Our Mission:
*"Our mission is to
construct and maintain
public infrastructure and
operate utility and
transportation systems to
the highest standard of
excellence and
accountability in order to
support a vibrant business
environment and to
enhance the quality of
community life."*

Start Date: December, 2018

**Anticipated
End Date:** July, 2019

Location: Corporation Yard

Project Summary:

Fleet Services is currently divided in two buildings with 2 parts storage locations. This parts room will add the additional parts storage required for the Bus Maintenance Facility shop.

Project Description:

Currently Fleet has operations to maintain its bus fleet in a newly built Bus Maintenance Facility. This is a state of the art facility designed to maintain all of the City Fixed Route and Commuter buses in the City's fleet. All other vehicle parts are stored in another building. This expansion will allow more room for bus parts especially now that electric buses are coming online. There will be a new parts stream for those buses alone.

Benefits:

This grant funded construction of this parts room expansion will allow Fleet Services to work toward better inventory control, as well as centralized parts and tires for our varied bus fleet.

Funding:

Transit State of Good Repair Grant.
