

BUSINESS LICENSE APPORTIONMENT WORKSHEET

BL-2

A taxpayer may reduce total receipts from the operation of business or from work performed in the City by a percentage that represents activities that occur outside the city. If you believe this applies to your business please complete this BL-2 Apportionment worksheet.

Business Name: _____ Account Number: _____

Calculation for Apportionment Factors

Businesses Eligible for Apportionment - Complete the balance of this worksheet

<p>Factor #1 – Point of Sale: What percentage, if any, of total gross receipts were derived from transactions solicited or negotiated outside of Modesto? _____% Use in Calculation</p> <p>Calculation: _____ % x .25 = _____ % transfer to box at right.</p> <p>Example: (50% Modesto; 50% other = 50% x .25= .125 [12.5%]) (This factor can be up to 25% of value of receipts.)</p>	<div style="border: 1px solid black; width: 100%; height: 50px; margin: 0 auto;"></div>
<p>Factor #2 – Location of Responsible Sales Office: What percentage, if any, of total gross receipts were derived from transactions where the responsible sales office was located outside of Modesto or where orders, contracts, etc., were internally directed, controlled, accepted or approved outside of Modesto? _____% Use in Calculation</p> <p>Calculation: _____ % x .15 = _____ % transfer to box at right.</p> <p>Example: (90% Modesto; 10% other = 10% x .15 = .015 [1.5%]) (Location of responsible sales office can be up to 15% of value of receipts.)</p>	<div style="border: 1px solid black; width: 100%; height: 50px; margin: 0 auto;"></div>
<p>Factor #3 – Warehouse Location: What percentage, if any, of total gross receipts are derived from transactions where goods sold are stored in a facility you internally control and operate outside of Modesto immediately prior to shipment or delivery? _____% Use in Calculation</p> <p>*Note: If you are providing a service the answer is "0".</p> <p>Calculation: _____ % x .20 = _____ % transfer to box at right.</p> <p>Example: (67% Modesto; 33% Other = 33% x .20 = .066 [6.6%]) (Warehouse location can be up to 20% of value of receipts.)</p>	<div style="border: 1px solid black; width: 100%; height: 50px; margin: 0 auto;"></div>

Factor
#4 – Service Providers Principal Place of Business: What percentage, if any, of total gross receipts are derived from transactions in which the service providers who actually worked on the transaction maintained their principal place of business outside of Modesto? _____% Use in Calculation
 *Note: If you are a retail business the answer is "0".

Calculation _____ % x .20 = _____ % transfer to box at right.

Example: (75% Modesto; 25% other = 25% x .20 = .05 [5%])
 (Service providers principal place of business can be up to 20% of the value of receipts.)

Factor
#5 – Place Where Goods Were Delivered: What percentage, if any, of total gross receipts are derived from transactions for the sale of goods for which delivery took place outside of Modesto? _____% Use in Calculation
 *Note: If you are providing a service the answers is "0".

Calculation _____ % x .10 = _____ % transfer to box at right.

Example: (67% Modesto; 33% Other = 33% x .10 = .033 [3.3%])
 (Place where goods were delivered can be up to 10% of the value of receipts.)

Factor
#6 – Place Where Service Was Performed: What percentage, if any, of total gross receipts are derived from transactions in which the principal service providers to whom the BL tax applies worked outside of Modesto? _____% Use in Calculation
 * Note: If you are a retail business the answer is "0".

Calculation _____ % x .30 = _____ % transfer to box at right.

Example: (50% Modesto; 50% Other = 50% x .30 = .15 [15%])
 (Place where service was performed can be up to 30% of value of transaction.)

Factor
#7 – Location of Billing Office: What percentage, if any, of total gross receipts are derived from transactions in which billing responsibilities were assigned to personnel based outside of Modesto? _____% Use in Calculation

Calculation _____ % x .05 = _____ % transfer to box at right.

Example: (0% Modesto; 100% other = 100% x .05 = .05 [5%])
 (Location of billing office can be up to 5% of the value of receipts.)

Factor
#8 – Location of Collection Office: What percentage, if any, of total gross receipts are derived from receipts where the taxpayer internally performed its revenue collection activity outside of Modesto? _____% Use in Calculation

Calculation _____ % x .05 = _____ % transfer to box at right.

Example: (20% Modesto; 80% other = 80% x .05 = .04 [4%])
 (Location of collection office can be up to 5% of the value of receipts.)

Total % _____ (A)
 Add all boxes

Figure Mill Tax as Apportioned

Total gross receipts _____ x _____ % (from line [A] above) = \$ _____
 Apportionment adjustment. (Transfer to line 7 on section II of Gross Receipts Form [BL-1])
