Division Endnotes

Mechanical Plumbing Electrical - Minor

This fee includes, but is not limited to, Heating, Venting and Air Conditioning replacements and new systems, plumbing repairs and maintenance, electrical circuitry for new lighting and electrical outlets, service changes and similar projects in residential and small commercial applications. Large commercial systems, such as boilers and advanced mechanical systems, will be assessed at the Mechanical Plumbing Electrical - Commercial/Industrial category.

Minimum Fee Permit

This fee was established to provide the Building Safety Division flexibility in assisting citizens, contractors, designers and developers with code compliance prior to issuance of a project permit and still recover the cost associated with this service. It is a non-refundable fee and includes, but is not limited to, one-stop inspection, code consultation, re-inspection fee and small projects that do not fit in the fee schedule.

Per Hour Charges

At the discretion of the Chief Building Official and/or the Community and Economic Development Director, an hourly charge may be applied to provide additional service not already covered by the original permit. It is a non-refundable fee and includes, but is not limited to, Plan Review for revisions of approved plans, unscheduled or out of sequence inspections, after hours inspections, re-inspections, and exceeding the number of inspections typically allotted for each type of permit.
