1. Introduction

1.1. The City of Modesto has been a participating jurisdiction in the Community Development Block Grant (CDBG) Program of the U.S. Department of Housing and Urban Development (HUD) since the program was established by Congress in 1974.

1.1.1. HUD distributes federal CDBG funds to states, counties and urban cities to fulfill the goals of the program to:

   1.1.1.1. Provide decent, safe, and sanitary housing
   1.1.1.2. Provide a suitable living environment, and to
   1.1.1.3. Expand economic opportunities principally for low and moderate-income persons.

1.2. Minimum requirements applicable to any CDBG funded activity are set forth in CDBG Program Regulations 24 CFR 570. CDBG regulations allow for local discretion as to the use and management of the CDBG program. Local community needs, resources, priorities and procedures for managing the CDBG program are approved by the City Council as part of the City's five-year Consolidated Plan (CP) process. In addition, each year the Modesto City Council reviews and considers approval of an Annual Action Plan (AAP) which includes objectives and outcomes, an evaluation of past performance, and activities to be undertaken in the next program year.

1.3. This document is intended to satisfy the requirement for a concise policy and procedures administrative manual in the administration and implementation of CDBG funded activities.

2. Background

2.1. U.S. Department of Housing and Urban Development and Office of Community Planning and Development

   2.1.1. The mission of the U.S. Department of Housing and Urban Development (HUD) is "to create strong, sustainable, inclusive communities and quality, affordable homes for all."

   2.1.2. The HUD Office of Community Planning and Development (CPD) seeks to develop viable communities by promoting integrated approaches that provide decent housing, a suitable living environment, and expanded economic opportunities for low- and moderate-income persons. These goals come out of the mission of HUD to "create strong, sustainable, inclusive communities and quality, affordable homes for all." The primary means towards this end is the development of partnerships between all levels of government and the private sector, including for-profit and non-profit organizations.
2.2. City of Modesto Entitlement Programs

2.2.1. The City of Modesto is a participating jurisdiction in three (3) Community Planning and Development (CPD) entitlement programs:

2.2.1.1. The Community Development Block Grant (CDBG) program supports public services and improvements that benefit low- and moderate-income individuals, families and neighborhoods. Federal regulations governing the CDBG program are in Title 24 of the Code of Federal Regulations Part 570 (24 CFR 570).

2.2.1.2. The Emergency Solutions Grants Program provides funding to (1) engage homeless individuals and families living on the street; (2) improve the number and quality of emergency shelters for homeless individuals and families; (3) help operate these shelters; (4) provide essential services to shelter residents, (5) rapidly re-house homeless individuals and families, and (6) prevent families/individuals from becoming homeless.

2.2.1.3. The HOME Investment Partnership (HOME) program supports affordable access to homeownership and development of affordable rental housing for low- and moderate-income families. Federal regulations governing the HOME program are in Title 24 of the Code of Federal Regulations Part 92 (24 CFR 92).

2.3. Federal Regulations (24 CFR Part 570)

2.3.1. The City of Modesto will follow the regulations governing the CDBG program which are found in Title 24 of the Code of Federal Regulations (CFR) Part 570, Community Development Block Grants.

   2.4.1.5.6. Special economic development activities

2.5. Ineligible Activities (24 CFR 570.207)

2.5.2. Generally, the following types of activities are ineligible:
   2.5.2.1. acquisition, construction, or reconstruction of buildings for the general conduct of government
   2.5.2.2. General government expenses
   2.5.2.3. Political activities
   2.5.2.4. Purchase of equipment

When considering funding activities, the City of Modesto will ensure that each activity must meet one of the following National Objectives for the CDBG program.

2.6.1.1. Benefit low and moderate income individuals, families, or neighborhoods;
2.6.1.2. Prevention or elimination of slums or blight; or
2.6.1.3. Address community development needs having a particular urgency because existing conditions pose a serious and immediate threat to the
2.7. Selecting Activities that Comply

2.7.1. While there are many aspects that must be considered in selecting activities to assist under the CDBG program, there are six (6) key steps that City of Modesto Community Development Division (CDD) staff will take into consideration during the early stages of the process of determining if CDBG funds may be used to assist a proposed activity:

2.7.1.1. Determine if the activity falls within a category of explicitly authorized activities in the CDBG statute. Generally, if an activity does not fall within a category of explicitly authorized activities in the statute, the activity is considered ineligible. HUD’s Guide to National Objectives and Eligible Activities describes all categories of basic eligibility that were authorized at the time of publication:

2.7.1.2. Determine if a proposed activity does not appear to be included in the statute’s list of eligible activities, but there is precedent indicating it has been interpreted as eligible under the statute by the CDBG Eligible Activity regulations.

2.7.1.3. Most importantly, determine if the proposed activity can meet one of the national objectives of the program as outlined in 24 CFR 570.208. If an activity cannot meet one of the national objectives, the activity shall be found to be ineligible.

2.7.1.4. Ensure that carrying out the activity with CDBG funds will not result in the City violating its certification that at least 51 percent of CDBG expenditures will be for activities that are considered to benefit Low/Moderate income persons over the one, two, or three consecutive program years specified by the City of Modesto.

2.7.1.5. Review proposed costs of the activity to determine if they appear to be necessary and reasonable and will otherwise conform with the requirements of the following:
2.7.1.5.1. OMB Circulars A-87, “Cost Principles for State, Local, and Indian Tribal Governments,”
2.7.1.5.2. A-122, “Cost Principles for Non-Profit Organizations,”
2.7.1.5.3. A-21, “Cost Principles for Educational Institutions,”
2.7.1.5.4. 24 CFR Part 84, “Uniform Administrative Requirements for Grants and Agreements With Institutions of Higher Education, Hospitals, and Other Non-Profit Organizations;” or
2.7.1.5.5. 24 CFR Part 85, “Uniform Administrative Requirements for Grants and Cooperative Agreements to State and Local Governments,” as applicable.

2.7.1.6. Complete the environmental review and clearance procedures for the project of which the activity is a part as required by 24 CFR Part 58. Federal law prohibits HUD from releasing funds for a CDBG activity until certification is made with respect to environmental review completion.

3.3.1.7. **Reversion of Assets:** The written agreement will specify that upon its expiration the entity shall transfer to the City of Modesto any CDBG funds on hand at the time of expiration and any accounts receivable attributable to the use of CDBG funds. It will also include provisions designed to ensure that any real property under the entity’s control that was acquired or improved in whole or in part with CDBG funds (including CDBG funds provided to the entity in the form of a loan) in excess of $25,000 is either:

3.3.1.7.1. Used to meet one of the national objectives in §570.208 (formerly §570.901) until five (5) years after expiration of the agreement, or for such longer period of time as determined to be appropriate by the City of Modesto; or

4.2.4. The City of Modesto will estimate program income to include interest paid by borrowers on eligible loans made from the Revolving Loan Fund(s), repaid funds, and recaptured funds incorporating all into the upcoming AAP.

11.14.1.1.1.1. A detailed Scope of Work will identify project milestones, reports, deliverables, and end products that are expected to be provided by the performing party. The Scope of Work will also include a timeline for all deliverables.

11.14.1.1.1.2. An independent cost estimate will be established utilizing local market data and published cost guidelines.

11.14.1.1.1.3. The project manager and supervisor will work with the appropriate parties to develop the independent cost estimate to ensure the cost estimate is reasonable based on local market data.

11.14.2. To comply with cost reasonableness requirements, the City of Modesto will review all requests for payments to ensure that costs are allowable under regulations, approved in the CDBG grant application, allocated to the correct program activity and are reasonable.

11.14.3. A cost is reasonable if, in its nature and amount, it does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision was made to incur the cost.

11.14.3.1. In determining reasonableness of a given cost, consideration shall be given to whether the cost is of a type generally recognized as ordinary and necessary to address the housing condition being considered for repair.

11.14.3.2. A cost analysis of the scope of work items shall be made and documented in the project file. Cost analysis is the review and evaluation of each element of cost to determine reasonableness, allocability, and allowability.

11.14.3.3. Cost analysis may be accomplished in various ways, including the comparison of price quotations submitted, market prices and similar indicia, together with discounts.
11.14.3.4. All change orders will be subject to a cost reasonableness evaluation by the project manager and approval by the HUD Supervisor.

11.14.4. Cost reasonableness shall be determined by comparing the bids received with the cost estimate prepared by the project manager.

11.14.5. Comparable estimates may also be considered, when optimal, for utilization of services that may have limited providers of services (e.g. – a sole source provider) for work to be performed.

11.14.6. The project manager will work to manage project/vendor costs through the most efficient and economically feasible project/vendor contracting model.

12. Contract Monitoring

12.1. The City of Modesto (the recipient) and any entities it enters into contract with must have written policies and procedures to ensure that CDBG, HOME, and ESG funds are used in accordance with HUD requirements and sufficient records to enable HUD, and the recipient to determine whether CDBG, ESG or HOME requirements are being met. [24 CFR 576.500(a)]

12.2. As the lead agency for HUD Entitlement funds, the City of Modesto will monitor all contract types (e.g. Sub-recipient, Developer, Construction/Contractor, collectively referred to as hereafter “Entity”) on a regular basis through written contacts, phone conversations, electronic information transfers, face-to-face monitoring visits (at least once annually), and project file review, pursuant to applicable regulation.

12.3. Monitoring will be conducted to ensure statutory and regulatory requirements are being met and that information submitted to City of Modesto is accurate and complete.

12.4. Monitoring will normally be conducted utilizing a three (3) tiered approach, depending upon the risk involved:

12.4.1. Limited Review

12.4.1.1. A limited review will be conducted of all contracts and projects on an annual basis. The timing of this monitoring will be in alignment with an organization’s submittal of a Quarterly Performance Report and an
Invoice for Payment for expenses incurred against their City grant over the previous 90 days.

12.4.1.2. At least one quarter review will focus on the year-end financial statement or audit, and where applicable, the Single Audit. If the Single Audit contains audit findings or contains a management letter, the contract recipient will be selected for an in depth review. The goal of a Limited Review is to provide clarification to a specific unknown submission that cannot be determined from the reports, and to identify areas of technical assistance needed by each contract recipient.

12.4.2. On-Site Monitoring Review

12.4.2.1. An on-site monitoring review will be a site visit to a contract program assisted with HUD funds and will achieve a balance between programmatic and fiscal reviews, and much documentation review can be done prior to the on-site visit. The on-site monitoring includes a tour of the program facilities as appropriate, an explanation of the services provided, discussions with program and administrative staff, and introduction to one or more actual beneficiaries, if possible. As a result of this visit, staff will determine whether an in-depth review is needed for further clarification of one or more issues identified during the on-site visit.

12.4.2.2. A Program review will focus on the specific contracted program activities. Program staff may be asked to define the strategic plans for the related programs and, as applicable, how those plans are used to help clients in those programs.

12.4.2.3. A Financial review will make the connections between the program budget, expenditures and actual beneficiaries assisted, including evidence of case managers time in client files, reviewing payroll documents for the period clients are reported, determining eligibility of clients based on income documentation in client files, the general relationship between the contents of client files (excluding Attorney Client or HIPAA confidential data) and benefit data reported by the Entity on the same clients.

12.4.2.4. The number of case files to be reviewed will reflect approximately 10% of the total clients served in the program, or more if there appear to be any
systemic issues that need to be addressed.

12.4.2.4.1. Case files selected for review shall be selected randomly directly from contractor’s file storage cabinets or other place of storage.

12.4.2.5. Invoices may be randomly selected for review and traced back from City reimbursement to the original organization’s advance expenditure and client assisted (if appropriate). For example, exact dollars billed for housing accessibility modifications can be traced directly to one client. Conversely, a different review model is required when dollars billed provided case management for multiple homeless individuals. It is expected that staff will review original invoices, cancelled checks, and other such documentation evidencing the expenditure, the relationship to the CDBG program objective, the appropriate proportion of CDBG expenditure in comparison to other funding, and accounting receipt of the federal grant funds.

12.4.3. In-Depth Review

12.4.4. An in-depth review will be a concentrated and focused review around a particular activity or program area. This will typically be a concentrated review of a known high-risk area or critical function, such as but not limited to:

12.4.4.1.1. Financial review for expenditures for ineligible activities,
12.4.4.1.2. Financial review for expenditures that cannot be traced through supporting documentation,
12.4.4.1.3. A program which requires donations as a condition of receiving service,
12.4.4.1.4. Management practices in affordable housing,
12.4.4.1.5. Section 504 and ADA compliance reviews upon receipt of a complaint from a person with disabilities,
12.4.4.1.6. A fair housing complaint from a home seeker treated differently while trying to obtain housing from the Entity,
12.4.4.1.7. Denial of services for no valid reason, or
12.4.4.1.8. Failure to meet prevailing wage requirements in construction activities subject to Davis Bacon, etc.

12.5. Administrative Process for Monitoring

12.5.1. Monitoring will be conducted in two phases. File review will generally confirm compliance with reporting requirements, financial submittals, and contract
provisions and much of it will be completed prior to the onsite visit. On-site reviews will focus more on the beneficiary documentation and services provided, including quantitative performance outcomes to local and federal objectives, and financial processes and documentation only available at the program site.

12.5.2. Staff will use the risk analysis criteria identified in Section 12.4 to determine the type of monitoring approach for each Entity. Upon the arrangement of mutual date and time with the Entity, staff will send letters at least two (2) weeks in advance of the date the monitoring is to be held. The monitoring policies and checklist may be provided to the Entity and the letter may emphasize any specific areas of compliance to be reviewed and how files will be selected for review, as applicable.

12.5.3. At the conclusion of the monitoring visit, staff will send each Entity written documentation of the site visit, summarizing what was reviewed, and indicating any findings of regulatory non-compliance or concerns of program weaknesses. Additionally, staff will provide technical assistance to correct any deficiencies noted, and will acknowledge the performance level of the program, and whether they will either meet or fall short of contract goals.

12.6. Findings, Concerns & Noncompliance

12.6.1. Findings

12.6.1.1. Where an identified deficiency results in a finding of non-compliance with CDBG/ESG rules, the finding will be communicated to the Entity citing the finding/violation, regulatory or statutory requirement not met, and the corrective action with a deadline.

12.6.1.2. The monitoring letter should also provide timelines for response and corrections, as well as actions the City may take if the Entity fails to make corrections in a timely manner.

12.6.2. Concerns

12.6.2.1. Monitoring concerns will be brought to the Entity’s attention. City staff will suggest or recommend actions that the Entity may take to address a concern, based on sound management principles or other guidelines. Corrective actions are not required for concerns; however City staff may offer specific recommendations and/or requests for improvement. Non-responsiveness to these concerns may impact current and future funding
12.6.3. **Actions for Non-Compliance**

12.6.3.1. Entities that are found to be in non-compliance and receive a finding as a result of their monitoring will be provided with technical assistance towards resolution, and actions taken by the City to achieve compliance may include, but not be limited to, withholding further disbursements of CDBG funds until satisfactory compliance with applicable regulations are achieved.

12.6.3.2. City staff will offer technical assistance to Entities when monitoring indicates less than complete compliance with CDBG regulations or contract requirements. Such assistance may include, but is not limited to, providing applicable copies of Office of Management and Budget (OMB) circulars, in particular OMB Circular No. A-122 *Cost Principles for Nonprofit Organizations*. In addition, the latest edition of *Playing by the Rules* guidance for CDBG subrecipients may be provided.

13. **CDBG Timeliness**

13.1. Entitlement jurisdictions that receive CDBG funds, such as the City of Modesto, are required to use CDBG funds in a timely manner. Per 24 CFR 570.902, the HUD standard requires that entitlement jurisdictions not have more than 1.5 of its annual grant in its line of credit 60 days prior to the close of the program year. That date is April 30th for the City of Modesto.

13.2. The penalty for noncompliance may include sanctions, such as the loss of future CDBG funding. As such, CDBG funds are subject to reprogramming by the City if a City Project or sub-recipient activity is no longer feasible and/or there is lack of activity and expenses within the first six months of the date of the allocation.

14. **Playing by the Rules Handbook**
