PUBLIC HOT TUB/BATH ESTABLISHMENT POLICY

Modesto Planning and Community Development Department
December 1981

OBJECTIVE

The objective of this policy is to permit the establishment of businesses operating public hot tubs or baths (where an attendant is not required) that would help satisfy the recreational or therapeutic needs of the community while not infringing upon the rights of surrounding property owners or interfering with the public health, safety, and general welfare. Massage establishments or baths where an attendant is required as defined in Section 5-2.101 et seq. of the Modesto Municipal Code are not governed by this policy.

LOCATION - ZONING APPROVAL

Public hot tub or bath establishments are permitted in the C-2 or H-1 zones upon granting of a Conditional Use Permit for this specific use by the Board of Zoning Adjustment.

Public hot tub or bath establishments are permitted in any P-D zone only if specifically set forth as a permitted use.

RECOMMENDED CONDITIONS OF APPROVAL

Upon review of the Conditional Use Permit by the Board of Zoning Adjustment or the P-D zone by the Planning Commission and City Council, the following conditions at a minimum may be placed upon the approval:

1. Limitation of hours of operation; suggested limits - 7 a.m. to 12 midnight.

2. Limitation of customer age - shall be used by persons 21 or older, provided that those under 21 may be allowed if accompanied by a parent or guardian.

3. Prohibition of alcohol - there shall be no alcoholic beverages permitted in or about the premises.

4. Inspection - the business may be inspected by the Health and/or Police Departments at any time.

5. The Conditional Use Permit or P-D zone, once granted, may be reviewed at any time and revoked or removed for any reasons set forth in Section 10-2.2401 of the Modesto Municipal Code.

6. Any other conditions which are found necessary to make the public hot tub or bath establishment compatible with surrounding properties.

MODESTO CITY COUNCIL
RESOLUTION NO. 82-2

A RESOLUTION DENYING THE APPEAL OF LANG'S ENTERPRISES TO THE PREPARATION OF A NEGATIVE DECLARATION BY THE ENVIRONMENTAL ASSESSMENT COMMITTEE OF THE CITY OF MODESTO FOR THE PROPOSED EXPANSION OF THE CITY'S EXISTING BUS STORAGE YARD, AND FOR THE CONSTRUCTION OF A NEW BUS MAINTENANCE/ADMINISRATION FACILITY FOR THE CITY'S FIXED-ROUTE BUS SYSTEM; AND AFFIRMING THE DECISION OF THE ENVIRONMENTAL ASSESSMENT COMMITTEE TO PREPARE A NEGATIVE DECLARATION.

WHEREAS, on November 3, 1981, the Environmental Assessment Committee of the City of Modesto reviewed a proposed project consisting of the expansion of the City's existing bus storage yard, and the construction of a new bus maintenance/administration facility for the City's fixed-route bus system, and

WHEREAS, after reviewing said project, the Environmental Assessment Committee adopted an Initial Study and Findings dated November 3, 1981, indicating that a Negative Declaration should be prepared for said project, and thereafter provided public notice of the preparation of said Negative Declaration, and

WHEREAS, by letter dated November 19, 1981, Lang's Enterprises responded to the Initial Study and Findings of the Environmental Assessment Committee, asserting that the proposed project would have a possible significant impact on the environment, and that an Environmental Impact Report should be prepared for the proposed project, and

WHEREAS, on November 25, 1981, the Environmental Assessment Committee met and reviewed the assertions set forth in the letter submitted by Lang's Enterprises, and after said review, reaffirmed its decision to prepare a Negative Declaration for the proposed project, and

WHEREAS, by letter dated December 10, 1981, Lang's Enterprises filed an appeal with the City Clerk of the City of Modesto from the decision of the Environmental Assessment Committee that a Negative Declaration should be prepared for the proposed

project, which appeal claimed that the proposed project would (1) physically alter and eliminate a neighborhood, (2) introduce an increased number of buses into the area with a resultant effect on traffic congestion and air quality, and (3) involve the use of potentially hazardous materials, and that an Environmental Impact Report should be prepared for the proposed project, and said appeal was set for public hearing before the City Council on January 5, 1982, at 4:00 p.m., and

WHEREAS, said appeal from the decision of the Environmental Assessment Committee was considered by the City Council at a public hearing held in the Council Chambers on January 5, 1982, at which time the Council found and determined that said appeal should be denied, that the decision of the Environmental Assessment Committee should be affirmed, and that the Negative Declaration prepared for the proposed project should be approved.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby denies the appeal of Lang's Enterprises from the decision of the Environmental Assessment Committee of the City of Modesto that a Negative Declaration should be prepared for a proposed project consisting of the expansion of the City's existing bus storage yard, and the construction of a new bus maintenance/administration facility for the City's fixed-route bus system, and the decision of the Environmental Assessment Committee is hereby affirmed.

BE IT FURTHER RESOLVED that the Negative Declaration prepared for the proposed expansion of the City's existing bus storage yard, and for the construction of a new bus maintenance/administration facility for the City's fixed-route bus system is hereby approved, because the proposed project will not significantly alter the neighborhood in which the project is located nor eliminate a significant amount of housing from said neighborhood, because the project will not result in a significant impact on traffic or air quality in the area, and because no significant impact will

result from the storage of petroleum products in the area, for the following reasons:

1. There will be approximately 23 dwelling units with 64 residents affected by the proposed project, out of a population of approximately 110,000 in the City of Modesto. The dwelling units are non-conforming uses in an area zoned Commercial-Industrial (C-M), and in time, the dwelling units will be purchased and the land used for non-residential purposes, a process that has already begun. By acquiring this land, the City of Modesto accelerates the inevitable neighborhood change to industrial use and provides a better monetary return to the homeowner than might otherwise be expected by market forces in this neighborhood in the near future.

2. The City of Modesto is required by law to make relocation assistance available to all residents affected by the proposed project. Such relocation assistance consists of providing relocation advisory services and financial assistance to eligible dwelling owners and tenants. The City of Modesto may not displace any persons unless it can assure that such persons can be provided with decent, safe, and sanitary housing. In view of relocation assistance requirements, it is foreseen that there will not be any significant impact arising from the relocation of any person displaced by the proposed project.

3. After the entire project area is purchased and cleared and preceeding any use of the land, several streets will be abandoned and closed by this project. They are: Beech Street between MID Lateral No. 4 and 8th Street; Chestnut Street between MID Lateral No. 4 and 8th Street; Elm Street between the existing Corporation Yard and Washington Street; Laurel Street between Highway 99 and Washington Street; Madison Street between the existing Corporation Yard and MID Lateral No. 4; and Jefferson Street between Highway 99 and 8th Street. None of these streets are collector or major streets. They all serve the purpose of local access. Therefore, given the

fact that the residential local use will be gone and no longer need the streets for local access, there will be no impact on traffic from this closure.

4. The buses that will be based at the Bus Service Yard will be leaving and returning at hours that should not impact on traffic in this area. The limited travel of buses into and out of the area will have little or no impact on the air quality in the area. The buses would be considered light traffic compared to other potential industrial uses allowed in this area.

5. Potential impacts on air quality arising from the proposed project will be lessened by the installation of vapor recovery devices on all fuel pumps, and by the conversion of the City's gasoline-powered vehicles to methane, which will result in the pumping of less gasoline at the project site.

6. While motor fuels and other petroleum products will be stored at the site of the proposed project, petroleum storage capacity will be approximately one-fourth of that of a typical service station, which may be located adjacent to a residential area. The proposed project is to be located in a commercial-industrial area, which is an appropriate site for the storage of petroleum products. All petroleum will be stored according to uniform building and fire codes.

MODESTO CITY COUNCIL
RESOLUTION NO. 82-132

A RESOLUTION DENYING THE APPEAL OF TRINITY UNITED PRESBYTERIAN CHURCH TO A DETERMINATION BY THE BOARD OF ZONING ADJUSTMENT TO NOT RECOMMEND MUNICIPAL CODE TEXT AMENDMENTS TO THE SIGN REGULATIONS TO PERMIT INCREASED HEIGHT AND AREA ALLOWANCES FOR ROOFS ON FREESTANDING SIGNS FOR CHURCHES.

WHEREAS, Section 10-2.3509(a)(4) of the Municipal Code allows one six (6') foot high twenty-five (25) square foot freestanding sign in the R-1 zone for church use, and

WHEREAS, Trinity United Presbyterian Church has a sign on its 1600 Carver Road frontage, which sign is topped with a shake roof which causes the sign to be eight (8') feet nine (9") inches high and, added to the sign area yields 63.1 square feet in combined area, and

WHEREAS, Section 10-2.3502, which defines the area of a sign, provides as follows: "(a) 'Area of a Sign' shall mean the entire area within a single continuous perimeter enclosing the extreme limits of all elements such as boards or frames, perforated or solid backgrounds, ornamental embellishments, writings, representations, emblems or any figure or similar characters, including any spires, masts, shafts or similar projections, but excluding the necessary supports or uprights on which such sign is placed", and

WHEREAS, the Planning and Community Development Director has directed the church to remove the roof or otherwise cause the sign to be brought into conformity, and

WHEREAS, an appeal from the determination of the Planning and Community Development Director that the roof is part of the sign area was

filed by Trinity United Presbyterian Church on October 7, 1981, pursuant to Section 10-2.3505 of the Municipal Code, and

WHEREAS, a public hearing was held by the Board of Zoning Adjustment on November 19, 1981, in the City Council Chambers, City Hall, 801 11th Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered, and

WHEREAS, the Board of Zoning Adjustment, by Resolution No. 1030, found and determined that the roof on the sign in question is part of the sign area by definition and denied the appeal of Trinity United Presbyterian Church to the determination of the Planning and Community Development Director, and

WHEREAS, the Board of Zoning Adjustment at said hearing requested that the staff look into a possible code text amendment revising the sign regulations to exempt roofs on signs from the sign area definition for free-standing signs for churches in those cases where the roof material and design are consistent with the architectural concept of the church, and

WHEREAS, the Board of Zoning Adjustment considered the findings of the staff regarding a possible code text amendment to the sign regulations to permit increased height and area allowances for roofs on freestanding signs for churches and other residential uses at its meeting of December 17, 1981, in the City Council Chambers, City Hall, 801 11th Street, Modesto, California, and

WHEREAS, after hearing evidence both oral and documentary, it was moved, seconded and carried unanimously by the Board of Zoning Adjustment to not recommend that the code be amended to permit increased height and area allowances for roofs on freestanding signs for churches and other residential uses, and

WHEREAS, an appeal was filed by Don Phillips on behalf of Trinity United Presbyterian Church by letter dated December 22, 1981, to the determination of the Board of Zoning Adjustment on December 17, 1981 to not recommend Municipal Code text amendments to the sign regulations to permit increased height and area allowances for roofs on freestanding signs for churches and other residential uses, and

WHEREAS, said matter was set for public hearing before the Council at its regular meeting place located in the Council Chambers in the City Hall, 801 11th Street, Modesto, California, at 4:00 p.m. on Tuesday, January 19, 1982, at which time evidence both oral and documentary was received,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the appeal of Trinity United Presbyterian Church to the determination by the Board of Zoning Adjustment to not recommend Municipal Code text amendments to the sign regulations to permit increased height and area allowances for roofs on freestanding signs for churches and other residential uses is hereby denied and the determination of the Board of Zoning Adjustment is hereby affirmed, for the following reasons:

1. The combined sign area of 63 square feet that would be permitted by the considered code text amendment greatly exceeds the 25 square foot allowance of the current code and approaches the 72 square foot maximum permitted for nonresidential uses in commercial and industrial zones.

2. The church has until January 1, 1984 to redesign and modify the sign so that it will conform to the current sign regulations.

MODESTO CITY COUNCIL
RESOLUTION NO. 82-143

A RESOLUTION OVERRULING THE RECOMMENDATION OF THE PLANNING COMMISSION AND DENYING THE REQUEST OF FRIENDLY TABERNACLE CHURCH FOR AN UNCLASSIFIED USE PERMIT FOR CHURCH EXPANSION AND A PRIVATE SCHOOL, PROPERTY LOCATED ON THE NORTH AND SOUTH SIDES OF K STREET BETWEEN 6TH AND 7TH STREETS AND WAIVING THE ONE YEAR LIMITATION ON A NEW APPLICATION.

WHEREAS, a verified application for an Unclassified Use Permit was filed by Friendly Tabernacle Church on October 30, 1981, to allow a church expansion and private school, property located on the north and south sides of K Street between 6th and 7th Streets, and

WHEREAS, Articles 14 and 21 of Title X of the Modesto Municipal Code establish the requirements and procedures for obtaining Unclassified Use Permits for educational institutions, and

WHEREAS, public hearings on said application were held by the Planning Commission on December 7, 1981, and December 21, 1981, in the City Council Chambers, City Hall, 801 11th Street, Modesto, California, and

WHEREAS, thereafter the Planning Commission adopted Resolution No. 81-266, recommending to the Council that an Unclassified Use Permit be granted to Friendly Tabernacle Church for church expansion and a private school, property located on the north and south sides of K Street between 6th and 7th Streets in the City of Modesto, and

WHEREAS, said matter was set for public hearing before the Council of the City of Modesto in the Council Chambers located in the City Hall, 801 11th Street, Modesto, California, at 4:00 p.m. on January 19, 1982, at which time evidence, both oral and documentary, was taken and introduced and, thereafter the Council continued said matter to January 26, 1982, at 7:30 p.m., for further consideration, and

WHEREAS, the City Council certifies it has reviewed and considered the findings of the Environmental Assessment Committee which resulted in a negative declaration of environmental impact of the subject Unclassified Use Permit, and

WHEREAS, after said hearing and consideration, the Council of the City of Modesto determined that the recommendation of the Planning Commission should be overruled and the request by Friendly Tabernacle Church for an Unclassified Use Permit for church expansion and a private school, property located on the north and south sides of K Street between 6th and 7th Streets, should be denied for the following reasons:

1. The proposed classroom building would be located across K Street from other portions of the existing church and private school, necessitating young school children having to cross the street during the school day to use other portions of the school facilities.

2. K Street is proposed eventually to be the eastbound one-way portion of the Highways 108 and 132 couplet connecting with the 99 Freeway. This will generate a high volume of traffic on K Street separating the two portions of the school. Much of that traffic will have to make right turns at the school intersection.

3. It is possible to locate the proposed classrooms on the southwest side of K Street where the existing school facilites are located and to use the property on the northeast side of K Street for parking or other church uses which would not separate the school facilites with a street.

and

WHEREAS, in accordance with the provisions of Section 10-2.2103 of the Modesto Municipal Code, the Council, at its meeting held on January 26, 1982, determined that it was appropriate to waive the one year limitation for Friendly Tabernacle Church to submit a new application to the Planning Commission for an Unclassified Use Permit to locate the proposed classrooms on the southwest side of K Street where the existing school facilites are located.

NOW, THEREFORE, BE IT RESOLVED that the recommendation of the Planning Commission is hereby overruled and the request by Friendly Tabernacle Church for an Unclassified Use Permit for church expansion and a private school, property located on the north and south sides of K Street between 6th and 7th Streets, is hereby denied for the reasons set forth above.

BE IT FURTHER RESOLVED that this Council finds and determines that the waiving of the one year limitation, to allow a new application for an Unclassified Use Permit to locate the proposed classrooms on the southwest side of K Street where the existing school facilites are located, will not adversely affect the interest of the general public and that said limitation is hereby waived.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 26th day of January, 1982, by Councilmember Elliott, who moved its adoption, which motion being duly seconded by Councilmember Siefkin, was upon roll call carried and the resolution adopted by the following vote:

A RESOLUTION DENYING THE APPEAL OF JACK POSNER TO A DECISION OF THE BOARD OF ZONING ADJUSTMENT DENYING A CONDITIONAL USE PERMIT FOR A HOT TUB RENTAL BUSINESS AT 1315 MC HENRY AVENUE.

WHEREAS, an application for a conditional use permit in the C-2 Zone to allow a hot tub rental business at 1315 McHenry Avenue, was filed by Jack Posner on November 12, 1981, and

WHEREAS, Sections 10-2.1904(a) and 10-2.2004 of the Municiapl Code authorize the Board of Zoning Adjustment to grant conditional use permits, and

WHEREAS, a public hearing was held by the Board of Zoning Adjustment on December 17, 1981, in the City Council Chambers, City Hall, 801 11th Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered, and

WHEREAS, the Board of Zoning Adjustment by Resolution No. 1034 found and determined that the applicant had failed to demonstrate the compatibility of the proposed use to other existing or potential uses within the general area in which such use is proposed to be located, and denied the application for a conditional use permit, and

WHEREAS, an appeal was filed by Jack Posner with the Modesto City Council by a letter dated December 31, 1981, to the decision of the Board of Zoning Adjustment denying a conditional use permit in the C-2 Zone at 1315 McHenry Avenue, and

WHEREAS, said matter was set for public hearing before the Council at its regular meeting place located in the Council Chambers in the City Hall, 801 11th Street, Modesto, California, at 7:30 p.m., on January 26, 1982, at which time evidence, both oral and documentary, was taken and introduced, and

WHEREAS, at said meeting said Council, after hearing evidence both oral and documentary, found and determined that said appeal to the decision of the Board of Zoning Adjustment, as set forth in its Resolution No. 1034, should be denied for the following reasons, and that the decision of the Board of Zoning Adjustment should be affirmed:

1. The proposed hot tub rental business would be located adjacent to an established residential neighborhood.

2. There is already a concentration of businesses in the immediate area which are open late hours; including adult bookstores/theaters that have tended to degrade the area and make it incompatible with the adjacent residential neighborhood.

3. There are no reasonable ways to assure that the proposed hot tub rental business could be made compatible with existing and potential uses in the area, including the adjacent residential neighborhood.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the appeal to the decision of the Board of Zoning Adjustment denying a conditional use permit in the C-2 Zone to Jack Posner for a hot tub rental business at 1315 McHenry Avenue is hereby denied for the reasons set forth above, and the decision of the Board of Zoning Adjustment is affirmed.

WHEREAS, an appeal was filed with the City Council of the City of Modesto by a letter dated January 5, 1982, from Mid Valley Engineering on behalf of Clyde A. WHEREAS, said matter was set for public hearing before the City Council at its regular meeting place located in the Council Chambers in the City Hall, 801 11th Street, Modesto, California, at 7:30 p.m. on Tuesday, January 26, 1982, and

WHEREAS, at said meeting, said Council, after hearing evidence both oral and documentary, found and determined that the appeal filed by Mid Valley Engineering on behalf of Clyde A. Johnson to the decision of the Planning Commission denying rezoning from Low Density Residential Zone, R-1, to Planned Development Zone, P-D, of the property described above located on the north side of Coolidge Avenue and on the east side of Melrose Avenue in the City of Modesto, should be denied for the reason set forth in Planning Commission Resolution No. 82-10, quoted above, and that the decision of the Planning Commission denying the requested rezoning should be affirmed, and

WHEREAS, in accordance with the provisions of Section 10-2.2103 of the Modesto Municipal Code, the Council, at its meeting held on January 26, 1982, determined that it was appropriate to waive the one year limitation in order that Mid Valley Engineering on behalf of Clyde A. Johnson could submit a new P-D application to the Planning Commission for development that does not exceed 10 units per acre and which is consistent with the adopted neighborhood zoning and development plan, and

WHEREAS, the City Council at said Council meeting reviewed and considered the findings of the City of Modesto Environmental Assessment Committee which resulted in a negative declaration in regard to the environmental impact of the proposed rezoning,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the appeal filed by Mid Valley Engineering on behalf of Clyde A. Johnson to the decision of the Planning Commission, as set forth in Planning Commission Resolution No. 82-10, denying rezoning from Low Density Residential Zone, R-1, to Planned Development Zone, P-D, of the above described property located on the north side

MODESTO CITY COUNCIL
RESOLUTION NO. 82-177

A RESOLUTION GRANTING IN PART AND DENYING IN PART THE APPEAL OF MID VALLEY ENGINEERING ON BEHALF OF JIM LAMATIS AND JOHN PALLIOS TO A DECISION OF THE PLANNING COMMISSION CONCERNING A TIME EXTENSION FOR IMPROVEMENTS TO SYLVAN AVENUE AND OAKDALE ROAD.

WHEREAS, by Resolution No. 79-83 adopted on April 2, 1979, the Planning Commission approved a tentative parcel map for division of property located at the northwest corner of Sylvan Avenue and Oakdale Road, and

WHEREAS, as a condition of approval of said parcel map, the Planning Commission required that street improvements be constructed along the Sylvan Avenue and Oakdale Road frontages of the property and that said improvements be completed as required by the Municipal Code in conjunction with property development, or by October 5, 1979, whichever occurred first, and

WHEREAS, by Resolution No. 79-262, adopted on October 1, 1979, the Planning Commission granted an extension of time until October 5, 1980, for constructing the required street improvements, and

WHEREAS, by Resolution No. 81-12 adopted on January 5, 1981, the Planning Commission granted an extension of time until October 5, 1981, for constructing the required street improvements, and

WHEREAS, by letter dated November 2, 1981, Mid-Valley Engineering requested on behalf of the property owners that the time for constructing the required street improvements be extended an additional year, until October 5, 1982, and

WHEREAS, said request was considered by the Planning Commission on December 7, 1981, and

WHEREAS, the Planning Commission, on December 7, 1981, by its Resolution No. 81-256, determined that the request by Mid-Valley Engineering for an extension of time for constructing the required street improvements, as required by Resolution No. 79-83, should be denied for the following reasons:

1. The improvements were originally required by Resolution No. 77-5 adopted on January 4, 1977, and the property owners have had approximately 4 years and 9 months to complete the required improvements.

2. Parcels created by the parcel maps which divided the property have been developed with a 189 lot residential subdivision and a Telephone Company office which generate substantial traffic using the major streets adjacent to the undeveloped parcel.

3. Street improvements have been constructed or are under construction along the Sylvan Avenue and Oakdale Road frontages of adjacent parcels and improvements are needed adjacent to the subject parcel to facilitate the construction of needed traffic signals at the busy major street--major street intersection.

and

WHEREAS, by letter dated December 17, 1981, an appeal was filed with the City Council to the decision of the Planning Commission of December 7, 1981, set forth in Planning Commission Resolution No. 81-256, and

WHEREAS, by Resolution No. 82-15, dated January 5, 1982, the Council of the City of Modesto set the matter for public hearing on January 19, 1982, at 4:00 p.m. in the Council Chambers, City Hall, 801 11th Street, Modesto, California, and

WHEREAS, a public hearing was held by the City Council at its regular meeting of January 19, 1982, and thereafter continued to February 9, 1982, and evidence, both oral and documentary, was presented and considered at said public hearings, and

WHEREAS, after said public hearings, the Council of the City of Modesto found and determined that the appeal to the decision of the Planning Commission

denying the request for extension of time for constructing the required street improvements should be denied in part and that all curb, gutter, storm drains, the curb return, the sidewalk at the return, and paving on both Sylvan and Oakdale Road that were initially required should be completed, and no extension of time granted, subject to the following conditions:

1. That construction of said improvements for which the appeal is in part denied, specifically, for construction of all curbs, gutters, storm drains, a complete curb return, including sidewalk return, and paving on both Sylvan and Oakdale Road that were required initially and for which no extension of time was granted, shall be completed by August 16, 1982.

2. That the applicant deposit with the City by May 3, 1982, a security in the amount determined by the Director of Public Works, and in a form approved by the City Attorney, to assure construction of said improvements by August 16, 1982.

and

WHEREAS, the Council also found and determined that the appeal should be granted as to the other required street improvements, subject to the following condition:

1. That the remainder of the required street improvements be completed as required by the Municipal Code in conjunction with property development, or on demand by the City, whichever occurs first.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the appeal to the decision of the Planning Commission denying a request for an extension of time for constructing street improvements is hereby denied in part and that all curb, gutter, storm drains, a curb return, including a sidewalk return, and all paving on both Sylvan and Oakdale Roads that were initially required are to be completed, and no time extension granted, for the reason that the immediately required improvements are needed for orderly flow of traffic.

BE IT FURTHER RESOLVED that the appeal to the remainder of the required street improvements, such as sidewalks, street lights, street trees and driveways and other public improvements required by the City of Modesto Standard Specifications is hereby granted, subject to the condition set forth above, for the reason that the future improvements are required to cause the property, when fully developed, to conform to applicable city standards.

MODESTO CITY COUNCIL
RESOLUTION NO. 82-241

A RESOLUTION GRANTING THE APPEAL FILED BY BRIGHT DEVELOPMENT TO THE DECISION OF THE PLANNING COMMISSION DENYING AN AMENDMENT TO SECTION 12-3-8 OF THE ZONING MAP OF THE CITY OF MODESTO TO REZONE FROM LOW DENSITY RESIDENTIAL ZONE, R-1, TO PLANNED DEVELOPMENT ZONE, P-D(323); OVERRULING THE DECISION OF THE PLANNING COMMISSION; AND APPROVING A DEVELOPMENT PLAN FOR PLANNED DEVELOPMENT ZONE, P-D(323).

WHEREAS, a verified application to amend Section 12-3-8 of the Zoning Map was filed by Bright Development on January 15, 1982, to reclassify from Low Density Residential Zone, R-1, to Planned Development Zone, P-D(323), to allow a one and two-story, 286-unit apartment development, property located north of Standiford Avenue, south of Veneman Avenue, and west of Hahn Drive described as follows:

> Parcel D as shown and designated on that parcel map filed December 20, 1976, in Vol. 24 of parcel maps, at page 12, being a portion of Lot 4 of McKinney Colony, as per map filed November 21, 1903 in Vol. 1 of Maps at page 57.
>
> Including also the southerly 30 feet of Veneman Avenue and the northerly 50 feet of Modesto Irrigation District Lateral No. 7 immediately adjacent to said Parcel D.

and

WHEREAS, said application was set for public hearing before the Planning Commission on February 16, 1982, in the City Council Chambers, City Hall, 801 11th Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered, and

WHEREAS, thereafter the Planning Commission adopted Resolution No. 82-40 denying an amendment to Section 12-3-8 of the Zoning Map to rezone from Low Density Residential Zone, R-1, to Planned Development Zone, P-D(323), the above described property, as requested by the applicant, and

WHEREAS, an appeal was filed by Bright Development with the City Council by a letter dated February 18, 1982, to the decision of the Planning Commission denying an amendment to Section 12-3-8 of the Zoning Map to rezone from Low Density Residential Zone, R-1, to Planned Development Zone, P-D(323), to allow a one and two-story, 286-unit apartment development, property located north of Standiford Avenue, south of Veneman Avenue, and west of Hahn Drive, described above, and

WHEREAS, said appeal was set for public hearing before the City Council at its regular meeting place located in the Council Chambers in the City Hall, 801 11th Street, Modesto, California, at 7:30 p.m., on March 9, 1982, at which time evidence both oral and documentary was taken and introduced, and

WHEREAS, after said public hearing, the Council of the City of Modesto found and determined that the requested amendment by Bright Development to rezone Section 12-3-8 of the Zoning Map to rezone the above described property from Low Density Residential Zone, R-1, to Planned Development Zone, P-D(323), should be granted for the reasons set forth below:

1. The McKinney Colony Neighborhood Zoning and Development Plan calls for R-2 density housing in this area.

2. A variety of housing types and densities in each neighborhood is a goal of the General Plan. This parcel is key to meeting that goal in this neighborhood.

3. 286 dwelling units represented net R-2 density on this parcel until the addition of two cul-de-sacs. The 11 units in excess of the R-2 density as a result of adding two-cul-de-sacs will not be a burden to the neighborhood given the design of this project.

and

WHEREAS, at its meeting held on March 16, 1982, the Council has introduced Ordinance No. 2114 -C.S. reclassifying the above-described property from Low Density Residential Zone, R-1, to Planned Development Zone, P-D(323), and

The appeal filed by Bright Development to the decision of the Planning Commission denying an amendment to Section 12-3-8 of the Zoning Map to rezone from Low Density Residential Zone, R-1, to Planned Development Zone, P-D(323) is granted for the reasons set forth above, and the decision of the Planning Commission denying said rezoning is hereby overruled.

SECTION 2. DEVELOPMENT PLAN. The development plan for Planned Development Zone, P-D(323) is hereby approved subject to the following conditions:

Background

On October 13, 1981, the City Council directed the Staff to look into the feasibility of encouraging the provision of bicycle parking at commercial locations by utilizing the Non-Motorized Fund to reduce the cost of such facilities. Fifty percent matching funds are available from SAAG's Non-Motorized Fund for bicycle-related projects. This memo explores means whereby an incentive could be provided to merchants and institutions to provide bicycle parking by making available facilities at a reduced cost, utilizing the Non-Motorized Funds.

Under guidelines for use of the Non-Motorized Fund, the City must act as an intermediary. One example is the City's buying the parking equipment and reselling, leasing, or giving it to merchants and institutions who would in turn make them available to the public for bicycle parking.

Why Bicycle Parking?

To the extent that bicycles are used for trips that would otherwise be made by car, there is a public benefit in terms of decreased traffic congestion, reduced use of energy, and reduced air pollution. Parking is an often-overlooked part of the total cycling system. Just as with autos, lack of adequate (quantity or quality) parking can be a powerful disincentive to use. While parking for cars at both home and destination has been a requirement for many years, parking for bicycles has suffered benign neglect. While needs exist, they are mainly unspoken for and solutions require large amounts of staff time. However this report suggests one means by which added parking might be made available.

Elements of a Bike Parking Program

The following elements would be necessary to the program:

1. A department that would be responsible. It is suggested that the Department of Planning and Community Development take the lead on this project as an adjunct to the Urban Trails Plan. (Planning and Community Development)

2. City purchase of materials. This program might take one or two forms; bulk purchase of a stock of racks or other facilities, or individual purchase to specifications of the individual merchant/user. The former has the advantage of reduced price through volume purchase and relatively little staff time in purchasing, and the disadvantages that the City must put up a sum of money at the outset to fund the program and very limited flexibility in the type of facilities available to the user. The latter has the disadvantage that more City staff time would be spent on purchasing, costs would probably be higher due to the lower volume, but the

advantage that no "front money" would be required from the City and the user could specify precisely the type of facilities suitable to the user's location. Purchase to the specifications of the user from a limited range of alternatives is recommended. (Finance, Purchasing Division)

3. Preparation of an agreement with the user to be signed at the time of purchase, providing for the user to make the facilities available to the public for at least some specified length of time (say 5 years). (City Attorney)

4. Preparation of guidelines to be distributed with the facilities which would guide and assist the placement of the facilities. It is recommended that such guidelines be advisory. (Planning and Community Development)

5. Purchase arrangements. The City could give, sell outright, or lease the facilities to the user. The Council has directed that City money not be used, which eliminates the "give" alternative. Sales is recommended over lease: the amount of money involved is small and unacceptably high overhead would result from lease arangements. In addition, outright sales would help to decrease the potential for liability problems. (Finance, City Attorney)

6. It is recommended that the program be limited in scope in any one year in order to utilize funds as they are generated in the Non-Motorized Fund. It is suggested that the program start with a one-year trial during Fiscal Year 1982-83, to be limited to 20 locations and not more than $4,000 in the aggregate.

7. Promotional program to make users aware of the availability and advantages of inexpensive bike parking facilities. A news release to local news media and an announcement enclosed with business license tax bills would be utilized. (Planning and Community Developement)

Who Would Participate

The intention of the program as envisioned is to encourage utilitarian use of bicycles by placing secured bike parking facilities throughout the community in places where bikes might be ridden. The types of uses where parking is needed include retail stores, certain types of offices, and institutional uses such as churches and organizations like the YMCA, etc. It is recommended that this program be made available to this range of uses.

Summary

The City, through use of the Non-Motorized Fund, has the opportunity to make available more bike parking throughout the City with an expenditure of City staff time but without the expenditure of City funds. A program is proposed to include retail, office, and institutional uses involving City purchases and resale to the user at a 50 percent reduction of bicycle parking facilities as specified by the user. The user would agree to make the facilities available to the public and would be assisted in designing the installation by City guidelines. It is recommended the program be administered by the Department of Planning and Community Development.

GUIDELINES
FOR BICYCLE PARKING INSTALLATION

City of Modesto
Department of Planning and Community Development

Congratulations on your decision to provide secured bicycle parking at your establishment. It is hoped that the following simple suggestions will help you in designing your installation.

1. Accessibility. A rule of thumb here is that bicycle parking should be at least as convenient as the most convenient auto parking.

2. Visibility. Bicycle parking should be in a highly visible location rather than obscure, dark corners to enhance security.

3. Clutter. Be sure your installation does not block entry ways or established walkways.

4. Safety. Conflict between bicycles and pedestrians or bicycles and autos resulting from crossing traffic patterns should be avoided.

5. Public Rights of Way. Like any other parking or improvements, bicycle parking may not protrude into the public right of way (public sidewalks).

AGREEMENT

BICYCLE PARKING FACILITIES

This Agreement is entered into in the City of Modesto, State of California, this _____ day of _____, 1982, by the City of Modesto, a municipal corporation of the State of California, hereinafter called CITY, and _____, hereinafter called USER.

The following recitals guide this Agreement:

A. Whenever bicycles are used for transportation needs that would otherwise be met by the use of automobiles, there is a public benefit that results in terms of decreased traffic and parking congestion, reduced use of energy, and reduced air pollution.

B. Use of bicycles for transportation has been discouraged to some degree by the lack of adequate parking facilities for bicyclists.

C. CITY and USER desire to encourage the use of bicycles as an alternative to automobile transportation by adding to and/or improving the available bicycle parking facilities on USER'S premises, as part of a concerted effort by CITY and retail, office, and institutional users to make available additional bicycle parking facilities throughout the City of Modesto.

THEREFORE, CITY and USER, in consideration of the mutual benefit to be derived from this Agreement, agree to the following:

1. CITY agrees to sell and USER agrees to buy _____ (____) _____ bicycle racks at the price of $_____ each. Payment of this amount shall be made by USER to CITY'S Finance Department.

2. USER shall make arrangements to pick up the bicycle racks purchased from CITY at CITY'S corporation yard, located at 501 N. Jefferson, Modesto, and to transport the bicycle racks to USER'S premises.

3. CITY shall make available to USER guidelines to assist in the placement and utilization of the aforementioned bicycle racks. These guidelines shall be advisory only. USER shall be responsible for the proper installation of the bicycle racks.

4. USER shall utilize the bicycle racks on the premises for a minimum of five (5) years. The bicycle racks shall be available for use to all of USER'S customers, patrons and invitees during USER'S hours of operation.

5. CITY will undertake a promotional program to make the public aware of the availability and advantages of bicycle parking facilities, and of CITY'S efforts to expand such facilities with the cooperation of retail, office and institutional users.

6. USER agrees to indemnify, defend, and hold harmless CITY, its officers, agents and employees, from any and all liabilities, claims, demands, losses, damages or costs, including all costs of defense thereof, arising out of any negligent act or omission of USER or any of its officers, agents or employees, in carrying out the terms of this Agreement.

WHEREAS, Capital Cities has provided financial data to the City of Modesto to justify its requested rate increase, and

WHEREAS, the Council of the City of Modesto, after review and consideration of the financial data submitted by Capital Cities and the report and recommendation by City staff Cable Television Committee, found and determined that a rate increase as requested by Capital Cities is not warranted for the following reasons:

MODESTO CITY COUNCIL
RESOLUTION NO. 82-324

A RESOLUTION GRANTING A VARIANCE TO CHARLES BEDOIAN TO PERMIT A CARPORT COVER WITH LESS THAN A 20 FOOT FRONT SETBACK AT 1333 FORDHAM AVENUE IN THE CITY OF MODESTO AND OVERRULING THE DECISION OF THE BOARD OF ZONING ADJUSTMENT.

WHEREAS, an application for a variance from the provision of Section 10-2.504 of the Modesto Municipal Code to permit construction of a carport cover with a 15 foot rather than 20 foot front setback at 1333 Fordham Avenue on the north side of Fordham Avenue west of Tully Road was filed on March 1, 1982, by Richard C. Tatoyan of Zagaris Management Services, Inc. on behalf of Charles Bedoian, and

WHEREAS, Sections 10-2.1904(a) and 10-2.2001 of the Modesto Municipal Code authorize the Board of Zoning Adjustment to grant variances subject to findings specified in Section 10-2.2003, and

WHEREAS, a public hearing was held by the Board of Zoning Adjustment on March 25, 1982, in the City Council Chambers, City Hall, 801 11th Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered, and

WHEREAS, at said public hearing, the Board of Zoning Adjustment, by its Resolution No. 1050, found and determined that the application of Richard C. Tatoyan of Zagaris Management Services, Inc. on behalf of Charles Bedoian for a variance to permit construction of a carport cover with a 15 foot rather than a 20 foot front setback at 1333 Fordham Avenue should be denied because the applicant failed to demonstrate the existence of the four conditions for a variance as required by Section 10-2.2003 of the Municipal Code, and

WHEREAS, an appeal was filed by Richard C. Tatoyan of Zagaris Management Services, Inc. on behalf of Charles Bedoian with the Modesto City Council by a letter dated March 29, 1982, to the decision of the Board of Zoning Adjustment denying a variance from the provision of Section 10-2.504 of the Modesto Municipal Code to permit construction of a carport cover with a 15 foot rather than 20 foot front setback at 1333 Fordham Avenue on the north side of Fordham Avenue west of Tully Road in the City of Modesto, and

WHEREAS, said appeal was set for public hearing before the City Council at its regular meeting place located in the Council Chambers in the City Hall, 801 11th Street, Modesto, California, at 4:00 p.m. on April 20, 1982, at which time evidence both oral and documentary was taken and introduced, including a sketch of the site showing the requested variance, and

WHEREAS, at said hearing the Council found and determined that the appeal filed by Richard C. Tatoyan of Zagaris Management Services, Inc. on behalf of Charles Bedoian to the decision of the Board of Zoning Adjustment denying a variance to permit construction of a carport cover with a 15 foot rather than 20 foot front setback at 1333 Fordham Avenue on the north side of Fordham Avenue west of Tully Road in the City of Modesto should be granted for the following reasons, and that the decision of the Board of Zoning Adjustment should be overruled:

1. There are exceptional or extraordinary circumstances or conditions applicable to the property involved because the existing garage is set back from the street property line sufficiently to allow for cars to park in tandem in front of the garage and yet not interfere with the public right-of-way. The variance is necessary to allow a functional carport in front of the existing garage.

2. Such variance is necessary for the preservation and enjoyment of a substantial property right possessed by other property in the same vicinity and zone and denied to the property in question because many of the neighboring properties have covered parking facilities with less than the required 20 foot setback.

3. The granting of such a variance will not be materially detrimental to the public welfare or injurious to the property or improvements in such vicinity and zone in which the property is located because simply covering the existing parking pattern will not change the present situation which does not interfere with the public's interest.

4. The granting of such variance will not adversely affect the comprehensive general plan.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the appeal of Richard C. Tatoyan of Zagaris Management Services, Inc. on behalf of Charles Bedoian to the decision of the Board of Zoning Adjustment denying a variance from the provision of Section 10-2.504 of the Modesto Municipal Code to permit construction of a carport cover with a 15 foot rather than 20 foot front setback at 1333 Fordham Avenue on the north side of Fordham Avenue west of Tully Road in the City of Modesto is hereby granted, and a variance is hereby granted to Charles Bedoian from the provision of Section 10-2.504 of the Modesto Municipal Code, subject to the following conditions, and the decision of the Board of Zoning Adjustment as set forth in its Resolution No. 1050 is hereby overruled, all for the reasons set forth above:

1. All development shall conform to the plot plan titled "1333 Fordham Avenue", stamped approved by the City Council on April 20, 1982.

2. All landscaping, fences, and walls shall be maintained and the premises shall be kept free of weeds, trash, and other debris.

3. That prior to final inspection of the carport cover, the existing garage door shall be structurally sealed to prohibit it being opened.

4. The applicant shall record a "Notice of Conditions" in the Stanislaus County Recorder's Office on a form available in the Planning and Community Development Department.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 20th day of April, 1982, by Councilmember Bright, who moved its adoption, which motion being duly seconded by Councilmember Siefkin was upon roll call carried and the resolution adopted by the following vote:

WHEREAS, a public hearing was held by the Planning Commission on April 5, 1982, in the City Council Chambers, City Hall, 801 11th Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered, and

WHEREAS, at said hearing, the Planning Commission, by Resolution No. 82-66, found and determined that amendment of P-D(317) was required by public necessity, convenience, and general welfare for the following reasons, subject to certain conditions:

1. Directional signage is an important feature of a facility providing emergency medical services.

2. Since access to the hospital will be only from Florida Avenue, signage is needed to direct all hospital traffic to that street.

MODESTO CITY COUNCIL
RESOLUTION NO. 82-493

A RESOLUTION ADOPTING A POLICY AND PROCEDURE ENTITLED, "SPECIAL ASSESSMENT DISTRICT FINANCING".

WHEREAS, the City Council of the City of Modesto has received requests for the use of Special Assessment District Bond Financing to finance the public improvement portions of private projects, and

WHEREAS, the Chamber of Commerce has urged the Council to consider allowing Special Assessment District Bond Financing to be used to finance the public improvement portions of private projects, and

WHEREAS, the City staff has reviewed said requests and has proposed a policy and procedure for the use of Special Assessment District Bond Financing to finance the public improvement portions of private projects, and

WHEREAS, the Chamber of Commerce has concurred in the City staff's recommended policy and procedure,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it does hereby adopt the following policy and procedure:

SPECIAL ASSESSMENT DISTRICT FINANCING

The use of special Assessment District Bond Financing (Assessment District) may be of value in meeting certain growth and/or development goals of the City. Private projects considered for this program would, in general, be limited to the following:

1. Industrial development.
2. Projects committing the benefits of Assessment District financing to the construction of housing for low and moderate income families.
3. Special projects, such as downtown revitalization.

Public improvements funded through Assessment Districts would include those improvements in the public rights of way and on public property which are required or needed by the public, i.e., streets, street lighting, etc.

Steps that would be followed in qualifying a project for Assessment District financing are:

1. Submit application.
2. Consideration by Assessment District Review Committee with input from applicant and other interested parties.
3. Report on the project by Assessment District Review Committee to the Public Projects Committee.
4. Review by the Public Projects Committee.
5. Consideration by Council of project and report.
6. If project is approved, the creation of an Assessment District to construct the agreed upon public improvements.

A copy of the proposed application is attached. The applicant would complete the application, taking particular note to provide complete and detailed information on the character and cost of the public improvements, a complete narrative detailing the public purpose/benefit being met by the project and the background and experience of the applicant in sufficient detail to assure the Committee, City Manager, and City Council that the applicant can complete the project. The applicant will have to provide all of the justification for use of Assessment District proceedings, and the report by the Assessment District Review Committee will be based on information submitted by the applicant and not what is assumed to be known by the Committee.

The Assessment District Committee comprised of Department Heads appointed by the City Manager is recommended. The following Committee composition is suggested:

Ross Campbell, Director of Public Works

Pete Brock, Acting Director of Finance

Elwyn L. Johnson, City Attorney

Bill Nichols, Director of Planning and Community Development

The Committee's conclusions and report on each application would be sent to the Public Projects Committee for review before transmittal to the City Council for final determination by the Council.

The following general conditions will apply to a project approved for Assessment District financing:

1. City to have final say over type of Procedure (1911 vs. 1913 Act) and type of Bonds (1911 vs. 1915 Act).

2. City to have right to make all determinations regarding use of reserve funds, foreclosure proceedings, underwriting agreements, sale of bonds, etc.

3. Petitions for starting proceedings should have 100% of all property owners in proposed district, unless City determines that a clearly identifiable benefit to the general public exists, in which case the City could agree to less than 100%.

4. The bond counsel, engineer, financial consultant, trustee, underwriter, etc., selected by the proponents of the proposed district would be subject to approval by the City.

5. The City would have the right to supervise all stages of the entire Assessment District proceedings and to require such changes as it deems appropriate.

6. The City would have the right to require the use of a fiscal agent where appropriate.

7. The City would have the right to require a feasibility study to confirm and firmly establish feasibility of project. The consultant used to make the study shall be approved by City.

8. The size of the project and value of public improvements should be appropriate for Assessment District financing. In general, a project size with public improvement value in excess of $500,000 is the minimum.

9. All parcels to be included in a proposed Assessment District do not have to be contiguous but they must be part of a single project.

10. The proposed improvement costs shall not exceed 50% of a conservative appraisal of the value of the land after the improvements are installed. The appraisal of the land value shall be subject to approval by the City.

11. Assessment District proceedings shall not be used to acquire land for public improvements, which land is required by law or City policy to be dedicated.

12. All City costs, both direct and indirect, shall be charged to the Assessment District.

13. Only public improvements can be included in an Assessment District.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 6th day of July, 1982, by Councilmember Elliott, who moved its adoption, which motion being duly seconded by Councilmember Bright was upon roll call carried and the resolution adopted by the following vote:

CITY OF MODESTO

M E M O R A N D U M

Date: June 23, 1982

TO: City Council

FROM: Public Projects Committee

SUBJECT: Industrial Policy Study

The Public Projects Committee has held a series of five public meetings during May and June to consider the City's industrial policies and formulate recommendations concerning those policies. Attached to this memo are copies of the staff report prepared for this study and meeting notes for each of the meetings held.

The Committee's hearings covered the following topics: the City's existing policies, constraints on industrial expansion, the industrial land supply, and industrial development incentives. The Committee was given the charge of examining one of the types of incentives, industrial revenue bonds, in detail. The Committee's recommendations on each of these matters is included in this memo.

The Committee received substantial public input on each of the topics of discussion. A broad variety of interested citizens participated in this series of meetings.

Based on input at the hearings by the Chamber of Commerce and others, the Committee concludes that the Chamber continues to be the appropriate organization to carry out the effort to attract industry to the local area and that cooperation in this effort by City Council and staff is warranted. The Committee recommends as follows:

1. That the City Council reaffirm their support for the programs of the Chamber of Commerce oriented to attraction of new industrial employers to Modesto; and that the City government cooperate with the Chamber of Commerce in their industrial recruitment efforts.

The Committee was charged with identifying desirable industries to be attracted to Modesto. We find that identification of criteria for judging the desirability of an industry is superior to identifying specific industries since a broad range of industries may meet performance guidelines and thus such guidelines will be more inclusive. Based on our review we suggest that the Land Use and Circulation Elements of the General Plan be updated to reflect such criteria. The Committee recommends the following:

2. That the Council identify the following as guidelines for desirable characteristics of new industry:

   (a) year-round employment or, if seasonal, out of phase with the food processing industry,

(b) clean in environmental terms with low emissions to the air and little discharge to the sanitary sewer system
(c) place relatively low demand on peak electrial power supply
(d) not in a sector of the economy vulnerable to major economic cycles
(e) locally owned or with major management decisions made locally
(f) will utilize locally produced goods and services
(g) expands job opportunities for local displaced or unemployed workers seeking employment

3. That the staff be directed to prepare amendments to the text of the Modesto Urban Area General Plan reflecting the findings of this study.

The topic of incentives for industry received extensive consideration. Types of incentives considered include provision of public services at City rather than developer cost, use of industrial revenue bonds and special assessment district bond financing, property tax abatement, and establishment of a municipal industrial park. Of these, only the bond financing methods were favored by the Committee. There was extensive discussion of industrial revenue bonds, leading to recommendations for criteria.

It is our conclusion that issuance of industrial revenue bonds is an appropriate tool for the City to use to combat the high unemployment rate in this area and to help provide additional services, particularly added beds in health care facilities. Special assessment district bond financing is under separate consideration by the City Council.

It is our feeling that criteria for judging proposals from private companies should be flexible since it is hard to predict the nature of proposals which may be made. Therefore, we have chosen not to distinguish between existing local firms and those wishing to move here, or between industrial versus commercial enterprises.

In order to achieve a public benefit we feel strong criteria are needed in this area. Attached are proposed resolutions establishing criteria for the use of revenue bonds for private industrial enterprises and for health care facilities. The Committee recommends as follows:

4. That the attached criteria for use of revenue bonds be adopted and that ordinances enabling use of the bonds be adopted. The enabling ordinances should have five-year "sunset" provisions.

The Committee and participants had considerable discussion on the topic of availability of industrial sites. We were unable to reach a conclusion and make recommendation on this matter at this time. The Committee plans to hold a field trip and meet as necessary this summer to resolve this matter, and will return to Council with a recommendation following these added meetings.

MODESTO CITY COUNCIL
RESOLUTION NO. 82-499

A RESOLUTION GRANTING THE APPEAL OF GIL WYMOND TO THE DECISION OF THE BOARD OF ZONING ADJUSTMENT WHICH GRANTED A FREE-STANDING SIGN WITH A HEIGHT LIMITATION TO BURGER KING RESTAURANT TO BE LOCATED AT 2056 W. ORANGEBURG AVENUE, AND OVERRULING THE DECISION OF THE BOARD OF ZONING ADJUSTMENT REGARDING THE HEIGHT OF SAID SIGN.

WHEREAS, an application for a conditional use permit in the H-1 Zone for replacement of a vacated Phillips 66 service station with a new Burger King Restaurant with a drive-up-window and for a free-standing sign higher than 35 feet at 2056 W. Orangeburg Avenue on the southwesterly side of W. Orangeburg south of Briggsmore/Carpenter, was filed by Gil Wymond on April 30, 1982, and

WHEREAS, Sections10-2.1904(a) and 10-2.2903 of the Modesto Municipal Code authorize the Board of Zoning Adjustment to grant conditional use permits in the H-1 Zone and Section 10-2.3510(b)(3) specifies the circumstances and limitations under which free-standing tourist oriented signs are permitted, and

WHEREAS, a public hearing was held by the Board of Zoning Adjustment on May 27, 1982, in the City Council Chambers, City Hall, 801 11th Street, Modesto, California on said application, and evidence both oral and documentary was received and considered, and

WHEREAS, at said public hearing, the Board of Zoning Adjustment, by Resolution No. 1064, found and determined that the application for a conditional use permit in the H-1 Zone for replacement of a vacated Phillips 66 service station with a new Burger King Restaurant with a drive-up-window was required by public necessity, convenience, and general welfare,but that the free-standing sign must be limited to 35 feet in height for the following reasons:

1. The proposed new use is permitted in the H-1 Zone subject to securing a Conditional Use Permit from the Board of Zoning Adjustment.

2. The development plan as adjusted assures compatibility with the surrounding commercial development.

3. The requested free-standing sign is proper under the findings of Section 10-2.3510(b)(3)(aa) but cannot be justified over 35 feet in height since it was demonstrated by field observation that additional height was not necessary to clear sight restrictions by freeway ramps or overcrossings,

and

WHEREAS, a conditional use permit in the H-1 Zone for replacement of a vacated service station with a restaurant with drive-up-window and maximum 35-foot high free-standing sign at 2056 W. Orangeburg Avenue was granted by the Board of Zoning Adjustment, subject to the conditions contained in its Resolution No. 1064, and

WHEREAS, an appeal was filed with the City Council on June 7, 1982, by Gil Wymond to the decision of the Board of Zoning Adjustment which granted a free-standing sign with a 35-foot height limitation to the Burger King Restaurant to be located at 2056 W. Orangeburg Avenue, and

WHEREAS, said appeal was set for public hearing before the City Council at 4:00 o'clock p.m. on July 6, 1982, and

WHEREAS, after hearing evidence both oral and documentary, the Council found and determined that the appeal filed by Gil Wymond to the decision of the Board of Zoning Adjustment, which granted a free-standing sign with a 35-foot height limitation at the Burger King Restaurant to be located at 2056 W. Orangeburg Avenue, should be granted allowing the sign to be 50 feet in height, and that the decision of the Board of Zoning Adjustment should be overruled for the following reasons:

1. In field observations of a sign target at a verified 35-foot height, the sign target was obstructed by the Carpenter Road overpass railing and "Do Not Enter" signs facing Carpenter Road at its intersection with the northbound freeway 99 off-ramp.

2. At a 50-foot height, the sign target was not visably obstructed and matched in height other signs in the area, approved under provisions of Section 10-2.3510(b)(3)(22) such as Denny's Restaurant and Super 8 Motel.

3. The Director of Planning and Community Development observed both the unverified 35-foot high sign target for the BZA and the verified 35-foot high sign target for the City Council. He has concluded that, in fact, the BZA sign target was "spotted" much higher than 35 feet,

and

WHEREAS, the City Council, at said Council meeting, reviewed and considered the findings of the City of Modesto Environmental Assessment Committee which resulted in a negative declaration in regard to the environmental impact of the proposed project,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the appeal of Gil Wymond to the decision of the Board of Zoning Adjustment, which granted a free-standing sign with a 35-foot height limitation to Burger King Restaurant to be located at 2056 W. Orangeburg Avenue in the City of Modesto, is hereby granted to allow the sign to be 50 feet in height, and the decision of the Board of Zoning Adjustment regarding the height of said sign as set forth in its Resolution No. 1064, is hereby overruled.

BE IT FURTHER RESOLVED by the Council that the Director of Planning and Community Development of the City of Modesto is hereby directed to file or cause to be filed with the Stanislaus County Clerk a Notice of Determination in regard to the environmental impact of the proposed project.

RESOLUTION NO. 82-513

A RESOLUTION AMENDING SECTION 7.8 RELATING TO RESIDENCE REQUIREMENT, SECTION 11.1 RELATING TO LAYOFF, SECTION 13.1 RELATING TO HOURS OF WORK, SECTION 13.4 RELATING TO VACATIONS, AND SECTION 13.5 RELATING TO SICK LEAVE, OF THE PERSONNEL RULES.

WHEREAS, Section 1202 of Article XII of the Charter of the City of Modesto provides that the Personnel System provided by said Article shall be implemented by such rules and regulations governing the administration thereof as are adopted by the City Council upon recommendation of the City Manager, and

WHEREAS, the City Council has adopted Personnel Rules as authorized by the City Charter, and

WHEREAS, the City Manager has recommended an amendment to Section 7.8 relating to residence requirement, Section 11.1 relating to layoff, section 13.1 relating to hours of work, Section 13.4 relating to vacations, and section 13.5 relating to sick leave, of the Personnel Rules as recommended by the City Manager, and finds that said proposed amendments promote the purposes and objectives of the Personnel System,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto as follows:

SECTION 1. That Section 7.8 of the Personnel Rules be amended to read as follows:

7.8 Residence Requirement

All Fire Department and Police Department personnel working in classifications for which safety membership in the Public Employees' Retirement System is required, shall reside within a radius of fifteen (15) miles from the main fire or police station, except as provided below:

(a) All Police Department personnel shall become bona fide residents within the above-described limits within one (1) year from the date of their employment.

(b) All Fire Department personnel, commencing employment with the City of Modesto on or before June 30, 1983, shall become bona fide residents within the above-described limits within eighteen (18) months from the date of their employment.

(c) All Fire Department personnel, hired on or after July 1, 1983, shall become bona fide residents within the above-described limits within one (1) year from the date of their employment.

(d) On and after their fiftieth (50) birthday, Fire Department personnel shall not be subject to the above-described limits.

(e) The City Manager is authorized to grant exceptions to the above requirements, as to either distance or time, if in his/her judgment, there are extenuating circumstances which warrant such exceptions.

SECTION 2. That Section 11.1 of the Personnel Rules be amended to read as follows:

11.1 Layoff

(a) Reduction in Force - Order of Layoff: When it becomes necessary through lack of work, lack of funds, or for other reasons to reduce the number of employees employed by the City, the Director of Personnel shall be notified and shall prepare a lay-off list by classifications within a department. Within each job classification in each department, employees shall be laid off in the following order of status: (1) temporary, (2) provisional, (3) probationary, (4) regular. The order of layoff shall then be based on the needs of the City, with particular regard for length of service with the City and performance evaluation reports.

(b) Reduction in Force - Demotion: Whenever there is a reduction in work force, the appointing authority shall first demote to a vacancy, if any, in the next lower class for which the employee who is scheduled for layoff meets the minimum employment standards. Employees with the least continuous City service and lowest performance evaluation ratings shall be demoted first. All persons so demoted shall have their names placed on the classification reinstatement eligible list.

(c) Reduction in Force - Bumping: Whenever there is a reduction in work force and there are no vacant positions in a lower class available, the appointing authority shall allow bumping from a higher to a lower classification within a department. An employee may bump into the next lowest class for which he/she meets the minimum employment standards.

(d) Reduction in Force - Layoff: Whenever there is a reduction in the work force and there are no vacant positions available nor any bumping possibilities, the appointing authority shall lay off employees within a department and classification. Employees with the least continuous City service and lowest performance evaluation ratings shall be laid off first. All persons so laid off shall have their names placed on the classification reinstatement eligible list.

(e) Determining Length of Seniority: In determining continuous City service seniority, all uninterrupted employment, including periods of authorized leaves of absence which require a retirement contribution, and including all periods of time served as a full-time CETA (Comprehensive Employment and Training Act) Public Service Employee with the City of Modesto, shall be counted as continuous City service seniority.

(f) Determining Performance Evaluations: In determining which employees have the lowest performance evaluation ratings, employees who have ratings of Unsatisfactory shall be ranked lowest, employees who have ratings of Improvement Needed shall rank second, and employees who have Satisfactory or higher ratings shall be ranked highest. Employees' latest two performance evaluation reports shall be used in making such determinations.

(g) Notice: Any employee scheduled for demotion or layoff shall be given fourteen (14) calendar days' notice in writing by the appointing authority. Said notice shall state the effective date and time of layoff.

(h) Reinstatement of Employees Demoted as a Result of Reduction in Force: Employees who are demoted as a result of reduction in work force shall have their names placed on a classification reinstatement list by classification series, in the order of continuous City service seniority. Vacant positions within a classification series shall first be offered to employees on the classification reinstatement list who meet the minimum employment standards for the vacant position.

(i) Duration of Reinstatement Lists: The eligibility of individuals on the reinstatement lists shall extend for a period of two years from the date of demotion or layoff. Eligibles not responding to written notification of an opening within fourteen (14) calendar days shall have their names removed from the reinstatement list.

(j) Restoration of Benefits Upon Reinstatement Following a Reduction in Force: Upon reinstatement following a reduction in work force, an individual will be entitled to the following benefits:

(1) Prior sick leave accruals (unless he/she elected cash payment at time of layoff in accordance with Personnel Rule 13.4).

(2) Seniority at time of layoff for purposes of determining merit increases, vacation accruals and future reduction in work force.

(3) The salary paid to an employee who is reinstated shall be as nearly as possible equivalent to that which the employee was receiving immediately prior to layoff. If the employee chooses to be reinstated in a classification which has a salary range lower than the classification from which he/she was laid off, the salary placement will be made at a point either equivalent to the salary immediately prior to layoff, or, if the maximum of the salary range of the position to which the employee is to be reinstated is less than the employee's salary immediately prior to layoff, then the employee will receive the maximum of the salary range.

(k) Obligation to Serve Probationary Period: A person appointed from a reinstatement list within six (6) months to the same position he/she held prior to being laid off will obtain permanent status upon being reinstated. All other persons appointed from a reinstatement list must serve a new probationary period in order to obtain permanent status.

(l) Payoff of Accruals Upon Layoff: Employees who are laid off shall be paid for all accrued holidays, vacation and overtime when laid off. The sick leave accruals of such employees will either be paid for in accordance with Personnel Rule 13.4 or will remain on the books and be reinstated upon reinstatement of the employee within two (2) years from the date of layoff. If an employee who elects to have his/her sick leave remain on the books is not reinstated within said two (2) year period, he/she shall then be paid for said accrued sick leave in accordance with Personnel Rule 13.4 at the employee's hourly rate of compensation at the time of layoff.

(m) Retirement Contribution: If an employee has less than five years of service time that is applicable toward retirement, the employee's retirement contributions will be paid to the employee. If the employee has more than five years of service that is applicable toward retirement, the employee may elect to either withdraw his share of the retirement contribution or leave the money in the retirement system. Prior to reinstatement, however, if the retirement funds have been withdrawn, they must either be redeposited in total or appropriate arrangements must be made satisfactory to the Public Employee Retirement System for redepositing those funds.

(n) Non-discrimination in Reduction in Force: Layoffs and demotions which result from a reduction in work force shall be made without regard to an employee's race, color, national origin, religion, sex, age, citizenship, or physical handicap.

(o) Conflicts with Other Provisions: Whenever any provision(s) of this Rule 11.1 conflict(s) with any other provision(s) of these Personnel Rules, the provisions set forth in this Rule 11.1 shall prevail.

SECTION 3. That Section 13.1 of the Personnel Rules be amended to read as follows:

13.1 Hours of Work

(a) All Employees Except Fire Department Personnel. All full-time City employees except designated Fire Department personnel shall, except as otherwise authorized by the City Manager, work a minimum of forty hours a week, normally to be composed of five consecutive days of eight hours each, not including time taken for meals except as noted herein.

The City Manager may designate certain personnel to work a straight eight hour shift and, in these cases, if the nature of the work makes it advisable, he may further direct that time for one meal each full shift may be considered time worked. Employees may be required to report early or to remain after shift for purposes of briefing or instruction, without compensation.

In addition to "on-the-job" training and other training sessions during the normal working shift, employees are encouraged to take such additional training during off-duty time without compensation as is necessary to obtain and maintain high standards of performance, and provide opportunity for advancement within the city service.

The days and hours to be worked by each employee and the type of training shall be established by his/her department head.

(b) All Fire Department Personnel working in a class for which safety membership in the Public Employees' Retirement System is required shall be on duty an average minimum of fifty-six hours a week (eff. 1-1-72), except that:

(1) The Fire Chief and Fire Battalion Chiefs assigned as Fire Marshal, Operations Officer, and Training Officer shall be on duty forty hours per week; and

(2) The Fire Chief, with the approval of the City Manager, may designate for the Fire Lieutenant assigned as property control officer a special work week not to exceed fifty-six hours, nor to be less than forty hours per week.

(3) With the approval of the Fire Chief, the Fire Marshal may establish flexible working hours for the Fire Prevention Bureau, which meets the requirements of the Bureau, provided that eighty (80) hours are worked each pay period.

The regular hours and days of duty shall be established by the Fire Chief.

SECTION 4. That Section 13.4 of the Personnel Rules be amended to read as follows:

13.4 Vacations

(h) In the event of termination of City employment of any person who nas taken vacation leave prior to the time all of said vacation leave is earned, said employee shall be required to make restitution to the City for that portion of said vacation leave taken, but remaining unearned on the date of termination of his/her employment. (i) For the purpose of this section, a year shall be construed to mean the time period beginning the first day of the first full payroll period in a calendar year and ending on the last day of the payroll period immediately preceding the first full payroll period in the following calendar year.

SECTION 5. That Section 13.5 of the Personnel Rules be amended to read as follows:

WHEREAS, said application was set for public hearing before the Planning Commission on June 7, 1982, in the City Council Chambers, City Hall, 801 11th Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered, and

WHEREAS, thereafter the Planning Commission adopted Resolution No. 82-96 denying an amendment to Section 14-3-9 of the Zoning Map to rezone from Low Density Residential Zone, R-1, to Planned Development Zone, P-D, the above described property as requested by the applicant, and

WHEREAS, an appeal was filed by Grant Construction Company with the City Council by a letter dated June 16, 1982, to the decision of the Planning Commission which denied an amendment to Section 14-3-9 of the Zoning Map to rezone from Low Density Residential Zone, R-1, to Planned Development Zone, P-D, to permit single family attached patio homes with R-2 lots on the ends of blocks, property located on the north side of Merle Avenue east of Oakdale Road described above, and

WHEREAS, said appeal was set for public hearing before the City Council at its regular meeting place located in the Council Chambers in the City Hall, 801 11th Street, Modesto, California, at 4:00 p.m., on July 6, 1982, and upon request of the applicant by letter dated June 30, 1982, continued to July 13, 1982, at 7:30 p.m., and

WHEREAS, after said public hearing, the Council of the City of Modesto found and determined that the decision of the Planning Commission should be overruled and the request of Grant Construction Company to amend Section 14-3-9 of the Zoning Map of the City of Modesto to rezone from Low Density Residential Zone, R-1, to Planned Development Zone, P-D, should be granted for the reasons set forth below:

2. The applicant will provide written assurances that the ultimate development of the 40 acre subdivision will comply with the net density limitations specified in the adopted Orchard Neighborhood Zoning and Development Policy for the subject area,

WHEREAS, Chapter 27 of Part 3 of Division 7 of the Streets and Highways Code of the State of California establishes a procedure pursuant to which the construction of curbs, gutters and sidewalks may be required by and performed by the City, and

WHEREAS, periodically the Council of the City of Modesto receives requests from property owners to allow them to pay the cost of the installation of such curbs, gutters and sidewalks in installments over several years, instead of the total cost of such installations becoming a lien in the first year, and

WHEREAS, Section 5895 of the Streets and Highways Code provides that the legislative body shall have the power, in its discretion, to determine that the payment of such assessments of Fifty and no/100ths ($50.00) Dollars or more may be made in annual installments, in any event not to exceed ten (10) and that such deferred payments shall bear interest on the unpaid balance at a rate to be determined by the legislative body, not to exceed seven (7%) percent per annum, said interest to begin to run on the thiry-first (31st) day after the confirmation of the assessments by the legislative body.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby establishes the following policy regarding the spreading of assessments for the cost of installation of curbs, gutters and sidewalks construction:

Such written request must be made no later than the time set for hearing on the confirmation of such costs. RESOLUTION NO. 82-656

A RESOLUTION DENYING THE APPEAL OF RON MORRISON REAL ESTATE ON BEHALF OF ANTHONY FORAKIS, TO THE DECISION OF THE BOARD OF ZONING ADJUSTMENT WHICH DENIED A VARIANCE FROM THE PARKING LIMITATIONS OF THE ZONING REGULATIONS AND WHICH DENIED JOINT USE OF PARKING FOR A "FUNCTION CENTER" AT 144 WOODROW AVENUE IN THE CITY OF MODESTO, AND AFFIRMING THE DECISION OF THE BOARD OF ZONING ADJUSTMENT.

WHEREAS, an application for approval of joint use of parking for a Function Center for wedding receptions, anniversary celebrations, retirement parties, etc., and for a variance from the provisions of Section 10-2.1802 (b) of the Modesto Municipal Code to permit more than fifty percent of the parking requirement for the Function Center to be joint parking, property located at 144 Woodrow Avenue on the south side of Woodrow Avenue west of McHenry, was filed by Anthony Forakis on July 6, 1982, and

WHEREAS, Sections 10-2.1904 (a) and 10-2.2001 of the Modesto Municipal Code authorize the Board of Zoning Adjustment to grant variances subject to findings specified in Section 10-2.2003, and

WHEREAS, Section 10-2.1802 (b) of the Modesto Municipal Code authorizes the Board of Zoning Adjustment to approve the joint use of parking, and

WHEREAS, a public hearing was held by the Board of Zoning Adjustment on July 22, 1982, in the City Council Chambers, City Hall, 801 11th Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered, and

WHEREAS, the Board of Zoning Adjustment by Resolution No. 1072 found and determined that the variance is not necessary and could be materially detrimental to the public welfare in terms of compatibility with the residential area to the west and denied the application for joint use parking and a variance for the reasons set forth in Board of Zoning Adjustment Resolution No. 1072, and

WHEREAS, an appeal was filed by Ron Morrison Real Estate on behalf of Anthony Forakis, to the decision of the Board of Zoning Adjustment which denied a variance from the parking limitations of the Zoning Regulations and which denied joint use of parking for a "Function Center" at 144 Woodrow Avenue in the City of Modesto, and

WHEREAS, said matter was set for public hearing before the City Council at its regular meeting place located in the Council Chambers in the City Hall, 801 11th Street, Modesto, California, at 4:00 p.m. on August 17, 1982, and

WHEREAS, after hearing evidence both oral and documentary at said hearing the Council found and determined that said appeal to the decision of the Board of Zoning Adjustment which denied an application for joint use parking and a variance, property located at 144 Woodrow Avenue on the south side of Woodrow Avenue west of McHenry Avenue, should be denied, and the decision of the Board of Zoning Adjustment affirmed for the following reasons:

1. Parking is already congested in the area of the proposed Function Center.

2. There are insufficient parking spaces available that are suitable to be counted for joint use parking for the proposed Function Center.

3. The variance is not necessary for preservation and enjoyment of a substantial property right possessed by the property in the same vicinity and zone and denied to the property in question. The neighboring properties all fulfill their parking requirements as can the subject property with a less traffic generating use. There remains serious questions as to the overall adequacy of parking were the proposed use established.

4. The granting of the variance thus establishing the proposed use could be materially detrimental to the public welfare in terms of compatibility with the residential area to the west and the potential for noise. The City has experienced similar difficulties with the Modesto Racquet Club and the McHenry Station restaurant just down the street. The proposed use could also be materially detrimental to the public welfare in that the proposed use would likely generate parking problems for commercial properties to the south.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the appeal filed by Ron Morrison Real Estate on behalf of Anthony Forakis to the decision of the Board of Zoning Adjustment which denied a variance from the parking limitations of the Zoning Regulations and which denied joint use of parking for a "Function Center" at 144 Woodrow Avenue in the City of Modesto, is hereby denied for the reasons set forth above, and the decision of the Board of Zoning Adjustment which denied said request for joint use parking and a variance is hereby affirmed.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 17th day of August, 1982, by Councilmember Siefkin, who moved its adoption, which motion being duly seconded by Councilmember Lang, was upon roll call carried and the resolution adopted by the following vote:

WHEREAS, City Council Ordinance No. 1643-C.S., effective October 19, 1977, granted P-D(166) to T.M.I. Corporation to allow construction of a motel-restaurant, a commercial structure and a multiple family residential complex on property located on the east side of Sisk Road northwest of Standiford Avenue, and

WHEREAS, City Council Resolution No. 77-908 has been subsequently amended by Resolution Nos. 79-156, 79-919, 81-147 and 81-722, and

WHEREAS, a verified application for an amendment to the commercial portion of Planned Development Zone, P-D(166) was filed by Gemtel Partnership on June 15, 1982, to allow a new commercial building and parking layout and a freestanding sign on the property located at the easterly corner of Sisk Road and Sullivan Court, and

WHEREAS, a public hearing was held by the Planning Commission on July 19, 1982, in the City Council Chambers, City Hall, 801 11th Street, Modesto, California, and

1. The proposed commercial uses conform to the Pelandale Neighborhood Zoning and Development Plan.

2. The P-D Zone and conditions of approval insure a degree of compatibility consonant with surrounding properties.

and

WHEREAS, at said hearing, after hearing evidence both oral and documentary, the Planning Commission by its Resolution No. 82-117, found and determined that the request for a freestanding sign in the commercial portion of P-D(166) on the property located at the easterly corner of Sisk Road and Sullivan Court was not required by public necessity, convenience and general welfare and denied the request for the following reason:

> The proposed freestanding sign is not necessary considering the generous wall sign treatment allowed. The City has also consistently denied freestanding signs in this vicinity.

and

WHEREAS, the requested amendment to the commercial portion of P-D(166) to allow a new commercial building and parking layout was set for a public hearing before the City Council at its regular meeting place in the Council Chambers in the City Hall, 801 11th Street, Modesto, California, on August 17, 1982, and

WHEREAS, after hearing evidence, both oral and documentary, the Council finds and determines that the requested amendment to the commercial portion of P-D(166) to allow a new commercial building and parking layout on property located at the easterly corner of Sisk Road and Sullivan Court, is required by public necessity, convenience, and general welfare for the reasons set forth in Planning Commission Resolution No. 82-117 and quoted above,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby adopts the following policy for the naming of City parks:

It is the policy of the City Council that City park names be selected as follows:

1. Parks located adjacent to schools be given the same name as the school except the word "street", "road", "lane", "way", etc. be dropped from the name of the park if the park is not on the same street, road, etc. as the school.

2. Names for parks not adjacent to schools will be selected by the City Council from names submitted by the Culture Commission in accordance with a procedure established by the Commission and approved by the Council.

3. An exception to the above procedure would be made when the park has been made possible by a public spirited citizen and the Council determines it appropriate to name the park after the citizen or a name suggested by the citizen.

BE IT FURTHER RESOLVED that the above policy for the naming of City parks supersedes and replaces all policies previously adopted by this Council for the naming of City parks.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 14th day of September, 1982, by Councilmember Elliott, who moved its adoption, which motion being duly

RESOLUTION NO. 82-715

A RESOLUTION DENYING THE APPEAL OF MID-VALLEY ENGINEERING, ON BEHALF OF JAMES LAMATIS, TO THE DECISION OF THE PLANNING COMMISSION GRANTING THE REQUEST OF MODESTO DEVELOPMENT FOR A ONE YEAR TIME EXTENSION TO THE DEVELOPMENT SCHEDULE OF P-D(226). (MODESTO DEVELOPMENT)

WHEREAS, the City Council by Ordinance No. 1827-C.S., effective June 21, 1979, established Planned Development Zone, P-D(226), for a neighborhood shopping center and office complex at the northwest corner of Claus Road and Scenic Drive, and

WHEREAS, City Council Resolution No. 79-445, adopted on May 8, 1979, approved the development plan and schedule for P-D(226), and specified that construction was to be accomplished in two phases, with Phase I, the shopping center, to begin on or before July 1, 1982, and completion to be not later than July 1, 1985; and Phase II, the office complex, to begin on or before April 1, 1983, and completion to be not later than April 1, 1984, and

WHEREAS, Section 10-2.2709 of the Modesto Municipal Code provides that upon request by the property owner and for good cause shown, the Planning Commission may extend P-D zone development schedule time limits, and

WHEREAS, by letter to the Planning Commission dated June 30, 1982, Calvin Moorad, on behalf of Modesto Development, requested a one year time extension to the development schedule of P-D(226), and

WHEREAS, a public hearing on said requested one year time extension was held by the Planning Commission at its regular meeting of August 2, 1982, in the City Council Chambers, City Hall, 801 11th Street, at which meeting, evidence both oral and documentary was received and considered, and

WHEREAS, at said meeting, the Planning Commission, by Resolution No. 82-122, granted the request by Modesto Development for a one year time

extension to the development schedule of P-D(226), for the reasons set forth in said Planning Commission Resolution, and

WHEREAS, pursuant to the provisions of Section 10-2.2709 of the Modesto Municipal Code, an appeal was filed on August 2, 1982 by Mid-Valley Engineering, on behalf of James Lamatis, to the Planning Commission's decision to extend for one year the P-D(226) development schedule time limits, and

WHEREAS, said appeal was set for public hearing before the City Council in the City Council Chambers located in the City Hall, 801 11th Street, in the City of Modesto, on September 7, 1982 at 4:00 p.m., and continued to September 14, 1982 at 7:30 p.m., and

WHEREAS, said Council, after hearing evidence both oral and documentary, found and determined that the appeal of James Lamatis to the decision of the Planning Commission to extend for one year the P-D(226) development schedule time limits should be denied, and the decision of the Planning Commission to grant the one year time extension should be affirmed, for the following reasons:

1. Development of the Claus/Scenic area has been slowed considerably by the economic recession, thereby limiting the market area for the center.

2. Some public improvements have already been installed for this site as part of the applicant's development to the west.

3. The applicant has been developing residential units in the area to build up market support for the shopping center, including residential development in P-D(218) immediately adjacent.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the appeal of James Lamatis to the decision of the Planning Commission granting Modesto Development a one year time extension to the development schedule of P-D(226) is hereby denied for the reasons set forth above.

BE IT FURTHER RESOLVED that the development schedule of P-D(226) shall be as follows:

"That all development shall be accomplished in two phases: Construction of Phase I, the shopping center, to begin on or before July 1, 1983, and completion to be not later than July 1, 1986.

Construction of Phase II, the office complex, to begin on or before April 1, 1984, and completion to be not later than April 1, 1985."

A RESOLUTION DECLARING AN URGENT NECESSITY FOR THE PRESERVATION OF THE PUBLIC HEALTH AND ADJACENT PROPERTIES AND AUTHORIZING THE ISSUANCE OF A PURCHASE ORDER WITHOUT COMPETITIVE BIDDING TO CONCO-WEST, INC. FOR EMERGENCY REPAIRS TO THE CITY OF MODESTO SEWER OUTFALL LINE.

WHEREAS, on Thursday, September 2, 1982, the City of Modesto sewer outfall line which connects the Primary Treatment Plant to the Remote Pond Site started leaking at pipe joints in four locations near Hackett and Vivian Roads causing raw primary effluent sewage to overflow in an adjacent privately owned almond orchard, and

WHEREAS, the raw sewage overflow created an immediate hazard to the public health and danger to adjacent properties that had to be alleviated, and

WHEREAS, it was determined that Conco-West, Inc. had employees and equipment available to assist the City of Modesto's Public Works Department personnel to repair the pipe joints as soon as possible, and

WHEREAS, said repair work had to be performed immediately in order to eliminate the hazard to the public health and to prevent further damage to the adjacent private almond orchard,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby approves the issuance of a purchase order to Conco-West, Inc. for $6,908.69 to cover the cost of the work performed by Conco-West, Inc. in the repair of the pipe joints of the sewer outfall line.

WHEREAS, said application was set for public hearing before the Planning Commission at its regular meeting of August 16, 1982, at its regular meeting place located in the Council Chambers in the City Hall, 801 11th Street, Modesto, California, and

WHEREAS, at said hearing, after hearing evidence both oral and documentary, the Planning Commission, by its Resolution No. 82-125, denied the requested amendment to P-D(214) for the reasons set forth in said Planning Commission Resolution No. 82-125, and

WHEREAS, an appeal was filed with the City Council of the City of Modesto by a letter dated August 18, 1982, from P & W Development to the decision of the Planning Commission denying the requested amendment to P-D(214), and

WHEREAS, said matter was set for public hearing before the City Council at its regular meeting place located in the Council Chambers in the City Hall, 801 11th Street, Modesto, California, at 7:30 p.m. on September 14, 1982, and upon request of applicant by letter dated September 1, 1982, continued to 7:30 p.m. on September 28, 1982, and

WHEREAS, at said meeting, said Council, after hearing evidence both oral and documentary, found and determined that the appeal filed by P & W Development, Inc. to the decision of the Planning Commission denying the requested amendment to P-D(214), should be denied for the following reasons and the decision of the Planning Commission should be affirmed:

1. The revised plans would cause an intrusion of an architecturally incompatible housing type in an established patio home subdivision.

2. Planned Development zoning calls for higher performance than conventional development. A row of manufactured homes, 14-foot wide uniformly set back from the streets in the project will not produce a high performance exterior appearance.

and

WHEREAS, in accordance with the provisions of Section 10-2.2103 of the Modesto Municipal Code, the Council, at its meeting held on September 28, 1982, determined it was appropriate to waive the one year limitation in order that P & W Development, Inc. could submit a new P-D application to the Planning Commission for the property located on the west side of Panama Drive, between California Avenue and Houser Lane, and

WHEREAS, the City Council at said Council meeting reviewed and considered the findings of the City of Modesto Environmental Assessment Committee which resulted in a negative declaration in regard to the environmental impact of the proposed amendment to P-D(214),

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that the appeal filed by P & W Development, Inc. to the decision of the Planning Commission, as set forth in Planning Commission Resolution No. 82-125, denying an amendment to P-D(214), to allow substitution of one-story manufactured homes with standard Low Density Residential, R-1, setbacks for previously approved zero lot line one and two-story patio homes, property located on the west side of Panama Drive between California Avenue and Houser Lane, is denied for the reasons set forth above, and the decision of the Planning Commission denying the requested amendment

is hereby affirmed.

BE IT FURTHER RESOLVED by the Council that the Director of Planning and Community Development of the City of Modesto is hereby directed to file or cause to be filed with the Stanislaus County Clerk a Notice of Determination in regard to the environmental impact of the proposed amendment to P-D(214).

BE IT FURTHER RESOLVED by the Council that it finds and determines that the waiving of the one year limitation to allow a new P-D application for the property located on the west side of Panama Drive, between California Avenue and Houser Lane, will not adversely affect the interest of the general public and that said limiation is hereby waived.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 28th day of September, 1982, by Councilmember Siefkin, who moved its adoption, which motion being duly seconded by Councilmember Elliott, was upon roll call carried and the resolution adopted by the following vote:

WHEREAS, on September 28, 1982, the City Council introduced Ordinance No. 2146 -C.S. giving approval to a project relating to an amendment to Section Map 11-3-8 of the Zoning Map to rezone certain property from Low Density Residential Zone, R-1, to Planned Development Zone, P-D(332), and

WHEREAS, on September 28, 1982, the City Council introduced Ordinance No. 2147 -C.S. giving approval to a project relating to an amendment to Section Map 11-3-8 of the Zoning Map to rezone certain property from Low Density Residential Zone, R-1, to Planned Development Zone, P-D(333), and

WHEREAS, on September 28, 1982, the City Council introduced Ordinance No. 2148 -C.S. giving approval to a project relating to an amendment to Section Maps 2-3-8 and 11-3-8 of the Zoning Map to rezone certain property from Low Density Residential Zone, R-1, to Medium Density Residential Zone, R-2, and to Medium High Residential Zone, R-3, and

WHEREAS, the aforementioned rezonings are parts of the project known as the Village of Westwood, and

WHEREAS, an Environmental Impact Report was prepared on the Village of of Westwood, and

WHEREAS, the City Council certifies that it has received and reviewed the Environmental Impact Report which identified impacts in the areas of storm water drainage, noise, air quality and traffic, and

WHEREAS, the City of Modesto Environmental Review Guidelines require that when an Environmental Impact Report identifies significant effects of a project, specified findings regarding the effects shall be made,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby finds and determines in regard to the potential significant effects identified in the Final Environmental Impact Report as follows:

1. A potential impact from storm water runoff has been identified, particularly with regard to Sisk Road and Freeway 99. Such drainage can be adequately handled through construction of rock wells or percolation basins as required by City of Modesto Standard Specifications. In addition, it may be possible to establish a positive drainage system through use of the MID's Davis-O'Connor Drain subject to technical feasibility and MID concurrence.

2. A potential noise impact on future residential development has been identified, primarily due to the proximity of Freeway 99 and the Southern Pacific railroad tracks. The placement of commercial and office developments along Sisk Road and a portion of Pelandale Road will help to buffer future residential areas from noise due to distance and building mass. Furthermore, enforcement of Article 4 of Title 25 of the California Administrative Code will help insure that interior noise levels in multi-family dwellings are within acceptable ranges.

3. Potential air quality impacts were identified in terms of achieving air quality standards for ozone and CO concentrations. However, the standards can still be achieved and the impact is only one of timing. Support for the tactics in the Air Quality Maintenance Plan is reaffirmed. These tactics should make compliance with the standards possible.

4. Traffic impacts on Standiford at Dale and Sisk were identified. These impacts can be mitigated by increasing the number of lanes on Standiford, Sisk and Dale. Such widening, when necessary, shall be the responsibility of the City and staff is directed to include these projects in the next review of the Capital Improvement Program.

5. Traffic impacts at the Pelandale/Sisk intersection were identified. These impacts can be mitigated through street widening and installation of traffic signals. The necessary street widening can be accomplished through standard street dedication and improvement requirements. The traffic signal, when necessary, shall be the joint responsibility of the City and the project developers, each to pay fifty (50) percent of the cost.

6. Traffic impacts on the Pelandale overpass/interchange were identified. At the intersection of the southbound off-ramp and the overpass the impacts can be mitigated through eventual widening of the off-ramp to two (2) lanes as it nears the overpass and by installation of a traffic signal. The City and project developers shall each pay fifty (50) percent of the widening cost not covered by the State. The City shall be responsible for installation of the traffic signal, when necessary, if not covered by the State.

   At the intersection of the northbound off-ramp and the overpass, and between this intersection and the Pelandale/Sisk intersection, the impacts can be mitigated through eventual addition of travel lanes. The City and project developers shall each pay fifty (50) percent of these widening costs.

   While the traffic consultant's report in the EIR indicates that the overpass itself may eventually need to be widened, his report states that this is not as a result of the project build out and therefore is not an impact of the project which would require mitigation.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the Director of Planning and Community Development of the City of Modesto is hereby directed to file or cause to be filed with the Stanislaus County Clerk a Notice of Determination in regard to the environmental impact of the subject project.

WHEREAS, the City Council, by Ordinance No. 1881-C.S., which was adopted on October 2, 1979, and which became effective on November 15, 1979, amended Section Map 2-3-8 of the Zoning Map to reclassify from Low Density Residential Zone, R-1, to Planned Development Zone, P-D(245), property located at the southeast corner of Pelandale Avenue and Honeycreek Road, and

WHEREAS, the City Council, by Resolution No. 79-1061, approved the development plan for Planned Development Zone, P-D(245) with a development schedule which specified that the construction be in one phase, to begin construction on or before December 31, 1980, and to be completed not later than December 31, 1981, and

WHEREAS, on May 18, 1981, the Planning Commission by Resolution No. 81-122 granted a time extension to the development schedule calling for construction to begin on or before June 1, 1982, and to be completed by June 1, 1984, and

WHEREAS, on August 18, 1982, the Planning Commission by Resolution No. 82-124 set a hearing to review P-D(245) to modify or repeal said P-D(245) since the development schedule had expired and construction had not begun, and

1. The property owner has made a significant investment in architectural and improvement plans and has extended some utility services to the site in anticipation of development.

2. Given the current recession and property owner expenditures, a one-year extension is not an unreasonable request.

RESOLUTION NO. 82-778

A RESOLUTION GRANTING THE APPEAL OF MID-VALLEY ENGINEERING, ON BEHALF OF BRUCE T. MARTIN, FROM THE DECISION OF THE BOARD OF ZONING ADJUSTMENT DENYING A VARIANCE TO PERMIT A GARAGE EXPANSION WITH A DIMINISHED SIDE YARD SETBACK AT 225 OAKSHIRE AVENUE

WHEREAS, an application for a variance from the provisions of Section 10-2.505 of the Modesto Municipal Code to permit an expansion of a detached garage with a 3 1/2 foot sideyard setback at 225 Oakshire Avenue on the west side of Oakshire Avenue between Miller and Haddon Avenues was filed by Bruce T. Martin on September 1, 1982, and

WHEREAS, Sections 10-2.1904(c) and 10-2.2001 of the Modesto Municipal Code authorize the Board of Zoning Adjustment to grant variances subject to findings specified in Section 10-2.2003, and

WHEREAS, a public hearing was held by the Board of Zoning Adjustment on September 23, 1982, in the City Council Chambers, City Hall, 801 - 11th Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered, and

WHEREAS, at said public hearing, the Board of Zoning Adjustment, by its Resolution No. 1077, found and determined that the application of Bruce T. Martin for a variance to permit an expansion of a detached garage with a 3 1/2 foot sideyard setback at 225 Oakshire Avenue should be denied because "there are no exceptional or extraordinary circumstances applicable to this property which can easily accomodate the proposed building addition in conformance with all of the Zoning Regulations. Furthermore, the variance is not necessary for enjoyment of property rights enjoyed by other properties in the surrounding area since field check indicates other similar garages are in conformance with the Code," and

WHEREAS, an appeal was filed by Mid Valley Engineering on behalf of Bruce T. Martin with the Modesto City Council by a letter dated September 24, 1982, to the decision of the Board of Zoning Adjustment denying the requested variance, and

WHEREAS, said appeal was set for public hearing before the City Council at its regular meeting place located in the Council Chambers in the City Hall 801 - 11th Street, Modesto, California at 7:30 p.m. on September 12, 1982, at which time evidence both oral and documentary was presented and considered, and

WHEREAS, the Council found and determined that the appeal of Mid Valley Engineering on behalf of Bruce T. Martin to the decision of the Board of Zoning Adjustment denying the requested variance should be granted for the following reasons, and the decision of the Board of Zoning Adjustment should be overruled:

1. There are exceptional or extraordinary circumstances or conditions applicable to the property involved because of the present location of the existing garage. The variance will allow a reasonable garage expansion without a resultant non-functional 1 1/2 foot affect.

2. Such variance is necessary for the preservation and enjoyment of a substantial property right possessed by other property in the same vicinity and zone and denied to the property in question because other properties in the surrounding area enjoy full use of yard areas without observing current setback requirements.

3. The granting of such variance will not be materially detrimental to the public welfare or injurious to the property or improvements in such vicinity and zone in which the property is located because the proposed garage expansion will be to the rear of the lot, will meet all of the Building Code restrictions, and will have a 3 1/2 foot sideyard setback.

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it does hereby find and determine that the appeal of Mid Valley Engineering on behalf of Bruce T. Martin, from the decision of the Board of Zoning Adjustment denying a variance to permit an expansion of a detached garage with a 3 1/2 foot sideyard setback at 225 Oakshire Avenue on the west side of Oakshire Avenue between Miller and Haddon Avenues should be granted for the reasons set forth above, and that the decision of the Board of Zoning Adjustment denying the variance is hereby overruled.

IX. JUSTIFICATION OF THE PROPOSAL

Please state the reason(s) the proponents have submitted the application, and explain why it should be approved.

1-Our street would be paved, and that would eliminate the puddles of water that forms in the low spots in the street all winter.

2 - We could ask for more street lights.

3- We would have better Police services.

4- We would acquire City Sewerage services instead of the Cess pools we now have.

5- We would have side walks for the children to walk on when going to and from School.

6- Also better garbage and thrash services.

7- Last but not least is the enhancing of our street which is now rather shabby indeed.

RESOLUTION NO. 82-865

A RESOLUTION PROTESTING ACTIONS BY THE STATE DEPARTMENT OF FINANCE AND STATE CONTROLLER'S OFFICE WITHHOLDING STATE SUBVENTION OF MOTOR VEHICLE LICENSE FEES--IN-LIEU TAXES TO CITIES AND COUNTIES.

WHEREAS, Motor Vehicle License Fees--In-Lieu Taxes are collected by the State of California, and

WHEREAS, normally fifty percent of these revenues, less certain State expenses, are distributed monthly to cities and counties according to population, and

WHEREAS, for the 1981-82 and 1982-83 fiscal years, the share of the Motor Vehicle License Fees--In-Lieu Taxes for cities and counties was reduced by the State Legislature, and

WHEREAS, the State Department of Finance has now directed the State Controller's Office to withhold the allocation of all subventions for Motor Vehicle License Fees--In-Lieu Taxes to affected cities and counties until the $264 million dollars diverted for state purposes in fiscal year 1982-83 is collected in its entirety, and

WHEREAS, this means that in fiscal year 1982-83 the great majority of cities and counties will not receive their monthly payments until much later in the year than in previous years, and

WHEREAS, these cities and counties are also being forced to forfeit interest earning income due to the delayed receipt of said revenues, and

WHEREAS, many cities and counties are experiencing serious declines in revenue from other sources and are further troubled with cash flow problems,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it protests, in the strongest possible terms, the action by the State Department of Finance directing the State Controller's Office to withhold all subventions for Motor Vehicle License Fees--In-Lieu Taxes from affected cities and counties until the State has collected the entire $264 million reduction it made in cities' and counties' share

of the fiscal year 1982-83 Motor Vehicle License Fees--In-Lieu Taxes. Said action will impose cash flow problems and loss of interest earning income which will be in addition to the revenue reductions approved by the State Legislature in the actual amounts of Motor Vehicle License Fees--In-Lieu Taxes for cities and counties.

BE IT FURTHER RESOLVED that this Council requests that the appropriate officials of the State of California take immediate steps to insure that the State's share of the Motor Vehicle License Fees--In-Lieu Taxes is withheld incrementally using an equitable pro-rata formula and that reinstatement is made of the regular monthly distribution of this revenue to cities and counties,

Essential Air Service for MODESTO, CALIFORNIA Under section 419 of the Federal Aviation Act of 1978, as amended	Docket 40147

PETITION FOR RECONSIDERATION

By this petition the City of Modesto requests the Board to reconsider its' decision to select Air Chaparral as this Community's essential air service carrier for the Modesto-Los Angeles market. The petitioner bases its request upon the information which follows.

Background

For over 32 years, United Airlines served the Modesto-Los Angeles market with large aircraft. Since 1969, United served this Community with 100 passenger Boeing 737/727 aircraft. In 1978, in anticipation of Congress passing the Deregulation Act of 1978, United discontinued direct service from Modesto to Los Angeles by routing Los Angeles passengers through San Francisco.

This was done even though a recent Air Service Study reflected the need to add more flights to a market that could produce over 100,000 passengers annually.

December 7, 1982

IV. We question the Board's rationale selecting Air Cal over Aspen, as it relates to the subsidy issue because of the unusual circumstances of the market. Nothwithstanding the transitional problems not addressed in the Order, it is also contrary to the Board's study which indicates that "points enplaning 17 - 18 passengers a day could support service without subsidy", but concluded that "25 enplanements standard represents a conservative threshold of entry for unsubsidized third level operations."

The Board's Order did not address the issue that no subsidy-free proposals were received to provide essential air service in a market that enplanes 58 per day. Certainly this suggests that under the Board's own guidelines, unusual circumstances warrant the use of larger aircraft, or that the Modesto-Los Angeles service should be reopened to additional carrier proposals.

V. The Board's Order states that the Metroliner service is being accepted in the market and that 45% load factors are being experienced. However, the Board failed to acknowledge that the subject market produced considerably higher daily enplanements in the past (see attached Exhibit "A"), but because of the use of smaller aircraft, the air traveler has opted to drive to the Bay Area to obtain air service. 1/ The Modesto-San Francisco market has been destroyed by the frequent change of air carriers and the small aircraft that are being used by third level air carriers.

VI. Testimony provided the Modesto City Council at its' meeting on August 23, 1982 by the Director of the Area Six Developmental Disability Board, raised the question of use of the Metroliner Aircraft by the handicapped.

1/ A recent study published by the Bay Area Metropolitan Transportation Commission stated that annually over 125,000 passengers were generated from Stanislaus County to the Bay Area Airports (San Francisco, San Jose and Oakland). Using this years' estimated enplanements of 24,000 people, this means that over 100,000 people are having to drive to the Bay Area to obtain air service.

Lastly, Air Chaparral, according to our latest information, has only two Metroliner III aircraft. For this additional reason, we question that portion of the Board's Order that states that Air Chaparral will use Metroliner III aircraft in the Modesto-Los Angeles market. If enough Metroliner III aircraft cannot carry a full load of passengers and baggage from Modesto to Los Angeles during the summer months during high density altitude operating conditions. The use of Metroliner II aircraft would also be a cause for concern as to whether Air Chaparral could guarantee the minimum 26 seats specified in the Board's Order if every passenger was interlining to a distance point with baggage. Failure to satisfy this guarantee would be contrary to Part 398.4 (a) which states, "All aircraft must be sufficient to accommodate all passengers and accompanying baggage at this point."

III. The Board has always adhered stringently to the maximum seat guarantee normally granted communities in essential air service cases, As a result, with respect to service provided by Air Chaparral, only two frequencies to Los Angeles have been deemed subsidy-eligible. While Air Chaparral promised to provide additional frequencies, there is no permanent assurance that it will be offered. Since the Board will only guarantee two frequencies in the Los Angeles market, conceivably the present 31 daily boardings would be limited to 36 seats in each direction resulting in an 86% load factor.

The Board's Order states that "higher load factors would degrade the quality of service and could seriously inconvenience Modesto's passengers." Therefore the Board should apply the flexibility authorized in Part 398.6 (5) which states that "other unusual circumstances warrant guaranteeing the eligible point more than 120 seats each day."

THE FOLLOWING RESOLUTION WAS ADOPTED:

IN RE: SUPPORTING CITY OF MODESTO PETITION FOR RECONSIDERATION RE ESSENTIAL AIR SERVICE

WHEREAS, as a result of the Civil Aeronautics Board's selection of Air Chaparral over Aspen Airways as the City's essential air service carrier in the Modesto-Los Angeles Market, the City Council, by motion, opposed the decision and has prepared a "Petition for Reconsideration;" and

WHEREAS, the Board of supervisors of the County of Stanislaus, State of California, is familiar with the contents of the "Petition for Reconsideration,"

NOW, THEREFORE, BE IT RESOLVED that the Stanislaus County Board of Supervisors supports the "Petition for Reconsideration" submitted by the City of Modesto and urges reconsideration by the Civil Aeronautics Board.

I hereby certify that the foregoing is a full, true and correct copy of the Original entered in the Minutes of the Board of Supervisors.

There are several distinct disadvantages the smaller aircraft have in comparison to the larger aircraft used by Aspen. The size of the cabin entrance door, the size of the seats and leg room (e.g., certain handicapped persons cannot sit comfortably in the seat of a small aircraft), no restroom facilities (e.g., a handicapped person with a single kidney cannot in many cases be without restroom facilities for over an hour), and the absence of an inflight attendant who could assist handicapped passengers should they need assistance for one reason or another (e.g., emergency evacuation) are among those disadvantages.

Further, testimony by the Director of the Area Six Developmental Disability Board indicates that in general, the use of smaller aircraft "would have a prohibiting effect on the ability of many disabled and elderly persons to use the aircraft."

The Board's Order does not reflect that due consideration was given to the question of "reasonable access" to the National Transportation System for all handicapped air travelers from this Community.

This is so, although Part 382, Section 1, of the Board's Regulations defines the Board's position as it relates to Section 504 of the Rehabilitation Act of 1973, which was designed to eliminate discrimination on the basis of handicap in any program or activity receiving federal financial assistance.

VII. Appendix "B" of the Board's Order under Item 2/, recognizes that a portion of Air Chaparral's revenues are to be derived from air freight operations. Although the Deregulation Act of 1978 did not include air freight as part of a community's essential air service programs, it appears that the Board did consider air freight in making its determination.

2/ Based on 50 percent load factor, $60 Fare, and Freight of $1,000 per month.

Since the Board recognized air freight revenue as an element in making its determination, the City feels that the Board should likewise recognize the cargo capacity of the essential air service carrier and its effects upon the Community.

Exhibit "C" of petition clearly demonstrates the loss of air freight capacity experienced by this Community as a result of the use of small aircraft by our third level carriers. Air Freight capacity by our essential air service carrier has a direct effect on the many large corporations in this Community. Only Aspen Airways' large aircraft (CV-580) has the air freight capacity required by this Community; this is demonstrated by this years' growth in activity due to Aspen's recent marketing efforts.

CONCLUSION

On the basis of the above considerations, the City of Modesto respectfully requests the Board to reconsider its' Order selecting Air Chaparral to provide this Community's essential air service to Los Angeles until such time as Air Chaparral can obtain large aircraft.

Respectfully submitted,

Peggy Mensinger

Since there was no direct service to Los Angeles, Air Pacific Airlines began service from Modesto to Los Angeles in December of 1979 with 50 passenger De Haviland Dash-7 aircraft. However, shortly thereafter, Air Pacific began experiencing financial difficulties and was purchased by Gem State Airlines, later to become Golden Gate Airlines who continued to serve this market with 50 passenger De Haviland Dash-7 aircraft.

As a result of the Airline Deregulation Act of 1978, United Airlines notified the City in August of 1969 that it planned to terminate all service on October 28, 1979. Because of the inability of Air Pacific or Golden Gate Airlines to provide on time reliable air service, the Board extended United's termination date several times. On March 15, 1980, United Airlines terminated all service at Modesto and Golden Gate was designated as this community's essential air service carrier to the designated hubs of San Francisco and Los Angeles. On August 28, 1981, Golden Gate Airlines terminated air service to the Modesto-Los Angeles market; Swift Aire began service with 29 passenger Nord 262 aircraft on September 1, 1981, but terminated service approximately two weeks later.

In late September of 1981, Aspen Airways, Inc. began service with 50 passenger Convair 580 aircraft in the Modesto-Los Angeles market and has provided reliable large aircraft service to the present. Pursuant to the Board's Order, served on the City of Modesto on November 24, 1982, Air Chaparral was designated as the community's essential air service carrier to the Modesto-Los Angeles market. This will be the sixth airline designated to serve Los Angeles in less than three years in a market never served by small aircraft.

The City of Modesto respectfully requests that the Civil Aeronautics Board reconsider its' Order, for the following reasons:

I. The Board's Order did not respond specifically to the concern that was expressed by the City in the letter to Chairman McKinnon from Mayor Peggy Mensinger dated September 29, 1982, regarding the number of carriers (six) that has operated in the Modesto-Los Angeles market the past three years. We submit that the Board could have appropriately recognized the abrupt and significant reduction in Modesto's air carrier service as an "unusual circumstance", as it is authorized to do in Part 398.6 (5) of the "Guidelines for Individual Determinations for Essential Transportation."

Additionally, there have been unusual circumstances associated with the determination made in the Board's Order, namely, Pacific Express' entry into the market at Stockton causing Aspen to petition the Board for reconsideration of subsidy.

II. We question the validity of that portion of the Board's Order which states that Air Chaparral will offer the service in newly acquired 18 seat Metroliner III aircraft providing four nonstop round trips daily.

First, the Board's Order makes only two of the proposed flights eligible for subsidy. What guarantee does the City have that Air Chaparral will provide any additional flights beyond the two subsidized flights?

Secondly, if Air Chaparral can only obtain two slots, how will they be required to provide four flights as indicated in the Board's Order? This concern is especially significant in that it is assumed that the Board's decision in choosing Air Chaparral was based upon Air Chaparral providing well-timed flights as required in Part 398.7, which states, "To qualify for essential air service, flights must depart at reasonable times."

RESOLUTION NO. 82-870

A RESOLUTION DENYING THE REZONING OF PLANNED DEVELOPMENT ZONE, P-D(144), AND THE ADJOINING PROFESSIONAL OFFICE ZONES, P-O, TO LOW DENSITY RESIDENTIAL ZONE, R-1, AS RECOMMENDED BY THE PLANNING COMMISSION, AND GRANTING A SIX MONTH EXTENSION OF TIME TO THE DEVELOPMENT SCHEDULE OF P-D(144). (KOUNIAS)

WHEREAS, the City Council, by Ordinance No. 1534-C.S., which was adopted on July 19, 1976, and which became effective on August 18, 1976, amended Section Map 25-3-9 of the Zoning Map of the City of Modesto to prezone to Planned Development Zone, P-D(144), for a neighborhood shopping center and to Professional Office Zone, P-O, property located at the northeast corner of Yosemite Boulevard and Lincoln Avenue, and

WHEREAS, said property was annexed to the City of Modesto on August 19, 1976, and

WHEREAS, three years for start of construction of the shopping center was granted by City Council Resolution No. 76-850 and three subsequent one year extensions were granted by the Planning Commission, and

WHEREAS, the last extension, as granted by Planning Commission Resolution No. 81-224, required that all development be accomplished in one phase, construction to begin on or before September 1, 1982, and completion to be not later than September 1, 1983, and

WHEREAS, the owner of P-D(144) failed to meet the approved development schedule, and

WHEREAS, the adjoining P-O Zones were granted to buffer adjoining uses from the shopping center, and

WHEREAS, the Planning Commission initiated proceedings to review and

either extend the approved development schedule or to rezone P-D(144) and the adjoining P-O Zones to Low Density Residential Zone, R-1, in accordance with Section 10-2.2709 of the Modesto Municipal Code, and

WHEREAS, after a public hearing held on November 1, 1982, in the City Council Chambers, City Hall, 801 11th Street, Modesto, California, it was found and determined by the Planning Commission that the rezoning of P-D(144) and the adjoining P-O Zones to R-1 is required by public necessity, convenience and general welfare for the reasons set forth in Planning Commission Resolution No. 82-171, and

WHEREAS, by Resolution No. 82-171, adopted on November 1, 1982, the Planning Commission recommended to the City Council that Section Map 25-3-9 of the Zoning Map of the City of Modesto be amended to rezone P-D(144) and the adjoining P-O Zones to R-1, and

WHEREAS, said matter was set for public hearing before the Council of the City of Modesto in the Council Chambers, City Hall, 801 11th Street, in the City of Modesto, at 4:00 p.m. on December 7, 1982, at which time evidence, both oral and documentary, was taken and introduced, and

WHEREAS, the City Council certifies it has reviewed and considered the findings of the City of Modesto Environmental Assessment Committee which resulted in a negative declaration in regard to the environmental impact of the proposed rezoning,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that after a public hearing held on December 7, 1982, said Council finds and determines that the recommended rezoning of Planned Development Zone, P-D(144), and the adjoining Professional Office Zones, P-O, to Low Density Residential Zone, R-1, is not required by public necessity, convenience and general

welfare and that a 6 months extension of the development schedule of P-D(144) should be granted, all for the following reasons:

1. P-D(144) should not be rezoned to R-1 and a 6 months extension of the development schedule of P-D(144) should be granted because the applicant plans to file an application for H-1 zoning for this parcel and rezoning from P-D(144) to H-1 will enable a transition to be made from one commercial zone to another, without an interim residential zone designation.

2. The P-O zone on Yosemite Boulevard should not be rezoned to R-1 because the applicant plans to file an application for H-1 zoning for this parcel and rezoning from P-O to H-1 will enable a transition to be made from an office zone to a commercial zone without an interim residential zone designation.

3. The P-O zone on Lincoln Avenue should not be rezoned to R-1 at this time because the applicant plans to file for H-1 zoning designations on other parcels at this intersection and P-O zoning on this parcel may remain an appropriate zone designation.

BE IT FURTHER RESOLVED by the Council of the City of Modesto that the rezoning of Planned Development Zone, P-D(144), and the adjoining Professional Office Zones, P-O, to Low Density Residential Zone, R-1, as initiated and recommended by the Planning Commission is hereby denied for the reasons set forth above.

BE IT FURTHER RESOLVED that for the reasons set forth above, the Council hereby grants a six month time extension to the development schedule of P-D(144) to read as follows:

> That all development shall be accomplished in one phase, construction to begin on or before March 1, 1983, and completion to be not later than March 1, 1984.

BE IT FURTHER RESOLVED that the Director of Planning and Community Development of the City of Modesto is hereby directed to file with the Stanislaus County Clerk a Notice of Determination in regard to the environmental impact of the proposed rezoning.

MODESTO CITY COUNCIL
RESOLUTION NO. 82-903

A RESOLUTION GRANTING IN PART AND DENYING IN PART THE APPEAL FILED BY DON C. SUTTON ON BEHALF OF RAY RENFRO TO A DECISION OF THE BOARD OF ZONING ADJUSTMENT WHICH DENIED A VARIANCE FOR A FOUR-FOOT REDUCTION FROM THE FIVE-FOOT SIDEYARD TO ALLOW RETENTION OF A PARTIALLY ENCLOSED SPA AT 3808 GIL COURT.

WHEREAS, an application for a variance from the provisions of Section 10-2.505 of the Modesto Municipal Code for a four-foot reduction of a required five-foot sideyard to allow retention of a partially enclosed spa at 3808 Gil Court was filed by Ray Renfro on September 10, 1982, on the following described real property:

Lot 7, Block 13631, City of Modesto

and

WHEREAS, Sections 10-2.1904(a) and 10-2.2001 of the Modesto Municipal Code authorize the Board of Zoning Adjustment to grant variances subject to findings specified in Section 10-2.2003, and

WHEREAS, a public hearing was held by the Board of Zoning Adjustment on October 28, 1982, in the City Council Chambers, City Hall, 801 11th Street, Modesto, California, at which hearing evidence both oral and documentary was received and considered, and

WHEREAS, after holding said public hearing the Board of Zoning Adjustment adopted Resolution No. 1082 on October 28, 1982, denying a variance to Ray Renfro for a four-foot reduction from the five-foot sideyard to allow retention of a partially enclosed spa at 3808 Gil Court because the Board of Zoning Adjustment found that there were no exceptional nor extraordinary circumstances applicable to the property as it is a new development in a new subdivision, all developed under current code, and that the requested variance was not

necessary for the preservation of a substantial property right enjoyed by neighboring property owners in that they have not been allowed to construct into the required setbacks, and

WHEREAS, an appeal to the decision of the Board of Zoning Adjustment was filed with the City Council of the City of Modesto by Don C. Sutton on behalf of Ray Renfro, by a letter dated November 4, 1982, and

WHEREAS, said appeal was set for public hearing before the City Council of the City of Modesto in the Council Chambers, City Hall, 801 11th Street, Modesto, California, at 4:00 p.m. on December 7, 1982, and thereafter continued to 4:00 p.m. on December 21, 1982, and

WHEREAS, said hearing was held at 4:00 p.m. on December 21, 1982, and evidence, both oral and documentary, was presented and considered, and

WHEREAS, after said public hearing the City Council of the City of Modesto found and determined that the appeal to the decision of the Board of Zoning Adjustment which denied a variance for a four-foot reduction from the five-foot sideyard to allow retention of a partially enclosed spa at 3808 Gil Court should be granted in part and denied in part and that the decision of the Board of Zoning Adjustment should be affirmed in part and overruled in part,

NOW, THEREFORE, BE IT RESOLVED by the Council of the City of Modesto that it hereby finds and determines as follows:

1. There are exceptional or extraordinary circumstances or conditions applicable to the in-ground portion of the spa in that the City's interpretation of the Code provisions regarding the location of in-ground pools and spas in side yard areas has not been consistent.

2. There are no exceptional or extraordinary circumstances or conditions applicable to the above-ground portion of the spa because the property is in a new development in a new subdivision, all developed under current code.

3. There is a necessity for the preservation and enjoyment of a substantial property right possessed by other property in the same vicinity and zone and denied to the property in question for the in-ground portion of the spa in that the City's interpretation of the Code provisions regarding the location of in-ground pools and spas has allowed some in-ground pools and spas in side yard areas.

4. There is no necessity for the preservation and enjoyment of a substantial property right possessed by other property in the same vicinity and zone and denied to the property in question for the above-ground portion of the spa because other property owners have not been allowed to construct such facilities in side yards.

5. The granting of a variance for the in-ground portion of the spa will not be materially detrimental to the public welfare or injurious to the property or improvements in the vicinity and zone because the spa is fenced and not visible or accessible to the general public.

6. The granting of a variance for the in-ground portion of the spa will not adversely affect the General Plan.

BE IT FURTHER RESOLVED that the appeal to the decision of the Board of Zoning Adjustment which denied a variance for a four-foot reduction from the five-foot sideyard for the in-ground portion of a partially enclosed spa at 3808 Gil Court is hereby granted for the reasons set forth above and subject

to the following conditions:

1. All development shall conform to the plot plan titled "Ray Renfro, 3808 Gil Court, Modesto" as amended in red, stamped approved by the City Council on December 21, 1982.

2. The applicant shall record a "Notice of Conditions" in the Stanislaus County Recorder's Office on a form available in the Planning and Community Development Department.

BE IT FURTHER RESOLVED by the Council that the appeal to the decision of the Board of Zoning Adjustment which denied a variance for a four-foot reduction from the five-foot sideyard for the above ground portion of a partially enclosed spa at 3808 Gil Court is hereby denied for the reasons set forth above.

BE IT FURTHER RESOLVED by the Council that the decision of the Board of Zoning Adjustment as set forth in its Resolution No. 1082 which denied a variance for a four-foot reduction from the five-foot sideyard for the in-ground portion of a partially enclosed spa at 3808 Gil Court is hereby overruled.

BE IT FURTHER RESOLVED by the Council that the decision of the Board of Zoning Adjustment as set forth in its Resolution No. 1082 which denied a variance for a four-foot reduction from the five-foot sideyard for the above-ground portion of a partially enclosed spa at 3808 Gil Court is hereby affirmed.

BE IT FURTHER RESOLVED that the Chief Building Official is hereby directed to apply the Building Inspection Division's established policies in determining which portions of the spa are considered to be "in-ground" and subject to the variance granted hereby.

The foregoing resolution was introduced at a regular meeting of the Council of the City of Modesto held on the 21st day of December, 1982, by Councilmember Muratore, who moved its adoption, which motion being duly seconded by Councilmember Siefkin, was upon roll call carried and the resolution adopted by the following vote:
