I. BUSINESS
A. Discussion of how the Planning Commission communicates its position on issues.

After introductions, there was a discussion of how the Planning Commission communicates its position on issues. Mr. Muratore said the Planning Commission had two lines of communication -- one through the Planning Director to the City Manager, and the other directly to the Council. Mr. Patterson said when a representative of the Planning Commission is presenting a matter to the Council, he would like to have a resolution or something official rather than just a verbal presentation.

Mrs. Whiteside felt the lines of communication get "blurry" when the Commission is presenting a policy change. She believed policy changes should be directed to the Forward Modesto Committee while they are still meeting. Mr. Patterson felt the City was going ahead with policy changes, such as those that may come from the Infrastructure Committee. Mr. Fleming felt a lot of policy recommendations from the Forward Modesto Committee would have to go to the Planning Commission for study and recommendation. He said the Planning Commission is a resource to the City Council and believes there should be quarterly Council-Planning Commission meetings.

Elwyn Johnson said the Planning Commission members have the same right to contact Councilmembers as any citizens. Mayor Mensinger said there had been some contact from a citizen who was unhappy because there was a policy change initiated by the Planning Commission, and the citizen wasn't aware of any proposed policy change.
Mr. Sutton said he thought the Planning Commission sometimes institutes a new policy before the Council knows anything about it. He mentioned proposed traffic signal fees. Mr. Shaffer thought the Planning Commission's minutes and reports would alert the Council to new policies being discussed by the Planning Commission. Mr. Fleming said he thought the problem was Commission implementation of a new policy that the City Council had not yet approved.

Mr. Patterson said a position paper on a proposed policy on which the Council can take action would be helpful. Mr. Lang said not all the information available to the Planning Commission is available to the Council.

Councilmembers Muratore, Patterson and Sutton agreed that the Mayor could indicate the Council's support or lack of support on a proposed policy. Mrs. Whiteside said it is important for the Council to get the proposed policy change before the Planning Commission proceeds with it.

Mr. Hart expressed concern that sometimes the Councilmembers might think something is a proposed policy when it was only a casual comment by a Commissioner. He was concerned about the statement "gateway to the City." Mrs. Whiteside said a citizen was concerned because the Planning Commission had turned down their application because the Commission wanted a P-D that could be reviewed. She said it appeared that some Commissioners wanted to review through the P-D procedure anything that goes in along the freeway. The Mayor summarized by stating that if the Planning Commission wants to consider a policy change, they should present a position paper to the Council concerning that policy. Dr. Gallagher wondered how the Planning Commission, on a zoning matter, for instance, will know when they are changing policy and when they are being political. Mr. McGrath felt the Planning Commission could determine whether or not they are in the process of making a policy decision.

B. Discussion of staff assistance to the Planning Commission.

Mayor Mensinger reviewed the memo from Assistant City Attorney Yamamoto entitled, "City of Modesto Planning Commission," dated January 27, 1987. Mr. Lipsky reviewed a discussion between Commissioner Shaffer and Doug Carmody concerning traffic signals. Mr. Shaffer said he brought some information back from the League conference concerning signals and took it to Mr. Carmody's office. He said they also briefly discussed the criteria for installing stop signs. Mr. Lipsky said the Planning Director should go to other staff to help him carry out his duties, and, if he doesn't get what he needs, he should go to the City Manager. Mrs. Mensinger said the method of communicating was not a problem, but thought the question was about who directs staff. Mr. Hart said the Planning Commission doesn't feel the Commission should direct staff.

Mr. Nichols said the Commission is working on priorities on implementation of the various items in the Circulation Element. Mr. Fleming said funding is essential for implementation and wondered how the Infrastructure Study Committee's recommendations will dovetail with the Planning Commission recommendations. Mr. Muratore said there will be public hearings on the Infrastructure Committee's recommendations followed by a second opportunity for the public at the City Council.
Mr. Hart suggested a study committee consisting of two Commissioners and two Councilmembers to discuss controversial issues. Mrs. Whiteside agreed that such a committee would be a good idea. Mr. Nichols explained the process of working through a controversial issue such as closing three streets crossing Briggsmore. Mr. Johnson reminded the group that many of the items coming up can't be discussed by a Council-Commission Study Committee without the discussion being part of a public hearing. He also pointed out that the Planning Commissioners are advisers to the City Council and not advocates at City Council public hearings.

D. Discussion of Planning Commission participation in City Council hearings.

It was agreed that this matter would be taken care of through the use of position papers. A representative of the Planning Commission could appear before the Council stating the position or decision of the Commission, but not act as an advocate against the public. Mr. Johnson said it is important for the Planning Commissioner to be very articulate in stating the reasons for making decisions so that their minutes and resolutions will be fully explanatory for the City Council's later study in preparation for its hearing. Mr. Irizarry felt that with discussion and position papers, the problems may not be as big as first thought. Dr. Gallagher said that time is so short, and the Council has so much other information to read, a position paper might not be effective.

E. Discussion of Guidelines for Planning Commission review of the Capital Improvement Program.

Mr. Hart said he thought the Planning Commission develops the C.I.P. and sends it to the City Council. Mr. Johnson explained that the Planning Commission has a right to recommend a C.I.P. to the Council. It was agreed that the process used last year was satisfactory.

F. Clarification of Brown Act restrictions.

Mayor Mensinger said Assemblyman Condit is being asked to submit a bill to clarify the new Brown Act provisions. She said there is a concern about not being able to answer people who raise legitimate concerns during "Matters for the Good of the Community" or "Oral Communications." In answer to Mrs. Whiteside's question, Mr. Johnson said that the Council and all commissions, boards, and committees can set reasonable time limits for people making presentations.

By motion (Whiteside/Lang, unanimous, McGrath and Patterson absent) staff was asked to develop some reasonable guidelines for public presentations to allow the public to speak but not overburden the Council, boards, commissions, and committees. (Attorney to handle)

G. Frequency and scheduling of future joint meetings.

By motion (Lang/Sutton, unanimous, McGrath and Patterson absent) it was agreed that the City Council and Planning Commission would hold quarterly meetings. It was suggested that the next agenda contain more policy matters and less on procedures.

ADJOURNMENT

(The meeting adjourned at 10:12 p.m. to Monday, March 30, 1987, at 7:30 p.m. in the McHenry Museum basement meeting room at 1402 I Street, for a joint City Council-Planning Commission meeting to study the proposed Circulation Element and discuss the County’s General Plan.)

ATTEST:  
NORRINE COYLE, City Clerk
The Council of the City of Modesto met pursuant to adjournment and the Planning Commission of the City of Modesto met pursuant to the special meeting notice at 7:30 p.m. in the McHenry Museum Basement Meeting Room.

Present:
Councilmembers Lang, McGrath, Muratore, Patterson, Whiteside,
Mayor Mensinger
Commissioners Bavaro, Davis, Fleming, Gallagher, Irizarry, Shaffer,
Chairperson Hart

Absent:
Councilmember Sutton
Commissioner Gallagher

Mayor Mensinger called the meeting to order, and she and Chairman Hart discussed the purpose of the meeting.

Heidi McNally-Dial reviewed Listing No. 1 of the proposed Circulation Element Implementation Strategies.

In answer to Councilmember Patterson, Chairman Hart said the implementation strategies recommended were written in an attempt to not conflict with the Infrastructure Committee recommendations. Commissioner Fleming said the recommendations were an effort to mitigate present problems.

To answer Councilmember Whiteside's question, Chairman Hart said no specific consultants are recommended, but a civil engineer is recommended for specific projects because of the assumption that the City staff would not have the time to do the work.

Concerning changing multiple street names, the priority was established based on what appeared to be easiest.

The Airport Master Plan was recommended before 1991-92 because a hotel and restaurant project is needed in order to qualify for F.A.A. funds.

The consensus of the Commissioners was that the Traffic Improvements items are listed in priority order. Councilmember Whiteside and Chairperson Hart said the signals on Briggsmore need to be synchronized before any streets are closed.

There was a discussion of various methods of funding new construction of streets and highways and of the possibility of changing the location of future sewer trunks in order to possibly mitigate some traffic problems. Chairperson Hart said the reason they chose Pelandale for the recommended expressway loop
Chairman Hart said that CalTrans would make a comment only about the proposed interchange at Woodland Avenue which is why it was the only item under "Freeway 99 Improvements" to have timing recommendations.

Councilmember Whiteside said she had heard at a S.A.A.G. meeting that counties that have a sales tax are able to get help from CalTrans for overpasses. Al Kaufman said there are Federal bridge replacement funds, but the City would be required to pay 20% of the cost.

There was a brief discussion of the railroad relocation and construction of the bus maintenance facility.

Circulation Element Implementation Listing No. 2 was then discussed.

Chairman Hart said McHenry Avenue could be restriped to six lanes north of Orangeburg, that CalTrans has no objection to eliminating parking on McHenry Avenue in order to make six lanes, and he thought the Council should do so up to Bowen.

Chairman Hart recommended that the Council discuss the multiple street name change as a policy matter rather than considering each one individually. He also recommended that the three streets recommended for closure at Briggsmore be phased in one at a time.

Stan Dobbs reviewed the County General Plan.

There was a discussion about development now occurring outside the City limits, most without City water and sewer service, problems it could cause in the future, the City's loss of the right to annexation, and the need for all of the cities in the County to work together on the problems. Commissioner Fleming felt that if the County would adopt the City's standards for its "Planning Industrial" zone, there would be less problems for the City in the future. Mayor Mensinger pointed out that E.P.A. could penalize the City for not adhering to agreements made in order to get funds for the water quality control plant expansion. It was pointed out that this matter will be on the City Council agenda on April 7, 1987.

Under "Oral Communications," Daniel Marsh discussed the County's proposed General Plan and the super conductor supercollider.

The meeting adjourned at 9:37 p.m.

Pornography

1. The committee members felt the strongest activity the City Council could engage in would be developing a resolution or a public statement of community standards regarding pornography.

Refer to another agency by Council. (Council is concerned, but cannot legally set community standards. This recommendation will be referred to C.L.E.A.W. to work with the Council on monitoring new legislation and what other cities are doing.)

2. The City Council should establish decency standards for Cable TV in Modesto.

In process. Action already being taken on recommendation. Other action required. (A letter should be sent to the local Cable TV manager, with a copy to the parent company, commending him for not showing pornographic movies.)

3. The City Council should initiate zoning ordinances to regulate book stores which sell pornography.

Refer to another Agency by Council. (Refer to C.L.E.A.W.)
4. The City Council should support legislation which restricts the use of obscenity and pornography.

In process. Action already being taken on recommendation. No other action needed at this time.

5. The City Council should support the efforts by organizations which are helping to change these laws, especially C.L.E.A.N. and its national campaign.

No action required. Agree with statement.

Prostitution

1. The Modesto Bee should publish the names of sex partners.

Refer to another agency by Steering Committee.

2. The City Council should support the use of higher bail for those involved in prostitution.

Refer to another agency by Council and by Steering Committee. (Council will write to judges regarding setting higher bail and ask the Committee to contact the judges, also.)

3. The City Council should support legislation to establish stiffer penalties for prostitution and local customers who use these services.

Refer to another agency by Council. (Council will urge the Legislature to do everything possible to discourage prostitution; support any legislation attempting to do so.)

4. The Committee also felt that the law enforcement agencies within the community should continue to be responsive to the complaints of business and the public as they arise relating to prostitution.

No action required. Agree with statement.

Judicial System

1. The City Council should actively participate in a long-range planning process, for the building of a governmental center.

Refer to another agency by Steering Committee (Steering Committee talk to County.)

2. The City Council should support the County's request to the State for more judges and funding for administrative costs.

Continue to monitor and support State legislation for funding for the judicial system and for more judges.
LIBRARY

Library Services

1. Services at the library should be restored to the 1985-86 level with expansion of services commensurate with growth and demands of the community.

   Refer to another agency by Steering Committee. In process. Action already being taken on recommendation. Other action required. (Some action has been taken, and further study is necessary on library services. The Steering Committee should talk to the County.)

2. Use volunteers under the supervision of library staff.

   Refer to another agency by Steering Committee. (Steering Committee should talk to the County about this recommendation.)

Funding

1. Support state legislation providing financial assistance to counties.

   No action required. Agree with statement. In process. Action already being taken on recommendation. No other action needed at this time. (Council agreed with statement and will support State legislation to fund libraries.)

2. Designate a percentage of any new revenues to the library system.

   Refer to another agency by Steering Committee. (Steering Committee should contact County.)

3. When the debt service on the Community Center bonds is retired in 2015, a portion of the revenues then freed up should be earmarked for library services.

   Not suitable to pursue at this time.

4. Designate a share of new developer fees to the library.

   Refer to another agency by Steering Committee. (Steering Committee might suggest the County institute developer fees for operations expenses.)

5. Consider fee-based services appropriate to a public library.

   Refer to another agency by Steering Committee.

6. If the 1/2 cent sales tax increase becomes a ballot measure and passes, some of this money should be designated to the library.

8. Existing revenues freed up by imposition of a city garden refuse collection fee could be used in part to finance the City library.

   Not suitable to pursue at this time. Agree with the problem, but not with the recommendation.

Creation of an Endowment Fund and a Fundraising Network of Volunteers

1. Increase book sales, adopt-a-book programs, and other participating money raising functions.

2. Use telethons for specific costly projects.

4. Operate a coffee shop on the library premises.

5. Hold an annual gala event as a fundraiser.

   Refer the five above recommendations to another agency by Steering Committee.

There was a general discussion of other items. Patterson asked about the park system in the future, in view of the fees recently imposed. Grogan pointed out that her staff is at the same level as it was in 1980, but that six additional parks have been developed. Funds are needed for operations along with development money. She felt that the land for the Tuolumne River Regional Park should not be sold. It would be extremely costly to repurchase it later, if funds became available. Further development of the park could be delayed.

   In answer to Mensinger's question about study centers, both Lipsky and Grogan believed those functions should be the responsibility of the schools.

   Westenberg said he would be willing to organize a job fair.

   There was a brief discussion of other recommendations for the Councilmembers general information in proceeding with rating. It was decided that the next meeting would be Wednesday, July 15, from 8:30 a.m. to 1:00 p.m.

   The meeting adjourned at 3:15 p.m.
