as appropriate.
- E. This initial study provides substantial evidence to support findings A, B, C, and D above.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-621**

A RESOLUTION APPROVING AN AGREEMENT WITH MINAGAR & ASSOCIATES TO PROVIDE CONSULTANT SERVICES FOR THE “TRAFFIC SIGNAL SYNCHRONIZATION DOWNTOWN MODESTO,” PROJECT, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT.

WHEREAS, the City has determined that a Traffic Signal Synchronization Study for traffic signals in downtown Modesto should be prepared for the City to improve traffic signal synchronization, and

WHEREAS, the City of Modesto applied for and received Congestion Mitigation Air Quality (CMAQ) funds for the project, and

WHEREAS, the City of Modesto sent a Request For Proposals (RFP) to qualified consultants, and

WHEREAS, a selection panel appointed by the Engineering and Transportation Director reviewed the proposals, and

WHEREAS, the selection panel recommended Minagar and Associates be awarded the Traffic Signal Synchronization Downtown Modesto project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the agreement between the City of Modesto and Minagar & Associates for consulting services for the City of Modesto Traffic Signal Synchronization Downtown Modesto project be, and it is hereby approved.

BE IT FURTHER RESOLVED that the execution of said agreement by the City Manager, or his designee, is hereby authorized.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of November, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Frohman, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: None

Attest: Jean Zahr
JEAN ZAHR, City Clerk

APPROVED AS TO FORM:

By: Michael D. Milich
MICHAEL D. MILICH, City Attorney

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-622**

**A RESOLUTION AUTHORIZING THE PURCHASING SUPERVISOR TO
ISSUE A REQUEST FOR BID FOR FIFTEEN (15) VEHICLES AND ONE (1)
ROTARY MOWER**

WHEREAS, the Operations and Maintenance Department-Fleet Services is requesting the purchase of fifteen (15) vehicles and one (1) rotary mower, and

WHEREAS, three (3) hybrid gas/electric sedans will be used by the City Hall Motor Pool, and

WHEREAS, the four (4), ½ ton extended cab pickups will be used by the Police Department Community Service Officers, and

WHEREAS, the three (3), 62000 Gross Weight Vehicles (GWV) pickups will replace pickups used by Building Inspectors, and

WHEREAS, the one (1) extended cab, 2WD pickup will replace a sedan that is used by the Neighborhood Preservation Unit, and

WHEREAS, the users of the sedan have determined that a pickup is more suitable for the work being performed by the crews, and

WHEREAS, one (1) full-size, 4WD pickup will be used by the Industrial Waste Division, and

WHEREAS, one (1) full size 2WD pickup is an additional vehicle and will be used by the Community Forestry Division, and

WHEREAS, one (1) ¾ ton crew cab pickup will be used by the Police Department, Traffic Unit, and

WHEREAS, the one (1) rotary mower will be used by the Parks Maintenance Crews to mow city parks and other grass fields, and

WHEREAS, the rotary mower will replace a 1997 mower that has reached the end of its useful life and has become unreliable and costly to maintain,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that formal solicitation of bids for fifteen (15) vehicles and one (1) rotary mower is hereby approved as follows:

SECTION 1. The City Clerk is hereby authorized to call for public competitive sealed bids for fifteen (15) vehicles and one (1) rotary mower to be opened in the City Clerk's office, 1010 10th Street, in the City of Modesto. The City Clerk shall be directed to give notice inviting such sealed bids in the time, form, and manner provided by law.

SECTION 2. After the bids are opened, they shall be tabulated and analyzed and a report submitted to Council.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of November, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-623**

**A RESOLUTION REVISING THE POSITION CLASSIFICATION PLAN FOR
THE CITY OF MODESTO.**

WHEREAS, a Position Classification Plan for the City of Modesto was adopted by Modesto City Council Resolution 88-338 pursuant to Rule 2 of the Personnel Rules and Regulations of the City of Modesto, and

WHEREAS, the City Manager has recommended to the Council amendments to the Position Classification Plan, and

WHEREAS, Rule 2.2 of the City of Modesto Personnel Rules provides that revisions to the Classification Plan shall be effective upon adoption of resolution of the City Council,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION I. CLASSIFICATION AMENDED. The Position Classification Plan of the City of Modesto is hereby amended to revise the following classification:

Airport Manager

The job specification for this classification is being amended as a result of updating the job specification in anticipation of opening a recruitment. The specification for the classification of Airport Manager, as shown on the attached **Exhibit "A"**, which is hereby made a part of this resolution by reference, is hereby approved and made part of the Position Classification Plan of the City of Modesto.

SECTION 2. EFFECTIVE DATE. This resolution shall become effective on and after November 25, 2003.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of November, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Frohman, Hawn, Jackman, Keating, Marsh,
O'Bryant, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: None

AIRPORT MANAGER

Class specifications are intended to present a descriptive list of the range of duties performed by employees in the class. Specifications are not intended to reflect all duties performed within the job.

DEFINITION

To plan, organize, monitor, and direct the use, maintenance and security of the City Airport; to promote the development of airport facilities; and to coordinate airport activities with other City departments.

SUPERVISION RECEIVED AND EXERCISED

Receives direction from the Engineering and Transportation Director.

Exercises direct supervision over technical, maintenance and clerical staff.

ESSENTIAL AND MARGINAL FUNCTION STATEMENTS – Essential and other important responsibilities and duties may include, but are not limited to, the following:

Manage, direct and organize airport facilities maintenance activities including pavements, drainage and sewer systems, lighting and electrical facilities, buildings, furnishings, landscaping, and grounds.

Direct, oversee and participate in the development of the airport master plan and strategic plan; assign work activities, projects and programs; monitor work flow; implement policies and procedures; review and evaluate work products, methods and procedures.

Participate in recommending the appointment of personnel; provide or coordinate staff training; work with employees to correct deficiencies; implement discipline procedures; recommend employee terminations.

Establish and insure the carrying out of a proper preventive maintenance program; coordinate maintenance activities with the airlines and Federal Aviation Administration.

Monitor aircraft operations for compliance with local, State and Federal laws.

Issue notices regarding the status of the airport.

EXAMPLES OF DUTIES (continued)

Assume responsibility for the security and protection of publicly and privately owned aircraft and property; establish and carry out a passenger-screening program mandated by Federal regulations.

Recommend goals and objectives; assist in the development of policies and procedures; evaluate the need for and develop plans for long-range airport programs; conduct studies for improving airport facilities and services.

Handle daily business transactions including answering correspondence, responding to complaints, ordering supplies, and certifying payroll records.

Negotiates and administers lease agreements with Fixed Based Operators, tenant hanger leases, ground agreements, airport rental car fleet, and commercial business leases. Conduct lease negotiations; assign spaces and keep records of aircraft parking and rentals.

Update security manuals and airport certification manuals.

Prepare the airport budget; assist in budget implementation; participate in the forecast of additional funds needed for staffing, equipment, materials, and supplies; administer the approved budget.

Promote public relations; meet with the advisory committees, public organization, and representatives of government agencies.

Prepare applications for Federal and State grants; monitors the grant programs to ensure compliance with requirements.

Maintain records of airport operations; prepare reports.

Perform related duties as assigned.

QUALIFICATIONS

Knowledge of:

Effective Principles and practices of municipal airport management.

Federal Aviation Administration rules and regulations affecting airport operations.

QUALIFICATIONS (continued)

Knowledge of:

Preparation and negotiation of airport leases, contracts, and charges.

Development, practices, and terminology of aviation.

Equipment and supplies used in airport operations.

Proper maintenance of airport facilities.

Airport security and emergency plans.

Budgeting procedures and techniques.

Personal computer software applications.

Principles and practices of supervision, training and personnel management.

Ability to:

Plan, organize and direct airport maintenance, security, and operations.

Analyze technical information regarding airport usage and maintenance.

Conduct business negotiations and promote and represent the airport programs, including air service development.

Pilot and operate an airplane.

Monitor airport usage.

Supervise, train and evaluate assigned staff.

Prepare and administer a budget.

Work under the pressure of deadlines; analyze, research, and solve a wide range of problems.

Establish and maintain airport security and certification programs.

QUALIFICATIONS (continued)

Ability to:

Communicate clearly and concisely, both orally and in writing.

Establish and maintain cooperative working relationships with those contacted in the course of work.

Experience and Training Guidelines

Any combination of experience and training that would likely provide the required knowledge and abilities is qualifying. A typical way to obtain the knowledge and abilities would be:

Experience:

Four years of increasingly responsible experience in airport management or operations of an airport served by a certified air carrier.

Training:

Equivalent to a Bachelor's degree from an accredited college or university with major course work in aviation management or a related field.

License or Certificate

Possession of, or ability to obtain, an appropriate, valid California driver's license.

Accreditation by the American Association of Airport Executives is preferred. Successful candidate must obtain this accreditation within two years of appointment to the position.

WORKING CONDITIONS:

Environmental Conditions:

Office and field environment.

WORKING CONDITIONS: (continued)

Physical Conditions:

Essential and marginal functions may require maintaining physical condition for sitting for prolonged periods of time; attending meetings; using a personal computer and related office equipment and traveling from site to site.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-624**

A RESOLUTION APPROVING A DEVELOPMENT PLAN FOR PLANNED DEVELOPMENT ZONE, P-D(563). (PRATT)

WHEREAS, a verified application for an amendment to Section 28-3-9 of the Zoning Map was filed by Michael Pratt on July 2, 2003, to reclassify from Planned Development Zone, P-D(480), to Planned Development Zone, P-D(563), to allow a two-story professional office building, property located on the east corner of 16th and G Streets, described as follows:

P-D(480) to P-D(563)

All that certain real property situate in a portion of the southwest Quarter of Section 28, Township 3 South, Range 9 East, Mount Diablo Base and Meridian, in the City of Modesto, County of Stanislaus, State of California, described as follows:

Lots 25, 26, 27, 28, 29, 30, 31, and 32, in block 128 of the City of Modesto, according to the Official Map thereof, filed in the Office of the Recorder of Stanislaus County, California, on April 18, 1903, in Volume 1 of Maps, at Page 82.

Including also all of the Northeast one half of 80.00 foot wide 16th Street, Southeast one half of 80.00 foot wide G Street and the Southwest one half of the adjacent 20.00 foot wide alley and all immediately adjacent to the above described property

WHEREAS, after a public hearing held on October 6, 2003, in the Tenth Street Place Chambers located at 1010 10th Street, Modesto, California, it was found and determined by the Planning Commission, by its Resolution No. 2003-62, that rezoning of the property as requested is required by public necessity, convenience, and general welfare for the following reasons:

1. The proposed office development is consistent with the expanding commercial core of downtown Modesto.

2. The proposed office development is consistent with the current General Plan land use designation for the site.

WHEREAS, said matter was set for a public hearing of the City Council to be held on November 25, 2003, in the Tenth Street Place Chambers located at 1010 10th Street, Modesto, California, at which date and time said duly noticed public hearing was held, and

WHEREAS, after said public hearing the Council found and determined that the application of Michael Pratt for a Planned Development should be granted as consonant with public necessity, convenience and general welfare for the reasons set forth in Planning Commission Resolution No. 2003-62 and quoted above, and

WHEREAS, the Council has introduced Ordinance No. 3337-C.S. on November 25, 2003, reclassifying the above-described property from Planned Development Zone, P-D(480), to Planned Development Zone, P-D(563).

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. DEVELOPMENT PLAN. The development plan for Planned Development Zone, P-D(563), is hereby approved subject to the following conditions:

1. All development shall conform to the plot plan and elevations titled "Commercial Office Building 16th and G Streets" as amended in red, stamped approved by the City Council.
2. Prior to the issuance of a building permit, a landscaping and irrigation plan shall be approved by the Parks, Recreation and Neighborhoods Director. Provision shall be made for the installation and maintenance of one deciduous shade-giving tree for every eight parking stalls, evenly distributed. Landscaping and the irrigation system shall be installed and maintained in accordance with the approved plan.

3. Prior to the issuance of certificate of occupancy, landscaping and the irrigation system shall be installed in accordance with the approved plan.
4. Prior to the issuance of Certificate of Occupancy, a six-foot-high, solid double-sided alternating-board fence with decorative masonry pilasters at 16-foot on centers shall be constructed along the southeast property line.
5. All landscaping, fences, and walls shall be maintained in accordance with the approved plan and the premises shall be kept free of weeds, trash, and other debris.
6. Prior to occupancy of any building, irrigation, electrical, gas and domestic water lines shall be removed, relocated, or protected as required by the Engineering and Transportation Director and/or the utility companies, and easements for utility lines to remain shall be dedicated.
7. Street improvements consistent to Standard Specifications shall be provided prior to the occupancy of any structures or when requested by the Engineering and Transportation Director to alleviate a health, safety, or traffic problem in the area.
8. Prior to issuance of a building permit, improvement plans for required improvements, including, but not limited to, improving the alley access to/from G Street to the City's Standard for a commercial drop-curb type, shall be prepared by a Registered Civil Engineer and approved by the Engineering and Transportation Director. Improvements shall be constructed in accordance with the approved plans.
9. All existing street and property monuments within or abutting this project site shall be preserved. If, during construction of on-site or off-site improvements, monuments are damaged or destroyed, the applicant/developer shall retain a qualified licensed land surveyor or civil engineer to reset those monuments per City Standards and file the necessary information with the County Recorder's Office as required by AB1414.
10. Prior to issuance of a building permit, the developer shall show on the plans submitted to Building Inspection all fire

hydrants as required by the Fire Chief. All hydrants required by the Fire Chief shall be installed and operable prior to construction of any structures.

11. Ten-foot-wide public utility easements, and planting easements located within the ten-foot-wide public utility easements, shall be dedicated along all street frontages as required by the Engineering and Transportation Director.
12. Prior to the issuance of a building permit, the developer shall submit a plan for approval by the Operations and Maintenance Director to provide on-site treatment of stormwater in accordance with the guidance manual for new development stormwater quality control measures. Storm drain improvements shall be constructed in accordance with the approved plans.
13. The property owner and developer shall, at their sole expense, defend, indemnify and hold harmless the City of Modesto, its agents, officers, directors and employ-ees, from and against all claims, actions, damages, losses, or expenses of every type and description, including but not limited to payment of attorneys' fees and costs, by reason of, or arising out of, this development approval. The obligation to defend, indemnify and hold harmless shall include but is not limited to any action to arbitrate, attack, review, set aside, void or annul this development approval on any grounds whatsoever. The City of Modesto shall promptly notify the developer of any such claim, action, or proceeding and shall cooperate fully in the defense.
14. The developer shall implement pre- and post-construction best management practices (BMPs) to minimize pollutants entering the storm system.
15. All signs shall comply with the sign requirements of the P-O Zone.
16. Trash bins shall be kept in enclosures in accordance with the approved plan and in accordance with plans approved by the Operations and Maintenance Department Director. Enclosures shall be constructed of building materials consistent with those used in the major buildings as approved by the Community and Economic Development Department Director.

17. The Capital Facilities Fees payable at the time of the issuance of a building permit for any construction in this parcel map shall be based on the rates in effect at time of issuance of the building permit.
18. All outdoor lighting shall be shielded from adjacent residential properties as required by the Engineering and Transportation Director.

SECTION 2. DEVELOPMENT SCHEDULE. The following development schedule is hereby approved for said Planned Development Zone, P-D(563):

The entire construction program be accomplished in one phase, construction to begin on or before November 25, 2005 and completion to be not later than November 25, 2006.

SECTION 3. CHANGES IN DEVELOPMENT PLAN. Any changes in the above approved development plan shall be made in accordance with the provisions of Section 10-2.1709 of the Modesto Municipal Code.

SECTION 4. COMPLIANCE WITH CODE PROVISIONS, ETC. In all other respects said planned development shall be accomplished in accordance with and in strict adherence to the provisions of Article 17 of Title 10 of the Modesto Municipal Code relating to Planned Development Zones and other applicable City laws, rules, regulations and procedures.

SECTION 5. EFFECTIVE DATE. This resolution shall not become effective unless and until the ordinance reclassifying the above-described property to Planned Development Zone, P-D(563), becomes effective.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of November, 2003, by Councilmember O'Bryant, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Frohman, Jackman, Keating, Marsh, O'Bryant, Mayor Sabatino

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-625**

A RESOLUTION FINDING THAT THE FOLLOWING PROJECT IS WITHIN THE SCOPE OF THE PROJECT COVERED BY THE MODESTO URBAN AREA GENERAL PLAN MASTER ENVIRONMENTAL IMPACT REPORT (SCH NO. 1999082041): AMENDING SECTION 28-3-9 OF THE ZONING MAP TO REZONE PLANNED DEVELOPMENT ZONE, P-D(480), TO PLANNED DEVELOPMENT ZONE, P-D(563) PROPERTY LOCATED ON THE EAST CORNER OF 16TH AND G STREETS (PRATT)

WHEREAS, on March 4, 2003, the City Council of the City of Modesto certified the Final Master Environmental Impact Report (“Master EIR”) (SCH No. 1999082041) for the Modesto Urban Area General Plan, and

WHEREAS, Michael Pratt of Pratt-Navarro Architect, on behalf of George Simvoulakis has proposed that the zoning designation for property located on the east corner of 16th and G Streets be amended to rezone from Planned Development Zone, P-D(480), to Planned Development Zone, P-D(563), in the City of Modesto (“the project”) to allow a two story professional office building, and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for a Master EIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the master environmental impact report and whether the subsequent project was described in the master environmental impact report as being within the scope of the project, and

WHEREAS, the City’s Community & Economic Development Department by Environmental Assessment Initial Study EA/C&ED 2003-82 reviewed the proposed amendment to the Zoning Map and rezone, to P-D(563) project to determine whether the project is within the scope of the project covered by the Modesto Urban Area General Plan

Master EIR (“Master EIR”), and made the determination that the proposed project will have no additional significant effect on the environment that was not identified in the Master EIR, and further, that no new or additional mitigation measures or alternatives are required, and that, therefore, the proposed project is within the scope of the project covered by the Master EIR, and

WHEREAS, in accordance with CEQA guidelines beginning on October 31, 2003, the City caused to be published a 20-day notice of the City’s intent to make a finding that the proposed project conforms with the Master EIR, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on November 25, 2003, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed amendment to the Zoning Map and rezone to P-D(563) project, a copy of which is attached hereto as **Exhibit “A”**, and incorporated herein by reference, and based on the substantial evidence included in said Initial Study makes the following findings:

1. That the proposed project is contemplated and described in the Master EIR (SCH No. 1999082041) as being within the scope of the Master EIR.
2. That the project will have no new significant effects on the environment not identified or examined in the Master EIR, and no new or additional mitigation measures are required.

3. That, as per Section 21157.1 of the Public Resources Code, no new environmental document or findings are required by the California Environmental Quality Act (CEQA).
4. That there are no specific features which are unique to the proposed project that require project specific mitigation measures.
Accordingly, the certified mitigation measures identified in the Master EIR will be sufficient for this project.
5. That all feasible mitigation measures set forth in the Master EIR which are appropriate to the project shall be incorporated in the project.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of approval or determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of November, 2003, by Councilmember O'Bryant, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Frohman, Jackman, Keating, Marsh, O'Bryant, Mayor Sabatino

EXHIBIT A

Initial Study

EA/C&ED 2003-82

City of Modesto
Initial Study

P-D –16th Street Office
EA/C&ED 2003-82
September 18, 2003

I. PURPOSE

Section 21157.1 of the Public Resources Code, allows for limited environmental review of subsequent projects under a Master EIR, provided that certain findings are made. The Modesto Urban Area General Plan Master EIR (SCH No. 1999082041), adopted March 4, 2003, allows such limited review for projects in the Baseline Developed Area that are consistent with the General Plan and existing zoning.

This Initial Study, in accordance with Section 21157.1(b) of the Public Resources Code, analyzes whether this project may cause any significant effects on the environment that were not examined in the General Plan Master EIR. This Initial Study also provides documentation that the project is within the scope of the General Plan Master EIR.

II. PROJECT DESCRIPTION

- A. Project title:
P-D – 16th Street Office
- B. Lead agency name and address:
City of Modesto, PO Box 642, Modesto, CA 95353
- C. Contact person and phone number:
Josh Bridegroom, Community and Economic Development Department, (209) 571-5540
- D. Project Location:
East corner of 16th and G Streets.
- E. Project Sponsor:
Mike Pratt, 1720 G Street, Modesto California 95354
- F. General Plan Designation:
Redevelopment Planning District
- G. Current Zoning:
P-D(480)
- H. Description of Proposed Project:
This is an application to rezone P-D(480) to Planned Development to allow for the development of a 22,726-square-foot, two-story office building. The project is proposed to gain access to 16th Street via a new drive approach at the south corner of the property and access to G Street via the existing alley at the north corner of the property. The applicant is proposing 40 parking stalls in conjunction with this development.
- I. Surrounding land uses:

The project is surrounded by 16th Street to the northwest, a commercial parking lot, multi-family residence and vacant lot to the northeast, a single-family residence to the southeast, and G Street to the southwest.

- J. Other public agencies whose approval is required:
None

III. ANALYSIS OF CONFORMANCE WITH THE MASTER EIR

There are eighteen subject areas in the Master EIR for the General Plan. Following is an analysis of how this project conforms with the analysis contained within the Master EIR.

A. Traffic and Circulation

The General Plan designates the project site as redevelopment planning district. The project is consistent with this designation in land use and intensity. However, the number of parking spaces proposed is five fewer than what is required by City Standards. This was determined to have a less than significant impact on traffic and circulation, as the overall traffic volume generated by this project is still consistent with the assumptions in the MEIR. Therefore, there would be no change needed in the Traffic and Circulation section of the EIR. Therefore, the Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Traffic and Circulation Needs (pages V-1-1 through V-1-33) are still valid.

B. Degradation of Air Quality

The air quality impacts for this project are directly related to the traffic impacts. Since the traffic impacts are less than significant, there would be no change needed in the Degradation of Air Quality section of the EIR. Therefore, the Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Degradation of Air Quality (pages V-2-1 through IV-2-26) are therefore still valid.

C. Generation of Noise

The General Plan MEIR assumed that there would be further development and thus, noise generation within the Baseline Developed Area. This project will not generate noise greater than what was anticipated by the EIR, in that it is in an area that was anticipated to transition into high-intensity office and commercial uses. Therefore, the Mitigation Measures listed in the MEIR for Generation of Noise (pages V-3-1 through V-3-22) are still valid.

D. Loss of Productive Agricultural Land

This area is located in an urbanized portion of Modesto, and there are no agricultural lands affected by this project. The Existing Conditions, Impacts Analysis, and Mitigation Measures listed in the MEIR for Loss of Productive Agricultural Land (pages V-4-1 through IV-4-12) are still valid.

E. Increased Demand for Water Supplies

The General Plan MEIR assumed that there would be further development and thus, increased demand for Water Supplies within the Baseline Developed Area. The proposed

office complex is consistent with the General Plan designation for the site in both land use and intensity. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Water Supplies (pages V-5-1 through IV-5-13) are still valid.

F. Increased Demand for Sanitary Sewer Services

The project is consistent with the General Plan Designation for the site in land use and intensity and will therefore not increase demand for sanitary sewer service beyond that projected by the MEIR. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Sanitary Sewer Services (pages V-6-1 through V-6-12) are still valid.

G. Loss of Sensitive Wildlife and Plant Habitat

The project is located in a built-up urban area and is not located in a Potential Biological Resource Study Area, as presented in Figure V-7-1 of the MEIR. Therefore, the project will not impact sensitive wildlife or any plant habitat above and beyond that which was identified in the Loss of Sensitive Wildlife and Plant Habitat section of the MEIR. Therefore, the Existing Conditions, Impact Analysis, and the Mitigation Measures listed in this section of the MEIR (pages V-7-1 through V-7-29) are still valid.

H. Disturbance of Archaeological and Historic Sites

This project will not disturb any archaeological or historic sites that have been identified in the Disturbance of Archaeological or Historical Sites section of the 1995 MEIR, as sited in the 2003 MEIR. Figure 8-1 of the 1995 MEIR, as sited in the 2003 MEIR, indicates that the area where the project is proposed, 16th and G Streets, is also outside the Archaeological Resource Study Area, which shows areas that may require additional site-specific investigations. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Disturbance of Archaeological or Historical Sites (pages V-8-1 through V-8-22) are still valid.

I. Increased Demand for Storm Drainage

The General Plan MEIR assumed that there would be further development and thus, increased demand for Storm Drainage within the Baseline Developed Area. This project is consistent in land use and intensity with the General Plan designation for the site, and the project complies with the adopted storm drainage policies from the various agencies listed in the MEIR. For example, the project will provide on-site treatment of storm water in accordance with the City's guidance manual for new development stormwater quality control measures. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Increased Demand for Storm Drainage (pages V-9-1 through V- 9-13) are still valid.

J. Flooding and Water Quality

The General Plan designates the project site as redevelopment planning district. The project is consistent with this designation in land use and intensity and will therefore not generate drainage, flooding or water quality problems greater than projected by the MEIR. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Drainage, Flooding, and Water Quality (pages V-10-1 through V 10-16) are still valid.

K. Increased Demand for Parks and Open Space

The General Plan MEIR assumed that there would be further development and thus, increased demand for Parks and Open Space within the Baseline Developed Area. The proposed two story office building is consistent with the General Plan in terms of land use and intensity. In addition, the proposed office is relatively high in density, thereby promoting the reservation of open space. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Parks and Open Space (pages V-11-1 through V-11-14) are still valid.

L. Increased Demand for Schools

This project, being non-residential, would not generate any additional demand for schools. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Schools (pages V-12-1 through V-12-11) are still valid.

M. Increased Demand for Police Services

The General Plan MEIR assumed that there would be further development and thus, increased demand for police services within the Baseline Developed Area. The proposed office building is consistent with the General Plan with regard to land use and intensity. Furthermore, office buildings generally do not generate very much demand for police services. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Police Services (pages V-13-1 through V-13-7) are still valid.

N. Increased Demand for Fire Services

The General Plan MEIR assumed that there would be further development and thus, increased demand for fire services within the Baseline Developed Area. The MEIR concludes that adopted policies in the City of Modesto and County of Stanislaus would reduce the impact of new projects on Fire Services to a less than significant level. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Increased Demand for Fire Services (pages V-14-1 through V-14-9) are still valid.

O. Generation of Solid Waste

The General Plan MEIR assumed that there would be further development and thus, increased generation of solid waste within the Baseline Developed Area. This project is consistent in land use and intensity with the General Plan designation for the site. Furthermore, the site plan for the proposed office project was referred to the appropriate waste management company and they did not express any concerns with the proposal. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Solid Waste (pages V-15-1 through V-15-10) are still valid.

P. Generation of Hazardous Materials

The General Plan MEIR assumed that there would be further development and thus, increased generation of hazardous materials within the Baseline Developed Area. This two story office project is consistent in land use and intensity with the General Plan designation for the site. Furthermore, general offices typically do not generate much hazardous material. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Generation of Hazardous Materials (pages

V-16-1 through V-16-15) are still valid.

Q. Landslides and Seismic Activity

This proposed office development will result in no additional potential for exposing people to landslides or earthquake related hazards such as liquefaction beyond those identified in the MEIR, in that it is consistent with the general plan designation for the site. The Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for the Landslides and Seismic Activity (pages V-17-1 through V-17-12) are therefore still valid.

R. Energy

The MEIR concludes that adopted policies in the City of Modesto and County of Stanislaus would reduce the impact of new projects on Energy to a less than significant level. The proposed office building at 16th and G Streets is consistent with the general plan designation for the site. Therefore, the Existing Conditions, Impacts Analysis and the Mitigation Measures listed in the MEIR for Energy (pages V-18-1 through IV-18-7) are still valid.

IV. CONCLUSIONS/DETERMINATIONS OF FINDINGS

- A. The proposed project is within the scope of the General Plan Master EIR (SCH No. 1999082041).
- B. No additional significant environmental effects will occur as a result of the proposed project that were not previously examined in the General Plan Master EIR.
- C. No new mitigation measures or alternatives will be required as a result of the proposed project that were not previously considered in the General Plan Master EIR.
- D. There are not specific features unique to this project that require project specific mitigation measures. All certified mitigation measures identified in the MEIR will apply city wide, including this project as appropriate.
- E. This Initial Study provides substantial evidence to support findings A, B, C, and D above.

Assistant Planner

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-626**

**A RESOLUTION CONDITIONALLY VACATING AND ABANDONING THE
PORTION OF BEYER PARK DRIVE RIGHT-OF-WAY BETWEEN
CLARATINA AVENUE AND INSPIRATION DRIVE AND RESERVING
UTILITY EASEMENTS WITHIN THE SUBJECT RIGHT-OF-WAY
(FROWEIN; CHAMBERS)**

WHEREAS, Naja & Michael Frowein and Maurice Chambers have filed an application to vacate and abandon a portion of the Beyer Park Drive right-of-way, between Inspiration Drive and the future path of Claratina Avenue (“Proposed Abandonment”), and

WHEREAS, Streets and Highways Code Section 8320 et seq. prescribes the procedures to vacate and abandon public rights-of-way, and

WHEREAS, a title report was submitted by the project applicants with the abandonment request which shows that fee title to the property underlying the proposed abandonment belongs to the adjacent land owners who are proponents of the abandonment, and

WHEREAS, the Proposed Abandonment has been referred to affected City departments and local utility companies, and no objection to the Proposed Abandonment has been received, and

WHEREAS, utility easements exist within the subject right-of-way that must be retained sufficient in width to serve existing utility lines and to allow continued maintenance of said lines, and

WHEREAS, Government Code Section 65402 requires that prior to abandoning a public right-of-way, the Planning Commission shall make a determination as to whether the abandonment is consistent with the General Plan, and

WHEREAS, a public hearing was held by the Planning Commission on October 20, 2003, in the Tenth Street Chambers, located at 1010 Tenth Street, Modesto, California, at which hearing both oral and documentary was received and considered regarding the proposed vacation and abandonment, and

WHEREAS, by Planning Commission Resolution No. 2003-63, the Planning Commission rendered a report finding that the Proposed Abandonment is in conformance with the Modesto Urban Area General Plan and recommended that the Council vacate and abandon the alley, and

WHEREAS, a duly noticed public hearing was held by the Council of the City of Modesto on Tuesday, November 25, 2003, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California, at which time all persons interested in or objecting to the Proposed Abandonment were afforded the opportunity to appear, and

WHEREAS, three notices were posted in the proposed right-of-way abandonment area for two successive weeks prior to the hearing, and notice was published in the Modesto Bee for two successive weeks prior to the hearing, per Streets & Highways Code sections 8323 and 8332, respectively, and,

WHEREAS, all things and acts necessary to be done as required by the State of California Streets and Highways Code, Section 8300 through 8363: Public Streets, Highways and Service Easements Vacation Law, in order to vacate and abandon the subject right-of-way have been done and accomplished, and

WHEREAS, a hearing notice has been published in the Modesto Bee and posted at the project site for two successive weeks prior to the Council hearing in accordance with State of California Streets and Highways Code, Section 8300 through 8363, and

WHEREAS, the Council of the City of Modesto has determined that the Proposed Abandonment be approved conditioned on the construction of needed improvements and the reservation of the necessary utility easements to ensure that the abandoned right-of-way functions in a manner not detrimental to the public welfare, and

WHEREAS, on November 25, 2003, the Council of the City of Modesto reviewed the Initial Study (EA/C&ED 2003-85) for the proposed right-of-way abandonment and adopted Resolution No. 2003-625, which determined that the potential environmental effects of the Proposed Abandonment are adequately addressed within the context of the previously-adopted Mitigated Negative Declaration for the North Beyer Park Specific Plan.

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto finds and determines as follows:

1. That the portion of Beyer Park Drive to be abandoned is unnecessary for present or future pedestrian or vehicular use.
2. That Environmental Assessment No. EA C&ED 2003-85 determined that the potential environmental effects of the subdivision are adequately addressed within the context of the previously-adopted Mitigated Negative Declaration for the North Beyer Park Specific Plan.
3. That the vacation and abandonment of the portion of Beyer Park Drive right-of-way between Inspiration Drive and the future path of the Claratina Expressway, is in conformance with the City of Modesto General Plan.

BE IT FURTHER RESOLVED that the Council hereby orders and declares the vacation and abandonment of the portion of the Beyer Park Drive right-of-way, between Inspiration Drive and the future path of Claratina Avenue, subject to the following conditions:

1. The applicants shall secure and construct the following improvements to the satisfaction of the Engineering and Transportation Director:
 - a. Construction of an eight-foot masonry wall across the opening in the existing wall along the south side of the Claratina Avenue right-of-way at Beyer Park Drive.
 - b. Demolition and removal of the pavement and concrete within the boundaries of the abandoned right-of-way.
 - c. Construction of curb, gutter and sidewalk along the north side of Inspiration Drive / Court.

Said right-of-way to be vacated and abandoned is more particularly described in **Exhibit "A"** attached hereto, and by this reference made a part hereof as though set forth in full herein.

BE IT FURTHER RESOLVED that in the event two (2) years lapse from the date of conditional approval without the required conditions having been fulfilled, the conditional right-of-way abandonment shall expire and the Beyer Park Drive shall remain as public right-of-way.

BE IT FURTHER RESOLVED that the Council hereby approves the reservation of public utility easements within the portion of Beyer Park Drive proposed to be abandoned, as follows: a) a 15-foot-wide public utility easement as described in **Exhibit "B"** attached hereto, and by this reference made a part hereof as though set forth in full herein; and b) the extension of the existing 10-foot-wide public utility easement along the

north side of Inspiration Drive, across the abandoned right-of-way area as described in **Exhibit "C"** attached hereto, and by this reference made a part hereof as though set forth in full herein.

BE IT FURTHER RESOLVED that the City Clerk shall hold this resolution of abandonment until conditions 1.a. through 1.c. above have been fully satisfied to the satisfaction of the City's Community and Economic Director and not less than five (5) working days after said conditions have been fully satisfied, the City Clerk shall cause a certified copy of this resolution, attested under seal of the City, to be recorded in the Office of the County Recorder of Stanislaus County.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of November, 2003, by Councilmember Keating, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

AYES:	Councilmembers:	Frohman, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Sabatino
NOES:	Councilmembers:	None
ABSENT:	Councilmembers:	None

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-627**

A RESOLUTION FINDING THAT THE POTENTIAL ENVIRONMENTAL IMPACTS OF THE FOLLOWING PROJECT HAVE BEEN ADEQUATELY ADDRESSED BY THE NORTH BEYER PARK SPECIFIC PLAN MITIGATED NEGATIVE DECLARATION (SCH NO. 96102053): CONDITIONAL VACATION AND ABANDONMENT OF THE PORTION OF BEYER PARK DRIVE RIGHT-OF-WAY BETWEEN CLARATINA AVENUE AND INSPIRATION DRIVE AND RESERVING UTILITY EASEMENTS WITHIN THE SUBJECT RIGHT-OF-WAY (FROWEIN; CHAMBERS)

WHEREAS, on November 26, 1996, the City Council of the City of Modesto certified the North Beyer Park Specific Plan Mitigated Negative Declaration (SCH No. 96102053) for the North Beyer Park Specific Plan, and

WHEREAS, Naja & Michael Frowein and Maurice Chambers have proposed that the Beyer Park Drive right-of-way between Claratina Avenue Expressway and Inspiration Drive, be vacated and abandoned, and

WHEREAS, Section 15162 of the CEQA Guidelines states that when a negative declaration has been adopted for a project, no further environmental review is required for the project unless the agency finds that there have been substantial changes in the project which will require major changes in the negative declaration, or that there have been substantial changes in the circumstances under which the project is being undertaken which will require major revisions in the negative declaration, or that new information of substantial importance, which was not known and could not have been known at the time of adoption of the negative declaration, creates new impacts or mitigation measures, and

WHEREAS, the City's Community & Economic Development Department by Environmental Assessment Initial Study EA/C&ED 2003-85 reviewed the proposed

project to determine whether the potential environmental impacts of the project were adequately addressed by the North Beyer Park Specific Plan Negative Declaration, and made the determination that there were not substantial changes that would require major revisions in the North Beyer Park Specific Plan Mitigated Negative Declaration, there were no substantial changes in the circumstances surrounding the project that would require major changes in the North Beyer Park Specific Plan Mitigated Negative Declaration, and there was no new information that would result in new impacts or mitigation measures not previously included in the North Beyer Park Specific Plan Mitigated Negative Declaration, and

WHEREAS, said matter was considered by the City Council at a duly noticed public hearing which was held on November 25, 2003, at 5:30 p.m., in the Tenth Street Place Chambers located at 1010 Tenth Street, Modesto, California.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council has reviewed and considered the Initial Study prepared for the proposed project, a copy of which is attached hereto as Exhibit "A", and incorporated herein by reference, and based on the substantial evidence included in said Initial Study makes the following findings:

1. No substantial changes are proposed in the project that will require major revisions of the North Beyer Park Specific Plan Mitigated Negative Declaration.
2. No substantial changes are occurring with respect to the circumstances under which the project is being undertaken which will require major revisions in the North Beyer Park Specific Plan Mitigated Negative Declaration.
3. No new information, which was not known and could not have been known at the time the North Beyer Park Specific Plan

Mitigated Negative Declaration was certified as complete, has become available.

4. This Initial Study provides substantial evidence to support findings 1-3, above.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Director is hereby authorized and directed to file a notice of determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 25th day of November, 2003, by Councilmember Keating, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Frohman, Hawn, Jackman, Keating, Marsh, O'Bryant, Mayor Sabatino

**Abandonment of Beyer Park Drive Right-of-Way
Between Claratina Avenue and Inspiration Drive**

EA/CDD 2003-85

October 1, 2003

I. PURPOSE

On November 26, 1996, the Modesto City Council certified the Mitigated Negative Declaration for the North Beyer Park Specific Plan (SCH# 96102053). This document analyzed the impacts of buildout of the North Beyer Park Specific Plan. Section 21166 of the Public Resources Code allows the North Beyer Park Specific Plan Mitigated Negative Declaration to be used for subsequent projects within the Specific Plan area, provided that the following findings can be made:

- A. No substantial changes are proposed in the project that will require major revisions of the environmental impact report.
- B. No substantial changes are occurring with respect to the circumstances under which the project is being undertaken which will require major revisions in the environmental impact report.
- C. No new information, which was not known and could not have been known at the time the environmental impact report was certified as complete, has become available.

II. PROJECT DESCRIPTION

- A. Project title:
Public Hearing – Application of Frowein, Walsh & Boston, to abandon a portion of the Beyer Park Drive right-of-way, located between the future Claratina avenue expressway and Inspiration Drive.
- B. Lead agency name and address:
City of Modesto, PO Box 642, Modesto, CA 95353
- C. Contact person, address and phone number:
Brad Wall
City of Modesto Community & Economic Development Department
1010 10th Street, Suite 3100
Modesto, CA 95353
(209) 577-5282
- D. Project Location:
Within the Beyer Park Drive right-of-way, between the future Claratina Avenue expressway and Inspiration Drive

- E. Project Sponsors:
- | | | |
|------------------------|--------------------------|----------------------|
| Michael & Naja Frowein | Robert & Manuelita Walsh | Jim & Joanne Boston |
| 1449 Inspiration Drive | 1448 Inspiration Drive | 1500 Inspiration Ct. |
| Modesto, CA 95357 | Modesto, CA 95357 | Modesto, CA 95357 |
| 491-0550 | 491-0838 | 572-2582 |
- F. General Plan Designation:
Residential (R)
- G. Current Zoning:
Specific Plan Overlay (SP-O)
- H. Description of Proposed Project:
This is an application to abandon the portion of Beyer Park Drive between the future Claratina Avenue expressway and Inspiration Drive. The surrounding area is developed with single-family residential land uses.
- I. Surrounding land uses: (See "H." above.)
- J. Other public agencies whose approval is required: None.

III. ANALYSIS OF CONFORMANCE WITH CEQA SECTION 21166 FINDINGS

- A. Are substantial changes proposed in the project which will require major revisions of the environmental impact report?

Following is an analysis of whether there are substantial changes proposed in the project which would require major revisions of the North Beyer Park Specific Plan Mitigated Negative Declaration:

1. Land Use and Consistency with Plans and Policies

Impacts to land use / consistency with plans and policies are discussed on pages 6 through 8 of the North Beyer Park Specific Plan Negative Declaration. The proposed abandonment of the subject right-of-way is consistent with this analysis. Therefore, there would be no major revisions to this section of the mitigated negative declaration required as a result of the proposed project.

2. Population, Employment and Housing

Impacts to population, employment and housing are analyzed on pages 9 and 10 of the North Beyer Park Specific Plan Mitigated Negative Declaration. Abandonment of the subject right-of-way would have no impacts relative to population, employment nor housing. Therefore, there would be no major revisions to this section of the mitigated negative declaration required as a result of the proposed project.

3. Geologic Problems

Impacts to geology and soils are analyzed on pages 11 and 12 of the North Beyer Park Specific Plan Mitigated Negative Declaration. Abandonment of the subject right-of-way would have no impacts relative to geology. Therefore, there would be no major revisions to this section of the mitigated negative declaration required as a result of the proposed project.

4. Water Quality

Water quantity and quality, and its availability and impacts to supplies are analyzed on pages 13 through 16 of the North Beyer Park Specific Plan Mitigated Negative Declaration. Abandonment of the subject right-of-way would have no impacts relative to quantity, quality, supply, nor demand. Therefore, there would be no major revisions to this section of the mitigated negative declaration required as a result of the proposed project.

5. Air Quality

Impacts related to air quality are analyzed on pages 17 and 18 of the North Beyer Park Specific Plan Mitigated Negative Declaration. Abandonment of the subject right-of-way would have no impacts relative to air quality. Therefore, there would be no major revisions to this section of the mitigated negative declaration required as a result of the proposed project.

6. Traffic and Circulation

Traffic and Circulation impacts are analyzed on pages 19 through 23 of the North Beyer Park Specific Plan Mitigated Negative Declaration. Abandonment of the subject right-of-way would result in a modified traffic circulation pattern. However, the Beyer Park Drive intersection with Claratina Avenue is not shown in the Specific Plan, nor is it considered within the environmental document. Therefore, there would be no major revisions to this section of the mitigated negative declaration required as a result of the proposed project.

7. Biological Resources

Impacts to biological resources are analyzed on pages 24 and 25 of the North Beyer Park Specific Plan Mitigated Negative Declaration. Abandonment of the subject right-of-way would have no impacts relative to biological resources. Therefore, there would be no major revisions to this section of the mitigated negative declaration required as a result of the proposed project.

8. Energy and Mineral Resources

Impacts to energy and mineral resources are analyzed on page 26 of the North Beyer Park Specific Plan Mitigated Negative Declaration. Abandonment of the subject right-of-way would have no impacts relative to energy and mineral resources. Therefore, there would be no major revisions to this section of the mitigated negative declaration required as a result of the proposed project.

9. Hazards

Impacts relative to hazards are analyzed on pages 27 and 28 of the North Beyer Park Specific Plan Mitigated Negative Declaration. Abandonment of the subject right-of-way would have no impacts relative to hazards. Therefore, there would be no major revisions to this section of the mitigated negative declaration required as a result of the proposed project.

10. Noise

Noise-related impacts are analyzed on page 29 of the North Beyer Park Specific Plan Mitigated Negative Declaration. Abandonment of the subject right-of-way would have no noise-related impacts. Therefore, there would be no major revisions to this section of the mitigated negative declaration required as a result of the proposed project.

11. Public Services

Impacts to public services are analyzed on pages 30 through 32 of the North Beyer Park Specific Plan Mitigated Negative Declaration. Abandonment of the subject right-of-way would have no impacts associated with the provision of public services. Therefore, there would be no major revisions to this section of the mitigated negative declaration required as a result of the proposed project.

12. Utilities and Service Systems

Impacts to utilities and service systems are analyzed on pages 33 and 34 of the North Beyer Park Specific Plan Mitigated Negative Declaration. Abandonment of the subject right-of-way would have no impacts relative to utilities and service systems. Therefore, there would be no major revisions to this section of the mitigated negative declaration required as a result of the proposed project.

13. Aesthetics

Aesthetic impacts are analyzed on page 35 of the North Beyer Park Specific Plan Mitigated Negative Declaration. Abandonment of the subject right-of-way would have no impacts relative to aesthetics. Therefore, there would be no major revisions to this section of the mitigated negative declaration required as a result of the proposed project.

14. Cultural Resources

Impacts to cultural resources are analyzed on pages 36 and 37 of the North Beyer Park Specific Plan Mitigated Negative Declaration. Abandonment of the subject right-of-way would have no impacts relative to cultural resources. Therefore, there would be no major revisions to this section of the mitigated negative declaration required as a result of the proposed project.

15. Recreation

Recreation-related impacts to are analyzed on page 38 of the North Beyer Park Specific Plan Mitigated Negative Declaration. Abandonment of the subject right-of-way would have no impacts relative to recreation. Therefore, there would be no major revisions to this section of the mitigated negative declaration required as a result of the proposed project.

- B. Have substantial changes occurred with respect to the circumstances under which the project is being undertaken which will require major revisions in the environmental impact report?

The proposed Beyer Park Drive right-of-way abandonment does not constitute a substantial change to the buildout of the Specific Plan area. Therefore, there have been no substantial changes with respect to the circumstances under which the abandonment is being undertaken which will require major revisions to the North Beyer Park Specific Plan Mitigated Negative Declaration.

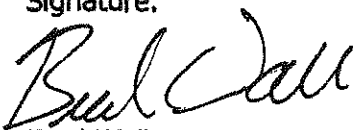

- C. Has new information, which was not known and could not have been known at the time the environmental impact report was certified as complete, become available?

The North Beyer Park Specific Plan Mitigated Negative Declaration was certified by the Modesto City Council on November 26, 1996. Since that date there has been no new information, which was not known and could not have been known at the time the North Beyer Park Specific Plan Mitigated Negative Declaration was certified as complete, has become available that would require major revisions to the analysis of the document.

IV. CONCLUSIONS/DETERMINATIONS OF FINDINGS

- A. No substantial changes are proposed in the project that will require major revisions of the North Beyer Park Specific Plan Mitigated Negative Declaration.
- B. No substantial changes are occurring with respect to the circumstances under which the project is being undertaken which will require major revisions in the North Beyer Park Specific Plan Mitigated Negative Declaration.
- C. No new information, which was not known and could not have been known at the time the North Beyer Park Specific Plan Mitigated Negative Declaration was certified as complete, has become available.
- D. This Initial Study provides substantial evidence to support findings A, B and C, above.

Associate Planner

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-628**

A RESOLUTION AWARDING THE BID AND CONTRACT FOR LIQUID CHLORINE AND SODIUM HYPOCHLORITE TO SIERRA CHEMICAL COMPANY OF SPARKS, NV. FOR AN INITIAL ONE-YEAR PERIOD, WITH TWO (2) ONE-YEAR CONTRACT EXTENSIONS, FOR AN ESTIMATED ANNUAL COST OF \$146,859.69.

WHEREAS, the Operations and Maintenance Department-Water Quality Control (WQC) has requested the purchase of liquid chlorine, and

WHEREAS, the Operations and Maintenance Department-Water Division has requested the purchase of sodium hypochlorite, and

WHEREAS, Resolution 2003-441 authorized the Purchasing Supervisor to solicit Request for Bids (RFB) for liquid chlorine and sodium hypochlorite, and

WHEREAS, liquid chlorine (CL2) is used during river discharge season from October 1st through May 31, and

WHEREAS, this product is utilized at the Jennings Road facility to chlorinate and disinfect our final effluent to the San Joaquin River, as required in the City's permit, and

WHEREAS, the Jennings Road facility, located at 7007 Jennings Road, borders the San Joaquin River, and

WHEREAS, the City of Modesto Water Division uses sodium hypochlorite to disinfect the domestic water supply as specified by water purveyors permit as issued by the California Department of Health Services, and

WHEREAS, the disaffection process, using a 12.5% Sodium Hypochlorite Solution, has provided drinking water disaffection while maintaining a chlorine residual

in the distribution system to protect our customers from possible water borne disease, since 1995, and

WHEREAS, this allows for well water and the water distribution systems to be chlorinated in as safe a form as possible for both City personnel and City customers,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby awards the bid for liquid chlorine and sodium hypochlorite to Sierra Chemical Company of Sparks, NV., for an initial one-year period, with two (2) one-year contract extensions, for a total annual cost of approximately \$146,859.69.

BE IT FURTHER RESOLVED that the Purchasing Supervisor is authorized to issue a contract not to exceed \$146,859.69 to Sierra Chemical Company for an initial one-year period, with two (2) additional, one-year contract extensions.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of December, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-629**

A RESOLUTION APPROVING THE APPLICATION FOR \$2,500,000 IN MURRAY-HAYDEN PROGRAM FUNDING UNDER THE CALIFORNIA CLEAN WATER, CLEAN AIR, SAFE NEIGHBORHOOD PARKS, AND COASTAL PROTECTION ACT OF 2002, FOR THE DEVELOPMENT OF FAIRWAY NEIGHBORHOOD PARK AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE GRANT APPLICATION AND CONTRACT DOCUMENTS.

WHEREAS, the people of the State of California have enacted the CALIFORNIA CLEAN WATER, CLEAN AIR, SAFE NEIGHBORHOOD PARKS, AND COASTAL PROTECTION ACT OF 2002, which provides funds to the State of California for grants to eligible Applicants, and

WHEREAS, the California Department of Parks and Recreation has been delegated the responsibility for the administration of the Murray-Hayden Urban Parks and Youth Service Program and the grant Project shown above within the State, setting up necessary procedures, and

WHEREAS, grant funding in the amount of \$2,500,000 is available for capital projects including parks and park facilities, and

WHEREAS, development of the Fairway Neighborhood Park is consistent with the Murray-Hayden Program grant project criteria, and

WHEREAS, said procedures established by the California Department of Parks and Recreation require the Applicant's Governing Body to certify by resolution the approval of the Application before submission of said Application to the State, and

WHEREAS, the Applicant will enter into a Contract with the State of California for the Project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto
that the Council hereby:

1. Approves the filing of an Application for \$2,500,000 in local assistance funds from the Murray-Hayden Program under the California Clean Water, Clean Air, Safe Neighborhood Parks and Coastal Protection Act of 2002; and
2. Certifies that the Applicant has or will have sufficient funds to operate and maintain the Project; and
3. Certifies that the Applicant has reviewed, understands, and agrees to the General Provisions contained in the Contract shown in the Procedural Guide; and
4. Certifies that the Project conforms to the recreation element of any applicable city or county general plan; and
5. Appoints the City Manager as agent to conduct all negotiations, execute and submit all documents including, but not limited to, Applications, agreements, payment requests and so on, which may be necessary for the completion of the Project.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of December, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-630**

A RESOLUTION APPROVING A LEASE AGREEMENT WITH THE CENTRAL VALLEY CENTER FOR THE VISION AND HEARING IMPAIRED (CVCVHI) FOR THE USE OF CITY-OWNED HOUSE AT 618 14TH STREET, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT.

WHEREAS, in 1998, the City of Modesto accepted real property (two houses) located at 618 and 622 14th Street from the estate of Daniel Soranno, with the following terms and conditions: 1) the said properties shall be used solely for civic purposes, 2) if the City should declare the said property surplus, for sale or not for civic purposes, the property shall revert to the Daniel Soranno Trust, and 3) the said property shall be dedicated to the Trustors parents, Daniel and Mary Serrano, and

WHEREAS, for several years, the properties on 14th Street were used for various staff offices and storage of supplies, and

WHEREAS, in 2001, the Modesto Garden Club started to lease the property at 622 14th Street, and

WHEREAS, in March 2003, a representative from the Central Valley Center for the Vision and Hearing Impaired (CVCVHI), a nonprofit organization, approached the City of Modesto, Parks, Recreation and Neighborhoods Department about utilizing the house located at 618 14th Street as a headquarters and re-training (for recently impaired individuals) site, and

WHEREAS, the Central Valley Center for the Vision and Hearing Impaired (CVCVHI) is a newly formed non-profit 501 (c)(3) organization, and

WHEREAS, CVCVHI is working to serve the 20% of the Valley's population, which has severe vision and hearing impairments, and the mission of CVCVHI is to provide a place of training, education and personal growth to this disabled population, and

WHEREAS, currently, the house located at 618 14th Street is holding the overflow supplies and equipment from the Garden Club but no long-term lessee occupies the building, and

WHEREAS, the CVCVHI is a start up 503(c)(3) that can meet the "civic" requirement of the donated property and can also offer increased services to Modesto residents with severe vision and hearing impairments, and

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a lease with the Central Valley Center for the Vision and Hearing Impaired for the use of a City-owned house at 618 14th Street.

BE IT FURTHER RESOLVED that the City Manager or his designee is hereby authorized to execute the lease agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of December, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

LEASE AGREEMENT

This Lease Agreement, made and entered into in the City of Modesto, County of Stanislaus, State of California, as of this _____ day of _____, 2003, by and between the CITY OF MODESTO, a municipal corporation of the State of California, hereinafter called LESSOR, and THE CENTRAL VALLEY CENTER FOR THE VISION AND HEARING IMPAIRED, a California corporation, hereinafter called LESSEE.

THE PARTIES HERETO AGREE AS FOLLOWS:

That LESSOR for and in consideration of the covenants, conditions, agreements and stipulations hereinafter expressed, does hereby demise and lease unto LESSEE, and LESSEE hereby hires from LESSOR all that real property in the State of California, County of Stanislaus, City of Modesto, described as 618 14th Street.

1. TERM. LESSEE shall be entitled to have and to hold the leased premises, together with the appurtenances, rights, privileges and easement thereunto belonging to or appertaining, for a three (3) year term commencing on October 1, 2003, and ending on October 1, 2006, or until terminated by LESSEE providing LESSOR with thirty (30) days prior written notice. If LESSEE with LESSOR'S consent, remains in possession of the leased premises after expiration of the lease term, possession of the leased premises shall be deemed to be a month-to-month tenancy terminable on thirty (30) days written notice given by either party. LESSOR'S City Manager is authorized to give said notice on behalf of LESSOR.

All provisions of this Lease Agreement except those pertaining to term, shall apply to the month-to-month tenancy.

2. RENTAL. LESSEE agrees that as consideration for the use of the demised premises for community services in the Modesto area and that the premises were donated to the city of Modesto for community benefit, and as consideration that the

LESSEE agrees to maintain the structure at 618 14th Street, and provide civic service on Attachment A, that the rent shall be in the sum of one dollar per year.

3. USE. Said leased premises shall be used by LESSEE to provide for community services and shall not be used for any other purpose without the express prior written consent of LESSOR'S Manager.

4. AS IS LEASE. LESSEE acknowledges that LESSEE is leasing the above described property solely in reliance on LESSEE'S own investigation and that no representations or warranties of any kind whatsoever, express or implied, have been made by the LESSOR or LESSOR'S representatives. LESSEE further acknowledges that as of execution of this Agreement, LESSEE will be aware of all zoning regulations, other governmental requirements, site and physical conditions, and other matters affecting the use and condition of the property and agrees to lease the property in "AS IS" condition upon execution of this Agreement.

5. MAINTENANCE AND REPAIRS. LESSEE agrees that as part of the consideration for lease of the demised premises that LESSEE will make, at LESSEE'S sole cost and expense, any ordinary repairs to the premises necessary to keep said premises in a tenantable condition. LESSEE also agrees to bring and maintain the demised premises in a safe, clean and sanitary manner, including the building structure.

LESSOR shall be not be responsible for any major repairs to the demised premises to bring the structure up to a usable condition, with the exception of the sewer and water lines up to the house. Upon bringing these items up to the desired condition by the LESEE, LESSOR shall have no obligation for maintenance of these items, other than the water and sewer lines. LESSOR'S City Manager or his designee shall make the determination of whether any particular item of repair, which may become necessary is the responsibility of LESSEE or LESSOR, and LESSEE agrees to abide by such decision.

Subject to the prior written approval of LESSOR'S City Manager, LESSEE shall have the right, during the term of this Lease Agreement, to make alterations

necessary for use of the leased premises. Building permits shall be taken out by LESSEE for such alterations if required by the provisions of the building regulations of the City of Modesto. All such alterations shall become the property of LESSOR upon the expiration of this Lease Agreement and must be approved by the LESSOR prior to installation.

LESSEE shall, upon the expiration of this Lease Agreement, leave the leased premises in good order, condition and repair, reasonable and ordinary wear and tear and damages by the elements or circumstances over which LESSEE has no control excepted.

6. REMOVAL OF PERSONAL PROPERTY. Conditioned upon LESSEE having paid all rentals provided for herein, LESSEE may remove all equipment, fixtures, furnishings, signs, and other personal property located or installed on the leased premises by LESSEE, and the same shall be removed by LESSEE at the expiration or termination of this Lease, provided that the same may be removed without damage to the building; and if damages are caused by such removal, LESSEE agrees to repair such damage at its own cost forthwith.

7. UTILITIES. LESSEE agrees to pay all utility bills and all bills for water, sewer, storm and garbage and to pay same promptly when due, holding LESSOR harmless therefrom.

8. ASSIGNMENT BY LESSEE. LESSEE shall not assign this Lease Agreement nor any right hereunder, nor sublet the demised premises, nor any part thereof, or suffer any other person or entity to occupy or use the said premises or any portion thereof, whether through direct assignment, merger, sale of stock or business assets without the prior written consent of LESSOR'S City Manager first had and obtained, and a consent to one assignment, subletting, occupation or use by any other person or entity shall not be deemed to be a consent to any subsequent assignment, subletting, occupation or use by another person or entity. Any such assignment, subletting and occupation or use by any other person or entity without such consent shall be void, and

shall at the option of the LESSOR'S City Manager, terminate this Lease Agreement. This Lease Agreement shall not, nor shall any interest therein, be assignable, as to the interest of LESSEE by operation of law, without the prior written consent of LESSOR.

9. FIRE INSURANCE. LESSOR shall keep the leased premises, excluding personal property of LESSEE, insured against losses by fire and other perils to the extent covered within LESSOR'S insurance policies, except LESSEE agrees to reimburse LESSOR for any such losses caused by, or arising out of, LESSEE'S use, occupancy or operation of the leased premises and not covered under LESSOR'S insurance policies, including deductible amounts, presently Five Thousand and No/100th Dollars (\$5,000.00); LESSEE further agrees to reimburse LESSOR and/or LESSOR'S insurance companies for any such losses caused by, or arising out of, LESSEE'S use, occupancy or operation of the leased premises for which LESSEE may be held legally obligated to pay. LESSEE further agrees that if the leased premises are damaged or destroyed in the amount of more than twenty-five percent (25%), LESSOR at its option shall not be required to reconstruct or replace the leased premises.

10. INDEMNIFICATION. LESSEE shall hold LESSOR, its agents, officers, employees, and volunteers, harmless from and save, defend and indemnify them against any and all claims, losses, liabilities and damages from every cause, including but not limited to injury to person or property or wrongful death, with the indemnity to include reasonable attorney's fees, and all costs and expenses, arising directly or indirectly out of any act or omission of LESSEE whether or not the act or omission arises from the sole negligence or other liability of LESSOR, its agents, officers, employees, or volunteers relating to or during the performance of its obligations under this Agreement.

11. LIABILITY INSURANCE. LESSEE shall provide at its own expense and maintain at all times the following insurance with insurance companies licensed in the State of California and shall provide evidence of such insurance to LESSOR as may be required by the City Clerk of LESSOR. The policies or certificates thereof shall provide

that, thirty (30) days prior to cancellation or material change in the policy, notices of same shall be given to the Risk Manager of LESSOR by registered mail, return receipt requested, for all of the following stated insurance policies.

a. General Liability instance with a minimum limit of liability per occurrence of \$1,000,000 for bodily injury and \$100,000 for property damage or \$1,000,000 combined single limit. This insurance shall indicate on the certificate of insurance the following coverages and indicate the policy aggregate limit applying to: premises and operations; broad form contractual; independent contractors and subcontractors; products and completed operations; and/or professional liability.

b. Automobile Liability insurance with a minimum limit of liability per occurrence of \$1,000,000 for bodily injury and \$100,000 for property damage or \$1,000,000 combined single limit. This insurance shall cover any automobile for bodily injury and property damage.

If at any time any of said policies shall be unsatisfactory to LESSOR, as to form or substance or if a company issuing such policy shall be unsatisfactory to LESSOR, LESSEE shall promptly obtain a new policy, submit the same to Risk Manager of LESSOR for approval and submit a certificate thereof as hereinabove provided. Upon failure of LESSEE to furnish, deliver or maintain such insurance and certificates as above provided, this Agreement, at the election of LESSOR, may be forthwith declared suspended, or terminated. Failure of LESSEE to obtain and/or maintain any required insurance shall not relieve LESSEE from any liability under this Agreement, nor shall the insurance requirements be construed to conflict with or otherwise limit the obligations of LESSEE concerning indemnification. LESSOR, its agents, officers, employees, and volunteers shall be named as an additional insured on all insurance policies required herein, except Workers' Compensation. The Workers' Compensation insurer shall agree to waive all rights of subrogation against LESSOR, its agents, officers, employees, and volunteers for losses arising from work performed by LESSEE for LESSOR. LESSEE'S

insurance policy(ies) shall include a provision that the coverage is primary as respects LESSOR; shall include no special limitations to coverage provided to additional insured; and, shall be placed with insurer(s) with acceptable Best's rating of A:VII or with approval of the Risk Manager of LESSOR.

12. RIGHT OF ENTRY UPON PREMISES. LESSOR and its agents and employees shall have the right to enter upon said premises at all reasonable times to inspect the same to determine if LESSEE is performing the covenants of this Lease Agreement on its part to be performed, and to post such reasonable notices as LESSOR may desire to protect its rights.

13. TAXES. LESSEE recognizes and understands that this Lease Agreement may create a possessory interest subject to property taxation and that LESSEE may be subject to the payment of property taxes on such interest. LESSEE further agrees to pay, without the right to deduct from rental fees provided herein, any and all property taxes, if any are assessed during the term of this Lease Agreement against LESSEE'S possessory interest in the demised leased premises.

14. COMPLIANCE WITH LAWS. LESSEE shall not do or suffer to be done on or about the leased premises anything that would or does violate or conflict with any applicable law, ordinance, rule or regulation which is now in force or effect or which may hereafter be enacted or adopted by federal, state, county or municipal authority.

15. TERMINATION BY LESSOR PRIOR TO EXPIRATION. LESSOR'S City Manager shall have the right to immediately terminate this Lease Agreement, in whole or in part, on the occurrence of any of the following events:

a. Failure on the part of LESSEE to pay rent when due, unless such failure is corrected within a fifteen (15) day period.

b. Filing by or the final adjudication of LESSEE of any petition in bankruptcy or the making of any transfer of general assignment for the benefit of creditors which has not been previously authorized by LESSOR.

c. The failure of LESSEE to perform substantially or keep or observe any of the terms, covenants and conditions which it is obligated to perform, keep or observe under this Lease Agreement after the expiration of a fifteen (15) day period of warning or ultimatum given by LESSOR'S City Manager to LESSEE to correct any such deficiency or default.

d. The abandonment of the leased premises or any portion thereof, or discontinuance of LESSEE'S business operations, or any portion thereof. Should this occur, LESSOR shall not be responsible for the custodial protection of merchandise, fixtures, or equipment abandoned, even though it is necessary for LESSOR to remove same from the leased premises for storage or disposal.

16. FAILURE TO VACATE. LESSEE agrees to vacate the leased premises at the expiration of the lease term or upon the termination of this Lease Agreement, whichever occurs first, and failing to vacate as herein provided, agrees that LESSOR or its authorized agents, may enter upon the leased premises and remove all personal property therefrom and in this event, LESSEE waives any and all claims for damages against LESSOR, its agents or employees. Nothing herein shall be deemed a waiver of any rights of LESSOR to demand and obtain possession of said premises in accordance with law in the event of a violation of LESSEE'S part of any of the terms or conditions hereof.

17. NONWAIVER. Any waiver of any breach of covenants or conditions herein contained to be kept and performed by either party shall be effective only if in writing and shall not be deemed or considered as a continuing waiver and shall not operate to bar or prevent the other party from declaring a forfeiture or exercising its rights for any succeeding breach of either the same or other condition or covenant.

18. COPARTNERSHIP DISCLAIMER. It is mutually understood and agreed that nothing in this Lease Agreement is intended or shall be construed as in any wise

creating or establishing the relationship of copartners between the parties hereto, or as constituting LESSEE as agents or representatives of LESSOR for any purpose or in any manner whatsoever.

19. ENTIRE AGREEMENT. This Agreement contains the sole and only agreement of the parties. Any prior agreements, promises, negotiations or representations not expressly set forth in this Agreement are of no force or effect.

20. LANGUAGE CONSTRUCTION. The language of each and all paragraphs, terms and/or provisions of this Agreement shall, in all cases and for any and all purposes, and any and all circumstances whatsoever, be construed as a whole, according to its fair meaning, and not for or against any party hereto and with no regard whatsoever to the identity or status of any person or persons who drafted all or any portion of this Agreement.

21. GOVERNING LAW. This Agreement is entered into and shall be construed and interpreted in accordance with the laws of the State of California.

22. VENUE. Venue for any action brought by either party to this Agreement against the other to enforce the terms and conditions thereof shall be maintained in Stanislaus County, California, in the proper court having jurisdiction.

23. INVALID TERMS. If any terms, provision, covenant, or condition of this Agreement is held by a court of competent jurisdiction to be invalid, void or unenforceable, the rest of this Agreement shall remain in full force and effect, and shall in no way be affected, impaired or invalidated.

24. AMENDMENT. This Agreement, including any exhibits hereto, shall not be amended, except in writing and signed by the parties. Any amendment or addendum to this Agreement shall expressly refer to this Agreement.

25. ATTORNEY'S FEES. In the event that either party hereto shall commence any legal action or proceeding against the other by reason of the alleged failure of the

other to perform any term, covenant, or condition of this Lease Agreement by them to be performed or kept, the party prevailing in said action or proceeding shall be entitled to recover a reasonable attorney's fee to be fixed by the court, and such recovery shall include court costs and attorney's fee on appeal if any. As used herein, "the party prevailing" means the party in whose favor final judgment is rendered and "legal action or proceeding" includes arbitration.

26. TIME OF ESSENCE, BINDING UPON HEIRS, ETC. Time is of the essence of each and all the terms and provisions of this Lease Agreement and the terms and provisions of this Lease Agreement shall extend to and be binding upon and inure to the benefit of the heirs, executors, administrators, successors and assigns of the respective parties hereto.

27. NUMBER AND GENDER. All words used herein in the singular number shall include the plural and the present tense, shall include the future and the masculine gender, and shall include the feminine and neuter.

IN WITNESS WHEREOF, the City of Modesto, a municipal corporation, has authorized the execution of this Lease Agreement in duplicate by its City Manager and attestation by its City Clerk under authority of Resolution No. _____ adopted by the Council of the City of Modesto on the _____ day of _____, 2003, and LESSEE has caused this Lease Agreement to be executed.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-631**

A RESOLUTION AUTHORIZING THE CITY MANAGER TO APPROVE AND EXECUTE DOCUMENTS FOR THE FOLLOWING LOANS INITIATED BY THE PARKS, RECREATION AND NEIGHBORHOODS DEPARTMENT: DOWN PAYMENT ASSISTANCE PROGRAM (DPAP) LOANS NOT TO EXCEED THE PROGRAM MAXIMUM, CURRENTLY \$60,000; EMERGENCY HOME REPAIR PROGRAM (EHRP)/DISABLED ACCESS ASSISTANCE PROGRAM (DAAP) LOANS NOT TO EXCEED THE PROGRAM MAXIMUM, CURRENTLY \$15,000 FOR EHRP, \$10,000 FOR DAAP, AND MAXIMUM OF \$25,000 FOR COMBINED EHRP/DAAP; AND HOUSING MAINTENANCE PROGRAM LOANS NOT TO EXCEED \$60,000

WHEREAS, in 1996, by Resolution No. 1996-88, the City Council authorized the City Manager to modify and execute loan documents for participants of the City's rehabilitation programs receiving financial assistance through the Housing and Neighborhoods Services Division, and

WHEREAS, these loans would typically consist of either an Emergency Home Repair/Disabled Access Loan or a Housing Maintenance Program Loan, and

WHEREAS, on November 27, 2001, by Resolution No. 2001-606, the City Council authorized new program criteria for the Down Payment Assistance Program (DPAP) and authorized the Housing Rehabilitation Loan Committee (HRLC) to approve the loans issued under this program and any other housing rehabilitation loans up to \$25,000, and

WHEREAS, all loans over \$25,000 currently require City Council approval, and

WHEREAS, on October 7, 2003, by Resolution No. 2003-529, the City Council authorized modification to the DPAP guidelines and increased the loan amount to a maximum of \$60,000, and

WHEREAS, in order to proceed in an effective manner, staff recommends that, following approval of the HRLC, the City Manager be authorized to approve and execute Down Payment Assistance Program (DPAP) loans up to the program maximum, currently \$60,000, and

WHEREAS, in order to proceed in an effective manner, staff recommends that, following approval of the HRLC, the City Manager be authorized to approve and execute Emergency Home Repair Program (EHRP)/Disabled Access Assistance Program (DAAP) loans up to the program maximum, currently \$15,000 for EHRP, \$10,000 for DAAP, and \$25,000 maximum for combined EHRP/DAAP, and

WHEREAS, in order to proceed in an effective manner, staff recommends that, following approval of the HRLC, the City Manager be authorized to approve and execute Housing Maintenance Program loans up to \$60,000, and

WHEREAS, any loans outside of those loans specified above would receive approval from the appropriate established committee and then proceed to City Council for authorization and approval, and

WHEREAS, at its November 6, 2003, meeting, the Housing Rehabilitation Loan Committee discussed and recommended approval of this item,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby authorizes the City Manager to approve and execute documents for the following loans initiated by the Parks, Recreation and Neighborhoods Department: Down Payment Assistance Program (DPAP) loans not to exceed the program maximum, currently \$60,000; Emergency Home Repair Program (EHRP)/Disabled Access Assistance Program (DAAP) loans not to exceed the program

maximum, currently \$15,000 for EHRP, \$10,000 for DAAP, and maximum of \$25,000 for combined EHRP/DAAP; and Housing Maintenance Program loans not to exceed \$60,000

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of December, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2004-632**

RESOLUTION AUTHORIZING THE CITY MANAGER (1) TO EXECUTE A LETTER OF INTENT FOR A LOAN AGREEMENT BETWEEN THE CITY OF MODESTO AND THE STANISLAUS COUNCIL OF GOVERNMENTS FOR WIDENING OF STATE ROUTE 132; (2) TO EXECUTE A LOAN AGREEMENT WITH STANCOG AND TO REMIT FUNDS PER THE AGREEMENT AFTER STANCOG HAS COMPLETED ALL CONDITIONS TO THE AGREEMENT TO THE SATISFACTION OF THE CITY MANAGER, AND (3) TO AMEND THE FISCAL YEAR 2003-2004 OPERATIONS BUDGET TO INCLUDE ORGANIZATION 05210-430-4382 "SR132 STANCOG LOAN."

WHEREAS, under California Government Code Section 14529.7, StanCOG may enter into an agreement with the California Transportation Commission (CTC) to use local funds to implement a State Transportation Implementation Program (STIP) project at an earlier date than it has been programmed by the State and to receive a later reimbursement from STIP funds; and

WHEREAS, StanCOG proposes to widen State Route 132 (SR 132) to a uniform four lanes from Frazine Road and Codoni Road in the east to Riverside drive in the west including:

- A median divider designed and equipped for future landscaping;
- Intersection and pedestrian safety improvements;
- Sidewalk installation on the north side of road;
- Storm drainage improvements; and
- A continuous bicycle lane; and

WHEREAS, the completion of this project will significantly improve overall traffic flow in the State Route 132/Beard Industrial Tract Area, facilitate up to 15,000 daily truck trips, stimulate jobs and economic development, and ease congestion on adjacent roadways; and

WHEREAS, the Council has identified this project as an important transportation

project within the City's General Plan Sphere of Influence; and

WHEREAS, insufficient STIP funds are available to implement the project on schedule resulting in a potential delay of the project; and

WHEREAS, StanCOG has requested that the City of Modesto, the Economic Development Bank, the Beard Land Improvement Company, and StanCOG Regional Surface Transportation Program to loan funds to implement the project on schedule under the provisions of Government Code Section 14529.7 according to the following formula:

Stanislaus allocation of Federal Regional Funds (RSTP) (\$75,000 loan, and \$140,000 grant)	\$ 215,000
Stanislaus County Economic Development Bank Loan	\$ 420,000
City of Modesto Loan	\$ 400,000
<u>Loans from the Private Stakeholders in the area</u>	<u>\$ 520,000</u>
TOTAL	\$ 1,555,000

WHEREAS, StanCOG agrees to repay the \$400,000 loan on or before July 1, 2007, using State funds with only those limitations consistent with Public Utility Code Section 99402. No interest will be charged to StanCOG if the loan is repaid on or before July 1, 2007. In the unlikely circumstance that StanCOG does not repay the loan on or before July 1, 2007, the loan will convert to a 4% APR, compounded interest-bearing loan, beginning July 1, 2007 until the loan is repaid.

WHEREAS, All reimbursements to the City or to other parties of the SR132 Loan Package made by StanCOG or any project overrun costs incurred by StanCOG will not decrease the City's state or federal apportionment from any funding source that it would otherwise received in any year.

WHEREAS, the conditions that shall be met to the satisfaction of the City Manager before a loan agreement shall be executed between StanCOG and the City are as follows:

1. StanCOG has negotiated loan agreements or grant awards for a total \$1,555,000 with all participating parties of the funding package. These agreements should commit the respective parties to a specific scheduled payment of funds acceptable to the City.
2. The CTC has approved the required STIP amendment for reimbursement of the loan.
3. StanCOG and Caltrans have executed the required Government Code Section 14529.7 reimbursement agreement for the SR132 Widening Project subject to the terms of the cooperative agreement, which includes the provisions of AB3090 agreement.
4. StanCOG Board has approved the City's annual and supplemental non-transit Local Transportation Fund claim for fiscal year 2003-2004 and the City has received payment of the supplemental claim.

WHEREAS, The City will transmit funds to StanCOG after all loan agreements for the total of \$1,555,000 have been executed and StanCOG has provided the City a complete set of the executed agreements.

NOW, THEREFORE, LET IT BE RESOLVED, that the City Council of Modesto authorizes the City Manager to execute a letter of intent to make a loan agreement with StanCOG; and

BE IT FURTHER RESOLVED that after the conditions of the letter of intent have been satisfied, the City Manager is hereby instructed to return to Council for authority to execute a loan agreement with StanCOG.

BE IT FURTHER RESOLVED, that the City Council authorizes the City Manager to amend the fiscal year 2003-2004 Operation Budget to include organization 0510-430-4382 SR132 STANCOG LOAN with the expense appropriation of \$400,000 in 0510-430-4382-0497 and revenue funding from the fiscal year 2003-2004 supplemental non-transit local Transportation Fund.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 2nd day of December, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-633**

A RESOLUTION APPROVING AN AMENDMENT TO THE CONTRACT FOR AUDIT SERVICES WITH VAVRINEK, TRINE, DAY & CO. FOR THE COMMUNITY FACILITIES DISTRICTS AUDITS AT A COST NOT TO EXCEED \$20,972, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE CONTRACT AMENDMENT.

WHEREAS, at its October 22, 2002, meeting the Modesto City Council adopted Resolution 2002-521 approving execution of a contract with Vavrinek, Trine, Day & Co. to perform audits of the City of Modesto Community Facilities Districts, and

WHEREAS, the City Manager executed said contract on behalf of the City of Modesto, and

WHEREAS, the audit firm has requested approval to perform additional work that is outside the scope of the original contract, at a price not to exceed \$20,972, and

WHEREAS, the contract for these audit services requires Modesto City Council approval for such additional work, and

WHEREAS, at its November 24, 2003, meeting the Audit Committee recommended that the Council approve payment for the additional work,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves an amendment to the contract for audit services with Vavrinek, Trine, Day & Co., for the Community Facilities Districts audits, authorizing the additional work proposed, at a cost not to exceed \$20,972,

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute said contract amendment.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of December, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-634**

A RESOLUTION APPROVING AND ADOPTING THE WATER SUPPLY ASSESSMENT (WSA) PREPARED FOR THE PROPOSED KANSAS-WOODLAND BUSINESS PARK, LOCATED BETWEEN WOODLAND AVENUE, KANSAS AVENUE, SR 99 AND 9TH STREET, WHICH HAS DETERMINED THAT AN ADEQUATE SUPPLY OF WATER IS AVAILABLE TO MEET THE DEMANDS OF THE PROPOSED PROJECT

WHEREAS, Senate Bill 610 (SB 610) requires water suppliers to conduct Water Supply Assessment (WSA) studies for projects meeting the legislative criteria to determine if a sufficient water supply is available to meet the demands of the project, and requires the governing legislative body to approve and adopt such assessments, and

WHEREAS, the City of Modesto received a request to conduct a WSA for the proposed approval of Kansas-Woodland Business Park ("Project"), and

WHEREAS, Engineering and Transportation staff completed a WSA for the Project, and

WHEREAS, a determination was made that an adequate water supply is available to meet the demands of the proposed Project, located between Woodland Avenue, Kansas Avenue, SR 99 and 9th Street, and

WHEREAS, this item was discussed at the Economic Development Committee meeting on December 8, 2003, and a favorable recommendation was made to forward the WSA to the Council for approval and adoption,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Water Supply Assessment for the proposed Kansas-Woodland Business Park is hereby approved and adopted. It is further determined that an adequate water supply is available to meet the demands of the proposed Kansas-Woodland Business Park, and that the WSA for the proposed Kansas-Woodland Business Park provides substantial evidence to support this determination.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of December, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-635**

A RESOLUTION APPROVING AND ADOPTING THE WATER SUPPLY ASSESSMENT (WSA) PREPARED FOR THE PROPOSED KAISER PERMANENTE MODESTO MEDICAL CENTER, LOCATED ON DALE ROAD AT THE CORNER OF BANGS AVENUE, WHICH HAS DETERMINED THAT AN ADEQUATE SUPPLY OF WATER IS AVAILABLE TO MEET THE DEMANDS OF THE PROPOSED PROJECT

WHEREAS, Senate Bill 610 (SB 610) requires water suppliers to conduct Water Supply Assessment (WSA) studies for projects meeting the legislative criteria to determine if a sufficient water supply is available to meet the demands of the project, and requires the governing legislative body to approve and adopt such assessments, and

WHEREAS, the City of Modesto received a request to conduct a WSA for the proposed approval of the Kaiser Permanente Modesto Medical Center (“Project”), and

WHEREAS, Engineering and Transportation staff completed a WSA for the Project, and

WHEREAS, a determination was made that an adequate water supply is available to meet the demands of the proposed Project, located on Dale Road at the corner of Bangs Avenue, and

WHEREAS, this item was discussed at the Economic Development Committee meeting on December 8, 2003, and a favorable recommendation was made to forward the WSA to the Council for approval and adoption,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Water Supply Assessment for the proposed Kaiser Permanente Modesto Medical Center is hereby approved and adopted. It is further determined that an adequate water supply is available to meet the demands of the proposed Kaiser Permanente Modesto Medical Center, and that the WSA for the proposed Kaiser Permanente Modesto Medical Center provides substantial evidence to support this determination.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of December, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

**A RESOLUTION APPROVING AN UPDATE TO THE DISADVANTAGED
BUSINESS ENTERPRISE (DBE) PROGRAM FOR FEDERALLY FUNDED
STREET AND TRANSIT PROJECTS**

WHEREAS, the Federal Government has adopted Federal Regulation 49 CFR Part 26, which mandates that the City adopt a DBE Program to be eligible to receive federal highway and transit funds, and

WHEREAS, Caltrans has tentatively approved the draft City of Modesto DBE Program for federally funded streets projects, contingent upon Council adopting the program, and

WHEREAS, the recommended overall goal for Modesto in the upcoming year is six percent (6%) DBE participation, and

WHEREAS, the City of Modesto has requested public comments regarding the DBE Program, and none were received, and

WHEREAS, at its December 8, 2003, meeting the Economic Development Committee recommended approval of the DBE Program,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the City of Modesto DBE Program for federally funded streets and transit projects is hereby adopted.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of December, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-637**

A RESOLUTION APPROVING AMENDMENT NO. 17 TO THE AGREEMENT FOR KANSAS NEEDHAM OVERHEAD CONSTRUCTION SUPPORT SERVICES WITH PARSONS TRANSPORTATION GROUP IN THE AMOUNT OF \$62,121.38 AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AMENDMENT

WHEREAS, by Resolution No. 88-750, the original Agreement for Engineering Services with Parsons Transportation Group (formerly known as De Leuw, Cather & Company) for the Ninth Street Railroad Relocation Project was approved by Council on October 4, 1988, and

WHEREAS, the initial agreement and seven subsequent amendments were for studies and applications for grants, and

WHEREAS, Amendment Nos. 9, 10, 11, & 12 began the actual design and property research, and

WHEREAS, Amendment No. 12 funded the re-design efforts after Caltrans approved the Kansas Needham Highway 132 realignment project, and

WHEREAS, Amendment No. 13 funded the aesthetic treatments of the Kansas-Needham Overhead, intersection changes to College-Needham, and construction support services, and

WHEREAS, Amendment No. 14 funded an expanded scope of services to address additional design changes and project delays, and

WHEREAS, Amendment No. 15 funded construction support services for the Pacbell retaining wall, resolved submittal issues and errors, and

WHEREAS, Amendment No. 16 continued to fund construction support services to 80 percent project completion, and

WHEREAS, Amendment No. 17 provides further funding for Parsons Transportation Group to resolve construction conflicts and contractor errors to complete the construction of the Kansas Needham Overhead,

NOW, THEREFORE BE IT RESOLVED by the Council of the City of Modesto that Amendment No. 17 to an agreement between the City of Modesto and the Parsons Transportation Group for continued engineering services for the 9th Street Railroad Relocation project (Kansas Needham Overhead) be, and it is hereby approved.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the City Manager, or his designee, is hereby authorized to execute said amendment.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of December, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-638**

**A RESOLUTION APPROVING A THIRD AMENDMENT TO AGREEMENT
WITH DOKKEN ENGINEERING FOR PROFESSIONAL DESIGN SERVICES
FOR REPLACEMENT OF THE 9TH STREET BRIDGE OVER TUOLUMNE
RIVER TO PROVIDE UPDATE OF HOURLY BILLING RATES AND
AUTHORIZING THE CITY MANAGER TO EXECUTE SAID AMENDMENT
TO AGREEMENT**

WHEREAS, on April 13, 1999, the City of Modesto and Dokken Engineering (CONSULTANT) entered into an Agreement for design services for REPLACEMENT OF THE 9TH STREET BRIDGE OVER TUOLUMNE RIVER, and

WHEREAS, on November 7, 2003, CONSULTANT submitted to the City of Modesto a request for an amendment to the original agreement so as to revise personnel hourly billing rates for the construction support phase of the 9th Street Bridge Replacement project, and

WHEREAS, CONSULTANT'S request for an amendment states an amendment is required due to changes in CONSULTANT's overhead rate and staff assigned to the project, and

WHEREAS, the basis for CONSULTANT's request for an amendment is that the original hourly billing rates were negotiated in April 1999, more than four (4) years ago, and

WHEREAS, the Third Amendment to Agreement for Consultant Services will not increase the amount of the original contract,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a Third Amendment to Agreement for Consultant Services with Dokken Engineering to provide for update of hourly billing rates.

BE IT FURTHER RESOLVED that the execution of said amendment by the City Manager or his authorized designee is hereby approved.

MODESTO CITY COUNCIL
RESOLUTION NO. 2003-639

A RESOLUTION AUTHORIZING STAFF TO PROCEED WITH A REQUEST FOR QUALIFICATIONS AND REQUEST FOR PROPOSALS AND APPROVING THE PROPOSED EVALUATION CRITERIA FOR THE DESIGN OF A DISSOLVED AIR FLOTATION CLARIFIER AT THE WASTEWATER TREATMENT FACILITY

WHEREAS, Wastewater is treated at two locations in the City of Modesto, and

WHEREAS, the City has a state permit to discharge treated wastewater into the San Joaquin River starting October 1 of each year, and

WHEREAS, the treated wastewater has a solids concentration above the state limit and little or no discharge actually occurs in October and November, and

WHEREAS, a reduction of algae solids will allow discharge during these two months, and

WHEREAS, the Operations & Maintenance Department is requesting the engineering design and construction of a Dissolved Air Flotation Clarifier (DAF) to remove algae solids, and

WHEREAS, City desires to hire an engineering firm specializing in sanitary engineering to design the DAF facility, and

WHEREAS, the Engineering & Transportation Department will assist in developing a Request for Qualifications (RFQ) and a Request for Proposals (RFP), and

WHEREAS, City staff will follow Consultant selection procedures and proposed evaluation criteria as set forth in the RFQ, **Attachment "A"**, and the RFP, **Attachment "B"**, attached hereto, and incorporated by reference, and

WHEREAS, the DAF RFQ/RFP process was approved at the November 10, 2003, Economic Development Committee meeting,

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto that it hereby approves the Consultant selection procedures and evaluation criteria for the design of a DAF.

BE IT FURTHER RESOLVED that City staff is hereby authorized to proceed with an RFQ and RFP for design of the DAF at the Wastewater Treatment Facility.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of December, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

Your Town, CA 12345

SUBJECT: Request for Qualifications for City of Modesto
Dissolved Air Flotation Facility

Dear Consultant:

The City of Modesto is soliciting qualifications from consultant engineers, specializing in sanitary engineering, for the preparation of contract documents for the construction of a Dissolved Air Flotation Facility. **If you wish to be considered for this work, please submit five (5) copies of the qualifications by 4:00 p.m. by XXXX, 2003 to:**

City of Modesto
Engineering and Transportation Department 4th Floor
1010 Tenth Street, Suite 4600
Modesto, CA 95354
Attention: Dean Phillips

Via Mail: P.O. Box 642, Modesto, CA 95353

Once the qualifications have been evaluated, request for proposals (RFPs) will be sent to the firms City staff have determined are the most qualified to perform the project. Following evaluation of the proposals, interviews will be conducted and the City will select a consultant.

The City will evaluate all qualifications submitted, but the Request for Qualifications does not commit the City of Modesto to award a contract, to pay for any costs incurred in preparation or presentation of a Statement of Qualifications, or to procure a contract for services. The selection considerations for evaluating the Statement of Qualifications is included in this RFQ following the Contents and Requirements section.

BACKGROUND:

Wastewater is treated at two locations in the City of Modesto. Primary treatment occurs at the Sutter Avenue facility and is pumped to the Secondary site on Jennings Road adjacent to the San Joaquin River. Once treated at both sites, the City has a state permit to discharge into the San Joaquin River starting October 1 of each year. However, the treated effluent has a solids concentration above the state limit, and little or no discharge has actually occurred in October and November. Reduction of algae solids in the wastewater storage ponds will allow discharge during these two months, and will represent an immediate increase in disposal capacity.

The Dissolved Air Flotation (DAF) clarifier is the technology chosen for this application. DAF clarifiers have been used effectively for well over a decade at several California wastewater treatment plants, including those at Sunnyvale, Stockton, and Rancho Murieta.

PLAN OF STUDY:

(A more detailed work plan will be included below in the final RFQ)

STATEMENT OF QUALIFICATIONS CONTENTS AND REQUIREMENTS:

Each proposal shall include the following information:

PROJECT MANAGER: The consultant's Project Manager is defined to be the individual within the prime consultant's firm who is directly responsible for and engaged in performing the required services. The Project Manager is the most knowledgeable individual regarding all aspects of the project but not necessarily a principal of the firm. The Project Manager should be located within two hours travel time of the project site.

Consultant is to provide the Project Manager's:

- Name and title, name of firm employed by, years of experience with this firm, and years of experience with other firms
- Education, degrees, specialization, year attained
- Active professional registration, in what state, year first registered, discipline
- Firm(s), office location, and time period for each location at which the individual worked during the last five (5) years to the present
- Representative experiences: For not more than five (5) projects, provide the following information on two pages. Include project(s) he/she is currently working on and schedule to which he/she is committed.
 - Owner (or client firm is subconsultant), project description (including size), location and completion date.
 - Name, address and phone number of knowledgeable owner/client's representative.

- Consultant services for which the individual was directly responsible; service/functions directly performed by individual (not just job title).
- Firm with which the individual was employed during project experience.

OTHER KEY PROJECT STAFF: Not more than four individuals may be listed. Provide for each individual:

- Name
- Specific project responsibility and functions to be performed
- Name of firm employed and office location where individual will perform required project services
- Years of experience with this firm and with other firms
- Education, degrees, specialization, year attained
- Active professional registration, in what state, year first registered, discipline
- Firm(s), office location, and time period for each location at which the individual worked during the last five (5) years to the present
- Representative experience (not more than five projects)
 - Owner, project description (including size), location and completion date.
 - Name, address and phone number of knowledgeable owner/client's representative.
 - Consultant services for which the individual was directly responsible; service/functions directly performed by individual (not just job title).
 - Firm with which the individual was employed during project experience.

FIRM(S) EXPERIENCE AND PRODUCTION CAPABILITIES: The following information is required for the prime consultant and any proposed subconsultant:

- Office address(s) in which services are to be performed and percentage of work to be performed in each office.
- Percentage of total fees in last five years, firm wide, received from similar service.
- Facilities, manpower and production capabilities of office(s) in which work is to be performed.
- Listing of recent experience related to this project in California, including type and size of consulting services provided and name, address, and phone number of knowledgeable owner/client representative.

FIRM LOCATION: City of Modesto Policy

It is the policy of the City of Modesto, when not prohibited by the funding source, that all other factors being equal, local firms whose qualifications are satisfactory and who have sufficient experience and capabilities for providing the necessary professional services shall normally be given priority in being considered for employment by the City. The location of any subconsultant firms proposed by the consultant will also be considered when applying this

policy. The funding source for this project does not prohibit the application of this policy in this case.

SELECTION CONSIDERATIONS:

Rating 1-5

A. EXPERIENCE:

1. Years of experience of firm and/or its principals as design professionals.
2. Broad character and scope of past projects.
3. Experience of proposed study team members in studies of similar magnitude, design requirements and complexity within past five years.
4. If experience is lacking, explanation by consultant as to why it should be selected over others with more experience.
5. History of repeat business with clients. Stipulate the number of previous architectural or engineering contracts with the City of Modesto.

B. ANALYSIS:

6. Originality, creativity, and soundness of approach to problem solving and analysis of design requirements.
7. Demonstrated management and organizational ability as relates to time management, scheduling, City staff/client relationships, etc., and the ability to meet deadlines.
8. Ability to execute complete, clear, and concise reports and produce a quality work product.

C. GENERAL:

9. Size of firm and available staff appropriate to study size.
10. Location of firm in relation to City of Modesto and project size.
11. General comprehension of the study assignment and responsiveness to special study requirements.
12. Demonstrated understanding of community social relationships such as citizen and environmental concerns, energy conservation, ecological and economic considerations.

SUBJECT: Request for Qualifications for City of Modesto
Dissolved Air Flotation Facility

December 11, 2003

Page 5

13. Firm reputation as relates to principles, credibility, and attitude.

ADDITIONAL INFORMATION:

Use up to 2 pages to provide any additional information supporting your firm's qualifications for the proposed project.

The proposal is expected to be clear and concise and respond to the requirements set forth in this Request for Proposals. Unnecessarily elaborate or glossy statements of qualifications are neither expected nor desired.

REPORT SCHEDULE:

The anticipated milestones for this report are as follows:

MILESTONE	DATE
Issue Request for Qualifications (RFQ's)	TBD
RFQ's Due	TBD
Select and Issue Request for Proposals (RFP's)	TBD
RFP's Due	TBD
Consultants Interviews	TBD
Award Contract	TBD

A selection committee will review the responses and determine the best-qualified consultant(s), which will be invited to respond to an RFP.

If you have any questions, please contact me at (209) 577-5215.

Sincerely,

Dean Phillips
Sr. Civil Engineer

1234 ABC Street, Suite 10000
Your Town, CA 12345

SUBJECT: Request for Proposals for City of Modesto
Dissolved Air Flotation Facility

Dear Consultant:

The City of Modesto is soliciting proposals from consultant engineers, specializing in sanitary engineering for the preparation of contract documents for the construction of a Dissolved Air Flotation Facility. Your firm has been selected to submit a proposal from those firms which submitted a statement of qualifications. **If you wish to be considered for this work, please submit five (5) copies of the proposals by 4:00 p.m. by XXXX, 2003 to:**

City of Modesto
Engineering and Transportation Department
4th Floor
1010 Tenth Street, Suite 4600
Modesto, CA 95354
Attention: Dean Phillips

Via Mail: P.O. Box 642, Modesto, CA 95353

Following evaluation of the proposals, interviews will be conducted and the City will select a consultant.

The City will evaluate all proposals submitted, but this Request for Proposals does not commit the City of Modesto to award a contract, to pay for any costs incurred in preparation or presentation of a Proposal, or to procure a contract for services. The selection considerations for evaluating the Proposal is included in this RFP following the Contents and Requirements section.

PROPOSAL CONTENTS AND REQUIREMENTS:

Each proposal shall include the following sections:

1. Scope of Services

The Scope of Services section shall include a description of the intended approach to complete the project study report. The consultant should specify data and the expected level of support from City staff and a description of the project deliverables.

2. Project Team and Experience

This section should include the size of the organization and a list of the consultant's principals, employees, agents, and subconsultants, which the proposer anticipates assigning to this project. This list shall include a summary of the qualifications, licenses, and experience of each individual, the type of work to be performed and availability of each individual.

Additionally, this section will include a list of the most recent projects for which the consultant has performed similar services of similar scope, size, and complexity. This list shall include the name, contact person, address, and phone number of each party for whom the service was provided, as well as a brief description of the service performed, the dollar amount of the contract, and the date the project was completed.

3. Project Schedule

The consultant shall provide a proposed schedule for all services necessary to complete the project specifying the major tasks, the expected time to complete each task, and the interdependency of the tasks.

4. Estimated Level of Effort

The consultant shall provide an estimate of staff time, by task presented in the project schedule. This section will not include any estimate of costs.

5. Proposed Compensation

The consultant shall provide, in a separately sealed and clearly marked envelope, the cost to be charged to the City by task and a total proposed project cost. The cost proposal shall identify the overall multiplier and include direct labor costs and expenses including travel and high-end computer use. Cost proposals will not be opened until after each firm interviewed has been ranked and the firm deemed most qualified has been selected. All cost proposals will then be opened and will form the basis of negotiations for the contract.

6. Contract

The successful firm will be asked to execute the City's standard agreement for consultant services. A copy is attached for reference. (Attachment X) The proposal shall note any exceptions to the standard contract that would prevent the consultant from executing the contract in its present form.

7. Insurance Certificate

A consultant providing a copy of its insurance certificate, or a letter of intent to provide insurance from the issuing company (including a description of types of coverage and dollar amount limits) may be favorably considered.

8. Resumes

Consultant shall provide resumes for each individual project team member.

The proposal is expected to be clear and concise and respond to the requirements set forth in this Request for Proposals. Unnecessarily elaborate or glossy proposals are neither expected nor desired.

PROJECT DESCRIPTION:

(A detailed project description will be included below in the final RFP)

FIRM LOCATION: City of Modesto Policy

It is the policy of the City of Modesto, when not prohibited by the funding source, that all other factors being equal, local firms whose qualifications are satisfactory and who have sufficient experience and capabilities for providing the necessary professional services shall normally be given priority in being considered for employment by the City. The location of any sub-consultant firms proposed by the consultant will also be considered when applying this policy.

SELECTION CONSIDERATIONS:

Rating 1-5

A. EXPERIENCE:

1. Years of experience of firm and/or its principals as design professionals.
2. Broad character and scope of past projects.

3. Experience of proposed study team members in studies of similar magnitude, design requirements and complexity within past five years.
4. If experience is lacking, explanation by consultant as to why it should be selected over others with more experience.
5. History of repeat business with clients. Stipulate the number of previous architectural or engineering contracts with the City of Modesto.

B. ANALYSIS:

6. Originality, creativity, and soundness of approach to problem solving and analysis of design requirements.
7. Demonstrated management and organizational ability as relates to time management, scheduling, City staff/client relationships, etc., and the ability to meet deadlines.
8. Ability to execute complete, clear, and concise reports and produce a quality work product.

C. GENERAL:

9. Size of firm and available staff appropriate to study size.
10. Location of firm in relation to City of Modesto and project size.
11. General comprehension of the study assignment and responsiveness to special study requirements.
12. Demonstrated understanding of community social relationships such as citizen and environmental concerns, energy conservation, ecological and economic considerations.
13. Firm reputation as relates to principles, credibility, and attitude.

AWARD OF AGREEMENT:

Negotiations will begin with the firm deemed most qualified. If agreement cannot be reached in negotiations, the City will begin negotiations with the firm that is judged to be next most qualified. If the City determines to award the agreement, a Professional Services Agreement shall be sent to the successful consultant for the consultant's signature. No proposal shall be binding upon the City until after the agreement has been signed by duly authorized representatives of both the consultant and the City. The City reserves the right to reject any or all proposals, and to waive any irregularity. The award of the agreement, if made by the City, will be based on a total review and analysis of each

proposal and interview. The consultant will be required to submit insurance verification as noted in the standard contract prior to execution of the contract.

CONFLICT OF INTEREST:

The City's Conflict of Interest Code requires that consultants file a Statement of Economic Interests, when the consultant provides information, advice, recommendations or counsel to the City. Before the City enters into a contract for services with the selected firm, the firm will be required to report economic interest on the following:

1. Real Property Interest (geographically limited)
2. Sources of Income
3. Business Positions
4. Business Investments

REPORT SCHEDULE:

The anticipated milestones for this report are as follows:

MILESTONE	DATE
Issue Request for Proposals (RFPs)	TBD
RFPs Due	TBD
Consultants Interviews	TBD
Award Contract	TBD

If you have any questions, please contact me at (209) 577-5260.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003 -640**

**A RESOLUTION APPROVING A SUPPLEMENTAL LEASE AGREEMENT
WITH THE GENERAL SERVICES ADMINISTRATION FOR OFFICE SPACE
AT THE MODESTO CITY-COUNTY AIRPORT AND AUTHORIZING THE
CITY MANAGER, OR HIS DESIGNEE, TO EXECUTE THE AGREEMENT ON
BEHALF OF THE CITY**

WHEREAS, the City of Modesto and the General Services Administration entered into a Lease Agreement on November 20, 2002, for office space at the Modesto City-County Airport, and

WHEREAS, said office space is being used by the Transportation Safety Administration to house its security staff serving the Modesto City-County Airport, and

WHEREAS, the General Services Administration foresees the need to extend its lease with the City of Modesto for a one year period, and

WHEREAS, the current lease and subsequent amendments provide for a lease period that expires February 28, 2004, and

WHEREAS, the General Services Administration has requested that the lease be extended to February 28, 2005, and

WHEREAS, Airport staff does not anticipate the need to use said office space during the one-year extension period requested.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves Supplemental Lease Agreement 5 to the General Services Administration Lease No. GS-09B-01257.

BE IT FURTHER RESOLVED that the City Manager or his authorized designee is authorized to execute the Supplemental Lease Agreement on behalf of the City.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of December, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-642**

**A RESOLUTION APPROVING AND AUTHORIZING SUBMISSION OF THE
LOCAL TRANSPORTATION FUND (LTF) CLAIM FOR FISCAL YEAR 2003-
2004, FOR NON-TRANSIT PURPOSES ONLY, TO THE STANISLAUS
COUNCIL OF GOVERNMENTS (STANCOG)**

WHEREAS, on May 27, 2003, the City Council approved the fiscal year 2003-2004 annual claim for Local Transportation Funds (LTF) for transit purposes only, and

WHEREAS, on February 12, 2003, the StanCOG pursuant to California State Public Utility Codes (PUC) Section 99401.6 determined that there are no unmet transit needs or that there are no unmet transit needs that are reasonable to meet, and

WHEREAS, the StanCOG has informed the Finance Department that it will allocate both the Annual and Supplemental LTF for use on local streets and roads pursuant to PUC Sections 99400 and 99233.11, and

WHEREAS, the StanCOG has informed the Finance Department that it has allocated both the Annual and Supplemental LTF for pedestrian and bicycle facilities uses pursuant to PUC Sections 99233.3 and 99234, and

WHEREAS, the StanCOG has informed the Finance Department that the City of Modesto may claim \$2,612,755 of Annual LTF for street purposes, and \$119,726 for pedestrian and bicycle projects, and

WHEREAS, the StanCOG has informed the Finance Department that the City of Modesto may claim \$424,270 of Supplemental LTF for street purposes, and \$8,020; for pedestrian and bicycle projects, and

WHEREAS, Council action authorizing the claim is required by StanCOG pursuant to PUC Section 99261 before LTF can be released to the City of Modesto,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves and authorizes the execution and submission of the claim for apportionment of the fiscal year 2003-2004 Annual and Supplemental LTF to StanCOG to obtain non-transit funds in the amount of \$3,164,771.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of December, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

(LTF).**

WHEREAS the Council of the City of Modesto had approved and authorized the execution and submission of the claim for apportionment of the fiscal year 2003-2004 Annual and Supplemental Local Transportation Funds (LTF) to StanCOG to obtain non-transit funds in the amount of \$3,164,771, and

WHEREAS, \$537,025 of the LTF street and 7,746 of the non-motorized funds were not obligated in the City's fiscal year 2003-2004 Operating and Capital Improvement Program Budgets, and

WHEREAS, these funds must be budgeted before they can be used for transportation projects or programs,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the fiscal year 2003-2004 Operating Budget is hereby amended as follows:

1. Increase the revenue budgeted in 0510-430-4310-1213 from \$2,500,000 to \$3,037,025, and
2. Increase the revenue budgeted in 0520-430-4320-1216 from \$120,000 to \$127,746.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of December, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-644**

**A RESOLUTION AUTHORIZING THE AWARD OF THE BID FOR THE
ONLINE FURNISHING OF BUSINESS CARDS, LETTERHEAD AND PRINTED
ENVELOPES TO PINNACLE SOLUTIONS INC., D.B.A. DITTOS, MODESTO,
CA FOR A THREE (3) YEAR AGREEMENT WITH TWO (2) ONE-YEAR
EXTENSION OPTIONS**

WHEREAS, in order to provide a more efficient, cost effective means for the City to purchase printed stationery, the Purchasing Division submitted a bid to prospective vendors for the furnishing of business cards, letterhead and printed envelopes through online ordering, and

WHEREAS, City departments and divisions shall have the ability to place orders directly online by means of an electronic account accessed by an electronic pass code, and

WHEREAS, the Purchasing Division will maintain the "City Wide" list of electronic accounts and pass codes, and

WHEREAS, online ordering will expedite the order process and, the requestor can review and confirm a color proof at order entry, thus reducing staff time by eliminating the need to fax or mail proofs, and

WHEREAS, in July 2003, Council approved Resolution No. 2003-410 authorizing the Purchasing Supervisor to formally solicit bids for the online furnishing of business cards, letterhead and printed envelopes "City Wide", and

WHEREAS, the Purchasing Division solicited Request for Bid No. 0203-35 for the online furnishing business cards, letterhead and printed envelopes, and

WHEREAS, eleven (11) vendors were solicited, plus the bid was posted on the City's web site. Of the eleven (11) vendors solicited, five (5) vendors chose to respond, and

WHEREAS, on September 23, 2003 bids were opened and recorded in the City Clerk's office, and

WHEREAS, based on being the lowest responsive and responsible bidder it is recommended by staff that the City award the bid for the online furnishing of business cards, letterhead and printed envelopes to Pinnacle Solutions Inc., d.b.a. Dittos, Modesto, CA for an estimated annual cost of \$9,102.18, for a three (3) year agreement with two (2) one-year extension options,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby awards the bid to Pinnacle Solutions Inc., d.b.a. Dittos, Modesto, CA., for the online furnishing of business cards, letterhead and printed envelopes for an estimated annual cost of \$9,102.18, for a three (3) year agreement with two (2) one-year extension options.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of December, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Marsh, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-645**

A RESOLUTION APPROVING A FIVE-YEAR LEASE AGREEMENT BETWEEN THE CITY OF MODESTO AND PACIFIC BELL WIRELESS, A NEVADA LIMITED LIABILITY CORPORATION, DBA CINGULAR WIRELESS, FOR A CELLULAR TOWER SITE LOCATED ON A PORTION OF BEYER COMMUNITY PARK, WITH THREE FIVE-YEAR OPTIONS TO EXTEND THE LEASE, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE LEASE AGREEMENT.

WHEREAS, Pacific Bell Wireless, a Nevada limited liability corporation, dba Cingular Wireless, desires to lease a cellular tower site located on a portion of Beyer Community Park with three five-year options to extend the lease, for the installation of phone equipment, and

WHEREAS, the City of Modesto is willing to lease a portion of Beyer Community Park to Cingular Wireless for said use for the sum of \$1,400.00 per month with a rental increase equal to the Consumer Price Index for the San Francisco/Oakland/San Jose MSA at the beginning of each renewal period, and

WHEREAS, Cingular Wireless is also willing to pay the City a lump sum of \$7,768.70 for the purpose of offsetting a portion of the cost of installation of scoreboards for the ball fields at Beyer Park,

NOW, THEREFORE, BE IT HEREBY RESOLVED by the Council of the City of Modesto that it hereby approves the Five-Year Lease Agreement between the City of Modesto and Pacific Bell for a cellular site located on a portion of Beyer Community Park, with three, five-year options to extend the lease.

BE IT FURTHER RESOLVED that the execution of said Lease Agreement by the City Manager, or his designee is hereby authorized.

RESOLUTION NO. 2003-646**

A RESOLUTION APPROVING A WAIVER OF THE RESIDENCY REQUIREMENT FOR COMMUNITY DEVELOPMENT BLOCK GRANT EMERGENCY HOME REPAIR LOANS TO ALLOW VIRGINIA BROWN, DAUGHTER OF DECEASED LOAN RECIPIENT VIRGIE BROWN TO REMAIN IN THE HOME AT 1626 CARLTON, AND DIRECTING STAFF TO SEND WRITTEN NOTIFICATION TO VIRGINIA BROWN THAT THE LOAN WILL BE REVIEWED IN 2009.

WHEREAS, in December, 1995, Virgie M. Brown received an Emergency Home Repair Loan for rehabilitation of her home at 1626 Carlton Avenue, and

WHEREAS, the loan is deferred until 2045, and

WHEREAS, a requirement of the loan is that the residence be owner-occupied, and

WHEREAS, staff recently learned that Virgie M. Brown is deceased, and

WHEREAS, her disabled adult daughter, Virginia Brown, continues to occupy the home, and is unable to pay off the loan, and

WHEREAS, staff has received a request from Stanislaus County Adult Protective Services (APS), requesting that Virginia Brown be allowed to remain in the home, and

WHEREAS, the Housing Rehabilitation Loan Committee met on, November 6, 2003, and supported the recommendation to allow Virginia Brown to remain in the home and that no legal action be taken,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Council hereby approves a waiver of the residency requirement for Community Development Block Grant Emergency Home Repair Loans to allow Virginia Brown, daughter of deceased loan recipient Virgie Brown to remain in the home at 1626 Carlton.

BE IT FURTHER RESOLVED that staff is hereby directed to send written notification to Virginia Brown that the loan will be reviewed in 2009.

RESOLUTION NO. 2003-651**

**A RESOLUTION AUTHORIZING STAFF TO RECONFIGURE TRAFFIC
FLOW FROM 9TH STREET TO ACCESS THE KANSAS NEEDHAM
OVERCROSSING (KNOC) PROJECT AND UPDATE THE EXISTING TRUCK
ROUTE MAP AND RESCINDING RESOLUTION NO. 2001-46**

WHEREAS, Section 3-2.1301(d) of the Modesto Municipal Code of the City of Modesto authorizes the Council to determine and designate truck routes by resolution, which designation shall become effective when appropriate signs are placed giving notice of said designations to the public, and

WHEREAS, by Resolution No. 75-465, adopted on April 14, 1975, the City Council designated truck routes in the City of Modesto, and

WHEREAS, by Resolution No. 90-795, adopted on September 25, 1990, the City Council designated truck routes in the City of Modesto, and

WHEREAS, by Resolution No. 2001-46, adopted on February 6, 2001, the City Council re-designated truck routes in the City of Modesto, and

WHEREAS, with the completion of the Kansas/Needham Overcrossing (KNOC), staff is recommending that City Council amend its current truck routes to include 10th and O Streets, and

WHEREAS, these changes are being recommended to enable traffic flow from 9th Street onto the new KNOC, and

WHEREAS, on June 5, 2003, staff mailed a letter to approximately 32 business owner/residents requesting feedback for the proposed truck route changes, and

WHEREAS, the Citizens Redevelopment Advisory Commission (RDA) Traffic sub-committee, ADK Permits, and Cal Permits have endorsed these new truck routes, and

WHEREAS, on July 17, 2003, staff met with the RDA Traffic Sub-committee and Steve Madison from Petrulakis, Jensen, Friedrich and Cabral to find alternative off-street parking to accommodate the Parks Printing employees, and

WHEREAS, the Economic Development Committee reviewed and approved of staff redesignating the truck routes and proceed with parking removal on 10th Street between O Street and Needham Avenue and O Street between 9th and 10th Streets, as requested, at their meeting on August 11, 2003, and

WHEREAS, staff presented this item to City Council on September 2, 2003 and staff was directed to meet with business owners and residents to find alternative parking for employees, and

WHEREAS, on December 3, 2003, staff met with Bud and Frank Parks from Parks Printing, Sheila Birch from The Carrot, and Barbara Savery from Petrulakis, Jensen, Friedrich & Cabral and they desired Alternative 3 which designates 10th Street one-way, from Needham to O Streets, southbound direction, and O Street one-way, from 10th to 9th Street, westbound direction, and

WHEREAS, the Economic Development Committee at their December 8, 2003 meeting, reviewed and approved staff's recommendation of Alternative 3,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes staff to proceed with Alternative 3 which designates 10th Street one-way, from Needham to O Streets, southbound direction, and O Street one-way, from 10th to 9th Streets, westbound direction and to update the truck route map, as follows:

SECTION 1: Truck routes are hereby designated as shown on the maps entitled, "Modesto Truck Routes".

SECTION 2. The Engineering and Transportation Director is hereby directed to cause the truck routes to be marked and designated in accordance with the provisions of this resolution.

SECTION 3. The provisions of this resolution shall be subject to the provisions of Section 3-2.815 of the Modesto Municipal Code requiring the approval of the Caltrans insofar as they pertain to the regulations of traffic upon State highways within the City.

SECTION 4. Resolution No. 2001-46 adopted by the Council on February 6, 2001, is hereby rescinded.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of December, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

PROPOSED
MODESTO TRUCK ROUTES

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-652**

A RESOLUTION APPROVING THE REQUEST FROM HABITAT FOR HUMANITY FOR A DEFERRAL OF THE CITY'S CAPITAL FACILITIES FEES (CFF) TOTALING \$44,955 FOR FIVE PROPERTIES IN RIVERDALE TRACT FOR LOW-INCOME HOUSEHOLDS, LOCATED OUTSIDE OF THE MODESTO CITY LIMITS, BUT WITHIN THE CITY'S SPHERE OF INFLUENCE, AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE FIVE (5) EXEMPTION/DEFERRAL AGREEMENTS WITH HABITAT FOR HUMANITY AND TO EXECUTE DEFERRAL OR EXEMPTION AGREEMENTS WITH THE NEW PROPERTY OWNERS, AS THE HOMES ARE SOLD TO HOUSEHOLDS WITH INCOME LESS THAN 80% OF THE MEDIAN AREA INCOME.

WHEREAS, on September 11, 2003, Anita Hellam, Executive Director of the Habitat for Humanity local chapter, submitted a letter requesting a waiver of the CFF fees totaling \$44,955 for five properties located in the Riverdale Tract, and

WHEREAS, Habitat for Humanity is a non-profit organization created in 1976 which through volunteer labor and donations of money and materials builds and rehabilitates simple, decent houses with the help of the homeowner (partner) families, and

WHEREAS, Habitat for Humanity's houses are sold to partner families at no profit, financed with affordable, no-interest loans with the loan payments based on what is affordable to the families, and the homeowners' monthly mortgage payments are used to build more houses by Habitat for Humanity, and

WHEREAS, in essence, Habitat for Humanity creates affordable houses for low-income households, and

WHEREAS, The Stanislaus Chapter of Habitat for Humanity will be building five new homes in the Riverdale Tract which is located outside the City limits but within the

City's Sphere of Influence; this area is located near Hatch and Carpenter, and is in a housing area adjacent to the Tuolumne River, and

WHEREAS, the empty lots are currently owned by Habitat for Humanity and the houses to be built will be approximately 1,100 square feet with an attached one-car garage, and will be elevated above the flood plain, and

WHEREAS, the new homeowners will either be eligible for an exemption or deferral of CFF based on household income and family size, and

WHEREAS, the CFF Steering Committee reviewed and supported this item at its meeting of October 9, 2003, and

WHEREAS, a duly noticed public hearing was held by the City Council on December 11, 2003, at 5:30 p.m., in the Tenth Street Place Chambers, located at 1010 Tenth Street, to consider approval of a deferral of the City of Modesto's Capital Facility Fees totaling \$44,955 for five properties in the Riverdale Tract for low-income households, located outside of the Modesto City Limits, but within the City's Sphere of Influence,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the request from Habitat for Humanity for an exemption of the City's Capital Facilities Fees (CFF) totaling \$44,955 for five properties in the Riverdale Tract for low-income households, located outside of the Modesto City Limits, but within the City's Sphere of Influence.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute the five (5) exemption/deferral agreements with Habitat for Humanity.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute deferral or exemption agreements with the new property owners, as the homes are sold to households with income less than 80% of the Median Area Income.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of December, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-653**

A RESOLUTION APPROVING A REFUND TO HABITAT FOR HUMANITY FOR \$3,831 PAID FOR CAPITAL FACILITIES FEES (CFF) ON TWO PROPERTIES (1714 OLYMPIA STREET AND 530 BUTTE AVENUE) LOCATED OUTSIDE OF THE CITY LIMITS, BUT WITHIN THE SPHERE OF INFLUENCE, AUTHORIZING THE CITY MANAGER TO EXECUTE A REFUND AGREEMENT WITH HABITAT FOR HUMANITY, A CFF DEFERRAL AGREEMENT WITH ANASTACIO L. AND TINA R. RAYGOZA FOR 1714 OLYMPIA STREET, AND A CFF EXEMPTION AGREEMENT WITH FERNANDO AND ANALUCIA V. CORTES FOR 530 BUTTE AVENUE.

WHEREAS, on September 11, 2003, Anita Hellam, Executive Director of the Habitat for Humanity local chapter, submitted a letter requesting a refund for CFF fees already paid on two properties on Olympia Avenue and Butte Street, and

WHEREAS, Habitat for Humanity is currently building homes at 1714 Olympia Street and 530 Butte Avenue, and

WHEREAS, both properties are in the County, but within the City's Sphere of Influence, and

WHEREAS, at the time the permits were issued, the City charged CFF in the amount of \$1,834 for 1714 Olympia Street, and \$1,997 for 530 Butte Avenue, and

WHEREAS, the Building Inspection Division was not aware that there had been residences on these properties previously which were built in the 1940's and demolished in 1979 and 1998 respectively, and

WHEREAS, the CFF fees paid by Habitat for Humanity for the Olympia and Butte properties in the total amount of \$3,831 should not have been charged per City Council Resolution 2001-124 because there had been homes on the property previous to 1989, and

WHEREAS, at its meeting on October 9, 2003, the CFF Steering Committee reviewed and supported this item, and

WHEREAS, a duly noticed public hearing was held by the City Council on December 11, 2003, at 5:30 p.m., in the Tenth Street Place Chambers, located at 1010 Tenth Street, to consider approval of a refund to Habitat for Humanity for \$3,831 paid in error for Capital Facilities Fees on two properties at 1714 Olympia Street and 530 Butte Avenue; and to consider approval of a CFF deferral agreement with Anastacio L. and Tina R. Raygoza for 1714 Olympia Street, and approval of a CFF exemption agreement with Fernando and Analucia V. Cortes for 530 Butte Avenue,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves a refund to Habitat for Humanity for \$3,831 paid in error for Capital Facilities Fees on two properties at 1714 Olympia Street and 530 Butte Avenue located outside of the City Limits, but within the Sphere of Influence.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute a refund agreement with Habitat for Humanity.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute a CFF deferral agreement with Anastacio L. and Tina R. Raygoza for 1714 Olympia Street.

BE IT FURTHER RESOLVED that the City Manager, or his designee, is hereby authorized to execute a CFF exemption agreement with Fernando and Analucia V. Cortes for 530 Butte Avenue.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of December, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

MODESTO 2003-2004 HUD ANNUAL ACTION PLAN.**

WHEREAS, the City of Modesto receives several Federal grants from the United States Department of Housing and Urban Development (HUD), and

WHEREAS, the City Council, at its May 13, 2003, meeting approved the adoption of the 2003-2004 Annual Action Plan, and

WHEREAS, City staff has proposed amendments to the Annual Action Plan, and said proposed amendments are as set forth in Exhibit "A" attached hereto and incorporated herein by reference, and

WHEREAS, notice has been duly given to notify the community of proposed amendments to the Annual Action Plan, and to provide a 30-day comment period, which began November 10, 2003, and ended on December 11, 2003, and

WHEREAS, the Citizens Housing and Community Development Committee (CH&CDC) considered the proposed changes to the Annual Action Plan at its November 21, 2003, and December 1, 2003, meetings, and the Committee recommended that the City Council approve amendments to the Annual Action Plan as proposed by staff as well as budgetary adjustments as recommended by staff, and

WHEREAS, a duly noticed public hearing was held by the City Council on December 11, 2003, at 5:30 p.m., in the Tenth Street Place Chambers, located at 1010 Tenth Street, to consider approval of the proposed amendments to the 2003-2004 Annual Action Plan,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Amendment to the 2003-2004 Annual Action Plan as presented to the Council is hereby approved, a copy of said Amendment to the 2003-2004 Annual Action Plan is attached hereto as Exhibit "A" and incorporated herein by reference.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the City Manager or his authorized designee is hereby authorized to execute any documents with respect to the Amendment to be submitted to the Regional HUD office.

BE IT FURTHER RESOLVED that any and all documents necessary to implement the Action Plan shall require further Council approval.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-655**

**A RESOLUTION AMENDING THE FISCAL YEAR 2003-2004 ANNUAL
OPERATING BUDGET TO REFLECT APPROVED CHANGES TO THE HUD
ANNUAL ACTION PLAN.**

WHEREAS, the City of Modesto receives several Federal grants from the United States Department of Housing and Urban Development (HUD), and

WHEREAS, the City Council, at its May 13, 2003, meeting approved the adoption of the 2003-2004 Annual Action Plan, and

WHEREAS, since adoption of the Annual Action Plan, staff has determined that changes should be made to programs and services provided to better meet the needs of the citizens of Modesto, and

WHEREAS, these program changes require re-allocation of operating budget funds, and

WHEREAS, re-allocation of these funds is more fully described on **Exhibit "A"**, attached hereto and incorporated by reference, and

WHEREAS, the Citizens Housing and Community Development Committee (CH&CDC) considered the proposed changes to the Annual Action Plan at its November 21, 2003, and December 1, 2003, meetings, and the Committee recommended that the City Council approve amendments to the Annual Action Plan as proposed by staff as well as budgetary adjustments as recommended by staff, and

WHEREAS, a duly noticed public hearing was held by the City Council on December 11, 2003, at 5:30 p.m., in the Tenth Street Place Chambers, located at 1010

Tenth Street, to consider approval of the proposed amendments to the 2003-2004 Annual Action Plan,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Fiscal Year 2003-2004 Annual Operating Budget is hereby amended to reallocate the Community Development Block Grant (CDBG), HOME Investment Partnership Grant (HOME) and Emergency Shelter Grant (ESG) as indicated on Exhibit "A" attached hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED that the Finance Director is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of December, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Frohman, Hawn, Jackman, Marsh,
Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: Keating, O'Bryant

FY03-04 Operating Budget Adjustments for the HUD Annual Action Plan

1)	Appropriation	Salary & Wages, Part-time	1130	320	3252	0140	3250A	\$41,600	-\$10,400	\$31,200
	Appropriation	Benefits Adjustment	1130	320	3252	0191	3250A	\$8,000	-\$2,086	\$5,914
	Appropriation	Printing and Binding	1130	320	3252	0205	3250C	\$3,500	-\$1,000	\$2,500
	Appropriation	Services, Professional & Other	1130	320	3252	0235	3250C	\$20,000	\$5,000	\$25,000
	Appropriation	Miscellaneous Services	1130	320	3252	0260	3250C	\$11,514	-\$11,514	\$0
									-\$20,000	
	Revenue	CDBG Entitlement	1130	320	3252	3513	na	\$650,320	-\$20,000	\$630,320
	Justification:	Adjustments reflect the budget for the Analysis of Impediments to Fair Housing, and a decrease in the amount of funding budgeted for administration of the CDBG Program, due to changes in staff functions brought on by the retirement of the Housing Programs Supervisor								
2)	Appropriation	Services City Forces	1130	320	3254	0255	3250C	\$251,873	\$3,000	\$254,873
	Appropriation	CDBG - Direct Grants	1130	320	3254	0496	3250C	\$468,500	\$68,573	\$537,073
	Appropriation	Direct Loans	1130	320	3254	0497	3250C	\$300,000	\$120,000	\$420,000
									\$191,573	
	Revenue	CDBG Entitlement	1130	320	3254	3513	na	\$1,301,251	\$191,573	\$1,492,824
	Justification:	Adjustments reflect an increase of \$3,000 for property agent, a net adjustment of 68,573 in public service activities and \$120,000 for Down Payment Assistance Program (DPAP).								
3)	Appropriation	Construction	1130	320	3212	6040	3250C	\$91,000	\$74,000	\$165,000
	Revenue	CDBG Carryover	1130	320	3212	3511	na	\$0	\$76,573	\$76,573
	Revenue	CDBG Entitlement	1130	320	3212	3513	na	\$143,920	-\$102,573	\$41,347
	Revenue	Direct Loan Principal (Program Income)	1130	320	3212	6301	na	\$0	\$100,000	\$100,000
									\$74,000	
	Justification:	Adjustments reflect an increase of \$109,000 for the ADA Improvements Curb Ramps CIP project. Amended project total amount is \$252,920.								
4)	Appropriation	Construction	1130	320	3221	6040	3250C	\$195,000	\$136,000	\$331,000
	Revenue	CDBG Carryover	1130	320	3221	3511	na	\$0	\$336,000	\$336,000
	Revenue	Direct Loan Principal (Program Income)	1130	320	3221	6301	na	\$300,000	-\$200,000	\$100,000
									\$136,000	
	Justification:	Adjustments reflect an increase of \$170,000 for the Street Paving in Low Income Areas CIP project. Amended project total amount is \$478,400								
		CDBG Total Appropriation						\$1,390,987	\$381,573	\$1,772,560
		CDBG Total Revenue						\$2,395,491	\$381,573	\$2,777,064
5)	Appropriation	Direct Loans	1170	320	3259	0497	3259C	\$1,035,068	\$1,236,640	\$2,271,708
	Revenue	HOME Carryover	1170	320	3259	3512	na	\$0	\$1,236,640	\$1,236,640
	Justification:	Adjustment reflect HOME carryover money from FY98-99 and FY99-00 of \$1,236,640 for Affordable Housing projects. Amended total amount is \$2,271,708.								
		HOME Total Appropriation						\$1,035,068	\$1,236,640	\$2,271,708
		HOME Total Revenue						\$0	\$1,236,640	\$1,236,640

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-656**

**A RESOLUTION AMENDING THE FISCAL YEAR 2003-2004 FUNDING FOR
THE CAPITAL IMPROVEMENT BUDGET TO REFLECT APPROVED
CHANGES TO THE HUD ANNUAL ACTION PLAN.**

WHEREAS, the City of Modesto receives several Federal grants from the United States Department of Housing and Urban Development (HUD), and

WHEREAS, the City Council, at its May 13, 2003, meeting approved the adoption of the 2003-2004 Annual Action Plan, and

WHEREAS, since adoption of the Annual Action Plan, staff has determined that additional revenue from prior years' carryover Community Development Block Grant (CDBG) program funds will be available for capital improvement projects, and

WHEREAS, staff recommends that the available funding be programmed for new and existing projects, and

WHEREAS, programming of these funds is more fully described on Exhibit "A", attached hereto and incorporated by reference, and

WHEREAS, the Citizens Housing and Community Development Committee (CH&CDC) considered the proposed changes to the Annual Action Plan at its November 21, 2003, and December 1, 2003, meetings, and the Committee recommended that the City Council approve the amendments to the Annual Action Plan as proposed by staff as well as budgetary adjustments as recommended by staff, and

WHEREAS, a duly noticed public hearing was held by the City Council on December 11, 2003, at 5:30 p.m., in the Tenth Street Place Chambers, located at 1010

Tenth Street, to consider approval of the proposed amendments to the 2003-2004 HUD Annual Action Plan,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Fiscal Year 2003-2004 funding for the Capital Improvement Plan Budgets are hereby amended to estimate new revenue, appropriate new expenses and reallocate HUD Funds as indicated on **Exhibit "A"** attached hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED that the Finance Director is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of December, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Frohman, Hawn, Jackman, Marsh,
Mayor Sabatino

NOES: Councilmembers: None

FY03-04 Capital Improvement Projects Budget Adjustments for the HUD Annual Action Plan

1)	Appropriation	Construction	6700	310	N440	6040	N440	\$223,000	\$50,000	\$273,000
	Revenue	Transfer in from Fund 1130	6700	700	N440	9113	na	\$307,000	\$50,000	\$357,000
	Appropriation	Transfer out to Fund 6700	1130	700	N440	7670	N440G	\$0	\$50,000	\$50,000
	Revenue	CDBG Carryover	1130	320	3254	3511	na	\$0	\$50,000	\$50,000
	Justification:	Increase funding of \$50,000 for construction of the elevator project at the Centre Plaza (N440). Amended project total amount is \$357,000.								
2)	Appropriation	Engineering/Design/Admin	2300	310	N992	6010	N992	\$41,750	\$20,000	\$61,750
	Appropriation	Construction	2300	310	N992	6040	N992	\$157,750	\$20,000	\$177,750
	Revenue	Transfer in from Fund 1130	2300	700	N992	9113	na	\$241,000	\$40,000	\$281,000
	Appropriation	Transfer out to Fund 2300	1130	700	N992	7230	N992G	\$0	\$40,000	\$40,000
	Revenue	CDBG Carryover	1130	320	3254	3511	na	\$0	\$40,000	\$40,000
	Justification:	Increase funding of \$40,000 for ADA improvements at eh King Kennedy Center (N992). Amended project total amount is \$281,000.								
3)	Appropriation	Construction	2300	310	Q245	6040	Q245	\$273,000	\$5,100	\$278,100
	Revenue	Transfer in from Fund 1130	2300	700	Q245	9113	na	\$372,000	\$5,100	\$377,100
	Appropriation	Transfer out to Fund 2300	1130	700	Q245	7230	Q245G	\$0	\$5,100	\$5,100
	Revenue	CDBG Carryover	1130	320	3254	3511	na	\$0	\$5,100	\$5,100
	Justification:	Increase funding of \$5,100 for street paving for the Hillside Drive - Orville Wright Park Project (Q245). Amended project total amount is \$397,100.								
4)	Appropriation	Construction	2300	310	Q240	6040	Q240	\$96,725	\$200,000	\$296,725
	Revenue	Transfer in from Fund 1130	2300	700	Q240	9113	na	\$0	\$200,000	\$200,000
	Appropriation	Transfer out to Fund 2300	1130	700	Q240	7230	Q240G	\$0	\$200,000	\$200,000
	Revenue	CDBG Carryover	1130	320	3254	3511	na	\$0	\$200,000	\$200,000
	Justification:	Increase funding of \$200,000 for street paving for the Conant/Rumble Side Walk Improvement Project (Q240). With funding of \$150,000 from an HUD Economic Development Initiative (EDI) Grant; the amended project total amount is \$350,000.								
5)	Appropriation	Engineering/Design/Admin	2300	310	Axxx	6010	Axxx	\$0	\$55,000	\$55,000
	Revenue	Transfer in from Fund 1130	2300	700	Axxx	9113	na	\$0	\$55,000	\$55,000
	Appropriation	Transfer out to Fund 2300	1130	700	Axxx	7230	Axxx	\$0	\$55,000	\$55,000
	Revenue	CDBG Carryover	1130	320	3254	3511	na	\$0	\$55,000	\$55,000
	Justification:	New CIP Project: Hillside Drive Improvement - Kerr Avenue to South Santa Cruz. The \$55,000 in funding will be used to develop the construction documents and associated environmental documentation to improve Hillside Drive from the intersection of Kerr Avenue to the intersection of South Santa Cruz. The improvements to this section of Hillside Drive will include street paving, curb, gutter, sidewalk, retaining walls, storm drainage, and post and cable barrier fence along the south side of the street. Future funding will provide for the construction of these planned improvements.

-----------------	-------------	------	--------	------	-----------------	----------	---------------------	------------------------	---------------------

FY03-04 Capital Improvement Projects Budget Adjustments for the HUD Annual Action Plan

6)	Appropriation	Engineering/Design/Admin	2300	310	Axxx	6010	Axxx	\$0	\$50,000	\$50,000
	Appropriation	Construction	2300	310	Axxx	6040	Axxx	\$0	\$255,752	\$255,752
	Revenue	Transfer in from Fund 1130	2300	700	Axxx	9113	na	\$0	\$305,752	\$305,752
	Appropriation	Transfer out to Fund 2300	1130	700	Axxx	7230	Axxx	\$0	\$305,752	\$305,752
	Revenue	CDBG Carryover	1130	320	3254	3511	na	\$0	\$305,752	\$305,752
	Justification:	New CIP Project: Social Security Building Retrofit.								
		Funds will be used to renovate the existing structure located at 12th and M Streets, if the City is the successful applicant for this surplus federal property. It is estimated that the building will need a new roof, upgrades to the electrical system, as well as renovations to the interior consistent with its proposed use. The proposed use is a centralized location for homeless adults, families and children to get access to needed resources. An example of the proposed services are: Mental Health Counseling and Referral, Housing Resources (motel vouchers, information on emergency, transitional and long term housing programs, housing counseling), Fair Housing Counseling, Referral to Food Banks and meal programs, Information and Referral on physical health care. Many current non-profits will be moving into this One-Stop Center.								
7)	Appropriation	Construction	1300	700	M163	6040	M163	\$1,117,680	\$166,485	\$1,284,165
	Appropriation	CDBG Contingency Reserve	1130	800	M163	8003	1130R		-\$166,485	
	Appropriation	Transfer out to Fund 1300	1130	700	M163	7130	M163G		-\$166,485	
	Revenue	Transfer in from Fund 1130	1300	700	M163	9113	na	\$121,515	\$166,485	\$288,000
	Justification:	Reallocate revenue and appropriation for the Neighborhood Center at Marshall Park (M163).								
		This project was reduced by \$166,485 upon receipt of the Jobs Housing Balance Grant from the State of California in October 2003. However, as stated in the HUD 2003-2004 Annual Action Plan Amendment, staff feel it would be most prudent to leave that funding in the project for the time being, until complete construction costs for the project are known.								
		CDBG Total Appropriation						\$695,500	\$655,852	\$790,600
		CDBG Total Revenue						\$920,000	\$655,852	\$1,015,100

**A RESOLUTION AMENDING THE FISCAL YEAR 2003-2004 ANNUAL
OPERATING BUDGET AND CAPITAL IMPROVEMENT BUDGET TO
REFLECT REVENUES AND APPROPRIATIONS AS ADOPTED.**

WHEREAS, the City of Modesto receives several Federal grants from the United States Department of Housing and Urban Development (HUD), and

WHEREAS, the City Council, at its May 13, 2003, meeting approved the adoption of the 2003-2004 Annual Action Plan, and

WHEREAS, since adoption of the Annual Action Plan, staff has determined that some adjustments need to be made in order to align the City's budget to the HUD financial system, and

WHEREAS, these changes are shown on **Exhibit "A"**, attached hereto and incorporated by reference,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the Fiscal Year 2003-2004 Annual Operating Budget and Capital Improvement Budget are hereby amended to reflect adjustments to the HUD fund as indicated on Exhibit "A" attached hereto and incorporated herein by reference.

BE IT FURTHER RESOLVED that the Finance Director is hereby authorized to take the necessary steps to implement the provisions of this resolution.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of December, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Frohman, Hawn, Jackman, Marsh,
Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: Keating, O'Bryant

Attest: Jean Zahr

	Justification:	Identify funding source to align with appropriation.								

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-658**

A RESOLUTION AUTHORIZING STAFF TO SOLICIT A REQUEST FOR PROPOSALS IN AN AMOUNT UP TO \$69,000 IN COMMUNITY DEVELOPMENT BLOCK GRANT (CDBG) FUNDS TO PROVIDE WINTER SHELTER FOR HOMELESS INDIVIDUALS AND FAMILIES.

WHEREAS, the City of Modesto receives several Federal grants from the United States Department of Housing and Urban Development (HUD), and

WHEREAS, these funds may be used to provide shelter for homeless individuals and families, and

WHEREAS, funding for this project in the amount of \$69,000 is included in the proposed amendments to the City's Annual Action Plan to be submitted to HUD, and

WHEREAS, the Citizens Housing and Community Development Committee (CH&CDC) considered the recommendation to solicit RFP's for emergency winter shelter for Homeless individuals and families at its December 1, 2003, meeting, and the Committee recommended that the City Council approve authorizing staff to solicit said RFP's, and

WHEREAS, by Resolution No. 2003-654, on December 11, 2003, the City Council approved the proposed amendments to the 2003-2004 Annual Action Plan, which include \$69,000 in funding for emergency winter shelter for homeless individuals and families,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby authorizes staff to solicit a Request for Proposals in an amount up to \$69,000 in Community Development Block Grant (CDBG) funds to provide winter shelter for homeless individuals and families.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of December, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Frohman, was upon roll call carried and the resolution adopted by the following vote:

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-659**

A RESOLUTION APPROVING A MITIGATED NEGATIVE DECLARATION (SCH NO. 2003102055) FOR THE FAIRVIEW VILLAGE COMMUNITY FACILITIES DISTRICT NO. 2003-1

WHEREAS, on August 15, 1995, the City Council of the City of Modesto certified the Final Master Environmental Impact Report ("Master EIR") (SCH No. 92052017) for the Modesto Urban Area General Plan; and

WHEREAS, on December 12, 1995, the Final Fairview Village Specific Plan Focused Environmental Impact Report was certified by the City Council of the City of Modesto (SCH# 95032006) for the Fairview Village Specific Plan; and

WHEREAS, on March 4, 2003, the City Council of the City of Modesto certified an Update to the Master EIR (SCH#19990820) for the Modesto Urban Area General Plan; and

WHEREAS, the Fairview Village Community Facilities District No. 2003-1 would provide a financing mechanism for infrastructure to serve the 359-acre Fairview Village Specific Plan area as well as for the infrastructure to serve the 82-acre Galas Brothers subdivision located within the Specific Plan area; and

WHEREAS, the City of Modesto proposes to initiate the formation of the Fairview Village Community Facilities District No. 2003-1 which provides financing to construct the Water System, Wastewater System, Storm Drain System, Portion of Central Neighborhood Park (5.61 acres), and Landscaping/Median along Carpenter Road described in detail in the attached **Exhibit "A"**, hereafter referred to as "the project"; and

WHEREAS, the City of Modesto City Council finds that the proposed formation of the Fairview Village Community Facilities District No. 2003-1 is within the scope of the project considered in the Master EIR; and

WHEREAS, the City of Modesto City Council finds that no substantial changes have occurred with respect to the circumstances under which the Master EIR was certified and that no new information, which was not known and could not have been known at the time that the Update to the Master EIR was certified as complete, has become available; and

WHEREAS, Section 21157.1 of the Public Resources Code, relating to reviewing subsequent projects for a Master EIR, states that the lead agency shall prepare an Initial Study on any proposed subsequent project to analyze whether the subsequent project may cause any significant effect on the environment that was not examined in the master environmental impact report as being within the scope of the project; and

WHEREAS, the City's Community & Economic Development Department prepared an Initial Study leading to a Mitigated Negative Declaration (SCH No. 2003102055), attached hereto as Exhibit "A", which reviewed the proposed subsequent project pursuant to the City's 2003 General Plan Master EIR; and

WHEREAS, the Initial Study identified additional potentially significant environmental effects that were not analyzed in the Master EIR or the Focused EIR for the Fairview Village Specific Plan in terms of Water Quality, Water Supplies and Hazardous Materials; and

WHEREAS, the City of Modesto consulted with various state, and local agencies and received input on the proposed Mitigated Negative Declaration and Initial Study; and

WHEREAS, in response to the input received, revisions were made to mitigation measures to clarify or to make more effective identified mitigation measures pursuant to CEQA Guidelines Section 15073.5 (c); and

WHEREAS, Public Resources Code Section 21175.5 permits the adoption of a Mitigated Negative Declaration in this circumstance; and

WHEREAS, feasible mitigation measures were incorporated into the proposed project to revise the project before the Initial Study/Mitigated Negative Declaration was released for public review in order to avoid or mitigate the identified effects to a point where clearly no significant effect on the environment will occur; and

WHEREAS, the City's Community & Economic Development Department by Environmental Assessment Initial Study EA No. C&ED 2003-86, determined that a Mitigated Negative Declaration should be adopted for the proposed project under the General Plan Master Environmental Impact Report (SCH No. 19990820), and the Fairview Village Focused EIR (SCH No. 95032006); and

WHEREAS, the Draft Mitigated Negative Declaration and Initial Study (SCH No. 2003102055) was released for public review and comment for the required 30-day period ending on November 12, 2003; and

WHEREAS, the City of Modesto Engineering & Transportation Department and Operations and Maintenance Department have reviewed the proposed infrastructure contained in the project, as well as the potential water supply, water well, water quality and hazardous materials impacts and the mitigation measures proposed to address those impacts and have found that the proposed infrastructure is appropriate and sufficient and that the proposed mitigation measures will reduce the potential impacts to levels required by applicable legal standards; and

WHEREAS, the Final Mitigated Negative Declaration (SCH No. 2003102055), incorporates all comments received during the circulation period and response to comments; and

WHEREAS, in response to those comments, no new unavoidable significant effect was identified and mitigation measures or project revisions were required to be added in order to reduce potential effects to less than significance on the Draft Mitigated Negative Declaration and Initial Study; and

WHEREAS, further planning studies and environmental review will be required before other areas may develop or annex to the CFD; and

WHEREAS, responses to comments received during the circulation period and a notice of public hearing for adoption, were distributed to commenting agencies for the required ten-day period prior to the public hearing for adoption; and

WHEREAS, the Initial Study/Mitigated Negative Declaration EA/C&ED 2003-86 (SCH No. 2003102055) was considered by the Modesto City Council at a duly noticed public hearing which was held on December 11, 2003, at 5:30 p.m., in the Tenth Street Place Chambers, 1010 Tenth Street, Modesto, California.

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Modesto that it has reviewed and considered the Initial Study/Mitigated Negative Declaration prepared for the proposed Project, a copy of which is on file with the City Clerk and incorporated herein by reference, and based on the substantial evidence included in said Initial Study and the whole record of this proceeding makes the following findings:

1. The proposed formation of the Fairview Village Community Facilities District No. 2003-1 is within the scope of the project considered in the Master EIR.
2. That no substantial changes have occurred with respect to the circumstances under which the Master EIR was certified and that no new information, which was not known and could not have been known at the time that the Master EIR was certified as complete, has become available.
3. The Initial Study/Mitigated Negative Declaration (EA C&ED No. 2003-86, attached as Exhibit "A") prepared for the proposed project pursuant to CEQA Section 21157.1, has identified additional potentially significant

environmental effects that were not analyzed in the General Plan Master EIR. These additional significant effects are potential impacts to Water Quality, Water Supplies and Hazardous Materials.

4. Feasible mitigation measures were incorporated to revise the subsequent project before the Negative Declaration and Initial Study were released for public review in order to avoid or mitigate the effects to a point where clearly no significant effects on the environment will occur. These measures are within the jurisdiction of the City of Modesto to implement and will be effective to reduce the identified potentially significant impacts to a less-than-significant level.
5. All applicable mitigation measures adopted in certifying that the Master EIR, and the Focused EIR remain feasible, within the jurisdiction of the City of Modesto to implement, and effective to reduce the identified potentially significant impacts to a less-than-significant level. These measures are made conditions of approval for the proposed subsequent project.
6. There is no substantial evidence in light of the whole record before the public agency that the project, as revised, may have an unavoidable significant effect on the environment (CEQA Section 21064.5(2)).
7. Based on the previously certified Master EIR and Focused EIR, an Initial Study/Mitigated Negative Declaration is the appropriate document under CEQA in this circumstance.
8. The changes and additions to the proposed project and the Mitigated Negative Declaration/Initial Study do not constitute “significant new

information” within the meaning of CEQA, and therefore recirculation for additional public review and comment is not required.

9. Based on the above referenced Initial Study and feasible mitigation measures incorporated to revise the proposed project in order to avoid the effects or mitigate the effects to a point where clearly no significant effect on the environment will occur, staff finds that a Mitigated Negative Declaration should be adopted for the proposed project pursuant to CEQA Section 21157.5 et seq.
10. Findings 1 - 9 above provide the substantial evidence to support the certification and adoption of the Initial Study/Mitigated Negative Declaration and City Council finds that the document reflects the independent judgment of the lead agency.
11. As required by CEQA Section 21081.6 et seq., a mitigation monitoring program will be adopted by incorporating the mitigation measures from the Initial Study/Mitigated Negative Declaration and all applicable measures from the Master EIR and Focused EIR into the project.
12. The foregoing findings are based on the whole record of this proceeding before the City of Modesto City Council.

BE IT FURTHER RESOLVED that the project applicant shall indemnify, defend and hold harmless the City of Modesto, its agents, officers, and employees from any and all claims, actions, or proceedings against the City of Modesto, its agents, officers, and employees to attack, set aside, void, or annul, any approval by the City of Modesto and its advisory agency, appeal board, or a legislative body concerning the project. The City of Modesto shall promptly notify the applicant of any claim, action or proceeding and shall cooperate fully in the defense. If the

City fails to do so, the applicant shall not thereafter be responsible to defend, indemnify, or hold City harmless.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Community & Economic Development Department Director is hereby authorized and directed to file a notice of determination within five (5) business days with the Stanislaus County Clerk pursuant to Section 21152 of the Public Resources Code.

The foregoing resolution was introduced at the regular meeting of the City Council of the City of Modesto held on December 11, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

Ayes: Councilmembers: Frohman, Hawn, Jackman, Keating, Marsh, Mayor Sabatino

Noes: Councilmembers: None

Absent: Councilmembers: None

MASTER EIR AND THE FAIRVIEW VILLAGE FOCUSED EIR**

**PROPOSED FAIRVIEW VILLAGE COMMUNITY FACILITIES DISTRICT
NO. 2003-1**

EA C&ED – 2003 -86

1. Purpose of Initial Study:

This Initial Study provides review of a project under the City's General Plan Master EIR (SCH# 1999082041) and the Fairview Village Focused EIR (SCH# 95032006). The project is a proposed formation of a Community Facilities District to provide a financing mechanism for the entire Fairview Village Specific Plan area and, specifically, to fund the infrastructure and maintenance to serve the Galas Brothers Vesting Tentative Subdivision. This Initial Study will review the project pursuant to CEQA Sections 21157.1 and 21157.5.

CEQA Section 21157.5 requires a mitigated negative declaration to be prepared for a proposed subsequent project if both of the following occur:

- (1) An Initial Study has identified potentially new or additional significant effects on the environment that were not analyzed in the master environmental impact report.
- (2) Feasible mitigation measures or alternatives will be incorporated to revise the proposed subsequent project, before the negative declaration is released for public review, in order to avoid the effects or mitigate the effects to a point where clearly no significant effect on the environment will occur.

The proposed Fairview Village Community Facilities District and its facilities would be located in the Fairview Village Comprehensive Planning District, an area which was analyzed in the General Plan Master EIR (MEIR), and the Fairview Village Specific Plan Focused EIR and are currently contained in the General Plan. This initial study will determine if there would be new or potentially significant effects from the project, and if so, whether mitigation or alternatives can be provided to avoid or reduce the effects to a level of insignificance.

This Initial Study/Mitigated Negative Declaration includes the results of a 30-day Public Review from circulation of the Draft Mitigated Negative Declaration from October 13 through November 12, 2003. Eleven (11) letters of comment were received. These letters and a written response to each one are contained in Section XXII.

This Initial Study provides environmental review based on the City's General Plan Master EIR (SCH No. 19990820) and the Fairview Village Specific Plan EIR (SCH No. 95032006).

2. Project title: Fairview Village CFD No. 2003-1.

3. Lead agency name and address: City of Modesto, P.O. Box 642, Modesto, CA 95353

4. **Contact person and phone number:** Patrick Kelly, Community and Economic Development Department (209) 577-5268.
5. **Project location:** Fairview Village Specific Plan Area, Galas Brothers Subdivision, southwest Modesto Urban Area, south side of Hatch Road east of Carpenter Road (see attached Exhibit "A").
6. **Project sponsor's name and address:** City of Modesto, P.O. Box 642, Modesto CA 95353
7. **General Plan Designation:** Fairview CPD – Village Residential (VR)
8. **Zoning:** East ½ of area = SP-O, Specific Plan Overlay
West ½ of area = P-SP-O, Prezone Specific Plan Overlay

9. Project Description:

The project consist of formation of the Fairview Village Community Facilities District No. 2003-1 ("Fairview Village CFD"). The project includes the creation of a financing mechanism to fund construction of certain regional infrastructure within the Fairview Village Specific Plan area. A portion of the plan area contains the Galas Brothers Vesting Tentative Subdivision Map Units 1 &2, consisting of 81.66 acres located in the northeast portion of the Fairview Village Specific Plan ("Galas Subdivision"). Development of the Galas Subdivision includes 383 single-family residential lots, a water well, storm drainage basin, water tank, sewer outfall line and a portion of the central neighborhood park site and its related infrastructure.

The Fairview Village CFD will fund a portion of the infrastructure and its maintenance (see attached Exhibits "B" and "C"). The Galas Subdivision will be responsible for constructing a portion of this infrastructure, will be subject to the CFD tax and may be entitled to certain reimbursements for that work.

The remaining properties within the 359-acre Fairview Village Specific Plan area (listed below as Future Annexation Area) will annex to this CFD in the future, as that area develops (see attached Exhibit "D"). Further planning studies and environmental review will be required before the properties may develop or annex to the CFD."

Formation of Fairview Village CFD No. 2003-1 includes the following property shown on the "CFD Boundary Map", attached Exhibit "D":

Galas Brothers Subdivision:

Assessors Parcel No. 056-027-002, 82.61 Acres, (Norman Galas, et.al.)

Formation of the CFD also provides a financing mechanism for construction and maintenance of the infrastructure to serve the remaining properties within the 359-acre Fairview Village Specific Plan area (listed below as Future Annexation Area) which will ultimately annex to this CFD as the area develops (see attached map-Galas Brothers Subdivision and Future Annexation Area, attached *Exhibit "E"*).

Future Annexation Area:

- Assessors Parcel No. 056-027-009
- Assessors Parcel No. 056-027-010
- Assessors Parcel No. 056-028-007
- Assessors Parcel No. 056-028-008
- Assessors Parcel No. 056-028-003
- Assessors Parcel No. 056-028-014
- Assessors Parcel No. 056-028-012
- Assessors Parcel No. 056-028-010
- Assessors Parcel No. 056-028-015

The Community Facilities District will pay for the following infrastructure (and its maintenance) to serve the Galas Brothers Subdivision, as follows:

Water System:

- Water Well
- Distribution Pipe Lines
- Well-head treatment system
- Surface water supply pipe line
- Water tank and booster pumps

The Galas Brothers Subdivision will install one (1) well and associated pump and motor, chlorination facility, electrical and communication equipment, pump house, one (1) storage tank, booster pump station, well-head treatment system and backup generator. In addition, the Galas Subdivision will install a 20" diameter water line from the intersection of Hatch Road and Carpenter Road, to the storage tank site. The water system will be located at the east boundary of the subdivision on Ironside Drive. Flush water from the tank will discharge through the sanitary sewer system.

Wastewater system:

- Lift station
- Force main

The Galas Brothers Subdivision will install one (1) lift station containing two (2) interim pumps with space for an additional future pump, associated electrical and communication equipment; 8" sanitary sewer force main from the lift station to the east boundary of the subdivision on Ironside Drive, connecting to an existing 15" sub-trunk. The sanitary sewer lift station will be located immediately adjacent to the storm drain detention basin. The influent gravity lines in Salazar Circle will be sized to accommodate future flows from the Specific Plan area.

Storm Drain System

- Lift station
- Force Main to Basin
- Gravity line to outfall line

The Galas Brothers Subdivision will install one (1) lift station containing two (2) interim pumps with space for an additional future pump, associated electrical and communication equipment; 30-inch diameter trunk line from the new detention basin to Hatch Road and along Hatch Road to Ustick Road where it will connect into an existing 30-inch diameter line in Ustick Road that runs north and discharges into the Tuolumne River. Gravity lines in Salazar Circle will be sized to accommodate future flows from the Specific Plan area.

Portion of Central Neighborhood Park (5.61 acres)

- Park/Basin
- Class I Non-motorized Trail
- Lighting

The Galas Brothers Subdivision will contain a 3.2 acre open space area located adjacent to a 1.4 acre basin. There shall be a 6' decorative fence separating the basin from the open space area. There will be a walking path loop around the basin and open space area. The path will be made of concrete, five to six feet wide, with a level shoulder on either side of no less than 4 feet. The open space area will have a play area, irrigated turf, shrubs and several shade trees. There will be a drinking fountain, benches and picnic tables located in a centralized area.

The Class I Non-Motorized Trail will be located on top of the 40-foot wide sewer easement from the open space area to Hatch Road. The trail will be ten feet wide with a two-foot shoulder of decomposed granite on either side. The trail will be landscaped with several trees and plantings, with accent plantings at the intersections and entry points.

Landscaping/Median along Carpenter Road

- Parkways

The landscaping in the median and along Carpenter Road shall incorporate parkway plantings to complement the Fairview CFD facilities. This shall consist of trees with a high canopy and shrubs that have a low growth habit (2.5 feet or less in height), and groundcovers. This area shall be automatically irrigated and maintained as part of the CFD.

The Galas property is to be included in the Fairview Village CFD as required by the approved Galas Brothers Vesting Tentative Subdivision map, to pay for their share of infrastructure costs under the CFD.

Based on requirements to serve the ultimate specific plan buildout land uses, some facility oversizing will need to occur in the Galas Subdivision. Reimbursement mechanisms exist to compensate the property developers for this oversizing.

Future amendments to the adopted Specific Plan land uses or infrastructure will require separate environmental analysis and corresponding amendments to the Community Facilities District.

10. **Surrounding Land Uses:** North: Tuolumne River Riparian area and River
South: County Agricultural lands
East: Single family subdivisions, City and County
West: County Agricultural lands and disposal facility

11. **Other public agencies whose approval is required:** None

ENVIRONMENTAL FACTORS POTENTIALLY AFFECTED:

The environmental factors checked below are potentially new or additional significant impacts that were not analyzed in the certified Master EIR or Focused EIR that would be potentially affected by this project involving at least one impact that is a "Potentially Significant Impact" as indicted by the Checklists on the following pages.

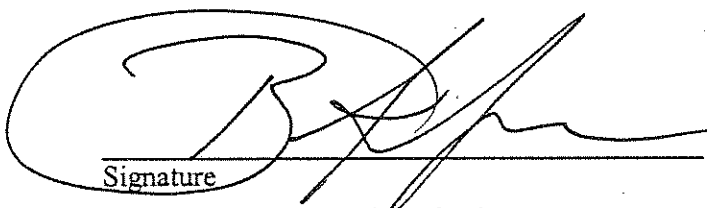

The following factors are based on Appendix G of the CEQA Guidelines and adapted to reflect the eighteen environmental subject areas analyzed by the City of Modesto's General Plan Master EIR:

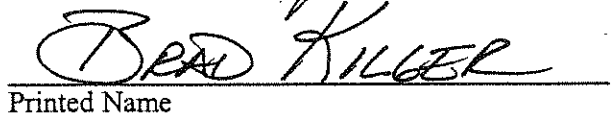

- Traffic & Circulation Loss of Wildlife/Plant Habitat Increased Demand Police
- Degradation of Air Quality Disturb Archaeological/Historic Increased Demand Fire
- Generation of Noise Drainage/Flooding /Water Quality Generation of Solid Waste
- Loss of Productive Ag Land Increased Demand Storm Drainage Generation of Hazardous Materials
- Increased Demand Water Supplies Increased Demand Parks/OpenSpace Energy
- Increased Demand Sewer Service Increased Demand Schools Landslides/Seismic Activity
- Mandatory Findings of Significance Aesthetics Land Use/Planning

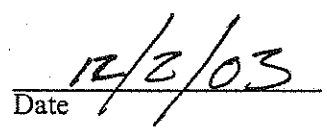

DETERMINATION: (To be completed by the Lead Agency)

On the basis of this initial evaluation:

- I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because revisions in the project have been made by or agreed to by the project proponent. A MITIGATED NEGATIVE DECLARATION will be prepared.

Date

For

EVALUATION OF ENVIRONMENTAL IMPACTS: FOR A PROPOSED SUBSEQUENT PROJECT TO MASTER EIR

The following sections evaluate the proposed subsequent project to the City's General Plan Master EIR and Fairview Village Focused EIR pursuant to CEQA Section 21157.1 (b) whether the subsequent project may cause any significant effect on the environment that was not examined in the master environmental impact report and/or the Focused EIR. And, if so make a determination pursuant to Section 21157.5 which requires a mitigated negative declaration to be prepared for a proposed subsequent project if both of the following occur:

- (1) An initial study has identified potentially new or additional significant effects on the environment that were not analyzed in the master environmental impact report.
- (2) Feasible mitigation measures or alternatives will be incorporated to revise the proposed subsequent project, before the negative declaration is released for public review, in order to avoid the effects or mitigate the effects to a point where clearly no significant effect on the environment will occur.

The analysis in this document includes the identification of project-related impacts that would be less-than-significant with mitigation incorporated. Some of those impacts are new or additional impacts not previously identified and some of those impacts were previously identified in the General Plan Master EIR (SCH No. 19990820) or Fairview Village Specific Plan Focused EIR (SCH No. 95032006). This document serves to ensure that the mitigation measures also identified in the Master EIR and/or Focused EIR are incorporated into the project to keep those impacts at a less-than-significant level.

The Determination Section XXII indicates which impacts are new or additional impacts and which impacts were previously analyzed and mitigation provided.

The following analysis is based on Appendix G of the CEQA Guidelines and adapted to reflect the eighteen environmental subject areas in the City of Modesto's General Plan Master EIR:

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
I. <u>TRAFFIC and CIRCULATION NEEDS</u> – Compared to the Master EIR certified for the Modesto Urban Area General Plan, and the Focused EIR adopted for the Specific Plan, will the project result in increased impacts to:				
a) Cause an increase in traffic which is substantial in relation to the existing traffic load and capacity of the street system (i.e., result in a substantial increase in either the number of vehicle trips, the volume to capacity ratio on roads, or congestion at intersections)?	[]	[]	[]	[X]
b) Exceed, either individually or cumulatively, a level of service standard established by the county congestion management agency for designated roads or highways?	[]	[]	[]	[X]

- c) Result in a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks? [] [] [] [X]
- d) Substantially increase hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses (e.g., farm equipment)? [] [] [] [X]
- e) Result in inadequate emergency access? [] [] [] [X]
- f) Result in inadequate parking capacity? [] [] [] [X]
- g) Conflict with adopted policies, plans or programs supporting alternative transportation (e.g., bus turnouts, bicycle racks)? [] [] [] [X]

I. TRAFFIC AND CIRCULATION, Continued:

The Existing Conditions, Impacts Analysis, and Mitigation Measures listed in the MEIR for Traffic and Circulation (Pages V-1-1 through V-1-33) remain valid for the reasons listed below.

Discussion:

- a) The proposed Fairview Village CFD No. 2003-1 facilities financing district would have no impact with regards to increased impacts to the City's roadway system because for the Galas Subdivision the density and intensity of the proposed development is within that assumed in the General Plan Traffic Model, the street system in the proposed Final map was reviewed and approved by City's Engineering and Transportation Department, and will be constructed to City Standards, thus the facilities to be constructed and land use are essentially consistent with those assumed in the analysis of the General Plan Master EIR and adopted Specific Plan Focused EIR. Therefore, it will not create a significant increase in traffic generation. Additionally, the development served by the CFD will contribute to the construction of Citywide facilities, such as Hatch Road, to provide capacity and level-of-service per City Standards through 2003 Capital Facilities Fees program.
- b) Because the Fairview Village CFD No. 2003-1 would not revise adopted land use, and the density of development is within the range analyzed by the General Plan Traffic Model, and the facilities to serve the Galas Brothers subdivision would be essentially consistent with the adopted Specific Plan, there are no additional traffic and circulation impacts associated with the facilities proposed for financing by the Community Facilities District No. 2003-1 beyond those already studied in the adopted Master EIR and Focused EIR. Therefore, the proposed facilities would have no impact to contributing to traffic exceeding the adopted level of service for the City's General Plan street system. Additionally, the development served by the CFD will contribute to the construction of Citywide facilities, such as Hatch Road, to provide capacity and level-of-service per City Standards through 2003 Capital Facilities Fees program.
- c) Because the proposed Fairview Village CFD No. 2003-1 facilities would not result in a significant land use change from the adopted General Plan or Fairview Village Specific Plan, there would be no impact to a change in air traffic patterns, including either an increase in traffic levels or a change in location that results in substantial safety risks.

- d) Because the proposed Fairview Village CFD No. 2003-01 facilities would be served by essentially the same roadway system that is in the adopted General Plan and Fairview Village Specific Plan, and the street system for the Final Map of Galas Brothers Subdivision has been reviewed by the City's Engineering and Transportation Department for conformance with City's Standards, there would be no impact to Substantially increased hazards due to a design feature (e.g., sharp curves or dangerous intersections) or incompatible uses.
- e) Because the facilities to be installed and maintained by the Fairview Village CFD 2003-01 would be consistent with the facilities in the adopted Specific Plan as analyzed by the Master EIR and Focused EIR, and would be served by planned adjacent roadways in the Galas Brothers Subdivision providing direct access, there would be no impact to a result in inadequate emergency access.
- f) Because the Fairview Village CFD No. 2003-1 facilities to be constructed and the land uses it serves, specifically, the Galas Brothers subdivision, are required to meet City of Modesto parking standards there would be no impact to inadequate parking capacity.
- g) Because the Fairview Village CFD No. 2003-1 would be financing the construction of bikeways/ walkways, and facilities supporting the bus system to implement an adopted Specific Plan, there would be no conflict with adopted policies, plans or programs supporting alternative transportation (e.g., bus turnouts, bicycle racks).

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
--------	--------------------------------	--	------------------------------	-----------

II. DEGRADATION OF AIR QUALITY – Compared to the Master EIR certified for the Modesto Urban Area General Plan, and the Focused EIR certified for the Specific Plan, will the project result in increased impacts to:

a) Conflict with or obstruct implementation of the applicable air quality plan?	[]	[]	[]	[X]
b) Violate any air quality standard or contribute substantially to an existing or projected air quality violation?	[]	[]	[X]	[]
c) Result in a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard (including releasing emissions which exceed quantitative thresholds for ozone precursors)?	[]	[]	[]	[X]
d) Expose sensitive receptors to substantial pollutant concentrations?	[]	[]	[]	[X]
e) Create objectionable odors affecting a substantial number of people?	[]	[]	[]	[X]

II. DEGRADATION OF AIR QUALITY

The Existing Conditions, Impacts Analysis, and Mitigation Measures listed in the MEIR for Increased Demand for Degradation of Air Quality (Pages V-2-1 through V-2-26) remain valid for the reasons listed below.

Discussion:

- a) Because the Fairview Village CFD No. 2003-1 and the corresponding infrastructure to serve the Galas Brothers subdivision is consistent with the adopted Specific Plan and because City of Modesto General Plan policies reflecting the Air Districts Air Quality Plan (AQ-1 through AQ-18, MEIR) will be applied Citywide and to development of the Specific Plan area to reduce emission of pollutants, and the density of development to be served is within the range analyzed by the General Plan Air Quality modeling, it would not generate significantly greater traffic or significantly increase areas of public facilities beyond that analyzed by the Master EIR, there would be no impact to conflict with or obstruct implementation of the San Joaquin Valley Unified Air Pollution Control District air quality plan. Because air quality impacts cannot be reduced to a less-than-significant level, when the Master EIR was certified, the City adopted overriding findings for air quality impacts associated with project-generated traffic. Applicable Air District project planning measures (Table 2-3 MEIR, Page 46, Focused EIR) have been applied to the project at the Specific Plan and subdivision design stage to reduce vehicle use and associated emissions.
- b) Because the proposed Fairview Village CFD No. 2003-1 facilities financing mechanism would fund facilities similar to those analyzed by the General Plan Master EIR, or Focused EIR, the project would have a less than significant impact to any air quality standard or would not contribute substantially to an existing or projected air quality violation. The primary impact would be construction-related air quality impacts which would be mitigated by application of SJVUAPCD Regulation VIII, (Fugitive Dust Rules). This impact is not a new or additional project-specific significant impact identified by this Initial Study. Rather, this is an impact identified by the Master EIR for new development and although the City has adopted overriding findings for PM10 impacts that remain significant, the following mitigation would provide project-specific reduction of impacts for PM10.

The following is an appropriate existing measure incorporated into the project from the Master EIR:

MITIGATION MEASURE- AIR QUALITY:

- a. SJVUAPCD Regulation VIII Control Measures for Construction Emissions of PM-10. The following controls are required to be implemented at all construction sites:
 1. All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover
 2. All on-site unpaved roads and off-site unpaved access roads shall be effectively stabilized of dust emissions using water or chemical stabilizer/suppressant.
 3. All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.
 4. With the demolition of buildings up to six stories in height, all exterior surfaces of the building shall be wetted during demolition.

5. When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.

6. All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. (the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)

7. Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.

8. Within urban areas, trackout shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.

9. Any site with 150 or more vehicle trips per day shall prevent carryout and trackout.

b. Enhanced Control Measures. The following measures should be implemented at construction sites when required to mitigate significant PM10 impacts (note, these measures are to be implemented in addition to Regulation VIII requirements):

1. Limit traffic speeds on unpaved roads to 15 mph; and

2. Install sandbags or other erosion control measures to prevent silt runoff to public roadways from sites with a slope greater than one percent (1%).

San Joaquin Valley Unified Air Pollution Control District – Regulation VIII (Fugitive Dust Rules). Full text of the measure is included in Exhibit F.

- c) Because the Fairview Village CFD No. 2003-1 facilities to be constructed (or the land-uses it would serve) would not generate significantly greater traffic than was analyzed in the Master EIR and/or the Focused EIR, there would be no impact to a cumulatively considerable net increase of any criteria pollutant for which the project region is non-attainment under an applicable federal or state ambient air quality standard (including releasing emissions which exceed quantitative thresholds for ozone precursors). Because the region is designated severe non-attainment for Ozone and PM10 for State Standards, and severe non-attainment for Ozone by the EPA and air quality impacts are significant and unmitigable, the City has adopted Overriding Considerations for Air Quality Impacts. However, the proposed Galas Subdivision at 4.3 dwelling units per acre is below the density and intensity assumed by the General Plan Traffic Model/Air Traffic Model of 5.1 dwelling units per acre. Thus, no contribution to net increase in emissions.
- d) Because the Fairview Village CFD No. 2003-1 would not significantly increase the number or type of facilities constructed in the adopted Specific Plan, there would be no impact to increase in exposure of sensitive receptors to substantial pollutant concentrations beyond that which was studied in the Master EIR.
- e) Because the facilities to be constructed by the Fairview Village CFD No. 2003-1 would be consistent with the facilities in the adopted Specific Plan, there would be no impact to creation of objectionable odors affecting a substantial number of people?

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
<p>III. <u>NOISE</u> – Compared to the Master EIR certified for the Modesto Urban Area General Plan, and the Focused EIR certified for the Specific Plan, will the project result in increased impacts to:</p>				
<p>a) Exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies?</p>	[]	[]	[X]	[]
<p>b) Exposure of persons to or generation of excessive groundborne vibration or groundborne noise levels?</p>	[]	[]	[X]	[]
<p>c) A substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project?</p>	[]	[]	[]	[X]
<p>d) A substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project?</p>	[]	[]	[X]	[]
<p>e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project expose people residing or working in the project area to excessive noise levels?</p>	[]	[]	[]	[X]
<p>f) For a project within the vicinity of a private airstrip, would the project expose people residing or working in the project area to excessive noise levels?</p>	[]	[]	[]	[X]

III. NOISE

The Existing Conditions, Impacts Analysis, and Mitigation Measures listed in the MEIR for Noise (Pages V-3-1 through V-3-22) remain valid for the reasons listed below.

Discussion:

- a) Because the facilities constructed and corresponding land uses served by the proposed Fairview Village CFD No. 2003-1, are essentially the same as the adopted Specific Plan that was analyzed by the Focused EIR, and the CPD analyzed by the General Plan Master EIR, impacts would be similar. The Focused EIR identified that development of the Specific Plan area, which includes the infrastructure, would result in less than significant impacts to exposure of persons to or generation of noise levels in excess of standards established in the local general plan or noise ordinance, or applicable standards of other agencies.

Operation of proposed facilities such as pump stations, well sites, or booster pumps will not exceed City Noise Standards for residential areas for exterior or interior levels. These facilities are designed for quiet operations to be within CCR Title 24 Standards.

Although the Focused EIR identified noise impacts to school facilities within the Fairview Village specific plan area, neither the existing elementary school on Whitmore Avenue, or the future elementary school to be constructed would be affected by construction of the Fairview Village CFD No. 2003-1 facilities.

The Focused EIR identified the significant noise impacts that would be mitigated: "No significant effects outside of those identified in the General Plan Master EIR are anticipated. Construction-related, transportation-related, and commercial noise impacts can be mitigated in most instances through implementation of the measures identified in the General Plan Master EIR."

Incorporation of the following existing measure from the Master EIR would reduce impacts:

MITIGATION MEASURE – NOISE 1:

Modesto Noise Ordinance. The City's noise ordinance (Modesto Municipal Code Section 4-9.101) prohibits the "loud and raucous discharge into the open air of the steam of any steam equipment or exhaust from any stationary internal-combustion engine."

The noise ordinance prohibits the loud and raucous operation or use of any of the following before 7:00 a.m. or after 9:00 p.m. daily (except Saturday and Sunday and State or federal holidays, when the prohibited time shall be before 9:00 a.m. and after 9:00 p.m.):

1. A hammer, or any other device or implement used to pound or strike an object.
2. An impact wrench, or other tool or equipment powered by compressed air.
3. A hand-powered saw.
4. Any tool or piece of equipment powered by an internal-combustion engine such as, but not limited to, chain saw, backpack blower, and lawn mower.
5. Any electrically powered (whether by alternating current electricity or by direct current electricity) tool or piece of equipment used for cutting, drilling, or shaping wood, plastic, metal, or other materials or objects, such as, but not limited to, a saw, drill, lathe, or router.
6. Any of the following: heavy equipment (such as but not limited to bulldozer, steam shovel, road grader, back hoe), ground drilling and boring equipment (such as but not limited to derrick or dredge), hydraulic crane and boom equipment, portable power generator or pump, pavement equipment (such as but not limited to pneumatic hammer, pavement breaker, tamper, compacting equipment), pile-driving equipment, vibrating roller, sand blaster, gunite machine, trencher, concrete truck, and hot kettle pump.
7. Any construction, demolition, excavation, erection, alteration, or repair activity. In the case of urgent necessity and in the interest of public health and safety, the Chief Building Official may issue a permit for exemption from these. Such period shall not exceed three (3) working days in length while the emergency continues but may be renewed for successive periods of three (3) days or less while the emergency continues. The Chief Building Official may limit such permit as to time of use and/or permitted action, depending upon the nature of the emergency and the type of action requested.

Policy VII-G.3[a] The City of Modesto shall require noise-reducing construction practices to be implemented as conditions of approval for development projects where substantial construction-related noise impacts would be likely to occur (e.g. where construction would include extended periods of pile driving, where construction would occur over an unusually long period, or where noise-sensitive uses like homes and schools would be in the immediate vicinity, etc.). The city should consider potential mitigation measures, including, but not limited to, the following:

1. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields.
2. Other proposed uses: the noise/land use compatibility guidelines (i.e., those noise levels which are "conditionally acceptable," "normally Unacceptable," or "clearly unacceptable,") shown in Table 1 and the most recent noise contours for the City shown in Figure VII-1 [of the City's Urban Area General Plan].

- b) Because the proposed Fairview Village CFD No. 2003-1 facilities to be constructed, including water well, tank, and pump sites are designed to be compatible with residential neighborhoods, their construction and/or operation would result in less than significant impact to exposure of persons to or generation of excessive groundborne vibration or groundborne noise levels.
- c) Because the proposed facilities that would be constructed by the Fairview Village CFD No. 2003-1 including pumps, lift stations, water wells, tanks and their associated facilities are designed to be compatible with residential neighborhoods, their development would result in no impact to substantial permanent increase in ambient noise levels in the project vicinity above levels existing without the project.
- d) Because development of the proposed facilities by the Fairview Village CFD No. 2003-1, would cause temporary construction-related noise impacts, that can be reduced or avoided by the application of existing mitigation measures from the Master EIR, Measures N-4, 5, 6 & 7, Pages V-3-10, V-3-11 and V-3-12, Master EIR, would result in a less than significant impact to a substantial temporary or periodic increase in ambient noise levels in the project vicinity above levels existing without the project. Mitigation measures to be applied to the project from the Master EIR, that are cited in item a) above will mitigate these temporary construction-related impacts to less than significant.

The Focused EIR identified the following mitigation measure to reduce noise impacts to schools within the Plan Area:

MITIGATION MEASURE – NOISE 2:

Prior to construction activities in the vicinity of the existing school and the proposed new elementary school, the project applicant shall develop a schedule of construction activities during school hours acceptable to the Modesto City School District to reduce construction noise impacts to schools.

- e) Because the facilities proposed to be financed and constructed by Fairview Village CFD No. 2003-1 would be located in the Planned Urbanizing area (future growth area) of the General Plan, outside the noise contour of the Airport, that were analyzed in the General Plan Master EIR, their development would result in no impact to a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, the project would not expose people residing or working in the project area to excessive noise levels.
- f) Because the planned public facilities that would be financed and constructed by the Fairview Village CFD No. 2003-1 would be located in the Planned Urbanizing area (future growth area) of the General Plan, where there are no private airstrips, and these facilities were analyzed in the General Plan Master EIR, their development would result in no impact to a project within the vicinity of a private airstrip, nor would the project expose people residing or working in the project area to excessive noise levels.

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
--------	--------------------------------------	--	------------------------------------	-----------

IV. LOSS OF PRODUCTIVE AGRICULTURAL LAND -

Compared to the Master EIR certified for the Modesto Urban Area General Plan, and the Focused EIR for the adopted Specific Plan will the project result in increased impacts to:

- | | | | | |
|--|-----|-----|-----|-------|
| a) Convert Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use? | [] | [] | [] | [X] |
| b) Conflict with existing zoning for agricultural use, or a Williamson Act contract? | [] | [] | [] | [X] |
| c) Involve other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use? | [] | [] | [] | [X] |

IV. LOSS OF PRODUCTIVE AGRICULTURAL LAND

The Existing Conditions, Impacts Analysis, and Mitigation Measures listed in the MEIR for Loss of Productive Agricultural Land (Pages V-4-1 through V-4-12) remain valid for the reasons listed below.

Discussion:

- a) As identified in the MEIR and the Focused EIR, development of the planned facilities would result in the conversion of prime agricultural land. Mitigation is provided for home buyers, but does not apply to Public Facilities. Because the facilities to be constructed by the Fairview Village CFD No. 2003-1 within the Fairview Specific Plan portion of the Planned Urbanizing Area of the adopted General Plan were covered by the General Plan Master EIR (MEIR), there would be no impact to conversion of Prime Farmland, Unique Farmland, or Farmland of Statewide Importance (Farmland), as shown on the maps prepared pursuant to the Farmland Mapping and Monitoring Program of the California Resources Agency, to non-agricultural use. City of Modesto policies requiring compact development have been applied to the Specific Plan and its subsequent development to minimize impacts. When certifying the Master EIR the City has adopted findings of overriding considerations regarding the conversion of Agricultural lands.
- b) As identified in the MEIR and the Focused EIR, development of the planned facilities would result in the conversion of prime agricultural land. Mitigation is provided for home buyers, but does not apply to Public Facilities. Because the proposed Facilities to be constructed by the proposed Fairview Village No. 2003-1 would be located in the adopted Fairview Village Specific Plan area within the Planned Urbanizing Area of the adopted General Plan covered by the General Plan Master EIR (MEIR), there would be no impact to conflicts with existing zoning for agricultural use, or a Williamson Act contract. Although construction of the facilities along with development of the subdivision would remove agricultural land from production, operation of these CFD facilities would have no impact on agricultural uses. Appropriate overriding findings were adopted regarding conversion of productive agricultural lands with the adoption of the Master EIR.
- c) As identified in the MEIR and the Focused EIR, development of the planned facilities would result in the conversion of prime agricultural land. Mitigation is provided for home buyers, but does not apply to Public Facilities. Because the facilities to be constructed by the Fairview Village CFD NO. 2003-1 would be located on approved subdivision site within the adopted Fairview Village Specific Plan area of the Planned Urbanizing Area of the adopted General Plan covered by the General Plan Master EIR (MEIR), there would be no impact to involvement of other changes in the existing environment which, due to their location or nature, could result in conversion of Farmland, to non-agricultural use. City of Modesto policies requiring compact development have been applied to the Specific Plan and its subsequent development to minimize impacts. When certifying the Master EIR the City has adopted findings of overriding considerations regarding the conversion of Agricultural lands.

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
--------	--------------------------------	--	------------------------------	-----------

V. INCREASED DEMAND FOR WATER SUPPLIES –

Compared to the Master EIR certified for the Modesto Urban Area General Plan, and the Focused EIR for the adopted Specific Plan will the project result in increased impacts to:

- | | | | | |
|---|-----|-------|-------|-----|
| a) Are there sufficient water supplies available to serve the project from existing entitlements and resources, or are new or expanded entitlements needed? | [] | [] | [X] | [] |
| b) Require or result in the construction of new water treatment facilities or expansion of existing facilities, the construction of which would cause significant environmental effect? | [] | [X] | [] | [] |

V. INCREASED DEMAND FOR WATER SUPPLIES

The Existing Conditions, Impacts Analysis, and Mitigation Measures listed in the MEIR for Increased Demand for Water Supplies (Pages V-5-1 through V-5-13) remain valid for the reasons listed below.

Discussion:

- a) Because the water supply facilities proposed to be constructed by the Fairview Village CFD No. 2003-1 would be part of the City’s conjunctive use system, where groundwater would be blended with surface water supplies through the use of a well and storage tank, the proposed Fairview Village CFD No. 2003-1 will result in less than significant impact to water supplies available to serve the project from existing entitlements and resources, and no new expanded entitlements would be needed.
- b) Because the water supply facilities proposed to be constructed by the Fairview Village CFD No. 2003-1 and the demand created by the land uses it would serve would exceed the available potable surface and groundwater supplies (with treatment), there will be a need to construct new treatment facilities (i.e storage tanks and treatment facilities). Therefore, the proposed Fairview Village CFD No. 2003-1 will have a less than significant impact with mitigation incorporated. A storage tank and wellhead treatment system will be required as a mitigation measures.

MITIGATION MEASURE – WATER SUPPLIES :

The following new project-specific mitigation measure will be incorporated into the Fairview Village CFD No. 2003-1 project to reduce to a level of less than significant impact with mitigation incorporated any potential impacts for effects to Water Supplies:

The project requires the installation of a 500,000 gallon storage tank. Measures to mitigate water quality effects are outlined in Section IX – Flooding and Water Quality.

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
VI. <u>INCREASED DEMAND FOR SANITARY SEWER SERVICE</u> – Compared to the Master EIR certified for the Modesto Urban Area General Plan, and the Focused EIR certified for the Specific Plan, will the project result in increased impacts to:				
a) Result in a determination by the wastewater treatment provider which serves or may serve the project that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments?	[]	[]	[]	[X]
b) Exceed wastewater treatment requirements of the applicable Regional Water Quality Control Board?	[]	[]	[]	[X]
c) Require or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which would cause significant environmental effect?	[]	[]	[]	[X]

VI. INCREASED DEMAND FOR SANITARY SEWER SERVICE

The Existing Conditions, Impacts Analysis, and Mitigation Measures listed in the MEIR for Increased Demand for Sanitary Sewer Services (Pages V-8-1 through V-8-21) remain valid for the reasons listed below.

Discussion:

- a) The proposed facilities to be constructed by the Fairview Village CFD No. 2003-1 (portion of neighborhood park, drainage basin, water tank, pump stations, etc.) and the land uses it would serve, will have no impact to increased demand for sanitary sewer service over what was assumed in the MEIR because Engineering and Transportation Department, Capital Facilities Planning Division has determined that the existing nearby Ustick trunk line has available capacity to serve the development proposed by the Galas Brothers subdivision. Therefore, project development would result in a determination by the wastewater treatment provider which serves or may serve the project (City of Modesto) that it has adequate capacity to serve the project's projected demand in addition to the provider's existing commitments.
- b) The facilities to be constructed (portion of neighborhood park, drainage basin, water tank, pump stations, etc.) and the development which Fairview Village CFD No. 2003-1 would serve would not result in exceedence of the RWQCB standards because sufficient capacity exists in the City's wastewater system to collect and process the projected wastewater demand. The facilities, and the land uses to be served with development of the Galas Brothers subdivision facilities were analyzed as part of the assumed buildout of the Fairview Village CPD in the MEIR. Therefore, the Galas Brothers subdivision would not generate increased demand for sanitary sewer services over what was assumed in the Master EIR. Thus, there would be no impact to wastewater treatment requirements of the applicable Regional Water Quality Control Board.

- c) Because the facilities (portion of neighborhood park, drainage basin, water tank, pump stations, pipelines, etc.) and the land uses which it would serve in the Fairview Village CFD No. 2003-1 have already been studied in the MEIR, the Master EIR assumed 5.1 dwelling units/acre and the Galas Subdivision is 4.3 dwelling units/acre, there would be no increased demand for sanitary sewer service above that analyzed by the MEIR. The Wastewater Treatment Division of the Operations and Maintenance Department has indicated there is available treatment plant capacity for the Galas Subdivision. In addition, there is a current project in the proposal for the design services stage that will assist in retaining existing disposal capacity under adverse seasonal discharge conditions. Therefore, the project would result in no impact to a requirement for or result in the construction of new water or wastewater treatment facilities or expansion of existing facilities, the construction of which would cause significant environmental effect.

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
--------	--------------------------------	--	------------------------------	-----------

VII. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT – Compared to the Master EIR certified for the Modesto Urban Area General Plan, and the Focused EIR for the adopted Specific Plan will the project result in increased impacts to:

a) Have a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?	[]	[X]	[]	[]
b) Have a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or U.S. Fish and Wildlife Service?	[]	[]	[]	[X]
c) Have a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh, vernal pool, coastal, etc.) through direct removal, filing, hydrological interruption, or other means?	[]	[]	[]	[X]
d) Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites?	[]	[]	[]	[X]
e) Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance?	[]	[]	[]	[X]

- f) Conflict with the provisions of an adopted Habitat Conservation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan? [] [] [] [X]

VII. LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT

The Existing Conditions, Impact Analysis, and Mitigation Measures listed in the Loss of Sensitive Wildlife and Plant Habitat section of the MEIR (pages V-7-1 through V-7-29) are still valid for the reasons discussed below.

Discussion:

- a) The Galas Brothers Vesting Tentative Subdivision map, covered by the Fairview Village CFD No. 2003-1, is outside of the potential resource study area depicted on the Riparian Corridor diagram Figure V-7-1a of the Master EIR. The 1995 Focused EIR analysis (page 64) reviewed the project site, MEIR mitigation measures, and the Special Status Species Potentially Occurring on the Site and indicated that:

“...habitat found on the project site has a low potential to provide habitat for resident or transient “special status” animals. Information to date does not indicate the potential for special-status species to occur on the site.”

The 1995 correspondence from CADFG indicates no special status species would be located on-site.

However, the Focused EIR relies on implementation of the Master EIR mitigation measures to reduce impacts to loss of Sensitive Wildlife and Plant Habitat. The Master EIR (page V-7-19) and Focused EIR (page 62) require a site specific survey to determine if special species are present on the site and if there would be any effect on loss of sensitive wildlife and plant habitat that was not already analyzed by the General Plan Master EIR (MEIR).

Therefore, with application of the Focused EIR Mitigation, the project would have less than significant effect with mitigation incorporated to a substantial adverse effect, either directly or through habitat modifications, on any species identified as a candidate, sensitive, or special status species in local or regional plans, policies, or regulations, or by the California Department of Fish and Game or U.S. Fish and Wildlife Service.

Accomplishing the following mitigation measure from the Master EIR prior to construction would reduce or avoid any identified effects:

MITIGATION MEASURE – WILDLIFE AND PLANT HABITAT:

Policy VII-E.3[a] For all lands within the Planned Urbanizing Area, site specific surveys shall be conducted by a qualified biologist to determine whether any sensitive natural communities or species are present within the proposed development area. These studies shall particularly focus on proposed development within any lands included within a potential biological resource study area as delineated on Figure 7-1 in the Final Master EIR. (Riparian Corridor Diagram)

Surveys should be conducted at the appropriate season to best determine the likelihood of occurrence and should employ accepted methodologies as determined by DFG and USFWS. The significant results of such surveys should be recorded onto the City’s existing biological resources map for future planning purposes.

Policy VII-E.3[b] All habitat found to contain or potentially contain sensitive species shall be avoided and preserved unless doing so would create, isolate and/or fragment habitat that would not function adequately as judged by a qualified biologist and/or that the proposed development layout would be so constrained as to make the development financially infeasible; avoided habitat areas shall also be protected by fencing, signage and/or establishment of buffer zones as appropriate to the species or habitat involved. Generally, a minimum 100-foot buffer of undeveloped land would be necessary. The protected habitat shall contribute to the long-term conservation of the species and ecosystems on which they depend.

Policy VII-E.3[c] Where formally listed species are determined present, consultation shall be carried out with the DFG and/or USFWS in accordance with the California and/or federal Endangered Species Acts. Where candidate or other special status category of species are involved, informal consultation with these agencies is recommended. The recommendations of these agencies shall be incorporated into the development plan, unless overriding considerations can be demonstrated.

- b) Because the facilities to be constructed by the Fairview Village CFD No. 2003-1 would be located within an adopted Specific Plan area outside of the Tuolumne River Riparian corridor that is defined on General Plan Master EIR Figure V-7-1a, construction of the proposed CFD facilities would not likely result in any effect on loss of sensitive wildlife and plant habitat that was not already analyzed by the General Plan Master EIR (MEIR) and/or Focused EIR. Therefore the proposal would have no impact to a substantial adverse effect on any riparian habitat or other sensitive natural community identified in local or regional plans, policies, regulations or by the California Department of Fish and Game or U.S. Fish and Wildlife Service. In addition, a site-specific survey is required (see item a)above) prior to construction.
- c) Because the facilities to be constructed by the Fairview Village CFD No. 2003-1 would be located within an adopted Specific Plan area outside of the Tuolumne River Riparian corridor that is defined on General Plan Master EIR Figure V-7-1a, construction of the proposed CFD facilities would not likely result in any effect on loss of sensitive wildlife and plant habitat that was not already analyzed by the General Plan Master EIR (MEIR) and/or Focused EIR. Therefore, the proposal would have no impact to a substantial adverse effect on federally protected wetlands as defined by Section 404 of the Clean Water Act (including, but not limited to, marsh vernal pool, coastal, etc.) through direct removal, filling, hydrological interruption, or other means.
- d) Because the facilities to be constructed by the Fairview Village CFD No. 2003-1 would be located within an adopted Specific Plan area outside of the Tuolumne River Riparian corridor that is defined on General Plan Master EIR Figure V-7-1a, construction of the proposed CFD facilities would not likely result in any effect on loss of sensitive wildlife and plant habitat that was not already analyzed by the General Plan Master EIR (MEIR) and/or Focused EIR. Therefore the proposal would have no impact to Interfere substantially with the movement of any native resident or migratory fish or wildlife species or with established native resident or migratory wildlife corridors, or impede the use of native wildlife nursery sites? In addition, a site-specific survey is required (see item a) above) prior to construction.
- e) Because the facilities to be constructed by the Fairview Village CFD No. 2003-1 would be located within an adopted Specific Plan area outside of the Tuolumne River Riparian corridor that is defined on General Plan Master EIR Figure V-7-1a, construction of the proposed CFD facilities would not likely result in any effect on loss of sensitive wildlife and plant habitat that was not already analyzed by the General Plan Master EIR (MEIR) and/or Focused EIR. Therefore the proposal would have no impact to Conflict with any local policies or ordinances protecting biological resources, such as a tree preservation policy or ordinance.
- f) Because the facilities to be constructed by the Fairview Village CFD No. 2003-1 would be located within an adopted Specific Plan area outside of the Tuolumne River Riparian corridor that is defined on General Plan Master EIR Figure V-7-1a, construction of the proposed CFD facilities would not likely result in any effect on loss of sensitive wildlife and plant habitat that was not already analyzed by the General Plan

Master EIR (MEIR) and/or Focused EIR. Therefore the proposal would have no impact to Conflict with the provisions of an adopted Habitat Conversation Plan, Natural Community Conservation Plan, or other approved local, regional, or state habitat conservation plan.

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
VIII. <u>DISTURBANCE OF ARCHAEOLOGICAL OR HISTORICAL SITES</u> – Compared to the Master EIR certified for the Modesto Urban Area General Plan, will the project result in increased impacts to:				
a) Cause a substantial adverse change in the significance of a historical resource as defined in §15064.5?	[]	[X]	[]	[]
b) Cause a substantial adverse change in the significance of an archaeological resource pursuant to §15064.5?	[]	[X]	[]	[]
c) Directly or indirectly destroy a unique paleontological resource or site or unique geologic feature?	[]	[X]	[]	[]
d) Disturb any human remains, including those interred outside of formal cemeteries?	[]	[X]	[]	[]

VIII. DISTURBANCE OF ARCHAEOLOGICAL OR HISTORICAL SITES

The Existing Conditions, Impacts Analysis, and Mitigation Measures listed in the MEIR for Disturbance of Archaeological or Historical Sites (pages V-8-1 through V-8-22) remain valid for the reasons listed below.

Discussion:

- a) Because the proposed facilities to be financed by the Fairview Village CFD No. 2003-1 are located within a “potential archaeological resource study area” - defined on Figure V-8-2 of the adopted Master EIR, the proposed amendment could potentially result in an effect on loss of an archaeological or historic resource that was not already analyzed by the General Plan Master EIR (MEIR). Therefore the proposal would have less than significant impact with mitigation incorporated to causing a substantial adverse change in the significance of a historical resource as defined in CEQA §15064.5.

The Focused EIR Environmental Analysis (page 67) did not require and was not based on a site-specific survey. It assumed that there was a low probability of encountering resources during excavation and construction: “a records search for the area within a one-mile radius of the site was conducted at the Central California Information Center, Department of Anthropology, California State University at Stanislaus (CCIC), the results indicate that there are no recorded archaeological resources within one-mile radius of the site. The CCIC recommended a field survey be conducted by a qualified archaeologist; however, there is no evidence provided for the existence of any “important archaeological resources” on the site. Thus a preliminary surface field reconnaissance was deemed unnecessary at this time.”

Incorporate the following mitigation required by the Focused EIR, which addresses the discovery of a resource during construction, and potential effects will be reduced or avoided in that situation.

MITIGATION MEASURE- ARCHAEOLOGICAL AND HISTORIC RESOURCES:

In the event of discovery or recognition of any human remains during excavation or construction, Appendix K requires that there shall be not further excavation or disturbance of the site or any nearby area reasonably suspected to overlie adjacent human remains until:

The coroner of the County in which the remains are discovered has been informed and has determined that no investigation of the cause of death is required, and

If remains are of Native American origin,

- a. The descendants from the deceased Native Americans have made a recommendation to the landowners or the person responsible for the excavation work, for means of retreating or disposing of, with appropriate dignity, the human remains and any associated grave goods as provided in Public Resources Code Section 5097.98, or
- b. The Native American Heritage Commission was unable to identify a descendant or the descendant failed to make a recommendation within 24 hours after being notified by the commission.

Further, where the following conditions occur, the landowner or his authorized representative shall rebury the Native American human remains and associated grave goods with appropriate dignity on the property in a location not subject to further subsurface disturbance.

1. The Native American Heritage Commission is unable to identify a descendant;
2. The descendant identified fails to make a recommendation; or
3. The landowner or his authorized representative rejects the recommendation of the descendant, and the mediation by the Native American Heritage Commission fails to provide measures acceptable to the landowner.

If the human remains are discovered before the City has finished the CEQA process, the City shall work with the Native American Heritage Commission and the applicant to develop an agreement for treating or disposing, with appropriate dignity, of the human remains and any associated grave goods. Action implementing such an agreement is expect from:

1. The general prohibition on disinterring, disturbing, or removing human remains from any location other than a dedicated cemetery (health and Safety Code Section 7050.5).
2. The requirements of CEQA and the Coastal Act.

- b) Because the proposed facilities to be financed by the Fairview Village CFD No. 2003-1 and the land uses that it would serve are located inside of a "potential archaeological resource study area" – (defined on Figure V-8-2 of the MEIR) of the adopted General Plan Master EIR, the proposed project could potentially result in an effect on causing a substantial adverse change in the significance of an archaeological resource pursuant to §15064.5 that was not already analyzed by the General Plan Master EIR (MEIR). Therefore the proposal would have a less than significant impact with mitigation incorporated (per Item "a" above) to causing a substantial adverse change in the significance of an archaeological resource pursuant to CEQA §15064.5.

- c) Because the proposed facilities to be constructed by and the land uses to be served by Fairview Village CFD No. 2003-1 are inside of a “potential archaeological resource study area” - defined on Figure V-8-2 of the General Plan MEIR, and because mitigation is being incorporated into the project, construction of the proposed CFD facilities would have a less than significant impact with mitigation incorporated (per Item “a” above) to directly or indirectly destroying a unique paleontological resource or site or unique geologic feature.
- d) Because the proposed Fairview Village CFD No. 2003-1 facilities would be located within a “potential archaeological resource study area”, defined on Figure V-8-2 of the General Plan MEIR, the proposed CFD could potentially result in unearthing archaeological resources that was not already identified by the General Plan Master EIR (MEIR). However, since appropriate mitigation is being incorporated into the project from the Focused EIR, the proposal would have a less than significant impact with mitigation incorporated (per Item “a” above) to Disturb any human remains, including those interred outside of formal cemeteries.

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
--------	--------------------------------------	--	------------------------------------	-----------

IX. FLOODING AND WATER QUALITY – Compared to the Master EIR certified for the Modesto Urban Area General Plan, will the project result in increased impacts to:

a) Violate any water quality standards or waste discharge requirements.	[]	[X]	[]	[]
b) Substantially deplete groundwater supplies or interfere substantially with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level (e.g., the production rate of pre-existing nearby wells would drop to a level which would not support existing land uses or planned uses for which permits have been granted)?	[]	[]	[]	[X]
c) Substantially alter the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner which would result in substantial erosion or siltation on – or off-site?	[]	[]	[]	[X]
d) Create or contribute runoff water which would exceed the capacity of existing or planned stormwater drainage systems or provide substantial additional sources of polluted runoff?	[]	[X]	[]	[]
e) Otherwise, substantially degrade water quality?	[]	[]	[X]	[]
f) Place housing within a 100-year flood hazard area as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map?	[]	[]	[]	[X]

- | | | | | |
|--|-----|-----|-----|-------|
| g) Place within a 100-year flood hazard area structures which would impede or redirect flood flows? | [] | [] | [] | [X] |
| h) Expose people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam? | [] | [] | [] | [X] |
| i) Inundation by seiche, tsunami, or mudflow? | [] | [] | [] | [X] |

IX. FLOODING AND WATER QUALITY

Although the proposed project could have a significant effect on water quality (item a and e), there will not be a significant effect in this case because the mitigation measures described below will be added to the project. Therefore with the preparation of a Mitigated Negative Declaration pursuant to CEQA section 21157.5 that incorporates these Mitigation Measures into the project, the Existing Conditions, Impacts Analysis and Mitigation Measures contained in the Master EIR for Drainage, Flooding and Water Quality (pages IV-9-1 through IV-9-23) remain valid for the reasons discussed below.

Discussion:

- a) The proposed Fairview Village CFD No. 2003-1 facilities would have a less than significant impact with mitigation incorporated to violation of any water quality standards (with treatment) or waste discharge requirements. Potential water quality impacts exist in the area, as known by the City. Initial test borings within the project area have indicated elevated levels of contaminants. Specifically, these elevated levels of contaminants that exceed the California Water Code Title 22 drinking water standards, include nitrates, and uranium, silvex and 2,4-DB nitrates, uranium and manganese.

The Focused EIR relies on the Master EIR for water quality analysis. The Master EIR analysis (page V-10-3) states: "The Modesto urban area has some groundwater areas that experience elevated levels of salinity, hardness, nitrates, and naturally occurring uranium". However, the MEIR analysis did not specifically determine where these occurrences would be, nor does it contain specific mitigation measures to be applied for this particular impact.

The City's Engineering and Transportation Department, Capital Facilities Planning Division, has determined that based on a test hole the developer recently drilled within the Galas property the background concentrations of several constituents exceed Safe Drinking Water Act Maximum Contaminants Levels and will require various forms of treatment to ensure safe drinking water supply for the project.

The following impact analysis and mitigation was provided by the City's Engineering and Transportation Department, Capital Planning Division, in collaboration with the City's Operations and Maintenance Department, Water Division:

The test reports were prepared by the following firms submitted by Del Valle Homes to the City and on file with the Engineering and Transportation Department, Capital Planning Division:

- 1) Micro Analytical Laboratories, Inc. dated March 11, 2003, Micro Log In No. 44024, 44165, 43961 & 44077
- 2) North Coast Laboratories, Ltd., Lab Order Nos. 0303145, 0303275, 0303054 dated March 24, 2003; lab Order No. 0303276 dated April 1, 2003

- 3) JL Analytical Services, Inc. dated April 8, 2003 Lab No. 0303-00418; Lab. No. 0303-00140; 0303-00733; 0303-00222
- 4) Truesdail Laboratories, Inc., dated March 28, 2003, Laboratory No. 915267

The above subject reports indicated, among other things, the following:

IMPACT: WATER QUALITY 1

Water Quality Test Results for Nitrate:

The four samples taken from the test well, at different strata levels below grade, indicated the following nitrate concentrations:

- 84 mg/L (128 ft. – 183 ft. below grade)
- 28 mg/L (210 ft. – 267 ft. below grade)
- 58 mg/L (315 ft. – 372 ft. below grade)
- 44 mg/L (399 ft. – 456 ft. below grade)

The Maximum Contaminant Level (MCL) for nitrate is 45 mg/L. Nitrate detection is associated with runoff from fertilizer use, leaching from septic tanks or sewer pipes, and erosion of natural deposits.

MITIGATION MEASURE – WATER QUALITY 1:

Potential treatment measures include: (1) Ion Exchange, (2) Reverse Osmosis, (3) Electrodialysis/Electrodialysis Reversal (4) Algal Growth and Harvesting and Disposal, (5) Dual Water Supply and Blending, (6) Combinations of Ozonation, Sand Filtration, and Granular Activated Carbon Filtration, and (7) Biological Denitrification – or the functional equivalent.

Each of these various methods of treatment have been shown to reduce nitrate in water to acceptable levels. Prior to construction, a study shall be prepared to determine the appropriate type/method of treatment. All work shall be conducted by a registered water treatment engineer.

IMPACT – WATER QUALITY 2

Water Quality Test Results for Gross Alpha (Indicator for Uranium):

The four samples taken from the test well, at different strata levels below grade, indicated the following gross alpha concentrations:

- 19.5 pCi/L (128 ft. – 183 ft. below grade)
- 21.8 pCi/L (210 ft. – 267 ft. below grade)
- 21.9 pCi/L (315 ft. – 372 ft. below grade)
- 27.6 pCi/L (399 ft. – 456 ft. below grade)

The Maximum Contaminant Level (MCL) for gross alpha is 15 pCi/L. Gross Alpha occurs in some drinking water sources and is associated with erosion of natural deposits.

MITIGATION MEASURE – WATER QUALITY 2

Potential treatment measures include: (1) Ion Exchange and (2) Blending with water of lower gross alpha levels – or the functional equivalent.

Either or both of these methods of treatment will be applied to reduce gross alpha in water to levels below that of the MCL.

IMPACT – WATER QUALITY 3

Water Quality Test Results for Arsenic:

The four samples taken from the test well, at different strata levels below grade, indicated the following arsenic concentrations:

- <3 ug/L (128 ft. – 183 ft. below grade)
- 6 ug/L (210 ft. – 267 ft. below grade)
- <3 ug/L (315 ft. – 372 ft. below grade)
- 6 ug/L (399 ft. – 456 ft. below grade)

The Maximum Contaminant Level (MCL) for Arsenic is currently 50 ug/L. The USEPA has set a future MCL for Arsenic at 10 ug/L. The State of California is currently considering adopting a more stringent standard for Arsenic which may be as low as 4 ug/L.

MITIGATION MEASURE – WATER QUALITY 3

Potential treatment measures include: (1) Ion Exchange, (2) Reverse Osmosis, (3) Electrodialysis/Electrodialysis Reversal, (4) Activated Alumina, Adsorption (5) Dual Water Supply and Blending, (6) Adsorption onto granular ferric hydroxide media (7) Adsorption onto granular ferric oxide media, (8) Oxidation and filtration using anthracite coal and or Greensand media and (9) Zirconium media adsorption/filtration.

Each of these various methods of treatment have been shown to reduce arsenic in water to levels below that of the MCL and new technologies for Arsenic treatment are still emerging. Prior to construction, a study shall be prepared to determine the appropriate type/method of treatment. All work shall be conducted by a registered water treatment engineer.

IMPACT – WATER QUALITY 4

Water Quality Test Results for Silvex and 2,4-DB

The four samples taken from the test well, at different strata levels below grade, indicated the following Silvex and 2,4-DB concentrations:

<u>Silvex</u>	<u>2,4-DB</u>
ND	ND (128 ft. – 183 ft. below grade)
ND	ND (210 ft. – 267 ft. below grade)
ND	ND (315 ft. – 372 ft. below grade)
1.0 ug/L	91 ug/L (399 ft. – 456 ft. below grade)

The Maximum Contaminant Level (MCL) for Silvex is 1.0 ug/L. The maximum contaminant level for 2,4-DB is 10 ug/L.

MITIGATION MEASURE – WATER QUALITY 4

Potential treatment measures include: (1) Coagulation, Flocculation and Filtration, (2) Granular Activated Carbon Adsorption, (3). Powdered activated carbon adsorption.

Each of these various methods of treatment have been shown to reduce organic compounds in water to levels below that of the MCL. Prior to construction, a study shall be prepared to determine the appropriate type/method of treatment. All work shall be conducted by a registered water treatment engineer.

IMPACT – WATER QUALITY 5

Water Quality Test Results for Manganese

The four samples taken from the test well at different strata levels below grade, indicated the following Manganese concentrations:

Manganese

- 0.03 mg/L (128 ft. – 183 ft. below grade)
- 0.38 mg/L (210 ft. – 267 ft. below grade)
- 0.05 mg/L (315 ft. – 372 ft. below grade)
- 0.19 mg/L (399 ft. – 456 ft. below grade)

The Secondary Standard for Manganese is 0.05 mg/L. There are no known health effects associated with the ingestion of Manganese, however staining of plumbing fixtures may occur at concentrations above the secondary standard.

MITIGATION MEASURE – WATER QUALITY 5

Potential treatment measures include: (1) Oxidation and filtration,, (2) Reverse Osmosis (3) Greensand Filtration.

Each of these various methods of treatment have been shown to reduce Manganese in water to levels below that of the secondary standard. Prior to construction, a study shall be prepared to determine the appropriate type/method of treatment. All work shall be conducted by a registered water treatment engineer.

- b) Because the proposed Fairview Village CFD No. 2003-1 facilities and the land uses it would serve are consistent with the adopted Specific Plan, the water supply requirements would be the same as analyzed in the Master EIR, there would be no impact to Substantial depletion of groundwater supplies or substantial interference with groundwater recharge such that there would be a net deficit in aquifer volume or a lowering of the local groundwater table level.
- c) Because the Fairview Village CFD No. 2003-1, its facilities and the land uses it would serve are consistent with planned development in the Fairview Village CPD and adopted Specific Plan Area of the General Plan and the City requires new development to be served by a positive storm drainage system as described by measures SD-9 through SD-14, page V-9-5, Master EIR, there will be no impact to substantially altering the existing drainage pattern of the site or area, including through the alteration of the course of a stream or river, in a manner which would result in substantial erosion or siltation on – or off-site.
- d) The Fairview Village CFD No. 2003-1, its facilities and the land uses it would serve, are consistent with the adopted Specific Plan, or conditions of development with the exception of the need to construct a new gravity storm drain line to provide the necessary capacity to empty the basin. The construction of this new gravity storm drain line in existing public right-of-way would not contribute substantial additional sources of polluted runoff. Therefore, the project would have a less than significant impact with mitigation incorporated. Specifically, the storm drainage basin will incorporate current City adopted stormwater quality control measures as mitigation to polluted runoff.

MITIGATION MEASURE – WATER QUALITY 6

The storm water basin shall incorporate current City adopted stormwater quality control measures described in the Guidance Manual for New Development stormwater Quality Controls measures dated January 2001.

- e) Because the Fairview Village CFD No. 2003-1 the land uses it serves and the facilities it would construct, specifically contaminant levels in the drinking water wells, were not considered in the water quality analysis of the MEIR, there is the potential for effects on water quality beyond that analyzed. However, the proposed Fairview Village CFD No. 2003-1 would have a less than significant impact with mitigation incorporated to otherwise, substantially degrading water quality. Specifically, the contaminant levels from drinking water wells, if not properly mitigated, could impact water quality. Mitigation is provided, (see also item a, above) that would ensure a Less than Significant impact:
- f) Because the Fairview Village CFD No. 2003-1, the facilities it would construct, and the residential land uses it would serve, are outside of any flood potential area as described on Master EIR Figure V-10-1b, there will be no impact to placing housing within a 100-year flood hazard area as mapped on a federal Flood Hazard Boundary or Flood Insurance Rate Map or other flood hazard delineation map (see Exhibit "G", 100-Year Floodway Map).
- g) Because the Fairview Village CFD No. 2003-1, its facilities that would be built and land uses it would serve, will be in a planned residential area of the Planned Urbanizing Area of the adopted General Plan, and are outside of any flood potential areas as described on Master EIR Figure V-10-1b, there will be no impact to placing within a 100-year flood hazard area structures which would impede or redirect flood flows (see Exhibit "G", 100-Year Floodway Map).
- h) Since the proposed Fairview Village CFD No. 2003-1, the facilities it would construct and the land uses it would serve are in an adopted Specific Plan residential area of the Urban Area General Plan, and are outside of any flood potential areas as described on Master EIR Figure V-10-1b, there will be no impact to exposing people or structures to a significant risk of loss, injury or death involving flooding, including flooding as a result of the failure of a levee or dam.
- i) Since the proposed Fairview Village CFD No. 2003-1, the facilities it would construct, and the land uses it would serve, would be located within an adopted Specific Plan area in planned residential areas of the adopted General Plan, there will be no impact to inundation by seiche, tsunami, or mudflow.

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
--------	--------------------------------	--	------------------------------	-----------

X. INCREASED DEMAND FOR STORM DRAINAGE

- Compared to the Master EIR certified for the Modesto Urban Area General Plan and the certified Focused EIR, would the project result in increased impacts to:

- a) Require or result in the construction of new storm water drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effect? See IX(d)

[]	[]	[X]	[]
-----	-----	-------	-----

X. INCREASED DEMAND FOR STORM DRAINAGE

The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Increased Demand for Storm Drainage (pages V-10-1 through V-10-8) remain valid for the reasons discussed below.

Discussion:

- a) Because the proposed Fairview Village CFD No. 2003-1, would finance the construction of a portion of the storm drainage basin to serve the Fairview Village Specific Plan area designed to supplement planned regional drainage basins, thus providing increased storage capacity for times of high storm events, and the City requires all new development to be served by a positive storm drainage system as described by measures SD-9 through SD-14, page v-9-5, Master EIR, and the proposal would have a less-than-significant impact to any requirements for or result in the construction of new storm water drainage facilities or expansion of existing facilities, the construction of which could cause significant environmental effect. The facilities to be financed by the CFD would be essentially the same as described in the adopted Specific Plan with the exception that the discharge line draining to the Tuolumne River would be increased from 18 inches to 30 inches. In addition, the facility would be constructed and operated in accordance with the City's Guidance Manual for New Development, Stormwater Quality Control Measures.

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
--------	--------------------------------	--	------------------------------	-----------

XI. INCREASED DEMAND FOR PARKS AND OPEN SPACE – Compared to the Master EIR certified for the Modesto Urban Area General Plan would the project result in increased impacts to:

- a) Would the project increase the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated? [] [] [] [X]
- b) Does the project include recreational facilities or require the construction or expansion of recreational facilities which might have an adverse effect on the environment? [] [] [] [X]

XI. INCREASED DEMAND FOR PARKS AND OPEN SPACE

The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Increased Demand for Parks and Open Space (pages V-11-1 through V-11-11) remain valid for the reasons discussed below.

Discussion:

- a) Because the proposed Fairview Village CFD No. 2003-1 provides for an effective increase in the amount of available neighborhood park and open space land to serve the adopted Fairview Village Specific Plan's land use with the Galas Subdivision contributing to that park land, bike path and parkways, the project would have no impact to increasing the use of existing neighborhood and regional parks or other recreational facilities such that substantial physical deterioration of the facility would occur or be accelerated.
- b) Because the proposed Fairview Village CFD No. 2003-1, the facilities it would construct, includes financing the construction of a portion of the central neighborhood park for the specific plan area as well as bike path and parkways, in accordance with the City's Parks, Recreation and Neighborhoods Department criteria, there will be no impact to the requirement for the construction or expansion of recreational facilities which might have an adverse effect on the environment.

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
--------	--------------------------------	--	------------------------------	-----------

XII. INCREASED DEMAND FOR SCHOOLS –

Compared to the Master EIR certified for the Modesto Urban Area General Plan would the project result in increased impacts to:

Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered school facilities, need for new or physically altered school facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for school services:	[]	[]	[]	[X]
---	-----	-----	-----	-------

XII. INCREASED DEMAND FOR SCHOOLS

The Existing Conditions, Impacts Analysis and Mitigation Measures listed in the MEIR for Increased Demand for Schools (pages IV-12-1 through IV-12-11) remain valid for reasons discussed below.

Discussion:

- a) Because the proposed Fairview Village CFD No. 2003-1 provides financing for the construction of infrastructure (portion of neighborhood park, water tank, pump station, water well, storm drainage basin, various pipes and other related facilities, etc.) to serve residential development, not the residential development itself, and the infrastructure has no associated student generation, there would be no impact to substantial adverse physical impacts associated with the provision of new or physically altered school facilities, need for new or physically altered school facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, or other performance objectives for school services. The residential development served by the facilities would pay school district facilities fees to mitigate impacts on demand for schools pursuant to Government Code Section 53080 (page 73, Focused EIR).

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
--------	--------------------------------	--	------------------------------	-----------

XIII. INCREASED DEMAND FOR POLICE SERVICES – Compared to the Master EIR certified for the Modesto Urban Area General Plan would the project result in increased impacts to:

- | | | | | |
|---|-----|-----|-----|-------|
| a) Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered police service facilities, need for new or physically altered police facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for police services | [] | [] | [] | [X] |
|---|-----|-----|-----|-------|

XIII. INCREASED DEMAND FOR POLICE SERVICES

The Existing Conditions, Impacts Analysis and Mitigation Measures contained in the MEIR for Increased Demand for Police Services (pages IV-13-1 through IV-13-8) are still valid for the reasons discussed below.

Discussion:

- a) Because the facilities to be constructed by the Fairview Village CFD No. 2003-1 (water wells, tanks, storm drain basin, portion of a neighborhood park etc.) would be designed and constructed according to City standards, there would be no unusual police demand created by their construction and operation. The residential development served by the CFD would pay City Capital Facilities Fees, which include a component for Police capital infrastructure to maintain appropriated levels of service as described by measures PS-3 through PS-8, pages V-13-3, V-13-14, Master EIR. Therefore, the project would result in no impact to substantial adverse physical impacts associated with the provision of new or physically altered police service facilities, the need for new or physically altered police facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for police services.

XIV. INCREASED DEMAND FOR FIRE SERVICES – Compared to the Master EIR certified for the Modesto Urban Area General Plan would the project result in increased impacts to:

- | | | | | |
|---|-----|-----|-----|-------|
| a) Would the project result in substantial adverse physical impacts associated with the provision of new or physically altered fire protection facilities, need for new or physically altered fire protection facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for fire protection services. | [] | [] | [] | [X] |
|---|-----|-----|-----|-------|

XIV. INCREASED DEMAND FOR FIRE SERVICES

The Existing Conditions, Impacts Analysis and Mitigation Measures contained in the MEIR for Increased Demand for Fire Services (pages V-14-1 through V-14-9) remain valid for the reasons discussed below.

Discussion:

- a) Because the standard nature of the public facilities to be constructed and financed by Fairview Village CFD NO. 2003-1, (parks, water wells, tanks and storm drainage basins consistent with the adopted Specific Plan) they would be designed and constructed according to City standards including review by the Fire Marshall regarding Fire Code conformance. In addition, the residential development served by the CFD would pay the City Capital Facilities Fees, which would include a component for fire capital facilities to maintain appropriate levels of service as described by mitigation measures FS-6 through FS-18, pages V-14-3 thru V-14-15, Master EIR. Therefore, the project would result in No Impact to substantial adverse physical impacts associated with the provision of new or physically altered fire protection facilities, need for new or physically altered fire protection facilities, the construction of which could cause significant environmental impacts, in order to maintain acceptable service ratios, response times or other performance objectives for fire protection services.

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
--------	--------------------------------	--	------------------------------	-----------

XV. GENERATION OF SOLID WASTE – Compared to the Master EIR certified for the Modesto Urban Area General Plan would the project result in increased impacts to:

- | | | | | |
|--|-----|-----|-----|-------|
| a) Comply with federal, state, and local statutes and regulations related to solid waste? | [] | [] | [] | [X] |
| b) Be served by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs? | [] | [] | [] | [X] |

XV. GENERATION OF SOLID WASTE

The Existing Conditions, Impacts Analysis and Mitigation Measures contained in the MEIR for Generation of Solid Waste (pages V-15-1 through V-15-10) remain valid for the reasons discussed below.

Discussion:

- a) Because the Fairview Village CFD No. 2003-1 would finance the construction of standard neighborhood public facilities (water wells, pump stations, water tanks, drainage basins, parks, etc.) and they would be consistent with the analysis in adopted Specific Plan and, there would be no significant increase in generation of solid waste and therefore no impact to compliance with federal, state, and local statutes and regulations related to solid waste. (See also Section XVI Hazardous Materials, item a).)

- b) Because construction of facilities funded by Fairview Village CFD No. 2003-1 would be consistent with the adopted Specific Plan and Master EIR, there would be no significant change in the size and nature of the planned facilities (parks and drainage basins, etc.) The Master EIR analysis indicates there currently exists adequate capacity in existing Stanislaus County landfill sites to accommodate waste generation by development of the Modesto General Plan to the year 2025. It also indicates a proposed expansion of the landfill will be available beyond that date. Therefore, there would be no impact to increase in demand for service by a landfill with sufficient permitted capacity to accommodate the project's solid waste disposal needs. (pages V-15-7 and V-15-8)

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
XVI. GENERATION OF HAZARDOUS MATERIALS				
– Compared to the Master EIR certified for the Modesto Urban Area General Plan will the project result in increased impacts to:				
a) Create a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials?	[]	[X]	[]	[]
b) Create a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment.	[]	[]	[]	[X]
c) Emit hazardous emissions or handle hazardous with acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school?	[]	[X]	[]	[]
d) Be located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, would it create a significant hazard to the public or the environment?	[]	[]	[]	[X]
e) For a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, would the project result in a safety hazard for people residing or working in the project area?	[]	[]	[]	[X]
f) For a project within the vicinity of a private airstrip, would the project result in a safety hazard for people residing or working in the project area?	[]	[]	[]	[X]
g) Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan?	[]	[]	[]	[X]

h) Expose people or structures to a significant risk of loss, injury or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands? [] [] [] [X]

XVI. GENERATION OF HAZARDOUS MATERIALS

The proposed project could have a less than significant effect on public exposure to hazardous materials or hazardous materials within ¼ mile of a proposed school (items a and c). Therefore, the Existing Conditions, Impacts Analysis and Mitigation Measures contained in the Master EIR for Generation of Hazardous Materials (pages V-16-1 through V-16-15) remain valid for the reasons discussed below.

Discussion:

- a) The following impact analysis and mitigation is provided by the City's Operations and Maintenance Department Water Division staff in collaboration with the Engineering and Transportation Department, Capital Facilities Planning Division: The proposed Fairview Village CFD No. 2003-1 would construct some facilities that would use or generate hazardous materials that would be a very low level of hazard. The water well-head treatment facilities could include hypochlorination equipment that require the storage and operation of sodium hypochlorite (bleach) tanks. These low pressure tanks are used throughout the Modesto urban area and are very safe and pose no danger to the surrounding residential area or schools. The water well-head treatment of Ion Exchange would include the accumulation of various by-products as a result of removing them from the groundwater such as Arsenic, Uranium and Nitrate and other dissolved solids. The only waste generated by the ion exchange treatment process requiring special handling and disposal is the spent brine. Waste management companies will be used to properly and legally manage the brine transportation and disposal. The brine is expected to be characterized as "Non-Hazardous Liquid Waste" and will be managed according to DOT regulations. The wellhead treatment of reverse osmosis, electro dialysis and electro dialysis reversal would result in a water waste stream of concentrations of Arsenic, Uranium, Nitrate and Total Dissolved Solids at concentrations higher than those found in the well water. The reject stream from this process would be deposited into the sanitary sewer and treated at the waste water treatment plant. The wellhead treatment of the various adsorption media would result in an accumulation of Arsenic and certain other inorganics on the media as a result of removing them from the well water. The wellhead treatment using activated carbon would include the accumulation of organic compounds as a result of removing them from the groundwater, such as Silvex and 2,4-DB. The wellhead treatment for manganese is oxidation with sodium hypochlorite followed by settling and/or filtration using anthracite coal or greensand filters. Filter backwash water containing precipitated manganese may be fed into the sanitary sewer. This treatment will required no additional chemicals because sodium hypochlorite is already being used as a disinfectant. Removal of manganese sludge from the storage tanks will be performed periodically following AWWA standards for water storage tanks AWWA C652-02 and AWWA D101-53 (R86 and performed by inspectors certified by National Association of Corrosion Engineers. Activated carbon will be backwashed and the backwash water deposited into the sanitary sewer. Spent carbon will be replaced with new carbon and transported to the manufacturer for regeneration. However, these treatment facilities are in operation throughout many urban areas throughout State of California and there are routine operational procedure that assure the safety of the surrounding land uses, including residential neighborhoods and schools. Whenever possible, the chemicals used will be chosen with consideration to the safety of the public and will be the least toxic chemicals that are available to perform the necessary treatment. All chemical used for wellhead treatment will be delivered by licensed drivers, fully trained in the hazards of the materials they are transporting. All chemicals and treatment materials that are stored at the treatment site will be self contained and stored within double containment facilities when appropriate to do so. All handlers of spent materials will be licensed and fully trained in the proper handling,

transportation, and disposal of these materials. Deliveries, transportation and disposal of all materials will be done in accordance with all applicable Federal, State, County and Local Ordinances. City Operations and Maintenance Department staff also indicated that with the incorporation of the procedures cited below as Mitigation, there would be a Less-Than-Significant Impact with Mitigation Incorporated on creation of a significant hazard to the public or the environment through the routine transport, use, or disposal of hazardous materials.

MITIGATION MEASURE – HAZARDOUS MATERIALS

1. All chemicals storage tanks will have a secondary containment facility capable of holding the entire volume of the material stored in the tank in the event of a rupture to prevent accidental release.
2. All brine tanks will have a secondary containment facility capable of storing all of the brine in the event of tank failure.
3. All chemical storage tanks will be surrounded by a locked fence to prevent vandalism.
4. All ion exchange resin tanks will be housed in locked mobile containers capable of containing leaks and preventing damage due to climate or vandalism.
5. The brine delivery and disposal will be accomplished using locked boxes equipped with chemical cam lock off loading stations so trucks do not need to enter the well treatment area to load and unload materials.
6. The wellhead treatment site will be fully enclosed by a wall or fence and will remain locked at all times. The facilities will be inspected regularly.
7. Signs will be posted warning emergency responders of the hazards associated with high voltage electricity and NIOSH warnings regarding the chemicals which may be stored on site.
8. The removal of manganese sludge will be performed by certified divers according to AWWA standards.

b) Because the proposed Fairview Village CFD No. 2003-1, the facilities that it would construct, specifically, the water well-head treatment facilities, the operation and maintenance of these facilities (see above discussion in item (a) regarding potential hazardous materials) would be in accordance with the procedures of the City's Operations and Maintenance Department, there would be no foreseeable hazardous materials accident conditions. Therefore, there would be no impact to creation of a significant hazard to the public or the environment through reasonably foreseeable upset and accident conditions involving the release of hazardous materials into the environment. Should an accidental spill or hazardous materials incident occur, the appropriate division of the County Environmental Resources Department and City Departments would respond as with any other location within the Modesto Urban Area.

c) Because the facilities to be constructed by the Fairview Village CFD No. 2003-1, include water well-head treatment facilities, the operation and maintenance of these facilities (see above discussion in item a) regarding potential hazardous materials) would be in accordance with the procedures of the City's Operations and Maintenance Department, there would be no foreseeable hazardous materials accident conditions. Therefore, there might be a potential for the exposure to the public to toxic materials that are used in well-head treatment facilities such as sodium hypochlorite (bleach) or by products of other treatment processes. However, City Operations and Maintenance staff indicate that with the incorporation of the appropriate procedural program of Mitigation cited below there would be a Less Than Significant Impact with Mitigation Incorporated Impact to emission of or handling of hazardous or acutely hazardous materials, substances, or waste within one-quarter mile of an existing or proposed school. **Incorporation of the procedures mitigation cited below would ensure a Less than Significant impact:**

MITIGATION MEASURE – HAZARDOUS MATERIALS

The mitigation provided by item a) above will reduce impacts for item c) to Less Than Significant.

- d) The proposed Fairview Village CFD No. 2003-1 and the facilities it would construct would be located within future residential areas of the General Plan as designated in the adopted Fairview Village Specific Plan, and would not be located within any known Hazardous Materials Zones as described on the CA Department of Toxic Substance Controls' Hazardous Waste and Substances Site List (Cortese List), list dated 10/6/03 for Stanislaus County reviewed by City Staff. Therefore, there would be no impact to being located on a site which is included on a list of hazardous materials sites compiled pursuant to Government Code Section 65962.5 and, as a result, the project would not create a significant hazard to the public or the environment.
- e) Because the proposed Fairview Village CFD facilities and the land uses it serves, are in excess of 2 miles west of the Modesto City/County airport, there would be no impact to a project located within an airport land use plan or, where such a plan has not been adopted, within two miles of a public airport or public use airport, the project would not result in a safety hazard for people residing or working in the project area.
- f) Because the proposed facilities to be financed and constructed by the Fairview Village CFD No. 2003-1 and the development it would serve would be located within a planned City subdivision that is part of an adopted Specific plan area and there are no private airstrips within or adjacent to the Modesto General Plan Area , there would be no impact to a project within the vicinity of a private airstrip, or a safety hazard for people residing or working in the project area.
- g) Because the proposed Fairview Village CFD No. 2003-1 and the facilities it would construct would be located within a planned City Neighborhood within an adopted Specific Plan with a circulation system designed per City Engineering and Transportation Department standards, there would be no impact to Impair implementation of or physically interfere with an adopted emergency response plan or emergency evacuation plan. The Specific Plan development would improve Carpenter Road which is an Emergency Evacuation Route per Figure VI-3 of the General Plan.
- h) Because the facilities to be constructed by the Fairview Village CFD No. 2003-1 will be located within an approved Specific Plan within a Comprehensive Planning District of the Modesto General Plan, which is currently irrigated agricultural, orchard and row crop lands, there would be no impact to exposing people or structures to a significant risk of loss, injury or death involving wildland fires, including where wildlands are adjacent to urbanized areas or where residences are intermixed with wildlands.

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporated	Less Than Significant Impact	No Impact
--------	--------------------------------	--	------------------------------	-----------

XVII. LANDSLIDES AND SEISMIC ACTIVITY –

Compared to the Master EIR certified for the Modesto Urban Area General Plan will the project result in increased impacts to:

- a) Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving:

[]	[]	[]	[X]
-----	-----	-----	-------

- | | | | | |
|--|--------------------------|--------------------------|--------------------------|-------------------------------------|
| b) Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault? | c) Strong seismic ground shaking? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| d) Seismic-related ground failure, including liquefaction? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| e) Landslides? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| f) Result in substantial soil erosion or the loss of topsoil? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| g) Be located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction or collapse? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| h) Be located on expansive soil, as defined in Table 18-1B of the Uniform Building Code (1994), creating substantial risks to life or property? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |
| i) Have soils incapable of adequately supporting the use of septic tanks or alternative waste water disposal systems where sewers are not available for the disposal of waste water? | <input type="checkbox"/> | <input type="checkbox"/> | <input type="checkbox"/> | <input checked="" type="checkbox"/> |

XVII LANDSLIDES AND SEISMIC ACTIVITY

The Existing Conditions, Impacts Analysis and Mitigation Measures contained in the MEIR for Landslides and Seismic Activity (pages V-17-1 through V-17-11) remain valid for the reasons discussed below.

Discussion:

- a) Because the proposed Fairview Village CFD No. 2003-1 for the Fairview Village Specific Plan Area, and the Galas Brothers Subdivision are located in a residential Comprehensive Planning District of the General Plan, and, per Figure 17-1 MEIR, the nearest fault is 15 miles west of the Modesto General Plan Area, there is no impact to exposure of people or structures to potential substantial adverse effects, including the risk of loss, injury, or death.
- b) Because the proposed Fairview Village CFD No. 2003-1 for the Fairview Village Specific Plan Area, and the Galas Brothers Subdivision are located within a City Comprehensive Planning District of the General Plan, and per Figure 17-1 MEIR, the nearest fault is 15 miles west of the Modesto General Plan Area, there is no impact to exposure of people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving: Rupture of a known earthquake fault, as delineated on the most recent Alquist-Priolo Earthquake Fault Zoning Map issued by the State Geologist for the area or based on other substantial evidence of a known fault.

- c) Because the proposed Fairview Village CFD No. 2003-1 for the Fairview Village Specific Plan Area and the Galas Brothers Subdivision would be located with planned Comprehensive Planning District residential areas of the General Plan, and per Figure 17-1 MEIR, the nearest fault is 15 miles west of the Modesto General Plan Area, there is no impact to exposure of people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving strong seismic ground shaking.
- d) Because the proposed Fairview Village CFD No. 2003-1 located within planned City Comprehensive Planning District of the General Plan, and per Figure 17-1 MEIR, the nearest fault is 15 miles west of the Modesto General Plan Area, there is no impact to Expose people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving Seismic-related ground failure, including liquefaction
- e) Because the proposed Fairview Village CFD NO. 2003-1 the facilities it would construct, and the land uses it would serve, are located with planned City Neighborhood parks in future residential areas of the General Plan, Fairview Village Comprehensive Planning District, there is no impact to exposure of people or structures to potential substantial adverse effects, including the risk of loss, injury, or death involving result in landslides.
- f) Because the proposed Fairview Village CFD NO. 2003-1, the facilities it would construct and the land uses it would serve are located within planned City Neighborhood parks in future residential areas of the General Plan where development must be pursuant to the City's Standards and Uniform Building Code, there is no impact to exposure of people or structures to potential substantial adverse effects resulting in substantial soil erosion or the loss of topsoil.
- g) Because the Fairview Village CFD NO. 2003-1, located within adopted Specific Plan area future residential areas of the General Plan constructed to City standards, and Uniform Building Code which rates the suitability of soils for development, there is no impact to being located on a geologic unit or soil that is unstable, or that would become unstable as a result of the project, and potentially result in on- or off-site landslide, lateral spreading, subsidence, liquefaction or collapse.
- h) Because the proposed Fairview Village CFD NO. 2003-1 facilities to serve future residential area of the General Plan constructed to City standards and the Uniform Building Code, there is no impact to being located on expansive soil, as defined in Table 18- 1B of the Uniform Building Code (1994), creating substantial risks to life or property.
- i) The proposed Fairview Village CFD No. 2003-1 facilities would be located within a planned City future residential area of the General Plan and constructed to City standards, there is no impact to soils incapable of adequately supporting the use of septic tanks or alternative waste water disposal systems where sewers are not available for the disposal of waste water, because the Modesto Municipal Code requires connection to the City's Sanitary Sewer System and does not permit construction of alternative waste water disposal system.

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
XVIII. <u>ENERGY</u> – Compared to the Master EIR certified for the Modesto Urban Area General Plan would the project result in increased impacts to:				
a) Use of fuel, water, or energy in a wasteful manner.	[]	[]	[]	[X]
b) Encourage activities which result in the use of large amounts of fuel, water, or energy.	[]	[]	[]	[X]

XVIII. ENERGY

The Existing Conditions, Impacts Analysis and Mitigation Measures contained in the MEIR for Landslides and Seismic Activity (pages V-17-1 through V-17-11) remain valid for the reasons discussed below.

Discussion:

- a) Because service providers indicated ability to serve the area covered by the MEIR, including the Fairview Village CFD No. 2003-1, and because of the low energy requirements of the land uses associated with the project (storm drainage basin, water tanks, pumps, pipes, well-head treatment, and parks facilities) there would be no impact to use of fuel, water, or energy in a wasteful manner.
- b) Because energy service providers indicated ability to serve the area covered by the MEIR, including Fairview Village CFD No. 2003-1 and because of the low energy requirements of the land uses associated with the project (storm drainage basin, water tanks, pumps, pipes, well-head treatment, and parks facilities) there would be no impact to Encourage activities which result in the use of large amounts of fuel, water, or energy.

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
XIX. <u>AESTHETICS</u>– Would the Project:				
a) Have a substantial adverse effect on a scenic vista?	[]	[]	[X]	[]
b) Substantially damage scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway?	[]	[]	[]	[X]
c) Substantially degrade the existing visual character or quality of the site and its surroundings?	[]	[]	[]	[X]
d) Create a new source of substantial light or glare which would adversely affect day or nighttime views in the area	[]	[]	[]	[X]

XIX. AESTHETICS

Discussion:

- a) Because the proposed Fairview Village CFD No. 2003-1 and the facilities it would construct (water wells, parks, storm drainage basins, water tanks, parkways etc) for the Galas Brothers Subdivision would be landscaped and include a program of maintenance to prevent the degradation of the visual character of the facilities, and are located within an adopted Specific Plan that provides standards for residential development there would be a less than significant impact to a substantial adverse effect on scenic vista.
- b) Because the proposed Fairview Village CFD No. 2003-1 and the facilities it would construct to serve the Galas Brothers Subdivision would be addressed by the policies and standards in the Fairview Village adopted Specific Plan, and there are no unique scenic resources because the property is essentially, irrigated commercial farm land, there is no impact to substantially damaging scenic resources, including, but not limited to, trees, rock outcroppings, and historic buildings within a state scenic highway.
- c) Because the proposed Fairview Village CFD No. 2003-1 and the facilities it would construct to serve the Galas Brothers Subdivision, would be addressed by the policies and standards contained in the adopted Fairview Village Specific Plan, and the existing visual character of the site and its surroundings with is that of an irrigated commercial farm property, there would be no impact to substantially degrading the existing visual character or quality of the site and its surroundings.
- d) Because the proposed Fairview Village CFD No. 2003-1 and the infrastructure it would construct are located within the adopted Fairview Village Specific Plan area, the City's standards and criteria for development would apply. Therefore City standards for design and development of lighting facilities would have no impact on creating a new source of substantial light or glare which would adversely affect day or nighttime views in the area.

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------	--------------------------------------	---	------------------------------------	-----------

XX. LAND USE AND PLANNING – Would the project:

- | | | | | |
|---|-----|-----|-----|-------|
| a) Physically divide an established community? | [] | [] | [] | [X] |
| b) Conflict with any applicable land use plan, policy, or regulation of an agency with jurisdiction over the project (including, but not limited to the general plan, specific plan, local coastal program, or zoning ordinance) adopted for the purpose of avoiding or mitigating an environmental effect? | [] | [] | [] | [X] |
| c) Conflict with any applicable habitat conservation plan or natural community conservation plan? | [] | [] | [] | [X] |

XX. LAND USE AND PLANNING

Discussion:

- a) Because the proposed Fairview Village CFD No. 2003-1 and the facilities it would construct (water wells, parks, storm drainage basins, water tanks, parkways etc) for the Galas Brothers Subdivision are located within an adopted Specific Plan for the development of an existing approximately 82-acre irrigated commercial farm property, there would be a no impact to physically dividing an established community.
- b) Because the proposed Fairview Village CFD No. 2003-1 and the facilities it would construct to serve the Galas Brothers Subdivision would be addressed by City of Modesto (lead agency) policies and standards in the Fairview Village adopted Specific Plan, there is no impact to conflict with any applicable land use plan, policy, or regulation of an agency with jurisdiction over the project (including, but not limited to the general plan, specific plan, local coastal program, or zoning ordinance) adopted for the purpose of avoiding or mitigating an environmental effect.
- c) Because the proposed Fairview Village CFD No. 2003-1 and the facilities it would construct to serve the Galas Brothers Subdivision, would be addressed by the policies and standards contained in the adopted Fairview Village Specific Plan, and the site and its surroundings are an irrigated commercial farm property with no applicable conservation plan or agricultural preservation restrictions, there would be no impact to conflict with any applicable habitat conservation plan or natural community conservation plan.

Issues	Potentially Significant Impact	Less Than Significant With Mitigation Incorporation	Less Than Significant Impact	No Impact
--------	--------------------------------	---	------------------------------	-----------

XXI. MANDATORY FINDINGS OF SIGNIFICANCE

- a) Does the project have the potential to degrade the quality of the environment, substantially reduce the habitat of a fish or wildlife species, cause a fish or wildlife population to drop below self-sustaining levels, threaten to eliminate a plant or animal community, reduce the number or restrict the range of a rare or endangered plant or animal or eliminate important examples of the major periods of California history or prehistory? [] [x] [] []

- b) Does the project have impacts that are individually limited, but cumulatively considerable? (“Cumulatively considerable means that the incremental effects of a project are considerable when viewed in connection with the effects of past projects, the effect of other current projects, and the effects of probable future projects). [] [x] [] []

- c) Does the project have environmental effects which will cause substantial adverse effects on human beings, either directly or indirectly? [] [x] [] []

XXI. MANDATORY FINDINGS OF SIGNIFICANCE

Discussion:

- a) As set forth in the MEIR and this Initial Study, this project does not have the potential to further degrade the quality of the environment. Although the project would be located within areas identified in the MEIR as potentially biologically, archaeologically, historically or otherwise significant area, and although the Initial Study has identified new potential impact not analyzed in the Master EIR or Focused EIR to water supplies, water quality, and hazardous materials with the application of appropriate available mitigation measures, these potential impacts can be reduced to less than significant with mitigation incorporated (see Section XXII below for mitigation measures).

- b) Because the project would provide a financing mechanism for the construction of the necessary facilities to meet General Plan standards for the planned development of Fairview Village Specific Plan area as well as specific facilities for an approved Vesting Tentative Subdivision it would reduce previously identified impacts. The project, (the infrastructure plus the development it would serve) has the potential to cause cumulative impacts to water supplies and water quality, however, with the incorporation of proposed mitigation it would have a less-than significant with Mitigation Incorporated which would be cumulatively considerable. The MEIR prepared on the General Plan specifically estimates development of the entire General Plan by the year 2025. This project is a small increment of that development. Since the adoption of the MEIR, there are no major projects proposed in the vicinity of this project which would further exacerbate impacts which have not already been reviewed (see Section XXII below for mitigation measures).

- c) Finally, as set forth in both the MEIR and this Initial Study/Mitigated Negative Declaration, although the project has the potential to cause substantial adverse effects on human beings for Water Quality and Hazardous Materials, either directly or indirectly, with the addition of the mitigation measures proposed, the impacts would be reduced to less-than-significant with Mitigation Incorporated (see Section XXII below for mitigation measures).

XXII. RESULTS OF PUBLIC REVIEW

A Public Review document including the Initial Study and Findings, the Draft Mitigated Negative Declaration was prepared that provided CEQA review of the proposed Fairview Village CFD No. 2003-1, the draft document and supporting documents, was circulated for Public Review from October 13, 2003 to November 12, 2003. During this review period, letters of comment were received by the City, providing comments on the Draft Mitigated Negative Declaration. These letters are identified as follows:

<u>Letter</u>	<u>Agency</u>	<u>Date Received</u>
A	Department of Health Services	November 14, 2003
B	Department of Health Services	November 24, 2003
C	Governor's Office of Planning & Research	November 20, 2003
D	Governor's Office of Planning & Research	November 14, 2003
E	Richard Jantz, Stanislaus County ERC	November 14, 2003
F	San Joaquin Valley Air Pollution Control District	November 17, 2003
G	Modesto City Schools	November 14, 2003
H	California State Department of Transportation	November 7, 2003
I	Stanislaus Council of Governments	November 5, 2003
J	Modesto Irrigation District	November 3, 2003
K	Stanislaus LAFCO	October 21, 2003

City responses to each comment presented in each letter, as well as copies of those letters are presented in the following pages. None of the letters raised new environmental issues that had not been discussed and mitigation provided at the time the Draft Mitigated Negative Declaration was released for public review. No new avoidable significant effect was identified or mitigation measures added that would result in a substantial revision to the document. Pursuant to CEQA Section 15073.5 (c), language was added in response to comments on the project's effects identified in the proposed negative declaration which are not new avoidable significant effects, which clarifies, amplifies or makes insignificant modifications to the negative declaration.

Based upon the substantial evidence presented in the Initial Study, and in recognition of the (11) letters of comment received on the Draft Mitigated Negative Declaration, the findings in the following Determinations section, Section XXII, can be made.

COMMENTS ON DRAFT MITIGATED NEGATIVE DECLARATION FOR THE
FAIREVIEW VILLAGE CFD - SCH#2003102055

Thank you for the opportunity to review the Draft Mitigated Negative Declaration for the Fairview Community Facilities District No. 2003-01 prepared by the City of Modesto (City). The comments in this letter are limited to the water quality and quantity related issues in the report.

The project includes formation of a Community Facilities District to provide a financing mechanism for the Fairview Village Specific Plan Area and to fund the infrastructure and its maintenance for the 81.66 acre Galas Brothers Subdivision, a 383 lot residential subdivision that includes a portion of a neighborhood park, a storm drains system, a wastewater system, a water well site, wellhead treatment, distribution pipe lines, a water tank and booster pumps.

From the draft report, the Department notes that a drinking water well will be drilled to provide drinking water to the proposed subdivision, which is located in the southwest area of the City. The Department further notes that a test hole was drilled in the area to test the ground water quality at different strata levels below grade. The results of water quality analyses indicated that the well water exceeded the drinking water standard of 45 mg/L for nitrate, 15 pCi/L for gross alpha, and 0.05 mg/L for manganese. The draft report suggests that treatment would

A1

Flex your POWER provided to bring the proposed well in compliance with drinking water standards. Do your part to help California save energy. To learn more about saving energy, visit the following web site: www.consumerenergycenter.org/flex/index.html

Southern California Drinking Water Field Operations Branch
31 East Channel Street, Room 270, Stockton, CA 95202
(209) 948-7696; (209) 948-7451 FAX

Internet Address: <http://www.dhs.ca.gov/nc/iddwem/technical/dwn/dwnindex.htm>

The Department notes that the proposed project is located in an area where the City already face water shortages especially during the high demand period of summer. As a result, consumer complaints regarding low pressure are common. Water quality is also a big concern. The City has taken number of wells out of service due to high uranium, nitrate, and organic chemical contamination. The City has not yet decided what to do with those contaminated wells, although they may either destroy them or use them with treatment. Drilling another new well, as mentioned in the draft report, with known contaminants does not seem to be the most reasonable approach when some existing wells in the area have already been taken offline due to similar problems.

A2

A3

A4

Treatment of the new well for the removal of nitrate and uranium will be complicated and costly, as multiple treatment units may be needed for this purpose. It is also necessary to consider the cost associated with operation and maintenance of the treatment plant. In addition, disposing of any uranium waste generated during the treatment process may become another huge problem. Placing the uranium waste with the City's wastewater is an option. However, it is the Department's understanding that placing sewage effluent with radioactive waste in evaporation/percolation ponds is considered disposal of the radioactive waste to land, which is currently banned by the State. Therefore, since the City's wastewater system holds wastewater in ponds for at least half, or more, of the months of the year, the City will need to include provisions to avoid the disposal of radioactive waste to land.

A5

A6

Note that the Department may not permit the use of the proposed new well with treatment, until the City can satisfactorily establish where and how the uranium waste will be discarded and that the disposal method does not violate any local, State, and/or Federal law.

A7

It is noted here that the City drilled a well (No. 100 previously called No. 65) in south Modesto a while back to supplement the existing source capacity. The City was hoping that addition of this well to the water system would alleviate some of the water shortage concerns. However, the well has not been used due to elevated level of nitrate (>45 mg/L). The unavailability of this well adds to the Department's concerns regarding the City's inability to

A8

maintain an operating pressure at all service connections of not less than 20 psig during the maximum demand period.

A8

Therefore, the Department is opposed to allowing any further housing growth in the south Modesto area until the City has satisfactorily resolved the water quality and quantity issues for the existing and potential future consumers in Modesto, particularly the issue related to the disposal of waste generated by the proposed treatment process.

A9

Note that in the interest of public health, it is the Department's policy that the best possible source should be used for drinking purposes. Therefore, the Department is hesitant to accept any new contaminated source with treatment if an uncontaminated source could be developed instead. As a result, it is recommended that the City proceed very carefully and look for areas with known good quality and quantity of water before drilling any wells in order to avoid any unnecessary potential risks associated with the treatment of contaminated well water.

A10

Furthermore, the need to provide additional treatment to existing groundwater supplies is anticipated in the near future due to other pending regulations under development by the U.S. Environmental Protection Agency (EPA). Analyses of the economic impacts of the new regulations indicate that compliance with the new regulations will significantly increase the cost associated with the continued use of the contaminated groundwater supplies through treatment.

A11

An alternative to drilling new wells would be the expansion of the use of treated surface water that currently delivers water of good quality to the City, which still significantly depends on poor quality ground water. This expansion will not only assure a continuous and reliable supply but also a higher quality of water all year long to the City. This would reduce the City's dependence on the local groundwater and would adequately address some of the concerns regarding the poor ground water quality and the potential for aquifer overdraft. Aquifer overdrafting has resulted in an increase in the concentration of uranium and other contaminants in some of the City's wells rendering them unusable.

A12
A13

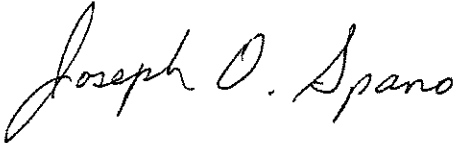

Once again, it is the Department's position that the additional use of treated surface water would be the best

A14

alternative to the local groundwater as a continuous and reliable supply of water of higher quality all year long to the consumers. This would also adequately address some of the concerns the consumers may have regarding the poor groundwater quality.

A11

REVISED COMMENTS ON DRAFT MITIGATED NEGATIVE DECLARATION FOR
THE FAIRVIEW VILLAGE CFD – SCH#2003102055

Since commenting on the Fairview Village Draft Mitigated Negative Declaration for the Fairview Village CFD, the Department has developed a better understanding of the project and the purpose of the Mitigated Negative Declaration.

Most of the comments in the Department's November 12, 2003 letter are general comments relevant to the area of the City of Modesto south of the Tuolumne River and west of State Route 99. For more than a decade, the City has had problems with both the quality and the quantity of water available in that area for domestic use. The Department's comments in the letter of November 12, 2003, focus primarily on general problems that exist in a large quadrant of the City. While the Fairview Village development is in that sector of the City, it is not expected that this single development should bear the responsibility or provide the solutions to these more extensive problems.

In contrast, it is the view of the Department that the City of Modesto must develop a viable, long term plan that properly addresses the domestic water supply problems in southwest Modesto. While interim measures, such as those proposed for the Fairview Village development may deal with some of the problems on a short term basis, the Department is concerned about the long term validity of the proposed measures.

B1

The domestic water supply solution proposed by Del Valle Homes for the Fairview Village development does have some short term merit. The proposed treatment of the ground water available in southwest Modesto should provide water that meets domestic water quality standards. In addition, the 20 inch diameter transmission main line to deliver better quality water from north Modesto to the area south of the Tuolumne River does provide a redundant supply which adds reliability that will be necessary when the new well proposed for Fairview Village and its treatment systems are out of service for any reason.

B2

B3

Do your part to help California save energy. To learn more about saving energy, visit the following web site:
www.consumerenergycenter.org/flex/index.html

Southern California Drinking Water Field Operations Branch
31 East Channel Street, Room 270, Stockton, CA 95202
(209) 948-7696; (209) 948-7451 fax

Assuming the residuals from the treatment process can be disposed properly and legally, the Fairview Village treatment proposal may demonstrate the technology of an approach that can be used by the City of Modesto to return some of its existing wells in southwest Modesto to service for some period of time. However, if discharging specific, hazardous contaminants into the San Francisco Bay, through the use of another community's waste water flow as a diluent, is acceptable currently, it is possible that such disposal methods may lack long term viability. As more communities utilize San Francisco Bay disposal of hazardous water treatment residuals, the capacity of the Bay to assimilate those contaminants may generate environmental problems that could lead to strict limitations, or even a ban on such disposal methods. In addition, until that day arrives, the City may find itself competing with more affluent communities that are able and willing to pay much higher rates to facilitate the disposal of their residuals into the San Francisco Bay, thereby impacting the economic viability of the disposal option.

B4
B5

As a result, the Department believes that the City of Modesto should develop a long term water supply plan that identifies responses that can be readily implemented to assure an adequate supply of good quality domestic water in southwest Modesto when economic and technological pressures restrict the disposal of hazardous water treatment residuals into San Francisco Bay. However, that is an issue that should be addressed independent of the Fairview Village water supply issue.

B6

The Department now recognizes that the Fairview Village development is important to the City of Modesto in satisfying a need for affordable housing and for housing accessible to persons with disabilities. While the Department has some concerns related to environmental issues associated with the Fairview Village development, there is no evidence, at this time, that the proposed process will not meet current environmental standards. Instead, due to a lack of experience with the proposed treatment residual disposal process, the Department will need documentation of the legality and environmental acceptability of the disposal process before permitting the treatment of the water from the new Fairview Village well for domestic use.

B7

Since the Department has the authority to withhold a permit to the City for the new Fairview Village well with the treatment process if the City is not able to provide documentation, with its permit application, that assures the legality and environmental acceptability of the disposal of the hazardous residuals from the new well and treatment system, the Department withdraws any comments in its November 12, 2003 letter that might be detrimental to the approval of the Fairview Village CFD or the progress of the Fairview Village development and the benefits it will bring to the City in terms of affordable housing and housing accessible to persons with disabilities.

B8

Before a permit is issued to the City for the new Fairview Village well with the treatment process that necessitates the disposal of water treatment residuals, it will be necessary for the City to provide documentation to the Department that verifies the legality and environmental acceptability of the disposal of the residuals into San Francisco Bay. If

E

these requirements are satisfied, the necessary permit will be issued for the new Fairview Village well with the proposed treatment processes.

B9

The Department's familiarity with the ground water in north Modesto and the recharge that results from the extensive irrigation of that general area with high quality surface water provided by the Modesto Irrigation District suggests that importing the limited supply of water needed for the 383 houses to be constructed in the Fairview Village development should have a limited environmental impact on the City of Modesto. However, the limited extent to which water imports from the north into southwest Modesto have been practiced, in spite of the shortage of water of acceptable quality in southwest Modesto, suggests that extensive use of that approach is not viable. Therefore, there are some important environmental issues to be addressed by the City of Modesto before more extensive development is initiated in southwest Modesto.

B1C

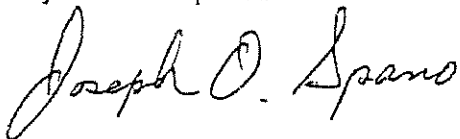

Therefore, the Department has a mechanism, through the permit process, to deal with the limited environmental concerns related to the 383 houses proposed in the Fairview Village development, appropriate environmental documentation should be developed to address the environmental issues associated with more extensive development in southwest Modesto.

B11

As stated in the Department's letter of November 12, 2003, it appears that the development of treated surface water as a source of domestic supply in the area of Modesto south of the Tuolumne River may be the most viable and sustainable practice for assuring an adequate supply of high quality drinking water in that area. A similar project in the area of Modesto north of the Tuolumne River resolved water quality and quantity shortcomings in that area nearly 10 years ago, and the success of that project suggests that a similar project in the area south of the Tuolumne River would have similar success in solving water quality and quantity problems in that area.

B12

If you have questions concerning this matter, contact me at (209) 948-3816.

State Clearinghouse, Sacramento

RESPONSE TO LETTER "A", RECEIVED NOVEMBER 14, 2003, AND LETTER "B", RECEIVED NOVEMBER 24, 2003
State Department of Health Services

Proposed Changes in the Negative Declaration Resulting from this Letter

The two letters provided instances of comments on the document regarding mitigation of project water quantity and water quality impacts. Where applicable, the document has been revised to clarify the Water Supplies, Water Quality, and Hazardous Materials Sections discussion and respond to the comments as outlined below:

The following responses are related directly to the November 12, 2003, letter, Letter "A":

- A 1. The proposed Well-Head Treatment System (Treatment System) currently planned for the Fairview Village Specific Plan Area (Project) will enable the City of Modesto to provide potable water to the Project area that meets regulatory drinking water standards, including the Maximum Contaminate Levels (MCL) for manganese, nitrate and gross alpha (an indicator for uranium), as well as others.

Manganese removal will be achieved via an adsorption/catalytic oxidation process, using a manganese dioxide based media. The media is self regenerating and highly effective. Manganese dioxide media has been widely used and permitted for a number of years for the removal of manganese from drinking water. Nitrate and uranium reduction will be achieved with an Ion Exchange system. Ion exchange is a proven technology that is well known and has been used commercially in a wide variety of applications for over 50 years. Ion exchange has been designated Best Available Technology by the Environmental Protection Agency for the removal of nitrate and uranium from drinking water sources.

The proposed Treatment System is anticipated to reduce manganese in the treated water to <0.05 mg/L, nitrates to <28 mg/L, and uranium to <2 pCi/L.

- A 2. The City uses two water sources (groundwater and surface water) that provide a great deal of flexibility and reliability in operating its water system. New wells continue to be needed to meet existing and future demands in conjunction with the treated surface water.

Despite the shutdown of several wells near the Project area, there is a sufficient supply of water with adequate pressures throughout the City's water system. Water is being provided by wells near the Project area supplemented by a blended mixture of well water and treated surface water via a new 20-inch diameter pipe line from north of the Tuolumne River.

The City is currently working to solve the water quality and quantity issues in the south Modesto area by; (1) identifying potential well-head treatment options that could be installed at well locations currently shut-down so that they can be brought back on-line, (2) constructing new water lines originating north of the Tuolumne River and terminating south of it so that more of the higher quality groundwater extracted north of the river can be utilized in the south, (3) engaging in discussions with the Turlock Irrigation District (TID) about constructing a surface water treatment plant south of the Tuolumne River so as to provide another source of high quality surface water to the south Modesto area. A feasibility study has been completed by TID and they are discussing the possibility of delivering treated surface water to a number of municipal agencies within their jurisdictional boundary, including the south Modesto area, and (4) testing for additional well sites in areas with no known water quality problems. These, in conjunction with the current water conservation program and optimization of the water distribution process (additional

tanks, generators and booster pumps) will provide additional flow and pressure reliability to the south Modesto area.

As the first development within the Project area, the Galas Brothers Subdivision is required to install a new water line that can deliver additional water from outside the immediate area to within the Project area. In conjunction with this new supply line, the anticipated water backbone infrastructure for the Project area includes two wells, well-head treatment facilities, two storage tanks with booster pumps, back-up generators, and various pipe lines needed to convey either potable mixing water to the tanks from a near-by transmission line or distribute the treated water throughout the proposed system.

- A 3. City staff is considering various options as to what to do with the wells that have been taken out-of-service due to various types of contaminations. Currently, the most technically and economically feasible alternative is to bring them back on-line using a Treatment System similar to the one being proposed for this Project area (see Response A1).
- A 4. See Response A1, A2, and A3.
- A 5. The proposed Treatment System for the new wells in the Project area is based on proven technology that will produce high quality drinking water, with minimal energy and maintenance costs, that can be either purchased or leased, and compares favorably with other alternatives for supplying the Project area with potable water.
- A 6. The waste material resulting from the Treatment System process will be disposed of in accordance with all applicable laws governing such activities, and this cost has been contemplated throughout the planning process of the Project.

A private company will be contracted to collect, transport, and dispose of the brine wastewater from the Treatment System. The liquid brine wastewater will be hauled to a Publicly Owned Treatment Works (POTW) that is permitted to accept the brine. The anticipated POTW is not within the City's current sewer service area and the cost of treatment and disposal of the brine wastewater will be included in the monthly processing fee.

The proposed Treatment System has a very low brine wastewater production rate. The eliminated waste rate for this unit requiring off-site disposal, which takes into consideration the water quality chemistry from the site, is expected to be approximately one-quarter of one percent (0.25%) of the amount of water treated.

The only waste generated by the nitrate/uranium treatment process requiring special handling and disposal is the spent regenerant (brine). The brine is expected to be characterized as a Non-Hazardous Liquid per Federal, State and local regulations and it will be disposed of accordingly. The wastewater produced for the backwashing and rinse process of the manganese dioxide media is very innocuous and can be discharged directly to the sewer system.

Once the treatment unit has been operating and several regeneration cycles have occurred, the brine wastewater is sampled for characterization. The brine is analyzed at a California Certified Laboratory for total metals and in accordance to California Code of Regulations, Title 22 (C Al 17), and pH, plus any other constituents required by the disposal facility(ies). It is expected that the brine will not exceed any of the regulatory levels for metals per 40 CFR 261 and CCR 22; and therefore may be classified as Non-Hazardous.

Uranium will be present in the brine in a small concentration as indicated above. There are no Federal treatment standards established and based on the estimated concentration in this particular waste stream, it can be classified as NRC exempt in accordance to 10 CFR 40.13 (a) – Unimportant quantities of source material.

The brine generation, storage, transportation and disposal process has been designed to be a “closed-loop” program providing the highest level of personal and environmental exposure protection. The treatment system will be equipped with two (2) – 6,500 gallons (or 13,000 gallons storage capacity) brine storage tanks. Upon regeneration of the ion exchange beds, the spent or waste brine will automatically flow to the waste storage tanks. Both waste tanks are piped together so that the waste volume increases in each tank equally, although these can be segregated for maintenance, if necessary. The waste discharge line from each tank is piped to a common discharge line leading to a waste lock box mounted on the fence at the perimeter of the property (of the well). Shipments are scheduled after enough volume has been accumulated and a full tanker truckload (5,000 gallons) can be made. The truck will hook-up to a 4” leak tight male cam lock, and remove the brine via vacuum. The brine is then transported directly to the disposal facility. Once the truck arrives at the disposal facility, it will adhere to their requirements for discharge including the necessary paperwork.

The facilities owned and operated by the East Bay Municipal Utility District (EBMUD) is relatively close and is large enough, they receive shipments on a 24/7 basis, thus, it makes them the primary option to contract with regarding disposal of the waste brine.

- A 7. The specific details as to which method of transportation, haul routes, or disposal facilities have yet to be determined. A number of options are available, but at no time will the disposal method or handling of the waste material violate any local, State, or Federal law.

Also, see Response A6.

- A 8. Well 100 (formerly Well 60 and Old Well B9 prior to that) first went off-line in October 2003, thus, the water system has not gone through a summer without it being available. City staff will continue to meet all DHS regulations regarding low pressure disclosure requirements.

Also, see Response A1, A2, and A3.

- A 9. See Response A1, A2, A3, A6, and A7.

- A 10. It is the City’s practice to use the best possible and most practical source of water available. It is also the City’s practice to always consider the quality and quantity of availability water when selecting a potential well site.

- A 11. New water quality regulations currently being developed by the EPA has been anticipated in the planning of the Treatment System for the Project area. The cost increases associated with meeting the new regulations have also been anticipated in the Project’s budget and planning process.

- A 12. See Response A2.

- A 13. The operation of the Modesto Regional Water Treatment Plant (MRWTP) since 1995 has eliminated the basin overdraft condition that existed prior to use of treated surface water. The MRWTP also provides the City with conjunctive use opportunities including blending and groundwater recharge.

- A 14. See Response A2.

The following responses are related to the November 24, 2003, letter from State Department of Health Services, (letter "B"):

- B 1. See Response A2.
- B 2. See Response A1.
- B 3. See Response A2.
- B 4. See Response A6.
- B 5. See Response A6.
- B 6. See Response A2 and A6.
- B 7. See Response A6.
- B 8. See Response A6.
- B 9. See Response A6.
- B 10. See Response A2.
- B 11. Yes, DHS has the mechanism, through the permit process, to deal with the limited environmental concerns related to the proposed project, and the appropriate environmental documentation (as required by the California Environmental Quality Act guidelines) addressing each of the identified environmental issues is a requirement for every project developed within the City, including the south Modesto area.
- B 12. See Response A2.

Dear Patrick Kelly:

The enclosed comment (s) on your Negative Declaration was (were) received by the State Clearinghouse after the end of the state review period, which closed on November 12, 2003. We are forwarding these comments to you because they provide information or raise issues that should be addressed in your final environmental document.

The California Environmental Quality Act does not require Lead Agencies to respond to late comments. However, we encourage you to incorporate these additional comments into your final environmental document and to consider them prior to taking final action on the proposed project.

Please contact the State Clearinghouse at (916) 445-0613 if you have any questions concerning the environmental review process. If you have a question regarding the above-named project, please refer to the ten-digit State Clearinghouse number (2003102055) when contacting this office.

Sincerely,

Terry Roberts
Senior Planner, State Clearinghouse

Dear Patrick Kelly:

The State Clearinghouse submitted the above named Negative Declaration to selected state agencies for review. On the enclosed Document Details Report please note that the Clearinghouse has listed the state agencies that reviewed your document. The review period closed on November 12, 2003, and the comments from the responding agency (ies) is (are) enclosed. If this comment package is not in order, please notify the State Clearinghouse immediately. Please refer to the project's ten-digit State Clearinghouse number in future correspondence so that we may respond promptly.

Please note that Section 21104(c) of the California Public Resources Code states that:

"A responsible or other public agency shall only make substantive comments regarding those activities involved in a project which are within an area of expertise of the agency or which are required to be carried out or approved by the agency. Those comments shall be supported by specific documentation."

These comments are forwarded for use in preparing your final environmental document. Should you need more information or clarification of the enclosed comments, we recommend that you contact the commenting agency directly.

This letter acknowledges that you have complied with the State Clearinghouse review requirements for draft environmental documents, pursuant to the California Environmental Quality Act. Please contact the State Clearinghouse at (916) 445-0613 if you have any questions regarding the environmental review process.

Sincerely,

Terry Roberts

SCH# 2003102055
Project Title Fairview Village CFD #2003-1
Lead Agency Modesto, City of

Type Neg Negative Declaration

Description The project consists of formation of the Fairview Village Community Facilities District #2003-1 ("Fairview Village CFD"). The project includes the creation of a financing mechanism to fund construction of certain regional infrastructure with the Fairview Village Specific Plan area. A portion of the plan area contains the Galas Brothers Vesting Tentative Subdivision Map Units 1 & 2, consisting of 81.66 acres located in the northeast portion of the Fairview Village Specific Plan ("Galas Subdivision"). Development of the Galas Subdivision includes 383 single family residential lots, a water well, storm drainage basin, water tank, sewer outfall line & a portion of the central neighborhood park site & its related infrastructure. The Fairview Village CFD will fund a portion of the infrastructure & its maintenance. The Galas Subdivision will be responsible for constructing a portion of this infrastructure, will be subject to the CFD tax & may be entitled to certain reimbursements for that work. The remaining properties within the 359 acre Fairview Village Specific Plan area will annex to this CFD in the future, as that area develops. Further planning studies & environmental review will be required before the properties may develop or annex to the CFD.

Mr. Patrick Kelly
C&ED/ Planning Division
Tenth Street Place/ Third Floor
P.O. Box642
Modesto Ca. 95353

Dear Mr Kelly,

As a member of the Stanislaus County Environmental Review Committee (ERC), we are offering the following comments on the Specific Plan Amendment to the Fairview Village Specific Plan:

This development once fully built, will have a considerable impact to our existing Fairview Park. The impact includes an increased use of the existing park by Fairview Village residents and the operation and maintenance cost associated with this influence. In addition, there could be an impact on the alignment of Yuma Avenue depending on the set backs required for the western boundary regarding fencing, sidewalks, and streets.

We recognize that the project is within Modesto City limits. However, a project of this size developed in the County, would require a minimum of 3 acre per 1000/residents. Our recommendation is to mitigate the impact of the development by working with the City of Modesto Parks Department to expand the recreational opportunities for this project.

Using a formula based on the County General Plan requirements of 3 acres of park land per 1000 residents would suggest that this project have 21.6 acres of park. Your plan dedicates 10 acres for parks.

If you have any questions about these comments please feel free to call me or Deputy Parks Director, David Piper, at (209) 525-6750.

Sincerely,

Marty Johnson, Special Projects
Stanislaus County Department of Parks & Recreation

E:

RESPONSE TO LETTER "E", RECEIVED NOVEMBER 14, 2003
Stanislaus County Chief Executive Office

The Stanislaus County Environmental Review Committee sent comment letter that combines comments from other agencies.

Proposed Changes in the Negative Declaration Resulting from this Letter

No changes are necessary. No new environmental issues were raised by these comments.

- E 1. See response to Letter "F" from the San Joaquin Valley Air Pollution District.
- E 2. See response to Letter "I", StanCOG.
- E 3. The commentator refers to a letter dated June 24, 2003 from the County Department of Parks and Recreation that comments on a proposed amendment to the Fairview Village Specific Plan. The letter suggests the Plan should provide 3 acres of park land per 1000 residents, based on the County's General Plan requirements. Notwithstanding the system of regional open space that is planned and available, the City of Modesto Parks and open space standards provide 2 acres per 1000 for neighborhood parks and 1 acre per 1000 for community parks.

F.

San Joaquin Valley
Air Pollution Control District

November 12, 2003

Patrick Kelly
Community and Economic Development Department
City of Modesto
P.O. Box 642
Modesto Ca 95353

SUBJECT: INITIAL STUDY AND DRAFT MITIGATED NEGATIVE
DECLARATION FOR THE FAIRVIEW VILLIAGE COMMUNITY.

Dear Mr. Kelly:

The San Joaquin Valley Air Pollution Control District (District) has reviewed the proposed projects and offers the following comments:

The San Joaquin Valley's air quality has been designated nonattainment by the EPA and by the Air Resources Board (ARB) for O₃ (ozone) and PM-10 (fine particulate matter, dust). The Federal Clean Air Act (CAA) and the California Clean Air Act require areas that are designated nonattainment to reduce emissions until standards are met.

Based on the information provided, this project will exceed the District Small Project Analysis Level (SPAL) for impact on the ambient air quality. However, the significant air quality impacts from this development should have been addressed in previous environmental documents certified by the City of Modesto. If this project has not been the subject of environmental review from an air quality perspective, please provide that information so that appropriate comments may be made.

F1

The construction phase of this project can generate emissions from the movement of soil, use of heavy equipment, bulk materials handling, asphalt paving and other related activities. As a result, this project is subject to District Regulation VIII (Fugitive Dust Prohibitions). The purpose of Regulation VIII is to reduce the amount of fine particulate matter (PM-10) entrained into the ambient air from man-made sources. The Regulation

(559) 230-6000 • FAX (559) 230-6061
www.valleyair.org

Southern Region Office
2700 M Street, Suite 275
Bakersfield, CA 93301-2373
(661) 326-6900 • FAX (661) 326-6985

VIII series of rules has been updated and amended since the original environmental review for Village One was completed. The complete set of rules is available at the District's web site www.valleyair.org. A Dust Control Plan must be submitted for the District's approval at least 30 days before construction activities begin if the project cumulatively encompasses 40 acres or more or will move more than 2,500 cubic yards per day of material on at least three days of the project. A Compliance Assistance Bulletin has been enclosed for your review.

F2

On July 17, 2003 amendments to Rule 4901 were adopted by the District's Governing Board. Amendments to the rule affect future construction plans for residential developments, the following is a summary of these changes:

§5.3 Limitations on Wood Burning Fireplaces or Wood Burning Heaters in New Residential Developments.

Beginning January 1, 2004,

5.3.1 No person shall install a wood burning fireplace in a new residential development with a density greater than two (2) dwelling units per acre.

5.3.2 No person shall install more than two (2) EPA Phase II Certified wood burning heaters per acre in any new residential development with a density equal to or greater than three (3) dwelling units per acre.

5.3.3 No person shall install more than one (1) wood burning fireplace or wood burning heater per dwelling unit in any new residential development with a density equal to or less than two (2) dwelling units per acre.

F3

District Rule 4103 regulates the burning of agricultural material. Agricultural material may not be burned if the land use is converting from agriculture to nonagricultural purposes. In the event that the project burns agricultural material, it would be in violation of Rule 4103 and be subject to District enforcement action.

F4

As a result of the Valley's nonattainment status, the District strongly recommends that the project applicant and the City of Modesto implement all feasible mitigation measures to reduce the amount of ozone precursors that will result from the buildout of this project. Please note that some of these measures may already exist as City development standards.

F5

- ◆ Energy efficient design including automated control system for heating/air conditioning and energy efficiency beyond Title 24 requirements, lighting controls and energy-efficient lighting in buildings, increased insulation beyond Title 24 requirements, and light colored roof materials to reflect heat.

F6

- ◆ Planting of deciduous trees on the south and westerly facing sides of buildings.

F7

- ◆ If transit service is available to the project site, improvements should be made to encourage residents to use it. If transit service is not currently available, but is planned for the future, appropriate easements should be reserved to provide for future improvements such as bus turnouts, loading areas, and shelters.

} F8

- ◆ Sidewalks and bikepaths should be installed throughout as much of the project as possible and should be connected to any nearby open space areas, parks, schools, commercial areas, etc.

} F9

- ◆ When future project(s) reach the design phase, the District recommends that the applicant(s) consider design features which serve to reduce vehicle trips and increase activities such as walking, bicycling, transit use, and energy conservation, all of which help to reduce emissions. The District's *Guide for Assessing and Mitigating Air Quality Impacts (GAMAQI)* describes these features. The current GAMAQI can be found at our website www.valleyair.org in the Site Map under *CEQA Guidance Documents*. Residential project design should use models put forward by the Local Government Commission (LGC). LGC has a wealth of information, publications (e.g. *Building Livable Communities: A Policymaker's Guide to Infill Development*), and links (e.g. *Affordable Housing Design Advisor*) to help create efficient, livable communities. More information can be found at <http://www.lgc.org/>.

} F10

- ◆ The City should consider the energy saving effects of tree placement around housing units. A brochure has been included for more information. Sources for information on urban trees include:

} F11

<http://www.coolcommunities.org>,
<http://www.energy.ca.gov/coolcommunity/strategies.html>
[http://www.lgc.org/bookstore/energy/downloads/sjv tree guidelines.pdf](http://www.lgc.org/bookstore/energy/downloads/sjv_tree_guidelines.pdf).

- ◆ Developments should include as many clean alternative energy features as possible to promote energy self-sufficiency. Examples include (but are not limited to): photovoltaic cells, solar thermal electricity systems, small wind turbines, etc. There are many rebate and incentive programs that encourage different types of alternative energy sources. More information can found at:

} F12

<http://www.dsireusa.org/>
<http://homepower.com>
<http://www.energy.ca.gov/renewables/>

- ◆ The City should consider energy efficient design beyond Title 24 requirements. Examples of design elements include (but are not limited to): increased wall and ceiling insulation (beyond building code requirements); energy efficient lighting and high efficiency appliances; awnings or other shading mechanism for windows; ceiling fans; roofing materials with a high albedo to reflect heat; orient the units to maximize passive solar cooling and heating when practicable; install electrical outlets around the exterior of the units to encourage use of electric landscape maintenance equipment, install natural gas lines and electrical outlets in backyard or patio areas to encourage the use of gas and/or electric barbecues; low or non-polluting incentives items should be provided with each residential unit (such items could include electric lawn mowers or gas or electric barbecues); exits to adjoining streets should be designed to reduce time to re-enter traffic from the project site, etc. More information can be found at:

<http://www.sustainable.doe.gov/>

<http://www.consumerenergycenter.org/index.html>

<http://www.energy.ca.gov/coolcommunity/strategies.html>

<http://www.lgc.org>.

F 13

Finally, one of the issues that will arise in conjunction with any proposed renovation/demolition of existing building in the project area is compliance with the National Emission Standards for Hazardous Air Pollutants (NESHAPS). Specifically, the primary air pollutant of concern is asbestos. To ascertain whether this project is subject to NESHAPS, the project applicant is advised to review the enclosed *Asbestos - Compliance Assistance Bulletin*, dated December 1994. Brian Dodds is the Northern Region's District contact for the program and is available should you need further assistance.

F 14

Thank you for the opportunity to comment. If you have any questions, please feel free to contact me at (209) 557-6400.

Sincerely,

John Cadrett
Environmental Planner
Northern Region

APCD REF # 20030561

SAN JOAQUIN VALLEY UNIFIED AIR POLLUTION CONTROL DISTRICT
Compliance Assistance Bulletin- December, 1994
Asbestos Synopsis

Asbestos Demolition/Renovation-Summary:	
Prior to any renovation or demolition of a facility	
<p>Inspect: Conduct an asbestos inspection of the site before:</p> <ul style="list-style-type: none"> -Any renovation which 160 sq. ft. of building materials, or 260 linear feet of pipe insulation will be disturbed, or -Any demolition of a facility with or without asbestos-containing materials <p>Notify: Submit an asbestos notification form for any regulated renovation or demolition, 10 working days before the activity.</p> <p>Fees: Fees must be paid to the District with the notification for all regulated renovations and demolitions.</p> <p>Demolition Release Form: Prior to any demolition, you must have completed a demolition release form. Upon its approval by the District this signed form may be used as proof (needed by the building official) of compliance with, or exemption from, the NESHAP notification requirements.</p> <p>Submit this form to the building department with your application for a demolition permit.</p>	
Applicability	
<p>Facilities subject to the NESHAP (regulated facilities) include all commercial buildings, apartments with more than 4 units, other structures and non-portable equipment. Single family dwellings may be exempt, but only on a case by case basis.</p> <p>Demolitions subject to the NESHAP (regulated demolitions) are demolitions of facilities described above, whether or not asbestos is present.</p> <p>Regulated renovation applies to any activity in which 160 sq. ft. of regulated asbestos-containing building materials or 260 linear feet of asbestos-containing pipe insulation is disturbed at a regulated facility.</p>	
Asbestos Notification and Inspection Requirements	
Definitions	
<i>Facilities:</i>	<p>Facilities subject to the rule include "all structures, installations, buildings and equipment, except for single family dwellings and apartments with four or fewer dwelling units." Single family dwellings and apartments are also subject to the regulation if:</p> <ul style="list-style-type: none"> -There is more than one building at a site being renovated or demolished, or -The building had been used for, or is being removed for a commercial or public use, or is to be used as a training burn exercise.
<i>Demolition:</i>	<p>In addition to the total destruction of a structure, demolitions include "the removal of any structural load-bearing member from a facility together with any related handling operations or the intentional burning of a building: (training burns conducted by a fire fighting agency). Also, the separation of a structure from its foundation prior to relocation is a demolition.</p>
<i>Renovation:</i>	<p>Altering a facility or one or more facility components in any way, including the stripping or removal of regulated asbestos-containing material (RACM) from a facility component. Renovations include all activities in which asbestos could be disturbed at a regulated facility, including the clean up and removal of debris from buildings which have burned.</p>

SAN JOAQUIN VALLEY UNIFIED AIR POLLUTION CONTROL DISTRICT
Compliance Assistance Bulletin- December, 1994
Asbestos Synopsis

<p>Definitions, Continued</p> <p><i>Regulated Asbestos-Containing Materials (RACM) Include:</i></p> <p><i>Friable Asbestos-Containing Material (ACM):</i></p> <p><i>Category I nonfriable ACM:</i></p> <p><i>Category II nonfriable ACM:</i></p>	<p>(1) Friable asbestos-containing material (ACM). (2) Category 1 nonfriable ACM in poor condition and "has become friable" or that has or will be subjected to sanding, grinding, cutting, or abrading. (3) Category II nonfriable ACM that has a high probability of becoming, or as become, crumbled, pulverized, or reduced to powder by the forces expected to act on the material in the course of demolition or renovation.</p> <p>Any material containing more than 1 percent asbestos, as determined by Polarized Light Microscopy (PLM) testing, which, when dry, can be crumbled, pulverized, or reduced to powder by hand pressure.</p> <p>Any asbestos-containing packings, gaskets, resilient floor coverings, and asphalt roofing products containing more than 1 percent asbestos as determined by PLM testing.</p> <p>Any asbestos-containing materials, excluding Category 1 ACM, containing more than 1 percent asbestos as determined by PLM testing, which when dry, cannot be crumbled, pulverized, or reduced to powder by hand pressure.</p>
<p>Inspection: done by, or under the direction of a Cal-OSHA certified consultant prior to:</p> <ul style="list-style-type: none"> ● Any regulated demolition. ● Any renovation activity in which more than 160 sq. ft. of any building material or 260 linear feet of pipe insulation will be disturbed. An inspection is not required if the material to be disturbed is stipulated to be asbestos-containing and will be removed in accordance with the NESHAP. <p>Inspection Report Must Include:</p> <ul style="list-style-type: none"> ● A schematic showing the location of all tested materials. ● The following data for all asbestos-containing materials: <ol style="list-style-type: none"> 1. The amount and description of each material. 2. Percent asbestos content. 3. Whether or not the material is friable. 	
<p>Notification: An asbestos notification must be submitted to the District at least 10 working days prior to:</p> <ol style="list-style-type: none"> 1. Any regulated demolition. 2. Any renovation in which more than 160 sq. ft. or 260 linear ft. of RACM will be disturbed. <p>A copy of the Asbestos Inspection Report must be included with the Notification.</p> <p>Notification will not be considered complete, nor will the 10 working day notice period begin until all required information and fees have been submitted to the District.</p>	
<p>Fees: District Rule 3050 requires that nonrefundable asbestos fees be received along with asbestos job notifications. Fees must be paid for regulated asbestos abatement projects and regulated demolition projects, <u>whether or not asbestos is present.</u></p>	
<p>Demolition Release Form: The California Health and Safety Code requires that the city or county building official have proof of compliance with, or exemption from, the asbestos notification requirement before he or she issues a demolition permit.</p> <p>After the District has received a demolition notification and is satisfied that the NESHAP notification requirements have been complied with, the District will issue a Demolition Release Form to the person who submitted the notification.</p>	
<p>Recycle and Waste Disposal: The asbestos notification must also identify any building materials which will be recycled after removal from a project. The name of the recycling contractor and location of such activity must be identified.</p>	

San Joaquin Valley Air Pollution Control District

COMPLIANCE ASSISTANCE BULLETIN

September 2002

(Update from June 2002)

Fugitive Dust Control at Construction Sites

Regulation VIII, Fugitive PM₁₀ Prohibitions, of the District's Rules and Regulations regulates activities that generate fugitive dust. Fugitive dust is emitted to the air from open ground or caused by activities such as excavation, transporting bulk materials, or travel on unpaved surfaces. "PM₁₀" is a term applied to small sized particulate matter - microscopic dust particles - in the air. The San Joaquin Valley currently exceeds the air quality standards for particulate matter. It is for this reason that the District adopted Regulation VIII in 1993. Significant amendments to Regulation VIII were adopted in 2001 and became effective May 15, 2002. The following dust control and administrative requirements are applicable at construction sites:

Visible Dust Emissions (VDE). Visible dust emissions may not exceed 20% opacity during periods when soil is being disturbed by equipment or wind at any time. Dust control may be achieved by means of applying water before and during earth work and on traffic areas, phasing work to limit dust, and setting up wind fences to limit wind blown dust. VDE opacity of 20% means the amount of dust that would obstruct the view of an object by 20%.

Soil stabilization. Soil stabilization is required at any construction site after normal working hours and on weekends and holidays. This requirement also applies to inactive construction areas such as phased projects where disturbed land is left unattended. Applying water to form a visible crust on the soil is an effective method for stabilizing a disturbed surface area. Long-term methods include applying dust suppressants or establishing vegetative cover. Restricting vehicle access from the area will help to maintain a stabilized surface. Information regarding stabilization standards and test methods are in Rule 8011 – *General Requirements*.

Carryout and Trackout. These requirements are found in Rule 8041 – *Carryout and Trackout*. Carryout and trackout are materials adhered to vehicle tires and transport vehicles carried from a construction site and deposited onto a paved public road. Should carryout and trackout occur, it must be cleaned up at least daily, and immediately if it extends more than 50 feet from the exit point onto a paved road. The recommended clean-up methods include manually sweeping, sufficiently wetting the area prior to mechanical sweeping to limit VDE or using a PM₁₀-efficient street sweeper. A blower device, or dry sweeping with any mechanical device other than a PM₁₀-efficient street sweeper is prohibited.

Haul Roads. Dust control is required on all haul roads and unpaved vehicle and equipment traffic areas at construction sites, per Rule 8021 – *Construction, Demolition, Excavation, Extraction, and Other Earthmoving Activities*.

Storage Piles and Bulk Materials. The handling, storage, and transportation requirements for bulk materials are found in Rule 8031 – *Bulk Materials*. These requirements include: applying water as materials are handled, stabilizing or covering stored materials, and installing wind barriers to limit VDE. Limiting vehicle speed, loading haul trucks with a freeboard six inches or greater, covering haul trucks, or applying water to the top of the load are options for reducing VDE from vehicle transportation of bulk materials.

Demolition. Wetting of the exterior of a building to be demolished is required. Demolition debris and the area around the demolition must also be controlled to limit VDE. Cleaning up carryout and trackout must be completed according to Rule 8041. Demolition activities are also subject to the District's asbestos rule, Rule 4002 – *National Emission Standards for Hazardous Air Pollutants*.

Dust Control Plans. For large construction projects, Rule 8021 requires the owner or contractor to submit a Dust Control Plan to the District for approval at least 30 days prior to commencing construction activities. This requirement applies to projects that include 40 or more acres of disturbed surface area or will involve moving more than 2,500 cubic yards per day of material on at least three days during the project.

Record keeping. All sites subject to the regulation that employ dust control measures must keep records for each day any dust controls are used. The District has developed record keeping forms for water application, street sweeping, and for "permanent" controls such as applying long term dust palliatives, vegetation, ground cover materials, paving, or other durable materials. Pursuant to Rule 8011, records must be kept for one year after the end of dust generating activities.

Exemptions. Activities in areas above 3,000 feet elevation are exempt from all Regulation VIII requirements. The following exemptions in Rule 8021 apply to construction activities:

- Blasting activities
- Maintenance and remodeling of existing buildings if the addition is less than 50% of the size of the existing building or 10,000 square feet. These activities, however, are subject to the District's asbestos rule, Rule 4002.
- Additions to single family dwellings
- Mowing, disking or other weed control on sites less than ½ acre.

Nuisance. Whether or not the construction activity is exempt from the Regulation VIII requirements, any activity that creates fugitive dust must not cause a nuisance, per Rule 4102 - Nuisance. Therefore, it is important to monitor the dust generating activities and, if necessary, plan for and implement the appropriate dust control measures to limit the public's exposure to fugitive dust.

This is a basic summary of Regulation VIII as it applies to the construction industry. For more information contact the Compliance Division of the District office nearest to you.

RESPONSE TO LETTER "F", RECEIVED NOVEMBER 13, 2003
San Joaquin Air Pollution Control District

Proposed Changes in the Negative Declaration Resulting from this Letter

The letter provided 14 instances of comments on the document regarding mitigation of project air quality impacts. Where applicable, the document has been revised to clarify the Air Quality Section discussion and respond to the comments as outlined below:

F 1. The significant air quality impacts of the project, which is a part of the Fairview Village Specific Plan were addressed in the Fairview Village Specific Plan Focused EIR (SCH#95 as well as through the Air Quality section of the recently updated General Plan Master EIR (SCH#1999082041). Air Quality Mitigation measures (specifically, PM-10) were applied to the project from the Master EIR, see Exhibit F, Mitigation Monitoring Plan.

F 2. As indicated in the discussion item for Air Quality, item b) page 10 of the Mitigated Negative Declaration, Regulation VIII (Fugitive Dust Rules) would be applied to the project to meet the Air District's air quality standards. The following revised Language indicating a Dust Control Plan must be submitted pursuant to Regulation VIII will be made to the mitigation measure clarify the SJVUAPCD requirement:

Mitigation Measure – Air Quality

"a. All applicable sections of SJVUAPCD Regulation VIII Control Measures for Construction Emissions of PM-10 (Rules 8011 through 8081) shall be applied to the project including Rule 8021 Section 6.3 Dust Control Plan. In addition, the following controls are required to be implemented at all construction sites:"

F 3. The project is formation of a financing district to fund installation of infrastructure to serve the Galas Brothers Subdivision, and eventually the remaining Specific Plan area. Conditions were placed upon the Vesting Tentative Subdivision Map at time of approval (December 1997). As the comment notes, future construction plans in the remaining Specific Plan area would certainly be subject to Rule 4091. Residential development of the remaining portion of the 359-acre Specific Plan area will be subject to this rule.

F 4. District Rule 4103 that applies to converting land use from agriculture to non agricultural purposes could potentially apply to the conversion of vineyards and orchards to the public infrastructure sites. Since these sites are within the Galas Brothers subdivision, the land will probably be cleared prior to development of the subdivision. The City will apply the following condition to the entitlement for development such as the grading permit:

"Pursuant to San Joaquin Valley Air Pollution District Rule 4103, agricultural material may not be burned if the land use is converting from agricultural to non-agricultural purposes."

F 5. The suggested Air Quality mitigation measures are contained in the General Plan Master EIR in a similar form and were incorporated into the project design via the Fairview Village Focused EIR Air Quality Mitigation Measure applied to this project.

F 6. Energy efficient design – title 24 requirements are routinely enforced by the City's Building Division plan check process for development applications, including residential development.

- F 7. Trees and Energy efficiency - The City's General Plan policy for energy (Energy Conservation, Policy I.a.) addresses orientation of tree plantings to promote energy efficiency.
- F 8. Transit - Modesto General Plan policies, chapter V Section I, requires the assessment of the feasibility of transit service facilities in subsequent projects, such as the Fairview Village Specific Plan. Appropriate transit facilities will be designed into the development of the Specific Plan Area to serve the Galas Brothers subdivision as well as the remainder of the Fairview Village CFD area.
- F 9. Pedestrian access to school site – General Plan Neotraditional Planning Principles, Policy III.C.3, were factored into the Specific Plans Connector Street layout, Figure 2.9 Circulation and Access Concept, which includes a component for pedestrian sidewalks.
- F 10. Design considerations to reduce vehicle trips – all suggested guidelines are excellent sources for project design. Since its adoption in 1995, the General Plan and General Plan MEIR require the review of project design in light of the Neotraditional Planning Principles contained in the General Plan. Development standards based on these and similar models for residential development are proposed for adoption into the Fairview Village Specific Plan Amendment that should occur in the near future.
- F 11. Energy saving effects of tree placement – the suggested sources are noted, see also response to item No. 7.
- F 12. Clean energy features – the suggested sources are noted, the use of these alternative energy sources is encouraged by the City's General Plan.
- F 13. Design beyond Title 24 requirements – the sources cited provide very good recommendations on use of energy efficient and less polluting technologies.
- F 14. The proposed project area is almost entirely existing agricultural lands that do not contain structures that would be demolished during the development process. The specific bulletin regarding asbestos (NESHAPS) and contact person, is noted.

MODESTO CITY SCHOOLS

Planning and Research

November 05, 2003

Patrick Kelley
Principal Planner
Community & Economic Development Department
City of Modesto
P.O. Box 642
Modesto, CA 95353

Re: Draft Mitigated Negative Declaration for the Fairview Village Community Facilities District No. 2003-01.

Dear Mr. Kelley:

Modesto City Schools has no opposition to the above referenced Initial Study and Draft Mitigated Negative Declaration addressing the impacts of a proposed formation of a Community Facilities District No. 2003-1 to provide a financing mechanism for the Fairview Village Specific Plan area and fund the infrastructure and its maintenance for the Galas Brother Subdivision.

Modesto City Schools, the Galas's (Galas Brothers, West Port Landing), and Darrell J. Leamon (West Port Landing #1 and #2) each entered into a mitigation agreement in October 1997. The agreement calls for payment to the District of \$8,643 (K-8 = \$5,060 and 9-12 = \$3,583) for each residential unit built. This amount is adjusted annually for inflation. The mitigation agreement is binding on the land and successors in interest.] G:

Regarding the remaining land in the Fairview Village Specific Plan: To the extent allowed by state law, annexation to the appropriate schools community facilities district will be required as a condition of final map approval. If this requirement cannot be enforced due to the status of state law, then prior to issuance of the first building permit or final map approval, whichever is earlier, the developer shall provide written verification from the affected school districts that a determination has been made as to whether the developer will pay the school fees in effect or annex to the appropriate community facilities district.] G:

Please feel free to contact me at (209) 576-4032 should you have any questions on this response.

Sincerely,

Becky M. Meredith
Director, Planning and Research

RESPONSE TO LETTER "G", RECEIVED NOVEMBER 12, 2003
Modesto City Schools

Proposed Changes in the Negative Declaration Resulting from this Letter

The letter provided 2 instances of comments on the document regarding mitigation of project school district impacts. Where applicable, the document has been revised to clarify the Schools Section discussion and respond to the comments as outlined below:

- G 1. Payment of appropriate school district facilities impact fees is required as a precondition to development by the City's General Plan. The developer must provide proof of payment of fees in order to proceed with obtaining building permits. No new issues raised by comment, no revisions to the document are necessary.
- G 2. The condition of development cited is required by the City's General Plan policies. The City will continue to coordinate with the affected school district(s) to determine whether the project's impacts on school capital facilities if fully mitigated prior to approving development. No new issues raised, no revisions to the document are necessary.

Initial Study & Draft Mitigated Neg Dec
 Parkview Village Community Facilities
 District No. 2003-1
 SCH # 2003102055

Mr. Patrick Kelly
 City of Modesto
 Planning and Community Development
 1010 Tenth Street, Suite 3400
 Modesto, CA 95354

Dear Mr. Kelly:

Thank you for the opportunity to review the Fairview Village Community Facilities District No. 2003-1 application. The proposed project is to provide a financing mechanism for the Fairview Village Specific Plan area and fund the infrastructure and its maintenance for the 81.66 acre Galas Brothers subdivisions, a 383 lot residential subdivision in southwest Modesto Urban Area, south side of Hatch Road and east of Carpenter Road.

I have reviewed the proposed project and circulated it with the various Caltrans departments and have the following comments based on the additional data submitted from previous submissions:

TRAFFIC OPERATIONS:

- Collect Impact fees towards future improvements at the following intersections:
 - State Route 99 and Crows Landing Road and Hatch Road.
 - State Route 132 and Carpenter Road.

Please forward all Final Conditions of Approval including any mitigation measures that are being proposed as well as any other documents and reports (i.e. all forms of environmental documents, Traffic Impact Study Reports, site and location maps, etc) on this proposed project for our review, comment, and records. If you are aware of any controversy regarding any of our requirements, please contact us as soon as possible so we may work together to resolve them before submittal to your Board.

Mr. Patrick Kelly
November 7, 2003
Page 2

If you have any questions or would like to discuss our comments in more detail, please contact David Cooper at (209) 948-7190 (e-mail: david_cooper@dot.ca.gov) or myself at (209) 941-1921. We look forward in continuing to work with you in a cooperative manner.

Sincerely,

A handwritten signature in cursive script that reads "David Cooper". Below the signature, there are initials "RW" written in a smaller, less legible cursive.

Sacramento, CA 95812-3044

RESPONSE TO LETTER "H", RECEIVED NOVEMBER 7, 2003
State Department of Transportation – CALTrans District 10

Proposed Changes in the Negative Declaration Resulting from this Letter

The letter provided 2 instances of comments on the document regarding mitigation of project traffic impacts. Where applicable, the document has been revised to clarify the Transportation and Circulation discussion and respond to the comments as outlined below:

H 1. Traffic Operations.

The letter indicates that for the development associated with the Fairview Village CFD the City should "Collect Impact fees towards future improvements at the following intersections:

- State Route 99 and Crows Landing Road and Hatch Road
- State Route 132 and Carpenter Road

State Route 99 and Crows Landing Road and Hatch Road:

The City of Modesto's Capital Facilities Fee (CFF) program does not include a fee component for improvements to the two State Route 99 interchanges listed. The CFF program is based on the City's General Plan Traffic Impact Model. The model shows these two interchanges are not as impacted as the Hammet, Kiernan, Pelandale, Beckwith, and Briggsmore interchanges at buildout year 2025. The CFF program does contribute funding to the improvement of these more impacted interchanges. More specifically, there is a project adjacent the 7th and Hatch road intersection included in the CFF program to upgrade facilities serving that interchange.

State Route 132 and Carpenter Road:

The City's Capital Facilities Fee (CFF) would be collected at Building Permit for all proposed development within the Fairview Village CFD area (Fairview Village Specific Plan). The CFF program includes \$ 24,000,000 in impact fees which will be collected towards the construction of SR132 from SR99 to Morse (City of Modesto, Capital Facility Fee, item No. 257, Street Improvements Projects Summary). This segment includes State Route 132 and Carpenter Road intersection improvements.

H 2. Forward all Applicable Project Materials

The applicable documents relating to this proposal include:

- Fairview Village CFD 2003-1 Final Mitigated Declaration
- Fairview Village Specific Plan (adopted December 1995)
- Fairview Village Focused EIR, including traffic study (certified December 1995)
- General Plan Master EIR, including updated traffic model
- Galas Brothers subdivision Map (approved 1997, included referral to DOT)
- Engineers report, Fairview Village Community Facilities District

If your agency does not have any of these documents, please contact me at 577-5280 and we will have copies provided to you or go to the City's Community and Economic Development Department web site at www.modesto.gov for the Specific Plan, General Plan and General Plan Master EIR documents.

October 31, 2003

Re: Draft Mitigated Negative Declaration for the Fairview Village Community Facilities District

Dear Mr. Kelly:

Thank you for giving the Stanislaus Council of Governments (StanCOG) the opportunity to review and comment on the proposed project referenced above (2003-01). The proposed project is to provide a financing mechanism for the Fairview Village Specific Plan area and fund the infrastructure and its maintenance for the Galas Brothers subdivision. The project location is in the southwest Modesto Urban area, on the south side of Hatch Road, east of Carpenter Road.

As the Regional Transportation Planning Agency for Stanislaus County, StanCOG is concerned with impacts to the regional roadway system. One of StanCOG's policies, identified in its Regional Transportation Plan is, "To ensure that the regional transportation system operates efficiently to reduce congestion and improve mobility for people and goods." The Draft Initial Study, page 8, **Traffic and Circulation**, states there will be no impacts to the city roadway system as a result of the proposed development, with reference to the Modesto General Plan and Fairview Village Specific Plan. In addition, the project will contribute to Modesto's Capital Facility Fee (CFF) Program, which includes improvements to Hatch Road. However, the initial study makes no reference to the regional road network.

I1

According to the Fairview Village Specific Plan, page 2, Fairview Village is a proposed planned community for approximately 5000 people, to include approximately 2250 homes. This equates to over 2,000 peak hour trips and 20,000 daily trips at buildout. It is a logical assumption a substantial percentage of these trips will utilize Carpenter Road north to State Route (SR) 132. In fact, StanCOG's regional model forecasts Carpenter Road adjacent to and north of the proposed project to be Level of Service (LOS) F in 2025. The Specific Plan, page 36, identifies traffic impact mitigation measures for buildout of subareas A and B. This mitigation includes improvements to the intersections of Hatch Road and Robertson Road with Carpenter Road. However, no improvements are included for the intersection of Carpenter and Whitmore Avenue, the Carpenter Road bridge over the Tuolumne River (currently 2 lanes), or to the future widening of Carpenter Road itself, to accommodate future traffic, which is identified in StanCOG's regional expressway system as a future six lane facility from Hatch to SR 132.

I2

*City of Ceres • City of Hughson • City of Modesto • City of Newman • City of Oakdale • City of Patterson
City of Riverbank • City of Turlock • City of Waterford • County of Stanislaus*

With this in mind, StanCOG requests the draft initial study and associated CFD be revised to include the regional roadway network impacted by this proposal and the project to pay its “fair share” to the county’s CFF program based upon the project’s contribution to the regional facilities.

13

Should you have any questions or comments pertaining to StanCOG’s requests, please feel free to contact my staff at (209) 558-4847 or e-mail Mike Higgins at mhiggins@stancog.org.

Sincerely,

Laurie Barton

RESPONSE TO LETTER "I", RECEIVED NOVEMBER 5, 2003
Stanislaus Council of Governments

Proposed Changes in the Negative Declaration Resulting from this Letter

The letter provided 3 instances of comments on the document regarding mitigation of project regional roadway impacts. Where applicable, the document has been revised to clarify the Traffic and Circulation discussion and respond to the comments as outlined below:

- I 1. The Draft Initial Study/Mitigated Negative Declaration compares the impacts of the proposed project to that analyzed by the General Plan Master EIR traffic analysis – note that each numbered section of the Initial Study/Mitigated Negative Declaration begins with the statement: "Compared to the Master EIR certified for the Modesto Urban Area General Plan,.... will the project result in increased impacts to..." Pursuant to CEQA section 21157.1 it was meant to indicate that there will be no new additional impacts that were not already identified by that previous analysis. It does not mean that there will be no impacts. Mitigation measures for those previously identified traffic impacts include regional roadway improvements that will be funded in large part by the City's CFF Program. No new issue raised, no revisions to the document are needed.
- I 2. The City's CFF Program includes collection of developer impact fees that include \$2.3 million of an estimated total cost of \$2.9 million for the Carpenter/Whitmore intersection. The CFF program provides \$9.6 million of the total estimated \$ 10.2 million cost of improvements, including \$5.0 million for the widening of the Carpenter Rd. bridge. Also, there are funds to widen Carpenter Road to expressway standards all the way north to Highway 132 and beyond. Between Tuolumne River to Highway 132 there is \$42.4 million included in the CFF program for this widening. No new issue raised, no revisions to the document are needed.
- I 3. The City of Modesto CFF Program provides a mechanism that requires development in the developing City portion of the General Plan Area, including the Fairview Village CFD No. 2003-1 area, to pay their fair share of improvements including a portion of the regional roadway system costs. Funds are collected for the County's Public Facilities Fee (PFF) program within the City's Sphere of Influence as permits are issued for development through an existing arrangement with Stanislaus County. Stanislaus County has determined what the "fair share" amount is for the various types of land uses covered by that PFF Program. No new issue raised, no revisions to the document are needed.

Regarding: Draft Mitigated Negative Declaration for the Fairview Village Community
Facilities District No. 2003-01

Thank you for allowing the District to comment on this referral received on 10/15/03 with a due date of 11/12/03. In order to reply in a timely manner, please provide a minimum of 10 working days review period. If you have any questions, please contact me at 526-7433. Below are our recommendations for this project.

ELECTRICAL

- ♦ The proposed project is outside the Modesto Irrigation District's electric service area. This project does not impact the District's distribution facilities or the District's 69kV or 230kV transmission facilities. Therefore the Electrical Division has no requirements on this project at this time.

IRRIGATION

- This project is located outside MID service area. This project needs to be reviewed by Turlock Irrigation District.

DOMESTIC WATER

- No comments at this time

Risk and Property Analyst

RESPONSE TO LETTER "J", RECEIVED NOVEMBER 3, 2003
Modesto Irrigation District

Proposed Changes in the Negative Declaration Resulting from this Letter

The letter indicated the project site is outside the district's service area and provided no instances for comments on the document regarding mitigation of project Utilities impacts. Therefore, there were no revisions to the document resulting from these comments. No changes are necessary. No new environmental issues were raised by these comments.

PHONE: (209) 525-7660 FAX: (209) 525-7643

October 21, 2003

TO: Patrick Kelly, Principal Planner
FROM: Fran Sutton-Berardi, Executive Officer *FSB*
SUBJECT: DRAFT MITIGATED NEGATIVE DECLARATION FOR THE FAIRVIEW
VILLAGE COMMUNITY FACILITIES DISTRICT NO. 2003-01

I have reviewed the above proposal and have no comments on the proposed Mitigated Negative Declaration for the formation of the financing district for the Fairview Village Specific Plan Area.

RESPONSE TO LETTER "K", RECEIVED OCTOBER 21, 2003
Local Agency Formation Commission

Proposed Changes in the Negative Declaration Resulting from this Letter

The letter indicated no comments on the document regarding mitigation of project impacts. No changes are necessary. No new environmental issues were raised by these comments.

XXIII. DETERMINATION

Based on substantial evidence provided in the Initial Study, the City of Modesto finds:

- This Initial Study, prepared pursuant to CEQA Section 21157.1, has identified an additional significant environmental effect that was not analyzed in the Master EIR. This additional significant effect is potential impacts to Water Supply, Water Quality and Hazardous Materials.
- Feasible mitigation measures will be incorporated to revise the subsequent project before the Negative Declaration and Initial Study is released for public review pursuant to CEQA Section 21092 in order to avoid or mitigate the identified effects to a point where clearly no significant effects on the environment will occur.

The City's Engineering and Transportation Department and Operations and Maintenance have reviewed the proposed infrastructure contained in Fairview Village CFD No. 2003-1, specifically, water supply, water well, water quality, hazardous materials impacts and have determined the following mitigation measures will address the identified impacts and reduce impacts to the level required by the applicable standards:

1. New Impact Identified by Initial Study/Mitigated Negative Declaration for Water Supplies

MITIGATION MEASURE – WATER SUPPLY

The following new project-specific mitigation measure will be incorporated into the Fairview Village CFD No. 2003-1 project to reduce to a level of Less than Significant Impact with Mitigation Incorporated any potential impacts for effects to Water Supplies.

The project requires the installation of a 500,000 gallon storage tank.

2. New Impact Identified by Initial Study/Mitigated Negative Declaration for Water Quality

Water Quality - Violation of water quality standards for Nitrates, Uranium, Arsenic, Silvex, and 2,4-DB.

MITIGATION MEASURE – WATER QUALITY – 1:

The following new project-specific water quality mitigation measure will be incorporated into the Fairview Village CFD No. 2003-1 project reduce to a level of Less than Significant with Mitigation Incorporated any potential for effects to Water Quality for Nitrates:

Potential treatment measures include: (1) Ion Exchange, (2) Reverse Osmosis, (3) Electrodialysis/Electrodialysis Reversal, (4) Algal Growth and Harvesting and Disposal, (5) Dual Water Supply and Blending, (6) Combinations of Ozonation, Sand Filtration, and Granular Activated Carbon Filtration, and (7) Biological Denitrification – or the functional equivalent.

Each of these various methods of treatment have been shown to reduce nitrate in water to levels below that of the MCL. Prior to construction, a study shall be prepared to determine the appropriate type/method of treatment. All work shall be conducted by a registered water treatment engineer.

MITIGATION MEASURE – WATER QUALITY – 2 :

The following new project-specific water quality mitigation measure will be incorporated into the Fairview Village CFD No. 2003-1 project reduce to a level of Less than Significant with Mitigation Incorporated any potential for effects to Water Quality for Uranium:..

Potential treatment measures include: (1) Ion Exchange and (2) Blending with water of lower gross alpha levels – or the functional equivalent.

Either or both of these methods of treatment will be applied to reduce gross alpha in water to levels below that of the MCL.

MITIGATION MEASURE – WATER QUALITY – 3 :

The following new project-specific water quality mitigation measure will be incorporated into the Fairview Village CFD No. 2003-1 project reduce to a level of Less than Significant with Mitigation Incorporated any potential for effects to Water Quality for Arsenic:

Mitigation Measure

Potential treatment measures include: (1) Ion Exchange, (2) Reverse Osmosis, (3) Electrodialysis/Electrodialysis Reversal, (4) Activated Alumina, Adsorption (5) Dual Water Supply and Blending, (6) Adsorption onto granular ferric hydroxide media (7) Adsorption onto granular ferric oxide media, (8) Oxidation and filtration using anthracite coal and or Greensand media and (9) Zirconium media adsorption/filtration. Each of these various methods of treatment have been shown to reduce arsenic in water to levels below that of the MCL and new technologies for Arsenic treatment are still emerging. Prior to construction, a study shall be prepared to determine the appropriate type/method of treatment. All work shall be conducted by a registered water treatment engineer.

MITIGATION MEASURE – WATER QUALITY – 4:

The following new project-specific water quality mitigation measure will be incorporated into the Fairview Village CFD No. 2003-1 project to reduce to a level of Less than Significant with Mitigation Incorporated any potential for effects to Water Quality for Silvex and 2,4-DB

Mitigation Measure:

Potential treatment measures include: (1) Coagulation, Flocculation and Filtration, (2) Granular Activated Carbon Adsorption, (3). Powdered activated carbon adsorption.

Each of these various methods of treatment have been shown to reduce organic compounds in water to levels below that of the MCL. Prior to construction, a study shall be prepared to determine the appropriate type/method of treatment. All work shall be conducted by a registered water treatment engineer.

MITIGATION MEASURES – WATER QUALITY 5

Potential treatment measures include: (1). Oxidation and filtration,, (2) Reverse Osmosis (3) Greensand Filtration.

Each of these various methods of treatment have been shown to reduce Manganese in water to levels below that of the secondary standard. Prior to construction, a study shall be prepared to determine the appropriate type/method of treatment. All work shall be conducted by a registered water treatment engineer.

MITIGATION MEASURE – WATER QUALITY – 6

The following project-specific water quality mitigation measure will be incorporated into the Fairview Village CFD No. 2003-1 project to reduce to a level of less than Significant with Mitigation Incorporated any potential for effects from runoff water:

The storm water basin shall incorporate current City adopted stormwater quality control measures described in the Guidance Manual for New Development Stormwater Quality Controls measures dated January 2001 (Guidance Manual for New Development Stormwater Quality Control Measures).

3. *New Impact Identified by Initial Study/Mitigated Negative Declaration for Hazardous Materials*

Potential exposure of public to toxic materials from well-head treatment processes

MITIGATION MEASURE – HAZARDOUS MATERIALS:

The following new project specific Hazardous Materials mitigation measure will be incorporated into the Fairview Village CFD No. 2003-1 project reduce to a level of Less than Significant with Mitigation Incorporated any potential for effects to Hazardous Materials:

1. All chemicals storage tanks will have a secondary containment facility capable of holding the entire volume of the material stored in the tank in the event of a rupture to prevent accidental release.
2. All brine tanks will have a secondary containment facility capable of storing all of the brine in the event of tank failure.
3. All chemical storage tanks will be surrounded by a locked fence to prevent vandalism.
4. All ion exchange resin tanks will be housed in locked mobile containers capable of containing leaks and preventing damage due to climate or vandalism.
5. The brine delivery and disposal will be accomplished using locked boxes equipped with chemical cam lock off loading stations so trucks do not need to enter the well treatment area to load and unload materials.
6. The wellhead treatment site will be fully enclosed by a wall or fence and will remain locked at all times. The facilities will be inspected regularly.
7. Signs will be posted warning emergency responders of the hazards associated with high voltage electricity and NIOSH warnings regarding the chemicals which may be stored on site.
8. The removal of manganese sludge will be performed by certified divers according to AWWA standards.

Previously Identified Impacts and Mitigation identified in General Plan Master EIR and Focused EIR for the Fairview Village Specific Plan :

The following impacts were identified in the General Plan Master EIR and Focused EIR for the Fairview Village Specific Plan that are applicable to the construction of the facilities proposed to be financed by the Fairview Village CFD No. 2003-1:

Air Quality:

Construction- related impacts

Noise

Construction-related impacts

Loss of Sensitive Wildlife and Habitat:

Potential for special status species on-site, requires site survey prior to construction

Archaeological and Historic Resources:

Resources unearthed during Construction would require mitigation

Previously Identified Mitigation Measures Applied to Project:

Mitigation measures are hereby applied to the Fairview Village CFD No. 2003-1 project from the General Plan Master EIR and Fairview Village Specific Plan Focused EIR to reduced the impacts to an acceptable level: the full text of these measures are contained in the attached Mitigation Monitoring Program, Exhibit F.

There is no substantial evidence in light of the whole record before the public agency that the projects, as revised, may have a significant effect on the environment (CEQA Section 21064.5(2)).

Based on the above-referenced Initial Study and feasible mitigation measures incorporated to revise the proposed project in order to avoid the effects or mitigate the effects to the point where clearly no significant effect on the environment will occur, staff finds that a Mitigated Negative Declaration should be adopted pursuant to CEQA Section 21157.5 et seq. for the proposed Fairview Village CFD No. 2003-1.

I find that although the proposed project could have a significant effect on the environment, there will not be a significant effect in this case because the mitigation measures described above have been added to the project. A MITIGATED NEGATIVE DECLARATION will be prepared.

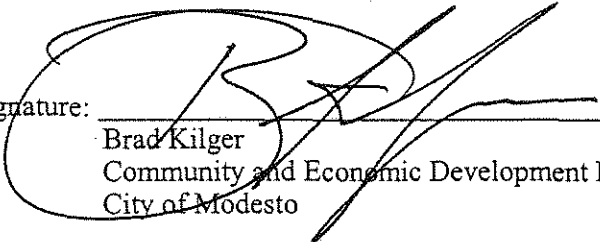

I further find that the cumulative impacts of this project are consistent with those set forth in the Master EIR for the Modesto Urban Area General Plan. This project proposes creation of a financing mechanism for the construction of infrastructure to serve a Specific Plan area and specifically for the construction of specific infrastructure to serve the Galas Brothers approved Vesting Tentative Subdivision map. for uses generally consistent with that analyzed in the General Plan Master EIR and set forth in the Modesto Urban Area General Plan. Based on the implementation of the "Fairview Village CFD 2003-1" prepared for adoption prior to the recordation of the Final subdivision map, the City's Engineering and Transportation Department and Operations and Maintenance has determined that the impacts from this project with mitigation applied will achieve the level of service consistent with the Modesto Urban Area

General Plan and Master EIR. As such, this project would generate no additional cumulative impacts that were not previously addressed in the Master EIR. All appropriate mitigation measures from the Master EIR have been incorporated into the project, and no further evaluation of cumulative impacts is required as this project generates no significant cumulative impact.

As required by CEQA Section 21081.6 et seq., a mitigation monitoring program (Exhibit " E ") will be adopted by incorporating the mitigation measures into the project plan (Section 21081.6(b)).

Mitigation Monitoring Plan

**MITIGATION MONITORING AND REPORTING PROGRAM FOR
FAIRVIEW VILLAGE CFD 2003-1
(Pursuant to Mitigated Negative Declaration EA C&ED No. 2003- 86)**

1.0 INTRODUCTION

This mitigation and monitoring program has been prepared by the City of Modesto for the Fairview Village CFD No. 2003-1. Public Resources Code (CEQA) Section 21081.6 requires public agencies to adopt a mitigation reporting or monitoring program when adopting a Mitigated Negative Declaration. Monitoring programs are designed to ensure that all mitigation measures described in the Negative Declaration are carried out.

This program includes new or additional mitigation measures that were identified by the analysis contained in this Initial Study/Mitigated Negative Declaration for impacts to: Water Supplies, Water Quality and Hazardous Materials. The program also includes mitigation measures that were previously identified by the analysis contained in the General Plan Master EIR, and Fairview Village Focused EIR for impacts to: Air Quality, Noise, Sensitive Wildlife and Plant Habitat, and Archaeology and Historic Resources. These measures are listed below.

2.0 SCOPE

The program described below applies to all mitigation measures described in the Draft Initial Study/proposed Mitigated Negative Declaration, dated October 10, 2003, prepared for the project. The components of project mitigation were reviewed and approved by the City of Modesto's Recreation and Neighborhoods, Engineering and Transportation and Operations and Maintenance staff and are contained in the document titled "Fairview Village CFD No. 2003-1" that will be adopted by the City Council.

3.0 MITIGATION MEASURES

AIR QUALITY:

"a. All applicable sections of SJVUAPCD Regulation VIII Control Measures for Construction Emissions of PM-10 (Rules 8011 through 8081) shall be applied to the project including Rule 8021 Section 6.3 Dust Control Plan. In addition, the following controls are required to be implemented at all construction sites:"

1. All disturbed areas, including storage piles, which are not being actively utilized for construction purposes, shall be effectively stabilized of dust emissions using water, chemical stabilizer/suppressant, covered with a tarp or other suitable cover or vegetative ground cover
2. All on-site unpaved roads and off-site unpaved access roads shall be effectively stabilized of dust emissions using water or chemical stabilizer/suppressant.

3. All land clearing, grubbing, scraping, excavation, land leveling, grading, cut & fill, and demolition activities shall be effectively controlled of fugitive dust emissions utilizing application of water or by presoaking.
 4. With the demolition of buildings up to six stories in height, all exterior surfaces of the building shall be wetted during demolition.
 5. When materials are transported off-site, all material shall be covered, or effectively wetted to limit visible dust emissions, and at least six inches of freeboard space from the top of the container shall be maintained.
 6. All operations shall limit or expeditiously remove the accumulation of mud or dirt from adjacent public streets at the end of each workday. (the use of dry rotary brushes is expressly prohibited except where preceded or accompanied by sufficient wetting to limit the visible dust emissions.) (Use of blower devices is expressly forbidden.)
 7. Following the addition of materials to, or the removal of materials from, the surface of outdoor storage piles, said piles shall be effectively stabilized of fugitive dust emissions utilizing sufficient water or chemical stabilizer/suppressant.
 8. Within urban areas, trackout shall be immediately removed when it extends 50 or more feet from the site and at the end of each workday.
 9. Any site with 150 or more vehicle trips per day shall prevent carryout and trackout.
- b. Enhanced Control Measures. The following measures should be implemented at construction sites when required to mitigate significant PM10 impacts (note, these measures are to be implemented in addition to Regulation VIII requirements):
1. Limit traffic speeds on unpaved roads to 15 mph; and
 2. Install sandbags or other erosion control measures to prevent silt runoff to public roadways from sites with a slope greater than one percent (1%).

"Pursuant to San Joaquin Valley Air Pollution District Rule 4103, agricultural material may not be burned if the land use is converting from agricultural to non-agricultural purposes."

NOISE:

Modesto Noise Ordinance. The City's noise ordinance (Modesto Municipal Code Section 4-9.101) prohibits the "loud and raucous discharge into the open air of the steam of any steam equipment or exhaust from any stationary internal-combustion engine."

The noise ordinance prohibits the loud and raucous operation or use of any of the following before 7:00 a.m. or after 9:00 p.m. daily (except Saturday and Sunday and State or federal holidays, when the prohibited time shall be before 9:00 a.m. and after 9:00 p.m.):

1. A hammer, or any other device or implement used to pound or strike an object.
2. An impact wrench, or other tool or equipment powered by compressed air.
3. A hand-powered saw.
4. Any tool or piece of equipment powered by an internal-combustion engine such as, but not limited to, chain saw, backpack blower, and lawn mower.
5. Any electrically powered (whether by alternating current electricity or by direct current electricity) tool or piece of equipment used for cutting, drilling, or shaping wood, plastic, metal, or other materials or objects, such as, but not limited to, a saw, drill, lathe, or router.
6. Any of the following: heavy equipment (such as but not limited to bulldozer, steam shovel, road grader, back hoe), ground drilling and boring equipment (such as but not limited to derrick or dredge), hydraulic crane and boom equipment, portable power generator or pump, pavement equipment (such as but not limited to pneumatic hammer, pavement breaker, tamper, compacting equipment), pile-driving equipment, vibrating roller, sand blaster, gunite machine, trencher, concrete truck, and hot kettle pump.
7. Any construction, demolition, excavation, erection, alteration, or repair activity. In the case of urgent necessity and in the interest of public health and safety, the Chief Building Official may issue a permit for exemption from these. Such period shall not exceed three (3) working days in length while the emergency continues but may be renewed for successive periods of three (3) days or less while the emergency continues. The Chief Building Official may limit such permit as to time of use and/or permitted action, depending upon the nature of the emergency and the type of action requested.

All development projects located within the Baseline Developed Area (and Redevelopment Area) are required to incorporate the General Plan policies listed below into the project.

Policy VII-G.3[a] The City of Modesto shall require noise-reducing construction practices to be implemented as conditions of approval for development projects where substantial construction-related noise impacts would be likely to occur (e.g. where construction would include extended periods of pile driving, where construction would occur over an unusually long period, or where noise-sensitive uses like homes and schools would be in the immediate vicinity, etc.). The city should consider potential mitigation measures, including, but not limited to, the following;

1. Construction equipment and vehicles should be equipped with properly operating mufflers according to the manufacturers' recommendations. Air compressors and pneumatic equipment should be equipped with mufflers, and impact tools should be equipped with shrouds or shields.
2. Other proposed uses: the noise/land use compatibility guidelines (i.e., those noise levels which are "conditionally acceptable," "normally Unacceptable," or "clearly unacceptable,") shown in Table 1 and the most recent noise contours for the City shown in Figure VII-1 [of the City's Urban Area General Plan].

INCREASED DEMAND FOR WATER SUPPLIES:

The following new project-specific mitigation measure will be incorporated into the Fairview Village CFD No. 2003-1 project to reduce to a level of Less than significant impact with mitigation incorporated any potential impacts for effects to Water Supplies.

The project requires the installation of a 500,000 gallon storage tank. Measures to mitigate water quality are outlined in Section IX – Drainage, Flooding and Water Quality.

LOSS OF SENSITIVE WILDLIFE AND PLANT HABITAT:

Policy VII-E.3[a] For all lands within the Planned Urbanizing Area, site specific surveys shall be conducted by a qualified biologist to determine whether any sensitive natural communities or species are present within the proposed development area. These studies shall particularly focus on proposed development within any lands included within a potential biological resource study area as delineated on Figure 7-1 in the Final Master EIR. (Riparian Corridor Diagram)

Surveys should be conducted at the appropriate season to best determine the likelihood of occurrence and should employ accepted methodologies as determined by DFG and USFWS. The significant results of such surveys should be recorded onto the City's existing biological resources map for future planning purposes.

Policy VII-E.3[b] All habitat found to contain or potentially contain sensitive species shall be avoided and preserved unless doing so would create, isolate and/or fragment habitat that would not function adequately as judged by a qualified biologist and/or that the proposed development layout would be so constrained as to make the development financially infeasible; avoided habitat areas shall also be protected by fencing, signage and/or establishment of buffer zones as appropriate to the species or habitat involved. Generally, a minimum 100-foot buffer of undeveloped land would be necessary. The protected habitat shall contribute to the long-term conservation of the species and ecosystems on which they depend.

Policy VII-E.3[c] Where formally listed species are determined present, consultation shall be carried out with the DFG and/or USFWS in accordance with the California and/or federal Endangered Species Acts. Where candidate or other special status category of species are involved, informal consultation with these agencies is recommended. The recommendations of these agencies shall be incorporated into the development plan, unless overriding considerations can be demonstrated.

ARCHAEOLOGY AND HISTORIC:

In the event of discovery or recognition of any human remains during excavation or construction, Appendix K requires that there shall be not further excavation or disturbance of the site or any nearby area reasonably suspected to overlie adjacent human remains until:

The coroner the County in which the remains are discovered has been informed and has determined that no investigation of the cause of death is required, and

If remains are of Native American origin,

The descendants from the deceased Native Americans have made a recommendation to the landowners or the person responsible for the excavation work, for means of retreating or disposing of, with appropriate dignity, the human remains and any associated grave goods as provided in Public Resources Code Section 5097.98, or

The Native American Heritage Commission was unable to identify a descendant or the descendant failed to make a recommendation within 24 hours after being notified by the commission.

Further, where the following conditions occur, the landowner or his authorized representative shall rebury the Native American human remains and associated grave goods with appropriate dignity on the property in a location not subject to further subsurface disturbance.

The Native American Heritage Commission is unable to identify a descendant;

The descendant identified fails to make a recommendation; or

The landowner or his authorized representative rejects the recommendation of the descendant, and the mediation by the Native American Heritage Commission fails to provide measures acceptable to the landowner.

If the human remains are discovered before the City has finished the CEQA process, the City shall work with the Native American Heritage Commission and the applicant to develop an agreement for treating or disposing, with appropriate dignity, of the human remains and any associated grave goods. Action implementing such an agreement is expect from:

The general prohibition on disinterring, disturbing, or removing human remains from any location other than a dedicated cemetery (health and Safety Code Section 7050.5).

The requirements of CEQA and the Coastal Act.

WATER QUALITY:

When construction of a water well facility is proposed, the following language shall be included in the subdivision improvement plans document:

MITIGATION MEASURE – WATER QUALITY – 1 :

The following new project-specific water quality mitigation measure will be incorporated into the Fairview Village CFD No. 2003-1 project reduce to a level of Less than Significant with Mitigation Incorporated any potential for effects to Water Quality for Nitrates:

Potential treatment measures include:

- (1) Ion Exchange, (2) Reverse Osmosis, (3) Electrodialysis/Electrodialysis Reversal, (4) Algal Growth and Harvesting and Disposal, (5) Dual Water Supply and Blending, (6) Combinations of Ozonation, Sand Filtration, and Granular Activated Carbon Filtration, and (7) Biological Denitrification – or the functional equivalent.

Each of these various methods of treatment have been shown to reduce nitrate in water to acceptable levels. Prior to construction, a study shall be prepared to determine the appropriate type/method of treatment. All work shall be conducted by a registered water treatment engineer.

MITIGATION MEASURE – WATER QUALITY – 2 :

The following new project-specific water quality mitigation measure will be incorporated into the Fairview Village CFD No. 2003-1 project reduce to a level of Less than Significant with Mitigation Incorporated any potential for effects to Water Quality for Uranium:

Potential treatment measures include: (1) Ion Exchange and (2) Blending with water of lower gross alpha level – or the functional equivalent.

Either or both of these methods of treatment will be applied to reduce gross alpha in water to levels below that of the MCL.

MITIGATION MEASURE – WATER QUALITY – 3 :

The following new project-specific water quality mitigation measure will be incorporated into the Fairview Village CFD No. 2003-1 project reduce to a level of Less than Significant with Mitigation Incorporated any potential for effects to Water Quality for Arsenic:

Potential Mitigation Measure:

Potential treatment measures include: (1) Ion Exchange, (2) Reverse Osmosis, (3) Electrodialysis/Electrodialysis Reversal, (4) Activated Alumina, Adsorption (5) Dual Water Supply and Blending, (6) Adsorption onto granular ferric hydroxide media(7) Adsorption onto granular ferric oxide media, (8) Oxidation and filtration using anthracite coal and or Greensand media and (9) Zirconium media adsorption/filtration..

Each of these various methods of treatment have been shown to reduce arsenic in water to levels below that of the MCL and new technologies for Arsenic treatment are still emerging. Prior to construction, a study shall be prepared to determine the appropriate type/method of treatment. All work shall be conducted by a registered water treatment engineer.

MITIGATION MEASURE – WATER QUALITY – 4:

The following new project-specific water quality mitigation measure will be incorporated into the Fairview Village CFD No. 2003-1 project to reduce to a level of Less than Significant with Mitigation Incorporated any potential for effects to Water Quality for Silvex and 2,4-DB:

Potential Mitigation Measure:

Potential treatment measures include: (1) Coagulation, Flocculation and Filtration, (2) Granular Activated Carbon Adsorption, (3). Powdered activated carbon adsorption.

Each of these various methods of treatment have been shown to reduce organic compounds in water to levels below that of the MCL. Prior to construction, a study shall

be prepared to determine the appropriate type/method of treatment. All work shall be conducted by a registered water treatment engineer.

MITIGATION MEASURES – WATER QUALITY – 5:

Potential treatment measures include: (1). Oxidation and filtration,, (2) Reverse Osmosis (3) Greensand Filtration.

Each of these various methods of treatment have been shown to reduce Manganese in water to levels below that of the secondary standard. Prior to construction, a study shall be prepared to determine the appropriate type/method of treatment. All work shall be conducted by a registered water treatment engineer.

MITIGATION MEASURE – WATER QUALITY –6:

The storm water basin shall incorporate current City adopted stormwater quality control measures described in the Guidance Manual for New Development Stormwater Quality Controls measures dated January 2001.

Implementation for all Water Quality Mitigation Measures:

When the development of water well facilities is proposed, the City shall assure implementation of these mitigation measures at a level and timing consistent with the Mitigated Negative Declaration.

HAZARDOUS MATERIALS:

Water well wellhead treatment facilities shall incorporate the following measures:

1. All chemicals storage tanks will have a secondary containment facility capable of holding the entire volume of the material stored in the tank in the event of a rupture to prevent accidental release.
2. All brine tanks will have a secondary containment facility capable of storing all of the brine in the event of tank failure.
3. All chemical storage tanks will be surrounded by a locked fence to prevent vandalism.
4. All ion exchange resin tanks will be housed in locked mobile containers capable of containing leaks and preventing damage due to climate or vandalism.
5. The brine delivery and disposal will be accomplished using locked boxes equipped with chemical cam lock off loading stations so trucks do not need to enter the well treatment area to load and unload materials.
6. The wellhead treatment site will be fully enclosed by a wall or fence and will remain locked at all times. The facilities will be inspected regularly.
7. Signs will be posted warning emergency responders of the hazards associated with high voltage electricity and NIOSH warnings regarding the chemicals which may be stored on site.
8. The removal of manganese sludge will be performed by certified divers according to AWWA standards.

Responsible Agency for all Fairview Village CFD No. 2003-1 Mitigation Measures:

City of Modesto, Parks, Recreation and Neighborhoods
City of Modesto, Operations and Maintenance Department
City of Modesto, Engineering and Transportation Department

Responsible Agency for all General Plan MEIR Mitigation Measures:

City of Modesto Community and Economic Development Department

Implementation for all General Plan MEIR Mitigation Measures:

At the appropriate time in the process, generally at the Subdivision Improvements Plan, the City shall verify compliance with these measures.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-660**

A RESOLUTION ESTABLISHING CITY OF MODESTO COMMUNITY FACILITIES NO. 2003-1 (FAIRVIEW VILLAGE), AUTHORIZING THE LEVY OF SPECIAL TAXES THEREIN AND ESTABLISHING AN ANNUAL APPROPRIATIONS LIMIT

WHEREAS, on October 28, 2003, pursuant to a petition filed by Del Valle Corporation, Inc. (the "Petitioner") this City Council adopted a resolution (the "Resolution of Intention") stating its intention to form City of Modesto Community Facilities District No. 2003-1 (Fairview Village) (the "Community Facilities District") pursuant to the Mello-Roos Community Facilities Act of 1982, as amended (the "Act"); and

WHEREAS, a copy of the Resolution of Intention, setting forth a description of the proposed boundaries of the Community Facilities District, the facilities and services to be financed by the Community Facilities District and the rate and method of apportionment of special tax proposed to be levied within the Community Facilities District, is on file with the City Clerk and is incorporated herein by reference; and

WHEREAS, on October 28, 2003, the City Council also adopted a resolution stating its intention to incur bonded indebtedness in an amount not to exceed \$25,000,000 for the purpose of financing (i) the cost of purchasing, constructing, expanding, improving or rehabilitating the facilities listed on Appendix A to the Resolution of Intention, and all appurtenances and appurtenant work associated with the foregoing (collectively the "Facilities") and (ii) the incidental expenses to be incurred in connection with financing the Facilities, including costs associated with the creation of the Community Facilities District and the issuance of bonds, the establishment and

Community Facilities District and the issuance of bonds, the establishment and replenishment of bond reserve and special reserve funds (the "Incidental Expenses"); all as more fully described in said resolution; and

WHEREAS, notice was published and mailed as required by law relative to the intention of the City to form the Community Facilities District and to incur bonded indebtedness in an amount not to exceed \$25,000,000; and

WHEREAS, there has been filed with the City Clerk a report containing a description of the facilities and services necessary to meet the needs of the Community Facilities District and an estimate of the cost of such facilities as required by Section 53321.5 of the Government Code (the "Report"); and

WHEREAS, the City Council has held a public hearing as required by law to determine whether it should proceed with the formation of the Community Facilities District, issue bonds to pay for the Facilities and the Incidental Expenses and authorize the rate and method of apportionment of special taxes to be levied within the Community Facilities District for the purposes described in the aforesaid resolutions; and

WHEREAS, at said hearing all persons desiring to be heard on all matters pertaining to the formation of the Community Facilities District, the levy of special taxes and the issuance of bonds to pay for the cost of the proposed Facilities and Incidental Expenses were heard, and a full and fair hearing was held; and

WHEREAS, at the public hearing evidence was presented to the City Council on the matters before it, and the proposed special taxes to be levied within the Community

Facilities District was not precluded by a majority protest of the type described in Government Code Section 53324, and the City Council is sufficiently advised as to all matters relating to the formation of the Community Facilities District, the levy of the special taxes and the issuance of bonded indebtedness; and

WHEREAS, there have been fewer than twelve registered voters residing in the proposed boundaries of the Community Facilities District for the statutory period, and the qualified electors in the Community Facilities District are the landowners within the Community Facilities District; and

WHEREAS, on the basis of all of the foregoing, the City Council has determined at this time to proceed with the establishment of the Community Facilities District and to call an election therein to authorize (i) the levy of special taxes pursuant to the rate and method of apportionment of special tax, as set forth in Attachment A hereto, (ii) the issuance of bonds to pay for the Facilities and the Incidental Expenses, and (iii) the establishment of an appropriations limit for the Community Facilities District;

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto hereby finds and determines as follows:

SECTION 1. The above recitals are true and correct.

SECTION 2. A community facilities district designated "City of Modesto Community Facilities District No. 2003-1 (Fairview Village)" is hereby established pursuant to the Act. The City Council hereby finds and determines that all prior proceedings taken with respect to the establishment of the Community Facilities District

were valid and in conformity with the requirements of law, including the Act. This finding is made in accordance with the provisions of Section 53325.1(b) of the Act.

SECTION 3. The boundaries of the Community Facilities District are established as shown on the map designated "Boundary Map of Proposed City of Modesto Community Facilities District No. 2003-1 (Fairview Village)," which map is on file in the office of the City Clerk and, pursuant to Sections 3111 and 3113 of the Streets and Highways Code, was recorded in the Book of Maps of Assessment and Community Facilities Districts in the Office of the County Recorder of Stanislaus County in Book No. 3, at Page 83, as Instrument No. 03-0190347-00.

SECTION 4. The facilities authorized to be provided for the Community Facilities District are those identified as the "Facilities" in the recitals of this resolution and the services authorized to be paid for by the Community Facilities District are those set forth in Appendix A to the Resolution of Intention (the "Services").

SECTION 5. It is the intention of the City Council, subject to the approval of the qualified electors of the Community Facilities District, to levy the proposed special taxes at the rates set forth in Attachment A hereto on all non-exempt property within the Community Facilities District sufficient to pay for (i) the Services, (ii) the Facilities, (iii) the principal and interest and other periodic costs on the bonds proposed to be issued to finance the Facilities, including the establishment and replenishment of reserve funds, any remarketing, credit enhancement and liquidity facility fees and other expenses of the type permitted by Section 53345.3 of the Act; and (iv) the other Incidental Expenses, including the costs of forming the Community Facilities District and administering the

levy and collection of the special tax and all other administrative costs of the special tax levy and bond issues. The City expects to incur, and in certain cases has already incurred, incidental expenses in connection with the creation of the Community Facilities District, the issuance of bonds, the levying and collecting of the special taxes, the provision of the Services, the completion and inspection of the Facilities and the annual administration of the bonds and the Community Facilities District. The rate and method of apportionment of special tax is described in detail on **Attachment A** hereto and incorporated herein by this reference, and the City Council hereby finds that Attachment A contains sufficient detail to allow each landowner within the Community Facilities District to estimate the maximum amount that may be levied against each parcel. As described in greater detail in the Report, which is incorporated by reference herein, the special taxes are based generally on area of each parcel of real property within the Community Facilities District (except to the extent that certain single family detached lots may be taxed at the same rate regardless of land area) and, accordingly, is hereby determined to be reasonable. The special tax shall be levied on each assessor's parcel for a period not to extend beyond fiscal year 2050-51, and the Resolution of Intention is hereby amended to change the reference therein to the "2044-2045 tax year" to "fiscal year 2050-51." The special taxes are apportioned to each parcel on the foregoing basis pursuant to Section 53325.3 of the Act, and such special taxes are not on or based upon the ownership of real property. Under no circumstances shall the special taxes against any parcel used for private residential purposes be increased by more than 10% as a consequence of delinquency or default by the owner of any other parcel or parcels within the Communities Facilities District.

The City's District Administrator, 1010 Tenth Street, Modesto, California 95353, telephone number (209) 577-5211, will be responsible for preparing annually, or authorizing a designee to prepare, a current roll of special tax levy obligations by assessor's parcel number and will be responsible for estimating future special tax levies pursuant to Section 53340.2 of the Act.

SECTION 6. In the event that a portion of the property within the Community Facilities District shall become for any reason exempt, wholly or partially, from the levy of the special taxes specified in Attachment A, the City Council shall, on behalf of the Community Facilities District, increase the levy (to the extent necessary and permitted by law and these proceedings) upon the remaining property within the Community Facilities District which is not exempt in order to yield the required debt service payments on any outstanding bonds of the Community Facilities District or to prevent the Community Facilities District from defaulting on any of its other obligations or liabilities. The amount of the special taxes will be set in accordance with the rate and method of apportionment of special tax attached hereto as Attachment A.

SECTION 7. Upon recordation of a notice of special tax lien pursuant to Section 3114.5 of the Streets and Highways Code, a continuing lien to secure each levy of the special taxes shall attach to all non-exempt real property in the Community Facilities District, and this lien shall continue in force and effect until the special tax obligation is prepaid and permanently satisfied and the lien canceled in accordance with law or until collection of the special tax by the Community Facilities District ceases.

SECTION 8. It is hereby further determined that there will be no ad valorem property tax levied on property within the Community Facilities District for the exclusive purpose of paying the principal of or interest on bonds or other indebtedness incurred to finance the construction of capital facilities which provide the same services to the territory of the Community Facilities District as are proposed to be provided by the Facilities to be financed by the Community Facilities District.

SECTION 9. The City may accept advances of funds or work-in-kind from any source, including, but not limited to, the Petitioner and other private persons or private entities, for any authorized purpose, including, but not limited to, paying any cost incurred by it in creating the Community Facilities District. The City may enter into an agreement with the person or entity advancing the funds or work-in-kind, to repay all or a portion of the funds advanced, or to reimburse the person or entity for the value, or cost, whichever is less, of the work-in-kind, as determined by the City, with or without interest.

SECTION 10. Written protests against the establishment of the Community Facilities District have not been filed by one-half or more registered voters within the boundaries of the Community Facilities District or by the property owners of one-half (1/2) or more of the area of land within the Community Facilities District. The City Council hereby finds that the proposed special taxes have not been precluded by a majority protest pursuant to Section 53324 of the Act.

SECTION 11. The annual appropriations limit (as defined in Section 8(h) of Article XIII B of the California Constitution) of the Community Facilities District is hereby established at \$25,000,000.

SECTION 12. An election is hereby called for the Community Facilities District on the propositions of levying the special taxes on the property within the Community Facilities District and establishing the appropriations limit for the Community Facilities District pursuant to Section 53325.7 of the Act and shall be consolidated with the election on the proposition of incurring bonded indebtedness, pursuant to Section 53351 of the Act. The language of the proposition to be placed on the ballot is attached hereto as **Attachment B**.

SECTION 13. The date of the election for the Community Facilities District on the proposition of incurring the bonded indebtedness, authorizing the levy of the special taxes and establishing the appropriations limit for the Community Facilities District shall be December 11, 2003. The City Clerk shall conduct the election. Except as otherwise provided by the Act, the election shall be conducted by personally delivered or mailed ballot and in accordance with the provisions of law regulating elections of the City insofar as such provisions are determined by the City Clerk to be applicable.

The City Council having found that there have been fewer than twelve persons registered to vote within the territory of the Community Facilities District for each of the ninety days preceding the close of the public hearing described above, pursuant to Section 53326 of the Government Code each landowner who is the owner of record on

the date hereof or the authorized representative thereof shall have one vote for each acre or portion thereof that he or she owns within the Community Facilities District.

SECTION 14. The preparation of the Report is hereby ratified. The Report, as submitted, is hereby approved and is made a part of the record of the public hearing regarding the formation of the Community Facilities District, and is ordered to be kept on file with the transcript of these proceedings and open for public inspection.

The foregoing resolution was introduced at the regular meeting of the City Council of the City of Modesto held on the 11th of December, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

Ayes:	Councilmembers:	Frohman, Hawn, Jackman, Keating, Marsh, Mayor Sabatino
Noes:	Councilmembers:	None
Absent:	Councilmembers	O'Bryant

ATTACHMENT A
CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT NO. 2003-1
(FAIRVIEW VILLAGE)

RATE AND METHOD OF APPORTIONMENT OF SPECIAL TAX

Special Taxes applicable to each Assessor's Parcel in Community Facilities District No. 2003-1 (Fairview Village) [herein "CFD No. 2003-1" or "the CFD"] shall be levied and collected according to the tax liability determined by the City Council of the City of Modesto, through the application of the appropriate amount or rate for Taxable Property, as described below. All of the property in CFD No. 2003-1, unless exempted by law or by the provisions of Section G below, shall be taxed for the purposes, to the extent, and in the manner herein provided, including property subsequently annexed to CFD No. 2003-1 unless a separate Rate and Method of Apportionment is adopted for the annexation area.

A. DEFINITIONS

The terms hereinafter set forth have the following meanings:

"Acre" or "Acreage" means the land area of an Assessor's Parcel as shown on an Assessor's Parcel Map, or if the land area is not shown on an Assessor's Parcel Map, the land area shown on the applicable Final Map or other Development Plan.

"Act" means the Mello-Roos Community Facilities Act of 1982, as amended, being Chapter 2.5, (commencing with Section 53311), Division 2 of Title 5 of the California Government Code.

"Administrative Expenses" means any or all of the following: the fees and expenses of any fiscal agent or trustee (including any fees or expenses of its counsel) employed in connection with any Bonds, and the expenses of the City carrying out its duties with respect to CFD No. 2003-1 and the Bonds, including, but not limited to, levying and collecting the Special Taxes, the fees and expenses of legal counsel, charges levied by the County Auditor's Office, Tax Collector's Office, and/or Treasurer's Office, costs related to annexing property into the CFD, costs related to property owner inquiries regarding the Special Taxes, costs associated with complying with any continuing disclosure requirements for the Bonds and the Special Taxes, and all other costs and expenses of the City in any way related to the establishment or administration of the CFD.

"Administrator" means the person or firm designated by the City to administer the Special Taxes according to this Rate and Method of Apportionment of Special Tax.

"Annual Maintenance Special Tax" means a special tax levied in any Fiscal Year to pay the Maintenance Special Tax Requirement, as defined below.

"Annual Facilities Special Tax" means a special tax levied in any Fiscal Year to pay the Annual Facilities Special Tax Requirement, as defined below.

“Annual Facilities Special Tax Requirement” means the amount necessary in any Fiscal Year (i) to pay principal and interest on Bonds, (ii) to create or replenish reserve funds, (iii) to cure any delinquencies in the payment of principal or interest on indebtedness of CFD No. 2003-1 which have occurred in the prior Fiscal Year or (based on delinquencies in the payment of the Annual Facilities Special Taxes which have already taken place) are expected to occur in the Fiscal Year in which the tax will be collected, and (iv) to pay construction expenses to be funded directly from Annual Facility Special Tax proceeds. The amounts referred to in clauses (i) and (ii) of the preceding sentence may be reduced in any Fiscal Year by: (i) interest earnings on or surplus balances in funds and accounts for the Bonds to the extent that such earnings or balances are available to apply against debt service pursuant to a Bond indenture, Bond resolution, or other legal document that sets forth these terms; (ii) proceeds received by CFD No. 2003-1 from the collection of penalties associated with delinquent Annual Facilities Special Taxes; and (iii) any other revenues available to pay debt service on the Bonds as determined by the Administrator.

“Assessor’s Parcel” or “Parcel” means a lot or parcel shown on an Assessor’s Parcel Map with an assigned Assessor’s Parcel number.

“Assessor’s Parcel Map” means an official map of the County Assessor designating parcels by Assessor’s Parcel number.

“Bonds” means bonds or other debt (as defined in the Act), whether in one or more series, issued, insured or assumed by CFD No. 2003-1 related to public infrastructure and/or improvements that are authorized to be funded by CFD No. 2003-1.

“Capitalized Interest” means funds in any capitalized interest account available to pay debt service on Bonds.

“CFD Formation” means the date on which the Resolution of Formation to form CFD No. 2003-1 was adopted by the City Council.

“City” means the City of Modesto.

“City Council” means the City Council of the City of Modesto, acting as the legislative body of CFD No. 2003-1.

“County” means the County of Stanislaus.

“Developed Property” means, in any Fiscal Year, the following:

- for Single Family Detached Property, all Parcels for which a Final Map was recorded prior to June 30 of the preceding Fiscal Year
- for Single Family Attached Property, all Parcels for which a building permit for new construction of a residential structure was issued prior to June 30 of the preceding Fiscal Year.

- for Other Property, all parcels for which a building permit for new construction of a building structure was issued prior to June 30 of the preceding Fiscal Year.

“Development Plan” means a condominium plan, apartment plan, site plan or other development plan that identifies such information as the type of structure, the acreage, the square footage, and/or the number of Units that will be developed on Single Family Attached Property or Other Property.

“Fiscal Year” means the period starting July 1 and ending on the following June 30.

“Maintenance Special Tax Requirement” means that amount necessary in any Fiscal Year to (i) pay for authorized maintenance expenses, (ii) pay administrative expenses of CFD No. 2003-1, and (iii) cure any delinquencies in the payment of Annual Maintenance Special Taxes levied in prior Fiscal Years or (based on delinquencies in the payment of Annual Maintenance Special Taxes which have already taken place) are expected to occur in the current Fiscal Year.

“Maximum One-Time Facilities Special Tax” means the greatest amount of One-Time Facilities Special Tax that can be levied on an Assessor’s Parcel in any Fiscal Year determined in accordance with Sections C and D below.

“Maximum Annual Facilities Special Tax” means the greatest amount of Annual Facilities Special Tax that can be levied on an Assessor’s Parcel in any Fiscal Year determined in accordance with Sections C and D below.

“Maximum Annual Maintenance Special Tax” means the greatest amount of Annual Maintenance Special Tax that can be levied on an Assessor’s Parcel in any Fiscal Year determined in accordance with Sections C and D below.

“Maximum Special Taxes” means, collectively, the Maximum One-Time Facilities Special Tax, Maximum Annual Facilities Special Tax, and Maximum Annual Maintenance Special Tax.

“One-Time Facilities Special Tax” means a special tax, levied on Taxable Property to pay the One-Time Facilities Special Tax Requirement and collected by the City prior to a structural building permit being issued for new construction on Taxable Property.

“One-Time Facilities Special Tax Requirement” means the amount determined by the City and identified in Attachment 2 of this Rate and Method of Apportionment that is needed to pay facility costs authorized to be funded by CFD No. 2003-1, which will not be paid by the Bonds or Annual Facilities Special Tax.

“Original Parcel” means an Assessor’s Parcel in CFD No. 2003-1 at the time of CFD Formation, as identified in Attachment 2. A Successor Parcel that is being further subdivided shall also be considered an Original Parcel for purposes of determining the Maximum Special Taxes pursuant to Section C.

“Other Property” means all Taxable Property that is Developed Property but is not Single Family Attached Property or Single Family Detached Property.

“Proportionately” means, for Developed Property, that the ratio of the actual Annual Facilities Special Tax and Annual Maintenance Special Tax levied in any Fiscal Year to the Maximum Annual Facilities Special Tax and Maximum Annual Maintenance Special Tax authorized to be levied in that Fiscal Year is equal for all Assessor’s Parcels of Developed Property, respectively. In addition, for Undeveloped Property, “Proportionately” means that the ratio of the actual Annual Facilities Special Tax and actual Annual Maintenance Facilities Special Tax to the Maximum Annual Facilities Special Tax and Maximum Annual Maintenance Special Tax is equal for all Assessor’s Parcels of Undeveloped Property, respectively.

“Public Property” means any property within the boundaries of CFD No. 2003-1 that is owned by the federal government, State of California, County, City, or other public agency.

“Single Family Attached Property” means, in any Fiscal Year, all Parcels of Developed Property for which a building permit was issued for construction of a residential structure consisting of two or more Units that share common walls and are offered as for-sale Units, including such residential structures that meet the statutory definition of a condominium contained in Civil Code Section 1351.

“Single Family Detached Lot” means an individual numbered lot, which is in its final configuration and for which a building permit may be issued for a single family detached Unit.

“Single Family Detached Property” means, in any Fiscal Year, all Parcels of Developed Property for which a building permit was issued or will be issued for construction of a Unit that does not share a common wall with another Unit.

“Special Taxes” means, collectively, the One-Time Facilities Special Tax, the Annual Facilities Special Tax, and the Annual Maintenance Special Tax.

“Subdivision Map” means a final map, large lot subdivision map, or other map recorded with the County that results in the subdivision of an Original Parcel into two or more Successor Parcels.

“Successor Parcel” means an Assessor’s Parcel of Taxable Property created by the subdivision or reconfiguration of an Original Parcel.

“Taxable Property” means all of the Assessor’s Parcels within the boundaries of CFD No. 2003-1 which are not exempt from the Special Tax pursuant to law or Section G below.

“Taxable Public Property” means, in any Fiscal Year, all Parcels of Public Property within CFD No. 2003-1 that, (i) based on a tentative map or other Development Plan, were expected to be Taxable Property and, (ii) based on this expectation, Maximum Special Taxes were assigned to the Parcels in prior Fiscal Years.

“Tax Zone” means a mutually exclusive geographic area, within which particular Special Tax rates may be levied pursuant to this Rate and Method of Apportionment of Special Tax. Attachment 1 identifies the Tax Zone in CFD No. 2003-1 at CFD Formation; additional Tax Zones may be created when property is annexed into the CFD.

“Tax Zone #1” means the geographic area that was identified in Fiscal Year 2003-04 by Assessor’s Parcel number 56-27-02 and is designated in Attachment 1 of this Rate and Method of Apportionment of Special Tax as Tax Zone #1.

“Undeveloped Property” means, in any Fiscal Year, all Parcels of Taxable Property within CFD No. 2003-1 that are not Developed Property.

“Unit” means (i) for Single Family Detached Property, an individual single-family detached unit, and (ii) for Single Family Attached Property, an individual residential unit within a duplex, triplex, fourplex, townhome, or condominium structure.

B. DATA FOR ANNUAL ADMINISTRATION

On or about July 1 of each Fiscal Year, the Administrator shall identify the current Assessor’s Parcel numbers for all Parcels of Taxable Property. The Administrator shall also determine: (i) the Tax Zone within which each Parcel of Taxable Property is located, (ii) whether each Assessor’s Parcel of Taxable Property is Developed Property or Undeveloped Property, (iii) for Developed Property, which Parcels are Single Family Detached Property, Single Family Attached Property, and Other Property, (iv) for Parcels of Single Family Attached Property, the number of Units on each Parcel, (v) for Other Property, the Acreage of each Parcel, and (vi) the One-Time Facilities Special Tax Requirement, the Annual Facilities Special Tax Requirement, and the Maintenance Special Tax Requirement.

For Single Family Attached Property, the number of Units shall be determined by referencing the relevant Development Plan. If, in any Fiscal Year, an Assessor’s Parcel includes both Developed Property and Undeveloped Property, the Administrator shall determine the acreage associated with the Developed Property, subtract this acreage from the total Acreage of the Assessor’s Parcel, and use the remaining acreage to calculate the Special Tax that will apply to Undeveloped Property within the Assessor’s Parcel. The Special Tax shall then be calculated for the Developed Property on the Parcel, and the total Special Tax levied on the Assessor’s Parcel shall be the sum of the Special Taxes determined separately for the Undeveloped Property and Developed Property on the Parcel.

C. CALCULATING THE MAXIMUM SPECIAL TAXES

The Administrator shall use the procedures set forth below to calculate the Maximum Special Taxes for each Parcel in CFD No. 2003-1 in each Fiscal Year, including the Maximum One-Time Facilities Special Tax, Annual Facilities Special Tax, and Annual Maintenance Special Tax.

1. Original Parcels

The Maximum Special Taxes for each Original Parcel in CFD No. 2003-1 as of CFD Formation are identified in Attachment 2. Attachment 2 will be updated by the Administrator as needed to reflect Original Parcels added to the CFD due to annexations.

2. Successor Parcels

a. *All Successor Parcels are Single Family Detached Lots*

If the Parcels created by a recorded Subdivision Map are all Single Family Detached Lots, the Administrator shall apply the following steps to allocate the Maximum Special Taxes assigned to the Original Parcel to each of the Successor Parcels created by the subdivision:

- Step 1:** Identify the Maximum Special Taxes assigned to the Original Parcel;
- Step 2:** Divide the Maximum Special Taxes from Step 1 by the number of Single Family Detached Lots created by the Subdivision Map to determine the Maximum Special Taxes for each Single Family Detached Lot.

b. *No Successor Parcels are Single Family Detached Lots*

If none of the Successor Parcels created by recordation of a Subdivision Map are Single Family Detached Lots, the Administrator shall apply the following steps to allocate the Maximum Special Taxes assigned to the Original Parcel to each of the Successor Parcels:

- Step 1:** Identify the Maximum Special Taxes assigned to the Original Parcel;
- Step 2:** Determine the total Acreage of Taxable Property created by subdivision of the Original Parcel;
- Step 3:** Divide the Maximum Special Taxes from Step 1 by the Acreage from Step 2 to calculate Maximum Special Taxes per acre;
- Step 4:** Multiply the per-acre Maximum Special Taxes from Step 3 by the Acreage in each Successor Parcel to calculate the Maximum Special Taxes for each Successor Parcel.

If, after subdivision of an Original Parcel, a Successor Parcel is further subdivided, the Successor Parcel shall be treated as an Original Parcel for purposes of allocating Maximum Special Taxes pursuant to Section C.2a, C.2b, or C.2c, as appropriate.

c. *Some, But Not All, Successor Parcels are Single Family Detached Lots*

If a Subdivision Map divides an Original Parcel into Successor Parcels, of which some are Single Family Detached Lots and some are not, the Administrator shall apply the following steps to allocate the Maximum Special Taxes assigned to the Original Parcel to each of the Successor Parcels:

- Step 1:** Identify the Maximum Special Taxes assigned to the Original Parcel;
- Step 2:** Determine the total Acreage of Taxable Property created by subdivision of the Original Parcel;

- Step 3:** Determine the total Acreage of Single Family Detached Property created by the subdivision by taking the sum of the Acreage in the individual Single Family Detached Lots;
- Step 4:** Divide the Maximum Special Taxes from Step 1 by the Acreage calculated in Step 2 to calculate Maximum Special Taxes per acre;
- Step 5:** Multiply the per-acre Maximum Special Taxes calculated in Step 4 by the Acreage of Single Family Detached Property calculated in Step 3 to determine the total Maximum Special Taxes to be assigned to the Single Family Detached Property created by the subdivision;
- Step 6:** Divide the amount calculated in Step 5 by the number of Single Family Detached Lots created by the subdivision to determine the Maximum Special Taxes for each Single Family Detached Lot;
- Step 7:** Multiply the per-acre Maximum Special Taxes calculated in Step 4 by the Acreage of each Successor Parcel that is not Single Family Detached Property to calculate the Maximum Special Taxes for such Parcels.

If, after subdivision of an Original Parcel, a Successor Parcel is further subdivided, the Successor Parcel shall be treated as an Original Parcel for purposes of allocating Maximum Special Taxes pursuant to Section C.2a, C.2b, or C.2c, as appropriate.

After each reallocation of the Maximum Special Taxes upon subdivision or reconfiguration of Original Parcels, the sum of the Maximum Special Taxes assigned to Successor Parcels shall never be less than the Maximum Special Taxes assigned to the Original Parcels prior to such reallocation.

D. ESCALATION OF MAXIMUM SPECIAL TAXES

1. One-Time Facilities Special Tax

Beginning in January 2005 and each January thereafter, the Maximum One-Time Facilities Special Tax assigned to each Parcel shall be increased by four percent (4%) of the amount in effect in the prior year.

2. Annual Facilities Special Tax

Beginning with Fiscal Year 2005-06, and each Fiscal Year thereafter, the Maximum Annual Facilities Special Tax assigned to each Parcel shall be increased by two percent (2%) of the amount in effect in the prior Fiscal Year.

3. Annual Maintenance Special Tax

Beginning in January 2005 and each January thereafter, the Maximum Annual Maintenance Special Tax shall be adjusted annually by the greater of (i) the percentage increase, if any, in the construction cost index for the San Francisco

region for the prior twelve (12) month period as published in the Engineering News Record or other comparable source if the Engineering News Record is discontinued or otherwise not available, or (ii) four percent (4.0%). Each annual adjustment of the Maximum Annual Maintenance Special Tax shall become effective on the subsequent July 1.

E. METHOD OF LEVY OF THE SPECIAL TAX

1. One-Time Facilities Special Tax

The Maximum One-Time Facilities Special Tax determined pursuant to Sections C and D above shall be levied on all Taxable Property in CFD No. 2003-1 and shall be collected as set forth in Section F below.

2. Annual Facilities Special Tax

Commencing with Fiscal Year 2004-05 and for each following Fiscal Year, the Administrator shall determine the Annual Facilities Special Tax Requirement for that Fiscal Year. The Annual Facilities Special Tax shall then be levied on all Parcels of Taxable Property as follows:

Step 1: The Annual Facilities Special Tax shall be levied Proportionately on each Parcel of Developed Property within the CFD up to 100% of the Maximum Annual Facilities Special Tax for each Parcel for such Fiscal Year;

Step 2: If additional revenue is needed after Step 1, and after applying Capitalized Interest to the Annual Facilities Special Tax Requirement, the Annual Facilities Special Tax shall be levied Proportionately on each Assessor's Parcel of Undeveloped Property within the CFD, up to 100% of the Maximum Annual Facilities Special Tax for each Parcel of Undeveloped Property for such Fiscal Year;

Step 3: If additional revenue is needed after applying the first two steps, the Annual Facilities Special Tax shall be levied Proportionately on each Assessor's Parcel of Taxable Public Property, up to 100% of the Maximum Annual Facilities Special Tax assigned to each Parcel of Taxable Public Property.

3. Annual Maintenance Special Tax

Commencing with Fiscal Year 2004-05 and for each following Fiscal Year, the Administrator shall determine the Maintenance Special Tax Requirement for that Fiscal Year. The Annual Maintenance Special Tax shall then be levied on all Parcels of Taxable Property as follows:

Step 1: The Annual Maintenance Special Tax shall be levied Proportionately on each Parcel of Developed Property within the CFD up to 100% of the

Maximum Annual Maintenance Special Tax for each Parcel for such Fiscal Year;

Step 2: If additional revenue is needed after Step 1, the Annual Maintenance Special Tax shall be levied Proportionately on each Assessor's Parcel of Undeveloped Property within the CFD, up to 100% of the Maximum Annual Maintenance Special Tax for each Parcel of Undeveloped Property for such Fiscal Year;

Step 3: If additional revenue is needed after applying the first two steps, the Annual Maintenance Special Tax shall be levied Proportionately on each Assessor's Parcel of Taxable Public Property, up to 100% of the Maximum Annual Maintenance Special Tax assigned to each Parcel of Taxable Public Property.

E. COLLECTION OF SPECIAL TAX

The Maximum One-Time Facilities Special Tax shall be collected prior to a building permit being issued for new construction of any residential or non-residential structure on Taxable Property within CFD No. 2003-1, and shall be immediately delinquent if not so paid.

The Annual Facilities Special Tax and Annual Maintenance Special Tax for CFD No. 2003-1 shall be collected in the same manner and at the same time as ordinary ad valorem property taxes, provided, however, that prepayments are permitted as set forth in Section H below and provided further that the City may directly bill, collect at a different time or in a different manner, and/or collect delinquent Annual Facilities Special Taxes and Annual Maintenance Special Taxes through foreclosure or other available methods.

The Annual Facilities Special Tax shall be levied and collected until principal and interest on Bonds have been repaid, costs of constructing or acquiring authorized facilities from Annual Facilities Special Tax proceeds have been paid, and all administrative expenses have been reimbursed. However, in no event shall an Annual Facilities Special Tax be levied after Fiscal Year 2050-2051. The Annual Maintenance Special Tax will continue to be levied and collected unless and until the City determines that Annual Maintenance Special Tax revenues are no longer needed to pay authorized services of the CFD.

G. EXEMPTIONS

Notwithstanding any other provision of this Rate and Method of Apportionment of Special Tax, no Special Taxes shall be levied on Public Property, except Taxable Public Property, as defined herein.

H. PREPAYMENT OF SPECIAL TAX

The following definitions apply to this Section H:

“Outstanding Bonds” means all Previously Issued Bonds which remain outstanding, with the following exception: if an Annual Facilities Special Tax has been levied against,

or already paid by, an Assessor's Parcel making a prepayment, and a portion of the Annual Facilities Special Tax will be used to pay a portion of the next principal payment on the Bonds that remain outstanding (as determined by the Administrator), that next principal payment shall be subtracted from the total Bond principal that remains outstanding, and the difference shall be used as the amount of Outstanding Bonds for purposes of this prepayment formula.

“Previously Issued Bonds” means all Bonds that have been issued on behalf of the CFD prior to the date of prepayment.

“Public Facilities Requirements” means either \$3.8 million in 2004 dollars, which shall increase on January 1, 2005, and on each January 1 thereafter by the percentage increase, if any, in the construction cost index for the San Francisco region for the prior twelve (12) month period as published in the Engineering News Record or other comparable source if the Engineering News Record is discontinued or otherwise not available, or such lower number as shall be determined by the City as sufficient to fund improvements that are authorized to be funded by the CFD. The Public Facilities Requirements shown above may be adjusted or a separate Public Facilities Requirements identified each time property annexes into CFD No. 2003-1; at no time shall the added Public Facilities Requirement for that annexation area exceed the amount of public improvement costs that are expected to be supportable by the Maximum Annual Facilities Special Tax revenues generated within that annexation area.

“Remaining Facilities Costs” means the Public Facilities Requirements (as defined above), minus public facility costs funded by Outstanding Bonds (as defined above), developer equity, and/or any other source of funding.

The Annual Facilities Special Tax obligation applicable to an Assessor's Parcel in the CFD may be prepaid and the obligation of the Assessor's Parcel to pay the Annual Facilities Special Tax permanently satisfied as described herein, provided that a prepayment may be made only if there are no delinquent Annual Facilities Special Taxes with respect to such Assessor's Parcel at the time of prepayment. The Annual Maintenance Special Tax may not be prepaid. An owner of an Assessor's Parcel intending to prepay the Annual Facilities Special Tax obligation shall provide the City with written notice of intent to prepay. Within 30 days of receipt of such written notice, the City or its designee shall notify such owner of the prepayment amount for such Assessor's Parcel. Prepayment must be made not less than 75 days prior to any redemption date for Bonds to be redeemed with the proceeds of such prepaid Annual Facilities Special Taxes. The Prepayment Amount shall be calculated as follows: (capitalized terms as defined below):

	Bond Redemption Amount
plus	Remaining Facilities Amount
plus	Redemption Premium
plus	Defeasance Requirement
plus	Administrative Fees and Expenses
<u>less</u>	<u>Reserve Fund Credit</u>
equals	Prepayment Amount

As of the proposed date of prepayment, the Prepayment Amount shall be determined by application of the following steps:

- Step 1.** Compute the total Maximum Annual Facilities Special Tax that could be collected from the Assessor's Parcel prepaying the Annual Facilities Special Tax in the Fiscal Year in which prepayment would be received by the City.
- Step 2.** Divide the Maximum Annual Facilities Special Tax from Step 1 by the total amount that could be collected if the Maximum Annual Facilities Special Tax was levied on all Parcels of Taxable Property in the CFD.
- Step 3.** Multiply the quotient computed pursuant to Step 2 by the Outstanding Bonds to compute the amount of Outstanding Bonds to be retired and prepaid (the "*Bond Redemption Amount*").
- Step 4.** Compute the current Remaining Facilities Costs (if any).
- Step 5.** Multiply the quotient computed pursuant to Step 2 by the amount determined pursuant to Step 4 to compute the amount of Remaining Facilities Costs to be prepaid (the "*Remaining Facilities Amount*").
- Step 6.** Multiply the Bond Redemption Amount computed pursuant to Step 3 by the applicable redemption premium, if any, on the Outstanding Bonds to be redeemed (the "*Redemption Premium*").
- Step 7.** Compute the amount needed to pay interest on the Bond Redemption Amount starting with the first Bond interest payment date after which the prepayment has been received until the earliest redemption date for the Outstanding Bonds, which, depending on the Bond offering document, may be as early as the next interest payment date.
- Step 8:** Compute the amount of interest the City reasonably expects to derive from reinvestment of the Bond Redemption Amount plus the Redemption Premium from the first Bond interest payment date after which the prepayment has been received until the redemption date for the Outstanding Bonds.
- Step 9:** Take the amount computed pursuant to Step 7 and subtract the amount computed pursuant to Step 8 (the "*Defeasance Requirement*").
- Step 10.** Determine the costs of computing the prepayment amount, the costs of redeeming Bonds, and the costs of recording any notices to evidence the prepayment and the redemption (the "*Administrative Fees and Expenses*").
- Step 11.** If and to the extent so provided in the indenture pursuant to which the Outstanding Bonds to be redeemed were issued, a reserve fund credit shall

be calculated as a reduction in the applicable reserve fund for the Outstanding Bonds to be redeemed pursuant to the prepayment (the "*Reserve Fund Credit*").

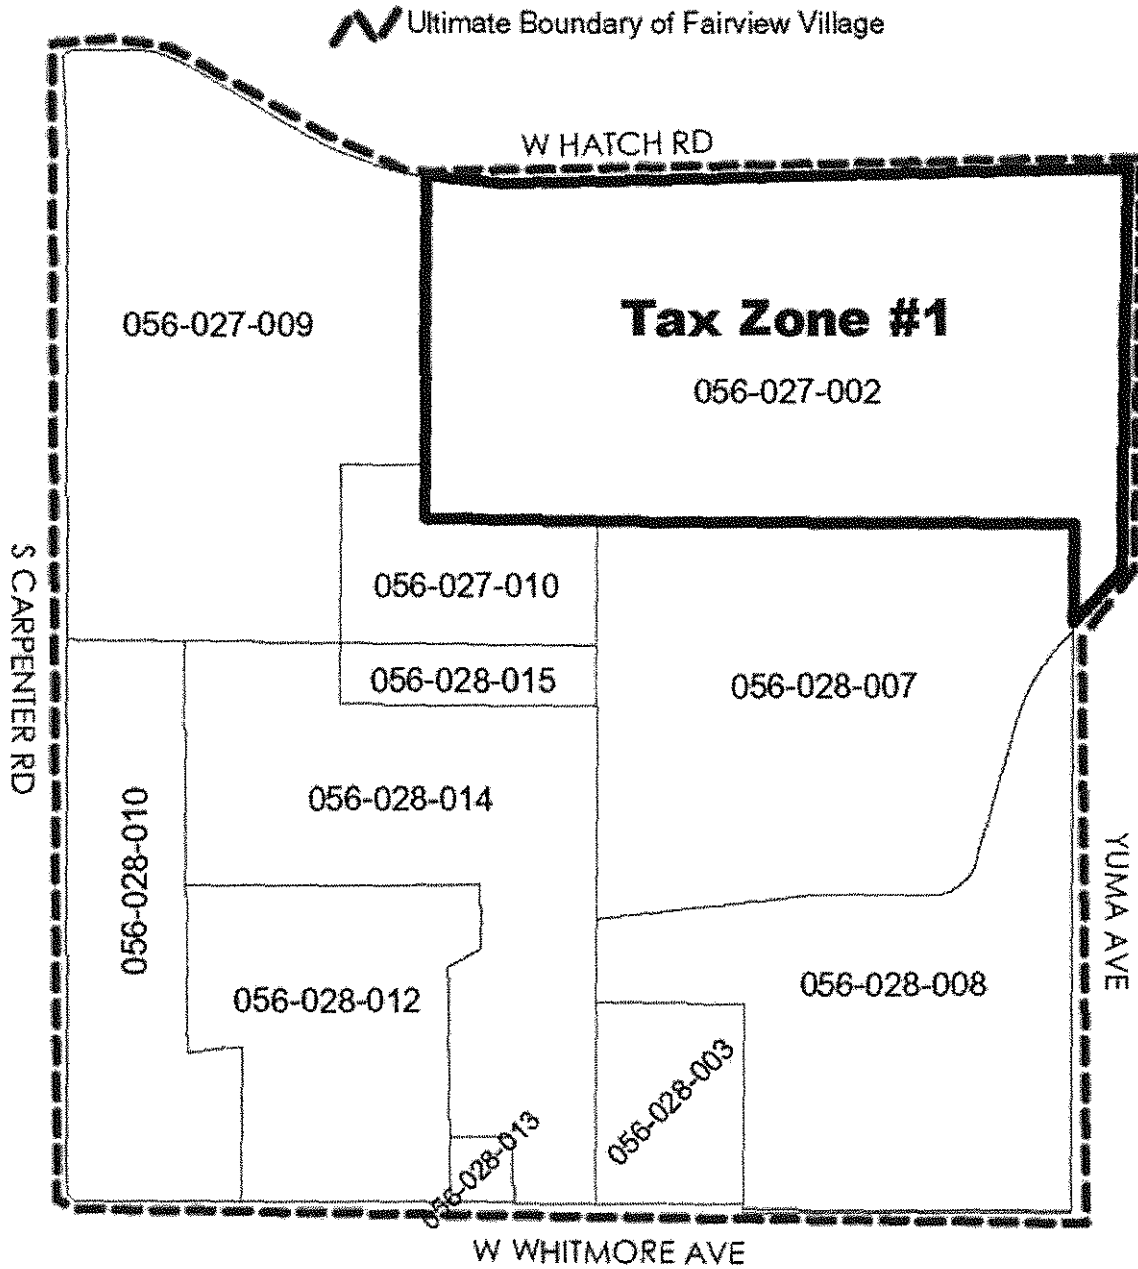

Step 12. The Annual Facilities Special Tax prepayment is equal to the sum of the amounts computed pursuant to Steps 3, 5, 6, 9, and 10, less the amount computed pursuant to Step 11 (the "*Prepayment Amount*").

I. INTERPRETATION OF SPECIAL TAX FORMULA

The City reserves the right to make minor administrative and technical changes to this document that does not materially affect the rate and method of apportioning the Special Taxes. In addition, the interpretation and application of any section of this document shall be left to the City's discretion. Interpretations may be made by the City by ordinance or resolution for purposes of clarifying any vagueness or ambiguity in this Rate and Method of Apportionment of Special Tax.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-661**

**A RESOLUTION DETERMINING IT NECESSARY TO INCUR BONDED
INDEBTEDNESS WITHIN THE CITY OF MODESTO COMMUNITY
FACILITIES DISTRICT NO. 2003-1 (FAIRVIEW VILLAGE)**

WHEREAS, on October 28, 2003, pursuant to a petition filed by Del Valle Corporation, Inc., this City Council adopted a resolution stating its intention to form the City of Modesto Community Facilities District No. 2003-1 (Fairview Village) (the "Community Facilities District") pursuant to the Mello-Roos Community Facilities Act of 1982, as amended (the "Act"); and

WHEREAS, a copy of said resolution, setting forth a description of the proposed boundaries of the Community Facilities District, the facilities and services to be financed by the Community Facilities District and the rate and method of apportionment of special tax proposed to be levied within the Community Facilities District, is on file with the City Clerk and is incorporated herein by reference; and

WHEREAS, on October 28, 2003, the City Council also adopted a resolution stating its intention to incur bonded indebtedness in an amount not to exceed \$25,000,000 for the purpose of financing (i) the cost of purchasing, constructing, expanding, improving or rehabilitating certain storm drain system, water system, sewer system improvements, and bike trail improvements and all appurtenances and appurtenant work in connection with the foregoing (collectively, the "Facilities") and (ii) the incidental expenses incurred and to be incurred in connection with financing the Facilities, including costs associated with the creation of the Community Facilities District and the issuance of bonds and the establishment and replenishment of bond reserve and special

reserve funds (the "Incidental Expenses"), all as more fully described in said resolution;
and

WHEREAS, notice was published as required by law relative to the intention of the City Council to form the Community Facilities District and to incur bonded indebtedness in an amount not to exceed \$25,000,000 within the boundaries of the Community Facilities District; and

WHEREAS, the City Council has held a public hearing as required by law to determine whether it should proceed with the formation of the Community Facilities District, issue bonds to pay for the Facilities and the Incidental Expenses and authorize the rate and method of apportionment of special tax to be levied within the Community Facilities District for the purposes described in the aforesaid resolutions; and

WHEREAS, at said hearing all persons desiring to be heard on all matters pertaining to the formation of the Community Facilities District, the levy of special taxes and the issuance of bonds to pay for the cost of the proposed Facilities and Incidental Expenses were heard, and a full and fair hearing was held; and

WHEREAS, the City Council desires to make the necessary findings to incur bonded indebtedness within the Community Facilities District, to declare the purpose for such indebtedness, and to authorize the submittal of a combined ballot proposition to the qualified electors of the Community Facilities District, being the land owners within the Community Facilities District, all as authorized and required by law;

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto, acting as the legislative body of the City of Modesto Community Facilities District No. 2003-1 (Fairview Village), hereby finds and determines as follows:

SECTION 1. The above recitals are true and correct.

SECTION 2. In order to finance the Facilities and Incidental Expenses, it is necessary to incur bonded indebtedness in a maximum aggregate principal amount not to exceed \$25,000,000 within the Community Facilities District.

SECTION 3. The aforesaid bonded indebtedness is to be incurred for the purpose of financing the costs of purchasing, constructing, expanding, improving or rehabilitating the Facilities and financing the Incidental Expenses.

SECTION 4. All of the property within the Community Facilities District, as established pursuant to the Resolution of Formation, with the exception of property exempted from the special tax pursuant to the provisions of the rate and method of apportionment of special tax attached to the Resolution of Formation, shall pay for the bonded indebtedness pursuant to the levy of the special tax authorized by the Resolution of Formation.

SECTION 5. The maximum term of the bonds to be issued shall in no event exceed 40 years; and the bonds shall bear interest at rates (not in excess of the maximum rate permitted by law) determined at the time of sale thereof.

SECTION 6. An election is hereby called for the Community Facilities District on the proposition of incurring bonded indebtedness pursuant to Section 53351 of the Act

and shall be consolidated with the election on the propositions of levying the special taxes on the property within the Community Facilities District and establishing an appropriations limit for the Community Facilities District pursuant to Section 53325.7 of the Act. The language of the proposition to be placed on the ballot is attached hereto as Attachment A.

SECTION 7. The date of the election for the Community Facilities District on the proposition of incurring the bonded indebtedness, authorizing the levy of the special taxes and establishing the appropriations limit for the Community Facilities District shall be December 11, 2003. The City Clerk shall conduct the election. Except as otherwise provided by the Act, the election shall be conducted by personally delivered or mailed ballots and in accordance with the provisions of law regulating elections of the City insofar as such provisions are determined by the City Clerk to be applicable.

It is hereby found that there have been fewer than twelve persons registered to vote within the territory of the Community Facilities District for each of the ninety days preceding the close of the public hearing described above; and, pursuant to Section 53326 of the Government Code, each landowner who is the owner of record on the date hereof or the authorized representative thereof shall have one vote for each acre or portion thereof that he or she owns within the Community Facilities District.

The foregoing resolution was introduced at the regular meeting of the City Council of the City of Modesto held on the 11th of December, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by

Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

Ayes: Councilmembers: Frohman, Hawn, Jackman, Keating, Marsh, Mayor Sabatino

Noes: Councilmembers: None

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-662**

**A RESOLUTION CALLING A SPECIAL ELECTION FOR THE CITY OF
MODESTO COMMUNITY FACILITIES DISTRICT NO. 2003-1 (FAIRVIEW
VILLAGE)**

WHEREAS, on this date, this City Council adopted a resolution entitled “A Resolution Establishing City of Modesto Community Facilities District No. 2003-1 (Fairview Village), Authorizing the Levy of Special Taxes Therein and Establishing an Annual Appropriations Limit” (the “Resolution of Formation”), which established the City of Modesto Community Facilities District No. 2003-1 (Fairview Village) (the “Community Facilities District”), authorized the levy of special taxes therein, and established an annual appropriations limit; and

WHEREAS, on this date, the City Council, acting as the legislative body of the Community Facilities District, also adopted a resolution entitled “A Resolution Determining it Necessary to Incur Bonded Indebtedness Within the City of Modesto Community Facilities District No. 2003-1 (Fairview Village),” which declared the necessity to incur bonded indebtedness in the maximum amount of \$25,000,000; and

WHEREAS, pursuant to the provisions of said resolutions, propositions to authorize the levy of special taxes within the Community Facilities District, to establish an appropriations limit of the Community Facilities District and to authorize the incurring of bonded indebtedness are to be submitted to the qualified electors of the Community Facilities District as required by the Mello-Roos Community Facilities Act of 1982, as amended (the “Act”);

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto, acting as the legislative body of the City of Modesto Community Facilities District No. 2003-1 (Fairview Village), hereby finds and determines as follows:

SECTION 1. Pursuant to the Act the propositions to authorize the levy of special taxes within the Community Facilities District, establish an appropriations limit of the Community Facilities District and authorize the incurring of a bonded indebtedness shall be combined into one ballot proposition and submitted to the qualified electors of the Community Facilities District as provided herein.

SECTION 2. The City Council has heretofore found that fewer than twelve persons have been registered to vote within the territory of the Community Facilities District for the ninety days preceding the close of the public hearing heretofore held by the City Council for the purposes of these proceedings. Accordingly, the vote shall be by the land owners of the Community Facilities District, and each owner of record at the close of such public hearing, or the authorized representative thereof, shall have one vote for each acre or portion of an acre that he or she owns within the Community Facilities District.

SECTION 3. The date of the election shall be December 11, 2003, and the City Clerk shall conduct the election. The election shall be conducted by personally delivered or mailed ballots and in accordance with the provisions of law regulating elections of the City insofar as such provisions are determined by the City Clerk to be applicable. The voted ballots shall be returned to the City Clerk not later than 9:00 p.m. on December 11, 2003; provided that if all of the qualified electors have voted prior to such time, the election may be closed by the City Clerk.

SECTION 4. The form of the ballot for the election is attached hereto as Exhibit A and by this reference incorporated herein. The City Clerk shall cause to be delivered to each of the qualified electors of the Community Facilities District a ballot in said form. Each ballot shall indicate the number of votes to be voted by the respective elector based upon the number of acres of land owned by such elector as set forth above. The identification envelope for return of the ballot shall be enclosed with the ballot, shall have the postage prepaid and shall contain (a) the name and address of the landowner, (b) a declaration, under penalty of perjury, stating that the elector is the owner of record, or the authorized representative thereof, and is the person whose name appears on the identification envelope, (c) the printed name, signature and address of the elector, (d) the date of signing and place of execution of the declaration described above and (e) a notice that the envelope contains an official ballot and is to be opened only by the canvassing board. Analysis and arguments with respect to the ballot proposition are hereby waived.

SECTION 5. The City Clerk shall accept the ballots of the qualified electors in the office of the City Clerk to and including 9:00 p.m. on December 11, 2003 whether said ballots shall be personally delivered or received by mail.

SECTION 6. There is on file with the City Clerk a written instrument executed by the sole qualified elector of the Community Facilities District requesting a shortening of the time for the special election in order to expedite the process of formation of the Community Facilities District and waiving any requirement for analysis and arguments in connection therewith.

The foregoing resolution was introduced at the regular meeting of the City Council of the City of Modesto held on the 11th of December, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

OFFICIAL BALLOT
CITY OF MODESTO
COMMUNITY FACILITIES DISTRICT NO. 2003-1 (FAIRVIEW VILLAGE)

December 11, 2003

SPECIAL ELECTION

This ballot is for a special, landowner election. You must return this ballot in the enclosed envelope to the office of the City Clerk of the City of Modesto no later than 9:00 p.m. on December 11, 2003, either by mail or in person. The City Clerk's offices are located at 1010 Tenth Street, Modesto, California 95353.

INSTRUCTIONS TO VOTERS:

To vote on the measure, make a "+", "3", "x" or other distinguishing mark on the line after the word "Yes" or on the line after the word "No." If you wrongly mark, tear or deface this ballot, return it to the City Clerk and obtain another.

MEASURE SUBMITTED TO VOTE OF VOTERS: Shall City of Modesto Community Facilities District No. 2003-1 (Fairview Village) (the "Community Facilities District") incur an indebtedness and issue bonds in the maximum aggregate principal amount of \$25,000,000, with interest at a rate or rates not to exceed the maximum interest rate permitted by law, the proceeds of which will be used to finance the costs of planning, designing, constructing, acquiring, modifying, expanding, improving, furnishing, equipping or rehabilitating certain real and other tangible property with an estimated useful life of five years or longer, consisting of certain water system, wastewater system, storm drain system and bike trail improvements and appurtenances and appurtenant work and to finance the incidental expenses associated therewith, all as further provided in the resolution of the Council of the City of Modesto establishing the Community Facilities District (the "Resolution of Formation"), and shall special taxes with a rate and method of apportionment as provided in the Resolution of Formation be authorized to be levied, and shall the annual appropriations limit of Community Facilities District No. 2003-1 (Fairview Village) be established in the amount of \$25,000,000?

YES _____

NO _____

By execution in the space provided below, you also indicate your waiver of the time limit pertaining to the conduct of the election and any requirement for analysis and arguments with respect to the ballot measure, as such waivers are described and permitted by Sections 53326(a) and 53327(b) of the Mello-Roos Community Facilities Act of 1982.

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-663**

**A RESOLUTION DECLARING THE RESULTS OF A SPECIAL ELECTION
AND APPROVING CERTAIN RELATED ACTIONS PERTAINING TO CITY OF
MODESTO COMMUNITY FACILITIES DISTRICT NO. 2003-1 (FAIRVIEW
VILLAGE)**

WHEREAS, this City Council, acting as the legislative body of the City of Modesto Community Facilities District No. 2003-1 (Fairview Village) (the "Community Facilities District"), called and duly held an election of the Community Facilities District pursuant to resolutions adopted by the City Council on December 11, 2003 for the purpose of presenting to the qualified electors within the Community Facilities District a proposition (the "Proposition") for (a) the authorization of bonds in a principal amount not to exceed \$25,000,000, (b) the levy of special taxes in accordance with the rate and method of apportionment of special tax set forth in the resolution forming the Community Facilities District and (c) the establishment of an appropriations limit for the Community Facilities District; and

WHEREAS, there has been presented to the City Council a Certificate of the City Clerk as to the Results of the Canvass of the Election Returns, a copy of which is attached hereto as Attachment "A";

NOW, THEREFORE, BE IT RESOLVED that the Council of the City of Modesto, acting as the legislative body of the City of Modesto Community Facilities District No. 2003-1 (Fairview Village), hereby finds and determines as follows:

SECTION 1. The above recitals are true and correct.

SECTION 2. Two-thirds or more of the votes cast by the qualified electors of the Community Facilities District at the special election held on December 11, 2003 on the Proposition were cast in favor of the Proposition, and the Proposition carried. The City Council, acting as the legislative body of the Community Facilities District, is hereby authorized to issue, from time to time as it determines appropriate, bonds for the benefit of the Community Facilities District for the purposes set forth in the Proposition and to take the necessary steps to levy the special taxes authorized by the Proposition.

SECTION 3. The City Clerk is hereby authorized and directed to execute and cause to be recorded in the office of the County Recorder of Stanislaus County a notice of special tax lien in the form required by law, said recording to occur no later than fifteen days following adoption of this Resolution.

The foregoing resolution was introduced at the regular meeting of the City Council of the City of Modesto held on the 11th of December, 2003, by Councilmember Jackman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AS TO RESULTS OF THE CANVAS OF ELECTION RETURNS

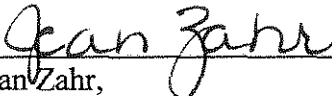

STATE OF CALIFORNIA)
) ss.
COUNTY OF STANISLAUS)

As City Clerk of the City of Modesto, I do hereby certify that I have examined the returns of the special election for City of Modesto Community Facilities District No. 2003-1 (Fairview Village) (the "Community Facilities District"). With my concurrence, the election was conducted on December 11, 2003. On or prior to said date I had mailed or personally delivered a ballot to the landowner listed on the latest equalized assessment roll prepared by the Stanislaus County Assessor prior to December 11, 2003 or otherwise known by me to own the property within the boundaries of the Community Facilities District. The landowner was given one vote for each acre, or portion thereof, that the landowner owns within the Community Facilities District.

I further certify that the results of said election and the number of votes cast for and against the Proposition are as follows:

YES: 82
NO: 0
TOTAL NUMBER OF VOTES CAST: 82

Dated this 11th day of December, 2003.

Jean Zahr,
City Clerk of the City of Modesto

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003 - 664**

A RESOLUTION APPROVING A TEN-YEAR WATER SERVICES AGREEMENT BETWEEN THE CITY OF MODESTO AND BASIN WATER FOR SERVICES AND LEASE OF EQUIPMENT RELATED TO THE REMOVAL OF NITRATES AT WELL SITES WITHIN THE GRAYSON COMMUNITY WATER SYSTEM AND AUTHORIZING THE CITY MANAGER TO EXECUTE THE AGREEMENT.

WHEREAS, the City of Modesto is the potable water provider for the community of Grayson, and

WHEREAS, there are only two wells sites serving this community and both require nitrate treatment to meet water quality standards, and

WHEREAS, the electro-dialysis treatment system currently in use has failed on a number of occasions and is considered unreliable, and

WHEREAS, the City of Modesto received a compliance order from the California Department of Health Services mandating that a new treatment system be obtained for the two wells, and

WHEREAS, an engineering contract was approved by the City Council on November 6, 2002, to evaluate treatment options, and

WHEREAS, this engineering contract is complete with a recommendation that Ion Exchange treatment be utilized, and

WHEREAS, it is the City's obligation to provide and maintain an adequate water supply to this area for public health and safety, and

WHEREAS, City staff has arranged for a long-term Water Services Agreement with Basin Water for an Ion Exchange unit for nitrate treatment, and

WHEREAS, the Agreement terms are considered acceptable to the City,

NOW, THEREFORE, BE IT RESOLVED that the City Council of the City of Modesto it hereby approves a ten-year Water Services Agreement with Basin Water for services and lease of equipment related to the removal of nitrates at well sites within the Grayson Community Water System.

BE IT FURTHER RESOLVED that the City Manager or his authorized designee is hereby authorized to execute the Agreement.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 11th day of December, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Hawn, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Frohman, Hawn, Jackman, Marsh, Mayor Sabatino

NOES: Councilmembers: None

ABSENT: Councilmembers: Keating, O'Bryant

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-665**

**A RESOLUTION OF THE COUNCIL OF THE CITY OF MODESTO
CONFIRMING THE CANVASS OF THE SECOND REGULAR MUNICIPAL
ELECTION WHICH WAS HELD IN THE CITY OF MODESTO ON DECEMBER
9, 2003, AND DECLARING THE RESULTS OF SAID ELECTIONS FOR
COUNCILMEMBERS (RUN-OFF ELECTION).**

WHEREAS, the Charter of the City of Modesto provides that if no candidate for an elective office of the City receives a majority vote at a regular municipal election, a second Regular Municipal Election shall be held at which the two candidates receiving the highest number of votes at the first election shall have their names on the ballot for the election to the office, and

WHEREAS, at said Regular Municipal Election on November 4, 2003 a majority vote was not cast for Mayor to the City Council nor for Councilmember for Chair No. 1, and

WHEREAS, the two candidates receiving the highest number of votes for Mayor, Bev Finley and Jim Ridenour, and the two candidates receiving the highest number of votes for Councilmember Chair No. 1, Bob Dunbar and Dave Lopez, would have their names on the ballot for a run-off election to be held on Tuesday, December 9, 2003, and

WHEREAS, the Second Regular Municipal Election was held by mail ballot in the City of Modesto on Tuesday, December 9, 2003, to elect a Mayor to the City Council and a Councilmember to Chair No. 1, as mentioned above, and said election was held in accordance with the with law and the proceedings of this Council, and the votes thereat received and canvassed, and the returns thereof ascertained, determined and declared in all respects as required by law, and

WHEREAS, the City Clerk canvassed the returns of said Second Regular Municipal Election in accordance with law, and certified the results of the election to the Council by a Certificate of Canvass and Statement of Votes dated December 16, 2003, a copy of which is hereto marked EXHIBIT "A" and made a part hereof,

NOW THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

The foregoing resolution was introduced at a special meeting of the Council of the City of Modesto held on the 23rd of December, 2003, by Councilmember Frohman, who moved its adoption, which motion being duly seconded by Councilmember Jackman, was upon roll call carried and the resolution adopted by the following vote:

AYES: Councilmembers: Frohman, Hawn, Jackman, Keating, Marsh,
Mayor Sabatino

**MODESTO CITY COUNCIL
RESOLUTION NO. 2003-666**

**A RESOLUTION APPROVING THE FINAL MAP OF THE GALAS BROTHERS
SUBDIVISION UNIT NO. 1 SUBDIVISION OF THE CITY OF MODESTO AND
AUTHORIZING THE CITY MANAGER TO EXECUTE A SUBDIVISION
AGREEMENT WITH DEL VALLE HOMES, A CALIFORNIA CORPORATION**

WHEREAS, DEL VALLE HOMES, a California Corporation, is possessed of a tract of land situated in the City of Modesto, County of Stanislaus, consisting of 81.89 acres, known as the GALAS BROTHERS SUBDIVISION UNIT NO. 1 (“SUBDIVISION”), in the Fairview Village Specific Plan Area, and

WHEREAS, a tentative map of said tract was approved by the Planning Commission of the City of Modesto on the 1st day of December, 1997, and

WHEREAS, the Secretary of the Planning Commission of the City of Modesto has certified that the final map of said tract substantially conforms to the approved tentative map, and

WHEREAS, the City Engineer of the City of Modesto has certified that the final map of said SUBDIVISION meets all of the provisions of the California Subdivision Map Act and the provisions of the Modesto Municipal Code relating to subdivisions, and that the map is technically correct,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that said final map be approved; that the dedications for streets, alleys and easements as shown thereon within the boundaries of said tract be accepted on behalf of the public for public use; and that the City Clerk be authorized to certify the map of said tract on behalf of the City of Modesto after the fees and deposits required by the Modesto Municipal Code in amounts determined by the City Engineer have been paid; and after subdivider

has furnished securities, as set forth in Section 4-4.605 of the Modesto Municipal Code, which shall secure the obligations set forth in Section 66499.3 of the Government Code of the State of California. Said securities shall be in forms acceptable to the City Attorney and in the amounts required by the City Engineer.

BE IT FURTHER RESOLVED that the City Manager and the City Clerk be authorized to execute and attest, respectively, an agreement with subdivider as required by Section 4-4.604(c) of the Modesto Municipal Code.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 23rd day of December, 2003, by Councilmember Hawn, who moved its adoption, which motion being duly seconded by Councilmember Keating, was upon roll call carried and the resolution adopted by the following vote:
