

High Efficiency Sprinkler Nozzles Rebate Program and Application

Offer available July 1, 2018 thru June 30, 2019 and subject to fund availability

City of Modesto water customers may be eligible for a rebate when they upgrade from their old conventional spray head sprinklers to the High Efficiency Sprinkler Nozzles. Funding is limited and applications will be accepted on a first come, first served basis. The City of Modesto reserves the right to terminate this program at any time and for any reason.

Customers who install new qualifying High Efficiency Nozzles are eligible for a rebate in the amount of \$2.00 per nozzle for a maximum of 30 nozzles. The rebate amount may not exceed \$60.00 per City of Modesto water account.

High Efficiency Sprinkler Nozzles deliver heavier streams and bigger droplets. The extra weight helps prevent droplets from being carried away by wind, evaporation, runoff, and overspraying. Water is applied at a much slower rate allowing the water more time to soak into the soil and less runoff and waste.
